Along the same lines of angling-of-imaginary implied \textsuperscript{61} nonpresencing–<perspective–ontological-normalcy/postconvergence> is the veracity that epistemicity is veridically as of ontological-normalcy/postconvergence as to human limited-mentation-capacity-deepening\textsuperscript{8} postconverging–de-mentating/structuring/paradigming implications wherein prospective knowledge-reification\textsuperscript{87} gesturing as of sublimating \textsuperscript{4} historiality/ontological-eventfulness\textsuperscript{17}/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–’epistemicity-relativism’> ‘is actually only possible/educible and accompanied with a more profound but implicated notion of epistemicity’ (as prospective sublimation actually invents prospective epistemicity as to the associated existentialising/contextualising/textualising-contiguity\textsuperscript{9} induced ‘epistemic-growth/disquiet/discomfort–{induced-sublimation–as-from-existence’s—effusing/ecstatic– inlining-as-historiality–(science/authenticity/nonextrication)—beyond-mere-formulaicity-as– historicity-tracing–(science-ideology/fashionability/distraction)} as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness –by-reification\textsuperscript{87}/contemplative-distension\textsuperscript{26}’ that enables the sublimation to arise). This insight contrasts with a naïve science ideology conception of epistemicity as to ‘a lack of nonpresencing–<perspective–ontological-normalcy/postconvergence> perspicacity in an in-effect absolution exercise of elaboration-as-to-mere-
but so while utilising more succinctly the very same overall ‘human hermeneutic/reprojecting/supererogating/zeroing supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness drivenness of epistemicity’ as experiential contrivance/arrangement of ordinary/usual life though in a different capacity/potentialisation such that in reality scientific experiments or observations are just circumstantial/contextualised elaborateness of natural human supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness as so-construed as actually ‘implicated-or-explicated–philosophically’ in driving the exactifying/precisioning–of-sublimation,<as-to-entailing-theoretical,-conceptual-and-operant-implications> insight for such scientific experiments or observations) and not overriding the very same human hermeneutic/reprojecting/supererogating/zeroing supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness drivenness of epistemicity (reflecting the fact that the notions of scientific experiments and observations are just extensions of a human hermeneutic/reprojecting/supererogating/zeroing supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness contemplation of ordinary existential experience and observations). Such a 'nonpresencing,<perspective–ontological-normalcy/postconvergence> conception of epistemicity it is herein contended is of most profound social and overall knowledge aporeticism overcoming/unovercoming relevance. Human angling-of-imaginary (unlike the predisposition to mere-formulaicity,<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising> of human psychical-nascency) construes of knowledge as of emergent social conception and instigation for knowledge formation/creation (and so beyond and unfazed by its supposed manifest institutional capture/catchmenting) with regards to the veridical existential veracity of knowledge for prospective ontologising/re-ontologising sublimating/emancipating expansion of human ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction
imbuing existentialising-frame of disontologising/ontologising-and-re-ontologising’. In this regards, desublimating attitudes of mere institutional imprimaturning do not necessarily constrain the possibility for divergent social interests for prospective existential ontologising/re-ontologising conception for sublimating knowledge-reification gesturing (and critically veridical intellectualism rather perceives institutional stature as the opportunity to further demonstrate and invest in demonstrating its effective intellectual relevance whereas an institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentialiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} tend to construe of institutional stature as a defensive fall-back as to mere-formulaic institutional-imprimaturning and institutional-legalism poorly upholding/perpetuating the veridical knowledge sublimating contemplation behind the institutional formation/creation in-the-very-first-place as so-inceptively instigated as of ‘prior originariness-parrhesia,—as—spontaneity-of-aestheticisation in want for prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation with human limited-mentation-capacity-deepening’ and as so-failing to prospectively relay genuine-knowledge production as rather undergirded as of dimensionality-of-sublimating—{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}). Such an incipient social conception and instigation of prospective genuine-knowledge as to its veridical existential veracity underscored the Socratic-philosophers and their successors development of philosophical schools propounding universalising-idealisation in sublimating self-assuredness-of-ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality subverting the Ancient-sophists ‘non-universalising sophistry ontological-bad-faith/inauthenticity—preconverging–de-mentating/structuring/paradigming’, likewise
budding-positivism movements with their correspondences and initiatives in sublimating self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality ultimately led to the subversion of medieval-scholasticism ‘non-positivising scholasticism ontological-bad-faith/inauthenticity ~preconverging–de-mentating/structuring/paradigming ’, and today in many ways the postmodern movement is more potent as to its social dynamics of ‘liberation and emancipation’ (however incipiently crude as to its sublimating self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality) in the face of surreptitious and spurious strategies of anti-intellectual misanalysis, misinformation and complotment as to our modern-day ‘pedantic totalisingly-disentailing—discretion/whim-of-thought ontological-bad-faith/inauthenticity ~preconverging–de-mentating/structuring/paradigming ’. Thus the more centrally defining element of human angling-of-imaginary speaks to human capacity for contemplation of metaphysics-of-absence-\langle implicited-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>\rangle epistemic-projection which is in many ways elusive to psychical-nascency disposition. But then this is no more different for the implicit projective-insights approach to thinking pervading the natural sciences; as to a fundamental aptitudinal capacity to think in terms of perspectives (implicitly speaking to such notions like projections and fields of conceptualisation that do not absolutise our present conceptualising framework and actually factor in the limited-mentation-capacity as to apriorising/axiomatising/referencing to then project of the implications of human limited-mentation-capacity-deepening of apriorising/axiomatising/referencing). In this regards, (and as priorly indicated herein just as conceptualising ‘the actuality-<as-to-history> of physical manifestations of the cosmos as astronomy’ with physics rather construed as the ‘archaeological/deconstructive–conceptualisation-<as-to-its-ahistorical-emancipation> of such

The critical point here is about enunciating that veridical ontological-performance —<including-virtue-as-ontology> of human meaningfulness-and-teleology is rather manifested in existentialising/contextualising/textualising-contiguity induced ‘epistemic-growth/disquiet/discomfort—(induced-sublimation, as-from-existence’s—effusing/ecstatic—

Critical to such an insight and as previously emphasised is notional~pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness) lack of a sense of metaphysics-of-absence—(implicated-epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence>) (as the more centrally defining element of human angling-of-imaginary) as to a disposition to a conscious or unconscious presencing—absolutising-identitive-constitutedness social-vestedness/normativity—<discretely-implied-functionalism>. For instance, such a nonpresencing—<perspective—ontological-normalcy/postconvergence> epistemic-projection reflected of such a term like metaphoricity herein as to an exercise of ‘opening the human mind’ to projectively see that what the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. of the world as to their intellectual-and-moral profound-supererogation are doing tangibly is metaphoricity as to psychologismic—apriorising/axiomatising/referencing—(of-existentialising/contextualising/textualising-contiguity)—conflatedness in ultimately producing prospective sublimating ‘meaningfulness-and-teleology’ (and in this regards there is no vague interpretation associated with the word metaphor as to the fact that the literary/poetic metaphor is the more basic ‘sign-associated conception of metaphor as to aestheticisation’ while the very practice of ‘science is an advancement of the conception of metaphor however implicated in the natural sciences as to aestheticisation-towards-ontology imbued exactifying/precisioning—of-sublimation—as-to-entailing-theoretical,—conceptual-and-operant-implications’ explaining the recurrent

But the possibility to induce blurriness is pedantically taken up in a blurring conception of the ‘literary/poetic metaphor’ as to obfuscate with the literary trope as to what such thinkers like Derrida and Foucault ‘meant or can mean as metaphor’ failing to factor in that their lifetime work is ‘all their metaphor’ they are talking about (as to their eliciting of prospective reflexive as re-originary-as-unenframed/unbeholdening/outlier-conceptualisation⟨imbued-postconverging/dialectical-

is herein contended that such postmodern thinkers like Derrida and Foucault were very well consciously aware of this institutionally engrained distorted thought and motives as reflected in their intellectual demeanour and apprehension within the scope of such institutional ‘social-functioning-and-accordance—as-of-social-stake-contention-or-confliction imbuing existentialising-frame of disontologising/ontologising-and-re-ontologising’ (to which threshold of disontologising the textualising herein is not beholdening and effectively makes explicit as part and parcel of prospective knowledge-reification). In many ways it is herein contended that with the appropriate contemplative patience and distance such thought as to their implicated knowledge-reification gesturing is no more difficult to contemplate but for pedantic consciously or unconsciously elicited misanalysis and blurriness. With such pedantic blurriness undergirded by such a ‘statement that certain things are unspeakable’ rather herein
construed as the very hallmark of such institutional disontologising undermining of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications because human civilisation/enlightenment/progress is exactly about metaphorising as ‘making unspeakable things speak’ (as tangible like the metaphors of Newton making abstract forces conception to speak, Einstein making spacetime conception speak, Mendel making hereditary characteristics to speak, etc. and in all such cases not only counterintuitive-and-idiosyncratic to their epochal minds but initially also to their instigators very own minds, and just as herein as tangible as to the explicited veracity of the <cumulating/recomposuring>-successive registry-worldviews/dimensions ‘reference-of-thought specific preconverging/dementing’–qualia-schema reflecting their specific prospectively ontologically-flawed nondescript/ignorable–void imbued self-presence/self-constitutedness–<in-perspective–epistemic-abnormalcy/preconvergence’ as from prospective nonpresencing–<perspective–ontological-normalcy/postconvergence> epistemic-projection so-implied as human de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with regards to as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology). This in many ways is rather telling about the nombrilistic presencing—absolutising-identitive-constitutedness of such ‘statement that certain things are unspeakable’ as effectively expliciting by itself the lack of a sense of metaphysics-of-absence–(implicated-epistemic-veracity-of- nonpresencing–<perspective–ontological-normalcy/postconvergence>) conception as to profound ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’; and so as to the fact that the issue of history is not about ‘presublimating relic/artifactual–beholdening-constitutedness’ historicity-tracing—in-presencing—

But rather such a relation will be ‘within the scope of the animistic collective-social implications of human limited-mentation-capacity’ (or within the scope of the ‘debarking positivistic community and animistic social-setup shared/mutual collective-social implications of human limited-mentation-capacity’) to integrate prospective positivising ontologising-and-re-ontologising over the animistic social-setup prior nonpositivising disontologising; as to the positivising mindset

instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendancy with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a de-mentative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from
the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate weltering that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with
the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can dementatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the
creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international
economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of supererogatory–progressivity’ as so-associated with debt servitude and de-mentative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation>
omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory–progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness—as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of ‘presencing—absolutising-identitive-constitutedness’ social-vestedness/normativity–<discretely-implied-functionalism>). Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the modern-day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein
articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation’ of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to presencing—absolutising-identitive-constitutedness social-vestedness/normativity<discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from an totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is preconvergingly–de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative
supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond any such capitalistic limitative-artifice-of-human-imaginary/metaphysical-conceptualisation as to ‘unbeholding sublimating–nascence ontologising-depth of the full-potency of existence’ existentialising–decisionality). The so-construed notional–deprocrypticism epistemicity conception of predicative-effectivity–sublimation–as-to-underlying–ontological-commitment—as to underlying, ontological-commitment—an implied—self-assuredness-of-ontological-good–faith/authenticity ~postconverging–de-mentating/structuring/paradigming—as-being-as-of–existential-reality as to the overall ontological-contiguity—of-the-human-institutionalisation-process provides the requisite basis for prospective human ontological-performance—including-virtue-as-ontology convergence towards ‘scalarity/immanence of existence’s ontological-normalcy/postconvergence’, and so as to the fact that prospective notional–deprocrypticism registry-worldview/dimension as of its superseding/transcending conception (beyond ‘social-construct amplituding/formative–epistemicity’ totalising/circumscribing/delineating given institutionalisation-threshold-and-uninstitutionalised-threshold imbued secondnaturings’) technically equates to ‘supposed human-subpotency abstract self-determinative ontological-performance—including-virtue-as-ontology’ capacity as to the full-potency of existence’ so-implied with the protensive-

In other words, the notion of ‘the other’ as aetiologisation/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity for ontologically-veridical virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the ’30s; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology misinterpreted as implying that it lies with a historical tradition like the Ancient Greece tradition or German Folk tradition rather than...

Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity of our ‘modern take attitude/mental-disposition/care—and—episteme’ as of our <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness—of—reference-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care—and—episteme’; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity —<profound-supererogation —of-mentally-aestheticised—postconverging/dialectical-thinking —qualia-schema> as of prospective relative-
ontological-completeness-of-reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments\(^{106}\). This existential reality about ontological-primemovers-totalitative-framework\(^{73}\) is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{108}\) as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’ inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of 30’s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme’ in ontological-contiguity\(^{67}\) as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{11}\) prior relative-ontological-incompleteness -of- reference-of-thought perspective construed-as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity—profound-supererogation—of-mentally-aestheticised–postconverging/dialectical-thinking—qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-

<profound-supererogation -of-

uninstitutionalised-threshold is rather a point of de-mentation—(supererogatory-ontological—

justifies the pre-eminence of the prospective institutionalisation attitude/mental-

as of notional-discontiguity/epistemic-discontiguity

<shallow-supererogation -of-mentally-
aestheticised~preconverging/dementing –qualia-schema> but rather being associated with a
given tradition actually couldn’t break through the barrier of perceiving notional-
discontiguity/epistemic-discontiguity

<shallow-supererogation -of-mentally-
aestheticised-preconverging/dementing-qualia-schema as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically-conjugatively-and-transfusively-the ontological-contiguity—of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating—supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ as to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia, as spontaneity-of-aestheticisation to Descartes thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation perspective whereas Descartes is more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising (as of dimensionality-of-sublimating—supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) as to

mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis
metaphoricity extended development/influence on the works of the Galileos, Descartes,
Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective
reference-of-thought de-mentation-(supererogatory–ontological–de-mentation-or-

positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
attitude/mental-disposition/care–and–episteme in superseding/transcending non-
positivism/medievalism. In effect it is herein contended that what is implicitly missed about the
Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he
is the first person to be self-conscious about his thinking; rather his underlying reasoning is
‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-
the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-

parrhesia,–as–spontaneity-of-aestheticisation in then secondarily inducing his thinking-

as–reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the ‘mereness of
thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism
scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated
rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as
reflected by his novel mathesis universalis metaphoricty\(^5\) rationalism schema/dissemination\(^7\) that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval-scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricty\(^5\) implication that the natural can be thought of operationally and in sublimation on its own terms—as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and postconvergingly–dementating/structuring/paradigmising the possibility of elucidation of any subject on this thinking educing sublimation basis’. In effect Descartes project is actually as to existence-potency\(^5\)–sublimating–nascence–disclosed–from–prospective–epistemic–digression relative-ontological–completeness\(^8\) of apriorising/axiomatising/referencing as of positivism, and so from the prior presencing–absolutising–identitive–constitutedness\(^13\) of non-positivism/medievalism. With both the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme and postmodern deprocrypticism–or–preempting–disjointedness–as–of–reference–of–thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, we may be forgiven to confuse–and-dismiss their schema as-to-de-mentative/structural/paradigmatic–disseminative–implications as of prospective reasoning-through/messianic-reasoning as incoherent from a shallow–and-immediate uninsightful analytical perspective on the basis of the respectively prior reasoning-from-

The appropriate contemplative perspective for the appreciation of their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications is effectively crossgenerational as of the amplitude/breadth of reference-of-thought implied transcendence-and-sublimity/sublimation/supererogatory—dementativity; as we can effectively appreciate that the very mathesis universalis schema/disseminative metaphoricity engendering our positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity shallow-supererogation -of-mentally-—aestheticised—preconverging/dementing —qualia-schema analysis, implied as of prospective relative-ontological-completeness—of—reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness—of—reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising /circumscribing/delineating construct being the —reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology but rather human-subpotency adjusting as to existence-potency—sublimating—nascence,—disclosed-from—
prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness\(^8\). But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness -of- reference-of-thought/relative-ontological-completeness\(^8\)-of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification\(^8\), implied as of \(<\text{de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics)}\>\) with regards to the \(<\text{reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their existentialising/contextualising/textualising-contiguity\(^9\) knowledge-reification\(^7\) rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^9\)\(<\text{as-to-perspective–ontological-normalcy/postconvergence-implied-}\) ’prospective-aporeticism-overcoming/unovercoming\(^9\)’. In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markly different from each other and all subjected rather to the implications of existentialising/contextualising/textualising-contiguity\(^9\) knowledge-reification\(^7\) of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existentialising/contextualising/textualising-contiguity\(^9\), Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^9\)\(<\text{as-to-perspective–ontological-normalcy/postconvergence-implied-}\) ’prospective-aporeticism-overcoming/unovercoming\(^9\)’ for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for existentialising/contextualising/textualising-contiguity\(^9\) knowledge-reification\(^7\) that determines science practice, and so in existential apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity\(^9\) conflatedness\(^12\). Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of
such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) notion of human ‘excogitative-blanking of the prospective institutionalisation
existentialising/contextualising/textualising-contiguity-in-elucidation-or-reification’ can
equally be elucidated with regards to a devolved axiomatic-construct of the reference-of-
thought. For instance, we can grasp that with regards to ‘the very same physics – amplifying/formative–epistemicity-totalising–devolved–purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the perceptivity of ‘traditional classical mechanics axiomatic-construct’ had rather been in ‘excogitative-blanking of the prospective construal of existencialising/contextualising/textualising-contiguity–in-elucidation-or-reification’ reflected by the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as the latter’s prospective relative-ontological-completeness reflects the former’s prior relative-ontological-incompleteness as dialectically out-of-phase/preconverging-or-dementing—apriorising-psychologism. This insight about human ‘excogitative-blanking of the prospective institutionalisation existencialising/contextualising/textualising-contiguity–in-elucidation-or-reification’ at uninstitutionalised-threshold actually highlights that from a prospective perspective of prospective relative-ontological-completeness–of-reference-of-thought our positivism–procrypticism registry-worldview/dimension is very much imbued with a flawed ontological-performance–<including-virtue-as-ontology>, as is the case with all other prior registry-worldviews/dimensions, ‘when we seem to perceive-and-think that our social world of meaningfulness-and-teleology is coherent, failing to factor in that it is preconverging-or-dementing—apriorising-psychologism at its uninstitutionalised-threshold as reflected as disjointedness-as-of-reference-of-thought preconverging-or-dementing—apriorising-psychologism by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting–disjointedness-as-of-reference-of-thought’; as this false sense of coherence is actually the effect of our prior relative-ontological-incompleteness–of-reference-of-thought apriorising/axiomaticising/referencing/intelligibilitysetup/measuringinstrument
contiguity\(^{39}\) knowledge-reification \(^{103}\), but with a shadowy uninstitutionalised-threshold always eloping to such institutionalisation conforming/complying as of prior relative-ontological-incompleteness\(^{104}\)-of-reference-of-thought, and as lack of universal-transparency\(^{105}\) ‘excogitative-blanking of prospective existentialising/contextualising/textualising-contiguity\(^{39}\)-in-elucidation-or-reification\(^{87}\)’ elicits human temporal/shortness-of-register-of-meaningfulness-and-teleology\(^{100}\) uninstitutionalised mental-dispositions. Such ‘excogitative-blanking of prospective existentialising/contextualising/textualising-contiguity\(^{39}\)-in-elucidation-or-reification\(^{87}\)’ can be construed as to when say the non-positivistic mindset goes about articulating\(^{37}\) meaningfulness-and-teleology\(^{100}\) falsely as if superstitious notions ontologically-veridical out of prospective positivism existentialising/contextualising/textualising-contiguity\(^{39}\)-reification\(^{87}\), and likewise with regards to a positivism/rational-empiricism manifestation of\(^{81}\) procrysticism–or–disjointedness-as-of-reference-of-thought mindset construal of\(^{5}\) meaningfulness-and-teleology\(^{100}\) that utterly overlooks the de-mentative/structural/paradigmatic\(^{15}\) reference-of-thought denaturing\(^{15}\) implications of its prospective disjointedness of\(^{5}\) meaningfulness-and-teleology\(^{100}\) out of prospective existentialising/contextualising/textualising-contiguity\(^{39}\)-reification\(^{87}\), as such disjointedness-as-of-reference-of-thought can be instigated originally from a postlogism\(^{1}\)-slantedness mental-disposition and the developing social dynamics with human temporality\(^{39}\). We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon/projection of\(^{5}\) meaningfulness-and-teleology\(^{100}\) about existentialising/contextualising/textualising-contiguity\(^{39}\)’; but then at its uninstitutionalised-
threshold where its reference-of-thought de-mentative/structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness-of-reference-of-thought, it always systemically faces notional-procrypticism/notional-disjointedness as of vices-and-impediments arising from non-positivism/superstitious human-subpotency existentially constrained temporal ontological-performance-including-virtue-as-ontology as amplituding/formative wooden-language in usurpation of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon/projection of meaningfulness-and-teleology about existentialising/contextualising/textualising-contiguity now in false certainty/assurance. This points out that when consciously aware of uninstitutionalised-threshold manifestation, we can’t naively operate as of our prior institutionalisation ‘perceptual perspective/framing/reference/horizon/projection of meaningfulness-and-teleology about existentialising/contextualising/textualising-contiguity, as of the fact of the beyond-the-consciousness-awareness-teleology-including-virtue-as-ontology of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon/projection of meaningfulness-and-teleology about existentialising/contextualising/textualising-contiguity, preconverging-or-dementing apriorising-psychologism human-subpotency existentially constrained temporal ontological-performance-including-virtue-as-ontology as amplituding/formative wooden-language in usurpation; such that an enlightened insight is able to bring up and examine a preconverging-or-dementing apriorising-psychologism representation as temporal denaturing ontological-performance-including-virtue-as-ontology of the prior institutionalisation ‘perceptual
perspective/framing/reference/horizon/projection of meaningfulness-and-teleology about existentialising/contextualising/textualising-contiguity. But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-threshold but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatures—temporal-to-intemporal-dispositions–so-construed-as-from-perspective–ontological-normalcy/postconvergence—existentialism-form-factor, that the possibility for all prospective institutionalisations necessarily passes through understanding ‘human-subpotency existentially constrained temporal ontological-performance’–including-virtue-as-ontology as wooden-language–imbued–temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives–of-the–reference-of-thought–categorical-imperatives/axioms/registry-teleology of the prior registry-worldview/dimension in usurpation’, which understanding is actually what empowers the possibility for prospective institutionalisations that supersed/transcend it. In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure–as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that
existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective. That is, grounding of meaningfulness-and-teleology is certainly required, but as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective relative-ontological-completeness-of-reference-of-thought; and as highlighted elsewhere it is ontological-completeness-of-reference-of-thought (of human-subpotency as of its limited-mentation-capacity-deepening) that can imply human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence. It should be noted here that this ontology’s-directedness-as-Being/ontologically-veridical notion of human-subpotency singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence is a notion of teleology in notional~conflatedness as of ontological-normalcy/postconvergence (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological, and so-reflecting <amplituding/formative>disposedness-(as-to-orientation/value-construct/valuation-and-derived-parameterising) and <amplituding/formative>entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability)’, and so as to the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility -(imbued-and-'hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation)), as utterly different from a traditional conception of teleology as of dissingularisation-<as-to-the-disjointedness/disentailment-of-presencing–absolutising-identitive>.

This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology that there is and can exist is ontological as of prospective relative-ontological-completeness, such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness-of-reference-of-thought, as so implied from singularity-projected epistemic-immanence/veridical-epistemic-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology. advancement of temporal interests in stifling the possibility of prospective human intellectual-and-moral emancipation. The idea of ontological-bad-faith/inauthenticity \textsuperscript{[6]} raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional~firstnatures—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, with the possibility of denaturing\textsuperscript{[1]} as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to ontological-primemovers-totalitative-framework reflection of existentialising/contextualising/textualising-contiguity\textsuperscript{[9]}. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the
possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating
\langle\text{amplituding/formative}\rangle\text{supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\rangle\text{ inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness-of-reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness-of-reference-of-thought; and in due course, by its ontological-primemovers-totalitative-framework constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full \text{re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking –’projective-insights’/’epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation)} potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked
whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness reference-of-thought with the latter’s <amplituding/formative–epistemicity>totalising–self-referencing-synergetising/circularity/interiorising/akrasiatic-drag>, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of ontological-primemovers-totalitative-framework for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness-reference-of-thought naïve non-transcendental <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag>, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of meaningfulness-and-teleology’. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologicalisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing
mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation-projected epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology reflecting dereified and reified construals of existentialising/contextualising/textualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence-psychologismic-apriorising/axiomatising/referencing-(of-existingcontextualising/textualising-contiguity)—conflatedness of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance manifestion of psychopathy and social psychopathy which is ‘de-
mentatively/structurally/paradigmatically associated with the denaturing of the \(<\text{amplituding/formative–epistemicity}>\text{totalising–devolved}\)
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) backdrop for existential-instantiations apostoriserising/logicising/deriving/intelligising/measuring \(^5\) meaningfulness-and-teleology; with the fundamental implication that there are thus divergent apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of psychopathic induced postlogism \(^7\) -slantedness, and its social cognisance and integration as conjugated-postlogism so-conjugating as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfuir-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of social psychopathy. In this latter case of contrasted reification \(^7\) and dereification \(^7\) and implying moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-as-psychopathic-and-social-psychopathic mental-dispositions and the intemporal mental-disposition, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-discontiguity’—contrastive-reification -dissemination -and-dereification -dissemination -implications’ construed as the ‘variance/discrepancy of ‘meaningfulness-and-teleology’ as-of-prospective-relative-ontological-completeness -postconverging-or-dialectical-thinking—apriorising-psychologism and as-of-prior-relative-ontological-incompleteness -preconverging-or-dementing—apriorising-psychologism respectively; it is only ontologically-veridical difference-conflatedness -as-to-totalitative-reification -in-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>-as-veridical-epistemie-

Such a difference-conflatedness−as-of−‘epistemic-totality’ is equally what reflects in the bigger scheme of things, at the reference-

But then again, the reality of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of prospective relative-ontological-completeness<sup>1</sup> will point out that such ‘traditional classical mechanics axiomatic-construct’ identitive-constitutedness<sup>1</sup>-as-‘epistemic-totality<sup>16</sup>’-dereification<sup>87</sup>-indissingularisation<sup>-as-to-the-disjoinedness/disentailment-of-presensing—absolutising-epistemicity<sup>13</sup>-as-flawed-epistemic-determinism</sup> is in reality preconverging—or-dementing—apriorising-psychologism as of its relative-ontological-incompleteness<sup>19</sup>. This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism–procrypticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procrypticism—or–disjointedness-as-of-reference-of-thought that speaks of our prospective preconverging-or-dementing—apriorising-psychologism at our prospective positivism–procrypticism uninstitutionalised-threshold<sup>16</sup>, and so as reflected from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology<sup>100</sup> as of prospective deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension prospective relative-ontological-completeness<sup>20</sup>. Interestingly, it should be noted here that with such phenomenon as psychopathy and social psychopathy that is ‘dementatively/structurally/paradigmatically associated with the denaturing<sup>15</sup> of the
positivism/medievalism social-setup will be resistant to an elucidation of notions-and-accusations-of-sorcery adopting the perspective or attitude/mental-disposition/care–and–episteme of the reifying prospective positivism to arrive at ontological-veridicality, likewise more fundamental in undermining the elucidation of the manifestation of psychopathy and social psychopathy is the fact of an ordinariness wooden-language

Further and insightfully again, with the manifestation of childhood psychopathy where the postlogism-slantedness is universally transparent there is no occurrence of interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existentialising/contextualising/textualising-contiguity—in-reification/dereification as of the
childhood slantedness, but with respect to adult psychopathy with the attendant maturation/indirectness/spatialisation/credulity/craftiness, such interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument reflection of existentialising/contextualising/textualising-contiguity—in-reification/dereification arise as of their temporal threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation—in非-attendant-intradimensional—prospectively-disontologising—preconverging/dementing apriorising—psychologism, which implies an invested social commitment as of thought and association that is then inclined to overlook inherent ontological-veridicality, as of interlocutors postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism— or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal—endemisation, so-disambiguated as of reference-of-thought—devolving ontological-performance—including-virtue-as-ontology leading to the dynamics of social psychopathy, and this logic also explains how and why notions-and-accusations-of-sorcery are endemised/enculturated in a non-positivism social-setup; with the insight as articulated by this author that more critically manifestations of postlogism-slantedness across all the registry-worldviews/dimensions are rather revelatory of the fundamental prior relative-ontological-incompleteness-of-reference-of-thought, with transcendental implications that goes well beyond the ad-hoc conception of manifestations of postlogism-slantedness but more broadly conceive as of the destructuring/aetiologisation/ontological-escalation implications arising from underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought with regards to human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as—infrastructure-of—meaningfulness-and-teleology underdevelopment issues. Consider in this regard the temporal ontological-performance \textsuperscript{-including-virtue-as-ontology} as of say a postlogism\textsuperscript{106}-slantedness or any other temporal or derived-temporal mental-disposition associated with vicious accusations-of-sorcery for instance in a non-positivistic as animistic or medieval social-setup. the other’ this translates into aetiology/ontological-escalation as of ‘universal projection implications attitude/mental-disposition/care–and–episteme event’-or-operant implications to all and sundry’ as implied in the above analysis, as postmodern-thought portends to be non-ideology-driven, non-speculative, non-imaginary, theoretical, conceptual and operant. This insight is also very much conscious of the ontologically-flawed misconstrual of ‘the other’ that pervades human wooden-language⟨imbued—averaging-of-thought-⟨to–leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology⟩as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩⟩ mental-dispositions as of ‘mutual temporal/shortness-of-register-of–meaningfulness-and-teleology’ eliciting’ construed as ‘intemporal temporality’. Such tendencies are hardly of aetiology/ontological-escalation as their emphasis lies in existential-extrication-as-of-existential-unthought, rather than nonextricatory-existential-preempting-of-existential-unthought in enabling Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of ‘universal projection implications attitude/mental-disposition/care–and–episteme event’-or-operant implications to all and sundry’; such that fundamentally, such tendencies do not address de-mentatively/structurally/paradigmatically defining issues of a registry-worldview/dimension as of its vices-and-impediments like the comprehensive implications of disjointedness-as-of–reference-of-thought/procrypticism with regards to our

Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so with regards to any prospective institutionalisation relative to the uninstitutionalised-threshold. In this regard, a postmodern/suprastructuralism philosophical stance with regards to virtue-as-ontology very much aware of the transcendental ontological sublimating-over-desublimating implications of existence-potency−sublimating−nascence,−disclosed-from-prospective-epistemic-digression: will question such reasoning-from-results/afterthought basis of palliative virtue constructs especially as of their amplituding/formative−epistemicity⟨totalising→self-referencing-syncretising/circularity/interiorising/akrasiatic-drag⟩ and lack of dispensing-with-

of its need for psychoanalytic-unshackling/prospective-grounding/prospective-reification\textsuperscript{87} of meaningfulness-and-teleology\textsuperscript{100}. Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our ‘modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness\textsuperscript{89} perspective/framing/reference/horizon/projection’ apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)\textsuperscript{39} constitutedness\textsuperscript{13} construal of categorising/taxonomising schemes that pervades the ‘modern categorising mental-disposition’ as of our occlusive-consciousness\textsuperscript{58} neuterising, as we fail to grasp the implication of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori’; such that the meaningfulness-and-teleology\textsuperscript{100} that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)\textsuperscript{12} that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncing with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening\textsuperscript{53} implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional~conflatedness\textsuperscript{12} of notional~deprocrypticism. However, it is equally critical to

The latter points to an inappropriate attitude/mental-disposition/care—and—episteme which is not beholden to the prospective institutionalisation but rather is of existential-extrication-as-ofexistential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care—and—episteme and organic-knowledge attitude/mental-disposition/care—and—episteme. While the full implications of a
positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms–as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness-of-reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such
positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate meaningfulness-and-teleology to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness-of-reference-of-thought as fundamentally denaturing’, and likely to induce transversality—sublimating—existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness ). Ultimately, such a double-gesturing hold out the possibility in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern
positivism/rational-empricism attitude/mental-disposition/care–and–episteme\(^1\), by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a \(^5\) universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\(^5\) in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification\(^7\) of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency\(^10\) \(\langle\)transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\(\rangle\). Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\(<\text{as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing}>\) that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme\(^\cdot\). Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold\(^8\) \(\langle\)reference-of-thought– categorical-imperatives/axioms/registry-teleology\(\rangle\)-for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology\(^9\) as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity\(<\text{shallow–}\)}
supererogation\textsuperscript{1} \textendash of-mentally-aestheticised\textendash preconverging/dementing\textsuperscript{1}-quality-schema>}. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care\textendash and\textendash and\textendash episteme\textsuperscript{2} event\textsuperscript{2} or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human <amplituding/formative-epistemicity>totalising\textendash thrownness-in-existence\textsuperscript{1} (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity\textsuperscript{1} and veracity is more fundamentally about the re-originar-y-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking\textsuperscript{-}projective-insights/’epistemicprojection-in-conflatedness\textsuperscript{-}of-notional\textendash deprocrypticism-prospective-sublimation) creative insight and appreciation of any
pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-to-the-

The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity undermining of Being-
epistemicity>totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of ontological-primemovers-totalitative-framework, and so divulged by existence-potency~sublimating-nascence,-disclosed-from-prospective-epistemic-digression; as prior human~presencing—absolutising-identitive-constitutedness experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendent-al-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as~presencing—absolutising-identitive-constitutedness enabling the obtention of any such conclusions from the given classical-mechanics—axiomatic-constructs apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising-contiguity)—constitutedness, but rather it is by apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising-contiguity)—conflicatedness with regards to ‘the very same physics <amplituding/formative—epistemicity>totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of nonpresencing—<perspective—ontological-normalcy/postconvergence>. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/superrgatory—de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of—meaningfulness—and-teleology individualisation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework tendential validation as to existence-potency~sublimating—nascence,-disclosed-from-prospective-epistemic-digression. Such a construal of human transcendence-and-sublimity/sublimation/superrgatory—de-mentativity will cover the seminal contributions prior
and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening analysis; and insightfully, as reflected in the underlying apriorising/axiomatising/referencing-(of– existentialising/contextualising/textualising-contiguity —conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay, sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological neuterising with deneuterising—referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional-deprocrypticism perspective/framing/reference/horizon/projection. Similarly, this author’s articulation of futural-différance as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and
this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différrance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freplay différrance, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity’; and différrance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the precence of existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting-conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism deference to the precence of existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression over any human-as-mortal framing of ‘meaningfulness-and-teleology’ including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the postconverging–dementating/structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-
ontological-completeness/of/reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness/of/reference-of-thought, and so by maximalising-recomposing <amplituding/formative–epistemicity> totalising–renewing–realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential postconverging–de-mentating/structuring/paradigmning of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality/as-of-neuterisation/relative-ontological-incompleteness/existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension reference-of-thought in prospective relative-ontological-completeness/of-axiomatic-construct-or/reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social universal-transparency’ - (transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness )’. But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits
the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness of-axiomatic-construct-or-reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différence-freeplay comes into terms with both presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–ontological-normalcy/postconvergence> on the basis of the prospective relative-ontological-completeness of the latter over the prior relative-ontological-incompleteness of notional-discontiguity/epistemic-discontiguity of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-

aestheticised-preconverging/dementing –qualia-schema of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-

‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising but rather difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing between presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–ontological-normalcy/postconvergence>. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon/projection as of prospective relative-ontological-completeness of notional-contiguity/epistemic-contiguity construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded on such a developed consciousness perspective/framing/reference/horizon/projection. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset
perspective/framing/reference/horizon/projection as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon/projection as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon/projection’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon/projection as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon/projection’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon/projection as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon/projection’ to grasp notional–deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘notional–deprocrypticism mindset perspective/framing/reference/horizon/projection as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get that the fundamental stake for the Copernicus, Galileo, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the
formation of a positivistic social consciousness
apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument’ that would
enable the anchoring of all such prospective positivistic knowledge, and this sense of things
fully underscored such a more comprehensively directed project-and-purpose undertaken later
by the Encyclopédistes; with the underlying insight that while a social state of generalised prior
relative-ontological-incompleteness of reference-of-thought is enabling to surreptitious
Establishment charlatanism, however with increasing ‘social universal-transparency (transparency-of-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness)’ such charlatanism is exposed
for what it really is, explaining the panickiness and falsehood associated with such charlatanism
as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by
itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-
imaginary, theoretical and conceptual possibility for such futural différénce consciousness
development is the notion of de-mentation (supererogatory-ontological-de-mentation-or-

‘human-amplituding/formative-epistemicity-totalising-purview-of-construal’’. As futural différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay différance’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening; overriding the idea that the perspective/framing/reference/horizon/projection of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising’, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing as of prospective relative-ontological-completeness—of-reference-of-thought bringing about transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of nonpresencing—<perspective-ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimities that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness and prospective relative-ontological-completeness, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-
relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of nonpresencing-<perspective-ontological-normalcy/postconvergence>. In other words, human consciousness tends to be constraint to its <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ mental-disposition as of presencing—absolutising-identitive-constitutedness. But existence/ontology’s-directedness-as-Being as of nonpresencing-<perspective–ontological-normalcy/postconvergence> is beyond and not constraint by human consciousness as of its <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of ontological-primemovers-totalitative-framework validation that is at the very
center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence-{implicated-‘nondescript/ignorable–void’-as-to-presencing—absolutising-identitive-constitutedness} of any given <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ posture; such that humankind then overlooks presencing—absolutising-identitive-constitutedness and re-projects/re-anticipates nonpresencing-<perspective–ontological-normalcy/postconvergence> enabling human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Therefore, metaphoricity as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity as such simply refers to signification adjunctiveness to ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of both the meaningfulness-and-teleology implications to the so-renewed ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and the specific adjunctive-metaphoricity-signification within such renewed ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. Metaphoricity is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-teleology as an epistemic-totalising/circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity arises because of human
limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of nonpresencing-<perspective–ontological-normalcy/postconvergence> by human re-projection/re-anticipation ultimately validated by existence/ontology’s-directedness-as-Being ontological-primemovers-totalitative-framework. Further, metaphoricity as such speaks of the evasiveness of all human meaningfulness-and-teleology at uninstitutionalised-threshold as recurrently pointed out herein as of token threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to—‘attendant-intradimensional’—prospectively—disontologising—preconverging/dementing—apriorising-psychologism> possibilities relation to reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as of human limited-mentation-capacity implications. The implications of this reality as of metaphoricity explains why epistemes are fundamentally and necessarily constricted as of their specific registry-worldview/dimension reference-of-thought; as ultimately epistemes are as relevant as the ontological-possibilities divulgeable by presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–ontological-normalcy/postconvergence>, such that in the case of the latter there is no prior insight about the veracity of any episteme before it is divulged with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as presencing—absolutising-identitive-constitutedness. Consider in this regard Galileo’s implying positivistic episteme metaphoricity over a medieval Establishment scholasticism-and-mysticism episteme as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the
‘drawback implications’ of our positivism–procrypticism episteme as of its apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness 1 with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology 10 as of prospective notional–deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay 2 with respect to our procrypticism–or–disjointedness-as-of–reference-of-thought uninstitutionalisation and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology 10 as of prospective notional–deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag 3. Galileo could well had possibly recasted his implied positivism meaningfulness-and-teleology 10 in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal–or–metaphysics-of-absence {implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>}–or–transcendental-reasoning-of-event as-prospective-ontology-origination perspective/framing/reference/horizon/projection of positivism meaningfulness-and-teleology 10 we entertain today. Likewise, as of such metaphoricity episteme, the meaningfulness-and-teleology 10 herein implied as of its essence cannot do without this hermeneutic/reprojecting/supererogating/zeroing circle phenomenological ontology elucidation as of its psychoanalytic-unshackling apriorising/axiomatising/referencing-(of–
existentialising/contextualising/textualising-contiguity — conflatedness; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon/projection and then contention/argumentation within such articulated perspective/framing/reference/horizon/projection, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon/projection for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality of affirmiative-and-inaffirmative—transmuted—‘motif-and—apriorising/axiomatising/referencing’ complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is.

This in itself is a milestone in theorisation, and as an overall conception postmodern-thought,
besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing” cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to ‘open-up’/‘throw-up’/‘reveal’ new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/superrerogatory–de-mentativity implications, and by not appreciating due to ‘flatmindedness'/banality/flimsiness the implications of perspective/framing/reference/horizon/projection before contention/argumentation as of any given perspective/framing/reference/horizon/projection, thus implying ‘poor critical judgment’. With such ‘flatmindedness'/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness'/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-
transference as of institutional percolation-channelling—<in-deferential-formalisation-transference> are necessarily construed as of a double-gesture reification[^7] that supersedes the ordinariness/banality of day to day social existence analysis as of <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—<as-of—nondescript/ignorable—void—'with-regards-to-prospective-apriorising-implications>}, such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity[^4] and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity[^4] critiques, as de-mentatively/structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness[^8]—of—reference-of-thought-postconverging-or-dialectical-thinking[^20]—apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-incompleteness[^5]—of—reference-of-thought-preconverging-or-dementing[^1]—apriorising-psychologism. Such that there is no dialogical-equivalence—<as-to-psychologismic—apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity)—conflatedness—in-self-becoming/self-conflatedness/formative—supererogating[^3] that then arises by the fact that the former is a nonextricatory/intemporal/ontological relationship with meaningfulness-and-teleology[^0] while the latter is an existential-extrication/temporal/non-ontological relationship with meaningfulness-and-teleology[^0], in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology[^100] in reflecting
holographically-<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process retrospectively and prospectively while the latter as of its false ‘untransvaluated–temporal-intemporality’ is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process. As ultimately, it is the prospective relative-ontological-completeness of reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity can be construed analogically as say in a non-positivist social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon/projection of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency ⟨transparency-of-totalising-entailing-as-to-entailing-as-amplituding-formative-epistemicity⟩ totalising-in-relative-ontological-completeness ⟩’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that
their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive wooden-language (imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignoreable—void ’-with-regards-to-prospective-apriorising-implications) ‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence-supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvalutive-
subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional–knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence∕implicated-epistemic-veracity-of-nonpresencing⟨perspective–ontological-normaley/postconvergence⟩ will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness∕of-axiomatic-construct-or∕reference-of-thought over a <amplituding-formative∕epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as prior∕reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective∕reference-of-thought ‘as of the prospective relative-ontological-
completeness\textsuperscript{\textregistered} of axiomatic-construct-or-\textsuperscript{\textregistered} reference-of-thought of a better knowledge perspective/\textsuperscript{\textregistered} reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness\textsuperscript{\textregistered} with regards to \textsuperscript{\textregistered} reference-of-thought and its derived \textsuperscript{\textregistered} meaningfullness-and-teleology\textsuperscript{\textregistered}, with the implication that we need to a prospective relative-ontological-completeness \textsuperscript{\textregistered} reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of \textsuperscript{\textregistered} meaningfullness-and-teleology\textsuperscript{\textregistered}. In other words, all concepts, notions as of ontologically-veridical \textsuperscript{\textregistered} meaningfullness-and-teleology\textsuperscript{\textregistered}, are made to have their internal-dialectics/différance as of \textsuperscript{\textregistered} nonpresencing-\textsuperscript{\textregistered}ontological-normaley/postconvergence> for their sublimation and transcendence-and-sublimity/sublimation/supercrasy–de-mentativity into more profound and more complete \textsuperscript{\textregistered} meaningfullness-and-teleology\textsuperscript{\textregistered}. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness\textsuperscript{\textregistered}; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of \textsuperscript{\textregistered} deprocrypticism–or–preempting—disjointedness-as-of-\textsuperscript{\textregistered} reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical \textsuperscript{\textregistered} meaningfullness-and-teleology\textsuperscript{\textregistered} comes down to the capacity of arriving at the very essence of \textsuperscript{\textregistered} meaningfullness-and-teleology\textsuperscript{\textregistered} while overcoming the
drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of existentialising/contextualising/textualising-contiguity; is the enabling approach for human ontological-reconstituting–as-to-conflatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating) \( \langle \text{amplituding/formative}\rangle \) supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) of our supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern postconverging–dementating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as herein implied by this author with ‘the ontological-contiguity—of-the-human-institutionalisation-process congruent,-cogent-and-operant entailing framework of ontological-contiguity’. Anecdotally, the shallow-mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture.
reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity is equally elicited by ‘lack of social universal-transparency’

meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-

and more explicitly Descartes in his direct construal of the positivism

certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue
but rather their insistence was an implicit understanding that the non-positivistic ‘reference-

was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for
their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-

but equally points critically to intellectually decadent institutional dispositions and practices
where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as
of more critical epistemic pertinence for knowledge constructions undermining the possibilities
of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual
arguments increasingly takes a back seat, with intellectual postures increasingly defended with
non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-
craft. This manifests itself in the form of many an intellectual increasing disposition ‘to
misunderstand’ others works, as there are little common stakes for breakthroughs but rather the
stakes are increasingly of institutions academic visibility and tenure with emphasis on like-minded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance; with a resultant sense of socioeconomic and socio-political impotence as such blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and preconverging–dementating/structuring/paradigming of academic institutional setups into increasingly into pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation are not dissociated from the effective possibility for transcendental-enabling/sublimating/supercalory–d-mentativity, especially as such breakthroughs require the spontaneity of Dionysian arrangements. This author’s construes of ‘deprocrypticism—or–preempting—disjointedness-as-of reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ conceptualisation as of ontological-escalation or aetiology, with respect to our present positivism–procrypticism disjointedness-as-of reference-of-thought, as the more fundamental transcendental issue for prospective ontological-primemovers-totalitative-framework transcendental-possibilities/potential beyond self-referencing-syncretism and circular palliative knowledge-constructs/theories/interolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue with regards to attending to the inherent deficient uninstitutionalised-threshold of knowledge-construct possibilities and vices-and-impediments imbued in our positivism–procrypticism disjointedness-as-of reference-of-thought reference-of-thought—devolving-teleological-de-

Thus the ‘notion of limited-mentation-capacity' is basically the ‘underlying veridical human \[5\] meaningfulness-and-teleology \[100\] notion’ for which ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness' consciousnesses flawed conceptualisation perspectives’ construed as ontologically-flawed constructs in terms–as-of-axiomatic-construct of ‘\[45\] neuterising as of \[45\] \langle amplituding/formative–epistemicity\rangle totalising/circumscribing/delineating \[84\] reference-of-thought–devolving’ whether beyond-the-consciousness-awareness-teleology \[100\] \langle in-existential-extrication-as-of-existential-unthought\rangle, and so elucidated from the ontological-normalcy/relative-ontological-completeness \[88\] of reference-of-thought perspective of notional–deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness \[12\] protensive-consiousness sound conceptualisation perspective’. In so doing, the latter reflects the limited-mentation-capacity dynamism of \[56\] meaningfulness-and-teleology \[100\] as of notional–deprocrypticism as well as temporal-to-intemporal individuations mental-dispositions, by way of deneuterising \[16\]—referentialism, in lieu of \[16\] neuterising. Thus this notion of human limited-mentation-capacity as the basis of différance/internal-dialectics/difference-deferral divulges ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ and as of their ontologically-flawed constructs of neuterising, with regards to articulating teleological elevation-as-of-upholding-ontological-veridicality or teleological degradation-as-of-failing-ontological-veridicality
notional–deprocrypticism enables a fundamental ontology-driven ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, and so superseding a naïve metaphysics-of-presence (implicated-‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness) affect-driven mented or stigmatic psychology rather as of a shallow perspective and vaguely articulated as of universal import. The idea here with regards to human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, is that from a creative perspective: the notion of a given neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this neuterising that human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is achieved from the prospective notional–conflatedness of notional–deprocrypticism and so by deneuterising — referentialism, which is equinominal/equivalent to nonpresencing-<perspective–ontological-normalcy/postconvergence>. In other words the historical implications of human limited-mentation-capacity-deepening is that ‘as of a less and less ontologically-flawed meaningfulness-and-teleology towards ontological-normalcy/postconvergence, ‘it projectively/anticipatorily brought about the <cumulating/recomposuring>-successive registry-worldviews/dimensions <amplituding/formative–epistemicity> totalising/circumscribing/delineating ‘reference-of-thought–devolving’ as of their given neuterisation”, construed as equinominal/equivalent with their successively given neuterising. From the above insight, transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, is attainable as of deneuterising.
nonpresencing-<perspective–ontological-normalcy/postconvergence>⟩ wherein across the <cumulating/recomposuring>-successive registry-worldviews/dimensions a notional–deprocripticism insight makes obvious that it is increasing ontological-normalcy/postconvergence by increasing prospective relative-ontological-completeness of reference-of-thought that underlies reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming—ontological-performance -<including-virtue-as-ontology> as a wholly internal process of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—confatedness, highlighting ‘the concatenation of intemporal-projection inextricably with derived-denaturing -deprojections-in-distractiveness-of-intemporal-projection, with the former in relative longness-of-register-of—meaningfulness-and-teleology and the latter in relative shortness-of-register-of—meaningfulness-and-teleology/distractiveness’ that occurs at the individuation-level and is reflected in the registry-worldview/dimension-level by the concatenation of institutionalisation inextricably with uninstitutionalised-threshold as the former is in longness and the latter in shortness/distractiveness to the former. This conceptualisation of candidity/candour-capacity associated with notional–deprocripticism with regards to ‘de-mentation ⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩ implications for reference-of-thought transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity’ is in effect a ‘more profound-and-comprehensive notion of différance construed rather with respect to the defining reference-of-thought of meaningfulness-and-teleology as of prospective relative-ontological-completeness-of-reference-of-thought’ and can be qualified as ‘futural différance’ as of its suprastructural nature, and goes beyond the limits of a Derridean perspective of différance as ‘historial différance’ rather articulated from ‘presencing-as-prospective-relative-ontological-

Consider a metaphysics-of-absence={(implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>)} elucidation with regards to say a remote/isolated non-positivistic animist/base-institutionalisation society for instance which by some token has sustainable-and-learned access to basic but greatly enhancing productive techniques from travellers of a positivistic culture but without a substantial corresponding organisational and institutional diffusion associated with such greatly enhancing productive techniques due to the very brief nature of the encounter or disconnected/incoherent/perfunctory/chaotic nature of their relations, this will de-mentatively/structurally/paradigmatically have degenerative effect on such an animistic social organisation wherein this isn’t enhancing of the society’s social organisation and relations and will be possibly disruptive. This example isn’t that farfetched as anthropological evidence of such cases abounds with many native societies so disrupted by culturally alienating positivistic material diffusion. This explains the peculiar mimetised-preconverging-or-dementing apriorising-psychologism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology we’ll construe for instance of a non-positivism/medievalism mindset reference-of-thought that doesn’t register positivistic meaningfulness reference-of-thought and likewise prospectively such a construal will have our present placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of priorly unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought/preconverging-or-dementing apriorising-psychologism by its positivism–procrpticism reference-of-thought. Just as the very nature of existential-reality by our limited-mentation-capacity-deepening construal/conceptualisation of it is rather ‘an uncompromising windedness/foldedness susceptible to our limited-mentation-capacity-deepening virtuality-or-ontologically-flawed-construal as decontextualising/unimbricating/unrecomposuring of its inherent nature’, correspondingly the exercise of ontologically-veridical reasoning is rather maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation.

Correspondingly, from the vantage position of our present positivising/rational-empirical ontological-completeness-of reference-of-thought with respect to a non-positivism/medievalism worldview, we can garner an insight of the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogationProspectingly-disontologising~preconverging/dementing apriorising-psychologism of the postlogism -and-conjugated-postlogism in a non-positivism/medievalism setup, wherein faced with arguments of the sort who is the sorcerer, how are they using their sorcery, etc., speaking of the non-positivism/medievalism relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-

psychologism with regards to the limits of a registry-worldview’s/dimension’s institutionalisation (whether base-institutionalisation, universalisation and positivism eliciting respectively the uninstitutionalised-threshold of ununiversalisation, non-positivism/medievalism and procrypticism) across all the ontological-contiguity —of-the-human-institutionalisation-process wherein the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought in its <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (as metaphysics-of-presence {implicated–‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness }; illusion-of-the-present/present-consciousness/mirage) is representing itself as ‘postconverging-or-dialectical-thinking –apriorising-psychologism and dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-worldview’s/dimension’s reference-of-thought, as of the ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective, it is ‘preconverging-or-dementing –apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason for the ontologically defective <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supercratory–de-mentativity)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been <amplituding/formative wooden-language (imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of meaninglessness-and-teleology -as-of–‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>). However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-
veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening\(^1\) expansion of ontological-depth as increasing ontological-completeness-of-reference-of-thought (or reducing relative-ontological-incompleteness\(^2\)-induced,-‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing<apriorising-psychologism>). Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to\(^5\) meaningfulness-and-teleology\(^100\) whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding\(^5\) meaningfulness-and-teleology\(^100\). A further example will be say ‘the God of plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in \(<\text{amplituding-formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) (its metaphysics-of-presence\(\langle\text{implicated-’nondescript/ignorable–void ’-as-to- presentencing—absolutising-identitive-constitutedness }\)\) and goes on articulating\(^5\) meaningfulness-and-teleology\(^100\) even in the new existential transcendental/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension.

Given such a state of\(^4\)<amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the notion of generating\(^5\) meaningfulness-and-teleology\(^100\) from the ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective priory implies a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, and so by\(^5\) maximalising-

Equally we can imagine that making a positivistic argument in the midst of a non-positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the ‘center’ had moved from their world (from non-positivistic as base-institutionalisation/animistic or medieval preconverging-or-dementing\textsuperscript{101}—apriorising-psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking\textsuperscript{100}—
apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–procrypticism relationship to its postlogism\(^7\) that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^7\) <as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism>, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing\(^1\)–apriorising-psychologism as well. However, to the extent that it is ‘not such \(<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\) temporal/shortness-of-register-of–meaningfulness-and-teleology\(^9\) inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold\(^3\) from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to\(^1\) universalisation–non-positivism/medievalism to positivism–procrypticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of–meaningfulness-and-teleology\(^9\)) extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a ‘transversality–<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ confliction’ resolved intemporally by prospective ontological-primemovers-totalitative-framework\(^2\) and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded \(^8\) reference-of-thought and a
prospective/transcending/superseding reference-of-thought; given the blunt fact that ‘there is no untransvaluated–temporal-intemporality and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of–meaningfulness-and-teleology distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of–meaningfulness-and-teleology projections.). Critically, the notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity associated with intemporal/projections) as of its very defining core is rather one of ontological-primemovers-totalitative-framework as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-primemovers-totalitative-framework is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied when conceptualising that empirical meaningfulness-and-teleology is the sole purview of the rational-empiricism/positivism registry-worldview/dimension failing to recognised that all other registry-worldviews/dimensions are actually empirical but differ as to interpretation of empirical perception whether as to a magical, cultic or other non-positivising interpretation of empirical manifestation) but speaks of ‘the central human epistemic-totalising ~resubjecting or totalising-entailing–reconstrual heuristic drive’ defining as to preconverging/postconverging–de-mentating/structuring/paradigming meaningfulness-and-teleology the <cumulating/recomposuring>–succession of registry-worldviews/dimensions (however sublimatingly inefficient in relative-ontological-incompleteness and sublimatingly efficient in relative-ontological-completeness as from nonpresencing-<perspective–ontological-
normalcy/postconvergence> epistemic-projection); given that with corresponding shallow to
limited-mentation-capacity-deepening[7], as institutionalising ontological-primemovers-
totalitative-framework[7] successively induce more and more profound ‘mimetic-echoness to
ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-
echoness/existence-in-reverberation/existence-potency via~sublimating–nascence, disclosed-
from-prospective-epistemic-digression. Consider the case with ancient Egyptians and even
ancient Greeks where their relations with their deities were closely related to the fortune they
expected on an empirical basis whether with respect to such occurrences like droughts, warfare,
etc. which technically speaking is a rational allocation as ontological-primemovers-totalitative-
framework of meaningfulness-and-teleology going by their given limited-mentation-
capacity. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and
transcendental-enabling/sublimating/supererogatory–de-mentativity as so construed is more
than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis
that human limited-mentation-capacity-deepening’ implies more and more profound
reconstruals/reconceptualisations (<amplituding/formative–epistemicity>totalising–renewing-
realisation/re-perception/re-thought) inducing transformative implications with respect to
meaningfulness-and-teleology as transcendence; in contrast to the mere aestheticisation of
abstract dialecticism or analogy/mere-analogue speaking thus of human sublimation-
educing—textuality/hermeneutic/reprojecting/supererogating/zeroing–as-to-possibilities-of-
self-becoming-as-of–existential-interpretation/epistemicity-in-
apriorising/axiomatising/referencing-of-existence. As knowledge conception as contrasted to
sovereign conception, ‘transcendence and transcendental-
enabling/sublimating/supererogatory–de-mentativity doesn’t recognise any human discreet
primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is
the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in
deciding that gravity is about 9.8 m/s² on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory-de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory-de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices as of meaningfulness-and-teleology as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of the meaningfulness-and-teleology itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to historiality/ontological-eventfulness/ontological-aesthetic-tracing-/perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory-de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more
profound grasp of intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory–dementativity) to prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity as secondnaturings institutionalisation percolation-channelling to elicit the necessary positive-opportunism for prospective institutionalisation as skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity) towards the intemporal/longness-of-register-of-meaningfulness. The fact is as construed by the Galileos, Copernicus, Diderots and others of the world, transcendental knowledge (as relatively ‘consecrated’ by relative intrinsic-reality/ontological-veridicality transcendental-
notional-deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>, and that as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming
unintelligible, as a prospective institutional percolation-channelling exercise as validated by ultimate ontological-primemovers-totallitative-framework with subsequent corresponding formalisation and secondnaturing. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency-aporia/undecidability/dilemma/ought-ndeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor that ‘human knowledge is necessarily a secondnaturing construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of—meaningfulness-and-teleology, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the notional—deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to—‘attendant-intradimensional’—prospectively—disontologising—preconverging/dementing—apriorising-psychologism>. Thus human knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>.

[The notion of ‘beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>’ speaks of the

For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even
associated with the successive uninstitutionalised-threshold 03 states, the notion of ‘human beyond-the-consciousness-awareness-teleology 104-<in-existential-extrication-as-of-existential-unthought>’ is actually in the bigger picture the larger determinant of manifest human vices-and-impediments 105 as of virtue-as-ontology conceptualisation, speaking fundamentally of the specific registry-worldviews/dimensions ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold 03–defect-<as-Being-or-ontological-or-existential–defect> 86’ inherent with the state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. transcendental notions of intemporality/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-

Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the
transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought.

is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposure–{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>}, which may wrongly imply being out of the scope of human-subpotency–

even the ‘moulting’ intellectual/emancipator, beyond-the-consciousness-awareness-

habitation with prior traditional ideas (consider the case of Newton with alchemic notions),
wherein acceptance of the new ideas they are purporting only comes after an unconscious

the case of just a direct intemporal sense of meaningfulness-and-teleology transference of
transcendental notions. The bigger point being that the construal/conceptualisation of
transcendental ideas is not necessarily validated by their immediate recognition, a notion the
would-be intellectuals/emancipators should be of a ‘presenting—absolutising-identitive-
constitutedness consummated/forfeiting posture’, but rather as providing fodder in the
competitive ideas assuring human progress with emphasis rather with respect to

as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). It
is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their
initiatives will immediately lead to a positivistic transformation of society but they certainly
had a cynical sense of crossgenerational purposefulness (whether beyond-the-consciousness-

explains why in all epochs, however different the nature, there is an inherent temporal mental-
disposition abhorrence of transcendental ideas as putting into question the present and present
interests (for instance, even the industrial revolution when considered as actually generating
material wealth was poorly perceived by many trade guilds). It is only the
‘imbricatedness/threadedness/recomposuring as of existentialising/contextualising/textualising-

On the other hand, intemporality-as-longness-of-register-of-meaningfulness-and-teleology\textsuperscript{5} aetiologisation/ontological-escalation, can supersede the above phenomena as of its derived vices-and-impediments implications, as veridically validated by intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity so-divulged by the ‘imbricatedness/threadedness/recomposuring as of existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the prospective ‘postconverging-or-dialectical-thinking-reference-of-thought in relative-

The difference between postlogism (postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining) and prelogism (prelogism-as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at>) can further be developed as such. Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (‘meaningfulness-and-teleology) taken involves rewards depending on how big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like
<amplituding-formative–epistemicity>totalising~in-relative-ontological-completeness )} of psychopathy especially at adulthood). Now supposed to resolve a ‘purposeful measurement’ (‘meaningfulness-and-teleology’), A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of-reference-of-thought-as-of-conflatedness) and find out that the numbers measured and to be added are 5+2 and is trying its best thereafter to resolve the sum but fails in its logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation and gives 9 as the answer, this doesn’t void logically re-engaging with A with respect to other sums in terms of aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements to be undertaken (as to logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation) so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism . Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the
numbers measured and to be involved in the calculations to be undertaken before then
calculating and so as to measurement (so-construed as use of a defective
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements speaking of B’s perversion-of-reference-of-thought<as-preconvergingly-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-

aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-
measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying 6 + 3 instead of 5 + 2 (with respect to the same correct
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as 5+2) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation ) is flawed since B is not committed
due to its perversion-of-reference-of-thought<as-preconvergingly-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation >> (incorrect
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements) to genuinely strive for correct answers (ontological-veridicality), and this
speaks of the possibility of B denaturing an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose
reference-of-thought is not perverted, such that A’s defect is a defect–of–logical-processing-
or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-
accordance, on the other hand B’s defect is a Being/ontological/existential–defect, i.e. the
teleological disposition of B inherently carries the defect (to the point that B can be socially-
functional-and-accordant while committing the defect, i.e. where the veridical
notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not
universally transparent as a ‘negative covert vista’). Now supposed we are in a social context
where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B.
In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a
possibility of re-engaging with C but only where B’s condition is exposed to it, but where the
characters are not that ignorant but in any of the mental states (implying undermining the
intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercerogatory–de-mentativity of normal additionality with such a social-
aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for
E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C
(where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-
enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It
should be noted that C (where B’s condition is not exposed to it), D, E and F technically
speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that
they consciously perceive it can be socially-functional-and-accordant to them wherein lack of
‘social universal-transparency’–{transparency-of-totalising-entailing,-as-to-entailing-

It should be qualified that postlogism⁷⁸ (psychopathy) and conjugated-postlogism⁷⁸ (as social psychopathy) are enabled, endemised and enculturated by the possibility of the phenomena being socially-functional-and-accordant⁷⁸ without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality⁹⁴/shortness over the intemporality⁵²/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical⁶⁸ ‘meaningfulness-and-teleology⁶⁸’). Further more than postlogism⁷⁸ and conjugated-postlogism⁷⁸ being just passively socially-functional-and-accordant⁷⁸, a more active socially-functional-and-accordant⁷⁸ framework is often induced by extrinsic-attribution on the token of eliciting ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’. cultivating its deterministic ontological-primemovers-totalitative-framework faulty-

highlighted further below where John in a ‘dereifying act’ spills water on a chair, his
‘misconception of meaningfulness-and-virtue’ involving such a mental-disposition of
‘compensating directed pseudo-virtue acts-and/or-narratives’ may be to do some house chore
but rather in ‘crude behaviour manner’ that reveals an ad-hoc quest to re-establish the registry-

others. The adult psychopathy personality development arising from this fundamental faulty-
mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’ at childhood, further evolves a long way with a constantly readjustment process to ultimately enable the credulity for the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance at adult psychopathy, such that at adulthood social universal-transparency\(^{10}\) \(\langle\text{transparency-of-totalising-entailing,-as-to-entailing-} \langle\text{amplituding/formative-epistemicity}\rangle\text{totalising–in-relative-ontological-completeness}\rangle\) as of existentialising/contextualising/textualising-contiguity ’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness\(^{8}\)-of–reference-of-thought\(^{8}\) devolving-as-of-instantiative-context of its underlying postlogism\(^{7}\)-as-of\(^{10}\) compelling–nonconviction/madeupness/bottomlining\(\langle\text{‘decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing~of-induced-disontologising’~of-the~‘attendant-intradimensional–ontologising~imbued~contextualising/existentialising~attendant-ontological-contiguity~in-shallow-supererogation~disontologising-perverted-outcome~sought-precedes-existentially-veridical~‘attendant-intradimensional–apriorising/axiomatising/referencing’~logical-dueness~}\rangle\) often gets lost enabling its faulty-mentation-procedure-deception at adulthood. This faulty-mentation-procedure-deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc trite association between committing a given vicious act and initiating a given limited ‘compensating directed pseudo-virtue act-and/or-narrative’ in compensation as is the case at childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (but rather requires a more profound association of the ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining–(‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising’–of-the–‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-

Whereas at adulthood psychopathy the overcompensating involves a surreptitious upending/undermining/blurring of this underlying insight that the ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-

This underlying postlogism/psychopathic faulty-mentation-procedure-deception mental-disposition and its protraction in conjugated-postlogism/social-psychopathy involving deliberative/conscious or unconscious (conjugated-ignorance) artificial, fallacious and surreptitious systematic eliciting of ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ systematically enabling the possibility for committing ‘postlogism-as-of-compulsing—nonconviction/madeupness/bottomlining—(<decontextualising/de-existentialising—of-attendant-intradimensional—apriorising/axiomatising/referencing—,induced-disontologising—of-the—attendant—intradimensional—ontological-contiguity,—in-shallow-supererogation—,<disontologising-perverted-outcome-sought-precedes-existentially-veridical—attendant—intradimensional—apriorising/axiomatising/referencing—’logical-dueness>) vicious acts-and/or-narratives’ with respect to another individual or situation, as the occasion may arise, while ensuring social overlooking/absolving/exonerating/exculpating is a central enculturating/endemising mechanism at the registry-worldview/dimension-level (beyond the individuation-level) of human temporalities-drives to adhere to the wooden-language.

sublimity/sublimation/supererogatory–de-mentativity can be further elucidated with regards to
two remarkable historical developments which while inherently exceptional, to say the least,
aren’t truly transcendental. Consider for instance that transcendental is generally considered as
the central notion of Kantian philosophy. The reality however is that the supposed transcendentality is actually an elaboration in the terms of the actual and true rational-empiricism/positivism and Kantian supposed transcendentality/sublimity/sublimation/supererogatory–de-mentativity established by Descartes’ thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated ‘extended rationalism’ right up to the present. Kantian supposed transcendentality/sublimity/sublimation/supererogatory–de-mentativity (Copernican revolution) is not eliciting a ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ of ‘extended rationalism’ thinking proposition and scepticism exercise, though in many ways it is a more profound elaboration of extended-rationalism the-mentality issues. So it is actually an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument within the extended-rationalism reference-of-thought that doesn’t psychically and meaningfully supersede it but elaborates within it; and it doesn’t reference an

('apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity)—conflatedness-reference-of-thought'); and wherein the successive mindsets/references-of-thought and institutionalisations are suprastructural to each other (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought). Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation of its limited-mentation-capacity-deepening. It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening—limited-mentation-capacity,~as-limited-mentation-capacity-deepening. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same existential-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same existential-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering
such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/alchemic/essences/medieval registry-worldview/dimension certainly does has a name (transcendence-and-sublimity/sublimation/supererogatory–de-mentativity). But then it is more the case that from an totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag posture holding only one registry-worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-teleology as absolute, then prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather a beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> notion. Besides, Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as of
totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage) with respect to the positivism/rational-empiricism registry-worldview/dimension. In other words, Kant is involved in an epistemological conceptualisation at a given point in time (erroneously construed as the absolute point of human thought apriorising, without a decentering sense of projection with respect to the prior and prospective). But existential-reality as of its human mental apriorising/axiomatising/referencing (heuristically at least) started well before that point and carries on well after that point, and such an exercise is more profound when it construes human mental apriorising/axiomatising/referencing along the full existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existence as it redefines meaningfulness-and-teleology on the basis of human limited-mentation-capacity-deepening in its construal/conceptualisation of a superseding—oneness-of-ontology construed as transcendental-enabling/sublimating/supererogatory—de-mentativity. Insightfully, this author construes an existential-reference/existential-tautologisation basis of such human mental apriorising/axiomatising/referencing process for the transcendental-enabling/sublimating/supererogatory—de-mentativity of successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions rather as of an exercise of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation over conceptualisations of human mental apriorising/axiomatising/referencing process on a simple categorisation reflex basis as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity which tend to require constant heuristic adaptations to sync in contiguity with existence-
potency of sublimating–nascence, disclosed from prospective epistemic digression—rules of apriorising/axiomatising/referencing that further epistemically unconceal the very ontologically same existential-reality of existential-reality and avoid virtualities, as wrongly operating on the basis of an absolute point of human thought apriorising/axiomatising/referencing that doesn’t recognise that successive apriorising/axiomatising/referencing/intelligibility setup/measuring instrument as transcendental registry-worldviews/dimensions are defining/transcendental-enabling/sublimating/supererogatory de-mentativity for new prospective relative-ontological-completeness of reference-of-thought. In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the contextualising-contiguity of existence as of human shallow-to-deepening–limited-mentation-capacity, as limited-mentation-capacity-deepening as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibility setup/measuring instrument non-rules—apriorising/axiomatising/referencing–psychologism, as impulsive or accidented or random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibility setup/measuring instrument rules associated with human limited-mentation-capacity-deepening, as further elaborated in this paper. This same insight can be extended with respect to an Einstein and Bohr led theory of relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psyche as ‘<amplituding/formative–epistemicity> totalising–renewing–realisation/re-perception/re-thought–as–utter–placeholder–setup–ontological–rescheduling—(by–a–renewing–of apriorising/axiomatising/referencing–psychologism–as–the–new–referencing–basis–of—
prospective—meaningfulness-and-teleology’ of positivistic physics right back then in their
ePOCH such that the overall underlying principle of ontological-primemovers-totalitative-
framework as transcendental-enabling/sublimating/supererogatory–de-mentativity back then
is still what prevails today. It is that physics psyche established back then which enabled
seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics
within a decade or so of their articulations as of more profound elaboration of transcendental-
enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-
framework to establish themselves as the central physics theories with little or no quarrel. It is
interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in
what may be construed today as a relatively benign conceptualisation of a heliocentric model of
the world, with the revolt of Galileo and others ultimately establishing that physics and science
psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to
ontological-primemovers-totalitative-framework that is not ontological-veridicality/intrinsic-
reality transcendental-enabling/sublimating/supererogatory–de-mentativity as of its non-
scientific psyche. In other words however ‘good-natured, well-meaning and wishful for
enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic
was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality
transcendental-enabling/sublimating/supererogatory–de-mentativity, and instinctively one may
argue that it is by coming out from the frustration of not achieving anything decisive but for
‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the
Newton’s of that epoch increasingly adopted a positivistic sense of things which they
increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-
enabling/sublimating/supererogatory–de-mentativity. This same ‘ontological misconstrual’
aivily grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-
naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity construction having to do with an

enlightened despotism. This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-prioritisation-of-reference-of-thought’—as-conflicatedness—or-ontological-reprojecting that then ‘invents/creates’ the de-mentative/structural/paradigmatic possibility for prospective institutionalised-being-and-craft as there isn’t any inherent intemporality"/longness but for the disposition for maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation out of the apathy of the ordinariness/averageness of any prior registry-worldview/dimension institutionalised-being-and-craft setup. Hence such intemporality/longness as maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation need its <amplituding/formative-epistemicity>totalising–renewing-realisation/re-perception/re-thought in inducing secondnaturesd institutionalisation given that the-succession-of-registry-worldviews-ordimensions-institutionalisations as to the-ontological-contiguity—of-the-human-institutionalisation-process is ‘not a human emanance/seeding/incipient—transformation=<as-to-Derridean-messianicity—wherein-even-when-the-messiah-as-intemporal-drive-comes-they-still-have-to-come> of temporal-dispositions/shortness-of-register-of—meaningfulness-and-teleology into the intemporal-disposition/longness-of-register-of—meaningfulness-and-teleology but rather is solely a secondnaturings to supersede the uninstitutionalised-threshold (is not about the firstnaturedness of human dimensionality-of-sublimating-) <amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflicatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation)) but rather is solely a secondnaturings to supersede the uninstitutionalised-threshold divulged as to its relative-ontological-incompleteness-induced,‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation"
The implication is that acting as-of-a-‘secondnatured reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation nature’ is not enough for articulating prospective institutionalisation requiring ‘intemporal projection <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ for the requisite prospective maximalising-recomposing–for-relative-ontological-completeness—unenframed-conceptualisation, and such conceptualisations from only a secondnaturedness of thought as rather contextually temporal is not ‘intemporal as of-universal-and-abstractive originariness-parrhesia,–as–spontaneity-of-aestheticisation nature’ but is rather in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence (implicit–nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness ). Thus a registry-worldview’s/dimension’s institutionalisation secondnaturedness is challenged by its very own level of relative-ontological-incompleteness-induced,–‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ <as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism>’ marking its uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation with recurrent-utter-uninstitutionalisation, ununiversalisation with base-institutionalisation, non-positivism-or-medievalism with universalisation and procrypticism with positivism, in need for a renewed institutionalisation respectively as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. This equally explain why the notion of human transcendental progress is relatively 're-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking ’-projective-insights’/epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation) driven’ as it requires an intemporal-

As explained, the reason for the successive institutional-cumulation/institutional-recomposure—{as-to—historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>} underlying the ontological-contiguity—of-the-human-institutionalisation-process has to do with human limited-mentation-capacity-deepening inducing successive recomposuring from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity construed as diminishing—human-epistemic-abnormalcy-or-preconvergence towards ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-supererogation’ or prelogism in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-supererogation’ is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism-as-of-conviction,-in-profound-supererogation/species-of-conviction,-in-profound-supererogation-, where by omitting or exaggerating in a circumspect and ad-hoc manner but relative to existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context. What the psychopath is doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-dementing—apriorising.

That is to arrive at a sought-outcome by subknowledging -or-mimicking the non-veridical hollow-form of the meaning of other persons supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism narratives which it perceives as ‘being blatantly deterministic’ of the views and actions of the ‘normal prelogism-as-of-conviction.-in-profound-supererogation—existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind’, i.e. the psychopath is ‘narrating veridical emptiness/hollow narratives’. The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism on narratives but rather simply ‘the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation conjugated-postlogisman/preconverging-or-dementing–integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to
perform in interlocution rather than express a genuine sense of supplanting-conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating/supererogatory—de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism and its derivation/adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism. More precisely, it is critical to distinguish between the notion of slanting (cingle in French) as postlogism—as-of-compulsing—nonconviction/madeupness/bottomlining(<decontextualising/de-existentialising—of-attendant-intradimensional–apriorising/axiomatising/referencing–induced-disontologising’—of-the—attendant–intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant—ontological-contiguity>,—in-shallow-supererogation—<disontologising-perverted-outcome—sought-precedes-existentially-veridical—attendant—intradimensional–apriorising/axiomatising/referencing—logical-dueness>) and the notion of a lie which is in manifest prelogism—as-of-conviction,—in-profound-supererogation—<existentially-veridical—attendant—intradimensional—apriorising/axiomatising/referencing—logical-dueness—precedes—disontologising—logical-outcome—arrived-at> (be it a ‘poor or bad supplanting—conviction—as-to—profound-supererogation—of—attendant—intradimensional’—postconverging/dialectical—thinking—apriorising-psychologism’) as with a lie the implied—logical-dueness (with the corresponding implied—reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate
accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge associated with postlogism-as-of-compulsing-nonconviction/madeupness/bottomlining-(‘<decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising’–of-the–‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity>–in-shallow-supererogation–<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness>) with respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced as conjugated-postlogism-opportunism and conjugated-postlogism78-exacerbation arises out of purposeful enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant, since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s
developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought’s-devolving-as-of-instantiative-context, whereas the latter is exactly what validates logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), with respect to construing meaningfulness as prelogism—as-of-conviction,-in-profound-supererogation’s-existentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at, but instead construes meaningfulness as postlogism—as-of-compulsing—nonconviction/madeupness/bottomlining—‘decontextualising/de-existentialising—of-attendant-intradimensional—apriorising/axiomatising/referencing>-induced-disontologising’—of-the—attendant-intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant-ontological-contiguity>,—in-shallow—supererogation—<disontologising-perverted-outcome-sought-precedes-existentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness>, explaining the circular nature and its particularly overblown extrinsic-attribute mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity with regards to inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the
former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent whole of narratives’ with respect to existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as is the case when someone tells a lie, and actually where such a ‘coherent whole of narratives’ with respect to existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is wrongly implied about slanting, it has to do with prelogism-as-of-conviction,-in-profound-supererogation—existentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing—logical-dueness-precedes-disontologising-logical-outcome-arrived-at—mind/mental-disposition ‘wrongly conjoining the succession of slanting narratives from the last iterated slanted narrative’ to wrongly imply that the slanting psychopath narratives are a ‘coherent whole of narratives as of existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness—reference-of-thought—devolving-as-of-instantiative-context’, and this is the mechanism that induces conjugated-postlogism/preconverging-or-dementing-integration by some interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional—postconverging/dialectical-thinking—apriorising-psychologism interlocutors is not a ‘coherent whole of narratives’ but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism—as-of-conviction,-in-profound-supererogation—existentially-veridical—attendant—

Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing apriorising-psychologism. Thus, with slanting the implied–logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’ logical-processing-or-logical-implicitation supposedly-apriorising-in conviction-as-to-profound-supererogation ), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought/preconverging-or-dementing apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-ontological-good-faith/authenticity-of-reference-of-thought. retraced to the delirious mentation processes structure at childhood psychopathy when it is universally transparent as maturation/indirectness/spatialisation/credulity/craftiness continually developed during its personality development into adulthood psychopathy now enables it becoming socially-functional-and-accordant. This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of existentialising/contextualising/textualising-contiguity by its dereification on a mental-processing disposition that is rather a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’, and so in contrast with the expected ‘reifying nuanced/multivalent mental-processing’ of supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism dispositions in existentialising/contextualising/textualising-contiguity, however bad-or-poor their ontological-performance—<including-virtue-as-ontology> of supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism mental-processing. This underlies the apparent vividness of interlocution with the psychopath especially with regards to social-stake-contention-or-confliction due to a ‘supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism manifestation of the interlocutor by compulsing–nonconviction/madeupness/bottomlining—<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing—induced-disontologising’-of-the-‘attendant-

While at childhood psychopathy such a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existentialising/contextualising/textualising-contiguity is socially inefficacious and trouble-inducing giving the deliriousness effect from universal-transparency ⟨transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness⟩ of its acts, at adulthood
psychopathy the lack of such universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness} of the postlogism-slantedness rather makes the latter ‘sound impassioned/stirring/vivid/spirited’ to the unsuspecting interlocutor who by mental-reflex wrongly assumes as ontologically-veridical the falsely implied existentialising/contextualising/textualising-contiguity, giving the psychopath life-long learnedness and adaptation from its childhood inefficacy as of its increasing maturation/indirectness/spatialisation/credulity/craftiness with adulthood, and this latter ‘apparently impassioned/stirring/vivid/spirited but rather falsely implied existentialising/contextualising/textualising-contiguity’ disposition tends to be socially enculturated/endemised as of conjugated-postlogism. But then, more than just the deception this state of affairs has a further nefarious effect on the natural human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, as the induced ‘lack of constraining social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness} with respect to intrinsic meaningfulness further elicits supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism minds temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, which can actually be more decisive grounds for the perpetuation of psychopathy as social-psychopathy, as the fact is the psychopath is very much pathological and tends to act compulsively in its faulty-mentation-procedure-deception as of circumstantiality.

Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing–apriorising-psychologism’ as of their relative-ontological-incompleteness –of- reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of existentialising/contextualising/textualising-contiguity ’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness–of- reference-of-thought–devolving-as-of-instantiative-context as ontologically-veridical. Thus, notional–deprocrypticism as decentering and preconverging-or-dementing–apriorising-psychologism the positivism–procrypticism registry-worldview reference-of-thought will certainly imply an altogether different psychology of meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-verbatimibility establishing a mindset/reference-of-thought of meaningfulness-and-teleology with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-verbatimibility arises (as
of human limited-mentation-capacity-deepening\textsuperscript{(3)} a renewing of mindset\textsuperscript{(3)} reference-of-thought of \textsuperscript{(3)}meaningfulness-and-teleology\textsuperscript{(3)} with its corresponding psychology/psychologism-construct occurs, with this ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{(6)} leading to the \textless cumulating/recomposuring\textgreater -successive registry-worldviews/dimensions \textsuperscript{(8)} reference-of-thought psychologisms/psychologism-constructs, and implied prospectively as well with the notional–deprocrypticism worldview/dimension \textsuperscript{(8)}reference-of-thought psychology/psychologism-construct. Critically, a psychologism/psychologism-construct takes an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument form that construes meaningfulness from the prior (and even lower) registry-worldview’s/dimension’s \textsuperscript{(8)}reference-of-thought psychology up to its own registry-worldview’s/dimension’s \textsuperscript{(8)}reference-of-thought psychology as of its more profound existentialising/contextualising/textualising-contiguity \textsuperscript{(39)} ’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness\textsuperscript{(5)}-of- reference-of-thought\textsuperscript{(5)} devolving-as-of-instantiative-context in reflecting/perspectivating their relative-ontological-incompleteness \textsuperscript{(5)}-of- \textsuperscript{(8)}reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance. ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental meaningfulness-and-teleology. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendency of philosophies increasingly concerned with the human
realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-primemovers-totalitative-framework’ that has accompanied human limited-mentation-capacity-deepening in construing/conceptualising meaningfullness-and-teleology. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening that actually is behind all threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-attendant-intradimensional-prospectively-disontologising-preconverging/dementing-apriorising-psychologism of the cumulating/recomposuring-successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of de-mentative/structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence-(implicated-nondescript/ignorable-void-as-to-
presencing—absolutising-identitive-constitutedness} and metaphysics-of-absence

{implicated-epistemic-veracity-of- nonpresencing—<perspective–ontological-normalcy/postconvergence>} ontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought psychologism, notional—deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction rather as socially-functional-and-accordant. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold’ mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms—as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-
confliction of human relations as that will certainly just induce an ‘idle circularity and contrarity’ within the non-positivistic social-setup. But rather the point is all about recognising ‘human prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms—as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms—as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable notional–firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold”, across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation building up from the prior ones as of their respective elucidation-of–existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness–of-reference-of-thought–devolving-as-of-instantiative-context (recurrent-utter-uninstitutionalisation non-rules—apriorising/axiomatising/referencing–psychologism, as-

Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence-implicitied-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence> }) of the notion of ‘human temporal uninstitutionalised-threshold mental-disposition’ that de-mentatively/structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-worldview’s/dimension’s temporality/shortness and is non-transcendental to that possibility’: she deserves to be raped because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc. [We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant—threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-

This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-
construct further development requires that it can utterly be put into question by pure-ontology apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness with no conventioning complexes'! (As a reminder, the notion of intemporality/temporality is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercritical—de-mentativity as an otherness from any emotional-involvement/subjectification/notional—amplituding/formative—epistemicity—totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predilection of the inquirer’. This elucidation is equally to highlight that the idea of socially-functional-and-accordant ‘modular-thresholds’-of-notional—firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective—ontological-normalcy/postconvergence>-dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) The conventioning of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction effectively ‘non-dissociable’ modular construal of temporal-dispositions and intemporal-disposition rather as of socially-functional-and-accordant thresholds, has deterministic implications with regards to ‘interdimensional/transdimensional/transcendental registry-worldview/dimension-level of

Critically, central to attaining (intemporal) ontological-contiguity as of the notional-deprocrypticism registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance with no-notional-firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective-ontological-normalcy/postconvergence>-non-dissociability (due to social universal-transparency (transparency-of-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity>totalising—in-relative-ontological-completeness) of notional-deprocrypticism meaningfulness-and-teleology), is equally the need to supersede human ‘emotional involvement’. As ‘emotional-involvement’ is self-centering-and-definitional of human consciousness as of our animate-existential-referencing/subjectification, but actually such reality is otherwise of the same ontologically-veridical nature as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,—disclosed—from-prospective-epistemic-digression into which everything else is caught into as superseding–oneness-of-ontology (even though our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction will often tend to induce a relatively flawed meaningfulness-and-teleology construal in this regard, that explains our metaphysics-of-presence—(implicated–nondescript/ignorable–void—as-to-presencing—absolutising—

Thus an appropriate ontologically-veridical social-conceptualisation and/or storied-construct/ontologically-valid-narration as aetiological/ontologically-escalatory that has the capacity to supersede the inherent human high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction specific element (which tend to denaturing meaningfulness-and-teleology construal, as high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction is behind manifest human ‘non-dissociability’ of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance temporal-to-intemporal thresholds’ within the ontological scope of any given institutionalisation), should be able to imply the same underlying ontologically-veridical existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency sublimating–nascence,-disclosed-from-prospective-epistemic-digression of the superseding–oneness-of-ontology as any other truly ontologically-veridical conceptualisation, be it of animate or inanimate nature. The fact is with or without postlogism\textsuperscript{78} and derived conjugated-postlogism\textsuperscript{78}, human \textsuperscript{84} reference-of-thought–prologism\textsuperscript{79} -as-of-conviction,-in-profound-supererogation \textsuperscript{7} \textsuperscript{8} ‘existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at\textsuperscript{20} tends to be relative. That
is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology\(^{10}\)-<in-existential-extrication-as-of-existential-unthought\>) given our relative-ontological-incompleteness\(^9\)-of-reference-of-thought and secondly by projective-arbitrariness/waywardness in the choices we make, and this get even worst at the uninstitutionalised-threshold\(^{15}\). Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute \(^{8}\)reference-of-thought–prelogism–as-of-conviction,-in-profound-supererogation\(^7\)-<existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal preconverging–de-mentating/structuring/paradigming and further so with respect to increasing informality as in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) of all human institutions, and particularly where social universal-transparency\(^{10}\)-(transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative-epistemicity>totalising–in-relative-ontological-completeness) is blurred and not forthcoming as logic tends out to be an issue of making-a-mistake-at-one-moment-expressing-the-most-profound-conviction-as-to-profound-supererogation-at-the-other-moment in a circular reference-of-thought. This tendency is further exacerbated with the dynamic conjugation of temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to postlogism\(^7\)-slantedness. Such a distinction particular at the uninstitutionalised-threshold\textsuperscript{103} is required because it then implies ontologically the relegation of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the
soundness-of-the\textsuperscript{84} reference-of-thought as of \textsuperscript{84} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} in the first place to establish or not perversion-and-derived-\textsuperscript{8} perversion-of\textsuperscript{8} reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{8}. This delineation is in line with the idea of human temporal (shortness-of-register-of\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} to intemporal (longness-of-register-of\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100}) individuations nature as implicitly recognised in the preconverging/postconverging–de-mentating/structuring/paradigming of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge-notionalisation on the basis that it is equally critical to understand the possibility of the ignorances/desublimation just as conceptual sublimation knowledge itself to further uphold, advance and skew for the latter. The point being that meaningfulness-and-teleology\textsuperscript{100} construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of \textsuperscript{8} reference-of-thought–prelogism\textsuperscript{79}–as-of-conviction,-in-profound-supererogation\textsuperscript{97} <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold\textsuperscript{191}’ the possibility of the ontological-veridicality of interlocutors threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism> mental-dispositions, and as is often associated with mental-dispositions geared towards ‘flawed impression-driven, expletive-driven and non-intellectual critique’ contention. This difference between threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism> and \textsuperscript{8} reference-of-thought–prelogism\textsuperscript{79}–as-of-conviction,-in-profound--
supererogation\textsuperscript{97} <existentially-veridical–'attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> critically explains how the <cumulating/recomposuring>-successive registry-worldviews/dimensions psychoanalytically-unshackled/memetically-reordered/institutionally-recomposured going by the fact that projective-insights about prior registry-worldview/dimension threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-'attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> as of prior relative-ontological-incompleteness\textsuperscript{89} of reference-of-thought is what needs to be superseded for prospective registry-worldview/dimension institutionalisation prospective relative-ontological-completeness\textsuperscript{88} of reference-of-thought effective \textsuperscript{84} reference-of-thought–prelogism \textsuperscript{79} as of conviction,-in-profound-supererogation <existentially-veridical–'attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> (as operant construal) by social\textsuperscript{104} universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ⟩ rendering the prior registry-worldview/dimension threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-'attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> (as operant construal) untenable. This brings to the fore the idea that the salient point about human mental-disposition whether construed as of institutionalisation basis or at its uninstitutionalised-threshold\textsuperscript{103} has to do with the possibility of attaining or not attaining social\textsuperscript{104} universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ⟩. Where this is effectively attained, it becomes psychically and institutionally untenable for interlocutors to act as of subpar (threshold-of–
failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of ‘universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. worldview/dimension social superstition is itself an enabler for its corresponding postlogism for ‘imaginary’ accusations of sorcery); and so, while socially inducing temporal-dispositions conjugated-postlogism derived threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \langle\text{as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing} \text{–apriorising-psychologism}\rangle, and so overall, on the flawed mental-reflex that such protraction of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \langle\text{as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing} \text{–apriorising-psychologism}\rangle is supposedly \langle\text{reference-of-thought–prelogism–as-of-conviction,–in-profound-supererogation} \text{–existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at}\rangle (as to the lack of constraining social universal-transparency (transparency-of-totalising-entailing,–as-to-entailing- <amplituding/formative-epistemicity>totalising–in-relative-ontological-completeness )). Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism as a social dynamism of protracted threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \langle\text{as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing} \text{–apriorising-psychologism}\rangle doesn’t socially take hold then, as such childhood postlogism persion-of–reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > hasn’t superseded the social universal-transparency (transparency-of-totalising-entailing,–as-to-entailing- <amplituding/formative-epistemicity>totalising–in-relative-ontological-completeness ) in further inducing temporal-dispositions derived-persion-of–reference-of-thought<as-preconvergingly-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation >. The further implication is that such surreptitiousness, marginality and
circularity with regards to a registry-worldview’s/dimension’s temporal-dispositions are often
construed rather as circumventive issues as of temporal extricatory preconverging–dem-
mentating/structuring/paradigmig, and not by ontological-veridicality insight as of de-
mentative/structural/paradigmatic
<amplituding/formative–epistemicity>causality~as-to-
projective-totalitative–implications-of-prospective–nonpresencing.–for-explicating–
ontological-contiguity with respect to vices-and-impediments106. Thus ensuring ontological-
veridical social universal-transparency104{(transparency-of-totalising-entailing.–as-to-
entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-
completeness } is de-mentatively/structurally/paradigmatically inherently ‘advantaged
ultimately’ by the social-construct functioning. (But then this can rather be achieved in the
medium to long term as of a crossgenerational transcendence-and-
sublimity/sublimation/supererogatory~de-mentativity import and hardly so in the short-run,
given that in the short-run the issue of the registry-worldview/dimension relative-ontological-
incompleteness79–of–reference-of-thought is a drawback in this respect. As the framework of
generalised social referencing of meaningfulness-and-teleology100 is a circular-pervasiveness
closed-structure as of the habituated predicative-insights for meaningfulness-and-teleology100
based on the relative-ontological-incompleteness89–of–reference-of-thought of the registry-
worldview/dimension as prior (despite the relative-ontological-incompleteness89–of–reference-
of-thought induced distractive-alignment-to–reference-of-thought–<of-
apriorising/axiomatising/referencing>–9 and override any such sense of relative pure-ontology

So the transcendental implied as of projective-insights about the prospective registry-worldview/dimension predicative-insights of going by its prospective relative-ontological-completeness reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for meaningfulness-and-teleology’ in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness reference-of-thought had moved on to the new/prospective meaningfulness-and-teleology which is now antipodal to his, hence his confliction with his circular-pervasiveness wooden-language imbued averaging-of-thought as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as-of- ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications} which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness wooden-language imbued averaging-of-thought as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as-of- ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications} when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-reference-of-thought with regards to meaningfulness-and-teleology construal where Nunez’s ‘seeing of the environment’ reference-of-thought as of it prospective relative-
and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews/dimensions uninstitutionalised-threshold, including our own as positivism—procrystalism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing> notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective <amplituding/formative-epistemicity>totalising/circumscribing/delineating reference-of-thought<devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather such a demonstration is more de-mentatively/structurally/paradigmatically, together with all other such demonstrations of the prospective <amplituding/formative-epistemicity>totalising/circumscribing/delineating reference-of-thought<devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of the prior <amplituding/formative-epistemicity>totalising/circumscribing/delineating reference-of-thought<devolving-as-of-instantiative-context—meaningfulness-and-teleology.

the perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights of the former as more ontologically profound, given its ‘circular-pervasiveness closed-structure of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty is that ‘no given perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run crossgenerational habituation construed as of ‘de-mentionation ⟨supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics⟩ with the prior ontologically construed as decentered and preconverging-or-dementing ‘apriorising-psychologism as of distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing>, with the implication that its logical-dueness doesn’t exist just as the logical-dueness of the animist reference-of-thought with their God of
plane proposition doesn’t ontologically exist.) We can grasp as well that it is the ‘space-
satellite-level-height

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (as deprocrypticism) that ultimately provides the ideal ‘ascertaining-
perspectives for gauging the overall earth landscape’. Besides, why the explication herein is
necessarily implying a prospective \textsuperscript{84} reference-of-thought (as the author in here with a supposed
notional–deprocrypticism \textsuperscript{r} reference-of-thought construal as implying a prospective relative-
ontological-completeness \textsuperscript{r} reference-of-thought over our positivism–procrypticism), the
fact is that any transcendental analysis is caught in two worlds as two different \textsuperscript{84} reference-of-
thought in striving to explicate the ontological pre-eminence of the prospective \textsuperscript{r} reference-of-
thought as of ontological-normalcy/’postconvergence, thus facing the dilemma that by mental-
reflex we are not ‘habituated’ to the notion of our \textsuperscript{84} reference-of-thought being construed as
‘preconverging-or-dementing \textsuperscript{19}–apriorising-psychologism and not thinking’, and so whether
speaking of being construed within our positivism–procrypticism uninstitutionalisation as
preconverging-or-dementing \textsuperscript{19}–apriorising-psychologism and not thinking, within non-
positivism/medievalism uninstitutionalisation as preconverging-or-dementing \textsuperscript{19}–apriorising-
psychologism and not thinking, within ununiversalisation uninstitutionalisation as
preconverging-or-dementing \textsuperscript{19}–apriorising-psychologism and not thinking, and recurrent-utter-
uninstitutionalisation uninstitutionalisation as preconverging-or-dementing \textsuperscript{19}–apriorising-
psychologism and not thinking. We can grasp this by imagining how a non-positivism
uninstitutionalised-threshold \textsuperscript{03} will react when construed as preconverging-or-dementing \textsuperscript{19}–
apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it
considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-
dementing \textsuperscript{19}–apriorising-psychologism and not thinking representation of ourselves construed
from futural Being-development/ontological-framework-expansion–as-to-depth-of-
and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness\(^9\)-of-\(^{10}\) reference-of-thought of non-positivism and \(^8\) procrypticism–or–disjointedness-as-of-\(^{11}\) reference-of-thought). But then wholly carried out in both instances it will be off-putting to both prior \(^8\) reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness’ -of- reference-of-thought over prior relative-ontological-incompleteness\(^9\)-of-\(^{10}\) reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God of plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic \(^{10}\) meaningfulness-and-teleology\(^{10}\); considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of `<amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness\(^9\)-of-\(^{10}\) reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional–deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism–or–disjointedness-as-of- reference-of-thought \(^{11}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{10}\)
failing/not-upholding intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and thus failing to grasp the notional—deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism—procrypticism as preconverging—or-dementing —apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage meaningfulness-and-teleology in positivism—procrypticism terms—as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness-of-reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing —apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation—ununiversalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing —apriorising-psychologism with respect to an implied prospective mental state of universalisation, the ‘mental tools’ available to a state of universalisation—non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing —apriorising-psychologism with respect to an implied prospective mental state of positivism, and prospectively the ‘mental tools’ available to a state of positivism—procrypticism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing —apriorising-psychologism with respect to an implied prospective mental-state of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-
starting at the recurrent-utter-uninstitutionalisation in permanence that doesn’t allow for any such transcending enabled by the ontological-contiguity\(^7\) —of-the-human-institutionalisation-process\(^8\). In other words the notion of forgiveness/overlooking/resetting with respect to perversion-and-derived- perversion-of- reference-of-thought-\(^<\)as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(>\) is rather vague, as the more fundamental issue here is that human meaningfulness-and-teleology\(^10\) as of human limited-mentation-capacity for construing virtue-as-ontology/ontology/intrinsic-reality/ontological-veridicality is ‘ever de-mentatively/structurally/paradigmatically in need for prospective relative-ontological-completeness\(^9\)-of- reference-of-thought’ and that is what is to be sought after as with the recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-institutionalised–ununiversalised striving for universalisation, the universalised–non-positivist/medievalist striving for positivism and in our case the positivist–procryptist striving for notional~deprocrypticism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existing-reality; and so as of human limited-mentation-capacity-deepening\(^5\) enabled by reference-of-thought–\(^<\)categorical-imperatives/axioms/registry-teleology\(^10\), for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology\(^10\) of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposing’ and so allowed by de-mentation\(\text{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)}\). Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no de-mentative/structural/paradigmatic issue of relative-ontological-incompleteness\(^9\)-of- reference-
of-thought with no recognition of any such ontological-contiguity\textsuperscript{3}—of-the-human-institutionalisation-process\textsuperscript{8} as human limited-mentation-capacity-deepening\textsuperscript{23} retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived\textsuperscript{24} perversion-of\textsuperscript{24} reference-of-thought\textsuperscript{3}—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{10} not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social \textsuperscript{45}<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity within the framework in reflecting holographically\textsuperscript{3}<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{3}—of-the-human-institutionalisation-process\textsuperscript{14} involving human limited-mentation-capacity-deepening\textsuperscript{23}.

In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental de-mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism–procrypticism disjointedness-as-of\textsuperscript{44} reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology\textsuperscript{10}<in-existential-extrication-as-of-existential-unthought> naïve perpetuation in \textsuperscript{45}<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} of the fundamental vices-and-impediments\textsuperscript{105} with both uninstitutionalised-threshold\textsuperscript{3}, thus explaining the fundamental
representation/mentation/consciousness-awareness-teleology\textsuperscript{100} is always of prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{84}reference-of-thought. But when it comes to a prospective assessment wherein we are of prior relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{84}reference-of-thought as ‘a preconverging-or-dementing\textsuperscript{10}-and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} positivism–procrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} as unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{1}-of-\textsuperscript{84}reference-of-thought’ from the ‘prospective presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} of notional–deprocrypticism as of its prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{84}reference-of-thought’ as ‘a postconverging-or-dialectical-thinking\textsuperscript{20}-and-centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} as soundness-or-ontological-good-faith/authenticity\textsuperscript{1}-of-\textsuperscript{84}reference-of-thought’, we are rather less apt to concur going by our \textit{amplituding/formative–epistemicity} totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} reflex such that such notions as forgiveness/overlooking/resetting and notions of positive psychology are rather just a failure to de-mentatively/structurally/paradigmatically recognise the implied perversion-and-derived-perversion-of-reference-of-thought\textsuperscript{\textit{as-preconvergingly}} apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation\textsuperscript{97} as of our relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{84}reference-of-thought, and what we are doing then is ‘re-referencing from the same positivism–procrypticism relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{84}reference-of-thought’ and thus wrongly implying our unde-mentativity hence our untranscendability for a de-mentative/structural/paradigmatic\textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’, and paradoxically thus by implication that there is no relative-ontological-incompleteness—reference-of-thought, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology temporal/shortness-of-register-of—meaningfulness-and-teleology projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/articulated above as of de-mentative/structural/paradigmatic nature of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s reference-of-thought is inherently a metaphysics-of-presence—absolutising-identitive-constitutedness—construed as postconverging-or-dialectical-thinking—and-centered-prospective-institutionalisation’s—categorical-imperatives/axioms/registry-teleology soundness-or-ontological-good-faith/authenticity reference-of-thought that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence—construals/conceptualisations as implied by prospective relative completeness-of—reference-of-thought which rather construes it as a preconverging-or-dementing—and-decentered-prior-institutionalisation’s—categorical—
imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity -of-reference-of-thought. The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness -of-reference-of-thought and a prospective relative-ontological-completeness -of-reference-of-thought, the former is priorly invalidated into a preconverging-or-dementing-and-decentered-prior-institutionalisation’s—categorical-imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity -of-reference-of-thought by the latter as a postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s—
categorical-imperatives/axioms/registry-teleology soundness-or-ontological-good-faith/authenticity -of-reference-of-thought, invalidating by implication the logical-dueness/logical-pertinence as of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness -of-reference-of-thought with respect to its prior relative-ontological-incompleteness -of-reference-of-thought. But since we have been habituated as of our existential formation within our wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>} to be in logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by default and thus always contendingly relevant on the basis of sharing a mutual positivism reference-of-thought, we will hardly entertain though a notional~deprocrypticism cross-engagement implied invalidation of our logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and thus
rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness\(^3\) of \(^{}\) reference-of-thought construed as disjointedness-as-of-\(^{}\) reference-of-thought. But then ironically such a unde-mentativity posture could as well be adopted by a non-positivism/medievalism \(^{}\) reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking\(^0\) and-centered-prospective-institutionalisation’s–\(^5\) categorical-imperatives/axioms/registry-teleology\(^0\) with its logical-dueness for \(^2\) logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid by default. This point out that there is necessarily a central growth element of a de-mentative/structural/paradigmatic \(^{}\) reference-of-thought– categorical-imperatives/axioms/registry-teleology\(^0\)–for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology\(^0\) for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ allowing for de-mentativity and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic \(^{}\) <amplituding/formative– epistemicity> causality-as-to-projective-totalitative–implications-of-prospective nonpresencing,-for-explicating-ontological-contiguity of vices-and-impediments\(^0\) of our prior relative-ontological-incompleteness -of- reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights
arise from Dionysian dispositions and not just a reflex of looking at the presence as forever
given as it is. The bluntness of reality/ontology doesn’t recognise the mortals that we are and
we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather
bound to be much more substantive than that to avoid ‘human closure of ‘meaningfulness-and-
teleology’[00] which easily arises given our temporal-to-intemporal-conjugating-emotional-
involvement/subjectification/epistemic-totalising[1][0]self-referencing-syncretising-as-of-
perceived-social-stake-contention-or-confliction. The fact is such an articulation is not idle but
rather the requisite fervour associated with many an enlightening thought, however qualified as
impropriety, as a wooden-language⟨imbued—averaging-of-thought-

arising when we temporally carve away statuses out of the reach of ontological contention
making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any
such occasion, ontological-veridicality as of notional~deprocrypticism prospective relative-
ontological-completeness‘of’reference-of-thought is restored by doing away with
‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-
in’/preconverging-or-dementing‘apriorising-psychologism of positivism–procrypticism
meaningfulness-and-teleology[00] at its procrypticism uninstitutionalisation as of
disjointedness-as-of‘reference-of-thought from notional–deprocrypticism
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
incidenting-predicative-insights, just as we’ll appreciate that were the animists insistent say on
relating to the plane as God of plane to a point implying their potential non-transcendability as
of psychoanalytic-unshackling in due course, ‘ontological-veridicality tolerance as stretched-
truth’ is no longer warranted but a direct ‘mental break-in’/preconverging-or-dementing‘apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a
demonstration might be construed as of a simple paper plane demonstration of ontological-primemovers-totalitative-framework principles or extraordinarily a flight from the flight deck with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered meaningfulness-and-teleology is more ontologically pertinent. Certainly such a ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism demonstration with regards to our procrysticism reference-of-thought as of its disjointedness-as-of-reference-of-thought construed from a notional–deprocrysticism reference-of-thought perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights will look weird to us going by our circularly pervasive meaningfulness-and-teleology-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag procrysticism–or–disjointedness-as-of-reference-of-thought, but it is more of ontological-veridicality/intrinsic-reality even though we are unhabituated to it since it is beyond-the-consciousness-awareness-teleology existential-extrication-as-of-existential-unthought and not yet by social universal-transparency–{transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness }, just as had been the case from the perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of all the uninstitutionalised-threshold reference-of-thought with respect to the ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism of their corresponding prospective institutionalisations reference-of-thought. The bigger point being that by definition a reference-of-thought doesn’t fathom the nature and degree of its relative-ontological-incompleteness–of-reference-of-thought as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
upholding the currency in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process across-the-times; as at this point, intellectual commitment overtly meets ontology.) Explained in other terms, implying in a non-positivism social-setup that notions-and-accusations-of-sorcery are inherently vices-and-impediments as of the transcendental prospective positivism prospective relative-ontological-completeness-of-reference-of-thought will-not-be-convincing-on-a-par-with-other-argumentators in that social-setup but rather for such temporal/shortness-of-register-of-meaningfulness-and-teleology purpose requires making a ‘temporal palliation argument’ of the type oneself or another person is not involved in sorcery or a counterargument that the accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-ontological-incompleteness-of-reference-of-thought, to-be-more-convincing-on-a-par-with-other-argumentators in that non-positivism social-setup (but then all this will wrongfully validate superstition and thus fail the very point of ontology/aetiologisation/ontological-escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory-de-mentativity as intemporality-asymmetric-subsumption-of-temporality’/asymmetrisation and not a temporal extrication exercise of ‘social-aggregation-enabling as of symmetrisation-of-reference-of-thought, as this is in effect an ontologically-non-veridical-or-flawed-amplituding/formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’). Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism-and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought social referencing of meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that
any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution construed as of de-mentation—(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) by superseding the prior non-positivism prior relative-ontological-incompleteness of reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness of reference-of-thought by ‘continuous habituation going by the latter’s ontological-prime movers-totalitative-framework in the long run as superseding the prior beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought and initiating the appropriate prospective social universal-transparency—{transparency-of-totalising—entailing—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness } that will de-mentatively/structurally/paradigmatically harken back to undermine the postlogism-and-conjugated-postlogism grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought that the possibility of ‘ontologically’ and ‘not palliatively’ resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the crossgenerational resolution of our positivism–procrysticism prior relative-ontological-incompleteness of reference-of-thought as of its circular-pervasiveness in countenancing of procrysticism–or–disjointedness-as-of reference-of-thought from apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument-for-operant-or-incidenting-predicative-insights of meaningfulness-and-teleology as conceptualising, articulating and preempting such disjointing/disparateness/disentailing meaningfulness-and-teleology of our positivism–procrysticism that is the de-mentative/structural/paradigmatic resolution as of prospective relative-ontological-completeness of reference-of-thought that

The fact is by mental-reflex we relate to social meaningfulness-and-teleology by apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity which by habit or chance will often turn out to be as of existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought-devolving-as-of-instantiative-context as of the institutionalisation ambits of the domain-of-concern preceding so-established/so-institutionalised by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, and so with hardly any consequence for our methodological imprecision/inexactitude where the established/institutionalised reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology is not ontologically superseded as at uninstitutionalised-threshold. But that is technically/abstractly speaking inappropriate from an ontological-veridicality perspective requiring unassailability/reliability/dependability at uninstitutionalised-threshold. As explained elsewhere and implied above it is the conceptualising (by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation) of a reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as of apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—conflatedness that enables such a certitude at uninstitutionalised-threshold of

The implication is that postlogism /psychopathy and other human temporal phenomena (and so, across all registry-worldviews) which speak of uninstitutionalised-threshold are often wrongfully construed on the basis of intem

nature whereas the apriorising/axiomatising/referencing-(of–

and more opaque with the manifestation of adulthood psychopathy. This is an

of the visitor. This example is exactly along the lines of the 'reference-of-thought– categorical-
imperatives/axioms/registry-teleology, for-
aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology
needed for construing postlogism/psychopathy and conjugated-postlogism as of its social
model at uninstitutionalised-threshold, and so by way of maximalising-recomposuring-for-
relative-ontological-completeness—unenframed-conceptualisation (the latter is what sets up

mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—
existentialising/contextualising/textualising-contiguity which is what renders-
operant/incidenting predicative-insights). It is only then that such an established
institutionalisation framework allows for elaboration-as-to-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—
existentialising/contextualising/textualising-contiguity on the basis of the established

Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology before the institutionalisation of such a specific uninstitutionalised-threshold takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidententing-predicative-insights’ of positivism—procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or ‘disjointedness-as-of-reference-of-thought’—meaningfulness-and-teleology going by the visitor’s relative-ontological-incompleteness of reference-of-thought as of positivism—procrypticism, while the explainer of the situation has factored in notional—deprocrypticism of reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology to preempt the induced procrypticism or ‘disjointedness-as-of-reference-of-thought’—meaningfulness-and-teleology from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of notional—deprocrypticism of reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology.
to preempt the slanted inducing of procrypticism or ‘disjointedness-as-of—reference-of-thought’—as-misappropriated—meaningfulness-and-teleology and gives up on positivism—procrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold with respect to the childhood psychopathy, a new notional—deprocrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology has superseded the prior positivism—procrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration—as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism /psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism /social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality—parsimony-as-of-shoddiness-and-incompleteness—to—meaningfulness-and-teleology by
formality dynamics; with the implication of lack of social universal-transparency as the manifestation is beyond-the-consciousness-awareness-teleology at this uninstitutionalised-threshold, together with the inherent human complex of non-transcendability and hence unde-mentativity across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger de-mentative/structural/paradigmatic picture of perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation.

However, suggesting at the registry-worldview/dimension-level of analysis the ontological-veridicality/intrinsic-reality of a new notional-deprocrypticism reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology that implies that the registry-worldview/dimension is in circular-pervasiveness of procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology will meet with a mental-complex of amplituding/formative-epistemicity-totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage metaphysics-of-presence-implicated-nondescript/ignorable-void and can only arise as of a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procypticism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existentialising/contextualising/textualising-contiguity—in-reification/dereification entertains/is-cognisant-and-integrative-of/is-in-notional-contiguity/epistemic-contiguity <profound-supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking—qualia-schema>–with superstitious claims in its meaningfulness-and-teleology. implications}, in that as with all registry-worldviews/dimensions both do not contemplate of their transcendability and thus de-mentativity, and keep on relapsing into their respective non-positivism and procrypticism – reference-of-thought– categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfullness-and-teleology\textsuperscript{100} in lieu of the respective prospective positivism and notional–deprocrypticism reference-of-thought– categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfullness-and-teleology\textsuperscript{100} as of prospective relative-ontological-completeness– of reference-of-thought. This is further rendered difficult by a natural human ‘emotional involvement’ driven social-aggregation-enabling as of human condition that undermines intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory– de-mentativity. This insight equally explains the pertinence of understanding postlogism /psychopathy in general as an epiphenomenon that can provide deeper insight about human nature given its ‘lateral-and-transversality\textless for-sublimating–existential-eventuating/denouement\textgreater of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’\textsuperscript{102} disruptive nature on human ‘meaningfulness-and-teleology’\textsuperscript{100} and with the preconverging–dementating/structuring/paradigming relatively easily perceived at childhood, much like the early modern human biologists relatively simplistic but counterintuitive-as-of-their-epochs understanding of disease provided deeper insight in understanding how the complexity of the human body works. Both individuation-level understanding of postlogism\textsuperscript{78} in a non-positivism as of notions-and-accusations-of-sorcery and positivism social-setup as of psychopathy and social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism\textsuperscript{78} individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-

That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism\textsuperscript{7}/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to\textsuperscript{3} reference-of-thought–of-apriorising/axiomatising/referencing\textsuperscript{29} as undermining apriorising/axiomatising/referencing–of-existentialising/contextualising/textualising-contiguity conflatedness\textsuperscript{12} induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness\textsuperscript{89}–of-reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy’. The
explainer of the situation ‘as of its reference-of-thought–prelogism’-as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’ is in an ‘intemporality-asymmetric-subsumption-of-temporality’/asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. Hence the explainer of the situation construes the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness as of its asymmetrisation with respect to the visitor whose reference-of-thought ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought as not factoring in the childhood psychopathy postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-⟨decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the–‘attendant-intradimensional–ontologising’–imbued-contextualising/existentialising–attendant-ontological-contiguity⟩,-in-shallow-supererogation <disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>-of-reference-of-thought which is ‘pathologically ontologically-destructuring’ implying both the childhood psychopathy and the visitor are rather in a state of unsoundness-or-ontological-bad-faith/inauthenticity-as-of-reference-of-thought and not bad or poor logic such that the notion of logical-dueness doesn’t arise in the very first place, as a reference-of-thought/axiomatic-construct is fundamentally construed as of its soundness-or-ontological-good-faith/authenticity-as-of-reference-of-thought prior to the notion of logical-dueness arising once soundness-or-ontological-good-faith/authenticity-as-of-reference-of-thought is established; thus, given the asymmetrisation of the explainer of the situation reference-of-thought/axiomatic-construct as existential/ontological as of

The point here is to highlight that ‘apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )–conflatedness ’ doesn’t imply any symmetrisation of ‘meaningfulness-and-teleology’ with regards to perversion-and-derived-perversion-of- reference-of-thought<as-preconvergingly-

The operant and technical conceptualisation basis of this phenomenon has to do with the inherent nature of pure-ontology apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising—contiguity )—conflatedness\textsuperscript{12} for ontologically-veridical meaningfulness-and-teleology\textsuperscript{100} and ‘human notional—firstnatures—temporal-to-intemporal-dispositions—so-construed-as—from-perspective—ontological-normalcy/postconvergence> condition’ of reception/distortion across the cumulating/recomposuring—successive registry-worldviews/dimensions involving denaturing\textsuperscript{15} where there is ‘lack of constraining social universal-transparency’ (transparency-of-totalising-entailing, as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness ). The establishment or rather coming into being of a prospective registry-worldview/dimension institutionalisation reference-of-thought can thus be construed as of pure-ontology apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising—
contiguity) conflatedness for ontologically-veridical meaningfulness-and-teleology, and so because it is both the mechanical-knowledge as the constraining technical outcome and the non-constraining driving underlying intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, with both constituting the organic-knowledge. This transcendental knowledge construct establishes a dominant social framework of knowledge grounded on its inherent intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework (as it supersedes the prior beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, and then imbues the prospective institutionalisation with social validity and social structure of meaningfulness-and-teleology as of deferential-formalisation-transference. This is the social-setup of the prospective institutionalisation reference-of-thought as of pure-ontology apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity) conflatedness for prospective relative-ontological-completeness-of-reference-of-thought meaningfulness-and-teleology. But then in due course and at the uninstitutionalised-threshold of this prospective institutionalisation reference-of-thought, its organic-knowledge (as driven by intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) wanes as the reality of human notional-firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-

Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a ‘sense of rightness’ is all that matters before the law, and this extends to human meaningful and organisational principles in general. Such that temporal-dispositions fulfilment of such ‘mechanistic’ effectiveness as mechanical-knowledge ‘without the non-constraining and abstract organic mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the emanant-kind that-had-driven the reference-of-thought construal in the first place’ distort in due course

The statements articulated priorly (before the square brackets texts digression) speak of the reality of ‘human temporal uninstitutionalised-threshold mental-disposition’ even in our own positivism reference-of-thought registry-worldview. The Milgram experiments, a demonstration par excellence of the human condition at uninstitutionalised-threshold\textsuperscript{3} with respect to perceived-sociostake-contention-or-confliction constraints as of human limited-mentation-capacity-deepening\textsuperscript{3}, truly reflect the inherent nature of ‘human temporal uninstitutionalised-threshold’ mental-disposition’; and the deprocrypticism-driven understanding of which should rather be an avenue for a pivoting/decentering psychologism with respect to positivism–procrypticism registry-worldview/dimensions vices-and-impediments\textsuperscript{16} (just as with all previous transcendence-and-sublimity/sublimation/supererogatory de-mentativity of ‘intemporal ontological-faith-notion-or-ontological-fideism–imbued-undertetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{7}—of-the-human-institutionalisation-process\textsuperscript{3} as of difference-conflatedness –as-to-totalitative-reification\textsuperscript{7}–in-singularisation–as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing–as-veridical-epistemic-determinism <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications-of-prospective- nonpresencing–for-explicating-ontological-contiguity’, rather than a naïve metaphysics-of-presence–(implicated–‘nondescript/ignorable–void ’–as-to-presencing—absolutising-identitive-constitutedness) mental complex that only serves ‘flawed egos’ and is of no ontologically-veridical import). The point of this distinction made between the nature of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ registry-worldview’s/dimension’s reference-of-thought and ‘human temporal uninstitutionalised-threshold’ mental-disposition’ registry-worldview’s/dimension’s reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into
perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between ‘cumulated institutionalisation’ (which we carry by being secondnatured at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality /longness (which overall is no more greater than that of humans of previous <cumulating/recomposuring>-successive registry-worldviews/dimensions); and further that we are just of the same ‘human temporal uninstitutionalised-threshold mental-disposition’ as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold, which choices when of intemporality-drive solipsistic-choices are maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation leading to prospective institutionalisations. This notion of human mental-disposition and by extension meaningfulness-and-teleology as comprising, rather as a more complete and grander conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold-facet, so-construed by metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}, carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supernumerary—de-mentativity. Such metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} considerations are critically relevant in fully appreciating the
articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’), like deferential-formalisation-transference, ordered-construct, percolation-channelling-in-deferential-formalisation-transference> and transversality-for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’. Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology (as ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaningfulness-and-teleology as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existental-unthought. This points to an altogether different social relation
with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-prime movers-totalitative-framework and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling-in-deferential-formalisation-transference possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further seconndnaturizing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling-in-deferential-formalisation-transference and transversality-for-sublimating-existential-eventuating/denouement-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing. In another respect, with regards to scientific meaningfulness-and-teleology and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations
with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal wooden-language ⟨amplituding/formative⟩ meaninglessness-and-teleology as-of-‐nondescript/ignorable–void ‐with-regards-to‐prospective-apriorising-implications⟩ mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness of-reference-of-thought increasingly defer domains of meaninglessness-and-teleology more and more to formal constructs while increasingly reducing the sphere of the extended-informality ⟨susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to‐meaninglessness-and-teleology⟩ as of its free-for-all nature. The bigger point being that even in our positivism–procrypticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just
about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications> mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendentalenabling/sublimating/supererogatory de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendentalenabling/sublimating/supererogatory de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics
and human geography methods and not imagining how censuses and polls should be done but
deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge
by deferential-formalisation-transference pointing out that ‘human intemporal mental-
dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding
virtue (as of aetiology/ontological-escalation), and not ‘human temporal

dispositions and projections’. Hence the construal of knowledge construct in such domains that
are spurious and blurry as with respect to postlogism /psychopathy social implications should
as of precedence be about articulating the illuminating insight that ultimately allows for the
attainment of their own deferential-formalisation-transference based on ‘social consensus as of
relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions
and projections’, and undermining a social relations with regards to knowledge and virtue that
is based on ‘social consensus as of social-aggregation-enabling by human temporal

dispositions and projections’, and so in order to release the inherent virtue imbued in true
knowledge. The afore elucidations are mainly to point out that it is naïve to construe the
analysis of postlogism /phenomenon including psychopathy on the assumption of an overall
‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social
as of the present as metaphysics-of-presence-{implicit—nondescript/ignorable—void ’-as-to-
presencing—absolutising-identitive-constitutedness } instead of assuming a ‘human temporal
uninstitutionalised-threshold mental-disposition’ of the social by prospective metaphysics-of-absence-⟨implicated-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩, since the construal of our postlogism as of psychopathy and social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective, reflected from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence-⟨implicated-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩ we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality-drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities-drives such that it is endemised/enculturated in various temporality/shortness shades (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the wooden-language-⟨imbued–averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of–nondescript/ignorable–void '-with-regards-to-prospective-apriorising-implications⟩⟩ in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established
formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal preconverging–de-mentating/structuring/paradigming and not intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting holographically-conjugatively-and-transfusively-the ontological-contiguity—of-the-human-institutionalisation-process of institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism}, but rather the intemporal mental-disposition (intemporal-disposition) to strive as maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for base-institutionalisation to supersede recurrent-utter-uninstitutionalisation equates that striving for universalisation to supersede base-institutionalisation–ununiversalisation equates that striving for positivism to supersede universalisation–non-positivism/medievalism equates that striving for notional-deprocrypticism to supersede positivism–procrypticism; as the highest human virtue of ontological import. than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness reference-of-thought, by ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting its mental-disposition will be to unleash its maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation intemporality-drive to supersede the non-positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of existentialising/contextualising/textualising-contiguity here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought and respectively as of their divergent non-positivists dereification perspective and positivist reification perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition
going by their supernatural conception of existentialising/contextualising/textualising-contiguity
in-reification/dereification as of their prior relative-ontological-incompleteness of reference-of-thought, contrasted with the positivist naturalist conception of existentialising/contextualising/textualising-contiguity in-elucidation-or-reification as-seeking-a-cure as of its prospective relative-ontological-completeness of reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrysticism registry-worldview/dimension as of its prior relative-ontological-incompleteness of reference-of-thought, as the notion of proof/evidence is more critically tied down to existentialising/contextualising/textualising-contiguity reification as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective nonpresencing projected epistemic-immanence/veridical-epistemic-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter meaningfulness-and-teleology as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness of reference-of-thought, and thus will
‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag31; with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism1 as of reasoning-through/messianic-reasoning contortion is rather in transversality,<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’102 of the prior relative-ontological-incompleteness39 of reference-of-thought and the contorted prospective relative-ontological-completeness88 of reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness88 of reference-of-thought projection is what marks ‘transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism1 as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness39 of reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-completeness88 of reference-of-thought but for the induced crossgenerational transcendental metaphoricity57 possibility, and the contortion is more of a token as of the metaphoricity17 possibility for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and without which token contortion there is ‘no existential reference for such transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, as a gesturing of metaphoricity17 that is
‘beyond the prior relative-ontological-incompleteness\(^{89}\) of-\(^{84}\) reference-of-thought full \(^{5}\) meaningfulness-and-teleology\(^{10}\) implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity\(^{57}\) possibility for prospective relative-ontological-completeness\(^{88}\) of-\(^{84}\) reference-of-thought’; as transcendental instigation can’t be of ordinary inclination at one moment and at another moment of transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness\(^{88}\) of-\(^{84}\) reference-of-thought transcendence-and-sublimity/sublimation/supererogatory\(^{4}\) de-mentativity into the ordinariness of prior relative-ontological-incompleteness\(^{89}\) of-\(^{84}\) reference-of-thought thus psychoanalytically/ exegetically/ symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness\(^{88}\) of-\(^{84}\) reference-of-thought transcendence-and-sublimity/sublimation/supererogatory\(^{4}\) de-mentativity. Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/ axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism\(^{4}\) as of contortive metaphoricity\(^{57}\) gesturing for prospective relative-ontological-completeness\(^{88}\) of-\(^{84}\) reference-of-thought as of nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism\(^{4}\), different from asceticism\(^{1}\) as reasoning-from-results/afterthought or institutional asceticism\(^{1}\), should basically be understood as of the general notion that all human \(^{5}\) meaningfulness-and-teleology\(^{10}\) are naturally ‘correlate-aesthetic-constructs as of the various reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation in successive prior relative-ontological-incompleteness\(^{89}\) -towards-ontological-completenesss-of-deprocrypticism’ as of their specific reflection of the-very-same-immanent-

the route for ontologically-veridical human knowledge transformation and emancipation in futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—as of prospective notional—deprocrypticism is very much alien to our positivism—procrypticism cloistered-consciousness. In both instances the notion of prospective metaphoricity is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-invested ‘epistemic-totality’/ reference-of-thought/epistemic-totalising—self-referencing-syncretising/circularity conception of meaningfulness-and-teleology which effective dislodgment/displacement/decentering is as of a crossgenerational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-ontological-completeness! In fact such an insight can be extended across ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective nonpresencing—as-veridical-epistemic determinism <amplituding/formative—epistemicity> causality—as-to-projective-totalitative—implications-of-prospective nonpresencing—for-explicating-ontological-contiguity to imply that the state of recurrent-utter-uninstitutionalisation is cognisant of emancipation but doesn’t anticipate that emancipation as of prospective relative-ontological-completeness is rather as of base-institutionalisation reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation, and likewise the latter doesn’t anticipate the universalisation reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation, with the latter not anticipating our positivism reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation which itself
naivety. We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions of reference-of-thought is rather one that shouldn’t wrongly be reinforcing/propping-up the human subject as if a given reference-of-thought in prior relative-ontological-incompleteness as of dissingularisation—as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemic-determinism has its very own complete transformative and emancipative potential as if of fully-attained singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism, but an ontologically-veridical psychology rather warrants implying the human subject displacement/decentering as the de-mentative/structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-incompleteness registry-worldviews/dimensions superegoic vices-and-impediments; wherein postconverging-or-dialectical-thinking—apriorising-psychologism reasoning-from-results/afterthought reproducibility—mathesis/motif/thrownness-disposition,–as—reproducibility-of-aestheticisation at its uninstitutionalised-threshold is construed as preconverging-or-dementing—apriorising-psychologism as of prospective postconverging-or-dialectical-thinking—apriorising-psychologism reasoning-through/messianic-reasoning reproducibility—mathesis/motif/thrownness-disposition,–as—reproducibility-of-aestheticisation up to the prospective ontologically-uncompromised—referentialism of deprocripticism. As of its inherent organic knowledge, such a hermeneutic/reprojecting/supererogating/zeroing psychology parrhesiastic articulation as herein ‘doesn’t do gimmicks of communication’ as if to imply any favour whatever as of ‘emotional or whatever feel-good trading for the appreciation of the possibility for prospective human emancipation’, since by its ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ it is beyond the idea of convincing for convincing sake as it is simply ‘a blunted eliciting of a solipsistic sense of
intemporal/longness-of-register-of–'meaningfulness-and-teleology' projection in any human and no more’ with no point going beyond that point as it then becomes as of intellectual-and-moral apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity<shallow-supererogation>-of-mentally-aestheticised–preconverging/dementing–qualia-schema>; and so, as its essential meaningfulness-and-teleology is as of a solipsistic transversality–<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ reflection of the ontologically ‘superior party’ that is intrinsic-reality/ontological-veridicality/existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <--as-to-perspective–ontological-normaley/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> in its ecstatic singularity, on the same token that a natural scientist is in a transversality–<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ reflection of its object of study as of existence as the ontologically ‘superior party’ without any need to be involved in any bogus exercises that may imply that gravity may not be 9.8 m/s² on earth if any given human subject isn’t accommodated for in some way somehow however faintly, be it that it may be the case that gravity is not 9.8 m/s² but that as well needs to be established as of the ontologically ‘superior party’ that is existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <--as-to-perspective–ontological-normaley/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> as of ontological-primemovers-totalitative-framework. But then the human reality across all registry-worldviews/dimensions, isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its uninstitutionalised-threshold and the corresponding superseding of this as of prospective
institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed reproducibility—mathesis/motif/thrownness-disposition,—as—reproduci-bility-of-aestheticisation’ of human \(<\text{amplituding/formative–epistemicity}>\text{totalising/circumscribing/delineating}\) meaningfulness-and-teleology\(^{10}\)/ reference-of-thought- devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-dialectical-thinking —apriorising-psychologism’ prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-dementing\(^{19}\)—apriorising-psychologism uninstitutionalised-threshold\(^{19}\) which it tends to represent as nondescript/ignorable–void \(^{1}\) (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing\(^{12}\)-narratives), for the possibility of its prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into prospective institutionalisation. This reality is known as human ‘supererogatory–de-mentative constraint’ to prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of the possibility of prospective relative-ontological-completeness\(^{8}\) of-reference-of-thought. Human supererogatory–de-mentative constraint is fundamentally associated with poor\(^{104}\) universal-transparency\(^{45}\) \(<\text{amplituding/formative–epistemicity}>\text{totalising—in-relative-ontological-completeness}\) with respect to social-stake-contention-or-confliction at uninstitutionalised-threshold\(^{103}\). This then fails to induce the necessary existential assurance for prospective
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology } as of the prior institutionalisation’s 84 reference-of-thought—categorical-imperatives/axioms/registry-teleology 100 that stifle the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness-of-reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness 89, for resolving a given registry-worldview/dimension vices-and-impediments 106; this notion of human supererogatory-de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied by a ‘postconverging-or-dialectical-thinking–psychology or psychology-omentum-dynamics or natural-psychological-dynamics’ that emphasises the ‘Lacanian subject’ growth as of 14 de-mentation-(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics), rather than a second-guessing mented or stigmatic psychology that fails to integrate the decisively ontological transformative implications of human psychology as of underlying relative-ontological-incompleteness 89 and relative-ontological-completeness 88 reference-of-thought 4<amplituding/formative—epistemicity>causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity 71, and thus making the given presence 2163

In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > -as-flawed-epistemic-determinism implied as of dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemic-determinism that in many ways ignores/overlooks existentialising/contextualising/textualising-contiguity knowledge-reification as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism; and so, as of their ‘formalisation credo as identitive-constitutedness’-as-‘epistemic-totality ’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > -as-flawed-epistemic-determinism’ thus leading to a disposition that considers knowledge as an exercise of mere conceptual patterning inherently validated by formalisations on the basis of
elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity\textsuperscript{10} without the constraint of existentialising/contextualising/textualising-contiguity\textsuperscript{10} knowledge-reification\textsuperscript{10} as of existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation \textless as-to-perspective—ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming'> as its very own transcendental signifier which ultimately manifestly-as-inherently enables transcendence-and-sUBLIMITY/sublimation/supererogatory—de-mentativity as the very essence of knowledge. This has led in many ways to a dissonance between their knowledge productivity implications and existential reality wherein for instance psychological and psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care–and–episteme\textsuperscript{5}. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity\textsuperscript{10}. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already precedingly/supersedingly as of ‘ecstatic totalising-entailing/nested-congruence’, with the consequence that it naively construes of reification\textsuperscript{10} as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-
entailing/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing and producing relatively ontologically-flawed meaningfulness-and-teleology.

Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness and producing relatively ontologically-flawed meaningfulness-and-teleology.

Whereas the analytic tradition posture as with ‘speech act’ gives precedence to logical-commitment as reflected in its atomising/taking-to-pieces formalisation approach (implied as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity\(^{1}\)) geared towards identitive-constitutedness\(^{1}\)–as–‘epistemic-totality’\(^{16}\)–dereification\(^{17}\)–in-dissingularisation–as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > as-flawed-epistemic-determinism\(^{4}\), which by the token of working by atomising/taking-to-pieces formalisation on specific aspects or specific interpretation as of formalisation construct ignores/overlooks ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as the veridical supposedly coherent ontological-commitment\(^{7}\)<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–dementating/structuring/paradigming –as-being-as-of-existential-reality> in want of existentialising/contextualising/textualising-contiguity knowledge-reification\(^{57}\) for knowledge as ontologically-veridical \(^5\) meaningfulness-and-teleology\(^{10}\), as can be validated and falsified by ontological-primemovers-totalitative-framework\(^{13}\) <amplituding/formative–epistemicity>–causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,–for-explicating-ontological-contiguity\(^1\). This fundamental difference of conceptualisation very often underlies the disagreements between the analytic philosophical orientation and other philosophical traditions, in the sense that while the latter might be
implicitly implying supposedly coherent ontological-commitment \(<\text{implied—self-assuredness-of-ontological-good-faith/authenticity} \sim\text{postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality}>\) about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ when making its argument, the former will tend to be making a logical-commitment argument as of formalisation construct that ignores/overlooks-and-hence-is-poorly-constrained to the precedence/supersedingness/ascendency of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ in need of existentialising/contextualising/textualising-contiguity\(^{19}\) knowledge-reification\(^{37}\) as of ontological-primemovers-totalitative-framework\(^{23}\) \(<\text{amplituding/formative—epistemicity—causality—as-to-projective-totalitative—implications-of-prospective-nonpresencing,—for-explicating-ontological-contiguity}>\) and goes on to naively deploy outside existentialising/contextualising/textualising-contiguity\(^{19}\) knowledge-reification\(^{37}\) such logic notions like non-sequitur, fallacies, etc. and/or mere categorising denotative/connotative formalisations in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)\(^{39}\) constitutedness\(^{13}\) as ends in themselves, rather than construing logic as of the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ of supposedly coherent ontological-commitment \(<\text{implied—self-assuredness-of-ontological-good-faith/authenticity} \sim\text{postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality}>\) for knowledge elucidating/reifying which validation and falsifiability\(^{19}\) is rather a matter of ontological-primemovers-totalitative-framework\(^{23}\) \(<\text{amplituding/formative—epistemicity—causality—as-to-projective-totalitative—implications-of-prospective-nonpresencing,—for-explicating-ontological-contiguity}>\). The fundamental point here is that logic (reflected by the atomising/taking-to-pieces formalisation approach) is instead the ‘inner
working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of Being and beings as reflected in first-level ontology and second-level ontologies, and logic cannot derive the superseding/preceding ecstatic existential veridicality of Being and beings which validation and falsifiability is ever always a matter of ontological-primemovers-totalitative-framework. With the very blurry nature of the social, even with the best of intentions as when continental philosophers try to engage the analytic tradition, the experience has often turned out poorly given the failure to explicitly grasp/appreciate the conflicting implications of their differing knowledge commitments as of supposedly coherent ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> implied ecstatic-totalising-entailing/nested-congruence with the former and logical-commitment implied atomising/taking-to-pieces formalisation with the latter; even as going by conceptual-patterning—(as-devoid-of—existentialising/contextualising/textualising-contiguity’s—reifying-or-elucidating—of—prospective-relative-ontological-completeness—rather-enabled—by—a—nonpresencing—divulging—of—momentous—historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence—reflected—‘epistemicity—relativism’>), it can be naively implied that similar conceptual wordings imply similar knowledge commitments and operant articulations. In the same vein, one can say that notions like spacetime, force, atoms, etc. in the physics—<amplituding/formative—epistemicity—totalising—devolved—purview/domain-of-construal—as-intrinsic-reality/ontological-veridicality/existential-reality—are inherent supposedly coherent ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-ofexistential-reality> about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ that are in need of existentialising/contextualising/textualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework—<amplituding/formative—epistemicity—causality—as—to—projective—totalitative—implications—of—

Even mathematics it is often underestimated works rather on supposedly coherent ontological-commitment — implied—self-assuredness-of-ontological-good-faith/authenticity ~ postconverging—de-mentating/structuring/paradigming — as-being-as-of-existential-reality as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, as of the existentialising/contextualising/textualising-contiguity knowledge-reification constraining implications of its ‘equal sign’, speaking of a self-conscious awareness that calculations should reflect-and-be-constrained as per calculations operative validation and falsifiability with regards to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and with mathematical logic as of mathematics supposedly coherent ontological-commitment — implied—self-assuredness-of-ontological-good-faith/authenticity ~ postconverging—de-mentating/structuring/paradigming — as-being-as-of-existential-reality ‘concurrent formatting as formalisation’ being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ towards that purpose. Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficulty be
said with regards to the overall atomising/taking-to-pieces formalisation approach as of its 
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag presumption; which strangely enough has 
been subjected to no less than five major successive internal indictments but still keeps up its 
operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an 
in-built institutional grip might be in many ways inducing diversion of intellectual and 
scholarly resources from a more profound advancement of philosophy for greater human 
transformation implications. It is important to grasp here that ‘axiomatic-construct construal of 
ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of 
existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s 
‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-
nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then 
human experience-and-interpretation of that ecstatic manifestation of existence’ that provides 
the ‘apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument as axiomatic-
construct’ insight about supposedly coherent ontological-commitment ~<implied—self-
assuredness-of-ontological-good-faith/authenticity ~postconverging–de-
mentating/structuring/paradigming –as-being-as-of-existential-reality> articulated as 
‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not 
mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-
existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead 
reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-
existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of 
explicated/implicated coherence/contiguity with another/other ‘transversally devolving-or-
complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct 
construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions
like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment-implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging-de-mentating/structuring/paradigming—as-being-as-of-existential-reality> in producing knowledge as meaningfulness-and-teleology; such that critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal day to day experience about living itself’ as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to ontological-primemovers-totalitative-framework, and so because such well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’ in the philosophical domain-of-study is generally more ontologically profound and comprehensive as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a totalising-entailing apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness demand on human living experience for the inspired construing of ‘the ecstatic manifestation of existence and then
human experience-and-interpretation of that ecstatic manifestation of existence’ than other
more specific domains-of-study for which ad-hoc and focussed domain study methods are
pervasively decisive for ontological pertinence. But then this is more a question of ‘expanded
onticising construal of existence as of \(<\text{amplituding/\textit{formative–epistemicity}>\text{totalising–devolved purviews of existence so-construed as subject-matters/domains-of-study}}\)’. The ontological-veracity and epistemic-veracity of all such
\(<\text{amplituding/\textit{formative–epistemicity}>\text{totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality}\) are effectively as of the very same underlying congruent philosophical domain-of-study construal of ecstatic manifestation of existence but for their ‘onticising specifisms of existence’s ecstatic manifestation’; as so-implied as of overall existence metaphoricity\(^7\)/ecstasy reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility \(-(\text{imbued-and-\textit{hermeneutically/reprojectively/supererogatingly/zeroingly-educing}–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising–re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation})\) as of supervening-confatedness\(^{12}\). Knowledge as \(^{5}\)‘meaningfulness-and-teleology\(^{10}\), whether of underlying ontological-construal or ontical-construal, is epistemically validated as of supposedly coherent ontological-commitment \(<\text{implied—self-assuredness-of-ontological-good-faith/authenticity} \sim \text{postconverging–de-mentating/structuring/paradigming} \sim \text{as-being-as-of-existential-reality})\) as reflected by ontological-prime-movers-totalitative-framework\(^{21}\). Inherently, because human-subpotency supposedly coherent ontological-commitment \(<\text{implied—self-assuredness-of-ontological-good-faith/authenticity} \sim \text{postconverging–de-mentating/structuring/paradigming} \sim \text{as-being-as-of-existential-reality})\) is very much intimately linked with the ontological-performance\(^{27}\)-<\text{including-virtue-as-ontology}> of human as of prospective relative-ontological-completeness\(^{14}\) appraisal, it is always ever the case that as of human \(<\text{amplituding/\textit{formative–epistemicity}>\text{totalising—thrownness-in-existence}}\) the

apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-

as ontological-primemovers-totalitative-framework arises as of the ‘basic and mere
mimicking and deployment’ of supposedly science approaches and methodologies on the naïve
assumption that their mere deployment is inherently of epistemic-veracity, such that such
deployment when it undermines the ‘inherently nested-congruence of the-very-same-immanent-

extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—
existentialising/contextualising/textualising-contiguity\(^9\). Rather any such science approaches and methodologies striving to validate knowledge as \(^{10}\) meaningfulness-and-teleology \(^{10}\) by the supposedly coherent ontological-commitment \(^{10}\) implied—self-assuredness-of-ontological-good-faith/authenticity \(^{10}\)—postconverging—de-mentating/structuring/paradigming \(^{10}\) as-being-as-of-existential-reality\(^{10}\) reflected by ontological-primemovers-totalitative-framework \(^{10}\) as to existence-potency \(^{10}\)—sublimating—nascence—disclosed-from-prospective-epistemic-digression, is necessarily instigated as from a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. Insightfully, while in many ways such an elucidation hardly needs to be explicited in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of ontological-primemovers-totalitative-framework \(^{10}\) as to existence-potency \(^{10}\)—sublimating—nascence—disclosed-from-prospective-epistemic-digression, this unexplicited implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and
methodologies in nested-congruence with existentialising/contextualising/textualising-contiguity as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness; so-implied as of their supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming —as-being-as-of-existential-reality> reflected by ontological-primemovers-totalitative-framework as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression. In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specifisms of existence’s ecstatic manifestation’ as of the <amplituding/formative–epistemicity>totalising—devolved—purview—as-domain-of-construal—as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of ontological-primemovers-totalitative-framework will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-superseding–oneness-of-ontology—implied-as-of-inherent-existence-coherence/contiguity,—and-so—construed—as-the-enabler-of-insight—or-intuition—or-foresight—as-of-embodied-consciousness’ is very often incomplete, of-divvied-theorisation and/or ‘poor coherence of theorisation with operant approaches and methodologies’, when it comes to many a social domain-of-study; as quite often theorisation in many a social domain-of-study strives on disparateness, rather than a tendency to ‘ontological-primemovers-totalitative-framework as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression enforced’ unifying coherence as in many a natural science domains-of-study, with the consequence that studies are often aloof to direct
existentialising/contextualising/textualising-contiguity” knowledge reifying exercise as of a tendency to technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-setups de-mentatively/structurally/paradigmatically stifle the possibility for conceptualisation as to existence-potency ~ sublimating–nascence, - disclosed- from-prospective-epistemic-digression sublimating-validation/desublimating-invalidation implications, beyond their conventioning-referencing <preconverging–‘motif-and- apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness {as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition}.

Ultimately the bigger issue arises as of the poorly-singularised/poorly-immanented nature of many a social domain-of-study unlike the grand singularised/immanented totalising/circumscribing/delineating ‘amplituding/formative–epistemicity’ reference-of-thought devolving foregrounding—entailment (postconverging–narrowing down–sublimation-as-to-‘existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ’ in-reflecting–immanent-ontological-contiguity ’; as-operative- notional–deprocrypticism)’ that are actually actively sought in the natural sciences; and this author portends that the suprastructuralism/postmodernism as of notional–deprocrypticism ontology as ‘true-ontology—of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology’ holds the promise for such effective grand singularised/immanented social conceptualisation that doesn’t dodge/ignore/disregard outstanding questions about the human existential reality including de-mentative/structural/paradigmatic biases arising beyond-the-consciousness-awareness-teleology - <in-existential-extrication-as-of-existential-unthought> as of human emotional-involvement and sophistic/pedantic distortion of perception of reality so- implied in our present positivism–procrypticism ‘attendant-ontology—as-of-conventioning-referencing’
and just as well when ‘science-ideology’ seem to subvert and undermine science-in-practice. Worst still while in effect the idea of specialisation in many a natural science domain is often the natural progression of a ‘comprehensively elucidated/reified’ foregrounding—entailment (postconverging—narrowing-down—sublimation-as-to—existence—as-sublimating-withdrawal—eliciting-of-prospective-supererogation—in-reflecting—immanent-ontological-contiguity—as-operational—deprocripticism) of the given natural science domain-of-study’ with specialism more of a furtherance of such a scheme in a strong arborescent syncing with the subject-matter general-theoretical-level, in many such social domain-of-study of disparateness-of-conceptualisation—unforegrounding-disentailment—failing-to-reflect—immanent-ontological-contiguity (including some science domains as well which naively tend to draw comprehensive social and human implications of their studies) the drawback to such specialisms is often associated with ‘major interpretative loopholes at the general-theoretical-level of the subject-matter’ with regards to the knowledge-reification implications of supposedly specialisation domains and their studies since such an approach fails to effectively validate its methodological and conclusive implications with respect to the subject-matter general-theoretical-level implied ontology as of the subject-matter specific epistemic-conception phenomenal/manifest—subpotency—in-transitive-conflatedness—reflexivity—in-the-full-potency-of-existence’s—sublimating—nascence as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—(imbued-and—hermeneutically/reprojectively/supererogatingly/zeroingly-educing—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising—re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation) so-reflected in its philosophical
depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. This weakness is often reflected in naïve use of statistics and methods as well as drawing out conclusions based rather on ordinary average-thinking interpretation as of human-subpotency ‘rather than interpretations and conclusions ensuing naturally and arborescently as from existence-potency $^{38}$~sublimating–nascence,–disclosed-from-prospective-epistemic-digression knowledge-reification $^7$ implications derived from the general-theoretical-level of the subject-matter as reflecting ontological-contiguity$^{67}$, whereas this is ever always the case with good practice in the natural sciences and just as well as with an increasingly self-conscious social science as specifically upheld by postmodern-thought. For instance, the internal-coherence/nested-congruence speaking of the underlying $^4$ foregrounding—entailment{postconverging–narrowing-down~sublimation-as-to–existence—as-sublimating-withdrawal,–eliciting-of-prospective-supererogation ’-in-reflecting–‘immanent-ontological-contiguity ’;–as-operative-notional~deprocrypticism} implications articulated herein in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity$^{67}$—of-the-human-institutionalisation-process$^{68}$ can be garnered by the fact that all the knowledge-reification $^7$ herein implied arises as of the very same underlying ‘objectifying cogent unifying process and gesturing’ as from ‘prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> reflection of <amplituding/formative–epistemicity> causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity of relative-ontological-incompleteness /relative-ontological-completeness’{(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating–<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-

lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of existentialising/contextualising/textualising-contiguity\(^{10}\) apriorising/axiomatising/referencing- (of–existentialising/contextualising/textualising-contiguity )—conflatedness\(^{12}\) that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring-threshold-(uninstitutionalised-threshold /presublimating–desublimating-decisionality)-of-ontological-performance -<including-virtue-as-ontology> to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature thus overcoming underlying logocentrism as of prospective relative-ontological-completeness transcendentaland-sublimity implications, and thus reflecting the fact that human knowledge is more
completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness\(^7\) and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness\(^8\) as of the amplituding/formative-epistemicty causality-as-to-projective-totalitative-implications-of-prospective-

It is thus not surprising that naive disparateness-of-conceptualisation-\(<\text{unforegrounding-disentailment,-failing-to-reflect-'}\text{immanent-ontological-contiguity}\>\)> leads to subject-matters and studies whose supposed knowledge-reification tend to be most heavily dependent on ‘peering to a fault’ of the attendant-ontology—as-of-conventioning-referencing of institutional-being-and-craft that is poorly constrained to existential-reality, rather than a peering process that is heavily constrained to existential-reality as of underlying supposedly coherent ontological-commitment \(<\text{implied—self-assuredness-of-ontological-good-faith/authenticity}\>\text{—postconverging-de-mentating/structuring/paradigming—as-being-as-of-

development of successive theories say Cartesian, Newtonian, Einsteinian, String theory, etc. using the very same notions and derived-notions but with different implications. This <amplituding/formative–epistemicity>totalising/circumscribing/delineating nature of all domains-of-study in existentialising/contextualising/textualising-contiguity apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness as of <amplituding/formative–epistemicity>causality-as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating–ontological-contiguity, speaks of the epistemic-veracity of the fact that ‘all knowledge is truly developed as of a hermeneutic/reprojecting/supererogating/zeroing circle for relative-ontological-completeness’ that involves human limited-mentation-capacity-deepening. This hermeneutic/reprojecting/supererogating/zeroing circle knowledge-reification process/gesturing is furthermore reflected in both human scholarly-and-pedagogic exercise wherein subject-matters/domains-of-study are grasped in successive articulations of deeper and deeper hermeneutic/reprojecting/supererogating/zeroing insight as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. The implication here is that postmodern knowledge-reification process/gesturing simply integrates this notion in the sense that top-level postmodern scholars articulate their knowledge-reification process/gesturing at its ‘appropriate hermeneutic/reprojecting/supererogating/zeroing circle level of postmodern knowledge-reification’ no different from say top-level physicists and natural scientists articulating their knowledge-reification process/gesturing at their ‘appropriate hermeneutic/reprojecting/supererogating/zeroing circle level of top-level physics/natural-science knowledge-reification’. In both instances, the knowledge-reification process/gesturing implies that the scholar or student striving to engage at that top-level understanding, needs to grasp the ‘preceding formative/pedagogic
hermeneutic/reprojecting/supererogating/zeroing circle levels of knowledge-reification’. Such a supposed scholar or student cannot depart from ordinary/banal wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications} level of knowledge conception to then claim that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojecting/supererogating/zeroing circle of knowledge-reification process/gesturing should be directly and fully graspable to it as of a wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications} predisposition to  incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation. The fact is the various pedagogic hermeneutic/reprojecting/supererogating/zeroing circle levels of any subject-matter/domain-of-study as of successive maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation are meant to transmit a ‘totalising/comprehensive organic-attitude-to-knowledge which is much more than just its technical knowledge veracity’ and that ‘totalising/comprehensive organic-attitude-to-knowledge’ is needed together with the induced technical dispensation of the lower hermeneutic/reprojecting/supererogating/zeroing circle of pedagogic knowledge-acquisition to then be able to engage with the higher/top-level scholarly/pedagogic hermeneutic/reprojecting/supererogating/zeroing circle of knowledge-reification in its maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. It is important to understand here that the top-level physics/natural-
science/postmodern-thought hermeneutic/reprojecting/supererogating/zeroing circle of knowledge-reification\textsuperscript{57} process/gesturing cannot strive to engage the supposed scholar or student at any such ordinariness/banal \textsuperscript{amplituding/formative} wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>} level of knowledge conception, and implicated in its knowledge-reification\textsuperscript{57} gesturing/process is the notion that the prior/all-the-prior hermeneutic/reprojecting/supererogating/zeroing circle level(s) of the subject-matter/domain-of-study need to be grasped beforehand; and this is basically because such a top-level is imbued with fundamental and new knowledge-reification\textsuperscript{57} priorities. While in many ways the unblurred\textsuperscript{7}/sharply-delineated nature of the natural sciences renders such a ‘hermeneutic/reprojecting/supererogating/zeroing circle of levels of understanding’ more or less very transparent, with regards to the blurriness\textsuperscript{7} of the social such a postmodern-thought ‘hermeneutic/reprojecting/supererogating/zeroing circle of levels of understanding’ rather requires increasing familiarisation, habituation and contemplation with regards to such critical texts and analyses (and as is particularly necessary with regards to the ‘parrhesiastic nature of philosophy that is behind the engendering/parrhesiastic-aestheticisation of underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation and thereof derived domains-of-study reified-knowledge as from the underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’, and one’s intemporal solipsistic level of parrhesiastic contemplation is itself a decisive element for the capacity to appreciate-and-understand philosophical thought more than just an issue of technical acquisition of philosophical knowledge as of mere knowledge mathesis/motif/thrownness-disposition). More critically, social and philosophical knowledge are no different from any other type of
knowledge subject to ontological-prime-movers-totalitative-framework as of inherent existence/ontological implications, as fundamentally requiring contemplative reification arising with human limited-mentation-capacity-deepening, with the implication that any philosophical, historical and social conception of knowledge is not an imprimitur totalisingly-disentailing—discretion/whim-of-thought exercise on the basis of ‘relic-or-orthodoxy knowledge’ induced disparateness-of-conceptualisation<-unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’ but rather implying a furtherance of the overall hermeneutic/reprojecting/supererogating/zeroing exercise involved in the advancement of all human knowledge as of <amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought, wherein all such knowledge-reification is a hermeneutic/reprojecting/supererogating/zeroing circle involving: the analyst’s/philosopher’s baseline re-originary-as-unenframed/unbeholdening/outlier-conceptualisation (imbued-postconverging/dialectical-thinking -’projective-insights’/’epistemic-projection-in-conflatedness ‘-of-notional-deprocrypticism-prospective-sublimation) up-to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications whether say with a natural science domain like hereditary as of its given specificity or philosopher’s thought as of the general ontological comprehensiveness of philosophical thought; to then credibly analyse the coherence of the given prior contribution on the basis of the analyst’s/philosopher’s baseline re-originary-as-unenframed/unbeholdening/outlier-conceptualisation (imbued-postconverging/dialectical-thinking -’projective-insights’/’epistemic-projection-in-conflatedness ‘-of-notional-deprocrypticism-prospective-sublimation) up-to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications as to what it brings and reflects about current knowledge-reification; and then the analyst’s/philosopher’s reflection on the shortfall in the ontological-performance <including-
virtue-as-ontology> of the given prior contribution while reflecting the epochal constraints for such a shortfall going beyond a construal of the given prior contribution as mere ‘relic-or-orthodoxy knowledge’; and finally, the analyst’s/philosopher’s conceptual interpretation as its prospective contribution that is subject to validation and falsifiability as of inherent existence/ontological implications thus amenable to foregrounding—entailment
(postconverging–narrowing-down–sublimation-as-to–‘existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ’-in-reflecting–‘immanent-ontological-contiguity ’;–as-operative-notional–deprocrypticism) with other so-constructed knowledge-reification, that are well beyond a disparateness-of-conceptualisation<unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity’> orientation driven by the cultivation of mere imprimatur totalisingly-disentailing—discretion/whim-of-thought ‘relic-or-orthodoxy knowledge’ disposition. It is important to appreciate here that a history of postmodern-thought criticism driven by populism, media operations, false intellectual engagement and ontological-bad-faith/inauthenticity, is particularly telling not about postmodern thinkers knowledge-reification epistemic-veracity but rather ‘the knowledge-reification epistemic-veracity of such critics who often pride themselves on not understanding postmodern-thought then by a strange paradox have the knowledge to produce a profound criticism of postmodern-thought which they supposedly do not understand’. Even more critically, the question can be raised whether such critics profoundly appreciate the overall human knowledge-reification process/gesturing as herein articulated, and whether this very fact isn’t linked to the knowledge-reification methodological difficulties arising in many social domains-of-study ‘assuming a disparateness-of-conceptualisation<unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity’> epistemic-disposition that is in many ways poorly constrained to existential-reality’ with the result of their relative knowledge-reification passivity with regards to many a social issue ‘but for adventures into social commentary
divorced from genuine operant knowledge-reification’s implications; and in this regards could it be that the true ‘unsaid issue with suprastructuralism/postmodern-thought’ lies with its parrhesiastic emphasis on the displacement/decentering-of-the-human-subject for the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected existentialising/contextualising/textualising-contiguity in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness, an issue that has always been a difficult knot throughout the ontological-contiguity—of-the-human-institutionalisation-process but which inevitably has to be dealt with for the possibility of prospective human registry-worldview’s/dimension’s institutionalisation. Such weaknesses manifested by many a postmodern critic fundamentally points to an atomising/taking-to-pieces predisposition that poorly appreciates the <amplituding/formative–epistemicity> causality—as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity involved in knowledge-reification, and is reflected in a lack of parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight that ‘poorly grasp the philosophical analysis implications of the existential background/development of becoming-as-historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>, as if philosophy only started as of our present positivist era with a naivety that seems to imply that all-that-should-have-been,-that-is-and-that-will-be,-as-of-the-human-potential is as of a modern positivist <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of–‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications—}} in its given reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—
reproducibility-of-aestheticisation with no or poor insight of prior-and-prospective human becoming as of existentialising/contextualising/textualising-contiguity in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness; and so when it generally comes to analysing philosophical texts requiring a sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight. This lack is quite often reflected in such misconstrued analyses of traditional philosophical figures by a failure to understand the overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to identitive-constitutedness as-‘epistemic-totality’-dereification—in-dissingularisation—as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > as-flawed-epistemic-determinism ending up quite often claiming the incoherence of such figures and/or of their narrative accounts, and so in a ‘naïve insight’ arising exactly because the possibility for understanding requires the critic’s own parrhesiastic insight and then hermeneutic/reprojecting/supererogating/zeroing conceptualisation to then develop the capacity to grasp first of all such traditional philosophical figures underlying knowledge-reification process/gesturing and thus be able to understand how such knowledge-reification process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of narrated accounts and notions but equally insight about the nuanced and covertly narrated accounts and notions, and all these while being informed by the immediate and broader underlying social background and implicated social and philosophical stakes of contention-and-confliction. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing analytical insight actually converges with the epochal philosophical implications of existentialising/contextualising/textualising-contiguity in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity—
contiguity—and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but de-mentatively/structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability and validation in determining ontological-veracity as of a critical exercise of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. In this regards, such hermeneutic/reprojecting/supererogating/zeroing and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel universalising-idealisation that ‘runs-through/is-deflating’ by its evental -instigation traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic-philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning-as-devoid-of–existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of–‘prospective-relative-ontological-completeness’,-rather-enabled—by-a- nonpresencing-
divulging of momentous historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’> as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic-philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern-day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism–imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dimensionality-of-sublimating

{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} that then feeds into prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation; emphasising as of any given registry-worldview’s/dimension’s specific limited-mentation-capacity that knowledge ‘more profoundly lies with the knowledge-
reification\textsuperscript{87} gesturing and organic implications’, just as we cannot simplistically interpret the importance of Aristotelian science in terms of its constitutive elements as earth, water, air, fire and aether on a naïve\textsuperscript{80} presencing—absolutising-identitive-constitutedness basis from the vantage perspective of our modern positivism (as being at the receiving backend of the institutional-cumulation/institutional-recomposure-\langle as-to-\textit{historiality/ontological-eventfulness} /\textit{ontological-aesthetic-tracing-<perspective–ontological-normaley/postconvergence-reflected-<epistemicity-relativism’>}\rangle in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{18}—of-the-human-institutionalisation-process\textsuperscript{88}) but rather the more critical insight lies with its novel and transformative\textsuperscript{10} universalising-classificatory knowledge-reification\textsuperscript{87} gesturing as opening up the possibility for prospective human reconceptualisation of science providing the backdrop from which modern science took off from the medieval times to the present. Likewise, the transformative nature of budding-positivism more than just as garnered from the precised narrative accounts about budding-positivist thinkers, lies more profoundly with its \textit{meaningfulness-and-teleology}\textsuperscript{108} infrastructure impact on the developing enlightenment social developments and as this budding-positivism metaphoricity\textsuperscript{57} epistemericicochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a
most natural sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification for prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’. In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social domain-of-study and even some of the natural sciences as of naïve science-ideology, and so because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-existence-implications there need to be ‘human intemporal contemplation that abstractly lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of meaningfulness-and-teleology infrastructure’, something which a ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ as of a

inversely-varying-emphasis of originariness-parrhesia,—as—spontaneity-of-aestheticisation and
reproducibility—mathe/smotif/thrownness-disposition,—as—reproducibility-of-aestheticisation
(so-construed as of ‘high/low parrhesiastic-pressure-of-aestheticisation’ with respect to

meaningfulness-and-teleology 100’), reflecting the ‘more and more profound enlarging-
framework of reproducibility—mathe/smotif/thrownness-disposition,—as—reproducibility-of-
aestheticisation’. For instance with regards to living-development–as-to-personality-
development  
meaningfulness-and-teleology 100, human aestheticisation is reflected in
childhood to adulthood social development wherein a child’s development as of its
‘existentially developing/becoming-as-of-social-integration-and-evolving relevant
meaningfulness-and-teleology 100’ involves initially a more direct focus on instant-sensations-
and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness⁻by-reification⁴/contemplative-distension⁵ in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness⁻by-reification⁴/contemplative-distension⁵ as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development—as-to-personality-development human aestheticisation of meaningfulness-and-teleology⁶ (‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’) in existentialising/contextualising/textualising-contiguity⁹ apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising-contiguity)—confiliatedness¹² involving ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought’ always entails the three human aestheticisation manifest elements: ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’. This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility
achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-
aestheticisation for social-integration-and-evolving’ already speaks of the
‘hermeneutic/reprojecting/supererogating/zeroing reactualising as $<$amplituding/formative–
epistemicity$>$totalising–renewing-realisation/re-perception/re-thought’ long before a child’s
language acquisition achievement recognition, schooling achievement recognition, greater
social autonomy and responsibility achievement recognition, etc. More specifically we can thus
factor in that language as formally defined, and so specifically as this reflects a particular
phonic/written signification construct, is rather in reality the ‘teleological
outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-
incrusting/plating/coating-as-institutional-manifestation’ of a rather ‘complex sense of
meaningfulness-and-teleology aestheticisation’ induced from a ‘high parrhesiastic-pressure-

‘hermeneutic/reprojecting/supererogating/zeroing reactualising as $<$amplituding/formative–

child’s ‘recognised’ acquisition of any such ‘language-as-phonetic/written-signification-
construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-
incrusting/plating/coating-as-institutional-manifestation’, as the child already has a ‘complex
sense of meaningfulness-and-teleology aestheticisation’ before its ‘recognised’ acquisition
of ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-
historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-

rather secondary-and-prolongative of the child’s evolving underlying human ‘complex sense of
meaningfulness-and-teleology aestheticisation’ as of its ‘high parrhesiastic-pressure-of-
aestheticisation for social-integration-and-evolving’. It is this underlying ‘complex sense of
meaningfulness-and-teleology’ that is truly of ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant

apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness (and as it may then be reflected in practice with regards to its

The manifest reality of human ontologisation/ontological-veracity/aestheticisation-towards-ontology is thus one that is ever sub-ontological-＜as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s~sublimating~nascence＞ as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions-＜so-construed-as-from-perspective—ontological-normalcy/postconvergence＞—existentialism-form-factor. In furtherance of this prospective epistemic-ricochetting/transepistemicity indictment, this author laments a covert practice of an intellection that has been critical of postmodern-thought but in latter years ‘reformulates the implications of postmodern ideas’ as original thought even as such practices supposedly passes their institutional thresholds of admissibility with the caveat though that much of such thought is poorly operant given its ad-hoc depth of knowledge-reification\^7 gesturing/process as of disparateness-of-conceptualisation<-unforegrounding-disentailment,-failing-to-reflect—‘immanent—ontological—contiguity’\^7> implications, and along the same parrhesiastic prospective epistemic-ricochetting/transepistemicity line this author is very much befuddled of a perverted exercise to undermine the originality of this work supposedly because of the theoretical orientation by a naïve ad-hoc synonymising exercise that this author is very much confident fails as it overlooks the coherence and knowledge-reification\^87 gesturing/process articulated herein. Generally, such perversion of thought as it discreetly networks fails society in the long-run when it seems to assume a foreshadowing posture with regards to what can be thought or not thought as of a ‘realphotik of thought’ exercise. Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining
knowledge to existentialising/contextualising/textualising-contiguity eludicating/reification rather than just mere formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are already naturally constraint to existentialising/contextualising/textualising-contiguity knowledge-reification by the implicit immediate-constraining ontological-primemovers-totalitative-framework transcending-and-sublimity/sublimation/supererogatory-de-mentativity whereas the human world is rather blurry in this regard and hence requires the requisite explicited insight about existence as of its ecstatic singularity for its appropriate approach for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification of existentialising/contextualising/textualising-contiguity but not by a na"ive/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of na"ive formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than existentialising/contextualising/textualising-contiguity knowledge-reification. Actually, formalisation in the natural sciences and mathematics is the effective ‘formatting outcome’ of an implicit creative process of existentialising/contextualising/textualising-contiguity knowledge-reification. This process is one of human limited-mentation-capacity-deepening as of

projected epistemic-immanence/veridical-epistemic-determinism enables transcendence-and-

flawed primacy of conceptual patterning on the basis of a conception of knowledge that tends to belittle and trivialise original knowledge contributions geared towards creative existentialising/contextualising/textualising-contiguity\(^1\) knowledge-reification\(^7\) while naively overrating contributions to knowledge of a conceptual patterning orientation, in further blurring the study of the social with mischaracterisations and poor appreciation of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications and ultimately induces self-perpetuating artifices of institutional-being-and-craft that mechanically ‘paradoxically then supersede knowledge’ as of its very organic ontological-good-faith/authenticity\(^9\). One recurrent consequence of the formalisation credo that keeps on arising for instance in the analytic tradition of philosophy as of its non-totalising-entailing or ‘poor apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity\(^\_\)—conflicatedness\(^2\) of totalising-entailing/nested-congruence’, is that the underlying conception about growing the body of human knowledge seems to be the ‘incrementing of all such conceptual patterning conceptualisations’ going by their cross-analysis as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity\(^7\). Basically, the underlying implication of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity\(^\_\)—conflicatedness\(^2\), and so over naïve apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity\(^\_\)—constitutedness\(^1\), is that all ontologically-veridical conceptualisations can only be veridical by their ‘abstract reduction to the totalising-entailing/nested-congruence implication of existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective–ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> as of its ecstatic singularity’, and thus implies the articulation of all such ontologically-veridical conceptualisations as of

We can appreciate that the naïve conceptual patterning of conceptualisations in many a social domain-of-study failing to disambiguate divergent knowledge implications-and-contributions as of existentialising/contextualising/textualising-contiguity\(^9\) knowledge-reification\(^7\) end up transforming subject-matters into descriptive enunciations of weak existentially explanatory and predicative capacity. The entire project of human \(^8\text{meaningfulness-and-teleology}\) is nothing but one of creatively elucidating/reifying existence/existential-possibilities, \textquoteleft with no out of existence knowledge project\textquoteright, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative existentialising/contextualising/textualising-contiguity\(^9\) knowledge-reification\(^8\),
complements as of further articulated reification of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification insight often goes missing with many a subscriber to the formalisation credo, as of reification along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars crossgenerationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative existentialising/contextualising/textualising-contiguity knowledge-reification perspective of knowledge construal, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originally/as-of-event available to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative existentialising/contextualising/textualising-contiguity knowledge-reification perspective of causality as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human-totalising-purview-of-construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal

whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying-or-elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for existentialising/contextualising/textualising-contiguity knowledge-reification’, inducing successive differences of ontological-performance,<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-human-amplituding/formative-epistemicity-totalising-purview-of-construal’ with increasing prospective relative-ontological-completeness’. This is especially the case where such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their existentialising/contextualising/textualising-contiguity knowledge-reification. Ultimately, and it is this author’s contention, the various scholarly contributions to postmodern-thought can be understood as rather pointing to the de-mentative/structural/paradigmatic disseminative implications of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective depocrypticism—or-preempting—disjointedness-as-of—reference-of-thought ontologically-veridical difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing—as-veridical-epistemic—
determinism. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/aponia ‘left it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/superrgatory—de-mentativity to ‘continually select’ rational-empiricism/positivism disseminative orientations for transcendence-and-sublimity/sublimation/superrgatory—de-mentativity, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism—procrypticism human subject is rather undecentered’ relative to the prospective postmodern—notional—deprocrypticism self-conscious mindset we fail to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/superrgatory—de-mentativity to ‘continually select’ postmodern—notional—deprocrypticism disseminative orientations for transcendence-and-sublimity/sublimation/superrgatory—de-mentativity, in the same vain that the ‘non-positivism/medievalism undecentered human subject’ failed to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of prospective
positivism/rational-empiricism thought. On the other hand, recurrent conceptual patterning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their mere infrastructure and deferential-formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound existentialising/contextualising/textualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. But then with regards to the social notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly existentialising/contextualising/textualising-contiguity knowledge-reification here implies human displacement/decentering even though our temporal/shortness-of-register-of-meaningfulness-and-teleology dispositions certainly have a hard time assuming the full implications of such prospectively implied transcendental meaningfulness-and-teleology. This further speaks to the fact that human knowledge is much more than distantly/remotely abstracted conceptions of meaningfulness-and-teleology of trite existentialising/contextualising/textualising-contiguity knowledge-reification 4 <amplituding/formative-epistemicity> causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity, as on critical occasions this puts the human subject itself into question; and so, as of ‘ontological-faith-notion-or-

Unrelated to perspective–ontological-normalcy/postconvergence-implied–prospective-aporetic-articulation—overcoming/unovercoming’. Unlike the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness rampant with human and social conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness totalising-entailing/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective-

‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time’. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting
wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying dynamic theoretical-conceptual-operant interrelatedness speaking of singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemic-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. This reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social conceptualisations that by their apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness token tend to give up on the central issue of knowledge as of its wholeness/nested-congruence reflection ‘as of creative existentialising/contextualising/textualising-contiguity knowledge-reification’ of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-as-to-perspective-ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming'> in its ecstatic singularity. The naivety of implied apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness in the social is in the expectation that the unity of disparateness of conceptualisations as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-amplituding/formative—epistemicity>totalising—purview-of-construal’ will take care of itself in reflecting the ecstatic singularity of existence without human self-conscious wholeness/nested-congruence conception as of apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—conflatedness in this respect; but then such parsimony loses more than just wholeness/nested-congruence in the sense that sound conceptualisations cannot be done without a sense of wholeness/nested-congruence in the first
place, and more precisely as of ‘totalising-entailing/nested-congruence apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness with existence as of its ecstatic singularity’. While in many ways the natural sciences as immediately-and-directly constrained by ontological-primemovers-totalitative-framework are naturally and ad-hocly postconvergingly–dementated/structured/paradigmed to implicitly construe wholeness/nested-congruence of conception as of ‘totalising-entailing/nested-congruence apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness with existence as of its ecstatic singularity’ with regards to their conceptualisations, this cannot be said of the same of the social as of the need for its self-conscious understanding of wholeness/nested-congruence conception as of ‘apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness with existence as of its ecstatic singularity’ given its inherent blurriness, and emotional-involvement, in order to then achieve parallel level of ontological-primemovers-totalitative-framework knowledge conception as of singularisation-projected epistemic-immanence/veridical-epistemic-determinism. In effect this ontological difficulty fundamentally has to do with the inherent difficulty of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor—in-overcoming—’notionally–collateralising-beholdening-protohumanity’—to—’attain-sublimating-humanity’—as-to-existence-potency ~sublimating-nascence-, disclosed-from-prospective-epistemic-digression to supersede human temporality/shortness wooden-language ⟨imbued—averaging-of-thought⟩—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology —

function-conflatedness\textsuperscript{12} points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness\textsuperscript{88} and prior relative-ontological-incompleteness\textsuperscript{89} is fundamentally flawed as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)\textsuperscript{39}–constitutedness\textsuperscript{11}, as all the objectifying discursivity that is ontologically-veridical is as of the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)\textsuperscript{39}–conflatedness\textsuperscript{12} of prospective relative-ontological-completeness\textsuperscript{88} over prior relative-ontological-incompleteness\textsuperscript{89} construed as immanence-function-conflatedness\textsuperscript{12}. Thus metaphoricity\textsuperscript{17} of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-conflatedness\textsuperscript{12} reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstition, spiritualism, etc.

This same conception holds with the notional–deprocrypticism immanence-function-conflatedness\textsuperscript{14} overriding the \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} of \textsuperscript{81}procrypticism–or–disjointedness-as-of–reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the notional–deprocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of\textsuperscript{84} reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflatedness\textsuperscript{14} implying that all the \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} is necessarily as of the prospective relative-ontological-completeness\textsuperscript{88} over the prior relative-ontological-incompleteness\textsuperscript{89}; respectively as of positivism and deprocrypticism. If by anticipation we do know immanently that a non-positivism mindset is bound to a non-
positivistic-as-existentially-superstitious
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of de-
mentative/structural/paradigmatic internal-necessity/determinism insight from positivism
immanence-function-conflatedness with the obviousness there is no point implying an
ontologically-flawed objectifying/contending discursivity in assessing the non-positivism
existentially-superstitious inclination, the same implication will extend to
notional-deprocrypticism immanence-function-conflatedness as of de-
mentative/structural/paradigmatic internal-necessity/determinism insight with regards to
anticipating the disjointedness-as-of-reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our
positivism–procrypticism mental-disposition with no pretence of such a positivism–
procrypticism ontologically-flawed objectifying/contending discursivity in assessing the
disjointedness-as-of-reference-of-thought inclination. In other words, immanence-function-
conflatedness is all about reflecting the straightforwardness of ontological-primemovers-
totalitative-framework as of singularisation-as-to-the-nondisjointedness/entailment-of-
prospective nonpresencing projected epistemic-immanence/veridical-epistemic-
determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive
predisposition to make of its objectifying/contending discursivity as de-
mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively
elevating prior relative-ontological-incompleteness meaningfulness-and-teleology as if of
prospective relative-ontological-completeness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-
function-conflatedness equally highlights knowledge as of its essential organic construct
implications. As a apriorising/axiomatising/referencing-(of–
existentialising/contextualising/textualising-contiguity constitutedness predisposition
tends to imagine that knowledge is basically a cumulative exercise to an already soundly postconvergingly–de-mentated/structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the postconverging–de-mentating/structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God of plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness-of-reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior
existential-reality instigated ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} as of difference-conflatedness\textsuperscript{11}—as-to-totalitative-reification\textsuperscript{7}—in-singularisation\textsuperscript{<amplituding/formative–epistemicity>} as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing\textsuperscript{—as-veridical-epistemic-determinism\textsuperscript{<amplituding/formative–epistemicity>} causality\textsuperscript{--as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity\textsuperscript{77} implied organic knowledge is ever always as of the de-mentative/structural/paradigmatic internal-necessity/determinism of prospective relative-ontological-completeness\textsuperscript{9}—reference-of-thought as of immanence-function-conflatedness\textsuperscript{13}, with the pretence of prior relative-ontological-incompleteness\textsuperscript{9}—of—reference-of-thought for objectifying/contending discursivity nothing more but flawed \textsuperscript{<amplituding/formative–epistemicity>} totalising\textsuperscript{—}self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{13} temporal meaningfulness-and-teleology\textsuperscript{10}. The study of the social as of immanence-function-conflatedness insight grasp that the blurriness, \textsuperscript{<amplituding/formative–epistemicity>} totalising\textsuperscript{—}self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{13} and remoteness of cause-and-effect invoke a more refined conception of ontological-primemovers-totalitative-framework\textsuperscript{73} as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability\textsuperscript{7} and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive
research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability\(^1\)-or-deferring-falsifiability\(^1\) and validation-or-deferring-validation. It is herein contended that it is the implicited orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough existentialising/contextualising/textualising-contiguity\(^9\) knowledge-reification\(^87\) in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existentialising/contextualising/textualising-contiguity\(^9\) knowledge-reification\(^9\). This insight equally informs this author’s supplanting–conviction-as-to-profound-supererogation\(^9\)–of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further existentialising/contextualising/textualising-contiguity\(^9\) knowledge-reification\(^9\), as well as existentialising/contextualising/textualising-contiguity\(^9\) knowledge-reification\(^7\) as of the disposition for advancing the metalevel transversality-for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’–foregrounding—entailment-(postconverging–narrowing-down–sublimation-as-to–‘existence—as-sublimating-withdrawal,–eliciting-of-prospective-supererogation–‘in-reflecting–‘immanent-ontological-contiguity ‘;–as-operative-notional–deprocrypticism) of the ‘de-mentative/structural/paradigmatic disseminative implications of postmodern and other human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing–as-to-possibilities-of-self-
becoming-as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’ thought, that the ontological-pertinence assumes ontological-primemovers-totalitative-framework unassailability; and so, not for the mere sake of research-programme extensiveness but as of its internal constraining to falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as of existentialising/contextualising/textualising-contiguity knowledge-reification as implied by the articulation of ontological-good-faith/authenticity herein as of reasoning-through/messianic-reasoning attitude/mental-disposition/care–and–episteme ‘implicitation of ontological-primemovers-totalitative-framework’, on the basis that the very first epistemic frontier for ontological-pertinence lies with the scholarly developed creative insight for existentialising/contextualising/textualising-contiguity knowledge-reification as knowledge. Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity criticism exactly because of its strong scholarly research-programme existentialising/contextualising/textualising-contiguity knowledge-reification, and thus an immanence-function-conflatedness insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-threshold, human existential-investment as of its temporality/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity lies in upholding-and-defending authentic intellectualism even as of metaphoricity beyond wooden-language ⟨imbued—averaging-of-thought,<as-to-leveling/ressentiment/closed-construct-of–⟩

Metaphoricity as such ironises on social intellectual nihilism as it is bent on undermining any temporality/shortness as of ontological-faith-notion-or-ontological-fideism—imbuend-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality solipsistic intemporality/longness parrhesiastic askance, and as of immanence-function-conflatedness ‘highlights and keeps wide-opened the prospect’ for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated–temporal-intemporality manifestations that usurp and undermine human transcendence-and-sublimity/sublimation/supercorrgatory–de-mentativity. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrypticism social-setup to perceive our positivism–procrypticism humanistic knowledge system as absolute; it is immanence-function-conflatedness by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the
cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions 
reference-of-thought. With such immanence-function-conflatedness insight, the epistemic 
and methodological pretences as of our humanistic positivism–procrypticism are evaluated on 
their true merits, and such an evaluation reveals that such epistemic and methodological 
pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-
institutionalised, and that critically from a deeper perspective the reality is that it is the 
research-programme as articulated above that underlies human knowledge cumulation, and so 
as of the competitive evaluation of various epistemic and methodological commitments made in 
immediacy and their ultimate prospective evaluation as of their research-programmes 
productive outcomes. The research-programme as such can be reconstrued as the reevaluation 
of any propounded knowledge and epistemic postconverging–deme- 
mentating/structuring/paradigming as of their ultimate 
existentialising/contextualising/textualising-contiguity knowledge-reification as knowledge; 
such that the immediacy of contention of appropriateness of epistemic and methodological 
approaches is less critical, as ultimately all knowledge constructs and their epistemic and 
methodological commitments face their long term bottomline reevaluation as to their relative 
existentialising/contextualising/textualising-contiguity knowledge-reification as knowledge 
construed as their research-programmes. This speaks of the fact that such a conception of 
epistemic commitment as of research-programme is effectively one of epistemic 
singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> 
projected epistemic-immanence/veridical-epistemic-determinism so-implied as of ontological-

epistemic-determinism as of ontologically-compromised—categorising positivism—procrypticism. Thus, if immanence-function-conflatedness reveals that it is the ‘projected research-programme of any given knowledge construct as of its prospective relative existentialising/contextualising/textualising-contiguity knowledge-reification’ that is its preeminent epistemic and methodological validation, ‘pretences of pre-given epistemic predispositions’ that do not attend pertinently and similarly to prospective relative existentialising/contextualising/textualising-contiguity knowledge-reification are nothing more but predispositions that pretend to supersede existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—predispositions that pretend to supersede existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—

Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on
the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-sublimity/sublimation/supererogatory-de-mentativity wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-sublimity/sublimation/supererogatory-de-mentativity occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-amplituding/formative-epistemicity-totalising-purview-of-construal’ but with contrastive underlying relative-ontological-incompleteness /relative-ontological-completeness 

{sublimating–referencing/registering/decisioning–as-self-becoming/self-conflatedness /formative–supererogating–projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–in-perspective–ontological-normalcy/postconvergence}). It is quite absurd to think that the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity especially, as of our apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound existentialising/contextualising/textualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern-day science to
develop and just as well modern-day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of the human subject’ as implied by deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought; and justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Immanence-function-confiliatedness analytical implications equally arise as of the ‘countervailing transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–'motif-and-apriorising/axiomatising/referencing’ relation induced as of ontological-primemovers-totalitative-framework between ‘existence/existential-possibilities as the selecting transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity’ and ‘the ever developing human limited-mentation-capacity as of its deepening from relative uninstitutionalised-threshold to relative institutionalisation so-construed as prospective institutionalisation dissemination’, as this transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–'motif-and-apriorising/axiomatising/referencing’ is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness as relevant for the protracted-consciousness of notional-deprocrypticism. Thus for such a notion of research-programme as articulated herein rather than just implying mere epistemic latitude/anarchy, it speaks instead of the construal/justification of epistemic-veracity as of precedence of prospective relative-ontological-completeness<amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing—for-explicating-ontological-contiguity, and so as of the de-mentative/structural/paradigmatic implication of

prospective- nonpresencing,-for-explicating-ontological-contiguity as of the ‘decentering of the human subject’ involved in knowledge-reification. This inherently projects a ‘practical picture of human epistemic determination’ of ‘maximal disseminative human epistemic articulations at relative uninstitutionalised-threshold’ and ‘minimum select human epistemic articulations at prospective institutionalisations’, and so as of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity transversally induced ontological-primemovers-totalitative-framework selective epistemic-veracity transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In this regard and at the general epistemic level of reference-of-thought-devolving, we can appreciate the massively shrunk epistemic-veracity possibilities available for our present positivism credible construal of ontological-veridicality over the epistemic-veracity possibilities previously available for non-positivistic social-setups credible construal of ontological-veridicality as of their full existential cognition of superstition, witchcraft, spiritualism, etc., and their social implications; and this reflects the very fact that ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity of-the-human-institutionalisation-process as of difference-conflatedness -as-to-totalitative-reification -in-singularisation\textless{}as-to-the-

Determinism is one associated with increasing thinning out of epistemic-veracity as of prospective relative-ontological-completeness induced from ontological-primemovers-totalitative-framework. Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity—of-the-human-institutionalisation-process which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to ontological-primemovers-totalitative-framework and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong ontological-primemovers-totalitative-framework and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient wooden-language—{imbued—averaging-of-thought—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications} epistemic impertinence. Prospective notional–deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness—of-reference-of-thought associated ontological-primemovers-totalitative-framework, with the implication that our positivism–procrypticism uninstitutionalised-threshold epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness-as-of-
reference-of-thought uninstitutionalised-threshold and superseded by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity determinant selector as of the deprocrypticism—or—preempting—disjointedness-as-of- reference-of-thought disseminative research-programme coherence and ontological-contiguity. The idea being that the notional–deprocrypticism epistemic-veracity as of such disseminative research-programme coherence and ontological-contiguity equally imply an underlying falsifiability—or-deferred-falsifiability and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable to ontological-primemovers-totalitative-framework of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of existentialising/contextualising/textualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Such a notional–deprocrypticism epistemic-veracity implication is pertinent because blurriness and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-totalitative-framework, such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of ontological-primemovers-totalitative-framework as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and
other natural sciences. The ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality-of-affirmative-and-unaffirmative-disambiguated-of-ontologically-determinative/axiomatising/referencing constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their apriorising/axiomatising/referencing-of-totalising-entailing/nested-congruence or how these conflate as of prospective relative-ontological-completeness with existence—as-the-absolute-a-priori-of-conceptualisation—existence—as-sublimating-withdrawal—eliciting-of-prospective-

veracity of theoretical and conceptual articulations rather lies with regards to their
existentialising/contextualising/textualising-contiguity\(^9\) knowledge-reification\(^9\) as of their
critical operant implications and unmuddled conceptions. Furthermore, the

With the foregoing immanence-function-conflatedness insight, of most critical importance and decisiveness as dementatively/structurally/paradigmatically anchoring futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism meaningfulness-and-teleology is the need for a notional–deprocrypticism reconceptualised conception of the human construction-of-the-Self. In this regard, we can appreciate critically that hitherto and as of a natural human predisposition to epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a human-subpotency flawed absolutising epistemic reference, and so over an existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression absolutising epistemic reference, specifically as so-construed from our positivism–procrypticism registry-worldview/dimension flawed absolutising epistemic reference. The fact that existence/intrinsic-reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the ontological orientation of traditional psychology/psychoanalysis; wherein ‘the human psychology of absolutising epistemic reference is wrongly conceived as of ontological-normalcy/postconvergence rather than as of epistemic-abnormalcy/preconvergence’ considering the necessarily decontorting human-subpotency psyche on the constraint of our ontologically-compromised reproducibility—mathesis/motif/thrownness-disposition,—as—
reproducibility-of-aestheticisation as of our \textit{amplituding/formative–epistemicity} totalising–thrownness-in-existence\textsuperscript{34}. The implication here is that we cannot have a human-subpotency flawed absolutising epistemic reference that as of human-subpotency can surpass the ontological-veracity of the full-potency of existence/intrinsic-reality/ontological-veridicality as absolutising epistemic reference as of ontological-normalcy/postconvergence, and so given human-subpotency prior relative-ontological-incompleteness implied flawed prospective ontological-performance \textless\text{-including-virtue-as-ontology}. Such a human-subpotency flawed absolutising epistemic reference for ‘meaningfulness-and-teleology\textsuperscript{100} can be construed as of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’; as of ‘human-subpotency temporality’/shortness flawed absolutising epistemic reference’ as it induces flawed ontological-performance \textless\text{-including-virtue-as-ontology} as by its \textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \text{‘wrongly seem to advantageously substitute’ for the potent as intemporal absolutising epistemic reference ontological-performance \textless\text{-including-virtue-as-ontology} of existence-potency\textsuperscript{79}–sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality. Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self’/ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its syncretising/circularity/interiorising/akrasiatic-drag’es, and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-prime-movers-totalitative-framework. Thus intemporal ontological-performance-<including-virtue-as-ontology> ever always warrants human prospective relative-ontological-completeness -of- reference-of-thought for empowering and responsible meaningfulness-and-teleology for transcendence-and-
sublimity/sublimation/supererogatory/de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance’—<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? The psychoanalytic pertinence of human akrasia-susceptibility-or-akrasiatic-drag complex, so-implied as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{92}/ontological-fracturing/desublimation/gimmickiness complex’, is hinted at even by traditional psychology but rather indirectly as of its ontologically-flawed perspective as of human-subpotency\textsuperscript{45}\textsuperscript{amplituding/formative-epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} when it recognises that we do fall short of intemporal ontological-performance\textsuperscript{72}<-including-virtue-as-ontology>, but strangely enough hardly has there been articulated any conception

In this regard, traditional psychology fails a theoretical-conceptual-operant accounting for the changing construction-of-the-Self, as reflected by the fact that

This in many ways explains many a critic misinterpretation of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on the one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the basis of the specific \textsuperscript{104}universalising-idealisation phronetic/practicality situations as to its defining existence-potency\textsuperscript{18}~sublimating–nascence, disclosed-from-prospective-epistemic-digression). The fact is that Socrates (and as momentously reflected in his abhorrence of writing as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing by writing that is not necessarily pedagogically instructive’, and thus not contradictory with Plato’s writing as of recording-for-posterity) and Plato were more engaged with establishing overall philosophical insight beyond just their \textsuperscript{104}universalising-idealisation renewed reproducibility—mathesis/motif/thrownness-disposition, as–reproducibility-of-aestheticisation over non-universalising sophistry (even as their association of anamnesis with mythical recollection was caught up in the \textsuperscript{104}universalising-idealisation apriorising/axiomatising/referencing–psychologism but by the practical demonstration is relevant in all registry-worldviews/dimensions as of the example articulated as well herein by this author with regards to a child’s solipsistic sense of meaning wherein after grasping the rules of additionality even a

Aristotle as successor to their thought effectively had to move on to more fruitfully and complementarily elaborate phronetically/practically the implications of universalising-idealisation 56 meaningfulness-and-teleology 90 infrastructure as of science, practical-virtue, rationality, etc., rather than just theoretically reiterating his predecessors, and as such phronesis as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducbility-of-aestheticisation is what induces existentialising/contextualising/textualising-contiguity 39 and thus allows prospective dimensionality-of-sublimating-supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation insight for further human limited-mentation-capacity-deepening 3 (as to ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, so-enabled by underlying supposedly coherent ontological-commitment-<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> as of ontological-prinemovers-totalitative-framework 73 4: <amplituding/formative–epistemicity/causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,–for-explicating–ontological-contiguity and not any notion of vague innateness besides the existentially
inherent human-subpotency potential) leading to further superseding/transcendence as of prospective reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. But the fact is there is comprehensive coherence in the philosophical articulations of the three thinkers when construed with this comprehensive philosophical knowledge-reification<sup>87</sup> projection insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue in the sense that human knowledge-reification<sup>87</sup>, and so in all domains without exception, is one of a dynamic complementary relationship between dimensionality-of-sublimating—<sup>{</sup><sup>amplituding/formative</sup> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation}<sup>}</sup> and phronesis existentialising/contextualising/textualising-contiguity<sup>39</sup> in order to grasp ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency<sup>15</sup>—sublimating—nascence,—disclosed-from-prospective-epistemic-digression as so reflected with prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation for renewed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. In this regards, Socratic philosophy as of its knowledge is virtue contention recognises that the impression-driven/good-naturedness/wishfulness of any given reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation whether as of non-universalising sophistry or even prospective Socratic-philosophers universalising-idealisation is not sufficient to ‘absolutely capture’ ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency<sup>15</sup>—sublimating—nascence,—disclosed-from-prospective-epistemic-digression, and that such a possibility lies in perpetual knowledge-reification<sup>87</sup> disposition as of the-Good/understanding/knowledge-reification<sup>87</sup>/ontological-prime movers-totalitative-framework<sup>73</sup>. Thus Socratic philosophy as of its very ‘anamnesis core implications’ doesn’t
only supersedes prior non-universalising sophistry with universalising-idealisation but it can equally be said that it anticipates prospective positivism/rational-empiricism phronesis existentialising/contextualising/textualising-contiguity as it reconceptualises science, practical-virtue, rationality, etc. in superseding universalising-idealisation phronesis existentialising/contextualising/textualising-contiguity at the latter’s destructuring-threshold of-ontological-performance -<including-virtue-as-ontology>, as well as anticipate the overall human institutional process as herein conceptualised as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemic-determinism-as-amplituding/formative-epistemicity-causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity of phronesis existentialising/contextualising/textualising-contiguity. Thus more critically prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is induced as of the displacement/decentering-of-the-human-subject in its prior relative-ontological-incompleteness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so as of epistemic-ricochetting/transepistemicity reasoning-through/messianic-reason metaphoricity that exploits the supposedly coherent ontological-commitment self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ which opens it up to prospective intemporal-as-ontological metaphoricity. The reality thus is that prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from a presencing—absolutising-identitive-constitutedness perspective is not actual meaningfulness-and-teleology but rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-teleology mostly as of prospective crossgenerational reasoning-from-results/afterthought. As of prospective notional-deprocripticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, this author is of the opinion that any intellectual endeavour must preceedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-
Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—-as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications>} dispositions as of a supposed notion of intellectual
veridical-epistemic-determinism causality as to projective-totalitative-implications-of-prospective nonpresencing,-for-explicating-ontological-contiguity'. Ontological-fracturing as such is a reflection of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional—firstnaturallyness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor, and points out that the way we tend to conceptualise/construe-of idealisation as reflected in rules, institutional essence, institutional processes and ideals is ontologically-flawed/wrong as the assumption is one that tends to imply beyond-the-consciousness-awareness-teleology only human intemporal ontological-performance by mental-reflex, rather than the reality of human temporal-to-intemporal ontological-performance of any given idealisation; speaking of the reality that any idealisation construed as of rules, institutional essence, institutional processes and ideals is de-mentatively/structurally/paradigmatically bound to be ontological-fractured as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional—firstnaturallyness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor. The implication here is that all projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation percolation-channelling—deferential-formalisation-transference, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing of such idealisations with regards to their more profound transcendence-and-sublimity/sublimation/supererogatory de-mentativity implications. In the same vein, we tend as
of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuation-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance\textsuperscript{72} -<including-virtue-as-ontology> is inherent, the underlying de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance\textsuperscript{72} -<including-virtue-as-ontology> in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of percolation-channelling-<in-deferential-formalisation-transference> doesn’t substitute for the \langle<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\rangle individuation disposition that of reasoning-through/messianic-reasoning brought about secondnatured institutionalisation. The bigger point here is that there is never going to be an inherent suprasocial or \langle<amplituding/formative>wooden-language\rangle (imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) framework that ‘invents’ and accounts for prospective social transcendence-and-sublimity/sublimation/supererogatory-de-mentativity idealisation, in

But any given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension ‘meaningfulness-and-teleology as well as the fact that human perceived social-stake-contention-or-confliction interests drift within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities, implies that any such registry-worldview/dimension social-setup has ‘a basic postconverging—de-mentating/structuring/paradigming supposedly coherent ontological-commitment’ for its effective functioning which lays it prospectively exposed to metaphoricity as of prospective ontological-prime-movers-totalitative-framework as from prospective existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression epistemic-or-notional—projective-perspective; as such a registry-worldview/dimension would difficulty renge, as of contradictory and incoherent implications, on such critical prospective ontological-veracity implications of such prospective relative-ontological-completeness of meaningfulness-and-teleology. It is this element that equally ultimately renders the study of the social, notwithstanding its strong underlying amplituding/formative-epistemicity totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of potentially the same ontological-performance <including-virtue-as-ontology> possibility as with the natural sciences. That is the apparent conventioning-referencing of the social as of
an immediacy perspective naively implies the social is of a poor supposedly coherent ontological-commitment —<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming —as-being-as-of-existential-reality> but from a more profound level of appreciation this not the case as explained above, as in effect a society/social-setup conventioning projects correspondingly a profound supposedly coherent ontological-commitment —<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming —as-being-as-of-existential-reality> as of its ‘self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming —as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ which is then enabling for the critical metaphoricity of prospective meaningfulness-and-teleology ontological-veracity implications of ontological-primemovers-totalitative-framework as of prospective relative-ontological-completeness. In other words, as of transversality—<for-sublimating–existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated-‘motif-and-apriorising/axiomatising/referencing’ of human metaphoricity of temporal-to-intemporal–ontological-performance ~<including-virtue-as-ontology>—of-narratives, we know that the ontological-primemovers-totalitative-framework that underlies existence-potency —sublimating–nascence, disclosed-from-prospective-epistemic-digression sublimating-validation/desublimating-invalidation implications of ontological-veracity is bound in the long run to select/skew-toward the intemporal/ontological over the temporal, whether as of internal cultural transformation or cultural diffusion. Even though in the short-term/immediacy perspective the specific metaphoricity of say a scientific and liberal worldview narrative as implied with the industrial revolution may actually be in the most part ignored/overlooked in a pre-industrial society from a merely meaningfulness-and-teleology transmission/spreading perspective, the supposedly coherent ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality> so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ exposes it to the metaphoricity of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained politically and as of national vision, economically and culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior preconverging–de-mentating/structuring/paradigming of societies. Such an overall prospective institutionalisation metaphoricity constraining is very much unlike what we may naively imagine the prior human meaningfulness-and-teleology to be from an after the fact analysis; since such a process is much more critically more than just ‘mere
transmission/spreading of scientific and liberal meaningfulness-and-teleology for say a suprasocial or <amplituding/formative> wooden-language ⟨imbued—averaging-of-thought−as-to-leveling/ressentiment/closed-construct-of− meaningfulness-and-teleology -as-of- ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩ human mindset processing’, but critically was an epistemic-ricochetting/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> unlike our subsequent reasoning-from-results/afterthought contemplation afterwards ‘wrongly implying a metaphoricity as of a self-consciously instigated prior suprasocial or <amplituding/formative> wooden-language ⟨imbued—averaging-of-thought−-as-to-leveling/ressentiment/closed-construct-of− meaningfulness-and-teleology -as-of- ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩ comprehensive sense of prospective metaphoricity’. This points to a more comprehensive reality of human epistemic-veracity arising as of our <amplituding/formative–epistemicity> totalising–thrownness-in-existence with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability implications as of ontological-primemovers-totalitative-framework, in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> nonpresencing-<perspective–ontological-normalcy/postconvergence> ricochetting that speaks of the de-mentative/structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such
implied suprasocial or as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>

epistemic-veracity pretence, as expressed before with respect to Plato’s idea universalisation involving the undermining of the suprasocial epistemic-veracity pretence associated with sophistry or Descartes’ cogito implications of positivism/rational-empiricisim involving the undermining of the suprasocial epistemic-veracity pretence of medieval-scholasticism pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—⟨amplituding/formative–epistemicity⟩totalising—in-relative-ontological-completeness). Just as we can appreciate that in ‘the very same physics
reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness and reference-of-thought, the epistemic-veracity as implied in succession from Copernicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21st century physics is mostly as of ricochettering prospective nonpresencing-<perspective–ontological-normalcy/postconvergence>. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its de-mentative/structural/paradigmatic meaningfulness-and-teleology as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility for prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework validation-and-falsifiability. Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective meaningfulness-and-teleology as knowledge on a vague notion of any presencing—absolutising-identitive-constitutedness epistemic-veracity that at the very least doesn’t rise to projectively contemplate and appraise of such prospective meaningfulness-and-teleology as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability. Thus metaphoricity as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-teleology as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument for meaningfulness-and-teleology as say the commonality of such metaphoricity inclined re-
as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its conventioning-referencing and its \[ \text{presencing—absolutising-identitive-constitutedness} \] Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\[100\], when it comes to assessing the possibility of prospective \[ \text{meaningfulness-and-teleology}\[100\] inducing of metaphoricity \[5\]. It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\[100\] like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\[100\] including our modern period, is a flawed appraisal; as in many ways, beyond our \[ \text{amplituding/formative–epistemicity} \] totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold\[103\] as of the privileging of conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\[100\], and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the

performance of narratives differentiated transversality as of living-development as to personality-development, institutional-development as to social-function-development and Being-development/ontological-framework-expansion as to depth of ontologising-development as infrastructure of meaningfulness and teleology. The possibility of ‘ontologically-hegemonising-narrative’ as construed from existence-potency sublimating nascence, disclosed from prospective epistemic digression as to ontologically uncompromised ontological normalcy/postconvergence/referentialism is what allows for veridical aetiologisation/ontological-escalation as of transcendentally enabling level of ontological good faith or authenticity /objectification/desubjectification as objectification as to ontological faith notion or ontological fideism—imbued underdetermination of motif and apriorising/axiomatising/referencing as so being as of existential reality as antinihilism implied as of singularisation projected epistemic immanence/veridical epistemic determinism over dissingularisation as to the disjointedness disentailment of presencing absolutising identitive constitutedness /epistemic nonimmanence flawed epistemic determinism, just as with the natural sciences and so beyond the notion of subjectivity as of ontological primemovers totalitative framework validation and falsifiability implications. It is important to grasp that since every registry worldview/dimension social construct is involved in a constructive (as of its institutionalising disposition) and destructuring (as of its disposition at its uninstitutionalised threshold) relationship with ontological veracity, this is exactly what inevitably validates the articulation of ontological veracity/ontological veridicality as more completely involving the displacement decentering of the human subject priorly as implied
with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative in reflecting the need to undermine human destructuring-threshold\textsuperscript{22}–\{uninstitutionalised-threshold /presublimating–desublimating–decisionality\}–of-ontological-performance\textsuperscript{23}–\{including-virtue-as-ontology\} to further advance its constructive/institutionalising/nascent–sublimating–decisionality nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completeness implications; reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness\textsuperscript{72} and thus the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness\textsuperscript{72} as of projected apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflicatedness\textsuperscript{13}. This is very much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness\textsuperscript{13} since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness\textsuperscript{89} on ontological-veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent ‘logocentric habituated social conditions’ in enabling the ontological-contiguity\textsuperscript{97}—of-the-human-institutionalisation-process\textsuperscript{68} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{97} meaningfulness-and-teleology\textsuperscript{100} right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent–sublimating–decisionality and destructuring-threshold–\{uninstitutionalised-threshold /presublimating–desublimating–decisionality\}–of-ontological-performance\textsuperscript{23}–\{including-virtue-as-ontology\}.
decisionality)-of-ontological-performance -<including-virtue-as-ontology> nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity meaningfullness-and-teleology whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold(uninstitutionalised-threshold /presublimating–desublimating-decisionality)-of-ontological-performance -<including-virtue-as-ontology> nature is effectively what underlies in ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrypticism prior relative-ontological-incompleteness of human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms–as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness deprocrypticism; explaining in many ways the difficulty for
Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding-positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness\textsuperscript{104} temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness\textsuperscript{99} positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{99} /reification /contemplative-distension\textsuperscript{26} (as of human self-surpassing—existentialism-form-factor\textsubscript{in-overcoming-‘notionally–collateralising-beholding-protohumanity’-to–‘attain-sublimating-humanity’-as-to-existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression to supersede human temporality\textsuperscript{84}/shortness \textsuperscript{amplituding/formative} wooden-language\textsuperscript{\langle imbued—averaging-of-thought-~as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology ~as-of–‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications\rangle}); which will explain in many ways the difficulty of the Copernicuses, Galileos, Descartes’, Diderots, etc. so effectively enculturate their budding-positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-incompleteness\textsuperscript{17} human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction
notion as of prospective relative-ontological-completeness\textsuperscript{8} notional–deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporalit\textsuperscript{y} /longness and temporality /shortness as to human limited-mentation-capacity relative ontological-performance\textsuperscript{7}-<including-virtue-as-ontology>. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness\textsuperscript{8} notional–deprocrypticism that we can appreciate more profoundly the\textsuperscript{10} universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive \textsuperscript{11} universal ontological profundity for analysing everything as of prospective relative-ontological-completeness\textsuperscript{8} notional–deprocrypticism herein construed as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>} ; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the
metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness\textsuperscript{59}/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness\textsuperscript{88} positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is \textsuperscript{104} universally emancipatory as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\textsuperscript{9} of-ontological-performance\textsuperscript{72}<including-virtue-as-ontology> nature inherently points out why human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of intemporal metaphoricity\textsuperscript{77} epistemic pertinence doesn’t lie with any inherent suprasocial framework or inherent <amplituding/formative> wooden-language\textsuperscript{101}<imbued—averaging-of-thought><as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications> framework. The fact is that the inherent human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturesdness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor renders such

This is the overall notion explaining human akrasia-susceptibility-or-akrasiatic-drag complex, and so as of human limited-mentation-capacity notional implications. Thereafter, understanding of this human ‘ontologically-flawed antiakrasiatic disposition’ is all about conceptualising the effective operant ontologically-constraining conditions as of human existential-instantiations given our limited-mentation-capacity implied as of temporality\textsuperscript{50}/shortness and intemporality\textsuperscript{52}/longness implications, and so construed epistemically as ontological-normalcy/postconvergence analysis. ontological-performance\textsuperscript{72} -<including-virtue-as-ontology> notionally underlying human-subpotency. Thus all the problem of human ontologically-flawed antiakrasiatic disposition boils down to construing the underlying human mental-processing disposition, construed as of phenomenal-abstractiveness implications, as from human-subpotency dispositional possibilities of ontological-performance -<including-virtue-as-ontology> to existence-potency\textsuperscript{18} - sublimating–nascence,-disclosed-from-prospective-epistemic-digression possibility of ontological-performance -<including-virtue-as-ontology>. This analysis so far sums up the overall framework of human temporal-to-intemporal ontologically-flawed antiakrasiatic disposition as of the social epistemic-totality\(^7\) of meaningfulness-and-teleology\(^10\) in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^7\)—of-the-human-institutionalisation-process\(^6\).

Further and of much more profound reification\(^8\) implications, is the reality that the social-construct constructive and destructuring nature can be fundamentally accounted for by the fact that human antiakrasiatic disposition aspiration is truly reflected as from the effective implications of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning ‘seeding promise of human-subpotency ontological-performance\(^7\)-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating--nascence-as-of-its-coherence/contiguity’; thus with the latter reconceptualised as ‘human-subpotency equivalence/correspondence antiakrasiatic-aspiration ontological-performance\(^7\)-<including-virtue-as-ontology>’.

This reflects the epistemic-veracity of construing human-subpotency ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance\(^7\)-<including-virtue-as-ontology>’ of its articulated–or–acquiesced-to meaningfulness-and-teleology\(^10\) as from existence-potency\(^7\)—sublimating–nascence–disclosed-from-prospective-epistemic-digression ontological-performance\(^7\)-<including-virtue-as-ontology>, which underlies beyond-the-consciousness-awareness-teleology\(^10\)-<in-existential-extrication-as-of-existential-unthought> the universal-transparency\(^10\)-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) of the social epistemic-totality\(^26\) of meaningfulness-and-teleology\(^10\) with respect to social-stake-contention-or-confliction; with the implication here that human-subpotency is ever always as-of-its-level-of constructiveness-of-ontological-performance\(^7\)-

This destructuring-threshold{(uninstitutionalised-threshold/presublimating–desublimating-decisionality)—of-ontological-performance—including-virtue-as-ontology} analysis further highlights the ‘transitive nature’ of the human psyche across the various registry-worldviews/dimensions uninstitutionalised-threshold in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process with respect to destructuring at all uninstitutionalised-threshold, as so-implied by de-mentation{(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics). The comprehensive social susceptibility to destructuring-transitoriness—as-of-deratiocination/deratiocontiguity as the defining element of the social-construct destructuring is what underlies passive to active social mobbishness
immanence/veridical-epistemic-determinism’. In this regard, we can appreciate anthropologically as of human limited-mentation-capacity-deepening\textsuperscript{1} implications the destructuring-transitoriness\textsuperscript{1\textsuperscript{1}}-as-of-deratiocination/deratiocontiguity that upheld superstitious beliefs in non-positivism social constructs but as of positivism/rational-empiricism ontologically-hegemonising-narrative\textsuperscript{1} implied with social enlightenment and the sciences rendered many purviews of existence as of relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance -<including-virtue-as-ontology>’. We can similarly project of the same with respect to our positivism–procrypticism disjointedness-as-of-reference-of-thought destructuring-transitoriness\textsuperscript{1\textsuperscript{1}}-as-of-deratiocination/deratiocontiguity at its uninstitutionalised-threshold\textsuperscript{3} as to be prospectively superseded by notional–deprocrypticism preempting—disjointedness-as-of-reference-of-thought ontologically-hegemonising-narrative\textsuperscript{1} thus rendering human ontological-performance\textsuperscript{72}-<including-virtue-as-ontology> correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human-amplituding-formative-epistemicity'>totalising-purview-of-construal’ as of prospective relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance\textsuperscript{72}-<including-virtue-as-ontology>’.

This destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}-of-ontological-performance\textsuperscript{72}-<including-virtue-as-ontology> analysis effectively points to the fact that human akrasia-susceptibility-or-akrasiatic-drag complex is such a decisive and determinant notion with respect to the human psyche as the critically interceding notion with respect to human social construction-of-the-Self and as it remains a transitive and constant notion in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{77}—of-the-human-institutionalisation-process\textsuperscript{1\textsuperscript{1}} as to the destructuring implications at uninstitutionalised-threshold\textsuperscript{0\textsuperscript{3}} implied human-subpotency epistemic-or-notional-projective-perspective in
dissingularisation-<as to the disjointedness disentailment of presencing absolutising identitive constitutedness epistemic nonimmanence flawed epistemic determinism relative to existence potency sublimating nascent disclosed from prospective epistemic digression epistemic or notional projective perspective singularisation-<as to the nondisjointedness entailment of prospective nonpresencing projected epistemic immanence veridical epistemic determinism. This overall reifying and empowering reflexivity of ecstatic existence as panintelligibility imbedded and hermeneutically reprojectively supererogatingly zeroingly educating human subpotency epistemic perspective of projective reprojective aestheticising re motif and re apriorising re axiomatising re referencing conceptualisation of the social construct as from the elucidation reification destructuring threshold uninstitutionalised threshold presublimating desublimating decisionality of ontological performance including virtue as ontology analysis is rather notionally epistemically reflective of the social construct constructiveness of ontological performance including virtue as ontology, as such an antiakrasiat analysis of uninstitutionalised threshold notionally epistemically reflects the ontological contiguity of the human institutionalisation process; and so, similarly as the analysis of prospective possibilities of disease and illness is not about being pessimistic about the biology of human beings but is notionally epistemically reflective of the possibility for the further development and provision of medicine and healthcare, and just as the projective analysis of lack of science and technology capacity is not about being pessimistic about human technical development but is notionally epistemically reflective of the possibility for the further invention of technologies and scientific discoveries. We can appreciate here that the very same epistemic notional conceptualisation with respect to the human subject as with natural subject matters elicits in the former high emotional involvement whereas the latter as of its direct ontological primemovers totalitative framework amplituding formative
epistemicity~causality~nonpresencing,-for-explicating-ontological-contiguity elicits low emotional-involvement, but for the case where with regards to high and conflicting human social-stake-contention-or-confliction even the natural domain is not immuned from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance~including-virtue-as-ontology> and as reflected at uninstitutionalised-threshold ~. As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance~including-virtue-as-ontology> destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance~including-virtue-as-ontology> and uninstitutionalised-threshold ~, and it is this difficult task of crossgenerational mobilisation that enables the prospective constructiveness-of-ontological-performance~including-virtue-as-ontology> for human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology~. The implicated passivity behind such reflections that human
progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold-{uninstitutionalised-threshold/presublimating-desublimating-decisionality}-of-ontological-performance-{including-virtue-as-ontology} need to be integrated into the very core of such seconndnatured formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity—of-the-human-institutionalisation-process; such that prospective social-construct constructiveness-of-ontological-performance-{including-virtue-as-ontology} and institutionalisation is ever always a process of maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation to prospectively recapture the supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation for prospective organic-knowledge lost in seconndnatured institutionalisation with the latter construed in temporality/shortness often bound to induce incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation as of poor apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Inevitably across the various registry-worldviews/dimensions in reflecting holographically-{conjugatively-and-transfusively} the ontological-contiguity—of-the-human-institutionalisation-process, the universally-transparent articulation-and-implications (as herein) of human destructuring as reflected by ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing—qualia-schema’ and constructiveness as reflected by ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking—qualia-schema’ inherently elicits from the human-

We can appreciate in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy apriorising-teleological-elevation-in-ontological-contiguity beyond recurrent-utter-uninstitutionalisation social-stake-contention-or-confliction as of its \(\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising/circumscribing/delineating preconverging/dementing}\)–qualia-schema’ in \(\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\)–qualia-schema’, and likewise with the intemporal projection as of universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism and prospectively notional–deprocrypticism over positivism–procrypticism. In this regards, the notion of preconverging-or-dementing–apriorising-psychologism as reflected as of \(\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising/circumscribing/delineating preconverging/dementing}\)–qualia-schema’ of prior relative-ontological-incompleteness is tied-to and a necessarily associated notion with that of postconverging-or-dialectical-thinking–apriorising-psychologism as reflected as of \(\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising/circumscribing/delineating postconverging/dialectical-thinking}\)–qualia-schema’ with respect to the possibility of a protracted-consciousness conceptualisation in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity — of-the-human-institutionalisation-process; and as this explains the successive construction-of-the-Self reflected in the <cumulating/recomposuring>successive registry-worldviews/dimensions. human capacity for Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—as of its growing self-consciousness and self-awareness. In fact, the notion of preconverging-or-dementing—apriorising-psychologism as such speaks of the fact that the entire cross-section of humanity as of recurrent-utter-uninstitutionalisation is of a ‘totalising/circumscribing/delineating preconverging/dementing—qualia-schema’ with respect to prospective base-institutionalisation ‘totalising/circumscribing/delineating postconverging/dialectical-thinking—qualia-schema’, and likewise universalisation with respect to base-institutionalisation—ununiversalisation, universalisation—non-positivism/medievalism with respect to positivism, and our present positivism—procrypticism with respect to prospective deprocrypticism. The fact is, even the said prospective transcendence-and-sublimity/sublimation/supererogatory—dementativity emancipators across the successive registry-worldviews/dimensions in reflecting holographically—conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process are just as equally relatively enmeshed in many ways with their reference-of-thought old psychology ‘totalising/circumscribing/delineating preconverging/dementing—qualia-schema’ like say Newton’s involvement with alchemy, and the idea of projecting to a prospective ‘totalising/circumscribing/delineating postconverging/dialectical-thinking—qualia-schema’ speaks of a first level of human uninhibitedness/decomplexification that is exactly what allows for human emancipation. This further shows how our seemingly objectified presencing—absolutising-identitive-constitutedness positivism—procrypticism disposition is all-encompassing as of our ‘totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag’ when we construe of ourselves as ‘postconverging-or-dialectical-thinking—apriorising-psychologism as of in-the-absolute’

This fundamental disjointedness explains why and how our positivist science-ideology and humanism ideology so-misconstrued beyond-the-consciousness-awareness-teleology<sup>10</sup>-<in-existential-extrication-as-of-existent-unthought> rather turns out to be denaturing<sup>15</sup> and undermines prospective Being-development/ontological-framework-development, and explains our inclination to ask the wrong questions given the false sense of certainty arising from this ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’. Such questions with regards to how the humanities can be further developed as efficaciously as the natural sciences, how can philosophy be more socially potent, and on the social paradoxes of our suboptimum institutional-development–as-to-social-function-development and living-development–as-to-personality-development, more critically point to the ontological-veracity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology<sup>100</sup>’ as of its implied intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existent-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation registry-worldviews/dimensions; and so critically by the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. In other words, the possibility of all human prospective transcendence-and-sublimity/sublimation/supererogatory de-mentativity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of incrementalism-in-relative-ontological-incompleteness\textsuperscript{89}—enframed-conceptualisation disposition but rather more concretely only after human decomplexing/uninhibiting de-mentative/structural/paradigmatic development
'weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression level for human emancipation as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation; and this is effectively reflected in all cases of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Whether of low or high emotional-involvement, it is inevitably the case that the dementative/structural/paradigmatic possibility for prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity ever always and has ever always involved or been-grounded-on-prior ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ inducing the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring; as we can appreciate for instance that without the secondnatured institutionalisation arising as from the Galilean gesturing reasoning-through/messianic-reasoning highlighted above, there wouldn’t have been the human psychology reflected in the displacement/decentering-of-the-human-subject as of the resultant reasoning-from-results/afterthought later on in the 20th century to acquiesce to such breakthroughs like theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs with barely any social contestation. Thus psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, as of human de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) implied prospective postconverging-or-dialectical-thinking–apriorising-psychologism and prior preconverging-or-

In all these instances, the sophists as of its existential-
extrication-as-of-existential-unthought with respect to social-stake-contention-or-confliction are ever always inclined to eliciting-of-immediacy-as-of-relative-ontological-incompleteness dereification for wooden-language (imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignoreable—void ’—with-regards-to-prospective-apriorising-implications)> disposition, and when the outcome of reasoning-through/messianic-reasoning dispensing-with-immediacy-for-relative-ontological-completeness by-reification /contemplative-distension accrue prospectively the sophists react as if ‘human progress occurs anyway’ as the idea of a human existential tale perpetuation and its implications is alien to the sophists since all that counts is the immediate now and its temporal/mortal social-stake-contention-or-confliction interests; and worst still, human limited-mentation-capacity in inducing prospectively relative-ontological-completeness as of the weaknesses associated in all human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity is held by the sophists against any such reasoning-through/messianic-reasoning for transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity—of-the-human-institutionalisation-process as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the
reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension which is ‘never always the easiest of notion’ for human disposition, especially as this often always implies the displacement/decentering-of-the-human-subject, it is inevitably the case that such ideal as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning’ has to reckon with the temporal social-stake-contention-or-confliction human sophistry eliciting-of-immediacy-as-of-relative-ontological-incompleteness-dereification for disposition meant at stifling the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and so beyond-the-consciousness-awareness-teleology—in-existent-extrication-as-of-existential-unthought. In all such instances as was realised by universalising-idealisation philosophers Socrates/Plato/Aristotle as well as budding-positivists, the notion of dialogical-equivalence—as-to-

reference-of-thought <amplituding/formative–epistemicity>totalising–devolved-apriorising-rule; as there can be no genuine contention between a \(\text{universalising-idealisation}\) mindset and a sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for the mere sake of preserving and avoiding the denaturing of the \(\text{universalising-idealisation}\) meaningfulness-and-teleology\(\text{or positivising/rational-empiricism}\) meaningfulness-and-teleology. This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-threshold arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretence of mutually objectifying intellection between genuine intellectualism and sophistry,
which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt
parhésiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it
effectually is; as with the universalising-idealisation philosophers not wasting their time in

in prior relative-ontological-incompleteness\textsuperscript{39} which rather warrants psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective relative-ontological-completeness\textsuperscript{1}. This is akin to the mathematician opened to mutual calculating even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance\textsuperscript{2}. <including-virtue-as-ontology> but this only holds with the mathematical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost, fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of ‘meaningfulness-and-teleology\textsuperscript{10} as of ontological-verity is about the ‘reasoning-through transversality<for-sublimating–existential-eventuating/denouement>--of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ of contentions for the determination of existence-potency\textsuperscript{7}—sublimating–nascence,—disclosed-from-prospective-epistemic-digression as of ontological-primemovers-totalitative-framework\textsuperscript{2} <amplituding/formative—epistemicity> causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing,—for-explicating-ontological-contiguity : and it is rather different from a sovereign construct grounded on sovereign choice whether there is ontological-verity or ontological-impertinence. The human existential tale as ‘humanity project’ has ever always been one of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event\textsuperscript{37} reasoning-through/messianic-reasoning’ as implied in the ‘seeding promise of human-subpotency ontological-performance\textsuperscript{2}. <including-virtue-as-ontology> equivalence/correspondence with
the full-potency-of-existence’s sublimating–nascence-as-of-its-coherence/contiguity’. The secondnatured institutionalisation constructs as of sovereign institutions and establishment frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification role and as beyond-the-consciousness-awareness-teleology surreptitiously defining what can be thought or not thought. The fact is such implied underpinning-suprasocial-constructs are mainly secondnatured whether as sovereign representation or establishment constructs, and can easily be caught up in their own amplituding-formative-epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in prior relative-ontological-incompleteness with respect to social-stake-contention-or-confliction and are thus not the absolutising framework of human meaningfulness-and-teleology, as the social knowledge-reification role must always be opened to ‘intemporal individuation ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as of the possibility of its arising in any humans and in whatever specific purviews of existence, as this is what is instigative of ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’; as it is only by the latter process that the ‘suprasocial obsession/myopism as of a given registry-worldview/dimension social-stake-contention-or-confliction’ can be superseded, as of reconstruing recurrent-utter-uninstitutionalisation underpinning–suprasocial-construct rather as of base-institutionalisation, base-institutionalisation–ununiversalisation underpinning–suprasocial-construct rather as of universalisation, universalisation–non-positivism/medievalism underpinning–suprasocial-
construct rather as of positivism, and prospectively positivism–procrypticism underpinning–suprasocial-construct rather as of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought. We can appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning–suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning–suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’, is nothing but <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which obviously doesn’t register/is-unaccounted internally because (but from the existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notional–deprocrypticism perspective) de-mentatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its defective ontological-performance–<including-virtue-as-ontology> as it surreptitiously implies that it is absolute beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>’. The fact is, it is this possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists putting into question their conventioning-referencing meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation
and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding-positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is
herein contended that, as of the implications of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, that in many ways just as the manifestation of postlogism-slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>} and underpinning—suprasocial-construct—meaningfulness-and-teleology integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism—procrypticism is equally subject to our wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>} and underpinning—suprasocial-construct underlying disjointedness-as-of—reference-of-thought muddlement of social-stake-contention-or-confliction as of our uninstitutionalised-threshold; and in both instances insightfully point to underlying reference-of-thought relative-ontological-incompleteness at destructuring-threshold—{uninstitutionalised-threshold /presublimating—desublimating-decisionality}—of-ontological-performance—which is the grander issue of aetiologisation/ontological-escalation as to the fact that fundamentally prospective positivism registry-worldview/dimension supersedes-and-deflates the vices-and-impediments of non-positivism as of animism or medievalism and thereof their devolving associated manifestations of non-positivism and specific superstitious nature as well as the idea that prospective

Stated another way, if Einstein’s or Bohr’s seminal theories were viewed say unfavourably by the physics community of their time as of their sovereign predisposition, that wouldn’t annul the ontological-veracity of their theories even if Einstein or Bohr were to acquiesce to that sovereign predisposition over their own theories, for the simple reason that knowledge is constructed as of the absolute dominance of intrinsic-reality as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression over the mortals that we as human beings are in order for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to be possible; and that reality with respect to knowledge doesn’t speak of totalitarianism as will often be sophistically usurped when it comes to the blurriness of the social domain-of-study, as the charge of totalitarianism can only apply with respect to sovereign choice. these imply various ways of reconceptualising the notions of space, time, force, etc. as of the precedence of causality as to the fact that these notions like space, time, force, etc. in amplituding/formative–epistemicity of such notions as of existentialising/contextualising/textualising-contiguity of new notions as of existentialising/contextualising/textualising-contiguity in apriorising/axiomatising/referencing-of-existentialising/contextualising/textualising-contiguity—conflatedness involving human limited-mentation-capacity-deepening hermeneutics in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness. We can appreciate that the atomising/taking-to-pieces disposition that is often wrongly sought in other domains-of-study is often ontologically-flawed because it fails to see that ‘the more elaborate panintelligibility—effusing/ecstatic–inlining nature of existentialising/contextualising/textualising-contiguity in epistemic-conflatedness in their domains-of-study’ implies that their knowledge-reification should increasingly be explicitly totalising-entailing/nested-congruence as to the hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness, as even the natural sciences are implicitly epistemically totalising-entailing by the mere fact of the ‘precedence of

This underlying amplituding/formative-epistemicity—totalising/circumscribing/delineating existentialising/contextualising/textualising-contiguity insight reflects ecstatic-existence’s supervening-conflatedness as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—(imbued-and—hermeneutically/reprojectively/supererogatingly/zeroingly-educing—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation); wherein inherently ‘more immediate epistemically constrained to ontological-primemovers-totalitative-framework’ domains-of-study like physics and the natural sciences generally are of a less elaborate

subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\(\text{<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>}\); wherein we can appreciate that the instigation of universalising-idealisation\(\text{meaningfulness-and-teleology}^{100}\) infrastructure or subsequent positivising/rational-empiricism\(\text{meaningfulness-and-teleology}^{90}\) infrastructure transform human potentiation construed as ‘human-subpotency convergence to existence’ with regards respectively to the specific base-institutionalisation or rational-empiricism/positivism self-consciousness/construction-of-the-Self implied as of the specific \(\text{Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–}\text{meaningfulness-and-teleology}^{90}\). This self-consciousness/construction-of-the-Self notion is what deflates such ‘issues implied with regards to human sovereign options/choice or freewill’ and ‘issues of natural determinism beyond human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-Self as of \(\text{Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–}\text{meaningfulness-and-teleology}^{90}\) implies ‘induced human potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism \(\text{Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–}\text{meaningfulness-and-teleology}^{90}\), however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say
animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} (as the relative-ontological-incompleteness\textsuperscript{89} in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness\textsuperscript{88} in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness\textsuperscript{88} inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} in deflating human vices-and-impediments\textsuperscript{106}, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness\textsuperscript{88}. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness\textsuperscript{89} as of a nihilistic disposition is dementatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments\textsuperscript{106}, and as the very possibility for prospective ontological-performance\textsuperscript{72}–<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism–imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic asksis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance\textsuperscript{72}–<including-virtue-as-ontology>

Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human

<amplituding/formative–epistemicity>totalising–thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory–de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-

In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance-<including-virtue-as-ontology> as of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the

of-thought, as-to-‘amplituding/formative–epistemicity’ growth-or-conflatedness'\(^{17}\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spiritedriveness’—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism is the virtuous-ontological resolution of the positivism–procrypticism registry-worldview’s/dimension’s reference-of-thought preconverging–de-mentating/structuring/paradigming vices-and-impediments\(^{16}\), as it further contendingly implies a prospective decentering and dialectical–de-mentation reflection/perspectivation of positivism–procrypticism. We can imagine that futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{10}\) as of prospective notional–deprocrypticism inclined agent given its ‘intemporal-prioritisation-of–reference-of-thought—as-conflatedness’–or-ontological-reprojecting can effectively forego the normally construed positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{10}\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as projected wooden-language–{imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing – narratives—of-the–reference-of-thought–categorical-imperatives/axioms/registry-teleology} failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ‘valued-viability’ to expend on a ‘so-construed most important work’ that can be done in a positivism–procrypticism registry-worldview/dimension, as of prospective institutionalisation into notional–deprocrypticism (more like an archaeologist might don on dirty clothing and dig their hands in mud and rubbish ‘like an animal’ to find out about the treasures that are human histories); and by that equally implying prospectively the decentering and dialectical–de-
mentation of positivism–procrypticism `<amplituding/formative>` wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}. Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/ reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and living’ in the non-positivistic social-setup as ‘grandest living’ but rather the "maximalising-recomposuring-for-relative-ontological-completeness"—unenframed-conceptualisation ‘of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective. There is nothing inherently wrong with achievement motives across all registry-worldviews/dimensions conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. However, with regards to a prior registry-worldview’s/dimension’s `<amplituding/formative>` wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}

denaturing of "meaningfulness-and-teleology" so construed prospectively, whether as of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism, such motives are necessarily superseded-and-overridden or subsumed-as-supplanted or transvaluated in the bigger picture of human eternalising aspiration as of the intemporal/longness-of-register-of―meaningfulness-and-teleology individuation mental-disposition of ‘inventing’ the successive becoming possibilities in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as inducing successively base-institutionalisation,
universalisation, rational-empiricism/positivism and prospectively deprocrypticism; as going by ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ across retrospective and by implication prospective registry-worldviews/dimensions. To rather assume the notion that ‘achievement motives across all registry-worldviews/dimensions conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of a given registry-worldview’s/dimension’s denaturing’ so-construed prospectively’ take precedence and are not ‘necessarily superseded-and-overridden or subsumed-as-supplanted or transvaluated in the bigger picture of human intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the intemporal individuation mental-disposition of ‘inventing’ the successive becoming possibilities in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, comes with the contradictory implication that the state of recurrent-utter-uninstitutionalisation should never have been transcended and overridden (as its human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview’s/dimension’s denaturing’ so-construed prospectively are rather more pertinent) in order to ‘invent’ base-institutionalisation–ununiversalisation, which contradictorily as well, as
‘biting the hand of such intemporal-disposition inventing’, should never have been transcended and overridden (as its human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview’s/dimension’s denaturing so-construed prospectively are rather more pertinent) in order to ‘invent’ universalisation–non-positivism/medievalism, which contradictorily as well, as ‘biting the hand of such intemporal-disposition inventing’, should never have been transcended and overridden (as its human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview’s/dimension’s denaturing so-construed prospectively are rather more pertinent) in order to ‘invent’ positivism–procrypticism (that is, paradoxically we shouldn’t be existing today!), and which contradictorily as well, as ‘biting the hand of such intemporal-disposition inventing’, itself should not be transcended and overridden (as its human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview’s/dimension’s denaturing so-construed prospectively are rather more pertinent) in order to ‘invent’ prospective deprocrypticism, rather reflecting intellectual absurdity; and speaking rather besides a natural weakness of human incapacity that can arise and do arise as a result of our limited-mentation-capacity rendering us unconscious/unaware/as-of-the-poorer-halves-of-ourselves which is
fathomable/understandable, of a graver problem if that was to be the case even when we then ‘understand’, of intellectual-and-moral irresponsibility of failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to do our own ‘homework’ with respect to our forerunners in the bigger notion of the human species continuous emancipation. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness-or-ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposing) as from recurrent-utter-uninstitutionalisation to modern-day positivism–procrypticism and prospectively deprocrypticism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory preconverging–de-mentating/structuring/paradigming relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the wooden-language-(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology) as deterministic thus subknowldging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing–apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft
‘inventing’. But then transcendental constructs of meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as transcendental meaningness-and-teleology involves psychical and institutional recomposuring of high contrariety implications to human temporality/shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as all knowledge is not about being responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity of an intersolipsistic nature. It is equally important to grasp that transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively notional–deprocrypticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge
has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory-dementativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior \textsuperscript{54}reference-of-thought–categorical-imperatives/axioms/registry-teleology \textsuperscript{60}with the prospective one for intemporal-preservation-entropy-or-contiguity–or-ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) \textsuperscript{55}maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{57}—unenframed-conceptualisation \textsuperscript{45}<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in contrast to a naïve \textsuperscript{5}incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the \textsuperscript{5}reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking \textsuperscript{84}reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a
scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{a} self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{a} self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding-as-of-apriorising/axiomatising/referencing\textsuperscript{b} to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as ‘reappraisals of references-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness-of-reference-of-thought. Hence it is rather ontological-completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of retrospective registry-worldviews/dimensions reference-of-thought but equally with the implication of
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity for prospective registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-normalcy/postconvergence. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency -(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) hence speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought>. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-
or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrypticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory preconverging–de-mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity ontological-primemovers-totalitative-framework induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemporality-asymmetric-subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness-of-reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in notional–deprocrypticism apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness and so over procrypticism disjointedness-as-of-reference-of-thought denaturing and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing. Interestingly this construing of
psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional~firstnatures—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness directed to the bigger and subsuming issue of relative-ontological-incompleteness reference-of-thought for inducing notional–deprocrypticism over procrypticism or positivism over non-positivism/medievalism respectively that harkens back to undermine in a decisive and nonextricatory and non-palliative manner the associated postlogism. As such implies an utter shift as the curve-of-prospective-relative-ontological-completeness reference-of-thought thus superseding the curve-of-prior-relative-ontological-incompleteness reference-of-thought now being construed as
preconverging-or-dementing\textsuperscript{19} and decentered prior institutionalisation’s—categorical-imperatives/axioms/registry-teleology\textsuperscript{10} as denaturing\textsuperscript{1}.]

The defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{15}) comparison can equally be used to illustrate how slanting is different from lying. Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{13}—defect—as-Being-or-ontological-or-existential—defect\textsuperscript{86} (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring—purpose (flaw logical-processsing/act-execution-implicitation meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not defective (thus appropriateness-of-reference-of-thought-as-of-conflatedness\textsuperscript{12}). This point to the ad-hoc nature of lying deception wherein there is nothing inherent that precludes subsequent appropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation meaningfulness where the contextual-ambiguity-constraint(s) are resolved. This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-

existentialising/contextualising/textualising-contiguity\(^9\) based on the meaning’s implied reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\) valid only inasmuch as the reference to the ‘registry elements’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\(^{100}\) is ‘existentially’ established. *Critical for ontological-veridicality of meaningfulness and knowledge, the relatively ontologically-complete-reference-of-thought defines what is meaningfulness as of its ‘soundness-or-ontological-good-faith/authenticity’–of-reference-of-thought’ construed as ‘postconverging-or-dialectical-thinking–apriorising-psychologism and centered understanding’ over the relatively ontologically-incomplete-reference-of-thought as of its ‘unsoundness-or-ontological-bad-faith/inauthenticity’–of-reference-of-thought’ construed as ‘preconverging-or-dementing–apriorising-psychologism and decentered understanding’. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising–reference-of-thought-elements/apriorising–registry-elements, and thus falsely implying the apriorising–reference-of-thought-elements/apriorising–registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\(^{100}\) as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge\(^{42}\) arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity–of-reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity–of-reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought–(reflected-as-soundness-or-ontological-good-faith/authenticity –of-reference-of-thought). But with the phenomenon of
psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied-reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology is rather obvious and we don’t normally process/operate logically the childhood psychopathy’s non-veridical hollow mimicking narratives since ‘we just invalidate those apriorising-registry-elements to start with as not of being/ontological/existential veridicality’. For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of meaning’ (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘existentialising/contextualising/textualising-contiguity sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness’ as of its unsound-reference-of-thought/unsoundness-or-ontological-bad-faith/inauthenticity -of-reference-of-thought/mental-perversion) as he simply engages his unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought by way of distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing>-9 and then reflect the reference-of-thought or registry-teleology of John as perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or mental-perversion in terms—of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology. In so doing determines that John is ‘manifesting a mental

The underlying fact about meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right and sound in abstract terms but does the apriorising–registry (reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of reference-of-thought–categorical-imperatives/axioms/registry-teleology which are: implied–logical-dueness-or-implied-scape (the implied–logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow

backtracking-<iterative-looping- 'set-of-dereifying-hollow-narratives-and-acts'>\textsuperscript{77} and corresponding conjugated-postlogic conjoining of the iterating narratives, the succeeding changing/decentering/non-cohering foci (thus revealing the ‘deliriousness/delirious-effect/cinglé-effect’ as unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{94} of reference-of-thought inducing the preconverging-or-dementing\textsuperscript{10}–apriorising-psychologism which is particularly obvious at childhood psychopathy but its perception easily gets lost at adult psychopathy with psychopath increasing maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of–social-stake-contention-or-confliction) are constantly modified with circumstantial hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> by ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of- incrementalism-in-relative-ontological-incompleteness’ — enframed-conceptualisation-inducing-the-uninstitutionalised-threshold\textsuperscript{51}; and so in order to wrongly imply the apriorising– reference-of-thought-elements/apriorising–registry-elements as the foundation for its faulty-mentation-procedure-deception-or-urge\textsuperscript{42}. However, the natural level of human interlocution engagement ‘is not the enlightenment of the retracing of an interlocutor’s sets-of-narratives’ (as this could vary anywhere from say a few days or weeks to years of supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism engagement, for such an insight to arise), but rather as of ‘specific singular circumstantial narrative of interlocution without a comprehensive existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness’-of-‘reference-of-thought’-devolving-as-of-instantiative-context projection’ by which interlocutors deduce circumstantially. Thus the postlogism -and-conjugated- postlogism habit of producing sets-of-narratives (which collective retracing reveals their unsoundness-or-
ontological-bad-faith/inauthenticity of reference-of-thought and perversion-and-derived-perversion-of reference-of-thought<as-preconvergingly-
articulating propositions based on such falsely ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness–of-reference-of-thought-devolving-as-of-instantiative-context)’. The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their reference-of-thought into the positivistic terms with their successive contentions (due to <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag), as their reference-of-thought remains rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability, and in the big picture in all likelihood can only be ‘weaned from’ crossgenerationally as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Likewise the ‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold—as-procrypticism’, thus equally implying a <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag circularity/recurrence/repetition/repeatability of the reference-of-thought as of the uninstitutionalised-threshold or procrypticism–or–disjointedness-as-of-reference-of-thought. Thus the central notion for preempting psychopathic postlogism and conjugated-postlogism is the ‘retracing of their sets-of-narratives as of existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-
prospective-relative-ontological-completeness\textsuperscript{88}-of-

This is most apparent with childhood psychopathy as with the dereifying example of spilling water on a chair where it is directly obvious there is no elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity to be had/entertained nor any logical analysis but rather maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation invalidating that the implied—logical-dueness-or-implied-scrape of the child psychopath who deliberately in a ‘dereifying act’ spills water on the chair to accuse another even exists, its implied-profile is ridiculous, just as its implied-presumptuousness-or-implied-arrogation, its implied-assumptions, its implied-value-reference and its implied-teleology (or sense-of-purpose), and such an approach will equally extend with regards to social psychopathy where by ignorance at best or ‘other cynical temporal manifestations as of conjugating affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation’ an interlocutor was to falsely imply the need for logical analysis in order to falsely validate the foundational faulty-mentation-procedure-deception-or-urge of the ‘apriorising—reference-of-thought-elements/apriorising–registry-elements (out of existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness’s–reference-of-thought’s–devolving-as-of-instantiative-context)’. This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING as of compulsive-slanting—
preconverging-or-dementing\textsuperscript{19}-apriorising is actually about ‘denaturing\textsuperscript{15} postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’\textsuperscript{20}>-with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge\textsuperscript{21} (entitlement folie/folie raisonnante)’ as opposed to a logical motivation of a supplanting–conviction-as-to-profound-supererogation--of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism or prelogic mental-disposition. It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the normal process of prelogism\textsuperscript{79}-as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> logical articulation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing\textsuperscript{15} postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation\textsuperscript{77}-or-prelogism\textsuperscript{79}-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house.
as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing\textsuperscript{15} postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation’-or-prelogism’-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if this latter narrative is proven to be false (as it is another perrersion-of reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge\textsuperscript{42} not being the logic itself, but in wrongly implying as existentially real the ‘apriorising–’ reference-of-thought-elements/apriorising–registry-elements (out of existentialising/contextualising/textualising-contiguity ’s-reifying-or-elucidating-of- prospective-relative-ontological-completeness\textsuperscript{88} of-’reference-of-thought-\textsuperscript{85} devolving-as-of- instantaneous-context’) of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{100} such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge\textsuperscript{42} paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge\textsuperscript{42} operating logical-processing-or- logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on such false axioms. Thus, with respect to postlogism\textsuperscript{78} generally what is critical for the psychopath/postlogic-mindset is to be seen as being prelogic supplanting–conviction-as-to- profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical- thinking —apriorising-psychologism even if it is a perception of ‘poor or bad supplanting– conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism since that will validate the
‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness of reference-of-thought–devolving-as-of-instantiative-context)’ on the basis that it was the logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation that was wrong hence the possibility and credibility not to question the reference-of-thought/apriorising–registry/categorical-imperatives/axioms and to re-engage logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation by ‘prelogism-as-of-conviction,-in-profound-supererogation’ <existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at re-engaging reflex’ wrongly turning the issue into one of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation instead of construing a perversion-of reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > ‘preconverging-or-dementing–apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity–reference-of-thought manifestation’). The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation or-prelogism -basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-profound-supererogation to or prelogism, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling
such hollow mimicking in hollow-constituting as disjuncted-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts as absolving/fleeting/escaping-reflex-logic among different set-of-interlocutors (this is simply because postlogism in hollow-constituting as disjuncted-misappropriation-of-meaningfulness-and-failing-intemporal-preservation operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical-attendant-intradimensional-apriorising/axiomatising/referencing’-logical-dueness’ unlike postlogism as prelogism which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical-attendant-intradimensional-apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism in hollow-constituting as disjuncted-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (which is an unusual and rare social experience given that a psychopathic personality and postlogism in hollow-constituting as disjuncted-misappropriation-of-meaningfulness-and-failing-intemporal-preservation are an outlying phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the postlogism in hollow-constituting as disjuncted-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (due to the ‘lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness⟩ as inducing vices-and-impediments which will then make it alienating) or a ‘fool-me-once-phenomenon’ where there is a relative insight on postlogism in hollow-constituting as disjuncted-misappropriation-of-meaningfulness-and-failing-intemporal-preservation from some
postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>-<postlogic-backtracking-<successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superroratory–de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. But again, this is just when the temporal prelogic/prelogism -as-of-conviction,-in-profound-superrorogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind is ignorant of the slanted mental state of the psychopath. The general and complete operative psychopath perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-superrorogation mechanism (it isn’t necessarily completed in all manifestations as is rather a ‘mental roaming/drifting-cycle disposition known as postlogism-retreating’ that carries on depending on how the situation permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s socially-perceived-value as of social-stake-contention-or-confliction target (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the
target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By large this circularity thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic-attribution. Passive or suggestive alienation as such with corresponding ‘temporal-dispositions miscuing’ which is ‘misconstrued as intrinsic ontological depth-of-conviction-as-to-profound-supererogation’. The underlying reason for the entirety of this mental process in the psychopath has to do with its ‘mere-formulaic constrained/unconstrained perception and relation to meaningfulness-and-teleology’ (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging faulty-mentation-procedure-deception/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) which poorly perceives ‘supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism contentions’ not in the ‘essence/conviction-as-to-profound-supererogation’ sense but rather as ‘formulaic mental alienation schemes’ wherein disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness (in order words the developmental psychology of the psychopath is actually to perceive supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism meaning as
enabling the (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) not as postconverging-or-dialectical-thinking\textsuperscript{11}–apriorising-psychologism\textsuperscript{\langle}stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase\rangle of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{\langle}as-to-‘attendant-intradimensional’–prospectively-disontologising\textsuperscript{–}preconverging/dementing \textsuperscript{–}apriorising-psychologism\textsuperscript{\rangle} as so-being rather distractive to organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness\textsuperscript{\langle}or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{\rangle}); to ultimately prevent its own ‘perceived social alienation’ by inducing the alienation of its ‘perceived social-stake-contention-or-confliction target’ over a social-stake-contention-or-confliction as to preconverging/postconverging–de-mentating/structuring/paradigming implications. Critically, it should be understood that passive or suggestive alienation is actually the summum of the possibilities of the psychopath’s meaningful finality that starts from prevaluation (neutral narrations). It should be noted that the mental state of the psychopath’s interlocutor as ‘ignorance-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing’–apriorising-psychologism’ is not really ontologically-speaking a prelogic/conviction-as-to-profound-supererogation\textsuperscript{97} mental state but rather technically a ‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as an ignorant of psychopathic postlogism\textsuperscript{78} in hollow-constituting\textsuperscript{\langle}as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation\rangle to which the interlocutor aligns prelogically and then miscues, and then secondly (in addition), as ‘committed-by-temporality/interest over intrinsic-veridicality’ whether in the form of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-
social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that this psychopathic manifestation process can be mimicked in the context of social psychopathy, and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing –apriorising-psychologism’. Over a given or extended period the underlying effect sought by the psychopath might stick, especially where the social target, interlocutors and others are utterly unaware of the mental state of the psychopath, and so evolving more like a social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or deliberate/dissembling adherence as if veridical to the slanted and hollow mimicking narratives of the psychopath with the corresponding perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > or mental-perversion in the social context). It is important to see that such social-discomfiture is in reality not a veridical logical ‘contention’ but in veridicality/ontologically a ‘protracted manifestation’ of notional-procrypticism/notional-disjointedness-as-of-reference-of-thought as to underlying registry-worldview/dimension uninstitutionalised-threshold perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > of both the psychopath and its interlocutors (even when the interlocutor is at best ignorant of the underlying psychopathic state), requiring ‘distractive-alignment-to-reference-of-thought-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation’, and resolved suprastructurally by a deprocryptic mindset/reference-of-thought making reference to superseding deprocryptic

Paradoxically, the normal prelogism-as-of-conviction,—in-profound-supererogation—

outlying phenomenon and hence not usually integrated in many an individual’s conceptualisation of social relations and phenomena. That’s why the manifestation of ‘poor or bad supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism’, contrasted to the psychopath’s compulsing–nonconviction/madeupness/bottomlining-⟨‘decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing⟩-induced-disontologising’–of-the–‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity>⟩, in shallow-supererogation-⟨disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness⟩ or compulsively-dementing, is ad-hoc, circumspect and highly contextualised since the prelogism-as-of-conviction,-in-profound-supererogation-⟨existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at⟩ mind even when acting temporally/badly has a hard time escaping from supplanting–conviction-as-to-profound-supererogation–of-‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism or prelogism (it has qualms/conscience) while the psychopath’s compulsing–nonconviction/madeupness/bottomlining-⟨‘decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing⟩-induced-disontologising’–of-the–‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity>⟩, in shallow-supererogation-⟨disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness⟩ is comprehensive since the psychopath naturally doesn’t attach any ‘emotional involvement’ and qualms to the meaning of the narratives it articulates (it views them just as non-veridical hollow mimicking form narratives

In so doing, the psychopath has a parallel formulaic-representation-of-meaning/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated which ‘subknowledging’/mimics’ the fundamental elements of ‘supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism deductive meaning’ such that the (adult) psychopath’s non-veridical hollow mimicking narratives come across paradoxically as highly credulous. Basically the relevant question for the psychopath is: ‘how was the hollow mimicking form that can be grasped in a prelogism\[^7\]-as-of-conviction,-in-profound-supererogation\[^7\]<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind deterministic of other prelogism\[^7\]-as-of-conviction,-in-profound-supererogation\[^7\]<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> minds behaviours, and how can I then mimic-and-project this hollow mimicking form to determine how others minds will act. a consciously active manner the empty forms of prosody in-of-themselves first and over the
intrinsic attributive essence of meaning like overemphasising the toning form (toning
triggering) and the supposition form (presumptuousness) in their expressed deductive
reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised
spontaneously when naturally expressing profound/deep conviction; thus naturally the
psychopathic mindset/ reference-of-thought has an unusually large repertoire of ‘sense of
meaningfulness associated with empty forms of prosody’ since it artificially perceives them as
more critical than the supplanting–conviction-as-to-profound-supererogation—intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism—mind’s intrinsic meaningfulness the forms of prosody are latent associated with. The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-elaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging). In fact, it is often the case that such line of rather ‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism in their ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ (pointing to vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging), and can be an advanced insight of a ‘psychopathic/postlogic and social psychopathic/conjugated-postlogism situation’, construable with an appropriate maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. This mirrors the operant case highlighted further below, wherein the implied meaningfulness (of postlogic/psychopathic, conjugated-postlogism/preconverging-or-dementing-integration and supplanting–conviction-as-to-profound-supererogation—intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism mental-dispositions) is existentially-traced as of the circularity/recurrence/repetition/repeatability as to existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_existentialising/contextualising/textualising-contiguity-reification_or_intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology to establish ontological-veridicality, and not simply operating on the ‘naïve supposition of universal human prelogism–as-of-conviction,–in-profound-supererogation’.

when this is not socially universally transparent (at uninstitutionalised-threshold). Further, the element of the need to be socially-functional-and-accordant first, implies that psychopathy is ‘more than just the drive of a pathological individual’ but inevitably psychopathy and correspondingly social psychopathy involves a ‘social split-dynamism’ wherein the ‘unordinary eliciting’ of temporal interest among some as extrinsic-attribution (praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.) is the basis for the targeting of another or others, further compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or less effectively most of our formal setups, their sociological pertinence is actually far from established, but for the fact that broad and large general education diminishes social egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the more common mental-disposition in the extended-informality

including the ‘informal spaces’ of formal setups, with the result that this is a further factor that makes psychopathy poorly graspable as simply of individual denaturing dynamics rather than of social denaturing dynamics, thus better construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level of individuals intuition about the underlying dynamism of the postlogism-compulsing–nonconviction/madeupness/bottomlining-(‘decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising’–of-the–‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity>, in-shallow-supererogation —disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–

(The implication here is that, for instance, it will be very naïve for an investigation involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors). Hence, the above phenomenon is further compounded in increasing profoundness (i.e. where the psychopath’s childhood delirium gives way to an adulthood mental articulation which is diffused/with-hardly-any-social 104universal-transparency 105}{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} -but-rather-select-transparency-to-some about the nature of the psychopath’s veridical mental state) when the ‘temporal prelogism’-as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> interlocutor’, by the mechanism of ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ at the point of lack of social 104universal-transparency 105}{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} about the psychopathic postlogism 77/slantedness 10 compulsing–nonconviction/madeupness/bottomlining-‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity>,<in-shallow-supererogation<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–

There is equally a social dynamism aspect wherein the issue of ‘social allegiance, affordability and initial prelogism’-as-of-conviction,-in-profound-supererogation <existentially-veridical–

The underlying mental-disposition of the psychopath as postlogic and the temporal prelogic/conviction-as-to-profound-supererogation’ minds pedestals that endemise/enculturate this process thus becoming conjugated-postlogism”, is known as ‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution) thus reflecting their threshold-of–
Ontologically, this requires an altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of such a-comprehensive-social-temporal-hodgepodgeing which is rather ontologically-discontinuous. This author qualifies as procrypticism preconverging-or-dementing apriorising-psychologism, and so as ‘ONTOLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emanant template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting—preconverging-or-dementing apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting in postlogic-backtracking iterative-looping set-of-dereifying-hollow-narratives-and-acts- absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical–’attendant-intradimensional– apriorising/axiomatising/referencing’-logical-dueness, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or- subknowledging ’) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge’ for postlogic slantedness’ in a given social space during its childhood to a state in which the
psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-urge’ for postlogic slantedness to attain an apparent normal social equilibrium or socially-functional-and-accordant state within any given social space as it develops into adulthood’. It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting–conviction-as-to-profound-suprerogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity—of-reference-of-thought/slantedness become harder to perceive); - INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner); - SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound); - CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-to-profound-suprerogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting–conviction-as-to-profound-suprerogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing—apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether
momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-dementing\(^1\)-apriorising, etc. oince it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding-<as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality -asymmetric-subsumption-of-temporality ’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory (de-mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism\(^7\)-slantedness is not socially-\(^{10}\)universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^9\)<as-to-’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> or ‘uninstitutionalised-threshold’\(^{11}\)) of many an interlocutor; - CRAFTINESS (with increasingly greater crude-to-polished threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^9\)<as-to-’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>): Actually when it comes to social-and-confliction-stakes, the psychopath being postlogism\(^7\)-as-of-’compulsing–nonconviction/madeupness/bottomlining’<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-’attendant-

dereifying-hollow-narratives-and-acts'). So basically, as social-and-confliction-stakes develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.) generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-contention-or-confliction' context and time might play a role in making its social consequences benign or aggravated. But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising–reference-of-thought-elements/apriorising–registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex–logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-
mentation-procedure-deception-or-urge\textsuperscript{42} points to the fact that the slanted child psychopathy mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and- implied from existentialising/contextualising/textualising-contiguity ’s-reifying-or-elucidating-of- prospective-relative-ontological-completeness\textsuperscript{88} -of- ‘reference-of-thought\textsuperscript{88} devolving-as-of-instantiative-context, which is what validates \textsuperscript{5} logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{97} as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{79}), in the formation of a basic and normal supplanting—conviction-as-to-profound-supererogation\textsuperscript{97}—of- ‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism of prelogism\textsuperscript{79} —as-of-conviction,—in-profound-supererogation <existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes— disontologising-logical-outcome-arrived-at> mindset/‘reference-of-thought’ inducing rather a postlogic\textsuperscript{10} compelling—nonconviction/madeupness/bottomlining{('<decontextualising/de- existentialising—of-attendant-intradimensional—apriorising/axiomatising/referencing>—induced— disontologising’—of-the—‘attendant-intradimensional—ontologising’—imbued— <contextualising/existentialising—attendant-ontological-contiguity>,—in-shallow— supererogation—<disontologising—perverted-outcome-sought-precedes-existentially-veridical— ‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness>) mindset/‘reference-of-thought as it relates to meaningfulness as a faulty-mentation-procedure—deception-or-urge\textsuperscript{42} relative to social-stake-contention-or-confliction’ (explaining its absolving/fleeting/escaping-reflex—logic mental-disposition); rather than as of the ‘requisite existentially veridical logical-dueness (of apriorising—‘reference-of-thought—
thinking apriorising-psychologism with respect to meaningfulness as of ‘requisite existentially veridical logical-dueness (of apriorising–reference-of-thought-elements/apriorising–registry-elements) and logical-processing-soundness driven construct’. However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’–apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality/shortness (when there is no social universal-transparency—{transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } of our acts at ‘uninstitutionalised-threshold’ thus there is not ‘intemporal social universal-transparency—{transparency-of-totalising-entailing,-as-to-entailing-

That is, abstractly, with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' humans do solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold’, from the temporal-dispositions of slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor
solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome with institutionalisation/intemporalisation and formalisations with corresponding internalisation of values or secondnaturing. However, at circumstances where the institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the ‘extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-
incompleteness-to—meaningfulness-and-teleology )’, then ‘a induced-ring-of-gyges-

‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when
‘successful’ (and not perceived deliriously but rather wrongly integrated prelogically/in-
conviction-as-to-profound-supererogation ) will often perfectly elicit an ‘induced-ring-of-
gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-

social-construct such that others will find it to their temporal self-interest to perpetuate, whether
circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can

Hence psychopathy when studied dynamically is rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-threshold \[103\] ’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-of-register-of–\[56\] meaningfulness-and-teleology\[100\]) or temporal (shortness-of-register-of– meaningfulness-and-teleology\[106\]), hence its relation to sociopathy which is a more generalised notion of social vices-and-impediments \[106\]. The social psychopathy phenomenon (in describing the underlying abstract nature of man before institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and \[104\] universal projection rules in an ‘ontological entrapment’ exercise to undermine/override temporal-dispositions subknowledging /mimicking, by virtue of its ontological-primemovers-totalitative-framework\[73\] and overall medium to long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/civilisation, in an intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, from an recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge\[\{preconverging-or-dementing \[19\] -as-if-of-sound-knowledge\}/pervert intemporal categorical-

That is, psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suppererogation> (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology) of the various institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of the reference-of-thought–categorical-imperatives/axioms/registry-teleology behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology). To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suppererogation> caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality-<for-sublimating–existential-

cumulation/institutional-recomposure—{as-to- historiality/ontological-

cohesion in conceptualising a continuity in the human emanant/becoming anthropological
experience; as putting into perspective and not excepting any particular stage of
institutionalisation/intemporalisation, as we might tend to do by focussing on the present
positive registry-worldview which is just the backend in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-
institutionalisation-process, while ignoring the ‘effective and causative intemporal-disposition
behind the institutional-cumulation/institutional-recomposure—{as-to- historiality/ontological-

Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojecting/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>>’ with us being inherently exceptional (it is the transcendental/psychoanalytic-unshackling
while institutional-recomposure stresses the peculiarity of the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposured peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional-deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure-{as-to-

Hence dimensionality-of-sublimating -{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transeptisticity/anamnestic-residuality/spirit-drivenness–equalisation} instigation recurrently inducing the institutionalisation/intemporalisation process (which is not an analogical notion but a contiguous notion as to ontological-contiguity by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’}>} rather so-reflecting ontological-contiguity as to human limited-mentation-capacity-deepening wherein existence’s ontological-contiguity construable as to nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection is not beholding to human limited-mentation-capacity at any given moment) applies universally across space and time (beyond any given registry-worldview’s/dimension’s institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemporalisation like deprocrypticism. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’}> analysis) is not, as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous  meaningfullness-and-teleology reference’ (given the contiguity in the ‘precedingness/supersedingness/ascendency-and-continuity of intemporal-preservation-entropy-
or-contiguity–or–ontological-preservation referencing’ across all cumulating/recomposuring institutionalisations); i.e. memetic contiguity as the underlying principle of memetic-reordering which is the ‘contiguous dynamism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the continuous transdimensional/transcendental relation of intemporal and temporal-dispositions’ at uninstitutionalised-threshold
, and so, across all cumulating/recomposuring institutionalisations whether from a retrospective, present or prospective perspective. Psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring process can then be defined as arising when a registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology is transcended/superseded as to human limited-mentation-capacity-deepening , at its uninstitutionalised-threshold involving-organic-comprehension-thinking in contrast with threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation –as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>; in transversality,<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–’motif-and-

This brings up the notion that while candoring/straightness is the way meaning is represented within
any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, this is just a mental-devising-representation for implying intemporality-of-thought without which meaningfulness is not functional in the registry-worldview’s/dimension’s (recomposred)-consciousness-awareness-teleology, but then at that same prior registry-worldview’s/dimension’s uninstitutionalised-threshold, transcendence-and-sublimity/sublimation/supererogatory–de-mentativity into a prospective registry-worldview’s/dimension’s (recomposred)-consciousness-awareness-teleology put into question this candoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-teleology is then represented as preconverging-or-dementing–apriorising-psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology and ontological-veridicality/ontological-contiguity of reference-of-thought (from the ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective); with the ontologically-veridical/ontological-contiguity mental-devising-representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity aestheticised–preconverging/dementing–qualia-schema–as-of-epistemic-decadence in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking<iterative-looping–set-of-dereifying-hollow-narratives-and-acts’> stranded as oblongated/decandored in reflection/perspectivation
backdrop/opportunity for the prospective registry-worldview/dimension. This when extrapolated will equally apply with our present positivism/procrypticism uninstitutionalisation/unintemporalisation for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism institutionalisation/intemporalisation, and any ‘complex’ we’ll have about that has to do with our illusion-of-the-present/present-consciousness/epistemic-totalising ~self-referencing-syncretising/mirage than the ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective). This equally explains why uninstitutionalised-threshold equally carried a complex about their registry-worldview/dimension and these complexes certainly sound unintelligible to us given our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure process. With rational-realism (deprocrypticism), institutionalisation/intemporalisation raises the issue of notional-discontiguity/epistemic-discontiguity (shallow-supererogation -of-mentally-aestheticised~preconverging/dementing –qualia-schema) (undisambiguation as notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence> are wrongly given the same elevation), and relevantly so at the procrypticism–or–disjointedness-as-of- reference-of-thought uninstitutionalised-threshold. The very specific nature of the deprocryptic transcendence-and-sublimity/sublimation/superragoraty–de-mentativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor at the procryptic uninstitutionalised-threshold, and conjugate this in meaningfulness by going beyond just logical operation/processing/contention of narratives but rather in the first instance introducing the notion of ‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation’ to avoid wrongfully operating/processing of logic by the reference-of-thought of the intemporal-disposition categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontological (i.e. is in sync with intrinsic-reality/veridicality), where the effective registries are actually temporal-dispositions thus to be construed as of their temporal references-of-thought. It involves de-mentation ⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics⟩ temporal-dispositions manifest denaturing and thus to avoid elevating temporal-dispositions to intemporal logical contending status as this result in the miscuing of meaning as of notional-discontiguity/epistemic-discontiguity <shallow-supererogation -of-mentally-aestheticised~preconverging/dementing –qualia-schema>. notional–deprocrypticism institutionalisation/intemporalisation takes stock of the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor; as successive circular/recurrent/repetitive/repeatable iterating preconverging constructs, and not as may wrongly be reflected by the natural reflex to be postconverging constructs, to emphasise the ‘dominance/supersedingness/suprastructuring of the intemporal-disposition skewing (‘intemporality–asymmetric-subsumption-of-temporality’), for relative intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity)’ for the fulsome articulation of ontology as ‘utter (postconvergence) ontological-veridicality/ontological-contiguity’ in conscious transdimensional/transcendental-memetic-depth (thinking-and-preconverging-or-dementing-dialectical-dynamism-or-dialectics) of ontological-normalcy/postconvergence or prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation (unlike all prior institutionalisations which are rather intradimensional in their meaningful-depth construed only as a closed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ‘postconverging-or-dialectical-thinking–apriorising-psychologism dynamism’). As a corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this notional–firstnatures—temporal-to-intemporal-dispositions—nature of notional–deprocrypticism institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-⟩ of ‘knowledge-notionalisation’ (knowledge as understanding not only of the ideal/intemporal but equally how the temporal/defective works distractively, to anticipate and preempt the latter perverseness but doing so rather in a superseding ontologically-minded manner) and intemporal skewing (‘intemporality -asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity)/deferential-formalisation-transference as virtue and (postconvergence) ontological-veridicality/ontological-contiguity’; in contrast to the hotchpotching of notional-discontiguity/epistemic-discontiguity ↓shallow-supererogation ↓of-mentally.

For instance, the uninstitutionalised-threshold\textsuperscript{03} for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with
universalisation–non-positivism-or-medievalism and our positivism–procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in an recurrent-utter-uninstitutionalised registry-worldview. Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-notional–firstnatures—temporal-to-intemporal-dispositions—implications which is more than just reactionary to the possibility of temporality'\text{/}shortness (shortness-of-register-of—meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of thought’ (intemporality as longness-of-register-of—meaningfulness-and-teleology) that takes abstract cognisance of temporality\text{/}shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-uninstitutionalised-threshold) to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, notional—deprocrypticism going by ontological-normalcy/postconvergence implies a mental-devising-representation of ‘non-thresholding

This is unlike the case where logical-engagement of mental-devising-representation as ‘postconverging-or-dialectical-thinking’—apriorising-psychologism'/soundness-or-ontological-good-faith/authenticity—of reference-of-thought is still relevant where there is failing/not-upholding—<as-of-apriorising/axiomatising/referencing> logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation (like calculating the answer of an arithmetic operation wrongly) so long as the reference-of-thought is sincerely/genuinely working in adherence to arithmetic axioms to produce the right answer. But this is invalid and not applicable where the issue is about deliberate disposition not to adhere to arithmetic axioms but usurp them (whether consciously, expeditiously or unconsciously). Soundness-or-ontological-good-faith/authenticity—of reference-of-thought on the other hand implies being-or-ontological-or-existential—or—meaningfulness-and-teleology disposition as of supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism (reflecting sound logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation and at worst defect—of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation) and so in effective prelogism wherein logical-process-precedes-outcome thus upholding intemporal/veracity/ontological-pertinence; so construed from a more profound ontological-normalcy/postconvergence insight. The postconverging/dialectical-thinking—apriorising-psychologism mental-devising-representations of either sound—logical-processing-or-logical-implicitation—supposedly-apriorising—in-conviction-as—to-profound-supererogation and defect—logical-processing-or-logical-implicitation—supposedly-apriorising—in-conviction-as-to-profound-supererogation with respect to subsequent acts ‘of-similar-or-protracted-contextualisation’ by their performers always harken back to a reflex of ‘postconverging-or-dialectical-thinking—apriorising-psychologism—<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>’ to imply the upholding of ‘ontological-reference/contending-reference’; and so, for the simple reason that the state of being in supplanting—conviction-as-to-profound-supererogation—of—attendant—intradimensional—postconverging/dialectical-thinking—apriorising-psychologism (whether the act is defective or not) implies a ‘mental-disposition’ of the performer to be

supposedly-apriorising-in-conviction-as-to-profound-supererogation simply have to do with inappropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, and not unsound-mental-disposition or perversion-of- reference-of-thought—supposedly-apriorising-in-conviction-as-to-profound-supererogation > (which in this latter case will speak of a mental-disposition to act as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-

Hence the postconverging/dialectical-thinking—apriorising-psychologism mental-devising-representations of either sound logical-processing-or-logical-implicitation
supposedly-apriorising-in-conviction-as-to-profound-supererogation and defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation are ‘projectively validated by reflex as possibly-of-postconverging-or-dialectical-thinking—apriorising-psychologism/possibly-of-soundness-or-ontological-good-faith/authenticity—of-reference-of-thought (and not projectively invalidated by reflex as possibly-of-preconverging-or-dementing—apriorising-psychologism/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity—of-reference-of-thought) in implying the ‘upholding of their sound reference-of-thought status’. To illustrate, suppose X and Y are contending (ontological-reference) to know what 5+4 will give as answer (ontological-veridicality), if X is using pencils to count but inadvertently misplaced a pencil or doesn’t perfectly understand how to stack up the pencils to use to count the whole lot, then where his answer was to come out as 5+4=8, we talk of defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as X sincerely wants to calculate to
produce the right answer but X’s apparently-apriorising-in-conviction-as-to-profound-supererogation failed. This doesn’t invalidate the notion that Y can still engage X as ‘possibly-of-postconverging-or-dialectical-thinking—apriorising-psychologism’/possibly-of-soundness-or-ontological-good-faith/authenticity—of-reference-of-thought in contending (appropriateness—of-reference-of-thought—as-of-conflicatedness) with respect to another arithmetic operation, that is, possibly after pointing out to X where they went wrong in their operation of arithmetic. While threshold-of-nonconviction/madeupness/bottomlining—in-shallow-supererogation—as-to—‘attendant—intradimensional’—prospectively-disontologising—preconverging/dementing—apriorising—psychologism—performers subsequent acts of-similar—or—protracted-contextualisation to their prior acts verified to be of threshold—nonconviction/madeupness/bottomlining—in-shallow-supererogation—as—to—‘attendant—intradimensional’—prospectively—disontologising—preconverging/dementing—apriorising—psychologism—are priorly projectively invalidated by reflex as ‘possibly—preconverging—or—dementing—apriorising—psychologism’/possibly—unsoundness—or—ontological—bad—faith/inauthenticity—of-reference-of-thought and not ‘possibly—postconverging—or—dialectical—thinking—apriorising—psychologism’/possibly—soundness—or—ontological—good—faith/authenticity—of-reference-of-thought in implying the ‘revoking of their sound reference status’. To illustrate, suppose X above rather slyly and deliberately (preconverging—or—dementing—apriorising—psychologism—mental—devising—representation) miscalculated (non—ontological—reference/non—contending—reference) the answer (in notional—discontiguity/epistemic-discontiguity—shallow—supererogation—of—mentally—aestheticised—preconverging/dementing—qualia—schema) and Y grasps this, then this invalidates the notion that Y can still ‘genuinely’ engage X (ontological—pertinence) with regards to another arithmetic operation of—similar—or—protracted-contextualisation, with respect

The implication being that in a contention among interlocutors in recurrent-utter-uninstitutionalisation, the mentation is very much different from ours (positivism) as any imagined pretext is a legitimate one with emphasis being rather on established dominance/subservience relations, with base-institutionalisation the mentation was to arbitrarily invoke any of a number of recognised or incidentally introduced rules that are in one’s favour and again where dominance/subservience relations played a large part, while with universalisation while power relations also played a part the rules and rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) was set/given however skewed towards the dominance of say a leader or family/clanic group or priestly class or outright social class; with positivism though, while relatively universal and empirical, the weakness lies in the ontological-contiguity of the contextualisation of rules and rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’

Interestingly, while the socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation explains how and why successive institutional-cumulation/institutional-recomposure-⟨as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected–’epistemicity-relativism’⟩⟩ are at their given institutionalisation levels on the basis of a memetic/suprastructural-meaningfulness analysis or a transcendental/transdimensional-meaningfulness analysis, the notion of socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation
actually initially applies intradimensionally in all registry-worldviews/dimensions and it is actually the ‘intemporal/ontological signal’ for the need of prospective transcending/superseding due to ‘failing/not-upholding→as-of-apriorising/axiomatising/referencing→ intradimensional ontologising/intemporal-preservation’.

Thus for instance with regards to adult psychopathy and the induced social psychopathy, it will be naïve to simply analyse on a dichotomous basis of psychopathy and its violation of social norm, with the idea that psychopathy is associated with temporal-dispositions destructuring-threshold\(\text{\textit{uninstitutionalised-threshold} /presublimating–desublimating-decisionality}~\)of-ontological-performance'\(\langle\text{excluding-virtue-as-ontology}\rangle\) ‘as of the positivism–procrypticism registry-worldview’s/dimension’s socially-betraying-threshold-of-ontologising-depth-of-analysis’/socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in conjugation to ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) and it is naïve to simply analyse on the basis that other interlocutors have an intemporal/ontological disposition, in the very first instance. Thus the need, in order to attain such a prior requisite ontological/intemporal insight, to ontologically construe (as to deferential-formalisation-transference) contexts of psychopathy and social psychopathy (and generally contexts of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \(\Rightarrow\)as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing \(\Rightarrow\)apriorising-psychologism\(\rangle\) in all registry-worldviews/dimensions to priorly achieve an ontological/intemporal insight), before conducting ‘a truly ontological/intemporal analysis’ as the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework construct, which necessarily implies projecting into a prospective/transcending/superseding registry-worldview/dimension, in this case deprocrypticism; as otherwise the ‘ordinary’ reasoning of a social context imbued with interlocutors temporal-dispositions destructuring-threshold\(\text{\textit{uninstitutionalised-}

potentially nefarious influences that may arise from pseudo-formalisms as well, and where
these are construed out of their inherent context to wrongly imply a genuine ontological
analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes
existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like
novels and films primarily meant to entertain, and in so doing may induce wrong impressions
and conceptions with regards to \(\text{perversion-of-}^\text{reference-of-thought-}^\text{as-preconvergingly-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation} \geq \) phenomenon like psychopathy wherein the whims of their creators, aesthetic
quality and ultimate financial gain are the primary driving motif, and not necessarily a profound
and candid ontological insight of the phenomenon and its social implications/consequences.
Basically, as we all know novels and films, while excellent in articulating aesthetic qualities,
are not the true world of human lives and consequences. While there is more or less some
deontological practice implemented with respect to such tendencies when it comes to issues of
gender equality, racism, recently homophobia as well as say the portrayal of victims of some
degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-
produced-from-sound-ontological-insight by their creators (which is often not the case but for a
cursory understanding focused on entertainment) is not ubiquitous especially when the relevant
‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many
in society, as is the case with regards to psychopathy and social psychopathy; such that the
influential nature of such aesthetic products broadcasted or sold to millions of people can easily
induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals-
and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied,
naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic
product with regards to psychopathy is that these often tend to be short-sighted given the
unsustainable nature of the arguments in the middle to long run, and tend to be based on
inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments
cannot truly be of entailing~<amplituding/formative-epistemicity>totalising~in-relative-
ontological-completeness as they require that others do not act likewise or their implications
should be limited to given target(s) and not be totalisingly-entailing, since their fundamental
teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive.
In this respect, one can cite at individuals-levels instances of many a human interest story
tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance
what is the underlying dynamics that lead many an organisation or corporate entities to fail
inexplicably due to grave and unprincipled mismanagement with profound social repercussions.

frame is oblivious to its procrypticism, and corresponding resolution as
notional–deprocrypticism as the prospective/transcending/superseding ontological-reference-of-

bigger notion of such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-

The reason why this is critical to grasp is that the veridical intemporal-disposition preserving emanance has to ‘organically and existentially pass-through’/reflect/perspectivate the registry-worldview/dimension—perversion-of—reference-of-thought—apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation— as to preconverging-or-dementing—apriorising-psychologism for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring on the basis of prospective—reference-of-thought—categorical-imperatives/axioms/registry-teleology, for—intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. * It is not an ‘avoidable luxury’ as it is the necessary transcendental element in establishing the backdrop for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity/prospective-institutionalisation. Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (occurring at the registry-worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal—perversion-of—reference-of-thought—apconvergingly—apriorising/axiomatising/referencing-in—

<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> (for example, no ‘God of plane’ for say an animistic mental orientation that sees gods and spirits as causative, i.e. avoiding to operate the meaningfulness-and-teleology of a transcendent registry-worldview/dimension in terms—of-axiomatic-construct of the reference-of-thought—categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the transcended registry-worldview/dimension). This starts with the would-be transcendence-and-sublimity/sublimation/supererogatory—de-mentativity inducing intellectual(s)/emancipator(s) ‘owns reflexive individuation maximalising-as-transcendental liberation/emancipation’ from the reference-of-thought—categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of such prior registry-worldview/dimension from which it/they necessarily come from as well as not heeding generalised-social-temporal-preserving-mental-inclinations; and so, consistently crossgenerationally since transcendence-and-sublimity/sublimation/supererogatory—de-mentativity/institutionalisation is ‘beyond just logical argumentation/contention’ as it points to ‘being-or-ontological existentialism/full-depth-of-existential-implications structure defect’ (defect of reference-of-thought/soundness-or-ontological-good-faith/authenticity—of-reference-of-thought, and so beyond logical defect). It is more like (a knowledge-driven/not impression-driven) ‘intemporal preservation recomposuring need or memetic-reordering/psychoanalytic-unshackling’ for institutionalised/intemporalised being/ontology over recurrent-utter-uninstitutionalised, universalised being/ontology over ununiversalised, positivistic being/ontology over non-positivism/medievalism and prospectively deprocryptic being/ontology over procrypticism—or—disjointedness-as-of-reference-of-thought. For instance, de-mentatively/structurally/paradigmatically the positivistic mental frame is in alienated-disposition/logically-incongruent and generates internal contradiction towards the non-positivism/medievalism mental frame as otherwise you have <amplituding/formative-

society which doesn’t comes to terms with the prospective positivist worldview construct as it hangs on to its non-positivist \[ \text{reference-of-thought} \text{-categorical-imperatives/axioms/registry-teleology} \], and this will equally apply prospectively between notional–deprocrypticism and procrypticism as the procryptic mindset/\[ \text{reference-of-thought} \] will strive to register meaning not prospectively taking account of procrypticism as a ‘mental perversion/defect’, and likewise retrospectively with the ‘medieval mindset’ with respect to the positivist mental frame. This obviously calls for an ‘intellectual/scientism detachment’ towards the \[ \text{perversion-of-reference-of-thought} \text{-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-sup ererogation> registry-worldview/dimension, with an intemporal-disposition sense of contributing to the bigger possibilities for of the species, i.e. intemporal/ontological/social/species/\text{universal/transcendental/\text{maximalising-recomposuring-for-relative-ontological-completeness}}\text{-unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming as opposed to an extricatory or incremental or ‘disjointedness-as-of- reference-of-thought’ or temporal-accommodation preconverging–de-mentating/structuring/paradigming which is about temporal interest, and so, beyond ‘temporal emotional involvement’ or at ‘reality personality’ wherein the notion of human temporal compromising is not an ontological notion but rather defines and qualify the nature of human temporality\text{/shortness in an ontological construct). This way of hermeneutic/reprojecting/supererogating/zeroing ‘ontological reasoning’ to arrive at ‘intemporal-or-ontological meaning’ that is beyond any \text{amplituding/formative–epistemicity>totalising–self-referencing-syncetising/self-centered/present-consciousness/illusion-of-the-present/mirage mental projection within just a given registry-worldview/dimension so as to ‘grasp fundamental intemporal-disposition as of the inherent nature of existential-reality’ is central to the notional–deprocrypticism registry-

Suprastructuralism is grounded on ontological-normalcy/postconvergence insight and places ‘abstract intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ above the \( \text{reference-of-thought–} ^{94} \text{categorical-imperatives/axioms/registry-teleology} ^{100} \) devising (supposedly for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) meant to represent it in a given registry-worldview/dimension as prior/transcended/superseding (which as such is now construed as \( \text{perversion-of–} ^{94} \text{reference-of-thought–} ^{94} \text{categorical-imperatives/axioms/registry-teleology} ^{100} \) mean to represent it in a given registry-worldview/dimension as prior/transcended/superseding (which as such is now construed as \( \text{perversion-of–} ^{94} \text{reference-of-thought–} ^{94} \text{categorical-imperatives/axioms/registry-teleology} ^{100} \)). Deprocrypticism’s suprastructuralism involves ‘intemporality\( ^{52} \)-asymmetric-subsumption-of-temporality\( ^{97} \)’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity existence-potency\( ^{38} \)-sublimating–nascence,-disclosed-from-prospective-epistemic-digression so-construed as longness-of-register-of–meaningfulness-and-teleology\( ^{106} \) over shortness-of-register-of–meaningfulness-and-teleology\( ^{106} \); and so, beyond just about a prospective moral virtue but the prospective overall the-Good/understanding/knowledge-reification\( ^{87} \)/ontological-primemovers-totalitative-framework\( ^{73} \) construct as ‘ontology and its subsuming of virtue’, just as positivism is beyond just about a moral virtue but comprehensively an overall the-Good/understanding/knowledge-reification\( ^{87} \)/ontological-primemovers-totalitative-framework\( ^{73} \) construct carrying a virtue that supersedes the vices-and-impediments\( ^{106} \) of the non-positivism/medievalism registry-worldview/dimension). It calls for a knowledge construct, whether social or physical, beyond just positivistic categorisation of knowledge but as
‘ontological-normalcy/postconvergence referentialism as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ontology’. Thus, the doppler-thinking exercise of suprastructuralism enables the conceptualisation/construal of institutionalisation-or-intemporalisation-or-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in grasping the denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology as of ontological-normalcy/postconvergence basis of analysis, and by so doing grasping the precedingness/supersedingness/ascendency of intrinsic-reality.

Referentialism involves a reference-of-thought (so-characteristic of the prospective deprocrypticism registry-worldview/dimension) construing existence and existential-conceptualisation/construal as about the ‘precedingness of becoming’ as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—confatedness rather than apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness (notwithstanding the instances of the latter’s attendant approximating-nature for conceptualisation/construal rather construed as presencing—absolutising-identitive-constitutedness). apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness tend to fallaciously imply ‘existence of things in existence’ whereas apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—confatedness rightly implies ‘things becoming in existence rather as subsumed-in-existence in a superseding–oneness-of-ontology’; so because apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness takes a simplistic shot at construal/conceptualisation of existential-reality practically presuming this to be ‘effectively absolutely real and final’ but then with human limited-mentation-capacity-deepening this is erroneous hence the need for re-
categorisation/re-adaptation/re-classification as ‘re-constitutedness\(^{13}\) of ‘reference-of-thought’ perpetually when aware of its deficiency. \(\textit{apriorising/axiomatising/referencing-\(\text{of-}
\text{existentialising/contextualising/textualising-contiguity}\)}\) conflatedness\(^{1}\) takes a shot at construal/conceptualisation of existential-reality from an open-ended insight/fugue as of referentialism from the more profound ontological-normalcy/postconvergence of existential-reality factoring in human limited-mentation-capacity-deepening\(^{13}\) as of metaphysics-of-absence\({\{\text{implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}\}}\), and as implied by the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that goes beyond \(\textit{amplituding/formative}\) wooden-language\({\{\text{imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/enatured/preconverging-or-dementing –narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology}\}}\) which are continually put into question, by being open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\(^{13}\) by a re-equilibrating metaphysics-of-absence\({\{\text{implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}\}}\)/postdication. Thus, \(\textit{apriorising/axiomatising/referencing-\(\text{of-}
\text{existentialising/contextualising/textualising-contiguity}\)}\) constitutedness\(^{13}\) will wrongly induce virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, and so, with more and more profound defective construal/conceptualisation consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by \(\textit{apriorising/axiomatising/referencing-\(\text{of-}
\text{existentialising/contextualising/textualising-contiguity}\)}\) constitutedness\(^{1}\) in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as a attendant resetting resolution for the induced ‘virtuality-or-
ontologically-flawed-construal-of-constitutedness of axiomatic-construct/reference-of-
thought’ (by elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity) that will then require another attendant resetting resolution for the subsequently induced ‘virtuality-or-
onologically-flawed-construal-of-constitutedness of reference-of-thought’ down the line when aware of its further critical defect again (though, in a sense the entire recomposuring process could be qualified as a ‘practical presencing—absolutising-identitive-
constitutedness’ exercise). But then the inherent nature of existence in relation to human limited-mentation-capacity-deepening construal of it is one of evasiveness as implied by the

The implication is beyond just the notion of knowledge construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the de-

reflecting the existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context. Applying axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—confoundedness, as so-construed in referentialism, by striving to sync with the very inherent evasive nature of existence in its imbricatedness/threadedness/recomposuring (with respect to human limited-mentation-capacity-deepening) as of referentialism is absolutely referencing on the basis of ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as being the preceding notion for construal/conceptualisation with respect to existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context, and so grasped as applying axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—confoundedness emphasises projective-insights for upholding ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Hence applying axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—confoundedness will tend to avoid systemic defects of analysis associated with applying axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness requiring re-categorisation/re-adaptation/re-classification as ‘presencing—absolutising-identitive-constitutedness’. Applying axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—confoundedness is thus naturally inclined to induce ‘appropriate-existential-elevation-of-reference-of-thought’ by the ontological and virtue implications (as ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking—differentiation-as-of-supratransversality—in-sublimating—existential-eventuating/denouement)—of-motif-and-
apriorising/axiomatising/referencing). As so articulated, these two concepts operantly address in a storied-construct/ontologically-valid-narration or any other operant conceptualisation the notion of a ‘Différance-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology’ as meaning produced apparently with the ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness’ (seemingly of veridical-ontological reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–ontological-preservation in the various instances) but actually implying ‘different relations to an ontologically veridical reference-of-thought’, underlined by the disambiguated notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence>. Further, apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness and apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness, as so articulated, are such fundamental notions with respect to how humans limited-mentation-capacity-deepening come to grasp existential-reality/ontological-veridicality that these two underlying notions are critically definitional relative to existential-construal/conceptualisation of understanding and failing-understanding, and insightfully explain the fundamental basis of the consecutive transformations of human psychologisms as induced by ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ at the transcendental/transdimensional/interdimensional-level of institutionalisations as well as at the individuation-level with respect to conception and misconceptions of ‘meaningfulness-and-teleology’ not only with respect to understanding but equally dynamics of ‘personality formation and teleological-differentiation’, and so specifically as associated with the dynamics implied of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-
incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold’). These two concepts are critical relative to grasping and analysing human choice/notions relative to reference-of-thought—categorical-imperatives/axioms/registry—teleology of meaningful-frameworks. Other implications have to do with human personality development psychology in relation to meaningfulness extending to the construal/conceptualisation of language development as well as aesthetics and virtue as
reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^5\) of-the-human-institutionalisation-process\(^6\). In a further elaboration of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness\(^{13}\) and apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness\(^7\) with respect to psychology, the reason why a prospective/transcending/superseding registry-worldview/dimension needs its own knowledge-construct reference-of-thought psychologism has to do with the fact that every registry-worldview/dimension has ‘its own specific apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness’ /conflation psychological complex reflex mechanism’ wherein its limits in the construal/conceptualisation of intrinsic-reality/ontological-veridicality are defined, and this is subpar to the prospective/transcending/superseding registry-worldview/dimension knowledge-construct reference-of-thought which thus needs its own corresponding psychologism for its superseding meaningfulness-and-teleology\(^{10}\), achieved by ‘presencing—absolutising-identitive-constitutedness’ as apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness re-categorisation/re-adaptation/re-classification’. Consider the example of the ‘God of plane’ type of expression in an animistic/base-institutionalisation setup, where their fundamental psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the line the latter’s meaningfulness-and-teleology\(^{10}\) <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^7\), by way of continuous ‘presencing—absolutising-identitive-constitutedness’ as ‘recurrent re-categorisation/re-adaptation/re-classification of the prior apriorising/axiomatising/referencing-(of–
epistemicity totalising/circumscribing/delineating reference-of-thought-devolving. Thus use of numbers is defined by other ideas in such early hunter-gather and animist societies given Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology like the notion of wealth accumulation, which will be predominantly about ‘inducing a sense of social obligation or faithfulness or deference’ from other persons, and so together with other cultural peculiarities that avoid hoarding and emphasise wealth display, gifts, etc. Psychologism (as being central in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising–contiguity ) conflatedness or rather ‘presencing—absolutising-identitive-constitutedness’ as recurrent re-categorisation/re-adaptation/re-classification of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising–contiguity ) constitutedness ), refers to the underlying human reflex mental scheme of a given registry-worldview’s/dimension’s reference-of-thought ‘allowing for its given capacity to supersede its psychological complex in construing ontological-primemovers-totalitative-framework transcendental-enabling/sublimating/supererogatory–de-mentativity and corresponding meaningfulness-and-teleology. The bigger question could be asked; why doesn’t humans in recurrent-utter-uninstitutionalisation spontaneously articulate and relate to meaningfulness-and-teleology as humans in base-institutionalisation–ununiversalisation, who do not do likewise as humans in universalisation–non-positivism/medievalism, who do not do likewise as humans in positivism–procrypticism? Is it a difference in species, as of successive species? Obviously, no! As we know from history and anthropology that cultural diffusion has shown that all humans are able to come to terms and operate at the highest forms of human registry-worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a registry-worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-setup/mentation/mental-devising-representation/consciousness-awareness–
teleology as arising and determined by its specific limited-mentation-capacity-as from relative apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness to relative apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness } construal/conceptualisation as soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-deepening, can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-deepening determining its prospective relative-ontological-completeness-of-reference-of-thought, as enabled by the ‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic deambulation’ harkens back to that of human registry-worldview’s/dimension’s institutionalisation by its socially-functional-and-accordant thresholds of notional–firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> further redefining the possibility of
uninstitutionalised-threshold as the threshold for failing/not-upholding the institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology and the possibility of prospective institutionalisation as renewing reference-of-thought—categorical-imperatives/axioms/registry-teleology for upholding intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-of-presence\( (\text{implicit}-\text{nondescript/ignorable–void } \text{as-to- presencing—absolutising-identitive-constitutedness}) \), the present registry-worldview’s/dimension’s reference-of-thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in secluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of reference-of-thought. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness-of-reference-of-thought emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing—psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that is counterintuitive to a stigmatic/mented psychology as conceptualised today. Such a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing—psychologism as of the grander ontological-normalcy/postconvergence
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ by its contiguity in grasping the implications of human temporal (pseudointemporal)-to-intemporal mental-dispositions as a contiguity of shortness-to-longness-of-register-of—meaningfulness-and-teleology should be predicative of human meaningfulness-and-teleology (much the same way that the notion of temporality-to-intemporality thresholds driven construal enables an existentially operant <amplituding/formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in—‘protensive-consciousness’-enabling-

For instance, the prospective relative-ontological-completeness’s-reifying-or-elucidating-of-reference-of-thought of rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism—{(as ‘first-level presencing—absolutising-identitive-constitutedness’ of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) induced a social universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness } as of existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-

Interestingly consider for comparison our mented/stigmatic psychology construct (which is relatively ontologically non-contiguous by the positivism registry-worldview/dimension)

meaningfulness-and-teleology

reference-of-thought as absolute value-judgment (not withstanding its prior relative-ontological-incompleteness

reference-of-thought as positivism–proscriptivism); likewise, we’ll necessarily be suspect with regards to a corresponding approach where for instance the non-positivism/medievalism mindset/ reference-of-thought equally construed a relatively ontologically non-contiguous stigmatic/mented psychology construct based on its registry-worldview/dimension

for prospective transcendence-and-sublimity/sublimation/supererogatory/de-mentativity, as it
doesn’t factor in the said registry-worldview/dimension prior relative-ontological-incompleteness

reference-of-thought which meaningfulness-and-teleology as value judgment transforms psychological-construal/psychologism. The best possible outcome in this regard is as of the construal of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence

successively across all registry-worldviews/dimensions, whether retrospectively or
prospectively. This insight about the nature of a mented/stigmatic psychology compares with
the instance about a Kantian absolute apriorising/axiomatising/referencing exercise; in that in
both instances, human mentation capacity is construed as absolutely given at all times, with that
mentation capacity rather ‘reflexively and erroneously’ absolutely construed as of the

human limited-mentation-capacity that maximalisingly-recomposes as of human shallow-to-

In this respect, ultimately the full achievement of apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity)—constitutedness will involve fully expanding the sphere of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity, as of ‘intemporal-disposition knowledge constraining construct’, for thorough construal/conceptualisation of social reality which is relatively highly prone to apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity)—constitutedness and conjugated-apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity)—constitutedness of reference-of-thought and thus resultant presencing—absolutising-identitive—constitutedness’ as of social-aggregation-enabling, hence undermining relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity of the social. Ultimately, given the comprehensive and typical underlying proneness of human limited-mentation-capacity-deepening to apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity)—constitutedness as its fundamental mentation deficiency at uninstitutionalised-threshold or as of ‘human temporal
uninstitutionalised-threshold mental-disposition’ (which it tends to resolve by ‘presencing—absolutising-identitive-constitutedness’ when aware of defective apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness) with respect to psychical-orientation, meaningfulness-and-teleology construal/conceptualisation, institutionalisation and its overall existential becoming, as so reflected in the <cumulating/recomposing>-succession of registry-worldviews/dimensions; notional-deprocrypticism by its very transcendental essence comprehensively comes into grips with the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness in positivism—procrypticism as it attains more than just ‘presencing—absolutising-identitive-constitutedness’ but an overall comprehensive apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness insight as of ontological-normalcy/postconvergence referentialism for superseding positivism—procrypticism. apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness as of ontological-normalcy/postconvergence referentialism in superseding apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness, provides resolution as of 3 aspects of meaningfulness-and-teleology: firstly, with respect to temporal instigating like psychopathic-slantedness insane-fitment ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation and its derivation with respect to temporal reprisings of such apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness as ‘conjugated-
contiguity) constittedness of reference-of-thought’ associated with conjugated-postlogism temporal reprisings by construing/conceptualising such perversion-and-derived-perversion-of reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomenon, and re-establishing social universal-transparency (transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness) that by itself is the fundamental basis for human knowledge-and-virtue; secondly, articulating the universal aetiologisation/ontological-escalation as of ontological-reconstituting–as-to-conflatedness; and thirdly, highlighting the de-mentative/structural/paradigmatic pivoting/decentering as prospective ontological-completeness-of reference-of-thought possibilities. It should be noted that ‘a mentation reflex as decentered and in de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)’ is no less valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human temporal uninstitutionalised-threshold mental-disposition’ (speaking of uninstitutionalised-threshold) as ‘a mentation reflex as centered and postconverging-or-dialectical-thinking–apriorising-psychologism’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; and so, with no relevant need for attending to any ‘psychological complexes’ with respect to a representation as of an uninstitutionalised-threshold wrongly being construed as of institutionalisation (at the uninstitutionalised-threshold) as being ‘a mentation reflex as centered and postconverging-or-dialectical-thinking–apriorising-psychologism’ instead of ‘a mentation reflex as decentered and in de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)’. The point of this
statement is that when procrypticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence-\{implicated-epistemic-veracity-of- nonpresencing-<perspective-ontological-normalcy/postconvergence>\}, the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrypticism meaningfulness-and-teleology will be represented as decentered and in \(\text{de-mentation}\) \(\text{\langle supererogatory-\text{ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics} \rangle}\) as the necessary/requisite backdrop for the construal of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ushering in notional–deprocrypticism as prospective institutionalisation. In this regard, we’ll certainly inherently relate to preceding successive uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in \(\text{de-mentation}\) \(\text{\langle supererogatory-\text{ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics} \rangle}\), though this will most probably be resisted with respect to such a representation of our denaturing of positivistic meaningfulness as our prospective procrypticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-threshold by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in \(\text{de-mentation}\) \(\text{\langle supererogatory-\text{ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics} \rangle}\)); while we can recognise successively the centered and postconverging-or-dialectical-thinking–apriorising-psychologism nature of base-institutionalisation, universalisation and positivism, though probably less so of notional–deprocrypticism institutionalisation as it points to the decentering and in \(\text{de-mentation}\) \(\text{\langle supererogatory-\text{ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics} \rangle}\) of our procrypticism uninstitutionalisation. Such institutionalisation and
uninstitutionalised-threshold construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by the concepts of apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—conflatedness as of centering and postconverging-or-dialectical-thinking—apriorising-psychologism reference-of-thought implied with institutionalisations and apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness as of decentering and ontologically/preconverging-or-dementing—apriorising-psychologism reference-of-thought implied with uninstitutionalised-threshold; prompting the respective institutionalisation and uninstitutionalised-threshold psychologisms as of the apriorising/precedingness of existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context reflecting this reality beyond and above our subpar <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reference-of-thought in positivism–procrypticism from a notional–deprocrypticism perspective, just as we’ll recognise for instance that a universalisation–non-positivism/medievalism mental-disposition contending against positivism institutionalisation meaningfulness is actually acting out a subpar <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reference-of-thought as of the apriorising/precedingness of existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context reflecting this reality beyond and above it from the positivism perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as decentered and in 

imentation—or-dialectical—de-mentionation—standing-or-attributive-dialectics) of an uninstitutionalised-threshold is hardly just one of ‘simplistic knowledge elucidation’ but rather an elucidation as of intellectual courage in bluntly asserting decentering and de-mentionation—supererogatory—ontological—de-mentionation—or-dialectical—de-mentionation—standing-or-attributive-dialectics. Intellectual courage as imbuing knowledge with organic profoundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/supererogatory—de-mentativity and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is ‘no magical knowledge technicality’ for implying a more profound ontological-completeness-of-reference-of-thought over a relatively relative-ontological-incompleteness-reference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset/reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating/supererogatory—de-mentativity rather than a conventioning sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is ‘altogether not a knowledge elucidation problem’ with respect to the implied representation of uninstitutionalised-threshold as decentered and in de-mentionation—supererogatory—ontological—de-mentionation—or-dialectical—de-mentionation—standing-or-attributive-dialectics but rather a ‘psychological complex issue’ of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in ‘psychologism terms as of amplituding/formative—epistemicity—totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, as requiring a coming to terms with the understanding implied by prospective
institutionalisation as of its more profound existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism reference-of-thought is not about the inherent knowledge implications to which the non-positivism/medievalism mindset/reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism (<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought foundation as new placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology) requisite knowledge or meaningfulness-and-teleology reference-of-thought. Such equally applies with respect to notional–deprocrypticism prospective institutionalisation relative to our procrypticism uninstitutionalised-threshold. In other words, prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is construed not in terms–as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic ontological-primemovers-totalitative-framework outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms–as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discretionl contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is grounded on such an underlying reference-of-thought associated with organic-knowledge
qualified as the institutionalisation psychology. In this regard, a chemist or botanist for
instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will
certainly not confuse the fact that its demonstration of chemical reactions or a plant
demonstration to approval in such a social-setup necessarily imply that ‘the underlying
positivism mental-disposition and mental-orientation as reference-of-thought/psychologism
construed as including the discretional contemplative aspect as of ontological-faith-notion-or-
on-positivistic organic-knowledge’ behind its thought process eventually producing the validating ontological-
pristemovers-totalitative-framework outcomes means the medieval or animistic/base-
institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much
likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology in-
existential-extrication-as-of-existential-unthought conjure up explanations/meaningfulness-
and-teleology in terms–as-of-axiomatic-construct of its non-positivistic medieval alchemic or
non-positivistic animistic reference-of-thought psychologism; as it is naïve to think that
implied organic-knowledge as of prospective institutionalisation transcendence-and-
sublimity/sublimation/supereoratory–de-mentativity requiring its own reference-of-thought
psychologism can simply be construed as ‘mechanical-knowledge’ while still
upholding/keeping the prior/transcended/superseded registry-worldview’s/dimension’s
reference-of-thought psychologism, as the organic-knowledge rather points to ‘validating
ontological-pristemovers-totalitative-framework outcomes as its mechanical-knowledge
aspect but further requires a development of the discretional contemplative aspect as of
ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the knowledge’,
grounded rather on such a prospective institutionalisation psychology as its
‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology’ synopsising-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding–oneness-of-ontology, and not the prior/superseded/transcended uninstitutionalised-threshold psychology. Such organic-knowledge gets institutionalised to an extent by the habituation as of circularity/recurrence/repetition/repeatability of the mechanical-knowledge implied reference-of-thought of meaningfulness-and-teleology as of crossgenerational psychoanalytic-unshackling involving totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the ultimate crossgenerational alignment to the prospective/transcending/superseding registry-worldview reference-of-thought, as a positivistic registry-worldview reference-of-thought. Interestingly, and so across all successive institutionalisations, what tends to be lost ‘the failure to register fully that the ‘intemporal-disposition projecting mental-disposition’ behind ontological-prime movers-totalitative-framework validating the institutionalisation of ‘mechanical-knowledge’ is rather the ‘vitality aspect’ of organic-knowledge and it is ‘not a passive dispensation’, just as well that the ‘temporal mental-dispositions’ superseded towards attaining the ‘mechanical-knowledge’ is ‘not simply a passive distraction’ with the insight that there is a contiguity as of temporal-to-intemporal mental-disposition relative to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across all the successive registry-worldviews/dimensions as at all their uninstitutionalised-threshold temporal-individuations-as-shortness-of-register-of—meaningfulness-and-teleology are a drawback to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (by adherence to ‘wooden-language—(imbued—temporal–mere–
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality aspect in preempting—disjointedness-as-of reference-of-thought or upholding jointedness’, as de-
mentatively/structurally/paradigmatically transcending the overall vices-and-impediments of positivismp–procrypticism registry-worldview/dimension. The further implication is that notional–deprocrypticism is rather construed as a perpetuating metaphysics-of-absence (implicated-epistemic-veracity-of nonpresencing-<perspective–ontological-
normalcy/postconvergence>) which driven by ontological-faith-notion-or-ontological-
fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-
being-as-of-existential-reality can then enable that way the perpetual upholding of organic-
knowledge. This ‘mechanical-knowledge by organic-knowledge’ implication for conceptualising institutional-cumulation/institutional-recomposure-{as-to-
historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-
normalcy/postconvergence-reflected-‘epistemicity-relativism’>} is validated by ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ across retrospective and by implication prospective registry-worldviews/dimensions. This can be further expounded as follows in similar terms. The ontological-contiguity67—of-the-human-
institutionalisation-process68 behind the institutional-cumulation/institutional-recomposure-{as-
to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–
onological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>} doesn’t only imply that the ontological-contiguity67—of-the-human-institutionalisation-process68 is simplistically the result of ‘social univer
sally-transparent-and-implicitly-formulated direct-constraining-construct’ successively as: non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition in recurrent-utter-uninstitutionalisation,
functioning-and-accordance notwithstanding limited-mentation-capacity, the intemporally projecting individuation will be able to summon heuristically a sense of the-Good/understanding/knowledge-reification\(^1\)/ontological-prime-movers-totalitative-framework\(^2\), from its ‘complementing grander social-universally-non-transparent-though-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation’, (beyond the mere ‘mechanical-knowledge’ of ‘rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism’) as ‘organic-knowledge’, for maximalising-recomposing-for-relative-ontological-completeness\(^8\)—unenframed-conceptualisation (as intemporal/ontological/social/species/universal/transcendental\(^7\); maximalising-recomposing-for-relative-ontological-completeness\(^8\)—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming) leading by a dynamic-cumulative-aftereffect to the subsequent prospective universalisation—non-positivism/medievalism as of the new ‘social-universally-transparent-and-implicitly-formulated direct-constraining-construct’ of universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism’ as the new ‘mechanical-knowledge’ as well as implying the ‘complementing grander social-universally-non-transparent-though-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation’, with both forming the new ‘organic-knowledge’. The ontological-contiguity—of-the-human-institutionalisation-process\(^6\) carries on this way right up to deprocrypticism, such that across the successive institutionalisations apart from the intemporal-

disposition adhering rather to wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to overcome such distortion/perversion/misconstrual; as in fact despite such a vague idealism as intemporal-romanticism, implicitly where highly pressing we tend to be obliged to recognised this temporal-to-intemporal reality as implied in the way we go about developing many a social formal construct. Thus notional—deprocrypticism knowledge as overlapping the mechanical with the organic, as of the intemporal/longness-of-register-of—meaningfulness-and-
teleology mental-disposition driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-
of-existential-reality behind the mechanical-knowledge, is a further validation of the idea of notionalisation/notional-conception/amplituding of knowledge which emphasises in principle and beforehand/as-of-a-priori a deliberative consideration of this temporal-to-intemporal human disposition in relating to mechanical-knowledge as of prospective possibilities for a better preempting of temporality/shortness and skewing towards the intemporal/longness-of-register-of—meaningfulness-and-

In which case while such intemporality²/longness cannot be construed as of a social commonness of reference-of-thought, its occurrence if it does occur can only be construed in transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing”²⁰² (more like the abstract notion of faith, by definition and as implied in many a creed, however metaphysical though, can only be solipsistic to an individual and not amenable to a commonness of social contemplation) as of abstract intersolipsism. When implied specifically with regards to psychopathy and social psychopathy (just like a superseding positivistic orientation implied with regards to notions-and-accusations-of-sorcery and medieval mindset\textsuperscript{2}/reference-of-thought to sorcery), notional–deprocrypticism as an intemporal transcendental construct implies ontological-contiguity/deconstruction/ontological-reconstituting–as-to-conflatedness\textsuperscript{2} construct of temporal-dispositions notional-discontiguity/epistemic-discontiguity `<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema> as the backdrop/grounding of the veridical reference-of-thought; as what is actually up for contention and is effective contention (organic-comprehension-thinking) over what is ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity `<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema>’, as the latter is actually in threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation `<as-to–attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism> and is not contending as organic-comprehension-thinking. Noting as well that with regards to human mentation capacity, the successive institutional-cumulation/institutional-recomposure\{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism’>\} elicit successive circumspections (as recomposured-consciousness-awareness-teleology\textsuperscript{100}) in human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} capacity that are enablers of the associated institutional-cumulation/institutional-recomposure\{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-

Critically, human analytical mentation capacity mainly disambiguates what-is-in-effect organic-comprehension-thinking and threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-\textless as-to–’attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism\textgreater, respectively as the mental-devising-representation of postconverging-or-dialectical-thinking\textsuperscript{70}–apriorising-psychologism representation and preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism representation. Equally, with regards to human mentation capacity, the effect of limited mentation capacity characterising a given registry-worldview/dimension or intradimensional level and its social-construct not only defines its inherent vices-and-impediments\textsuperscript{1} but such a social-construct further and critically structures and stifles the natural renewal of human
emancipative dispositions. For instance, non-positivism/medievalism stifling inclinations to think outside of medieval mental-dispositiona and likewise with regards to our procrypticism. The bigger point of successive institutionalisations has to do overall with their specific emancipative registry-worldview/dimension framework as fertilising the cross-section of human practical and conceptual incidental issues and endeavours as well as the virtue constructs at the said registry-worldview/dimension. What is interesting with regards to an incidental study like psychopathy and social psychopathy with respect to the grander notional-deprocrypticism institutionalisation level within the treatment of the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> meta-conceptual frame is that it provides (besides being critically important to grasp by itself as a parasitising/co-opting phenomenon that can potentially arise in all human locales) the incidental and the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework backdrop and background that informs and deepens understanding of the overall meta-conceptual analysis of perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supercerogation issues (issues arising from the tempering or false implying of the apriorising-registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology and thus inducing a fundamental flaw with the reference-of-thought in the first place, and further at a second-order level in wrongly implying the existential veridicality of logical-dueness (thus making irrelevant the construing of soundness or unsoundness) of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supercerogation), which in turn further enlighten the incidental analysis of psychopathy and social psychopath. Such dynamic and
mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation. It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity) as the fundamental notion is institutionalisation/intemporalisation entropy (intemporal-preservation contiguity; by a skewing device (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference of the averageness of human temporal-dispositions, with corresponding formalisation and internalisation as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, towards the supersedingness of the intemporal-disposition which is inherently ontological and syncs with intrinsic reality in its ontological-primemovers-totalitative-framework, and hence its supersedingness as it induces overall social virtue-as-of-ontology). Institutionalisation/intemporalisation entropy (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) involves: - recurrent-utter-uninstitutionalisation (initial state of ‘perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ that intemporally calls for the introduction of ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as base-institutionalisation), - base-institutionalisation institutionalisation/intemporalisation (whose ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ‘perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ as ununiversalisation intemporally calls for universalisation), - universalisation
idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease
theory, but accepts that de-mentatively/structurally/paradigmatically bacteria, cancer, organ
failure, etc. cause disease and that the virtue of medicine is about how to understand and
preempt the above causations; likewise deprocryptic virtue operates on a realistic grasp of
human subknowledge/mimicking/temporal-to-intemporal-solipsistic-projections at
uninstitutionalised-threshold and then strives to skew/deferential-formalisation-transference
for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-
preservation entropy/contiguity). We can garner such emanant (becoming) ‘psychoanalytic
unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic
registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s Things Fall
Apart on how a community where a traditional registry-worldview with its sense of purpose
had to deal with positivistic transcendence-and-sublimity/sublimation/supererogatory-de-
mentativity. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this
case the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is by cultural
diffusion rather than by internal philosophical transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity. Basically, all transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity involve ‘a psychoanalytic-unshackling of
this sort’. Counterintuitively, it should be understood that no transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity is rational because you rationalise by
operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives but
then the need for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity due

reception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-
imperatives by the psychoanalytic-unshackling coming from its better grasp/ontological-
primemovers-totalitative-framework of the world/intrinsic reality. Basically, we can say that
human-emanant/becoming-transcendence is the first level of human invention (incremental
inventions of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing
their own philosophical/first-level transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity to liberate themselves before
seconndaturing/institutionalising for the new possibilities for the species; noting that, this
doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins… of the world,
miraculously came up with positivism to supersede/precede/override/utter medievalism, as they
were of medieval stock but by philosophical transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity could project beyond the limits of non-
positivism/medievalism even were they were still imbued with remnants of the old like
alchemic beliefs. Hence it is the transcendental process that is actually critical)! Now what
positive can come from psychopathy? From the intemporal perspective NONE. Besides specific
social consequences of psychopathy as the context of ‘socially-perceived-value as of social-
stake-contention-or-confliction’ moves from family, neighbourhood, school, company,
administration, business, criminality, etc. depending on the development of the specific
psychopath; by and large, ontologically and as reflected by the organic-comprehension-thinking
(organicalism\ints temporal-prioritisation-of\ints reference-of-thought\ints as-conflectedness\ints ontological-reprojecting\longness-of-register-of\ints meaningfulness-and-teleology), the psychopath’s and other postlogic articulations have a nefarious effect, on social meaningfulness-and-teleology particularly in ‘spheres of extended-informality\ints susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to\ints meaningfulness-and-teleology } of society in general and social institutions, as the postlogic perversion-of-reference-of-thought\ints preconvergingly-apriorising\axiomatising\referencing-in\nonconviction/madeupness/bottomlining-as-to-shallow-supererogation induces threshold-of\ints nonconviction/madeupness/bottomlining-in-shallow-supererogation \ints as-to\ints ‘attendant-intradimensional’\ints prospectively\ints disontologising\\\\preconverging\dementing \ints apriorising\psychologism\> with many an interlocutor, and which by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect, undermines the sophistication/intricacy of thought involved with organic-comprehension-thinking (organicalism\ints temporal-prioritisation-of\ints reference-of-thought\ints as-conflectedness\ints ontological-reprojecting\longness-of-register-of\ints meaningfulness-and-teleology), and often leads to a social dynamism of plainness and mediocrity which is subpar and corrupting to social and institutions teleological potential. taken beyond individual and social contexts to the comprehensive registry-

procrystalism which as of its inherent disjointedness-as-of-reference-of-thought requires deprocrystalism. And this memetic-reordering/psychoanalytic-unshackling process, is fundamentally about ‘the precedingness/supersedingness/ascendency/postconvergence of the entropy to preserve intemporality’ known as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, with the idea that reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are as pertinent only as these preserve intemporality, and are collapsed/overridden by new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, when shown not to be preserving intemporality, as when of perversion-of-reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing–apriorising-psychologism with regards to the preceding reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Further a registry-worldview/dimension that so misanalyses is not ‘shaped’ to review but rather syncretises/is-circular in its failing/not-upholding–as-of-apriorising/axiomatising/referencing–reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation rather than implying prospective ones for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of reference-of-thought denaturing and relative-ontological-incompleteness, and endemised/enculturated (with a temporal rationalising reasoning that actually validates the veridicality of a human notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as to shallow-supererogation—to—
profound-supererogation\textsuperscript{(1)} that should not be confused with a secondnatured/institutionalised disposition in relation to virtue). This effectively forms the recomposured backdrop for prospective transcendental construct of deprocrypticism, as the ‘ontologising organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-\textsuperscript{r}reference-of-thought’–as-conflatedness -or-ontological-reprojecting/longness-of-register-of–\textsuperscript{m}meaningfulness-and-teleology\textsuperscript{(2)}) that reflects/perspectivates the protracted threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \textsuperscript{<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>}. But then, a psychopath can be so irrational that in temporal terms it might do a lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or even some other things but coming initially from a vice; as may be enabled by the psychopath’s faulty-mentation-procedure-deception-or-urge\textsuperscript{(3)} to attain an outcome). This dynamic element can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as the questions are not only how culpable is the psychopath but extend to who is temporally getting what from the psychopathic situation, what accounts and narratives should be believed, etc., thus requiring an utter and intemporally uncompromising ontological conceptualisation to construct an ontological-primemovers-totalitative-framework\textsuperscript{(4)} science. That said, beyond just about such a present worldly take to societal issues, there is a bigger question of the \textsuperscript{10}universal implications on human civilisation of postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> and \textsuperscript{7}perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation behind human civilisation. It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence

Straying into a basic elucidative anthropopsychology/the-anthropological-continuity (a novel hermeneutic/reprojecting/supererogating/zeroing approach to psychology); extrinsic-attribution is a fairly common social mental-disposition, at ‘uninstitutionalised-threshold’ as we are not inherently intemporal (the-Good as longness-of-register-of—meaningfulness-and-teleology) in our solipsistic projection but have the potential of temporal (shortness-of-register-of—meaningfulness-and-teleology) solipsistic/emanant projections of postlogism-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-\textunderscore devolving ontological-performance-<including-virtue-as-ontology>. The mechanism of institutionalisation/intemporalisation and formalisation ensures that because of the positive-opportunism that the intemporal-disposition (as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at 'socially-perceived-value as of social-stake-contention-or-confliction', it tends to skew ('intemporality \textunderscore asymmetry\textunderscore subsumption\textunderscore temporality ’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised
positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition to be inherently civilised to want to universally wish that everyone have to deal with a fair legal system, that anyway is to the credit of the institutionalisation/intemporalisation process, but that is a secondnatured/internalised construct). This explains why there is no need to breach the scientific principle known as the ‘mediocrity principle’, (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> creature in its moral/virtuous-agency); to explain why society tends to improve/progress. Rather, the intemporal-disposition de-mentatively/structurally/paradigmatically brings more overall good and hence skews (‘intemporality’-asymmetric-subsumption-of-temporality, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) man in the medium to long perspective towards ‘the-Good/understanding/knowledge-reification’/ontological-primemovers-totalitative-framework (institutionalised, formalised and internalised)’. This elucidation is important because while internalisation might point to the social good it is important to understand that when dealing with our solipsism at ‘uninstitutionalised-threshold we aren’t anymore intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology) than temporal (shortness-of-register-of–meaningfulness-and-teleology) going by the ‘mediocrity principle’, and the analysis should take account of this (by not just operating/processing logic but construing notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation with a de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) highlighting organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of–reference-of-thought’–as-conflatedness-or-ontological-

Why? The foundation of a human psychological science should be fundamentally about ‘the contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-cumulation/institutional-recomposure—as-to historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective–ontological-normalcy/postconvergence-reflected—epistemicity-relativism) or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposuring from recurrent-utter-uninstitutionalisation, based-institutionalisation–unununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows for human-subpotency survival/existence/emmanance/fulfilment/flourishing in existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency—sublimating–nascence–disclosed-from-prospective-epistemic-digression and assumes a fundamental referencing base in the study
of the psyche (noting that by saying ‘notion’ is meant, the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation covers the concepts of temporal preservation (including subknowledging, mimicking)-to-intemporal preservation, just as the notion of good covers the concepts of good-to-bad). Correspondingly, this notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involves ‘mental candoring’ where mental-devising-representation syncs with intrinsic-reality and mental decandoring where mental-devising-representation is a wrong/flawed perverted representation of intrinsic-reality. For instance, the veridical stranded mental-devising-representation we may have from a positivistic standpoint of the non-positivism/medievalism mind as oblongated/decandored is not recognised by the non-

The intemporal-disposition is rather about emphasising institutionalisation/intemporalisation percolation-channelling-in-deferential-formalisation-transference as the means and basis for prospective institutionalisation/intemporalisation. This highlights the vacuousness in all transcendental relations wherein the transcended is vacuous with respect to the transcending. Such vacuous transcendentual manifestations involves dialectically (the transcended and transcending relation with regards to:) deductive narratives instances, life episodes, life schemes, general being/existential dispositions and the specific existentialism/full-existential-depth-implications involved with a registry-worldview/dimension; wherein temporal-dispositions present-consciousness (in their illusions-of-the-present) perpetually portray candor and straightness but on retrospection are shown to be decandored and oblongated which ontologically implies these are veridically of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-

This is ontologically foundational (more like the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument grounding spirit of arithmetic cannot be undermined in any way possible and you then have the possibility of sound arithmetic thereafter). \textsuperscript{14}de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) prevents temporal-dispositions (in the articulation and re-articulation of narratives) by the ‘temporal-dispositions disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-articulated are of intemporal-disposition teleology\textsuperscript{10} hence wrongly implying candored and straightness, whereas these are in effect \textsuperscript{45}amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \textsuperscript{33}iterating narratives of temporal-dispositions teleologies’; and so, by way of coring which involves accounting-for-temporal-dispositions-defect/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism (the-perversion-of-the–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) and avoiding setting-aside which rather involves glossing-over-temporal-dispositions-defect/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism (the-perversion-of-the–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). This ensures in effect ‘the \textsuperscript{14}de-mentation

Ontology is an altogether coherent construct with no room for excepting from coherence, which
then simply implies the superseding of any such pretence of an excepting. (For instance, we can be calculating the sum \((5 * 5)+5 -5\), and make the mistake to say \(5 * 5 = 24\) but then overlook it and agree together that the answer should be \(24\) and go on to resolve the entire equation as \(24\).

This type of non-ontological thinking (a non-ontological thinking is also known as a misanalysis or misthinking or misreasoning or mislogic or preconverging-or-dementing¹⁰– apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or- contendingly-out-of-phase> or <amplituding/formative–epistemicity>totalising–self-referring-syncretising/circularity/interiorising/akrasiatic-drag¹¹ or notionaldiscontiguity/epistemic-discontiguity<shallow-supererogation of-mentally- aestheticised–preconverging/dementing –qualia-schema>, as there is no veridical meaningfulness that exists out of ontology or isn’t in ontological-contiguity¹²) is highly prevalent in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness- and-incompleteness-to–meaningfulness-and-teleology} of society as social-aggregation-enabling, the reason we strive to formalise whether in terms–as-of-axiomatic-construct of laws, institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition constructs cannot accommodate non-ontology since reality doesn’t adjust to man and it is man that adjusts to reality. The de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), -in-a-contiguity-of-increasing-ontological-normalcy/postconvergence implies that an interlocutor’s retrospectively demonstrable narratives miscuing and subsequent perversion-of- reference-of-thought-<as- preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > speaks of the real nature of its present and prospective narratives as decandored and oblongated in effect ontologically but that by an illusion-of-the-present reflex as well as for the sake of functioning we tend to represent by default such miscuing and perversion-of- reference-of-thought-<as-

meaning as straightness/candored (intemporal) which is not ontologically veridical; in which case the prospective transcended registry-worldview strands such meaningfulness as decandored/oblongated (subknowledging/mimicking) even if the mental-disposition of the transcended registry-worldview is in an illusion-of-the-present straightness/candoring mental-

For instance, the mental-devising-representation of a non-positivism/medievalism mindset/reference-of-thought relating to say an accusation of sorcery by an intemporal positivistic mindset/reference-of-thought will not be limited to that particular instance but carries the
of an ‘institutionalisation/intemporalisation constraint/secondnaturing’ and ‘not temporal-dispositions transformation into intemporal-disposition as dimensionality-of-sublimating’<\amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩; and this idea is so foundational that it is beyond-and-supersedes/precedes/overrides/utters the consciousness-awareness-teleology of temporal-dispositions such that ‘they are not called upon in argumentation’, just as we are not consciously called upon to establish whether blood flows in our body, as it is a preceding/superseding truth that supersedes/precedes/overrides/utters our thinking or not of it! Thus de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is rather intemporally/ontologically conceptualised for its validation and integration in the survival-and-flourishing imbued institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> (formalisms and internalisations) mechanism with the implied ontological-primemovers-totalitative-framework and positive-opportunism as ontological entrapment, with no temporal-dispositions firstnature-or-intemporal-level-validation but rather secondnatured-or-institutionalisation/intemporalisation-level-validation. At which point de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) articulates temporal-dispositions teleologies orientations as ‘subknowledging/mimicking/mental-perversions/slantedness manifestations at that uninstitutionalised-threshold’, i.e. the reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of temporal-dispositions undermining the very ‘intemporal-preservation-entropy’ supposedly they are supposed to uphold). non-positivism/medievalism meaningfulness-and-teleology reference-of-thought–categorical-imperatives/axioms/registry-teleology. Rather the positivistic mindset/ reference-of-thought will project the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivism (as rational-empiricism/positivising basis of reasoning) through positivism institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> and highlighting, in the bigger scheme of things, the relative sublimating efficiency and positive-opportunism of a positivism-based rule of law, social organisation, polity, nation-building, etc. based on positivism axioms and which inherent effectiveness and supersedingness/transcendence breaks the non-positivism/medievalism mindset/reference-of-thought (which are not rational-empirical/positivising and tend to essences, alchemic-logic, sorcery constructs, etc.) with its defective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This takes an utterly impersonal form (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. The ‘transcendental/transdimensional/interdimensional/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation complex-of-stranding’ refers to the counter-intuition from a registry-worldview/dimension perspective in not representing itself as stranded (decandored or oblongated or in threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism> when it is demonstrated that it is perversion-of reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-

The reason for the human ‘transcendental/transdimensional/interdimensional/maximalising-recomposing–for-relative-ontological-completeness—unenframed-conceptualisation complex-of-stranding’ is that a registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are fundamental and constitutive functional elements of its existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation and hence the complex when <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present. But then, if such a complex is to stand, the transcendental exercise by which man left the cave-to-so-called-modern-man wouldn’t have happened, and any registry-worldview/dimension (retrospective, present, prospective) that fails its own de-mentation–(supererogatory–ontological–de-mentation–or-dialectical–de-mentation—stranding-or-attributive-dialectics) as to elucidation-and-superseding-of-its- perversion-of- reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-

As an anthropopsychological disposition, rational-realism as notional—deprocrypticism just like all successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity in emphasising increasing realism counter-intuitively to a naïve temporal take is actually a ‘positive-minded/well-meaning disposition with respect to man/the-human-species’ with the idea that ‘it is better working with what intemporally/ontologically is (that is, the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework) to achieve the best intellectual-and-moral outcome for man’ than ‘working with what-one-wishes’ from a wrong temporal/impression-driven construal’. The idea of understanding the ontology of human temporal mental defect is not to ‘idle’ in a temporal circularity that defeats-and-debase the grandor of a universal/intemporal projection but rather strives to better stir man towards the intemporal-and-ontological as virtue, an exercise which while of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with regards to human temporality/shortness wouldn’t however acquiesce to the naïve disconcertment that takes the ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ of intemporality/longness for temporal correctness towards which the intemporal-disposition is definitely intransigent and uncompromising for effective intemporal-preservation-entropy-or-

postconverging–de-mentating/structuring/paradigming is actually an aspirational ideal and reference for ‘human intemporal projection towards it’ but it isn’t ontologically veridical by the inherent solipsistic human nature due to a notional–firstnaturedness—temporal-to-intemporal-
human reality, and thus the need for institutionalisation to skew (‘intemporality’–asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) towards intemporality /intemporal-preservation as human secondnaturing. This elucidation is vital in pointing out that the teleology of rational-realism as notional–deprocrypticism (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistem-reflexivity in existence as ontological (so-reflecting <amplituding/formative> disposedness-(as-to-orientation/value-construct/valuation–and–derived-parameterising) and <amplituding/formative> entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability))’ and so as to the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility ={imbued-and-‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation}), is not to strive for the wrong notion of human intemporal/ontological ‘congruence’ with respect to knowledge and virtue (as human dispositions are not congruent, as thus the idea of ontological-congruence of the intemporal-disposition with temporal-dispositions will compromise intemporality”, and hence compromise ontology), but rather to aspire for a transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ of human intemporal-disposition with respect to temporal-dispositions (as this upholds and doesn’t compromise the ontological veridicality in intemporal-disposition projection as to the ontological reality of human notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> at uninstitutionalised-threshold103). That
is, knowledge-notionalisation involving grasping and understanding both the
ignorances/desublimation/temporal-dispositions and ideals to better skew/deferential-

matters is the ideal as intemporal. Furthermore, temporal-dispositions tendency to

at all times it is always about the intrinsic reality of the arithmetic and not the agreement-
disagreement of any human interlocutors as we are all mortals and likely to corrupt such

transcendental-enabling/sublimating/supererogatory–de-mentativity) is vital to preserving
‘ontological arithmetic’ as transcendental-enabling/sublimating/supererogatory–de-mentativity,
whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with
other humans (interlocutors logical nested-congruence) instead of intemporal exercise, it is obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be corrupted and/or teleologically-degraded as more likely than not the intemporality\textsuperscript{7}/purity of mathematics will be compromised to human mortals stakes of social-and-temporal-trading as social-aggregation-enabling, and so as of postlogism\textsuperscript{7}-slantedness/\textsuperscript{\textasciitilde}ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought-\textsuperscript{\textasciitilde}devolving ontological-performance’\textsuperscript{7}-<including-virtue-as-ontology>. * It should be noted that in ‘de-mentation’ (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics),-in-a-contiguity-of-increasing-ontological-normaley/postconvergence dialecticism of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity involving the transcended and the transcending dimensions, the terms highlighting the transcended dimension like decandored, oblongated, dialectically-out-of-phasing/dialectically-primitive, etc. (as to its superseded Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\textsuperscript{10} meaningness-and-teleology\textsuperscript{10}) do not carry the same connotation as a shallower temporal analysis intradimensional to the transcended dimension (as to its given institutional-development—as-to-social-function-development and living-development—as-to-personality-development so-referenced to its given Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\textsuperscript{10} meaningness-and-teleology\textsuperscript{10}). The idea is not to idle in articulating meaningness within the dimension in need of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. For instance, a positive mind’s articulation of defective meaningness in non-positivism/medievalism registry-worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in
terms—as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful purposefulness but rather to project a positivistic worldview’s transcendental meaningful purposefulness. In that sense, actually for the social scientist and philosopher words like dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the ordinary and temporal connotations of stigmatising under a temporal extricatory preconverging—de-mentating/structuring/paradigming. Rather, these are critical and actively sought after notions that provide the ‘dialectical backdrop’ for enabling prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The idea is that these notions are veridically dialectical notions that apply in all transcendence-and-sublimity/sublimation/supererogatory—de-mentativity unlike a simplistic ‘history fixating conceptualisation’ will have. In other words, our non-positivism/medievalism ancestors’ possibility of being-represented/mental-devising-representation as dialectically-or-contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive construction of a superseding/transcendental registry-worldview/dimension that brought about the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in a notional—deprocripticism institutionalisation/intemporalisation with respect to procripticism. In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are ‘capacity-wise same’ as per notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> going by a preconverging/postconverging—de-mentating/structuring/paradigming of mentation-capacity (shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{\textdagger} to longness-of-register-of—meaningfulness-and-teleology\textsuperscript{\textdaggerdbl}) with respect to the intemporal-preservation-entropy-or—

subject, the social. In this regard, the hermeneutic/reprojecting/supererogating/zeroing exercise originates from an even more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this ‘rather relatively benign idiosyncrasy’ in this paper as the reader may come across and is the explanation for many of the author’s insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and creative insight that allows the hermeneutic/reprojecting/supererogating/zeroing design in a ‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’ analogical to a twisty puzzle cube exercise in order to infer and arrive at a profoundly explanatory hermeneutic/reprojecting/supererogating/zeroing insight extending to the possibility of a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibilities for transcendental institutionalisation/intemporalisation of notional-deprocrypticism (superseding the vices-and-impediments of, as well as human emancipation over, procrypticism). contention validity. Taken to the bigger registry-worldview/dimension or intradimensional level, this points to a registry-worldview/dimension derived-perversion state of temporal-dispositions at the present uninstitutionalised-threshold involving the subknowledging/mimicking-and-syncretising of the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness known as procrypticism–or–disjointedness-as-of-reference-of-thought, calling prospectively for deprocrypticism. Without ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting disposition the possibility for transcendence-and-sublimity/sublimation/superego–de-mentativity from perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supereogation (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology) to prospective ones which are intemporal-preservational, the institutional-cumulation/institutional-recomposure–(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism) process will not occur and be regenerative, as the circumventive/distractive-temporal-prioritisation-of-reference-of-thought mental-dispositions rather strives to arrive at an equilibrium at the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a registry-worldview/dimension whether these are intemporal-preservational or not, hence have little transcendental capacity. Going by an ‘ontologically contiguous comparison’ with reference to Arithmetic where a condition was to cause a character to resolve additionality as 1+3=5, 2+5=8, 5+6=12, etc., the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-
notional-projective-perspective) of additionality with regards to this character will always involve as of reference-of-thought--categorical-imperatives/axioms registry-teleology that subtracts 1 from the results of that character’s operations of additions (as the imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual principles of additionality (its traditional reference-of-thought--categorical-imperatives/axioms registry-teleology of simply summing directly) will be existentially rendered null and void in order to allow for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Now supposed such a framework (reference-of-thought) for resolving Arithmetic calculations now involves the contribution of 6 characters working in collaboration with each contributing their specific arithmetic principle role while taking cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-completeness-of- reference-of-thought, and so taking into account the prior mentioned character with its defect of additionality; wherein such a framework is BODMAS-based with character B working on brackets operations, character O working on order operations, character D working on division operations, character M working on multiplication operations, the priorly mentioned character A working on addition operations and character S working on subtraction operations, and so (from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective) setup for resolving arithmetic calculations (ontological-completeness-of- reference-of-thought setup). Naturally, the reference-of-thought--categorical-imperatives/axioms registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as the usual BODMAS Arithmetic rules) should apply but this is no longer existentially the case in this instance, where the equation is for instance $7(\sqrt{64}+3-1)-(6+4-2)\div2$. Going by the natural arithmetic rules for BODMAS, the equation will be resolved first with the brackets, and within the brackets for the first brackets the order operation is first carried out, that is, $\sqrt{64}=8$ and then addition $8+3=11$, then subtraction $11-1=10$. For the
second brackets, addition as 6+4=10, then subtraction as 10-2=8. The division operation then follows with the second brackets result as 8÷2=4. Then the multiplication operation with the first brackets result as 7×10=70. Finally, comes the subtraction with 70-4=66 as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence). But then, in this particular case where character A (Addition) operation of additionality is perverted as stated above as a result of its condition, the equation will resolve as √64=8, 8+3=12, 12-1=11, for the first brackets, and 6+4=11, 11-2=9, for the second brackets. The division operation with the second brackets yields 9÷2=4.5, and the multiplication operation with the first brackets yields 7×11=77. Finally, subtracting both brackets gives 77-4.5=72.5 as the final result which is ontologically wrong (from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective), and points to the fact that all the 6 BODMAS characters, not only A (Addition) the additionality defect character have failed ontological-veridicality/ontological-contiguity as of their relative-ontological-incompleteness-induced,-

Hence the notion of ontological-normalcy/postconvergence and postdication construes intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as superseding/preceding over projected \textcolor{blue}{\textless \amplituding/\formative\textgreater} wooden-language\textcolor{red}{\{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing — narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology \}} in affirming ontology/ontological-veridicality/intrinsic-reality (notwithstanding their traditional personhoods-and-socialhood-formation mental-dispositions anchored on projected \textcolor{blue}{\textless \amplituding/\formative\textgreater} wooden-language\textcolor{red}{\{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing — narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology \}}
teleology). In which case the resolution for the Arithmetic equation (supposedly where A, Addition, is unamendable due to a condition), will involve the other characters taking cognisance of A’s (Addition’s) condition and adhere to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation over projected wooden-language ⟨imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology⟩ in affirming ontology/ontological-veridicality/intrinsic-reality (as the appropriateness-of-reference-of-thought-as-of-conflicatedness over A’s induced preconverging-or-dementing-reference/ perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation). Thus the new categorical-imperatives/axiom/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation deployed with respect to resolving calculations (ontological-completeness-of-reference-of-thought will integrate the notion that additionality requires subtracting 1 from its results as well as taking cognisance that other characters will be perverted in their operation if they do not take cognisance of A’s (Addition’s) condition and subtract 1 from it before their operation (whether unconsciously by ignorance, expediently by affordability, and consciously by opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). For instance, B (Brackets) is still in a position to articulate an ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective) by factoring in all the defects as follows: by reverting all other characters operation up to the point they had to deal with A (Addition) and subtracting 1 from the results at these point before allowing the other characters operations, which then yields the right result. That is
77÷7=11 and 4.5×2=9 as reverting back, then 11-1=10 and 9-1=8 to factor in A’s (Addition’s) additionality defect to yield the results of the two brackets. Before then letting back the division and multiplication operations for both brackets respectively, giving 8÷2=4 and 7×10=70. Finally 70-4=66, giving the final result that is ontologically-veridical (in ontological-normalcy/postconvergence). So this approach is the new reference-of-thought-categorical-imperatives/axioms/registry-teleology\(^{10} \) for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation which is ontologically-veridical/of-intrinsic-reality that B should be operating. In the bigger scheme of things, this explains institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>/memetic-reordering/psychoanalytic-reorientation with respect to an animal that is always bound to perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>_ as to preconverging-or-dementing –apriorising-psychologism by the very fundamental veridicality of its notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective-ontological-normalcy/postconvergence> nature. In the bigger scheme of things, this calls for a prospective registry-worldview/dimension
institutionalisation articulation that supersedes/overrides such a temporal dynamism of
perversion-of-reflection-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation dispositions at various social roles going from A’s condition, and the potential overlooking of the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation dispositions by all the other characters (B, O, D, M and S). Underlying such an intemporal orientation is the idea that fundamentally the conjugation of such an de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) and subsequent conjugation as with B above to the temporal-dispositions of a registry-worldview/dimension speaks fundamentally of the uninstitutionalised-threshold defect of its reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with the prior registry-worldview/dimension now preconverging-or-dementing–apriorising-psychologism–<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, with a prospective institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the new straightness/candored-and-dialectically-or-contendingly-in-phase. de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) doesn’t confuse appropriateness of the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation for the prior institutionalisation as implying the prior mental-devising-representation is appropriate for
prospective institutionalisation as it needs to undergo its own requisite ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to enable and regenerate intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This by itself explains why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism with respect to one another (from the prospective perspectives), and not that we are talking about different species of humans, as transcendentalism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is the foundational concept retrospectively, presently and prospectively; even though by the illusion-of-the-present/present-consciousness/epistemic-totalising\textsuperscript{20}–self-referencing-syncretising/mirage, all dimensions, and not only ours, tend to think of themselves as definitely mentally straight/candored-and-dialectically-or-contendingly-in-phase with no uninstitutionalised-threshold\textsuperscript{19} which is obviously fallacious. The reason for this is that ‘postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity\textsuperscript{69}–of-reference-of-thought (as mental straightness/candored-and-dialectically-or-contendingly-in-phase) starts-and-ends/is-sound at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation where the reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy/configuity is in ontological-veridicality/ontological-contiguity\textsuperscript{67} of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective). Where instead such reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is of notional-discontiguity/epistemic-discontiguity \textless shallow-supererogation \textless of mentally-aestheticised–preconverging/dementing \textless–qualia-schema\textsuperscript{3}–non-ontological-and-non-

uninstitutionalised-threshold\textsuperscript{03} that requires renewed mental-devising-representation, and this
is not ontologically consistent and fundamentally undermines and overlook the idea of an

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘beyond any one

transcendental possibilities arise from human individuations that correspond to the appropriate
‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the
latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to renewed logical-basis/logic—\textless as-to—transversality—\textless for-sublimating—existential-eventuating/denouement—\textgreater of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’—going beyond the reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100} within just a given registry-worldview/dimension as if it were the absolute mental-devising-representation with respect to intrinsic-reality, and instead hold that transdimensional/transcendental (unlike ordinary meaning which reasons only on intradimensional reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100}) is what brings us closer to absolute mental-devising-representation with respect to intrinsic-reality as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). Memetism as suprastructural-meaningfulness is able to do that because it can proxy ontological-normalcy/postconvergence in a dynamic dialectical juxtapositioning/doppler-thinking of ‘postconverging-or-dialectical-thinking\textsuperscript{20}—apriorising-psychologism mental-devising-representation’ and ‘preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism mental-devising-representation’ from successive ontological dialectical-moments of human shallow limited-mentation-capacity—(as of relative apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity)—constitutedness)—to deeper limited-mentation-capacity—(as of relative apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity)—conflatedness)—behind the successive institutional-cumulation/institutional—

The conceptual pertinence in this Arithmetic ontological-contiguity comparison can be rearticulated as follows for greater clarity. As previously highlighted the developmental psychology of the psychopath from childhood to adulthood, involves a child psychopath who is dysfunctional as its subknowledging—impulse/compulsive-

It is obvious that A’s condition/subknowledging–impulse/compulsive-dementing disposition as an adult psychopath isn’t systematic with every interlocutor but rather it arises only in the face of perceived–social-stake-contention-or-confliction-and-confliction-targets and furthermore the profoundness of the postlogism–slantedness manifestation is directly related to the gravity of the perceived–social-stake-contention-or-confliction the situation and how the
‘evolving social psychopathy situation permits’. Hence the notion of A having an absolute condition wherein it increments additionality by 1 is rather an absolute ideal conceptualisation, as in reality it is a question of degree and highly circumscribed with the adult psychopath who needs to have a postlogic-equilibrium that can be socially-functional-and-accordant\textsuperscript{94}, unlike the dysfunctional child psychopath. This comparison equally articulates the nature of uninstitutionalised-threshold\textsuperscript{103}. Consider B (together with the other BODMAS characters) in the instance where despite A’s conditions they were to stick to the registry-worldview’s/dimension’s institutionalisation\textsuperscript{84} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} thus effectively producing the wrong result 7.5 for the particular equation which is not intemporal preservational (not ontologically ontological-normalcy/postconvergence) and likewise for all other equation where A’s condition applies, we’ll then be talking about an uninstitutionalised-threshold\textsuperscript{103}. The implication is that the registry-worldview/dimension then loses its qualification as being intemporally-preservational, and the psychological tool that is then elicited (from a prospective and new reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as articulated with the arithmetic technique that corrected the equation result from 7.5 to by adjusting for A’s condition which is now the reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing\textsuperscript{19}-reference/ontologically-veridical/ontological-contiguity\textsuperscript{67} registry-worldview/dimension) is known as \textsubscript{14}de-mentation–\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics\}. This subknowledging dispositions points out that the actual and given meaningfulness being subknowledged/pervertedly-represented is ontologically-veridical both registry-wise (soundness-or-ontological-good-faith/authenticity-of-reference-of-thought-wise) and logic-wise (the normal arithmetic operation of the BODMAS equation) as it is intemporally preservational and thus ontologically-veridical/reference-of-thought/ontological-contiguity. It is this pedestal that is the organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) pedestal, organic as it is both registry-wise (soundness-or-ontological-good-faith/authenticity-of-reference-of-thought-wise) and logic-wise striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. It is the superseding and intemporal pedestal for articulating ontological meaningfulness (intrinsic-attribution). The third pedestal as demonstrated involves the integrating and amplituding/formative-epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by temporal-dispositions both unconsciously (ignorance) and consciously (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) with A’s condition/sub-knowledging impulse as if it was ontologically veridical, and obviously leading to the wrong result thus failing/not-upholding-as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. psychologism≥ pedestal, as registry-wise it is not striving for intemporal-preservation-entropy- or-contiguity–or–ontological-preservation and so fundamentally its logical-contention is voided (as apriorising–registry precedes and defines logical pertinence), such that such a disposition that integrates subknowling -or-mimicking-impulse/compulsive-dementing registry-worldview-wise/dimensional-wise speaks of the registry-worldview/dimension as in 14 de-

The fourth meaningful reference is actually a variance of the given organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’–as-conflicatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) pedestal which is registry-wise and logic-wise pertinent. It is about the intellectual and virtue driven aetiologicalisation/ontological-escalation (as per this paper aim and other studies) in grasping the human ontological implications and articulating the-Good/understanding/knowledge- reification/ontological-prime-movers-totalitative-framework construct for the possibility of a conceptual insight and de-mentative/structural/paradigmatic resolution with regards to (at the registry-worldview/dimension or intradimensional level) procrypticism/the-reality-of-human- notional–firstnaturedness—temporal-to-intemporal-dispositions–so-construed-as-from-perspective–ontological-normalcy/postconvergence–with-consequential-positivistic-meaningfulness-perversion preconverging-or-dementing–apriorising-psychologism, resolved by deprocrypticism. Comparatively, for instance, articulating new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to resolve the uninstitutionalised-threshold 03 from to the ontologically-veridical, and so not only with regards to the specific but as a de- mentative/structural/paradigmatic institutionalisation/intemporalisation for perpetuating
teleology\textsuperscript{(9)} pedestal reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the registry/registry-worldview defects of both the subknowledging\textsuperscript{-}impulse pedestal and the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{-}as-to-‘attendant-intradimensional’-prospectively-disontologising~preconverging/dementing \textsuperscript{-apriorising-psychologism}\textsuperscript{-}pedestal. Ontologically-speaking, a temporal naivety with regards to psychopath and its protraction as social psychopathy is that going by the dynamism of its faulty-mentation-procedure-deception-or-urge\textsuperscript{12} towards ‘extrinsic-attribution’ (the eliciting of the temporality\textsuperscript{9}/shortness of others is the sufficient basis for getting one’s way), is that the number of people ‘convinced’ by perverted extrinsic-attribution involving social-and-temporal-trading can have any bearing to the ontological-veridicality/intrinsic-reality in any way. While temporally-speaking, psychopathic situations often lead to a-country-of-the-blind-and-the-one-eye kind of scenario, wherein a thousand blinds may strive to convention out the one-eye, but then it wouldn’t still cut it, ontologically-speaking. (Certainly, it is equally and very possible that if such a one-eye isn’t beholden to a ‘sense of intemporality’\textsuperscript{9} and it is rather temporally-inclined, it might equally take the easier route of reasoning in terms–as-of-axiomatic-construct of country-of-the-blind temporality\textsuperscript{9}/shortness whether with respect to temporally outdoing or undermining the phenomena by acting in a manner that is overall of a temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{10} nature. But that will still be temporality\textsuperscript{9}/shortness and the notion of an aetiologisation/ontological-escalation as of intemporality\textsuperscript{9}/longness will no more be better advanced. Further beyond and more than just with respect to one case of psychopathy but as of intellectual-and-moral-inequivalence/non-correspondence construing the\textsuperscript{10} universal human social phenomena of psychopathic postlogism\textsuperscript{79} and conjugated-postlogism\textsuperscript{79} across space and time together with the bigger insight of grasping human nature and the overall possibilities thereof. Insightfully, as well it won’t be surprising that such a\textsuperscript{10} universal
projection will possibly meet with a more protracted-and-protracting psychopathy and social psychopathy manifestation going by overall human temporal-to-intemporal mental-disposition existential-form-factor as varied temporal-dispositions come into the frame and are elicited, just as an intemporal projection within a non-positivism/medievalism setup aspiring for a positivistic registry-worldview/dimension-level resolutive construal of their corresponding postlogism \[78-10\] compulsing–nonconviction/madeupness/bottomlining-

\{'\<decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity>\,\<in-shallow-supererogation</disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>\} like notions-and-accusations-of-sorcery and which is not palliative to a given situation will equally elicit a social protractedness of the phenomenon as varied temporal-dispositions come into the frame and are equally elicited. But then that is an inevitability with respect to the more critical \[10\] universal projection low-life purposefulness in both meaningful-frameworks). Rather this then points to the nature of postlogic perversion-of- reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > with temporal-dispositions; (unconsciously) ignorance and (consciously) other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Ontologically, it is then the subject of contention and aetiolisation/ontological-escalation of the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness\[12\]-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology\[10\]) pedestal, both in apriorising–registry and registry-
worldview terms as it is reflected/perspectivated as \(\text{de-mentation}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). The critical reason for this is that the intemperal-disposition is rather inclined to be utter about intemperal-preservation-entropy-or-contiguity–or–ontological-preservation as the complete and sufficient stand for knowledge and virtue with anything else being denaturing much in parallel as intrinsic-reality transcendent-al-enabling/sublimating/supererogatory–de-mentativity doesn’t accommodate human temporality, and so will not even entertain involving in anyway with social-and-temporal-trading exercise which is non-ontological (since it is fundamentally a perversion-and-derived-perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, and has nothing to do with issues of defect-of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance). This can further be elucidated analysing perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of a different nature in a superseded registry-worldview/dimension like non-positivism/medievalism registry-worldview/dimension which should provide an even greater insight analysing from our present perspective, and we can then comparatively project this with respect to notional—deprocripticism and procrypticism. For instance, accusations of witchcraft in non-positivism/medievalism societies are ontologically about subknowledging /perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as-of-unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought/preconverging-or-
dementing19–apriorising-psychologism based on the fact that such societies didn’t develop and integrate notions of empirical and rational cause-and-effect positivistic ideas as 'reference-of-thought–categorical-imperatives/axioms/registry-teleology 00,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (a mentation-capacity that further furthers the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as modern-day positivistic registry-worldview), as it universally informs the present positivistic worldview and thus the impossibility to sound intelligible in case such an accusation of witchcraft is made today. So structurally, the non-positivism/medievalism society is shaped-and-inclined to integrate and entertain phantasmagorical notions of someone being accused as a witch or sorcerer. We can garner a similar insight just as with the ‘disambiguation of notional~firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence> as ontological-escalation/aetiologisation’ above, where supposed an intemporal mindset/reference-of-thought who is in a non-positivism/medievalism society was to be accused of witchcraft by someone inclined to accuse people of witchcraft (because of a pathological-condition/subknowledging95-impulse/compulsive-dementing19) and who obviously is wrong, as we know today that the notion of witchcraft is ontologically unsound and ridiculous as the ability to perform magic and the like by anyone cannot be demonstrated veridically. The disposition to accuse people of witchcraft will be the subknowledging95-impulse/compulsive-dementing19 pedestal. The disposition to entertain and further exploit such situations (as anthropologists perfectly understand the abhorrent role of such notions as witchcraft in the social-stake-contention-or-confliction of non-positivism/medievalism societies) in conjugation of temporal-dispositions that are universally-recurrent or universal across all times (postlogism78-slantedness, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) is the threshold-
intradimensional/-prospectively-disontologising–preconverging/dementing–apriorising–
psychologism–pedestal which is rather an extricatory preconverging–de-
mentating/structuring/paradigming (of the situation, to fulfil temporal inclinations or
distractive-temporal-prioritisaton and not intemporal preservation); given the lack of a social
universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing–

the idea that the notion of witchcraft is bogus, with corresponding lack of perceived
untenability/internal-contradiction/internal-incoherence/institutional-constraining of such a
notion, thus a collective-consciousness that doesn’t register it as preconverging-or-
dementing–apriorising-psychologism (as we do today) and finally, no ontological alienating
reason for not believing, endemising and enculturating the phenomenon of witchcraft. The

the non-positivism/medievalism registry-worldview/dimension is actually, in the bigger scheme
of things, what is at the basis of not only the ‘one locale accusation of witchcraft, specifically so
with this individual but its general integration as a socially viable and entertained notion in this
locale’. But more critically, from its
intemporal/ontological/social/species/universal/transcendental/maximalising-
recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation
postconverging–de-mentating/structuring/paradigming to be intemporally-preservational, more
than the notion of just attaining only to the ‘one-locale’ accusation of witchcraft, for the
intemporal mindset/’reference-of-thought in organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-’reference-of-thought’–as-conflicatedness/or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) the problem is now the insight about the intellectually and morally wrong in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of accusation of witchcraft and the implications across all societies of the human species qualified as non-positivism/medievalism, with the bigger ontological implications of this specific accusation rather being how is this enlightening de-mentatively/structurally/paradigmatically about the endemisation and enculturation of vices-and-impediments associated with superstition in the said registry-worldview/dimension. That is, the problem is now about the aetiologisation/ontological-escalation that can be made to address such lack of positivistic empirical and rational notions in all possible human societies qualified as non-positivism/medievalism. In other words, the graver ‘de-mentation’ (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) problem’ for the organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-’reference-of-thought’–as-conflicatedness/or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology)’intemporal-prioritisation-of-’reference-of-thought’–as-conflicatedness-or-ontological-reprojecting pedestal is ‘why is society non-positivism/medievalism, and it is not in ‘mentation equivalence’ with a subknowledging-impulse/compulsive-dementing mindset/’reference-of-thought pedestal accusing it of witchcraft and the specific locale where such an accusation is made in threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to-’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism>temporal prioritisation pedestal that entertains notions of witchcraft (as the intemporal mindset/’reference-of-thought
is thus anecdotally ‘boxing far below its weight’). Rather it is about articulating a comprehensive de-mentative/structural/paradigmatic dialecticism reasoning-through/utterion (not reasoning-with incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation with temporal-dispositions mindsets) between non-positivism/medievalism and positivism for prospective ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring away from the vices-and-impediments of a non-positivism/medievalism superstitious mental-disposition towards a prospective positivistic mental-disposition which is the virtue that is the ‘de-mentative/structural/paradigmatic resolution’ to the superseded registry-worldview/dimension not only superstitious specific vices-and-impediments but equally critical the overall de-mentative/structural/paradigmatic <amplituding/formative–epistemicity> causality ~ as-to-projective-totalitative–implications-of-prospective–nonpresencing for explicating-ontological-contiguity such superstition to the creative emancipation of human meaningfulness and action. With this insight the ontological ‘terms of reasoning’ of the subknowledging -impulse/compulsive-dementing pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing –apriorising-psychologismly striving to establish whether the accused is involved in witchcraft; the ‘terms of reasoning’ of the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing –apriorising-psychologismly striving to establish and examine whether the accusation of witchcraft is true or not, with all the implied existential implications meaningfulness in both cases; and the ‘terms of reasoning’ of the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of–reference-of-thought’–as-conflicatedness-

In other words, the temporal-dispositions are not logically-contending but ontologically or dialectically preconverging-or—dementing\(^{19}\)—apriorising-psychologism as they are rather the subject of contention and aetiologisation/ontological-escalation from the intemporal-disposition given that these are dialectically—or-contendingly-out-of-phase and \(<\)amplituding/formative—epistemicity\(>\)totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(>\).

The reason for the above ‘intemporal-prioritisation-of—reference-of-thought’—as—confalatedness—or-ontological-reprojecting pedestalling is simple. ‘Intemporal-prioritisation-of—reference-of-thought’—as—confalatedness—or-ontological-reprojecting pedestalling carries the implication that \(^{8}\) reference-of-thought and meaningfulness is fundamentally/ontologically

uncompromisable). Circumventive/distractive-temporal-prioritisation-of-*reference-of-thought involves various shades of *incrementalism-in-relative-ontological-incompleteness*—enframed-conceptualisation temporal-accommodation with institutionalisation being rather a seconndnaturing to a given set of *reference-of-thought-*categorical-imperatives/axioms/registry-teleology*—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as per percolation-channelling-*in-deferential-formalisation-transference* and a positive-opportunism* institutionalisation constraining. That is, in the bigger scheme when it comes to deciding between ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective) and the human temporal psyche, what gives-in is the human temporal psyche (and so for the betterment of the species); that is, from an animal that was emanantly/becomingly/solipsistically successively of a mental-devising-representation perspective preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> at recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and from a prospective articulation, procrypticism—or-disjointedness-as-of-reference-of-thought, and so respectively, for their successive institutionalisations mental-devising-representation perspectives as postconverging-or-dialectical-thinking—apriorising-psychologism—stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. In other words, across all times the ‘limits of thought’ is not ‘the averageness/banality/temporalisation of thought’ but rather ‘the disposition to intemporalise and ontologise human thought’, and so whether from a sense of intrinsic-reality one mortal is rightfully saying that the world is round and by expediency a majority of mortals are saying it is flat. That is the singular construct that man cannot lose across all
generations to enable the perpetual existential regeneration of civilisation beyond just being a secondnatured construct as mere-institutionalised-being-and-craft (which can often actually turn out to be alien to the intemporal-disposition apriorising–registry, that we can all potentially cultivate, that created, creates, and needs to keep creating the conditions for institutionalisation perpetuation)! It should be noted that the establishment of the reality of an apriorising/axiomatising/referencing–registry’s, or in the bigger picture, registry-worldview’s/dimension’s reference-of-thought, dialectical-out-of-phasing at an uninstitutionalised-threshold speaks of that apriorising–registry’s or registry-worldview’s/dimension’s reference-of-thought de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) preconverging-or-dementing apriorising-psychologism-stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase (as it is ‘devoid of reference-of-thought and correspondingly ontological-veridicality/ontological-contiguity’ given its epistem-decadence/psychopath or epistemic-decadence/psychopath’s-temporal-interlocutor, as perversion-of reference-of-thought-as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation), and so, in a state of transversality<for-sublimating–existential-eventuating/denouement>of-affirmative-and-unaffirmative–disambiguated–motif-and:

The point then is that, from a transcending registry-worldview/dimension, the relation with its transcended registry-worldview/dimension is ‘not ontologically an exercise in logical-congruence with the transcended registry-worldview/dimension as a postconverging-or-dialectical-thinking–apriorising-psychologism

(suprerogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-

iterability-trace-of-narratives-as-dots_or_existentialising/contextualising/textualising-

(suprerogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-
attributive-dialectics) in disambiguating the intemporal-disposition as ontological and temporal-
dispositions at the individuation-level; while at the registry-worldview/dimension-level it
reflects the determination of the relative registry-worldviews/dimensions as of relative-
ontological-incompleteness–of- reference-of-thought and relative-ontological-
completeness–of- reference-of-thought. The implication is that soundness-or-ontological-
good-faith/authenticity–of- reference-of-thought-of-meaningfulness is not given, as it is a
devising mechanism (mental-devising-representation) for ontological-veridicality as
dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-
preservation (ontological-normalcy/postconvergence). There is no doubt that if by some secret
manner ‘some individuals from recurrent-utter-uninstitutionalisation registry-worldview/dimension’ were to appear and be able to live in our present positivistic social-setup
(without us knowing beforehand that they are coming from the past to avoid inducing a
confounding effect in our analysis), and intent on fully living based on the ‘reference-of-
thought–categorical-imperatives/axioms/registry-teleology’-for-intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation of the recurrent-utter-uninstitutionalisation
setup, our current psychology science most probably will treat them as pathological
(preconverging-or-dementing–apriorising-psychologism). At which point, implying the
conceptualisation of such an ontological-mental-pathology or de-mentation (in contrast to a
physiological mental pathology) is much more a question of ‘ontology valour’ (ontology valour
being defined as a registry-worldview’s/dimension’s ontology depth in relation to its
conventioning limitations with respect to pure-intemporal-ontology as to ontological-
normalcy/postconvergence). But then, crazy as it may seem, this extends ontological-mental-
pathology or de-mentation conceptualisation, on those very same terms of ontology valour, not
only retrospectively but equally prospectively, as from a prospective transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity (with a corresponding insight about how
we may be that preconverging-or-dementing–apriorising-psychologism-<stranded-as-
rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> from such a
prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’s
reference-of-thought–categorical-imperatives/axioms/registry-teleology-for-intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation (of course, that is, when
occluding our illusion-of-the-present/present-consciousness_epistemic-totalising–self-
referencing-syncretising/mirage) herein construed as the prospective protensive-consciousness deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought registry-worldview/dimension. In the bigger picture, de-mentation-(supererogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attribute-dialectics) effectively will seem to place human (recomposuring)-consciousness-awareness-teleology\(^{100}\) in the backseat with ontology-in-its-inherent-dialectical-abstraction taking the frontseat in the articulation of intrinsic reality and correspondingly human mental-devising-representation. Actually, registry-worldviews/dimensions are rather prospectively *amplituding/formative* wooden-language\(\langle\)wooden-language\(\rangle\) of their own specific evolving successive existentialisms (with their full-depths-of-existential-implications specific evolving preconverging–de-mentating/structuring/paradigming), and with specific evolving percolation-channelling-\(<\text{in-deferential-formalisation-transference}>\) for prospective ontologising and ontologising-transcendence-and-sublimity/sublimation/supererogatory–de-mentativity.

Fundamentally, without the possibility of de-mentativity-of-the-human-psyche-for-prospective-institutionalisation involving de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attribute-dialectics), no registry-worldview/dimension will be transcendable (hence de-mentable/as-to-a-threshold-of-lack-of-thinking) for prospective institutionalisation. As it is from de-mentation (literally ‘de-mentation’) that an unshackling/recomposuring/reordering/new-mentation of prospective intemporal-preservation-entropy-or-contiguity–or–ontological-preservation\(^{84}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\) is possible. This is because de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attribute-dialectics) as such allows for a ‘human mentation capacity renewal’ by
transcendence-and-sublimity/sublimation/supererogatory—in-mentativity (as it is by cumulation/reordering/recomposuring the prior institutionalisation mentation-capacity for a contiguous upholding of intemporal-preservation-entropy-or-contiguity—or–ontological-preservation that transcendence-and-sublimity/sublimation/supererogatory—in-mentativity occur) of the ‘veridical’ reference-of-thought of meaningfulness’ since it dents the mental-devising-representation of the old/retrospective/superseded/transcended registry-worldview/dimension ‘as not postconverging-or-dialectical-thinking—who–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity—of—reference-of-thought but preconverging-or-dementing—who–apriorising-psychologism and dialectically-or-contendingly-out-of-phase at its uninstitutionalised-threshold and references the mental-devising-representation of the new/prospective/superseding/transcending registry-worldview/dimension as ‘effectively postconverging-or-dialectical-thinking—who–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity—of—reference-of-thought as a new-and-greater-mentation-capacity and dialectically-or-contendingly-in-phase; on the grounds that the veridicality of the reference-of-thought is what upholds ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. For instance, at its uninstitutionalised-threshold requiring a prospective positivistic registry-worldview/dimension, the non-positivism/medievalism registry-worldview/dimension which is rather superstitious/alchemic/aristocratic is rather ontologically-preconverging-or-dementing—who–apriorising-psychologism/dialectically-preconverging-or-dementing—who–apriorising-psychologism in a de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentionation—stranding-or-attributive-dialectics wherein its mental-devising-representation is preconverging-or-dementing—who–apriorising-psychologism as not thinking/unsoundness-or-ontological-bad-faith/inauthenticity—of—reference-of-thought and dialectically-or-

that unlike the other terms it ‘beats’ the ‘intuition for intradimensional/non-transcendental/non-transdimensional reasoning’ and succeeds to convey, overcoming the counter-intuition, the requisite transdimensional/transcendental reasoning that achieves ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation); as this counter-intuition for transdimensional reasoning (which is not easily superseded and not even by this author articulating the notion but for this abstraction insight) is basically due to the subconscious-strength of the ‘intradimensional-subknowledging-normalcy’ (epistemic-totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) reference of personhood-and-socialhood-formation existentialism/full-depth-of-existential-implications such that the other notions will tend-to-get-lost-down-the-line by unconsciously returning to and/or admitting to the wrong intradimensional reflex-conceptualisations, at one point or the other, and so in lieu of and undermining the ontological-veridicality of the effectively veridical transcendental reality.

of superseding/transcending registry/registry-worldview-or-dimension (as straight/candored-and-dialectically-or-contendingly-in-phase) and a superseded/transcended registry/registry-worldview-or-dimension (as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); around which all other dynamic constructions fall in place (whether organic-comprehension-thinking or threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing—apriorising-psychologism>, circumventive/distractive-temporal-prioritisation-of-reference-of-thought,
subknowledging*-impulse, etc.). The other deconstructing terms while having specific analytical bearings do not carry this all-encompassing quality that liberates from ‘intradimensional-subknowledging -normalcy’ (epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) as de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) does as it further induces ‘transdimensional or memetic thinking’ by its implied de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) in meeting up with ‘ontological-normalcy/postconvergence’ (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). For instance, while the term registry-worldview’s/dimension’s-uninstitutionalised-threshold –defect<-as-Being-or-ontological-or-existential–defect> brings to the mind a poor ontological disposition like the other BODMAS characters disposition to systematically operate additionality overlooking A’s condition, but it is a sense of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) that carries the intuition of an uninstitutionalised-threshold, and construes a superseding/transcending registry/registry-worldview-or-dimension and a superseded/transcended registry/registry-worldview-or-dimension, and all the implications thereof. Now analysing the registry-worldview’s/dimension’s-uninstitutionalised-threshold –defect<-as-Being-or-ontological-or-existential–defect> term thereafter, we grasp that it is the ‘<amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ in ‘notional-discontiguity/epistemic-discontiguity<-shallow-supererogation -of-mentally-aesthetised~preconverging/dementing –qualia-schema> apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of the perversion-of- reference-of-thought<-as-preconvergingly-

Specifically, \textsuperscript{14}de-mentation\textsuperscript{6} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) as such implies registry-worldview/dimension’s-uninstitutionalised-threshold \textsuperscript{10}–defect<-as-Being-or-ontological-or-existential–defect\textsuperscript{86}/not-just-a-logical-processing-or-an-implication-of-act-execution-or-a-implication-of-notion-of-agreement-or-disagreement-defect’ wherein we can perceive the complete picture of a registry-worldview/dimension defect by its relative-ontological-incompleteness \textsuperscript{89}-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ <as-to-'attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>’ like recurrent-utter-uninstitutionalisation (with respect to base-institutionalisation), ununiversalisation (with respect to \textsuperscript{10}universalisation), non-positivism/medievalism (with respect to positivism) and our own dimension procrypticism’s (the-'preconverging-or-dementing ‘–apriorising-psychologism of positivistic-meaningfulness) \textsuperscript{14}de-mentation\textsuperscript{6} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) (with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of prospective deprocrypticism). A similar articulation
can be made with regards to each of the other deconstructing terms where de-mentation\textsuperscript{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)} provides the better overarching conceptualisation from an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference). considered circumventive/distractive-temporal-prioritisation-of-reference-of-thought over inherent ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; at which point of uninstitutionalised-threshold, de-mentation-supererogatory–ontological–de-mentation-or-

(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)) for a renewed/prospective mentation for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting that ‘supersedes deterministically and operantly, without any discretion allowed’, circumventive/distractive-temporal-prioritisation-of-reference-of-thought. That is de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is effectively the notion that, in recognition of the unchanging, preceding and inherent nature of intrinsic-reality with respect to the human psyche (and its mental-devising-representation of intrinsic reality) which is what ‘gives-in’/collapses ontologically/as-an-ontological-reference; enables, for the articulation of new mentations as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, the ‘giving-in’/collapsing of the mental-devising-representation of successive institutional-cumulation/institutional-recomposure–(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>) mindsets, notwithstanding the fact that the de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) (of their reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is unintelligible/existentially-suprastructural to these superseded/transcended registry-worldviews/dimensions mindsets due to their <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage disposition. Supposed we were to make a profound analysis of our contiguous human mental-devising-representation/consciousness-awareness-
teleology\(^0\) (in-dialectical/recomposuring-moments) from the appearance of human beings on earth, the effective linkage as new-mentions between those successive recomposuring moments (whether recurrent-utter-uninstitutionalisation, base-institutionalisation-ununiversalisation, \(^1\)universalisation–non-positivism-or-medievalism, positivism–procrypticism and prospectively perpetuation-of-deprocrypticism) is as \(^1\)de-mention\(_{\text{supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics}}\) in \(^1\)de-mention\(_{\text{supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics}}\); and this thus predicates or rather postdicates as well our own registry-worldview/dimension \(^1\)de-mention\(_{\text{supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics}}\) over and as denaturing\(^1\) positivistic meaningfulness \(^8\)reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (procrypticism) and implying a prospective need for deprocrypticism. Postdication, when alluding to an \(^1\)de-mention\(_{\text{supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics}}\) defining psychological science, will effectively hold that the conceptualisation of the social is very much a contiguous ontological disambiguation of a preconverging-or-dementing\(^1\)–apriorising-psychologism social of personhoods-and-socialhood-formation in existentialism/full-depth-of-existential-implications of notional~firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence>, from a prospective registry-worldview’s/dimension’s \(^8\)reference-of-thought in ontological-normalcy/postconvergence. Postdication means reasoning from a basis of ontological-normalcy/postconvergence wherein the prior/transcended/superseded registry-worldview/dimension is no longer referenced/registered/decisioned (as \(^8\)reference-of-thought) but ‘dialectically preconverging-or-
dementing \(^\text{\textsuperscript{19}}\)–apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity\(^\text{\textsuperscript{19}}\)-reference-of-thought’ while the prospective/transcending superseding registry-worldview/dimension is referenced/registered/decisioned (as reference-of-thought) as ‘postconverging-or-dialectical-thinking\(^\text{\textsuperscript{20}}\)–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’ in construing meaningfulness. The grander issue that always arises is in existentialism terms, whether with regards to an obvious human disposition for temporal-accommodation as circumventive/distractive-temporal-prioritisation-of-reference-of-thought of being-and-existence as conceptualised within the successions-of-existing-in-human-life-spans or rather an abstract eternal-projecting disposition of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness\(^\text{\textsuperscript{12}}\)-or-ontological-reprojecting wherein the articulation of meaning, being and existence is in existentialism-terms intemporally-driven on the basis that that which is in need of transcendence-and-the-intemporal (the temporal) cannot be seen-as-or-made-a-reference-of-intemporal/ontological-thought, and that it is exactly for that reason that human progress has been and will remain dialectically possible. That is, the reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing\(^\text{\textsuperscript{19}}\)-reference) can only be the pedestalling of an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting as ontology with regards to apriorising-registry, contrasted to a circumventive/distractive-temporal-prioritisation-of-reference-of-thought-reference implying a perverted-registry reflected/perspectivated by its de-mentation\(^\text{\textsuperscript{14}}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics). Where the natural world is resolute with no compromise with the operation of such a notion as 1+1=2, the same cannot be resolutely affirmed in the human social-and-temporal-trading in the social world where on occasions 1+1 will add up to 5 where the effective constraining of institutionalisation is lacking. \(^\text{\textsuperscript{14}}\)de-mentation\(^\text{\textsuperscript{14}}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-
attributive-dialectics) (stranding) has the merits of articulating that for ⁸⁴reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing ⁸⁴-reference) to establish veridicality, no such social-and-temporal-trading is beyond ontological-entrapment ‘by re-institutionalisation with new ⁸⁴reference-of-thought–⁰⁹categorical-imperatives/axioms/registry-teleology⁰⁹–for-intemparal-preservation-entropy-or-contiguity–or–ontological-preservation dialectically implying an ¹⁴de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of transcended reference-of-thought–⁸⁴categorical-imperatives/axioms/registry-teleology⁰⁹–for-intemparal-preservation-entropy-or-contiguity–or–ontological-preservation (in our present case, notional–deprocrypticism of ⁸¹procrypticism–or–disjointedness-as-of-⁸⁴reference-of-thought, for a de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments¹⁰⁶ of our registry-worldview/dimension and just as critically the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential; just as positivism is the de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments¹⁰⁶ of non-positivism/medievalism together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential, and the same applies with ununiversalisation and ¹⁰⁶universalisation, and recurrent-utter-uninstitutionalisation and base-institutionalisation); thus the potential to fully close the gap with regards to ontological-veridicality of the natural sciences in a ‘renewed maturation’ of the phenomenological ontological-performance⁷⁲–<including-virtue-as-ontology> conceptualisation of the social. Though with the weakness we must be able to rise up to, that ‘the social’ is existentially ‘emotionally involved’. But this can be and is effectively overcome by ‘appropriately ¹⁰⁶universalising and detached meaningfulness by percolation-channelling–<in-deferential-formalisation-transference>’ as devised for all formalised and institutionalised settings capable of introducing, upholding and internalising the ascendency of
many a social outlying thoughts and meaningfulness which from a ‘purely mobbish social
disposition’ as may arise in the extended-informality—(susceptible-to-effecting parsimony-as-of:

given our own illusion-of-the-present/present-consciousness as
<amplituding/formative–epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag,
that such an analysis applies only to prior institutional-cumulation/institutional-recomposure
{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—
ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>}. But the fact is that
such a profound conceptualisation will have to come to terms with the reality of the implied
existentialism/full-depth-of-existential-implications beyond our present sense of personhoods-
and-socialhood-formation if it were to avoid platitudinising, becoming circular with dead-ends
and lose its intemporal purpose and hence ontological purpose, and so for the simple reason that
it is the human psyche that ‘gives-in’ with respect to intrinsic-reality as renewed/prospective
ontological-veridicality, starting with that of the intellectual analyst/analysts itself/themselves);
as the human psyche gave-in from recurrent-utter-uninstitutionalisation to base-institutionalisation, ununiversalisation to \(^{104}\)universalisation, non-positivism/medievalism to positivism, and where renewed/prospective ontological-veridicality does establish a new registry-worldview/dimension transcendental postconverging–de-mentating/structuring/paradigming shift as procrypticism to deprocrypticism, then the human psyche will equally have to give-in, and by the way all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity meet with some resistance or the other and thus a reason for transversality\(^{<}\)for-sublimating–existential-eventuating/denouement\(^{>}\)of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ reflex to preserve the precedingness/supersedingness/ascendancy of intrinsic-reality in adverting social-and-temporal-trading of meaningfulness. Part and parcel, of human intellectualism beyond mere-institutionalised-being-and-craft, as has historically been implied in the case with many a great human mind, is to recognise that the social-construct is ‘not an ontological absolute’ but rather a ‘conventioning construct at the limits of human ontological capacity’ and that that is ‘why it has got its defining issues and problems’ and further that ‘it progresses and transcends’, and the intellectual exercise goes beyond just reasoning within ambits of ‘temporally-and-socially-perceived-rightness-of-thinking’ to explore possibilities that might actually be ‘outright unpalatable’ in the temporo-social sense but in the bigger picture as an intemporal/ontological/social/species/\(^{104}\)universal/transcendental/\(^{55}\)maximalising-recomposuring-for-relative-ontological-completeness\(^{88}\)—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming are indispensable. With the idea that an intemporal/ontological/social/species/\(^{104}\)universal/transcendental/\(^{55}\)maximalising-recomposuring-for-relative-ontological-completeness\(^{88}\)—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming that prolongs to intemporality\(^{13}\)/an-
abstract-eternality while obviously of ‘less an immediate temporal existential sense of good to some humans’ is undoubtable of ‘an intemporal existential sense of good to all humans at all times’ by its percolation-channelling-<in-deferential-formalisation-transference> wherein for instance, the de-mentative/structural/paradigmatic effect of the law is allowing for civilisational living but its circumstantial construal and application may not be in tune with the temporal interests of many but for its institutionalising constraining. This contrast between humans appreciating intemporality\textsuperscript{1} /longness as potentially of universal import and at the same time disposed occasionally to advanced their temporality\textsuperscript{2}, is what warrants ‘a constraining institutionalisation’. In the same vain, one may ask what’s the temporal benefit to Rousseau or Galileo instead of striving for greater aristocratic privileges for themselves; for the one to rather carry the mantle from one royal court to the other of affirming the possibility of human emancipation (by which we are all percolatively benefiting from today) or the other the mantle of a principled engagement and possibility of science starting with an uncompromising supplanting–conviction-as-to-profound-supererogation \textsuperscript{3} of ‘attendant-intradimensional’–postconverging/dialectical-thinking \textsuperscript{4}–apriorising-psychologism from observation that the earth is not at the centre of the solar system, by which a culture of science came to be established. And finally, how coherent are temporal meaningful frames built from such intemporal grand principles but lived on temporal dispositions in extrication in contradiction to such philosophies, and what is the very relevance of such temporal enculturation and endemisation to present-day social and institutional failures in society? And what’s the role of ‘intellectual irresponsibility’ in all of this? From an intemporal hence ontological depth-of-meaningfulness, preceding/supersedingly, ‘limited-mentation-capacity’ (for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is the reason for human registry-worldview/dimension \textsuperscript{5}–perversion-of–reference-of-thought<as-preconvergingly–apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow–
supererogation ≥ defect at uninstitutionalised-threshold ¹; implying that ‘ontological-normalcy/postconvergence’ is actually for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation beyond the defective ‘intradimensional-subknowledging⁰-normalcy or reflex-normacy’ which is rather an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag¹¹ (illusion-of-the-present/present-consciousness) inclination to overlook/aside the notion of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity at its own (limited-mentation-capacity-threshold) uninstitutionalised-threshold ¹² though it will obviously and paradoxically recognise the need of prior registry-worldviews/dimensions to transcend (just as by reflex from our perspective we will recognise such a need for base-institutionalisation over recurrent-utter-uninstitutionalisation, ununiversalisation over ununiversalisation, positivism over non-positivism/medievalism but hardly prospectively the notion that our dimension has an uninstitutionalised-threshold ⁰₃ like procrypticism–or–disjointedness-as-of-reference-of-thought with the need for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as deprocrypticism). However, as previously indicated such an insight can only be garnered, beyond our illusion-of-the-present/present-consciousness/epistemic-totalising³²–self-referencing-syncretising/mirage as all registry-worldviews/dimensions wrongfully imply, given that ‘doppler-thinking’ wherein our registry-worldview/dimension isn’t the absolute reference of meaningfulness (which is rather an intradimensional-subknowledging⁰-normalcy in lieu of the ‘ontological-normalcy/postconvergence’ as that which allows for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). It is this ‘ontological-normalcy/postconvergence’ that reflects/perspectivates ⁷⁵perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-

Ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, beyond defective intradimensional-subknowledging\textsuperscript{34}-normalcy/reflex-normalcy, points to factoring in notional–firstnaturedness—temporal-to-intemporal-dispositions->so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation as ‘knowledge-notionalisation’ to avoid wrongfully operating/processing of logic by the reference of the intemporal-disposition reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{36}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontological (as it is in sync with intrinsic-reality/veridicality), where dealing effectively rather with temporal-dispositions. It should be noted that the peculiarity for achieving all the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-

the collective-consciousness so that with regards to social-stake-contention-or-confliction-and-

to what is the grander individual-and-social good as positive-opportunism\textsuperscript{(76)}. For instance,
achieving base-institutionalisation requires that it should be brought to the collective-
consciousness that it is ‘perilous to survival-and-flourishing’ to remain recurrently-
uninstitutionalised for the grander individual-and-social good as positive-opportunism\textsuperscript{(76)}. Once
this enters the collective-consciousness this leads to an inclination for a renewed
psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring wherein recurrent-

universalisation and positivism. For deprocrypticism, an even stronger emphasis has to be
placed on the abstract percolation-channelling-<in-deferential-formalisation-transference> as
setup from positive-opportunism\textsuperscript{(76)} for survival-and-flourishing, just as with the positivistic
registry-worldview which as well is relatively deferential with percolation-channelling-<in-

In other words, higher institutionalisations imply greater ‘deferential-formalisation-transference’ wherein theambits of the extended-informality⟨susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology⟩ with regards to meaningfulness shrinks as formal conceptualisations extend the intemporal-skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) and deferential model for construing meaningfulness. For instance, many a subject matter domain like meaning about the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially in deference to abstract intemporal-disposition teleological conceptualisation voiding social temporal-dispositions teleological dispositions. The reason is simple formal settings use the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework to construe knowledge and virtue conceptualisations as this is what proxies/syncs-with intrinsic-reality and hence their effective potency while on the other hand informal settings tend
more to impression-driven/good-naturedness/wishfulness conceptualisations which may sound
appropriate in their <amplituding/formative–epistemicity>totalising–self-referencing-

intemporal/ontological disposition (longness-of-register-of—meaningfulness-and-teleology), that works with ‘what is as it is’, and bring this reality to the collective-consciousness for the requisite ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism (wherein procrypticism is preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, as it subknowledges-or-mimics/perverts-the-registry-of positivistic meaningfulness—reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). The idea of limited-mentation-capacity-deepening (for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) fundamentally implies that reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are limited at the uninstitutionalised-threshold of the specific registry-worldview’s/dimension’s institutionalisation they enable, and are not absolute with respect to the perpetuation of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as ontological-normalcy/postconvergence and thus need to be cumulated-upon (or rather more precisely be recomposured institutionally), wherein new reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation allow for the furtherance of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. The positivistic institutionalisation reflex disposition is to imply only a human intemporal-disposition/ontological-disposition, thus wrongly elevating issues of temporal-dispositions perversion-of-reference-of-thought—as-preconvergingly.
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as being issues of intemporal-disposition/ontological-dispositions and thus wrongfully implying their ontological-veridicality/ontological-contiguity* of *reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective) rather than rightfully their notional-discontiguity/epistemic-discontiguity-

In contrast, the particularity of the superseding/transcending ‘notional–deprocrypticism institutionalisation’ disposition over procrypticism is that prospectively it points to the ontological-veridicality of a human-subpotency– aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued– ‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor-pedestals-disambiguation (at positivistic meaningfulness uninstitutionalised-threshold \(^\text{19}\) ) to its mental-devising-representation to enable the ‘postconverging-or-dialectical-thinking ‘–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-

To further elucidate, let’s explore again the Arithmetic ontological-contiguity comparison highlighted previously wherein character A had a condition whereby its results of additionality were systematically incremented by 1, its’s subknowledging-impulse/compulsive-dementing highlighting an uninstitutionalised-threshold where the other characters wrongly calculated the result (the ontological-veridicality) failing/not-upholding.<as-of-apriorising/axiomatising/referencing> ontological-normalcy/postconvergence as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, as actually intemporal-preservation-entropy-or-contiguity–or–ontological-preservation supersedes the
mere-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the latter’s pertinence is rather about and subsumed as a mentation capacity to uphold the former. The bigger issue with regards to all the BODMAS characters is with respect to the limits of their reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which are readily predisposed to such perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and subknowling-impulse/compulsive-dementing whether by character A or any other character rather than just the fact that the condition (psychopathic postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation for instance) is the causative factor of their failure to in ontological-normalcy/postconvergence ensure intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In any case the de-mentative/structural/paradigmatic resolution is with regards to the implications of metaphorically-a-million-and-one-instances-and-locales of perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in the given registry-worldview/dimension as an aetiologisation/ontological-escalation (as notional-firstnatedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuations predictable and determinable teleologies). That is, fundamentally the appropriate conceptualisation of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is structurally-speaking about perpetually ensuring intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the superseding/preceding notion (i.e. ontological-normalcy/postconvergence as
prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). In this regard, we may easily construe the fundamental defects-of– categorical-imperatives/axioms/registry-teleology\(^{10}\)-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as these enable\(^{75}\) perversion-of–reference-of-thought--as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{100}\) with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein successive institutional-cumulation/institutional-recomposure–(as-to– historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>) are analogical to various defective instances in operating the BODMAS equation. That is, while the condition/subknowledging\(^{95}\)-impulse/compulsive-dementing\(^{19}\) with A’s additionality results are wrongly incremented by 1, leading to the uninstitutionalised-threshold\(^{93}\) to be rightfully corrected with new\(^{84}\) reference-of-thought– categorical-imperatives/axioms/registry-teleology\(^{100}\)-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involving subtracting 1; the defect of a second registry-worldview/dimension may involve subtracting 1 from the result of S as a condition/subknowledging\(^{95}\)-impulse/compulsive-dementing\(^{19}\) of S, requiring similarly new\(^{84}\) reference-of-thought– categorical-imperatives/axioms/registry-teleology\(^{100}\)-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation correction of the BODMAS characters as with the first registry-worldview/dimension to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Likewise, a third and fourth registry-worldview/dimensions defects could involve respectively a subknowledging\(^{95}\)-impulse/compulsive-dementing\(^{19}\)/condition of M wherein the latter wrongly adds 1 to a multiplier before multiplying and a subknowledging\(^{95}\)-impulse/compulsive-dementing\(^{19}\)/condition of D wherein D wrongly subtract 1 to a divisor.
before dividing, with these two latter registry-worldviews/dimensions equally requiring similarly new \(^8\) reference-of-thought\(^-\) categorical-imperatives/axioms/registry-teleology\(^\text{100},\)-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation adjustment of the BODMAS characters as with the first and second registry-worldviews/dimensions to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Ultimately, a notional–deprocrypticism construal of the institutionalisation/intemporalisation process aiming to perpetually sync \(^8\) reference-of-thought\(^-\) categorical-imperatives/axioms/registry-teleology\(^\text{100},\)-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ontological-normalcy/postconvergence, is one that will bring to the mental-devising-representation, the BODMAS characters potential temporal-dispositions to \(^75\) perversion-of\(^-\) reference-of-thought\(^\text{100},\)\'-as-preconvergingly-apriorising/axiomatising/referencing-in-\nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(>\) and subknowledging \(-\) impulse/compulsive dementing\(^\text{19}\) with the resultant integration unconsciously (ignorance) and consciously (other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) inducing the various uninstitutionalised-threshold \(\text{03},\) for a suprastructural resolution to human \(\text{75},\) perversion-of\(^-\) reference-of-thought\(\text{100},\)\'-as-preconvergingly-apriorising/axiomatising/referencing-in-\nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(>\) disposition, enabling the ‘postconverging-or-dialectical-thinking\(^\text{71}\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the collective-consciousness towards knowledge-notionalisation; as the recognition of the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-

The implications for the science of psychology can thus be drawn out. The articulated notion of de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) brings up the central conceptual role of psychology as about understanding human mental-devising-representation and the implications thereof. Central to this de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) process is a dialectical exercise of stranding; either as mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase to imply a superseded/transcended/unsound registry-or-registry-worldview/dimension or as mentally straight/candored-and-dialectically-or-contendingly-in-phase to imply a superseding/transcending/sound registry-or-registry-worldview. de-mentation
further implies that instead of a ‘conventioning influenced and driven’ more or less notational study of human psychological phenomena as is the case today; we can ‘think’ of psychology in terms of of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as-prospective reference-of-thought (de-mentation–supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with respect to either mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase representation or mentally straight/candored-and-dialectically-or-contendingly-in-phase representation) as ‘directed’ simply by demonstrable ontological-veracity/ontological-relevance/reference-of-thought of transdimensional-meaningfulness–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument; leading to a psychological science which is more comprehensive, timeless and unbounded by its conceptualisation as it emphasises psychological-representation/mental-devising-representation as more ‘ontologically-driven/ontologised’ rather than ‘conventioningly-driven/conventionalised’. In so doing, overriding and superseding the analyst illusion-of-the-present/epistemic-totalising/self-referencing-syncretising/present-consciousness/mirage referring to the instance where the personhood-and-socialhood-formation intradimensional conventioning induces an ‘analytical-complex’ with respect to an ontologically veridical psychological-representation or mental-devising-representation.
