empirical and rational \textsuperscript{84} reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{10}, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation of the non-positivism/medievalism registry-worldview/dimension is actually, in the bigger scheme of things, what is at the basis of not only the ‘one locale accusation of witchcraft, specifically so with this individual but its general integration as a socially viable and entertained notion in this locale’. But more critically, from its intemporal/ontological/social/species/universal/transcendental\textsuperscript{55} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming to be intemporally-preservational, more than the notion of just attaining only to the ‘one-locale’ accusation of witchcraft, for the intemporal mindset/reference-of-thought in organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology\textsuperscript{100}) the problem is now the insight about the intellectually and morally wrong in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of accusation of witchcraft and the implications across all societies of the human species qualified as non-positivism/medievalism, with the bigger ontological implications of this specific accusation rather being how is this enlightening de-mentatively/structurally/paradigmatically about the endemisation and enculturation of vices-and-impediments\textsuperscript{106} associated with superstition in the said registry-worldview/dimension. That is, the problem is now about the aetiologisation/ontological-escalation that can be made to address such lack of positivistic empirical and rational notions in all possible human societies qualified as non-positivism/medievalism. In other words, the graver ‘\textsuperscript{24} de-mentation≠ supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics’ problem’ for the organic-comprehension-thinking ...
(organicism/'intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology/'intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting pedestal is ‘why is society non-positivism/medievalism, and it is not in ‘mentation equivalence’ with a subknowledging-impulse/compulsive-dementing mindset/reference-of-thought pedestal accusing it of witchcraft and the specific locale where such an accusation is made in threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation--as-to-'attendant-intradimensional’-prospectively-disontologising-preconverging/dementing–apriorising-psychologism/temporal prioritisation pedestal that entertains notions of witchcraft (as the intemporal mindset/reference-of-thought is thus anecdotally ‘boxing far below its weight’). Rather it is about articulating a comprehensive de-mentative/structural/paradigmatic dialecticism reasoning-through/utterion (not reasoning-with incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation with temporal-dispositions mindsets) between non-positivism/medievalism and positivism for prospective ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring away from the vices-and-impediments of a non-positivism/medievalism superstitious mental-disposition towards a prospective positivistic mental-disposition which is the virtue that is the ‘de-mentative/structural/paradigmatic resolution’ to the superseded registry-worldview/dimension not only superstitious specific vices-and-impediments but equally critical the overall de-mentative/structural/paradigmatic <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity such superstition to the creative emancipation of human meaningfulness and action. With this insight the ontological ‘terms of reasoning’ of the

In other words, the temporal-dispositions are not logically-contending but ontologically or dialectically preconverging-or-dementing–apriorising-psychologism as they are rather the subject of contention and aetiologisation/ontological-escalation from the intemporal-disposition given that these are dialectically-or-contendingly-out-of-phase and amplituding-formative-epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag.

Circumventive/distractive-temporal-prioritisation-of reference-of-thought involves various shades of incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation temporal-accommodation with institutionalisation being rather a secondnaturing to a given set of \textsuperscript{1}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as per percolation-channelling-<in-deferential-formalisation-transference> and a positive-opportunism—of-social-functioning-and-accordance institutionalisation constraining. That is, in the bigger scheme when it comes to deciding between ontological-
veridicality/ontological-contiguity67 of reference-of-thought (as from ontological-
normalcy/postconvergence epistemic-or-notional~projective-perspective) and the human
temporal psyche, what gives-in is the human temporal psyche (and so for the betterment of the
species); that is, from an animal that was emanantly/becomingly/solipsistically successively of a mental-devising-representation perspective preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism-\textlangle stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase\textrangle at recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and from a prospective articulation, \textsuperscript{8} procrypticism—or-disjointedness-as-of\textsuperscript{19} reference-of-thought, and so respectively, for their successive institutionalisations mental-devising-representation perspectives as postconverging-or-dialectical-thinking\textsuperscript{20}—apriorising-psychologism-\textlangle stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase\textrangle of base-institutionalisation, \textsuperscript{10} universalisation, positivism and prospectively deprocrypticism. In other words, across all times the ‘limits of thought’ is not ‘the averageness/banality/temporalisation of thought’ but rather ‘the disposition to intemporalise and ontologise human thought’, and so whether from a sense of intrinsic-reality one mortal is rightfully saying that the world is round and by expediency a majority of mortals are saying it is flat. That is the singular construct that man cannot lose across all generations to enable the perpetual existential regeneration of civilisation beyond just being a secondnatured construct as mere-institutionalised-being-and-craft (which can often actually turn out to be alien to the intemporal-disposition apriorising–registry, that we can all potentially cultivate, that created, creates, and needs to keep creating the conditions for institutionalisation perpetuation)! It should be noted that the establishment of the reality of an apriorising/axiomatising/referencing–registry’s, or in the bigger picture, registry-worldview’s/dimension’s \textsuperscript{84}reference-of-thought, dialectical-out-of-phasing at an uninstitutionalised-threshold\textsuperscript{103} speaks of that apriorising–registry’s or registry-worldview’s/dimension’s \textsuperscript{84}reference-of-thought \textsuperscript{14} de-mentation–\textlangle supererogatory–ontological–de-mentation-or-dialectical–de-mentionation–stranding-or-attributive-dialectics\textrangle preconverging-or-dementing\textsuperscript{10}—apriorising-psychologism-\textlangle stranded-as-rightfully-oblongated/decandored-and-

De-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) is effectively the mental-devising-representation of the dialectical-primitivities/dialectical-out-of-phasing registry-worldviews/dimensions of recurrent-utter-uninstitutionalisation, nonuniversalisation, non-positivism/medievalism and prospectively procrypticism (preconverging-or-dementing—apriorising-psychologism of positivistic meaningfulness), as from successive veridical reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing-reference (ontological-veridicality/ontological-contiguity) as base-institutionalisation, universalisation, positivism and notional-deprocrypticism respectively which are mentally postconverging-or-dialectical-thinking—apriorising-psychologism—stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase. De-mentation (supererogatory—ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) as such redefines psychology as a postdicatory science (tying the mental-devising-representation process to the abstract and infallible ontological-normalcy/postconvergence ontological-veridicality referencing/correction-tool), that is memetically/meaningfully not limited to-and-within one dimension-or-registry-worldview/intradimensionally but by reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, is transdimensional/transcendental in depth-of-meaningfulness as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation).
As such is construed at the individuation-level as of the circularity/recurrence/repetition/ repeatability in delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_attendant_ontological-contiguity -educated- existentialising/contextualising/textualising-contiguity -reification_or_intrinsic-reality- ontological-coherence_or_superseding–oneness-of-ontology. This involves maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation as enabled by de-mentation—supererogatory-ontological-de-mentation-or-dialectical-de- mentation—stranding-or-attributive-dialectics in disambiguating the intemporal-disposition as ontological and temporal-dispositions at the individuation-level; while at the registry-worldview/dimension-level it reflects the determination of the relative registry-worldviews/dimensions as of relative-ontological-incompleteness -of- reference-of-thought and relative-ontological-completeness -of- reference-of-thought. The implication is that soundness-or-ontological-good-faith/authenticity -of- reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-normalcy/postconvergence). There is no doubt that if by some secret manner ‘some individuals from recurrent-utter-uninstitutionalisation registry-worldview/dimension’ were to appear and be able to live in our present positivistic social-setup (without us knowing beforehand that they are coming from the past to avoid inducing a confounding effect in our analysis), and intent on fully living based on the categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the recurrent-utter-uninstitutionalisation setup, our current psychology science most probably will treat them as pathological (preconverging-or-dementing—apriorising-psychologism). At which point, implying the
conceptualisation of such an ontological-mental-pathology or de-mentation (in contrast to a physiological mental pathology) is much more a question of ‘ontology valour’ (ontology valour being defined as a registry-worldview’s/dimension’s ontology depth in relation to its conventioning limitations with respect to pure-intemporal-ontology as to ontological-normalcy/postconvergence). But then, crazy as it may seem, this extends ontological-mental-pathology or de-mentation conceptualisation, on those very same terms of ontology valour, not only retrospectively but equally prospectively, as from a prospective transcendence-and-sublimity/sublimation/superrerogatory—de-mentativity (with a corresponding insight about how we may be that preconverging-or-dementing—anteriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> from such a prospective transcendence-and-sublimity/sublimation/superrerogatory—de-mentativity’s reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (of course, that is, when occluding our illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage) herein construed as the prospective protensive-consciousness deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought registry-worldview/dimension. In the bigger picture, de-mentation—superrerogatory—ontological—de-mentation—or—dialectical—de-mentation—stranding—or—attributive—dialectics effectively will seem to place human {cumulated/recomposured}-consciousness-awareness-teleology in the backseat with ontology-in-its-inherent-dialectical-abstraction taking the frontseat in the articulation of intrinsic reality and correspondingly human mental-devising-representation. Actually, registry-worldviews/dimensions are rather prospectively amplituding/formative wooden-language—imbued—temporal—mere—form/virtualities/dereification/akrasiac-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—
teleology) of their own specific evolving successive existentialisms (with their full-depths-of-existential-implications specific evolving preconverging-de-mentating/structuring/paradigming), and with specific evolving percolation-channelling≺inderferential-formalisation-transference≻ for prospective ontologising and ontologising-transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Fundamentally, without the possibility of de-mentativity-of-the-human-psyche-for-prospective-institutionalisation involving de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics), no registry-worldview/dimension will be transcendable (hence de-mentable/as-to-a-threshold-of-lack-of-thinking) for prospective institutionalisation. As it is from de-mentation (literally ‘de-mentation’) that an unshackling/recomposuring/reordering/new-mentation of prospective intemporal-preservation-entropy-or-contiguity—or–ontological-preservation reference-of-thought–categorical-imperatives/axioms/registry-teleology is possible. This is because de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) as such allows for a ‘human mentation capacity renewal’ by transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (as it is by cumulation/reordering/recomposuring the prior institutionalisation mentation-capacity for a contiguous upholding of intemporal-preservation-entropy-or-contiguity—or–ontological-preservation that transcendence-and-sublimity/sublimation/supererogatory-de-mentativity occur) of the ‘veridical reference-of-thought of meaningfulness’ since it dements the mental-devising-representation of the old/retrospective/superseded/transcended registry-worldview/dimension ‘as not postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity –of– reference-of-thought but preconverging-or-dementing–apriorising-psychologism and dialectically-or-contendingly-out-of-phase at its uninstitutionalised-threshold and references the mental-devising-
representation of the new/prospective/superseding/transcending registry-worldview/dimension as ‘effectively postconverging-or-dialectical-thinking’–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity -of- reference-of-thought as a new-and-greater-mentation-capacity and dialectically-or-contendingly-in-phase; on the grounds that the veridicality of the reference-of-thought is what upholds ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. For instance, at its uninstitutionalised-threshold requiring a prospective positivistic registry-worldview/dimension, the non-positivism/medievalism registry-worldview/dimension which is rather superstitious/alchemic/aristocratic is rather ontologically-preconverging-or-dementing –apriorising-psychologism/dialectically-preconverging-or-dementing –apriorising-psychologism in a de-mentation{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} wherein its mental-devising-representation is preconverging-or-dementing –apriorising-psychologism as not thinking/unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought and dialectically-or-contendingly-out-of-phase while the positivistic registry-worldview/dimension mental-devising-representation is postconverging-or-dialectical-thinking –apriorising-psychologism/soundness-or-ontological-good-faith/authenticity -of- reference-of-thought and dialectically-or-contendingly-in-phase, thus ‘granting the latter reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-first-reference)’ over the former which is ‘no longer reference-of-thought’ in the sense that ‘we can’t think in medieval terms and be considered soundness-or-ontological-good-faith/authenticity -of- reference-of-thought today but rather ontologically-preconverging-or-dementing –apriorising-psychologism’. This dialectical conceptualisation equally applies regarding procrypticism and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldviews/dimensions. In fact, a deconstruction insight with regards to all the interchangeable deconstructing terms in reference to the notion of ‘failing/not-upholding-as-of-apriorising/axiomatising/referencing’ intradimensional reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation’ (i.e. de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics), perversion-of- reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or-existential—defect, unsoundness-or-ontological-bad-faith/inauthenticity—reference-of-thought, mental-perversion, subknowledging, mimicking; and-their-corresponding <amplituding/formative—epistemicity> totalising—self-referencing-syncretising) indicates that de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics is ultimately the ‘ideal reference term’ for the simple reason that unlike the other terms it ‘beats’ the ‘intuition for intradimensional/non-transcendental/non-transdimensional reasoning’ and succeeds to convey, overcoming the counter-intuition, the requisite transdimensional/transcendental reasoning that achieves ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation); as this counter-intuition for transdimensional reasoning (which is not easily superseded and not even by this author articulating the notion but for this abstraction insight) is basically due to the subconscious-strength of the ‘intradimensional-subknowledging-normalcy’ (epistemic-totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) reference of personhood-and-socialhood-formation existentialism/full-depth-of-existential-
implications such that the other notions will tend-to-get-lost-down-the-line by unconsciously returning to and/or admitting to the wrong intradimensional reflex-conceptualisations, at one point or the other, and so in lieu of and undermining the ontological-veridicality of the effectively veridical transcendental reality. de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) ‘beats’ this counter-intuition by simply and immediately bringing to the mind an ‘overarching conceptualisation’ of a de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of superseding/transcending registry/registry-worldview-or-dimension (as straight/candored-and-dialectically-or-contendingly-in-phase) and a superseded/transcended registry/registry-worldview-or-dimension (as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); around which all other dynamic constructions fall in place (whether organic-comprehension-thinking or threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>, circumventive/distractive-temporal-prioritisation-of- reference-of-thought, subknowledging-driver-impulse, etc.). The other deconstructing terms while having specific analytical bearings do not carry this all-encompassing quality that liberates from ‘intradimensional-subknowledging’-normalcy’ (epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) as de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) does as it further induces ‘transdimensional or memetic thinking’ by its implied de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) in meeting up with ‘ontological-normalcy/postconvergence’ (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). For instance, while the term
registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^3\)-defect-<as-Being-or-ontological-or-existential–defect>\(^3\), brings to the mind a poor ontological disposition like the other BODMAS characters disposition to systematically operate additionality overlooking A’s condition, but it is a sense of \(^{14}\) de-mentation\(^\{\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\}\) that carries the intuition of an uninstitutionalised-threshold\(^3\), and construes a superseding/transcending registry/registry-worldview-or-dimension and a superseded/transcended registry/registry-worldview-or-dimension, and all the implications thereof. Now analysing the registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^3\)-defect-<as-Being-or-ontological-or-existential–defect>\(^3\)’ term thereafter, we grasp that it is the ‘amplituding/formative–epistemicity\(^\{\text{totalising–self-referencing-syncretising}\}\) in ‘notional-discontiguity/epistemic-discontiguity’ \(<\text{shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema}\>\) of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of the perversion-of-’reference-of-thought’<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^\geq\) as to preconverging-or-dementing\(^9\)–apriorising-psychologism’ that makes it registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^3\)-defect-<as-Being-or-ontological-or-existential–defect>\(^3\) (and not about defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\) and this carries the implications of a registry-worldview/dimension defining defect (in a dialectics of prior/transcended/superseded and prospective/transcending/superseding\(^\text{x4}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^\text{x10}\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Specifically, \(^{14}\) de-mentation\(^\{\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-}\)<\text{amplituding/formative–epistemicity\(^\{\text{totalising–self-referencing-syncretising}\}\) in ‘notional-discontiguity/epistemic-discontiguity’ \(<\text{shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema}\>\) of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of the perversion-of-’reference-of-thought’<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^\geq\) as to preconverging-or-dementing\(^9\)–apriorising-psychologism’ that makes it registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^3\)-defect-<as-Being-or-ontological-or-existential–defect>\(^3\) (and not about defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\) and this carries the implications of a registry-worldview/dimension defining defect (in a dialectics of prior/transcended/superseded and prospective/transcending/superseding\(^\text{x4}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^\text{x10}\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation).

A similar articulation can be made with regards to each of the other deconstructing terms where de-mentation⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics⟩ provides the better overarching conceptualisation from an ‘intemporal-prioritisation-of–reference-of-thought’–as-conflatedness-or-ontological-reprojecting reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference). circumventive/distractive-temporal-prioritisation-of-reference-of-thought as defining the priority of life choices or existential living as priorly unaccountable to the possibility for the furtherance of intemporal-longness whether by temporal circumventing or distraction of institutionalisation/intemporalisation of categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation. Central to intemporal-preservation-entropy-or-contiguity—or-ontological-preservation is an ontological-normalcy/postconvergence that doesn’t recognise any uninstitutionalised-threshold to the projected wooden-language (imbued—temporal—mere-form/virtualities/dereification/akrasiatic—drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology) considered circumventive/distractive-temporal-prioritisation-of-reference-of-thought over inherent ‘intemporal-prioritisation-of-reference-of-thought’ as conflatedness-or-ontological-reprojecting of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation; at which point of uninstitutionalised-threshold, de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics is implied (in organic-comprehension-thinking over mechanical comprehension or as a de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) for a renewed/prospective mentation for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation in ‘intemporal-prioritisation-of-reference-of-thought’ as conflatedness—or-ontological-reprojecting that ‘supersedes deterministically and operantly, without any discretion allowed’, circumventive/distractive-temporal-prioritisation-of-reference-of-thought. That is de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics is effectively the notion that, in recognition of the unchanging, preceding and inherent nature of intrinsic-reality
with respect to the human psyche (and its mental-devising-representation of intrinsic reality) which is what ‘gives-in’/collapses ontologically/as-an-ontological-reference; enables, for the articulation of new mentations as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, the ‘giving-in’/collapsing of the mental-devising-representation of successive institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflect-‘epistemicity-relativism-determinism’) mindssets, notwithstanding the fact that the de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) (of their reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is unintelligible/existentially-suprastructural to these superseded/transcended registry-worldviews/dimensions mindsets due to their <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage disposition. Supposed we were to make a profound analysis of our contiguous human mental-devising-representation/consciousness-awareness-teleology (in-dialectical/recomposuring-moments) from the appearance of human beings on earth, the effective linkage as new-mentations between those successive recomposuring moments (whether recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism-or-medievalism, positivism–procrysticism and prospectively perpetuation-of-deprocrysticism) is as de-mentation (supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) in de-mentation (supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics); and this thus predicates or rather postdicates as well our own registry-worldview/dimension de-mentation (supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics) over and as denaturing^5^ positivistic meaningfulness ^3^ reference-of-thought—^5^ categorical-imperatives/axioms/registry-teleology^10^—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (procripticism) and implying a prospective need for deprocrypticism. Postdication, when alluding to an ^1^ de-mentation^8^ (supererogatory—ontological-de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) defining psychological science, will effectively hold that the conceptualisation of the social is very much a contiguous ontological disambiguation of a preconverging-or-dementing^19^—apriorising-psychologism social of personhoods-and-socialhood-formation in existentialism/full-depth-of-existential-implications of notional—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence>, from a prospective registry-worldview’s/dimension’s ^8^ reference-of-thought in ontological-normalcy/postconvergence. Postdication means reasoning from a basis of ontological-normalcy/postconvergence wherein the prior/transcended/superseded registry-worldview/dimension is no longer referenced/registered/decisioned (as ^8^ reference-of-thought) but ‘dialectically preconverging-or-dementing^19^—apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity^6^—of—reference-of-thought’ while the prospective/transcending/superseding registry-worldview/dimension is referenced/registered/decisioned (as ^8^ reference-of-thought) as ‘postconverging-or-dialectical-thinking—apriorising-psychologism/soundness-or-ontological-good-faith/authenticity^69^—of—reference-of-thought’ in construing meaningfulness. The grander issue that always arises is in existentialism terms, whether with regards to an obvious human disposition for temporal-accommodation as circumventive/distractive-temporal-prioritisation-of—reference-of-thought of being-and-existence as conceptualised within the successions-of-existing-in-human-life-spans or rather an abstract eternal-projecting disposition of ‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness^12^—or-ontological-reprojecting wherein
the articulation of meaning, being and existence is in existentialism-terms intemporally-driven
on the basis that that which is in need of transcendence-and-the-intemporal (the temporal)
cannot be seen-as-or-made-a-reference-of-intemporal/ontological-thought, and that it is exactly
for that reason that human progress has been and will remain dialectically possible. That is, the
reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing\(^{1}\)-reference) can only be the pedestalling of an ‘intemporal-prioritisation-of-reference-of-
thought’–as-conflicatedness -or-ontological-reprojecting as ontology with regards to
apriorising–registry, contrasted to a circumventive/distractive-temporal-prioritisation-of-
reference-of-thought-reference implying a perverted-registry reflected/perspectivated by its
dem-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–
stranding-or-attributive-dialectics). Where the natural world is resolute with no compromise
with the operation of such a notion as 1+1=2, the same cannot be resolutely affirmed in the
human social-and-temporal-trading in the social world where on occasions 1+1 will add up to 5
where the effective constraining of institutionalisation is lacking. \(^{1}\)de-mentation\(^{2}\)
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-

Though with the weakness we must be able to rise up to, that ‘the social’ is existentially ‘emotionally involved’. But this can be and is effectively overcome by ‘appropriately \textsuperscript{104}universalising and detached meaningfulness by percolation-channelling-\textless in-deferential-formalisation-transference\textgreater’ as devised for all formalised and institutionalised settings capable of introducing, upholding and internalising the ascendancy of many a social outlying thoughts and meaningfulness which from a ‘purely mobbish social disposition’ as may arise in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology\textsuperscript{100}} would hardly be countenanced. The bigger picture here (and of relevance to a registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{8} de-mentativity from procrypticism to notional-deprocrypticism as the de-mentative/structural/paradigmatic and general resolution of the vices-and-impediments\textsuperscript{106} together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential of the perversion-of-reference-of-thought-\textless as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textgreater as to preconverging-

But the fact is that such a profound conceptualisation will have to come to terms with the reality of the implied existentialism/full-depth-of-existential-implications beyond our present sense of personhoods-and-socialhood-formation if it were to avoid platitudinising, becoming circular with dead-ends and lose its intemporal purpose and hence ontological purpose, and so for the simple reason that it is the human psyche that \textligature{gives-in} with respect to intrinsic-reality as renewed/prospective ontological-veridicality, starting with that of the intellectual analyst/analysts itself/themselves); as the human psyche gave-in from recurrent-utter-uninstitutionalisation to base-institutionalisation, ununiversalisation to universalisation, non-positivism/medievalism to positivism, and where renewed/prospective ontological-veridicality does establish a new registry-worldview/dimension transcendental postconverging–dementating/structuring/paradigming shift as procrypticism to deprocrypticism, then the human psyche will equally have to give-in, and by the way all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity meet with some resistance or the other and thus a reason for transversality\textligature{for-sublimating-existential-eventuating/denouement}–affirmative-and-unaffirmative\textligature{disambiguated-motif-and-apriorising}\textligature{axiomatising}\textligature{referencing}' reflex to preserve the
precedingness/supersedingness/ascendency of intrinsic-reality in adverting social-and-temporal-trading of meaningfulness. Part and parcel, of human intellectualism beyond mere-institutionalised-being-and-craft, as has historically been implied in the case with many a great human mind, is to recognise that the social-construct is ‘not an ontological absolute’ but rather a ‘conventioning construct at the limits of human ontological capacity’ and that that is ‘why it has got its defining issues and problems’ and further that ‘it progresses and transcends’, and the intellectual exercise goes beyond just reasoning within ambits of ‘temporally-and-socially-perceived-rightness-of-thinking’ to explore possibilities that might actually be ‘outright unpalatable’ in the temporo-social sense but in the bigger picture as an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming are indispensable. With the idea that an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming that prolongs to intemporality/an-abstract-eternality while obviously of ‘less an immediate temporal existential sense of good to some humans’ is undoubtable of ‘an intemporal existential sense of good to all humans at all times’ by its percolation-channelling-in-deferential-formalisation-transference wherein for instance, the de-mentative/structural/paradigmatic effect of the law is allowing for civilisational living but its circumstantial construal and application may not be in tune with the temporal interests of many but for its institutionalising constraining. This contrast between humans appreciating intemporality/longness as potentially of universal import and at the same time disposed occasionally to advanced their temporality, is what warrants ‘a constraining institutionalisation’. In the same vain, one may ask what’s the temporal benefit to Rousseau or Galileo instead of striving for greater aristocratic privileges for themselves; for the one to rather
carry the mantle from one royal court to the other of affirming the possibility of human emancipation (by which we are all percolatively benefiting from today) or the other the mantle of a principled engagement and possibility of science starting with an uncompromising supplanting-conviction-as-to-profound-supererogation postconverging/dialectical-thinking apriorising-psychologism from observation that the earth is not at the centre of the solar system, by which a culture of science came to be established. And finally, how coherent are temporal meaningful frames built from such intemporal grand principles but lived on temporal dispositions in extrication in contradiction to such philosophies, and what is the very relevance of such temporal enculturation and endemisation to present-day social and institutional failures in society? And what’s the role of ‘intellectual irresponsibility’ in all of this? From an intemporal hence ontological depth-of-meaningfulness, precedingly/supersedingly, ‘limited-mentation-capacity’ (for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is the reason for human registry-worldview/dimension perversion-of-reference-of-thought as-preconvergingly- apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation defect at uninstitutionalised-threshold; implying that ‘ontological-normalcy/postconvergence’ is actually for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation beyond the defective ‘intradimensional-subknowledging-normalcy or reflex-normalcy’ which is rather an <amplituding/formative–epistemicity> totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (illusion-of-the-present/present-consciousness) inclination to overlook/aside the notion of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity at its own (limited-mentation-capacity-threshold) uninstitutionalised-threshold though it will obviously and paradoxically recognise the need of prior registry-worldviews/dimensions to transcend (just as by reflex from our
perspective we will recognise such a need for base-institutionalisation over recurrent-utter-uninstitutionalisation, universalisation over ununiversalisation, positivism over non-positivism/medievalism but hardly prospectively the notion that our dimension has an uninstitutionalised-threshold like procrypticism–or–disjointedness-as-of-reference-of-thought with the need for prospective transcendence-and-sublimity/sublimation/suprerogary–de-mentativity as deprocrypticism). However, as previously indicated such an insight can only be garnered, beyond our illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage as all registry-worldviews/dimensions wrongfully imply, given that ‘doppler-thinking’ wherein our registry-worldview/dimension isn’t the absolute reference of meaningfulness (which is rather an intradimensional-subknowledging-normalcy in lieu of the ‘ontological-normalcy/postconvergence’ as that which allows for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). It is this ‘ontological-normalcy/postconvergence’ that reflects/perspectivates perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> defect as de-mentation-(suprerogary–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as against the defective reflex-normalcy/intradimensional subknowledging-normalcy that wrongfully represent it as straightness/candored-and-dialectically-or-contendingly-in-phase. Thus the general notion of an intemporal/ontological resolution of perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> is more than just the instigating effect of the subknowledging-impulse/compulsive-dementing (psychopathic postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> but

Knowledge-notionalisation factors in how temporal-dispositions relate to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (intradimensional-subknowledging\textsuperscript{75}-normalcy/reflex-normalcy) and at institutionalised/intemporalised-thresholds (ontological-normalcy/postconvergence). It should be noted that the peculiarity for achieving all the institutional-cumulation/institutional-recomposure\textsuperscript{46}historiality/ontological-eventfulness/onological-aesthetic-tracing\textsuperscript{37}perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’\textsuperscript{97} is about bringing the prior registry-worldview/dimension\textsuperscript{75}perversion-of-reference-of-thought-\textsuperscript{46}as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{97} to its placeholder-setup/mental-devising-representation/mentation/\{cumulated/recomposured\}-consciousness-awareness-teleology\textsuperscript{100} awareness for the collective-mind to psychoanalytically-unshackle/memetically-reorder/institutionally-recomposure, and thus take-stock-and-supersede/transcend its limited-mentation-capacity-deepening\textsuperscript{45} threshold (uninstitutionalised-threshold\textsuperscript{105}). This is brought to the collective-consciousness so that with regards to social-stake-contention-or-confliction-and-confliction it renews its psychoanalytic-equilibrium, as the latest ‘capacity boost’ with respect to what is the grander individual-and-social good as positive-opportunism—of-social-functioning-and-accordance\textsuperscript{6}. For instance, achieving base-institutionalisation requires that it should be brought to the collective-consciousness that it is
‘perilous to survival-and-flourishing’ to remain recurrently-uninstitutionalised for the grander individual-and-social good as positive-opportunism—of-social-functioning-and-accordance. Once this enters the collective-consciousness this leads to an inclination for a renewed psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring wherein recurrent-utter-uninstitutionalisation registry-worldview then becomes preconverging-or-dementing apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, as it is recurrently-uninstitutionalised, as the backdrop for the straightness/candoring-and-dialectically-in-phasing of base-institutionalisation registry-worldview. This is relatively direct by the existential implications to survival-and-flourishing with the lower institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’}> of base-institutionalisation, universalisation and positivism. For deprocrypticism, an even stronger emphasis has to be placed on the abstract percolation-channelling-<in-deferential-formalisation-transference> as setup from positive-opportunism—of-social-functioning-and-accordance for survival-and-flourishing, just as with the positivistic registry-worldview which as well is relatively deferential with percolation-channelling-<in-deferential-formalisation-transference> (undermining <amplituding/formative> wooden-language}{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> or banality-of-thought) to formalised deference like the higher developed legal system involving lesser possibility for mob-and-disparate-justice as with the lower institutional-cumulation/institutional-recomposure-{as-to_ historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’}>, grander subject-
matter expertise and lesser hearsays-and-vague-opinions limiting the ambit of the influence of the extended-informality fisheries; all geared to discriminate for supersedingness of the intemporal-disposition (longness-of-register-of\textsuperscript{15} meaningfulness-and-teleology\textsuperscript{10}) over temporal-dispositions (shortness-of-register-of\textsuperscript{15} meaningfulness-and-teleology\textsuperscript{10}) as percolation-channelling\textsuperscript{-in-deferential-formalisation-transference} not only in the present but prospectively. In other words, higher institutionalisations imply greater ‘deferential-formalisation-transference’ wherein the ambits of the extended-informality fisheries with regards to meaningfulness shrinks as formal conceptualisations extend the intemporal-skewing (‘intemporality\textsuperscript{17}-asymmetric-subsumption-of-temporality\textsuperscript{9}’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) and deferential model for construing meaningfulness. For instance, many a subject matter domain like meaning about the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially in deference to abstract intemporal-disposition teleological conceptualisation voiding social temporal-dispositions teleological dispositions. The reason is simple formal settings use the-Good/understanding/notional-knowledge-reification-gesturing\textsuperscript{-in-prospective_psychologismic-apriorising/axiomatising/referencing-\textsuperscript{-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}} conflatedness\textsuperscript{-in-[preeconverging-disentailment_by]-postconverging-entailment}/ontological-primemovers-totalitative-framework\textsuperscript{73} to construe knowledge and virtue conceptualisations as this is what proxies/syncs-with intrinsic-reality and hence their effective potency while on the other hand informal settings tend more to impression-driven/good-naturedness/wishfulness conceptualisations which may sound appropriate in their <amplituding/formative-
but are often defective by lack of universality, not ontologically-driven in terms-as-of-axiomatic-construct of understanding and often with temporal/immediate interests/shortness-of-register-of—meaningfulness-and-teleology. In this light, the articulation of the ontological-veridicality/reference-of-thought of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—notional—firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—existentialism-form-factor-pedestals-disambiguation of our mental-devising-representation in explication of our ‘mentation capacity limitations’ accounting for our perversion-of—reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation that ‘structurally-explain’ the vices-and-impediments peculiar to our own registry-worldview/dimension (procrypticism—or—disjointedness-as-of—reference-of-thought) or perversion-of—reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of positivistic meaningfulness, beyond our illusion-of-the-present/present-consciousness (just as non-positivism/medievalism ‘structurally-explains’ the peculiar vices-and-impediments and de-mentative/structural/paradigmatic inhibitions to human emancipation requiring prospective positivism with its corresponding de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) as de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics)). The idea is not to assume an idling-temporal-disposition of stigmatising intradimensionally but rather an intemporal/ontological disposition (longness-of-register-of—meaningfulness-and-teleology), that works with ‘what is as it is’, and bring this reality to the collective-consciousness for the
wrongfully implying their ontological-veridicality/ontological-contiguity\(^1\) of "reference-of-thought \((from\ ontological-normalcy/postconvergence\ epistemic-or-notional-projective-perspective)\) rather than rightfully their notional-discontiguity/epistemic-discontiguity\(^2\) of "shallow-supererogation\(^3\)-of-mentally-aestheticised-preconverging/dementing-qualia-schema\(^4\)/non-ontological-and-non-contending-referencing-<thus-ontologically-or-contendingly-reflected-or-perspectivated-as-of-preconverging-or-dementing\(^5\)-apriorising-psychologism\(^6\) (not-veridical-thinking-reference-rather-preconverging-or-dementing\(^7\)-reference), and thus wrongly engaging in logical contentions instead of reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) manifestations of temporal-dispositions perversion-of-reference-of-thought-<as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^8\), thus resulting in the consequent endemisation/enculturation of the specific vices-and-impediments\(^9\) of the positivistic registry-worldview \((procrypticism–or–disjointedness-as-of-reference-of-thought)\). In contrast, the particularity of the superseding/transcending ‘notional–deprocrypticism institutionalisation’ disposition over procrypticism is that prospectively it points to the ontological-veridicality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor-pedestals-disambiguation (at positivistic meaningfulness uninstitutionalised-threshold\(^{10}\)) to its mental-devising-representation to enable the ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the collective-consciousness, and so as a knowledge-notionalisation. That is, a registry-worldview’s/dimension’s
disambiguation before engaging either with logical contention in the case of issues of intemporal-disposition/ontological-disposition or with reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) manifestations of perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in the instance of issues of temporal-dispositions; bringing this conceptualisation to the collective-consciousness for the necessary psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that should enable the superseding/transcending of the enculturating/endemising vices-and-impediments together with the inhibiting effect on human emancipation potential associated with procrypticism. To further elucidate, let’s explore again the Arithmetic ontological-contiguity comparison highlighted previously wherein character A had a condition whereby its results of additionality were systematically incremented by 1, its’s subknowledging-impulse/compulsive-dementing highlighting an uninstitutionalised-threshold where the other characters wrongly calculated the result (the ontological-veridicality) failing/not-upholding-<as-of-apriorising/axiomatising/referencing> ontological-normalcy/postconvergence as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, as actually intemporal-preservation-entropy-or-contiguity–or–ontological-preservation supersedes the mere–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the latter’s pertinence is rather about and
subsumed as a mentation capacity to uphold the former. The bigger issue with regards to all the BODMAS characters is with respect to the limits of their reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which are readily predisposed to such perversion-of reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and subknowledging -impulse/compulsive-dementing whether by character A or any other character rather than just the fact that the condition (psychopathic postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> for instance) is the causative factor of their failure to in ontological-normalcy/postconvergence ensure intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In any case the de-mentative/structural/paradigmatic resolution is with regards to the implications of metaphorically-a-million-and-one-instances-and-locales of perversion-of reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in the given registry-worldview/dimension as an aetiologisation/ontological-escalation (as notional–firstnaturedness—temporal-to-intemporal-dispositions–as-from-perspective–ontological-normalcy/postconvergence> individuations predictable and determinable teleologies). That is, fundamentally the appropriate conceptualisation of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is structurally-speaking about perpetually ensuring intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the superseding/preceding notion (i.e. ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). In this regard, we may easily construe the fundamental
defects-of--categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as these enable--perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein successive institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing--perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism') are analogical to various defective instances in operating the BODMAS equation. That is, while the condition/subknowledging-impulse/compulsive-dementing with A’s additionality results are wrongly incremented by 1, leading to the uninstitutionalised-threshold to be rightfully corrected with new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involving subtracting 1; the defect of a second registry-worldview/dimension may involve subtracting 1 from the result of S as a condition/subknowledging-impulse/compulsive-dementing of S, requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation correction of the BODMAS characters as with the first registry-worldview/dimension to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Likewise, a third and fourth registry-worldview/dimensions defects could involve respectively a subknowledging-impulse/compulsive-dementing/condition of M wherein the latter wrongly adds 1 to a multiplier before multiplying and a subknowledging-impulse/compulsive-dementing/condition of D wherein D wrongly subtract 1 to a divisor before dividing, with these two latter registry-worldviews/dimensions equally requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology,
for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation adjustment of the BODMAS characters as with the first and second registry-worldviews/dimensions to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Ultimately, a notional–deprocrypticism construal of the institutionalisation/intemporalisation process aiming to perpetually sync reference-of-thought– categorical-imperatives/axioms/registry-teleology

with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ontological-normalcy/postconvergence, is one that will bring to the mental-devising-representation, the BODMAS characters potential temporal-dispositions to perversion-of-reference-of-thought as-preconvergingly-apriorising/axiomatising/referencing-in-

disambiguation then allows for acknowledging, accounting for and the structural-superseding of our vices-and-impediments, thus enabling ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involving the de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> of temporal-dispositions perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, as de-mentation–supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics is the effective psychological tool for ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The implications for the science of psychology can thus be drawn out. The articulated notion of de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) brings up the central conceptual role of psychology as about understanding human mental-devising-representation and the implications thereof. Central to this de-mentation–supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics process is a dialectical exercise of stranding; either as mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase to imply a superseded/transcended/unsound registry-or-registry-worldview/dimension or as mentally straight/candored-and-dialectically-or-contendingly-in-phase to imply a superseding/transcending/sound registry-or-registry-worldview. de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) further implies that instead of a ‘conventioning influenced and driven’
more or less notational study of human psychological phenomena as is the case today; we can ‘think’ of psychology in terms of de-mentation (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-to-conflatedness as dialectical transformation as-prospective reference-of-thought of transdimensional-meaningfulness–apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument; leading to a psychological science which is more comprehensive, timeless and unbounded by its conceptualisation as it emphasises psychological-representation/mental-devising-representation as more ‘ontologically-driven/ontologised’ rather than ‘conventioningly-driven/conventionalised’. In so doing, overriding and superseding the analyst illusion-of-the-present/epistemic-totalising~self-referencing-syncretising/present-consciousness/mirage referring to the instance where the personhood-and-socialhood-formation intradimensional conventioning induces an ‘analytical-complex’ with respect to an ontologically veridical psychological-representation or mental-devising-representation. As implied psychological-representation/mental-devising-representation is then fundamentally determined by the depth/profoundness-of-ontological-veracity/depth/profoundness-of-ontological-reference of a
given registry/worldview-or-dimension as it upholds ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) over reflex-normalcy or intradimensional-subknowledging-normalcy. Ontological-normalcy/postconvergence appropriately points to the pertinence for ontological construal as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_attendant_ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity'-reification_or_intrinsic-reality—ontological-coherence_or_superseding—oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for an appropriate de-mentation-(supererogatory-ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) de-mentation-(supererogatory-ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) exercise wherein the reference-of-thought ('intemporal-prioritisation-of—reference-of-thought'—as-conflatedness—or-ontological-reprojecting) is always a moving target (due to the institutionalisation/intemporalisation process) in need for prospective dialectical reconstitution (deconstruction), which then puts a science of psychology in phase with the dialectical development of ontological-depth/profoundness-of-reference in superseding relative-ontological-incompleteness—induced,—'threshold-of—nonconviction/madeupness/bottomlining—in-shallow-supererogation—<as-to—'attendant-intradimensional’—prospectively—disontologising—preconverging/dementing—apriorising-psychologism>’, as-it-is-thus—'in-wait’—for—'perversion-of—reference-of-thought—<as-preconvergingly—apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation—≥—or-temporal-preservation—as-pseudointemporality—preservation, in line with intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; whereas a

That is, a conventioning influenced-and-driven psychology tends to equate the conventional insights at one \(\text{de-mentation} \text{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)}\) dialectical moment or registry-worldview/dimension as intradimensionally set in stone and across all moments whereas an ontologically-driven psychology acknowledges and recomposes to the dialectical evolution of reference-of-thought for a comprehensive, appropriate and veridical \(\text{de-mentation} \text{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)}\) exercise. Such \(^{54}\) reference-of-thought of dialecticism registry-worldview-wise/dimension-wise (for \(\text{de-mentation} \text{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)}\) exercise in reflection/perspectivation of psychological-representation/mental-devising-representation) are
emancipated and disinhibited psychology (both registry-and-registry-worldview-wise) as such a psychology is grounded exclusively on ontologically demonstrable references of the veridicality of registries and registry-worldviews/dimensions successive existentialisms/full-depths-of-existential-implications, and the corresponding ontological veracities implied. Such a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ contrasts with a ‘mented’ or ‘stigmatic’ psychology of weak memetism/transdimensional-meaningfulness/suprastructural-meaningfulness reference-of-thought for the simple reason that it is not founded on a pure dialecticism of ontological/dialectical-referencing but rather on intradimensional conventionalised referencing which wrongly hardly proxies the veridicality of ontological-normalcy/postconvergence or construe a dialectical-reference/ontological-reference for ‘\(\langle\text{de-mentation}\rangle\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of \(\langle\text{reference-of-thought}\rangle\) of psychological-representation/mental-devising-representation at uninstitutionalised-threshold. Thus it mental-devising-representation is stigmatic or mented (set-in-place-or-a-period) as of preconverging-or-dementing \(\langle\text{apriorising-psychologism}<\text{stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase}\rangle\) for the conventioning–superseded/transcended/unsound registry/registry-worldview-or-dimension, and postconverging-or-dialectical-thinking \(\langle\text{apriorising-psychologism}<\text{stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase}\rangle\) for the conventioning–superseding/transcending/sound registry/registry-worldview-or-dimension. This will explain in many ways the more or less fitful development of modern-day psychology, more or less ‘uncertain of the ontological/dialectical pertinence of temporal-as-out-of-phasing-representation’ (in reflecting preconverging-or-dementing –apriorising-psychologism) thus undermining its ontological-referencing veracity/ontological-pertinence with respect to an
A de-mentative (supererogatory–ontological–de-mentation–dialectical–de-mentation–stranding-or-attributive-dialectics) exercise of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements in ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as-prospective reference-of-thought. A dialectical ontological-reconstituting–as-to-conflatedness/deconstruction of reference-of-thought (recognising human limited-mentation-capacity-deepening and the need to re-institutionalised/re-intemporalised resulting in the subsequent institutional-cumulation/institutional-recomposure–{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’>}) as articulated above is not only the basis for memetism/transdimensional-meaningfulness/suprastructural-meaningfulness, but as well for avoiding what can be termed as the ‘ontological-circularity’ of modern-day psychology. Such ontological-circularities are engrained in all registry-worldviews/dimensions wherein the naïve pretence for a quest for deeper ontological-veridicality is rather just syncretic/circular and hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> as fundamentally the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the said registry-worldview/dimension are at a dead-end with a de-mentative/structural/paradigmatic impossibility for a critical breakthrough just by the mere fact that the registry-worldview/dimension has attained its mentation-capacity-limitation or uninstitutionalised-threshold (as the nature of intrinsic-reality with respect to the human psyche is ontological-normalcy/postconvergence or inherently preceding or inherently superseding as it doesn’t
change an iota, and it is the human psyche that gives-in in its mental-devising-representation to conform to intrinsic-reality). With such naïve efforts to keep up and develop profound meaningfulness based on the same registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology mostly a dead-end. Such ontological-circularities will include for instance the dead-end of medieval alchemy preconverging–de-mentating/structuring/paradigming with respect to positivistic chemistry postconverging–de-mentating/structuring/paradigming, a flat-world preconverging–de-mentating/structuring/paradigming with respect to a round world postconverging–de-mentating/structuring/paradigming, a creationism preconverging–de-mentating/structuring/paradigming with respect to an evolution postconverging–de-mentating/structuring/paradigming, a universal humanity postconverging–de-mentating/structuring/paradigming with respect to aristocratic/racial/tribal preconverging–de-mentating/structuring/paradigming, a science postconverging–de-mentating/structuring/paradigming with respect to a superstition preconverging–de-mentating/structuring/paradigming, etc. Naivety will be to think that issues of ontological-circularity in our present positivistic meaningfulness (for transcending beyond our vices-and-impediments and overcoming inherent inhibitions to human emancipation) are not in veridicality about a need for a shift in prospective postconverging–de-mentating/structuring/paradigming. This brings forward fundamentally the limited-mentation-capacity/uninstitutionalised-threshold construct of our times (procrypticism) and the de-mentative/structural/paradigmatic implications specifically for such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ (as highlighted) over a relatively mented-psychology/stigmatic-psychology. What this reveals is that reality is ‘not a human mental-devising-representation processing exercise’; rather it is an intrinsic ontological-
normalcy/postconvergence notion that doesn’t respond to human mental-devising-representation processing. The role of *de-mentation*(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) as a mental-devising-representation mechanism that syncs with evolving ontological insight (insight about intrinsic reality) as ontological-normalcy/postconvergence is to reflect/perspectivate the dialectically-or-contendingly-out-of-phase or dialectical-primitivity at the very limit of the capability as its mental-devising-representation of a registry-worldview/dimension (uninstitutionalised-threshold), which otherwise any *amplituding/formative–epistemicity* totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview will overlook as it is a *amplituding/formative* wooden-language ⟨imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology—as-of–nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications⟩ that is exclusively operant and deterministic only to its very own *reference-of-thought–categorical-imperatives/axioms/registry-teleology*, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and is not tied to intrinsic-reality but rather pertinent only for when it proxies intrinsic-reality. It is only *de-mentation*(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) that can create the foundation for a new mentation (unshackle it psychoanalytically/memetically/meaningfully reorder it/recomposure it) to in ontological-normalcy/postconvergence come into grips with a more profound ontological-veridicality as a new *reference-of-thought* (veridical-thinking-reference-over-preconverging-or-dementing-reference) for a new existentialism/full-depth-of-existential-implications meaningfulness and thought. This insight about the intrinsic-nature-of-reality/intrinsic-reality is critical and central to understanding how ‘knowledge-deadend—de-mentating/structuring/paradigming’ can be overcome/superseded. Supposed B was to stick to resolving the BODMAS equation
overlooking A’s condition on the basis that the reference-of-thought–categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are set and given, whether these uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or not (which is what ensures proxying to intrinsic-reality), and further that the other BODMAS characters will do likewise anyway, this doesn’t in any way transform the ontological-normalcy/postconvergence ontological-veridicality/intrinsic-reality from to 72.5. Such a wrong disposition rather points aetiologically for the need (in ontological-escalation) of an de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) of the BODMAS characters at that uninstitutionalised-threshold. In the bigger picture, ‘knowledge-deadends—preconverging–de-mentating/structuring/paradigming’ (to varying degrees of pertinence) are often the explanation of underlying social issues and problems more than just about limited human ability or insufficiently directed effort towards the resolution of such issues and problems on the basis of present preconverging–de-mentating/structuring/paradigming. It is inevitable that emancipation from such knowledge-deadends—preconverging–de-mentating/structuring/paradigming will always require that the would-be intellectual-analyst or intellectual-analysts ‘blunt it’ (just as intrinsic-reality is uncompromisingly blunt) to the<br>

<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage registry-worldview/dimension that what is fundamentally needed is a postconverging–de-mentating/structuring/paradigming–shift. Much like observation and a rational interpretation of nature trumps dogma as with Galileo’s heliocentric argument for instance, this author holds that a fundamental decomplexifying/uninhibiting of our own (procrypticism or preconverging-or-dementing–apriorising-psychologism/subknowledging/perversion-of- reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-

To further elucidate the criticality as indicated of such a ‘postconverging-or-dialectical-thinking’\textsuperscript{\textgreater}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as indicated with respect to a ‘mented’ or ‘stigmatic’ psychology can be further reemphasised clearly as such; a ‘postconverging-or-dialectical-thinking’\textsuperscript{\textgreater}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that is being ontologically-driven or led by ontological-veridicality when it comes to mental-devising-representation by strictly adhering to the \textsuperscript{\textgreater}\textsuperscript{\textgreater}\textsuperscript{\textgreater}de-mentation–supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of \textsuperscript{\textgreater}\textsuperscript{\textgreater}\textsuperscript{\textgreater}de-mentation–supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). In other words, it overrides the
mented/stigmatic intradimensional meaningfulness mental-devising-representation and enables a transdimensional-meaningfulness mental-devising-representation, wherein a mented/stigmatic mentation de-mention-(supererogatory-ontological-de-mentionation-stranding-or-attributive-dialectics) in reflecting soundness-or-ontological-good-faith/authenticity reference-of-thought/apriorising-registry-soundness and unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought/ perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (respectively postconverging-or-dialectical-thinking apriorising-psychologism-stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase and preconverging-or-dementing apriorising-psychologism-stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase) is stranded to the ‘conventionalised institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ whether such a threshold is the ‘appropriate basis for reference-of-thought or not and subsequent ontological-veridicality/ontological-contiguity or not, as it is limited to what is the convention thus hollow-constituting as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation with the result that mented/stigmatic psychology is limited to hollow-constituting as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation human intradimensional conventioning reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, with no prospective/transcending/superseding possibility. For instance, we can project insightfully that a mented/stigmatic mental-disposition in a non-positivism/medievalism setup in an impression-driven/good-naturedness/wishfulness disposition but hollow-constituting as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (failing/not-
upholding-as-of-apriorising/axiomatising/referencing—reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) will raise an issue of say sorcery in terms—as-of-axiomatic-construct of who is the sorcerer or sorcerers among us, how should sorcery be stopped and prevented in the community in its preconverging-de-mentating/structuring/paradigming, and not in a prospective positivistic postconverging-de-mentating/structuring/paradigming that is more ontologically-veridical, putting in question the veracity/ontological-pertinence of the non-positivism/medievalism conventioning notion of sorcery, however ‘good-natured’/impression-driven, while raising the positivistic the-Good/understanding/notional-knowledge-reification-gesturing-in-prospective-psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity—conflatedness—in-preconverging-disentailment-by-postconverging-entailment>/ontological-primemovers-totalitative-framework of a positivising/rational-empiricism reference-of-thought. Such an insight prospectively will involve putting into question naïve and ever evolving constructs in our modern-day mented/stigmatic psychology science like personality disorders on the fundamental argument regarding the relatively poor insight about the requisite reference-of-thought to be established in the first place before then qualifying personalities with respect to such a philosophically and insightfully soundly established reference-of-thought, and not just naïve assumptions whether on the basis of popular axioms, vagueness and personal however well-meaning; with the idea of meaningfulness that goes beyond just a conventioning-reference-of-thought and is rather inherently upheld by ontologically-veridical insight and pertinence. Further, such a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ that is ontologically-driven will go beyond an exercise of mented/stigmatic phenotypes driven abstractly as inherent-personalities nature and in given settings-of-time, but grasp that human personality is critically

hermeneutically/reprojectively/supererogatingly/zeroingly-educing-human—meaningfulness-and-teleology into-the-existentialism-becoming of personhoods-and-socialhood-formation as so-reflecting ontological-reconstituting—as-to-conflatedness /deconstruction as the more profound reference-of-thought and analysis, and with a more fundamental interdimensional/transdimensional/transcendental insight of the human existentialism form-factor. In this regard, it is the opinion of this author that many construed personality disorders that do not involve social deviances or not of physiological nature are actually adaptations at one time or the other in an ever-changing-and-challenging-construct that individuals make of a ‘wanting and developing social world with its stakes and confliction’, and it would rather be better to articulate personality as driven by a pertinence of being/ontological-extension-into-existentialism-or-full-depth-of-existential-implications with respect to such ‘a challenging and developing social world with its stakes and confictions’ in the first place, otherwise we are just affirming arbitrary social classification schemes and not really involved in the requisite postconverging–de-mentating/structuring/paradigming shifts; and such could further be grasped regarding specifically how many an experimental psychology schemes ‘desperately’ striving to draw social-world level conclusions can’t seem to supersede the modesty of schemes that it is just too farfetched and synoptically-limiting, thus trending more towards the defect of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educated–existentialising/contextualising/textualising-contiguity }—constitutedness—in-preconverging entailment in lieu of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educated–existentialising/contextualising/textualising-contiguity }—conflatedness—in-[preconverging-disentailment-by]-postconverging-entailment as articulated by this author. Foucault had qualified the current focus on abnormal psychology as tending
more to an ‘economic’ practice. What about the notion of (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as the ‘surreptitious driving mechanism of human mental-devising-representation or mentation’ that fully encapsulates and explains human psychological development across all the times and the successive institutional-cumulation/institutional-recomposure{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>)} of human existential emanance, and so as an articulation that is retrospectively, presently and prospectively coherent? Given the fact that (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) very much explains human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as the recurrent ‘postconverging-or-dialectical-thinking20–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of an animal of limited-mentation-capacity-deepening53. Such a ‘postconverging-or-dialectical-thinking –apriorising-psychologism’ psychology driven by ontology or rather ontological-normalcy/postconvergence will be postdicatory, with the implications that this will fully focus the ‘kernels of postmodernism’ to usher in Suprastructuralism as an Age where humankind comes to grasp that its-meaningfulness-with-respect-to-intrinsic-reality as reflected by the successive institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>)} has been progressing (more and more realistically) by successive suprastructuring of prior/transcended/superseded registry-worldviews/dimensions ‘beyond their successive corresponding recomposured-consciousness-awareness-teleology106’, and
introducing the veridical meaningful-frame/worldview of postmodernity with regards not only to the present but the totalising~renewing-realisation/re-perception/re-thought past and future, with the insight that our present recomposured-placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of the positivism–procrypticism registry-worldview will be subjected to this suprastructuring-meaningfulness nature of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor as well. In fact the underlying difficulty of deconstruction when extended from its ‘textual basis’ to its ‘full meaningfulness basis’ as ‘ontological-reconstituting–as-to-conflatedness’, has to do with the fact that the full implications of ‘ontological-reconstituting–as-to-conflatedness’/deconstruction is that it prospectively calls for suprastructuring or construal beyond-the-consciousness-awareness-teleology –<in-preconverging-existential-extrication-as-of-existential-unthought> of prior registry-worldview mindset/ reference-of-thought (and so as a conception that enables opening-up/making-available the prospective registry-worldview), as implied by the veracity/ontological-pertinence of ‘de-mentation\textsuperscript{\textls[-50]{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}} of \textsuperscript{\textls[-50]{reference-of-thought}} as the underlying human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{\textls[-50]{driving mechanism. Considering that deconstruction as ‘ontological-reconstituting–as-to-conflatedness’ necessarily implies not one but two dialectically opposed registries/meaningful-references/anchorings-of-meaning/ontological-references/contending-references/registry-worldviews/dimensions of meaningfulness; with the implication that the prospective/transcending superseding is suprastructural to (beyond-the-consciousness-
awareness-teleology of the prior/transcended/superseded, and so as a deeper superseding–oneness-of-ontology construal/conceptualisation. The fact is that without the notion of suprastructuring, the exercise of supererogatory–ontological–de-mentation–de-mentativity will wrongly imply that the ‘postconverging-or-dialectical-thinking apriorising-psychologism’ and the preconverging-or-dementing apriorising-psychologism are of the same reference-of-thought of meaningfulness (which is obviously wrong), and is the effect of the illusion-of-the-present/present-consciousness/mirageas totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as we recognise this fact from a vantage perspective to the prior (utter-uninstitutionalisation, base-institutionalisation, universalisation) but have ‘a complex’ recognising such a fact at a disadvantaged positivistic/procrypticism perspective with respect to the prospective (deprocrypticism), just as all institutionalisations tend to demonstrate when their own transcendence-and-sublimity/sublimation/superalogical–de-mentativity is implied, and certainly so the higher the institutionalisation as the mindset/reference-of-thought is increasingly set to ‘relate to its institutionalised secondnatured construct as being our very own individuals essential dimensionality-of-sublimating {<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} and not a secondnatured construct’, and thus perceived as beyond or almost beyond analysis due to the implied temporal alienating effect on us (but then it is the human psyche that gives-in to intrinsic-reality/ontological-veridicality, as the foremost rule of humanity’s existential strive).
Suprastructuring allows for the necessary transcendental-insight-projection-capacities for grasping the evasive Derridean conceptualisation of ‘metaphysics-of-absence{implicated–
Suprastructuring boldly answers the underlying issue involved with ‘communicating the true implications of deconstruction as ontological-reconstituting—as-to-conflatedness’ by highlighting the paradox that it is all about ‘articulating a conceptualisation which involves implying that the reference-of-thought and meaningfulness of the seemingly reference-of-thought is unsound and needs to be superseded’. It is rather about in the very first instance putting into question a given reference-of-thought and projecting the appropriate reference-of-thought, before even proceeding to articulate more specifically meaningfulness within the projected reference-of-thought. This is akin to the idea of a positivistic mindset/reference-of-thought articulating chemistry rules and principles to an alchemic mindset/reference-of-thought for the latter’s validation, requiring the latter to adopt a positivistic mindset/reference-of-thought in the very first place before issues of substantive pertinence about chemistry rule and principles are raised within their now mutually positivistic mindsets. Such an exercise requires a highly uninhibited/decomplexified human frame of mind. This may sound rather farfetched as a notion but it is important to remember that the positivistic mindset/reference-of-thought itself is the outcome of the décomplexing/uninhibiting of the human mind from earlier successive institutionalisations. Such an exercise is necessarily about psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the positivistic/procryptic reference-of-thought of meaningfulness-and-teleology in the middle to long run construed as of de-mentation/supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics with respect to futural Being-development/ontological-
framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism; and with regards to Suprastructuralism as a notion, the implication is that this is a requisite idea that has to come to the collective consciousness (not just unconsciously as with prior institutionalisations, for instance the fact that notions of superstition are false had to be consciously brought up to the attention/consciousness-awareness-teleology of a non-positivism/medievalism mindset/ reference-of-thought for it to effectively undergo the necessary ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring by acting as the conscious backdrop that engenders prospectively a positivistic mindset) for human emancipation into a notional–deprocrypticism mindset; as with all psychoanalytic exercise whether of an individual or social conceptualisation nature, the idea of recognising/referencing/registering/decisioning the ontological-deficiency with respect to ontological-normalcy/postconvergence is central to superseding it. ‘Suprastructuring as such overcomes the ‘natural human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology reflex’ (in any registry-worldview/dimension) of ‘striving to avert preconverging-or-dementing–apriorising-psychologism mental-devising-representation/mentation’ (whether such averting is ontologically-veridical or not) and so by a mistaken reflex to preserve a wooden-language–{imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology –as-of–‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality (but which closure makes its representation of intrinsic-reality inherently incomplete and biased towards the illusion-of-the-present/present–
conflatedness—as-to-totalitative-reification-in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing—as-veridical-epistemicity—relativism-determinism—as-amplituding/formative—epistemicity—causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity—in the reflection as placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of retrospective, present and prospective institutionalisations in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process points-of-reference, with the truer nature and representation of human psychology ultimately tied-to/driven-by ontological-normalcy/postconvergence-construct’. Insightfully, just as highlighted later that existence-defines/precedes-essence, ideally the construction of psychology needs to be priorly subjected to ‘a becoming that defines psychology with its veracity/ontological-pertinence arising in the ontological-reconstituting—as-to-conflatedness of that existential becoming’. Is our understanding of psychology notionally complete when we can’t seem to understand what happens in apparently mentally sound minds partaking in ‘socially degraded’ situations like murky human interest stories, mobs, genocides and even ‘the conventional acceptance and numbness to mass casualty warfare’. In other words, in the first place what is ‘ontologically normal’ beyond the subjective conventioning of the psychology science (before even worrying about the abnormal)? Further isn’t it possible to make the contribution of modern-day psychology more complete in constructing a more thorough and dynamic understanding of mentation/psyche in relation to individual-social-humanity aspiration, where psychology evolves in a complete existentialism cadre. In other words, so placed in a becoming/existential cadre, is psychology not meant rather than just encapsulating what the human psyche/mentation is all about as if it is a set and determinate construct (strangely enough inadvertently and often mirroring schemes of social classification, and hence of social power
relations) equally involve in articulating aspiratory models for human mentation/psyche? And such a postconverging–de-mentating/structuring/paradigming shift with regards to modern-day mented/stigmatic psychology can actually be implied by prospective ontological-normalcy/postconvergence as notional–deprocrypticism (involving ‘ontologically-reconstituting/deconstruction’ in upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by ‘overriding failing/not-upholding-<as-of-apriorising/axiomatising/referencing> and renewing ever sound and appropriate’ reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{00}\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’) over the ‘conventioningly-driven/conventionalised hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>\(^{84}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{00}\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether the latter is failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Insight from ontological-normalcy/postconvergence as it matches placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{00}\) to ontological-veridicality (notwithstanding that this undermines habituated conventionalised mented/stigmatic placeholder-setup/mental-devising-representation/mentation) representing all the institutionalisations in a dialectical moment of appropriateness-of-reference-of-thought-as-of-conflatedness\(^{82}\) and thus mentally-straight/candored-and-dialectically-in-phase as simply involving the technique of a ‘prelogic/conviction-as-to-profound-supererogation\(^{97}\) placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{00}\) teleological alignment reflex’ to the implied \(^{84}\) reference-of-thought since the reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{00}\),-for-intemporal-preservation-entropy-or-contiguity–
meaningfulness-and-failing-intemporal-preservation involving with all mented/stigmatic mental-devising-representations a circular preconverging-or-dementing tempor-manifestation (subontologisation/subpotentiation (in-a-social-dynamism-of-meaningfulness-misappropriation) of slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect. In the bigger picture, actually the fact is that the various institutionalisations/institutional-cumulation/institutional-recomposure ⟨as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflectected-perspective–ontological-normalcy/postconvergence-reflectected-‘epistemicity-relativism-determinism’⟩ ⟩ are actually the levels at which their specific quality (whether as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism) actively and comprehensively define and characterise each of the institutionalisations while bringing the notion to the collective-consciousness/personhoods-and-socialhood-formation successive existentialisms/full-depths-of-existential-implications. But then, such notions which can be weakly sensed in all prior institutionalisations are actually inconspicuously, selectively and occasionally introduced in the prior institutionalisation in graduated/staggered stages starting with the proto-prospective-institutionalisation right up to the prospective-institutionalisation; whether as proto-base-institutionalisation in recurrent-utter-uninstitutionalisation up to the graduated/staggered attainment of base-institutionalisation, proto-universalisation in base-institutionalisation–ununiversalisation up to the graduated/staggered attainment of universalisation, proto-positivism in universalisation–non-positivism/medievalism up to the graduated/staggered attainment of positivism, and effectively by a prospective insight, proto-notional–deprocrypticism in positivism–procrypticism. For instance, many an alchemist in the medieval world were actually very thorough and methodical in their pursuit with skills that
could be qualified as ‘rudimentary positivistic’. However, the fact that fundamentally their preconverging–de-mentating/structuring/paradigming was a dead-end like the pursuit of the philosopher’s stone and the implications of not having an outright positivistic outlook/ideology is what mostly distinguishes them from the complexion of ‘true positivists’. Likewise, the ordinary practices in the positivistic world of deontological and jurisprudential nature, in disparate formal constructs and settings mostly, are mostly geared to carry abstract and coherent universal virtue implications with respect to all humans as the-Good/understanding-driven formal principles constructs, however approximate their applicative success (a principle is a notion that can coherently uphold itself, i.e. a principle is a notion that warrants that all persons covered by its ambit act the same way or are subjected to it in the same way, and not disparately, and it carries universal import; the opposite of ‘inductive limitation’ or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-
<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\(^\text{106}\) as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology\(^\text{100}\) is not intemporal/not-of-totalising-entailment but speak more of a temporal motive). But behind that pursuit is a covert admittance that without the deontology and jurisprudence and the corresponding induced culture as artifices (however approximate their applicative success) humans in their social dynamics do not have the inherent exclusiveness of intemporal-disposition quality to ecstatically/spontaneously/solipsistically/emanantly/becomingly adhere to intemporal/\(^\text{104}\)universal notions on the mere basis of ‘preaching’ the intemporal/\(^\text{104}\)universal notions and virtues (as the-Good/understanding/notional–knowledge-reification–gesturing–<in-prospective psychologismic–apriorising/axiomatising/referencing–{of-attendant ontological–contiguity –educed–existentialising/contextualising/textualising-contiguity }— conflatedness –in–{preconverging-disentailment by}–postconverging-entailment>/ontological-

This is an unspoken recognition of the inherent reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—

individuations nature, and the need to skew/design/institutionalise/intemporalise ‘the social’ for the primacy of the intemporal-disposition individuation, as secondnaturing. This is equally an unspoken insight not only to modern institutionalised/intemporalised-thresholds-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation conceptualisation of the-Good (positivistic ontological-primemovers-totalitative-framework¹). Such an insight is equally implied in prior institutionalisations of the-Good conceptualisations wherein for instance the prophetic philosopher using the prophecy tools of their times, as the summum of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for the social criticism of their own times, won’t naively imply ‘I have preached to you thus you’ve attain the intemporal’, but rather construe insightfully of a practice (institutionalising practice) that cultivates a relative orientation towards the reinforcement of the intemporal, say like having the believers follow a whole routine from their expression of faith, praying in conscious reinforcement, to a way of living, however approximate in its applicative success in inducing an intemporal inclination. Positivistic secondnaturing of disparate frameworks of deontologies, constitutions and jurisprudence and the associated culture (as longness-of-register-of—meaningfulness-and-teleology¹⁰) can be seen as proto-deprocrypticism, including their individual and social internalisation in the collective consciousness, and these unsurprisingly are the few elements in the sovereignty constructs of positivistic democracies with their constituent public or private organisations and associations as well as subject matters and specialisms, that are always ferociously, blindly and without further justification upheld by
dialectically preconverging-or-dementing\(^{19}\)-apriorising-psychologism mental-devising-representation of the present procrypticism registry-worldview/dimension (which is prior) from the prospective registry-worldview/dimension (deprocrypticism) as the new ‘reference-of-thought, which will seem unintelligible to the prior even though it is actually more real suprastructurally and in ontological-normalcy/postconvergence, just as our representation of medievalism though more ontologically-veridical will seem unintelligible/existentially-suprastructural to a medieval mindset/ reference-of-thought in its closed mental-devising-representation of intrinsic-reality. Central to the notion of ‘deprocrypticism–or–preempting—disjointedness-as-of-‘reference-of-thought as the ‘veridical \(^8\)reference-of-thought’ articulation of (ontological-normalcy/postconvergence) as ontological-veridicality/ontological-contiguity as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation over the positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of reference-of-thought notional-discontiguity/epistemic-discontiguity \(<\)shallow supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema> as of its perversion of \(^8\)reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{10}\)-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and so in a prospective (supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) moment wherein ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontology) supersedes intradimensional-subknowledging -normalcy (temporal conventioning compromise). This dichotomy between conventioning and ontology is critical to understand human mentation development along the successive institutionalisations, as transcendental knowledge is by definition prospective and hence recognises the ontological limits/thresholds of conventioning as knowledge and virtue reference because to start with all conventioning institutionalisations are de-
mentatively/structurally/paradigmatically in want of prospective transcendence-and-
sublimity/sublimation/supererogatory--de-mentativity whether as recurrent-utter-
institutionalised, ununiversalisation, non-positivism/medievalism or procrypticism in a
prospective insight. Conventioning as such could only prospectively reflect ‘sound
reference-of-thought status’ when it prospectively coincides/proxies ontological-normalcy/prospective-
transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–
tonological-preservation; the holy grail of the notional--deprocrypticism institutionalisation
ideal. But actually a conventioning construct in contrast to attaining such a prospect of ‘utter-
purism-of-ontology’ rather tends to operate on the basis of least-acceptable-meaningfulness-or-
value-reference-denominator for that conventioning construct, and the latter is thus the
‘effective meaningfulness-or-value-reference’ of the said conventioning construct
notwithstanding any grander ontological meaningfulness-or-value-reference striving for utter-
purism-of-ontology. The implication here is effectively that grander ontological and
philosophical meaningfulness-or-value-references are no more pertinent in a conventioning
construct than its least acceptable meaningfulness-or-value-reference-denominator but for
discretionial or prestige basis of discretionial and disparate recognition, out of discretionary
formalisation in inducing the secondnaturing and internalisation for that recognition. This
insight is pertinent in that in the construct of ontology driven meaningfulness-and-value-
references of intellectual grounding (purism-of-ontology), it is important to grasp that the social
integration of meaningfulness-and-value-references in a conventioning construct is effectively a
least-acceptable-meaningfulness-or-value-reference-denominator-driven dynamism, and that it
is by an effective utilisation of the institutionalisation percolation-channelling,<in-deferential-
formalisation-transference> mechanism that such ‘purism-of-ontology’, by it’s the-Good, can
stand out in bringing to bear its human and social emancipation potential. In the same token,
thus it is equally important to grasp that primacy of meaningfulness-or-value-reference
orientations in conventioning constructs do not necessarily has to do with a primacy of ontological-veridicality pertinence especially where it is not driven by intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity but by social-aggregation-enabling, notwithstanding that such a conventioning construct may be seen as the social reference of grander meaningfulness-and-value-references in its subject area, and so fundamentally because it is a least-acceptable-meaningfulness-or-value-reference play-out notion and not an-utter-purism-of-ontology-reference notion. Thus the perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of meaningfulness in our positivistic registry-worldview/dimension should prospectively be subject to de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—or-attributive-dialectics) with corresponding de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) even though it won’t be intelligible from our vantage superseded/transcended registry-worldview/dimension point just as with all transcended/superseded registry-worldviews/dimensions. The narrative/storying technique for a comprehensive postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectical representation involves articulating a comprehensive organic-comprehension-thinking narrative in ‘intemporal-prioritisation-of-reference-of-thought—as-conflatedness-or-ontological-reprojecting by which varied induced threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to-attendant-intradimensional—prospectively-disontologising—preconverging/dementing—apriorising-psychologism narratives in circumventing/distractive-temporal-prioritisation-of-reference-of-thought naively arise, and over which an organic-comprehension-thinking analysis dents the threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—

mentatively/structurally/paradigmatically dialectically-primitive/dialectically-out-of-phase (thus in need of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity), and the undermining of that registry-worldview/dimension is the intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming resolution of the epiphenomenon of sorcery across metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation. It should be noted that an intemporal or ontological or longness-of-register-of—meaningfulness-and-teleology resolution to perversion-of- reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation ≥ in any registry-worldview/dimension is well beyond the notion of resolving just an underlying causative subknowledging-impulse/compulsive-dementing (condition from say a physiological cause), like psychopathy in the positivistic registry-worldview/dimension or a sorcerer accuser in a medieval registry-worldview/dimension. That may explain the initiation of a loss of intemporal social-universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising—in-relative-ontological-completeness ) arising from postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation for instance which is then at the base of a registry-worldview’s/dimension’s uninstitutionalised-threshold (which is overall the de-mentative/structural/paradigmatic issue to be resolved), as temporal-dispositions are out of a ‘deferential-formalisation-transference’/skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublminating/supererogatory-de-mentativity) institutionalisation setup, whether at
recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism from the insight of their respective prospective institutionalisation as the resolution in the form of base-institutionalisation, universalisation, positivism or deprocrypticism. The point is reality is as of ontological-normalcy/postconvergence and suprastructural and is not constraint to and have nothing to do inherently with human mental-devising-representation incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional-disjointedness, as it is up to us to proxy to it and hence we can’t say we want to think-one-way or we’ve-been-thinking-a-certain-way (as reference-of-thought-categorical-imperatives/axioms/registry-teleology to naively imply that reality will and should comply, as failing/not-upholding-as-of-apriorising/axiomatising/referencing-reference-of-thought-categorical-imperatives/axioms/registry-teleology speak of human mental-devising-representation dead-ends and the need for postconverging-de-mentating/structuring/paradigming shifts. Likewise, a suprastructural conceptualisation is one construed beyond and not limited to the {cumulated/recomposured}-consciousness-awareness-teleology or mental-devising-representation of a registry-worldview/dimension reference-of-thought-categorical-imperatives/axioms/registry-teleology, i.e. not limited to its temporal conventioning compromise. In that sense, the knowledge-notionalisation is about ‘a deterministic and operant construct preserving intemporality/longness as ontology’. It is the cause-and-effect-effective-predication by its grander grasp of intrinsic-reality that by way of untenability/internal-contradiction/internal-incoherence/institutional-constraining and social universal-transparency—{(transparency-of- totalising-entailing—as-to-entailing- <amplituding/formative–epistemicity>totalising–in- relative-ontological-completeness )} imposes crossgenerationally the dominant as transcending/superseding meaningfulness over the dominated as transcended/superseded meaningfulness (there is no social-and-temporal-trading in that regard); as the intrinsic-reality that the transcending/superseding meaningfulness carries is suprastructural and ontological-normalcy/postconvergence and doesn’t adjust to the mortals, that we are, ‘social-and-temporal-trading’, otherwise the supposedly transcending/superseding compromises itself with respect to intrinsic-reality and losses its pertinence as a proxying reference-of-thought to intrinsic-
reality, to start with. Such an insight can be garnered as, for instance, in the natural sciences we can’t negotiate about gravity being 9.8 m/s², but with ‘the social’ which is rather ‘emotionally involved’, such negotiated social-and-temporal-trading idiocy is surprisingly quite recurrently articulated. It should be noted that the ‘de-mention-(supererogatory-ontological-de-mention-or-dialectical-de-mention—stranding-or-attributive-dialectics) of reference-of-thought’ in upholding a mental-devising-representation of temporal-dispositions as preconverging-or-dementing/apriorising-psychologism-stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> is rather a comprehensive intemporality-preserving ontological-entrapment of the ‘notional-discontiguity/epistemic-discontiguity <shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ (i.e. absolving/fleeting/escaping-reflex–logic -by-psychopathic-in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>/other-temporal-dispositions-hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex in wrongly implying and exploiting the supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex so as to wrongly align to the next looped narratives as straight/candored-and-dialectically-or-contendingly-in-phase whereas veridically these are also of notional-discontiguity/epistemic-discontiguity-as-of-epistemic-decadence as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase or preconverging-or-

The ontological-normalcy/postconvergence nature of intrinsic-reality as such explains why ontological-veridicality is rather a reasoning-through/utterion to apprehend intrinsic-reality, over \textsuperscript{incrementalism-in-relative-ontological-incompleteness}—enframed-conceptualisation and notional—procrypticism/notional—disjointedness-as-of—reference-of-thought which is more about ‘transversality\textsuperscript{for-sublimating—existential-eventuating/denouement}—of-affirmative- and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ human conceptual elucidation of reality’ (given that the former emphasises ontological-primemovers-totalitative-framework\textsuperscript{73} as all-determinant); with reasoning-through/utterion generally implied in formal constructs and settings as the-Good/understanding/notional—knowledge-reification—gesturing\textsuperscript{in-prospective.psychologismic—apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness—in—\textsuperscript{preconverging-disentailment—by—postconverging-entailment}—ontological-primemovers-totalitative-framework\textsuperscript{73} settings while informal constructs and settings tend more to \textsuperscript{incrementalism-in-relative-ontological-incompleteness}—enframed-conceptualisation and notional—procrypticism/notional—disjointedness-as-of—reference-of-thought and hence are highly teleologically-degraded as impression-driven/good-naturedness settings. The reason is that formal constructs and settings emphasise ‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness\textsuperscript{—or—ontological-reprojecting} in longness-of-register-of—meaningfulness-and-teleology\textsuperscript{10} and hence are equally highly deferential whereas informal constructs and settings do not constrain temporal-dispositions and hence are highly subjected to circumventive/distractive-temporal-prioritisation-of—reference-of-thought in shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{10} and are unsurprisingly rather not deferential given that they are opened to hotchpotching/undisambiguation of notional—firstnaturedness—
temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>. ‘Intemporal-prioritisation-of-‘ reference-of-thought’–as-conflatedness’-or-ontological-reprojecting points out that conventioning constructs like sub-par/formulaic-association/temporal/alibi conventioning-rationalising do not supersede the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/intrinsic-veridicality, as may be naively advanced with circumventing/distractive-temporal-prioritisation-of-reference-of-thought, such that just as the conventioning construct of non-positivism/medievalism cannot be evoked to imply that with respect to a non-positivism/medievalism mindset/reference-of-thought a prospective positivism mindset, which is the outcrop of an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness’-or-ontological-reprojecting exercise in non-positivism/medievalism registry-worldview/dimension, is unwarranted. Likewise, it is rather naïve and <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to advance circumventive/distractive-temporal-prioritisation-of-reference-of-thought concerning psychopathic and its social psychopathic collorary (<perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) in wrongly implying that a notional–deprocrypticism ontological-escalation/aetiologisation is unwarranted. More like the evocation of circumventive/distractive-temporal-prioritisation-of-reference-of-thought about a past war criminal or rapist based on conventioning constructs like their being in the past, their settled lives, etc. doesn’t dispense them from ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness’-or-ontological-reprojecting, the need for their judgment and/or in advocating unfailingly/infallibly the uncompromising notions against rape or war crimes, and so without conjugating/inflecting/deriving any excepting human temporal circumstances into it by
circumventive/distractive-temporal-prioritisation-of-'reference-of-thought. This further point to the dichotomy between temporal-compromising-conventioning and ontology, with a registry-worldview’s/dimension’s institutionalisation dialectics wherein ontology as ‘reference-of-thought/ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation perpetually elevates conventioning. This further translates in the conceptualisation of value-and-valor with the implication that while aspiring for temporal values and valor may be the standard <amplituding/formative> wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> perception, however, grander value and valor effectively lies in the universalising and philosophising orientations (as ontological-profoundness-of-thought/ontological-normalcy/postconvergence in contrast to conventioning-profoundness-of-thought/intradimensional-subknowledging-normalcy) that enable the possibility, the construct and the upholding of human emancipation across <cumulating/recomposuring–attendant-ontological-contiguity>-successive registry-worldviews/dimensions in the very first place, that is, emancipation into base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. Aristotle’s advocating of the ‘golden mean’ is more of a heuristic and aesthetic notion but doesn’t has an ontological-basis as it is rather an impromptu articulation of a sense of desirability but fundamentally lacks the-Good/understanding/notional–knowledge-reification–gesturing-in-prospective-psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in-{preconverging-disentailment_by}–postconverging-entailment/ontological-primemovers-totalitative-framework reference of ontological-contiguity but for naively and

thinkers or even prophesiers were striving for actually. Aristotle nor Socrates nor Plato nor the
prophesiers (working rather more assertively on ‘supernatural postconverging–de-

Darwin, Leibniz, Rousseau strove for the golden mean in their overall endeavours. Rather from

-presencing—absolutising-identitive-constitutedness since we can appreciate the ontological-impertinence of such a golden mean notion with regards to the fact that the <cumulating/recomposuring-attendant-ontological-contiguity>-succession of registry-worldviews/dimensions as manifesting their very own prospective disontologising uninstitutionalised-threshold renders absolutising their successive supposedly golden mean ontologically ridiculous as to the need for their prospective ontologising-and-re-ontologising for prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity). It is the establishment of such first-order-ontology for-prospective-living as base-institutionalisation, universalisation, positivism and prospectively notional-deprocrypticism which are of transcendental nature as ‘shaping the human psyche’ (as to prospective Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) and providing the emancipatory umbrella for second-order-ontology (as to derived institutional-development-as-to-social-function-development and living-development-as-to-personality-development) and their temporal yearnings which are rather non-transcendental prospectively and cannot de-mentatively/structurally/paradigmatically resolve fundamental issues, and of circular institutionalised-being-and-craft. A Rousseau may not be the ‘shrewdest aristocrat’ in terms–as-of-axiomatic-construct of the ordinary value of personal gain of the medieval world but the first-order-ontology resolution of issues of social emancipation passes by his and likeminded first-order-ontology philosophical projection. This certainly applies with regards to
defining transformative impact of transcendental constructs across all registry-worldviews/dimensions that does not compare with ordinary being-and-craft second-order-ontology sense of value which is rather intradimensionally circular and is hardly of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming addressed from first-order-ontology constructs. Granted if humans had absolute mentation capacity then ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness—ontological-reprojecting will be skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—mentativity) or rather supersede/encompass all such desirabilities implied by the golden mean. However, we don’t have absolute mentation capacity and the most intemporal of our dispositions should take pride of place in defining our achievement motives whether as philosophies, causes, skillsets and talents in our value and valor aspirations, in line with the notion of a true principle, with the implication that such value and valor is capable of rationally upholding itself and its registry-worldview prospectively when implied universally (as to the fact that it is on this basis that human institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism⟩ has been self-perpetuating in explicating the ontological-contiguity—of-the-human-institutionalisation-process). worldview’s/dimension’s uninstitutionalised-threshold. Of course, this is more like a ‘notional template’ in a ‘dynamics of benign implications to grave existentialism/full-existential-depth-implications’ articulated over a functional social-construct which however ‘endemises psychopathy and social psychopathy rather at the uninstitutionalised-threshold of the positivistic meaningfulness reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation ≥ known as procrypticism preconverging-or-dementing–apriorising-psychologism, requiring futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism institutionalisation/intemporalisation (for the furtherance of the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or ontological-contiguity /ontological-veridicality). Further, it is important to appreciate that just as with the profoundness of treatment of subject-matters and specialisms (and even more so with regards to ‘the social’ given its characteristic ‘emotional involvement’ aspect), corresponding subject-matter ‘focussing of analysis and jargon’ will seem rather unusual and unnatural to ‘ordinary thinking’. But then ‘ordinary thinking’ is responsible for mostly nothing, if not thinking mostly in the extended-informality–(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology), and cannot be made a reference of formal thinking as issues requiring profound treatment invariably are construed based mostly on unordinary formal constructs which, granted, should be able to ultimately by their ontological-prime movers-totalitative-framework demonstrate that such formal constructs are the best ontological and virtue conceptualisation with regards to the issue or domain of concern. That’s why the populace is not asked its opinion about the law or astronomy or
medicine, for instance, as the need for deferential-formalisation-transference arises for the effective ontological/intemporal treatment of domains of reality but for when the issues at stake require a sovereignty exercise requiring individuals informed consent whether political or decisional or rather as social learning/inculcation exercise; but then sovereignty exercises are not pure knowledge/ontological constructs but for the construals/conceptualisations of inherently sovereign choices as knowledge/ontological constructs of the sovereign choices. Thirdly, the conceptualisation of this paper is rather unusual and unordinary as it is transcendental by its construct and the implied registry-worldview/dimensions successive existentialisms/full-depths-of-existentia-implications, and even further unusual by its phenomenological and hermeneutics methodological approaches, which frankly speaking is the only way to creatively garner such insights in broad strokes. Like with all transcendental constructs, which by definition tend to put the usual/ordinary in question, it is not surprising that it will sound highly alienating to ordinary ways of thought. However, its ethos is that it is coming from a depth of conceptualisation that is more profound than our ordinariness when it grasps that other institutionalisations whether as recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism, had their own ‘ordinariness’ in<br>\[\langle \text{amplituding/formative–epistemicity}\rangle\text{totalising–self-referencing-synergising/circularity/interiorising/akrasiatic-drag}\] no less than we do, and that the underlying ontological reasoning is beyond the illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-synergising/mirage as metaphysics-of-preservation–(implicated-‘nondescript/ignorable–void ‘as-to- presencing—absolutising-identitive-constitutedness\]}, of any registry-worldview/dimension including our positivistic meaningful frame, to arrive at a superseding and more profound ontological-veridicality or grasp of intrinsic-reality with corresponding illuminating implications. In that sense, an
argument of the type our society is great as it is, will then be meted with a same argument that there were great things happening in medieval times as well and maybe we shouldn’t have transcended into positivism; speaking of a fundamental solipsistic ontological-bad-faith/inauthenticity\(^4\). One could argue in the logic of those times, the serfs were doing great feeding themselves, as many did argue; and there was no need for science, as many did argue, etc. The fact is we are the outcrop of the possibility and potential for human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity before which doesn’t end with us but proceeds to undermine our own registry-worldview/dimension as well. Fourthly, it is obvious that if and where what is factored in is only the folksy ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ perspectives of individuals existentialism/full-depth-of-existential-implications of shallowness of scale and time, without the requisite philosophical depth requiring a profound appreciation, understanding and insights from ‘humanity existentialism/full-depth-of-existential-implications level scale and time’ which easily gets lost, and thus this bigger pursuit of this paper will be lost and misunderstood by such a shallowness of scale and time of thought, and non-contemplation and pseudologism as a mark of banality/folksy-logic. It is inevitable, as has been the case throughout the human past, that transcendental ideas are inevitably suprastructural/beyond-the-consciousness-awareness-teleology\(^5\)-<in-preconverging-existential-extrication-as-of-existential-unthought> of the <amplituding-formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview/dimension in which such notions are being advanced in. Fifthly, it is more likely that a banal/folksy inclination may hardly appreciate the difference between the outcome of a mindset/reference-of-thought as a secondnaturedness and internalisation construct across successive institutionalisations with their requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring induced from intemporal-disposition individuation disposition, and correspondingly
differentiate between being so-institutionalised with a secondnatured and internalisation mindset/ reference-of-thought and the intemporal–individuation disposition that will equally be responsible out of mere intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality (and no secondnaturing and internalisation) for institutionalising/intemporalising with regards to the present registry-worldview/dimension at its uninstitutionalised-threshold that will be behind the secondnaturing and internalisation of prospective registry-worldview/dimension. This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions; and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the institutional-cumulation/institutional-recomposure⟨as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-⟨perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩⟩, and inherently implies ‘a universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’ though of differing ‘snowballed recomposuring’ of meaningfulness and reference-of-thought, defining their specificities and potentials. This is just a basic anthropopsychology/the-anthropological-continuity elucidation which while original and useful on its own right, is equally pertinent for an insight in the social manifestation of psychopathy. Besides, one can imagine that a thorough grasp and creative application of the ‘de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as to ontological-normalcy/postconvergence drive, as this psychologically reflects/perspectivates postconverging-or-dialectical-thinking—apriorising-psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> and
preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism–<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> of mental-devising-representation by which human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occur can ultimately be the avenue for liberating the human mind to its full potential and directed transcending capacity. That is, transcendental capacity not only by way of a spontaneous and natural dialectical cycle of social-stake-contention-or-confliction behind the ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring history but a ‘consciously directed’ abstract understanding, more like deprocrypticism-over-procrypticism could-be and would-need-to-be relatively highly consciously directed given the relatively lower immediate positive-opportunism—of-social-functioning-and-accordance\textsuperscript{76} (for survival-and-flourishing to the cross-section of human temporal interests) compared to the lower transcendence-and-sublimity/sublimation/supererogatory–de-mentativity like base-institutionalisation, universalisation and positivism, but for its abstract veridical pertinence and potentially grander possibilities in the institutionalisation/intemporalisation percolation-channelling-<indeferential-formalisation-transference>. Such a veering to the creatively abstract, with respect to the philosophical and the social sciences, but nonetheless ontologically veridical will be liberating/emancipatory from the ‘spontaneously natural dialectical cycle of human progress’ and is increasingly certain to be the defining feature of human civilisation. It should be noted that Entropy as defined (‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation’) relates that the intemporal-preservation-institutionalisation entropy is the preceding-and-defining reference for the hermeneutic-referencing of the ontological meaning of all other associated conceptualisations and notions, and so as to nonpresencing–<perspective–ontological-normalcy/postconvergence> epistemicity. Central to the hermeneutics approach towards elucidating psychopathy and the underlying
psychological science is a method herein qualified as ‘referentialism’ which makes reference to
the supersedingness/precedingness of the ‘intemporal preservation institutionalisation/intemporalisation entropy/contiguity’ before articulating concepts and
notions in referential and organic elucidation of the entropic construct. Referentialism as such is
actually central to the spontaneity required in hermeneutics. It differs from the traditional
scientific categorisation of concepts and notions, in that referentialism implies a highly
contiguous, circumstantial and dynamic referencing elucidating of the superseding/preceding
entropic notion while categorisation tends to be basically constitutive, definitive and ‘weakly
contiguous/relatively-fragmented overall’ in its elucidation of notions, concepts and ideas.

Categorisation has been very efficient with the physical and biological sciences with its
classification approach enabling a profoundness of analysis while enabling excellent subject
matter organisation. However, this author is of the opinion that categorisation as an approach is
actually less efficient in the social sciences (and notions of an ephemeral character) as it
underemphasises the ‘organic dynamism’ of social concepts and often leads to relatively trite
classification schemes that are often inoperant or poorly operant given the relative ephemerality
of the social world (a weakness of many categorisation classification schemes in the social
On the other hand, referentialism carries the promise of ‘point-referencing’ notions and concepts in a contiguously dynamic, evolving and ontological-reconstituting—as-to-conflatedness/deconstruction way, putting emphasis on the relative relation of concepts and notions towards the central notion in its dynamic entropic conceptualisation (herein underlied by conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism as to human limited-mentation-capacity-deepening\(^1\)). This author is also of the opinion that referentialism is actually the natural human cognitive development approach to acquisition and classification of knowledge with emphasis on ‘the organic dynamics of understanding’ wherein a child for instance doesn’t necessarily grasp outright the fullness of concepts-of-meanings but rather the ‘relevant dynamic contextualisation of meanings’ ensuring a strongly operant and ‘wealthy’ relationship with meaning in the social context. ‘Intemporal-preservation-entropy-or-contiguity—or—ontological-preservation re-institutionalisation’ with respect to uninstitutionalised-threshold\(^0\) of registry-worldviews/dimensions, can be construed as follows: Supposed all humanity across space and time that ever existed was just ‘one human temporal-to-intemporal individuation’, the process of general-institutionalisation from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to ununiversalisation–non-positivism/medievalism to positivism–procrypticism, and prospectively to deprocrypticism, is actually one same process but for ‘lack of the human-mentation-capacity and need for time for the cumulation of the mentation-capacity’ (lack of ‘brain capacity’) to get it all right from the start (i.e. to fully grasp notional–deprocrypticism starting from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to ununiversalisation–non-positivism/medievalism to positivism–procrypticism as convergent concepts towards notional–deprocrypticism (as ‘longness-of-register-of—meaningfulness-and-teleology\(^0\) over shortness-of-register-of—meaningfulness-and-teleology\(^0\) in reflecting holographically—conjugatively-and-transfusively> the ontological-contiguity\(^0\)—of-the-human—

institutionalisations are thus construed as ‘levels of compromise’ allowing for sufficient human
limited-mentation-capacity-deepening to handle the requisite transcendence-and-
sublimity/sublimation/supernatural—de-mentativity even if from the very start the human
doesn’t get a grasp of ‘higher institutionalisation/intemporalisation registry-
worldviews/dimensions’ all-at-once/as-a-whole but achieves the ‘comprehensive
institutionalisation/intemporalisation frame’ only at deprocrypticism; as it goes on to take on
the successive challenges of base-institutionalising, then universalising, then positivising,
and finally with notional–deprocrypticism absolute ontological-contiguity by undermining

In the bigger scheme of things, it points to the fact that ontologically for the full potential of human science, this should be ‘rising from this fundamental philosophical depth/profoundness of thought’ to then transversally

For instance, there isn’t any logical nested-congruence between the non-positivism/medievalism mindset and the positivistic mindset. A positivistic mind can’t explain the denaturing of the notion of witchcraft to a non-positivism/medievalism mindset as the state of being of non-positivism/medievalism means we make reference to non-positivism/medievalism categorical-imperatives/axioms/registry-teleology that end up endemising/enculturating such superstitious notions. Logic as logical-congruence only arises where there is a mutual registry-worldview reference-of-thought–categorical-imperatives/axioms/registry-teleology. What is thus needed is a ‘psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ of the medieval mindset/reference-of-thought (which is subknowledging/mimicking) wherein the untenability/internal-contradiction/internal-incoherence/institutional-constraining generated by the positivist’s scientism (superseding) makes the medieval mind put in question its reference-of-thought–categorical-imperatives/axioms/registry-teleology in the very first place. This ‘psychoanalytic-
unshackling process’ equally applies prospectively (regarding the positivism–procrypticism and the notional–deprocrypticism registry-worldviews/dimensions). In the phenomena of social psychopathy, it is important to grasp that the reflex to mentally represent the narratives of the psychopath and the protraction of the narratives by temporal supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism or prelogism\(^9\) minds as ‘straightness/candor/organic-comprehension-thinking of mind’ is wrong, ‘overcoming the mental-slantedness/decandoring/distractive-alignment-to-’reference-of-thought-<of-apriorising/axiomatising/referencing>\(^9\) is thus called for, more like we perceive the ‘slantedness of a childhood cinglé’ (in terms—as-of-axiomatic-construct of the mental state of the psychopath as well as its protraction on the psychopath’s interlocutor). In other words, *the mind is actually a mental devising tool* whose veracity/ontological-pertinence must be validated by an abstractly veridical intrinsic-reality/ontological-veridicality. In other words, the abstract grasp of intrinsic-reality/ontological-veridicality defines mental-devising-representation as the latter is not inherently given (it is a devising tool validated by abstract intrinsic-reality/ontological-veridicality established by ontological-primemovers-totalitative-framework\(^7\)). For instance, while the traditional reflex of the human mental-devising-representation is disposed to think otherwise, Einstein theory-of-relativity abstraction, and likewise with many conceptualisations of a doppler-thinking nature, is more real by its ontological-primemovers-totalitative-framework\(^7\), thus pointing to the error of the human reflex/impulse thinking). In another light, this explains the transformative evolution of our registry-worldviews/dimensions mental-devising-representations of reality from the recurrent-utter-utter-uninstitutionalised earlymen to our current positivism–procrypticism registry-worldview, with the insight that our mental-devising-representation will evolve when prospective abstract reality ontological-primemovers-totalitative-framework\(^7\) shows that it is defective/perverted as

The reason why virtue (knowledge is virtue) is treated scientifically as highlighted above is that virtue is a ‘the-Good/understanding/knowledge construct’ and not a ‘good-natured/impression construct’. For instance, no non-positivism/medieval mindset is ‘good-natured/vague by the registry-worldview/dimension impression’ enough with the fundamental defective/perverted non-positivism/medieval worldview to be able to address ‘the-
Good/understanding’ of a positivistic mindset which will resolve or structurally-rendered-

longer do institutional slavery, we talk of universal rights and equality of all people, mob judgment and mob killing is hardly practised anymore, accusations of witchcraft are now viewed as ridiculous, etc.; it is the integration of a positivist registry-worldview/dimension, with corresponding psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that enabled such human transformation from a non-positivism/medievalism registry-worldview/dimension; and not the inherent exceptionalism, as biological or otherwise, of humans living now over their forerunners. These fundamental human mental-devising-representation or apriorising–registry tools of candoring and decandoring points to the very nature of logic. Logic requires that all interlocutors share a same reference-of-thought with regards to \textsuperscript{8}categorical-imperatives/axioms/registry-teleology\textsuperscript{100}/registry-teleology\textsuperscript{100} for its sound operation, thus logic can only be operated at institutionalised/intemporalised thresholds, and not as of uninstitutionalised-threshold\textsuperscript{103} where there is divergence in reference-of-thought construed meaningfulness-and-teleology\textsuperscript{100} construed as transversality\textsuperscript{7}<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’\textsuperscript{7}. At uninstitutionalised-threshold\textsuperscript{103}, given the veridicality of human emanance as temporal-to-intemporal, logic is ridiculous because of the variance and unshared reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}/registry-teleology\textsuperscript{100} in terms–as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{100} with respect to argumentation, ‘socially-perceived-value as of social-stake-contention-or-confliction’. At which point no articulation is inherently more right, however, the intemporal-disposition being ontological has ontological-primemovers-totalitative-framework\textsuperscript{7} veridicality and carries a positive-opportunism—of-social-functioning-
and-accordance that can allow it to dominate human temporal-dispositions reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) their registries/mental-representations perversion, and so, through social institutionalisation/intemporalisation percolation-channelling-in-deferential-formalisation-transference> in the medium to long-run. It is only after such uninstitutionalised-threshold is superseded/dominated/preceded/overridden/uttered by the intemporal-disposition as an ordered construct institutionalisation/intemporalisation with corresponding human secondnaturings as internalisation and formalisation that logic becomes pertinent as it now operates only on one axiomatic-construct/categorical-imperatives/registry-teleology that establishes the ‘substantive hermeneutically/reprojectively/supererogatingly/zeroingly cumulated/recomposured abstract-tissue-of–social-emanance as to attendant–ontological-contiguity–educated–existentialising/contextualising/textualising-contiguity’ (not formulaic-projection/mimicry) and veracity/ontological-pertinence of interlocutors’ articulations. The dispositional nature of our inclination to subknowledge (preknowledge) implies that a prior understanding or referral to reference-of-thought is necessary. This raises two dilemmas with respect to the constitution of what is realist—realism. The first is the notion of temporal-dispositions induced manifestations are not accounted for, anticipated and preempted beforehand as of an a priori disposition. The second is the recognition of intemporal-consistency or ontological-consistency of the notion of temporal-preservation. This raises two dilemmas with respect to the conceptualisation of virtue as rational-realism implies that at the proconviction—or disjointedness-as of the reference-of-thought uninstitutionalised threshold, we have to register/acknowledge priorly our inclination to subknowledge (preknowledge).

(ii) Conventioning metaphoricity involving in a continuum on one side ontologising rationalising though ontological-veridicality is not the sufficient reason for the social acceptance of rightness for rightness sake (as explained previously) and on the other side intemporality /ontology distractive sub-par/formulaic-association/temporal/alibi conventioning-rationalising. ‘Rational-realism of notional—deprocrypticism as of ratiocination/ratio-contiguity as nondisjointing or institutionalisation/intemporalisation full-cycle’ can thus be construed as a contiguous cumulation of successive memetic-reordering (as institutional recomposuring) for intemporal-preservation-entropy—or-contiguity—or—ontological-preservation; with such successiveness due to the limitation of human mentation-capacity to be able to mimetically (across suprastructural-meaningfulness) come full-cycle in one transcendency—sublimity/sublimation/supererogatory—de-mentativity, explaining the recomposuring of the successive institutional-cumulation/institutional-recomposure—(as—to—historiality/ontological—eventfulness /ontological-aesthetic-tracing—<perspective—ontological—normalcy/postconvergence—reflected—‘epistemicity—relativism—determinism’>) from recurrent—

Hence intemporal-preservation is a memetically/psychoanalytically evasive construct at uninstitutionalised-threshold, the pursuit of which is veridically the human species eudaemonic contemplation, construed as ‘postconvergence memetic recomposing’; recomposure is defined as ‘ontological-representation/ontological-memetism of intrinsic-meaningfulness (whether implying, on the one hand, an integrative/candor/organic-comprehension-thinking alignment or on the other hand, a distractive/decanored alignment as threshold-of–nonconviction/madeupness(bottomlining-in-shallow-supererogation-as-to–attendant-intradimensional’-prospectively-disontologising~preconverging/dementing–apriorising-psychologism>) towards intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ (as validated by veridicality/ontological-primemovers-totalitative-framework). This definition explains the succession of the recomposuring of institutionalisations with the notion that where intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is lost at a registry-worldview’s/dimension’s uninstitutionalised-threshold, a prospective registry-worldview/dimension is implied/recomposured that will ensure intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and undermines notional-discontiguity/epistemic-discontiguity-shallow-supererogation-of:

That is, ‘human progress/transcendence happens as a matter of fact, with no registry-worldview/dimension having any ontological and veridical claim/pretence to extricate itself from psychoanalytic-unshackling/memetic-reordering/institutional-recomposing—as-dialectical-stranding-backdrop-for-prospective-transcendence once it is shown that it subknowledges-or-mimics (as persuasion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) its reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{0},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold\textsuperscript{11}, even though this from the temporal-dispositions mindset/reference-of-thought is always an unpalatable proposition. But then the state of being in a transcended registry-worldview/dimension (as in our present positivist registry-worldview/dimension) arises because other prior registry-worldviews/dimensions successively underwent their own psychoanalytic-unshackling/memetic-reordering/institutional-recomposing—as-dialectical-stranding-backdrop-for-prospective-transcendence for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, at their uninstitutionalised-threshold\textsuperscript{11}; and so, going back to the recurrent-utter-institutionalised early men who left the caves and trees, thus any denial of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as articulated above is an argument which incoherence emanantly imply ‘we should go back to the caves and trees’, as we’ll seem to validate that prior registry-worldviews/dimensions should never had transcended up to our very own registry-worldview/dimension, and beyond,

The memetic-reordering is in recomposuring, at the uninstitutionalised-threshold as the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-<as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing- apriorising-psychologism> of (registry-worldview) apriorising-registry elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology (i.e. reference-of-thought–categorical-imperatives/axioms/registry-teleology) towards the transcending registry-worldview’s implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology (categorical-imperatives/axioms/registry-teleology) for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, in re-institutionalising the uninstitutionalised-threshold. There is no reason for de-mentation—supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics and recomposuring but for the fact that the internal coherence of a registry-worldview/dimension is failing/not-upholding-<as-of-apriorising/ axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or-ontological-preservation at its uninstitutionalised-threshold, as its threshold-of-non convolution/madeupness/bottomlining-in-shallow-supererogation-<as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing- apriorising-psychologism> provides the dynamic association for psychopathic/postlogic subknowledging/mimicking impulse leading to the vices-and-impediments of the registry-worldview/dimension from an intemporal/ontological perspective; and ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity–or–ontological-
preservation veridicality (as onontological-primemovers-totalitative-framework) is the drive that resolves lack of human mension-capacity for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (at uninstitutionised-threshold) by stranding-backdrop-for-transcendence and then recomposuring prospective registry-worldview’s/dimension’s institutionalisation. The example highlighted on page provides an excellent ‘logical insight’ on stranding-backdrop-for-transcendence and recomposuring of a registry-worldview/dimension that is failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold. … To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human subknowledging caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality,<for-sublimating-existential-eventuating/denouement>of-affirmative-and-unaffirmative–disambiguated-’motif-and-apriorising/axiomatising/referencing’ as from ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology are ‘mental and institutionalisation inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging/mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders reference-of-thought–categorical-imperatives/axioms/registry-teleology null and void, calling for overcoming the slantedness/decandoring/distractive-alignment-to-reference-of-thought–of-apriorising/axiomatising/referencing of mental-devising-representation as to
its unsoundness-or-ontological-bad-faith/inauthenticity<sup>64</sup>-of-<sup>84</sup> reference-of-thought arising from the perversion-and-derived-<sup>84</sup> perversion-of-<sup>84</sup> reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, and the articulation of new recomposuring<sup>84</sup> reference-of-thought-<sup>84</sup> categorical-imperatives/axioms/registry-teleology<sup>100</sup> reflecting the intemporal-preservation-entropy-or-contiguity-or-ontological-preservation as intrinsic reality. In practical terms, human/social VIRTUE is effectively articulated at ‘the crossroad of the notions’ of intemporal-disposition, ontologising/intemporal-disposition philosophical deference, conventioning, animality (the recurrent temporal-dispositions to subknowledge)<sup>preconverging-or-dementing -as-if-of-sound-knowledge</sup> intemporal<sup>84</sup> reference-of-thought– categorical-imperatives/axioms/registry-teleology<sup>100</sup>-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across successive institutionalisations) and institutional recomposuring (prospective memetic-reordering). It is important to note that an ontological construct ‘escalates’ specific/particular instances of phenomena (in this case psychopathy and social psychopathy phenomenon) into a<sup>104</sup> universal conceptualisation which ‘knowledge principle conceptualisation’ then addresses (percolates into) the ‘infinity of related incidental phenomena and cases’, i.e. newton articulates the science of mechanics metaphorically from ‘an initial apple that hits his head why under a tree’ not because the science of mechanics will revolve around an apple that hit his head but because he’ll grasp the insight to understand the myriad and infinity of instances requiring those laws of physics. So the intemporal-as-ontological pedestal (in its treatment) involves<sup>104</sup> universal projection to grasp<sup>104</sup> universal principles and is not meant to ‘equivocate and idle’ with ‘perversion-of-‘reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation temporal manifestations which are dialectically-or-contendingly-out-of-phase, but rather then apply the
knowledge principles so articulated to the theoretically infinite incidental instances (on the validation and untenability/internal-contradiction/internal-incoherence/institutional-constraining or internal-contradictions induced by the knowledge principles ontological-primemovers-totalitative-framework\(^{27}\)). Of course, no registry-worldview/dimension thinks of itself as prospectively dialectically-primitive/dialectically-or-contendingly-out-of-phase, and as such its ‘supposed contention’ will always by reflex strive to arrive at an equilibrium in the same registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\), but the template of human transcendence-and-sublimity/sublimation/institutionalisation/supererogatory–de-mentativity shows that the intemporal prospective/superseding registry-worldview reference-of-thought takes precedence with contention construed by its reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by the ontological-normalcy/postconvergence prioritisation of the relatively intemporal/universal/intrinsic, hence, ‘the inherent cumulating/recomposuring of intemporal-preservation-entropy’ going from recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism. Such a subknowledging/mimicking.registry-worldview denaturing resistance is not attended to logically/by-logical-congruence since a perversion-of-reference-of-thought\(<as-preconvergingly-apriorising/axiomatising/referencing-in-

preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview-perversion. For instance, men did not transcend from a medieval worldview to a positivistic worldview by a ‘logical exercise’ (the logical conceptualisation we have of such a transformation in today’s positive world is rather in effect an afterthought appraisal) but because the grander grasp on reality of positivism constrained and made the medieval registry-worldview untenable/internally-contradictory (the ships that set sail around the world for spices elicit a positive commercial opportunism that is responsible for destroying the social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not
coerced the destruction of a superstitious medical worldview; the scientific tools and
knowledge that ensured that nation A or nation B will triumph if they believe in it or not,
coerces the need to adopt a scientific worldview, etc.). It is naïve to think that such progression
occurred because of cross-sectional human ‘dimensionality-of-sublimating
disposition’. Rather it is a secondnatures/ontological-contiguity — of-the-human-institutionalisation-process as this notion inherently validates the
anthropological-continuity by distinguishing between the notion of same human natural ability
across the various registry-worldviews/dimensions and the notion more and more profound
institutionalised registry-worldviews/dimensions arising out of human institutional-
cumulation/institutional-recomposure-to the capacity bestowed by their forerunners; such that human limited-mentation-capacity is always mostly
directed to the transformative of activities while taking for granted much of the bestowed
knowledge heritage. Hence we can’t overrate the ‘dimensionality-of-sublimating

solipsistic human thought to wrongly imply human dimensionality-of-sublimating

Just as we work with the reality that all humans are disposed to have cancer and the virtue of curing is not denying but anticipating and preempting the possibility of having cancer with medicines, lifestyle, research, etc., i.e. ‘ontology is about working with what is/knowledge-driven, and not wishful-thinking/impression-driven’ to accede to intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity as this highlights ontological-primemovers-totalitative-framework. It is bluntly speaking a registry-worldview’s/dimension’s institutionalisation/intemporalisation exercise involving the skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference towards the intemporal-disposition for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, to ‘pedestally dominate and override’ temporal-dispositions in the cross-section/averageness/banality of solipsistic human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor. Reality is actually an ontological-primemovers-totalitative-framework construct. Mythologies, metaphysics and hearsays while proto-conceptual in human development are out of kilter, and the use of ontological-primemovers-totalitative-framework conceptualisation is the central notion of ontologies. Insightfully, human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’
normalcy/postconvergence—existentialism-form-factor speak of ‘the-real-nature-of-man’ that can be skewed with institutional recomposuring/memetic-reordering/psychoanalytic-unshackling towards intemporal-preservation-entropy-or-contiguity—or–ontological-preservation to explain how-man-can-be/the-nature-of-man at any registry-worldview level, retrospectively or prospectively. Whereas, man, if naively perceived as a whole rather only from the angle of a specific ‘institutionalisation/secondnaturing level’ which is in ‘existential immediacy’ this may seem to indicate that we are talking about ‘different species’ with ‘different ontological determinants’, which is naïve and false. The anthropopsychological approach to psychology is analogous to the development of physics which is not only on the basis of what is immediately at the consciously immediate human operational/functioning level of physicists but equally projecting into a physics conceptualisation of the macrocosm (astronomy and cosmology) as well as the microcosm (particle physics) in other to place the subject on a comprehensively sound footing. Central to such a sound footing in the ontological-normalcy/postconvergence conceptualisation of the social domain is the idea of notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> and institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism}>. On another note, it is critical to distinguish between a true philosophical development that arises by intemporal-disposition and an institutionalised development that is articulated to elicit ‘positive-opportunism—of-social-functioning-and-accordance’ in humans, so that the intellectual exercise doesn’t naively project a philosophical idealism where this doesn’t exist and by so doing undermine its work by naively projecting universal intemporality /longness and failing/not-upholding<as-of-apriorising/axiomatising/referencing> to articulate a realism that takes account of temporal
mental-dispositions (knowledge-notionalisation, i.e. apprehending not only intemporal implications of any knowledge construct, but preempting by transversality—of-affirmative-and-unaffirmative—disambiguated—motif—
existential-eventuating/denouement>—to potential temporal undermining of that intemporal idealism construct; the reason we institutionalise/intemporise and formalise with subsequent internalisation/secondnaturing). It should be noted that the use of the concepts of intemporality /longness and temporality /shortness is more scientific than the impression notions of good and bad. Intemporality /longness points to ‘what generates the greatest universal virtue as ontological which is universally-centered’ (and that this corresponds to reality-referencing and the ontology pedestal) while temporality /shortness points to ‘what generates the non-ontological as shallow interest that may be self-centered, at various pedestals, (and that this corresponds to totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and metaphysical pedestals’).

Intemporality /longness and temporality /shortness as such are operant knowledge concepts while good and bad are vague and non-operant impression concepts. In fact, why good and bad are impression-driven, intemporality /longness and temporality /shortness by their very definition above are made operant as an ontological-primemovers-totalitative-framework scientific principle (without making any reference to stigmatising impression of virtue) by the denotation as longness-of-register-of—meaningfulness-and-teleology (intemporality) and shortness-of-register-of—meaningfulness-and-teleology (temporality). That is, with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' (at uninstitutionalised-threshold) the intemporal mind conceptually asks what is the best disposition in universal-depth that abstractly delivers the greatest good to all humans in similar 'socially-perceived-value as of social-stake-contention-or-confliction' setup across space and time; while temporal minds under the same notion (intemporality-t-temporality) conceptually assume lower and
lower shades ‘in mentation-capacity terms’ of such an intemporal universal-depth concept articulation stressing in lieu of ‘all humans’ various shades of ununiversal, particular or temporal-self-interest dispositions. So there is a depth of continuity in ontological-primemovers-totalitative-framework in the notion of intemporality-temporality that doesn’t need any impression-drive, and this notion can certainly be made scientifically operant as it is a contiguous mentation-capacity-based notion in terms-as-of-axiomatic-construct of low to high mentation-capacity. The idea of shortness-of-register-of--meaningfulness-and-teleology and longness-of-register-of--meaningfulness-and-teleology as such is devoid of stigmatisation which is the result of articulating meaning with respect to vague impression-driven temporal references harkening back to the prior/transcended-superseded reference-of-thought rather than the prospective/transcending-superseding reference-of-thought; since shortness-of-register-of--meaningfulness-and-teleology and longness-of-register-of--meaningfulness-and-teleology are a contiguous value construct as in

conceptualisation but arrive at rationality (contiguous mentation-capacity/longness-or-
shortness-of-register-of–<meaningfulness-and-teleology> transience) or a
temperality/shortness in its various shades will imply a knowledge conceptualisation rather from the perspective of the comprehension of human species intemporal potential rather than mere extrication within a temporal inter-individuals-and-social-stake-contention-or-confliction context, wherein for instance the focus of a positivistic-inclined mindset/reference-of-thought is not to idly engage a medieval world in medieval terms to stigmatise as a final end but rather for the virtuous human species potentiality to transcend into positivism, and on the other hand equally not to shy away from articulating, however temporally unpalatable and unintelligible-or-existentially-suprastructural for the temporal present registry-worldview/dimension, an intemporal transcendental prospection on the validation that the present registry-worldview/dimension is the outcome of a same-kind intemporal transcendental prospection with a same-kind corresponding emanance unpalatability and unintelligibility for the preceding registry-worldview/dimension, be it in that case driven by a spontaneous and natural dialectical cycle of social constraints of stakes and confliction, in contrast now to a more ‘consciously directed’ abstract understanding regarding deprocrypticism-over-procrypticism (with intellectual responsibility itself being defined as the spirit for authentically upholding such construing/conceptualisation and/or facilitating it as enabling further self-development together with the furthering of social/specie development). The use of ‘human mental-dispositions/individuations’ as of notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> herein doesn’t mean ontologically that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal. But rather, it is an abstract construction of human notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> mental-dispositions/individuation potential possibilities that can
incidentally arise in any individual by a circumstance or circumstances across time and space; but with a strong propensity of specific dispositions being nurtured in varying profundity across different individuals as per context. This abstract and fleeting notion is known as ‘individuation’ (more like an abstract and superseding ‘hermeneutic-aetiology’ of notional-firstnatures-temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence-s, and hence the possibility of ontological-prime-movers-totalitative-framework or scientism), and is the more scientific notion over ‘individual’ (which is just the receptacle of individuations). By pedestal is meant the ‘temporal-to-intemporal individuations dispospositions of meaningfulness whether the intemporal-disposition individuation-pedestal or the temporal-dispositions individuations-pedestals (ignorance-temporal-disposition individuation-pedestal, affordability-temporal-disposition individuation-pedestal, opportunism-temporal-disposition individuation-pedestal, exacerbation-temporal-disposition individuation-pedestal, social-chainism/social-discomfiture/negative-social-aggregation-temporal-disposition individuation-pedestal or temporal-enculturation/temporal-endemisation-temporal-disposition individuation-pedestal). The intemporal and temporal-dispositions-registries individuations-pedestals imply and point to the underlying ontological-prime-movers-totalitative-framework basis of ‘the specific temporal-disposition meaningfulness-and-teleology. Further, by psychopathic or other postlogic subknowledging /mimicking-and-mimicking-protraction, the ‘temporal-dispositions individuations-pedestals’ wrongly conjugate/inflect/protract their apriorising–registry-elements (implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology) from aligning prelogically to postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation thus effectively being postlogic, and this can thus be predicated as per the ‘specific temporal-disposition’. Such postlogic temporal-dispositions individuations-
arrive at entropy on the basis of temporal-dispositions teleologies or shortness-of-register-of-meaningfulness-and-teleology (with the associated non-veridical temporal implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), i.e. temporal preservation teleologies are inclined to forego intemporal-preservation-entropy-or-contiguity—or—ontological-preservation teleology (ontological-veridicality/ontological-contiguity of reference-of-thought) at a registry-worldview’s/dimension’s uninstitutionalised-threshold, which should definitely be resisted by ‘intellectual responsibility’ which for the positivistic registry-worldview/dimension holds that the intellectual disposition is all too willing to be ‘romantic’ about the idea of human firstnature cross-sectional inclination for the intemporal-disposition and that intellectual responsibility is to acknowledge the veridicality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence—>’—existentialism-form-factor and be preemptive of the ‘non-ontological/non-knowledge/non-virtue temporal-dispositions threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to—‘attendant—intrdimensional—’—prospectively—disontologising—preconverging/dementing—<apriorising—psychologism—> by futural Being-development/ontological-framework-expansion—as-to-depth-of—ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism institutionalisation based on absolute ontological-contiguity and taking account of temporal-dispositions perversion-of—reference-of-thought—<as-preconvergingly—apriorising/axiomatising/referencing-in—nonconviction/madeupness/bottomlining—as-to—shallow-supererogation—>: just as the present positivism institutionalisation had been preemptive of human cross-sectional disposition for superstition by emphasising rational-empiricism, and the universalisation institutionalisation

meaning or at the uninstitutionalised-threshold of meaning involving perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> requiring distinctive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing>, and in the latter case the reflex to be integratively aligned is lost across all the temporal-dispositions of the perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> dimension, and what is called for with the unconscionability-drag is a distinctive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing> which will explain a dialectically-or-contendingly-out-of-phase or dialectically-primitive alignment by oblongating/decandoring/downgrading *, i.e. Remember ‘mental-devising-representation’ is a devising construct of preceding/superseding abstract reality/veridicality (postconvergence) as the latter never changes, and it is mental devising that adjusts to the illumination/insight we get about abstract reality/veridicality as validated by ontological-primemovers-totalitative-framework! In the bigger scheme of things, ‘unconscionability-drag’ as a notion points to ‘ontological abstraction and mental-devising-representation of reality/veridicality defect’ whether dealing with psychopathic postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> or temporal-dispositions conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing—apriorising-psychologism postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>s or simply plain temporal-dispositions ‘defective mental-devising-representation of ontological reality/veridicality’. The notion of ‘unconscionability-drag’ thus extends to all mental-devising-representation of perversion-of-reference-of-thought<as-preconvergingly-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of all registry-worldviews/dimensions with respect to the prospective transcendental as the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation registry-worldview/dimension, which is the point of ontological referencing (point-referencing). The reason why the ‘study of the social’ had hitherto been EPHEMERAL is because of the lack of contiguity in referencing the two elements of ontological meaning (reference-of-thought and logic); with reference-of-thought being hitherto undisambiguated in the social construction of meaning, thus leading to a ‘lack of constraining social universal-transparency’ of temporal-dispositions prior relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’ as-to-attendant-intradimensional–prospectively-disontologising–preconverging/dementing–apriorising-epistemology’. However as articulated above, the ‘unconscionability-drag’ carries the resolution for disambiguating reference-of-thought in the ontological social construction of meaning as it is fully aligned or ‘in ratio alignment’ to ‘an emanant transdimensional (across registry-worldviews) point-referencing of intemporal-preservation-entropy’ while reflecting a social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-epistemicity-totalising-in-relative-ontological-completeness) that shows the fallibility of temporal dimensions (amplituding/formative–epistemicity-totalising–intervalist-as-categorising-phenomenal-abstractionness-of-presencing-in–occlusive-consciousness–enabling–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or–incidenting-predicative-insights-of attendant–ontological-contiguity–reduced–existentialising/contextualising/textualising-contiguity–reifying-or-elucidating-of-

demonstrated below elaborating on the example highlighted before. Of course, this is just a most basic demonstration as ideally one can imagine a creative storied narrative should articulate the phenomenon to its utmost evolving complexities—a storying construal involving an underlying-and-superseding intemporal/ontologising emanant ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of historiality/ontological-eventfulness/ontological-aesthetic-tracing—as of the notional—conflicatedness of notional—deprocrypticism’ for ‘postconvergence intemporal-preservation-entropy-or-contiguity—or—ontological-preservation longness-of-register-of—meaningfulness-and-teleology as of procrypticism teleologies’. For instance, the storying construal ‘ontological/intemporal veridicality’ of non-positivism/medievalism perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> will be ‘utterly referenced’ from positivism; likewise that of recurrent-utter-uninstitutionalisation inherently—‘preconverging-or-dementing—apriorising-psychologism will be ‘utterly referenced’ from base-institutionalisation, that of ununiversalisation perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> has to be ‘utterly referenced’ from deprocrypticism/longness-of-register-of—meaningfulness-and-teleology over shortness-of-register-of—meaningfulness-and—
The reason for the above is that you can’t address a registry-worldview/dimension perversion-of-reference-of-thought-as-preconverging-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > phenomenal defect (psychopathy) without addressing the defects of the registry-worldview/dimension (procrypticism) that endemises it from the reference of the prospective transcendental dimension, just as you can’t address witchcraft without fundamentally addressing a non-positivism/medievalism registry-worldview that will necessarily and readily endemise superstitions and witchcraft. The peculiarities of successive institutionalisations is that these address the successive emanant dimensional defects of: recurrent-utter-uninstitutionalisation by emphasising ‘base-institutionalising’, ununiversalisation by emphasising *universalising*, superstition/non-positivism/medievalism by emphasising ‘positivising’, and procrypticism–or–disjointedness-as-of-reference-of-thought preconverging-or-dementing–apriorising-psychologism by emphasising the ‘undermining of disjointedness/subknowledging/mimicking’ and so as to ‘longness-of-register-of–meaningfulness-and-teleology  over shortness-of-register-of–meaningfulness-and-teleology  construed as deprocrypticising/preempting—disjointedness-as-of-reference-of-thought’ (noting that the latter institutionalisation/intemporalisation contains the sublimating–nascence of the previous institutionalisations up to its own threshold of institutionalisation/intemporalisation, with notional–deprocrypticism being organically imbued with all the prior/superseded institutionalisations); all these, pointing to ‘an ontological psychoanalytic/memetic-contiguity deconstruction across anthropology’ which the present treatment of psychology doesn’t recognise: (i) Psychopath narrative teleology: an adult psychopath meets a stranger and speaks to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children (ii) temporal-dispositions narratives teleologies: a stranger not knowing the other stranger aligning prelogically
to the psychopath’s narrative will have a ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing—apriorising-psychologism ignorance-temporal-disposition defect’ if it articulated the following narrative: (a) Such a person should not be allowed to roam the streets and should be interned. A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing—apriorising-psychologism affordability-temporal-disposition defect’ will arise if another interlocutor knowing the accused for not truly being a child molester but because of expediency with respect to the psychopath articulates the following narrative: (b) the guy is actually a bad person and they will not be surprise that he is a child molester. A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing—apriorising-psychologism opportunism-temporal-disposition defect’ will arise if a different interlocutor knowing truly that the accused is not a child molester but for a favour or sense-of-favour they owe to the psychopath articulates the following narrative: (c) this guy has been going around molesting young children for quite a while now. A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing—apriorising-psychologism exacerbation-temporal-disposition defect’ will arise where another interlocutor knowing the truth about the whole thing, thinks they can have an advantage by acting likewise as the psychopath and articulates the following narrative (d) they had actually witnessed the accused shoplifting. A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing—apriorising-psychologism social-discomfiture/(social-chainism/negative-social-aggregation)-temporal-disposition defect’ will arise where (e) such narratives are purposefully and consistently relayed in the social sphere based on ignorances/desublimation, affordabilities, opportunisms and exacerbations, and individuals come to make it a reference for their relation with the accused. And finally, a ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-
dementing apriorising-psychologism temporal-enculturation (temporal-endemisation)-temporal-disposition defect' arises where (f) individuals come to learn that by having the appropriate social relations and social support network they can then initiate such narratives if they were to have competing 'socially-perceived-value as of social-stake-contention-or-confliction' situations with others, and not only that it also includes individuals passively accepting and giving up on the principle of the intemporality/longness and intrinsicness of meaning. It is important to distinguish all the above 'temporal instances conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing apriorising-psychologism of the psychopath’s postlogism-slantedness in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, and is different from 'a defect of logical operation/processing/contention which does not imply any temporal-disposition defect (in terms–as-of-axiomatic-construct of perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> or the denaturing of the reference-of-thought-elements/apriorising-registry-elements out of attendant ontological-contiguity<educed-existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness -of-reference-of-thought-devolving-as-of-instantiative-context> as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology). With temporal-perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (mental-perversion), the interlocutor deliberately (or naively in the case of ignorance) doesn’t project intemporally (i.e. projects in terms–as-of-axiomatic-construct of shortness-of-register-of-meaningfulness-and-teleology or immediate-temporal-interest and
not a \textsuperscript{10} universal ontological sense of meaning), comparatively more like a student guessing that the answer of a math question is say 5 ‘artificially’ operates an equation to yield 5 as answer. Whereas with ‘a defect of logical operation/processing/contention’ (which is not the case here), an interlocutor perfectly projects intemporally (i.e. projects in terms–as-of-axiomatic-construct of longness-of-register-of– meaningfulness-and-teleology\textsuperscript{10} or a universal ontological sense of meaning) but poorly operates/processes the logic adhocly. This latter case unlike the former doesn’t imply registry-worldview’s/dimension’s-uninstitutionalised-threshold \textsuperscript{03}–defect-<as-Being-or-ontological-or-existential–defect>\textsuperscript{46} but rather ‘an adhoc defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance whereas the former is ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold \textsuperscript{03}–defect-<as-Being-or-ontological-or-existential–defect>\textsuperscript{36} that speaks to the unprincipled-or-derived-unprincipled disposition of the interlocutor’s individuation that is, with respect to an infinite number of cases in the same situation (i.e. comparatively the disposition to go about answering math questions by figuring out their answers then ‘artificially’ trying to work out equations to yield the answers). Thus establishing the ontological-prime-movers-totalitative-framework \textsuperscript{1} of this slantedness/postlogic individuation defective nature ontologically, hence enabling its aetiologisation/ontological-escalation. This also requires the disambiguation of the registries (involving stranding-of-perverting-temporal-dispositions which refers to mental-devising-representation of temporal-dispositions-registries teleologies registry-worldview’s/dimension’s-uninstitutionalised-threshold \textsuperscript{03}–defect-<as-Being-or-ontological-or-existential–defect>\textsuperscript{36}, i.e. oblongated/decandored as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing—apriorising-

Very much counterintuitively with regards to ‘unconscionability-drag’, the transcendental requirement for a ‘habituation’ to a so-called ‘prospective intemporal and more veridical mental-devising-representation registry-worldview’s/dimension’s reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} is rather ‘unfathomable’ for the prior ‘amplituding/formative’ wooden-language-\{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology } of the so-called ‘perversion-of—reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation dimension’; this applies with regards to recurrent-utter-uninstitutionalisation and base-institutionalisation, ununiversalisation and universalisation, non-positivism/medievalism and positivism, and prospectively for upcoming times, procrypticism and deprocrypticism. The explanation is quite simple; as individuals in any institutionalisation/intemporalisation registry-worldview/dimension are formed by the memetic-ordering/psychoanalytic-construction at that registry-worldview/dimension which is ‘all-defining of meaningfulness (in terms—as-of-axiomatic-construct of reference-of-thought and logic)’ to the individuals and so right up to their subconscious mind. But then a prospective transcendental memetic-reordering/psychoanalytic-unshackling is placing such a prior memetic-order/psychoanalytic-construction of their existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation in jeopardy, and it is only the ontological-primemovers-totalitative-framework social universal-transparency \{transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising~in-\}.

This will explain the difficulty of medieval minds (including institutions like the church) over centuries to come to terms with positivism and scientism such that the positivistic psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is still ongoing. or–ontological-preservation, and this is rather crossgenerational in nature (rather than instant

formation are rather grounded on the superseded/transcended/unsound reference-of-thought–
categorical-imperatives/axioms/registry-teleology \(^{100}\), for-intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation. The above analysis shows that soundness-or-
ontological-good-faith/authenticity –of- reference-of-thought-of-meaningfulness is not given,
as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as
dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-
preservation (ontological-normalcy/postconvergence). Unconscionability-drag (from an
ontological/intemporal reference) ensures the disambiguation of registries so that the
psychopath’s and temporal-dispositions are not elevated to the intemporal level which then
allows for, by reflex, a simple operation/processing of logic (whereas the fundamental defect
being in terms—as-of-axiomatic-construct of the apriorising—registry-elements, implied—
logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions,
value-reference and teleology of the registries, i.e. rather the unsoundness-or-ontological-
bad-faith/inauthenticity of reference-of-thought or the dialectically-or-contendingly-out-of-
phase meaningful construct). Unconscionability-drag (from an ontological/intemporal
reference) is thus central to attending to the rational-realism of notional—deprocrypticism as of
ratiocination/ratio-contiguity as nondisjointing ‘postconverging—dementating/structuring/paradigming as
human-subject-emancipatory-relativism-driven-
recomposuring-constructivism-towards-singularisation-as-to-the-
nondisjointedness/entailment-of-prospective-presencing’ as it accounts for the defect of
temporal-dispositions teleologies of meaning (shortness-of-register-of—meaningfulness-and-
teleology) while projecting intemporally/ontologically. The notion of ‘unconscionability-
drag’ also explain how and why banal temporal-dispositions are not readily ‘integrative of
psychopathic postlogism—slantedness as conjugated-postlogism/preconverging-or-
dementing—integration’ (hence no distractive-alignment-to—reference-of-thought—of-
apriorising/axiomatising/referencing) to the childhood and early adolescent psychopaths but
come to develop a ‘mental-unconsciousness’ (unconscionability) to be ‘integrative of
psychopathic postlogism—slantedness’ during the stage of late adolescence and adult
psychopath. Antipodal to the idea of ‘unconscionability-drag’ is the idea of
‘conventioning’/social-temporal-thresholding. ‘Unconscionability-drag’ points to an abstract
but more veridical ontological construct of the ‘social construction of meaning’ that is
ontological-normalcy/postconvergence, based on intemporal-preservation-entropy-or-
contiguity—or—ontological-preservation by using categorical-imperatives of the prospective
superseding/transcendental registry-worldview/dimension whether such a representation is
aligned or not with the society’s collective-social-psyche or present-consciousness. (For
instance, we can generate an unconscionability-drag of a medieval society on the basis of a positivistic mental projection and categorical-imperatives; wherein we oblongate the solipsistic mental-dispositions of individuations in such a society. While such a representation, with its corresponding subknowledge/mimicking, is ontologically more accurate about such a society, however, the collective-social-psyche/present-consciousness of individuations in the said society will not recognise any such decandored/oblongated/logical-incongruence-or-transversality-<for-sublimating–existential-eventuating/denouement>/dialectically-or-contendingly-out-of-phase representation of themselves, rather the medieval society will represent itself as candored/straight/integratively-aligned/dialectically-or-contendingly-in-phase which is then the ‘conventioning/social-temporal-thresholding representation of the social construction of meaning’). Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporality ) is not necessarily the deterministic basis for human social adherence to it. Transcended and ontological meaningfulness of reality (contrary to conventioning/social-temporal-thresholding meaningfulness of reality which is rather towards <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/temporality-serving) requires a process of institutionalised/intemporalised social integration to induce untenability/internal-contradiction/internal-incoherence/institutional-constraining to ‘prior or circumstantial social integration gatekeeping construals or (institutionalisation/intemporalisation) percolation-channelling-<in-deferential-formalisation-transference>’ of ‘any social construction of meaning’ for there to be collective institutionalised social adherence (and by the relative positive-opportunism—of-social-functioning-and-accordance elicited). Institutionalisation/Intemporalisation percolation-channelling-<in-deferential-formalisation-transference> are the institutionalised relays for human survival-and-
flourishing-teleology\textsuperscript{(0)}, whether diffusely from internalisation-and/or-formalism, and are increasingly vital with higher institutionalisations, and most vital for prospective perpetuation-of-deprocrypticism, such that abstractions that will normally hardly be socially integrated going just by averaging human temporal-to-intemporal nature, can actually come from re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness')\textsuperscript{2}-of-notional-deprocrypticism-prospective-sublimation\textsuperscript{(1)} intemporal-disposition to inform social institutionalisation/intemporalisation, thus emphasising how vital percolation-channelling-(in-deferential-formalisation-transference) are for institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>) beyond just the consciousness appraisal of temporal-dispositions. Institutionalisation/Intemporalisation percolation-channelling-(in-deferential-formalisation-transference) imply that the would-be intellectual analyst can perfectly uphold intrinsic reality over ‘social-and-temporal-trading’ and still impose veridicality (if truly veridical) over populist-inclined dispositions which are not veridical, just by the fact of the extendedly implied positive-opportunism—of-social-functioning-and-accordance\textsuperscript{5} for human survival-and-flourishing imbued in institutionalisation/intemporalisation percolation-channelling-(in-deferential-formalisation-transference). This implies that an exercise in institutionalisation/intemporalisation beyond just intemporal philosophical projection is needed for the social integration of any transcending veridicality postconverging—dementating/structuring/paradigming (the latter being any notion that put in question informal or formal conventioning/social-temporal-thresholding ways of perceiving and doing things for supposedly prospective better ways). Correspondingly, the social-construct cannot be and should not be related to as a philosophical construct since it is rather ‘conventionalised from
drivenness–equalisation) (organic-comprehension-thinking) creates law/legal-conventions but then questions of justice cannot be attended to by populist-social-construct (threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation) since only a developed sense of moral philosophy as dimensionality-of-sublimating ⟨amplituding/formative⟩supererogatory–de-mentativeness/epistemic-growth-or-conflatedness ⟩transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ (organic-comprehension-thinking) ensures sound jurisprudence as a human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming rather than a temporal extricatory preconverging–de-mentating/structuring/paradigming. ‘Prior or circumstantial social integration gatekeeping construals or institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference>’ that can enable the superseding of conventioning in the social integration of ontological veridicality include existing percolation-channelling-<in-deferential-formalisation-transference> of formalisms/officialdom which have naturally been instituted to allow for the supersedingness of intemporal/ontological constructs and intemporal-disposition s. For instance, formal institutions selectivity mechanisms; and where the latter fail or are fallacious, basic positive-opportunism—of-social-functioning-and-accordance wherein the ontologising construct elicits positive-opportunism—of-social-functioning-and-accordance for the undermining of defective conventioning/social-temporal-thresholding constructs/categorical-imperatives of meaning (for instance, a natural causes disease conception leading to more cures such that positive-opportunism—of-social-functioning-and-accordance then undermines a superstitious-driven disease theory which leads to more pain and deaths). The big idea here is that, it is naïve philosophically to operate
mainly on the basis of ‘ontological rightness of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’ with respect to a species whose construct is structured to be temporal (shortness-of-register-of–meaningfulness-and-teleology\(^{10}\)) to intemporal (longness-of-register-of–meaningfulness-and-teleology\(^{10}\)) requiring skewing (‘intemporality\(^{12}\)-asymmetric-subsumption-of-temporality\(^{99}\), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference to the latter. And any such ‘ontological transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by mere rightness’ has never been acquiesced to for the sole reason of its intrinsic rightness. For instance, round world idea never took off even though it was ontologically right (as the medieval conventioning/social-temporal-thresholding construct and strongly ingrained social dispositions). It is the generated untenability/internal-contradiction/internal-incoherence/institutional-constraining together with positive-opportunism—of-social-functioning-and-accordance coming from sailors sailing around the world on this idea to seek for spices and create wealth that constrained/institutionalised the medieval world into such an ontological transformation/transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Part and parcel of ontological transformation/transcendence is the existential cynicism to grasp the human sense of internal contradictions and positive-opportunism—of-social-functioning-and-accordance to introduce and uphold these by the mechanism known as institutionalisation/intemporalisation. Regarding futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{10}\) as of prospective notional–deprocrypticism undermining of procrypticism, it is doubtful that pertinent ontological constructs and generally the perversion-of- reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation > dynamics of procrypticism’ are by themselves a sufficient basis for the direct and immediate social integration of notional–deprocrypticism because of its ‘rightness’ over conventioning/social-temporal-thresholding. Part and parcel of the intellectual exercise is to understand how to manage the mechanism of transcendence-and-sUBLIMITY/BLIMATION/supererogatory-de-mentativity wherein new and more profound ontological constructs are introduced and upheld, particularly by way of institutional percolation-channelling-<in-deferential-formalisation-transference> for intemporal transcendence-and-sUBLIMITY/BLIMATION/supererogatory-de-mentativity. However, it should be noted that the conceptualisation of ‘conventioning’ is not wholly antipodal to ‘ontologising/intrinsic-veridicality’ as the latter prospective integration in the social-construct is through the former; ‘conventioning’ is thus a dynamic conceptualisation articulating, on the one hand, how prospective tempORAL/SHORTNESS undermines/subknowledges-or-mimics the intemporal/ontological construction of meaning (like postlogism-slantedness, miscues, logical-drag, unconscionability-drag, sub-par-conventioning-rationalising, and temporal-enculturation, with respect to "reference-of-thought―categorical-imperatives/axioms/registry-teleology\(^{10}\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the intemporal meaning), and on the other hand, how prospective intempORAL/LONGNESS is regenerated to supersede/transcend such perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and bring about new recomposuring "reference-of-thought―categorical-imperatives/axioms/registry-teleology\(^{10}\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Organic-comprehension-thinking (as to supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’–postconverging/dialectical-thinking apriorising-psychologism) as highlighted above contrasts with threshold-of–nonconviction/madeupness/bottomlining-in-

positivism/medievalism value references of aristocracy/class are contrarian to positivistic value
references for the possibility of equal opportunities; and the intemporal projecting positivistic
mind in medieval times has no business trying to appear ‘great and wonderful’ with respect to
‘conventioned’ value reference of aristocracy/class in the medieval world even though it is the
dominant and encultured collective mental-disposition. Likewise, such logic will apply regarding notional-deprocrypticism and procrypticism requiring a reasoning that goes beyond the ‘<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present’ mindset/’reference-of-thought of our current procryptic mental-disposition, i.e. ‘the limit of ontological thought is not the banal <amplituding/formative> wooden-language⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩⟩ of a registry-worldview/dimension’. Otherwise no progress is possible as a dimension progresses exactly because it has defects which when overcome enables the progress to occur! So the intemporal mind cannot as such ‘be impressionable’ by the banal <amplituding/formative> wooden-language⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩⟩ of a registry-worldview/dimension. It points to the fact that it is ‘perfectly ok’ to be ‘unintelligible/existentially-suprastructural and value-reference-wise unresponsive’ to the subknowledge⟨preconverging-or-dementing -as-if-of-sound-knowledge⟩ apriorising–registry but rather alienative as to the possibility for its psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The ‘apparent profoundness’ of such temporal reference of thought is rather ‘depth-of-ignorance’ rather than ‘depth-of-elucidation’.

Threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> arises as a result of shallow mental-dispositions induced by temporal-dispositions, and their disambiguation should be called for, and not decandored / oblongated / transversality<-for-sublimating–existential-

Threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-psychologism> as such is rather a ‘flatness-of-the-mind’ involving temporality, ‘mental triteness’ and ‘gullibility’ with respect to, in the case of psychopathy, insane/slantedness integration as social psychopathy; and more generally, ‘lack of intemporal-disposition philosophical depth’, i.e. lack of spontaneous dimensionality-of-sublimating {<amplituding/formative> supererogatory –de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} inclination (the-guy-who-spontaneously-stands-out-against-say-a-genocide or the milgram-experiment-guy-who-sticks-with-what-is-reality-rather-than-going-with-the-flow, etc.) not to be confused with secondnaturings/institutionalisation, and as a consequence an inclination to compromise intemporal/longness as ‘conventioning (social-temporal-thresholding) of meaning’ rather than ‘ontologising (intemporal-uncompromising) of meaning’. Overall threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-psychologism> points to the fundamental processes of ‘social temporal miscuing of meaning’ and the effective temporal consequences whether regarding defective enculturation or defective social ontologisation/ontological-veracity/aestheticisation-towards-ontology. This thus requires ‘deconventioning-for-ontologising involving the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise of undermining conventioning at uninstitutionalised-threshold (due to the inescapable veridicality of human individuation temporal/shortness-to-intemporal/longness which inevitably induces perversion-of-

noninstitutionalised-threshold; deconventioning as such skews (‘intemporality-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) and restores ontological veridicality for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. An essential element underlying the psychopathic and other postlogic relationship with meaning has to do with the nature of attachment to meaning. A postlogic mind doesn’t view meaning articulations as ‘inherently sanctuous’ and thus is inclined to produce mechanically whatever deductions that may engage an interlocutor in-prelogic supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologismly/prelogically even if these are hollow mimicking non-veridical narratives, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated). On the other hand, prelogism—as-of-conviction,-in-profound-supererogation—of-‘existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at imply more of an organic alignment view of meaningful articulations as ‘inherently sanctuous’, i.e. ‘attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity/meaningful-projection-of-intrinsicness’. Going by these two facts, the postlogic and psychopathic mindset/reference-of-thought is readily inclined to call upon a broad base of vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging narratives (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) whereas the prelogic/conviction-as-to-profound-supererogation
mindset/reference-of-thought is inclined to call upon just the narratives it sincerely thinks are relevant/due and intrinsically real. So it is critical not to confuse the over-articulation of postlogic narratives (vague mechanical stylising-of-locution) with an organic depth-of-thought or profoundness, given that these involve postlogism-slantedness, disjointed-logic, miscuing, inventions and platitudes from the postlogic mindset, requiring decandoring/oblongating/distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing>. Ontologically speaking, meaning is an essential construct of human mental-devising-representation meant to allow for human intemporal teleology. Ontology being the intemporal-disposition, the exercise of ‘directing convincing’ to temporal-dispositions is inherently unwarranted and is rather syncretising/circularity/interiorising/akrasiatic-drag, with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous meaningfulness towards the ‘institutionalisation/intemporalisation percolation-channelling—in-deferential-formalisation-transference’; the latter being utterly impersonal (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. By ‘uninstitutionalised-threshold’ (where there is no ‘intemporal social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness ⟩ as well as no notional~firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence disambiguation/unequivalences/alienative-hierarchisation’) is meant, the possibilities of human dispositions and acts beyond frameworks that have not been institutionalised; manifesting as (uninstitutionalisation) ‘temporal-threshold logic’ or ‘discomfiture’. So the uninstitutionalised-threshold of the positive registry-worldview will refer to procrypticism (requiring deprocrypticism), to the non-positivism/medievalism registry-worldview it will refer to non-positivism/medievalism (requiring positivism), to the ununiversalised registry-worldview it will refer to ununiversalisation (requiring
universalisation), and to the recurrent-utter-institutionalised apriorising–registry worldview it will refer to recurrent-utter-uninstitutionalisation (requiring base-institutionalisation). Institutionalisation and formalisation are based exactly on the fact that we don't have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Hence we tend to build artifices (institutions with their formal rules) by the skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference of our collective thought process in the medium to long perspective towards intemporal-preservation-entropy, to dominate and preempt temporal dispositions. This explains why modern man (positivistic registry-worldview) is apparently more evolved/developed than he/she should normally be compared to previous generations (recurrent-utter-uninstitutionalised men, ununiversalised men, non-positivism/medievalism men, and prospectively, how he/she will be superseded by the deprocryptic man). It doesn't mean that modern man has a genetic makeup or hardware that is different from the others. The difference is the cumulated ‘software’ or institutionalisations and formalisations that have been internalised into modern man. Anthropologists know that if you were to take a newly born child from a society like those that do not have contact with the modern world, and raise the child in a modern family, there is no different outcome on average as with any other child bred in the modern world. So our faith in virtue is not in our inherent excellence/exceptionalism but the excellence/exceptionalism of the software/institutionalisation that has cumulated, and insightfully, which creative template we will prospectively develop! Incidentally institutionalisation and formalisation ensures that we take the best form of human individuation thinking/capacity potential and constrain society and individuals to that
individuation thinking/capacity potential, and inherently so, by the overall positive-opportunism—of-social-functioning-and-accordance to the cross-section of the species since it better grasp intrinsic reality and its virtues! Solipsism means I exist alone (as to the epistemic perspective with respect to intrinsic reality/ontological-veridicality), and this author notionally interpret solipsism as the deepest sense of existence and meaning available to an individual in its spontaneous emanance or becoming, and as it projects itself ‘purely and universally’. It is a firstnature/intemporal construct beyond and ‘inventing the possibility’ of secondnatured institutionalisation, and places all humans at all times at the same pedestal of virtuous and ontological appraisal, as it is about our ‘transcendental valour’ irrespective of the level of institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>, at which we are. It contrasts with institutionalisation/intemporalisation which is ‘a negotiated and secondnatured or nurtured construct with respect to existence and meaning around social-stake-contention-or-confliction’. Institutionalisation/intemporalisation as such, by way of positive-opportunism—of-social-functioning-and-accordance and inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining of temporal-dispositions, has at least the merit of allowing for the possibility for human temporal-dispositions to be skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference towards the intemporal-disposition, and thus enabling social transcendence-and-sublimity/sublimation/supererogatory-de-mentativity which is upheld by formalisation and internalisation. By ontological-normalcy/postconvergence is meant that ‘intrinsic reality’ is one and given (ontology), and that the flaws and corrections in how we go about representing ‘intrinsic reality’ (metaphysics or the human-centered temporal-
perspective) has no influence on reality’s intrinsic nature. Our mental-devising-representation of the world in 5000 BC, 2000 AD and possibly 3000 AD might be worlds apart, but the intrinsic nature of reality never changed and will never change an iota. So our knowledge construct is more of a proxying to intrinsic reality to grasp the possibilities of the-Good/understanding/notional-knowledge-reification-gesturing-in-prospective_basalpsychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity

That idea that intrinsic reality is preceding/superseding is known as ontological-normalcy/postconvergence (we are converging to reality and not adding or taking away anything from it, it is us being illuminated as reality is already given). In the exercise of construing ontological veridicality what gives in when the pertinence of ontological-primemovers-totalitative-framework is known is the human psyche (whether by candoring/straightness/prelogism when pertinent or decandoring/slantedness/distractive-alignment-to-reference-of-thought-apriorising/axiomatising/referencing> when impertinent), intrinsic reality never gives in (that’s why we are mortals and our hope is to always give-in to intrinsic reality for the possibilities of the future). This latter point is important as by reflex an epistemic-totalising~self-referencing-syncretising/temporal-human-centered dimension in its flaws will strive to preserve itself by <amplituding/formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its registry-worldview/categorical-

the exercise of ‘directing logical convincing’ to temporal-dispositions is inherently unwarranted
and is rather <amplituding/formative–epistemicity>totalising—self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag, with pertinence being about ‘articulating
and directing’ intemporal/ontologically-contiguous meaningfulness towards ontological-

functioning-and-accordance and untenability/internal-contradiction/internal-
incoherence/institutional-constraining for its supersedingness in the
‘institutionalisation/intemporalisation percolation-channelling—<in-deferential-formalisation-
transference>’; the latter being utterly impersonal (law, officialdoms and subject matter
formalisms) and allows for an abstraction of the virtue of ontological contiguity that
personalised social-and-temporal-trading doesn’t allow reflexively. This is underlying
transcendental-enabling/sublimating/supererogatory—de-mentativity notion while often
obscured in the social domain-of-construal-as-intrinsic-reality/ontological-veridicality due to their ‘emotional involvement’ is immediately obvious with the natural sciences whereby the physicists nor chemists nor biologists worries about convincing anyone but is rather in the business of ‘the convincing from natural truths’ which then do not ask for human temporal validation but impose themselves because natural truths inherently supersede human egotistic or opinionatedness! Postconvergence, in the bigger scheme of things, implies that knowledge has to do with the development of our ‘mentation capacity’ (an entropic-referential memetic-reordering/psychoanalytic-unshackling exercise), across ‘retrospective-and-prospective history’, in grasping ‘intrinsic reality/veridicality’ which ‘has always and will always be ontologically same’. So the concern is about ‘us’; in the appropriateness of the registries we make of intrinsic-reality across retrospective-and-prospective history or rather shifting dialectical moments of relative-ontological-completeness! The articulation of reality, registry-worldviews/dimensions, mental strands (perverted or not), and other constructs of ontological-primemovers-totalitative-framework is ‘at-a-superseding-pedestal and incisive/blunt’ by the very nature of ontological-normalcy/postconvergence reality. For instance, supposed a society with a non-positivism/medievalism belief system attributes the cause of a disease to say witchcraft, that doesn’t stop the reality of bacteria causing the disease even if such a representation of reality isn’t in the present-consciousness/illusion-of-the-present of that society. Such an ontological conceptualisation of reality equally applies in our times where it can be demonstrated prospectively that our mental-devising-representation of meaning regarding a phenomenon is out of kilter, and reality won’t stop to accommodate us or our banality of thought. Thus the conceptualisation of reality is rather articulated at this depth-of-thought whether it
accommodates our present-consciousness/illusion-of-the-present or not (reality personality), and operates by an ordered construct based on ontological-primemovers-totalitative-framework and not a disposition of averageness/banality/popularity/extrinsic-attribute-of-thought recurrent in uninstitutionalised-threshold in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology), allowing for the possibility of transcendental meaning, institutionalisation/intemporalisation (skewing (‘intemporality’-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supernominal—de-mentativity) for intemporal domination) and human progress; given human temporal/shortness-to-intemporal/longness dispositions. Such an articulation of reality introduces the concept of ‘reasoning-through/utterion’ over ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation and notional—disjointedness’. Reasoning-through/utterion refers to the uncompromising and non-negotiable nature of reality with respect to the meaningful frames of mortal creatures that we are as reality doesn’t adjust to our beliefs, desires, wishes, whims or miscues. Reasoning-through/utterion then implies that meaning is articulated exclusively in terms—as-of-axiomatic-construct of ontological-primemovers-totalitative-framework and anything else is defined, whether to be candored or to be decandored, at that ordered construct point-of-reference or point-referencing. Reason is thus ontologically a ‘reasoning-through’ as allowed through in a ‘pure, organic and intemporally uncompromising state’ by reality ontological-primemovers-totalitative-framework ‘at-a-superseding-pedestal and incisively/bluntly’. incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional—disjointedness-as-of-reference-of-thought refer to the human reflex to average minds or make reference to extrinsic elements rather than meaning by its inherence as can be predicated effectively, and involves ‘reasoning with’, as it introduces ‘temporal and social
trading’ elements over or clouding or compromising inherent intemporal veridicality. Incrementalism-in-relative-ontological-incompleteness\(^5\)—enframed-conceptualisation and notional–disjointedness-as-of- reference-of-thought as such is patently wrong; as can be perceived from point-referencing superseding registry-worldviews/dimensions such that the ontological representation of the veridicality is different from the different perspectives of a recurrent-utter-institutionalised registry-worldview and the superseding institutionalised registry-worldview, and likewise with the ununiversalised and superseding universalised registry-worldviews, the non-positivism/medievalism and superseding positivistic registry-worldviews, and prospectively the procryptic and superseding deprocryptic registry-worldviews. It implies that ‘it isn’t veridically weird’ to articulate depths-of-meaning that may apparently seem idiosyncratic in our present illusion-of-the-present/present-consciousness registry-worldview, as the issue is not with such an articulation per se but rather ‘our defective apriorising–registry point-referencing threshold’, and implying rather the need for our psychoanalytic-unshackling/memetic-reordering/institutional-recomposing by distractive-alignment-to- reference-of-thought<of-apriorising/axiomatising/referencing>\(^9\). Fundamentally, incrementalism-in-relative-ontological-incompleteness\(^5\)—enframed-conceptualisation and notional–disjointedness-as-of- reference-of-thought in human thinking as indicated above with the various institutional-cumulation/institutional-recomposure<as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-′epistemicity-relativism-determinism’>\(^4\) is superseded by reasoning-through/utterion; in transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–′motif-and-apriorising/axiomatising/referencing’ at-a-superseding-pedestal, and represented as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to- ‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –

More precisely, how can meaningfulness-and-teleology be represented in ‘a prospective apriorising–registry state’ which is ontologically more real contrasted to ‘a present retrospective apriorising–registry’, as meaningfulness-and-teleology ‘temporally seems’ to vary depending on the uninstitutionalised-threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal? This fundamentally has to do with our dimensionality-of-sublimating projection irrespective of the uninstitutionalised-threshold, and calls for PEDESTALLED CONSTRUAL or PEDESTALLED DISAMBIGUATION to skew/deferential-formalisation-transference meaning towards the intemporal/longness disposition for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, as institutionalisation/intemporalisation. Pedestalled disambiguation thus involves at a given uninstitutionalised-threshold translating the ‘apparently prelogism-as-of-conviction,-in-profound-supererogation’ into its veridical preconverging-or-dementing–apriorising-psychologism as postlogic perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation teleological finality, and so successively in reflecting the notional-discontiguity/epistemic-discontiguity–or–shallow-

Technically, pedestalled disambiguation should involve reflecting/perspectivating/highlighting from the intemporal-disposition pedestal teleology finality/questioning mental-profoundness (deep candor) the relative longness/shortness-of-teleology of temporal-dispositions teleologies finalities/questioning mental-triteness (light candor), starting with slantedness pedestal finality/questioning (which is the psychopath’s insane/slantedness-fitment-roaming/drifting-cycle), and as it conjugates/inflects across other temporal pedestals teleology finalities/questioning (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Pedestalled disambiguation points to the fact that the social representation of meaning is transversal/logically incongruent at uninstitutionalised-threshold as reflected by human temporal-to-intemporal dispositions (hence the need to articulate various pedestals of ‘questioning depth-of-thought’ and ‘strands of depth-of-meaningfulness’ to reflect effective meaningful representation from the intemporal-disposition point-of-reference). For instance, a state of nature (recurrent-utter-uninstitutionalisation) application of the law variably making reference to circumstantial social power relations and spontaneously articulated notions of vices and virtues but no or poor
universal rules (mob situations as well as social psychopathic situations will fall under such an interpretation as well). (2) Pedestalling (‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling) articulates the relative grandor and virtuous consequence of the pedestalled supersedingness of the intemporal-disposition by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that then leads to society’s temporal-to-intemporal cross-sectional ‘dimensionality-of-sublimating...projection induced deference’; whether deference with regards to a superstition/belief system/religion, essences/universal-notions, positivist idealism/principles-rationalism (and prospectively rational-realism as of deprocrypticism), involving a posture (institutionalised disposition) of the sort ‘the-say-that or it-is-said-that’ as ‘dimensionality-of-sublimating...projection induced deference’ to the intemporal/longness disposition, for instance, ‘scientists say that’, ‘the Bible says that’, ‘it is said that one should not set foot in that forest as it will bring bad luck’, etc. This ‘the-say-that/it-is-said-that’ ‘dimensionality-of-sublimating...projection induced deference’ explains why institutionalisation/intemporalisation has been happening across human history; whether deference from personalised/animists beliefs to philosophical, religious and other social belief systems, deference from haphazard application of social rules to universal notions, laws and principles, deference from spirit-and-mystical-driven notions of nature and various alchemies to a modern scientific construct system. Hence the very place of the averagingness/banalit

In the same vain, the outcrop of an organic-comprehension-thinking ‘intemporal-prioritisation-of-reference-of-thought’—as-conflatedness—or-ontological-reprojecting conceptualisation of notional—deprocrypticism over procrypticism can only be construed within a formal institutionalised articulation not opened to ‘temporal/ordinary disposition contention’ as is the case with subject-matter constructs, but rather an institutionalised percolation-channelling—<in-deferential-formalisation-transference> exercise, so as to avoid temporal-dispositions denaturing as is the case with all formal constructs, which rather strive to uphold the intemporal/longness-of-register-or-depth-of-meaningfulness teleology while relying on principled methods. Prospectively, the intellectual exercise involved in articulating procrypticism-notional—deprocrypticism and psychopathy and its corollary social psychopathy, will have to imply a ‘dimensionality-of-sublimating—

The establishment of institutionalisation/intemporalisation involves necessarily ‘delegated gatekeeping and institutionalisation/intemporalisation percolation-channelling-in-deferential-formalisation-transference processes’ to uphold it thereafter with formalisms and officialdom surrounding it with respect to temporal-dispositions-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and corruption dispositions. For instance, the institutionalisation/intemporalisation of ‘scientific chemistry’ comes with a ‘chemistry lingua’ accessible to those sharing and/or educated to uphold the meaningful frame, on the justification that they explain and account more about the material world than any other alternative. This justification goes on to make them formalism and officialdom percolation-channelling-in-deferential-formalisation-transference to the extended-informality-susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology such that over time alchemic and superstitious conceptualisations of material meaning are effectively destroyed while equally seeing to it that pseudo-scientism is kept at bay. ‘Delegated gatekeeping and institutionalisation/intemporalisation percolation-channelling-in-deferential-formalisation-
transference> processes’; because such a pedestalled supersedingness is only as valid as to when it is the grandest construal of material meaning until, and if, it is shown not to be the case. A further and nonetheless important reason for such delegation is the relative superficiality generally associated with averageness/banality-of-thought dimensionality-of-sublimating ⟨amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ projection construal of meaning, and not to speak of its discomposure to the convolutedness often required in articulating and grasping intemporal meaning as intemporal/ontological/social/species/ universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming. Besides, this raises other issues related to a more or less temporal take of an ontological/intemporal enterprise with regards to articulations that are meant to have universal/import of metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation across space and time) rather than for the sake of any particular circumstantial/temporal take/extricatory-situation in whichever locale, that is, an extricatory preconverging–de-mentating/structuring/paradigming. A failure to grasp the intellectual-analyst posture rather as a proxying-of-intrinsic-reality-as-ontology as per ontological-primemovers-totalitative-framework validation and that there-is-no-discretionary-construal-of-ontology/ontological-reality since intrinsic reality is superseding of all mortals including the intellectual-analyst. Basically the issue of the intellectual-analyst exercise in grasping such an intrinsic-reality is a proxying one superseded by the ontological-primemovers-totalitative-framework of reality ‘which in no way depends on any notion of the intellectual-analyst’s choice/luxury’ (as the intellectual-analyst might actually have by another individuation chose not an intemporal/ontological projection but a temporal posture ‘in moral/intellectual equivalence with temporal mental projections’ with nefarious temporal
consequences). Basically, there is nothing like an intemporal temporality/shortness whereby there is any intemporality/longness in accommodating human temporality. Likewise, supposedly the intellectual-analyst was to come short in its intemporal projection or other universal values by temporal manipulation, it is very naïve to ‘reason and projecting temporally’ that eliciting such ‘an inductive-limitation (the-paradox-of-a-universal-rule-that-doesn’t-apply-universally-but-to-a-specific-circumstance-to-satisfy-a-temporal-urging)/gotcha-logic/suggestibility’ should undermine the essence of ontological/intemporal meaning which is ‘above a human intellectual proxying exercise to it’ and doesn’t depend on it to exist inherently, is nothing but temporal naivety. The reality of a round world doesn’t depend on its recognition of a medieval mindset/reference-of-thought for it to exist likewise with any veridicality/intrinsic-reality regarding psychopathy and a social manifestation whether it is palatable or not. Finally, temporal-dispositions as eliciting temporal vices-and-impediments are in no way qualified to contend about intemporal articulation/projection. In effect, such temporal pretence are nothing but mental-dispositions meant to satisfy the ‘mortals temporal preservation’ on the basis of ‘locale context logic’ and not ‘intemporal preservation as ontological veridicality with the potential for a grander human good’ on the basis of ‘universal implications’; as inevitably, ontologically, the resolution of ontological/being persion-of- reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supercerogation > defects (and as per their manifestation and conjugation as postlogism-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought- devolving ontological-performance-<including-virtue-as-ontology>) are as prospective registry-worldviews/dimensions constructs
that supersede the prior/superseded registry-worldview’s/dimension’s perversion of categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (uninstitutionalisation dementatively/structurally/paradigmatically superseded/resolved/rendered-inoperant by base-institutionalisation, ununiversalisation by universalisation, non-positivism/medievalism by positivism, and prospectively procrypticism–or–disjointedness-as-of-reference-of-thought by deprocrypticism). Supposed the intellectual-analyst was to act temporally to the point of overlooking such ontological implications to the level of lowly temporal minds, lowly because not universal-projecting, it won’t mean that the ontological reality will evaporate. It will simply mean that the intellectual-analyst has failed in its intemporal/ontological projection, more like Darwin doesn’t have the choice/luxury of deciding from his insight that evolution doesn’t exist in placating any temporal mortals or Galileo doesn’t have the choice/luxury of deciding from his insight that the world is not round in placating any temporal mortals, and if they were to make that choice they affirm nothing more than their ‘aggrandised mortality’. The blunt/incisive reality is that they being in that position to affirm intemporality/ontology/intrinsic-reality-as-providing-future-universal-possibilities-for-the-human-species are the ‘very tip of the possibility of human civilisation’ and their moral/intellectual posture is to ‘bluntly look down’ to the ‘little mortal creatures of temporality’ and ‘shepherd the sheepishness-of-the-species’ to grander civilisational grounds. It is an ontological ‘moral and intellectual responsibility and privilege’, actually, to be in any such position, going by the eudaemonic-contemplation which is what ‘effectively grants existential moral and intellectual superiority’ and not naïve temporality/shortness accommodating conventioning constructs about any such pretence which is nothing more than temporal/the-mortals’s perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation as to preconverging-or-dementing apriorising-psychologism; as any such is not the intemporal-disposition that started base-institutionalisation (to thwart recurrent-utter-uninstitutionalisation) through universalisation (to thwart ununiversalisation), positivism (to thwart non-positivism/medievalism), and prospectively its intemporal-disposition that will enable notional–deprocripticism (to thwart procripticism–or–disjointedness-as-of-reference-of-thought) and thereafter; the intemporal individuation as such projects in an ‘abstract eternality’ which is what allows for the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Temporal-dispositions may not need to understand as of <amplituding/formative>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present for the pertinence of intrinsic reality to be established as it is preceding in ontological-normalcy/postconvergence, anyway, that is why it is ‘a registry-worldview’s/dimension’s prospective institutionalisation/intemporalisation secondnaturing exercise’, and ‘not human temporal-dispositions transformation exercise’ into intemporality! Ultimately, like all institutionalisation/intemporalisation construct, there is a ‘dimensionality-of-sublimating: <amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) projection induced deference’ to such an ontological construal by way of formalism-and-officialdom as the temporality/averageness/banality-of-thought is not allowed to imply dimensionality-of-sublimating: <amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) projection depth with respect to such ontological construal (due to the reality of the mediocrity principle that we are not as of intemporal-disposition but notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>, and hence the need for the artifice to

That is why psychopathy is better dealt with as ‘social psychopathy’ given that what is often and mostly overlooked is not with regards to the psychopath and its postlogic impulse to ‘hollow-constitute’/fail-intemporal-preservation as perversion-of-referencing-in-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation but rather the ‘distortional effect on analysis’ arising from ‘postlogic/psychopathic elevation wittingly or unwittingly’ by prelogism-as-of-conviction,-in-profound-suprerogation—existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mental-dispositions in conjugated-postlogism/preconverging-or-dementing-integration (by ignorance, at best, then affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) which then wrongly provide ‘supplanting-conviction-as-to-profound-suprerogation—of-attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism credulity’ to elevate and integrate the perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation of a ‘slanted mind’. As of, virtuous construal arises dementatively/structurally/paradigmatically from a universal/intemporal projection which is operant and deterministic with no room for ‘temporal discretion’ regarding the manifestation of
supererogation ≥ in any registry-worldview/dimension. The coherent and recurrent manifestation of phenomenal perversion-of-reference-of-thought-as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation ≥ defect in a registry-worldview/dimension speaks of the registry-worldview’s/dimension’s disposition to endemise/enculturate it. More like we don’t have issues of sorcery and so in the positivistic society as de-mentatively/structurally/paradigmatically the positivistic registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology do not endemise/enculturate the notion and the social vices-and-impediments arising from it thereof. On the contrary, de-mentatively/structurally/paradigmatically the non-positivism/medievalism registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology endemises/enculturate this with the consequent social vices-and-impediments. It is very naïve to think that psychopathy as a social phenomenon is limited in scope to contexts where psychopaths are involved rather than involving a much wider social basis to explain how the positivistic registry-worldview/dimension integrates, enculturates and endemises it as ‘social psychopathy’. Just as prior/superseded registry-worldviews/dimensions have undergone their prospective institutionalisation/intemporalisation/transcendence once it is established that the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are subknowledge/registry-perverted/dialectically-preconverging-or-dementing–apriorising-psychologism at their uninstitutionalised-threshold and thus the need for new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–

human virtue’ where we are face with the reality that man is not as of intemporal-disposition but rather temporal/shortness-to-intemporal/longness dispositions may be counterintuitive with respect to our illusion-of-the-present/present-consciousness, as any present-consciousness is shaped to perceive of itself as intemporal with the notion that its reference-of-thought–categorical-imperatives/axioms/registry-teleology are perfectly sound. attendant-intradimensional’-prospectively-disontologising-preconverging/dementing apriorising-psychologism>; (v) in the bigger scheme of things, distractive-alignment-to- reference-of-thought-<of-apriorising/axiomatising/referencing> at ‘uninstitutionalised-threshold’ will perfectly explain how ‘apparently sound human mental-dispositions’ within the scope of ‘institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ go on to produce such consequences as ‘crowd effects’ and worst still in teleologically-degraded social and political environments rationalise and/or partake in ‘genocidal acts’, for instance. Technically, distractive-alignment-to- reference-of-thought-<of-apriorising/axiomatising/referencing> by the temporal-dispositions involves simply conjugating/inflecting the underlying ‘(as dialectically-or-contendingly-out-of-phase or hollow-mimicking) insane/slantedness fitment’ of the postlogic mind of the psychopath to ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. In the bigger scheme of things, the articulation of reality as referentially of ontological-normalcy/postconvergence enables and allow creative projective-insights thought possibilities that the all too common ‘fixated traditional categorisation conceptualisation of reality’ doesn’t allow, as ontological-normalcy/postconvergence referentialism has the strength of overcoming the fundamental difficult issue of ephemerality (as priorly explained with the concept of unconscionability-drag) as ‘it enables mental-devising-representation contiguity in recomposuring’ across all institutional-cumulation/institutional-recomposeur-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>}. The reason this is possible is that such a referential ontological-normalcy/postconvergence representation is not shaped to prioritise any registry-worldview/dimension as being inherently the absolute reference of thought, such as we unwittingly do with our representation of reality due to the
illusion-of-the-present/present-consciousness (a massive drawback in grasping veridical ontological reality especially in the ephemeral social world). With ontological-normalcy/postconvergence referentialism we place reality as an abstract construct of oneness that is preceding-and-supersedes our-and-all temporal representations of meaning, and the exercise of articulating ontological/intemporal meaning then becomes ‘one of recomposuring how our temporal-and-all-temporal representations of meaning are recomposured to be internally coherent with the abstract ontological-normalcy/postconvergence referentialism ‘sense of oneness of preceding-and-superseding intemporal/ontological meaning’ as implied by the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’. The insight we can thus garner is that in absolute terms veridical meaning as represented in ontological-normalcy/postconvergence is ‘a hypothetical abstraction’ of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (more like attaining the abstract but veridical purity in a field of study like mathematics) in ‘unwinding’ applicative ‘colour/emotion/temporal-frame/aesthetics/memetics/psychical-representation’ of manifest teleologic-articulations as ‘subexistence-in-existence/existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency’—sublimating–nascence, disclosed-from-prospective-epistemic-digression (deconstruction/ontological-reconstituting–as-to-conflatedness possibilities) –subexistence-in-existence being that which holds existential possibilities or existential potency for existential reality or ontological veridicality, as allowed by referential-depth or (‘allant’ or ‘fugue’ in French) or ‘natural emanant dynamic creative vitality/drive’, i.e. ontological-normalcy/postconvergence ‘unwinding’ as deconstruction/ontological-reconstituting–as-to-conflatedness (more like the subconscious is that which holds existential possibilities/existential potency for ontologically-veridical ontological-normalcy/postconvergence maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation consciousness reality/veridicality, or more like
quantum-mechanics is actually an ontologically-veridical ontological-normalcy/postconvergence maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation about evasive atomic-level physical reality, more like musical and/or artistic creativity hermeneutics is the subexistence-in-existence possibilities or existence-as-of-its-mimetic-echoness/existence-in-reverberation or existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression for ontologically-veridical ontological-normalcy/postconvergence ‘unwinding’ concrete music and/or art production). Thereafter, the ontological exercise is about having ontological-normalcy/postconvergence (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) as ‘an ontologically-veridical abstract and infallible referencing/correction-tool’ enabling dynamic recomposuring projecting-and-reflecting: on the one hand, candoring/prelogism /organic-comprehension-thinking ontologising, or on the other hand, decandoring/distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing>/threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism>, even as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation implies a continually-evasive/ephemeral social world dynamics but that is graspable in referential terms. This allows for a truly universal and dynamic psychological science (and sound foundation for grasping ‘the veridicality of meaning’). The tools for such an ontological entrapment is basically about ‘de-mentation–supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) of ‘reference-of-thought’ of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications ‘transdimensional-meaningfulness/memetic refinements’ as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical
‘postdication doesn’t tie the mental-devising-representation process to any of the above registry-worldview/dimension habituated {cumulated/recomposured}-consciousness-awareness-teleology’ (given that these consciousness-awareness-teleologies are the recomposured outcome of ‘incomplete/incremental/temporal-accommodation human brain limited-mentation-capacity-deepening’ but ‘rather ties the mental-devising-representation process to the abstract and infallible ontological-normalcy/postconvergence ontological-veridicality referencing/correction-tool’ (given that this allows for complete/utter understanding by the very nature of the ontological-normalcy/postconvergence notion, of course in an ‘abstract and evasive caricature’), hence overcoming the illusion-of-the-present/present-consciousness inherent in any {cumulated/recomposured}-consciousness-awareness-teleology representing the mentally devised state of any registry-worldview/dimension.

Postdication is all about an ontological-normalcy/postconvergence institutionalisation/intemporalisation-constraining for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as de-mentation (supererogatory ontological de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) hermeneutically/reprojectively/supererogatingly/zeroingly-educing-human–meaningfulness-and-teleology–into-the-existentialism-becoming of personhoods-and-socialhood-formation (existential-storying-in-contiguity). An analogical case in point will be ontological theory-of-relativity or quantum-mechanics wherein the abstractions go beyond our habitual mental-devising-representation of meaning as in the positivist registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology. However, the bigger picture is that if prior/superseded institutional-cumulation/institutional-recomposure {as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism>} have effectively occurred and so, counterintuitively to their natural {cumulated/recomposured}-consciousness-
to make it irrelevant’ otherwise the deprocryptic mind compromises the essence of its purpose, just as a positivistic mind going by the ‘evil forest’ comparison ‘cannot afford to compromise its positivist stance’ by trying ‘to be wonderful’ in a non-positivism/medievalism perspective that is rather ‘in want of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’; as it is exactly because the temporal non-positivism/medievalism reference is defective that it is being transcended. This speaks to the specificity of the would-be intellectualism involved in a transcendental construct, as different from just intellectualism as mere-institutionalised-being-and-craft; it carries the element of knowledge not only as an abstract intradimensional conceptual construct but in its fullness with existential implications and insights of the dialecticism and psychoanalytic-reorientations involved in all transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, requiring that such an intellectual analyst be of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ in transversality-of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ with temporal meaningful frames which do not define and are not a point-of-reference to intemporal/ontological meaningfulness’ with the registry-worldview/dimension in need of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (procrypticism) to avoid dividing its meaningful-referencing instead of taking it prospectively (deprocrypticism), for instance, medieval intellectuals like Galileo and Rousseau have to be of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ in transversality-of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ with temporal meaningful frames which do not define and are not a point-of-reference to intemporal/ontological meaningfulness’ with the medieval registry-worldview to generate prospective positivistic registry-worldview which at their time is
not intelligible to a medieval take (categorical-imperatives/axioms/registry-teleology for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) on meaningfulness! This can be further expanded on as follows. The intradimensional meaningful frame is ‘an abstraction to the de-mentative/structural/paradigmatic conceptual limits (uninstitutionalised-threshold of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of that registry-worldview/dimension, which do not supersede/precede/override/undermine intrinsic-reality/ontology; and the issue that then arises is that it doesn’t carries the meaningfulness sought for transcendentally. On the other hand, transdimensional/transcendental meaninglessness-and-teleology is precedingness/supersedingness/ascendancy accruing as ‘existential psychoanalytic ontological form (in full blossoming of the transcending dimension)’ beyond the superseded intradimensional preconverging–de-mentating/structuring/paradigming conception limits (uninstitutionalised-threshold of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of that registry-worldview/dimension (which itself had been the outcome of a preceding existential psychoanalytic ontological form). Memeism as to suprastructural meaninglessness-and-teleology will refer to the projective conceptualisation of meaninglessness-and-teleology beyond and superseding an intradimensional registry-worldview abstraction scope to the scope of transdimensional/transcendental existential psychoanalytic ontological form (in full blossoming of the transcending dimension with its existentialism/full-existential-depth-implications personhoods-and-socialhood-formation); highlighting as ontologically wrong any relation to intradimensional meaningfulness as (intemporally/ontologically)-sanctuous-by-reflex (as this wrongly undermines the de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding–
or-attributive-dialectics) of temporal-dispositions-postlogic-backtracking-<iterative-looping-
‘set-of-dereifying-hollow-narratives-and-acts’>-subknowledging”/mimicking-set-of-

referencing-syncretising-as-straight/candored’ at that registry-worldview’s/dimension’s
uninstitutionalised-threshold requiring prospective memetic-reordering. (As a side note, this
will explain while ‘referentialism’ in contrast to ‘categorisation’ is the appropriate knowledge-
cadre for such a more or less deconstructive articulation in ontological-
normalcy/postconvergence and suprastructural, as is the case with this paper, by the fact of the
need for a requisite ‘habituation-into and repeatability-from-different-textual-meaningfulness-
perspectives’ that is necessary to get-to-and-grasp not only an explanation but critically as well
the requisite psychoanalytic-state of a construed existential psychoanalytic ontological form, in
full blossoming of the transcending dimension, as ontological meaningfulness.) Finally, it is
just a matter of fact going by the institutional-cumulation/institutional-recomposure-(as-to-
historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-
normalcy/postconvergence-reflected-‘epistemicty-relativism-determinism’>) process that
human cross-sectional mentation-capacity in relation to the intemporal-preservation-entropy-or-

going from base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. Such a ‘postconvergence referentialism’ skewed (‘intemporality\textsuperscript{52}-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) hermeneutic-circle goes beyond a traditional hermeneutics exercise of subjective interpretation and rather arrives at an exercise in ‘universal objective (ontological-primemovers-totalitative-framework\textsuperscript{72}) ontological explanation’ as it emphasises transversally/incongruently ‘the recomposuring precedingness/supersedingness/ascendency of abstract ontological-normalcy/postconvergence referentialism notion of reality’ in referencing meaningfulness apriorising–registry (whether candored / integratively-aligned / straightness / dialectically-or-contendingly-in-phase or decandored / transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ / dialectically-or-contendingly-out-of-phase colour/emotion/temporal-frame/aesthetics/memetics/psychical-representation), and so, as coming from an intemporal-disposition/ontological skewed (‘intemporality\textsuperscript{52}-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) point-of-referencing. It further holds a promise that goes beyond our notions of reference-of-thought and meaningfulness (as rather intradimensional or a registry-worldview constructs), and arrives at the grander notion of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which grasp should enable greater human transcendental possibilities. Of course, ontologically (i.e. ‘the-Good/understanding’ contrasted with ‘good-natured/impression-driven’) the bigger issue is how do our development and institutionalisation/intemporalisation of true knowledge ‘save us from potent-temporality\textsuperscript{50} and its vices-and-impediments\textsuperscript{50} with respect to ‘socially-perceived-value
as of social-stake-contention-or-confliction’, rather than how do we over-idealise ourselves and thus fail to be preemptive (as the ‘human cross-sectional mental equilibrium disposition’, at any successive transcendence-and-sublimity/sublimation/supererogatory–dementativity/institutionalisation in the ‘human essential notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence> equilibrium nature which is ontologically true’, under-accounts for ‘temporal-nature which is not ontologically true’, and over-accounts for ‘intemporality’/longness nature which is equally not ontologically true’–the insight for this is that institutionalisation/intemporalisation is a psychoanalytic-unshackling/memetic-reordering/institutional-recomposing tool, it doesn’t transform temporal-dispositions which is the exclusive purview of individual sense of dimensionality-of-sublimating ⟨<amplituding/formative>supererogatory–de-mentativenss/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ and by its very nature is ‘beyond a philosophical transformation exercise’ as the latter exercise is mainly to ‘construct articulations for secondnaturing’ at best (articulate new institutionalisation/intemporalisation deterministic-and-operant possibilities for skewing (‘intemporality –asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity)/deferential-formalisation-transference towards intemporal-preservation-entropy-or-contiguity–or–ontological-preservation), hence the need to refer analytically to human notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence> s as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_attendant-ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–reification_or_intrinsic-reality–

By extension this explains how the notion of ‘knowledge problem’ is to be apprehended transcendentally/transdimensionally/interdimensionally (as a contiguous intemporal ontological construct). Commonly, intradimensionally, the knowledge problem as ‘social problem/questioning’ is an ‘intradimensional focus’ around logical operation/processing/contention based on the reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the registry-worldview/dimension ‘towards resolution’, with the temporal defect of possible denaturing of such reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation undermining the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. However, ontological-normalcy/postconvergence (preceding/superseding intrinsic reality) insight points to a depth-of-focus of the knowledge problem as ‘social problem/questioning’ on the ‘intemporal-preservation-entropy’ itself-and-beyond-any-set–categorical-imperatives/axioms/registry-teleology,–implying-it (and by extension accounting for incompleteness of human mental/brain mentation-capacity which is the reason of the institutional-cumulation/institutional-recomposure–(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>) process) to define ‘social problem/questioning’ as implying a reference-of-thought–categorical-

Thus the ontological veridicality of the registry-worldview’s/dimension’s persion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation at it uninstitutionalised-threshold is articulated, with contention then being about reflecting/perspectivating/highlighting and aetiologising/ontologising this, even if it is intradimensionally unintelligible/existentially-suprastructural and unpalatable (consider in this regard, the development of positivism from non-positivism/medievalism). It should be noted then that the postconverging–de-mentating/structuring/paradigming is an
intemporal/ontological projection referencing beyond-and-non-implicative of an equivalence between (‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness’–ontological-reprojecting pedestalling) with the intradimensional ‘consciousness-awareness frame-of-social-stake-contention-or-confliction’ of the temporal/preconverging-or-dementing –apriorising-psychologism dimension, more like the positivist ontological biology and medicine postconverging–de-mentating/structuring/paradigming is beyond/supersedes-and-is-a-non-implication of an equivalence with the ‘consciousness-awareness frame-of-social-stake-contention-or-confliction’ of say non-positivism/medievalism temporal value dispositions with respect to the notion of disease, that is, it’s point is to define an altogether different and superseding meaningful frame or postconverging–de-mentating/structuring/paradigming and is not involved in an idle exercise of elevating and articulating its meaning in terms–as-of-axiomatic-construct of and implying an equivalence with non-positivism/medievalism meaningfulness. That is equally the relation between a transcending notional–deprocrypticism registry-worldview and the transcended procrypticism worldview. Postdication as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (postconvergence), as an ontological-reconstituting–as-to-conflatedness psychoanalytically/memetically/meaningfully allows for a purist (candored/decandored) ontological grasp/predication of the veridicality of any institutional-cumulation/institutional-recomposure⟨as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing⟨perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism⟩⟩ ⟨retrospectively to prospectively⟩; avoiding the defect of intradimensional-referencing of reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and consequently a superseded/transcended registry/registry-worldview-or-dimension as preconverging-or-dementing–apriorising-psychologism-⟨stranded-as-rightfully-oblongated/decandored-and-dialectically-or-

This transcendental insight is in line with the idea of low teleologies or temporal concerns in threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supereorogation `<as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-psychologism`, and ontologically short in a temporal 80-to-90-years-of-life-mental-project, and higher teleologies or intemporal/transcendental concerns in organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-`reference-of-thought’–as-conflatedness –or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology), and ontologically long in an intemporal/species-possibilities/abstract-eternity-of-being-mental-projection/eudaemonic-contemplation), and their corresponding abstract individuation aetiologies (even though in effect individuals as ‘receptacles of specific individuation aetiologies’ cannot realistically be construed as absolutely tied to low or higher teleologies but rather as tending to accrue towards a specific-individuation-aetiology/characteral-disposition whether of low or higher teleology }; hence any such ‘storied/articulated’ absolutely specific-individuation-aetiologies are caricatural of the realistic nature of individuals as ‘receptacles of individuation aetiologies’, though all such storied/narrated specific individuation aetiologies represent the full possibilities of any and all individuals ‘as receptacles of individuation aetiologies’). By ‘higher teleologies’ is meant ‘existential disposition’ which is ‘in essence intemporally preserving solipsistically/emanantly/becomingly’ (and so, by a profound-supereorogation disposition that is beyond just one institutionalised/intemporalised registry-worldview/dimension `reference-of-thought–categorical-imperatives/axioms/registry-teleology` but abstractly and supererogatorily across all transcendental retrospective-and-prospective institutionalisation/intemporalisation registry-worldviews/dimensions as so-reflected by dimensionality-of-sublimating `<amplituding/formative>supereorogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-

<in-deferential-formalisation-transference> undermining of procrypticism–or–disjointedness-as-of-reference-of-thought and its vices-and-impediments¹⁰⁶). It should thus be noted as such that ‘higher teleologies’ are ‘equivalences of existential’ (in terms–as-of-axiomatic-construct of notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>), and not equivalences of institutionalisation/intemporalisation levels. That is, being in a transcended institutionalised/intemporalised registry-worldview/dimension (internalisation and formalisation induced as a secondnature) doesn’t equivocate as highest teleologies to the existential projection that ‘had the vision’ in the prior/superseded subknowledging⁹⁵/mimicking/untranscended registry-worldview/dimension (‘with-no-elicited-positive-opportunism—of-social-functioning-and-accordance⁷⁹/much-more-likely-temporal-negative-disincentive’ and ‘out-of-the-blue’) to articulate-and-uphold-for-percolation-channelling-
<in-deferential-formalisation-transference> the prospect of the transcended-registry-worldview/dimension-with-its-prospective-universal-virtue-over-the-vices-and-impediments¹⁰⁶-of-the-prior-registry-worldview/dimension even as it seem
unintelligible/existentially-suprastructural to the prior/superseded untranscended/preconverging-or-dementing\textsuperscript{17}–apriorising-psychologism registry-worldview/dimension. So in terms–as-of-axiomatic-construct of ‘higher teleologies’ (emphasising the existential intemporal-disposition as a seed-of-virtue over institutionalisation/intemporalisation outcome, which the former enables) being in an institutionalised/intemporalised positivistic world doesn’t necessarily equivocate us to the Galileos, Descarteses, Newtons, Leibnizes, Rousseaux, Darwins … behind the articulation-and-upholding-for-percolation-channelling-\textless in-deferential-formalisation-transference\textgreater of a positivistic registry-worldview/dimension (even though together with them we all may recognise and operate within a positivistic world). That is, the ‘existential profound-supерerogating that enables the articulation-and-upholding-for-percolation-channelling-\textless in-deferential-formalisation-transference\textgreater of a transcending registry-worldview/dimension as to dimensionality-of-sublimating\textsuperscript{24}−\{\textless amplituding/formative\textgreater supererogatory\textless dementativeness/epistemic-growth-or-conflatedness /transvaluative rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness\textless equalisation\textgreater\}’ is the higher teleology\textsuperscript{100} ‘over the mere-institutionalised-being-and-craft’ in such a transcended registry-worldview/dimension. And why is this distinction critical? Because prospective (intemporality\textsuperscript{15}) need for prospective institutionalisation/intemporalisation/transcendence for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation necessarily calls upon the (intemporal)-kind that articulated-and-upheld-for-percolation-channelling-\textless in-deferential-formalisation-transference\textgreater the superseding institutionalisation/intemporalisation/transcendence; and the condition of mere-institutionalised-being-and-craft in the untranscended registry-worldview/dimension doesn’t speak of a disposition to prospectively articulate-and-uphold-for-percolation-channelling-\textless in-deferential-formalisation-transference\textgreater an intemporally requisite prospective registry-
worldview/dimension institutionalisation/intemoralisation that is intemorally preserving (in ontological-normalcy/postconvergence), highlighting the veridicality and need for ‘human registries-disambiguation at uninstitutionalised-threshold’, and as being notional-absolutely—temporal-to-intemoral-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>. The notion of higher teleologies as such is specific to the human species in holding that beyond just ‘a physical animal passing of specie generational succession’ for survival and optimising-specie-flourishing, with higher teleologies there is ‘an even more critical passing of generational succession’ as memetic-skewing-or-reordering/philo-cultural optimising of possibilities of the species towards intemoral virtue as civilisational over temporal vices-and-impediments (philo-cultural and not cultural, because philosophy notionally supersedes and defines cultural possibilities); and so, by virtue of the exceptional possibility, in time and space, of human transformation/transcendence by philo-cultural skewing (‘intemorality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory—de-mentativity)/memetic-reordering with respect to the base physical animal selectivity process (genetics) of the human species generational succession. On other issues of pertinence in the bigger scheme of things: (i) Meaningfulness of notional—firstnaturedness—temporal-to-intemoral-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> as to ‘existential idealism/success’ as these define mental orientations or registry-worldview teleological-dispositions. what allows for human transcendence-and-sublimity/sublimation/supererogatory–de-

allows for the lightness of hydrocarbons, ‘where lightness is virtue’. Basically, it can be said
that without the human quality of the ‘aetiologisation/ontological-escalation individuation of
the intemporal’ we’ll still be probably in caves. Of course, such a depth-and-projecting-scale-of-thought requires an appreciation of the ‘percolative impact’ of the ‘firstnature/intemporal’ (which is not readily available to the immediacy/shortness-of-register-of—‘meaningfulness-and-teleology of minds of temporal-dispositions). For instance, men did not ‘by magic’ develop the possibilities of civilisations whether the stone, bronze, copper, iron ages, the antiquities, the medieval and today modern positivism; without a corresponding ‘psychoanalytic liberation’ that allowed for such a development induced by philosophical revolution, however, prosaic the philosophy. For instance, it is not by magic that science and vaccines were not developed in antiquities but were developed in early industrial Europe, as the ‘psychoanalytic liberation’ of the ideas expressed by the Descartes and Galileos ‘shaped subsequent common minds’ to be inclined to rationalise profoundly their grasp of physical phenomena like Pasteur and others. Likewise, the philosophical development in antiquities not being ‘profoundly applicative enough’ and more or less cultic (available more or less to a priestly class and poorly universalising in many such slaving-and-class society), such a psychoanalytic liberation percolation-channelling-in-deferential-formalisation-transference-effect could hardly be obtained from say Aristotle’s writings (granted, it percolated into the medieval Arabic and European worlds), and in addition the ‘intellectualism’ was more like contained in a ‘cultic class’, and hardly the bread and butter of commoners (and even then, Athens was outlying without scale and time and the sufficient lack of chaos and war). The reason for a registry-worldview’s/dimension’s institutionalisation/intemporalisation transcendence-and-sublimity/sublimation/superrorary-de-mentativity from the superstitious/religion, universal-notions/essences, principles-rationalism/positivist-idealism and then the rational-realism of notional–deprocrypticism as of ratiocination/ratio-contiguity as nondisjointing is that psychoanalytically/memetically/meaningfully the human psyche is inclined/shaped/desires to find an all-in-all-encompassing-response (magic wand) to explain its world, but then realises across institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’> that successive introduction of more and more ‘realistic’ conceptualisations enable a grander ontological-primemovers-totalitative-framework\(^{[3]}\) and grasp of its world. Further, what differentiates principles-rationalism/positivist-idealism and the rational-realism of notional–deprocrypticism as of ratiocination/ratio-contiguity as nondisjointing is that the ‘institutionalising threshold for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ of the latter introduces the disambiguation of dispositions in meaning construal and subsequent logical

Methodologically, it should draw on phenomenological-and-hermeneutic-insights, as with this research paper, and extending into a ‘creative existentialism (full—existential-depth-implications) storying construal’ as the ‘ontologically effective, applicative and operant articulation insight’ to this background phenomenological-and-hermeneutic-insights. Its highlighting of such a transcendence-and—sublimity/sublimation/supererogatory—de-mentativity should be similar to say a literary work like Things Fall Apart by Chinua Achebe even though the latter is rather more about cultural—diffusion—from—Western—philosophical—transcendence which positivistic transcendence-and—sublimity/sublimation/supererogatory—de-mentativity integration into the society’s institutionalisation/intemporalisation percolation-channelling—<in—deferential—formalisation—transference> undermines—psychoanalytically/psychoanalytic—unshackling/memetic—

But then unlike Things Fall Apart, such a perpetuation-of-notional-deprocripticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity being not a cultural-diffusion-from-another-society’s-philosophical-transcendence but rather a universal-human-intradimensional-philosophical-transcendence can be creatively devised as being in substitution to an ‘abstract cultural-diffusion-from-another-society’s-philosophical-transcendence transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, for an in-depth insight. However, the latter storying will have to be more deterministic, operant and of aesthetic applicability, unlike just a simple literary work, with strong existentialism/full-existential-depth-implications insights with respect to percolation-channelling.<in-deferential-formalisation-transference> effects as predication/deferred-predication and application/deferred-application to human and social issues based on notional–firstnaturedness—temporal-to-intemporal-dispositions—conceptual articulation as ontological-primemovers-totalitative-framework about the ‘abstract nature of man’. In the bigger scheme of things, such a ‘creative existentialism (full-existential-depth-implications) storying construal’ on perpetuation-of-notional–deprocrypticism re-elaborated to a ‘creative existentialism (full-existential-depth-implications) storying construal’ of all the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity provides an even more profound and emanant-insight understanding of the anthropological continuity/anthropopsychology and the proper place of the present positivistic mind in the bigger scheme, and what is prospectively implied, as a perpetuation-of-notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity). Another ontological element of the perpetuation-of-notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is that it is ‘weakly positive opportunistic’ to the cross-section of the social construct. Prior/superseded transcendence-and-sublimity/sublimation/supererogatory–de-mentativity are relatively ‘strongly positive opportunistic’ with base-institutionalisation transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from recurrent-utter-uninstitutionalisation being the strongest in its positive-opportunism—of-social-functioning-and-accordance as the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of: ‘organising rules/principles’/base-
institutionalisation are opportunistically critical for temporal direct/immediate survival itself, i.e. such an uninstitutionalised state with uncertainty, lack-of-knowledge about the environment and relative lawlessness ‘focuses the individual’s mind’ to adhere to any dependable organised rules/principles/laws, even where such organising rules/principles/laws are bad so long as they are predictable, be it circumstantially (and effectively, base-institutionalisation is a state where such organising/rules/principles/laws are constantly being remade competitively with respect to survival-possibilities and power-relations, but on the other hand base-institutionalisation tends to have weak institutionalisation/intemporalisation percolation-channelling in-deferential-formalisation-transference for intemporal transcendence-and-sublimity/sublimation/supererogatory—de-mentativity in the long run due to ‘holding-on-to-the-initial-proven-survival-and-flourishing-assets/tradition’ and ‘a question of power relations’, and more likely than not, in such human society in ‘clanic turbulence’ base-psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is a highly-diffusionary-juggling-and-reconstituting-transcending-across-clans rather than oriented towards just a singular intra-social intemporal-philosophical transcending, but also involving on the rare occasion a lopsided diffusion from an altogether different and dominant cultural grouping); those of ‘projecting rules/principles’ or universalisation are less opportunistically critical for temporal direct/immediate survival but are relatively vital and extend the ambits of the former; while those of ‘empirical rules/principles’/positivism are even less positive-opportunistically critical for temporal direct/immediate for immediate/direct survival but relatively critical for flourishing (science, human rights, democracy, etc.). So these institutionalisations transcendence-and-sublimity/sublimation/supererogatory—de-mentativity can elicit, in effect, a grander sense of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation.
postconverging–de-mentating/structuring/paradigming rather than a temporal extricatory preconverging–de-mentating/structuring/paradigming in their cross-section of the social-construct. However, it will probably be more facile for such a cross-section of the social-construct to be strongly disposed to adopt an extricatory/temporality\(^9\) preconverging–de-mentating/structuring/paradigming rather than intemporal/ontological/social/species/\(^{10}\) universal/transcendental/\(^{11}\) maximalising-recomposuring-for-relative-ontological-completeness\(^{12}\) — unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming regarding the \(^{13}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{14}\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of ‘notional–firstnatures—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence> accountability as intemporality -skewing (‘intemporality’-asymmetric-subsumption-of-temporality\(^{15}\)’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) rules/principles’ or notional–deprocrypticism with regards to their temporal direct/immediate survival opportunism statistically to individuals on the cross-section of the social-construct. An intemporal disposition as ontological projecting that may elicit a sense of positive-opportunism—of-social-functioning-and-accordance\(^{16}\) for survival itself with base-institutionalisation will not necessarily have the same adherence effect on the cross-section of the social-construct when it comes to a transcendence-and-sublimity/sublimation/supererogatory–de-mentativity which temporal directness/immediacy for ‘individuals sense of survival-and-flourishing’ is not so obvious but for its abstract ontological veridicality and abstract intemporal transformation implications as is the case with deprocrypticism; but is rendered possible because of the relatively ‘strong preset institutionalisation/intemporalisation percolation-channelling–<in-deferential-formalisation-transference> for transcendence-and-
sublimity/sublimation/supererogatory--de-mentativity’ (on the basis of its untenability/internal-contradiction/internal-incoherence/institutional-constraining generation capacity); more like it would be fair to say that many an abstract and boring scientific efforts do not necessarily appeal temporarily but for the strongly preset institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> for their social integration. Basically, with transcendence-and-sublimity/sublimation/supererogatory--de-mentativity as temporal directness/immediacy weaken on the one hand, the element of untenability/internal-contradiction/internal-incoherence/institutional-constraining (with institutional percolation-channelling-<in-deferential-formalisation-transference> for transcendence-and-sublimity/sublimation/supererogatory--de-mentativity) in assuring prospective transcendence-and-sublimity/sublimation/supererogatory--de-mentativity strengthens. To sum up, this highlights the ‘temporal existentialism/full-existential-depth-implications practicality aspect’ involved in all human transcendence-and-sublimity/sublimation/supererogatory--de-mentativity. That is, transcendence-and-sublimity/sublimation/supererogatory--de-mentativity is more of a human-mentation-capacity driven construct and its mundane recognition is not inherently by its supposed virtue (given that survival-and-flourishing, and not veracity/ontological-pertinence, are the more immediate/direct basis for the human temporal drive). To the extent that transcendence-and-sublimity/sublimation/supererogatory--de-mentativity highlights critically that it is what is the best enabler for survival-and-flourishing then it is a force of social transformation. Equally, an ontologically-veridical but not immediately/directly survival-and-flourishing will not, with regards to human temporal practicality, by mere ontological-veridicality be a basis for its social integration, if the insight that it provides a grander survival-and-flourishing scheme isn’t immediately palpable. As in this case human temporal practicality disposition is perfectly inclined to threshold at its registry-worldview/dimension uninstitutionalised-threshold ⁰. But then with an increasing cerebral grasp of our nature and
our surrounding world rather than just passive endurers of nature-in-action, we can fairly anticipate and supersede intellectually our human temporal practicality dispositions, in this case with regards to deprocrypticism, and attain prospective knowledge-and-virtue generally. Meaning (defined previously as what defines/predicates value, thought and action) is actually a referential memetic construct in the referential exercise of the entropic preservation of preceding-intemporality\textsuperscript{52}/intrinsic-reality as validated by ontological-primemovers-totalitative-framework\textsuperscript{73}. This leads in the instance of perversion-of reference-of-thought\textsuperscript{<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> to the notion of ‘memetic-corruption or psychoanalytic-misrepresentation of reference-of-thought\textsuperscript{84}/categorical-imperatives/axioms/registry-teleology\textsuperscript{100}; requiring a referential ‘memetic reordering/psychoanalytic-unshackling reference-of-thought– categorical-imperatives/axioms/registry-teleology\textsuperscript{100} for the entropic preservation of intemporality\textsuperscript{52}/intrinsic-reality as validated by ontological-primemovers-totalitative-framework\textsuperscript{73}. The referential memetism as suprastructural-meaningfulness implying that meaning is in fact a ‘human mental devising construct’ (not inherently ontological or intrinsic-reality) and it is grounded on its validation/veridicality by its ontological-primemovers-totalitative-framework\textsuperscript{73} in showing it is proxying to ‘abstract and inherent ontology/intrinsic-reality/veridicality’ which is a preceding/superseding notion (postconvergence) to our mental devising of meaning; explaining why we adjust our meaning model/memetic-reordering/psychoanalytic-unshackling (soundness-or-ontological-good-faith/authenticity\textsuperscript{69}-of-reference-of-thought/candored, and then mentally-oblongated/decandored with respect to new/superseding soundness-or-ontological-good-faith/authenticity\textsuperscript{69}-of-reference-of-thought/candored) when the proxying-registry-construct is internally-contradictory and demonstrated to be flawed at successive uninstitutionalised-threshold\textsuperscript{103} whether from
recurrent-utter-institutionalised to base-institutionalised, ununiversalised to universalised, non-positivism/medievalism to positivistic, and prospectively procrypticism to deprocrypticism. More than just an exercise of grasping the possibilities of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, it is critical that for future transcendence-and-sublimity/sublimation/supererogatory-de-mentativity we don’t confuse the development of a ‘banal/temporal/averaging-of-temporal-thoughts’ notion in ‘our shortness of the lives of mortals’ (80 or 100 years or so) as defining what is ‘existential idealism/success’ on the basis of such ‘mental shortness’ (which isn’t even solipsistically/emanantly/becomingly the intemporal responsibility for the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity that enabled its world, the positive worldview from non-positivism/medievalism, but has been rather ‘institutionalised and secondnatured there’, and so is ‘philosophically irresponsible’ prospectively with respect to the bigger scheme of things regarding transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/prospective-institutionalisation, necessarily so when inclined to an extricatory temporal-disposition that is not solipsistically intemporally responsible). Intellectually and knowledge-wise, the articulation of ‘existential idealism/success’ must be the exclusive purview of the aetiological individuation of the intemporal-disposition whose organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought–as-conflatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology’s 10 universal projection/intemporality 52 keeps alive the notion of existential idealism/success as long as from its intemporal-disposition that started base-institutionalisation (to thwart recurrent-utter-uninstitutionalisation) through universalisation (to thwart ununiversalisation), positivism (to thwart non-positivism/medievalism), and prospectively its intemporal-disposition that will enable notional–deprocrypticism (to thwart procrypticism–or–disjointedness-as-of-reference-of-thought) and thereafter; the intemporal mind as such projects in an ‘abstract
eternity’ that is what allows for the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In the bigger scheme of things, all the vices-and-impediments of the successive registry-worldviews/dimensions can be directly ascribed as corresponding to the perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of temporal-dispositions at the registry-worldviews/dimensions uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and prospectively procrypticism (pointing to the fact that virtue is about ‘the-Good/understanding/notional~knowledge-reification–gesturing-in-prospective_psychologismic~apriorising/axiomatising/referencing- {of-attendant-ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging disentailment by] postconverging entailment> of ontological-primemovers-totalitative-framework constructs’ of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism, and not ‘good-natured/impression constructs’ which are vague, as it is inevitable that there is no good-naturedness/impression-drive that exist to prevent a recurrent-utter-institutionalised mind from deterministically committing the vices-and-impediments of recurrent-utter-uninstitutionalisation, of an ununiversalised mind those of ununiversalisation, of a non-positivism/medievalism mind those of non-positivism/medievalism, and prospectively of a procryptic mind (as subknowledging/mimicking/perverting positivistic meaningfulness) those of procrypticism. It is critical for the sake of the temporal mortal that we are, not to be allowed to be our own God; that is exactly what creates transcendent possibilities, otherwise we syncretise and preserve and articulate our temporality/shortness as being intemporal! (ii) ‘Intellectual solipsistic/emanant irresponsibility’ referring to ‘intellectual idealism’ success in conceiving intemporal meaning but failure in preserving intemporal meaning from ‘temporal mimicking, denaturing’ and subknowledging’ with corresponding poor temporal-dispositions orientations/registry-worldview over that intemporal meaningfulness in relation to the bigger picture of human/social progress postconverging-de-dentating/structuring/paradigming. While intellectual ontological/intemporal meaningfulness may strive to articulate a universal idealism/intemporal projection, it is rather naïve to operate on the ‘romantic’ basis that universal idealism/intemporal projection is the sole disposition of humans as temporal dispositions like postlogism -slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation are endemically part and parcel of the reality of human dispositions; and so, as a matter of fact on a simple ‘scientific basis of determining first principles’ and not necessarily to stigmatise, as reality works on the basis that ‘what is, is what is!’ That then being the case, what then is the relevant question is how do we ensure by institutionalisation/intemporalisation (based on the-Good/understanding/notional-knowledge-reification–gesturing-in-prospective_psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity } — conflatedness -in-[preconverging-disentailment-by]-postconverging-entailment>/ontological-primemovers-totalitative-framework and not impression/good-naturedness/wishfulness

realistically we need ‘dominating/superseding artifices’ or ‘institutions and their rules and

perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation that goes on to undermine directly or by sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising conjugations the virtue in knowledge, and so in

responsibility warrants that the intellectual exercise (as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) involves both a construction of the intemporal ideal and equally a stifling of the possibilities of perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing—apriorising-psychologism. This involves avoiding the naivety of articulating
meaning only in the sense of the intemporal ideal but including a constraining and notional-firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—disambiguating realism that upholds/preserves intemporality/longness and stifles temporal-dispositions perversions-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-
onconviction/madeupness/bottomlining-as-to-shallow-supererogation inclinations. Such an approach is known as the ‘knowledge-notionalisation’ or knowledge as a continuum from ‘the ignorances/desublimation’/temporal-dispositions to knowledge/intemporality which then allows for scrutinising and preempting ‘the ignorances/desublimation’/temporal-dispositions, i.e. apprehending not only intemporal implications of any knowledge construct, but being transversally/logically-incongruent preemptive to potential temporal undermining of that intemporal idealism construct). ‘Intemporal and temporal disjuncture’ basically refers to the fact that in the elaboration of conventioning with respect to ontological-veridicality with regards to social-stake-contention-or-confliction both the intemporal and temporal-dispositions are preservational in their finalities, i.e. temporal-dispositions do not transcend philosophically but by untenability/internal-contradiction/internal-incoherence/institutional-constraining, and it is vague and naïve to intemporally/ontologically engage at the philosophical level to wrongly imply such a solipsistic transcendental process as this should not be confused with the formalisation effect of secondnaturing and internalisation. ‘Intemporal and temporal disjuncture’ can equally be analysed as ‘transcendental-or-transdimensional prospective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and intradimensional-meaningfulness disjuncture’ given there is mutual unintelligibility between prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and intradimensional meaningfulness for instance respectively as notional-deprocrypticism and as procrypticism (perversion-of-reference-of-thought-as-preconvergingly-

This mutual unintelligibility should not be ‘addressed logically’ actually by the intemporal-disposition or prospective-memetism or prospective/transcending registry-worldview/dimension as this naively implies both registry-worldviews/dimensions share the same reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation (going from the insight of a common vantage perspective of mutually unintelligible/existentially-suprastructural positivism and non-positivism/medievalism reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation); wherein it is transversality<for-sublimating–existential-eventuating/denouement>~of-

For the simple reason that intrinsic-reality being preceding as ontological-normalcy/postconvergence it won’t let the positivistic mindset/reference-of-thought (as intrinsic-reality/ontology is inherently suprastructural or beyond-the-consciousness-awareness-teleology<in-preconverging–existential-extrication-as-of-existential-unthought> of the mortals that we are, in the sense that a cholera epidemic that was to occur say in 100 B.C. reality/ontology) to be involved in social-and-temporal-trading with the non-positivism/medievalism mindset/reference-of-thought as inherently all the greater possibilities of grasping a more profound intrinsic-reality/ontology lies with ‘reasoning-through/utterion’ with the prospective memetism of positivism which actual mental-devising-representation of non-positivism/medievalism is as preconverging-or-dementing/apriorising-psychologism (where the non-positivism/medievalism registry-worldview/dimension is the prior/transcended/superseded intradimensional meaningfulness perspective). The validation arises from the untenability/internal-contradiction/internal-incoherence/institutional-constraining in the long-run of non-positivism/medievalism, as the more profound positivistic meaningfulness takes hold in the-Good/understanding/ontological-primemovers-totalitative-framework institutionalisation percolation-channelling/<in-deferential-formalisation-transference> mechanism. This ontological insight (transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ that plays out to enable the utter prospective/superseding/transcending of the intemporal-disposition or prospective memetism or prospective/transcendental/superseding registry-worldview/dimension) also informs, as with all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, the relation between the prospective meaningfulness/memetism or transcending/superseding registry-worldview/dimension as notional–deprocrypticism and prior/transcended/superseded intradimensional meaningfulness/memetism as our procrypticism, with the latter superseded/transcended as of ‘reasoning-through/utterion’ and represented as preconverging-or-dementing/apriorising-psychologism in line with the preceding ontological-normalcy/postconvergence nature of intrinsic-reality/ontology, likewise with the idea that notional–deprocrypticism validation will arise from the untenability/internal-contradiction/internal-incoherence/institutional-constraining of procrypticism as futural Being-
intemporally-preservational); with the preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism reflected/perspectivated in the mental-devising-representation fully implied by the new transcending/superseding \textsuperscript{8}reference-of-thought (of postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism) about the prior transcended/superseded \textsuperscript{8}reference-of-thought (and so, beyond the latter’s registry-worldview/dimension wrongful reflex to set-aside/ignore the implications of its demonstrated ontological-impertinence as of notional-discontiguity/epistemic-discontiguity \textsuperscript{<shallow-supererogation -of-mentally- aestheticised–preconverging/dementing –qualia-schema> and go on to be of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiac-drag this now shown-to-be-wrong \textsuperscript{8}reference-of-thought). Preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism as such is easily and spontaneously reflected of a prior/superseded/transcended registry-worldview/dimension like for instance a positivistic registry-worldview/dimension mental-devising-representation reflecting the preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism of a medieval registry-worldview/dimension. But then this is because the positivistic registry-worldview/dimension doesn’t have to deal with any existential illusion-of-the-present/present-consciousness/epistemic-totalising\textsuperscript{7}~self-referencing-syncretising/mirage that the non-positivism/medievalism registry-worldview/dimension personhoods-and-socialhood-formation has to deal with. However, implying similarly the preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism of the positivistic registry-worldview/dimension from its intradimensional perspective where its own \textsuperscript{7}reference-of-thought is superseded/transcended by a prospective \textsuperscript{7}reference-of-thought as notional~deprocrypticism will, this time around by the positivistic registry-worldview/dimension existential illusion-of-the-present/present-consciousness/epistemic-totalising\textsuperscript{7}~self-referencing-syncretising/mirage that its personhoods-and-socialhood-formation has to deal with, lead to the positivistic registry-
worldview/dimension by reflex setting-aside/ignoring the prospective and veridical reference-of-thought and corresponding (postconvergence) ontological-veridicality/ontological-contiguity, and go on to self-reference-syncretise its transcended/superseded reference-of-thought. In concrete terms for instance, whereas a positivistic mindset/reference-of-thought will likely shift the reference-of-thought with regards to say a non-positivism/medievalism context of notions-and-accusations-of-sorcery where A were to accuse B for being a sorcerer who caused A’s illness, the mental-devising-representation of the positivistic mindset/reference-of-thought will be that A is preconverging-or-dementing apriorising-psychologism and that a germ and biological functioning theory of the human body is the reference-of-thought for A’s disease. But then intradimensionally, A and B and their society of personhoods-and-socialhood-formation and existentialism/full-depth-of-existential-implications that are non-positivism/medievalism will tend to harken back to reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that uphold the prior/transcended/superseded reference-of-thought that admits to notions-and-accusations-of-sorcery. The effective anthropological and dialectical evidence (mostly from diffusional transcendence-and-sublimity/sublimation/supercratory–de-mentativity given the relative abruptness of cultural diffusions compared to an intra-society philosophical transcendence-and-sublimity/sublimation/supercratory–de-mentativity which is rather slow in the making) shows that it is the crossgenerational habituation by amplituding/formative-epistemicity–totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag into reference-of-thought of the prospective/transcending/superseding registry-worldview/dimension (in this instance the positivistic registry-worldview/dimension) that will ultimately ‘wean’ the prior/superseded/transcended registry-worldview/dimension (in this instance non-positivism/medievalism) from its defective non-positivism/medievalism

The reason why ontological-normalcy/postconvergence indicates that ‘good-naturedness constructs’ are defective is quite simple as it is based on adhering to a registry-worldview’s/dimension’s institutionalisation temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{1}–narratives—of-the–reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, which along the institutional-cumulation/institutional-recomposure–{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’}>\) are successively shown to be defective-as-always-being-sub-par-to-intrinsic-reality and defining the uninstitutionalised-threshold\textsuperscript{103}. Virtue and ontology/intrinsic-reality rather lies in the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and not its reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, with the latter only being pertinent in the sense where it relays intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Such a relaying is not within the ambits of good-naturedness constructs but rather the-Good as a continuous refinement of ontological-prime movers-totalitative-framework\textsuperscript{73} that ensures re-institutionalisation/re-intemporalisation for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation when

Thus supposed an individual shows good-naturedness following the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the recurrent-utter-uninstitutionalised registry-worldview/dimension that warrants that one simply gets one’s way no matter the situation even if it means committing murder to have some food for oneself and close ones; a good-natured quality that is highly rated for survival in a recurrent-utter-uninstitutionalised setup. Thus this insight in transcendental analysis is that by its very nature in that it puts into question ways, assumptions and traditions of thought and practices,
the possibility of truly profound insights that go well beyond more or less platitudes and inevitably requires taking stock of the full-depth-of-existential-implications/existentialism of transcendental-meaningfulness–

establishing a human approximating/proxying/aligning relationship with the ‘potency of intrinsic-reality/ontological-veridicality (ontological-normalcy) which is a coherent oneness’ that can very much be anticipated as ontological-normalcy/postconvergence. In this regard, it should be reiterated that ‘registry (‘categorical-imperatives/axioms/registry-teleology’ establishes reference-of-thought, and acts as the basis for and defines the operation of logic or logical processing’, and it is notionally all about registry-soundness (reflected as soundness of thought) when we are of supplanting-conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism or perversion-of- reference-of-thought<as-preconvergingly-

intemporality may vary from an intellectual nature where for instance an ordinary person may spontaneously save from drowning or defend another or others at risk to themselves, etc., implying that individuals ‘solipsistic or secondnatured philosophies’ with respect to the acuteness of social-stake-contention-or-confliction is more critical in determining their dispositions to preserve-intemporality or fail-intemporality; thus explaining a same notional and contiguous conceptualisation (rather as a variation of degree and not different notions) construed as notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as shortness-of-register-of—meaningfulness-and-teleology to longness-of-register-of—meaningfulness-and-teleology, and equally explaining why institutionalisation/intemporalisation is possible, as the framework/social-construct wherein social-stake-contention-or-confliction arise can be construed/designed to skew (‘intemporality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendentalenabling/sublimating/supererogatory—de-mentativity) towards and encourage the intemporal-disposition to preserve-intemporality over failing-intemporality/temporal-dispositions of postlogism—slantedness (postlogism—as-perversion-of-reference-of-thought—as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation>—instigation-at-a-given-registry-worldview/dimension, that is instigative to the turning of the prospective ‘temporal defect–of–logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance into registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect<as-Being-or-ontological-or-existential–defect>), and its subsequent conjugation with ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Critically, this accounts for how individuals arrive at their various teleologies/finalities of the intemporal-disposition as ‘logically sound acts’ or temporal-dispositions as ‘logically unsound acts’ or defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance (in the latter case, which are more or less incidental and salvable as just attendant). Thus, the respective registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism. That said in all the registry-worldviews, ontological-primemovers-totalitative-framework\(^7\) (as a ‘Différance-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology\(^{10}\)’) and percolation-channelling-in-deferential-formalisation-transference from human intemporal-disposition solipsism-of-thought (hence utterly ontologising and rather acting-in-intemporal-preservation, whatever the circumstance) induces in the middle to long run the requisite positive-opportunism—of-social-functioning-and-accordance\(^8\) untenability/internal-contradiction/internal-incoherence/institutional-constraining that dislodges the preconverging-or-dementing–apriorising-psychologism meaningfulness and induce prospective/transcending/superseding institutionalisation/intemporalisation as ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ meaningfulness as base-institutionalisation, universalisation, positivism and prospectively notional–deprocrypticism registry-worldviews. Without this institutionalisation/intemporalisation ‘constraining’, there isn’t really any temporal
with the one being prior/transcended/superseded and the other prospective/transcending/superseding. It is important to grasp that going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturness—temporal-to-intemporal-dispositions—<so construed as from perspective–ontological-normalcy/postconvergence>—existentialism-form-factor, the ontological-contiguity—of-the-human-institutionalisation-process where this is skewed (‘intemporality –asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) by deferential-formalisation-transference towards the intemporal (intemporalisation) is actually an artifice (artificial conceptualisation) that is habituated for its relative positive-opportunism—of-social-functioning-and-accordance with regards to the cross-section of human interest in the middle to long run construed as of de-mention (supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics). However, no institutionalisation construct, going by its implied transcendence-and-sublimity/sublimation/supererogatory–de-mentativity alienating ‘present as prior/transcended/superseded ontological-reference conceptualisation’ for ‘future as prospective/transcending/superseding ontological-reference conceptualisation’, has ever been acquiesced to socially without resistance even in instance induced by diffusion involving the power dominance of one cultural entity over another, with such resistance being at least in the short-term of a covert nature and of a syncretising/circularity/interiorising/akrasiatic-drag nature as well. Resistance is even stronger where transcendental institutionalisation is implied within a same cultural entity. Thus it might just be the case that the more or less itinerating clanic or tribal groups of early humans were the perfect model for a sort of complementary diffusion of transcendentalism that quickly enabled a
hominid to achieve the core assets for its perpetuation of civilisation as complex meaningfulness enabled by language and culture. Insightfully as well the possibility of positivism/rational-realism arising in Western Europe was greater by this same mechanism of complementary diffusion of transcendentalism given the mutually feeding diffusionary dynamics across the constitutive feudal entities of Medieval Europe sharing a common referent Judaeo-Christian worldview of a ‘relatively weak dogmatism’; and this can be contrasted during or just before the same period with the hegemonic or near-hegemonic governance of China and of the Islamic world ultimately stifling their nascent positivistic inclinations involving the stifling of a potential Chinese age of voyage and trading as it turned inward or the stifling of Islamic learning and science respectively. Equally, anthropological examination of various cultural groups shows that human progress is not a given and that if the appropriate conditions are not satisfied there is nothing that says a given society will fulfil its potential for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and this author thinks that applies to us as of the positivism–procrypticism registry-worldview as we are not beyond ontological-veridicality/intrinsic-reality by mere vague egotistic/self-referential complex but rather as of a lucid contemplation and subjection to insight about prospective ontological-veridicality/intrinsic-reality axiomatic-construal, in much the same way positivism institutionalisation transcendence-and-sublimity/sublimation/supererogatory-de-mentativity came about. The bigger point here is that while within ‘institutionalised constructs’, there is more or less summative perception of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction on the basis of common/same/shared registry-worldview reference-of-thought priorly institutionalised by prospective-institutionalisation/intemporalisation-as-transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, however, at uninstitutionalised-threshold, we should be expecting nothing less than the ‘normal’ human-subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, and so at the threshold between recurrent-utter-uninstitutionalisation and base-institutionalisation, universalisation and ununiversalisation, non-positivism/medievalism and positivism, and prospectively procrypticism and deprocrypticism. The implication is that naturally all prospective institutionalisations by their implied transcendence-and-sublimity/sublimation/superrerogatory-de-mentativity are ‘antagonistic by inducing contrariety in the temporal sense’ even though we’ll appreciate that their intemporal valor is inestimable (at least when we are looking retrospectively in appreciating that a positivistic outlook should supersede a non-positivism/medievalism outlook, and in the case where we are not uninhibited/decomplexified to equally construe that prospectively as a notional-deprocrypticism outlook should supersede a procrypticism outlook). This insight equally highlights that institutionalisation/intemporalisation is implied with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, and is critical for would-be emancipation-inducing intemporal individuations in grasping the whys and hows of social reaction to transcendental conceptualisation going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, how temporal ‘resistance’ is superseded, the mechanism of percolation-channelling-<in-deferential-formalisation-transference> and how transcendental ideas are taken up over time and induce
unchainability/internal-contradiction/internal-incoherence/institutional-constraining and positive-opportunism—of-social-functioning-and-accordance—in the short run and secondnaturin in the middle to long run construed as of de-mentation—(supererogatory--ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). The fact is that while the social-construct is by and large a conceptualisation that determines individuals possibilities, the reality is equally that the social-construct does has ‘powerful channels’ that enable individuals to drastically redefined what is the social. The individual, it is often ignored, is an abstract-atomic-social-construct, as in the individual is priory implied in the social, beyond just in terms–as-of-axiomatic-construct of social aggregation in implying a meaningfulness and value-reference construct relationship to the abstract summative social. Such insight on the nature of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity will certainly highlight why the Encyclopédistes coordinated by Diderot played a relevant role in inducing a domino effect contributing in transforming medieval European societies mindsets into a positive worldview by cynically putting together all the positive knowledge they could muster and disseminating it throughout Europe, and so over the forces of obscurity of the days who understood the implications of such a venture. The fact here as well as with all issues of perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (by the prior relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to–’attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism>’, as-it-is-thus-‘in-wait’–for perversion-of ‘reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>’, or-temporal-preservation-as-pseudointemporality-preservation, say of a
medieval mindset/ reference-of-thought with respect to a prospective positivist mindset, as implied by ontological-normalcy), is that there was obviously no mutually common/same reference-of-thought between the Encyclopédistes as positivists and many in the medieval establishment as non-positivists for any mutually intelligible logical exercise. But rather it was a case of transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative- and-unaffirmative–disambiguated~‘motif-and-apriorising/axiomatising/referencing’ wherein the ontological-primemovers-totalitative-framework of positivistic meaningfulness over non-positivism/medievalism ontologically imposed the positivistic reference-of-thought, as the former elicits untenability/internal-contradiction/internal-incoherence/institutional-constraining in the latter as well as its relative positive-opportunism—of-social-functioning-and-accordance from its relative ontological effectiveness such that it ends up being secondnatured further by percolation-channelling~<in-deferential-formalisation-transference>. Insightfully, in an intellectual conceptualisation exercise which, though conceptually contiguous, and while not necessarily implying similar dramatisation, in addition to its relatively diffuse implications in the sense of the contention being rather about human-mentation-capacity-furtherance and the fact that as a latter institutionalisation it is apparently less dramatic, at least as of its apparent negative social consequence given it is so focussed on human individuations as atomic-level point-of-departure of transformation but rather finding its radicalness more in the boldly implied décomplexing/uninhibitedness (suprastructuring/metaphysics-of-absence~{implicit-epistemic-veracity-of~nonpresencing~ <perspective–ontological-normalcy/postconvergence>}) emancipation of the positive/procryptic human, and as with all other institutionalisations, it is thus not an issue that notional~deprocrypticism meets in the short-term and temporary with ‘resistance’ or rather criticism (possibly by and large more in terms—as-of-axiomatic-construct of intellectual agreement/disagreement, as obviously every notion seriously contemplated about is); such that

Just as implied elsewhere in this paper, the skewing (‘intemporality\(^7\)-asymmetric-subsumption-of-temporality\(^9\)) for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity) (from shortness-of-register-of–\(^7\) meaningfulness-and-teleology\(^{10}\) to longness-of-register-of– meaningfulness-and-teleology\(^{10}\)) of capacity as shallow-limited-mentation-capacity to deeper-limited-mentation-capacity, is the transcendental construct of human virtue,
and so as a contiguity notion, and not of abstract analogy. This notion of contiguity is what explains the capacity for humankind to accumulate/recompose/reorder its institutionalisation/intemporalisation capacity. This can be explained as follows. Considering the instance where for instance the target of accusations of sorcery was to equally adopt a temporal stance by making a vague accusation of sorcery as well. Seemingly, such a temporal approach will more or less be more effective in preempting the ‘incidental resolution of temporal-preservation-as-pseudointemporality’-preservation’ (with respect to themselves in their specific locale) associated with the ‘dynamic-cumulative-aftereffect of subontologisation’ (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect) rather as an extricatory/temporal preconverging–de-mentating/structuring/paradigming in serving their purpose of a temporal mortal. In so doing incidentally it doesn’t actually preempt but fails the ‘universal resolution of temporal-preservation-as-pseudointemporality’-preservation’ (at humanity-at-large scale) as it advances an argument that still enculturates/endemises the upkeep of notions of superstition and sorcery. This approach of temporal-dispositions of dealing with temporality/shortness with respect to perversion-of- reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation > in all the registry-worldviews/dimensions (institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’) is what endemises/enculturates the dialectically-out-of-phase or dialectically-primitive. The fact is that this intemporal inclination, while often not downright articulated for what it is but rather implied, is actually behind all formal constructs with an adoption of a ‘maximalist approach’ in the construal of social phenomenal possibilities. Likewise, the hermeneutic/reprojecting/supererogating/zeroing orientation of this paper takes up such a maximalist approach in understanding phenomena of perversion-of-reference-of-thought—\textsubscript{as-preconvergingly-}
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \textsuperscript{\textgreater} and more precisely psychopathy and social psychopathy in the social-construct even though from a simplistic temporal perception it may seem at times overblown (very much like in a core medieval setup a positivistic \textsuperscript{55} maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation disposition such as Galileo’s or Darwin’s or Rousseau’s or Descartes’s assertions will seem overblown to the ‘core non-positivism/medievalism mindset’ going by its customary perception), since it doesn’t accommodate temporal/incremental/‘disjointedness-as-of-reference-of-thought’ ways of thinking and instead strives for a \textsuperscript{104} universal implications depth-of-thought. Basically, on the same token the \textsuperscript{55} maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation of formal constructs is all about construing human transcendental potential as a ‘virtue tipping exercise’ wherein for instance the seemingly overblown representation of humans as susceptible to malfeasance/offence by the construct of the Law doesn’t necessarily imply that everything about humans is how they are likely to commit malfeasance/offence but rather that the transcendental potential of the construct of Law caters for and is a virtue tipping exercise for \textsuperscript{5} maximalising-recomposing-for-relative-
ontological-completeness — unenframed-conceptualisation the possibility of limited committing of malfeasance/offence, just as likewise the maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation construct of medicine of humans as likely to be diseased doesn’t necessarily mean that everything about humans is how they will get an ailment but is a human transcendental potential as a virtue tipping exercise for maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation the possibility of human health. The reason for this deferential-formalisation-transfer disposition is simple, as formal constructs ‘reason’ on the basis of intemporality/utter-ontological-veridicality in the quest for reifying abstract universal projection very much unlike everyday informal conceptualisations that are rather driven by vague impressions and good-naturedness and tend to construe meaningfulness by reflex without factoring in relative-ontological-incompleteness -induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’ as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing —apriorising-psychologism’ of ordinary day to day thinking (common sense), and tend to be unsure, poorly methodical, poorly universalising, poorly insightful, and with elevated subjectivity (not only with regards to facts but with the purported reference-of-thought as well as the apriorising-reference-of-thought-elements/apriorising–registry-elements which are implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), and so beforehand/as-of-a-priori even without the instigating effect of any perversion-of-reference-of-thought as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > like postlogism/psychopathy; such that such temporal/incremental/‘disjointedness-as-of-reference-of-thought’ reasoning is best left for inconsequential and trite matters of day to day living, as validated by the processes and
procedures of our formal institutions however approximate in their success given the pervasiveness of the extended-informality\{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology\} even in formal setups, with its susceptibility to undermine or overlook ‘formal effectiveness’ (which can sometimes be naively construed as weakness of formalism rather than insufficiently effective formalism or extended-informality\{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology\} disruption of formal effectiveness). This insight equally explains the nature of human progress as the natural mental-reflex is to think that human progress occurs incrementally as an exercise of additionality to the prior reference-of-thought and institutionalisation, which is wrong as human progress is all about our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{(100)} grasp of the same intrinsic-reality-as-ontological-veridicality in construing meaningfulness-and-teleology\textsuperscript{(0)}/teleological-differentiation involving rather a ‘continuous maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation exercise’ of the same intrinsic-reality-as-ontological-veridicality but with deeper limited-mentation-capacity\textsuperscript{(2)} as of relative apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity conflatedness— in preconverging-disentailment–by postconverging-entailment arising from the overall and specific accumulated human experiential possibilities of being on earth. the latter to be ontologically valid. Furthermore, the precedingness nature of ontological-normalcy/postconvergence with respect to human existential-reference/existential-tautologisation pivoting to ontology/ontological-veridicality speaks of a ‘decentering’ to the prospective ontological-construct that \[ \text{maximalising-recomposuring-for-relative-ontological-completeness} \] —unenframed-conceptualisation effectively enables by placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology rescheduling (as it perpetually recomposure to the intemporal as the relative absolute in value and ontology) over \[ \text{incrementalism-in-relative-ontological-incompleteness} \] —enframed-conceptualisation which wrongly falls back to the relatively limited-mentation-capacity-deepening of the temporal presencing-as-if-definitely-set in wrongly construing it as the relative absolute \[ \text{reference-of-thought} \]. Insightfully with respect to the notion of \[ \text{maximalising-recomposuring-for-relative-ontological-completeness} \] —unenframed-conceptualisation, the law typically operates on the basis of anticipating maximally the possibilities of criminal acts with the anticipation of the maximal possibilities of victimisation from such acts (when it regulates weapons ownership, for example) in effectively construing optimal prevention of criminality in society as a de-mentative/structural/paradigmatic construct that more vitally shapes human action and its ‘effective enforcement’ is actually a minor portion of the de-mentative/structural/paradigmatic construct of law over lawlessness; as it carries an inherent intemporality /longness that is further summonable in improving the law with human ‘shallow limited-mentation-capacity\{as of relative apriorising/axiomatising/referencing-\{of-attendant ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity \}—constitutedness \} in \{preconverging- entailment\} to deeper limited-mentation-capacity\{as of relative apriorising/axiomatising/referencing-\{of-attendant ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity \}—confaltedness \} in \{preconverging-

The notion of intersolipsism is actually the notional validation of the solipsistic argument as it frames the question in the right manner, that is, inversely (contrary to the traditional philosophical framing of the solipsism question, which by so doing naively and wrongly implies that ‘individuals precede and/or are in supposedly in existence in existence’ upon an affirmative solipsistic response, rather than the idea of becoming solipsistically in existence which subsumes their individuality and projecting of the same about others in an

This author equally conceptualise of a difference between solipsism and subjectivity in that solipsism is rather purely ontological as it implies notionally the individual’s perspective in existential becoming as of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression (however effective-as-solipsistically-intemporal or ineffective-as-solipsistically-temporal such perspectival performance), whereas subjectivity refers to our animate-existential-referencing-as-subjectification which is not necessarily oriented to the ontological appropriateness/veridicality of that reference but rather is a notional construal of the reality of ‘human condition of perceived ontological appropriateness/veridicality’ irrespective of whether it can be said of such perception as being objectively right or wrong going by inherent ontological-veridicality. So solipsism speaks of the human projection in notionally construing ontological veridicality/appropriateness notwithstanding the perspectival effectiveness or ineffectiveness of such a construal as of solipsistic-temporality\(^1\) to solipsistic-intemporalit\(^2\) and as such solipsism as of solipsistic-intemporalit\(^2\) is the drive behind ontological-faith-notion-or-ontological-fideism—included-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Whereas subjectivity
speaks notionally of a human condition orientation with respect to perceived ontological veridicality/appropriateness no matter whether right or wrong. This possibility of distinguishing an inherently ontological foundation of existential meaning different from an ontological as human epistemic-conception reflexivity of perceived existential meaning is central to a notional–deprocrypticism mindset in enabling the most elaborate transcendentally-enabling-level-of-ontological-good-faith-or-authenticity/objectification/desubjectification-as-objectification-as-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism construal since necessarily intrinsic-reality/ontological-veridicality is inherently tautologuous, and ‘human capacity to grasp the possibilities of referential relations to inherent existential tautology as of human animate-existential-referencing/subjectification’ in conjunction with ‘human construal of the inherent existential tautology’ is exactly the definition of notional–knowledge. Supposed for instance a child comes to learn the rules of addition for all types of number additions such that the child understands the addition principle, but then there is a deliberate ploy by the teacher and other ‘supposed learners’ all along to constantly calculate 2+2 as equals to 5. Sooner or later the child’s solipsistic sense of meaning (as becoming into existence alone in an intersolipsistic relationship with others interceded with ontological-primemovers-totalitative-framework inducing projective-insights and predicative-insights) will become a self-made revolutionary and question the teacher indicating the correct answer to 2+2 as being 4; depending equally on its notional sense of intemporal-projection/longness-of-register-of—meaningfulness-and-teleology relative to temporality/shortness-of-register-of—meaningfulness-and-teleology as to the child’s underlying ‘conception of the ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming’, further explaining in the bigger picture why maximalising-recomposing-for-relative-ontological-
completeness—unenframed-conceptualisation pursuits, apparently unnecessary from a temporal interest point of view, are intemporal-solipsistically undertaken. Insightfully despite the constant ‘social affirming’ that the correct answer is 5, unlike it might be erroneously be thought, the child’s insistence now that the answer is 4 is ‘not truly’ out of the ordinary as with respect to its construal of all other meaning including other additions, the child’s knowledge and learning has always been about confirming any such meaning by its notional sense-of-solipsism as of superseding–oneness-of-ontology; but this particular solution for the addition rather becomes outlying for the child because despite the ‘social affirming’ of 2+2 as being 5, such a confirmation by a notional intemporal sense-of-solipsism as of superseding–oneness-of-ontology is not forthcoming, and in lieu rather gets the solipsistic confirmation as 2+2=4! Thus this points out that our interrelationship to meaningfulness is most authentically and fundamentally by pointing out a notional intemporal ‘sense of solipsism’ in each of us to access intrinsic meaning. Such ‘intersolipsistic-pointing exercise’ is only possible because of: our common underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> as of <amplituding/formative–epistemicity/>causality=as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation ‘intuitively-assigns projected-and-then-ensuing-predicated coherence/contiguity as meaningfulness’ as of the ‘coherence/contiguity of the actual insight-giving relevant-and-implied knowledge-construct/intersolipsistic-intercessory-notion/notional–referential-notion/articulation (enabled
obviously by language as well as any human meaning relaying medium like signs, whether active or passive or implied or direct’. By extension, our consciousness-awareness-teleology\textsuperscript{100} as of a solipsistic epistemic/notional–construct is equally the result of our animate-existential-referencing/subjectification as of our existential underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment \textsuperscript{<implied—self-assuredness-of-ontological-good-faith/authenticity \textsuperscript{~postconverging—dementating/structuring/paradigming \textsuperscript{—as-being-as-of-existential-reality>}} as of \textsuperscript{<amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity} and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation ‘intuitively-assigns-and-accrues projected-and-then-ensuing-predicated coherence/contiguity as meaningfulness’, and existentially so as of our ‘social framework of intersolipsistic deambulation’. This will equally explain why in the rare cases reported in the media of infants abandoned and adopted by animals like dogs and monkeys, such infants often tend to adopt behaviours of the animals as of ‘mutual solipsism or intersolipsism of reference to underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment \(<\text{implied—self-assuredness-of-ontological-good-faith/authenticity } \sim \text{postconverging–de-mentating/structuring/paradigming } \sim \text{as-being-as-of-existential-reality}\rangle\) as of \(<\text{amplituding/formative–epistemicity} > \text{causality } \sim \text{as-to-projective-totalitative–implications-of-prospective- } \text{nonpresencing,-for-explicating-ontological-contiguity}\rangle\) and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human), as the capacity for the infant to act and behave like a human effectively requires its personality development in a mutual solipsism or intersolipsism of underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment \(<\text{implied—self-assuredness-of-ontological-good-faith/authenticity } \sim \text{postconverging–de-mentating/structuring/paradigming } \sim \text{as-being-as-of-existential-reality}\rangle\) as of \(<\text{amplituding/formative–epistemicity} > \text{causality } \sim \text{as-to-projective-totalitative–implications-of-prospective- } \text{nonpresencing,-for-explicating-ontological-contiguity}\rangle\) and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) with other humans from whence the existential specificity/instantiation basis as of the family, neighbourhood, local institutions, sociocultural context and increasingly in a globalised world social trends of all sorts whether fashion, cultural, educational, intellectual, political, environmental, social media, etc. are now critical
determinants of its subjective and intersubjective meaningfulness-and-teleology. Supposed again in a non-positivism social-setup a case of accusation-of-sorcery was to be brought up, wherein as of the relative-ontological-incompleteness-of-reference-of-thought implied beyond-the-consciousness-awareness-teleology-of-existential-extrication-as-of-existential-unthought of the registry-worldview/dimension, it is a generalised certainty that sorcery and sorcerers/sorceresses do exist (as of the non-positivism social-setup own threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation). This conception speaks of that registry-worldview/dimension subjectivity and intersubjectivity as of ‘a wooden-language-{imbued—averaging-of-thought-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications} human condition of construal of intrinsic-reality/ontological-veridicality as knowledge’ which is the ‘indubitable reality’ as far as they are concerned. Such a subjectivity and intersubjectivity conceptualisation/construal can be implied as well as of ‘wooden-language-{imbued—averaging-of-thought-as-to-leveling/resentiment/closed-construct-of-meaningfulness-and-teleology—as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications} human condition of construal of intrinsic-reality/ontological-veridicality supposedly as knowledge’ across all the successive registry-worldviews/dimensions (including the subjectivity and intersubjectivity in our positivism–procrypticism) with respect to their respectively relative-ontological-incompleteness-of-reference-of-thought implied uninstitutionalised-threshold. However, without a solipsistic notion of construal of intrinsic-reality/ontological-veridicality as of inherent intrinsic-
existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> to threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism> so-articulated previously as of ‘notional–conflatedness /constitutedness’–to-conflatedness perspectivation of ontologically-veridical dynamic-cumulative-aftereffect/aftereffect in enabling a storied-construct/ontologically-valid-narration aetiolisation/ontological-escalation insight, can only be properly construed as of such a disambiguation in conceptualising not only ‘inherent intrinsic-reality/ontological-veridicality’ but equally ‘the human temporal-to-intemporal conditions/states of perception/relation with intrinsic-reality/ontological-veridicality’ (so-underlying human knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism imbued theoretical/conceptual/operant implications). This is fundamentally so because ‘inherent existential-reality/intrinsic-reality/ontological-veridicality is already what it is as given whether humankind knows about it or not’ but rather the point of human knowledge is an emancipatory/sublimating exercise involving the need to decenter/pivot and supersede our animate-existential-referencing/subjectification as of the amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human condition to derive knowledge-and-virtue, and so as human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency~sublimating–nascence,–disclosed-from-prospective-epistemic-digression). Solipsism as such is truly the foundational notion of all phenomenological conceptualisations and derivation of value and meaningfulness as intersolipsistic teleological constructs from a transversal-and/or-common perceived existential-reference/existential-tautologisation and derived-representations of
existential-reference/existential-tautologisation. It is what allows for the possibility of human
construal of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory/de-mentativity to supersede social-aggregation-enabling
as a knowledge and virtue construct. The implication being that there is a contiguity in

Furthermore, solipsism will equally explain why human meaningfulness-and-teleology is developed rather by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation of the same superseding–oneness-of-ontology as of our limited-mentation-capacity-deepening (whereby successive generations take a shot at the superseding–oneness-of-ontology that is existence like Ancient Civilisations like Greece establishing that matter is made up of water, fire, air, earth and ether critically establishing the psyche of matter as composed of basic elements and successive recomposurings right up to our modern-day quantum-mechanics recomposuring as of historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism), rather than it erroneously being construed as an incremental exercise; as it is only incremental in the literal sense but in the ‘operant sense’ it is an exercise of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as of transversality-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising-axiomatising-referencing’ overall reconstruing/reconceptualising rather than just incrementing. This insight is important for critical thought and analysis as oftentimes it is naively assumed that prospective knowledge is
to be simply obtained by ‘additioning’ or ‘cumulating’ to prior works rather than the more pertinent insight of a same superseding–oneness-of-ontology that is existence. On the same token, this tautological insight about the precedingness of existence can be extended to the notion of nothingness with nothingness rather existing in existence as there is no nothingness or for that matter anything out of existence which is ‘conceptually’ emanation-as-to-the-all-defining-ontological-prime-moving-totalitative-framework-intercession, with nothingness rather the ‘conceptual devising of the metaphysics-of-absence⟨implicated-epistemic-veracity-of-nonpresencing⟨perspective-ontological-normalcy/postconvergence⟩⟩ of existence’ with existence conceptually construed in metaphysics-of-presence⟨implicated-’nondescript/ignoreable–void ’-as-to-presencing—absolutising-identitive-constitutedness⟩; but then with existence being its very own metaphysics-of-presence⟨implicated-’nondescript/ignoreable–void ’-as-to-presencing—absolutising-identitive-constitutedness⟩, the mutual equivalence of both metaphysics-of-presence⟨implicated-’nondescript/ignoreable–void ’-as-to-presencing—absolutising-identitive-constitutedness⟩ and metaphysics-of-absence⟨implicated-epistemic-veracity-of-nonpresencing⟨perspective-ontological-normalcy/postconvergence⟩⟩ implying that nothingness is likewise tautologically the emanation-as-to-the-all-defining-ontological-prime-moving-totalitative-framework-intercession of existence. Basically a nothingness conceptualisation is necessarily and tautologically an existential conceptualisation as ‘attendant-ontological-contiguity–duced—existentialising/contextualising/textualising-contiguity–reifying-or-elucidating-of-prospective-relative-ontological-completeness–of-reference-of-thought–devolving-as-of-instantiative-context as to existence-potency~sublimating–nascence–disclosed-from-prospective-epistemic-digression–rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ which is necessarily

However the disavowal rather than renewal/deconstruction/ontological-reconstituting—as-to-conflatedness of human thought/limited-mentation-capacity will imply its dissolving into a ‘nihilism of meaningfulness-and-teleology’ as the alternate logical outcome, but then with this latter construal/conceptualisation being rather ‘an unequal measure alternative’ since it has the drawback of ‘putting an end to contemplation itself’, of ‘misunderstanding that contemplation is a human growth activity and not an absolutely achieved activity’, besides abandoning the notion of human existentialism/thrownness/facticity behind human strife itself thus contradictorily undermining again the assumption of such an alternate logical outcome as itself a ‘contemplated strife’ construed as arising only by the implication of such existentialism/thrownness/facticity, and further failing to factor in that deepening human thought/limited-mentation-capacity increasingly narrows the framework of human existential contingency/ontological-primemovers-totalitative-framework ‘enabling human existential development as less and less a question of fate’ on the basis of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification-in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing—as-veridical-epistemicity-relativism-determinism—<amplituding/formative-epistemicity>causality—as-to-projective-totalitative-implications-of-prospective-nonpresencing,—for-explicating-ontological-contiguity’. as of ontological-primemovers-totalitative-framework /attendant-projective-and-predicative-validation, and metaphysics arises though metaphysical constructs tend to harken back towards ontology in trying to explain the metaphysical-as-of-existential thus explaining the blurring that often arises between metaphysics and ontology as there is hardly any metaphysical construct that doesn’t strive to be existentially relevant as of the present, thus carrying ontological implications of conceptualisation whether it is demonstrably ontologically-veridical or not; and this latter point answers the fundamental philosophical quest to escape metaphysics for ontology as of the very ontological-contiguity—and-of-the-human-institutionalisation-process which is rather about ‘successions of metaphysics-of-absence}{implicated-epistemic-veracity-of-nonpresencing}{perspective–ontological-normalcy/postconvergence} insights as the successive transcendental-enabling/sublimating/supererogatory-de-mentativity rules in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—and-of-the-human-institutionalisation-process yielding in-lockstep the successively more ontologically profound metaphysics-of-presence}{implicated-‘nondescript/ignorable–void’-as-to-presencing—absolutising-identitive-constitutedness construed as the successive institutionalisations as implied by ontological-normalcy/postconvergence’ towards the notional–deprocrypticism registry-worldview/dimension which is what then achieves ontology as ‘attained ontological-normalcy/postconvergence’. Likewise, since in effect there is hardly any ‘present pure-ontology’ as one that is beyond existential implications contentions about the purity/absoluteness/unassailability of its veracity, this rather validates a novel and positive construal of metaphysics as that which is subject to present existential implications contentions such that all supposed present ontologies are metaphysical constructs as of their non-elucidations. Hence even science itself despite its positive perspective is a metaphysical construct.) Hence, from a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation insight, the <amplituding/formative–

Beyond our illusion-of-the-present/present-consciousness/mirage as amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag positivistic registry-worldview perspective, we can grasp that the lower registry-worldviews/dimensions ‘mentally projected prelogism-as-of-conviction,-in-profound-supererogation<existentially-veridical–‘attendant-intradimensional–

The nature of this ‘conviction-as-to-profound-supererogation’-reflex flaw’ is that it actually defines ‘a threshold of circularity/recurrence/repetition/repeatability of the failing/not-upholding-<as-of-apriorising/axiomatising/referencing> supplanting–conviction-as-to-profound-supererogation’—of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism reflex’ in circularity/recurrence/repetition/repeatability, effectively as its uninstitutionalised-threshold. For instance, where a non-positivism/medievalism mindset/ reference-of-thought keeps on arguing a case of sorcery recurrently in non-positivism/medievalism terms which inherently defines its placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as non-positivism/medievalism, and the same insight does applies from a prospective ontological-normalcy/postconvergence reference (as deprocrypticism) wherein we’ll need to psychoanalytically-unshackle/mimeticly-reorder/institutionally-recomposure from a positivism–procrypticism mindset/mental-devising-representation/mentation. Further, the notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> implies that where there is postlogism-and-conjugated-postlogism as uninstitutionalised-threshold, the more ontologically-veridical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology reflex is actually of preconverging-or-dementing–apriorising-psychologism reflex (and not new logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as ‘prelogic supplanting–conviction-as-to-profound-supererogation’—of-

ontologically-veridical-meaningfulness-and-appropriateness-of-reference-of-thought-as-of-conflicatedness'). In the bigger picture and as with all natural iterations, this ‘alterations-iterability dynamism’ at the-individuation-level takes the form of an existential-flux (‘dynamic-cumulative-aftereffect of subontologisation’) of recursive/recurrent alterity/alterations which tend to be perpetuating (like the pathological psychopath’s disposition out of a faulty-mentation-procedure-deception/‘urge’/entitlement-folie of postlogism-slantedness effect) or progressive alterity/alterations which could be regular (like an exacerbation or opportunism interlocutors in conjugated-postlogism) or regressive alterity/alterations which could be momentary (like an ignorance or affordability interlocutors in conjugated-postlogism). The

notion of iterability as ‘the induced effect of alterity/alterations (by the temporal-dispositions hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and the intemporal-disposition compensation-alterity/alteration by ‘ontological-reconstituting-as-to-conflicatedness’/deconstruction) in the repeatability/recurrence of same-terms-of-expressions or same-implied-meaningfulness’, implies that temporal-dispositions being just as preservational as the intemporal-disposition thus inducing the circular recurrence of iterability (as prospective successive institutionalisations and uninstitutionalised-threshold), the exercise of institutionalisation/intemporalisation is not about transforming temporal-dispositions as of dimensionality-of-sublimating-la-exercise

but rather institutionalisation/intemporalisation or secondnaturing, which is about ‘skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity)/constraining towards’ the intemporal-disposition for intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation to enable the given prospective institutionalisation. Thus the fact is that this iterability (of meaningfulness and ontological-reference) is not a property of ‘intrinsic-reality as existence-emanance’ but actually the result/effect of human limited-mentation-capacity-deepening coming-into-grips with intrinsic-reality as existence-emanance, and so in the succession of institutionalisations. The implication of this iterability (due to temporality-preservational-alterity/alterations in distraction/circumvention of intemporality-preservation-iteration for construct of intemporal/ontologically-veridical meaningfulness) is that all issues of perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (as opposed to issues of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), can only be construed as implying ‘a perpetual construct for upholding intemporality-in-preservational-compensation-alterity/alteration over temporality-in-preservational-distorting-alterity/alterations’ hence validating the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-normalcy/postconvergence; and that the ‘illusion-of-definitiveness-of-ontological-construal-on-the-basis-of-an-intemporal/ontological-definitive-construct-as-a-common-ontological-reference-of-the-meaningfulness-of-the-various-notional~firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence’ is wrong, as this simply allows for temporality-in-preservational-alterity/alterations to ‘hollow-constitute’ at that supposed ‘intemporal/ontological-definitive-construct-as-a-common-ontological-reference-of-the-meaningfulness-of-the-various-notional~firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence’. And just as we grasp this notion of ‘the-upholding-of-intemporal/ontologically-veridical-
supererogation ≥ defect. The implication being that the intemporal-disposition ontological-reference of meaningfulness is suprastructural (beyond-the-consciousness-awareness-teleology {in-preconverging-existential-extrication-as-of-existent-unthought}) of the postlogism\textsuperscript{76} and-conjugated-postlogism\textsuperscript{78} which is in preconverging-or-dementing\textsuperscript{10}-integration-of-temporal-dispositions (which explains the latter subontologisation/subpotentiation (in-a-social-dynamism-of-meaningfulness-misappropriation) by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect). Ultimately the philosophical pessimism of many a philosopher stems from this confusion about the achievement of human emancipation and virtue, in naively construing that such an achievement is a definitiveness-construct-of-meaningfulness rather than an ‘iterability-construct-of-meaningfulness for the upholding of the intemporal construct of ontologically-veridical-meaningfulness’ as implied by the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence. Strangely enough, this idea can be derived from the contrastive implications of metaphysics-of-presence-\{implicated-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness\} (with its illusion-of-the-present/present-consciousness/mirage/epistemic-totalising ~self-referencing-syncretising) and metaphysics-of-absence-\{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>\} as postdication (suprastructuring transcendental-insight-projection-capacities). A human secondnaturing institutionalising construct is a requisite because, at best even the intemporal-disposition individuation in individuals purporting prospective emancipation comes from and are from the stock of the prior\textsuperscript{(9)} reference-of-thought uninstitutionalised-threshold\textsuperscript{(10)} registry-worldview/dimension, and such prospective emancipation involves such individuals own ‘moulting’, as actually intemporality\textsuperscript{(11)}/longness is a ‘potential construct of orientation’ as
implied by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation) and it is only a devised institutionalisation construct as secondnaturing that achieves that potential-construct-of-orientation and not any naïve inherently intemporal-disposition in individuals. By that token there is no base-institutionalised individual in recurrent-utter-uninstitutionalisation, no universalised individual in ununiversalisation, no positivistic individual in non-positivism/medievalism, and prospectively no notional–deprocrypticism individual in procrypticism, as at best such emancipating intemporal individuals are ‘moulting’ their intemporal individuations and implying-of-the-same of their registry-worldview in prospective institutionalisation design/conceptualisation, as the effective institutionalisation is what is really and effectively attained. - As the notion of ‘dynamic-cumulative-aftereffect of ontology and subontologisation/subpotentiation (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect),’ is rather an operant conceptualisation that highlights the need for an operant conceptualisation of psychology in grasping human dynamics. But then psychological science as we know today in many ways mainly takes the form of an adjunct construct in grasping the social as is equally the case with social psychology; as the focus of can mostly be resumed to ‘identity’ of individual dispositions such that psychology tends more to have a subjective intercessory practice nature involving intersubjective valuation). Thus, as with all such approaches it is hardly surprising that we haven’t got an academic ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ (as an ontology-driven <amplituding/formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-

The author as previously implied with the notion of a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ perceives the need for defining human psychology from a transcendentally-enabling-level-of-ontological-good-faith-or-authenticity/objectification/desubjectification-as-objectification-as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality antinihilism as antinihilism

implying an ontologically-driven conceptualisation of ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as the prospective psychoanalysis, implying the epistemic-abnormalcy/preconvergence perspective (preconverging-or-dementing–apriorising-

With ontology-driven implying that our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology100 is just a ‘placeholder-setup’ that doesn’t has any inherent ontological validity, but is rather as valid as its representation/schedule of ontology/ontologically-veridical-meaningfulness/intemporality2, such that with the insight of more profound ontology/ontologically-veridical-meaningfulness/intemporality2, the ‘placeholder-setup’ as placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology100 is accordingly rescheduled psychoanalytically (‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), validating and explaining why our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology100 has been developing all along from the mindset/reference-of-thought of a recurrent-utter-institutionalised, base-institutionalised, universalised and positivised, with the implication that the latter’s mindset/reference-of-thought is not beyond prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity where such prospectively more profound ontology is demonstrated to imply a renewal of human reference-of-thought of meaningfulness (as deprocrypticism), and with the further implication that all along it is essentially about a same species of a same underlying human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturenedness—temporal-to-intemporal-dispositions—so-construed-as-from—

existential human placeholder-setup/mental-devising-representation/mentation/consciousness-

directed constructs as is implied with notional–deprocrypticism with respect to the present
positivism/procrypticism are relatively more focussed and thus potent where ‘ontologically-
pertinent and so-demonstrated to be ontologically-pertinent’; and by and large form part and
parcel of the human psychoanalytic experience with regards to passive to conceptually-directed
constructs of human teleological projection. Transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity (prospective) as a placeholder-
setup/mental-devising-representation/mentation/consciousness-awareness-teleology100
effectuation, is not technically achieved as may naively/counterintuitively be implied by
construing directly of a prospective placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology100 (from the present) but rather, on
the basis of ‘prospective 84 reference-of-thought transcendental insights’, it correspondingly
implies ‘construing the present as metaphysics-of-present as the transcended/superseded/prior
placeholder-setup/mental-devising-representation/mentation’ to be represented as
‘preconverging-or-dementing 11 –apriorising-psychologism 84 reference-of-thought’, and so
implied by the ‘prospective 84 reference-of-thought transcendental insights’, such that the
prospective (transcending/superseding) placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{100}\) defect as ‘postconverging-or-dialectical-thinking\(^{20}\)–apriorising-psychologism \(^{8}\) reference-of-thought’ is naturally implied as being the new and prospective suprastructuring, (beyond-the-consciousness-awareness-teleology \(^{10}-<\text{in-preconverging-existential-extrication-as-of-existent-unthought}>\) ) of the ‘old present’/retrospective as prior. That is it is critical to grasp that \(^{14}\) de-mentation\(^{\langle\text{supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or–attributive-dialectics}\rangle}\) of ‘postconverging-or-dialectical-thinking\(^{20}\)–apriorising-psychologism’ and preconverging-or-dementing\(^{19}\)–apriorising-psychologism is never about generating a prospective ‘postconverging-or-dialectical-thinking\(^{20}\)–apriorising-psychologism’ (with respect to the present as ‘postconverging-or-dialectical-thinking\(^{20}\)–apriorising-psychologism’), but such \(^{14}\) de-mentation\(^{\langle\text{supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or–attributive-dialectics}\rangle}\) is rather about decentering and preconverging-or-dementing –apriorising-psychologism/oblongating the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{100}\) of the present as preconverging-or-dementing\(^{19}\)–apriorising-psychologism which becomes ‘old-present’/retrospective as prior’ and dialectically ushering contrastively from that backdrop a new and prospective ‘postconverging-or-dialectical-thinking\(^{20}\)–apriorising-psychologism’. This is actually about \(^{55}\) maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation of the implied prospective meaningful-reference/anchoring-of-meaning/ontological-reference/contending-reference, rather than attempting its elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant ontological-contiguity \(^{39}\) educed—existentialising/contextualising/textualising-contiguity\(^{39}\) which will ‘wrongly make reference to and wrongly elevate’, and so by mix-up, the prior \(^{84}\) reference-of-thought as veridical. \(^{55}\) maximalising-recomposuring-for-relative-
meaningfulness-and-teleology in existentialist/‘ontologically-reconstituting’ terms as ‘deeper superseding–oneness-of-ontology construal/conceptualisation’ veering towards transcendence-and-sublimity/sublimation/supercategorious–de-mentativity. That is, by transcendence-and-sublimity/sublimation/supercategorious–de-mentativity is meant dispose to construe the ontological resolution of registry-worldview’s/dimension’s-uninstitutionalised-threshold –defect–<as-Being-or-ontological-or-existential–defect> transcedentally/transdimensionally/interdimensionally, as needing a prospective registry-worldview/dimension; for instance, capable of putting in question medieval intradimensional superstition in the first place supersedingly/transcendentally by implying the need for positivising rather than a usual temporalities-drives reciprocity of superstitious contentions or capable of putting into question positivism–procrypticism postlogism-and-conjugated-postlogism in the first place supersedingly/transcendentally by implying the need for notional–deprocrypticism rather than temporalities-drives reciprocal equivalence of procrypticism–or–disjointedness-as-of-reference-of-thought. Further the notion of deeper superseding–oneness-of-ontology conceptualisation and shallow superseding–oneness-of-ontology conceptualisation, central to a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, can be demonstrated as follows: supposed A has the (existentially veridical) mental projection with respect to say a housing project and undertook the initiative of bringing together and obtaining advanced payments from prospective buyers for the project, and B was to by non-veridical/vacuous hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> mental-disposition spread stories of the scheme being a scam (not to the buyers who have all the documentations validating the genuineness of A’s housing project) but rather other interlocutors mainly to undermine A’s business credibility, and so whether B is pathological/psychopathic or postlogically-enculturated, and supposed some other interlocutors, not only by ignorance but

there thus tend to develop a mix-up of our representation (with unsound/vacuous/denaturing

<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag nature of a registry-worldview/dimension vices-and-impediment. This is equally why epistemologically-speaking categorisation schemes tend to be incomplete and requiring further re-categorisations and readjustments as rather construed/conceptualised on an <amplituding/formative–epistemicity>totalising–self-
referencing-syncretising/circularity/interiorising/akrasiatic-drag basis of organisation that isn’t in the full potency for grasping intrinsic reality and requiring further adjustments all along (the whole exercise actually being ‘ad-hoc referentialism’), and why referentialism as previously articulated, though ‘relatively abstract as a notion of representation’ is a conceptualisation basis needing constant insights, it is actually a better conceptualisation scheme of prospective
being/becoming notions particularly of an ephemeral nature. Just as we will represent the non-positivism/medievalism allusions to superstition in its synchronising/circularity/interiorising/akrasiac-drag as utterly preconverging-or-dementing apriorising-psychologism and unintelligible/existentially-suprastructural and being as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity with it will wrongly imply the ontological-veridicality of its meaningfulness, a notional–deprocrypticism placeholder—setup/mental-devising-representation/mentation/consciousness-awareness-teleology of a procrypticism mindset/reference-of-thought will rather be utterly preconverging-or-dementing apriorising-psychologism and unintelligible/existentially-suprastructural of ‘our procrypticism terms of meaningfulness’ and will equally avoiding elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity recognition of the soundness of our procrypticism–or–disjointedness-as-of-reference-of-thought at the (deprocrypticism) unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in other to effectively and adequately reflect the requisite metaphysics-of-absence necessary to act as the referenced/registered/decisioned—psychical—backdrop for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism, as implied by de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-

A ‘postconverging-or-dialectical-thinking —psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ will actually be about a novel construal of the social as ‘metaphysics-of-absence {implicit-ed-epistemic-veracity-of nonpresencing<perspective–ontological-normalcy/postconvergence>}’/postdication of the individual as ‘metaphysics-of-presence {implicit-ed-nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-
constitutedness }; with the implication that the concepts and conceptualisations of the individual of the current ‘psychology of qualification and qualification schemes’ are actually and effectively construed by the ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as of an ontological-normalcy/postconvergence cadre and as becoming into the social, for its analytic purposes and framework. ‘Possibly’ this won’t imply ‘doing away’ with concepts and conceptualisations of the current ‘psychology of qualifications and qualification schemes’, but will however be uncompromising with respect to being ontology-driven, and thus ‘possibly’ enable the reconstrual of such psychology concepts as the self, ego, id, etc. in their metaphysics-of-absence–(implicated-epistemic-veracity-of- nonpresencing–<perspective–ontological-normalcy/postconvergence>/postdication (as the existential social) articulation. Insightfully, a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ rather mobilises ‘maximising-recomposing-for-relative-ontological-completeness’—unenframed-conceptualisation as is necessarily the case with all metaphysics-of-absence–(implicated-epistemic-veracity-of- nonpresencing–<perspective–ontological-normalcy/postconvergence>/postdication conceptualisations (which must avert the mix-up induced by the illusion-of-the-present/present-consciousness/mirageas <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as metaphysics-of-presence–(implicated- ‘nondescript/ignorable–void ‘-as-to- presencing—absolutising-identitive-constitutedness’) in ontologising/ontological-conceptualising. This thus validates and operates on the fundamental assumption that the individual-as-of-its-temporal-to-intemporal-individuation-potency is an abstract-atomic-social-construct capable-of-and-as-the-basis-for-both-social-effectuation-and-institutionalisation/intemporalisation. institutionalisation/intemperalisation that is effectively institutionalisation-as-virtue given that

reduces human epistemic-abnormalcy/preconvergence towards ontological-
ormalcy/postconvergence as deeper and deeper superseding–oneness-of-ontology
construal/conceptualisations. The bigger point being that it is by effectively grasping that any
human intemperal-disposition individuations that can ‘spontaneously’ arise in whatever
concern there is should be directed/skewed (‘intemperality’–asymmetric-subsumption-of-
temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-

enabling/sublimating/supererogatory–de-mentativity) (as deferential-formalisation-transference
of meaningfulness) for institutionalisation/intemperalisation-as-virtue for secondnaturing, and
not a wrong implication of functionally grounding virtue on human ‘temporal disposition’
which will inevitably bring about temporal-and-social-trading with respect to ‘socially-
perceived-value as of social-stake-contention-or-confliction’. The fact is that our institutional
and organisational constructs at their very core, unspokenly do imply this notion of
institutionalisation-as-virtue (in tacit recognition of our notional–firstnaturedness—temporal-to-
temporal-dispositions–<so-construed-as-from-perspective–ontological–

normalcy/postconvergence>), however, the notion of ‘consciously-spoken’ as herein
highlighted is that it enables the necessary uninhibitedness/decomplexification that allows the
requisite ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-
dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring required in fully assuming the \( {\uparrow} \) reference-of-thought of any prospective registry-worldview/dimension. Actually, it could be argued that the more critical element of medieval emancipators/enlighteners had to do often not with their specific discoveries, which were more or less debated issues as well in their societies, but critically the idea that they were ready to imply ‘a new psychological orientation as positivistic’ that in itself structured the possibilities of a new worldview and many other positivistic discoveries once it became mainstream. Insistence of making mainstream such ideas as a heliocentric solar system by Galileo a century after Copernicus based on observations, the evolution of living things by Darwin based on research analysis, ‘<amplituding/formative–epistemicity>totalising rationalism’ by Descartes based on methodical thinking, universal human rights by Rousseau based on thorough analysis of the human condition, principles explaining physical phenomena by Newton and Leibniz based on physical observation, etc. all speak of a new mindset/ reference-of-thought as a postconverging–de-mentating/structuring/paradigming shift that has no complexes and is uninhibited with respect to notions of the old notions of dogmas, alchemies, essences and myths. The fact is that (unlike we may naively reason by reflex from our relatively vantage position at the backend of the institutional-cumulation/institutional-recomposurer-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–'epistemicity-relativism–determinism'> process) this is not spontaneously given, when we consider that many of such emancipators were equally relatively enmeshed with the old psychology like Newton’s involvement with alchemy, for instance. This point to the critical importance of the psychological state of the mind for the very possibility of prospective ontologically-veridical transcendence-and-sublimity/sublimation/supercogatory–de-mentativity to occur; as ontology is already given as a oneness and it is up to the human psyche to ‘moult itself’ (psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) towards a more profound

transcendence-and-sublimity/sublimation/supererogatory–de-mentativity cannot be logically intelligible to a medieval setup that harkens back to medieval reference-of-thought–categorical-imperatives/axioms/registry-teleology for its logic, i.e. ‘Issue of articulating chemistry rules and principles for the evaluation of an alchemist not logically cognisant of chemistry rules and principles, in the very first place’), but rather it is a middle to long run construed as of de-mentation–supererogatory–ontological–de-mentation–dialectical–de-mention–stranding-or-attributive-dialectics instigation of prospective registry-worldview/dimension institutionalisation reference-of-thought as of a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (though we can mostly grasp such an insight not from instances of ‘natural intra-society transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’ since this takes a longer time to occur and is relatively obscure, but transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by cultural diffusion associated with conquests where the dominant is at a more advanced stage of institutionalisation or in the rare cases where it is the reverse like Ancient Egypt or Ancient Greece, with the dominated actually relatively dominating or in parity with the dominant culturally as of divergent aspects). The implication here is that transcendental maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation is rather grounded on a relatively intemporal-and-deeper existential-reference-of-meaningfulness with the positive-opportunism—of-social-functioning-and-accordance of the prospective institutionalisation ontological-primemovers-totalitative-framework over its corresponding uninstitutionalised-threshold to put in question the latter’s reference-of-thought–categorical-imperatives/axioms/registry-teleology for the ones of the prospective institutionalisation, and it is only after that that the notion of mutual logical intelligibility arises (it is only after the alchemist ‘psychoanalytically-
unshackle’ into a positivistic-inclined mindset/reference-of-thought with respect to appreciating notion of natural cause-and-effect and experimentation as well that the notion of mutual intelligibility of chemistry rules and principles makes sense, until then there cannot be much of intelligibility without such a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring exercise from the perspective of the prospective chemist). That explain why maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation construct are meant to be detached and totalisingly-entailing so as to act as a backdrop for prospective institutionalisation, and not necessarily make sense in terms—as-of-axiomatic-construct of ‘the now temporal mental-disposition reference-of-though’ which, it is contended, is in want of prospective institutionalisation with its corresponding psychologism. In the bigger scheme of things, it is inevitable that suprastructuring (the conceptualisation that renders de-mentation relative-mutual-construal of the prospective/superseding/transcending registry-worldview/dimension as deeper superseding—oneness-of-ontology construal/conceptualisation over the prior/superseded/transcended registry-worldview/dimension as shallow superseding—oneness-of-ontology construal/conceptualisation by (suprastructurally) reflecting/perspectivating, beyond-the-consciousness-awareness-teleology of the prior/superseded/transcended, respectively the ‘postconverging-or-dialectical-thinking—apriorising-psychologism as dialectically-in-phase’ and the ‘preconverging-or-dementing—apriorising-psychologism as dialectically-out-of-phase’), is rendered operant by the notion of ‘existential-decontextualising-transposition (threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to-‘attendant-

That is an construal/conceptualisation approach that construes the ontological-contiguity—of-the-human-institutionalisation-process as of diminishing-human-epistemic-abnormalcy-or-preconvergence. Effectively, such a highlight of how human secondnaturing within institutionalised construct implies a pseudo-conceptual universal human intemporal-disposition as metaphysics-of-presence-{implicit-'nondescript/ignorable–void–as-to-presencing—absolutising-identitive-constitutedness } in contrast to a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence—existentialism-form-factor mental-dispositions highlight at uninstitutionalised construct as metaphysics-of-absence-{implicit-edonic-epistemic-veracity-of—nonpresencing—perspective–ontological-normalcy/postconvergence} is effectively the unspoken psychoanalytic conceptualisation which needs to ‘be referenced/registered/decisioned—as-consciously-recognised’ as the backdrop for superseding into deprocrypticism. Such a psychoanalytic insight about the ‘dynamic-cumulative-aftereffect of subontologisation’ grasps how postlogism instigates the temporal-preservation-as-pseudointemporality-preservation inclination of temporal-dispositions that enculturates/endemises the various uninstitutionalised-threshold even though the state as

Ultimately, an ‘ontological-reconstituting–as-to-conflatedness/deconstruction articulation’ (beyond just conceptualisations as in this paper) for more thorough insights reflective of a ‘suprastructural construal of any given state of uninstitutionalised-threshold from prospective institutionalisation point-of-reference, such as can be retrospectively implied of non-positivism/medievalism from positivism or prospectively implied of procrypticism from deprocrypticism’, will more profoundly involve a ‘storied-construct/ontologically-valid-
respect to ⁸⁸“reference-of-thought and meaningfulness; ‘Différance-disambiguation-of-ontologically-veridical—meaningfulness-and-teleology’¹⁰¹,” implies preempting—disjointedness-as-of-reference-of-thought,—as-to-<amplituding/formative—epistemicity>growth-or-conflatedness¹⁰¹/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism as deprocripticism. Insightfully, ontological-normalcy/postconvergence establishes beyond human limited-mentation-capacity-deepening⁷³ that there is a potent and overall oneness/contiguity of ontologically-veridical meaningfulness which transverses and supersedes all other conceptualisations of ⁸⁸“reference-of-thought and meaningfulness (which are therefore approximates) by mere ‘ontological-consistency’ whether with regards to virtue conceptualisation (as highlighted with the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) or second-level ontological constructs as is the case with subject matters conceptualisations. Ultimately, the capacity for philosophy to further clarify such an ‘ontological-consistency’ will be a further critical foundation for broadening the efficacy of all second-level ontologies (as the veritable job of philosophy). Inherently, ‘ontological-consistency’ as superseding—oneness-of-ontology is by itself the complete rationale for explaining human possibilities with regards to knowledge and virtue as so reflected/perspectivated by the very potency of ontological-normalcy/postconvergence, as the latter is ‘the potency for all the text-of-ontologically-veridical-meaningfulness that can exist’. Ontological-consistency in the inherent intemporalisation/institutionalisation orientation of ontological-normalcy/postconvergence validates virtue conceptualisation not as a discreet notion of choice, but rather a necessary disposition as ‘intemporal projection’ (or longness-of-register-of—meaningfulness-and-teleology¹⁰¹) for human-mastery-of-reality or knowledge, as
inherently implied by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). The reason is simple. It is impossible, for instance, for an utter-ununiversalisation setup ‘to access’ the emancipatory ontological possibilities available to a prospective base-institutionalisation setup without the ‘requisite solipsistic insight’ of intemporal-disposition individuation within the recurrent-utter-uninstitutionalisation registry-worldview that ‘projects’ that rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism—\(\text{as first-level presencing—absolutising-identitive-constitutedness of reference-of-thought}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument)—as a postconverging–de-mentating/structuring/paradigming for superseding the vices-and-impediments\(^\text{106}\) inherent to recurrent-utter-uninstitutionalisation is a necessity-for-its-own-and-by-extension-the-registry-worldview’s/dimension’s ‘moulting’ in the middle to long run construed as of de-mentation\(\text{supererogatory ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\) into a base-institutionalisation registry-worldview. Such solipsistic insight is the effective ‘transcendental virtue conceptualisation’ that drives ontological-normalcy/postconvergence across all the successive institutionalisations and by that token coincides with ontology as a necessary ontological development driver in an animal of shallow limited-mentation-capacity\(\text{as of relative apriorising/axiomatising/referencing–of-attendant ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity } )—constitutedness\(\text{in preconverging–entailment}\) to deeper limited-mentation-capacity\(\text{as of relative apriorising/axiomatising/referencing–of-attendant ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity } )—confatedness \(\text{in preconverging–dissentailment by postconverging–entailment}\). is the necessary ‘transcendental virtue projection’ for a prospective registry-worldview-

ontological possibilities for such prospective registry-worldview to even arise existentially; as-
the temporally-inclined recurrent-utter-institutionalised individuation is non-cognisant of any-

with the temporally-inclined ununiversalised individuation with respect to universalisation and its ontological possibilities, the temporally-inclined non-positivism/medievalism individuation with respect to the positivistic and its ontological possibilities, and prospectively the temporally-inclined procrypticism individuation with respect to notional–deprocrypticism and its ontological possibilities, and all such possibilities as allowed by ontological-normalcy/postconvergence. A question that arises will be how can a society deliver an Einstein or a Bohr respectively that will articulate the theory-of-relativity or quantum-mechanics without it having the necessary institutional-recomposure (orientation and capacities) and memetic-reordering (of the individual mindset/’reference-of-thought and associated other contributing mindsets) that allows for the possibility of such discoveries? In other words what was the possibility for the theory-of-relativity or quantum-mechanics to be delivered in the Middle Ages, for instance? Rather improbable. As a side note, such an insight equally attends to such a debate we currently entertain with respect to coming into contact with an advanced alien civilisation. A transcendental virtue conceptualisation will hold that in the very first place such a civilisation won’t be able to exist without the necessary virtue construct (as successions of metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence}>} insights yielding in-lockstep the successively more ontologically profound metaphysics-of-presence-{implicated-‘nondescript/ignoreable–void ’-as-to- presencing—absolutising-identitive-constitutedness } as implied by ontological-normalcy/postconvergence) that enables it to come into being; as necessarily they will be base-institutionalising, universalising, positivising and probably deprocrypticising, such that it will be untenable and inconsistent to have cosmic travellers that are savage-inclined or of a medieval age, for instance, going by the mere human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-
perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor. Insightfully thus, while ontological-normalcy/postconvergence expands human ontological possibilities (comprehensively), it also leads to a growth in human institutionalised virtue disposition in equivalence which sustains such ontological development. However wary we should be with the possibility of nuclear annihilation, we equally can recognise that the ‘better’ registry-worldview/dimension-level, in terms–as-of-axiomatic-construct of its relative transcendental virtue conceptualisation, to handle such weapons is the present one (positivistic) with regards to the possibility of averting a global annihilation compared to say feuding tribal or medieval setups (that is, if by some imaginary circumstances they could have access to and utilise such weapons). This points out that virtue is rather an inherent and necessary construct of ontology, existentially speaking; as the transcendental construct that enables the expanding of the ontological possibilities of an animal of shallow limited-mentation-capacity-{as of relative apriorising/axiomatising/referencing-{of-attendant ontological-contiguity}–educed–existentialising/contextualising/textualising-contiguity}—constitutedness—in-preconverging-entailment—to deeper limited-mentation-capacity-{as of relative apriorising/axiomatising/referencing-{of-attendant ontological-contiguity}–educed–existentialising/contextualising/textualising-contiguity}—confoundedness—in-{preconverging-disentailment by}–postconverging-entailment} by enabling ‘solipsistic moulting’ (as ‘intemporal-disposition individuation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ at uninstitutionalised-threshold states, with a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor mental-disposition due to lack of social universal-transparency–{transparency-of-totalising-

It is mainly a ‘Différance-disambiguation-of-ontologically-veridical—meaningfulness-and-teleology’ that can establish the ontological-veridicality-of-meaningfulness precisely by disambiguating the effective ontological-references of the various notional~firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> individuations, and so not only at an instant or act or specific circumstance or context (which is rather an act construal and not a being/ontological construal) but projectively in their retrospective-to-present-to-prospective existentialism-deambulation/meandering which provides the full insight of notional~firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> individuations mental-dispositions/meaningful-references/ontological-references/contending-references as ontological-entrapment. Such a being/ontological-basis, as described above, of a ‘Différance-disambiguation-of-ontologically-veridical—meaningfulness-and-teleology’ is in line with and further elucidates the ‘Différance-existential-transitory-articulation-of-the-protraction-of-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—of-meaningfulness’ technique. Going respectively by the Sartrean and Derridean principles for establishing ontologically-veridical-meaningfulness, that is, ‘existence precedes/defines essence’ or ‘there is nothing outside the text’ in evaluating ‘same-terms-of-

On the other hand, the postlogic/psychopathic disposition (and by extension temporal-dispositions conjugated-postlogism /preconverging-or-dementing ’-integration dispositions) adhere to an elaboration-as-to-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity basis of meaningfulness on the ground that plausibly construing a false-premising to an existential-context-of-reference-narrative ‘provides licence’ to then (‘recursively’ in concurrence—in the case of the postlogic/psychopathic character, progressively—in the case of a conjugated-exacerbatory and conjugated-opportunism characters, and regressively—in the case of a conjugated-ignorance and conjugated-affordability characters) comprehensively articulate any possible existentially-unreal-and-abstract-narratives (on the basis of a conceptualisation of mere hollow-constituting—\(\text{as-disjointed-misappropriation-of-meaningfulness-and-failing} \rangle \text{intemporal-preservation}\)-static-or-abstract non-veridical/vacuous-state of essence-of-meaningfulness’ with respect to \(\text{reference-of-thought—categorical-imperatives/axioms/registry-teleology} \rangle \text{intemporal-preservation-entropy-or-contiguity—or—ontological-preservation}\) by exploiting the plausibility derived from the concurrently-false-premising existential-context-of-reference-narrative. So the latter disposition, and so particularly with the postlogic/psychopathic mindset, is to induce or generate or exploit any plausible existential-context-of-reference-narrative to then unleash slanted-and-formulaic hollow existentially-unreal-and-abstract narratives by concurrently-false-premising on the plausible existential-context-of-reference-narrative. In other words, the postlogic/psychopathic individuation character gets that there is a human mental-reflex to grasp ontologically-veridical-meaningfulness on ‘static-or-abstract non-veridical/vacuous-state (abstract \(\text{reference-of-thought—categorical-imperatives/axioms/registry-teleology}\)) of essence-of-meaningfulness terms, so long as their existential basis is established, including and critically for its purpose, where it is so deceptively implied’, to artificially or opportunistically construe a plausible existential-context-of-reference-narrative which then ‘provides licence’ to articulate
existentially-unreal-and-abstract-narratives in hollow-constituting-as-disjointed-
misappropriation-of-meaningfulness-and-failing-intemporal-preservation concurrently-false-premising on the initial plausible existential-context-of-reference-narrative, with the idea that that human mental-reflex will by reflex naively-and-wrongly imply the existential/contextualisation ontological-veridicality of its generated slanted-and-formulaic hollow existentially-unreal-and-abstract-narratives; and so, in terms—as-of-axiomatic-construct of the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—<reifying-or-elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context>)’ as implied—logical-dueness—or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as highlighted priorly. This preconverging-or-dementing—apriorising-psychologism is in contrast with a postconverging-or-dialectical-thinking—apriorising-psychologism (when the latter is of inappropriate/bad or appropriate/good supplanting—conviction-as-to-profound-suprerogation of ‘attendant-intradimensional’ postconverging/dialectical-thinking—apriorising-psychologism) which is always inclined to ensure that the succession-of-narratives it propounds are tied to successive-instances as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—reification_or_intrinsic-reality—ontological-coherence_or_superseding—oneeness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. Thus, the reason why the ontological construal (ontological-entrapment) of the postlogic/psychopathic individuation characters and conjugated-postlogism /preconverging-or-dementing—integration individuation characters is rather as an intemporal/ontological suprastructuring (implying de-
mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics)) of their hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> of ontologically-veridical-meaningfulness, as this fail intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. Certainly this same reaction is what is warranted in the example highlighted before (if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about,...) In the bigger perspective with regards to the institutionalisation of notional-deprocrypticism for instance, it is such an existentialism construal from a transcendental intemporal reference-of-thought over temporal perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > that allows for the superseding of vices-and-impediments as prospective registry-worldview/dimension structural-resolution of positivism–procrypticism preconverging-or-dementing–apriorising-psychologism. It should be noted that as earlier articulated, intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming (in contrast to a temporal extricatory

Taking the previously articulated case of sorcery in a non-positivism/medievalism setup, it has no ontological structural-resolution by reciprocity of sorcery accusations on the same \(^8\) reference-of-thought terms but rather by the transcendental undermining of such non-positivism/medievalism mindset/reference-of-thought with an altogether superseding positivistic \(^8\) reference-of-thought that is in transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ with a non-positivism/medievalism ontological-reference (registry-worldview). Even though, inevitably (and as in the ‘present as-present-consciousness’ of all registry-worldviews/dimensions with regards to their own corresponding perversion-of- reference-of-thought>\(^as-preconvergingly\) apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(>\) phenomena), there is bound to be more or less a dumb-and-dumb effect of summative social acquiescence to a superstitious mindset/reference-of-thought in a non-positivism/medievalism setup, that will in the short term temporal perspective be a drawback to such a transcendental projection of positivistic mental-disposition, and likewise there will inevitably be more or less be a dumb-and-dumb effect of summative social discontentment where a transcendental notional–deprocrypticism mental-disposition is implied in a procrypticism setup. The fact being that, in the short term, the temporally-minded recurrent-utter-institutionalised individuation has no place for the ‘transcendental rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism—{as first-level presencing—absolutising-identitive-constitutedness of reference-of-thought} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument} notion’ (for base-institutionalisation) of the intemporal-minded individuation; the temporally-minded ununiversalised individuation (in base-institutionalisation) has no place for the ‘transcendental rules universalising notion’ of the intemporal-minded individuation; the temporally-minded non-positivism/medievalism individuation has no place for the ‘transcendental positivising/rational-empiricism notion’ of the intemporal-minded individuation; and likewise, prospectively, the temporally-minded procrypticism individuation has no place for the ‘transcendental deprocrypticism/rational-realism notion’ of the intemporal-minded individuation; rather as the subontologisation/subpotentiation moves from slantedness-effect, miscuing towards sub-par/formulaic-association/temporal/alibi conventioning-rationalising in all the different registry-worldviews/dimensions, ‘for intradimensional functionality sake a transcendental articulation is beyond the intradimensional summative mental-disposition of value-referencing’, as the summative mental projection of individuals is more of an earthly life-span conceptualisation rather than transcendental or poorly appreciative of the transcendentalism that is de-mentatively/structurally/paradigmatically responsible for present reference-of-thought to project to the postconverging–de-mentating/structuring/paradigming need of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. This further points out that with regards to ‘metaphysics-of-absence-{implicated-epistemic-veracity-of nonpresencing-<perspective–ontological-normalcy/postconvergence>}’ projection (in overcoming the illusion-of-the-present/present-consciousness/mirage/epistemic-
totalising ~self-referencing-syncretising), across all registry-worldviews/dimensions from prior to prospective there are basically two ways by which the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{100}\) works with respect to the same intrinsic-reality/ontologically-veridical-meaningfulness; for the ‘intradimensional reflex’ sake of having a coherent functioning by sharing a common/same reference-of-thought as it is obvious that if one was to drop in a thoroughly non-positivism/medievalism setup and insisted absolutely to articulate meaningfulness in positivistic terms, there will be no mutual understanding, at least at the (positivistic) uninstitutionalised-threshold\(^{111}\) of that medieval setup, whether at one moment or another it fails intrinsic-reality/ontologically-veridical-meaningfulness/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, any registry-worldview/dimension as prior wrongly represents that such its registry-worldview’s/dimension’s-uninstitutionalised-threshold \(^{01}\)–defect<as-Being-or-ontological-or-existential–defect>\(^{06}\) is non-transcendable/unsupersedable by its \(^{11}\)<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as ‘metaphysics-of-presence-{implicated–nondescript/ignorable–void ’ as-to-presencing—absolutising-identitive-constitutedness’ }’ thus upholding its soundness-or-ontological-good-faith/authenticity -of-reference-of-thought by ignoring the registry-worldview’s/dimension’s-uninstitutionalised-threshold \(^{02}\)–defect<as-Being-or-ontological-or-existential–defect>\(^{06}\) while the prospective registry-worldview/dimension implying a new \(^{04}\)reference-of-thought that de-mentatively/structurally/paradigmatically resolves the prior’s registry-worldview’s/dimension’s-uninstitutionalised-threshold \(^{01}\)–defect<as-Being-or-ontological-or-existential–defect>\(^{06}\) represents the prior as prior/transcended/superseded and hence unsoundness-or-ontological-bad-faith/inauthenticity\(^{04}\)-of-reference-of-thought/preconverging-or-demitting –apriorising-psychologism/suprastructurable (at that uninstitutionalised-threshold \(^{01}\)). The bigger point here is that just as we will represent the non-
allusions to superstition in its present/present-consciousness/mirage as utterly preconverging-or-dementing—apriorising-psychologism and unintelligible/existentially-suprastructured, a notional—deprocrypticism of thought mindset/ reference-of-thought will rather be construed as decentered and preconverging-or-dementing—apriorising-psychologism, unintelligible/existentially-suprastructured with respect to ‘our positivism–procrypticism terms of meaningfulness’ that is, at the (deprocrypticism) uninstitutionalised-threshold in order to effectively and adequately reflect the requisite metaphysics-of-absence—implicit—veracity-of—nonpresencing—perspective—ontological-normalcy/postconvergence—necessary to act as the referenced/registered/decisioned—psychical-backdrop for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism, as implied by de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) as-uninstitutionalised-threshold suprastructuring de-mention—(supererogatory—ontological—de-mention-or-dialectical—de-mention—stranding-or-attributive-dialectics) that is the mechanism of a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective institutionalisation. This latter notion is important as with all psychoanalysis whether of an individual or social conceptualisation nature, the idea of recognising/referencing/registering/decisioning the registry-worldview’s/dimension’s-
uninstitutionalised-threshold \( ^0 \)-defect\( ^{-}\)-as-Being-or-ontological-or-existential–defect\( ^{40} \) is central to superseding it, and so the idea of implying preconverging-or-dementing\( ^0 \)-apriorising-psychologism/out-of-phase/dialectically-primitive is ‘beyond the notion of an idle denotative exercise’, be it validly so, and the meaningfulness of such conceptualisations certainly do not carry the poorer connotations of temporal/banal mental-dispositions, but rather it is technically a necessary and useful ontological conceptualisation in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring from our shallow limited-mentation-capacity\( ^{\langle \text{as of relative apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity\}---constitutedness} \rangle} \) to deeper limited-mentation-capacity\( ^{\langle \text{as of relative apriorising/axiomatising/referencing-\{of-attendant ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity\}---conflatedness} \rangle} \). Thus psychoanalysis is actually in effect an existentialism process of human skewing towards intemporal-disposition as we construe meaningfulness and value-referencing, and so beyond the Foucauldian referenced critique of a relatively ‘economic/traded/exchange/battered’ conceptualisation of psychology we know of when we talk of psychoanalysis in the subject matter of psychology, but rather construed as a natural ontologically-driven ‘postconverging-or-dialectical-thinking\( ^0 \)-psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ behind human secondnaturings across the successive institutional-cumulation/institutional-recomposition\( ^{\langle \text{as-to-} \text{historiality/ontological-eventfulness} /\text{ontological-aesthetic-tracing-\langle \text{perspective-ontological-} \text{normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’} \rangle} \) in reflecting holographically-\( ^{\langle \text{conjugatively-and-transfusively}\rangle} \) the ontological-contiguity ---of-the-human-institutionalisation-process\( ^{\langle} \). As a side note though, it is important to grasp that the registry-worldviews/dimensions as the institutional-cumulation/institutional-recomposition-\( ^{\langle} \)

reality/ontologically-veridical-meaningfulness varies (though not varying in terms–as-of-
axiomatic-construct of the central defining conceptualisation of each registry-
worldview/dimension) within each registry-worldview/dimension from its early to later
spectrum, given human more or less passive continuous psychoanalytic readjustment to
‘ontological experience’. For instance, there is certainly a marked difference in scope and depth
between the positivistic construct in the th century with its nature in the late 20th and early 21st
century. Further to the two elucidations made of postlogism /psychopathic and conjugated-

in ‘non-veridical/vacuous’ terms of reference-of-thought–categorical-imperatives/axioms/registry-teleology ‘supposedly’ in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and this ‘supposedly-ness’ is only validated if

respect to assuring the ‘existential-reality’ in the face of ‘non-veridical/vacuous terms of

The nature of how ‘concurrently-false-premising-of-

It is basically the same process with an adult psychopath but for the fact of the highly opaque nature of adult psychopath mental-disposition unlike a child psychopath, and as previously explained is ‘maturated’ in its theme on issues that are rather of serious import, ‘spatialising’ (to confound by not acting postlogicly/disontologising-perverted-outcome-sought-precedes-existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness within the same spatialisation of relevant social interlocutors, which may raise the hollow nature of its narratives from cross-examination), being ‘indirect’ (by increasingly appearing neutral and unmotivated unlike at childhood), increasingly ‘credulous’ (by effective eliciting of social threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation as to attendant-intradimensional–prospectively-disontologising–preconverging/dementing –apriorising-psychologism as to subontologisation/subpotentiation miscuing/disjointed-logic/logical-drag/unconscionability-drag/sub-par-conventioning-rationalising/temporal-enculturation where its ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought-devolving-as-of-instantiative-context>)’ as implied—logical-dueness-or-scape, profile-or-

In registry-worldview terms of notional—firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> ‘dynamic-cumulative-aftereffect of subontologisation’, this establishes ontological precedence/supersedingness/ascendancy. The grander insight being that ‘institutionalisation devising and devices’ already speaks a lot about human potential and capacity (and are basically our virtue with no need for ‘false idealisation’ that just induces ‘vain-temporality’ passing for intemporality ’), and just as previous institutionalisations prospered, due to increasing realism, because they did away with deities and spirits in recognising that human potential lies in what humans can do themselves, and strived even more by doing away with essences in recognising that understanding effectively what happens in the
world is what gives power and effectiveness over nature, a further extension of rational-realism is to do away with the ‘false feel good’ naivety of construing man by reflex in intemporal terms (not recognising or rather taking full cognisance of the implications that we have notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence as shortness-to-longness-of-register-of-meaningfulness-and-teleology or perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation teleologies) which failure only leads to unrealistically grounded reference-of-thought and meaningfulness (characterised by the readiness to overlook vices-and-impediments of our registry-worldview/dimension as side notes rather than the idea that these point to our deficiencies and ‘that these are actually the necessary pathway for superseding/transcending’ for prospective postconverging–de-mentating/structuring/paradigming, just as preceding registry-worldviews/dimensions had to deal with their preconverging–de-mentating/structuring/paradigming that led up to our positivistic registry-worldview) and aspiring for the intemporal while factoring in the temporal. Thus, such a ‘postconverging-or-dialectical-thinking’─psychology or psychology-of-mentation-dynamics or natural─psychological-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme’ involves, mobilising an ‘ontological-tautologisation/existential-reference conceptual-scheme’ (like a hermeneutics-derived psycho-ontological, bio-ontological, econo-ontological, mathematico-ontological, etc.) construed as of ontological-normalcy/postconvergence teleology thus postdicatory (as metaphysics-of-absence

(implicated-epistemic-veracity-of nonpresencing<perspective─ontological-normalcy/postconvergence>) conceptualisation), is of ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of ontology/intrinsic-reality/of-referential-nature/of-intemporal-preservation-entropy-or-contiguity─or─ontological-preservation of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency ~sublimating─nascence, disclosed-from-prospective-epistemic-digression, as the given subject-matter in a full-blossoming unison of second-order ontology with first-order ontology. Insightfully, superseding─oneness-of-ontology points out that human ascription of knowledge into various categories as science, humanities, arts, etc. is actually an unnatural differentiation that has to do with arbitrary human categorisation out of practicalities of division of labour and organisation, while equally leading to confusions. Actually knowledge as a whole imply the two basic elements: its
conceptualisation and the causal effectiveness thereof of the conceptualisation. Knowledge conceptualisation and causal effectiveness can successively be construed in three respects; specific, intermediary and general, with all aspects of conceptualisations being notionally philosophical as providing meaningful insights while all aspects of causal effectiveness provide confirmatory and predicative-insights to meaningful insights. (Interesting it is important to note that empiricism speaks of the possibility of knowledge revelation by the inherent nature of the subject-matter and not an abstract approach as often naively construed; with the implication that empiricism can be construed as deriving from a confirmatory analysis of a mere insight, observation or experiment depending on the inherent nature of the said subject-matter, so long as this then allows for ontological-primemovers-totalitative-framework.) Thus notionally speaking all human knowledge is philosophical knowledge as being about meaningful insights. For practicalities, the general basis for establishing conceptual pertinence as of the more general abstract notions of knowledge is attributed to the philosophical disciplines (involving philosophy and the philosophies of subject-matters including sciences, and its extension in the humanities and social sciences) even though in further practical terms such construal will be punctually undertaken as well when relevant to specific disciplines of immediate cause-and-effect construals/conceptualisations. This equally practically partakes in the denotative and connotative disambiguation of subject-matters. The practical basis for intermediate conceptual pertinence has to do with the inter-relation and delineating of subject-matters with a lesser direct implication of the philosophy, and even less so when it comes to the practical basis for specific conceptual pertinence as practised within subject-matters/specialisms themselves. Thus in human practical terms, knowledge can be construed as a wheel made up of three parts with the central part viewed as the hub of the wheel (philosophical) that provides control (as asking the most basic notional questions of meaningfulness and logic), the outer part of subject-matter (tyre) that connects with the ground (as causal effectiveness asking the more immediate
questions of specific domains of nature and reality) and the middle part as the rim and spoke of the wheel holding the other two parts together (providing logical coherence, construed both within subject-matters/specialisms and philosophical disciplines). For practical purposes though, any of these conceptualisation –logical-coherence –causal-effectiveness dispositions can be overemphasised or underemphasised, but it is critical to grasp that any such underemphasising or overemphasising doesn’t speak of a change of ontological-veridicality/intrinsic-reality but a human practicality purpose (conventioning) which pertinence lies in not losing sight of and ultimately recovering the superseding ontological-veridicality/intrinsic-reality. This basic conception of knowledge fundamentally explains what to expect of the philosophical as first-order ontology or the sciences including all other applied studies of second-order ontology. Often times, issues are raised which underlying presumption/presupposition/premise should actually be wholly or partially of fundamental philosophical conceptualisation of “meaningfulness-and-teleology” but naively purported to be answered wholly as of a second-order ontology terms. Broadly speaking philosophy as the first-order ontology (acting as a cog) has been more about providing the overall scope for meaningful insights and the broader conceptual background for other subject-matters while science and other second-order ontology disciplines (as the wheel that meets the ground) draws on a sound and broad philosophical conceptual background to articulate causal effectiveness (as of the inherent nature of their subject-matters). It is rather naïve to depart from a philosophical angle and try to imply causal effectiveness of a natural science nature (rather than effective validation techniques relevant to transversal nature of philosophical conceptualisation) just as the same holds true the other way round. The reality is that if science was the best method to answer philosophical questions as of its subject-matter, then it would have already taken over from philosophy as practised and the reverse holds true as well, as in reality it is all about human practical organisation in construing a superseding–oneness-of-ontology while dealing
with our given limited-mentation-capacity-deepening \(^1\). The fact is science is de-
mentatively/structurally/paradigmatically bound to construe causal effectiveness as of the
inherent nature of its domains of reality and philosophy is fundamentally conceptualising by its
very nature and providing the broad conceptual background for all human knowledge with the
implication that without such conceptualisation the historical insight for the need and upholding
of the sciences and scientific method wouldn’t have come about while equally defining the
limits of what science can achieve. Insightfully and beyond their practical differentiations, with
all knowledge actually being conceptually philosophical, a lot of science is actually a sort of
impromptu and punctual heuristic philosophy at sciences subject-matter level. So it is rather
critical here to distinguish between a human denotative and segmenting exercise (as not
determining inherent reality) which is conventioned knowledge and the inherent connotation of
the reality of knowledge as the superseding knowledge ontology inherent structure. In that
sense, one often misconstrued notion with respect to notional philosophy is that it is not as
successful as the sciences, which is a naïve conceptualisation as the very idea of such notional
philosophy is its conceptualising irrigation of second-order ontology with the more immediate
and ontological-prime movers-totalitative-framework \(^2\) success being not only a success of the
second-order ontology but a percolated success of notional philosophy as of its historical
development of human conceptualisation in inducing the second-order-ontologies and irrigating
them with meaningful-insights, whether we talk about the sciences, jurisprudence and law,
ethics, engineering, aesthetics, etc. (This insight means that the classical conception we have of
philosophy as mainly about great philosophical thinkers is incomplete as we equally need to
understand the ‘organic-knowledge’ as of ontological-faith-notion-or-ontological-fideism
imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-
of-existent-reality of other thinkers as they were developing second-order ontologies, and
analyse such thoughts in philosophical terms and make these part and parcel of philosophy
without necessarily going deeply in their concrete ‘operant mechanical-knowledge’ except where this clarifies their ‘organic-knowledge’. That’s why the work of such transcendental thinkers like Newton, Galileo, Einstein, Bohr, Pasteur, etc. are ‘more than just technicalities’ as these involve a certain commitment as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality which needs to be properly relayed not only in the further development of the ‘mechanical-knowledge’ they advanced but equally about elucidating the profundity of knowledge itself. This insight is equally valid with respect to great artists like Michelangelo, among others. While critically, highlighting how human emancipation has been associated with such ‘organic-knowledge’ brought by scientists, artists and philosophers as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across various epochs, such that the history of philosophy is much more than just biographical and analytical accounts of past masters but further involves the active relation of these in construing the ‘becoming-and-emancipating human psyche as of individual and social implications then and now’.) ‘Notional philosophy’ as articulated above is the very profundity behind the human (‘social framework of intersolipsistic deambulation’) imagination, projection, development, articulation and conceptualisation-resourcing possibilities for all second-order ontologies; not so as an instant present development (of philosophers and philosophy-impacting scientists and artists) but rather as of its historical development, accrual and drive into today’s second-order ontologies, as inventing the overall knowledge psyche and their perspectives in the very first place. A notion that is often hardly grasped because of the poor imagination of the notional philosophical work across epochs inducing human <amplituding/formative-epistemicity>totalising–renewing-realisation/re-perception/re-thought, and psychically and institutionally bringing about our present conventioned knowledge being naively related to as if
our present mentation-capacity and insights are simply a given, lacking a full appreciation of prior notional philosophical transformations of mindsets/references-of-thought/psychologisms and human developments of knowledge construal/conceptualisation, and correspondingly lacking a full appreciation of prospective overall human knowledge development possibilities of future philosophical \(<\text{amplituding/formative-epistemicity}>\) totalising-renewing-realisation/re-perception/re-thought as of a prospective mindset/\(^{45}\) reference-of-thought/psychologism for the construal/conceptualisation of all human knowledge. It should be noted that this articulation about the role of notional philosophy speaks of the ontologically philosophical beyond just conventioning/classical sense of conceptual philosophy. That is, a scientist that develops insights about issues of philosophical import is ontologically contributing to philosophy even though qualified as a scientist by conventioning (as the natural ontological construct of knowledge as intrinsic-reality/ontological-veridicality doesn’t recognise our artificial delimitations of knowledge organisation), just as the reverse equally holds true as well. Consider that Aristotle set out as a philosopher but in many ways has turned out to be the true father of science. Notional philosophy in the bigger framework construed of organic-knowledge itself as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as the superseding drive behind the ‘inventing/creating’ of all human technicalities/mechanical-knowledge refers to the mental-disposition to break from ‘ordinary apathy and constraining framework of secondnatured institutionalisation’ to rearticulate dimensionality-of-sublimating—\(<\text{amplituding/formative}>\) supererogatory-dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation projection underlying the ‘inventing/creating’ of prospective secondnatured institutionalisation possibilities as prospective knowledge-constructs/theories/intersolipsistic-intercessory-

This is enabled by the tautological/referential/existential-reference nature of intrinsic-reality/ontology/existence allowing for ‘predication or predictive-insight’ and ‘postdication or projective-insights’, the latter very much attached with the arts and aesthetic forms but hardly hitherto associated with the predicting of the former like in scientific constructions, though such postdication-as-predictive can possibly be enabled as ‘metaphysics-of-absence-⟨implicated-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩ conceptualisations’ in domains concerned with predication as introduced (besides the ‘projective intemporal-preservation-contiguity/referential analysis’ of this author in this paper taking cognisance of metaphysics-of-absence-⟨implicated-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩ as the need to supersede our illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage) in the form of conceptualisations based on ‘creative-spaces-of-metaphors’ (or for that matter the jargon as can reasonably be expected of the thoroughness of all inherently analytical subject matter especially in this case by the highly exploratory nature of such analysis, as such writing are not ‘story writings’ nor should the artificial excuse in the case of core post-structural writings like quoting Einstein in saying that good science is associated with beautiful equation as obviously just as E=MC² is beautiful but the underlying physics is a head-scratcher one can equally say ‘there is nothing outside the text’ is a beautiful statement but don’t expect the underlying Derridean deconstruction and implications to be child’s play, nor should the fact that the meaningfulness of the social ‘being closer to us emotionally’ compared to the natural sciences that this should preclude its analysis if and when we are temporally uncomfortable with it, as that is part and parcel of our human development as our forerunners had taken their responsibilities about that to usher in our positivistic registry-worldview/dimension and we can’t exclude ourselves from prospective transcendence-and-

Central to such ‘ontological-tautologisation/existential-reference conceptual-scheme’ is the idea of superseding–oneness-of-ontology, as obviously there can’t be any predication-and-postdication without a ‘sole ontology’ with a ‘sole intrinsic ontologically-veridical-meaningfulness’ (otherwise meaningfulness will be chaotic-and-meaningless), not to be confused with human constantly evasive meaningful grasp of intrinsic-reality/ontology having to do with our relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’—as-to-‘attendant-intradimensional’—prospectively-disontologising—preconverging/dementing—apriorising—psychologism’ due to our limited-mentation-capacity-deepening, with such a conceptual scheme thus enabling aetiologisation/ontological-escalation. This equally reflect how the childhood psychopathy psyche is preconverging-or-dementing –apriorising-psychologismly perceived though at childhood temporal-dispositions-conjugated-postlogism /preconverging-or-dementing ‘-integration to psychopathy is not significant as its perversion-of- reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > is still universally transparent as delirious and thus it doesn’t elicit temporal-preservation by conjugated-postlogism /preconverging-or-dementing ‘-integration, since it is not spatialising, maturating, and being sufficiently indirect, credulous and crafty to be non-transparent by its motives and acts. Ultimately, this highlights generally that at relative-ontological-incompleteness-induced,‘-threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation

Vitally, with regards to postlogism and conjugated-postlogism, it is always about ‘falsely and parasitically/co-optingly’ staking a claim to the reference-of-thought in order to wrongly elicit its implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology to a prospective interlocutor, and so recursively (psychopathic/postlogic-character), progressively (conjugated-exacerbation and conjugated-opportunism characters) and regressively (conjugated-ignorance and conjugated-affordability characters). Generally, this insight harkens back to the previous elucidation with regards to the BODMAS characters where the pure arithmetic operation as a deductive/inferring/extrapolation exercise is no longer valid when the fundamental axiom is breached due to a pathological condition, and with the ‘lack of constraining social universal-transparency—(transparency-of-totalising-entailing-as-to-entailing—amplituding-formative-epistemicity)—totalising—in-relative-ontological—
resulting in other temporal characters, beyond-the-consciousness-awareness-teleology \(^1\)\(<\text{in-preconverging-existential-extrication-as-of-existential-unthought}>\), operating arithmetic as if the condition never existed; and thus there is a need for a retracing to establish the existential reality of the breaching or non-breaching of axiomatic rules, before determining the ontological-veridicality of the results of the arithmetic operations. In a further elucidation of psychological/psychoanalytical basis of meaningfulness representation, this further confirms the fact that temporality \(^/\)shortness (shortness-of-register-of–meaningfulness-and-teleology \(^2\)) and intemporality \(^/\)longness (longness-of-register-of–meaningfulness-and-teleology \(^3\)) are both basically the same notion of intemporality \(^4\), but with temporal-dispositions \(^5\) ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) being rather in various grades of poor execution of intemporality \(^/\)longness (longness-of-register-of–meaningfulness-and-teleology \(^3\)) but that in so doing such temporal-dispositions of individuation ‘falsely retaining their teleology \(^10\)/purposefulness’ as if of intemporal-disposition leading to their ‘pseudointemporality’ \(^5\) (and so with respect to their apriorising–registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology \(^10\)), inducing preconverging–dementating/structuring/paradigming registry-worldview’s/dimension’s-uninstitutionalised-threshold \(^1\)–defect\(<\text{as-Being-or-ontological-or-existential–defect}>\) where such false-retention construed as temporal-preservation-as-pseudointemporality \(^5\)-preservation is rather in conjugated-postlogism \(^7\); with the idea that this ‘false-retention’ by temporal-dispositions individuations results in ‘disjointedness-as-of–reference-of-thought’ misappropriated \(^5\) meaningfulness-and-teleology \(^10\) in arrogation with respect to ontologically-veridical-meaningfulness as meaningfulness become ‘an exercise in threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \(^1\)\(<\text{as-to–attendant-}$$

The notion of temporality/shortness as actually ‘pseudointemporality’ provides a deeper insight to such traditional notions as bad, evil, wicked, etc. that we attach to temporal-dispositions (specifically, in the moral sense as temporality/shortness is much more than morality as...
derived from intemporality / longness which is about ‘full potency of ontological-and-virtue effectiveness’) by de-emphasising the naïve but wrong intuition that these notions have their own ‘mental-dispositional drives-as-teleology’ (to be bad, to be evil, to be wicked, etc.) by rather highlighting that ‘mental-dispositional incapacity for intemporality’ of such individuations induces ‘notional-disjoinedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation (at individuation-level as relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’ <as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>, as-it-is-thus-‘in-wait’-for- perversion-of-reference-of-thought<as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, or-temporal-preservation-as-pseudointemporality-preservation, which when taken into preservation, as temporal-preservation, is rather in pseudointemporality, while with respect to a traditional conceptualisation it is wrongly ‘vaguely imbued with a dispositional-drive-as-teleology as bad, as evil, as wicked… etc. Now, the consequences of pseudointemporality individuations (postlogism-slantedness, postlogism-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought–devolving ontological-performance <including-virtue-as-ontology>) are reflected developmentally in the social fabric which is a ‘framework of social-stake-contention-or-confliction’ as the transference, in dynamic-cumulative-aftereffect, of such pseudointemporality individuations into ‘individual personalities dispositions and social dispositions’ induces correspondingly subontologisation/subpotentiation in ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation (at individuation-level

qualification/qualification-schemes’ that human psychology is actually much more of a
becoming dynamic construct, rather than static, which wholly readjusts to human deepening
grasp of ontologically-veridical-meaningfulness/intrinsic-reality/existence as a retrospective,

present and prospective development; that collectively-and-inclusively-individuals-and-their-
social-constructs do have latitude for the choices they make in existence more than and beyond
the limits of personality traits and social character, and further that the human mind is ‘not
irresponsible’ with respect to given personalities dispositions (whether with respect to abnormal psychology or functional psychology) with the idea that such stances taken by a ‘psychology of qualifications/qualification-schemes’ induces a confounding-effect with respect to individual personalities themselves in assuming their self-emancipation possibilities and what they can aspire for together with their interveners/relators, whether social or clinical. Such insight do arise when we factor in that all along in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, human secondnaturings is actually the very central ontologically-led developmental element as the critical tool of human psychological renewal that enabled ‘an animal in many ways’ to emancipate itself developmentally across epochs such that the ‘insightful depth’ of such a developmental understanding of human psychology is necessarily much more than ‘a cultural universe of several decades of modernity’, as it conceives that human psychology is an ongoing active construct such that a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ rather captures the ontological undercurrents that constantly redefine human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as it recognises that (and explains why) the mental-disposition/consciousness-awareness-teleology of a recurrent-utter-institutionalised mindset/reference-of-thought varies from that of a based-institutionalised/ununiversalised mindset, the latter from that of a universalised/non-positivistic-or-medieval mindset, the latter from that of a positivistic/procryptic mindset/reference-of-thought (our own mental-disposition), and the latter from that of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism mindset, while not ignoring as well the intradimensional spectrum of variation within each mindset; and wherein de-mentation/supererogatory-ontological-de-

In fact, ontological-reconstituting—as-to-conflatedness /deconstruction which always refers rather to the issue of reference-of-thought is actually of ‘projective-insights of imbricatedness/threadedness/recomposuring as of attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity —<reifying—or-elucidating—of—prospective-relative-ontological-completeness —of—reference-of-thought—devolving—as-of—instantiative-context> as to existence-potency —sublimating—nascence,—disclosed—from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing—that-further—epistemically-unconceal—the-very-ontologically-same-existential-reality/dynamic-cumulative-afereffect/aftereffect’ nature and it is about implying a prospective reference-of-thought, rather than just a différance (differentiation) as within the same prior/given reference-of-thought as of a basic abstract-construal. This is one of the reasons for its misapprehension as it implies an overall change in the reference-of-thought of appreciation which ends up putting everything ‘of old/of prior’ into question, contrary to the traditional analytical expectation of selective-or-limited critiquecontestation usually of a non-transcendental nature. Insightfully, the overall relation of deconstruction as ontological-reconstituting—as-to-conflatedness to the existential framework of ontological-veridicality should further allay the confusion.
Deconstruction is actually tautological with respect to intrinsic reality/ontological-veridicality because it is always about the same existential reality being dealt with by improving human limited-mentation-capacity-deepening as shallow-limited-mentation-capacity to deeper-limited-mentation-capacity ontological-reconstituting-as-to-conflatedness; generating differing consciousness-awareness-teleology outcomes of the same existential reality whether talking of deconstruction at the registry-worldview/dimension or intradimensional level or individuation-level. Since it is always about the same existential reality, in effect the readjustment for intrinsic-reality/ontological-veridicality is actually a human ‘changing-of-the-psyche’/psychical-readjustment (psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) with its increasing-ontological-completeness or diminishing–human-epistemic-abnormalcy-or-preconvergence as implied by an ontology-driven ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, wherein placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology scheduling ‘is not inherently sanctimonious’ (the naïve way every registry-worldview tends to relate to its mental-disposition) but is determined and shaped (by way of ‘de-mentation’ (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’) by construed ontological-veridicality. Since it is always about the same existential reality but improving-rather-as-cumulating/recomposuring human limited-mentation-capacity-deepening in ‘engaging the same existential reality and drawing implications thereof’ as human <amplituding-formative-epistemicity>totalising–renewing–realisation/re–perception/re–thought–as–utter–placeholder–setup–ontological–rescheduling{(by–a–renewing–of–apriorising/axiomatising/referencing–psychologism–as–the–new–referencing–basis–of–prospective–meaningfulness–and–teleology} as ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-

The implications at the individuation-level is that our limited-mention-capacity, as of our temporal-to-intemporal mental-dispositions, in the construal of intrinsic-reality/ontological-veridicality tends towards temporality/shortness as of apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity—constitutedness in preconverging-entailment that ultimately fails hence inducing virtualities. With regards to logic and by extension mathematics, this equally points out that logic as well as mathematics (and for that matter all other knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue like time, space, virtue, historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>, instantaneity, cogency, methodology, etc.) are abstract constructs that underscore the underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-

human-subpotency preconverging existential-extrication-as-of-existential-unthought, construed rather as of the implied given registry-worldview’s/dimension’s reference-of-thought (given consciousness’s neuterising-induced-or-deneuterising -induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of its intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, thus reflecting the registry-worldview’s/dimension’s reference-of-thought ontological-performance as of its historiality/ontological-eventfulness /ontological-aesthetic-tracing as so-analysed as from notional~deprocrypticism! (It is important in this regard to distinguish what is implied by ‘incidenting’ not to be confused with ‘instantiation’, as incidenting implies an ‘abstract construction’ of the implication of logic or any ‘knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue’ that may or may not be of existential-instantiation, whereas instantiation refers actually to ‘actual existential instance’. It is critical to uphold this distinction with respect to the existentially attendant nature, as of imbricatedness/threadedness/recomposuring, of human limited-mentation-capacity grasp of all ‘intersolipsistic-intercessory-notions/notional~referential-notions’/knowledge including our grasp of logic or mathematics. As ‘abstractly-speaking’ there is no absolute certitude that in say a million years from now ‘a given as of yet unelucidated notion’, as a further imbricatedness/threadedness/recomposuring, will invalidate in a million years from now the ‘existential-instantiations’ validity of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue including logic and mathematics as we know of them today. Such distinction as of more immediate concern is to
point out the subsuming precedence of existence as of its inherent intrinsically beyond-and-over human construal/conceptualisation of meaningfulness-and-teleology about it as at best the latter can only achieve as of its upper limit ‘a correspondence of construal/conceptualisation of existence’; noting here as well for coherence sake that such a statement cannot be made about existence itself as the absolute a priori, simply because any arising existential-instantiations no matter the strangeness or abnormality to what is traditionally thought or expected however imbricated/threaded/recomposured or unimbricated/unthreaded/unrecomposured is of the inherently valid scope of existence itself as of its superseding–oneness-of-ontology and precedence, thus meaningful.) Logic and mathematics (and any such knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue) are only as meaningful as when reflecting a reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, of a given totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality whether as of a science, a social science or social study, or even abstract logic ontology or abstract mathematics ontology; otherwise the naïve use of logic or mathematics (and/or any such knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue) become a relatively sub-ontological–as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s–sublimating–nascence exercise qualified more pertinently as ‘conceptual patterning’ as of apriorising/axiomatising/referencing–of-attendant–ontological-contiguity–constitutedness–in–preconverging-entailment in any such totalising–devolved–purview-as-domain-of-construal-as-intrinsic-

of the specific biology \(<\text{amplituding-formative-epistemicity}>\text{totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality}\) as DNA-based genetics that explains genes and genetic principles is ontologically preceding and defining of how the knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of mathematics, logic, information processing, etc. can further contribute in elaborating DNA-based genetics but it is rather naïve to think mathematics, logic, information processing or for that matter any other knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue like ‘mere research methodologies lacking critically the requisite ontological cogency’ can by themselves develop a ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{10}\)–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^{10}\) of a given \(<\text{amplituding-formative-epistemicity}>\text{totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality}\) by such vague methodological mimicry. The latter at best induces a vague and blurred ‘conceptual patterning’ particularly in such domains-of-study where the positive or negative sanctioning by ontological-primumovers-totalitative-framework\(^{7}\) of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superceratory–de-mentativity is not immediately perceptible but rather remote like in the human sciences and to some extent as well with some studies in the natural sciences (where for instance the overall cogency of the whole experimental framework relative to the conclusions advanced of many a research study is dubious as not pertinently unconfounded). Supposedly a mathematical and/or statistical methodological analysis was to be introduced with regards to the underlying articulation herein and based say on an ‘arbitrary historiality/ontological-eventfulness /ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism’ grounded
methodology on the basis of just vague impression’ it will rather be conceptual patterning. What is required is an underlying {reference-of-thought—categorical-imperatives/axioms/registry-teleology}—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology (as implied by this author herein, as of ‘human limited-mentation-capacity construed as of ontological-normalcy/postconvergence metaphysics-of-absence}—implicated-epistemic-veracity—of- nonpresencing—⟨perspective—ontological-normalcy/postconvergence⟩{/Doppler-thinking as it elicits human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnatures—temporal-to-intemporal-dispositions—⟨so-construed-as-from-perspective—ontological-normalcy/postconvergence⟩—existentialism-form-factor {amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity}). The contention being that studies and research that do not develop their conceptual formulations validly and succintly as the underlying framework of the {amplituding/formative—epistemicity>totalising—devolved—purview—as-domain-of-construal—as-intrinsic-reality/ontological-veridicality but simply expect to dangle/associate methodologies including statistical and mathematical analyses are rather involved in vague conceptual patterning as of reference-of-though apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—constitutedness—in—preconverging—entailment. This insight is critical with respect to the validity of interpretations and conclusions in many experimental and study frameworks in the social sciences often ‘under-elaborating the ontological reference-of-thought or axiomatic-construct of their study’ to which the implications of statistical and mathematical methodologies and analyses are naively brought to bear. This further speaks in the bigger scheme of things, of the need for the articulation of what

A ‘relative-ontological-completeness—reference-of-thought’ implies ‘a new all-pervasiveness of categorical-imperatives/axioms/registry-teleology as the axiomatic-construct of meaningfulness-and-teleology as a prospective institutionalisation—reference-of-thought. Thus this further explains the very thorny difficulty of dealing with psychopathy and social psychopathy, because more than just an individuation phenotype and incidental/on-occasion phenomenon, it speaks of a registry-worldview’s/dimension’s our dimension, relative-ontological-incompleteness\cite{induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’} as-to-attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism⟩ as procripticism–or–disjointedness-as-of-reference-of-thought in endemising/enculturating it, thus in need of notional–deprocripticism as preempting–disjointedness-as-of-reference-of-thought as an overall de-mentative/structural/paradigmatic resolution to the vices-and-impediments of our positivism–procripticism registry-worldview/dimension. That is, with acts of perversion-and-derived–perversion-of-reference-of-thought-⟨as-preconvergingly-apriorising/axiomatising/referencing-innonconviction/madeupness/bottomlining-as-to-shallow-supererogation⟩ ‘it is vague to consider just arriving at ontological-veridicality/intrinsic-reality construal of such acts as of the paradox of their universally implied prior relative-ontological-incompleteness–of-reference-of-thought’ with the latter by itself becoming the grander problematic, more like the relative non-positivism/medievalism relative-ontological-incompleteness –of- reference-of-thought itself is the grander problematic with respect to the endemisation/enculturation of notions-and-accusations-of-sorcery acts/occurrences, and so more than just an act or acts of notions-and-accusations-of-sorcery construed as perversion-and-derived–perversion-of-reference-of-thought-⟨as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as revealing of the
grander framework of vices-and-impediments\textsuperscript{106} inherent to the relative non-
positivism/medievalism relative-ontological-incompleteness\textsuperscript{106} reference-of-thought. Rather
it is about articulating the ontological-completeness-of-\textsuperscript{84} reference-of-thought as ‘Being

uninstitutionalisation uninstitutionalisation, \textsuperscript{104} universalisation institutionalisation over
ununiversalisation uninstitutionalisation, positivism institutionalisation over non-
positivism/medievalism uninstitutionalisation, and prospectively notional–deprocrypticism
institutionalisation over our procrypticism uninstitutionalisation. Obviously a traditional
approach of analysis of psychopathy (as so construed from this papers totalising-
entailing/nested-congruence insight including psychopathy and social psychopathy) will tend to
be just as palliative as a non-positivism/medievalism world’s postlogism associated with their

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and will equally be
inclined to palliation regarding notions-and-accusations-of-sorcery depending on
circumstances; though obviously the ontologically de-mentative/structural/paradigmatic
resolution in both instances is with respect to the necessary ontological-completeness-of-
reference-of-thought in overcoming \textsuperscript{84} reference-of-thought

So perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> has always been recurrent in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process because institutionalisation is not emanance transformation of temporal-dispositions as shortness-of-register-of-meaningfulness-and-teleology into the intemporal-disposition as longness-of-register-of-meaningfulness-and-teleology but designed to skew ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity) towards the intemporal-disposition, such that where institutionalisation reaches its design limits given human limited-mentation-capacity-deepening, the possibility for perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> arises with its corresponding enculturation/endemisation as uninstitutionalised-threshold in want for prospective institutionalisation as the ontologically-veridical de-mentative/structural/paradigmatic resolution. When that insight avails (a Derridean event), it is properly time to ‘trample’ the melee of common sense disposition for self-preserving extrication/temporal preconverging-de-mentating/structuring/paradigming with the elicited intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging-de-mentating/structuring/paradigming, as has been the case along and defining human history ultimately ushering our very own registry-worldview/dimension. It is the idea of the ontological-primemovers-totalitative-framework of the latter over the former that will existentially/ontologically impose the latter, and not common/mutual logical-processing as logic is then ‘a lower, inappropriate and inherently defective level of meaningfulness-and-teleology processing’ in relation to ‘appropriateness-of-reference-of-thought-as-of-conflicatedness processing’ (just as there can’t be logical intelligibility between a non-positivist/medieval mindset/reference-of-thought of meaningfulness-and-teleology with a positivistic one); by its ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining as the correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument functioning (the appropriateness-of-reference-of-thought-as-of-conflicatedness) in the middle to long run construed as of de-mentation{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}. likewise with a Rousseau who isn’t advancing a temporal interest that his aristocratic stature

We would possibly appreciate this argument from a retrospective insight of how the retrospective institutionalisations came about to the present, but it will certainly be alienating to think the same of our present in those transcended terms from a prospective transcending reference, even though the ontological insight points in that direction. Such that grasping and superseding of psychopathy and social psychopathy ontologically requires 'avoiding to construe the generality/averaging of the social-construct as being of the sound/appropriate ontological cadre/framework' but rather ontologically adopting deferential-formalisation-transference (as all formal constructions whether the law, subject-matters, formal institutions, etc. have always been conceived) to 'abstractly reference prospective institutionalising as a secondnaturing that is of universal implications/aetiologisation/ontological-escalation for all times and all humans' by factoring-in the requisite supplanting–conviction-as-to-profound-supreration —of-

The fact is this thematic construal is further compounded by the varying tone-as-temperament associated with psychopathy and social psychopathy wherein the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to-'attendant-intradimensional'-prospectively-disontologising-preconverging/dementing-apriorising-psychologism of postlogism, conjugated-postlogism or temporal-dispositions means that it is 'ontologically wrong to be engaged solely on the basis of a supplanting-conviction-as-to-profound-supererogation—of-'attendant-intradimensional'-postconverging/dialectical-thinking-apriorising-psychologism tone as temperament'; as the 'consciously eluding/circumventing' psychopathy as postlogism mental-disposition adopts various 'hollow tones as temperaments' on the basis of its perceived position of weakness/disadvantage or strength/advantage, with implications on soundness of reference-of-thought, whether acting (threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to-'attendant-intradimensional'-prospectively-disontologising-preconverging/dementing-apriorising-psychologism>) by 'imploring, contesting, affirming, condescending, rebelling or self-victimising' depending on what it perceives as advancing its postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-(‘<decontextualising/de-existentialising-of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-contextualising/existentialising–attendant-ontological-contiguity >; in-shallow-supererogation <-as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>) at one moment or the other, and this mental-disposition is naively (where ignorant-conjugated-

This ‘contrastive intellectual-and-moral tone-as-temperament and thematic teleological constructs of subtransversality-existential-eventuating/denouement~of-motif-and-apriorising/axiomatising/referencing (as-of-pseudointemporalities) in relation to supratransversality-existential-eventuating/denouement~of-motif-and-apriorising/axiomatising/referencing (as-of-non-pseudointemporality)’ is central in articulating a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation that further elucidates the conceptualisations herein. The conceptual background for this tone-as-temperament and thematic teleological conceptualisation (for the storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation) lies in the notion that human construal of meaningfulness/memetism defines and structures its teleology/teleological-differentiation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations whether in ‘notional-firstnaturedness—temporal-to-intemperal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence individuation terms’ and as this in dynamic-cumulative-aftereffect defines individuals actions intradimensionally or transcendentally/transdimensionally/interdimensionally/maximalisingly. For instance, in the latter case a meaningfulness/memetism fundamentally based on spirits as causes-and-effects will fundamentally be predisposed to a defining teleology/teleological-differentiation of animism practices, and the corresponding ways of thoughts and live patterns; likewise a meaningfulness/memetism fundamentally based on a grand religion will fundamentally be structured on the basis of such religious practices, and the corresponding ways of thoughts and live pattern (depending on the degree of religious absolutism) as its defining teleology/teleological-differentiation, and likewise a meaningfulness/memetism that is mostly secular-inclined will be predisposed to the defining teleology/teleological-
differentiation of down-to-earth interests including utilitarianism and practical knowledge/scientism, and the corresponding ways of thoughts and live patterns. Going by the defining 'notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>' of individuals action intradimensionally (and as recurrently affirmed by the ontological-contiguity—of-the-human-institutionalisation-process across all the registry-worldviews/dimensions, giving rise to prospective institutionalisations and uninstitutionalised-threshold), this establishes that there is a deterministic existential-tautologisation/existential-reference of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor mental-dispositions with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ highlighting a teleology/teleological-differentiation at the individuation-level in a continuum from pseudointemporality (involving the ‘faulty-mentation-procedure-deception-or-urge’ of postlogism-slantedness and the derived-by-conjoining temporal-accommodation-of-this-perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as conjugated-postlogism/preconverging-or-dementing-integration, grounded on ‘extrinsic-attribution involving inducing sociologically significant others basis of meaning and logic’) as it induces the uninstitutionalised-threshold—to—non-pseudointemporality (of intemporal mental-disposition inclined to account for pseudointemporality as intemporal-preservation/aetiologisation/ontological-escalation operating on a teleology/teleological-differentiation of ‘intrinsic-attribution based on solely eliciting intersolipsistic understanding of intemporally/universally valid meaning and logic’, inducing the institutionalisations; with the implication that futural Being-

Existence/existential-reality is thus a teleological-contiguity/oneness-of-teleology ‘with teleological-discretion being defined only by epistemic choice/differentiation’, as epistemically-situated chosen/differentiated meaningfulness (as to ontology/ontological-veridicality which is epistemically/notionally a contiguity construed-as ontological-contiguity or intrinsic-reality—ontological-coherence or superseding—oneness-of-ontology), defines and structures teleology/teleological-differentiation in its derivation as ‘imbricatedness/threadedness/recomposuring as of attendant ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity’—reifying-or-elucidating-of—prospective-relative-ontological-completeness—reference-of-thought—devolving-as-of—instantiative-context as to existence-potency—sublimating—nascence—disclosed-from—prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing—that-further—epistemically-unconceal—the-very-ontologically-same-existential-reality’ (from the perspective of the ‘postconverging—or-dialectical-thinking—reference-of-thought in relative-ontological-completeness as depth-of-thought’). pivoting/decentering as fundamentally psychoanalytic actually extends to the construal of understanding itself with regards to the underlying rescheduling of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100}, as the idea of pivoting/decentering extends to the notion of the ‘self’s own pivoting/decentering for understanding’. It is an aberration to construe ‘transcendental text’ which puts into question the reference-of-thought itself in non-transcendental terms ‘as the transcendental reality (divulged by human limited-mentation-capacity-deepening  with corresponding recomposuring of ontological import) that is being implied given the ontological-normalcy/postconvergence nature of transcendental text doesn’t concede to a human temporal complex of its established metaphysics-of-presence-{implicated-'nondescript/ignorable–void 'as-to- presencing–absolutising-identitive-constitutedness } conventioning/traditional-ways of understanding as superseding but rather superseded, and having to cave in’. In other words the aporeticism overcoming/unovercoming nature of a Derridean deconstruction text doesn’t speak of the poor writing of Derrida, it speaks of the reader’s ‘complex of understanding’ that fails to recognise its need to psychoanalytically-unshackle, construed in interdimensional transcendence-and-sublimity/sublimation/supererogatory-de-mentativity terms as akin to a positivistic laden text articulated in a non-positivism/medievalism setup implying a necessary psychoanalytic-unshackling as requiring the pivoting/decentering of the reader for its understanding as it is more than an explanation in the terms of the old as non-positivism/medievalism meaningfulness-and-teleology\textsuperscript{100} but more critically an invitation into the new as of a positivising/rational-empirical mindset/ reference-of-thought meaningfulness-and-teleology\textsuperscript{100}; having to do fundamentally with the human mind complex and reflex of failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to acquiesce to prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and so all across the various institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-

Such a pivoting/decentering of understanding itself is what is implied by ‘projective-insights’/postdication/metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-\langle perspective-ontological-normalcy/postconvergence\rangle}; further explaining the underlying notion of suprastructuralism as the ability to construe/conceptualise meaningfulness across different ontological-completeness-of-reference-of-thought perspective whether recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, our present positivism–procrpticism or futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-and-teleology\rangle as of prospective deprocrpticism, with the necessary de-mentation\rangle (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) involved in such a pivoting/decentering as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Suprastructuralism as such will also explain the underlying logic of Bruno Latour’s famous criticism of the notion that scientists reported discovery of TB as being the cause of Pharaoh Ramses II death together with the organisation of an official ceremony in full honours in celebration of Ramses II corpse and the discovery, as being an entanglement of references-of-thought between the modern frame-of-reference/collective-consciousness-awareness-teleology\rangle and the Ancient Egypt pharaonic era frame-of-reference/collective-consciousness-awareness-teleology\rangle (a mix-up that must not occur for history itself to conceptually exist ‘since history wouldn’t deny its object of study its
very own frame-of-reference, as being oblivious here to the notion of TB’, for an exercise of understanding the past and projecting to the future); as if it were ‘possible and desired’ that the modern frame-of-reference equally carry modern weapons back in time in Ancient Egypt and fight pharaoh Ramses II wars (which is obviously ridiculous). Suprastructuralism as such highlights the ‘mental complex of all present mindsets as metaphysics-of-presence\{implicated-nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness \}', and going by ‘projective-insights’/postdication/metaphysics-of-absence\{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normaley/postconvergence>\} is equally what can enable our own prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in grasping a more profound intrinsic-reality/ontological-verbatim as notional–deprocrypticism which is deeper than our present positivism–procrypticism registry-worldview reference-of-thought. As implied in this paper, the implication of pivoting/decentering for understanding itself is that our metaphysics-of-presence\{implicated-’nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness \} traditional/conventioning reference-of-thought–categorical-imperatives/axioms/registry-teleology is put into question, and the notion of understanding itself is pivoted/decentered such as implied by the referentialism approach of this hermeneutic/reprojecting/supererogating/zeroing design (as opposed to a categorisation constituting elaboration basis for understanding). As the referential harkens to the most profound concept (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation also construed as ontological-normaley/postconvergence) and ontologically-reconstitutes/deconstructs lesser and lesser profound concepts in relation to the most profound concept by a referencing understanding. The implication is that the entirety of the text is a unity in contiguity perceptible from the subtexts fusion with the unity. Hence the organisation of the text can only be cross-referencing (and not, wrongly, an organisation based on categorisation
fundamental essential/intrinsic/inherent/intemporal attributions of meaningfulness-and-teleology is just as valid; basically due to the fact that our fundamental relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism>’ at all prior registry-worldviews/dimensions, whether as recurrent-utter-uninstitutionalisation/ununiversalisation/non-positivism-or-medievalism/procryptic, is bound to lead to human integration of the corresponding postlogism

and-shallow-and-non-veridical-existential-reference, in order to account for such ‘parasitism/parasitising/co-opting-meaningfulness’ by parasitising/co-opting association with the essential/intrinsic/inherent attributions behind the representations of ‘meaningfulness-and-teleology’, and so as intemporal-preservation/aetiologisation/ontological-escalation enabling prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that override such ‘parasitism of meaningfulness-and-teleology’ as temporal arrogation/disjointedness/impostoring/extrication/misappropriation whether consciously/by-expediency/unconsciously. This is the intemporal-disposition individuation decentering mechanism with respect to ontology/ontologically-veridical-meaningfulness in a dynamic-cumulative-aftereffect at the registry-worldview/dimension or intradimensional level that brings about prospective institutionalisations by rescheduling the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with respect to construed prospective ontology/ontological-veridicality (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) explaining why we are able and do transcend; or else as in all prior registry-worldviews, the pseudointemporality logic will tend to become one of conscious or unconscious ontological-bad-faith/inauthenticity that construes of the present (by its reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether being usurped/disjointed/impostored/parasitized/co-opted) as of absolute reference-value regardless, failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to register that the grandest value as ontologically-coherent (as a principle sustaining its perpetuation) is the transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as longness-of-register-of-meaningfulness/intemporality that accounts for the becoming from all the priors to the present to the prospective registry-
worldviews/dimensions institutionalisations, thus not wrongly implying an equivalence between such a meaningful construct of \textsuperscript{104}universal import with temporal extricatory preconverging–de-mentating/structuring/paradigming contentions (more like metaphorically an apple falling on Newton’s head and his projection of this in grasping the \textsuperscript{104}universal implications of the laws of motion being wrongly equivocated in the terms of say an apple merchant and other interests in extricatory/temporal fear of the idea that understanding the laws of motions will be ‘temporally’ undermining in one way or the other). Critically, it isn’t idle idealism but rather a realistic insight, as just as articulations of notions of positivism like evolution, \textsuperscript{104}universal human emancipation, rationalism, empiricism and science cannot be sustainably intelligible in a mindset/psyche that is non-positivism/medievalism and has not been pivoted (psychoanalytically-unshackled/mimeticly-reordered/institutionally-recomposured) to a positivistic mindset/psyche thus explaining why their proponents actively undermined the overall ordinary meaningful-frame of non-positivism/medievalism including such effort as the Encyclopédistes, likewise it is naïve to think that notional–deprocrypticism (by its deprocrypticism–or–preempting—disjointedness-as-of-\textsuperscript{84}reference-of-thought imbricatedness/threadedness/recomposuring as of attendant ontological-contiguity –reifying-or-elucidating-of-prospective-relative-ontological-completeness \textsuperscript{-of-reference-of-thought-} devolving-as-of-instantiative-context as to existence-potency \textsuperscript{~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality}) is an inherent meaningfulness that is perfectly construable within just a positivism–procrypticism mental-disposition and the latter’s many compromised assumptions as articulated in this paper, as notional–deprocrypticism is priorly implying futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–
meaningfulness-and-teleology as of prospective notional-deprocrypticism psyche/mindset. This equally raises the fundamental issue with post-structuralism, does it fully make sense in a ‘modern mindset’ of reference or \(^8\) reference-of-thought or rather it is implying priorly a prospective ‘postmodern mindset’ of prospective reference or \(^8\) reference-of-thought as its existential-reference/existentia-tautologisation wherein human ‘deeper limited-mentation-capacity—\{as of relative apriorising/axiomatising/referencing—\{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity\}\} conflatedness in \{preconverging disentailment by\} postconverging entailment pivot to decenter to reconstrue/reconceptualise meaningfulness-and-teleology, most critically marked by suprastructuralism/meaningfulness-as-beyond-temporal-consciousness-awareness-teleology as a knowledge construct grounded on the ontological-veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—\{so-construed-as-from-perspective—ontological-normalcy/postconvergence\}’—existentialism-form-factor and the implications for the derivation of meaningfulness (a progression from just a positivism mindset/\(^8\) reference-of-thought of meaningfulness-and-teleology grounded pre-eminently on a human intemporal nature construct thus failing/not-upholding—\{as of apriorising/axiomatising/referencing\} to appropriately factor in the dynamism of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—\{so-construed-as-from-perspective—ontological-normalcy/postconvergence\}’—existentialism-form-factor mental-dispositions prospectively, with focus wholly on positivistic construal and logic grounded solely on an intemporal construct (overlooking the implication of ‘parasitism of meaningfulness-and-teleology’ as temporal
arrogation/disjointedness/impostoring/extrication/misappropriation whether consciously/by-expediency/unconsciously, coming from the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology}) in inducing defect of reference-of-thought as perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}). Critically, ontological-normalcy/postconvergence points out that paradoxically the transcendental mindset/reference-of-thought associated with a ‘knowledge construct of intrinsic-reality’ should priorly be established (‘centered’ over the prior meaningful-frame which is ‘decentered’) for the knowledge construct to take hold by the continuing ‘moulting’ of its proponents and corresponding social construct, as intrinsic-reality doesn’t adjust its inherent meaningfulness to us but rather humans need to achieve a given psychical development to have-access-to or be-able-to-register the knowledge construct of the more profound existential-reference/existential-tautologisation to intrinsic-reality/ontological-veridicality that that psychical development allows for, in meaningfulness-and-teleological terms. This is rather a difficult task as it implies de-mentation-superalogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) of reference-of-thought behind the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, and no registry-worldview/dimension sees itself as de-mentable prospectively, as being decentered for a prospective centering, even where it acquiesces to the notion retrospectively up to its own institutionalisation; pointing that ontological-normalcy/postconvergence is the genuine perspective for construing the dynamism of knowledge-and-virtue or meaningfulness-and-teleology). The fundamental point of a knowledge construct (which is necessarily tautological as intrinsic-reality/ontology is already given) is rather an exercise of ‘human <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-
thought-as-utter-placeholder-setup-ontological-rescheduling-{by-a-renewing-of-

for a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation in

As a side note, such a notion of mentarchy in its dynamic-cumulative-aftereffect should be able to highlight the peculiarity of reference-of-thought associated with human languages from ancient ones to modern ones (as of the registry-worldview/dimension-levels of the corresponding societies), facilitating the deciphering and understanding of ancient languages, as well as the reconceptualisation of meaningfulness-and-teleology across history, which conceptual exercise tends to be rather biased towards a modern perspective metaphysics-of-presence ⟨implicitied-nondescript/ignorable-void ’-as-to- presencing—absolutising-identitive-constitutedness ⟩.

Finally, a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation will need to take cognisance of the very peculiar nature of the social world (in contrast to the natural world) that makes the social ‘susceptible to incorrect understanding and analysis’ particularly at a practical and operant level by the fact that it is highly emotionally-involved/politically-driven especially so with disturbing issues, and this is further compounded by the ‘blurriness’ and distance of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-
mentativity’, and finally from a transcendental/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation perspective human mental-disposition with regards to the social can be poorly ontological with unconscious, expedient or conscious emphasis on significant others basis of logic as well as wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>) mental-dispositions (social-aggregation-enablers) undermining the solipsistic relationship with intrinsic-reality required for veracity/ontological-pertinence (transcendental-enabling/sublimating/supererogatory—de-mentativity). In this regard, it will actually be naïve to assume that an articulation of veracity/ontological-pertinence as with the natural sciences is all that is necessary in achieving effectiveness. With the weaknesses highlighted above with regards to grasping the social, it is important that such veracity/ontological-pertinence is effectively emphasised within the ‘realistic social contexts of mental-dispositions and actions’ driven by social-aggregation-enabling, wherein for instance the transcendental-enabling/sublimating/supererogatory—de-mentativity that is intrinsic-reality/ontology grounded on intrinsic-attribution can easily take a backseat over social-aggregation-enabler grounded on extrinsic-attribution driven by such ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ as perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation (so-called principle that is not articulated as a universal construct but targeted, avowing its reality
as fake), etc., and so, including intellectual milieus as well. The implications for a truly ontologically effective social science can be construed as follows; say for instance an accused miscreant was to articulate a credibly demonstrable notion in physics or chemistry, the ‘promptness of ontological-primemovers-totalitative-framework\textsuperscript{73}/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ will easily allow for such veracity/ontological-pertinence to establish itself without undermining of the transcendental-enabling/sublimating/supererogatory–de-mentativity that is intrinsic-reality/ontology by any social-aggregation-enabler (perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity\textsuperscript{64}, implying an equivalence between\textsuperscript{104}universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation or so-called principle that is not articulated as a\textsuperscript{104}universal construct but targeted, avowing its reality as fake, etc.). The ‘blurriness’ and distance of ontological-primemovers-totalitative-framework\textsuperscript{73}/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ makes this altogether a more difficult proposition in the social sciences particularly with issues that are highly emotionally-involved/‘interested’/politically-driven wherein even in intellectual circles arguments of differentness/subtle-infamy-implications/status/significant-others-basis-of-logic/repute are often easily advanced in undermining inherent veracity/ontological-pertinence. One such notorious argument with regards to poststructuralists involved the notion that French poststructuralism was developed by peripheral intellectuals of French society but then failing to equally say that a lot of the good science and social science in many Western countries have generally had the same personalities attributes. Of course, such a narrative will not be countenanceable in the promptness of effectiveness driven natural science of ontological-
primemovers-totalitative-framework73, for instance, holding that Einstein’s theory-of-relativity is flawed with the non-substantive argument he was a peripheral intellectual to German or Swiss or American society. The bigger point here with respect to a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation, is that veracity/ontological-pertinence by mere articulation of sound ontological conceptualisations as transcendental-enabling/sublimating/supererogatory—de-mentativity-of-intrinsic-social-reality in the social contextualisation especially where blurry is often not sufficient purely by itself but that it needs to be creatively construed in facing off ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ with the transcendental-enabling/sublimating/supererogatory—de-mentativity-of-intrinsic-social-reality ontological-primemovers-totalitative-framework73. This weakness actually takes a turn for the worst when it comes to the phenomenon of psychopathy and social psychopathy as this phenomenon is actually the quintessence of active extrinsic-attribution ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ as driven by postlogism—construed-as-of-disontologising-perverted-outcome-sought-precedes-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness backtracking-<iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’> postlogism78 and corresponding conjugated-postlogism81 conjoining-looping-set-of-narratives of such postlogic-backtracking-<iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’>7, respectively in recursiveness (psychopathic), progressiveness (opportunistic and exacerbatory) and regressiveness (ignorance and affordability). So a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation will need to demonstrate veracity/ontological-pertinence of the conceptualisations highlighted in this paper not purely by themselves as transcendental-enabling/sublimating/supererogatory—de-mentativity-of-intrinsic-social-reality
but rather such conceptualisation in a supratransversality\textsuperscript{<in-sublimating–existential-eventuating/denouement>–of-motif-and-apriorising/axiomatising/referencing} should be over-and-face-off a subtransversality\textsuperscript{<in-desublimating–existential-eventuating/denouement>–of-motif-and-apriorising/axiomatising/referencing} of temporal undermining by ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ such as perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity\textsuperscript{64}, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation (so-called principle that is not articulated as a universal construct but targeted, avowing its reality as fake), etc., and this is the realistic developing social contextualisation within which psychopathy and social psychopathy manifests itself. Further the social-aggregation-enabler mechanism is what brings about social-chainism/social-discomfiture/negative-social-aggregation as well as the temporal-endemisation/temporal-enculturation of psychopathy and social psychopathy by eliciting of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity\textsuperscript{64}, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation, etc., to induce subontologisation/subpotentiation or existential-decontextualised-transposition. Ontologically, thus the construal/conceptualisation of the Social postconverging–de-mentating/structuring/paradigming is necessarily a construct that harkens to the intemporal-projection enabling the thoughtfulness as the imbued intemporal-preservation consciousness-awareness-teleology\textsuperscript{100} with corresponding meaningfulness-and-
teleology\textsuperscript{100} (so-reflected as to the cumulative/recomposuring-attendant-ontological-contiguity\textsuperscript{100}—succession of registry-worldviews/dimensions of the ontological-contiguity\textsuperscript{100}—of-the-human-institutionalisation-process\textsuperscript{100}) inducing the maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{100}—unenframed-conceptualisation: so-enabling the development and endemisation/enculturation, as from recurrent-utter-uninstitutionalisation (non-rules—apriorising/axiomatising/referencing–psychologism,—as-impulsive-or-accidented-or-random-mental-disposition), successively of base-institutionalisation (rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism) social-setup, \textsuperscript{101} universalisation (universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism) social-setup, positivism (positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism) social-setup and prospectively notional–deprocrypticism (preempting—disjointedness-as-of-reference-of-thought,—as-to\textsuperscript{111} amplituding/formative-epistemicity\textsuperscript{111}—growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism) social-setup. The implication being that the Social is much more than aggregativity (social-aggregation) wherein a mental-disposition of ‘overt aggregative social disposition’ that conceives that a social-setup reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are simply ‘perceptively-and-formulaically deterministic’ for ‘its purpose of temporal extricatory preconverging—dementating/structuring/paradigming relating with the reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100} (as perversion-and-derived-perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’) that undermines the imbuéd intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the social-setup ‘is not ontologically social’ (as aggregativity construals and mental-dispositions about social relations of extricatory temporal-dispositions are perfectly construable as of varying covert to overt ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’). Likewise a mental-disposition of ‘overt non-aggregative social disposition’ conceiving the social-setup ‘reference-of-thought—categorical-imperatives/axioms/registry-teleology’, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation ‘as of inherent essence and to be upheld and maximalisingly recomposured’ (as appropriateness-of-reference-of-thought-as-of-conflatedness) ‘is ontologically social’. The Social as such is an abstract construct not about the ‘equability in mutuality of the mortals that we are’ but rather the opportunity for transcendent construal of our potential for intemporality. Paradoxically and across all registry-worldviews/dimensions this has always imply sociologically that uninstitutionalised-threshold are in a transversality of-affirmative-and-unaffirmative—disambiguated–motif-and-apriorising/axiomatising/referencing of these two divergent mental-dispositions with respect to meaningfulness-and-teleology whether conceptualisation of the transcendental as defining prospective social ontology in a sense of intellectual solipsistic fulfilment driven by relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory—de-mentativity or conceptualisation in aggregativity/social-aggregation as of averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void ‘with-regards-to-prospective-apriorising-implications’ driven by social-aggregation-enabling, explaining the underlying confliction implied by any prospective institutionalisation as transcendental. This insight can be grasped.
from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective, when we garner that the ‘equability in mutuality of temporally-disposed minds as shortness-of-register-of-meaningfulness-and-teleology in a non-positivism/medievalism social-setup doesn’t supersede the ontological-veridicality of a social ontology insight providing anchoring for prospective positivistic institutionalisation construed reference-of-thought. Plausibly most likely the ‘developing consciousness-awareness-teleology mindset’ of such a ‘social ontology insight about prospective positivism’ (as maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) may lead to its very own circumspection with the registry-worldview’s/dimension’s meaningfulness-and-teleology and possibly non-aggregativity. Consider the instance of such characters as Galileo and Newton, at the crossroad of ‘what is to be considered as valued meaningfulness-and-teleology with respect to the prospective as the positivistic registry-worldview/dimension and the prior as the non-positivism/medievalism world, as consciously-or-unconsciously they register that the prior needs to be ‘decentered’ and the prospective ‘centered’, even though by reflex the prior will construe of itself as undecenterable center of meaningfulness-and-teleology. This may go a long way in explaining such biographic accounts about Isaac Newton as unsocial wherein a naïve conceptualisation of impression-driven/good-naturedness/wishfulness construal as virtue (in lieu of the-Good/understanding/notional-knowledge-reification–gesturing-in-prospective-psychologism-apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–conflatedness–in-{preconverging-disentailment–by}–postconverging-entailment>/ontological-primemovers-totalitative-framework in its <amplituding/formative–epistemicity>totalising–ratio-contiguity/ratio-cination-as-referentialism-phenomenal-abstractiveness-of-presencing-in–protensive-consciousness’-enabling-

exactly what can provide the opportunity for such transcendental possibilities (when we come
to grasp that the true profoundness of knowledge is more than just ‘mechanical as something

transcendental-enabling/sublimating/supererogatory-de-mentativity is not based on an ordinary notion of ‘intelligence as we’ll normally think of as simply technical’ but rather on such a sense of intemporal philosophical projection and more than just a ‘product’ for a materiality purpose but a driven sense of human emancipation). In fact, this equally points to a major flaw of the inherently implied value judgement in a lot of what passes for social sciences today explaining the vagueness, platitude and emptiness of little or no relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity implication as an amplituding/formative-epistemicity totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag circular exercise, wherein the unabated recourse to naïve feel good averaging of thought mental-dispositions are equated with ontological-veridicality uncritically, rather than construing that the animal that we are is in want of knowledge as a construct that enable it to supersede/transcend itself rather than a vain exercise of nombrilism, in which case one may argue that each registry-worldview/dimension wooden-language-imbued-averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void ’-with-regards-to-prospective-apriorising-implications ideas should be the basis for construing its social science! In fact, technically Newton might be the most inclined person for social engagement but then will he as of intemporal projection be inclined to ‘go along as social’ where he construed beyond-the-consciousness-awareness-teleology-in-preconverging-existential-extrication-as-of-existential-unthought ‘the medieval social’ as in want of its further development (this highlights a contrast between a stigmatic/mented psychology of the present, as of any ‘present registry-worldview/dimension’, with value references related to as absolute without or poorly factoring in that the animal that is the human is rather a becoming animal in constant psychological development of its limited-mentation-capacity with respect to social universal-transparency-(transparency-of-

In this respect, this makes many such so-called ‘social science approaches’ ‘poorly grounded on a social relative intrinsic-reality/ontological-veridicality-transcendental-enabling/sublimating/supererogatory-de-mentativity’ more or less sciences of methodological mimicry, as we know that much of the ‘true sciences’ (including the natural sciences and many a true social science are not grounded on an-construal but identify objective reality by its naturally constraining ontological-primemovers-totalitative-framework, as differing from sovereign constructs, as the determinant of pertinence (and such profound transcendental-enabling/sublimating/supererogatory-de-mentativity basis of knowledge are then bound to further redevelop sovereign constructs and conventions, with the sovereign constructs and conventions not becoming intrinsic-reality/ontological-veridicality in of themselves but rather as of social, institutional, cultural, moral or historical reality of the human condition); though much more easier for the natural sciences as hardly any or nobody feels impinged today with scientific discoveries and inventions given that their transcendental-enabling/sublimating/supererogatory-de-mentativity as of a positivism outlook psychologism of the world had taken place both in philosophical and
practical scientific terms with the Descartes, Hobbes’s, Kants, Copernicuses, Galileos, Newtons, of the past. Whereas a lot of modern-day social science is relatively pulled back in many an unsuspecting manner, by elicited emotional involvement and underlying constraints of their institutional setups. Such can equally be implied with regards to procrypticism from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism insight, wherein positivism–procrypticism is decentered and notional–deprocrypticism is centered, and so in comprehensive psychologism terms; with the idea that the possibly unsavoriness is not of this author’s or anyone’s chosen but rather that the test for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity set by intrinsic-reality/ontological-veridicality requires us coming to terms with it, no lesser than the test set by positivistic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity in the non-positivism/medievalism epoch intrinsic-reality required them to come to terms with this, however unpalatable to many then, and this underlying vitality across all epochs as of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity <-reifying-or-elucidating-of-prospective-relative-ontological-completeness -of-reference-of-thought- devolving-as-of-instantiative-context>, induced by prospective relative-ontological-completeness of reference-of-thought is what counts as true knowledge beyond the blurriness -in-reflecting-and/or-coming-to-terms-with-implied-transcendence that often tends to arise with all institutionalisations institutionalised-being-and-craft erudition! More fundamentally, as previously highlighted with the mediocrity principle of science as it applies to humankind as well (as the notion of metaphysics-of-absence–(implicated-epistemic-

‘institutionalisation as of uninstitutionalised-threshold ’ will explain why with regards to ‘all

within the scope of blurry institutional setups not construed for operant effectiveness. Strangely
enough we do actually tend to elicit such extended-informality-{susceptible-to-effecting-

inefficiencies and failures of all sorts whether with respect to mismanagement,
misappropriation, incompetence, etc. from a modern perspective of analysis. Further, the fact is such extended-informality-\{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology\} effect can be more than just about the operant effect but equally protracted as ‘designed-formalisation-ineffectiveness’ in ensuring the ascendency of extended-informality-\{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology\} ‘meaningfulness-and-teleology\}'-as-of-a-relatively-poor-institutionalising-inclination over formal constructs. As in the case previously highlighted where a psychopath spoke to an interlocutor that it is a bad thing for a said individual to be molesting children, with its logic being sound from an abstract/virtuality appreciation but with the existential-reality of its ‘apriorising–registry-elements (out of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity --<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought–devolving-as-of-instantiative-context> )’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{100} being utterly unfounded as a first-order faulty-mentation-procedure-deception-or-urge\textsuperscript{7} potentially enabling an infinite possibility of second-order level deception if re-engaged as of \textsuperscript{54} logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. Where the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/disontologising-perverted-

For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing\textsuperscript{15} postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation ‐or-prelogism\textsuperscript{17}-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a supplanting–conviction-as-to-profound-supererogation\textsuperscript{12}—of–‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism mind). Even if this latter narrative is proven to be false (as it is another ‘perversion-of’ reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge\textsuperscript{42} not being the logic itself, but in wrongly implying as existentially real the ‘apriorising– reference-of-thought-elements/apriorising–registry-elements (out of attendant-ontological-contiguity\textsuperscript{42} -educed–existentialising/contextualising/textualising-contiguity \textsuperscript{39}<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context>)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{100} such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order

become the defining ideas of modernity’. Thus the apparent issues today raised with post-
structuralism have as much to do with the psychical orientation (as underdeveloped) of its
critiques as well as the requisite effort required to further develop, elucidate and focus it; and in
this regard why there have been many serious and constructive criticisms of post-structuralism
as required for any subject-matter, most of the ‘popular criticisms’ levied against post-
structuralism fail to past the test of intellectual criticism and have mostly been populist and
media-driven attacks, gaining traction by social trending than genuine intellectual validity. The
most popular being an initiative on an unrecognised social science journal which by that mere
token disqualifies the so-called criticism but has turned out to be the most populist ploy by all
accounts for condemning post-structuralism. Furthermore and critically, the intellectual
exercise as with all institutional processes operate fundamentally on a basis of mutual trust.
However the methodologies, theories and concepts, what can be articulated as new knowledge is not necessarily assessed on the basis that any peer review mechanism is absolutely full-proof particularly as the new knowledge is often at the margin of what is understood, and thus much of peer reviewing is not really an approval of the knowledge but rather an admission into the body of institutionally or formally acknowledgeable perspectives for further elucidation. Even then many a study not approved with peer reviewed journals have later on down the years ended up becoming dominant theory. So there isn’t any inherent sanctity in peer reviewing but for its practicality in formal knowledge organisation (and not even so with approval). Technically the majority of all new knowledge down the years will be found wanting in many ways, and the objective of the overall peer review process is to channel potentially admissible and debatable knowledge towards further elucidation in the overall scheme of establishing overall human knowledge as of veracity/ontological-pertinence. Review of new knowledge doesn’t end with a journal’s peer review though that point tends to be a ‘highly political point nowadays’ as of the increasing bean-counting institutional reflex of funding implications and sometimes at the detriment of novel approaches to knowledge. The abstract notion of reviewing goes well beyond journals approval and extends with the continual critiquing of knowledge whether dominant or outlying. Ultimately, the more fundamental test in such a negotiated process is a strive for consistency and validatory clues with no guarantees of effectiveness but for the overall consistency, as of the very cutting edge of peer reviewed knowledge. Just for the sake of perspective here, it might equally be argued that peer-reviewing and by extension all epistemological and their corresponding methodological activities are not natural knowledge activities as of inherent pure-ontology in of itself but derived activities as of human norms, practices and policies for establishing thresholds that then enable articulated qualifications as of pure-ontology; in other words, any such epistemological and methodological activity is irrelevant if pure-ontology can be arrived at without it. Consider for instance that
mathematicians hardly make use of experimental designs or that many secret research by
corporations and government aren’t peer reviewed, at least not publicly. Besides at a more

By extension the question can be asked whether beyond our institutionalised positivism conceptualisation of meaningfulness-and-teleology, whether such is truly in a requisite contemplative-and-Being position as of the prospective transcendentally-enabling-level-of-ontological-good-faith-or-authenticity/objectification/desubjectification-as-objectification-as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism of ‘evaluating a construct of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’ as herein implied about futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology which paradoxically de-mentatively/structurally/paradigmatically entails overthrowing/fazing-out/collapsing the positivism—procrypticism meaningfulness-and-teleology at its uninstitutionalised-threshold as a decentering subsumption; when we factor that such a contemplation-and-Being as from a positivism—procrypticism meaningfulness-and-teleology is being called upon to evaluate as to ‘a world beyond its ordinary contemplation’ with the mental tools for such a prospective projection mostly of abstract projective contemplation for grasping the prospective organic-knowledge implied, and so beyond an ordinary evaluation within an implied same reference-of-thought. This further explains ‘the socially conflicted nature of all implied transcendental constructs’ whether with prophesying metaphysico-theological constructs of early times reflected in non-universal and universal creeds up to our metaphysico-ontological worldviews implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and so as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor; but then humankind has always been called upon to show itself capable of superseding/surpassément for prospective possibilities to avail. A second weakness of many critiques is by naively misrepresenting post-structural meaningfulness, and going on to criticise this. For instance, such arguments about post-structuralism as a theory that has no worldview are not made by poststructuralists who in their transcendentally-enabling-level-of-ontological-good-faith-or-authenticity\textsuperscript{73}/objectification/desubjectification-as-objectification<-as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism\textsuperscript{101} have been rather questioning openly what the reality of the meaningfulness they construct implies, as a basis for further intellectual development. This explains the convoluted responses of say Derrida because that is the intrinsic-reality insight at hand, and the issue is rather how to further develop. This will be tantamount to criticising early quantum physics for contending that the fundamental particles are rather like waves and evasive without yet establishing an advanced basis of the science. Knowledge is not an exercise of one set of individuals arguing against another nor is it a popularity contest but rather it is all about finding out what constitutes intrinsic-reality as it permits ontological-primemovers-totalitative-framework\textsuperscript{1}; intrinsic-reality
being the superseding transcendental enabler, and not any humans no matter their statuses. A third weakness has been by relating to poststructuralists as if they have got to get all their ideas right on by the instant, as if the theoretical framework isn’t in development like all theoretical frameworks (by the same token imagine all the unanswered questions that underlie quantum physics for over half a century that are still being elucidated, for instance, string theory which is so highly speculative but is still credibly a basis for research and analysis). The purpose of a theoretical framework is not to provide an immediate answer for everything but rather to provide a framework for constant critical development of ideas. Otherwise, it will be best to develop a correlational construct that may statistically be coherent with many arguments at any given point in time but is of little predicative or projective value because it hasn’t got a profundity as a genuine theoretical construct which may actually be mostly incoherent with many arguments at its earlier stage but provides a wealthy framework for the continuous articulation of ideas and resolutions, and this is actually the point of a theory in the very first place. It is thus no accident that many other disciplines have found post-structuralism as a relatively ideal tool for invoking much needed insight. A fourth criticism has to do with the ‘political nature’ of human affairs obviously, and even the intellectual is not beyond this especially with ideas of ‘socially-perceived disturbing implications’ (as has been the case throughout human history) and further so in a social domain that is not immediately amenable to predicative-effectivity–sublimation–(as-to-underlying,-ontological-commitment–implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality>) as with the natural domain even though the latter equally faces similar issues but to a lesser extent. When we come to reflect that the leading poststructuralist of his time had an entire school, rather than focusing on developing research criticisms of his work and other poststructuralists (which would have been the more impressive thing to do) instead taking a ‘political stance’ for the denial of his
recognition with an institution of higher learning. Thus it is obviously, naïve for anyone to think that intellectualism and ideas occur in an absolute neutral environment particularly when of socially-perceived disturbing implications. While it is generally recognised that knowledge is determined on its own merits as an interest-free principle, the fact is in the real world of ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations, human mental-disposition is not that intemporal and principled, whether wittingly or unwittingly, and extra-intellectual meaningfulness becomes fair game. Fifthly, the argument of unintelligibility of post-structural meaning is outright ridiculous with respect to the exegetical aims of its authors, and no less so as expecting advanced chemistry, biology and physics writing to be popularly intelligible. Jargon is rather a mechanism of deferential-formalisation-transference permeating all subject-matters and disciplines, which speaks to the idea that the ‘ordinariness of thought’ is not the sound basis for construing issues raised in terms–as-of-axiomatic-construct of profoundness of contemplation. The ontological-contiguity—of-the-human-institutionalisation-process by its deferential-formalisation-transference is an exercise of shrinking the melee of common sense wherein spheres previously opened for common opinionatedness are shoved away as ‘deferred to’ specialisms whether institutional or subject-matters by the mere effectiveness, with ‘informed common and individual opinions’ being the panache for the expression of sovereignty whether about the polity or individual choices, but not to be confused as a sign of inherent knowledge as of popularity. The idea that there is a common sense social science is a falsehood no more than there is no common sense natural science, and intellectuals are irresponsible when peddling the notion that readers shouldn’t acquire the requisite ‘intellectual elevation’ to grasp the profundity of meaningfulness and rather expect that they should be able to satisfactorily engage at the same intellectual level (reference-of-thought) involving advanced studies and research on the basis of ordinariness of thought. This should not be confused with a popularising exercise meant to stir popular interest
like popular science, though in fact there is no truly popular science for that matter but serious/candid science. Such a confusion can hardly arise in the natural sciences because of the ‘promptness of ontological-primemovers-totalitative-framework’/intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory-de-mentativity’ in constraining veracity/ontological-pertinence of thought by the immediate effectiveness of studies, discoveries and inventions wherein a flaw thought proposition will be proven wrong by its ontological ineffectiveness with relatively little concern for third-party convincing over the transcendental-enabling/sublimating/supererogatory-de-mentativity that is existence/intrinsic-reality/ontological-veridicality, whereas the ‘blurriness’ and distance of ontological-primemovers-totalitative-framework’/intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory-de-mentativity’ in the social sciences allows for propositions to crop up that are hardly constrained by immediate effectiveness of studies, discoveries and inventions, such that such propositions will often border on popular thinking or the political (technically) or a concern priorly driven with garnering support and agreement, rather than of genuine intellectual strife for ontological-primemovers-totalitative-framework’/intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory-de-mentativity. In this regard, the central tenet of poststructuralists with respect to their pursuit has been transcendentally-enabling-level-of-ontological-good-faith-or-authenticity’/objectification/desubjectification-as-objectification-as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism’ with respect to their reflections, studies and research at all cost, even at the cost of many poststructuralists not recognising explicitly that they are poststructuralists or not recognising similarities in their works with other poststructuralists, so because fundamentally they can only vouch for their authentic reflections and analyses without a ‘surreptitious
pretence’ for such amalgamation which will undermine their ontological-good-faith/authenticity with regards to conceptualising intrinsic-reality/ontological-veridicality, with the idea that the notion of a commonness of their ideas and as a movement will take care of itself if they are truly articulating an intrinsic-reality/ontological-veridicality that reflects that commonness; more like the Indian story of blind men who came across an elephant and each one sincerely/authentically said what their capacity enabled them to say, no more no less, with the idea that if what they say is of-the-reality of an elephant, that notion will take care of itself but their first posture is to say authentically what is in front of them. This speaks of the essential nature of all sciences wherein the researcher considers the most determinant element to be not itself or other humans (who are together mortals; mortal because they/humans don’t really invent any rules of existence-or-intrinsic-reality-or-ontological-veridicality but rather at best discover them or utilise them as ‘supposed inventions’ –and the scientist is all about a validation by intrinsic-reality/ontological-veridicality-as-the-transcendental-enabling/sublimating/supererogatory-de-mentativity in contrast to a mental-disposition of social-aggregation-enabler where the emphasis is naively about convincing the other mortal or mortals over a validation by intrinsic-reality/ontological-veridicality transcendental enabler thus leading to subontologisation/subpotentiation in-a-social-dynamism-of-meaningfulness-misappropriation, rather than the supersedingness/precedingness of intrinsic-reality/ontological-veridicality transcendental enabler) but the superseding transcendental-enabling/sublimating/supererogatory-de-mentativity which is intrinsic-reality/existential-reality/ontological-veridicality as reflected by effectiveness of ontological-primemovers-totalitative-framework and projection; with the latter wholly the focus of intellectual contention. The medical researcher involved in seeking a cure by reflex is concerned about what the transcendental-enabling/sublimating/supererogatory-de-mentativity that is intrinsic-reality/ontological-veridicality/existence ‘naturally and best construed/conceptualised’ in the
crafted jargon of biomedical sciences will make available as cure as the ‘superior party’ over whatever they themselves or for that matter any other humans no matter their statuses may ‘sovereignly’ want to think or imagine. This same notion applies in the construct of knowledge in the social sciences, the pursuit of the social scientist as the study of social reality is ‘not about convincing people or making sense to people’ (that can be accessory) but rather about grasping/conceptualising the intrinsic-reality/ontological-veridicality of the social as the transcendental-enabling/sublimating/supererogatory–de-mentativity whatever the jargon required for that purpose; the social education/enlightening exercise that arise thereafter just as a popular science exercise is an altogether different exercise of education and not first-level scientific engagement, and even then such education exercise will still call for a degree of intellectual elevation of the general public. It is critical that in the natural competition of intellectual ideas, intellectuals do not fall in the pattern of using debased or social feel good basis of non-intellectual logic in eliciting ‘mass thinking’ in order to advance their postures but rather fairly and squarely engage at the transcendental-enabling/sublimating/supererogatory–de-mentativity of intrinsic-reality/ontological-veridicality level in proving or disproving those they agree or disagree with as of ontological-primemovers-totalitative-framework\(^1\) ontological implications of existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal-,eliciting-of-prospective-supererogation\(\langle\text{as-to-perspective--ontological-normalcy/postconvergence-implied--prospective-aporeticism-overcoming/unovercoming}\rangle\) Sixth, thus the idea of deferential-formalisation-transference behind formal predicates of institutions and subject-matter specialisms is all about construing meaningfulness in a depth-of-thought (intemporality\(^2\)) that is not available to ordinariness of thought, wherein there is a disambiguating of the supratransversality\(\langle\text{in-sublimating–existential-eventuating/denouement}–\text{of-motif-and-apriorising/axiomatising/referencing}\) as a construct of formalised \(\langle\text{reference-of-thought that is...}\)
apriorising/axiomatising/referencing as the melee of common sense inducing the latter’s ‘deference’, for instance, such deference as such postures as the law says that…, physicists say that…, etc. and not a common sense posture of the sort I think that…, thus relegating the melee
of common sense out of the construal and conceptualisation of institutional or domain specialisms which hitherto had been free-for-all opinionatedness. Such an exercise is not just retrospective but prospective as well in the expansion of human formalised constructs and including in this case the relatively profound insights of such social science as post-structuralism which sadly get undermined paradoxically by some critiques not by a same-level supratransversality,<in-sublimating–existential-eventuating/denouement>–of-motif-and-apriorising/axiomatising/referencing intellectual criticism but raising subtransversality,<in-desublimating–existential-eventuating/denouement>–of-motif-and-apriorising/axiomatising/referencing narrative to wrongly imply that post-structuralism should be as intelligible as common sense thinking, which is paradoxically never the case with say the jargon of law, natural sciences, etc. exactly for the reason highlighted above. The fact is the melee of common sense as subtransversality,<in-desublimating–existential-eventuating/denouement>–of-motif-and-apriorising/axiomatising/referencing hasn’t got the requisite intemporality /longness in terms–as-of-axiomatic-construct of universal projection of reference-of-thought and the logical-dueness/profile/presumption/assumptions/value-reference/teleology that arises from such a formal reference-of-thought (for instance, as the universal/intemporal proposition underlying this paper’s purported construct for aetiologisation/ontological-escalation in grasping the phenomenon of postlogism in general and the general background human science conceptualisation; together with its exposure for falsifiability /validation from subsequent critical analyses). Such that there will tend to be ‘confusion of reference-of-thought’ where such subtransversality,<in-desublimating–existential-eventuating/denouement>–of-motif-and-apriorising/axiomatising/referencing melee of common sense was apparently to act assumingly/presumptuously rather than ‘to defer’, or otherwise the instance where individuals assume the requisite intellectual elevation (whether by corresponding education and reflection) for a first-level engagement with such specialisms. As
our melee of common sense defers when it comes to the natural sciences, it defers when it
comes to the legal science, it shouldn’t expect otherwise but to defer when it comes to rigorous
post-structural and other social science constructions however their approximations, and so as
the best construction potential of human meaningfulness and teleological possibilities. On that
same token the notion of validation of supratransversality-<in-sublimating–existential-
eventuating/denouement>-of-motif-and-apriorising/axiomatising/referencing with respect to
subtransversality-<in-desublimating–existential-eventuating/denouement>-of-motif-and-
apriorising/axiomatising/referencing is not one of contending/argumentative validation at a
same contending pedestal but rather as a validation of the supratransversality-<in-sublimating–
eventuating/denouement>-of-motif-and-apriorising/axiomatising/referencing
reference-of-thought as intellectually-and-morally institutionalising and not implying its
sense reference-of-thought, wherein for instance a consistent demonstration of a chemistry
science (as supratransversality-<in-sublimating–existential-eventuating/denouement>-of-motif-
and-apriorising/axiomatising/referencing) effectiveness earns chemistry science the deferential-
formalisation-transference of no longer being engaged at a same contending pedestal as the
melee of common sense with respect to human social contention about material constitution in
order to avoid the circular drawback of constantly making arguments in
<amplitude/formative> wooden-language-{imbued—averaging-of-thought-<as-to-
leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-

as-of-axiomatic-construct, such that social deference is now institutionalised as ‘chemists say
that/it is said in chemistry that’ rather than a social melee of common sense equivalence of
‘chemists think that but I also think that going by my common sense’. This argumentation is not
idle as the social sciences as ‘being closest to human conscious sense of sovereignty’ tend to be
most affected by such fallacies as highlighted that should be superseded by all knowledge
whether natural or social-construct, and while such notion are often intuitively grasped with
other formalisms whether institutional, legal or in the natural sciences subject-matter
specialisms, for the social sciences there is a need to actively bring this notion to the
consciousness-awareness-teleology in order to circumvent such nature of knowledge fallacies
with regards to an emotionally charged domain that is the social. This equally explain why the
studies of the social are easiest prone to ontological-bad-faith/inauthenticity, whether beyond-
the-consciousness-awareness-teleology, as even where contending intellectual postures are of relative elevated
formal knowledge, it is quite easy for a pedantising/muddling/formulaic-hollowing-out—in-
subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-

mentality in order to advance one intellectual posture, and so as intellectual politics rather than
genuine intellectualism. Seventh, as advanced by this author the ontological-
normalcy/postconvergence of intrinsic-reality as reflecting holographically—<conjugatively-and-

ontologically-same-existential-reality') to post-structural thought as its scholars had rather
previously mostly focussed on disambiguating/clarifying the certitude/lack-of-certitude of
human meaningfulness and thought. Even then the practical application and conceptualisation
of post-structural meaningfulness has always been one that has tended to restore a sense of re-
equilibrium with respect to perceived vested interest and skewed power relations whether with
regards to its articulation in feminist studies, postcolonial studies, power relations in social
settings with regards to appropriate deliverance and more responsive public services, etc. as
post-structuralism has often been a framework giving weaker and subjected meaningful frames
public voice. Thus the so-called ‘human-subject-emancipatory-relativism-driven-
recomposuring-constructivism-towards-singularisation—as-to-the-
nondisjointedness/entailment-of-prospective- nonpresencing> of post-structuralism’ has been
in real and practical world terms more a question of abstract reconstructive thinking since such
practical applications have tended to be effective further highlighting the need rather for more
decentering contemplations. Besides, post-structuralism practical emphasis has mostly been
methodical rather than dogmatic. In the bigger scheme of things, this author further highlights
that post-structuralism by implying ‘decentering’ is implying transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity or an ‘existential-reference/existential-
tautologisation pivoting/decentering’ such that ‘the center’ as the new basis of
analysis/knowledge-construct has moved to the prospective/transcendental/superseding
reference-of-thought putting into question the now-and-present way of thinking as
prior/transcended/superseded reference-of-thought. What has been misconstrued is exactly the
idea of ‘existential-conversion’ that is actually central to all subject-matters wherein the abstract
articulation of principles is of existential-tautologisation/existential-reference neutrally. For
instance, physics principles can be used for either aggressive and warring applications or peaceful and life-enhancing applications, and to say that physics principles are wrong because these can be construed as applicable for non-peaceful purposes is to misunderstand the fundamental nature of theoretic knowledge as fundamentally construing the possibility of existential-reality. Hence human application of knowledge as ‘human existential-conversion’ implies human self-preservation disposition in redefining ‘meaningfulness-and-teleology’ from existential-tautologisation/existential-reference as of human subpotent existential-teleology within the full potency of existence-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression. In other words, abstract post-structural construct as any other theoretical constructs have no commitments to upholding any value-disposition and teleology but rather construe the ontological possibility conflated as of existential reality. The idea of discretely eliciting value-disposition and teleology choices/options is a secondary exercise of human social application (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism in existence as ontological, so-reflecting <amplituding/formative>diposedness/psychologismic-construct-{as-to-orientation/value-construct/valuation–and–derived-parameterising} and <amplituding/formative>entailment-{as-to-totalising-contiguous/coherent–factuality-of-variability}’, and so with regards to the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility {(imbued-and-‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation}), and specifically with regards to the practical application of post-structural thought as a re-equilibrium exercise derived from the ‘theoretic reshuffling-of-the-cards/putting-into-question’. Thus post-structuralism being so
construed as ontologically-driven (having a center as of ontological-normalcy/postconvergence grasable by ‘the dynamics of metaphysics-of-absence-{implicated-epistemic-veracity-of:

as ideas and notions are validated/invalidated by their demonstrated ontological-
veracity/ontological-pertinence. In order words the supposed ontological-terms of notions and
ideas are the basis for their analysis as ontologically-pertinent or impertinent, and so more than
just perfunctory analyses constrained by the limiting framework of institutionalised-being-and-
craft constructs and setups but at an existentialism/full-depth-of-existential-implications level
highlighting the precedingness/supersedingness/ascendency of ontologically-driven analysis
over ‘habits’, ‘conventions’ and rights-of-precedence/entitlement fallacies. Post-structuralism
as such should posit to remedy and supersede the inherent ‘conceptual hyperbole’ imbued in the
often ‘poorly-ontological, non-ontological or metaphysical constructions permeating
ideologies’ and projected as worldviews, to ‘restore existential veracity/ontological-pertinence
as the central notion behind worldview construction and representation’, and so beyond just

‘present-driven conceptualisations’ of ideologies, but of an insight derived from a historical and anthropological depth with respect to human mentation, meaningfulness and institutional-development–as-to-social-function-development as implied by a suprastructuralism highlighting of metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩) or postdication. Such a grounding of post-structuralism provides the underlying ontological outlet of analysis with regards to issues and conundrums of veracity/ontological-pertinence faced by earlier poststructuralists like Sartre (not often recognised as a poststructuralist but whose work interpretively does fit the mould, just as the works of many ‘seriously engaged’ critiques of post-structuralism like Gadamer and Habermas have been highly beneficial to post-structuralism), Foucault and Derrida when it came to draw out veracity/ontological-pertinence from such hyperbolic traditional ideologies including Marxism as constructs highly laden with metaphysics/non-ontology, on the one hand, while addressing, on the other hand, the imbued liberal and neoliberal dogmas of their times wrongly upholding that its ‘dogmatic practices and conventions’ are beyond ontological-reconstituting–as-to-conflatedness/deconstruction, and pertinently so by highlighting their underlying ontological failures with recurrent just about decadal institutional crises and social malaises, speaking of the ontological-wobbliness of a liberal thought that has become highly contradictory as marked by its very own perpetual second-guessing. Eighthly, it is this author’s ‘suprastructural contention’ that human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional~firstnaturedness—temporal-to-intemporal-dispositions–⟨so-construed-as-from-perspective–ontological-normalcy/postconvergence⟩’–existentialism-form-factor and a social world is inherently hampered by a blurriness and distance of ontological-primemovers-totalitative-framework /intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’. Thus approaching a scientific study of
the Social on the same operational basis as that of the natural world is necessarily deficient as
the latter’s immediacy of concurrent ontological-primemovers-totalitative-framework /intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as well as the fundamental pivoting/decentering of understanding involving the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that took place starting over 500 years ago in establishing the positivising/rational-empirical mindset/ reference-of-thought by the Galileos, Newtons, Leibnizes, Darwins, etc. of the world, such that an Einstein could perfectly articulate the idea of the-theory-of-relativity that would normally make no sense even to the majority of the scientific community at the time but for the ‘very strength’ of the established positivistic/rational-empiricism psyche (operating on the basis that what predicates on rational-empirical basis takes precedence) already established which ensured its transcendental enabling. The positivistic/rational-empirical psyche today, it is herein contended, is not ‘ontologically performant’ enough (of sufficient ontological-completeness-of-reference-of-thought in construing-ontological-veridicality as determined-by its attendant ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity <-reifying-or-elucidating-of-prospective-relative-ontological-completeness -of-reference-of-thought-devolving-as-of-instantiative-context> for the further development today of the study of the Social as of its fleeting/blurred nature (on such terms of ‘what predicates should take precedence’). It must be said that the notion of transcendental enabler with regards to the Social today is rather of relative ontological weakness such that critically a lot of the basis for the social sciences today is influenced rather by practice, authority, and is more or less intellectual-politics driven beyond-the-consciousness-awareness-teleology -in-preconverging-existential-extrication-as-of-existential-unthought>, rather than truly ontological-primemovers totalitative-framework deterministic ontological ‘projected constructs’. Consequently despite
the projected candour, the study of the social is inevitably permeated with ‘intellectual-ontological-bad-faith/inauthenticity’ (unconsciously or consciously), and by this is meant it will be naïve to think that all issues of intellectual disagreements with respect to the study of the social are necessarily in purely logical terms without factoring the possibility of ‘intellectual perfidy’. What the blatant constraining of the natural world can do to thinking by mere ontological-primemovers totalitative-framework under the rational-empiricism postconverging–de-mentating/structuring/paradigming is often weakly possible with the Social particularly where there is perceived interest to act otherwise. This is particularly the case with regards to the undermining of social criticism and especially post-structuralism with the intellectual standards of such criticisms strangely enough falling incredibly so low (and mostly finding credibility by ‘pride of place’ of intellectual engagement often beyond-the-consciousness-awareness-teleology\textsuperscript{100}-\textless in-preconverging-existential-extrication-as-of-existing-unthought\textgreater\textsuperscript{6} abused as objective bases of intellectual criticism get discarded easily for highly subjective ones); and this author equally holds that a ‘fully emancipated social science’ will only prevail with the requisite pivoting/decentering of understanding as \textsuperscript{1} deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, which should enable the attainment of a suprastructural/beyond-the-consciousness-awareness-teleology\textsuperscript{100}-\textless in-preconverging-existential-extrication-as-of-existing-unthought\textgreater\textsuperscript{6} level of social thought involving notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought. More like in many ways the level of thought in the natural sciences is wholly divorced from our consciousness awareness teleology\textsuperscript{100} and is fully transcendental-enabling/sublimating/supererogatory–de-mentativity by confirmatory existence/intrinsic-reality/ontological-veridicality with little or no social-aggregation-enabling but say for human organisational issues and wrong preconceptions induced by social-aggregation-enabling. This
arises because it is inevitable to have conscious or unconscious ontological-bad-faith/inauthenticity just going by human temporal-to-intemporal nature without an inherently strong transcendental-enabling/sublimating/supererogatory-de-mentativity. While in the natural and mathematical sciences the subject-matter by itself is highly transcendental-enabling/sublimating/supererogatory-de-mentativity this is not the case with the subject-matter of the social due to its high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction requiring rather a further strengthening of ontologising rules as of knowledge-notionalisation and utter-ontologising-recomposuring (notional~deprocrypticism as preempting-procrypticism or preempting—disjointedness-as-of-reference-of-thought) beyond the present just positivistic/rational-empiricism striving social science bringing together profound insight with causal effectiveness. This doesn’t necessarily imply a naïve mimicry of the experimental approach as is often the case it can be argued as prevalent in the psychological sciences, and even in the natural sciences there is need for thorough insight when experimenting like say much of quantum physics is often based on elaborate abstractness of thought that is merely validated by critical confirmatory experiments. In fact, this author will contend that the overall ‘insightful empirical’ conceptualisation of this paper is actually more profound than catches the eye in a naïve empirical sense that cannot see beyond our positivistic registry-worldview to recognise human successive transcendental states like recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism and deprocrypticism; as even empirical conceptualisations requires insight and it is more than just a matter of obtaining results because an experiment has been made which is certainly simplistic as the very existential state of things when disambiguated is actually a more profound notion of experiment. It is interesting to note that this argument on the specific basis of (conscious or
unconscious) ontological-bad-faith/inauthenticity for the requisite condition of a ‘fully emancipated social science’ is more than just of circumstantial and idle implication but is rather construed as a de-mentative/structural/paradigmatic notion much like saying it is impossible to have a fully emancipated science in a transitory non-positivism/medievalism to positivistic social-setup still emphasising essences and supranatural causations over a transcendental-enabling/sublimating/supererogatory de-mentativity of rational-empiricism/positivising based knowledge of intrinsic-reality, as transcendental-enabling/sublimating/supererogatory de-mentativity positivistic contentions will still be undermined with such a discrepancy of notional-discontiguity/epistemic-discontiguity -<shallow-supererogation -of-mentally- aestheticised–preconverging/dementing –qualia-schema> in the apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument of reference-of-thought/axiomatic-construct. Likewise, the positivism–procrypticism meaningful-frame is not sufficiently beyond-the-consciousness-awareness-teleology <in-preconverging–existential-extrication-as-of-existential-unthought> of social-aggregation-enabling with respect to its social reality subject-matter as of its spurious/remote nature, for a more profound transcendental-enabling/sublimating/supererogatory de-mentativity (unlike the relative case with the physical reality subject-matter as immediate) as required for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness and-teleology as of prospective notional–deprocrypticism intrinsic-reality/ontological-veridical transcendental enabling. Thus, the only credible logic this author can think of is that post-structuralism as one of the major critical theories given its potential ontological vigour has been seen as a threat with a deliberate covert non-intellectual effort to stifle it and limit its influence often having to do with misrepresenting the ideas and implications of the ideas of its main proponents (as in fact, one of the central issue with regards to post-structural thinking with respect to other intellectual postures has had to do with the
unusually high level of accusations of its proponents of misrepresentation of their ideas by many of their critiques whether with respect to such accusations of nihilism or untruth, with a central characteristics of many of such critiques being a failure of recognising exactly the central point of post-structural thinking as rather ‘a putting-into-question/shuffling-of-the-cards for a more profound perspective for ontological analysis’. Consider in this case one media-driven and popularised argument that Karl Rove ‘we make our own reality’ quote during the Bush mandate, is due to post-structuralism. Such arguments are revealing of the ‘non-intellectual spirit’ of many such critics, and in this instance wrongly intimating that Karl Rove considered himself a poststructuralist whereas a sincere take will garner that this is nothing other than a Machiavellian, opportunistic and unprincipled statement than ‘truly post-structural theory inspired’ as with or without post-structuralism it is no less likely that the same statement would have been uttered. And the pseudointellectual exercise of linking the two is revealing not only of such out-of-the-way criticism but equally the ‘wayward mindset’ that is often brought into supposedly rigorous social science on the basis of such anything-goes rhyming-logic! Post-structuralism generally occupy a relatively sound position when it comes to all the practical applications of post-structural thought which, to say the least, have always highlighted a sense of re-equilibrium rather than the bogus and insincere criticisms of nihilism or untruth which this author construes as ‘in-effect ontological-bad-faith/inauthenticity’ of ‘parodying’ of poststructuralists positions and analysing the ‘parody’ in usurpation as against a genuinely candid critical intellectualism of their true postures in ontological-good-faith/authenticity.

Post-structural exposition of the realities of the social are not value judgements in themselves just as natural sciences exposition of natural and physical reality doesn’t carry any value judgements. For instance, discovering that bacteria cause disease is a simple objective truth then giving rise to human animate-existential-referencing/subjectification inducing the teleological meaningfulness to pivot/decenter that knowledge into avoiding disease and finding
cure for diseases. This is no more different with post-structural thought which is not a metaphysical/ideological advocacy but telling the social reality for what it is, with human pivoting/decentering to apply that knowledge for its defined teleological meaningfulness. One of the serious consequence of such a weakened social criticism driven by such a targeted and induced atmosphere of quasi-anti-intellectualism is the result that the domain of the political economy and corresponding economic interests have been spared from the critical analysis of such powerful ontological tools; specifically going by the issues of misallocation and inequality we face today based on axioms of models that remain critically beyond analysis, as effectively an anti-intellectualism with respect to social criticism including post-structuralism is cultivated in favour of a default socially uncritical political economy practice (with the cover-up of an ‘intellectually platitudinal’ media) to protect them. Notwithstanding the impressive theoretical conceptualisations of an ever second-guessing economics science, the ‘underlying liberal political economy axiomatic constructs’ on which it rests are massively arbitrary, flawed and degenerate; and this is one area in which developed social criticism including post-structuralism could do an excellent job in debunking the ‘underlying mysticism’, as the domain of the political economy beyond competition of ideas at such a fundamental level is the very foundation of the uncritical preservation of such axioms. Such issues as political choices for bailouts, reallocations and remuneration practices are strictly speaking not economic science issues but political economy issues that require a criticism with respect to social choice about the political economy, but this has been usurped uncritically as if of a natural economic allocation mechanism (a falsehood). This author makes this latter point on the belief that knowledge is an existential exercise and that the intellectual should sincerely put their ‘hand in fire’ at the risk of being proven wrong, as the intellectual exercise is not one of self-veneration but discovering the truth (even at the risk of sounding/looking ridiculous). If there is one area of speculative thinking allowed to this author in this paper, it is such a proposition together with
the idea that it is incredible to think that a lot of the criticisms directed to post-structuralism since the 1980s arises out of such (it is herein contended) ‘intellectual triteness’ by such critics particularly going by the ‘frivolous arguments’ advanced compared to the high intellectual standards they have been able to show elsewhere, together with the notion that these have tended to be unusually media driven in inducing a populist effect. Imagination will point to the idea that something much more ‘cynical and non-intellectual’ must be at work but passing for legitimate intellectualism; or is it, more like the medieval scholasticism erudition establishment more or less grasping the true implications of a non-medieval positivistic thinking on the whole intellectual, belief system and social-construct, and cynically upholding notions they knew better to be wrong but for their overall sense of preservation of their present and their present interests. This impression can be extended as well with respect to the idea of the social implications of postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining—(‘decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising’–of-the–‘attendant–intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant–ontological-contiguity>;–in-shallow-supererogation–<as-to-disontologising-perverted–outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness>) as of its ontological-resolution (aetiologisation/ontological-escalation) in all the <cumulating/recomposuring–attendant–ontological-contiguity>–successive registry-worldviews/dimensions given human-subpotency–aporia/undecidability/dilemma/ought–indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor. As we can grasp that an aetiologisation/ontological-escalation as resolution for non-positivism/medievalism world
postlogism, which is more than just palliative/incidental-in-its implication with regards to a specific instance or specific instances of notions and-accusations of-sorcery for instance, but rather construing the whole non-positivism/medievalism registry-worldview/dimension relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-<psychologism> (as of metaphorically-a-million-and-one-instances and-locales as enabling the possibility of the phenomenon of notions and-accusations of-sorcery and other vices and-impediments of the state of non-positivism/medievalism and thus requiring de-mentatively/structurally/paradigmatically and comprehensively a positivistic ontological-completeness of-reference-of-thought will de-mentatively/structurally/paradigmatically elicit a non-positivism/medievalism world sense of ‘temporal/shortness of-register-of–meaningfulness and-teleology preservation’ that wouldn’t necessarily construe the social manifestations of notions and-accusations of-sorcery with their associated vices and-impediments as abstractly and ontologically unwarranted universally (which we know was actually the case, with the ‘establishment’ idea being that the masses didn’t need to know about such ‘positivistic stuff’ even if such stuff was ontologically-veridical), to ensure its ‘temporal/shortness of-register-of–meaningfulness and-teleology preservation’. Likewise an articulation as of aetiologisation/ontological-escalation (ontological-resolution) that is more than just palliative/incidental-in-its implication with respect to the notion of psychopathy and social psychopathy with regards to a specific instance or specific instances of psychopathy and social psychopathy but by pointing to the bigger picture to the procrypticism registry-worldview’s/disjointedness-as-of–reference-of-thought relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to-‘attendant-intradimensional’-prospectively-
disontologising–preconverging/dementing –apriorising-psychologism’ (as enabling the possibility of the phenomenon of psychopathy and social psychopathy as of metaphorically-a-million-and-one-instances andlocales as well as other vices and-impediments of procrypticism de-mentatively/structurally/paradigmatically and comprehensively requiring a notional–deprocrypticism ontological-completeness of reference-of-thought will de-mentatively/structurally/paradigmatically elicit a human procrypticism sense of ‘temporal/shortness of-register-of–meaningfulness and-teleology’ preservation’ that wouldn’t necessarily construe the social manifestations of psychopathy and social psychopathy with their associated vices and-impediments as abstractly and ontologically unwarranted universally and such an approach may just be off-putting with regards to the prospective implication for the need for notional–deprocrypticism ontological-completeness of reference-of-thought (as intemporal/longness of-register-of–meaningfulness and-teleology) undermining of procrypticism relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation –as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism’ (as the temporal/shortness of-register-of–meaningfulness and-teleology).

Such an articulation equally extends to the idea that notions overlooking vices and-impediments associated with psychopathy and equally wrongly implying its associated virtue in the procrypticism registry-worldview are just as of ‘temporal threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation –as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism’ like the disposition to overlook vices and-impediments associated with notions and-accusations of-sorcery and equally implying the associated virtue in a non-positivism/medievalism setup; and so, as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–
notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence>'—existentialism-form-factor due to their respective relative-ontological-incompleteness<as-to-'attendant-intradimensional—prospectively-disontologising—preconverging/dementing—apriorising—psychologism>' with respect to their respective perversion-and-derived<as-to-'attendant-intradimensional—apriorising/axiomatising/referencing—in—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomena. Thus in all registry-worldviews/dimensions reference-of-thought postlogism as-of-compulsing—nonconviction/madeupness/bottomlining—{<decontextualising/de-existentialising—of-attendant—ontological-contiguity >;in-shallow-supererogation }<as-to—disontologising—perverted—outcome-sought-precedes-existentially-veridical—'attendant—intradimensional—apriorising/axiomatising/referencing’—logical—dueness>  once it is ‘as of socially-functional—and-accordant’ (beyond the case at childhood where it is accompanied by overt delirium and social universal-transparency {transparency—of—totalising—entailing,—as—to—entailing—<amplituding/formative—epistemicity>totalising—in-relative—ontological—completeness } of the defect) as at adulthood, the postlogism ‘disjointedness—as—of—reference—of—thought’ misappropriated meaningfulness and—teleology in arrogation tends to extend as conjugated—postlogism ‘disjointedness—as—of—reference—of—thought’ misappropriated meaningfulness and—teleology in arrogation involving the temporal elicitation of derived<as—to—disontologising—perverted—reference—of—thought—in—relative—ontological—completeness >, and it is thus naïve to construe postlogism<as—to—attendant—intradimensional—nonconviction/madeupness/bottomlining—as—to—shallow—supererogation > without such a corresponding differentiation of social analysis in the
construing/conceptualisation of ontological-veridicality. Now the criticism of populism-driven critiques of post-structuralism is not raised idly, as an exercise that purports to articulate such breadth and depth of novel ideas as herein necessarily requires that the authorship effectively assume the profile and presumption that the implied knowledge construct warrants (which obviously every truly intellectual spirit will appreciate for what it is, if not agree with the arguments). Such an articulation is driven by the idea that knowledge as a transcendence-enabling construct is more than just about its craftiness/technique but part and parcel of the intellectual exercise is to articulate meaningfulness by its existentialism/full-depth-of-existential-implications. And just as faced with the evasive nature of quantum theory the physicists never said reality is wrong since it is difficult to understand, likewise it is naïve to imply that the reality reflected by post-structuralism is wrong because it doesn’t quite fit into our ordinary everyday way of thinking (that is exactly the point, our ordinary everyday way of thinking is in want of its further development, just as all prior ordinary everyday ways of thinking had to be psychoanalytically-unshackled)!
