the prospective superseding translation/metaphorising of the same epistemicity scope’ (arising from superseding human limited-mentation-capacity-deepening as to the prospective ‘exercise of epistemic projective-equalisation of human station of presencing—absolutising-identitive-constitutedness as to prospective nonpresencing-epistemic projective-equalisation’) as so-supersedingly-translating/metaphorising respectively as of prospectively explicited base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. This insight critically explains why ‘we don’t truly grasp the meaning and organic-knowledge of the Socrates, Platos, Galileos, Descartes, Newtons, Diderots, Nietzsches, etc. of the world on the basis of projected mere-formulaicity-as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising of reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation’ (underlying their implicated prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructural—meaningfulness-and-teleology) but rather their true meaning and organic-knowledge as metaphoricity are inscribed in their originariness-parrhesia—as—spontaneity-of-aestheticisation projected prospective human ‘relative-ontological-incompleteness/relative-ontological-completeness ⟨sublimating—referencing/registering/decisioning, as—self-becoming/self-conflatedness /formative—supererogating—projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing, in-perspective—ontological-normalcy/postconvergence⟩ as to human-and-social—expectations/anticipations—methaphoricity—as—re-de-mentating/restructuring/reparadigming—psychologism—aestheticisation—and—aestheticisation-towards-ontology (with regards to social-setups imbued ‘supposed reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation of meaningfulness-and-teleology underlied by language,

What is of central pragmatic contemplative relevance here is that ‘human aestheticisation–and–aestheticisation-towards-ontology is more readily skewed/facilitated with respect to punctual/immediate purposefulness underlying human living-development–as-to-personality-development and institutional-development–as-to-social-function-development’ given human limited-mentation-capacity (as to the given registry-worldview/dimension institutionalisation-threshold in \(^8\) presencing—absolutising-identitive-constitutedness\(^1\) arising as of their less challenging level of ‘psychologismic–apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflicatedness’ implications but notionally as of the very same fundamental dimensionality-of-sublimating–\(<\text{amplituding/formative}>\text{supererogatory-de-}

Such ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ are geared on collectively inducing defaulting ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness–presublimation-construct–of–meaningfulness-and-teleology–desublimating–existentialising–decisionality) that goes on to ‘surreptitiously/subconsciously distract-from/drown/dilute/enframe the possibility for prospective incisive and diligent ontological-veracity sublimation/emancipation analysis of any such underpinning–suprasocial-construct defining catchmenting-by-rejection of value and value-possibilities’ as to the underlying manifestations of \( \text{presencing—absolutising-identitive-constitutedness} \) social-vestedness/normativity-<discretely-implied-functionalism> (as more thoroughly elucidated further above); wherein as ‘supposedly forever-and-ever tried-and-tested ready-to-hand reflex existentialising–decisionality that do not know of human limited-mentation-capacity and thus

In this respect, the possibility of critical pure-ontology is rather underlied as of overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility ~(imbed-and-

apriorising/re-axiomatising/re-referencing—conceptualisation) as to the fact that human ontological-performance’-<including-virtue-as-ontology>/potentiation optimisation/maximalisation rather arises from ‘universal-transparency’-(transparency-of-

Thus beneath any supposedly underpinning–suprasocial-construct (reflected in the modern-day underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist), is a more fundamental ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> notion of supererogatory–progressivity’ (however the ‘shallow-supererogation’ of supererogatory–progressivity’) accounting for the possibility for prospective human social-and-institutional-frameworks-of—referencing/registering/decisioning sublimation/desublimation as in effect creatively permeating all such ‘underpinning–suprasocial-construct of ‘presencing—absolutising-identitive-constitutedness existentialising—entailing’; and so (especially potent when such ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> notion of supererogatory–progressivity’ is manifested as of profound-supererogation’ entailing-

In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing \textsuperscript{56} meaningfulness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resouces and means for ‘a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public
debt’ as such a capitalistic model increasingly developed in later years into a de-
mentative/structural/paradigmatic parasitising renting economic model associated with the 
explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate 
formative supererogatory–progressivity initiatives (as it can now be appreciated that in many 
ways much of the postwar economy arose as of strong public and local governance directed 
investment in public infrastructure, housing and property which supererogatory–progressivity 
in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-
model that thrives upon creating winners and losers as to asset inflation strategy for skewed 
value-extraction). In a critical respect all the creative social supererogatory–progressivity after 
the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from 
the capitalistic model all other social supererogatory–progressivity possibilities are now 
effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with 
respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial 
gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity 
with the supererogatory–progressivity for individual and social creative initiatives construed as 
lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic 
model makes available as supposedly an absolutely determining construct of human 
supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting 
parasitising of social value and value possibilities). This in effect speaks to ‘a renting and 
skewed value-extraction capitalistic colonising of the social capacity for supererogatory–
progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into 
the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a 
globalised framework of totalising-entailing interlocking corporate interests and corporate 
welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of 
runtime financial and economic disaster and/or state political-economy retrogradation for non-
compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-
sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can de-mentatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20\textsuperscript{th} century
international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of supererogatory–progressivity as so-associated with debt servitude and dementative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their
more profound interests in social stability in the very first place which can only arise as from a
basic level of social wellbeing of their populations before even practically utterly appropriating
any such abstract capitalistic model rationale (which in many ways actually served to induce a
skewed logic on the basis of which natural resources exploiting corporations from developed
countries exploit third world natural resources on unfair shallow-supererogation economic
terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing
the requisite political stability for sustained economic progress (with the capitalistic model as to
its self-serving requirement rather warranting the requisite externalities possibilities for its
thriving to be established beforehand). The more abstract rationale here (as to ‘human-
decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation>
omni-potential commensurability with inherent immanent-existence’s sublimation-
structure/omnipotentiality) is to reflect the reality today of underlying human supererogatory-
progressivity as to the incipient reality that human family, communal, clanic and national
communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model
of social organisation (as to the very risk of undermining social organisation as reflected in the
relative prioritisation of national education and basic public facilities in the post-independence
years in many Third world countries) with such a purist conception rather reflected as to
capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-
confliction’ in a rather comprehensively developed framework/mechanism of value-allocation
and value-extraction necessarily underlied notionally by a basic level of
supererogatory-progressivity allow for the ‘delusion/sleight projected about a purist conception
of capitalism’ (serving rather the more veridical and underlying self-serving

Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the modern-day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation’ of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to ‘presencing—absolutising-identitive-constitutedness’, social-vestedness/normativity—<discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from an totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic
framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is preconvergingly–de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’.

Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond any such capitalistic limitative-artifice-of-human-imaginary/metaphysical-conceptualisation as to ‘unbeholding sublimating–nascence ontologising-depth of the full-potency of existence’ existentialising–decisionality). The so-construed notional–deprocrypticism epistemicity conception of predicative-effectivity–sublimation–(as-to-underlying,-ontological-commitment — implied—self-assuredness-of-ontological-good–faith/authenticity — postconverging–de-mentating/structuring/paradigming — as-being-as-of—

Critically, scalarisation analysis operantly implies projecting the implied ‘scaling/scalar of reference’ as from ontological-normalcy/postconvergence epistemic-projection perspective implications of analysis as to the prospective possibilities for ‘human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’. In this regards, it can very much be appreciated that human scalarisation potential (existentially manifestable as of successive rescalarisation as re-ontologisation as to human limited-mentation-capacity-deepening implications) reflects all the sublimation-over-desublimation possibility for the full possibility of human ontological-performance—including-virtue-as-ontology> as can be so-construed as from notional—deprocrypticism prospectively implied originariness/origination (so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence).

But then inevitably human limited-mentation-capacity-deepening implications speaks to conceptivity/epistemic-reflexivity in the sense that (beyond naïve presencing—absolutising-identitive-constitutedness <preconverging—‘motif-and-apriorising/axiomatising/referencing’—imbuing> existenti

In this respect, scalarisation analysis is a projection beyond just a conceptually implied originariness/origination—(so—construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence) but is comprehensively and notionally/epistemically reflective of underlying de-mentative/structural/paradigmatic rescalarisation and descalarisation of human ontological-performance—including-virtue-as-ontology as to human limited-mentation-capacity implications. Such a depth of contemplation as to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\cite{100} effectively reflects a rather more profound conceptualisation of human psychology as to its transcendence-and-sublimity/sublimation/supererogatory–de-mentativity inducing potential as to the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring implications in reflecting holographically＜conjunctively-and-transfusively＞the ontological-contiguity\cite{67}—of-the-human-institutionalisation-process\cite{68} (at the crossroads of prior meaningfulness-and-teleology\cite{100} and prospective metaphoricity) over approaches of relative gimmickiness-of-thought as to our positivism/rational-empiricism presencing—absolutising-identitive-constitutedness\cite{11}预料/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\cite{13} that poorly address human egotistic/self-referential complex in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint and with the corresponding possibility for sophistic/pedantic moral and intellectual disenfranchisement/swindling/corruption/dispossession (as the fact is when it comes to social-stake-contention-or-confliction ‘knowledge-reification\cite{87} tends to be notionally/epistemically

In other words, the notion of ‘the other’ as aetiologisation/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity –<profound-supererogation -of- mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema> for ontologically-veridical virtue transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the ’30s; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity points to ‘a conception emphasising ontology as defining virtue thus ultimately geared towards prospective notional-contiguity/epistemic-contiguity –<profound-supererogation -of-mentally- aestheticised–postconverging/dialectical-thinking –qualia-schema> as of the need for prospective relative-ontological-completeness -of- reference-of-thought’, but failing not because of the said orientation but with regards to the wrong conclusion about Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology misunderstood as implying that it lies with a historical tradition like the Ancient Greece tradition or German Folk tradition rather than lying with an underlying transcendental universal notion construed as ‘going beyond them-and-us logic’ as of the implications of universal human emancipatory potential of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation⟨imbued-postconverging/dialectical-thinking →projective-insights⟩‘epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism–prospective-sublimation⟩, and this fundamentally scuppered his possibility of ‘attaining a conception of prospective notional-contiguity/epistemic-contiguity ←profound-supererogation -of-mentally-aestheticised-postconverging/dialectical-thinking –qualia-schema> as of the need for prospective relative-ontological-completeness -of- reference-of-thought’, rather than an ‘ontologically-flawed idea implying a certain given historical tradition’. Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme ’ as of our <amplitudding/formative–epistemicity>totalising–self-referencing-synergising/circularity/interiorising/akrasiatic-drag > prior relative-ontological-incompleteness of reference-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme ’; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly
aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity as of prospective relative-ontological-completeness of reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. This existential reality about ontological-primeators-totalitative-framework is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation as to perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism—overcoming/unovercoming— inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of ’30s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care—and—episteme’ in ontological-contiguity as of its totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness of reference-of-thought perspective construed-as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing.
virtue from the orientation of prospective notional-contiguity/epistemic-contiguity—qualia-schema> as of prospective relative-ontological-completeness—reference-of-thought, as implicated with the case of Derrida’s spirit insight. Ultimately, the ‘postmodern deprocrypticism—or—preempting—disjointedness—as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ should ontologically nurture the requisite psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective notional-contiguity/epistemic-contiguity—qualia-schema> as of prospective relative-ontological-completeness—reference-of-thought implied as of deprocrypticism—or—preempting—disjointedness—as-of—reference-of-thought as implied by postmodern human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as-the-nondisjointedness/entailment-of-prospective nonpresencing thus inducing the aetiologisation/ontological-escalation addressing/resolving our ‘modern take attitude/mental-disposition/care—and—episteme’ vices-and-impediments. As a further elucidation, prospective notional-contiguity/epistemic-contiguity—qualia-schema> as of prospective relative-ontological-completeness—reference-of-thought actually points out that the uninstitutionalised-threshold is rather a point of de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care—and—episteme over the uninstitutionalised-threshold attitude/mental-disposition/care—and—episteme. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-
but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically-the ontological-contiguity—of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,–as–spontaneity-of-aestheticisation to Descartes thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation perspective whereas Descartes is more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising (as

We thus see why the future redevelopment of Heideggerian misconceived prospective notional-

In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism overcoming/unovercoming (underlying that Descartes’ dimensionality-of-sublimating—{<amplituding/formative>supererogatory—de-mentativenss/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation} as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation in then secondarily inducing his thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the ‘mereness of

Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and postconvergingly–dementating/structuring/paradigming the possibility of elucidation of any subject on this thinking educing sublimation basis’. In effect Descartes project is actually as to existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing as of positivism, and so from the prior presencing—absolutising-identitive-constitutedness of non-positivism/medievalism. The appropriate contemplative perspective for the appreciation of their schema as to de mentative structural paradigmatic disseminative implications is effectively crossgenerational as of the amplitude/breadth of reference of thought implied transcendence and sublimity sublimation supererogatory dementativity; as we can effectively appreciate that the very mathesis universalis schema disseminative metaphoricity engendering our positivism apriorising axiomatising referencing intelligibility setup measuring instrument attitude mental disposition care and episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional discontinuity epistemic discontinuity—shallow supererogation of mentally aestheticised preconverging dementing qualia schema analysis implied as of prospective relative ontological completeness of reference of thought, can be understood simply as of the relation between existence which is already given and human subpotency which as of prospective relative ontological completeness of reference of thought grasp more and more what is of the full potency of existence by way of its axiomatic constructs of existence or of purviews domains of existence, with its grandest axiomatic construct as an epistemic totalising circumscribing delineating construct being the reference of thought. We can grasp
that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology but rather human-subpotency adjusting as to existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness ~of~ reference-of-thought/relative-ontological-completeness ~of~ axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of de-mentation ~(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with regards to the reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and-teleology is an incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation to our already established psychoanalytic disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation in resetting-our-psychoanalytic-disposition/prospective-grounding as of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought in apriorising/axiomatising/referencing ~of-existential-contextualising-contiguity — conflatedness, such that this leads to apriorising/axiomatising/referencing ~of-existential-contextualising-contiguity —constitutedness when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-subpotency. Thus however counterintuitive, this overall conception structures the fact that it is as of de-mentation ~(supererogatory–ontological–de-

Lavoisier laboratory science, to Einsteinian science to modern-day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{87} rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’\textsuperscript{39} knowledge-reification of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existential-contextualising-contiguity\textsuperscript{39}, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation \textsuperscript{39} knowledge-reification of his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{87} that determines science practice, and so in existential apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—confledness\textsuperscript{12}. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such
scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preemtping a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) Such ‘excogitative-blanking of prospective existential-contextualising-contiguity\textsuperscript{39} -in-reification \textsuperscript{1} can be construed as to when say the non-positivistic mindset goes about articulating meaningfulness-and-teleology\textsuperscript{100} falsely as if superstitious notions ontologically-veridical out of prospective positivism existential-contextualising-contiguity\textsuperscript{39} -reification\textsuperscript{37}, and likewise with regards to a positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought mindset construal of meaningfulness-and-teleology\textsuperscript{100} that utterly overlooks the de-mentative/structural/paradigmatic reference-of-thought denaturing\textsuperscript{1} implications of its prospective disjointedness of meaningfulness-and-teleology\textsuperscript{100} out of prospective existential-contextualising-contiguity\textsuperscript{39} -reification\textsuperscript{37}, as such disjointedness-as-of-reference-of-thought can be instigated originally from a postlogism -slantedness mental-disposition and the developing social dynamics with human temporality\textsuperscript{99}. In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposition-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective.  enabling/sublimating/supererogatory–de-mentativity meaningfulness-and-teleology is the fact that the human mind is not necessarily geared to come to terms with prospective relative-
ontological-completeness ‘of- ‘reference-of-thought without the necessary psychoanalytic-
unshackling/prospective-grounding/prospective-reification as of the developed disposition to
register such implications as of their intemporal/longness-of-register-of—meaningfulness-and-teleology\(^{100}\) pertinence; as the notion of crossgenerational de-mentation\(^{14}\) (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying “meaningfulness-and-teleology\(^{100}\). Thus the metaphoricity\(^{22}\) exercise of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is not one of necessarily eliciting instant meaningfulness-and-teleology\(^{100}\) universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework\(^{37}\) for prospective universal positive-opportunism\(^{26}\); as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness—as-to-totalitative-reification\(^{67}\)—in-singularisation<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity\(^{67}\)—of-the-human-institutionalisation-process\(^{68}\)—so-construed-as-singularisation<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism’. Furthermore, the implications of ‘notional-discontiguity/epistemic-discontiguity—with/falling-short-of prospective institutionalisation existential-contextualising-contiguity—in-reification\(^{19}\)’ as of singularisation<as-to-the-

human intemporal-disposition. The basis for this ‘human psychology of positive-opportunism’ as of prior-institutionalisation-reification and uninstitutionalised-threshold-dereification, is the fact that humankind is caught up in intemporal-reification and temporal-dereification as of existential-constraint of ontological-performance-including-virtue-as-ontology given its limited-mentation-capacity; wherein the ‘social-construct uninstitutionalised-threshold’ as of ‘no positive-opportunism’ for prospective institutionalisation’ is a threshold at which there is a dementative/structural/paradigmatic lack of constraining institutionalisation to preempt ‘human temporal social-stake-contention-or-confliction dynamics’ assuming of uninstitutionalised-threshold dereification threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-attendant-intradimensional-prospectively-disontologising-preconverging/dementing-apriorising-psychologism mental-disposition as of ontologically-flawed relation with prospective institutionalisation existential-contextualising-contiguity knowledge-reification amplituding/formative-epistemicity-causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity. In other words, as of existential-constraint of ontological-performance-including-virtue-as-ontology given human limited-mentation-capacity: –at recurrent-utter-uninstitutionalisation, there is ‘no constraining prospective reification’ institutionalisation for rulemaking-over-non-rules—apriorising/axiomatising/referencing-psychologism’, thus allowing for ‘non-rules—apriorising/axiomatising/referencing-psychologism, as impulsive-or-accidented-or-random-mental-disposition, that is not-rulemaking dereification behaviour’ at its prospective recurrent-utter-uninstitutionalisation uninstitutionalisation; –at base-institutionalisation—ununiversalisation, there is ‘no constraining prospective reification’ institutionalisation for universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing-psychologism’, thus allowing for rulemaking—

Consider in this regard, the peregrinations of say a Descartes or Rousseau wherein in many ways they will fail to fulfil the mundane medieval world conception of ‘the supposedly good life’ as of its \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}>\) as they reify\(^{56}\) meaningfulness-and-teleology\(^{10}\) by their peregrinations to construe of the de-mentative/structural/paradigmatic underdevelopment/unenlightenment of their society as in need of prospective positivistic
registry-worldview/dimension denaturing meaningfulness-and-teleology, and implying effectively that they are of lesser intellectual-and-moral dialogical-equivalence<as-to-psychologism-apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflicatedness,-in-self-becoming/self-conflicatedness/formative–supererogating>. This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology that there is and can exist is ontological as of prospective relative-ontological-completeness, such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness-of-reference-of-thought, as so implied from singularisation-projected epistemic-immanence/veridical-epistemic-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology. This points out that as of its very own <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, a registry-worldview/dimension reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness-of-reference-of-thought reification of meaningfulness-and-teleology, as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism–procrypticism as from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness perspective. The fact is no registry-worldview/dimension as of its temporal/shortness-of-register-of–meaningfulness-and-teleology
of value reference as of prior relative-ontological-incompleteness is associated with a fundamental paradox/confusion with regards to sound human intellection at destructuring-threshold\{uninstitutionalised-threshold /presublimating–desublimating-decisionality\}-of-ontological-performance\{including-virtue-as-ontology\}. As this reification /dereification of meaningfulness-and-teleology paradox/confusion has always provided the room for intellectual-and-moral charlatanism throughout human history as of lack of universal-transparency\{transparency-of-totalising-entailing-as-to-entailing- \<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \}. With such charlatanism certainly knowing better but opting for denaturing conceptions of value reference as of \<amplituding/formative> wooden-language\{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology as-of-‘nondescript/ignoreable–void ’-with-regards-to-prospective-apriorising-implications\}\} advancement of temporal interests in stifling the possibility of prospective human intellectual-and-moral emancipation. The idea of ontological-bad-faith/inauthenticity raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor, with the possibility of denaturing as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to ontological-primemovers-totalitative-framework reflection of existential-contextualising-contiguity. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective
institutionalisation, and so as of its dimensionality-of-sublimating induction institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness-of-reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness-of-reference-of-thought; and in due course, by its ontological-primemovers-totalitative-framework constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional–deprocrypticism-prospective-sublimation) potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked
whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness of reference-of-thought with the latter’s \textcolor{red}{\text{amplituding/formative–epistemicity}}\textcolor{black}{\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}}, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of ontological-primemovers-totalitative-framework for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie exsugitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness of reference-of-thought naïve non-transcendental \textcolor{red}{\text{amplituding/formative–epistemicity}}\textcolor{black}{\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}}, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of meaningfulness-and-teleology’. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing
mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation-projected epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance of aposteriorising/logicising/deriving/intelligising/measuring reflecting dereified and reified construals of existential-contextualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance manifestation of psychopathy and social psychopathy which is ‘de-mentatively/structurally/paradigmatically associated with the
denaturing of the \( \text{amplituding/\textit{formative–epistemicity}} \) totalising-devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the \( \text{amplituding/\textit{formative–epistemicity}} \) totalising–self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag \( \text{33} \) backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring \( \text{56} \) meaningfulness-and-teleology \( \text{100} \); with the fundamental implication that there are thus divergent apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of psychopathic induced postlogism \( \text{78} \)-slantedness, and its social cognisance and integration as conjugated-postlogism \( \text{79} \) so-conjugating as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of social psychopathy. In this latter case of contrasted reification \( \text{7} \) and dereification \( \text{7} \) and implying moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-as-psychopathic-and-social-psychopathic mental-dispositions and the intemporal mental-disposition, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-discontiguity’—contrastive-reification \( \text{87} \) -dissemination \( \text{77} \) -and-dereification \( \text{87} \) -dissemination \( \text{27} \) -implications’ construed as the ‘variance/discrepancy of ‘meaningfulness-and-teleology’ as-of-prospective-relative-ontological-completeness \( \text{88} \) -postconverging-or-dialectical-thinking \( \text{20} \)–apriorising-psychologism and as-of-prior-relative-ontological-incompleteness \( \text{87} \) -preconverging-or-dementing –apriorising-psychologism respectively; it is only ontologically-veridical difference-conflatedness \( \text{11} \) -as-to-totalitative-reification \( \text{75} \) -in-singularisation; from the projected ‘notional—singularisation' -\( \text{as-to-the- nondisjointedness/entailment-of-prospective- nonpresencing} \) -as-veridical-epistemic-

This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism–procrypticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procrypticism—or–disjointedness-as-of-reference-of-thought that speaks of our prospective preconverging-or-dementing–apriorising-psychologism at our prospective positivism–procrypticism uninstitutionalised-threshold, and so as reflected from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension prospective relative-ontological-completeness. Interestingly, it should be noted here that with such phenomenon as psychopathy and social psychopathy that is ‘dementatively/structurally/paradigmatically associated with the denaturing of the apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument’ as of our
veridicality, likewise more fundamental in undermining the elucidation of the manifestation of psychopathy and social psychopathy is the fact of an ordinariness wooden-language-{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-'nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications—}\ reflex mental state and attitude/mental-disposition/care—and—episteme in our positivism—procrypticism that will be resistant to adopting the reifying perspective or attitude/mental-disposition/care—and—episteme of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness—and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought to arrive at ontological-veridicality that rather implies the dialectical—dementation of our positivism—procrypticism at its uninstitutionalised-threshold; and as we falsely go on to construe existential-contextualising-contiguity—in-reification/dereification as of the childhood slantedness, but with respect to adult psychopathy with the attendant maturation/indirectness/spatialisation/credulity/craftiness, such interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity—in-reification/dereification as of the childhood slantedness, but with respect to adult psychopathy with the attendant maturation/indirectness/spatialisation/credulity/craftiness, such interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument

It is the prospective notional-contiguity/epistemic-contiguity\textsuperscript{<profound-supererogation -of- mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema>} as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as setting up the positivism ‘underlying \textsuperscript{11}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{12},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{13}’, that fundamentally undermines such endemisation; and hence it is not by accident that our present positivism registry-worldview/dimension is devoid of such issues since it de-mentatively/structurally/paradigmatically undermines temporal-to-intemporal cognisance and integrativeness of notions-and-accusations-of-sorcery as of the positivism ‘underlying

However, approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{35} by-reification\textsuperscript{37}/contemplative-distension, the fact is these are not really the underlying drivers for virtue transcendence-and-sublimity/sublimation/supererogatory de-mentativity and are peripheral to more ontologically profound theorised-or-untheorised emancipatory events, driving virtue transcendence-and-sublimity/sublimation/supererogatory de-mentativity as of prospective relative-ontological-completeness\textsuperscript{35} of reference-of-thought, notwithstanding our state of beyond-the-consciousness-awareness-teleology\textsuperscript{100} \textless in-existential-extrication-as-of- existential-unthought\textgreater. The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the very same species potency, and thus we can’t ascribed inherent virtuous superiority by the mere token of our own practice. Rather the exceptionality behind human virtuous potential lies ontologically with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} as of difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{87}–in-singularisation\textless as-to-the-

Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so with regards to any prospective institutionalisation relative to the uninstitutionalised-threshold. Thus the ‘field of conception’/notional–conception/notion of virtue-as-ontology covers way more than its articulation within a same registry-worldview’s/dimension’s amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as its implications as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology need to be drawn beyond a cloistered-consciousness as of retrospective and prospective transcendental illuminating implications. In this regard, a postmodern suprastructuralism philosophical stance with regards to virtue-as-ontology very much aware of the transcendental ontological sublimating-over-desublimating implications of existence-potency sublimating–nascence, disclosed from prospective-epistemic-digression: will question such reasoning from results/afterthought basis of palliative virtue constructs especially as of their amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and lack of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension of reference-of-thought-by-reification /contemplative-distension implications; ask whether by definition a registry-worldview/dimension reference-of-thought is postconvergingly–de-mentated/structured/paradigmed to sponsor/promote/endorse its very own prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of the need for the subversion of its reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology that endemise-and-enculturate its vices-and-impediments by prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, more like could the Copernicans, Galileos, Descartes, Diderots, etc. call upon the very same non-positivism/medievalism in need for prospective positivism transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to underwrite the subversion of its entrenched non-positivism/medievalism internal social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology <preconverging—‘motif-and-apriorising/axiomatising/referencing’—imbuing—existentialising—enframing/imprintedness—(as-to— historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) frameworks and temporal mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation frameworks; and, hence the ontologically-veridical paradox of the very postconverging—de-mentating/structuring/paradigming implications of human limited-mentation-capacity-deepening renders any registry-worldview/dimension reference-of-thought ever deficient as of its need for psychoanalytic-unshackling/prospective-grounding/prospective-reification of meaningfulness-and-teleology. Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our ‘modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness perspective/framing/reference/horizon/projection’ apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness construal of categorising/taxonomising schemes that pervades the ‘modern categorising mental-disposition’ as of our occlusive-consciousness neuterising, as we fail to grasp the implication of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of
existential reality as the absolute a priori'; such that the meaningfulness-and-teleology that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional-conflatedness of notional-deprocrypticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation <as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>. Such a postmodern/suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care–and–episteme with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of such organic-knowledge construed in intemporality as supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’-postconverging/dialectical-

The latter points to an inappropriate attitude/mental-disposition/care—and—episteme which is not beholden to the prospective institutionalisation but rather is of existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care—and—episteme and organic-knowledge attitude/mental-disposition/care—and—episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care—and—episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests in terms—as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care—and—episteme as of its prior relative-ontological-incompleteness—reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of
positivism/rational-empricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empricism progress. The occasional development of enlightenment and positivism/rational-empricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate meaningfulness-and-teleology to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness-of-
reference-of-thought as fundamentally denaturing, and likely to induce transversality—in-sublimating—existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing—dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity)—totalising—in-relative-ontological-completeness). Ultimately, such a double-gesturing hold out the possibility in reflecting holographically—conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process—as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care—and—episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care—and—episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity)—totalising—in-relative-ontological-completeness.
Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity <shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care–and–episteme’ event ‘or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human
epistemicity-totalising-thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originaty-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-'projective-insights'/‘epistemic-projection-in-conflatedness’-of-notional-deprocrypticism-prospective-sublimation) creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification—in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemic-
determinism causality as to projective totalitative implications of prospective nonpresencing for explicating ontological contiguity shows that there has always been beyond the consciousness awareness teleology in existential extrication as of existential unthought institutional investment that is not always just of eruditic ideal inclined to undermined prospective knowledge as of its prospective relative ontological completeness of axiomatic constructs and reference of thought and that true knowledge especially as it portends to transcendence and sublimity sublimation supererogatory de mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation however the tentativeness of many of its bold ideas and so much more than the vagaries peddled by many such critiques surreptitious anti intellectual media driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological bad faith inauthenticity undermining of Being development ontological framework expansion as to depth of ontologising development as infrastructure of meaningfulness and teleology due to lack of social universal transparency{transparency of totalising entailing as to entailing} amplituding formative epistemicity totalising in relative ontological completeness. In other words medieval charlatanic eliciting of old ways conventioning and existence as of nonpositivism medievalism despite its prior relative ontological incompleteness of reference of thought as underscoring medieval vices and impediments with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being development ontological framework expansion as to depth of ontologising development as infrastructure of meaningfulness and teleology; and this insight is valid across all registry worldviews dimensions as of the eliciting of temporal individuations self referencing.
cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-
reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-
beholden to temporal/shortness-of-register-of—meaningfulness-and-teleology stakes that
human intemoral individuations as of a protracted-consciousness can contemplate of Being-
development/ontological-framework-expansion—depth—ontologising-development-as-
infrastructure—meaningfulness-and-teleology as of its crossgenerational transcendental
implications and as reflected from the insight in reflecting holographically—<conjungatively-and-
translusively> the ontological-contiguity—of-the-human-institutionalisation-process. Again,
it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-
of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to
adopt their subsequently transcendental and sublimation orientation but for their ontological-
faith-notion—ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—so-being—as-of-existential-reality as of their ‘re-

primemovers-totalitative-framework, and so divulged by existence-potency—sublimating—
nascence—disclosed—from-prospective-epistemic-digression; as prior human presencing—
absolutising-identitive-constitutedness experience wouldn’t have thought about space-time,
considered the ether as unreal, considered that the laws of physics are different at atomic scale,
etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior
classical-mechanics—axiomatic-constructs construed as presencing—absolutising-identitive-
constitutedness enabling the obtention of any such conclusions from the given classical-
mechanics—axiomatic-constructs apriorising/axiomatising/referencing—(of-existential-
contextualising-contiguity)—constitutedness, but rather it is by
apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—

conflatedness with regards to ‘the very same physics’—<amplituding/formative-
epistemicity>—totalising—devolved—purview/domain-of-construal-as-intrinsic-
reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-
together-with-quantum-mechanics—axiomatic-constructs was construed as of nonpresencing-
<perspective—ontological-normalcy/postconvergence>. Interestingly, as of the underlying
phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity to grasp that such ultimate decidability is
construed as of human intemporal/longness-of-register—as—meaningfulness-and-teleology
individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by
ontological-primemovers-totalitative-framework’—tendential validation as to existenced-
potency—sublimating—nascence—disclosed—from-prospective-epistemic-digression. Such a
construal of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity
will cover the seminal contributions prior and after the defining-threshold epistemic-
break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—
axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing
sublimation overrides our neuterising laden modern convention ways of judging
breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an
abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-
mentation-capacity-deepening analysis; and insightfully, as reflected in the underlying
apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—
conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay, sublimation
is achieved rather out of the notional obviating of human temporal-as-non-
onontological neuterising with deneuterising—referentialism and with correspondent
intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of
dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional–deprocrypticism perspective/framing/reference/horizon/projection. Similarly, this author’s articulation of futural-différance as of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay différance, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity’; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of
human mental-disposition with respect to the prescience of existence-potency\textsuperscript{[3]}-sublimating-nascence,-disclosed-from-prospective-epistemic-digression so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting-conviction-as-to-profound-supererogation\textsuperscript{[97]}—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism deference to the prescience of existence-potency~sublimating-nascence,-disclosed-from-prospective-epistemic-digression over any human-as-mortal framing of \textsuperscript{[56]}meaningfulness-and-teleology\textsuperscript{[100]} including oneself-as-human-as-mortal, as it is human mortality-as-temporality\textsuperscript{[99]} that is rather what is in need for further Being and consciousness development. Thus the postconverging–de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension \textsuperscript{[8]}reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness\textsuperscript{[15]}-of- reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness\textsuperscript{[89]}-of-reference-of-thought, and so by maximaliing-recomposuring \textsuperscript{[45]}\textsuperscript{[amplituding/formative–epistemicity]}totalising–renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential postconverging–de-mentating/structuring/paradigming of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, \textsuperscript{[10]}universalisation–non-positivism/medievalism, and positivism–procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality\textsuperscript{[99]}-as-of-neuterisation\textsuperscript{[9]/relative-ontological-incompleteness\textsuperscript{[9]/existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension
reference-of-thought in prospective relative-ontological-completeness\textsuperscript{88}\textsuperscript{-of-axiomatic-construct-or-\textsuperscript{84}reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension \textsuperscript{84}reference-of-thought in prior relative-ontological-incompleteness\textsuperscript{89}, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social \textsuperscript{104}universal-transparency’ \(\text{\{(transparency-of-totalising-entailing,-as-to-entailing-\}}\textless \text{amplituding/formative–epistemicity\textgreater \text{totalising–in-relative-ontological-completeness\textsuperscript{88}\}}\). But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness\textsuperscript{88}\textsuperscript{-of-axiomatic-construct-or-\textsuperscript{84}reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} comes into terms with both \textsuperscript{3}presencing—absolutising-identitive-constitutedness\textsuperscript{13} and \textsuperscript{6}nonpresencing-\langle\text{perspective–ontological-normalcy/postconvergence}\rangle\textsuperscript{63} on the basis of the prospective relative-ontological-completeness\textsuperscript{88}/ontological-contiguity\textsuperscript{67} of the latter over the prior relative-ontological-incompleteness\textsuperscript{89} of notional-discontiguity/epistemic-discontiguity\textsuperscript{63} \langle\text{shallow-supererogation} \ -of-mentally-aestheticised–preconverging/dementing –qualia-schema\rangle\textsuperscript{19} of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human[amplituding/formative–epistemicity]totalising-purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather ‘difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing’ between presencing—absolutising-identitive-constitutedness and nonpresencing—<perspective–ontological-normalcy/postconvergence>. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon/projection as of prospective relative-ontological-completeness’ notional-contiguity/epistemic-contiguity construed as its apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded on such a developed consciousness perspective/framing/reference/horizon/projection. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon/projection as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’ to grasp base-institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon/projection as of warped-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon/projection’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon/projection as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’; for a universalisation–non-positivism/medievalism mindset
perspective/framing/reference/horizon/projection’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon/projection as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon/projection’ to grasp notional–deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘notional–deprocrypticism mindset perspective/framing/reference/horizon/projection as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get that the fundamental stake for the Copernicus, Galileo, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness of reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency’ (transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative-epistemicity-totalising–in-relative-ontological-completeness) such charlatanism is exposed for what it really is, explaining the paniciness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by
itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of de-mentation—⟨supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics⟩ which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing/ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring—⟨as-to-postconverging-or-dialectical-thinking—apriorising—psychologism⟩ of the consciousness in ontological-contiguity/relative-ontological-completeness—of-reference-of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring—⟨as-to-preconverging-or-dementing—apriorising—psychologism⟩ of the consciousness of notional-discontiguity/epistemic-discontiguity—⟨shallow—supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema⟩/relative-ontological-incompleteness—of-reference-of-thought as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, and not incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation, as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human<amplituding/formative—epistemicity>totalising—purview-of-construal’’. As futural différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay différance’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening; overriding the idea that the perspective/framing/reference/horizon/projection of
contemplation is absolutely given-and-determined as of the implication that all
meaningfulness-and-teleology should be as of ‘difference-in-kind/difference-in-
aposteriorising-or-logicising', but rather reconceptualising the possibility of difference-in-
nature/difference-in-apriorising-or-axiomatising-or-referencing as of prospective relative-
ontological-completeness-of-reference-of-thought bringing about transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity as of nonpresencing-
ontological-normalcy/postconvergence. Thus such a phenomenology associated with
accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the
‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation.
Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with
‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-
quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in
prior relative-ontological-incompleteness and prospective relative-ontological-completeness,
with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-
relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same
physics <amplituding/formative-epistemicity> totalising—devolved—purview/domain-of-
construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a
‘difference-in-kind/difference-in-aposteriorising-or-logicising but rather a difference-in-
nature/difference-in-apriorising-or-axiomatising-or-referencing ; with human-subpotency
aligning towards the full potency of existence which thus divulges the possibility of human
sublimation as of the physics science implications today. It is interesting to note that the
difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing bringing about
the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from
prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then
becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising of the new
notion of metaphoricity\textsuperscript{57} is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity\textsuperscript{57} as such simply refers to signification adjunctiveness to ‘underlying\textsuperscript{45}\textit{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of both the ‘meaningfulness-and-teleology\textsuperscript{100} implications to the so-renewed ‘underlying\textsuperscript{41}\textit{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and the specific adjunctive-metaphoricity\textsuperscript{57}-signification within such renewed ‘underlying\textsuperscript{45}\textit{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. Metaphoricity\textsuperscript{57} is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-teleology\textsuperscript{100} as an epistemic-totalising /circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity\textsuperscript{57} arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of \textit{nonpresencing–<perspective–ontological-normalcy/postconvergence> by human re-projection/re-anticipation ultimately validated by existence/ontology’s-directedness-as-Being ontological-primemovers-totalitative-framework}. Further, metaphoricity as such speaks of the evasiveness of all human meaningfulness-and-teleology\textsuperscript{100} at uninstitutionalised-threshold\textsuperscript{103} as recurrently pointed out herein as of token threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \textit{<as-to–‘attendant-inradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> possibilities relation to \textit{reference-of-thought– categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–<meaningfulness-and-teleology\textsuperscript{100}}.}
as of human limited-mentation-capacity implications. The implications of this reality as of metaphoricity explains why epistemes are fundamentally and necessarily constricted as of their specific registry-worldview/dimension reference-of-thought; as ultimately epistemes are as relevant as the ontological-possibilities divulgeable by presencing—absolutising-identitive-constitutedness and nonpresencing—perspective—ontological-normalcy/postconvergence, such that in the case of the latter there is no prior insight about the veracity of any episteme before it is divulged with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure—meaningfulness-and-teleology as presencing—absolutising-identitive-constitutedness. Consider in this regard Galileo’s implying positivistic episteme metaphoricity over a medieval Establishment scholasticism-and-mysticism episteme as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure—meaningfulness-and-teleology as the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the ‘drawback implications’ of our positivism–procrypticism episteme as of its apriorising/axiomatising/referencing—of-existential-contextualising-contiguity—constitutedness with respect to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure—meaningfulness-and-teleology as of prospective notional–deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption—as-futural-différance-freeplay with respect to our procrypticism—or–disjointedness-as-of—reference-of-thought uninstitutionalisation and futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure—meaningfulness-and-teleology as of prospective notional–deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for <amplituding/formative>.
Galileo could well have recasted his implied positivism in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal–or–metaphysics-of-absence–(implicitized-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>–or–transcendental-reasoning-of-event′–as–prospective-ontology-origination perspective/framing/reference/horizon/projection of positivism meaningfulness-and-teleology we entertain today. Likewise, as of such metaphoricity episteme, the meaningfulness-and-teleology herein implied as of its essence cannot do without this hermeneutic/reprojecting/supererogating/zeroing circle phenomenological ontology elucidation as of its psychoanalytic-unshackling apriorising/axiomatising/referencing–(of-existential-contextualising-contiguity)—conflatedness; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon/projection and then contention/argumentation within such articulated perspective/framing/reference/horizon/projection, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-
Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon/projection for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to ‘open-up’/‘throw-up’/‘reveal’ new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-
enabling/sublimating/de-mentativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon/projection before contention/argumentation as of any given perspective/framing/reference/horizon/projection, thus implying ‘poor critical judgment’.

With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling-<in-deferential-formalisation-transference> are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of— meaningfulness-and-teleology -as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}, such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity critiques, as de-mentatively/structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-
socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon/projection of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency\(^\text{104}\)\(\langle\text{transparency-of-totalising-entailing,-as-to-entailing,}\langle\amplituding/formative–epistemicity>\text{totalising–in-relative-ontological-completeness}\rangle\)’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity\(^\text{64}\) critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification\(^\text{27}\) of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive \(\langle\amplituding/formative>\) wooden-language...
‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence-<\-in-\-dimensionality-of-desublimating-lack-of\-{<\amplituding/formative>\-supererogatory-de-\-mentativeness/epistemic-growth-or-conflatedness\ /transvaluative-\-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness--equalisation}> subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional–knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximalising-
recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity \textsuperscript{1} is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence-(implicited-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>) will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness\textsuperscript{92}-of-axiomatic-construct-or-reference-of-thought over a <amplituding/formative-epistemicity>-totalising–self-referencing-syncetising/circularity/interiorising/akrasiatic-drag \textsuperscript{1} as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification\textsuperscript{87} of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness -of-axiomatic-construct-or-reference-of-thought of a better knowledge perspective/reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness\textsuperscript{90} with regards to reference-of-thought and its derived meaningfulness-and-teleology \textsuperscript{100}, with the implication that we need to a prospective relative-ontological-completeness\textsuperscript{82}-of-reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of meaningfulness-and-teleology\textsuperscript{100}. In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology\textsuperscript{100}, are made to have their internal-dialectics/différance as of nonpresencing-<perspective–ontological-normalcy/postconvergence> for their sublimation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into more profound and more complete
For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocrypticism—de-preempting—disjointedness—as-of reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of existential-contextualising-contiguity; is the enabling approach for human ontological-reconstituting—as-to-conflicatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating ~{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflicatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}) of our supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–
(conceptualisation) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology\textsuperscript{59} in relative-ontological-completeness\textsuperscript{61}. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern postconverging-de-mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework\textsuperscript{21}’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity\textsuperscript{67}’ as herein implied by this author with ‘the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} congruent,-cogent-and-operant entailing framework of ontological-contiguity\textsuperscript{67}’. Anecdotally, the shallow-mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification\textsuperscript{77} will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification\textsuperscript{77} for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{68} as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{50} and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and sublimity/sublimation/supererogatory-de-mentativity is behind the respective registry-
worldviews/dimensions as of their given \(^{84}\) reference-of-thought specific \(^{58}\) neuterising as well as the ultimate deneuterising\(^{15}\)—referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity\(^{64}\) is equally elicited by ‘lack of social \(^{104}\) universal-transparency\(^{105}\) \{transparency-of-totalising-entailing,-as-to-entailing, \(<\text{amplituding/formative-epistemicity}\) totalising~in-relative-ontological-completeness\}’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension \(^{8}\) reference-of-thought ‘ reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the ontological-primemovers-totalitative-framework\(^{73}\) transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its \(^{84}\) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic \(^{84}\) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness\(^{89}\)-of-\(^{1}\) reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating \(<\text{amplituding/formative}\) supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-
Such conflatedness imbed in postmodern-thought address more than just constitutedness implications of knowledge construction as articulated herein but equally points critically to intellectually decadent institutional dispositions and practices where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a back seat, with intellectual postures increasingly defended with non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in the form of many an intellectual increasing disposition ‘to misunderstand’ others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance; with a resultant sense of socioeconomic and socio-political impotence as such blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and preconverging–de-mentating/structuring/paradigming of academic institutional setups into increasingly into pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation are not dissociated from the effective possibility for transcendental-enabling/sublimating/supererogatory–de-mentativity, especially as such breakthroughs require the spontaneity of Dionysian arrangements. Thus the ‘notion of limited-mentation-capacity’ is basically the ‘underlying veridical human meaningfulness-and-teleology notion’ for which ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ construed as ontologically-flawed constructs in terms—as-of-axiomatic-construct of ‘ neuterising as of \(\text{\LaTeX}\) —reference-of-thought—devolving’ whether beyond-the-consciousness-awareness-teleology \(\text{\LaTeX}\) —\langle in-existentional-extrication-as-of-existentional-unthought \rangle, and so elucidated from the ontological-normalcy/relative-ontological-completeness —of— reference-of-thought perspective of notional—deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. In so doing, the
latter reflects the limited-mentation-capacity dynamism of meaningfulness-and-teleology as of notional-deprocrypticism as well as temporal-to-intemporal individuations mental-dispositions, by way of deneuterising —referentialism, in lieu of neuterising. Thus this notion of human limited-mentation-capacity as the basis of différencé/internal-dialectics/difference-deferral divulges ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ and as of their ontologically-flawed constructs of neuterising, with regards to articulating teleological elevation-as-of-upholding-ontological-veridicality or teleological degradation-as-of-failing-ontological-veridicality respectively either as of apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity) —conflatedness or destructuring respectively. Basically, the construal/conceptualisation of human amplituding/formative—epistemicity totalising—thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory—de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance—including-virtue-as-ontology) has always involved a disparateness-of-ontologically-construed-social-reality as of on the one hand a dichotomy of ‘intemporal-projection transcendental-enabling/sublimating/supererogatory—de-mentativity abstraction of prospective Being and meaningfulness-and-teleology construal as of organic-knowledge implications and so as reductive construction however non-mechanical and intemporal-as-ontological-its-projection and hence as an open-ended-incompleteness/nonachievement-of-ontological-normalcy/postconvergence construal of social reality’, and on the other hand ‘an ad-hoc open-ended summative hotchpotch conventioning of temporal projections and intemporal projection grounding of social reality construction including organic-knowledge as well as mechanical-knowledge implications’; such that from the ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective, the overall social Being and
referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’ that by its ‘reference-of-thought-devolving—différance/internal-dialectics/difference-deferral’ grasp the ontologically-veridical ‘underlying human limited-mentation-capacity dynamics of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving, and so without being subject to any ‘neuterising’ as is the case with all ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’. Thus by its deneuterising—referentialism construed as of ‘historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>, notional–deprocrypticism enables a fundamental ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, and so superseding a naïve metaphysics-of-presence ⟨implicited-'nondescript/ignoreable–void '-as-to- presencing—absolutising-identitive-constitutedness⟩ affect-driven mented or stigmatic psychology rather as of a shallow perspective and vaguely articulated as of universal import. The idea here with regards to human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, is that from a creative perspective: the notion of a given ‘neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness’, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this ‘neuterising that human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is achieved from the prospective notional–conflatedness of notional–deprocrypticism and so by deneuterising—referentialism, which is equinominal/equivalent to nonpresencing<-perspective–ontological-normalcy/postconvergence>. Consider a metaphysics-of-absence⟨implicated-epistemic-veracity-of-nonpresencing⟨perspective-ontological-normalcy/postconvergence⟩⟩ elucidation with regards to say a remote/isolated non-positivistic animist/base-institutionalisation society for instance which by some token has sustainable-and-learned access to basic but greatly enhancing productive techniques from travellers of a positivistic culture but without a substantial corresponding organisational and institutional diffusion associated with such greatly enhancing productive techniques due to the very brief nature of the encounter or disconnected/incoherent/perfunctory/chaotic nature of their relations, this will dementatively/structurally/paradigmatically have degenerative effect on such an animistic social organisation wherein this isn’t enhancing of the society’s social organisation and relations and will be possibly disruptive. This example isn’t that farfetched as anthropological evidence of such cases abounds with many native societies so disrupted by culturally alienating positivistic material diffusion. Human material/technical development and corresponding mentality as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology are inextricable and critical in reflecting holographically—⟨conjugatively-and-transfusively⟩ the ontological-contiguity—of-the-human-institutionalisation-process including our positivism—

This insight can equally be drawn prospectively in our positivism–procrypticism registry-worldview/dimension faced with its postlogism\(^7\)-as-of- compelling–nonconviction/madeupness/bottomlining\(^8\) \{\langle\langle decontextualising/de-existentialising−of-attendant-intradimensional−apriorising/axiomatising/referencing⟩−induced-disontologising⟩−of-the−‘attendant−intradimensional−ontologising⟩−imbued−<contextualising/existentialising−attendant-ontological-contiguity⟩−in-shallow-supererogation −<disontologising-perverted-outcome-sought-precedes-existentially-veridical−‘attendant-intradimensional−apriorising/axiomatising/referencing⟩−logical-dueness\rangle\} like psychopathy and social psychopathy. This speaks of the very nature of all threshold-of−nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^9\)−<as-to−‘attendant−intradimensional⟩−prospectively-disontologising−preconverging/dementing −apriorising-psychologism\rangle\ with regards to the limits of a registry-worldview’s/dimension’s institutionalisation (whether base-institutionalisation,\(^10\) universalisation and positivism eliciting respectively the uninstitutionalised-threshold\(^11\) of ununiversalisation, non-positivism/medievalism and procrypticism) across all the ontological-contiguity\(^12\)—of-the-human-institutionalisation-process\(^13\) wherein the prior/transcended/superseded registry-worldview’s/dimension’s\(^14\) reference-of-thought in its \{amplituding/formative−epistemicity\}totalising−self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^15\) (as metaphysics-of-presence\{implicated−‘nondescript/ignorable−void ’−as-to− presencing—absolutising-identitive-constitutedness \}: illusion-of-the-present/present-consciousness/mirage) is representing itself as ‘postconverging-or-dialectical-thinking −apriorising-psychologism and dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-worldview’s/dimension’s\(^16\) reference-of-thought, as of the ontological-normalcy/postconvergence epistemic/notional−projective-perspective, it is ‘preconverging-or-
dementing apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason for the ontologically defective totalising–self-referencing-syncretising/circularity/interiorising/akrasiotic-drag is that all registry-worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supero ergatory–de-mentativity)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been wooden-language ⟨imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void ’—with-regards-to—prospective-apriorising-implications⟩. However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening expansion of ontological-depth as increasing ontological-completeness-of-reference-of-thought (or reducing relative-ontological-incompleteness-induced—‘threshold-of—non conviction/madeupness/bottomlining-in-shallow-supererogation’ <as-to—attendant-intradimensional’—prospectively-disontologising–preconverging/dementing apriorising-psychologism>). Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to meaningfulness-and-teleology whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding meaningfulness-and-teleology. A further example will be say ‘the God of plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not
positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence)\(\langle\)implicated-nondescript/ignorable–void ‘as-to- presencing—absolutising-identitive-constitutedness \(\rangle\)

Equally we can imagine that making a positivistic argument in the midst of a non-positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the ‘center’ had moved from their world (from non-positivistic as base-institutionalisation/animistic or medieval preconverging-or-dementing^{19}–apriorising-psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking^{00}–apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–procrypticism relationship to its postlogism^{78} that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation^{78}<as-to-‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism>, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing^{19}–apriorising-psychologism as well. However, to the extent that it is ‘not such<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal/shortness-of-register-of–meaningfulness-and-teleology^{00} inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold^{03} from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to
universalisation–non-positivism/medievalism to positivism–procrysticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{106}) extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a ‘transversality–<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ confliction’ resolved intemporally by prospective ontological-primemovers-totalitative-framework\textsuperscript{73} and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded reference-of-thought and a prospective/transcending/superseding reference-of-thought; given the blunt fact that ‘there is no untransvaluated–temporal-intemporality\textsuperscript{52} and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{106} distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{106} projections.). Critically, the notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity associated with intemporality\textsuperscript{52}/longness and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-primemovers-totalitative-framework\textsuperscript{73} as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-
primemovers-totalitative-framework\textsuperscript{73} is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied when conceptualising that empirical \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} is the sole purview of the rational-empiricism/positivism registry-worldview/dimension failing to recognised that all other registry-worldviews/dimensions are actually empirical but differ as to interpretation of empirical perception whether as to a magical, cultic or other non-positivising interpretation of empirical manifestation) but speaks of ‘the central human epistemic-totalising \textsuperscript{73}~resubjecting heuristic drive’ defining as to preconverging/postconverging–de-mentating/structuring/paradigming \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} the succession of all registry-worldviews (however sublimatingly inefficient in relative-ontological-incompleteness \textsuperscript{88}and sublimatingly efficient in relative-ontological-completeness\textsuperscript{88} as from \textsuperscript{61}nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection); given that with corresponding shallow to limited-mentation-capacity-deepening\textsuperscript{53}, as institutionalising ontological-primemovers-totalitative-framework\textsuperscript{73} successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency\textsuperscript{73}~sublimating–nascence,-disclosed-from-prospective-epistemic-digression. Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as ontological-primemovers-totalitative-framework\textsuperscript{73} of \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} going by their given limited-mentation-capacity. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-
mentation-capacity-deepening’ implies more and more profound reconstruals/reconceptualisations (<amplituding/formative–epistemicity> totalising–renewing-realisation/re-perception/re-thought) inducing transformative implications with respect to meaningfulness-and-teleology as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogising speaking thus of human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing–as-to-possibilities-of-self-becoming-as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about 9.8 m/s^2 on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporal asymmetry-totalising–temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory–de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory–de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of meaningfulness-and-teleology as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of
the “meaningfulness-and-teleology” itself but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-/perspective–ontological-normaley/postconvergence-reflected-’epistemicity-relativism’, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/\(\text{supererogatory-de-mentativity}\) as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality/superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology/<in-existential-extrication-as-of-existential-unthought> to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating/\(\text{supererogatory-de-mentativity}\) knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/\(\text{supererogatory-de-mentativity}\) conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/\(\text{supererogatory-de-mentativity}\)) to prospective transcendence-and-
reflected by metaphysics-of-absence\{implicated-epistemic-veracity-of- nonpresencing-\langle perspective-ontological-normalcy/postconvergence\rangle\} in the conception of meaningfulness-and-teleology\[^{90}\] ontological-performance -\langle including-virtue-as-ontology\rangle as of the transcendental implications in reflecting holographically-\langle conjugatively-and-transfusively\rangle the ontological-contiguity\[^{67}\]—of-the-human-institutionalisation-process\[^{68}\] of knowledge-constructs/theories/ intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue, we can appreciate that the successive registry-worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence-and-sublimity/sublimation/supercerogatory-de-mentativity and the ontological-contiguity\[^{67}\]—of-the-human-institutionalisation-process\[^{68}\] in the first place; with the notional-deprocripticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in \langle amplituding/formative–epistemicity\rangle totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\[^{33}\] its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in \langle amplituding/formative–epistemicity\rangle totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\[^{33}\] its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in \langle amplituding/formative–epistemicity\rangle totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\[^{33}\]
its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{56}-<including-virtue-as-ontology>, and that meaningfulness-and-teleology\textsuperscript{100} as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the \textsuperscript{4}<amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{3} of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{56}-<including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology\textsuperscript{100} as of prospective deprocrypticism—or–preempting—disjointedness-as-of reference-of-thought with regards to our positivism–procrypticism, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-<perspective-ontological-normaley/postconvergence>} for the conception of meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{56}-<including-virtue-as-ontology> is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology\textsuperscript{100}-<in-existential-extrication-as-of-existential-unthought> naively construed \textsuperscript{4}<amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{3} mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{56}-<including-virtue-as-ontology>, with regards to its capacity of appreciating prospective relatively profound pure-
ontology as herein implied that de-mentatively/structurally/paradigmatically supposedly supersedes our positivism–procrypticism registry-worldview’s/dimension’s institutionalisation reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been re-originary-as-unenframed/unbeholdening/outlier-conceptualisation (imbued-postconverging/dialectical-thinking – ‘projective-insights’/epistemic-projection-in-conflatedness – ‘of-notional–deprocrypticism-prospective-sublimation’ ideas which proponents ultimate purpose (beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>) weren’t fundamentally a ‘direct convincing’ of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, however unintelligible, as a prospective institutional percolation-channelling<in-deferential-formalisation-transference> exercise as validated by ultimate ontological-primemovers-totalitative-framework with subsequent corresponding formalisation and secondnaturing. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint–imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor that ‘human knowledge is necessarily a secondnaturung construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of–meaningfulness-and-teleology<10>, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the notional–deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche
and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising~preconverging/dementing –apriorising-psychologism>. Thus human knowledge is a dynamic seconddnatured construct in upholding-and-vouching for the intemporal while preemtping of the temporal, and so beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought>.

[The notion of ‘beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought>’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought>’ speaks of the mental state as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising~preconverging/dementing –apriorising-psychologism> by its relative-ontological-incompleteness-of-reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (also referred to as ‘uninstitutionalised-threshold’ where the mental-disposition/mindset/reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought> implies ‘conscious’ and/or ‘unconscious’ as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising~preconverging/dementing –apriorising-psychologism> at the uninstitutionalised-threshold of a registry-
worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-negativesocial-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology\textsuperscript{106} \textless{}in-existential-extrication-as-of-existential-unthought\textgreater{}. Of course, where supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-completeness\textsuperscript{88} \textless{}reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. notions of intemporality/longness in successive epochs become dominant notions of human
knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-
veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. Further along
the rational-realism line of thinking, the fact is paradoxically that as more cuttingly
demonstrated with ‘cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, the mechanism of transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity is not a simplistic transference from a more ontologically-completeness-of-reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance.
until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought. The process by which transcendent meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>}, which may wrongly imply being out of the scope of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnatures—temporal-to-intemporal-dispositions-{so-construed-as-from-perspective–ontological-normalcy/postconvergence}—existentialism-form-factor, and thus fundamentally undermine ontologically-veridical analysis where exceptionalism is adhered to instead of the mediocrity principle. This quite sums up the mechanism by which re-originally-as-unenframed/unbeholdening/outlier-conceptualisation (imbued-postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional–deprocripticism-prospective-sublimation) transcendental ideas (transcendental in terms–as-of-axiomatic-construct of putting in question the prior devolving, beyond just novel ideas within the same reference-of-thought–devolving, beyond just novel ideas within the same reference-of-thought), whether by diffusion or internal transformation, come to be dominant when ontologically pertinent; as even the ‘moulting’ intellectual/emancipator, beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, is coming from a point of
habitation with prior traditional ideas (consider the case of Newton with alchemic notions),
wherein acceptance of the new ideas they are purporting only comes after an unconscious
process of suspicion and denial of such nagging new ideas until they arrive at a firm point of
supplanting-conviction-as-to-profound-supererogation of-attendant-intradimensional-postconverging/dialectical-thinking-apriorising-psychologism before admitting to themselves
the possible veracity/ontological-pertinence of the ideas, and so as their very own
<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which makes it unsurprising that even socially
<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is a necessary process for the ultimate acceptance of prospective ontological-primemovers-totalitative-framework as this subsumes-as-supplant-as-of-the-more-profound-construal-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) the prior ontological-primemovers-totalitative-framework. It is hardly the case of just a direct intemporal sense of meaningfulness-and-teleology transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation
unshackling/memetic-reordering/institutional-recomposuring). It is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of crosstitch purposefulness (whether beyond-the-consciousness-awareness-teleology^00^-<in-existential-extrication-as-of-existential-unthought> ). This equally explains why in all epochs, however different the nature, there is an inherent temporal mental-disposition abhorrence of transcendental ideas as putting into question the present and present interests (for instance, even the industrial revolution when considered as actually generating material wealth was poorly perceived by many trade guilds). It is only the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity^00’s-reifying/elucidating-of-prospective-relative-ontological-completeness^88-of-ref-of-thought^-devolving-as-of-instantiative-context as to existence-potency~sublimating-nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the ‘postconverging-or-dialectical-thinking^20^-reference-of-thought in relative-ontological-completeness^88 as depth-of-thought’) that allows for ‘a relative teleological-differentiation/scission/variance/disambiguation of references-of-thought’ as to what the appropriateness-of- reference-of-thought-as-of-conflatedness^2 (correct apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument—producing-measurements) and the <perversion-of- reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (defective apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument—producing-measurements) truly are, and the implications thereof with regards to ‘meaningfulness-and-teleology^00 (purposeful architectural

measurements (appropriateness-of- reference-of-thought-as-of-conflatedness’) and find out
that the numbers measured and to be added are 5+2 and is trying its best thereafter to resolve
the sum but fails in its logical-processing-or-logical-implicitation—supposedly-apriorising-in-

logically re-engaging with A with respect to other sums in terms of aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-

supposedly-apriorising-in-conviction-as-to-profound-supererogation so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its elementary-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion-of-reference-of-thought—supposedly-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying \( 6 + 3 \) instead of \( 5 + 2 \) (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as \( 5+2 \)) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to elementary-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) is flawed since B is not committed due to its perversion-of-reference-of-thought—supposedly-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) to genuinely strive for correct answers (ontological-veridicality), and this
speaks of the possibility of B denaturing an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose reference-of-thought is not perverted, such that A’s defect is a defect–of–logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential–defect, i.e. the teleological disposition of B inherently carries the defect (to the point that B can be socially-functional-and-accordant while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality–transcendental-enabling/sublimating/supererogatory–de-mentativity of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It should be noted that C (where B’s condition is not exposed to it), D, E and F technically speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that they consciously perceive it can be socially-functional-and-accordant to them wherein lack of

correspondingly the protraction into conjugated-postlogism behaviour in this regard), wherein

The adult psychopathy personality development arising from this fundamental fault-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’ at childhood, further evolves a long way with a constantly readjustment process to ultimately enable the credulity for the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance at adult psychopathy, such that at adulthood social universal-transparency—{transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness} as of existential-contextualising-contiguity’s—reifying/elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving—as-of-instantiative-context of its underlying postlogism—as—of—compulsing—nonconviction/madeupness/bottomlining—{<decontextualising/de-existentialising—of—attendant-intradimensional—apriorising/axiomatising/referencing—induced-disontologising’—of—the—’attendant—intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant—ontological-contiguity>—in—shallow-supererogation—<disontologising-perverted-outcome—sought-precedes-existentially-veridical—’attendant—intradimensional—apriorising/axiomatising/referencing—logical-dueness>} often gets lost enabling its fault-mentation-procedure-deception at adulthood. Consider for instance that transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-empiricism/positivism reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity established by Descartes’ thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated ‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (Copernican revolution) is not eliciting a
‘postconverging-or-dialectical-thinking’ of
natural–psychological-dynamics’

The Kantian construct is an elaboration well within the psychical framework established by dimensionality-of-sublimating

‘extended rationalism’ thinking proposition and scepticism exercise, and Kantian meaningfulness-and-teleology is utterly comprehensible and intelligible to that psyche/mentation, though in many ways it is a more profound elaboration of meaningfulness-and-teleology issues. So it is actually an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument within the extended-rationalism reference-of-thought that doesn’t psychically and meaningfully supersede it but elaborates within it; and it doesn’t reference an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument

‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, as from Recurrent-utter-uninstitutionalisation to Base-
existential-unthought). Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation of its limited-mentation-capacity-deepening. It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening—limited-mentation-capacity,~as-limited-mentation-capacity-deepening. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency~sublimating–nascence,~disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency~sublimating–nascence,~disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s
reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/alchemic/essences/medieval registry-worldview/dimension certainly does have a name (transcendence-and-sublimity/sublimation/supererogatory–de-mentativity). But then it is more the case that from an <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag posture holding only one registry-worldview/dimension ~categorical-imperatives/axioms/registry-teleology as absolute, then prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather a beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought> notion. Besides, Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as of ‘the positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implied by Descartes) rather than a construal of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied herein as of limited-mentation-capacity-deepening with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–‘human

an exercise is more profound when it construes human mental apriorising/axiomatising/referencing along the full existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existence as it redefines meaningfulness-and-teleology on the basis of human limited-mentation-capacity-deepening in its construal/conceptualisation of a superseding—oneness-of-ontology construed as transcendent-enabling/sublimating/supererogatory—de-mentativity. Insightfully, this author construes an existential-reference/existential-tautologisation basis of such human mental apriorising/axiomatising/referencing process for the transcendent-enabling/sublimating/supererogatory—de-mentativity of successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions rather as of an exercise of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation over conceptualisations of human mental apriorising/axiomatising/referencing process on a simple categorisation reflex basis as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity which tend to require constant heuristic adaptations to sync in contiguity with existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existential-reality and avoid virtualities, as wrongly operating on the basis of an absolute point of human thought apriorising/axiomatising/referencing that doesn’t recognise that successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions are defining/transcendental-

In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the contextualising-contiguity of existence as of human shallow-to-deepening–limited-mentation-capacity,\(^{13}\) as-limited-mentation-capacity-deepening\(^{13}\) as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules— apriorising/axiomatising/referencing-psychologism,-as-impulsive-or-accidented-or-random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening\(^{13}\), as further elaborated in this paper. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ psyche as ‘\(<\amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–(by-a-renewing-of-\)

It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory~de-mentativity ontological-primemovers-totalitative-
framework \textit{to establish} themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument relationship to ontological-prime-movers-totalitative-framework\footnote{ontological-primemovers-totalitative-framework} that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity construction having to do with an \footnote{amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}\textsuperscript{33}} agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our

so-construed prospectively, will tend to ‘take precedence as of relative-ontological-incompleteness’ as of existence-inducing-distractive-alignment-to-reference-of-thought as of apriorising/axiomatising/referencing and override any such sense of relative pure-ontology apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity) — conflatedness notion as of prospective relative-ontological-completeness as of reference-of-thought and implying rather a prospective transcendental depth-of-thought as of reference-of-thought. This equally explains why the implied supratransversality as of motif-and-apriorising/axiomatising/referencing as of aetiologisation/ontological-escalation is necessarily a presencing — absolutising-identitive-constitutedness consummated/forfeiting posture of intemporality — asymmetric-subsumption-of-temporality /ontological-asymmetrisation that needs to take into account this ‘paradox of transcendence-and-sublimity/sublimation/suberogatory-de-mentativity’. And critically so, because beyond just
‘human conscious willing’, transcendence-and-sublimity/sublimation/supererogatory–dementativity necessarily implies the ‘prospect of humans to appreciate/understand meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>-’; such that, dementatively/structurally/paradigmatically/necessarily, that which gets to ‘conceptualise/construe beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>-’ is necessarily ontologically-asymmetrical as rather imbued with intellectual-and-moral responsibility over that which doesn’t get there (and so, even with regards to a basic non-transcendental construal of asymmetrisation within a same registry-worldview’s/dimension’s reference-of-thought like Doctor –Patient, Parent –Child, Server –Customer, Teacher –Student etc. as ensues from a Derridean binary opposition analysis). However at uninstitutionalised-threshold, the notion of intemporality asymmetric-subsumption-of-temporality/ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded reference-of-thought–categorical-imperatives/axioms/registry-teleology inclined beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>- to uphold meaningfulness-and-teleology as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness–of-reference-of-thought will certainly grasp the pertinence of intemporality asymmetric-subsumption-of-temporality/ontological-asymmetrisation as of deconstruction/ontological-reconstituting–as-to-conflatedness aetiology/ontological-escalation; so construed, as prospective relative-ontological-completeness–of-reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing–psychologism of transcendentally-enabling-level-of–ontological-good-faith-or-authenticity/objectification/desubjectification-as-

fundamentally put into question their present with new postconverging–dementating/structuring/paradigming shifts. It is ontologically-speaking impossible to
comprehensively undermine a dimension’s/registry worldview’s postlogism
without undermining the registry-worldview’s/dimension’s ‘reference-of-thought itself as implied by
its state of relative-ontological-incompleteness\(^\text{[9]}\)-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’\(^\text{[8]}\) \(<\text{as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism’}\), for instance psychopathy in positivism–procrypticism or notions of sorcery in universalisation–non-positivism/medievalism (wherein from the prospective point-of-reference respectively as notional–deprocrypticism or positivism, it is in \(\text{de-mentation}\) \langle supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics \rangle \) as of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^\text{[10]}\), given that this fundamental relative-ontological-incompleteness \(<\text{as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism’}\) of the given registry-worldview/dimension as reflected from ontological-normalcy/postconvergence epistemic/notional–projective-perspective, by its ‘contextualising-contiguity of existence-potency\(^3\)–sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ means it is de-mentatively/structurally/paradigmatically bound to enculturate/endemise its given postlogism\(^7\).

Obviously we can appreciate that without a positivistic outlook/\(^9\) reference-of-thought there is no chance that a non-positivism/medievalism registry-worldview/dimension will do away with notions-and-accusations-of-sorcery, as the latter is bound to arise as of human threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^\text{[8]}\) \(<\text{as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism’}\) in non-positivism/medievalism where the mindset/\(^4\) reference-of-thought is not rationally-empirical/positivising. Likewise the \(^1\) procrypticism–or–disjointedness-as-of-
their ‘intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis’ or ‘socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ determined by their sanctified-conventioning-social-aggregation-enablers, there is a need to circumvent and break these sanctified-conventioning-social-aggregation-enablers by prospective ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ to allow for new defining transcendental meaningfulness and its corresponding grander teleological-differentiation/teleology that can then perceive the prior registry-worldview/dimension as of its relative-ontological-incompleteness-induced, ‘threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation’ and accessorily its enculturating/endemising of its postlogism, and superseding both of these in the prospective registry-worldview/dimension institutionalisation. For instance, the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity of a medicine based on natural causes and drugs as natural cures carried the effectiveness/ontological-prime movers-totalitative-framework that undermined non-positivism/medievalism sanctified-conventioning-social-aggregation-enablers to do away with such notions as curses, sorcerers, etc. being the cause of disease, and undermine the whole teleologically-degraded dispositions based on such sanctified-conventioning-social-aggregation-enablers. Likewise only by articulating comprehensive and effective aetiological-ownership/ontological-escalation resolutions to the defect of proscripticism and its postlogism first with respect to formal constructions that the derived effectiveness/ontological-prime movers-totalitative-framework can feed back as percolation-channelling—<in-deferential-formalisation-transference> to dimensionally (registry-worldview) to undermine the relative-ontological-incompleteness-induced, ‘threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation’ and accessorily its

representation-perversion has various shades of ‘temporal/shortness to intemporal/longness
depth/register of meaningfulness stranded finalities/teleologies’. This can be demonstrated as
follows with psychopathy at childhood (which at this point is relatively transparent to the
critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-supererogation — apriorising-psychologism’ or prelogism in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-supererogation — of–attendant-intradimensional’ postconverging/dialectical-thinking – apriorising-psychologism’ or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism-as-of-conviction,-in-profound-supererogation — existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’ logical-dueness-precedes-disontologising-logical-outcome-arrived-at) (‘poor or bad supplanting–conviction-as-to-profound-supererogation — of–attendant-intradimensional’ postconverging/dialectical-thinking – apriorising-psychologism’), whether by omitting or exaggerating in a circumspect and ad-hoc manner but relative to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-reference-of-thought-devolving-as-of-instantiative-context. Lying as such is ‘an ad-hoc defect-of–logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance that doesn’t speak of the true

What the psychopath is doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-dementing-apriorising. That is to arrive at a sought-outcome by subknowledging-or-mimicking the non-veridical hollow-form of the meaning of other persons supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional—postconverging/dialectical-thinking—apriorising-psychologism narratives which it perceives as ‘being blatantly deterministic’ of the views and actions of the ‘normal prelogism—as-of-conviction,—in-profound-supererogation—existentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at—mind’, i.e. the psychopath is ‘narrating veridical emptiness/hollow narratives’. The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional—postconverging/dialectical-thinking—apriorising-psychologism on narratives but rather simply ‘the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation conjugated-postlogism/preconverging-or-dementing—integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinance of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a
genuine sense of supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating/supererogatory–de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism and its derivation/adoptions by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism. More precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining–(<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the- ‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity>-, in-shallow-supererogation –<disontologising-perverted-outcome-sought-precedes-existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness> and the notion of a lie which is in manifest prelogism-as-of conviction, in profound-supererogation –<existentially-veridical– ‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes- disontologising-logical-outcome-arrived-at> (be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation —of–’attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism’) as with a lie the implied–logical-dueness (with the corresponding implied–reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-
The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge\textsuperscript{42} associated with postlogism\textsuperscript{78} as-of:\textsuperscript{10} compelling–nonconviction/madeupness/bottomlining\textsuperscript{(‘<decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’–of-the-attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity>,<in-shallow–supererogation-><disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness>\textsuperscript{)}} with respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced as conjugated-postlogism\textsuperscript{78}–opportunism and conjugated-postlogism\textsuperscript{78}–exacerbation arises out of purposeful enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant\textsuperscript{79}, since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in

The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the
previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as is the case when someone tells a lie, and actually where such a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is wrongly implied about slanting, it has to do with prelogism-as-of-conviction,-in-profound-supererogation-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at mind/mental-disposition ‘wrongly conjoining the succession of slanting narratives from the last iterated slanted narrative’ to wrongly imply that the slanting psychopath narratives are a ‘coherent whole of narratives as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’, and this is the mechanism that induces conjugated-postlogism/preconverging-dementing-integration by some interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by supplanting–conviction-as-to-profound-supererogation–of–‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism interlocutors is not a ‘coherent whole of narratives’ but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism-as-of-conviction,-in-profound-supererogation–<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at alignment to psychopathic slanting is
actually a mental-unsoundness not different as contemplating aligning in supplanting-conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’—postconverging/dialectical-thinking —apriorising-psychologism to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge due to psychopathic developmental failure to relate to meaningfulness as of prelogism —as-of-conviction,-in-profound-supererogation —existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at> with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-Disposition with respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of—social-stake-contention-or-confliction, induces interlocutors prelogic supplanting—conviction-as-to-profound-supererogation —of—‘attendant—intradimensional’—postconverging/dialectical-thinking —apriorising-psychologism alignment to its postlogic compuling—nonconviction/madeupness/bottomlining—existentialising—of—attendant-intradimensional—apriorising/axiomatising/referencing—induced—disontologising—of—the—‘attendant—intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant-ontological-contiguity> ,—in-shallow—supererogation —<disontologising—perverted-outcome-sought-precedes-existentially-veridical—‘attendant—intradimensional—apriorising/axiomatising/referencing’—logical-dueness> narratives whereas at childhood psychopathy interlocutors will not align in-prelogic supplanting—conviction-as-to-profound-supererogation —of—‘attendant—intradimensional’—
postconverging/dialectical-thinking –apriorising-psychologismly (in order not to wrongly conjoin the psychopathic postlogic slanting narratives as deception-of-successively-shifting-or-non-cohering-narratives-and-acts as if of coherent whole as prelogic supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism narratives, and this is what actually occurs by inducing conjugated-postlogism /preconverging-or-dementing-integration in interlocutors at adulthood psychopathy) given the obvious and transparent deliriousness/delirious-effect/cinglé-effect associated with slanting over a slant over a slant, successively. Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing–apriorising-psychologism. Thus, with slanting the implied–logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought/preconverging-or-dementing –apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-ontological-good-faith/authenticity–of-reference-of-thought. Insightfully, it points out as well that the basis of the postlogism /psychopathic induced deception is not the psychopath itself (as it is commonly asserted about psychopathic manipulation), but rather it lies in the very nature of the reasoning of the prelogism –as-of-conviction, in-profound-supererogation –existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-
continually developed during its personality development into adulthood psychopathy now enables it becoming socially-functional-and-accordant. This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of existential-contextualising-contiguity by its dereification on a mental-processing disposition that is rather a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’, and so in contrast with the expected ‘reifying nuanced/multivalent mental-processing’ of supplanting–conviction-as-to-profound-supererogation—of-‘attendant-inradimensional’-postconverging/dialectical-thinking –apriorising-psychologism dispositions in existential-contextualising-contiguity, however bad-or-poor their ontological-performance -<including-virtue-as-ontology> of supplanting–conviction-as-to-profound-supererogation—of-‘attendant-inradimensional’-postconverging/dialectical-thinking –apriorising-psychologism mental-processing. While at childhood psychopathy such a ‘dereiving bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity is socially inefficacious and trouble-inducing giving the deliriousness effect from universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness ) of its acts, at adulthood psychopathy the lack of such universal-transparency –(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness ) of the postlogism -slantedness rather makes the latter ‘sound impassioned/stirring/vivid/spirited’ to the unsuspecting interlocutor who by mental-reflex
wrongly assumes as ontologically-veridical the falsely implied existential-contextualising-contiguity, giving the psychopath life-long learnedness and adaptation from its childhood inefficacy as of its increasing maturation/indirectness/spatialisation/credulity/craftiness with adulthood, and this latter ‘apparently impassioned/stirring/vivid/spirited but rather falsely implied existential-contextualising-contiguity’ disposition tends to be socially enculturated/endemised as of conjugated-postlogism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing’—apriorising-psychologism’ as of their relative-ontological-incompleteness—of—reference-of-thought-induced-virtuality—or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of existential-contextualising-contiguity’s—reifying/elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context as ontologically-veridical. Thus, notional—deprocrypticism as decentering and preconverging-or-dementing—apriorising-psychologism the positivism—procrypticism registry-worldview reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/reference-of-thought of meaningfulness-and-teleology with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening ) a renewing of mindset/reference-of-thought of meaningfulness-and-teleology with its corresponding psychologism/psychologism-construct occurs, with this ontological-contiguity—of—the-human-institutionalisation-process leading to the successive registry-worldviews/dimensions reference-of-thought psychologisms/psychologism-constructs, and implied prospectively as well with the notional—deprocrypticism worldview/dimension reference-of-thought psychologism/psychologism-construct. Critically, a psychologism/psychologism-construct
present positivism–procrypticism, just as analysing notions-and-accusations-of-sorcery should rather be from the prospective positivism registry-worldview reference-of-thought and not its present universalisation–non-positivism/medievalism registry-worldview reference-of-thought; as of the fact of fundamental registry-worldview/dimension ‘prospective registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect<as-Being-or-ontological-or-existential–defect>, so construed in order to supersedes its preconverging–dementating/structuring/paradigming vices-and-impediments. Structural/paradigmatically/dementatively, this idea extends to all issues implying metaphysics-of-absence⟨implicated-epistemic-veracity-of-nonpresencing⟨perspective–ontological-normalcy/postconvergence⟩⟩‘human temporal uninstitutionalised-threshold mental-disposition’. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental meaninglessness-and-teleology. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of
understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in conjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the human-and-social-emancipator, the present ascendency of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-primemovers-totalitative-framework73’ that has accompanied human limited-mentation-capacity-deepening53 in construing/conceptualising56 meaningfulness-and-teleology100. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-
mentation-capacity-deepening that actually is behind all threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation –<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism of successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of dementative/structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence⟨implicated-'nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness ⟩ and metaphysics-of-absence⟨implicated-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>⟩ ontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought psychologism, notional–deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction rather as socially-functional-and-accordant”. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal
uninstitutionalised-threshold mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supercerogatory-de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms-as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘human prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms—as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that
prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms—as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable notional—firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold’, across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation building up from the prior ones as of their respective elucidation-of-existential-contextualising-contiguity’s—reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought—devolving-as-of-instantiative-context (recurrent-utter-uninstitutionalisation non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive-or-accidented-or-random-mental-disposition as failing/not-upholding—<as-of-apriorising/axiomatising/referencing> rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism—as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument required for base-institutionalisation—ununiversalisation, ununiversalisation failing/not-upholding—<as-of-apriorising/axiomatising/referencing> universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism—as ‘second-level presencing—absolutising-identitive-constitutedness of reference-of-thought’

But then human existential-reality comes with human limited-mentation-capacity-deepening with limited grasp of intrinsic-reality at various stages of human emancipation up to the modern-day, such that social \[10^6\] universal-transparency \[10^7\] (transparency-of-totalising-entailing-as-to-entailing-\[\langle\text{amplituding/formative-epistemicity}\rangle\text{totalising—in-relative-ontological-completeness}\] required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold mental-disposition’ as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context elucidated ontological-normalcy/postconvergence. It points to a fundamental de-mentative/structural/paradigmatic disposition for human temporalities-drives to adhere to the \[\langle\text{amplituding/formative}\rangle\] wooden-language—\{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology\} (failing/not-upholding—\{as-of-apriorising/axiomatising/referencing\} intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence (implicated-epistemic-veracity-of—nonpresencing—\{perspective—ontological-normalcy/postconvergence\}/postdication) of the given registry-worldview/dimension, when
incapable of construing a prospective registry-worldview\textsuperscript{\textdegree}reference-of-thought as providing the resolution for the vices-and-impediments\textsuperscript{\textdegree} associated with such a present registry-worldview/dimension institutionalisation. Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence-\textlangle implicated-epistemic-veracity-of- nonpresencing-\textlangle perspective–ontological-normalcy/postconvergence\textrangle \textrangle) of the notion of ‘human temporal uninstitutionalised-threshold\textsuperscript{\textdegree} mental-disposition’ that dementatively/structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-worldview’s/dimension’s temporality\textsuperscript{\textdegree}/shortness and is non-transcendental to that possibility’: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc. 

[We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant\textsuperscript{\textdegree} (without or hardly any negative consequences at the acceptable socially-functional-and-accordant\textsuperscript{-threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the-\texttextlangle reference-of-thought-as-of-\textrangle incrementational-inrelative-ontological-incompleteness\textsuperscript{\textdegree}—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold\textsuperscript{\textdegree}’ in the same social space that statements of ‘maximal-as-intemporal-operating-modality-of-\texttextlangle reference-of-thought-as-of-\textrangle maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’ are made but with both construed in the conventioning of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction as effectively ‘non-dissociable’, thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality\textsuperscript{\textdegree}-drive (longness-of-register-of—\textdegree) meaningfulness-and-
teleology) but rather about acceptable thresholds for the registry-worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, explaining why uninstitutionalised-threshold are bound to arise successively in the ontological-contiguity—of-the-human-institutionalisation-process (out-of-human temporality) together with corresponding prospective institutionalisations (out of-human intemporalty) with the latter enabling <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as of the notional-contiguity/epistemic-contiguity—<profound-supererogation—of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema> in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology apriorising/axiomatising/referencing—of-existential-contextualising-contiguity —conflatedness with no conventioning complexes’! (As a reminder, the notion of intemporalty is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising—as-of-perceived–social-stake-contention-or-confliction nature of the
being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity as an otherness from any emotional-involvement/subjectification/notional epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predilection of the inquirer’. This elucidation is equally to highlight that the idea of socially-functional-and-accordant ‘modular-thresholds’-of-notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>-dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) The conventioning of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction effectively ‘non-dissociable’ modular construal of temporal-dispositions and intemporal-disposition rather as of socially-functional-and-accordant thresholds, has deterministic implications with regards to ‘interdimensional/transdimensional/transcendental registry-worldview/dimension-level of analysis’ as well as ‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuation-level of analysis’; for construing the implications of such ‘modular-thresholds’-of-notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>-dissociability social-functioning-and-accordance—as-of—social-stake-contention-or-confliction effectiveness-or-ineffectiveness and ontological-resolution as of ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism by way of the grander ontological-normalcy/postconvergence

As ‘emotional-involvement’ is self-centering-and-definitional of human consciousness as of our animate-existential-referencing/subjectification, but actually such reality is otherwise of the same ontologically-veridical nature as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency\textsuperscript{17}—sublimating—nascence,—disclosed—from-prospective-epistemic-digression into which everything else is caught into as superseding—oneness-of-ontology (even though our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{32}—self-referencing-syncretising-as-of-perceived—social-stake-contention-or-confliction will often tend to induce a relatively flawed meaningfulness-and-teleology\textsuperscript{10} construal in this regard, that explain our metaphysics-of-presence—implicit—nondescript/ignorable—void—as-to-presencing—absolutising—identitive-constitutedness mental-disposition). increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a
backseat to extricatory/temporal preconverging–de-mentating/structuring/paradigming and
further so with respect to increasing informality as in the extended-informality-susceptible-to-

transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness across all registry-worldviews/dimensions is what explains the possibility of social transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed reference-of-thought–prelogism -as-of-conviction,-in-profound-supererogation-existentially-veridical-attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at meaningfulness-and-teleology as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism as a social dynamism of protracted

further inducing temporal-dispositions derived- perversion-of- reference-of-thought<as-
effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-

circularity with regards to a registry-worldview’s/dimension’s temporal-dispositions are often
construed rather as circumventive issues as of temporal extricatory preconverging–de-
dementating/structuring/paradigming, and not by ontological-veridicality insight as of de-
dementative/structural/paradigmatic <amplituding/formative–epistemicity>causality–as-to-
projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-
ontological-contiguity with respect to vices-and-impediments. Thus ensuring ontological-
veridical social universal-transparency -(transparency-of-totalising-entailing,-as-to-
entailing- <amplituding/formative–epistemicity>totalising–in-relative-ontological-
completeness ) is de-mentatively/structurally/paradigmatically inherently ‘advantaged
ultimately’ by the social-construct functioning. (But then this can rather be achieved in the
medium to long term as of a crossgenerational transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity import and hardly so in the short-run,
given that in the short-run the issue of the registry-worldview/dimension relative-ontological-
incompleteness -of- reference-of-thought is a drawback in this respect. As the framework of
generalised social referencing of meaningfulness-and-teleology is a circular-pervasiveness
closed-structure as of the habituated predicative-insights for meaningfulness-and-teleology based on the relative-ontological-incompleteness of reference-of-thought of the registry-worldview/dimension as prior (despite the relative-ontological-incompleteness of reference-of-thought induced distractive-alignment-to reference-of-thought <of-apriorising/axiomatising/referencing> and override any such sense of relative pure-ontology apriorising/axiomatising/referencing (of-existential-contextualising-contiguity) — conflatedness as of prospective relative-ontological-completeness of reference-of-thought apriorising/axiomatising/referencing (of-existential-contextualising-contiguity) — conflatedness). So the transcendental meaningfulness-and-teleology implied as of projective-insights about the prospective registry-worldview/dimension predicative-insights of meaningfulness-and-teleology going by its prospective relative-ontological-completeness of reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for meaningfulness-and-teleology’ in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes meaningfulness-and-teleology in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness of reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness of reference-of-thought had moved on to the new/prospective meaningfulness-and-teleology which is now antipodal to his, hence his conliction with his circular-pervasiveness wooden-language {imbued—averaging-of-thought <as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as-of-nondescript/ignorable—void —with-regards-to-prospective-apriorising-implications>} which is equally a reflection of the conliction the village had had with the same prior circular-pervasiveness wooden-language {imbued—averaging-of-thought-
when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-reference-of-thought with regards to meaningfulness-and-teleology construal where Nunez’s ‘seeing of the environment’ reference-of-thought as of it prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ reference-of-thought as of its prior relative-ontological-incompleteness. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a wooden-language-{imbued—averaging-of-thought-} that hardly entertains its own transcendability/de-mentativity, and why transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought despite their respective inherent prior relative-ontological-incompleteness-of-reference-of-thought without room for countenancing new perspective-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to-reference-of-thought-from an ontological-normalcy/postconvergence epistemic/notional-projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews uninstitutionalised-threshold, including our own as positivism–procrypticism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought—<apriorising/axiomatising/referencing> notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought—devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather such a demonstration is more de-mentatively/structurally/paradigmatically, together with all other such demonstrations of the
human limited-mentation-capacity-deepening as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments representing the successive registry-worldviews/dimensions reference-of-thought under which their respective predicative-insights construct their respective ‘meaningfulness-and-teleology’, so grounded axiomatically as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights; is compared imaginarily to ‘mental-dispositions at different successive ascertaining-perspectives unbeknown-to-each other for gauging the overall earth landscape’ (representing analogically ‘different successive registry-worldviews/dimensions for ‘meaningfulness-and-teleology’), construed say at ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as recurrent-utter-uninstitutionalisation), ‘hill-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as base-institutionalisation–ununiversalisation), ‘mountain-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as universalisation–positivism), ‘airplane-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as positivism–procrypticism) and ‘space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as deprocrypticism), rather as successive mental-states/reference-of-thought unbeknown-to-each other in ‘circular-pervasiveness closed-structure of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements’. We know that having never experienced ‘hill-level-
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (base-institutionalisation–ununiversalisation) the ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (recurrent-utter-uninstitutionalisation) will hardly countenance operating the perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights of the former as more ontologically profound, given its ‘circular-pervasiveness closed-structure of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty is that ‘no given perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and by reflex circularly undertaken predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run crossgenerational habituation construed as of de-mentation)
(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with the prior ontologically construed as decentered and preconverging-or-dementing—apriorising-psychologism as of distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing>, with the implication that its logical-dueness doesn’t exist just as the logical-dueness of the animist-reference-of-thought with their God of plane proposition doesn’t ontologically exist.) We can grasp as well that it is the ‘space-satellite-level-height’ perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as deprocryptic) that ultimately provides the ideal ‘ascertaining-perspectives for gauging the overall earth landscape’. Besides, why the explication herein is necessarily implying a prospective-reference-of-thought (as the author in here with a supposed notional-deprocrypticism-reference-of-thought construal as implying a prospective relative-ontological-completeness-reference-of-thought over our positivism–procrypticism), the fact is that any transcendental analysis is caught in two worlds as two different-reference-of-thought in striving to explicate the ontological pre-eminence of the prospective-reference-of-thought as of ontological-normalcy/postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our-reference-of-thought being construed as ‘preconverging-or-dementing—apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing—apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing—apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing—apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing—apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism

just as a notional–deprocrypticism analysis will not engage us on the basis of our procrypticism–or–disjointedness-as-of reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness–of–reference-of-thought of non-positivism and procrypticism–or–disjointedness-as-of reference-of-thought). But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness’–of–reference-of-thought over prior relative-ontological-incompleteness–of–reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God of plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding-formative–epistemicity>totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness–of–reference-of-thought
accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional–deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism–or–disjointedness-as-of-reference-of-thought failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism as preconverging-or-dementing –apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage meaningfulness-and-teleology in positivism–procrypticism terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness–of-reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing –apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation–ununiversalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing –apriorising-psychologism with respect to an implied prospective mental state of universalisation, the ‘mental tools’ available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing –apriorising-psychologism with respect to an implied prospective

basis that human mental capacity is a given as if there is no de-
mentative/structural/paradigmatic issue of relative-ontological-incompleteness of reference-of-thought with no recognition of any such ontological-contiguity—of-the-human-institutionalisation-process as human limited-mentation-capacity-deepening retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion- and-derived perversion-of reference-of-thought as effectively apriorising in nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social
<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity within the framework in reflecting holographically the ontological-contiguity—of-the-human-institutionalisation-process involving human limited-mentation-capacity-deepening. In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental de-
mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism–procrypticism disjointedness-as-of reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology of existential-extrication-as-of-existential-unthought naïve perpetuation in
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\(^2\) of the fundamental vices-and-impediments\(^3\) with both uninstitutionalised-threshold\(^4\), thus explaining the fundamental dilemma of all institutional Establishments in their <amplituding/formative> wooden-language\(^5\) (imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-'nondescript/ignorable–void ’-with-regards-to—prospective-apriorising-implications>\{. Such confusion arises from a misconstruing of what is veridically implied deconstructively/ontological-reconstitutively by \(\text{de-mentation}\) (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics), which implies that ‘any registry-worldview/dimension presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^6\) as of its prior relative-ontological-incompleteness\(^7\)-of-\(\text{reference-of-thought}\)’ is ‘a preconverging-or-dementing\(^8\)-and-decentered-prior-institutionalisation’s—categorical-imperatives/axioms/registry-teleology\(^9\)’ placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^6\) as unsoundness-or-ontological-bad-faith/inauthenticity\(^4\)-of-\(\text{reference-of-thought}\)’ from the ‘prospective registry-worldview/dimension presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^6\) as of its prospective relative-ontological-completeness\(^8\)-of-\(\text{reference-of-thought}\)’ as ‘a postconverging-or-dialectical-thinking\(^2\)-and-centered-prospective-institutionalisation’s—categorical-imperatives/axioms/registry-teleology\(^9\)’ placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^6\) as soundness-or-ontological-good-faith/authenticity\(^4\)-of-\(\text{reference-of-thought}\)’. Certainly, we can recognise the veracity/ontological-pertinence of the above articulation with respect to retrospective registry-worldviews/dimensions placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^6\) as of their prior relative-
ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{84} reference-of-thought while our positivism registry-worldview/dimension placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} is always of prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{84} reference-of-thought. But when it comes to a prospective assessment wherein we are of prior relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{84} reference-of-thought as ‘a preconverging-or-dementing\textsuperscript{19}-and-decentered-prior-institutionalisation’s– categorical-imperatives/axioms/registry-teleology\textsuperscript{100} positivism–procrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} as unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{64}-of-\textsuperscript{84} reference-of-thought’ from the ‘prospective presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} of notional–deprocrypticism as of its prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{84} reference-of-thought’ as ‘a postconverging-or-dialectical-thinking\textsuperscript{20}-and-centered-prospective-institutionalisation’s– categorical-imperatives/axioms/registry-teleology\textsuperscript{100} placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} as soundness-or-ontological-good-faith/authenticity\textsuperscript{69}-of-\textsuperscript{84} reference-of-thought’, we are rather less apt to concur going by our \textsuperscript{4}\textless amplituding/formative–epistemicity\textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} reflex such that such notions as forgiveness/overlooking/resetting and notions of positive psychology are rather just a failure to de-mentatively/structurally/paradigmatically recognise the implied perversion-and-derived-perversion-of-\textsuperscript{7} reference-of-thought\textsuperscript{\textless as-effectively-apriorising-in- nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation \textgreater} as of our relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{84} reference-of-thought, and what we are doing then is ‘re-referencing from the same positivism–procrypticism relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{84} reference-of-thought’ and thus wrongly implying our unde-mentativity hence our
untranscendability for a de-mentative/structural/paradigmatic reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’, and paradoxically thus by implication that there is no relative-ontological-incompleteness—reference-of-thought, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology temporal/shortness-of-register-of—meaningfulness-and-teleology projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of de-mentative/structural/paradigmatic nature of the-Good/understanding/knowledge-reification/ontological-prime-movers-totalitative-framework construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s reference-of-thought is inherently a metaphysics-of-presence—absolutising-identitive-constitutedness construed as postconverging-or-dialectical-thinking—and-centered-prospective-institutionalisation’s—categorical-imperatives/axioms/registry-teleology soundness-or-ontological-good-faith/authenticity reference-of-thought that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence construals/conceptualisations as implied by prospective relative
completeness-of reference-of-thought which rather construes it as a preconverging-or-
dementing-and-decentered-prior-institutionalisation’s–categorical-
 imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity-
 of reference-of-thought. The ontological implication is that beforehand/axiomatically with
 respect to the cross-engagement of a prior relative-ontological-incompleteness-of-reference-of-thought and a prospective relative-ontological-completeness-of-reference-of-thought, the
 former is priorly invalidated into a preconverging-or-dementing-and-decentered-prior-
institutionalisation’s–categorical-imperatives/axioms/registry-teleology unsoundness-or-
ontological-bad-faith/inauthenticity-of-reference-of-thought by the latter as a
postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s–
categorical-imperatives/axioms/registry-teleology soundness-or-ontological-good-
faith/authenticity-of-reference-of-thought, invalidating by implication the logical-
dueness/logical-pertinence as of logical-processing-or-logical-implication—supposedly-
apriorising-in-conviction-as-to-profound-supererogation of the former. This we can grasp
retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our
positivism and the non-positivism/medieval registry-worldview/dimension going by our
prospective relative-ontological-completeness-of-reference-of-thought with respect to its
prior relative-ontological-incompleteness-of-reference-of-thought. But since we have been
habituated as of our existential formation within our wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-
meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-
prospective-apriorising-implications} to be in logical-dueness for logical-processing-or-
logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation by
default and thus always contendingly relevant on the basis of sharing a mutual positivism
reference-of-thought, we will hardly entertain though a notional–deprocripticism cross-
engagement implied invalidation of our logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and thus rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness-of-reference-of-thought construed as disjointedness-as-of-reference-of-thought. But then ironically such a unde-mentativity posture could as well be adopted by a non-positivism/medievalism reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s—categorical-imperatives/axioms/registry-teleology with its logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid by default. This point out that there is necessarily a central growth element of a de-mentative/structural/paradigmatic reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ allowing for de-mentativity and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic amplituding/formative—epistemicity-causality—as-to-projective-totalitative—implications-of-prospective-nonpresencing,—for-explicating-ontological-contiguity of vices-and-impediments of our prior relative-ontological-incompleteness-of-reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply
no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn’t recognise the mortals that we are and we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid ‘human closure of ‘meaningfulness-and-teleology’ which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as a wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology-as-of- 'nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications>)} start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of notional~deprocrypticism prospective relative-ontological-completeness -of- reference-of-thought is restored by doing away with ‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-in’/preconverging-or-dementing –apriorising-psychologism of positivism–procrypticism meaningfulness-and-teleology at its procrypticism uninstitutionalisation as of disjointedness-as-of- reference-of-thought from notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, just as we’ll appreciate that were the animists insistent say on relating to the plane as God of plane to a point implying their potential non-transcendability as of psychoanalytic-unshackling in due course, ‘ontological-veridicality tolerance as stretched-
truth’ is no longer warranted but a direct ‘mental break-in’/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a demonstration might be construed as of a simple paper plane demonstration of ontological-prime-movers-totalitative-framework\textsuperscript{73} principles or extraordinarily a flight from the flight deck with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered \textsuperscript{79}meaningfulness-and-teleology\textsuperscript{100} is more ontologically pertinent. Certainly such a ‘mental break-in’/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism demonstration with regards to our procrypticism\textsuperscript{84} reference-of-thought as of its disjointedness-as-of-\textsuperscript{1} reference-of-thought construed from a notional–deprocrypticism\textsuperscript{84} reference-of-thought perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights will look weird to us going by our circularly pervasive \textsuperscript{4}<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}–procrypticism–or–disjointedness-as-of-reference-of-thought, but it is more of ontological-veridicality/intrinsic-reality even though we are unhabituated to it since it is beyond-the-consciousness-awareness-teleology\textsuperscript{100}<in-existential-extrication-as-of-existential-unthought}\textsuperscript{5} and not yet by social\textsuperscript{104} universal-transparency\textsuperscript{10}–\{transparency-of-totalising-entailing–as-to-entailing–\textsuperscript{4}<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{88}\}, just as had been the case from the perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of all the uninstitutionalised-threshold\textsuperscript{83} reference-of-thought with respect to the ‘mental break-in’/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism of their corresponding prospective institutionalisations\textsuperscript{84} reference-of-thought. The bigger point being that by definition a \textsuperscript{84}reference-of-thought doesn’t fathom the nature and degree of its
relative-ontological-incompleteness of reference-of-thought as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. (Thus suggesting base-institutionalisation in recurrent-utter-uninstitutionalisation, implying universalisation in base-institutionalisation–ununiversalisation, suggesting positivism in universalisation–non-positivism/medievalism and suggesting notional–deprocrypticism in positivism–procrypticism will be perceived initially as ‘bullshit’ going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence’—existentialism-form-factor as of our temporal inclination to subjectification/nombrilism/self-referencing. But then human temporal inclination to utter expletives is not intellectual argument but a mark of intellectual ineptness, with the ‘ontologically relevant’ intellectual issue being about understanding the ‘habituation exercise’ as of ontological-primemovers-totalitative-framework and percolation-channelling—indeferential-formalisation-transference involved in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring behind the ontological-contiguity—of-the-human-institutionalisation-process as pertinent for notional–deprocrypticism ‘without in the very least entertaining’ the wooden-language ⟨imbued—averaging-of-thought—⟩ mental-reflex as has been the case across all the institutional-cumulation/institutional-recomposure—⟨as-to—historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective–ontological-normalcy/postconvergence-reflected—epistemicity-relativism⟩ that has always been a drawback as of temporal extricatory preconverging–dementating/structuring/paradigming and parasitising/co-opting inclination subpar to the
warranted ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality perpetually upholding the currency in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process across-the-times; as at this point, intellectual commitment overtly meets ontology.) Explained in other terms, implying in a non-positivism social-setup that notions-and-accusations-of-sorcery are inherently vices-and-impediments as of the transcendental prospective positivism prospective relative-ontological-completeness—of—reference-of-thought will-not-be-convincing-on-a-par-with-other-argumentators in that social-setup but rather for such temporal/shortness-of-register-of—meaningfulness-and-teleology purpose requires making a ‘temporal palliation argument’ of the type oneself or another person is not involved in sorcery or a counterargument that the accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-ontological-incompleteness—of—reference-of-thought, to-be-more-convincing-on-a-par-with-other-argumentators in that non-positivism social-setup (but then all this will wrongfully validate superstition and thus fail the very point of ontology/aetiologisation/ontological-escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity as intemporality— asymmetric-subsumption-of-temporality’/asymmetrisation and not a temporal extrication exercise of ‘social-aggregation-enabling as of symmetrisation-of—reference-of-thought, as this is in effect an ontologically-non-veridical-or-flawed <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’). Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism—and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior
relative-ontological-incompleteness reference-of-thought social referencing of meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution construed as of de-mentation\{supererogatory ontological de-mentation-or-dialectical de- mentation—stranding-or-attributive-dialectics\} by superseding the prior non-positivism prior relative-ontological-incompleteness reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness reference-of-thought by ‘continuous habituation going by the latter’s ontological-primemovers-totalitative-framework\} in the long run as superseding the prior beyond-the-consciousness-awareness-teleology\<in-existential-extrication-as-of-existential-unthought>\} and initiating the appropriate prospective social universal-transparency\{transparency-of-totalising-entailing-as-to-entailing-\<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness } that will de-mentatively/structurally/paradigmatically harken back to undermine the postlogism-and-conjugated-postlogism grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic mindset\reference-of-thought that the possibility of ‘ontologically’ and ‘not palliatively’ resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the crossgenerational resolution of our positivism–procrypticism prior relative-ontological-incompleteness reference-of-thought as of its circular-pervasiveness in countenancing of procrypticism–or–disjointedness-as-of reference-of-thought from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of meaningfulness-and-teleology as conceptualising, articulating and preempting such disjointing/disparateness/disentailing meaningfulness-and-
teleology of our positivism–procrypticism that is the de-mentative/structural/paradigmatic resolution as of prospective relative-ontological-completeness of reference-of-thought that can de-mentatively/structurally/paradigmatically harken back in undermining the circular-pervasiveness in countenancing of ‘disjointedness-as-of-reference-of-thought’ and the enculturation/endemisation of the manifest postlogism -and-conjugated-postlogism in our positivism–procrypticism as psychopathy and social psychopathy, and so going beyond just a temporal palliative resolution within a positivism–procrypticism circular-pervasiveness closed-structure countenancing ‘disjointedness-as-of-reference-of-thought’ of meaningfulness-and-teleology, beyond-the-consciousness-awareness-teleology-<in-existentiel-extrication-as-of-existential-unthought>, and hence overlooking the de-mentative/structural/paradigmatic ontological vices-and-impediments implications of postlogism -and-conjugated-postlogism including psychopathy and social psychopathy arising given the relative-ontological-incompleteness of reference-of-thought of our procrypticism as disjointedness-as-of-reference-of-thought. This explains how and why re-originary–as-unenframed/unbeholding/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking -‘projective-insights’/epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation} ideas can supersede conventionalised ideas where the former provide in the big picture the possibility for the social-construct to function better by social universal-transparency⟨transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative-epistemicity⟩totalising–in-relative-ontological-completeness⟩ at a crossgenerational depth of analysis, and equally explains human historical suspicions of new ideas just in case their social universal-transparency⟨transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative-epistemicity⟩totalising–in-relative-ontological-completeness ⟩ turn out to be better and possibly leading to the dismantling of the prior and vested and attendant interests. construal/conceptualisation’. The fact is by mental-reflex we relate to social meaningfulness-and-teleology by apriorising/axiomatising/referencing-of-existential-contextualising-contiguity—constitutedness as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity which by habit or chance will often turn out to be as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought—devolving-as-of-instantiative-context as of the institutionalisation ambi of the domain-of-concern procedingly so-established/so-institutionalised by maximalising-recomposuring-for-relative-ontological-completeness unenframed-conceptualisation, and so with hardly any consequence for our methodological imprecision/inexactitude where the established/institutionalised reference-of-thought—categorical-imperatives/axioms/registry-teleology is not ontologically superseded as at uninstitutionalised-threshold. But that is technically/abstractly speaking inappropriate from an ontological-veridicality perspective requiring unassailability/reliability/dependability at uninstitutionalised-threshold. As explained elsewhere and implied above it is the conceptualising (by maximalising-recomposuring-for-relative-ontological-completeness unenframed-conceptualisation) of a reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology is not ontologically superseded as at uninstitutionalised-threshold. And that reference-of-thought—categorical-imperatives/axioms/registry-teleology as of apriorising/axiomatising/referencing-of-existential-contextualising-contiguity conflatedness that enables such a certitude at uninstitutionalised-threshold of an epistemic-totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality by its specific institutionalisation. And that reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology

of the social at uninstitutionalised-threshold involves a totalising-entailing/nested-congruence social construal/conceptualisation that necessarily should factor in the reality of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—existentialism-form-factor but we fail to do this due to our

disposition as of institutionalisation and thus wrongly implying intemporal construal as of our secondnatured institutionalisation which while inconsequential within the amits institutionalisation is not ontologically-veridical at the institutionalisation uninstitutionalised-threshold with the latter rather requiring a temporal-to-intemporal appraisal as of metaphysics-of-absence

as its reference-of-thought—categorical-imperatives/axioms/registry-teleology, for

The implication is that postlogism psychopathy and other human temporal phenomena (and so, across all registry-worldviews) which speak of uninstitutionalised-threshold are often wrongfully construed on the basis of intemporal secondnatured institutionalisation human nature whereas the apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—conflatedness requires ‘synopsising-depth of a human temporal-to-intemporal nature’ and so by apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—conflatedness to establish the uninstitutionalised-threshold reference-of-
thought—categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, rather as of maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation (construed as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposuring to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as should be the case at all uninstitutionalised-threshold, and so over the mental-reflex of assuming secondnatured institutionalisation reference-of-thought/axiomatic-construct as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity (construed as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposuring out of the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as the latter is only practically effective when dealing with an already established human registry-worldview’s/dimension’s institutionalisation/institutionalised-construct but not at uninstitutionalised-threshold which require their own new specific reference-of-thought—categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology which so established then enables the practical effectiveness of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity. Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency—(transparency-of-totalising-entailing-as-to-entailing—amplituding/formative—epistemicity—totalising—in-relative-ontological-completeness) level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold situation.

This example is exactly along the lines of the\(^{100}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^{100}\) needed for construing postlogism /psychopathy and conjugated-postlogism\(^{100}\) as of its social model at uninstitutionalised-threshold\(^{101}\), and so by way of\(^{55}\) maximalising-recomposuring-for-relative-ontological-completeness\(^{78}\)—unenframed-conceptualisation \(\text{the latter is what sets up}\) apriorising/axiomatising/referencing/intelligibility/setup/measuring-instruments and is of imbricatedness/threadedness/recomposing existential-contextualising-contiguity\(^{56}\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^{88}\) of \(\text{reference-of-thought–devolving-as-of-instantiative-context, in contrast to}\) elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity\(^{39}\) which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity\(^{19}\) on the basis of the established\(^{84}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^{100}\). Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social\(^{17}\) meaningfulness-and-teleology\(^{100}\) before the institutionalisation of such a specific uninstitutionalised-threshold\(^{101}\) takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed
social elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity\textsuperscript{10}. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism–procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated—meaningfulness-and-teleology\textsuperscript{100} going by the visitor’s relative-ontological-incompleteness—reference-of-thought as of positivism–procrypticism, while the explainer of the situation has factored in notional–deprocrypticism —reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{00}, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{100} to preempt the induced procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated—meaningfulness-and-teleology\textsuperscript{00} from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of notional–deprocrypticism —reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{00}, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{100} to preempt the slanted inducing of procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated—meaningfulness-and-teleology\textsuperscript{00} and gives up on positivism–procrypticism —reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{00} with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold\textsuperscript{103} with respect to the childhood psychopathy, a
new notional-deprocrypticism reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology has superseded the prior positivism–procrypticism reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism/psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality+(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) by formality dynamics; with the implication of lack of social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness) as the manifestation is beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought> at this uninstitutionalised-threshold, together with the inherent human complex of non-transcendability and hence unde-mentativity across all the registry-
instantiative-moulting involving childhood psychopathy to adulthood psychopathy development, and corresponding evolving of social relations as of dynamic-cumulative-aftereffect ‘disjointedness-as-of-’reference-of-thought’-misappropriated–‘meaningfulness-and-teleology involving compelling–nonconviction/madeupness/bottomlining

Supposed with regards to a case of notions-and-accusations-of-sorcery as highlighted before as of a social-setup whose relative-ontological-incompleteness\textsuperscript{1} of reference-of-thought is non-positivistic, a positivism minded interlocutor arguing that notions-and-accusations-of-sorcery do not exist upon an accusation of sorcery is literally undermining itself but is seen as ontologically necessary for the crossgenerational possibility of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Supposed however that the interlocutor isn’t an isolated individual but a member from a positivistic society bringing about a cultural diffusion in the non-positivistic society such that the latter looks up to the former by its prospective relative-ontological-completeness\textsuperscript{2} of reference-of-thought as it effectively has greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative technology, then in this case the non-positivistic social-setup will at least in ad-hoc instances be circumspect in countenancing that notions-and-accusations-of-sorcery do not exist as of \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}. This new positivism \textit{reference-of-thought–categorical-imperatives/axioms/registry-teleology},\textsuperscript{9} for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology will more likely be taken-up-fully/habituated only crossgenerationally in the middle run as the mental-reflex will constantly relapse into notions-and-accusations-of-sorcery and superstition generally as of the prior non-positivism \textsuperscript{9} reference-of-thought–categorical-imperatives/axioms/registry-teleology,\textsuperscript{9} for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology,\textsuperscript{9} highlighting that a postlogism like psychopathy in our positivism–
procrypticism or one associated with notions-and-accusations-of-sorcery in non-positivism social-setup is not truly speaking an isolated phenomenon as construed from an individuation-level of analysis but speaks in the bigger picture of an underlying registry-worldview/dimension registry-worldview/dimension-level relative-ontological-incompleteness of reference-of-thought as beyond-the-consciousness-awareness-teleology and ‘lack of constraining social universal-transparency’-{transparency-of-totalising-entailing,-as-to-entailing-amplituing/formative–epistemicity}totalising–in-relative-ontological-completeness}; such that implying that our prior positivism–procrypticism, as of its categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, cannot longer be upheld at such uninstitutionalised-threshold but requiring in lieu a notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology will be difficult to countenance but for a crosstagenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring since the issue is one of registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–as-Being-or-ontological-or-existential–defect. Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a
positivism–procrpticism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity\textsuperscript{20} in-reification\textsuperscript{87}/dereification\textsuperscript{87} entertains/is-cognisant-and-integrative-of/is-in-notional-contiguity/epistemic-contiguity \(<\text{profound-supererogation - of-mentally-aestheticised–postconverging/dialectical-thinking −qualia-schema}>\text{−with}

superstitious claims in its ‘meaningfulness-and-teleology\textsuperscript{100}. An explainer to the visiting stranger in the non-positivism social-setup case about the whole situation would have articulated at the individuation-level of analysis a prospective ‘logically-due prelogism’\textsuperscript{77}−as-of-conviction,−in-profound-supererogation \(<\text{existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at}>\text{−apriorising/axiomatising/referencing−(of-existential-contextualising-contiguity —conflatedness\textsuperscript{12} as of positivism −reference-of-thought–categorical-imperatives/axioms/registry-teleology \textsuperscript{100},−for-aposteriorising/logicising/deriving/intelligising/measuring−‘meaningfulness-and-teleology\textsuperscript{100}, going by their familiarisation with the childhood psychopathy ‘logically-undue postlogism’\textsuperscript{78}−as-of-\textsuperscript{19}compulsing–nonconviction/madeupness/bottomlining−\(<\text{decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing}>\text{−induced-disontologising’−of-the–‘attendant-intradimensional–ontologising’−imbued−\text{<contextualising/existentialising–attendant-ontological-contiguity> ,−in-shallow−supererogation }\text{−<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>}>\text{denaturing\textsuperscript{15} as of non-positivism −reference-of-thought–categorical-imperatives/axioms/registry-teleology \textsuperscript{100},−for-aposteriorising/logicising/deriving/intelligising/measuring−‘meaningfulness-and-teleology\textsuperscript{100},>\text{2022}}\).
as of prospective relative-ontological-completeness\textsuperscript{8} of reference-of-thought. This is further rendered difficult by a natural human ‘emotional involvement’ driven social-aggregation-enabling as of human condition that undermines intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. This insight equally explains the pertinence of understanding postlogism /psychopathy in general as an epiphenomenon that can provide deeper insight about human nature given its ‘lateral-and-transversality\textsuperscript{<} of affirmative-and-unaffirmative–disambiguated-motif-and-apriorising/axiomatising/referencing\textsuperscript{102} disruptive nature on human \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100}, and with the preconverging–de-mentating/structuring/paradigming relatively easily perceived at childhood, much like the early modern human biologists relatively simplistic but counterintuitive-as-of-their-epochs understanding of disease provided deeper insight in understanding how the complexity of the human body works. Both individuation-level understanding of postlogism\textsuperscript{78} in a non-positivism as of notions-and-accusations-of-sorcery and positivism social-setup as of psychopathy and social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism\textsuperscript{78} individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism \textsuperscript{8} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{00},-for-aposteriorising/logicising/deriving/intelligising/measuring–\textsuperscript{7} meaningfulness-and-teleology\textsuperscript{100} and a conventioning positivism–procrypticism as procrypticism in lieu of an ontologically-veridical notional–deprocrypticism \textsuperscript{84} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{00},-for-aposteriorising/logicising/deriving/intelligising/measuring–\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100}. 
That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism78/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to55/reference-of-thought-of-apriorising/axiomatising/referencing> as undermining apriorising/axiomatising/referencing-of-existential-contextualising-contiguity—conflatedness induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought.

Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism78 as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy’. The explainer of the situation ‘as of its reference-of-thought–prelogism-as-of-conviction,-in-profound-supererogation<-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> is in an ‘intemporality77-asymmetric-subsumption-of-temporality’/asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. Hence the explainer of the situation construes the apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness as of its asymmetrisation with respect to the visitor whose reference-of-
supererogation haven’t got any ‘existentially/ontologically transcendental-enabling/sublimating/supererogatory—de-mentativity reference-of-thought’ given that they are in arrogation/usurpation/co-opting but rather the reality of their perversion-and-derived-perversion-of reference-of-thought as-effectively-apriorising-in-
comprehensive framework of \textsuperscript{56}meaningfulness-and-teleology \textsuperscript{100} such that any arising temporal disruption of \textsuperscript{56}meaningfulness-and-teleology \textsuperscript{100} ‘has nothing to do with constituting \textsuperscript{56}meaningfulness-and-teleology \textsuperscript{100} as of the temporal disruption prior relative-ontological-incompleteness \textsuperscript{89}-of- \textsuperscript{84}reference-of-thought’, but rather \textsuperscript{56}meaningfulness-and-teleology \textsuperscript{100} is reconstrued as postconverging–de-mentating/structuring/paradigming from the very prospective relative-ontological-completeness \textsuperscript{88}-of- \textsuperscript{84}reference-of-thought itself. This transcendental knowledge construct establishes a dominant social framework of knowledge grounded on its inherent intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrerogatory—de-mentativity ontological-prime-movers-totalitative-framework (as it supersedes the prior beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought), and then imbues the prospective institutionalisation with social validity and social structure of meaningfulness-and-teleology as of deferential-formalisation-transference. This is the social-setup of the prospective institutionalisation reference-of-thought as of pure-ontology apriorising/axiomatising/referencing—of-existential-contextualising-contiguity—conflatedness for prospective relative-ontological-completeness reference-of-thought meaningfulness-and-teleology. But then in due course and at the uninstitutionalised-threshold of this prospective institutionalisation reference-of-thought, its organic-knowledge (as driven by intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) wanes as the reality of human notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-

Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a ‘sense of rightness’ is all that matters before the law, and this extends to human meaningful and organisational principles in general. Such that temporal-dispositions fulfilment of such ‘mechanistic’ effectiveness as mechanical-knowledge ‘without the non-constraining and abstract organic mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the emanant-kind that-had-driven the reference-of-thought construal in the first place’ distort in due course
organic \textsuperscript{56} meaninglessness-and-teleology\textsuperscript{100}, as of temporal mental-dispositions of shortness-of-register-of-\textsuperscript{57} meaningfulness-and-teleology\textsuperscript{100}. Thus such implied prospective \textsuperscript{54} reference-of-thought, social organisations and institutions as organic \textsuperscript{5} meaninglessness-and-teleology\textsuperscript{100} then tend to develop ‘subcultural reorientations’ that are ‘mildly alien’ and ‘on-occasional gravely alien’ to the (especially in the extended-informalities of the social and institutions) original organic-knowledge conceptualisation as of the implied prospective \textsuperscript{54} reference-of-thought social and institutions \textsuperscript{5} meaninglessness-and-teleology\textsuperscript{100}. Thus for an ontological-\textsuperscript{84} reference-of-thought \textsuperscript{84} reference-of-thought, it is critical to grasp both the inherent ontological-veracity of the \textsuperscript{56} meaninglessness-and-teleology\textsuperscript{100} behind the construal of notional-deprocrypticism and the ‘reality of a human condition of temporal-dispositions distinctive-alignment-to-\textsuperscript{29} reference-of-thought-<of-apriorising/axiomatising/referencing>\textsuperscript{29}, and so as of notional-conflatedness /constitutedness\textsuperscript{12} to-conflatedness\textsuperscript{12} as \textsuperscript{40} historiality/ontological-eventfulness\textsuperscript{37} /ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> in articulating a (protensive-consciousness deneuterising -induced)- reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness, that is preemptive of a least-common-denominator-of-social-functioning-and-accordance-effecting to bare mechanical-knowledge as of <amplituding/formative> wooden-language-(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing - narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology } inducing threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-psychologism> as of

The point of this distinction made between the nature of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ registry-worldview’s/dimension’s reference-of-thought and ‘human temporal uninstitutionalised-threshold mental-disposition’ registry-worldview’s/dimension’s reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between ‘cumulated institutionalisation’ (which we carry by being secondnatured at the backend in reflecting
holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-
human-institutionalisation-process as of human limited-mentation-capacity-deepening leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality/longness (which overall is no more greater than that of humans of previous successive registry-worldviews/dimensions); and further that we are just of the same ‘human temporal uninstitutionalised-threshold mental-disposition’ as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold, which choices when of intemporality-drive solipsistic-choices are maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation leading to prospective institutionalisations. This notion of human mental-disposition and by extension meaningfulness-and-teleology as comprising, rather as a more complete and grander conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold -facet, so-construed by metaphysics-of-absence{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}, carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. Such metaphysics-of-absence considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’), like deferential-formalisation-
transference, ordered-construct, percolation-channelling-<in-deferential-formalisation-transference> and transversality-<for-sublimating–existential-eventuating/denouement>~of- affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’. Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology (as ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaningfulness-and-teleology as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-
existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-primemovers-totalitative-framework and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling-<in-deferential-formalisation-transference> possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturizing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling-<in-deferential-formalisation-transference> and transversality-<for-sublimating-existential-eventuating/denouement>-of-affirmative-and-unaffirmative-disambiguated-'motif-and-apriorising/axiomatising/referencing. In another respect, with regards to scientific meaningfulness-and-teleology and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the
greater human Good’, as at the prior as uninstitutionalised-threshold when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal wooden-language {imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable-void-with-regards-to-prospective-apriorising-implications} mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness-of-reference-of-thought increasingly defer domains of meaningfulness-and-teleology more and more to formal constructs while increasingly reducing the sphere of the extended-informality-{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology} as of its free-for-all nature. The bigger point being that even in our positivism–procrypticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of
psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought}<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications} mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding
virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal
<amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-

dispositions and projections’. Hence the construal of knowledge construct in such domains that
are spurious and blurry as with respect to postlogism psychopathy social implications should
as of precedence be about articulating the illuminating insight that ultimately allows for the
attainment of their own deferential-formalisation-transference based on ‘social consensus as of
relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions

dispositions and projections’, and so in order to release the inherent virtue imbued in true
knowledge. The afore elucidations are mainly to point out that it is naïve to construe the
analysis of postlogism phenomenon including psychopathy on the assumption of an overall
‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social

epistemic/notional-projective-perspective, reflected from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional-deprocrypticism registry-worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence-implicit-epistemic-veracity-of-nonpresencing-perspective-ontological-normalcy/postconvergence we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality-drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities-drives such that it is endemised/enculturated in various temporality/shortness shades (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the wooden-language-imbued-averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of–nondescript/ignorable–void-with-regards-to-prospective-apriorising-implications in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal preconverging–dementating/structuring/paradigming and not
intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation
postconverging–de-mentating/structuring/paradigming as when it fails to appreciate the
virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments ! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting holographically-<conjugatively-and-transfusively>the ontological-contiguity —of-the-human-institutionalisation-process of institutional-cumulation/institutional-recomposure ⟨as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’⟩⟩, but rather the intemporal mental-disposition (intemporal-disposition) to strive as maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for base-institutionalisation to supersede recurrent-utter-uninstitutionalisation equates that striving for universalisation to supersede base-institutionalisation–ununiversalisation equates that striving for positivism to supersede universalisation–non-positivism/medievalism equates that striving for notional–deprocrypticism to supersede positivism–procrypticism; as the highest human virtue of ontological import. Since the inducing of institutionalisation-as-a-secondnatured-construct across all institutional-cumulation/institutional-recomposure ⟨as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’⟩⟩ or registry-worldviews/dimensions inevitably implies a dichotomy of reference-of-thought modalities of the same perpetual temporalities-drives and intemporality—drive (given human-subpotency–

than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an
individual of a positivistic insight found themselves in a non-positivistic community, whether
base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or
so, but the positivistic individual knows it is a case of an infection with the idea that a certain
root or leaf in the nearby forest can be used as cure, however, the community rather believe that
the forest is an evil forest and this will just make things worse for them overall. Obviously, as
of its positivism prospective relative-ontological-completeness\(^8\)-of\(^8\)-reference-of-thought, by
‘intemporal-prioritisation-of-\(^1\) reference-of-thought’–as-conflatedness\(^7\)-or-ontological-

teleology\(^{10}\) that the evil forest brings bad omen substituting it with the positivistic one that the
root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more
than just the circumstantial situation will equally appreciate that positivistic thinking over
animistic or medieval thinking will go a long way in improving the community’s existence. It is
interesting to grasp the difference in the dereifying and reifying construal of existential-
contextualising-contiguity\(^9\) here between the non-positivists mindsets and the positivist
mindset as of underlying relative-ontological-incompleteness\(^9\) and relative-ontological-
completeness\(^8\) \(^8\)reference-of-thought and respectively as of their divergent non-positivists
dereification\(^7\) perspective and positivist reification\(^7\) perspective; as seeing the positivist
stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the
non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be
noted here that seeing the positivist walking into the evil forest will be branded as
proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition
going by their supernatural conception of existential-contextualising-contiguity\(^9\)–in-
reification\(^7\)/dereification\(^7\) as of their prior relative-ontological-incompleteness\(^9\)-of-
reference-of-thought, contrasted with the positivist naturalist conception of existential-
contextualising-contiguity\(^9\)-in-reification\(^7\) as-seeking-a-cure as of its prospective relative-
ontological-completeness of reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrypticism registry-worldview/dimension as of its prior relative-ontological-incompleteness of reference-of-thought, as the notion of proof/evidence is more critically tied down to existential-contextualising-contiguity-reification as of singularisation-projected epistemic-immanence/veridical-epistemic-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity -profound-supererogation mentally-aestheticised-postconverging/dialectical-thinking -qualia-schema> in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter meaningfulness-and-teleology as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness of reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in totalising-self-referencing-syncretising/circularity/interiorising/akrasiac-drag ; with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning contortion is rather in transversality—<for-sublimating–existential-eventuating/denouement>—of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ of the prior relative-ontological-incompleteness—of—reference-of-thought and the contorted prospective relative-ontological-completeness—of—reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness—of—reference-of-thought projection is what marks ‘transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness—of—reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-completeness—of—reference-of-thought but for the induced crossgenerational transcendental metaphoricity possibility, and the contortion is more of a token as of the metaphoricity possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and without which token contortion there is ‘no existential reference for such transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, as a gesturing of metaphoricity that is ‘beyond the prior relative-ontological-incompleteness—of—reference-of-thought full meaningfulness-and-teleology implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity possibility for prospective relative-ontological-completeness—of—reference-of-thought’; as transcendental instigation can’t be of ordinary inclination at one moment and at another moment of
transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness\(\text{of}\) reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity into the ordinariness of prior relative-ontological-incompleteness\(\text{of}\) reference-of-thought thus psychoanalytically/ exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness\(\text{of}\) reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/ axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism as of contortive metaphoricity\(\text{as}\) gesturing for prospective relative-ontological-completeness\(\text{of}\) reference-of-thought as of nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism\(\text{as}\) reasoning-from-results/afterthought or institutional asceticism\(\text{as}\), different from asceticism\(\text{as}\) reasoning-from-results/afterthought or institutional asceticism\(\text{as}\), should basically be understood as of the general notion that all human meaningfulness-and-teleology\(\text{are}\) naturally ‘correlate-aesthetic-constructs as of the various reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation in successive prior relative-ontological-incompleteness\(\text{towards-ontological-completionesss}\) of-deprocrypticism’ as of their specific reflection of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ (just as implied with the case highlighted herein of the ‘ill-health<amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’); and are so derived as of ontological-faith-notion-or-ontological-fideism—imbued-

where it is effectively preconverging-or-dementing—apriorising-psychologism as its

reference-of-thought identitive-constitutedness-as—epistemic-totality—dereification—in-
aposteriorising/logicising/deriving/intelligising/measuring. Hence such a notion cannot be construed on the basis of ordinarily assumed meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it is rather submerged/drowned into it by mental-disposition reflex; but rather as implied as of reasoning-through/messianic-reasoning, such a hermeneutic/reprojecting/supererogating/zeroing psychology is more about instigating a parrhesiastic psychoanalytic-unshackling soul-searching acumen. In this regard, it is akin for instance to budding-positivism reasoning-through/messianic reasoning implied within a non-positivism/medievalism social-setup, in the sense that that budding-positivism reasoning-through/messianic reasoning then ‘is-not reasoning as-of-yet’ as reasoning is then as of the non-positivism/medievalism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘as non-positivism reasoning susceptible to superstition and medieval-scholasticism-like pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation construed as universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism but not yet as of rational-empiricism’; with such budding-positivism rather a metaphoricity instigation of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic soul-searching for the psychoanalytic-unshackling of the human subject as of a de-mentative/structural/paradigmatic Lacanian displacement/decentering of the human subject from its prior ‘epistemic-totality/reference-of-thought/epistemic-totalising—self-referencing-syncretising/circularity conception of meaningfulness-and-teleology as of non-positivism/medievalism’ to a prospective ‘epistemic-totality/reference-of-thought/epistemic-

This has the very same metaphoricity\textsuperscript{67} implications in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{62}—of-the-human-institutionalisation-process\textsuperscript{58}, as such a hermeneutic/reprojecting/supererogating/zeroing psychology supersedes our ordinary \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{10} aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question our positivism/rational-empiricism manifestation of \textsuperscript{8}procrypticism–or–disjointedness-as-of- reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation for \textsuperscript{8}reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, but rather as of its reasoning-through/messianic-reasoning is more about instigating prospective ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and- apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic soul-searching, for the psychoanalytic-unshackling of the human subject as of a dementative/structural/paradigmatic Lacanian displacement/decentering of the human subject ‘epistemic-totality\textsuperscript{8}/reference-of-thought/epistemic-totalising\textsuperscript{12}~self-referencing-syncretising/circularity conception of \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{10} as from prior positivism–procrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of--\textsuperscript{50}meaningfulness-and-teleology\textsuperscript{10} as of prospective \textsuperscript{1}deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as the
fundamental de-mentative/structural/paradigmatic resolution of the ‘positivism–procrypticism human subject superegoic vices-and-impediments’. It should be noted that the way the construction of knowledge works at reference-of-thought-level of reasoning-through/messianic-reasoning is utterly counterintuitive to how we perceive prospective elucidation of human knowledge and emancipation going by the given reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring.

In this regard, we can construe that even the wooden-language (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void’—with-regards-to—prospective-apriorising-implications) mental-disposition in a non-positivism/medievalism social-setup has a sense of human knowledge development and emancipation but with a mental-reflex that such a conception is necessarily by way of the non-positivism/medievalism social-setup reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring.

the route for ontologically-veridical human knowledge transformation and emancipation as of prospective positivism is very much alien to the non-positivism/medievalism cloistered-consciousness. Likewise, the \textit{amplituding/formative} wooden-language\{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—<as-of-‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications\} mental-disposition in our positivism–procrypticism effectively do has a sense of human knowledge development and emancipation but as of a mental-reflex that such a conception is necessarily by way of our positivism–procrypticism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of the reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology\textsuperscript{100} aposteriorising/logicising/deriving/intelligising/measuring. In the same vain, the idea that ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ articulation of prospective ontologically-uncompromised—referentialism notional—deprocrypticism reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology\textsuperscript{100} aposteriorising/logicising/deriving/intelligising/measuring is the route for ontologically-veridical human knowledge transformation and emancipation in futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} as of prospective notional—deprocrypticism is very much alien to our positivism–procrypticism cloistered-consciousness. In both instances the notion of prospective metaphoricity\textsuperscript{27} is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-invested ‘epistemic-totality\textsuperscript{30} reference-of-thought/epistemic-totalising self-referencing—
syncretising/circularity conception of meaningfulness-and-teleology which effective dislodgment/displacement/decentering is as of a crossgenerational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-ontological-completeness! In fact such an insight can be extended across ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing—as-veridical-epistemic-determinism <amplituding/formative-epistemicity>causality—as-to-projective-totalitative-implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity’; to imply that the state of recurrent-utter-uninstitutionalisation is cognisant of emancipation but doesn’t anticipate that emancipation as of prospective relative-ontological-completeness is rather as of base-institutionalisation reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation, and likewise the latter doesn’t anticipate the universalisation reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation, with the latter not anticipating our positivism reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation which itself doesn’t anticipate prospective ontologically-uncompromised—referentialism deprocrypticism. We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions reference-of-thought is rather one that shouldn’t wrongly be reinforcing/propping-up the human subject as if a given reference-of-thought in prior relative-ontological-incompleteness as of dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemic-determinism has its very own complete transformative and emancipative potential as if of fully-attained singularisation-as-to-the-nondisjointedness/entailment-of-prospective-

As of its inherent organic knowledge, such a hermeneutic/reprojecting/supererogating/zeroing psychology parrhesiastic articulation as herein ‘doesn’t do gimmicks of communication’ as if to imply any favour whatever as of ‘emotional or whatever feel-good trading for the appreciation of the possibility for prospective human emancipation’, since by its ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ it is beyond the idea of convincing for convincing sake as it is simply ‘a blunted eliciting of a solipsistic sense of intemporal/longness-of-register-of—meaningfulness-and-teleology projection in any human and no more’ with no point going beyond that point as it then becomes as of intellectual-and-moral apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema; and so, as its essential meaningfulness-and-teleology is as of a solipsistic transversality—<for-sublimating—existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ reflection of

in its ecstatic singularity, on the same token that a natural scientist is in a transversality—for-sublimating–existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ reflection of its object of study as of existence as the ontologically ‘superior party’ without any need to be involved in any bogus exercises that may imply that gravity may not be 9.8 m/s² on earth if any given human subject isn’t accommodated for in some way somehow however faintly, be it that it may be the case that gravity is not 9.8 m/s² but that as well needs to be established as of the ontologically ‘superior party’ that is existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation

as of ontological-primemovers-totalitative-framework. But then the human reality across all registry-worldviews/dimensions, isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its uninstitutionalised-threshold and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed
reproducibility—mathesis/motif/thrownness-disposition—as—reproducibility-of-aestheticisation’ of human ‘amplituding/formative–epistemicity>totalising/circumscribing/delineating meaninglessness-and-teleology reference-of-thought’ devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-dialectical-thinking —apriorising-psychologism’ prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-dementing —apriorising-psychologism uninstitutionalised-threshold, which it tends to represent as nondescript/ignorable—void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives), for the possibility of its prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity into prospective institutionalisation. This reality is known as human supererogatory—de-mentative constraint’ to prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of the possibility of prospective relative-ontological-completeness—of-reference-of-thought. Human supererogatory—de-mentative constraint is fundamentally associated with poor universal-transparency{transparency-of-totalising-entailing, as-to-entailing} amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness} with respect to social-stake-contention-or-confliction at uninstitutionalised-threshold. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of wooden-language{imbued—temporal—mere—form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology} as of the prior institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology that stifle the transcendence-and—
sublimity/sublimation/supererogatory~de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness-of-reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness, for resolving a given registry-worldview/dimension vices-and-impediments; this notion of human supererogatory~de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity as implied by a ‘postconverging-or-dialectical-thinking—psychology or psychology-mentation-dynamics or natural~psychological-dynamics’ that emphasises the ‘Lacanian subject’ growth as of de-mentation—[supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics], rather than a second-guessing mented or stigmatic psychology that fails to integrate the decisively ontological transformative implications of human psychology as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought, epistemicity causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity, and thus making the given presence reference-of-thought as our positivism—procrypticism ‘all-determinative of what can be construed as psychological emancipation’ as of its epistemicity totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag despite the fact of its prior relative-ontological-incompleteness reference-of-thought to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism prospective relative-ontological-completeness reference-of-

about emancipatory \textsuperscript{10}universal \textsuperscript{29}meaningfulness-and-teleology\textsuperscript{10}’, and so as the very contrary

syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}—incrementalism-in-relative-ontological-incompleteness\textsuperscript{59}—enframed-conceptualisation is rather counter to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition by its deterministic hanging onto prior relative-ontological-incompleteness—of-reference-of-thought reasoning-from-results/afterthought while ignoring/overlooking the ontological-veracity implications of the trace/ontological-aesthetic-tracing\textsuperscript{89} of reifying existential-contextualising-contiguity\textsuperscript{89}, and thus adopting a dereification\textsuperscript{87} posture as enabled by ‘lack of constraining social universal-transparency\textsuperscript{104}—(transparency-of-totalising-entailing,—as-to-entailing—\textsuperscript{<amplituding/formative—epistemicity>totalising—{in-relative-ontological-completeness}>’). Such a human disposition to decontortion at uninstitutionalised-threshold\textsuperscript{103} arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness-and-teleology\textsuperscript{100} as it reflects existence’s coherence/contiguity as of singularisation\textsuperscript{<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>} projected epistemic-immanence/veridical-epistemic-determinism. But then such a decontortioning disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold\textsuperscript{103} where we are actually preconverging—or-dementing—apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our attendant \textsuperscript{<amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} and vague untransvaluated—temporal-intemporality\textsuperscript{2} gesturing. The ontological-contiguity\textsuperscript{7}—of-the-human-institutionalisation-process\textsuperscript{68} can thus be construed as one of increasingly undermining the
human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness\textsuperscript{7}; wherein across the successive institutional-cumulation/institutional-recomposure\{-as-to-\ historiality/ontological-eventfulness /ontological-aesthetic-tracing\-\langle\text{perspective-ontological-normalcy/postconvergence-reflected-``epistemicity-relativism''}\rangle\}, decontortion is ontologically-constrained both as of the ‘dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition’. The former is ontologically-constrained as of ontological-primemovers-totalitative-framework\textsuperscript{7} in undermining the human temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of universal-transparency\textsuperscript{10}\{transparency-of-totalising-entailing,-as-to-entailing-\langle\text{amplituding/formative-epistemicity}\rangle\text{totalising-\text{in-relative-ontological-completeness}}\}. Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness and emotional-involvement. In another respect the implications of flawed \text{identitive-constitutedness}\textsuperscript{13}-as-``epistemic-totality''-\text{dereification} -in-dissingularisation-\langle-as-to-the-disjointedness/disentailment-of-\ presencing—absolutising-\text{identitive-constitutedness} > -as-flawed-epistemic-determinism as of dissingularisation-\langle-as-to-the-disjointedness/disentailment-of-\ presencing—absolutising-\text{identitive-constitutedness} > /epistemic-nonimmanence/flawed-epistemic-determinism also has implications with the ontological-performance\textsuperscript{7}-\langle\text{including-virtue-as-ontology}\rangle as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a
field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness-as-‘epistemic-totality’-dereification -in-dissingularisation-as-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > -as-flawed-epistemic-determinism implied as of dissingularisation-as-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemic-determinism that in many ways ignores/overlooks existential-contextualising-contiguity knowledge-reification as of singularisation-as-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism; and so, as of their ‘formalisation credo as identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > -as-flawed-epistemic-determinism’ thus leading to a disposition that considers knowledge as an exercise of mere conceptual patterning inherently validated by formalisations on the basis of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity without the constraint of existential-contextualising-contiguity knowledge-reification as of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <-as-to-perspective—ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> as its very own transcendental signifier which ultimately manifestly-as-inherently enables transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity as the very essence of knowledge. This has led in many ways to a dissonance between their knowledge productivity implications and existential reality wherein for instance psychological and psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care–and–episteme⁵. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity⁶. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already precedingly/supersedingly as of ‘ecstatic totalising-entailing/nested-congruence’, with the consequence that it naively construes of reification⁷ as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing⁸ and producing relatively ontologically-flawed⁹ meaningfulness-and-teleology¹⁰. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness⁹/relative-ontological-completeness⁸. |

In this regard for instance, the well-articulated Foucauldian discourse of ‘speech activity’ conceptualisation associated with the notion of parrhesia more critically enables its existential-contextualising-contiguity knowledge-reification with regards to the possibility of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as can be projected from an Ancient Greece context right up to our modern and futural context in contrast to say analytic philosophy ‘speech act’ which by its atomising/taking-to-pieces formalisation orientation is in many ways by its mere denotative/connotative apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness nature just an implied existentially decontextualised/abstracted construct as of its poor ontological-as-existential-commitment with respect to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, in contrast to the reifying apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness connotative nature of ‘speech activity’ discourse as of its contextualising ecstatic-totalising-entailing/nested-congruence; such that the former assumes rather an identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing-absolutising-identitive-constitutedness > -as-flawed-epistemic-determinism-as-amplituding/formative–epistemicity>causality-as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity posture as of atomising/taking-to-pieces formalisation rather than a difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> -as-veridical-epistemic-determinism
Such a conclusion can be extended to other analytic tradition concepts assuming rather an atomising/taking-to-pieces formalisation orientation like the broader notion of language games when rather analysed as of a denotative/connotative apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness nature outside existential-contextualising-contiguity whereas in contrast this author construes of the ontologically-veridical reflection of the social purview as better served by the notion of ‘ontologically-hegemonising-narrative\textsuperscript{76}’ ontological-performance\textsuperscript{72}—<including-virtue-as-ontology>’ as of its reifying apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness connotative nature reflecting the ontological-veracity/ontological-performance\textsuperscript{72}—<including-virtue-as-ontology> of human-subpotency epistemic/notional-projective-perspective meaningfulness-and-teleology\textsuperscript{100} articulated within any given registry-worldview/dimension social-setup going by its supposedly coherent ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> as so-reflected by its self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction exposing it to existence-potency—sublimating—nascence,-disclosed-from-prospective-epistemic-digression epistemic/notional-projective-perspective of ontological-primemovers-totalitative-framework as of prospective relative-ontological-completeness\textsuperscript{76}—<amplituding/formative-epistemicity> causality—as-to-projective-totalitative—implications-of-prospective-nonpresencing,—for-explicating-ontological-contiguity\textsuperscript{77}, and so-construed as of difference-

This specific deficiency of the analytic tradition as so-reflectedin many of its conceptualisations has to do with the very notion of knowledge as being about supposedly coherent ontological-commitment—implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality> as of ‘affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’, and logic actually being in effect the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, with the implication that all the knowledge as ontologically-veridical meaningfulness-and-teleology that exists is about existential-contextualising-contiguity knowledge-reification as of

This underlying notion of ontological-performance speaks more fundamentally of aetiologisation/ontological-escalation, as explicitly underlined in all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity elucidating/reifying subject-matters and sciences, unlike approaches that do-not-or-poorly-appreciate the fact that just as scientific studies are transformative the study of the social rightly articulated beyond-institutional-being-and-craft is just as transformative with regards to prospective human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology(10), even though it is more subject to higher emotional-involvement as of its displacement/decentering-of-the-human-subject

With the very blurry nature of the social, even with the best of intentions as when continental philosophers try to engage the analytic tradition, the experience has often turned out poorly given the failure to explicitly grasp/appreciate the conflicting implications of their differing knowledge commitments as of supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> implied ecstatic-totalising-entailing/nested-congruence with the former and logical-commitment implied atomising/taking-to-pieces formalisation with the latter; even as going by conceptual-patterning-as-devoid-of—‘existential-contextualising-contiguity’—s-reifying/elucidating-of-

Such reflecting-and-constraining to 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' can difficultly be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its <amplituding/formative–epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' is superseding/preceding as of existence's ecstatic singularity, such that ontology supersedes logic which is rather ontology's 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions'. It is rather 'the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence' that provides the 'apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument as axiomatic-construct' insight about supposedly coherent ontological-commitment <implied—self-

mentating/structuring/paradigming ~as-being-as-of-existential-reality> articulated as
‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not
mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-
existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead
reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-
existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of
explicated/implicated coherence/contiguity with another/other ‘transversally devolving-or-
complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct
construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions
like experimentation, testing, trials, case studies, observational studies, interview, data analysis,
content analysis, statistics and basically overall research orientations and research methods as
of their formal study implications are just focussed-and-contrasted extensions, with regards to
the general and normal day to day experience about living itself for the inspired construing of
‘the ecstatic manifestation of existence and then human experience-and-interpretation of that

critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal
day to day experience about living itself’ as of observational and articulated ontological-
pertinence sufficiency, and as supplemented with the grasp and engagement with other
philosophical works, speaks of veridical scientific insight and validity subject to ontological-
primemovers-totalitative-framework\(^{23}\), and so because such well-inspired experience-and-
interpretation from ‘general and normal day to day experience about living itself’ in the

2120
philosophical domain-of-study is generally more ontologically profound and comprehensive as of apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-inspired experience-and-interpretation from 'general and normal day to day experience about living itself'. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a totalising-entailing apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness demand on human living experience for the inspired construing of 'the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence' than other more specific domains-of-study for which ad-hoc and focussed domain study methods are pervasively decisive for ontological pertinence. But then this is more a question of 'expanded onticising construal of existence as of <amplitunding/formative–epistemicity>totalising–devolved purviews of existence so-construed as subject-matters/domains-of-study’. The ontological-veracity and epistemic-veracity of all such <amplitunding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality are effectively as of the very same underlying congruent philosophical domain-of-study construal of ecstatic manifestation of existence but for their ‘onticising specifisms of existence’s ecstatic manifestation’; as so-implied as of overall existence metaphoricity/ecostasy reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—(imbued-and-

This further points out that the traditional explicited apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness conception of the notion of cause-and-effect so-implied herein as ontological-primemovers-totalitative-framework is actually epistemically-impertinent and flawed; as this traditional conception tends beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> to imply unconnectedness-with/not-in-nested-congruence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or

This apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness nature of the notion of cause-and-effect so-implied veridically as ontological-primemovers-totalitative-framework arises as of the ‘basic and mere mimicking and deployment’ of supposedly science approaches and

validate knowledge as meaningfulness-and-teleology by the supposedly coherent
ontological-commitment <implied—self-assuredness-of-ontological-good-

is necessarily instigated as from a philosophical depth of contemplation as of

coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-

to be explicited in many a natural science domain-of-study as of their directly constraining
cause-and-effect nature such that such nested-congruence with existence will often tend to arise
naturally as of valid/invalid outcome constraining of ontological-primemovers-totalitative-
framework as to existence-potency ~sublimating—nascence,—disclosed-from-prospective-
epistemic-digression, this unexplicited implicitness should not be confused with the notion that
the natural sciences are essentially reduced to their science approaches and methodologies; as is
often and awkwardly naively construed from without in many a social domain-of-study. The
fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the

2124
natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with existential-contextualising-contiguity as of apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity-conflatedness); so-implied as of their supposedly coherent ontological-commitment—

implied—self-assuredness-of-ontological-good-faith/authenticity~postconverging—dem-mentating/structuring/paradigm-ing—as-being-as-of-existential-reality> reflected by ontological-primemovers-totalitative-framework as to existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression. In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specifisms of existence’s ecstatic manifestation’ as of the amplituding/formative—epistemicity>totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of ontological-primemovers-totalitative-framework will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is very often
incomplete, of-divvied-theorisation and/or ‘poor coherence of theorisation with operant approaches and methodologies’, when it comes to many a social domain-of-study; as quite often theorisation in many a social domain-of-study strives on disparateness, rather than a tendency to ‘ontological-primemovers-totalitative-framework’ as to existence-potency—sublimating–nascence, disclosed-from-prospective-epistemic-digression enforced’ unifying coherence as in many a natural science domains-of-study, with the consequence that studies are often aloof to direct existential-contextualising-contiguity knowledge reifying exercise as of a tendency to technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-setups de-mentatively/structurally/paradigmatically stifle the possibility for conceptualisation as to existence-potency—sublimating–nascence, disclosed-from-prospective-epistemic-digression sublimating-validation/desublimating-invalidation implications, beyond their conventioning-referencing existentialising—enframing/imprintedness (as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition). Ultimately the bigger issue arises as of the poorly-singularised/poorly-immanented nature of many a social domain-of-study unlike the grand singularised/immanented totalising/circumscribing/delineating reference-of-thought—devolving foregrounding—entailment postconverging–narrowing down—sublimation-as-to—existence—as-sublimating-withdrawal,—eliciting-of-prospective—supererogation—in-reflecting—immanent-ontological-contiguity ;—as-operative—notional—deprocrypticism) that are actually actively sought in the natural sciences; and this author portends that the suprastructuralism/postmodernism as of notional—deprocrypticism ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’.
holds the promise for such effective grand singularised/immanented social conceptualisation that doesn’t dodge/ignore/disregard outstanding questions about the human existential reality including de-mentative/structural/paradigmatic biases arising beyond-the-consciousness-awareness-teleology\(^{10}\)-<in-existential-extrication-as-of-existential-unthought>\(^5\) as of human emotional-involvement and sophistic/pedantic distortion of perception of reality so-implied in our present positivism–procrypticism ‘attendant-ontology—as-of-conventioning-referencing’ and just as well when ‘science-ideology’ seem to subvert and undermine science-in-practice. Worst still while in effect the idea of specialisation in many a natural science domain is often the natural progression of a ‘comprehensively elucidated/reified foregrounding—entailment {(postconverging–narrowing-down–sublimation-as-to-‘existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation ’-in-reflecting-‘immanent-ontological-contiguity ’;—as-operative-notional—deprocrypticism) of the given natural science domain-of-study’ with specialism more of a furtherance of such a \(^{44}\)foregrounding—entailment {(postconverging–narrowing-down–sublimation-as-to-‘existence—as-sublimating-withdrawal,—eliciting-of—prospective-supererogation ’-in-reflecting-‘immanent-ontological-contiguity ’;—as-operative-notional—deprocrypticism) scheme in a strong arborescent syncing with the subject-matter general-theoretical-level, in many such social domain-of-study of disparateness-of-conceptualisation-<unforegrounding-disentailment,—failing-to-reflect-‘immanent-ontological-contiguity ’> (including some science domains as well which naively tend to draw comprehensive social and human implications of their studies) the drawback to such specialisms is often associated with ‘major interpretative loopholes at the general-theoretical-level of the subject-matter’ with regards to the knowledge-reification\(^{87}\) implications of supposedly specialisation domains and their studies since such an approach fails to effectively validate its methodological and conclusive implications with respect to the subject-matter general-theoretical-level implied ontology as of the subject-matter specific epistemic-
conception phenomenal/manifest-subpotency-{in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence} as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility {imbued-and-‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’—human-subpotency—epistemic-perspective-of-projective/reproductive—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation} so-reflected in its philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodyed-consciousness’. This weakness is often reflected in naïve use of statistics and methods as well as drawing out conclusions based rather on ordinary average-thinking interpretation as of human-subpotency ‘rather than interpretations and conclusions ensuing naturally and arborescently as from existence-potency ‘—sublimating—nascence,—disclosed-from-prospective-epistemic-digression knowledge-reification” implications derived from the general-theoretical-level of the subject-matter as reflecting ontological-contiguity’ whereas this is ever always the case with good practice in the natural sciences and just as well as with an increasingly self-conscious social science as specifically upheld by postmodern-thought. For instance, the internal-coherence/nested-congruence speaking of the underlying foregrounding—entailment{postconverging—narrowing-down—sublimation-as-to—existence—as-sublimating—withdrawal,—eliciting-of-prospective—supererogation ‘—in-reflecting—‘immanent-ontological-contiguity ’;—as-operative-notional—deprocrypticism} implications articulated herein in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity’—of-the-human-institutionalisation-process can be garnered by the fact that all the knowledge-reification herein implied arises as of the very same underlying ‘objectifying cogent unifying process and gesturing’ as from ‘prospective nonpresencing—<perspective—ontological—

Bizarrely, the blurriness of the social seem to be misconstrued as implying knowledge-reification in the social should reflect such blurriness -as-of-disparateness rather than the ultimate objectifying foregrounding—entailment-(postconverging–narrowing-down–sublimation-as-to–‘existence—as-sublimating-withdrawal,–eliciting-of-prospective-supererogation ’-in-reflecting–‘immanent-ontological-contiguity ’;–as-operative-notional–deprocrypticism), and so by conjugating ‘relative-
ontological-completeness together with ‘subject-matter breadth and depth’ to achieve such an overall subject-matter knowledge-reification as of objectifying foregrounding—entailment (postconverging—narrowing-down—sublimation-as-to—‘existence—as-sublimating-withdrawal,—eliciting-of—prospective-supererogation ‘in-reflecting—‘immanent-ontological-contiguity ‘;—as-operative—notional—deprocrypticism), in order to elucidate the blurriness. Such that quite often as of institutional practice the notion of foregrounding—entailment (postconverging—narrowing-down—sublimation-as-to—‘existence—as-sublimating-withdrawal,—eliciting-of—prospective-supererogation ‘in-reflecting—‘immanent-ontological-contiguity ‘;—as-operative—notional—deprocrypticism) is often misconstrued non-aporetically/undilemmatically/unreframed/untransformed as ‘merely bringing together disparate conceptualisations for their cross-examination (on the basis of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of—aestheticisation)’ in a naïve substitution of the idea that foregrounding—entailment (postconverging—narrowing-down—sublimation-as-to—‘existence—as-sublimating-withdrawal,—eliciting-of—prospective-supererogation ‘in-reflecting—‘immanent-ontological-contiguity ‘;—as-operative—notional—deprocrypticism) truly speaks of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint elicited reframing/transfoming/reconstrual underlying ‘cogent-unifying-operant-dynamics’ that ‘runs-through/deflates’ implied conceptualisations in elucidating their ontological-veracity by its capacity to ‘objectively deflate-all-conceptualisations as of operant <amplituding/formative—epistemicity>causality—as-to-projective—totalitative—implications-of—prospective—nonpresencing,—for—explicating—ontological—contiguity in existential-contextualising—contiguity apriorising/axiomatising/referencing-(of-existential-contextualising—contiguity )—

nonpresencing,-for-explicating-ontological-contiguity ways-of-looking-at-things. Critically, lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without preceding construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of existential-contextualising-contiguity apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—confratedness that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring-threshold-(uninstitutionalised-threshold /presublimating–desublimating-

It is thus not surprising that naive disparateness-of-conceptualisation-unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’ leads to subject-matters and studies whose supposed knowledge-reification tend to be most heavily dependent on ‘peering to a fault’ of the attendant-ontology—as-of-conventioning-referencing of institutional-being-and-craft that is poorly constrained to existential-reality, rather than a peering process that is heavily constrained to existential-reality as of underlying supposedly coherent ontological-commitment implied—self-assuredness-of-ontological-good-faith/authenticity postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality as validatable and falsifiable by ontological-prime movers-totalitative-framework as to existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression as it is critically the case in the good practices of the natural sciences. In other words, the concepts and conceptualisations of postmodern-thought are meaningless without their relevant and underlying theoretical background framework gesturing, and there is no point in construing them as of simplistic conceptual-patterning—<as-devoid-of—‘existential-contextualising-contiguity *’s-reifying/elucidating-of-prospective-relative-ontological-completeness *’> by mere referring, mentioning and synonymisation as if these are of positivistic modern thought theoretical background framework gesturing just as the same can be said of striving for the elucidation, derivation and knowledge-reification* of Einsteinian physics concepts and conceptualisations as if of Newtonian physics concepts and conceptualisations by mere referring, mentioning and synonymisation as if of the latter. This hermeneutic/reprojecting/supererogating/zeroing circle knowledge-reification process/gesturing is furthermore reflected in both human scholarly-and-pedagogic exercise
wherein subject-matters/domains-of-study are grasped in successive articulations of deeper and deeper hermeneutic/reprojecting/supererogating/zeroing insight as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. The implication here is that postmodern knowledge-reification process/gesturing simply integrates this notion in the sense that top-level postmodern scholars articulate their knowledge-reification process/gesturing at its ‘appropriate hermeneutic/reprojecting/supererogating/zeroing circle level of postmodern knowledge-reification’, no different from say top-level physicists and natural scientists articulating their knowledge-reification process/gesturing at their ‘appropriate hermeneutic/reprojecting/supererogating/zeroing circle level of top-level physics/natural-science knowledge-reification’. In both instances, the knowledge-reification process/gesturing implies that the scholar or student striving to engage at that top-level understanding, needs to grasp the ‘preceding formative/pedagogic hermeneutic/reprojecting/supererogating/zeroing circle levels of knowledge-reification’. Such a supposed scholar or student cannot depart from ordinary/banal wooden-language—imbued—averaging-of-thought—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications—level of knowledge conception to then claim that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojecting/supererogating/zeroing circle of knowledge-reification process/gesturing should be directly and fully graspable to it as of a wooden-language—imbued—averaging-of-thought—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications—predisposition to incrementalism-in-relative-ontological-incompleteness—enframed—

The fact is the various pedagogic hermeneutic/reprojecting/supererogating/zeroing circle levels of any subject-matter/domain-of-study as of successive maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation are meant to transmit a ‘totalising/comprehensive organic-attitude-to-knowledge which is much more than just its technical knowledge veracity’ and that ‘totalising/comprehensive organic-attitude-to-knowledge’ is needed together with the induced technical dispensation of the lower hermeneutic/reprojecting/supererogating/zeroing circle of pedagogic knowledge-acquisition to then be able to engage with the higher/top-level scholarly/pedagogic hermeneutic/reprojecting/supererogating/zeroing circle of knowledge-reification in its maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. It is important to understand here that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojecting/supererogating/zeroing circle of knowledge-reification process/gesturing cannot strive to engage the supposed scholar or student at any such ordinariness/banal wooden-language⟨imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications⟩ level of knowledge conception, and implicated in its knowledge-reification gesturing/process is the notion that the prior/all-the-prior hermeneutic/reprojecting/supererogating/zeroing circle level(s) of the subject-matter/domain-of-study need to be grasped beforehand; and this is basically because such a top-level is imbued with fundamental and new knowledge-reification priorities. While in many ways the unblurred/sharply-delineated nature of the natural sciences renders such a ‘hermeneutic/reprojecting/supererogating/zeroing circle of levels of understanding’ more or less
very transparent, with regards to the blurriness of the social such a postmodern-thought ‘hermeneutic/reprojecting/supererogating/zeroing circle of levels of understanding’ rather requires increasing familiarisation, habituation and contemplation with regards to such critical texts and analyses (and as is particularly necessary with regards to the ‘parrhesiastic nature of philosophy that is behind the engendering/parrhesiastic-aestheticisation of underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation and thereof derived domains-of-study reified-knowledge as from the underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’, and one’s intemporal solipsistic level of parrhesiastic contemplation is itself a decisive element for the capacity to appreciate-and-understand philosophical thought more than just an issue of technical acquisition of philosophical knowledge as of mere knowledge mathesis/motif/thrownness-disposition). More critically, social and philosophical knowledge are no different from any other type of knowledge subject to ontological-primemovers-totalitative-framework as of inherent existence/ontological implications, as fundamentally requiring contemplative reification arising with human limited-mentation-capacity-deepening, with the implication that any philosophical, historial and social conception of knowledge is not an imprimatur totalisingly-disentailing—discretion/whim-of-thought exercise on the basis of ‘relic-or-orthodoxy knowledge’ induced disparateness-of-conceptualisation—unforegrounding-disentailment,—failing-to-reflect—‘immanent-ontological-contiguity’ but rather implying a furtherance of the overall hermeneutic/reprojecting/supererogating/zeroing exercise involved in the advancement of all human knowledge as of amplituding/formative-epistemicity totalising—renewing—realisation/re-perception/re-thought, wherein all such knowledge-reification is a hermeneutic/reprojecting/supererogating/zeroing circle involving: the analyst’s/philosopher’s baseline re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—imbued

It is important to appreciate here that a history of postmodern-thought
criticism driven by populism, media operations, false intellectual engagement and ontological-bad-faith/inauthenticity, is particularly telling not about postmodern thinkers knowledge-reification epistemic-veracity but rather ‘the knowledge-reification epistemic-veracity of such critics who often pride themselves on not understanding postmodern-thought then by a strange paradox have the knowledge to produce a profound criticism of postmodern-thought which they supposedly do not understand’. Even more critically, the question can be raised whether such critics profoundly appreciate the overall human knowledge-reification process/gesturing as herein articulated, and whether this very fact isn’t linked to the knowledge-reification methodological difficulties arising in many social domains-of-study ‘assuming a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> epistemic-disposition that is in many ways poorly constrained to existential-reality’ with the result of their relative knowledge-reification passivity with regards to many a social issue ‘but for adventures into social commentary divorced from genuine operant knowledge-reification implications’; and in this regards could it be that the true ‘unsaid issue with suprastructuralism/postmodern-thought’ lies with its parrhesiastic emphasis on the displacement/decentering-of-the-human-subject for the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected existential-contextualising-contiguity in apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness, an issue that has always been a difficult knot throughout the ontological-contiguity—of-the-human-institutionalisation-process but which inevitably has to be dealt with for the possibility of prospective human registry-worldview’s/dimension’s institutionalisation. Such weaknesses manifested by many a postmodern critic fundamentally points to an atomising/taking-to-pieces predisposition that poorly appreciates the <amplituding/formative–epistemicity> causality as-to-projective-
totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity involved in knowledge-reification, and is reflected in a lack of parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight that ‘poorly grasp the philosophical analysis implications of the existential background/development of becoming-as-historiality/ontological-eventfulness/ontological-aesthetic-tracing/perspective–ontological-normaley/postconvergence-reflected–‘epistemicity–relativism’, as if philosophy only started as of our present positivist era with a naivety that seems to imply that all-that-should-have-been–that-is-and-that-will-be–as-of-the-human-potential is as of a modern positivist wooden-language- ⟨imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–‘nondescript/ignorable–void–with-regards-to-prospective-apriorising-implications⟩ in its given reference-of-thought reproducibility—mathesis/motif/thrownness-disposition–as–reproducibility-of-aestheticisation with no or poor insight of prior-and-prospective human becoming as of existential-contextualising-contiguity in apriorising/axiomatising/referencing ⟨of-existential-contextualising-contiguity⟩—conflatedness; and so when it generally comes to analysing philosophical texts requiring a sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight. This lack is quite often reflected in such misconstrued analyses of traditional philosophical figures by a failure to understand the overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to identitive-constitutedness–as–‘epistemic-totality’–dereification–in-dissingularisation–as-to-the-disjointedness/disentailment-of–presencing—absolutising-identitive-constitutedness > as-flawed-epistemic-determinism ending up quite often claiming the incoherence of such figures and/or of their narrative accounts, and so in a ‘naïve insight’ arising exactly because the possibility for understanding requires the critic’s own parrhesiastic insight and then hermeneutic/reprojecting/supererogating/zeroing conceptualisation to then develop the capacity
to grasp first of all such traditional philosophical figures underlying knowledge-reification\(^7\) process/gesturing and thus be able to understand how such knowledge-reification\(^7\) process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of narrated accounts and notions but equally insight about the nuanced and covertly narrated accounts and notions, and all these while being informed by the immediate and broader underlying social background and implicated social and philosophical stakes of contention-and-conflict. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing analytical insight actually converges with the epochal philosophical implications of existential-contextualising-contiguity\(^9\) in apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity\(^3\))—conflicatedness\(^4\) and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but de-mentatively/structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability\(^1\) and validation in determining ontological-veracity as of a critical exercise of \(^{44}\)<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied—as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight—or-intuition—or-foresight-as-of-embodied-consciousness’. In this regards, such hermeneutic/reprojecting/supererogating/zeroing and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel \(^{10}\) universalising-idealisation that ‘runs-through/is-deflating’ by its evental\(^1\)—instigation
traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic-philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning-as-devoid-of—‘existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic-philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern-day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition—as—reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism.

{<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation} that then feeds into prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation; emphasising as of any given registry-worldview’s/dimension’s specific limited-mentation-capacity that knowledge ‘more profoundly lies with the knowledge-reification’\(^7\) gesturing and organic implications’, just as we cannot simplistically interpret the importance of Aristotelian science in terms of its constitutive elements as earth, water, air, fire and aether on a naïve \(^3\) presencing—absolutising-identitive-constitutedness basis from the vantage perspective of our modern positivism (as being at the receiving backend of the institutional-cumulation/institutional-recomposure—(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-/reflected—epistemicity-relativism’) in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity\(^4\) —of-the-human-institutionalisation-process\(^9\) but rather the more critical insight lies with its novel and transformative \(^10\) universalising-classificatory knowledge-reification\(^7\) gesturing as opening up the possibility for prospective human reconceptualisation of science providing the backdrop from which modern science took off from the medieval times to the present. Likewise, the transformative nature of budding-positivism more than just as garnered from the precised narrative accounts about budding-positivist thinkers, lies more profoundly with its meaningfulness-and-teleology\(^9\) infrastructure impact on the developing enlightenment social developments and as this budding-positivism metaphoricity\(^7\) epistemic-ricochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and
hermeneutic/reprojecting/supererogating/zeroing development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification for prospective human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity’. In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as
hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social
domain-of-study and even some of the natural sciences as of naïve science-ideology, and so
because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-
existence-implications there need to be ‘human intemporal contemplation that abstractly
lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of
meaningfulness-and-teleology\(^{10}\) infrastructure’, something which a ‘human lifespan

is not postconvergingly—de-mentated/structured/paradigmed to do! But then the phenomenological

development, human aestheticisation is reflected in childhood to adulthood social development wherein a child’s development as of its ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’ involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development—as-to-personality-development human aestheticisation of meaningfulness-and-teleology (‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation’) in existential-contextualising-contiguity apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—conflatedness involving ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought’ always entails the three human aestheticisation manifest elements: ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and
‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’. This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought’ long before a child’s language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in reality the ‘teleological outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ of a rather ‘complex sense of meaningfulness-and-teleology aestheticisation’ induced from a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ driven ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought’ that starts long before a child’s ‘recognised’ acquisition of any such ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, as the child already has a ‘complex sense of meaningfulness-and-teleology aestheticisation’ before its ‘recognised’ acquisition of ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, and that acquisition of a specific ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’

Insightfully, we can garner that it is ‘human <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing—for-explicating-ontological-contiguity purposefulness-reflexivity for

childhood to adulthood personality development as of the forming individual need to

manifestation’. This will explain why the ontological-contiguity\(^6\) of the human-institutionalisation-process\(^6\) as of ‘institutional-development—as-to-social-function-development meaninglessness-and-teleology\(^0\) aestheticisation’ is ‘highly parrhesiastically economical’ as reflected in the overall ontological-contiguity\(^6\) of the human-institutionalisation-process\(^6\) ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,–as–reproducibility-of-aestheticisation’; wherein only the perception of unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance\(^7\)-\(<\text{including-virtue-as-ontology}\> of prior reproducibility—mathesis/motif/throwness-disposition,–as–reproducibility-of-aestheticisation epistemic-ricochettingly/transepistemically elicits ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’. This is so because given the taxingness-of-originariness any such ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ has to resolve considerably unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance\(^7\)-\(<\text{including-virtue-as-ontology}\> of prior reproducibility—mathesis/motif/throwness-disposition,–as–reproducibility-of-aestheticisation for such ‘institutional-development—as-to-social-function-development meaninglessness-and-teleology\(^0\) aestheticisation’ underlying ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as \(<\text{amplituding-formative–epistemicity}\> totalising–renewing-realisation/re-perception/re-thought’ to be worth the epistemic-ricochetting/transepistemicity effort, with the preference for any such effort rather directed at the complexification of the prior reproducibility—mathesis/motif/throwness-disposition,–as–reproducibility-of-aestheticisation. This will explain for instance why as of the furtherance in reflecting holographically-\(<\text{conjugatively-and-transfusively}\> the ontological-contiguity\(^6\) of the human-
institutionalisation-process\textsuperscript{56}, the ‘institutional-development–as-to-social-function-development\textsuperscript{56} meaninglessness-and-teleology\textsuperscript{100} aestheticisation’ with regards to language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human meaninglessness-and-teleology\textsuperscript{100} aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\textsuperscript{76}=(imbued-and-

This instigation of human aestheticisation of meaninglessness-and-teleology\textsuperscript{100} so-reflected in ‘human existence historiality/ontological-eventfulness\textsuperscript{17}/ontological-aesthetic-tracing\textless{}perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’\textgreater{} creative aestheticisation of meaninglessness-and-teleology\textsuperscript{100}’ driven as of originariness-parrhesia,–as–spontaneity-of-aestheticisation in renewing reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation involves an ‘overall flux of human meaninglessness-and-teleology\textsuperscript{100} of varying temporal-to-intemporal ontological-

This fundamental originariness and secondnaturesdness conundrum in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity’—of-the-human-institutionalisation-process is reflected by the fact that the human Self is ever always in disseminative constructiveness/destructuring defining its given registry-worldview/dimension shiftiness-of-the-Self as of ‘human-subpotency subpar disposition to fail to construe the full existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression at its uninstitutionalised-threshold’ its prior secondnatured reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation; and so in obfuscation and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation. The possibility for prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity has ever always been able to arise at such uninstitutionalised-threshold of registry-worldviews/dimensions not by a ‘false pretence’ that the ontologically-veridical underlying issue of prospectively-aporetic/prospectively-undecidable/prospectively-dilemmatic/prospectively-indeterminate/prospectively-deficient/prospectively-limitative/prospectively-constraining ontological-performance—<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation in the construal of ecstatic-existence, is one in want of candid analysis as of the very same prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation but rather the ontological-veracity of originariness-parrhesia,–as–spontaneity-of-aestheticisation for prospective/renewed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation; as perfectly understood by the Socratic-philosophers advancing of universalising-idealisation relative to the Ancient-sophists non-universalising

In other words, the uninstitutionalised-threshold of all registry-worldviews/dimensions as of their shiftiness-of-the-Self are the aporeticism overcoming/unovercoming point at which their languages collapse into ‘wooden languages’ that are from a prospective perspective not profound but mechanical/mere-form reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation thus inherently raising up the underlying ontological-veracity issue of their prospectively-aporetic/prospectively-undecidable/prospectively-dilemmatic/prospectively-indeterminate/prospectively-deficient/prospectively-limitative/prospectively-constraining ontological-performance—<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation that can only be dealt with as of prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation so-construed as ‘intemporal parrhesiastic seeding-promise dimensionality-of-sublimating”
The possibility for prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is ever always underdetermined, as between prior reasoning-from-results/afterthought and prospective reasoning-through/messianic-reasoning is the ‘aporia of underdetermined madness’ that human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’. That is, between reasoning—as-reasoning-from-results/afterthought and reasoning—as-reasoning-through/messianic-reasoning is ‘aporeticism overcoming/unovercoming underdetermined madness’ that renders a pretence of hanging unto prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation more like ‘a pretence of already grasping the complete implications of ecstatic-existence while ignoring/not-referencing/registering/decisioning the epistemic-

In furtherance of this prospective epistemic-ricochetting/transepistemicity indictment, this author laments a covert practice of an intellection that has been critical of postmodern-thought but in latter years ‘reformulates the implications of postmodern ideas’ as original thought even as such practices supposedly passes their institutional thresholds of admissibility with the caveat though that much of such thought is poorly operant given its ad-hoc depth of knowledge-reification gesturing/process as of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> implications, and along the same parrhesiastic prospective epistemic-ricochetting/transepistemicity line this author is very much befuddled of a perverted exercise to undermine the originality of this work supposedly because of the theoretical orientation by a naïve ad-hoc synonymising exercise that this author is very much confident fails as it overlooks the coherence and knowledge-reification gesturing/process articulated herein. Generally, such perversion of thought as it discreetly networks fails society in the long-run when it seems to assume a foreshadowing posture with regards to what can be thought or not thought as of a ‘realpolitiking of thought’ exercise. Such intellectual shadiness of vague highmindedness is no more different from the gross inanity of Ancient-sophists or medieval-scholastic pedants, as of naïve shallow-minded incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation as of a poor sense of intemporality/longness beyond earthly materialism. Another criticism is the inclination for such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate conceptualisations as of identitive-constitutedness\(1\) -as-‘epistemic-totality\(36\)’-dereification\(87\) -in-dissingularisation\(<\)as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness\(>\) -as-flawed-epistemic-determinism that often
poorly reflect the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality rather than the contrary approach that delves directly in existential-contextualising-contiguity and then reifies-out conceptualisations as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemic-determinism. The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications} that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of existential-contextualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the existential-contextualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality,
wherein the constraining effect of existence/intrinsic-reality/ontological-veridity as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridity. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology’/knowledge as of existential-contextualising-contiguity’ knowledge-reification’, as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construed of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further expanding on the elucidation/reification of their manifestations as validated or can be falsifiable by ontological-primemovers-totalitative-framework; or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and–sublimity/sublimation/supercilious–de-mentativity, induces a penchant for flawed intellectually supplementing rhetorisation rather than reification as well as naïve focussing on disparateness of conceptualisations-and-interpretations as of lack or poor constraining ontological-primemovers-totalitative-framework disposition rather than an orientation towards the ‘transversality<for-sublimating–existential-eventuating/denouement>–of–

Such a construal of relative truth doesn’t imply a lack of commitment in truth, but is utterly the contrary as of ‘a much more critical and ontologically decisive commitment to truth and growing truth’ as any pertinent critique can garner in Foucault’s truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth ‘expands the conception of truth beyond our “presencing—absolutising-identitive-constitutedness” <amplituding/formative–epistemicity>totalising–self-referencing-synergetising/circularity/interiorising/akrasiatic-drag mental-dispositions as if all the world that has ever existed is as of “presencing—absolutising-identitive-constitutedness”, and displaces/decenters the human subject as of its “presencing—absolutising-identitive-constitutedness” cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>} populist interpretations rather than elevating human ontological construal of the social domain-of-study! It is herein contended that existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation -<as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming> as of its ecstatic singularity actually points to appropriate attitude/mental-disposition/care—and—

Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining knowledge to existential-contextualising-contiguity\textsuperscript{9} elucidation/reification\textsuperscript{7} rather than just mere formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are already naturally constraint to existential-contextualising-contiguity\textsuperscript{9} knowledge-reification\textsuperscript{7} by the implicated immediate-constraining ontological-primemovers-totalitative-framework\textsuperscript{7} transcendence-and-sublimity/sublimation/supererogatory-de-mentativity whereas the human world is rather blurry in this regard and hence requires the requisite explicited insight about existence as of its ecstatic singularity for its appropriate approach for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification\textsuperscript{87} of existential-contextualising-contiguity\textsuperscript{9} but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science
transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than existential-contextualising-contiguity knowledge-reification\textsuperscript{87} <amplituding/formative–epistemicity> causality—as-to-projective-totalitative–implications-of-prospective– nonpresencing—for-explicating-ontological-contiguity .

Actually, formalisation in the natural sciences and mathematics is the effective ‘formatting outcome’ of an implicated creative process of existential-contextualising-contiguity knowledge-reification\textsuperscript{87}. This process is one of human limited-mentation-capacity-deepening as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for existential-contextualising-contiguity\textsuperscript{89} knowledge-reification\textsuperscript{87}, inducing successive differences of ontological-performance—<including-virtue-as-ontology> of meaningfulness-and-teleology\textsuperscript{100} as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ with increasing prospective relative-ontological-completeness ’ reflected as of difference-conflatedness—as-to-totalitative-reification\textsuperscript{87}-in-singularisation—<as-to-the-nondisjointedness/entailment-of:prospective- nonpresencing> -as-veridical-epistemic-determinism , and not just a prior formalisation exercise as mere conceptual patterning as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity\textsuperscript{11} reflected as of identitive-constitutedness—as-‘epistemic-totality ’- dereification\textsuperscript{87}-in-dissingularisation—<as-to-the-disjointedness/disentailment-of: presencing—

Thus we know of the recurrent stories of ‘mathematics invented by physicists or mathematicians working under the physics existential-contextualising-contiguity guise’ as of the insight of their existential-contextualising-contiguity knowledge-reification of the physics domain-of-study, with such mathematics ‘very often not well presented but essentially sublime’, and thereafter such existential-contextualising-contiguity initially reified mathematics is further reified as of mathematics more generalised-level of existential-contextualising-contiguity insight while ‘exquisitely formalised in concurrence’. In this regard, we can appreciate that as of their differing ontological-performance<including-virtue-as-ontology> the threshold where the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs projects its prospective relative-ontological-completeness is considered as postconverging-or-dialectical-thinking—apriorising-psychologism, and striving to operate the classical-mechanics—axiomatic-constructs in its projected prior relative-ontological-incompleteness is effectively preconverging-or-dementing—apriorising-psychologism; even

One recurrent consequence of the formalisation credo that keeps on arising for instance in the analytic tradition of philosophy as of its non-totalising-entailing or ‘poor apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness of totalising-entailing/nested-congruence’, is that the underlying conception about growing the body of human knowledge seems to be the ‘incrementing of all such conceptual patterning conceptualisations’ going by their cross-analysis as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity. Critically, no concepts have any veridical meaningfulness-and-teleology but only rather as of their apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—confinedness with existence, and cannot be construed as ‘existing in existence’ as implied by apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness which just leads to ontologically-flawed dissingularisation<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemic-determinism implied identitive-constitutedness—as—’epistemic-totality’—dereification—in-dissingularisation<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > as-flawed-epistemic-determinism. We can appreciate that the naïve conceptual patterning of conceptualisations in many a social domain-of-study failing to disambiguate divergent

knowledge-reification\(^3\) end up transforming subject-matters into descriptive enunciations of weak existentially explanatory and predicative capacity. The entire project of human
meaningfulness-and-teleology\(^3\) is nothing but one of creatively elucidating/reifying
existence/existential-possibilities, ‘with no out of existence knowledge project’, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative existential-contextualising-contiguity\(^3\) knowledge-reification\(^3\), and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the existential-contextualising-contiguity\(^3\) reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity\(^3\). This failure in fully appreciating the import of ontologically-veridical difference-conflatedness\(^1\) -as-to-totalitative-reification\(^1\) -in-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>-as-veridical-epistemic-determinism ‘repeating/repetition of ’ maximalising-recomposuring-for-relative-ontological-completeness\(^3\)—unenframed-conceptualisation for existential-contextualising-contiguity\(^3\) knowledge-reification\(^3\), inducing successive differences of ontological-performance\(^7\)- <including-virtue-as-ontology> of meaningfulness-and-teleology\(^3\) as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, -as-to-

reifying grasp of existential-contextualising-contiguity. Consider in this regard that the
repeated maximalising-recomposuring-for-relative-ontological-completeness—anenframed-
conceptualisation articulation by this author on the theme of conceptual patterning here further
complements as of further articulated reification of this very theme elsewhere herein, more
than just about a mechanical repeating; and this knowledge-reification insight often goes
missing with many a subscriber to the formalisation credo, as of reification along the three
frames indicated above (as of same scholar interest-of-study, scholars of the same generation
interest-of-study and scholars crossgenerationally developing interest-of-study). In this regard,
the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze
have now and then been belittled as not original, as of a very much naïve conceptual patterning
conception of knowledge; going by their profound association with earlier scholars and more
specifically Heidegger and Nietzsche. From a creative existential-contextualising-contiguity
knowledge-reification perspective of knowledge construal, this is no less silly as dismissing
and belittling as unoriginal the ideas of later physicists since their contributions are just more
evolved formalisation as of conceptual patterning of concepts originarily/as-of-event available
to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded
by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz,
etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a
conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative
existential-contextualising-contiguity knowledge-reification knowledge-reification
<amplituding/formative–
epistemicity>causality~as-to-projective-totalitative–implications-of-prospective-
nonpresencing,-for-explicating-ontological-contiguity of the latter contributors in both
instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-epistemicity’-totalising-purview-of-construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying/elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance—<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to-‘human-epistemicity’-totalising-purview-of-construal’ with increasing prospective relative-ontological-completeness”. This is especially the case where such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their existential-contextualising-contiguity knowledge-reification. Ultimately, and it is this author’s contention, the various scholarly contributions to postmodern-thought can be understood as rather pointing to the de-mentative/structural/paradigmatic disseminative implications of futural Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of perspective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought ontologically-veridical difference-conflatedness—as-to-totalitative-reification-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemic-determinism. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity’ orientation making the human subject thinking as of mathesis universals conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/aporia ‘left it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity to ‘continually select’ rational-empiricism/positivism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism—procrypticism human subject is rather undecentered’ relative to the prospective postmodern—notional—deprocrypticism self-conscious mindset we fail to truly appreciate the dementative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity to ‘continually select’ postmodern—
notional-deprocrypticism disseminative orientations for transcendence-and-
sublimity/sublimation/supererogatory de-mentativity, in the same vain that the ‘non-
positivism/medievalism undecentered human subject’ failed to truly appreciate the de-
mentative/structural/paradigmatic disseminative implications of prospective
positivism/rational-empiricism thought. On the other hand, recurrent conceptual patterning
predispositions and orientations arise because of poor appreciation/reference for judging
knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein
the constraining metrics of institutional setups including strangely enough also many such
tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals,

‘prospective-aporeticism-overcoming/unovercoming’>. Such institutional nombrilistic
inclinations operate on the naivety that institutional processes are inherently reifying by their
mere infrastructure and deferential-formalisation-transference, and set up enframed constraints
that are in many ways self-defeating for the purpose of profound existential-contextualising-
contiguity\textsuperscript{39} knowledge-reification\textsuperscript{87} for transcendence-and-
sublimity/sublimation/supererogatory de-mentativity. But then with regards to the social
notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly
existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{87} here implies human
displacement/decentering even though our temporal/shortness-of-register-of–
meaningfulness-and-teleology\textsuperscript{100} dispositions certainly have a hard time assuming the full implications of such
prospectively implied transcendental \textsuperscript{57}meaningfulness-and-teleology\textsuperscript{100}. This further speaks to
the fact that human knowledge is much more than distantly/remote abstracted conceptions of
meaningfulness-and-teleology\textsuperscript{100} of trite existential-contextualising-contiguity\textsuperscript{39} knowledge-
critical occasions this puts the human subject itself into question; and so, as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ even where this edges into contortioning asceticism as of nonextricatory-existential-preempting-of-existential-unthought. Such ‘pure-ontology’ orientation grounded on creative existential-contextualising-contiguity knowledge-reification is ever always a ‘conflatedness totalising-entailing/nested-congruence’ as it aspires to grasping and articulating meaningfulness-and-teleology as portends to the wholeness/nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human epistemicity>totalising~purview-of-construal’; with such construal in reality rather very much as of singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism rather than dissingularisation<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemic-determinism. It is thus not a surprise that many natural sciences in their ‘creative existential-contextualising-contiguity knowledge-reification’ develop as and aspire to be whole/congruent in conception, even though their concepts can be misconstrued as rather disparate but in effect are ‘operant as of wholeness/nested-congruence’. Likewise, the underlying deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing (of-existential-contextualising-contiguity )—conflatedness totalising-entailing/nested-congruence suprastructuralism conception herein is rather articulated as of singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-
immanence/veridical-epistemic-determinism as of epistemic reflection of the ecstatic singularity of existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal-eliciting-of-prospective-supererogation<as-to-perspective-ontological-normaley/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming>. Unlike the apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness rampant with human and social conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally as of apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness totalising-entailing/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence<amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity with ‘the ecstatic singularity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to—human<amplituding/formative—epistemicity>totalising—purview-of-construal’ implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time’. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent
conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying
dynamic theoretical-conceptual-operant interrelatedness speaking of singularisation-<as-to-the-
nondisjointedness/entailment-of-prospective- nonpresencing>- projected epistemic-immanence/veridical-epistemic-determinism is often very much lacking in many a social
domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the
same wholeness/nested-congruence nature with many natural science conceptualisations. This
reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social
conceptualisations that by their apriorising/axiomatising/referencing-(of-existential-
contextualising-contiguity)—constitutedness token tend to give up on the central issue of
knowledge as of its wholeness/nested-congruence reflection ‘as of creative existential-

Basically, immanence-function-confatedness speaks of the counterintuitive mental-reflex for
drawing out the full causality as-to-projective-
totalitative–implications-of-prospective– nonpresencing.–for-explicating-ontological-
contiguity for ‘creative understanding’/insight as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism, going by existence’s ecstatic singularity as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility (imbued-and–hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation). This immanence-function-conflatedness insight is effectively what marks prospective deprocryticism/preempting—disjointedness-as-of-reference-of-thought as of an utterly different protensive self-consciousness from our hesitant and occlusive positivism–procrypticism self-consciousness. Hence existence’s ecstatic singularity is very much akin with the Deleuzian plane of immanence construed herein as of existence’s ecstatic singularity immanence/internal-necessity-amplituding/formative–epistemicity> causality-as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity of singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism; the ontological implication here being that ‘we are as potently transcendental as from our flawed apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness or ‘we are as potently immanent as of our virtuous apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness’. Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness, as all the objectifying discursivity that is ontologically-veridical is as of the apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—
confatedness\textsuperscript{12} of prospective relative-ontological-completeness\textsuperscript{88} over prior relative-ontological-incompleteness\textsuperscript{89} construed as immanence-function-confatedness\textsuperscript{12}. Thus metaphoricity\textsuperscript{7} of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-confatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstitution, spiritualism, etc. This same conception holds with the notional–deprocrypticism immanence-function-confatedness\textsuperscript{12} overriding the \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} of \textsuperscript{8}procrypticism–or–disjointedness-as-of- reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the notional–deprocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of- reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-confatedness\textsuperscript{12} implying that all the \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} is necessarily as of the prospective relative-ontological-completeness over the prior relative-ontological-incompleteness\textsuperscript{89}; respectively as of positivism and deprocrypticism. If by anticipation we do know immanently that a non-positivism mindset is bound to a non-positivistic-as-existentially-superstitious apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of de-mentative/structural/paradigmatic internal-necessity/determinism insight from positivism immanence-function-confatedness\textsuperscript{12} with the obviousness there is no point implying an ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-superstitious inclination, the same implication will extend to
notional-deprocripticism immanence-function-conflatedness as of de-
mentative/structural/paradigmatic internal-necessity/determinism insight with regards to
anticipating the disjointedness-as-of- reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our
positivism–procripticism mental-disposition with no pretence of such a positivism–
procripticism ontologically-flawed objectifying/contending discursivity in assessing the
disjointedness-as-of- reference-of-thought inclination. In other words, immanence-function-
conflatedness is all about reflecting the straightforwardness of ontological-primemovers-
totalitative-framework as of singularisation-as-to-the-nondisjointedness/entailment-of-
projected epistemic-immanence/veridical-epistemic-
determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive
predisposition to make of its objectifying/contending discursivity as de-
mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively
elevating prior relative-ontological-incompleteness as if of
meaningfulness-and-teleology as if of
prospective relative-ontological-completeness apriorising/axiomatising/referencing-(of-existential-contextualising-
contiguity)—constitutedness predisposition tends to imagine that knowledge is basically a
cumulative exercise to an already soundly postconvergingly–de-
mentated/structured/paradigmed mindset, but nothing could be farther from the truth as
knowledge is really an exercise of re-forming-or-reshaping-as-transforming the
postconverging–de-mentating/structuring/paradigming of the mind. In other words, it is rather
vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an
unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a
further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God of plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sUBLIMITY/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness–of-reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior relative-ontological-incompleteness–of-reference-of-thought is an appropriate framework for prospectively implied reference-of-thought knowledge acquisition. Likewise, it is herein contended that similarly a notional–deprocrypticism contortion reifying gesture necessarily questioning our positivism–procrypticism disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of psychoanalytic-unshackling implications as of the ‘decentering of the human subject’ is the
necessity/determinism of prospective relative-ontological-completeness\textsuperscript{58, 24}, reference-of-thought as of immanence-function-confoundedness\textsuperscript{12}, with the pretence of prior relative-ontological-incompleteness\textsuperscript{11} of reference-of-thought for objectifying/contending discursivity nothing more but flawed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} temporal meaningfulness-and-teleology\textsuperscript{100}. The study of the social as of immanence-function-confoundedness\textsuperscript{12} insight grasp that the blurriness, <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} and remoteness of cause-and-effect invoke a more refined conception of ontological-primemovers-totalitative-framework\textsuperscript{73} as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability\textsuperscript{41} and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability\textsuperscript{41}–or-deferring-falsifiability\textsuperscript{41} and validation–or-deferring-validation. It is herein contended that it is the implicated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general
humanities, and so precisely because of the very thorough existential-contextualising-contiguity\textsuperscript{39} in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{7}. This insight equally informs this author’s supplanting-conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{7}, as well as existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{7} as of the disposition for advancing the metalevel transversality<for-sublimating–existential-eventuating/denouement>--of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{44} foregrounding—entailment{(postconverging–narrowing-down–sublimation-as-to–‘existence—as-sublimating-withdrawal,-eliciting-of:-prospective-supererogation ’-in-reflecting–‘immanent-ontological-contiguity ’;–as-operative-notional–deprocrypticism) of the ‘de-mentative/structural/paradigmatic disseminative implications of postmodern and other human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing–as-to-possibilities-of-self-becoming-as-of–‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’\textsuperscript{45} thought, that the ontological-pertinence assumes ontological-primumovers-totalitative-framework\textsuperscript{7} unassailability; and so, not for the mere sake of research-programme extensiveness but as of its internal constraining to falsifiability\textsuperscript{1}-or-deferred-falsifiability\textsuperscript{1} and validation-or-deferred-validation as of existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{7} as implied by the articulation of ontological-good-faith/authenticity\textsuperscript{69} herein as of reasoning-through/messianic-reasoning attitude/mental-disposition/care–and–episteme\textsuperscript{5}}
‘implicitation of ontological-primemovers-totalitative-framework’, on the basis that the very first epistemic frontier for ontological-pertinence lies with the scholarly developed creative insight for existential-contextualising-contiguity knowledge-reification as knowledge. Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity criticism exactly because of its strong scholarly research-programme existential-contextualising-contiguity knowledge-reification, and thus an immanence-function-conflatedness insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-threshold, human existential-investment as of its temporality/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity lies in upholding-and-defending authentic intellectualism even as of metaphoricity beyond wooden-language-{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} socially intelligible ‘meaningfulness-and-teleology’ conceptualisation in epistemicity totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Metaphoricity as such ironises on social intellectual nihilism as it is bent on undermining any temporality/shortness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic intemporality/longness parrhesiastic askance, and as of
immanence-function-conflatedness \( ^2 \) ‘highlights and keeps wide-opened the prospect’ for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated–temporal-intemporality \( ^2 \) manifestations that usurp and undermine human transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation \( ^5 \) reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrypticism social-setup to perceive our positivism–procrypticism humanistic knowledge system as absolute; it is immanence-function-conflatedness \( ^1 \) by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity \( ^7 \) —of-the-human-institutionalisation-process\( ^5 \) as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\( ^5 \) meaningfulness-and-teleology\( ^100 \) conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions \( ^1 \) reference-of-thought. With such immanence-function-conflatedness \( ^2 \) insight, the epistemic and methodological pretences as of our humanistic positivism–procrypticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological
commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic postconverging–dementating/structuring/paradigm as of their ultimate existential-contextualising-contiguity knowledge-reification as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative existential-contextualising-contiguity knowledge-reification as knowledge construed as their research-programmes. This speaks of the fact that such a conception of epistemic commitment as of research-programme is effectively one of epistemic singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism so-implied as of ontological-normalcy/postconvergence associated with ontologically-uncompromised—referentialism deprocripticism; and very much overcoming the limiting effect of our present conception of epistemic commitment as rather dissingularisation-<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness>/<epistemic-nonimmanence/flawed-epistemic-determinism> as of ontologically-compromised—categorising positivism—procripticism. Thus, if immanence-function-confatedness reveals that it is the ‘projected research-programme of any given knowledge construct as of its prospective relative existential-contextualising-contiguity knowledge-reification’ that is its preeminent epistemic and methodological validation, ‘pretences of pre-given epistemic predispositions’ that do not attend pertinently and similarly to prospective relative existential-contextualising-contiguity knowledge-reification are nothing more but <amplituding/formative-epistemicity>totalising–self-referencing-synergeticising/circularity/interiorising/akrasiatic-drag predispositions that pretend to supersede
existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective–ontological-normalcy/postconvergence-implied–'prospective-aporeticism-overcoming/unovercoming'>, and institutionalised, such <amplituding/formative–epistemicity>totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag predispositions may actually be de-mentatively/structurally/paradigmatically stifling for the possibility of prospective knowledge and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and more seriously so where the possibility of varied research-programme choices are difficultly entertainable without institutional backing for research needing major funding and/or resources.

Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-sublimity/sublimation/supererogatory–de-mentativity wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising–purview-of-construal’ but with contrastive underlying relative-
ontological-incompleteness /relative-ontological-completeness
(sublimating~referencing/registering/decisioning—as-self-becoming/self-conflatedness /formative–supererogating←projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence}). It is quite absurd to think that the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity especially, as of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern-day science to develop and just as well modern-day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of the human subject’ as implied by deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought; and justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Immanence-function-conflatedness analytical implications equally arise as of the ‘countervailing transversality’ <for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–
relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to ontological-primemovers-totalitative-framework and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong ontological-primemovers-totalitative-framework and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient <amplituding/formative> wooden-language-{imbued—averaging-of-thought}<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of—nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>}

epistemic impertinence. Prospective notional–deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness reference-of-thought associated ontological-primemovers-totalitative-framework, with the implication that our positivism–procrypticism uninstitutionalised-threshold epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness-as-of-reference-of-thought uninstitutionalised-threshold and superseded by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supernaturation —de-mentativity determinant selector as of the deprocrypticism–or–preempting—disjointedness-as-of—reference-of-thought disseminative research-programme coherence and ontological-contiguity. The idea being that the notional–deprocrypticism epistemic-veracity as of such disseminative research-programme
coherence and ontological-contiguity equally imply an underlying falsifiability\textsuperscript{11}-or-deferred-falsifiability\textsuperscript{11} and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable to ontological-primemovers-totalitative-framework\textsuperscript{73} implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of existential-contextualising-contiguity\textsuperscript{19} knowledge-reification\textsuperscript{17} for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Such a notional deprocripticism epistemic-veracity implication is pertinent because blurriness and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-totalitative-framework\textsuperscript{73}, such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of ontological-primemovers-totalitative-framework\textsuperscript{73} as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality for-sublimating-existential-eventuating/denouement of-affirmative-and-
unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing constraining to the ‘superior party’ that is existence/existent-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—conflatedness totalising-entailing/nested-congruence or how these conflate as of prospective relative-ontological-completeness with existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <as-to-perspective–ontological-normalcy/postconvergence-implied-prospective-aporetism-overcoming/unovercoming>. Ultimately, the contrastive epistemic-veracity of theoretical and conceptual articulations rather lies with regards to their existential-contextualising-contiguity knowledge-reification as of their critical operant implications and unmuddled conceptions. Furthermore, the notional~deprocrypticism epistemic-veracity implies a further extension of deferential-formalisation-transference as of less predisposition to extended-informality wooden-language ⟨imbued—averaging-of-thought⟨as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology⟩-as-of—nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications⟩}.
With the causality as to projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity that the deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought extended-informality requires an organic-knowledge type of pedagogy based on eliciting an ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic sense-of-things, over the usual mechanical-knowledge type of pedagogy which is rather based on eliciting positive-opportunism sense-of-things. This is critical because the notional—deprocrypticism reference-of-thought warrants a more originary/as-of-event mental-disposition ‘beyond just responsiveness to seconndnatured institutionalisation’ but equally the capacity to assume dimensionality-of-sublimating (<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen behind the ‘inventing’ as of reasoning-through/messianic-reasoning with respect to ‘upholding and defending ontological-veridicality beyond constraining-and/or-seconndnatured institutionalisation framework’ as well as actually perpetuating prospective ontologically-veridical sublimation-as-of-deprocrypticism-immanented-implications, and so as of a fundamental mental-disposition for perpetually preempting—disjointedness-as-of-reference-of-thought. With the foregoing immanence-function-conflatedness insight, of most critical importance and decisiveness as de-mentatively/structurally/paradigmatically anchoring futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism
meaningfulness-and-teleology is the need for a notional-deprocrypticism reconceptualised conception of the human construction-of-the-Self. In this regard, we can appreciate critically that hitherto and as of a natural human predisposition to the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a human-subpotency flawed absolutising epistemic reference, and so over an existence-potency sublimating-nascence-disclosed-from-prospective-epistemic-digression absolutising epistemic reference, specifically as so-construed from our positivism-procrypticism registry-worldview/dimension flawed absolutising epistemic reference. The fact that existence/intrinsic-reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the ontological orientation of traditional psychology/psychoanalysis; wherein the human psychology of absolutising epistemic reference is wrongly conceived as of ontological-normalcy/postconvergence rather than as of epistemic-abnormalcy/preconvergence, considering the necessarily decontorting human-subpotency psyche on the constraint of our ontologically-compromised reproducibility—mathesis/motif/thrownness-disposition—as-reproducibility-of-aestheticisation as of our epistemicity-totalising-thrownness-in-existence. The implication here is that we cannot have a human-subpotency flawed absolutising epistemic reference that as of human-subpotency can surpass the ontological-veracity of the full-potency of existence/intrinsic-reality/ontological-veridicality as absolutising epistemic reference as of ontological-normalcy/postconvergence, and so given human-subpotency prior relative-ontological-incompleteness implied flawed prospective ontological-performance-<including-virtue-as-ontology>. Such a human-subpotency flawed absolutising epistemic reference for meaningfulness-and-teleology can be construed as of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self' /ontological-fracturing/desublimation/gimmickiness complex’; as of ‘human-subpotency

It is this construction-of-the-Self human-subpotency deficiency element construed as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{12}/ontological-fracturing/desublimation/gimmickiness complex’ that raises-the-charge-that-and-reflects-the-notion-that the mental-disposition of recurrent-utter-uninstitutionalisation is de-mentatively/structurally/paradigmatically bound to fail the ontological-performance\textsuperscript{72}-\textless incl.-virt.-onto\textgreater of base-institutionalisation mental-disposition, that of base-institutionalisation–ununiversalisation will likewise fail as of \textsuperscript{104}universalisation mental-disposition, \textsuperscript{104}universalisation–non-positivism/medievalism will likewise fail as of positivism mental-disposition, and prospectively our positivism–procrypticism will likewise fail as of notional–deprocrypticism mental-disposition. This element of the dynamic evolution of the human psyche and the underlying instigative agency, herein articulated as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{12}/ontological-fracturing/desublimation/gimmickiness complex’, is mostly lost to traditional psychology that doesn’t register our own positivism–procrypticism prior relative-ontological-incompleteness\textsuperscript{89}-of-reference-of-thought as of an ontological-normalcy/postconvergence/referentialism notional–deprocrypticism perspective of analysis as of singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism. Such a apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness\textsuperscript{12} construction-of-the-Self is one that is de-mentatively/structurally/paradigmatically enframed in grasping the ‘notional dissonance/consonance of human superego and existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression as it construes of human-subpotency reference-of-thought given level of ontological-veridicality-commitment/aetiolgisation/ontological-escalation/otherliness implications; and so as devolvingly thereof, construction-of-the-Self is the individual autonomous ecstatic/existential
made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology \(^{100}\) implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-primemovers-totalitative-framework \(^{1}\). Thus intemporal ontological-performance \(^{-1}\)-<including-virtue-as-ontology> ever always warrants human prospective relative-ontological-completeness’-of-reference-of-thought for empowering and responsible meaningfulness-and-teleology \(^{100}\) for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness \(^{9}\) as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments \(^{10}\), and as the very possibility for prospective ontological-performance \^-<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance \^-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-
its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human \(\text{amplituding/formative–epistemicity} \text{totalising–thrownness-in-existence}\) the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory–de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic \(\text{amplituding/formative}\) wooden-language\(\langle\text{imbued—averaging-of-thought—}\text{as-to-\text{leveling/ressentiment/closed-construct-of— \text{meaningfulness-and-teleology}}—\text{as-of—\text{‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}}\rangle\}? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance\(\langle\text{including-virtue-as-ontology}\) as of human \(\text{amplituding/formative–epistemicity} \text{totalising–thrownness-in-existence}\) induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. This reality in reflecting holographically<-conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process very much explains the statement ‘I know that I know nothing’ made by Socrates reflecting his conception of anamnesis, as the state of human limited-mentation-capacity implies that it is foolhardy to articulate in \textsuperscript{[8]}presencing—absolutising-identitive-constitutedness\textsuperscript{[13]} terms \textsuperscript{[5]}meaningfulness-and-teleology\textsuperscript{[10]} as of absolutising reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation but rather ‘the anamnesis of \textsuperscript{[5]}meaningfulness-and-teleology\textsuperscript{[10]} reflects prospective originariness-parrhesia,—

identitive-constitutedness\(^13\) as reproducibility—mathesis/motif/thrownness-disposition,–as–

of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on
the one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the
basis of the specific \(^10\)universalising-idealisation phronetic/practicality situations as to its
defining existence-potency\(^3\)~sublimating–nascence,-disclosed-from-prospective-epistemic-

The fact is that Socrates (and as momentously reflected in his abhorrence of writing as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing by writing that is not necessarily pedagogically instructive’, and thus not contradictory with Plato’s writing as of recording-for-posterity) and Plato were more engaged with establishing overall philosophical insight beyond just their universalising-idealisation renewed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation over non-universalising sophistry (even as their association of anamnesis with mythical recollection was caught up in the universalising-idealisation apriorising/axiomatising/referencing—psychologism but by the practical demonstration is relevant in all registry-worldviews/dimensions as of the example articulated as well herein by this author with regards to a child’s solipsistic sense of meaning wherein after grasping the rules of additionality even a deliberately collective social misleading will not derail the child’s true sense of meaning) as they factored that any such renewal is being undertaken phronetically/practically with human limited-mentation-capacity that is not of absolutising conceptualisation, speaking prospectively of destructuring-threshold—{uninstitutionalised-threshold/presublimating—desublimating—decisionality}—of-ontological-performance<including-virtue-as-ontology>, and thus what is more profoundly critical is knowledge-reification as of the transepistemic implications of human limited-mentation-capacity-deepening. Aristotle as successor to their thought effectively had to move on to more fruitfully and complementarily elaborate phronetically/practically the implications of universalising-idealisation meaningfulness-and-teleology infrastructure as of science, practical-virtue, rationality, etc., rather than just theoretically reiterating his predecessors, and as such phronesis as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation is what induces existential-contextualising-contiguity and thus allows prospective dimensionality-of-sublimating—{<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or—

<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity and not any notion of vague innateness besides the existentially inherent human-subpotency potential) leading to further superseding/transcendence as of prospective reproducibility—mathesis/motif/thrownness-disposition,—as–reproducbility-of-aestheticisation. But the fact is there is comprehensive coherence in the philosophical articulations of the three thinkers when construed with this comprehensive philosophical knowledge-reification projection insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue in the sense that human knowledge-reification, and so in all domains without exception, is one of a dynamic complementary relationship between dimensionality-of-sublimating

aestheticisation. In this regards, Socratic philosophy as of its knowledge is virtue contention recognises that the impression-driven/good-naturedness/wishfulness of any given reproducibility—mathesis/motif/thrownness-disposition,--as–reproducibility-of-aestheticisation whether as of non-universalising sophistry or even prospective Socratic-philosophers universalising-idealisation is not sufficient to ‘absolutely capture’ ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression, and that such a possibility lies in perpetual knowledge-reification disposition as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework. Thus Socratic philosophy as of its very ‘anamnesis core implications’ doesn’t only supersedes prior non-universalising sophistry with universalising-idealisation but it can equally be said that it anticipates prospective positivism/rational-empiricism phronesis existential-contextualising-contiguity as it reconceptualises science, practical-virtue, rationality, etc. in superseding universalising-idealisation phronesis existential-contextualising-contiguity at the latter’s destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating–decisionality}-of-ontological-performance-{<including-virtue-as-ontology>, as well as anticipate the overall human institutional process as herein conceptualised as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> -as-veridical-epistemic-determinism <amplituding/formative–epistemicity>causality-as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity of phronesis existential-contextualising-contiguity. Thus more critically prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is induced as of the displacement/decentering-of-the-human-subject in its prior relative-ontological-incompleteness’s apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so as of epistemic-ricoetting/transepistemicity reasoning-through/messianic-reason

metaphoricity. The reality thus is that prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity from a presencing—absolutising-identitive-constitutedness perspective is not actual meaningfulness-and-teleology but
rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment rather inducing prospective meaningfulness-and-teleology mostly as of prospective crossgenerational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency–sublimating–nascence-, disclosed-from-prospective-epistemic-digression reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in
terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology[10]. Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence’–existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending
sophistries that confuse-and-disrupt-as-of-significant-otherwise that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation taking herein as of a strictly ontological-veracity inclination as to the reality of the fact that existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression supersedes human-subpotency, and it is the latter that adjusts to the former. This is exactly what is reflected by ontological-facturing, wherein the potential for ontological-normalcy/postconvergence is de-mentatively/structurally/paradigmatically fractured-at-given-ontologically-compromised-thresholds in the of the successive given levels in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process; from recurrent-utter-uninstitutionalisation ontological-fracturing, base-institutionalisation–ununiversalisation ontological-fracturing, universalisation–non-positivism-medievalism ontological-fracturing, positivism–procrypticism ontological-fracturing towards futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism ontological-normalcy/postconvergence; as of the implications of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
to-intemporal-dispositions<so-construed-as-from-perspective-ontological-normalcy/postconvergence>–existentialism-form-factor. The implication here is that all projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation percolation-channelling<in-deferential-formalisation-transference>, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing\(^1\) of such idealisations with regards to their more profound transcendence-and-sublimity/sublimation/supererogatory~de-mentativity implications. In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuations-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance\(^2\)-<including-virtue-as-ontology> is inherent, the underlying de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance\(^2\)-<including-virtue-as-ontology> in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of percolation-channelling<in-deferential-formalisation-transference> doesn’t substitute for the<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of the underlying dimensionality-of-sublimating\(^2\)<amplituding/formative>supererogatory~de-mentativeness/epistemic-growth-or-
conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) individuation disposition that of reasoning-through/messianic-reasoning brought about secondnatured institutionalisation. The bigger point here is that there is never going to be an inherent suprasocial or wooden-language (imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications) framework that ‘invents’ and accounts for prospective social transcendence-and-sublimity/sublimation/supererogatory—de-mentativity idealisation, in the way that human idealisation is often wrongly construed and propounded. All the human idealisation that exists is as of effective individuals and institutional intemporal individuation projection for prospective totalising~renewing-realisation/re-perception/re-thought of what they as of reasoning-through/messianic-reasoning idealise as from their underlying baseline registry-worldview/dimension reference-of-thought and the subsequent secondnatured institutionalisation of its given intemporal ontological-performance <including-virtue-as-ontology>; and so, beyond the naivety of construing a given registry-worldview/dimension reasoning-from-results/afterthought as a suprasocial or wooden-language–(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications) absolutising epistemic reference of ontological-veracity for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity idealisation. implies that any such registry-worldview/dimension social-setup has ‘a basic postconverging–

difficultly renege, as of contradictory and incoherent implications, on such critical prospective

It is this element that equally ultimately renders the study of the social, notwithstanding its strong underlying amplituding/formative-epistemicity totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of potentially the same ontological-performance including-virtue-as-ontology possibility as with the natural sciences. That is the apparent conventioning-referencing of the social as of an immediacy perspective naively implies the social is of a poor supposedly coherent ontological-commitment implied—self-assuredness-of-ontological-good-faith/authenticity postconverging–de-mentating/structuring/paradigming as-being-as-of-existential-reality but from a more profound level of appreciation this not the case as explained above, as in effect a society/social-setup conventioning projects correspondingly a profound supposedly coherent ontological-commitment implied—self-assuredness-of-ontological-good-faith/authenticity postconverging–de-mentating/structuring/paradigming as-being-as-of-existential-reality as of its ‘self-assuredness-of-ontological-good-faith/authenticity postconverging–de-mentating/structuring/paradigming as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ which is then enabling for the critical metaphoricity of prospective meaningfulness-and-teleology ontological-veracity implications of ontological-primemovers-totalitative-framework as of prospective relative-ontological-completeness. In other words, as of transversality for-sublimating–existential-eventuating/denouement of-affirmative-and-unaffirmative-disambiguated–motif-and-apriorising/axiomatising/referencing of human metaphoricity of temporal-to-intemporal–ontological-performance including-virtue-as-ontology of-narratives, we know that the ontological-primemovers-totalitative-framework that underlies existence-potency sublimating–nascence, disclosed-from-prospective-epistemic-digression sublimating-validation/desublimating-invalidation implications of ontological-veracity is bound

Even though in the short-term/immediacy perspective the specific metaphoricity of say a scientific and liberal worldview narrative as implied with the industrial revolution may actually be in the most part ignored/overlooked in a pre-industrial society from a merely meaningfulness-and-teleology transmission/spreading perspective, the supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging-de-mentating/structuring/paradigming—as-being-as-of-existential-reality> so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity—postconverging-de-mentating/structuring/paradigming—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ exposes it to the metaphoricity of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained politically and as of national vision, economically and
culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior preconverging–de-mentating/structuring/paradigmning of societies. Such an overall prospective institutionalisation metaphoricitry constraining is very much unlike what we may naively imagine the prior human meaningfullness-and-teleology to be from an after the fact analysis; since such a process is much more critically more than just ‘mere transmission/spreading of scientific and liberal meaningfullness-and-teleology for say a suprasocial or wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-nondescript/ignoreable–void—with-regards-to-prospective-apriorising-implications>} human mindset processing’, but critically was an epistemic-ricochetting/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> unlike our subsequent reasoning-from-results/afterthought contemplation afterwards ‘wrongly implying a metaphoricitry as of a self-consciously instigated prior suprasocial or wooden-language-{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-nondescript/ignoreable–void—with-regards-to-prospective-apriorising-implications>} comprehensive sense of prospective metaphoricitry’.

This points to a more comprehensive reality of human epistemic-veracity arising as of our totalising–thrownness-in-existence with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability implications as of ontological-primemovers-totalitative-framework, in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then
epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology\(^5\)<in-existential-extrication-as-of-existential-unthought>\(^5\)

nonpresencing-<perspective–ontological-normalcy/postconvergence> ricocheting that speaks of the de-mentative/structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness\(^5\) appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or <amplituding/formative> wooden-language\(\{\)imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology \(-as-of-'nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications}\(\})\)

We can appreciate as well in the bigger scheme of things the ontological-veridicality of this scepticism with regards to any such suprasocial or <amplituding/formative> wooden-language\(\{\)imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology \(-as-of-‘nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications}\(\})\)

epistemic-veracity pretence, as expressed before with respect to Plato’s idea \(^{11}\) universalisation involving the undermining of the suprasocial epistemic-veracity pretence associated with sophistry or Descartes’ cogito implications of positivism/rational-empiricism involving the

l-reality’ as of prospective relative-ontological-completeness—of-axiomatic-construct-or—reference-of-thought, the epistemic-veracity as implied in succession from Copernicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21st century physics is mostly as of ricochetting prospective—nonpresencing—<perspective–ontological-normalcy/postconvergence>. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its de-mentative/structural/paradigmatic meaningfulness-and-teleology as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility for prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework validation-and-falsifiability. Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of prospective meaningfulness-and-teleology as knowledge on a vague notion of any presencing—absolutising-identitive-constitutedness epistemic-veracity that at the very least doesn’t rise to projectively contemplate and appraise of such prospective meaningfulness-and-teleology as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability. Thus metaphoricity as such is a notion that is beyond just simplistic
apriorising/axiomatising/referencing’ of temporal-to-intemporal–ontological-performance\(^7\)-<including-virtue-as-ontology>-of-narratives is rather as of ontological-primemovers-totalitative-framework\(^7\) selecting/skewing-towards intemporality\(^7\)/ontological-veracity as to existence-potency\(^7\)~sublimating–nascence,-disclosed-from-prospective-epistemetic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its conventioning-referencing and its \(^8\) presencing—absolutising-identititive-constitutedness\(^1\). Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\(^5\) meaningfulness-and-teleology\(^10\), when it comes to assessing the possibility of prospective \(^9\) meaningfulness-and-teleology\(^10\) inducing of metaphoricity\(^9\). It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\(^5\) meaningfulness-and-teleology\(^10\) like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\(^5\) meaningfulness-and-teleology\(^10\) including our modern period, is a flawed appraisal; as in many ways, beyond our \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\(^7\) perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold\(^10\) as of the privileging of
conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional-deprocrypticism metaphoricity in our positivism–procrypticism; as its brings to the self-consciousness the reality that the implication of such a notional–deprocrypticism articulation is bordering on the limits/thresholds of our institutional capacity for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of a privileging of conventioning-referencing disposition to adopt and assume intellectual nihilism at such an uninstitutionalised-threshold; it is herein contended that the reality is similar to that which scuppered Arabic medieval science or scuppered medieval China progressiveness.

uninstitutionalised-threshold\textsuperscript{(5)} relationship with ontological-veracity, this is exactly what inevitably validates the articulation of ontological-veracity/ontological-veridicality as more completely involving the displacement/decentering-of-the-human-subject priorly as implied with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative in reflecting the need to undermine human destructuring-threshold\textsuperscript{(8)} (uninstitutionalised-threshold /presublimating–desublimating-decisionality)\textsuperscript{−} of-ontological-performance\textemdash\textasciitilde\textlt{−}\langle\text{including-virtue-as-ontology}\rangle\texttextsuperscript{−}\textsuperscript{−}\textlt\textsuperscript{−} to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completenenss implications; reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness\textsuperscript{(6)} and thus the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness\textsuperscript{−} as of projected apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity\textsuperscript{−})—confulatedness\textsuperscript{−}. This is very much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity\textsuperscript{−})—constitutedness\textsuperscript{13} since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness\textsuperscript{(9)} on ontological-veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent ‘logocentric habituated social conditions’ in enabling the ontological-contiguity\textsuperscript{(7)}—of-the-human-institutionalisation-process\textsuperscript{(10)} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—\textsuperscript{(5)}−meaningfulness-and-teleology\textsuperscript{(100)} right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given
its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\(\{\text{uninstitutionalised-threshold} / \text{presublimating–desublimating-decisionality}\}\)-of-ontological-performance\'-\langle\text{-including-virtue-as-ontology}\rangle\) nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochet/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\) as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity meaningfulness-and-teleology\(^{100}\) whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\(\{\text{uninstitutionalised-threshold} / \text{presublimating–desublimating-decisionality}\}\)-of-ontological-performance\'-\langle\text{-including-virtue-as-ontology}\rangle\) nature is effectively what underlies in ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrypticism prior relative-ontological-incompleteness\(^{100}\) human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms–as-of-axiomatic-construct of the circumstantial social primacy of this temporal
framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness\textsuperscript{98} deprocrypticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding-positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness\textsuperscript{90} temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness\textsuperscript{93} positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{99} /contemplative-distension\textsuperscript{26} (as of human self-surpassing—existentialism-form-factor, in-overcoming-'notionally–collateralising-beholdening-protohumanity'-to-‘attain-sublimating-humanity’-as-to-existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression to supersede human temporality\textsuperscript{10} /shortness <amplituding/formative> wooden-language ⟨imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩); which will explain in many ways the difficulty of the Copernicus, Galileos, Descartes’, Diderots, etc. so effectively enculturate their budding-positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-
incompleteness\textsuperscript{9} human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness\textsuperscript{8} notional-deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporality /longness and temporality /shortness as to human limited-mentation-capacity relative ontological-performance\textsuperscript{7} -<including-virtue-as-ontology>. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness\textsuperscript{5} notional-deprocrypticism that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-completeness\textsuperscript{5} notional-deprocrypticism herein construed as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> ; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to
attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness\(^8\)/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness\(^8\) positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is universally emancipatory as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\(\langle\)uninstitutionalised-threshold /presublimating–desublimating-decisionality\rangle–of-ontological-performance\(^7\)-<including-virtue-as-ontology> nature inherently points out why human transcendence-and-sublimity/sublimation/superrorary-de-mentativity as of intemporal metaphoricity\(^7\) epistemic pertinence doesn’t lie with any inherent suprasocial framework or inherent <amplituding/formative> wooden-language\{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} framework. This is the overall notion explaining human akrasia-susceptibility-or-akrasiatic-drag complex, and so as of human limited-mentation-capacity notional implications. Thereafter, understanding of this human ‘ontologically-flawed antiakrasiatic disposition’ is all about conceptualising the effective operant ontologically-constraining conditions as of human existential-instantiations given our limited-mentation-capacity implied as of temporality/shortness and intemporality/longness implications, and so construed epistemically as ontological-normalcy/postconvergence analysis. This analysis so far sums up the overall framework of human temporal-to-intemporal ontologically-flawed antiakrasiatic disposition as of the social epistemic-totality of meaningfulness-and-teleology in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity of the humaninstitutionalisation-process. Further and of much more profound reification implications, is the reality that the social-construct constructive and destructuring nature can be fundamentally accounted for by the fact that human antiakrasiatic disposition aspiration is truly reflected as from the effective implications of the intempestoral ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning ‘seeding promise of human-subpotency ontological-performance’-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s-sublimating-nascence-as-of-its-coherence/contiguity; thus with the latter reconceptualised as ‘human-subpotency equivalence/correspondence antiakrasiatic-aspiration ontological-performance’<including-virtue-as-ontology>. The comprehensive social susceptibility to deconstructing-transitoriness—as-of-deratiocination/deratiocontiguity as the defining element of the social-construct destructuring is what underlies passive to active social mobbings as of human limited-mentation-capacity social dynamic implications of lacking social ontologically-hegemonising-narrative. The failing cogency and individual wariness of the social as of the lack of a comprehensive expectation of ‘equivalence/correspondence
antiakrasiatic-aspiration ontological-performance\(^7\)-<including-virtue-as-ontology> arises because of destructuring-transitoriness\(^1\)-as-of-deratiocination/deratiocontiguity as of its implied destructuring-threshold-{uninstitutionalised-threshold\(^{10}\)/presublimating-desublimating-decisionality} of-ontological-performance\(^7\)-<including-virtue-as-ontology> parasitism <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^3\), as beyond-the-consciousness-awareness-teleology\(^{10}\)-<in-existential-extrication-as-of-existential-unthought> this reflects the individual psyche conception of the social especially as of its extended-informality as not necessarily of high operant ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance\(^7\)-<including-virtue-as-ontology>’, and is further reflected in a social dynamics of dual overt and covert implicated interpretations of social phenomenality arising as of beyond-the-consciousness-awareness-teleology\(^{10}\)-<in-existential-extrication-as-of-existential-unthought> cognisance-and-adaptation to the reality of the ontologically compromisable possibility of social meaningfulness-and-teleology\(^{10}\). Insightfully, it can be appreciated that the ontological-contiguity\(^6\)—of-the-human-institutionalisation-process\(^6\) is one long process involving the undermining of destructuring-transitoriness\(^1\)-as-of-deratiocination/deratiocontiguity at uninstitutionalised-threshold\(^{10}\) with relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance\(^7\)-<including-virtue-as-ontology>’ as of ontologically-hegemonising-narrative\(^1\) implied as of prospective ‘amplituding/formative–epistemicity> totalising–ratio-contiguity/ratiocination-as-referentialism constructiveness disposition in singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing projected epistemic-immanence/veridical-epistemic-determinism’. In this regard, we can appreciate anthropologically as of human limited-mentation-capacity-deepening\(^3\) implications the destructuring-transitoriness\(^1\)-as-of-deratiocination/deratiocontiguity that upheld superstitious
epistemic/notional-projective-perspective in singularisation-as-to-the

‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’-human-subpotency-

the elucidation/reification as ‘destructuring-threshold-(uninstitutionalised-
threshold/presublimating–desublimating-decisionality)-of-ontological-performance’-
<including-virtue-as-ontology> analysis’ is rather notionally/epistemically reflective of the
social-construct constructiveness-of-ontological-performance-<including-virtue-as-ontology>,
as such an antiakrasiac analysis of uninstitutionalised-threshold notionally/epistemically
reflects the ontological-contiguity—of-the-human-institutionalisation-process; and so,
similarly as the analysis of prospective possibilities of disease and illness is not about being
pessimistic about the biology of human beings but is notionally/epistemically reflective of the
possibility for the further development and provision of medicine and healthcare, and just as the
projective analysis of lack of science and technology capacity is not about being pessimistic
about human technical development but is notionally/epistemically reflective of the possibility
for the further invention of technologies and scientific discoveries. We can appreciate here that
the very same epistemic/notional conceptualisation with respect to the human subject as with
natural subject-matters elicits in the former high emotional involvement whereas the latter as of
its direct ontological-primemovers-totalitative-framework amplituding/formative-
epistemicity>causality-as-to-projective-totalitative-implications-of-prospective-
nonpresencing,-for-explicating-ontological-contiguity elicits low emotional-involvement,
but for the case where with regards to high and conflicting human social-stake-contention-or-
confliction even the natural domain is not immuned from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-\{ uninstitutionalised-threshold\}_{103}/presublimating-desublimating-decisionality\}--of-ontological-performance_{72}<-\{including-virtue-as-ontology\}> and as reflected at uninstitutionalised-threshold \{103\}. As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance_{72}<-\{including-virtue-as-ontology\}> destructuring-threshold-\{ uninstitutionalised-threshold\}_{103}/presublimating-desublimating-decisionality\}--of-ontological-performance_{72}<-\{including-virtue-as-ontology\}> and uninstitutionalised-threshold \{103\}, and it is this difficult task of crossgenerational mobilisation that enables the prospective constructiveness-of-ontological-performance_{72}<-\{including-virtue-as-ontology\}> for human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology_{100}. The implicated passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold-\{ uninstitutionalised-threshold\}_{103}/presublimating-desublimating-decisionality\}--of-ontological-performance_{72}<-\{including-virtue-as-ontology\>
need to be integrated into the very core of such seconndnatured formulaic/mechanical-
knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity ——of-the-human-institutionalisation-process; such that prospective social-construct constructiveness-of-ontological-performance —<including-virtue-as-ontology> and institutionalisation is ever always a process of maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation to prospectively recapture the supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of:
a sense of temporal social-stake-contention-or-confliction existential-investment ushering in the furthering of temporality\cite{shortness} as of untransvaluated–temporal-intemporality inclination and accompanying sophistic/pedantic complexes. But from the intemporal-as-ontological teleologically-elevated projection reflected as from existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression epistemic/notional–projective-perspective for aetiology/ontological-escalation such temporal-dispositions are rather unwarranted and irrelevant since such aetiology/ontological-escalation is rather geared towards the prospective relative-ontological-completeness implied social-stake-contention-or-confliction as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming and not the prior relative-ontological-incompleteness social-stake-contention-or-confliction in extricatory/temporal preconverging–de-mentating/structuring/paradigming; and candidly so to the extent that the intemporal-as-ontological dispensing-with-immediacy-for-relative-ontological-completeness—by-reification /contemplative-distension (as of human self-surpassing—existentialism-form-factor, in-overcoming ‘notionally–collateralising-beholdening-protohumanity’–to–attain-sublimating-humanity’–as-to-existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression to supersede human temporality\cite{shortness} wooden-language-(imbued—averaging-of-thought;<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology as of ‘nondescript/ignorable–void ’–with-regards-to-prospective-apriorising-implications>) is not interpreted from a temporal existential-extricatory-as-of-existential-unthought perspective as ineptness warranting the furtherance of temporal-dispositions as of untransvaluated–temporal
intemporality\textsuperscript{15} inclination and accompanying sophistic/pedantic complexes as well as to the extent of entailing prospective relative-ontological-completeness\textsuperscript{16}. We can appreciate in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy apriorising-teleological-elevation-in-ontological-contiguity\textsuperscript{17} beyond recurrent-utter-uninstitutionalisation social-stake-contention-or-confliction as of its ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’ in 4<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag\textsuperscript{18}, and likewise with the intemporal projection as of \textsuperscript{10}universalisation over base-institutionalisation–ununiversalisation, positivism over \textsuperscript{10}universalisation–non-positivism/medievalism and prospectively notional–deprocrypticism over positivism–procrypticism. In this regards, the notion of preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism as reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing \textsuperscript{19}–qualia-schema’ of prior relative-ontological-incompleteness\textsuperscript{19} is tied-to and a necessarily associated notion with that of postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism as reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema’ with respect to the possibility of a protracted-consciousness conceptualisation in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{18}; and as this explains the successive construction-of-the-Self reflected in the successive registry-worldviews/dimensions. It is the possibility for the human mind to dement as of a ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{19}–qualia-schema’ by its self-conscious <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of its <amplituding/formative–epistemicity>totalising–thrownness–
with respect to prospective base-institutionalisation ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’, and likewise universalisation with respect to base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism with respect to positivism, and our present positivism–procrypticism with respect to prospective deprocrypticism. The fact is, even the said prospective transcendence-and-sublimity/sublimation/supererogatory–dentativity emancipators across the successive registry-worldviews/dimensions in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process are just as equally relatively enmeshed in many ways with their reference-of-thought old psychology ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ like say Newton’s involvement with alchemy, and the idea of projecting to a prospective ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ speaks of a first level of human uninhibitedness/decomplexification that is exactly what allows for human emancipation. This further shows how our seemingly objectified presencing—absolutising-identitive-constitutedness positivism–procrypticism disposition is all-encompassing as of our syncretising/circularity/interiorising/akrasiatic-drag when we construe of ourselves as ‘postconverging-or-dialectical-thinking–apriorising-psychologism as of in-the-absolute’ without projecting that just as prior generations of humans were both postconverging-or-dialectical-thinking–apriorising-psychologism as of their constructiveness-of-ontological-performance-<including-virtue-as-ontology> reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking –
epistemic-immanence/veridical-epistemic-determinism. Thus the ontological-contiguity\(^67\)—of-the-human-institutionalisation-process\(^68\) ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{109}\)’ highlights that as of our positivism–procrypticism wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>} as of its ontologically-flawed identitive-constitutedness\(^1\)-as—‘epistemic-totality\(^{16}\)’—dereification\(^87\)-indissingularisation—<as-to-the-disjointedness/disentailment-of—presencing—absolutising—identitive-constitutedness >—as-flawed-epistemic-determinism, we are involved in a fundamental disjointedness-as-of—reference-of-thought in the sense that we seem to imply in our \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akraziatic-drag}\(^3\)> that our ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’ as reflected by our positivist science-ideology and humanism ideology seemingly surpasses the very ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{109}\)’ in reflecting holographically—\(<\text{conjuguatively-and-transfusively}>\text{the ontological-contiguity}\(^67\)—of-the-human-institutionalisation-process\(^68\) that engendered our positivism/rational-empiricism creating as of epistemic-ricochetting the said science without the science-ideology and the said human emancipation without the humanism ideology. This fundamental disjointedness explains why and how our positivist science-ideology and humanism ideology so-misconstrued beyond-the-consciousness-awareness-teleology\(^{109}\)-<in-existential-extrication-as-of-existential-unthought>\(^4\) rather turns out to be denaturing and undermines prospective Being-development/ontological-framework-development, and explains our inclination to ask the wrong questions given the

Such questions with regards to how the humanities can be further developed as efficaciously as the natural sciences, how can philosophy be more socially potent, and on the social paradoxes of our suboptimum institutional-development–as-to-social-function-development and living-development–as-to-personality-development, more critically point to the ontological-veracity in reflecting holo-graphically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{[10]} as of its implied intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation registry-worldviews/dimensions; and so critically by the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument predilection is
further subject to its internal social-stake-contention-or-confliction sophistry, with the
implications that all prospective transcendence-and-sublimity/sublimation/supererogatory–de-

necessarily be wary of all such sophistry that go on to emphasise logic as of the deficient

prospective preconverging-or-dementing–apriorising-psychologism and thus ontological-

process ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-
depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology’
points out that our positivism/rational-empiricism induced science-ideology and humanism
ideology as ‘attendant-ontology—as-of-conventioning-referencing’ is the outcome in reflecting

epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking — qualia-schema’ and preconverging-or-dementing — apriorising-psychologism destructuring-threshold — (uninstitutionalised-threshold/presublimating−desublimating-decisionality) — of-ontological-performance — <including-virtue-as-ontology> as reflected by ‘<amplituding/formative—epistemicity> totalising/circumscribing/delineating preconverging/dementing — qualia-schema’. Ultimately, human de-mentation (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or—attributive-dialectics) is the notion underlying human self-consciousness as of construction-of-the-Self all along in reflecting holographically — <conjugatively-and-transfusively> the ontological-contiguity — of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’. It all arises from the ‘human capacity for decomplexified/uninhibited preconverging-or-dementing — apriorising-psychologism’ in order to then ‘prospectively induce originarily/as-of-event prospective postconverging—or-dialectical-thinking — apriorising-psychologism’. In this regards, we can factor in for instance that more critically rather than construing the prospective reification of the humanities and philosophy for instance in terms of breakthroughs along the lines of say exceptional methods or capacity along the lines of our ‘positivism—procrypticism attendant-ontology—as-of-conventioning-referencing’, the reality of any such transcendence-and-sublimity/sublimation/supererog eighth — de-mentativity will rather be ‘a more candid face-up with our procrypticism—or—disjointedness-as-of—reference-of-thought’ as herein implied by this author as of the notion of ‘beyond-the-consciousness-awareness-teleology’ — <in-existential-extrication-as-of-existential-unthought> — institutional-being-and-craft, muddlement and other intellectual complexes/inhibitions’ that de-mentatively/structurally/paradigmatically as of a destructuring-threshold — (uninstitutionalised-threshold/presublimating−desublimating—...

In other words, the possibility of all human prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of5 incrementalism-in-relative-ontological-incompleteness5—enframed-conceptualisation disposition but rather more concretely only after human decomplexing/uninhibiting de-mentative/structural/paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency5~sublimating–nascence,–disclosed-from-prospective-epistemic-digression level for human emancipation as of5 maximalising-recomposuring-for-relative-ontological-completeness5—unenframed-conceptualisation; and this is effectively reflected in all cases of human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. Whether of low or high emotional-involvement, it is inevitably the case that the de-
mentative/structural/paradigmatic possibility for prospective human transcendence-and-

is the very shepherding/ushering/heralding possibility for existence’s intelligibility. Thus the supervening unity of all existential sublimation manifestations arises as of their notional–conflatedness intelligibility derived from the primordial ineffability of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of existential-reality> as of ontological-primemovers-totalitative-framework <amplituding/formative–epistemicity> causality ~as-to-projective-totalitative–implications-of prospective–nonpresencing,–for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human); and this primordial ineffability is thus the epistemic guidance for the construal of intelligibility in all existential sublimation manifestations. human existential tale perpetuation and its implications is alien to the sophists since all that counts is the immediate now and its temporal/mortal social-stake-contention-or-confliction interests; and worst still, human limited-mentation-capacity in inducing prospectively relative-ontological-completeness as of the weaknesses associated in all human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity is held by the sophists against any such reasoning-through/messianic-reasoning for transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity—of-the-human-institutionalisation-process as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness~by-reification~/contemplative-distension which is ‘never always the easiest of notion’ for human wooden-language~imbued—averaging-of-thought.<as-to-

conflatedness /formative–supererogating>, as the latter notion only arises as of mutual apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in relative-ontological-completeness as of the underlying registry-worldview/dimension reference-of-thought <amplituding/formative–epistemicity> totalising–devolved-apriorising-rule; as there can be no genuine contention between a ⁴⁰ universalising-idealisation mindset and a sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for the mere sake of preserving and avoiding the denaturing⁴⁵ of the ⁴⁰ universalising-idealisation meaningfulness-and-teleology⁴⁰ or positivising/rational-empiricism ⁵⁰ meaningfulness-and-teleology ⁵⁰. This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-threshold ⁴³ arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretence of mutually objectifying intellection between genuine intellectualism and sophistry, which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it essentially is; as with the ¹⁰ universalising-idealisation philosophers not wasting their time in pretence of engaging the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled–syllogising mindset or the budding-positivists/rational-empiricists dismissing off-hand pedantic scholasticism. The habituated idea of dialogue/dialogical-equivalence<as-to-psychologismic–apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness -in-self-becoming/self-
conflatedness /formative–supererogating> arises as of the mental-reflex that ordinarily all meaningfulness-and-teleology as of a given registry-worldview/dimension is grounded on the same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notwithstanding the existential-instantiation soundness or unsoundness of its devolving aposteriorising/logicising/deriving/intelligising/measuring. But where in the instance of dissimilar apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, despite our habituation, dialogue/dialogical-equivalence<as-to-psychologismic-apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity )—conflatedness ,-in-self-becoming/self-conflatedness /formative–supererogating> as of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity’<shallow-supererogation -of-mentally-aestheticised~preconverging/dementing –qualia-schema’ does not avail as of epistemic-veracity and thus ontological-veracity as of the ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity’<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in prior relative-ontological-incompleteness which rather warrants psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective relative-ontological-completeness. This is akin to the mathematician opened to mutual calculating even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance<including-virtue-as-ontology> but this only holds with the mathematical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost,
fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of meaningfulness-and-teleology\(^{10}\) as of ontological-veracity is about the ‘reasoning-through transversality\=<for-sublimating–existential-eventuating/denouement\>=of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ of contentions for the determination of existence-potency\(^{18}\)=sublimating–nascence,-disclosed-from-prospective-epistemic-digression as of ontological-primemovers-totalitative-framework\(^{11}\) \=<amplituding/formative–epistemicity>causality as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity \> and it is rather different from a sovereign construct grounded on sovereign choice whether there is ontological-veracity or ontological-impertinence. The human existential tale as ‘humanity project’ has ever always been one of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event\(^{17}\) reasoning-through/messianic-reasoning’ as implied in the ‘seeding promise of human-subpotency ontological-performance\(^{22}\)=<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. The secondnatured institutionalisation constructs as of sovereign institutions and establishment frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification\(^{27}\) role and as beyond-the-consciousness-awareness-teleology\(^{16}\)=<in-existential-extrication-as-of-existential-unthought> surreptitiously defining what can be thought or not thought. The fact is such implied underpinning–suprasocial-constructs are mainly secondnatured whether as sovereign representation or establishment constructs, and can easily be caught up in their own <amplituding/formative–
in prior relative-ontological-incompleteness with respect to social-stake-contention-or-confliction and are thus not the absolutising framework of human meaningfulness-and-teleology, as the social knowledge-reification role must always be opened to ‘intemporal individuation ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic asksis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as of the possibility of its arising in any humans and in whatever specific purviews of existence, as this is what is instigative of ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’; as it is only by the latter process that the ‘suprasocial obsession/myopism as of a given registry-worldview/dimension social-stake-contention-or-confliction’ can be superseded, as of reconstruing recurrent-utter-uninstitutionalisation underpinning—suprasocial-construct rather as of base-institutionalisation, base-institutionalisation—ununiversalisation underpinning—suprasocial-construct rather as of universalisation, universalisation—non-positivism/medievalism underpinning—suprasocial-construct rather as of positivism, and prospectively positivism—procrypticism underpinning—suprasocial-construct rather as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. We can appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning—suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning—suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising—

<amplituding/formative–epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which obviously doesn’t register/is-unaccounted internally because (but from the existence-potency—sublimating–nascence—disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notional—deprocrypticism perspective) de-mentatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its defective ontological-performance—<including-virtue-as-ontology> as it surreptitiously implies that it is absolute beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought’. The fact is, it is this possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists putting into question their conventioning-referencing meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much
construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion--as-to-depth-of-ontologising-development-as-infrastructure-of--meaningfulness-and-teleology\textsuperscript{00} with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding-positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion--as-to-depth-of-ontologising-development-as-infrastructure-of--meaningfulness-and-teleology\textsuperscript{00}, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion--as-to-depth-of-ontologising-development-as-infrastructure-of--meaningfulness-and-teleology\textsuperscript{00}, that in many ways just as the manifestation of postlogism -slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall wooden-language\{imbued--averaging-of-thought--as-to-leveling/ressentiment/closed-construct-of--meaningfulness-and-teleology--as-of--nondescript/ignorable--void 'with-regards-to-prospective-apriorising-implications\} and underpinning--suprasocial-construct.

Stated another way, if Einstein’s or Bohr’s seminal theories were viewed say unfavourably by the physics community of their time as of their sovereign predisposition, that wouldn’t annul the ontological-veracity of their theories even if Einstein or Bohr were to acquiesce to that sovereign predisposition over their own theories, for the simple reason that knowledge is constructed as of the absolute dominance of intrinsic-reality as to existence-potency\textsuperscript{19}--sublimating--nascence,-disclosed-from-prospective-epistemic-digression over the mortals that we as human beings are in order for transcendence-and-sublimity/sublimation/supererogatory--de-mentativity to be possible; and that reality with respect to knowledge doesn’t speak of totalitarianism as will often be sophistically usurped
when it comes to the blurriness of the social domain-of-study, as the charge of totalitarianism can only apply with respect to sovereign choice. Further a construal equally points out that the very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-

This self-consciousness/construction-of-the-Self notion is what deflates such ‘issues implied with regards to human sovereign options/choice or freewill’ and ‘issues of natural determinism beyond human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-Self as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology implies ‘induced human potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (as the relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance—<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-

Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance>-<including-virtue-as-ontology> as of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism–imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness
possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self’ implications arising from the underdevelopment of Being/ontological-framework-expansion or self-consciousness/construction-of-the-Self incapacity as of say insanity’, and not necessarily as of lack of new knowledge-construct or technical-development; in the sense that say a criminal that had gone uncaught before a new technical-development like DNA testing establishes their criminal responsibility as of human potentiation, cannot talk of natural determinism implications as a defence just as covert predispositions associated with vices-and-impediments as of ‘self-conscious drive’ cannot be qualified to be of natural determinism implications when unmasked. so-construed prospectively are rather more pertinent) in order to ‘invent’ prospective deprocrypticism, rather reflecting intellectual absurdity; and speaking rather besides a natural weakness of human incapacity that can arise and do arise as a result of our limited-mentation-
capacity rendering us unconscious/unaware/as-of-the-poorer-halves-of-ourselves which is fathomable/understandable, of a graver problem if that was to be the case even when we then ‘understand’, of intellectual-and-moral irresponsibility of failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to do our own ‘homework’ with respect to our forerunners in the bigger notion of the human species continuous emancipation. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of-reference-of-thought’–as-conflicatedness–or-ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposuring) as from recurrent-utter-uninstitutionalisation to modern-day positivism–procrpticism and prospectively deprocrpticism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory preconverging–de-mentating/structuring/paradigming relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the wooden-language-(imbued–temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology ) as deterministic thus subknowldging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing–apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism–imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality) behind
the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’. But then transcendental constructs of meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as transcendental meaningfulness-and-teleology involves psychical and institutional recomposing of high contrariety implications to human temporality/shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as all knowledge is not about being responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity of an intersolipsistic nature. It is equally important to grasp that transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively notional–deprocrypticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness—enframed-
conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/subliming/supererogatory-mentativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory-mentativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology with the prospective one for intemporal-preservation-entropy-or-contiguity–or-ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought, in contrast to a naïve incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of
science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as ‘reappraisals of references-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naïvely asserting respectively the former or the latter as the reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness-of-reference-of-thought. Hence it is rather ontological-completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of retrospective registry-
worldviews/dimensions reference-of-thought but equally with the implication of transcendence-and-sublimity/sublimation/supererogatory de-mentativity for prospective registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-normalcy/postconvergernce. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation> within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency (transparency-of-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity>totalising–in-relative-ontological-completeness) hence speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation> while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived
social-stake-contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrypticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory preconverging–de-mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity ontological-primemovers-totalitative-framework induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemporality-asymmetric-subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness of reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in notional–deprocrypticism apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflictedness and so over procrypticism disjointedness-as-of-reference-of-thought denaturing and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing. Interestingly this construing of psychopathy and
social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation apriorising/axiomatising/referencing (of-existential-contextualising-contiguity)—conflatedness directed to the bigger and subsuming issue of relative-ontological-incompleteness reference-of-thought for inducing notional-deprocrypticism over procrypticism or positivism over non-positivism/medievalism respectively that harkens back to undermine in a decisive and nonextricatory and non-palliative manner the associated postlogism. apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness as such implies an utter shift as the curve-of-prospective-relative-ontological-completeness reference-of-thought thus superseding the curve-of-prior-relative-ontological-incompleteness ‘of’ reference-of-thought now being construed as preconverging-or-dementing—and-decentered-prior-institutionalisation’s—categorical—
The defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as a perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) comparison can equally be used to illustrate how slanting is different from lying. Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold<as-Being-or-ontological-or-existential–defect> (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring–purpose (flaw logical-processssing/act-execution-implicitation meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not defective (thus appropriateness-of-reference-of-thought-as-of-conflatedness). This point to the ad-hoc nature of lying deception wherein there is nothing inherent that precludes subsequent appropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation meaningfulness where the contextual-ambiguity-constraint(s) are resolved. This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal prelogism-as-of-conviction,-in-profound-supererogation mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation mind to wrongly elevate psychopathic meaningfulness-and-teleology. Paradoxically, this is the fundamental strength of psychopathy, i.e. to get the normal prelogism-as-of-conviction,-in-profound-supererogation mind to wrongly elevate psychopathic meaningfulness-and-teleology.
‘existentially’ established. *Critical for ontological-veridicality of meaningfulness and knowledge, the relatively ontologically-complete-reference-of-thought defines what is meaningfulness as of its ‘soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’ construed as ‘postconverging-or-dialectical-thinking–apriorising-psychologism and centered understanding’ over the relatively ontologically-incomplete-reference-of-thought as of its ‘unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought’ construed as ‘preconverging-or-dementing–apriorising-psychologism and decentered understanding’. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising-reference-of-thought-elements/apriorising-registry-elements, and thus falsely implying the apriorising-reference-of-thought-elements/apriorising-registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity-of-reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity-of-reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought-reflected-as-soundness-or-ontological-good-faith/authenticity-of-reference-of-thought). But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied-reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology is rather
obvious and we don’t normally process/operate logically the childhood psychopathy’s non-
veridical hollow mimicking narratives since ‘we just invalidate those apriorising–registry-
elements to start with as not of being/ontological/existential veridicality’. For instance in the
case above, where John were to witness Dad punish his sister Mary for spilling water on a
chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-
form-or-hollow-and-vague-vocalisation-or-subknowledging of meaning’ (meaning-by-the-
mere-illogical-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying
act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad,
however, having an ‘existential-contextualising-contiguity sense/projection of meaning’
doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself
while utterly sound technically, but is actually irrelevant in the given context by its fundamental
logical-undueness’ as of its unsound- reference-of-thought/unsoundness-or-ontological-bad-
faith/inauthenticity reference-of-thought/mental-perversion) as he simply engages his
unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought by way of
distractive-alignment-to reference-of-thought-<of-apriorising/axiomatising/referencing> and
then reflect the reference-of-thought or registry-teleology of John as perversion-of-
reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-

implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation,
assumptions, value-reference and teleology. In so doing determines that John is ‘manifesting
a mental defect’ and more so, not an ad-hoc defect–of- logical-processing-or-logical-
implication—as-supposedly-apriorising-in-conviction-as-to-profound-supererogation of the
registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-
accordance, but rather registry-worldview’s/dimension’s-uninstitutionalised-threshold–
defect-<as-Being-or-ontological-or-existential–defect> that speaks to how John may act in
many other similar situations, i.e. epistemic-decadence (notional-discontiguity/epistemic-discontiguity\textsuperscript{-shallow-supererogation}\textsuperscript{-of-mentally-aestheticised\textsuperscript{-preconverging/dementing\textsuperscript{-qualia-schema\textsuperscript{-as-of-epistemic-decadence in hollow-constituting\textsuperscript{-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation}\textsuperscript{-in postlogic-backtracking\textsuperscript{-iterative-looping\textsuperscript{-set-of-dereifying-hollow-narratives-and-acts'}}\textsuperscript{)}} by the denaturing\textsuperscript{15} of the \textsuperscript{84}reference-of-thought or the soundness-or-ontological-good-faith/authenticity\textsuperscript{-of-reference-of-thought-of-meaning-over which denaturing\textsuperscript{2} he tries to get interlocutors to operate/process logic; and \textsuperscript{‘is not even contending and that he is the subject of prelogism\textsuperscript{-as-of-conviction,-in-profound-supererogation\textsuperscript{-existsentially-veridical\textsuperscript{-attendant-intradimensional}} apriorising/axiomatising/referencing\textsuperscript{-logical-dueness-precedes-disontologising-logical-outcome-arrived-at} contention about his perversion-of-reference-of-thought\textsuperscript{-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{-mental-perversion/unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{-of-reference-of-thought’}. The above is the fundamental nature of psychopathy and \textsuperscript{‘it should not be lost even more critically at the adulthood stage and the corollary of social psychopathy’ as increasingly prelogism\textsuperscript{-as-of-conviction,-in-profound-supererogation\textsuperscript{-existsentially-veridical\textsuperscript{-attendant-intradimensional}} apriorising/axiomatising/referencing\textsuperscript{-logical-dueness-precedes-disontologising-logical-outcome-arrived-at} minds will tend to align to adult psychopaths and other conjugated-postlogism\textsuperscript{3} teleological mindsets wrongfully as in prelogism\textsuperscript{-conviction-as-to-profound-supererogation\textsuperscript{-or-candored/straightened instead of rightfully keeping a decandored/oblongated/distractive-alignment-to-reference-of-thought\textsuperscript{-of-apriorising/axiomatising/referencing\textsuperscript{-threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{-as-to-attendant-intradimensional’-prospectively-disontologising-preconverging/dementing\textsuperscript{-apriorising-}

perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation basically or a registry-worldview denaturing (when it comes to a registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory—dementativity). The dialecticism involves de-mentation

apriorising/axiomatising/referencing’, and enabling ontological-escalation or aetiologisation
as ‘metaphorical principle for an infinity/a-million-and-one-instances-and-locales’/aetiologisation/ontological-escalation. The underlying fact about meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right and sound in abstract terms but does the apriorising–registry (‘reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of reference-of-thought–categorical-imperatives/axioms/registry-teleology which are: implied–logical-dueness-or-implied-scape (the implied–logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity–of–reference-of-thought, i.e. slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-

This is known as conjugated-postlogism /preconverging-or-dementing -integration (whether conjugated to in ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation), which is to be construed as ‘distractive-alignment-to-’ reference-of-thought-<of-apriorising/axiomatising/referencing> and once it is induced by ignorance it leads to an undermining of ‘deductive social universal-transparency-{transparency-of-totalising-entailing-as-to-entailing-}⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness } which protects the internal-coherence of meaning as of soundness-or-ontological-good-faith/authenticity -of- reference-of-thought and corresponding virtue’ and so by way of ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued.-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ at ‘uninstitutionalised-threshold’ of registry-worldviews, with subsequent conjugating ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, the conjugated-postlogism /preconverging-or-dementing -integration is derived from the psychopath’s initiated postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> and goes on to lead to social psychopathy; more like a dumb-and-dumb/miscuing degeneration effect. It should be noted that both psychopathic postlogism and conjugated-postlogism cases of unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought (as slanted and cohering-
slanted, respectively), by their ‘least-and-derived-temporal-operating-modalities-of-the-

It is rather their respective ‘retracing of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-as-of-

conjugated-postlogic conjoining of the iterating narratives, the succeeding
changing/decentering/non-cohering foci (thus revealing the ‘deliriousness/delirious-

particularly obvious at childhood psychopathy but its perception easily gets lost at adult

Further, this ‘natural level of human interlocution engagement is a perpetuation’ explaining why the conjugated-postlogism mental-disposition is one of ‘slanted-cohering/conjoining’ as it rather re-rationalises the latest iterated narrative as an elucidation rather than a further preconverging-or-dementing — apriorising-psychologism of adult psychopath/postlogism (as obvious with the child psychopathy ‘delirium effect’ as it slants and re-slants on the initial slanting in an absolving-logic/fleeting-logic/escaping-logic reflex); and, the falsely projected reference-of-thought implied-elements of logical-dueness-or-implied-scape/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology, create a new foundation for further preconverging-or-dementing — apriorising-psychologism when wrongly eliciting in an interlocutor logical-processing-or-logical-implicitation — supposedly-apriorising-in-conviction-as-to-profound-supererogation issue, such that one salient manifestation of conjugated-postlogism arises with many of such an interlocutor vaguely articulating propositions based on such falsely ‘apriorising— reference-of-thought-elements/apriorising—registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought—devolving-as-of-instantiative-context)’. The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their reference-of-
thought into the positivistic terms with their successive contentions (due to

<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag ), as their ‘reference-of-thought remains
rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability’, and in the
big picture in all likelihood can only be ‘weaned from’ crossgenerationally as of
psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Likewise the
‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with
psychopathy and social psychopathy with respect to its eliciting of a ‘least-and-derived-
temporal-operating-modalities-of-the- incrementalism-in-relative-
onological-incompleteness ’—enframed-conceptualisation-inducing-the-uninstitutionalised-
threshold (as-procrypticism), thus equally implying a<amplituding/formative–
epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag

of the reference-of-thought as of the
uninstitutionalised-threshold (as-procrypticism)’, thus equally implying a

<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag

circularity/recurrence/repetition/repeatability of the reference-of-thought as of the
uninstitutionalised-threshold or procrypticism–or–disjointedness-as-of reference-of-
thought. Thus the central notion for preempting psychopathic postlogism and conjugated-
postlogism is the ‘retracing of their sets-of-narratives as of existential-contextualising-
contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness of-
reference-of-thought–devolving-as-of-instantiative-context’. That revealing unsoundness-or-
ontological-bad-faith/inauthenticity of reference-of-thought of the traces of sets-of-
narratives is analogous to resolving a list of BODMAS equations where the solution of the first
equation is a variable of the second equation and whose solution is a variable of the third
equation whose solution is a variable of the fourth; and where the first equation is
fundamentally flawed (as of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument flaw, for instance), systematically the three other equations will be wrong whether by
mental-disposition to resolve the equation of the traditional arithmetic principles as ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation without factoring that such ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’ are only as pertinent (not by habit or tradition or expediency) but as of when they are truly for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or ontological-normalcy/postconvergence to then articulate the necessary ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’ of ‘reference-of-thought’ devolving-as-of-instantiative-context as to existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ over naïve elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity (as of <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-ordementing —narratives—of-the reference-of-thought—categorical-imperatives/axioms/registry-teleology }) that is only pertinent when it is of the existential existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality. It is important thus to know that since the defect of psychopathy and its derivation as social psychopathy has nothing to do with logical-processing but everything to do with perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation>/perversion-of—
axiomatic-construct and the false ‘apriorising–reference-of-thought-elements/apriorising-registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reifying/elucidating-of-reference-of-thought-devolving-as-of-instantiative-context)’ which are implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology, it is simply maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation that is ontologically called for to invalidate the psychopathic ‘implied falsehood’ by invalidating the ‘apriorising–reference-of-thought-elements/apriorising-registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reifying/elucidating-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology, and not involve in any elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity which will ‘hollow-constitute’ and falsely validate the deceptive foundation of ‘apriorising–reference-of-thought-elements/apriorising-registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reifying/elucidating-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology. This is most apparent with childhood psychopathy as with the dereifying example of spilling water on a chair where it is directly obvious there is no elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity to be had/entertained nor any logical analysis but rather maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation invalidating that the implied—logical-dueness-or-implied-scape of the child
psychopath who deliberately in a ‘dereifying act’ spills water on the chair to accuse another even exists, its implied-profile is ridiculous, just as its implied-presumptuousness-or-implied-arrogation, its implied-assumptions, its implied-value-reference and its implied-teleology (or sense-of-purpose), and such an approach will equally extend with regards to social psychopathy where by ignorance at best or ‘other cynical temporal manifestations as of conjugating affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation’ an interlocutor was to falsely imply the need for logical analysis in order to falsely validate the foundational faulty-mentation-procedure-deception-or-urge of the ‘apriorising’-reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought–’devolving-as-of-instantiative-context’). This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING as of compulsive-slanting—preconverging-or-dementing–apriorising is actually about ‘denaturing’ postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>—with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge’ (entitlement folie/folie raisonnante)’ as opposed to a logical motivation of a supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’—postconverging/dialectical-thinking–apriorising-psychologism or prelogic mental-disposition. It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedureShortcut’ to the
normal process of prelogism\textsuperscript{79} as-of-conviction,-in-profound-supererogation\textsuperscript{77} logical-dueness-precedes-disontologising-logical-outcome-arrived-at logical articulation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing\textsuperscript{15} postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation\textsuperscript{77}-or-prelogism\textsuperscript{79}-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing\textsuperscript{15} postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation\textsuperscript{77}-or-prelogism\textsuperscript{79}-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if this latter narrative is proven to be false (as it is another \textsuperscript{75}perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow- supererogation > or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge\textsuperscript{12} not being the logic itself, but in wrongly implying as existentially real the ‘apriorising–\textsuperscript{94} reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{83}-of-\textsuperscript{77} reference-of-thought-\textsuperscript{81} devolving-as-of-instantiative-context)’
of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on such false axioms. Thus, with respect to postlogism generally what is critical for the psychopath/postlogic-mindset is to be seen as being prelogic supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional—postconverging/dialectical-thinking —apriorising-psychologism even if it is a perception of ‘poor or bad supplanting—conviction-as-to-profound-supererogation’ —of—attendant-intradimensional—postconverging/dialectical-thinking —apriorising-psychologism’ since that will validate the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of existential-contextualising-contiguity’s—reifying/elucidating-of-prospective-relative-ontological-completeness’s—reference-of-thought—devolving-as-of-instantiative-context)’ on the basis that it was the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation that was wrong hence the possibility and credibility not to question the reference-of-thought/apriorising—registry/categorical-imperatives/axioms and to re-engage logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by ‘prelogism —as-of-conviction,—in-profound-supererogation —existentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at-reflex wrongly turning the issue into one of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation instead of construing a perversion-of—reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation
‘preconverging-or-dementing’-apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity—of—reference-of-thought-manifestation’). The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing’ postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation-or-prelogism basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-profound-supererogation to or prelogism, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constitutingZX-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtrackingZX-iterative-loopingZX-set-of-dereifying-hollow-narratives-and-actsZX as absolving/fleeting/escaping-reflex–logic among different set-of-interlocutors (this is simply because postlogism in hollow-constitutingZX-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness’ unlike postlogism as prelogism which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism in hollow-constitutingZX-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (which is an unusual and rare social experience given that a
psychopathic personality and postlogism\(^8\) in hollow-constituting\(<\text{as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation}>\) are an outlying phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the postlogism\(^7\) in hollow-constituting\(<\text{as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation}>\) (due to the ‘lack of constraining social\(^\text{universal-transparency}\)\({\text{transparency-of-totalising-entailing-as-to-entailing->amplituding/formative-epistemicity}}\text{totalising-in-relative-ontological-completeness}\) as inducing vices-and-impediments\(^\text{absolving/fleeting/escaping-reflex–logic},\) in time speaking to the fundamental mental denaturing\(^1\) involved in postlogism in hollow-constituting\(<\text{as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation}>\) from some interlocutors with no more commitment given the inconsistency of the hollow-constituting\(<\text{as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation}>\) in postlogic-backtracking\(<\text{iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’}>\)\(^7\) as absolving/fleeting/escaping-reflex–logic, in time speaking to the fundamental mental denaturing\(^1\) involved in postlogism in hollow-constituting\(<\text{as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation}>\), and so for the shallowness of the postlogism\(^1\) in hollow-constituting\(<\text{as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation}>\) the extrinsic-attribution inclination is in constant need for new sets-of-interlocutors. The mental process that takes place in the ignorant prelogism \(-\text{as-of-conviction,-in-profound-supererogation}<-\text{existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at}>\) mind is an alignment to the psychopath’s (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) postlogism\(^7\)-formulaic slanting\(^1\) compelling–nonconviction/madeupness/bottomlining\(-\langle\text{decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing}>\)-induced-disontologising’-of-the-
excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s ‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity [perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supercerogation> thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic-attribute. Passive or suggestive alienation as such with corresponding ‘temporal-dispositions miscuing’ which is ‘misconstrued as intrinsic ontological depth-of-conviction-as-to-profound-supercerogation’. The underlying reason for the entirety of this mental process in the psychopath has to do with its ‘mere-formulaic constrained/unconstrained perception and relation to [meaningfulness-and-teleology] (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging) faulty-mentation-procedure-

Critically, it should be understood that passive or suggestive alienation is actually the summum of the possibilities of the psychopath’s meaningful finality that starts from prevaluation (neutral narrations). It should be noted that the mental state of the psychopath’s interlocutor as ‘ignorance-temporal-disposition conjugated/inflected/derived/mimicked in-protraction-to-psychopathic-preconverging-or-dementing apriorising-psychologism’ is not really ontologically-speaking a
prelogic/conviction-as-to-profound-supererogation mental state but rather technically a ‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as an ignorant of psychopathic postlogism in hollow-constituting to which the interlocutor aligns prelogically and then miscues, and then secondly (in addition), as ‘committed-by-temporality/interest over intrinsic-veridicality’ whether in the form of affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that this psychopathic manifestation process can be mimicked in the context of social psychopathy, and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing –apriorising-psychologism’. Over a given or extended period the underlying effect sought by the psychopath might stick, especially where the social target, interlocutors and others are utterly unaware of the mental state of the psychopath, and so evolving more like a social-discomfure of relationship over ‘socially-perceived-value as of social-stake-contention-or-confliction’ (*social-discomfure as such can be defined as the subsequent, ignorant or deliberate/disingenuous, adherence as if veridical to the slanted and hollow mimicking narratives of the psychopath with the corresponding perversion-of- reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or mental-perversion in the social context). It is important to see that such social-discomfure is in reality not a veridical logical ‘contention’ but in veridicality/ontologically a ‘protracted manifestation’ of notional–procrysticism/notional-disjointedness-as-of- reference-of-thought as to underlying registry-worldview/dimension uninstitutionalised-threshold or mental-perversion in the social context). It is important to see that such
dispositions pedestals/statues/presumptuousness as postconverging-or-dialectical-thinking \textsuperscript{20}–apriorising-psychologism/’logically contending’, more like a medieval mind with a superstitious registry-worldview doesn’t has the stature/presumptuousness to ‘logically contend’ about the ontological veridicality of an accusation of witchcraft with a suprastructuring positivistic mind, as the former makes syncretic/circular references to non-positivism/medievalism \textsuperscript{54} in its supposed articulation of logic). Paradoxically, the normal prelogism \textsuperscript{-as-of-conviction,-in-profound-supererogation \textsuperscript{-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind is so attached by supplanting–conviction-as-to-profound-supererogation \textsuperscript{-of–‘attendant-intradimensional’-postconverging/dialectical-thinking \textsuperscript{-apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex to the notion of the essence of supplanting–conviction-as-to-profound-supererogation \textsuperscript{-of–‘attendant-intradimensional’-postconverging/dialectical-thinking \textsuperscript{-apriorising-psychologism meaning (as it is not priorly inclined to put into question narratives but rather to quickly operate/process logic to arrive at outcome while ‘trusting’ that the other is also prelogism \textsuperscript{-as-of-conviction,-in-profound-supererogation \textsuperscript{-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> in their apriorising–registry, and so because psychopathy is a relatively outlying phenomenon thus the natural human personality development doesn’t take it much into account in the bigger scheme of things, i.e. it will be ‘a waste of too much mental energy’ to be verifying in detail the apriorising–registry implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology \textsuperscript{100} of every interlocutor, so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and
appearance`; but such a scheme is strictly speaking ontologically incomplete and underminable but it is standard as it `saves mental energy and time`, hence it is the strongest factor for the social prevalence of psychopathy and its social psychopathy corollary, and by extension all postlogism^7^/perverted-as-disontologising-outcome-sought-precedes–logical-dueness across all registry-worldviews/dimensions); that it will find it hard to articulate or for that matter not believe the comprehensiveness and extent by which the psychopath can produce non-veridical hollow mimicking narratives towards its end purpose, particularly as it is a rather social outlying phenomenon and hence not usually integrated in many an individual’s conceptualisation of social relations and phenomena. That’s why the manifestation of ‘poor or bad supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism’, contrasted to the psychopath’s ^1^ compulsing–nonconviction/madeupness/bottomlining{‘<decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the–‘attendant-intradimensional–ontologising’–imbued-contextualising/existentialising–attendant-ontological-contiguity>-in-shallow-supererogation –<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>}} or compulsively-dementing^19^, is ad-hoc, circumspect and highly contextualised since the prelogism ^1^ as-of-conviction,-in-profound-supererogation ^7^<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind even when acting temporally/badly has a hard time escaping from supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism or prelogism^7^ (it has qualms/conscience) while the psychopath’s ^1^ compulsing–nonconviction/madeupness/bottomlining{‘<decontextualising/de-existentialising–of-attendant-intr

a consciously active manner the empty forms of prosody in-of-themselves first and over the intrinsic attributive essence of meaning like overemphasising the toning form (toning triggering) and the supposition form (presumptuousness) in their expressed deductive reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised spontaneously when naturally expressing profound/deep conviction; thus naturally the psychopathic mindset/ reference-of-thought has an unusually large repertoire of ‘sense of meaningfulness associated with empty forms of prosody’ since it artificially perceives them as more critical than the supplanting–conviction-as-to-profound-supererogation—of–attendant—intradimensional’–postconverging/dialectical-thinking —apriorising-psychologism— mind’s intrinsic meaningfulness the forms of prosody are latently associated with. The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-élaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging). In fact, it is often the case that such line of rather ‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism in their ‘conjoining looping narratives of flawed-existential-elevation-of—reference-of-thought’ (pointing to vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging), and can be an advanced insight of a ‘psychopathic/postlogic and social psychopathic/conjugated-postlogism situation’, construable with an appropriate maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. This mirrors the operant case highlighted further below, wherein the implied meaningfulness (of postlogic/psychopathic, conjugated-postlogism/preconverging-or-dementing—integration and supplanting–conviction-as-to-

transparent (at uninstitutionalised-threshold). Further, the element of the need to be socially-
functional-and-accordant first, implies that psychopathy is ‘more than just the drive of a
pathological individual’ but inevitably psychopathy and correspondingly social psychopathy
involves a ‘social split-dynamism’ wherein the ‘unordinary eliciting’ of temporal interest
among some as extrinsic-attribution (praising, endearing, owing a favour, gifting, assisting,
being friendly towards, etc.) is the basis for the targeting of another or others, further
compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or
less effectively most of our formal setups, their sociological pertinence is actually far from
established, but for the fact that broad and large general education diminishes social
egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the
more common mental-disposition in the extended-informality{(susceptible-to-effecting-
parsimony-as-of-shoddiness-and-incompleteness—to—meaningfulness-and-teleology}
including the ‘informal spaces’ of formal setups, with the result that this is a further factor that
makes psychopathy poorly graspable as simply of individual denaturing dynamics rather than
of social denaturing dynamics, thus better construed phenomenally as social psychopathy; as
logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level
of individuals intuition about the underlying dynamism of the postlogism \textsuperscript{78} as-of-\textsuperscript{10} compelling nonconviction/madeupness/bottomlining-\textsuperscript{78}\textsuperscript{-as-of-}\textsuperscript{10} compulsing-intrdimensional-apriorising/axiomatising/referencing\textsuperscript{-induced-disontologising\textsuperscript{-of-the-}\textsuperscript{17}attendant-intradimensional–ontologising\textsuperscript{-imbued-}\textsuperscript{17}\textsuperscript{-contextualising/existentialising–attendant-ontological-contiguity\textsuperscript{-in-shallow-supererogation} \textsuperscript{-\textsuperscript{-disontologising-perverted-outcome-sought-precedes-existentially-veridical–\textsuperscript{17}attendant-intradimensional–apriorising/axiomatising/referencing’-\textsuperscript{-logical-dueness}}} mental disposition (going by experience), and then their sense of abstraction or gullibility or disposition to bandwagon effect with respect to a critical aetiologisation/ontological-escalation. (The implication here is that, for instance, it will be very naïve for an investigation involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors). Hence, the above phenomenon is further compounded in increasing profoundness (i.e. where the psychopath’s childhood delirium gives way to an adulthood mental articulation which is diffused/with-hardly-any-social\textsuperscript{10}\textsuperscript{\textsuperscript{universal-transparency}}\textsuperscript{10}\textsuperscript{-transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness \textsuperscript{-but-rather-select-transparency-to-some about the nature of the psychopath’s veridical mental state) when the ‘temporal prelogism\textsuperscript{79}-as-of-conviction,-in-profound-supererogation \textsuperscript{-existentially-veridical–\textsuperscript{17}attendant-intradimensional–apriorising/axiomatising/referencing’-\textsuperscript{-logical-dueness-precedes-disontologising-logical-outcome-arrived-at} interlocutor’, by the mechanism of ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding\textsuperscript{-point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ at the point of lack of social\textsuperscript{10}\textsuperscript{4} universal-transparency\textsuperscript{10}\textsuperscript{-transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness \textsuperscript{-}}

There is equally a social dynamism aspect wherein the issue of ‘social allegiance, affordability and initial prelogism ‘–as-of-conviction, in-profound-supererogation –<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> alignment to psychopath-and/or-the-protracted-postlogism ‘) comes to override the issue of ‘intrinsic rightness’ leading to what is known as ‘social-chainism or negative-social-aggregation or social-discomfiture’ which in turn (because individuals find ‘apparent social success and conventioning/social-temporal-thresholding’ in such social behaviour) leads to the ‘temporal endemisation/enculturation of social
psychopathy’. The underlying mental-disposition of the psychopath as postlogic and the temporal prelogic/conviction-as-to-profound-supererogation\textsuperscript{77} minds pedestals that endemise/enculturate this process thus becoming conjugated-postlogism\textsuperscript{19}, is known as ‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution) thus reflecting their threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{78} –as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-\textsuperscript{19}psychologism>. Ontologically, this requires an altogether PURIST and UNCOMPROMISING intertemporal/ontological conceptualisation of such a-comprehensive-social-temporal-hodgepodging which is rather ontologically-discontinuous. This author qualifies as procrypticism preconverging-or-dementing –apriorising-psychologism, and so as ‘ONTOLGICAL ENTRAPMENT’ going by the ‘human solipsistic/emrant template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding–as-of-apriorising/axiomatising/referencing slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting–preconverging-or-dementing\textsuperscript{19}-apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting\textsuperscript{77}–disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation\textsuperscript{77} in postlogic-backtracking–iterative-looping–set-of-dereifying-hollow-narratives-and-acts\textsuperscript{77}).

It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting–conviction-as-to-profound-suprerogation–of–attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity–of–reference-of-thought/slantedness become harder to perceive); - INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner); - SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound); - CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-to-profound-suprerogation–of–attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism narratives’ and at an even deeper level mimicking
profound supplanting–conviction-as-to-profound-supererogation of 'attendant-intradimensional'-postconverging/dialectical-thinking –apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing'–apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-dementing'–apriorising, etc. oince it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding<as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality’–asymmetric-subsumption-of-temporality’”, for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism%-slantedness is not socially-universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’–<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism> or ‘uninstitutionalised-threshold’) of many an interlocutor; - CRAFTINESS (with increasingly greater crude-to-

develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise
develop and become increasingly serious in its social consequences as the context of ‘socially-
perceived-value as of social-stake-contention-or-confliction’ moves from family, 
neighbourhood, school, company, administration, business, criminality, etc. depending on the 
development of the specific psychopath. The fact, however, is that many of those who grow 
together with the psychopath (immediate family, close family friends and relatives, etc.)
generally have some insight, however wobbly, into this mental process. Further, psychopathic 
phenomenon meets with varying impact levels as it’s just a way of being/living for the 
psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-
contention-or-confliction' context and time might play a role in making its social consequences 
benign or aggravated. But then psychopathy and its social consequences, as a social 
phenomenon, is often wrongly perceived as exclusively due solely to an individual (the 
psychopath). This is rather an incomplete picture of things actually. The psychopath in a way 
can be said to suffer from a pathological dysfunction arising in the interaction of biology and 
the social environment. The psychopath has an urge or the inclination to take a faulty-
mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-
contention-or-confliction’s. This is the reason why its narratives are of succeeding 
changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the
projected apriorising–reference-of-thought-elements/apriorising–registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex–logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-mentation-procedure-deception-or-urge points to the fact that the slanted child psychopathy mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness –of- reference-of-thought- devolving-as-of-instantiative-context, which is what validates logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), in the formation of a basic and normal supplanting–conviction-as-to-profound-supererogation—to–attendant-intradimensional–postconverging/dialectical-thinking –apriorising-psychologism of prelogism—as-of-conviction, in-profound-supererogation —<existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mindset/’reference-of-thought’ inducing rather a postlogic ‘compulsing–nonconviction/madeupness/bottomlining<‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’–of-the–‘attendant-intradimensional–ontologising’–imbued<–contextualising/existentialising–attendant-ontological-contiguity>–in-shallow-supererogation’<–disontologising-perverted-outcome–
mental-disposition unwittingly upon the psychopath (in the case of adult psychopathy but not in the instance of childhood psychopathy where the latter’s deliriousness/delirious-effect/cingle-effect is often obvious due to lack of maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction), and paradoxically then wrongly validate the psychopath as prelogic supplanting–conviction-as-to-profound-supererogation__of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism with respect to meaningfulness as of ‘requisite existentially veridical logical-dueness (of apriorising–reference-of-thought-elements/apriorising–registry-elements) and logical-processing-soundness driven construct’. However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting–conviction-as-to-profound-supererogation __of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality /shortness (when there is no social universal-transparency__ of-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} of our acts at ‘uninstitutionalised-threshold’ thus there is not ‘intemporal social universal-transparency__ of-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} of notional–firstnaturedness—temporal-to-intemporal-dispositions-{so-construed-as-from-perspective–ontological-normalcy/postconvergence} disambiguation/unequivalences/alienative-hierarchisation,’ thus creating an ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ derived from the psychopath’s initiated postlogism__ in hollow-constituting-<as-disjointed-misappropriation-of-
meaningfulness-and-failing-intemporal-preservation>). That is, abstractly, with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' humans do solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold', from the temporal-dispositions of slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome with institutionalisation/intemporalisation and formalisations with corresponding internalisation of values or secondnaturing. However, at circumstances where the institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the ‘extended-informality-\{(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology\}\', then ‘a induced-ring-of-gyges-effect/solipsistic-point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ will elicit the ‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when ‘successful’ (and not perceived deliriously but rather wrongly integrated prelogically/in-conviction-as-to-profound-supererogation) will often perfectly elicit an ‘induced-ring-of-gyges-effect/solipsistic-point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dynamism’ in the social-construct such that others will find it to their temporal self-interest to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the psychopath’s initiated postlogism in hollow-constituting
meaningfulness-and-failing-intemporal-preservation
to many a supplanting–conviction-as-to-profound-supererogation
on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (at the point of such lack of social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) of its postlogism slantedness to many a supplanting–conviction-as-to-profound-supererogation–of–attendant-intradimensional–postconverging/dialectical-thinking–apriorising-psychologism interlocutor as the ‘uninstitutionalised-threshold’). Hence psychopathy when studied dynamically is rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology) or temporal (shortness-of-register-of–meaningfulness-and-teleology), hence its relation to sociopathy which is a more generalised notion of social vices-and-impediments. The social psychopathy phenomenon (in describing the underlying abstract nature of man before institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and universal projection rules in an ‘ontological entrapment’ exercise to undermine/override temporal-dispositions subknowledging/mimicking, by virtue of its ontological-primemovers-totalitative-framework and overall medium to long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of
human transcendence-and-sublimity/sublimation/superrorogatory-de-mentativity/civilisation, in an intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, from an recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge⟨preconverging-or-dementing-as-if-of-sound-knowledge⟩pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the future institutionalisation/intemporalisation this author qualifies as notional–deprocrypticism (preempting procrypticism, so construed by ‘notional–deprocrypticism ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking -differentiation-as-of-supratransversality-in-sublimating–existential-eventuating/denouement–of-motif-and-apriorising/axiomatising/referencing’). That is, psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-superrerogation’ (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology of the various institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of the reference-of-thought–categorical-imperatives/axioms/registry-teleology behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology). To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human perversion-of-reference-of-thought–as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality<for-sublimating–existential-eventuating/denouement>--of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ as from ontological-normalcy/postconvergence). Thus reference-of-thought– categorical-imperatives/axioms/registry-teleology are ‘inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging/mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders categorical-imperatives/registry/axioms-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation null and void, calling for the overcoming of the slantedness/decandoring/distractive-alignment-to- reference-of-thought–of- apriorising/axiomatising/referencing of mental-devising-representation and the articulation of new reference-of-thought– categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reflecting intrinsic reality. These registry-worldview/dimension perversion-of- reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation include: - RECURRENT-UTTER-UNINSTITUTIONALISATION (base perversion-of- reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, resolved/structurally-rendered-inoperant by BASE-INSTITUTIONALISATION categorical-imperatives/registry-worldview/axioms-for-intemporal-preservation-entropy-as-of-ontological-normalcy), -
institutionalisation-process, while ignoring the ‘effective and causative intemporal-disposition behind the institutional-cumulation/institutional-recomposuring-eventfulness /ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism’⟩ transcendental/psychoanalytic-unshackling process’, which skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) ‘the cross-section of human entropic being’ in the medium to long run towards intemporal-disposition preservation while undermining temporal-dispositions. Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojecting/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-
recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-
<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>}
with us being inherently exceptional (it is the transcendental/psychoanalytic-unshackling
process of undermining ‘perversion-of-reference-of-thought-as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ that is). Hence ‘our
homework’ is to articulate our very own ‘perversion-of-reference-of-thought-as-effectively-
apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ for the
possibilities of the future, and not strive to arrive at a normalcy of ‘our temporal-preservation-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’–or-temporal-

normalcy/postconvergence as we get at our ‘uninstitutionalised-threshold’; instead enabling
‘intemporal preservation’ (by oblongating/decandoring/distractive-alignment-to-

registry-worldview defect/perversion of positivistic categorical-imperatives/axioms known as
procrypticism preconverging-or-dementing–apriorising-psychologism, for a prospective
anticipation and preemption of this known as ‘deprocrypticism’)! It should be noted that while
‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however,
the two terms carry two different connotative emphases necessary to make the
conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process
of human institutional transcendence-and-sublimity/sublimation/supererogatory-de-mentativity
(with respect to intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence-and-sublimity/sublimation/supremacy/sublative~de-mentativity/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposured peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional~deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism‘}
preconverging/postconverging–de-mentating/structuring/paradigming implications, as utilising the postconverging–de-mentating/structuring/paradigming outcome of previous institutional-cumulation/institutional-recomposure-{as-to_ historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>} effort. Hence dimensionality-of-sublimating-{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-confalatedness /transvalutative-rationalising/transepistemic/anamnestic-residuality/spirit-drivenness–equalisation} instigation recurrently inducing the institutionalisation/intemperalisation process (which is not an analogical notion but a contiguous notion as to ontological-contiguity^ by its intemperal-preservation-entropy-or-contiguity–or–ontological-preservation across institutional-cumulation/institutional-recomposure-{as-to_ historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>} rather so-reflecting ontological-contiguity^ as to human limited-mentation-capacity-deepening wherein existence’s ontological-contiguity^ construable as to nonpresencing-<perspective-ontological-normalcy/postconvergence> epistemic-projection is not beholdening to human limited-mentation-capacity at any given moment) applies universally across space and time (beyond any given registry-worldview’s/dimension’s institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemperalisation like deprocrypticism. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure-{as-to_ historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>} analysis) is not, as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous meaningfulness-and-teleology reference’ (given the contiguity in the
brings up the notion that while candoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, this is just a mental-devising-representation for implying intemporality-off-thought without which meaningfulness is not functional in the registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology, but then at that same prior registry-worldview’s/dimension’s uninstitutionalised-threshold, transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into a prospective registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology put into question this candoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-teleology is then represented as preconverging-or-dementing—apriorising-psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics). Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology and ontological-veridicality/ontological-contiguity of reference-of-thought (from the ontological-normalcy/postconvergence epistemic/notional—projective-perspective); with the ontologically-veridical/ontological-contiguity mental-devising-representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity &lt;shallow-supererogation of-mentally-aestheticised-preconverging/dementing—qualia-schema&gt;—as-of-epistemic-decadence in hollow-constituting&lt;as-disjointed-misappropriation—of—meaningfulness—and—failing—intemporal-preservation&gt; in postlogic-backtracking&lt;iterative-looping—set-of-dereifying—
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as preconvergingly–de-mentated/structured/paradigmed registry-worldviews/dimensions: recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism–or–disjointedness-as-of reference-of-thought (our own prospective mental stranding); as these form the backdrop for the articulation of transcending anticipatory and preemptive categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the prospective registry-worldview/dimension that are the resolution to the vices-and-impediments of the prior (uninstitutionalised-threshold) registry-worldview/dimension, successively as base-institutionalisation, universalisation, positivism and prospectively, deprocrypticism. Each of such psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (along the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism’) process), have particular ‘central recomposuring determinants’ which the new registry-worldview is coming after, as follows: (i) for Base-Institutionalisation, it has to do with the requisite ‘organising rules/principles’ as ‘a memetic ontological entrapment’ for superseding recurrent-utter-uninstitutionalisation (as an inherently–preconverging-or-dementing–apriorising-psychologism-or-subknowledging:perversion-of reference-of-thought-as-effectively-
uninstitutionalisation, ununiversalisation and non-positivism/medievalism as non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflectedor-perspectivated as in perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and not-of-logical-contention, this shows ontologically speaking that it isn’t out-of-the-stranding-template to prospectively imply (beyond our own illusion-of-the-present/present-consciousness) such a prospective de-mentionation<supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation–stranding-or-attributive-dialectics> of our perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as of the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation of our registry-worldview/dimension (positivistic meaningfulness) as procreticism–or–disjointedness-as-of-reference-of-thought. Noting as well that previous uninstitutionalised-threshold as to recurrent-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism equally had a sense of straightness/candor of their meaningfulness in a full blossoming of their own existentialism/full-existential-depth-implications of supposed postconverging–dementating/structuring/paradigming as we do in our positivistic/procreticism registry-worldview, within the ambits of their the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation. But then their stranding from the prospective institutionalisation/intemporalisation represents them as preconverging-or-dementing<apriorising-psychologism<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> as the transcendental backdrop/opportunity for the prospective registry-worldview/dimension. This when extrapolated will equally apply with our present positivism/procreticism
uninstitutionalisation/unintemporalisation for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{(10)}\) as of prospective notional–deprocrypticism institutionalisation/intemporalisation, and any ‘complex’ we’ll have about that has to do with our illusion-of-the-present/present-consciousness/epistemic-totalising\(^{(12)}\)–self-referencing-syncretising/mirage than the ontological-veridicality/ontological-contiguity\(^{(22)}\) of reference-of-thought (as from ontological-normalcy/postconvergence epistemic/notional–projective-perspective). This equally explains why uninstitutionalised-threshold\(^{(03)}\) equally carried a complex about their registry-worldview/dimension and these complexes certainly sound unintelligible to us given our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure\(\langle as-to-\) historiality/ontological-eventfulness /ontological-aesthetic-tracing\(-\)perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’\(\rangle\) process. With rational-realism (deprocrypticism), institutionalisation/intemporalisation raises the issue of notional-discontiguity/epistemic-discontiguity -<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema> (undisambiguation as notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> are wrongly given the same elevation), and relevantly so at the procrypticism–or–disjointedness-as-of- reference-of-thought uninstitutionalised-threshold \(^{(03)}\). The very specific nature of the deprocryptic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor at the
procrptic uninstitutionalised-threshold, and conjugate this in meaningfulness by going beyond just logical operation/processing/contention of narratives but rather in the first instance introducing the notion of ‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation’ to avoid wrongfully operating/processing of logic by the reference-of-thought of the intemporal-disposition reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontological (i.e. is in sync with intrinsic-reality/veridicality), where the effective registries are actually temporal-dispositions thus to be construed as of their temporal references-of-thought. It involves de-mentation—(supererogatory~ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) temporal-dispositions manifest denaturing and thus to avoid elevating temporal-dispositions to intemporal logical contending status as this result in the miscuing of meaning as of notional-discontiguity/epistemic-discontiguity—<shallow-supererogation-of-mentally-aestheticised~preconverging/dementing—qualia-schema>. notional~deprocrypticism institutionalisation/intemporalisation takes stock of the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint–imbued–notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor; as successive circular/recurrent/repetitive/repeatable iterating preconverging constructs, and not as may wrongly be reflected by the natural reflex to be postconverging constructs, to emphasise the ‘dominance/supersedingness/suprastructuring of the intemporal-disposition skewing (‘intemporality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity)’ for the fulsome articulation of ontology as ‘utter (postconvergence) ontological-
veridicality/ontological-contiguity\(^7\) in conscious transdimensional/transcendental-memetic-depth (thinking-and-preconverging-or-dementing\(^9\)-dialectical-dynamism-or-dialectics) of ontological-normalcy/postconvergence or prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (unlike all prior institutionalisations which are rather intradimensional in their meaningful-depth construed only as a closed totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ‘postconverging-or-dialectical-thinking’—apriorising-psychologism dynamism’). As a corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this notional–firstnaturedness—temporal-to-intemporal-dispositions¬<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of notional–deprocrypticism institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency\(^1\)¬{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\(^8\) of ‘knowledge-notionalisation’ (knowledge as understanding not only of the ideal/intemporal but equally how the temporal/defective works distractively, to anticipate and preempt the latter perverseness but doing so rather in a superseding ontologically-minded manner) and intemporal skewing (‘intemporality -asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity)/deferential-formalisation-transference as virtue and (postconvergence) ontological-veridicality/ontological-contiguity\(^6\); in contrast to the hotchpotching of notional-discontiguity/epistemic-discontiguity¬<shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema> of temporal-dispositions and particularly in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-
and-incompleteness-to–meaningfulness-and-teleology) which covers all informal spheres of institutions and society generally. So because knowledge-notionalisation recognises that in a specie of notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuation dispositions, deferential-formalisation-transference which is the bases for institutionalisation/intemporalisation by skewing (‘intemporality’–asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) for the supersedingness/lead of the intemporal-disposition individuation is responsible for elevating human uninstitutionalised-threshold (3) across the successive institutional-cumulation/institutional-recomposure<(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism)> by the resultant formalisation and internalisation involved in institutionalisation explaining effectively the dialectical evolution from deeper primitivites/mental-out-of-phasings to the present state (limited-and-shallower-human-mentation-capacity to limited-but-deeper-human-mentation-capacity) as a result of the inherent ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting skewing (‘intemporality’–asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference for intemporalisation/institutionalisation, and the implications prospectively. For instance, the uninstitutionalised-threshold (3) for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism-or-medievalism and our positivism–procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-
normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in a recurrent-utter-uninstitutionalised registry-worldview. Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-notional—firstnaredness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence>—implications which is more than just reactionary to the possibility of temporality/shortness (shortness-of-register-of—meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of thought’ (intemporal as longness-of-register-of—meaningfulness-and-teleology) that takes abstract cognisance of temporality/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-uninstitutionalised-threshold to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, notional—deprocrypticism going by ontological-normalcy/postconvergence implies a mental-devising-representation of ‘non-thresholding meaningfulness as transdimensional/transcendental-meaningfulness or memetic refinement (or a postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-
dementing\textsuperscript{1}–apriorising-psychologism dialectics/dialectical-dynamism paradox) ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflicatedness\textsuperscript{2} as dialectical transformation as-prospective \textsuperscript{3} reference-of-thought’ in its ‘functional institutionalised/intemporalised-approximating-or-proxying-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ as renewing existentialism/full-depth-of-existential-implications meaningfulness and thought; with such non-thresholding ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflicatedness\textsuperscript{2} as dialectical transformation, as-prospective \textsuperscript{3} reference-of-thought, approximating/proxying being of ontological-normalcy/postconvergence and suprastructural nature as the fulsome attainment of the institutionalisation/intemporalisation ideal (ontological-normalcy) culminating with deprocrypticism. categorical-imperatives emphasises and hints of ‘necessity’, ‘rigour’, ‘constraining’ and
‘enforcing’, while registry-teleology (short for the apriorising–registry-elements as implied—

The reference-of-thought is the fundamental-dispositional mentation architecture for human referencing or construing of meaningfulness-and-teleology\(^{(0)}\), and is capable of ontological-reconstituting-as-to-conflatedness\(^{(0)}\)/deconstruction involving de-mentation\(^{(0)}\)

Fundamentally perversion-of reference-of-thought—as-effectively-apriorising-in nonconviction/madeupness/bottomlining-as-to-shallow-supererogation has to do with the defect of the reference-of-thought and not the defect of ontological-veridicality/ontological-contiguity (which is rather a logical-process/implicitation-of-act-execution defect and which implies an ‘implicitation-of-notion-of-agreement-or-disagreement’), as can be reflected as from ontological-normalcy/postconvergence. A reference-of-thought speaks of the fundamental appropriateness/soundness-or-ontological-good-faith/authenticity-of reference-of-thought of reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation irrespective of their appropriate or inappropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in conviction-as-to-profound-supererogation with respect to ontological-contiguity/ontological-veridicality, and implying sound reference-of-thought further emphasises appropriate incidental logical-processing-or-logical-implicitation—supposedly-apriorising-in conviction-as-to-profound-supererogation in producing the right outcome.

Hence a registry-worldview/dimension defect is one of systematic defect of reference-of-thought; whether when recurrent-utter-uninstitutionalisation reference-of-thought as of non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive-or-accidented-or-random-mental-disposition—{as ‘base apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity) —constitutedness of reference-of-thought apriorising/axiomatising/referencing/intellibilitysetup/measuringinstrument} is failing/not-upholding—a reference-of-thought—apriorising/axiomatising/referencing—rulemaking-over-non-rules—
apriorising/axiomatising/referencing–psychologism, (as ‘first-level presencing—absolutising—identitive-constitutedness of reference-of-thought’)
as-to-shallow-supererogation. This is unlike the case where logical-engagement of mental-devising-representation as 'postconverging-or-dialectical-thinking–apriorising-psychologism'/soundness-or-ontological-good-faith/authenticity of reference-of-thought is still relevant where there is failing/not-upholding-as-of-apriorising/axiomatising/referencing> logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation (like calculating the answer of an arithmetic operation wrongly) so long as the reference-of-thought is sincerely/genuinely working in adherence to arithmetic axioms to produce the right answer. But this is invalid and not applicable where the issue is about deliberate disposition not to adhere to arithmetic axioms but usurp them (whether consciously, expeditiously or unconsciously). Soundness-or-ontological-good-faith/authenticity of reference-of-thought on the other hand implies being-or-ontological-or-existential-or–meaningfulness-and-teleology disposition as of supplanting-conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism (reflecting sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and at worst defect-of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation ) and so in effective prelogism wherein logical-process-precedes-outcome thus upholding intemporal/veracity/ontological-pertinence; so construed from a more profound ontological-normalcy/postconvergence insight. This is the fundamental basis and backdrop for an insight for drawing ‘the implications of the (preceding and superseding) nature of intrinsic-reality as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation)’, in reflecting/perspectivating/highlighting ‘the mental-devising-representations of registries/references constructs and protractedly of registry-worldviews/dimensions (on the basis of the de-mentation~supererogatory–ontological–de-

Hence the postconverging/dialectical-thinking -apriorising-psychologism mental-devising-representations of either sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and defect-of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation are ‘projectively validated by reflex as possibly-of-postconverging-or-dialectical-thinking -apriorising-psychologism/possibly-of-soundness-or-ontological-good-faith/authenticity-of-reference-of-thought (and not projectively invalidated by reflex as possibly-of-preconverging-or-dementing -apriorising-psychologism/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought) in implying the ‘upholding of their sound reference-of-thought status’. To illustrate, suppose X and Y are contending (ontological-reference) to know what 5+4 will give as answer (ontological-veridicality), if X is using pencils to count but inadvertantly misplaced a pencil or doesn’t perfectly understand how to stack up the pencils to use to count the whole lot, then where his answer was to come out as 5+4=8, we talk of defect-of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as X sincerely wants to calculate to produce the right answer but X’s logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation failed. This doesn’t invalidate the notion that Y can still engage X as ‘possibly-of-postconverging-or-dialectical-thinking -apriorising-psychologism’/possibly-of-soundness-or-ontological-good-faith/authenticity-of-reference-of-thought in contending (appropriateness-of-reference-of-thought-as-of-conflatedness) with
respect to another arithmetic operation, that is, possibly after pointing out to X where they went wrong in their operation of arithmetic. While threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^{97}\)\textlangle as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism\rangle perform subsequent acts of similar-or-protracted-contextualisation to their prior acts verified to be of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^{97}\)\textlangle as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism\rangle are priorly projectively invalidated by reflex as ‘possibly-of-preconverging-or-dementing–apriorising-psychologism’/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity\(^{64}\)-of-reference-of-thought and not ‘possibly-of-postconverging-or-dialectical-thinking–apriorising-psychologism’/possibly-of-soundness-or-ontological-good-faith/authenticity\(^{69}\)-of-reference-of-thought in implying the ‘revoking of their sound\(^{84}\)reference-of-thought status’.

To illustrate, suppose X above rather slyly and deliberately (preconverging-or-dementing–apriorising-psychologism mental-devising-representation) miscalculated (non-ontological-reference/non-contending-reference) the answer (in notional-discontiguity/epistemic-discontiguity\(^{63}\)shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema\rangle) and Y grasps this, then this invalidates the notion that Y can still ‘genuinely’ engage X (ontological-pertinence) with regards to another arithmetic operation of similar-or-protracted-contextualisation, with respect to the upheld context behind X’s sly and deliberate basis for miscalculating. Thus for instance with regards to adult psychopathy and the induced social psychopathy, it will be naïve to simply analyse on a dichotomous basis of psychopathy and its violation of social norm, with the idea that psychopathy is associated with temporal-dispositions destructuring-threshold {uninstitutionalised-threshold/presublimating–desublimating-decisionality} of-ontological-performance-including-virtue-as-ontology ‘as of the positivism–procrypticism registry-worldview’s/dimension’s socially-betraying-threshold-of-ontologising-depth-of-

on-ontological-preservation (in conjugation to ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) and it is naïve to simply analyse on the basis that other interlocutors have an intemporal/ontological disposition, in the very first instance. Thus the need, in order to attain such a prior requisite ontological/intemporal insight, to ontologically construe (as to deferential-formalisation-transference) contexts of psychopathy and social psychopathy (and generally contexts of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation -<as-to–

pervert/corrupt the possibility of ‘a truly ontological/intemporal analysis as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework’ construct’ preemptions the said ‘perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ phenomenon. In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to ‘perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong...
insights, undue romanticism, a poor grasp of its nefarious effects at individuals-and-institutional
levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and
fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with
regards to psychopathy is that these often tend to be short-sighted given the unsustainable
nature of the arguments in the middle to long run, and tend to be based on inductive limitation
or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of
entailing-<amplituding-formative–epistemicity>totalising–in-relative-ontological-
completeness as they require that others do not act likewise or their implications should be
limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this
respect, one can cite at individuals-levels instances of many a human interest story tragedy in
the press which often go unanalysed, and in the bigger institutional-level for instance what is
the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably
due to grave and unprincipled mismanagement with profound social repercussions. The implied

Likewise the positivistic meaningful frame is oblivious to its procrypticism, and corresponding resolution as notional-deprocrypticism as the prospective/transcending/superseding ontological-reference-of-veridicality/contending-reference-of-veridicality. Further, this notion of registry-worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘postconverging-or-dialectical-thinking\(^{20}\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ aligned with ontological-normalcy/postconvergence is what escapes and provides for grander emancipatory possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking\(^{20}\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/(recomposured)-consciousness-awareness-teleology \(^{100}\) in reference (as ‘tentative references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived meaningfulness-and-teleology\(^{100}\) thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘postconverging-or-dialectical-thinking\(^{20}\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that aligns with and is driven by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wherein ontological-normalcy/postconvergence is ‘an abstract conceptualisation

due to its socially-betraying-threshold-of-ontologising-depth-of-analysis. It should thus be noted that the preconverging-or-dementing —apriorising-psychologism of reference-of-thought of a registry-worldview/dimension implicitly reflects a defective/sub-par relative state-of-conceptualisation in hollow-constituting <as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (a fundamentally defective/sub-par state-of-disposition) with respect to ontological-normalcy/postconvergence, as can be demonstrated by ontological-reconstituting—as-to-conflatedness /deconstruction, (and has nothing to do, as-being-caused-by, with an inducing phenomena of ‘perversion-of-reference-of-thought’<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as to preconverging-or-dementing —apriorising-psychologism’ behind say sorcery and psychopathy; even though such phenomena tend to instigate and reveal the inherent defect/sub-par nature of registry-worldviews with respect to ontological-normalcy, with the need for ontological-reconstituting—as-to-conflatedness /deconstruction). In other words, the state of being non-positivism/medievalism with respect to ontological-normalcy/postconvergence is already a defective state ‘in-wait as of prior relative-ontological-incompleteness —reference-of-thought defective —reference-of-thought—categorical-imperatives/axioms/registry-teleology for issues of superstition/lack-of-rational-empiricism to arise whether we talk of sorcery, bodily mutilations and their effects, charlatanisms, etc. Likewise, it will be naïve to imply that our registry-worldview as positivism–procrypticism is in absolute sync with ontological-normalcy/postconvergence by the mere fact that we are at the backend of the institutional-cumulation/institutional-recomposure —historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism}, as we can equally project prospectively from a retrospective projection insight to grasp how ‘from an utter hermeneutic/reprojecting/supererogating/zeroing circle exercise of ontological-reconstituting—

A ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as being ontologically-driven is one where placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology (as to ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ mental-devising-representation or preconverging-or-dementing–apriorising-psychologism mental-devising-representation) is the reflected/perspectivated implication either as of ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ or of preconverging–or-dementing–apriorising-psychologism as so-reflected/so-perspectivated from ontological-normalcy/postconvergence, and it is thus ontology-driven beyond any presencing–absolutising-identitive-constitutedness distorted meaningfulness-and-teleology. This equally explains why a prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought is cross-sectionally dialectically-out-of-phase/dialectically-primitive given it is sticking to its ‘good-natured’ but ‘ontologically-wrong and failing’ reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (hollow-constituting–as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) as the
of positivistic meaningfulness-and-teleology reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, with a hollow-constituting postlogism disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology alignment to imply dialectical-out-of-phasing/dialectical-primitivity insightfully deduced from ontological-normalcy/postconvergence represented by the reference-of-thought of the prospective/transcending/superseding notional–deprocrypticism registry-worldview/dimension. Fundamentally, the reason for all the dimensions/registry-worldview perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as limited-mentation-capacity-deepening has to do with the veracity/ontological-pertinence of our notional–firstnaturued—temporal-to-intemporal-dispositions—as-construed-as-from-perspective–ontological-normalcy/postconvergence as individuations of shortness-to-longness-of-register-of meaningfulness-and-teleology, such that whenever relatively sound reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are institutionalised/intemporalised, human temporality in hollow-constituting-individuation dispositions (at uninstitutionalised-threshold) will tend to relate, by limited-mentation-capacity-deepening, to this as hollow/formulaic constraining deterministic constructs which have to be exploited by the mere determinism-of-form about how others will act (hollow-constituting-individuation dispositions) rather than the essence as intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation being sought originally by the institutionalised/intemporalised reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-reconstituting–as-to-conflectedness). This fundamental dilemma of the cross-section of human mentation disposition is ‘a lost cause’, given the reality of the notion of a shortness-to-longness-of-register-of-meanfulness/notional-firstnuredness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> inherent in a limited-mentation-capacity-deepening; any resolution is not by wrongly implying any ‘dimensionality-of-sublimating’ transformation’ but rather institutionalisation/intemporalisation by its inherent eliciting of positive-opportunism to the grander cross-section of society in the medium to long-run wherein intemporal-disposition/longness-of-register-of–meaningfulness-and-teleology individuation dispositions by artifice/institutionalisation/intemporalisation come to constrain-or-dominate the social-construct (over temporal-dispositions/shortness-of-register-of–meaningfulness-and-teleology-or-hollow-constituting-as-disjointed-misappropriation-of-meanfulness-and-failing-intemporal-preservation individuals dispositions); with corresponding percolation-channelling<in-deferential-formalisation-transference> facilitating the perpetuation of such intemporal enculturation even when such positive-opportunism gets weaker with grander institutionalisations/intemporalisations, and so as the grander human the-good. This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipatory potential’ over ‘deluded idealisms’ that simply create space for
falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity! Rational-realism (as to prospective deprocrypticism) as such involves rather elucidating distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing-decandoring with three dementative/structural/paradigmatic teleologies: - subknowledging-impulse/compulsive-dementing temporal-disposition (psychopath), with ‘slanted mechanical narratives’ (preconverging-or-dementing-apriorising-psychologism-stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); - subknowledging-temporal-dispositions-teleologies (the-various-temporal-dispositions-teleologies), with ‘banal mechanical narratives discomfiture’ (preconverging-or-dementing-apriorising-psychologism-stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); and - the intemporally given and ontologising teleology which ontologically reflects/perspectivates the subknowledging-impulse/compulsive-dementing-temporal-disposition-(psychopath) and the subknowledging-registries-teleologies (the-various-temporal-dispositions-teleologies), from a ‘organic-comprehension-thinking depth as the dementation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) backdrop of new recomposuring reference-of-thought-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. Thus at the uninstitutionalised-threshold, it is counterintuitive for temporal-dispositions not to perceive their registry-worldview/dimension as ‘untranscendable’ (acting as if in intemporal-preservation-entropy-or-contiguity—or-ontological-preservation while actually in temporal preservation-as-pseudointemporality; hence dementable/no-longer-thinking) due to <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/present-consciousness/illusion-of-the-present/mirage as metaphysics-of-presence{(implicated-‘nondescript/ignoreable—void’-as-to-presencing—absolutising-

The reason why this is critical to grasp is that the veridical intemporal-disposition preserving

transcendental element in establishing the backdrop for transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity/prospective-institutionalisation. Galileo’s
medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-
and-dispensable articulations as all transcendence-and-

This starts with the would-be transcendence-and-sublimity/sublimation/supererogatory~de-mentativity inducing intellectual(s)/emancipator(s) ‘owns reflexive individuation maximalising-as-transcendental liberation/emancipation’ from the categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation of such prior registry-worldview/dimension from which it/they necessarily come from as well as not heeding generalised-social-temporal-preserving-mental-inclinations; and so, consistently crossgenerationally since transcendence-and-sublimity/sublimation/supererogatory~de-mentativity/institutionalisation is ‘beyond just logical argumentation/contention’ as it points to ‘being-or-ontological existentialism/full-depth-of-existential-implications structure defect’ (defect of reference-of-thought/soundness-or-ontological-good-faith/authenticity -of- reference-of-thought, and so beyond logical defect). type of proposition from an early animistic society which doesn’t comes to terms with the prospective positivist worldview construct as it hangs on to its non-positivist reference-of-thought–categorical-imperatives/axioms/registry-teleology, and this will equally apply prospectively between notional–deprocrypticism and procrypticism as the procryptic mindset/reference-of-thought will strive to register meaning not prospectively taking account of procrypticism as a ‘mental perversion/defect’, and likewise retrospectively with the ‘medieval mindset’ with respect to the positivist mental frame. This obviously calls for an ‘intellectual/scientism detachment’ towards the perversion-of-reference-of-thought—effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview/dimension, with an intemporal-disposition sense of contributing to the bigger possibilities for of the species, i.e. intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming as opposed to an extricatory or incremental or ‘disjointedness-as-of-reference-of-thought’ or temporal-accommodation preconverging–de-mentating/structuring/paradigming which is about temporal interest, and so, beyond ‘temporal emotional involvement’ or at ‘reality personality’ wherein the notion of human temporal compromising is not an ontological notion but rather defines and qualify the nature of human temporality/shortness in an ontological construct). This way of hermeneutic/reprojecting/supererogating/zeroing ‘ontological reasoning’ to arrive at ‘intemporal-or-ontological meaning’ that is beyond any <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/self-centered/present-consciousness/illusion-of-the-present/mirage mental projection within just a given registry-worldview/dimension so as to ‘grasp fundamental intemporal-disposition as of the inherent nature of existential-reality’ is central to the notional–deprocrypticism registry-

Suprastructuralism is grounded on ontological-normalcy/postconvergence insight and places ‘abstract intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ above the reference-of-thought–categorical-imperatives/axioms/registry-teleology devising (supposedly for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) meant to represent it in a given registry-worldview/dimension as prior/transcended/superseding (which as such is now construed as perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) in the mental-devising-representation of intrinsic-reality/ontological-veridicality, thus requiring new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology to ‘preserve the abstract and intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’. Deprocrysticism’s suprastructuralism involves ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity existence-potency~sublimating–nascence,—disclosed-from-prospective-epistemic-digression so-construed as longness-of-register-of—meaningfulness-and-teleology over shortness-of-register-of—meaningfulness-and-teleology; and so, beyond just about a prospective moral virtue but the prospective overall the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework construct as ‘ontology and its subsuming of virtue’, just as positivism is beyond just about a moral virtue but comprehensively an overall the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework construct carrying a virtue that supersedes the vices-and-impediments of the non-positivism/medievalism registry-worldview/dimension). Referentialism as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ontology. Thus, the doppler-thinking exercise of suprastructuralism enables the conceptualisation/construal of institutionalisation-or-intemporalisation-or-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in grasping the denaturing\(^5\) of reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^10\) as of ontological-normalcy/postconvergence basis of analysis, and by so doing grasping the precedingness/supersedingness/ascendency of intrinsic-reality.

[Referentialism involves a reference-of-thought (so-characteristic of the prospective deprocrypticism registry-worldview/dimension) construing existence and existential-conceptualisation/construal as about the ‘precedingness of becoming’ as of apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness \(^1\) rather than apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness \(^1\) (notwithstanding the instances of the latter’s attendant approximating-nature for conceptualisation/construal rather construed as presencing—absolutising-identitive-constitutedness \(^1\)). apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness \(^1\) tend to fallaciously imply ‘existence of things in existence’ whereas apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness \(^1\) rightly implies ‘things becoming in existence rather as subsumed-in-existence in a superseding–oneness-of-ontology’; so because apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness \(^1\) takes a simplistic shot at construal/conceptualisation of existential-reality practically presuming this to be ‘effectively absolutely real and final’ but then with human limited-mentation-capacity-deepening\(^53\) this is erroneous hence the need for re-categorisation/re-adaptation/re-classification as ‘re-constitutedness\(^1\) of reference-of-thought’ perpetually when aware of its deficiency. apriorising/axiomatising/referencing-(of-existential-
contextualising-contiguity — conflatedness takes a shot at construal/conceptualisation of existential-reality from an open-ended insight/fugue as of referentialism from the more profound ontological-normalcy/postconvergence of existential-reality factoring in human limited-mentation-capacity-deepening as of metaphysics-of-absence-⟨implicit-epistemic-veracity-of-nonpresencing-⟨perspective-ontological-normalcy/postconvergence⟩⟩, and as implied by the notion of intemporal-preservation-entropy-or-contiguity-or-ontological-preservation that goes beyond ⟨amplituding/formative⟩ wooden-language-⟨imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the reference-of-thought—categorical-imperatives/axioms/registry-teleology ⟩ which are continually put into question, by being open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence-⟨implicit-epistemic-veracity-of-nonpresencing-⟨perspective-ontological-normalcy/postconvergence⟩⟩/postdication. Thus, apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness will wrongly induce virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, and so, with more and more profound defective construal/conceptualisation consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by apriorising/axiomatising/referencing-(of-existent contextualising-contiguity)—constitutedness in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as an attendant resetting resolution for the induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness of axiomatic-construct/ reference-of-thought’ (by elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-
outside—existential-contextualising-contiguity that will then require another attendant resetting resolution for the subsequently induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness’ of ‘reference-of-thought’ down the line when aware of its further critical defect again (though, in a sense the entire recomposuring process could be qualified as a ‘practical presencing—absolutising-identitive-constitutedness’ exercise). But then the inherent nature of existence in relation to human limited-mentation-capacity-deepening construal of it is one of evasiveness as implied by the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought—devolving-as-of-instantiative-context as to existence-potency—sublimating-nascence-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ such that we are only occasionally and partially aware about the critical defective nature implied by apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness in categorisation schemes, thus fundamentally defining the limits even of a presencing—absolutising-identitive-constitutedness as of existential-conceptualisations/construals. The implication is beyond just the notion of knowledge construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the de-mentative/structural/paradigmatic basis of categorisation scheming are equally the de-mentative/structural/paradigmatic basis of the inherent analysis and meaningfulness-and-teleology construed/conceptualised. Since categorisation schemes (whether construed/conceptualised beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought>) define the ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’, it is critical
to grasp that the inherent de-mentative/structural/paradigmatic limits/defects of such ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’ are systemic hence inducing ‘flawed-existential-elevation-of-'reference-of-thought’ as of ontological and virtue implications (as ontologically-perspectival-degraded-as-decentered/preconverging-or-dementing -reflexive/entailing-teleology-differentiation-as-of-subtransversality<in-desublimating–existential-eventuating/denouement>of-motif-and-apriorising/axiomatising/referencing) at the given ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’. Beyond its conceptualisation as of knowledge categorisation and categorisation scheming but rather as of effective ontological-and-virtue conceptualisation/construal, apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness implies a simplistic/trite categorical relation in the construal/conceptualisation of meaningfulness-and-teleology as of its ontological and virtue essence that is susceptible to defect as perversion-of- reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > or derived- perversion-of- reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-sup ererogation >; and as such, apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness will speak of subtransversality<in-desublimating–existential-eventuating/denouement>of-motif-and-apriorising/axiomatising/referencing and various shades of temporality/shortness in their ‘constitutedness and conjugated-constitutedness of reference-of-thought’ including psychopathic slantedness apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness. conflatedness\textsuperscript{12} emphasises projective-insights for upholding ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Hence apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness\textsuperscript{12} will tend to avoid systemic defects of analysis associated with apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness\textsuperscript{13} requiring re-categorisation/re-adaptation/re-classification as ‘presencing—absolutising-identitive-constitutedness’. apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness\textsuperscript{12} is thus naturally inclined to induce ‘appropriate-existential-elevation-of-reference-of-thought’ by the ontological and virtue implications (as ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking\textsuperscript{20}-differentiation-as-of-supratransversality<in-sublimating—existential-eventuating/denouement>—of-motif-and-apriorising/axiomatising/referencing). As so articulated, these two concepts operantly address in a storied-construct/ontologically-valid-narration or any other operant conceptualisation the notion of a ‘Différance-disambiguation-of-ontologically-veridical—meaningfulness-and-teleology\textsuperscript{10}’ as meaning produced apparently with the ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness’ (seemingly of veridical-ontological reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{9},-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in the various instances) but actually implying ‘different relations to an ontologically veridical reference-of-thought’, underlined by the disambiguated notional—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence>. Further, apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness and apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness\textsuperscript{12}, as so articulated, are such
fundamental notions with respect to how humans limited-mentation-capacity-deepening come to grasp existential-reality/ontological-veridicality that these two underlying notions are critically definitional relative to existential-construal/conceptualisation of understanding and failing-understanding, and insightfully explain the fundamental basis of the consecutive transformations of human psychologisms as induced by ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ at the transcendental/transdimensional/interdimensional-level of institutionalisations as well as at the individuation-level with respect to conception and misconceptions of meaningfulness-and-teleology not only with respect to understanding but equally dynamics of ‘personality formation and teleological-differentiation’, and so specifically as associated with the dynamics implied of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>—existentialism-form-factor, further reflected in the overall dynamics of postlogism and conjugated-postlogism (including the dynamics of psychopathy and social psychopathy as social reprising out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought—devolving-as-of-instantiative-context of psychopathic pathological insane-fitment, as of fundamental/most-simplistic apriorising/axiomatising/referencing-{of-existential-contextualising-contiguity}—constitutedness socially reprised with ‘conjugated-constitutedness’ of ‘reference-of-thought’) as well as grasping fundamental dynamics of institutions and especially as influenced by the extended-informality{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology} which is highly subject to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-

These two concepts are critical relative to grasping and analysing human choice/notions relative to reference-of-thought—categorical-imperatives/axioms/registry-teleology of meaningful-frameworks. Other implications have to do with human personality development psychology in relation to meaningfulness extending to the construal/conceptualisation of language development as well as aesthetics and virtue as reflecting holographically—conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process. In a further elaboration of apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—constitutedness and apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—conflatedness with respect to psychologism, the reason why a prospective/transcending/superseding registry-worldview/dimension needs its own knowledge-construct reference-of-thought psychology has to do with the fact that every registry-worldview/dimension has ‘its own specific apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—constitutedness /conflation psychological complex reflex mechanism’ wherein its limits in the construal/conceptualisation of intrinsic-reality/ontological-veridicality are defined, and this is subpar to the prospective/transcending/superseding registry-worldview/dimension knowledge-construct reference-of-thought which thus needs its own corresponding psychologism for its superseding meaningfulness-and-teleology, achieved by presencing—absolutising-identitive-constitutedness as apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—
constitutedness\textsuperscript{13} re-categorisation/re-adaptation/re-classification’. Consider the example of the ‘God of plane’ type of expression in an animistic/base-institutionalisation setup, where their fundamental psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the line the latter’s meaningfulness-and-teleology\textsuperscript{100} <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag, by way of continuous ‘ presencing—absolutising-identitive-constitutedness’ as ‘recurrent re-categorisation/re-adaptation/re-classification of the prior apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness’ of ‘reference-of-thought’ is critically rid of the very essence of animistic/base-institutionalisation psychologism inducing an overall break into a positivism psychologism. It is interesting to note that going by the psychologism of a base-institutionalisation social-setup\textsuperscript{84} reference-of-thought for instance, the idea of arithmetic as we may grasp today in a positivistic registry-worldview/dimension Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–meaningfulness-and-teleology\textsuperscript{100}, and as of its operant nature, isn’t the case in its operant conceptualisation in such a base-institutionalisation social-setup <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving-as-of-instantiative-context—meaningfulness-and-teleology\textsuperscript{100} as rather the mental-disposition apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in the use of numbers is more about acting in currying favours or in view to receiving favours meaningfully as of <amplituding/formative–epistemicity>totalising–nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in–warped-consciousness–enabling–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought—‘devolving-as-of-instantiative-context’ (as can be observed by anthropologists in various forms in many a hunter-gatherer and animist societies), rather than use of numbers considered as of such a relatively independent-domain and exactness of meaningfulness-and-teleology’s orientation as we construe of arithmetic and mathematics in say a universalisation or positivism registry-worldview/dimension Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’s-like the notion of wealth accumulation, which will be predominantly about ‘inducing a sense of social obligation or faithfulness or deference’ from other persons, and so together with other cultural peculiarities that avoid hoarding and emphasise wealth display, gifts, etc. Psychologism (as being central in apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—conflatedness or rather ‘presencing—absolutising-identitive-constitutedness’ as recurrent re-categorisation/re-adaptation/re-classification of apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—constitutedness), refers to the underlying human reflex mental scheme of a given registry-worldview’s/dimension’s reference-of-thought ‘allowing for its given capacity to supersede its psychological complex in construing ontological-primemovers-totalitative-framework’s—transcendental-enabling/sublimating/supererogatory—de-mentativity and corresponding ‘meaningfulness-and-teleology’s. The bigger question could be asked; why doesn’t humans in recurrent-utter-
uninstitutionalisation spontaneously articulate and relate to meaningfulness-and-teleology as humans in base-institutionalisation–ununiversalisation, who do not do likewise as humans in universalisation–non-positivism/medievalism, who do not do likewise as humans in positivism–procrypticism? Is it a difference in species, as of successive species? Obviously, no!

As we know from history and anthropology that cultural diffusion has shown that all humans are able to come to terms and operate at the highest forms of human registry-worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a registry-worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology as arising and determined by its specific limited-mentation-capacity-(as from relative apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness to relative apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness) construal/conceptualisation as soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-deepening, can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-deepening determining its prospective relative-ontological-completeness-of-reference-of-thought, as enabled by the ‘social framework of intersolipsistic deambulation’.

This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities
for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recomposure-\{as-to-\:historiality/ontological-eventfulness/ontological-aesthetic-tracing\} which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic deambulation’ harkens back to that of human registry-worldview’s/dimension’s institutionalisation by its socially-functional-and-accordant thresholds of notional–firstnaturedness—temporal-to-intemporal-dispositions-\langle\text{so-construed-as-from-perspective–ontological-normalcy/postconvergence}\rangle further redefining the possibility of uninstitutionalised-threshold as the threshold for failing/not-upholding the institutionalisation’s \text{reference-of-thought–categorical-imperatives/axioms/registry-teleology} and the possibility of prospective institutionalisation as renewing \text{reference-of-thought–categorical-imperatives/axioms/registry-teleology} for upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-of-presence-\{implicated-‘nondescript/ignorable–void ’-as-to-\:presencing—absolutising-identitive-constitutedness \}, the present registry-worldview’s/dimension’s \text{reference-of-thought} by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in secluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of \text{reference-of-thought}. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-

This insight about the nature of a mented/stigmatic psychology compares with the instance about a Kantian absolute apriorising/axiomatising/referencing exercise; in that in both instances, human mentation capacity is construed as absolutely given at all times, with that mentation capacity rather ‘reflexively and erroneously’ absolutely construed as of the positivistic mindset/reference-of-thought, and what is not factored in is the fact that there is a human limited-mentation-capacity that maximalisingly-recomposes as of human shallow-to-deepening–limited-mentation-capacity,~as-limited-mentation-capacity-deepening inducing the successive registry-worldviews/dimensions institutionalisations’ reference-of-thought with their own ‘specific institutionalisation/uninstitutionalised-threshold mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ as of their prospective relative-ontological-completeness of reference-of-thought with respect to their social universal-transparency -\{(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness<reference-of-thought-devolving-as-of-instantiative-context; with the implications being that social universal-transparency\textsuperscript{10}\textsuperscript{4}\textsuperscript{9} -\{(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) as of existential-contextualising-contiguity’s-}

notional—deprocrypticism apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—conflatedness is rather bound to be perceived and construed as of the (recomposured)—consciousness-awareness-teleology in its full potential on the basis of referentialism as of the full development of ontological-normalcy/postconvergence. Thus, the notion of apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—conflatedness (including ‘presencing—absolutising-identitive-constitutedness’) can be conceptualised across all transcendence-and-sublimity/sublimation/supererogatory—dementativity as providing the ‘centering platform’ (that reflects the imbricatedness/threadedness/recomposuring of existential-reality as of existential-contextualising-contiguity’s—reifying/elucidating-of-prospective-relative-ontological-completeness—who reference-of-thought—devolving-as-of-instantiative-context in ontological-normalcy/postconvergence or intemporal-preservation-entropy—context in existential-contextualising-contiguity’s—reifying/elucidating-of-prospective-relative-ontological-completeness—who reference-of-thought—devolving-as-of-instantiative-context in ontological-normalcy/postconvergence as social-aggregation-enabling’, wherein for instance scientific explanations psychologism (as of prospective apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—conflatedness) supersede mythical/supernatural/alchemic explanations psychologism (as of prior apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—constitutedness) as ‘prospective-conventioning as transcendental—
enabling/sublimating/supererogatory-de-mentativity’; interestingly, highlighting how and why transcendence-and-sublimity/sublimation/supererogatory-de-mentativity for prospective institutionalisation is construed in transcendental-enabling/sublimating/supererogatory-de-mentativity terms as its strive for a prospective relative-ontological-completeness of reference-of-thought necessarily implies a more profound grasp of intrinsic-reality/ontological-veridicality with respect to the prior as uninstitutionalised-threshold prior relative-ontological-incompleteness-of-reference-of-thought revealing which by reflex adopts a social-aggregation-enabling disposition with respect to the prior-conventioning). In this respect, ultimately the full achievement of apriorising/axiomatising/referencing-of-existential-contextualising-contiguity—confoundedness will involve fully expanding the sphere of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, as of ‘intemporal-disposition knowledge constraining construct’, for thorough construal/conceptualisation of social reality which is relatively highly prone to ‘constitutedness and conjugated-constitutedness of reference-of-thought and thus resultant presencing—absolutising-identitive-constitutedness’ as of social-aggregation-enabling, hence undermining relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity of the social. Ultimately, given the comprehensive and typical underlying proneness of human limited-mentation-capacity-deepening to apriorising/axiomatising/referencing-of-existential-contextualising-contiguity—constitutedness as its fundamental mentation deficiency at uninstitutionalised-threshold or as of ‘human temporal uninstitutionalised-threshold mental-disposition’ (which it tends to resolve by ‘presencing—absolutising-identitive-constitutedness’ when aware of defective apriorising/axiomatising/referencing-of-existential-contextualising-contiguity—constitutedness ) with respect to psychical-orientation, meaningfulness-and-teleology construal/conceptualisation, institutionalisation and its overall existential
and thirdly, highlighting the de-mentative/structural/paradigmatic pivoting/decentering as prospective ontological-completeness-of-reference-of-thought possibilities. It should be noted that ‘a mentation reflex as decentered and in de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)’ is no less valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human temporal uninstitutionalised-threshold mental-disposition’ (speaking of uninstitutionalised-threshold) as ‘a mentation reflex as centered and postconverging-or-dialectical-thinking–apriorising-psychologism’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; and so, with no relevant need for attending to any ‘psychological complexes’ with respect to a representation as of an uninstitutionalised-threshold wrongly being construed as of institutionalisation (at the uninstitutionalised-threshold) as being ‘a mentation reflex as centered and postconverging-or-dialectical-thinking–apriorising-psychologism’ instead of ‘a mentation reflex as decentered and in de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)’. The point of this statement is that when procrypticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence–(implicated-epistemic-veracity-of- nonpresencing–<perspective–ontological-normalcy/postconvergence>), the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrypticism meaningfulness-and-teleology will be represented as decentered and in de-mentation–(supererogatory–ontological–de-mention-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as the necessary/requisite backdrop for the construal of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ushering in
notional-deprocrypticism as prospective institutionalisation. In this regard, we’ll certainly inherently relate to preceding successive uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics), though this will most probably be resisted with respect to such a representation of our denaturing of positivistic meaningfulness as our prospective procrypticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-threshold by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics)); while we can recognise successively the centered and postconverging-or-dialectical-thinking-apriorising-psychologism nature of base-institutionalisation, universalisation and positivism, though probably less so of notional-deprocrypticism institutionalisation as it points to the decentering and de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics) of our procrypticism uninstitutionalisation. Such institutionalisation and uninstitutionalised-threshold construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by the concepts of apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—confatedness as of centering and postconverging-or-dialectical-thinking—apriorising-psychologism 8—reference-of-thought implied with institutionalisations and apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness as of decentering and ontologically/preconverging-or-dementing—apriorising-psychologism 8—reference-of-thought implied with uninstitutionalised-threshold; prompting the respective institutionalisation and uninstitutionalised-threshold psychologisms
as of the apriorising/precedingness of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-of-reference-of-thought’s-devolving-as-of-instantiative-context reflecting this reality beyond and above our subpar syncretising/circularity/interiorising/akrasiatic-drag’s-reference-of-thought in positivism–procrysticism from a notional–deprocrysticism perspective, just as we’ll recognise for instance that a universalisation–non-positivism/medievalism mental-disposition contending against positivism institutionalisation meaningfulness is actually acting out a subpar syncretising/circularity/interiorising/akrasiatic-drag’s-reference-of-thought as of the apriorising/precedingness of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-of-reference-of-thought’s-devolving-as-of-instantiative-context reflecting this reality beyond and above it from the positivism perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as decentered and in de-mentation{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} of an uninstitutionalised-threshold is hardly just one of ‘simplistic knowledge elucidation’ but rather an elucidation as of intellectual courage in bluntly asserting decentering and de-mentation{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}. Intellectual courage as imbuing knowledge with organic profoundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is ‘no magical knowledge technicality’ for implying a more profound ontological-completeness-of-reference-of-thought over a relatively relative-ontological-incompleteness’s-of-reference-
of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset/ reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating/supererogatory–de-mentativity rather than a conventioning sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is ‘altogether not a knowledge elucidation problem’ with respect to the implied representation of uninstitutionalised-threshold as decentered and in de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) but rather a ‘psychological complex issue’ of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in ‘psychologism terms as of amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its more profound existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought–devolving-as-of-instantiative-context; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism reference-of-thought is not about the inherent knowledge implications to which the non-positivism/medievalism mindset’s reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism (amplituding/formative–epistemicity totalising–renewing–realisation/re-perception/re-thought foundation as new placeholder-setup/mental-devising-
representation/mentation/consciousness-awareness-teleology\(^{(100)}\) requisite knowledge or meaningfulness-and-teleology\(^{(100)}\) reference-of-thought. Such equally applies with respect to notional–deprocripticism prospective institutionalisation relative to our procripticism uninstitutionalised-threshold\(^{(92)}\). In other words, prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is construed not in terms–as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic ontological-primemovers-totalitative-framework\(^{(73)}\) outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms–as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as \(^{(84)}\) reference-of-thought/psychologism construed as including the discrecional contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is grounded on such an underlying \(^{(84)}\) reference-of-thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as \(^{(84)}\) reference-of-thought/psychologism construed as including the discrecional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating ontological-primemovers-totalitative-framework\(^{(73)}\) outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-
teleology\textsuperscript{100}-%in-existential-extrication-as-of-existential-unthought\textsuperscript{6} conjure up explanations/\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} in terms–as-of-axiomatic-construct of its non-positivistic medieval alchemic or non-positivistic animistic \textsuperscript{8} reference-of-thought psychology; as it is naïve to think that implied organic-knowledge as of prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{de-mentativity} requiring its own \textsuperscript{84} reference-of-thought psychology can simply be construed as ‘mechanical-knowledge’ while still upholding/keeping the prior/transcended/superseded registry-worldview’s/dimension’s \textsuperscript{84} reference-of-thought psychology, as the organic-knowledge rather points to ‘validating ontological-primumovers-totalitative-framework\textsuperscript{23} outcomes as its mechanical-knowledge aspect but further requires a development of the discreitional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the knowledge’, grounded rather on such a prospective institutionalisation psychologism as its ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of \textsuperscript{7} meaningfulness-and-teleology\textsuperscript{100} synopsising-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding–oneness-of-ontology’, and not the prior/superseded/transcended uninstitutionalised-threshold\textsuperscript{103} psychologism. Such organic-knowledge gets institutionalised to an extent by the habituation as of circularity/recurrence/repetition/repeatability of the mechanical-knowledge implied \textsuperscript{8} reference-of-thought of \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} as of crossgenerational psychoanalytic-unshackling involving \textsuperscript{\textless amplituding/formative–epistemicity\textgreater}\textsuperscript{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} towards the ultimate crossgenerational alignment to the prospective/transcending/superseding registry-worldview \textsuperscript{8} reference-of-thought, as a positivistic registry-worldview \textsuperscript{8} reference-of-thought. Interestingly, and so across all successive institutionalisations, what tends to be lost ‘the failure

points to the fact that the traditional construal of knowledge often tacitly as of intemporal/longness-of-register-of—meaningfulness-and-teleology is incomplete and rather speaks of ‘vague intellectual intemporal-romanticism’ and doesn’t fit with the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence'>—existentialism-form-factor as upheld by the mediocrity principle underlying a rational-realism perspective, and explains why articulating knowledge merely as ‘mechanical-knowledge’ is bound to lead to its distortion/perversion/misconstrual by the mere fact of human temporal/shortness-of-register-of—meaningfulness-and-teleology mental-disposition adhering rather to wooden-language—(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology ) implied by the mechanical-knowledge explaining the successive need for ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to overcome such distortion/perversion/misconstrual; as in fact despite such a vague idealism as intemporal-romanticism, implicitly where highly pressing we tend to be obliged to recognised this temporal-to-intemporal reality as implied in the way we go about developing many a social formal construct. Thus notional—deprocrypticism knowledge as overlapping the mechanical with the organic, as of the intemporal/longness-of-register-of—meaningfulness-and-teleology mental-disposition driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the mechanical-knowledge, is a further validation of the idea of notionalisation/notional-conception/amplituding of knowledge which emphasises in principle
and beforehand/as-of-a-priori a deliberative consideration of this temporal-to-intemperal human disposition in relating to mechanical-knowledge as of prospective possibilities for a better preempting of temporality/shortness and skewing towards the intemperal/longness-of-register-of—meaningfulness-and-teleology, and so as of organic-knowledge overlapping. Further, the reality of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—firstnatures—temporal-to-intemperal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>—existentialism-form-factor means that human meaningfulness at all times is more of ‘a solipsistic transversality<for-sublimating—existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ of human meaningfulness as of temporal-to-intemperal mental-dispositions transversality<for-sublimating—existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ and ‘not a ‘solipsistic commonness of meaningfulness that wrongly implies no notional—firstnatures—temporal-to-intemperal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> mental-dispositions’, as any commonness is ‘a commonness implied with respect to secondnaturing institutionalisation as of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction thresholds’, with the implication that there is no point acting and relating with knowledge as if it is about a solipsistic transformation into intemperality/longness but rather relating to it as a secondnaturing exercise of skewing (‘intemperality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity or deferential-formalisation-transference) with respect to the institutionalisation/intemperalisation process as virtue (a notion equally implied by many a prophesying metaphysico-theological construct as
the intemporality\textsuperscript{2}/longness and transcendental projections as of their limited-mentation-capacity in their own times in resolving the issues of human temporality\textsuperscript{7}/shortness in their times). In which case while such intemporality\textsuperscript{2}/longness cannot be construed as of a social commonness of \textsuperscript{4}reference-of-thought, it’s occurrence if it does occur can only be construed in transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing\textsuperscript{10} (more like the abstract notion of faith, by definition and as implied in many a creed, however metaphysical though, can only be solipsistic to an individual and not amenable to a commonness of social contemplation) as of abstract intersolipsism. The Nietzschean metaphor ‘God is dead’, as of human emancipation, is one whose validity can only be countenance where it implies the capacity of human pretence of intellectual-and-moral sublimation, and not the notion of intellectual-and-moral decadence. *Thus to sum up, the overall notion of apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness in relation with other elucidative associated notions can further be clarified as follows in ‘interdimensional/transdimensional/transcendental terms in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{7}—of-the-human-institutionalisation-process’ as well as ‘individuation terms of human temporal-to-intemporal mental-dispositions’. This ‘anti-transcendence as anti-uninstitutionalised-threshold and anti-prospective institutionalisation mental-disposition’ of all ‘present-states’ of all registry-worldviews/dimensions is due to the fact of such ‘present-states’ desymmetrisation alignment overly-overemphasising the registry-worldview/dimension institutionalisation-facet in a corresponding relation with a dissymmetrical alignment over underemphasising its uninstitutionalised-threshold-facet, but with such representation becoming critically ontologically untenable at the registry-worldview/dimension uninstitutionalised-threshold where meaningfulness-and-
In other words, suprastructuralism (as of its referential and ontological-normalcy/postconvergence emanance perspective and as a doppler-thinking exercise) ushers in a whole new comprehensive registry-worldview across the entire social construction-of-meaning called deprocrypticism, much like positivism did over non-positivism/medievalism or universalisation over ununiversalisation or base-institutionalisation over tert-uninstitutionalisation. Central to such a universal notion of deprocrypticism is the idea of an utter-recomposuring-ontologising by upholding ontological-normalcy/prospective-
mindset/reference-of-thought (Base-institutionalisation); existential universalising with universalising techniques and universalising mindset/reference-of-thought (universalisation); existential positivising/rational-empiricism with positivising techniques and positivising mindset/reference-of-thought (Positivism); and prospectively ‘existential ontologising’, and so beyond its conventioning incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation disjointedness-as-of reference-of-thought as of temporal-accommodation of positivistic meaningfulness, as ‘existentially utter postdicatory ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, with postdicatory methods and techniques and an overall postdicatory mindset/reference-of-thought (deprocrypticism). Existential ontologising is effectively the human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology aspiration towards a fulsome grasp of intrinsic-reality/full-ontological-veridicality as fulfilling ontological-normalcy; all along the institutional-cumulation/institutional-recomposure⟩⟨historiality/ontological-eventfulness /ontological-aesthetic-tracing⟨perspective–ontological-normalcy/postconvergence-reflected—epistemicity-relativism⟩⟩ levels but for incomplete human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity the preceding institutionalisation levels are more like successive compromises towards notional–deprocrypticism as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). A critical distinction between notional–deprocrypticism institutionalisation and positivistic institutionalisation has to do with the former uncompromising relation with respect to upholding ontological-contiguity thus overcoming the temporal-emananances-registries hotchpotching <amplituding/formative> wooden-language ⟨imbued—averaging-of-thought⟨as-to-

Critically, human analytical mentation capacity mainly disambiguates what-is-in-effect organic-comprehension-thinking and threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation'\textsuperscript{97}\langle\as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing \textsuperscript{-apriorising-psychologism}, respectively as the mental-devising-representation of postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-
psychologism representation and preconverging-or-dementing\textsuperscript{10\textcircled{a}}–apriorising-psychologism representation. Equally, with regards to human mentation capacity, the effect of limited mentation capacity characterising a given registry-worldview/dimension or intradimensional level and its social-construct not only defines its inherent vices-and-impediments\textsuperscript{10\textcircled{a}} but such a social-construct further and critically structures and stifles the natural renewal of human emancipative dispositions. For instance, non-positivism/medievalism stifling inclinations to think outside of medieval mental-dispositiona and likewise with regards to our procripticism.

The bigger point of successive institutionalisations has to do overall with their specific emancipative registry-worldview/dimension framework as fertilising the cross-section of human practical and conceptual incidental issues and endeavours as well as the virtue constructs at the said registry-worldview/dimension. What is interesting with regards to an incidental study like psychopathy and social psychopathy with respect to the grander notional–deprocripticism institutionalisation level within the treatment of the institutional-cumulation/institutional-recomposure\textsuperscript{(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>)} meta-conceptual frame is that it provides (besides being critically important to grasp by itself as a parasitising/co-opting phenomenon that can potentially arise in all human locales) the incidental and the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework\textsuperscript{1}\) backdrop and background that informs and deepens understanding of the overall meta-conceptual analysis of perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > issues (issues arising from the tempering or false implying of the apriorising-registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{100} and thus inducing a fundamental flaw with the \textsuperscript{84} reference-of-thought
in the first place, and further at a second-order level in wrongly implying the existential veridicality of logical-dueness (thus making irrelevant the construing of soundness or unsoundness) of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation), which in turn further enlighten the incidental analysis of psychopathy and social psychopath. Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation. It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity) as the fundamental notion is institutionalisation/intemporalisation entropy (intemporal-preservation contiguity; by a skewing device (‘intemporality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity)/deferential-formalisation-transference of the averageness of human temporal-dispositions, with corresponding formalisation and internalisation as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, towards the supersedingness of the intemporal-disposition which is inherently ontological and syncs with intrinsic reality in its ontological-primemovers-totalitative-framework, and hence its supersedingness as it induces overall social virtue-as-of-ontology). Institutionalisation/intemporalisation entropy (intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) involves: - recurrent-utter-uninstitutionalisation (initial state of ‘perversion-of-reference-of-thought—as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ that intemporally calls for the introduction of ‘reference-of-thought—categorical-imperatives/axioms/registry-teleology’, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as base-institutionalisation), - base-institutionalisation institutionalisation/intemporalisation (whose reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ‘perversion-of-
perpetually at the ‘uninstitutionalised-threshold’. More like the modern notion of medicine doesn’t work on the idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease theory, but accepts that de-mentatively/structurally/paradigmatically bacteria, cancer, organ failure, etc. cause disease and that the virtue of medicine is about how to understand and preempt the above causations; likewise deprocriptic virtue operates on a realistic grasp of human subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections at uninstitutionalised-threshold and then strives to skew/deferential-formalisation-transference for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-preservation entropy/contiguity). We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s Things Fall Apart on how a community where a traditional registry-worldview with its sense of purpose had to deal with positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this case the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is by cultural diffusion rather than by internal philosophical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Basically, all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity involve ‘a psychoanalytic-unshackling of this sort’. Counterintuitively, it should be understood that no transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rational because you rationalise by operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives but then the need for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity due to perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and the registry-
worldview’s/dimension’s relative-ontological-incompleteness-induced, threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-attendant-intradimensional-prospectively-disontologising-preconverging/dementing —apriorising-psychologism—is putting the soundness of registry-worldview/axiomatic construct/categorical-imperatives in question (as reference-of-thought supersedes/precedes logical-processing-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), so you rather have a reinvention as <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the psychoanalytic-unshackling coming from its better grasp/ontological-primemovers-totalitative-framework of the world/intrinsic reality. Basically, we can say that human-emanant/becoming-transcendence is the first level of human invention (incremental inventions of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to liberate themselves before seconndaturing/institutionalising for the new possibilities for the species; noting that, this doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins… of the world, miraculously came up with positivism to supersede/precede/override/utter medievalism, as they were of medieval stock but by philosophical transcendence-and-sublimity/sublimation/supererogatory—de-mentativity could project beyond the limits of non-positivism/medievalism even were they were still imbued with remnants of the old like alchemic beliefs. Hence it is the transcendental process that is actually critical)! Now what positive can come from psychopathy? From the intemporal perspective NONE. Besides specific social consequences of psychopathy as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific
procrypticism which as of its inherent disjointedness-as-of-reference-of-thought requires deprocrypticism. And this memetic-reordering/psychoanalytic-unshackling process, is fundamentally about ‘the precedingness/supersedingness/ascendency/postconvergence of the entropy to preserve intemporality’ known as intemporal-preservation-entropy-or-contiguity—or–ontological-preservation, with the idea that reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation are as pertinent only as these preserve intemporality, and are collapsed/overridden by new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation, when shown not to be preserving intemporality, as when of perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing–apriorising-psychologism with regards to the preceding categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. Further a registry-worldview/dimension that so misanalyses is not ‘shaped’ to review but rather syncretises/is-circular in its failing/not-upholding-as-of-apriorising/axiomatising/referencing reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation rather than implying prospective ones for intemporal-preservation-entropy-or-contiguity—or–ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of reference-of-thought denaturing and relative-ontological-incompleteness, and endemised/enculturated (with a temporal rationalising reasoning that actually validates the veridicality of a human notional–firstnatures—temporal-to-intemporal-dispositions—as-construed-as-from-perspective–ontological-normalcy/postconvergence> as to shallow-supererogation—to—
profound-supererogation that should not be confused with a secondnaturaed/institutionalised disposition in relation to virtue). This effectively forms the recomposured backdrop for prospective transcendental construct of deprocripticism, as the ‘ontologising organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of- reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) that reflects/perspectivates the protracted threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism’. But then, a psychopath can be so irrational that in temporal terms it might do a lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or even some other things but coming initially from a vice; as may be enabled by the psychopath’s faulty-mentation-procedure-deception-or-urge to attain an outcome). This dynamic element can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as the questions are not only how culpable is the psychopath but extend to who is temporally getting what from the psychopathic situation, what accounts and narratives should be believed, etc., thus requiring an utter and intemporally uncompromising ontological conceptualisation to construct an ontological-primemovers-totalitative-framework science. That said, beyond just about such a present worldly take to societal issues, there is a bigger question of the universal implications on human civilisation of postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> and perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation behind human civilisation. It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do
narrating (an insight that is easily picked up seeing the childhood psychopathy growing into an adolescent and an adult, as its more covert mental structure at adulthood can be retraced and associated to the awkwardness of expression at early life in understanding what the adult psychopath is up to), hence the reason a mind in search of supplanting–conviction-as-to-profound-supererogation of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism or prelogism\(^7\) (normal prelogism\(^7\)-as-of-conviction,-in-profound-supererogation of existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at mind) will speak of a pathological liar, by liar wrongly granting the psychopath a supplanting–conviction-as-to-profound-supererogation of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism, be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism’, in the very first place, hence aligning integratively to the psychopath instead of aligning in transversality\(^8\)<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative-disambiguated–‘motif-and-apriorising/axiomatising/referencing’\(^9\). It is rather a flaw in the prelogism\(^7\)-as-of-conviction,-in-profound-supererogation of existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at mind’s perception (prelogism\(^7\) or supplanting–conviction-as-to-profound-supererogation of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism while the psychopath’s mental-disposition is formulaic slanting \(^{10}\)compulsing–nonconviction/madeupness/bottomlining \(^{11}\)<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising–of-the–‘attendant-intradimensional–ontologising’–imbued<contextualising/existentialising–attendant–

Straying into a basic elucidative anthropopsychology/the-anthropological-continuity (a novel hermeneutic/reprojecting/supererogating/zeroing approach to psychology); extrinsic-attribution is a fairly common social mental-disposition, at ‘uninstitutionalised-threshold’ as we are not inherently intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology) in our solipsistic projection but have the potential of temporal (shortness-of-register-of–meaningfulness-and-teleology) solipsistic/emmanent projections of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought–devolving ontological-performance–<including-virtue-as-ontology>. The mechanism of institutionalisation/intemporalisation and formalisation ensures that because of the positive-opportunism that the intemporal-disposition (as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at ‘socially-perceived-value as of social-stake-contention-or-confliction’, it tends to skew (‘intemporality–asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition
to be inherently civilised to want to universally wish that everyone have to deal with a fair legal system, that anyway is to the credit of the institutionalisation/intemporalisation process, but that is a secondnatured/internalised construct). This explains why there is no need to breach the scientific principle known as the ‘mediocrity principle’, (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a notional-firstnaturedness—temporal-to-intemporal-dispositions—creature in its moral/virtuous-agency); to explain why society tends to improve/progress. Rather, the intemporal-disposition de-mentatively/structurally/paradigmatically brings more overall good and hence skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) man in the medium to long perspective towards ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework (institutionalised, formalised and internalised)’. This elucidation is important because while internalisation might point to the social good it is important to understand that when dealing with our solipsism at ‘uninstitutionalised-threshold’ we aren’t anymore intemporal (the-Good as longness-of-register-of—meaningfulness-and-teleology) than temporal (shortness-of-register-of—meaningfulness-and-teleology) going by the ‘mediocrity principle’, and the analysis should take account of this (by not just operating/processing logic but construing notional-firstnaturedness—temporal-to-intemporal-dispositions—disambiguation with a de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) highlighting organic-comprehension-thinking (organicism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness-or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology) and the distracting

Why? The foundation of a human psychological science should be fundamentally about ‘the contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-cumulation/institutional-recomposure-as-to historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>) or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposing from recurrent-utter-uninstitutionalisation, based-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows for human-subpotency survival/existence/emanance/fulfilment/flourishing in existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression and assumes a fundamental referencing base in the study of the psyche (noting that by saying ‘notion’ is meant, the notion of intemporal-preservation-
entropy-or-contiguity—or—ontological-preservation covers the concepts of temporal preservation (including subknowling—mimicking—to-intemporal preservation, just as the notion of good covers the concepts of good-to-bad). Correspondingly, this notion of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation involves ‘mental candoring’ where mental-devising-representation syncs with intrinsic-reality and mental-decandoring where mental-devising-representation is a wrong/flawed perverted representation of intrinsic-reality. If we have an anthropological continuity/anthropopsychology, then the continuity as entropy is the exercise of candoring as ‘straightness/soundness—or—ontological-good-faith/authenticity—or—reference-of-thought referencing/registering/decisioning or registry-teleology’ (being a functional representation of how an intemporalising registry-worldview/dimension perceives itself) and decandoring as ‘perverted/brazen—but—unsoundness—or—ontological-bad-faith/inauthenticity—or—reference-of-thought referencing/registering/decisioning or registry-teleology’ (being a functional representation of how a prospective intemporalising registry-worldview/dimension perceives the prior-and—preconverging—or—dementing—apriorising-psychologism registry-worldview/dimension); with this latter representation undermining the ‘temporal-dispositions solipsistic/emanant postlogic miscuing presumptuousness/arrogation effect’ as the unconscionability-drag responsible for ‘perversion—or—reference-of-thought—or—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism’, whether in the perversion—or—reference-of-thought—as—effectively—apriorising—in—nonconviction/madeupness/bottomlining—as—to—shallow—supererogation > across the institutional-cumulation/institutional-recomposure—as—to—historiality/ontological-eventfulness—or—ontological-aesthetic-tracing—or—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism>, whether in the perversion—or—reference-of-thought—as—effectively—apriorising—in—nonconviction/madeupness/bottomlining—as—to—shallow—supererogation > as to preconverging—or—dementing—apriorising-psychologism of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism—or—disjointedness—as—of—
reference-of-thought. Such a transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, for a novel genuinely universal psychology as anthropopsychology, involved in all successive institutional-cumulation/institutional-recomposure—(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism) for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation is profoundly elucidated with associated notions as follows: - The concept of de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics is the very drive (in providing insight on the transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation ontological-primemovers-totalitative-framework, i.e. notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence) for such a conceptualisation of anthropopsychology or ‘genuinely universal psychology’. The philosophical conceptualisation of stranding is rather ‘notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’ disambiguation’ which serves to avoid the supplanting—conviction—as-to-profound-supererogation—of—attendant—intradimensional—postconverging/dialectical-thinking—apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex (instead of rightly aligning by the dialectically-or-contendingly-out-of-phase reflex or transversality—of—affirmative-and—unaffirmative—disambiguated—motif—and—apriorising/axiomatising/referencing reflex) of ‘intemporal-disposition’ being wrongly attributed to all interlocutors by reflex without ensuring that their disposition is effectively

For instance, the veridical stranded mental-devising-representation we may have from a positivistic standpoint of the non-positivism/medievalism mind as oblongated/decandored is not recognised by the non-positivism/medievalism mindset/ reference-of-thought by its syncretic reflex to be functionally in its mental straightness and candored (even though such a representation is ontologically wrong regarding

The intemoral-disposition is rather about emphasising institutionalisation/intemporalisation percolation-channelling–<in-deferential-formalisation-transference> as the means and basis for prospective institutionalisation/intemporalisation. This highlights the vacuousness in all transcendental relations wherein the transcended is vacuum with respect to the transcending. Such vacuum transcendental manifestations involves dialectically (the transcended and transcending relation with regards to:) deductive narratives instances, life episodes, life schemes, general being/existential dispositions and the specific existentialism/full-existential-depth-implications involved with a registry-worldview/dimension; wherein temporal-dispositions present-consciousness (in their illusions-of-the-present) perpetually portray candor and straightness but on retrospection are shown to be decandored and oblongated which ontologically implies these are veridically of

This is ontologically foundational (more like the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument grounding spirit of arithmetic cannot be undermined in any way possible and you then have the possibility of sound arithmetic thereafter). 14 de-mentation—supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics prevents temporal-dispositions (in the articulation and re-articulation of narratives) by the ‘temporal-dispositions disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-articulated are of intemporal-disposition teleology hence wrongly implying candored and straightness, whereas these are in effect totalising-formative-epistemicity—totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag iterating narratives of temporal-dispositions teleologies’; and so, by way of coring which involves accounting-for-temporal-dispositions-defect/preconverging-or-dementing—apriorising-psychologism (the-perversion-of-the—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) and avoiding setting-aside which rather involves glossing-over-temporal-dispositions-defect/preconverging-or-dementing—apriorising-psychologism (the-perversion-of-the—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). This ensures in effect ‘the de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics), in-a-contiguity-of-increasing-ontological-normalcy/postconvergence’.

Ontology is an altogether coherent construct with no room for excepting from coherence, which then simply implies the superseding of any such pretence of an excepting. (For instance, we can be calculating the sum (5 * 5)+5 −5, and make the mistake to say 5 * 5 =24 but then overlook it
and agree together that the answer should be $24$ and go on to resolve the entire equation as $24$.

This type of non-ontological thinking (a non-ontological thinking is also known as a misanalysis or mithinking or misreasoning or mislogic or preconverging-or-dementing\cite{footnote1}–apriorising-psychologism<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> or <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\cite{footnote3} or notional-discontiguity/epistemic-discontiguity <shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema>, as there is no veridical meaningfulness that exists out of ontology or isn’t in ontological-contiguity\cite{footnote6}) is highly prevalent in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology} of society as social-aggregation-enabling, the reason we strive to formalise whether in terms–as-of-axiomatic-construct of laws, institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition constructs cannot accommodate non-ontology since reality doesn’t adjust to man and it is man that adjusts to reality. The de-mentation-<supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics>-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence implies that an interlocutor’s retrospectively demonstrable narratives miscuing and subsequent perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> speaks of the real nature of its present and prospective narratives as decandored and oblongated in effect ontologically but that by an illusion-of-the-present reflex as well as for the sake of functioning we tend to represent by default such miscuing and perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> meaning as straightness/candored (intemporal) which is not ontologically veridical; in which case the
prospective transcended registry-worldview strands such meaningfulness as decandored/oblongated (subknowledging/mimicking) even if the mental-disposition of the transcended registry-worldview is in an illusion-of-the-present straightness/candoring mental-devising-representation of meaning. In other words, de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) ensure an affixing of temporal-dispositions perversion-of-reference-of-thought—shallow-supererogation teleologic orientations denaturing to the corresponding temporal perversion-of-reference-of-thought—shallow-supererogation minds sets in their ontological-escalation/aetiologisation without letting for a disjunction/skipping into intemiporal/straightness-of-mental-devising-representation disposition teleologic orientation, and so, to the point of the temporal-dispositions collapsing/overriding (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) with the new prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemiporal-preservation-entropy-or-contiguity–or–ontological-preservation of the transcending registry-worldview/dimension. For instance, the mental-devising-representation of a non-positivism/medievalism mindset/ reference-of-thought relating to say an accusation of sorcery by an intemiporal positivistic mindset/ reference-of-thought will not be limited to that particular instance but carries the ‘disambiguation of notional–firstnaturedness—temporal-to-intemiporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence’ as ontological-escalation/aetiologisation that speaks to metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation dispositions of that non-positivism/medievalism
mindset/reference-of-thought by way of de-mentation\{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics\} from the intemporal positivistic mindset, and upholding such the ‘disambiguation of notional—firstnatures—temporal-to-intemporal-dispositions\{so-construed-as-from-perspective—ontological-normalcy/postconvergence\} as ontological-escalation/aetiologisation’ for the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that collapses/overrides the non-positivism/medievalism mindset/reference-of-thought crossgenerationally (consider the diffusion of positivistic registry-worldview and its psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of non-positivistic registry-worldviews in the th and early 20th century). Stranding defines the ‘decandored registry-worldview/dimension dialectically-or-contendingly-out-of-phase/dialectically-primitive) mental-devising-representation’ such as the mental-devising-representation of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, and so, beyond the illusion-of-the-present/present-consciousness of all these successive registry-worldviews/dimensions which in their amplituding/formative—epistemicity totalising/self-referencing-syncretising/present-consciousness/illusion-of-the-present will tend to wrongly recover/syncretise to project straightness/candoring of mental-devising-representation as intemporality/longness rather than decandored/oblongated mental-devising-representation as temporality. Stranding is validated by the fact that transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation speaks of an ‘institutionalisation/intemporalisation constraint/secondnaturing’ and ‘not temporal-dispositions transformation into intemporal-disposition as dimensionality-of-sublimating’ \{amplituding/formative\} supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-
drivenness–equalisation); and this idea is so foundational that it is beyond-and-supersedes/precedes/overrides/utters the consciousness-awareness-teleology\textsuperscript{100} of temporal-dispositions such that ‘they are not called upon in argumentation’, just as we are not consciously called upon to establish whether blood flows in our body, as it is a preceding/superseding truth that supersedes/precedes/overrides/utters our thinking or not of it! Thus \textsuperscript{14} de-mentation\textsuperscript{100} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is rather intemporally/ontologically conceptualised for its validation and integration in the survival-and-flourishing imbued institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> (formalisms and internalisations) mechanism with the implied ontological-primemovers-totalitative-framework\textsuperscript{73} and positive-opportunism\textsuperscript{76} as ontological entrapment, with no temporal-dispositions firstnature-or-intemporal-level-validation but rather secondnatured-or-institutionalisation/intemporalisation-level-validation. At which point \textsuperscript{14} de-mentation\textsuperscript{100} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) articulates temporal-dispositions teleologies orientations as ‘subknowledging\textsuperscript{95}/mimicking/mental-perversions/slantedness manifestations at that ‘uninstitutionalised-threshold\textsuperscript{103}’, i.e. the \textsuperscript{14} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} – for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of temporal-dispositions undermining the very ‘intemporal-preservation-entropy’ supposedly they are supposed to uphold). <in-deferential-formalisation-transference> and highlighting, in the bigger scheme of things, the relative sublimating efficiency and positive-opportunism\(^9\) of a positivism-based rule of law, social organisation, polity, nation-building, etc. based on positivism axioms and which inherent effectiveness and supersedingness/transcendence breaks the non-positivism/medievalism mindset/\(^{10}\)-reference-of-thought (which are not rational-empirical/positivising and tend to essences, alchemic-logic, sorcery constructs, etc.) with its defective \(^{11}\)reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^{100}\)-for-intemperal-preservation-entropy-or-contiguity—or—ontological-preservation. This takes an utterly impersonal form (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. The ‘transcendental/transdimensional/interdimensional/\(^5\)maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation complex-of-stranding’ refers to the counter-intuition from a registry-worldview/dimension perspective in not representing itself as stranded (decandored or oblongated or in threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^0\)<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> when it is demonstrated that it is ‘perversion-of- reference-of-thought’<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-

or–ontological-preservation prospectively; while that same registry-worldview/dimension intuitively recognises that a prior/superseded registry-worldview/dimension mental-devising-representation as stranded is ontologically veridical as the prior/superseded registry-worldview/dimension subknowledges/mimics and self-reference-syncretises it’s reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold. The reason for the human ‘transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation complex-of-stranding’ is that a registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are fundamental and constitutive functional elements of its existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation and hence the complex when amplituding/formative–epistemicity totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present. But then, if such a complex is to stand, the transcendental exercise by which man left the cave-to-so-called-modern-man wouldn’t have happened, and any registry-worldview/dimension (retrospective, present, prospective) that fails its own de-mentation—(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as to elucidation-and-superseding-of-its–perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>–as-to-preconverging-or-dementing–apriorising-psychologism to allow for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for transcendence-as-the-grander-possibility-for-human-survival-and-flourishing is obviously failing/not-upholding<as-of-apriorising/axiomatising/referencing> its ‘own homework’ for the bigger picture in the human species survival-and-flourishing scheme, notwithstanding it is at

counter-intuitively to a naïve temporal take is actually a ‘positive-minded/well-meaning

and-moral outcome for man’ than ‘working with what-one-wishes’ from a wrong
temporal/impression-driven construal’. The idea of understanding the ontology of human
temporal mental defect is not to ‘idle’ in a temporal circularity that defeats-and-debase the
grandor of a ¹⁰ universal/intemporal projection but rather strives to better stir man towards the
intemporal-and-ontological as virtue, an exercise which while of ‘presencing—absolutising-
identitive-constitutedness¹¹ consummated/forfeiting posture’ with regards to human
temporality ⁄shortness wouldn’t however acquiesce to the naïve disconcertment that takes the

definitely intransigent and uncompromising for effective intemporal-preservation-entropy-or-

Furthermore, temporal-dispositions tendency to

to uphold intemporality\textsuperscript{52}, and hence a complete ontology. To put it in other terms, for instance,
transversality-\textsuperscript{for-sublimating–existential-eventuating/denouement}\textsuperscript{of-affirmative-and-unnaffirmative–disambiguated-`}motif-and-apriorising/axiomatising/referencing’\textsuperscript{102} of ‘keeping

and-apriorising/axiomatising/referencing’\textsuperscript{102} among interlocutors, in principle or notionally, so
that at all times it is always about the intrinsic reality of the arithmetic and not the agreement-
disagreement of any human interlocutors as we are all mortals and likely to corrupt such

transcendental-enabling/sublimating/supererogatory–de-mentativity) is vital to preserving
‘ontological arithmetic’ as transcendental-enabling/sublimating/supererogatory–de-mentativity,
whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with
other humans (interlocutors logical nested-congruence) instead of intemporal exercise, it is
obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be
corrupted and/or teleologically-degraded as more likely than not the intemporality\textsuperscript{52}/purity of
mathematics will be compromised to human mortals stakes of social-and-temporal-trading as
social-aggregation-enabling, and so as of postlogism\textsuperscript{75}-slantedness/
ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-
discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation,
so-disambiguated as of "reference-of-thought" devolving ontological-performance - <including-virtue-as-ontology>. * It should be noted that in "de-mentation" (supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or- attributive-dialectics), in a contiguity of increasing ontological normalcy/postconvergence dialecticism of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity involving the transcended and the transcending dimensions, the terms highlighting the transcended dimension like decandored, oblongated, dialectically-out-of-phasing/dialectically-primitive, etc. (as to its superseded Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology) do not carry the same connotation as a shallower temporal analysis intradimensional to the transcended dimension (as to its given institutional-development-as-to-social-function-development and living-development-as-to-personality-development so-referenced to its given Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology). The idea is not to idle in articulating meaningfulness within the dimension in need of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. For instance, a positive mind’s articulation of defective meaningfulness in non-positivism/medievalism registry-worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in terms-as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful purposefulness but rather to project a positivistic worldview’s transcendental meaningful purposefulness. In that sense, actually for the social scientist and philosopher words like dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the ordinary and temporal connotations of stigmatising under a temporal extricatory preconverging-de-mentating/structuring/paradigming. Rather, these are critical and actively sought after notions that provide the ‘dialectical backdrop’ for enabling prospective
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The idea is that these notions are veridically dialectical notions that apply in all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity unlike a simplistic ‘history fixating conceptualisation’ will have. In other words, our non-positivism/medievalism ancestors’ possibility of being-represented/mental-devising-representation as dialectically-or-contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive construction of a superseding/transcendental registry-worldview/dimension that brought about the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in a notional–deprocrypticism institutionalisation/intemporalisation with respect to procrypticism. In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are ‘capacity-wise same’ as per notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> going by a preconverging/postconverging–de-mentating/structuring/paradigming of mentation-capacity (shortness-of-register-of−meaningfulness-and-teleology\textsuperscript{100} to longness-of-register-of−meaningfulness-and-teleology\textsuperscript{100}) with respect to the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, but for the semblance of the superiority of latter registry-worldviews/dimensions which is nothing but the result of being at the backend of the institutional-cumulation/institutional-recomposure–historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism’> process. Ontological-normalcy/postconvergence equally involves articulating the possibility for the supersedingness of the intemporal-disposition over temporal-dispositions as
intemporalisation/institutionalisation, and so, involving ‘notional–firstnatures—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence> accountability’ beyond an ‘idle temporal-dispositions stigmatisation’. In that spirit, it can be reasoned that the intradimensional ‘ontological blindspot’ in human mental-devising-representation (wherein temporal perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> by miscuing, and in subsequent derivation of disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising of temporal-dispositions perversions/defects of postlogism-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought–devolving ontological-performance–<including-virtue-as-ontology> conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism), actually points to a decandored/slantedness of the temporal-dispositions (and not candored/straightness), and is definitional of all registry-worldviews/dimensions perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procryptic, as these are in epistemic-decadence-and-derived-epistemic-decadence, i.e. not veridical but perverted and requiring transcendence-and-sublimity/sublimation/supererogatory de-mentativity. This basically undermines the idea that any such registry-worldview/dimension temporal-dispositions should be encouraged to be ‘<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag in meaning’ in a logical engagement with it from an intemporal/ontological perspective (of ontological-normalcy/postconvergence), as it
likewise between the ununiversalised and universalised mindsets/references-of-thought, non-positivism/medievalism and positivistic mindsets/references-of-thought, and prospectively procrypticism and notional-deprocrypticism mindsets/references-of-thought. Just as there would have been no ontological possibility for a positivistic worldview without superseding the backdrop of the perversion of reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^{10}\), for-intemperal-preservation-entropy-or-contiguity—or—ontological-preservation of non-positivism/medievalism uninstitutionalisation preconverging-or-dementing\(^{19}\)—apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, there can’t equally be an ontological eventuality of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{10}\) as of prospective notional—deprocrypticism without the ‘requisite uninhibited/decomplexified mental-devising-representation’ superseding the positivism—procrypticism perversion of reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^{10}\), for-intemperal-preservation-entropy-or-contiguity—or—ontological-preservation perspective preconverging-or-dementing\(^{19}\)—apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> backdrop for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{10}\) as from prospective notional—deprocrypticism as a dementative/structural/paradigmatic human-and-social-cross-sectional resolution for the virtues of notional—deprocrypticism in superseding the vices-and-impediments\(^{10}\) of procrypticism at its uninstitutionalised-threshold\(^{03}\). This construal is placed on a solid firmament (that is able to supplant any intradimensional illusion-of-the-present mental-devising-representation) by the ‘ontological-primemovers-totalitative-framework’ retracing (for notional—firstnaturedness—temporal-to-intemperal-dispositions—<so-construed-as-from-perspective—ontological—

In this regard, the hermeneutic/reprojecting/supererogating/zeroing exercise originates from an even more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this ‘rather relatively benign idiosyncrasy’ in this paper as the reader may come across and is the explanation for many of the author’s insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and creative insight that allows the hermeneutic/reprojecting/supererogating/zeroing design in a ‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’ analogical to a twisty puzzle cube exercise in order to infer and arrive at a profoundly explanatory hermeneutic/reprojecting/supererogating/zeroing insight extending to the

To further elucidate, the underlying idea of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting (deconstruction/ontological-reconstituting/organic-comprehension-thinking) holds that ‘critically what matters with respect to ontology and virtue is simply and completely intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic/notional-projective-perspective), and holds that other and subsequent notions are as pertinent as they are intemporally-preservational and where those same supposed notions social use was not intemporally-preservational but perverted/subknowledged/mimicked/confounded, their ontological and virtuous validity is nullified; as it is their relay of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation without notional-discontiguity/epistemic-discontiguity–<shallow-supererogation -of-mentally-

And even more pertinent, what will those same qualities mean at the uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation, positivism, and prospectively deprocrypticism, with their evolving reference-of-thought–categorical-imperatives/axioms/registry-teleology wherein prospective meaningfulness-and-teleology is beyond-the-consciousness-awareness-teleology.<in-existentia-extrication-as-of-existential-unthought>. The only answer that cuts it in all ways, is inevitably intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality (mentation-capacity-wise, as longness-of-register-of-meaningfulness-over-shortness-of-register-of-meaningfulness-and-teleology, more than just an abstraction as it carries the notion of a contiguous existentialism/full-depth-of-existential-implications transdimensional-meaningfulness/memetic-refinement as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness in dialectical transformation as of prospective reference-of-thought tied to the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Even the idea of morality as being construed as of a sense of morality is vague self-referencing, as it is rather virtue as of knowledge-construct/intersolipsistic-intercessory-notion/notional–referential-notion/articulation of superseding–oneness-of-ontology enabling the possibility in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity/of-the-human-institutionalisation-process of successive registry-worldviews/dimensions that is truly of ontological relevance. The idea of conceptualising morality out of such ontology-driven basis is more or less delusional however ‘good-natured’ when we consider that even a community of
miscreants will have to construe of a semblance however perverted of moral conceptualisation that allows for individuals self-preservation and only of a degree of variance however big such a variance is perceived with supposed grander moral conceptualisations that do not factor in the de-mentative/structural/paradigmatic relation of virtue to ontology as of successive developing prospective relative-ontological-completeness -of- reference-of-thought. normalcy/postconvergence-epistemicity-relativism process will not occur and be regenerative, as the circumventive/distractive-temporal-prioritisation-of reference-of-thought mental-dispositions rather strives to arrive at an equilibrium at the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a registry-worldview/dimension whether these are intemporal-preservational or not, hence have little transcendental capacity. Going by an ‘ontologically contiguous comparison’ with reference to Arithmetic where a condition was to cause a character to resolve additionality as 1+3=5, 2+5=8, 5+6=12, etc., the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional-projective-perspective) of additionality with regards to this character will always involve as of reference-of-thought–categorical-imperatives/axioms/registry-teleology that subtracts 1 from the results of that character’s operations of additions (as the imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual principles of additionality (its traditional reference-of-thought–categorical-imperatives/axioms/registry-teleology of simply summing directly) will be existentially rendered null and void in order to allow for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Now supposed such a framework (reference-of-thought) for resolving Arithmetic calculations now involves the contribution of 6 characters working in collaboration with each contributing their specific arithmetic principle role while taking cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-completeness-of reference-of-thought, and so taking into account the prior mentioned character with its defect of additionality; wherein such a framework is BODMAS-based with character B working on brackets operations, character O working on order operations, character D working on division operations, character M working on multiplication operations, the priorly mentioned character A working on addition operations and character S working on
subtraction operations, and so (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective) setup for resolving arithmetic calculations (ontological-completeness-of-reference-of-thought setup). Naturally, the reference-of-thought–categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as the usual BODMAS Arithmetic rules) should apply but this is no longer existentially the case in this instance, where the equation is for instance $7(\sqrt{64}+3-1)-(6+4-2)\div2$. Going by the natural arithmetic rules for BODMAS, the equation will be resolved first with the brackets, and within the brackets for the first brackets the order operation is first carried out, that is, $\sqrt{64}=8$ and then addition $8+3=11$, then subtraction $11-1=10$. For the second brackets, addition as $6+4=10$, then subtraction as $10-2=8$. The division operation then follows with the second brackets result as $8\div2=4$. Then the multiplication operation with the first brackets result as $7\times10=70$. Finally, comes the subtraction with $70-4=66$ as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence).

But then, in this particular case where character A (Addition) operation of additionality is perverted as stated above as a result of its condition, the equation will resolve as $\sqrt{64}=8$, $8+3=12$, $12-1=11$, for the first brackets, and $6+4=11$, $11-2=9$, for the second brackets. The division operation with the second brackets yields $9\div2=4.5$, and the multiplication operation with the first brackets yields $7\times11=77$. Finally, subtracting both brackets gives $77-4.5=72.5$ as the final result which is ontologically wrong (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective), and points to the fact that all the 6 BODMAS characters, not only A (Addition) the additionality defect character have failed ontological-veridicality/ontological-contiguity-as of their relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’-<as-to-‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing apriorising-psychologism>’ (from ontological-normalcy/postconvergence...
In affirming ontology/ontological-veridicality/intrinsic-reality (notwithstanding their traditional personhoods-and-socialhood-formation mental-dispositions anchored on projected <amplituding/formative> wooden-language-{imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing –narratives—of-the- reference-of-thought– categorical-imperatives/axioms/registry-teleology }). In which case the resolution for the Arithmetic equation (supposedly where A, Addition, is unamendable due to a condition), will involve the other characters taking cognisance of A’s (Addition’s) condition and adhere to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation over projected <amplituding/formative> wooden-language-{imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing –narratives—of-the- reference-of-thought– categorical-imperatives/axioms/registry-teleology }). Thus the new categorical-imperatives/axiom/registry-teleology¹ for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation deployed with respect to resolving calculations (ontological-completeness-of reference-of-thought will integrate the notion that additionality requires subtracting 1 from its results as well as taking cognisance that other characters will be perverted in their operation if they do not take cognisance of A’s (Addition’s) condition and subtract 1 from it before their operation (whether unconsciously by ignorance, expediently by affordability, and consciously by
opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). For instance, B (Brackets) is still in a position to articulate an ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity\(^{67}\) of \(^{84}\) reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional--projective-perspective) by factoring in all the defects as follows: by reverting all other characters operation up to the point they had to deal with A (Addition) and subtracting 1 from the results at these point before allowing the other characters operations, which then yields the right result. That is \(77 \div 7 = 11\) and \(4.5 \times 2 = 9\) as reverting back, then \(11-1=10\) and \(9-1=8\) to factor in A’s (Addition’s) additionality defect to yield the results of the two brackets. Before then letting back the division and multiplication operations for both brackets respectively, giving \(8 \div 2 = 4\) and \(7 \times 10 = 70\). Finally \(70-4 = 66\), giving the final result that is ontologically-veridical (in ontological-normalcy/postconvergence). So this approach is the new \(^{84}\) reference-of-thought--categorical-imperatives/axioms/registry-teleology \(^{67}\)--for-intemporal-preservation-entropy-or-contiguity--or--ontological-preservation which is ontologically-veridical/of-intrinsic-reality that B should be operating. In the bigger scheme of things, this calls for a prospective registry-worldview/dimension

fundamentally the conjugation of such an de-mentation-{supererogatory–ontological–de-

(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) doesn’t confuse appropriateness of the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation for the prior institutionalisation as implying the prior mental-devising-representation is appropriate for prospective institutionalisation as it needs to undergo its own requisite ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to enable and regenerate intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This by itself explains why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing–apriorising-psychologism with respect to one another (from the prospective perspectives), and not that we are talking about different species of humans, as transcendentalism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is the foundational concept retrospectively, presently and prospectively; even though by the illusion-of-the-present/present-consciousness/epistemic-totalising ~self-referencing-syncretising/mirage, all dimensions, and not only ours, tend to think of themselves as definitely mentally straight/candored-and-dialectically-or-contendingly-in-phase with no uninstitutionalised-threshold which is obviously fallacious. The reason for this is that ‘postconverging-or-dialectical-thinking–apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought (as mental straightness/candored-and-dialectically-or-contendingly-in-phase) starts-and-ends/is-sound at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation where the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy/configuity is in ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘beyond any one registry-worldview/dimension meaningfulness’ like ours is perfectly possible in garnering a more profound and informed insight on human nature whether presently, retrospectively to prospectively. In the bigger scheme of things, just as logic can only be grounded on coherent and concrete reference-of-thought–categorical-imperatives/axioms/registry-teleology based articulations for its ontological effectiveness and veridicality, human ontological transcendental possibilities arise from human individuations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to renewed logical-basis/logic—<as-to—transversality—<for-sublimating—existentia-len-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ going beyond the reference-of-thought–categorical-imperatives/axioms/registry-teleology within just a given registry-worldview/dimension as if it were the absolute mental-devising-representation with respect to intrinsic-reality, and instead hold that transdimensional/transcendental (unlike ordinary meaning which reasons only on intradimensional reference-of-thought–categorical-imperatives/axioms/registry-teleology) is what brings us closer to absolute mental-devising-representation with respect to intrinsic-reality as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation). Memetism as suprastructural-meaningfulness is able to do that because it can proxy ontological-normalcy/postconvergence in a dynamic dialectical juxtapositioning/doppler-thinking of ‘postconverging-or-dialectical-thinking—apriorising-psychologism mental-devising-representation’ and ‘preconverging-or-dementing—apriorising-psychologism mental-devising-representation’ from successive ontological dialectical-moments

and corresponding ontological-veridicality/ontological-contiguity as enabled by ontological-normalcy/postconvergence. The conceptual pertinence in this Arithmetic ontological-contiguity comparison can be rearticulated as follows for greater clarity. As previously highlighted the developmental psychology of the psychopath from childhood to adulthood, involves a child psychopath who is dysfunctional as its subknowledging -impulse/compulsive-dementing in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation is relatively transparent to interlocutors and it induces a ‘delirious effect’ given that it hasn’t yet maturated, is not yet indirect, is not yet spatialising, is not yet credulous and is not yet crafty in ‘its postlogism-as-of’ compelling–nonconviction/madeupness/bottomlining-(‘decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-attendant-intradimensional–ontologising’-imbued– contextualising/existentialising–attendant-ontological-contiguity>-in-shallow-supererogation -<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>); conditions which it increasingly attains from adolescence to adulthood with a corresponding inducing of the development of social psychopathy as its psychopathy conjugates/inflects/gets-mimicked with the temporal-dispositions of ignorance, unconsciously, and consciously with affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, in an absolving/fleeting/escaping-reflex–logic eliciting social psychopathy involving moving from various non-veridical/hollow sets-of-postlogic-in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> as absolving/fleeting/escaping-reflex–logic, to others and from different sets of interlocutors to
others. It is obvious that A’s condition/subknowledging\textsuperscript{13}–impulse/compulsive-dementing\textsuperscript{19} disposition as an adult psychopath isn’t systematic with every interlocutor but rather it arises only in the face of perceived–social-stake-contention-or-confliction-and-confliction-targets and furthermore the profoundness of the postlogism\textsuperscript{70}–slantedness manifestation is directly related to the gravity of the perceived–social-stake-contention-or-confliction the situation and how the ‘evolving social psychopathy situation permits’. Hence the notion of A having an absolute condition wherein it increments additionality by 1 is rather an absolute ideal conceptualisation, as in reality it is a question of degree and highly circumscribed with the adult psychopath who needs to have a postlogic-equilibrium that can be socially-functional-and-accordant\textsuperscript{94}, unlike the dysfunctional child psychopath. This comparison equally articulates the nature of uninstitutionalised-threshold\textsuperscript{10}. Consider B (together with the other BODMAS characters) in the instance where despite A’s conditions they were to stick to the registry-worldview’s/dimension’s institutionalisation\textsuperscript{54} reference-of-thought–‘categorical-imperatives/axioms/registry-teleology\textsuperscript{100} thus effectively producing the wrong result 72.5 for the particular equation which is not intemporal preservational (not ontologically ontological-normalcy/postconvergence) and likewise for all other equation where A’s condition applies, we’ll then be talking about an uninstitutionalised-threshold\textsuperscript{10}. The implication is that the registry-worldview/dimension then loses its qualification as being intemporally-preservational, and the psychological tool that is then elicited (from a prospective and new reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as articulated with the arithmetic technique that corrected the equation result from 72.5 to by adjusting for A’s condition which is now the\textsuperscript{84} reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing\textsuperscript{10}-reference/ontologically-veridical/ontological-contiguity\textsuperscript{67} registry-worldview/dimension) is known as \textsuperscript{14}de-mentation-\{supererogatory–ontological–de-mentation-or-dialectical–de-
apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > with respect to the denaturing\(^{15}\) of the reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness. This insights perfectly highlight that our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t has any end to itself but for such dialectical readjustments to ontological-veridicality as ‘postconverging-or-dialectical-thinking\(^{20}\)–apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity\(^{20}\)–of–reference-of-thought/candored-and-dialectically-or-contendingly-in-phase with regards to an intemporal-preservational registry-worldview/dimension institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and with superseded/transcended registry-worldviews/dimensions which are not intemporal-preservational at their uninstitutionalised-threshold\(^{13}\) as preconverging-or-dementing\(^{10}\)–apriorising-psychologism/oblongated/decandored-and-dialectically-or-contendingly-out-of-phase explaining the nature of mental-devising-representation of all institutional-cumulation/institutional-recomposure\(\langle\)as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-\(<\)perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’\(\rangle\) whether from the perspective of a retrospect, our present or prospective point-of-reference. Another aspect highlighted by the Arithmetic equation comparison is with respect to the appropriateness and defects of meaningful references with respect to ontological-veridicality/intrinsic-reality. The comparison highlights 3 transversality\(\langle\)for-sublimating–existential-eventuating/denouement\(\rangle\) of affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ pedestals of meaningfulness. Firstly, A’s condition
with respect to additionality with the idea that it is bound to fail any arithmetic calculation involving additionality. Thus the subknowledging\textsuperscript{95}--impulse/compulsive-dementing pedestal is of notional-discontiguity/epistemic-discontiguity \textsuperscript{95}shallow-supererogation--of-mentally-aestheticised−preconverging/dementing−qualia-schema\textsuperscript{95}non-ontological-and-non-contending-referencing\textsuperscript{95}thus-ontologically-or-contendingly-reflected-or-perspectivated-as-of-preconverging-or-dementing\textsuperscript{10}−apriorising-psychologism\textsuperscript{10} (not-veridical-thinking-reference-rather-preconverging-or-dementing--reference). This is effectively the pedestalled state of psychopathic\textsuperscript{98}postlogism\textsuperscript{98}as-of- compelling−nonconviction/madeupness/bottomlining\textsuperscript{98}as-contextualising/de-existentialising−of-attendant-intradimensional–apriorising/axiomatising/referencing−induced-disontologising−of-the−attendant-intradimensional–ontologising−imbued<ontological-contiguity\textsuperscript{67}−shallow-supererogation−disontologising-perverted-outcome-sought-precedes-existentially-veridical−attendant-intradimensional–apriorising/axiomatising/referencing−logical-dueness> in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> as of vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\textsuperscript{95} inducing existential-contextualising-contiguity\textsuperscript{95}s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{95}of-reference-of-thought−devolving-as-of-instantiative-context/non-veridical-hollow-narratives to be reflected/perspectivated from the intemporal/ontological angle as unsoundness-or-ontological-bad-faith/inauthenticity−of-reference-of-thought or perversion-of-reference-of-thought− <as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing\textsuperscript{10}−apriorising-psychologism and so in <amplituding/formative–epistemicity>totalising−self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{10} or absolving/fleeting/escaping-reflex–
logic, from one set-of-postlogic-narratives to the other and one set of interlocutors to the other, in line with its ‘short cut’ mental relation to meaningfulness as extrinsic-attribution (the temporal eliciting of the temporality/shortness of others is the sufficient basis for getting one’s way) as opposed to intrinsic-attribution wherein the intrinsic ontological-veridicality of meaning is the complete and sufficient basis for its pertinence and upholding. This subknowledging-compulsive-dementing disposition points out that the actual and given meaningfulness being subknowledged/pervertedly-represented is ontologically-veridical both registry-wise (soundness-or-ontological-good-faith/authenticity-reference-of-thought-wise) and logic-wise (the normal arithmetic operation of the BODMAS equation) as it is intemporally preservational and thus ontologically-veridical/reference-of-thought/ontological-contiguity. It is this pedestal that is the organic-comprehension-thinking/(organicalism/intemporal-prioritisation-of-reference-of-thought-as-conflatedness-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal, organic as it is both registry-wise (soundness-or-ontological-good-faith/authenticity-reference-of-thought-wise) and logic-wise striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. It is the superseding and intemporal pedestal for articulating ontological meaningfulness (intrinsic-attribution). The third pedestal as demonstrated involves the integrating and amplituding/formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by temporal-dispositions both unconsciously (ignorance) and consciously (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) with A’s condition/subknowledging impulse as if it was ontologically veridical, and obviously leading to the wrong result thus failing/not-upholding-as-of-apriorising/axiomatising/referencing- intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In the case with B it involved
resolving the Arithmetic equation as if A’s condition was appropriate resulting in \( \frac{7}{2} \) which is ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity’ rather than which is ontologically veridical. This is the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation as to ‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism pedestal, as registry-wise it is not striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and so fundamentally its logical-contention is voided (as apriorising-registry precedes and defines logical pertinence), such that such a disposition that integrates subknowledger-implying-impulse/compulsive-dementing registry-worldview-wise/dimensional-wise speaks of the registry-worldview/dimension as in de-mentation-(supererogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) at that uninstitutionalised-threshold. The fourth meaningful reference is actually a variance of the given organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal which is registry-wise and logic-wise pertinent. It is about the intellectual and virtue driven aetiologisation/ontological-escalation (as per this paper aim and other studies) in grasping the human ontological implications and articulating the-Good/understanding/knowledge-reification/ontological-prime-movers-totalitative-framework construct for the possibility of a conceptual insight and de-mentative/structural/paradigmatic resolution with regards to (at the registry-worldview/dimension or intradimensional level) procrypticism/the-reality-of-human-notional–firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence–with-consequential-positivistic-meaningfulness-perversion preconverging-or-dementing–apriorising-psychologism, resolved
by deprocrypticism. Comparatively, for instance, articulating new reference-of-thought-categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to resolve the uninstitutionalised-threshold\textsuperscript{03} from \textsuperscript{11}.5 to the ontologically-veridical, and so not only with regards to the specific but as a dementative/structural/paradigmatic institutionalisation/intemporalisation for perpetuating intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This pedestalled articulation points out that the organic-comprehension-thinking (organicism/"intemporal-prioritisation-of-reference-of-thought"–as-conflatedness\textsuperscript{12}–or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology\textsuperscript{100}) pedestal (ontological-veridicality/reference-of-thought) is transversal/transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing and not actually in logical-congruence with both the subknowledging\textsuperscript{95}-impulse/compulsive-dementing\textsuperscript{19} pedestal (ontological-decandence/non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism/not-veridical-thinking-reference-rather-preconverging-or-dementing\textsuperscript{19}-reference) and the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{97}<as-to–attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism> pedestal (epistemic-decadence/non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism/not-veridical-thinking-reference-rather-preconverging-or-dementing\textsuperscript{19}-reference) which is relates to as preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism (as their implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{100} are all undue and pervertedly implied). So we then speak of an utter\textsuperscript{78} maximalising-recomposuring-for-

Ontologically-speaking, a temporal naivety with regards to psychopath and its protraction as social psychopathy is that going by the dynamism of its faulty-mentation-procedure-deception-or-urge\textsuperscript{12} towards ‘extrinsic-attribution’ (the eliciting of the temporality\textsuperscript{9}/shortness of others is the sufficient basis for getting one’s way), is that the number of people ‘convinced’ by perverted extrinsic-attribution involving social-and-temporal-trading can have any bearing to the ontological-veridicality/intrinsic-reality in any way. While temporally-speaking, psychopathic situations often lead to a-country-of-the-blind-and-the-one-eye kind of scenario, wherein a thousand blinds may strive to convention out the one-eye, but then it wouldn’t still cut it, ontologically-speaking. (Certainly, it is equally and very possible that if such a one-eye isn’t beholden to a ‘sense of intemporality’\textsuperscript{52} and it is rather temporally-inclined, it might equally take the easier route of reasoning in terms–as-of-axiomatic-construct of country-of-the-blind temporality\textsuperscript{9}/shortness whether with respect to temporally outdoing or undermining the phenomena by acting in a manner that is overall of a temporal/shortness-of-register-of–\textsuperscript{56}meaningfulness-and-teleology\textsuperscript{10} nature. But that will still be temporality\textsuperscript{9}/shortness and the notion of an aetiologisation/ontological-escalation as of intemporality\textsuperscript{52}/longness will no more
be better advanced. Further beyond and more than just with respect to one case of psychopathy but as of intellectual-and-moral-inequivalence/non-correspondence construing the universal human social phenomena of psychopathic postlogism and conjugated-postlogism across space and time together with the bigger insight of grasping human nature and the overall possibilities thereof. Insightfully, as well it won’t be surprising that such a universal projection will possibly meet with a more protracted-and-protracting psychopathy and social psychopathy manifestation going by overall human temporal-to-intemporal mental-disposition existential-form-factor as varied temporal-dispositions come into the frame and are elicited, just as an intemporal projection within a non-positivism/medievalism setup aspiring for a positivistic registry-worldview/dimension-level resolutive construal of their corresponding postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-
\{\langle\text{decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing}＞\text{-induced-disontologising’–of-the–attendant–intradimensional–ontologising’–imbued–}\langle\text{contextualising/existentialising–attendant–ontological-contiguity}>\text{–in-shallow-supererogation} –\langle\text{disontologising-perverted-outcome–sought-precedes-existentially-veridical–}\text{attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness}\rangle\} like notions-and-accusations-of-sorcery and which is not palliative to a given situation will equally elicit a social protractedness of the phenomenon as varied temporal-dispositions come into the frame and are equally elicited. But then that is an inevitability with respect to the more critical universal projection low-life purposefulness in both meaningful-frameworks). Rather this then points to the nature of postlogic perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > with temporal-dispositions; (unconsciously) ignorance and (consciously) other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-
social-aggregation/temporal-enculturation-or-temporal-endemisation. Ontologically, it is then the subject of contention and aetiologisation/ontological-escalation of the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of’ reference-of-thought’–as-conflatedness or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) pedestal, both in apriorising–registry and registry-worldview terms as it is reflected/perspectivated as de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). The critical reason for this is that the intemporal-disposition is rather inclined to be utter about intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the complete and sufficient stand for knowledge and virtue with anything else being denaturing much in parallel as intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t accommodate human temporality, and so will not even entertain involving in anyway with social-and-temporal-trading exercise which is non-ontological (since it is fundamentally a perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, and has nothing to do with issues of defect-of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance). This can further be elucidated analysing perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of a different nature in a superseded registry-worldview/dimension like non-positivism/medievalism registry-worldview/dimension which should provide an even greater insight analysing from our present perspective, and we can then comparatively project this with respect to notional–deprocrypticism and procrypticism. For instance, accusations of witchcraft in non-positivism/medievalism societies are ontologically about subknowledging/perversion-of-
reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as-of-unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought/preconverging-or-dementing apriorising-psychologism based on the fact that such societies didn’t develop and integrate notions of empirical and rational cause-and-effect positivistic ideas as reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (a mentation-capacity that further furthers the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as modern-day positivistic registry-worldview), as it universally informs the present positivistic worldview and thus the impossibility to sound intelligible in case such an accusation of witchcraft is made today. So structurally, the non-positivism/medievalism society is shaped-and-inclined to integrate and entertain phantasmagorical notions of someone being accused as a witch or sorcerer. We can garner a similar insight just as with the ‘disambiguation of notional–firstnatures—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as ontological-escalation/aetiologisation’ above, where supposed an intemporal mindset/reference-of-thought who is in a non-positivism/medievalism society was to be accused of witchcraft by someone inclined to accuse people of witchcraft (because of a pathological-condition/subknowledging-impulse/compulsive-dementing) and who obviously is wrong, as we know today that the notion of witchcraft is ontologically unsound and ridiculous as the ability to perform magic and the like by anyone cannot be demonstrated veridically. The disposition to accuse people of witchcraft will be the subknowledging-impulse/compulsive-dementing pedestal. The disposition to entertain and further exploit such situations (as anthropologists perfectly understand the abhorrent role of such notions as witchcraft in the social-stake-contention-or-confliction of non-positivism/medievalism societies) in conjugation of temporal-dispositions that are universally-recurrent or
universal across all times (postlogism\textsuperscript{78} -slantedness, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) is the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{97} -<as-to-‘attendant-intradimensional’-prospectively-disontologising~preconverging/dementing –apriorising-
psychologism> pedestal which is rather an extricatory preconverging–dementating/structuring/paradigming (of the situation, to fulfil temporal inclinations or distractive-temporal-prioritisaton and not intemporal preservation); given the lack of a social universal-transparency\textsuperscript{104} -\langle transparency-of-totalising-entailing,-as-to-entailing-
\langle amplituding/formative–epistemicity\rangle totalising-in-relative-ontological-completeness \rangle of the idea that the notion of witchcraft is bogus, with corresponding lack of perceived untenability/internal-contradiction/internal-incoherence/institutional-constraining of such a notion, thus a collective-consciousness that doesn’t register it as preconverging-or-dementing –apriorising-psychologism (as we do today) and finally, no ontological alienating reason for not believing, endemising and enculturating the phenomenon of witchcraft. The organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-
meaningfulness-and-teleology\textsuperscript{106}) pedestal will rather be an inclination to see that the lack of empirical and rational reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{109},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the non-positivism/medievalism registry-worldview/dimension is actually, in the bigger scheme of things, what is at the basis of not only the ‘one locale accusation of witchcraft, specifically so with this individual but its general integration as a socially viable and entertained notion in this locale’. But more critically, from its intemporal/ontological/social/species/\textsuperscript{104} universal/transcendental/\textsuperscript{75} maximalising-
recomposing-for-relative-ontological-completeness\textsuperscript{3}—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigmimg to be intemporally-preservational, more than the notion of just attaining only to the ‘one-locale’ accusation of witchcraft, for the intemporal mindset/\textsuperscript{2}reference-of-thought in organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-\textsuperscript{1}reference-of-thought’–as-confoundedness ‘or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{10}) the problem is now the insight about the intellectually and morally wrong in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of accusation of witchcraft and the implications across all societies of the human species qualified as non-positivism/medievalism, with the bigger ontological implications of this specific accusation rather being how is this enlightening de-mentatively/structurally/paradigmatically about the endemisation and enculturation of vices-and-impediments \textsuperscript{10} associated with superstition in the said registry-worldview/dimension. That is, the problem is now about the aetiologisation/ontological-escalation that can be made to address such lack of positivistic empirical and rational notions in all possible human societies qualified as non-positivism/medievalism. In other words, the graver ‘de-mentation\textsuperscript{13} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) problem’ for the organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-\textsuperscript{1}reference-of-thought’–as-confoundedness ‘or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{10})/’intemporal-prioritisation-of-\textsuperscript{1}reference-of-thought’–as-confoundedness ‘or-ontological-reprojecting pedestal is ‘why is society non-positivism/medievalism, and it is not in ‘mentation equivalence’ with a subknowledging\textsuperscript{19}-impulse/compulsive-dementing mindset/ reference-of-thought pedestal accusing it of witchcraft and the specific locale where such an accusation is made in threshold-of–nonconviction/madeupness/bottomlining-in-

pedestal that entertains notions of witchcraft (as the intemporal mindset/ reference-of-thought is thus anecdotally ‘boxing far below its weight’). Rather it is about articulating a comprehensive de-mentative/structural/paradigmatic dialecticism reasoning-through/utterion (not reasoning-with incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation with temporal-dispositions mindsets) between non-positivism/medievalism and positivism for prospective ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring away from the vices-and-impediments of a non-positivism/medievalism superstitious mental-disposition towards a prospective positivistic mental-disposition which is the virtue that is the ‘de-mentative/structural/paradigmatic resolution’ to the superseded registry-worldview/dimension not only superstitious specific vices-and-impediments but equally critical the overall de-mentative/structural/paradigmatic <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity such superstition to the creative emancipation of human meaningfulness and action. With this insight the ontological ‘terms of reasoning’ of the subknowledging -impulse/compulsive-dementing pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing—apriorising-psychologismly striving to establish whether the accused is involved in witchcraft; the ‘terms of reasoning’ of the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \(\text{<as-to-}^*\text{attendant-intradimensional'}-\text{prospectively-disontologising}^\text{-preconverging/dementing}^\text{-apriorising-psychologism}>\) pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing—apriorising-psychologismly striving to establish and examine whether the
accusation of witchcraft is true or not, with all the implied existential implications meaningfulness in both cases; and the ‘terms of reasoning’ of the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-’ reference-of-thought’–as-conflatedness\textsuperscript{12}-or-ontological-reprojecting/longness-of-register-of–‘meaningfulness-and-teleology\textsuperscript{109}) will be to be dismissive of the two prior pedestals as in \textsuperscript{14} de-mentation\textsuperscript{14}(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) and of preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism\textsuperscript{19}<stranded-as-rightfully-oblongated/decanordered-and-dialectically-or-contendingly-out-of-phase> since in reality the elements of their apriorising–registry are perverted (implied–logical-dueness –as to accusation of witchcraft, implied-profile, implied-presumptuousness/arrogation, implied-assumptions, implied-value-reference and implied-teleology\textsuperscript{109}), and the issue will rather be about reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the perversion-of\textsuperscript{16} reference-of-thought\textsuperscript{16}<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > of a registry-worldview/dimension that endemises and enculturates the belief in superstition and witchcraft for a de-mentative/structural/paradigmatic resolution as intemporal/ontological/social/species/\textsuperscript{19}universal/transcendental/\textsuperscript{5} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{28}—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming. In other words, the temporal-dispositions are not logically-contending but ontologically or dialectically preconverging-or-dementing –apriorising-psychologism as they are rather the subject of contention and aetiologisation/ontological-escalation from the intemporal-disposition given that these are dialectically-or-contendingly-out-of-phase and \textsuperscript{45}<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \textsuperscript{33}. The reason for the above ‘intemporal-prioritisation-of-’reference-of-thought’–as-
threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation -<as-to-

psychologism) and (superseding registry/registry-worldview-or-dimension) mental-devising-
representation as straightness/candored-and-dialectically-or-contendingly-in-phase (thinking) is
critical in grasping the nature of ‘intemporal-prioritisation-of-reference-of-thought–as-
conflatedness -or-ontological-reprojecting with respect to circumventive/distractive-temporal-
prioritisation-of-reference-of-thought as the former is ‘utter’ intemporal-preservation-entropy-
or-contiguity–or–ontological-preservation (and thus the requisite categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-
contiguity–or–ontological-preservation in order to arrive at /intemporal-preservation is
downright uncompromisable). Circumventive/distractive-temporal-prioritisation-of-reference-of-thought involves various shades of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation temporal-accommodation with institutionalisation being rather a secondnaturising to a given set of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as per percolation-channelling<&in-deferential-formalisation-transference> and a positive-opportunism institutionalisation constraining. This is ‘no emanance transformation’ of temporal-dispositions into the intemporal-disposition; as such a notion can only be solipsistic to individuals beyond the possibility of institutionalisation secondnaturung (point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/induced-ring-of-gyges-effect/solipsistic-point-of-temporal-thresholding).

Thus at the uninstitutionalised-threshold, circumventive/distractive-temporal-prioritisation-of-reference-of-thought will very well do with an outcome (other than its inherent intemporal-projection) whether it is failing/not-upholding<&as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, given its solipsistic disparate nature (noncontiguous/discrete hence of notional-discontiguity/epistemic-discontiguity<&shallow-supererogation-of-mentally-aestheticised-preconverging/dementing–qualia-schema>) with respect to the notion of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as being about intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and so, especially when postlogic and integrating the hollow-constituting<&as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> of postlogism –as-of– compelling–nonconviction/madeupness/bottomlining<&decontextualising/de-existentialising–of-attendant-

‘intemporal-prioritisation-of–reference-of-thought’–as-conflatedness–or-ontological-

gives an insight on why notional–firstnaturedness—temporal-to-intemporal-dispositions–so-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of \(^{84}\) reference-of-thought and meaningfulness is a sound existential construct. That is, in the bigger scheme when it comes to deciding between ontological-veridicality/ontological-contiguity\(^7\) of \(^{84}\) reference-of-thought (as from ontological-normalcy/postconvergence epistemic/notional–projective-perspective) and the human temporal psyche, what gives-in is the human temporal psyche (and so for the betterment of the species); that is, from an animal that was emanantly/becomingly/solipsistically successively of a mental-devising-representation perspective preconverging-or-dementing\(^19\)–apriorising-psychologism<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> at recurrent-utter-

In other words, across all times the ‘limits of thought’ is not ‘the averageness/banality/temporalisation of thought’ but rather ‘the disposition to intemporalise and ontologise human thought’, and so whether from a sense of intrinsic-reality one mortal is rightfully saying that the world is round and by expediency a majority of mortals are saying it is flat. That is the singular construct that man cannot lose across all generations to enable the perpetual existential regeneration of
civilisation beyond just being a secondnatured construct as mere-institutionalised-being-and-craft (which can often actually turn out to be alien to the intemporal-disposition apriorising-registry, that we can all potentially cultivate, that created, creates, and needs to keep creating the conditions for institutionalisation perpetuation)! It should be noted that the establishment of the reality of an apriorising/axiomatising/referencing-registry’s, or in the bigger picture, registry-worldview’s/dimension’s reference-of-thought, dialectical-out-of-phasing at an uninstitutionalised-threshold speaks of that apriorising–registry’s or registry-worldview’s/dimension’s reference-of-thought de-mentation—(supererogatory—ontological—de-mentation—dialectical—de-mentation—stranding-or-attributive-dialectics) preconverging—or-dementing apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> (as it is ‘devoid of reference-of-thought and correspondingly ontological-veridicality/ontological-contiguity’ given its epistemic-decadence/psychopath or epistemic-decadence/psychopath’s-temporal-interlocutor, as perversion-of–reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> the reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy—or-contiguity—or—ontological-preservation), and so, in a state of transversality—<for-sublimating—existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ as perceived from the superseding/transcending intemporal-disposition or registry-worldview/dimension which voids the registry-perverting/subknowledging /preconverging-or-dementing—temporal-dispositions’ transcended-or-superseded-registry-worldview’s/dimension’s apriorising–registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology. This as de-mentation—(supererogatory—ontological—de-mentation—dialectical—de-mentation—stranding-or-

The point then is that, from a transcending registry-worldview/dimension, the relation with its transcended registry-worldview/dimension is ‘not ontologically an exercise in logical-congruence with the transcended registry-worldview/dimension as a postconverging-or-dialectical-thinking–apriorising-psychologism exercise’ but rather ontologically an exercise in transversality–for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing” by
reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) a preconverging-or-dementing\(^{19}\)–apriorising-psychologism representation as manifestation-and-not-contention of the transcended registry-worldview/dimension denaturing\(^{8}\) of reference-of-thought\(^{8}\)–categorical-imperatives/axioms/registry-teleology\(^{100}\)–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation for prospective positivistic meaningfulness, as preconverging-or-dementing\(^{19}\)–apriorising-psychologism–stranded-as-rightfully-oblungated/decandored-and-dialectically-or-contendingly-out-of-phase>, and avoiding the supplanting–conviction-as-to-profound-supererogation —of-'attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex which wrongly elevates persion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> into logical-contention. de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is effectively the mental-devising-representation of the dialectical-primitivities/dialectical-out-of-phasing registry-worldviews/dimensions of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism (preconverging-or-dementing\(^{19}\)–apriorising-psychologism of positivistic meaningfulness), as from successive veridical reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing\(^{10}\)–reference (ontological-veridicality/ontological-contiguity\(^{67}\)) as base-institutionalisation, universalisation, positivism and notional–deprocrypticism respectively which are mentally postconverging-or-dialectical-thinking\(^{10}\)–apriorising-psychologism–stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>. de-mentation\(^{14}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as such redefines psychology as a postdicatory science (tying the mental-devising-representation process to the abstract and infallible ontological-

(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as such is construed at the individuation-level as of the circularity/recurrence/repetition/repeatability in delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology. This involves maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as enabled by de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) in disambiguating the intemporal-disposition as ontological and temporal-dispositions at the individuation-level; while at the registry-worldview/dimension-level it reflects the determination of the relative registry-worldviews/dimensions as of relative-ontological-incompleteness-of-reference-of-thought and relative-ontological-completeness-of-reference-of-thought. The implication is that soundness-or-ontological-good-faith/authenticity-of-reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-normalcy/postconvergence). There is no doubt that if by some secret manner ‘some individuals from recurrent-utter-uninstitutionalisation registry-
worldview/dimension’ were to appear and be able to live in our present positivistic social-setup (without us knowing beforehand that they are coming from the past to avoid inducing a confounding effect in our analysis), and intent on fully living based on the reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the recurrent-utter-uninstitutionalisation setup, our current psychology science most probably will treat them as pathological (preconverging-or-dementing –apriorising-psychologism). At which point, implying the conceptualisation of such an ontological-mental-pathology or de-mentation (in contrast to a physiological mental pathology) is much more a question of ‘ontology valour’ (ontology valour being defined as a registry-worldview’s/dimension’s ontology depth in relation to its conventioning limitations with respect to pure-intemporal-ontology as to ontological-normalcy/postconvergence). But then, crazy as it may seem, this extends ontological-mental-pathology or de-mentation conceptualisation, on those very same terms of ontology valour, not only retrospectively but equally prospectively, as from a prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (with a corresponding insight about how we may be that preconverging-or-dementing–apriorising-psychologism–stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> from such a prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’s reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (of course, that is, when occluding our illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage) herein construed as the prospective protensive-consciousness deprocripticism–or–preempting—disjointedness-as-of–reference-of-thought registry-worldview/dimension. In the bigger picture, de-mentation–supererogatory–ontological–de-mentation–or-dialectical–de-mentation—stranding-or-attributive-dialectics effectively will
seem to place human (recomposuring)-consciousness-awareness-teleology\textsuperscript{\textsuperscript{100}} in the backseat with ontology-in-its-inherent-dialectical-abstraction taking the frontseat in the articulation of intrinsic reality and correspondingly human mental-devising-representation. Actually, registry-worldviews/dimensions are rather prospectively \textit{amplituding/formative} wooden-language\textsuperscript{\textsuperscript{100}} (imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{\textsuperscript{100}}) of their own specific evolving successive existentialisms (with their full-depths-of-existential-implications specific evolving preconverging–de-mentating/structuring/paradigming), and with specific evolving percolation-channelling-\textlangle\textit{in-deferential-formalisation-transference}\textrangle for prospective ontologising and ontologising-transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Fundamentally, without the possibility of de-mentativity-of-the-human-psyche-for-prospective-institutionalisation involving \textit{de-mentation—\textlangle\textit{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\textrangle,} no registry-worldview/dimension will be transcendable (hence de-mentable/as-to-a-threshold-of-lack-of-thinking) for prospective institutionalisation. As it is from de-mentation (literally ‘de-mentation’) that an unshackling/recomposuring/reordering/new-mentation of prospective intemporal-preservation-entropy-or-contiguity–or–ontological-preservation \textit{reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{\textsuperscript{100}}} is possible. This is because \textit{de-mentation—\textlangle\textit{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\textrangle as such allows for a ‘human mentation capacity renewal’ by transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (as it is by cumulation/reordering/recomposuring the prior institutionalisation mentation-capacity for a contiguous upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity
occur) of the ‘veridical reference-of-thought of meaningfulness’ since it dents the mental-devising-representation of the old/retrospective/superseded/transcended registry-worldview/dimension as not postconverging-or-dialectical-thinking—apriorising-psychologism/soundness-or-ontological-good-faith/authenticity—reference-of-thought but preconverging-or-dementing—apriorising-psychologism and dialectically-or-contendingly-out-of-phase at its uninstitutionalised-threshold and references the mental-devising-representation of the new/prospective/superseding/transcending registry-worldview/dimension as ‘effectively postconverging-or-dialectical-thinking—apriorising-psychologism/soundness-or-ontological-good-faith/authenticity—reference-of-thought as a new-and-greater-mentation-capacity and dialectically-or-contendingly-in-phase; on the grounds that the veridicality of the reference-of-thought is what upholds ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. For instance, at its uninstitutionalised-threshold requiring a prospective positivistic registry-worldview/dimension, the non-positivism/medievalism registry-worldview/dimension which is rather superstitious/alchemic/aristocratic is rather ontologically-preconverging-or-dementing—apriorising-psychologism/dialectically-preconverging-or-dementing—apriorising-psychologism in a de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding—or-attributive-dialectics wherein its mental-devising-representation is preconverging-or-dementing—apriorising-psychologism as not thinking/unsoundness-or-ontological-bad-faith/inauthenticity—reference-of-thought and dialectically-or-contendingly-out-of-phase while the positivistic registry-worldview/dimension mental-devising-representation is postconverging-or-dialectical-thinking—apriorising-psychologism/soundness-or-ontological-good-faith/authenticity—reference-of-thought and dialectically-or-contendingly-in-phase, thus ‘granting the latter reference-of-thought
(veridical-thinking-reference-over-preconverging-or-dementing ‘-reference)’ over the former
which is ‘no longer reference-of-thought’ in the sense that ‘we can’t think in medieval terms
and be considered soundness-or-ontological-good-faith/authenticity ‘-of- reference-of-thought
today but rather ontologically-preconverging-or-dementing –apriorising-psychologism’. This
dialectical conceptualisation equally applies regarding procrypticism and futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism
registry-worldviews/dimensions. In fact, a deconstruction insight with regards to all the
interchangeable deconstructing terms in reference to the notion of ‘failing/not-upholding：<as-
of-apriorising/axiomatising/referencing> intradimensional reference-of-thought– categorical-
imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–

faith/inauthenticity ‘-of- reference-of-thought, mental-perversion, subknowledging, mimicking; and-their-corresponding-<amplituding/formative–epistemicity>totalising–self-
referencing-syncretising) indicates that de-mentionation-{supererogatory–ontological–de-
mentation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics} is ultimately the
‘ideal reference term’ for the simple reason that unlike the other terms it ‘beats’ the ‘intuition
for intradimensional/non-transcendental/non-transdimensional reasoning’ and succeeds to
convey, overcoming the counter-intuition, the requisite transdimensional/transcendental
reasoning that achieves ontological-normalcy/postconvergence (prospective-transcendence-in-
perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-
preservation); as this counter-intuition for transdimensional reasoning (which is not easily superseded and not even by this author articulating the notion but for this abstraction insight) is basically due to the subconscious-strength of the ‘intradimensional-subknowledging~normalcy’ (epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) reference of personhood-and-socialhood-formation existentialism/full-depth-of-existential-implications such that the other notions will tend-to-get-lost-down-the-line by unconsciously returning to and/or admitting to the wrong intradimensional reflex-conceptualisations, at one point or the other, and so in lieu of and undermining the ontological-veridicality of the effectively veridical transcendental reality. `de-\textit{mentation-}(\textit{supererogatory~ontological~de-mentation-or-dialectical~de-mentation~stranding-or-attributive-dialectics})` ‘beats’ this counter-intuition by simply and immediately bringing to the mind an ‘overarching conceptualisation’ of a `\textit{de-mentation-}(\textit{supererogatory~ontological~de-mentation-or-dialectical~de-mentation~stranding-or-attributive-dialectics})` of superseding/transcending registry/registry-worldview-or-dimension (as straight/candored-and-dialectically-or-contendingly-in-phase) and a superseded/transcended registry/registry-worldview-or-dimension (as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); around which all other dynamic constructions fall in place (whether organic-comprehension-thinking or threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\ `<as-to-`attendant-intradimensional’–prospectively-disontologising~preconverging/dementing ~apriorising-psychologism>, circumventive/distractive-temporal-prioritisation-of- reference-of-thought, subknowledging\`-impulse, etc.). The other deconstructing terms while having specific analytical bearings do not carry this all-encompassing quality that liberates from ‘intradimensional-subknowledging~normalcy’ (epistemic-totalising \~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) as `\textit{de-mentation-}(\textit{supererogatory~ontological~de-}
does as it further induces ‘transdimensional or memetic thinking’ by its implied ‘de-mentation’ (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) in meeting up with ‘ontological-normalcy/postconvergence’ (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). For instance, while the term registry-worldview’s/dimension’s-uninstitutionalised-threshold 0–defect–<as-Being-or-ontological-or-existential–defect>” brings to the mind a poor ontological disposition like the other BODMAS characters disposition to systematically operate additionality overlooking A’s condition, but it is a sense of ‘de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) that carries the intuition of an uninstitutionalised-threshold 0, and construes a superseding/transcending registry/registry-worldview-or-dimension and a superseded/transcended registry/registry-worldview-or-dimension, and all the implications thereof. Now analysing the registry-worldview’s/dimension’s-uninstitutionalised-threshold 0–defect–<as-Being-or-ontological-or-existential–defect>” term thereafter, we grasp that it is the ‘<amplituding/formative–epistemicity>totalising~self-referencing-syncretising’ in ‘notional-discontiguity/epistemic-discontiguity -<shallow-supererogation -of-mentally-aestheticised~preconverging/dementing –qualia-schema> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of the perversion-of- reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation <as-to-shallow-supererogation> as to preconverging-or-dementing 0–apriorising-psychologism’ that makes it registry-worldview’s/dimension’s-uninstitutionalised-threshold 0–defect–<as-Being-or-ontological-or-existential–defect>” (and not about defect–of- logical-processing-or-logical-implication–supposedly-apriorising-in-conviction-as-to-profound-supererogation ) and this carries the implications of a registry-
worldview/dimension defining defect (in a dialectics of prior/transcended/superseded and prospective/transcending/superseding reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation). Specifically, de-mentation-(supererogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as such implies registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect<as-Being-or-ontological-or-existential–defect>/not-just-a-logical-processing-or-an-implicitation-of-act-execution-or-a-implicitation-of-notion-of-agreement-or-disagreement-defect’ wherein we can perceive the complete picture of a registry-worldview/dimension defect by its relative-ontological-incompleteness–induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to–’attendant-intradimensional’-prospectively-disontologising–preconverging/demerting–apriorising-psychologism>’ like recurrent-utter-uninstitutionalisation (with respect to base-institutionalisation), ununiversalisation (with respect to universalisation), non-positivism/medievalism (with respect to positivism) and our own dimension procrypticism’s (the–’preconverging-or-dementing–apriorising-psychologism of positivistic-meaningfulness) de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) (with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism). A similar articulation can be made with regards to each of the other deconstructing terms where de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) provides the better overarching conceptualisation from an ‘intemporal-prioritisation-of–reference-of-thought’–as-conflatedness–or-ontological-reprojecting reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference). Furthermore, by its de-mentation-(supererogatory–ontological–de-

That is de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) is effectively the notion that, in recognition of the unchanging, preceding and inherent nature of intrinsic-reality with respect to the human psyche (and its mental-devising-representation of intrinsic reality) which is what ‘gives-in’/collapses ontologically/as-an-ontological-reference; enables, for the articulation of new mentations as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, the ‘giving-in’/collapsing of the mental-devising-representation of successive institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>) mindsets, notwithstanding the fact that the de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) (of their reference-of-thought—categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) is unintelligible/existentially-suprastructural to these superseded/transcended registry-worldviews/dimensions mindsets due to their <amplituding/formative-epistemicity>totalising-self-referencing-synergetising/illusion-of-the-present/present-consciousness/mirage disposition. Supposed we were to make a profound analysis of our contiguous human mental-devising-representation/consciousness-awareness-teleology (in-dialectical/recomposuring-moments) from the appearance of human beings on earth, the effective linkage as new-mentations between those successive recomposuring moments (whether recurrent-utter-uninstitutionalisation, base-institutionalisation-universalisation, universalisation-non-positivism-or-medievalism, positivism—procrysticism and prospectively perpetuation-of-deprocrysticism) is as de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-

Postdication, when alluding to an (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) defining psychological science, will effectively hold that the conceptualisation of the social is very much a contiguous ontological disambiguation of a preconverging-or-dementing—apriorising-psychologism social of personhoods-and-socialhood-formation in existentialism/full-depth-of-existential-implications of notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>, from a prospective registry-worldview’s/dimension’s reference-of-thought in ontological-normalcy/postconvergence. Postdication means reasoning from a basis of ontological-normalcy/postconvergence wherein the prior/transcended/superseded registry-worldview/dimension is no longer referenced/registered/decisioned (as reference-of-thought) but ‘dialectically preconverging-or-dementing—apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity—of—reference-of-thought’ while the prospective/transcending/superseding registry-worldview/dimension is referenced/registered/decisioned (as reference-of-thought) as ‘postconverging-or-dialectical-thinking—apriorising-psychologism/soundness-or-ontological-good-faith/authenticity—of-reference-of-thought’ in construing meaningfulness. The grander issue that always arises is in existentialism terms, whether with regards to an obvious human
disposition for temporal-accommodation as circumventive/distractive-temporal-prioritisation-of-reference-of-thought of being-and-existence as conceptualised within the successions-of-existing-in-human-life-spans or rather an abstract eternal-projecting disposition of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting wherein the articulation of meaning, being and existence is in existentialism-terms intemporally-driven on the basis that that which is in need of transcendence-and-the-intemporal (the temporal) cannot be seen-as-or-made-a-reference-of-intemporal/ontological-thought, and that it is exactly for that reason that human progress has been and will remain dialectically possible. That is, the reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) can only be the pedestalling of an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting as ontology with regards to apriorising-registry, contrasted to a circumventive/distractive-temporal-prioritisation-of-reference-of-thought-reference implying a perverted-registry reflected/perspectivated by its de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics). Where the natural world is resolute with no compromise with the operation of such a notion as 1+1=2, the same cannot be resolutely affirmed in the human social-and-temporal-trading in the social world where on occasions 1+1 will add up to 5 where the effective constraining of institutionalisation is lacking. de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) (stranding) has the merits of articulating that for reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) to establish veridicality, no such social-and-temporal-trading is beyond ontological-entrapment ‘by re-institutionalisation with new reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation dialectically implying an de-mentation (supererogatory-ontological-de-mentation-or-
dialectical–de-mentation—stranding-or-attributive-dialectics) of transcended reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy–or-contiguity–or–ontological-preservation (in our present case, notional–deprocripticism of procripticism–or-disjointedness-as-of-reference-of-thought, for a de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments of our registry-worldview/dimension and just as critically the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential; just as positivism is the de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments of non-positivism/medievalism together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential, and the same applies with ununiversalisation and universalisation, and recurrent-utter-uninstitutionalisation and base-institutionalisation); thus the potential to fully close the gap with regards to ontological-veridicality of the natural sciences in a ‘renewed maturation’ of the phenomenological ontological-performance—including-virtue-as-ontology> conceptualisation of the social. Though with the weakness we must be able to rise up to, that ‘the social’ is existentially ‘emotionally involved’. But this can be and is effectively overcome by ‘appropriately universalising and detached meaningfulness by percolation-channelling-in-deferential-formalisation-transference’ as devised for all formalised and institutionalised settings capable of introducing, upholding and internalising the ascendency of many a social outlying thoughts and meaningfulness which from a ‘purely mobbish social disposition’ as may arise in the extended-informality-susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology would hardly be countenanced. The bigger picture here (and of relevance to a registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from procripticism to notional–deprocripticism as the de-mentative/structural/paradigmatic and general resolution of
the vices-and-impediments together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential of the perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing–apriorising-psychologism of positivistic meaningfulness-and-teleology, and specifically resolution of the implications of psychopathic subknowledging/perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) may be to think, given our own illusion-of-the-present/present-consciousness as amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, that such an analysis applies only to prior institutional-cumulation/institutional-recomposure⟨as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing⟨perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism⟩⟩. But the fact is that such a profound conceptualisation will have to come to terms with the reality of the implied existentialism/full-depth-of-existential-implications beyond our present sense of personhoods-and-socialhood-formation if it were to avoid platitudinising, becoming circular with dead-ends and lose its intemporal purpose and hence ontological purpose, and so for the simple reason that it is the human psyche that ‘gives-in’ with respect to intrinsic-reality as renewed/prospective ontological-veridicality, starting with that of the intellectual analyst/analysts itself/themselves); as the human psyche gave-in from recurrent-utter-uninstitutionalisation to base-institutionalisation, ununiversalisation to universalisation, non-positivism/medievalism to positivism, and where renewed/prospective ontological-veridicality does establish a new registry-worldview/dimension transcendental postconverging–dementating/structuring/paradigming shift as procrypticism to deprocrypticism, then the human psyche will equally have to give-in, and by the way all transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity meet with some resistance or the other and thus a reason for transversality.<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ reflex to preserve the precedingness/supersedingness/ascendency of intrinsic-reality in adverting social-and-temporal-trading of meaningfulness. Part and parcel, of human intellectualism beyond mere-institutionalised-being-and-craft, as has historically been implied in the case with many a great human mind, is to recognise that the social-construct is ‘not an ontological absolute’ but rather a ‘conventioning construct at the limits of human ontological capacity’ and that that is ‘why it has got its defining issues and problems’ and further that ‘it progresses and transcends’, and the intellectual exercise goes beyond just reasoning within ambits of ‘temporally-and-socially-perceived-rightness-of-thinking’ to explore possibilities that might actually be ‘outright unpalatable’ in the temporo-social sense but in the bigger picture as an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming are indispensable. With the idea that an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming that prolongs to intemporality/an-abstract-eternality while obviously of ‘less an immediate temporal existential sense of good to some humans’ is undoubtable of ‘an intemporal existential sense of good to all humans at all times’ by its percolation-channelling—in-deferential-formalisation-transference> wherein for instance, the de-mentative/structural/paradigmatic effect of the law is allowing for civilisational living but its circumstantial construal and application may not be in tune with the temporal interests of many but for its institutionalising constraining. This contrast between humans
appreciating intemporality\textsuperscript{52}/longness as potentially of\textsuperscript{104} universal import and at the same time disposed occasionally to advanced their temporality\textsuperscript{20}, is what warrants \textquotesingle a constraining institutionalisation\textquotesingle. In the same vain, one may ask what\textapos;s the temporal benefit to Rousseau or Galileo instead of striving for greater aristocratic privileges for themselves; for the one to rather carry the mantle from one royal court to the other of affirming the possibility of human emancipation (by which we are all percolatively benefiting from today) or the other the mantle of a principled engagement and possibility of science starting with an uncompromising supplanting–conviction-as-to-profound-supererogation\textsuperscript{97}–of\textquotesingle attendant-intradimensional\textquotesingle–postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism\textsuperscript{35} from observation that the earth is not at the centre of the solar system, by which a culture of science came to be established. And finally, how coherent are temporal meaningful frames built from such intemporal grand principles but lived on temporal dispositions in extrication in contradiction to such philosophies, and what is the very relevance of such temporal enculturation and endemisation to present-day social and institutional failures in society? And what\textapos;s the role of \textquotesingle intellectual irresponsibility\textquotesingle in all of this? From an intemporal hence ontological depth-of-meaningfulness, preceded\textendash supersedingly, \textquotesingle limited-mentation-capacity\textquotesingle (for intemporal-preservation-entropy-or-contiguity\textendash or\textendash ontological-preservation) is the reason for human registry-worldview/dimension\textsuperscript{75} perversion-of\textsuperscript{84} reference-of-thought\textsuperscript{97} as\textendash effectively\textendash apriorising-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > defect at uninstitutionalised-threshold\textsuperscript{103}; implying that \textquotesingle ontological-normalcy/postconvergence\textquotesingle is actually for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity\textendash or\textendash ontological-preservation beyond the defective \textquotemdash intradimensional-subknowledging\textsuperscript{95}-normalcy or reflex-normalcy\textquotemdash which is rather an \textendash amplituding/formative-epistemicity\textendash totalising\textendash self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} (illusion-of-the-present/present-consciousness) inclination to overlook/aside the notion of
prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity at its own
(limited-mentation-capacity-threshold) uninstitutionalised-threshold though it will obviously
and paradoxically recognise the need of prior registry-worldviews/dimensions to transcend (just
as by reflex from our perspective we will recognise such a need for base-institutionalisation
over recurrent-utter-uninstitutionalisation, universalisation over ununiversalisation,
positivism over non-positivism/medievalism but hardly prospectively the notion that our
dimension has an uninstitutionalised-threshold like procrypticism–or–disjointedness-as-of-
reference-of-thought with the need for prospective transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity as deprocrypticism). However, as
previously indicated such an insight can only be garnered, beyond our illusion-of-the-
present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage as all
registry-worldviews/dimensions wrongfully imply, given that ‘doppler-thinking’ wherein our
registry-worldview/dimension isn’t the absolute reference of meaningfulness (which is rather
an intradimensional-subknowledging-normalcy in lieu of the ‘ontological-
normalcy/postconvergence’ as that which allows for prospective-transcendence-in-perpetually-
upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). It is
this ‘ontological-normalcy/postconvergence’ that reflects/perspectivates perversion-of-

defect as de-mentation (supererogatory–ontological–de-
mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) as against the
defective reflex-normalcy/intradimensional subknowledging -normalcy that wrongfully
represent it as straightness/candored-and-dialectically-or-contendingly-in-phase. Thus the
general notion of an intemporal/ontological resolution of perversion-of-
reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation is more than just the instigating effect of the subknowledging.
impulse/compulsive-dementing\textsuperscript{19} (psychopathic postlogism\textsuperscript{73} in hollow-constituting-\textless as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation\textgreater) but harkens back to the notion of the intraregistry-worldview/dimension limited-mentation-capacity/uninstitutionalised-threshold\textsuperscript{92} in the very first place. As this is the preconverging–dementating/structuring/paradigming disposition for the possibility of perversion-of\textsuperscript{75} reference-of-thought\textless as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textgreater thus requiring ontological-normalcy/postconvergence epistemic-projection as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. For instance, such perversion-of\textsuperscript{75} reference-of-thought\textless as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textgreater as witchcraft in the non-positivism/medievalism registry-worldview/dimension is fundamentally implying de-mentatively/structurally/paradigmatically a need for the right human mentation-capacity as the prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of a positivistic registry-worldview/dimension, and likewise de-mentatively/structurally/paradigmatically regarding procrypticism–or–disjointedness-as-of\textsuperscript{84} reference-of-thought with notional–deprocrypticism (as the Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework\textsuperscript{73} and not good-natured/vague-impress construct). Ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, beyond defective intradimensional-subknowledging\textsuperscript{92}-normalcy/reflex-normalcy, points to factoring in notional–firstnaturesness—temporal-to-intemporal-dispositions–\textless so-construed-as-from-perspective–ontological-normalcy/postconvergence\textgreater disambiguation as ‘knowledge-notionalisation’ to avoid wrongfully operating/processing of logic by the reference of the intemporal-disposition \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-
teleology\textsuperscript{100}, for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation which is ontological (as it is in sync with intrinsic-reality/veridicality), where dealing effectively rather with temporal-dispositions. Knowledge-notionalisation factors in how temporal-dispositions relate to intemporal-preservation-entropy-or-contiguity-or-ontological-preservation at uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation (intradimensional-subknowledging -normalcy/reflex-normalcy) and at institutionalised/intemporalised-thresholds (ontological-normalcy/postconvergence). It should be noted that the peculiarity for achieving all the institutional-cumulation/institutional-recomposure-\{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>\} is about bringing the prior registry-worldview/dimension perversion-of reference-of-thought\textsuperscript{8} as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > to its placeholder-setup/mental-devising-representation/mentation/(recomposured)-consciousness-awareness-teleology\textsuperscript{100} awareness for the collective-mind to psychoanalytically-unshackle/memetically-reorder/institutionally-recomposure, and thus take-stock-and-supersede/transcend its limited-mentation-capacity-deepening\textsuperscript{53}-threshold (uninstitutionalised-threshold\textsuperscript{105}). This is brought to the collective-consciousness so that with regards to social-stake-contention-or-confliction-and-confliction it renews its psychoanalytic-equilibrium, as the latest ‘capacity boost’ with respect to what is the grander individual-and-social good as positive-opportunism\textsuperscript{7}. For instance, achieving base-institutionalisation requires that it should be brought to the collective-consciousness that it is ‘perilous to survival-and-flourishing’ to remain recurrently-uninstitutionalised for the grander individual-and-social good as positive-opportunism\textsuperscript{7}. Once this enters the collective-consciousness this leads to an inclination for a renewed psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring wherein recurrent-utter-uninstitutionalisation registry-worldview then becomes preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, as it is recurrently-uninstitutionalised, as the backdrop for the straightness/candoring-and-dialectically-in-phasing of base-institutionalisation registry-worldview. This is relatively direct by the existential implications to survival-and-flourishing with the lower institutional-cumulation/institutional-recomposure—historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism of base-institutionalisation, universalisation and positivism. For deprocrypticism, an even stronger emphasis has to be placed on the abstract percolation-channelling—in-deferential-formalisation-transference as setup from positive-opportunism for survival-and-flourishing, just as with the positivistic registry-worldview which as well is relatively deferential with percolation-channelling—in-deferential-formalisation-transference (undermining amplituding/formative wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications) or banality-of-thought) to formalised deference like the higher developed legal system involving lesser possibility for mob-and-disparate-justice as with the lower institutional-cumulation/institutional-recomposure—historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism, grander subject-matter expertise and lesser hearsays-and-vague-opinions limiting the ambit of the influence of the extended-informality—susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness—to—meaningfulness-and-teleology; all geared to discriminate for supersedingness of the intemporal-disposition (longness-of-register-of—meaningfulness-and-
teleology\textsuperscript{(10)} over temporal-dispositions (shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{(10)}) as percolation-channelling-<in-deferential-formalisation-transference> not only in the present but prospectively. In other words, higher institutionalisations imply greater ‘deferential-formalisation-transference’ wherein the ambits of the extended-informality\textsuperscript{(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology)} with regards to meaningfulness shrinks as formal conceptualisations extend the intemporal-skewing (‘intemporality\textsuperscript{-asymmetric-subsumption-of-temporality}’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) and deferential model for construing meaningfulness. For instance, many a subject matter domain like meaning about the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially in deference to abstract intemporal-disposition teleological conceptualisation voiding social temporal-dispositions teleological dispositions. The reason is simple formal settings use the-Good/understanding/knowledge-reification /ontological-prime movers-totalitative-framework to construe knowledge and virtue conceptualisations as this is what proxies-syncs-with intrinsic-reality and hence their effective potency while on the other hand informal settings tend more to impression-driven/good-naturedness/wishfulness conceptualisations which may sound appropriate in their <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag but are often defective by lack of universality, not ontologically-driven in terms—as-of-axiomatic-construct of understanding and often with temporal/immediate interests/shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{(10)}. In this light, the articulation of the ontological-veridicality/reference-of-thought of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological—
The idea of limited-mentation-capacity-deepening (for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) fundamentally implies that reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are limited at the uninstitutionalised-threshold of the specific registry-worldview’s/dimension’s institutionalisation they enable, and are not absolute with respect to the perpetuation of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-normalcy/postconvergence and thus need to be cumulated-upon (or rather more precisely be recomposured institutionally), wherein new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation allow for the furtherance of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. The positivistic institutionalisation reflex disposition is to imply only a human intemporal-disposition/ontological-disposition, thus wrongfully elevating issues of temporal-dispositions perversion-of-reference-of-thought as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as being issues of intemporal-disposition/ontological-dispositions and thus wrongfully implying their ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective) rather than rightfully their notional-discontiguity/epistemic-discontiguity <<shallow-supererogation of mentally-aestheticised–preconverging/dementing –qualia-schema>>/non-ontological-and-non-contending-referencing<<thus-ontologically-or-contendingly-reflected-or-perspectivated-as-of-preconverging-or-dementing apriorising-psychologism> (not-veridical-thinking-reference-rather-preconverging-or-dementing –reference), and thus wrongly engaging in logical contentions instead of reflecting/perspectivating/highlighting (reasoning-through-and-not-

conceptualisation to the collective-consciousness for the necessary psychoanalytic-unshackling/memetic-reordering/institutional-recomposing that should enable the superseding/transcending of the enculturating/endemising vices-and-impediments together with the inhibiting effect on human emancipation potential associated with procrusticism. To further elucidate, let’s explore again the Arithmetic ontological-contiguity comparison highlighted previously wherein character A had a condition whereby its results of additionality were systematically incremented by 1, its’s subknowledging-impulse/compulsive-dementing highlighting an uninstitutionalised-threshold where the other characters wrongly calculated the result (the ontological-veridicality) failing/not-upholding-ontological-normalcy/postconvergence as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, as actually intemporal-preservation-entropy-or-contiguity–or–ontological-preservation supersedes the mere–categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the latter’s pertinence is rather about and subsumed as a mentation capacity to uphold the former. The bigger issue with regards to all the BODMAS characters is with respect to the limits of their reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which are readily predisposed to such perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and subknowledging-impulse/compulsive-dementing whether by character A or any other character rather than just the fact that the condition (psychopathic postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation for instance) is the causative factor of their failure to in
ontological-normalcy/postconvergence ensure intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In any case the de-mentative/structural/paradigmatic resolution is with regards to the implications of metaphorically-a-million-and-one-instances-and-locale of perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in the given registry-worldview/dimension as an aetiologisation/ontological-escalation (as notional~firstnaturedness—temporal-to-intemporal-dispositions<<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuations predictable and determinable teleologies). That is, fundamentally the appropriate conceptualisation of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is structurally-speaking about perpetually ensuring intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the superseding/preceding notion (i.e. ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). In this regard, we may easily construe the fundamental defects-of–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as these enable perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein successive institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism> are analogical to various defective instances in operating the BODMAS equation. That is, while the condition/subknowledging–impulse/compulsive-dementing with A’s additionality results are wrongly incremented by 1, leading to the uninstitutionalised-threshold to be rightfully
corrected with new reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involving subtracting 1; the defect of a second registry-worldview/dimension may involve subtracting 1 from the result of S as a condition/subknowledging-impulse/compulsive-dementing of S, requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation correction of the BODMAS characters as with the first registry-worldview/dimension to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Likewise, a third and fourth registry-worldview/dimensions defects could involve respectively a subknowledging-impulse/compulsive-dementing/condition of M wherein the latter wrongly adds 1 to a multiplier before multiplying and a subknowledging-impulse/compulsive-dementing/condition of D wherein D wrongly subtract 1 to a divisor before dividing, with these two latter registry-worldviews/dimensions equally requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation adjustment of the BODMAS characters as with the first and second registry-worldviews/dimensions to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Ultimately, a notional–deprocrypticism construal of the institutionalisation/intemporalisation process aiming to perpetually sync reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ontological-normalcy/postconvergence, is one that will bring to the mental-devising-representation, the BODMAS characters potential temporal-dispositions to perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and subknowledging-impulse/compulsive-dementing with the resultant
reordering/institutional-recomposuring. The implications for the science of psychology can thus be drawn out. The articulated notion of \( \text{de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics)} \) brings up the central conceptual role of psychology as about understanding human mental-devising-representation and the implications thereof. Central to this \( \text{de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics)} \) process is a dialectical exercise of stranding; either as mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase to imply a superseded/transcended/unsound registry-or-registry-worldview/dimension or as mentally straight/candored-and-dialectically-or-contendingly-in-phase to imply a superseding/transcending/sound registry-or-registry-worldview. \( \text{de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics)} \) further implies that instead of a ‘conventioning influenced and driven’ more or less notational study of human psychological phenomena as is the case today; we can ‘think’ of psychology in \( \text{de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics)} \) terms of \( \text{de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics)} \) of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as-prospective reference-of-thought \( \text{de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics)} \) with respect to either mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase representation or mentally straight/candored-and-dialectically-or-contendingly-in-phase representation) as
‘directed’ simply by demonstrable ontological-veracity/ontological-relevance/reference-of-thought of transdimensional-meaningfulness–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument; leading to a psychological science which is more comprehensive, timeless and unbounded by its conceptualisation as it emphasises psychological-representation/mental-devising-representation as more ‘ontologically-driven/ontologised’ rather than ‘conventionally-driven/conventionalised’. In so doing, overriding and superseding the analyst illusion-of-the-present/epistemic-totalising ~self-referencing-syncretising/present-consciousness/mirage referring to the instance where the personhood-and-socialhood-formation intradimensional conventioning induces an ‘analytical-complex’ with respect to an ontologically veridical psychological-representation or mental-devising-representation. As implied psychological-representation/mental-devising-representation is then fundamentally determined by the depth/profoundness-of-ontological-veracity/depth/profoundness-of-ontological-reference of a given registry/registry-worldview-or-dimension as it upholds ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) over reflex-normalcy or intradimensional-subknowledging-normalcy. Ontological-normalcy/postconvergence appropriately points to the pertinence for ontological construal as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity/reification/superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for an appropriate de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) exercise wherein the reference-of-thought
('intemporal-prioritisation-of—reference-of-thought—as-conflatedness—or-ontological-reprojecting) is always a moving target (due to the institutionalisation/intemporalisation process) in need for prospective dialectical reconstitution (deconstruction), which then puts a science of psychology in phase with the dialectical development of ontological-depth/profoundness-of-reference in superseding relative-ontological-incompleteness-induced,–threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to—
dialectical moment or registry-worldview/dimension as intradimensionally set in stone and across all moments whereas an ontologically-driven psychology acknowledges and recomposes to the dialectical evolution of reference-of-thought for a comprehensive, appropriate and veridical de-mentation exercise. Such reference-of-thought of dialecticism registry-worldview-wise/dimension-wise (for de-mentation exercise in reflection/perspectivation of psychological-representation/mental-devising-representation) are the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> as recurrent-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism, positivism/procrypticism preconverging-or-dementing-apriorising-psychologism, and prospectively (critical for a prospective conceptualisation of psychology) perpetuation-of-deprocrypticism. This explains why this memetism/transdimensional-meaningfulness/suprastructural-meaningfulness psychology is a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ as it is driven/led by a reference to dialectical/ontological-veridicality (ontological-normalcy/postconvergence in successive ontological-normalcy/postconvergence/postdicatory ontological-reconstituting—as-to-conflatedness /deconstruction of dialectical existentialisms/full-depths-of-existential-implications as reference-of-thought, rather than intradimensional-subknowledging-normalcy or reflex-normalcy) for de-mentation exercise.
exercise in reflection/perspectivation of psychological-representation/mental-devising-representation, i.e. preconverging-or-dementing\textsuperscript{13}–apriorising-psychologism\textless stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase\textgreater{} for the dialectically-and-ontologically superseded/transcended/unsound registry/register-worldview-or-dimension, and postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism\textless stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase\textgreater{} for the dialectically-and-ontologically-superseding/transcending/sound registry/register-worldview-or-dimension. This ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is the foundation of a pure, emancipated and disinhibited psychology (both registry-and-registry-worldview-wise) as such a psychology is grounded exclusively on ontologically demonstrable references of the veridicality of registries and registry-worldviews successive existentialisms/full-depths-of-existential-implications, and the corresponding ontological veracities implied. Such a ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ contrasts with a ‘mented’ or ‘stigmatic’ psychology of weak memetism/transdimensional-meaningfulness-suprastructural-meaningfulness reference-of-thought for the simple reason that it is not founded on a pure dialecticism of ontological/dialectical-referencing but rather on intradimensional conventionalised referencing which wrongly hardly proxies the veridicality of ontological-normality/postconvergence or construe a dialectical-reference/ontological-reference for ‘de-mentation\textsuperscript{8} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of ‘reference-of-thought’ of psychological-representation/mental-devising-representation at uninstitutionalised-threshold\textsuperscript{103}. Thus it mental-devising-representation is stigmatic or mented (set-in-place-or-a-period) as of preconverging-or-
dementing\textsuperscript{19}–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> for the conventioning-superseded/transcended/unsound registry/registry-worldview-or-dimension, and postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> for the conventioning-superseding/transcending/sound registry/registry-worldview-or-dimension. This will explain in many ways the more or less fitful development of modern-day psychology, more or less ‘uncertain of the ontological/dialectical pertinence of temporal-as-out-of-phasing-representation’ (in reflecting preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism) thus undermining its ontological-referencing veracity/ontological-pertinence with respect to an ‘\textsuperscript{14}de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of ‘reference-of-thought’ exercise of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements in ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-to-conflatedness\textsuperscript{22} as dialectical transformation as-prospective ‘reference-of-thought. A dialectical ontological-reconstituting—as-to-conflatedness\textsuperscript{17}/deconstruction of ‘reference-of-thought (recognising human limited-mentation-capacity-deepening\textsuperscript{23} and the need to re-institutionalised/re-intemporalised resulting in the subsequent institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness }/ontological-aesthetic-tracing<{perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’}> as articulated above is not only the basis for memetism/transdimensional-meaningfulness/suprastructural-meaningfulness, but as well for avoiding what can be termed as the ‘ontological-circularity’ of modern-day psychology. Such ontological-circularities are engrained in all registry-worldviews/dimensions
wherein the naïve pretence for a quest for deeper ontological-veridicality is rather just
syncretic/circular and hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-
and-failing-intemporal-preservation-as fundamentally the reference-of-thought–categorical-
imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–
or-ontological-preservation of the said registry-worldview/dimension are at a dead-end with a
de-mentative/structural/paradigmatic impossibility for a critical breakthrough just by the mere
fact that the registry-worldview/dimension has attained its mentation-capacity-limitation or
uninstitutionalised-threshold (as the nature of intrinsic-reality with respect to the human
psyche is ontological-normalcy/postconvergence or inherently preceding or inherently
superseding as it doesn’t change an iota, and it is the human psyche that gives-in in its mental-
devising-representation to conform to intrinsic-reality). With such naïve efforts to keep up and
develop profound meaningfulness based on the same registry-worldview’s/dimension’s
institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology mostly a dead-end. Such ontological-circularities will include for instance the dead-end of
medieval alchemy preconverging–de-mentating/structuring/paradigming with respect to
positivistic chemistry postconverging–de-mentating/structuring/paradigming, a flat-world
preconverging–de-mentating/structuring/paradigming with respect to a round world
postconverging–de-mentating/structuring/paradigming, a creationism preconverging–de-

mentating/structuring/paradigming, a science postconverging–de-
mentating/structuring/paradigming with respect to a superstition preconverging–de-
mentating/structuring/paradigming, etc. Naivety will be to think that issues of ontological-
circularity in our present positivistic meaningfulness (for transcending beyond our vices-and-
impediments and overcoming inherent inhibitions to human emancipation) are not in veridicality about a need for a shift in prospective postconverging-de-mentating/structuring/paradigming. This brings forward fundamentally the limited-mentation-capacity/uninstitutionalised-threshold(33) construct of our times (procripticism) and the dementative/structural/paradigmatic implications specifically for such a ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ (as highlighted) over a relatively mented-psychology/stigmatic-psychology. What this reveals is that reality is ‘not a human mental-devising-representation processing exercise’; rather it is an intrinsic ontological-normalcy/postconvergence notion that doesn’t respond to human mental-devising-representation processing. The role of (de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as a mental-devising-representation mechanism that syncs with evolving ontological insight (insight about intrinsic reality) as ontological-normalcy/postconvergence is to reflect/perspectivate the dialectically-or-contendingly-out-of-phase or dialectical-primitivity at the very limit of the capability as its mental-devising-representation of a registry-worldview/dimension (uninstitutionalised-threshold(33)), which otherwise any <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag(33) registry-worldview will overlook as it is a <amplituding/formative> wooden-language(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void ’—with-regards-to—prospective-apriorising-implications>) that is exclusively operant and deterministic only to its very own (reference-of-thought—categorical-imperatives/axioms/registry-teleology(30), for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and is not tied to intrinsic-reality but rather pertinent only for when it proxies intrinsic-reality. It is only (de-
mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) that can create the foundation for a new mentation (unshackle it psychoanalytically/memetically/meaningfully reorder it/recompose it) to in ontological-normalcy/postconvergence come into grips with a more profound ontological-veridicality as a new reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) for a new existentialism/full-depth-of-existential-implications meaningfulness and thought. This insight about the intrinsic-nature-of-reality/intrinsic-reality is critical and central to understanding how ‘knowledge-deadend—de-mentating/structuring/paradigming’ can be overcome superseded. Supposed B was to stick to resolving the BODMAS equation overlooking A’s condition on the basis that the reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are set and given, whether these uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or not (which is what ensures proxying to intrinsic-reality), and further that the other BODMAS characters will do likewise anyway, this doesn’t in any way transform the ontological-normalcy/postconvergence ontological-veridicality/intrinsic-reality from to. Such a wrong disposition rather points aetiological for the need (in ontological-escalation) of an de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) of the BODMAS characters at that uninstitutionalised-threshold. In the bigger picture, ‘knowledge-deadends—preconverging–de-mentating/structuring/paradigming’ (to varying degrees of pertinence) are often the explanation of underlying social issues and problems more than just about limited human ability or insufficiently directed effort towards the resolution of such issues and problems on the basis of present preconverging–de-mentating/structuring/paradigming. It is inevitable that emancipation from such knowledge-deadends—preconverging–de-mentating/structuring/paradigming will always require that the would-be intellectual-analyst or
intellectual-analysts ‘blunt it’ (just as intrinsic-reality is uncompromisingly blunt) to the totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage registry-worldview/dimension that what is fundamentally needed is a postconverging–de-mentating/structuring/paradigming–shift. Much like observation and a rational interpretation of nature trumps dogma as with Galileo’s heliocentric argument for instance, this author holds that a fundamental decomplexifying/uninhibiting of our own (procripticism or preconverging-or-dementing–apriorising-psychologism/subknowledging/perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation) of positivistic meaningfulness) psyche as being ontologically-preconverging-or-dementing–apriorising-psychologism/dialectically-preconverging-or-dementing–apriorising-psychologism from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocripticism as reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) opens up a new world of transcendental possibilities (wherein a comprehensive insight for addressing psychopathy and social psychopathy and other implied epiphenomena/incidental-phenomena equally lies, and critically so since the fundamental argument for a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ has to do with the foundational nature of mental-devising-representation/mentation/recomposured-consciousness-awareness-teleology in the construction of all knowledge) at our positivistic meaningfulness uninstitutionalised-threshold, much the same way like a positivistic world opened up from the de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) of a non-positivism/medievalism registry-worldview/dimension at its uninstitutionalised-threshold. To further elucidate the criticality
as indicated of such a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as indicated with respect to a ‘mented’ or ‘stigmatic’ psychology can be further reemphasised clearly as such; a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that is being ontologically-driven or led by ontological-veridicality when it comes to mental-devising-representation by strictly adhering to the 14 de-mentation—(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of 14 de-mentation—(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). In other words, it overrides the mented/stigmatic intradimensional meaningfulness mental-devising-representation and enables a transdimensional-meaningfulness mental-devising-representation, wherein a mented/stigmatic mentation 14 de-mentation—(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) in reflecting soundness-or-ontological-good-faith/authenticity of reference-of-thought/apriorising–registry-soundness and unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > (respectively postconverging-or-dialectical-thinking—apriorising-psychologism—<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> and preconverging-or-dementing—apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>) is stranded to the ‘conventionalised institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ whether such a threshold is the ‘appropriate basis for reference-of-thought or not and subsequent ontological-veridicality/ontological-contiguity or not, as it is limited to what is the convention thus hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> with the
result that mented/stigmatic psychology is limited to hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation-human-intradimensional-conventioning-reference-of-thought-categorical-imperatives/axioms/registry-teleology-as-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation, with no prospective/transcending/superseding possibility. For instance, we can project insightfully that a mented/stigmatic mental-disposition in a non-positivism/medievalism setup in an impression-driven/good-naturedness/wishfulness-disposition but hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation(failing/not-upholding-as-of-apriorising/axiomatising/referencing)-reference-of-thought-categorical-imperatives/axioms/registry-teleology-as-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation) will raise an issue of say sorcery in terms-as-of-axiomatic-construct of who is the sorcerer or sorcerers among us, how should sorcery be stopped and prevented in the community in its preconverging-de-mentating/structuring/paradigming, and not in a prospective positivistic postconverging-de-mentating/structuring/paradigming that is more ontologically-veridical, putting in question the veracity/ontological-pertinence of the non-positivism/medievalism conventioning notion of sorcery, however ‘good-natured’/impression-driven, while raising the positivistic the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework of a positivising/rational-empiricism-reference-of-thought. Such an insight prospectively will involve putting into question naïve and ever evolving constructs in our modern-day mented/stigmatic psychology science like personality disorders on the fundamental argument regarding the relatively poor insight about the requisite-reference-of-thought to be established in the first place before then qualifying personalities with respect to such a philosophically and insightfully soundly established-reference-of-thought, and not just naïve assumptions whether on the basis of
popular axioms, vagueness and personal however well-meaning; with the idea of meaningfulness that goes beyond just a conventioning reference-of-thought and is rather inherently upheld by ontologically-veridical insight and pertinence. Further, such a ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ that is ontologically-driven will go beyond an exercise of mented/stigmatic phenotypes driven abstractly as inherent-personalities nature and in given settings-of-time, but grasp that human personality is critically involved in the de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) hermeneutically/reprojectively/supererogatingly/zeroingly-educing-human–meaningfulness-and-teleology–into-the-existentialism-becoming of personhoods-and-socialhood-formation as so-reflecting ontological-reconstituting–as-to-conflatedness /deconstruction as the more profound reference-of-thought and analysis, and with a more fundamental interdimensional/transdimensional/transcendental insight of the human existentialism form-factor. In this regard, it is the opinion of this author that many construed personality disorders that do not involve social deviances or not of physiological nature are actually adaptations at one time or the other in an ever-changing-and-challenging-construct that individuals make of a ‘wanting and developing social world with its stakes and confliction’, and it would rather be better to articulate personality as driven by a pertinence of being/ontological-extension-into-existentialism-or-full-depth-of-existential-implications with respect to such ‘a challenging and developing social world with its stakes and conflictions’ in the first place, otherwise we are just affirming arbitrary social classification schemes and not really involved in the requisite postconverging–de-mentating/structuring/paradigming shifts; and such could further be grasped regarding specifically how many an experimental psychology schemes ‘desperately’ striving to draw social-world level conclusions can’t seem to supersede the modesty of schemes that it is just too farfetched and synoptically-limiting, thus trending
more towards the defect of apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness\textsuperscript{11} in lieu of apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflicatedness\textsuperscript{12} as articulated by this author. Foucault had qualified the current focus on abnormal psychology as tending more to an ‘economic’ practice. What about the notion of de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as the ‘surreptitious driving mechanism of human mental-devising-representation or mentation’ that fully encapsulates and explains human psychological development across all the times and the successive institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>\textsuperscript{13} of human existential emanance, and so as an articulation that is retrospectively, presently and prospectively coherent? Given the fact that de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) very much explains human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as the recurrent ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of an animal of limited-mentation-capacity-deepening\textsuperscript{14}. Such a ‘postconverging-or-dialectical-thinking –apriorising-psychologism’ psychology driven by ontology or rather ontological-normalcy/postconvergence will be postdictatory, with the implications that this will fully focus the ‘kernels of postmodernism’ to usher in Suprastructuralism as an Age where humankind comes to grasp that its-meaningfulness-withrespect-to-intrinsic-reality as reflected by the successive institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> has
been progressing (more and more realistically) by successive suprastructuring of prior/transcended/superseded registry-worldviews ‘beyond their successive corresponding recomposured-consciousness-awareness-teleology’, and introducing the veridical meaningful-frame/worldview of postmodernity with regards not only to the present but the

\[\textbf{amplituding-formative-epistemicity}\] totalising–renewing-realisation/re-perception/re-thought past and future, with the insight that our present recomposured-placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of the positivism–procrypticism registry-worldview will be subjected to this suprastructuring-meaningfulness nature of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor as well. In fact the underlying difficulty of deconstruction when extended from its ‘textual basis’ to its ‘full meaningfulness basis’ as ‘ontological-reconstituting–as-to-conflatedness’, has to do with the fact that the full implications of ‘ontological-reconstituting–as-to-conflatedness’/deconstruction is that it prospectively calls for suprastructuring or construal beyond-the-consciousness-awareness-teleology of prior registry-worldview mindset/reference-of-thought (and so as a conception that enables opening-up/making-available the prospective registry-worldview), as implied by the veracity/ontological-pertinence of ‘de-mentation’ (supererogatory–ontological–de-mentation–or-dialectical–de-mentation–stranding-or-attributive-dialectics) of ‘reference-of-thought’ as the underlying human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology driving mechanism. Considering that deconstruction as ‘ontological-reconstituting–as-to-conflatedness’ necessarily implies not one but two dialectically opposed registries/meaningful-
references/anchorings-of-meaning/ontological-references/contending-references/registry-worldviews of meaningfulness; with the implication that the prospective/transcending/superseding is suprastructural to (beyond-the-consciousness-awareness-teleology\textsuperscript{[19]}-\textless in-existential-extrication-as-of-existential-unthought\textrangle-of) the prior/transcended/superseded, and so as a deeper superseding–oneness-of-ontology construal/conceptualisation. The fact is that without the notion of suprastructuring, the exercise of\textsuperscript{de-mentation}(supererogatory-ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) will wrongly imply that the ‘postconverging-or-dialectical-thinking’–apriorising-psychologism’ and the preconverging-or-dementing–apriorising-psychologism are of the same reference-of-thought of meaningfulness (which is obviously wrong), and is the effect of the illusion-of-the-present/present-consciousness/mirage as we recognise this fact from a vantage perspective to the prior (utter-uninstitutionalisation, base-institutionalisation, universalisation) but have ‘a complex’ recognising such a fact at a disadvantaged positivistic/procrypticism perspective with respect to the prospective (deprocrypticism), just as all institutionalisations tend to demonstrate when their own transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is implied, and certainly so the higher the institutionalisation as the mindset/ reference-of-thought is increasingly set to ‘relate to its institutionalised secondnatured construct as being our very own individuals essential dimensionality-of-sublimating\textsuperscript{(supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation)} and not a secondnatured construct’, and thus perceived as beyond or almost beyond analysis due to the implied temporal alienating effect on us (but then it is the human psyche that gives-in to
intrinsic-reality/ontological-veridicality, as the foremost rule of humanity’s existential strive). Suprastructuring allows for the necessary transcendental-insight-projection-capacities for grasping the evasive Derridean conceptualisation of ‘metaphysics-of-absence’{implicited-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} projection/postdication in overcoming the illusion-of-the-present/present-consciousness/mirages <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as ‘metaphysics-of-presence’{implicited- nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness ’}. Suprastructuring boldly answers the underlying issue involved with ‘communicating the true implications of deconstruction as ontological-reconstituting–as-to-conflatedness’ by highlighting the paradox that it is all about ‘articulating a conceptualisation which involves implying that the ‘reference-of-thought and meaningfulness of the seemingly ‘reference-of-thought is unsound and needs to be superseded’. It is rather about in the very first instance putting into question a given ‘reference-of-thought and projecting the appropriate ‘reference-of-thought, before even proceeding to articulate more specifically meaningfulness within the projected ‘reference-of-thought. This is akin to the idea of a positivistic mindset/’reference-of-thought articulating chemistry rules and principles to an alchemic mindset/’reference-of-thought for the latter’s validation, requiring the latter to adopt a positivistic mindset/’reference-of-thought in the very first place before issues of substantive pertinence about chemistry rule and principles are raised within their now mutually positivistic mindsets. Such an exercise requires a highly uninhibited/decomplexified human frame of mind. This may sound rather farfetched as a notion but it is important to remember that the positivistic mindset/’reference-of-thought itself is the outcome of the décomplexing/uninhibiting of the human mind from earlier successive institutionalisations. Such an exercise is necessarily about psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the positivistic/pro cryptic
reference-of-thought of meaningfulness-and-teleology\textsuperscript{100} in the middle to long run construed as of \textnormal{de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics)} with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of prospective deprocrypticism; and with regards to Suprastructuralism as a notion, the implication is that this is a requisite idea that has to come to the collective consciousness (not just unconsciously as with prior institutionalisations, for instance the fact that notions of superstition are false had to be consciously brought up to the attention/consciousness-awareness-teleology\textsuperscript{100} of a non-positivism/medievalism mindset/reference-of-thought for it to effectively undergo the necessary ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring by acting as the conscious backdrop that engenders prospectively a positivistic mindset) for human emancipation into a notional–deprocrypticism mindset; as with all psychoanalytic exercise whether of an individual or social conceptualisation nature, the idea of recognising/referencing/registering/decisioning the ontological-deficiency with respect to ontological-normalcy/postconvergence is central to superseding it. ‘Suprastructuring as such overcomes the ‘natural human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} reflex’ (in any registry-worldview/dimension) of ‘striving to avert preconverging-or-dementing–apriorising-psychologism mental-devising-representation/mentation’ (whether such averting is ontologically-veridical or not) and so by a mistaken reflex to preserve a wooden-language–\text{imbuéd—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology–as-of–nondescript/ignorable–void’–with-regards-to-prospective-apriorising-implications)} of
placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality (but which closure makes its representation of intrinsic-reality inherently incomplete and biased towards the illusion-of-the-present/present-consciousness/mirages totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its given registry-worldview metaphysics-of-presence-implicited-'nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness ), by effectively taking full cognisance of the fact that de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} is the driving mechanism of human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality and thus construe an opened-construct incorporating transcendental-insight-projection-capacities that enable the relative construal of the ‘postconverging-or-dialectical-thinking—apriorising-psychologism’ and the preconverging-or-dementing—apriorising-psychologism ‘ de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} of ‘reference-of-thought’, and so expanding the potency in construing a much more exact/thorough notion of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality and thus for ‘ontological-reconstituting—as-to-conflicatedness’/deconstruction. In other words, in representing the veridically uninhibited/decomplexified nature of ‘de-mentation—{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} of ‘reference-of-thought’ that is not limited by the illusion-of-the-present/present-consciousness/mirages totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of any registry-worldview/dimension and so at the deeper memetic/psychoanalytic level, suprastructuring as such reveals that ‘human psychology is very much an active construct associated with

‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—as-of-the-human-institutionalisation-process[16] as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing—as-veridical-epistemic-determinism-amplituding/formative–epistemicity–causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity’ in the reflection as placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology[100] of retrospective, present and prospective institutionalisations in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—as-of-the-human-institutionalisation-process points-of-reference, with the truer nature and representation of human psychology ultimately tied-to/driven-by ontological-normalcy/postconvergence-construct’. Insightfully, just as highlighted later that existence-defines/precedes-essence, ideally the construction of psychology needs to be priorly subjected to ‘a becoming that defines psychology with its veracity/ontological-pertinence arising in the ontological-reconstituting—as-to-conflatedness of that existential becoming’. Is our understanding of psychology notionally complete when we can’t seem to understand what happens in apparently mentally sound minds partaking in ‘socially degraded’ situations like murky human interest stories, mobs, genocides and even ‘the conventional acceptance and numbness to mass casualty warfare’. In other words, in the first place what is ‘ontologically normal’ beyond the subjective conventioning of the psychology science (before even worrying about the abnormal)? Further isn’t it possible to make the contribution of modern-day psychology more complete in constructing a more thorough and dynamic understanding of mentation/psyche in relation to individual-social-humanity aspiration, where psychology evolves in a complete existentialism cadre. In other words, so placed in a becoming/existential
cadre, is psychology not meant rather than just encapsulating what the human psyche/mentation is all about as if it is a set and determinate construct (strangely enough inadvertently and often mirroring schemes of social classification, and hence of social power relations) equally involve in articulating aspiratory models for human mentation/psyche? And such a postconverging–dementating/structuring/paradigming shift with regards to modern-day mented/stigmatic psychology can actually be implied by prospective ontological-normalcy/postconvergence as notional–deprocrypticism (involving ‘ontologically-reconstituting/deconstruction’ in upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by ‘overriding failing/not-upholding--<as-of-apriorising/axiomatising/referencing> and renewing ever sound and appropriate’ 84-reference-of-thought– categorical-imperatives/axioms/registry-teleology 100,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’) over the ‘conventioningly-driven/conventionalised hollow-constituting--<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> 84-reference-of-thought– categorical-imperatives/axioms/registry-teleology 100,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether the latter is failing/not-upholding--<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Insight from ontological-normalcy/postconvergence as it matches placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology 100 to ontological-veridicality (notwithstanding that this undermines habituated conventionalised mented/stigmatic placeholder-setup/mental-devising-representation/mentation) representing all the institutionalisations in a dialectical moment of appropriateness-of--84-reference-of-thought-as-of-conflatedness 2 and thus mentally-straight/candored-and-dialectically-in-phase as simply involving the technique of a ‘prelogic/conviction-as-to-profound-supererogation’ 97 placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology 100 teleological alignment reflex’ to
of ontological-reconstituting–as-to-conflatedness /deconstruction and point out their peculiar

mental-devising-representations a circular preconverging-or-dementing temporal-
manifestation (subontologisation/subpotentiation (in-a-social-dynamism-of-meaningfulness-
misappropriation) of slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag,
unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-
rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-
enculturation/temporal-endemisation effect. In the bigger picture, actually the fact is that the
various institutionalisations/institutional-cumulation/institutional-recomposure (as-to-
historiality/ontological-eventfulness /ontological-aesthetic-tracing perspective–ontological-
ormalcy/postconvergence-reflected ‘epistemicity-relativism’) are actually the levels at which
their specific quality (whether as base-institutionalisation, universalisation, positivism and
prospectively deprocrypticism) actively and comprehensively define and characterise each of
the institutionalisations while bringing the notion to the collective-consciousness/personhoods-
and-socialhood-formation successive existentialisms/full-depths-of-existential-implications.
But then, such notions which can be weakly sensed in all prior institutionalisations are actually
inconspicuously, selectively and occasionally introduced in the prior institutionalisation in
graduated/staggered stages starting with the proto-prospective-institutionalisation right up to the
prospective-institutionalisation; whether as proto-base-institutionalisation in recurrent-utter-
uninstitutionalisation up to the graduated/staggered attainment of base-institutionalisation,
proto-universalisation in base-institutionalisation–ununiversalisation up to the graduated/staggered attainment of universalisation, proto-positivism in universalisation–non-positivism/medievalism up to the graduated/staggered attainment of positivism, and
effectively by a prospective insight, proto-notional–deprocrypticism in positivism–
procrypticism. For instance, many an alchemist in the medieval world were actually very
thorough and methodical in their pursuit with skills that could be qualified as ‘rudimentary
positivistic’. However, the fact that fundamentally their preconverging–de-
mentating/structuring/paradigming was a dead-end like the pursuit of the philosopher’s stone
and the implications of not having an outright positivistic outlook/ideology is what mostly
distinguishes them from the complexion of ‘true positivists’. Likewise, the ordinary practices in
the positivistic world of deontological and jurisprudential nature, in disparate formal constructs
and settings mostly, are mostly geared to carry abstract and coherent universal virtue
implications with respect to all humans as the-Good/understanding-driven formal principles
constructs, however approximate their applicative success (a principle is a notion that can
coherently uphold itself, i.e. a principle is a notion that warrants that all persons covered by its
ambit act the same way or are subjected to it in the same way, and not disparately, and it carries
universal import; the opposite of ‘inductive limitation’ or ‘so-called principles’ that are
actually fallacious since such arguments cannot truly be of entailing–as they require that others do not
act likewise or their implications should be limited to given target(s) and not be totalisingly-
entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but
speak more of a temporal motive). But behind that pursuit is a covert admittance that without
the deontology and jurisprudence and the corresponding induced culture as artifices (however
approximate their applicative success) humans in their social dynamics do not have the inherent
exclusiveness of intemporal-disposition quality to
ecstatically/spontaneously/solipsistically/emanantly/becomingly adhere to
intemporal/universal notions on the mere basis of ‘preaching’ the intemporal/universal notions and virtues (as the-Good/understanding/knowledge-reification/ontological-
primemovers-totalitative-framework) without institutionalisation design or conceptualisation!
This is an unspoken recognition of the inherent reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnatedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor individuations nature, and the need to skew/design/institutionalise/intemporalise ‘the social’ for the primacy of the intemporal-disposition individuation, as secondnaturing. This is equally an unspoken insight not only to modern institutionalised/intemporalised-thresholds-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation conceptualisation of the-Good (positivistic ontological-primemovers-totalitative-framework). Such an insight is equally implied in prior institutionalisations of the-Good conceptualisations wherein for instance the prophetic philosopher using the prophecy tools of their times, as the summum of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for the social criticism of their own times, won’t naively imply ‘I have preached to you thus you’ve attain the intemporal’, but rather construe insightfully of a practice (institutionalising practice) that cultivates a relative orientation towards the reinforcement of the intemporal, say like having the believers follow a whole routine from their expression of faith, praying in conscious reinforcement, to a way of living, however approximate in its applicative success in inducing an intemporal inclination. Positivistic secondnaturing of disparate frameworks of deontologies, constitutions and jurisprudence and the associated culture (as longness-of-register-of—meaningfulness-and-teleology) can be seen as proto-deprocrypticism, including their individual and social internalisation in the collective consciousness, and these unsurprisingly are the few elements in the sovereignty constructs of positivistic democracies with their constituent public or private organisations and associations as well as subject matters and specialisms, that are always ferociously, blindly and without further justification upheld by regulation and law and/or newer legitimately made regulation and law even against popular
worldview/dimension (which is prior) from the prospective registry-worldview/dimension (deprocrypticism) as the new reference-of-thought, which will seem unintelligible to the prior even though it is actually more real suprastructurally and in ontological-normalcy/postconvergence, just as our representation of medievalism though more ontologically-veridical will seem unintelligible/existentially-suprastructural to a medieval mindset/reference-of-thought in its closed mental-devising-representation of intrinsic-reality. Central to the notion of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought as the ‘veridical reference-of-thought’ articulation of (ontological-normalcy/postconvergence) as ontological-veridicality/ontological-contiguity as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation over the positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-reference-of-thought notional-discontiguity/epistemic-discontiguity,<shallow-supererogation> of-mentally-aestheticised—preconverging/dementing —qualia-schema> as of its perversion of reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and so in a prospective de-mentionation—<supererogatory—ontological—de-mentionation-or-dialectical—de-mentionation—stranding-or-attributive-dialectics> moment wherein ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (ontology) supersedes intradimensional-subknowledging-normalcy (temporal conventioning compromise). This dichotomy between conventioning and ontology is critical to understand human mentation development along the successive institutionalisations, as transcendental knowledge is by definition prospective and hence recognises the ontological limits/thresholds of conventioning as knowledge and virtue reference because to start with all conventioning institutionalisations are de-mentatively/structurally/paradigmatically in want of prospective transcendence-and-
sublimity/sublimation/suberogatory—de-mentativity whether as recurrent-utter-
institutionalised, ununiversalisation, non-positivism/medievalism or procrypticism in a
prospective insight. Conventioning as such could only prospectively reflect ‘sound 8 reference-
of-thought status’ when it prospectively coincides/proxies ontological-normalcy/prospective-
transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—
ontological-preservation; the holy grail of the notional—deprocrypticism institutionalisation
ideal. But actually a conventioning construct in contrast to attaining such a prospect of ‘utter-
purism-of-ontology’ rather tends to operate on the basis of least-acceptable-meaningfulness-or-
value-reference-denominator for that conventioning construct, and the latter is thus the
‘effective meaningfulness-or-value-reference’ of the said conventioning construct
notwithstanding any grander ontological meaningfulness-or-value-reference striving for utter-
purism-of-ontology. The implication here is effectively that grander ontological and
philosophical meaningfulness-or-value-references are no more pertinent in a conventioning
construct than its least acceptable meaningfulness-or-value-reference-denominator but for
discretionial or prestige basis of discretionial and disparate recognition, out of discretionary
formalisation in inducing the secondnaturing and internalisation for that recognition. This
insight is pertinent in that in the construct of ontology driven meaningfulness-and-value-
references of intellectual grounding (purism-of-ontology), it is important to grasp that the social
integration of meaningfulness-and-value-references in a conventioning construct is effectively a
least-acceptable-meaningfulness-or-value-reference-denominator-driven dynamism, and that it
is by an effective utilisation of the institutionalisation percolation-channelling—<in-deferential-
formalisation-transference> mechanism that such ‘purism-of-ontology’, by it’s the-Good, can
stand out in bringing to bear its human and social emancipation potential. In the same token,
thus it is equally important to grasp that primacy of meaningfulness-or-value-reference
orientations in conventioning constructs do not necessarily has to do with a primacy of
ontological-veridicality pertinence especially where it is not driven by intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity but by social-aggregation-enabling, notwithstanding that such a conventioning construct may be seen as the social reference of grander meaningfulness-and-value-references in its subject area, and so fundamentally because it is a least-acceptable-meaningfulness-or-value-reference play-out notion and not an-utter-purism-of-ontology-reference notion. Thus the perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of meaningfulness in our positivistic registry-worldview/dimension should prospectively be subject to de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) with corresponding de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) even though it won’t be intelligible from our vantage superseded/transcended registry-worldview/dimension point just as with all transcended/superseded registry-worldviews/dimensions. postconverging–de-mentating/structuring/paradigming resolution of the epiphenomenon of sorcery across metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation. It should be noted that an intemporal or ontological or longness-of-register-of–meaningfulness-and-teleology resolution to perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in any registry-worldview/dimension is well beyond the notion of resolving just an underlying causative subknowledging^-impulse/compulsive-dementing (condition from say a physiological cause), like psychopathy in the positivistic registry-worldview/dimension or a sorcerer accuser in a medieval registry-worldview/dimension. That may explain the initiation of a loss of intemporal social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-amplituding-formative–epistemicity) totalising~in-relative-ontological-completeness arising from postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> for instance which is then at the base of a registry-worldview’s/dimension’s uninstitutionalised-threshold (which is overall the dementative/structural/paradigmatic issue to be resolved), as temporal-dispositions are out of a ‘deferential-formalisation-transference’/skewed ('intemporality^-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) institutionalisation setup, whether at recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism from the insight of their respective prospective institutionalisation as the resolution in the form of base-institutionalisation, universalisation, positivism or deprocrypticism. The point is reality is as of ontological-normalcy/postconvergence and suprastructural and is not constraint to and have nothing to do inherently with human mental-devising-representation incrementalism-in-relative-ontological-incompleteness—enframed-
conceptualisation and notional-disjointedness, as it is up to us to proxy to it and hence we can’t say we want to think-one-way or we’ve-been-thinking-a-certain-way (as reference-of-thought–categorical-imperatives/axioms/registry-teleology to naively imply that reality will and should comply, as failing/not-upholding-as-of-apriorising/axiomatising/referencing reference-of-thought–categorical-imperatives/axioms/registry-teleology speak of human mental-devising-representation dead-ends and the need for postconverging–de-mentating/structuring/paradigming shifts. Likewise, a suprastructural conceptualisation is one construed beyond and not limited to the (recomposured)-consciousness-awareness-teleology or mental-devising-representation of a registry-worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-teleology, i.e. not limited to its temporal conventioning compromise. In that sense, the knowledge-notionalisation is about ‘a deterministic and operant construct preserving intemporality /longness as ontology’. This translates as: - the grander problem of a subknowledging-impulse/compulsive-dementing with the instigation of recurrent-utter-uninstitutionalisation and its temporal social recurrency is failing/not-upholding-as-of-apriorising/axiomatising/referencing (postconvergence and suprastructural) intemporal preservation as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming in all recurrent-utter-institutionalised human locales beyond just an extricatory preconverging–de-mentating/structuring/paradigming of any human locale, requiring the de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of recurrent-utter-uninstitutionalisation by a de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of prior/transcended/superseded recurrent-utter-uninstitutionalisation as preconverging-or-dementing–apriorising-

ontologically why and how humans from the very beginning to today are the same as it fundamentally grasps the dynamism of institutional-cumulation/institutional-recomposure-as-histoiriality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective-ontological-normaley/postconvergence-reflected-'epistemicity-relativism'>/memetic-reordering/psychoanalytic-reorientation that elucidates our human contiguous anthropological-continuity or anthropopsychology.
