Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be undertaken over it. Such a
hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojecting/supererogating/zeroing insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing\textsuperscript{15} \textsuperscript{<amplituding/formative>} wooden-language\textsuperscript{(imbued—temporal—mere-form/virtualities/dereification /akrasiative-drag/denatured/preconverging-or-dementing – narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry—teleology} stifling prospective possibilities, thus requiring prospective fundamental reconception. This has developed in our present age of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness) into the absurdity/ridiculousness of pop-intellectualism substituting for genuine
and reifying thought, as to the relentless expansion of our modern merchandising mentality to
which nothing resists; and paradoxically, such a disposition hangs onto the ‘dereified as-

with media-driven imprimaturing increasingly usurping the role of genuine academic standard
production and ultimate validity hanging on the mere imprimatur. As what becomes critical in
such a context is no longer prospective knowledge-reification as the primary and essential
constraining worth but rather obsession with mere sway and influence even to the point of
undermining prospective knowledge-reification as supposed intellection is increasingly
infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and
pretences to misunderstand are rather conveniently given as of perceived social-stake-
contention-or-confliction and hardly reflecting a discernment about the possibility for
advancing human progress) that apparently render human-subpotency/mortality bigger than
existence-potency ~sublimating—nascence,—disclosed-from-prospective-epistemic-digression as
to immortality. But then human intellection across all ages and times come to an end not
because of inherently right or inherently wrong ideas per se (as the very basic genuine striving
for intellectual progress is what is critically decisive as that exercise ensures that down-the-line
correct and reifying ideas will arise anyway), but critically when deliberate deception-and-
induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an
aspiration for genuine intellection as an open-ended activity providing the possibility for human
knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on as to imply that it is veridically in dialogical-equivalence-as-to-psychologismic-apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—confalatedness, -in-self-becoming/self-confalatedness /formative–supererogating\textsuperscript{2} with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity\textsuperscript{3} (whether or not, beyond-the-consciousness-awareness-teleology\textsuperscript{4} -<in-existential-extrication-as-of-existential-unthought>) as this only leads to a destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{5}/presublimating-desublimating-decisionality)-of-ontological-performance\textsuperscript{6} -<including-virtue-as-ontology> habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity\textsuperscript{7} rendering the supposedly empowering activity of knowledge-reification\textsuperscript{8} impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation-unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity\textsuperscript{9}’ inclinations that poorly appreciate existence-potency\textsuperscript{10} -sublimating–nascence,-disclosed-from-prospective-epistemic-digression implications of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence-<-in-dimensionality-of-desublimating-lack-of\textsuperscript{11} (<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-

It will be as naïve as implying the validity of a common basis for doing arithmetic where an interlocutor insists on 2+2 as 5 but when appropriately explained the veridical assumptions of arithmetic goes on to insist 3+3 as 7, speaking not of a fundamental problem of arithmetic operation as of dialogical-equivalence\(\langle\)as-to-psychologismic~apriorising/axiomatising/referencing-(of–

Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity\(^{69}\)’, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity\(^{69}\) or ontological-bad-faith/inauthenticity\(^{64}\) (beyond-the-consciousness-awareness-teleology\(^{100}\)\(-\langle\)in-existential-extrication-as-of-existential-unthought\(\rangle\)\) as of underlying existentialising/contextualising/textualising-contiguity\(^{39}\) elucidation/deblurring as

directly ridiculous as in the natural sciences given its direct universal-transparency subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s² to ensure that calculations conform to its expectations for one interest or another; but the reality of that universal-transparency as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation unequal to reflect-

‘immanent-ontological-contiguity’ not only as of wrong ontological-conception out of good-naturedness (failing ‘technical’ ontological-good-faith/authenticity as from ontological-normalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting both human constructiveness-of-ontological-performance and destructuring-threshold—of-ontological-performance—of-ontological-performance. The fact is knowledge-reification is of ‘existential construal for human limited-mentation-capacity-deepening’ and nothing can be construed in totalisingly-disentailing—discretion/whim-of-thought whether as of ignoring or on the other hand exaggerating, and just as we can fathom that we don’t have the choice to fiddle with even a single number or operation without a mathematical equation going wrong as of its existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression over our
"<amplituding/formative-epistemicity>totalising~conceptualisation"), speaking to the fact that logic is rather the inner working coherence/contiguity of any human apriorising/axiomatising/referencing construct); and thus the ‘a priori or axiomatic conception’ is rather about ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’ as to mere ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking–apriorising-psychologism>’ over ‘desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-apriorising-psychologism>’ so-underlining existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming>. However, the universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness) generated in domains like mathematics and many a natural sciences is so efficient (as of the underlying positivism/rational-empiricism reference-of-thought achieved ‘universal-transparency’ {transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-}

While the natural sciences are ‘naturally’ constrained by the stronger necessity for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s <amplituding/formative> wooden-language{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing — narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology } with asceticism does exist as has existed throughout sublimating
Beyond the seemingly intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification rather than a culture of pop-intellectualism today that seem to define our human-subpotency/mortality purposes as superseding existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to immortality purposes, as so-reflected in the supposed intellection values conferred in many a press operation with such vague catchphrases as ‘the-greatest/most-influential thinker of our times’ as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification as addressing the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of our prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, notwithstanding the sometimes crude and unsavoury social discomfort implications in this respect. Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellection value with respect to opting for a profound intellectual commitment for prospective knowledge-reification rather than just strategies of socially perceived intellectual success within deified temporal/mortal existential frameworks; especially in the underhanded institutional presence of such avowedly teleologically-decadent–as-in-dimensionality-of-desublimating-lack-of-giving–formative supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) mantras like theories die with the passing of their authors as so-implied with regards to many a postmodern scholar, wherein such highbrowing has been surreptitiously inclined to put-up their temporalities/mortalities (notwithstanding that knowledge is as to existence-
potency, sublimating-nascence, disclosed-from-prospective-epistemic-digression consequences accruing to the entire humankind) to institutionally and socially undermine prospective knowledge-reification with stooges/foils muddying the ontological-veracity of genuine thought as of its true human emancipatory implications, as they ‘sneak-in and sneak-out about knowing and not knowing’ in a distorted conception of intellectualism as a Machiavellian/political exercise rather than the requisite magnanimity of engagement for a genuine knowledge-reification exercise! Actually the projection of values including intellectual values in such <amplituding-formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought> (given that virtue is rather as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as to transcendental-enabling/sublimating/supererogatory-de-mentativity and not the vagueness of impression-driven/good-naturedness/wishfulness wooden-language {imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology } in human-subpotency social-aggregation-enabling). We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic-philosophers' universalising-idealisation just as did medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification requires that we supersede our emotional-
involvement starting with the very intellection striving for such prospective knowledge-reification. (In any case, ultimately the reality of human knowledge-reification involves ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology, and so in transvaluation; as for instance, it can hardly be imagined that the reference-of-thought of the non-positivism/medievalism mindset as of its de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology is apt as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-conceptualisation to grasp our modern-day conception of say physics given its ‘valuation framework as of its <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ’ that needs to be transvaluated into a positivism mindset, and it can fairly be contended that prospective issues of knowledge-reification in modern-day physics having to do with theory-of-everything conception arise because of our inappropriately apt supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-conceptualisation as of an occlusive-consciousness reference-of-thought requiring prospective notional-deprocrypticism reference-of-thought de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology as of a protensive-consciousness (out of a full insight about causality as from the epistemic ‘relative-ontological-completeness <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness’ herein implied as ontological-primemovers-totalitative-

universalising but non-positivism–medievalism preclusive-consciousness’, and the
possibility for the further advancement of such material sciences arises from the effectively
enabling social-values like freedom-of-speech, opened communication, etc. availing as of the
transcending positivism/rational-empiricism occlusive-consciousness. Likewise, it is herein
contended that the future possibility for the natural sciences advancement is inseparable from
the possibility of social and social-organisational as of prospective human aporeticism

today as with the social and social-organisational framework that underlied and was necessary
for most of the scientific and technological advances after the second-world war). Basically,

construction-of-the-Self and its given registry-worldview/dimension reference-of-thought–
and—reference-of-thought–devolving—meaningfulness-and-teleology overall de-
and-teleology is associated with a renewed framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology which is in ‘affirmation/projection by its underlying supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of- apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument –for– conceptualisation’ to the superseded framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology as unaffirmed/deprojected; as to the possibility of the recovery of dimensionality-of-sublimating –{<amplituding/formative>supererogatory–dem- mentativeness/epistemic–growth-or–conflatedness /transvaluative– rationalising/transepistemicity/anamnestic–residuality/spirit–drivenness–equalisation} prospectively, disentangled from ‘prior knowledge-as-of-mechanical–knowledge predisposition and its developed temporal institutional self-serving predisposition’. And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

uninhibited/decomplexified and forward-looking perspective imbued in a notional–deprocrypticism institutionalisation/intemporalisation with respect to procrypticism

‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposing possibilities for transcendental institutionalisation/intemporalisation of notional–deprocrypticism (superseding the vices-and-impediments of, as well as human emancipation over, procrypticism)

‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting disposition (deconstruction/ontological-reconstituting/organic-comprehension-thinking) holds that ‘critically what matters with respect to ontology and virtue is simply and completely intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective)

reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are not by themselves the definitive basis for ontology/intrinsic-reality/existential-reality as these are only as pertinent as they are ontologically-veridical/ontologically-continuous/contextually-contiguous (in ontological-normalcy/postconvergence)

new requisite reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation not only for this particular circumstance of the BODMAS characters but all such circumstances that may arise as a perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as-of-unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought thus requiring de-mentation<supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics> of all such temporal-dispositions

why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing–apriorising-psychologism with respect to one another (from the prospective perspectives)
human ontological transcendental possibilities arise from human individuations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibility setup/measuring instrument as to renewed logical-basis/ <as-to—transversality<for-sublimating—existential—eventuating/denouement> of-affirmative-and-unaffirmative—disambiguated—motif—apriorising/axiomatising/referencing’ pedestals of meaningfulness

our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t have any end to itself but for such dialectical readjustments to ontological-veridicality

3 transversality<for-sublimating—existential—eventuating/denouement> of-affirmative-and-unaffirmative—disambiguated—motif—apriorising/axiomatising/referencing’ pedestals of meaningfulness

when it comes to deciding between ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic-or-notional—projective-perspective) and the human temporal psyche, what gives-in is the human temporal psyche (and so for the betterment of the species)

de-mentation-(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) as such redefines psychology as a postdicatory science (tying the mental-devising-representation process to the abstract and infallible ontological-normalcy/postconvergence ontological-veridicality referencing/correction-tool)

soundness—or-ontological—good-faith/authenticity-of-reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy—or-contiguity—or—ontological-preservation (ontological-normalcy/postconvergence)

registry-worldviews/dimensions are rather prospectively <amplituding/formative>wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or—dementoing—narratives—of—the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) of their own specific evolving successive existentialisms

peculiarity for achieving all the institutional-cumulation/institutional-recomposure—(as—to—historiality/ontological—eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence—reflected—'epistemicity—relativism'>) is about bringing the prior registry-worldview/dimension perversion-of-reference-of-thought—as-preconvergingly apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow supererogation> to its placeholder-setup/mental-devising—

a psychological science which is more comprehensive, timeless and unbounded by its conceptualisation as it emphasises psychological-representation/mental-devising-representation as more ‘ontologically-driven/ontologised’ rather than ‘conventioningly-driven/conventionalised’

deconstruction when extended from its ‘textual basis’ to its ‘full meaningfulness basis’ as ‘ontological-reconstituting–as-to-confal tedness’, has to do with the fact that the full implications of ‘ontological-reconstituting–as-to-confal tedness’/deconstruction is that it prospectively calls for suprastructuring or construal beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of prior registry-worldview mindset/reference-of-thought

what is ‘ontologically normal’ beyond the subjective conventioning of the psychology science (before even worrying about the abnormal)?

intemporal/ontological/social/species/universal/transcendental/maximising-recomposing-forrelative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming resolution as against an extricatory/temporal/non-ontological preconverging–de-mentating/structuring/paradigming resolution fundamentally implies putting into question a registry-worldview’s/dimension’s reference-of-thought

reality is as of ontological-normalcy/postconvergence and suprastructural and is not constraint to and have nothing to do inherently with human mental-devising-representation incrementalism-inrelative-ontological-incompleteness—enframed-conceptualisation and notional~disjointedness knowledge-notionalisation is about ‘a deterministic and operant construct preserving intemporal/longness as ontology’

fundamental construal about the conceptual-and-institutionalisation-phenomena has to do with how any and all conceptualisations and meaningfulness harken back to ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’

preconverging-or-dementing–apriorising-psychologism as thus implied can be defined as reflecting/perspectivating/highlighting of the deficient mental-devising-representation (as so-referenced from ontological-normalcy/postconvergence so-construed as in prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as to suprastructural proxying of intrinsic-reality), beyond the deficient
mental-devising-representation intradimensional representation of meaningfulness-and-teleology

fundamentally it is impossible to conjugate/inflect/protract intemporality/longness out of demonstrated temporality/shortness (notional-discontiguity/epistemic-discontiguity<shallow-
supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>) as then one
is just in <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag and wrongly implying the registry-
worldview/dimension is beyond transcendence-and-sublimity/sublimation/supererogatory–de-
mentativity or is non-transcendable.

‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting
points out that conventioning constructs like sub-par/formulaic-association/temporal/alibi
conventioning-rationalising do not supersede the ontological-normalcy/postconvergence and
 suprastructural nature of intrinsic-reality/intrinsic-veridicality, as may be naively advanced with
circumventing/distractive-temporal-prioritisation-of-reference-of-thought

we don’t have absolute mentation capacity and the most intemporal of our dispositions should take
pride of place in defining our achievement motives whether as philosophies, causes, skillsets and
talents in our value and valor aspirations

transcendental institutionalisation is basically an ‘intemporal-prioritisation-of-reference-of-

depercrypticism

ontological-normalcy/postconvergence in precedingness points out that at registry-

other associated conceptualisations and notions

‘referentialism’ which makes reference to the supersedingness/precedingness of the ‘intemporal

and notions in referential and organic elucidation of the entropic construct. Referentialism as such
is actually central to the spontaneity required in hermeneutics

‘unconscionability-drag’ carries the resolution for disambiguating reference-of-thought in the ontological social construction of meaning

Unconscionability-drag (enabling ontological reference), by which the perversion-of-reference-of-thought-as-preconverging-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation/mental-perversions teleologies of meaning is accounted for

the transcendental requirement for a ‘habitation’ to a so-called ‘prospective intemporal and more veridical mental-devising-representation registry-worldview’s/dimension’s reference-of-thought–categorical-imperatives/axioms/registry-teleology is rather ‘unfathomable’ for the prior

Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporality) is not necessarily the deterministic basis for human social adherence to it

an exercise in institutionalisation/intemporalisation beyond just intemporal philosophical projection is needed for the social integration of any transcending veridicality postconverging–de-mentiating/structuring/paradigming

‘conventioning’ is not wholly antipodal to ‘ontologising/intrinsic-veridicality’ as the latter prospective integration in the social-construct is through the former

The application of the universal technique of human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity to procrypticism-notional~deprocrypticism transcendence-and-sublimity/sublimation/supererogatory~de-mentativity can be basically be articulated as follows (the ontological entrapment)

Institutionalisation and formalisation are based exactly on the fact that we don't have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’

Solipsism means I exist alone (as to the epistemic perspective with respect to intrinsic reality/ontological-veridicality)

By ontological-normalcy/postconvergence is meant that ‘intrinsic reality’ is one and given (ontology), and that the flaws and corrections in how we go about representing ‘intrinsic reality’ (metaphysics or the human-centered temporal-perspective) has no influence on reality’s intrinsic nature

how can meaningfulness-and-telegeoly be represented in ‘a prospective apriorising–registry state’ which is ontologically more real contrasted to ‘a present retrospective apriorising–registry’, as meaningfulness-and-telegeoly ‘temporally seems’ to vary depending on the uninstitutionalised-
threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal?

ontologically (i.e. ‘the-Good/understanding’ contrasted with ‘good-natured/impression-driven’) the bigger issue is how do our development and institutionalisation/intemporalisation of true knowledge ‘save us from potent-temporality and its vices-and-impediments with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’.

The notion of higher teleologies as such is specific to the human species in holding that beyond just ‘a physical animal passing of specie generational succession’ for survival and optimising-specie-flourishing, with higher teleologies there is ‘an even more critical passing of generational succession’ as memetic-skewing-or-reordering/philo-cultural optimising of possibilities.

Useful Tips for seamlessly/interactively navigating throughout the document for elucidation of terms:

- ‘Ctrl + Click’ (on any hyperlinked superscript) for the elucidation of the given term
- ‘Alt + Left-Arrow’ to go back to the previous location in the document (that is precisely at the clicked hyperlinked superscript location)
- ‘Alt + Right-Arrow’ to go in the reverse direction again
- Also the darkened text elaborates upon the immediately prior text and is darkened (to point out its interjecting nature) in order to ease the ‘continuity readability’ of long phrases/sentences while at the same time striving herein for ‘a most profound and extended articulation of exactifying/precisioning–of-sublimation–<as-to-entailing-theoretical,-conceptual-and-operant-implications>’

because their normal living experience cognition they used was no longer sufficient for a more profound and creative insight into abstruse phenomenality and so they expanded upon their normal living experience cognition associated with thought experiments to ‘exactifying/precisioning–of-sublimation–as-to-entailing-theoretical, conceptual-and-operant-implications’ framework of controlled experiences involving control methods’ as extension of their normal living experience cognition into the existentially atypical manifestation of natural phenomena and this is the very true meaning of scientific approaches and methods as not breaking away from philosophising but rather extension of philosophising into methodologically framed and controlled experiences known as experiments (with the naïve perspectiveless/soulless adoption of methods/methodologies/approaches in many a domain-of-study today by the mere token that this is the practice in the natural sciences losing sight of the underlying and relevant philosophising of such methods/methodologies/approaches as to profound and creative supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of- apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation required for the relevant domain-of-study as to reflecting its given epistemic-conception phenomenal/manifest–subpotency–(in-transitive-conflatedness–reflexivity, in-the-full-potency-of-existence’s–sublimating–nascence) pertinence to which any such scientific methods/methodologies/approaches are rather subjected).
development—as-to-social-function-development, so-speaking to a
dispensing-with-immediacy-for-relative-ontological-completeness^-by-
reification /contemplative-distension epistemic attitude, such that the
philosophical nor the scientific cannot be construed as a self-serving
conception (as can be so-construed in modern-day psychology individual
augmentation/enhancement notion in existential-extrication-as-of-
existential-unthought) but rather 'a self-development conception de-
mentatively/structurally/paradigmatically construed in association with
the development of a better world as to the selfless notional-asceticism'
implied' (with a confusion as of individual augmentation/enhancement
rather arising from a misconstrual of the Socratic-philosophers and their
successors like stoics and cynics emphasis on self-development as to the
fact that their universalising-idealisation as to their given epoch
implied a more fated/precarious/perilous/uncertain world with their
notion of self-development implying forming individuals that can face
such a world with valour in view to a constructive projection of a better
world), and such is the general basis for interpreting philosophical
thought as to its specific epochal aporeticism overcoming/unovercoming
associated with the corresponding human limited-mentation-capacity and
the prospective projective-insights from all such specific aporeticism
overcoming/unovercoming concerning their retrospective and prospective
implications and is in many ways no different from a

while avoiding an epistemically-flawed complex of 'presencing—absolutising-identitive-constitutedness' along the same lines human limited-mentation-capacity-deepening as reflecting both overall knowledge-reification orientation further implies that there can’t be any tradition/practice of knowledge that overrides existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as it can be often naively implied in many a blurry and pedantic domain-of-study subject to totalisingly-disentailing—discretion/whim-of-thought with any such orientations claiming to ignore ontological-veracity rather speaking of institutional bankruptcy as to the fact that ‘human-subpotency cannot subject knowledge but is rather subject to knowledge’ such that issues of human ineptness/incapacity arising from disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’ ‘cannot be artificially transformed and construed as de-mentative/structural/paradigmatic issues of inherent knowledge as of the inherent nature of science or inherent nature of the philosophical knowledge’ (failing to attend to prospective existential aporeticism overcoming/unovercoming while ‘naively construing of the framework of human agreeability and agreeing as knowledge’ rather than the ‘construal of ontological-veracity as of the impersonal manifestation of the sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as the more fundamental purpose of the intellectual enterprise’, and so as to the reality of the fact that true knowledge has ever always been about superseding human
limited-mentation-capacity and not defining it as a point-of-reference however disagreeable the exercise), and in many ways this drawback is reflected in the modern practice of philosophical interpretations in the humanities as to a relic/artifactual orientation and academic practice of going about knowledge-reification that equates/level-down everything across space and time as to wrongly imply everything is of the same ontological-contiguity as to the proliferation of isms–conceptualisations without any ‘relative-ontological-completeness’ entailment—as-to-totalising-contiguous/coherent–factuality-of-variability reflecting ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing <perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> as well as mere conceptual-patterning—as-devoid-of–existentialising/contextualising/textualising-contiguity ‘s-reifying-or-elucidating-of ‘prospective-relative-ontological-completeness’,-rather-enabled-<by-a- nonpresencing-divulging-of-momentous- historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> with no contiguous knowledge-reification gesturing (as to when for instance such notions as humanism and antihumanism, enlightenment and counter-enlightenment, etc. seem to imply that the latter conceptualisations are against humanity or enlightenment rather than being more profound conceptions of humanity and enlightenment over the former as shallow conceptions thus inducing blurriness of thought) and in a further twisted relic/artifactual approach

in this regards we can appreciate how the very implications of say
universal human rights supererogatorily becomes more and more
profound as from say the Socratic-philosophers (even as slavery, class-
seclusion and female-seclusion was prevalent as to warped
collateralisation), budding-positivists (even as in many ways the practices
of serfdom/slavery, social-class discrimination and female-discrimination
were equally prevalent as to preclusive collateralisation) and today’s
supposedly universal conception of human rights (even as it is marked by
occlusive collateralisation of other peoples, cultures and nations as well
as gender and age occlusive collateralising biases);¶ actually the specific
sense and general sense are thus linked on the basis that both imply
totalising-entailing with the specific sense speaking of totalising-entailing
as to the specific universalisation registry-worldview/dimension ‘when
mankind initially consciously cognised that the profoundness of
meaningfulness-and-teleology’ should be totalising-entailing but
without necessarily differentiating such a conception of totalising-
entailing between mythological and positivistic/rational-empirist
totalising-entailing with both construed as universal ‘meaningfulness-
and-teleology’, while the general sense of universal implicitly captures
and exactifies/precises the conception of totalising-entailing in terms of ‘entailing’ <amplituding/formative–epistemicity> totalising—in-relative-ontological-completeness as reflecting the implication of human limited-mentation-capacity-deepening as to the ‘notionalisation/notional-conception/amplituding of totalising-entailing so-reflected by the ontological-contiguity—of-the-human-institutionalisation-process (along the same lines as notional–deprocrypticism) thus amplificatorily rendering the conception of totalising-entailing (as to notionally–universal) as more ‘profoundly construed as from perspective relative-ontological-completeness as of the ontological-normalcy/postconvergence of existence/intrinsic-reality’ so-underlied by perspective ‘nondisjointing totalising-entailing’ or deprocrypticism

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-suprerogation’ predisposed human mind’ so-reflected as prelogism -as-of-conviction,-in-profound-suprerogation -<-existentially-veridical-`attendant-intradimensional- apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical- outcome-arrived-at> and so-construed as of human candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-suprerogation —of-`attendant-intradimensional’- postconverging/dialectical-thinking —apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-suprerogation —of-`attendant-intradimensional’-postconverging/dialectical-thinking — apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism -as-of-conviction,-in-profound-suprerogation -<-existentially-veridical-`attendant-intradimensional- apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical- outcome-arrived-at> mind operates by an ad-hoc and circumspect exaggeration or omission). Insightfully, such a candidity/candour-capacity notional–deprocriptivism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology construed as most ontologically-veridical human psychical representation and so over our
present positivism–procrypticism psychical representation, is effectively grounded on the notion that placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is ‘by itself inherently an utterly discreet and arbitrary construct’ but for the fact that every registry-worldview’s/dimension’s reference-of-thought has been habituated to its own as of its existentialism/full-depth-of-existential-implications meaningfulness-and-teleology and considers its own by reflex to be sanctimonious. But then the fact is the true sanctimony lies with intrinsic-reality/ontological-veridicality construed as of prospective relative-ontological-completeness of reference-of-thought as it so defines the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology veracity/ontological-pertinence as of existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness of reference-of-thought’s-devolving-as-of-instantiative-context, as implied with the notion of ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’. mental-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness/equalisation) mental-disposition behind the ‘inventing’ of prospective institutionalisation, it is effectively occurs spontaneously to the intemporal disposition and cannot be the basis for collective grounding of such human consciousness apriorising/axiomatising/referencing—of—existentialising/contextualising/textualising-contiguity⟩—conflatedness as this inevitably leads to temporal concatenation to intemporality, rather its import lies solely as of solipsistic intemporal projection drive given that ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality is beyond the possibility of its secondnatured institutionalisation just as implied with the notion of faith in creeds. Further, the dynamics of such a graduated human consciousness as of notional—conflatedness of notional—deprocrypticism can be reinterpreted operantly as of ‘notional—referentialism’ as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,—as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments are actually ‘various levels of failing to achieve the notional—deprocrypticism referentialism—ontologically-uncompromised-mediating,—as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure ontological-completeness-of-reference-of-thought’, and thus are construed as of the same
notion of referentialism, as of ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments
levels’ given their respectively underlying limited-mentation-capacity in achieving referentialism. While in reality these are respectively of ‘categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness\(^{13}\) mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’
they still act as if of ‘notional~deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflicatedness\(^{12}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and so ‘in their beyond-the-consciousness-awareness-teleology\(^{100}\)-<in-existential-extrication-as-of-existential-unthought> preconverging-or-dementing —apriorising-psychologism’ thus generating as of their ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ their respective \(^{58}\) neuterising construed as of ‘their prior relative-ontological-incompleteness\(^{89}\)-of-\(^{14}\) reference-of-thought of \(^{56}\) meaningfulness-and-teleology\(^{100}\).\(^{75}\) neuterising thus refers to human attribution of ‘meaningfulness-and-teleology\(^{100}\) as of human limited-mentation-capacity misconstruing, with respect to existential social-stake-contention-or-confliction possibilities, such that its ‘reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming—ontological-performance\(^{77}\)-<including-virtue-as-ontology> is relatively ontologically-incomplete/of-ontologically-compromised-mediating,-as-of-its-specific-constitutedness\(^{1}\), and so-construed from the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflicatedness\(^{12}\) of notional~deprocrypticism; thus \(^{1}\) neuterising is specifically ‘a contextually developed perversion-or-derived-\(^{77}\) perversion-of-\(^{1}\) reference-of-thought<-as-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, that is secondnatured as of its prior relative-ontological-incompleteness of reference-of-thought with the consequent implications of relatively defective meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology>. For instance, as of their relative-ontological-incompleteness of reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness of reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism relative to the ‘utter and brute’ animistic interpretation as neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation -<as-to-
‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism>. This is a most elaborate articulation of neuterising but it equally applies where meaningfulness-and-teleology is ‘just about miscued’ say between positivism–procrypticism and notional-deprocrypticism with the latter underlying the disjointedness-as-of- reference-of-thought of the former as it neuterising, for instance in the case of psychopathy and corresponding conjugated-postlogism as social psychopathy as in the various illustrations highlighted herein and particularly as more obviously revealed with childhood psychopathy. In the bigger picture, ascriptivity-or-ascriptition-hardening/pseudo-referentialism arises as of notional–referentialism/notional–deprocrypticism; wherein
recurring-utter-uninstitutionalisation’s existential reference-of-thought deepest-level of neuterising is elicited by its ‘trepidatious-consciousness impulsive—ontologically-compromised-mediating,-as-of-its-specific-constitutedness’
superseded as of its revealed perversion-and-derived-\textsuperscript{75} perversion-of-\textsuperscript{75} reference-of-thought <as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and so as of the uninstitutionalised-threshold \textsuperscript{03} rule. This explains why at uninstitutionalised-threshold \textsuperscript{03} which are subject to ‘\textsuperscript{10} meaningfulness-and-teleology’\textsuperscript{100} neuterising’, prospective institutionalisation can only be achieved as of seconndnatured constraining social \textsuperscript{104} ‘universal-transparency’\textsuperscript{105} \{transparency-of-totalising-entailing-as-to-entailing \textsuperscript{<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness >} that overcomes the given uninstitutionalised-threshold \textsuperscript{03} ‘\textsuperscript{56} meaningfulness-and-teleology’\textsuperscript{100} 58 neuterising’ thus enabling the ontological-normalcy/relative-ontological-completeness\textsuperscript{84}–of-\textsuperscript{84} reference-of-thought of the prospective institutionalisation. It also explains why naively implying at an uninstitutionalised-threshold \textsuperscript{03} that ‘the social-	extsuperscript{10} universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ is \textsuperscript{10} universally attributable as if humans had only the intemporal/longness-of-register-of–\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} indiduation without temporal/shortness-of-register-of–\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} indiduations will simply fail to recognise the generation-and-upholding of neuterising and thus unable to reveal perversion-and-derived-\textsuperscript{75} perversion-of-\textsuperscript{75} reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >: as it is naïve to think that while being at an uninstitutionalised-threshold \textsuperscript{10} like \textsuperscript{104} ‘universalisation–non-positivism/medievalism by mere-and-vague impression-driven/good-naturedness/wishfulness \textsuperscript{<amplituding/formative>} wooden-language–(imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology –as-of– nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} in
social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring crossgenerational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation meaningfulness-and-teleology’ to be able to then reveal, construe and uphold positivistic Being and meaningfulness-and-teleology, and this equally applies with regards to overcoming our ‘procrypticism–or–disjointedness-as-of-reference-of-thought meaningfulness-and-teleology’ to attain futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism Being and meaningfulness-and-teleology. As a further elucidation, a comparison can be made between a construct of ‘notional–referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness–of-reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of amplituding/formative–epistemicity–totalising–ratio-contiguity/ratiocination-as-referentialism’ as of their respective epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness–of-reference-of-thought. Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the
very same totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that ‘relative completeness/profoundness of axiomatic-construct/reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness’ which refers to the transcendental-enabling/sublimating/supererogatory—de-mentativity conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for a registry-worldview’s/dimension’s reference-of-thought construction possibilities of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue as of existential-instantiations’, on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening successive more and more relatively profound/complete registry-worldviews/dimensions reference-of-thought constructions of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue; with the (given consciousness’s neuterising-induced-or-deneuterising—induced) reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness as of its intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential—
notions/articulations/virtue as the registry-worldview’s/dimension’s reference-of-thought ‘abstract teleological-de-mentating/structuring/paradigming/teleological-possibilities’. For instance, all subsequent axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of the recurrent-utter-uninstitutionalisation registry-worldview/dimension are possible only by its (trepidatious-consciousness neuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness which is non-rules—apriorising/axiomatising/referencing—psychologism—as-impulsive-or-accidented-or-random-mental-disposition as this basically defines the possibility of institutionalisation within recurrent-utter-uninstitutionalisation as inherently non-existent. Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the (warped-consciousness neuterising-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness for enabling intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of base-institutionalisation. This insight extends to all <cumulating/recomposuring>-successive registry-worldviews/dimensions institutionalisations in construing their teleological-de-mentating/structuring/paradigming/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance—including-virtue-as-ontology across registry-worldviews/dimensions even though all humans have the same basic

In this regard, the budding-positivists had to implied an utter break with medieval-scholasticism-pedants—ideal-type-or-individuation to avoid the circular problem of their positivism knowledge and science being interpreted in mystical and alchemic terms-as-axiomatic-construct of $\text{reference-of-thought–categorical-imperatives/axioms/registry-teleology}$, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology$^{100}$. Such a psychoanalytic-unshackling commitment equally highlights that the idea of a common universal human potential available to all individuals while true is not inherently existentially fulfilled/valorised if that human-subpotency is not effectively to-the-best-of-our-temporal/mortal-superseding-endeavouring unleashed as of a $\text{maximalising-recomposuring-for-relative-ontological-completeness}$—unenframed-conceptualisation $^{45}$$^{88}$\[\text{amplituding/formative–epistemicity}\]totalising–renewing-realisation/re-perception/re-thought. This explains why our positivism–procrypticism so-construed from a notional~deprocrypticism perspective will be decentered and preconverging-or-dementing ‘apriorising-psychologism, just as our positivism in ontological-normalcy/relative-ontological-completeness reference-of-thought perspective construal of non-positivism/medievalism reference-of-thought in epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness reference-of-thought show the latter to be decentered and preconverging-or-dementing apriorising-psychologism. As a further elaboration, the circularity and mental-disposition attached to a registry-worldview’s/dimension’s reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is fundamentally grounded on its teleological-de-mentating/structuring/paradigming/teleological-possibilities established as of its definition of teleology and devolving—meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/interolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue. It is only a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in the medium to long-term that can transcendentally ‘wean off’ from such a teleological-de-mentating/structuring/paradigming/teleological-possibilities of a registry-worldview/dimension by habituating a prospective institutionalisation as of its definition of teleology and devolving—meaningfulness-and-

This explains as of metaphysics-of-absence–⟨implicated-epistemic-veracity-of- nonpresencing–⟨perspective–ontological-normalcy/postconvergence⟩⟩ why for instance the mere demonstration to approval/acquiescence of positivistic principles/interpretations of intrinsic-reality/ontological-veridicality in a non-positivistic as animistic social-setup or medieval social-setup however frequent the demonstrations within a given limited period of time doesn’t mean that the social-setup has been transformed into a positivistic social-setup; since their existentially habituated state of animism or medievalism teleological-dementating/structuring/paradigming/teleological-possibilities as of ⟨warped-or-preclusive-consciousness neuterising-induced⟩-reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness as intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, will need to be undone/unshackled psychoanalytically in the medium to long-run to veridically achieve positivism; given that that uninstitutionalised-threshold is in a state of circular-pervasiveness-of-‘reference-of-thought–degraded-devolving-as-of-uninstitutionalised-threshold’! institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology by way of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity at the registry-worldview’s/dimension’s uninstitutionalised-threshold inducing prior relative-ontological-incompleteness of reference-of-thought in need for prospective relative-ontological-completeness of reference-of-thought, and so as a transitional construct that is in effect as of a psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring articulation by its crossgenerational transcendental implications projection. Such that such ‘a psychoanalytic-unshackling commitment’ cannot be construed in the same terms—as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior institutionalisation teleological-de-mentating/structuring/paradigming/teleological-possibilities for its ‘grounded knowledge construct’ as prior relative-ontological-incompleteness of reference-of-thought, but rather construed as of prospective ontological-normalcy/relative-ontological-completeness of reference-of-thought it more critically and organically points to the uninstitutionalised-threshold state of the present registry-worldview’s/dimension’s reference-of-thought at its uninstitutionalised-threshold with respect to the prospective institutionalisation state of the prospective registry-worldview’s/dimension’s reference-of-thought as of its prospective relative-ontological-completeness of reference-of-thought, and thus rather implies an de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics). It is psychoanalytic-unshackling commitment and not grounded knowledge construct commitment, because it is for instance about articulating ‘prospective positivism axiomatic-construct (occlusive-consciousness neuterising-induced)’ reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘non-
positivism axiomatic-construct \(\langle\text{warped-or-preclusive-consciousness} \text{-neuterising-induced}\rangle\)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness', or in the case of articulating 'futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology' as of prospective notional-deprocrypticism axiomatic-construct \(\langle\text{protensive-consciousness} \text{deneuterising}\text{-induced}\rangle\)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘positivism—procrypticism axiomatic-construct \(\langle\text{occlusive-consciousness} \text{neuterising-induced}\rangle\)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness. It is important to grasp in both instances that such psychoanalytic-unshackling commitment implications are not to be understood respectively as of the uninstitutionalised-threshold mental-dispositions of non-positivism/medievalism or procrypticism–reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness which will just induce their amplituding/formative—epistemicity totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions for non-transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, but rather as of a habituated mental-projection perspective from the prospective institutionalisations of positivism or notional—deprocrypticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness. Thus counterintuitively to metaphysics-of-presence \(\langle\text{implicated—'nondescript/ignorable—void } \text{—as-to— presencing—absolutising—identitive-constitutedness }\rangle\) conception, human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as ‘banally’ portrayed historically is not as
of an expanding ‘grounded knowledge construct’ from time immemorial as of a wrong incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-reflex as if humans have had only one ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of ’reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’.

But actually the underlying process is one of ‘a psychoanalytic-unshackling as of a succession of prospective institutionalisations —maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation construed from a succession of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of ’reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ so implied by an ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ enabling successive prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence with respect to human notional limited-mentation-capacity-deepening underlying the institutional-cumulation/institutional-recomposure—as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism’}, such that counterintuitive to what we might be inclined to think, the development of human psychology is not as of ‘a grounded construction that simply varies incrementally across all times’, but rather ‘a construction which teleological-de-mentating/structuring/paradigming/teleological-possibilities/teleological-potency are sharply rearticulated in succession of institutionalisations as of ontological apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness’, and this is

Insightfully, this point out the circumspective nature of any transcendental knowledge
construction exercise as of ontological-tolerance to avoid on the one hand outrightly
articulating construed ontological-veridicality at the expense of avoiding any Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

thus rather eliciting atomising/taking-to-pieces apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness that induces relatively poor ontological-performance—<including-virtue-as-ontology>. The central element here has to do with the pervasiveness of ‘conceptual patterning’ that actually speaks of a nombrilisticas <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag</amplituding/formative–epistemicity> approach to conceptualising knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as validated by ontological-primemovers-totalitative-framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory–de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity. But then such an approach is naïve by
its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness of reference-of-thought, as of the incompleteness of the preconverging-de-mentating/structuring/paradigming of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the preconverging-de-mentating/structuring/paradigming of human reference-of-thought; with the consequence that it is not ‘notionally postconvergingly-de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—confledness but rather suffers from apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness. This weakness is underlined and resolved by the notion of maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—confledness in line with existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of
themselves’ as if an epistemic-totalising ~devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ~<as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming’>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness~of~reference-of-thought~devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness but rather such ‘depth/axiomatic-construct of existence for
musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a apriorising/axiomatising/referencing-(of- existentialising/contextualising/textualising-contiguity ) conflatedness as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought’s-devolving-as-ofinstantiative-context is then the preceding and transformative element of ‘meaningfulness-and-teleology conceptualisation as of our limited-mentation-capacity-deepening enabling our prospective relative-ontological-completeness’s-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given amplituding/formative-epistemicity-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory–de-mentativity dynamism and implied organic-knowledge’ as of apriorising/axiomatising/referencing-(of- existentialising/contextualising/textualising-contiguity ) conflatedness. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an amplituding/formative-epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory–de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory–de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity) conflatedness in (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness ‘of-notional–deprocrypticism-prospective-sublimation}) originary/event ‘of-prospective-ontology-origination projection into existentialising/contextualising/textualising-contiguity’s-reifying-or-elucidating-of-prospective-relative-ontological-completeness ‘of-reference-of-thought’s devolving-as-of-instantiative-context, it emphasises mere de-mentative/structural/paradigmatic patterns inducing apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity) constitutedness, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity construal highlights the ontological-contiguity of all knowledge as of their ‘reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming dynamic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-
mentative/structural/paradigmatic conceptualisation in apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness rather than striving to expand the transcendental-enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-framework existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory—de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory—de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity—nature and differences as well as their divergence in meaningfulness-and-teleology implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-
conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/superceratory—de-mentativity ontological-primemovers-totalitative-framework renewal of a same
<amplituding/formative—epistemicity>totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity)—constitutedness undermining requisite creativity as of apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising-contiguity)—conflatedness, as it ‘critically presupposes beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought’ that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given
<amplituding/formative—epistemicity>totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existentialising/contextualising/textualising-contiguity’s—reifying-or-elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. Such an analytic insight as of a notional—deprocrypticism (protensive-consciousness deneuterising—induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness analysis as of its prospective relative-ontological-completeness—of—reference-of-thought/ontological-normalcy, points out that actually, and according to this author’s view,
such a currently discussed philosophical issue as the hard problem of consciousness arises as a
result of a fragmented thematic construal as of apriorising/axiomatising/referencing-(of-
existentialising/contextualising/textualising-contiguity )—constitutedness wherein a more

a problem that actually ‘devolves out’ of the more fundamental issue of Being as of its but is
rather being posed as of a ‘disjointed/fragmented analysis’ as a consciousness grounded

lies in the fact that the construal/conceptualisation of an epistemic-totalising ~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality is ‘supposedly as of a perfect or near-perfect or relatively-perfect ontological correspondence between such human construed/conceptualised meaningfulness-and-teleology and the inherent ontological-veracity/intrinsicness of the <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology —<in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it’. The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness —of—reference-of-thought/ontological-normalcy/conflatedness. Since there is no direct correspondence between relative-ontological-incompleteness —of—reference-of-thought/epistemic-abnormalcy/preconvergence /deconstructing with the inherent intrinsicness of the <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology —<in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it, it is thus only from a constructed-deficiency of prospective relative-ontological-completeness —of—reference-of-thought/ontological-normalcy/conflatedness which has such a direct correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness —of—reference-of-thought/epistemic-abnormalcy/preconvergence /deconstructing can be established. Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. This validates the idea of dualism as ultimately <supererogatory–human-subpotency>–effecting can only arise from the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)–conflatedness of human consciousness in-its-embodiment as the potent ‘phenomenological transcendental-point-of-departure handle’ for human self-conscious existence and ‘meaningfulness-and-teleology’ construal/conceptualisation as of knowledge-constructs/theories/intersolipsistic-intercesory-notions/notional–referential-notions/articulations/virtue, whereas the human body as matter though physically existent cannot as of such its apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)–constitutedness conception be construed/conceptualised as of such a ‘phenomenological transcendental-point-of-departure handle’. This overall notional conception extends as well to the various ways by which human limited-maintenance-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness\(^{12}\) induced neuterising or prospectively notional-deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\(^{12}\) meaningfulness-and-teleology\(^{100}\). This ultimately points to the centrality of the implications of the 'notion of limited-mentation-capacity' as of its notional-deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-confalatedness as a notional conception in construing 'meaningfulness-and-teleology', while avoiding its ontologically-flawed apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness[1] construed in terms—as-of-axiomatic-construct of the various 'neuterising. Hence the 'notion of limited-mentation-capacity' as it overcomes ontologically-compromised-mediating,-as-of-its-specific-constitutedness towards ontologically-uncompromised-mediating,-as-of-confalatedness is what is effectively and ontologically defining of issues of reference-of-thought of meaningfulness-and-teleology given that as of its ontologically-veridical apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—confalatedness it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening that is behind the ontological-contiguity—of-the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of—meaningfulness-and-teleology—and-longness-of-register-of—meaningfulness-and-teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness—of—reference-of-thought perspective of notional-deprocrypticism 'referentialism—ontologically-uncompromised-mediating,-as-of-confalatedness protensive-consciousness sound conceptualisation perspective'. In other words existence is already given rather as of its potency, and the real problem of existence is humankind’s access to existential possibilities as of humankind’s limited-mentation-capacity. That is, human transcendence-and-sublimity/sublimation/superroratory—de-mentativity is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t-make-sense/is-unavailable for any specific human registry-worldview’s/dimension’s—reference-of-thought as an <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasias-drag construct, including our positivism—procrypticism registry-worldview/dimension, as this will falsely imply that our reference-of-thought <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasias-drag is ‘developed enough’ as of Being-and-contemplation to have achieved the full potency of existence to then know what’s existence whereas in reality such <amplituding/formative—epistemicity>totalising—self-referencing-

Interestingly, from our vantage positivism/rational-empiricism perspective, we’ll certainly construe the supposed intradimensional resolution of existential issues of prior relative-ontological-incompleteness—of-reference-of-thought as of ontological-performance—<including-virtue-as-ontology> arising in recurrent-utter-uninstitutionalisation as intradimensional meniality-or-hyperbole and rather resolvable as of base-institutionalisation superseding projection/anticipation, and same with base-institutionalisation—ununiversalisation as intradimensional meniality-or-hyperbole and rather resolvable as of universalisation superseding projection/anticipation, and same with universalisation—non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won’t or hardly construe of the same as of our <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag about our positivism—procrypticism as it being of intradimensional meniality-or-hyperbole and rather resolvable as of notional—deprocrypticism as preemting—disjointedness-as-of-reference-of-thought superseding projection/anticipation! For instance, we can grasp that ‘traditional classical mechanics axiomatic-construct’ is a given ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology of ‘the very same physics of meaningfullness-and-teleology of ‘the very same physics of meaningfulness-and-teleology’ as of a prior relative-ontological-incompleteness of less ontological-performance of ‘the very same physics of meaningfulness-and-teleology’ as of a prior relative-ontological-incompleteness of less ontological-performance of ‘the very same physics of meaningfulness-and-teleology’ as of a prior relative-ontological-incompleteness of less ontological-performance of ‘the very same physics of meaningfulness-and-teleology’ as of a prior relative-ontological-incompleteness of less ontological-performance of ‘the very same physics of meaningfulness-and-teleology’ as of a prior relative-ontological-incompleteness of less ontological-performance of ‘the very same physics of meaningfulness-and-teleology’ as of a prior relative-ontological-incompleteness of less ontological-performance of ‘the very same physics of meaningfulness-and-teleology’ as of a prior relative-ontological-incompleteness of less ontological-performance of ‘the very same physics of meaningfulness-and-teleology’ as of a prior relative-ontological-incompleteness of less ontological-performance of ‘the very same physics of meaningfulness-and-teleology’ as of a prior relative-ontological-incompleteness of less ontological-performance of ‘the very same physics of meaningfulness-and-teleology’ as of a prior relative-

However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered-epistemic-totalisation of a very same meaningfulness-and-teleology ontological-performance <-including-virtue-as-ontology>, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered—epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différance is the notion of \(<\text{amplituding/formative–epistemicity} \text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} >\), as of beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>\(^6\), construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold\(^{103}\) temporal individuations circular undermining of the prospective institutionalisation\(^8\) reference-of-thought-as-to-postconverging–de-mentating/structuring/paradigming implied transformation/shift as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness\(^8\)–of–reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold\(^{103}\ ^8\) reference-of-thought which is in \(<\text{amplituding/formative–epistemicity} \text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} >\) with its ultimate crossgenerational collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency—\(<\text{transparency-of-totalising-entailing–as-to-entailing–totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag} >\) as of prospective relative-ontological-completeness\(^8\)–of–reference-of-thought of the prospective
institutionalisation’s reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening then resolves/overcomes the circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness reflected in the prior mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-undecidable with a new mathematical model/axiomatic-construct in relative ontological-contiguity as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness, and so as of the very same epistemicity totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limited-mentation-capacity-deepening induces de-mentatively/structurally/paradigmatically grander human meaningfulness-and-teleology ontological-performance of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-
reality/ontological-veridicality, and this equally applies by extension to reference-of-thought—devolving-teleological-de-mentating/structuring/paradigmimg—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human-amplituding/formative–epistemicity>totalising~purview-of-construal’. It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human-amplituding/formative–epistemicity>totalising~purview-of-construal’ or amplituding/formative–epistemicity>totalising—devolved—purview—as-domain-of-construal—as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicited axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of meaningfulness-and-teleology of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/reference-of-thought’, as the axiomatic-construct/reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—as-to-perspective–ontological-normalcy/postconvergence-implied—‘prospective-aporeticisn-overcoming/unovercoming’ for human-subpotency possibilities for devolving meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue, with increasing ontological-performance—including-virtue-as-ontology> as of human transcendence; even though such a conception as ‘axioms of logic’
could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—existentialising/contextualising/textualising-contiguity⁹⁰, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—<as-to-postconverging-or-dialectical-thinking apriorising-psychologism as of maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory~de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory~de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed
implicitly or explicitly in association with or inspired from the context as to existentialising/contextualising/textualising-contiguity\textsuperscript{79} of other applied and transcendental-enabling/sublimating/supererogatory–de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as of existentialisinggetContextualising/textualising-contiguity\textsuperscript{79} knowledge-reification\textsuperscript{87} for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about sublimating-validation/desublimating-invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential sublimating-validation/desublimating-invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for
confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest-subpotency-(in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence) with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest-subpotencies-(in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence) given ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodingers, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory-de-mentativity of the physics <amplituding/formative-epistemicity>totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-
constructs with mathematics being accessory to the transcendental-enabling/sublimating/supererogatory-de-mentativity. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory-de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’. The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory-de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory-de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension ‘reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-amplituding/formative-epistemicity-totalising-purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness—of-reference-of-thought; as we can
appreciate inherently as of metaphysics-of-absence\{(implicated-epistemic-veracity-of-
nonpresencing-\langle perspective–ontological-normalcy/postconvergence\rangle\} that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100}. The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid \textsuperscript{84} reference-of-thought-as-of-\textsuperscript{1} reference-of-thought—devolving-teleological-de-mentating/structuring/paradigmmeing—of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} as of prospective \textsuperscript{17} deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional—deprocrypticism psychoanalytic-unshackling metaphysics-of-absence\{(implicated-epistemic-veracity-of- nonpresencing-\langle perspective–ontological-normalcy/postconvergence\rangle\} and apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-
contiguity )—conflatedness\textsuperscript{12}, and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-
contiguity )—constitutedness\textsuperscript{13} construal of \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiac-drag\textsuperscript{33} naivety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated \textsuperscript{84} reference-of-thought, construed as ‘\textsuperscript{1} reference-of-thought—devolving-teleological-de-
infrastructure-of—meaningfulness-and-teleology that carries the prospective transcendence-
and-sublimity/sublimation/supererogatory—de-mentativity which are the resolution of the
successive prior registry-worldview’s/dimension’s uninstitutionalised-threshold vices-and-impediments; and so by successive Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology in reflecting holographically—conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as base-institutionalisation, universalisation and positivism respectively, and prospectively deprocrypticism. Being construed as of ontology’s-directedness-as-Being thus enables the superseding of "amplituding/formative—epistemicity>totalising—self-referencing—syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence{implicated—nondescript/ignorable—void ’—as-to— presencing—absolutising—identitive—constitutedness }. Further, the fact is that it is rather axiomatic-constructs whether explicit or implicit that are supposedly in a correspondence relation with an epistemic—totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality as of their given ontological-performance—<including-virtue-as-ontology> as validated by ontological-primemovers-totalitative-framework; so-construed as of the implications of human limited-mentation-capacity when developing axiomation-constructs, with the latter subject to their transcendence-and-sublimity/sublimation/supererogatory—de-mentativity when prospective relative-ontological-completeness —of-axiomatic-construct-or—reference-of-thought avails prospectively with regards to their meaningfulness-and-teleology ontological-performance—<including-virtue-as-ontology>. The implications here as well are that implicit axiomatic-constructs like analogies and supposed intuitions/insights that do not reflect/align as of the coherence/contiguity of superseding—oneness-of-ontology implied as of the full-potency
construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with 4<amplituding-formative-epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory—de-mentativity implications as of human limited-mentation-capacity-deepening 7, whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify 35 meaningfulness-and-teleology 10 as knowledge which can only arise as of the 2<maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking —apriorising-psychologism> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’. Such a logicism disposition is rather in apriorising/axiomatising/referencing-(of—existentialising/contextualising/textualising-contiguity )—constitutedness 13 and is behind such naïve contention that philosophy doesn’t carry transcendental implications and actually undermines other approaches that strive for transcendental-enabling/sublimating/supererogatory—de-mentativity by way of conceptual patterning arguments blinded to transcendental implications of knowledge as derived from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—
eliciting-of-prospective-supererogation  

(I exist therefore existence is of transcendental-enabling/sublimating/supererogatory de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance) is the ‘complete scientific archaeological depth’ for grasping ontology and Being as of the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity—confatedness) of human limited-mentation-capacity implications construed from notional–deprocrypticism perspective as ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>, and consequently doesn’t carry any external ideological implication but rather for the inherent ontological and Being implications. Further as of such phenomenological transcendental apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity—confatedness), there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence, disclosed from prospective-epistemic-digression, but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of ontology’s-directedness-as-Being. The phenomenological insight here about the nature of ‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity—confatedness) as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation selectivity inherent in existence that rather skews presence states towards the ‘ontological statistical-exception’ of intemporality/longness over
temporality /shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality -to-intemporality were to be arising in equivalence/equal-measure. Thus, such ontology’s-directedness-as-Being apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflicatedness a

determinism causality as-to-projective-totalitative-implications-of-prospective- nonpresencing-for-explicating-ontological-contiguity is subject to epistemic-decadence as of beyond-the-consciousness-awareness-teleology\textsuperscript{100}. Such ‘ontological statistical-exception’ of intemporality /longness as of ontology’s-directedness-as-Being permeates all existential processes including life itself. This explains why dimensionality-of-sublimating\textsuperscript{54} (supererogatory\textsuperscript{-}de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) mental-disposition behind the ‘inventing’ of prior institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality construed as prior ontology’s-directedness-as-Being is necessarily the requisite mental-disposition for the ‘inventing’ of prospective institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality construed as prospective ontology’s-directedness-as-Being; and so, overcoming temporal/shortness-of-register-of-meaningfulness-and-teleology\textsuperscript{100} on wooden-language—(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology } as of uninstitutionalised-threshold\textsuperscript{113} failing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Ultimately, phenomenology is all about grasping the apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising—contiguity )—conflatedness\textsuperscript{12} of ontology’s-directedness-as-Being. Furthermore, just as a transcendental-enabling/sublimating/supererogatory—de-mentativity biological science in relative ontological-contiguity\textsuperscript{10} of reference-of-thought will dissociate modern-day heredity
DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory–de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating/supererogatory–de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology ontological-performance -including-virtue-as-ontology arises as an exercise of human limited-mentation-capacity-deepening as of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human totalising–purview-of-construal’ or as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory–de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual
patterning of general knowledge are articulated devoid of 'new theory', with little or no transcendental-enabling/sublimating/supererogatory-de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem 'not along the curve created-by-human-limited-mentation-capacity' in relative notional-discontiguity/epistemic-discontiguity -<shallow-supererogation -of-mentally-
aestheticised—preconverging/dementing —qualia-schema> of axiomatic-construct but rather a problem arising as of the need for 'a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human meaningfulness-and-teleology/ontological-performance-<including-virtue-as-ontology>, as of the very same <amplituding/formative—epistemicity>totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. The <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought involves taking cue from existence as to existentialising/contextualising/textualising-contiguity/contexts as of existential-instantiations imbricatedness/threadedness/recomposuring in a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation exercise as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity. The notion of axiomatic-construct in ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity.
as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity\(^6\). Ontological-contiguity\(^7\) rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct\(^8\) reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity\(^8\) and newtonian physics in relative notional-discontiguity/epistemic-discontiguity\(^6\) rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity\(^8\)’ will seem to imply correlatedness by the very nature of the term continuity.

Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of-existence’s–sublimating–nascence problem but rather a problem of human-subpotency as of its limited-mentation-capacity that is resolvable by the deepening of human limited-mentation-capacity as of de-mentation\(^4\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with respect to reference-of-thought; as contrary to the ‘Derridean différance decentering’ freeplay that is entrapped in circularity of meaningfulness-and-teleology\(^10\) on the wrong implied assumption of the same perpetual horizon as registry-worldview/dimension reference-of-thought so-implied as of our positivism mental-disposition, a ‘futural différance’ recognises that human limited-mentation-capacity transcendence-and-sublimity/sublimation/supererogatory–de-mentativity brings about prospective relative-ontological-completeness\(^8\)–of–reference-of-thought, and thus it centers-as-postconverging-or-dialectical-thinking\(^2\)–apriorising-psychologism the prospective institutionalisation’s reference-of-thought-as-of–reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of its prospective

framework, such that many a subject matter domain like the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially as of institutional and formal deferential-formalisation-transference as abstract intemporal/ontological-driven conceptualisation as of respectively formal religion, formal science, legal system, etc. voiding free-for-all construals as of temporal social-aggregation-enabling teleological dispositions as of respectively animistic dispositions, alchemic and essences-driven explanation of nature, crude mob justice, etc. Insightfully, as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>‘–existentialism-form-factor, anthropologists are very much aware that the social diffusion of new transcendental-enabling/sublimating/supererogatory–de-mentativity practices into a given society are more likely to be adopted as of the society’s institutional and formal percolation-channelling-in-deferential-formalisation-transference framework than as of an dimensionality-of-sublimating</amplituding/formative>supererogatory–de-mentativity/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) ‘direct convincing’ at individuals-level underlying deferring to institutional and formal ‘meaningfulness-and-teleology as of the need for profundness and rigour that doesn’t avail in ordinary thought for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological meaningfulness-and-teleology could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates
to its value construct as of its prior relative-ontological-incompleteness of reference-of-thought apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—constitutedness as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness of reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the amplituding/formative-epistemicity totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness of reference-of-thought apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—conflatedness which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory-de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity—of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory-de-mentativity
paradox is rather reflected by the dynamics of human positive-opportunism\(^\text{10}\) as of human
\(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing–syncretising/circularity/interiorising/akrasiac-drag}\>

\(<\text{transparency-of-totalising-entailing–as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}>\) avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but crossgenerationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on ‘meaningfulness-and-teleology\(^\text{10}\) with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of ‘meaningfulness-and-teleology\(^\text{10}\) within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and
syncretising-effecting construed as totalising-self-referencing-syncretising-effecting construed as meaningfulness-and-teleology with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as syncretising/circularity/interiorising/akrasiatic-drag human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology within a given social-setup in the immediate-and-short-term. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness of reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of–meaningfulness-and-teleology given their supposedly coherent ontological-commitment implied—self-
assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> as of more profound ontological-primemovers-totalitative-framework\textsuperscript{71} validation as to existence-potency\textsuperscript{72}–sublimating–nascence,-disclosed-from-prospective-epistemic-digression, as re-originary–as-unenframed/unbeholdingen/outlier-conceptualisation\textsuperscript{91}, that are most likely to be syncretised crossgenerationally as providing the most overall positive-opportunism\textsuperscript{76} by their relative\textsuperscript{100} universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing\textsuperscript{15} nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment\textsuperscript{67} ~<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology\textsuperscript{100} ~<in-existential-extrication-as-of-existential-unthought> with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of–social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said
institutionalisation-level’s reference-of-thought–categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence-and-sublimity/sublimation/superrational–de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency -\{transparency-of-totalising-entailing,-as-to-entailing-\<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \} about such metaphoricity instigative reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment -\<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> that is subject to existence-potency~sublimating–nascence,–disclosed-from-prospective-epistemic-digression validatory ontological-primemovers-totalitative-framework. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment -\<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> threshold of a social-setup meaningfulness-and-teleology allows for the
possibility for prospective metaphoricity\(^7\) to reconstrue-and-redefine the social-setup meaningfulness-and-teleology\(^{100}\). Such prospective metaphoricity\(^7\) possibility cannot be preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology\(^{100}\) needs this supposedly coherent ontological-commitment\(^5\)\(^8\)\(^<\text{implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-}\)mentating/structuring/paradigming \(^{-}\text{as-being-as-of-existential-reality}>\) in other to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology\(^{100}\) that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity\(^7\) in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology\(^{100}\) is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework\(^7\)\(^4\)\(^<\text{amplituding/formative–}\)epistemicity>causality\(^{-}\text{as-to-projective-totalitative–implications-of-prospective-}\)nonpresencing,-for-explicating-ontological-contiguity\(^\text{as of the social-setup given supposedly coherent ontological-commitment ~<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality>_}. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment\(^5\)\(^8\)\(^<\text{implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-}\)mentating/structuring/paradigming \(^{-}\text{as-being-as-of-existential-reality}>\) respectively as of superstitious spiritualism meaningfulness-and-teleology\(^{100}\) or scholasticism pedantic dogmatism meaningfulness-and-teleology\(^{100}\), as of the given social-setup \('\text{self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-}\)mentating/structuring/paradigming \(^{-}\text{as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction}’\) in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism
or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{69}–postconverging–de-mentating/structuring/paradigming\textsuperscript{70}–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity\textsuperscript{57} to demonstrably undermine the implied supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology\textsuperscript{100}, and so as of the prospectively induced ontological-primeowers-totalitative-framework\textsuperscript{73} superseding meaningfulness-and-teleology\textsuperscript{100} as from existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression epistemic-or-notional–projective-perspective of relative-ontological-completeness\textsuperscript{38}–of-refrence-of-thought by way of ontological-primeowers-totalitative-framework such as with prospective positivism/rational-empiricism meaningfulness-and-teleology\textsuperscript{100}. However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity\textsuperscript{7} undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity\textsuperscript{57} and by that token elicit sophistic/pedantic inclinations to such prospective metaphoricity\textsuperscript{57} meaningfulness-and-teleology\textsuperscript{100}. Further any such prospective metaphoricity\textsuperscript{57} ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism as of particular and general social interest. That said, a social-setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the fact of greater existentialising/contextualising/textualising-contiguity knowledge-reification\textsuperscript{37} from prospective metaphoricity\textsuperscript{57} which may involve undermining such ‘existentially invested’ registry-worldview/dimension in its \textlangle amplituding/formative\rangle wooden-language—{}\textlangle imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—\textrangle meaningfulness-and-

Ultimately, prospective metaphoricity in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuation realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality/longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-disposition as to absolute ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-
mentating/structuring/paradigming—as-being-as-of-existential-reality>. More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling—<in-deferential-formalisation-transference>, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism–procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for the
medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of ontological-primemovers-totalitative-framework, so long as it is socially and institutionally credible to uphold non-positivism meaningfulness-and-teleology in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks de-mentatively/structurally/paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma as of social-stake-contention-or-confliction) construe of such sophistic/pedantic disinclination as implying notional-discontiguity/epistemic-discontiguity with their prospectively implied metaphoricity; with the consequence that there can’t be common/mutual aposteriorising/logicising/deriving/intelligising/measuring as of dialogical-equivalence—conflatedness, -in-self-

Broadly speaking thus, the amplituding/formative—epistemicity causality—as-to-projective-totalitative—implications-of-prospective nonpresencing—for-explicating-ontological-contiguity of prospective relative-ontological-completeness of reference-of-thought as of human temporal-to-intemporal mental-dispositions in social-stake-contention-or-confliction implies that it is naïve to conceive of a ‘neuter framework of reference-of-thought putting the notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ as in effect as of apriorising/axiomatising/referencing—(of existentialising/contextualising/textualising-contiguity) conflatedness this simply wrongly elevates temporal/shortness-of-register-of meaningfulness-and-teleology mental-dispositions teleologically-degraded-devolving-as-of-uninstitutionalised-threshold and wrongly degrades the intemporal/longness-of-register-of meaningfulness-and-teleology mental-disposition elevated-devolving-as-of-prospective-institutionalisation; as the former is in
reality denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> while the latter is upholding reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemoral-preservation-entropy-or-contiguity—or-ontological-preservation. Actually such an ordinary mental-reflex of a ‘neuter framework of reference-of-thought putting the notional–firstnaturedness—temporal-to-intemoral-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ when it comes to social-stake-confliction-or-contention is only valid as of ‘mutual conceptualisation as of a given institutionalisation with a common ontological-reference-of-thought’ wherein it is then strictly a matter of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in determining ontological-veracity. But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of-reference-of-thought as of the prospective relative-ontological-completeness of reference-of-thought in intemorality/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness of reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemoral and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the notional–firstnaturedness—temporal-to-intemoral-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of

fails to attain such a apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—confalatedness as of notional–deprocrypticism deneuterising insight. Central and critical to achieving such a deneuterising analysis in grasping the full and complete possibilities of ontologically-veridical construal of human meaningfulness-and-teleology given human temporal-to-intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-threshold is the notion of beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>. It is exactly what renders a veridical ontological-escalation or aetiologisation of the human condition possible as the historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism> of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—confalatedness as of notional–deprocrypticism. It is most critical because at any registry-worldview/dimension, human self-consciousness is a mental-reflex as of being-only-in-institutionalisation-and-hence-only-of-a–meaningfulness-and-teleology—that-is-intemporal while defectively ignoring-and-undermining the veridicality of uninstitutionalised-threshold-and-its-assorted-and-conjugated-temporal–meaningfulness-and-teleology such that transcendence-and-sublimity/sublimation/supererogatory–dementativity is always perceived as unnatural when , in the sense that ‘it-is-others,-as-of-the-prior-registry-worldviews/dimensions,-that-have-an-uninstitutionalised-threshold-and-the-notion-of-transcendence-is-only-relevant-to-them-as-the-current-presence-is-normal’. The implications of such human

Effectively, such part-conviction-as-to-profound-supererogation—or—part—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{97} with respect to pertinently-perceived social-stake-contention-or-confliction contexts arises due to (beyond-the-consciousness-awareness—teleology\textsuperscript{100}<in-existential-extrication—as-of-existential-unthought>) constraint of human limited-mentation-capacity as of prospective human aporeticism such that this induces as of various existential-instantiations ‘ontologically-flawed meaningfulness-and—teleology\textsuperscript{100} ontological-performance\textsuperscript{99}—<including-virtue-as-ontology>’, subpar to ontologically-veridical meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{99}—<including-virtue-as-ontology> as fundamentally underscored by the prospective

This operantly defines procrypticism—or—disjointedness-as-of reference-of-thought as beyond just the construal of new supposedly intemporal reference-of-thought—categorical-imperatives/axioms/registry-teleology of the prospective institutionalisation to preempt the temporally denaturing reference-of-thought—categorical-imperatives/axioms/registry-teleology of the prior institutionalisation, but rather the deneuterising construal of the very ‘limited-mentation-capacity as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional~firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor as the beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> constraining dynamism’ behind the denaturing of reference-of-thought—categorical-imperatives/axioms/registry-teleology in the very first place; conceptualised henceforth as the very reference-of-thought—categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of the notional—deprocrypticism registry-worldview/dimension institutionalisation as of its implied notional—deprocrypticism. Overall, the fact is that given that what is most relevant to the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-profound-supererogation—or—part—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perception-and-relation to meaningfulness-and-teleology over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation—or—part—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-

The notion of beyond-the-consciousness-awareness-teleology –<in-existential-extrication-as-of-existential-unthought> is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human phenomenological mentation, as it ‘credibly’ grasps-and-accounts-for, without resorting to any neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of–meaningfulness-and-teleology individuation and temporal/shortness-of-register-of–meaningfulness-and-teleology individuations of postlogism slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought- devolving ontological-performance –<including-virtue-as-ontology>. disjointedness-as-of—reference-of-thought. The issue of Being-development/ontological-
framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—
meaningfulness-and-teleology or Being underdevelopment is associated with that of the
construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the
latter construed as of the ‘mere effecting possibilities of knowledge’ without a
coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-
notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of
knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of
‘temporal/shortness-of-register-of—meaningfulness-and-teleology mental-dispositions
towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being
construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-
ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality—
upholding of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation
that is behind organic-knowledge. Human <amplituding/formative—epistemicity>totalising—self-
referencing-syncetising/circularity/interiorising/akrasiac-drag temporal mental-dispositions
as of beyond-the-consciousness-awareness-teleology in temporal/shortness-of-register-of—meaningfulness-and-teleology terms-as-
of-axiomatic-construal as of the plainly implied opportunism with little consideration of the
projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/ reference-of-thought into a positivistic mindset/ reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness\textsuperscript{84}-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’\textsuperscript{78}—of-‘attendant-intradimensional’-prospectively-disontologising—preconverging/dementing \textsuperscript{apriorising-psychologism}—’ is in a state of \textsuperscript{amplituding/formative–epistemicity}totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of a medieval worldview will grasp that that unique demonstration of medieval-postlogism\textsuperscript{nonconviction/madeupness/bottomlining-as-to-shallow-supererogation} (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new \textsuperscript{logical-processing-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation} as ‘prelogic supplanting–conviction-as-to-profound-supererogation—of–’attendant-intradimensional’-postconverging/dialectical-thinking \textsuperscript{apriorising-psychologism} re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/ reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments\textsuperscript{106} potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and
enculturates notions-and-accusations-of-sorcery. It is rather the crossgenerational
psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of
the non-positivism/medievalism mindset/reference-of-thought into a positivistic
mindset/reference-of-thought that is ontologically-speaking to be construed as the
postconverging-de-mentating/structuring/paradigming resolution of the vices-and-
impediments arising from a non-positivism/medievalism worldview with respect to such
notions-and-accusations-of-sorcery. The same applies with respect to our positivism–
procrypticism worldview and futural Being-development/ontological-framework-expansion–as-
to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology
as of prospective notional–deprocrypticism worldview). We can appreciate such metaphysics-
of-absence insight as of say in a situation of cultural diffusion the
requirement that a recurrent-utter-uninstitutionalisation social-setup opportunistically grasping
mere effecting possibilities of base-institutionalisation knowledge, as of relative convenience to
individuals, are much more better off equally coming into terms institutionally with the
ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality induced
intemporality/longness behind the ‘inventing of the base-institutionalisation culturally
diffused knowledge’ for an optimum accrual of the Being-development/ontological-framework-
expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-
and-teleology of recurrent-utter-uninstitutionalisation; that is, based on base-
institutionalisation’s ‘rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism’ enabling the superseding of recurrent-utter-uninstitutionalisation vices-and-
impediments as of its ‘non-rules—apriorising/axiomatising/referencing–psychologism, as-
impulsive-or-accidented-or-random-mental-disposition’. Such conceptualisation extends to all
scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory–de-mentativity not only to science but transcendental-enabling/sublimating/supererogatory–de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology with respect to the prospective registry-worldview/dimension as resolving the vices-and-impediments of the prior registry-worldview/dimension. But then no matter the succession of institutionalisations as successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, there is an ever present issue of Being underdevelopment as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—
‘notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor wherein institutionalising ‘reference-of-thought—categorical-imperatives/axioms/registry-teleology’ are always subject at uninstitutionalised-threshold to their denaturing as of their <amplituding/formative> wooden-language—{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology }, as of temporal failing to uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Hence Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology given human limited-mentation-capacity is rather upheld by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation wherein the abstract intemporal/longness-of-register-of—meaningfulness-and-teleology behind the prior registry-worldview institutionalisation should equally be reflected as of prospective registry-worldview institutionalisation, and involving the requisite deferential-formalisation-transference secondnaturing of knowledge as organic-knowledge. We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct—of—meaningfulness-and-teleology—as-of—’nondescript/ignorable—void ‘with-regards-to-prospective-apriorising-implications>’ are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal
value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of seconndnatured education practically available to everyone interested, and so while alienating and considering general social wooden-language-\{imbued—averaging-of-thought-\langle as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology \rangle-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications\} as improper and unqualified. This was to avoid a circularity of wooden-language-\{imbued—averaging-of-thought-\langle as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology \rangle-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications\} undermining of the intemporal-projection of their specific knowledge/science, as they contribute in overall Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. The point here is that at uninstitutionalised-threshold the idea of ‘equal opinionatedness’ doesn’t apply by the mere fact that knowledge of intrinsic-reality itself doesn’t arise by wooden-language-\{imbued—averaging-of-thought-\langle as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology \rangle-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications\} but rather ontological-pertinence, and the point in reflecting holographically-\langle conjugatively-and-transfusively\rangle the ontological-contiguity—of-the-human-institutionalisation-process as knowledge-led is to harness ontological-pertinence and not wooden-language-\{imbued—averaging-of-thought-\langle as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology \rangle-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications\}, thus explaining deferential-formalisation-transference as of institutional percolation-chanelling. This point is central and critical to the very notion of
society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-
 basic-level-of-universal-individual-and-collective-self-affirmation-striving-for-social-
equality and the notion of knowledge as-of-selective-construal-of-social-value-and-
institutional-hierarchisation-as-of-ontological-prime movers-totalitative-framework-
 overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-
 ontological-performance-including-virtue-as-ontology-implications. The implication of this
dilemma is the reality that society is always subpar to a knowledge social determination as well
as subpar to a sovereignty social determination. This dilemma is unavoidable by the very
implications of a society: every social-setup as a conventional-construct can only be held
together in the long-term as of its requisite given registry-worldview’s/dimension’s
institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-
adherence-at-worst to the said institutionalisation-level’s reference-of-thought-categorical-
imperatives/axioms/registry-teleology-for-aposteriorising/logicising/deriving/intelligising/measuring-
 meaningfulness-and-teleology-with regards to meeting a basic level of individuals and social existential-possibilities
expectations; such that the notions of knowledge and sovereignty can only be ‘socially
effective’ within this articulated framework as enabled by ‘social-universal-transparency-
(transparency-of-totalising-entailing-as-to-entailing-amplituding-formative-epistemicity-totalising-
in-relative-ontological-completeness). This articulation can be
elucidated more explicitly in cases of cultural diffusion between societies of differing
institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation
knowledge-level transference, but involves a mutual sense of sovereign selectivity and
recognition among the societies, however the drive for cultural diffusion; thus allowing for
‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of
amplituding-formative-epistemicity-totalising-self-referencing-syncretising’ prior to
opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality—as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions;—wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory—de-mentativity as to existence-potency—as-sublimating—nascence—disclosed-from-prospective-epistemic-digression; —the ontologically-flawed articulation of knowledge by an intellectual disposition akin to

The above analysis point out that transcendent knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendent-enabling/sublimating/supererogatory–dementativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism meaningfulness-and-
teleology constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicus, Galileos, Rousseaus, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency’—⟨transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness⟩. As it is the latter that induces that social positive-opportunism for deferential-formalisation-transference and institutional percolation-channelling—<in-deferential-formalisation-transference>, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought, transcendental knowledge is of a circular but consistent exercise of ⟨amplituding/formative–epistemicity>totalising—renewing—realisation/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity—<shallow-supererogation —of-mentally—aestheticised—preconverging/dementing —qualia-schema> reference-of-thought and introducing the prospective ontological-contiguity reference-of-thought as of the-very-same—

The ontological veridicality here is that such ‘double-gesture reification’ as the prospective axiomatic affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—as-to-postconverging-or-dialectical-thinking—apriorising-psychologism together with the prior axiomatic de-assertion/preconverging-or-dementing—apriorising-psychologism/unaaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring—as-to-preconverging-or-dementing—apriorising-psychologism implied as of the nonpresencing—perspective—ontological-normalcy/postconvergence induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is not to be construed as an

Such a temporal/shortness-of-register-of—meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event—as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supererogatory—de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event—as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of—meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>—denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism’ it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care—and—episteme as of intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic—

blinds us to appropriately appreciating this given the human mental-reflex of representing any uninstitutionalised-threshold as nondescript/ignorable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) as of our amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon/projection for its prospective transcendence-and-sublimity/sublimation/preconverging–de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiology/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming and not temporal extricatory preconverging–de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlying its meaningfulness-and-teleology thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–episteme with respect to human meaningfulness-and-teleology, as it is what underlies apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument

This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care--and--episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care--and--

It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology while averting its denaturing by wrongly implying notional-contiguity/epistemic-contiguity —<profound-supererogation —of-mentally-

As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—totalising—in-relative-ontological-completeness that usurps the very notion of scepticism in "incrementalism-in-relative-ontological-incompleteness"—enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory—de-mentativity. This poor scepticism attitude/mental-disposition/care—and—episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has "preconverging—‘motif-and-apriorising/axiomatising/referencing’—

Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleology, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms–as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness, ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective- nonpresencing,—for-explicating-ontological-contiguity and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism. The latter as deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought as of its ontological-completeness-of reference-of-thought/ontological-normalcy/postconvergence is the effective basis for evaluating the ontological-veracity of all preceding reference-of-thought as of its deneuterising—referentialism that breaks-down the various neuterising to their basic human limited-mentation-capacity dynamics implications. In this regard, their successive profoundness as of their ‘successive (uncircumscribing/undelineating-as-‘epistemic-totality’ with recurrent-utter-uninstitutionalisation) circumscribing-as-‘epistemic-totality’-or-delineating-as-‘epistemic-totality’ existential–epistemic-totalisation-scheme-of meaningfulness-and-teleology speaks of more and more profound convergence-as-of-accumulation of human-subpotency grasp of the full-potency of existence coherence/contiguity. It should be noted as well that the afore is focused on the abstract reference-of-thought/epistemic-totalisation level of différance/internal-dialectics/difference-deferral, as it is actually reflecting ‘the backdrop construed as human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing–as-to-possibilities-of-self-becoming-as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’ for the effectively devolving différance/internal-dialectics/difference-deferral teleological process of meaningfulness; given that the abstract reference-of-thought/epistemic-totalisation level so-established rather enframes teleologically-devolving-as-drifting meaningfulness with regards to ‘social-stake-contention-or-confliction as of existential-

Thus this will disambiguate, specifically ‘with regards to the ill-health \(<\text{amplituding/formative–epistemicity}\>\) totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality’ the recurrent-utter-uninstitutionalisation random-as–uncircumscribing/undelineating-as–epistemic-totality\(^9\) ‘existential–epistemic-totalisation-scheme-of–meaningfulness-and-teleology\(^10\)’ as it construes any ill-health issue as of the idea of bad omen given its ‘non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition’. The uninstitutionalised-threshold\(^6\) as such, as of the \(^9\) reference-of-thought beyond-the-consciousness-awareness-teleology\(^10\)–<in-existential-extrication-as-of-existential-unthought>, is the basis for determining both intemporal as well as temporal ontological-performance\(^8\)–<including-virtue-as-ontology> specifically as of postlogism\(^7\)-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation,

breaks/epistemic-resetting arise because humankind is subpotent as of its knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue to the full-potency of existence, and in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency \( \langle \text{transparency-of-totalising-entailing,-as-to-entailing-} \text{amplituding/formative–epistemicity} \text{totalising–in-relative-ontological-completeness} \rangle \), an apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology\(^{100}\) with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human\text{amplituding/formative–epistemicity} \text{totalising–purview-of-construal’ arises as of institutional-being-and-craft. so more than just as of beyond-the-consciousness-awareness-teleology<sup>19</sup>-<in-existentiel-extrication-as-of-existentiel-unthought>, but further because as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—
‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, there is ‘a drift from the ideal of knowledge agents only as ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’ towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social<sup>45</sup> <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ across the entire social spectrum as of notional–episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity<sup>67</sup>—of-the-human-institutionalisation-process<sup>58</sup> as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—

antinihilism and transcendental-enabling/sublimating/supererogatory~de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft unintstitutionalised-threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology\textsuperscript{103} undermining the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory~de-mentativity of meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{72} \textsuperscript{100} <including-virtue-as-ontology> turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{72} \textsuperscript{100} <including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of ontology’s-directedness-as-Being going by the human intemporal/ontological/social/species/\textsuperscript{104} universal/transcendental\textsuperscript{105} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{106}—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming. Insightfully, that exercise is actually
reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality\(^{(5)}\)/shortness or intemporality\(^{(99)}\); such that even the budding-positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their scholasticism dogmatic intellectual commitments. In effect, human limited-mentation-capacity however the institutionalisation-level as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence’–existentialism-form-factor implies that it is impossible for the intemporal projection as longness-of-register-of–meaningfulness-and-teleology\(^{(100)}\) that prospectively construes of successive frameworks of ‘\(^{100}\)reference-of-thought–devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as of implicited-and-explicated \(^{84}\)reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{(100)}\),-for-aposteriorising/logicising/deriving/intelligising/measuring–\(^{56}\)meaningfulness-and-teleology\(^{(100)}\) as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue’ as of the specific institutionalisation, to ensure that human meaningfulness-and-teleology\(^{(100)}\) ontological-performance \(^{(100)}\)<including-virtue-as-ontology> will remain intemporal-as-ontological as of their \(^{84}\)reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{(100)}\) given ‘the impossibility of overcoming the abstract human seed of temporality\(^{(99)}\)/shortness dynamically involved, as of beyond-the-consciousness-awareness-teleology\(^{(100)}\)<in-existential-extrication-as-of-existential-unthought>, in a formulaic–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation deterministic relation with such \(^{84}\)reference-of-thought–categorical-
imperatives/axioms/registry-teleology by wooden-language\textsuperscript{100} thus failing to uphold intemporal-preservation-entropy-or-contiguity-or-ontological-preservation’. Thus the ontological effectiveness of such intemporal-projection as longness-of-register-of-meaningfulness-and-teleology\textsuperscript{100} lies rather in undermining the existential possibility of the successive uninstitutionalised-threshold\textsuperscript{10} of ununiversalisations as of bringing about prospective relative-ontological-completeness\textsuperscript{88} of reference-of-thought driven by ontological-faith-notion-or-ontological-fideism thus inducing social\textsuperscript{104} universal-transparency\textsuperscript{105} which renders untenable temporality\textsuperscript{99} /shortness as of the given uninstitutionalised-threshold\textsuperscript{10} instigated from the prior institutionalisation’s reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} denaturing\textsuperscript{15}; as implied with base-institutionalisation prospective relative-ontological-completeness\textsuperscript{88} of reference-of-thought over recurrent-utter-uninstitutionalisation,\textsuperscript{10} universalisation prospective relative-ontological-completeness’ of reference-of-thought over base-institutionalisation–ununiversalisation, positivism prospective relative-ontological-completeness\textsuperscript{88} of reference-of-thought over universalisation–non-positivism/medievalism, and prospectively notional–deprocrypticism prospective relative-ontological-completeness\textsuperscript{88} of reference-of-thought over positivism–procrypticism. Such that we can garner that it is a positivism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness\textsuperscript{88} of reference-of-thought social\textsuperscript{10} universal-transparency\textsuperscript{10} that makes it untenable for non-positivism/medieval temporal
meaningfulness-and-teleology is not necessarily perceived as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology. In other words, the ideal articulation of base-institutionalisation in recurrent-utter-uninstitutionalisation, just as that of universalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively notional–deprocrypticism in positivism–procrypticism; are only pertinent for attaining social approbation as of their

apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflicatedness de-mentating/structuring/paradigming secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference>. This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler though ontologically flawed as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness to engage a registry-worldview/dimension at its uninstitutionalised-threshold rather by an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-disposition on the basis of its prior relative-ontological-incompleteness of reference-of-thought or its same metaphysical framework of contention rather than adopting at its uninstitutionalised-threshold a more complex but ontologically-veridical maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation mental-disposition on the basis of the prospective relative-ontological-completeness of reference-of-thought or superseding metaphysical framework of contention as of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflicatedness. That is, engaging a non-positivism registry-worldview/dimension meaningfulness-and-teleology with respect to say notions-and-
accusations-of-sorcery on its same terms in case of an accusation of sorcery to imply the other is the sorcerer, etc. will sound more credible as of its wooden-language\{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-
meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-
prospective-apriorising-implications\} in a non-positivism social-setup than say projecting to prospective positivism registry-worldview/dimension meaningfulness-and-teleology and implying that notions-and-accusations-of-sorcery are not real speaking of both the defect of such accusation and the defective superstitious wooden-language\{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-
meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-
prospective-apriorising-implications\} in the non-positivism social-setup. Ultimately, such a profound phenomenological \{amplituding/formative–epistemicity\}\{totalising–conflated–meaningfulness-and-teleology \}\{as-of-notional–deprocrypticism-reflected-
historiality/ontological-eventfulness /ontological-aesthetic-tracing–\{perspective–ontological-normalcy/postconvergence-reflected–’epistemicity-relativism’\}\{ontological-performance\}-<including-virtue-as-ontology> construal faced with the inherent dogmatic and psychological biases of human \{amplituding/formative–epistemicity\}\{totalising–thrownness-in-existence\} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–dementativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>) in many ways necessarily has to project out of ‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the
wars in a bizarre twist of mutual <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework construal as implied with notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance -<including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our <amplituding/formative–epistemicity>totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging
and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory-de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human \( \text{amplituding-formative-epistemicity} \) totalising–thrownness-in-existence \( \text{I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency} / \text{hyperbole-of-temporal-to-intemporal-ontological-performance} \) implies the need for a sound perpetuating construct of \( \text{universal projection as intemporality-or-longness-of-register-of-} \text{meaningfulness-and-teleology} \) as the opportunity for prospective transcendental-enabling/sublimating/supererogatory-de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublimates presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-<amplituding-formative-epistemicity> totalising–in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social
including the political for true transcendental-enabling/sublimating/supererogatory de-
mentativity beyond normative conventioned constructs bound to hold-up the possibility of
prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom
for instance that humankind appeared on earth about 100000 years ago but the pervasive de-
mentative/structural/paradigmatic determinism of the nation-state which became common just
about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary
construal’ and humankind’s apriorising/axiomatising/referencing-(of-
existentialising/contextualising/textualising-contiguity )—constitutedness\textsuperscript{13} to the notion of
nation-state seems to create an impasse for human Being-and-contemplative development.
Consider again the possibility capable of arising as of a ‘response construal’ as effectively
articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce
\textsuperscript{104}universal human meaningfulness-and-teleology\textsuperscript{100} but was caught up in the
\textsuperscript{4}\textless amplituding/formative–epistemicity\textgreater totalising–thrownness-in-existence\textsuperscript{13} (I exist therefore
existence is of transcendental-enabling/sublimating/supererogatory de-mentativity to my
human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{72} -
\textless including-virtue-as-ontology\textgreater ) as spirit failed to \textsuperscript{104}universalise and so Heidegger couldn’t
carry the effective implications of his work to its true \textsuperscript{104}universal conclusion as he was caught
up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’
overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility
of him actually acting as transcendental over the them-and-us as a position of making a
\textsuperscript{104}universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that
the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant
such that even Derrida was being condemned by many for not adopting it. The question can be
asked whether any genuine intellectualism as providing a ‘response construal’ for humankind
overall can construe of emancipation \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} in them-and-us basis
and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence-implicited-epistemic-veracity-of-nonpresencing-perspective-ontological-normaley/postconvergence as of notional–deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-perceiving/re-thinking beyond our apparently constricted metaphysics-of-presence-implicated-epistemic-veracity-of-presencing-absolutising-identitive-constitutedness framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. Transcendence-and-supernatural–de-mentativity as implied here is with regards to reference-of-thought-epistemic-totalisation level reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-supernatural–de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicalinity,-as-to-human-amplituding-formative-epistemicity-totalising-purview-of-construal’ in epistemic-conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-
thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory-de-mentativity rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise meaningfulness-and-teleology failing to factor in that ‘existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness-to—meaningfulness-and-teleology all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of meaningfulness-and-teleology to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of meaningfulness-and-teleology in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-deepening arising in further apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—confulatedness as of human maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation in an exercise of <amplituding/formative-epistemicity>totalising~renewing-realisation/re-perception/re-thought that re-projects-or-re-anticipates the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative-epistemicity>totalising-purview-of-construal’, and so as of a retrospective to prospective insight. Hence such philosophies failing to grasp that phenomenal-abstractiveness is ultimately as of ‘a apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity)—confulatedness and so construed
from the perspective of amplituding/formative–epistemicity\textsuperscript{45} totalising–conflated–meaningfulness-and-teleology\textsuperscript{100}–as-of-notional–deprocrypticism–reflected–historiality/ontological-eventfulness /ontological-aesthetic-tracing--perspective–ontological-normaley/postconvergence–reflected–epistemicity–relativism’ actually ended up inducing apriorising/axiomatising/referencing–of–existentialising/contextualising/textualising-contiguity \textsuperscript{13} in striving to construe meaningfulness-and-teleology\textsuperscript{100} vaguely from phenomenal-abstractiveness as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring–of–elucidation–outside—existentialising/contextualising/textualising-contiguity\textsuperscript{79}. Consciousness as the enabling point-of-focus for ‘human-subpotency existential meaningfulness-and-teleology\textsuperscript{100} ontological-performance’ as of \textsuperscript{55}maximalising–recomposuring–for–relative-ontological-completeness\textsuperscript{88}—unenframed–conceptualisation induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–operant–or–incidenting–predicative–insights is actually the apriorising/axiomatising/referencing–of–existentialising/contextualising/textualising-contiguity\textsuperscript{79} conflatedness point-of-focus that registers–as–of–meaningfulness-and-teleology\textsuperscript{100} all human phenomenal-abstractiveness whether as derived from sense organs like eyes construed specifically as sight ontological-performance\textsuperscript{72}–including-virtue–as–ontology>, the ear construed specifically as hearing ontological-performance\textsuperscript{1}–including-virtue–as–ontology>, etc., derived from embodied phenomenal-abstractiveness like health/illness ontological-performance\textsuperscript{72}–including-virtue–as–ontology>, vigour/tiredness ontological-performance\textsuperscript{72}–including-virtue–as–ontology>, etc., and/or derived from mind phenomenal-abstractiveness like thought ontological-performance\textsuperscript{72}–including-virtue–as–ontology>, emotional ontological-performance\textsuperscript{72}–including-virtue–as–ontology>, etc.; and so-referenced/registered/decisioned in apriorising/axiomatising/referencing–of–existentialising/contextualising/textualising–

Put another way, consciousness as point-of-focus apriorising/axiomatising/referencing—(of—existentialising/contextualising/textualising—contiguity)—conflatedness of meaningfulness-and-teleology is ‘operative of human-subpotency as of the coherence/contiguity-of-superseding—oneness-of-ontology—as-of-inherent-existence-coherence/contiguity’, so-implied with ‘explicited axiomatic-constructs’ construed as concepts/notions and ‘implicit axiomatic-constructs’ construed as intuitions/insights/foresights, and so correspondingly as of the explicated-focusing and

This notion of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness\textsuperscript{12} construed of existence as of becoming-in-existence-rather-as-subsumed-in-existence is critical in that all notions that naively imply an intercession between human becoming and existence construed as existence-in-existence, such as the transcendental ego perspective, end up in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness\textsuperscript{13} as the said ‘transcendental ego cannot invent existence as if preceding existence’ thus inducing apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—constitutedness\textsuperscript{13}. Rather existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{7}—<as-to-perspective-ontological-normalcy/postconvergence-implied-prospective-aporeticism-overcoming/unovercoming> is by itself construed as ‘the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

The insight here is that we can’t be at a posture of prior relative-ontological-incompleteness of reference-of-thought in relative notional-discontiguity/epistemic-discontiguity <-shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema> of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–human<amplituding/formative–epistemicity>totalising~purview-of-construal’ and then pretend to ground meaningfulness-and-teleology about the nature of existence as if we are of ontological-completeness-of-
existentialising/contextualising/textualising-contiguity on the basis of that given determination with the consequence that its apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness, since it doesn’t allows for superseding existence/existential-possibilities, now ‘contradictorily-and-naively supersedes-and-is-determinative-of existent itself’ rather than taking its cue from the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness of existence/existential-possibilities given the imbricatedness/threadedness/recomposuring of existential-instantiations and as reflected at registry-worldview/dimension depth of construal as of reference-of-thought; as it then fails to grasp that ‘there is no understanding to be had outside the apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—conflatedness of existence as of prospective relative-ontological-completeness of reference-of-thought’ with any such conceptualisation being nothing but vague virtuality that is not as of ontological-contiguity and ontological-veracity. Thus the problem of the philosophical tradition is notionally one of erroneous apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity )—constitutedness, and this issue is recurrent-beyond-historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>-with-the-latter-only-a-bi-manifestation-of-the-recurrence,-as-psychically-recurrent as of human shallow-to-deepening–limited-mentation-capacity,-as-limited-mentation-capacity-deepening due to inherent human temporality /shortness and intemporality/longness across all registry-worldviews/dimensions, and speaks of a human existential-extrication-as-of-existential-unthought disposition reflected as historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>-

Such ‘focusing construed as consciousness’ explains why axiomatic-constructs are explicited and implicated/intuited as of a living-being \(<\text{amplituding/formative–epistemicity}>\) totalising~conflated\(\) meaningfulness-and-teleology\(^{100}\) in coherence/contiguity-of-superseding–oneness-of-ontology. The above conception
construct of language’ and is adjoined to it as metaphoricity\(^7\), with metaphoricity\(^57\) construed as the signification implied as of syncretising-effecting\(^56\) meaningfulness-and-teleology\(^100\).

Thus language effectively reflects the \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\>\) reality of human meaningfulness-and-teleology\(^100\), as language is always a blending of the ‘underlying \(<\text{amplituding/formative–epistemicity}>\text{totalising/circumscribing/delineating signifying-construct of language’ with the \text{apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity}) conflation of its metaphoricity\(^57\). It is interesting to grasp here that a signifying-construct as signification of ‘the self-referencing of \(<\text{amplituding/formative–epistemicity}>\text{totalising/circumscribing/delineating and is effectively signifying a \text{reference-of-thought as of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’}. But then an adjunctive-metaphoricity -signification so produced as reflected by ‘a transcendental syncretising-effecting meaningfulness-and-teleology’ like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in-due-course/crossgenerationally to be of an even greater meaningfulness-and-teleology <amplituding/formative–epistemicity>totalising/circumscribing/delineating effect over the prior notion of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’; and so as of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some significations of the prior ‘underlying <amplituding/formative–

<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ adjunctive-metaphoricity-significations to which other adjunctive-metaphoricity-significations could be incorporated adjunctively. Effectively, with the positivism/rational-empiricism self-referencing <amplituding/formative–epistemicity>totalising/circumscribing/delineating construct of meaningfulness-and-teleology, its adjunctive-metaphoricity-signification can be construed as of the historicality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity–relativism’> of crossgenerational positivism/rational-empiricism reappropriation of the ancient mathesis universalis metaphoricity as its very own ‘underlying
<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ ‘behind the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like
Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant \[^4\] **amplituding/formative-epistemicity**-totalising/circumscribing/delineating construct of \[^5\] meaningfulness-and-teleology \[^6\]. Existence itself as the absolute a priori underscores such a conception given the human species sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming-as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence\[^6\] as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe \[^5\] meaningfulness-and-teleology \[^6\] as not self-referentially covered by the ‘underlying \[^4\] **amplituding/formative-epistemicity**-totalising/circumscribing/delineating signifying-construct of language’, they will inevitably articulate adjunctive-metaphoricity\[^1\]-significations to that prior ‘underlying \[^4\] **amplituding/formative-epistemicity**-totalising/circumscribing/delineating signifying-construct of language’. This explains the lockstep nature of human \[^5\] meaningfulness-and-teleology \[^6\] and language, with the latter as the former’s signification mirroring, such that institutional-cumulation/institutional-recomposure-\[^{as-to- historicity/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’}>\) is actually as of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay\[^2\] construed here as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity\[^7\]—of-the-human-institutionalisation-process\[^8\] as of difference-conflatedness\[^1\]-as-to-totalitative-reification\[^7\]-in-singularisation-<as-to-the-

<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of languages’. In another respect with regards to language acquisition as mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricty—
significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-freeplay’ construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the supposedly ‘underlying<br>\textless amplituding/formative–epistemicity\textgreater totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity\footnote{57} where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying<br>\textless amplituding/formative–epistemicity\textgreater totalising/circumscribing/delineating signifying-construct of language’ as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment\footnote{66}<\textless implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> for its evolving-and-devolving construct of \textasciitilde meaningfulness-and-teleology\footnote{100}’! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the<br>\textless amplituding/formative–epistemicity\textgreater totalising–self-referencing–
syncretising/circularity/interiorising/akrasiac-drag\textsuperscript{1} dynamics of individual and collective-social \textsuperscript{8} meaningfulness-and-teleology\textsuperscript{100}, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-diff\textsc{é}rance-freeplay\textsuperscript{2} with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’. Metaphoricity\textsuperscript{9} is thus rather construed as of its overall apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity) conflatedness\textsuperscript{12}

contiguity — conflatedness — associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon/projection of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence of ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-<epistemicity-relativism>>. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms—as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon/projection driven basis for ontological-construction’, and so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon/projection as of its ‘non-recording and negation’ of a ‘diverse-and-complete existential effecting possibilities accountability for ontological-construction’, and rather assuming the approach of a ‘select privileged historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-<epistemicity-relativism>> ontological-construction’, instead incompletely portrays the operant reality of humanity’s existence as of the cumulation of successive humanity’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as implied with the various
institutionalisations finalities. But then while that is pertinent, and so with regards to the successive institutionalisations outcomes of ‘intemoral ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{7}—of-the-human-institutionalisation-process\textsuperscript{5} as of difference-conflatedness\textsuperscript{1}—as-to-totalitative-reification\textsuperscript{8}—in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> as-veridical-epistemic-determinism \textsuperscript{8}amplituding/formative-epistemicity>causality—as-to-projective-totalitative-implications-of-prospective- nonpresencing—for-explicating-ontological-contiguity’ as successive transcendental outcomes, so reflected by the \textsuperscript{4}historiality/ontological-eventfulness\textsuperscript{7}/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>; this doesn’t reflect an inherent différance operant phenomenological process reality. Such a reality is actually reflected as of accreting-substitutive-subsumption-as-futural-différance-freeplay as of transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’ of various temporal-to-intemoral perspectival existential amalgamation that de-mentatively/structurally/paradigmatically reflect the dynamics of human ontologically-veridical construals and misconstruals towards transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Accreting-substitutive-subsumption-as-futural-différance-freeplay is thus reflective of the fulsome humanity existential ontological-conceptualisation dynamics than just as of the select ontological-veracity of the privileged as dominant social and institutional end-purpose perspective/framing/reference/horizon/projection. Consider in this regard supposedly that ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs reflect an
historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflecte–epistemicity–relativism> as transcendental outcomes of such différance, accreting-substitutive-subsumption-as-futural-différance-freeplay is not only about the successive <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as différance transcendental outcomes as of ‘developed classical mechanics’ and then ‘developed theory-of-relativity-together-with-quantum-mechanics—a xiom-constructs’ as of their prospective relative-ontological-completeness/relative-ontological-contiguity as axiomatic-constructs of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construed as the historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism> of the différance. The implication here resonates with the idea that knowledge is much more than the construal of conceptual sublimation knowledge outcome, but rather its construal as notional–knowledge involving the dynamic understanding of both its temporality/misconstrual/desublimation and intemporal–as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising—referentialism and thus beyond ‘neuterising’ reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing of the uninstitutionalised-threshold and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporal–as-ontology but involves grasping this together with
the implications of temporality\textsuperscript{\textcircled{9}}, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential \textsuperscript{\textcircled{5}}meaningfulness-and-teleology\textsuperscript{\textcircled{100}} signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon/projection that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon/projection tend to be in apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)\textsuperscript{\textcircled{7}}—constitutedness\textsuperscript{\textcircled{7}}. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{\textcircled{7}} is the existentially veridical and effective basis for reflecting historiality/ontological-eventfulness \textsuperscript{\textcircled{7}}ontological-aesthetic-tracing<\textsuperscript{\textcircled{7}}perspective–ontological-normality/postconvergence-reflected-'epistemicity-relativism'> transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful \textsuperscript{\textcircled{5}}meaningfulness-and-teleology\textsuperscript{\textcircled{100}}. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity\textsuperscript{\textcircled{64}} ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology\textsuperscript{\textcircled{100}}-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{\textcircled{8}}; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality \textsuperscript{\textcircled{6}}/longness doesn’t take its due place, it is occupied by ignorance as of human temporality\textsuperscript{\textcircled{9}}/shortness with consequent
doesn’t quite get to such a phenomenological depth of apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—conflatedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay differance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of differance in the strive to maximally undermine amplituding/formative–epistemicity–totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroring–as-to-possibilities-of-self-becoming-as-of–existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay differance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon/projection, such that as of a <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag facet it is then already compromising nonpresencing–or–withdrawal–or–metaphysics-of-absence ⟨implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>⟩–or–transcendental-reasoning-of-event –as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay differance’ is fundamentally incomplete as of comparison with the implied apriorising/axiomatising/referencing–(of–existentialising/contextualising/textualising-contiguity)—conflatedness of accreting-substitutive-subsumption-as-futural-differance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate
ontological-incompleteness\textsuperscript{45} being ‘traditional classical mechanics axiomatic-construct’ and the articulation as of prospective relative-ontological-completeness\textsuperscript{45}-of-axiomatic-construct-or-reference-of-thought being the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; now, articulating \textsuperscript{46}meaningfulness-and-teleology\textsuperscript{100} of ‘the very same physics’ \textsuperscript{45}\textsuperscript{56}<amplituding/formative–epistemicity\textsuperscript{50}>totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of ‘traditional classical mechanics axiomatic-construct’ construed as \textsuperscript{50}presencing—absolutising-identitive-constitutedness\textsuperscript{13} makes the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs construed as \textsuperscript{46}nonpresencing-<perspective–ontological-normalcy/postconvergence> to wrongly be of notional-contiguity/epistemic-contiguity \textsuperscript{\textless profound-supererogation -of-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema> with the ‘traditional classical mechanics axiomatic-construct’ \textsuperscript{50}presencing—absolutising-identitive-constitutedness\textsuperscript{13}. Consider in this regard that the ‘Derridean quasi-transcendental-freeplay différance’ is akin to the contributions of many prior seminal scientists like Poincaré, Lorentz, Plank, Rutherford and others to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs but whose works were still being interpreted in terms-of/adjunctive-to ‘traditional classical mechanics axiomatic-construct’ thus explaining the reality of a notional-discontiguity/epistemic-discontiguity \textsuperscript{\textless shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema> between the two as of their distinct supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of- apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation. Whereas accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{1} is akin to the complete ‘epistemic-break’, as of Einstein’s defining-threshold contribution with the-theory-of-relativity and Bohr’s defining-threshold atomic-model contribution to quantum-mechanics together with other seminal scientists subsequent contributions that ultimately led to

transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs interpretation as of nonpresencing-<perspective–ontological-normalcy/postconvergence>. In any case thus such a ‘Derridean quasi-transcendental-freeplay différance’ doesn’t have any serious ontological consequences with respect to presencing—absolutising-identitive-constitutedness since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural différance where meaningfulness-and-teleology is construed as of the prospective nonpresencing-<perspective–ontological-normalcy/postconvergence>

So because at the point of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective–ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’ and not make any determination priorly, even as of freplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective–ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency/sublimating–nascence,-disclosed-from-prospective-epistemic-digression as validatable by ontological-prime-movers-totalitative-framework. Thus behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as ‘hunch’ is a transversality—for-sublimating–existential-eventuating/denouement—as-affirmative-and-

We can appreciate that the medieval mindset reasons in terms of medievalism–non-positivism just as we reason in terms of our positivism–procrypticism mindset. The question can thus be asked is there more profound meaningfulness-and-teleology beyond any given registry-worldview/dimension mindset divulgeable by existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation? It is herein that we get into the realm of ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of de-mentation\langle\sup ererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\rangle inducible apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In other words, under sufficient constraint of existence/existential-reality-itself given its absolute a priori status, as reflected by ontological-primemovers-totalitative-framework\contingency, human intemporal individuation is predisposed to put in question even a ‘registry-worldview’s/dimension’s reference-of-thought amplituding/formative–epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of–meaningfulness-and-teleology as of a reconstrual of reference-of-thought and devolving-axiomatic-constructs implications, and so
as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. This insight about ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality further reveals that prospective nonpresencing-perspective-ontological-normalcy/postconvergence implies prospective renewal of attitude/mental-disposition/care-and-episteme, as of de-mentation-supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics which at once draws out the renewed implications of what qualifies as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging-or-dementing—apriorising-psychologism respectively as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought and prior relative-ontological-incompleteness. In this regard we can imagine as of ‘the very same physics’amplituding/formative-epistemicity—totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness-of-reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—
axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental

developments in physics since then, even though its meaningfulness-and-teleology remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuation-ontological-performance-including-virtue-as-ontology; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of amplituding/formative-epistemicity-totalising-thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency /
hyperbole-of-temporal-to-intemporal-ontological-performance). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20th century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18th and 19th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care–and–episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and—apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought’, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given
moment, and that it should be prepared to shift its attitude/mental-disposition/care–and–episteme\textsuperscript{5} for more profound-and-complete \(5^{\text{meaningfulness-and-teleology}}\). While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a \(5^{\text{reference-of-thought}}\) as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism \(5^{\text{reference-of-thought}}\), however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of \(5^{\text{reference-of-thought}}\) transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into \(5^{\text{meaningfulness-and-teleology}}\) as grounded on a given ‘registry-worldview’s/dimension’s \(5^{\text{reference-of-thought}}\) established existential–epistemic-totalisation-of–\(5^{\text{meaningfulness-and-teleology}}\) as well as the ‘psychological comfort’ habituated at the given \(5^{\text{neuterising}}\). But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\(5^{\text{meaningfulness-and-teleology}}\) as of prospective notional–deprocrypticism is exactly the capacity to construe \(5^{\text{meaningfulness-and-teleology}}\) as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for \(5^{\text{meaningfulness-and-teleology}}\) beyond-the-consciousness-awareness-teleology\(100\text{-}\left<\text{amplituding/formative–epistemicity}\right>\text{-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) arising as of human prior relative-ontological-incompleteness\(18\text{-}\text{of–reference-of-thought}\). The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-\text{apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality}\text{apriorising/axiomatising/referencing–(of–existentialisation/contextualising/textualising–...}
contiguity —conflatedness implication with respect to existence-potency~sublimating—nascence,—disclosed-from-prospective-epistemic-digression is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior nonpresencing—perspective—ontological-normalcy/postconvergence as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in prospective existence-potency~sublimating—nascence,—disclosed-from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity prospective relative-ontological-completeness—of-axiomatic-construct-or—reference-of-thought—amplituding/formative—epistemicity—causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity for transcendence-and—sublimity/sublimation/supererogatory—de-mentativity, implied as of intemporal-preservation—entropy—or-contiguity—or—ontological-preservation. This explains why ontology’s-directedness—as-Being is the direction of meaningfulness-and-teleology grounding as always prospective as of prospective relative-ontological-completeness—of—reference-of-thought; and so, as of the successive base-institutionalisation, universalisation, positivism and notional—deprocrypticism registry-worldviews/dimensions nonpresencing—perspective—ontological-normalcy/postconvergence respectively as successive meaningfulness-and—teleology grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation—ununiversalisation, universalisation—non-positivism/medievalism, and positivism—deprocrypticism presencing—absolutising-identitive-constitutedness. This social knowledge human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-of-the-nondisjointedness/entailment-of-prospective-nonpresencing> insight translate the reality that ‘conventioning and tradition grounded critiques’ of postmodernism fundamentally misconstrue that they are departing, as of their \textsuperscript{8} reference-of-thought, from a less real position to evaluate a more real position; more like the irony of trying to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-the-nondisjointedness/entailment-of-prospective-nonpresencing>. For instance, the theory-of-relativity-together-with-quantum-mechanics—
axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness\textsuperscript{80} of reference-of-thought. It is human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness\textsuperscript{88} of reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{69} exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-primemovers-totalitative-framework\textsuperscript{73} by existence-potency\textsuperscript{38}~sublimating–nascence, disclosed-from-prospective-epistemic-digression; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening\textsuperscript{53} for human emancipation. Thus implying existence-potency\textsuperscript{38}~sublimating–nascence, disclosed-from-prospective-epistemic-digression is ‘not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{69} directed directly to inherent-existence-as-of-existential-reality/existence-potency\textsuperscript{38}~sublimating–nascence, disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{69} as of human limited-
mentation-capacity-deepening bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of 'human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing' has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with 'enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing' of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of 'conceptualising meaningfulness-and-teleology that increasingly reflects existence/intrinsic-reality/ontological-veridical'. Thus this actually lead to 'more and more objective meaningfulness-and-teleology' as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the 'human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing' that led to human limited-mentation-capacity-deepening. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness—of-axiomatic-construct-or—reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity—of-the-human-institutionalisation-process behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal
syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon/projection for grasping prospective ‘meaningfulness-and-teleology’; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon/projection. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence ( implicated-'nondescript/ignorable–void '-as-to- presencing—absolutising-identitive- constitutedness )/illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical ‘meaningfulness-and-teleology’. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human preconverging/postconverging–de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> limited-mentation-capacity-deepening to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument/’ reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as underlying a given registry-worldview’s/dimension’s reference-of-thought for ‘meaningfulness-and-teleology’ conceptualisation and ontological-performance-<including-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing
reflecting a supererogatory decisionality of socioinstitutional conceptions as to ‘their nascent sublimations dynamic preempting of presublimatory decisionality numbing traction desublimation’ as so operationalising ‘scalarisation as to rescalarisation as re-ontologisation’. The implication here is that hitherto postmodern thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care–and–episteme’ as of its procrypticism–or–disjointedness-as-of reference-of-thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought apriorising axiomatising referencing intelligibility setup/measuring instrument attitude/mental-disposition/care–and–episteme’ which prospectively represents the modern as preconverging-or–dementing apriorising–psychologism while the postmodern is postconverging–or–dialectical-thinking apriorising–psychologism; as the point of assertion of postmodern thought as deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought is actually a point of prospective de-mentation (supererogatory ontological de-mentation or dialectical de-mentation stranding or attributive dialectics). Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/constatations about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective postmodern

The reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective de-mentative/structural/paradigmatic transcendental knowledge by its so-projected intemporality, at the uninstitutionalised-threshold, is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the lack of universal-transparency for its prospective institutionalisation. Critical for the social validation and institutionalisation of any de-mentative/structural/paradigmatic transcendental knowledge is the fact that its ‘concurrent ontological-primemovers-totalitative-framework’ is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold cannot adjudge-and-commit-to the ontological-pertinence of such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework’ of the prospective positivism/rational-realism transcendental knowledge articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as meaningfulness-and-teleology of prospective relative-ontological-completeness-of-reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-framework’. Such ‘concurrent ontological-primemovers-totalitative-framework’ was not a
sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-primemovers-totalitative-framework’ is only more or less determinant as of the institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-thought--categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring--meaningfulness-and-teleology as of its totalising/circumscribing/delineating reference-of-thought--devolving’. However, at its uninstitutionalised-threshold the prospective ‘concurrent ontological-primemovers-totalitative-framework’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the reference-of-thought--categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring--meaningfulness-and-teleology of the prospective institutionalisation’s totalising/circumscribing/delineating reference-of-thought--devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology--in-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent ontological-
primemovers-totalitative-framework as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of
such (re-originary-as-unenframed/unbeholdening/outlier-conceptualisation)-(imbued-postconverging/dialectical-thinking-'projective-insights'/epistemic-projection-in-conflatedness-'of-notional-deprocrypticism-prospective-sublimation)' originary/event-'of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating-\langle<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation\rangle as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern-day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental ‘meaningfulness-and-teleology’ superseding uninstitutionalised-threshold do not come about as of simplistic continuity but rather as of epistemic-
deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance\textsuperscript{72} -<including-virtue-as-ontology> of any ‘\textsuperscript{84} reference-of-thought– categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology\textsuperscript{100}’. Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern\textsuperscript{17} deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ warrants that postmodern-thought hitherto articulated beyond-the-consciousness-awareness-teleology\textsuperscript{10} <in-existential-extrication-as-of-existential-unthought> in terms–as-of-axiomatic-construct of the ‘modern take attitude/mental-disposition/care–and–episteme’, need to be translated-as-reconceptualised into its very own ‘postmodern\textsuperscript{17} deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ as of its own truly postmodern organic-knowledge. The fact is that organic-knowledge is fundamentally driven as of attitude/mental-disposition/care–and–episteme, wherein for instance Newtonian Physics as of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme organic-knowledge makes little sense and is of
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme’ crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, as of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought is rather a notional–conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness-of-reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing as of human existentialising/contextualising/textualising-contiguity’; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of preconverging–’motif-and-apriorising/axiomatising/referencing’
‘human<amplituding/formative–epistemicity>totalising-purview-of-construal’, in defining which apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is ‘relevant as the attitude/mental-disposition/care–and–episteme of wholly immersed-and-engrossed meaningfulness-and-teleology’. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality—for-sublimating-existential-eventuating/denouement—of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing’ implies a
successive institutionalisations reflect ‘successive and changing conceptions of human-subpotency existential scope’, and so from recurrent-utter-uninstitutionalisation as ‘the most supernatural/mythical/idolised conception of human-subpotency existential scope’ to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism as the most ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’. Insightfully, what is critical about ‘the conception of human-subpotency existential scope’ is the paradoxical fact that the more waywardly supernatural/mythical/idolised it is, the least potent has been human-subpotency mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, while the more waywardly realistic/authentic/unexceptional-as-of-the-mediocrity-principle it is, the more potent has been human-subpotency in its mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to- ‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Effectively, ‘postmodern deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ implied notional–deprocrypticism is about a radicalisation of the ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to- ‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. This radicalisation is grounded on the rational-realism postulate that humankind as of its limited-mentation-capacity-deepening has always encountered its uninstitutionalised-threshold all along in reflecting holographically-<conjugatively-and-transfusively> the ontological-
human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of-untransvaluated–temporal-intemporality at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of–meaningfulness-and-teleology posture in , rather than a recognition of it prior relative-ontological-incompleteness reference-of-thought, implying recognising its uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/superrorogatory-de-mentativity, as knowledge-notionalisation not only factors in conceptual sublimation knowledge dynamics but equally the dynamics of the conceptual ignorances/desublimation to better skew meaningfulness-and-teleology towards intemporality /longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-

supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema>. The
fact is any registry-worldview/dimension as of its ‘present attitude/mental-disposition/care–and–episteme’ is de-mentatively/structurally/paradigmatically oblivious-to and does-not-reflect its very own prospective relative-ontological-completeness -of- reference-of-thought as the underlying basis of its own specific-level induced vices-and-impediments, and is rather palliative as of its selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs. The question can actually be asked, as of prospective relative-ontological-completeness -of- reference-of-thought of the notional-discontiguity/epistemic-discontiguity <shallow-supererogation -of-mentally-aestheticised~preconverging/dementing –qualia-schema> of this ‘made-up’ normativity supposed ontological-contiguity, whether such a prior relative-ontological-incompleteness of reference-of-thought as <amplituding/formative–epistemicity>totalising–self-referencing-syncrtesising/circularity/interiorising/akrasiac-drag is actually as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology at its uninstitutionalised-threshold, and in a position, on the basis of such palliation, to address the actual fundamental grounding of its vices-and-impediments; which in reality are actually ontologically addressable/resolvable as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression so-implied as of prospective relative-ontological-completeness of reference-of-thought.

What is particular with notional-discontiguity/epistemic-discontiguity <shallow-supererogation -of-mentally-aestheticised~preconverging/dementing –qualia-schema> is this insight that fundamentally the appropriate prospective relative-ontological-completeness of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme precedes-and-is-the-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-to its requisite

Such altogether new metaphoricity\(^2\) as of its instigating ‘out of thin air’ the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme further inspired its subsequent radicalisation by latter thinkers; wherein for instance, the more thoroughly positivism/rational-empiricism development of ‘the very same physics’—totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ was undertaken by Newton and Leibniz, extending the metaphoricity\(^2\) further even when we contemplate that in many ways these metaphoricity\(^2\) relaying scientists were still imbued with non-positivism/medievalism mystical and alchemic ideas. This ‘out of thin air’ metaphoricity\(^2\) possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence’ is ever one of \( ^{1}\) nonpresencing-\(<\text{perspective–ontological-normalcy/postconvergence}>\); as the very notion of ‘human-subpotency-as-human-knowledge grasp of the full-potency of existence’ given human limited-mentation-capacity implies that such a grasp only opens up a ‘limited framework of the full-potency of existence’ for new human existential and knowledge possibilities as of new/prospective habits-and-tradition. But then this ‘limited framework of the full-potency of existence’ as of new habits-and-tradition construed as ‘reason-from-results/afterthought framework, ‘doesn’t induce a commitment upon the absolute transcendental possibility in the full-potency of existence’. manifestation of deprocrypticism—or—disjointedness-as-of—reference-of-thought, and so as of a
postmodern affirmatory stance of dialogical inequivalence that goes beyond idling in the

deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought prospective relative-ontological-completeness reference-of-thought. Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/superrogatory—de-mentativity implied meaningfulness-and-teleology, we can appreciate that the foremost goal of budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding-positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Likewise, the prospective ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ is well beyond the notion of eliciting the approbation of the modern take established arrangement in terms—as-of-axiomatic-construct, but rather is of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, in inducing budding-postmodern metaphoricity for the destruction-deconstruction of the modern take for prospective postmodern-notional—deprocrypticism institutionalisation as of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. In both cases, the prospective institutionalisation attitude/mental-disposition/care—and—episteme is ontologically validated as of its prospective relative-ontological-completeness reference-of-thought,
divulging the vagueness and futility of the pretences and judgments of the destructuring-threshold-{uninstitutionalised-threshold/presublimating-desublimating-decisionality}-of-ontological-performance-{including-virtue-as-ontology}. We can equally appreciate here that such a conception of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity for prospective institutionalisation as of prospective ontological-primemovers-totalitative-framework and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity reinvigoration as of the overall renewal of ‘the very same physics <amplituding/formative–epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. It should be noted that such metaphoricity rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology, which in its prospective relative-ontological-completeness -of- reference-of-thought is ‘a dimensionality-of-sUBLIMating ⟨<amplituding/formative>supererogatory–de-mentativeness/epistemic–growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ inventing’ of the prospective notion of ‘thinking/postconverging-or-dialectical-thinking–apriorising-psychologism’ as positivism/rational-empiricism thinking or notional–deprocrypticism thinking respectively, and so as their successive prospective reasoning-from-results/afterthought. Reasoning-through/messianic-reasoning metaphoricity\(^{17}\) brings about the prospectively renewed reasoning-from-results/afterthought instigating the secondnaturing of prospective institutionalisation, and so as of implied reference-of-thought/axiomatic-constructs reflection of the pre-eminence of the full-potency of existence as of prospective ontological-primemovers-totalitative-framework\(^{27}\) over human-subpotency with the latter adjusting to existence as-of—de-mentation\(^{g}\) (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) enabling its prospective relative-ontological-completeness\(^{15}\). in presencing—absolutising-identitive-constitutedness without contemplating that the underlying knowledge-reification process/gesturing implications is definitely as of the relative-ontological-completeness perspective since a untransvaluated–temporal-intemporality non-ontological interpretation will rather imply knowledge dereification and endemising/enculturating of temporal-dispositions as of vices-and-impediments for the simple reason that the latter ‘cannot be ignored and then by magic become virtue’ as the overall for knowledge-reification is to understand human destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating–decisionality}-of-ontological-performance -<including-virtue-as-ontology> and then bring about prospective constructiveness-of-ontological-performance -<including-virtue-as-ontology> as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility -(imbued-and- ‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation). the more fundamental incipient/seeding originariness-parrhesia,-as–spontaneity-of-aestheticisation to both Descartes thinking-proposition for budding-positivism and Socrates’s universalising-idealisation in then secondarily inducing their respective reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed conception of Platonism and Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation perspective whereas Descartes and Plato—and–Plato’s Socrates are more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising and ancient-sophists non-universalising respectively. These induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity later on became prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inceptive emancipatory inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,—as–spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation[9] and so as of prospective projection as implied with the ontological-contiguity[10]—of-the-human-institutionalisation-process, but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and ontological-good-faith/authenticity[11]. However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation—<unforegrounding-disentailment,—failing-to-reflect—‘immanent-ontological-contiguity’> notion of philosophy, it is herein contended that this relatively deficient analysis reflects the fundamental ontological-deficiency of subsequent philosophies influenced by Kantian

Thus "amplituding/formative" wooden-language\(8\){imbued—averaging-of-thought-\}<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-

In this regards, we can appreciate that all human ‘meaningfulness-and-teleology\(100\) arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance -<including-virtue-as-ontology>. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem
inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern-day science ontologisation; and besides, it can equally perfectly be claimed that even our modern-day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to wooden-language-(imbued—averaging-of-thought-

construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’; wherein social–value-construction across the <-cumulating/recomposuring>-successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment -<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of- existential-reality> and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly
implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern-day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive ‘presencing—absolutising-identitive-constitutedness’ is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing->perspective–
ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment <--implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusivity warrants prospective meaningfulness-and-teleology infrastructural transvaluation so-implied as of notional–deprocrypticism or <amplituding/formative>notional–preempting—disjointedness-as-of-reference-of-thought appropriate 44 foregrounding—entailment (postconverging–narrowing-down–sublimation-as-to–‘existence—as-sublimating-withdrawal,-eliciting-of: prospective-supererogation ’-in-reflecting–‘immanently-ontological-contiguity ’;–as-operative-notional–deprocrypticism); and so as the disparateness-of-conceptualisation,<unforegrounding-disentailment.–failing-to-reflect–‘immanently-ontological-contiguity ‘> of our rational-empiricism/positivism occlusivity in its <amplituding/formative> wooden-language–(imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-
teleology -as-of-'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩} tend to rather reflect our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag⟩. The occlusivity of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable–void/falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance -<including-virtue-as-ontology>/morality/ethics/etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold-(uninstitutionalised-threshold /presublimating–desublimating-decisionality)-of-ontological-performance -<including-virtue-as-ontology> dynamics of
consciousness and prospectively protensive–self-consciousness. Thus human limited-
mentation-capacity implies that ‘more than just a thought-of ontological notion’ as of transvaluation, social–value-construction is rather accomplished phronetically/in-practicality as of the specific social-setup \textsuperscript{104} \textit{universal-transparency} \textsuperscript{105} \langle \textit{transparency-of-totalising-entailing,-as-to-entailing-} \textit{amplituding/formative–epistemicity}\textsuperscript{45} \textit{totalising~in-relative-ontological-completeness} \rangle \textsuperscript{88} of supposedly coherent ontological-commitment \textit{implied—self-assuredness-of-ontological-good-faith/authenticity} \textsuperscript{66} \textit{postconverging–de-

existentialising/contextualising/textualising-contiguity). We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a ‘reference-of-thought- devolving-level manifestation of the primacy of existence equally extends to ‘reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of--apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior [universalisation registry-worldview/dimension ‘is more effective’ as of its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of--apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation in grasping existential reality manifestations than a preceding ununiversalisation registry-worldview/dimension. This however doesn’t implies the elimination of human sovereignty and free-will but rather effective speaks of human-subpotency within existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression, so-construed as ‘human-subpotency ontological-performance –(including-virtue-as-ontology) within the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’; and specifically speaks as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility –(imbued-and–‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation), wherein within the absolute a priori framework that is existence, humankind can construe of existence
becoming/emanance manifestations allowing for human knowledge-reification and empowerment from the knowledge-reification within existence, with this in itself inducing a human reflexivity as of a human reflexive influence within existence (wherein for instance, a positivistic disease theory of bacteria and biological causation de-mentatively/structurally/paradigmatically induces a whole set of human existential disposedness of emancipatory and curative implications in existence as of human sovereignty and free-will, but also in the very first place the fundamental human existential disposedness at reference-of-thought-level to rational-empiricism/positivism is de-mentatively/structurally/paradigmatically conducive/preparatory for the possibility of such a positivistic disease theory of bacteria and biological causation to be construed by such humans).

This then speaks to the fact that ‘human sovereignty and free-will is deflated going by the ontological-veracity of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence’ as of ‘the specific human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility –{(imbued-and-
‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–

In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by human <amplituding/formative–epistemicity>totalising–thrownness-in-existence is rather grounded in the reality that all humans come into existence as of an overall framework of
living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality>. Thus, on this basis, the reality of human ontological-performance <including-virtue-as-ontology> (reflected as of constructiveness-of-ontological-performance <including-virtue-as-ontology> and destructuring-threshold {uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance <including-virtue-as-ontology>) towards the effective articulation of human sovereignty and free-will is actually one that involves, with respect to human limited-mentation-capacity: ‘the deferential-formalisation-transference overall and underlying social-setup conception of knowledge-reification and empowerment from such knowledge-reification as enabling the framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology and then ‘the individual dimensionality-of-sublimating (<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-confoundedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) mental-disposition and expression’ within the former (and it is the latter that often comes to the mind when speaking of human sovereignty and free-will as ‘autonomy and independence of human disposedness’, while naively ignoring/overlooking the
projective-totalitative–implications-of-prospective–nonpresencing–for-explicating–ontological-contiguity successiveness of registry-worldviews/dimensions. The point here is that, ‘the individual dimensionality-of-sublimating

meaningfulness-and-teleology\(^{100}\) especially as of their unordinary human-framework-of-
experiential-existence like natural sciences while informed by ordinary human-framework-of-
experiential-existence background/sense-of-things further require and accentuate their
epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-
existence) with the devising of experimentations (as providing the prolongation for human
interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the
natural sciences are fundamentally interpretative as ‘specifically aphoristic/cogent/pointed
extensions of the underlying human philosophical interpretative disposition for knowledge-
reification\(^{7}\)’). It is important to grasp here that mere experimentations, as often practised in
many domains, that do not arise because of the veridical need to effectively accentuate
epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but
rather ‘on the vagueness and naivety that experimentations by themselves demonstrate
profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-
of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to
interpretation’ is the more critical basis for a profound knowledge-reification than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression from such human-subpotency prior reproducibility—mathesis/motif/throwness-disposition’. This reflects the ontological-veracity that human sovereignty and free-will can only be construed in apriorising/axiomatising/referencing—of—existentialising/contextualising/textualising-contiguity—as of human <amplituding/formative—epistemicity>totalising—throwness-in-existence revealing the epistemic-impertinence of dispositions for ‘presencing—absolutising-identitive-constitutedness as wrongly implying human sovereignty and free-will supersedes existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression rather than the epistemic-veracity of difference-conflatedness—as-to-totalitative-reification—in-singularisation—<as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing>—as—veridical-epistemic-determinism <amplituding/formative—epistemicity>causality—as-to—projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating—ontological-contiguity of human meaningfulness-and-teleology. We can garner for instance that there is and has never been any truly ‘presencing—absolutising-identitive—
constitutedness\textsuperscript{13} of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-potency\textsuperscript{17}–sublimating–nascence,–disclosed–from-prospective-epistemic-digression to manifest itself in determining ontological-primemovers-totalitative-framework\textsuperscript{22}; and so, as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern-day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study together with human limited-mentation-capacity-deepening\textsuperscript{23} implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existencialising/contextualising/textualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{82} rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’\textsuperscript{<as-to-perspective–ontological-normaley/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’>}’. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just
looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically
with regards to political and institutional performance particularly during crises. In many ways, 
the systemic interrelatedness of large institutions as to their complementary end purposes and 
practices, renders such an assessment of implied equanimity/balance rather de-
mentative/structural/paradigmatic to the overall politico-institutional system itself; and 
particularly so as in many ways the possibility of readjustment is much more practically 
instigated politically especially as with public institutions the individual manifestation of 
sovereign choice is much more rigidly tied to political action unlike the relative ability for 
direct disengagement from private entities. However, the fundamental fact that human 
sovereignty and free-will is ever always a question of the ‘transverse relation of all humans 
sovereignty and free-will in society’ inherently implies the underlying possibility for the 
undermining of human sovereign choice as of inherent social differentiation. Beyond

phronesis/practicality as of our positivism–proscripticism occlusivity, the assessment of 
institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks 
as reflective of socially-perceived commendation and disapprobation’, as advancing human 
sovereignty and free-will as of deferential-formalisation-transference implications, can be rather 
straightforward with regards to relatively compact/self-contained institutional functions and
roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern-day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are preconvergingly–dementated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such
ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-
speech is increasingly being portrayed rather as the rationalising foundation for all sorts of
discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation.
In this regards, the notion of freedom-of-speech as of such consequentially biased and
disproportionate representation undermining ‘equanimity/balance of contending frameworks
and policy frameworks as reflective of socially-perceived commendation and disapprobation’
(as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-
transference implications), is increasingly becoming the unbecoming/undoing of the modern-
day democratic political process. Direct media surreptitious drumming-up of specific policy
stances and political movements have often interfered with political governance as with the tea-
party movement for instance; when considering how political orientations are ‘strategically
advanced/framed’ in the media at critical moments for upholding favourable political policies
or foiling unfavourable political policies while undermining sound analytic public debate. It is
no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’,
overlooking the age-old party politics narrative entrapment, has been turning to protest voting
as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will
across all times is intimately tied down to human limited-mentation-capacity-deepening as to the

implications of relative-ontological-incompleteness to relative-ontological-completeness. But then such pretence of presencing—absolutising-identitive-constitutedness veracity of ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification implications. Such ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the ‘meaningfulness-and-teleology infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside existentialising/contextualising/textualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness and relative-ontological-completeness but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about existentialising/contextualising/textualising-contiguity which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness and relative-ontological-completeness and so on the basis of merely projecting the term ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ and thereof implying logical-dueness and articulating logic on the so-narrowed and uncontested framework’. The reason why such a ‘human social-vestedness/normativity
implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all meaningfulness-and-teleology (as implied with the logical operation of any such projected ‘human social-vestedness/normativity') operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of existentialising/contextualising/textualising-contiguity thus subject to analysis as of ‘relative-ontological-incompleteness/relative-ontological-completeness (sublimating–referencing/registering/decisioning—as-self-becoming/self-conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence>) as to human-and-social–expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism as to their existential-reality veracity, such that fundamentally such ‘human social-vestedness/normativity’ argumentation about human sovereignty and free-will are rather ‘internally inconsistent’ and more aptly reflect manifestations of power-grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-ontological-completeness. Consider in this regards for instance as of the presencing—absolutising-identitive-constitutedness notion of ‘human social-vestedness/normativity’ underlying slavery, such an implied ‘human social-vestedness/normativity' implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently
making a claim on existential-reality which rather more aptly reflect a manifestation of powergrabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<as-to-preconverging-or-dementing–apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<as-to-preconverging-or-dementing–apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity
<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’. This points to the reality that ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-primemovers-totalitative-framework construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a ‘presencing—absolutising-identitive-constitutedness’ false sense of logical-dueness as of ‘relative-ontological-incompleteness/relative-ontological-completeness’ (sublimating—referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative—supererogating—<projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence>) as to human-and-social—expectations/anticipations—metaphoricity— as-rede-mentating/restructuring/reparadigming—psychologism may seem to
arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied ‘human social-vestedness/normativity\textsuperscript{<discretely-implied-functionalism>} implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather of flawed apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such apriorising/axiomatising/referencing but is rather meted with relative-ontological-completeness\textsuperscript{88} perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of\textsuperscript{apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for– conceptualisation } in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring\textsuperscript{<as-to-preconverging-or-dementing –apriorising-psychologism>}. In fact, besides the more starkly demonstrable case with respect to say slavery this equally applies with less starkly obvious situations having to do with human social differentiation as well as any other situations requiring prospective knowledge-reification\textsuperscript{87} as the possibility for all human progress arises effectively as a result of the transcending of all such human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint power-grabbing/appropriating/usurpatory/arrogating implications construed as ‘human social-vestedness/normativity\textsuperscript{<discretely-implied-functionalism>} implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as well as their socially attendant situations in need for prospective knowledge-reification\textsuperscript{87}; and so not as of a falsely implied logical-dueness and logical engagement that wrongly validate the relative-ontological-incompleteness\textsuperscript{99} apriorising/axiomatising/referencing of ‘human social-vestedness/normativity\textsuperscript{<discretely-implied-functionalism>} implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as being of
existential-reality in relative-ontological-completeness, but rather as of the relative-ontological-completeness perspective.

In fact, such an interpretation about the ontological-veracity of ‘human social-vestedness/normativity—discretely-implied-functionalism’—implied—contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’—argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendancy of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening possibilities of relative-ontological-completeness analysis over the absolutising of ‘human social-vestedness/normativity—discretely-implied-functionalism’—implied—contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’—argumentation. Thus any such pretence that ‘human social-vestedness/normativity—discretely-implied—

Thus, there is a direct relation between human-subpotency and existence-potency—sublimating-nascence—disclosed-from-prospective-epistemic-digression (so underlied as of the parrhesiastic seeding-promise-of-human-subpotency-ontological-performance—including-virtue-as-ontology—correspondence-with-the-full-potency-of-existence’s—sublimating—nascence—as—of—its—coherence/contiguity), and this is effectively instigated/originated by the human capacity for dispensing—with-immediacy—for-relative-ontological-completeness—by-reification/contemplative-distension in its construction-of-the-Self with respect to prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. The underlying point here is that there is no inherent meaningfulness-and-teleology but rather as of the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence—as—panintelligibility—\{imbued-and-

‘hermeneutically/reprojectively/supererogatingly/zeroingly—educing’ human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re—apriorising/re-axiomatising/re-referencing—conceptualisation), that is, as to ‘human-subpotency potential to epistemically converge to the full-potency of existence’; and this underlying structure of reflexivity is the very structure in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of—the—human—institutionalisation-process, however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges-us/puts-us-to-question as of prospective implications of living-development—as—to-personality-development, institutional-development—as—to-social-function-development and Being-development/ontological-framework-expansion—as—to—depth—of—ontologising-development—as—infrastructure—of—meaningfulness-and-teleology. The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the
social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency- aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. The very possibility for prospective human knowledge generation thus calls for human dimensionality-of-sublimating \{(\text{amplituding/formative})\ \text{supererogatory-de-mentativeness/epistemic-growth-or-conflatedness} /\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation}\} given the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence’–existentialism-form-factor, with such human dimensionality-of-sublimating \{(\text{amplituding/formative})\ \text{supererogatory-de-mentativeness/epistemic-growth-or-conflatedness} /\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation}\} speaking of true humanity projection for prospective secondnaturing institutionalisation (that goes on to broaden-the-latitude-of-human-collective-consciousness), and so over the wrongfully elicited self-satisfaction of sophistic/pedantic presencing—absolutising-identitive-constitutedness\textsuperscript{13} in existential-extrication-as-of-existential-unthought failing to address the universal implications of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective
originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation bluntly profess that ‘human temporality’/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought}<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications}>’ is in want for secondnatured knowledge and institutionalisation, and so as to the former human limited-mentation-capacity-deepening (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment —<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality>). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment —<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality>; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought}<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications}>’ is
basically of competent judgment (notwithstanding the latter’s underlying banal framework as to
skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening'). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to
broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of
such falsehoods) given that in the very first place the issue has nothing to do with inherent and
genuine originariness/reifying/intellectualising—idealising/transcending/sublimating–
meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal
egos as the very target for surreptitiously inducing our moral and intellectual
disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its
underlying social-vestedness/normativity-<discretely-implied-functionalism> undermining of
human dispensing-with-immediacy-for-relative-ontological-completeness’-by-
reification\textsuperscript{77}/contemplative-distension\textsuperscript{76} is effectively about discouraging the possibility for
prospective humanity to manifest. But then this intellectualism and sophistry conundrum
underlying knowledge-notionalisation (as of prospective human living-development–as-to-
personality-development, institutional-development–as-to-social-function-development and
Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of–meaningfulness-and-teleology ),
dementatively/structurally/paradigmatically marks all human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the
uninstitutionalised-threshold\textsuperscript{03} attendant framework of lack of social \textsuperscript{104} universal-
transparency\textsuperscript{10}—transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–
epistemicity>totalising~in-relative-ontological-completeness -or-understanding-of-ontological-primemovers-totalitative-framework\textsuperscript{23}-of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very first place; and this very much explains the defining relevance of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, as to the possibility for genuine human reification\textsuperscript{87} and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency\textsuperscript{39}—sublimating–nascence,—disclosed-from-prospective-epistemic-digression) is effectively what underlies human institutional paralysis and social-vestedness/normativity<discretely-implied-functionalism> as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating \textsuperscript{54} meaningfulness-and-teleology\textsuperscript{10} capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’
(rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology\(^{100}\)-<in-existential-extrication-as-of-existential-unthought>\(^{6}\)) is predicated upon and drags along the shiftiness-of-the-Self\(^{92}\) as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in "presencing—absolutising-identitive-constitutedness\(^{13}\) as "historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’), and so towards humankind’s supposed future (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{56}\)); and in many ways this historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition has already been stifling/stalling the human prospective potential as from the ontological-normalcy/postconvergence perspective conception of future \(^{47}\)historiality/ontological-eventfulness\(^{17}\)/ontological-aesthetic-tracing-<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism'> relevant to \(^{17}\)deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought. Such historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition override prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation possibilities, and the prospect for the future is ever so tied down to the psychological entrapment of prior human
stake-contention-or-confliction framework that nullifies the possibility for renewal of humanity.

scholarship (especially when poorly constrained to existence-potency→sublimating→nascent→disclosed-from-prospective-epistemic-digression) is bound to ‘make its own weather’ rather as from human-subpotency temporality /shortness; wherein ‘invested’ institutional and theoretical/conceptual postures take on an essence all of their own, and so independently and overlooking the precedence of existential-reality for the possibility for prospective sublimation and knowledge-reification and failing to ‘effectively re-stake/put-back-at-stake in re-originariness/re-origination the capacity of human ontological-performance→including-virtue-as-ontology> in a renewing originariness-parrhesia,–as–spontaneity-of-aestheticisation’ over already set/established/determining prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation, and so failing to be responsive to the fact that human limited-mentation-capacity-deepening rather invokes prospective dimensionality-of-sublimating→amplituding/formative→supererogatory→de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation for re-originariness/re-origination (and as ever always such destructuring-threshold→uninstitutionised-threshold /presublimating→desublimating→decisionality)→of-ontological-performance→including-virtue-as-ontology> across the successive registry-worldviews/dimensions abuse of the idea of being at the backend of human institutional-cumulation/institutional-recomposure→as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing→perspective–ontological-normalcy/postconvergence-reflected→epistemicity–relativism‘> as speaking to its own exceptionalism in a naïve→amplituding/formative→epistemicity→totalising→self-referencing–syncretising/circularity/interiorising/akrasiac-drag posture instead of the true instigative exceptionalism of the underlying ontological-contiguity→of-the-human-institutionalisation-process). Such that such ontologically-flawed presencing—absolutising-identitive-constitutedness becomes a psychological entrapment of an overwhelming presence hardly capable of profound re-originariness/re-origination but for its thresholding to the accrued historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition perception of temporal/shortness human stakes-contention-or-confliction framework; with the consequence that this mitigates the possibility to broaden-the-latitude-of-human-collective-consciousness off-the-beaten-path of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing
remoteness/aloofness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of ‘presencing—absolutising-identitive-constitutedness of meaningfulness-and-teleology given historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure-of meaningfulness-and-teleology) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic-or-notional—projective-perspective of re-originariness/re-origination as implied with prospective deprocrypticism—or—preempting—disjointedness—as-of—reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness of meaningfulness-and-teleology given historicity-tracing—in-presencing–
hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness \[88 \]
meaningfulness-and-teleology \[100 \] the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology \[100 \] <-in-existential-extrication-as-of-existential-unthought>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation–and–aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation–and–aestheticisation-towards-ontology as \[56 \] meaningfulness-and-teleology \[100 \] with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification/contemplative-distension \[26 \]. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events \[7 \] like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-originariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a \[6 \] presencing—absolutising-identitive-constitutedness’-of—meaningfulness-and-teleology \[100 \] given \[4 \] historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective \[4 \] historiality/ontological-

More than just about abstract knowledge-reification—the implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on
condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient "presencing—absolutising-identitive-constitutenedness" analyses that fail to factor in that the very notion of 'positivistic science experimental framework historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective-ontological-normalcy/postconvergence-reflected>' was developed and enculturated/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern-day science experimental framework speaks of the characteristic nature of a supposed knowledge-reification exercise that doesn’t factor in human limited-mentation-capacity-deepening as of relative-ontological-incompleteness to ‘relative-ontological-incompleteness/relative-ontological-completeness’.

giving their mutually for-human-studies sublimating nature; it is inevitably the case that a naïve construal of prospective science and technological development that seem to imply the requisite prospective sublimation of the overall human as to its prospective construction-of-the-Self is not critical, will inevitably lead to conundrums of prospective science and technology development as to the very possibility for developing the full human potential of science and technology as well as with respect to the underdevelopment of the human as to its shiftiness-of-the-Self in the capacity to handle and deal with prospective science and technology in such a manner that doesn’t imperil mankind’s very own survival (departing as from the larger conception of survival, beyond ‘reactionary construal’ of them-and-us in “presencing—absolutising-identitive-constitutedness” that end up ‘destructively dehumanising’ the various ‘the other’). Thus the very notion of human value-construction is entwined with ‘human notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence> accordion—{as-of-varying-individuations-contextually-transverse-desublimation/sublimation—as-to-the-redounding/wavering/waveforming—as-their-referencing-and-their-devolved-referencing-imbued-ontological-performance—<including—virtue-as-ontology>⟩ at uninstitutionalised-threshold as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing—possibilities’ and the idea of prospective human emancipatory transcendence-and-sublimity/sublimation/supererogatory—dementativity possibilities critically lies in appreciating the enabling ‘prospective predicative-effectivity—sublimation—{as-to-underlying—ontological-commitment—implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-

In effect, such a controversy of ontological-bad-faith/inauthenticity never arose (as explained by the prior enculturation of an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–(as-to-underlying,-ontological-commitment ~<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality>’) induced by budding-positivists and associated with their persecution), and further because of the very high predicative-effectivity–sublimation–(as-to-underlying,-ontological-commitment ~<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality>) associated with the physical sciences and as generally reflected by the social-stake-contention-or-confliction disinterested natured of ‘much of the basic/fundamental and natural sciences’. However, the case with psychological, social and ‘interest-driven scientific frameworks’ is quite often ‘hardly one of high predicative-effectivity–sublimation–(as-to-underlying,-ontological-commitment ~<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality>’) with the result that such a ‘purist ontological and scientific framing of supposedly knowledge-reification issues as to prospective sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing~<perspective–ontological-normalcy/postconvergence-reflected~’epistemicity-relativism’>’ is either indirectly or directly undermined with social-vestedness/normativity~<discretely-implied-functionalism> ideas which ‘de-mentatively/structurally/paradigmatically speak to an underlying disengagement with

real and natural orientation for the specific physics, mathematics and biology epistemic-conceptions of their respective epistemic-conceptions phenomenal/manifest–subpotencies–(in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence)) to explain human psychological and social phenomena that ‘end up implicitly denying the very obvious reality of the psychological and social subpotencies–(in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence)’. In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicit contention that the human ‘supposedly has no profound sublimating social and socio-psychological phenomenal/manifest–subpotencies–(in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence)’ with the ‘supposedly profound phenomenal/manifest–subpotencies–(in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence)’ construed rather in reductionist terms of biology/neurology or physicalism) as is often also associated with social-vestedness/normativity<discretely-implied-functionalism>-disparateness-of-conceptualisation<-unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’>; thus ‘actually denying the metaphysical nature and thus ontological nature of the sublimating social and socio-psychological’ such that existence-potency\textsuperscript{38}–sublimating–nascence,-disclosed-from-prospective-epistemic-digression sublimation implications with regards to the social and socio-psychological are hardly contemplated and recognised as so-projected herein as to the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68}. But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest–subpotencies–(in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence) to then ‘utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-
psychological phenomenal/manifest~subpotencies{(in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence)} (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any ‘<amplitudding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘<amplitudding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of physics, chemistry, biological, genetic theories as to the ontological-contiguity of physics, chemistry, biological, genetic theories as to the ontological-contiguity67 imbedded foregrounding—entailment{postconverging–narrowing-down–sublimation-as-to–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ’-in-reflecting–immanental-ontological-contiguity ’;–as-operative-notional–deprocrypticism) of their respective inherent sublimating phenomenal/manifest~subpotencies{(in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence) wherein for instance with the physics frame–of–ontological-contiguity67 succession of theories are developed aspiring cogently for ontological-contiguity67 of the whole physics epistemic-conception phenomenal/manifest~subpotency{(in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence) as from say Galilean/Cartesian/Newtonian/Leibnizian physics to modern-day string-theory/loop-quantum-gravity/etc. which all profess ontological-contiguity’). In other words, such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological shouldn’t epistemically be selective in totalisingly-disentailing—discretion/whim-of-thought (if truly of science/ontology as to ‘<amplitudding/formative–epistemicity>totalising/circumscribing/delineating necessitation

points out that the ‘traditional nature versus nurture debate itself is fundamentally an
axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an

paradoxically only by impliciting the reality of the ‘<amplituding/formative–

Such flawed and surreptitious representation that biological/neurological and evolutionary substitutive/reductionist interpretations are the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of the social and socio-psychological (rather than the truly inherent social and socio-psychological epistemic-conception phenomenal/manifest–subpotencies⟨(in-transitive-conflatedness –reflexivity,-in-the-full-

The reality at best is that of ‘biological/neurological and evolutionary interpretations transverse epistemic-conception phenomenal/manifest–subpotency⟨(in-transitive-
interpretations about the social (on the basis of the ‘hollow impressiveness of the natural sciences’) as a psychological trick/gimmick as to rendering knowledge-reification sublimation in the social impotent with regards to varied social-stake-contention-or-confliction purposes. Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to arrive at the social ‘amplituding/formative-epistemicity-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ sublimating implications and consequences). Besides, such claims are often so-associated with vague non-metaphysical as non-ontological conceptualisations of the social in vague disparateness-of-conceptualisation-unforegrounding-disentailment-failing-to-reflect-immanent-ontological-contiguity as to elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity, and thus in many ways further undermine/distract-from the social ‘amplituding/formative-epistemicity-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ conception of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in dealing with direct social and institutional issues, crises and failures. A ‘purist science/ontology epistemic-conception of veracity/truth’ equally differs from the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-discretely-implied-functionalism implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ with the former construing of ‘knowledge as to existential knowledge-reification privileging manifest sublimating outcome in existence’ in contrast to the latter construing of ‘knowledge as to
collective acquiescence as to the privileging of human commendation-or-agreementing/convincing-among-mortals (rather than a detour to existence-potency 15—sublimating—nascence,—disclosed-from-prospective-epistemic-digression) even over manifest sublimating outcome in existence’. Such a ‘purist science/ontology epistem-conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ (as involved in the reconceptualisation of the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in their presencing—absolutising-identitive-constitutedness as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness failure to directly grasp their very own amplituding/formative—epistemicity—totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, even as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). In other words, the ‘effective equilibration of human sublimating meaningfulness-and-teleology across the

This latter insight is critical for all prospective human sublimation as ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity—discreetly-implied-functionalism’ effectively renders any prospective human emancipation and construction-of-the-Self pointless-and-contradictory; as to the fact that even such advocates turn out to be incoherently muted-and-muddled with regards to such an argument about ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity—discreetly-implied-functionalism’, revealing their true motives rather as status quo preserving with regards to social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought). The ‘purist science/ontology epistemic—
conception of veracity/truth’ is ever always about the ‘prospective upholding of existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression and de-mentatively/structurally/paradigmatically so-explains the very possibility for human progress. In contrast the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity—discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression are vague disparateness-of-conceptualisation—unforegrounding-disentailment,—failing-to-reflect—‘immanent-ontological-contiguity’, and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised imprimatur of intellection even as to when it projects intellectual desublimation associated with pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern-day intellection relevant prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects
prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior methodologising/mutualising/organising/institutionalising conception of physics. Critically, with regards to the blurriness of meaningfulness-and-teleology in the social that exposes prospective transcendental dispositions (as to dimensionality-of-sublimating~\langle\text{supererogatory–de-mentativeness/epistemic-growth-or-conflatedness} /\text{transvaluative-rationalising/ transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\rangle\text{ontological-good-faith/authenticity} \sim\text{postconverging–de-mentating/structuring/paradigming}) to sophistic/pedantic wooden-language\{imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing –narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology\} eliciting of wooden-language\{imbued—averaging-of-thought<\text{as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}, it is important to articulate such prospective sublimating meaningfulness-and-teleology\} while equally reflecting upon the sophistic/pedantic to its dimensionality-of-desublimating-lack-of~\langle\text{supererogatory–de-mentativeness/epistemic-growth-or-conflatedness} /\text{transvaluative-rationalising/ transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\rangle\text{ontological-bad-faith/inauthenticity} \sim\text{preconverging–de-mentating/structuring/paradigming} as part and parcel of the prospective sublimating.
meaningfulness-and-teleology\textsuperscript{10}\textsuperscript{0}, and not wrongly imply the desublimation is in apriorising-teleological-elevation-in-ontological-contiguity\textsuperscript{17} as to the transcendence-and-sUBLIMITY/sUBLIMATION/sUPEREROGRATORY–DE-MENTATIVITY attitude/MENTAL-TO-DISPOSITION/CARE–AND–EPISTEME\textsuperscript{5} (in this case reflecting sophistic/pedantic \textsuperscript{91} procrypticism–or–disjointedness-as-of-reference-of-thought); and as so articulated elsewhere with the case of the Socratic-philosophers and budding-POSITIVISTS it is always the case that the sophistic/pedantic dispositions will fathom that in relation to prospectively sublimating base-institutionalisation, universalisation, positivism and notional–deprocrypticism the effective ‘world that exists to the majority people (as of ‘human notional–firstnatures—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> accordioning-{as-of-varying-individuations-contextually-transverse-desublimation/sublimation—as-to-the-redounding/waverings/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance} <including-virtue-as-ontology>\rangle at uninstitutionalised-threshold \textsuperscript{53} as reflecting both desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition and sublimating ‘historiality/ontological-eventfulness\textsuperscript{7}/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> possibilities’) respectively is recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism–or–disjointedness-as-of-reference-of-thought to go on cynically eliciting <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void ’–with-regards-to-prospective-apriorising-implications>} as of the latter. Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given ‘presencing—
absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective) as to an epistemically-decadent wooden-language

(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology); and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness—by-

This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification⁷⁷ is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification⁷⁷ exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification⁷⁷ implications and pretending otherwise as to
‘virtual wisdoms’ is nothing more than totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag 3. Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has de-mentative/structural/paradigmatic implications with regards to human meaningfulness-and-teleology (as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology). This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) is ‘the scalar conception that enables prospective human sublimation as of aestheticisation-towards-ontology’ while on the other hand human-subpotency (as to human presencing—absolutising-identitive-constitutedness 4. totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ is ‘a non-scalar conception that induces prospective human desublimation aestheticisation’. The ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as such is reflected with regards to prospectively implied ontological-normalcy/postconvergence construed as of ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation epistemic-projection perspective while ‘human-subpotency non-scalarity/beholdening—as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ is reflected with regards to its prospectively implied epistemic- abnormalcy/preconvergence construed as of incrementalism-in-relative-ontological-
incompleteness\(^3\)—enframed-conceptualisation epistemic-projection perspective. Basically, ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholding-as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ thus speak to the fact that human prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implied limited-mentation-capacity-deepening\(^3\) (as to dispensing-with-immediacy-for-relative-ontological-completeness-by-reification\(^7\)/contemplative-distension\(^6\)) is actually induced as from human uncontemplative-distension so-construed as ‘dispensing-with-immediacy-for-relative-ontological-completeness-by-reification\(^7\)/contemplative-distension\(^6\) imbued prospectively of both sublimating\(^4\) historiality/ontological-eventfulness\(^3\)/ontological-aesthetic-trace and desublimating\(^1\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’; as to prospective sublimating\(^4\) (historiality/ontological-eventfulness\(^3\)/ontological-aesthetic-trace ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as prospectively preserving ontology/ontological-veracity and ‘human-subpotency non-scalarity/beholding-as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation\(^5\) prospective desublimating\(^4\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition as prospectively obviating ontology/ontological-veracity. This insightful grasp of the implications of human limited-mentation-capacity-deepening\(^3\) (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness\(^7\)), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance\(^2\)-<including-virtue-as-ontology> (associated with prospective human sublimation) into: ‘a
scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of historiality/ontological-eventfulness/ontological-aesthetic-tracing-reflected-‘epistemicity-relativism’> and ‘a non-scalarity/beholding-as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’); with the effective ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just relative-ontological-completeness") underlying the overall existential dimensionality-of-sublimating-\langle\text{amplituding/formative\_supererogatory\_de-mentativeness/epistemic\_growth-or-conflatedness\_transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness\_equalisation}\rangle as the inherent ontological-good-faith/authenticity~postconverging-de-mentating/structuring/paradigming effectively reflected as of notional-deprocrypticism. notional-deprocrypticism as such by its ontologically-uncompromised nature ‘technically entails’: prospective human ontological-performance~<including-virtue-as-ontology> as to sublimating “historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective-
presencing—absolutising-identitive-constitutedness\textsuperscript{1}, while the former strongly constrained to high predicative-effectivity–sublimation–\textsuperscript{1} as-to-underlying,-ontological-commitment \textsuperscript{2} implied—self-assuredness-of-ontological-good-faith/authenticity \textsuperscript{3} postconverging–de-mentating/structuring/paradigming \textsuperscript{3} as-being-as-of-existential-reality\textsuperscript{4} is rather relatively amenable to sublimating \textsuperscript{5} historiality/ontological-eventfulness \textsuperscript{6} ontological-aesthetic-tracing\textsuperscript{7} \textsuperscript{8} perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’\textsuperscript{9} as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating ‘historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) as superseding social intellection itself as an inherent exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’ (as to the latter’s prospective sublimating \textsuperscript{10} historiality/ontological-eventfulness\textsuperscript{11} ontological-aesthetic-tracing\textsuperscript{12} perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’\textsuperscript{13}). Critically such a ‘purist science/ontology epistemic-conception of veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of ‘supposedly veridical ontological justifications/grounds’ but which on closer examination as of ‘purist science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-
knowledge-reification implying a projection out of a prior human registry-worldview’s/dimension’s institutionalisation framework cannot be construed as of any exercise of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity on the basis of the prior institutionalisation secondnatured apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (thus wrongly implying that there is an underlying absolute sound basis for human knowledge-reification as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity, whereas in reality such grounds are recurrently rede-mentated/restructured/reparadigmed for relative-ontological-completeness as to re-motif-and–re-apriorising/re-axiomatising/re-referencing/re-intelligibilitysettingup/re-measuringinstrumenting); hence implying that prospective sublimating ‘historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism’ at any uninstitutionalised-threshold is necessarily imbued with prospective originariness-parrhesia—as—spontaneity-of-aestheticisation ‘messianic-structure of intemporality’ and its derived deferential-formalisation-transference secondnaturings. We can appreciate in this regards that budding-positivists meaningfulness-and-teleology however relatively intelligible to us today, wouldn’t make sense to the ‘ordinariness/commonsensicality of the non-positivism/medievalism prior institutionalisation secondnatured apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity’ but the fact is that such budding-positivism in its rede-mentating/restructuring/reparadigming for relative-ontological-completeness rather induced the psychoanalytic-unshackling/memetic—

Likewise, it is herein contended that a tradition of philosophy introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of presencing—absolutising-identitive-constitutedness <amplituding/formative—
that in many ways (given the inherent impotency it induces as recognised explicitly and
implicitly by even its very own leading figures) has had the consequence of ‘undermining the

notional-deprocrypticism respectively over desublimating recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism respectively, and the failure to articulate this requisite ‘ontological-good-faith/authenticity ~postconverging-de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ is a failure to meet the ‘prospectively warranted organic-knowledge epistemic-veracity’ as failing to reflect supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for-conceptualisation in implying that ‘the sublimating apriorising/axiomatising/referencing–psychologism is the valid logical-basis’ and ‘the desublimating apriorising/axiomatising/referencing–psychologism is the invalid logical-basis’. This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as so-induced by notional–asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought
inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturings institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold’ and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology) which rather requires instigative notional–asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturings of positivism/rational-empiricism was the notional–asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism demen
tative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness logical-basis/logic<as-to—transversality<for-sublimating—existential-eventuating/denouement~of-affirmative-and-unaffirmative–disambiguated~motif–and-apriorising/axiomatising/referencing’ is in transversality<for-sublimating–existential-

basis/logic-as-to—transversality-for-sublimating—existential-eventuating/denouement—of—affirmative-and-unaffirmative—disambiguated—motif-and—apriorising/axiomatising/referencing—

, it is only the sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation that affirmatively upholds the relative-ontological-completeness over the relative-ontological-incompleteness (as to their supposed coherent ontological-commitment —self-assuredness-of-ontological-good-faith/authenticity —postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality—). In other words, genuinely projected knowledge as of ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming existential-condescension—of-apriorising/axiomatising/referencing—psychologism’ as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human living-development—as-to-personality-development and institutional-development—as-to-social-function-development as to the positive-opportunism implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of such ‘ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming existential-condescension—of-apriorising/axiomatising/referencing—psychologism’ but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness— and-teleology. In this respect with regards to human living-development—as-to-personality— development and institutional-development—as-to-social-function-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber
and a customer, the two parties do not normally engage one another in equivocating as of the ordinary meaningfulness-and-teleology desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity’ ~postconverging–de-mentating/structuring/paradigming existential-condescension~<of-apriorising/axiomatising/referencing–psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing–psychologism of the client’ and so as reflecting the sublimating knowledge ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming beyond-and-above the desublimating ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming of ordinary meaningfulness-and-teleology. However, this sublimating knowledge ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming existential-condescension~<of-apriorising/axiomatising/referencing–psychologism>’ across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (even though from a retrospective perspective we can grasp the preconverging/dementing ~qualia-schema of ‘the God of plane’ type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empiricism reflex ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming existential-condescension~<of-apriorising/axiomatising/referencing–psychologism>’ but it is important to note that such an animistic social-setup doesn’t project of any such preconverging/dementing ~qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-
teleology going by its presencing—absolutising-identitive-constitutedness just as we will be disinclined to contemplate about the more veridical preconverging/dementing—qualia-schema of our procrypticism—or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold as from a prospective notional-deprocrypticism perspective projected placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology. This poor appreciation arises for the simple reason that the uninstitutionalised-threshold speaks of the registry-worldview/dimension notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema, and thus it is disinclined to recognised the prospective ‘relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-{as-to-underlying—ontological-commitment—implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality}>’ imbued foregrounding—entailment{postconverging—narrowing-down—sublimation-as-to—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation”—in—reflecting—‘immanent-ontological-contiguity’—as-operative-notional—deprocrypticism} that can instill such a prospective sublimating knowledge ‘ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming existential-condescension—of-apriorising/axiomatising/referencing—psychologism>’ as to prospective living-development—as-to-personality-development and institutional-development—as-to-social-function-development. In this regards, it can be appreciated with respect to budding-positivism and universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the scholastic-medievalism underpinning—suprasocial-construct or where construing
meaningfulness in coherent universalising terms do not avail as in the non-universalising sophistry underpinning–suprasocial-construct, then there is a fundamental reality of desublimating ontological-bad-faith/inauthenticity over which prospective sublimating ontological-good-faith/authenticity knowledge respectively as of budding-positivism and universalising-idealisation can only be established as of their respectively requisite ‘ontological-good-faith/authenticity’ existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ and naïve modern-day presencing—absolutising-identitive-constitutedness interpretations in terms of the supposed arrogance of the Socrates, Galileos, Descartes, Diderots, etc. is nothing more but a manifestation of dimensionality-of-desublimating-lack-of {<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} (as to the failure to appreciate that the surpassing of human-subpotency aporeticism is all about originariness-parrhesia,–as–spontaneity-of-aestheticisation—

The genuine social intellectual–function/posture means that human thought can project beyond, overlook and override presencing—absolutising-identitive-constitutedness \( \text{preconverging} \langle \text{motif-and-apriorising/axiomatising/referencing} \rangle \text{imbuing} \rangle \) existentialising—enframing/imprintedness \( \text{as-to historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} \) conception of sublimating value and ontological-veracity disposition; and so as to the fact that presencing—absolutising-identitive-constitutedness \( \text{preconverging} \langle \text{motif-and-apriorising/axiomatising/referencing} \rangle \text{imbuing} \rangle \) existentialising—enframing/imprintedness \( \text{as-to historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} \) actually tend to be skewed towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology \( \text{supererogation} \langle \text{profundity—postconverging—de-mentating/structuring/paradigming requisite dispensing-with-immediacy-for-relative-ontological-completeness} \text{by-reification} \langle \text{contemplative-distension} \rangle \text{for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness—and-teleology} \rangle \), and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the overall underpinning—suprasocial-construct tends to be abstractly preconvergingly—de-mentated/structured/paradigmed to skew towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as for instance professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the genuine social intellectual–function/posture is to undermine this skewing towards ‘immediacy supposed absolute
sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology\textsuperscript{10}<-in-existential-extrication-as-of-existential-unthought>\textsuperscript{5} positive-opportunism\textsuperscript{76} of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given \textsuperscript{8}presencing—absolutising-identitive-constitutedness\textsuperscript{13} ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human \textsuperscript{8}presencing—absolutising-identitive-constitutedness\textsuperscript{13} mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{10} infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{10} (and so not only with human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{5}meaningfulness-and-teleology\textsuperscript{10} but is equally reflected in a poor-spirited bland conception of human living-development–as-to-personality-development and institutional-development–as-to-social-function-development). This insight is critically
important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning–suprasocial-construct projected and preconvergingly–de-mentated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublation (as has always been the manifest case for surpassing the uninstitutionalised-threshold of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying ‘presencing—absolutising-identitive-constitutedness’ end up as the registry-worldviews/dimensions Establishments underpinning–suprasocial-construct as to dominance/vested-interest—drivenness—<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of ‘presencing—absolutising-identitive-constitutedness’ <preconverging~’motif-and-apriorising/axiomatising/referencing’—imbuing>—existentialising—enframing/imprintedness<(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) of social-vestedness/normativity<discretely-implied-functionalism> and social-stake-contention-or-confliction. that unlike the flawed mental—reflex associated with presencing—absolutilising—identitive—

The implication here is that the ‘ontological-good-faith/authenticity\textsuperscript{69} \textit{\langle postconverging–de-mentating/structuring/paradigming\rangle} existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ is thus merely reflecting the veridicality of the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{13} de-mentativity which is only possible as to existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{<as-to-perspective–ontological-normalcy/postconvergence-implied–“prospective-aporeticism-overcoming/unovercoming”>} with regards to human formativeness\textsuperscript{<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>\textsuperscript{of–meaningfulness-and-teleology}}. Thus it is only the possibility of ‘ontological-good-faith/authenticity\textsuperscript{69} \textit{\langle postconverging–de-mentating/structuring/paradigming\rangle} existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ that can thus allow
human existential-discursivity—implicated-sublimation-over-desublimation beyond naïve

(given that human ontological-performance\(^2\) \(<\text{including-virtue-as-ontology}>\) cannot be neutrality separated from human \(<\text{amplituding/formative-epistemicity}>\) totalising—thrownness-in-existence \(^4\) and the reflexive temporal-to-intemporal 
ontological implications on human ontological-performance \(<\text{including-virtue-as-ontology}>\). 
This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could 
bring about a human cataclysm, such a ‘potential manifestation of existence is not beholding 
to human appreciation of the existential implications of the notion and science behind the 
esteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable 
Mars’ had achieved our modern-day civilisational and technological level, it is inevitable that 
they will effectively adopt ‘ontological-good-faith/authenticity\(^7\) \(<\text{postconverging-de-

Earth and strive to preempt such a cataclysm as to their technical capacity. We can appreciate 
that the human species on Earth as to its relative-ontological-incompleteness \(^7\) doesn’t have a 
pretence to being of a ‘neutrally/objectively sound human ontological-performance\(^2\)

\(<\text{amplituding/formative-epistemicity}>\) totalising—thrownness-in-existence \(^4\)’ but together with 
the extraterrestrials is rather de-mentatively/structurally/paradigmatically in existential-
discursivity—implicated-sublimation-over-desublimation relation as to the primacy of the full-
potency of existence over any subpotency (speaking fundamentally to prior human ontological-
commitment\textsuperscript{66} \textsuperscript{-} \textsuperscript{implied—self-assuredness-of-ontological-good-faith/authenticity \textsuperscript{69}~postconverging–de-mentating/structuring/paradigming \textsuperscript{70} as-being-as-of-existential-reality}) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priority of existential-discursivity—implicated-sublimation-over-desublimation superseding pretenses of mere-formulaic methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive-constitutedness\textsuperscript{67} articulated induced elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existentialising/contextualising/textualising-contiguity\textsuperscript{70}. Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness\textsuperscript{88} is-educated—avails—and—re-avails rather than ontological-bad-faith/inauthenticity\textsuperscript{64} in upholding relative-ontological-incompleteness\textsuperscript{88} (given that immortality/existence-perspective as to intemporality\textsuperscript{52} cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging-or-dementing \textsuperscript{20}–apriorising-psychologism and not postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicated-sublimation-over-desublimation that explains why the availing of relative-ontological-completeness\textsuperscript{88} as to dimensionality-of-sublimating\textsuperscript{24} \langle \textsuperscript{amplituding/formative} supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation \rangle takes precedence in defining human intellectual-and-moral ontological-performance \textsuperscript{1} \langle \textsuperscript{including-virtue-as-ontology} \rangle and so as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{77}. This \textsuperscript{\langle \textsuperscript{amplituding/formative–epistemicity} totalising–thrownness-in-existence \rangle implied existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity\textsuperscript{69}~postconverging–de-mentating/structuring/paradigming\textsuperscript{70} existential-
condescension-<of-apriorising/axiomatising/referencing–psychologism>’ effectively underlies the ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the preformulating/preframing/premeaningfulness-<metaphoricity>-disposition—as-to-psyche-induced-psychologism-of-existential-stake> from which human meaningfulness-and-teleology veridically arises. Thus existential-discursivity—implicit-sublimation-over-desublimation implies that the human is already ‘de-mentatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-performance’-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence”. This insight puts into perspective our ‘presencing—absolutising-identitive-constitutedness’ conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness aetiologisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-incompleteness’ specific apriorising/axiomatising/referencing-(of–existentialising/contextualising/textualising-contiguity)—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-
existence’ is not of neutrally/objectively sound ontological-performance; as to the fact that for instance the incidence of modern-day wars and their man-made catastrophes do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that dementatively/structurally/paradigmatically directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our

bigger point here is that prospective human sublimation underlying prospective knowledge-reification\(^7\) in relative-ontological-completeness\(^7\) cannot be engaged with any given registry-worldview/dimension in relative-ontological-incompleteness\(^7\) as if the latter is of a ‘neutrally/objectively sound human ontological-performance\(^7\)-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing-(of-existentialising/contextualising/textualising-contiguity )—ontological-deficiency arising from its specifically given \(^4\langle\textit{amplituding/formative–epistemicity}^\rangle\text{totalising–thrownness-in-existence}\)’ with regards to the fact that human \(^4\langle\textit{amplituding/formative–epistemicity}^\rangle\text{totalising–thrownness-in-existence}\) is already engaged in existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity\(^9\)-postconverging–de-mentating/structuring/paradigming\(^7\) existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ (and so very much countering the deceptive eliciting in desublimation of \langle\textit{amplituding/formative}^\rangle\text{wooden-language\{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of–‘nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications\}\rangle by dominance/ vested-interest actors and sycophantic-sophistry seeming to imply human-subpotency takes precedence over existence). In this regards, and in the bigger scheme of things existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity\(^9\)-postconverging–de-mentating/structuring/paradigming\(^7\) existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ implies that as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^7\), the respective state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism cannot be construed as of ‘neutrally/objectively sound human ontological-performance\(^7\)-<including-virtue-as-ontology> state failing to factor in human specific

<amplituding/formative–epistemicity>totalising–thrownness-in-existence’ with respect to
prospective base-institutionalisation, universalisation, positivism/rational-empiricism and
notional–deprocrypticism respectively; and as relative-ontological-completeness avails
intellectual-and-moral responsibility is rather reflected as of dimensionality-of-sublimating
\langle amplituding/formative–epistemicity supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation \rangle.

Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given presencing—absolutising-identitive-constitutedness; self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its ontological-contiguity’ as to the possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity—of-the-human-institutionalisation-process so-associated with human limited-mentation-capacity-deepening). This confliction in the perception and relation to human sublimation in existence between metaphysics-of-presence\langle implicated-’nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness \rangle
epistemicity > causality > as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity, is aptly reflected in the entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-contiguity —of-the-human-institutionalisation-process. This is so fundamentally because of human teleology speaking of ‘human phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting amplituding/formative-disposedness-(as-to-orientation/value-construct/valuation—and-derived-parameterising) and amplituding/formative entailment-(as-to-totalising-contiguous/coherent-factuality-of-variability))’, as reflecting the implications of human limited-mentation-capacity-deepening underlying the ontological-contiguity —of-the-human-institutionalisation-process; such that human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed presencing—absolutising-identitive-constitutedness given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. The insight here is that human state of prior relative-ontological-incompleteness de-mentatively/structurally/paradigmatically impacts reflexively on human appraisal of its prospective relative-ontological-completeness sublimation implications, and so across the cumulating/recomposuring-successive registry-worldviews/dimensions right up to the originariness/origination (so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence) perspective of deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought which purportedly escapes any such reflexive presencing—absolutising-identitive-constitutedness given its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—
in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity — of-the-human-institutionalisation-process of social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology. But the overall postconverging-de-mentating/structuring/paradigming of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving’. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with
gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking apriorising-teleology. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness and the immaterial/social overall relative-ontological-incompleteness of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—<as-to-underlying,—ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality>⟩’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to the fact that the technical and scientific progress as to relative-ontological-completeness weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology value-construct and shallow-supererogating methodologising/mutualising/organising/institutionalising <preconverging—‘motif-and-apriorising/axiomatising/referencing’—imbuing—existentialisng—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate
subsistence/survival. Thus it is always the case that the positive-opportunism\textsuperscript{76} driving the secondnatured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{82}/by-reification\textsuperscript{87}/contemplative-distension\textsuperscript{26} immaterial/social sublimation considerations that rise to the aporeticism overcoming/unovercoming challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfulness-and-teleology\textsuperscript{106} of our positivism–procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual–function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/originating-so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence perspective of notional–deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness\textsuperscript{99}—presublimation-construct-of—meaningfulness-and-teleology\textsuperscript{100}; as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social overall relative-ontological-incompleteness\textsuperscript{99}—presublimation-construct-of—meaningfulness-and-teleology\textsuperscript{100} instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations<blinded-to-their-relative-ontological-completeness-reference-of-thought-devolving>’ that goes on as of
presencing—absolutising-identitive-constitutedness to render the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance <including-virtue-as-ontology> reflected in their failing effective outcomes of equanimity/balance; wherein their practice increasingly tends to dominance/vested-interest actors and sycophantic-sophistry induced desublimating narratives as to the <amplituding/formative> wooden-language-＜imbued—averaging-of-thought＜as-to-leveling/ressentiment/closed-construct-of- meaningfulness-and-teleology ＜as-of-'nondescript/ignorable—void ＜with-regards-to-prospective-apriorising-implications＞）displayed in the public domain (caught-up/entrapped in ‘a politico-institutional beholdening relic/artefactual disenfranchising notion of both-sides’ as psyching-subterfuge that renders the common concrete pragmatic aspirations of sovereign individuals increasingly politically irrelevant as to the paradox for instance that the healthier political framework in the years following the second world-war, as hardly subject to closed-circles of effective direct/indirect politico-institutional influence rampant today, notwithstanding the even greater social prejudice/bigotry/closed-mindedness was able to induce critical progressive social transformations that in many ways the modern-day political framework as to a period of rather profound and real-world cosmopolitanism/opened-mindedness can only dream about) as the more potent possibilities for social transformation are increasingly subdued under politico-institutional defaulting frameworks-and-practices rather surreptitiously subjected to closed-circles of effective direct/indirect politico-institutional influence ‘as to a strategic capacity to elicit old and relatively aporetically irrelevant beholdening narratives of identity as a divide-and-conquer strategy for undermining the real and concrete common sovereign narrative of social transformation possibilities’ as so-reflected with commonly held objective sovereign aspirations that cut across party/ideological affiliations when not subjected to the
disenfranchising effects of crafty politicised beholdening narratives of identity with their ‘ad-hoc/arbitrary popping-up in the media at critical electoral moments involving high emotional charge quelling cerebral thinking as of the modern-day efficient disenfranchising technique of flawed apriorising deception involving arbitrarily-skewing-or-debasing-the-terms-of-supposedly-constructively-opened-public-debate’ (as to the wrong mental enculturation of the notion that the ‘political game’ in-of-itself precedes individuals and social sovereign aspirations as if the latter were just ‘paying fans to a sports encounter’ rather than a political process meant to serve them as so reflected with an enculturated media political narrative hardly/poorly making room for direct individual and social sovereign aspirations as centrally defining with the consequence that substance is increasingly overwhelmed by a political characters portrayal of the political debate with political actors then effectively turning over rather towards the levers of their potential power which is paradoxically not necessarily/deterministically social sovereign aspirations as to a relic/artifactual conception-and-projection in the public domain but rather surreptitious/private closed-circles of effective direct/indirect politico-institutional influence as so-plainly exposed by the fact that long-term consequences of public policies recurrently ‘default for dominance/vested-interest actors’). Even in the purely intellectual sense, modern-day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve \(^1\) presencing—absolutising-identitive-constitutedness\(^1\) epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to the aestheticisation—and—aestheticisation-towards-ontology underlying the overall ontological-contiguity\(^6\)—of-the-human-institutionalisation-process\(^\text{a}\), so-reflected from such science-ideology poor appreciation of the implications of the \(^4\) historiality/ontological-
eventfulness\textsuperscript{17}/ontological-aesthetic-tracing\textsuperscript{<&perspective--ontological-normalcy/>} rendering the scientific adventure as of a living existentialising/contextualising/textualising-contiguity\textsuperscript{39} exercise. Such that by this token science-ideology conception of science the requisite dispensing-with-immediacy-for-relative-ontological-completeness \textsuperscript{-by-reification} \textsuperscript{/contemplative-distension\textsuperscript{26}} as to human limited-mentation-capacity-deepening\textsuperscript{4} implications in fully appreciating human underlying aestheticisation scheming in conceptualising existence\textsuperscript{—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{7}} behind the ultimate development of human knowledge and science is lost to a flatminded interpretation of human progress based on the mere elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside\textsuperscript{—existentialising/contextualising/textualising-contiguity\textsuperscript{19}} conception of methods/methodologies/approaches as to mere reproducibility\textsuperscript{—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation with a poor appreciation for the prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation—supererogatory\textsuperscript{—acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument—}\textsuperscript{—for—conceptualisation} behind the supererogatory invention and validation of any such methods/methodologies/approaches. Further science-ideology as to its dimensionality-of-desublimating-lack-of\textsuperscript{\langle\textsuperscript{amplituding/formative}\textsuperscript{supererogatory–de-mentativeness/epistemic-growth-or-confatedness} /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\textsuperscript{\rangle} equally fails to appreciate how prior human aestheticisation scheming including human superstitions, belief systems and religions were a necessary pathway to the present even as modern science demonstrates their limits (given that we are an animal of limited-mentation-capacity reflected as to our human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-

The implication here that in the bigger scheme of things, the ‘apriorising decisions advancing mere-formulaic–methodologising/mutualising/organising/institutionalising human-subpotency <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness-{as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition}’ over inherent ontological-veracity as manifested in many a social domain (while equally relevant in the natural sciences especially when ‘mere-formulaic–methodologising/mutualising/organising/institutionalising human-subpotency <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness-{as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition}’ increasingly undermine the organisation behind the natural conduct of the natural sciences) go on to undermine their pretenses to a status of profound ontological-veracity as reflected of an ontology/science as to aestheticisation-towards-ontology. In this regard, relic/artifactual conception of veridical human “historiality/ontological-eventfulness”/ontological-aesthetic-tracing<{perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’}> rather speaks to deficient knowledge-reification gesturing caught up in presencing—absolutising-identititive-constitutedness as of beholdening-becoming—distortive-originariness/distortive-origination—as-to-“historicity-tracing–inhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual–
function/posture indifference or betrayal to dominance/vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflect in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification\(^7\) (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). It is herein contended that just as the prior cumulating/recomposing-successive registry-worldviews/dimensions required their specific ‘relative-ontological-completeness’\(^8\) — apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying,-ontological-commitment \(-\) implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—dem- mentating/structuring/paradigming—as-being-as-of-existential-reality\(>\))’ to usher in the possibility of their very own secondnatured institutionalisation unclouded knowledge-reification\(^7\) gesturing, the ultimate possibility for our positivism—procrypticism overcoming its pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation- (blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—\(<\text{amplituding/formative—epistemicity}>\text{totalising—in-relative-ontological-completeness} \) lies with the prospective ‘deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying,-ontological-commitment \(-\) implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality\(>\))’ imbued foregrounding—entailment—(postconverging—narrowing—

Such muddlement is more critically as of the inconsistency associated with both sceptical argumentations (with sceptical arguments not necessarily pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-

<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness} as to a de-mentative/structural/paradigmatic implication that renders prospective knowledge impotent and so out of ontological-bad-faith/inauthenticity in desublimating–existentialising–decisionality gesturing of attenuating/devaluing, blurring and trivialising wherein there is ‘supposedly no totalising-entailing conception of meaningfulness-and-teleology’ thus allowing for totalisingly-disentailing—discretion/whim-of-thought pretense-of-sublimation rather unconstrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-
supererogation\textsuperscript{97}. Critically the ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ associated with nascent-particular/incipient-and-material/technical-sublimations–\textsuperscript{blinded-to-their-relative-ontological-completeness}–reference-of-thought-devolving\textsuperscript{97} is necessarily of totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal–eliciting-of-prospective-supererogation\textsuperscript{97} thus relatively undermining such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness’ in existentialising–decisionality’ (that is, where the latter does not extensively intrude into the former as for instance in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness, wherein blurriness is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification\textsuperscript{87} rather than ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification\textsuperscript{87} gesturing as determining sublimating–existentialising–decisionality)’; with this conflicting of ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ so-reflected across the <cumulating/recomposuring>-successive registry-worldviews/dimensions given human notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as to prospective social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology\textsuperscript{60}<-in-existential-extrication-as-of-existential-unthought> ). Thus such an aporeticism overcoming/unovercoming necessarily imply the integration of the analysis of pedantising/muddling/formulaic-hollowing-
out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness} as part and parcel of prospective knowledge-reification as to knowledge-notionalisation, and especially as so-manifested increasingly with ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge frameworks’ that on the baiting of imprimatur then switch on to propound ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge constructs out-of and implicitly obviating the veracity of the \(104\text{universal-transparency}\langle\text{transparency-of-totalising-entailing,-as-to-entailing-}<\text{amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness}\rangle\) of knowledge-reification’ (and so as to self-serving social-vestedness/normativity-<discretely-implied-functionalism>) and this must effectively be contested. Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification for sublimation but rather about gimmicky-and-flashy threads of mere communication performance’ with many such interlocutors openly admitting-and-manifesting their critical lack of relevant intellectual thematic competence as popularity then supposedly becomes the driving force of thought; the fact though remains (however the seemingly trivialising concern about such media driven pop-intellectualism as rather unimportant in some milieus of more profound intellectual contemplation) that unfortunately in many ways directly or indirectly (as to the social-and-institutional-frameworks-of—referencing/registering/decisioning susceptibility to ‘blurriness in existentialising–decisionality’ and as encouraged by dominance/vested-interest actors) such pop-intellectualism end up being elevated as the summum of intellection in the social while overlooking the requisite depth of sublimating \(104\text{universal-transparency}\langle\text{transparency-of-totalising-entailing,-as-to-entailing-}<\text{amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness}\rangle\)
relative-ontological-completeness \) of critical importance for effective social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating–existentialising–decisionality (and as the ‘mediatic framework of access and communication of sublimating thought’ is rather turned around into ‘a framework that supposedly inherently create sublimating thought by mere access and communication’ especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating \(<preconverging–'motif-and-apriorising/axiomatising/referencing’–imbuing\>–existentialising–enframing/imprintedness\> (as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) as of vague impression-driven/good-naturedness/wishfulness ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’). But then the idea of knowledge driven as of totalising-entailing as so-demonstrable with say the momentous development of quantum physics with the physics totalising-entailing implications of argumentations of sublimating–existentialising–decisionality at critical moments moving from one physicist to the other as of ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ (whether Bohr, Einstein, Dirac, Schrodinger, etc.) without any extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge notion like reputation having any incidence (as in epistemic re-originariness/re-origination projective/reprojective cross-subjection of knowledge-reification\(^\text{87}\) to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^\text{97}\) as herein underlied with notional–self-distantiation-\(<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing\> implied formativeness-\(<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism\> of—meaningfulness-and-teleology in \(^1\)nonpresencing-\(<\text{perspective–ontological-normalcy/postconvergence}\> epistemic-projection, and so similar to a Derridean ‘heterogeneous genesis’ epistemic conception), speaks to a more profound lack of constraining aporeticism overcoming/unovercoming as to institutional convenience that fails to articulate such a
‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ and thus
renders in relative terms the social domain more intellectually impotent in inducing a similar
level of sublimating–existentialising–decisionality as to existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation as is relatively the case in the natural
sciences (and so notwithstanding the relative blurriness of the social which can effectively be
brought to exactifying/precisioning–of-sublimation-as-to-entailing-theoretical,-conceptual-
and-operant-implications as to the requisite self-criticality overcoming as well as emotional-
involvement overcoming rather than assuming a relatively false social and institutional pre-
eminence driven relation to knowledge); with the further implication of such ‘totalising-
entailing pertinence of thought upheld/elevated above anyone person’ being that the
‘knowledge-reification process becomes highly impersonal and complementary in a natural
way’ without the artifice of ‘politically-driven accommodation of ideas not necessarily as of the
pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-
supererogation’. In this regards, it is contended that the argumentation articulated herein are
strictly striving towards aetiologisation/ontological-escalation in reflection of ‘abstract human
intemporal individuative ontological-performane (as to the backdrop of the
notionalisation/notional-conception/amplituding of knowledge in reflection of human
notional–firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-
perspective–ontological-normalcy/postconvergence) while striving for totalising-entailing
pertinence of thought’ and so projecting beyond any implications of
personalising/particularising import but rather turning towards ‘ontological elucidation import
as it then reifyingly-and-empoweringly enables human sublimation as to prospective
operationalising construals’ and so-reflected in the idea that the fundamental stakes of
prospective knowledge-reification is about prospective social-stake-contention-or-confliction
and not prior social-stake-contention-or-confliction (as for instance prospective positivistic
meaningfulness-and-teleology is not developed to go about articulating/relating-to
meaningfulness-and-teleology as to the prior social-stake-contention-or-confliction of non-positivistic
meaningfulness-and-teleology), and so by the mere implications of dimensionality-of-sublimating

\{as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\} conception of the ‘overall possibility of human existentialising—decisionality as to catchmenting-by-rejection’. In this respect, it is important to grasp that knowledge-reification then
desublimatingly becomes an issue of more than just rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with respect to existentialising—decisionality of prospective knowledge-reification\(^7\), and this reality given human notional—firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> is reflected by an inherent human ‘referencing/registering/decisioning of shallow-supererogation\(^7\)—to—profound-supererogation\(^7\) conception of social-stake-contention-or-confliction’ with respect to prospective knowledge-reification\(^8\). In many ways recent history of human thought has shown that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality going beyond just neutral knowledge-reification\(^8\)’ that cannot be ignored as to intellectually decadent practices of scepticism and blurring underlied by cynical reframing of thought at later moments (which had been related to skeptically and in blurriness\(^7\) at previous moments), and so as to shallow-supererogation\(^7\) desublimating–existentialising–decisionality driven by mere institutional-ascendency. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation motive of human sublimation beyond/and-not-subjected-to the <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing–>existentialising—enframing/imprintedness—(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) of any shallow-supererogation\(^7\) social-and-institutional-frameworks-of—referencing/registering/decisioning as to the 8.5 billion humans on planet Earth and as any party of interest of profound-supererogation\(^7\) may find useful or not! In this respect, it is critical to understand what defines humanity as to the ‘firstnatureness and derived seconddnaturedness positive-opportunism\(^9\)’ required for human self-surpassing—existentialism-form-factor,—in-
‘the legislation for human prospective sublimation’ (as to sublimating–existentialising–

sublimating-withdrawal,-eliciting-of-prospective-supererogation77 and the positive-
opportunism76 arising thereof (as of a minimum) for human secondnaturing institutionalisation;
and so as to the fact that the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs,
Rousseaux, Diderots, Einsteins, Teslas, etc. didn’t ask for any prior consent from the rest of the
human species to undertake whatever sublimation they envisioned about humanity making
nonsensical the idea that there is any ‘generalised human deterministically constraining
contemplation of prospective sublimating’. Humanity as such has always been, is and will ever
always be about intemporal individuations imagination-and-capacity-for-prospective-

This critical pure-ontology analysis point out that [meaningfulness-and-teleology] cannot be profoundly construed as being about mere-manipulable formulaicity but rather contrastively as being about ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ (and as to the fact that knowledge-reification ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity~preconverging–de-mentating/structuring/paradigming as the latter is nothing but a circular process that only ends up degrading knowledge into falsehoods as individual supererogatory–shallowness or supererogatory–profoundness seedingly/inceptively lies with the individual and not knowledge, well before sublimating knowledge can be of any relevance thereof as to derived-formulaicity projected reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). In many ways the above elucidation of the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality proned to presencing—absolutising-identitive-constitutedness<preconverging~'motif-and- apriorising/axiomatising/referencing’–imbuing—existentialising—enframing/imprintedness—(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) needs to be critically brought to the consciousness-awareness-teleology of the ‘genuinely aspiring student of society and human-and-social-constructs’ (given a social-domain relatively undermined by ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent

Critically in this regards, human conceptivity/epistemic-reflexivity (as to reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility) can thus de-mentatively/structurally/paradigmatically be construed as of ‘notionalisation/notional-conception/amplituding of knowledge’, wherein existence as to its very panintelligibility⁷—effusing/ecstatic–inlining is the very aloofness/detachment upon which human conceptivity/epistemic-reflexivity can supererogatorily act/react in sublimation or desublimation from whence knowledge as to organic-knowledge can arise so-construed as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⁷⁷. Thus ‘notionalisation/notional-conception/amplituding of knowledge’ underlies inherent existence-exacted-sublimating–as-to-postconverging–de-mentating/structuring/paradigming or existence-exacted-desublimating–as-to-preconverging–de-mentating/structuring/paradigming exactable respectively as from human ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming⁷⁷ or ontological-bad-faith/inauthenticity~preconverging–de-mentating/structuring/paradigming so-undergirded as to human ‘self-reflexive–instigative-eventuating–(as-to-teleological-instigative/incipient–willing/arbitrariness.waywardness/faithdrivenness/supererogating-for-human-intelligibility,—preceding-existence’s-eventuating-sublimating-validation/desublimating-invalidation) of human embodied-consciousness motif-and-apriorising/axiomatising/referencing–(of–

In many ways the very idea of the ‘democratic public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural ascendency over ‘the supposedly democratic platforming and stakeholding in defining the very issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media influence). Critically, in this context such skewed platforming and stakeholding ends up
alienating supposed sovereign electors as to a platforming and stakeholding process that mediatically and politically take a self-contained course (as to dominance/vested-interest defaulting issues that can be debated as to the underpinning–suprasocial-construct <preconverging~’motif-and-apriorising/axiomatising/referencing’–imbuing>_existentialising—enframing/imprintedness_{as-to_ historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} socio-econo-political social-stake-contention-or-confliction) with the consequence that the so-politically-alienated sovereign electors are increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true policy solution) or decreasing participation in the democratic process, in many ways speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual–function/posture as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not). In this respect, the very underpinning–suprasocial-construct <preconverging~’motif-and-apriorising/axiomatising/referencing’–imbuing>_existentialising—enframing/imprintedness_{as-to_ historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} (as to living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ) poses a major challenge as public-sovereignty is existentialisingly—enframed/imprinted to be wary of prospective re-

Insightfully, this points out that the very exercise of making-available/opening-up prospective knowledge as of organic-knowledge is inevitably tied down to the exercise of underlining simultaneously a prospective threshold of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness ) and associated epistemic-decadence (but then the detachment and lesser ‘emotional-involvement’ with regards to nascent-particular/incipient-and-material/technical-subsilations—<blinded-to-their-relative-ontological-completeness — reference-of-thought—devolving> renders such an exercise less problematic than with regards to the imposing/impostoring self-presence/self-constitutedness—<in-perspective–epistemic-abnormalcy/preconvergence> of social-and-institutional-frameworks-of—referencing-registering/decisioning existentialising–decisionality prone to 8°presencing—absolutising-identitive-constitutedness ). Thus the genuine social intellectual–function/posture is ever always about emphasising the ontological-veracity of human knowledge rather constrained to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation for prospective human re-ontologisation/omnipotentiality (however the remoteness to immediacy/punctual human social-stake-contention-or-confliction—presencing—absolutising-identitive-constitutedness—<preconverging—‘motif-and-apriorising/axiomatising/referencing’—imbuing>—existentialising—enframing/imprintedness—(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition)) as this is exactly what makes-available/keeps-open prospective human sublimating–nascence (as a requisite sublimation-over-desublimation function/posture that is most important and cannot be allowed to be undermined by the immediacy-driven/nombrilistic positive-opportunism of presencing—absolutising-identitive-constitutedness—social-vestedness/normativity—<discretely-implied-functionalism>) and so especially in opening-up prospective registry-

What is thus implied herein as most critical about the human and humanity is the capacity for profound-supererogation (as to human limited-mentation-capacity-deepening implication of nonpresencing—perspective—ontological-normalcy/postconvergence) and so ‘more than just a positive-opportunism relation to meaningfulness-and-teleology as of the registry-worldview/dimension station/locus of amplituding/formative—epistemicity—totalising—thrownness-in-existence, -imbued-projective-arbitrariness/waywardness—(as-to-the-human—projective/reprojective—aestheticising-re-motif and—re-apriorising/re-axiomatising/re-referencing-process-of—amplituding/formative—epistemicity—totalising—conceptualisation’) in existential-extrication-as-of-existentia-unthought. Fundamentally, the ‘contrastive inequivalence relation’ implied as of notional—self-distantiation—imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing/distantiation of contemplative existentialising—frame as to transversality—for

Thus in effect notional-self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> actually reflects the reality of human limited-mentation-capacity-deepening (rather than truly of diagonal contrast with distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing>), and so in the sense that existence as of its ontological-normalcy/postconvergence is unbeholding to human limited-mentation-capacity (as to its amplituding/formative–epistemicity-totalising–thrownness-in-existence, imbued-projective-arbitrariness/waywardness{(as-to-the-human–projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing-process-of-'amplituding/formative–epistemicity>totalising–conceptualisation) which beholding ‘wrongly projects a contrastive equivalence relation’ between notional-self-distantiation<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> and distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing>; as rather notional-self-distantiation<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> is a ‘submission-to and making-up-to existence’s ontological-normalcy/postconvergence’ as to when relative-ontological-completeness is-educed–and–avails–and–re-avails (and not a contrastive equivalence ‘submission-to and making-up-to human-subpotency epistemic-abnormalcy/preconvergence’ in relative-ontological-incompleteness as wrongly implied with distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing>, thus speaking rather of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that accompanies existence-

Such a conception of <supererogatory–human-subpotency>–effecting is critically relevant in appraising that ‘technical/profound articulations are not made gratuitously’ (in contrast to a modern-day unnecessary ‘social-and-media reflex of facility/convenience’ shunning technicity/profundity which goes on it is herein argued to be at the ‘infrastructural/root source of the cultivation of public and institutional discursive mediocrity’ as to ‘enculturating a
practice of public interestedness/profundity mediocrity and public awareness/accounting/decisioning mediocrity’ whereas the technicity/profundity of modern-day training and professions rather points to the fact of a public potentially capable to handle more creatively profound/technical public analysis and public debate rather than just ‘parsimonious/frugal ratings-driven defining conception of intellectual analysis prone to desublimating disorientation, misanalysis and irrelevance’) as to the requisite social notional–self-distantiative contemplative technicity/profundity that inherent existence sublimating–nascence warrants to make available appropriately sublimating <supererogatory–human-subpotency>–effecting (whether as to direct knowledge acquisition or appropriate percolation-channelling:<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness). This poor appreciation of technicity/profundity in the public arises as of a poor projection of existence’s sublimating–nascence to wrongly imply that the individual ‘is perfect as they are’ with supposed ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service’, and critically wrongly implying that knowledge as to organic-knowledge can be acquired without the requisite ‘epistemic-growth/disquiet/discomfort-{induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as-historiality-(science/authenticity/nonextrication)-beyond-mere-formulaicity-as-historicity-tracing-(science-ideology/fashionability/distraction}) as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification’/contemplative-distension’ of the individual as to their ‘appropriate notional–self-distantiation-{imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing}>’, while at the same time ‘a pseudo-contrition as to awareness of such relatively shallow technicity/profundity cultivated in such social-and-media spaces’ doesn’t deter such spaces (consciously or unconsciously) from surreptitiously acting as of profound technicity/profundity
at critical moments of public discourses with the consequence that ‘there is an opaque connection/continuity between public, media and institutional discursivity with social and institutional outcomes as if these are discrete and unrelated activities’ (whereas the supposed relevance of discursivity has to do with how it allows for comprehensible public ‘epistemic-growth/disquiet/discomfort-{induced-sublimation,-as-from-existence’s—effusing/ecstatic– inlining-as-historiality-(science/authenticity/nonextrication)-beyond-mere-formulaicity-as- historicity-tracing-(science-ideology/fashionability/distraction)}) as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’—by-reification”/contemplative-distension” in effectively appreciating social and institutional outcomes processes rather than individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction). The concrete and natural human psychological disposition with respect to knowledge as to organic-knowledge is in appreciating that for critical thinking even for the novice it is imperative to truly engage with the substance of the matter comprehensively-and-insightfully notwithstanding the level of exactifying comprehension (again whether as to direct knowledge acquisition or appropriate percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness). The abstraction-of-thought/principled-thought articulated with subject-matters content is not done gratuitously as it is often popularly advanced especially with ‘ontologically-flawed frameworks of blurriness’ and ratings/sales immediate interests’ susceptible to normalised/stereotyped/selfhelping/feel-good construal of knowledge. Subject-matter abstraction-of-thought/principled-thought content are not so-produced gratuitously in the sense that this effectively speaks to: the requisite sophistication/complexity for ‘full incipient supererogating breadth of human intelligibility transmutation’ (as ‘<supererogatory–human-subpotency>–effecting imbued epistemic-totalising” preformulating/preframing/premeaningfulness of notional~originariness-parrhesia,--

Critically when push comes to shove, such blatantly flawed conception of true knowledge but socially accommodated as to ‘a social-functioning-and-accordance—as-of–social-stake-contention-or-confliction conception associated with immediate public ratings and/or sales/merchandising’ (over the ‘epistemic-growth/disquiet/discomfort-induced-sublimation,-as-from-existence’s—effusing/ecstatic—inlining-as-historiality-(science/authenticity/nonextrication)-beyond-mere-formulaicity-as-historicity-tracing-(science-ideology/fashionability/distraction}) as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness -by-reification\(^{77}\)/contemplative-distension\(^{77}\)” implications of ‘constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{77}\) imbuing human ontological-commitment \(^{66}\)<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging-de-mentating/structuring/paradigming ~as-being-as-of-existential-reality>\(^{77}\)’) are found to be wanting in contrast with the true nature and existential sublimating/desublimating implications of professional/technical/scientific knowledge inherent subject-matter content as abstraction-of-thought/principled-thought (notwithstanding supposedly professional/technical/scientific auxiliary/substitutive practices of

indirectly by public ratings and/or sales/merchandising with little consideration for
veridical/optimal existential sublimating/desublimating implications, even as it is herein argued
professional/technical/scientific abstraction-of-thought/principled-thought content mustn’t
necessarily generate less public interest but should primarily be motivated with inherent
knowledge-reification\[87\] sublimating–existentialising–decisionality implications). It is herein
contended however counterintuitive that the idea of understanding 100% of knowledge content
at one go (as commonly assumed and cultivated with such content driven by public ratings
and/or sales/merchandising as to excessive simplification, distortion, superficiality,
ephemerality and attention-grabbing undermining organic knowledge) is very much detrimental
for a profoundly engaging and sublimating practice of public exposition to knowledge as so-
inducing the degradation/banalisation of content in order to supposedly capture the most
number of people at one go, and so it is herein argued very much contrary to the natural human
potential for profound knowledge assimilation which is rather of
hermeneutic/reprojecting/supererogating/zeroing potential. A lot of true learning, understanding
and engagement (beyond attention-grabbing and simplification convenience) comes and
expands hermeneutically/reprojectively/supererogatingly/zeroingly as to re-exposition to same
and similar content for eliciting an active thought/contemplative engagement that is sufficiently
challenging to people's true intellectual growth possibility as to creatively eliciting and
developing true contemplative interest and not just passivity (however the habituation of a
plainness that turns out to seem to be ‘the popular choice’ to which in reality all individuals can
succumb to but which is as of their self-reflection actually subpotentiating with regards to the

But rather the sovereign–function/posture ontologising-aptness in many ways is in a protracted continuum with the genuine social intellectual–function/posture, so-implied as to ‘a totalitative construal of the genuine social intellectual–function/posture parallel intellectual contestation of aptitudinal-substantive-pertinence educing layers of deferential-formalisation-transference as of percolation-channelling-{in-deferential-formalisation-transference} enabling the sovereign–function/posture ontologising-aptness (as so-undergirded by ‘the overall underlying social-construct ontological-commitment -<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> so-reflected as of social notional~self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>). Likewise, the ‘genuine social intellectual–function/posture involves striving for a protracted continuum with the sovereign–function/posture for its ontologising-aptness’ but not in wrongly validating the existentialising–frame of discursivity as to a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service lacking in the underlying conception of epistemic-growth/disquiet/discomfort–(induced-sublimation–as-from-existence’s—effusing/ecstatic–inlining-as-historiality–(science/authenticity/nonextrication)-beyond-mere-formulaicity-as-historicity-tracing–(science-ideology/fashionability/distraction)) as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness–by-reification /contemplative-distension’ (that ultimately undermines technicity/profundity which is inescapable for achieving sublimating–nascence whether as more readily appreciated with nascent-particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-ontological-completeness — reference-of-thought– devolving> existentialising–decisionality or with the relative blurriness of social-and-institutional-frameworks–referencing/registering/decisioning existentialising–decisionality); and so to fundamentally bring to the consciousness-awareness-teleology that ‘sovereignty doesn’t equate with technicity/profundity’ (even as in reality it is herein contended this disconnect in the appraisal of the veridical relationship between sovereignty and technicity/profundity is mostly enabled with social-and-media induced numbing-traction—of-desublimating–meaningfulness-and-teleology {as-perspective-lost-of

This eventually means that the genuine social intellectual—function/posture (adduced knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications) should be able to saliently articulate/impress-upon the ‘overall social intellection-aptitude body’ (within the framework of a natural and truly original, autonomous and non-contrived intellectual culture) ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of percolation-channelling—\(<\text{in-deferential-formalisation-transference}>\) (rather than the manifested mediatic silliness wherein ‘re-processive technicity/profundity’ is widely scorned upon ‘in favour of vague normalised/stereotyped/selfhelping/feel-good narratives’ as to
mere entitlement-and-access and ratings-drivenness eliciting pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness) in a ‘framework of preconvergingly—de-mentated/structured/paradigmed institutional and media contrivance’ and so-inducing ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’, and as so-cynically-and-surreptitiously cajoled by dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity—<discretely-implied-functionalism> rendering the ‘overall social intellection-aptitude body’ relatively irrelevant towards upholding the sovereign—function/posture). Thus, the sovereign—function/posture is effectively disempowered as to its relevance to public outcomes of social-stake-contention-or-confliction when the ‘overall social intellection-aptitude body’ assessment capacity is fundamentally undermined as to monopolising/quasi-monopolising/networking existentialising—frame of public and institutional discursivity as of mere entitlement-and-access and ratings-drivenness bent on side-lining salient and relevant narratives as to technicity/profundity (such that in effect through the decades such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity—<discretely-implied-functionalism> has paradoxically effectively-and-preemptively succeeded in ‘qualifying in the public psyche’ the ‘specific overall social intellection-aptitude body that is the public university as to its underlying social-construct ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> so-reflected as of social notional—self-distantiation—<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> with regards to socio-econo-political social-stake-contention-or-confliction aporeticism overcoming/unovercoming’ in falsehoods terms of
‘contrastive equivalence’ implied distinctive-alignment-to-\(^3\) reference-of-thought-<of-apriorising/axiomatising/referencing>\(^{30}\) and so-undermining its ‘neutral sovereign–function/posture upholding’, and with a failed public consciousness about the sovereign importance of the public university practically subjecting them to increasing private funding deeply eroding-and/or-corrupting their capacity for ‘neutral sovereign–function/posture upholding’ and most critically-so not necessarily in quashing ideas but inducing social apprehension and contestive inactivity). In many ways, the ‘overall social intelleculation-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) in recent decades with regards to socio-econo-political subontologisation/ideology-over-ontology has often failed to appreciate the implications of the fact that given human \(^{45}\) <amplituding/formative–epistemicity\>totalising–thrownness-in-existence\(^4\), ‘human \(^{58}\) meaningfulness-and-teleology\(^{100}\) is effectively of epistemic-totalising\(^{12}\) consequence reflecting epistemic-totalising\(^{12}\) growth/conflatedness /postconverging as to existentialising/contextualising/textualising-contiguity ‘-in-elucidation-or-reification’ knowledge/interpretative veracity implications of concurrent limited-mentation-capacity-deepening\(^{53}\) (thus implying human \(^{56}\) meaningfulness-and-teleology\(^{100}\) profoundness/ontologising-depth is of notional~nondisjointedness/contiguity/coherence as of ‘<amplituding/formative>disposedness-(as-to-orientation/value-construct/valuation–and- derived-parameterising) and <amplituding/formative>entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability)’ underlined as to its given prospective ‘foregrounding—entailment-(postconverging–narrowing-down–sublimation-as-to- ‘existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ‘-in- reflecting-‘immanent-ontological-contiguity ‘;–as-operative-notional–deprocrypticism)); with the implication here that ‘institutional process/processiveness as of mere-formulaicity-<as-to-
mere-formulaic—methodologising/mutualising/organising/institutionalising> (while clearly inducing disontologising socio-econo-political outcomes)’ cannot be construed as the all-be-all of human institutions but rather ‘process/processiveness has to be associated with sublimating–existentialising–decisionality institutional socio-econo-political outcomes and purpose reappraisal reflected with the epistemic-totalising\textsuperscript{32}–resubjecting or totalising-entailing–reconstrual of existentialising/contextualising/textualising-contiguity\textsuperscript{39}–in-elucidation-or-reification’ as to profound supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness ontologising/re-ontologising conception of social-stake-contention-or-confliction to avoid their pedantising skewing into numbing-fraction—of-desublimating—meaningfulness-and-teleology\textsuperscript{10}–\langle as-perspective-lost-of–supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbued-postconverging/dialectical-thinking–of–notional–deprocrypticism–(in-dimensionality-of-sublimating — <amplituding/formative–epistemicity>growth-or-conflatedness /scalarisation-as-to-rescalarisation-as–re-ontologisation)\rangle. Thus the veracity/efficiency of social intellection is rather in terms of ‘the consequent sovereign–function/posture contemplative capacity/deferential-capacity in epistemic-totalising\textsuperscript{32} growth/conflatedness /postconverging as to existentialising/contextualising/textualising-contiguity\textsuperscript{39}–in-elucidation-or-reification\textsuperscript{37} knowledge/interpretative veracity implications of concurrent limited-mentation-capacity-deepening ’ allowing for appropriate coherence between concrete–social-reality–<as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social-reality–<as-to-manifest-sublimation/desublimation> with respect to public outcomes of social-stake-contention-or-confliction’ and so rather than the naive counterintuition of mere ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete–social-reality–<as-to-manifest–
sublimation/desublimation> and overall public perception of concrete–social-reality—<as-to-manifest-sublimation/desublimation>—has instigatively drive public debates rather than ‘the naivety that the balancing of human-subpotencies as of vague process/processive bothsidesism mental-reflex in apriorising/axiomatising/referencing—of—existentialising/contextualising/textualising—contiguity—constitutedness/preconvergence will then reflect sublimating social ontological-veracity’ so-underlined by issues of relatively little relevance to general social-stake-contention-or-confliction with the latter just making room for desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation
(blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—totalising—in-relative-ontological-completeness—induced distractive-alignment-to—reference-of-thought—apriorising/axiomatising/referencing—v and wherein issues of minor or irrelevant social-stake-contention-or-confliction are used to disorientate and estrange the sovereign–function/posture while trivialising-and-enframing issues of central public interests). The consequence being that a ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete–social-reality—<as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social-reality—<as-to-manifest-sublimation/desublimation>—is critically inadequate for ‘neutral sovereign–function/posture upholding’ as so particularly elicited with distractive-alignment-to—reference-of-thought—apriorising/axiomatising/referencing— issues. The fundamental point here is that existence—as-the-absolute—a-priori-of-conceptualisation—existence—as-sublimating-withdrawal—eliciting-of-prospective—
supererogation makes nonsense of any such vague notion as ‘neutrality by the balancing of human-subpotencies’ so-reflective of ‘vested interests driven conception of balance as to discrete interests’ (rather than common/mutualising interest conception of balance rather requiring the cultivation of a veridical social exercise of notional–self-distantiation–imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> as to implied social formativeness as to intersolipsism-of–preformulating/preframing/premeaningfulness-imbued-meditativity-and-deferentialism> of–meaningfulness-and-teleology reflective of ‘nonpresencing–perspective–ontological-normalcy/postconvergence> epistemic-projection implications), with such ‘vested interests driven conception of balance as to discrete interests’ rather an exercise consciously or unconsciously of manifest ontological-bad-faith/inauthenticity in existential-extrication-as-of-existential-unthought. Thus ontological-veracity (as to the pertinence of ‘overall social intellection-aptitude body’ as to its capacity for ‘neutral sovereign–function/posture upholding’) rather arises as of a ‘human knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications detour to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression’ in pointing out the prospect of sublimating/desublimating–existentialising–decisionality socio-econo-political outcomes and implications rather than the ‘passive deification of institutional process/processiveness as of mere-formulaicity–methodologising/mutualising/organising/institutionalising>’ (underlying why such a deficient social intellection posture will tend to be one step behind cumulating desublimating socio-econo-political outcomes as if it is most critically about reflecting upon such cumulating desublimating–existentialising–decisionality socio-econo-political outcomes rather than truly a posture of anticipative analysis and preemption). This mere process/processiveness induced
deficiency is often critically reflected in a ‘barest and passive/poorly-reflexive conception of sovereignty in the democratic process’ that is poorly cognisant of the appropriate overall social enlightenment/knowledge imbuing oversight of the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) that is ‘much more than about leaving the room for competing/contending parties narrations/orientations/advocacies for socio-econo-political existentialising–decisionality but appraising-and-critiquing the effective coherence of such narrations/orientations/advocacies as to socio-econo-political outcomes expectations of the sovereign–function/posture’; so-underlying the more profound-supererogation notion of sovereignty associated with ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of veridical social knowledge percolation-channelling-<in-deferential-formalisation-transference>. The consequence of this mere process/processiveness induced deficiency is reflected in an entrenched dichotomy of the democratic process between the reality of recurrent narratives of disontologising socio-econo-political outcomes on the one hand and on the other hand a publicly cultivated <preconverging–‘motif-and-

Critically in this regards, human civilisation is only possible as to the genuine social intellectual–function/posture rather eliciting and fulfilling human ontological-commitment and so in a cogent percolation-channelling existentialising–frame allowing for human and humanity’s ‘epistemic-growth/disquiet/discomfort-(induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as-historiality-(science/authenticity/nonextrication)-beyond-mere-formulaicity-as-historicity-tracing-(science-ideology/fashionability/distraction)) as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension’ (and not flawed normalised/stereotyped/selfhelping/feel-good conception of knowledge). ‘such a deprocrypticism imaginary is claiming to be the very rule of human civilisation’ as to
the fact that ‘there is no recurrent-utter-uninstitutionalisation basis for advancing prospective base-institutionalisation’, and ‘no base-institutionalisation basis for advancing prospective universalisation’, ‘no universalisation basis for advancing prospective positivism/rational-empiricism’ and prospectively ‘no positivism–procrypticism basis for advancing prospective deprocrypticism/nondisjointing’ but for ‘the inherent nonpresencing—ontological-normalcy/postconvergence> nature of existence’ instantiated hermeneutically/reprojectively/supererogatingly/zeroingly as to prospective human limited-mentation-capacity-deepening (in resolving the prior ‘dullness’ of the human mind); rendering nonsensical, nombrilistic and self-important pretenses/claims that are rather of manifest in-effect absolution as to their given presencing—absolutising-identitive-constitutedness as so-fraudulently implied by our positivism–procrypticism anti-relativism stance (and eliciting herein the counterclaim that a rational-and-coherent defense of such a posture warrants a further claim recommending that humanity should rather go back to the state of ‘recurrent-utter-uninstitutionalisation as to its given manifest in-effect absolution presencing—absolutising-identitive-constitutedness’ as a more coherent anti-relativism stance as so-explicitly the idea that human progress doesn’t/shouldn’t occur, even as paradoxically many such anti-relativism proponents seem to project progressive views without truly grasping the contradictory implications of progressivism and anti-relativism explaining their inclination to ‘disjointing totalisingly-disentailing—discretion/whim-of-thought’ whereas ‘true knowledge has to carry its sublimation within itself as to its notional-nondisjointing totalising-entailing’ for it to be socially potent and effective). We can appreciate in this regards that the ‘sublimating–existential-decisionality potency of a scientist thought is not in-and-about themselves’ as so-manifested in a ‘normalised/stereotyped/selfhelping/feel-good conception of knowledge’ but rather ‘their inherent coherent knowledge formulation technicity/profundity and elucidating elaboration’ which then has to avoid explicitied or implicitied contradictions with
