This point is ontologically critical in the sense that, as so-manifested as to when prospective relative-ontological-completeness avails, the-human/humankind cannot covertly or overtly claim to avoid its prospective aporeticism overcoming/unovercoming and then pretend not to be prospectively in ‘ontological-bad-faith/inauthenticity—preconverging—dementating/structuring/paradigmating

For instance, such ‘residuality’ is conflated in the meaning of say the word seat circumstantially as to four-legged seat, three-legged seat, backless seat, legless seat etc. or even just the recurrent use of a surface as a seat or as purposed as a seat (even if it is technically less convenient for such a sitting purpose but for enhancing the aesthetics of its environment say for instance aesthetically displayed concrete blocks acting both as public seats and public safety compared to another structure not purposed as a seat say for instance a carpeted stairway); and so-implicits that all ‘supposedly constituted’ human words and terms are rather so-conflatable residually as to the driving profound-supererogation of human intelligibility. Hence the more profound-supererogation ‘exercise of the epistemic projective-equalisation of human station of presencing—absolutising-identitive-constitutedness as to prospective nonpresencing-

As it is rather bent to adopt a prospective distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing> posturing to such prospective knowledge reification gesturing associated with a cynicism that is

The insight here as well is that ‘knowledge carries its very own value’ (as to its prospective nonpresencing-\(<\text{perspective–ontological-normalcy/postconvergence}>\) epistemic-projection) since there is no neutral human mental-state of human ontological-performance\(^a\)-\(<\text{including-virtue-as-ontology}>\) but for the appraisal from nonpresencing-\(<\text{perspective–ontological-normalcy/postconvergence}>\) epistemic-projection. This is so-equally graspable for instance in the patent case of say a God-of-plane or superstitious conception of modern medicine in an animistic social-setup that cannot simply be construed as ‘explained away by a thorough positivistic/rational-empiricism elucidation of how a plane or modern medicine works’ since such an animistic social-setup existentialising–frame is so-thoroughly beholdening to its ‘mystical/spirits conception of things’ going by its ingrained ‘reference-of-thought specific
preconverging/dementing 'qualia-schema' that at best only a constraining is induced (and not a positivistic/rational-empiricism knowledge value as to its prospective nonpresencing-perspective-ontological-normalcy/postconvergence epistemic-projection) since the animistic mindset is bound to fallback/relapse into such a 'mystical/spirits conception of things' as it can hardly be expected that the systematicity/entailment of a positivistic/rational-empiricism intelligibility will instantly prevail in the animistic social-setup as adapted knowledge value ('knowledge value' so-reflected herein as to disposedness-as-to-orientation/value-construct/valuation-and-derived-parameterising); and this insight is reflected in the crossgenerational underlying psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring exercise of existentialising/contextualising/textualising-contiguity induced 'epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension (in transversality<for-sublimating-existential-eventuating/denouement>of-affirmative-and-unaffirmative-disambiguated-'motif-and-apriorising/axiomatising/referencing' as to self-becoming/self-conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence>) associated with all prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity. It can be garnered from this analysis that once the conception of ‘meaningfulness-and-teleology raises up the prospective aporeticism overcoming/unovercoming issue of human ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising-frame of disontologising/ontologising-and-re-ontologising’ uninstitutionalised-threshold, the notional–pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—blurring/undermining-of-prospective-totalising-entailing—as-to-entailing-<amplituding/formative–epistemicity>totalising—in-relative-

For instance, such a nonpresencing←perspective–ontological-normalcy/postconvergence⟩ epistemic-projection reflected of such a term like metaphoricity herein as to an exercise of ‘opening the human mind’ to projectively see that what the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaus, Diderots, Einsteins, Teslas, etc. of the world as to their intellectual-and-moral profound-supererogation are doing tangibly is metaphoricity as to psychologismic←apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—conflatedness in ultimately producing prospective sublimating meaningfulness-and-teleology (and in this regards there is no vague interpretation associated with the word metaphor as to the fact that the literary/poetic metaphor is the more basic ‘sign-associated conception of metaphor as to aestheticisation’ while the very practice of ‘science is an advancement of the conception of metaphor however implicated in the natural sciences as to aestheticisation-towards-ontology imbued exactifying/precisioning-of-sublimation<as-to-entailing-theoretical,-conceptual-and-operant-implications>’ explaining the recurrent psychologismic←apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—conflatedness reflecting science
historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity–relativism’>). But the possibility to induce blurriness is pedantically taken up in a blurring conception of the ‘literary/poetic metaphor’ as to obfuscate with the literary trope as to what such thinkers like Derrida and Foucault ‘meant or can mean as metaphor’ failing to factor in that their lifetime work is ‘all their metaphor’ they are talking about (as to their eliciting of prospective reflexive as re-originary-as-unenframed/unbeholding/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking –‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation) encounter/confrontation with existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective–ontological-normalcy/postconvergence-implied–‘prospective-aporeticism–overcoming/unovercoming’>). It is herein contended that such postmodern thinkers like Derrida and Foucault were very well consciously aware of this institutionally engrained distorted thought and motives as reflected in their intellectual demeanour and apprehension within the scope of such institutional ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’ (to which threshold of disontologising the textualising herein is not beholdening and effectively makes explicit as part and parcel of prospective knowledge-reification ). In many ways it is herein contended that with the appropriate contemplative patience and distance such thought as to their implicated knowledge-reification87 gesturing is no more difficult to contemplate but for pedantic consciously or unconsciously elicited misanalysis and blurriness. With such pedantic blurriness undergirded by such a ‘statement that certain things are unspeakable’ rather herein construed as the very hallmark of such institutional disontologising undermining of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications because
human civilisation/enlightenment/progress is exactly about metaphorising as ‘making unspeakable things speak’ (as tangible like the metaphors of Newton making abstract forces conception to speak, Einstein making spacetime conception speak, Mendel making hereditary characteristics to speak, etc. and in all such cases not only counterintuitive-and-idiosyncratic to their epochal minds but initially also to their instigators very own minds, and just as herein as tangible as to the explicited veracity of the successive registry-worldviews/dimensions ‘reference-of-thought specific preconverging/dementing –qualia-schema reflecting their specific prospectively ontologically-flawed nondescript/ignorable–void imbued self-presence/self-constitutedness’-<in-perspective–epistemic-abnormalcy/preconvergence“> as from prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection so-implied as human de-mentation-(supererogatory–ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with regards to as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology). This in many ways is rather telling about the nombrilistic presencing—absolutising-identitive-constitutedness of such ‘statement that certain things are unspeakable’ as effectively expliciting by itself the lack of a sense of metaphysics-of-absence-(implicated-epistemic-veracity-of—nonpresencing–<perspective–ontological-normalcy/postconvergence>) conception as to profound ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’; and so as to the fact that the issue of history is not about ‘presublimating relic/artifactual–beholdening-constitutedness’ historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ of no effective prospective ontological elucidation insight but rather ‘the issue of history is philosophically epistemic and about human limited-mentation-capacity-deepening implications’ so-reflecting the sublimating momentous

It can be appreciated (as of anthropological insight) that a positivistic mindset encounter with say an animistic social-setup cannot relate to the latter in ‘absolute terms of effectively demonstrable positivistic/rational-empiricism sublimating’ (as it will relate to a fellow positivistic mindset) as this will induce excessive mental alienation to the ‘point of the positivistic-with-animistic mutualising mental shutdown’. But rather such a relation will be within the scope of the animistic collective-social human limited-mentation-capacity (or within the scope of the ‘shared/mutual positivistic debarking community and animistic collective-social’ human limited-mentation-capacity) to integrate prospective positivising ontologising-and-re-ontologising over the animistic social-setup prior nonpositivising disontologising; as to the positivising mindset projection of ‘constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{97} imbuing human ontological-commitment\textsuperscript{69} <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality>’ but then at the same time this equally allows for the possibility for an anti-positivising disontologising (more elaborately explaining the crossgenerational nature of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposing exercise of existentialising/contextualising/textualising-contiguity\textsuperscript{39} induced ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification\textsuperscript{77}/contemplative-distension\textsuperscript{76} for human prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity). In many ways the knowledge-reification\textsuperscript{87} gesturing of the Socrates, Galileos, Descartes, Rousseaux, Diderots, etc. of the world (in the face of their respective pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-

This ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ effectively underlies the inherent existentialising–decisionality of underpinning–suprasocial-construct as to underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist; as to the fact that in many ways ‘the very existentialising–realness of such abstract notions as to their nondisjointing tends to be \(<\text{amplituding/formative–epistemicity}\text{-totalisingly-absent/vague, relative/qualified and ephemeral/fleeting}>\) with the underpinning–suprasocial-construct more fruitfully identifiable/construable as to its ‘underlying social dynamics of \(<\text{presencing–absolutising-identitive-constitutedness}>\text{-social-vestedness/normativity}  <\text{discretely-implied-functionalism}>\)’ that-drives/is-behind such subontologisation/ideology-over-ontology disjointing abstract notions as technocratic, capitalistic or communist which are rather ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ (as can be more vividly be observed in moments of crisis when such ‘underlying social dynamics of \(<\text{presencing–absolutising-identitive-constitutedness}>\text{-social-vestedness/normativity}<\text{discretely-implied-functionalism}>\)’ manifest themselves as superseding any such abstract ‘catchmenting-by-

Such ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ are geared on collectively inducing defaulting ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness\(^8\)–presublimation-construct–of–\(^5\) meaningfulness-and-teleology\(^10\) desublimating–existentialising–decisionality) that goes on to ‘surreptitiously/subconsciously distract-from/drown/dilute/enframe the possibility for prospective incisive and diligent ontological-veracity sublimation/emancipation analysis of any such underpinning–suprasocial-construct defining catchmenting-by-rejection of value and value-possibilities’ as to the underlying manifestations of \(^1\) presencing—absolutising-identitive-constitutedness\(^13\) social-vestedness/normativity-⟨discretely-implied-functionalism⟩ (as more thoroughly elucidated further above); wherein as ‘supposedly forever-and-ever tried-and-tested ready-to-hand reflex existentialising–decisionality that do not know of human limited-mentation-capacity and thus the need for human limited-mentation-capacity-deepening ’ the analytical possibility for original prospective creative re-ontologisation (as required for human scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory–involuting-or-guilding-or-amplifying–scalarisation-⟨as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^\rangle\) is de-mentatively/structurally/paradigmatically closed-off, and there is ‘supposedly no sublimating/emancipating existentialising–decisionality \(^7\) meaningfulness-and-teleology\(^10\) that can arise outside the underpinning–suprasocial-construct ⟨preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing⟩–existentialising—enframing/imprintedness–⟨as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition⟩ as putting into question the very ontological-veracity of the subontologisation/ideology-over-ontology ‘catchmenting-by-rejection vague/imaginary

that underpinning–suprasocial-construct ‘beholdening as sovereignising–imbued-

of supererogatory–progressivity’). Thus beneath any supposedly underpinning–suprasocial-
construct (reflected in the modern-day underlying socio-econo-political
subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist), is a
more fundamental ‘
nonpresencing–<perspective–ontological-normalcy/postconvergence>
notion of supererogatory–progressivity’ (however the ‘shallow-supererogation’ of
supererogatory–progressivity’) accounting for the possibility for prospective human social-and-

In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology wherein for instance the social atrophying associated with the Great Depression rather elicited statal
supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a dementative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now
effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the
supererogatory–progressivity potential of the global economy presents more opportunities than
the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of
individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational
skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic
model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary
lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of
capitalistic enterprising across the world takes various shapes and forms wherein ‘the more
doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound
value creation activities (often of poorly compensated supererogatory–progressivity) and in
many ways undermining the inclination for profound value creation as to the shortcut for short-
term returns. This capitalistic model of skewed value-extraction undermines the possibility of
overall human supererogatory–progressivity as to when in the contest between optimal-
resource-allocation for value-creation as to the requisite creativity for individuals and social
supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-
sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting
the externalities investments in education and infrastructure of second and third world
countries) but still posing the question as to how skewed value-extraction can de-
mentatively/structurally/paradigmatically address in the long-run issues of requisite social and
public investment as a requisite for a theoretically self-sustaining economic model (not
critically driven and supported by the supererogatory–progressivity prioritisation of local or
foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall
social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit
manifestation of supererogatory–progressivity as underlying any given underpinning–
suprasocial-construct is most obvious today with the Chinese economic revolution as to the
creative impetus driving its overall socioeconomic transformation. Here again it is fair to say
just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of
supererogatory–progressivity’ as so-associated with debt servitude and de-
mentative/structural/paradigmatic adjustment programmes. The fact then is that the only nations
in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic
model as devoid of any national supererogatory–progressivity investment-drive and social
programmes mitigation for the consequences of the capitalistic model’ are in many ways third
world countries of limited human and natural resources to be capable of instigating national
supererogatory–progressivity with respect to their incipiently disadvantageous circumstances
(especially compounded by their limited nation-building human resources) and this in many
ways accounts for their high and relatively inefficient and subsistence informal sectors as to the
relative inability of state resources to construct profound and sustainable projects of
socioeconomic development (and even then when given the chance with the little means
available as of a natural intuition they recoursed essentially to supererogatory–progressivity
initiatives like education and basic infrastructural capacities that will hardly pass the test of a
true profit-driven and value-extraction capitalistic model), and more critically so as to their
more profound interests in social stability in the very first place which can only arise as from a
basic level of social wellbeing of their populations before even practically utterly appropriating
any such abstract capitalistic model rationale (which in many ways actually served to induce a
skewed logic on the basis of which natural resources exploiting corporations from developed
countries exploit third world natural resources on unfair shallow-supererogation\textsuperscript{77} economic
terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing
the requisite political stability for sustained economic progress (with the capitalistic model as to
its self-serving requirement rather warranting the requisite externalities possibilities for its
thriving to be established beforehand). The more abstract rationale here (as to ‘human-
decisionality-\textless as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation\textgreater
omni-potential commensurability with inherent immanent-existence’s sublimation-
structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory–progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness—<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of \( \text{presencing—absolutising-identitive-constitutedness} \) \( \text{social-vestedness/normativity—<discretely-implied-functionalism>}. \) Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the modern-day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation’ of
supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to ‘presencing—absolutising-identitive-constitutedness’<discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from an totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is preconvergingly–de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest
notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-

consequence arising with such manifestations in ontological-contiguity  of our ‘modern take
attitude/mental-disposition/care–and–episteme’; divulging that conceptualising virtue in
ontological-contiguity  is at best only of palliative consequence and not truly
aetiolisation/ontological-escalation which rather warrants prospective notional-
contiguity/epistemic-contiguity  <-profound-supererogation  -of-mentally-
aestheticised-postconverging/dialectical-thinking  -qualia-schema> as of prospective relative-
ontological-completeness  -of- reference-of-thought. The fact is well-meaningness, good-
intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute
for ontology/ontological-veridicality as of the need to truly understand the human limited-
mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments⁷⁶. This existential reality about ontological-primemovers-totalitative-framework⁷³ is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⁹⁷—<as-to-perspective—ontological-normalcy/postconvergence-implied—'prospective-aporeticism-overcoming/unovercoming'> inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of ’⁴⁸’s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care—and—episteme’ in ontological-contiguity⁷⁷ as of its <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag⁵⁷ prior relative-ontological-incompleteness⁸⁴—of—reference-of-thought perspective construed—as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity⁸⁸ <profound-supererogation -of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> as of prospective relative-ontological-completeness—of—reference-of-thought, as implicated with the case of Derrida’s spirit insight. Ultimately, the ‘postmodern depocrypticism—or—preempting—disjointedness—as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme’ should ontologically nurture the requisite psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective notional-contiguity/epistemic-contiguity as of prospective relative-ontological-completeness-of-reference-of-thought implied as of deprocrypticism—or-preempting—disjointedness-as-of-reference-of-thought as implied by postmodern human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation thus inducing the aetiological/ontological-escalation addressing/resolving our ‘modern take attitude/mental-disposition/care–and–episteme’ vices-and-impediments. As a further elucidation, prospective notional-contiguity/epistemic-contiguity as of prospective relative-ontological-completeness-of-reference-of-thought actually points out that the uninstitutionalised-threshold is rather a point of de-mentation—ontological—de-mentation-or-dialectical—de-mentation—stranding—or-attributive-dialectics which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with a universal principle understanding of the transformation of
traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating—{(amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,–as–spontaneity-of-aestheticisation to Descartes thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation perspective whereas Descartes is more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising (as of dimensionality-of-sublimating—{(amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) which as of ‘self-reflexive–instigative-eventuating–{as-to-teleological-instigative/incipient–willing/arbitrariness/waywardness/faithdrivenness/supererogating-for-human-intelligibility–

Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective
reference-of-thought de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) implied as of prospective positivism apriorising/axiomatising/referencing/intellibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval_epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporetism overcoming/unovercoming (underlying that Descartes’ dimensionality-of-sublimating
(<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,–as–spontaneity-of-aestheticisation in then secondarily inducing his thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval-scholasticism dogmatic
interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of operationally and in sublimation on its own terms–as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and postconvergingly–dementating/structuring/paradigming the possibility of elucidation of any subject on this thinking educing sublimation basis’. In effect Descartes project is actually as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing as of positivism, and so from the prior presencing—absolutising-identitive-constitutedness of non-positivism/medievalism. With both the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme and postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, we may be forgiven to confuse-and-dismiss their schema as-asto-de-mentative/structural/paradigmatic—disseminative-implications as of prospective reasoning-through/messianic-reasoning as incoherent from a shallow-and-immediate uninsightful analytical perspective on the basis of the respectively prior reasoning-from-results/afterthought of non-positivism/medievalism and positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought (since as of the latter relative-ontological-incompleteness perspective ‘all the reasoning in the world’ is only
successive prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{89}\ reference-of-thought as to the ‘ontological-contiguity’\textsuperscript{57}—of-the-human-institutionalisation-process\textsuperscript{55} as of \textsuperscript{56}reference-of-thought différance/internal-dialectics/difference-deferral’. The appropriate contemplative perspective for the appreciation of their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications is effectively crossgenerational as of the amplitude/breadth of \textsuperscript{84}reference-of-thought implied transcendence-and-sublimity/sublimation/supererogatory—dementativity; as we can effectively appreciate that the very mathesis \textsuperscript{10}\ universalis schema/dissemative metaphoricity\textsuperscript{57} engendering our positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity\textsuperscript{63}<shallow-supererogation -of-mentally- aestheticised-preconverging/dementing –qualia-schema> analysis, implied as of prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{89}\ reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{89}\ reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising /circumscribing/delineating construct being the \textsuperscript{56}reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical ‘meaningfulness-and-teleology’\textsuperscript{100} but rather human-subpotency adjusting as to existence-potency\textsuperscript{11}~sublimating–nascence,–disclosed-from-prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness\textsuperscript{88}. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and
purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness\(^{2}\) of reference-of-thought:relative-ontological-completeness\(^{2}\)-of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification\(^{8}\), implied as of \(^{1}\) de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) with regards to the reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and-teleology\(^{10}\) is an incrementalism-in-relative-ontological-incompleteness\(^{3}\)—enframed-conceptualisation to our already established psychoanalytic disposition rather than a maximalising-recomposing-for-relative-ontological-completeness\(^{8}\)—unenframed-conceptualisation in resetting-our-psychoanalytic-disposition/prospective-grounding as of \(^{4}\) amplituding/formative-epistemicity->totalising-renewing-realisation/re-perception/re-thought in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness\(^{12}\), such that this leads to apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness\(^{13}\) when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-subpotency. Thus however counterintuitive, this overall conception structures the fact that it is as of \(^{1}\) de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) that our human \(^{4}\) amplituding/formative-epistemicity->totalising/circumscribing/delineating reference-of-thought is transcended for prospective relative-ontological-completeness\(^{8}\)-of-reference-of-thought implied as of notional-discontiguity/epistemic-discontiguity\(^{8}\)<shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema>. Thus a registry-worldview/dimension institutionalisation reference-of-thought always operates as if it is the absolute framework of \textsuperscript{meaningfulness-and-teleology\textsuperscript{100}, that is, by its ‘interiorisation attitude/mental-disposition/care–and–episteme’, notwithstanding the ontological-veridicality of its prior relative-ontological-incompleteness–of–reference-of-thought at its uninstitutionalised-threshold \textsuperscript{0}, as reflected by the prospective registry-worldview/dimension.

When so-construed prospectively, ‘postmodern exteriorisation attitude/mental-disposition/care–
and–episteme’ is all about such a deprecryptionism—or—preempting—disjointedness-as-of-
reference-of-thought as implied by its human-subject-emancipatory-relativism-driven-
recomposuring-constructivism-towards-singularisation ‘originary postmodern-
thought-process and other postmodern creative-processes avant-gardism’ that are not in a
reasoning-from-results/afterthought ontological entanglement with our ‘modern take

can all be construed (and as equally implied by this author’s ontological-

the-nondisjointedness/entailment-of-prospective—nonpresencing>> projected epistemic-immanence/veridical-epistemic-determinism, construed as of its perpetuating/disseminating of
the preemption of disjointedness. In this regard, singularisation <<as-to-the-

of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existentialising/contextualising/textualising-contiguity, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation

prospective-aporeticism-overcoming/unovercoming’ for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for existentialising/contextualising/textualising-contiguity

knowledge-reification that determines science practice, and so in existential apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of
inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) All these highlight an underlying ontology’s-directedness-as-Being that bears notional-conflatedness singularisation projected epistemic-immanence/veridical-epistemic-determinism implications, as of ontologically-veridical singularity projected epistemic-immanence/veridical-epistemic-determinism of human-subpotency ontological-performance correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality over ontologically-flawed dissingularisation projected epistemic-immanence/veridical-epistemic-determinism—absolutising-identitive-constitutedness /epistemic-nonimmanence/flawed-epistemic-determinism; and yet our psychological disposition is more often than not geared to ontologically-flawed
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of increasing axiomatic teleological wholeness/nested-congruence or prospective relative-ontological-completeness -of- reference-of-thought. For instance, with regards to ‘the very same ill-health...’

This insight about ontological-performance including virtue-as-ontology as of prospective relative-ontological-completeness of human-subpotency can be garnered with respect to any axiomatic-construct as the 'meaningfulness-and-teleology' representation of human-subpotency ontological-performance including virtue-as-ontology correspondence with the full-potency-of-existence’s sublimating—nascence-as-of-its-coherence/contiguity or a purview/domain of existence/intrinsic-reality/ontological-veridicality, and so not only with regards to the reference-of-thought as the grandest axiomatic-construct. This fundamentally points out that at uninstitutionalised-threshold, human cognition which is rather in ‘excogitative-blanking of prospective institutionalisation existentialising/contextualising/textualising-contiguity in-reification’ suffers-and-fails to relay the ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence’s sublimating—nascence-as-of-its-coherence/contiguity’ for prospective institutionalisation as of difference-conflatedness as-to-totalitative-reification in-singularisation as-veridical-epistemic determinism protracted-teleological-wholeness/nested-congruence—reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process, so-construed-as-singularisation projected epistemic-immanence/veridical-epistemic-determinism; since this potential for such singularisation projected epistemic-immanence/veridical-epistemic-determinism is denaturing as of identitive-constitutedness as-epistemic-totality dereification in-dissingularisation absoluising-identitive-constitutedness.

<amplituding/formative–epistemicity>totalising–self-referencing-synergising/circularity/interiorising/akrasiac-drag which we necessarily relate to as if of ontological-completeness-of—reference-of-thought, and this further explains as reflected from their prospective relative-ontological-completeness[16]-of—reference-of-thought the notional–procrypticism/notional–disjointedness of all registry-worldviews/dimensions as of

This arises because within the institutionalisation framework of a registry-worldview/dimension human construal of its existentialising/contextualising/textualising-contiguity\textsuperscript{70} knowledge-reification\textsuperscript{72} is only as effective as of the institutionalisation \textsuperscript{7} reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, -for-

Such ‘excogitative-blanking of prospective existentialising/contextualising/textualising-contiguity\(^{39}\)-in-reification\(^{87}\)’ can be construed as to when say the non-positivistic mindset goes about articulating \(^{56}\)meaningfulness-and-teleology\(^{100}\) falsely as if superstitious notions ontologically-veridical out of prospective positivism existentialising/contextualising/textualising-contiguity\(^{39}\)-in-reification\(^{87}\), and likewise with regards to a positivism/rational-empiricism manifestation of \(^{81}\)procrypticism–or–disjointedness-as-of-\(^{84}\)reference-of-thought mindset construal of \(^{55}\)meaningfulness-and-teleology\(^{100}\) that utterly overlooks the de-mentative/structural/paradigmatic \(^{15}\)reference-of-thought denaturing\(^{15}\) implications of its prospective disjointedness of \(^{55}\)meaningfulness-and-teleology\(^{100}\) out of prospective existentialising/contextualising/textualising-contiguity\(^{39}\)-reification\(^{87}\), as such disjointedness-as-of-\(^{84}\)reference-of-thought can be instigated originally from a postlogism\(^{78}\)-slantedness mental-disposition and the developing social dynamics with human temporality\(^{99}\). We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon/projection of \(^{56}\)meaningfulness-and-teleology\(^{100}\) about existentialising/contextualising/textualising-contiguity\(^{39}\)’; but then at its uninstitutionalised-threshold\(^{103}\) where its \(^{84}\)reference-of-thought de-mentative/structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness\(^{99}\)-of-\(^{84}\)reference-of-thought, it always systemically faces notional–procrypticism/notional–disjointedness as of vices-and-impediments\(^{106}\) arising from non-positivism/superstitious human-subpotency existentially constrained temporal ontological-

But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-threshold\textsuperscript{03} but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency–aporia/undecidability/dilemma/ought-

In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure—as-to—historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’—of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective. That is, grounding of meaningfulness-and-teleology is certainly required, but as of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification for

performance\textsuperscript{72}—<including-virtue-as-ontology>. Rather it is more candid to relate to the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{70} as of human limited-mentation-capacity-deepening\textsuperscript{71}, and so as of prospective intemporal secondnatured institutionalisation induced\textsuperscript{104} universal-transparency\textsuperscript{105}—{transparency-of-totalising-entailing,—as-to-entailing—\textsuperscript{14}}<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness\textsuperscript{104}, deferential-formalisation-transference and habituation in positive-opportunism\textsuperscript{76}. Central to any such prospective institutionalisation transcendental-enabling/sublimating/supererogatory–de-mentativity\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness—of-reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification\textsuperscript{87} as of the developed disposition to register such implications as of their intemporal/longness-of-register—of—meaningfulness-and-teleology\textsuperscript{100} pertinence; as the notion of crossgenerational\textsuperscript{14} de-mentation\textsuperscript{69} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100}. Thus the metaphoricity\textsuperscript{67} exercise of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not one of necessarily eliciting instant\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} universal approbation but rather instigating\textsuperscript{104} universal untenability as of ontological-primemovers-totalitative-framework\textsuperscript{104} for prospective\textsuperscript{10} universal positive-opportunism\textsuperscript{76}; as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every

reflection of existentialising/contextualising/textualising-contiguity°. This brings up the
implication of what is truly transcendental knowledge by its nature as of knowledge-
notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising
and re-institutionalising, implying it supersedes institutional practices and constructs as to the
possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating°
〈<amplituding/formative> supererogatory–de-mentativity/epistemic-growth-or-
conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-

question that knowledge so-construed as of prospective transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity implications put-into-question as
‘charlatanic’ institutions and their practices construed as of prior relative-ontological-
completeness°-of- reference-of-thought specifically as extra-intellectual and pedantic
orientations that undermine the advancement of their supposed prospective intellectual and
emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness ‘-of-’ reference-of-thought; and in due course, by its ontological-primemovers-totalitative-framework constraining it cross-generationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-origin-ary-as-unenframed/unbeholdening/outlier-conceptualisation ⟨imbued-postconverging/dialectical-thinking ‘-’projective-insights’/‘epistemic-projection-in-conflatedness’ ‘-of-’ notional-deprocrypticism-prospective-sublimation⟩ potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness ‘-of-’ reference-of-thought with the latter’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag⟩, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of ontological-primemovers-totalitative-framework for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-
investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness of reference-of-thought naïve non-transcendental
<amplituding-formative—epistemicity>totalising—self-referencing-syneretising/circularity/interiorising/akrasiatic-drag, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of meaningfulness-and-teleology’. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiolisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation—<as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In
this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance\textsuperscript{72}-<including-virtue-as-ontology> of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology\textsuperscript{100} reflecting dereified and reified construals of existentialising/contextualising/textualising-contiguity\textsuperscript{19} is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence\textsuperscript{<as-to-}

However, compounding this situation making relevant the need to contrast reification and dereification\textsuperscript{87} and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance\textsuperscript{72}-<including-virtue-as-ontology> manifestation of psychopathy and social psychopathy which is ‘de-

This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism–procrypticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procrypticism–or–disjointedness-as-of-reference-of-thought that speaks of our prospective preconverging-or-dementing–apriorising-psychologism at our prospective positivism–procrypticism uninstitutionalised-threshold, and so as reflected from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting–disjointedness-as-of-reference-of-thought registry-worldview/dimension prospective relative-ontological-completeness. Interestingly, it should be noted here that with such phenomenon as psychopathy and social psychopathy that is ‘dementatively/structurally/paradigmatically associated with the denaturing of the apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’ as of our positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold (just as notions-and-accusations-of-sorcery in a universalisation–non-positivism/medievalism social-setup is ‘dementatively/structurally/paradigmatically associated with the denaturing of the apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’ as of their universalisation–non-positivism/medievalism uninstitutionalised-threshold), ontological-

Basically when post-structuralists speak of ‘the other’ this translates into aetiologisation/ontological-escalation as of ‘universal projection implications attitude/mental-disposition/care–and–episteme’ event-or-operant implications to all and sundry’ as implied in the above analysis, as postmodern-thought portends to be non-ideology-driven, non-speculative, non-imaginary, theoretical, conceptual and operant. naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori’; such that the ‘meaningfulness-and-teleology\textsuperscript{100} that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-

This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional~conflatedness\textsuperscript{12} of notional~deprocrypticism. However, it is equally critical to grasp the double-gesture reification\textsuperscript{17} implied in such a postmodern-as-suprastructural conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation<as-to-the-nondisjointedness/entailment-of-prospective-

Such a postmodern/suprastructuralism double-gesture reification\textsuperscript{17} holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care–and–episteme with respect to human social-stake-contention-or-confliction; with the adherence to the \textsuperscript{84}reference-of-thought–\textsuperscript{8}categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-aposteriorising/logicising/deriving/intelligising/measuring–\textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100}}}
of such organic-knowledge construed in intemporality as supplanting conviction-as-to-profund-supererogation —of—attendant-intradimensional—postconverging/dialectical-thinking —apriorising-psychologism, whereas mechanical-knowledge is rather predispose to adhere as of temporal threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to—attendant-intradimensional—prospectively-disontologising—preconverging/dementing —apriorising-psychologism> to such mere reference-of-thought—categorical-imperatives/axioms/registry-teleology, for—aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. The latter points to an inappropriate attitude/mental-disposition/care—and—episteme which is not beholden to the prospective institutionalisation but rather is of existential-extrication—as-of-existential-unthught relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care—and—episteme and organic-knowledge attitude/mental-disposition/care—and—episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care—and—episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms—as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care—and—episteme as of its prior relative-ontological-incompleteness—of—reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas
progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness of reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this
orientation because it always put into question the idea of ‘grounding’ meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness-of-reference-of-thought as fundamentally denaturing, and likely to induce transversality-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness). Ultimately, such a double-gesturing hold out the possibility in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care–and–episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our
curiosity and openness will correspondingly bring about our functional moral equivalence with
universal-transparency -\{transparency-of-totalising-entailing,-as-to-entailing-
'amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \). Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-\langle as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity -<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema>. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a universal projection implications attitude/mental-disposition/care–and–episteme event -or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the
framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human \(\langle\text{amplituding/formative-epistemicity}\rangle\) totalising–thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originary-as-unenframed/unbeholdening/outlier-conceptualisation(imbued-postconverging/dialectical-thinking -‘projective-insights’/’epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation) creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity’—of-the-human-institutionalisation-process as of difference-
conflatedness \textsuperscript{*}-as-to-totalitative-reification\textsuperscript{87}-in-singularisation\textsuperscript{9}-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing\textsuperscript{73}-as-veridical-epistemic-determinism \textsuperscript{*}<amplituding/formative–epistemicity>causality-as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity \textsuperscript{72} shows that there has always been beyond-the-consciousness-awareness-teleology\textsuperscript{10}\textsuperscript{10}-<in-existential-extrication-as-of-existential-unthought> \textsuperscript{73} ‘institutional investment’ that is not always just of erudite ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness \textsuperscript{9}-of-axiomatic-constructs-and- reference-of-thought, and that true knowledge especially as it portends to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity\textsuperscript{91} undermining of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{10}\textsuperscript{10} due to ‘lack of social universal-transparency\textsuperscript{10}<(transparency-of-totalising-entailing,-as-to-entailing,- <amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \textsuperscript{73}’}. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness\textsuperscript{99} of-\textsuperscript{84} reference-of-thought as underscoring medieval vices-and-impediments\textsuperscript{96} with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology; and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of–meaningfulness-and-teleology stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of its crossgenerational transcendental implications and as reflected from the insight in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of ontological-prime-movers-totalitative-framework, and so divulged by existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression; as prior human presencing—absolutising-identitive-constitutedness experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as presencing—absolutising-identitive-constitutedness enabling the obtention of any such conclusions from the given classical-
mechanics—axiomatic-constructs apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising-contiguity )—constitutedness¹, but rather it is by apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising-contiguity )—conflatedness¹² with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of nonpresencing-<perspective–ontological-normalcy/postconvergence>. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of—meaningfulness-and-teleology¹⁰ individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework’ tendential validation as to existence-potency¹—sublimating—nascent,.disclosed-from-prospective-epistemic-digression. Such a construal of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening analysis; and insightfully, as reflected in the underlying apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising-contiguity )—conflatedness¹ of accreting-substitutive-subsumption-as-futural-différance-freeplay², sublimation is achieved rather out of
the notional obviating of human temporal-as-non-ontological
neuterising with deneuterising—referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional-deprocrypticism perspective/framing/reference/horizon/projection. Similarly, this author’s articulation of futural-différance as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay différance, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity’; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence
and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency/sublimating-nascence,-disclosed-from-prospective-epistemic-digression so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting-conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism deference to the prescience of existence-potency/sublimating-nascence,-disclosed-from-prospective-epistemic-digression over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the postconverging–de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness reference-of-thought, and so by maximaliing-recomposuring <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential postconverging–de-mentating/structuring/paradigming of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality-as-of-neuterisation/relative-
ontological-incompleteness\textsuperscript{89}/existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension \textsuperscript{84}reference-of-thought in prospective relative-ontological-completeness\textsuperscript{82}-of-axiomatic-construct-or-\textsuperscript{84}reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension \textsuperscript{84}reference-of-thought in prior relative-ontological-incompleteness\textsuperscript{89}, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social \textsuperscript{10}universal-transparency’ \textsuperscript{transparency-of-totalising-entailing-as-to-entailing-\textsuperscript{45}<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{88}}>’. But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness -of-axiomatic-construct-or-\textsuperscript{84}reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay comes into terms with both \textsuperscript{80}presencing—absolutising-identitive-constitutedness\textsuperscript{13} and \textsuperscript{61}nonpresencing-<perspective–ontological-normalcy/postconvergence> on the basis of the prospective relative-ontological-completeness\textsuperscript{89}/ontological-contiguity\textsuperscript{67} of the latter over the prior relative-ontological-incompleteness\textsuperscript{89} of notional-discontiguity/epistemic-discontiguity\textsuperscript{87} <->shallow-supererogation\textsuperscript{97} -of-mentally-
aestheticised-preconverging/dementing –qualia-schema of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human’amplituding/formative–epistemicity–totalising~purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising’
but rather ‘difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing’
between presencing—absolutising-identitive-constitutedness and nonpresencing—perspective–ontological-normalcy/postconvergence. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon/projection as of prospective relative-ontological-completeness notional-contiguity/epistemic-contiguity’ construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded on such a developed consciousness perspective/framing/reference/horizon/projection. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon/projection as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon/projection as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon/projection’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon/projection as of preclusive-consciousness
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon/projection’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon/projection as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon/projection’ to grasp notional–deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘notional–deprocrypticism mindset perspective/framing/reference/horizon/projection as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness of reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-formative-amplituding/formative-epistemicity>totalising–in-relative-ontological-completeness)’ such charlatanism is exposed
for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of de-mentation\textsuperscript{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)} which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing /ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring<as-to-postconverging-or-dialectical-thinking –apriorising-psychologism> of the consciousness in ontological-contiguity/relative-ontological-completeness -of- reference-of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<as-to-preconverging-or-dementing –apriorising-psychologism> of the consciousness of notional-discontiguity/epistemic-discontiguity <-shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema>/relative-ontological-incompleteness/of- reference-of-thought as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, and not incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation, as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal”. As futural différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay différance’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing
reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening⁵⁵; overriding the idea that the perspective/framing/reference/horizon/projection of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology⁶⁹ should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising’, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing as of prospective relative-ontological-completeness-of-reference-of-thought bringing about transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of nonpresencing<perspective-ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness⁸⁹ and prospective relative-ontological-completeness⁸⁸, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics</amplituding/formative-epistemicity>totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from
prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of nonpresencing-<perspective-ontological-normalcy/postconvergence>. In other words, human consciousness tends to be constraint to its <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ mental-disposition as of presencing—absolutising-identitive-constitutedness. But existence/ontology’s-directedness-as-Being as of nonpresencing-<perspective–ontological-normalcy/postconvergence> is beyond and not constraint by human consciousness as of its <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag, and thus hints at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of ontological-prime movers-totalitative-framework validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence (implicated-‘nondescript/ignorable–void ’ as-to-presencing—absolutising-identitive-constitutedness ) of any given <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ posture; such that humankind then overlooks presencing—absolutising-identitive-constitutedness and re-projects/re-anticipates nonpresencing-<perspective–ontological-normalcy/postconvergence> enabling human transcendence-and-
sublimity/sublimation/supererogatory~de-mentativity. Therefore, metaphoricity\textsuperscript{57} as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity\textsuperscript{57} is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity\textsuperscript{57} as such simply refers to signification adjunctiveness to ‘underlying \textsuperscript{4} <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of both the ‘meaningfulness-and-teleology\textsuperscript{100} implications to the so-renewed ‘underlying \textsuperscript{4} <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and the specific adjunctive-metaphoricity\textsuperscript{57}-signification within such renewed ‘underlying \textsuperscript{4} <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. Metaphoricity\textsuperscript{57} is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-teleology\textsuperscript{100} as an epistemic-totalising/circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity\textsuperscript{57} arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of \textsuperscript{61}nonpresencing-<perspective–ontological-normalcy/postconvergence> by human re-projection/re-anticipation ultimately validated by existence/ontology’s-directedness-as-Being ontological-primemovers-totalitative-framework\textsuperscript{71}. Further, metaphoricity\textsuperscript{57} as such speaks of the evasiveness of all human meaningfulness-and-teleology\textsuperscript{100} at uninstitutionalised-threshold\textsuperscript{103} as recurrently pointed out herein as of token threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation -<as-to-’attendant-intradimensional’-prospectively-disontologising~preconverging/dementing –apriorising-psychologism> possibilities relation to
infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocripticism institutionalisation implications representation, and so beyond just our natural inclination for
4 <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Galileo could well had possibly recasted his implied positivism in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal–or–metaphysics-of-absence\{(implicated-epistemic-veracity-of–nonpresencing–\langle perspective–ontological-normalcy/postconvergence\rangle–or–transcendental-reasoning-of-event\}–as-prospective-ontology-origination perspective/framing/reference/horizon/projection of positivism we entertain today. Likewise, as of such metaphoricity episteme, the herein implied as of its essence cannot do without this hermeneutic/reprojecting/supererogating/zeroing circle phenomenological ontology elucidation as of its psychoanalytic-unshackling apriorising/axiomatising/referencing–(of–existentialising/contextualising/textualising-contiguity )–conflatedness ; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon/projection and then contention/argumentation within such articulated perspective/framing/reference/horizon/projection, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for
knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon/projection for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to ‘open-up’/‘throw-up’/‘reveal’ new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-
bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and by not appreciating due to ‘flatmindedness/banality/flimsiness the implications of perspective/framing/reference/horizon/projection before contention/argumentation as of any given perspective/framing/reference/horizon/projection, thus implying ‘poor critical judgment’. With such ‘flatmindedness/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling-<in-deferential-formalisation-transference> are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of <amplitude/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>}, such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled
about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity critiques, as de-mentatively/structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness\(^{68}\) of reference-of-thought-postconverging-or-dialectical-thinking\(^{20}\) – apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-incompleteness\(^{68}\) of reference-of-thought-preconverging-or-dementing\(^{1}\) – apriorising-psychologism. Such that there is no dialogical-equivalence\(< as-to-psychologismic\(\) \(\) apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity) – conflatedness \(< as-to-self-becoming/self-conflatedness \(\) formative\(\) \(\) supererogating\(\) > that then arises by the fact that the former is a nonextricatory/intemporal/ontological relationship with meaningfulness-and-teleology\(^{55}\) while the latter is an existential-extrication/temporal/non-ontological relationship with meaningfulness-and-teleology\(^{10}\), in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-developoment/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology\(^{10}\) in reflecting holographically\(\) --< conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\(^{89}\) retrospectively and prospectively while the latter as of its false ‘untransvaluated--temporal-intemporality\(^{11}\)’ is rather existentially extricatory and oblivious to Being-developoment/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology\(^{10}\) in reflecting holographically\(\) --< conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\(^{89}\). As ultimately, it is the prospective relative-ontological-completeness -of- reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments\(^{106}\) as of prospective registry-worldview/dimension
transcendence-and-sublimity/sublimation/supererogatory–de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity\textsuperscript{64} can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon/projection of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency\textsuperscript{104}{\langle transparency-of-totalising-entailing,\textsuperscript{105} as-to-entailing,\textsuperscript{106} \langle amplituding/formative–epistemicity\rangle totalising-in-relative-ontological-completeness \rangle’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity\textsuperscript{64} critiques with respect to postmodern-thought: whether when pretending to
misunderstand postmodern double-gesture reification of meaningfulness, bluntly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive wooden-language imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications ‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence dimensionality-of-desublimating-lack-of supererogatory-dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional—knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it
truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normaley/postconvergence>} will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought over a <amplituding-formative-epistemicity>totalising–self-referencing-syntactising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought of a better knowledge perspective/reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness with regards to reference-of-thought and its derived meaningfulness-and-teleology, with the implication that we need to a prospective relative-ontological-completeness-reference-of-thought to be able to articulate intemporal-as-ontological construed as of the internal-dialectics/différance of meaningfulness-and-teleology. In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology, are
made to have their internal-dialectics/différance as of nonpresencing-perspective-ontological-normalcy/postconvergence for their sublimation and transcendence-and-sublimity/sublimation/supererogatory~de-mentativity into more profound and more complete meaningfulness-and-teleology. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocrypticism—or—preempting—disjointedness—as-of—reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of existentialising/contextualising/textualising-contiguity; is the enabling approach for human ontological-reconstituting—as-to-conflatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating——amplituding/formative>supererogatory—de-mentativeness/epistemic-growth—or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit—
drivenness–equalisation) of our supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation) to ensure that we go about deriving ontologically-veridical

meaningfulness-and-teleology\(^{100}\) in relative-ontological-completeness\(^{88}\). This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern postconverging–dementating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework\(^{73}\)’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity\(^{67}\)’ as herein implied by this author with ‘the ontological-contiguity’—of-the-human-institutionalisation-process\(^{8}\) congruent,-cogent-and-operant entailing framework of ontological-contiguity\(^{67}\)’. Anecdotally, the shallow-mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification\(^{7}\) will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification\(^{7}\) for perspective and insight, given the problematic of human limitation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity\(^{67}\)—of-the-human-institutionalisation-process\(^{8}\) as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–of–meaningfulness-and-teleology\(^{100}\) and so-construed as suprastructuralism beyond just the specific interpretation
of suprastructuralism as of postmodernism with respect to modernism. This internal-
dialectics/différance as of successive transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity is behind the respective registry-
worldviews/dimensions as of their given reference-of-thought specific neuterising as well as
the ultimate deneuterising—referentialism of deprocrypticism. But then ontological-bad-
faith/inauthenticity is equally elicited by ‘lack of social universal-transparency
(transparency-of-totalising-entailing-as-to-entailing-amplitudizing-formative-
epistemicity-totalising-in-relative-ontological-completeness)’ as of a cynicism of
institutional-being-and-craft. The transcendental implications of a registry-
worldview/dimension reference-of-thought ‘reference-of-thought—devolving-teleological-
de-mentating/structuring/paradigming—of-meaningfulness’ arises for instance in the sense that
however ‘wishful’ the ontological-prime-movers-totalitative-framework transcendent-

‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-
meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-
positivism/medievalism. In this regard the Copernices, Galileos and Diderots of their eras,
and more explicitly Descartes in his direct construal of the positivism
apriorising/axiomatising/referencing/intelligibility-setup/measuring-instrument, would have
certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue
but rather their insistence was an implicit understanding that the non-positivistic ‘reference-
of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’
was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for
their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-
ontological-incompleteness* of reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating \{<amplituding/formative> supererogatory-de-mentativeness/epistemic-growth-or-conflatedness \}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\}). Such apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness imbuied in postmodern-thought address more than just apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness implications of knowledge construction as articulated herein but equally points critically to intellectually decadent institutional dispositions and practices where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a back seat, with intellectual postures increasingly defended with non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in the form of many an intellectual increasing disposition ‘to misunderstand’ others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance; with a resultant sense of socioeconomic and socio-political impotence as such blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and preconverging–dementating/structuring/paradigming of academic institutional setups into increasingly into pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation.

Thus the ‘notion of limited-mentation-capacity’ is basically the ‘underlying veridical human meaningfulness-and-teleology notion’ for which ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness’ consciousnesses flawed conceptualisation perspectives’ construed as ontologically-flawed constructs in terms–as-of-axiomatic-construct of
presencing—absolutising-identitive-constitutedness\textsuperscript{13}, and as this speaks of human limited-
mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this \textsuperscript{14} neuterising that human transcendence-
and-sublimity/sublimation/superragoratory-de-mentativity is achieved from the prospective notional–conflatedness \textsuperscript{15} of notional–deprocrypticism and so by deneuterising — referentialism, which is equinominal/equivalent to \textsuperscript{16} nonpresencing-<perspective–ontological-normalcy/postconvergence>. In other words the historical implications of human limited-
mentation-capacity-deepening \textsuperscript{17} is that ‘as of a less and less ontologically-flawed meaningfulness-and-teleology\textsuperscript{100} towards ontological-normalcy/postconvergence, ‘it projectively/anticipatorily brought about the successive registry-worldviews/dimensions <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-
thought–devolving’ as of their given neuterisation , construed as equinominal/equivalent with their successively given \textsuperscript{58} neuterising. From the above insight, transcendence-and-
sublimity/sublimation/superragoratory-de-mentativity, is attainable as of deneuterising\textsuperscript{16}, construed as equinominal/equivalent with deneuterising\textsuperscript{16}—referentialism as the notional–conflatedness \textsuperscript{12} of notional–deprocrypticism that produces the ontologically-veridical historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>. Ultimately, this sociohistorial disparateness-of-ontologically-construed-social-reality dynamism comes down to the limited/incomplete association of human ‘invention’ of organic-knowledge with the reflection of ‘this organic-knowledge underlying mental-disposition as of Being-

Consider a metaphysics-of-absence⟨implicated-epistemic-veracity-of– nonpresencing–⟨perspective–ontological-normalcy/postconvergence⟩⟩ elucidation with regards to say a remote/isolated non-positivistic animist/base-institutionalisation society for instance which by some token has sustainable-and-learned access to basic but greatly enhancing productive techniques from travellers of a positivistic culture but without a substantial corresponding organisational and institutional diffusion associated with such greatly enhancing productive techniques due to the very brief nature of the encounter or disconnected/incoherent/perfunctory/chaotic nature of their
relations, this will de-mentatively/structurally/paradigmatically have degenerative effect on such an animistic social organisation wherein this isn’t enhancing of the society’s social organisation and relations and will be possibly disruptive. This example isn’t that farfetched as anthropological evidence of such cases abounds with many native societies so disrupted by culturally alienating positivistic material diffusion. Consider for instance (with regards to human growing/developing prospective relative-ontological-completeness of reference-of-thought), the historical transformation of meaningfulness-and-teleology associated with the development of human astronomical instruments, as from objects for religious calculations such as astrolabes to the development of telescopes today rather for advanced astronomical science mirroring a corresponding human meaningfulness-and-teleology as of the successive institutionalisations. This explains the peculiar mimetised-preconverging-or-dementing apriorising-psychologism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology we’ll construe for instance of a non-positivism/medievalism mindset reference-of-thought that doesn’t register positivistic meaningfulness reference-of-thought and likewise prospectively such a construal will have our present placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of priorly unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought/preconverging-or-dementing apriorising-psychologism by its positivism–procrypticism reference-of-thought. Just as the very nature of existential-reality by our limited-mentation-capacity-deepening construal/conceptualisation of it is rather ‘an uncompromising windedness/foldedness susceptible to our limited-mentation-capacity-deepening virtuality-or-ontologically-flawed-construal as decontextualising/unimbricating/unrecomposuring of its inherent nature’, correspondingly the exercise of ontologically-veridical reasoning is rather maximalising-
recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation. Correspondingly, from the vantage position of our present positivising/rational-empirical ontological-completeness-of-\textsuperscript{83} reference-of-thought with respect to a non-positivism/medievalism worldview, we can garner an insight of the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation \textsuperscript{78}—as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing \textsuperscript{19} –apriorising-\textsuperscript{11} psychologism of the postlogism -and-conjugated-postlogism in a non-positivism/medievalism setup, wherein faced with arguments of the sort who is the sorcerer, how are they using their sorcery, etc., speaking of the non-positivism/medievalism relative-ontological-incompleteness \textsuperscript{84} -induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \textsuperscript{78}—as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing \textsuperscript{19} –apriorising-\textsuperscript{11} psychologism’ (given that sorcery doesn’t exist, going by the insight of positivistic prospective relative-ontological-completeness -of- reference-of-thought whereas the non-positivism/medievalism registry-worldview/dimension is ridden with a whole complexity of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation \textsuperscript{78}—as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing \textsuperscript{19} –apriorising-\textsuperscript{11} psychologism construct of notions-and-accusations-of-sorcery \textsuperscript{59} meaningfulness-and-teleology \textsuperscript{100} as its preconverging–de-mentating/structuring/paradigming of circularity/recurrence/repetition/repeatability (perversion-and-derived \textsuperscript{72} perversion-of-reference-of-thought,<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >–as-to-uninstitutionalised-threshold \textsuperscript{52} -self-referencing-syncretising–and–subtransversality,<in-desublimating–existential-eventuating/denouement>–of-motif-and-apriorising/axiomatising/referencing). This insight can equally be drawn prospectively in our
referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-worldviews/dimensions of reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supercerogatory–de-mentativity)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been wooden-language (imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications). However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening expansion of ontological-depth as increasing ontological-completeness-of reference-of-thought (or reducing relative-ontological-incompleteness-induced—‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supercerogation—as-to—attendant–intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising–psychologism). Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to meaningfulness-and-teleology whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding meaningfulness-and-teleology. A further example will be say ‘the God of plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence\{(implicated-

transcendental/superseding contextualisation in terms—as-of-axiomatic-construct of the doubly-

Given such a state of \[amplituding/formative–epistemicity\] totalising–self-referencing-

Equally we can imagine that making a positivistic argument in the midst of a non-positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the ‘center’ had moved from their world (from non-positivistic as base-institutionalisation/animistic or medieval preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–procrypticism relationship to its postlogism that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{78}–<as-to–'attendant-intradimensional’–prospectively-\textsuperscript{97} disontologising–preconverging/dementing –apriorising-psychologism>, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism as well. However, to the extent that it is ‘not such \textsuperscript{4}<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{3} temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{10} inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold \textsuperscript{03} from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to universalisation–non-positivism/medievalism to positivism–procrypticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of–
meaningfulness-and-teleology extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a ‘transversality<for-sublimating–existential–

eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-
apriorising/axiomatising/referencing’ confliction’ resolved intemporally by prospective ontological-primemovers-totalitative-framework and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded reference-of-thought and a prospective/transcending/superseding reference-of-thought; given the blunt fact that ‘there is no untransvaluated–temporal-intemporality and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of– meaningfulness-and-teleology distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of–

meaningfulness-and-teleology projections.). Critically, the notion of transcendence-and-

sublimity/sublimation/supererogatory–de-mentativity and transcendental-

enabling/sublimating/supererogatory–de-mentativity associated with intemporality/longness and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-primemovers-totalitative-framework as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-primemovers-totalitative-framework is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied when
conceptualising that empirical meaningfulness-and-teleology is the sole purview of the rational-empiricism/positivism registry-worldview/dimension failing to recognised that all other registry-worldviews/dimensions are actually empirical but differ as to interpretation of empirical perception whether as to a magical, cultic or other non-positivising interpretation of empirical manifestation) but speaks of ‘the central human epistemic-totalising ~resubjecting heuristic drive’ defining as to preconverging/postconverging–de-mentating/structuring/paradigming meaningfulness-and-teleology the succession of all registry-worldviews (however sublimatingly inefficient in relative-ontological-incompleteness and sublimatingly efficient in relative-ontological-completeness as from nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection); given that with corresponding shallow to limited-mentation-capacity-deepening, as institutionalising ontological-primemovers-totalitative-framework successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression. Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as ontological-primemovers-totalitative-framework of meaningfulness-and-teleology going by their given limited-mentation-capacity. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening ’ implies more and more profound reconstruals/reconceptualisations (<amplituding/formative–epistemicity>totalising–renewing-
realisation/re-perception/re-thought) inducing transformative implications with respect to meaningfulness-and-teleology as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogising speaking thus of human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming-as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory—de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about 9.8 m/s$^2$ on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory—de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory—de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory—de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of meaningfulness-and-teleology as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-verdicality of the meaningfulness-and-teleology itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values
independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to *historiality/ontological-eventfulness*/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory-de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory-de-mentativity) to prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling
in the conception of meaningfulness-and-teleology$^{100}$ ontological-performance$^{100}$-including-virtue-as-ontology as of the transcendental implications in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity$^{67}$—of-the-human-institutionalisation-process$^{67}$ of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue, we can appreciate that the successive registry-worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and the ontological-contiguity$^{67}$—of-the-human-institutionalisation-process$^{67}$ in the first place; with the notional-deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in \textit{amplituding/formative–epistemicity} totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in \textit{amplituding/formative–epistemicity} totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in \textit{amplituding/formative–epistemicity} totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as being the absolute ontological determinant of meaningfulness-and-
teleology\textsuperscript{100} ontological-performance \textsuperscript{72}-<including-virtue-as-ontology>, and that meaningfulness-and-teleology\textsuperscript{100} as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the \textsuperscript{45}<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \textsuperscript{3} of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{72}-<including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of prospective \textsuperscript{1} deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought with regards to our positivism–procrypticism, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing–<perspective–ontological-normalcy/postconvergence>} for the conception of meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{72}-<including-virtue-as-ontology> is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology\textsuperscript{100}–in-existential-extrication-as-of-existential-unthought\textsuperscript{6} naively construed \textsuperscript{4}<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{72}-<including-virtue-as-ontology>, with regards to its capacity of appreciating prospective relatively profound pure-ontology as herein implied that de-mentatively/structurally/paradigmatically supposedly
supersedes our positivism–procripticism registry-worldview’s/dimension’s institutionalisation
reference-of-thought. This explains why fundamentally most human transcendental ideas of
progress have been re-originary–as-unenframed/unbeholdening/outlier-conceptualisation
(imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-

‘proponents ultimate purpose (beyond-the-consciousness-awareness-teleology–in-

transcendental-enabling/sublimating/supererogatory–de-mentativity, however
unintelligible, as a prospective institutional percolation-channelling-in-deferential-
formalisation-transference exercise as validated by ultimate ontological-primemovers-
totalitative-framework with subsequent corresponding formalisation and secondnaturing. The
point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it
can be further contended going by the reality of human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
‘notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-
perspective–ontological-normalcy/postconvergence’–existentialism-form-factor that ‘human
knowledge is necessarily a secondnaturing construction’ and not an ‘intemporal-disposition
construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-
register-of—meaningfulness-and-teleology, which is obviously false since we are temporal-
to-intemporal by our mental-disposition and our virtue with the notional–deprocripticism
registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-
Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche
and institutionalisation, and not an artificial projection that is not real and hence will be
ineffective and circular as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-
supererogation<as-to–‘attendant-intradimensional’-prospectively-
disontologising–preconverging/dementing–apriorising-psychologism>. Thus human
knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal
while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology<in-existentialextrication-as-of-existential-unthought>.

[The notion of ‘beyond-the-consciousness-awareness-teleology<in-existentialextrication-as-of-existential-unthought>’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology<in-existentialextrication-as-of-existential-unthought>’ speaks of the mental state as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-
supererogation<as-to–‘attendant-intradimensional’-prospectively-
disontologising–preconverging/dementing–apriorising-psychologism> by its relative-
ontological-incompleteness-of-reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-
temporal-preservation-entropy-or-contiguity–or–ontological-preservation (also referred to as ‘uninstitutionalised-threshold’) where the mental-disposition/mindset/reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology<in-existentialextrication-as-of-existential-unthought> implies ‘conscious’ and/or ‘unconscious’ as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-
supererogation<as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism> at the uninstitutionalised-threshold of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental
analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation
social-setup someone accused another of sorcery. It is hardly the case that we can absolutely
say they committed a conscious immoral act with their accusation of sorcery since the
ontological-completeness-of-\textsuperscript{84} reference-of-thought as knowledge-framework available to them
doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-
certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-
sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather
affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-
social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively
relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology\textsuperscript{100} \textsuperscript{-in-existential-extrication-as-of-existential-unthought}. Of course, where supposed someone from a positivistic social-setup
found themselves in such a non-positivistic social-setup and equally proffered such an
accusation of sorcery, then their conscious immorality is fully engaged as being in full-
conscious-capacity with respect to their deception going by their positivistic prospective
relative-ontological-completeness\textsuperscript{88} \textsuperscript{-of-\textsuperscript{84}reference-of-thought that supersedes superstitions

knowledge-as-virtue arises the temporal-dispositions denaturing its reference-of-thought–
categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-

induced beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-ofexistential-unthought> as of registry-worldview/dimension uninstitutionalised-threshold explains why fundamentally issues of reference-of-thought defect or perversion-of-

supratransversality<in-sublimating–existential-eventuating/denouement>–of-motif-and-
apriorising/axiomatising/referencing associated with intemporality/longness and construed as
‘intemporality-asymmetric-subsumption-of-temporality’ since it is ‘not equable’ with the
relative shallowness as temporal/shortness-of-register-of-meaningfulness-and-teleology
in intradimensional construal of meaningfulness-and-teleology but projects directly in
grasping fundamentally the issue of relative-ontological-incompleteness\(^8\) of reference-of-thought and the corresponding virtue-as-ontology implications; as insightfully, an arising issue of accusation of sorcery in non-positivism as medieval or animistic setting is more fundamentally/de-mentatively/structurally/paradigmatically as of aetiologisation/ontological-escalation a question of their relative-ontological-incompleteness\(^8\) of reference-of-thought as it endemises/enculturates such notions as its vices-and-impediments\(^10^6\) and the same approach applies to our state of positivism–procrypticism involving \(\text{81}\) procrypticism–or–disjointedness-as-of reference-of-thought-as-misappropriated\(^5\) meaningfulness-and-teleology\(^10^0\) as it endemises/enculturates\(^7\) perversion-of reference-of-thought\(^5\) as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > of positivistic meaningfulness as vices-and-impediments\(^10^6\) requiring its preemption by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology\(^10^0\) as of prospective notional–deprocrypticism institutionalisation.

This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary–as-unenframed/unbeholdening/outlier-conceptualisation\(\{\text{imbued-postconverging/dialectical-thinking-`}\text{projective-insights}'/\text{epistemic-projection-in-conflatedness -of-notional–deprocrypticism-prospective-sublimation}\)^\(^9\) transcendental notions of intemporalit\(y\)/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttlingly demonstrated with ‘cultural diffusion driven transcendence-and-sUBLIMITY/sUBLIMATION/sUPEREROGATION–DE-MENTATIVITY’, the mechanism of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not a simplistic transference from a
more ontologically-completeness-of-reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-
thought. is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposurer-⟨as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>⟩, which may wrongly imply being out of the scope of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional–firstnaturedness—temporal-to-intemporal-dispositions-⟨so-construed-as-from-perspective–ontological-normalcy/postconvergence⟩’—existentialism-form-factor, and thus fundamentally undermine ontologically-veridical analysis where exceptionalism is adhered to instead of the mediocrity principle. This quite sums up the mechanism by which re-originary–as-unenframed/unbeholdening/outlier-conceptualisation⟨imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ‘-of-notional–deprocrypticism-prospective-sublimation⟩ transcendental ideas (transcendental in terms–as-of-axiomatic-construct of putting in question the prior ‘-devolving, beyond just novel ideas within the same ‘reference-of-thought–devolving, beyond just novel ideas within the same ‘reference-of-thought), whether by diffusion or internal transformation, come to be dominant when ontologically pertinent; as even the ‘moult’ intellectual/emancipator, beyond-the-consciousness-awareness-teleology ⟨in-existential-extrication-as-of-existential-unthought⟩, is coming from a point of habitation with prior traditional ideas (consider the case of Newton with alchemic notions),
wherein acceptance of the new ideas they are purporting only comes after an unconscious process of suspicion and denial of such nagging new ideas until they arrive at a firm point of supplanting—conviction—as-to-profound-supererogation—of—attendant—intradimensional—postconverging/dialectical-thinking—apriorising-psychologism before admitting to themselves the possible veracity/ontological-pertinence of the ideas, and so as their very own <amplituding/formative-epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which makes it unsurprising that even socially <amplituding/formative-epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is a necessary process for the ultimate acceptance of prospective ontological-primemovers-totalitative-framework as this subsumes-as-supplant—as-of-the-more-profound-construal-of-existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context the prior ontological-primemovers-totalitative-framework. It is hardly the case of just a direct intemporal sense of meaningfulness-and-teleology transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identititive-constitutedness consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation <amplituding/formative-epistemicity>totalising—renewing—realisation/re-perception/re-thought—as-utter-placeholder—setup—ontological-rescheduling{(by—a—renewing—of—apriorising/axiomatising/referencing—psychologism—as—the—new—referencing—basis—of—prospective—meaningfulness—and—teleology} as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). It
is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of crossgenerational purposefulness (whether beyond-the-consciousness-awareness-teleology\(^{16}\) \(<\text{in-existential-extrication-as-of-existential-unthought}>\)). This equally explains why in all epochs, however different the nature, there is an inherent temporal mental-disposition abhorrence of transcendental ideas as putting into question the present and present interests (for instance, even the industrial revolution when considered as actually generating material wealth was poorly perceived by many trade guilds). It is only the ‘imbricatedness/threadedness/recomposuring as of existentialising/contextualising/textualising-contiguity\(^{19}\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^{88}\)-of-reference-of-thought\(^{20}\) devolving-as-of-instantiative-context as to existence-potency\(^{13}\)–sublimating–nascence,–disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the ‘postconverging-or-dialectical-thinking\(^{20}\)‘ reference-of-thought in relative-ontological-completeness\(^{88}\) as depth-of-thought’) that allows for ‘a relative teleological-differentiation/scission/variance/disambiguation of references-of-thought’ as to what the appropriateness-of\(^{84}\) reference-of-thought-as-of-conflatedness\(^{12}\) (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) and the \(\gamma\) perversion-of\(^{84}\) reference-of-thought\(<\text{as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}>\) (defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) truly are, and the implications thereof with regards to ‘meaningfulness-and-teleology\(^{100}\)’ (purposeful architectural

Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) taken involves rewards depending on how big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like deliberately using the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements as perversion-of-’reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (more like the ‘covert negative vista’ of the hidden-nature/unavailable social universal-transparency—{transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness } of psychopathy especially at adulthood). Now supposed to resolve a ‘purposeful measurement’ (meaningfulness-and-teleology), A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of-reference-of-thought-as-of-conflatedness) and find out that the numbers measured and to be added are 5+2 and is trying its best thereafter to resolve the sum but fails in its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and gives 9 as the answer, this doesn’t void logically re-engaging with A with respect to other sums in terms of aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-
measurements to be undertaken (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying 6 + 3 instead of 5 + 2 (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as 5 + 2) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) is flawed since B is not committed due to its perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>.

speaks of the possibility of B denaturing\(^1\) an infinite number of additional calculations (to the
extent where it is ‘socially-functional-and-accordant’\(^2\) to do so, i.e. functionally possible in the
social context). Unlike the case with A having to do with A’s addition ability but whose

of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-

teleological disposition of B inherently carries the defect (to the point that B can be socially-
functional-and-accordant while committing the defect, i.e. where the veridical
notion/axiomatic-construct of the defective

universally transparent as a ‘negative covert vista’). Now supposed we are in a social context
where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B.
In the instance where C is ignorant of B’s Being/ontological/existential—defect, there is a
possibility of re-engaging with C but only where B’s condition is exposed to it, but where the

It should be qualified that postlogism (psychopathy) and conjugated-postlogism (as social psychopathy) are enabled, endemised and enculturated by the possibility of the phenomena being socially-functional-and-accordant without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical meaningfulness-and-teleology). Further more than postlogism and conjugated-postlogism being just passively socially-functional-and-accordant, a more active socially-functional-and-accordant framework is often induced by extrinsic-attribute on the token of eliciting ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’. This is highly specific and circumscribe for efficacy-sake from accrued involvement with childhood psychopathy (with regards to adult psychopathy or adult postlogism) wherein achieving the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance threshold enabling postlogism/psychopathy and/or conjugated-postlogism/social-
psychopathy involves an insight about how ‘lack of constraining social universal-

Besides and critically as well, in addition to this inherently induced faulty-mentation-procedure-deception involved with the state of postlogism-as-of-compulsing—nonconviction/madeupness/bottomlining<as-decontextualising/de-existentialising—of-attendant-intradimensional—apriorising/axiomatising/referencing—induced-disontologising—of-the—attendant-intradimensional—ontologising—imbued—contextualising/existentialising—attendant-ontological-contiguity>, in shallow-supererogation,<disontologising-perverted-outcome-sought-precedes-existentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing—logical-dueness> and its protraction into conjugated-postlogism/social-psychopathy, postlogism and conjugated-postlogism is equally and decisively sustained socially by the accompanying inherent disposition to uphold the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance thereafter as of mechanical-knowledge (given that inevitably social confliction is bound to arise in the social-setup with the phenomena of postlogism/psychopathy and conjugated-postlogism/social-psychopathy), and as the mere recurrence of such social confictions associated with the postlogism/psychopathy and conjugated-postlogism/social-psychopathy

In this regard, prelogism-as-of-conviction,-in-profound-supererogation<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> minds generally adopt a generalising approach for determining ‘the overall registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance experiences and recounts with any specific individual’ including psychopathic or conjugated-postlogism, and in so doing construe dichotomously the said individual’s as adhering or not-adhering to the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (and so specifically judged rather in various shades of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance implied mechanical-knowledge), as entails with associating or not associating the said individual in given occasions or in specifically given aspects of life depending on such experiences and recounts. With this in mind (based on its dormant childhood development experience), the adult psychopathy personality
arising from its growth experience (and correspondingly the protraction into conjugated-postlogism behaviour in this regard), wherein its childhood psychopathy failing the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance induced a shift in behaviour such that in lieu of ‘such preposterous acts-and/or-narratives of vicious postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining\(^\ast\)

For instance, as highlighted further below where John in a ‘dereifying act’ spills water on a chair, his ‘misconception of meaningfulness-and-virtue’ involving such a mental-disposition of ‘compensating directed pseudo-virtue acts-and/or-narratives’ may be to do some house chore but rather in ‘crude behaviour manner’ that reveals an ad-hoc quest to re-establish the registry-worldview’s/dimension’s– reference-of-thought-for-social-functioning-and-accordance with others. The adult psychopathy personality development arising from this fundamental faulty-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’ at childhood, further evolves a long way with a constantly readjustment process to ultimately enable the credulity for the registry-worldview’s/dimension’s– reference-of-thought-for-social-functioning-and-accordance at adult psychopathy, such that at adulthood social \(^{10}\) universal-transparency\(^{10}\) \{transparency-of-totalising-entailing,-as-to-entailing- \} as of existentialising/contextualising/textualising-contiguity \(^{88}\) ’s-reifying/elucidating-of-prospective-relative-ontological-completeness \(^{64}\) of reference-of-thought- \(^{65}\) devolving-as-of-instantiative-context of its underlying postlogism \(^{72}\) as of compulsing–nonconviction/madeupness/bottomlining-\{<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity> \}, in shallow supererogation \<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>\} often gets lost enabling its faulty-mentation-procedure-deception at adulthood. This faulty-mentation-procedure-deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc
trite association between committing a given vicious act and initiating a given limited ‘compensating directed pseudo-virtue act-and/or-narrative’ in compensation as is the case at childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance (but rather requires a more profound association of the ‘postlogism’-as-of-compulsing—nonconviction/madeupness/bottomlining—(‘<decontextualising/de-existentialising—of-attendant—intradimensional—apriorising/axiomatising/referencing—induced-disontologising—of-the—attendant—intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant—ontological-contiguity>—,in-shallow-supererogation—<disontologising-perverted-outcome—sought-precedes-existentially-veridical—‘attendant—intradimensional—apriorising/axiomatising/referencing’—logical-dueness—}) vicious acts-and/or-narratives’ and ‘compensating directed pseudo-virtue acts-and/or-narratives’). As then during its childhood the ‘compensating directed pseudo-virtue acts-and/or-narratives’ are relatively universally transparent socially for what these truly are, as rather being associated with its faulty-mentation-procedure-deception mental-disposition of perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing—in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation, ‘than just merely or confused with innocent virtue acts-and/or-narratives’; and as ‘interlocutors in prelogism—as-of-conviction,—in-profound-supererogation—<existentially-veridical—‘attendant—intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising—logical-outcome—arrived-at— come to grasp the deliberativeness/consciousness of the artificial and fallacious systematic eliciting of ‘compensating directed pseudo-virtue acts-and/or-narratives’ as a crude-trite-compensating mechanism for its urge to commit ‘postlogism’—as-of—compulsing—nonconviction/madeupness/bottomlining—.

Whereas at adulthood psychopathy the overcompensating involves a surreptitious upending/undermining/blurring of this underlying insight that the ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ is rather as of a personality development derived-from and connected-with such fallacious crude-trite-compensating at childhood; such that it is then adopted and relayed as contending thus wrongly validating its apriorising—reference-of-thought-elements/apriorising—registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology (which are actually outside existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) as first-level deception, and thus enabling the infinite possibilities of second-level deception from their logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. sublimity/sublimation/supererogatory–de-mentativity can be further elucidated with regards to
two remarkable historical developments which while inherently exceptional, to say the least,
aren’t truly transcendental. Consider for instance that transcendental is generally considered as
the central notion of Kantian philosophy. The reality however is that the supposed
transcendentalism is actually an elaboration in the terms of the actual and true rational-
empiricism/positivism reference-of-thought transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity established by Descartes’ thinking
proposition and scepticism exercise as the fundamental basis for continuously re-elaborated
‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity (Copernican revolution) is not eliciting a

Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation of its limited-mentation-capacity-deepening. It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening—limited-mentation-capacity,~as-limited-mentation-capacity-deepening. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency~sublimating–nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing—that-further-epistemically-
It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/ALCHEMY/ESSENCE/medieval registry-worldview/dimension certainly does has a name (transcendence-and-sublimity/sublimation/supererogatory~de-mentativity). But then it is more the case that from an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> posture holding only one registry-

In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the contextualising-contiguity of existence as of human shallow-to-deepening—limited-mentation-capacity,—as-limited-mentation-capacity-deepening as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive-or-accidented-or-random-mental-disposition to successively profoundly apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated
with human limited-mentation-capacity-deepening”, as further elaborated in this paper. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural-~psychological-dynamics’ psyche as ‘<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-

apriorising/axiomatising/referencing~psychologism-as-the-new-referencing-basis-of-
prospective~meaningfulness-and-teleology｝’ of positivistic physics right back then in their epoch such that the overall underlying principle of ontological-primemovers-totalitative-framework as transcendental-enabling/sublimating/supererogatory–de-mentativity back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to ontological-primemovers-totalitative-framework that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic
was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/superoogatory-de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/superoogatory-de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/superoogatory-de-mentativity construction having to do with an agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our

Thus attendantly and ontologically, recurrent-utter-uninstitutionalisation is preconverging-or-dementing—apriorising-psychologism and decentered thus subsumed-as-supplanted (given its failing/not-upholding—as-of-apriorising/axiomatising/referencing> of rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism) relative to base-institutionalisation—ununiversalisation as postconverging-or-dialectical-thinking—apriorising-psychologism and centered, with the latter preconverging-or-dementing—apriorising-psychologism and decentered thus subsumed-as-supplanted (given its failing/not-upholding—as-of-apriorising/axiomatising/referencing> of universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism) relative to universalisation—non-positivism/medievalism as postconverging-or-dialectical-thinking—apriorising-psychologism and centered, with the latter preconverging-or-dementing—apriorising-psychologism and decentered thus subsumed-as-supplanted (given its failing/not-upholding—as-of-apriorising/axiomatising/referencing> of positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism) relative to our positivism—procrpticism as postconverging-or-dialectical-thinking—apriorising-psychologism and centered, with the latter preconverging-or-
reflecting the prospective/transcending/superseding registry-worldview of reference-of-thought suprastructuration as the ‘new ontologically-veridical becoming-or-present-of-reference-of-thought’ since there ‘cannot be two different becoming-or-present-of-reference-of-thought’ but rather that the prospective/transcending/superseding suprastructuration is by its prospective relative-ontological-completeness of reference-of-thought the becoming-or-present-of-reference-of-thought. However, in all the de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) implied successive institutional-cumulation/institutional-recomposure (as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective-ontological-normalcy/postconvergence-reflected—epistemicity-relativism), such a ‘confusion of relative ontologically-veridical becoming-or-present-of-reference-of-thought’ induces an underlying ‘paradox of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ involved in all such transcendence-and-sublimity/sublimation/supererogatory-de-mentativity wherein mental-dispositions as of reference-of-thought are caught between the prospective/transcending/superseding registry-worldview prospective relative-ontological-completeness of reference-of-thought and the prior/transcended/superseded registry-worldview prior relative-ontological-incompleteness of reference-of-thought, with respect to ‘meaningfulness-and-teleology referencing. Consider in this case the human condition of transience of reference-of-thought as experienced by Okonkwo returning from banishment to Umuofia village in Chinua Achebe’s Things Fall Apart. prospective relative-ontological-completeness⁰ —of—reference-of-thought and implying rather a
prospective transcendental depth-of-thought/ reference-of-thought. This equally explains why
the implied supratransversality<in-sublimating—existential-eventuating/denouement>—of-

necessarily a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting
posture’ of intemporality —asymmetric-subsumption-of-temporality/ontological-
asymmetrisation that needs to take into account this ‘paradox of transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity’. And critically so, because beyond just
‘human conscious willing’, transcendence-and-sublimity/sublimation/supererogatory–de-
mentativity necessarily implies the ‘prospect of humans to appreciate/understand
meaningfulness-and-teleology—beyond-the-consciousness-awareness-teleology—<in-
existential-extrication-as-of-existential-unthought>’; such that, de-
mentatively/structurally/paradigmatically/necessarily, that which gets to
‘conceptualise/construe beyond-the-consciousness-awareness-teleology<in-existent-
extrication-as-of-existential-unthought>’ is necessarily ontologically-asymmetrical as rather
imbued with intellectual-and-moral responsibility over that which doesn’t get there (and so,
even with regards to a basic non-transcendental construal of asymmetrisation within a same
registry-worldview’s/dimension’s reference-of-thought like Doctor –Patient, Parent –Child,
Server –Customer, Teacher –Student etc. as ensues from a Derridean binary opposition
analysis). However at uninstitutionalised-threshold, the notion of intemporality-
asymmetric-subsumption-of-temporality/ontological-asymmetrisation is not readily
acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at
play with those adhering to the prior/transcended/superseded reference-of-thought–

Hence the reason why the vices-and-impediments inherent of a given registry-worldview/dimension cannot be dementatively/structurally/paradigmatically/ontologically resolved within it as there is need for prospective ontological-completeness-of reference-of-thought structured to inherently
supersede such vices-and-impediments, whether as base-institutionalisation in superseding recurrent-utter-uninstitutionalisation, universalisation superseding base-institutionalisation–ununiversalisation, positivism superseding universalisation–non-positivism/medievalism and deprocrypticism superseding positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought. The central idea here being that the most critically important notion in the situation of A, B, C, D, E, F and Z, is Z’s upholding of prospective transcendental-enabling/sublimating/supererogatory–de-mentativity over any temporal extricatory preconverging–de-mentating/structuring/paradigming, however, the enculturation and mass thinking behind temporal extricatory preconverging–de-mentating/structuring/paradigming. (* Noting that individuation as defined elsewhere speaks of temporal-to-intemporal trait characteristic, as anywhere between shortness-to-longness-of-register-of–meaningfulness-and-teleology, that can accrue atleast incidentally/on-occasion in all individuals-as-receptacles-of-individuations but more recurrently as teleologically defining in a-life-phase-or-life-phases-of-given-individuals, thus critically enabling a dynamic-cumulative-aftereffect

existential-eventuating/denouement\textendash of-motif-and-apriorising/axiomatising/referencing, can be demonstrated in the archetype characters of say a Socrates or Rousseau (even though no human individual as receptacle of individuations can be qualified as purely of intemporal-disposition or purely of temporal-dispositions). Wherein within their respective registry-worldviews/dimensions setups, their maximalising-as-transcendental recomposuring mental-dispositions in projection for prospective institutionalised-being-and-craft, i.e. ontologising of future conventioning, as supratransversality\textless in-sublimating\textendash existential-eventuating/denouement\textendash of-motif-and-apriorising/axiomatising/referencing (as the grander intellectual-and-moral effort that can be made within their registry-worldviews/dimensions) is rather poorly construed to the ordinariness/averageness of thought within their respective registry-worldviews/dimensions setups (which mental-dispositions and conventioning –as ‘wrongly-projected decontextualising-unimbricatredness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation \textless as-to-‘attendant-intradimensional’\textendash prospectively-disontologising–preconverging/dementing \textendash apriorising\textendash psychologism\textgreater \textsuperscript{84} reference-of-thought’ in shallowness-of-thought-or-unsophistication-of-understanding) in grasping existentialising/contextualising/textualising-contiguity\textsuperscript{85}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{88} of\textsuperscript{84} reference-of-thought– devolving-as-of-instantiative-context as to existence-potency \textendash sublimating\textendash nascence,\textendash disclosed-from-prospective-epistemic-digression rules-of apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ –will rather think as irrational the projective disposition of a Socrates that doesn’t rather advance a temporal interest in the city-state polity but is rather bent on spreading new ideas as a natural philosopher while prioritising as of nonextricatory-existential-preempting-of-existential-unthought in his asceticism\textendash the prospective intemporal
over the temporal status quo, and likewise with a Rousseau who isn’t advancing a temporal interest that his aristocratic stature should warrant like actively pursuing for landed properties and currying favours with kings but is rather bent principally on a prospective commitment on grasping and spreading notions of a renewal of the human condition as universal rights and enlightened despotism. This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness-or-ontological-reprojecting that then ‘invents/creates’ the de-mentative/structural/paradigmatic possibility for prospective institutionalised-being-and-craft as there isn’t any inherent intemporality /longness but for the disposition for maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation out of the apathy of the ordinariness/averageness of any prior registry-worldview/dimension institutionalised-being-and-craft setup. Hence such intemporality /longness as maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation need its amplituding/formative-epistemicity-totalising-renewing-realisation/re-perception/re-thought in inducing secondnatured institutionalisation given that the-succession-of-registry-worldviews-or-dimensions-institutionalisations as to the-ontological-contiguity—of-the-human-institutionalisation-process is ‘not a human emanance/seeding/incipient—transformation-<asto-Derridean-messianicity-wherein-even-when-the-messiah-as-intemporal-drive-comes-they-still-have-to-come> of temporal-dispositions/shortness-of-register-of-meaningfulness-and-teleology into the intemporal-disposition/longness-of-register-of-meaningfulness-and-teleology but rather is solely a secondnaturting to supersede the uninstitutionalised-threshold (is not about the firstnaturedness of human dimensionality-of-sublimating-<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-

The implication is that acting as-of-a-‘secondnatured reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation nature’ is not enough for articulating prospective institutionalisation requiring ‘intemporal projection \(4\)’ totalising–renewing-realisation/re-perception/re-thought’ for the requisite prospective maximalising-recomposuring-for-relative-ontological-completeness \(\Rightarrow\) unenframed-conceptualisation, and such conceptualisations from only a secondnatures of thought as rather contextually temporal is not ‘intemporal as of-universal-and-abstractive originariness-parrhesia,–as–spontaneity-of-aestheticisation nature’ but is rather in totalising–self-referencing-syncretising’/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence (implicated-‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness \(\Rightarrow\)). Thus a registry-worldview’s/dimension’s institutionalisation secondnatures is challenged by its very own level of relative-ontological-incompleteness \(\Rightarrow\) induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ \(\Rightarrow\) as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism’ marking its uninstitutionalised-threshold \(\Rightarrow\) whether as recurrent-utter-uninstitutionalisation with recurrent-utter-uninstitutionalisation, ununiversalisation with base-institutionalisation, non-positivism-or-medievalism with universalisation and procrypticism with positivism, in need for a renewed institutionalisation respectively as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. This
equally explain why the notion of human transcendental progress is relatively ‘re-originary–as-unenframed/unbeholdening/outlier-conceptualisation ⟨imbued-postconverging/dialectical-thinking ⟩-projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation⟩ driven’ as it requires an intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of thought more than just institutionalised secondnaturings such that it has often been the erudition periphery of institutional-cumulation/institutional-recomposure ⟨as-to- historiality/ontological-eventfulness ⟩/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflect-‘epistemicity-relativism’⟩ that had tended to fundamentally put into question their present with new postconverging–dementating/structuring/paradigming shifts. It is ontologically-speaking impossible to comprehensively undermine a dimension’s/registry worldview’s postlogism \(^7\) without undermining the registry-worldview’s/dimension’s reference-of-thought itself as implied by its state of relative-ontological-incompleteness \(^8\)-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ \(<as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism’⟩, for instance psychopathy in positivism–procrypticism or notions of sorcery in universalisation–non-positivism/medievalism (wherein from the prospective point-of-reference respectively as notional–deprocrypticism or positivism, it is in de-mentation \(\langle\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\rangle\) as of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology \(\langle\rangle\)), given that this fundamental relative-ontological-incompleteness \(^9\)-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ \(<as-to–‘attendant-

mentative/structural/paradigmatic phenomenon in terms-as-of-axiomatic-construct of the larger aetiologisation/ontological-escalation) just as positivism is the de-
mentative/structural/paradigmatic ontological resolution of notions-and-accusations-of-sorcery, and ad-hoc tempering with medieval postlogism (disontologising-perverted-outcome-sought-

For instance, the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superseding~de-mentativity of a medicine based on natural causes and drugs as natural cures carried the effectiveness/ontological-primemovers-totalitative-framework that undermined non-positivism/medievalism sanctified-conventioning-social-aggregation-enablers to do away with such notions as curses, sorcerers, etc. being the cause of disease, and undermine the whole teleologically-degraded dispositions based on such sanctified-conventioning-social-aggregation-enablers. Likewise only by articulating comprehensive and effective aetiologisation/ontological-escalation resolutions to the defect of procrypticism and its postlogism first with respect to formal constructions that the derived effectiveness/ontological-primemovers-totalitative-framework can feed back as percolation-channelling-<in-deferential-formalisation-transference> to dimensionally (registry-worldview) to undermine the relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism’ of our procrypticism and accessorily its enculturating/endemising of psychopathy and social psychopathy. postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-
follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism’ or prelogism in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism’ or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism-as-of-conviction,-in-profound-supererogation—existentially-veridical—‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at (‘poor or bad supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism’), whether by omitting or exaggerating in a circumspect and ad-hoc manner but relative to existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reifying/elucidating-of-prospective-relative-ontological-completeness of ‘reference-of-thought’ devolving-as-of-instantiative-context. What the psychopath is doing is \textquoteleft SLANTING\textquoteright\ as of compulsive-slanting—preconverging-or-dementing\textsuperscript{19} apriorising. That is to arrive at a sought-outcome by subknowledging\textquoteright or-mimicking the non-veridical hollow-form of the meaning of other persons supplanting–conviction-as-to-profound-supерerogation \textquoteleft of\textquoteleft attendant-intradimensional\textquoteright postconverging/dialectical-thinking apriorising-psychologism narratives which it perceives as \textquoteleft being blatantly deterministic\textquoteright of the views and actions of the \textquoteleft normal prelogism\textquoteright as-of-conviction,-in-profound-supерerogation\textquoteright \textquoteleft existentially-veridical–\textquoteright attendant-intradimensional–apriorising/axiomatising/referencing\textquoteright logical-dueness-precedes-disontologising-logical-outcome-arrived-at\textquoteright mind\textquoteright, i.e. the psychopath is \textquoteleft narrating veridical emptiness/hollow narratives\textquoteright. The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting–conviction-as-to-profound-supерerogation \textquoteleft of\textquoteleft attendant-intradimensional\textquoteright postconverging/dialectical-thinking apriorising-psychologism on narratives but rather simply \textquoteleft the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real\textquoteright. Thus the psychopathic postlogic mindset and by derivation
conjugated-postlogism/preconverging-or-dementing\textsuperscript{19}-integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating/supererogatory-de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism\textsuperscript{8} and its derivation/adoptions by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism\textsuperscript{7}. More precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism ‘as-of-’ compulsing–nonconviction/madeupness/bottomlining\textsuperscript{6} and the notion of a lie which is in manifest prelogism ‘as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness> and the notion of a lie which is in manifest prelogism ‘as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness> and the notion of a lie which is in manifest prelogism ‘as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> (be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation’ —of-‘attendant-intradimensional’-postconverging/dialectical-
thinking—apriorising-psychologism') as with a lie the implied–logical-dueness (with the corresponding implied—reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge associated with postlogism—as-of—compulsing—nonconviction/madeupness/bottomlining—(<decontextualising/de-existentialising/of-attendant-intradimensional—apriorising/axiomatising/referencing—induced-disontologising—of-the—attendant-intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant-ontological-contiguity>—<disontologising-perverted-outcome—sought-precedes-existentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing—logical-dueness>) with respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced as conjugated-postlogism—opportunism and conjugated-postlogism—exacerbation arises out of purposeful
enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant, since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existentialising/contextualising/textualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness reference-of-thought- devolving-as-of-instantiative-context, whereas the latter is exactly what validates logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profund-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology, with respect to construing meaningfulness as prelogism as-of-conviction,-in-profund-supererogation existentialily-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’ logical-dueness-precedes-disontologising-logical-outcome-arrived-at, but instead construes meaningfulness as postlogism as-of-compulsing–nonconviction/madeupness/bottomlining ⟨‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity>-in-shallow-supererogation -<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness⟩⟩ explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity with regards to inherent reality and
meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-
non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is
followed by the projection of another hollow falsehood narrative on the basis of the former as if
the former was true, and the projection of another falsehood narrative on the basis of the
previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent
whole of narratives’ with respect to existentialising/contextualising/textualising-contiguity’s-
reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-
thought-devolving-as-of-instantiative-context as is the case when someone tells a lie, and
actually where such a ‘coherent whole of narratives’ with respect to existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context is wrongly implied about slanting, it has to do with prelogism-as-of-conviction-in-
profound-supererogation’s-existentially-veridical-attendant-intradimensional-apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-
outcome-arrived-at-mind/mental-disposition ‘wrongly conjoining the succession of slanting
narratives from the last iterated slanted narrative’ to wrongly imply that the slanting psychopath
narratives are a ‘coherent whole of narratives as of existentialising/contextualising/textualising-
contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context’, and this is the mechanism that
induces conjugated-postlogism /preconverging-or-dementing-integration by some
interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to
note that at childhood psychopathy where the mental-disposition is relatively universally-
transparent what is perceived and related to by supplanting-conviction-as-to-profound-
supererogation’s-attendant-intradimensional-postconverging/dialectical-thinking
apriorising-psychologism interlocutors is not a ‘coherent whole of narratives’ but a
deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism-as-of-conviction,-in-profound-supererogation<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> alignment to psychopathic slanting is actually a mental-unsoundness not different as contemplating aligning in supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge due to psychopathic developmental failure to relate to meaningfulness as of prelogism-as-of-conviction,-in-profound-supererogation<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of–social-stake-contention-or-confliction, induces interlocutors prelogic supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism alignment to its postlogic compelling–nonconviction/madeupness/bottomlining<decontextualising/deexistentialising–of–attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the–‘attendant-intradimensional–ontologising’–imbued-

whereas at childhood psychopathy interlocutors will not align in prelogic supplanting conviction-as-to-profound-supererogation of ‘attendant-intradimensional’ postconverging/dialectical-thinking –apriorising-psychologismly (in order not to wrongly conjoin the psychopathic postlogic slanting narratives as deception-of-successively-shifting-or-non-cohering-narratives-and-acts as if of coherent whole as prelogic supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism narratives, and this is what actually occurs by inducing conjugated-postlogism/preconverging-or-dementing–integration in interlocutors at adulthood psychopathy) given the obvious and transparent deliriousness/delirious-effect/cinglé-effect associated with slanting over a slant over a slant, successively. Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing –apriorising-psychologism. Thus, with slanting the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-ontological-bad-faith/inauthenticity–reference-of-thought/preconverging-or-dementing –apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-ontological-good-faith/authenticity–of-
apriorising/axiomatising/referencing’-logical-dueness> doesn’t register naturally except where the personality development of the childhood psychopathy into an adult psychopath is experienced closely, and the adulthood psychopath mentation processes structure can be retraced to the delirious mentation processes structure at childhood psychopathy when it is universally transparent as maturation/indirectness/spatialisation/credulity/craftiness continually developed during its personality development into adulthood psychopathy now enables it becoming socially-functional-and-accordant. This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of existentialising/contextualising/textualising-contiguity by its dereification on a mental-processing disposition that is rather a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’, and so in contrast with the expected ‘reifying nuanced/multivalent mental-processing’ of supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism— dispositions in existentialising/contextualising/textualising-contiguity, however bad-or-poor their ontological-performance —<including-virtue-as-ontology> of supplanting–conviction-as-to-profound-supererogation —of ‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism— mental-processing. This underlies the apparent vividness of interlocution with the psychopath especially with regards to social-stake-contention-or-confliction due to a ‘supplanting–conviction-as-to-profound-supererogation —of ‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism— manifestation of the
interlocutor by its mental-reflex is wrongly inclined to perceive and so specifically with adult psychopathy a ‘reifying nuanced/multivalent mental-processing’ in existentialising/contextualising/textualising-contiguity knowledge-reification with regards to the psychopath ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutor reifying perception of the psychopath’s dereifying projection of existentialising/contextualising/textualising-contiguity, while the psychopath view of the supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism interlocutor’s supposedly ‘reifying nuanced/multivalent mental-processing’ in existentialising/contextualising/textualising-contiguity knowledge-reification is rather as of its ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ inclination as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existentialising/contextualising/textualising-contiguity. While at childhood psychopathy such a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existentialising/contextualising/textualising-contiguity is socially
inefficacious and trouble-inducing giving the deliriousness effect from universal-transparency\textsuperscript{10}\{\text{transparency-of-totalising-entailing,-as-to-entailing-} <\text{amplitunding/formative–epistemicity}>\text{totalising~in-relative-ontological-completeness}\} of its acts, at adulthood psychopathy the lack of such universal-transparency\textsuperscript{10}\{\text{transparency-of-totalising-entailing,-as-to-entailing-} <\text{amplituding/formative–epistemicity}>\text{totalising~in-relative-ontological-completeness}\} of the postlogism\textsuperscript{78}-slantedness rather makes the latter ‘sound impassioned/stirring/vivid/spirited’ to the unsuspecting interlocutor who by mental-reflex wrongly assumes as ontologically-veridical the falsely implied existentialising/contextualising/textualising-contiguity\textsuperscript{9}, giving the psychopath life-long learnedness and adaptation from its childhood inefficacy as of its increasing maturation/indirectness/spatialisation/credulity/craftiness with adulthood, and this latter ‘apparently impassioned/stirring/vivid/spirited but rather falsely implied existentialising/contextualising/textualising-contiguity\textsuperscript{9}’ disposition tends to be socially enculturated/endemised as of conjugated-postlogism\textsuperscript{9}. But then, more than just the deception this state of affairs has a further nefarious effect on the natural human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, as the induced ‘lack of constraining social universal-transparency\textsuperscript{10}\{\text{transparency-of-totalising-entailing,-as-to-entailing-} <\text{amplituding/formative–epistemicity}>\text{totalising~in-relative-ontological-completeness}\} with respect to intrinsic meaningfulness further elicits supplanting–conviction-as-to-profound-supererogation\textsuperscript{9}—of ‘attendant-intradimensional’ postconverging/dialectical-thinking –apriorising-psychologism minds temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, which can
actually be more decisive grounds for the perpetuation of psychopathy as social-psychopathy, as the fact is the psychopath is very much pathological and tends to act compulsively in its faulty-mentation-procedure-deception as of circumstantiality.

peculiar psychologisms/psychologism-constructs of meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets/\textsuperscript{84}/reference-of-thought/consciousness-awareness-teleology/\textsuperscript{84}; whether as recurrent-utter-uninstitutionalisation psychologism, base-instutitonalisation–ununiversalisation psychologism, universalisation–non-positivism/medievalism psychologism, positivism–procrypticism psychologism, and prospectively notional–deprocrypticism psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism’ as of their relative-ontological-incompleteness\textsuperscript{84}/reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of existentialising/contextualising/textualising-contiguity\textsuperscript{56}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{88}/reference-of-thought-devolving-as-of-instantiative-context as ontologically-veridical. Thus, notional–deprocrypticism as decentering and preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism the positivism–procrypticism registry-worldview\textsuperscript{84}/reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology\textsuperscript{100} as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/\textsuperscript{84}/reference-of-thought of meaningfulness-and-teleology\textsuperscript{100} with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological
‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental meaningfulness-and-teleology. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendency of philosophies increasingly concerned with the human
realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-primemovers-totalitative-framework’ that has accompanied human limited-mentation-capacity-deepening in construing/conceptualising meaningfullness-and-teleology. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening that actually is behind all threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to-‘attendant-intrdimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism of successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of dementative/structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence (implicated-‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-
constitutedness and metaphysics-of-absence\textsuperscript{\{implicated-epistemic-veracity-of-

This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction rather as socially-functional-and-accordant.\textsuperscript{34} This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold \textsuperscript{3} mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/ reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic \textsuperscript{100} meaningfulness-and-teleology\textsuperscript{100} to engage the non-positivistic social-setup in terms–as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and
contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘human prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms—as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/ reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms—as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold’, across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought– categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation building up from the prior ones as of their respective elucidation-of–existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness–of-reference-of-thought– devolving-as-of-instantiative-context (recurrent-utter-uninstitutionalisation non-rules—apriorising/axiomatising/referencing–psychologism,–as-impulsive-or-accidented-or-random-mental-disposition as failing/not-upholding<as-of-

ontological-completeness of the calculations to be done, it is fair to say ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ in this reference-of-thought is of quasi-intemporal-disposition (and the whole point of human knowledge aspiration and virtue is to achieve this state or deferential-states-of-this-state as with formalisations and percolation-channelling→in-deferential-formalisation-transference). Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigmising but for failure in aposteriorising/logicising/deriving/intelligising/measuring performance as defect–of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance. But then human existential-reality comes with human limited-mentation-capacity-deepening with limited grasp of intrinsic-reality at various stages of human emancipation up to the modern-day, such that social universal-transparency→transparency-of-totalising-entailing→as-to-entailing→amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold mental-disposition’ as of existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought→devolving-as-of-instantiative-context elucidated ontological-normalcy/postconvergence. [We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant -threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the-’reference-of-thought-as-of-’ incrementalism-in-relative-ontological-

This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology

(As a reminder, the notion of intemporality \(^{52}\)/temporality \(^{99}\) is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising \(^{32}\)–self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity as an otherness from any emotional-involvement/subjectification/notional \(^{45}\)<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(^{33}\) predilection of the inquirer’. This elucidation is equally to highlight that the idea of socially-functional-and-accordant \(^{94}\) ‘modular-thresholds’-of-notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>-dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) The fact is with or without postlogism and derived conjugated-postlogism, human reference-of-thought–prelogism-as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’> logical-dueness-precedes-disontologising-logical-outcome-arrived-at tends to be relative. That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t
necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology\textsuperscript{100} \textless in-existential-extrication-as-of-existential-unthought \textgreater ) given our relative-ontological-incompleteness \textless of \textgreater reference-of-thought and secondly by projective-arbritrariness/waywardness in the choices we make, and this get even worst at the uninstitutionalised-threshold \textsuperscript{103}. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute \textsuperscript{8} reference-of-thought–prelogism \textless as-of-conviction,-in-profound-supererogation \textless existentially-veridical–‘attendant-intradimensional-apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at\textsuperscript{84} has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal preconverging–de-mentating/structuring/paradigming and further so with respect to increasing informality as in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology } of all human institutions, and particularly where social \textsuperscript{104}}universal-transparency\textsuperscript{101} \textless transparency-of-totalising-entailing,-as-to-entailing\textless amplituding/formative–epistemicity-totalising–in-relative-ontological-completeness } is blurred \textsuperscript{7} and not forthcoming as logic tends out to be an issue of making-a-mistake-at-one-moment-expressing-the-most-profound-conviction-as-to-profound-supererogation\textsuperscript{107} at-the-other-moment in a circular \textsuperscript{8} reference-of-thought. This tendency is further exacerbated with the dynamic conjugation of temporal-dispositions \textsuperscript{76} ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to postlogism\textsuperscript{76}-slantedness. This delineation is in line with the idea of human temporal (shortness-of-register-of-meaningfulness-and-teleology) to intemporal (longness-of-register-of-meaningfulness-and-teleology) individuations nature as implicitly recognised in the preconverging/postconverging-de-mentating/structuring/paradigming of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge-notionalisation on the basis that it is equally critical to understand the possibility of the ignorances/desublimation just as conceptual sublimation knowledge itself to further uphold, advance and skew for the latter. The point being that meaningfulness-and-teleology construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of reference-of-thought-prelogism-as-of-conviction,-in-profound-supererogation-existentially-veridical-‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold’ the possibility of the ontological-veridicality of interlocutors threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing-apriorising-psychologism mental-dispositions, and as is often associated with mental-dispositions geared towards ‘flawed impression-driven, expletive-driven and non-intellectual critique’ contention. This difference between threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing-apriorising-psychologism and reference-of-thought-prelogism-as-of-conviction,-in-profound-supererogation-existentially-veridical–‘attendant-intradimensional–

This will explain why the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-attendant-intradimensional-prospectively-disontologising-preconverging/dementing-apriorising-psychologism within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension meaningfulness-and-teleology, in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness) knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-completeness-of-reference-of-thought. This imbued potency in social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness) across all registry-worldviews/dimensions is what explains the possibility of social transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed reference-of-thought-prelogism-as-of-conviction,-in-profound-supererogation-existentially-veridical-attendant-intradimensional-apriorising/axiomatising/referencing-logical-dueness-precedes-disontologising-logical-outcome-arrived-at to meaningfulness-and-teleology as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-
construct to function well in order to ‘parasitise’ it, as a failing social-construct as of ‘universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. Basically, the postlogism\textsuperscript{78}-as-of-\textsuperscript{104} compulsion–nonconviction/madeupness/bottomlining\textsuperscript{78}-\textsuperscript{104}<decontextualising/deexistentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-

prospective registry-worldview/dimension predicative-insights of meaningfulness-and-teleology going by its prospective relative-ontological-completeness reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for meaningfulness-and-teleology’ in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness reference-of-thought had moved on to the new/prospective meaningfulness-and-teleology which is now antipodal to his, hence his confliction with his circular-pervasiveness wooden-language imbued averaging-of-thought as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as-of-nondescript/ignorable-void ’-with-regards-to-prospective-apriorising-implications} which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness wooden-language imbued averaging-of-thought as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as-of-nondescript/ignorable-void ’-with-regards-to-prospective-apriorising-implications} when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-reference-of-thought with regards to meaningfulness-and-teleology construal where Nunez’s ‘seeing of the environment’ reference-of-thought as of it prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’
reference-of-thought as of its prior relative-ontological-incompleteness. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications)—that hardly entertains its own transcendability/de-mentativity, and why transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought despite their respective inherent prior relative-ontological-incompleteness—of-reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to—reference-of-thought—apriorising/axiomatising/referencing—from an ontological-normalcy/postconvergence epistemic/notional—projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so—being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in
terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’
reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and
subsequently upon himself. This reflects the mental-disposition of all registry-worldviews

predicative-insights of the former as more ontologically profound, given its ‘circular-pervasiveness
closed-structure of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty is that ‘no given perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run crossgenerational habituation construed as of de-mentation\textsuperscript{(supérerrogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)} with the prior ontologically construed as decentered and preconverging-or-dementing –apriorising-psychologism as of distractive-alignment-to- \textsuperscript{reference-of-thought-<of-apriorising/axiomatising/referencing>}, with the implication that its logical-dueness doesn’t exist just as the logical-dueness of the animist \textsuperscript{reference-of-thought with their God of plane proposition doesn’t ontologically exist.}) We can grasp as well that it is the ‘space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as deprocrypticism) that ultimately provides the ideal ‘ascertaining-
perspectives for gauging the overall earth landscape’. Besides, why the explication herein is necessarily implying a prospective reference-of-thought (as the author in here with a supposed notional–deprocripticism reference-of-thought construal as implying a prospective relative-ontological-completeness reference-of-thought over our positivism–procripticism), the fact is that any transcendental analysis is caught in two worlds as two different reference-of-thought in striving to explicate the ontological pre-eminence of the prospective reference-of-thought as of ontological-normalcy/postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our reference-of-thought being construed as ‘preconverging-or-dementing apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procripticism uninstitutionalisation as preconverging-or-dementing apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold will react when construed as preconverging-or-dementing apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective depcripticism–or–preempting—disjointedness-as-of-reference-of-thought perspective as in disjointedness-as-of-reference-of-thought and rather in distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing> ! Thus the
disjointedness-as-of-reference-of-thought). But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness-of-reference-of-thought over prior relative-ontological-incompleteness’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God of plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness-of-reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional–deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism–or–disjointedness-as-of-reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism as preconverging-
or-dementing –apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage meaningfulness-and-teleology in positivism–procrypticism terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing –apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation–ununiversalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing –apriorising-psychologism with respect to an implied prospective mental state of ununiversalisation, the ‘mental tools’ available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing –apriorising-psychologism with respect to an implied prospective mental state of positivism–procrypticism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing –apriorising-psychologism with respect to an implied prospective mental state of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation, issues of perversion-and-derived/-perversion-of reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation rather render such notions as forgiveness/overlooking/resetting nothing more

forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology temporal/shortness-of-register-of-meaningfulness-and-teleology projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/articulated above as of de-mentative/structural/paradigmatic nature of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s reference-of-thought is inherently a metaphysics-of-presence-\{implicated-'nondescript/ignoreable-void ’-as-to- presencing—absolutising-identitive-constitutedness \} construed as postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s—categorical-imperatives/axioms/registry-teleology soundness-or-ontological-good-faith/authenticity—of-reference-of-thought that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence\{implicated-epistemic-veracity-of-nonpresencing<_perspective—ontological-normalcy/postconvergence>_\} construals/conceptualisations as implied by prospective relative completeness-of-reference-of-thought which rather construes it as a preconverging-or-dementing—and-decentered-prior-institutionalisation’s—categorical-imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity—of-reference-of-thought. The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness of-reference-of-thought and a prospective relative-ontological-completeness of-reference-of-thought, the
former is priorly invalidated into a preconverging-or-dementing\textsuperscript{19}-and-decentered-prior-institutionalisation’s categorical-imperatives/axioms/registry-teleology\textsuperscript{100} unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought by the latter as a postconverging-or-dialectical-thinking\textsuperscript{20}-and-centered-prospective-institutionalisation’s categorical-imperatives/axioms/registry-teleology\textsuperscript{100} soundness-or-ontological-good-faith/authenticity -of- reference-of-thought, invalidating by implication the logical-dueness/logical-pertinence as of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness\textsuperscript{38}-of- reference-of-thought with respect to its prior relative-ontological-incompleteness -of- reference-of-thought. But since we have been habituated as of our existential formation within our <amplituding/formative> wooden-language\{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-’nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications\} to be in logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by default and thus always contendingly relevant on the basis of sharing a mutual positivism reference-of-thought, we will hardly entertain though a notional–deprocrypticism cross-engagement implied invalidation of our logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and thus rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness\textsuperscript{38}-of- reference-of-thought construed as disjointedness-as-of\textsuperscript{44} reference-of-thought. But then ironically such a unde-mentativity posture could as well be adopted by a non-positivism/medievalism reference-of-thought in its own existential formation that recognises
non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s-categorical-imperatives/axioms/registry-teleology with its logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid by default. This point out that there is necessarily a central growth element of a de-mentative/structural/paradigmatic reference-of-thought—categorical-imperatives/axioms/registry-teleology.—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposing’ allowing for de-mentativity and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic amplituding-formative—epistemicity—causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,-for-explicating-ontological-contiguity of vices-and-impediments of our prior relative-ontological-incompleteness -of- reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism-and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness reference-of-thought social referencing of meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution construed as of de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) by superseding the prior non-positivism prior
relative-ontological-incompleteness\textsuperscript{89} of reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness\textsuperscript{88} of reference-of-thought by ‘continuous habituation going by the latter’s ontological-prime movers-totalitative-framework\textsuperscript{71} in the long run as superseding the prior beyond-the-consciousness-awareness-teleology\textsuperscript{109}-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{88} and initiating the appropriate prospective social \textsuperscript{104}universal-transparency\textsuperscript{10}–\textsuperscript{\{transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\}} that will de-mentatively/structurally/paradigmatically harken back to undermine the postlogism\textsuperscript{77}–and-conjugated-postlogism\textsuperscript{78} grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic mindset\textsuperscript{84} of reference-of-thought into a positivistic mindset\textsuperscript{84} reference-of-thought that the possibility of ‘ontologically’ and ‘not palliatively’ resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the crossgenerational resolution of our positivism–procrypticism prior relative-ontological-incompleteness\textsuperscript{88} reference-of-thought as of its circular-pervasiveness in countenancing of procrypticism–or–disjointedness-as-of reference-of-thought from apriorising/axiomatising/referencing/intelligibility setup/measuring instrument-for-operant-or-incidenting-predicative-insights of meaningfulness-and-teleology\textsuperscript{100} as conceptualising, articulating and preempting such disjointing/disparateness/disentailing \textsuperscript{11}meaningfulness-and-teleology\textsuperscript{100} of our positivism–procrypticism that is the de-mentative/structural/paradigmatic resolution as of prospective relative-ontological-completeness of reference-of-thought that can de-mentatively/structurally/paradigmatically harken back in undermining the circular-pervasiveness in countenancing of ‘disjointedness-as-of reference-of-thought’ and the enculturation/endemisation of the manifest postlogism-and-conjugated-postlogism\textsuperscript{78} in our positivism–procrypticism as psychopathy and social psychopathy, and so going beyond just a
temporal palliative resolution within a positivism–procripticism circular-pervasiveness closed-structure countenancing ‘disjointedness-as-of’ reference-of-thought’ of ‘meaningfulness-and-teleology’, beyond-the-consciousness-awareness-teleology\textsuperscript{100}, and hence overlooking the de-mentative/structural/paradigmatic ontological vices-and-impediments\textsuperscript{106} implications of postlogism-and-conjugated-postlogism\textsuperscript{12} including psychopathy and social psychopathy arising given the relative-ontological-incompleteness ‘of’ reference-of-thought of our procripticism as disjointedness-as-of reference-of-thought. This explains how and why re-originray-as-unenframed/unbeholding/outlier-conceptualisation\textsuperscript{91} ideas can supersede conventionalised ideas where the former provide in the big picture the possibility for the social-construct to function better by social\textsuperscript{104} universal-transparency\textsuperscript{105} at a crossgenerational depth of analysis, and equally explains human historical suspicions of new ideas just in case their social\textsuperscript{104} universal-transparency\textsuperscript{105} turn out to be better and possibly leading to the dismantling of the prior and vested and attendant interests. disposition as of institutionalisation and thus wrongly implying intemporal construal as of our secondnatured institutionalisation which while inconsequential within the ambits institutionalisation is not ontologically-veridical at the institutionalisation uninstitutionalised-threshold\(^0\) with the latter rather requiring a temporal-to-intemporal appraisal as of metaphysics-of-absence\{\text{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}\} as its reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^0\).

The implication is that postlogism /psychopathy and other human temporal phenomena (and so, across all registry-worldviews) which speak of uninstitutionalised-threshold\(^0\) are often wrongfully construed on the basis of intemporal secondnatured institutionalisation human nature whereas the \text{apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—confatedness}\^2 requires ‘synopsising-depth of a human temporal-to-intemporal nature’ and so by \text{apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—confatedness}\^2 to establish the uninstitutionalised-threshold\(^0\)’s reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\),-for-
unenframed-conceptualisation (construed as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposuring to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as should be the case at all uninstitutionalised-threshold, and so over the mental-reflex of assuming secondnatured institutionalisation reference-of-thought/axiomatic-construct as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—
existentialising/contextualising/textualising-contiguity (construed as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposuring out of the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as the latter is only practically effective when dealing with an already established human registry-worldview’s/dimension’s institutionalisation/institutionalised-construct but not at uninstitutionalised-threshold which require their own new specific reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology which so established then enables the practical effectiveness of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity. Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an
uninstitutionalised-threshold situation which is necessarily beyond-the-consciousness-awareness-teleology<sup>103</sup>—in-existential-extrication-as-of-existential-unthought<sup>5</sup> and without social universal-transparency<sup>104</sup>{transparency-of-totalising-entailing,-as-to-entailing-<sup>4</sup>amplituding-formative—epistemicity<sup>6</sup>totalising—in-relative-ontological-completeness } of the visitor. This example is exactly along the lines of the reference-of-thought—categorical-imperatives/axioms/registry-teleology<sup>100</sup>—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology<sup>100</sup> needed for construing postlogism<sup>3</sup>/psychopathy and conjugated-postlogism<sup>5</sup> as of its social model at uninstitutionalised-threshold<sup>103</sup>, and so by way of maximalising-recomposuring-for-relative-ontological-completeness<sup>88</sup>—unenframed-conceptualisation (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposuring existentialising/contextualising/textualising-contiguity<sup>39</sup>’s-reifying/elucidating-of-prospective-relative-ontological-completeness<sup>88</sup>—of-reference-of-thought—devolving-as-of-instantiative-context, in contrast to elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity<sup>39</sup> which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity<sup>39</sup> on the basis of the established reference-of-thought—categorical-imperatives/axioms/registry-teleology<sup>100</sup>—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology<sup>100</sup>. Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology<sup>100</sup> before the institutionalisation of such a specific uninstitutionalised-threshold<sup>103</sup> takes place. (Consider in this respect how the visitor
erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity\(^9\). At this individualization-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument-for-operant-or-incidenting-predicative-insights’ of positivism—procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or ‘disjointedness-as-of—reference-of-thought’—as-misappropriated—meaningfulness-and-teleology\(^{10}\) going by the visitor’s relative-ontological-incompleteness—of—reference-of-thought as of positivism—procrypticism, while the explainer of the situation has factored in notional—deprocrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^{10}\), for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\(^{10}\) to preempt the induced procrypticism or ‘disjointedness-as-of—reference-of-thought’—as-misappropriated—meaningfulness-and-teleology\(^{10}\) from the childhood psychopathy slantedness. At this individualization-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of notional—deprocrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^{10}\), for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\(^{10}\) to preempt the slanted inducing of procrypticism or ‘disjointedness-as-of—reference-of-thought’—as-misappropriated—meaningfulness-and-teleology\(^{10}\) and gives up on positivism—procrysticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^{10}\), for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\(^{10}\) with respect to its relations with the childhood psychopathy. Thus at this
individuation-level uninstitutionalised-threshold with respect to the childhood psychopathy, a new notional–deprocripticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology has superseded the prior positivism–procripticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism/psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality by formality dynamics; with the implication of lack of social universal-transparency (transparency-of-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness) as the manifestation is beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought> at this uninstitutionalised-threshold, together with the inherent human complex
of non-transcendability and hence undemtativity across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger demtative/structural/paradigmatic picture of perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation. However, suggesting at the registry-worldview/dimension-level of analysis the ontological-veridicality/intrinsic-reality of a new notional-deprocrypticism reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology that implies that the registry-worldview/dimension is in circular-pervasiveness of procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology will meet with a mental-complex of <amplituding/formative-epistemicity>-totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage metaphysics-of-presence-⟨implicated-'nondescript/ignorable-void ’-as-to-presencing—absolutising-identitive-constitutedness⟩ and can only arise as of a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. (Such an insight can be further elucidated in a storied-construct/ontologically-valid-narration given the limits of the possibility of explanation as herein about the ‘lived social’ as of the aforementioned implied notional-deprocrypticism reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology construing a storied-construct/ontologically-valid-narration driven by such postlogism/psychopathic associated vague-rhyming-or-copied-mimicry-or-formulaic-

their transcendentability and thus de-mentativity, and keep on relapsing into their respective non-

as of prospective relative-ontological-completeness—of-reference-of-thought. This is further rendered difficult by a natural human ‘emotional involvement’ driven social-aggregation-enabling as of human condition that undermines intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity. This insight equally explains the pertinence of understanding postlogism /psychopathy in general as an epiphenomenon that can provide deeper insight about human nature given its ‘lateral-and-transversality—disambiguated—motif-and-apriorising/axiomatising/referencing—disruptive nature on human meaningfulness-and-teleology and with the preconverging—de-mentating/structuring/paradigmning relatively easily perceived at childhood, much like the early modern human biologists relatively simplistic but counterintuitive-as-of-their-epochs understanding of disease provided deeper insight in understanding how the complexity of the human body works. Both individuation-level understanding of postlogism in a non-positivism as of notions-and-accusations-of-sorcery and positivism social-setup as of psychopathy and social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, and a conventioning positivism—procrypticism as procrypticism in lieu of an ontologically-veridical notional—deprocrypticism reference-of-thought—categorical-imperatives/axioms/registry-teleology,

aposteriorising/logicising/deriving/intelligising/measuring–\textsuperscript{79} meaningfullness-and-teleology\textsuperscript{100}. That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism\textsuperscript{78}/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to\textsuperscript{84} reference-of-thought—\textsuperscript{84}apriorising/axiomatising/referencing\textsuperscript{29} as undermining apriorising/axiomatising/referencing\textsuperscript{29} (of–existentialising/contextualising/textualising-contiguity \textsuperscript{39}confledness\textsuperscript{12} induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness\textsuperscript{80} of reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism’ as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of\textsuperscript{84} reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed \textsuperscript{45}<amplituding/formative–epistemicity>totalising–self-referencing-

In other words, prospective relative-ontological-completeness\textsuperscript{88} -of-

 due to relative-ontological-incompleteness–of–reference-of-thought, and specifically in the case of positivism–procrypticism, due to disjointedness-as-of–reference-of-thought. This equally underlies on the basis of dynamic-cumulative-aftereffect/aftereffect at the individuation-level and registry-worldview/dimension-level of analyses the notion of ‘decentering’ as of (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), as the idea of value-reference if wrongfully ontologically construed as determined by the ‘<amplituding/formative> wooden-language

 like notions-and-accusations-of-sorcery as well as psychopathic-postlogism and-its-social-integration as of our procrypticism–or–disjointedness-as-of–reference-of-thought will respectively be wrongfully construed to be of existential/ontological transcendental-enabling/sublimating/supererogatory–de-mentativity veracity. The bigger point being that symmetrisation implying mutual recognition of
/reference-of-thought can only arise where there is mutual appropriateness-of–reference-of-
thought-as-of-conflatedness as existential/ontological transcendental-enabling/sublimating/supererogatory-de-mentativity veracity thus enabling the logical-dueness of both interlocutors to arise as of their soundness-or-ontological-good-faith/authenticity-of-reference-of-thought in the very first place, notwithstanding thereafter the appropriateness or inappropriateness of the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation exercise which is then an altogether different issue of effective/ineffective logic as prelogism-as-of-conviction,-in-profound-supererogation <-existentially-veridical—'attendant-intradimensional-apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at>, and this latter is what tends to be falsely implied in situations of postlogism/psychopathy and conjugated-postlogism/social-psychopathy, and need to be ‘ontologically dismissed offhand’ and brought back to the fundamental issue of perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation rather reflected-as-of-soundness-or-ontological-good-faith/authenticity-of-reference-of-thought in determining whether logical-dueness arises in the very first place. Central to such a dynamic-cumulative-aftereffect/aftereffect registry-worldview/dimension-level analysis derived from such an individuation-level insight is the idea that social-functioning-and-accordance—as-of–social-stake-contention-or-confliction is contiguous as of meaningfulness-and-teleology as of the individuation-level and registry-worldview/dimension-level of analysis, notwithstanding it developing complexification as of dynamic-cumulative-after/effect as from the individuation-level to the registry-worldview/dimension-level and thus with a greater opportunity for the simplistic individuation-level childhood postlogism /psychopathy phenomenon relatively resolvable at that individuation-level to fail resolution with the myriad of such cases at the circular-

The operant and technical conceptualisation basis of this phenomenon has to do with the inherent nature of pure-ontology apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity )— conflatedness\(^{12}\) for ontologically-veridical meaningfulness-and-teleology\(^{100}\) and 'human notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> condition' of reception/distortion across the successive registry-worldviews/dimensions involving denaturing\(^{15}\) where there is lack of constraining social universal-transparency\(^{105}\) - (transparency-of-totalising-entailing-, as-to-entailing-<amplituding/formative—epistemicity> totalising-in-relative-ontological-completeness ). The establishment or rather coming into being of a prospective registry-worldview/dimension institutionalisation reference-of-thought can thus be construed as of pure-ontology apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity )— conflatedness\(^{12}\) for ontologically-veridical meaningfulness-and-teleology\(^{100}\), and so because it is both the mechanical-knowledge as the constraining technical outcome and the non-constraining driving underlying intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, with both constituting the organic-knowledge. This transcendental knowledge construct establishes a dominant social framework of knowledge grounded on its
inherent intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superceratory–de-mentativity ontological-primemovers-totalitative-framework (as it supersedes the prior beyond-the-consciousness-awareness-teleology\textsuperscript{100}–in-existential-extrication-as-of-existential-unthought\textsuperscript{6,56} meaningfulness-and-teleology\textsuperscript{100} and the prior ‘lack of constraining social\textsuperscript{10} universal-transparency\textsuperscript{10} (transparency-of-totalising-entailing–as-to-entailing–\textsuperscript{14} amplituding/formative–epistemicity) totalising–in-relative-ontological-completeness \textsuperscript{73}), and then imbues the prospective institutionalisation with social validity and social structure of meaningfulness-and-teleology\textsuperscript{100} as of deferential-formalisation-transference. This is the social-setup of the prospective institutionalisation reference-of-thought as of pure-ontology apriorising/axiomatising/referencing–(of–existentialising/contextualising/textualising-contiguity \textsuperscript{39} conflatedness\textsuperscript{12} for prospective relative-ontological-completeness\textsuperscript{8}–of–\textsuperscript{5} reference-of-thought meaningfulness-and-teleology\textsuperscript{100}. But then in due course and at the uninstitutionalised-threshold\textsuperscript{103} of this prospective institutionalisation reference-of-thought, its organic-knowledge (as driven by intemporal-disposition ontological-faith-notion-or-ontological-fideism–imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wanes as the reality of human notional–firstnaturedness–temporal-to-intemporal-dispositions–\textsuperscript{so–construed-as-from-perspective–ontological-normalcy/postconvergence} nature sets in as it is related to at the uninstitutionalised-threshold\textsuperscript{103} by the registry-worldview’s/dimension’s least common denominator as amplituding/formative wooden-language–imbued–temporal–mere-form/virtualities/dereification /akrasiac-drag/denatured/preconverging-or-dementing – narratives–of–the–reference–of–thought–categorical-imperatives/axioms/registry–teleology \textsuperscript{84} for social-functioning-and-accordance–as–of–social-stake-contention-or–

Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a ‘sense of rightness’ is all that matters before the law, and this extends to human meaningful and organisational principles in general. Such that temporal-dispositions fulfilment of such ‘mechanistic’ effectiveness as mechanical-knowledge ‘without the non-constraining and abstract organic mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality of the emanant-kind that-had-driven the reference-of-thought construal in the first place’ distort in due course organic meaningfulness-and-teleology, as of temporal mental-dispositions of shortness-of-register-of—meaningfulness-and-teleology. Thus such implied prospective reference-of-thought, social organisations and institutions as organic meaningfulness-and-teleology then tend to develop ‘subcultural reorientations’ that are ‘mildly alien’ and ‘on-occasion gravely alien’ to the (especially in the extended-informalities of the social and institutions) original organic-knowledge conceptualisation as of the implied prospective reference-of-thought

The point of this distinction made between the nature of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ registry-worldview’s/dimension’s reference-of-thought and ‘human temporal uninstitutionalised-threshold mental-disposition’ registry-worldview’s/dimension’s reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between ‘cumulated institutionalisation’ (which we carry by being secondnatured at the backend in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening
leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality\(^{92}\)/longness (which overall is no more greater than that of humans of previous successive registry-worldviews/dimensions); and further that we are just of the same 'human temporal uninstitutionalised-threshold\(^{103}\) mental-disposition' as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold\(^{91}\), which choices when of intemporality\(^{92}\)-drive solipsistic-choices are \(^{55}\) maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation leading to prospective institutionalisations. This notion of human mental-disposition and by extension \(^{56}\) meaningfulness-and-teleology\(^{100}\) as comprising, rather as a more complete and grander conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold\(^{103}\)-facet, so-construed by metaphysics-of-absence\{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>\}, carries institutionalisation and uninstitutionalised-threshold\(^{103}\) implications with respect to the determination of ontologically-verbatim \(^{92}\) meaningfulness-and-teleology\(^{100}\) as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. Such metaphysics-of-absence\{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>\} considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold\(^{03}\) implications with respect to 'a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity'), like deferential-formalisation-transference, ordered-construct, percolation-channelling-<in-deferential-formalisation-transference> and transversality<br-for-sublimating–existential-eventuating/denouement>-of-
Insightfully, it is the case that our present-day positivistic institutionalisation secoundnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology (as ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaningfulness-and-teleology as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology.<in-existential-extrication-as-of-existential-unthought>. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism.
where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-prime-movers-totalitative-framework and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling-in deferential-formalisation-transference possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superevagatory-de-mentativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturizing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling-in deferential-formalisation-transference and transversality-for sublimating-existential-eventuating/denouement-of affirmative-and-unaffirmative-disambiguating-motif-and-apriorising/axiomatising/referencing. In another respect, with regards to scientific meaningfulness-and-teleology and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superevagatory-de-mentativity that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs.
like officialdoms, it was rather a question of ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language⟩ (imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of—‘nondescript/ignorable—void ’—with-regards-to—prospective-apriorising-implications}) mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrerogatory—de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness—is-of—reference-of-thought increasingly defer domains of ‘meaningfulness-and-teleology’ more and more to formal constructs while increasingly reducing the sphere of the extended-informality—{susceptible-to-effecting-parsimony—as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology} as of its free-for-all nature. The bigger point being that even in our positivism—procrypticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrerogatory—de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific mathematical-meaningfulness-and-teleology terms on the basis of ‘social consensus
as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought}<as-to-
leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology -as-of-
‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>’ mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought}<as-to-
leveling/ressentiment/closed-construct-of– meaningfullness-and-teleology-as-of-
‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>⟩ mental-
dispositions and projections’. Hence the construal of knowledge construct in such domains that
are spurious and blurry as with respect to postlogismpsychopathy social implications should
as of precedence be about articulating the illuminating insight that ultimately allows for the
attainment of their own deferential-formalisation-transference based on ‘social consensus as of relative
intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions
and projections’, and undermining a social relations with regards to knowledge and virtue that
is based on ‘social consensus as of social-aggregation-enabling by human temporal
<amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-

‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>⟩ mental-
dispositions and projections’, and so in order to release the inherent virtue imbued in true
knowledge. The afore elucidations are mainly to point out that it is naïve to construe the
analysis of postlogismphenomenon including psychopathy on the assumption of an overall
‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social
as of the present as metaphysics-of-presence-{implicitd‘nondescript/ignorable–void ’-as-to-
presencing—absolutising-identitive-constitutedness } instead of assuming a ‘human temporal
uninstitutionalised-threshold mental-disposition’ of the social by prospective metaphysics-of-
absence-{implicited-epistemic-veracity-of- nonpresencing-<perspective–ontological-
normaley/postconvergence>}, since the construal of our postlogism as of psychopathy and
social psychopathy is necessarily, from ontological-normalcy/postconvergence
epistemic/notional–projective-perspective, reflected from futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence—{implicit-epistemic-veracity-of- nonpresencing—perspective–ontological-normalcy/postconvergence} we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality-drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities-drives such that it is endemised/enculturated in various temporality/shortness shades (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the wooden-language—{imbued—averaging-of-thought—as-to-leveling/resentiment/closed-construct-of—meaningfulness-and-teleology—as-of-'nondescript/ignorable–void'—with-regards-to-prospective-apriorising-implications} in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal preconverging–dementating/structuring/paradigming and not intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation
postconverging–de-mentating/structuring/paradigming as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments\textsuperscript{6}! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{7} —of-the-human-institutionalisation-process\textsuperscript{8} of institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>}, but rather the intemporal mental-disposition (intemporal-disposition) to strive as maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{9} —unenframed-conceptualisation for base-institutionalisation to supersede recurrent-utter-uninstitutionalisation equates that striving for universalisation to supersede base-institutionalisation–ununiversalisation equates that striving for positivism to supersede universalisation–non-positivism/medievalism equates that striving for notional–deprocrypticism to supersede positivism–procrypticism; as the highest human virtue of ontological import. Since the inducing of institutionalisation-as-a-secondnatured-construct across all institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>}, or registry-worldviews/dimensions inevitably implies a dichotomy of reference-of-thought modalities of the same perpetual temporalities-drives and intemporality\textsuperscript{10}–drive (given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnatures—temporal-to-intemporal-dispositions-<so-construed-as-from-

Virtue is essentially about the intemporality drive as maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for intemporal-preservation-entropy-or-contiguity—or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence ⟨implicated-epistemic-veracity-of-nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩/postdication with reference-of-thought–categorical-imperatives/axioms/registry-teleology subservient to that purpose, and not about the temporalities-drives as ‘mere adherence as intradimensionally deterministic by form’ to reference-of-thought–categorical-imperatives/axioms/registry-teleology as these are failing/not-upholding-⟨as-of-apriorising/axiomatising/referencing⟩intemporal-preservation-entropy-or-contiguity—or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence ⟨implicated-epistemic-veracity-of-nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩/postdication rather than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/anomistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that
the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{84} reference-of-thought, by ‘intemporal-prioritisation-of-\textsuperscript{84} reference-of-thought’–as-conflatedness\textsuperscript{12}-or-ontological-reprojecting its mental-disposition will be to unleash its \textsuperscript{55}maximising-recomposing-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation intemporality\textsuperscript{62}-drive to supersede the non-positivistic \textsuperscript{84}reference-of-thought–\textsuperscript{8}categorical-imperatives/axioms/registry-teleology\textsuperscript{100} that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of existentialising/contextualising/textualising-contiguity\textsuperscript{39} here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness\textsuperscript{89} and relative-ontological-completeness\textsuperscript{88} reference-of-thought and respectively as of their divergent non-positivists dereification\textsuperscript{87} perspective and positivist reification\textsuperscript{87} perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of existentialising/contextualising/textualising-contiguity\textsuperscript{39}–in-reification\textsuperscript{87}/dereification\textsuperscript{87} as of their prior relative-ontological-incompleteness\textsuperscript{89}-of- reference-of-thought, contrasted with the positivist naturalist conception of existentialising/contextualising/textualising-contiguity\textsuperscript{39}–in-reification\textsuperscript{87} as-seeking-a-cure as of its prospective relative-ontological-completeness\textsuperscript{88}-of- reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of
‘what is meant by proof/evidence’ even in our positivism–procrysticism registry-worldview/dimension as of its prior relative-ontological-incompleteness \( ^{22} \)-of-\( ^{24} \) reference-of-thought, as the notion of proof/evidence is more critically tied down to existentialising/contextualising/textualising-contiguity \( ^{20} \)-reification \( ^{87} \) as of singularisation-\( ^{\text{as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing}} \) projected epistemic-immanence/veridical-epistemic-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity \( ^{<\text{profound-supererogation -of-mentally-}} \) aestheticised–postconverging/dialectical-thinking –qualia-schema> in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter \( ^{59} \) meaningfulness-and-teleology \( ^{100} \) as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the \( ^{101} \) universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and- apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness \( ^{23} \)-of-\( ^{27} \) reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in \( ^{<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-}} \) syncretising/circularity/interiorising/akrasiac-drag \( ^{13} \); with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-
or-acumen/asceticism as of reasoning-through/messianic-reasoning contortion is rather in transversality of the prior relative-ontological-incompleteness of reference-of-thought and the contorted prospective relative-ontological-completeness of reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness of reference-of-thought projection is what marks ‘transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness of reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-completeness of reference-of-thought but for the induced crossgenerational transcendental metaphoricity possibility, and the contortion is more of a token as of the metaphoricity possibility for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and without which token contortion there is ‘no existential reference for such transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, as a gesturing of metaphoricity that is ‘beyond the prior relative-ontological-incompleteness of reference-of-thought full meaningfulness-and-televology implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity possibility for prospective relative-ontological-completeness of reference-of-thought’; as transcendental instigation can’t be of ordinary inclination at one moment and at another moment of transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the implied
prospective relative-ontological-completeness -of- reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into the ordinariness of prior relative-ontological-incompleteness -of- reference-of-thought thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness -of- reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism as of contortive metaphoricity gesturing for prospective relative-ontological-completeness -of-reference-of-thought as of nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism, different from asceticism as reasoning-from-results/afterthought or institutional asceticism, should basically be understood as of the general notion that all human meaningfulness-and-teleology are naturally ‘correlate-aesthetic-constructs as of the various reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation in successive prior relative-ontological-incompleteness towards-ontological-completenesss-of-deprocrypticism’ as of their specific reflection of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human-amplituding/totalising-epistemicity>totalising-purview-of-construal’ (just as implied with the case highlighted herein of the ‘ill-health-amplituding/totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’); and are so derived as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-

It should be noted that the way the construction of knowledge works at reference-of-thought-level of reasoning-through/messianic-reasoning is utterly counterintuitive to how we perceive prospective elucidation of human knowledge and emancipation going by the given reproducibility—mathesis/motif/thrownness-disposition,—as—reproducbility-of-aestheticisation as of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring. meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring is the route for ontologically-veridical human knowledge transformation and emancipation as of prospective positivism is very much alien to the non-positivism/medievalism cloistered-consciousness. Likewise, the wooden-language⟨imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology⟩mental-disposition in our positivism–procrypticism effectively do has a sense of human knowledge development and emancipation but as of a mental-reflex that such a conception is necessarily by way of our positivism–procrypticism reproducbility—reproducible—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring. In both instances the notion of prospective metaphoricity is one that necessarily faces the fact that the human mind is ever always entrapped in an existential–
invested ‘epistemic-totality’\textsuperscript{36}/reference-of-thought/epistemic-totalising\textsuperscript{12}~self-referencing-syncretising/circularity conception of meaningfulness-and-teleology\textsuperscript{10}’ which effective dislodgment/displacement/decentering is as of a crossgenerational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-ontological-completeness! In fact such an insight can be extended across ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{97}—of-the-human-institutionalisation-process\textsuperscript{58} as of difference-conflatedness\textsuperscript{17}—as-to-totalitative-reification\textsuperscript{97}—in-singularisation—\textsuperscript{as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> -as-veridical-epistemic-determinism \textsuperscript{45}<amplituding/formative-epistemicity>causality—\textsuperscript{as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity}’ to imply that the state of recurrent-utter-uninstitutionalisation is cognisant of emancipation but doesn’t anticipate that emancipation as of prospective relative-ontological-completeness is rather as of base-institutionalisation reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, and likewise the latter doesn’t anticipate the universalisation reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, with the latter not anticipating our positivism reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation which itself doesn’t anticipate prospective ontologically-uncompromised—referentialism deprocrypticism. We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions reference-of-thought is rather one that shouldn’t wrongly be reinforcing/propping-up the human subject as if a given reference-of-thought in prior relative-ontological-incompleteness as of dissingularisation—as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemic-determinism has its very own complete transformative and emancipative potential as
if of fully-attained singularity projected epistemic-immanence/veridical-epistemic-determinism, but an ontologically-veridical psychology rather warrants implying the human subject displacement/decentering as the de-mentative/structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-incompleteness registry-worldviews/dimensions superegoic vices-and-impediments; wherein postconverging-or-dialectical-thinking—apriorising-psychologism reasoning-from-results/afterthought reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation at its uninstitutionalised-threshold is construed as preconverging-or-dementing—apriorising-psychologism as of prospective postconverging-or-dialectical-thinking—apriorising-psychologism reasoning-through/messianic-reasoning reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation up to the prospective ontologically-uncompromised—referentialism of deprocrypticism. As of its inherent organic knowledge, such a hermeneutic/reprojecting/supererogating/zeroing psychology parrhesiastic articulation as herein ‘doesn’t do gimmicks of communication’ as if to imply any favour whatever as of ‘emotional or whatever feel-good trading for the appreciation of the possibility for prospective human emancipation’, since by its ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ it is beyond the idea of convincing for convincing sake as it is simply ‘a blunted eliciting of a solipsistic sense of intemporal/longness-of-register-of—meaningfulness-and-teleology projection in any human and no more’ with no point going beyond that point as it then becomes as of intellectual-and-moral apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema; and so, as its essential meaningfulness-and-teleology is as of a solipsistic transversality—<for-sublimating—existential-eventuating/denouement>—of-affirmative-and—
reflection of the ontologically ‘superior party’ that is intrinsic-reality/ontological-veridicality/existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as to perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming> in its ecstatic singularity, on the same token that a natural scientist is in a transversality—for—sublimating—existential-eventuating/denouement—of—affirmative—and—unaffirmative—disambiguated—motif—apriorising/axiomatising/referencing reflection of its object of study as of existence as the ontologically ‘superior party’ without any need to be involved in any bogus exercises that may imply that gravity may not be 9.8 m/s² on earth if any given human subject isn’t accommodated for in some way somehow however faintly, be it that it may be the case that gravity is not 9.8 m/s² but that as well needs to be established as of the ontologically ‘superior party’ that is existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as to perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming> as of ontological-primemovers-totalititative-framework. But then the human reality across all registry-worldviews/dimensions, isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its uninstitutionalised-threshold and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern
times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation’ of human amplituding/formative—epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology reference-of-thought devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-dialectical-thinking—apriorising-psychologism’ prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-dementing—apriorising-psychologism uninstitutionalised-threshold which it tends to represent as nondescript/ignorable–void (actually speaking of akrasiatic-drag—denatured—preconverging—dementing—narratives), for the possibility of its prospective transcendence—sublimity/sublimation/supererogatory—de-mentativity into prospective institutionalisation. This reality is known as human supererogatory—de-mentative constraint to prospective institutionalisation transcendence—sublimity/sublimation/supererogatory—de-mentativity as of the possibility of prospective relative-ontological-completeness—of-reference-of-thought. Human supererogatory—de-mentative constraint is fundamentally associated with poor universal-transparency—{transparency-of-totalising-entailing—, as to entailing—, amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness} with respect to social-stake-contention—or-confliction at uninstitutionalised-threshold. This then fails to induce the necessary existential assurance for prospective transcendence—sublimity/sublimation/supererogatory—de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of wooden-language—{imbued—temporal—mere-form/virtualities/dereification /akrasiatic—drag/denatured/preconverging—dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology} as of the prior institutionalisation’s reference-of-thought—categorical-
imperatives/axioms/registry-teleology that stifle the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness\(^8\)–of–reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness\(^8\), for resolving a given registry-worldview/dimension vices-and-impediments\(^6\); this notion of human supererogatory–de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied by a ‘postconverging-or-dialectical-thinking\(^30\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ that emphasises the ‘Lacanian subject’ growth as of \[^1^4\] de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), rather than a second-guessing mented or stigmatic psychology that fails to integrate the decisively ontological transformative implications of human psychology as of underlying relative-ontological-incompleteness\(^87\) and relative-ontological-completeness\(^88\)–of–reference-of-thought\(^4\)<amplituding/formative–epistemicity–causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,–for-explicating-ontological-contiguity>, and thus making the given presence reference-of-thought as our positivism–procrypticism ‘all-determinative of what can be construed as psychological emancipation’ as of its \[^1^4\]<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag despite the fact of its prior relative-ontological-incompleteness\(^89\)–of–reference-of-thought to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^10\) as of prospective
amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag incrementality in relative ontological incompleteness—enframed conceptualisation is rather counter to ontological faith–notion–or–ontological fideism imbued underdetermination of motif and apriorising/axiomatising/referencing–as-so–being–as–of–existential–reality disposition by its deterministic hanging onto prior relative ontological incompleteness of reference of thought reasoning from results/afterthought while ignoring/overlooking the ontological veracity implications of the trace/ontological–aesthetic–tracing<perspective–ontological normalcy/postconvergence–reflected–‘epistemicity–relativism’> of reifying existentialising/contextualising/textualising–contiguity, and thus adopting a dereification posture as enabled by ‘lack of constraining social universal–transparency ⟨transparency of totalising–entailing, as to–entailing–⟩ amplituding/formative–epistemicity>totalising–in relative ontological completeness⟩. Such a human disposition to decontortion at uninstitutionalised threshold arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness–and–teleology as it reflects existence’s coherence/contiguity as of singularisation—nondisjointedness/entailment of prospective–nonpresencing projected epistemic immanence/veridical–epistemic–determinism. But then such a decontortioning disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic reality/ontological veridicality/existential reality is rather definitional of our uninstitutionalised threshold where we are actually preconverging–or–dementing–apriorising–psychologism and prospectively dialectically–primitive, notwithstanding our attendant <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic–drag and vague untransvaluated–temporal–intemporality gesturing. The ontological–contiguity
of-the-human-institutionalisation-process can thus be construed as one of increasingly undermining the human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness; wherein across the successive institutional-cumulation/institutional-recomposures decontortion is ontologically-constrained both as of the ‘dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition’. The former is ontologically-constrained as of ontological-primemovers-totalitative-framework in undermining the human temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of universal-transparency—{transparency-of-totalising-entailing.-as-to-entailing.-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}. Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness and emotional-involvement. In another respect the implications of flawed identitive-constitutedness—as-‘epistemic-totality’—dereification—in-dissingularisation—<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > -as-flawed-epistemic-determinism as of dissingularisation—<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemic-determinism also has implications with the ontological-performance—<including-virtue-as-ontology> as of the effective productivity potential of human knowledge construction. In this regard, it is herein
contended that the historically recurrent critique of naïve formalisation particularly in many a
field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology
and epistemology naively construed as of inherent transcendental signifier’ such as in the
analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as

ormality/postconvergence-implied—’prospective-aporeticism-overcoming/unovercoming’ as
its very own transcendental signifier which ultimately manifestly-as-inherently enables transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as the very essence of knowledge. This has led in many ways to a dissonance between their knowledge productivity implications and existential reality wherein for instance psychological and psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care–and–episteme. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already precedingly/precedingly as of ‘ecstatic totalising-entailing/nested-congruence’, with the consequence that it naively construes of reification as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing and producing relatively ontologically-flawed meaningfulness-and-teleology. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness/relative-ontological-completeness.

In this regard for instance, the well-articulated Foucauldian discourse of ‘speech activity’ conceptualisation associated with the notion of parrhesia more critically enables its existentialising/contextualising/textualising-contiguity knowledge-reification with regards to the possibility of human transcendence-and-sublimity/sublimation/supererogatory de-mentativity as can be projected from an Ancient Greece context right up to our modern and futural context in contrast to say analytic philosophy ‘speech act’ which by its atomising/taking-to-pieces formalisation orientation is in many ways by its mere denotative/connotative apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness nature just an implied existentially decontextualised/abstracted construct as of its poor ontological-as-existential-commitment with respect to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, in contrast to the reifying apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness connotative nature of ‘speech activity’ discourse as of its contextualising ecstatic-totalising-entailing/nested-congruence; such that the former assumes rather an identitive-constitutedness-as-‘epistemic-totality’—dereification—in-dissingularisation—as-to-the-disjointedness/disentailment-of—presencing—absolutising-identitive-constitutedness > —as-flawed-epistemic-determinism <amplituding/formative–epistemicity> causality—as-to-projective-totalitative–implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity posture as of atomising/taking-to-pieces formalisation rather than a difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-to-the-

Implications of prospective nonpresencing for explicating ontological contiguity. Even mathematics it is often underestimated works rather on supposedly coherent ontological commitment to implied self-assuredness of ontological good faith/authenticity ~ postconverging de-mentating structuring paradigmizing as being as of existential reality as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, as of the existentialising/contextualising/textualising contiguity knowledge-reification constraining implications of its ‘equal sign’, speaking of a self-conscious awareness that calculations should reflect and be constrained as per calculations operative validation and falsifiability with regards to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and with mathematical logic as of mathematics supposedly coherent ontological commitment to implied self-assuredness of ontological good faith/authenticity ~ postconverging de-mentating structuring paradigmizing as being as of existential reality ‘concurrent formatting as formalisation’ being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ towards that purpose. Such reflecting and constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficultly be said with regards to the overall atomising/taking to pieces formalisation approach as of its amplituding formative epistemicity totalising self-referencing syncretising circularity interiorising akrasiatic drag presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding preceding as of
existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument as axiomatic-construct’ insight about supposedly coherent ontological-commitment –<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> articulated as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of explicit/implicited coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment –<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> in producing knowledge as ‘meaningfulness-and-teleology’; such that
critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal
day to day experience about living itself’ as of observational and articulated ontological-
pertinence sufficiency, and as supplemented with the grasp and engagement with other
philosophical works, speaks of veridical scientific insight and validity subject to ontological-
primemovers-totalitative-framework, and so because such well-inspired experience-and-
interpretation from ‘general and normal day to day experience about living itself’ in the
philosophical domain-of-study is generally more ontologically profound and comprehensive as
of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-
contiguity)—conflatedness than any contrasted ad-hoc and focussed domain study, even
though such domain studies may be insightfully relevant in specific ways but still as of the
more profound background of well-inspired experience-and-interpretation from ‘general and
normal day to day experience about living itself’. The point here is to highlight that by its very
given domain-of-study with respect to overall existence, philosophical knowledge more
profoundly makes a totalising-entailing apriorising/axiomatising/referencing-(of–
existentialising/contextualising/textualising-contiguity)—conflatedness demand on human
living experience for the inspired construing of ‘the ecstatic manifestation of existence and then
human experience-and-interpretation of that ecstatic manifestation of existence’ than other
more specific domains-of-study for which ad-hoc and focussed domain study methods are
pervasively decisive for ontological pertinence. But then this is more a question of ‘expanded

This is a complex and highly technical passage that deals with philosophical, ontological, and epistemological concepts. The text explores the nature of causality and its implications for understanding reality and knowledge. It discusses the role of science in validating knowledge and the importance of philosophical depth in comprehending the essence of existence. The text also touches on the relationship between coherence, contingency, and insight, and how these concepts are intertwined with the understanding of existence and reality.
of-embodied-consciousness’. Insightfully, while in many ways such an elucidation hardly needs to be explicited in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of ontological-primemovers-totalitative-framework as to existence-potency−sublimating–nascent,−disclosed-from-prospective-epistemic-digression this unexplicated implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specificisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and so construed as the enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with existentialising/contextualising/textualising-contiguity as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—confiadedness; so-implied as of their supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality> reflected by ontological-primemovers-totalitative-framework as to existence-potency−sublimating–nascent,−disclosed-from-prospective-epistemic-digression. In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising
specifisms of existence’s ecstatic manifestation’ as of the ‘amplituding/formative-epistemicity’ totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicitated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of ontological-primemovers-totalitative-framework will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is very often incomplete, of-divvied-theorisation and/or ‘poor coherence of theoricisation with operant approaches and methodologies’, when it comes to many a social domain-of-study; as quite often theorisation in many a social domain-of-study strives on disparateness, rather than a tendency to ‘ontological-primemovers-totalitative-framework as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression enforced’ unifying coherence as in many a natural science domains-of-study, with the consequence that studies are often aloof to direct existentialising/contextualising/textualising-contiguity knowledge reifying exercise as of a tendency to technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-setups de-mentatively/structurally/paradigmatically stifle the possibility for conceptualisation as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression sublimating-validation/desublimating-invalidation implications, beyond their conventioning-referencing <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing→existentialising—enframing/imprintedness (as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition).
Ultimately the bigger issue arises as of the poorly-singularised/poorly-immanent nature of many a social domain-of-study unlike the grand singularised/immanented totalising/terminating/delineating ‘amplituding/formative-epistemicity’ reference-of-thought devolving foregrounding—entailment of the given natural science domain-of-study’ with specialism more of a furtherance of such a ‘comprehensively elucidated/reified foregrounding—entailment (postconverging—narrowing-down—sublimation-as-to ‘existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation ‘-in-reflecting-‘immanent-ontological-contiguity ’;—as-operative-notional—depocrypticism)’ that are actually actively sought in the natural sciences; and this author portends that the suprastructuralism/postmodernism as of notional—depocrypticism ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’ holds the promise for such effective grand singularised/immanented social conceptualisation that doesn’t dodge/ignore/disregard outstanding questions about the human existential reality including de-mentative/structural/paradigmatic biases arising beyond-the-consciousness-awareness-teleology as of human emotional-involvement and sophistic/pedantic distortion of perception of reality so-implied in our present positivism–procrypticism ‘attendant-ontology—as-of-conventioning-referencing’ and just as well when ‘science-ideology’ seem to subvert and undermine science-in-practice. Worst still while in effect the idea of specialisation in many a natural science domain is often the natural progression of a ‘comprehensively elucidated/reified foregrounding—entailment (postconverging—narrowing-down—sublimation-as-to ‘existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation ‘-in-reflecting-‘immanent-ontological-contiguity ’;—as-operative-notional—depocrypticism)’ of the given natural science domain-of-study’ with specialism more of a furtherance of such a ‘comprehensively elucidated/reified foregrounding—entailment (postconverging—narrowing-down—sublimation-as-to ‘existence—as-sublimating-withdrawal,—eliciting-of—prospective-supererogation ‘-in-reflecting-‘immanent-ontological-contiguity ’;—as-operative—
notional-deprocrypticism) scheme in a strong arborescent syncing with the subject-matter general-theoretical-level, in many such social domain-of-study of disparities-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> (including some science domains as well which naively tend to draw comprehensive social and human implications of their studies) the drawback to such specialisms is often associated with ‘major interpretative loopholes at the general-theoretical-level of the subject-matter’ with regards to the knowledge-reification implications of supposedly specialisation domains and their studies since such an approach fails to effectively validate its methodological and conclusive implications with respect to the subject-matter general-theoretical-level implied ontology as of the subject-matter specific epistemic-conception phenomenal/manifest–subpotency-(in-transitive-conflatedness-reflexivity, in-the-full-potency-of-existence’s–sublimating–nascence) as to overall reifying-and-empowering-reflexivity-of-exsatic-existence-as-panintelligibility-(imbued-and–hermeneutically/reprojectively/supererrogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation) so-reflected in its philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. This weakness is often reflected in naïve use of statistics and methods as well as drawing out conclusions based rather on ordinary average-thinking interpretation as of human-subpotency ‘rather than interpretations and conclusions ensuing naturally and arborescently as from existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression knowledge-reification implications derived from the general-theoretical-level of the subject-matter as reflecting ontological-contiguity’ whereas this is ever always the case with good practice in the natural
sciences and just as well as with an increasingly self-conscious social science as specifically upheld by postmodern-thought. For instance, the internal-coherence/nested-congruence speaking of the underlying foregrounding—entailment\{postconverging–narrowing–down–sublimation-as-to–‘existence—as-sublimating-withdrawal,-eliciting-of-prospective–supererogation ’–in-reflecting–‘immanent-ontological-contiguity ’;–as-operative–notional–deprocrypticism\} implications articulated herein in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity\{of-the-human-institutionalisation-process\} can be garnered by the fact that all the knowledge-reification\{implied\} herein implied arises as of the very same underlying ‘objectifying cogent unifying process and gesturing’ as from ‘prospective nonpresencing–<perspective–ontological-normalcy/postconvergence> reflection of \{<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating–ontological-contiguity\} of relative-ontological-incompleteness\{/relative-ontological-completeness \{<sublimating–registering/decisioning,-as-self-becoming/self–conflatedness /formative–supererogating–<projective/reprojective–aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological–normalcy/postconvergence>\}\}, which is exactly what avails in the good practices of the natural sciences as driven by their ‘cogent-unifying-operant-dynamics’ whether with regards to say ‘objectifying chemical processes articulation’, ‘objectifying physical principles articulation’ or ‘objectifying biological processes articulations’, contrary to a practice of disparateness-of-conceptualisation–<unforegrounding-disentailment,–failing-to-reflect–‘immanent-ontological-contiguity’> in many a social domain-of-study wherein supposedly reified knowledge ‘hardly has any underlying implied knowledge-reification\{process/gesturing for its derivation\} as ‘cogent-unifying-operant-dynamics’ such that these turn out to be poorly operant or non-operant with the conceptual-patterning–<as-devoid-of–
‘existentialising/contextualising/textualising-contiguity’’s-reifying/elucidating-of-prospective-relative-ontological-completeness’’> gesturing of mere-referring-confused-with-explicating, mere-mentioning-confused-with-deriving and mere-conceptual-synonymising-confused-for-knowledge-reification”, such that the underlying ‘cogent-unifying-operant-dynamics’ of the supposed knowledge-reification is hardly operantly existent or is operantly non-existent. Bizarrely, the blurriness of the social seem to be misconstrued as implying knowledge-reification in the social should reflect such blurriness -as-of-disparateness rather than the ultimate objectifying foregrounding—entailment{postconverging—narrowing-down—sublimation-as-to–‘existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation ’-in–reflecting—‘immanent-ontological-contiguity ’;–as-operative-notional–deprocrypticism}, and so by conjugating ‘relative-ontological-completeness’<amp;lt;amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of–prospective–nonpresencing,—for-explicating-ontological-contiguity’ together with ‘subject-matter breadth and depth’ to achieve such an overall subject-matter knowledge-reification as of objectifying foregrounding—entailment{postconverging—narrowing-down—sublimation—prospective—supererogation ’-in—reflecting—immanent-ontological-contiguity ’;–as-operative-notional–deprocrypticism}, in order to elucidate the blurriness. Such that quite often as of institutional practice the notion of foregrounding—entailment{postconverging—narrowing-down—sublimation—prospective—supererogation ’-in—reflecting—immanent-ontological-contiguity ’;–as-operative-notional–deprocrypticism} is often misconstrued non-aporetically/undilemmatically/unreframed/untransformed as ‘merely bringing together disparate conceptualisations for their cross-examination (on the basis of prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of–aestheticisation)’ in a naïve substitution of the idea that foregrounding—entailment
process/gesturing of knowledge-reification in say physics with the ‘supposed monotony’ of differential equations on physical variables, in chemistry with the ‘supposed monotony’ of valence bonding explaining chemical reactions or in biology with the ‘supposed monotony’ of gene regulation rather ultimately central to all biological processes), with the false implication of construing that disparateness-of-conceptualisation<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’ is inherently convenient as of a mental-reflex oriented towards ordinary wooden-language⟨imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable—void ’with-regards-to-prospective-apriorising-implications⟩ human-subpotency ways-of-looking-at-things rather than adopting-the-intellectual-hat for reifying the former in a mental-reflex oriented towards existence-potency~sublimating—nascence,—disclosed—from-prospective-epistemic-digression amplituding/formative—epistemicity—causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity ways-of-looking-at-things. Critically, lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of existentialising/contextualising/textualising-contiguity apriorising/axiomatising/referencing—of— existentialising/contextualising/textualising-contiguity conflatedness that points to
the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance –-{including-virtue-as-ontology}> to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature thus overcoming underlying logocentrism as of prospective relative-ontological-completenenss transcendental-and-sublimity implications, and thus reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of the <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity of existentialising/contextualising/textualising-contiguity apriorising/axiomatising/referencing–(of–existentialising/contextualising/textualising-contiguity)— conflatedness }. It is thus not surprising that naive disparateness-of-conceptualisation–<unforegrounding-disentailment,–failing-to-reflect–‘immanent-ontological-contiguity’> leads to subject-matters and studies whose supposed knowledge-reification tend to be most heavily dependent on ‘peering to a fault’ of the attendant-ontology—as-of-conventioning-referencing of institutional-being-and-craft that is poorly constrained to existential-reality, rather than a peering process that is heavily

This totalising/circumscribing/delineating nature of all domains-of-study in existentialising/contextualising/textualising-contiguity apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness as of causality~as-to-projective-totalitative~implications-of-prospective~nonpresencing~for-explicating-ontological-contiguity, speaks of the epistemic-veracity of the fact that ‘all knowledge is truly developed as of a hermeneutic/reprojecting/supererogating/zeroing circle for relative-ontological-completeness’ that involves human limited-mentation-capacity-deepening. This hermeneutic/reprojecting/supererogating/zeroing circle knowledge-reification process/gesturing is furthermore reflected in both human scholarly-and-pedagagic exercise wherein subject-matters/domains-of-study are grasped in successive articulations of deeper and deeper hermeneutic/reprojecting/supererogating/zeroing insight as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. In both instances, the knowledge-reification process/gesturing implies that the scholar or student striving to engage at that top-level understanding, needs to grasp the ‘preceding formative/pedagogic hermeneutic/reprojecting/supererogating/zeroing circle levels of knowledge-reification\textsuperscript{87}’. Such a supposed scholar or student cannot depart from ordinary/banal \textit{amplituding/formative} wooden-language-{imbued—averaging-of-thought—\textit{as-to}-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—\textit{as-of—nondescript/ignorable—void }-\textit{with-regards-to-prospective-apriorising-implications} level of knowledge conception to then claim that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojecting/supererogating/zeroing circle of knowledge-reification process/gesturing should be directly and fully graspable to it as of a \textit{amplituding/formative} wooden-language-{imbued—averaging-of-thought—\textit{as-to}-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—\textit{as-of—nondescript/ignorable—void }-\textit{with-regards-to-prospective-apriorising-implications}} predisposition to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation. The fact is the various pedagogic hermeneutic/reprojecting/supererogating/zeroing circle levels of any subject-matter/domain-of-study as of successive maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation are meant to transmit a ‘\textit{amplituding/formative—epistemicity} totalising/comprehensive organic-attitude-to-knowledge which is much more than just its technical knowledge veracity’ and that ‘\textit{amplituding/formative—epistemicity} totalising/comprehensive organic-attitude-to-knowledge’ is needed together with the induced technical dispensation of the lower
hermeneutic/reprojecting/supererogating/zeroing circle of pedagogic knowledge-acquisition to then be able to engage with the higher/top-level scholarly/pedagogic hermeneutic/reprojecting/supererogating/zeroing circle of knowledge-reification in its maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation. It is important to understand here that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojecting/supererogating/zeroing circle of knowledge-reification process/gesturing cannot strive to engage the supposed scholar or student at any such ordinariness/banal wooden-language–(imbued–averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–nondescript/ignorable–void–with-regards-to-prospective-apriorising-implications) level of knowledge conception, and implicated in its knowledge-reification gesturing/process is the notion that the prior/all-the-prior hermeneutic/reprojecting/supererogating/zeroing circle level(s) of the subject-matter/domain-of-study need to be grasped beforehand; and this is basically because such a top-level is imbued with fundamental and new knowledge-reification priorities. While in many ways the unblurred/sharply-delineated nature of the natural sciences renders such a ‘hermeneutic/reprojecting/supererogating/zeroing circle of levels of understanding’ more or less very transparent, with regards to the blurriness of the social such a postmodern-thought ‘hermeneutic/reprojecting/supererogating/zeroing circle of levels of understanding’ rather requires increasing familiarisation, habituation and contemplation with regards to such critical texts and analyses (and as is particularly necessary with regards to the ‘parrhesiastic nature of philosophy that is behind the engendering/parrhesiastic-aestheticisation of underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation and thereof derived domains-of-study reified-knowledge as from the underlying reference-of-thought reproducibility—mathesis/motif/thrownness-
disposition,–as–reproducibility-of-aestheticisation’, and one’s intemporal solipsistic level of parrhesiastic contemplation is itself a decisive element for the capacity to appreciate-and-understand philosophical thought more than just an issue of technical acquisition of philosophical knowledge as of mere knowledge mathesis/motif/thrownness-disposition). More critically, social and philosophical knowledge are no different from any other type of knowledge subject to ontological-primemovers-totalitative-framework\(^3\) as of inherent existence/ontological implications, as fundamentally requiring contemplative reification arising with human limited-mentation-capacity-deepening\(^4\), with the implication that any philosophical, historial and social conception of knowledge is not an imprimatur totalisingly-disentailing—discretion/whim-of-thought exercise on the basis of ‘relic-or-orthodoxy knowledge’ induced disparateness-of-conceptualisation-

unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’\(^5\) but rather implying a furtherance of the overall hermeneutic/reprojecting/supererogating/zeroing exercise involved in the advancement of all human knowledge as of <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought, wherein all such knowledge-reification\(^6\) is a hermeneutic/reprojecting/supererogating/zeroing circle involving: the analyst’s/philosopher’s baseline re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking -‘projective-insights’/‘epistemic-projection-in-confoundedness ’-of-notional–deprocrypticism-prospective-sublimation)\(^7\) up-to-date knowledge-reification\(^8\) process/gesturing of the specific knowledge area as of inherent existence/ontological implications whether say with a natural science domain like hereditary as of its given specificity or philosopher’s thought as of the general ontological comprehensiveness of philosophical thought; to then credibly analyse the coherence of the given prior contribution on the basis of the analyst’s/philosopher’s baseline re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-
process/gesturing of the specific knowledge area as of inherent existence/ontological implications as to what it brings and reflects about current knowledge-reification; and then the analyst’s/philosopher’s reflection on the shortfall in the ontological-performance of the given prior contribution while reflecting the epochal constraints for such a shortfall going beyond a construal of the given prior contribution as mere ‘relic-or-orthodoxy knowledge’; and finally, the analyst’s/philosopher’s conceptual interpretation as its prospective contribution that is subject to validation and falsifiability as of inherent existence/ontological implications thus amenable to foregrounding—entailment (postconverging–narrowing-down—sublimation—existence—as-sublimating—withdrawal, eliciting—operative—notional—deprocrypticism) with other so-constructed knowledge-reification, that are well beyond a disparateness-of-conceptualisation—orientation driven by the cultivation of mere imprimatur totalisingly-disentailing—discretion/whim-of-thought ‘relic-or-orthodoxy knowledge’ disposition. It is important to appreciate here that a history of postmodern-thought criticism driven by populism, media operations, false intellectual engagement and ontological-bad-faith/inauthenticity, is particularly telling not about postmodern thinkers knowledge-reification epistemic-veracity but rather ‘the knowledge-reification epistemic-veracity of such critics who often pride themselves on not understanding postmodern-thought then by a strange paradox have the knowledge to produce a profound criticism of postmodern-thought which they supposedly do not understand’. Even more critically, the question can be raised whether such critics profoundly appreciate the overall human knowledge-reification process/gesturing as herein articulated, and whether this very fact isn’t linked to the knowledge-
reification⁶ methodological difficulties arising in many social domains-of-study ‘assuming a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-
‘immanent-ontological-contiguity’→ epistemic-disposition that is in many ways poorly constrained to existential-reality’ with the result of their relative knowledge-reification⁸ passivity with regards to many a social issue ‘but for adventures into social commentary divorced from genuine operant knowledge-reification⁹ implications’; and in this regards could it be that the true ‘unsaid issue with suprastructuralism/postmodern-thought’ lies with its parrhesiastic emphasis on the displacement/decentering-of-the-human-subject for the right mindset-as-of-prospective-relative-ontological-completeness¹⁰ and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness  as of projected existentialising/contextualising/textualising-contiguity¹⁰ in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—confatedness¹², an issue that has always been a difficult knot throughout the ontological-contiguity¹⁷—of-the-human-institutionalisation-process¹⁷ but which inevitably has to be dealt with for the possibility of prospective human registry-worldview’s/dimension’s institutionalisation. Such weaknesses manifested by many a postmodern critic fundamentally points to an atomising/taking-to-pieces predisposition that poorly appreciates the <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity involved in knowledge-reification⁹, and is reflected in a lack of parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight that ‘poorly grasp the philosophical analysis implications of the existential background/development of becoming-as-

texts requiring a sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing
insight. This lack is quite often reflected in such misconstrued analyses of traditional
philosophical figures by a failure to understand the overall coherent narrative of such figures as
of an atomising/taking-to-pieces predisposition to identitive-constitutedness-as-‘epistemic-
totality’-dereification -in-dissingularisation-⟨as-to-the-disjointedness/disentailment-of-

ending up quite often claiming the incoherence of such figures and/or of their narrative
accounts, and so in a ‘naïve insight’ arising exactly because the possibility for understanding
requires the critic’s own parrhesiastic insight and then hermeneutic/reprojecting/supererogating/zeroing conceptualisation to then develop the capacity
to grasp first of all such traditional philosophical figures underlying knowledge-reification
process/gesturing and thus be able to understand how such knowledge-reification
process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of
narrated accounts and notions but equally insight about the nuanced and covertly narrated
accounts and notions, and all these while being informed by the immediate and broader
underlying social background and implicated social and philosophical stakes of contention-and-
confliction. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing analytical insight actually converges with the epochal philosophical implications of existentialising/contextualising/textualising-contiguity\textsuperscript{29} in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)\textsuperscript{39} and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but de-mentatively/structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability\textsuperscript{41} and validation in determining ontological-veracity as of a critical exercise of falsifiability\textsuperscript{41} and validation in determining ontological-veracity as of a critical exercise of <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. In this regards, such hermeneutic/reprojecting/supererogating/zeroing and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel\textsuperscript{104} universalising-idealisation that ‘runs-through/is-deflating’ by its evental `-instigation traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced\textsuperscript{104} universalising-idealisation transformative meaningfulness-and-teleology\textsuperscript{100} infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a \textsuperscript{90}presencing—absolutising-identitive-constitutedness\textsuperscript{15}
orientation that Socratic-philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning-as-devoid-of—existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic-philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern-day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality dimensionality-of-sublimating ⟨amplituding/formative⟩ supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation that then feeds into prospective originariness-parrhesia, as—
spontaneity-of-aestheticisation; emphasising as of any given registry-worldview’s/dimension’s specific limited-mentation-capacity that knowledge ‘more profoundly lies with the knowledge-reification gesturing and organic implications’, just as we cannot simplistically interpret the importance of Aristotelian science in terms of its constitutive elements as earth, water, air, fire and aether on a naïve presencing—absolutising-identitive-constitutedness basis from the vantage perspective of our modern positivism (as being at the receiving backend of the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process) but rather the more critical insight lies with its novel and transformative universalising-classificatory knowledge-reification gesturing as opening up the possibility for prospective human reconceptualisation of science providing the backdrop from which modern science took off from the medieval times to the present. Likewise, the transformative nature of budding-positivism more than just as garnered from the precised narrative accounts about budding-positivist thinkers, lies more profoundly with its meaningfulness-and-teleology infrastructure impact on the developing enlightenment social developments and as this budding-positivism metaphoricity epistemically-ricochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such
parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification’ for prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’. In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social domain-of-study and even some of the natural sciences as of naïve science-ideology, and so because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-existence-implications there need to be ‘human intemporal contemplation that abstractly lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of

framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-
aestheticisation’. For instance with regards to living-development–as-to-personality-
development 56 meaningfulness-and-teleology100, human aestheticisation is reflected in
childhood to adulthood social development wherein a child’s development as of its
‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’ involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development—as-to-personality-development human aestheticisation of meaningfulness-and-teleology (‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’) in existentialising/contextualising/textualising-contiguity apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity)—conflatedness involving ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ always entails the three human aestheticisation manifest elements: ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’. This human aestheticisation insight is informing about what
exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as amplituding/formative-epistemicity>totalising–renewing-realisation/re-perception/re-thought’ long before a child’s language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in reality the ‘teleological outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ of a rather ‘complex sense of meaningfulness-and-teleology aestheticisation’ induced from a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ driven ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as amplituding/formative-epistemicity>totalising–renewing-realisation/re-perception/re-thought’ that starts long before a child’s ‘recognised’ acquisition of any such ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, as the child already has a ‘complex sense of meaningfulness-and-teleology aestheticisation’ before its ‘recognised’ acquisition of ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, and that acquisition of a specific ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ in due course (though annunciative) is

This basically explains the constantly developing nature of human ‘institutional-development-as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/confalation conceptions like language’ which are not truly absolutely of present-at-hand as to wrongly imply presencing—absolutising-identitive-constitutedness of—meaningfulness-and-teleology (even as the privileged social conceptualisation of say language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’). Insightfully, we can garner that it is ‘human amplituding/formative–epistemicity causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity purposefulness-reflexivity for prospective relative-ontological-
manifestation’. This will explain why the ontological-contiguity\(^6\) —of-the-human-institutionalisation-process\(^6\) as of ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology\(^0\) aestheticisation’ is ‘highly parrhesiastically economical’ as reflected in the overall ontological-contiguity\(^6\) —of-the-human-institutionalisation-process\(^6\) ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,−as−reproducibility-of-aestheticisation’; wherein only the perception of unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance\(^7\) —<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition,−as−reproducibility-of-aestheticisation epistemic-ricochettingly/transepistemically elicits ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’. This is so because given the taxingness-of-originariness any such ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ has to resolve considerably unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance\(^7\) —<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition,−as−reproducibility-of-aestheticisation for such ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology\(^0\) aestheticisation’ underlying ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as \(^4\) <amplituding/formative—epistemicity> totalising—renewing-realisation/re-perception/re-thought’ to be worth the epistemic-ricochetting/transepistemicity effort, with the preference for any such effort rather directed at the complexification of the prior reproducibility—mathesis/motif/thrownness-disposition,−as−reproducibility-of-aestheticisation. This will explain for instance why as of the furtherance in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity\(^6\) —of-the-human-
institutionalisation-process, the ‘institutional-development–as-to-social-function-development’
meaningfulness-and-teleology aestheticisation’ with regards to language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human meaningfulness-and-teleology aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—{imbued-and-

This fundamental originariness and secondnaturedness conundrum in reflecting holographically¬<conjugatively-and-transfusively> the ontological-contiguity’—of-the-human-institutionalisation-process’ is reflected by the fact that the human Self is ever always in disseminative constructiveness/destructuring defining its given registry-worldview/dimension shiftiness-of-the-Self as of ‘human-subpotency subpar disposition to fail to construe the full existence-potency—sublimating–nascence,—disclosed— from-prospective-epistemic-digression at its uninstitutionalised-threshold’ its prior seconndnatured reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation; and so in obfuscation and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation¬{blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness }. The manifest reality of human ontologisation/ontological-veracity/aestheticisation-towards-ontology is thus one that is ever sub-ontological—⟨as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s−sublimating–nascence⟩ as of human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint—imbued—‘notional−firstnaturedness—temporal—to-intemporal-dispositions−<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor. This is reflected inherently in the fact that given human limited-mentation-capacity, human aestheticisation is ever always reactualising/recomposuring towards a fully ontologising reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of—
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for– conceptualisation; that is, human aestheticisation as from prospective originariness-parrhesia,—as–spontaneity-of-aestheticisation instigation develops by recomposing as from ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’ to ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’ and then to ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’ with the latter achieving the given registry-worldview/dimension reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation ontologisation/ontological-veracity/aestheticisation-towards-ontology. Basically, human aestheticisation, in reflection of human limited-mentation-capacity and human limited-mentation-capacity-deepening\(^3\) possibility, ever always involves a ‘human disposition in portraying/reflecting/construing existence/ontological-veracity’ as of ‘\(^{13}\text{presencing—absolutising-identitive-constitutedness}\) finitism of aestheticisation’ and as of ‘human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint \(^1\) nonpresencing-<perspective–ontological-normalcy/postconvergence>/transcending infinitism of aestheticisation possibilities’ which then define together the aestheticisation specificity of the culturally cumulated outcomes/outfits/shells—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations explaining why human institutional constructs like language, cultural practices, etc. are inherently of their given cultural specificness. In this regards, the social-setup in its furtherance of human aestheticisation towards human ontologising of ‘meaningfulness-and-teleology\(^10\) is ever always drawn between ‘\(^{13}\text{presencing—absolutising-identitive-constitutedness}\) finitism of aestheticisation’ rather in apriorising/axiomatising/referencing-(of– existentialising/contextualising/textualising-contiguity )—constitutedness\(^1\) as of its

The overall point here is that it is the ontological-good-faith/authenticity postconverging-dementating/structuring/paradigmatising as of parrhesiastic-aestheticisation that ‘invents/creates’ the prospective registry-worldview’s/dimension’s reproducibility—mathesis/motif/thrownness-disposition, as–reproducibility-of-aestheticisation, and carries the ‘intemporal parrhesiastic seeding-promise dimensionality-of-sublimating’ of the registry-worldview/dimension beyond just its mechanical reproducibility—mathesis/motif/thrownness-disposition, as–reproducibility-of-aestheticisation for the possibility of further prospective parrhesiastic instigation as from ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’. Such an ‘absolutising disposition with the registry-worldview/dimension mere-form of reproducibility—mathesis/motif/thrownness-disposition,→as-reproducibility-of-aestheticisation’ is what underlies disparateness-of-conceptualisation→<unforegrounding-disentailment,-failing-to-reflect→immanent-ontological-contiguity\textsuperscript{67}> at a registry-worldview/dimension destructuring-threshold\textsuperscript{<uninstitutionalised-threshold /presublimating→desublimating-decisionality→of-ontological-performance\textsuperscript{72}→<including-virtue-as-ontology> ‘wherein normativities, conventions, practices, etc. as secondnatured institutionalised constructs assume absolute determinism that flawly override any parrhesiastic\textsuperscript{45} <amplituding/formative→epistemicity>totalising→renewing-realisation/re-perception/re-thought of ontological-veracity’, and explains the Sophists—ideal-type-or-individuation non-universalising inclination on the basis that that social practice is absolutely deterministic of\textsuperscript{47} meaningfulness-and-teleology\textsuperscript{100} and the medieval-scholasticism-

Thus ‘the possibility for prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is ever always a renewed ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming’ that as of its reasoning-through/messianic-reasoning can overcome such a <amplituding/formative> wooden-language—{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—-with-regards-to-prospective-apriorising-implications>}, and so counterintuitively to any given registry-worldview/dimension notion/sense of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as rather occurring along its already secondnatured established reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation normativities, conventions, practices, etc.; and this very much explains why the successive registry-worldviews/dimensions are successive parrhesiastic instigation of renewed reproducibility—mathesis/motif/thrownness-disposition,—as—

In furtherance of this prospective epistemic-ricochetting/transepistemicity indictment, this author laments a covert practice of an intellection that has been critical of postmodern-thought but in latter years ‘reformulates the implications of postmodern ideas’ as original thought even as such practices supposedly passes their institutional thresholds of admissibility with the caveat though that much of such thought is poorly operant given its ad-hoc depth of knowledge-reification gesturing/process as of disparateness-of-conceptualisation—<unforegrounding—disentailment,—failing-to-reflect—'immanent-ontological-contiguity'> implications, and along the same parrhesiastic prospective epistemic-ricochetting/transepistemicity line this author is very much befuddled of a perverted exercise to undermine the originality of this work supposedly because of the theoretical orientation by a naïve ad-hoc synonymising exercise that this author is very much confident fails as it overlooks the coherence and knowledge-reification gesturing/process articulated herein. Generally, such perversion of thought as it discreetly networks fails society in the long-run when it seems to assume a foreshadowing posture with regards to what can be thought or not thought as of a ‘realpolitiking of thought’ exercise. Another criticism is the inclination for such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate conceptualisations as of identitive-constitutedness ‘as-epistemic-totality ’-dereification^7-in-dissingularisation<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > as-flawed-epistemic-determinism that often poorly reflect the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality rather than the contrary approach that delves directly in existentialising/contextualising/textualising-contiguity^9 and then reifies-out conceptualisations as of difference-conflatedness^9-as-to-totalitative-reification^7-in-singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> as-veridical-epistemic-determinism . The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification^7/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications> that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification^7/elucidation projection as
from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of existentialising/contextualising/textualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the existentialising/contextualising/textualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology’/knowledge as of existentialising/contextualising/textualising-contiguity knowledge-reification, as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further expanding on the elucidation/reification of their manifestations as validated or can be falsifiable by ontological-primemovers-totalitative-framework; or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-supererogatory-de-mentativity, induces a penchant for flawed

It is herein contended that existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-as-to-perspective-ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming' as of its ecstatic singularity actually points to appropriate attitude/mental-disposition/care—and-episteme as of ontologically-veridical difference-confaltedness-as-to-totalitative-reification-as-in-singularisation-as-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemic-determinism for existentialising/contextualising/textualising-contiguity knowledge-reification of every domain-of-study; as the fact remains that the domain-of-study of the social world is utterly different as of existentialising/contextualising/textualising-contiguity from the domain-of-study of the natural world, and not to mention that even within the natural world or social world there are equally subject-matters peculiarities that require their own specific approaches to elucidation/reification as of existentialising/contextualising/textualising-contiguity—and this said without undermining the idea of the ecstatic singularity of existence from which all such subject-matter-human-specialisms ecstatically arise as veridically implied by singularisation-projected epistemic-immanence/veridical-epistemic-determinism speaking of an underlying ecstatic commonness though not common phenomenality. Thus, in all cases the overall implications for
the optimum advancement of human knowledge is most critically about constraining knowledge to existentialising/contextualising/textualising-contiguity\(^{39}\) elucidation/reification\(^{87}\) rather than just mere formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are already naturally constraint to existentialising/contextualising/textualising-contiguity\(^{39}\) knowledge-reification\(^{7}\) by the implicated immediate-constraining ontological-primemovers-totalitative-framework\(^{73}\) transcendence-and-sublimity/sublimation/supererogatory~de-mentativity whereas the human world is rather blurry in this regard and hence requires the requisite explicited insight about existence as of its ecstatic singularity for its appropriate approach for transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification\(^{87}\) of existentialising/contextualising/textualising-contiguity\(^{39}\) but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating/supererogatory~de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity/sublimation/supererogatory~de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than existentialising/contextualising/textualising-contiguity\(^{39}\) knowledge-reification\(^{7}\)

This process is one of human limited-mentation-capacity-deepening\textsuperscript{8} as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation for existentialising/contextualising/textualising-contiguity\textsuperscript{79} knowledge-reification\textsuperscript{87}, inducing successive differences of ontological-performance\textsuperscript{7}—<including-virtue-as-ontology> of meaningfulness-and-teleology\textsuperscript{10} as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human-amplituding/formative-epistemicity’ totalising–purview-of-construal’ with increasing prospective relative-ontological-completeness\textsuperscript{88} reflected as of difference-conflatedness\textsuperscript{8}—as-to-totalitative-reification\textsuperscript{87}—in-singularisation—<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>—as-veridical-epistemic-determinism\textsuperscript{3}, and not just a prior formalisation exercise as mere conceptual patterning as of elaboration—as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—existentialising/contextualising/textualising-contiguity\textsuperscript{79} reflected as of identitive-constitutedness\textsuperscript{1}—‘epistemic-totality’—dereification\textsuperscript{12} in-dissingularisation—<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > as-flawed-epistemic-determinism\textsuperscript{5}; with ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation for existentialising/contextualising/textualising-contiguity\textsuperscript{79} knowledge-reification\textsuperscript{87}, inducing successive differences of ontological-performance\textsuperscript{7}—<including-virtue-as-ontology> of meaningfulness-and-teleology\textsuperscript{10} as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human-amplituding/formative-epistemicity’ totalising–purview-of-construal’ with increasing prospective relative-ontological-completeness’ rather reflected as of ontologically-veridical difference-conflatedness—<as-to-totalitative-reification\textsuperscript{87}—in-singularisation—<as-to-the-nondisjointedness/entailment-of-

In this regard, we can appreciate that as of their differing ontological-performance the threshold where the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs projects its prospective relative-ontological-completeness is considered as postconverging-or-dialectical-thinking—apriorising-psychologism, and striving to operate the classical-mechanics—axiomatic-constructs in its projected prior relative-ontological-incompleteness is effectively preconverging-or-dementing—apriorising-psychologism; even though both address the ‘very same physics-<amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. The implications of flawed formalisation credo as of conceptual patterning identitive-constitutedness ‘as–‘epistemic-totality’-dereification-in-dissingularisation<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > as-flawed-epistemic-determinism implied dissingularisation<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-
constitutedness > /epistemic-nonimmanence/flawed-epistemic-determinism extends, as of its flawed primacy of conceptual patterning on the basis of a conception of knowledge that tends to belittle and trivialise original knowledge contributions geared towards creative existentialising/contextualising/textualising-contiguity knowledge-reification while naively overrating contributions to knowledge of a conceptual patterning orientation, in further blurring the study of the social with mischaracterisations and poor appreciation of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications and ultimately induces self-perpetuating artifices of institutional-being-and-craft that mechanically ‘paradoxically then supersede knowledge’ as of its very organic ontological-good-faith/authenticity. One recurrent consequence of the formalisation credo that keeps on arising for instance in the analytic tradition of philosophy as of its non-totalising-entailing or ‘poor apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—confoundedness of totalising-entailing/nested-congruence’, is that the underlying conception about growing the body of human knowledge seems to be the ‘incrementing of all such conceptual patterning conceptualisations’ going by their cross-analysis as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity. Basically, the underlying implication of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—confoundedness, and so over naïve apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness, is that all ontologically-veridical conceptualisations can only be veridical by their ‘abstract reduction to the totalising-entailing/nested-congruence implication of existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as-to-perspective–ontological-normalcy/postconvergence-implied-prospective-aporeticism-overcoming/unovercoming’ as of its ecstatic singularity’, and thus
implies the articulation of all such ontologically-veridical conceptualisations as of

projected epistemic-immanence/veridical-epistemic-determinism; while avoiding any such

conceptualising naivety that may imply ‘existence in existence’ as this can only lead to flawed

conceptualisations, and logocentrism as of

as-flawed-epistemic-determinism 1. We can appreciate that the naïve conceptual patterning of

conceptualisations in many a social domain-of-study failing to disambiguate divergent

knowledge implications-and-contributions as of existentialising/contextualising/textualising-

contiguity knowledge-reification end up transforming subject-matters into descriptive

enunciations of weak existentially explanatory and predicative capacity. The entire project of

human ‘meaningfulness-and-teleology’ is nothing but one of creatively elucidating/reifying

existence/existential-possibilities, ‘with no out of existence knowledge project’, which is

merely delusional. Thus, what is critically missing here is the fundamental constraining reality
conceptualisation articulation by this author on the theme of conceptual patterning here further complements as of further articulated reification of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification insight often goes missing with many a subscriber to the formalisation credo, as of reification along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars crossgenerationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naive conceptual patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative existentialising/contextualising/textualising-contiguity knowledge-reification perspective of knowledge construal, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originally/as-of-event available to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative existentialising/contextualising/textualising-contiguity knowledge-reification perspective of causal-perspective nonpresencing, for explicating ontological-contiguity of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, with the intellectual’s job to the best of their
abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying/elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for existentialising/contextualising/textualising-contiguity knowledge-reification, inducing successive differences of ontological-performance—<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-amplituding/formative-epistemicity—totalising–purview-of-construal’ with increasing prospective relative-ontological-completeness’. This is especially the case where such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their existentialising/contextualising/textualising-contiguity knowledge-reification. Ultimately, and it is this author’s contention, the various scholarly contributions to postmodern-thought can be understood as rather pointing to the de-mentative/structural/paradigmatic disseminative implications of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or-preempting—disjointedness-as-of—reference-of-thought ontologically-veridical difference-conflatedness—as-to-totalitative-reification—in-singularisation—<as-to-the-
We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity’ orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/aporia ‘left it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity to ‘continually select’ rational-empiricism/positivism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism—procrypticism human subject is rather undecentered’ relative to the prospective postmodern—notional—deprocrypticism self-conscious mindset we fail to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity to ‘continually select’ postmodern—notional—deprocrypticism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, in the same vain that the ‘non-positivism/medievalism undecentered human subject’ failed to truly appreciate the de-
mentative/structural/paradigmatic disseminative implications of prospective positivistm/rational-empiricism thought. On the other hand, recurrent conceptual patterning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective–ontological-normalcy/postconvergence-implied-
‘prospective-aporeticism-overcoming/unovercoming’>. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their mere infrastructure and deferential-formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound existentialising/contextualising/textualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. But then with regards to the social notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly existentialising/contextualising/textualising-contiguity knowledge-reification here implies human displacement/decentering even though our temporal/shortness-of-register-of–meaningfulness-and-teleology dispositions certainly have a hard time assuming the full implications of such prospectively implied transcendental meaningfulness-and-teleology. This further speaks to the fact that human knowledge is much more than distantly/remotely abstracted conceptions of meaningfulness-and-teleology of trite existentialising/contextualising/textualising-contiguity knowledge-reification<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of–prospective- nonpresencing,—for-explicating-ontological-contiguity, as on critical occasions
this puts the human subject itself into question; and so, as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ even where this edges into contortioning asceticism as of nonextricatory-existential-preempting-of-existential-unthought. Such ‘pure-ontology’ orientation grounded on creative existentialising/contextualising/textualising-contiguity knowledge-reification\(^7\) is ever always a ‘apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness\(^2\) totalising-entailing/nested-congruence’ as it aspires to grasping and articulating meaningfulness-and-teleology\(^10\) as portends to the wholeness/nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human\(^4\)<amplituding/formative–epistemicity>totalising–purview-of-construal’; with such construal in reality rather very much as of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism rather than dissingularisation-<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemic-determinism. It is thus not a surprise that many natural sciences in their ‘creative existentialising/contextualising/textualising-contiguity\(^9\) knowledge-reification’ develop as and aspire to be whole/congruent in conception, even though their concepts can be misconstrued as rather disparate but in effect are ‘operant as of wholeness/nested-congruence’. Unlike the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness rampant with human and social conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally as apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness totalising-entailing/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity with ‘the ecstatic singularity of the very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human<amplituding/formative–epistemicity>totalising-purview-of-construal’ implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time’. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped
all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying dynamic theoretical-conceptual-operant interrelatedness speaking of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. This reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social conceptualisations that by their apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness¹ token tend to give up on the central issue of knowledge as of its wholeness/nested-congruence reflection ‘as of creative existentialising/contextualising/textualising-contiguity' knowledge-reification‘’ of existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation -<as-to-perspective–ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming'> in its ecstatic singularity. The naivety of implied apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness¹ in the social is in the expectation that the unity of disparateness of conceptualisations as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ will take care of itself in reflecting the ecstatic singularity of existence without human self-conscious wholeness/nested-congruence conception as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )— conflatedness in this respect; but then such parsimony loses more than just wholeness/nested-congruence in the sense that sound
conceptualisations cannot be done without a sense of wholeness/nested-congruence in the first place, and more precisely as of ‘totalising-entailing/nested-congruence apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness with existence as of its ecstatic singularity’. While in many ways the natural sciences as immediately-and-directly constrained by ontological-primemovers-totalitative-framework are naturally and ad-hocly postconvergingly–dementated/structured/paradigmed to implicitly construe wholeness/nested-congruence of conception as of ‘totalising-entailing/nested-congruence apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness with existence as of its ecstatic singularity’ with regards to their conceptualisations, this cannot be said of the same of the social as of the need for its self-conscious understanding of wholeness/nested-congruence conception as of ‘apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness with existence as of its ecstatic singularity’ given its inherent blurriness, and emotional-involvement, in order to then achieve parallel level of ontological-primemovers-totalitative-framework knowledge conception as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemic-determinism. Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness, as all the objectifying discursivity that is ontologically-veridical is as of the apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—conflatedness of prospective relative-ontological-completeness over prior relative-ontological-incompleteness construed as immanence-function-conflatedness. Thus metaphoricity of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-conflatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstition, spiritualism, etc. This same conception holds with the notional–deprocrypticism immanence-function-conflatedness overriding the meaningfulness-and-teleology of procrypticism–or–disjointedness-as-of–reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the notional–deprocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of–reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflatedness implying that all the meaningfulness-and-teleology is necessarily as of the prospective relative-ontological-completeness over the prior relative-ontological-incompleteness; respectively as of positivism and deprocrypticism.
If by anticipation we do know immanently that a non-positivism mindset is bound to a non-positivistic-as-existentially-superstitious apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of de-mentative/structural/paradigmatic internal-necessity/determinism insight from positivism immanence-function-conflicatedness with the obviousness there is no point implying an ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-superstitious inclination, the same implication will extend to notional-deprocrypticism immanence-function-conflicatedness as of de-mentative/structural/paradigmatic internal-necessity/determinism insight with regards to anticipating the disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our positivism–procrysticism mental-disposition with no pretence of such a positivism–procrysticism ontologically-flawed objectifying/contending discursivity in assessing the disjointedness-as-of-reference-of-thought inclination. In other words, immanence-function-conflicatedness is all about reflecting the straightforwardness of ontological-primemovers-totalitative-framework as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective nonpresencing projected epistemic-immanence/veridical-epistemic-determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive predisposition to make of its objectifying/contending discursivity as de-mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior relative-ontological-incompleteness as if of prospective relative-ontological-completeness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-function-conflicatedness equally highlights knowledge as of its essential organic construct implications. As a
tends to imagine that knowledge is basically a cumulative exercise to an already soundly postconvergingly–de-mentated/structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the postconverging–de-mentating/structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God of plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sUBLIMITY/sublimation/supererOGATORY–de-mentativity as of prospective relative-ontological-completeness’-of-‘reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the
organic knowledge is ever always as of the de-mentative/structural/paradigmatic internal-necessity/determinism of prospective relative-ontological-completeness°⁸ of reference-of-thought as of immanence-function-conflatedness°⁵, with the pretence of prior relative-ontological-incompleteness°⁶ of reference-of-thought for objectifying/contending discursivity nothing more but flawed°⁷ °⁸ °⁹. The study of the social as of immanence-function-conflatedness°⁵ insight grasp that the blurriness,°⁸ °⁹ totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag° temporal° meaningfullness-and-teleology°°. The study of the social as of immanence-function-conflatedness°⁵ insight grasp that the blurriness,°⁸ °⁹ totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag° and remoteness of cause-and-effect invoke a more refined conception of ontological-primemovers-totalitative-framework°°° as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability°°° and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a ‘construct
of comprehensive-coherence and competitive claim to ontological pertinence as of extensive
research-programme implications’, but this should however implicitly reflect concurrently the
underlying notions of falsifiability\textsuperscript{41}-or-deferring-falsifiability\textsuperscript{41} and validation-or-deferring-
validation. It is herein contended that it is the implicated orientation of many post-structuralists
thinking as of the research-programme epistemic model as articulated herein that renders their
thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to
cite just these few have turn out to be the dominant scholarly-cited authors in the general
humanities, and so precisely because of the very thorough existentialising/contextualising/textualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{87} in their
scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a
more scientific methodology but when evaluated as of such authorial scholarly comprehensive
research-programmes’ turn out to be of weaker existentialising/contextualising/textualising-

Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity criticism exactly because of its strong scholarly research-programme existentialising/contextualising/textualising-contiguity knowledge-reification, and thus an immanence-function-conflatedness insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-threshold, human existential-investment as of its temporality/shortness cannot be predisposed to ant-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity lies in upholding-and-defending authentic intellectualism even as of metaphoricity beyond <amplituding/formative> wooden-language.
(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications{}) socially intelligible meaningfulness-and-teleology conceptualisation in <amplituding/formative–epistemicity>totalising–self-referring-syncretising/circularity/interiorising/akrasiatic-drag. Metaphoricity as such ironises on social intellectual nihilism as it is bent on undermining any temporality/shortness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic intemporality/longness parrhesiastic askance, and as of immanence-function-conflatedness ‘highlights and keeps wide-opened the prospect’ for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated–temporal-intemporality manifestations that usurp and undermine human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrypticism social-setup to perceive our positivism–procrypticism humanistic knowledge system as absolute; it is immanence-function-conflatedness by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology conception, recognising the underlying retrospective and
prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflectedness insight, the epistemic and methodological pretences as of our humanistic positivism–procrypticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic postconverging–de-mentating/structuring/paradigming as of their ultimate existentialising/contextualising/textualising-contiguity knowledge-reification as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative existentialising/contextualising/textualising-contiguity knowledge-reification as knowledge construed as their research-programmes. This speaks of the fact that such a conception of epistemic commitment as of research-programme is effectively one of epistemic singularisation–as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing projected epistemic-immanence/veridical-epistemic-determinism so-implied as of ontological-normalcy/postconvergence associated with ontologically-uncompromised—referentialism deprocrypticism; and very much overcoming the limiting effect of our present conception of epistemic commitment as rather dissingularisation–as-to-the-disjointedness/disentailment-of-
presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemic-determinism as of ontologically-compromised—categorising positivism—procrypticism. Thus, if immanence-function-conflatedness\textsuperscript{12} reveals that it is the ‘projected research-programme of any given knowledge construct as of its prospective relative existentialising/contextualising/textualising-contiguity\textsuperscript{9} knowledge-reification’ that is its preeminent epistemic and methodological validation, ‘pretences of pre-given epistemic predispositions’ that do not attend pertinently and similarly to prospective relative existentialising/contextualising/textualising-contiguity\textsuperscript{9} knowledge-reification\textsuperscript{1} are nothing more but \textsuperscript{4}<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predispositions that pretend to supersede existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation \textsuperscript{<-as-to-perspective–ontological-normalcy/postconvergence-implied–’prospective-aporeticism-overcoming/unovercoming’>}, and institutionalised, such \textsuperscript{4}<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predispositions may actually be de-mentatively/structurally/paradigmatically stifling for the possibility of prospective knowledge and transcendence-and-sublimity/sublimation/supererogatory~de-mentativity, and more seriously so where the possibility of varied research-programme choices are difficulty entertainable without institutional backing for research needing major funding and/or resources. Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly
eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on
the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective
knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not
contradictory in the sense that if the present was all that great then its very transcendence-and-
sublimity/sublimation/supererogatory/de-mentativity wouldn’t be occurring, and so
existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-
sublimity/sublimation/supererogatory/de-mentativity occurs as to conflict with the naïve social
‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-
existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative-
epistemicity>totalising–purview-of-construal’ but with contrastive underlying relative-

human transcendence-and-sublimity/sublimation/supererogatory/de-mentativity especially, as
of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies
wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the
framework of our limited certitudes as this limits/stifles the possibility of further profound
existentialising/contextualising/textualising-contiguity\(^{9}\) knowledge-reification\(^{7}\) for
transcendence-and-sublimity/sublimation/supererogatory/de-mentativity. While today that
notion of contrariety has in many ways sanked in and been accepted with natural science
knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter
is that the possibility of the profound study and emancipation of the social inevitably comes
with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was
what brought about the positivistic mindset today that allowed for modern-day science to
develop and just as well modern-day social science, it is inevitable that a further development
of human knowledge as of its organic knowledge construct warrants a further ‘decentering of
the human subject’ as implied by deprocrypticism—or—preempting—disjointedness-as-of-
reference-of-thought; and justified by the fact that if previous generations had to undergo their
psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed
into the corner of our intellectual nihilism when we seem to pretend that we are beyond the
prospect of our transcendence-and-sublimity/sublimation/supererogatory—de-mentativity.
Immanence-function-conflicatedness analytical implications equally arise as of the
‘countervailing transversality<for-sublimating—existential—eventuating/denouement>_of-
affirmative-and-unaffirmative—disambiguated—motif-and-
apriorising/axiomatising/referencing’ relation induced as of ontological-primemovers-
totalitative-framework between ‘existence/existential-possibilities as the selecting
transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity’
and ‘the ever developing human limited-mentation-capacity as of its deepening from relative
uninstitutionalised-threshold to relative institutionalisation so-construed as prospective
institutionalisation dissemination’, as this transversality<for-sublimating—existential—
eventuating/denouement>_of-affirmative-and-unaffirmative—disambiguated—motif-and-
apriorising/axiomatising/referencing’ is exactly what validates epistemic-veracity as of
prospective relative-ontological-completeness as relevant for the protracted-consciousness of
notional—deprocrypticism. Thus for such a notion of research-programme as articulated herein
rather than just implying mere epistemic latitude/anarchy, it speaks instead of the
construal/justification of epistemic-veracity as of precedence of prospective relative-
ontological-completeness <amplituding/formative—epistemicity> causality—as-to-projective-

Thus prospective relative-ontological-completeness is inherently bound with its very own epistemic

<amplituding/formative-epistemicity>causality—as-to-projective-totalitativity—implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity as of the ‘decentering of the human subject’ involved in knowledge-reification. This inherently projects a ‘practical picture of human epistemic determination’ of ‘maximal disseminative human epistemic articulations at relative uninstitutionalised-threshold and ‘minimum select human epistemic articulations at prospective institutionalisations’, and so as of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity transversally induced ontological-primemovers-totalitative-framework selective epistemic-veracity transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. In this regard and at the general epistemic level of reference-of-thought devolving, we can appreciate the massively shrunk epistemic-veracity possibilities available for our present positivism credible construal of ontological-veridicality over the epistemic-veracity possibilities previously available for non-positivistic social-setups credible construal of ontological-veridicality as of their full existential cognition of superstition, witchcraft, spiritualism, etc., and their social implications; and this reflects the very fact that ‘intemporal ontological-faith—dis/connection—ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being—as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—<as-to-the-

Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity—of-the-human-institutionalisation-process which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to ontological-primemovers-totalitative-framework and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong ontological-primemovers-totalitative-framework and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>)

epistemic impertinence. Prospective notional—deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness—of-reference-of-thought associated ontological-primemovers-totalitative-framework, with the implication that our positivism—procrypticism uninstitutionalised-threshold epistemic—
veracity is in many ways construed as of epistemic impertinence at its disjointedness-as-of-reference-of-thought uninstitutionalised-threshold and superseded by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity determinant selector as of the deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought disseminative research-programme coherence and ontological-contiguity. The idea being that the notional–deprocrypticism epistemic-veracity as of such disseminative research-programme coherence and ontological-contiguity equally imply an underlying falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable to ontological-primemovers-totalitative-framework <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of existentialising/contextualising/textualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Such a notional–deprocrypticism epistemic-veracity implication is pertinent because blurriness and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-totalitative-framework, such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of ontological-primemovers-totalitative-framework as developed in the natural sciences tends to be poorly developed in many a
domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality—of-affirmative-and-unaffirmative—motif-and-apriorising/axiomatising/referencing—constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their apriorising/axiomatising/referencing—of-existentialising/contextualising/textualising-contiguity—conflatedness totalising-entailing/nested-congruence or how these conflate as of prospective relative-ontological-completeness with existence—as-the-absolute-a-priori-of-

Ultimately, the contrastive epistemic-veracity of theoretical and conceptual articulations rather lies with regards to their existentialising/contextualising/textualising-contiguity knowledge-reification as of their critical operant implications and unmuddled conceptions. Furthermore, the notional—deprocrypticism epistemic-veracity implies a further extension of deferential-formalisation-transference as of less predisposition to extended-informality <amplituding/formative> wooden-language-{imbued—averaging-of-thought}<as-to-

With the <amplituding/formative—epistemicity> causality—as-to-projective-totalitative—implications—of-prospective—nonpresencing,—for-explicating-ontological-contiguity that the deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought extended-informality requires an organic-knowledge type of pedagogy based on eliciting an ontological-faith-notion—or—ontological-fideism—imbued-underdetermination-of-motif—apriorising/axiomatising/referencing—as-so-being—as-of—existential-reality solipsistic sense-of-things, over the usual mechanical-knowledge type of pedagogy which is rather based on eliciting positive-opportunism sense-of-things. This is critical because the notional—deprocrypticism reference-of-thought warrants a more originary/as-of-event mental-disposition ‘beyond just responsiveness to secondnatured institutionalisation’ but equally the capacity to assume dimensionality-of-sublimating

meaningfulness-and-teleology is the need for a notional–deprocrypticism reconceptualised
conception of the human construction-of-the-Self. In this regard, we can appreciate critically
that hitherto and as of a natural human predisposition to <amplituding/formative–

the psychology traditions have tended to ad-hocely construe construction-of-the-Self as of a

ontological orientation of traditional psychology/psychoanalysis; wherein ‘the human

that such a traditional psychology approach to construction-of-the-Self is constituted as of

the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness -

apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-

Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its <amplituding/formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag>’, and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology(implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-prime-movers-totalitative-framework. Thus intemporal ontological-performance-<including-virtue-as-ontology> ever always warrants human prospective relative-ontological-completeness-of-reference-of-thought for empowering and responsible meaningfulness-
and-teleology for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance -<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance’-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence—as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human "<amplituding/formative–epistemicity>totalising—thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory-de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>}? of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on
the one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the
basis of the specific universalising-idealisation phronetic/practicality situations as to its
defining existence-potency—sublimating–nascence, disclosed-from-prospective-epistemic-

as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing by writing
that is not necessarily pedagogically instructive’, and thus not contradictory with Plato’s writing
as of recording-for-posterity) and Plato were more engaged with establishing overall
philosophical insight beyond just their universalising-idealisation renewed reproducibility—
mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation over non-
universalising sophistry (even as their association of anamnesis with mythical recollection was
caught up in the universalising-idealisation apriorising/axiomatising/referencing–
psychologism but by the practical demonstration is relevant in all registry-worldviews/dimensions as of the example articulated as well herein by this author with regards
to a child’s solipsistic sense of meaning wherein after grasping the rules of additionality even a
deliberately collective social misleading will not derail the child’s true sense of meaning) as
they factored that any such renewal is being undertaken phronetically/practically with human
limited-mentation-capacity that is not of absolutising conceptualisation, speaking prospectively of
destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-
decisionality}–of-ontological-performance -{including-virtue-as-ontology}, and thus what is
more profoundly critical is knowledge-reification 87 as of the transepistemic implications of
human limited-mentation-capacity-deepening 7. Aristotle as successor to their thought
effectively had to move on to more fruitfully and complementarily elaborate
phronetically/practically the implications of universalising-idealisation 56 meaningfulness-
and-teleology 90 infrastructure as of science, practical-virtue, rationality, etc., rather than just
theoretically reiterating his predecessors, and as such phronesis as of reproducibility—
mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation is what induces
existentialising/contextualising/textualising-contiguity 70 and thus allows prospective
dimensionality-of-sublimating 56 <amplituding/formative–supererogatory–de-

inherent human-subpotency potential) leading to further superseding/transcendence as of prospective reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. But the fact is there is comprehensive coherence in the philosophical articulations of the three thinkers when construed with this comprehensive philosophical knowledge-reification projection insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue in the sense that human knowledge-reification, and so in all domains without exception, is one of a dynamic complementary relationship between dimensionality-of-sublimating \( \langle \text{amplituding/formative}\supercaligraphymathews} \text{supercaligraphymathews} \text{de-mentativeness/epistemic-growth-or-conflatedness} /\text{transvalutative-rationalising/transepiestemicity/anamnestic-residuality/spirit-drivenness} = \text{equalisation} \rangle \) and phronesis existentialising/contextualising/textualising-contiguity in order to grasp ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency\( ^{15} \)~sublimating—nascence,—disclosed-from-prospective-epistemic-digression as so reflected with prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation for renewed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. In this regards, Socratic philosophy as of its knowledge is virtue contention recognises that the impression-driven/good-naturedness/wishfulness of any given reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation whether as of non-universalising sophistry or even prospective Socratic-philosophers universalising-idealisation is not sufficient to ‘absolutely capture’ ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency\( ^{15} \)~sublimating—nascence,—disclosed-from-prospective-epistemic-digression, and that such a possibility lies in perpetual knowledge-reification disposition as of the-Good/understanding/knowledge-reification /ontological-prinemovers-totalitative-framework. Thus Socratic philosophy as of its very ‘anamnesis core implications’ doesn’t
only supersedes prior non-universalising sophistry with \textsuperscript{104} universalising-idealisation but it can equally be said that it anticipates prospective positivism/rational-empiricism phronesis existentialising/contextualising/textualising-contiguity\textsuperscript{10} as it reconceptualises science, practical-virtue, rationality, etc. in superseding \textsuperscript{104} universalising-idealisation phronesis existentialising/contextualising/textualising-contiguity\textsuperscript{9} at the latter’s destructuring-threshold\textsuperscript{2} (uninstitutionalised-threshold \textsuperscript{103} /presublimating–desublimating-decisionality)-of-ontological-performance’ <-<including-virtue-as-ontology>, as well as anticipate the overall human institutional process as herein conceptualised as of difference-conflatedness \textsuperscript{12} -as-to-totalitative-reification” -in-singularity <-as-to-the-nondisjoinedness/entailment-of-prospective- nonpresencing> -as-veridical-epistemic-determinism \textsuperscript{4} <amplituding/formative–epistemicity> causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity of phronesis existentialising/contextualising/textualising-contiguity\textsuperscript{9}. In concrete terms, we can contrastively construe of such akrasia-susceptibility-or-akrasiatic-drag complex ‘<amplituding/formative–epistemicity> totalising/circumscribing/delineating preconverging/dementing \textsuperscript{10}–qualia-schema’ existential desublimation manifestation of meaningfulness-and-teleology\textsuperscript{10} as of both a \textsuperscript{104} universalisation–non-positivism/medievalism and our positivism–procrypticism registry-worldview/dimension with regards to ‘mental-dispositions of general social living, institutional and Being ontological-bad-faith/inauthenticity\textsuperscript{64} geared to undermine ontological-veracity’; but then the positivism–procrypticism perspective as of its prospective relative-ontological-completeness\textsuperscript{23} will be less complexed in identifying the mental flaw of the \textsuperscript{104} universalisation–non-positivism/medievalism manifestation of akrasia-susceptibility-or-akrasiatic-drag complex ‘<amplituding/formative–epistemicity> totalising/circumscribing/delineating preconverging/dementing \textsuperscript{10}–qualia-schema’ as of the former’s ‘<amplituding/formative–

infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-
framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{[10]}\). Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturaedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of wooden-language\{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—‘nondescript/ignorable–void ’<with-regards-to-prospective-apriorising-implications>\} dispositions as of a supposed notion of intellectual
Ontological-fracturing as such is a reflection of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, and points out that the way we tend to conceptualise/construe-of idealisation as reflected in rules, institutional essence, institutional processes and ideals is ontologically-flawed/wrong as the assumption is one that tends to imply beyond-the-consciousness-awareness-teleology<100>-<in-existential-extrication-as-of-existential-unthought>5 only human intemporal ontological-performance<72>-<including-virtue-as-ontology> by mental-reflex, rather than the reality of human temporal-to-intemporal ontological-performance<72>-<including-virtue-as-ontology> of any given idealisation; speaking of the reality that any idealisation construed as of rules, institutional essence, institutional processes and ideals is de-mentatively/structurally/paradigmatically bound to be ontological-fractured as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor. The implication here is that all projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation percolation-channelling-<in-deferential-formalisation-transference>, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing<15> of such idealisations with regards to their more profound transcendence-and-sublimity/sublimation/supererogatory~de-mentativity implications. In the same vein, we tend as
of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuations-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance -<including-virtue-as-ontology> is inherent, the underlying de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance -<including-virtue-as-ontology> in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of percolation-channelling -<in-deferential-formalisation-transference> doesn’t substitute for the -<amplituding/formative-epistemicity> totalising~renewing-realisation/re-perception/re-thought as of the underlying dimensionality-of-sublimating -<amplituding/formative> supererogatory~de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness~equalisation individuation disposition that of reasoning-through/messianic-reasoning brought about secondnatured institutionalisation. The bigger point here is that there is never going to be an inherent suprasocial or -<amplituding/formative> wooden-language (imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) framework that ‘invents’ and accounts for prospective social transcendence-and-sublimity/sublimation/supererogatory~de-mentativity idealisation, in

But any given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension ‘meaningfulness-and-teleology’ as well as the fact that human perceived social-stake-contention-or-confliction interests drift within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities, implies that any such registry-worldview/dimension social-setup has ‘a basic postconverging–de-mentating/structuring/paradigming supposedly coherent ontological-commitment’ for its effective functioning which lays it prospectively exposed to metaphoricity as of prospective ontological-primemovers-totalitative-framework as from prospective existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression epistemic/notional—projective-perspective; as such a registry-worldview/dimension would difficultly renege, as of contradictory and incoherent implications, on such critical prospective ontological-veracity implications of such prospective relative-ontological-completeness of meaningfulness-and-teleology. It is this element that equally ultimately renders the study of the social, notwithstanding its strong underlying amplituding/formative—epistemicity—totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of potentially the same ontological-performance—including-virtue-as-ontology possibility as with the natural sciences. <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> but from a more profound level of appreciation this not the case as explained above, as in effect a society/social-setup conventioning projects correspondingly a profound supposedly coherent ontological-commitment

flawed-epistemic-determinism critiques when misrepresenting the ontologically-veridical observations/remarks/‘constatations’ as of ecstatic-totalising-entailing/nested-congruence of postmodern thinkers. Rather as construed herein, relative truth speaks to human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing as of the <amplituding/formative–epistemicity>causality-as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity of prospective relative-ontological-completeness, and so-construed as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemic-determinism perspective. In other words, it is herein contended that the implied notion of relative truth expressed by postmodern-thought is not a rejection of truth as they are wrongly accused, but that truth deepens relatively with human limited-mentation-capacity-deepening; and this notion of relative truth is reflected in their works/research-programmes that undermine our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness-as-flawed-epistemic-determinism perspective. Further, the implication as well is that the adjudicator as to transcendental-signifier/transcendental-enabling/sublimating/supererogatory-mentativity with regards to truth as it enables transcendence-and-sublimity/sublimation/supererogatory-mentativity then is existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression as of its ontological-primemovers-totalitative-framework.<amplituding/formative–epistemicity>causality-as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity selecting/skewing for ontological-

Even though in the short-term/immediacy perspective the specific metaphoricity of say a scientific and liberal worldview narrative as implied with the industrial revolution may actually be in the most part ignored/overlooked in a pre-industrial society from a merely meaningfulness-and-teleology transmission/spreading perspective, the supposedly coherent ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ exposes it to the metaphoricity of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained politically and as of national vision, economically and culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior preconverging—de-mentating/structuring/paradigming of societies. Such an overall prospective institutionalisation metaphoricity constraining is very much unlike what we may naively imagine the prior human meaningfulness-and-teleology to be from an after the fact analysis; since such a process is much more critically more than just ‘mere
transmission/spreading of scientific and liberal meaningfulness-and-teleology for say a suprasocial or wooden-language-imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications’ human mindset processing’, but critically was an epistemic-ricochetting/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> unlike our subsequent reasoning-from-results/afterthought contemplation afterwards ‘wrongly implying a metaphoricity as of a self-consciously instigated prior suprasocial or wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications’ comprehensive sense of prospective metaphoricity’. This points to a more comprehensive reality of human epistemic-veracity arising as of our totalising—thrownness-in-existence with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability implications as of ontological-primemovers-totalitative-framework, in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>—nonpresencing—<perspective—ontological-normalcy/postconvergence> ricochetting that speaks of the de-mentative/structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such

presencing—absolutising-identitive-constitutedness mindset not dispensing-with-immediacy-for-prospective-ontological-completeness/contemplative-distension, and so in order to effectively put in perspective the deficiency of epistemic-veracity so-inherent when it comes to prospective metaphoricity implications of operant prospective intemporal individuation transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated—’motif-and-apriorising/axiomatising/referencing” intemporal projection as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for reasoning-through/messianic-reasoning. We can appreciate as well in the bigger scheme of things the ontological-veridicality of this scepticism with regards to any such suprasocial or wooden-language\{imbued—averaging-of-thought\}<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of—’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications> epistemic-veracity pretence, as expressed before with respect to Plato’s idea universalisation involving the undermining of the suprasocial epistemic-veracity pretence associated with sophistry or Descartes’ cogito implications of positivism/rational-empiricism involving the undermining of the suprasocial epistemic-veracity pretence of medieval-scholasticism pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness ). Just as we can appreciate that in ‘the very same physics
reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness\(^2\) of axiomatic-construct-or\(^3\) reference-of-thought, the epistemic-veracity as implied in succession from Copernicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21\(^{\text{st}}\) century physics is mostly as of ricocheting prospective nonpresencing-<perspective–ontological-normalcy/postconvergence>. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its de-mentative/structural/paradigmatic \(^5\)meaningfulness-and-teleology\(^{100}\) as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility for prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework\(^3\) validation-and-falsifiability\(^1\). Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective \(^5\)meaningfulness-and-teleology\(^{100}\) as knowledge on a vague notion of any ‘presencing—absolutising-identitive-constitutedness\(^13\) epistemic-veracity that at the very least doesn’t rise to projectively contemplate and appraise of such prospective ‘meaningfulness-and-teleology\(^{100}\) as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability\(^1\). Thus metaphoricity\(^7\) as such is a notion that is beyond just simplistic transmission/spreading of prospective \(^5\)meaningfulness-and-teleology\(^{100}\) as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibility/measure/instrument for \(^5\)meaningfulness-and-teleology\(^{100}\) as say the commonality of such metaphoricity\(^9\) inclined re-

But rather beyond such shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology that is instigative, metaphoricity is critically about the prospective ricochetting postconverging–de-mentating/structuring/paradigming implications for inducing such prospective meaningfulness-and-teleology implications on the fabric of the social as an epistemic-totality framework (beyond-the-consciousness-awareness-teleology<br />

as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its conventioning-referencing and its \( \text{presencing—absolutising-identitive-constitutedness}^{12} \) Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\( ^{100} \), when it comes to assessing the possibility of prospective \( \text{meaningfulness-and-teleology}\( ^{100} \) inducing of metaphoricity\( ^{7} \). It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\( ^{100} \) like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\( ^{100} \) including our modern period, is a flawed appraisal; as in many ways, beyond our \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold\( ^{103} \) as of the privileging of conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\( ^{100} \), and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the

to grasp that since every registry–worldview/dimension social–construct is involved in a

inevitably validates the articulation of ontological–veracity/ontological–veridicality as more
completely involving the displacement/decentering–of–the–human–subject priorly as implied
with Derridean deconstruction narrative or Foucauldian genealogy–knowledge–and–power–
discourse narrative in reflecting the need to undermine human destructuring-threshold\{uninstitutionalised-threshold /presublimating–desublimating-decisionality\}~of-ontological-performance\langle\langle-including-virtue-as-ontology\rangle\to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completeness implications; reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thus the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected apriorising/axiomatising/referencing-(of– existentialising/contextualising/textualising-contiguity )—conflicatedness. This is very much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative apriorising/axiomatising/referencing-(of– existentialising/contextualising/textualising-contiguity )—constitutedness since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness on ontological-veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent ‘logocentric habituated social conditions’ in enabling the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\{uninstitutionalised-threshold /presublimating–desublimating-decisionality\}~of-ontological-performance\langle\langle-including-virtue-as-ontology\rangle nature speaking of
its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity meaningfulness-and-teleology whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold ⟨uninstitutionalised-threshold /presublimating–desublimating-decisionality⟩~of-ontological-performance⟨including-virtue-as-ontology⟩ nature is effectively what underlies in ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms–as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness deprocrypticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the
articulation of budding-positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness\(^{\text{10}}\) temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness\(^{\text{1}}\) positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness\(^{\text{2}}\)-by-reification\(^{\text{3}}\)/contemplative-distension\(^{\text{26}}\) (as of human self-surpassing—existentialism-form-factor\(^{\text{2}}\)-in-overcoming-‘notionally–collateralising-beholdening-protohumanity’–to–‘attain-sublimating-humanity’–as-to-existence-potency –sublimating–nascence, disclosed from prospective-epistemic-digression to supersede human temporality\(^{\text{9}}\)/shortness \(<\text{amplituding/formative}>\) wooden-language\(^{\text{8}}\) (imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology –as-of–‘nondescript/ignorable–void ’–with-regards-to-prospective-apriorising-implications>\); which will explain in many ways the difficulty of the Copernicus, Galileos, Descartes’, Diderots, etc. so effectively enculturate their budding-positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-incompleteness\(^{\text{20}}\) human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness\(^{\text{20}}\) notional–deprocrypticism rather
subsumes all such binary opposition conceptions basically into the binarity of intemporality\textsuperscript{2}/longness and temporality\textsuperscript{2}/shortness as to human limited-mentation-capacity relative ontological-performance\textsuperscript{1,-}<including-virtue-as-ontology>. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness\textsuperscript{2} notional-deprocrypticism that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-completeness\textsuperscript{2} notional-deprocrypticism herein construed as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this
regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-
relative-ontological-completeness\(^8\)/contemplative-distension as of a nominal adversarial
binarity predisposition in many ways renders such an ontologically more profound construct of
deconstruction difficult. In this very contrastive sense with regards to our present prospective
relative-ontological-completeness\(^8\) positivism/rational-empiricism, we don’t ideally construe
of science as of its pure-ontology as discriminatorily selective in its conclusions and we further
appreciate that its usefulness is universally emancipatory as of social-stake-contention-or- 
confliction, and so in both instances with regards to say medicine or civil technology or 
consumer technology or even scientific and technological nomenclatures; with any such
discriminatorily selective predisposition and failure to share its usefulness being an indictment 
of a lack of the requisite liberalism for perpetuating human scientific progress and basically
overall human emancipation. Ultimately, the social-construct as of its
constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold

This is the overall notion explaining human akrasia-susceptibility-or-akrasiatic-drag complex, and so as of human limited-mentation-capacity notional implications. Thereafter, understanding of this human ‘ontologically-flawed antiakrasiatic disposition’ is all about conceptualising the effective operant ontologically-constraining conditions as of human existential-instantiations given our limited-mentation-capacity implied as of temporality/shortness and intemporality/longness implications, and so construed epistemically as ontological-normalcy/postconvergence analysis. Insightfully, we can appreciate that the absolute human ontologically-veridical antiakrasiatic disposition can only be as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism so-reflected with futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldview/dimension, over human-subpotency–as-of-ontologically-compromised-epistemic-abnormalcy/preconvergence so-reflected variously with the preceding successive registry-worldviews/dimensions; wherein notional–deprocrypticism as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression will rather speak of prospective ‘ontologically-hegemonising-narrative ontological-performance—including-virtue-as-ontology’ which as of its inherent constructive ontological-performance—including-virtue-as-ontology is of a de-mentative/structural/paradigmatic implication that ultimately supersedes the destructuring-threshold–of-ontological-performance—and—of-ontological-performance—including-virtue-as-ontology notionally underlying human-subpotency. Thus all the problem
of human ontologically-flawed antiakrasiatic disposition boils down to construing the underlying human mental-processing disposition, construed as of phenomenal-abstractiveness implications, as from human-subpotency dispositional possibilities of ontological-performance\textsuperscript{27}\textsuperscript{-<including-virtue-as-ontology>} to existence-potency\textsuperscript{38}\textsuperscript{-sublimating–nascence,-disclosed-from-prospective-epistemic-digression possibility of ontological-performance\textsuperscript{72}\textsuperscript{-<including-virtue-as-ontology>}. In this respect, we can appreciate that the successive registry-worldviews/dimensions \textsuperscript{84}reference-of-thought in reflecting holographically\textsuperscript{-<conjugatively-and-transfusively>} the ontological-contiguity\textsuperscript{77}—of-the-human-institutionalisation-process\textsuperscript{68} are effectively differing de-mentative/structural/paradigmatic antiakrasiatic dispositions-as-of-self-consciousness varying from most ontologically-flawed as of recurrent-utter-uninstitutionalisation to most ontologically-veridical as futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} as of prospective deprocrypticism. This analysis so far sums up the overall framework of human temporal-to-intemporal ontologically-flawed antiakrasiatic disposition as of the social epistemic-totality\textsuperscript{26} of

Further and of much more profound reification \textsuperscript{101} implications, is the reality that the social-construct constructive and destructuring nature can be fundamentally accounted for by the fact that human antiakrasiatic disposition aspiration is truly reflected as from the effective implications of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic aske\textsuperscript{i}sis-or-acumen reasoning-through/messianic-reasoning ‘seeding promise of human-subpotency ontological-performance\textsuperscript{72}<-\textit{including-virtue-as-ontology}> equivalence/correspondence with the full-potency-of-existence’s~sublimating-nascence-as-of-its-coherence/contiguity’; thus with the latter reconceptualised as ‘human-subpotency equivalence/correspondence antiakrasiatic-aspiration ontological-performance\textsuperscript{72}<-\textit{including-virtue-as-ontology}>’. Critical to the social manifestation of destructuring-transitoriness -as-of-deratiocination/deratiocontiguity and its-extension-in-complexification is that it is socially perceived decisively as not destructuring going by the narrative of the collective social-setting destructuring-disposition—flipping/changing/transitioning-induced-notional-discontiguity/epistemic-discontiguity\(^6\)-<shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema> in dissingularisation-as-to-the-disjointedness/disentailment-of- presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemic-determinism at its destructuring-threshold-(uninstitutionalised-threshold /presublimating–desublimating-decisionality)-of-ontological-performance -<including-virtue-as-ontology>, to then reflect of such ‘pretence of equivalence/correspondence antiakrasiatic-aspiration ontological-performance\(^7\)-<including-virtue-as-ontology>’ as if of ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’ -<including-virtue-as-ontology>’, and to assent to such a state of affairs. Destructuring-transitoriness\(^18\)-as-of-deratiocination/deratiocontiguity thus arises as of human limited-mentation-capacity deficient personality adherence, personality formation and personality development as of the social-setting very own registry-worldview/dimension institutionalisation level, with regards to the construal of the social-construct in its constructiveness-of-ontological-performance\(^7\)-<including-virtue-as-ontology> as of ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’ -<including-virtue-as-ontology>’, with such destructuring deficiency defining its uninstitutionalised-threshold\(^\text{103}\).

Insightfully, it can be appreciated that the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{83} is one long process involving the undermining of destructuring-transitoriness\textsuperscript{18}-as-of-deratiocination/deratiocontiguity at uninstitutionalised-threshold\textsuperscript{10} with relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance\textsuperscript{72}-<including-virtue-as-ontology>’ as of ontologically-hegemonising-narrative\textsuperscript{71} implied as of prospective ‘<-amplituding/formative–epistemicity>totalising~ratio-contiguity/ratiocination-as-referentialism constructiveness disposition in singularisation<-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing- projected epistemic-immanence/veridical-epistemic-determinism’. In this regard, we can appreciate anthropologically as of human limited-mentation-capacity-deepening\textsuperscript{53} implications the destructuring-transitoriness\textsuperscript{18}-as-of-deratiocination/deratiocontiguity that upheld superstitious beliefs in non-positivism social constructs but as of positivism/rational-empiricism

This destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating–decisionality}—of-ontological-performance -<including-virtue-as-ontology> analysis effectively points to the fact that human akrasia-susceptibility-or-akrasiatic-drag complex is such a decisive and determinant notion with respect to the human psyche as the critically interceding notion with respect to human social construction-of-the-Self and as it remains a transitive and constant notion in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process as to the destructuring implications at uninstitutionalised-threshold implied human-subpotency epistemic/notional—projective-perspective in dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitve-constitutedness /epistemic-nonimmanence/flawed-epistemic-determinism relative to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression epistemic/notional—projective-perspective in singularisation-as-to-the-

the elucidation/reification as ‘destructuring-threshold{uninstitutionalised-

<including-virtue-as-ontology> analysis’ is rather notionally/epistemically reflective of the
social-construct constructiveness-of-ontological-performance ‘<including-virtue-as-ontology>,
as such an antiakrasiatic analysis of uninstitutionalised-threshold notionally/epistemically
reflects the ontological-contiguity —of-the-human-institutionalisation-process ; and so,
similarly as the analysis of prospective possibilities of disease and illness is not about being
pessimistic about the biology of human beings but is notionally/epistemically reflective of the
possibility for the further development and provision of medicine and healthcare, and just as the
projective analysis of lack of science and technology capacity is not about being pessimistic
about human technical development but is notionally/epistemically reflective of the possibility
for the further invention of technologies and scientific discoveries. We can appreciate here that
the very same epistemic/notional conceptualisation with respect to the human subject as with
natural subject-matters elicits in the former high emotional involvement whereas the latter as of
its direct ontological-primemovers-totalitative-framework \[^4\] \[^5\] amplituding-formative–
epistemicity>causality as-to-projective-totalitative–implications-of-prospective-
nonpresencing,-for-explicating-ontological-contiguity elicits low emotional-involvement,
but for the case where with regards to high and conflicting human social-stake-contention-or-
confliction even the natural domain is not immuned from high emotional-involvement as with
the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance<-<including-virtue-as-ontology> and as reflected at uninstitutionalised-threshold. As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance<-<including-virtue-as-ontology> destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance<-<including-virtue-as-ontology> and uninstitutionalised-threshold, and it is this difficult task of crossgenerational mobilisation that enables the prospective constructiveness-of-ontological-performance<-<including-virtue-as-ontology> for human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. The implicated passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance<-<including-virtue-as-ontology> need to be integrated into the very core of such secondnatured formulaic/mechanical-
knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity of-the-human-institutionalisation-process; such that prospective social-construct constructiveness-of-ontological-performance and institutionalisation is ever always a process of maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation to prospectively recapture the supererogatory acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument — for conceptualisation for prospective organic-knowledge lost in secondnatured institutionalisation with the latter construed in temporality /shortness often bound to induce incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation as of poor apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Inevitably across the various registry-worldviews/dimensions in reflecting holographically the ontological-contiguity of-the-human-institutionalisation-process, the universally-transparent articulation-and-implications (as herein) of human destructuring as reflected by ‘amplituding/formative–epistemicity totalising/circumscribing/delineating preconverging/dementing —qualia-schema’ and constructiveness as reflected by ‘amplituding/formative–epistemicity totalising/circumscribing/delineating postconverging/dialectical-thinking —qualia-schema’ inherently elicits from the human-subpotency epistemic/notional–projective-perspective reflected as of the ‘amplituding/formative–epistemicity totalising/circumscribing/delineating preconverging/dementing —qualia-schema’ in ‘amplituding/formative–epistemicity totalising/self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’,
extent of entailing prospective relative-ontological-completeness. We can appreciate in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy apriorising-teleological-elevation-in-ontological-contiguity beyond recurrent-utter-uninstitutionalisation social-stake-contention-or-confliction as of its '<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and likewise with the intemporal projection as of universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism and prospectively notional–deprocrypticism over positivism–procrypticism. In this regards, the notion of preconverging-or-dementing–apriorising-psychologism as reflected as of '<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing–qualia-schema’ of prior relative-ontological-incompleteness is tied-to and a necessarily associated notion with that of postconverging-or-dialectical-thinking–apriorising-psychologism as reflected as of '<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema’ with respect to the possibility of a protracted-consciousness conceptualisation in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process; and as this explains the successive construction-of-the-Self reflected in the successive registry-worldviews/dimensions. It is the possibility for the human mind to dement as of a '<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ by its self-consciousness '<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of its '<amplituding/formative–epistemicity>totalising–thrownness-in-existence that de-mentatively/structurally/paradigmatically allows for the possibility of
prospective institutionalisation involving the displacement/decentering-of-the-human-subject. Unlike our naïve human-subpotency epistemic/notional–projective-perspective inclined to perceive prior registry-worldviews/dimensions in their ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing<sup>19</sup>–qualia-schema’ in stigmatising terms–as-of-axiomatic-construct, the ontological-veracity from existence-potency<sup>18</sup>–sublimating–nascence, disclosed from prospective-epistemic-digression epistemic/notional–projective-perspective is one that rather entails a forward-thinking appreciation that the possibility of all prospective relative-ontological-completeness<sup>38</sup> postconverging-or-dialectical-thinking<sup>20</sup>–apriorising-psychologism reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking<sup>20</sup>–qualia-schema’ can only arise as of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibility of prior relative-ontological-incompleteness<sup>89</sup> preconverging-or-dementing<sup>19</sup>–apriorising-psychologism reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing<sup>19</sup>–qualia-schema’, and so whether from a retrospective, present or prospective perspective; speaking of the ‘miracle of the human mind malleable potential as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>’, and implying an obligation for any given registry-worldview/dimension to maximalise this human capacity for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–<sup>93</sup>meaningfulness-and-teleology<sup>100</sup> as of its growing self-consciousness and self-awareness. In fact, the notion of preconverging-or-dementing<sup>19</sup>–apriorising-psychologism as such speaks of the fact that the entire cross-section of humanity as of recurrent-utter-uninstitutionalisation is of a ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing<sup>19</sup>–qualia-schema’
with respect to prospective base-institutionalisation ‘<amplituding/formative–
epistemictotalising/circumscribing/delineating postconverging/dialectical-thinking—qualia-schema’, and likewise universalisation with respect to base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism with respect to positivism, and our present positivism–procrypticism with respect to prospective deprocrypticism. The fact is, even the said prospective transcendence-and-sublimity/sublimation/supernormality–dementativity emancipators across the successive registry-worldviews/dimensions in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process are just as equally relatively enmeshed in many ways with their reference-of-thought old psychology ‘<amplituding/formative–epistemictotalising/circumscribing/delineating preconverging/dementing—qualia-schema’ like say Newton’s involvement with alchemy, and the idea of projecting to a prospective ‘<amplituding/formative–epistemictotalising/circumscribing/delineating postconverging/dialectical-thinking—qualia-schema’ speaks of a first level of human uninhibitedness/decomplexification that is exactly what allows for human emancipation. This further shows how our seemingly objectified presencing—absolutising-identitive-

The implied underlying singularity\textsuperscript{13} as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemic-determinism of existence as to existence-potency\textsuperscript{18} - sublimating-nascence, disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notionally/epistemically reflecting the ecstatic singularity of existence speaks of the imbued de-mentative/structural/paradigmatic unity of the reflected existential sublimation manifestations. Such an ecstatic singularity of existence is what renders intelligibility possible as of the ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment\textsuperscript{9} - implied—self-assuredness-of-ontological-good-faith/authenticity - postconverging-de-mentating/structuring/paradigming - as-being-as-of-existential-reality) as of ontological-primemovers-totalitative-framework\textsuperscript{73} causal as-to-projective-totalitative-implications-of-prospective-nonpresencing - for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human). This ecstatic singularity of existence is its primordial ineffability, as beyond any causal,totalising–thrownness-in-existence\textsuperscript{9} appraisal but then enabling the ‘meaningfulness-and-teleology\textsuperscript{100}’ validatory possibility of any such state of causal,totalising–thrownness-in-existence\textsuperscript{9} by way of ontological-primemovers-totalitative-framework\textsuperscript{73} causal as-to-projective-totalitative-implications-of-prospective-

The ecstatic singularity of existence is the very shepherding/ushering/heralding possibility for existence’s intelligibility. In all these instances, the sophists as of its existential-extrication-as-of-existential-unthought with respect to social-stake-contention-or-confliction are ever always inclined to eliciting-of-immediacy-as-of-relative-ontological-incompleteness" dereification for wooden-language- ⟨ imbued—averaging-of-thought- ⟨ as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-'nondescript/ignorable—void '—with-regards-to-prospective-apriorising-implications⟩ ⟩ disposition, and when the outcome of reasoning-through/messianic-reasoning dispensing-with-
immediacy-for-relative-ontological-completeness\(^{26}\)/by-reification\(^{27}\)/contemplative-distension\(^{26}\) accrue prospectively the sophists react as if ‘human progress occurs anyway’ as the idea of a human existential tale perpetuation and its implications is alien to the sophists since all that counts is the immediate now and its temporal/mortal social-stake-contention-or-confliction interests; and worst still, human limited-mentation-capacity in inducing prospectively relative-ontological-completeness\(^{28}\) as of the weaknesses associated in all human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is held by the sophists against any such reasoning-through/messianic-reasoning for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity\(^{29}\)—of-the-human-institutionalisation-process\(^{30}\) as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{31}\)’, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness\(^{32}\)-by-reification\(^{33}\)/contemplative-

a sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset or a

the mere sake of preserving and avoiding the denaturing of the universalising-idealisation
meaningfulness-and-teleology or positivising/rational-empiricism meaningfulness-and-
teleology. This is more critically the case as the fact is the possibility for prospective human
emancipation is exactly the most difficult thing for humankind to countenance, and that is
exactly why the successive uninstitutionalised-threshold arise in the first place; and the
sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its
temporal social-stake-contention-or-confliction has always been addressed not by a faulty
pretence of mutually objectifying intellection between genuine intellectualism and sophistry,
which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt
parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it
essentially is; as with the universalising-idealisation philosophers not wasting their time in
pretence of engaging the sophists—ideal-type-or-individuation of ad-
hoc/makeshift/nonprincipled–syllogising mindset or the budding-positivists/rational-empiricists
dismissing off-hand pedantic scholasticism. The habituated idea of dialogue/dialogical-
equivalence as to psychologismic~apriorising/axiomatising/referencing-(of existentialising/contextualising/textualising-contiguity)—conflatedness, -in-self-becoming/self-conflatedness /formative–supererogating arises as of the mental-reflex that ordinarily all meaningfulness-and-teleology as of a given registry-worldview/dimension is grounded on the same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notwithstanding the existential-instantiation soundness or unsoundness of its devolving aposteriorising/logicising/deriving/intelligising/measuring. But where in the instance of dissimilar apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, despite our habituation, dialogue/dialogical-equivalence as of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity <shallow-supererogation of mentally-aestheticised~preconverging/dementing –qualia-schema>’ does not avail as of epistemic-veracity and thus ontological-veracity as of the ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity <shallow-supererogation of mentally-aestheticised–preconverging/dementing –qualia-schema>’ closed <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in prior relative-ontological-incompleteness which rather warrants psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective relative-ontological-completeness'. This is akin to the mathematician opened to mutual calculating even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance - <including-virtue-as-ontology> but this only holds with the mathematical
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost, fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of meaningfulness-and-teleology\(^{10}\) as of ontological-veracity is about the ‘reasoning-through transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ of contentions for the determination of existence-potency\(^{20}\)–sublimating–nascence,–disclosed-from-prospective-epistemic-digression as of ontological-prime movers-totalitative-framework\(^{21}\) <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications-of-prospective-nonpresencing,–for-explicating-ontological-contiguity; and it is rather different from a sovereign construct grounded on sovereign choice whether there is ontological-veracity or ontological-impertinence. The human existential tale as ‘humanity project’ has ever always been one of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event\(^{37}\) reasoning-through/messianic-reasoning’ as implied in the ‘seeding promise of human-subpotency ontological-performance’<-including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. The secondnatured institutionalisation constructs as of sovereign institutions and establishment frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification\(^{17}\) role and as beyond-the-consciousness-awareness-teleology\(^{10}\)-<in-existential-extrication-as-of-existential-unthought> surreptitiously
defining what can be thought or not thought. The fact is such implied underpinning—suprasocial-constructs are mainly secondnatured whether as sovereign representation or establishment constructs, and can easily be caught up in their own in prior relative-ontological-incompleteness with respect to social-stake-contention-or-confliction and are thus not the absolutising framework of human meaningfulness-and-teleology, as the social knowledge-reification role must always be opened to ‘intemporal individuation ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality Parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as of the possibility of its arising in any humans and in whatever specific purviews of existence, as this is what is instigative of ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’; as it is only by the latter process that the ‘suprasocial obsession/myopism as of a given registry-worldview/dimension social-stake-contention-or-confliction’ can be superseded, as of reconstruing recurrent-utter-uninstitutionalisation underpinning—suprasocial-construct rather as of base-institutionalisation, base-institutionalisation—ununiversalisation underpinning—suprasocial-construct rather as of universalisation, universalisation—non-positivism/medievalism underpinning—suprasocial-construct rather as of positivism, and prospectively positivism—procrypticism underpinning—suprasocial-construct rather as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. We can appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning—suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning—suprasocial-
construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology_induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’, is nothing but

<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which obviously doesn’t register/is-unaccounted internally because (but from the existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notional~deprocrypticism perspective) de-mentatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its defective ontological-performance—including-virtue-as-ontology> as it surreptitiously implies that it is absolute beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought>. The fact is, it is this possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists putting into question their conventioning-referencing meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to
fail to construe of their prospective possibility of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding-positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, that in many ways just as the manifestation of postlogism-slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall wooden-

domain-of-study is not an inherently sovereign notion as to the fact that construal as of relative-ontological-incompleteness cannot be ‘qualified as sovereign and beyond the countenance of its ontological-veracity as from relative-ontological-completeness perspective’ given that all human meaningfulness-and-teleology are of supposedly coherent ontological-commitment — implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality as so-reflected by its self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’; such that while recognising the human-subpotency epistemic-veracity perspective of say a given social-setup attributing an ailment to say magic, this doesn’t override the notion of inherent ontological-veridicality as to existence-potency ~sublimating—nascence, disclosed-from-prospective-epistemic-digression epistemic/notional—projective-perspective wherein modern society in relative-ontological-completeness attributes the ailment to say flu. In order words, sovereign commitments, recognised as of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation, do not override the pre-eminence of supposedly coherent ontological-commitment — implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality as to existence-potency ~sublimating—nascence, disclosed-from-prospective-epistemic-digression epistemic/notional—projective-perspective, in which case no human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity will be possible. Stated another way, if Einstein’s or Bohr’s seminal theories were viewed say unfavourably by the physics community of their time as of their sovereign predisposition, that wouldn’t annul the ontological-veracity of their theories even if Einstein or Bohr were to
acquiesce to that sovereign predisposition over their own theories, for the simple reason that knowledge is constructed as of the absolute dominance of intrinsic-reality as to existence-potency ~ sublimating–nascence, disclosed from prospective-epistemic-digression over the mortals that we as human beings are in order for transcendence-and-sublimity/sublimation/supererogatory de-mentativity to be possible; and that reality with respect to knowledge doesn’t speak of totalitarianism as will often be sophisticatedly usurped when it comes to the blurriness of the social domain-of-study, as the charge of totalitarianism can only apply with respect to sovereign choice. Further a <amplituding/formative–epistemicity~causality~as-to-projective-totalitative–implications-of-prospective-nonpresencing, for explicating-ontological-contiguity construal equally points out that the very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human<amplituding/formative–epistemicity~totalising–purview-of-construal’ or any <amplituding/formative–epistemicity~totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality does not imply the de-mentative/structural/paradigmatic change of existence-as-of–existentialising/contextualising/textualising-contiguity but rather that change is the outcome of human limited-mentation-capacity-deepening maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation involving de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of prospective postconverging-or-dialectical-thinking apriorising-psychologism representation and prior preconverging-or-dementing apriorising-psychologism representation; with the implication here that the issue of knowledge is all about developing human-subpotency towards existence-potency ~ sublimating–nascence, disclosed from prospective-epistemic-digression. The apriorising/axiomatising/referencing–(of–existentialising/contextualising/textualising-contiguity ) conflatedness of
existentialising/contextualising/textualising-contiguity \(^9\) already reified abstract scientific notions to then reflect further abstract scientific notions in existentialising/contextualising/textualising-contiguity ‘knowledge-reification’. For instance, we can appreciate that physics never establish any absolute atomising/taken-into-pieces notion of say atoms, space, time, energy, etc. on which it merely then go on to be constituting meaningfulness-and-teleology\(^{10}\)/knowledge as physics knowledge-reification\(^8\). Rather we can better appreciate the occurrence of existentialising/contextualising/textualising-contiguity knowledge-reification\(^8\) as of <amplituding/formative–epistemicity>causality-as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity construal in the sense that our ordinary thought process itself is as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating existentialising/contextualising/textualising-contiguity construal of notions like space, time, force, etc. with no absolutely given point of atomising/taking-to-pieces apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness even when we may harbour such a confusion, and likewise the development of theories say Cartesian, Newtonian, Einsteinian, String theory, etc. are equally <amplituding/formative–epistemicity>totalising/circumscribing/delineating as to the fact that these imply various ways of reconceptualising the notions of space, time, force, etc. as of the precedence of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of existentialising/contextualising/textualising-contiguity of such notions like space, time, force, etc. in <amplituding/formative–epistemicity>causality-as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness to then articulate their abstract/theoretical notions/conceptualisations of space, time, force, etc.; thus there isn’t
any absolutely identitive atomising/taking-to-pieces notions of space, time, force, etc. which are ‘constituted once-and-for-all to later on build/reify physics knowledge as of progressive constituting’ but rather physics knowledge is always of epistemic-totalising~resubjecting (totalising-entailing reconstructual) of ‘the very same physics notions and their derived implications of new notions’ as of existentialising/contextualising/textualising-contiguity in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity) conflatedness involving human limited-mentation-capacity-deepening hermeneutics in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness. We can appreciate that the atomising/taking-to-pieces disposition that is often wrongly sought in other domains-of-study is often ontologically-flawed because it fails to see that ‘the more elaborate panintelligibility—effusing/ecstatic–inlining nature of existentialising/contextualising/textualising-contiguity in epistemic-confutedness in their domains-of-study’ implies that their knowledge-reification should increasingly be explicitly totalising-entailing/nested-congruence as to the hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness, as even the natural sciences are implicitly epistemically totalising-entailing by the mere fact of the ‘precedence of existentialising/contextualising/textualising-contiguity in amplituding/formative-epistemicity—causality—as-to-projective-totalitative—implications-of-prospective-nonpresencing,—for-explicating-ontological-contiguity in epistemic-confutedness to which their abstract notions are aligned’ as well as so-implied by their foregrounding—entailment (postconverging—narrowing-down—sublimation-as-to—existence—as-sublimating-withdrawal—eliciting-of-prospective-supererogation—in-reflecting—immanent-ontological-contiguity; as-operative-notional—deprocrypticism) orientations which drives their knowledge-reification gesturing for unification as to ontological-contiguity as not just an idle quest; and this misconstrual is further reflected by the fact that the life sciences (as of their axiomatic-construct...

In many ways the natural sciences by the immediate constraining of their ontological-primemovers-totalititative-framework implicitly avoid atomising/taking-to-pieces apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity—constitutedness but the misunderstanding that their knowledge-reification gesturing is effectively as of atomising/taking-to-pieces apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity—constitutedness in other domains-of-study ends up having naïve and distortive effects on such domains-of-study knowledge-reification and particularly so with regards to the development of their self-conscious philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. It is herein contended that this poor self-conscious philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is the de-mentatively/structurally/paradigmatically defining issue of many of the social domains-of-study today, as in effect many such domains are turned into technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-setups de-mentatively/structurally/paradigmatically stifle the possibility for conceptualisation as to existence-potency—sublimating–nascence—disclosed-from-prospective—
consciousness/construction-of-the-Self notion is what deflates such ‘issues implied with regards
to human sovereign options/choice or freewill’ and ‘issues of natural determinism beyond
human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-
Self as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of–
meaningfulness-and-teleology implies ‘induced human
potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this
regards we can appreciate for instance that with the positivism/rational-empiricism modern
society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in
dirty surroundings due to bacteria and germs as well that high temperature is a sign that the
baby needs medical care, such that were it to be established that the baby develops a serious
medical condition because of such failure of parental care then the human potentiation of
freewill of the parents is engaged with regards to the parents responsibilities as of the self-
consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–
meaningfulness-and-teleology, however, supposed a similar situation
arises in a non-positivistic social-setup with the parents acting that way because of say
animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly
the case that the human-potentiation of freewill of the parents is engaged with regards to their
responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-
positivism/animistic

meaningfulness-and-teleology\textsuperscript{100} (as the
relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’
while the relative-ontological-completeness\textsuperscript{101} in the former case renders it as an ‘is
determinacy’); but then, a general underlying human potentiation of freewill of all humans is
engaged passively to the effect that prospective relative-ontological-completeness\textsuperscript{102} inducing
prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is dementatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance—<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance—<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplitunding/formative—epistemicity>totalising—thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/superoegatory—dementativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning
knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic wooden-language-imbued-averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable-void-with-regards-to-prospective-apriorising-implications? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance-including-virtue-as-ontology as of human epistemicity-totalising-thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism-imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the underdevelopment of Being/ontological-framework-expansion or self-consciousness/construction-of-the-Self incapacity as of say insanity’, and not necessarily as of lack of new knowledge-construct or technical-development; in the sense that say a criminal that had gone uncaught before a new technical-development like DNA testing establishes their criminal responsibility as of human potentiation, cannot talk of natural determinism implications as a defence just as covert predispositions associated with vices-and-impediments as of ‘self-conscious drive’ cannot be qualified to be of natural determinism implications when unmasked. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness-or-ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposing) as from recurrent-utter-uninstitutionalisation to modern-day positivism–procrypticism and prospectively deprocrypticism; together with the
idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory preconverging–de-mentating/structuring/paradigming relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the wooden-language–{imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology} as deterministic thus subknowledging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing–apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’. But then transcendental constructs of meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as transcendental meaningfulness-and-teleology involves psychical and institutional
recomposing of high contrariety implications to human temporality / shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as all knowledge is not about being responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity of an intersolipsistic nature. It is equally important to grasp that transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively notional–deprocrypticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness—anframed-conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology with the prospective one for intemporal-preservation-entropy-or-contiguity–or-ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposing) maximalising-recomposing-for-relative-ontological-completeness—
unenframed-conceptualisation<br>\(<\text{amplituding/formative–epistemicity}>\)\text{totalising–renewing–realisation/re-perception/re-thought}, in contrast to a naïve ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the ‘reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking ‘reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of <apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)>—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of ‘reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity, it will be naïve to imply that knowledge is neutral failing/not-upholding<as-of-apriorising/axiomatising/referencing> to register that all knowledge is the outcome of
transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as ‘reappraisals of references-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of \( \text{reference-of-thought} \) that enabled it to be as of the present \( \text{reference-of-thought} \), as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the \( \text{reference-of-thought} \) for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness \( \text{-of-} \) reference-of-thought. Hence it is rather ontological-completeness-of-\( \text{reference-of-thought} \) that is the viable construing reference of knowledge with its transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications for completing the \( \text{reference-of-thought} \), and so not only with regards to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of retrospective registry-worldviews/dimensions \( \text{reference-of-thought} \) but equally with the implication of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity for prospective registry-worldview’s/dimension’s \( \text{reference-of-thought} \) as so validated by ontological-normalcy/postconvergence. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-perversion-of-\( \text{reference-of-thought} \)-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of
perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social
universal-transparency \( \{ \text{transparency-of-totalising-entailing,-as-to-entailing-}
\langle \text{amplituding-formative–epistemicity}\rangle \text{totalising–in-relative-ontological-completeness} \} \) hence speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived\(^{15}\) perversion-of\(^{84}\) reference-of-thought\(-\langle\text{as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation} \rangle \) while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing\(^{15}\) as of beyond-the-consciousness-awareness-teleology\(^{15}\)\(-\langle\text{in-existential-extrication-as-of-existential-unthought} \rangle \). This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-worldview’s/dimension’s uninstitutionalised-threshold\(^{03}\) defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-or-confliction at that uninstitutionalised-threshold\(^{103}\) especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrypticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/\(^{03}\) universal/transcendental/\(^{55}\) maximalising-recomposuring-for-relative-ontological-completeness\(^{15}\)—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, uninstitutionalised-threshold\(^{103}\) mental-
disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory preconverging–de-mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity ontological-primemovers-totalitative-framework induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemporality-asymmetric-subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness-of-reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in notional-deprocrypticism apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness and so over procrypticism disjointedness-as-of-reference-of-thought denaturing and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing. Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence—existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like
notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity) conflatedness directed to the bigger and subsuming issue of relative-ontological-incompleteness reference-of-thought for inducing notional-deprocrypticism over procrypticism or positivism over non-positivism/medievalism respectively that harkens back to undermine in a decisive and nonextricatory and non-palliative manner the associated postlogism. apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity) conflatedness as such implies an utter shift as the curve-of-prospective-relative-ontological-completeness reference-of-thought thus superseding the curve-of-prior-relative-ontological-incompleteness reference-of-thought now being construed as preconverging-or-dementing-and-decentered-prior-institutionalisation’s categorical-imperatives/axioms/registry-teleology as denaturing.

The defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as perversion-of reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) comparison can equally be used to illustrate how slanting is different from lying. Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely
presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold (\textsuperscript{(3)}–defect-<as-Being-or-ontological-or-existential–defect> (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring–purpose (flaw logical-processsing/act-execution-implicitation meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not defective (thus appropriateness-of-reference-of-thought-as-of-conflatedness ). This point to the ad-hoc nature of lying deception wherein there is nothing inherent that precludes subsequent appropriate \textsuperscript{5}logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation meaningfulness where the contextual-ambiguity-constraint(s) are resolved. In the bigger scheme of things (at the transcendental/transdimensional/interdimensional level) postlogism epistemic-decadence and its integration as perversion-and-derived-perversion-of-reference-of-thought-as-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of \textsuperscript{4}reference-of-thought-categorical-imperatives/axioms/registry-teleology\textsuperscript{(0)}, of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation defines a registry-worldview’s/dimension’s uninstitutionalised-threshold (\textsuperscript{(2)}); arising in ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations. entropy-or-contiguity–or–ontological-preservation doesn’t have the implied-profile-or-implied-stature and the implied-presumptuousness-or-implied-arrogation to logically contend about the ontological veridicality of an accusation of witchcraft with a relatively suprastructuring positivistic mental-disposition. This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal prelogism-as-of-conviction,-in-profound-supererogation-as-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing-apriorising-psychologism with respect to meaningfulness). Paradoxically, this is the fundamental strength of psychopathy, i.e. to get the normal prelogism-as-of-conviction,-in-profound-supererogation-as-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at mind to wrongly elevate psychopathic meaningfulness-and-teleology as of veridical ‘existentialising/contextualising/textualising-contiguity’ rather than reflect the reality of its ‘formulaic meaningfulness-and-teleology’ which is ‘meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’. So when we talk about psychopathy we are talking about perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation rather than logical defect (defect of logical operation/processing/contention).
This distinction is critical. Why? Basically, meaning is what defines/predicates value, thought and action. Meaning has two elementary aspects: \(^8\)reference-of-thought or axioms or categorical-imperatives \(^8\)reflected-as-soundness-or-ontological-good-faith/authenticity\(^8\)-of-\(^8\)reference-of-thought, by the prospective relative-ontological-completeness\(^8\)-of-\(^8\)reference-of-thought and logic (logical-operation/processing/contention/implicitation-of-act-execution, and so, ‘fundamentally and validatorily’ on the basis of sound \(^8\)reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^100\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the very first instance). Meaningfulness is thus essentially about the ‘operation of \(^8\)reference-of-thought as-of-its-veracity/ontological-pertinence as-soundness-or-ontological-good-faith/authenticity\(^8\)-of-\(^8\)reference-of-thought’, with logic/logical-processing basically about the operation of \(^8\)reference-of-thought as rules as of intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology validated as of established ontological-veridicality/intrinsic-reality/existential-reality. Otherwise stated, meaning has \(^8\)reference-of-thought’ reflecting its being/ontological/existential veridicality, and logic as an operation of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity\(^9\) based on the meaning’s implied \(^8\)reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^100\) valid only inasmuch as the reference to the ‘registry elements’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\(^100\) is ‘existentially’ established. *Critical for ontological-veridicality of meaningfulness and knowledge, the relatively ontologically-complete- \(^8\)reference-of-thought defines what is meaningfulness as of its ‘soundness-or-ontological-good-faith/authenticity\(^8\)-of-\(^8\)reference-of-thought’ construed as ‘postconverging-or-dialectical-thinking\(^20\)–apriorising-psychologism and centered understanding’ over the relatively ontologically-incomplete-
reference-of-thought as of its ‘unsoundness-or-ontological-bad-faith/inauthenticity’ of reference-of-thought’ construed as ‘preconverging-or-dementing—apriorising-psychologism and decentered understanding’. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising—reference-of-thought-elements/apriorising—registry-elements, and thus falsely implying the apriorising—reference-of-thought-elements/apriorising—registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity—of—reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity—of—reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought—(reflected-as-soundness-or—ontological-good-faith/authenticity—of—reference-of-thought). But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied—reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology is rather obvious and we don’t normally process/operate logically the childhood psychopathy’s non-veridical hollow mimicking narratives since ‘we just invalidate those apriorising—registry-elements to start with as not of being/ontological/existential veridicality’. For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of—
form-or-hollow-and-vague-vocalisation-or-subknowlinging of meaning’ (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘existentialising/contextualising/textualising-contiguity sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness’ as of its unsound- reference-of-thought/unsoundness-ontological-bad-faith/inauthenticity of reference-of-thought/mental-perversion) as he simply engages his unsoundness-ontological-bad-faith/inauthenticity of reference-of-thought by way of distinctive-alignment-to reference-of-thought-<of-apriorising/axiomatising/referencing> and then reflect the reference-of-thought or registry-teleology of John as perversion-of reference-of-thought as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation or mental-perversion in terms—of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology. In so doing determines that John is ‘manifesting a mental defect’ and more so, not an ad-hoc defect—of—logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-suprerogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance, but rather registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—<as-Being-or-ontological-or-existential—defect> that speaks to how John may act in many other similar situations, i.e. epistemic-decadence (notional-discontiguity/epistemic-discontiguity <shallow-suprerogation of mentally-aestheticised-preconverging/dementing—qualia-schema>—as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking—<iterative—

logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right and sound in abstract terms but does the apriorising–registry (reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of reference-of-thought–categorical-imperatives/axioms/registry-teleology which are: implied–logical-dueness-or-implied-scape (the implied–logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought, i.e. slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing-of-narratives! So with the psychopath, you don’t watch the logic, you watch out for the reference-of-thought/apriorising–registry for mental-perversion or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought/axiomatisation/referencing basis for logic.

It should be noted that both psychopathic postlogism and conjugated-postlogism cases of unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought (as slanted and cohering-slanted, respectively), by their ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-‘incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold’, involve ‘disjointedness-as-of-‘reference-of-thought’ misappropriated meaningfulness in arrogation by

Further, this ‘natural level of human interlocution engagement is a perpetuation’ explaining why the conjugated-postlogism\textsuperscript{78} mental-disposition is one of ‘slanted-cohering/conjoining’ as it rather re-rationalises the latest iterated narrative as an elucidation rather than a further preconverging-or-dementing \textsuperscript{19} –apriorising-psychologism of adult psychopath/postlogism \textsuperscript{78} (as obvious with the child psychopathy ‘delirium effect’ as it slants and re-slants on the initial slanting in an absolving-logic/fleeting-logic/escaping-logic reflex); and, the falsely projected \textsuperscript{84} reference-of-thought implied-elements of logical-dueness-or-implied-scape/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology\textsuperscript{10}, create a new foundation for further preconverging-or-dementing \textsuperscript{19} –apriorising-psychologism when wrongly eliciting in an interlocutor \textsuperscript{5} logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation issue, such that one salient manifestation of conjugated-postlogism\textsuperscript{78} arises with many of such an interlocutor vaguely articulating propositions based on such falsely ‘apriorising–’\textsuperscript{84} reference-of-thought-elements/apriorising–registry-elements (out of existentialising/contextualising/textualising-contiguity\textsuperscript{14} ‘s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{8}–of-\textsuperscript{8} reference-of-thought–’\textsuperscript{3} devolving-as-of-instantiative-context)’. The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism \textsuperscript{8} reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their reference-of-thought into the positivistic terms with their successive contentions (due to
as their ‘reference-of-thought remains rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability’, and in the big picture in all likelihood can only be ‘weaned from’ crossgenerationally as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Likewise the ‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the- reference-of-thought-as-of- incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold (as-procrypticism), thus equally implying a circularity/recurrence/repetition/repeatability of the reference-of-thought as of the uninstitutionalised-threshold or procrypticism–or–disjointedness-as-of reference-of-thought. Thus the central notion for preempting psychopathic postlogism and conjugated-postlogism is the ‘retracing of their sets-of-narratives as of existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought–devolving-as-of-instantiatiative-context’. That revealing unsoundness-or-ontological-bad-faith/inauthenticity-of reference-of-thought of the traces of sets-of-narratives is analogous to resolving a list of BODMAS equations where the solution of the first equation is a variable of the second equation and whose solution is a variable of the third equation whose solution is a variable of the fourth; and where the first equation is fundamentally flawed (as of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument flaw, for instance), systematically the three other equations will be wrong whether by ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-

It is important thus to know that since the defect of psychopathy and its derivation as social psychopathy has nothing to do with logical-processing but everything to do with perversion-of–reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
unenframed-conceptualisation invalidating that the implied–logical-dueness-or-implied-scape of the child psychopath who deliberately in a ‘dereifying act’ spills water on the chair to accuse another even exists, its implied-profile is ridiculous, just as its implied-presumptuousness-or-implied-arrogation, its implied-assumptions, its implied-value-reference and its implied-teleology (or sense-of-purpose), and such an approach will equally extend with regards to social psychopathy where by ignorance at best or ‘other cynical temporal manifestations as of conjugating affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation’ an interlocutor was to falsely imply the need for logical analysis in order to falsely validate the foundational faulty-mentation-procedure-deception-or-urge of the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’. This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING as of compulsive-slanting—preconverging-or-dementing apriorising is actually about ‘denaturing postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>–with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for the psychopath to be slanted/‘cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge’ (entitlement folie/folie raisonnante)’ as opposed to a logical motivation of a supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-
thinking –apriorising-psychologism or prelogic mental-disposition. It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the normal process of prelogism”–as-of-conviction,-in-profound-supererogation”<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-

disontologising-logical-outcome-arrived-at> logical articulation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing15 postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation12-or-prelogism97-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing15 postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation12-or-prelogism97-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if this latter narrative is proven to be false (as it is another75perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-

thought-elements/apriorising–registry-elements (out of existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation on such false axioms. Thus, with respect to postlogism generally what is critical for the psychopath/postlogic-mindset is to be seen as being prelogic supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism even if it is a perception of ‘poor or bad supplanting—conviction—as-to-profound-supererogation’—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism’ since that will validate the ‘apriorising —reference-of-thought-elements/apriorising—registry-elements (out of existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context)’ on the basis that it was the ‘logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation’ that was wrong hence the possibility and credibility not to question the —reference-of-thought/apriorising—registry/categorical-imperatives/axioms and to re-engage —logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation by ‘prelogism’—as-of-conviction,—in-profound-supererogation —existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing—’—logical-dueness-precedes-disontologising-logical-

The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation—or-prelogism—basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-profound-supererogation to or prelogism, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking—iterative-looping—set-of-dereifying-hollow-narratives-and-acts as absolving/fleeting/escaping-reflex—logic among different set-of-interlocutors (this is simply because postlogism operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness’ unlike postlogism as prelogism which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical—attendant-

postlogism\textsuperscript{8} in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-

sets-of-interlocutors. The mental process that takes place in the ignorant prelogism –as-of-
conviction,-in-profound-supererogation\textsuperscript{9}<existentially-veridical–‘attendant-intradimensional–
thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mechanism (it isn’t necessarily completed in all manifestations as is rather a ‘mental roaming/drifting-cycle disposition known as postlogism’-retreating’ that carries on depending on how the situation permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s ‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic-attrition. by inducing the alienation of its ‘perceived social-stake-contention-or-confliction target’ over a
social-stake-contention-or-confliction as to preconverging/postconverging–dementating/structuring/paradigming implications. Critically, it should be understood that passive or suggestive alienation is actually the summum of the possibilities of the psychopath’s meaningful finality that starts from prevaluation (neutral narrations). It should be noted that the mental state of the psychopath’s interlocutor as ‘ignorance-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing –apriorising-psychologism’ is not really ontologically-speaking a prelogic/conviction-as-to-profound-supererogation mental state but rather technically a ‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as an ignorant of psychopathic postlogism in hollow-constituting misappropriation-of-meaningfulness-and-failing-intemporal-preservation to which the interlocutor aligns prelogicly and then miscues, and then secondly (in addition), as ‘committed-by-temporality/interest over intrinsic-veridicality’ whether in the form of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that this psychopathic manifestation process can be mimicked in the context of social psychopathy, and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing –apriorising-psychologism’. Over a given or extended period the underlying effect sought by the psychopath might stick, especially where the social target, interlocutors and others are utterly unaware of the mental state of the psychopath, and so evolving more like a social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or deliberate/disingenuous, adherence as if veridical to the slanted and hollow mimicking

On the above basis, the psychopath’s relation to ‘deductive meaning’ is actually reverting to ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of postlogic compulsing–nonconviction/madeupness/bottomlining–⟨‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing–induced-disontologising’–of-the–‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity>,–in-shallow-supererogation–<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness⟩⟩ as to its threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation–⟨as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism⟩’ construed as ‘reverting deduction’ whereas ‘supplanting–conviction-as-to–profund-supererogation–of–‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism deductions’ emphasise the intrinsic attributive essence of deductions with corresponding latent forms of prosody, psychopathic vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-

The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-elaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging”). In fact, it is often the case that such line of rather ‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism in their ‘conjoining

It is important to note that the psychopath’s targeting is highly evolutive throughout its life (along human personality development stages) as ‘socially-perceived-value as of social-stake-contention-or-confliction’ with others arise and ‘the possibility of going undetected’ permits. The psychopath being ‘out-of-phase’ is pushed by a faulty-mentation-procedure-deception/urge/folie raisonnable, and the idea of psychopath’s having a grand plan/an overall scheme in its actions is ridiculous and unfounded (this idea again, is due to prelogism-as-of-conviction,-in-profound-supererogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mental-alignment or in-phasing or prelogism to the last narrative(s) of the psychopath and rationalising prelogically/by-essence/candor all its previous ‘denaturing postlogic-backtracking-<iterative-looping–‘set-of-dereifying-hollow-narratives-and-acts’> -with–‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as–‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase’ over ‘the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ instead of mentally aligning postlogically/by-form/slantedness/distractive-alignment-to-reasoning-through-and-not-reasoning-with) a protracted unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought/insanity). In fact, the psychopath’s faulty-mentation-procedure-deception-or-urge occurs because of overthinking (elevating its perverted registry/mimicking-subknowledging to wrongly contend with it) rather than underthinking downgrading the perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-

transparent (at uninstitutionalised threshold). Further, the element of the need to be socially

functional and accordant first, implies that psychopathy is more than just the drive of a

pathological individual but inevitably psychopathy and correspondingly social psychopathy

involves a ‘social split-dynamism’ wherein the ‘unordinary eliciting’ of temporal interest

among some as extrinsic attribution (praising, endearing, owing a favour, gifting, assisting,

being friendly towards, etc.) is the basis for the targeting of another or others, further

compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or
less effectively most of our formal setups, their sociological pertinence is actually far from established, but for the fact that broad and large general education diminishes social egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the more common mental-disposition in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology}

including the ‘informal spaces’ of formal setups, with the result that this is a further factor that makes psychopathy poorly graspable as simply of individual denaturing dynamics rather than of social denaturing dynamics, thus better construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level of individuals intuition about the underlying dynamism of the postlogism -as-of-compulsing-nonconviction/madeupness/bottomlining-{‘<decontextualising/de-existentialising-of-attendant-intradimensional-apriorising/axiomatising/referencing>-induced-disontologising’-of-the-attendant-intradimensional-ontologising’-imbued-<contextualising/existentialising-attendant-ontological-contiguity>,-in-shallow-supererogation-<disontologising-perverted-outcome-sought-precedes-existentially-veridical-‘attendant-intradimensional-apriorising/axiomatising/referencing’-logical-dueness>}

mental-disposition (going by experience), and then their sense of abstraction or gullibility or disposition to bandwagon effect with respect to a critical aetiologisation/ontological-escalation. (The implication here is that, for instance, it will be very naïve for an investigation involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors). Hence, the above phenomenon is further compounded in increasing profoundness (i.e. where the psychopath’s childhood delirium gives way to an adulthood mental articulation which is diffused/with-hardly-any-social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness )-but-rather-select-transparency-

think it has got anything to lose personally), ‘negatively opportunistic’ (as it occasionally finds

The underlying mental-disposition of the psychopath as postlogic and the temporal prelogic/conviction-as-to-profound-supererogation minds pedestals that endemise/enculturate this process thus becoming conjugated-postlogism’, is known as ‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution) thus reflecting their threshold-of–

psychologism>. Ontologically, this requires an altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of such a-comprehensive-social-temporal-hodgepodging which is rather ontologically-discontinuous. This author qualifies as procrypticism preconverging-or-dementing –apriorising-psychologism, and so as ‘ONTOLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emanant template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At
childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding-as-of-apriorising/axiomatising/referencing-slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting—preconverging-or-dementing—apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts-absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical-attendant-intradimensional-apriorising/axiomatising/referencing-logical-dueness, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge for postlogic slantedness’ in a given social space during its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-urge for postlogic slantedness to attain an apparent normal social equilibrium or socially-functional-and-accordant state within any given social space as it develops into adulthood’. It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting-conviction-as-to-profound-supererogation-attendant-intradimensional-postconverging/dialectical-thinking-apriorising-psychologism-interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity-reference-of-thought/slantedness become harder to perceive); - INDIRECTNESS (as the
psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner; - SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound); - CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-to-profound-supererogation’ narratives’ and at an even deeper level mimicking ‘profound supplanting–conviction-as-to-profound-supererogation’ mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing—apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-dementing—apriorising, etc. once it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding—<as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality -asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a
corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism\textsuperscript{78}-slantedness is not socially-universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \textsuperscript{97} <-as-to–’attendant-intradimensional’–prospectively-disontologising–preconverging/dementing -apriorising-psychologism> or ‘uninstitutionalised-threshold \textsuperscript{103}’) of many an interlocutor; - CRAFTINESS (with increasingly greater crude-to-polished threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \textsuperscript{78} <-as-to–’attendant-intradimensional’–prospectively-disontologising–preconverging/dementing -apriorising-psychologism>\textsuperscript{19} ): Actually when it comes to social-and-confliction-stakes, the psychopath being postlogism\textsuperscript{78}-as-of- compulsing–nonconviction/madeupness/bottomlining\textsuperscript{78} -<as-to–’attendant-intradimensional’–prospectively-disontologising–preconverging/dementing -apriorising-psychologism>:\textsuperscript{19} Construes meaningfulness as a hollow-constituting<-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> construct driven as a threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \textsuperscript{78} <-as-to–’attendant-intradimensional’–prospectively-disontologising–preconverging/dementing -apriorising-psychologism> exercise (with respect to same-terms-of-expressions/seemingly-same-implied-meaningfulness with regards to ordinary meaning) as determining of others/conviction-as-to-profound-supererogation \textsuperscript{78} interlocutors

perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.) generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-
contention-or-confliction' context and time might play a role in making its social consequences benign or aggravated. But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising—reference-of-thought-elements/apriorising—registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge ; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex—logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-mentation-procedure-deception-or-urge points to the fact that the slanted child psychopathy mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existentialising/contextualising/textualising-contiguity —reifying/elucidating-of-prospective-relative-ontological-completeness—reference-of-thought—devolving-as-of-instantiative-context, which is what validates —logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology ), in the formation of a basic and
apriorising/axiomatising/referencing’-logical-dueness> mindset/reference-of-thought then goes on to account for the developmental psychology of the psychopath from childhood to adulthood wherein it gains maturation/indirectness/spatialisation/credulity/craftiness in circumventing its postlogism failing/not-upholding-experiences at childhood and early adolescence to achieve the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance at adulthood. The paradox being that the prelogic supplanting-conviction-as-to-profound-supererogation of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism mindset/reference-of-thought will project its own mental-disposition unwittingly upon the psychopath (in the case of adult psychopathy but not in the instance of childhood psychopathy where the latter’s deliriousness/delirious-effect/cinglé-effect is often obvious due to lack of maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction), and paradoxically then wrongly validate the psychopath as prelogic supplanting-conviction-as-to-profound-supererogation of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism with respect to meaningfulness as of ‘requisite existentially veridical logical-dueness (of apriorising-reference-of-thought-elements/apriorising-registry-elements) and logical-processing-soundness driven construct’. However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting-conviction-as-to-profound-supererogation of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality/shortness (when there is no social universal-transparency (transparency-of-totalising-entailing-as-to-entailing-<amplituding-formative–epistemicity>totalising~in-relative-ontological-completeness)

as the ‘uninstitutionalised-threshold”). Hence psychopathy when studied dynamically is
rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally
influences social behaviour as at ‘uninstitutionalised-threshold” human learned behaviour is
primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-
thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good
as longness-of-register-of—meaningfulness-and-teleology or temporal (shortness-of-register-of—meaningfulness-and-teleology), hence its relation to sociopathy which is a more generalised notion of social vices-and-impediments. The social psychopathy phenomenon (in describing the underlying abstract nature of man before institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and universal projection rules in an ‘ontological entrapment’ exercise to undermine/override temporal-dispositions subknowledging/mimicking, by virtue of its ontological-prime movers-totalitative-framework and overall medium to long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/civilisation, in an intemporal-preservation-entropy-or-contiguity-or-ontological-preservation exercise, from an recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity-or-ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge’ (preconverging-or-dementing-as-if-of-sound-knowledge) pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the future institutionalisation/intemporalisation this author qualifies as notional-deprocrypticism (preempting procrypticism, so construed by ‘notional-deprocrypticism ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking-differentiation-as-of-supratransversality-in-sublimating-existential-eventuating/denouement-of-motif-and-apriorising/axiomatising/referencing’). That is, psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ (as prior intemporal reference-of-thought—categorical-imperatives/axioms/registry-teleology) of the various
institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic- projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\textsuperscript{75} of the reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}). To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7−3=4, etc. was to be undermine by a new human perversion-of-reference-of-thought\textsuperscript{<as-preconvergingly- apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow- supererogation \textsuperscript{\geq} caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7−3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality\textsuperscript{<for-sublimating–existential- eventuating/denouement>of-affirmative-and-unaffirmative–disambiguated–motif-and- apriorising/axiomatising/referencing’ as from ontological-normalcy/postconvergence). Thus categorical-imperatives/axioms/registry-teleology\textsuperscript{100} are ‘inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging\textsuperscript{77}/mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders categorical-imperatives/registry/axioms-for-intemporal-preservation-entropy-or- contiguity–or–ontological-preservation null and void, calling for the overcoming of the slantedness/decandoring/distractive-alignment-to-reference-of-thought\textsuperscript{<of- apriorising/axiomatising/referencing>\textsuperscript{79} of mental-devising-representation and the articulation
resolved/structurally-rendered-inoperant prospectively by notional–deprocripticism categorical-imperatives/registry-worldview/axioms-for-intemporal-preservation-entropy-as-of-ontological-normalcy). In the bigger scheme of things such ‘institutional-cumulation/institutional-recomposure-as-to historicality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>’ as articulated above gives coherence in conceptualising a continuity in the human emanant/becoming anthropological experience; as putting into perspective and not excepting any particular stage of institutionalisation/intemporalisation, as we might tend to do by focussing on the present positive registry-worldview which is just the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, while ignoring the ‘effective and causative intemporal-disposition behind the institutional-cumulation/institutional-recomposure-as-to historicality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>’ transcendent/psychoanalytic-unshackling process’, which skews ('intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity) ‘the cross-section of human entropic being’ in the medium to long run towards intemporal-disposition preservation while undermining temporal-dispositions. Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojecting/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared
to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>}’, with us being inherently exceptional (it is the transcendental/psychoanalytic-unshackling process of undermining "perversion-of- reference-of-thought<-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > that is). Hence ‘our homework’ is to articulate our very own "perversion-of-reference-of-thought<-as-preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > for the possibilities of the future, and not strive to arrive at a normalcy of ‘our temporal-preservation-as-psuedointemporality -preservation’ which speaks of inherent relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-psychologism>’, as-it-is-thus-‘in-

It should be noted that while ‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process of human institutional transcendence-and-sublimity/sublimation/supernovatory-de-mentativity (with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence-and-sublimity/sublimation/supernovatory-de-mentativity/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposured peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional–deprocryptism will be memetically/meaningfully differently reordered from base-institutionalisation,
universalisation and positivism. This speaks of snowballing/expansive recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells.

Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure-{as-to-}

effort. Hence dimensionality-of-sublimating  –{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-confatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) instigation recurrently inducing the institutionalisation/intemporalisation process (which is not an analagical notion but a contiguous notion as to ontological-contiguity” by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across institutional-cumulation/institutional-
rather so-reflecting ontological-contiguity as to human limited-mentation-capacity-deepening wherein existence’s ontological-contiguity construable as to nonpresencing epistemic-projection is not beholdening to human limited-mentation-capacity at any given moment) applies universally across space and time (beyond any given registry-worldview’s/dimension’s institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemporalisation like deprocripticism. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure analysis) is not, as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous meaningfulness-and-teleology reference’ (given the contiguity in the ‘precedingness/supersedingness/ascendency-and-continuity of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation referencing’ across all cumulating/recomposuring institutionalisations); i.e. memetic contiguity as the underlying principle of memetic-reordering which is the ‘contiguous dynamism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the continuous transdimensional/transcendental relation of intemporal and temporal-dispositions’ at uninstitutionalised-threshold, and so, across all cumulating/recomposuring institutionalisations whether from a retrospective, present or prospective perspective. Psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring process can then be defined as arising when a registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology is transcended/superseded as to human limited-mentation-capacity-deepening, at its uninstitutionalised-threshold involving-

This brings up the notion that while candoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, this is just a mental-devising-representation for implying intemporality\textsuperscript{12}–of-thought without which meaningfulness is not functional in the registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology\textsuperscript{100}, but then at that same prior registry-worldview’s/dimension’s uninstitutionalised-threshold\textsuperscript{10}, transcendence-and-sublimity/sublimation/supererogatory–de-mentativity into a prospective registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology\textsuperscript{100} put into question this candoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-teleology\textsuperscript{100} is then represented as preconverging-or-dementing\textsuperscript{19}–apriorising-

This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or de-mentation\(^{(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics)}\). Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{60}\) and ontological-veridicality/ontological-contiguity\(^{7}\) of reference-of-thought (from the ontological-normalcy/postconvergence epistemic/notional~projective-perspective); with the ontologically-veridical/ontological-contiguity\(^{67}\) mental-devising-representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity\(^{63}\)<\shallow-supererogation\> of mentally-aestheticised~preconverging/dementing \(\text{-qualia-schema}\)-as-of-epistemic-decadence in hollow-constituting\(<\text{as-disjointed-misappropriation-of-meaningfulness-and-failing}\>-\text{intemporal-preservation}\> in postlogic-backtracking\(<\text{iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’}\>\) stranded as oblongated/decandored in reflection/perspectivation of their veridical\(^{7}\) perversion-of\(^{7}\) reference-of-thought\(<\text{as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}\>\), beyond their \(<\text{amplituding/formative-epistemicity}\>totalising-self-referencing-syncretising/present-consciousness/illusion-of-the-present. Hence we know of the following de-mentation\(<\text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics}\>\) as preconvergingly-dementated/structured/paradigmed registry-worldviews/dimensions: recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism–or–disjointedness-as-of\(^{14}\) reference-of-thought (our own prospective mental stranding); as these form the backdrop for the articulation of transcending anticipatory and

our registry-worldview/dimension (positivistic meaningfulness) as procrypticism–or–
disjointedness-as-of reference-of-thought. Noting as well that previous uninstitutionalised-
threshold as to recurrent-utter-uninstitutionalisation, base-
institutionalisation/ununiversalisation, universalisation/non-positivism-or-medicievalism
equally had a sense of straightness/candor of their meaningfulness in a full blossoming of their
own existentialism/full-existential-depth-implications of supposed postconverging–de-
mentating/structuring/paradigming as we do in our positivistic/procrypticism registry-
worldview, within the ambi of their the-Good/understanding/knowledge-
reification/ontological-primemovers-totalitative-framework conceptualisation. But then their
stranding from the prospective institutionalisation/intemporalisation represents them as
preconverging-or-dementing–apriorising-psychologism–stranded-as-rightfully-
oblongated/decandored-and-dialectically-or-contendingly-out-of-phase as the transcendental
backdrop/opportunity for the prospective registry-worldview/dimension. This when
extrapolated will equally apply with our present positivism/procrypticism
uninstitutionalisation/unintemporalisation for futural Being-development/ontological-
meaningfulness-and-teleology as of prospective notional–deprocrypticism
institutionalisation/intemporalisation, and any ‘complex’ we’ll have about that has to do with
our illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-
syncretising/mirage than the ontological-veridicality/ontological-contiguity of reference-of-
thought (as from ontological-normalcy/postconvergence epistemic/notional–projective-
perspective). This equally explains why uninstitutionalised-threshold equally carried a
complex about their registry-worldview/dimension and these complexes certainly sound unintelligible to us given our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective-ontological-normalcy/postconvergence-reflected-`epistemicity-relativism'> process. With rational-realism (deprocrypticism), institutionalisation/intemporalisation raises the issue of notional-discontiguity/epistemic-discontiguity<<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema> (undisambiguation as notional-firstnaturedness—temporal-to-intemporal-dispositions<<so-construed-as-from-perspective-ontological-normalcy/postconvergence> are wrongly given the same elevation), and relevantly so at the procrypticism—or—disjointedness-as-of-reference-of-thought uninstitutionalised-threshold 03. The very specific nature of the deprocryptic transcendence-and-sublimity/sublimation/supererogatory—de-mentativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional-firstnaturedness—temporal-to-intemporal-dispositions<<so-construed-as-from-perspective-ontological-normalcy/postconvergence>’—existentialism-form-factor at the procryptic uninstitutionalised-threshold 03, and conjugate this in meaningfulness by going beyond just logical operation/processing/contention of narratives but rather in the first instance introducing the notion of ‘notional-firstnaturedness—temporal-to-intemporal-dispositions<<so-construed-as-from-perspective-ontological-normalcy/postconvergence> disambiguation’ to avoid wrongfully operating/processing of logic by the reference-of-thought of the intemporal-disposition—reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation which is ontological (i.e. is in sync with intrinsic-reality/veridicality), where the effective registries are
actually temporal-dispositions thus to be construed as of their temporal references-of-thought. It involves de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics) temporal-dispositions manifest denaturing and thus to avoid elevating temporal-dispositions to intemporal logical contending status as this result in the miscuing of meaning as of notional-discontiguity/epistemic-discontiguity <shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema>. notional-deprocrypticism institutionalisation/intemporalisation takes stock of the veridicality of human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—existentialism-form-factor; as successive circular/recurrent/repetitive/repeatable iterating preconverging constructs, and not as may wrongly be reflected by the natural reflex to be postconverging constructs, to emphasise the ‘dominance/supersedingness/suprastructuring of the intemporal-disposition skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity)’ for the fulsome articulation of ontology as ‘utter (postconvergence) ontological-veridicality/ontological-contiguity in conscious transdimensional/transcendental-memetic-depth (thinking-and-preconverging-or-dementing -dialectical-dynamism-or-dialectics) of ontological-normalcy/postconvergence or prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (unlike all prior institutionalisations which are rather intradimensional in their meaningful-depth construed only as a closed <amplituding/formative-epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiac-drag ‘postconverging-or-dialectical-thinking—apriorising-psychologism dynamism’). As a corollary, meaningfulness or rather memetism or
suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of notional–deprocripticism institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency—<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness > of ‘knowledge-notionalisation’ (knowledge as understanding not only of the ideal/intemporal but equally how the temporal/defective works distractively, to anticipate and preempt the latter perverseness but doing so rather in a superseding ontologically-minded manner) and intemporal skewing (‘intemporality’<symmetric-subsumption-of-temporality>', for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference as virtue and (postconvergence) ontological-veridicality/ontological-contiguity; in contrast to the hotchpotching of notional-discontiguity/epistemic-discontiguity—<shallow-supererogation of mentally-aestheticised–preconverging/dementing –qualia-schema> of temporal-dispositions and particularly in the extended-informality—{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology } which covers all informal spheres of institutions and society generally. So because knowledge-notionalisation recognises that in a specie of notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuation dispositions, deferential-formalisation-transference which is the bases for institutionalisation/intemporalisation by skewing (‘intemporality’<symmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity) for the supersedingness/lead of the
Intemporal-disposition individuation is responsible for elevating human uninstitutionalised-threshold across the successive institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’⟩) by the resultant formalisation and internalisation involved in institutionalisation explaining effectively the dialectical evolution from deeper primitivites/mental-out-of-phasings to the present state (limited-and-shallower-human-mentation-capacity to limited-but-deeper-human-mentation-capacity) as a result of the inherent ‘intemporal-prioritisation-of–reference-of-thought’–as-conflatedness-or-ontological-reprojecting-skewing (‘intemporality-asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supernormal–de-mentativity)/deferential-formalisation-transference for intemporalisation/institutionalisation, and the implications prospectively. For instance, the uninstitutionalised-threshold for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism-or-medievalism and our positivism–procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in an recurrent-utter-uninstitutionalised registry-worldview. Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-notional–firstnaturedness—temporal-to-intemporal-dispositions–⟨so-construed-as-from-perspective–ontological-normalcy/postconvergence⟩–implications which is more than just reactionary to the possibility of temporality/shortness (shortness-of-register-of–meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of thought’ (intemporality as longness-of-register-of–meaningfulness-and-teleology) that
takes abstract cognisance of temporality’s/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-uninstitutionalised-threshold) to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, notional–deprocrypticism going by ontological-normalcy/postconvergence implies a mental-devising-representation of ‘non-thresholding meaningfulness as transdimensional/transcendental-meaningfulness or memetic refinement (or a postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism paradox) ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as-prospective reference-of-thought’ in its ‘functional institutionalised/intemporalised-approximating-or-proxying-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ as renewing existentialism/full-depth-of-existential-implications meaningfulness and thought; with such non-thresholding ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation,
as-prospective reference-of-thought, approximating/proxying being of ontological-normalcy/postconvergence and suprastructural nature as the fulsome attainment of the institutionalisation/intemporatisation ideal (ontological-normalcy) culminating with deprocrypticism. Thus fundamentally preconverging-ordementing\textsuperscript{15} apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{8} of reference-of-thought does not arise because of failure of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation but rather because of failure of reference-of-thought as of perversion-and-derived-perversion-of-reference-of-thought<-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. This is unlike the case where logical-engagement of mental-devising-representation as ‘postconverging-or-dialectical-thinking\textsuperscript{20} apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity\textsuperscript{10} of reference-of-thought is still relevant where there is failing/not-upholding-\textsuperscript{as-of-apriorising/axiomatising/referencing} logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation (like

But this is invalid and not applicable where the issue is about deliberate disposition not to adhere to arithmetic axioms but usurp them (whether consciously, expeditiously or unconsciously). Soundness-or-ontological-good-faith/authenticity -of- reference-of-thought on the other hand implies being-or-ontological-or-existential-or—meaningfulness-and-teleology disposition as of supplanting-conviction-as-to-profound-supererogation —of-

This is the fundamental basis and backdrop for an insight for drawing ‘the implications of the (preceding and superseding) nature of intrinsic-reality as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—ontological-preservation)’, in reflecting/perspectivating/highlighting ‘the mental-devising-representations of registries/references constructs and protractedly of registry-worldviews/dimensions (on the basis of the de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) whether as of registry-soundness and thus as ‘postconverging-or-dialectical-thinking—apriorising-psychologism representations’ (postconverging-or-dialectical-thinking—apriorising-psychologism—stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase) or as of perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-

Hence the postconverging/dialectical-thinking\(^0\)-apriorising-psychologism mental-devising-representations of either sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and defect-of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation are ‘projectively validated by reflex as possibly-of-postconverging-or-dialectical-thinking\(^{20}\)-apriorising-psychologism/possibly-of-soundness-or-ontological-good-faith/authenticity reference-of-thought (and not projectively invalidated by reflex as possibly-of-preconverging-or-dementing\(^{19}\)-apriorising-psychologism/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought) in implying the ‘upholding of their sound reference-of-thought status’. To illustrate, suppose X and Y are contending (ontological-reference) to know what 5+4 will give as answer (ontological-veridicality), if X is using pencils to count but inadvertently misplaced a pencil or doesn’t perfectly understand how to stack up the pencils to use to count the whole lot, then where his answer was to come out as 5+4=8, we talk of defect-of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as X sincerely wants to calculate to produce the right answer but X’s logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation failed. This doesn’t invalidate the notion that Y can still engage X as ‘possibly-of-postconverging-or-dialectical-thinking\(^{20}\)-apriorising-psychologism/possibly-of-soundness-or-ontological-good-faith/authenticity reference-of-thought in contending (appropriateness-of reference-of-thought-as-of-conflatedness) with respect to another arithmetic operation, that is, possibly after pointing out to X where they went wrong in their operation of arithmetic. To illustrate, suppose X above rather slyly and deliberately (preconverging-or-dementing–apriorising-psychologism mental-devising-representation) miscalculated (non-ontological-reference/non-contending-reference) the answer (in notional-discontiguity/epistemic-discontiguity"<shallow-supererogation of-mentally-aestheticised–preconverging/dementing–qualia-schema>) and Y grasps this, then this invalidates the notion that Y can still ‘genuinely’ engage X (ontological-pertinence) with regards to another arithmetic operation of-similar-or-protracted-contextualisation, with respect to the upheld context behind X’s sly and deliberate basis for miscalculating. ormalcy/postconvergence-reflected—‘epistemicity-relativism’ are at their given
institutionalisation levels on the basis of a memetic suprastructural-meaningfulness analysis or
a transcendental/transdimensional-meaningfulness analysis, the notion of socially-betraying-
threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-
preservation-entropy—or-contiguity—or—ontological-preservation actually initially applies
intradimensionally in all registry-worldviews/dimensions and it is actually the
‘intemporal/ontological signal’ for the need of prospective transcending/superseding due to
‘failing/not-upholding—apriorising/axiomatising/referencing’ intradimensional
ontologising/intemporal-preservation’. Insightfully, we can grasp the ‘intemporal/ontological
signal’ pointing to a socially-betraying-threshold-of-ontologising-depth-of-analysis with
regards to a dimension’s/registry-worldview ‘preconverging—or-dementing—apriorising-
psychologism phenomenon’ like psychopathy and social psychopathy (with respect to
procrypticism or perversion-of—reference-of-thought—positivistic meaningfulness) or accusations and notions of sorcery (with
respect to medievalism); as this has to do with human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>-’–existentialism-form-factor

individuations dispositions with respect to intradimensionally operant implications of perversion-of–reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, as the various ‘temporal-dispositions individuations’ will, at that uninstitutionalised-threshold, betray ontologising/ontological-depth-of-analysis/intemporal-preservation by hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-
failing-intemporal-preservation> at their specific temporal-dispositions individuations thresholds (postlogism \textsuperscript{slantedness}/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of \textsuperscript{reference-of-thought-}\textsuperscript{devolving} ontological-performance \textsuperscript{including-virtue-as-ontology}) with the idea that ‘human intemporal-disposition individuation’ will rather be utterly emancipatory/transcendental by ‘ontologically-reconstituting’/deconstruction (and so, without any hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation \textsuperscript{incrementalism-in-relative-ontological-incompleteness}–enframed-conceptualisation and notional–disjointedness-as-of-reference-of-thought allowed, in order to sync with the ‘postconvergence/preceding/superseding nature of intrinsic reality’ which ‘doesn’t recognise’ nor is involved in temporal-and-social-trading with the mortals that we are to establish ontological-reference and ontological-veridicality) instead of betraying ontologising/ontological-depth-of-analysis/intemporal-preservation thus inducing prospective institutionalisation/intemporalisation by positive-opportunism \textsuperscript{76} and the intemporal percolation-channelling-in-deferential-formalisation-transference of such emancipation/transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus for instance with regards to adult psychopathy and the induced social psychopathy, it will be naïve to simply analyse on a dichotomous basis of psychopathy and its violation of social norm, with the idea that psychopathy is associated with temporal-dispositions destructuring-threshold (uninstitutionalised-threshold /presublimating–desublimating-decisionality) of-ontological-performance \textsuperscript{including-virtue-as-ontology} ‘as of the positivism–procrypticism registry-worldview’s/dimension’s socially-betraying-threshold-of-ontologising-depth-of-analysis/sociably-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in conjugation to
ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) and it is naïve to simply analyse on the basis that other interlocutors have an intemporal/ontological disposition, in the very first instance. Thus the need, in order to attain such a prior requisite ontological/intemporal insight, to ontologically construe (as to deferential-formalisation-transference) contexts of psychopathy and social psychopathy (and generally contexts of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation

construct’ preempting the said phenomenon. In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals- and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied,
naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this respect, one can cite at individuals-levels instances of many a human interest story tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance what is the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably due to grave and unprincipled mismanagement with profound social repercussions.

suprastructural/beyond the registry-worldview’s/dimension’s recomposured-consciousness-awareness-teleology\textsuperscript{100} to non-positivism/medievalism. Likewise the positivistic meaningful frame is oblivious to its procrypticism, and corresponding resolution as notional–deprocrypticism as the prospective/transcending/superseding ontological-reference-of-veridicality/contending-reference-of-veridicality. Further, this notion of registry-worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ aligned with ontological-normalcy/postconvergence is what escapes and provides for grander emancipatory possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/(recomposured)-consciousness-awareness-teleology\textsuperscript{100} in reference (as ‘tentative references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived \textsuperscript{75} meaningfulness-and-teleology\textsuperscript{100} thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that aligns with and is driven by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wherein ontological-normalcy/postconvergence is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. Ontological-
normalcy/postconvergence (as to epistemic relative-ontological-completeness\textsuperscript{88}) abstractly refers to any relevant/implied registry-worldview/dimension that is in a reflected/perspectivated state of prospective transcending/superseding whether as base-institutionalisation, universalisation, positivism or notional-deprocrypticism as having ‘relative sound/ontologically-veridical reference-of-thought status’, in relation to a corresponding reflected/perspectivated state of prior transcended/superseded registry-worldview/dimension whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism which is then correspondingly of ‘relative unsound/ontologically-impertinent reference-of-thought status’, and so going by the inherent human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor that arises by the mere fact that all the institutionalisations are of the same ‘human form-factor’ with their ‘snowballed differences’ arise solely due to limited-mentation-capacity-deepening involving institutional-cumulation/institutional-recomposure-\{as-to- historicity/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>\}. Ontological-normalcy/postconvergence as such will imply that the successive institutionalisations are rather shifts-in-the-curve-of-prospective-relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{84} reference-of-thought-as-of-ontological-normalcy/postconvergence (shifts-in-the-curve-of-human-grasp-of-one-ontology/‘ontological-reference-of-veridicality’, which will graphically/as-imagery imply ‘human-grasping-capacity’ on one axis and ‘depth-of-ontology/ontological-reference-of-veridicality/ontological-completeness’ as the institutional-cumulation/institutional-recomposure-\{as-to- historicity/ontological-eventfulness /ontological-aesthetic-tracing-

for issues of superstition/lack-of-rational-empiricism to arise whether we talk of sorcery, bodily
mutilations and their effects, charlatanisms, etc. Likewise, it will be naïve to imply that our registry-worldview as positivism–procrypticism is in absolute sync with ontological-normalcy/postconvergence by the mere fact that we are at the backend of the institutional-cumulation/institutional-recomposure–⟨as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–⟨perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’⟩⟩, as we can equally project prospectively from a retrospective projection insight to grasp how ‘from an utter hermeneutic/reprojecting/supererogating/zeroing circle exercise of ontological-reconstituting–as-to-conflatedness/deconstruction (of our notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature)’ how procrypticism (preconverging-or-dementing–apriorising-psychologism as to mere-formulaic positivistic meaningfulness-and-teleology) in a positivistic registry-worldview de-mentatively/structurally/paradigmatically endemises psychopathy and social psychopathy. Insightfully, for a grander grasp of ontological-normalcy, the notion of institutional-cumulation/institutional-recomposure–⟨as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–⟨perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’⟩⟩ and their related conceptualisations are not just ad-hoc in nature but of ‘existentialism/full-depth-of-existential-implications form-factor’; which is fundamentally defined by ontological-normalcy/postconvergence (going by shallower-limited-mentation-capacity to deeper-limited-mentation-capacity), in reflecting the precedence/supersedingness of intrinsic-reality/ontology to which an ‘animal’ comes-to-and-re-compose-with-cumulatively by ontological-reconstituting–as-to-conflatedness/deconstruction (which is the critical subsuming mechanism for re-establishing reference-of-thought and ontological-veridicality/ontological-contiguity as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, above and
beyond the simple hollow-constituting-reference-of-thought-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation of any registry-worldview/dimension and requiring their prospective suprastructuring). This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the human limited-mentation-capacity-deepening induced institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism>), and inherently implies ‘a universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’; which define their specificities and potentials which are basically abstractly of a same ‘human form-factor’, with regards to the reality of their notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> and the existential implications on every registry-worldview/dimension thereof, though of differing ‘snowballed recomposuring’ of meaningfulness and reference-of-thought. Ontological-entrapment (as a deterministic point of reference that defines dialectical-out-of-phasing/dialectical-primitivity registry-worldview/dimension, and thus avoiding any confusing effects to analysis of the de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is attained by ‘keeping or aligning’ preconverging-or-dementing apriorising-psychologism (with no shifting by reflex

setup/mental-devising-representation/mentation/consciousness-awareness-teleology (as to ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ mental-devising-
representation or preconverging-or-dementing–apriorising-psychologism mental-devising-

dialectical-thinking–apriorising-psychologism’ or of preconverging-or-dementing–
apriorising-psychology as so-reflected/so-perspectivated from ontological-normalcy/postconvergence, and it is thus ontology-driven beyond any presencing—absolutising-identitive-constitutedness distorted meaningfulness-and-teleology. This equally explains why a prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought is cross-sectionally dialectically-out-of-phase/dialectically-primitive given it is sticking to its ‘good-natured’ but ‘ontologically-wrong and failing’ reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) as the prospective/transcending/superseding registry-worldview/dimension has the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework sound reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (in ontological-reconstituting—as-to-conflatedness/deconstruction); wherein no amount of ‘good-naturedness’ of any individuation based on the former (prior/transcended/superseded) reference-of-thought can fundamentally supersede its preconverging-de-mentating/structuring/paradigming vices-and-impediments, but for the ‘emancipatory moulting’ (psychoanalytic-unshackling/memetic-reordering/recomposuring) into the reference-of-thought of the latter (prospective/transcending/superseding) of such would-be emancipating individuation/intellectuals and consequent institutionalisation/intemporalisation as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. That is why there is no ontologically-veridical intradimensional resolution of issues and notions of sorcery for instance in a non-positivism/medievalism social-setup with any such pretence being nothing but a ‘temporal extricatory preconverging-de-mentating/structuring/paradigming’ to satisfy temporal preservation’, but for implying a prospective need for a positivistic registry-

such that whenever relatively sound reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are institutionalised/intemporalised, human temporality in hollow constituting-as-disjointed—misappropriation-of-meaningfulness-and-failing-intemporal-preservation individuation dispositions (at uninstitutionalised-threshold) will tend to relate, by limited-mentation-capacity-deepening, to this as hollow/formulaic constraining deterministic constructs which have to be exploited by the mere determinism-of-form about how others will act (hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) rather than the essence as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation being sought originally by the institutionalised/intemporalised reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (ontological-reconstituting—as-to-confinedness). This fundamental dilemma of the cross-section of human mentation disposition is ‘a lost cause’, given the reality of the notion of a shortness-to-longness-of-register-of-meaningfulness/notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence inherent in a limited-mentation-capacity-deepening; any resolution is not by wrongly implying any ‘dimensionality-of-sublimating—amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-confinedness/transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation transformation’ but rather institutionalisation/intemporalisation by its inherent eliciting of positive-opportunism to the grander cross-section of society in the medium to long-run wherein intemporal-disposition/longness-of-register-of—meaningfulness-and-teleology individuation dispositions by artifice/institutionalisation/intemporalisation come to constrain—
or-dominate the social-construct (over temporal-dispositions/shortness-of-register-of-

This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipatory potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity! Rational-realism (as to prospective deprocrypticism) as such involves rather elucidating distractive-alignment-to reference-of-thought-of-apriorising/axiomatising/referencing\textsuperscript{2}/decandoring with three de-
mentative/structural/paradigmatic teleologies: - subknowledging\textsuperscript{22}-impulse/compulsive-

disposition-(psychopath) and the subknowledging -registries-teleologies (the-various-
temporal-dispositions-teleologies), from a ‘organic-comprehension-thinking depth as the \textsuperscript{14} de-

Thus at the uninstitutionalised-threshold, it is counterintuitive for temporal-dispositions not to perceive their registry-worldview/dimension as ‘un-transcendable’ (acting as if in intemporal-preservation-entropy-or-contiguity—or—ontological-preservation while actually in temporal preservation-as-pseudointemporality; hence de-mentionable/no-longer-thinking) due to <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/present-consciousness/illusion-of-the-present/mirage as metaphysics-of-presence—{implicated—nondescript/ignorable—void—as-to-presencing—absolutising—identitive-constitutedness} which blinds the temporal-dispositions to the registry-worldview’s/dimension’s ‘intemporal preservation discontinuity’ as a result of the perversion—of—reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as-of-unsoundness—or-ontological-bad-faith/inauthenticity—of—reference-of-thought-defects (and not logical defect) of compulsive-slanting—preconverging-or-dementing—apriorising (psychopath) and the consequent derived—miscuing, disjointed-logic, logical-drag, unconscionability-drag, and sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation; arising from the conjugation with the relative-ontological-incompleteness—induced,—‘threshold-of—nonconviction/madeupness/bottomlining—in-shallow-supererogation—as-to—attendant—intradimensional’—prospectively—disontologising—preconverging/dementing—apriorising-psychologism>’ whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism. The reason why this is critical to grasp is that the veridical intemporal-disposition preserving emanance has to ‘organically and existentially pass-through’/reflect/perspectivate the registry—

Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (occurring at the registry-worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation existential mental orientation to avoid postconverging-or-dialectical-thinking—apriorising-psychologism—<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> (for example, no ‘God of plane’ for say an animistic mental orientation that sees gods and spirits as causative, i.e. avoiding to operate the meaningfulness-and-teleology of a transcendent registry-worldview/dimension in terms—of—axiomatic-construct of the reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the transcended registry-worldview/dimension). It is more like (a knowledge-driven/not impression-driven) ‘intemporal preservation recomposing need or memetic-reordering/psychoanalytic-unshackling’ for institutionalised/intemporalised being/ontology over recurrent-utter-uninstitutionalised, universalised being/ontology over ununiversalised, positivistic being/ontology over non-positivism/medievalism and prospectively deprocryptic being/ontology over procrypticism–or–disjointedness-as-of-reference-of-thought. For instance, de-mentatively/structurally/paradigmatically the positivistic mental frame is in alienated-disposition/logically-incongruent and generates internal contradiction towards the non-positivism/medievalism mental frame as otherwise you have <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or the referencing/registering/decisioning of meaning in terms–as-of-axiomatic-construct of the registry-worldview/dimension that needs to be superseded/preceded/overridden/uttered, for instance, retrospectively the ‘god of plane’… type of proposition from an early animistic society which doesn’t comes to terms with the prospective positivist worldview construct as it hangs on to its non-positivist ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\), and this will equally apply prospectively between notional–deprocrypticism and procrypticism as the procryptic mindset/\(^{95}\)reference-of-thought will strive to register meaning not prospectively taking account of procrypticism as a ‘mental perversion/defect’, and likewise retrospectively with the ‘medieval mindset’ with respect to the positivist mental frame. This obviously calls for an ‘intellectual/scientism detachment’ towards the perversion-of-\(^{94}\)reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(\rightarrow\) registry-worldview/dimension, with an intemporal-disposition sense of contributing to the bigger

This way of hermeneutic/reprojecting/supererogating/zeroing ‘ontological reasoning’ to arrive at ‘intemporal-or-ontological meaning’ that is beyond any amplituding/formative–epistemicity totalising–self-referencing-syncretising/self-centered/present-consciousness/illusion-of-the-present/mirage mental projection within just a given registry-worldview/dimension so as to ‘grasp fundamental intemporal-disposition as of the inherent nature of existential-reality’ is central to the notional–deprocrypticism registry-worldview/dimension as a doppler-thinking exercise known as suprastructuralism. Suprastructuralism is grounded on ontological-normalcy/postconvergence insight and places ‘abstract intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ above the reference-of-thought– categorical-imperatives/axioms/registry-teleology devising (supposedly for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) meant to represent it in a given registry-worldview/dimension as prior/transcended/superseding (which as such is now construed as perversion-of-reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in the mental-devising-representation of intrinsic-reality/ontological-veridicality, thus requiring new
recomposuring \(^8\) reference-of-thought\(^8\) categorical-imperatives/axioms/registry-teleology\(^0\) to ‘preserve the abstract and intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’. Deprocrypticism’s suprastructuralism involves ‘intemporality\(^5\)-asymmetric-subsumption-of-temporality\(^5\)’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity existence-potency\(^8\)–sublimating–nascence,-disclosed-from-prospective-epistemic-digression so-construed as longness-of-register-of–meaningfulness-and-teleology\(^1\) over shortness-of-register-of–meaningfulness-and-teleology\(^1\); and so, beyond just about a prospective moral virtue but the prospective overall the-Good/understanding/knowledge-reification\(^5\)/ontological-primemovers-totalitative-framework\(^7\) construct as ‘ontology and its subsuming of virtue’, just as positivism is beyond just about a moral virtue but comprehensively an overall the-Good/understanding/knowledge-reification\(^5\)/ontological-primemovers-totalitative-framework\(^7\) construct carrying a virtue that supersedes the vices-and-impediments\(^1\) of the non-positivism/medievalism registry-worldview/dimension). It calls for a knowledge construct, whether social or physical, beyond just positivistic categorisation of knowledge but as ‘ontological-normalcy/postconvergence referentialism as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ontology’. Thus, the doppler-thinking exercise of suprastructuralism enables the conceptualisation/construal of institutionalisation-or-intemporalisation-or-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in grasping the denaturing\(^5\) of \(^5\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\) as of ontological-normalcy/postconvergence basis of analysis, and by so doing grasping the precedingness/supersedingness/ascendency of intrinsic-reality.

[Referentialism involves a reference-of-thought (so-characteristic of the prospective deprocrypticism registry-worldview/dimension) construing existence and existential-
conceptualisation/construal as about the ‘precedingness of becoming’ as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness¹² rather than apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness¹³ (notwithstanding the instances of the latter’s attendant approximating-nature for conceptualisation/construal rather construed as presencing—absolutising-identitive-constitutedness¹¹). apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness¹³ tends to fallaciously imply ‘existence of things in existence’ whereas apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness¹² rightly implies ‘things becoming in existence rather as subsumed-in-existence in a superseding–oneness-of-ontology’; so because apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness¹³ takes a simplistic shot at construal/conceptualisation of existential-reality practically presuming this to be ‘effectively absolutely real and final’ but then with human limited-mentation-capacity-deepening this is erroneous hence the need for re-categorisation/re-adaptation/re-classification as ‘re-constitutedness¹³ of reference-of-thought’ perpetually when aware of its deficiency. apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness¹² takes a shot at construal/conceptualisation of existential-reality from an open-ended insight/fugue as of referentialism from the more profound ontological-normalcy/postconvergence of existential-reality factoring in human limited-mentation-capacity-deepening¹³ as of metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}, and as implied by the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that goes beyond wooden-language-{imbued—temporal–mere-form/virtualities/dereification /akrasiatic-
drag/denatured/preconverging-or-dementing –narratives—of-the- reference-of-thought categorical-imperatives/axioms/registry-teleology\(^{10}\) which are continually put into question, by being open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\(^{13}\) by a re-equilibrating metaphysics-of-absence\(^{9}\) (implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>/postdication. Thus, apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness\(^{1}\) will wrongly induce virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, and so, with more and more profound defective construal/conceptualisation consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness\(^{1}\) in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as a attendant resetting resolution for the induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness\(^{3}\) of axiomatic-construct/reference-of-thought’ (by elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity\(^{39}\)) that will then require another attendant resetting resolution for the subsequently induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness\(^{13}\) of reference-of-thought’ down the line when aware of its further critical defect again (though, in a sense the entire recomposuring process could be qualified as a ‘practical \(^{80}\) presencing—absolutising-identitive-constitutedness\(^{13}\) exercise). But then the inherent nature of existence in relation to human limited-mentation-capacity-deepening\(^{13}\) construal of it is one of evasiveness as implied by the ‘imbricatedness/threadedness/recomposuring as of existentialising/contextualising/textualising-
contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ such that we are only occasionally and partially aware about the critical defective nature implied by apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising-contiguity) —constitutedness in categorisation schemes, thus fundamentally defining the limits even of a presencing—absolutising-identitive-constitutedness as of existential-conceptualisations/construals. The implication is beyond just the notion of knowledge construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the de-mentative/structural/paradigmatic basis of categorisation scheming are equally the de-mentative/structural/paradigmatic basis of the inherent analysis and meaningfulness-and-teleology construed/conceptualised. Since categorisation schemes (whether construed/conceptualised beyond-the-consciousness-awareness-teleology,<in-existential-extrication-as-of-existential-unthought>) define the ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’, it is critical to grasp that the inherent de-mentative/structural/paradigmatic limits/defects of such ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’ are systemic hence inducing ‘flawed-existential-elevation-of-reference-of-thought’ as of ontological and virtue implications (as ontologically-perspectival-degraded-as-decentered/preconverging-or-dementing-reflexive/entailing-teleology—differentiation-as-of-subtransversality—<in-desublimating—existential-eventuating/denouement—of-motif-and-apriorising/axiomatising/referencing) at the given ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’.
Beyond its conceptualisation as of knowledge categorisation and categorisation scheming but rather as of effective ontological-and-virtue conceptualisation/construal, apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness implies a simplistic/trite categorical relation in the construal/conceptualisation of meaningfulness-and-teleology as of its ontological and virtue essence that is susceptible to defect as perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation; and as such, apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness will speak of subtransversality-in-desublimating–existential-eventuating/denouement-of-motif-and-apriorising/axiomatising/referencing and various shades of temporality/shortness in their ‘apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness and conjugated-apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness of reference-of-thought’ including psychopathic slantedness apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness. The comparison highlighted further below with respect to the 6 BODMAS characters and character A (Addition) as the additionality defect character, is most telling of the inherent nature of human limited-mentation-capacity-deepening induced apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness which is conceptually associated with conceptualisation/construal of ‘human temporal uninstitutionalised-threshold mental-disposition’ (since such a construal fully reflect the

apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—conflatedness, as so-construed in referentialism, by striving to sync with the very inherent evasive nature of existence in its imbricatedness/threadedness/recomposuring (with respect to human limited-mentation-capacity-deepening) as of referentialism is absolutely referencing on the basis of ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as being the preceding notion for construal/conceptualisation with respect to existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-

Hence \textit{apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness}\textsuperscript{12} will tend to avoid systemic defects of analysis associated with \textit{apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness}\textsuperscript{13} requiring re-categorisation/re-adaptation/re-classification as ‘presencing—absolutising-identitive-constitutedness’. \textit{apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness}\textsuperscript{12} is thus naturally inclined to induce ‘appropriate-existential-elevation-of- reference-of-thought’ by the ontological and virtue implications (as ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking\textsuperscript{20}-differentiation-as-of-supratransversality\textsuperscript{<in–sublimating–existential-eventuating/denouement>–of-motif-and–apriorising/axiomatising/referencing}). As so articulated, these two concepts operantly address in a storied-construct/ontologically-valid-narration or any other operant conceptualisation the notion of a ‘Différance-disambiguation-of-ontologically-veridical—meaningfulness-and-teleology\textsuperscript{104} as meaning produced apparently with the ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness’ (seemingly of veridical-ontological reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the various instances) but actually implying ‘different relations to an ontologically veridical reference-of-thought’, underlined by the disambiguated notional-firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>. Further,
apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness and apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness, as so articulated, are such fundamental notions with respect to how humans limited-mentation-capacity-deepening come to grasp existential-reality/ontological-veridicality that these two underlying notions are critically definitional relative to existential-construal/conceptualisation of understanding and failing-understanding, and insightfully explain the fundamental basis of the consecutive transformations of human psychologisms as induced by ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ at the transcendent/transdimensional/interdimensional-level of institutionalisations as well as at the individuation-level with respect to conception and misconceptions of meaningfulness-and-teleology not only with respect to understanding but equally dynamics of ‘personality formation and teleological-differentiation’, and so specifically as associated with the dynamics implied of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, further reflected in the overall dynamics of postlogism and conjugated-postlogism (including the dynamics of psychopathy and social psychopathy as social reprising out of existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context of psychopathic pathological insane-fitment, as of fundamental/most-simplistic apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness socially reprised with ‘conjugated-apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness

grasping and analysing human choice/notions relative to reference-of-thought—categorical-
imperatives/axioms/registry-teleology of meaningful-frameworks. Other implications have to
do with human personality development psychology in relation to meaningfulness extending to
the construal/conceptualisation of language development as well as aesthetics and virtue as
reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-
the-human-institutionalisation-process. In a further elaboration of
apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-
contiguity )—constitutedness and apriorising/axiomatising/referencing—(of—
existentialising/contextualising/textualising-contiguity )—conflatedness with respect to
psychologism, the reason why a prospective/transcending/superseding registry-
worldview/dimension needs its own knowledge-construct reference-of-thought psychologism
has to do with the fact that every registry-worldview/dimension has ‘its own specific
apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-
contiguity )—constitutedness/conflation psychological complex reflex mechanism’ wherein
its limits in the construal/conceptualisation of intrinsic-reality/ontological-veridicality are defined, and this is subpar to the prospective/transcending/superseding registry-worldview/dimension knowledge-construct reference-of-thought which thus needs its own corresponding psychologism for its superseding meaningfulness-and-teleology, achieved by ‘presencing—absolutising-identitive-constitutedness’ as apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness re-categorisation/re-adaptation/re-classification’. Consider the example of the ‘God of plane’ type of expression in an animistic/base-institutionalisation setup, where their fundamental psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the line the latter’s meaningfulness-and-teleology, by way of continuous ‘presencing—absolutising-identitive-constitutedness’ as ‘recurrent re-categorisation/re-adaptation/re-classification of the prior apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness of reference-of-thought’ is critically rid of the very essence of animistic/base-institutionalisation psychologism inducing an overall break into a positivism psychologism. It is interesting to note that going by the psychologism of a base-institutionalisation social-setup reference-of-thought for instance, the idea of arithmetic as we may grasp today in a positivistic registry-worldview/dimension Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology, and as of its operant nature, isn’t the case in its operant conceptualisation in such a base-institutionalisation social-setup devolving-as-of-instantiative-context—meaningfulness-and-teleology as
rather the mental-disposition apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in the use of numbers is more about acting in currying favours or in view to receiving favours meaningfully as of `amplituding/formative–epistemicity>totalising–nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in-`warped-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of–existentialising/contextualising/textualising-contiguity’’s-reifying/elucidating-of-prospective-relative-ontological-completeness 88-of-84 reference-of-thought-83-devolving-as-of-instantiative-context’ (as can be observed by anthropologists in various forms in many a hunter-gatherer and animist societies), rather than use of numbers considered as of such a relatively independent-domain and exactness of meaningfulness-and-teleology orientation as we construe of arithmetic and mathematics in say a universalisation or positivism registry-worldview/dimension Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology like the notion of wealth accumulation, which will be predominantly about ‘inducing a sense of social obligation or faithfulness or deference’ from other persons, and so together with other cultural peculiarities that avoid hoarding and emphasise wealth display, gifts, etc. Psychologism (as being central in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness or rather ‘presencing—absolutising-identitive-constitutedness’ as recurrent re-categorisation/re-adaptation/re-classification of
apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness, refers to the underlying human reflex mental scheme of a given registry-worldview’s/dimension’s reference-of-thought ‘allowing for its given capacity to supersede its psychological complex in construing ontological-primemovers-totalitative-framework transcendental-enabling/sublimating/supercratory—de-mentativity and corresponding meaningfulness-and-teleology. The bigger question could be asked; why doesn’t humans in recurrent-utter-uninstitutionalisation spontaneously articulate and relate to meaningfulness-and-teleology as humans in base-institutionalisation–ununiversalisation, who do not do likewise as humans in universalisation–non-positivism/medievalism, who do not do likewise as humans in positivism–procrpticism? Is it a difference in species, as of successive species? Obviously, no! As we know from history and anthropology that cultural diffusion has shown that all humans are able to come to terms and operate at the highest forms of human registry-worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a registry-worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology as arising and determined by its specific limited-mentation-capacity—(as from relative apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness to relative apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflicatedness) construal/conceptualisation as soundness-or-ontological-good-faith/authenticity—of—reference-of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-deepening, can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual
and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-deepening determining its prospective relative-ontological-completeness of reference-of-thought, as enabled by the ‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recomposure—(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>)} which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic deambulation’ harkens back to that of human registry-worldview’s/dimension’s institutionalisation by its socially-functional-and-accordant thresholds of notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> further redefining the possibility of uninstitutionalised-threshold as the threshold for failing/not-upholding the institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology and the possibility of prospective institutionalisation as renewing reference-of-thought—categorical-imperatives/axioms/registry-teleology for upholding intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-of-presence—{implicated—‘nondescript/ignorable—void ’—as-to— presencing—absolutising—
identitive-constitutedness), the present registry-worldview’s/dimension’s reference-of-thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in secluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of reference-of-thought. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness-of-reference-of-thought emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that is counterintuitive to a stigmatic/mented psychology as conceptualised today. As we come to recognise that such an approach renders the meaningfulness-and-teleology as value-reference of every registry-worldview/dimension at the backend of the institutional-cumulation/institutional-recomposure–{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’> as the absolute determinant of what can be psychology, with a naivety that doesn’t allow consciously, (as consciously decentering and pivoting with respect to human psychical and institutionalisation implications), for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, as it doesn’t factor in the said registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought to then project that there may be a prospective relative-ontological-completeness-of-reference-of-thought which meaningfulness-and-teleology as value judgment transforms psychological-construal/psychologism. The best possible outcome in this regard is as of the construal of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence
As setting up the relevant attendant psychologism is only by a construal that the best possible psychology-construct/psychologism is necessarily attained by successive registry-worldviews/dimensions construals/conceptualisations by their attendant prospective relative-ontological-completeness of reference-of-thought by social universal-transparency (transparency-of-totalising-entailing-as-to-entailing as of existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought-devolving-as-of-instantiative-context). This insight about the nature of a mented/stigmatic psychology compares with the instance about a Kantian absolute apriorising/axiomatising/referencing-psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ as of the positivistic mindset/reference-of-thought, and what is not factored in is the fact that there is a human limited-mentation-capacity that maximalisingly-recomposes as of human shallow-to-deepening–limited-mentation-capacity, as of limited-mentation-capacity-deepening inducing the successive registry-worldviews/dimensions institutionalisations of reference-of-thought with their own ‘specific institutionalisation/uninstitutionalised-threshold mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ as

existentialising/contextualising/textualising-contiguity — conflatedness as implied with referentialism as the underlying transcendental memetic/suprastructural-meaningfulness fugue reflecting existential-reality will take an even more critical bearing with respect to notional-deprocrypticism psychologism as unlike the articulation as presencing—absolutising-identitive-constitutedness (rather heuristically and beyond consciousness-awareness-teleology in previous institutional-cumulation/institutional-recomposure (as to:

historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism>), with notional-deprocrypticism apriorising/axiomatising/referencing—of—existentialising/contextualising/textualising-contiguity — conflatedness is rather bound to be perceived and construed as of the (recomposed)-consciousness-awareness-teleology in its full potential on the basis of referentialism as of the full development of ontological-normalcy/postconvergence. Thus, the notion of apriorising/axiomatising/referencing—of—existentialising/contextualising/textualising-contiguity — conflatedness (including presencing—absolutising-identitive-constitutedness') can be conceptualised across all transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as providing the ‘centering platform’ (that reflects the imbricatedness/threadedness/recomposuring of existential-reality as of existentialising/contextualising/textualising-contiguity’s—reifying/elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context in ontological-normalcy/postconvergence or intemporal-preservation-entropy—or-contiguity—or—ontological-preservation) as the prospective registry-worldview/dimension institutionalisation reference-of-thought, for ‘decentering’ the prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought in its ‘apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity — constitutedness and conjugated—apriorising/axiomatising/referencing—(of—
existentialising/contextualising/textualising-contiguity —constitutedness of ‘reference-of-thought’ with respect to the prospective registry-worldview/dimension institutionalisation of ‘reference-of-thought’ overall existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s—reference-of-thought—devolving-as-of-instantiative-context meaningfulness-and-teleology; (as ontology/ontological-veridicality/intrinsic-reality increasingly supersedes ‘prior-conventioning as social-aggregation-enabling’, wherein for instance scientific explanations psychologism (as of prospective apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising-contiguity —constitutedness) supersede mythical/supernatural/alchemy explanations psychologism (as of prior apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising-contiguity —constitutedness) as ‘prospective-conventioning as transcendental-enabling/sublimating/supererogatory—de-mentativity’; interestingly, highlighting how and why transcendence-and-sublimity/sublimation/supererogatory—de-mentativity for prospective institutionalisation is construed in transcendental-enabling/sublimating/supererogatory—de-mentativity terms as its strive for a prospective relative-ontological-completeness’s—reference-of-thought necessarily implies a more profound grasp of intrinsic-reality/ontological-veridicality with respect to the prior as uninstitutionalised-threshold prior relative-ontological-incompleteness—reference-of-thought revealing which by reflex adopts a social-aggregation-enabling disposition with respect to the prior-conventioning). In this respect, ultimately the full achievement of apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising-contiguity —constitutedness will involve fully expanding the sphere of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity, as of ‘intemporal-disposition knowledge constraining construct’, for thorough construal/conceptualisation of social reality which is
relatively highly prone to ‘apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness' and conjugated-apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness of reference-of-thought and thus resultant ‘presencing—absolutising-identitive-constitutedness’ as of social-aggregation-enabling, hence undermining relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity of the social. Ultimately, given the comprehensive and typical underlying proneness of human limited-mentation-capacity-deepening to apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness as its fundamental mentation deficiency at uninstitutionalised-threshold or as of ‘human temporal uninstitutionalised-threshold mental-disposition’ (which it tends to resolve by ‘presencing—absolutising-identitive-constitutedness’ when aware of defective apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness with respect to psychical-orientation, meaningfulness-and-teleology construal/conceptualisation, institutionalisation and its overall existential becoming, as so reflected in the succession of registry-worldviews/dimensions; notional–deprocrypticism by its very transcendental essence comprehensively comes into grips with the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness in positivism–procrypticism as it attains more than just ‘presencing—absolutising-identitive-constitutedness’ but an overall comprehensive apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness insight as of ontological-normalcy/postconvergence referentialism for superseding positivism–procrypticism. apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness as of
teleology of ‘human temporal uninstitutionalised-threshold mental-disposition’ (speaking of uninstitutionalised-threshold as ‘a mentation reflex as centered and postconverging-or-dialectical-thinking-apriorising-psychologism’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; and so, with no relevant need for attending to any ‘psychological complexes’ with respect to a representation as of an uninstitutionalised-threshold wrongly being construed as of institutionalisation (at the uninstitutionalised-threshold as being ‘a mentation reflex as centered and postconverging-or-dialectical-thinking-apriorising-psychologism’ instead of ‘a mentation reflex as decentered and in de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}’. The point of this statement is that when procrypticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence-{implicited-epistemic-veracity-of nonpresencing-<perspective–ontological-normalcy/postconvergence>}, the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrypticism meaningfulness-and-teleology will be represented as decentered and in de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} as the necessary/requisite backdrop for the construal of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ushering in notional–deprocrypticism as prospective institutionalisation. In this regard, we’ll certainly inherently relate to preceding successive uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}, though this will most probably be resisted with
respect to such a representation of our denaturing of positivistic meaningfulness as our prospective procrypticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-threshold by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in \( \text{de-mentation} \) (supererogatory–ontological–de-mentation–or-dialectical–de-mentation–stranding-or-attributive-dialectics)); while we can recognise successively the centered and postconverging-or-dialectical-thinking–apriorising-psychologism nature of base-institutionalisation, universalisation and positivism, though probably less so of notional–deprocrypticism institutionalisation as it points to the decentering and \( \text{de-mentation} \) (supererogatory–ontological–de-mentation–or-dialectical–de-mentation–stranding-or-attributive-dialectics) of our procrypticism uninstitutionalisation. Such institutionalisation and uninstitutionalised-threshold construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by the concepts of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness as of centering and postconverging-or-dialectical-thinking–apriorising-psychologism reference-of-thought implied with institutionalisations and apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness as of decentering and ontologically/preconverging-or-dementing–apriorising-psychologism reference-of-thought implied with uninstitutionalised-threshold; prompting the respective institutionalisation and uninstitutionalised-threshold psychologisms as of the apriorising/precedingness of existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought—devolving-as-of-instantiative-context reflecting this reality beyond and above our subpar <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{13} \textsuperscript{84} reference-of-thought in positivism–procrystalism from a notional–deprocrystalism perspective, just as we’ll recognise for instance that a \textsuperscript{104} universalisation–non-positivism/medievalism mental-disposition contending against positivism institutionalisation meaningfulness is actually acting out a subpar <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{13} \textsuperscript{84} reference-of-thought as of the apriorising/precedingness of existentialising/contextualising/textualising-contiguity\textsuperscript{13}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{88} -of- \textsuperscript{84} reference-of-thought\textsuperscript{13}–devolving-as-of-instantiative-context reflecting this reality beyond and above it from the positivism perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as decentered and in \textsuperscript{14} de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of an uninstitutionalised-threshold\textsuperscript{03} is hardly just one of ‘simplistic knowledge elucidation’ but rather an elucidation as of intellectual courage in bluntly asserting decentering and \textsuperscript{14} de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Intellectual courage as imbuing knowledge with organic profoundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is ‘no magical knowledge technicality’ for implying a more profound ontological-completeness-of-reference-of-thought over a relatively relative-ontological-incompleteness\textsuperscript{03}–of- reference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset\textsuperscript{44}–reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality
knowledge construct issue associated with transcendental-enabling/sublimating/supererogatory-de-mentativity rather than a conventioning sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is ‘altogether not a knowledge elucidation problem’ with respect to the implied representation of uninstitutionalised-threshold as decentered and in de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) but rather a ‘psychological complex issue’ of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in ‘psychologism terms as of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its more profound existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought–devolving-as-of-instantiative-context; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism reference-of-thought is not about the inherent knowledge implications to which the non-positivism/medievalism mindset/reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism (<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought foundation as new placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology) requisite knowledge or meaningfulness-and-teleology reference-of-thought. Such equally applies with respect to notional–deprocrypticism prospective institutionalisation
relative to our procrypticism uninstitutionalised-threshold. In other words, prospective institutionalisation as transcendence-and-sublimity/sublimation/supere~rogatory-de-mentativity is construed not in terms—as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic ontological-primemovers-totalitative-framework outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms—as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discreitional contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence-and-sublimity/sublimation/supere~rogatory-de-mentativity is grounded on such an underlying reference-of-thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discreitional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating ontological-primemovers-totalitative-framework outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology conjure up explanations/meaningfulness-and-teleology in terms—as-of-axiomatic-construct of its non-positivistic medieval alchemic or
non-positivistic animistic reference-of-thought psychologism; as it naïve to think that implied organic-knowledge as of prospective institutionalisation transcendence-and-sublimity/sublimation/superroratory-de-mentativity requiring its own reference-of-thought psychologism can simply be construed as ‘mechanical-knowledge’ while still upholding/keeping the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought psychologism, as the organic-knowledge rather points to ‘validating ontological-primemovers-totalitative-framework’ outcomes as its mechanical-knowledge aspect but further requires a development of the discrentional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the knowledge’, grounded rather on such a prospective institutionalisation psychologism as its ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology synopsisising-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding—oneness-of-ontology’, and not the prior/superseded/transcended uninstitutionalised-threshold psychologism. Such organic-knowledge gets institutionalised to an extent by the habituation as of circularity/recurrence/repetition/repeatability of the mechanical-knowledge implied reference-of-thought of meaningfulness-and-teleology as of crossgenerational psychoanalytic-unshackling involving <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiotic-drag towards the ultimate crossgenerational alignment to the prospective/transcending/superseding registry-worldview reference-of-thought, as a positivistic registry-worldview reference-of-thought. Interestingly, and so across all successive institutionalisations, what tends to be lost ‘the failure to register fully that the ‘intemporal-disposition projecting mental-disposition’ behind ontological-primemovers-totalitative-framework validating the institutionalisation of
‘mechanical-knowledge’ is rather the ‘vitality aspect’ of organic-knowledge and it is ‘not a passive dispensation’, just as well that the ‘temporal mental-dispositions’ superseded towards attaining the ‘mechanical-knowledge’ is ‘not simply a passive distraction’ with the insight that there is a contiguity as of temporal-to-intemporal mental-disposition relative to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across all the successive registry-worldviews as at all their uninstitutionalised-threshold tempor-individuations-as-shortness-of-register-of—meaningfulness-and-teleology are a drawback to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (by adherence to ‘<amplituding/formative> wooden-language—{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the— reference-of-thought— categorical-imperatives/axioms/registry-teleology } of prior/transcended/superseded registry-worldviews/dimensions’ inducing their successive threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to—’attendant—intradimensional’—prospectively—disontologising—preconverging/dementing apriorising-psychologism>, and critically so as across all registry-worldviews postlogism leads to a characteristic mental-disposition at their uninstitutionalised-threshold of deception—of-concurrently—false—presupposing/false—presuming/false—premising-of-narratives and the consequent derivation, due to induced ‘lack of constraining social universal-transparency ⟨transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness ⟩, to other temporal-dispositions as conjugated-postlogism, and so beyond-the-consciousness-awareness—teleology—<in-existential—extrication—as-of-existential—unthought> whether conscious or unconscious) while the intemporal-individuation-as-longness-of-register—meaningfulness-and-teleology ushers in transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (by it

The underlying idea is that an individuation in recurrent-utter-uninstitutionalisation notwithstanding its non-rules—apriorising/axiomatising/referencing—psychologism,-as-impulsive-or-accidented-or-random-mental-disposition (social-\(^{10}\)universally-transparent-and-implicitly-formulated direct-constraining-construct), wherein human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional~firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>—existentialism-form-factor still applies and if they project intemporally/longness-of-register-of—'meaningfulness-and-teleology\(^{100}\), is not necessarily utterly devoid of a basic sense of the-Good/understanding/knowledge-reification\(^8\)/ontological-

construct’ of ‘universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism’ as the new ‘mechanical-knowledge’ as well as implying the ‘complementing grander social—universally-non-transparent—thus—non-constraining—element of ontological-faith—notion—or—ontological-fideism—imbued—underdetermination—of—motif—and—apriorising/axiomatising/referencing—as—so—being—as—of—existential-reality’ construed as of intemporal—preservation—entropy—or—contiguity—or—ontological—preservation’, with both forming the new ‘organic-knowledge’. The ontological-contiguity—of—the—human—institutionalisation-process carries on this way right up to deprocrypticism, such that across the successive institutionalisations apart from the intemporal—threshold of the registry—worldview’s/dimension’s—reference—of—thought—for—social—functioning—and—accordance as explained above; with respect to temporal—thresholds of the registry—worldview’s/dimension’s—reference—of—thought—for—social—functioning—and—accordance, temporal mental-dispositions are rather in arrogation/usurpation relation with the determinant nature of ‘social—universally—transparent—and—implicitly—formulated direct—constraining—construct’ as ‘mechanical-knowledge’, and so as <amplituding/formative> wooden—language—(imbued—temporal—mere—form/virtualities/dereification /akrasiatic—drag/denatured/preconverging—or—dementing narratives—of—the—reference—of—thought—categorical—imperatives/axioms/registry—teleology ), while failing/not—upholding—<as—of—apriorising/axiomatising/referencing> the ‘complementing grander social—universally—non—transparent—thus—non—constraining—element of ontological—faith—notion—or—ontological—fideism—imbued—underdetermination—of—motif—and—apriorising/axiomatising/referencing—as—so—being—as—of—existential—reality’ which together with the ‘mechanical—knowledge’ make up the ‘organic—knowledge’, and so rather as of
intemporal/longness-of-register-of—meaningfulness-and-teleology is incomplete and rather speaks of ‘vague intellectual intemporal-romanticism’ and doesn’t fit with the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional~firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor as upheld by the mediocrity principle underlying a rational-realism perspective, and explains why articulating knowledge merely as ‘mechanical-knowledge’ is bound to lead to its distortion/perversion/misconstrual by the mere fact of human temporal/shortness-of-register-of—meaningfulness-and-teleology mental-disposition adhering rather to amplituding/formative wooden-language—imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry—teleology } implied by the mechanical-knowledge explaining the successive need for ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to overcome such distortion/perversion/misconstrual; as in fact despite such a vague idealism as intemporal-romanticism, implicitly where highly pressing we tend to be obliged to recognised this temporal-to-intemporal reality as implied in the way we go about developing many a social formal construct. Thus notional—deprocrypticism knowledge as overlapping the mechanical with the organic, as of the intemporal/longness-of-register-of—meaningfulness-and-teleology mental-disposition driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the mechanical-knowledge, is a further validation of the idea of notionalisation/notional-conception/amplituding of knowledge which emphasises in principle and beforehand/as-of-a-priori a deliberative consideration of this temporal-to-intemporal human
disposition in relating to mechanical-knowledge as of prospective possibilities for a better preempting of temporality\(^7\)/shortness and skewing towards the intemporal/longness-of-register-of meaningfulness-and-teleology\(^{10}\), and so as of organic-knowledge overlapping. Further, the reality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor means that human meaningfulness at all times is more of ‘a solipsistic transversality–<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ of human meaningfulness as of temporal-to-intemporal mental-dispositions transversality–<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ and ‘not a ‘solipsistic commonness of meaningfulness that wrongly implies no notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence> mental-dispositions’, as any commonness is ‘a commonness implied with respect to secondnaturing institutionalisation as of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction thresholds’, with the implication that there is no point acting and relating with knowledge as if it is about a solipsistic transformation into intemporal/longness but rather relating to it as a secondnaturing exercise of skewing (‘intemporality\(^5\)-asymmetric-subsumption-of-temporality\(^8\)’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity or deferential-formalisation-transference) with respect to the institutionalisation/intemporalisation process as virtue (a notion equally implied by many a prophesying metaphysico-theological construct as the intemporality\(^7\)/longness and transcendental projections as of their limited-mentation-
capacity in their own times in resolving the issues of human temporality*shortness in their
times). In which case while such intemporality/longness cannot be construed as of a social
commonness of reference-of-thought, it’s occurrence if it does occur can only be construed in

human emancipation, is one whose validity can only be countenance where it implies the
capacity of human pretence of intellectual-and-moral sublimation, and not the notion of

Supposed a notional~conflatedness or apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity)—conflatedness abstraction across all the registry-worldviews/dimensions on the basis of the referentialism technique of point-referencing (‘notional—deprocrypticism-or-as-from-recurrent-utter-uninstitutionalisation—to—deprocrypticism’) is undertaken with respect to establishing ‘reference-of-thought-as-to—preconverging/postconverging—de-mentating/structuring/paradigming—ontological-performance—<including-virtue-as-ontology> relative to social-stake-contention-or—confliction’, it will fundamentally be perceived sceptically by the respective uninstitutionalised-threshold as it ‘decenters and dments beforehand/as-of-a-priori’ as of their respective prior relative-ontological-incompleteness of reference-of-thought, so implied by their given social universal-transparency ⟨transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—⟩ in-relative-ontological-completeness as of existentialising/contextualising/textualising-contiguity’s—reifying/elucidating—of—prospective-relative-ontological-completeness of reference-of-thought—devolving—as-of-instantiative-context; that is, as ‘decentering and preconverging-or-dementing apriorising-psychologism beforehand/as-of-a-priori’ recurrent-utter-uninstitutionalisation given its non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive—or-accidented—or-randommental-disposition or as of its failing/not-upholding—<as-of-apriorising/axiomatising/referencing> rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism, as ‘decentering and preconverging—or—dementing apriorising-psychologism beforehand/as-of-a-priori’ base-institutionalisation—ununiversalisation as failing/not-upholding—<as-of-apriorising/axiomatising/referencing>

But then we know and can appreciate that all the prior registry-worldviews/dimensions were ‘decentered and preconverging-or-dementing–apriorising-psychologism beforehand/as-of-a-priori’ going by ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. This ‘anti-transcendence as anti-uninstitutionalised-threshold and anti-prospective institutionalisation mental-disposition’ of all ‘present-states’ of all registry-worldviews/dimensions is due to the fact of such ‘present-states’ desymmetrisation alignment overly-overemphasising the registry-worldview/dimension institutionalisation-facet in a corresponding relation with a dissymmetrical alignment over underemphasising its uninstitutionalised-threshold-facet, but with such representation becoming critically ontologically untenable at
the registry-worldview/dimension uninstitutionalised-threshold where meaningfulness-and-teleology breaks into threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation "as-to-‘attendant-intradimensional’-prospectively-

In other words, suprastructuralism (as of its referential and ontological-normalcy/postconvergence emanance perspective and as a doppler-thinking exercise) ushers in a whole new comprehensive registry-worldview across the entire social construction-of-meaning called deprocrypticism, much like positivism did over non-positivism/medievalism or universalisation over ununiversalisation or base-institutionalisation over tte-
overcoming the temporal-emanances-registries hotchpotching (amplituding/formative) wooden-language (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable—void <with-regards-to-prospective-apriorising-implications>) or banality-of-thought dynamism, and specifically in the extended-informality (susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology) even though it is very much present in the formal sphere as well) and the incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional—disjoinedness-as-of—reference-of-thought inherent in the positivistic mindset, thus the latter tends relatively to be weakly ontologically-contiguous with all the existential implications thereof, whether with regards to virtue construal or subject-matters issues. Further as with all transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, the transcendence-and-sublimity/sublimation/supererogatory—de-mentativity going from procrypticism, or the preconverging-or-dementing apriorising-psychologism (perversion-of-reference-of-thought—<as-preconvergingly-apriorising=axiomatising=referencing-in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation> as to preconverging-or-dementing apriorising-psychologism) of positivistic meaningfulness-and-teleology, to notional—deprocrypticism will involve a psychoanalytically preconverging-or-dementing apriorising-psychologism deconstruction/ontological-reconstituting—as-to-conflatedness of our present positivistic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology wherein this is presently postconverging-or-dialectical-thinking apriorising-psychologism—<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology wherein the notional—deprocrypticism mindset/reference-of-thought reflects/perspectivates the positivistic

So the notional–deprocrypticism institutionalisation (as a renewed existentialism/full-depth-of-existential-implications\textsuperscript{5} meaninglessness-and-teleology\textsuperscript{10} or memetic-refinement) ontologising involves an ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness\textsuperscript{12} as dialectical transformation, as-prospective\textsuperscript{13} reference-of-thought, of intradimensional-meaningfulness psychoanalytically as-preconverging-or-dementing\textsuperscript{10}–apriorising-psychologism of our present positivistic mindset/\textsuperscript{reference-of-thought at its uninstitutionalised-threshold\textsuperscript{10}. Even though as with all transcended registry-worldviews/dimensions such an implied veridical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{10} will probably sound unintelligible/existentially-suprastructural due to our positivistic illusion-of-the-present/epistemic-totalising\textsuperscript{3}~self-referencing-syncretising/present-consciousness/mirage; as the\textsuperscript{1} reference-of-thought, in articulating ontological-normalcy/postconvergence and the suprastructural nature of intrinsic-reality/ontological-veridicality, moves away from a positivistic registry-worldview registrying/dueness to a notional–deprocrypticism registry-worldview registrying/dueness with the corresponding de-mentation\textsuperscript{1} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) stranding the prospective/superseding/transcending registry-worldview/dimension transdimensional-meaningfulness–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as organic-comprehension-thinking and the prior/superseded/transcended registry-worldview/dimension

It should be noted that human uninstitutionalised-threshold refers to the point where a specific institutionalisation is failing/not-upholding<as-of-apriorising/axiomatising/referencing>intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by a formulaic adherence (lip-servicing) to reference-of-thought–categorical-imperatives/axioms/registry-

Noting as well that with regards to human mentation capacity, the successive institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>)} elicit successive circumspections (as recomposured-consciousness-awareness-teleology\textsuperscript{100}) in human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} capacity that are enablers of the associated institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>}: for base-institutionalisation the circumspection is one of contrastive uninstitutionalised-threshold\textsuperscript{103} –institutionalisation analytical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} capacity for upholding institutionalisation; with universalisation the circumspection involves contrastive ununiversalisation–and–universalisation analytical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} capacity for upholding universalisation; with positivism the circumspection involves contrastive non-positivism/medieval/alchemic–and–positivism/rational-empiricism analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} capacity for upholding positivism/rational-empiricism; and prospectively, for notional~deprocrypticism the circumspection will involve contrastive notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} capacity for upholding the intemporal-disposition as ontology. Critically, human analytical mentation capacity mainly disambiguates what-is-in-effect organic-comprehension-
thinking and threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>, respectively as the mental-devising-representation of postconverging-or-dialectical-thinking –apriorising-psychologism representation and preconverging-or-dementing –apriorising-psychologism representation. Equally, with regards to human mentation capacity, the effect of limited mentation capacity characterising a given registry-worldview/dimension or intradimensional level and its social-construct not only defines its inherent vices-and-impediments but such a social-construct further and critically structures and stifles the natural renewal of human emancipative dispositions. For instance, non-positivism/medievalism stifling inclinations to think outside of medieval mental-dispositiona and likewise with regards to our procrypticism. The bigger point of successive institutionalisations has to do overall with their specific emancipative registry-worldview/dimension framework as fertilising the cross-section of human practical and conceptual incidental issues and endeavours as well as the virtue constructs at the said registry-worldview/dimension. What is interesting with regards to an incidental study like psychopathy and social psychopathy with respect to the grander notional–deprocrypticism institutionalisation level within the treatment of the institutional-cumulation/institutional-recomposure ⟨as-to–historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>⟩ meta-conceptual frame is that it provides (besides being critically important to grasp by itself as a parasitising/co-opting phenomenon that can potentially arise in all human locales) the incidental and the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework backdrop and background that informs and deepens understanding of the overall meta-conceptual analysis of perversion-of–reference-of-thought <as-preconvergingly-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation issues (issues arising from the tempering or false implying of the apriorising-registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology and thus inducing a fundamental flaw with the reference-of-thought in the first place, and further at a second-order level in wrongly implying the existential veridicality of logical-dueness (thus making irrelevant the construing of soundness or unsoundness) of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-suprerogation), which in turn further enlighten the incidental analysis of psychopathy and social psychopath. Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation. It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity) as the fundamental notion is institutionalisation/intemoralisation entropy (intemoral-preservation contiguity; by a skewing device (‘intemporality’-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supreoratory-de-mentativity)/deferential-formalisation-transference of the averageness of human temporal-dispositions, with corresponding formalisation and internalisation as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, towards the supersedingness of the intemoral-disposition which is inherently ontological and syncs with intrinsic reality in its ontological-primemovers-totalitative-framework, and hence its supersedingness as it induces overall social virtue-as-of-ontology). Institutionalisation/intemoralisation entropy (intemoral-preservation-entropy-or-contiguity–or–ontological-preservation) involves: - recurrent-utter-uninstitutionalisation (initial state of ‘ perversion-of- reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >’ as ununiversalisation intemporally calls for universalisation), - universalisation institutionalisation/intemporalisation (whose ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology 00,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ‘perversion-of-’reference-of-thought<as-preconvergingly-

apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation is an endemic human mental defect/perversion disposition retrospectively to prospectively, and that this is ‘a lost cause’ due fundamentally to mediocrity principle of humans having in reality ‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective~ontological-normalcy/postconvergence>’ and not ‘universal intemporal-disposition’, and the construct of deprocryptic categorical-imperatives/axioms should be anticipatory and preemptive of ‘perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ perpetually at the ‘uninstitutionalised-threshold’. More like the modern notion of medicine doesn’t work on the idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease theory, but accepts that de-mentatively/structurally/paradigmatically bacteria, cancer, organ failure, etc. cause disease and that the virtue of medicine is about how to understand and preempt the above causations; likewise deprocryptic virtue operates on a realistic grasp of human subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections at uninstitutionalised-threshold and then strives to skew/deferential-formalisation-transference for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-preservation entropy/contiguity). We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s Things Fall Apart on how a community where a traditional registry-worldview with its sense of purpose had to deal with positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this case the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is by cultural diffusion rather than by internal philosophical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Basically, all transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity involve ‘a psychoanalytic-unshackling of this sort’. Counterintuitively, it should be understood that no transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rational because you rationalise by operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives but then the need for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity due to perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and the registry-worldview’s/dimension’s relative-ontological-incompleteness-induced-threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-attendant-intradimensional-prospectively-disontologising-preconverging/dementing-apriorising-psychologism’ is putting the soundness of registry-worldview/axiomatic construct/categorical-imperatives in question (as reference-of-thought-supersedes/precedes logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), so you rather have a reinvention as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the psychoanalytic-unshackling coming from its better grasp/ontological-primemovers-totalitative-framework of the world/intrinsic reality. Basically, we can say that human-emanant/becoming-transcendence is the first level of human invention (incremental inventions of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to liberate themselves before secondnaturng/institutionalising for the new possibilities for the species; noting that, this doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins… of the world, miraculously came up with positivism to supersede/precede/override/utter medievalism, as they
were of medieval stock but by philosophical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity could project beyond the limits of non-positivism/medievalism even were they were still imbued with remnants of the old like alchemic beliefs. Hence it is the transcendental process that is actually critical! Now what positive can come from psychopathy? From the intemporal perspective NONE. Besides specific social consequences of psychopathy as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath; by and large, ontologically and as reflected by the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology), the psychopath’s and other postlogic articulations have a nefarious effect, on social meaningfulness-and-teleology particularly in ‘spheres of extended-informality—susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness—to—meaningfulness-and-teleology’ of society in general and social institutions, as the postlogic perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—induces threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to—attendant-intradimensional—prospectively-disontologising—preconverging/dementing —apriorising—psychologism—> with many an interlocutor, and which by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect, undermines the sophistication/intricacy of thought involved with organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or-
meaningfulness-and-teleology requires prospective base-institutionalisation-ununiversalisation which as of its inherently-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism-state-in-relation-to-meaningfulness-and-teleology requires universalisation—non-positivism/medievalism which as of its inherently-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism-state-in-relation-to-meaningfulness-and-teleology requires positivism—proкрыpticism as of its inherently-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism-state-in-relation-to-meaningfulness-and-teleology, and prospectively positivism—proкрыpticism which as of its inherent disjointedness-as-of-reference-of-thought requires deproкрыpticism. And this memetic-reordering/psychoanalytic-unshackling process, is fundamentally about ‘the precedingness/supersedingness/ascendency/postconvergence of the entropy to preserve intemporality’ known as intemporal-preservation-entropy-or-contiguity—or-ontological-preservation, with the idea that reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation are as pertinent only as these preserve intemporality, and are collapsed/overridden by new reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation, when shown not to be preserving intemporality, as when of perversion-of-reference-of-thought—, as when of nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing—apriorising-psychologism with regards to the preceding reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. Further a registry-worldview/dimension that so misanalyses is not ‘shaped’ to review but rather syncretises/is-circular in its failing/not-
upholding-as-of-apriorising/axiomatising/referencing-reference-of-thought-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity- or-ontological-preservation rather than implying prospective ones for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of reference-of-thought denaturing and relative-ontological-incompleteness, and endemised/enculturated (with a temporal rationalising reasoning that actually validates the veridicality of a human notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective—ontological-normalcy/postconvergence as to shallow-supererogation—to—profound-supererogation that should not be confused with a secondnatured/institutionalised disposition in relation to virtue). This effectively forms the recomposured backdrop for prospective transcendentental construct of deprocrypticism, as the ‘ontologising organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) that reflects/perspectivates the protracted threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-attendant-intradimensional—prospectively-disontologising—preconverging/dementing—apriorising-psychologism’. But then, a psychopath can be so irrational that in temporal terms it might do a lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or even some other things but coming initially from a vice; as may be enabled by the psychopath’s faulty-mentation-procedure-deception-or-urge to attain an outcome). This dynamic element can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as the questions are not only how culpable is the psychopath but extend to who is temporally getting what from the psychopathic situation, what accounts and narratives should be believed, etc., thus requiring an utter and intemporally uncompromising ontological conceptualisation to
construct an ontological-primemovers-totalitative-framework science. That said, beyond just about such a present worldly take to societal issues, there is a bigger question of the universal implications on human civilisation of postlogism in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> and perversion-of—reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation behind human civilisation. It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do both with the nature of the psychopathic/postlogism mind contrasted to the nature of the ‘normal supplanting—conviction—as-to-profound-supererogation—of—attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism or prelogic mind’, which are antipodal as the normal mind is by reflex prelogic supplanting—conviction—as-to-profound-supererogation—of—attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism as to existentialising/contextualising/textualising-contiguity and by reflex will tend to see prelogic supplanting—conviction—as-to-profound-supererogation—of—attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism narratives while the psychopath is of postlogic compulsing—nonconviction/madeupness/bottomlining—(<decontextualising/de-existentialising—of—attendant-intradimensional—apriorising/axiomatising/referencing>-induced-disontologising’—of—the—‘attendant-intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant-ontological-contiguity>_in—shallow-supererogation—<disontologising-perverted-outcome-sought-precedes-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness>) (meaning-by-the-mere-illogical—

Straying into a basic elucidative anthropopsychology/the-anthropological-continuity (a novel hermeneutic/reprojecting/supererogating/zeroing approach to psychology); extrinsic-attribution is a fairly common social mental-disposition, at ‘uninstitutionalised-threshold\(^9\) as we are not inherently intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology\(^6\)) in our solipsistic projection but have the potential of temporal (shortness-of-register-of–meaningfulness-and-teleology\(^6\)) solipsistic/emant projections of postlogism\(^8\)-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of \(<\text{reference-of-thought–devolving ontological-performance}>\) \(<\text{<including-virtue-as-ontology>}>\). The mechanism of institutionalisation/intemporalisation and formalisation ensures that because of the positive-opportunism\(^7\) that the intemporal-disposition
(as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at 'socially-perceived-value as of social-stake-contention-or-confliction', it tends to skew (‘intemporality’-asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition to be inherently civilised to want to universally wish that everyone have to deal with a fair legal system, that anyway is to the credit of the institutionalisation/intemporalisation process, but that is a secondnatured/ internalised construct). This explains why there is no need to breach the scientific principle known as the ‘mediocrity principle’, (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a notional-firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective—ontological-normalcy/postconvergence> creature in its moral/virtuous-agency); to explain why society tends to improve/progress. Rather, the intemporal-disposition de-mentatively/structurally/paradigmatically brings more overall good and hence skews (‘intemporality’-asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) man in the medium to long perspective towards ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework’ (institutionalised, formalised and internalised). This elucidation is important because while internalisation might point to the social good it is important to understand that when dealing
with our solipsism at ‘uninstitutionalised-threshold’ we aren’t anymore intemporal (the-Good as longness-of-register-of—meaningfulness-and-teleology) than temporal (shortness-of-register-of—meaningfulness-and-teleology) going by the ‘mediocrity principle’, and the analysis should take account of this (by not just operating/processing logic but construing notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation with a (supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics) highlighting organic-comprehension-thinking (organicalism/intemporal-prioritisation-of—reference-of-thought—as-conflatedness—or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology) and the distracting threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to—attendant-intradimensional—prospectively-disontologising—preconverging/dementing apriorising-psychologism>. Why talk of ‘uninstitutionalised-threshold’? This is the underlying notion of ‘a grand theory of psychology’ that has been missing to turn psychology from a preconverging—de-mentating/structuring/paradigming of the human—presencing—absolutising-identitive-constitutedness social-vestedness/normativity—<discretely-implied-functionalism> as modern into a postconverging—de-mentating/structuring/paradigming across-and-of-all-times of nonpresencing—<perspective–ontological-normalcy/postconvergence>! Why? The foundation of a human psychological science should be fundamentally about ‘the contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-cumulation/institutional-recomposure—as-to—historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—epistemicity-relativism>) or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposuring from recurrent-utter-uninstitutionalisation, based-institutionalisation–ununiversalisation, universalisation–non-
positivism/medievalism, positivism–procripticism, and prospectively deprocripticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows for human-subpotency survival/existence/emanance/fulfilment/flourishing in existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression and assumes a fundamental referencing base in the study of the psyche (noting that by saying ‘notion’ is meant, the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation covers the concepts of temporal preservation (including subknowledging , mimicking)-to-intemporal preservation, just as the notion of good covers the concepts of good-to-bad). Correspondingly, this notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involves ‘mental candoring’ where mental-devising-representation syncs with intrinsic-reality and mental decandoring where mental-devising-representation is a wrong/flawed perverted representation of intrinsic-reality. If we have an anthropological continuity/anthropopsychology, then the continuity as entropy is the exercise of candoring as ‘straightness/soundness-or-ontological-good-faith/authenticity-reference-of-thought referencing/registering/decisioning or registry-teleology’ (being a functional representation of how an intemporalising registry-worldview/dimension perceives itself) and decandoring as ‘perverted/brazen-but-unsoundness-or-ontological-bad-faith/inauthenticity-reference-of-thought referencing/registering/decisioning or registry-teleology’ (being a functional representation of how a prospective intemporalising registry-worldview/dimension perceives the prior-and-‘preconverging-or-dementing–apriorising-psychologism registry-worldview/dimension); with this latter representation undermining the
normalcy/postconvergence>) for such a conceptualisation of anthropopsychology or ‘genuinely

highlights the vacuousness in all transcendental relations wherein the transcended is vacuous with respect to the transcending. Such vacuous transcendental manifestations involves dialectically (the transcended and transcending relation with regards to:) deductive narratives instances, life episodes, life schemes, general being/existential dispositions and the specific existentialism/full-existential-depth-implications involved with a registry-worldview/dimension; wherein temporal-dispositions present-consciousness (in their illusions-of-the-present) perpetually portray candor and straightness but on retrospection are shown to be decandored and oblongated which ontologically implies these are veridically of \([\text{de-mentation}]^{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)}\) as of preconverging-or-dementing\(^{(1)}\)–apriorising-psychologism-\(<\text{stranded-as-rightfully-oblengated/decandored-and-dialectically-or-contendingly-out-of-phase}>\) notwithstanding their wrongly projected postconverging-or-dialectical-thinking\(^{(2)}\)–apriorising-psychologism-\(<\text{stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase}>\). This is ontologically foundational (more like the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument grounding spirit of arithmetic cannot be undermined in any way possible and you then have the possibility of sound arithmetic thereafter). \(\text{de-mentation}^{(3)}\text{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)}\) prevents temporal-dispositions (in the articulation and re-articulation of narratives) by the ‘temporal-dispositions disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-articulated are of intemporal-disposition teleology\(^{(4)}\) hence wrongly implying candored and straightness, whereas these are in effect \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) iterating narratives of temporal-dispositions teleologies’; and so, by way of coring which involves accounting-for-temporal-dispositions-defect/preconverging-or-dementing\(^{(5)}\)–apriorising-psychologism (the-

This ensures in effect ‘the de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics),-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence’.

Ontology is an altogether coherent construct with no room for excepting from coherence, which then simply implies the superseding of any such pretence of an excepting. (For instance, we can be calculating the sum \((5 \times 5)+5-5\), and make the mistake to say \(5 \times 5 = 24\) but then overlook it and agree together that the answer should be \(24\) and go on to resolve the entire equation as \(24\). This type of non-ontological thinking (a non-ontological thinking is also known as a misanalysis or misthinking or misreasoning or mislogic or preconverging-or-dementing-apriorising-psychologism-stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase or amplituding/formative-epistemicity-totalising-self-referencing-syncrretising/circularity/interiorising/akrasiatic-drag or notional-discontiguity/epistemic-discontiguity-shallow-supererogation-of-mentally-aestheticised-preconverging/dementing –qualia-schema, as there is no veridical meaningfulness that exists out of ontology or isn’t in ontological-contiguity) is highly prevalent in the extended-informality-susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology of society as social-aggregation-enabling, the reason we strive to formalise whether in terms–as-of-axiomatic-construct of laws, institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition constructs cannot accommodate non-ontology since reality doesn’t adjust to man and it is man
that adjusts to reality. The \textit{de-mentation-} (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics),-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence implies that an interlocutor’s retrospectively demonstrable narratives miscuing and subsequent \textit{perversion-of-} reference-of-thought-\textit{as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation} speaks of the real nature of its present and prospective narratives as decandored and oblongated in effect ontologically but that by an illusion-of-the-present reflex as well as for the sake of functioning we tend to represent by default such miscuing and \textit{perversion-of-} reference-of-thought-\textit{as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation} meaning as straightness/candored (intemporal) which is not ontologically veridical; in which case the prospective transcended registry-worldview strands such meaningfulness as decandored/oblongated (subknowledging /mimicking) even if the mental-disposition of the transcended registry-worldview is in an illusion-of-the-present straightness/candoring mental-devising-representation of meaning. In other words, \textit{de-mentation-} (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) ensure an affixing of temporal-dispositions \textit{perversion-of-} reference-of-thought-\textit{as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation} teleologic orientations denaturing to the corresponding temporal \textit{perversion-of-} reference-of-thought-\textit{as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation} mindsets in their ontological-escalation/aetiologisation without letting for a disjunction/skipping into intemporal/straightness-of-mental-devising-representation disposition teleologic orientation,
and so, to the point of the temporal-dispositions collapsing/overriding (*postconverging-or-dialectical-thinking*—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) with the new prospective *reference-of-thought—categorical-imperatives/axioms/registry-teleology*, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the transcending registry-worldview/dimension. For instance, the mental-devising-representation of a non-positivism/medievalism mindset/*reference-of-thought* relating to say an accusation of sorcery by an intemporal positivistic mindset/*reference-of-thought* will not be limited to that particular instance but carries the ‘disambiguation of notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> as ontological-escalation/aetiologisation’ that speaks to metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation dispositions of that non-positivism/medievalism mindset/*reference-of-thought* by way of *de-mentation*(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) from the intemporal positivistic mindset, and upholding such the ‘disambiguation of notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> as ontological-escalation/aetiologisation’ for the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that collapses/overrides the non-positivism/medievalism mindset/*reference-of-thought* crossgenerationally (consider the diffusion of positivistic registry-worldview and its psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of non-positivistic registry-worldviews in the th and early 20th century). Stranding defines the ‘decandored registry-worldview/dimension dialectically—or-contendingly-out-of-phase/dialectically-primitive) mental-devising-representation’ such as the mental-devising-representation of recurrent-utter-
uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, and so, beyond the illusion-of-the-present/present-consciousness of all these successive registry-worldviews/dimensions which in their unamplituding/formative–epistemicity-totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present will tend to wrongly recover/syncretise to project straightness/candoring of mental-devising-representation as intemporality/longness rather than decandored/oblongated mental-devising-representation as temporality. Stranding is validated by the fact that transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation speaks of an ‘institutionalisation/intemporalisation constraint/secondnaturung’ and ‘not temporal-dispositions transformation into intemporal-disposition as dimensionality-of-sublimating’; and this idea is so foundational that it is beyond-and-supersedes/precedes/overrides/utters the consciousness-awareness-teleology of temporal-dispositions such that ‘they are not called upon in argumentation’, just as we are not consciously called upon to establish whether blood flows in our body, as it is a preceding/superseding truth that supersedes/precedes/overrides/utters our thinking or not of it! Thus de-mentation—(supererogatory–ontological–de-mentation–dialectical–de-mentation—stranding–attributive–dialectics) is rather intemporally/ontologically conceptualised for its validation and integration in the survival-and-flourishing imibued institutionalisation/intemporalisation percolation-channelling—in-deferential-formalisation-transference (formalisms and internalisations) mechanism with the implied ontological-primemovers-totalitative-framework and positive-opportunism as ontological entrapment, with no temporal-dispositions firstnature–or–intemporal-level-validation but rather
secondnatured-or-institutionalisation/intemporalisation-level-validation. At which point de-mentation- (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) articulates temporal-dispositions teleologies orientations as ‘subknowledging/mimicking/mental-persions/slantedness manifestations at that ‘uninstitutionalised-threshold’, i.e. the reference-of-thought– categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of temporal-dispositions undermining the very ‘intemporal-preservation-entropy’ supposedly they are supposed to uphold). constitutedness\(^1\) (based-on-the\(^3\) categorical-imperatives/axioms/registry-teleology\(^0\)) of-the-registry-worldview/dimension as absolutised) as to a registry-worldview/dimension in relative-ontological-incompleteness\(^0\) that is ontologically-deficient/preconverging-or-dementing\(^19\)–apriorising-psychologism as of its \(^8\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, in the first place; as teleology\(^0\) as such reflects human-subpotency sublimation-over-desublimation possibilities in existence as to underlying supposedly coherent ontological-commitment \(<\text{implied—self-assuredness-of-ontological-good-faith/authenticity } \sim \text{postconverging—de-mentating/structuring/paradigming } \sim \text{as-being-as-of-existential-reality}>\). Ontology being the intemporal-disposition, the exercise of ‘directing’ convincing as logical-processing/logical-operation to temporal-dispositions is inherently unwarranted and is rather of \(<\text{amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}>\) in preconverging-or-dementing –apriorising-psychologism\(<\text{stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase}>\) as it wrongly implies that temporal-dispositions perversion-of–reference-of-thought\(<\text{as-preconvergingly–apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}>\) of their dimension’s/registry worldview’s \(^4\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is of sound mental representation; rather what should be implied is the prospective intemporality\(^4\)/longness instead preserving prospective \(^5\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous \(^5\) meaningfulness-and-teleology\(^0\) towards the ‘institutionalisation/intemporalisation percolation-channelling–in-deferential-formalisation–
transference>’ as seconndnaturaing of the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. For instance, the positive (as to intemporal project) will not engage in a direct logical convincing with the non-positivistic/medieval mind as this just validates to the non-positivism/medievalism disposition that its non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation relation with meaningfulness-and-teleology is sound such that it goes on to operate/process logic by amplituding/formative–epistemicity–totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag non-positivism/medievalism meaningfulness-and-teleology, reference-of-thought–categorical-imperatives/axioms/registry-teleology. Rather the positivistic mindset/reference-of-thought will project the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivism (as rational-empiricism/positivising basis of reasoning) through positivism institutionalisation/intemporalisation percolation-channelling-in-deferential-formalisation-transference and highlighting, in the bigger scheme of things, the relative sublimating efficiency and positive-opportunism of a positivism-based rule of law, social organisation, polity, nation-building, etc. based on positivism axioms and which inherent effectiveness and supersedingness/transcendence breaks the non-positivism/medievalism mindset/reference-of-thought (which are not rational-empirical/positivising and tend to essences, alchemic-logic, sorcery constructs, etc.) with its defective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This takes an utterly impersonal form (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading
doesn’t allow reflexively. The ‘transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation complex-of-stranding’ refers to the counter-intuition from a registry-worldview/dimension perspective in not representing itself as stranded (decandored or oblongated or in threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to-attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism when it is demonstrated that it is perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as perversion-of-the-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and rather syncretises in operating those same reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation prospectively; while that same registry-worldview/dimension intuitively recognises that a prior/superseded registry-worldview/dimension mental-devising-representation as stranded is ontologically veridical as the prior/superseded registry-worldview/dimension subknowledges/mimics and self-reference-syncretises it’s reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold. The reason for the human ‘transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation complex-of-stranding’ is that a registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are fundamental and constitutive functional elements of its
existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation and hence the complex when \(<\text{amplituding/formative-epistemicity}>\text{totalising-self-referencing-syncretising/present-consciousness/illusion-of-the-present. But then, if such a complex is to stand, the transcendental exercise by which man left the cave-to-so-called-modern-man wouldn’t have happened, and any registry-worldview/dimension (retrospective, present, prospective) that fails its own \(<\text{supererogatory-ontological-de-mentativity-or-dialectical-de-mentativity—stranding-or-attributive-dialectics}>\) as to elucidation-and-superseding-of-its-perversion-of-reference-of-thought\(<\text{as-preconvergingly-apriorising/axiomatising/reference-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}>\) as to preconverging-or-dementing\(<\text{apriorising-psychologism to allow for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposing for transcendence-as-the-grander-possibility-for-human-survival-and-flourishing is obviously failing/not-upholding-as-of-apriorising/axiomatising/reference}>\) its ‘own homework’ for the bigger picture in the human species survival-and-flourishing scheme, notwithstanding it is at the backend of the institutional-cumulation/institutional-recomposure\(<\text{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing}<\text{perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’}>\) ontological-contiguity\(<\text{of-the-human-institutionalisation-process}>\) ! As an anthropopsychological disposition, rational-realism as notional-deprocripticism just like all successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in emphasising increasing realism counter-intuitively to a naïve temporal take is actually a ‘positive-minded/well-meaning disposition with respect to man/the-human-species’ with the idea that ‘it is better working with what intemporally/ontologically is (that is, the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework\(<\text{ontological-prime-movers-totalitative-framework}>\) to achieve the best intellectual-and-moral outcome for man’ than ‘working with what-one-wishes’ from a wrong
temporal/impression-driven construal’. The idea of understanding the ontology of human
temporal mental defect is not to ‘idle’ in a temporal circularity that defeats-and-debase the
grandor of a universal/intemporal projection but rather strives to better stir man towards the
intemporal-and-ontological as virtue, an exercise which while of ‘presencing—absolutising-
identitive-constitutedness consummated/forfeiting posture’ with regards to human
temporality/shortness wouldn’t however acquiesce to the naïve disconcertment that takes the
‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ of
intemporality/longness for temporal correctness towards which the intemporal-disposition is
definitely intransigent and uncompromising for effective intemporal-preservation-entropy-or-

The notion of the social-construct as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming is actually an aspirational ideal and reference for ‘human intemporal projection towards it’ but it isn’t ontologically veridical by the inherent solipsistic human nature due to a notional–firstnatedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>human reality, and thus the need for institutionalisation to skew (‘intemporal’-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) towards intemporality/intemporal-preservation as human secondnaturing. This elucidation is vital in pointing out that the teleology of rational-realism as notional–deprocrypticism (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting <amplituding/formative>disposedness-(as-to-orientation/value-construct/valuation–and–derived-parameterising) and <amplituding/formative>entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability))’ and so as to the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility ~(imbued-and-

human dispositions are not congruent, as thus the idea of ontological-congruence of the intemporal-disposition with temporal-dispositions will compromise intemporality\(^2\), and hence compromise ontology), but rather to aspire for a transversality-\(<\text{for-sublimating–existential-eventuating/denouement}>\text{–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’}\) of human intemporal-disposition with respect to temporal-dispositions (as this upholds and doesn’t compromise the ontological veridicality in intemporal-disposition projection as to the ontological reality of human notional–firstnaturedness—temporal-to-intemporal-dispositions-\(<\text{so-construed-as-from-perspective–ontological-normalcy/postconvergence}>\) at uninstitutionalised-threshold\(^{103}\). That is, knowledge-notionalisation involving grasping and understanding both the ignorances/desublimation/temporal-dispositions and ideals to better skew/deferential-formalisation-transference towards idealism as the fulsome ontology, and not failing/not-upholding-\(<\text{as-of-apriorising/axiomatising/referencing}>\) to understand or overlooking the ignorances/desublimation/temporal-dispositions as the temporal on the wrong basis that all that matters is the ideal as intemporal. Furthermore, temporal-dispositions tendency to pervert/dement/subknowledge-\(<\text{preconverging-or-dementing -as-if-of-sound-knowledge}>\) mimick-and-syncretise at uninstitutionalised-threshold\(^{103}\) with the dialectical consequence of the development of the successive registry-worldviews/dimensions (institutionalisations) validates the appropriateness of striving rather for transversality-\(<\text{for-sublimating–existential-eventuating/denouement}>\text{–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’}\) and not nested-congruence to uphold intemporality\(^2\), and hence a complete ontology. To put it in other terms, for instance, transversality-\(<\text{for-sublimating–existential-eventuating/denouement}>\text{–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’}\) of ‘keeping the faith’ only in the intrinsic operation of rules of arithmetic (transversality-\(<\text{for-sublimating–existential-eventuating/denouement}>\text{–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’}\).

transcended dimension like decandored, oblongated, dialectically-out-of-phasing/dialectically-

articulating meaningfulness within the dimension in need of transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity. For instance, a positive mind’s
articulation of defective meaningfulness in non-positivism/medievalism registry-
worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in
terms–as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful
purposefulness but rather to project a positivistic worldview’s transcendental meaningful
purposefulness. In that sense, actually for the social scientist and philosopher words like
dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the
ordinary and temporal connotations of stigmatising under a temporal extricatory
preconverging–de-mentating/structuring/paradigming. Rather, these are critical and actively
sought after notions that provide the ‘dialectical backdrop’ for enabling prospective
transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring. The idea is that these notions are
veridically dialectical notions that apply in all transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity unlike a simplistic ‘history fixating
conceptualisation’ will have. In other words, our non-positivism/medievalism ancestors’
possibility of being-represented/mental-devising-representation as dialectically-or-
contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive
construction of a superseding/transcendental registry-worldview/dimension that brought about
the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren
today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in
a notional-deprocripticism institutionalisation/intemporalisation with respect to procripticism. In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are ‘capacity-wise same’ as per notional-firstnaturedness—temporal-to-intemporal-dispositions<-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> going by a preconverging/postconverging–de-mentating/structuring/paradigming of mentation-capacity (shortness-of-register-of—meaningfulness-and-teleology→ to longness-of-register-of—meaningfulness-and-teleology) with respect to the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, but for the semblance of the superiority of latter registry-worldviews/dimensions which is nothing but the result of being at the backend of the institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>) process. Ontological-normalcy/postconvergence equally involves articulating the possibility for the supersedingness of the intemporal-disposition over temporal-dispositions as intemporalisation/institutionalisation, and so, involving ‘notional–firstnaturedness—temporal-to-intemporal-dispositions<-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> accountability’ beyond an ‘idle temporal-dispositions stigmatisation’. In that spirit, it can be reasoned that the intradimensional ‘ontological blindspot’ in human mental-devising-representation (wherein temporal perversion-of-reference-of-thought<-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > by miscuing, and in subsequent derivation of disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising of temporal-dispositions perversions/defects of postlogism-

In this regard, the hermeneutic/reprojecting/supererogating/zeroing exercise originates from an even more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this ‘rather relatively benign idiosyncrasy’ in this paper as the reader may come across and is the explanation for many of the author’s insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and creative insight that allows the hermeneutic/reprojecting/supererogating/zeroing design in a ‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’ analogical to a twisty puzzle cube exercise in order to infer and arrive at a profoundly explanatory hermeneutic/reprojecting/supererogating/zeroing insight extending to the possibility of a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibilities for transcendental institutionalisation/intemporalisation of notional~deprocrypticism (superseding the vices-and-impediments\(^{10}\) of, as well as human emancipation over, procrypticism). For instance and as stated before, such a statement and mental-disposition of the type Socrates or Rousseau by their relative asceticism as of nonextricatory-existential-preempting-of-existentital-unthought as compared to others of their statuses (conjugated as of various shades of temporal teleologically-degraded synopsising-depth of meaningfulness-and-teleology psychologism) in their respective social-setups from a non-transcendental as of its

circularity/interiorising/akrasiatic-drag is rather circularly impervious and will
not recognise any dissociation between such a mental-projection/psychologism prior relative-

prospective relative-ontological-completeness reference-of-thought of Socrates or
Rousseau in construing the grander notion of social aetiologising/ontological-escalation as of a
teleological-perspective (as of a teleologically-elevated intemporal synopsising-depth of
meaningfulness-and-teleology psychologism contrasted to such teleologically-degraded
shades-of-temporal synopsising-depth of meaningfulness-and-teleology). This elucidation
is important because an insightful storied-construct/ontologically-valid-narration with regards
to psychopathy and social psychopathy and the overall relative-ontological-incompleteness reference-of-thought as the underlying disjointedness-as-of reference-of-thought of
procrypticism relative to prospective ontological-completeness-of reference-of-thought as
notional–deprocrypticism will fundamentally be based on such contrastive mental-
projections/psychologisms as of non-transcendental as perspective and the primacy of transcendent perspective (inherently so because the state of
prospective relative-ontological-completeness reference-of-thought precedes and
supersedes the state of prior relative-ontological-incompleteness reference-of-thought by
tautological ontological-veridicality validated by the ontological-contiguity—of-the-human-

say non-positivism/medieval postlogism manifestation as notions-and-accusations-of-sorcery
will imply a ‘distractive-alignment-to’ reference-of-thought-technical point-of-departure-of-construal

Taken to the bigger registry-worldview/dimension or intradimensional level, this points to a registry-worldview/dimension derived-perversion state of temporal-dispositions at the present uninstitutionalised-threshold involving the subknowledging/mimicking-and-syncretising of the reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of positivistic meaningfulness known as procrypticism—or—disjointedness-as-of-reference-of-thought, calling prospectively for deprocrypticism. perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism process will not occur and be regenerative, as the circumventive/distractive-temporal-prioritisation-of-reference-of-thought mental-dispositions rather strives to arrive at an
equilibrium at the reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\), for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a registry-worldview/dimension whether these are intemporal-preservational or not, hence have little transcendental capacity. Going by an ‘ontologically contiguous comparison’ with reference to Arithmetic where a condition was to cause a character to resolve additionality as 1+3=5, 2+5=8, 5+6=12, etc., the ontological-veridicality/ontological-contiguity\(^{102}\) of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective) of additionality with regards to this character will always involve as of reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\) that subtracts 1 from the results of that character’s operations of additions (as the imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual principles of additionality (its traditional reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\) of simply summing directly) will be existentially rendered null and void in order to allow for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Now supposed such a framework (reference-of-thought) for resolving Arithmetic calculations now involves the contribution of 6 characters working in collaboration with each contributing their specific arithmetic principle role while taking cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-completeness-of-reference-of-thought, and so taking into account the prior mentioned character with its defect of additionality; wherein such a framework is BODMAS-based with character B working on brackets operations, character O working on order operations, character D working on division operations, character M working on multiplication operations, the priorly mentioned character A working on addition operations and character S working on subtraction operations, and so (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective) setup for resolving arithmetic calculations
(ontological-completeness-of-reference-of-thought setup). Naturally, the reference-of-thought-categorical-imperatives/axioms/registry-teleology\textsuperscript{00}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as the usual BODMAS Arithmetic rules) should apply but this is no longer existentially the case in this instance, where the equation is for instance $7(\sqrt{64}+3)-1-(6+4-2)+2$. Going by the natural arithmetic rules for BODMAS, the equation will be resolved first with the brackets, and within the brackets for the first brackets the order operation is first carried out, that is, $\sqrt{64}=8$ and then addition $8+3=11$, then subtraction $11-1=10$. For the second brackets, addition as $6+4=10$, then subtraction as $10-2=8$. The division operation then follows with the second brackets result as $8\div2=4$. Then the multiplication operation with the first brackets result as $7\times10=70$. Finally, comes the subtraction with $70-4=66$ as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence).

But then, in this particular case where character A (Addition) operation of additionality is perverted as stated above as a result of its condition, the equation will resolve as $\sqrt{64}=8$, $8+3=12$, $12-1=11$, for the first brackets, and $6+4=11$, $11-2=9$, for the second brackets. The division operation with the second brackets yields $9\div2=4.5$, and the multiplication operation with the first brackets yields $7\times11=77$. Finally, subtracting both brackets gives $77-4.5=72.5$ as the final result which is ontologically wrong (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective), and points to the fact that all the 6 BODMAS characters, not only A (Addition) the additionality defect character have failed ontological-veridicality/ontological-contiguity\textsuperscript{67} as of their relative-ontological-incompleteness\textsuperscript{00}-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to-

or-ontological-preservation are not by themselves the definitive basis for ontology/intrinsic-reality/existential-reality as these are only as pertinent as they are ontologically-veridical/ontologically-continuous/contextually-contiguous (in ontological-normalcy/postconvergence). This ontological state with respect to all the characters registries (not only A) is known as perversion-and-derived- perversion-of -reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-

{implicated-epistemic-veracity-of- nonpresencing—perspective—ontological-normalcy/postconvergence}/postdication. Hence the notion of ontological-normalcy/postconvergence and postdication construes intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as superseding/preceding over projected <amplituding/formative> wooden-language-{imbued—temporal—mere-

In which case the resolution for the Arithmetic equation (supposedly where A, Addition, is unamendable due to a condition), will involve the other characters taking cognisance of A’s (Addition’s) condition and adhere to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation over projected <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology } in affirming ontology/ontological-veridicality/intrinsic-reality (as the appropriateness-of-reference-of-thought-as-of-conflicatedness over A’s induced preconverging-or-dementing-reference/ perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >). Thus the new categorical-imperatives/axiom/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation deployed with respect to resolving calculations (ontological-completeness-of-reference-of-thought will integrate the notion that additionality requires subtracting 1 from its results as well as taking cognisance that other characters will be perverted in their operation if they do not take cognisance of A’s (Addition’s) condition and subtract 1 from it before their operation (whether unconsciously by ignorance, expediently by affordability, and consciously by opportunism/exacerbation/social-chainism-or-social-
discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). For instance, B (Brackets) is still in a position to articulate an ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional-projective-perspective) by factoring in all the defects as follows: by reverting all other characters operation up to the point they had to deal with A (Addition) and subtracting 1 from the results at these point before allowing the other characters operations, which then yields the right result. That is 77÷7=11 and 4.5×2=9 as reverting back, then 11-1=10 and 9-1=8 to factor in A’s (Addition’s) additionality defect to yield the results of the two brackets. Before then letting back the division and multiplication operations for both brackets respectively, giving 8÷2=4 and 7×10=70. Finally 70-4=66, giving the final result that is ontologically-veridical (in ontological-normalcy/postconvergence). So this approach is the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontologically-veridical/of-intrinsic-reality that B should be operating. In the bigger scheme of things, this explains institutional-cumulation/institutional-recomposurer{(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-less-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity- relativism’)}/memetic-reordering/psychoanalytic-reorientation with respect to an animal that is always bound to perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation ≥ as to preconverging-or-dementing–apriorising-psychologism by the very fundamental veridicality of its notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature. But then, this being an uninstitutionalised-threshold, B going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
circumventive/distractive-temporal-prioritisation-of-reference-of-thought and thus failing/not-upholding-as-of-apriorising/axiomatising/referencing-the possibility of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. That being the case, this doesn’t in any way undermine the intrinsic reality/ontological-veridicality-reference-of-thought (in ontological-normalcy/postconvergence) of the above equation as being equal to with the need for new requisite-as-of-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation-as-of-unsoundness-or-ontological-bad-faith/inauthenticity-reference-of-thought thus requiring-de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) of all such temporal-dispositions.

uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/inauthenticity nihilistic as of temporality, with corresponding formalisation and internalisation as values), thence defining the given temporal-dispositions of B aetiologisation/ontological-escalation to be accounted for from similar individuations in such situations as a registry-worldview/dimension problem, in order to ensure intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as ontology. In the bigger scheme of things, this calls for a prospective registry-worldview/dimension institutionalisation articulation that supersedes/overrides such a temporal dynamism of perversion-of-reference-of-thought-as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation dispositions at various social roles going from A’s condition, and the potential overlooking of the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation dispositions by all the other characters (B, O, D, M and S). Underlying such an intemporal orientation is the idea that fundamentally the conjugation of such an de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) and subsequent conjugation as with B above to the temporal-dispositions of a registry-worldview/dimension speaks fundamentally of the uninstitutionalised-threshold of that registry-worldview/dimension, reflected/perspectivated by the marginal perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation defect of its reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation with the prior registry-worldview/dimension now preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, with a prospective institutionalisation reference-of-thought—categorical-
imperatives/axioms/registry-teleology\textsuperscript{100}, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the new straightness/candored-and-dialectically-or-contendingly-in-phase. de-mentation\textsuperscript{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)} doesn’t confuse appropriateness of the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation for the prior institutionalisation as implying the prior mental-devising-representation is appropriate for prospective institutionalisation as it needs to undergo its own requisite ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to enable and regenerate intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This by itself explains why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing\textsuperscript{10}–apriorising-psychologism with respect to one another (from the prospective perspectives), and not that we are talking about different species of humans, as transcendentalism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is the foundational concept retrospectively, presently and prospectively; even though by the illusion-of-the-present/present-consciousness/epistemic-totalising\textsuperscript{32}–self-referencing-syncretising/mirage, all dimensions, and not only ours, tend to think of themselves as definitely mentally straight/candored-and-dialectically-or-contendingly-in-phase with no uninstitutionalised-threshold\textsuperscript{\textsuperscript{84}} which is obviously fallacious. The reason for this is that ‘postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity–of–reference-of-thought (as mental straightness/candored-and-dialectically-or-contendingly-in-phase) starts-and-ends/is-sound at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation where the reference-of-thought–categorical-
imperatives/axioms/registry-teleology\textsuperscript{100}, for intemporal-preservation-entropy/contiguity is in ontological-veridicality/ontological-contiguity\textsuperscript{97} of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional-projective-perspective). Where instead such reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is of notional-discontiguity/epistemic-discontiguity\textsuperscript{67}–<shallow-supererogation\textsuperscript{100}–of-mentally-aestheticised–preconverging/dementing–qualia-schema\textsuperscript{8}/non-ontological-and-non-contending-referencing–<thus-ontologically-or-contendingly-reflected-or-perspectivated-as-of-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism> (not-veridical-thinking-reference-rather-preconverging-or-dementing–reference), it is dementing\textsuperscript{10} (preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism–stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>). This is further compounded as of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, that is, as wrongful upholding and projecting postconverging-or-dialectical-thinking\textsuperscript{19}–apriorising-psychologism–stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> mental-devising-representation as so-manifested at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation while rather reflecting the uninstitutionalised-threshold\textsuperscript{03} that requires renewed mental-devising-representation, and this is not ontologically consistent and fundamentally undermines and overlook the idea of an insight about a prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity with the present registry-worldview/dimension corresponding to the superseded perversion-of–reference-of-thought–<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> registry-worldview/dimension. Thus but for the inherent difficulty of livng
and experiencing the effective personhoods-and-socialhood-formation existentialism across all
the registry-worldviews/dimensions, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘beyond any one registry-worldview/dimension meaningfulness’ like ours is perfectly possible in garnering a more profound and informed insight on human nature whether presently, retrospectively to prospectively. In the bigger scheme of things, just as logic can only be grounded on coherent and concrete reference-of-thought–categorical-imperatives/axioms/registry-teleology based articulations for its ontological effectiveness and veridicality, human ontological transcendental possibilities arise from human individuations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to renewed logical-basis/logic<-as-to—transversality<-for-sublimating—existential-eventuating/denouement>-of-affirmative-and-unaffirmative–disambiguated—‘motif-and-apriorising/axiomatising/referencing’<going beyond the reference-of-thought–categorical-imperatives/axioms/registry-teleology within just a given registry-worldview/dimension as if it were the absolute mental-devising-representation with respect to intrinsic-reality, and instead hold that transdimensional/transcendental (unlike ordinary meaning which reasons only on intradimensional reference-of-thought–categorical-imperatives/axioms/registry-teleology) is what brings us closer to absolute mental-devising-representation with respect to intrinsic-reality as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). Memetism as suprastructural-meaningfulness is able to do that because it can proxy ontological-normalcy/postconvergence in a dynamic dialectical juxtapositioning/doppler-thinking of ‘postconverging-or-dialectical-thinking—apriorising—

aestheticised-preconverging/dementing —qualia-schema—; thus transcendentally coming into grips with a shifting but more and more profound notion of reference-of-thought (in-phasing) and corresponding ontological-veridicality/ontological-contiguity as enabled by ontological-normalcy/postconvergence. The conceptual pertinence in this Arithmetic ontological-contiguity comparison can be rearticulated as follows for greater clarity. As previously highlighted the developmental psychology of the psychopath from childhood to adulthood, involves a child psychopath who is dysfunctional as its subknowling impulse/compulsive-dementing in hollow-constituting as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation is relatively transparent to interlocutors and it induces a ‘delirious effect’ given that it hasn’t yet maturated, is not yet indirect, is not yet spatialising, is not yet credulous and is not yet crafty in ‘its postlogism-compulsing—nonconviction/madeupness/bottomlining–(<decontextualising/de-existentialising—of-attendant-intradimensional—apriorising/axiomatising/referencing—induced-disontologising’—of-the—attendant-intradimensional—ontologising—imbued—<contextualising/existentialising—attendant—ontological-contiguity>—<disontologising-perverted-outcome—sought-precedes-existentially-veridical—’attendant-intradimensional—apriorising/axiomatising/referencing—’logical-dueness>); conditions which it increasingly attains from adolescence to adulthood with a corresponding inducing of the development of social psychopathy as its psychopathy conjugates/inflects/gets-mimicked with the temporal-dispositions of ignorance, unconsciously, and consciously with affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, in an absolving/fleeting/escaping-reflex—logic eliciting social psychopathy involving moving from various non-veridical/hollow sets-of-postlogic-in hollow-constituting as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-
backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> as absolving/fleeting/escaping-reflex–logic, to others and from different sets of interlocutors to others. It is obvious that A’s condition/subknowling-‘impulse/compulsive-dementing’ disposition as an adult psychopath isn’t systematic with every interlocutor but rather it arises only in the face of perceived–social-stake-contention-or-confliction-and-confliction-targets and furthermore the profoundness of the postlogism-‘slantedness manifestation is directly related to the gravity of the perceived–social-stake-contention-or-confliction the situation and how the ‘evolving social psychopathy situation permits’. Hence the notion of A having an absolute condition wherein it increments additionality by 1 is rather an absolute ideal conceptualisation, as in reality it is a question of degree and highly circumscribed with the adult psychopath who needs to have a postlogic-equilibrium that can be socially-functional-and-accordant, unlike the dysfunctional child psychopath. This comparison equally articulates the nature of uninstitutionalised-threshold. Consider B (together with the other BODMAS characters) in the instance where despite A’s conditions they were to stick to the registry-worldview’s/dimension’s institutionalisation thus effectively producing the wrong result .5 for the particular equation which is not intemporal preservational (not ontologically ontological-normalcy/postconvergence) and likewise for all other equation where A’s condition applies, we’ll then be talking about an uninstitutionalised-threshold. The implication is that the registry-worldview/dimension then loses its qualification as being intemporally-preservational, and the psychological tool that is then elicited (from a prospective and new reference-of-thought–categorical-imperatives/axioms/registry-teleology thus for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as articulated with the arithmetic technique that corrected the equation result from .5 to by adjusting for A’s condition which is now the reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing-
hardly pre-inclined to acquiesce to a preconverging-or-dementing–apriorising-psychologism mental-devising-representation of our perversion-of-reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > with respect to the denaturing of the reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness. This insights perfectly highlight that our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t has any end to itself but for such dialectical readjustments to ontological-veridicality as ‘postconverging-or-dialectical-thinking–apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity–of-reference-of-thought/candored-and-dialectically-or-contendingly-in-phase with regards to an intemporal-preservational registry-worldview/dimension institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and with superseded/transcended registry-worldviews/dimensions which are not intemporal-preservational at their uninstitutionalised-threshold as preconverging-or-dementing–apriorising-psychologism/oblongated/decandored-and-dialectically-or-contendingly-out-of-phase explaining the nature of mental-devising-representation of all institutional-cumulation/institutional-recomposure–as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism” whether from the perspective of a retrospect, our present or prospective point-of-reference. Another aspect highlighted by the Arithmetic equation comparison is with respect to the appropriateness and defects of meaningful references with respect to ontological-veridicality/intrinsic-reality. The comparison highlights 3 transversality–for-sublimating–existential-eventuating/denouement–of-

This subknowledging -impulse/compulsive-dementing disposition points out that the actual and given meaningfulness being subknowledged/pervertedly-represented is ontologically-veridical both registry-wise (soundness-or-ontological-good-faith/authenticity of reference-of-thought-wise) and logic-wise (the normal arithmetic operation of the BODMAS equation) as it is intemporally preservational and thus ontologically-veridical/reference-of-thought/ontological-contiguity. It is this pedestal that is the organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) pedestal, organic as it is both registry-wise (soundness-or-ontological-good-faith/authenticity of reference-of-thought-wise) and logic-wise striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. It is the superseding and intemporal pedestal for articulating ontological meaningfulness (intrinsic-attribution). The third pedestal as demonstrated involves the integrating and amplituding/formative–epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by temporal-dispositions both unconsciously (ignorance) and consciously (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) with A’s condition/sub-knowledging impulse as if it was ontologically veridical, and obviously leading to the wrong
result thus failing/not-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. In the case with B it involved resolving the Arithmetic equation as if A’s condition was appropriate resulting in .5 which is ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity’ rather than which is ontologically veridical. This is the threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation pedestal, as registry-wise it is not striving for intemporal-preservation-entropy—or-contiguity—or—ontological-preservation and so fundamentally its logical-contention is voided (as apriorising—registry precedes and defines logical pertinence), such that such a disposition that integrates subknowledging—or-mimicking-impulse/compulsive-dementing registry-worldview-wise/dimensional-wise speaks of the registry-worldview/dimension as in démentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—or-attributive-dialectics) at that uninstitutionalised-threshold. The fourth meaningful reference is actually a variance of the given organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology) pedestal which is registry-wise and logic-wise pertinent. It is about the intellectual and virtue driven aetiologisation/ontological-escalation (as per this paper aim and other studies) in grasping the human ontological implications and articulating the-Good/understanding/knowledge-reification/ontological-prime movers-totalitative-framework construct for the possibility of a conceptual insight and de-mentative/structural/paradigmatic resolution with regards to (at the registry-worldview/dimension or intradimensional level) procrypticism/the-reality-of-human-notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from—

Ontologically-speaking, a temporal naivety with regards to psychopath and its protraction as social psychopathy is that going by the dynamism of its faulty-mentation-procedure-deception-or-urge towards ‘extrinsic-attribution’ (the eliciting of the temporality/shortness of others is the sufficient basis for getting one’s way), is that the number of people ‘convinced’ by perverted extrinsic-attribution involving social-and-temporal-trading can have any bearing to the ontological-veridicality/intrinsic-reality in any way. While temporally-speaking, psychopathic situations often lead to a-country-of-the-blind-and-the-one-eye kind of scenario, wherein a thousand blinds may strive to convention out the one-eye, but then it wouldn’t still cut it, ontologically-speaking. (Certainly, it is equally and very possible that if such a one-eye isn’t beholden to a ‘sense of intemporality’ and it is rather temporally-inclined, it might equally take the easier route of reasoning in terms–as-of-axiomatic-construct of country-of-the-blind temporality/shortness whether with respect to temporally outdoing or undermining the phenomena by acting in a manner that is overall of a temporal/shortness-of-register-of–
meaningfulness-and-teleology nature. But that will still be temporality/shortness and the notion of an aetiologisation/ontological-escalation as of intemporality/longness will no more be better advanced. Further beyond and more than just with respect to one case of psychopathy but as of intellectual-and-moral-inequivalence/non-correspondence construing the universal human social phenomena of psychopathic postlogism and conjugated-postlogism across space and time together with the bigger insight of grasping human nature and the overall possibilities thereof. Insightfully, as well it won’t be surprising that such a universal projection will possibly meet with a more protracted-and-protracting psychopathy and social psychopathy manifestation going by overall human temporal-to-intemporal mental-disposition existential-form-factor as varied temporal-dispositions come into the frame and are elicited, just as an intemporal projection within a non-positivism/medievalism setup aspiring for a positivistic registry-worldview/dimension-level resolutive construal of their corresponding postlogism-compulsing–nonconviction/madeupness/bottomlining-

like notions-and-accusations-of-sorcery and which is not palliative to a given situation will equally elicit a social protractedness of the phenomenon as varied temporal-dispositions come into the frame and are equally elicited. But then that is an inevitability with respect to the more critical universal projection low-life purposefulness in both meaningful-frameworks). Rather this then points to the nature of postlogic-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation with temporal-dispositions; (unconsciously) ignorance and (consciously) other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Ontologically, it is then the subject of contention and aetiologisation/ontological-escalation of the organic-comprehension-thinking (organicism/intemporal-prioritisation-of-reference-of-thought–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal, both in apriorising–registry and registry-worldview terms as it is reflected/perspectivated as de-meritiation (supererogatory–ontological–de-mentativity-or-dialectical–de-mentativity—stranding-or-attributive-dialectics). The critical reason for this is that the intemporal-disposition is rather inclined to be utter about intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the complete and sufficient stand for knowledge and virtue with anything else being denaturing much in parallel as intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t accommodate human temporality, and so will not even entertain involving in anyway with social-and-temporal-trading exercise which is non-ontological (since it is fundamentally a perversion-and-derived-perversion-of-reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, and has nothing to do with issues of defect–of–logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance). This can further be elucidated analysing perversion-of-reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of a different nature in a superseded registry-worldview/dimension like non-positivism/medievalism registry-
worldview/dimension which should provide an even greater insight analysing from our present perspective, and we can then comparatively project this with respect to notional–deprocrypticism and procrypticism. For instance, accusations of witchcraft in non-positivism/medievalism societies are ontologically about subknowledge of perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as-of-unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought–apriorising-psychologism based on the fact that such societies didn’t develop and integrate notions of empirical and rational cause-and-effect positivistic ideas as reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (a mentation-capacity that further furthers the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as modern-day positivistic registry-worldview), as it universally informs the present positivistic worldview and thus the impossibility to sound intelligible in case such an accusation of witchcraft is made today. So structurally, the non-positivism/medievalism society is shaped-and-inclined to integrate and entertain phantasmagorical notions of someone being accused as a witch or sorcerer. We can garner a similar insight just as with the ‘disambiguation of notional-firstnaturedness—temporal-to-intemporal-dispositions—as-construed-as-from-perspective–ontological-normalcy/postconvergence’ as ontological-escalation/aetiologisation’ above, where supposed an intemporal mindset/reference-of-thought who is in a non-positivism/medievalism society was to be accused of witchcraft by someone inclined to accuse people of witchcraft (because of a pathological-condition/subknowledge-impulse/compulsive-dementing) and who obviously is wrong, as we know today that the notion of witchcraft is ontologically unsound and ridiculous as the ability to perform magic and the like by anyone cannot be demonstrated veridically. The disposition to accuse people of
witchcraft will be the subknowledging\textsuperscript{5}-impulse/compulsive-dementing\textsuperscript{9} pedestal. The disposition to entertain and further exploit such situations (as anthropologists perfectly understand the abhorrent role of such notions as witchcraft in the social-stake-contention-or-confliction of non-positivism/medievalism societies) in conjugation of temporal-dispositions that are \textsuperscript{104}universally-recurrent or \textsuperscript{105}universal across all times (postlogism\textsuperscript{12}-slantedness, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) is the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-'attendant-intradimensional’-prospectively-disontologising–preconverging/dementing \textsuperscript{–apriorising-psychologism} pedestal which is rather an extricatory preconverging–dementating/structuring/paradigming (of the situation, to fulfil temporal inclinations or distractive-temporal-prioritisaton and not intemporal preservation); given the lack of a social universal-transparency \langle transparency-of-totalising-entailing,-as-to-entailing-ampituding/formative–epistemicity>totalising~in-relative-ontological-completeness \rangle of the idea that the notion of witchcraft is bogus, with corresponding lack of perceived untenability/internal-contradiction/internal-incoherence/institutional-constraining of such a notion, thus a collective-consciousness that doesn’t register it as preconverging-or-dementing \textsuperscript{10}–apriorising-psychologism (as we do today) and finally, no ontological alienating reason for not believing, endemising and enculturating the phenomenon of witchcraft. The organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-\textsuperscript{84}reference-of-thought’–as-conflatedness -or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{10}) pedestal will rather be an inclination to see that the lack of empirical and rational \textsuperscript{5}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{00},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the non-positivism/medievalism registry-worldview/dimension is actually, in the bigger scheme
of things, what is at the basis of not only the ‘one locale accusation of witchcraft, specifically so with this individual but its general integration as a socially viable and entertained notion in this locale’. But more critically, from its intemporal/ontological/social/species/ universal/transcendental/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming to be intemporally-preservational, more than the notion of just attaining only to the ‘one-locale’ accusation of witchcraft, for the intemporal mindset/ reference-of-thought in organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) the problem is now the insight about the intellectually and morally wrong in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of accusation of witchcraft and the implications across all societies of the human species qualified as non-positivism/medievalism, with the bigger ontological implications of this specific accusation rather being how is this enlightening de-mentatively/structurally/paradigmatically about the endemisation and enculturation of vices-and-impediments associated with superstition in the said registry-worldview/dimension. That is, the problem is now about the aetiologisation/ontological-escalation that can be made to address such lack of positivistic empirical and rational notions in all possible human societies qualified as non-positivism/medievalism. In other words, the graver ‘de-mentation’ (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) problem’ for the organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology)/intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-
ontological-reprojecting pedestal is ‘why is society non-positivism/medievalism, and it is not in ‘mentation equivalence’ with a subknowledging\textsuperscript{19}-impulse/compulsive-dementing\textsuperscript{19} mindset/ reference-of-thought pedestal accusing it of witchcraft and the specific locale where such an accusation is made in threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation -\textless \textasciitilde\textasciitilde-as-to-\textasciitilde-\textasciitilde-attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologismly/\textsuperscript{19}temporal prioritisation pedestal that entertains notions of witchcraft (as the intemporal mindset/ reference-of-thought is thus anecdotally ‘boxing far below its weight’). Rather it is about articulating a comprehensive de-mentative/structural/paradigmatic dialecticism reasoning-through/utterion (not reasoning-with \textsuperscript{5}incrementalism-in-relative-ontological-incompleteness\textsuperscript{20}—enframed-conceptualisation with temporal-dispositions mindsets) between non-positivism/medievalism and positivism for prospective ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring away from the vices-and-impediments\textsuperscript{10} of a non-positivism/medievalism superstitious mental-disposition towards a prospective positivistic mental-disposition which is the virtue that is the ‘de-mentative/structural/paradigmatic resolution’ to the superseded registry-worldview/dimension not only superstitious specific vices-and-impediments\textsuperscript{10} but equally critical the overall de-mentative/structural/paradigmatic <amplituding/formative–epistemicity/causality-as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity such superstition to the creative emancipation of human meaningfulness and action. With this insight the ontological ‘terms of reasoning’ of the subknowledging\textsuperscript{19}-impulse/compulsive-dementing\textsuperscript{19} pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing–apriorising-psychologismly striving to establish whether the accused is involved in witchcraft; the ‘terms of reasoning’ of the threshold-of–

In other words, the temporal-dispositions are not logically-contending but ontologically or dialectically preconverging-or-dementing–apriorising-psychologism as they are rather the subject of contention and
or-dementing apriorising-psychologism of positivistic reference-of-thought categorical-imperatives/axioms/registry-teleology for-intemporal-preservation-entropy-or-contiguity or-ontological-preservation as knowledge-notionalisation and a corresponding de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics) ‘intemporal-prioritisation-of reference-of-thought’–as-conflicatedness or-ontological-reprojecting pedestalling to reflect/perspectivate the subknowledging impulse/compulsive dementing pedestal and the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-superrergation as-to ‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism pedestal from an organic-comprehension pedestal ‘ontological-reference of thought and meaningfulness’ for a superseding notional–deprocryptism institutionalisation as a universal/intemporal/ontological/intrinsic-attribution/longness-of-register-of-meaningfulness/human-species-level postconverging–dementating/structuring/paradigming across all space and all time (and not a temporal, extricatory, shortness-of-register-of–meaningfulness-and-teleology, individuals, extrinsic-attribution, incidental or incremental or ‘disjointedness-as-of reference-of-thought’ or temporal-accommodation preconverging–dementating/structuring/paradigming that endemises and enculturates procryptism) to induce the appropriate prospective crossgenerational ‘postconverging-or-dialectical-thinking psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This conceptual de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics) of (superseded registry/registry-worldview-or-dimension) mental-devising-representation as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase (preconverging-or-dementing apriorising-psychologism) and (superseding registry/registry-worldview-or-dimension) mental-devising-representation as
straightness/candored-and-dialectically-or-contendingly-in-phase (thinking) is critical in grasping the nature of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting with respect to circumventive/distractive-temporal-prioritisation-of-reference-of-thought as the former is ‘utter’ intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (and thus the requisite reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in order to arrive at intemporal-preservation is downright uncompromisable). Circumventive/distractive-temporal-prioritisation-of-reference-of-thought involves various shades of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation temporal-accommodation with institutionalisation being rather a secondnaturing to a given set of reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as per percolation-channelling<-in-deferential-formalisation-transference> and a positive-opportunism institutionalisation constraining. This is ‘no emanance transformation’ of temporal-dispositions into the intemporal-disposition; as such a notion can only be solipsistic to individuals beyond the possibility of institutionalisation secondnaturing (point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/induced-ring-of-gyges-effect/solipsistic—point-of-temporal-thresholding).

Thus at the uninstitutionalised-threshold, circumventive/distractive-temporal-prioritisation-of-reference-of-thought will very well do with an outcome (other than its inherent intemporal-projection) whether it is failing/not-upholding<-as-of-apriorising/axiomatising/referencing>intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, given its solipsistic disparate nature (noncontiguous/discrete hence of notional-discontiguity/epistemic-discontiguity<-shallow-supererogation-of-mentally-

That is, in the bigger scheme when it comes to deciding between ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic/notional–projective-perspective) and the human temporal psyche, what gives-in is the human temporal psyche (and so for the betterment of the species); that is, from an animal that was emanantly/becomingly/solipsistically successively of a mental-devising-representation perspective preconverging-or-dementing–apriorising-psychologism–stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase at recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and from a prospective articulation, procrypticism–or–disjointedness-as-of–reference-of-thought, and so respectively, for their successive institutionalisations mental-devising-representation perspectives as postconverging-or-

In other words, across all times the ‘limits of thought’ is not ‘the averageness/banality/temporalisation of thought’ but rather ‘the disposition to intemporalise and ontologise human thought’, and so whether from a sense of intrinsic-reality one mortal is rightfully saying that the world is round and by expediency a majority of mortals are saying it is flat. That is the singular construct that man cannot lose across all generations to enable the perpetual existential regeneration of civilisation beyond just being a secondnatured construct as mere-institutionalised-being-and-craft (which can often actually turn out to be alien to the intemporal-disposition apriorising–registry, that we can all potentially cultivate, that created, creates, and needs to keep creating the conditions for institutionalisation perpetuation)! It should be noted that the establishment of the reality of an apriorising/axiomatising/referencing–registry’s, or in the bigger picture, registry-worldview’s/dimension’s reference-of-thought, dialectical-out-of-phasing at an uninstitutionalised-threshold speaks of that apriorising–registry’s or registry-worldview’s/dimension’s reference-of-thought de-mentation-⟨supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩ preconverging-or-dementing<sup>19</sup>–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> (as it is ‘devoid of reference-of-thought and correspondingly ontological-veridicality/ontological-contiguity’ given its epistemic-decadence/psychopath or epistemic-decadence/psychopath’s-temporal-interlocutor, as perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation),

non-positivism/medievalism and prospectively procrypticism (preconverging-or-dementing apriorising-psychologism of positivistic meaningfulness), as from successive veridical reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing reference (ontological-veridicality/ontological-contiguity) as base-institutionalisation, universalisation, positivism and notional–deprocrypticism respectively which are mentally postconverging-or-dialectical-thinking apriorising-psychologism-as-stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase). 

(supercerogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as such redefines psychology as a postdicatory science (tying the mental-devising-representation process to the abstract and infallible ontological-normalcy/postconvergence ontological-veridicality referencing/correction-tool), that is memetically/meaningfully not limited to-and-within one dimension-or-registry-worldview/intradimensionally but by reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) pversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supercerogation, is transdimensional/transcendental in depth-of-meaningfulness as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). 

(supercerogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as such is construed at the individuation-level as of the circularity/recurrence/repetition/repeatability in delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_existentialising/contextualising/textualising-contiguity–reification_or_intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology. This involves maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as enabled by de-mentation.
in disambiguating the intemporal-disposition as ontological and temporal-dispositions at the individuation-level; while at the registry-worldview/dimension-level it reflects the determination of the relative registry-worldviews/dimensions as of relative-ontological-incompleteness of reference-of-thought and relative-ontological-completeness of reference-of-thought. The implication is that soundness-or-ontological-good-faith/authenticity of reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-normalcy/postconvergence). There is no doubt that if by some secret manner ‘some individuals from recurrent-utter-uninstitutionalisation registry-worldview/dimension’ were to appear and be able to live in our present positivistic social-setup (without us knowing beforehand that they are coming from the past to avoid inducing a confounding effect in our analysis), and intent on fully living based on the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the recurrent-utter-uninstitutionalisation setup, our current psychology science most probably will treat them as pathological (preconverging-or-dementing–apriorising-psychologism). At which point, implying the conceptualisation of such an ontological-mental-pathology or de-mentation (in contrast to a physiological mental pathology) is much more a question of ‘ontology valour’ (ontology valour being defined as a registry-worldview’s/dimension’s ontology depth in relation to its conventioning limitations with respect to pure-intemporal-ontology as to ontological-normalcy/postconvergence). But then, crazy as it may seem, this extends ontological-mental-pathology or de-mentation conceptualisation, on those very same terms of ontology valour, not only retrospectively but equally prospectively, as from a prospective transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity (with a corresponding insight about how we may be that preconverging-or-dementing apriorising-psychologism-stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase from such a prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’s reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (of course, that is, when occluding our illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage) herein construed as the prospective protensive-consciousness deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought registry-worldview/dimension. In the bigger picture, de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics effectively will seem to place human (recomposuring)-consciousness-awareness-teleology in the backseat with ontology-in-its-inherent-dialectical-abstraction taking the frontseat in the articulation of intrinsic reality and correspondingly human mental-devising-representation. Actually, registry-worldviews/dimensions are rather prospectively amplituding/formative wooden-language imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought categorical-imperatives/axioms/registry-teleology of their own specific evolving successive existentialisms (with their full-depths-of-existential-implications specific evolving preconverging—de-mentating/structuring/paradigming), and with specific evolving percolation-channelling—in-deferential-formalisation-transference for prospective ontologising and ontologising-transcendence-and-sublimity/sublimation/supererogatory—de-mentativity.

Fundamentally, without the possibility of de-mentativity-of-the-human-psyche-for-prospective-institutionalisation involving de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics, no registry-
worldview/dimension will be transcendable (hence de-mentable/as-to-a-threshold-of-lack-of-thinking) for prospective institutionalisation. As it is from de-mentation (literally ‘de-mentation’) that an unshackling/recomposuring/reordering/new-mentation of prospective intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is possible. This is because de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding—or-attributive-dialectics) as such allows for a ‘human mentation capacity renewal’ by transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (as it is by cumulation/reordering/recomposuring the prior institutionalisation mentation-capacity for a contiguous upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (as it is by cumulation/reordering/recomposuring the prior institutionalisation mentation-capacity for a contiguous upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that transcendence-and-sublimity/sublimation/supererogatory—de-mentativity occur) of the ‘veridical reference-of-thought of meaningfulness’ since it dents the mental-devising-representation of the old/retrospective/superseded/transcended registry-worldview/dimension ‘as not postconverging-or-dialectical-thinking—apriorising-psychologism/soundness-or-ontological-good-faith/authenticity—of—reference-of-thought but preconverging-or-dementing—apriorising-psychologism and dialectically-or-contendingly-out-of-phase at its uninstitutionalised-threshold and references the mental-devising-representation of the new/prospective/superseding/transcending registry-worldview/dimension as ‘effectively postconverging-or-dialectical-thinking—apriorising-psychologism/soundness-or-ontological-good-faith/authenticity—of—reference-of-thought as a new-and-greater-mentionation-capacity and dialectically-or-contendingly-in-phase; on the grounds that the veridicality of the reference-of-thought is what upholds ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. For instance, at its uninstitutionalised-threshold requiring a prospective positivistic registry-
worldview/dimension, the non-positivism/medievalism registry-worldview/dimension which is rather superstitious/alchemic/aristocratic is rather ontologically-preconverging-or-dementing\(^{19}\)–apriorising-psychologism/dialectically-preconverging-or-dementing \(^{-}\)–apriorising-psychologism in a \(^{11}\) de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} wherein its mental-devising-representation is preconverging-or-dementing\(^{10}\)–apriorising-psychologism as not thinking/unsoundness-or-ontological-bad-faith/inauthenticity \(-of\) reference-of-thought and dialectically-or-contendingly-out-of-phase while the positivistic registry-worldview/dimension mental-devising-representation is postconverging-or-dialectical-thinking\(^{20}\)–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity \(-of\) reference-of-thought and dialectically-or-contendingly-in-phase, thus ‘granting the latter \(^{8}\) reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing \(-reference\)’ over the former which is ‘no longer \(^{8}\) reference-of-thought’ in the sense that ‘we can’t think in medieval terms and be considered soundness-or-ontological-good-faith/authenticity \(-of\) reference-of-thought today but rather ontologically-preconverging-or-dementing\(^{1}\)–apriorising-psychologism’. This dialectical conceptualisation equally applies regarding procrypticism and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\) as of prospective notional–deprocrypticism registry-worldviews/dimensions. In fact, a deconstruction insight with regards to all the interchangeable deconstructing terms in reference to the notion of ‘failing/not-upholding\(-<as-of-apriorising/axiomatising/referencing>\) intradimensional \(-reference-of-thought–\) categorical-imperatives/axioms/registry-teleology\(^{10}\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ (i.e. \(^{14}\) de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}, \(^{75}\) perversion-of\(-\) reference-of-thought\(-<as-preconvergingly-apriorising/axiomatising/referencing-in-}

dimension (as straight/candored-and-dialectically-or-contendingly-in-phase) and a superseded/transcended registry/registry-worldview-or-dimension (as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); around which all other dynamic constructions fall in place (whether organic-comprehension-thinking or threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation ≈ as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing ≈ apriorising-psychologism, circumventive/distractive-temporal-prioritisation-of-reference-of-thought, subknowledging-impulse, etc.). The other deconstructing terms while having specific analytical bearings do not carry this all-encompassing quality that liberates from ‘intradimensional-subknowledging-normalcy’ (epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) as de-mentation\{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics\} does as it further induces ‘transdimensional or memetic thinking’ by its implied \{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics\} in meeting up with ‘ontological-normalcy/postconvergence’ (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). For instance, while the term registry-worldview’s/dimension’s-uninstitutionalised-threshold \{ontological-or-existential–defect\} brings to the mind a poor ontological disposition like the other BODMAS characters disposition to systematically operate additionality overlooking A’s condition, but it is a sense of \{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics\} that carries the intuition of an uninstitutionalised-threshold, and construes a superseding/transcending registry/registry-worldview-or-dimension and a superseded/transcended registry/registry-worldview-or-dimension, and all the implications thereof. Now analysing the registry-
institutionalisation), ununiversalisation (with respect to universalisation), non-positivism/medievalism (with respect to positivism) and our own dimension procrypticism’s (the-'preconverging-or-dementing—apriorising-psychologism of positivistic-meaningfulness) de-mentation—supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics (with respect to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism). A similar articulation can be made with regards to each of the other deconstructing terms where de-mentation—supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics provides the better overarching conceptualisation from an ‘intemporal-prioritisation-of—reference-of-thought—as-conflatedness-or-ontological-reprojecting reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference). Furthermore, by its de-mentation—supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics, de-mentation—supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics is the only notional term that operantly and deterministically projects the requisite psychoanalytic-unshackling/memetic-reordering/recomposuring/new-mentation with regards to the implied veridical existentialism/full-depth-of-existential-implications taking into account the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—ntional—firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence—existentialism-form-factor hotchpotching wherein sound knowledge/virtue is pliable to temporal denaturing and corresponding conjugation/derivation thus the need for knowledge-notionalisation as a response to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
(imbued—temporal—mere-form/virtualities/dereification /akrasiatie-drag/denatured/preconverging-or-dementing –narratives—of-the reference-of-thought—categorical-imperatives/axioms/registry-teleology) considered circumventive/distractive-temporal-prioritisation-of reference-of-thought over inherent ‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness or-ontological-reprojecting of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; at which point of uninstitutionalised-threshold, de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) is implied (in organic-comprehension-thinking over mechanical comprehension or as a de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics)) for a renewed/prospective mentation for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in ‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or-ontological-reprojecting that ‘supersedes deterministically and operantly, without any discretion allowed’, circumventive/distractive-temporal-prioritisation-of reference-of-thought. That is de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) is effectively the notion that, in recognition of the unchanging, preceding and inherent nature of intrinsic-reality with respect to the human psyche (and its mental-devising-representation of intrinsic reality) which is what ‘gives-in’/collapses ontologically/as-an-ontological-reference; enables, for the articulation of new mentations as transcendence-and-sUBLIMITY/sublimation/supererogatory—de-mentativity, the ‘giving-in’/collapsing of the mental-devising-representation of successive institutional-cumulation/institutional-recomposure—(as—to—historiality/ontological—eventfulness /ontological-aesthetic-tracing—<perspective—ontological—normaley/postconvergence-reflected—‘epistemicity-relativism’>) mindsets, notwithstanding the fact that the de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-
mentation—stranding-or-attributive-dialectics) (of their reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) is unintelligible/existentially-suprastructural to these superseded/transcended registry-worldviews/dimensions mindsets due to their totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage disposition. Supposed we were to make a profound analysis of our contiguous human mental-devising-representation/consciousness-awareness-teleology\textsuperscript{100} (in-dialectical/recomposing-moments) from the appearance of human beings on earth, the effective linkage as new-mentations between those successive recomposing moments (whether recurrent-utter-uninstitutionalisation, base-institutionalisation—ununiversalisation, universalisation—non-positivism-or-medievalism, positivism—procrystalism and prospectively perpetuation-of-deprocrystalism) is as de-mentation\textsuperscript{14} (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or—attributive-dialectics) in de-mentation\textsuperscript{14} (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or—attributive-dialectics); and this thus predicates or rather postdicates as well our own registry-worldview/dimension de-mentation\textsuperscript{14} (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or—attributive-dialectics) over and as denaturing\textsuperscript{15} positivistic meaningfulness reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (procrystalism) and implying a prospective need for deprocrystalism. Postdication, when alluding to an de-mentation\textsuperscript{14} (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or—attributive-dialectics) defining psychological science, will effectively hold that the conceptualisation of the social is very much a contiguous ontological disambiguation of a preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism social of personhoods-and-
socialhood-formation in existentialism/full-depth-of-existential-implications of notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence>, from a prospective registry-worldview’s/dimension’s reference-of-thought in ontological-normalcy/postconvergence. Postdication means reasoning from a basis of ontological-normalcy/postconvergence wherein the prior/transcended/superseded registry-worldview/dimension is no longer referenced/registered/decisioned (as reference-of-thought) but ‘dialectically preconverging-or-dementing—apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought’ while the prospective/transcending/superseding registry-worldview/dimension is referenced/registered/decisioned (as reference-of-thought) as ‘postconverging-or-dialectical-thinking—apriorising-psychologism/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’ in construing meaningfulness. The grander issue that always arises is in existentialism terms, whether with regards to an obvious human disposition for temporal-accommodation as circumventive/distractive-temporal-prioritisation-of-reference-of-thought of being-and-existence as conceptualised within the successions-of-existing-in-human-life-spans or rather an abstract eternal-projecting disposition of ‘intemporal-prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting wherein the articulation of meaning, being and existence is in existentialism-terms intemporally-driven on the basis that that which is in need of transcendence-and-the-intemporal (the temporal) cannot be seen-as-or-made-a-reference-of-intemporal/ontological-thought, and that it is exactly for that reason that human progress has been and will remain dialectically possible. That is, the reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) can only be the pedestalling of an ‘intemporal-prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting as ontology with regards to apriorising—registry, contrasted to a circumventive/distractive-temporal-prioritisation-of-
reference-of-thought-reference implying a perverted-registry reflected/perspectivated by its de-mentation (supererogatory ontological de-mentation-or-dialectical de-mentation—stranding-or-attributive-dialectics). Where the natural world is resolute with no compromise with the operation of such a notion as 1+1=2, the same cannot be resolutely affirmed in the human social-and-temporal-trading in the social world where on occasions 1+1 will add up to 5 where the effective constraining of institutionalisation is lacking. de-mentation (supererogatory ontological de-mentation-or-dialectical de-mentation—stranding-or-attributive-dialectics) (stranding) has the merits of articulating that for reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) to establish veridicality, no such social-and-temporal-trading is beyond ontological-entrapment ‘by re-institutionalisation with new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation dialectically implying an de-mentation (supererogatory ontological de-mentation-or-dialectical de-mentation—stranding-or-attributive-dialectics) of transcended reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation (in our present case, notional–deprocrypticism of procrypticism–or–disjointedness-as-of reference-of-thought, for a de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments of our registry-worldview/dimension and just as critically the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential; just as positivism is the de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments of non-positivism/medievalism together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential, and the same applies with ununiversalisation and universalisation, and recurrent-utter-uninstitutionalisation and base-institutionalisation); thus the potential to...
fully close the gap with regards to ontological-veridicality of the natural sciences in a ‘renewed maturation’ of the phenomenological ontological-performance conceptualisation of the social. Though with the weakness we must be able to rise up to, that ‘the social’ is existentially ‘emotionally involved’. But this can be and is effectively overcome by ‘appropriately universalising and detached meaningfulness by percolation-channelling-as-devised for all formalised and institutionalised settings capable of introducing, upholding and internalising the ascendency of many a social outlying thoughts and meaningfulness which from a ‘purely mobbish social disposition’ as may arise in the extended-informality-as-susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology would hardly be countenanced. The bigger picture here (and of relevance to a registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from procrypticism to notional-deprocrypticism as the de-mentative/structural/paradigmatic and general resolution of the vices-and-impediments together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential of the perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing—apriorising-psychologism of positivistic meaningfulness-and-teleology, and specifically resolution of the implications of psychopathic subknowledging / perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) may be to think, given our own illusion-of-the-present/present-consciousness-as-amplituding/formative—epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, that such an analysis applies only to prior institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness-ontological-aesthetic-tracing-<perspective-
ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>}. But the fact is that such a profound conceptualisation will have to come to terms with the reality of the implied existentialism/full-depth-of-existential-implications beyond our present sense of personhoods-and-socialhood-formation if it were to avoid platitudinising, becoming circular with dead-ends and lose its intemporal purpose and hence ontological purpose, and so for the simple reason that it is the human psyche that ‘gives-in’ with respect to intrinsic-reality as renewed/prospective ontological-veridicality, starting with that of the intellectual analyst/analysts itself/themselves); as the human psyche gave-in from recurrent-utter-uninstitutionalisation to base-institutionalisation, ununiversalisation to universalisation, non-positivism/medievalism to positivism, and where renewed/prospective ontological-veridicality does establish a new registry-worldview/dimension transcendental postconverging–de-mentating/structuring/paradigming shift as procrypticism to deprocrypticism, then the human psyche will equally have to give-in, and by the way all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity meet with some resistance or the other and thus a reason for transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–‘motif-and–apriorising/axiomatising/referencing’ reflex to preserve the precedingness/supersedingness/ascendency of intrinsic-reality in adverting social-and-temporal-trading of meaningfulness. Part and parcel, of human intellectualism beyond mere-institutionalised-being-and-craft, as has historically been implied in the case with many a great human mind, is to recognise that the social-construct is ‘not an ontological absolute’ but rather a ‘conventioning construct at the limits of human ontological capacity’ and that is ‘why it has got its defining issues and problems’ and further that ‘it progresses and transcends’, and the intellectual exercise goes beyond just reasoning within ambits of ‘temporally-and-socially-perceived-rightness-of-thinking’ to explore possibilities that might actually be ‘outright
unpalatable’ in the temporo-social sense but in the bigger picture as an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming are indispensable. With the idea that an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming that prolongs to intemporality/an-abstract-eternity while obviously of ‘less an immediate temporal existential sense of good to some humans’ is undoubtable of ‘an intemporal existential sense of good to all humans at all times’ by its percolation-channelling-<in-deferential-formalisation-transference> wherein for instance, the de-mentative/structural/paradigmatic effect of the law is allowing for civilisational living but its circumstantial construal and application may not be in tune with the temporal interests of many but for its institutionalising constraining. This contrast between humans appreciating intemporality/longness as potentially of universal import and at the same time disposed occasionally to advanced their temporality, is what warrants ‘a constraining institutionalisation’. In the same vain, one may ask what’s the temporal benefit to Rousseau or Galileo instead of striving for greater aristocratic privileges for themselves; for the one to rather carry the mantle from one royal court to the other of affirming the possibility of human emancipation (by which we are all percolatively benefiting from today) or the other the mantle of a principled engagement and possibility of science starting with an uncompromising supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism from observation that the earth is not at the centre of the solar system, by which a culture of science came to be established. And finally, how coherent are temporal meaningful frames built from such intemporal grand principles but lived on temporal dispositions in extrication in contradiction to such
philosophies, and what is the very relevance of such temporal enculturation and endemisation to present-day social and institutional failures in society? And what’s the role of ‘intellectual irresponsibility’ in all of this? From an intemporal hence ontological depth-of-meaningfulness, preceding/supersedingly, ‘limited-mentation-capacity’ (for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is the reason for human registry-worldview/dimension-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation-defect at uninstitutionalised-threshold; implying that ‘ontological-normalcy/postconvergence’ is actually for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation beyond the defective ‘intradimensional-subknowledgeing-normalcy or reflex-normalcy’ which is rather an<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (illusion-of-the-present/present-consciousness) inclination to overlook/aside the notion of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity at its own (limited-mentation-capacity-threshold) uninstitutionalised-threshold though it will obviously and paradoxically recognise the need of prior registry-worldviews/dimensions to transcend (just as by reflex from our perspective we will recognise such a need for base-institutionalisation over recurrent-utter-uninstitutionalisation, universalisation over ununiversalisation, positivism over non-positivism/medievalism but hardly prospectively the notion that our dimension has an uninstitutionalised-threshold like procrpticism–or–disjointedness-as-of-reference-of-thought with the need for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as deprocrpticism). However, as previously indicated such an insight can only be garnered, beyond our illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage as all
registry-worldviews/dimensions wrongfully imply, given that ‘doppler-thinking’ wherein our registry-worldview/dimension isn’t the absolute reference of meaningfulness (which is rather an intradimensional-subknowledging -normalcy in lieu of the ‘ontological-normalcy/postconvergence’ as that which allows for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). It is this ‘ontological-normalcy/postconvergence’ that reflects/perspectivates perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > defect as de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) as against the defective reflex-normalcy/intradimensional subknowledging -normalcy that wrongfully represent it as straightness/candored-and-dialectically-or-contendingly-in-phase. Thus the general notion of an intemporal/ontological resolution of perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > is more than just the instigating effect of the subknowledging -impulse/compulsive-dementing (psychopathic postlogism in hollow-constituting-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) but harkens back to the notion of the intraregistry-worldview/dimension limited-mentation-capacity/uninstitutionalised-threshold in the very first place. As this is the preconverging–dementating/structuring/paradigming disposition for the possibility of perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > thus requiring ontological-normalcy/postconvergence epistemic-projection as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. For instance, such perversion-of-reference-of-thought-<as-preconvergingly-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation as witchcraft in the non-positivism/medievalism registry-worldview/dimension is fundamentally implying de-mentatively/structurally/paradigmatically a need for the right human mentation-capacity as the prospective transcendence-and-sublimity/sublimation/supererogation/de-mentativity of a positivistic registry-worldview/dimension, and likewise de-mentatively/structurally/paradigmatically regarding procrypticism–or–disjointedness-as-of-reference-of-thought with notional–deprocrypticism (as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework and not good-natured/vague-impress construct). Ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, beyond defective intradimensional-subknowledging-normalcy/reflex-normalcy, points to factoring in notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation as ‘knowledge-notionalisation’ to avoid wrongfully operating/processing of logic by the reference of the intemporal-disposition reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontological (as it is in sync with intrinsic-reality/veridicality), where dealing effectively rather with temporal-dispositions. Knowledge-notionalisation factors in how temporal-dispositions relate to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (intradimensional-subknowledging-normalcy/reflex-normalcy) and at institutionalised/intemporalised-thresholds (ontological-normalcy/postconvergence). It should be noted that the peculiarity for achieving all the institutional-cumulation/institutional-
recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>} is about bringing the prior registry-worldview/dimension perversion-of-‘reference-of-thought’<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> to its placeholder-setup/mental-devising-representation/mentation/(recomposured)-consciousness-awareness-teleology\[0\] awareness for the collective-mind to psychoanalytically-unshackle/memetically-reorder/institutionally-recomposure, and thus take-stock-and-supersede/transcend its limited-mentation-capacity-deepening\[\] -threshold (uninstitutionalised-threshold\[\]). This is brought to the collective-consciousness so that with regards to social-stake-contention-or-confliction-and-confliction it renews its psychoanalytic-equilibrium, as the latest ‘capacity boost’ with respect to what is the grander individual-and-social good as positive-opportunism\[76\]. For instance, achieving base-institutionalisation requires that it should be brought to the collective-consciousness that it is ‘perilous to survival-and-flourishing’ to remain recurrently-uninstitutionalised for the grander individual-and-social good as positive-opportunism\[\]. Once this enters the collective-consciousness this leads to an inclination for a renewed psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring wherein recurrent-utter-uninstitutionalisation registry-worldview then becomes preconverging-or-dementing\[10\]–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, as it is recurrently-uninstitutionalised, as the backdrop for the straightness/candoring-and-dialectically-in-phasing of base-institutionalisation registry-worldview. This is relatively direct by the existential implications to survival-and-flourishing with the lower institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’}> of base-institutionalisation,
universalisation and positivism. For deprocrypticism, an even stronger emphasis has to be placed on the abstract percolation-channelling-<in-deferential-formalisation-transference> as setup from positive-opportunism for survival-and-flourishing, just as with the positivistic registry-worldview which as well is relatively deferential with percolation-channelling-<in-deferential-formalisation-transference> (undermining <ampli})

In other words, higher institutionalisations imply greater ‘deferential-formalisation-transference’ wherein the ambi}

For instance, many a subject matter domain like meaning about the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially in deference to abstract intemporal-disposition teleological conceptualisation voiding social temporal-dispositions teleological dispositions. The reason is simple formal settings use the

The idea is not to assume an idling-temporal-disposition of stigmatising intradimensionally but rather an intemporal/ontological disposition (longness-of-register-of\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100}) that works with ‘what is as it is’, and bring this reality to the collective-consciousness for the requisite ‘postconverging-or-dialectical-thinking\textsuperscript{20}—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of\textsuperscript{100} meaningfulness-and-teleology\textsuperscript{100} as of prospective notional~deprocrypticism (wherein procrypticism is preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, as it subknowledges-or-mimics/perverts-the-registry-of positivistic meaningfulness\textsuperscript{84} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). The idea of limited-mentation-capacity-deepening\textsuperscript{53} (for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) fundamentally implies that \textsuperscript{8} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are limited at the uninstitutionalised-threshold\textsuperscript{103} of the specific registry-worldview’s/dimension’s institutionalisation they enable, and are not absolute with respect to the perpetuation of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-

To further elucidate, let’s explore again the Arithmetic ontological-
contiguity comparison highlighted previously wherein character A had a condition whereby its results of additionality were systematically incremented by 1, its’s subknowledging
impulse/compulsive-dementing\textsuperscript{19} highlighting an uninstitutionalised-threshold\textsuperscript{103} where the other characters wrongly calculated the result (the ontological-veridicality) failing/not-upholding-\textless as-of-apriorising/axiomatising/referencing\textgreater ontological-normalcy/postconvergence as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation implied by ontological-faith-notion-or-ontological-fideism\textemdash imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, as actually intemporal-preservation-entropy-or-contiguity–or–ontological-preservation supersedes the mere–\textless categorical-imperatives/axioms/registry-teleology\textsuperscript{190}\textgreater for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the latter’s pertinence is rather about and subsumed as a mentation capacity to uphold the former. The bigger issue with regards to all the BODMAS characters is with respect to the limits of their \textless reference-of-thought\textgreater categorical-imperatives/axioms/registry-teleology\textsuperscript{190}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which are readily predisposed to such \textless perversion-of\textgreater reference-of-thought\textless as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textgreater and subknowledging\textsuperscript{19}-impulse/compulsive-dementing\textsuperscript{19} whether by character A or any other character rather than just the fact that the condition (psychopathic postlogism in hollow-constituting\textless as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation\textgreater for instance) is the causative factor of their failure to in ontological-normalcy/postconvergence ensure intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In any case the de-mentative/structural/paradigmatic resolution is with regards to the implications of metaphorically-a-million-and-one-instances-and-locales of \textless perversion-of\textgreater reference-of-thought\textless as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textgreater in the given registry-worldview/dimension as an aetiologisation/ontological-
escalation (as notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence individuations predictable and determinable teleologies). That is, fundamentally the appropriate conceptualisation of reference-of-thought-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is structurally-speaking about perpetually ensuring intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the superseding/preceding notion (i.e. ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). In this regard, we may easily construe the fundamental defects-of-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as these enable perversion-of reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein successive institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’ are analogical to various defective instances in operating the BODMAS equation. That is, while the condition/subknowledging-impulse/compulsive-dementing with A’s additionality results are wrongly incremented by 1, leading to the uninstitutionalised-threshold to be rightfully corrected with new reference-of-thought-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involving subtracting 1; the defect of a second registry-worldview/dimension may involve subtracting 1 from the result of S as a condition/subknowledging-impulse/compulsive-dementing of S, requiring similarly new reference-of-thought-categorical-
imperatives/axioms/registry-teleology\textsuperscript{100}, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation correction of the BODMAS characters as with the first registry-worldview/dimension to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Likewise, a third and fourth registry-worldview/dimensions defects could involve respectively a subknowledging \textsuperscript{-}impulse/compulsive-dementing\textsuperscript{19} condition of M wherein the latter wrongly adds 1 to a multiplier before multiplying and a subknowledging\textsuperscript{-}impulse/compulsive-dementing\textsuperscript{19} condition of D wherein D wrongly subtract 1 to a divisor before dividing, with these two latter registry-worldviews/dimensions equally requiring similarly new \textsuperscript{84} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation adjustment of the BODMAS characters as with the first and second registry-worldviews/dimensions to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Ultimately, a notional–deprocrypticism construal of the institutionalisation/intemporalisation process aiming to perpetually sync \textsuperscript{1} reference-of-thought– categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ontological-normalcy/postconvergence, is one that will bring to the mental-devising-representation, the BODMAS characters potential temporal-dispositions to \textsuperscript{75} perversion-of– reference-of-thought\textsuperscript{11}\textsuperscript{-as-preconvergingly-apriorising/axiomatising/referencing-in
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and subknowledging\textsuperscript{-}impulse/compulsive-dementing\textsuperscript{19} with the resultant integration unconsciously (ignorance) and consciously (other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) inducing the various uninstitutionalised-threshold \textsuperscript{03}, for a suprastructural resolution to human \textsuperscript{75} perversion-of-
psychology as about understanding human mental-devising-representation and the implications thereof. Central to this ‘de-mentation’ process is a dialectical exercise of stranding; either as mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase to imply a superseded/transcended/unsound registry-or-registry-worldview/dimension or as mentally straight/candored-and-dialectically-or-contendingly-in-phase to imply a superseding/transcending/sound registry-or-registry-worldview.

‘de-mentation’ further implies that instead of a ‘conventioning influenced and driven’ more or less notational study of human psychological phenomena as is the case today; we can ‘think’ of psychology in terms of of registry-worldview/dimensions successive existentialisms/full-depths-of-existent-implications transdimensional-meaningfulness/memetic-refinements as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting-as-to-conflatedness as dialectical transformation as-prospective reference-of-thought (‘de-mentation’ with respect to either mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase representation or mentally straight/candored-and-dialectically-or-contendingly-in-phase representation) as ‘directed’ simply by demonstrable ontological-veracity/ontological-relevance/reference-of-thought of transdimensional-meaningfulness–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument; leading to a psychological science which is more comprehensive, timeless and unbounded by its
conceptualisation as it emphasises psychological-representation/mental-devising-representation as more ‘ontologically-driven/ontologised’ rather than ‘conventionally-driven/conventionalised’. In so doing, overriding and superseding the analyst illusion-of-the-present/epistemic-totalising~self-referencing-syncretising/present-consciousness/mirage referring to the instance where the personhood-and-socialhood-formation intradimensional conventioning induces an ‘analytical-complex’ with respect to an ontologically veridical psychological-representation or mental-devising-representation. As implied psychological-representation/mental-devising-representation is then fundamentally determined by the depth/profundness-of-ontological-veracity/depth/profundness-of-ontological-reference of a given registry registry-worldview-or-dimension as it upholds ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) over reflex-normalcy or intradimensional-subknowledging-normalcy. Ontological-normalcy/postconvergence appropriately points to the pertinence for ontological construal as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_existentialising/contextualising/textualising-contiguity—reification— or—intrinsic-reality—ontological-coherence_or_superseding—oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for an appropriate de-mention—(supererogatory—ontological—de-mention—or-dialectical—de-mention—stranding-or-attributive-dialectics) exercise wherein the reference-of-thought (‘intemporal-prioritisation-of-reference-of-thought’—as-conflatedness—or-ontological-reprojecting) is always a moving target (due to the institutionalisation/intemporalisation process) in need for prospective dialectical reconstitution (deconstruction), which then puts a science of psychology in phase

This explains why this memetism/transdimensional-meaningfulness suprastructural-meaningfulness psychology is a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as it is driven/led by a reference to dialectical/ontological-veridicality (ontological-normalcy/postconvergence in successive ontological-normalcy/postconvergence/postdicatory ontological-reconstituting–as-to-conflatedness⁴/deconstruction of dialectical existentialisms/full-depths-of-existential-implications as ⁴ reference-of-thought, rather than intradimensional-subknowledging⁴-normalcy or reflex-normalcy) for ⁴ de-mentation⟩ (supererogatory–ontological–de-mentation–or-dialectical–de-mentation—stranding-or-attributive-dialectics) of ⁴ reference-of-thought’

This ‘postconverging-or-dialectical-thinking\(^{20}\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is the foundation of a pure, emancipated and disinhibited psychology (both registry-and-registry-worldview-wise) as such a psychology is grounded exclusively on ontologically demonstrable references of the veridicality of registries and registry-worldviews successive existentialisms/full-depths-of-existential-implications, and the corresponding ontological veracities implied. Such a ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ contrasts with a ‘mented’ or ‘stigmatic’ psychology of weak memetism/transdimensional-meaningfulness/suprastructural-meaningfulness \(^{84}\)reference-of-thought for the simple reason that it is not founded on a pure dialecticism of ontological/dialectical-referencing but rather on intradimensional conventionalised referencing which wrongly hardly proxies the veridicality of ontological-normalcy/postconvergence or construe a dialectical-reference/ontological-reference for ‘de-mentation’\(^{14}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of \(^{14}\)reference-of-thought’ of psychological-representation/mental-devising-representation at uninstitutionalised-threshold\(^{105}\). dialectically-or-contendingly-out-of-phase> for the conventioning–superseded/transcended/unsound registry/registry-worldview-or-dimension, and postconverging-or-dialectical-thinking—apriorising-psychologism—stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> for the conventioning–superseding/transcending/sound registry/registry-worldview-or-dimension. This will explain in many ways the more or less fitful development of modern-day psychology, more or less ‘uncertain of the ontological/dialectical pertinence of temporal-as-out-of-phasing-representation’ (in reflecting preconverging-or-dementing—apriorising-psychologism) thus undermining its ontological-referencing veracity/ontological-pertinence with respect to an ‘de-mentation—supererogatory—ontological—de-mentation—dialectical—de-mentation—stranding—or-attributive-dialectics’ of ‘reference-of-thought’ exercise of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements in ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-to-conflatedness—as dialectical transformation as-prospective ‘reference-of-thought’. A dialectical ontological-reconstituting—as-to-conflatedness/deconstruction of ‘reference-of-thought’ (recognising human limited-mentation-capacity-deepening and the need to re-institutionalised/re-intemporalised resulting in the subsequent institutional-cumulation/institutional-recomposure—has-to—historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’ as articulated above is not only the basis for memetism/transdimensional-meaningfulness/suprastructural-meaningfulness, but as well for avoiding what can be termed as the ‘ontological-circularity’ of modern-day psychology. Such ontological-circularities are engrained in all registry-worldviews/dimensions wherein the naïve pretence for a quest for deeper ontological-veridicality is rather just
syncretic/circular and hollow-constituting and-failing-intemporal-preservation as fundamentally the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the said registry-worldview/dimension are at a dead-end with a de-mentative/structural/paradigmatic impossibility for a critical breakthrough just by the mere fact that the registry-worldview/dimension has attained its mentation-capacity-limitation or uninstitutionalised-threshold (as the nature of intrinsic-reality with respect to the human psyche is ontological-normalcy/postconvergence or inherently preceding or inherently superseding as it doesn’t change an iota, and it is the human psyche that gives-in in its mental-devising-representation to conform to intrinsic-reality). With such naïve efforts to keep up and develop profound meaningfulness based on the same registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology mostly a dead-end. Such ontological-circularities will include for instance the dead-end of medieval alchemy preconverging–de-mentating/structuring/paradigming with respect to positivistic chemistry postconverging–de-mentating/structuring/paradigming, a flat-world preconverging–de-mentating/structuring/paradigming with respect to a round world postconverging–de-mentating/structuring/paradigming, a creationism preconverging–de-mentating/structuring/paradigming with respect to an evolution postconverging–de-mentating/structuring/paradigming, a universal humanity postconverging–de-mentating/structuring/paradigming with respect to aristocratic/racial/tribal preconverging–de-mentating/structuring/paradigming, a science postconverging–de-mentating/structuring/paradigming with respect to a superstition preconverging–de-mentating/structuring/paradigming, etc. Naivety will be to think that issues of ontological-circularity in our present positivistic meaningfulness (for transcending beyond our vices-and-impediments and overcoming inherent inhibitions to human emancipation) are not in
veridicality about a need for a shift in prospective postconverging–de-
mentating/structuring/paradigming. This brings forward fundamentally the limited-mentation-
capacity/uninstitutionalised-threshold construct of our times (procrypticism) and the de-
mentative/structural/paradigmatic implications specifically for such a ‘postconverging-or-
dialectical-thinking–psychology or psychology-of-mentation-dynamics or
natural–psychological-dynamics’ (as highlighted) over a relatively mented-
psychology/stigmatic-psychology. What this reveals is that reality is ‘not a human mental-
devising-representation processing exercise’; rather it is an intrinsic ontological-
normalcy/postconvergence notion that doesn’t respond to human mental-devising-
representation processing. The role of de-mentation-(supererogatory–ontological–de-
mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as a mental-
devising-representation mechanism that syncs with evolving ontological insight (insight about
intrinsic reality) as ontological-normalcy/postconvergence is to reflect/perspectivate the
dialectically-or-contendingly-out-of-phase or dialectical-primitivity at the very limit of the
capability as its mental-devising-representation of a registry-worldview/dimension
(uninstitutionalised-threshold), which otherwise any
<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
registry-worldview will overlook as it is a <amplituding/formative> wooden-language

meaningfulness-and-teleology—as-of–'nondescript/ignorable–void’-with-regards-to-

very own reference-of-thought–categorical-imperatives/axioms/registry-teleology
, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and is not tied to
intrinsic-reality but rather pertinent only for when it proxies intrinsic-reality. It is only de-
mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-
or-attributive-dialectics) that can create the foundation for a new mentation (unshackle it psychoanalytically/memetically/meaningfully reorder it/recomposure it) to in ontological-normalcy/postconvergence come into grips with a more profound ontological-veridicality as a new reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) for a new existentialism/full-depth-of-existential-implications meaningfulness and thought. This insight about the intrinsic-nature-of-reality/intrinsic-reality is critical and central to understanding how ‘knowledge-deadend—de-mentating/structuring/paradigming’ can be overcome/superseded. Supposed B was to stick to resolving the BODMAS equation overlooking A’s condition on the basis that the reference-of-thought–categorical-imperatives/axioms/registry-teleology(for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation are set and given, whether these uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or not (which is what ensures proxying to intrinsic-reality), and further that the other BODMAS characters will do likewise anyway, this doesn’t in any way transform the ontological-normalcy/postconvergence ontological-veridicality/intrinsic-reality from to 72.5. Such a wrong disposition rather points aetiologically for the need (in ontological-escalation) of an de-mentation~ontological–de-mentation–stranding-or-attributive-dialectics of the BODMAS characters at that uninstitutionalised-threshold. In the bigger picture, ‘knowledge-deadends—preconverging–de-mentating/structuring/paradigming’ (to varying degrees of pertinence) are often the explanation of underlying social issues and problems more than just about limited human ability or insufficiently directed effort towards the resolution of such issues and problems on the basis of present preconverging–de-mentating/structuring/paradigming. It is inevitable that emancipation from such knowledge-deadends—preconverging–de-mentating/structuring/paradigming will always require that the would-be intellectual-analyst or intellectual-analysts ‘blunt it’ (just as intrinsic-reality is uncompromisingly blunt) to the
totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage registry-worldview/dimension that what is fundamentally needed is a postconverging–de-mentating/structuring/paradigming–shift. Much like observation and a rational interpretation of nature trumps dogma as with Galileo’s heliocentric argument for instance, this author holds that a fundamental decomplexifying/uninhibiting of our own (procrypticism or preconverging-or-dementing 19–apriorising-psychologism/subknowledging 95/perversion-of- reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation 2 > of positivistic meaningfulness) psyche as being ontologically-preconverging-or-dementing 19–apriorising-psychologism/dialectically-preconverging-or-dementing 19–apriorising-psychologism from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology 100 as of prospective notional–deprocrypticism as 24 reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing 19-reference) opens up a new world of transcendental possibilities (wherein a comprehensive insight for addressing psychopathy and social psychopathy and other implied epiphenomena/incidental-phenomena equally lies, and critically so since the fundamental argument for a ‘postconverging-or-dialectical-thinking 20–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ has to do with the foundational nature of mental-devising-representation/mentation/recomposured-consciousness-awareness-teleology 100 in the construction of all knowledge) at our positivistic meaningfulness uninstitutionalised-threshold 10; much the same way like a positivistic world opened up from the 19 de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of a non-positivism/medievalism registry-worldview/dimension at its uninstitutionalised-threshold 100. To further elucidate the criticality as indicated of such a ‘postconverging-or-dialectical-thinking 20–psychology or psychology-of-
mentation-dynamics or natural–psychological-dynamics’ as indicated with respect to a ‘mented’ or ‘stigmatic’ psychology can be further reemphasised clearly as such; a ‘postconverging-or-dialectical-thinking’ –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that is being ontologically-driven or led by ontological-veridicality when it comes to mental-devising-representation by strictly adhering to the ‘tementation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). In other words, it overrides the mented/stigmatic intradimensional meaningfulness mental-devising-representation and enables a transdimensional-meaningfulness mental-devising-representation, wherein a mented/stigmatic mentation de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) in reflecting soundness-or-ontological-good-faith/authenticity of ‘reference-of-thought/apriorising–registry-soundness and unsoundness-or-ontological-bad-faith/inauthenticity of ‘reference-of-thought’<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > (respectively postconverging-or-dialectical-thinking<apriorising-psychologism>‘stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> and preconverging-or-dementing<apriorising-psychologism>‘stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> ) is stranded to the ‘conventionalised institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ whether such a threshold is the ‘appropriate basis for ‘reference-of-thought or not and subsequent ontological-veridicality/ontological-contiguity or not, as it is limited to what is the convention thus hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> with the result that mented/stigmatic
psychology is limited to hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation human intradimensional conventioning reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, with no prospective/transcending/superseding possibility. For instance, we can project insightfully that a mented/stigmatic mental-disposition in a non-positivism/medievalism setup in an impression-driven/good-naturedness/wishfulness disposition but hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation(failing/not-upholding-as-of-apriorising/axiomatising/referencing–reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) will raise an issue of say sorcery in terms–as-of-axiomatic-construct of who is the sorcerer or sorcerers among us, how should sorcery be stopped and prevented in the community in its preconverging–de-mentating/structuring/paradigming, and not in a prospective positivistic postconverging–de-mentating/structuring/paradigming that is more ontologically-veridical, putting in question the veracity/ontological-pertinence of the non-positivism/medievalism conventioning notion of sorcery, however ‘good-natured’/impression-driven, while raising the positivistic the-Good/understanding/knowledge-reification/ontological-prime-movers-totalitative-framework of a positivising/rational-empiricism reference-of-thought. Such an insight prospectively will involve putting into question naïve and ever evolving constructs in our modern-day mented/stigmatic psychology science like personality disorders on the fundamental argument regarding the relatively poor insight about the requisite reference-of-thought to be established in the first place before then qualifying personalities with respect to such a philosophically and insightfully soundly established reference-of-thought, and not just naïve assumptions whether on the basis of popular axioms, vagueness and personal however well-meaning; with the idea of
meaningfulness that goes beyond just a conventioning reference-of-thought and is rather inherently upheld by ontologically-veridical insight and pertinence. Further, such a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ that is ontologically-driven will go beyond an exercise of mented/stigmatic phenotypes driven abstractly as inherent-personalities nature and in given settings-of-time, but grasp that human personality is critically involved in the de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or–attributive-dialectics) hermeneutically/reprojectively/supererogatingly/zeroingly-educing-human–meaningfulness-and-teleology into-the-existentialism-becoming of personhoods-and-socialhood-formation as so-reflecting ontological-reconstituting–as-to-conflatedness/deconstruction as the more profound reference-of-thought and analysis, and with a more fundamental interdimensional/transdimensional/transcendental insight of the human existentialism form-factor. In this regard, it is the opinion of this author that many construed personality disorders that do not involve social deviances or not of physiological nature are actually adaptations at one time or the other in an ever-changing-and-challenging-construct that individuals make of a ‘wanting and developing social world with its stakes and confliction’, and it would rather be better to articulate personality as driven by a pertinence of being/ontological-extension-into-existentialism-or-full-depth-of-existential-implications with respect to such ‘a challenging and developing social world with its stakes and confictions’ in the first place, otherwise we are just affirming arbitrary social classification schemes and not really involved in the requisite postconverging–de-mentating/structuring/paradigming shifts; and such could further be grasped regarding specifically how many an experimental psychology schemes ‘desperately’ striving to draw social-world level conclusions can’t seem to supersede the modesty of schemes that it is just too farfetched and synoptically-limiting, thus trending more towards the defect of apriorising/axiomatising/referencing-(of–
existentialising/contextualising/textualising-contiguity \(\rightarrow\) constitutedness\(^\text{13}\) in lieu of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity \(\rightarrow\) conflatedness\(^\text{12}\)) as articulated by this author. Foucault had qualified the current focus on abnormal psychology as tending more to an ‘economic’ practice. What about the notion of de-mentation\(\langle\)supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics\rangle\) as the ‘surreptitious driving mechanism of human mental-devising-representation or mentation’ that fully encapsulates and explains human psychological development across all the times and the successive institutional-cumulation/institutional-recomposure\(\{\text{as-to- historiality/ontological-eventfulness } / \text{ontological-aesthetic-tracing} < \text{perspective–ontological-normalcy/postconvergence-reflected–“epistemicity-relativism”}\}\) of human existential emanance, and so as an articulation that is retrospectively, presently and prospectively coherent? Given the fact that de-mentation\(\langle\)supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics\rangle\) very much explains human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as the recurrent ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of an animal of limited-mentation-capacity-deepening\(^\text{53}\). Such a ‘postconverging-or-dialectical-thinking –apriorising-psychologism’ psychology driven by ontology or rather ontological-normalcy/postconvergence will be postdicatory, with the implications that this will fully focus the ‘kernels of postmodernism’ to usher in Suprastructuralism as an Age where humankind comes to grasp that its-meaningfulness-with-respect-to-intrinsic-reality as reflected by the successive institutional-cumulation/institutional-recomposure\(\{\text{as-to- historiality/ontological-eventfulness } / \text{ontological-aesthetic-tracing} < \text{perspective–ontological-normalcy/postconvergence-reflected–“epistemicity-relativism”}\}\) has
been progressing (more and more realistically) by successive suprastructuring of prior/transcended/superseded registry-worldviews ‘beyond their successive corresponding recomposured-consciousness-awareness-teleology\textsuperscript{100},’ and introducing the veridical meaningful-frame/worldview of postmodernity with regards not only to the present but the

In fact the underlying difficulty of deconstruction when extended from its ‘textual basis’ to its ‘full meaningfulness basis’ as ‘ontological-reconstituting–as-to-confusedness’\textsuperscript{12}, has to do with the fact that the full implications of ‘ontological-reconstituting–as-to-confusedness\textsuperscript{12}/deconstruction is that it prospectively calls for suprastructuring or construal beyond-the-consciousness-awareness-teleology\textsuperscript{100}–<in-existential-extrication-as-of-existential-unthought> of prior registry-worldview mindset/\textit{reference-of-thought} (and so as a conception that enables opening-up/making-available the prospective registry-worldview), as implied by the veracity/ontological-pertinence of \textsuperscript{14}de-mentation–⟨supererogatory–ontological–de-mentation—or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩ of ‘reference-of-thought’ as the underlying human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} driving mechanism. Considering that deconstruction as ‘ontological-reconstituting–as-to-confusedness\textsuperscript{12} necessarily implies not one but two dialectically opposed registries/meaningful-

The fact is that without the notion of suprastructuring, the exercise of de-mentation\textsuperscript{14} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) will wrongly imply that the ‘postconverging-or-dialectical-thinking’\textsuperscript{7}–apriorising-psychologism’ and the preconverging-or-dementing\textsuperscript{10}–apriorising-psychologism are of the same \textsuperscript{8} reference-of-thought of meaningfulness (which is obviously wrong), and is the effect of the illusion-of-the-present/present-consciousness/mirage as we recognise this fact from a vantage perspective to the prior (utter-uninstitutionalisation, base-institutionalisation, universalisation) but have ‘a complex’ recognising such a fact at a disadvantaged positivistic/procrypticism perspective with respect to the prospective (deprocrypticism), just as all institutionalisations tend to demonstrate when their own transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is implied, and certainly so the higher the institutionalisation as the mindset/ reference-of-thought is increasingly set to ‘relate to its institutionalised secondnatured construct as being our very own individuals essential dimensionality-of-sublating \textsuperscript{9} \langle amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{3} as we recognise this fact from a vantage perspective to the prior (utter-uninstitutionalisation, base-institutionalisation, universalisation) but have ‘a complex’ recognising such a fact at a disadvantaged positivistic/procrypticism perspective with respect to the prospective (deprocrypticism), just as all institutionalisations tend to demonstrate when their own transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is implied, and certainly so the higher the institutionalisation as the mindset/ reference-of-thought is increasingly set to ‘relate to its institutionalised secondnatured construct as being our very own individuals essential dimensionality-of-sublating \textsuperscript{9} \langle amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) and not a secondnatured construct’, and thus perceived as beyond or almost beyond analysis due to the implied temporal alienating effect on us (but then it is the human psyche that gives-in to
intrinsic-reality/ontological-veridicality, as the foremost rule of humanity’s existential strive). Suprastructuring allows for the necessary transcendental-insight-projection-capacities for grasping the evasive Derridean conceptualisation of ‘metaphysics-of-absence’\{implicated-epistemic-veracity-of-nonpresencing\langle perspective–ontological-normalcy/postconvergence\rangle\}' projection/postdication in overcoming the illusion-of-the-present/present-consciousness/mirages <amplituding/formative–epistemicity>totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag as ‘metaphysics-of-presence’\{implicated-nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness \}'. Suprastructuring boldly answers the underlying issue involved with ‘communicating the true implications of deconstruction as ontological-reconstituting–as-to-conflatedness’ by highlighting the paradox that it is all about ‘articulating a conceptualisation which involves implying that the reference-of-thought and meaningfulness of the seemingly reference-of-thought is unsound and needs to be superseded’. It is rather about in the very first instance putting into question a given reference-of-thought and projecting the appropriate reference-of-thought, before even proceeding to articulate more specifically meaningfulness within the projected reference-of-thought. This is akin to the idea of a positivistic mindset/reference-of-thought articulating chemistry rules and principles to an alchemic mindset/reference-of-thought for the latter’s validation, requiring the latter to adopt a positivistic mindset/reference-of-thought in the very first place before issues of substantive pertinence about chemistry rule and principles are raised within their now mutually positivistic mindsets. Such an exercise requires a highly uninhibited/decomplexified human frame of mind. This may sound rather farfetched as a notion but it is important to remember that the positivistic mindset/reference-of-thought itself is the outcome of the décomplexing/uninhibiting of the human mind from earlier successive institutionalisations. Such an exercise is necessarily about psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the positivistic/procryptic
reference-of-thought of meaningfulness-and-teleology in the middle to long run construed as of \(\text{de-mentation-}\{\text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics}\} \) with respect to futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism; and with regards to Suprastructuralism as a notion, the implication is that this is a requisite idea that has to come to the collective consciousness (not just unconsciously as with prior institutionalisations, for instance the fact that notions of superstition are false had to be consciously brought up to the attention/consciousness-awareness-teleology of a non-positivism/medievalism mindset/ reference-of-thought for it to effectively undergo the necessary ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring by acting as the conscious backdrop that engenders prospectively a positivistic mindset) for human emancipation into a notional–deprocrypticism mindset; as with all psychoanalytic exercise whether of an individual or social conceptualisation nature, the idea of recognising/referencing/registering/decisioning the ontological-deficiency with respect to ontological-normalcy/postconvergence is central to superseding it. ‘Suprastructuring as such overcomes the ‘natural human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology reflex’ (in any registry-worldview/dimension) of ‘striving to avert preconverging-or-dementing–apriorising-psychologism mental-devising-representation/mentation’ (whether such averting is ontologically-veridical or not) and so by a mistaken reflex to preserve a wooden-language-\{imbued–averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of–nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications\} of
placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} of intrinsic-reality (but which closure makes its representation of intrinsic-reality inherently incomplete and biased towards the illusion-of-the-present/present-consciousness/mirages \textsuperscript{100} of its given registry-worldview metaphysics-of-presence\{implicated-'nondescript/ignorable–void ’-as-to- presencing–absolutising-identitive-constitutedness \}), by effectively taking full cognisance of the fact that \textsuperscript{100} de-mentation\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics\} is the driving mechanism of human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} of intrinsic-reality and thus construe an opened-construct incorporating transcendental-insight-projection-capacities that enable the relative construal of the ‘postconverging-or-dialectical-thinking\textsuperscript{70}–apriorising-psychologism’ and the preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism ‘ de-mentation\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics\} of ‘reference-of-thought’, and so expanding the potency in construing a much more exact/thorough notion of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} of intrinsic-reality and thus for ‘ontological-reconstituting–as-to-conflatedness’\textsuperscript{77}/deconstruction. In other words, in representing the veridically uninhibited/decomplexified nature of ‘de-mentation\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics\} of ‘reference-of-thought’ that is not limited by the illusion-of-the-present/present-consciousness/mirages \textsuperscript{100} of any registry-worldview/dimension and so at the deeper memetic/psychoanalytic level, suprastructuring as such reveals that ‘human psychology is very much an active construct associated with
