Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability\textsuperscript{41} method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability\textsuperscript{41}, validation and open-ended questioning can be undertaken over it. Such a
hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojecting/supererogating/zeroing insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-
mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing wooden-language-⟨imbed—temporal–mer-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing –narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-

This has developed in our present age of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation ⟨blurring/undermining-of-prospective-totalising-entailing,–as-to-entailing,–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness⟩ into the absurdity/ridiculousness of pop-intellectualism substituting for genuine
and reifying thought, as to the relentless expansion of our modern merchandising mentality to which nothing resists; and paradoxically, such a disposition hangs onto the ‘dereified as-deficient-reflexivity of our wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing — narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry—teleology } it then sophistically usurp in its teleological-degradation rather than teleologically-elevating it out of its wooden-language-{imbued—averaging-of—thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology - as-of—‘nondescript/ignoreable—void ‘—with-regards-to-prospective-apriorising-implications>};

with media-driven imprimatur increasingly usurping the role of genuine academic standard production and ultimate validity hanging on the mere imprimatur. As what becomes critical in such a context is no longer prospective knowledge-reification as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency ~sublimating–nascence,—disclosed-from-prospective-epistemic-digression as to immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human
knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on as to imply that it is veridically in dialogical-equivalence—<as-to-psychologism~apriorising/axiomatising/referencing—of—existentialising/contextualising/textualising-contiguity—conflatedness,—in-self-becoming/self-conflatedness /formative–supererogating—with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> ) as this only leads to a destructuring-threshold—(uninstitutionalised-threshold/presublimating—desublimating-decisionality—of-ontological-performance—<including-virtue-as-ontology> habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity rendering the supposedly empowering activity of knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation—unforegrounding-disentailment,—failing-to-reflect—immanent-ontological-contiguity—inclinations that poorly appreciate existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression implications of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence—<in-dimensionality-of-desublimating-lack-of—(<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or—

This then provides paradoxically the underlying meaningfulness-and-teleology infrastructure for upholding the status quo and inducing in many ways the impotence of the social sciences in thoroughly addressing human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of society that ultimately have serious dementative/structural/paradigmatic consequences associated with institutional failures (which such intellectualism is hardly inclined to address). Critically, such a ‘self-contented intellectualism’ increasingly focuses not on knowledge-reification as to existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression or the critical analysis of such knowledge-reification but in the face of criticism rather consciously
substitutes strategies of institutional ascendency as of a strategy of influence by default imprimatur status rather than genuine knowledge-reification pertinence. It will be as naïve as implying the validity of a common basis for doing arithmetic where an interlocutor insists on 2+2 as 5 but when appropriately explained the veridical assumptions of arithmetic goes on to insist 3+3 as 7, speaking not of a fundamental problem of arithmetic operation as of dialogical-equivalence, but a fundamental question of ontological-bad-faith/inauthenticity on the naïve mental reflex that anyway dialogical-equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity’, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity (beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> ) as of underlying existentialising/contextualising/textualising-contiguity elucidation/deblurring as well as whether the veracity of such apriorising/axiomatising/referencing can be established as being of ‘relative-ontological-incompleteness/relative-ontological-completeness’

subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s² to ensure that calculations conform to its expectations for one interest or another; but the reality of that universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness⟩ as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation-⟨unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’⟩ not only as of wrong ontological-conception out of good-naturedness (failing ‘technical’ ontological-good-faith/authenticity as from ontological-normalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting both human constructiveness-of-ontological-performance ⟨including-virtue-as-ontology⟩ and destructuring-threshold ⟨uninstitutionalised-threshold /presublimating–desublimating-decisionality⟩ of-ontological-performance ⟨including-virtue-as-ontology⟩. fathomed how such a ground-breaking evental-instigation as the appearance of Einsteinian physics in early 20th century prompting great excitement and curiosity among physicists recasting the contributions of prior physicists, and then eliciting the work of many other physicists and mathematicians in the subsequent decades leading in-between to the superseding of Einsteinian physics with Bohrian physics and then Feynmanian physics, etc. as to existence-potency~sublimating-nascence, disclosed-from-prospective-epistemic-digression constraining, can be contemplated as of such a rather impoverished conception of genuine intellection which poorly recognises the pre-eminence of existence-potency~sublimating-nascence, disclosed-from-prospective-epistemic-digression over human-subpotency, notwithstanding the fact that we are at the backend of human institutional-cumulation/institutional-recomposure{as-to_historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>}, and so because in many ways it is hardly the case that the priority is obsession with such intellectual emancipation rather than obsession with institutional-being-and-craft muddlement. While the natural sciences are ‘naturally’ constrained by the stronger necessity for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s <amplituding/formative> wooden-language{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing — narratives—of—the—reference-of-thought—categorical-imperatives/axioms/registry-teleology } with asceticism does exist as has existed throughout sublimating historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>. Beyond the seemingly
intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification rather than a culture of pop-intellectualism today that seem to define our human-subpotency/mortality purposes as superseding existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression as to immortality purposes, as so-reflected in the supposed intellecction values conferred in many a press operation with such vague catchphrases as ‘the-greatest/most-influential thinker of our times’ as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification as addressing the human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of our prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, notwithstanding the sometimes crude and unsavoury social discomfort implications in this respect. Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellecction value with respect to opting for a profound intellectual commitment for prospective knowledge-reification rather than just strategies of socially perceived intellectual success within deified temporal/mortal existential frameworks; especially in the underhanded institutional presence of such avowedly teleologically-decadent—as-in-dimensionality-of-desublimating-lack-of—\[\text{amplituding/formative}\text{supererogatory—}]-\text{formative/epistemic-growth-or-conflatedness }/\text{transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation}\] mantras like theories die with the passing of their authors as so-implied with regards to many a postmodern scholar, wherein such highbrowning has been surreptitiously inclined to put-up their temporalities/mortalities (notwithstanding that knowledge is as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression consequences accruing to the entire humankind) to institutionally and socially undermine
prospective knowledge-reification with stooges/foils muddying the ontological-veracity of
genuine thought as of its true human emancipatory implications, as they ‘sneak-in and sneak-
out about knowing and not knowing’ in a distorted conception of intellectualism as a
Machiavellian/political exercise rather than the requisite magnanimity of engagement for a
genuine knowledge-reification exercise! Actually the projection of values including
intellectual values in such a totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag are often prospectively deficient, given
the fact that notions of value are only as pertinent as of their transvaluation implications in
relative-ontological-completeness since the very same conception of value when construed on
the basis of relative-ontological-incompleteness may actually be associated with vices-and-
impediments, and so beyond-the-consciousness-awareness-teleology. (given that virtue is rather as of the-

that the value conception as from the non-universalising sophistry perspective had construed as
decadent the prospective Socratic-philosophers universalising-idealisation just as did
medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many
ways prospective knowledge-reification requires that we supersede our emotional-
involvement starting with the very intellection striving for such prospective knowledge-
reification. (In any case, ultimately the reality of human knowledge-reification involves
meaningfulness-and-teleology⁴⁴ as implied prospectively in ‘construing of both the right apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument mindset-as-of-prospective-deprocrypticism-dissemination⁷⁷ and thus the knowledge for that right mindset-as-of-prospective-deprocrypticism-dissemination⁷⁷'), and we can better understand as such why underlying confliction arises with all registry-worldview/dimensions transcendence-and-sublimity/sublimation/supererogatory—de-mentativity because these involve human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint transvaluation as putting in question the old valuation, and in this regards the transcendental/transvaluating conception is universally existential and cannot be just about the physical world without social world implications and vice-versa as so-underlined with the fact that both are for-human-studies/for-human-constructs by the underlying fact that these are the very same human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility (imbued-and-hermeneutically/reprojectively/supererogatingly/zeroingly-educing—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation); as inevitably the apparently innocuous Copernican, Galilean, Cartesian, Newtonian, etc. conception of the material world in superseding the human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of ‘traditional mythological/supernatural conceptualisation of material world/things as of the universalising but non-positivism—medievalism preclusive-consciousness’ have constructive implications about corresponding requisite prospective social-values in superseding the human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of ‘traditional mythological/supernatural conceptualisation of the social-construct as of the universalising but non-positivism—medievalism preclusive-consciousness’, and the
possibility for the further advancement of such material sciences arises from the effectively enabling social-values like freedom-of-speech, opened communication, etc. availing as of the transcending positivism/rational-empiricism occlusive-consciousness. Likewise, it is herein contended that the future possibility for the natural sciences advancement is inseparable from the possibility of social and social-organisational as of prospective human aporeticism transvaluation as to the prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought protensive-consciousness induced Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and so over our present procrypticism—or—disjointedness-as-of-reference-of-thought occlusive-consciousness, and in effect this conjoint-epistemic-relationship-and-fate in the conceptualisation of the material and social world is even confirmed today as with the social and social-organisational framework that underlied and was necessary for most of the scientific and technological advances after the second-world war). Basically, dimensionality-of-sublimating—(<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflicatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) as such reflects the successively induced originariness-parrhesia,—as—spontaneity-of-aestheticisation specific ‘constructiveness-by-destructuring cut-offs/thresholds of ontological-performance—<including-virtue-as-ontology>’ so-construed as of notional—protensive-consciousness (trepidatious-consciousness/warped-consciousness/preclusive-consciousness/occlusive-consciousness/protensive-consciousness) implications; and as eliciting any such specific construction-of-the-Self and its given registry-worldview/dimension reference-of-thought—and—reference-of-thought—devolving—meaningfulness-and-teleology overall dementative/structural/paradigmatic construct-of—meaningfulness-and-teleology as of secondnatured institutionalisation. Furthermore, besides the conceptualisation articulated herein, what vindicates this idea of apriorising/axiomatic/referencing intellectual break/schism/estrangement is effectively that the possibility for prospective \textsuperscript{57}meaningfulness-and-teleology\textsuperscript{90} is associated with a renewed framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology which is in ‘affirmation/projection by its underlying
supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of–apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument –for–conceptualisation’ to the superseded framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology as unaffirmed/deprojected; as to the possibility of the recovery of dimensionality-of-sUBLIMATING ⟨amplituding/formative>supererogatory–de–mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ prospectively, disentangled from ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’. And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’).

wrongly elevate psychopathic meaningfulness-and-teleology as of veridical ‘existentialising/contextualising/textualising-contiguity’ rather than reflect the reality of its ‘formulaic meaningfulness-and-teleology’

The underlying fact about meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic.

‘social protraction of psychopathy across individuals and society’

The suspected psychosomatic basis for the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge (entitlement folie/folie raisonnante)’ as opposed to a logical motivation of a supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism or prelogic mental-disposition.

human ontological transcendental possibilities arise from human individuations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to renewed logical-basis/logic—transversality—eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ it.

our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t have any end to itself but for such dialectical readjustments to ontological-veridicality.

when it comes to deciding between ontological-veridicality/ontological-contiguity of reference-of—thought (as from ontological-normalcy/postconvergence epistemic/notional~projective-perspective) and the human temporal psyche, what gives-in is the human temporal psyche (and so for the betterment of the species).

Human mental development across time validate the notion that we have consistently been in a state of psychoanalytic-unshackling/memetic-reordering/institutional-recomposing

two dilemma with respect to the conceptualisation of virtue
intemporal-preservation is a memetically/psychoanalytically evasive construct at uninstitutionalised-threshold, the pursuit of which is veridically the human species eudaemonic contemplation

‘human progress/transcendence happens as a matter of fact, with no registry-worldview/dimension having any ontological and veridical claim/pretence to extricate itself from psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring—as-dialectical-stranding-backdrop-for-prospective-transcendence

Stranding (of-perverting-temporal-dispositions-of-reference-of-thought) should be construed at a registry-worldview’s/dimension’s uninstitutionalised-threshold (the threshold where the registry-worldview/dimension is failing/not-upholding—as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or-ontological-preservation)

it is critical to distinguish between a true philosophical development that arises by intemporal-disposition and an institutionalised development that is articulated to elicit ‘positive-opportunism’ in humans

the concepts of intemporality/longness and temporality/shortness is more scientific than the impression notions of good and bad

The use of ‘human mental-dispositions/individuations’ as of notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> herein doesn’t mean ontologically that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal

By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness whether the intemporal-disposition individuation-pedestal or the temporal-dispositions individuations-pedestals

‘Unconscionability-drag’ (from an ontological/intemporal reference) refers to the comprehensive state of undisambiguation of temporal-dispositions individuation-pedestals which are wrongly associated to the intemporal-disposition as being ontologically-veridical as these conjugate/inflect/protract (in mimicking-protraction)

at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding as of positive-opportunism’
‘unconscionability-drag’ carries the resolution for disambiguating reference-of-thought in the ontological social construction of meaning. ..........................................................3033

- ‘Ctrl + Click’ (on any hyperlinked superscript) for the elucidation of the given term
- ‘Alt + Left-Arrow’ to go back to the previous location in the document (that is precisely at the clicked hyperlinked superscript location)
- ‘Alt + Right-Arrow’ to go in the reverse direction again
- Also the darkened text elaborates upon the immediately prior text and is darkened (to point out its interjecting nature) in order to ease the ‘continuity readability’ of long phrases/sentences while at the same time striving herein for ‘a most profound and extended articulation of exactifying/precisioning–of-sublimation<as-to-entailing-theoretical,-conceptual-and-operand-implications>’

this insight will explain why conceptual/axiomatic epistemic-veracity
analyses across subject-matters like physics, chemistry, biology,

thoroughly insightful philosophical expliciting and elucidation to induce
a more consciously profound epistemic-veracity in the-social as well as
the overall registry-worldview’s/dimension’s reference-of-thought in
enhancing overall human contemplation for knowledge-reification;
such an existentialising/contextualising/textualising-contiguity conception
of knowledge-reification unlike the mere aestheticisation of abstract dialecticism or analogy/mere-analogue makes a most profound claim to being ontological/scientific by the more profound veracity that it is epistemically embedded as to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation (thus averting vague elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity) and construes of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation—an-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism—overcoming/unovercoming enabling sublimation-over-desublimation, that is, the existentialising/contextualising/textualising-contiguity of knowledge-reification projects/construes of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and transcendental-enabling/sublimating/supererogatory-de-mentativity in recognition of an effective reality basis implying more and more profound reconstruals/reconceptualisations (and so as to
\[<\text{amplituding/formative—epistemicity}>\text{totalising—renewing—realisation/re-perception/re-thought arising by human limited-mentation—capacity-deepening} \]
thus ‘is not mere eclecticism’ as can be interpreted from a naïve presencing—absolutising-identitive-constitutedness epistemic-projection perspective to knowledge-reification as to a relic/artifactual orientation poorly entertaining ontological-contiguity.
sublimity/sublimation/supererogatory—de-mentativity (and so in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogising) with existentialising/contextualising/textualising-contiguity speaking thus of overall human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming-as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’

and we can consider in this regards for instance the veridicality that the convolutedness of say modern-day DNA genetics knowledge-reification in existentialising/contextualising/textualising-contiguity cannot be construed as of mere conceptual-patterning-as-devoid-of—‘existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’ as say in terms of Mendelian hereditary (as conceptual-patterning-as-devoid-of—‘existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’ can be so-elicited with the mere aestheticisation of abstract dialecticism or analogy/mere-analogising) since such a conceptual-patterning-as-devoid-of—‘existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’ conception will be existentially/ontologically elusive by its poor reflection of relative-ontological-completeness and by the relic/artifactual orientation not postconvergingly—de-mentated/structured/paradigmed in perpetually furthering/inducing the veracity of existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation underlying the

general sense universal/universalised/universalising actually and
precisely refers to ’totalising-entailing of implied knowledge-reification

gesturing’ for instance in the sense that mathematics is universal means
mathematics is totalisingly-entailing (with this general sense applying with regards to any given registry-worldview/dimension as to its given ‘entailing-\langle\text{amplituding/formative–epistemicity}\rangle\text{-totalising–in-relative-ontological-completeness}\rangle \text{ apriorising/axiomatising/referencing–rules’ and as further reflecting the implication that registry-worldviews/dimensions of relative-ontological-completeness are of more profound ontologically totalising-entailment apriorising/axiomatising/referencing–rules as so implied as from ‘non-rules totalising-entailing, rulemaking-over-non-rules totalising-entailing, universalisation-directed-rulemaking-over-non-rules totalising-entailing, positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules totalising-entailing, and preempting—disjointedness-as-of-\langle\text{reference-of-thought,-as-to-}

profound as from say the Socratic-philosophers (even as slavery, class-
seclusion and female-seclusion was prevalent as to warped
collateralisation), budding-positivists (even as in many ways the practices
of serfdom/slavery, social-class discrimination and female-discrimination
were equally prevalent as to preclusive collateralisation) and today’s
supposedly universal conception of human rights (even as it is marked by
occlusive collateralisation of other peoples, cultures and nations as well
as gender and age occlusive collateralising biases);¶ actually the specific
sense and general sense are thus linked on the basis that both imply
totalising-entailing with the specific sense speaking of totalising-entailing
as to the specific universalisation registry-worldview/dimension ‘when
mankind initially consciously cognised that the profoundness of
meaningfulness-and-teleology should be totalising-entailing but
without necessarily differentiating such a conception of totalising-
entailing between mythological and positivistic/rational-empirist

and exactifies/precises the conception of totalising-entailing in terms of
‘entailing-<amplituding-formative-epistemicity>totalising-in-relative-

notional–deprocrypticism) thus amplificatorily rendering the conception
of totalising-entailing (as to notionally-universal) as more ‘profoundly construed as from perspective relative-ontological-completeness’ as of the ontological-normalcy/postconvergence of existence/intrinsic-reality’ so-underlied by perspective ‘nondisjointing totalising-entailing’ or deprocrypticism

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ predisposed human mind’ so-reflected as prelogism -as-of-conviction,-in-profound-supererogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> and so-construed as of human candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism or prelogism where the bad logic of the prelogism –as-of-conviction,-in-profound-supererogation —<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind operates by an ad-hoc and circumspect exaggeration or omission). that is secondnatured as of its prior relative-ontological-incompleteness -of- reference-of-thought with the consequent implications of relatively defective meaningfulness-and-teleology ontological-performance <-including-virtue-as-ontology>. For instance, as of their relative-ontological-incompleteness -of- reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness -of- reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism meaningfulness-and-teleology relative to the ‘utter and brute’ animistic interpretation as meaningfulness-and-teleology neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to- ‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism>. This is a most elaborate articulation of neuterising but it equally applies where meaningfulness-and-teleology is ‘just about miscued’ say between positivism–procrypticism and notional–deprocrypticism with the latter underlying the disjointedness-as-of- reference-of-thought of the former as it neuterising, for instance in the case of psychopathy and corresponding conjugated-postlogism as social psychopathy as in the various illustrations highlighted herein and particularly as more obviously revealed with childhood psychopathy. In the bigger picture, ascriptivity-or-ascription-hardening/pseudo-referentialism arises as of notional–referentialism/notional–deprocrypticism; wherein
recurrent-utter-uninstitutionalisation’s existential reference-of-thought deepest-level of neuterising is elicited by its ‘trepidatious-consciousness impulsive—ontologically-compromised-mediating,-as-of-its-specific-constitutedness’
existentialising/contextualising/textualising-contiguity — conflatedness — that is construed the ontologically-veridical nature of destructive-alignment-to-reference-of-thought-apriorising/axiomatising/referencing destructuring. Understanding and overcoming neuterising as such reveals the beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought dynamism of human temporal-to-intemporal individuations mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as critical across all the registry-worldviews/dimensions construed as of de-mentation

social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring crossgenerational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation meaningfulness-and-teleology’ to be able to then reveal, construe and uphold positivistic Being and meaningfulness-and-teleology, and this equally applies with regards to overcoming our procrypticism–or–disjointedness-as-of-reference-of-thought meaningfulness-and-teleology. As a further elucidation, a comparison can be made between a construct of ‘notional–referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness–of-reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of <amplituding/formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-referentialism’ as of their respective epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness–of-reference-of-thought. Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the
very same \(<\text{amplituding-formative-epistemicity}>\) totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that ‘relative completeness/profoundness of axiomatic-construct/r reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-de-

notions/articulations/virtue as the registry-worldview’s/dimension’s reference-of-thought ‘abstract teleological-de-mentating/structuring/paradigming/teleological-possibilities’. For instance, all subsequent axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue of the recurrent-utter-uninstitutionalisation registry-worldview/dimension are possible only by its (trepidious-consciousness neuterising-induced)- reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness which is non-rules—apriorising/axiomatising/referencing–psychologism,—as-impulsive-or-accidented-or-random-mental-disposition as this basically defines the possibility of institutionalisation within recurrent-utter-uninstitutionalisation as inherently non-existent. Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the (warped-consciousness neuterising-induced)- reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness for enabling intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue of base-institutionalisation. This insight extends to all successive registry-worldviews/dimensions institutionalisations in construing their teleological-de-mentating/structuring/paradigming/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance<including-virtue-as-ontology> across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-

With a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing construal there is a double-gesture of reification as of implying more critically the inappropriateness of the centered–epistemic-totalisation/reference-of-thought as of its underlying meaningfulness-and-teleology implied same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology, which then inherently points to the inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on the basis of the centered–epistemic-totalisation/reference-of-thought and hence implying that there can’t be any dialogical-equivalence—as-to-psychologismic–apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness—in-self-becoming/self-conflatedness/formative–supererogating. Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity/epistemic-contiguity <profound-supererogation -of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema> with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existentialising/contextualising/textualising-contiguity—in-reification/dereification cognisant-and-integrative with a non-positivistic superstitious meaningfulness-and-

The same applies from a notional–deprocrypticism perspective with regards to a procrypticism–or–disjointedness-as-of- reference-of-thought mental disposition as an argument seeming to articulate meaningfulness-and-teleology in the same disjointedness-as-of- reference-of-thought terms-as-axiomatic-construct by which the procrypticism–or–disjointedness-as-of-reference-of-thought arises in the first place is in circular amplituding/formative–epistemicity totalising/self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of the same centered–epistemic-totalisation/ reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments as of that fundamental amplituding/formative–epistemicity totalising/circumscribing/delineating thought-devolving-as-of-instantiative-context— meaningfulness-and-teleology reference-of-centered–epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in secondnaturing such a prospective institutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-
sublimity/sublimation/supercergatory-de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical ‘reference-of-thought construction of meaningfulness-and-teleology’, as of the succession of registry-worldviews/dimensions from the notional-deprocrypticism perspective construal/conceptualisation, as being ‘the most profound/complete reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ grasp of intrinsic-reality/ontological-veridicality’ among all the registry-worldviews/dimensions as of its preempting—disjointedness-as-of—reference-of-thought,—as-to—amplituding/formative—epistemicity>growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism. Furthermore, within a registry-worldview/dimension for the disambiguation of notional—firstnaturedness—temporal—to-intemporal-dispositions—so-construed—as—from-perspective—ontological-normalcy/postconvergence>, its reference-of-thought of meaningfulness-and-teleology as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is its (given consciousness’s neutering-induced—or-deneuterising-induced) as reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness, which by way of a différance/internal-dialectics/difference-deferral articulates the intradimensional relative ontological-veracity of all other intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/wise. when we grasp that a mindset as of a non-positivistic social-setup needs to ‘wean off organically beyond mere mechanical adjustments’ its non-positivism before the notion of ‘a credible logical engagement in terms–as-of-axiomatic-construct of positivism/rational-empiricism with a mindset as of a positivistic social-setup’ can be genuinely entertained. approach to conceptualising knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity as validated by ontological-primemovers-totalitative-framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory—de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human
conceptualisation tends to develop from prior relative-ontological-incompleteness of reference-of-thought, as of the incompleteness of the preconverging–dementating/structuring/paradigming of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the preconverging–dementating/structuring/paradigming of human reference-of-thought; with the consequence that it is not ‘notionally postconvergingly–de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of

<as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporetICism-overcoming/unovercoming‘>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought—devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their

apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising—contiguity)—constitutedness—defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising—contiguity)—constitutedness— but rather such ‘depth/axiomatic-construct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential—
instantiations that is graspable rather by a apriorising/axiomatising/referencing-of-existentialising/contextualising/textualising-contiguity—conflicatedness as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is then the preceding and transformative element of meaningfulness-and-teleology conceptualisation as of our limited-mentation-capacity-deepening enabling our prospective relative-ontological-completeness-of-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding/formative-epistemicity>totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory—de-mentativity dynamism and implied organic-knowledge’ as of apriorising/axiomatising/referencing-of-existentialising/contextualising/textualising-contiguity—conflicatedness. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an <amplituding/formative-epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory—de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity immortal/first-party.
Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity) in (re-originary–as-unenframed/unbeholding/outlier-conceptualisation)((imbued-postconverging/dialectical-thinking'-projective-insights’/epistemic-projection-in-conflicatedness’-of-notional–deprocrpytism-prospective-sublimation)\(^{12}\) originary/event-of-prospective-ontology-origination projection into existentialising/contextualising/textualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^{20}\)-of-reference-of-thought’s-devolving-as-of-instantiative-context, it emphasises mere de-mentative/structural/paradigmatic patterns inducing apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)–constitutedness\(^{12}\), and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity construal highlights the ontological-contiguity\(^{67}\) of all knowledge as of their reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming dynamic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primeovers-totalitative-framework\(^{73}\) interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in apriorising/axiomatising/referencing-
of—existentialising/contextualising/textualising-contiguity—constitutedness
rather than striving to expand the transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-prime mover-totalitative-framework existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory-de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory-de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-prime mover-totalitative-framework nature and differences as well as their divergence in meaningfulness-and teleology implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued.

and-teleology or existence-as-existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression as to existential-possibilities. The underlying insight explaining human limited-mentation-capacity flawed mental-disposition for apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity) —constitutedness lies with human misconstruing from ‘existential-instantiations’ the ontological-veridicality of axiomatic-constructs as derived from the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’. The ‘iterating nature of existential-instantiations in imbricatedness/threadedness/recomposuring’ as of existence’s is what provides humankind-as-of-it-subpotency with direct mental access to existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality, as humans don’t have direct mental access to conceptualised/construed existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality-as-of-its-full-potency, but rather projectively-or-anticipatorily construe of axiomatic-constructs about intrinsic-reality/ontological-veridicality as derivable as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation —<as-to-perspective—ontological-normalcy/postconvergence—implied—prospective-aporeticism-overcoming/unovercoming> imbricatedness/threadedness/recomposuring in elucidating existential-instantiations, as of (given consciousness’s neuterising-induced-or-deneuterising -induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness, and so as of the maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation behind the ontological-contiguity —of-the-human-institutionalisation-process. Otherwise with a naïve mental-reflex of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity of existential-instantiations, we will
rather tend to wrongly construe ‘the conceptual patterning of existential-instantiations’ as rather being ‘axiomatic-constructs as of the (given consciousness’s neuterising-induced-or-deneuterising -induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective—ontological-normalcy/postconvergence—implied—prospective-aporeticism-overcoming/unovercoming’>

Thus, the ontological-veracity as prospective relative-ontological-completeness -of- reference-of-thought of ‘the axiomatic-constructs of a (given consciousness’s neuterising-induced-or-deneuterising -induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective—ontological-normalcy/postconvergence—implied—prospective-aporeticism-overcoming/unovercoming’>
imbricatedness/threadedness/recomposuring’ generating knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue implied as meaningfulness-and-teleology, is rather ensured by the construal of existential-instantiations as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation which is as of apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising—contiguity )—conflatedness, thus enabling the ontological-contiguity—of-the-human-institutionalisation-process. It is interesting to grasp here that we cannot from our ‘sense of conceptual patterning’ claim to put into question the inherent nature of existence—as-the-

By and large, this overall conceptualisation explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect ontological-performance of the same underlying idea conceptualised as of its perfect/near-perfect/relatively-perfect ontological-performance as in-sync/corresponding with inherent intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology of human construal/conceptualisation of it. This fully articulates the dynamic relationship of human limited-mentation-capacity as of its poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-ontological-veridicality; respectively as poor as of apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness and as relatively-perfect/near-perfect/perfect apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—conflatedness, construed as notional-conflatedness as of apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness-to-conflatedness of human limited-mentation-capacity. Insightfully, it highlights that apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness arises as of human limited-mentation-capacity ‘poor/unsound/shoddy/incomplete unanticipated/unprojected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-

All knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue are thus for-human-studies/for-human-constructs in the sense that these do not add anything to the given abstract/imaginary existence but are simply enabling to human curiosity and emancipation; that is, whether humans in 2000 BC or 2000 AD are knowledgeable about notions as genetics, theory-of-relativity, universal human rights, etc. doesn’t add anything to ‘abstract/imaginary existence as a pre-given’ pointing to the fact that human existence is about human-subpotency construed as of successive defining transcedentally-enabling-level-of-ontological-good-faith-or-authenticity/objectification/desubjectification-as-objectification-as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—universality-as-of-existential-reality as antinihilism

in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. This validates the idea of dualism as ultimately <supererogatory–human-subpotency>–effecting can only arise from the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness of human consciousness in-its-embodiment as the potent ‘phenomenological transcendental-point-of-departure handle’ for human self-conscious existence and ‘meaningfulness-and-teleology’ construal/conceptualisation as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, whereas the human body as matter though physically existent cannot as of such its apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness conception be construed/conceptualised as of such a ‘phenomenological transcendental-point-of-departure handle’. In the bigger framework, human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance —<including-virtue-as-ontology>) as of collective human shallow-to-deepening–limited-mentation-capacity,~as-limited-mentation-capacity-deepening implies that human knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue inherently suffer in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process successive institutional-cumulation/institutional-recomposure—(as-to- historiality/ontological-

This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness\(^1\) induced neuterising or prospectively notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\(^12\) meaningfulness-and-teleology\(^00\). That is, the notional–deprocrypticism protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in its referencing of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflicatedness\(^12\), with no intermediating construct as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness, thus achieves ontologically-uncompromised-mediating,-as-of-conflicatedness\(^12\) meaningfulness-and-teleology\(^00\). While the occlusive/preclusive/warped/trepidatious-consciousnesses mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments by their successive intermediating categorising/qualifying/tendentious/impulsive constructs as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness\(^3\) on apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflicatedness\(^12\) induce their successively categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness\(^13\) meaningfulness-and-teleology\(^00\). This ultimately points to the centrality of the implications of the ‘notion of limited-mentation-capacity’ as of its notional–deprocrypticism referentialism—ontologically-uncompromised-
mediating,-as-of-conflatedness as a notional conception in construing meaningfulness-and-teleology, while avoiding its ontologically-flawed apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness construeds in terms—as-of-axiomatic-construct of the various neuterising. Hence the ‘notion of limited-mentation-capacity’ as it overcomes ontologically-compromised-mediating,-as-of-its-specific-constitutedness towards ontologically-uncompromised-mediating,-as-of-conflatedness is what is effectively and ontologically defining of issues of reference-of-thought of meaningfulness-and-teleology given that as of its ontologically veridical apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—conflatedness it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening that is behind the ontological-contiguity—of-the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of—meaningfulness-and-teleology-and-longness-of-register-of—meaningfulness-and-teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness reference-of-thought perspective of notional—to-deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. This equally underlies and is in sync with the notion of candidacy/candour-capacity as a variance of the same as of notional—to-deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by 'ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neuterising. historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-

This thus undermines the implications of a Derridean decentered-infinite-freeplay in its critique of ‘centered—epistemic-totalisation as of circularity of meaningfulness— and-teleology in relative deficient/flawed ontological-performance—<including-virtue-as-ontology>’ since such a criticism is based on assuming only a same registry-worldview’s/dimension’s reference-of-thought, and so-construed mainly because such a Derridean conception construes of centered—epistemic-totalisation as only within one registry-worldview’s/dimension’s reference-of-thought—as-of—reference-of-thought—devolving—
Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a ‘projected ultimate centered–epistemic-totalisation circularity of meaningfulness-and-teleology\(^{10}\) of theoretically perfect/sound ontological-performance\(^{12}\)-<including-virtue-as-ontology>’, as implied by this author’s notion of ontological-normalcy/postconvergence, operantly displays the philosophical tradition problem of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness as failing to project of the transformational implications of human limited-mentation-capacity-deepening\(^{53}\) for successive prospective relative-ontological-completeness\(^{57}\)-of- reference-of-thought in bringing about successive registry-worldviews/dimensions as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflicatedness\(^{12}\) that prospectively ultimately grasps the centered-<amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology\(^{10}\) ontological-performance\(^{7}\)-<including-virtue-as-ontology> in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^{17}\)—of-the-human-institutionalisation-process\(^{68}\) or notional~deprocrypticism. Despite such a Derridean decentered-infinite-freeplay conception being the most radical attempt hitherto to overcome the philosophical tradition apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness\(^{1}\), it perfectly grasps the implications to meaningfulness-and-teleology\(^{10}\) ontological-performance\(^{12}\)-<including-virtue-as-ontology> of ‘centered–epistemic-totalisation as of circularity of meaningfulness-and-teleology\(^{10}\) in relative deficient/flawed ontological-performance\(^{12}\)-<including-virtue-as-ontology>’ but rather as within a same horizon of meaningfulness-and-teleology\(^{10}\) ontological-performance\(^{17}\)-<including-virtue-as-ontology>. However, it fails to grasp that such a centered–epistemic-totalisation itself arises because an axiomatic-construct is a circularity of
of the very same domain-of-construal-as-intrinsic-reality/ontological-veridicality it refers to, and so-implied by extension with respect to a given \( \text{reference-of-thought-as-of-} ^{94} \text{reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness} \) a centered–epistemic-totalisation is rather the circular \( \text{meaningfulness-and-teleology} ^{100} \) representation of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’, as the said \( \text{reference-of-thought-as-of-} ^{94} \text{reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness} \) is ‘supposedly always the systemic and indefinite resolution’ of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to—‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’. Now, the issue of a centered–epistemic-totalisation defect arises where the given \( \text{reference-of-thought-as-of-} ^{94} \text{reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness} \) is ontologically-flawed/deficient as it will systematically induce a ‘centered–epistemic-totalisation circularity of \( \text{meaningfulness-and-teleology} ^{100} \) in relative deficient/flawed ontological-performance \( ^{12} -<\text{including-virtue-as-ontology}> \)’ construed as of the uninstitutionalised-threshold \( ^{103} \) of a registry-worldview’s/dimension’s \( \text{reference-of-thought-as-of-} ^{10} \text{reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness} \). But then human limited-mentation-capacity-deepening \( ^{13} \) achieving prospectively of an ultimately theoretically perfect/sound \( \text{reference-of-thought-as-of-} ^{94} \text{reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness} \) as of the full ontological-contiguity \( ^{27} -\text{of-the-human-institutionalisation-process} ^{28} \) as notional–deprocrypticism implies the circular ontologically-flawed/deficient implications of centered–epistemic-totalisation are done away
teleology\textsuperscript{10} ontological-performance\textsuperscript{12}-<including-virtue-as-ontology>; and interestingly, physicists will surely fancy that they could do better in ultimately grasping theoretically the full-potency of existence divulgeable as of ‘the very same physics amplituding/formative-epistemicity-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ with an ambition for a theory of everything. However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered–epistemic-totalisation of a very same \textsuperscript{45}amplituding/formative–epistemicity-totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality in relative deficient/flawed ontological-performance\textsuperscript{12}-<including-virtue-as-ontology>, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-human\textsuperscript{45}amplituding/formative–epistemicity-totalising–purview-of-construal’ which is a given reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’; and for all practical matters this has been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology\textsuperscript{10} ontological-performance\textsuperscript{12}-<including-virtue-as-ontology> has been as of our positivism–procrypticism registry-worldview’s/dimension’s reference-of-thought-as-of-reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’ horizon and such a Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différance as of the latter’s transcendental–epistemic-totalisation that underlies apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness \textsuperscript{1} in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard
talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différance is the notion of syncretising/circularity/interiorising/akrasiatic-drag, as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation reference-of-thought-as-to-postconverging–de-mentating/structuring/paradigming implied transformation/shift as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness reference-of-thought which is in syncretising/circularity/interiorising/akrasiatic-drag with its ultimate crossgenerational collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency –{transparency-of-totalising-entailing,-as-to-entailing} as of prospective relative-ontological-completeness reference-of-thought of the prospective institutionalisation’s reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given
meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening then resolves/overcomes the circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness reflected in the prior mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-undecidable with a new mathematical model/axiomatic-construct in relative ontological-contiguity as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness, and so as of the very same epistemicity-totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limited-mentation-capacity-deepening induces de-mentatively/structurally/paradigmatically grander human meaningfulness-and-teleology ontological-performance—including-virtue-as-ontology> of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-reality/ontological-veridicality, and this equally applies by extension to reference-of-thought—devolving-teleological-de-mentating/structuring/paradigmimg—
of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’. It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicated axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of <meaningfulness-and-teleology> of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/‘reference-of-thought’, as the axiomatic-construct/‘reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<-as-to-perspective–ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> for human-subpotency possibilities for devolving <meaningfulness-and-teleology> as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, with increasing ontological-performance<-including-virtue-as-ontology> as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of
axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity\(^{29}\), whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> as of\(^{55}\) maximalising-recomposuring-for-relative-ontological-completeness\(^{88}\)—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory—de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory—de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context as to existentialising/contextualising/textualising-contiguity\(^{19}\) of other applied and transcendental-
enabling/sublimating/supererogatory-de-mentativity activities as of their axiomatic-constructs
development and mathematics very own existential-reality of developed axiomatic-constructs
applicative orientation, including developing together with heavily dependent mathematics
domains like physics, engineering, other applied sciences and statistical studies. This latter
situation which is more real than generally said and makes of mathematics ‘a
<amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-
intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and
more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers
and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking
cue from the formalisation of mathematics as if it will enable the inherent transcendental-
enabling/sublimating/supererogatory-de-mentativity of any discipline is bound to lead to
disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of
the existential domain in question have to be critically developed as of
existentialising/contextualising/textualising-contiguity knowledge-reification for logic and
mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this
regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is
rather about sublimating-validation/desublimating-invalidation of any such mathematics as it
can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as
such a mathematical demonstration is rather so ‘existentially nominal’ that such
phenomenal/manifest veracity of mathematics is often for all practical purposes mostly
overlooked by mathematicians when involved in their formalisation exercise including ‘formal
proofs’ as to the fact that the existential sublimating-validation/desublimating-invalidation of
mathematics is so nominally obvious that hardly any experimenting is warranted for
confirmation and this existential nominalism can easily lead to a reductionist confusion that
mathematics (as to its epistemic-conception phenomenal/manifest–subpotency-{in-transitive-
conflatedness reflexivity, in-the-full-potency-of-existence’s sublimating nascence) with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as sublimating-withdrawal, eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidication of mathematics as of a ‘very existentially nominal supererogatory acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human corresponding-sublimation-inducing, profound-and-creative supererogatory acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest-subpotencies (in-transitive conflatedness reflexivity, in-the-full-potency-of-existence’s sublimating nascence) given ‘human corresponding-sublimation-inducing, profound-and-creative supererogatory acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodinger’s, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory de-mentativity of the physics <amplituding/formative epistemicity> totalising devolved purview domain of construal as intrinsic reality/ontological-verbatim/existential-reality created axiomatic constructs with mathematics being accessory to the transcendental-enabling/sublimating/supererogatory de-mentativity. They didn’t just start to develop ‘patterns
of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory–de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’. The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory–de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory–de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension—a reference-of-thought-as-of—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness—a reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence—a< implicited-epistemic-veracity-of- nonpresencing—<perspective–ontological-normaley/postconvergence>—that however deficient,
that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed \(^{56}\) meaningfulness-and-teleology\(^{100}\). The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid \(^{84}\) reference-of-thought-as-of-\(^{117}\) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\(^{56}\) meaningfulness-and-teleology\(^{100}\) as of prospective \(^{1}\) depacropticism—or—preempting—disjointedness-as-of- reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional—deprocrypticism psychoanalytic-unshackling metaphysics-of-absence\{(implicated-epistemic-veracity-of- nonpresencing-⟨perspective—ontological-normalcy/postconvergence⟩\}

and apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness\(^{12}\), and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness\(^{13}\) construal of \(^{56}\) meaningfulness-and-teleology\(^{100}\) that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the \(^{45}\) <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag naivety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated \(^{84}\) reference-of-thought, construed as ‘\(^{117}\) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’; usually in our case, in a non-transcendental \(^{45}\) <amplituding/formative–epistemicity>totalising~self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag that is unconsciously implied as of our positivism–procrypticism registry-worldview/dimension. Insightfully, such a ‘suprastructural logic’ undermines metaphysical notions like good, essence and truth as being naively construed as of a given registry-worldview’s/dimension’s \[	ext{amplituding/formative-epistemicity} \text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \]

Being construed as of ontology’s-directedness-as-Being thus enables the superseding of meaningfulness-and-teleology correspondance relation with an epistemic-totalising—domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality as of their given ontological-performance—including-virtue-as-ontology> as validated by ontological-primemovers-totalitative-framework; so-construed as of the implications of human limited-mentation-capacity when developing axiomation-constructs, with the latter subject to their transcendence-and-sublimity/sublimation/supercerogatory—de-mentativity when prospective relative-ontological-completeness —of-axiomatic-construct-or—reference-of-thought avails prospectively with regards to their ontological-veracity are dependent on relative ontological-contiguity; as axiomatic-constructs ontological-veracity are dependent on relative ontological-contiguity;

In axiomatic-construct terms, it is ‘mentally-unsound/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism and by derivation illogical’ to be insisting on articulating notions of relevance to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs like space-time or quanta in terms of ‘traditional classical mechanics axiomatic-construct’ as of their respectively corresponding relative ontological-contiguity\textsuperscript{7} and relative notional-discontiguity/epistemic-discontiguity\textsuperscript{63}–shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema>, and so with regards to ‘the very same physics\textsuperscript{4}–amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. Such mutual unintelligibility, with regards to reference-of-thought, speaks of differing ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of
‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with amplituding/formative-epistemicity-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory—de-mentativity implications as of human limited-mentation-capacity-deepening’, whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify meaningfulness-and-teleology as knowledge which can only arise as of the maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’. Such a logicism disposition is rather in apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising-contiguity)—constitutedness and is behind such naïve contention that philosophy doesn’t carry transcendental implications and actually undermines other approaches that strive for transcendental-enabling/sublimating/supererogatory—de-mentativity by way of conceptual patterning arguments blinded to transcendental implications of knowledge as derived from existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective—ontological-normalcy/postconvergence-implied—'prospective-aporeticism-overcoming/unovercoming’.

<including-virtue-as-ontology>) is the ‘complete scientific archaeological depth’ for grasping ontology and Being as of the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflicatedness of human limited-mentation-capacity implications construed from notional–deprocrypticism perspective as "historiality/ontological-eventfulness"/ontological-aesthetic-tracing—perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism", and consequently doesn’t carry any external ideological implication but rather for the inherent ontological and Being implications. Further as of such phenomenological transcendental apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflicatedness, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression, but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of ontology’s-directedness-as-Being. The phenomenological insight here about the nature of ‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflicatedness as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation selectivity inherent in existence that rather skews presence states towards the ‘ontological statistical-exception’ of intemporality/longness over temporality/shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of

Such ‘ontological statistical-exception’ of intemporal\textsuperscript{1}/longness as of ontology’s-directedness-as-Being permeates all existential processes including life itself. This explains why dimensionality-of-sublimating\textsuperscript{52} \langle\text{amplituding/formative}\rangle supererogatory\textsuperscript{8} de-mentativity/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\rangle mental-disposition behind the ‘inventing’ of prior institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality construed as prior ontology’s-directedness-as-Being is necessarily the requisite mental-disposition for the ‘inventing’ of prospective institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality construed as prospective ontology’s-directedness-as-Being; and so, overcoming temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} on \langle\text{amplituding/formative}\rangle wooden-language\{imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing – narratives—of-the–reference-of-thought–categorical-imperatives/axioms/registry-teleology } as of uninstitutionalised-threshold\textsuperscript{102} failing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Ultimately, phenomenology is all about grasping the apriorising/axiomatising/referencing–(of–existentialising/contextualising/textualising-contiguity )—conflatedness\textsuperscript{12} of ontology’s-directedness-as-Being. Furthermore, just as a transcendental-enabling/sublimating/supererogatory-de-mentativity biological science in relative ontological-contiguity\textsuperscript{87} of \langle\text{reference-of-thought}\rangle will dissociate modern-day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say th century Mendelian heredity however its inherent merits, and will not
naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory–de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating/supererogatory–de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening as of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-amplituding/formative–epistemicity>totalising-purview-of-construal’ or <amplituding/formative–epistemicity>totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory–de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory–de-mentativity implications, which in
reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human meaningfulness-and-teleology ontological-performance—including-virtue-as-ontology, as of the very same amplituding/formative-epistemicity totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. The amplituding/formative-epistemicity totalising-renewing-realisation/re-perception/re-thought involves taking cue from existence as to existentialising/contextualising/textualising-contiguity/contexts as of existential-instantiations imbricatedness/threadedness/recomposuring in a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation exercise as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity. The notion of axiomatic-construct in ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity. Ontological-
contiguity rather highlights relative perspectives as of ontological-normaleyy/postconvergence depths of axiomatic-construct/ reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity – shallow-supererogation – of mentally-aestheticised–preconverging/dementing –qualia-schema rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity’ – shallow-supererogation –of-mentally-aestheticised–preconverging/dementing –qualia-schema will seem to imply correlatedness by the very nature of the term continuity. Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of-existence’s–sublimating–nascence problem but rather a problem of human-subpotency as of its limited-mentation-capacity that is resolvable by the deepening of human limited-mentation-capacity as of de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with respect to reference-of-thought; as contrary to the ‘Derridean différance decentering’ freplay that is entrapped in circularity of meaningfulness-and-teleology on the wrong implied assumption of the same perpetual horizon as registry-worldview/dimension reference-of-thought so-implied as of our positivism mental-disposition, a ‘futural différance’ recognises that human limited-mentation-capacity transcendence-and-sublimity/sublimation/supererogatory–de-mentativity brings about prospective relative-ontological-completeness reference-of-thought, and thus it centers-as-postconverging-or-dialectical-thinking apriorising-psychologism the prospective institutionalisation’s reference-of-thought-as-of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of its prospective relative-ontological-completeness reference-of-thought to override the circularity as notional-discontiguity/epistemic-discontiguity – shallow-supererogation – of mentally-

But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness—of-reference-of-thought apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity)—conflatedness which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered—epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory—de-mentativity conflictedly implying overriding the prior institutionalisation’s centered—epistemic-totalisation-facticity for the prospective institutionalisation’s centered—epistemic-totalisation-facticity. But then ontological-contiguity—of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory—de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism as of human amplituding/formative—epistemicity—totalising—self-referencing—

Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as \textsuperscript{10} <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ of \textsuperscript{6} meaningfulness-and-teleology\textsuperscript{100} with regards to perceived social-
stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory~de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology within a given social-setup in the immediate-and-short-term. Transcendence-and-sublimity/sublimation/supererogatory~de-mentativity as of prospective relative-ontological-completeness-of-reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of–meaningfulness-and-teleology given their supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming as-being-as-of-existential-reality> as of more profound
ontological-primemovers-totalitative-framework validation as to existence-potency—sublimating-nascence-disclosed-from-prospective-epistemic-digression, as re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-imbued-postconverging/dialectical-thinking -’projective-insights’/’epistemic-projection-in-conflatedness ’of-notional-deprocrypticism-prospective-sublimation], that are most likely to be syncretised crossgenerationally as providing the most overall positive-opportunism by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment—’implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging-de-mentating/structuring/paradigming—as-being-as-of-existential-reality> is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation meaningfulness-and-teleology as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought> with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of-meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-
possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence-and-sublimity/sublimation/supereorogatory-de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-

Such prospective metaphoricity possibility cannot be
preempted because even the social-setup convectioning in its functional operation of meaningfulness-and-teleology\textsuperscript{100} needs this supposedly coherent ontological-commitment\textsuperscript{56}–<implied—self-assuredness-of-ontological-good-faith/authenticity \textsuperscript{69}~postconverging–de-mentating/structuring/paradigming \textsuperscript{70}–as-being-as-of-existential-reality> in other to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology\textsuperscript{100} that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity \textsuperscript{56} in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology\textsuperscript{100} is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework\textsuperscript{45}–<amplituding/formative–epistemicity> causality\textsuperscript{61}–as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity> as of the social-setup given supposedly coherent ontological-commitment\textsuperscript{66}–<implied—self-assuredness-of-ontological-good-faith/authenticity \textsuperscript{69}~postconverging–de-mentating/structuring/paradigming \textsuperscript{70}–as-being-as-of-existential-reality>. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment\textsuperscript{66}–<implied—self-assuredness-of-ontological-good-faith/authenticity \textsuperscript{69}~postconverging–de-mentating/structuring/paradigming \textsuperscript{70}–as-being-as-of-existential-reality> respectively as of superstitious spiritualism\textsuperscript{59} meaningfulness-and-teleology\textsuperscript{100} or scholasticism pedantic dogmatism\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100}, as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{69}~postconverging–de-mentating/structuring/paradigming\textsuperscript{70}–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{69}~postconverging–de-mentating/structuring/paradigming\textsuperscript{70}–as-being-as-of-
existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment of existential-reality of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology, and so as of the prospectively induced ontological-primemovers-totalitative-framework superseding meaningfulness-and-teleology as from existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression epistemic/notional–projective-perspective of relative-ontological-completeness reference-of-thought by way of ontological-primemovers-totalitative-framework such as with prospective positivism/rational-empiricism meaningfulness-and-teleology. However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity and by that token elicit sophistic/pedantic inclinations to such prospective metaphoricity meaningfulness-and-teleology. Further any such prospective metaphoricity ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism as of particular and general social interest. That said, a social-setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the fact of greater existentialising/contextualising/textualising-contiguity knowledge-reification from prospective metaphoricity which may involve undermining such ‘existentially invested’ registry-worldview/dimension in its wooden-language<imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications> means that it doesn’t necessarily construe such prospective metaphoricity as
value as of prospective seconndnatured institutionalisation rather occurs as of the superseding of untransvaluated–temporal-intemporality. Ultimately, prospective metaphoricity in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuations realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality /longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-disposition as to absolute ontological-commitment–hypothetically implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality. More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling–in-deferential-formalisation-transference, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology–in-existential-extrication-as-of-existential-unthought with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism–procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of ontological-primemovers-
totalitative-framework\textsuperscript{71}, so long as it is socially and institutionally credible to uphold non-positivism \textsuperscript{72} meaningfulness-and-teleology\textsuperscript{100} in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity\textsuperscript{77} that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of \textsuperscript{104} universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks de-mentatively/structurally/paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma as of social-stake-contention-or-confliction) construe of such sophistic/pedantic disinclination as implying notional-discontiguity/epistemic-discontiguity\textsuperscript{103}—\langle shallow-supererogation of mentally-aesthetised~preconverging/dementing –qualia-schema\rangle with their prospectively implied metaphoricity\textsuperscript{1}; with the consequence that there can’t be common/mutual aposteriorising/logicising/deriving/intelligising/measuring as of dialogical-equivalence\textsuperscript{1}<as-to-psychologismic~apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness ,-in-self-becoming/self-conflatedness /formative–supererogating> and intellectual-and-moral-equivalence and inherently so because of the sophists—ideal-type-or-individuation and
relative-ontological-completeness\textsuperscript{88} of reference-of-thought as of the successive registry-worldviews/dimensions institutionalisations. In other words, it is human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that ultimately ‘vouches’ for every given registry-worldview’s/dimension’s institutionalisation at its uninstitutionalised-threshold\textsuperscript{93} for the possibility of a correspondence between human limited-mentation-capacity and the ‘inherent centered–epistemic-totalisation-as-existence’, as of Being orientation of pursuing-and-attaining ontological-completeness-of reference-of-thought. It is only such a apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness perspective as of notional–deprocrypticism that can articulate a conceptualisation of meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{9}—<including-virtue-as-ontology> as of a notional–correspondence to existence/existential-possibilities, thus avoiding <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatc-drag\textsuperscript{33} misconstrual as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness\textsuperscript{1}. Insightfully with respect to human temporality\textsuperscript{99}/shortness including postlogism\textsuperscript{78} and conjugated-postlogism\textsuperscript{78} and as reflected by psychopathy and social psychopathy in our positivism–procrypticism, the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness\textsuperscript{12} of notional–deprocrypticism points out that given human limited-mentation-capacity its reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as of implicated-and-explicated\textsuperscript{84} reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100}

Again, the latter institutionalisation’s meaningfulness-and-teleology ontological-performance—including-virtue-as-ontology is equally vouched by transcendentally-complementing ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality at its given uninstitutionalised-threshold, as its own reference-of-thought—categorical-imperatives/axioms/registry-teleology can also be denaturing as of beyond-the-consciousness-awareness-teleology—in-existential-extrication—as-of-existential-unthought as of their wooden-language—{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing

existential-unthought while the latter is upholding reference-of-thought—categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. Actually such an ordinary mental-reflex of a ‘neuter framework of reference-of-thought putting the notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ when it comes to social-stake-confliction-or-contention is only valid as of ‘mutual conceptualisation as of a given institutionalisation with a common ontological-reference-of-thought’ wherein it is then strictly a matter of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in determining ontological-veracity. But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of-reference-of-thought as of the prospective relative-ontological-completeness—of reference-of-thought in intemporal-longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness—of reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of temporality/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively procrypticism—or—
disjointedness-as-of-reference-of-thought with intemporality\(^2\)/longness rather as respectively in base-institutionalisation, \(^{10}\)universalisation, positivism and prospectively \(^{17}\)deprocrypticism—or-preempting—disjointedness-as-of-reference-of-thought. The bigger point here being that the very notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising-contiguity)—conflatedness\(^2\) actually construes of more profound \(^{84}\)reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^{100}\) that override the prior reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^{100}\) as failing to uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, and so as of differing references-of-thought in transversality—\(\text{for-sublimating—existential—eventuating/denouement}\) of affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ ontological unintelligibility. Neuterisation of analysis as so articulated is effectively a deficient human mental-reflex as of its naïve predisposition to imply ‘equivalence of consideration’ without factoring prospective relative-ontological-completeness—of—reference-of-thought—<amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications—of—prospective—nonpresencing.—for—explicating—ontological-contiguity of differentiated axiomatic/reference-of-thought teleological projection as of temporal teleologically-degraded-devolving-as-of-uninstitutionalised-threshold\(^3\) and intemporal elevated-devolving-as-of-prospective-institutionalisation. The fact of temporal-to-intemporal variance of prospective relative-ontological-completeness—of—reference-of-thought ultimately reflects the fact that the apparent ordinarily assumed ‘axiomatic commonness-in-sharedness of human—meaningfulness-and-teleology\(^{100}\) with regards to the—very—same—immanent—existence/intrinsic—reality/ontological—veridicality,—as—to—human—<amplituding/formative—epistemicity>totalising—purview—of—construal’” is in effect ‘only valid as of within a registry-worldview’s/dimension’s institutionalisation framework’, and

This is actually the ontologically-veridical phenomenological transcendental framework for construing/conceptualising human temporal character and social formation mental-dispositions as of uninstitutionalised-threshold and prospective-institutionalisation based on the dynamics of limited-mentation-capacity, unlike a naïve neuterising mental-reflex that by its <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag fails to attain such a apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-

Central and critical to achieving such a deneuterising analysis in grasping the full and complete possibilities of ontologically-veridical construal of human meaningfulness-and-teleology given human temporal-to-intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-threshold is the notion of beyond-the-consciousness-awareness-teleology —<in-existential-extrication-as-of-existent-unthought>. It is exactly what renders a veridical ontological-escalation or aetiologisation of the human condition possible as the historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism> of apriorising/axiomatising/referencing—<of—existentialising/contextualising/textualising—contiguity — conflatedness as of notional-deprocrypticism. It is most critical because at any registry-worldview/dimension, human self-consciousness is a <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as of being-only-in-institutionalisation-and-hence-only-of—a—meaningfulness-and-teleology—that-is-intemporal while defectively ignoring-and-undermining the veridicality of uninstitutionalised-threshold—and-its-assorted-and-conjugated-temporal—meaningfulness-and-teleology such that transcendence-and-sublimity/sublimation/supererogatory—dementativity is always perceived as unnatural when <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, in the sense that ‘it-is-others,—as-of-the-prior-registry-worldviews/dimensions,—that-have-an—uninstitutionalised-threshold—and-the-notion-of-transcendence-is-only-relevant-to-them-as-the-current-presence-is-normal’. The implications of such human mental-reflex as it overlooks human uninstitutionalised-threshold points to the reality that the implied prior institutionalisation ‘projected reflex of entailing—'}

onconviction/madeupness/bottomlining-as-to-shallow-suprerogation\textsuperscript{97} with respect to
pertinently-perceived social-stake-contention-or-confliction contexts arises due to (beyond-the-
consciousness-awareness-teleology\textsuperscript{100—<in-existential-extrication-as-of-existential-unthought>})
constraint of human limited-mentation-capacity as of prospective human aporeticism such that
this induces as of various existential-instantiations ‘ontologically-flawed  meaningfulness-and-

ontologically-veridical  meaningfulness-and-teleology\textsuperscript{100—ontological-performance—<including-virtue-as-ontology> as fundamentally underscored by the prospective
institutionalisation. Thus this determines a consequential ‘dynamic beyond-the-consciousness-
awareness-teleology\textsuperscript{100—<in-existential-extrication-as-of-existential-unthought> limited-
mentation-capacity constraint’ as reflected from a ‘notional—deprocrypticism-referentialism-as-
prospective institutionalisation to preempt the temporally denaturing categorical-imperatives/axioms/registry-teleology of the prior institutionalisation, but rather the deneuterising construal of the very ‘limited-mentation-capacity as of human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor as the beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought> constraining dynamism’ behind the denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology in the very first place; conceptualised henceforth as the very reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of the notional–deprocrypticism registry-worldview/dimension institutionalisation as of its implied notional–deprocrypticism. Overall, the fact is that given that what is most relevant to the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perception-and-relation to meaningfulness-and-teleology over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits-and-mental-dispositions, to mere propositions of probity rather than in the face of weak-
disjointedness-as-of-reference-of-thought. The issue of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{100}\) or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of—meaningfulness-and-teleology\(^{100}\) mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that is behind organic-knowledge. Human <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology\(^{100}\)-<in-existential-extrication-as-of-existential-unthought>\(^{6}\) are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold \(^{03}\) in temporal/shortness-of-register-of—meaningfulness-and-teleology\(^{100}\) terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity—of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturings of knowledge as
of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism>’ is in a state of <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of a medieval worldview will grasp that that unique demonstration of medieval-postlogism/perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as ‘prelogic supplanting-conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking-apriorising-psychologism re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/reference-of-thought into a positivistic
in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\); as we can appreciate that despite the positivistic inclinations of the Copernicus, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory–de-mentativity not only to science but transcendental-enabling/sublimating/supererogatory–de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\) with respect to the prospective registry-worldview/dimension as resolving the vices-and-impediments\(^{100}\) of the prior registry-worldview/dimension. But then no matter the succession of institutionalisations as successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\), there is an ever present issue of Being underdevelopment as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor wherein institutionalising reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\)
are always subject at uninstitutionalised-threshold to their denaturing as of their wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology }, as of temporal failing to uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Hence Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology given human limited-mentation-capacity is rather upheld by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation wherein the abstract intemporal/longness-of-register-of—meaningfulness-and-teleology behind the prior registry-worldview institutionalisation should equally be reflected as of prospective registry-worldview institutionalisation, and involving the requisite deferential-formalisation-transference secondnaturing of knowledge as organic-knowledge. We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology —as-of—’nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>’ are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating

ontological-performance\textsuperscript{4}-\langle\text{including-virtue-as-ontology}\rangle-implications. The implication of this
dilemma is the reality that society is always subpar to a knowledge social determination as well
as subpar to a sovereignty social determination. This dilemma is unavoidable by the very
implications of a society: every social-setup as a conventional-construct can only be held
together in the long-term as of its requisite given registry-worldview’s/dimension’s
institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-
adherence-at-worst to the said institutionalisation-level’s \textsuperscript{5}reference-of-thought–\textsuperscript{6}categorical-
impératives/axioms/registry-teleology\textsuperscript{00},-for-
aposteriorising/logicising/deriving/intelligising/measuring–\textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100}
with regards to meeting a basic level of individuals and social existential-possibilities
expectations; such that the notions of knowledge and sovereignty can only be ‘socially
effective’ within this articulated framework as enabled by ‘social\textsuperscript{10}universal-transparency\textsuperscript{104}\langle\text{transparency-of-totalising-entailing,-as-to-entailing-}\textsuperscript{45}\langle\text{amplituding/formative–}\text{epistemicity}\rangle\text{totalising~in-relative-ontological-completeness }\rangle\textsuperscript{88}\rangle’. This articulation can be
elucidated more explicitly in cases of cultural diffusion between societies of differing
institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation
knowledge-level transference, but involves a mutual sense of sovereign selectivity and
recognition among the societies, however the drive for cultural diffusion; thus allowing for
‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of
\langle\text{amplituding/formative–}\text{epistemicity}\rangle\text{totalising~self-referencing-syncretising’ prior to
eventual prospective relative-ontological-completeness\textsuperscript{88}of-\textsuperscript{4}reference-of-thought
accommodation. This is equally the knowledge and sovereignty dynamics that prevails within
any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather
through an exercise of increasing ‘social universal-transparency’ thus enabling ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing—as-veridical-epistemic-determinism—as-veridical-epistemic-determinism—a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. However, all along this ontological-contiguity—of-the-human-institutionalisation-process a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of various pertinent social manifestations: —wherein sovereignty is affirm over knowledge as ‘supposedly being knowledge’ by a culture of mere social-aggregation-enabling of temporal-to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-enabling/sublimating/supererogatory—de-mentativity in formal institutional percolation-channelling—<in-deferential-formalisation-transference>, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality—as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-
informality that permeates even formal institutions; wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory—de-mentativity as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression; the ontologically-flawed articulation of knowledge by an intellectual disposition akin to wooden-language—{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology },—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology undermining knowledge as of its organic true nature implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and—apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind prior ‘knowledge inventing’ and prospective ‘knowledge inventing’, and so as of intellectual institutional-being-and-craft; ultimately the very paradox of human <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag means that the human sovereign psyche is one that is geared to construe of ‘presence as all-encompassing’ meaningfulness-and-teleology value construct’ such that the transcendental implications of knowledge by mental-reflex are construed as of ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation to presence, rather than as of <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-
thought of presence construed as of prospective relative ontological-contiguity over prior/transcended/superseded relative notional-discontiguity/epistemic-discontiguity —shallow-supererogation —of-mentally-aestheticised—preconverging/dementing —qualia-schema. However despite this knowledge and sovereignty dilemma associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, the insight about human <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag as of self-referencing and syncretising—effecting intemporal implications means that the requisite intemporal/longness-of-register-of—meaningfulness-and-teleology psychoanalytic-unshackling positive-opportunism can crossgenerationally be induced for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology despite the inherent circular distractiveness of temporality, and ultimately so as enabled by ‘social universal-transparency —{transparency-of-totalising-entailing,—as-to-entailing— <amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness ’. The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory—dementativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism—meaningfulness-and-teleology constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaus, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and
how it develops given the inherently untransformable human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-
perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor as of human
limited-mentation-capacity. Thus in reflecting holographically-<conjugatively-and-
transfusively> the ontological-contiguity —of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other
half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting
‘social universal-transparency’-{transparency-of-totalising-entailing,-as-to-entailing-
amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness’}. As
it is the latter that induces that social positive-opportunism for deferential-formalisation-
transference and institutional percolation-channelling-<in-deferential-formalisation-
transference>, as of social deferential attribution of power for the beneficial effect of
knowledge as empowering various institutional domains. Further, as implying the superseding
of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in
destabilising the underlying existential reference-of-thought, transcendental knowledge is of a
circular but consistent exercise of <amplituding/formative–epistemicity>totalising–renewing-
realisation/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it
is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-
discontiguity—<shallow-supererogation -of-mentally-
aestheticised–preconverging/dementing –qualia-schema> reference-of-thought and

regard, that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as

While the emotional involvement and sense of ‘existential ego undermining’ involved in such a transcending reification gesturing of axiomatic-constructs as of the very same amplituding/formative—totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality is relatively trite as occurring within the same registry-worldview/dimension reference-of-thought as of the positivistic/rational-empiricism meaningfulness-and-teleology mindset as well as its distance rather with respect to physical reality, such a transcending reification gesturing as of the grandest axiomatic-constructs having to do with consciousness with regards to the ‘very reference-of-thought itself’ wherein the prospective ontological-contiguity reference-of-thought as deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought implies a transcending reification gesturing that not only affirms notional—deprocrypticism prospective registry-worldview/dimension but in that affirmation/projection/assertion/dueness-validating—logicising/suitable-measuringinstrument-validating-measuring—as-to-postconverging-or—dialectical-thinking—apriorising-psychologism as of its ontological-completeness-of—reference-of-thought de-asserts/dements our positivism—procrypticism registry-worldview/dimension, this will elicit an existential and emotional involvement that will rather convert into a circular neuterisation of notional—deprocrypticism by a mental-complex avoiding such emotional discomfort and sense of existential ego undermining as is the case with all destructuring-threshold—uninstitutionalised-threshold/presublimating—desublimating-decisionality—of-ontological-performance—<including-virtue-as-ontology>
with respect to their prospective institutionalisations. This explains why it is not a fundamental contradiction as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence>—existentialism-form-factor at uninstitutionalised-threshold\(^1\) that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed ‘uninstitutionalised-threshold\(^2\) by prospective institutionalisation dialogical-equivalence<as-to-psychologismic–apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness,-in-self-becoming/self-conflatedness/formative–supererogating>. This can’t be the case because dialogical-equivalence<as-to-psychologismic–apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness,-in-self-becoming/self-conflatedness/formative–supererogating> can only arise where there is ‘common reference-of-thought’ whereas a state of institutionalisation as of prospective relative-ontological-completeness of reference-of-thought is veridically in an institutionalising/enlightening/educating exercise relative to a state of uninstitutionalised-threshold as of prior relative-ontological-incompleteness of reference-of-thought, and not such a flawed notion of dialogical-equivalence<as-to-psychologismic–apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness,-in-self-becoming/self-conflatedness/formative–supererogating>. We can appreciate even within a same reference-of-thought like our positivism/rational-empiricism registry-worldview/dimension that there is no dialogical-equivalence<as-to-psychologismic–apriorising/axiomatising/referencing-(of–

the ontological-contiguity of the human-institutionalisation-process; and so as of notional-discontiguity/epistemic-discontiguity; and so as of notional-discontiguity/epistemic-discontiguity of the uninstitutionalised-threshold and the prospective institutionalisation. Such a temporal/shortness-of-register-of-meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supererogatory-de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of-meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism’ it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care–and–episteme as of intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-teleology rather in nonextricatory-existential-preempting-of-existential-unthought terms–as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-
disposition/care–and–episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adopting of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms–as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness reference-of-thought meaningfulness-and-teleology. Likewise articulated as of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought relative to our positivism–procrypticism necessarily requires priorly the requisite apriorising-teleological-elevation-in-ontological-contiguity from positivism–procrypticism’s disjointedness-as-of-reference-of-thought mindset into deprocrypticism’s preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as otherwise such knowledge will be teleologically-degraded in circular positivism–procrypticism disjointedness-as-of-reference-of-thought terms–as-of-axiomatic-construct as of prior relative-ontological-incompleteness of reference-of-thought meaningfulness-and-teleology, even though in the latter case our <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence⟨implicated-nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness ⟩ blinds us to appropriately appreciating this given the human mental-reflex of representing any uninstitutionalised-threshold as nondescript/ignoreable–void (actually speaking of
akrasiatic-drag-denatured-and-preconverging-or-dementing narratives) as of our <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag. The point here is that the
meaningfulness-and-teleology so-construed has to supersede the prior registry-
worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon/projection for its prospective transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity-enabling purpose, even if that implies
being temporally unpalatable, given that the fundamental purpose for the underlying
aetiolisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-
recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation
postconverging–de-mentating/structuring/paradigmning and not temporal extricatory
preconverging–de-mentating/structuring/paradigmning. Put another way, for instance,
Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can
appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with
an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlining its meaningfulness-and-teleology thus requiring the latter’s prior apriorising-
teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of
Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-
disposition/care–and–episteme with respect to human meaningfulness-and-teleology, as it is what underlies apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given registry-worldview’s/dimension’s institutionalisation reference-of-thought.
Attitude/mental-disposition/care–and–episteme as such carries a registry-
worldview’s/dimension’s ‘underlying sense of end-teleology/end-purposefulness’ and
disambiguated-‘motif-and-apriorising/axiomatising/referencing’ inducing a given specific
nonpresencing-<perspective–ontological-normalcy/postconvergence> outcome with regards
to prospective relative-ontological-completeness -or-incompleteness-of- reference-of-thought
as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-
upholding the underlying framework of ‘meaningfulness-and-teleology’ associated with that
attitude/mental-disposition/care–and–episteme; and so, whether such a framework is a
reference-of-thought as of overall construal-as-existence/existential-possibilities, or within a
reference-of-thought like a social projection <amplituding/formative–epistemicity> totalising–devolved–purview-as-domain-of-construal-as-intrinsic-
reality/ontological-veridicality or specifically with living-as-of-human-personality-developing.
For instance, with respect to coming across and living say in an early hunter-gather society with
its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-
unflinching transversality<for-sublimating–existential-eventuating/denouement>~of-
affirmative-and-unaffirmative–disambiguated-‘motif-and-
apriorising/axiomatising/referencing’ as of the attitude/mental-disposition/care–and–
episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-
theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-
conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-
teleology <in-existential-extrication-as-of-existential-unthought> as when we publicly
pretend to act otherwise by subscribing to the interpretation within such a social-setup. As
construed within a given ‘reference-of-thought, say in our positivism/rational-empiricism
‘reference-of-thought we can further have the conception of the physics or biology or law or
literature or even just entrepreneur or accountant or technician specific attitude/mental-
disposition/care–and–episteme, and further at the individual level as of changing
attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-
developing. Attitude/mental-disposition/care–and–episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme’ as dispensing-with-immediacy-for-relative-ontological-completeness\(^5\) /by-reification\(^7\) /contemplative-distension\(^6\) (as of human self-surpassing—existentialism-form-factor, in-overcoming—notionally–collateralising-beholdening-protohumanity’-to-‘attain-sublimating-humanity’-as-to-existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression to supersede human temporality\(^9\) /shortness <amplituding/formative> wooden-language-⟨imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of—'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩⟩ to be able to achieve transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, and so as of intemporality\(^5\). With regards to living-as-of-human-personality-developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness\(^5\) /by-reification\(^7\) /contemplative-distension\(^6\) as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness\(^5\) /by-reification\(^7\) /contemplative-distension\(^6\) that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness\(^5\) /by-reification\(^7\) /contemplative-distension\(^6\) as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development–as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness\(^5\) /by-reification\(^7\) /contemplative-distension\(^6\) is construed as the more
episteme in an early hunter-gather social-setup inclined to construe of ill-health as bad omen; and appreciate that the human-subpotency is much more than stalling at any prior relative-ontological-incompleteness-of-reference-of-thought registry-worldview/dimension, and so not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care-and-episteme can pertinently be defined as the ‘assumed-and-unflinching transversality<for-sublimating-existential-eventuating/denouement>--of-affirmative-and-unaffirmative--disambiguated--motif-and-apriorising/axiomatising/referencing’ inducing a given specific nonpresencing->perspective--ontological-normalcy/postconvergence> outcome with regards to prospective relative-ontological-completeness-or-incompleteness-of-reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-teleology associated with that attitude/mental-disposition/care-and-episteme. It can be construed with regards to prospective transcendence-and-sublimity/sublimation/supererogatory--de-mentativity as a de-mentative/structural/paradigmatic adjunctive-metaphoricity-signification inducing-and-upholding a prospective ‘underlying <amplituding/formative--epistemicity> totalising/circumscribing/delineating signifying-construct as <amplituding/formative--epistemicity> totalising/circumscribing/delineating reference-of-thought--devolving’. In other words, a registry-worldview’s/dimension’s reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is utterly apprehended decisively by its given attitude/mental-disposition/care-and-episteme as of the ‘assumed-and-unflinching transversality<for-sublimating-existential-eventuating/denouement>--of-affirmative-and-unaffirmative--disambiguated--motif-and-apriorising/axiomatising/referencing’. This insight is critical as for instance with appreciating what is implied by futural Being-development/ontological-framework-expansion--as-to-depth-of-ontologising-development-as-infrastructure-of--meaningfulness-and-teleology as of
prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme by its given specific nonpresencing&lt;perspective—ontological-normalcy/postconvergence&gt; outcome; as we simply have to project/anticipate its ‘assumed-and-unflinching

This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care—and–episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care—and–episteme of a given institutionalisation’s reference-of-thought as of prospective relative-ontological-completeness—of-axiomatic-construct-or—reference-of-thought and thus its corresponding meaningfulness-and-teleology, and the other doesn’t as of prior relative-
ontological-incompleteness\textsuperscript{89}. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{89}—of-the-human-institutionalisation-process\textsuperscript{68}, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology\textsuperscript{100}, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its ontological-primemovers-totalitative-framework\textsuperscript{73} induced positive-opportunism as of scientific, medical, technical advancements, free society, etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology\textsuperscript{100} while averting its denaturing by wrongly implying notional-contiguity/epistemic-contiguity\textsuperscript{67} <profound-supererogation of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> with scholasticism. But rather implying notional-discontiguity/epistemic-discontiguity\textsuperscript{63} <shallow-supererogation of-mentally-aestheticised-preconverging/dementing–qualia-schema> given the latter’s flawed preconverging–de-mentating/structuring/paradigming as of prior relative-ontological-incompleteness reference-of-thought. The insight here is that more fundamentally knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating/supererogatory–de-mentativity above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality.
exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-primemovers-totalitative-framework’, and so beyond institutional-being-and-craft and social-aggregation-enabling wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications⟩⟩. Where these latter practices become de rigueur as of beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existential-unthought⟩ denaturing of the requisite intellectualism required for further Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-developement-as-infrastructure-of—meaningfulness-and-teleology, and start undermining knowledge construction as of its intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity, effectively there shouldn’t be any compunction as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming to overlook them and imply intellectual-and-moral-inequivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in other to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing predisposition. This is critically the case with registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–dementativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-
teleology<in-existential-extrication-as-of-existential-unthought> prior relative-ontological-incompleteness<reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology in terms—as-of-axiomatic-construct of presencing—absolutising-identitive-constitutedness while the new/prospective/superseding as of its prospective relative-ontological-completeness<reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology in terms—as-of-axiomatic-construct of prospective nonpresencing<perspective—ontological-normalcy/postconvergence>. This brings home the reality that it is inevitable that all uninstitutionalised-threshold are necessarily ‘de-mentatively/structurally/paradigmatically conflicted’, with prospective transversality<for-sublimating—existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing ontological-primemovers-totalitative-framework being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence<as-to-psychologismic—apriorising/axiomatising/referencing—of—existentialising/contextualising/textualising-contiguity—conflatedness—in-self—becoming/self-conflatedness/formative—supererogating at any such uninstitutionalised-threshold; as fundamentally the issues faced by the Descartes, Galileos, Diderots, etc. as of ‘budding-positivism/rational-empiricism attitude/mental-disposition/care—and—episteme’ are de-mentatively/structurally/paradigmatically fundamentally inevitable as of their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence<as-to-psychologismic—apriorising/axiomatising/referencing—of—existentialising/contextualising/textualising-contiguity—conflatedness—in-self—becoming/self-conflatedness/formative—supererogating is de-
mentatively/structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care–and–episteme\textsuperscript{5} reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation, but then at its uninstitutionalised-threshold\textsuperscript{15} (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{5} reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation) scholasticism and positivism are rather in transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif–and-apriorising/axiomatising/referencing\textsuperscript{6}: as so reflected in their mutually beyond-the-consciousness-awareness-teleology\textsuperscript{100} <in-existential-extrication-as-of-existential-unthought>\textsuperscript{5}. This is equally reflected with regards to the prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implying knowledge proponents, as the very notion of implying a prospective transcendental conceptualisation as of organic-knowledge is one that undervalues the \textsuperscript{10}presencing—absolutising-identitive-constitutedness\textsuperscript{11} attitude/mental-disposition/care–and–episteme\textsuperscript{5} as of its social-stake-contention-or-confliction while the very notion of perceiving highly the \textsuperscript{11}meaningfulness-and-teleology\textsuperscript{100} within a prior institutionalisation framework is one that is necessarily apprehensive and shallow-minded to the notion of a prospectively undermining prospective \textsuperscript{11}nonpresencing–<perspective–ontological-normalcy/postconvergence> sublimity/sublimation/supererogatory–de-mentativity episteme transcendence-and-attitude/mental-disposition/care–and–and–reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–

Thus ontological-bad-faith/inauthenticity\(^64\) as of its charlatanic effect undermines, as of beyond-the-consciousness-awareness-teleology\(^10\)-\(<\text{in-existential-extrication-as-of-existential-unthought}>\), the articulation of meaningfulness-and-teleology\(^{100}\) as of prospective maximalising-recomposuring-for-relative-ontological-completeness\(^5\) — unenframed-conceptualisation that could jeopardise pre-established temporal interest, and cultivating rather incrementalism-in-relative-ontological-incompleteness\(^9\)—enframed-conceptualisation as of prior reasoning-from-results/afterthought in overlooking concurrent ontological-primemovers-totalitative-framework\(^7\) strife to uphold-and-promote the ‘superior party’ which is the nonpresencing\(<\text{perspective–ontological-normalcy/postconvergence}>\) of existence/intrinsic-reality/ontological-veridicality; with such intellectual-bad-faith rather advancing such an incrementalism-in-relative-ontological-incompleteness\(^9\)—enframed-conceptualisation accommodating framework for strategically cultivating pre-established temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness\(^9\)—enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates
by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-primemovers-totalitative-framework, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation that in many ways could just as well validate wooden-language-averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications} and untransvaluated—temporal-intemporality attitude/mental-disposition/care—and—episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness) that usurps the very notion of scepticism in incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory—de-mentativity. This poor scepticism attitude/mental-disposition/care—and—episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has <preconverging—‘motif-and-apriorising/axiomatising/referencing’—imbuing>existentialising—enframing/imprintedness—(as—to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) implications as of the forestalling of prospective ‘concurrent ontological-primemovers-totalitative-framework’ upholding of the
primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleology, given human limitation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms–as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness, ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective- nonpresencing,—for-explicating-ontological-contiguity’ and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidious passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy—for-relative-ontological-completeness-by-reification/contemplative-distension, a perfidious ontological-bad-faith/inauthenticity scepticism involves eliciting a sense of immediacy and temporality/shortness as of wooden-language-<imbuéd—averaging-of-thought—<as-to-

is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency\(^\text{104}\) -(transparency-of-totalising-entailing,-as-to-entailing-\(^\text{4}\)<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\), an apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology\(^\text{56}\) with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective relative-ontological-completeness\(^\text{88}\) of reference-of-thought point to more profound reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity\(^\text{64}\) between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology\(^\text{100}\) with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ with respect to social universal-transparency\(^\text{104}\) -(transparency-of-totalising-entailing,-as-to-entailing-\(^\text{4}\)<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\); and so more than just as of beyond-the-consciousness-awareness-teleology\(^\text{100}\) -<in-existential-extrication-as-of-existential-unthought>, but further because as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-

It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ across the entire social spectrum as of notional–episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity—of-the-human-institutionalisation-process as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>‘existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthhoods of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, antinihilism and transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as
safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of meaningfulness-and-teleology ontological-performance-including-virtue-as-ontology turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology ontological-performance-including-virtue-as-ontology, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of ontology’s-directedness-as-Being going by the human intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality/shortness or intemporality; such that even the budding-positivists carried elements of scholasticism but
that can render it untenable for procrypticism temporal mental-dispositions to elicit procrypticism–or–disjointedness-as-of-reference-of-thought implied temporality. Thus aetiological/ontological-escalation is not about transforming the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturesdness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor as overcoming temporality/shortness inherently, but rather it is about bringing about prospective relative-ontological-completeness-of-reference-of-thought. The reality of human registry-worldview’s/dimension’s institutionalisation and uninstitutionalised-threshold mental-dispositions imply that at the uninstitutionalised-threshold prospective institutionalisation knowledge as transcendental-enabling/sublimating/supererogatory–de-mentativity is not socially integrated directly as of an dimensionality-of-sublimating<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-confledness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> exercise engaging with intemporal-as-ontological meaningfullness-and-teleology. Such prospective intemporal-as-ontological meaningfullness-and-teleology is not necessarily perceived at the uninstitutionalised-threshold as any more pertinent for attaining social approbation than other temporal meaningfullness-and-teleology as of the said uninstitutionalised-threshold. This point out that maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation mental-dispositions in their intemporality/longness or longness-of-register-of-meaningfullness-and-teleology are as of a projected-or-anticipated apriorising/axiomatising/referencing–(of–existentialising/contextualising/textualising-contiguity)—confledness of social universal-transparency—(transparency-of-

That is at the uninstitutionalised-threshold\textsuperscript{103} such intemporal-as-ontological \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{00} is pragmatically expounded socially not in terms of its inherent dimensionality-of-sublimating \textit{\textbf{supererogatory~de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}} ideal which is socially-too-abstract but rather as a de-mentating/structuring/paradigming secondnatured construct of positive-opportunism as of institutional and formal percolation-channelling-\textit{\textbf{in-deferential-formalisation-transference}} to attain social approbation. Out of such a \textit{\textbf{apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity \textbf{conflatedness}}}} de-mentating/structuring/paradigming secondnatured construct, intemporal-as-ontological \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{00} is not necessarily perceived as any more pertinent for attaining social approbation than other temporal \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{00}. In other words, the ideal articulation of base-institutionalisation \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{00} in recurrent-utter-uninstitutionalisation, just as that of \textsuperscript{104} universalisation in base-
institutionalisation–ununiversalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively notional–deprocrypticism in positivism–procrypticism; are only pertinent for attaining social approbation as of their apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness\(^{12}\) de-mentating/structuring/paradigming secondnatured construct of positive-opportunism\(^{76}\) of institutional and formal deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference>. This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler though ontologically flawed as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness\(^{13}\) to engage a registry-worldview/dimension at its uninstitutionalised-threshold\(^{03}\) rather by an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-disposition on the basis of its prior relative-ontological-incompleteness\(^{59}\)-of-\(^{42}\) reference-of-thought or its same metaphysical framework of contention rather than adopting at its uninstitutionalised-threshold\(^{03}\) a more complex but ontologically-veridical maximalising-recomposuring-for-relative-ontological-completeness\(^{88}\)—unenframed-conceptualisation mental-disposition on the basis of the prospective relative-ontological-completeness\(^{96}\)-of-\(^{42}\) reference-of-thought or superseding metaphysical framework of contention as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness\(^{12}\). That is, engaging a non-positivism registry-worldview/dimension\(^{55}\) meaningfulness-and-teleology\(^{100}\) with respect to say notions-and-accusations-of-sorcery on its same terms in case of an accusation of sorcery to imply the other is the sorcerer, etc. will sound more credible as of its <amplituding/formative> wooden-language\(\langle\text{imbued—averaging-of-thought—}\langle\text{as-to-leveling/ressentiment/closed-construct-of—}\text{meaningfulness-and-teleology—}\langle\text{as-of—'}\text{nondescript/ignorable–void}’-with-regards-to-

Ultimately, such a profound phenomenological 45 <amplituding/formative—epistemicity>totalising—conflated—meaningfulness-and-teleology 100-as-of-notional—deprocriptism-reflected—historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’> ontological-performance 72—<including-virtue-as-ontology> construal faced with the inherent dogmatic and psychological biases of human 45 <amplituding/formative—epistemicity>totalising—thrownness-in-existence 13 (I exist therefore existence is of transcendental-enabling/sublimating/suprerogatory—dementativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance 72—<including-virtue-as-ontology>) in many ways necessarily has to project out of ‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual 13 <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag 33 that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the
majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework construal as implied with notional-deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance -<including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory–de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-
involvement element of the social’. Human (amplituding/formative–
epistemicity–totalising–thrownness-in-existence (I exist therefore existence is of
transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance ) implies the need for a sound perpetuating construct of universal projection as intemporality–or-longness-of-register-of–meaningfulness-and-teleology as the opportunity for prospective transcendental-enabling/sublimating/supererogatory–de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublimate presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing–amplituding/formative–
epistemicity–totalising–in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory–de-mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive de-
mentative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance<-including-virtue-as-ontology>) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa
from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. Transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied here is with regards to reference-of-thought/epistemic-totalisation level ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to- ‘human amplituding/formative-epistemicity-totalising–purview-of-construal’ in epistemic-conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it inspired would have strove to arrive at,

Actually, this author holds that the very fundamental handicapping issue to meaningfulness-and-teleology as of the philosophical tradition lies in the naïve human mental-reflex of implying that ‘a given human determination of the effecting basis/foundation/axiomatic-construct derived/deciphered from existential-instantiations as underlying the presence institutionalisation — amplituding/formative–epistemicity totalising/circumscribing/delineating thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology reference-of-carries-and-reflects all the depth/profoundness of existence/existential-possibilities’, thus not allowing for the possibility for further imbricatedness/threadedness/recomposuring as of existence/existential-possibilities of existential-instantiations outside any such reference-of-thought determination; such reference-of-thought determination being affixed rather in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness as of any of the various registry-worldviews/dimensions specific underlying apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought such as ‘non-rules—apriorising/axiomatising/referencing–psychologism, as impulsive-or-accidented-or-random-mental-disposition of recurrent-utter-uninstitutionalisation’ not cognisant of the apriorising/axiomatising/referencing-(of—

Such ‘consciousness apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity)—conflatedness of meaningfulness-and-teleology’ is reflected by the signifying mirroring of meaningfulness-and-teleology that is language as of its metaphoricity. Metaphoricity can thus be construed as the signification of articulated meaningfulness-and-teleology as of reference to existential-instantiation contexts adjunctively and not as naturally devolving into the ‘underlying totalising/circumscribing/delineating signifying-construct of language’ as signification of reference-of-thought, such that metaphoricity is rather an ‘adjunctive incorporation’ to the ‘underlying totalising/circumscribing/delineating signifying-construct of language’. The ‘underlying totalising/circumscribing/delineating signifying-construct of language’ as of its self-referencing meaningfulness-and-teleology is always susceptible to the further deepening of human limited-mentation-capacity as of totalising/renewing-realisation/re-perception/re-thought such that prospective meaningfulness-and-teleology arises out of the adjunction to this ‘underlying totalising/circumscribing/delineating signifying-construct of language’ and is adjoined to it as metaphoricity, with metaphoricity construed as the signification implied as of syncretising-effecting meaningfulness-and-teleology. Thus language effectively reflects the totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reality of human
meaningfulness-and-teleology\cite{100}, as language is always a blending of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ with the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—confactedness\cite{12} adjunction of its metaphoricity’. It is interesting to grasp here that a signifying-construct as signification of ‘the self-referencing of meaningfulness-and-teleology\cite{100} is always <amplituding/formative–epistemicity>totalising/circumscribing/delineating and is effectively signifying a ‘reference-of-thought as of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’. Such centered-

meaningfulness-and-teleology\cite{100} construed as ‘reference-of-thought, and its signification as implied by an ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ necessarily has to do with the fact that meaningfulness-and-teleology\cite{100} is as of a ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> as of ontological-prime movers-totalitative-framework

<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for intelligibility to arise, thus is construed as ‘reference-of-thought as of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-

‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’; as we know
intuitively that meaning is always about the-one-meaning as well as a perspective/framing/reference/horizon/projection were all the-one-meaning cohere/are-in-ontological-contiguity of metaphoricity as of human limited-mentation-capacity-deepening adhocly produces by apriorising/axiomatising/referencing-(of- existentialising/contextualising/textualising-contiguity ) adjunctive conflatedness significations where these do not fit in with the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ due to the implications of human limited-mentation-capacity as of relative-ontological-incompleteness of reference-of-thought when conceptualising about such an ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. But then an adjunctive-metaphoricity-signification so produced as reflected by ‘a transcendental syncretising-effecting meaningfulness-and-teleology’ like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in-due-course/crossgenerationally to be of an even greater meaningfulness-and-teleology of <amplituding/formative–epistemicity>totalising/circumscribing/delineating effect over the prior notion of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’; and so as of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some significations of the prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ together with some adjunctive-metaphoricity-significations of the prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’, while ELIMINATING some significations of the prior ‘underlying
totalising/circumscribing/delineating signifying-construct of language’, and finally LEAVING-OUT some significations of the prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’, and so together with some adjunctive-metaphoricity -significations of the prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’, as its very own as the prospective ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ adjunctive-metaphoricity -significations to which other adjunctive-metaphoricity -significations could be incorporated adjunctively. Effectively, with the positivism/rational-empiricism self-referencing <amplituding/formative–epistemicity>totalising/circumscribing/delineating construct of meaningfulness-and-teleology, its adjunctive-metaphoricity -signification can be construed as of the historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of crossgenerational positivism/rational-empiricism reappropriation of the ancient mathesis universalis metaphoricity as its very own ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ ‘behind the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant <amplituding/formative–epistemicity>totalising/circumscribing/delineating construct of meaningfulness-and-
teleology. Existence itself as the absolute a priori underscores such a conception given the human species sublimation-educing—

<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity mirror the syncretising-effecting as of the acculturation-indigenisation-pidginisation behind dialectal differentiation, national language formation, and the cultural diffusion associated pidginisation and creolisation; as of social-stake-contention-or-confliction context adjunctive-metaphoricty-significations apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness induced ‘underlying

<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of languages’. In another respect with regards to language acquisition as mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricty-significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-freeplay’ construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-
of/integration-with the supposedly ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> for its evolving-and-devolving construct of meaningfulness-and-teleology’! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-social meaningfulness-and-teleology’, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an
immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’.

Metaphoricity is thus rather construed as of its overall apriorising/axiomatising/referencing-(of- existentialising/contextualising/textualising-contiguity)—conflicatedness—
teleology as of their peculiarity/differentiation to the entire textual/hermeneutic/reprojecting/supererogating/zeroing rhetorical-stylistic-semantic delivery, and as such metaphoricity induces amplituding/formative–epistemicity totalising/circumscribing/delineating signification in producing, as of accreting-substitutive-subsumption-as-futural-différance-freeplay, ‘underlying amplituding/formative–epistemicity totalising/circumscribing/delineating signifying-construct of language’ and together with its associated adjunctive-metaphoricity-significations. Overall, human explicit and implicit signification as of language as articulated above is equally reflected in human aesthetics/arts like music and even science. Ultimately, human adjunctive-metaphoricity -significations apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness reflecting syncretising-effecting superseding of human self-referencing signifying-constructs as of the need to supersede the limited certitude as of human limited-mentation-capacity, inherently implies that the possibility for ‘absolute certitude as of its theoretical possibility’ lies with such an adjunctive-metaphoricity -significations apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness as of syncretising-effecting as ultimately converging towards a deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay’ construed as différance in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness’ associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of
‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon/projection of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence historicity/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms–as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon/projection driven basis for ontological-construction’, and so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon/projection as of its ‘non-recording and negation’ of a ‘diverse-and-complete existential effecting possibilities accountability for ontological-construction’, and rather assuming the approach of a ‘select privileged historicity/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism’ ontological-construction’, instead incompletely portrays the operant reality of humanity’s existence as of the cumulation of successive humanity’s amplituding-formative–epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as implied with the various institutionalisations finalities. But then while that is pertinent, and so with regards to the successive institutionalisations outcomes of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated

Such a reality is actually reflected as of accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{as of transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing}\textsuperscript{102} of various temporal-to-intemporal perspectival existential amalgamation that de-mentatively/structurally/paradigmatically reflect the dynamics of human ontologically-veridical construals and misconstruals towards transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{is thus reflective of the fulsome humanity existential ontological-conceptualisation dynamics than just as of the select ontological-veracity of the privileged as dominant social and institutional end-purpose perspective/framing/reference/horizon/projection. Consider in this regard supposedly that ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs reflect an \textsuperscript{'}historiality/ontological-eventfulness\textsuperscript{/ontological-aesthetic-tracing}<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>\textsuperscript{'} as transcendental outcomes of such différance, accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{is not only about the successive \textsuperscript{<amplituding/formative–epistemicity>totalising–self-referencing-}

The implication here resonates with the idea that knowledge is much more than the construal of conceptual sublimation knowledge outcome, but rather its construal as notional–knowledge involving the dynamic understanding of both its temporality/misconstrual/desublimation and intemporality\textsuperscript{99}–as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{3} involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising — referentialism and thus beyond \textsuperscript{58}neuterising’ reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\textsuperscript{3} of the uninstitutionalised-threshold\textsuperscript{63} and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporality\textsuperscript{99}–as-ontology but involves grasping this together with the implications of temporality\textsuperscript{99}, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} signification than just as of just an outcome privileged institutional end-purpose.
perspective/framing/reference/horizon/projection that is in many ways ad-hoc and phenomenologically un insightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon/projection tend to be in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay is the existentially veridical and effective basis for reflecting historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism> transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful meaningfulness-and-teleology. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality/longness doesn’t take its due place, it is occupied by ignorance as of human temporality/shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Basically, just as the adjunctive-metaphoricity-signification instigation of positivistic rationality as a potent construct took the form of a centered-epistemic-totalisation permeating all aspects and
relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming-as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon/projection, such that as of a facet it is then already compromising nonpresencing–or–withdrawal–or–metaphysics-of-absence {implicated-epistemic-veracity-of- nonpresencing:<perspective–ontological-normalcy/postconvergence>–or–transcendental-reasoning-of-event–as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity ]—conflicatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon/projection implications’ with regards to meaningfulness-and-teleology, and so as disambiguating presencing—absolutising-identitive-constitutedness from nonpresencing:<perspective–ontological-normalcy/postconvergence> by their respective

différance’ not doing that rather represents the ‘presencing—absolutising-identitive-

thus falsely pointing to ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ between
‘presencing—absolutising-identitive-constitutedness’ and ‘nonpresencing—<perspective–

conceptualisation. With the reality that ‘nonpresencing—<perspective–ontological-
normalcy/postconvergence> is wrongly-and-unsuspectingly given as of common
‘presencing—absolutising-identitive-constitutedness’, thus inducing a relative ontologically-
flawed quasi-transcendental freeplay as ‘nonpresencing—<perspective–ontological-

<shallow-supererogation -of-mentally-aestheticised~preconverging/dementing –qualia-

in this regard ‘the very same physics <amplituding/formative–

the articulation as of prospective relative-ontological-completeness-of-axiomatic-construct-or-

axiomatic-constructs; now, articulating <meaningfulness-and-teleology> of ‘the very same
nonpresencing-<perspective–ontological-normalcy/postconvergence>. In any case thus such a ‘Derridean quasi-transcendental-freeplay différance’ doesn’t have any serious ontological consequences with respect to presencing—absolutising-identitive-constitutedness since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural différance where meaningfulness-and-teleology is construed as of the prospective nonpresencing-<perspective–ontological-normalcy/postconvergence>

supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for-conceptualisation which points to a prospective relative-ontological-completeness /ontological-contiguity as of the very same amplituding/formative–epistemicity totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; even though it is the first step towards such a futural différance transcendence-and-sUBLImity/sublimation/supererogatory de-mentativity. It equally explains such a Derridean conclusion that human sublimation is an always evasive notion given its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing as of the transcendental implications of prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> in inducing sublimation, with such a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing arrived at by human limited-mentation-capacity-deepening as of de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) involving ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality driven re-projection/re-anticipation as of prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument about ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-

Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation</sup><sup>1</sup> <as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming’>, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency</sup><sup>2</sup>–sublimating–nascence,-disclosed-from-prospective-epistemic-digression as validatable by ontological-primemovers-totalitative-framework</sup><sup>3</sup>. Thus behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as ‘hunch’ is a transversality</sup><sup>4</sup> for sublimating–existential-eventuating/denouement> of affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’</sup><sup>5</sup> depth of reasoning and perspective which is pushed to its brink in projection/anticipation/expectancy. We can appreciate that the medieval mindset reasons in terms of medievalism–non-positivism just as we reason in terms of our positivism–procrypticism mindset. In other words, under sufficient constraint of existence/existential-reality-itself given its absolute a priori status, as reflected by ontological-prime-movers-totalitative-framework\(^\text{[7]}\)/contingency, human intemporal individuation is predisposed to put in question even a ‘registry-worldview’s/dimension’s reference-of-thought <amplituding/formative—

This insight about ontological-faith-notion-or-ontological-fideism—imbued-

In this regard we can imagine as of ‘the very same physics totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs maximalising-recomposuring-for-relative-ontological-completeness unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation<as-to-the-nondisjointedness/entailment-of-prospective nonpresencing developments in physics since then, even though its meaningfulness-and-teleology remains
intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme\textsuperscript{5} implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme\textsuperscript{5} transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology\textsuperscript{100} in-existential-extrication-as-of-existential-unthought\textsuperscript{6}. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{5} from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme\textsuperscript{5} renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance including-virtue-as-ontology\textsuperscript{7} as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme\textsuperscript{5} of dual-language/split-mentality as of \textsuperscript{45} amplituding/formative–epistemicity totalising–thrownness-in-existence\textsuperscript{14} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperboles-of-temporal-to-intemporal-ontological-performance\textsuperscript{72} including-virtue-as-ontology\textsuperscript{7}). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the
attitude/mental-disposition/care–and–episteme of warring nations in the early 20th century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18th and 19th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care–and–episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought’, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care–and–episteme for more profound-and-complete meaningfulness-and-teleology. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as
articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into meaningfulness-and-teleology as grounded on a given ‘registry-worldview’s/dimension’s reference-of-thought <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of–meaningfulness-and-teleology as well as the ‘psychological comfort’ habituated at the given neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futuroal Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism is exactly the capacity to construe meaningfulness-and-teleology as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology.<in-existential-extrication-as-of-existential-unthought> arising as of human prior relative-ontological-incompleteness-of-reference-of-thought. The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness implication with respect to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior nonpresencing-<perspective–ontological-
normalcy/postconvergence> as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in prospective existence-potency\textsuperscript{18}~sublimating–nascence,-disclosed-from-prospective-epistemically digression relative-ontological-completeness\textsuperscript{28} of apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity prospective relative-ontological-completeness\textsuperscript{28} of axiomatic-construct-or-\textsuperscript{58} reference-of-thought <amplituding/formative–epistemicity> causality~as-to-projective-totalitative–implications-of-prospective-
nonpresencing–for-explicating-ontological-contiguity for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, implied as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This explains why ontology’s-directedness-as-Being is the direction of \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} grounding as always prospective as of prospective relative-ontological-completeness\textsuperscript{28} of reference-of-thought; and so, as of the successive base-institutionalisation, universalisation, positivism and notional–deprocrypticism registry-worldviews/dimensions nonpresencing–<perspective–ontological-normalcy/postconvergence> respectively as successive \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism \textsuperscript{86} presencing—absolutising-identitive-constitutedness\textsuperscript{13}. Interestingly we can appreciate that the attitude/mental-disposition/care–and–episteme\textsuperscript{5} as of relevant existential issues of all the prior registry-worldviews/dimensions \textsuperscript{85} reference-of-thought are wanting-as-relatively-ontologically-flawed from our positivism–procrypticism as prospective perspective/framing/reference/horizon/projection of \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100}. However, we are hard-pressed to concede that from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–
\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} as of prospective \textsuperscript{1} deprocrypticism–or–preempting—
disjointedness-as-of-reference-of-thought as of its prospective relative-ontological-completeness\textsuperscript{39}—of-reference-of-thought, our positivism–procrypticism is wanting-as-relatively-ontologically-flawed; as by reflex every registry-worldview/dimension is inclined to hang on to a delusion of the results-as-afterthought of prior \textsuperscript{6} nonpresencing-<perspective-ontological-normalcy/postconvergence> even at its uninstitutionalised-threshold\textsuperscript{10} despite its notional-discontiguity/epistemic-discontiguity\textsuperscript{45}—<shallow-supererogation of-mentally-aestheticised~preconverging/dementing –qualia-schema> with the prospective registry-worldview/dimension institutionalisation. Thus, induces its specific \textsuperscript{57} neuterising as it fails to construe of \textsuperscript{66} meaningfulness-and-teleology\textsuperscript{100} projectively as of prospective existence-potency\textsuperscript{38}—sublimating–nascence,-disclosed-from-prospective-epistemic-digression relative-ontological-completeness\textsuperscript{38} of apriorising/axiomatising/referencing. The implied\textsuperscript{5} maximalising-recomposing-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation notion also underscores the postmodern conception of \textsuperscript{48} human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation—as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> with regards to any \textsuperscript{4} <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, as fundamentally driven as to existence-potency\textsuperscript{38}—sublimating–nascence,-disclosed-from-prospective-epistemic-digression as so validatable by their ontological-prime movers-totalitative-framework\textsuperscript{73}. than any other prior non-constructed \textsuperscript{46} meaningfulness-and-teleology\textsuperscript{10} simply because of the profoundness of its phenomenological depth of projection/anticipation in the quest for ontological-prime movers-totalitative-framework\textsuperscript{21} validation, which ordinary \textsuperscript{amplituding/formative} wooden-language\textsuperscript{15} imbued—averaging-of-thought\textsuperscript{as-to-leveling/ressentiment/closed-construct-of— meaningfulness-and-teleology \textsuperscript{-as-of- nondescript/ignorable—void }-with-regards-to-prospective-apriorising-implications\textsuperscript{}} doesn’t even bother contemplating about by its \textsuperscript{incrementalism-in-relative-ontological-incompleteness\textsuperscript{56}}—enframed-conceptualisation reflex of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside— existentialising/contextualising/textualising-contiguity\textsuperscript{9} as of existence’s \textsuperscript{presencing— absolutionising-identitive-constitutedness\textsuperscript{13}}. This social knowledge \textsuperscript{human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{-as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing\textsuperscript{}}} insight translate the reality that ‘conventioning and tradition grounded critiques’ of postmodernism fundamentally misconstrue that they are departing, as of their \textsuperscript{reference-of-thought, from a less real position to evaluate a more real position; more like the irony of trying to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of \textsuperscript{human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{-as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing\textsuperscript{}}}’. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness\textsuperscript{—of—}}
reference-of-thought. It is human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness of reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—aixomatic-constructs ultimately validated as of ontological-primemovers-totalitative-framework by existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening for human emancipation. Thus implying existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression is ‘not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation directed directly to inherent-existence-as-of-existential-reality/existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human limited-mentation-capacity-deepening bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the
notion of "human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-\textless as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing\textgreater " has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening "human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-\textless as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing\textgreater ‘ of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising "meaningfulness-and-teleology\textsuperscript{100} that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective "meaningfulness-and-teleology\textsuperscript{100} as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the "human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-\textless as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing\textgreater ” that led to human limited-mentation-capacity-deepening’. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness\textsuperscript{100}—of-axiomatic-construct-or—reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{68} behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100}. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal \textsuperscript{4} <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag \textsuperscript{33}, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon/projection for grasping prospective "meaningfulness-and-teleology\textsuperscript{100}’; and failing to project/anticipate prospectively
the implications of their very own shallow limited-mentation-capacity implications from a
deeper prospectively-construed perspective/framing/reference/horizon/projection. Such a
‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence
\{implicated-\textit{nondescript/ignorable–void} ‘-as-to- \textit{presencing—absolutising-identitive-
constitutedness} \}/illusion-of-the-present/present-consciousness/mirage, with hardly any
contemplation of the retrospective and prospective projective-insights for construing
ontologically-veridical meaningfulness-and-teleology\textsuperscript{100}. This paradox for human knowledge,
as implied with the postmodern double-gesture reification\textsuperscript{7}, highlights that the human
preconverging/postconverging–de-mentating/structuring/paradigming for construing knowledge
is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about
‘human blindness which needs to be resolved first before proceeding to see’, as what is to be
seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to
develop the necessary \textit{human-subject-emancipatory-relativism-driven-recomposuring-
constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-

underlies the idea of
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/‘reference-of-
thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as
underlying a given registry-worldview’s/dimension’s reference-of-thought for
meaningfulness-and-teleology\textsuperscript{100} conceptualisation and ontological-performance\textsuperscript{72}-
<including-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing
to recognise that human limited-mentation-capacity deepens by \textit{human-subject-emancipatory-

The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness-of-reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referring-and-the-devolved-referring-imbued-ontological-performance—including-virtue-as-ontology’ as to presublimation and nascent-sUBLimations overlapping-contiguity-of-referring-and-devolved-referring’ associated with historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing–apriorising-psychologism. Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness-of-reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking–apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing–apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness-of-reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-

The implication here is that hitherto postmodern-thought had been naively and
falsely conceptualised within the ‘modern take attitude/mental-disposition/care–and–episteme ’ as of its procrypticism–or–disjointedness-as-of-reference-of-thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ which prospectively represents the modern as preconverging–or–dementing –apriorising-psychologism while the postmodern is postconverging–or–dialectical-thinking–apriorising-psychologism; as the point of assertion of postmodern-thought as deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought is actually a point of prospective de-mentation ⟨supererogatory–ontological–de-mentation–or–dialectical–de-mentation—stranding–or–attributive–dialectics⟩. Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/‘constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme ’ is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/‘constations’ as of human limited-mentation-
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective dementative/structural/paradigmatic transcendent knowledge by its so-projected intemporality, at the uninstitutionised-threshold, is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the lack of universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—amplitunding/formative—epistemicity—totalising—in-relative-ontological-completeness) for its prospective institutionalisation. Critical for the social validation and institutionalisation of any dementative/structural/paradigmatic transcendent knowledge is the fact that its ‘concurrent ontological-primemovers-totalitative-framework’ is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold cannot adjudge-and-commit-to the ontological-pertinence of such prospective transcendent knowledge ‘concurrent ontological-primemovers-totalitative-framework’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework’ of the prospective positivism/rational-realism transcendent knowledge articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as meaningfulness-and-teleology of prospective relative-ontological-completeness—of—reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-framework’. Such ‘concurrent ontological-primemovers-totalitative-framework’ was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-
primemovers-totalitative-framework\textsuperscript{73}‘ is only more or less determinant as of the institutionalisation’s internal basis of validation of knowledge grounded on its \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{00},-for-
aposteriorising/logicising/deriving/intelligising/measuring–\textsuperscript{85}meaningfulness-and-teleology\textsuperscript{100} as of its \textsuperscript{82}<amplituding/formative–epistemicity>totalising/circumscribing/delineating \textsuperscript{84}reference-of-thought–\textsuperscript{88}devolving’. However, at its uninstitutionalised-threshold\textsuperscript{03} the prospective ‘concurrent ontological-primemovers-totalitative-framework’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-
aposteriorising/logicising/deriving/intelligising/measuring–\textsuperscript{85}meaningfulness-and-teleology\textsuperscript{100} of the prospective institutionalisation’s \textsuperscript{82}<amplituding/formative–epistemicity>totalising/circumscribing/delineating \textsuperscript{84}reference-of-thought–\textsuperscript{88}devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold\textsuperscript{03}, and so as of mutually beyond-the-consciousness-awareness-teleology\textsuperscript{09}–<in-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness\textsuperscript{09}. Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{73}’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{00},-for-
aposteriorising/logicising/deriving/intelligising/measuring–\textsuperscript{85}meaningfulness-and-teleology\textsuperscript{100}
of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating 8 reference-of-thought–devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating 8 reference-of-thought–devolving’, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation ⟨imbued-postconverging/dialectical-thinking ´projective-insights’/´epistemic-projection-in-conflatedness ´of-notional–deprocrypticism-prospective-sublimation⟩) originary/event–of-prospective-ontology-origination positivism/rational-empiricism thought. In other words,
human dimensionality-of-sublimating \{<amplituding/formative>supererogatory-de-mentativness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\} as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework ’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework ’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern-day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework ’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental \[59\] meaninglessness-and-teleology\[100\] superseding uninstitutionalised-threshold \[103\] do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent ontological-primemovers-totalitative-framework\[73\] ’ postconverging-de-mentating/structuring/paradigming of
as of successive prospective relative-ontological-completeness\(^{11}\)-of- reference-of-thought. The implication of such an indirect nature of human social-stake-contention-or-confliction framework validation of transcendental knowledge as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ and not just direct ‘concurrent ontological-primemovers-totalitative-framework’ implies that just as prospective de-mentative/structural/paradigmatic transcendental knowledge prospective ‘concurrent ontological-primemovers-totalitative-framework\(^{12}\)’ could be ‘objected to as of human social-stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-ontological-completeness\(^{11}\)-of- reference-of-thought given its prior lack of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’; any such prospective de-mentative/structural/paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as of its prospective relative-ontological-completeness\(^{11}\)-of- reference-of-thought supersedes the prior relative-ontological-incompleteness\(^{11}\)-of-reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent ontological-primemovers-totalitative-framework\(^{11}\)’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on
closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance\cite{72} of any ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology\cite{100}–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\cite{100}’. Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern deprocrypticism–or–preempting–disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme ’ warrants that postmodern-thought hitherto articulated beyond-the-consciousness-awareness-teleology\cite{100}–in-existential-extrication-as-of-existential-unthought in terms–as-of-axiomatic-construct of the ‘modern take attitude/mental-disposition/care–and–episteme ’, need to be translated-as-reconceptualised into its very own ‘postmodern deprocrypticism–or–preempting–disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme ’ as of its own truly postmodern organic-knowledge. The fact is that organic-knowledge is fundamentally driven as of attitude/mental-disposition/care–and–episteme , wherein for instance Newtonian Physics as of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme organic-knowledge makes little sense and is of little potential if construed as of a medieval or animistic social-setup alchemic or mystical attitude/mental-disposition/care–and–episteme . In this regard, attitude/mental-disposition/care–and–episteme is fundamentally the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness—of—reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> as of human existentialising/contextualising/textualising-contiguity’; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of <preconverging~‘motif-and-apriorising/axiomatising/referencing’—imbuing>—existentialising—enframing/imprintedness—{as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of-reference-of-thought in many ways explaining the

implication of ‘a metaphysical/ideological advocacy’ as postmodern-thought as to human-
<as–to–the–nondisjointedness–entailment–of–prospective–nonpresencing> is so with regards
to the inherent ontological sublimating human possibility in existence/intrinsic-

emphasised and reflected with regards to the need for human limited-mentation-capacity-
deepening”. We can garner insight about how we tend to misconstrue any attitude/mental-
episteme of wholly immersed-and-engrossed meaningfulness-and-teleology. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality-of-for-sublimating–existential-eventuating/denouement-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology’ as of their given neuterising-as-of-prior-relative-ontological-incompleteness-of-reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme’ or deneuterising-as-of-prospective-relative-ontological-
completeness’ of reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’, whilst the ‘present attitude/mental-disposition/care–and–episteme’ is then rather adhocly-and-scantily identified now as either deneuterising if it in relation to the prior/old/superseded or neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of attitude/mental-disposition/care–and–episteme means ‘to be or exist as of the given registry-worldview/dimension reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-disposition/care–and–episteme’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care–and–episteme’.

development as infrastructure of meaningfulness and teleology as of prospective notional deprocrypticism as the most ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’. Insightfully, what is critical about ‘the conception of human-subpotency existential scope’ is the paradoxical fact that the more waywardly supernatural/mythical/idolised it is, the least potent has been human-subpotency mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, while the more waywardly realistic/authentic/unexceptional-as-of-the-mediocrity-principle it is, the more potent has been human-subpotency in its mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Effectively, ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care—and—episteme’ implied notional deprocrypticism is about a radicalisation of the ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. This radicalisation is grounded on the rational-realism postulate that humankind as of its limited-mentation-capacity-deepening has always encountered its uninstitutionalised-threshold all along in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively, reflecting the reality that humankind is of both a temporal/shortness-of-register-of-meaningfulness-and-teleology and intemporal/longness-of-register-of-meaningfulness-and-teleology nature at uninstitutionalised-threshold, as of prospective institutionalisation
prospective relative-ontological-completeness\textsuperscript{58} of reference-of-thought and uninstitutionalised-threshold\textsuperscript{03} prior relative-ontological-incompleteness\textsuperscript{59} of reference-of-thought. This departs from the ‘modern take attitude/mental-disposition/care–and–episteme ’, which poorly appreciates the continuity implied by ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality\textsuperscript{84} instigated ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{89} as of difference-conflatedness ‘as-to-totalitative-reification\textsuperscript{87}—in-singularisation–<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>—as-veridical-epistemic-determinism <amplituding/formative–epistemicity> causality—as-to-projective-totalitative-implications-of-prospective- nonpresencing—form-explaining-ontological-contiguity’ as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—of—meaningfulness-and-teleology\textsuperscript{100} and is rather caught up, beyond-the-consciousness-awareness-teleology\textsuperscript{100}—<in-existential-extrication-as-of-existential-unthought>, in the reasoning-from-results/afterthought effect of the positivism/rational-empiricism institutionalisation outcome as of its transcendence-and-sublimity/sublimation/supererogatory—de-mentativity from non-positivism/medievalism, and as it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness\textsuperscript{89} of reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold\textsuperscript{103} which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold\textsuperscript{03}. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-
disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of unamplituding/formative-epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness of reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of-meaningfulness-and-teleology posture in amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, rather than a recognition of its prior relative-ontological-incompleteness of reference-of-thought, implying recognising its uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, as knowledge-notionalisation not only factors in conceptual sublimation knowledge dynamics but equally the dynamics of the conceptual ignorances/desublimation to better skew meaningfulness-and-teleology towards intemporal/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human amplituding/formative epistemicity totalising–purview-of-construal’, the ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme’ grounded on such rational-realism recognition of humankind temporal-to-intemporal nature at its uninstitutionalised-threshold is actually ‘effectively empowered’ to incisively tackle issues arising from human temporality/shortness as of its prospective de-mentative/structural/paradigmatic prospective relative-ontological-completeness-of-reference-of-thought; and so beyond just \[amplituding\text{-}formative\text{-}epistemicity\] totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and ad-hoc palliative resolution of a ‘modern take attitude/mental-disposition/care–and–episteme’ very much inclined to aberrational/oddities conceptioning of such temporality/shortness manifestations thus leading to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take attitude/mental-disposition/care–and–episteme’ is de-mentatively/structurally/paradigmatically disempowered to address issues of its temporality/shortness as of the vices-and-impediments at its uninstitutionalised-threshold. So because its \[amplituding\text{-}formative\text{-}epistemicity\] totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘existentially invested’ in modern social-stake-contention-or-confliction framework of meaningfulness-and-teleology as of procrypticism–or–disjointedness-as-of-reference-of-thought from where it derives its value-construct and value-reference, as it hardly countenances that prospective transcendental knowledge implied value-construct and value-reference is not meant to be of ‘idle’ relevance to the modern social-stake-contention-or-confliction framework but rather redeploy an altogether empowering perspective of prospective relative-ontological-completeness-of-reference-of-thought postmodern social-stake-contention-or-confliction framework of meaningfulness-and-teleology of value-construct and value-reference at the procrypticism uninstitutionalisation. Such prospective change as of de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of attitude/mental-disposition/care–and–episteme can be appreciated.

reasoning-from-results/afterthought logocentric apriorising/axiomatising/referencing–of–existentialising/contextualising/textualising-contiguity —constitutedness is rather as of ‘reasoning-through or Derridian messianic reasoning’ over our positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of–reference-of-thought, and so as of a postmodern affirmatory stance of dialogical inequivalence that goes beyond idling in the ‘modern take rigmarole language’, just as we can appreciate how budding-positivism obviate non-positivism/medievalism pedantic dogmatism language to affirm meaningfulness-and-teleology weeding out ornate pedantic detours, to articulate blunt reality as of deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought prospective relative-ontological-completeness of reference-of-thought. Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implied meaningfulness-and-teleology, we can appreciate that the foremost goal of
budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding-positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Likewise, the prospective ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ is well beyond the notion of eliciting the approbation of the modern take established arrangement in terms—as-of-axiomatic-construct, but rather is of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, in inducing budding-postmodern metaphoricity for the destruction-deconstruction of the modern take for prospective postmodern-notional-deprocrypticism institutionalisation as of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. In both cases, the prospective institutionalisation attitude/mental-disposition/care—and—episteme is ontologically validated as of its prospective relative-ontological-completeness-of-reference-of-thought, divulging the <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiac-drag vagueness and futility of the pretences and judgments of the destructuring-threshold—(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology>. We can equally appreciate here that such a conception of transcendence-and-
Sublimity/sublimation/supererogatory-de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity for prospective institutionalisation as of prospective ontological-primemovers-totalitativé-framework and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity reinvigoration as of the overall renewal of ‘the very same physics amplituding/formative-epistemicity-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. It should be noted that such metaphoricity rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental ‘meaningfulness-and-teleology’, which in its prospective relative-ontological-completeness-of-reference-of-thought is ‘a dimensionality-of-sublating⟨amplituding/formative-supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩inventing’ of the prospective notion of ‘thinking/postconverging-or-dialectical-thinking—apriorising-psychologism’ as positivism/rational-empiricism thinking or notional–deprocrypticism thinking respectively, and so as their successive prospective reasoning-from-results/afterthought. In both cases, such metaphoricity as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview’s/dimension’s attitude/mental-disposition/care–and–episteme of medievalism–non-positivism or positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought, but rather as of its very own transcendental-enabling/sublimating/supererogatory-de-mentativity prospective

Reasoning-through/messianic-reasoning metaphoricity\(^6\) brings about the prospectively renewed reasoning-from-results/afterthought instigating the secondnaturering of prospective institutionalisation, and so as of implied reference-of-thought/axiomatic-constructs reflection of the pre-eminence of the full-potency of existence as of prospective ontological-primemovers-totalitative-framework\(^7\) over human-subpotency with the latter adjusting to existence as-of-\(^8\) de-mentation\(^9\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) enabling its prospective relative-ontological-completeness\(^10\).

medieval-scholasticism non-positivising and ancient-sophists non-universalising respectively.

These induced transcendence-and-sublimity/sublimation/supererogatory-de-mentativity later on became prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inceptive emancipatory inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,—as—spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and so as of prospective projection as implied with the ontological-contiguity—of-the-human-institutionalisation-process, but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and ontological-good-faith/authenticity.

However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation—<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’ > notion of philosophy, it is herein contended that this relatively deficient analysis reflects the fundamental ontological-deficiency of subsequent philosophies influenced by Kantian philosophy which is rather ‘as a projection within the very same intelligible Cartesian/budding-positivists induced rational-empiricism/positivism registry-worldview’s/dimension’s supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation’ failing to conceive of the ontological-veracity in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating ⟨<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-

It is this underlying misconception that induces subsequent philosophical misinterpretations of notions like wooden-language imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignoreable—void—with-regards-to-prospective-apriorising-implications}, ressentiment and leveling failing to appreciate that these are ontologically-driven as of underlying relative-ontological-completeness knowledge-reification basis of such conceptualisations arising as to the need for prospective emancipatory inspiration of prospective originariness-parrhesia, as—spontaneity-of-aestheticisation inducing human limited-mentation-capacity-deepening. Thus wooden-language
{imbued—averaging-of-thought-as-to-leveling/resentment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications}> is herein rather construed as <amplituding/formative> wooden-language-{imbued—averaging-of-thought-as-to-leveling/resentment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications}> or ontological-bad-faith/inauthenticity\textsuperscript{4} with respect to ′mechanical practice′ of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. In this regards, we can appreciate that all human \textsuperscript{100} meaningfulness-and-teleology arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche′s genealogy of morals, but this doesn′t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance \textsuperscript{72}—<including-virtue-as-ontology>. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern-day science ontologisation; and besides, it can equally perfectly be claimed that even our modern-day positivistic civilisation is not beyond a critique of ′deficient ontologisation′ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher
interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to wooden-language-⟨imbued—averaging-of-thought-

value-construct has to do with the requisite value-construct instigating as of dispensing-with-

We can further appreciate the critical impact of the universalising-idealisation meaningfulness-and-teleology infrastructure of the Socratic-philosophers and their successors as providing the appropriate meaningfulness-and-teleology infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced meaningfulness-and-teleology infrastructure of budding-positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistic activities distortive of budding-positivism meaningfulness-and-teleology infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. transvaluation and effective social–value-construction narrative as of any given registry-
worldview/dimension) is reflected in the underlying reality that effectively practised human
value-construction is the ‘outcome of privileged institutional end-purpose
perspective/framing/reference/horizon/projection’; wherein social–value-construction across the
successive registry-worldviews/dimensions arises as a functional necessity that is meant to
reflect supposedly coherent ontological-commitment -<implied—self-assuredness-of-

as-being-as-of-existential-reality> and so in order to elicit stable social-functioning-and-
accordance for social-stake-contention-or-confliction, whether such social–value-construction
is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity⁸⁷—of-the-human-
institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern-day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc.
implications (but is just as well subject to transvaluation analysis as of... as-to-projective-totalitative-implications-of-
prospective- nonpresencing,-for-explicating-ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive ‘presencing—absolutising-identitive-constitutedness’ is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing<<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>> notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment <<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have
tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusivity warrants prospective meaningfulness-and-teleology infrastructure transvaluation so-implied as of notional–deprocrypticism or <amplituding/formative>notional–preempting—disjointedness-as-of-reference-of-thought appropriate foregrounding—entailment{postconverging—narrowing-down—sublimation-as-to–’existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation ’—in-reflecting–’immanent-ontological-contiguity ’;—as-operative-notional–deprocrypticism}; and so as the disparateness-of-conceptualisation-<unforegrounding-disentailment,—failing-to-reflect–’immanent-ontological-contiguity<sup>67</sup>’> of our rational-empiricism/positivism occlusivity in its <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of–’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> tend to rather reflect our <amplituding/formative–epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<sup>13</sup>. The occlusivity of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of {deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable–void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social
dysfunction and discriminations as occlusively-collateral to domineering and excluding social narratives, sophisticated/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akriatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness\(^\text{109}\) as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments\(^\text{106}\) (as so-reflecting the grandest deeds of ontological-performance\(^\text{12}\)-<including-virtue-as-ontology>/morality/ethics/etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold-(uninstitutionalised-threshold //presublimating–desublimating–

But then while such an abstract transvaluation perspective for the construal of social–value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity exists in circumstances of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as of its given reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation inducing its deficient ontological-performance\(^\text{12}\)-<including-virtue-as-ontology> thus explaining its given registry-worldview/dimension vices-and-impediments\(^\text{106}\). Thus the transvaluation of the successive registry-worldviews/dimensions in reflecting holographically-<conjugatively-and-

This ontological reality basis of social–value-construction, it is often claimed, needs to account for the reality of human sovereignty and free-will as to the ‘autonomy and independence of human disposedness’. But then such a conception of human sovereignty and free-will seems to imply an ‘existence-in-existence apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness’—ontologically-flawed preconverging–de-mentating/structuring/paradigming’ as to imply human sovereignty and free-will supersede-and-override existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective–ontological-normalcy/postconvergence-implied—prospective-aporeticism—overcoming/unovercoming’ so-reflected as of <amplituding/formative–epistemicity>totalisingly~preceding-and-redefining–existentialising/contextualising/textualising-contiguity³⁰. We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought–devolving-level manifestation of the primacy of existence equally extends to reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for–conceptualisation ‘is more effective’ with respect to human grasp of existential reality

Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as $6 \text{ m/s}^2$ rather than the existence-potency $\sim$sublimating–nascence–disclosed-from-prospective-epistemic-digression manifestation of $9.8 \text{ m/s}^2$ and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation<unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity’. It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition,–as–reproductibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-
spontaneity-implications reflected as existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression from such human-subpotency prior reproducibility—mathesis/motif/thrownness-disposition’. This reflects the ontological-veracity that human sovereignty and free-will can only be construed in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness as of human

revealing the epistemic-impertinence of dispositions for ‘presencing—absolutising-identitive-constitutedness’ as wrongly implying human sovereignty and free-will supersedes existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression rather than the epistemic-veracity of difference-conflatedness -as-to-totalitative-reification-in-singularisation,<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>-as-veridical-epistemic-determinism <amplituding/formative–epistemicity>causality-as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity of human meaningfulness-and-teleology. We can garner for instance that there is and has never been any truly ‘presencing—absolutising-identitive-constitutedness’ of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression to manifest itself in determining ontological-prime movers-totalitative-framework; and so, as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern-day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study together with human limited-mentation-capacity-deepening implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existentialising/contextualising/textualising-

A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-
extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather de-mentative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the
undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-ontological-incompleteness /relative-ontological-completeness—{(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating–<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence)⟩;<amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective– nonpresencing,-for-explicating–ontological-contiguity} in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process; going by the phronesis/practicality as of our positivism–procrypticism occlusivity, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern-day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public
policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are preconvergingly–dementated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern-day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-
party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening as to the ‘relative-ontological-incompleteness’/relative-ontological-completeness (sublimating~referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence>) as to human-and-social–expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism for knowledge-reification underlying sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> as of the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility (imbued-and-'hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing—conceptualisation); as the fact is the conception of human sovereignty and free-will effectively varied in reflecting holographically<-conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process as from the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility (imbued-and-'hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-

This points to the reality that ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-prime-movers-totalitative-framework construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity-$<$discretely-implied-functionalism-$>$ implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a ‘presencing—absolutising-identitive-constitutedness’ false sense of logical-dueness as of ‘relative-ontological-incompleteness’/relative-ontological-completeness as to human-and-social–expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism, may seem to arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied ‘human social-vestedness/normativity-$<$discretely-implied-functionalism-$>$ implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather of flawed apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such apriorising/axiomatising/referencing but is rather meted with relative-ontological-completeness perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument –for conceptualisation in unaffirmation/deprojection/de-assertion/undueness-invalidating-
logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging-or-dementing–apriorising-psychologism>. In fact, besides the more starkly demonstrable case with respect to say slavery this equally applies with less starkly obvious situations having to do with human social differentiation as well as any other situations requiring prospective knowledge-reification as the possibility for all human progress arises effectively as a result of the transcending of all such human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint power-grabbing/appropriating/usurpatory/arrogating implications construed as ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as well as their socially attendant situations in need for prospective knowledge-reification; and so not as of a falsely implied logical-dueness and logical engagement that wrongly validate the relative-ontological-incompleteness apriorising/axiomatising/referencing of ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as being of existential-reality in relative-ontological-completeness, but rather as of the relative-ontological-completeness perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-
implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendancy of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening\(^3\) possibilities of relative-ontological-completeness\(^3\) analysis over the absolutising of ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. Thus any such pretence that ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is absolute as of \(^8\)presencing—absolutising-identitive-constitutedness\(^1\) and not subject to prospective ‘relative-ontological-incompleteness’/relative-ontological-completeness\(^8\) (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating–<projective/reprojective—aestheticising-re-motif–

Even with the modern-day polity and law, the reality of human sovereignty and free-will implied in human rights takes precedence over any ‘human social-vestedness/normativity–implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ practicalities and is the basis for continual social and governmental reforms; and as so-implied by the ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’ and this is the very legitimation for any intellectualism
In this regards, one can appreciate the human sovereignty and free-will expansion drive of the prospective knowledge-reification associated with the Socratic universalising philosophers, budding-positivists/rational-empiricists and today’s postmodern critical thinkers emancipatory meaningfulness-and-teleology infrastructure while on the other hand the prospective dereification as reflected in wooden-language woodenspiritualities/dereification /akrasiatif-drag/denatured/preconverging-or-dementing narratives of the reference-of-thought categorical-imperatives/axioms/registry-teleology of non-universalising sophists', non-positivising/non-rational-empiricist medieval scholasticism pedants and todays manifestations of institutional-being-and-craft muddlement as providing the meaningfulness-and-teleology infrastructure for their respective present-day vested postures and interests. that however the socially transformative implications as of prior

‘human-subpotency potential to epistemically converge to the full-potency of existence’; and
this underlying structure of reflexivity is the very structure in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges-us/puts-us-to-question as of prospective implications of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness–and-its-institutionalisation bluntly profess that ‘human temporality/shortness wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–‘nondescript/ignorable–void ’–with-regards-to-prospective-apriorising-implications⟩⟩’ is in want for secondnatured knowledge and institutionalisation, and so as to the former human limited-mentation-capacity-deepening (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality>). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality>; and implying a greatly
expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative> wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>)’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—’notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’–existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening”). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity—<discretely-implied-functionalism> undermining of human dispensing-with-immediacy-for-relative-ontological-completeness—by-reification”/contemplative-distension” is effectively about discouraging the possibility for
prospective humanity to manifest. But then this intellectualism and sophistry conundrum underlying knowledge-notionalisation (as of prospective human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology ), de-mentatively/structurally/paradigmatically marks all human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the uninstitutionalised-threshold attendant framework of lack of social transparency\textsuperscript{10}–\{transparency-of-totalising-entailing, as-to-entailing–amplituding/formative–epistemicity\textsuperscript{11}–totalising–in-relative-ontological-completeness\}–or-understanding-of-ontological-prime-movers-totalitative-framework\textsuperscript{12}–of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very first place; and this very much explains the defining relevance of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturesdness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence’—existentialism-form-factor, as to the possibility for genuine human reification\textsuperscript{87} and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency\textsuperscript{38}–sublimating–nascence,–disclosed-from-prospective-epistemic-digression) is effectively what underlies human institutional paralysis and social-vestedness/normativity\textsuperscript{\langle discretely-implied-functionalism\rangle} as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-
human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology,<in-existential-extrication-as-of-existential-unthought> ) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness as historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’), and so towards humankind’s supposed future (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology); and in many ways this historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition has already been stifling/stalling the human prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historiality/ontological-
eventfulness\textsuperscript{37}/ontological-aesthetic-tracing-\textlangle\textlangle perspective\textrangle ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'\textrangle relevant to \textsuperscript{37} deprocryptism—or—preempting—disjointedness-as-of reference-of-thought. Such \textsuperscript{4} historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of \textsuperscript{4} historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition override prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation possibilities, and the prospect for the future is ever so tied down to the psychological entrapment of prior human stake-contention-or-confliction framework that nullifies the possibility for renewal of humanity. Institutionalised \textsuperscript{5} historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition thus foregoes the construal of human \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} as a construct of re-originariness/re-origination of \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} as to human limited-mentation-capacity-deepening so-implied from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective as to \textsuperscript{5} maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation and rather adopts the temporality \textlangle\textlangle incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation hanging on to \textsuperscript{5} historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition \textlangle\textlangle presencing—absolutising-identitive-constitutedness\textsuperscript{11} notional framework of human stake-contention-or-confliction. \textsuperscript{5} historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition thus involves a \textsuperscript{4} amplituding/formative–epistemicity>totalising/circumscribing/delineating conception of social-vestedness/normativity—<discretely-implied-functionalism> as to an underlying human psychological entrapment (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) that is incapable to re-stake/put-back-at-stake—meaningfulness-and-teleology(out of its historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition social-vestedness/normativity<discretely-implied-functionalism> in order to reflect the true prospective overall aestheticisation—and—aestheticisation-towards-ontology as to the unbridled ontological-normalcy/postconvergence epistemic/notional–projective-perspective re-originariness/re-origination of human limited-mentation-capacity-deepening. Such social and institutional social-vestedness/normativity<discretely-implied-functionalism> for instance like in many ways the practice in modern-day scholarship (especially when poorly constrained to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) is bound to ‘make its own weather’ rather as from human-subpotency temporality/shortness; wherein ‘invested’ institutional and theoretical/conceptual postures take on an essence all of their own, and so independently and overlooking the precedence of existential-reality for the possibility for prospective sublimation and knowledge-reification and failing to ‘effectively re-stake/put-back-at-stake in re-originariness/re-origination the capacity of human ontological-performance—including-virtue-as-ontology> in a renewing originariness-parrhesia,—as—spontaneity-of-aestheticisation’ over already set/established/determining prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproductibility-of-aestheticisation, and so failing to be responsive to the fact that human limited-mentation-capacity-deepening rather invokes prospective dimensionality-of-sublimating—an<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth—or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> for re-originariness/re-origination (and as ever always such destructuring-threshold<uninstitutionalised-threshold/presublimating—desublimating—decisionality)—of-ontological-performance—including-virtue-as-ontology> across the

Such that such ontologically-flawed \textsuperscript{\textsuperscript{8}} presencing—absolutising-identitive-constitutedness\textsuperscript{\textsuperscript{13}} becomes a psychological entrapment of an overwhelming presence hardly capable of profound re-originariness/re-origination but for its thresholding to the accrued \textsuperscript{\textsuperscript{47}} historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition perception of temporal/shortness human stakes-contention-or-confliction
framework; with the consequence that this mitigates the possibility to broaden-the-latitude-of-human-collective-consciousness off-the-beaten-path of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/alooiness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of presencing—absolutising-identitive-constitutedness—of—meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) such that the generalised human subject re-originariness/re-origination sublimation imaginary
possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic/notional–projective-perspective of re-originariness/re-origination as implied with prospective deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to presencing—absolutising-identitive-constitutedness—of—meaningfulness-and-teleology given historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness given meaningfulness-and-teleology(00) the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology(00)-<in-existential-extrication-as-of-existential-unthought>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation–and–aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and-teleology(00) with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-
for-relative-ontological-completeness' by reification / contemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of 'a presencing—absolutising-identitive-constitutedness' of meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective historiality/ontological-eventfulness / ontological-aesthetic-tracing—<perspective—ontological-normaley/postconvergence-reflected—‘epistemicity-relativism’>. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs—of—meaningfulness-and-teleology—in-cumulation/recomposuring is often articulated as resting on ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ apriorising/axiomatising/referencing—conceptualisation perspective thus supposedly rendering irrelevant their analysis as of inherent ontological-veracity (as to supposedly coherent ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> with regards to the ‘full-conflatedness’ of apriorising/axiomatising/referencing—conceptualisation as to existence-potency ~sublimating—nascence,—disclosed-from-prospective-epistemic-digression), but rather tending to a construal as of ‘inherent prior aestheticisation—and—aestheticisation-towards-ontology as of human social-vestedness/normativity—<discretely-implied-functionalism>’; such a traditional conception from

Likewise, this insight can be extended in reflecting the historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of ‘an engrained traditional non-universalising conceptualisation of the world’ incapable/could-not-bring-itself to mentally process the implications of the nascent universalising-idealisation attitude/mental-disposition/care–and–episteme implied by the Socratic-philosophers as to its apriorising/axiomatising/referencing–psychologism (as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) induced crossgenerational transformation. In this regards, we can appreciate that the Socratic-philosophers and budding-positivists actually addressed and resolved the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of their respective times as of sublimating intellectualism (as of ontological-normalcy/postconvergence

In this regards, we can appreciate that the strong predictive constraining in many a natural science domain (as strongly constrained to existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression) induces the manifestation of sublimating thought as from induced requisite cogency of knowledge-reification (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought) unlike is the case in many a blurry domain highly subjected to imprimatur totalisingly-disentailing—discretion/whim-of-thought as to poor deferential-formalisation-transference justification as often in the social not the least bothered about the overall cogency of projected knowledge-reification (thus rather tending towards existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective). We can consider in this regards how authority actually serves its true deferential-formalisation-transference role quickly gives to prospective possibilities of sublimating knowledge-reification wherein for instance in the physics domain-of-study at the beginning of the 20th century the eminent physicists from say the cohorts of the Poincarés, the

More than just about abstract knowledge-reification87 the implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology100, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology100 in those scientific terms
and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the very notion of ‘positivistic science experimental framework historiality/ontological-eventfulness’/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflectединepistemicity-relativism’ was developed and enculturated/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern-day science experimental framework speaks of the characteristic nature of a supposed knowledge-reification exercise that doesn’t factor in human limited-mentation-capacity-deepening as of relative-ontological-incompleteness to ‘relative-ontological-incompleteness/relative-ontological-completeness ⟨sublimating—referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative—supererogating—projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence⟩⟩ as to human-and-social—expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism as to ⟨amplituding/formative—epistemicity⟩ causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity⟩. Ultimately, the notional–deprocripticism registry-worldview/dimension construed as the nascent prospect for overcoming dimensionality-of-desublimating-lack-of ⟨amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ effectively projects the possibility of boundless human aestheticisation–and–aestheticisation-towards-ontology well beyond our present contemplation of what is implied by 56meaningfulness-and-teleology 56, as in many ways the reality of our past and present aestheticisation–and–aestheticisation-towards-ontology as 56meaningfulness-and-teleology 56 has ‘paradoxically hugely been burdened with desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition induced preemptive anticipation/anxiety about the human’ rather than the summoning of the full possibilities of the human; as by a soothing mental-reflex just as with all registry-worldviews/dimensions we tend to take comfort in our ‘beholdening-becoming—distortive-originariness/distortive-origination–as-to-historicity-tracing—inhibited-mental-aestheticising as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ rather than contemplate about prospective possibilities of ‘bechancing-becoming—originariness/origination—as-to—historiality/ontological-eventfulness'/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism’—disinhibited-mental-aestheticising as of originariness-parrhesia,—as—spontaneity-of-aestheticisation’. Interestingly, in this regards in many ways the ontological-contiguity — of-the-human-institutionalisation-process possibility is hardly just about human ‘mere technical capacity potential’ but it is rather more critically a psychological issue as of desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment implications that limit/stifle the human imaginary/ideality as to its

implications for prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. This existential-extrication-as-of-existential-unthought as to dimensionality-of-desublimating-lack-of very much reflects the fact that all presencing—absolutising-identitive-constitutedness are effectively manifestations of underlying ontological-bad-faith/inauthenticity with regards to their prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; as all such presencing—absolutising-identitive-constitutedness fail to account for their ‘prior and prospective becoming’ which ontologically-veridical rationalisation effectively lies with the nonextricatory-existential-preempting-of-existential-unthought human emancipatory disposition associated with dimensionality-of-sublimating. Similarly with respect to the ‘requisite human dimensionality-of-sublimating’ dispensing-with-immediacy-for-relative-ontological-completeness—by-reification /contemplative-distension, in many ways just as prior human scientific and technological sublimation momentously induced historiality/ontological-eventfulness /ontological-aesthetic-tracing—inevitably required its accompanying social sublimation (as the manifestations of failing social sublimation were in
many ways the reason for conflictual and exploitative encounters associated with budding-positivism), and so as of the contiguity of both human techno-scientific and social sublimations giving their mutually for-human-studies sublimating nature; it is inevitably the case that a naïve construal of prospective science and technological development that seem to imply the requisite prospective sublimation of the overall human as to its prospective construction-of-the-Self is not critical, will inevitably lead to conundrums of prospective science and technology development as to the very possibility for developing the full human potential of science and technology as well as with respect to the underdevelopment of the human as to its shiftiness-of-the-Self in the capacity to handle and deal with prospective science and technology in such a manner that doesn’t imperil mankind’s very own survival (departing as from the larger conception of survival, beyond ‘reactionary construal’ of them-and-us in \( \text{presencing—}\) absolutising-identitive-constitutedness\(^{13} \) epistemicity\( ^{33} \) totalising—self-referencing-synergetising/circularity/interiorising/akrasiatic-drag\(^{33} \) that end up ‘destructively dehumanising’ the various ‘the other’). But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the subimation of the natural sciences as to their inherent phenomenal/manifest–subpotencies–(in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence) to then
‘utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-psychological phenomenal/manifest~subpotencies→(in-transitive-conflatedness →reflexivity, -in-the-full-potency-of-existence’s–sublimating–nascence)’ (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of physics, chemistry, biological, genetic theories as to the ontological-contiguity imbued foregrounding—entailment (postconverging—narrowing-down—sublimation-as-to-'existence—as-sublimating-withdrawal,—eliciting—of—prospective—supererogation ’-in—reflecting—‘immanent-ontological-contiguity ’;—as—operative—notional—deprocrypticism) of their respective inherent sublimating phenomenal/manifest~subpotencies→(in-transitive-conflatedness →reflexivity, -in-the-full-potency-of-existence’s–sublimating–nascence) wherein for instance with the physics frame—of—ontological-contiguity succession of theories are developed aspiring cogently for ontological-contiguity of the whole physics epistemic-conception phenomenal/manifest~subpotency→(in-transitive-conflatedness →reflexivity, -in-the-full-potency-of-existence’s–sublimating–nascence) as from say Galilean/Cartesian/Newtonian/Leibnizian physics to modern-day string-theory/loop-quantum-gravity/etc. which all profess ontological-contiguity). In other words, such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological shouldn’t epistemically be selective in totalisingly—disentailing—discretion/whim—of—thought (if truly of science/ontology as to

The reality at best is that of ‘biological/neurological and evolutionary interpretations
qua natural sciences as the surreptitious opportunity to project gimmicky/desublimating interpretations about the social (on the basis of the ‘hollow impressiveness of the natural sciences’) as a psychological trick/gimmick as to rendering knowledge-reification\(^7\) sublimation in the social impotent with regards to varied social-stake-contention-or-confliction purposes. Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to arrive at the social ‘\(<\text{amplituding/formative-epistemicity}>\text{totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity}\>\)’ sublimating implications and consequences). Besides, such claims are often so-associated with vague non-metaphysical as non-ontological conceptualisations of the social in vague disparateness-of-conceptualisation-\(<\text{unforegrounding-disentailment,-failing-to-reflect-‘immanence-ontological-contiguity’}>\>\) as to elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity\), and thus in many ways further undermine/distact-from the social ‘\(<\text{amplituding/formative-epistemicity}>\text{totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity}\>\)’ conception of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in dealing with direct social and institutional issues, crises and failures. A ‘purist science/ontology epistemic-conception of veracity/truth’ equally differs from the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-\(<\text{discretely-implied-functionalism}>\) implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ with the former construing of ‘knowledge as to existential knowledge-reification\(^7\) privileging manifest
sublimating outcome in existence’ in contrast to the latter construing of ‘knowledge as to collective acquiescence as to the privileging of human commendation-or-agreemengt/convincing-among-mortals (rather than a detour to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) even over manifest sublimating outcome in existence’. Such a ‘purist science/ontology epistemic-conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ (as involved in the reconceptualisation of the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in their presencing—absolutising-identitive-constitutedness as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory-mentativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness failure to directly grasp their very own <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, even as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-mentativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). In other words, the ‘effective equilibration of human
meaningfulness-and-teleology\(^{(10)}\) of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnatures—temporal—to-intemporal-dispositions—<so—constructed—as—from—perspective—ontological-normalcy/postconvergence>—existentialism-form-factor\(^{(1)}\) successive prospective reasoning-through/messianic-reasoning for reasoning-from-results/afterthought as the secondnatures—institutionalisation of successive registry-worldviews/dimensions reference-of-thought—and—reference-of-thought—devolving—meaningfulness-and-teleology\(^{(0)}\) so—constructed as ‘generating varying human sublimating—over—desublimating social— and—institutional—constructs—of—meaningfulness—and—teleology\(^{(10)}\)—in—cumulation/recomposuring of apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’ as to their pre-eminence as of their ‘prospectively projected relative—ontological—completeness dimensionality-of—sublimating—(<amplituding/formative>supererogatory—dementativeness/epistemic-growth—or—conflatedness/transvaluative rationalising/transepistemicity/anamnestic-residuality/spirit—drivenness—equalisation)’. This latter insight is critical for all prospective human sublimation as ‘a false sense of a categorically/absolutely sublimated social—construct ordinariness/commensicality and social—vestedness/normativity—<discretely—implied—functionalism>’ effectively renders any prospective human emancipation and construction—of—the—Self pointless—and—contradictory; as to the fact that even such advocates turn out to be incoherently muted—and—muddled with regards to such an argument about ‘a false sense of a categorically/absolutely sublimated social—construct ordinariness/commensicality and social—vestedness/normativity—<discretely—implied—functionalism>’, revealing their true motives rather as status quo preserving with regards to social—stake—contention—or—confliction (beyond—the—consciousness—awareness—teleology\(^{(10)}\)—<in—existential—extrication—as—of—existential—unthought>). The ‘purist science/ontology epistemic—
conception of veracity/truth’ is ever always about the ‘prospective upholding of existence-potency\~sublimating–nascence,-disclosed-from-prospective-epistemic-digression and de-mentatively/structurally/paradigmatically so-explains the very possibility for human progress. In contrast the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity\<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency\~sublimating–nascence,-disclosed-from-prospective-epistemic-digression are vague disparateness-of-conceptualisation-\<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’>, and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised imprimatur of intellection even as to when it projects intellectual desublimation associated with pedantising/muddling/formulaic-hollowing-out—\in-subontologisation/subpotentiation\(\langle\text{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-}\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising~in-relative-ontological-completeness}\rangle\) as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern-day intellection relevant prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint.

Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects
prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency\textsuperscript{38}—sublimating—nascence,—disclosed-from-prospective-epistemic-digression; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior methodologising/mutualising/organising/institutionalising conception of physics. Critically, with regards to the blurriness of \textsuperscript{40}meaningfulness-and-teleology in the social that exposes prospective transcendental dispositions (as to dimensionality-of-sublimating—\(\langle\text{amplituding/formative}\rangle\) supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/ transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming\textsuperscript{70} to sophistic/pedantic \(\langle\text{amplituding/formative}\rangle\) wooden-language\{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—

Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given ‘presencing—
absolutising-identitive-constitutedness (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional-projective-perspective) as to an epistemically-decadent wooden-language
(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-
drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology); and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness-by-
reification\textsuperscript{57}/contemplative-distension\textsuperscript{5} out of concern about human prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{90} ‘is the most important human and humanity-producing enterprise’ notwithstanding the paradox that the prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism–or–disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism–or–preempting–disjointedness-as-of-reference-of-thought respectively in many ways explaining the underlying implications of human registry-worldview’s/dimension’s institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification\textsuperscript{57} is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification\textsuperscript{57} exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification\textsuperscript{57} implications and pretending otherwise as to
‘virtual wisdoms’ is nothing more than \(<\textit{amplituding/formative–epistemicity}>\textit{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\)\textsuperscript{\textdegree}. Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity\(<\textit{discretely-implied-functionalism}>\textit{epistemic-conception of veracity/truth}\) lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has de-mentative/structural/paradigmatic implications with regards to human meaningfulness-and-teleology\textsuperscript{\textcircled{10}} (as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-and-teleology ). This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) is ‘the scalar conception that enables prospective human sublimation as of aestheticisation-towards-ontology’ while on the other hand human-subpotency (as to human \textsuperscript{\textcircled{8}} presencing—absolutising-identitive-constitutedness\textsuperscript{\textcircled{4}}\textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag }) is ‘a non-scalar conception that induces prospective human desublimation aestheticisation’. The ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as such is reflected with regards to prospectively implied ontological-normalcy/postconvergence construed as of ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation epistemic-projection perspective while ‘human-subpotency non-scalarity/beholdening-\(<\textit{as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation}>\) is reflected with regards to its prospectively implied epistemic-abnormalcy/preconvergence\textsuperscript{\textcircled{10}} construed as of \textsuperscript{\textcircled{5}}incrementalism-in-relative-ontological-
incompleteness — enframed-conceptualisation epistemic-projection perspective. Basically, ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholdingen—<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ thus speak to the fact that human prospective transcendence-and-sublimity/sublimation/supereorgenatory—de-mentativity implied limited-mentation-capacity-deepening \(^{(5)}\) (as to dispensing-with-immediacy-for-relative-ontological-completeness -by-reification \(^{(7)}\)/contemplative-distension \(^{(6)}\)) is actually induced as from human uncontemplative-distension so-construed as ‘dispensing-with-immediacy-for-relative-ontological-completeness -by-reification \(^{(7)}\)/contemplative-distension \(^{(6)}\) imbued prospectively of both sublimating \(^{(4)}\) historiality/ontological-eventfulness \(^{(3)}\)/ontological-aesthetic-trace and desublimating \(^{(4)}\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’; as to prospective sublimating \(^{(4)}\) historiality/ontological-eventfulness \(^{(3)}\)/ontological-aesthetic-trace ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as prospectively preserving ontology/ontological-veracity and ‘human-subpotency non-scalarity/beholdingen—<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ prospective desublimating \(^{(4)}\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition as prospectively obviating ontology/ontological-veracity. This insightful grasp of the implications of human limited-mentation-capacity-deepening \(^{(3)}\) (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness \(^{(2)}\)), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance \(^{(2)}\)-<including-virtue-as-ontology> (associated with prospective human sublimation) into: ‘a
scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’> and ‘a non-scalarity/beholdening-as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing—in-presencing—hyperrealisation/ hyperreal-transposition’.

Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’); with the effective ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just relative-ontological-completeness) underlying the overall existential dimensionality-of-sublimating ⟨<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ as the inherent ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming effectively reflected as of notional–deprocripticism. notional–deprocripticism as such by its ontologically-uncompromised nature ‘technically entails’: prospective human ontological-performance-including-virtue-as-ontology as to sublimating “historiality/ontological-eventfulness/ontological-aesthetic-tracing” perspectiv---

That said, human sublimation increasingly implies a ′generalised background cultural,-organisation-and-institutional framework′ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ′purist science/ontology epistemic-conception of veracity/truth′ can be desublimated by an ontologically-impertinent ′generalised background cultural,-organisation-and-institutional framework′ adopting ′social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth′. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ′social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth′ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating ′historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as superseding social intellection itself as an inherent exercise for the social domain′s ′purist science/ontology epistemic-conception of veracity/truth′ (as to the latter′s prospective sublimating ′historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective—ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>). Critically such a ′purist science/ontology epistemic-conception of veracity/truth′ analysis very much point out that the social-construct is riddled with narratives of ′supposedly veridical ontological justifications/grounds′ but which on closer examination as of ′purist science/ontology epistemic-conception of veracity/truth′ turn out to be at the least sub-
ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-

impertinence of the ‘social-vestedness/normativity-<discretely-implied-functionalism>

existential-condescension–<of-apriorising/axiomatising/referencing–psychologism>’ is a failure to meet the ‘prospectively
warranted organic-knowledge epistemic-veracity’ as failing to reflect supererogatory acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument –for– conceptualisation in implying that ‘the sublimating apriorising/axiomatising/referencing–psychologism is the valid logical-basis’ and ‘the desublimating apriorising/axiomatising/referencing–psychologism is the invalid logical-basis’. This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as so-induced by notional–asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturting institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-
development/ontological-framework-expansion--as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology which rather requires instigative notional–asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturung of positivism/rational-empiricism was the notional–asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness logical-basis/logic--as-to—transversality<as-to—transversality<for-sublimating–existential-eventuating/denouement>--of-affirmative-and-unaaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing is in transversality<for-sublimating–existential-eventuating/denouement>--of-affirmative-and-unaaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ with the relative-ontological-incompleteness logical-basis/logic--as-to—transversality<for-sublimating–existential-eventuating/denouement>--of-affirmative-and-unaaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’’, it is only the sublimation as to existence—assublimating-withdrawal,-eliciting-of-prospective-supererogation that affirmatively upholds the relative-ontological-completeness over the relative-ontological-incompleteness (as to
their supposedly coherent ontological-commitment <implied—self-assuredness-of-

that in a professional–client relationship like between a physician and a patient or a plumber

This poor appreciation arises for the simple reason that the uninstitutionalised-threshold speaks of the registry-worldview/dimension notional-discontiguity/epistemic-discontiguity, and thus it is disinclined to recognise the prospective ‘relative-ontological-completeness — apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying,—ontological-commitment — <implied—self-assuredness-of-ontological-good-faith/authenticity — postconverging—de-mentating/structuring/paradigming — as-being-as-of-existential-reality>)’ imbued ‘foregrounding—entailment—(postconverging—narrowing-down—sublimation-as-to—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation ’—in—reflecting—‘immanent-ontological-contiguity ’;—as-operative-notional—deprocripticism) that can instill such a prospective sublimating knowledge ‘ontological-good-faith/authenticity — postconverging—de-mentating/structuring/paradigming — existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ as to prospective living-development—as-to-personality-development and institutional-development—as-to-social-function-development. In this regards, it can be appreciated with respect to budding-positivism and universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the scholastic-medievalism underpinning—suprasocial-construct or where construing meaningfulness in coherent universalising terms do not avail as in the non-universalising sophistry underpinning—suprasocial-construct, then there is a fundamental reality of desublimating ontological-bad-faith/inauthenticity over which prospective sublimating ontological-good-faith/authenticity knowledge respectively as of budding-positivism and universalising-idealisation can only be established as of their respectively requisite

Indeed, as to when such ‘relative-ontological-completeness —apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–<as-to–underlying,-ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-}\text{mentating/structuring/paradigming –as-being-as-of-existential-reality>}’ is institutionalised say with modern-day positivism/rational-empiricism the requisite ‘ontological-good-faith/authenticity\(^9\) existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ of modern-day scientific breaktrhoughs sublimation projected knowledge hardly put into question. Likewise, this insight about the requisite ‘ontological-good-

In this regards, as to ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking –apriorising-psychologism>’ over ‘desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing –apriorising-psychologism>’, the requisite ‘ontological-good-faith/authenticity\textsuperscript{(69)} existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ for organic-knowledge ‘speaks to an intellectual-and-moral responsibility associated with knowledge as of the requisite dispensing-

The blunt fact is that as explained above and clearly obvious with human living-development—as-to-personality-development and institutional-development—as-to-social-function-development the ordinariness of meaningfulness-and-teleology is not to be exploited as if it is a credible state of profound ontological-veracity given the lack of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension (as to a disparateness-of-conceptualisation—unforegrounding-disentailment,—failing-to-reflect—‘immanent-ontological-contiguity’> which pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—amplituding/formative—epistemicity—totalising—in-relative-ontological-completeness ) thrives on this lack of universal-transparency —(transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—epistemicity—totalising—in-relative-ontological-completeness ) with regards to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—
meaningfulness-and-teleology[100] underlying the genuine social intellectual–function/posture. Intellectualism as such is much more than just about [80] presencing—absolutising-identitive-constitutedness[1] methodologising/mutualising/organising/institutionalising enterprise as to the fact that ‘all given registry-worldviews/dimensions as [80] presencing—absolutising-identitive-constitutedness[1] underpinning–suprasocial-construct relate to their given [56] meaninglessness-and-teleology[100] in absolute terms whereas in reality there are veridically relative subontologisation/subpotentiation of ontology as metaphysics-of-presence{(implicitied-
‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness }’); and it is here that the genuine social intellectual–function/posture comes in to veridically reflect the reality that a social-construct is not of absolute scalarisation of human ontological-performance[72]–<including-virtue-as-ontology> for the possibility for its prospective scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory–involuting-or-guiding-or-amplifying–scalarisation–<as-to-existence–as-sublimating-withdrawal,-eliciting-of-prospective-supererogation }, and the genuine social intellectual–function/posture as such is not about a naivist social-vestedness/<normativity–<discretely-implied-functionalism> as otherwise the possibility for the succession of registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory–de-mentativity right up to our present wouldn’t have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–of–[56] meaninglessness-and-teleology[100]. The genuine social intellectual–function/posture means that human thought can project beyond, overlook and override [80] presencing—absolutising-identitive-constitutedness[1] <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising–enframing/imprintedness–{as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition} conception of sublimating value and ontological-veracity disposition; and so as to the fact that
presencing—absolutising-identitive-constitutedness –\textsuperscript{13} <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness–⟨as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition⟩ actually tend to be skewed towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology\textsuperscript{100}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} positive-opportunism\textsuperscript{76} of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) over ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (with regards to its supererogation\textsuperscript{77}–profundity–postconverging–dementating/structuring/paradigming requisite dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}–by-reification\textsuperscript{87} /contemplative-distension\textsuperscript{26} for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} ), and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the overall underpinning–suprasocial-construct tends to be abstractly preconvergingly–dementated/structured/paradigmed to skew towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as for instance professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the genuine social intellectual–function/posture is to undermine this skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology\textsuperscript{100}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{7} positive-opportunism\textsuperscript{76} of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals
making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given presencing—absolutising-identitive-constitutedness, ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose meaningfulness-and-teleology infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human meaningfulness-and-teleology (and so not only with human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology but is equally reflected in a poor-spirited bland conception of human living-development—as-to-personality-development and institutional-development—as-to-social-function-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning—suprasocial-construct projected and preconvergingly—de-mentated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone
for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-threshold\(^1\) of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying [presencing—absolutising-identitive-constitutedness\(^1\)] end up as the registry-worldviews/dimensions Establishments underpinning—suprasocial-construct as to dominance/vested-interest—drivenness—<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of [presencing—absolutising-identitive-constitutedness\(^1\)] <<preconverging~’motif-and-apriorising/axiomatising/referencing’—imbuing>> existentialising—enframing/imprintedness—(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) of social-vestedness/normativity\(<\text{discretely-implied-functionalism}\) and social-stake-contention-or-confliction. This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could
bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our modern-day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming’ existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ with regards to the human species on Earth and strive to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance’-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence ’ but together with the extraterrestrials is rather de-mentatively/structurally/paradigmatically in existential-discursivity—implicated-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality>) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicated-sublimation-over-desublimation superseding pretenses of mere-formulaic methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive-constitutedness articulated induced elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—
existentialising/contextualising/textualising-contiguity. Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness avails rather than ontological-bad-faith/inauthenticity in upholding relative-ontological-incompleteness (given that immortality/existence-perspective as to intemporality cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging-or-dementing–apriorising-psychologism and not postconverging-or-dialectical-thinking–apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicated-sublimation-over-desublimation that explains why the availing of relative-ontological-completeness as to dimensionality-of-sublimating as to amplituding/formative–supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation takes precedence in defining human intellectual-and-moral ontological-performance–including-virtue-as-ontology and so as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. This implied existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity–postconverging–de-mentating/structuring/paradigming existential-condescension–of-apriorising/axiomatising/referencing–psychologism’ effectively underlies the ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the preformulating/preframing/premeaningfulness–metaphoricity–disposition—as-to-psyche-induced-psychologism-of-existential-stake from which human meaningfulness-and-teleology veridically arises. Thus existential-discursivity—implicated-sublimation-over-desublimation implies that the human is already ‘dementatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to
its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-

apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-

<amplituding/formative–epistemicity>totalising–thrownness-in-existence’’. This insight puts

into perspective our ‘presencing—absolutising-identitive-constitutedness’ conception of

intellectual-and-moral responsibility wherein supposedly failed/unsuccesful/ineffective

initiatives undertaken as to relative-ontological-completeness (for instance with regards to

some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc.

and in the scientific domain for instance controversies associated with Louis Pasteur

breakthroughs in microbial science) seem to be wrongly analysed from the posture of a

supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility

(that ducks/ignores such relative-ontological-completeness aetiologisation/ontological-

escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-
incompleteness specific apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—ontological-deficiency arising from its specifically given

<amplituding/formative–epistemicity>totalising–thrownness-in-existence’ is not of neutrally/objectively sound ontological-performance<including-virtue-as-ontology>; as to the fact that for instance the incidence of modern-day wars and their man-

made catastrophies do not speak of neutral/objective individuals and social intellectual-and-
moral responsibility as to their existence within the meaningful sovereign frameworks that de-

mentatively/structurally/paradigmatically directly/indirectly validate such calamities. In other

words, our intellectual-and-moral responsibility is already engaged as to our

<amplituding/formative–epistemicity>totalising–thrownness-in-existence’ and the idea that

any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus;
and human intellectual-and-moral responsibility starts at the very least with an orientation to
relative-ontological-completeness\textsuperscript{88} as to overall existential dimensionality-of-sublimating\textsuperscript{85}:
\langle \text{amplituding/formative}\textsuperscript{supererogatory-de-mentativeness/epistemic-growth-or-conflatedness} /\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} \rangle. Besides such a more stark elucidation as to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology \textsuperscript{90}, existential-discursivity—implicitly-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity\textsuperscript{90}–postconverging–de-mentating/structuring/paradigming\textsuperscript{70} existential-condescension–of-apriorising/axiomatising/referencing–psychologism’, thus points to the primacy of ‘the very \langle \text{amplituding/formative–epistemicity}\textsuperscript{totalising–thrownness-in-existence} \rangle of human discursivity as to the possibility for prospective existential sublimation’ so-reflected in originariness-parrhesia,–as–spontaneity-of-aestheticisation—

The bigger point here is that prospective human sublimation underlying prospective knowledge-reification\textsuperscript{87} in relative-ontological-completeness cannot be engaged with any given registry-worldview/dimension in relative-ontological-incompleteness\textsuperscript{90} as if the latter is of a ‘neutrally/objectively sound human ontological-performance’–\text{including-virtue-as-ontology} state failing to factor in human specific apriorising/axiomatising/referencing–(of–existentialising/contextualising/textualising-contiguity)—ontological-deficiency arising from its specifically given \langle \text{amplituding/formative–epistemicity}\textsuperscript{totalising–thrownness-in-existence} \rangle with regards to the fact that human
is already engaged in existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity’—postconverging–de-mentating/structuring/paradigming existential-condescension—of-apriorising/axiomatising/referencing—psychologism’ (and so very much countering the deceptive eliciting in desublimation of wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void ’—with-regards-to—prospective-apriorising-implications) by dominance/vested-interest actors and sycophantic-sophistry seeming to imply human-subpotency takes precedence over existence). In this regards, and in the bigger scheme of things existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity’—postconverging–de-mentating/structuring/paradigming existential-condescension—of-apriorising/axiomatising/referencing—psychologism’ implies that as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation, the respective state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism cannot be construed as of ‘neutrally/objectively sound human ontological-performance’—including-virtue-as-ontology state failing to factor in human specific apriorising/axiomatising/referencing—of—existentialising/contextualising/textualising—contiguity)—ontological-deficiency arising from its specifically given \textless amplituding/formative—epistemicity\textgreater totalising–thrownness-in-existence‘ with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and notional—deprocrypticism respectively; and as relative-ontological-completeness avails intellectual-and-moral responsibility is rather reflected as of dimensionality-of-sublimating—\textless amplituding/formative—supererogatory–de-mentativeness/epistemic-growth-or—conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit—
-drivenness–equalisation). Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given \( \langle \text{presencing—absolutising-identitive-constitutedness, self-justification of uncertainty of prospective human sublimation} \rangle \), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its ontological-contiguity’ as to the possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity—of-the-human-institutionalisation-process so-associated with human limited-mentation-capacity-deepening ). This confliction in the perception and relation to human sublimation in existence between metaphysics-of-presence\{implicated-‘nondescript/ignorable-void’-as-to-presencing—absolutising-identitive-constitutedness \} \langle amplituding/formative–epistemicity \rangle totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ’ on the one hand and on the other hand difference-conflicatedness—as-to-totalitative-reification’-in-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>-as-veridical-epistemic-determinism as to relative-ontological-completeness \langle amplituding/formative–epistemicity \rangle causality-as-to-projective-totalitative—implications-of-prospective- nonpresencing, -for-explicating-ontological-contiguity, is aptly reflected in the entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-contiguity—of-the-human-institutionalisation-process. This is so fundamentally because of human teleology speaking of ‘human phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting \langle amplituding/formative\rangle disposedness-(as-to-orientation/value-construct/valuation–and–derived-parameterising) and \langle amplituding/formative\rangle entailment-(as-to-totalising-contiguous/coherent–factuality-of-
variability), as reflecting the implications of human limited-mentation-capacity-deepening underlying the ontological-contiguity—of-the-human-institutionalisation-process; such that human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed presencing—absolutising-identitive-constitutedness given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. The insight here is that human state of prior relative-ontological-incompleteness de-mentatively/structurally/paradigmatically impacts reflexively on human appraisal of its prospective relative-ontological-completeness sublimation implications, and so across the successive registry-worldviews/dimensions right up to the originariness/origination (so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence) perspective of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought which purportedly escapes any such reflexive presencing—absolutising-identitive-constitutedness of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation. The so-implied notional–deprocrypticism as such points out that the ontological-contiguity—of-the-human-institutionalisation-process is rather associated with a ‘directly relevant trace of prospective human effectively-purist-sublimation—reflecting—prospective—historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism’) as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation but that, as of the successive registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness construals/conceptualisations, that ‘directly relevant trace of prospective
coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘immaterial/social overall relative-ontological-incompleteness’–presublimation-construct–of–meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations--<blinded-to-their-relative-ontological-completeness--reference-of-thought-devolving'>. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of–meaningfulness-and-teleology of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking–apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness and the immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of–meaningfulness-and-teleology of medieval-scholasticism associated with alchemic/magical thinking, to the
point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying,—ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of—existential-reality>⟩’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to the fact that the technical and scientific progress as to relative-ontological-completeness weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness —presublimation-construct—of—meaningfulness-and-teleology value-construct and shallow-supererogating methodologising/mutualising/organising/institutionalising <preconverging—‘motif-and-apriorising/axiomatising/referencing’—imbuing—existentialising—enframing/imprintedness—\{as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\}, but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism driving the secondnatured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness—by-reification /contemplative-distension immaterial/social sublimation considerations that rise to the aporeticism overcoming/unovercoming challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—
in-presencing–hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfulness-and-teleology\textsuperscript{100} of our positivism–procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual–function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origin-\textsuperscript{(so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence)} perspective of notional–deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness –presublimation-construct–of– meaningfulness-and-teleology\textsuperscript{100}; as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social overall relative-ontological-incompleteness’ –presublimation-construct–of– meaningfulness-and-teleology\textsuperscript{100} instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—\textsuperscript{blinded-to-their-relative-ontological-completeness}–reference-of-thought-devolving’ that goes on as of presencing—absolutising-identitive-constitutedness\textsuperscript{13} to render the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance –\textsuperscript{including-virtue-as-ontology} reflected in their failing effective outcomes of equanimity/balance; wherein their practice increasingly tends to dominance/vested-interest actors and sycophantic-sophistry induced desublimating narratives as to the wooden-language–\textsuperscript{imbued–averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology–as-of-}

The implication here that in the bigger scheme of things, the ‘apriorising decisions advancing mere-formulaic—methodologising/mutualising/organising/institutionalising human-subpotency <preconverging—’motif-and-apriorising/axiomatising/referencing’–imbuing’—existentialising—enframing/imprintedness—{as-to— historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition)’ over inherent ontological-veracity as manifested in many a social domain (while equally relevant in the natural sciences especially when ‘mere-formulaic—methodologising/mutualising/organising/institutionalising human-subpotency

In this regard, relic/artifactual conception of veridical human historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> rather speaks to deficient knowledge-reification gesturing caught up in presenting—absolutising-identitive-constitutedness as of beholdening-becoming—distortive-originariness/distortive-origination—as-to-<sup>h</sup> historicity-tracing—inhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual–function/posture indifference or betrayal to dominance/ vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflected in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the

aestheticisation in re-ontologisation accompanying human institutional-
cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism‘> as can be appreciated throughout human history). This is explained by the fact that the human can relatively easily appreciate the ontological-pertinence of new practices arising as from outside cultural diffusion but it is very much difficult to reconstrue of such practices as from the taxingness-of-originariness involved in surpassing an internalised <amplituding-formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ posture; and this very much explains the double epistemic orientation to notional-deprocriptism institutionalisation ‘unenframed/unbeholdening/bechancing-supererogation’ parameterisation/reparameterisation-(reflecting-a-supererogatory-decisionality-of-socioinstitutional-conceptions-as-to-their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality-numbing-traction-desublimation)_as-so-operationalising-‘scalarisation-as-to-rescalarisation-as–re-ontologisation’ for prospective aestheticisation–and–aestheticisation-towards-ontology/meaningfulness-and-teleology as highlighted above (as to the need to feed our <amplituding-formative-epistemicity>totalising–thrownness-in-existence decisively globalising world with aestheticising re-originariness/re-origination to uphold the capacity for pure-ontology as to re-ontologisation). In this regards, all such ontologisation/re-ontologisation potential for human meaningfulness-and-teleology: is de-mentatively/structurally/paradigmatically ever inducible as of human formativeness-as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>-of-meaningfulness-and-teleology, as to the underlying human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality (given human

psychologism) is susceptible to the postlogism of notions-and-accusations-of-sorcery meaningfulness-and-teleology (articulated rather as preconverging-or-dementing—apriorising-psychologism) which will be de-mentatively/structurally/paradigmatically impossible to manifest in a non-superstitious positivistic registry-worldview/dimension. Thus the idea of ‘prelogism-as-of-conviction,-in-profound-supererogation '<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> cognisance-and-integration in presublimation reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning-amplituding/formative/disposedness-(as-to-orientation/value-construct/valuation–and–derived-parameterising)’ speaks to the fact that more fundamentally postlogism and social-postlogism implications are ontologically escalating
referencing/registering/decisioning is circularly beholdening to human-subpotency (as subontologising prior apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) rather than to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (as re-ontologising prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) and thus undermining the prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring induced re-motif–and–re-apriorising/re-axiomatising/re-referencing/re-intelligibilitysettingup/re-measuringinstrumenting as conflating towards the possibility of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. The psychologistic and apriorising implications here is that with regards to say a God of plane proposition in an animistic social-setup, an engagement striving to elucidate the notion of plane involving any existential-instantiation aposteriorising/logicising/deriving/intelligising/measuring in terms of the animistic social-setup non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation, is de-mentatively/structurally/paradigmatically already validating the animistic social-setup non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation as paradoxically valid for all instances of aposteriorising/logicising/deriving/intelligising/measuring warranting positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation (thus inducing the animistic social-setup ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation and its non-positivistic complexification); as to the fact that it is a positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–

As of practical existential implications\(^{55}\) maximalising-recomposuring-for-relative-ontological-completeness\(^{88}\)—unenframed-conceptualisation means that the positivistic <amplituding/formative> disposedness\(\langle\text{as-to-orientation/value-construct/valuation–and–}\text{derived-parameterising}\rangle\) cannot be responsive to the social-stake-contention-or-confliction projected as of such a non-positivistic\(^{55}\) meaningfulness-and-teleology\(^{100}\), as to a fundamental positivistic disavowal of its non-positivistic <amplituding/formative> disposedness\(\langle\text{as-to-orientation/value-construct/valuation–and–}\text{derived-parameterising}\rangle\) as non-aposteriorising/non-
logicising/non-deriving/non-intelligising/non-measuring (as from the holding-forth of its non-

Thus, as to their respective presencing—absolutising-identitive-constitutedness, all relative-ontological-incompleteness registry-worldviews/dimensions as of their preconverging-or-dementing apriorising-psychologism pretend to articulate what can prospectively be possible and impossible (in such a way that ‘conveniently’ imply that theirs is the registry-worldview/dimension that ‘thinks right’ while ignoring projective-insights as of the overall ontological-contiguity—of-the-human-institutionalisation-process implications as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) with respect to all corresponding prospective relative-ontological-completeness projective-insights implications of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity; failing to factor in that their paradoxical contemplation in relative-ontological-incompleteness is exactly what renders their supposed determination of what can prospectively be possible and impossible structurally/paradigmatic nonsensical but for the convenience of falling back (even when relative-ontological-completeness avails) as of ontological-bad-faith/inauthenticity to the notion that after all all the world that exists is as-of-their-given-registry-worldview/dimension however its preconverging–de-mentating/structuring/paradigming vices-and-impediments (which mental-reflex is ever always ‘exactly the aporeticism’ to be superseded with prospective sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). In a
further elucidation, the ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance’<sup>77</sup>-<including-virtue-as-ontology> as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with human temporal inclination to ‘historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition has to do fundamentally with the very nature of human sublimation (notwithstanding its constraint by human limited-mentation-capacity). In this respect the ontological-veracity of human institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) (as of the accruing effectively-manifest-sublimation/sublime from stone-age to bronze-age to iron-age involving the formation of agrarian societies and cities and subsequent development of universalising societies and today’s positivising modern world) rather more aptly speaks of ‘overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’; with the profound idea that the more momentous grasp of the notion of say the civilisations of Ancient Zimbabwe, Ancient Egypt, Ancient Greece, Ancient China, Ancient India or Ancient Aztec, etc. are rather as of a more profound point-of-departure as from a ‘human psychological-disposition for supererogatory–unbeholdening-conflatedness ¹³ historians/ontological-eventfulness¹⁷/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of sublimating intelligibility’ divulging the underlying dynamism of human ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’‘ (and so rather than a shallower point-of-departure as from a ‘human psychological-disposition for relic/artifactual–beholdening-constitutedness ³ historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of presublimating intelligibility’ of ‘merely-

In other words, existentialising–decisionality and sublimating–nascence perspectively-reflect respectively
‘notional~presencing—absolutising-identitive-constitutedness’ and
notional~nonpresencing—transversal continuum’, as to ‘thresholding conception of the relationship between perspective decisionality/human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> and perspective sublimation/desublimation in existence’. Insightfully, such a perspective distinction between existentialising–decisionality and sublimating–nascence points out that there is ‘epistemical-reflexive psychological reorientation of human relation with meaningfulness-and-teleology’ as to the contrast between ‘blurriness in existentialising–decisionality’ and ‘universal-transparency—⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness ⟩ of sublimating–nascence’; wherein ‘universal-
transparency - (transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness ) of sublimating–nascence’ (as to nascent-particular/incipient-and-material/technical-sublimations <blinded-to-their-relative-ontological-completeness – reference-of-thought- devolving>) is relatively bound to elicit individual and social positive-opportunism deferential-formalisation-transference of existentialising–decisionality while ‘blurriness’ in existentialising–decisionality’ is relatively bound to undermine individual and social deferential-formalisation-transference as to relative-ontological-incompleteness – presublimation-construct–of–meaningfulness-and-teleology desublimating–existentialising–decisionality (thus undermining the requisite relative-ontological-completeness ‘reference-of-thought–and–reference-of-thought- devolving–meaningfulness-and-teleology comprehensiveness of prospective sublimating–nascence’ as of the sublimating–nascence teleological-inflection (as-to-more-profound-nondisjointing–<amplituding/formative-epistemicity>totalising/circumscribing/delineating)). That is, the individual and social existentialising–decisionality is more readily defined by default in ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and this is effectively the default individual and social existentialising–decisionality psychological-disposition as to upholding/defending sovereignty, but then given human limited-mentation-capacity the individual and social are then secondarily predisposed to deferential-formalisation-transference existentialising–decisionality psychological-disposition as to the positive-opportunism consequences of deferring to ‘universal-transparency - (transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness ) of sublimating–nascence’ (in delegating sovereignty ultimately as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ) with the lack of such ‘universal-transparency - (transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative-epistemicity>totalising-in-
relative-ontological-completeness \( \) of sublimating–nascence’ as to when ‘blurriness’ in existentialising–decisionality’ arises inducing defaulting ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness\(^{89}\)–presublimation-construct–of–meaningfulness-and-teleology\(^{100}\) desublimating–existentialising–decisionality). The implications of this dual existentialising–decisionality psychological-dispositions is critical particularly with regards to the social-and-institutional-frameworks-of—referencing/registering/decisioning of human \(^{56}\) meaningfulness-and-teleology\(^{100}\) of ‘blurriness’ in existentialising–decisionality’ as rather poorly amenable to profound ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ as it is relatively the case in the natural sciences (and so beyond-the-consciousness-awareness-teleology\(^{100}\)-<in-existential-extrication-as-of-existential-unthought> ); as to the fact that existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation \(<\text{as-to-perspective–ontological-normalcy/postconvergence} ^{97}\) more readily makes ‘desublimating nonsense’ of human existentialising–decisionality \(^{56}\) meaningfulness-and-teleology\(^{100}\) failing ‘genuine knowledge-reification’ framework involving an immediate potent detour to existence-potency\(^{19}\)–sublimating–nascence,-disclosed-from-prospective-epistemic-digression while the relative ‘blurriness’ in existentialising–decisionality’ of social-and-institutional-frameworks-of—referencing/registering/decisioning induce a relative orientation in the social towards \(^{10}\) presencing—absolutising-identitive-constitutedness \(^{17}\) social-vestedness/normativity \(<\text{discretely-implied-functionalism} ^{13}\) existentialising–decisionality \(^{56}\) meaningfulness-and-teleology\(^{100}\) (so-enabled by poor direct/immediate potent constraining to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{97}\)). In this regards, many such social-and-institutional-frameworks-of—referencing/registering/decisioning
can be construed as ‘frameworks of relatively shallow-ontologisation/subontologisation’ as to
the existentialising–decisionality psychological-disposition of defaulting individual and social

meaningfullness-and-teleology<sup>10</sup> desublimating–existentialising–decisionality. We can for
instance appreciate this ‘human existentialising–decisionality dual psychological-dispositions

Along the same lines of disambiguating ‘human existentialising—decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ just as ‘a God of plane non-positivistic proposition’ in an animistic social-setup implies priorly an ‘altogether superseding positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation induced psychologism of reference-of-thought’ (over their non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation psychologism of reference-of-thought) from whence aposteriorising/logicising/deriving/intelligising/measuring can then ensue in existential-instantiations of conceptualising, and so as to the positivistic meaningfulness-and-teleology\(^\text{100}\) ‘more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-

Ayer, Richard Rory, etc. even as their conceptions came under criticism because a genuine relation with knowledge is what can bring about appropriate prospective correction for sublimating knowledge when prospective inspiration avails notwithstanding the traditional approach to knowledge so long as it remains self-critical whereas a false social and institutional pre-eminence driven relation to knowledge shoves existential issues under the table not because there is no human intelligence to tackle true knowledge but because the possibility for more profound contemplation is a-priori placed out-of-sight since ‘supposed knowledge-reification as to its gesturing’ is as of ‘existentialising–decisionality that desublimatingly precedes knowledge-reification’” rather than veridically ‘knowledge-reification’ as of its very own deriving/manifest/ensuing/eventuating sublimating–existentialising–decisionality’ and as so-reflected when mere-formulaic methodologising/mutualising/organising/institutionalising as of human-subpotency is construed as doing away with priorly requisite-and-relevant supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation with the off-the-shelf and made-to-measure projection of methods and

both instances the inconsistency is bent on blurring/undermining—universal-transparency—

epistemicity>totalising—\text{in-relative-ontological-completeness} \parenthesis as to a de-
mentative/structural/paradigmatic implication that renders prospective knowledge impotent and so out of ontological-bad-faith/inauthenticity in desublimating–existentialising–decisionality gesturing of attenuating/devaluing, blurring and trivialising wherein there is ‘supposedly no totalising-entailing conception of ‘meaningfulness-and-teleology’ thus allowing for totalisingly-disentailing—discretion/whim-of-thought pretense-of-sublimation rather unconstrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. Critically the ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ associated with nascent-particular/incipient-and-material/technical-sublimations-blinded-to-their-relative-ontological-completeness – reference-of-thought-devolving is necessarily of totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation thus relatively undermining such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness in existentialising–decisionality’ (that is, where the latter does not extensively intrude into the former as for instance in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness, wherein blurriness is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification rather than ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification gesturing as determining sublimating–existentialising–decisionality)’; with this conflicting of ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ so-
reflected across the successive registry-worldviews/dimensions given human notional-firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> as to prospective social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>). Thus such an aporeticism overcoming/unovercoming necessarily imply the integration of the analysis of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness} as part and parcel of prospective knowledge-reification as to knowledge-notionalisation, and especially as so-manifested increasingly with ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge frameworks’ that on the baiting of imprimatur then switch on to propound ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge constructs out-of and implicitly obviating the veracity of the universal-transparency—<transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness} of knowledge-reification” (and so as to self-serving social-vestedness/normativity—<discretely-implied-functionalism>) and this must effectively be contested. Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification for sublimation but rather about gimmicky-and-flashy threads of mere communication performance’ with many such interlocutors openly admitting-and-manifesting their critical lack of relevant intellectual thematic competence as popularity then supposedly becomes the driving force of thought; the fact though remains (however the seemingly trivialising concern about such media driven pop-intellectualism as rather unimportant in some milieus of more profound intellectual
contemplation) that unfortunately in many ways directly or indirectly (as to the social-andinstitutional-frameworks-of—referencing/registering/decisioning susceptibility to ‘blurriness’in existentialising—decisionality’ and as encouraged by dominance/vested-interest actors) such pop-intellectualism end up being elevated as the sumnum of intellection in the social while overlooking the requisite depth of sublimating universal-transparency—totalising-entailing—as-to-entailing—amplituding/formative—epistemicity—totalising—in-relative-ontological-completeness of critical importance for effective social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating–existentialising–decisionality (and as the ‘mediatic framework of access and communication of sublimating thought’ is rather turned around into ‘a framework that supposedly inherently create sublimating thought by mere access and communication’ especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating preconverging—‘motif-and-apriorising/axiomatising/referencing’—imbuing—existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition as of vague impression-driven/good-naturedness/wishfulness ‘beholdening as sovereignising—imbued-subontologisation/subpotentiation’). But then the idea of knowledge driven as of totalising-entailing as so-demonstrable with say the momentous development of quantum physics with the physics totalising-entailing implications of argumentations of sublimating–existentialising–decisionality at critical moments moving from one physicist to the other as of ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ (whether Bohr, Einstein, Dirac, Schrodinger, etc.) without any extra-knowledge/knowledgeoutside-knowledge/knowledge-without-knowledge notion like reputation having any incidence (as in epistemic re-originariness/re-origination projective/reprojective cross-subjection of knowledge-reification to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation as herein underlied with notional—self-distantiation—imbued—re-motif-and—

meaningfulness-and-teleology in nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection, and so similar to a Derridean ‘heterogeneous genesis’ epistemic conception), speaks to a more profound lack of constraining aporeticism overcoming/unovercoming as to institutional convenience that fails to articulate such a ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ and thus renders in relative terms the social domain more intellectually impotent in inducing a similar level of sublimating-existentialising-decisionality as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as is relatively the case in the natural sciences (and so notwithstanding the relative blurriness of the social which can effectively be brought to exactifying/precisioning–of-sublimation-<as-to-entailing-theoretical,-conceptual-and-operant-implications> as to the requisite self-criticality overcoming as well as emotional-involvement overcoming rather than assuming a relatively false social and institutional pre-eminence driven relation to knowledge); with the further implication of such ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ being that the ‘knowledge-reification process becomes highly impersonal and complementary in a natural way’ without the artifice of ‘politically-driven accommodation of ideas not necessarily as of the pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’. In this regards, it is contended that the argumentation articulated herein are strictly striving towards aetiologisation/ontological-escalation in reflection of ‘abstract human intemporal individuative ontological-performane (as to the backdrop of the notionalisation/notional-conception/amplituding of knowledge in reflection of human notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>) while striving for totalising-entailing
pertinence of thought’ and so projecting beyond any implications of personalising/particularising import but rather turning towards ‘ontological elucidation import as it then reifyingly-and-empoweringly enables human sublimation as to prospective operationalising construals’ and so-reflected in the idea that the fundamental stakes of prospective knowledge-reification is about prospective social-stake-contention-or-confliction and not prior social-stake-contention-or-confliction (as for instance prospective positivistic meaningfulness-and-teleology is not developed to go about articulating/relation-to meaningfulness-and-teleology as to the prior social-stake-contention-or-confliction of non-positivistic meaningfulness-and-teleology), and so by the mere implications of dimensionality-of-sublimating

This critical pure-ontology analysis point out that meaningfulness-and-teleology cannot be profoundly construed as being about mere-manipulable formulaicity but rather contrastively as being about ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ (and as to the fact that knowledge-reification ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity ~preconverging–de-mentating/structuring/paradigming as the latter is nothing but a circular process that only ends up degrading knowledge into falsehoods as individual supererogatory–shallowness or supererogatory–profoundness seedingly/inceptively lies with the individual and not knowledge, well before sublimating knowledge can be of any relevance thereof as to derived-formulaicity projected reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). In many ways the above elucidation of the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality prone to presencing—absolutising-identitive-constitutedness <preconverging–‘motif-and-apriorising/axiomatising/referencing’—imbuing>—existentialising—enframing/imprintedness—
(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) needs to be critically brought to the consciousness-awareness-teleology of the ‘genuinely aspiring student of society and human-and-social-constructs’ (given a social-domain relatively undermined by ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification ’), and so as the requisite aporeticism overcoming/unovercoming ‘for effectively conceptualising anything near a veridical ontology of the social’ along the same lines in the natural sciences (with ‘the very inherent knowledge-reification’ gesturing as determining sublimating—existentialising—decisionality’). Critically in this regards, human conceptivity/epistemic-reflexivity (as to reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—(imbued-and—‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation)) can thus de-mentatively/structurally/paradigmatically be construed as of ‘notionalisation/notional-conception/amplituding of knowledge’, wherein existence as to its very panintelligibility — effusing/ecstatic—inlining is the very aloofness/detachment upon which human conceptivity/epistemic-reflexivity can supererogatorily act/react in sublimation or desublimation from whence knowledge as to organic-knowledge can arise so-construed as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation. Thus ‘notionalisation/notional-conception/amplituding of knowledge’ underlies inherent existence-exacted-sublimating—as-to-postconverging—de-mentating/structuring/paradigming or existence-exacted-desublimating—as-to-preconverging—de-mentating/structuring/paradigming exactable respectively as from human ontological-good-faith/authenticity—postconverging—de-

It is important to note in this regards that ‘knowledge-reification\(^7\) gesturing historiality/ontological-eventfulness\(^7\)/ontological-aesthetic-tracing\(<\)perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’\(>\)’ is the more profound conception of ontology and science (as to human dimensionality-of-sublimating\(^9\) \(<\)amplituding/formative\(>\)supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\(>\)), and so as of the ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ driving ontology and science across their punctual developments from past to present and into the future (underlined by human ‘sublimating–referencing/registering/decisioning self-becoming/self-conflatedness /formative–supererogating\(<\)projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence\(>\)’ arising as of human limited-mentation-capacity-deepening\(^5\)). This elucidation is important in the sense that pedantic science-ideology is driven by a conception of mere-manipulable formulaicity of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation that poorly appreciates the profound-supererogation\(^9\) in the ‘invention/creation’ of true science and thus comes to relate to science as ‘off-the-shelf and made-to-measure contrivance of formulaicity devoid of profound-supererogation\(^9\)’ in a soulless ‘temporal beholdening as

It is herein contended that in many ways as to human ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigmng, it is technically impossible to strategise against ontology (given existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <as-to-perspective–ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’>, as to the fact that ontology is absolutely bound to its course come-what-may ‘with such contrivances rather notionally integrated as herein into ontological-veracity as part-and-parcel of ontological-elucidation’ that allows no room for any pedantic ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ and not even when it elicits wooden-language ⟨imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing –narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology⟩ as of shortsighted social power play.

The concrete and natural human psychological disposition with respect to knowledge as to organic-knowledge is in appreciating that for critical thinking even for the novice it is imperative to truly engage with the substance of the matter comprehensively-and-insightfully notwithstanding the level of exactifying
comprehension (again whether as to direct knowledge acquisition or appropriate percolation-channelling<in-deferential-formalisation-transference> enabling the sovereign-function/posture ontologising-aptness). The abstraction-of-thought/principled-thought articulated with subject-matters content is not done gratuitously as it is often popularly advanced especially with ‘ontologically-flawed frameworks of blurriness’ and ratings/sales immediate interests’ susceptible to normalised/stereotyped/selfhelping/feel-good construal of knowledge. Subject-matter abstraction-of-thought/principled-thought content are not so-produced gratuitously in the sense that this effectively speaks to: the requisite sophistication/complexity for ‘full incipient supererogating breadth of human intelligibility transmutation’ (as ‘<supererogatory-human-subpotency>–effecting imbued epistemic-totalising\textsuperscript{32} preformulating/preframing/premeaningfulness of notional~originariness-parrhesia,—as–spontaneity-of-aestheticisation’ before the incipience of metaphoricity\textsuperscript{37} and then \textsuperscript{57} meaninglessness-and-teleology\textsuperscript{100} as to existentialising-frame) ‘that then permits hermeneutically/reprojectively/supererogatingly/zeroingly human sublimating-accessing/sublimating-relating-to’ existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{97} (noting here that what is key here is ‘the existence constrained educed sublimating’ however the technicity/profundity whereas an attitude of normalised/stereotyped/selfhelping/feel-good knowledge that ‘doesn’t align with the existence constrained educed sublimating’ is fundamentally besides the point however its ‘false convincing of the fellow human mortal approach’ so-reflected as to the deficient social outcomes it is bound to be associated with’). Critically when push comes to shove, such blatantly flawed conception of true knowledge but socially accommodated as to ‘a social-functioning-and-accordance—as-of—social-stake-contention-or-confliction conception associated with immediate public ratings and/or sales/merchandising’ (over the ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-

It is herein contended howver counterintuitive that the idea of understanding 100% of knowledge content at one go (as commonly assumed and cultivated with such content driven by public ratings and/or sales/merchandising as to excessive simplification, distortion, superficiality, ephemerality and attention-grabbing undermining organic knowledge) is very much detrimental for a profoundly engaging and sublimating practice of public exposition to knowledge as so-inducing the degradation/banalisation of content in order to supposedly capture the most number of people at one go, and so it is herein argued very much contrary to the natural human potential for profound knowledge assimilation which is rather of
hermeneutic/reprojecting/supererogating/zeroing potential. A lot of true learning, understanding and engagement (beyond attention-grabbing and simplification convenience) comes and expands hermeneutically/reprojectively/supererogatingly/zeroingly as to re-exposition to same and similar content for eliciting an active thought/contemplative engagement that is sufficiently challenging to people's true intellectual growth possibility as to creatively eliciting and developing true contemplative interest and not just passivity (however the habituation of a plainness that turns out to seem to be ‘the popular choice’ to which in reality all individuals can succumb to but which is as of their self-reflection actually subpotentiating with regards to the ‘broad existential panoply of human epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification⁷/contemplative-distension⁸’ necessary for prospective ontologisation/re-ontologisation as to epistemic-totalising ~resubjecting of existentialising/contextualising/textualising-contiguity⁹-in-reification⁸). Such an attitude of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service lacking in the underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness⁹-by-reification /contemplative-distension⁸’ to the education of children and young people can be particularly detrimental to critical thinking (while cultivating ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology¹⁰’) due to the overly denatured and insufficiently challenging–and–independence-eliciting existentialising–frame of meaningfulness-and-teleology¹⁰ (as to veridical hermeneutic/reprojecting/supererogating/zeroing re-exposition for eliciting active thought/contemplative engagement as of prospective epistemic-totalising ~resubjecting of existentialising/contextualising/textualising-contiguity⁹-in-reification⁸ of knowledge content and generation of varying interests); and so in reflection of
the fact that a lot of childhood and human developmental learning is rather ‘passive integration of schema of thinking/contemplation and engagement’ as more decisive than really ‘knowing and recalling knowledge content’ (notwithstanding the inherently basic interrelatedness) with ‘passive integration of schema of thinking/contemplation and engagement’ critical for elaborating/framing meaning starting with the very incipient and appropriate jargon/language-conceptualisation for producing meaning (that is bound to align with constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^7\) and so rather than ‘an elicited conformity/trending/voguing/fashionability/resonance relation to \(^5\text{meaningfulness-and-teleology}\)\(^7\) with a poor sense of the prospective existentialising/contextualising/textualising-contiguity\(^8\)-in-reification\(^7\) of knowledge content as to epistemic-totalising\(^5\)~resubjecting). Where the cultivated ‘passive integration of schema of thinking/contemplation and engagement’ is rather as of ‘an elicited conformity/trending/voguing/fashionability/resonance relation to \(^5\text{meaningfulness-and-teleology}\)\(^7\) over eliciting an active thought/contemplative engagement that is sufficiently challenging to the true human intellectual growth potential (as to veridical hermeneutic/reprojecting/supererogating/zeroing re-exposition for eliciting active thought/contemplative engagement as of prospective existentialising/contextualising/textualising-contiguity\(^8\)-in-reification\(^7\) of knowledge content as to epistemic-totalising~resubjecting) enabling appropriate social ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness\(^5\)-by-reification\(^7\)/contemplative-distension\(^7\)’, then the supposed outcome of a seeming public disinterest and disengagement with technicity/profundity is rather an issue induced as to our procrypticism/disjointedness-of-reference-of-thought social \(<\text{amplituding/formative-epistemicity}>\text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\)\(^3\) in its \(^9\) presencing—

But then technicity/profundity as to the public discourse is all about cultivating the possibility for ‘a public formulative appraisal and habituation for an enlightened sovereign engagement with public decision-making policies and technicalities’; and in this regards it is herein contended that unlike it can naively be construed about human capacity for understanding, a lot of ‘human understanding is actually passive exposition to understanding of appropriately articulated/formulated knowledge-reification so-underlying <supererogatory—human-subpotency>—effecting as to the formative-and-enabling formulative backdrop for sovereignly appraising ‘meaningfulness-and-teleology technicity/profundity’ whether with regards to public education or even childhood-development education and/or formative institutional/professional education, as to the fact that formulative understanding (as of <supererogatory—human-subpotency>—effecting) is the sovereignty/independence giving possibility for human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension’ relation with knowledge (as to conscious awareness existentialising–decisionality implications even if complete understanding as of complete meaningfulness-and-teleology technicity/profundity is not achieved and thus rendering the public resilient to desublimating pedantising/muddling/formulaic-hollowing-out—in-

In this regards, the sovereign–function/posture ontologising-aptness is truly realised as to a dynamic deferential-formalisation-transference relation with the genuine social intellectual–function/posture that is much more than a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service lacking in the underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification /contemplative-distension” as such a flawed conception is very much prone to disenfranchising public, media and institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-}<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness } bound to ultimately induce individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction (and as such disenfranchising framework render the truly relevant public issues secondary/indirect to their punctual/immediate purpose of ratings/popularity than genuine thought). But rather the sovereign–function/posture ontologising-aptness in many ways is in a protracted continuum with the genuine social intellectual–function/posture, so-implied as to ‘a totalitative construal of the genuine social intellectual–function/posture parallel intellectual contestation of aptitudinal-

Likewise, the ‘genuine social intellectual–function/posture involves striving for a protracted continuum with the sovereign–function/posture for its ontologising-aptness’ but not in wrongly validating the existentialising–frame of discursivity as to a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service lacking in the underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ by-reification’/contemplative-distension’ (that ultimately undermines technicity/profundity which is inescapable for achieving sublimating–nascence whether as more readily appreciated with nascent-particular/incipient-and-material/technical-sublimations<blinded-to-their-

In many ways, the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) in recent decades with regards to socio-econo-political subontologisation/ideology-over-ontology has often failed to appreciate the implications of the fact that given human<amplituding/formative–epistemicity>totalising–thrownness-in-existence, ‘human meaningfulness-and-teleology is effectively of epistemic-totalising consequence reflecting epistemic-totalising growth/conflatedness /postconverging as to existentialising/contextualising/textualising-contiguity—in-reification knowledge/interpretative veracity implications of concurrent limited-mentation-capacity-deepening (thus implying human meaningfulness-and-teleology

The consequence being that a ‘shallow process/processive conception as so-often reflected with a process/processive

This mere process/processiveness induced deficiency is often critically reflected in a ‘barest and passive/poorly-reflexive conception of sovereignty in the democratic process’ that is poorly cognisant of the appropriate overall social enlightenment/knowledge imbuing oversight of the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign—function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) that is ‘much more than about leaving the room for competing/contending parties narrations/orientations/advocacies for socio-econo-political existentialising—decisionality but appraising-and-critiquing the effective coherence of such narrations/orientations/advocacies as to socio-econo-political outcomes expectations of the sovereign—function/posture’; so-underlying the more profound-supererogation notion of sovereignty associated with ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of veridical social knowledge percolation-channelling-<in-deferential-formalisation-transference>. The consequence of this mere process/processiveness induced deficiency is reflected in an entrenched dichotomy of the democratic process between the reality of recurrent narratives of disontologising socio-econo-political outcomes on the one hand and on the other hand a publicly cultivated <preconverging—‘motif-and-apriorising/axiomatising/referencing’—imbuing—existentialising—enframing/imprintedness>

The implications of such dereification\(^7\) gesturing (as to its reflection of human self-referencing-syncretising relation with ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’) speaks to a degenerate conception of human self-referencing-syncretising that seem to imply surreptitiously that no relative-ontological-

Critically in this regards, human civilisation is only possible as to the genuine social intellectual–function/posture rather eliciting and fulfilling human ontological-commitment (<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality>) and so in a cogent percolation-channelling(<in-deferential-formalisation-transference> existentialising–frame allowing for human and humanity’s ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ by reification /contemplative-distension’ (and not flawed normalised/stereotyped/selfhelping/feel-good conception of knowledge). Ultimately, our human presencing—absolutising-identitive-constitutedness <preconverging—‘motif-and-apriorising/axiomatising/referencing’—imbuing—existentialising—enframing/imprintedness {as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} (as to the high emotional-involvement associated with social ontological-performance —<including-virtue-as-ontology> and low emotional-involvement associated with non-social ontological-performance —<including-virtue-as-ontology> elicited prospective transcendence-and-sublimity/sublimation/supererogatory—dementativity) seem to take the easy-way-out/contrivance to imply that ‘we are just as perfect as we are (implying the impertinence/non-veracity for prospective human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ by-reification /contemplative-distension ’)’ and that the notion of prospective sublimation is just about technical and natural science sublimation (and as so-advanced implicitly or explicitly in a self-serving lethargy of institutional pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation) and so as to a human social environment where dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity <discretely-implied-functionalism> and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing, as to—entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness ) in many ways seem to be wary of prospective human re-ontologisation/omnipotentiality implications as if our very presence isn’t the outcome of successive prior re-ontologising. In this regards, it should be appreciated that as to notional~deprocrypticism reflecting holographically-⟨conjugatively–and-transfusively⟩ the ontological-contiguity —of-the-human-institutionalisation-process ‘such a deprocrypticism imaginary is claiming to be the very rule of human civilisation’ as to the fact that ‘there is no recurrent-utter-uninstitutionalisation basis for advancing prospective base-institutionalisation’, and ‘no base-institutionalisation basis for advancing prospective universalisation’, ‘no universalisation basis for advancing prospective positivism/rational-
empiricism’ and prospectively ‘no positivism–procrypticism basis for advancing prospective deprocrypticism/nondisjointing’ but for ‘the inherent ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> nature of existence’ instantiated hermeneutically/reprojectively/supererogatingly/zeroingly as to prospective human limited-mentation-capacity-deepening (in resolving the prior ‘dullness’ of the human mind); rendering nonsensical, nombrilistic and self-important pretenses/claims that are rather of manifest in-effect absolution as to their given ‘presencing—absolutising-identitive-constitutedness’ as so-fraudulently implied by our positivism–procrypticism anti-relativism stance (and eliciting herein the counterclaim that a rational-and-coherent defense of such a posture warrants a further claim recommending that humanity should rather go back to the state of ‘recurrent-utter-uninstitutionalisation as to its given manifest in-effect absolution ‘presencing—absolutising-identitive-constitutedness’ as a more coherent anti-relativism stance as so-expliciting the idea that human progress doesn’t/shouldn’t occur, even as paradoxically many such anti-relativism proponents seem to project progressive views without truly grasping the contradictory implications of progressivism and anti-relativism explaining their inclination to ‘disjointing totalisingly-disentailing—discretion/whim-of-thought’ whereas ‘true knowledge has to carry its sublimation within itself as to its notional–nondisjointing totalising-entailing’ for it to be socially potent and effective). We can appreciate in this regards that the ‘sublimating–existential-decisionality potency of a scientist thought is not in-and-about themselves’ as so-manifested in a ‘normalised/stereotyped/selfhelping/feel-good conception of knowledge’ but rather ‘their inherent coherent knowledge formulation technicity/profundity and elucidating elaboration’ which then has to avoid explicited or implicited contradictions with regards to the knowledge technicity/profundity ‘enhancement of the overall social-setup self-reflexivity as of the breadth of socially cogent percolation-channelling-<in-deferential-formalisation-transference> existentialising–frame of intellectualism’; as so-involving the
illuminating genuine social intellectual–function/posture, the appraisal of the ‘overall social intellection-aptitude body’ as well as generalised social advocacy in contemplating about prospective ‘re-ontologising/potentiating/optimisable sublimating–nascence ontologising-depth perspective as of the full-potency of existence’. In other words, ‘existence imposes its sublimating rules to the human mortal subpotency’ as the very ‘fundamental meaning of science’ (notwithstanding vague human-subpotency self-important ‘methodologising/mutualising/organising/institutionalising’ anti-intellectual fooling-about and complotment); in a continual prospective relativistic process of human limited-mentation-capacity-deepening. In this respect, it is herein contended as of a most intimate appreciation that such anti-relativism stances which will imply no human progress occurs are ‘so moronic’ it is doubtful these are held out of true conviction (bad or good), but rather are ‘cynical and strategic anti-intellectualism stances hanging upon mere institutional imprimaturing (as overplaying the card of ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction’ as to the protection offered by sensibility/decorum of institutional imprimatur)’ in undermining the implications of prospective profound-supererogation entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness as associated with social equality and anti-bigotry movements as to class, race, gender, etc. (and so-reflected by the fact that their proponents have ‘hardly been able to meet the academic standards of the arguments implied and projected by proponents of relativism’ and rather turning to surreptitious and media-driven strategies avoiding intellectual engagement in inducing social and institutional numbing-traction—of-desublimating—meaningfulness-and-teleology<as-perspective-lost-of–supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbedded-postconverging/dialectical-thinking–of–notional–deprocrypticism–(in-dimensionality-of–sublimating—<amplituding/formative–epistemicity>growth-or-

Such ‘strategic and cynical institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation’ it is herein contended is much more potently effective in preconvergingly–de-mentating/structuring/paradigming social and institutional in-effect bigotedness (consciously or unconsciously) than the overt and superficial name-calling social manifestations conception of bigotry/prejudice/narrow-mindedness as to emotional distress; and so, as the deferential social and institutional interpretation of such in-effect bigotedness stances surreptitiously/underhandedly undermine the requisite social and institutional prospective aporeticism overcoming/unovercoming as to profound supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness eliciting of human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification /contemplative-distension\rangle’. Basically, we can garner that ‘the very epistemic condition inherent to human limited-mentation-capacity in contrastive relation to the ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> of inherent existence sublimating–nascence’, induces (as of human \langle amplituding/formative–epistemicity\rangle totalising–thrownness-in-existence\rangle) a ‘human prospective regressive-shift in ontological-normalcy/postconvergence conceptualisation’ (so-reflected in the mere-formulaicity-<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising> implied prior secondnaturaered reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation) as of human dimensionality-of-desublimating-lack-of\langle amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\rangle; so-underlying ‘human ontological-performance –<including-virtue-as-ontology> degrades into prospective epistemic-abnormalcy/preconvergence\rangle’ with respect

Such a nonpresencing–<perspective–ontological-normalcy/postconvergence> conception of epistemicity it is herein contended is of most profound social and overall knowledge aporeticism overcoming/unovercoming relevance. Human angling-of-imaginary (unlike the predisposition to mere-formulaicity–<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising> of human psychical-nascency) construes of knowledge as of emergent social conception and instigation for knowledge formation/creation (and so beyond and unfazed by its supposed manifest institutional capture/catchmenting) with regards to the veridical existential veracity of knowledge for prospective ontologising/re-ontologising sublimating/emancipating expansion of human ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’. In this regards, desublimating attitudes of mere institutional imprimaturing do not necessarily constrain the possibility for divergent social interests for prospective existential ontologising/re-ontologising conception for sublimating knowledge-reification gesturing (and critically veridical intellectualism rather perceives institutional stature as the opportunity to further demonstrate and invest in demonstrating its effective intellectual relevance whereas an institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation–(blurring/undermining-of-prospective-totalising-entailing,–as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-

Thus the more centrally defining element of human angling-of-imaginary speaks to human capacity for contemplation of metaphysics-of-absence-implicit-epistemic-veracity-of-nonpresencing-perspective–ontological-normalcy/postconvergence-} epistemic-projection which is in many ways elusive to psychical-nascency disposition. But then this is no more different for the implicit projective-insights approach to thinking pervading the natural sciences; as to a fundamental aptitudinal capacity to think in terms of perspectives (implicitly speaking to such notions like projections and fields of conceptualisation that do not absolutise our present conceptualising framework and actually factor in the limited-mentation-capacity as to apriorising/axiomatising/referencing to then project of the implications of human limited-mentation-capacity-deepening of apriorising/axiomatising/referencing). In this regards, (and as priorly indicated herein just as conceptualising ‘the actuality-as-to-history’ of physical manifestations of the cosmos as astronomy’ with physics rather construed as the ‘archaeological/deconstructive–conceptualisation-as-to-its-ahistorical-emancipation’ of such an actuality conception that is astronomy’ with the implication that the ‘beholdening astronomical manifestations of planetary phenomena, planets, stars, galaxies, etc. as to a given shape of the universe and its becoming’ are conceptualised from the ahistorical-emancipation of physics as of an underlying physics archaeological/deconstructive–conceptualisation that allows for the momentous sublimating historiality/ontological-eventfulness ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism> of astronomy to be construed and so unlike a naïve desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition approach that fails to factor in that the varied ‘beholdening astronomical manifestations of planetary phenomena, planets,

Basically, given that such ‘a projection of ahistorical-emancipation knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’ is even more unsettling (as to ‘the psychologismic~apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness’ implications on human reference-of-thought as grandest-axiomatic-contruct of meaningfulness-and-teleology existentialising—decisionality’ of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity), in many ways the ‘communicable contemplative veracity of such transcendence-and-sublimity/sublimation/supererogatory—de-mentativity thought’ can only be ‘glimpsed of, countenance/appreciated in the margins and communicated rather as of prospective metaphoricity’ (just as it can fairly be argued that even budding-positivists never really grasped the full veracity of their prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity rational-empiricism thought associated ‘psychologismic~apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness’ implications on human reference-of-thought as grandest-axiomatic-contruct of meaningfulness-and-
