Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability\textsuperscript{1} method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability\textsuperscript{1}, validation and open-ended questioning can be
undertaken over it. Such a hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojecting/supererogating/zeroing insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes more-or-less similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-

mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at their apathetic threshold as these rather develop into denaturing\textsuperscript{15} wooden-language-{imbued—

But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that.

In many ways this intellectual falsehood (so-construed herein as to ‘the implausibility of genuine lack of understanding as from a serious intellectual engagement’ but rather ‘strategic/calculated behaviour of mere institutional power even against genuine knowledge’ herein construed as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and

While the natural sciences are ‘naturally’ constrained by the stronger manifestation for prediction, there is
nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s wooden-language-embedded-temporal-mer Pax form/virtualities/dereification/akrasia-tract/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought-categorical-imperatives/axioms/registry-teleology with asceticism does exist as has existed throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism> since even the natural sciences practices arose out of the profound asceticism stances against their initial societal predispositions of presencing—absolutising-identitive-constitutedness. Actually the projection of values including intellectual values in such syncretising/circularity/interiorising/akrasiatic-drag are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology—ontological-prime movers-totalitative-framework conceptualisation as to transcendental-enabling/sublimating/supererogatory—de-mentativity and not the vagueness of impression-driven/good-naturedness/wishfulness wooden-language—imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-ordementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology in human-subpotency social-aggregation-enabling.

After many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

two dilemma with respect to the conceptualisation of virtue

intemporal-preservation is a memetically/psychoanalytically evasive construct at
uninstitutionalised-threshold, the pursuit of which is veridically the human species eudaemonic
contemplation

‘human progress/transcendence happens as a matter of fact, with no registry-worldview/dimension
having any ontological and veridical claim/pretence to extricate itself from psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring—as-dialectical-stranding-backdrop-
for-prospective-transcendence

Stranding (of-perverting-temporal-dispositions-of-reference-of-thought) should be construed at a
registry-worldview’s/dimension’s uninstitutionalised-threshold (the threshold where the registry-
worldview/dimension is failing/not-upholding—<as-of-apriorising/axiomatising/referencing>
intemporal-preservation-entropy-or-contiguity—or—ontological-preservation)

There is no reason for de-mentation—(<supererogatory—ontological—de-mentation-or-dialectical—de-
mentation—stranding-or-attribute-dialectics) and recomposuring but for the fact that the internal
coherence of a registry-worldview/dimension is failing/not-upholding—<as-of-
apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or—ontological-preservation

ontological construct ‘escalates’ specific/particular instances of phenomena (in this case
psychopathy and social psychopathy phenomenon) into a universal conceptualisation which
‘knowledge principle conceptualisation’ then addresses (percolates into) the ‘infinity of related
incidental phenomena and cases’

notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-
perspective—ontological-normalcy/postconvergence>-pedestals-disambiguation before logical
processing/operation

‘ontology is about working with what is/knowledge-driven, and not wishful-thinking/impression-
driven’ to accede to intrinsic-reality transcendental-enabling/sublimating/supererogatory—de-
mentativity as this highlights ontological-primemovers-totalitative-framework

it is critical to distinguish between a true philosophical development that arises by intemporal-
disposition and an institutionalised development that is articulated to elicit ‘positive-opportunism—
of-social-functioning-and-accordance’ in humans

the concepts of intemporal/longness and temporality/shortness is more scientific than the
impression notions of good and bad

The use of ‘human mental-dispositions/individuations’ as of notional—firstnaturedness—temporal-
to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>
herein doesn’t mean ontologically that some individuals are
inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically
intemporal

By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness
whether the intemporal-disposition individuation-pedestal or the temporal-dispositions
individuations-pedestals
‘Unconsciousability-drag’ (from an ontological/intemporal reference) refers to the comprehensive state of undisambiguation of temporal-dispositions individuation-pedestals which are wrongly associated to the intemporal-disposition as being ontologically-veridical as these conjugate/inflect/protract (in mimicking-protraction)

at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding as of positive-opportunism—of-social-functioning-and-accordance’...

‘unconsciousability-drag’ carries the resolution for disambiguating reference-of-thought in the ontological social construction of meaning

Unconsciousability-drag (enabling ontological reference), by which the perversion-of-reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-perversions teleologies of meaning is accounted for

‘an ontological psychoanalytic/memetic-contiguity deconstruction across anthropology’ which the present treatment of psychology doesn’t recognise

the transcendental requirement for a ‘habituation’ to a so-called ‘prospective intemporal and more veridical mental-devising-representation registry-worldview’s/dimension’s reference-of-thought–categorical-imperatives/axioms/registry-teleology is rather ‘unfathomable’ for the prior

Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporality) is not necessarily the deterministic basis for human social adherence to it

an exercise in institutionalisation/intemporalisation beyond just intemporal philosophical projection is needed for the social integration of any transcending veridicality postconverging–de-mentating/structuring/paradigming

‘conventioning’ is not wholly antipodal to ‘ontologising/intrinsic-veridicality’ as the latter prospective integration in the social-construct is through the former

The application of the universal technique of human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity to procrypticism-notional~deprocrypticism transcendence-and-sublimity/sublimation/supererogatory~de-mentativity can be basically be articulated as follows (the ontological entrapment)

Institutionalisation and formalisation are based exactly on the fact that we don't have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’

Solipsism means I exist alone (as to the epistemic perspective with respect to intrinsic reality/ontological-veridicality)
By ontological-normalcy/postconvergence is meant that ‘intrinsic reality’ is one and given (ontology), and that the flaws and corrections in how we go about representing ‘intrinsic reality’ (metaphysics or the human-centered temporal-perspective) has no influence on reality’s intrinsic nature.

how can meaningfulness-and-teleology be represented in ‘a prospective apriorising–registry state’ which is ontologically more real contrasted to ‘a present retrospective apriorising–registry’, as meaningfulness-and-teleology ‘temporally seems’ to vary depending on the uninstitutionalised-threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal?

Pedestalled disambiguation explains the dynamism of human institutional-cumulation/institutional-recomposure going by a recurrent emanance/becoming template.

There is no such thing as ‘intemporal temporality’ as mental-dispositions ‘geared to accommodate temporality’ (as to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation) are doing nothing but providing the anchoring for the endemisation and enculturation of the vices-and-impediments associated with such temporal registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>.

Technically, it can be said that the underlying psychopathic phenomenon known as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining is associated with all the institutional-cumulation/institutional-recomposure going by a recurrent emanance/becoming template.

the articulation of reality as referentially of ontological-normalcy/postconvergence enables and allow creative projective-insights thought possibilities that the all too common ‘fixated traditional categorisation conceptualisation of reality’ doesn’t allow.

the specificity of the would-be intellectualism involved in a transcendental construct, as different from just intellectualism as mere-institutionalised-being-and-craft.

Memetism as to suprastructural meaningfulness-and-teleology will refer to the projective conceptualisation of meaningfulness-and-teleology beyond and superseding an intradimensional registry-worldview abstraction scope to the scope of transdimensional/transcendental existential psychoanalytic ontological form (in full blossoming of the transcending dimension with its existentialism/full-existential-depth-implications personhoods-and-socialhood-formation)

ontologically (i.e. ‘the-Good/understanding’ contrasted with ‘good-natured/impression-driven’) the bigger issue is how do our development and institutionalisation/intemporalisation of true knowledge ‘save us from potent-temporality and its vices-and-impediments with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’.
The notion of higher teleologies as such is specific to the human species in holding that beyond just ‘a physical animal passing of specie generational succession’ for survival and optimising-specie-flourishing, with higher teleologies there is ‘an even more critical passing of generational succession’ as memetic-skewing-or-reordering/philo-cultural optimising of possibilities.

Meaningfulness of notional-firstnatures—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> as to ‘existential idealism/success’ as these define mental orientations or registry-worldview teleological-dispositions.

The entropy behind such a philosophical-driven conceptualisation of human meaning and corresponding psychoanalytic-unshackling.

the perpetuation-of-notional—deprocrypticism transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is that it is ‘weakly positive opportunistic’ to the cross-section of the social construct.

transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is more of a human-mentation-capacity driven construct and its mundane recognition is not inherently by its supposed virtue (given that survival-and-flourishing, and not veracity/ontological-pertinence, are the more immediate/direct basis for the human temporal drive).

Meaning (defined previously as what defines/predicates value, thought and action).

all the vices-and-impediments of the <cumulating/recomposing—attendant-ontological-contiguity>successive registry-worldviews/dimensions can be directly ascribed as corresponding perversion-of-reference-of-thought<as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogations> of temporal-dispositions at the registry-worldviews/dimensions uninstitutionalised-threshold.

‘knowledge-notionalisation’ or knowledge as a continuum from ‘the ignorances/desublimation’/temporal-dispositions to knowledge/intemporality.

preconverging-or-dementing—apriorising—psychologism arises simply by a shift of reference-of-thought (in the strive for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation wherein the latter reference-of-thought as a registry-worldview/dimension is shown to be more intemporally-preservational).

why ontological-normalcy/postconvergence indicates that ‘good-naturedness constructs’ are defective is quite simple as it is based on adhering to a registry-worldview’s/dimension’s institutionalisation temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology.

in this regards we can appreciate how the very implications of say
universal human rights supererogatorily becomes more and more
profound as from say the Socratic-philosophers (even as slavery, class-
seclusion and female-seclusion was prevalent as to warped
collateralisation), budding-positivists (even as in many ways the practices
of serfdom/slavery, social-class discrimination and female-discrimination
were equally prevalent as to preclusive collateralisation) and today’s
supposedly universal conception of human rights (even as it is marked by
occlusive collateralisation of other peoples, cultures and nations as well
as gender and age occlusive collateralising biases);¶ actually the specific
sense and general sense are thus linked on the basis that both imply
totalising-entailing with the specific sense speaking of totalising-entailing
as to the specific universalisation registry-worldview/dimension ‘when mankind initially consciously cognised that the profundness of
meaningfulness-and-teleology’ should be totalising-entailing but
without necessarily differentiating such a conception of totalising-
entailing between mythological and positivistic/rational-empirist
totalising-entailing with both construed as universal ‘meaningfulness-

and exactifies/precises the conception of totalising-entailing in terms of
‘entailing-<amplituding-formative–epistemicity>totalising–in-relative-

limited-mentation-capacity-deepening as to the ‘notionalisation/notional-conception/amplituding of totalising-entailing so-reflected by the ontological-contiguity—of-the-human-institutionalisation-process’ (along the same lines as notional–deprocrypticism) thus amplificatorily rendering the conception of totalising-entailing (as to notionally–universal) as more ‘profoundly construed as from perspective relative-ontological-completeness as of the ontological-normalcy/postconvergence of existence/intrinsic-reality’ so-underlied by perspective ‘nondisjointing totalising-entailing’ or deprocrypticism

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ predisposed human mind’ so-reflected as prelogism -as-of-conviction,-in-profound-supererogation -<existentially-veridical-‘attendant-intradimensional- apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical- outcome-arrived-at> and so-construed as of human candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenological specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’- postconverging/dialectical-thinking —apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking — apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism -as-of-conviction,-in-profound-supererogation -<existentially-veridical-‘attendant-intradimensional- apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical- outcome-arrived-at> mind operates by an ad-hoc and circumspect exaggeration or omission). The postlogic disposition is associated pathologically with the psychopathic character as a faulty-mentation-procedure-deception-or-urge with respect to perceived social-stake-contention-or-confliction but can equally extend ad-hocly or more profoundly as a manifestation of conjugated-postlogism /preconverging-or-dementing -integration (due to psychopathic/postlogism induced social loss-of-awareness of the social universal-transparency -(transparency-of- totalising-entailing,-as-to-entailing- <amplituding/formative–epistemicity>totalising~in- relative-ontological-completeness )) where it elicits temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in situations of social-stake-contention-or-confliction.

Further, the dynamics of such a graduated human consciousness as of notional—conflatedness\(^3\) of notional—deprocrypticism can be reinterpreted operantly as of ‘notional—referentialism’ as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,—as-of-
their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments are actually ‘various levels of failing to achieve the notional-deprocripticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure ontological-completeness-of-reference-of-thought’, and thus are construed as of the same notion of referentialism implied as to knowledge-notionalisation, and so as of ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ given their respectively underlying limited-mentation-capacity in achieving referentialism imbued knowledge-notionalisation. While in reality these are respectively of ‘categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’, they still act as if of ‘notional-deprocripticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and so ‘in their beyond-the-consciousness-awareness-teleology preconverging-existential-extrication-as-of-existential-unthought> preconverging-or-dementing –apriorising-psychologism’ thus generating as of their ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ their respective neuterising construed as of ‘their prior relative-ontological-incompleteness-of-reference-of-thought of meaningfulness-and-teleology’. nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’, that is secondnatured as of its prior relative-ontological-incompleteness—reference-of-thought with the consequent implications of relatively defective meaningfulness-and-teleology ontological-performance—whooping-including-virtue-as-ontology. For instance, as of their relative-ontological-incompleteness—reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness—reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism meaningfulness-and-teleology relative to the ‘utter and brute’ animistic interpretation as meaningfulness-and-teleology neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to-

apriorising/axiomatising/referencing–psychologism’, positivism–procrypticism existential reference-of-thought next-after-next level of neuterising is elicited by its ‘occlusive-consciousness categorising—ontologically-compromised-mediating, as-of-its-specific-constitutedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument failing preempting—disjointedness-as-of reference-of-thought, as-to-
ontological-normalcy/relative-ontological-completeness of reference-of-thought, as it is the elucidation of ontological-normalcy/relative-ontological-completeness of reference-of-thought as truly reflecting intrinsic-reality/ontological-veridicality, whether we are aware of it as of postconverging-or-dialectical-thinking—apriorising-psychologism or unaware beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought as of preconverging-or-dementing—apriorising-psychologism/deassertion, that reveals neuterising as of epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness of reference-of-thought as it is construed in its ontological-veridicality as ‘a deficient derived-construction of ontological-normalcy/relative-ontological-completeness of reference-of-thought’. This insight equally explains why it is ‘through the deficient derived-construction of apriorising/axiomatising/referencing—{of-attendant ontological-contiguity—reduced—existentialising/contextualising/textualising-contiguity }—conflatedness—in—{preconverging—disentailment—by—}—postconverging-entailment’ that is construed the ontologically-veridical nature of distractive-alignment-to-reference-of-thought—of-apriorising/axiomatising/referencing destructuring. Understanding and overcoming neuterising as such reveals the beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought dynamism of human temporal-to-intemporal individuations mental-dispositions/apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as critical across all the registry-worldviews/dimensions construed as of de-mentation ⟨supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics⟩. The ontological-veridicality of a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ as associated with ‘intemporal ontological-faith-notion-or-ontological-fideism—
ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ is universally attributable as if humans had only the intemporal/longness-of-register-of—meaningfulness-and-teleology individuation without temporal/shortness-of-register-of—meaningfulness-and-teleology individuations will simply fail to recognise the generation-and-upholding of neuterising and thus unable to reveal perversion-and-derived—reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation => as it is naïve to think that while being at an uninstitutionalised-threshold like universalisation—non-positivism/medievalism by mere-and-vague impression-driven/good-naturedness/wishfulness wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}) in social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring crossgenerational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation neuterising’ to be able to then reveal, construe and uphold positivistic Being and meaningfulness-and-teleology, and this equally applies with regards to overcoming our procrypticism—or—disjointedness-as-of—reference-of-thought meaningfulness-and-teleology neuterising’ to attain futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism Being and meaningfulness-and-teleology. As a further elucidation, a comparison can be made between a construct of ‘notional—referentialism’ disambiguated as referentialism,
categorising, neuterising, qualifying, neuterising, tendentious, neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness of reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of <amplituding/formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-referentialism’ as of their respective epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness of reference-of-thought. Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—conflatedness in {preconverging-disentailment–by}–postconverging-entailment’ for making-sense-of/constructing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising. This elucidation is to point out that reference-of-thought constructs in epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness of reference-of-thought in the very first place cannot be the basis for articulating, as of their given apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—constitutedness in preconverging-entailment, by elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity
ontological-completeness-of-reference-of-thought; as what is so generated is nothing as of reality but rather a virtuality-or-ontologically-flawed-construal. Instead such a construction of prospective relative intrinsic-reality/ontological-veridicality is an apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment-by}-postconverging-entailment of ‘traditional classical mechanics axiomatic-construct’ by an epistemic-totalising~renewing-realisation/re-perception/re-thought as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation; driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existent-reality to reconstruct the same physics domain-of-study as the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs, and rather reflects the ontological-veridicality that ‘traditional classical mechanics axiomatic-construct’ as of its epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness—of-reference-of-thought is ‘construed as a constructed-deficiency of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ontological-normalcy/relative-ontological-completeness—of-reference-of-thought perspective’, and the former can only be subsumed/implied/construed-as-non-contradictory to the latter. Such a basic conception of comparative axiomatic-constructs in their reflection of the very same epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that ‘relative completeness/profundness of axiomatic-construct/reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the
notional perspective of ontological construal/conceptualisation. This is equally relevant with
regards to the reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which refers to the transcendental-enabling/sublimating/supererogatory—de-mentativity conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument for a registry-worldview’s/dimension’s reference-of-thought construction possibilities of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue as of existential-instantiations’, on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening successive more and more relatively profound/complete registry-worldviews/dimensions reference-of-thought constructions of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue; with the (given consciousness’s neuterising-induced-or-deneuterising—induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of its intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue as the registry-worldview’s/dimension’s reference-of-thought ‘abstract teleological-de-mentating/structuring/paradigming/teleological-possibilities’. Within a registry-worldview’s/dimension’s institutionalisation framework the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is utterly geared in an amplituding/formative–epistemicity totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology as of ‘operant-or-incidenting-predicative-insights or logical-coherence’ and beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of—
while on the other hand the grounded uninstitutionalised-threshold recurrenly overrides as of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-constitutedness-in-preconverging entailment} beyond-the-consciousness-awareness-teleology\(^{100}\)<in-preconverging-existential-extrication-as-of-existential-unthought> any notion of its ontologically deficient ‘amplituding/formative-epistemicity’ totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ at its uninstitutionalised-threshold\(^{103}\) and just triggers ‘operant-or-incidenting-predicative-insights or logical-coherence’ on that basis for its intradimensional grounded ‘meaningfulness-and-teleology\(^{100}\), and this explains its ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold\(^{103}\’, and explaining why transcendence-and-sublimity/sublimation/supererogatory-de-mentativity fully occurs as of a crossgenerational habituation process. Remarkably, such a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation behind the ontological-contiguity—of-the-human-institutionalisation-process\(^{88}\) enabling the human existential tale in successive institutional-cumulation/institutional-recomposure⟨as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩⟩ is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-
absence-{implicated-epistemic-veracity-of- nonpresencing-{perspective–ontological-normaley/postconvergence}>} analysis does apply with respect to superstitions, universal human rights, free society, modern science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold and as of prospective institutionalisation with respect to maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness-of-reference-of-thought of same <amplituding/formative–epistemicity> totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality hitherto considered off limits to any challenging maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation at the uninstitutionalised-threshold but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity as of opened-construct-of–meaningfulness-and-teleology arise only by maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation but presences in their <amplituding/formative> wooden-language-{imbued–averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology as-of-‘nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications}> consider maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation as of exceptional-askance and unordinary due to their <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex avoiding being ontologically decentered and preconverging- or-dementing—apriorising-psychologism. that actually speaks of a nombrilisticas approach to conceptualising knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as validated by ontological-primemovers-totalitative-framework. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity. thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity construal highlights the ontological-contiguity of all knowledge as of their reference-of-thought-as-to-preconverging/postconverging-de-mentating/structuring/paradigming dynamic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity\}—constitutedness—in-preconverging-entailment rather than striving to expand the transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory-de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory-de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual
pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dentativity ontological-primemovers-totalitative-framework nature and differences as well as their divergence in meaningfulness-and-teleology implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supererogatory—dentativity ontological-primemovers-totalitative-framework renewal of a same <amplituding/formative—epistemicity>totalising—devolved—purview—as-domain-of-construal—as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—constitutedness—in—preconverging-entailment undermining requisite creativity as of apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflicatedness—in—{preconverging—disentailment—by}—postconverging-entailment, as it ‘crissically presupposes beyond-the-consciousness-awareness-teleology—in—preconverging—existential-extrication-as-of—existential-unthought’ that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given

Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of attendant-ontological-contiguity-reduced-existentialising/contextualising/textualising-contiguity that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. veridicality of axiomatic-constructs as derived from the ’reference-of-thought—devolving–
imbricatedness/threadedness/recomposuring’, thus inducing virtualities or ontologically-flawed construals associated with the uninstitutionalised-threshold. Thus, the ontological-veracity as prospective relative-ontological-completeness -of- reference-of-thought of ‘the axiomatic-constructs of a (given consciousness’s neuterising-induced-or-deneuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation <-as-to-perspective—ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> imbricatedness/threadedness/recomposuring’ generating knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue implied as meaningfulness-and-teleology, is rather ensured by the construal of existential-instantiations as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation which is as of apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educted—existentialising/contextualising/textualising-contiguity }—conflatedness—in—{preconverging—dissentailment—by—}—postconverging-entailment, thus enabling the ontological-contiguity—of-the-human-institutionalisation-process. It is interesting to grasp here that we cannot from our ‘sense of conceptual patterning’ claim to put into question the inherent nature of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation <-as-to-perspective—ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> and as of its implied superseding—oneness-of-ontology, since existence is de-mentatively/structurally/paradigmatically precedent and our conceptual patterning is arising secondarily as of our shoddy-and-incomplete construal of the ‘iterating nature of existential—
instantiations’ as of existence’s imbricatedness/threadedness/recomposuring; and any such pretence of conceptual patterning is nothing but a virtuality or ontologically-flawed construal as of naïve apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-eneduced-existentialising/contextualising/textualising-contiguity}—constitutedness—in-preconverging-entailment. Of course, it is rather prospective relative-ontological-completeness-of-reference-of-thought that will imply deeper ontological-veracity of the same underlying purview for the construal of meaningfulness-and-teleology mental-disposition grounded on existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming'>.

For all the above elucidations highlighting the ontological-veracity implications of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—constitutedness-in-preconverging-entailment and apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—conflatedness-in-{preconverging-disentailment-by}-postconverging-entailment, it should be noted that emphasis is rather on the deficiency of limited-mentation-capacity in construing intrinsic-reality/ontological-veridicality such that the more profound/complete recomposuring of the very same <amplituding/formative-epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights/reflects in its subsuming interpretation the true deficiency of the shoddy/incomplete. This can be expanded upon as follows, the reason why relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence/destructuring can only be construed with certainty-as-to-their-real-ontological-deficiency ‘rather as a constructed-deficiency of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/conflatedness’ lies in the fact that the construal/conceptualisation of an epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality is ‘supposedly as of a perfect or near-perfect or relatively-perfect ontological correspondence between such human construed/conceptualised meaningfulness-and-teleology and the inherent ontological-
veracity/intrinsicness of the \(45<\)amplituding/formative–epistemicity\(>\)totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology\(^{10}\)-<in-preconverging-existential-extrication-as-of-existential-unthought>\(>\) of human construal/conceptualisation of it’. The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness -of- reference-of-thought/ontological-normalcy/conflatedness \(1\).

Since there is no direct correspondence between relative-ontological-incompleteness \(^{12}\)-of-reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring with the inherent intrinsicness of the \(45<\)amplituding/formative–epistemicity\(>\)totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology\(^{10}\)-<in-preconverging-existential-extrication-as-of-existential-unthought>\(>\) of human construal/conceptualisation of it, it is thus only from a constructed-deficiency of prospective relative-ontological-completeness \(1\)-of- reference-of-thought/ontological-normalcy/conflatedness \(2\) which has such a direct correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness \(^{12}\)-of-reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring can be established. A direct approach to determine the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness \(1\)-of-reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicness of the \(45<\)amplituding/formative–epistemicity\(>\)totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, with such a virtuality-or-ontologically-flawed-construal often wrongly involving ‘reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation’-as-of-upholding-ontological-

Consider in this particular regards the intrinsic-reality/ontological-veridicality reflected as akin to an engineering product like a jet engine wherein the conceptualisation is an incisive apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—conflatedness—in-{preconverging-disentailment—by}—postconverging-entailment that goes beyond the whole and parts of the jet engine to grasp a conceptualisation profundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the \cite{ref:thought} reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness\cite{ref:mediating} induced neuterising or prospectively notional~deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-confaltedness\cite{ref:mediating} meaningfulness-and-teleology\cite{ref:teleology}. conflatedness in [preconverging disentailment by] postconverging entailment it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening that is behind the ontological-contiguity—of-the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of—meaningfulness-and-teleology-and-longness-of-register-of—meaningfulness-and-teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness—of—reference-of-thought perspective of notional–deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. It is the ‘notion of limited-mentation-capacity’ that as of its deficiency is falsely-composited by ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness flawed conceptualisation perspectives’ into ontologically-flawed constructs of neuterising, historicality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism> as of the notional–conflatedness of notional–deprocrypticism highlights that humankind in its projected-or-anticipated relationship with ‘existence as-the-absolute-a-priori’ is rather in preconverging existential-extrication-as-of-existential-unthought, and not the full potency of existence; preconverging existential-extrication-as-of-existential-unthought construed rather as ‘shoddy-and-incomplete actualising in presencing—absolutising-identitive-constitutedness of the full potency of existence. That is, human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t make sense/is unavailable for any specific human registry-worldview/dimension’s reference-of-thought as an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construct, including our positivism–procrypticism registry-worldview/dimension, as this will falsely imply that our reference-of-thought <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘developed enough’ as of Being-and-contemplation to have achieved the full potency of existence to then know what’s existence whereas in reality such <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag highlights human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence. Thus our construal of existence can only be an ‘as of existence’ exercise that rather highlights human potential to transcend towards grasping existence/existential-possibilities; with that potency only instigated as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for

Interestingly, from our vantage positivism/rational-empiricism perspective, we’ll certainly construe the supposed intradimensional resolution of existential issues of prior relative-ontological-incompleteness reference-of-thought as of ontological-performance <including-virtue-as-ontology> arising in recurrent-utter-uninstitutionalisation as intradimensional meniality-or-hyperbole and rather resolvable as of base-institutionalisation superseding projection/anticipation, and same with base-institutionalisation–ununiversalisation as intradimensional meniality-or-hyperbole and rather resolvable as of universalisation superseding projection/anticipation, and same with universalisation–non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won’t or hardly construe of the same as of our <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag about our positivism–procrypticism as it being of intradimensional meniality-or-hyperbole and rather resolvable as of notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought superseding projection/anticipation! This points to the flaw of a Heideggerian Dasein conceptualisation as it wrongly implies ‘humankind has any developed mental state as of Being-and-contemplation in any past-to-present epoch’ to ‘fully register as of that epoch’s metaphysics-of-presence{(implicated-‘nondescript/ignoreable–void ’-as-to-presencing—absolutising-identitive-constitutedness)} what is existence/existential-possibilities not factoring Being apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity –educed—existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} post-converging entailment

Existence is rather a ‘potency construct of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of human existential potential’ and not ‘a grounded construct for construing existence’ as wrongly implied/attempted with the Heideggerian Dasein notion, as all what ‘grounding’ does is to wrongly elevate the registry-worldview’s/dimension’s reference-of-thought in which such a construct is articulatedly grounded thus contradictorily undermining the possibility for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by wrongly implying that the said registry-worldview’s/dimension’s reference-of-thought is of absolute ontological-performance—including-virtue-as-ontology>, whereas it is deepening of human limited-mentation-capacity as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality in inducing prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments that allows for prospective relative-ontological-completeness reference-of-thought thus expanding human notion of existence/existential-possibilities. as they know very well that \( ^{54} \text{reference-of-thought—categorical-imperatives/axioms/registry-teleology}^{100} \) for \( ^{56} \text{meaningfulness-and-teleology}^{100} \) are just that with respect to an animal of limited-mentation-capacity beyond-the-consciousness-awareness-teleology\(<\text{in-preconverging—existential-extrication-as-of-existential-unthought}>^{5} \) who is bound to circularly elicit shortness-of-register-of—\( ^{84} \text{meaningfulness-and-teleology}^{100} \) on such renewed \( ^{84} \text{reference-of-thought—categorical-imperatives/axioms/registry-teleology}^{100} \) for \( ^{59} \text{meaningfulness-and-teleology}^{100} \) and further denaturing them as of the prospective institutionalisation uninstitutionalised-threshold \( ^{50} \) ! This author’s notion of centered-epistemic-totalisation as impossible to achieve and postulation instead of decentered-infinite-freeplay is actually a critique arising on the implied assumption of finite human limited-mentation-capacity as of its impossibility as finitely limited to come into the full terms of grasping the full potency of existence/existential-possibilities; but then this author construes that human limited-mentation-capacity is not finite as it deepens as of the possibility of transcendence-and-sublimity/sublimation/suberogatory-de-mentativity enabled as of de-mentativity (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) thus involving de-mentative/structural/paradigmatic transformations/shifts of human limited-mentation-capacity as-of-reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ to grasp existence/existential-possibilities, such that as of notional-deprocrypticism or notional-preempting—disjointedness-as-of-reference-of-thought in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process retrospectively to prospectively, centered-epistemic-totalisation/circumscribing/delineating meaningfulness-and-teleology as of its attaining of ontological-completeness-of-reference-of-thought is/can-be achieved as ‘involving the superseding/transcending of successively defining human finitudes as the

This thus undermines the implications of a Derridean decentered-infinite-freeplay in its critique of ‘centered–epistemic-totalisation as of circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance~-<including-virtue-as-ontology>’ since such a criticism is based on assuming only a same registry-worldview’s/dimension’s reference-of-thought, and so-construed mainly because such a Derridean conception construes of centered–epistemic-totalisation as only within one registry-worldview’s/dimension’s reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—meaningfulness’ as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, failing to reflect the ontological-contiguity—of-the-human-institutionalisation-process as of notional–deprocrypticism implied postconverging—de-mentating/structuring/paradigming shifts of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—meaningfulness’ as enabling successive prospective relative-ontological-completeness—of-reference-of-thought as enabling successive prospective reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—meaningfulness’ marked by the shift of ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology inducing relatively less and less deficient/flawed ontological-performance~-<including-virtue-as-ontology>’ right up to

will systematically induce a ‘centered–epistemic-totalisation circularity of meaningfulness-

transcendental—epistemic-totalisation and reflects the reality that a Derridean decentered-
infinite-freeplay can also be construed as an interpolatory—epistemic-totalisation or 
interpolated-decentered—epistemic-totalisation. For instance, we can grasp that ‘traditional 
classical mechanics axiomatic-construct’ is a given ‘centered—epistemic-totalisation circularity
of meaningfulness-and-teleology of ‘the very same physics of amplituding/formative–epistemicity’ as of a prior relative-ontological-incompleteness of less ontological-performance-including-virtue-as-ontology’ of ‘the very same physics of amplituding/formative–epistemicity’ totalising–devolved—incompleteness/of less ontological-performance-including-virtue-as-ontology’ as of prospective relative-ontological-completeness–of-axiomatic-construct-or-reference-of-thought as we can do more things with the latter axiomatic-construct more-profound/grander meaningfulness-and-teleology ontological-performance-including-virtue-as-ontology’; and interestingly, physicists will surely fancy that they could do better in ultimately grasping theoretically the full-potency of existence divulgeable as of ‘the very same physics of amplituding/formative–epistemicity’ totalising–devolved—incompleteness/of less ontological-performance-including-virtue-as-ontology’ with an ambition for a theory of everything. However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered–epistemic-totalisation of a very same/totalising–devolved—incompleteness/of less ontological-performance-including-virtue-as-ontology’, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-human(totalising–purview-of-construal’ which is a given

In this regard talking about the physics example again, such a Derridean freeplay différance is
akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-

then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and

Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity shallow-supererogation –of-mentally-aestheticised–preconverging/dementing –qualia-schema> in apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging-

It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human'amplituding/formative–epistemicity>totalising–purview-of-construal’ or <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in
the same way that insight/intuition is reflected rather with regards to any given implicated
axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a
theory being any conception as of meaningfulness-and-teleology of supposed existential-
implications correspondence. That is the traditional knowledge conception articulated as
‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of
axiomatic-construct/reference-of-thought’, as the axiomatic-construct/reference-of-thought
is the effective human limited-mentation-capacity supposed correspondence relation with

could be perceived rather as a meta-conception or more like a technical practicality akin to say

‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory–de-mentativity’.

But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context as to attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity of other applied and transcendental-enabling/sublimating/supererogatory–de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a <amplitudding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality
itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as knowledge-reification–gesturing—prospective psychologismic–apriorising/axiomatising/referencing—of-attendant–ontological–contiguity—educed–existentialising/contextualising/textualising-contiguity—confratedness—in—preconverging-disentailment by—postconverging-entailment> for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about sublimating-validation/desublimating-invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential sublimating-validation/desublimating-invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest–subpotency—in-transitive–confratedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence) with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of—
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for– conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory acuity/perspicacity/astuteness/edginess/incisiveness –of– apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for– conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest-subpotencies-(in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence) given ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory acuity/perspicacity/astuteness/edginess/incisiveness –of– apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for– conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodinger, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory de-mentativity of the physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs with mathematics being accessory to the transcendental-enabling/sublimating/supererogatory de-mentativity. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory de-mentativity; and we can appreciate in this regards how
the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^\text{[7]}\). The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory–de–mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory–de–mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension \(^8\) reference-of-thought-as-of-\(^{[8]}\) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–

human<amplituding/formative–epistemicity>totalising–purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness–of– reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence-{implicated-epistemic-veracity-of:\nonpresencing-<perspective–ontological-normalcy/postconvergence>\} that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed \(^{[6]}\) meaninglessness-and-teleology\(^{[6]}\). The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid \(^{[4]}\) reference-of-thought-as-of-\(^{[4]}\) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\(^{[6]}\) meaninglessness-and-teleology\(^{[6]}\) as of
prospective deprocrypticism–or–preempting—disjointedness-as-of- ‘reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional–deprocrypticism psychoanalytic-unshackling metaphysics-of-absence⟨implicated-epistemic-veracity-of- nonpresencing⟨perspective–ontological-normalcy/postconvergence⟩⟩ and apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educated- existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment by} postconverging-entailment, and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educated- existentialising/contextualising/textualising-contiguity }—constitutedness in {preconverging- entailment construal of meaningfulness-and-teleology that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the <amplituding/formative–epistemicity>totalising–self-referencing- syncretising/circularity/interiorising/akrasiatic-drag naïvety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’; usually in our case, in a non-transcendental <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that is unconsciously implied as of our positivism–procrypticism registry-worldview/dimension. Insightfully, such a ‘suprastructural logic’ undermines metaphysical notions like good, essence and truth as being naively construed as of a given registry-worldview’s/dimension’s

Further, the fact is that it is rather axiomatic-constructs whether explicit or implicit that are supposedly in a correspondence relation with an epistemic-totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality as of their given ontological-performance—<including-virtue-as-ontology> as validated by ontological-primemovers-totalitative-framework; so-construed as of the implications of human limited-mentation-capacity when developing axiomation-constructs, with the latter subject to their transcendence-and-sublimity/sublimation/supererogatory—de-mentativity when prospective relative-ontological-completeness—of-axiomatic-construct-or—reference-of-thought avails prospectively with regards to their ontological-performance—<including-virtue-as-ontology>. The implications here as well are that implicit axiomatic-constructs like analogies and supposed intuitions/insights that do not reflect/align as of the coherence/contiguity of superseding—oneness-of-ontology implied as of the full-potency of existence coherence/contiguity, are ontologically naive and vague. Thus axiomatic-

Furthermore, just as a transcendental-enabling/sublimating/supererogatory—de-mentativity biological science in relative ontological-contiguity of reference-of-thought will dissociate modern-day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory—de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for
transcendental-enabling/sublimating/supererogatory~de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology ontological-performance <including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening as of relatively profound and complete axiomatic-constructs/ reference-of-thought in ontological-contiguity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal–as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory~de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory~de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/ reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity <shallow-supererogation -of-mentally-aestheticised–preconverging/dementing -qualia-schema> of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human meaningfulness-and-teleology ontological-performance <including-

respect to social-stake-contention-or-confliction induces human transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity. Consider in this regard historical
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity elicited by cultural
diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a
social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are
naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction
striving to draw in various ways the optimum as of perceived existential possibilities, and thus
individuals and social groups are not in an absolutely given/set self-referencing centered–
epistemic-totalisation-facticity of 3meaningfulness-and-teleology\textsuperscript{100} within their social-setup
and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent
or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is
already involved internally however restricted in its very own
reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and
syncretising-effecting construed as \textit{amplituding/formative–epistemicity}\textsubscript{10} totalising–self-referencing–syncretising\textsuperscript{11} ' of \textit{meaningfulness-and-teleology}\textsuperscript{10} with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic 'self-referencing and syncretising-effecting construed as \textit{amplituding/formative–epistemicity}\textsubscript{10} totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{11} human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and \textit{amplituding/formative–epistemicity}\textsubscript{10} totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{11} induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of \textit{meaningfulness-and-teleology}\textsuperscript{10} within a given social-setup in the immediate-and-short-term. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness\textsuperscript{89}–of–reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of–meaningfulness-and-teleology\textsuperscript{10} given their supposedly coherent ontological-commitment

However, such a conception of supposedly coherent ontological-commitment -<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation \(^5\)meaningfulness-and-teleology\(^1\) as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology\(^1\)–<in-preconverging–existential-extrication-as-of-existential-unthought\(>\) with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of– meaningfulness-and-teleology\(^1\) social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of–social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic
conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity 
for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency—\{transparency-of-\totalising-entailing, as-to-entailing—<amplituding/\text{formative—epistemicity}>\totalising—\text{in-}relative-ontological-completeness \} about such metaphoricity instigative reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> that is subject to existence-potency—sublimating—nascence,—disclosed—from-prospective-epistemic-digression validatory ontological-primemovers-totalitative-framework. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> threshold of a social-setup meaningfulness-and-teleology allows for
the possibility for prospective metaphoricity\(^{56}\) to reconstrue-and-redefine the social-setup \(^{56}\)meaningfulness-and-teleology\(^{100}\). Such prospective metaphoricity\(^{57}\) possibility cannot be preempted because even the social-setup conventioning in its functional operation of \(^{56}\)meaningfulness-and-teleology\(^{100}\) needs this supposedly coherent ontological-commitment\(^{58}\) & <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> in other to affirm itself over any spontaneously arising disruptive \(^{56}\)meaningfulness-and-teleology\(^{100}\) that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity\(^{57}\) in one way or the other when such spontaneously arising disruptive \(^{56}\)meaningfulness-and-teleology\(^{100}\) is not of poorer but rather of a superseding <amplituding/formative–epistemicity> causality~as-to-projective-totalitative~implications-of-prospective~ nonpresencing.—for-explicating-ontological-contiguity as of the social-setup given supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming ~as-being-as-of-existential-reality>. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> respectively as of superstitious spiritualism \(^{56}\)meaningfulness-and-teleology\(^{100}\) or scholasticism pedantic dogmatism \(^{56}\)meaningfulness-and-teleology\(^{100}\), as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming ~as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-

However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity\textsuperscript{57} undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity\textsuperscript{57} and by that token elicit sophistic/pedantic inclinations to such prospective metaphoricity\textsuperscript{57}\textsuperscript{56}\textsuperscript{56}\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100}. Further any such prospective metaphoricity\textsuperscript{57} ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism\textsuperscript{76}\textemdash of-social-functioning-and-accordance\textemdash as of particular and general social interest. <amplituding/formative–epistemicity>totalising–self-referencing-

receptable-of-temporal-to-intemporal-individuation realistically implies that it is rather
fundamentally a question of grasping the mechanism that tips the balance towards human
intemporality/longness and subsequent prospective institutionalisation which is ontologically
sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the
human is all-essentially intemporal-disposition as to absolute ontological-commitment
<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-

notional–deprocrypticism metaphoricity implications are necessarily spurious and associated
with our positivism–procrypticism institutional-being-and-craft as of the direct, indirect and/or

the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that
budding-positivism can be demonstrated as more ontologically pertinent as of ontological-

uphold non-positivism\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{10} in effect by undermining its
deferential-formalisation-transference. It is with regards to such sophistic/pedantic
disinclination to prospective metaphoricity\textsuperscript{7} that the latter elicits contortioning gesturing,
wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we
can appreciate that however say a Protagoras engagement with Socrates may project coherence

the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus

Actually such an ordinary mental-reflex of a ‘neuter framework of reference-of-thought
putting the notional—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> as of the same axiomatic

ímplicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in
determining ontological-veracity. But then at such a registry-worldview’s/dimension’s
institutionalisation’s uninstitutionalised-threshold, there is a relative variance of ontological-
completeness-of-reference-of-thought as of the prospective relative-ontological—
completeness'-of- reference-of-thought in intemporality'/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness''-of- reference-of-thought in temporality'/shortness entailing the uninstitutionalised-threshold ': thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold ': in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a 'neuter framework of reference-of-thought putting the notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective—ontological-normalcy/postconvergence> as of the same axiomatic teleological projection' and so, as of an uninstitutionalised-threshold ': and the prospective institutionalisation; given the variance of temporality'/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively procrypticism—or–disjointedness-as-of-reference-of-thought with intemporality'/longness rather as respectively in base-institutionalisation, universalisation, positivism and prospectively deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought. Such a storied-construct/ontologically-valid-narration is ultimately articulated rather as of the implications of the failing to uphold Being as of the temporal-to-intemporal transversality-existential-eventuating/denouement-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing’ of human limited-mentation-capacity in temporal apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—constitutedness—preconverging entailment mental-reflexes at presence reference-of-thought, and so reflected by the implied intemporal apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—conflicatedness—preconverging-disentailment-by-postconverging-entailment of phenomenological transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of notional-deprocrypticism. We can appreciate the metaphysics-of-absence-implicited-epistemic-veracity-of-nonpresencing-perspective-ontological-normalcy/postconvergence insight about such a deneuterising storied-construct/ontologically-valid-narration from the fact that a non-positivism/medievalism or animistic social-setup is ‘not committed in a amplituding/formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to positivistic/rational-empiricism meaningfulness-and-teleology with regards to occurrences and incidents best explained and dealt with by such positivistic meaningfulness as of the latter’s prospective relative-ontological-completeness-of-reference-of-thought. As such non-positivism/medievalism or animistic social-setup ‘will not be self-effacing as of its ontologically-flawed amplituding/formative-
temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about its uninstitutionalised-threshold of non-positivism and the prospective institutionalisation of positivism’. This equally explains how our positivism–procrypticism mental-disposition is construed in deneuterising from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective notional–deprocrypticism perspective ‘as not self-effacing as of its ontologically-flawed by its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag fails to attain such an apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity –educed-existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} postconverging-entailment as of notional–deprocrypticism deneuterising insight. Central and critical to achieving such a deneuterising analysis in grasping the full and complete possibilities of ontologically-veridical construal of human meaningfulness-and-teleology given human temporal-to-intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-threshold is the notion of beyond-the-

It is exactly what renders a veridical ontological-escalation or aetiologisation of the human condition possible as the \(^{40}\)historiality/ontological-eventfulness\(^{17}\)/ontological-aesthetic-tracing\(<\text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism–determinism}>\) of apriorising/axiomatising/referencing\{-of-attendant–ontological-contiguity –educed– existentialising/contextualising/textualising-contiguity \}–confatedness –in\{preconverging-disentailment–by\} postconverging-entailment as of notional–deprocrypticism. It is most critical because at any registry-worldview/dimension, human self-consciousness is a \(^4\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\(^3\) mental-reflex as of being-only-in-institutionalisation-and-hence-only-of-a–meaningfulness-and-teleology\(^1\)-that-is-intemporal while defectively ignoring-and-undermining the veridicality of uninstitutionalised-threshold\(^0\)–and-its-assorted-and-conjugated-temporal–meaningfulness-and-teleology\(^{10}\) such that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is always perceived as unnatural when \(^4\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\(^3\)’, in the sense that ‘it-is-others,–as-of-the-prior-registry-worldviews/dimensions,–that-have-an-uninstitutionalised-threshold\(^0\)–and-the-notion-of-transcendence-is-only-relevant-to-them-as-the-current-presence-is-normal’. This operantly defines procrypticism—or–disjointedness-as-of reference-of-thought as beyond just the construal of new supposedly intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology of the prospective institutionalisation to preempt the temporally denaturing reference-of-thought–categorical-imperatives/axioms/registry-teleology of the prior institutionalisation, but rather

Overall, the fact is that given that what is most relevant to the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-profound-supererogation—or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perception-and-relation to meaningfulness-and-teleology over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation—or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits-and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere

preempting—disjointedness-as-of-reference-of-thought. The issue of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of-meaningfulness-and-teleology mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that is behind organic-knowledge. Human totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold in temporal/shortness-of-register-of-meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity—of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference.
secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness\(^1\)-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’\(^2\) is in a state of ‘amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^3\) of a medieval worldview will grasp that that unique demonstration of medieval-postlogism/perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(^4\) (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing- or- logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as ‘prelogic supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments\(^5\) potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/reference-of-thought into a positivistic
in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\); as we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublating/supererogatory–de-mentativity not only to science but transcendental-enabling/sublating/supererogatory–de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\) with respect to the prospective registry-worldview/dimension as resolving the vices-and-impediments\(^{106}\) of the prior registry-worldview/dimension. But then no matter the succession of institutionalisations as successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\), there is an ever present issue of Being underdevelopment as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor wherein institutionalising reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\)
are always subject at uninstitutionalised-threshold to their denaturing as of their wooden-language-imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing-narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology, as of temporal failing to uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Hence Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology given human limited-mentation-capacity is rather upheld by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation wherein the abstract intemporal/longness-of-register-of—meaningfulness-and-teleology behind the prior registry-worldview institutionalisation should equally be reflected as of prospective registry-worldview institutionalisation, and involving the requisite deferential-formalisation-transference secondnaturering of knowledge as organic-knowledge. We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of wooden-language-imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnaturung education practically available to everyone interested, and so while alienating

However despite this knowledge and sovereignty dilemma associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, the insight about human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of self-referencing and syncretising-effecting intemporal implications means that the requisite intemporal/longness-of-register-of–meaningfulness-and-teleology psychoanalytic-unshacking positive-opportunism—of-social-functioning-and-accordance can crossgenerationally be induced for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology despite the inherent circular distractiveness of temporality, and ultimately so as enabled by ‘social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative–epistemicity→totalising–in-relative-ontological-completeness ⟩’ The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory–de-mentativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism meaningfulness-and-teleology constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaus, Diderots, etc., were not vague actions but informed by
an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional–firstnaturedness—temporal-to-intemporal-dispositions=<so-construed-as-from-perspective–ontological-normalcy/postconvergence'>–existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency—{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness}'. As it is the latter that induces that social positive-opportunism—of-social-functioning-and-accordance for deferential-formalisation-transference and institutional percolation-channelling-<in-deferential-formalisation-transference>, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought, transcendental knowledge is of a circular but consistent exercise of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity <-shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema> reference-of-thought and introducing the prospective ontological-contiguity reference-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–human<amplituding/formative–epistemicity>totalising–purview-of-construal’. maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation as of realisation/re-perception/re-thought implied as of prospective institutionalisation’s deneuterising. It should thus be noted that such a transcendental exercise is not about passing the test as of the judgment of uninstitutionalised-threshold mental-reflexes of maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation intemporal-projection transcendental-enabling/sublimating/supererogatory — de-mentativity for prospective institutionalisation relative to such that circularly reinstitute the uninstitutionalised-threshold temporality/shortness as if intemporal in incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside — attendant ontological-contiguity — educed existentialising/contextualising/textualising-contiguity. In other words prospective institutionalisation arises as of ‘transcendental-reasoning-of-event’ — as-prospective-ontology-origination’ which as of prospective relative-ontological-completeness — of-axiomatic-construct-or-reference-of-thought is introducing a ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’ that blocks-out/supersedes/de-asserts/dements as of notional-discontiguity/epistemic-discontiguity — shallow-supererogation — of-mentally-aestheticised—preconverging/dementing — qualia-schema — the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’; with the implication that our ‘procrypticism—or—disjointedness-as-of — reference-of-thought reasoning’ is not admissible to
prospective ‘deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought reasoning’ and so from the moment of the event—construed-as-the-prospective-ontology-origination of deprocrypticism, just as ‘non-positivistic medieval reasoning’ is not admissible to prospective ‘positivism reasoning’ from the moment of the event—construed-as-the-prospective-ontology-origination of positivism, etc., across the successive institutionalisations in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process; and so as of notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-
aestheticised—preconverging/dementing—qualia-schema> of the uninstitutionalised-threshold and the prospective institutionalisation. Such a temporal/shortness-of-register-of—meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event—as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sUBLIMITY/sublimation/supererogation—de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event—as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of—meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication-as-of-existential-unthought> denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of preconverging-existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism—of-social-functioning-and-

accordance it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care–and–episteme as of intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-teleology rather in postconverging-nonextricatory-existential-preempting-of-existential-unthought terms–as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care–and–episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and- adoption of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms–as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness–reference-of-thought meaningfulness-and-teleology. Likewise meaningfulness-and-teleology articulated as of deprocrypticism–or–preempting–disjointedness–as-of–reference-of-thought relative to our positivism–procrypticism necessarily requires priorly the requisite apriorising-teleological-elevation-in-ontological-contiguity from positivism–procrypticism’s disjointedness–as-of–reference-of-thought mindset into deprocrypticism’s preempting–disjointedness–as-of–reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as otherwise such knowledge will be teleologically-degraded in circular positivism–procrypticism disjointedness–as-of–reference-of-thought terms–as-of–
axiomatic-construct as of prior relative-ontological-incompleteness of reference-of-thought meaningfulness-and-teleology, even though in the latter case our totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence (implicated: nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive—constitutedness) blinds us to appropriately appreciating this given the human mental-reflex of representing any uninstitutionalised-threshold as nondescript/ignorable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing -narratives) as of our totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon/projection for its prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiology/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming and not temporal extricatory preconverging—de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlying its meaningfulness-and-teleology thus requiring the latter’s prior apriorising–teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism
worldview/dimension as well as the registry-worldview’s/dimension’s overall reference-of-thought, as of its specific reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. Thus an attitude/mental-disposition/care—and—episteme can pertinently be defined as the ‘assumed-and-unflinching apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument transversality’ inducing a given specific nonpresencing—perspective—ontological-normalcy/postconvergence outcome with regards to prospective relative-ontological-completeness—or-incompleteness-of—reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-teleology associated with that attitude/mental-disposition/care—and—episteme; and so, whether such a framework is a reference-of-thought as of overall construal-as-existence/existential-possibilities, or within a reference-of-thought like a social projection totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or specifically with living-as-of-human-personality-developing. For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality—for-sublimating—existential-eventuating/denouement—of—affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ as of the attitude/mental-disposition/care—and—episteme of positivism’s/rational-empiricism’s perceptivity—as-of—full-disease-and-scientific-theory-construct—as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness—
teleology \textsuperscript{100} as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given \textsuperscript{84} reference-of-thought, say in our positivism/rational-empiricism \textsuperscript{84} reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme\textsuperscript{5}, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-developing. Attitude/mental-disposition/care–and–episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{88} by-reification/contemplative-distension\textsuperscript{26} (as of human self-surpassing—existentialism-form-factor, in-overcoming—‘notionally–collateralising-beholdening-protohumanity’–to–‘attain-sublimating-humanity’–as–to–existence-potency ~sublimating–nascence,–disclosed–from-prospective-epistemic-digression to supersede human temporality\textsuperscript{99}/shortness <amplituding/formative> wooden-language\textsuperscript{⟨imbued—averaging–of–thought<as–to–leveling/ressentiment/closed–construct–of–meaningfulness–and–teleology –as–of–‘nondescript/ignorable–void ’–with–regards–to–prospective–apriorising–implications⟩⟩ to be able to achieve transcendence–and–sublimity/sublimation/supererogatory–de–mentativity’, and so as of intemporality\textsuperscript{52}. With regards to living-as–of–human-personality–developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care–and–episteme that it has a poor dispensing-with-immediacy–for–relative–ontological–completeness\textsuperscript{88} by–reification/contemplative–distension\textsuperscript{26} as of its more direct focus on instant–sensations–and–carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing–with–immediacy–
for-relative-ontological-completeness by-reification/contemplative-distension that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development-as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension is construed as the more profound attitude/mental-disposition/care–and–episteme for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care–and–episteme of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with attitude/mental-disposition/care–and–episteme dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension, for achieving transcendence-and-sublimity/sublimation/supererogatory–de-mentativity; humankind construes of existence as ‘more than just plain living as animals’ but as enabling for various domains of social projections dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension so-implied across the various registry-worldviews/dimensions, whether in an animistic social-setup involving animistic practices or in the modern social-setup as of our modern practices involving subject-matter specialisms, trade roles, functionaries, arts, research, sports and other activities, etc.; with each involving their specific attitude/mental-disposition/care–and–episteme dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension. The idea being that this provides more existential possibilities by the overall expanded human capabilities available directly or indirectly to fulfil individuals desires and needs. As we can appreciate that without implying a dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension as of a child’s living-as-of-human-personality-developing, the child’s poorly developed attitude/mental-disposition/care–and–episteme’ will poorly face optimum living of adult life or where such was the case about all human children then the human species will be no more culturally unique than any other animal. This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care—and—episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care—and—episteme of a given institutionalisation’s reference-of-thought as of prospective relative-ontological-completeness—of-axiomatic-construct-or-reference-of-thought and thus its corresponding meaningfulness-and-teleology, and the other doesn’t as of prior relative-ontological-incompleteness. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its ontological-primemovers-totalitative-framework induced positive-opportunism—of-social-functioning-and-accordance as of scientific, medical, technical advancements, free society, etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-
coherent positivist networks and societies for the perpetuation of positivistic
meaningfulness-and-teleology while averting its denaturing by wrongly implying notional-contiguity/epistemic-contiguity with scholasticism. But rather implying notional-discontiguity/epistemic-discontiguity given the latter’s flawed preconverging–de-mentating/structuring/paradigming as of prior relative-ontological-incompleteness of reference-of-thought. The insight here is that more fundamentally knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating/supererogatory–de-mentativity above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-primemovers-totalitative-framework’, and so beyond institutional-being-and-craft and social-aggregation-enabling wooden-language-{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications}. Where these latter practices become de rigueur as of beyond-the-consciousness-awareness-teleology denaturing of the requisite intellectualism required for further Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, and start undermining knowledge construction as of its intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/de-mentativity, effectively there shouldn’t be any compunction as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming to overlook them and imply intellectual-and-moral-in equivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in other to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing predisposition. This is critically the case with registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/de-mentativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought—prior relative-ontological-incompleteness reference-of-thought construes of ‘implied grounding of ‘meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of presencing—absolutising-identitive-constitutedness while the new/prospective/superseding as of its prospective relative-ontological-completeness reference-of-thought construes of ‘implied grounding of ‘meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of prospective nonpresencing—perspective—ontological-normalcy/postconvergence. What is then the manifestation of such intellectual undermining which must necessarily be understood as of knowledge-notionalisation required as of the notional–conflatedness\textsuperscript{12} of deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought protensive-consciousness? ontological-bad-faith/inauthenticity\textsuperscript{64} as of its charlatanic effect fundamentally involves the undermining at any human uninstitutionalised-threshold\textsuperscript{63} of the possibility of intellectually induced social universal-transparency\textsuperscript{11}–{(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness )}; for the ultimate outcome of undermining any such intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Such a beyond-the-consciousness-awareness-teleology\textsuperscript{100}–<in-preconverging–existential-extrication-as-of–existential-unthought>\textsuperscript{6} undermining exercise is geared towards the ontologically-flawed apriorising–teleological-elevation-in-ontological-contiguity\textsuperscript{7} of social <amplituding/formative> wooden-language–{imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology as-of–‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> and untransvaluated–temporal-intemporality\textsuperscript{12} social-chainism, on the conation of upholding ontological-bad-faith/inauthenticity\textsuperscript{4} contentions; by its deflating of the conception of ontologically-veridical \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} as of human mortals contentions in transversality–<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{102}, wherein the ‘superior party’ of existence/intrinsic-reality/ontological-veridicality is the validator of ontological-pertinence as of concurrent ontological-prime movers-totalitative-framework\textsuperscript{7}, and thereof ‘detour to social goodwill deferential-formalisation-transference to perceived
overwhelming-relative-effectiveness’ as new reasoning-from-results/afterthought, and so over and above ‘interhuman negotiating or agreeableness’. Thus ontological-bad-faith/inauthenticity as of its charlatanic effect undermines, as of beyond-the-consciousness-awareness-teleology, the articulation of meaningfulness-and-teleology as of prospective maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation that could jeopardise pre-established temporal interest, and cultivating rather incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation as of prior reasoning-from-results/afterthought in overlooking concurrent ontological-primemovers-totalitative-framework strife to uphold-and-promote the ‘superior party’ which is the nonpresencing-perspective-ontological-normalcy/postconvergence of existence/intrinsic-reality/ontological-veridicality; with such intellectual-bad-faith rather advancing such an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation accommodating framework for strategically cultivating pre-established temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contenotions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-primemovers-totalitative-framework, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation that in many ways could just as well validate wooden-language-{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology—as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications} and untransvaluated—temporal-intemporality attitude/mental-disposition/care—and—episteme and
their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—{blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness} that usurps the very notion of scepticism in incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory—de-mentativity. This poor scepticism attitude/mental-disposition/care–and–episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has <preconverging~‘motif-and-apriorising/axiomatising/referencing’—imbuing>existentialising—enframing/imprintedness—{as-to–historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition} implications as of the forestalling of prospective ‘concurrent ontological-primemovers-totalitative-framework’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative–epistemicity>totalising-devolved—purview/domain-of-construal—as-intrinsic-reality/ontological-veridicality/existential-reality in terms—as-of-
axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness, ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness’ and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension, a perfidious ontological-bad-faith/inauthenticity scepticism involves eliciting a sense of immediacy and temporality/shortness as of wooden-language-〈imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications〉 and untransvaluated–temporal-intemporality social-chainism as ‘developed thought’, thus deflating the requisite dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension intemporal detachment/backstep for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In this latter respect, and for the possibility of prospective social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding

The implication here is that ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality is rather about a ‘seeding promise of human-subpotency ontological-performance—<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence-as-of-its-coherence/contiguity’, but that reasoning-through/messianic-reasoning adduced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity prospectively comes out short with the

Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as
safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology-de-mentativity-of-meaningfulness-and-teleology-turning-rather-towards-social-aggregation-enabling-implications-as-meaningfulness-and-teleology-ontological-performance-including-virtue-as-ontology-undermining-the-very-notion-of-the-intellectual-exercise-as-about-developing/institutionalising-the-social-and-not-kowtowing-to-it-construed-as-charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from-the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology-as-of-ontology’s-directedness-as-Being-going-by-the-human-intemporal/ontological/social/species/universal/transcendental/maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation-postconverging–de-mentating/structuring/paradigming. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality/shortness or intemporality; such that even the budding-positivists carried elements of scholasticism but

sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual
totalising~self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 30 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework construal as implied with notional-deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance <including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a same
parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our

This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendent-enabling/sublimating/supererogatory–de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. \text{ontology}>\)) implies the need for a sound perpetuating construct of \(^{15}\) universal projection as intemporality -or-longness-of-register-of-\(^{19}\) meaningfulness-and-teleology\(^{10}\) as the opportunity for prospective transcendent-enabling/sublimating/supererogatory–de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative \(^{10}\) universal implications as beyond presence issues and complexes as it sublimates presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-\(<\text{amplituding/}formative–\text{epistemicity}>\text{totalising–in-relative-ontological-completeness}\)\(^{19}\) thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of
wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory de-mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive de-mentative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educated–existentialising/contextualising/textualising-contiguity} constitutedness\(^1\)-in–preconverging-entailment to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology\(^2\) but was caught up in the amplituding/formative-epistemicity-totalising–thrownness-in-existence\(^3\) (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\(^4\)-<including-virtue-as-ontology>) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as
transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence-{implicit-epistemic-veracity-of- nonpresencing-} as of notional–deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence-{implicit-’nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness } framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. Transcendence-and-sublimity/sublimation/supercerogatory—de-mentativity as implied here is with regards to reference-of-thought/epistemic-totalisation level ‘reference-of-thought—devolving-

Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory–de-mentativity rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise 56 meaningfulness-and-teleology failing to factor in that ‘existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness-to–meaningfulness-and-teleology all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of 56 meaningfulness-and-teleology to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of meaningfulness-and-teleology in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-deepening arising in further apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity} conflatedness—in-{preconverging-disentailment–by}–postconverging-entailment as of human maximalising-recomposuring-for-relative-ontological-completeness—unenframed-

But then an adjunctive-metaphoricity$-signification so produced as reflected by ‘a transcendental syncretising-effecting ‘meaningfulness-and-teleology’ like the
construal of budding-positivism/rational-empiricism in medieval society, may turn out in-due-course/crossgenerationally to be of an even greater meaningfulness-and-teleology

totalising/circumscribing/delineating effect over the prior notion of the ‘underlying totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying totalising/circumscribing/delineating signifying-construct of language’; and so as of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some significations of the prior ‘underlying totalising/circumscribing/delineating signifying-construct of language’ together with some adjunctive-metaphoricity-significations of the prior ‘underlying totalising/circumscribing/delineating signifying-construct of language’, while ELIMINATING some significations of the prior ‘underlying totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity-significations of the prior ‘underlying totalising/circumscribing/delineating signifying-construct of language’, and finally LEAVING-OUT some significations of the prior ‘underlying totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity-significations of the prior ‘underlying totalising/circumscribing/delineating signifying-construct of language’, as its very own as the prospective ‘underlying totalising/circumscribing/delineating signifying-construct of language’ adjunctive-metaphoricity-significations to which other adjunctive-metaphoricity-significations could be incorporated adjunctively. Effectively, with the
positivism/rational-empiricism self-referencing epistemicity totalising/circumscribing/delineating construct of meaningfulness-and-teleology, its adjunctive-metaphoricity -signification can be construed as of the historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism> of crossgenerational positivism/rational-empiricism reappropriation of the ancient mathesis universalis metaphoricity as its very own ‘underlying epistemicity totalising/circumscribing/delineating signifying-construct of language’ ‘behind the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant epistemicity totalising/circumscribing/delineating construct of meaningfulness-and-teleology. Existence itself as the absolute a priori underscores such a conception given the human species sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing~as-to-possibilities-of-self-becoming-as-of—existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe meaningfulness-and-teleology as not self-referentially covered by the ‘underlying epistemicity totalising/circumscribing/delineating signifying-construct of language’, they will inevitably articulate adjunctive-metaphoricity -significations to that prior ‘underlying epistemicity totalising/circumscribing/delineating signifying-construct of language’. This explains the lockstep nature of human meaningfulness-and-
the syncretising-effecting as of the acculturation-indigenisation-pidginisation behind dialectal
differentiation, national language formation, and the cultural diffusion associated pidginisation
and creolisation; as of social-stake-contention-or-confliction context adjunctive-

‘underlying $\langle$amplituding/formative–epistemicity$\rangle$ totalising/circumscribing/delineating
signifying-construct of languages’. In another respect with regards to language acquisition as
mirroring a child’s existential integration into the dynamics of social-construct existential
situations/instances, stakes, institutions and processes, a new born child existential integration
into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity\textsuperscript{57}-
significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-
freeplay’ construed here as the phenomenology of human language acquisition différance’ that
fundamentally mirror the child’s developing existential social relationships as an ordered
process of social existential overtures constraining-and-cohering the child’s adoption-
of/integration-with the supposedly ‘underlying $\langle$amplituding/formative–
epistemicity$\rangle$ totalising/circumscribing/delineating signifying-construct of language’ as of a
peculiar, intuitive and dynamic developing metaphoricity\textsuperscript{57} where ‘both the child and members
of the overall social-construct existentially adjust to each other as of spurious meaningful
utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s
adoption/integration at various stages of its existential development of the ‘underlying
$\langle$amplituding/formative–epistemicity$\rangle$ totalising/circumscribing/delineating signifying-
construct of language’ as it is reflected by the dynamics of social-construct existential
situations/instances, stakes, institutions and processes. But then as might be
phenomenologically appreciated the notion of language as of its existential import is thus
utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather
‘immensely existentially present’ with an ‘absolute language signification construct imagery
rather implied as of projection/anticipation but not phenomenologically real’ explaining the
concrete variation of individuals linguistic performance, as the phenomenality of language is
rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment
<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-
existential-reality> for its evolving-and-devolving construct of ‘meaningfulness-and-
teleology’! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-
elusive individual and collective-social consciousness steering that reflects the
<amplituding/formative–epistemicity>totalising~self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-
social ‘meaningfulness-and-teleology’, and this equally explains why language evolves and
transforms over time. In effect, ‘language is never phenomenologically the complete
possibilities of language as an absolute present conception but is rather a becoming as of an
immensely-existentially-present signification reflected by individuals and the collective-social
along existential development stages as of the dynamics of social-construct existential
situations/instances, stakes, institutions and processes’. The above insight further points out the
pertinence of construing-of and analysing language more completely as of human
existentialism/thrownness/facticity, giving that language is more phenomenologically-and-
pragmatically a signification accompaniment of ‘individuals and the collective-social along
existential development stages as of the dynamics of social-construct existential
situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge
implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay’ with
regards to such a phenomenological conception of language as a lockstep veridical reflection of
human personality development all along the various existential stages as of a notion of the
dynamics of social-construct existential situations/instances, stakes, institutions and processes
from childhood to adulthood’, notwithstanding the fact that the privileged social
conceptualisation of language is as of ‘language as the complete possibilities of language as of
an absolute present conception usually of a privileged end-institution purpose’. Metaphoricity
is thus rather construed as of its overall apriorising/axiomatising/referencing-{of-attendant-

The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon/projection of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism’. While such a
privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms—as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon/projection driven basis for ontological-construction’, and so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon/projection as of its ‘non-recording and negation’ of a ‘diverse-and-complete existential effecting possibilities accountability for ontological-construction’, and rather assuming the approach of a ‘select privileged historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism’ ontological-construction’, instead incompletely portrays the operant reality of humanity’s existence as of the cumulation of successive humanity’s <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as implied with the various institutionalisations finalities. But then while that is pertinent, and so with regards to the successive institutionalisations outcomes of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process’ as of difference-conflatedness—as-to-totalitative-reification-in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing—as-veridical-epistemicity-relativism-determinism <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological—

The implication here resonates with the idea that knowledge is much more than the construal of conceptual sublimation knowledge outcome, but rather its construal as notional-knowledge involving the dynamic understanding of both its temporality/misconstrual/desublimation and intemporality/as-ontological-construal as of accruing-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising referentialism and thus beyond ‘neuterising’ reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing of the uninstitutionalised-threshold and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporality/as-ontology but involves grasping this together with the implications of temporality, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential meaningfulness-and-teleology signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon/projection that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent

Consider in this regard that the ‘Derridean quasi-transcendental-freeplay différance’ is akin to the contributions of many prior seminal scientists like Poincaré, Lorentz, Plank, Rutherford and others to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs but whose works were still being interpreted in terms-of/adjunctive-to ‘traditional classical mechanics axiomatic-construct’ thus explaining the reality of a notional-discontiguity/epistemic-discontiguity \(^{-}\) shallow-supererogation of mentally-aestheticised—preconverging/dementing–qualia-schema between the two as of their distinct supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of- apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument –for– conceptualisation. Whereas accreting-substitutive-subsumption-as-futural-différance-freeplay is akin to the complete ‘epistemic-break’, as of Einstein’s defining-threshold contribution with the-theory-of-relativity and Bohr’s defining-threshold atomic-model contribution to quantum-mechanics together with other seminal scientists subsequent contributions that ultimately led to ‘the very same physics \(^{45}\) amplituding/formative–epistemicity totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity as of the theory-of-

In any case thus such a ‘Derridean quasi-transcendental-freeplay différance’ doesn’t have any serious ontological consequences with respect to presencing—absolutising-identitive-constitutedness since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural différance where meaningfulness-and-teleology is construed as of the prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-

perfectly satisfies the ‘foreboding concern for ontological-veracity’ critically pursued by the Derridean freeplay différance, as it is existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation that phenomenological validates transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and so implying human limited-mentation-capacity-deepening; and thus, this point that enables the Derridean freeplay différance as of tendential-deliberation-of-decidability to achieving transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is the full apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}-conflicatedness-in-{preconverging-disentailment-by}-postconverging-entailment reflecting existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation that phenomenological validates transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in its nonpresencing-perspective-ontological-normalcy/postconvergence, and so beyond just a Derridean freeplay différance which is then in apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}-constitutedness-in-preconverging-entailment as not factoring in the process of a tendential-deliberation-of-decidability towards attaining transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental developments in physics since then, even though its ‘meaningfulness-and-teleology’ remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension ‘reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20th century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18th and 19th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care–and–episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory–de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology—implied-in-preconverging-existential-extrication-as-of-existential-unthought’, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given

While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a \textsuperscript{8}reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism \textsuperscript{8}reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of \textsuperscript{8}reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} as grounded on a given ‘registry-worldview’s/dimension’s \textsuperscript{8}reference-of-thought \textsuperscript{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \textsuperscript{8}established existential–epistemic-totalisation-of–\textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100}’ as well as the ‘psychological comfort’ habituated at the given \textsuperscript{58}neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{50}meaningfulness-and-teleology\textsuperscript{00} as of prospective notional–deprocrypticism is exactly the capacity to construe \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{00} as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for \textsuperscript{54}meaningfulness-and-teleology\textsuperscript{00} beyond-the-consciousness-awareness-teleology\textsuperscript{00}—\textsuperscript{<in–preconverging–existential–extrication–as–of–existential–unthought>}\textsuperscript{8}arising as of human prior relative-ontological-incompleteness\textsuperscript{99}–of–\textsuperscript{8}reference-of-thought. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. It is human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness of reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-prime-movers-totalitative-framework by existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening for human emancipation. Thus implying existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression is ‘not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation directed directly to inherent-existence-as-of-existential-reality/existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-
recomposuring-constructivism-towards-singularisation\textsubscript{as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing} as of human limited-mentation-capacity-deepening bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsubscript{as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing} has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsubscript{as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing}’ of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising meaningfulness-and-teleology\textsuperscript{100} that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective meaningfulness-and-teleology\textsuperscript{100}’ as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsubscript{as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing} that led to human limited-mentation-capacity-deepening \textsuperscript{1}. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness\textsuperscript{89} of-axiomatic-construct-or reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity\textsuperscript{87} of-the-human-institutionalisation-process\textsuperscript{68} behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\textsuperscript{49} meaningfulness-and-teleology\textsuperscript{100}.
That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiac-drag <, wherein mental-dispositions operate by
default without a double-gesturing, on the ‘wrong assumption that they already have the most
ontologically-developed perspective/framing/reference/horizon/projection for grasping
prospective \textit{meaningfulness-and-teleology}'; and failing to project/anticipate prospectively
the implications of their very own shallow limited-mentation-capacity implications from a
deeper prospectively-construed perspective/framing/reference/horizon/projection. Such a
‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence
(implicated-'nondescript/ignorable–void '-as-to- presencing—absolutising-identitive-

contemplation of the retrospective and prospective projective-insights for construing
ontologically-veridical \textit{meaningfulness-and-teleology}. This paradox for human knowledge,
as implied with the postmodern double-gesture reification, highlights that the human
preconverging/postconverging–de-mentating/structuring/paradigming for construing knowledge
is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about
‘human blindness which needs to be resolved first before proceeding to see’; as what is to be
seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to
develop the necessary \textit{human-subject-emancipatory-relativism-driven-recomposuring-

In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing’ paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness-reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s/uninstitutionalised-threshold’s reference-of-thought as of its prior relative-ontological-incompleteness-reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness-reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance’-<including-virtue-as-ontology> as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with 4 historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing—apriorising-psychologism. Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness-reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking—apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing—apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is
about the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness of reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as to the-nondisjointedness/entailment-of-prospective nonpresencing as of human-subpotency apriorising/axiomatising/referencing {of-attendant ontological-contiguity -educed existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging disentailment by} postconverging-entailment', and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of <preconverging~’motif-and-apriorising/axiomatising/referencing’–imbuing> existentialising—enframing/imprintedness (as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of-reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness’ re-originary—as-unenframed/unbeholdening/outlier-conceptualisation(imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in- conflatedness ‘-of-notional-deprocrypticism-prospective-sublimation) appraisal of human narratives as to dimensionality-of-sublimating (<amplituding/formative> supererogatory dementativeness/epistemic-growth-or-conflatedness /transvalutive-

The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care–and–episteme’ as of its procrypticism–or–disjointedness-as-of–reference-of-thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ which prospectively represents the modern as preconverging–or–dementing–apriorising-psychologism while the postmodern is postconverging–or–dialectical-thinking apriorising-psychologism; as the point of assertion of postmodern-thought as deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought is actually a point of prospective de-mentation (supererogatory–ontological–de-mentation-or–dialectical–de-mentation–stranding-or-attributive-dialectics). Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/’constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications
for their non-ideologised ontologically-veridical observations/remarks/‘constatations’ about the
constructivism, relativism and deconstruction manifestation/conception of social reality. Thus
the ontologically affirmatory position adopted herein as of the prospective ‘postmodern

Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding-positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the latter’s institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for universal-transparency\(^10\)—(transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—epistemicity)totalising—in-relative-ontological-completeness } as of overall underlying human ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—dementating/structuring/paradigming—as-being-as-of—existential-reality> as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\(^97\) for relative-ontological-completeness ; it is inevitably the case that what is most critically warranted is for the ‘prospective/new postmodern deprocrypticism–or–preempting—disjointedness-as-of—
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ to articulate its full-fledged discourse as of universal-transparency\(^{10}\)\{transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \}\ as of the liberality of thought allowed for in open society notwithstanding such extra-intellectual and media-driven perverted representation of postmodern-thought. The reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective de-mentative/structural/paradigmatic transcendental knowledge by its so-projected intemporality\(^{52}\), at the uninstitutionalised-threshold\(^{10}\), is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the lack of universal-transparency\(^{10}\)\{transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \}\ for its prospective institutionalisation. Critical for the social validation and institutionalisation of any de-mentative/structural/paradigmatic transcendental knowledge is the fact that its ‘concurrent ontological-primemovers-totalitative-framework\(^{73}\)’ is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold\(^{03}\) cannot adjudge-and-commit-to the ontological-pertinence of such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework\(^{73}\)’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework’ of the prospective positivism/rational-realism transcendental knowledge articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as \(^{55}\)meaningfulness-and-
of prospective relative-ontological-completeness' reference-of-thought validated by corresponding prospective 'concurrent ontological-primemovers-totalitative-framework'. Such 'concurrent ontological-primemovers-totalitative-framework' was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of 'concurrent ontological-primemovers-totalitative-framework' is only more or less determinant as of the institutionalisation's internal basis of validation of knowledge grounded on its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of its totalising/circumscribing/delineating 'reference-of-thought–devolving'. However, at its uninstitutionalised-threshold the prospective 'concurrent ontological-primemovers-totalitative-framework' as of the prospective institutionalisation's basis of validation of knowledge grounded on the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation's totalising/circumscribing/delineating 'reference-of-thought–devolving' will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology–<in-preconverging-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of
the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness’. Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought–

categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–

devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought–
categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–

devolving’, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendentatal knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendentatal knowledge ‘concurrent ontological-primemovers-totalitative-framework’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism—of-social-functioning-and-accordance that brought about the ‘detour to social goodwill deferential-
formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-
deriving-from their notions of universal human rights and open society, technical advances,
better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking -’projective-insights’/’epistemic-projection-in-conflatedness’)-of-}
notional–deprocrypticism-prospective-sublimation) originary/event -of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating -(<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern-day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge
construal, as implied for instance by postmodern-thought and particularly so as postmodern-

thought has still been undergoing its full construction. The implication here is that all

prospective transcendental ‘meaningfulness-and-teleology’ superseding uninstitutionalised-

threshold do not come about as of simplistic continuity but rather as of epistemic-

breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-

formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-

upheld by the associated successive prospective ‘concurrent ontological-primemovers-

totalitative-framework’ postconverging–de-mentating/structuring/paradigming of

‘reference-of-thought’ categorical-imperatives/axioms/registry-teleology, -for-
aposteriorising/logicising/deriving/intelligising/measuring– ‘meaningfulness-and-teleology’,

as of successive prospective relative-ontological-completeness reference-of-thought. The

implication of such an indirect nature of human social-stake-contention-or-confliction

framework validation of transcendental knowledge as of ‘detour to social goodwill deferential-

formalisation-transference to perceived overwhelming-relative-effectiveness’ and not just direct

‘concurrent ontological-primemovers-totalitative-framework’ implies that just as prospective

de-mentative/structural/paradigmatic transcendental knowledge prospective ‘concurrent

ontological-primemovers-totalitative-framework’ could be ‘objected to as of human social-

stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-

ontological-completeness reference-of-thought given its prior lack of ‘detour to social

goodwill deferential-formalisation-transference to perceived overwhelming-relative-

effectiveness’; any such prospective de-mentative/structural/paradigmatic transcendental

knowledge must be construed and thought-out strategically as of its ultimate establishment of

‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-

relative-effectiveness’ that as of its prospective relative-ontological-completeness reference-of-thought supersedes the prior relative-ontological-incompleteness
reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent ontological-primemovers-totalitative-framework’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance of any ‘reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’.

Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ warrants that postmodern-thought hitherto articulated beyond-the-consciousness-awareness-teleology in terms-as-of-axiomatic-construct of the ‘modern take attitude/mental-disposition/care–and–episteme’, need to be translated-as-reconceptualised into its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
attitude/mental-disposition/care–and–episteme”; thus leading to a sort of postmodern-thought mechanical knowledge that is in many ways just budding and poorly acted upon. Ultimately, a ‘new/prospective postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, as of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought is rather a notional~conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness -of- reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ should equally enable the avoidance of the erroneously implication of ‘a metaphysical/ideological advocacy’ as postmodern-thought as to human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation
as the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ while tempering down any prior/old/superseded or prospective/new/superseding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implied as of ‘the reality of human shallow-to-deeper limited-mentation-capacity apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implications’ on the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, in defining which
reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is ‘relevant as the attitude/mental-disposition/care–and–episteme of wholly immersed-and-engrossed meaningfulness-and-teleology’. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present
attitude/mental-disposition/care–and–episteme); and so, as the framework of any subsequent
cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by
attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand
that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching
transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-
unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing” implies a
mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed
meaningfulness-and-teleology” as of their given neuterising-as-of-prior-relative-
ontological-incompleteness-of-‘reference-of-thought if a ‘prior/old/superseded attitude/mental-
disposition/care–and–episteme’ or deneuterising-as-of-prospective-relative-ontological-
completeness-of-‘reference-of-thought if a ‘prospective/new/superseding attitude/mental-
disposition/care–and–episteme’, whilst the ‘present attitude/mental-disposition/care–and–
episteme’ is then rather adhocly-and-scantily identified now as either deneuterising if it in
relation to the prior/old/superseded or neuterising if it is in relation to the
prospective/new/superseding. In other words, when it comes to registry-worldview/dimension
implications, ontologically-veridical representation of attitude/mental-disposition/care–and–
episteme means ‘to be or exist as of the given registry-worldview/dimension ‘reference-of-
thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-
flawed as it registers into the ‘present attitude/mental-disposition/care–and–episteme’ unlike
the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination
of representation as it overrides the ‘present attitude/mental-disposition/care–and–episteme’.

This radicalisation is grounded on the rational-realism postulate that humankind as of its limited-
mentation-capacity-deepening has always encountered its uninstitutionalised-threshold all
along in reflecting holographically.<conjugatively-and-transfusively> the ontological-
contiguity<ontological-contiguity>—of-the-human-institutionalisation-process retrospectively and prospectively,
reflecting the reality that humankind is of both a temporal/shortness-of-register-of-

and-teleology nature at uninstitutionalised-threshold, as of prospective institutionalisation
prospective relative-ontological-completeness of reference-of-thought and
uninstitutionalised-threshold prior relative-ontological-incompleteness of reference-of-

which poorly appreciates the continuity implied by ‘intemporal ontological-faith-notion-or-

caught up, beyond-the-consciousness-awareness-teleology<in-preconverging-existential-

the positivism/rational-empiricism institutionalisation outcome as of its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from non-positivism/medievalism, and as it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness-of-reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of-untransvaluated–temporal-intemporality at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness-of-reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of–meaningfulness-and-teleology posture in

a <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag

untransvaluated–temporal-intemporality at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness-of-reference-of-thought, implying recognising its uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, as knowledge-
notionalisation not only factors in conceptual sublimation knowledge dynamics but equally the
dynamics of the conceptual ignorances/desublimation to better skew meaningfulness-and-

that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of

is ‘existentially invested’ in modern social-stake-contention-or-confliction framework of
infrastructure-of–meaningfulness-and-teleology implied notion of responsibility as reflected by the Nietzschean metaphor ‘God is dead’, castigatory of ‘beyond-the-consciousness-awareness-teleology−<in-preconverging-existential-extrication-as-of-existential-unthought>−attitude/mental-disposition/care–and–episteme’, which is inclined to pass on to ‘a certain Messiah’ the possibility of our Being-development/ontological-framework-expansion−as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology on that basis on the naivety that such passing on is teleologically-elevating and exonerating of our mortal-as-temporal manifestations so-construed as a ridiculous untransvaluated–temporal-intemporality notion. This equally points to what is the central ethos of aetiologisation/ontological-escalation implied as of ‘notional–deprocrypticism attitude/mental-disposition/care–and–episteme as of ontological-normalcy/postconvergence epistemic perspective in postconverging–nonextricatory–existential-preempting–of–existential-unthought’; as much more than just with regards to a resolutory conception of acts and miscuings in temporality/shortness as of themselves circumstantially, but rather as of the relevance to myriad human social situations is much more critically an issue of universal import, escalated as of humankind’s temporal ontological-contiguity as beyond-the-consciousness-awareness-teleology−<in-preconverging-existential-extrication-as–of–existential-unthought>−attitude/mental-disposition/care–and–episteme with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of attendant–ontological-contiguity−educed–existentialising/contextualising/textualising-contiguity–in-reification/dereification cognisant–and–integrative of such acts and miscuings in temporality, thus endemising and enculturating the reference-of-thought vices–and–impediments. Thus such Being underdevelopment, construed as of dynamic social–chainism
so-implied as of prospective relative-ontological-completeness\textsuperscript{8} of reference-of-thought. What is particular with notional-discontiguity/epistemic-discontiguity of supererogation of-mentally-aestheticised-preconverging/dementing \textsuperscript{-qualia-schema} is this insight that fundamentally the appropriate prospective relative-ontological-completeness\textsuperscript{8} of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme precedes-and-is-the-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-to its requisite meaningfulness-and-teleology\textsuperscript{100} as prospective aetiologisation/ontological-escalation. This reflects the salient and underlying idea about Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} that a given reference-of-thought meaningfulness-and-teleology\textsuperscript{100} cannot be apriorised as of a prior/old prior relative-ontological-incompleteness\textsuperscript{8} of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme to that given reference-of-thought. It is this naivety that underlines the Heideggerian techne concern as we fail to appreciate that the technical and organisational possibilities preceding and associated with a registry-worldview/dimension prospective institutionalisation transitioning of meaningfulness-and-teleology need to be rethought as of the prospective institutionalisation attitude/mental-disposition/care–and–episteme

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, and so superseding that of the uninstitutionalised-threshold. We can appreciate in this regard that budding-positivism/rational-empiricism and its associated liberality that was the backdrop for technical and organisation possibilities that actually required their interpretation in terms–as-of-axiomatic-construct of advancing human emancipation and bringing an end to serfdom in Europe for instance, but as of a perverted twist due to poor appreciation of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology led to the opportunistic undermining of human emancipation elsewhere not as of positivistic/rational-empiricism attitude/mental-disposition/care–and–episteme

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-
It is to be noted here that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument precedence of attitude/mental-disposition/care–and–episteme\textsuperscript{5} aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100} while seemingly counterintuitive, simply speaks of the implications of the notion of prospective relative-ontological-completeness–of-reference-of-thought/prior relative-ontological-incompleteness–of-axiomatic-construct as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,–as-to–‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’, in that our appropriate-or-inappropriate-at-various-successive-levels conception as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,–as-to–‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ has nothing to do with inherent existential reality but with us adjusting our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},—for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100} in order to reflect ontologically-veridical signification as of existence. And intuitively from our positivistic angle we can effectively recognise this about all the prior registry-worldviews/dimensions—reference-of-thought as we appreciate that by reflex these are just beholden to their very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},—for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100} reasoning-from-results/afterthought, but it is hard from our positivistic angle to then appreciate

But then with respect to the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, the question arises as to how it is possible for human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to occur given its ‘re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–{imbued-

Such altogether new metaphoricity as of its instigating ‘out of thin air’ the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and–episteme further inspired its subsequent radicalisation by latter thinkers; wherein for instance, the more thoroughly positivism/rational-empiricism development of ‘the very same physics’—<amplituding/formative–epistemicity>totalising—devolved—

This ‘out of thin air’ metaphoricity
possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-
human-knowledge grasp of that full-potency of existence’ is ever one of ‘nonpresencing-
<perspective–ontological-normalcy/postconvergence>; as the very notion of ‘human-

mentation-capacity implies that such a grasp only opens up a ‘limited framework of the full-
potency of existence’ for new human existential and knowledge possibilities as of
new/prospective habits-and-tradition. But then this ‘limited framework of the full-potency of

In this regards, we can appreciate that all human meaningfullness-and-teleology arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance -<including-virtue-as-ontology>. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern-day science ontologisation; and besides, it can equally perfectly be claimed that even our modern-day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and

We can further appreciate the critical impact of the universalising-idealisation, meaningfulness-and-teleology infrastructure of the Socratic-philosophers and their successors as providing the appropriate meaningfulness-and-teleology infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced meaningfulness-and-teleology infrastructure of budding-positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistic activities distortive of budding-positivism meaningfulness-and-teleology infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with ‘transvaluation as causality—as-to-projective-totallitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process anamnesis as of difference-conflatedness—as-to-totallitative-reification-in-singularisation—as-the-nondisjointedness/entailment-of-prospective—nonpresencing—<as-veridical-epistemicity—relativism—determinism underlying the human construction-of-the-Self and on the other hand...

This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment ⟨implied—self-assuredness-of-ontological-good-faith/authenticity⟩-postconverging–de-mentating/structuring/paradigmising—as-being-as-of-existential-reality⟩ and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-⟨conjugatively-and-transfusively⟩ the ontological-contiguity—of-the-human-institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’
and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of

<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern-day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of

<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity, as it can perfectly be
argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive ‘presencing—absolutising-identitive-constitutedness’ is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing=<<perspective=ontological-normalcy/postconvergence-reflected=‘epistemicity-relativism-determinism’>> notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment <<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—dementating/structuring/paradigming ~as-being-as-of-existential-reality>> to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification–gesturing.
conflatedness of social-value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusivity warrants prospective meaningfulness-and-teleology infrastructure transvaluation so-implied as of notional-deprocrypticism or amplituding/formative notional-preempting—disjointedness-as-of reference-of-thought appropriate foregrounding entailment—postconverging—narrowing-down—sublimation-as-to—existence—as-sublimating-withdrawal—eliciting-of-prospective-supererogation—in—reflecting—immanent-ontological-contiguity—as-operative-notional—deprocrypticism); and so as the disparateness-of-conceptualisation unforegrounding—disentailment,—failing-to-reflect—immanent-ontological-contiguity of our rational-empiricism/positivism occlusivity in its wooden-language imbued—averaging-of-thought—as-to—leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as-of nondescript/ignorable—void with-regards-to-prospective-apriorising-implications} tend to rather reflect our amplituding/formative—epistemicity totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The occlusivity of our positivism/rational-empiricism social—value-construction as such from the prospective perspective of deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable—void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of
economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance/morality/ethics/etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating–decisionality} of ontological-performance ← including-virtue-as-ontology dynamics of notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence’ ). But then while such an abstract transvaluation perspective for the construal of social–value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity exists in circumstances of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as of its given reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation inducing its deficient ontological-performance ← including-virtue-as-ontology thus explaining its given registry-worldview/dimension vices-and-impediments. Thus the transvaluation of the
successive registry-worldviews/dimensions in reflecting holographically-the ontological-contiguity—of-the-human-institutionalisation-process is critically of dimensionality-of-sublimating

stake-contention-or-confliction; and is bound rather to be highly infused with ‘priorly implied-and-justified inequity’ narrative(s) where such \( \text{universal-transparency} \) \( \langle \text{transparency-of-totalising-entailing,-as-to-entailing-} \langle \text{amplituding/formative–epistemicity} \rangle \text{totalising--in-relative-ontological-completeness} \rangle \) is muted and where such \( \text{universal-transparency} \) \( \langle \text{transparency-of-totalising-entailing,-as-to-entailing-} \langle \text{amplituding/formative–epistemicity} \rangle \text{totalising--in-relative-ontological-completeness} \rangle \) is unmuted rather infused with ‘expected equity of all individuals for social–value-construction’ narrative(s). Basically, thus the reality of prospective social–value-construction critically arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning induced originariness-parrhesia,—as—spontaneity-of-aestheticisation with respect to the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, which when naively construed in presencing—absolutising-identitive-constitutedness as of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation simply reflects the \( \langle \text{amplituding/formative–epistemicity} \rangle \text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \rangle \) of the prior registry-worldview/dimension as reflected with its social value-construct dilemmas. Consider in this regards the implications for an individual having to respond to an accusation of sorcery in a non-positivism social-setup as the individual and the social-setup both effectively believe in superstition. Transvaluation insight will point out that ontological-veracity as of \( \langle \text{amplituding/formative–epistemicity} \rangle \text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \rangle \) of the prior registry-worldview/dimension
prospective-aporeticism-overcoming/unovercoming’s so-reflect as of amplituding/formative-epistemicity’s totalisingly-preceding-and-redefining attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity. We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness/psychologismic-construct’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought-devolving-level manifestation of the primacy of existence equally extends to reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for– conceptualisation ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior universalisation registry-worldview/dimension ‘is more effective’ as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for– conceptualisation in grasping existential reality manifestations than a preceding ununiversalisation registry-worldview/dimension. This however doesn’t implies the elimination of human sovereignty and free-will but rather effective speaks of human-subpotency within existence-potency~sublimating–nascence, disclosed from prospective-epistemic-digression, so-construed as ‘human-subpotency ontological-performance’-including-virtue-as-ontology-within the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity; and specifically speaks as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-{imbued-and-hermeneutically/reprojectively/supererogatingly/zeroingly-

existence, with this in itself inducing a human reflexivity as of a human reflexive influence
within existence (wherein for instance, a positivistic disease theory of bacteria and biological

In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by human <amplituding/formative–epistemicity>totalising~thrownness-in-existence<including-virtue-as-ontology> is rather grounded in the reality that all humans come into existence as of an overall framework of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology , institutional-development–as-to-social-function-development and living-development–as-to-personality-development within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality>. Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness/psychologismic-construct’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification–gesturing.<in-prospective_psychoLOGicism~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }— conflatedness ~in-[preconverging-disentailment–by] postconverging-entailment> and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as 6 m/s² rather than the existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression manifestation of 9.8 m/s² and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation.<unforegrounding-disentailment,-failing-to-reflect–immanent-ontological-contiguity >. The explanation of epiphenomena as contrasted cross-generationally with various superstitious beliefs in the past compared with modern-day science epiphenomenal explanations (for instance with the appraisal of ‘health epiphenomena of existence’ as of historiality/ontological-eventfulness of ontological-aesthetic-tracing in perspective-ontological-normalcy/postconvergence-reflected ‘epistemicity-relativism-determinism’ ranging from perceptivity-as-of-bad-omen, perceptivity-as-of-a-specific-place-or-specific-evil-people-or-specific-evil-period, perceptivity-as-of-failure-to-follow-the-heeding-of-the-Deity-or-failure-to-adhere-to-a-certain-mysticism-or-failure-to-pay-reverence-to-an-ancestor, perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, and perceptivity-as-of-factoring-in-hermeneutically/reprojectively/supererogatingly/zeroingly socio-economic, education, information, environmental, gender-and-power-relations-issues-underlying-healthcare-and-medical-delivery). Insightfully, the very essence of ‘overall existence phenomenal appraisal of meaningfulness-and-teleology’ as associated with philosophical aspects (beyond the our artificial subject-matter divisions referring to aspect where virtue, value, ontological principles and epistemic issues are of central concern) is one of interpretation given that the ordinary human-framework-of-experiential-existence is ‘a directly comprehensive and fulsome framework amenable to interpretation’ whereas ‘specific epiphenomenon—in-the-overall-ecstatic-existence-supervening-conflatedness’ appraisal of meaningfulness-and-
teleology especially as of their unordinary human-framework-of-experiential-existence like natural sciences while informed by ordinary human-framework-of-experiential-existence background/sense-of-things further require and accentuate their epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the natural sciences are fundamentally interpretative as ‘specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification–gesturing–<in-prospective_psychologismic–apriorising/axiomatising/referencing–{of-attendant_ontological–contiguity–educed–existentialising/contextualising/textualising-contiguity}–conflatedness–in–{preconverging-disentailment–by}–postconverging-entailment’). It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification–gesturing–<in-prospective_psychologismic–apriorising/axiomatising/referencing–{of-attendant_ontological–contiguity–educed–existentialising/contextualising/textualising-contiguity}–conflatedness–in–{preconverging-disentailment–by}–postconverging-entailment> interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical
epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-
experiential-existence as ‘a directly comprehensive and fulsome framework amenable to
interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is
definitely central to knowledge-reification-gesturing is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency’ ~sublimating–nascence, disclosed-from-prospective-epistemic-digression from such human-subpotency prior reproducibility—mathesis/motif/thrownness-disposition’. This reflects the ontological-veracity that human sovereignty and free-will can only be construed in apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity—conflatedness-in-{preconverging-disentailment-by–postconverging-entailment} as of human

A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in
a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of
mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather de-mentative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-ontological-incompleteness\textsubscript{67}/relative-ontological-completeness\textsubscript{67}/relative-ontological-completeness\textsubscript{67}/relative-ontological-completeness\textsubscript{67}; going by the phronesis/practicality as of our positivism–procrypticism occlusivity, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks.
as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting_SUPERVisory/REGulatory institutional functions and roles. In another respect concerning the modern-day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are preconvergingly–dementated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public
gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern-day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening\textsuperscript{53} as to the ‘relative-ontological-incompleteness’/relative-ontological-completeness\textsuperscript{\textsuperscript{54}} (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating=<projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,–in-perspective–ontological-normalcy/postconvergence>\textsuperscript{\textsuperscript{12}} as to human-and-social–expectations/anticipations—

But then such pretence of presencing—absolutising-identitive-constitutedness\textsuperscript{1} veracity of ‘human social-vestedness/normativity\textsuperscript{-}<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification–gesturing\textsuperscript{-}in-prospective psychologismic–apriorising/axiomatising/referencing-\textsuperscript{-}\{of-attendant–ontological-contiguity —educed–existentialising/contextualising/textualising-contiguity \}—conflicatedness -in–\textsuperscript{-}\{preconverging-disentailment_by\}–postconverging-entailment\textsuperscript{-} implications. Such ‘human social-vestedness/normativity\textsuperscript{-}<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the
meaningfulness-and-teleology infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside attendant ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness and relative-ontological-completeness but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about attendant ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness and relative-ontological-completeness and so on the basis of merely projecting the term ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ and thereof implying logical-dueness and articulating logic on the so-narrowed and uncontested framework’. The reason why such a ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all meaningfulness-and-teleology (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of attendent ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity thus subject to analysis as of

<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation about human sovereignty and free-will are rather ‘internally inconsistent’ and more aptly reflect manifestations of power-grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-ontological-completeness’. Consider in this regards for instance as of the ‘presencing—absolutising-identitive-constitutedness’ notion of ‘human social-vestedness/normativity

for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such

not truly escape the ontological prism as of existence being the absolute a priori, and rather

The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a ‘presencing—absolutising-identitive-constitutedness false sense of logical-dueness as of relative-ontological-incompleteness/relative-ontological-completeness (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence> as to human-and-social–expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming–psychologism may seem to arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather of flawed apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such apriorising/axiomatising/referencing but is rather meted with relative-ontological-completeness perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of

The underlying point here is that there is no inherent meaningfulness and teleology but rather as of the specific human subpotency with regards to overall reifying and empowering reflexivity of ecstatic existence as pan intelligibility imbued and hermeneutically reprojectively supererogatingly zeroingly educating human subpotency epistemic perspective of projective reprojective aestheticising re motif and re apriorising re axiomatising re referencing conceptualisation, that is, as to human subpotency potential to epistemically converge to the full potency of existence; and this underlying structure of reflexivity is the very structure in reflecting holographically conjugatively and transfusively the ontological contiguity—of the human institutionalisation process, however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges us puts us to question as of prospective implications of Being development ontological framework expansion as to depth of ontologising development as infrastructure of meaningfulness and teleology institutional development as to social function development and living development as to personality development. The implication here is that all human knowledge is necessarily for human studies for human constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced registered decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential formalisation transference implications) and functions to broaden
the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. The very possibility for prospective human knowledge generation thus calls for human dimensionality-of-sublimating \( \{ \langle \text{amplituding/formative} \rangle , \text{supererogatory-de-mentativeness/epistemic-growth-or-conflatedness} \} /\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} \rangle \) given the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, with such human dimensionality-of-sublimating \( \{ \langle \text{amplituding/formative} \rangle , \text{supererogatory-de-mentativeness/epistemic-growth-or-conflatedness} \} /\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} \rangle \) speaking of true humanity projection for prospective secondnaturing institutionalisation (that goes on to broaden-the-latitude-of-human-collective-consciousness), and so over the wrongfully elicited self-satisfaction of sophistic/pedantic \(^8\) presencing—absolutising-identitive-constitutedness\(^{13}\) in preconverging-existential-extrication-as-of-existential-unthought failing to address the universal implications of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation bluntly profess that ‘human temporality\(^9\)/shortness \( \langle \text{amplituding/formative} \rangle \) wooden-language–{imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology–as-of-

formalisation-transference validation as of the supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-

constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—
meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-
doctors, scammers, sophists, etc. with regards to prospective human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-
leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal-

It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity—<discretely-implied-functionalism> undermining of human dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension is effectively about discouraging the possibility for prospective humanity to manifest. But then this intellectualism and sophistry conundrum underlying knowledge-notionalisation (as of prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure—of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development), de-mentatively/structurally/paradigmatically marks all human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the uninstitutionalised-threshold attendant framework of lack of social transparency—{transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness}—or-understanding-of-ontological-prime-movers-totalitative-framework—of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very
first place; and this very much explains the defining relevance of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor, as to the possibility for genuine human reification and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression) is effectively what underlies human institutional paralysis and social-vestedness/normativity as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks—of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such
‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology\textsuperscript{100} ) is predicated upon and drags along the shiftiness-of-the-Self\textsuperscript{12} as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in ‘presencing—absolutising-identitive-constitutedness\textsuperscript{1} as historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’), and so towards humankind’s supposed future (as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development); and in many ways this historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition has already been stifling/stalling the huma prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historiciality/ontological-eventfulness\textsuperscript{17}/ontological-aesthetic-tracing\textsuperscript{<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism-determinism’> relevant to deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought. Such historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition override prospective originariness-parrhesia—as—spontaneity-of-aestheticisation possibilities, and the prospect for the future is ever so tied down to the psychological entrapment of prior human stake-contention-or-confliction framework that nullifies the possibility for renewal of humanity. Institutionalised historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition thus foregoes the construal of human meaningfulness-and-teleology\textsuperscript{100} as a construct of re-originariness/re-origination of

Such social and institutional social-vestedness/normativity discretely-implied-functionalism for instance like in many ways the practice in modern-day scholarship (especially when poorly constrained to existence-potency sublimating—nascence, disclosed-from-prospective-epistemic-digression) is bound to ‘make its own weather’ rather as from human-subpotency temporality/shortness; wherein ‘invested’ institutional and theoretical/conceptual postures take on an essence all of

material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a
desublimation/gimmickiness rather than its very own sublimation in tandem with
material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/alooiness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of \(^{80}\)presencing—absolutising-identitive-constitutedness -of—meaningfulness-and-teleology\(^{100}\) given \(^{4}\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology , institutional-development—as-to-social-function-development and living-development—as-to-personality-development) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic-or-notional—projective-perspective of re-originariness/re-origination as implied with prospective \(^{17}\)deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdingness to \(^{80}\)presencing—

In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness—meaningfulness-and-teleology’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology —in-preconverging-existential-extrication—as-of-existential-unthought); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation—and—aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and—aestheticisation-towards-ontology as with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness —by-reification/contemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness —of—meaningfulness-and-teleology’ given

The implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the very notion of ‘positivistic science experimental framework historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism’ was developed and enculturated/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to

of what is implied by ‘meaningfulness-and-teleology’, as in many ways the reality of our past

implications for prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. This preconverging existential-extrication-as-of-existential-unthought as to dimensionality-of-desublimating-lack-of-very much reflects the fact that all presencing—absolutising-identitive-constitutedness are effectively manifestations of underlying ontological-bad-faith/inauthenticity with regards to their prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; as all such presencing—absolutising-identitive-constitutedness fail to account for their ‘prior and prospective becoming’ which ontologically-veridical rationalisation effectively lies with the postconverging-nonextricatory-existential-preempting-of-existential-unthought human emancipatory disposition associated with dimensionality-of-sublimating.

Similarly with respect to the ‘requisite human dimensionality-of-sublimating’ dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension, in many ways just as prior human scientific and technological sublimation momentously induced historiality/ontological-eventfulness/ontological-aesthetic-tracing—ontological-bad-faith/inauthenticity/postconvergence-reflected—epistemicity-relativism-determinism—inevitably required its accompanying social sublimation (as the manifestations of failing social
sublimation were in many ways the reason for conflictual and exploitative encounters associated with budding-positivism), and so as of the contiguity of both human technoscientific and social sublimations giving their mutually for-human-studies sublimating nature; it is inevitably the case that a naïve construal of prospective science and technological development that seem to imply the requisite prospective sublimation of the overall human as to its prospective construction-of-the-Self is not critical, will inevitably lead to conundrums of prospective science and technology development as to the very possibility for developing the full human potential of science and technology as well as with respect to the underdevelopment of the human as to its shiftiness-of-the-Self in the capacity to handle and deal with prospective science and technology in such a manner that doesn’t imperil mankind’s very own survival (departing as from the larger conception of survival, beyond ‘reactionary construal’ of them-and-us in presencing—absolutising-identitive-constitutedness that end up ‘destructively dehumanising’ the various ‘the other’). Thus the very notion of human value-construction is entwined with ‘human notional–firstnatures—temporal-to-intemporal-dispositions-as-of-varying-individuations-contextually-transverse-desublimation/sublimation-as-to-the-redounding/wavering/waveforming—as-of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance-as-including-virtue-as-ontology’ at institutionalised-threshold as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historiality/ontological-eventfulness /ontological-aesthetic-tracing-as-of-their-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’ possibilities’ and the idea of prospective human emancipatory transcendence-and-sublimity/sublimation/supererogatory-de-mentativity possibilities critically lies in appreciating

reflected in the fact that the former orientation is priorly-and-ultimately concerned with existence’s foregrounding entailment (postconverging narrowing-down sublimation as to ‘existence — as sublimating withdrawal, eliciting of prospective supererogation’ — in reflecting ‘immanent ontological contiguity’; as operative notional deprocrypticism) imbued sublimation whereas the latter is critically concerned with ‘conceptions of human abstract interpositions as of elaboration as to mere extrapolating constituting abstracting deducing inferring of elucidation outside — attendant ontological contiguity — educed existentialising contextualising textualising contiguity’ that are not necessarily subject to phenomenal manifest existence’s foregrounding entailment (postconverging narrowing-down sublimation as to ‘existence — as sublimating withdrawal, eliciting of prospective supererogation’ — in reflecting ‘immanent ontological contiguity’; as operative notional deprocrypticism); and so peculiarly implied with the ‘importing exporting of reductionisms’ (as to the fact that there is no physics reductionism of physics or say mathematics reductionism of mathematics or biology reductionism of biology as to being the real and natural orientation for the specific physics, mathematics and biology epistemic conceptions of their respective epistemic conceptions phenomenal manifest subpotencies (in transitive conflatedness reflexivity, in the full potency of existence’s sublimating nascence) to explain human psychological and social phenomena that ‘end up implicitly denying the very obvious reality of the psychological and social subpotencies (in transitive conflatedness reflexivity, in the full potency of existence’s sublimating nascence)’. In many ways taking such ontologically flawed interpretations seriously induces human impotency and desublimation (as to the implicated contention that the human ‘supposedly has no profound sublimating social and socio psychological phenomenal manifest subpotencies (in transitive conflatedness reflexivity, in the full potency of existence’s sublimating nascence)’ with the ‘supposedly profound
phenomenal/manifest-subpotencies ⟨in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence⟩ construed rather in reductionist terms of biology/neurology or physicalism) as is often also associated with social-vestedness/normativity ⟨discretely-implied-functionalism⟩ disparateness-of-conceptualisation ⟨unforegrounding-disentailment,-failing-to-reflect–immanent-ontological-contiguity ⟩; thus ‘actually denying the metaphysical nature and thus ontological nature of the sublimating social and socio-psychological’ such that existence-potency ⟨~sublimating–nascence,~disclosed-from-prospective-epistemic-digression sublimation implications with regards to the social and socio-psychological are hardly contemplated and recognised as so-projected herein as to the ontological-contiguity ⟩—of-the-human-institutionalisation-process. But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest-subpotencies ⟨in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence⟩ to then ‘utilise the clout to falsely imply substitutive/reductionist sublation over the social and socio-psychological phenomenal/manifest-subpotencies ⟨in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence⟩’ (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of physics, chemistry, biological, genetic theories as to the ontological-

In other words, such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological shouldn’t epistemically be selective in totalisingly-disentailing—discretion/wish-of-thought (if truly of science/ontology as to ‘\(<\text{amplituding/formative–epistemicity}>\text{totalising/circumscribing/delineating}\) necessitation frame–of–ontological-contiguity ’) but should rather go on to effectively explain away the entire social and socio-psychological phenomenal/manifest-subpotencies-(\text{in-transitive-conflatedness } -\text{reflexivity,-in-the-full-potency-of-existence’s-sublimating–nascence})\) as to human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, institutional-development–as-to-social-function-development and living-development–as-to-personality-development), and so comprehensively articulating human organisational and institutional driven/potent sociocultural, economic, political, legal, etc. manifestations on such biological/neurological and evolutionary substitutive/reductionist basis of supposed sublimation as to their \(<\text{amplituding/formative–epistemicity}>\text{totalising/circumscribing/delineating}\)

Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from
manifest sublimating outcome in existence’. Such a ‘purist science/ontology epistemic-conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ (as involved in the reconceptualisation of the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in their presencing—absolutising-identitive-constitutedness as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory-mentativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness failure to directly grasp their very own totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, even as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). In other words, the ‘effective equilibration of human sublimating meaningfulness-and-teleology across the successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/commonsensicality as of the
epistemic-digression and de-mentatively/structurally/paradigmatically so-explains the very possibility for human progress. In contrast the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression are vague disparate-ness-of-conceptualisation~unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’, and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised imprimatur of intellection even as to when it projects intellectual desublimation associated with pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation~{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness} as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern-day intellection relevant prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint.

Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency~sublimating–nascence,
disclosed-from-prospective-epistemic-digression; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior methodologising/mutualising/organising/institutionalising conception of physics. Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots,
etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or–disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective) as to an epistemically-decadent wooden-language ⟨imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology ⟩; and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension out of concern about huma prospective Being-development/ontological-framework-expansion—as-to-depth-of-

is the most important human and humanity-producing enterprise notwithstanding the paradox that the prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of—reference-of-thought respectively are intellectually-and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought respectively in many ways explaining the underlying implications of human registry-worldview’s/dimension’s institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification—gesturing—prospective_psychologismic~apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness—in—{preconverging-disentailment—by}—postconverging-entailment—is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the the flawed prior knowledge-reification—gesturing—<in-prior_psychologismic~apriorising/axiomatising/referencing—{of-attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity}>

<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag

Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has de-mentative/structural/paradigmatic implications with regards to human

This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression) is ‘the scalar conception that enables prospective human sublimation as of aestheticisation-towards-ontology’ while on the other hand human-subpotency (as to human

<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag) is ‘a non-scalar conception that induces
presencing–hyperrealisation/hyperreal-transposition as prospectively obviating ontology/ontological-veracity. This insightful grasp of the implications of human limited-mentation-capacity-deepening (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance—<including-virtue-as-ontology> (associated with prospective human sublimation) into: ‘a scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—'epistemicity-relativism-determinism'>’ and ‘a non-scalarity/beholdening—<as-to-what-has-gone-before-aesthetically-dementates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation—perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’.

Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’); with the effective ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just

regards to human meaningfulness-and-teleology speaks to the fact that prospectively
induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-
veracity appraisal for inducing further and concomitant human sublimation (and so because of
the de-mentative/structural/paradigmatic effect of relative limited-mentation-capacity-
deepening in contrast to what will prevail in case of ‘absolute-mentation-capacity of
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such
effect critically varies as to both ‘purist science/ontology epistemic-conception of
veracity/truth’ and ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation–as-to-underlying,-ontological-commitment<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-

That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business

<amplituding/formative—epistemicity>causality inevitably highlights the requisite ‘ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming’ of existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ of sublimating base-institutionalisation, universalisation, positivism/rational-empiricism and notional—deprocrypticism respectively over desublimating recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism respectively, and the failure to articulate this requisite ‘ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming’ existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ is a failure to meet the ‘prospectively warranted organic-knowledge epistemic-veracity’ as failing to reflect
supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness~of~apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument ~for~conceptualisation in implying that ‘the sublimating apriorising/axiomatising/referencing~psychologism is the valid logical-basis’ and ‘the desublimating apriorising/axiomatising/referencing~psychologism is the invalid logical-basis’. This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional~deprocrypticism respectively are actually projective-insights speaking to the fact that huma prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory~de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as so-induced by notional~asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturizing institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion~as-to-depth-of-ontologising-development-as-
infrastructure-of-meaningfulness-and-teleology which rather requires instigative notional-asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturing of positivism/rational-empiricism was the notional-asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism dementative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness logical-basis/logic,-as-derived-from—transversality sublimating–existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing is in transversality sublimating–existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing with the relative-ontological-incompleteness logical-basis/logic,-as-derived-from—transversality sublimating–existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing, it is only the sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation that affirmatively upholds the relative-ontological-completeness over the relative-ontological-incompleteness (as to their supposedly coherent ontological-commitment implied—self-
assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality>). In other words, genuinely projected knowledge as of ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human institutional-development–as-to-social-function-development and living-development–as-to-personality-development as to the positive-opportunism—of-social-functioning-and-accordance implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of such ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. In this respect with regards to human institutional-development–as-to-social-function-development and living-development–as-to-personality-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with
the relation thus involving the requisite ‘ontological-good-faith/authenticity’\textsuperscript{69}–postconverging–de-mentating/structuring/paradigming\textsuperscript{70} existential-condescension\textsuperscript{<of-apriorising/axiomatising/referencing–psychologism>} of the professional with a corresponding deferential apriorising/axiomatising/referencing–psychologism of the client’ and so as reflecting the sublimating knowledge ontological-good-faith/authenticity\textsuperscript{69}–postconverging–de-mentating/structuring/paradigming\textsuperscript{70} beyond-and-above the desublimating ontological-good-faith/authenticity\textsuperscript{69}–postconverging–de-mentating/structuring/paradigming\textsuperscript{70} of ordinary meaningfulness-and-teleology\textsuperscript{100}. However, this sublimating knowledge ‘ontological-good-faith/authenticity’\textsuperscript{69}–postconverging–de-mentating/structuring/paradigming\textsuperscript{70} existential-condescension\textsuperscript{<of-apriorising/axiomatising/referencing–psychologism>}’ across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} (even though from a retrospective perspective we can grasp the preconverging/dementing \textsuperscript{19}–qualia-schema of ‘the God-of-plane’ type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empricism reflex ‘ontological-good-faith/authenticity’\textsuperscript{69}–postconverging–de-mentating/structuring/paradigming\textsuperscript{70} existential-condescension\textsuperscript{<of-apriorising/axiomatising/referencing–psychologism>}’ but it is important to note that such an animistic social-setup doesn’t project of any such preconverging/dementing \textsuperscript{19}–qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} going by its \textsuperscript{80}presencing—absolutising-identitive-constitutedness\textsuperscript{12} just as we will be disinclined to contemplate about the more veridical preconverging/dementing \textsuperscript{19}–qualia-schema of our \textsuperscript{81}procrypticism–or–disjointedness-as-of\textsuperscript{14} reference-of-thought uninstitutionalised-threshold\textsuperscript{03} as from a prospective notional–deprocrypticism perspective projected placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100}. \textsuperscript{1164}

This poor appreciation arises for the simple reason that the uninstitutionalised-threshold speaks of the registry-worldview/dimension notional-discontiguity/epistemic-discontiguity -<shallow-supererogation -of-mentally-aestheticised-preconverging/dementing -qualia-schema>, and thus it is disinclined to recognise the prospective ‘relative-ontological-completeness —<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality>)’ imbued foregrounding entailment-(postconverging—narrowing-down—sublimation-as-to—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation ’—in—reflecting—‘immanent-ontological-contiguity ’;—as-operative-notional—deprocrypticism) that can instill such a prospective sublimating knowledge ‘ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ as to prospective institutional-development—as-to-social-function-development and living-development—as-to-personality-development. In this regards, it can be appreciated with respect to budding-positivism and universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the medieval-scholasticism underpinning—suprasocial-construct or where construing meaningfulness in coherent universalising terms do not avail as in the non-universalising sophistry underpinning—suprasocial-construct, then there is a fundamental reality of desublimating ontological-bad-faith/inauthenticity over which prospective sublimating ontological-good-faith/authenticity knowledge respectively as of budding-positivism and universalising-idealisation can only be established as of their respectively requisite

History knows that the ‘contorted human \textsuperscript{(7)} presencing—absolutising-identitive-constitutedness’ mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Copernicus, Galileos, Descartes, Kants, Newtons, Leibniz, Rousseaux, Diderots, Pasteurs, Lavoisiers, Teslas, Einsteins, etc. upon whose \textsuperscript{(5)} meaningfulness-and-teleology\textsuperscript{(10)} infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human \textsuperscript{(3)} meaningfulness-and-teleology\textsuperscript{(10)} and so not only human \textsuperscript{3} Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{(5)} meaningfulness-and-teleology\textsuperscript{(10)} but is equally reflected in a poor-spirited bland conception of human institutional-development–as-to-social-function-development and living-development–as-to-personality-development). This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our modern-day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming’ existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ with regards to the human species on Earth and strive to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness<amplituding/formative–epistemicity>totalising–thrownness-in-existence doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance ~<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing- {of-attendant ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-
existence’ but together with the extraterrestrials is rather dementatively/structurally/paradigmatically in existential-discursivity—implicated-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment—an implied—self-assuredness-of-ontological-good-faith/authenticity →postconverging—dementating/structuring/paradigming—as-being-as-of-existential-reality) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicated-sublation-over-desublimation superseding pretenses of mere-formulaic methodologising/mutualising/organising/institutionalising presences as to entitlements of presencing—absolutising-identitive-constitutedness articulated induced elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity. Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness is-educed—and—avails—and—re-avails rather than ontological-bad-faith/inauthenticity in upholding relative-ontological-incompleteness (given that immortality/existence-perspective as to intemporality cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging-or-dementing—apriorising-psychologism and not postconverging-or-dialectical-thinking—apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicated-sublation-over-desublimation that explains why the educing—and—availing—and—re-availing of relative-ontological-completeness as to dimensionality-of-sublimating—{<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation} takes precedence in defining human intellectual-and-moral ontological-performance—<including—
virtue-as-ontology> and so as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. This implied existential-discursivity—implicit-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity’~postconverging-de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism’ effectively underlies the ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the preformulating/preframing/premeaningfulness<metaphoricty'-disposition—as-to-psyche-induced-psychologism-of-existential-stake> from which human meaningfulness-and-teleology veridically arises. Thus existential-discursivity—implicit-sublimation-over-desublimation implies that the human is already ‘de-mentatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-performance’<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity}-educed-existentialising/contextualising/textualising-contiguity }—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence11. This insight puts into perspective our presencing—absolutising-identitive-constitutedness conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility.
(that ducks/ignores such relative-ontological-completeness\textsuperscript{88} aetiologisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-incompleteness’ specific apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity\}—ontological-deficiency arising from its specifically given \{amplituding/formative–epistemicity\} totalising–thrownness-in-existence\textsuperscript{64}’ is not of neutrally/objectively sound ontological-performance\textsuperscript{72}–\{including-virtue-as-ontology\}; as to the fact that for instance the incidence of modern-day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that dementatively/structurally/paradigmatically directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our \{amplituding/formative–epistemicity\} totalising–thrownness-in-existence\textsuperscript{14} and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness\textsuperscript{88} as to overall existential dimensionality-of-sublimating\textsuperscript{56}–\{amplituding/formative–epistemicity\} supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\}. Besides such a more stark elucidation as to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{10}, existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity\textsuperscript{99}–postconverging–de-mentatingstructuring/paradigming\textsuperscript{70} existential-condescension–\langle of-apriorising/axiomatising/referencing–psychologism\textgreater’, thus points to the primacy of ‘the very \{amplituding/formative–epistemicity\} totalising–thrownness-in-existence\textsuperscript{14} of human

In this regards, and in the bigger scheme of things existential-discursivity—implicit-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity’—postconverging-de-mentating/structuring/paradigming existential-condescension—of-apriorising/axiomatising/referencing—psychologism’ implies that as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation, the respective state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism cannot be construed as of ‘neutrally/objectively sound human ontological-performance’—<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—ontological-deficiency arising from its specifically given amplituding/formative—epistemicity totalising—thrownness-in-existence’ with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and notional—deprocrypticism respectively; and as relative-ontological-completeness avails intellectual-and-moral responsibility is rather reflected as of dimensionality-of-sublimating—{<amplituding/formative—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation}). Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given presencing—absolutising-identitive-constitutedness self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its ontological-contiguity’ as to the possibility for intelligibility to arise as so-
reflected with the overall ontological-contiguity — of-the-human-institutionalisation-process so-associated with human limited-mentation-capacity-deepening.

This is so fundamentally because of human teleology speaking of ‘human phenomenal/manifest conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism in existence as ontological (so-reflecting ⟨amplituding/formative⟩disposedness/psychologismic-construct —as-to-orientation/value-construct/valuation—and—derived-parameterising) and ⟨amplituding/formative⟩entailment—(as—totalising-contiguous/coherent—factuality-of-variability)’, as reflecting the implications of human limited-mentation-capacity-deepening underlying the ontological-contiguity —of-the-human-institutionalisation-process; such that human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed —presencing—absolutising-identitive-constitutedness }—⟨amplituding/formative⟩apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility—of-aestheticisation.

The insight here is that human state of prior relative-ontological—
incompleteness\(^{11}\) de-mentatively/structurally/paradigmatically impacts reflexively on human appraisal of its prospective relative-ontological-completeness\(^{118}\) sublimation implications, and so across the \(<\text{cumulating/recomposuring–attendant-ontological-contiguity }\rightarrow\text{-successive registry-worldviews/dimensions right up to the originariness/origination–\{so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence}\}\) perspective of deprocrypticism–or–preempting—disjointedness-as-of—reference-of-thought which purportedly escapes any such reflexive presencing—absolutising-identitive-constitutedness\(^{13}\) \(<\text{amplituding/formative–epistemicity} \rightarrow \text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\)^\(^{13}\) of its apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument–for–conceptualisation. The so-implied notional–deprocrypticism as such points out that the ontological-contiguity\(^{17}\)–of-the-human-institutionalisation-process\(^{17}\) is rather associated with a ‘directly relevant trace of prospective human effectively-purist-sublimation–\{reflecting-prospective-historiality/ontological-eventfulness \(\rightarrow\) ontological-aesthetic-tracing–\(<\text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism}\)>\) as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{46}\), but that, as of the \(<\text{cumulating/recomposuring–attendant-ontological-contiguity }\rightarrow\text{-successive registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness}\) construals/conceptualisations, that ‘directly relevant trace of prospective human effectively-purist-sublimation–\{reflecting-prospective-historiality/ontological-eventfulness \(\rightarrow\) ontological-aesthetic-tracing–\(<\text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism}\)>\) as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{46}\)’ is rather ‘beholdening wrongly upon the overall relative-ontological-incompleteness\(^{118}\)–presublimation-construct–of–‘meaningfulness-and-teleology\(^{100}\)’, such that a contrasting assessment rather highlights the ‘entangling/enmeshing of effectively-
and overall relative-ontological-incompleteness\(^8\) – presublimation-construct–of–\(^{46}\) meaningfulness-and-teleology\(^{100}\) induced desublimating of the effectively-purist-sublimation–\{reflecting-prospective–historiality/ontological-eventfulness /ontological-aesthetic-tracing–\(<\text{perspective–ontological-normalcy/postconvergence-reflected–'epistemicity-relativism-determinism'}\>\} – presublimation-construct–of–\(^{46}\) meaningfulness-and-teleology\(^{100}\) induced desublimating of the effectively-purist-sublimation–\{reflecting-prospective–historiality/ontological-eventfulness /ontological-aesthetic-tracing–\(<\text{perspective–ontological-normalcy/postconvergence-reflected–'epistemicity-relativism-determinism'}\>\}\) as to the concreteness/concretism\/<\text{preconverging–'motif-and-apriorising/axiomatising/referencing–'imbuing–'existentialising—enframing/imprintedness–\{as-to– historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition}\}> of human-ontological-performance – \(<\text{including-virtue-as-ontology}>\) of overall prospective sublimation. Human sublimation as such in reflecting holographically\/<\text{conjugatively-and-transfusively}> the ontological-contiguity — of the human-institutionalisation-process \(^8\) is existentially susceptible instigated mostly as of materially/technically induced sublimation associated with tools, equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism—of-social-functioning-and-accordance \(^7\) social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology\(^{100}\). But the overall postconverging–de-mentating/structuring/paradigmimg of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness \(^7\) and ‘immaterial/social overall relative-ontological-incompleteness\(^8\) – presublimation-construct–of–\(^{46}\) meaningfulness-and-teleology\(^{100}\) instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations–\<\text{blinded-to-their-relative-ontological-completeness – reference-of-thought– devolving}>\}. In this
regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness\textsuperscript{89}–presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{100} of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective human aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking\textsuperscript{2}–apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness and the immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{100} of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific–apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of–predicative-effectivity–sublimation–<as-to-underlying,-ontological-commitment\textsuperscript{66}–<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality>’ as the requisite immaterial/social sublimation for enabling
positivistic science as we know it today to arise. This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to the fact that the technical and scientific progress as to relative-ontological-completeness weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness \(^{89}\) –presublimation-construct–of–\(^{50}\) meaningfulness-and-teleology\(^{90}\) value-construct and shallow-supererogating methodologising/mutualising/organising/institutionalising \(<\)preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing\(>\)existentialising—enframing/imprintedness\(\langle\)as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\(\rangle\), but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism—of-social-functioning-and-accordance\(^{15}\) driving the secondnatured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness \(^{89}\) –by-reification/contemplative-distension\(^{26}\) immaterial/social sublimation considerations that rise to the aporeticism overcoming/unovercoming challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘ historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with \(^{50}\) meaningfulness-and-teleology\(^{100}\)’ of our positivism–procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual–function/posture as to social-stake-contention-or-confliction implications. The further
implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination-{so-construed-as-to-ontological-normaley/postconvergence-perspective-scalarising-construal-of-existence} perspective of notional–deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness\(^9\)–presublimation-construct–of–\(^{10}\) meaningfulness-and-teleology\(^{100}\); as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social overall relative-ontological-incompleteness\(^9\)–presublimation-construct–of–\(^{20}\) meaningfulness-and-teleology\(^{100}\) instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations\(<\text{blinded-to-their-relative-ontological-completeness}-\text{reference-of-thought-}\text{devolving}'>\) that goes on as of \(^8\) presencing—absolutising-identitive-constitutedness\(^1\) to render the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance \(<\text{including-virtue-as-ontology}>\) reflected in their failing effective outcomes of equanimity/balance; wherein their practice increasingly tends to dominance/vested-interest actors and sycophantic-sophistry induced desublimating narratives as to the \(<\text{amplituding/formative}>\) wooden-language\(<\text{imbued—averaging-of-thought}<\text{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications}>\) displayed in the public domain (caught-up/entrapped in ‘a politico-institutional beholdening relic/artefactual disenfranchising notion of both-sides’ as psyching-subterfuge that renders the common concrete pragmatic aspirations of sovereign individuals increasingly politically irrelevant as to the paradox for instance that the healthier political framework in the years following the second world-war, as hardly subject to closed-circles of effective direct/indirect
politico-institutional influence rampant today, notwithstanding the even greater social prejudice/bigotry/closed-mindedness was able to induce critical progressive social transformations that in many ways the modern-day political framework as to a period of rather profound and real-world cosmopolitanism/opened-mindedness can only dream about) as the more potent possibilities for social transformation are increasingly subdued under politico-institutional defaulting frameworks-and-practices rather surreptitiously subjected to closed-circles of effective direct/indirect politico-institutional influence ‘as to a strategic capacity to elicit old and relatively aporetically irrelevant beholdening narratives of identity as a divide-and-conquer strategy for undermining the real and concrete common sovereign narrative of social transformation possibilities’ as so-reflected with commonly held objective sovereign aspirations that cut across party/ideological affiliations when not subjected to the disenfranchising effects of crafty politicised beholdening narratives of identity with their ‘ad-hoc/arbitrary popping-up in the media at critical electoral moments involving high emotional charge quelling cerebral thinking as of the modern-day efficient disenfranchising technique of flawed apriorising deception involving arbitrarily-skewing-or-debasing-the-terms-of-supposedly-constructively-opened-public-debate’ (as to the wrong mental enculturation of the notion that the ‘political game’ in-of-itself precedes individuals and social sovereign aspirations as if the latter were just ‘paying fans to a sports encounter’ rather than a political process meant to serve them as so reflected with an enculturated media political narrative hardly/poorly making room for direct individual and social sovereign aspirations as centrally defining with the consequence that substance is increasingly overwhelmed by a political characters portrayal of the political debate with political actors then effectively turning over rather towards the levers of their potential power which is paradoxically not necessarily/deterministically social sovereign aspirations as to a relic/artifactual conception-and-projection in the public domain but rather surreptitious/private closed-circles of effective direct/indirect politico-institutional
influence as so-plainly exposed by the fact that long-term consequences of public policies recurrently ‘default for dominance/vested-interest actors’). Even in the purely intellectual sense, modern-day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve presentencing—absolutising-identitive-constitutedness epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to the aestheticisation—and—aestheticisation-towards-ontology underlying the overall ontological-contiguity—of-the-human-institutionalisation-process, so-reflected from such science-ideology poor appreciation of the implications of the historiality/ontological-eventfulness/ontological-aesthetic-tracing rendering the scientific adventure as of a living attendant ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity exercise. Thus, as to their respective presencing—absolutising-identitive-

The implications of this dual existentialising–decisionality psychological-dispositions is critical particularly with regards to the social-and-institutional-frameworks-of—referencing/registering/decisioning of human\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} of ‘blurriness’ in existentialising–decisionality’ as rather poorly amenable to profound ‘unbeholdening

In this regards, many such social-and-institutional-frameworks-of—referencing/registering/decisioning can be construed as ‘frameworks of relatively shallow-ontologisation/subontologisation’ as to the existentialising–decisionality psychological-disposition of defaulting individual and social ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ due to ‘blurriness’ in existentialising–decisionality’. It is herein contended that the most fundamental issue with regards to huma prospective comprehensive emancipation/sublimation (as promptly reflected with nascent-
meaningfulness-and-teleology\textsuperscript{100}) reflecting a positivising referencing/registry/decisioning is more problematically conceptualisable and mostly arises as of crossgenerational appreciation/grasp (given the non-positivistic \textsuperscript{9} presencing—absolutising-identitive-constitutedness\textsuperscript{12} existentialising—decisionality psychological-disposition of defaulting individual and social ‘beholdening as sovereignising—imbued-subontologisation/subpotentiation’); and this ‘human existentialising—decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ applies in the <cumulating/recomposuring–attendant-ontological-contiguity>-succession of registry-worldviews/dimensions with regards to the possibility for their prospective sublimation/emancipation. Along the same lines of disambiguating ‘human existentialising—decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ just as ‘a God-of-plane non-positivistic proposition’ in an animistic social-setup implies priorly an ‘altogether superseding positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation induced psychologism of \textsuperscript{11} reference-of-thought’ (over their non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation psychologism of \textsuperscript{84} reference-of-thought) from whence aposteriorising/logicising/deriving/intelligising/measuring can then ensue in existential-instantiations of conceptualising, and so as to the positivistic \textsuperscript{99} ‘meaningfulness-and-teleology \textsuperscript{100} more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{97} with regards to sublimating–nascence teleological-inflection\textsuperscript{as-to-more-profound-nondisjointing—<amplituding/formative—epistemicity>totalising/circumscribing/delineating},’ likewise prospectively with regards to nascent-particular/incipient-and-material/technical-sublimations\textsuperscript{<blinded-to-their-relative-

associated with the centrality of elections, voting and party politics’ is incomplete without an
adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a

public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural
ascendancy over ‘the supposedly democratic platforming and stakeholding in defining the very
issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically
skewed media debates and socio-econo-political thought-makers/thought-making overtly
associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and

alienating supposed sovereign electors as to a platforming and stakeholding process that
mediatically and politically take a self-contained course (as to dominance/vested-interest

reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not). It is herein contended however counterintuitive that the idea of understanding 100% of knowledge content at one go (as commonly assumed and cultivated with such content driven by public ratings and/or sales/merchandising as to excessive simplification, distortion, superficiality, ephemerality and attention-grabbing undermining organic knowledge) is very much detrimental for a profoundly engaging and sublimating practice of public exposition to knowledge as so-inducing the degradation/banalisation of content in order to supposedly capture the most number of people at

A lot of true learning, understanding and engagement (beyond attention-grabbing and simplification convenience) comes and expands hermeneutically/reprojectively/supererogatingly/zeroingly as to re-exposition to same and similar content for eliciting an active thought/contemplative engagement that is sufficiently challenging to people's true intellectual growth possibility as to creatively eliciting and developing true contemplative interest and not just passivity (however the habituation of a plainness that turns out to seem to be ‘the popular choice’ to which in reality all individuals can succumb to but which is as of their self-reflection actually subpotentiating with regards to the ‘broad existential panoply of human epistemic-growth/disquiet/discomfort-{induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as-historiality-}

This eventually means that the genuine social intellectual–function/posture (adduced knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism imbued theoretical/conceptual/operant implications) should be able to saliently articulate/impress-upon the ‘overall social intellection-aptitude body’ (within the framework of a natural and truly original, autonomous and non-contrived intellectual culture) ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of percolation-channelling-<in-deferential-formalisation-transference> (rather than the manifested mediatic silliness wherein ‘re-processive technicity/profundity’ is widely scorned upon ‘in favour of vague normalised/stereotyped/selfhelping/feel-good narratives’ as to mere entitlement-and-access and ratings-drivenness eliciting pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,- as-to-entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness⟩ in a ‘framework of preconvergingly–de-mentated/structured/paradigmed institutional and media contrivance’ and so-inducing ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’, and as so-cynically-and-surreptitiously cajoled by dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> rendering the ‘overall social intellection-aptitude body’ relatively irrelevant towards upholding the sovereign–function/posture). Thus, the sovereign–function/posture is effectively disempowered as to its relevance to public outcomes of social-stake-contention-or-confliction when the
‘overall social intellection-aptitude body’ assessment capacity is fundamentally undermined as to monopolising/quasi-monopolising/networking existentialising–frame of public and institutional discursivity as of mere entitlement-and-access and ratings-drivenness bent on side-lining salient and relevant narratives as to technicity/profundity (such that in effect through the decades such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity—discretely-implied-functionalism—has paradoxically effectively-and-preemptively succeeded in ‘qualifying in the public psyche’ the ‘specific overall social intellection-aptitude body that is the public university as to its underlying social-construct ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality—so-reflected as of social notional—self-distantiation—imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing—with regards to socio-econo-political social-stake-contention-or-confliction aporeticism overcoming/unovercoming’ in falsehoods terms of ‘contrastive equivalence’ implied distractive-alignment-to—reference-of-thought—apriorising/axiomatising/referencing—and so-undermining its ‘neutral sovereign—function/posture upholding’, and with a failed public consciousness about the sovereign importance of the public university practically subjecting them to increasing private funding deeply eroding-and/or-corrupting their capacity for ‘neutral sovereign—function/posture upholding’ and most critically-so not necessarily in quashing ideas but inducing social apprehension and contestive inactivity). In many ways, the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign—function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) in recent decades with regards to socio-econo-political subontologisation/ideology-over-ontology has often failed to appreciate the implications of the fact that given human—amplituding/formative—epistemicity—totalising—thrownness-in-

The consequence being that a ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness’/preconvergence in an atmosphere of incoherence between concrete–social-reality—as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social-reality—as-to-manifest-sublimation/desublimation>’ is critically inadequate for ‘neutral sovereign–function/posture upholding’ as so particularly elicited with distractive-alignment-to—reference-of-thought—of-apriorising/axiomatising/referencing—issues. The fundamental point here is that existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—as-to-perspective–ontological-normalcy/postconvergence-implied—'prospective-aporeticism-overcoming/unovercoming'>

such ‘vested interests driven conception of balance as to discrete interests’ rather an exercise consciously or unconsciously of manifest ontological-bad-faith/inauthenticity in preconverging-existential-extrication-as-of-existential-unthought. Thus ontological-veracity (as to the pertinence of ‘overall social intellection-aptitude body’ as to its capacity for ‘neutral sovereign–function/posture upholding’) rather arises as of a ‘human knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism imbued theoretical/conceptual/operant implications detour to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression’ in pointing out the prospect of sublimating/desublimating–existentialising–decisionality socio-econo-political outcomes and implications rather than the ‘passive deification of institutional process/processiveness as of mere-formulaicity-<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising>’ (underlying why such a deficient social intellection posture will tend to be one step behind cumulating desublimating socio-econo-political outcomes as if it is most critically about reflecting upon such cumulating desublimating–existentialising–decisionality socio-econo-political outcomes rather than truly a posture of anticipative analysis and preemption). This mere process/processiveness induced deficiency is often critically reflected in a ‘barest and passive/poorly-reflexive conception of sovereignty in the democratic process’ that is poorly cognisant of the appropriate overall social enlightenment/knowledge imbuing oversight of the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) that is ‘much more than about leaving the room for competing/contending parties narrations/orientations/advocacies for socio-econo-political existentialising–decisionality but appraising-and-critiquing the effective coherence of such narrations/orientations/advocacies as to socio-econo-political outcomes expectations of the

about technical and natural science sublimation (and as so-advanced implicitly or explicitly in

many ways seem to be wary of prospective human re-ontologisation/omnipotentiality

thus critical for humanity as a whole and as of social science practice to inculcate the attitude
that despite the blurriness of human social-and-institutional-frameworks-of—

bluntly challenged notwithstanding any browbeating as ‘supposed intellectuals’ lose their

instance is what allows for the expectations/anticipations underlying physical

as to generated material productions (as without abstract science contemplation the very imagination of derived technologies will not arise) and along the same lines it can only be of the utmost disappointment to realise that at the very core of academic institutionalised social and philosophical contemplation is the manifestation of a pedantry that doesn’t have or project the lack of the least insight about the historicality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’> of social and philosophical ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism’ imbued theoretical/conceptual/operant implications’ as underlying the effective sublimating human and social expectations/anticipations that sublimatingly beget societies up to our age and as of relevance for prospective human and social construction. At the ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ such a conceptualisation may seem frivolous but then the work/job of doing philosophy and thinking is not for those of ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’; that is why such pettiness-of-minds cannot recognise true work/job when they see it and it is herein contended are better off elsewhere rather than ‘merely hanging to the thread of institutional prescience’ devoid of ‘aptitudinal-substantive-pertinence reflected in a predisposition for totalisingly-disentailing—discretion/whim-of-thought’ that fails prospective human re-ontologisation/omnipotentiality. The above insight provides a relevant backdrop for a truer appreciation of what is entailed by prospective ‘\text{nonpresencing-<perspective–ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation}’ since critically any registry-worldview/dimension is rather of ‘self-referencing-syncretising forward-facing postconverging-or-dialectical-thinking\textsuperscript{(2)} \~apriorising-psychologism epistemic-projection \text{of mere-formulaicity-<as-to-mere-formulaic—
