We can appreciate in this regards that the ‘sublimating—existential-decisionality potency of a scientist thought is not in-and-about themselves’ as so-manifested in a ‘normalised/stereotyped/selfhelping/feel-good conception of knowledge’ but rather ‘their inherent coherent knowledge formulation technicity/profundity and elucidating elaboration’ which then has to avoid explicited or implicited contradictions with regards to the knowledge technicity/profundity ‘enhancement of the overall social-setup self-reflexivity as of the breadth of socially cogent percolation-channelling-in-deferential-formalisation-transference>

well as generalised social advocacy in contemplating about prospective ‘re-

that such anti-relativism stances which will imply no human progress occurs are ‘so moronic’ it
is doubtful these are held out of true conviction (bad or good), but rather are ‘cynical and
strategic anti-intellectualism stances hanging upon mere institutional imprimaturing (as

The implication here is that a human mental-reflex of ‘mere-formulaicity–<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising> of ruling and rule-making as to apriorising/axiomatising/referencing’ is ever always of wanting ontological-veracity in need for ‘corrective human profound-supererogation\textsuperscript{97} imbuing human limited-mentation-capacity-deepening\textsuperscript{53}’. In other words human ‘potential of profound-supererogation\textsuperscript{97}’ (as the corrective potentiating of human limited-mentation-capacity for human limited-mentation-capacity-deepening\textsuperscript{53}) is veridically what carries an abstract equivalence association/relatioln with existence’s inherent ontological-normalcy/postconvergence (and so rather than any human limited-mentation-capacity educing mere-formulaicity–<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising> which rather induces ‘huma prospective regressive-shift in ontological-normalcy/postconvergence conceptualisation’). But then, all social-setups ‘as specifically instantiated social-constructs of human intelligibility’, are wedded whether as of relatively shallow-supererogation\textsuperscript{97} or relatively profound-supererogation\textsuperscript{97} (as to Being-development/ontological-framework-expansion–as-to-depth-of-

Such a nonpresencing<-perspective–ontological-normalcy/postconvergence> conception of epistemicity it is herein contended is of most profound social and overall knowledge aporeticism overcoming/unovercoming relevance. Human angling-of-imaginary (unlike the predisposition to mere-formulaicity<-as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising> of human psychical-nascency) construes of knowledge as of emergent social conception and instigation for knowledge formation/creation (and so beyond and unfazed by its supposed manifest institutional capture/catchmenting) with regards to the veridical existential veracity of knowledge for prospective ontologising/re-ontologising sublimating/emancipating expansion of human ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’. Such an incipient social conception and instigation of prospective genuine-knowledge as to its veridical existential veracity underscored the Socratic-philosophers and their successors development of philosophical schools propounding universalising-idealisation in sublimating self-assuredness-of-ontological-good-faith/authenticity postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality subverting the Ancient-sophists ‘non-universalising sophistry ontological-bad-faith/inauthenticity ~preconverging–de-mentating/structuring/paradigming ’, likewise budding-positivism movements with their correspondences and initiatives in sublimating self-assuredness-of-ontological-good-faith/authenticity postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality ultimately led to the subversion of medieval-scholasticism ‘non-positivising scholasticism ontological-bad-

conflatedness in [preconverging-disentailment by] postconverging-entailment. Thus notionally a supererogatory-wholesomeness/profound-supererogation of notional-citationality (as to ‘a connoting supererogation-drivenness construal of the epistemic-totality of human–textuality-as-to-existentialising/contextualising/textualising' in epistemic-totalising –reconstructing or totalising-entailing-reconstrual’) very much explains why prospective knowledge generation is not associated with an absolutising conception of denoting/citation as to the fact that it can hardly be said Einstein was among the best Newtonian physics scholar when analysed in terms of mere academic ‘presublimating relic/artifactual–beholdening-constitutedness historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ Newtonian physics (but rather it is his appropriate notional-citationality emplacement as to nonpresencing-perspective-ontological-normalcy/postconvergence epistemic-projection that so-decisively enabled his pioneering of prospective physics). Such a relation with prospective knowledge generation today particularly in domains-of-study susceptible to blurriness induces a markedly desublimating conception of notional-citationality as to when the ‘artifice of academic and institutional politics’ leads to a conception of knowledge as of ‘an institutional and academic nombrilism of self-presence/self-constitutedness-in-perspective–epistemic-abnormalcy/preconvergence’ to which prospective human aporeticism overcoming/unovercoming is relatively irrelevant such that the construal of knowledge as to denoting/citation implications carries its very own ‘academic and institutional politics of knowledge’ undermining organic-knowledge notional-citationality (with notional-citationality so-implied in self-becoming/self-conflatedness/formative-supererogating-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence) psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as to reference-of-thought postconverging-dementating/structuring/paradigming). This further explains overall

Furthermore an ‘epistemic-break or notional-discontiguity/epistemic-discontiguity’ <-shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema> as to difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing ’ arises since ‘a constraint is not a value’ (as to the fact that ‘an preconverging-existential-extrication-as-of-existential-unthought normalising mentality’ reflects a contraining orientation in contrast to ‘inherent postconverging-nonextricatory-existential-preempting-of-existential-unthought’ reflecting a value orientation).

‘knowledge entailment as of nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection’ (theoretically/conceptually/operantly articulated herein as amplituding/formative>entailment{as-to-totalising-contiguous/coherent-factuality-of-variability}), and so-reflected overall as knowledge foregrounding entailment (postconverging–narrowing-down–sublimation-as-to–‘existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation ~-in-reflecting–‘immanent-ontological-contiguity ‘; as-operative-notional–deprocripticism). The insight here as well is that ‘knowledge carries its very own value’ (as to its prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection) since there is no neutral human mental-state of human ontological-performance -<including-virtue-as-ontology> but for the appraisal from nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection. This is so-equally graspable for instance in the patent case of say a God-of-plane or superstitious conception of modern medicine in an animistic social-setup that cannot simply be construed as ‘explained away by a circumstantial thorough positivistic/rational-empiricism elucidation of how a plane or modern medicine works’ since such an animistic social-setup existentialising–frame is so-thoroughly beholdening to its ‘mystical/spirits conception of things’ going by its ingrained reference-of-thought specific preconverging/dementing–qualia-schema’ that at best only a circumstantial constraining is induced (and not a positivistic/rational-empiricism knowledge value as to its prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection) since the animistic mindset is bound to fallback/relapse into such a ‘mystical/spirits conception of things’ (so-reflected in the generationally ingrained animistic psychologismic~apriorising/axiomatising/referencing–{of-attendant ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }—constitutedness in–preconverging entailment’ from which it has to crossgenerationally undergo psychoanalytic-

It can be appreciated (as of an anthropological insight) that a positivistic/rational-empiricism mindset encounter with say an animistic social-setup cannot relate to the latter in ‘absolute terms of effectively demonstrable positivistic/rational-empiricism systematicity/entailment of sublimating’ (as it will so-relate to a fellow positivistic/rational-empiricism mindset) as this will induce excessive mental alienation to the ‘point of the positivistic-with-animistic mutualising mental shutdown’. But rather such a relation will be ‘within the scope of the animistic collective-social implications of human

possibility for an anti-positivising disontologising as to temporal social-stake-contention-or-

In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and
scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendancy with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a de-mentative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–
progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory-progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory-progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory-progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory-progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory-progressivity) and in
many ways undermining the inclination for profound value creation as to the shortcut for short-
term returns. This capitalistic model of skewed value-extraction undermines the possibility of
overall human supererogatory–progressivity as to when in the contest between optimal-
resource-allocation for value-creation as to the requisite creativity for individuals and social
supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-
sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting
the externalities investments in education and infrastructure of second and third world
countries) but still posing the question as to how skewed value-extraction can de-
mentatively/structurally/paradigmatically address in the long-run issues of requisite social and
public investment as a requisite for a theoretically self-sustaining economic model (not
critically driven and supported by the supererogatory–progressivity prioritisation of local or
foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall
social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit
manifestation of supererogatory–progressivity as underlying any given underpinning–
suprasocial-construct is most obvious today with the Chinese economic revolution as to the
creative impetus driving its overall socioeconomic transformation. Here again it is fair to say
just like with the Japanese and South Korean economic revolutions (given their more uniform
and deferential populations) there is a whole directedness here (beyond just a purist capitalism
model especially of a renting and skewed value-extraction capitalistic model) and so as to
‘country supererogatory–progressivity directed whole socioeconomic transformation project’,
and in many ways the capacity for the Chinese to now begin to invest abroad lies with this
relatively healthy supererogatory–progressivity conception/model less betrothed to short-term
skewed value-extraction poorly capable of fulfilling the necessary externalities investment to
thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to
make such markets stable and sustainable). But then in reality when push-came-to-shove the
fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of supererogatory–progressivity’ as so-associated with debt servitude and de-mentative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the
relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation\textsuperscript{77} economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of
supererogatory—progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness—<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of <presencing—absolutising-identitive-constitutedness—social-vestedness/normativity—<discretely-implied-functionalism>}). Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory—progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the modern-day statal conception of social supererogatory—progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory—progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory—progressivity as well as decolonised—capitalistic-by-statal supererogatory—progressivity so-construed as ‘anarchical individual and social supererogatory—progressivity’. Such a representation as herein articulated of the truer supererogatory—progressivity (however the ‘shallow-supererogation’ of supererogatory—progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to <presencing—absolutising-identitive-constitutedness—social-vestedness/normativity—<discretely-implied-functionalism>}). The relative veracity of supererogatory—progressivity is strongly seen with the state-driven Asian and European supererogatory—progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose
capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from a totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is preconvergingly–de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond any such capitalistic limitative-artifice-of-human-imaginary/metaphysical-conceptualisation as to

In other words, the notion of ‘the other’ as aetiolisation/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notion-contiguity/epistemic-contiguity <profound-supererogation -of- mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema> for ontologically-veridical virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the
prior relative-ontological-incompleteness-of-reference-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity of reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. This existential reality about ontological-prime movers-totalitative-framework is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective–ontological-normalcy/postconvergence-implied-prospective-aporeticism-overcoming/unovercoming> inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying
disposition/care–and–episteme’ vices-and-impediments. As a further elucidation, prospective notional-contiguity/epistemic-contiguity as of prospective relative-ontological-completeness of reference-of-thought actually points out that the uninstitutionalised-threshold is rather a point of de-mentation-(supererogatory-ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity as of shallow-supererogation of mentally-aestheticised-preconverging/dementing–qualia-schema but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with a universal principle understanding of the transformation of traditions and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that a universal principle understanding of the transformation of traditions as herein implied by this author in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating’.

We thus see why the future redevelopment of Heideggerian misconceived prospective notional-contiguity/epistemic-contiguity as of prospective relative-ontological-completeness reference-of-thought as undertaken by latter thinkers like Foucault, Derrida, Deleuze, Lacan, Lyotard and others are full of prospective quasi-transcendental ‘de-mentative/structural/paradigmatic disseminative implications’ as reflecting an underlying reality of prospective reference-of-thought de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mention—or–attributive-dialectics) construed herein as of prospective postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, and so just as searing with ‘de-mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought de-mention (supererogatory–ontological–de-mention-or-dialectical–de-mention—or–attributive-dialectics) implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-

and more original is happening, in that unlike many medieval-scholasticism dogmatic
interpretations that construe of a supernatural permeation into the natural, in affirming the
ontological argument Descartes blocks-out/passivises the supernatural from the natural with the
metaphoricity implication that the natural can be thought of operationally and in sublimation
on its own terms—as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a

In effect Descartes project is actually as to existence-potency\textsuperscript{38}–sublimating–nascence, disclosed from prospective-epistemic-digression relative-ontological-completeness\textsuperscript{1} of apriorising/axiomatising/referencing as of positivism, and so from the prior\textsuperscript{80} presencing—absolutising-identitive-constitutedness\textsuperscript{13} of non-positivism/medievalism. ‘exteriorisation attitude/mental-disposition/care–and–episteme’ of
disposition/care–and–episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity analysis, implied as of prospective relative-ontological-completeness of reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness of reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising /circumscribing/delineating construct being the reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology but rather human-subpotency adjusting as to existence-potency sublimating–nascence, disclosed from-prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness of reference-of-thought/relative-ontological-completeness -of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with regards to the reference-of-thought transcendence-and-sUBLIMITY/sublimation/supererogatory–de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and-teleology is an incrementality-in-relative-ontological-incompleteness—enframed-conceptualisation to our

Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) This insight about ontological-performance\textsuperscript{72} -<including-virtue-as-ontology> as of prospective relative-ontological-completeness\textsuperscript{39} of human-subpotency can be garnered with respect to any axiomatic-construct as the \textit{meaningfulness-and-teleology}\textsuperscript{100} representation of human-subpotency ontological-performance \textit{<including-virtue-as-ontology> correspondence with the full-potency-of-existence’s~sublimating–nascence-as-of-its-coherence/contiguity or a purview/domain of existence/intrinsic-reality/ontological-veridicality, and so not only with regards to the \textit{reference-of-thought as the grandest axiomatic-construct. Such ‘excogitative-blanking of prospective attendant-ontological-contiguity\textsuperscript{45}-educed-existentialising/contextualising/textualising-contiguity\textsuperscript{10}-reification’ can be construed as to when say the non-positivistic mindset goes about articulating meaningfulness-and-teleology\textsuperscript{100} falsely as if superstitious notions ontologically-veridical out of prospective positivism attendant-ontological-contiguity\textsuperscript{45}-educed-existentialising/contextualising/textualising-contiguity\textsuperscript{10}-reification, and likewise with regards to a positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought mindset construal of meaningfulness-and-teleology\textsuperscript{100} that utterly overlooks the de-mentative/structural/paradigmatic reference-of-thought denaturing implications of its prospective disjointedness of meaningfulness-and-teleology\textsuperscript{100} out of prospective attendant-ontological-contiguity\textsuperscript{45}-educed-existentialising/contextualising/textualising-contiguity\textsuperscript{10}-reification, as such disjointedness-as-of-reference-of-thought can be instigated originally from a postlogism-slantedness mental-disposition and the developing social dynamics with human temporality\textsuperscript{99}. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon/projection of meaningfulness-and-teleology\textsuperscript{100} about attendant-ontological-contiguity\textsuperscript{45}-educed-existentialising/contextualising/textualising-contiguity\textsuperscript{10}’; but then at its uninstitutionalised-threshold\textsuperscript{03} where its reference-of-thought de-mentative/structural/paradigmatic ontological-

institutionalisation ‘perceptual perspective/framing/reference/horizon/projection of meaningfulness-and-teleology about attendant ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity’. But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-threshold but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>—existentialism-form-factor, that the possibility for all prospective institutionalisations necessarily passes through understanding ‘human-subpotency existentially constrained temporal ontological-performance—<including-virtue-as-ontology> as wooden-language—{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology } of the prior registry-worldview/dimension in usurpation’, which understanding is actually what empowers the possibility for prospective institutionalisations that supersede/transcend it. In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure—{as-to—historiality/ontological-eventfulness }—ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence—reflected—‘epistemicity—relativism—determinism’> of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not
the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective. That is, grounding of "meaningfulness-and-teleology\textsuperscript{100} is certainly required, but as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective relative-ontological-completeness -of- reference-of-thought; and as highlighted elsewhere it is ontological-completeness-of- reference-of-thought (of human-subpotency as of its limited-mentation-capacity-deepening\textsuperscript{53}) that can imply human-subpotency ontological-performance\textsuperscript{12} -><including-virtue-as-ontology> correspondence with the full-potency of existence. Central to any such prospective institutionalisation transcendental-enabling/sublimating/supererogatory—de-mentativity meaningfulness-and-teleology is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness of reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification as of the developed disposition to register such implications as of their intemporal/longness-of-register-of meaningfulness-and-teleology pertinence; as the notion of crossgenerational de-mentation (supererogatory–ontological—de-mentativity-or-dialectical— de-mentation—stranding-or-attributive-dialectics) herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying meaningfulness-and-teleology. ways they will fail to fulfil the mundane medieval world conception of ‘the supposedly good

This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology that there is and can exist is ontological as of prospective relative-ontological-completeness, such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness -of- reference-of-thought, as so implied from singularisation projected epistemic-immanence/veridical-epistemicity-relativism-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology. This points out that as of its very own <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, a registry-worldview/dimension reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness -of- reference-of-thought reification of meaningfulness-and-teleology, as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism–procripticism as from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocripticism–or–preempting—disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness perspective. (\langle amplituding/formative> supererogatory–de-mentativity/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\rangle inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness –of- reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness –of- reference-of-thought; and in due course, by its ontological-primemovers-totalitative-framework constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary-as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking –'projective-insights'/epistemic-projection-in-conflatedness ‘–of–notional–deprocrypticism-prospective-sublimation) potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of
‘understanding’ of prior relative-ontological-incompleteness\textsuperscript{89} -of- \textsuperscript{84} reference-of-thought with the latter’s \textsuperscript{4} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity\textsuperscript{7} constraint as of ontological-primemovers-totalitative-framework\textsuperscript{1} for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness\textsuperscript{89} -of- \textsuperscript{84} reference-of-thought naïve non-transcendental \textsuperscript{4} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘preconverging-existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of meaningfulness-and-teleology\textsuperscript{100}. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold\textsuperscript{103} transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing\textsuperscript{15} mortals that we are for our prospective
emancipation. Without an insight about reification and dereification, the notion of singularisation projected epistemic-immanence/veridical-epistemicity-relativism-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance-of-including-virtue-as-ontology of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology reflecting dereified and reified construals of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence-psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity }—conflatedness—in-{preconverging-disentailment—by}—postconverging-entailment,—in-self-becoming/self-conflatedness/formative—supererogating of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance-of-including-virtue-as-ontology manifestation of
psychopathy and social psychopathy which is ‘de-mentatively/structurally/paradigmatically associated with the denaturing of the \( \langle \text{amplituding/formative-epistemicity}\rangle \text{totalising-devolved} \) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the \( \langle \text{amplituding/formative-epistemicity}\rangle \text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \) backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring \( \langle \text{meaningfulness-and-teleology}\rangle \); with the fundamental implication that there are thus divergent apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of psychopathic induced postlogism\( ^{1}\) -slantedness, and its social cognisance and integration as conjugated-postlogism\( ^{2}\) so-conjugating as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of social psychopathy. In this latter case of contrasted reification and dereification and implying moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-as-psychopathic-and-social-psychopathic mental-dispositions and the intemporal mental-disposition, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-discontiguity\( ^{6}\) —contrastive-reification-dissemination -and-dereification-dissemination -implications’ construed as the ‘variance/discrepancy of \( \langle \text{meaningfulness-and-teleology}\rangle \) as-of-prospective-relative-ontological-completeness -postconverging-or-dialectical-thinking – apriorising-psychologism and as-of-prior-relative-ontological-incompleteness\( ^{10}\) -preconverging-or-dementing –apriorising-psychologism respectively; it is only ontologically-veridical difference-conflatedness\( ^{12}\) -as-to-totalitative-reification-in-singularisation-\( \langle \text{as-to-the-} \rangle \)

Note that on
the imaginary supposition that no such prospectively projected ‘notional-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-presencing’ projected epistemic-immanence/veridical-epistemicity-relativism-determinism’ existed as ‘providing the ontological-veridicality insight-of-completeness for reifying meaningfulness-and-teleology, mental-dispositions in prior relative-ontological-incompleteness will falsely go on reasoning with ‘traditional classical mechanics axiomatic-construct’ by identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > as-flawed-epistemicity-relativism-determinism as providing ontological-veridicality as of this now dereifying construal of attendant-ontological-contiguity—educed-existentialising/contextualising/textualising-contiguity of ‘the very same physics <amplituding/formative-epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. But then again, the reality of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of prospective relative-ontological-completeness will point out that such ‘traditional classical mechanics axiomatic-construct’ identitive-constitutedness—as-‘epistemic-totality’-dereification-indissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > as-flawed-epistemicity-relativism-determinism is in reality preconverging-or-dementing—apriorising-psychologism as of its relative-ontological-incompleteness. This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism—procrypticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procrypticism—or-disjointedness-as-of-reference-of-thought that speaks of our prospective preconverging-or-dementing—apriorising-psychologism at our prospective positivism—procrypticism uninstitutionalised-threshold, and so as reflected from futural Being-development/ontological-framework-
veridical-epistemicity-relativism-determinism from this projected ‘notional-singularisation’ projected epistemic-immanence/veridical-epistemicity-relativism-determinism’ as of deprocrypticism—or-preempting—disjointedness-as-of-reference-of-thought perspective or attitude/mental-disposition/care—and—episteme over our positivism—procrypticism, so-implied as of their disseminative-notional-discontiguity/epistemic-discontiguity contrastive-reification-dissemination -and-dereification-dissemination—implications. But then just as the reflex mental state and attitude/mental-disposition/care—and—episteme in a universalisation—non-positivism/medievalism social-setup will be resistant to an elucidation of notions-and-accusations-of-sorcery adopting the perspective or attitude/mental-disposition/care—and—episteme of the reifying prospective positivism to arrive at ontological-veridicality, likewise more fundamental in undermining the elucidation of the manifestation of psychopathy and social psychopathy is the fact of an ordinariness wooden-language ⟨imbué—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications⟩ reflex mental state and attitude/mental-disposition/care—and—episteme in our positivism—procrypticism that will be resistant to adopting the reifying perspective or attitude/mental-disposition/care—and—episteme of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought to arrive at ontological-veridicality that rather implies the dialectical—de-mentation of our positivism—procrypticism at its uninstitutionalised-threshold; and as we falsely go on to construe attendant—ontological-contiguity—educated—existentialising/contextualising/textualising-contiguity—in-reification/dereification by adopting the positivism—procrypticism dereifying perspective or

Further and insightfully again, with the manifestation of childhood psychopathy where the postlogism-slantedness is universally transparent there is no occurrence of interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of attendant ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity—in-reification/dereification as of the childhood slantedness, but with respect to adult psychopathy with the attendant maturation/indirectness/spatialisation/credulity/craftiness, such interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of attendant ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity—in-reification/dereification arise as of their temporal threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism>, which implies an invested social commitment as of thought and association that is then inclined to overlook inherent ontological-veridicality, as of interlocutors postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance<including-virtue-as-ontology> leading to the dynamics of social psychopathy, and this logic also explains how and why notions-and-accusations-of-sorcery are endemised/enculturated in a non-positivism social-setup; with the insight as articulated by this

existential reality as the absolute a priori’; such that the meaningfulness-and-teleology that
arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is
apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity}—educed—existentialising/contextualising/textualising-contiguity—conflatedness—in—preconverging-disentailment—postconverging-entailment—that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening’ implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional~conflatedness of notional~deprocrypticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation—<as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing>. Such a postmodern/suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care—categorical-imperatives/axioms/registry-teleology—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of such organic-knowledge construed in intemporality as supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism, whereas mechanical-knowledge is rather predispose to adhere as of temporal threshold-of—
nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism to such mere ‘reference-of-thought– categorical-imperatives/axioms/registry-teleology’, for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology. The latter points to an inappropriate attitude/mental-disposition/care–and–episteme which is not beholden to the prospective institutionalisation but rather is of preconverging–existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme and organic-knowledge attitude/mental-disposition/care–and–episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms–as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-
posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfullness-and-teleology as of any specific human society relative-ontological-incompleteness-of-reference-of-thought as fundamentally denaturing, and likely to induce transversality-
dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising~in-relative-ontological-completeness). Ultimately, such a double-gesturing hold out the possibility in reflecting holographically—⟨conjugatively-and-transfusively⟩ the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care–and–episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising~in-relative-ontological-completeness).
Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation—as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care—and—episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care—and—episteme event—or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human <amplituding/formative—epistemicity>totalising—thrownness-in-existence (as to when even the Christian Jesus refers to
giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originarily-as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking -‘projective-insights’/‘epistemic-projection-in-conflatedness’-of- notional-deprocrypticism-prospective-sublimation} creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification–gesturing<in-prospective_psychologismic–apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }—

Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity’—of-the-human-institutionalisation-process as of difference-

due to ‘lack of social universal-transparency -{transparency-of-totalising-entailing,-as-to-

with respect to prospective positivism was psychically and surreptitiously undermining of a
sense of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-

It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of—meaningfulness-and-teleology \(^{10}\) stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology \(^{10}\) as of its crossgenerational transcendental implications and as reflected from the insight in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process \(^{9}\). Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics—amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of ontological-prime-movers-totalitative-framework \(^{12}\), and so divulged by existence-potency\(^{13}\)—sublimating—nascence,—disclosed-from-prospective-epistemic-digression; as prior human—presencing—absolutising-identitive-constitutedness\(^{13}\) experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as presencing—absolutising-identitive-constitutedness\(^{13}\) enabling the obtention of any such conclusions from
the given classical-mechanics—axiomatic-constructs apriorising/axiomatising/referencing-\{of-attendant ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity \}—constitutedness in preconverging entailment, but rather it is by apriorising/axiomatising/referencing-\{of-attendant ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity \}—confaltedness in \{preconverging-disentailment by\} postconverging entailment with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of nonpresencing-\{perspective–ontological-normalcy/postconvergence\}. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of–meaningfulness-and-teleology\(^{10}\) individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework\(^{2}\) tendential validation as to existence-potency\(^{3}\)–sublimating–nascent--, disclosed-from-prospective-epistemic-digression. Such a construal of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening\(^{3}\) analysis; and insightfully, as reflected in the underlying apriorising/axiomatising/referencing-\{of-attendant ontological-
Similarly, this author’s articulation of futural-différance as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freplay différance, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity’; and différance as of such
‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting—conviction-as-to-profound-supererogation of ‘attendant-intradimensional’—postconverging/dialectical-thinking —apriorising-psychologism deference to the prescience of existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the postconverging—de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness—of—reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness—of—reference-of-thought, and so by maximaliing—recomposuring <amplituding/formative—epistemicity> totalising—renewing—realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential postconverging—de-mentating/structuring/paradigming of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation—ununiversalisation,
universalisation–non-positivism/medievalism, and positivism–procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality-as-of-neuterisation/relative-ontological-incompleteness/ preconverging-existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension reference-of-thought in prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social universal-transparency’

\[
\text{(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness)'.}
\]

But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay comes into terms with both presencing—absolutising-identitive-constitutedness and nonpresencing—<perspective—
ontological-normalcy/postconvergence> on the basis of the prospective relative-ontological-completeness\(^\text{88}\)/ontological-contiguity\(^\text{67}\) of the latter over the prior relative-ontological-incompleteness\(^\text{69}\) of notional-discontiguity/epistemic-discontiguity\(^\text{63}\) of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human\(<\text{amplituding/}formative–\text{epistemicity}\)totalising–purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\(^\text{23}\) between \(\text{presencing—absolutising-identitive-constitutedness}\) and \(\text{nonpresencing-}<\text{perspective–ontological-normalcy/postconvergence}>\). Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon/projection as of prospective relative-ontological-completeness\(^\text{88}\) notional-contiguity/epistemic-contiguity\(^{62}\)’ construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic\(^{56}\)meaningfulness-and-teleology\(^{100}\) grounded on such a developed consciousness perspective/framing/reference/horizon/projection. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon/projection as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation\(^{51}\)meaningfulness-and-teleology\(^{100}\) without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon/projection as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset
perspective/framing/reference/horizon/projection’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon/projection as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon/projection’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon/projection as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon/projection’ to grasp notional–deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘notional–deprocrypticism mindset perspective/framing/reference/horizon/projection as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness of reference-of-thought is enabling to surreptitious
Establishment charlatanism, however, with increasing ‘social universal-transparency; transparency-of-totalising-entailing—amplituding—formative—epistemicity—totalising—in-relative-ontological-completeness’ such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of de-mentation—supererogatory—ontological—de-mentation—or—dialectical—de-mentation—stranding-or-attributive-dialectics which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing/ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—as-to-postconverging-or-dialectical-thinking—apriorising—psychologism’ of the consciousness in ontological-contiguity/relative-ontological-completeness/of-reference-of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring—as-to-preconverging-or-dementing—apriorising—psychologism of the consciousness of notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema/relative-ontological-incompleteness/of-reference-of-thought as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, and not incrementalism—in-relative-ontological-incompleteness—enframed-conceptualisation, as of the very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human—amplituding—formative—epistemicity—totalising—purview-of-construal’. As futural différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freplay
différence’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening; overriding the idea that the perspective/framing/reference/horizon/projection of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising’, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing as of prospective relative-ontological-completeness—reference-of-thought bringing about transcendence-and-sublimity/sublimation/supercratory—de-mentativity as of nonpresencing—perspective—ontological-normalcy/postconvergence. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différence-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différence’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimity’s that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness and prospective relative-ontological-completeness, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics <amplituding/formative—epistemicity> totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human
sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\textsuperscript{23} bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of nonpresencing-<perspective-ontological-normalcy/postconvergence>. In other words, human consciousness tends to be constraint to its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} mental-disposition as of presupencing—absolutising-identitive-constitutedness\textsuperscript{11}. But existence/ontology’s-directedness-as-Being as of nonpresencing-<perspective–ontological-normalcy/postconvergence> is beyond and not constraint by human consciousness as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of ontological-primemovers-totalitative-framework validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence-{implicitd–nondescript/ignorable–void ‘as-to-presencing—absolutising-identitive-constitutedness’} of any given <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} from a ‘difference-in-kind/difference-in-
aposteriorising-or-logicising posture; such that humankind then overlooks presencing—absolutising-identitive-constitutedness and re-projects/re-anticipates nonpresencing-
<perspective–ontological-normalcy/postconvergence> enabling human transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity. Therefore, metaphoricity as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity as such simply refers to signification adjunctiveness to ‘underlying
<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-
construct of language’ as of both the ‘meaningfulness-and-teleology’ implications to the so-
renewed underlying ‘underlying
<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and the specific adjunctive-metaphoricity-signification within such renewed ‘underlying
<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. Metaphoricity is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-teleology as an epistemic-totalising /circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-
mentation-capacity as of growing certitude from the opening up of nonpresencing-
<perspective–ontological-normalcy/postconvergence> by human re-projection/re-anticipation ultimately validated by existence ontology’s-directedness-as-Being ontological-primemovers-totalitative-framework. Further, metaphoricity as such speaks of the evasiveness of all human meaningfulness-and-teleology at uninstitutionalised-threshold as recurrently

the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay with respect to our procrypticism–or–disjointedness-as-of reference-of-thought uninstitutionalisation and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of prospective notional–deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag . Galileo could well had possibly recasted his implied positivism in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal–or–metaphysics-of-absence–(implicit–veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>–or–transcendental-reasoning-of-event –as–prospective-ontology-origination perspective/framing/reference/horizon/projection of positivism we entertain today. Likewise, as of such metaphoricity episteme, the herein implied as of its essence cannot do without this hermeneutic/reprojecting/supererogating/zeroing circle phenomenological ontology elucidation as of its psychoanalytic-unshackling apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }–conflatedness –in {preconverging-disentailment–by} postconverging-entailment; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay . This author conceives that at the very core to such genuine understanding of postmodern-thought is a
double-gesture reification that consists of perspective/framing/reference/horizon/projection and then contention/argumentation within such articulated perspective/framing/reference/horizon/projection, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon/projection for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality<for-sublimating–existential–eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity”. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such
transversality-for-sublimating-existential-eventuating/denouement-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing

cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to ‘open-up’/‘throw-up’/‘reveal’ new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon/projection before contention/argumentation as of any given perspective/framing/reference/horizon/projection, thus implying ‘poor critical judgment’. With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling-in-deferential-formalisation-transference are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of wooden-language—imbued—averaging-of-thought—as-to—

that as of the history of such critiques it will be naïve not to factor in the reality of ontological-
bad-faith/inauthenticity and so particularly as it tends to shy away from genuine intellectual
engagement with postmodern-thought, and highlighting that the idea of arrogance peddled
about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-
bad-faith/inauthenticity critiques, as de-mentatively/structurally/paradigmatically that which

apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-

nonextricatory/intemporal/ontological relationship with meaningfulness-and-teleology, while
the latter is an existential-extrication/temporal/non-ontological relationship with
meaningfulness-and-teleology, in the sense that it is the former intemporal-as-ontological
individuation mental-disposition that is responsible for bringing about human Being-

infrastructure-of—meaningfulness-and-teleology in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-

Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. As ultimately, it is the prospective relative-ontological-completeness—of-reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory—de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon/projection of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency—{transparency-of-totalising-entailing— as-to-entailing— <amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness⟩’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations
about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised
deferrential-formalisation-transference posture in the social-setup. Such a healer encouraging the
social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivist
disease theory conception subverting their own non-positivist healing practice
notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity
 critiques with respect to postmodern-thought: whether when pretending to
misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing
in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation,
paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal
thought usurping the notion of science and intellectualism towards such uncritical publics; and
all this as a manifestation of perverted intellectual institutional-being-and-craft. While
postmodern-thought is not and has never been immuned from genuine intellectual criticism not
only from other schools-of-thought but among postmodern and poststructuralist thinkers
themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much
more than an issue about postmodern-thought but about all intellectualism generally as such
malpractices tend to mark the beginning of intellectual teleological-decadence—in-
subversion of progressive thinking and go on to permeate social practices and media practice,
thus rendering social and critical thought impotent. Further knowledge as understood by this
author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional-knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence tới implicitied-epistemic-verbatim-of-non-presencing→ perspective–ontological-normalcy/postconvergence will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness — of axiomatic-construct-or reference-of-thought over a ≥amplituding/formative-epistemicity ‡totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness‡—of-axiomatic-construct-or reference-of-thought of a better knowledge perspective/ reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-
thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness with regards to reference-of-thought and its derived meaningfulness-and-teleology, with the implication that we need to a prospective relative-ontological-completeness-of-reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of meaningfulness-and-teleology. In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology, are made to have their internal-dialectics/différance as of nonpresencing-<perspective-ontological-normalcy/postconvergence> for their sublimation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into more profound and more complete meaningfulness-and-teleology. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-
text, all construed by this author as of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity; is the enabling approach for human ontological-reconstituting-as-to-conflatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating-⟨amplituding/formative⟩supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) of our supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for-conceptualisation) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern postconverging–de-mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-prime movers-totalitative-framework’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as herein implied by this author with ‘the ontological-contiguity —of-the-human-institutionalisation-process congruent,-cogent-and-operant entailing framework of ontological-contiguity’. Anecdotally, the shallow-mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture
reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiolisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity\(^6\)—of-the-human-institutionalisation-process\(^6\) as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^100\) and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is behind the respective registry-worldviews/dimensions as of their given \(^5\) reference-of-thought specific neuterising as well as the ultimate deneuterising\(^5\)—referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity\(^64\) is equally elicited by ‘lack of social universal-transparency\(^10\)‘—{(transparency-of-totalising-entailing–as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness)}‘ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension \(^84\) reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the ontological-primemovers-totalitative-framework\(^73\) transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism
apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness ‘of’ reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating ⟨<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation⟩). Such apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity —educed—existentialising/contextualising/textualising-contiguity }—conflatedness—in—{preconverging—disentailment—by}—postconverging-entailment imbued in postmodern-thought address more than just apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity —educed—existentialising/contextualising/textualising-contiguity }—constitutedness—in—preconverging—entailment implications of knowledge construction as articulated herein but equally points critically to intellectually decadent institutional dispositions and practices where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a back seat, with intellectual postures increasingly defended with non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in the form of many an intellectual increasing disposition ‘to misunderstand’ others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on
likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance; with a resultant sense of socioeconomic and socio-political impotence as such blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and preconverging–dementating/structuring/paradigming of academic institutional setups into increasingly into pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation ({blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-
<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness ) are not dissociated from the effective possibility for transcendental-enabling/sublimating/superoogatory–d-mentativity, especially as such breakthroughs require the spontaneity of Dionysian arrangements. This author’s construes of ‘deprocrypticism—or–preempting—disjointedness-as-of—reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—meaningfulness’ conceptualisation as of ontological-escalation or aetiologisation, with respect to our present positivism–procrypticism disjointedness-as-of reference-of-thought, as the more fundamental transcendental issue for prospective ontological-primemovers-totalitative-framework transcendental-possibilities/potential beyond self-referencing-syncretism and circular palliative knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue with regards to attending to the inherent deficient uninstitutionalised-threshold of knowledge-construct possibilities and vices-and-impediments imbued in our positivism–procrypticism disjointedness-as-of reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—meaningfulness’. Such a paradox of human ontological-

existential-extrication-as-of-existential-unthought>, the supposedly implied assumption though false is one of social universal-transparency-\langle\text{transparency-of-totalising-entailing,-as-to-entailing-}<\text{amplituding/formative–epistemicity}>\text{totalising–in-relative-ontological-completeness}\rangle as all uninstitutionalised-threshold-or-uninstitutionalised-threshold-are-overtly-unassuming-and-rather-parasitising-or-coopting-of-institutionalisation-in-false-representation-as-institutionalisation such that prospective social universal-transparency-\langle\text{transparency-of-totalising-entailing,-as-to-entailing-}<\text{amplituding/formative–epistemicity}>\text{totalising–in-relative-ontological-completeness}\rangle elucidation of prospective institutionalisation reflecting the inherent veridicality of the uninstitutionalised-threshold in its beyond-the-consciousness-awareness-teleology-\langle\text{in-preconverging–existential-extrication-as-of-existential-unthought}\rangle collapses it. Thus the ‘notion of limited-mentation-capacity’ is basically the ‘underlying veridical human meaningfulness-and-teleology notion’ for which ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ construed as ontologically-flawed constructs in terms–as-of-axiomatic-construct of ‘neuterising as of \langle\text{amplituding/formative–epistemicity}>\text{totalising/circumscribing/delineating reference-of-thought-devolving}\rangle whether beyond-the-consciousness-awareness-teleology-\langle\text{in-preconverging–existential-extrication-as-of-existential-unthought}\rangle, and so elucidated from the ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective of notional–deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflicatedness protensive-consciousness sound conceptualisation perspective’. In so doing, the latter reflects the limited-mentation-capacity dynamism of meaningfulness-and-teleology as of notional–deprocrypticism as well as temporal-to-intemporal individuations mental-dispositions, by way of deneuterising—referentialism, in lieu of ‘neuterising. Thus this notion of human limited-mentation-capacity as the basis of différance/internal-dialectics/difference-deferral
divulges ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness\textsuperscript{13} consciousnesses flawed conceptualisation perspectives’ and as of their ontologically-flawed constructs of ‘neutering, with regards to articulating teleological elevation-as-of-upholding-ontological-veridicality or teleological degradation-as-of-failing-ontological-veridicality respectively either as of apriorising/axiomatising/referencing-\{of-attendant ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity \}-

Thus by its deneuterising—referentialism construed as of historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>, notional–deprocrypticism enables a fundamental ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, and so superseding a naïve metaphysics-of-presence<implicated-'nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness¹> affect-driven mented or stigmatic psychology rather as of a shallow perspective and vaguely articulated as of universal import. The idea here with regards to human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, is that from a creative perspective: the notion of a given ‘neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness¹, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this ‘neuterising that human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is achieved from the prospective notional–conflatedness² of notional–deprocrypticism and so by deneuterising—referentialism, which is equinominal/equivalent to nonpresencing<perspective–ontological-normalcy/postconvergence>. This example isn’t that farfetched as anthropological evidence of such cases abounds with many native societies so disrupted by culturally alienating positivistic material diffusion. Human material/technical development and corresponding mentality as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology are inextricable and critical in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process including our positivism–procypticism registry-worldview/dimension. Correspondingly, from the vantage position of our present positivising/rational-empirical ontological-completeness-of-\( ^{14} \)reference-of-thought with respect to a non-positivism/medievalism worldview, we can garner an insight of the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \( ^{97} \)-<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism\( ^{78} \) of the postlogism\( ^{78} \)-and-conjugated-postlogism\( ^{78} \) in a non-positivism/medievalism setup, wherein faced with arguments of the sort who is the sorcerer, how are they using their sorcery, etc., speaking of the non-positivism/medievalism relative-ontological-incompleteness \( ^{97} \)-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \( ^{97} \)-<as-to–‘attendant-intradimensional’–prospectively-

The reason for the ontologically defective <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/superceratory–de-mentativity)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to \(^5\)meaningfulness-and-teleology\(^8\) whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding \(^5\)meaningfulness-and-teleology\(^8\). A further example will be say ‘the God-of-plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in \(^4\)<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(^3\) (its metaphysics-of-presence\((\text{implicated–}

Given such a state of \(^4\)<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(^3\), the notion of generating \(^5\)meaningfulness-and-teleology\(^8\) from the ontological-normalcy/postconvergence epistemic–or-notional–projective-perspective priorly implies a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, and so by \(^5\)maximalising–recomposuring-for-relative-ontological-completeness\(^9\)—unenframed-conceptualisation. Equally we can imagine that making a positivistic argument in the midst of a non-
positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental
orientation will be geared to their traditional sense of meaning and living as absolutely defining,
but then the ‘center’ had moved from their world (from non-positivistic as base—
institutionalisation/animistic or medieval preconverging—or—dementing—apriorising—
psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–procrypistic relationship to its postlogism\textsuperscript{78} that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{97}–as-to–‘attendant–intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism>, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing\textsuperscript{49}–apriorising-psychologism as well. However, to the extent that it is ‘not such\textsuperscript{14}–amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag\textsuperscript{33}–temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold\textsuperscript{103} from recurrent-utter-uninstitutionalisation to base-institutionalisation–universalisation to universalisation–non-positivism/medievalism to positivism–procrypistic (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{105}) extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a ‘transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ confliction’ resolved intemporally by prospective ontological-primemovers-totalitative-framework\textsuperscript{21} and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a
prior/transcended/superseded reference-of-thought and a prospective/transcending/superseding reference-of-thought; given the blunt fact that ‘there is no untransvaluated–temporal-intemporality and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of–meaningfulness-and-teleology distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of– meaningfulness-and-teleology projections.). Critically, the notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity associated with intemporality and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-primemovers-totalitative-framework as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-primemovers-totalitative-framework is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied when conceptualising that empirical meaningfulness-and-teleology is the sole purview of the rational-empiricism/positivism registry-worldview/dimension failing to recognised that all other registry-worldviews/dimensions are actually empirical but differ as to interpretation of empirical perception whether as to a magical, cultic or other non-positivising interpretation of empirical manifestation) but speaks of ‘the central human epistemic-totalising–resubjecting or totalising-entailing–reconstrual heuristic drive’ defining as to preconverging/postconverging–de-mentating/structuring/paradigming meaningfulness-and-teleology the succession of registry-worldviews/dimensions (however sublimatingly inefficient in relative-ontological-
incompleteness and sublimatingly efficient in relative-ontological-completeness as from nonpresencing-<perspective-ontological-normality/postconvergence> epistemic-projection); given that with corresponding shallow to limited-mentation-capacity-deepening, as institutionalising ontological-primemovers-totalitative-framework successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression. Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as ontological-primemovers-totalitative-framework of meaningfulness-and-teleology going by their given limited-mentation-capacity. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening’ implies more and more profound reconstruals/reconceptualisations (<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought) inducing transformative implications with respect to meaningfulness-and-teleology as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogising speaking thus of human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing–as-to-possibilities-of-self-becoming-as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t recognise any human discreet
primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about $9.8 \text{ m/s}^2$ on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory~de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory~de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of the meaningfulness-and-teleology itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-
enabling/sublimating/supererogatory–de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology\(^{10}\)-<in-preconverging-existential-extrication-as-of-existential-unthought>\(^{6}\) to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory–de-mentativity) to prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as secondnaturing institutionalisation percolation-channelling-<in-deferential-formalisation-transference> to elicit the necessary positive-opportunism—of-social-functioning-and-accordance\(^{76}\) for prospective institutionalisation as skewing (‘intemporality\(^{52}\)-asymmetric-subsumption-of-temporality\(^{99}\)’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) towards the intemporal/longness-of-
construct as it is more and more profound ontological-veridicality that enables human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and the ontological-contiguity—of-the-human-institutionalisation-process in the first place; with the notional-deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology>, and that as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the
‘direct convincing’ of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity, however unintelligible, as a prospective institutional percolation-channelling exercise as validated by ultimate ontological-primemovers-totalitative-framework with subsequent corresponding formalisation and secondnaturing. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor that ‘human knowledge is necessarily a secondnaturing construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of–meaningfulness-and-teleology, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the notional–deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold–nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism>. Thus human knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology<in-preconverging–existential-extrication–as–of–existential-unthought>.

[The notion of ‘beyond-the-consciousness-awareness-teleology<in-preconverging–
existential-extrication-as-of-existential-unthought>` as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology’ implies ‘conscious’ and/or ‘unconscious’ as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation by its relative-ontological-incompleteness of reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposing/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation (also referred to as ‘uninstitutionalised-threshold’) where the mental-disposition/mindset/reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology implies ‘conscious’ and/or ‘unconscious’ as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation at the uninstitutionalised-threshold of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not
only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-
social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-
endemisation, then they are effectively relatively conscious with respect to their action as a
dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology
<in-preconverging-existential-extrication-as-of-existential-unthought>. Of course, where
supposed someone from a positivistic social-setup found themselves in such a non-positivistic
social-setup and equally proffered such an accusation of sorcery, then their conscious
immorality is fully engaged as being in full-conscious-capacity with respect to their deception
going by their positivistic prospective relative-ontological-completeness of reference-of-
thought that supersedes superstitions including notions-and-accusations-of-sorcery. By
extension, psychopathic/postlogic induced deception can only be construed as beyond-the-
consciousness-awareness-teleology as when eliciting ignorance (as of ‘lack of constraining social
universal-transparency’)

Ultimately, going by the very decisiveness of relative-ontological-incompleteness\textsuperscript{87} of \textsuperscript{86} reference-of-thought, as it leads to ‘lack of constraining social \textsuperscript{104} universal-transparency \textsuperscript{105} \{transparency-of-totalising-entailing,-as-to-entailing, <amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\} associated with the successive uninstitutionalised-threshold\textsuperscript{103} states, the notion of ‘human beyond-the-consciousness-awareness-teleology\textsuperscript{100} \textsuperscript{45}\textsuperscript{<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness}, as it leads to ‘lack of constraining social \textsuperscript{104} universal-transparency \textsuperscript{105} \{transparency-of-totalising-entailing,-as-to-entailing, <amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\}, associated with the successive uninstitutionalised-threshold\textsuperscript{103} states, the notion of ‘human beyond-the-consciousness-awareness-teleology\textsuperscript{100} \textsuperscript{45}\textsuperscript{<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness}’ is actually in the bigger picture the larger determinant of manifest human vices-and-impediments\textsuperscript{106} as of virtue-as-ontology conceptualisation, speaking fundamentally of the specific registry-worldviews/dimensions ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{103}–defect<as-Being-or-ontological-or-existential–defect>\textsuperscript{96}, inherent with the state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Whereas the notion of human conscious vices-and-impediments\textsuperscript{106} as of defect–of-\textsuperscript{44} logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–\textsuperscript{34} reference-of-thought-for-social-functioning-and-accordance is mostly able to arise incidentally ‘within the scope’ of the registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{103}–defect<as-Being-or-ontological-or-existential–defect>\textsuperscript{96}, as beyond-the-consciousness-awareness-teleology\textsuperscript{100} \textsuperscript{45} \{transparency-of-totalising-entailing,-as-to-entailing, <amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\} of the registry-worldview/dimension uninstitutionalised-threshold\textsuperscript{101} as social \textsuperscript{104} universal-transparency\textsuperscript{105} \{transparency-of-totalising-entailing,-as-to-entailing, <amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\} is a strong inherent deterrent of human temporality\textsuperscript{77}/shortness and enabler of human intemporality\textsuperscript{77}/longness (explaining why knowledge is truly virtue), even though at the uninstitutionalised-threshold\textsuperscript{103} of such knowledge-as-virtue arises the temporal-dispositions denaturing\textsuperscript{15} its \textsuperscript{84} reference-of-thought–

This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary–as-unenframed/unbeholdening/outlier-conceptualisation (imbued postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness’ ‘of-notional–deprocrypticism-prospective-sublimation) transcendental notions of intemporality/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-verbatim transcendent-enabling/sublimating/supererogatory de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttlingly demonstrated with ‘cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory de-mentativity’, the mechanism of transcendence-and-sublimity/sublimation/supererogatory de-mentativity is not a simplistic transference from a more ontologically-completeness-of reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing
untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of thought; as explanations for the cure will still be advanced in terms as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought.

is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlyi
disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposurer-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>, which may wrongly imply being out of the scope of human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism–form-factor, and thus fundamentally undermine ontologically-veridical analysis where exceptionalism is adhered to instead of the mediocrity principle. This quite sums up the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mechanism by which re-originally–as-unenframed/unbeholdening/outlier-conceptualisation_ (imbued-postconverging/dialectical-thinking-‘projective-insights’/epistemic-projection-in-conflicatedness’-of-notional–deprocrypticism-prospective-sublimation) transcendent ideas (transcendent in terms–as-of-axiomatic-construct of putting in question the prior _<amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought_–devolving, beyond just novel ideas within the same reference-of-thought), whether by diffusion or internal transformation, come to be dominant when ontologically pertinent; as even the ‘moulting’ intellectual/emancipator, beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought>, is coming from a point of habitation with prior traditional ideas (consider the case of Newton with alchemic notions), wherein acceptance of the new ideas they are purporting only comes after an unconscious process of suspicion and denial of such nagging new ideas until they arrive at a firm point of supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism before
admitting to themselves the possible veracity/ontological-pertinence of the ideas, and so as their very own which makes it unsurprising that even socially is a necessary process for the ultimate acceptance of prospective ontological-primemovers-totalitative-framework as this subsumes-as-supplant {as-of-the-more-profound-construal-of attendant ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity -<reifying-or-elucidating-of- prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context>} the prior ontological-primemovers-totalitative-framework. It is hardly the case of just a direct intemporal sense of ‘meaningfulness-and-teleology’ transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). It is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of crossgenerational purposefulness (whether beyond-the-consciousness-awareness-teleology as enabled by preconverging-existential-extrication-as-of-existential-
unthought> ). This equally explains why in all epochs, however different the nature, there is an inherent temporal mental-disposition abhorrence of transcendental ideas as putting into question the present and present interests (for instance, even the industrial revolution when considered as actually generating material wealth was poorly perceived by many trade guilds).

On the other hand, intemporality–as-longness-of-register-of–meaningfulness-and-teleology aetiologisation/ontological-escalation, can supersede the above perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > phenomena as of its derived vices-and-impediments implications, as veridically validated by intrinsic-

Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (‘meaningfulness-and-teleology\(^{100}\)) taken involves rewards depending on how big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like deliberately using the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements as perversion-of’ reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation⟩ (more like the ‘covert negative vista’ of the hidden-nature/unavailable social universal-transparency\(^\text{-}⟨\text{transparency-of-totalising-entailing,-as-to-entailing-}<\text{amplituding/formative–epistemicity}>\text{totalising–in-relative-ontological-completeness}⟩\) of psychopathy especially at adulthood). Now supposed to resolve a ‘purposeful measurement’ (‘meaningfulness-and-teleology\(^{100}\)\), A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of’ reference-of-thought-as-of-conflatedness\(^\text{-})\) and find out that the numbers measured and to be added are 5+2 and is trying its best thereafter to resolve the sum but fails in its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and gives 9 as the answer, this doesn’t void logically re-engaging with A with respect to other sums in terms of aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-
measurements to be undertaken (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying 6 + 3 instead of 5 + 2 (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as 5+2) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) is flawed since B is not committed due to its perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>

speaks of the possibility of B denaturing\(^{13}\) an infinite number of additional calculations (to the
extent where it is ‘socially-functional-and-accordant\(^{9}\)’ to do so, i.e. functionally possible in the
social context). Unlike the case with A having to do with A’s addition ability but whose
reference-of-thought is not perverted, such that A’s defect is a defect–of- logical-processing-

of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-

teleological disposition of B inherently carries the defect (to the point that B can be socially-
functional-and-accordant\(^{1}\) while committing the defect, i.e. where the veridical
notion/axiomatic-construct of the defective
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not
universally transparent as a ‘negative covert vista’). Now supposed we are in a social context
where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B.
In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a
possibility of re-engaging with C but only where B’s condition is exposed to it, but where the
characters are not that ignorant but in any of the mental states (implying undermining the

(where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-
enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It
should be noted that C (where B’s condition is not exposed to it), D, E and F technically speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that they consciously perceive it can be socially-functional-and-accordant to them wherein lack of ‘social universal-transparency’-\{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness \} which protects the internal-coherence of meaning for virtue’ enables their own ‘covert negative vista’ however ad-hoc as conjugated-postlogism, i.e. as to the conjugated-ignorance of C (where B’s condition is not exposed to it), conjugated-affordability of D, conjugated-opportunism of E, conjugated-exacerbation of F, and conjugated-social-chainism of B, C (where B’s condition is not exposed it) D, E and F, and conjugated-temporal-enculturation to B’s condition of B, C (where B’s condition is not exposed to it), D, E and F; and they cannot therefore be re-engaged logically with (as of ‘prelogism-as-of-conviction,-in-profound-supererogation’-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> re-engaging reflex’) on the basis that they will relay in circularity/recurrence/repetition/repeatability the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (perversion-and-derived–perversion-of–reference-of-thought–<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation–as-to-uninstitutionalised-threshold–self-referencing-syncretising–and–subtransversality–<in-desublimating–existential-eventuating/denouement>–of-motif-and–apriorising/axiomatising/referencing) elicited by B in terms–as-of-axiomatic-construct of B’s postlogism–as-of–compulsing–nonconviction/madeupness/bottomlining–\{‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising’-of-the–‘attendant–

postlogism (psychopathy) and conjugated-postlogism (as social psychopathy) are enabled,
endemised and enculturated by the possibility of the phenomena being socially-functional-and-
accordant without negative consequences to its agents so long as it is not socially
universally transparent, and so eliciting the respective temporality/shortness over the
intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-
veridical –meaningfulness-and-teleology). Further more than postlogism and conjugated-
postlogism being just passively socially-functional-and-accordant, a more active socially-
functional-and-accordant framework is often induced by extrinsic-attribute on the token of
eliciting ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory-de-mentativity’. This is highly specific
and circumscribe for efficacy-sake from accrued involvement with childhood psychopathy
(with regards to adult psychopathy or adult postlogism) wherein achieving the registry-
worldview’s/dimension’s– reference-of-thought-for-social-functioning-and-accordance
threshold enabling postlogism/psychopathy and/or conjugated-postlogism/social-
psychopathy involves an insight about how ‘lack of constraining social transparency’ of perversion-and-derived-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Besides and critically as well, in addition to this inherently induced faulty-mentation-procedure-deception involved with the state of postlogism –as-of-compulsing-nocwhich}

and its protraction into conjugated-postlogism /social-psychopathy, postlogism and conjugated-postlogism is equally and decisively sustained socially by the accompanying inherent disposition to uphold the registry-worldview’s/dimension’s– reference-of-thought-for-social-functioning-and-accordance thereafter as of mechanical-knowledge (given that inevitably social confliction is bound to arise in the social-setup with the phenomena of postlogism /psychopathy and conjugated-postlogism /social-psychopathy), and as the mere recurrence of such social confictions associated with the postlogism /psychopathy and conjugated-postlogism /social-psychopathy

In this regard, prelogism-as-of-conviction,-in-profound-supererogation <existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> minds generally adopt a generalising approach for determining ‘the overall registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance experiences and recounts with any specific individual’ including psychopathic or conjugated-postlogism, and in so doing construe dichotomously the said individual’s as adhering or not-adhering to the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (and so specifically judged rather in various shades of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance implied mechanical-knowledge), as entails with associating or not associating the said individual in given occasions or in specifically given aspects of life depending on such experiences and recounts. With this in mind (based on its dormant childhood development experience), the adult psychopathy personality
arising from its growth experience (and correspondingly the protraction into conjugated-postlogism behaviour in this regard), wherein its childhood psychopathy failing the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance induced a shift in behaviour such that in lieu of ‘such preposterous acts-and/or-narratives of vicious postlogism-compulsing–nonconviction/madeupness/bottomlining’referred-to
apriorising/axiomatising/referencing’-logical-dueness> vicious acts-and/or-narratives”; and so cultivating its deterministic ontological-primemovers-totalitative-framework fault-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’. For instance, as highlighted further below where John in a ‘dereifying act’ spills water on a chair, his ‘misconception of meaningfulness-and-virtue’ involving such a mental-disposition of ‘compensating directed pseudo-virtue acts-and/or-narratives’ may be to do some house chore but rather in ‘crude behaviour manner’ that reveals an ad-hoc quest to re-establish the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance with others. The adult psychopathy personality development arising from this fundamental fault-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’ at childhood, further evolves a long way with a constantly readjustment process to ultimately enable the credulity for the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance at adult psychopathy, such that at adulthood social universal-transparency as of attendant-ontological-contiguity—alleduc—existentialising/contextualising/textualising-contiguity <reifying-or elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought devolving-as-of-instantiative-context> of its underlying postlogism as of compulsing—nonconviction/madeupness/bottomlining—(<decontextualising/de-existentialising—of-attendant—intradimensional—apriorising/axiomatising/referencing>-induced-disontologising’—of-the-‘attendant—intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant—ontological-contiguity >;—in-shallow-supererogation —<as-to-disontologising-perverted—outcome-sought-precedes-existentially-veridical—‘attendant—intradimensional–apriorising/axiomatising/referencing’—logical-dueness>) often gets lost enabling its fault-mentation-procedure-deception at adulthood. trite association between committing a given vicious act and initiating a given limited

In other words, recurrent-utter-uninstitutionalisation manifestation of postlogism can only be de-mentatively/structurally/paradigmatically resolved by base-institutionalisation reference-of-thought, ununiversalisation manifestation of postlogism can only be de-mentatively/structurally/paradigmatically resolved by universalisation reference-of-thought, non-positivism/medievalism manifestation of postlogism can only be de-mentatively/structurally/paradigmatically resolved by positivism reference-of-thought, and prospectively procrypticism manifestation of postlogism can only be de-mentatively/structurally/paradigmatically resolved by notional-deprocrypticism reference-of-thought. As palliative construal is rather ontologically incoherent as the idea for striving to construe intemporality/longness from temporality/shortness is rather naïve and actually as of ontologically-flawed <amplituding/formative-epistemicity>totalising-self-referencing-
representation about prior/transcended/superseded registry-worldviews/dimensions. For instance, we’ll be hard pressed to acquiesce to an argument with regards to medieval manifestation of postlogism for instance as it instigates notions-and-accusations-of-sorcery, associated with a logic in terms–as-of-axiomatic-construct of non-positivism/medieval relative-ontological-incompleteness-induced,-’threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ of the type ‘A’s action was what brought about the accusation of witchcraft, and A should stop the practice’, from our positivistic transcendentally <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of its positivism prospective relative-ontological-completeness-of-reference-of-thought, and would rather imply ‘the decandored/oblongated and preconverging-or-dementing–apriorising-psychologism and dialectically/contendingly-out-of-phase nature’ of such non-positivism/medievalism–reference-of-thought priorly without its contending status even arising in the very first place; but then with respect to our own postlogism-and-conjugated-postlogism as psychopathy and social psychopathy pointing to our own relative-ontological-incompleteness-induced,-’threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ of procrypticism, we will tend to advance a ‘nondescript/ignorable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) as a-registry-worldview’s-or-dimension’s-ignoring-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-as-an-ontologically-flawed-neuterisation–or-bracketing-or-epoché of <amplituding/formative–epistemicity>totalising–conflated–meaningfulness-and-teleology–as-of-notional–deprocrypticism-reflected–historiality/ontological

as of notional–deprocrypticism (which is rather of ‘ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking\textsuperscript{20}-differentiation-as-of-supratransversality\textsuperscript{2}<in-sublimating–existential-eventuating/denouement>–of-motif-and-apriorising/axiomatising/referencing’) in longness-of-register-of–‘meaningfulness-and-teleology\textsuperscript{100} in order to grasp ontologically-veridical meaningfulness; and so, no more different as the non-positivism/medieval mindset\textsuperscript{4} reference-of-thought trying to process logic on the basis of its relative-ontological-incompleteness\textsuperscript{10}-induced,‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{20}–as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism\textsuperscript{23}’ as notions-and-accusations-of-sorcery. This reason underlies the notion of prospective institutionalisation which arises not as of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation issue but ‘more fundamentally an appropriateness-of–reference-of-thought-as-of-conflatedness\textsuperscript{12}-or-perversion-of–reference-of-thought–as–preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation issue as of a de-mentative/structural/paradigmatic and ontological meaningfulness-and-teleology\textsuperscript{100} implication with respect to eliciting the prospective relative-ontological-completeness\textsuperscript{10}-of–reference-of-thought of the prospective/transcending/superseding registry-worldview/dimension, without \textsuperscript{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{13}} of the relative-ontological-incompleteness\textsuperscript{10}-induced,‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation–<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism–> of the prior/transcended/superseded registry-worldview/dimension. Thus the articulation of
prospective institutionalisation ‘is not about ontological-primemovers-totalitative-framework’ implying equivalence between the prior/transcended/superseded and the prospective/transcending/superseding’. It is rather about the precedingness/supersedingness/ascendency of the latter in transversality—~of-affirmative-and-unaffirmative—disambiguated—motif—existential-eventuating/denouement—~effectiveness validations of say a chemistry mindset/reference-of-thought (with demonstrations of chemistry principles by chemical reactions producing elements and compounds) say in a non-positivism/medievalism setup prone to alchemy and essences-driven explanations ‘is not and cannot be construed as a logical-processing-or-logico-implicitation—supposedly-apriorising-in-conviction—as-to—profound-supererogation validation as of alchemic mindset/reference-of-thought’ but rather ‘a chemistry scientific mindset/reference-of-thought validation’, critically because the issue is fundamentally not most critically about the specific occurring/case validations of chemistry principles but rather about the de-mentative/structural/paradigmatic non-positivism/medievalism alchemy and essences-driven explanations defective mindset/reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mental-disposition reflex with respect to metaphorically—as-of-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of interpretive defects that may arise from such non-positivism/medievalism mindset/reference-of-thought based on alchemy and essences-driven explanations given its relative-ontological-incompleteness—induced,—‘threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to—attendant—intradimensional’—prospectively-disontologising—preconverging—dementing—apriorising—psychologism’. Thus wrongly implying that a contending engagement between the two is of

prospective–meaningfulness-and-teleology} )’ as being of true transcendence-and-
sublimity/sublation/supererogatory–de-mentativity can be further elucidated with regards to
two remarkable historical developments which while inherently exceptional, to say the least,
aren’t truly transcendental. Consider for instance that transcendental is generally considered as
the central notion of Kantian philosophy. The reality however is that the supposed
transcendentalism is actually an elaboration in the terms of the actual and true rational-
empiricism/positivism ‘reference-of-thought transcence-and-
sublimity/sublation/supererogatory–de-mentativity established by Descartes’ thinking
proposition and scepticism exercise as the fundamental basis for continuously re-elaborated
‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-sublimity/sublimation/supererogatory/de-mentativity (Copernican revolution) is not eliciting a ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ of ‘amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling’ (by a renewing of apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective—meaningfulness-and-teleology)’ (which is exactly what Descartes’ thinking proposition and scepticism exercise does with respect to the non-positivism/medievalism psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). The Kantian construct is an elaboration well within the psychical framework established by dimensionality-of-sublimating—{amplituding/formative—supererogatory—de-mentativeness/epistemic-growth—or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation} ‘extended rationalism’ thinking proposition and scepticism exercise, and Kantian meaningfulness-and-teleology is utterly comprehensible and intelligible to that psyche/mentation, though in many ways it is a more profound elaboration of meaningfulness-and-teleology issues. So it is actually an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument within the extended-rationalism reference-of-thought that doesn’t psychically and meaningfully supersede it but elaborates within it; and it doesn’t reference an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument

‘amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling’ (by a renewing of apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective—meaningfulness-and-teleology)’ as implied by a ‘postconverging-or-
disentailment-by/postconverging-entailment of \(^8\) reference-of-thought’); and wherein the successive mindsets/\(^7\) references-of-thought and institutionalisations are suprastructural to each other (beyond-the-consciousness-awareness-teleology\(^{100}\) <in preconverging existential-extrication-as-of-existential-unthought>). Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the \(^5\) maximalising-recomposing-for-relative-ontological-completeness\(^8\) —unenframed-conceptualisation of its limited-mentation-capacity-deepening\(^2\). It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish \(^1\) universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening—limited-mentation-capacity,—as-limited-mentation-capacity-deepening. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency ~sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency\(^7\) ~sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/alchemic/essences/medieval registry-worldview/dimension certainly does have a name (transcendence-and-sublimity/sublimation/supererogatory–de-mentativity). But then it is more the case that from an amplitude/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag posture holding only one registry-worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-teleology as absolute, then prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather a beyond-the-consciousness-awareness-teleology-in-preconverging–existential-extrication-as-of-existential-unthought notion. Besides, Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as of the positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implied by Descartes) rather than a construal of transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity as implied herein as of limited-mentation-capacity-deepening with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human-amplituding/formative-epistemicity-totalising–purview-of-construal’ as superseding—oneeness-of-ontology as an all-encompassing

<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of human psychical and institutionalisation disposition for meaningfulness-and-teleology, even though fundamentally enabled by developing human phenomenal-abstractiveness of presence as of

<amplituding/formative–epistemicity>totalising–random-as-impulsive-phenomenal-abstractiveness-of-presencing-in-‘trepidatious-consciousness’ with recurrent-utter-uninstitutionalisation,

<amplituding/formative–epistemicity>totalising–ordinal-as-qualifying-phenomenal-abstractiveness-of-presencing-in-‘preclusive-consciousness’ with universalisation–non-positivism/medieval,

<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage) with respect to the positivism/rational-empiricism registry-worldview/dimension. In other words, Kant is involved in an epistemological conceptualisation at a given point in time (erroneously construed as the absolute point of human
thought apriorising, without a decentering sense of projection with respect to the prior and prospective). But existential-reality as of its human mental apriorising/axiomatising/referencing (heuristically at least) started well before that point and carries on well after that point, and such an exercise is more profound when it construes human mental apriorising/axiomatising/referencing along the full existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existence as it redefines meaningfulness-and-teleology on the basis of human limited-mentation-capacity-deepening in its construal/conceptualisation of a superseding–oneness-of-ontology construed as transcendental-enabling/sublimating/supererogatory–de-mentativity. Insightfully, this author construes an existential-reference/existential-tautologisation basis of such human mental apriorising/axiomatising/referencing process for the transcendental-enabling/sublimating/supererogatory–de-mentativity of successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions rather as of an exercise of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation over conceptualisations of human mental apriorising/axiomatising/referencing process on a simple categorisation reflex basis as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—attendant–ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity which tend to require constant heuristic adaptations to sync in contiguity with existence-potency~sublimating–nascence,—disclosed-from-prospective-epistemic-digression—rules-of—apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existential-reality and avoid virtualities, as wrongly

In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the contextualising-contiguity of existence as of human shallow-to-deepening–limited-mentation-capacity,–as-limited-mentation-capacity-deepening as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening, as further elaborated in this paper. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psyche as ‘<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-{by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology ’}’ of positivistic physics right back then in their epoch such that the overall underlying principle of ontological-primemovers-totalitative-framework as transcendental-enabling/sublimating/supererogatory-de-mentativity back then
is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to ontological-primemovers-totalitative-framework that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity construction having to do with an

While for the temporal mental-disposition individuations the form-and-perception or derived-form-and-perception of intemporal-preservation-entropy-or-contiguity--or--ontological-preservation whether upholding ontological-veridicality/intrinsic-reality or not (and so whether unconsciously, expeditiously or consciously) is a sufficient basis so long as it is socially-functional-and-accordant\textsuperscript{91} such that the possibility of blurring or undermining existential-reality by ‘wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-
or–disjointedness-as-of-reference-of-thought. The central idea here being that the most critically important notion in the situation of A, B, C, D, E, F and Z, is Z’s upholding of prospective transcendental-enabling/sublimating/supererogatory–de-mentativity over any temporal extricatory preconverging–de-mentating/structuring/paradigming, however, the enculturation and mass thinking behind temporal extricatory preconverging–de-mentating/structuring/paradigming. (* Noting that individuation as defined elsewhere speaks of temporal-to-intemporal trait characteristic, as anywhere between shortness-to-longness-of-register-of–meaningfulness-and-teleology\(^{106}\), that can accrue atleast incidentally/on-occasion in all individuals-as-receptacles-of-individuations but more recurrently as teleologically defining in a-life-phase-or-life-phases-of-given-individuals, thus critically enabling a dynamic-cumulative-aftereffect intradimensional and transcendent/transdimensional/interdimension/\(\vdash\) maximalising-recomposuring-for-relative-ontological-completeness\(^{88}\)—unenframed-conceptualisation analysis as metaphysics-of-absence-(implicit-ed-epistemic-veracity-of-nonpresencing-\langle\text{perspective–ontological-normalcy/postconvergence}\rangle)\text{/postdication}). Finally, thus it is critical to note that the existential contextualisation above as ‘imbricatedness/threadedness/recomposuring as of attended-ontological-contiguity—educated—existentialising/contextualising/textualising-contiguity—reifying-or-elucidating-of-prospective-relative-ontological-completeness–of-reference-of-thought—devolving-as-of-instantiative-context’ as to existence-potency–sublimating–nascence-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the ‘postconverging-or-dialectical-thinking—reference-of-thought in relative-ontological-completeness\(^{88}\) as depth-of-thought’) is a priori and supersedes the mere notion of additionality as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attended—

Wherein within their respective registry-worldviews/dimensions setups, their maximalising-as-transcendental recomposuring mental-dispositions in projection for prospective institutionalised-being-and-craft, i.e. ontologising of future conventioning, as supratransversality<in-sublimating–existential-eventuating/denouement>--of-motif-and-apriorising/axiomatising/referencing (as the grander intellectual-and-moral effort that can be made within their registry-worldviews/dimensions) is rather poorly construed to the ordinariness/averageness of thought within their respective registry-worldviews/dimensions setups (which mental-dispositions and conventioning –as ‘wrongly-projected decontextualising-unimbricatedness/untreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation -<as-to-’attendant-intradimensional’-prospectively-disontologising~preconverging/dementing –apriorising-psychologism> | reference-of-thought’ in shallowness-of-thought-or-unsophistication-of-understanding) in grasping attendant-ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity | <reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context> as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ –will rather think as irrational the projective disposition of a Socrates that doesn’t rather advance a temporal interest in the city-state polity but is rather bent on spreading new ideas as a natural philosopher while prioritising as of postconverging–nonextricatory-existential-preempting-of-existential-unthought in his asceticism the prospective intemporal over the temporal status quo, and likewise with a Rousseau who isn’t advancing a temporal interest that his aristocratic stature should warrant like actively pursuing
for landed properties and currying favours with kings but is rather bent principally on a prospective commitment on grasping and spreading notions of a renewal of the human condition as universal rights and enlightened despotism. This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more 'profound level of living in the realm of human thoughtfulness' based on eudaemonic-contemplation of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting that then ‘invents/creates’ the de-mentative/structural/paradigmatic possibility for prospective institutionalised-being-and-craft as there isn’t any inherent intemporality/longness but for the disposition for maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation out of the apathy of the ordinariness/averageness of any prior registry-worldview/dimension institutionalised-being-and-craft setup. Hence such intemporality/longness as maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation need its <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought in inducing secondnatured institutionalisation given that the-succession-of-registry-worldviews-or-dimensions-institutionalisations as to the-ontological-contiguity—is ‘not a human emanance/seeding/incipient—transformation<-as-to-Derridean-messianicity-wherein-even-when-the-messiah-as-intemporal-drive-comes-they-still-have-to-come> of temporal-dispositions/shortness-of-register-of-meaningfulness-and-teleology into the intemporal-disposition/longness-of-register-of-meaningfulness-and-teleology but rather is solely a secondnaturizing to supersede the uninstitutionalised-threshold (is not about the firstnaturedness of human dimensionality-of-sublimating-{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}) but rather is solely a secondnaturizing to supersede the

It is ontologically-speaking impossible to comprehensively undermine a dimension’s/registry worldview’s postlogism without undermining the registry-worldview’s/dimension’s “reference-of-thought itself as implied by its state of relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ <-as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism’”, for instance psychopathy in positivism–procrypticism or notions of sorcery in universalisation–non-positivism/medievalism (wherein from the prospective point-of-reference respectively as notional–deprocrypticism or positivism, it is in de-mentation ⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩ as of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology), given that this fundamental relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ <-as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism’ of the given registry-worldview/dimension as reflected from ontological-
normalcy/postconvergence epistemic-or-notional-projective-perspective, by its ‘contextualising-contiguity of existence-potency~sublimating–nascent,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ means it is de-
mentatively/structurally/paradigmatically bound to enculturate/endemise its given postlogism.

Obviously we can appreciate that without a positivistic outlook/reference-of-thought there is no chance that a non-positivism/medievalism registry-worldview/dimension will do away with notions-and-accusations-of-sorcery, as the latter is bound to arise as of human threshold-of-

reference-of-thought wherein the perversion-of-reference-of-thought<as-preconvergingly-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-

mentative/structural/paradigmatic undermining of the phenomena of psychopathy and social psychopathy is impossible without putting in question and undermining our uninstitutionalised-
threshold as procrypticism for futural Being-development/ontological-framework-expansion–
as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-
teleology as of prospective notional–deprocrypticism which is effectively the de-
mentative/structural/paradigmatic resolution of psychopathy and social psychopathy (besides
palliative conceptualisations that can hardly make a dent on the comprehensively defined de-
mentative/structural/paradigmatic phenomenon in terms–as-of-axiomatic-construct of the larger aetiologisation/ontological-escalation) just as positivism is the de-
mentative/structural/paradigmatic ontological resolution of notions-and-accusations-of-sorcery, and ad-hoc tempering with medieval postlogism (disontologising-perverted-outcome-sought-
precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness) as instances of notions-and-accusations-
of-sorcery doesn’t grasp the underlying and comprehensive medieval social-construct de-
mentative/structural/paradigmatic endemisation/enculturation of such a phenomenon. Further, registry-worldviews/dimensions being prospectively wooden-
language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of–

preservation-entropy-or-contiguity–or–ontological-preservation’ determined by their sanctified-
conventioning-social-aggregation-enablers, there is a need to circumvent and break these sanctified-conventioning-social-aggregation-enablers by prospective ‘intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-

psychologism\(^{(12)}\)’ and accessorially its enculturating/endemising of its postlogism\(^{(8)}\), and superseding both of these in the prospective registry-worldview/dimension institutionalisation.
For instance, the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercorogatory-de-mentativity of a medicine based on natural causes and drugs as natural cures carried the effectiveness/ontological-primemovers-totalitative-framework\(^7\) that undermined non-positivism/medievalism sanctified-conventioning-social-aggregation-enablers to do away with such notions as curses, sorcerers, etc. being the cause of disease, and undermine the whole teleologically-degraded dispositions based on such sanctified-conventioning-social-aggregation-enablers. Likewise only by articulating comprehensive and effective aetiologisation/ontological-escalation resolutions to the defect of procrypticism and its postlogism\(^8\) first with respect to formal constructions that the derived effectiveness/ontological-primemovers-totalitative-framework\(^7\) can feed back as percolation-channelling-<in-deferential-formalisation-transference> to dimensionally (registry-worldview) to undermine the relative-ontological-incompleteness\(^7\)-induced-‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supercorogation’<as-to-’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism\(^3\)’ of our procrypticism and accessorily its enculturating/endemising of psychopathy and social psychopathy. Thus suprastructurally (beyond-the-consciousness-awareness-teleology\(^4\)-<in-preconverging–existential-extrication-as-of-existential-unthought> ) and as of the ontological-normalcy/postconvergence ontological-completeness-of reference-of-thought perspective, ‘imbricatedness/threadedness/recomposing as of attendant–ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity’

Such perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation/mental-devising-representation-perversion has various shades of ‘temporal/shortness to intemporal/longness depth/register of meaningfulness stranded finalities/teleologies’. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking apriorising-psychologism’ or prelogism in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking apriorising-psychologism’ or prelogism is ad-hoc and
circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism—as-of-conviction—in-profound-supererogation—existentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing—logical-dueness-precedes-disontologising-logical-outcome-arrived-at (> poor or bad supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional—postconverging/dialectical-thinking—a priorising-psychologism), whether by omitting or exaggerating in a circumspect and ad-hoc manner but relative to attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity—<reifying-or—elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context>. What the psychopath is doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-dementing -apriorising. That is to arrive at a sought-outcome by subknowledging-or-mimicking the non-veridical hollow-form of the meaning of other persons supplanting–conviction-as-to-profound-supererogation of-’attendant-intradimensional’-postconverging/dialectical-thinking -apriorising-psychologism narratives which it perceives as ‘being blatantly deterministic’ of the views and actions of the ‘normal prelogism -as-of-conviction,-in-profound-supererogation –existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’ logical-dueness-precedes-disontologising-logical-outcome-arrived-at mind’, i.e. the psychopath is ‘narrating veridical emptiness/hollow narratives’. The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting–conviction-as-to-profound-supererogation of-’attendant-intradimensional’-postconverging/dialectical-thinking -apriorising-psychologism on narratives but rather simply ‘the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation conjugated-postlogisim/preconverging-or-dementing -integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of supplanting–conviction-as-to-profound-supererogation of-’attendant-intradimensional’-postconverging/dialectical-thinking -apriorising-psychologism and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of
passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating/superoeration-de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism\textsuperscript{79} and its derivation/adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism\textsuperscript{79}. More precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism\textsuperscript{79}-as-of-\textsuperscript{10} compulsing–nonconviction/madeupness/bottomlining\textsuperscript{78} \{\textsuperscript{78} \langle \textsuperscript{decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing–induced-disontologising–of-the–attendant-intradimensional–ontologising–imbued–contextualising/existentialising–attendant-ontological-contiguity–in-shallow-supererogation–as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing–logical-dueness\rangle \} and the notion of a lie which is in manifest prelogism\textsuperscript{79}-as-of-conviction,-in-profound-supererogation <existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> (be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation\textsuperscript{97}—of–attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism\textsuperscript{20}) as with a lie the implied–logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’\textsuperscript{54} logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but
as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-verification resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge associated with postlogism-compulsing-nonconviction/madeupness/bottomlining-〈decontextualising/de-existentialising-of-attendant-intradimensional-apriorising/axiomatising/referencing-induced-disontologising-of-the-attendant-intradimensional-ontologising-imbued-contextualising/existentialising-attendant-ontological-contiguity-in-shallow-supererogation-as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical-attendant-intradimensional-apriorising/axiomatising/referencing-logical-dueness〉 with respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced as conjugated-postlogism-opportunism and conjugated-postlogism-exacerbation arises out of purposeful enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant, since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}

The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent whole of narratives’ with respect to attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity <<reifying-or-

It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by supplanting-conviction-as-to-profound-supererogation-of-‘attendant-intradimensional’-postconverging/dialectical-thinking-apriorising-psychologism interlocutors is not a ‘coherent whole of narratives’ but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism-as-of-conviction,-in-profound-supererogation<existentially-veridical-‘attendant-intradimensional-apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> alignment to psychopathic slanting is actually a mental-unsoundness not
different as contemplating aligning in supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’–postconverging/dialectical-thinking —apriorising-psychologism to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge due to psychopathic developmental failure to relate to meaningfulness as of prelogism—as-of-conviction,—in-profound-supererogation —<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, induces interlocutors prelogic supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’–postconverging/dialectical-thinking —apriorising-psychologism alignment to its postlogic compulsing–nonconviction/madeupness/bottomlining–{‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising’–of-the–‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity >;–in-shallow–supererogation –<as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness> } narratives whereas at childhood psychopathy interlocutors will not align in-prelogic supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’—

—of—attendant-intradimensional—postconverging/dialectical-thinking —apriorising-psychologism narratives, and this is what actually occurs by inducing conjugated-postlogism /preconverging-or-dementing—integration in interlocutors at adulthood psychopathy) given the obvious and transparent deliriousness/delirious-effect/cinglé-effect associated with slanting over a slant over a slant, successively. Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing—apriorising-psychologism. Thus, with slanting the implied—logical-dueness (with the corresponding implied—reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation ), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-ontological-bad-faith/inauthenticity—of—reference-of-thought/preconverging-or-dementing —apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-ontological-good-faith/authenticity—of—reference-of-thought. Insightfully, it points out as well that the basis of the postlogism /psychopathic induced deception is not the psychopath itself (as it is commonly asserted about psychopathic manipulation), but rather it lies in the very nature of the reasoning of the prelogism —as-of-conviction,—in-profound-supererogation —<existentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing—logical-dueness-precedes—
continually developed during its personality development into adulthood psychopathy now enables it becoming socially-functional-and-accordant. This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cingly-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity by its dereification on a mental-processing disposition that is rather a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’, and so in contrast with the expected ‘reifying nuanced/multivalent mental-processing’ of supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism dispositions in attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity, however bad-or-poor their ontological-performance—including-virtue-as-ontology> of supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism mental-processing. This underlies the apparent vividness of interlocution with the psychopath especially with regards to social-stake-contention-or-confliction due to a ‘supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism manifestation of the interlocutor by compuling–nonconviction/madeupness/bottomlining—<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’–of-the–‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity >;–shallow-supererogation—<as-to-disontologising-perverted-

procrypticism, just as all registry-worldviews/dimensions had hitherto displayed a mental complex when their construal as uninstitutionalised-threshold is implied. Thus this implied human ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ as driven by ontological-normalcy/postconvergence will explain the specific natures of registry-worldviews/dimensions references-of-thought (as ‘underlying scheduling of soundness-or-ontological-good-faith/authenticity—reference-of-thought’) behind the successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism} peculiar psychologisms/psychologism-constructs of meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets/references-of-thought/consciousness-awareness-teleology; whether as recurrent-utter-uninstitutionalisation psychologism, base-institutionalisation—ununiversalisation psychology, universalisation—non-positivism/medievalism psychology, positivism—procrypticism psychology, and prospectively notional—deprocrypticism psychology equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing—apriorising-psychologism’ as of their relative-ontological-incompleteness—reference-of-thought-induced-virtuality—or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity
notional–deprocrypticism as decentering and preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism the positivism–procrypticism registry-worldview\textsuperscript{84} reference-of-thought will certainly imply an altogether different psychologism of\textsuperscript{84} meaningfulness-and-teleology\textsuperscript{100} as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/\textsuperscript{14} reference-of-thought of\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening\textsuperscript{53}) a renewing of mindset/ reference-of-thought of\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} with its corresponding psychologism/psychologism-construct occurs, with this ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{39} leading to the successive registry-worldviews/dimensions\textsuperscript{84} reference-of-thought psychologisms/psychologism-constructs, and implied prospectively as well with the notional–deprocrypticism worldview/dimension\textsuperscript{84} reference-of-thought psychologism/psychologism-construct. Critically, a psychologism/psychologism-construct takes an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument form that construes meaningfulness from the prior (and even lower) registry-worldview’s/dimension’s\textsuperscript{84} reference-of-thought psychologism up to its own registry-worldview’s/dimension’s\textsuperscript{84} reference-of-thought psychologism as of its more profound attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity\textsuperscript{\textless reifying-or-elucidating-of-prospective-relative-ontological-completeness –of– reference-of-thought-

‘human temporal uninstitutionalised-

mental-disposition’. This brings home the underlying notion of rational-realism as 
construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-
deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by 
way of a concurrently more and more ‘rational realistic’ construal of intrinsic-
reality/ontological-veridicality as of a natural human psychological growth disposition 
(‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics 
or natural–psychological-dynamics’). Wherein, going by its first impulse with respect to its 
‘construal/conceptualisation activity as of its coming into existence in the world’, human 
natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the 
comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to 
contend with while construing/conceptualising fundamental meaningfulness-and-teleology. 

This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, 
as taking away the chore of understanding and purpose, and giving a sense of intuitive 
guidance, hope, peace of mind and as to what humans should expect in their existence. But as 
of the intrinsic-reality constraints of having to deal with matters of the world on its own by 
developing notions of understanding and purposefulness as the mere imagination of God or 
Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in 
resolving human issues of the world and making its need for understanding and purposefulness 
go away. This induces a bifurcation of human intellectual-and-moral allegiance to the
supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendancy of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-primemovers-totalitative-framework’ that has accompanied human limited-mentation-capacity-deepening in construing/conceptualising meaningfulness-and-teleology. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening that actually is behind all threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—‘attendant—intradimensional’—prospectively-disontologising–preconverging/dementing—apriorising—psychologism of the <cumulating/recomposuring—attendant-ontological-contiguity>
successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of de-mentative/structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence \{implicated-‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness\} and metaphysics-of-absence \{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normaley/postconvergence>\} ontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought psychologism, notional–deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction rather as socially-functional-and-accordant. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that
all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms—as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘huma prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms—as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms—as-of-axiomatic-construct of positivistic psychologism to imply that the

Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigmning but for failure in aposteriorising/logicising/deriving/intelligising/measuring performance as defect–of–logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance. But then human existential-reality comes with
human limited-mentation-capacity-deepening\textsuperscript{53} with limited grasp of intrinsic-reality at various stages of human emancipation up to the modern-day, such that social\textsuperscript{104} universal-transparency\textsuperscript{10}\{transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness}\} required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold\textsuperscript{105}, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold\textsuperscript{53} mental-disposition’ as of attendant-ontological-contiguity\textsuperscript{66} elucidated ontological-normalcy/postconvergence. worldview/dimension institutionalisation. Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-

mentatively/structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-

[We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant-threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the—reference-of-thought-as-of—incrementalism-in-relative-ontological-

institutionalisation’ are made but with both construed in the conventioning of social-
functioning-and-accordance—as-of-social-stake-contention-or-confliction as effectively ‘non-
dissociable’, thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality—drive (longness-of-register-of—meaningfulness-and-
teleology disposition) but rather about acceptable thresholds for the registry-
worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of—
social-stake-contention-or-confliction, explaining why uninstitutionised-threshold are bound to arise successively in the ontological-contiguity (out-of-human temporality) together with corresponding prospective institutionalisations (out of-human intemporal) with the latter enabling mental-aestheticised-postconverging/dialectical-thinking–qualia-schema> in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology apriorising/axiomatising/referencing–attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–conflatedness–in–preconverging–disentailment–by–postconverging–entailment with no conventioning complexes’! (As a reminder, the notion of intemporal/temporality is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature of the being domains-of-study of the
social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrrogatory—de-mentativity as an otherness from any emotional-involvement/subjectification/notional <amplituding/formative—epistemicity>totalising—self-referencing-syncrétising/circularity/interiorising/akrasiac-drag predilection of the inquirer’. This elucidation is equally to highlight that the idea of socially-functional-and-accordant ‘modular-thresholds’—of-notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>—dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains—of—study.) The conventioning of social-functioning-and-accordance—as—of—social-stake-contention—or—confliction effectively ‘non-dissociable’ modular construal of temporal-dispositions and intemporal-disposition rather as of socially-functional-and-accordant thresholds, has deterministic implications with regards to ‘interdimensional/transdimensional/transcendental registry—worldview/dimension—level of analysis’ as well as ‘notional—firstnaturedness—temporal—to—intemporal—dispositions—<so-construed—as—from—perspective—ontological-normalcy/postconvergence> individuation—level of analysis’; for construing the implications of such ‘modular-thresholds’—of-notional—firstnaturedness—temporal—to—intemporal—dispositions—<so-construed—as—from—perspective—ontological-normalcy/postconvergence>—dissociability social—functioning—class—accordance—as—of—social-stake—contention—or—confliction effectiveness—or—ineffectiveness and ontological—resolution as of ‘attendant ontologising—capacity driven apriorising/axiomatising/referencing—psychologism by way of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibility—setup/measuring—instrumet’ in resolving

As ‘emotional-involvement’ is self-centering-and-definitional of human consciousness as of our animate-existential-referencing/subjectification, but actually such reality is otherwise of the same ontologically-veridical nature as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency—asublimating—nascence,—disclosed—from-prospective-epistemic-digression into which everything else is caught into as superseding—oneness-of-ontology (even though our high temporal-to-intemporal-conjugating—emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived—social-stake-contention-or-confliction will often tend to induce a relatively flawed meaningfulness-and-teleology construal in this regard, that explains our metaphysics-of-presence—(implicit—nondescript/ignorable—void—as-to—presencing—absolutising—.

Thus an appropriate ontologically-veridical social-conceptualisation and/or storied-construct/ontologically-valid-narration as aetiological/ontologically-escalatory that has the capacity to supersede the inherent human high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction specific element (which tend to denaturing meaningfulness-and-teleology construal, as high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction is behind manifest human ‘non-dissociability’ of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance temporal-to-intemporal thresholds’ within the ontological scope of any given institutionalisation), should be able to imply the same underlying ontologically-veridical existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression of the superseding–oneness-of-ontology as any other truly ontologically-veridical conceptualisation, be it of animate or inanimate nature. ontological-veridicality in implying and projecting about the prospective institutionalisation as of positivism, meaningfulness-and-teleology, reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation (rather than a naïve operation of logic as is further highlighted below). The fact is with or without postlogism and derived conjugated-postlogism, human reference-of-thought-prelogism-as-of-conviction,-in-profound-supererogation tends to be relative. That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology, <in-preconverging-existential-extrication-as-of-existential-unthought>) given our relative-ontological-incompleteness of reference-of-thought and secondly by projective-arbitrariness/waywardness in the choices we make, and this get even worst at the uninstitutionalised-threshold. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute reference-of-thought-prelogism-as-of-conviction,-in-profound-supererogation has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal preconverging–dementating/structuring/paradigming and further so with respect to increasing informality as in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology} of all human institutions, and
attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> takes the form of temporal-to-intemporal social interlocutors beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought> de-convergence as of transversality<for-sublimating–existential-eventuating/denouement> of-affirmative-and-unaffirmative–disambiguated–‘motif–and-apriorising/axiomatising/referencing’. Such a distinction particular at the uninstitutionalised-threshold is required because it then implies ontologically the relegation of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the soundness-of-the-reference-of-thought as of categorical-imperatives/axioms/registry-teleology in the first place to establish or not perversion-and-derived-perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. This delineation is in line with the idea of human temporal (shortness-of-register-of–meaningfulness-and-teleology) to intemporal (longness-of-register-of–meaningfulness-and-teleology) individuations nature as implicitly recognised in the preconverging/postconverging–de-mentating/structuring/paradigming of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge-notionalisation on the basis that it is equally critical to understand the possibility of the ignorances/desublimation just as conceptual sublimation knowledge itself to further uphold, advance and skew for the latter. The point being that meaningfulness-and-teleology construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of reference-of-thought–prelogism<as-of-conviction,-in-profound-supererogation> <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold’ the possibility of the

The reason for this is that the entire construct of human social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed reference-of-thought–prelogism-as-of-conviction,-in-profound-supererogation as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. Basically, the postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-decontextualising/deexistentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing–induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-contextualising/existentialising–attendant-ontological-contiguity >; in-shallow-supererogation <as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness> arises out of its temporal individuation’s surreptitiousness (‘lack of constraining social universal-transparency {transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-

Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism as a social dynamism of protracted threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to-
'attendant-intradimensional’-prospectively-disontologising-preconverging/dementing apriorising-psychologism> doesn’t socially take hold then, as such childhood postlogism perversion-of- reference-of-thought><as-preconvergingly- apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > hasn’t superseded the social universal-transparency (transparency-of- totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in- relative-ontological-completeness } in further inducing temporal-dispositions derived-perversion-of- reference-of-thought><as-preconvergingly- apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow- supererogation >. The further implication is that such surreptitiousness, marginality and circularity with regards to a registry-worldview’s/dimension’s temporal-dispositions are often construed rather as circumventive issues as of temporal extricatory preconverging–de- mentating/structuring/paradigming, and not by ontological-veridicality insight as of de- mentative/structural/paradigmatic <amplituding/formative–epistemicity>causality~as-to- projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating- ontological-contiguity with respect to vices-and-impediments. Thus ensuring ontological-veridical social universal-transparency (transparency-of-totalising-entailing,-as-to- entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological- completeness } is de-mentatively/structurally/paradigmatically inherently ‘advantaged ultimately’ by the social-construct functioning. (But then this can rather be achieved in the medium to long term as of a crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity import and hardly so in the short-run, given that in the short-run the issue of the registry-worldview/dimension relative-ontological-incompleteness of reference-of-thought is a drawback in this respect. As the framework of generalised social referencing of meaningfulness-and-teleology is a circular-pervasiveness
closed-structure as of the habituated predicative-insights for 'meaningfulness-and-teleology' based on the relative-ontological-incompleteness of reference-of-thought of the registry-worldview/dimension as prior (despite the relative-ontological-incompleteness of reference-of-thought induced distractive-alignment-to reference-of-thought <of-apriorising/axiomatising/referencing> and override any such sense of relative pure-ontology apriorising/axiomatising/referencing- \{of-attendant ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity \} conflatedness -in \{preconverging-disentailment by\} postconverging entailment as of prospective relative-ontological-completeness of reference-of-thought apriorising/axiomatising/referencing- \{of-attendant ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity \} conflatedness -in \{preconverging-disentailment by\} postconverging entailment). So the transcendent meaningfulness-and-teleology implied as of projective-insights about the prospective registry-worldview/dimension predicative-insights of meaningfulness-and-teleology going by its prospective relative-ontological-completeness of reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for meaningfulness-and-teleology’ in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes meaningfulness-and-teleology in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness of reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness of reference-of-thought had moved on to the new/prospective meaningfulness-and-teleology which is now antipodal to his, hence his confliction with his circular-pervasiveness wooden-language-\{imbued—averaging-of-thought\}-as-to- leveling/ressentiment/closed-construct-of meaningfulness-and-teleology -as-of-
which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-reference-of-thought with regards to meaningfulness-and-teleology construal where Nunez’s ‘seeing of the environment’ reference-of-thought as of its prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ reference-of-thought as of its prior relative-ontological-incompleteness. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a wooden-language{(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>} that hardly entertains its own transcendability/de-mentativity, and why transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
incidenting-predicative-insights in the circularly-pervasive closed-structure of their \(^8\) reference-of-thought’ despite their respective inherent prior relative-ontological-incompleteness\(^9\)-of reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to\(^8\) reference-of-thought-<of-apriorising/axiomatising/referencing>\(^9\) from an ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews/dimensions uninstitutionalised-threshold\(^8\), including our own as positivism–procrypticism as of its disjointedness-as-of\(^8\) reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to\(^8\) reference-of-thought-<of-apriorising/axiomatising/referencing>\(^9\) notwithstanding any notion of relative prospective ontological-completeness-of\(^8\) reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective \(^8\)amplituding/formative-epistemicity-totalising/circumscribing/delineating \(^8\)reference-of-thought-\(^8\) devolving-as-of-instantiative-context—\(^8\)meaningfulness-and-teleology\() apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-

We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments representing the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions reference-of-thought under which their respective predicative-insights construct their respective meaningfulness-and-teleology, so grounded axiomatically as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights; is compared imaginarily to ‘mental-dispositions at different successive ascertaining-perspectives unbeknown-to-each other for gauging the overall earth landscape’ (representing analogically ‘different registry-worldviews/dimensions for meaningfulness-and-teleology’), construed say at ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as recurrent-utter-uninstitutionalisation), ‘hill-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as base-institutionalisation–ununiversalisation), ‘mountain-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as universalisation–positivism), ‘airplane-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as positivism–procrypticism) and ‘space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run crosstural generational habituation construed as of de-mentation (supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with the prior ontologically construed as decentered and preconverging-or-dementing—apriorising-psychologism as of distractive-alignment-to-reference-of-thought—of-apriorising/axiomatising/referencing>, with the implication that its logical-dueness doesn’t exist just as the logical-dueness of the animist reference-of-thought with their God-of-plane proposition doesn’t ontologically exist.) We can grasp as well that it is the ‘space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as deprocrypticism) that ultimately provides the ideal ‘ascertaining-perspectives for gauging the overall earth landscape’. Besides, why the explication herein is necessarily implying a prospective reference-of-thought (as the author in here with a supposed notional–deprocrypticism reference-of-thought construal as implying a prospective relative-ontological-completeness reference-of-thought over our positivism–procrypticism), the fact is that any transcendental analysis is caught in two worlds as two different reference-of-thought in striving to explicate the ontological pre-eminence of the prospective reference-of-thought as of ontological-normalcy/postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our reference-of-thought being construed as ‘preconverging-or-dementing—apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing—apriorising-psychologism and not thinking, within non-
positivism/medievalism uninstitutionalisation as preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold\textsuperscript{03} will react when construed as preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of prospective \textsuperscript{1} deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought perspective as in disjointedness-as-of- reference-of-thought and rather in distractive-alignment-to–reference-of-thought–of-apriorising/axiomatising/referencing\textsuperscript{29} ! Thus the reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{32}–self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature’ for the sake of deconstructive-engagement/engaged-destruktion because an analysis construed as of \textsuperscript{8} reference-of-thought is all about mental-soundness or unsoundness representation (with no logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a change of \textsuperscript{84}reference-of-thought implies a change of perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-of–meaningfulness-and-teleology\textsuperscript{100} as a shift of the curve-of-prospective-relative-ontological-completeness –of– reference-of-thought/axiomatic-construct and not a change in logic as a change along the same \textsuperscript{84}reference-of-thought/curve-of-prior-relative-ontological-
Incompleteness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. In other words, a truly direct notional-deprocripticism ontological analysis will be a ‘mental break-in’/preconverging-or-dementing—apriorising-psychologism of our positivism—procripticism as we by reflex ‘mentally break-in’/dement a non-positivistic reference-of-thought (as we don’t engage it on the basis of the non-positivistic reference-of-thought—categorical-imperatives/axioms/registry-teleology). Just as a notional-deprocripticism analysis will not engage us on the basis of our procripticism—or—disjointedness-as-of-reference-of-thought—categorical-imperatives/axioms/registry-teleology, just as a notional-deprocripticism analysis will not engage us on the basis of our procripticism—or—disjointedness-as-of-reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness′—over prior relative-ontological-incompleteness—of-reference-of-thought over prior relative-ontological-incompleteness—of-reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God-of-plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as...
stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of \(<\text{amplituding-formative-epistemicity}>\text{totalising-self-referencing-syncretising}\)’ prior to eventual prospective relative-ontological-completeness -of- reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional–deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as \(\text{procrypticism–or–disjointedness-as-of-}\text{reference-of-thought}\) failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism as preconverging–or–dementing –apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage \(\text{meaningfulness-and-teleology}\) in positivism–procrypticism terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness–of–reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-preconverging–or–dementing –apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation–
ununiversalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing—apriorising-psychologism with respect to an implied prospective mental state of
universalisation, the ‘mental tools’ available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing—apriorising-psychologism with respect to an implied prospective mental state of positivism, and prospectively the ‘mental tools’ available to a state of positivism–procrypticism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing—apriorising-psychologism with respect to an implied prospective mental-state of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, issues of perversion-and-derived- perversion-of- reference-of-thought—as-preconverging- apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow- supererogation—rather render such notions as forgiveness/overlooking/resetting nothing more but vague—totalising~self-referencing- syncretising/circularity/interiorising/akrasiatic-drag—misconstruing based on ‘a naïve traditional reflex’ that truly has no grander virtuous implications but quite the contrary as actually endemising/enculturating vices-and-impediments as when so-construed as a wooden-language—{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing— narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry—teleology } failing/not-upholding intemporal-preservation-entropy-or-contiguity—or-ontological-preservation; thus transforming such ‘denaturing’ notions of forgiveness/overlooking/resetting into a temporal mental-disposition ontological-primemovers-totalitative-framework—‘misconstrued vicious insight disposition’ thus rather
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’—in-superseding-mere-
formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-
on-rules—apriorising/axiomatising/referencing—psychologism in procrypticism, and thus
requiring respectively transcending/superseding to base-institutionalisation, universalisation,
positivism and deprocrypticism. And by that same ‘ironic token’ the notion of grander human
lives should not be construed as of the mental-disposition perpetuating the ontological-
contiguity—of-the-human-institutionalisation-process in an opened-construct-of—meaningfulness-and-teleology allowing for reference-of-thought—categorical-
 imperatives/axioms/registry-teleology—aposteriorising/logicising/derivig/intelligising/measuring—meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-
recomposuring’ but rather wooden-language—imbuéd—averaging-of-
starting at the recurrent-utter-uninstitutionalisation in permanence that doesn’t allow for any
such transcending enabled by the ontological-contiguity—of-the-human-institutionalisation-
process. In other words the notion of forgiveness/overlooking/resetting with respect to
perversion-and-derived—perversion-of—reference-of-thought—apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supertrogeration ≥ is rather vague, as the more fundamental issue here is that human
meaningfulness-and-teleology as of human limited-mentation-capacity for construing
virtue-as-ontology/ontology/intrinsic-reality/ontological-veridicality is ‘ever de-
mentatively/structurally/paradigmatically in need for prospective relative-ontological-
completeness—of—reference-of-thought’ and that is what is to be sought after as with the
recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-
institutionalised–ununiversalised striving for universalisation, the universalised–non-positivist/medievalist striving for positivism and in our case the positivist–procryptist striving for notional–deprocrypticism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; and so as of human limited-mentation-capacity-deepening enabled by reference-of-thought–categorical-imperatives/axioms/registry-teleology-, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ and so allowed by de-mentation-{supererogatory–ontological–de-mentation–or-dialectical–de-mentation—stranding-or-attributive-dialectics}. Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no de-mentative/structural/paradigmatic issue of relative-ontological-incompleteness-of-reference-of-thought with no recognition of any such ontological-contiguity—of-the-human-institutionalisation-process as human limited-mentation-capacity-deepening retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived–perversion-of–reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/de-mentativity within the framework in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{17}—of-the-
human-institutionalisation-process\textsuperscript{1} involving human limited-mentation-capacity-deepening\textsuperscript{2}.

In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental de-mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism–procripticism disjointedness-as-of\textsuperscript{4} reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology\textsuperscript{84}—in-preconverging-existential-extrication-as-of-existential-unthought> naïve perpetuation in \texttt{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> of the fundamental vices-and-impediments\textsuperscript{106} with both uninstitutionalised-threshold\textsuperscript{03}, thus explaining the fundamental dilemma of all institutional Establishments in their \texttt{<amplituding/formative> wooden-language} (imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-
meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-

Such confusion arises from a misconstruing of what is veridically implied deconstructively/ontological-reconstitutively by \texttt{de-mentation}\textsuperscript{14} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-orattributive-dialectics), which implies that ‘any registry-worldview/dimension presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{00} as of its prior relative-ontological-incompleteness\textsuperscript{09}—of-‘reference-of-thought’ is ‘a preconverging-or-dementing\textsuperscript{19} -and-decentered-prior-institutionalisation’s–’ categorical-imperatives/axioms/registry-teleology\textsuperscript{00} placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{00} as unsoundness-or-ontological-
representation/mentation/consciousness-awareness-teleology as soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’, we are rather less apt to concur going by

<amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reflex such that such notions as forgiveness/overlooking/resetting and notions of positive psychology are rather just a failure to
de-mentatively/structurally/paradigmatically recognise the implied perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation as of our relative-ontological-incompleteness-of-reference-of-thought, and what we are doing then is ‘re-referencing from the same positivism–procrpticism relative-ontological-incompleteness-of-reference-of-thought’ and thus wrongly implying our unde-
mentativity hence our untranscendability for a de-mentative/structural/paradigmatic-reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’, and paradoxically thus by implication that there is no relative-ontological-incompleteness-of-reference-of-thought, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awarenesss-teleology-temporal/shortness-of-register-of–meaningfulness-and-teleology projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of de-mentative/structural/paradigmatic nature of the-

The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness-of-reference-of-thought and a prospective relative-ontological-completeness-of-reference-of-thought, the former is priorly invalidated into a preconverging-or-dementing-and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought by the latter as a postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry-
teleology soundness-or-ontological-good-faith/authenticity reference-of-thought, invalidating by implication the logical-dueness/logical-pertinence as of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness reference-of-thought with respect to its prior relative-ontological-incompleteness reference-of-thought. But since we have been habituated as of our existential formation within our wooden-language imbued—averaging-of-thought—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of—nondescript/ignorable—void with-regards-to-prospective-apriorising-implications to be in logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by default and thus always contendingly relevant on the basis of sharing a mutual positivism reference-of-thought, we will hardly entertain though a notional—deprocrypticism cross-engagement implied invalidation of our logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and thus rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness reference-of-thought construed as disjointedness-as-of—reference-of-thought. But then ironically such a unde-mentativity posture could as well be adopted by a non-positivism/medievalism reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s—categorical-imperatives/axioms/registry-teleology with its logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid by default. This point out that there is
necessarily a central growth element of a de-mentative/structural/paradigmatic \textsuperscript{84} reference-of-thought\textsuperscript{8} -categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-aposteriorising/logicising/deriving/intelligising/measuring- meaningfulness-and-teleology\textsuperscript{100} for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ allowing for de-mentativity and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic \textsuperscript{4} <amplituding/formative-epistemicity> causality-as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity of vices-and-impediments\textsuperscript{106} of our prior relative-ontological-incompleteness -of- reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn’t recognise the mortals that we are and we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid ‘human closure of ‘meaningfulness-and-teleology\textsuperscript{100}, which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising \textsuperscript{1~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as a <amplituding/formative> wooden-language-(imbued—averaging-of-thought-

On any such occasion, ontological-veridicality as of notional–deprocrypticism prospective relative-ontological-completeness[

Such a demonstration might be construed as of a simple paper plane demonstration of ontological-primemovers-totalitative-framework\(^{(23)}\) principles or extraordinarily a flight from the flight deck with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered \(^{5}\)meaningfulness-and-teleology\(^{(10)}\) is more ontologically pertinent. Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism-and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness of meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution construed as of de-mentation by superseding the prior non-positivism prior relative-ontological-incompleteness of reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness of reference-of-thought by ‘continuous habituation going by the latter’s ontological-primemovers-totalitative-framework in the long run as superseding the prior beyond-the-consciousness-awareness-teleology in preconverging existential-extrication-as-of-existential-unthought.
and initiating the appropriate prospective social\textsuperscript{104} universal-transparency\textsuperscript{105} - {\textit{transparency-of-totalising-entailing,-as-to-entailing- \langle amplituding/formative–epistemicity\rangle totalising-in-relative-ontological-completeness}} that will de-mentatively/structurally/paradigmatically harken back to undermine the postlogism\textsuperscript{78} -and-conjugated-postlogism\textsuperscript{78} grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic mindset\textsuperscript{84} reference-of-thought into a positivistic mindset\textsuperscript{84} reference-of-thought that the possibility of ‘ontologically’ and ‘not palliatively’ resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the crossgenerational resolution of our positivism–procrypticism prior relative-ontological-incompleteness\textsuperscript{84} -of- ‘reference-of-thought as of its circular-pervasiveness in countenancing of ‘procrypticism–or–disjointedness-as-of--reference-of-thought’ from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of meaningfulness-and-teleology\textsuperscript{100} as conceptualising, articulating and preempting such disjointing/disparateness/disentailing ‘meaningfulness-and-teleology\textsuperscript{100} of our positivism–procrypticism that is the de-mentative/structural/paradigmatic resolution as of prospective relative-ontological-completeness\textsuperscript{77} -of- ‘reference-of-thought that can de-mentatively/structurally/paradigmatically harken back in undermining the circular-pervasiveness in countenancing of ‘disjointedness-as-of--reference-of-thought’ and the enculturation/endemisation of the manifest postlogism -and-conjugated-postlogism\textsuperscript{78} in our positivism–procrypticism as psychopathy and social psychopathy, and so going beyond just a temporal palliative resolution within a positivism–procrypticism circular-pervasiveness closed-structure countenancing ‘disjointedness-as-of--reference-of-thought’ of ‘meaningfulness-and-teleology\textsuperscript{100} , beyond-the-consciousness-awareness-teleology\textsuperscript{100} <in-preconverging-existential-extrication-as-of-existential-unthought>, and hence overlooking the de-mentative/structural/paradigmatic ontological vices-and-impediments\textsuperscript{106} implications of
postlogism-and-conjugated-postlogism including psychopathy and social psychopathy arising given the relative-ontological-incompleteness-of-reference-of-thought of our procrypticism as disjoinedness-as-of-reference-of-thought. This explains how and why re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking - 'projective-insights'/epistemic-projection-in-conflatedness -of-notional-deprocrypticism-prospective-sublimation} ideas can supersede conventionalised ideas where the former provide in the big picture the possibility for the social-construct to function better by social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} at a crossgenerational depth of analysis, and equally explains human historical suspicions of new ideas just in case their social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} turn out to be better and possibly leading to the dismantling of the prior and vested and attendant interests. The fact is by mental-reflex
we relate to social meaningfulness-and-teleology by apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging-entailment as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity which by habit or chance will often turn out to be as of attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity —reifying-or-elucidating-of-prospective-relative-ontological-completeness -of-reference-of-thought- devolving-as-of-instantiative-context as of the institutionalisation ambits of the domain-of-concern precedingly so-established/so-institutionalised by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, and so with hardly any consequence for our methodological imprecision/inexactitude where the established/institutionalised reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology is not ontologically superseded as at uninstitutionalised-threshold. But that is technically/abstractly speaking inappropriate from an ontological-veridicality perspective requiring unassailability/reliability/dependability at uninstitutionalised-threshold. As explained elsewhere and implied above it is the conceptualising (by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation) of a reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment by} postconverging-entailment that enables such a certitude at uninstitutionalised-threshold of an epistemic-totalising—devolved—purview—as-domain-of-

The implication is that postlogism /psychopathy and other human temporal phenomena (and so, across all registry-worldviews) which speak of uninstitutionalised-threshold are often wrongfully construed on the basis of intemporal secondnatured institutionalisation human nature whereas the as priorising/axiomatising/referencing- {of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }–conflatedness in-
contiguity\textsuperscript{39}. Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social\textsuperscript{104} universal-transparency\textsuperscript{111} \{transparency-of-totalising-entailing,-as-to-entailing-\ <amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness \} level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold\textsuperscript{103} situation which is necessarily beyond-the-consciousness-awareness-teleology\textsuperscript{109} \langle in-preconverging-existential-extrication-as-of-existential-unthought\rangle\textsuperscript{6} and without social\textsuperscript{104} universal-transparency\textsuperscript{115} \{transparency-of-totalising-entailing,-as-to-entailing-\ <amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness \} of the visitor. This example is exactly along the lines of the reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100} needed for construing postlogism /psychopathy and conjugated-postlogism as of its social model at uninstitutionalised-threshold\textsuperscript{103}, and so by way of maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{104}—unenframed-conceptualisation (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposuring attendant-ontological-contiguity\textsuperscript{76} educed—existentialising/contextualising/textualising-contiguity \langle reifying-or-elucidating-of-prospective-relative-ontological-completeness \rangle of reference-of-thought devolving-as-of-instantiative-context>, in contrast to elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity\textsuperscript{77} educed—existentialising/contextualising/textualising-contiguity\textsuperscript{79} which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-to-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity educed—existentialising/contextualising/textualising-contiguity on the basis of the established reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology before the institutionalisation of such a specific uninstitutionalised-threshold takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity educed—existentialising/contextualising/textualising-contiguity. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism–procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or ‘disjointedness-as-of-reference-of-thought’—meaningfulness-and-teleology going by the visitor’s relative-ontological-incompleteness—reference-of-thought as of positivism–procrypticism, while the explainer of the situation has factored in notional–deprocrypticism, reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology to preempt the induced procrypticism or ‘disjointedness-as-of-reference-of-thought’—meaningfulness-and-teleology from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will
now construe of notional-deprocrypticism reference-of-thought-categorical-imperatives/axioms/registry-teleology for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology to preempt the slanted inducing of procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology and gives up on positivism-procrypticism reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold with respect to the childhood psychopathy, a new notional-deprocrypticism reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology has superseded the prior positivism-procrypticism reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity. However, we can still get a sense of such de-mentative/structural/paradigmatic amplituding/formative-epistemicity-causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity from a retrospective registry-worldview/dimension perspective like postlogism in a non-positivistic social-setup as of our prospective relative-ontological-completeness-of-reference-of-thought perspective but it is more difficult to grasp from a notional-deprocrypticism prospective perspective of analysis where we will rather be unpalatably represented as decentered and preconverging-or-dementing-apriorising-psychologism, given our state of metaphysics-of-presence⟨implicated-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness⟩. Supposed with regards to a case of notions-and-accusations-of-sorcery as highlighted before as of a social-setup whose relative-ontological-incompleteness-of-reference-of-thought is non-positivistic, a positivism minded interlocutor arguing that notions-and-accusations-of-sorcery do not exist upon an accusation of sorcery is literally undermining itself but is seen as ontologically necessary for the crossgenerational possibility of prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. Supposed however that the interlocutor isn’t an isolated individual but a member from a positivistic society bringing about a cultural diffusion in the non-positivistic society such that the latter looks up to the former by its prospective relative-ontological-completeness-of-reference-of-thought as it effectively has greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative technology, then in this case the non-positivistic social-setup will at least in ad-hoc instances be circumspect in countenancing that notions-and-accusations-of-sorcery do not exist as of supererogatory-de-mentativity. This new positivism reference-of-

Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procrystalism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of

An explainer to the visiting stranger in the non-positivism social-setup case about the whole situation would have articulated at the individuation-level of analysis a prospective ‘logically-due prelogism’ -as-of-conviction,-in-

rendered difficult by a natural human ‘emotional involvement’ driven social-aggregation-
enabling as of human condition that undermines intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory–de-mentativity. This insight equally
explains the pertinence of understanding postlogism/psychopathy in general as an
epiphenomenon that can provide deeper insight about human nature given its ‘lateral-and-
transversality–for-sublimating–existential-eventuating/denouement–of-affirmative-and-
unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing disruptive
nature on human meaningfulness-and-teleology” and with the preconverging–de-
mentating/structuring/paradigming relatively easily perceived at childhood, much like the early
modern human biologists relatively simplistic but counterintuitive-as-of-their-epochs
understanding of disease provided deeper insight in understanding how the complexity of the
human body works. Both individuation-level understanding of postlogism\(^78\) in a non-positivism as of notions-and-accusations-of-sorcery and positivism social-setup as of psychopathy and social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-afteffect/afteffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism\(^78\) individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\), for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^{100}\) and a conventioning positivism–procrypticism as procrypticism in lieu of an ontologically-veridical notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\), for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^{100}\).

That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-afteffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism\(^78\)/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to reference-of-thought–of-apriorising/axiomatising/referencing\(^{19}\) as undermining apriorising/axiomatising/referencing-of-attendant–ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity-confatedness\(^{12}\) in {preconverging-disentailment-by}–postconverging-entailment induces psychological-complexes pointing to, as of dynamic-cumulative-afteffect/afteffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness\(^{100}\)-of-reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its

In both instances, such an apparently naïve intellectual disposition will point to relative intellectual impertinence at best, and at worst conscious ontological-bad-faith/inauthenticity angling to cynically undermine universal veracity/ontological-pertinence as of the opportunity of implying poorly objectifiable-as-desubjectifiable/subjectified incidental analysis as pre-eminently of universal import. While this logic is immediately obvious with the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature of many a natural sciences <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality with their disposition for replication and other experiments and observations analyses as hardly any scientist will go on if it is problematic to objectively ascertain the contextual reality of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree to contend that Newton’s laws of motion supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–dementating/structuring/paradigming –as-being-as-of-existential-reality> is wrong, such an insight about the supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–dementating/structuring/paradigming –as-being-as-of-existential-reality> being wholly construed as of its ‘very own veracity/ontological-pertinence as of any of its objectificable contexts’ can-and-is often easily flouted and sidetracked with the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction that permeates the study of the social as of
its blurriness. This equally explains why it is actually better and more critical to construe/conceptualise social knowledge not only on the basis of the inherent veracity/ontological-pertinence of supposedly coherent ontological-commitment<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> as with the natural sciences but equally factoring in the human social condition as of high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction, and so as of a knowledge-notionalisation exercise. In other words metaphysics-of-absence{(implicit-epistemic-veracity-of- nonpresencing)<perspective–ontological-normalcy/postconvergence>} refers to any such projections, as of human imaginative capacity derived from our underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> as of <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective– nonpresencing,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) and existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency<sublimating–nascence,-disclosed-from-prospective-epistemic-digression; thus enabling human limited-mentation-capacity-deepening insights as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a ‘sense of rightness’ is all that matters before the law, and this extends to human meaningful and organisational principles in
general. Such that temporal-dispositions fulfilment of such ‘mechanistic’ effectiveness as mechanical-knowledge ‘without the non-constraining and abstract organic mental-disposition as of ontological-faith-notion-ontological-fideism—imbued-underdetermination-of-motif- and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the emanant-kind that-had-driven the 84-reference-of-thought construal in the first place’ distort in due course organic 56-meaningfulness-and-teleology100, as of temporal mental-dispositions of shortness-of-register-of— meaningfulness-and-teleology106. The statements articulated priorly (before the square brackets texts digression) speak of the reality of ‘human temporal uninstitutionalised-threshold mental-disposition’ even in our own
positivism reference-of-thought registry-worldview. It is fair to say the statement made before, “Z … will look down on B, C, D, E and F mental-dispositions perversion-and-derived-
perversion-of reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-

The point of this distinction made between the nature of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ registry-worldview’s/dimension’s reference-of-thought and ‘human temporal uninstitutionalised-threshold\textsuperscript{03} mental-disposition’ registry-worldview’s/dimension’s reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between ‘cumulated institutionalisation’ (which we carry by being secondnatured at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{*} as of human limited-mentation-capacity-deepening\textsuperscript{*} leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality /longness (which overall is no more greater than that of humans of previous <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions); and further that we are just of the same ‘human temporal uninstitutionalised-threshold\textsuperscript{03} mental-disposition’ as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold\textsuperscript{01}, which choices when of intemporality\textsuperscript{*}-drive solipsistic-choices are \textsuperscript{5} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{*}—unenframed-conceptualisation leading to prospective institutionalisations. This notion of human mental-disposition and by extension meaningfulness-and-teleology\textsuperscript{100} as comprising, rather as a more complete and grander conceptualisation, a registry-
worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold facet, so-construed by metaphysics-of-absence-{implicit-ed-epistem-veracity-of-nonpresencing-perspective-ontological-normalcy/postconvergence}, carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. Such metaphysics-of-absence considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’), like deferential-formalisation-transference, ordered-construct, percolation-channelling-in-deferential-formalisation-transference and transversality-for-sublimating–existent-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing. Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology (as ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific
practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaningfulness-and-teleology as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology <-in-preconverging-existential-extrication-as-of-existential-unthought>. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-primemovers-totalitative-framework and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling-in-deferential-formalisation-transference possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as of
veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling-<in-deferential-formalisation-transference> and transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’. In another respect, with regards to scientific meaningfulness-and-teleology\(^\text{100}\) and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold\(^\text{101}\) when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology -as-of– nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/supererogatory de-mentativity by human intemporal mental-dispositions and projections'; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness -of- reference-of-thought increasingly defer domains of meaningfulness-and-teleology more and more to formal constructs while increasingly reducing the sphere of the extended-informality\{(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to- meaningfulness-and-teleology\} as of its free-for-all nature. The bigger point being that even in our positivism–procrysticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal amplituding/formative wooden-language\{imbued–averaging-of-thought\} as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology as-of- ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications\} mental-
dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-
leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-
‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications}> mental-dispositions and projections’. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism /psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’, and undermining a social relations with regards to knowledge and virtue that
is based on ‘social consensus as of social-aggregation-enabling by human temporal
amplituding/formative wooden-language-{imbued—averaging-of-thought—levels—ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-
’nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications>} mental-dispositions and projections’, and so in order to release the inherent virtue imbued in true knowledge. The afore elucidations are mainly to point out that it is naïve to construe the analysis of postlogism phenomenon including psychopathy on the assumption of an overall ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social as of the present as metaphysics-of-presence-implicit-nondescript/ignorable—void—as-to-presencing—absolutising-identitive—constitutedness, instead of assuming a ‘human temporal uninstitutionalised-threshold mental-disposition’ of the social by prospective metaphysics-of-absence-implicit—epistemic-veracity—of—nonpresencing—perspective—ontological-normalcy/postconvergence>, since the construal of our postlogism as of psychopathy and social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic-ornotional-projective-perspective, reflected from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism registry-worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence—implicit—epistemic-veracity—of—nonpresencing—perspective—ontological-normalcy/postconvergence> we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality—drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities-drives such that it is endemised/enculturated in various temporalities/shortness shades
(ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the wooden-language-⟨imbued—averaging-of-thought–as-to-leveling/resentment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications⟩ in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal preconverging–dementating/structuring/paradigming and not intemporal/ontological/social/species/universal/transcendental/maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–dementating/structuring/paradigming as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process of institutional-cumulation/institutional-recomposing–as-to-historiality/ontological-

than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an
individual of a positivistic insight found themselves in a non-positivistic community, whether
base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or
so, but the positivistic individual knows it is a case of an infection with the idea that a certain
root or leaf in the nearby forest can be used as cure, however, the community rather believe that
the forest is an evil forest and this will just make things worse for them overall. Obviously, as
of its positivism prospective relative-ontological-completeness\(^\text{97}\)–of-\(^\text{99}\) reference-of-thought, by
‘intemporal-prioritisation-of-\(^\text{97}\) reference-of-thought’–as-conflatedness\(^\text{12}\)–or-ontological-

supersede the non-positivistic \(^\text{94}\) reference-of-thought–categorical-imperatives/axioms/registry-

root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more
than just the circumstantial situation will equally appreciate that positivistic thinking over
animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of \textit{attendant-ontological-contiguity} \textit{-educed-existentialising/contextualising/textualising-contiguity} here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought and respectively as of their divergent non-positivists dereification perspective and positivist reification perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of \textit{attendant-ontological-contiguity} \textit{-educed-existentialising/contextualising/textualising-contiguity} –in-reification/dereification as of their prior relative-ontological-incompleteness reference-of-thought, contrasted with the positivist naturalist conception of \textit{attendant-ontological-contiguity} \textit{-educed-existentialising/contextualising/textualising-contiguity} –in-elucidation-or-reification as-seeking-a-cure as of its prospective relative-ontological-completeness reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrypticism registry-worldview/dimension as of its prior relative-ontological-incompleteness reference-of-thought, as the notion of proof/evidence is more critically tied down to \textit{attendant-ontological-contiguity} \textit{-educed-existentialising/contextualising/textualising-contiguity} –reification as of singularisation as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity <-profound-supererogation -of-mentally-
aestheticised-postconverging/dialectical-thinking-qualia-schema> in decentering the
‘modern-take thinking’ reveals the underlying bias of the latter meaningfulness-and-
teleology as reflected particularly more vividly in gender, race, class, etc. Interestingly, this
paradox is very much typical of all transcendental situations and explains the universal
‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-
or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with
transcendental thresholds. As we can garner in this case that the positivist constrained to
existence rather in such a country-of-the-blind scenario cannot simply be deferential to living
and Being as of the non-positivist social-setup value reference while very much aware of the
de-mentative/structural/paradigmatic virtue implications as of prospective positivism
prospective relative-ontological-completeness-of-reference-of-thought, and thus will
‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic
value references over non-positivistic value reference, even as the latter is always in
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag; with the implication that such
ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-
or-acumen/asceticism as of reasoning-through/messianic-reasoning contortion is rather in
transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-
unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing of the prior
relative-ontological-incompleteness-of-reference-of-thought and the contorted prospective
relative-ontological-completeness-of-reference-of-thought from their respective
existentialism intelligibility stances. This contortion as of prospective relative-ontological-
completeness-of-reference-of-thought projection is what marks ‘transcendental acts of
ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of postconverging—nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness -of- reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-completeness -of- reference-of-thought but for the induced crossgenerational transcendental metaphoricity possibility, and the contortion is more of a token as of the metaphoricity possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and without which token contortion there is ‘no existential reference for such transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, as a gesturing of metaphoricity that is ‘beyond the prior relative-ontological-incompleteness -of- reference-of-thought full meaningfulness-and-teleology implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity possibility for prospective relative-ontological-completeness -of- reference-of-thought’; as transcendental instigation can’t be of ordinary inclination at one moment and at another moment of transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness -of- reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into the ordinariness of prior relative-ontological-incompleteness -of- reference-of-thought thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness -of- reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism’ as of contortive metaphoricity gesturing for prospective relative-ontological-completeness of-reference-of-thought as of postconverging-nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism, different from asceticism as reasoning-from-results/afterthought or institutional asceticism, should basically be understood as of the general notion that all human meaningfulness-and-teleology are naturally ‘correlate-aesthetic-constructs as of the various reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation in successive prior relative-ontological-incompleteness towards-ontological-completenessss-of-deprocrypticism’ as of their specific reflection of the very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ (just as implied with the case highlighted herein of the ‘ill-health<amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’); and are so derived as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance <including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’ and construed as of ontologically-veridical difference-conflatedness as-to-totalitative-reification-in-singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> -as-veridical-epistemicity-relativism-determinism; with the assertion by this author that there is no accidental human meaningfulness-and-teleology as

conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-

totalitative-framework\textsuperscript{23}. But then the human reality across all registry-worldviews/dimensions, isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its uninstitutionalised-threshold\textsuperscript{03} and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ of human ‘meaningfulness-and-teleology\textsuperscript{10}’/\textsuperscript{84} reference-of-thought-devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-dialectical-thinking—apriorising-psychologism’ prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism uninstitutionalised-threshold\textsuperscript{10} which it tends to represent as nondescript/ignorable–void (actually speaking of akrasiatic-dragnatured-and-preconverging-or-dementing\textsuperscript{17}-narratives), for the possibility of its prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into prospective institutionalisation. This reality is known as human ‘supererogatory-de-mentative constraint’ to prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of the possibility of prospective relative-ontological-completeness\textsuperscript{88}–of-reference-of-thought. Human supererogatory-de-mentative constraint is fundamentally associated with poor \textsuperscript{104}universal-transparency\textsuperscript{10}–(transparency-of-totalising-entailing,–as-to-
entailing \(<\text{amplituding/formative–epistemicity}>\) totalising in relative ontological completeness \(\) with respect to social-stake-contention-or-confliction at uninstitutionalised-threshold \(\). This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of \(<\text{amplituding/formative}>\) wooden-language\(\{\text{imbued—temporal—mere—}\text{form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—}\text{narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology}\) as of the prior institutionalisation’s ‘reference-of-thought—categorical-imperatives/axioms/registry-teleology’ \(\) that stifle the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness of reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness, for resolving a given registry-worldview/dimension vices-and-impediments; this notion of human supererogatory–de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied by a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ that emphasises the ‘Lacanian subject’ growth as of de-mentation\(\langle\text{supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics}\rangle\), rather than a second-guessing mented or stigmatic psychology that fails to integrate the decisively ontological transformative implications of human psychology as of underlying relative-ontological-incompleteness and

Such a human disposition to decontortion at uninstitutionalised-threshold arise on the naïve
basis that human temporal willing/volition can effectively supersede the ontological
integrity/veracity of meaningfulness-and-teleology as it reflects existence’s
coherence/contiguity as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism. But then such a decontortioning disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold where we are actually preconverging-or-dementing—apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our attendant-amplituding/formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiac-drag and vague untransvaluated—temporal-intemporality gesturing. The ontological-contiguity—as-to-the-human-institutionalisation-process can thus be construed as one of increasingly undermining the human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness wherein across the successive institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-as-perspective-ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism—decontortion is ontologically-constrained both as of the ‘dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition’. The former is ontologically-constrained as of ontological-primemovers-totalitative-framework in undermining the human temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of universal-transparency—{transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness}. Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural
sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness and emotional-involvement. In another respect the implications of flawed identitive-constitutedness—as-‘epistemic-totality’—dereification-in-dissingularisation—as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness—as-flawed-epistemicity-relativism-determinism as of dissingularisation—as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness—/epistemic-nonimmanence/flawed-epistemicity-relativism-determinism also has implications with the ontological-performance—including-virtue-as-ontology as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningness-and-teleology in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness—as-‘epistemic-totality’—dereification-in-dissingularisation—as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness—as-flawed-epistemicity-relativism-determinism implied as of dissingularisation—as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness—/epistemic-nonimmanence/flawed-epistemicity-relativism-determinism that in many ways ignores/overlooks knowledge-reification—gesturing—in-prospective-psychologismic—apriorising/axiomatising/referencing—{of-attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness—in—{preconverging-disentailment—by}—postconverging-entailment— as of

transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as the very essence of
knowledge. This has led in many ways to a dissonance between their knowledge productivity
implications and existential reality wherein for instance psychological and psychiatric science
seems to imply that all along its practice human psychological illnesses have multiplied many
times over as of ever transforming and expanding formalisation credo, while the analytical
tradition of philosophy by the avowals of its internal critics has been involved in a recurrent
second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation
outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study
ecstatically allows for such an attitude/mental-disposition/care–and–episteme'. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-
of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already preceding-superseding as of ‘ecstatic totalising-entailing/nested-congruence’, with the consequence that it naively construes of reification as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing and producing relatively ontologically-flawed meaningfulness-and-teleology. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness/relative-ontological-completeness.

This specific deficiency of the analytic tradition as so-reflected in many of its conceptualisations has to do with the very notion of knowledge as being about
This underlying notion of ontological-performance speaks more fundamentally of aetiolisation/ontological-escalation, as explicitly underlined in all transcendence-and-sublimity/sublimation/supererogatory—dementativity elucidating/reifying subject-matters and sciences, unlike approaches that do-not-or-poorly-appreciate the fact that just as scientific studies are transformative the study of the social rightly articulated beyond-institutional-being-and-craft is just as transformative with regards to prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development; even though it is more subject to higher emotional-involvement as of its displacement/decentering-of-the-human-subject. Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficultly be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an
in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ insight about supposedly coherent ontological-commitment "<implied—self—assuredness-of-ontological-good-faith/authenticity ~postconverging—dem-entating/structuring/paradigming —as-being-as-of-existential-reality> articulated as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of explicited/implicated coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that
ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment –<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> in producing knowledge as ‘meaningfulness-and-teleology’; such that critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal day to day experience about living itself’ as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to ontological-primemovers-totalitative-framework, and so because such well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’ in the philosophical domain-of-study is generally more ontologically profound and comprehensive as of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}–conflatedness—in-{preconverging–disentailment–by}–postconverging-entailment than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a totalising-entailing apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}–conflatedness—in-{preconverging–disentailment–by}–postconverging-entailment demand on human living experience for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ than other more specific domains-of-study for which ad-hoc and focussed domain study methods are pervasively decisive for ontological pertinence. But then
this is more a question of ‘expanded onticising construal of existence as of

in many ways such an elucidation hardly needs to be explicited in many a natural science

constraining of ontological-primumovrs-totalitative-framework²³ as to existence-

unexplicited implicitness should not be confused with the notion that the natural sciences are
essentially reduced to their science approaches and methodologies; as is often and awkwardly
naively construed from without in many a social domain-of-study. The fact is notwithstanding
the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-
of-study, these are just as driven by a philosophical depth of contemplation as of
‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-

and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with attendant ontological-contiguity emitted existentialising/contextualising/textualising-contiguity as of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity emitted existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} postconverging entailment; so-implied as of their supposedly coherent ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity ~postconverging-de-mentating/structuring/paradigming ~as-being-as-of existential-reality reflected by ontological-primemovers-totalitative-framework as to existence-potency ~sublimating-nascence-, disclosed-from-prospective-epistemic-digression. In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specifisms of existence’s ecstatic manifestation’ as of the amplituding/formative-epistemicity totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of ontological-primemovers-totalitative-framework will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is very often incomplete, of-divvied-theorisation and/or ‘poor coherence of theoremisation with operant approaches and methodologies’, when it comes to many a social domain-of-study; as
quite often theorisation in many a social domain-of-study strives on disparateness, rather than a tendency to ‘ontological-primemovers-totalitative-framework as to existence-potency sublimating–nascence,-disclosed-from-prospective-epistemic-digression enforced’ unifying coherence as in many a natural science domains-of-study, with the consequence that studies are often aloof to direct attendant ontological-contiguity educed–existentialising/contextualising/textualising-contiguity knowledge reifying exercise as of a tendency to technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-setups de-mentatively/structurally/paradigmatically stifle the possibility for conceptualisation as to existence-potency sublimating–nascence,-disclosed-from-prospective-epistemic-digression sublimating-validation/desublimating-invalidation implications, beyond their conventioning-referencing <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing> existentialising—enframing/imprintedness-(as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition).

Ultimately the bigger issue arises as of the poorly-singularised/poorly-immanented nature of many a social domain-of-study unlike the grand singularised/immanented totalising/circumscribing/delineating <amplituding/formative–epistemicity> reference-of-thought devolving foregrounding entailment ⟨postconverging–narrowing-down–sublimation-as-to–‘existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ’-in-reflecting–‘immanent-ontological-contiguity ’;—operative-notional–deprocrypticism⟩ that are actually actively sought in the natural sciences; and this author portends that the suprastructuralism/postmodernism as of notional–deprocrypticism ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology holds the promise for such effective grand singularised/immanented social conceptualisation.

Critically, lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of apriorising/axiomatising/referencing- {of attendant ontological contiguity—educed–existentialising/contextualising/textualising-

This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring-threshold — (uninstitutionalised-threshold — presublimating — desublimating — decisionality) — of ontological-performance — <including-virtue-as-ontology> to further advance its constructive/institutionalising/nascent — sublimating-decisionality nature thus overcoming underlying logocentrism as of prospective relative-ontological-completeness transcendentality-and-sUBLImity implications, and thus reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of the amplituding/formative-epistemicity-causality-as-to-projective-totalitative—implications-of-prospective-nonpresencing,—for-explicating-ontological-contiguity of apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity} — conflatedness — in {preconverging-disentailment-by} — postconverging-entailment. While in many ways the unblurred/sharply-delineated nature of the natural sciences renders such a ‘hermeneutic/reprojecting/supererogating/zeroing circle of levels of understanding’ more or less very transparent, with regards to the blurriness of the social such a postmodern-thought ‘hermeneutic/reprojecting/supererogating/zeroing circle of levels of understanding’ rather requires increasing familiarisation, habituation and contemplation with regards to such critical texts and analyses (and as is particularly necessary with regards to the ‘parrhesiastic nature of philosophy that is behind the engendering/parrhesiastic-aetheticisation of underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation and thereof derived domains-of-study reified-knowledge as from the underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’, and one’s intemporal solipsistic level of

Such weaknesses manifested by many a postmodern critic fundamentally points to an atomising/taking-to-pieces predisposition that poorly appreciates the <amplituding/formative-epistemicity> causality-as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity involved in knowledge-reification–gesturing-<in-prospective-psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }— conflatedness—in{preconverging-disentailment-by}–postconverging-entailment>, and is reflected in a lack of parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight that ‘poorly grasp the philosophical analysis implications of the existential background/development of becoming-as-<historiality/ontological-eventfulness>/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>, as if philosophy only started as of our present positivist era with a naivety that seems to imply that all-that-should-have-been,-that-is-and-that-will-be,-as-of-the-human-potential is as of a modern positivist <amplituding/formative> wooden-language ⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>⟩ in its given ’ reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation with no or poor insight of prior-and-prospective human becoming as of attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity in apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in{preconverging-disentailment-by}–postconverging-entailment’; and so when it generally comes to analysing philosophical texts requiring a sense of parrhesia and
hermeneutic/reprojecting/supererogating/zeroing insight. This lack is quite often reflected in such misconstrued analyses of traditional philosophical figures by a failure to understand the overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to identitive-constitutedness ‘as-‘epistemic-totality ‘as-to-the-disjointedness/desentailment-of-presencing—absolutising-identitive-constitutedness as-flawed-epistemicity-relativism-determinism ending up quite often claiming the incoherence of such figures and/or of their narrative accounts, and so in a ‘naive insight’ arising exactly because the possibility for understanding requires the critic’s own parrhesiastic insight and then hermeneutic/reprojecting/supererogating/zeroing conceptualisation to then develop the capacity to grasp first of all such traditional philosophical figures underlying knowledge-reification–gesturing<in-prospective-psychologismic–apriorising/axiomatising/referencing–\{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity\}—conflatedness—in\{preconverging-desentailment-by\}–postconverging-\text{entailment}\> process/gesturing and thus be able to understand how such knowledge-reification–gesturing<in-prospective-psychologismic–apriorising/axiomatising/referencing–\{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity\}—conflatedness—in\{preconverging-desentailment-by\}–postconverging-\text{entailment}\> process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of narrated accounts and notions but equally insight about the nuanced and covertly narrated accounts and notions, and all these while being informed by the immediate and broader underlying social background and implicated social and philosophical stakes of contention-and-confliction. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing analytical insight actually converges with the epochal philosophical implications of \text{attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity} in

that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic
retrieving’ but de-mentatively/structurally/paradigmatically conceptualise the extended
existential possibilities of falsifiability and validation in determining ontological-veracity as
of a critical exercise of <amplituding/formative-epistemicity>totalising-renewing-

such hermeneutic/reprojecting/supererogating/zeroing and parrhesiastic depth of analysis is
more profoundly driven beyond the specific accuracy of narrative accounts about traditional
philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic
possibilities of overall human social transformation reflected in the narrative accounts of such
traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is
rather more strongly based on the overall social implications and underlying narrative of its
novel universalising-idealisation that ‘runs-through/is-deflating’ by its evental -instigation
traditional philosophical figures and schools, and as pursued by their successors including the
stoics, cynics, etc. and as to its induced universalising-idealisation transformative
meaningfulness-and-teleology infrastructure impact with respect to societies of the
Mediterranean including the Roman empire and subsequent religio-political developments. In
another respect, it is often touted from a presencing—absolutising-identitive-constitutedness
orientation that Socratic-philosophers were institutionally ‘anti-democratic’, going particularly
by the Platonic emphasis on philosopher kings, by the naivety and mere token that the
prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning-{as-

regards to what was a more pressing question of good governance in Ancient Athens and in the
sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is
the modern democracy model whether of direct or indirect manifestations is rather more
critically informed by these criticisms of the Socratic-philosophers (and not intellectual
inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on
'informed expertising and expertising-institutions for the comprehensive process of our modern
democracy’ such that modern-day crises of democratic governance with regards to bad
governance, institutional crisis, economic crisis or undesirable wars are rather generally
construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need
of better expertising, and furthermore major political calamities of the 20th century leading to
totalitarian governments and their instigation of genocides arose exactly due to misinformed
populist democracy. Paradoxically, this insight validates the point advanced herein that human
meaningfulness-and-teleology is critically more than just its mechanical-knowledge

but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—

Likewise, the transformative nature of budding-positivism more than just as garnered from the precised narrative accounts about budding-positivist thinkers, lies more profoundly with its meaningfulness-and-teleology infrastructure impact on the developing enlightenment social developments and as this budding-positivism metaphoricity
ricochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-emodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification–gesturing—<in-prospective_psychologismic~apriorising/axiomatising/referencing-
for prospective human transcendence-and-sublimity/sublimation/superegoatory-de-mentativity’. In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social domain-of-study and even some of the natural sciences as of naïve science-ideology, and so because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-existence-implications there need to be ‘human intemporal contemplation that abstractly lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of meaningfulness-and-teleology\(^\text{100}\) infrastructure’, something which a ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ as of a wooden-language\(\langle\text{imbued—averaging-of-thought—}\langle\text{as-to-leveling/ressentiment/closed-construct-of—}\text{meaningfulness-and-teleology —as-of—nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications}\rangle\rangle\) is not postconvergingly–de-mentated/structured/paradigmed to do! But then the phenomenological question arising with respect to the fact that many a social domain-of-study ‘tend to assume a disparateness-of-conceptualisation—unforegrounding-disentailment—failing-to-reflect:\(\langle\text{immanent-ontological-contiguity }\rangle\) epistemic-disposition that is in many ways poorly constrained to existential-reality’, is how exactly does such lack of ‘cogent-unifying-operant-dynamics’ affect the realisation of the full knowledge-reification—gesturing—in-prospective_psychologismic—apriorising/axiomatising/referencing—of-attendant—ontological-contiguity —educed—existentialising/contextualising/textualising-contiguity } —conflatedness —in—{preconverging-disentailment—by}—postconverging—entailment> potentiality of domains-of-study as of their supposedly coherent ontological-commitment <implied—self—

For instance with regards to living-development–as-to-personality-development meaningfulness-and-teleology\textsuperscript{100}, human aestheticisation is reflected in childhood to adulthood social development wherein a child’s development as of its ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology\textsuperscript{100}’ involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension\textsuperscript{26} in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension\textsuperscript{26} as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development–as-to-personality-development human aestheticisation of meaningfulness-and-teleology\textsuperscript{100} (‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’) in apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity—educed–existentialising/contextualising/textualising-contiguity}—

This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ long before a child’s language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in reality the ‘teleological outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ of a rather ‘complex sense of meaningfulness-and-teleology aestheticisation’ induced from a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ driven ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ that starts long before a child’s ‘recognised’ acquisition of any such ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-

Insightfully, we can garner that it is ‘human
social-integration-and-evolving’. This is so because given the taxingness-of-originariness any such ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ has to resolve considerably unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance—including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation for such institutional-development—as-to-social-function-development meaningfulness-and-teleology underlying ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as amplituding/formative—epistemicity>totalising—renewing—realisation/re—perception/re—thought’ to be worth the epistemic-ricochetting/transepistemicity effort, with the preference for any such effort rather directed at the complexification of the prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. This will explain for instance why as of the furtherance in reflecting holographically—conjugatively-and-transfusively> the ontological-contiguity—institutionalisation-process, the ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology aestheticisation’ with regards to language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human meaningfulness-and-teleology aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—imbued-and-

The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific
interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology’/knowledge as of knowledge-reification–gesturing<in-prospective_psycho

Such a construal of relative truth doesn’t imply a lack of commitment in truth, but is utterly the contrary as of ‘a much more critical and ontologically decisive commitment to truth and growing truth’ as any pertinent critique can garner in Foucault’s truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth ‘expands the conception of truth beyond our presencing—absolutising-identitive-constitutedness’<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions as if all the world that has ever existed is as of presencing—absolutising-identitive-constitutedness’, and displaces/decenters the human subject as of its presencing—absolutising-identitive-constitutedness cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on wooden-language–(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–‘nondescript/ignorable–void’–with-regards-to-prospective-apriorising-implications>) populist interpretations rather than elevating human ontological construal of the social domain-of-study! Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining knowledge to attendant-ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity elucidation/reification rather than just mere formalisation as of conceptual patterning for its own sake. In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification of attendant ontological contiguity -educated existentialising contextualising textualising contiguity but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating/supererogatory de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity/sublimation/supererogatory de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than knowledge-reification—gesturing<in-prospective psychologismic apriorising axiomatising referencing {of attendant ontological contiguity -educated existentialising contextualising textualising contiguity } — conflatedness - in {preconverging disentailment by} postconverging entailment — amplituding formative epistemicity causality as-to-projective-totalitative-implications-of-prospective nonpresencing—for-explicating-ontological-contiguity . The entire project of human meaningfulness-and-teleology is nothing but one of creatively elucidating/reifying existence/existential-possibilities, ‘with no out of existence knowledge project’, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative knowledge-reification—gesturing-in-prospective-psychologismic~apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising textualising-contiguity }—conflatedness—in {preconverging-disentailment-by}—postconverging-entailment>, and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity. successive differences of ontological-performance—<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to-‘human-amplituding/formative—epistemicity—totalising—purview-of-construal’ with increasing prospective relative-ontological-completeness as of implied singularisation—<as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism has fundamental causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity, as transcendence-and-sublimity/sublimation/supererogatory—dementativity only arise as of human expansion of its reifying grasp of attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity. Consider in this regard that the repeated maximalising-recomposuring—for-relative-ontological-completeness—unenframed—conceptualisation articulation by this author on the theme of conceptual patterning here further complements as of further articulated reification of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification—gesturing—<in-prospective—psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological—contiguity—educed—existentialising/contextualising/textualising—contiguity}—conflatedness—in-[preconverging—disentailment—by]—postconverging—entailment> insight often goes missing with many a subscriber to the formalisation credo, as of reification along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars crossgenerationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual patterning conception of knowledge; going by their profound association with
earlier scholars and more specifically Heidegger and Nietzsche. From a creative knowledge-reification–gesturing–in-prospective_psychologism–apriorising/axiomatising/referencing–of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–conflatedness–in–preconverging-disentailment–by–postconverging–entailment–construal perspective, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originarily/as-of-event available to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative knowledge-reification–gesturing–in-prospective_psychologism–apriorising/axiomatising/referencing–of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–conflatedness–in–preconverging-disentailment–by–postconverging–entailment–amplituding/formative–epistemicity–causality–as-to-projective-totalitative–implications–of–prospective–nonpresencing.–for-explicating-ontological-contiguity of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,–as-to–‘human–amplituding/formative–epistemicity–totalising–purview–of–construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying-or-
veridical-epistemicity-relativism-determinism. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/aporia ‘left it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity to ‘continually select’ rational-empiricism/positivism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism—procrypticism human subject is rather undecentered’ relative to the prospective postmodern—notional—deprocrypticism self-conscious mindset we fail to truly appreciate the dementative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity to ‘continually select’ postmodern—notional—deprocrypticism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, in the same vain that the ‘non-positivism/medievalism undecentered human subject’ failed to truly appreciate the dementative/structural/paradigmatic disseminative implications of prospective
positivism/rational-empiricism thought. On the other hand, recurrent conceptual patternning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective–ontological-normalcy/postconvergence-implied-
‘prospective-aporeticism-overcoming/unovercoming’>. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their mere infrastructure and deferential-formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound knowledge-reification–gesturing<in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—

We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying dynamic theoretical-conceptual-operant interrelatedness speaking of singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. superstition, spiritualism, etc. This same conception holds with the notional–deprocrypticism
immanence-function-conflatedness overriding the meaningfulness-and-teleology of
procrypticism–or–disjointedness-as-of reference-of-thought mindset ‘supposedly in an
objectifying/contending discursivity’ with the notional–deprocrypticism mindset, as the latter
reflects the underlying positivism–procrypticism mental-disposition mindset with regards to
existential desublimation manifestations of disjointedness-as-of reference-of-thought. In both
instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring,
with immanence-function-conflatedness implying that all the meaningfulness-and-
teleology is necessarily as of the prospective relative-ontological-completeness over the
prior relative-ontological-incompleteness; respectively as of positivism and deprocrypticism.
If by anticipation we do know immanently that a non-positivism mindset is bound to a non-
positivistic-as-existentially-superstitious
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of de-
mentative/structural/paradigmatic internal-necessity/determinism insight from positivism
immanence-function-conflatedness with the obviousness there is no point implying an
ontologically-flawed objectifying/contending discursivity in assessing the non-positivism
existentially-superstitious inclination, the same implication will extend to
notional–deprocrypticism immanence-function-conflatedness as of de-
mentative/structural/paradigmatic internal-necessity/determinism insight with regards to
anticipating the disjointedness-as-of reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our
positivism–procrypticism mental-disposition with no pretence of such a positivism–
procrypticism ontologically-flawed objectifying/contending discursivity in assessing the disjointedness-as-of-reference-of-thought inclination. In other words, immanence-function-conflatedness \(^1\) is all about reflecting the straightforwardness of ontological-primemovers-totalitative-framework \(^2\) as of singularity-as-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive predisposition to make of its objectifying/contending discursivity as de-mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior relative-ontological-incompleteness \(^3\) of meaningfulness-and-teleology \(^4\) as if of prospective relative-ontological-completeness \(^5\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-function-conflatedness \(^6\) equally highlights knowledge as of its essential organic construct implications. As an apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity} \(^7\) constitutedness \(^8\) in–preconverging entailment predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly postconvergingly–de-mentated/structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the postconverging–de-mentating/structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God-of-plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what
validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity as of prospective relative-ontological-completeness of reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior relative-ontological-incompleteness reference-of-thought is an appropriate framework for prospectively implied reference-of-thought knowledge acquisition. Likewise, it is herein contended that similarly a notional–deprocrypticism contortion reifying gesture necessarily questioning our positivism–procrypticism disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of psychoanalytic-unshackling implications as of the ‘decentering of the human subject’ is the necessary organic knowledge for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-
temporal meaningfulness-and-teleology. The study of the social as of immanence-function-conflatedness insight grasp that the blurriness, and remoteness of cause-and-effect invoke a more refined conception of ontological-primemovers-totalitative-framework as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability-or-deferring-falsifiability and validation-or-deferring-validation. It is herein contended that it is the implicated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough knowledge-reification–gesturing and the implicit reification–gesturing–in-prospective_psychologismic–apriorising/axiomatising/referencing–of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity.

This insight equally informs the supplanting conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking apriorising-psychologism herein that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further knowledge-reification-gesturing-<in-prospective-psychologismic-apriorising/axiomatising/referencing-}{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}> conflatedness in [preconverging-disentailment by] postconverging entailment>, as well as of the disposition for advancing overall knowledge-notionalisation level reflecting the ontological-contiguity—of-the-human-institutionalisation-process as to transversality<for-sublimating-existential-eventuating/denouement>—of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’ in foregrounding entailment-[postconverging-narrowing-down-sublimation-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ’-in-reflecting-’immanent-ontological-contiguity ‘; as-operative-notional–deprocrypticism] of the ‘de-mentative/structural/paradigmatic disseminative implications of postmodern and other human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing-as-to-possibilities-of-self-becoming-as-of-’existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’ thought, that the ontological-pertinence assumes ontological-primemovers-totalitative-framework unassailability; and so, not for the mere sake of research-programme extensiveness but as of its internal constraining to falsifiability—or-deferred-falsifiability and validation-or-deferred-validation as of

In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-threshold, human existential-investment as of its temporality/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendentinal knowledge is articulated mostly as of its undermining of human
temporal existential-investment. The bigger point here being that the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity lies in upholding-and-defending authentic intellectualism even as of metaphoricity beyond \(<\text{amplituding/formative}}\) wooden-language-{imbued—averaging-of-thought\(<\text{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology}}\text{as-of—nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}\rangle\} socially intelligible meaningfulness-and-teleology\(^{(10)}\) conceptualisation in \(<\text{amplituding/formative–epistemicity}}\) totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(^1\). Metaphoricity\(^7\) as such ironises on social intellectual nihilism as it is bent on undermining any temporality /shortness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic intemporality /longness parrhesiastic askance, and as of immanence-function-conflatedness\(^1\) ‘highlights and keeps wide-opened the prospect’ for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated–temporal-intemporality\(^2\) manifestations that usurp and undermine human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation’\(^5\) reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrypticism social-setup to perceive our positivism–procrypticism humanistic knowledge system as absolute; it is immanence-function-conflatedness \(^1\) by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the
ontological-contiguity of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflatedness insight, the epistemic and methodological pretences as of our humanistic positivism–procrypticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic postconverging–dementating/structuring/paradigming as of their ultimate knowledge-reification–gesturing as of their ultimate knowledge-reification–gesturing as of their ultimate knowledge-reification–gesturing with such immanence-function-conflatedness as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative knowledge-reification–gesturing as of their ultimate knowledge-reification–gesturing as of their ultimate knowledge-reification–gesturing.

Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-sublimity/sublimation/supererogatory–de-mentativity wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-*human<amplituding/formative–epistemicity>totalising–purview-of-construal*’ but with contrastive underlying relative-ontological-incompleteness/*relative-ontological-completeness*

It is quite absurd to think that the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity especially, as of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound knowledge-reification–gesturing—in-prospective_psychologismic–apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity –eduued–existentialising/contextualising/textualising-contiguity }—conflatedness –in-{preconverging-disentailment_by}–postconverging-entailment> for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern-day science to develop and just as well modern-day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of the human subject’ as implied by deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought; and justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory–de-mentativity.
Immanence-function-confoundedness\(^2\) analytical implications equally arise as of the ‘countervailing transversality\(<\text{for-sublimating–existential-eventuating/denouement}>~\text{of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing}\)’ relation induced as of ontological-primemovers-totalitative-framework\(^1\) between ‘existence/existential-possibilities as the selecting transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity’ and ‘the ever developing human limited-mentation-capacity as of its deepening from relative uninstitutionalised-threshold\(^3\) to relative institutionalisation so-construed as prospective institutionalisation dissemination\(^4\)’, as this transversality\(<\text{for-sublimating–existential-eventuating/denouement}>~\text{of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing}\) is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness\(^5\) as relevant for the protracted-consciousness of notional-deprocrypticism. meaningfulness-and-teleology as of prospective notional–deprocrypticism
meaningfulness-and-teleology is the need for a notional–deprocrypticism reconceptualised
conception of the human construction-of-the-Self. In this regard, we can appreciate critically
that hitherto and as of a natural human predisposition to amplituding/formative–
epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag,
the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a
human-subpotency flawed absolutising epistemic reference, and so over an existence-
potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression absolutising
epistemic reference, specifically as so-construed from our positivism–procrypticism registry-
worldview/dimension flawed absolutising epistemic reference. The fact that existence/intrinsic-
reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the
ontological orientation of traditional psychology/psychoanalysis; wherein ‘the human
psychology of absolutising epistemic reference is wrongly conceived as of ontological-
normalcy/postconvergence rather than as of epistemic-abnormalcy/preconvergence’.
considering the necessarily decontorting human-subpotency psyche on the constraint of our ontologically-compromised reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of our \textit{amplituding/formative–epistemicity} totalising–thrownness-in-existence\textsuperscript{14}. The implication here is that we cannot have a human-subpotency flawed absolutising epistemic reference that as of human-subpotency can surpass the ontological-veracity of the full-potency of existence/intrinsic-reality/ontological-veridicality as absolutising epistemic reference as of ontological-normalcy/postconvergence, and so given human-subpotency prior relative-ontological-incompleteness\textsuperscript{19} implied flawed prospective ontological-performance\textsuperscript{27}-<including-virtue-as-ontology>. Such a human-subpotency flawed absolutising epistemic reference for meaningfulness-and-teleology\textsuperscript{10} can be construed as of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’; as of ‘human-subpotency temporality’/shortness flawed absolutising epistemic reference’ as it induces flawed ontological-performance\textsuperscript{27}-<including-virtue-as-ontology> as by its \textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ‘wrongly seem to advantageously substitute’ for the potent as intemporal absolutising epistemic reference ontological-performance\textsuperscript{27}-<including-virtue-as-ontology> of existence-potency\textsuperscript{38}–sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality. It is this construction-of-the-Self human-subpotency deficiency element construed as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self’/ontological-fracturing/desublimation/gimmickiness complex’ that raises-the-charge-that-and-reflects-the-notion-that the mental-disposition of recurrent-utter-uninstitutionalisation is de-mentatively/structurally/paradigmatically bound to fail the ontological-performance\textsuperscript{27}-<including-virtue-as-ontology> of base-institutionalisation mental-disposition, that of base-institutionalisation–ununiversalisation will likewise fail as of \textsuperscript{10}universalisation mental-

This expansion of the traditional notion of akrasia, as akrasia-susceptibility-or-akrasiatic-drag complex is rather as of the perspective of existence-potency\textsuperscript{3}\textsuperscript{3}~sublimating-nascence-disclosed-from-prospective-epistemic-digression as to ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism

It is herein contended that such a traditional psychology approach to construction-of-the-Self is constituted as of identitive-constitutedness\textsuperscript{13} as ‘epistemic-totality’ dereification-in-dissingularisation\textless as-to-the-disjointedness/disentailment-of-presencing-absolutising-identitive-constitutedness > as flawed-epistemicity-relativism-determinism. Thus the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self’/ontological-fracturing/desublimation/gimmickiness complex’ refers to the mental dispositional state of dementative/structural/paradigmatic rationalised-closedness-of-ontological-performance\textsuperscript{72} 7\textless including-virtue-as-ontology\textgreater of the self ‘as bound to define-and-shape any given registry-

function-development and living-development–as-to-personality-development. Thus fundamentally the causality-as-to-projective-totalitative–implications-of-prospective-nonpresencing, for explicating ontological-contiguity and orientations underlying construction-of-the-Self as of a notional–deprocrypticism conception is rather transformative, in reflecting its protensive-consciousness insight of varied human constructions-of-the-self underlying the institutional-cumulation/institutional-recomposure-(as-to-histioriality/ontological-eventfulness/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–'epistemicity-relativism-determinism'>) with <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions human-subpotency/reference-of-thought induced recurrently from the instigate causality-as-to-projective-totalitative–implications-of-prospective-nonpresencing, for explicating ontological-contiguity of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-
so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of
‘human-subpotency in its…’ totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-primemovers-totalitative-framework. Thus intemporal ontological-performance ever always warrants huma prospective relative-ontological-completeness of reference-of-thought for empowering and responsible meaningfulness-and-teleology for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance’ equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascent-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human...
prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory/de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>}? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance—<including-virtue-as-ontology> as of human <amplituding/formative—epistemicity> totalising—thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. It is this insight that validates the ontological-veracity of the conception of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self’/ontological-fracturing/desublimation/gimmickiness complex’, and it is inherently sovalidated as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning instigated ontological-contiguity—as-of-the-human-institutionalisation-process—as of difference-confoundedness—as-to-totalitative-reification-in-singularisation—<as-to-the-nondisjointedness/entailment-of-

This explains why Socrates construed knowledge as virtue, given that what approaches absolutising capacity in the human is rather the ‘sense-of-right-orientation with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of existentially-becoming-and-developing phronetic/practicality situations as to existence-potency\(^{13}\)—sublimating–nascence,–disclosed-from-prospective-epistemic-digression (with anamnesis so-construed as ‘dimensionality-of-sublimating’).

This in many ways explains many a critic misinterpretation of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on the one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the basis of the specific universalising-idealisation phronetic/practicality situations as to its defining existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression). The fact is that Socrates (and as momentously reflected in his abhorrence of writing as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing by writing that is not necessarily pedagogically instructive’, and thus not contradictory with Plato’s writing as of recording-for-posterity) and Plato were more engaged with establishing overall philosophical insight beyond just their universalising-idealisation renewed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation over non-universalising sophistry (even as their association of anamnesis with mythical recollection was caught up in the universalising-idealisation apriorising/axiomatising/referencing–psychologism but by the practical demonstration is relevant in all registry-worldviews/dimensions as of the example articulated as well herein by this author with regards to a child’s solipsistic sense of meaning wherein after grasping the rules of additionality even a deliberately collective social misleading will not derail the child’s true sense of meaning) as they factored that any such renewal is being undertaken phronetically/practically with human limited-mentation-capacity that is not of absolutising conceptualisation, speaking prospectively of destructuring-threshold–(uninstitutionalised-threshold /presublimating–desublimating–decisionality)–of-ontological-performance</including-virtue-as-ontology>, and thus what is

of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry,
as the latter instance will fundamentally undermine and ridicule the underlying intellectual a
priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein
contended that in many ways such ontological virginity with regards to intellectual practice
today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-
referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional~firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence’–existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of <amplituding/formative> wooden-language{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of–‘nondescript/ignorable–void ’–with-regards-to-prospective-apriorising-implications>} dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation taking herein as of a strictly ontological-veracity inclination as to the reality of the fact that existence-potency ‘~sublimating–nascence,—disclosed-from-prospective-epistemic-digression supersedes human-subpotency, and it is the latter that adjusts to the former. The implication here is that all projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation percolation-channelling<-\textit{indeferential-formalisation-transference}>, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing of such idealisations with regards to their more profound transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications. In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuation-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance\textsuperscript{72}<-\textit{including-virtue-as-ontology}> is inherent, the underlying de-mentative/structural/paradigmatic
reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance<sup>72</sup>-<including-virtue-as-ontology> in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of percolation-channelling<-in-deferential-formalisation-transference> doesn’t substitute for the <amplituding/formative>totalising-renewing-realisation/re-perception/re-thought as of the underlying dimensionality-of-sublimating (⟨amplituding/formative⟩supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ individuation disposition that of reasoning-through/messianic-reasoning brought about secondnatured institutionalisation. Even though in the short-term/immediacy perspective the specific metaphoricity of say a scientific and liberal worldview narrative as implied with the industrial revolution may

Such an overall prospective institutionalisation metaphoricity\textsuperscript{57} constraining is very much unlike what we may naively imagine the prior human meaningfulness-and-teleology\textsuperscript{100} to be from an after the fact analysis; since such a process is much more critically more than just ‘mere transmission/spreading of scientific and liberal meaningfulness-and-teleology\textsuperscript{100} for say a suprasocial or <amplituding/formative> wooden-language-{(imbued—averaging-of-thought-\textless{}as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology -as-of-

Just as we can appreciate that in ‘the very same physics ⟩<amplituding/formative—epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness ’-of-axiomatic-construct-or-’ reference-of-thought, the epistemic-veracity as implied in succession from Corpenicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21st century physics is mostly as of ricochetting prospective nonpresencing-<perspective–ontological-normalcy/postconvergence>. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its dementative/structural/paradigmatic meaningfulness-and-teleology as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has
equally thresholded/attained-its-limits, with the possibility for prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework validation-and-falsifiability. Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity/sublimation/superrerogatory-de-mentativity as of prospective meaningfulness-and-teleology as knowledge on a vague notion of any presencing—absolutising-identitive-constitutedness epistemic-veracity that at the very least doesn’t rise to projectively contemplate and appraise of such prospective meaningfulness-and-teleology as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability. Thus metaphoricity as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-teleology as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology as say the commonality of such metaphoricity inclined re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-\(\text{(imbued-postconverging/dialectical-thinking-'projective-insights'/epistemic-projection-in-conflatedness--)\endgroup\text{—of-notional-deprocrypticism-prospective-sublimation)}\) thinkers sharing a common emancipatory metaphoricity mathesis/motif-thrownness-disposition like Socrates, Plato, Aristotle and their schools with their universalisation projection or the Descartes, Galileos, Copernicuses, Newton, etc. with budding-positivism/rational-empiricism. But rather beyond such shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology that is instigative, metaphoricity is critically about the prospective ricochetting postconverging–de-mentating/structuring/paradigming implications for
inducing such prospective \(^5\) meaningfulness-and-teleology\(^{100}\) implications on the fabric of the social as an epistemic-totality\(^7\) framework (beyond-the-consciousness-awareness-teleology\(^{100}.\) <in-preconverging-existential-extrication-as-of-existential-unthought>\), as the supposedly coherent ontological-commitment\(^{1}\) <implied—self-assuredness-of-ontological-good-faith/authenticity \(^{9}\) postconverging–de-mentating/structuring/paradigming \(^{7}\) as-being-as-of-existential-reality> of 'self-assuredness-of-ontological-good-faith/authenticity \(^{9}\) postconverging–de-mentating/structuring/paradigming \(^{7}\) as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ of the social-setup exposes it to such an epistemic-ricochetting/transepistemicity metaphoricity\(^7\). This is so because in the long run transversality\(<\)for-sublimating–existential-eventuating/denouement>\(\right\)of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ \(\right\)of temporal-to-intemporal–ontological-performance\(^7\)–<including-virtue-as-ontology>\(\right\)of-narratives is rather as of ontological-primemovers-totalitative-framework\(^7\) selecting/skewing-towards intemporality\(7\) /ontological-veracity as to existence-potency\(^7\) sublimating–nascence,-disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its conventioning-referencing and its \(^{9}\) presencing—absolutising-identitive-constitutedness\(^1\) Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\), when it comes to assessing the possibility of prospective \(^5\) meaningfulness-and-teleology\(^{100}\) inducing of metaphoricity\(^7\). It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\) like the cultivation of science over its conventioning-
referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology including our modern period, is a flawed appraisal; as in many ways, beyond our <amplituding-formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold as of the privileging of conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional~deprocrypticism metaphoricity in our positivism–procrypticism; as its brings to the self-consciousness the reality that the implication of such a notional-deprocrypticism articulation is bordering on the limits/thresholds of our institutional capacity for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of a privileging of conventioning-referencing disposition to adopt and assume intellectual nihilism at such an uninstitutionalised-threshold; it is herein contended that the reality is similar to that which scuppered Arabic medieval science or scuppered medieval China progressiveness.

It is important to grasp that since every registry-worldview/dimension social-construct is involved in a constructive (as of its institutionalising disposition) and destructuring (as of its disposition at its uninstitutionalised-threshold) relationship with ontological-veracity, this is exactly what inevitably validates the articulation of ontological-veracity/ontological-veridicality as more completely involving the displacement/decentering-of-the-human-subject priorly as implied with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative in reflecting the need to undermine human destructuring-threshold.

nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity meaningfulness-and-teleology whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold (uninstitutionalised-threshold )~of-ontological-performance as of ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms–as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness deprocrypticism; explaining in many ways the difficulty for
Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding-positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,in-overcoming-'notionally-collateralising-beholdening-protohumanity'-to-'attain-sublimating-humanity'-as-to-existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression to supersede human temporality/shortness wooden-language (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology as-of-'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications)); which will explain in many ways the difficulty of the Copernicuses, Galileos, Descartes’, Diderots, etc. so effectively enculturate their budding-positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction
notion as of prospective relative-ontological-completeness\textsuperscript{83} notional–deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporal\textsuperscript{}/longness and temporality\textsuperscript{/}shortness as to human limited-mentation-capacity relative ontological-performance\textsuperscript{72}–<including-virtue-as-ontology>. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness\textsuperscript{83} notional–deprocrypticism that we can appreciate more profoundly the\textsuperscript{105} universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive\textsuperscript{105} universal ontological profundity for analysing everything as of prospective relative-ontological-completeness\textsuperscript{83} notional–deprocrypticism herein construed as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation–<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> ; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the
metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is universally emancipatory as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\[\text{uninstitutionalised-threshold} /\text{presublimating–desublimating-decisionality}\]~of-ontological-performance~\[\text{including-virtue-as-ontology}\] nature inherently points out why human transcendence-and-sublimity/sublimation/superrorogatory-de-mentativity as of intemporal metaphoricity epistemic pertinence doesn’t lie with any inherent suprasocial frame-work or inherent \[\text{wooden-language}\text{(imbued—averaging-of-thought—}\text{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology}\text{—as-of—’nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications})\] framework. The fact is that the inherent human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions~<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor renders such

This is the overall notion explaining human akrasia-susceptibility-or-akrasiatic-drag complex, and so as of human limited-mentation-capacity notional implications. Thereafter, understanding of this human ‘ontologically-flawed antiakrasiatic disposition’ is all about conceptualising the effective operant ontologically-constraining conditions as of human existential-instantiations given our limited-mentation-capacity implied as of temporality/shortness and intemporality/longness implications, and so construed epistemically as ontological-normalcy/postconvergence analysis. The failing cogency and individual wariness of the social as of the lack of a comprehensive expectation of ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’ arises because of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity as of its implied destructuring-threshold /presublimating–desublimating-decisionality/of-ontological-performance

Insightfully, it can be appreciated that the ontological-contiguity\textsuperscript{7}—of-the-human-institutionalisation-process\textsuperscript{15} is one long process involving the undermining of destructuring-transitoriness\textsuperscript{18}–as-of-deratiocination/deratiocontiguity at uninstitutionalised-threshold\textsuperscript{14} with relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance\textsuperscript{72} \textit{<including-virtue-as-ontology>’ as of ontologically-hegemonising-narrative\textsuperscript{1} implied as of prospective ‘\textit{<amplituding/formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-referentialism constructiveness disposition in singularisation\textsubscript{<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing-> projected epistemic-immanence/veridical-epistemicity-relativism-determinism’}. In this regard, we can appreciate anthropologically as of human limited-mentation-capacity-deepening \textsuperscript{1} implications the destructuring-transitoriness\textsuperscript{1}–as-of-deratiocination/deratiocontiguity that upheld superstitious beliefs in non-positivism social constructs but as of positivism/rational-empiricism ontologically-hegemonising-narrative\textsuperscript{1} implied with social enlightenment and the sciences rendered many purviews of existence as of relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance\textsuperscript{72} \textit{<including-virtue-as-ontology>’}. We can similarly project of the same with respect to our positivism–procrypticism disjointedness-as-of-
epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-
apriorising/re-axiomatising/re-referencing–conceptualisation⟩ of the social-construct as from
the elucidation/reification as ‘destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance
⟨including-virtue-as-ontology⟩ analysis’ is rather notionally/epistemically reflective of the
social-construct constructiveness-of-ontological-performance⟨including-virtue-as-ontology⟩,
as such an antiakrasiatic analysis of uninstitutionalised-threshold notionally/epistemically
reflects the ontological-contiguity—of-the-human-institutionalisation-process; and so,
similarly as the analysis of prospective possibilities of disease and illness is not about being
pessimistic about the biology of human beings but is notionally/epistemically reflective of the
possibility for the further development and provision of medicine and healthcare, and just as the
projective analysis of lack of science and technology capacity is not about being pessimistic
about human technical development but is notionally/epistemically reflective of the possibility
for the further invention of technologies and scientific discoveries. We can appreciate here that
the very same epistemic/notional conceptualisation with respect to the human subject as with
natural subject-matters elicits in the former high emotional involvement whereas the latter as of
its direct causality~as-to-projective-totalitative-implications-of-prospective- nonpresencing-for-explicating-ontological-contiguity elicits
low emotional-involvement, but for the case where with regards to high and conflicting human
social-stake-contention-or-confliction even the natural domain is not immuned from high
emotional-involvement as with the climate change issue for instance. The point being made
here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that
human progress happens anyway, but then such naïve criticism only recounts the fact of human
progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity
implications for prospective human progress’ it fails to account for how human progress occurs
in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-\{uninstitutionalised-threshold /presublimating–desublimating-decisionality\}-of-ontological-performance\textsuperscript{72}-\<including-virtue-as-ontology> and as reflected at uninstitutionalised-threshold\textsuperscript{103}. As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance\textsuperscript{72}-\<including-virtue-as-ontology> destructuring-threshold-\{uninstitutionalised-threshold /presublimating–desublimating-decisionality\}-of-ontological-performance\textsuperscript{72}-\<including-virtue-as-ontology> and uninstitutionalised-threshold \textsuperscript{116}, and it is this difficult task of crossgenerational mobilisation that enables the prospective constructiveness-of-ontological-performance\textsuperscript{72}-\<including-virtue-as-ontology> for human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology , institutional-development–as-to-social-function-development and living-development–as-to-personality-development. The implicated passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold\textsuperscript{9}\{uninstitutionalised-threshold /presublimating–desublimating-decisionality\}-of-ontological-performance\textsuperscript{72}-\<including-virtue-as-ontology> need to be integrated into the very core of such secondnated formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity\textsuperscript{97}—of-the-human-

We can appreciate in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy apriorising-teleological-elevation-in-ontological-contiguity beyond recurrent-utter-uninstitutionalisation social-stake-contention-or-confliction as of its <amplituding/formative—

It all arises from the ‘human capacity for decomplexified/uninhibited preconverging-or-dementing\(\)→apriorising-psychologism’ in order to then ‘prospectively induce originarily/as-of-event\(\) prospective postconverging-or-dialectical-thinking\(\)→apriorising-psychologism’. In this regards, we can factor in for instance that more critically rather than construing the prospective reification of the humanities and philosophy for instance in terms of breakthroughs along the lines of say exceptional methods or capacity along the lines of our ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’, the reality of any such transcendence-and-sublimity/sublimation/supererogatory→de-mentativity will rather be ‘a more candid face-up with our \(\) procrypticism–or–disjointedness-as-of–reference-of-thought\(\) as herein implied by this author as of the notion of ‘beyond-the-consciousness-awareness-teleology\(\)→<in-preconverging–existential-extrication-as-of–existential-unthought> institutional-being-and-craft, muddlement and other intellectual complexes/inhibitions’ that de-mentatively/structurally/paradigmatically as of a destructuring-threshold→{uninstitutionalised-threshold /presublimating–desublimating-decisionality}→of-ontological-performance\(\)→
<including-virtue-as-ontology> cloud/undermine the potential for further intellectual emancipation, and so similar to the breakthrough that brought about budding-positivism/rational-empiricism as of say the reasoning-through/messianic-reasoning Galilean gesturing postconverging–de-mentating/structuring/paradigming based on the fact that looking in the telescope we can appreciate how the planets moved around the sun and as this budding-positivism/rational-empiricism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation was relayed by other budding-positivists, and so over the deconstructing-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}—of-ontological-performance—<including-virtue-as-ontology> of traditional medieval no-trouble disposition to perceive and take comfort in traditional medieval-scholasticism reasoning-from-results/afterthought pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing, as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness} as if critical reification will arise by that pathway. In other words, the possibility of all huma prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation disposition but rather more concretely only after human decomplexing/uninhibiting de-mentative/structural/paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression level for human emancipation as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation; and this is effectively reflected in all cases of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Whether of
low or high emotional-involvement, it is inevitably the case that the de-mentative/structural/paradigmatic possibility for prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity ever always and has ever always involved or been-grounded-on-prior ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ inducing the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring; as we can appreciate for instance that without the secondnatured institutionalisation arising as from the Galilean gesturing reasoning-through/messianic-reasoning highlighted above, there wouldn’t have been the human psychology reflected in the displacement/decentering-of-the-human-subject as of the resultant reasoning-from-results/afterthought later on in the 20th century to acquiesce to such breakthroughs like theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs with barely any social contestation. Thus psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, as of human de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics—implied prospective postconverging-or-dialectical-thinking—apriorising-psychologism and prior preconverging-ordementing—apriorising-psychologism, is merely a reflection of the fact that human meaningfulness-and-teleology is ever always as of the very same overall purview that is existence but then as of various state of human relative-ontological-incompleteness/relative-ontological-completeness—sublimating-referencing/registering/decisioning,—as-self-becoming/self-conflatedness/formative—supererogating—projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—

The inevitability of a projection for the 'universalising-idealisation coherence of contemplation' as of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension associated with the Socratic/Platonic/Aristotelian individual emancipation as of universalising-idealisation was effectively in reaction to the sophists—ideal-type-or-individuation eliciting-of-immediacy-as-of-relative-ontological-

In all these instances, the sophists as of its preconverging-existential-extrication-as-of-existential-unthought with respect to social-stake-contention-or-confliction are ever always inclined to eliciting-of-immediacy-as-of-relative-ontological-incompleteness\(^8\)-dereification for \(<\text{amplituding-formative}>\) wooden-language-{imbued—

Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity\(^7\)—of-the-human-institutionalisation-process\(^8\) as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\(<\text{amplituding-formative}>\) meaningfulness-and-teleology\(^7\)’, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the
present one as of an overall human tale, as the threat of rationalising the implications of such a
human existential tale perpetuation may jeopardise their present social-stake-contention-or-

reasoning-through/messianic-reasoning which organic-contemplation spans registry-
worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each

The seconndnatured institutionalisation constructs as of sovereign institutions and establishment frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification—gesturing—in-prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness—in—{preconverging—disentailment—by}—postconverging—entailment> role and as beyond-the-consciousness-awareness—teleology<in-preconverging—existential—extrication—as-of-existential—unthought> surreptitiously defining what can be thought or not thought. The fact is such implied underpinning—suprasocial-constructs are mainly seconndnatured whether as sovereign representation or establishment constructs, and can easily be caught up in their own <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag in prior relative-ontological—incompleteness with respect to social-stake-contention-or-confliction and are thus not the absolutising framework of human meaningfulness—teleology, as the social knowledge—reification—gesturing—<in-prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity}—

We can appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning—suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning—suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—‘meaningfulness-and-teleology’ induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-

The fact is, it is this possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists putting into question their conventioning-referencing meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing
like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding-positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, that in many ways just as the manifestation of postlogism-slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} and underpinning–suprasocial-construct meaningfulness-and-teleology integration of their given non-positivism and superstition, in...

meaningfulness-and-teleology infrastructure transform human potentiation construed as ‘human-subpotency
convergence to existence’ with regards respectively to the specific base-institutionalisation or rational-empiricism/positivism self-consciousness/construction-of-the-Self implied as of the specific Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of–meaningfulness-and-teleology. This self-consciousness/construction-of-the-Self notion is what deflates such ‘issues implied with regards to human sovereign options/choice or freewill’ and ‘issues of natural determinism beyond human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-
Self as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of–meaningfulness-and-teleology implies ‘induced human
potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this
regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (as the relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance–<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism–imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-

Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity>totalising–thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory–de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance<including-virtue-as-ontology> as of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. Further, in the specific instances it is important to recognise that natural

ontological resolution of the non-positivistic registry-worldview’s/dimension’s reference-of-

‘futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-

Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and living’ in the non-positivistic social-setup as ‘grandest living’ but rather the maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective. There is nothing inherently wrong with achievement motives across all registry-worldviews/dimensions conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. However, with regards to a prior registry-worldview’s/dimension’s wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology—as-of—'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> denaturing of meaningfulness-and-teleology so construed prospectively, whether as of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or
procrypticism, such motives are necessarily superseded-and-overridden or subsumed-as-supplanted or transvaluated in the bigger picture of human eternalising aspiration as of the intemporal/longness-of-register-of-meaningfulness-and-teleology\(^{10}\) individuation mental-disposition of ‘inventing’ the successive becoming possibilities in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—as-of-the-human-institutionalisation-process\(^{68}\) as inducing successively base-institutionalisation, universalisation, rational-empiricism/positivism and prospectively deprocrypticism; as going by ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ across retrospective and by implication prospective registry-worldviews/dimensions. so-construed prospectively are rather more pertinent) in order to ‘invent’ prospective deprocrypticism, rather reflecting intellectual absurdity; and speaking rather besides a natural weakness of human incapacity that can arise and do arise as a result of our limited-mentation-capacity rendering us unconscious/unaware/as-of-the-poorer-halves-of-ourselves which is fathomable/understandable, of a graver problem if that was to be the case even when we then ‘understand’, of intellectual-and-moral irresponsibility of failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to do our own ‘homework’ with respect to our forerunners in the bigger notion of the human species continuous emancipation. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposuring) as from recurrent-utter-uninstitutionalisation to modern-day positivism–procrystalism and prospectively deprocrypticism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory preconverging–de-mentating/structuring/paradigming relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the wooden-language–{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology} as deterministic thus subknowledging/mimicking the non-veridical
hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the
uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-
dementing—apriorising-psychologism), but rather appreciative of the intemporal mental-
disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-
of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality) behind
the mental projection associated with and contributing to such institutional-being-and-craft
‘inventing’. But then transcendental constructs of meaningfulness going beyond the
‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually
perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define
registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo,
Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is
an afterthought social recognition by the prospective registry-worldview’s/dimension’s
reference-of-thought institutionalisation, not the social recognition of their own registry-
worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as
transcendental meaningfulness-and-teleology involves psychical and institutional
recomposuring of high contrariety implications to human temporality/shortness as putting into
question the present as prior/old, but then the vocation of all transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity as all knowledge is not about being
responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of
social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-
veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity of an
intersolipsistic nature. It is equally important to grasp that transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity is the more profound origination of
reference-of-thought that enables knowledge conceptualisations, and that the praxis of
knowledge may naively be construed as non-transcendental. So all knowledge is actually
transcendental and this is not to be confused with its distance/remoteness as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively notional-deprocrypticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/subliming/supererogatory—dementativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory—dementativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior reference-of-thought—categorical-imperatives/axioms/registry-teleology with the prospective one for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation unamplituding/formative—epistemicity totalising—renewing—realisation/re-perception/re-thought, in contrast to a naïve incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux,
etc. who and others, then were transcendental as of apriorising/axiomatising/referencing-of-attendant-ontological-contiguity—reduced—existentialising/contextualising/textualising-contiguity—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived—social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived—social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding—as-of-apriorising/axiomatising/referencing to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as ‘reapraisals of references-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument—for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory—de-mentativity of reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the reference-of-thought for knowledge; implying that a mental-disposition
doesn’t naturally factor in its very own relative-ontological-incompleteness of reference-of-thought. Hence it is rather ontological-completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of retrospective registry-worldviews/dimensions reference-of-thought but equally with the implication of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity for prospective registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-normalcy/postconvergernce. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation＞ within the positivism–procripticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency – (transparency-of-totalising-entailing,-as-to-entailing,<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) hence speaking of the positivism–procripticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation＞ while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-
the-consciousness-awareness-teleology\(^{10}\) <-in preconverging existential-extrication-as-of-existential-unthought>\(^{6}\). This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-worldview’s/dimension’s uninstitutionalised-threshold\(^{10}\) defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-or-confliction at that uninstitutionalised-threshold\(^{10}\) especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism-procrypticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/\(^{1}\) universal/transcendental/\(^{5}\) maximalising-recomposuring-for-relative-ontological-completeness\(^{8}\) —unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, uninstitutionalised-threshold\(^{10}\) mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory preconverging–de-mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold\(^{10}\) human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity ontological-primemovers-totalitative-framework\(^{73}\) induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemporality\(^{5}\)–asymmetric-subsumption-of-temporality\(^{9}\). This dichotomy of contradictory
narratives explains why it is the bigger framework of prospective relative-ontological-completeness \(^5\) reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in notional–deprocrypticism apriorising/axiomatising/referencing\{of-attendant-ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity \}_conflatedness _in_\{preconverging-disentailment by\}_postconverging-entailment and so over procrypticism disjointedness-as-of reference-of-thought denaturing \(^1\) and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing \(^{15}\). Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold \(^{13}\) mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold \(^{13}\) dichotomy more transparently with regards to say non-positivism/medievalism postlogism \(^7\) manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness \(^{-8}\) reference-of-thought issue wherein the incidental denaturing \(^{1\_\_}\) of such manifestations reflected a social denaturing \(^7\) of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity \}
The defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as perversion-of-refence-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) comparison can equally be used to illustrate how slanting is different from lying. Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold—as-Being-or-ontological-or-
the projected false apriorising–registry’s implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology, and consequently to articulate a manifestation of mental-slantedness/decandoring/distractive-alignment-to-reference-of-thought/<of-apriorising/axiomatising/referencing>/threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’—prospectively-disontologising–preconverging/dementing –apriorising-psychologism>/distractive-temporal-priorisation (and not soundness-or-ontological-good-faith/authenticity–of-reference-of-thought/candoring/prelogism /organic-comprehension-thinking) of the mind’s mental perversion/defect; and so, as an utter and mentally dialectically-or-contendingly-out-of-phase —as-the-temporal-mind-pedestals-are-dialectically-out-of-phase/dialectically-primitive—from ‘an ordered construct from the intemporal as ontological mindset’. Since the state of exhibiting a demonstrated perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation annuls temporal-dispositions’ implied logical-dueness/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology as ‘logically contending’; from a pure ontological-veridicality perspective, more like a medieval mind with a superstitious registry-worldview—reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation doesn’t have the implied-profile-or-implied-stature and the implied-presumptuousness-or-implied-arrogation to logically contend about the ontological veridicality of an accusation of witchcraft with a relatively suprastructuring positivistic mental-disposition). This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-
mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal prelogism’-as-of-conviction,-in-profound-supererogation’ <-existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’ -logical-dueness-precedes-disontologising-logical-outcome-arrived-at’ mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ <-as-to–’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism’ with respect to meaningfulness). Paradoxically, this is the fundamental strength of psychopathy, i.e. to get the normal prelogism’-as-of-conviction,-in-profound-supererogation’ <-existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’ -logical-dueness-precedes-disontologising-logical-outcome-arrived-at’ mind to wrongly elevate psychopathic ‘meaningfulness-and-teleology’ as of veridical ‘attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity’ rather than reflect the reality of its ‘formulaic ‘meaningfulness-and-teleology’ which is ‘meaning-by-the-merely-illogical-possibility-of-it-being-formulaically-narrated’. So when we talk about psychopathy we are talking about ‘perversion-of’-reference-of-thought’<-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ rather than logical defect (defect of logical operation/processing/contention).

This distinction is critical. Why? Basically, meaning is what defines/predicates value, thought and action. Meaning has two elementary aspects: ‘reference-of-thought or axioms or categorical-imperatives (reflected-as-soundness-or-ontological-good-faith/authenticity’-of-‘reference-of-thought, by the prospective relative-ontological-completeness’-of-‘reference-of-thought and logic (logical-operation/processing/contention/implicitation-of-act-execution,
and so, ‘fundamentally and validatorily’ on the basis of sound \(^8\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the very first instance). Meaningfulness is thus essentially about the ‘operation of \(^8\) reference-of-thought as-of-its-veracity/ontological-pertinence as-soundness-or-ontological-good-faith/authenticity\(\)^{69}–of–\(^8\) reference-of-thought’, with logic/logical-processing basically about the operation of \(^8\) reference-of-thought as rules as of intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology validated as of established ontological-veridicality/intrinsic-reality/existential-reality. Otherwise stated, meaning has \(^8\) reference-of-thought’ reflecting its being/ontological/existential veridicality, and logic as an operation of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity based on the meaning’s implied \(^8\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\) valid only inasmuch as the reference to the ‘registry elements’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\(^{100}\) is ‘existentially’ established. *Critical for ontological-veridicality of meaningfulness and knowledge, the relatively ontologically-complete–reference-of-thought defines what is meaningfulness as of its ‘soundness-or-ontological-good-faith/authenticity\(\)^{69}–of–\(^8\) reference-of-thought’ construed as ‘postconverging-or-dialectical-thinking\(^{20}\)–apriorising-psychologism and centered understanding’ over the relatively ontologically-incomplete–reference-of-thought as of its ‘unsoundness-or-ontological-bad-faith/inauthenticity\(\)^{64}–of–\(^8\) reference-of-thought’ construed as ‘preconverging-or-dementing\(^{19}\)–apriorising-psychologism and decentered understanding’. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising–reference-of-thought-elements/apriorising–registry-elements, and thus falsely implying the apriorising–
reference-of-thought-elements/apriorising–registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity-of-reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity-of-reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought-{reflected-as-soundness-or-ontological-good-faith/authenticity-of-reference-of-thought}. But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied-reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology is rather obvious and we don’t normally process/operate logically the childhood psychopathy’s non-veridical hollow mimicking narratives since ‘we just invalidate those apriorising–registry-elements to start with as not of being/ontological/existential veridicality’. For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of meaning’ (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘attendant ontological-contiguity-educed—existentialising/contextualising/textualising-contiguity sense/projection of meaning’ doesn’t
even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness’ as of its unsound- reference-of-thought/unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought/mental-perversion) as he simply engages his unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought by way of distractive-alignment-to-<of-apriorising/axiomatising/referencing> and then reflect the reference-of-thought or registry-teleology of John as perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > or mental-perversion in terms—as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology. In so doing determines that John is ‘manifesting a mental defect’ and more so, not an ad-hoc defect—of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance, but rather registry-worldview’s/dimension’s-uninstitutionalised-threshold defect—as-Being-or-ontological-or-existential–defect that speaks to how John may act in many other similar situations, i.e. epistemic-decadence (notional-discontiguity/epistemic-discontiguity —<shallow-supererogation —of-mentally-aestheticised—preconverging/dementing —qualia-schema>—as-of-epistemic-decadence in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking—<iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’> ) by the denaturing of the reference-of-thought or the soundness-or-ontological-good-faith/authenticity —of- reference-of-thought of meaning over which denaturing he tries to get interlocutors to operate/process logic; and ‘is not even contending and that he is the subject of prelogism—as-of-conviction,—in-profound—

meaningfulness-and-teleology\(^\text{100}\) is that the apriorising–registry (as the individual grounding
of the reference-of-thought of the social-construct registry-worldview/dimension) precedes
logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult
psychopath were to meet a stranger and spoke to him about another stranger whom it knows
nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc.
The logical operation is entirely right and sound in abstract terms but does the apriorising–
registry (\textsuperscript{14}reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge\textsuperscript{12} is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising-registry as of \textsuperscript{84}reference-of-thought-categorical-imperatives/axioms/registry-teleology\textsuperscript{100} which are: implied-logical-dueness-or-implied-scape (the implied-logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology\textsuperscript{100} (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge\textsuperscript{12} but none to do with logic, but everything to do with the denaturing\textsuperscript{15} of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{84}reference-of-thought, i.e. slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing\textsuperscript{19}of-narratives! So with the psychopath, you don’t watch the logic, you watch out for the \textsuperscript{14}reference-of-thought/apriorising–registry for mental-perversion or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{84}reference-of-thought! It should be noted that both psychopathic postlogism and conjugated-postlogism cases of unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought (as slanted and cohering-slanted, respectively), by their ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of- incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold’, involve ‘disjointedness-as-of- reference-of-thought’ misappropriated meaningfulness in arrogation by the fact that taken singularly from the same interlocutor in different circumstances, each (hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) narrative is apparently coherent but ‘construed together as of the retracing of set-of-narratives’ these reveal ‘unsoundness-or-ontological-bad-

Further, this ‘natural level of human interlocution engagement is a perpetuation’ explaining why the conjugated-postlogism mental-disposition is one of ‘slanted-cohering/conjoining’ as it rather further integratively rationalises the latest iterated narrative as an elucidation rather than a further preconverging-ordementing –apriorising-psychologism of adult psychopath/postlogism (as obvious with the child psychopathy ‘delirium effect’ as it slants and re-slants on the initial slanting in an absolving-logic/fleeting-logic/escaping-logic reflex); and, the falsely projected reference-of-thought implied-elements of logical-dueness-or-implied-scape/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology, create a new foundation for further preconverging-ordementing –apriorising-psychologism when wrongly eliciting in an interlocutor logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation issue, such that one salient manifestation of conjugated-postlogism arises with many of such an interlocutor vaguely articulating propositions based on such falsely ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of attendant-ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–reifying-or-elucidating-of-prospective-relative-ontological-completeness–of–reference-of-thought–devolving-as-of-instantiative-context)’. The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their reference-of-thought into the positivistic terms with their successive contentions (due to <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag), as their reference-of-thought remains rather in non-positivism/medievalism
circularity/recurrence/repetition/repeatability, and in the big picture in all likelihood can only be ‘weaned from’ crossgenerationally as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Likewise the ‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold—{as-procrypticism}’, thus equally implying a \textit{amplituding-formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}

circularity/recurrence/repetition/repeatability of the \textsuperscript{84}reference-of-thought as of the uninstitutionalised-threshold\textsuperscript{03} or \textsuperscript{81}procrypticism–or–disjointedness-as-of-\textsuperscript{84}reference-of-thought. Thus the central notion for preempting psychopathic postlogism\textsuperscript{78} and conjugated-postlogism\textsuperscript{78} is the ‘retracing of their sets-of-narratives as of attendant–ontological-contiguity–educated–existentialising/contextualising/textualising-contiguity \textsuperscript{39}<reifying-or-elucidating-of-prospective-relative-ontological-completeness–of–reference-of-thought–devolving-as-of-instantiative-context>’. That revealing unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{64}–of–reference-of-thought of the traces of sets-of-narratives is analogous to resolving a list of BODMAS equations where the solution of the first equation is a variable of the second equation and whose solution is a variable of the third equation whose solution is a variable of the fourth; and where the first equation is fundamentally flawed (as of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument flaw, for instance), systematically the three other equations will be wrong whether by \textsuperscript{50}ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) mental-disposition to resolve the equation of the traditional arithmetic principles as \textsuperscript{84}reference-of-

100. This is most apparent with childhood psychopathy as with the dereifying example of spilling water on a chair where it is directly obvious there is no elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—

This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING as of compulsive-slanting—preconverging-or-dementing ’apriorising is actually about ‘denaturing’ postlogic-backtracking–\textsuperscript{iterative-looping}‘set-of-dereifying-hollow-narratives-and-acts’\textsuperscript{ontological} with ‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as–‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge’.
(entitlement folie/folie raisonnable)’ as opposed to a logical motivation of a supplanting-conviction-as-to-profound-supererogation preempted-of-attendant-intradimensional’s postconverging/dialectical-thinking apriorising-psychologism or prelogic mental-disposition. It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the normal process of prelogism as-of-conviction, in-profound-supererogation <existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> logical articulation with respect to socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/disontologising-perverted-outcome-sought-precedes-existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation’-or-prelogism basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation’-or-prelogism basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if this latter narrative is proven to be false (as it is another perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > or mental-perversion
demonstrable as above with it faulty-mentation-procedure-deception-or-urge not being the logic itself, but in wrongly implying as existentially real the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on such false axioms. previous one in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-

mind is ignorant of the slanted mental state of the psychopath. The general and complete operative psychopath perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mechanism (it isn’t necessarily completed in all manifestations as is rather a ‘mental roaming/drifting-cycle disposition known as postlogism’-retreating’ that carries on depending on how the situation permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s ‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity thus involves these four elements as pre-valuation/pri-individuation/de-
reference-of-thought’–as-conflatedness or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology); to ultimately prevent its own ‘perceived social alienation’ by inducing the alienation of its ‘perceived social-stake-contention-or-confliction target’ over a social-stake-contention-or-confliction as to preconverging/postconverging–dementating/structuring/paradigming implications. Critically, it should be understood that passive or suggestive alienation is actually the sumum of the possibilities of the psychopath’s meaningful finality that starts from prevaluation (neutral narrations). It should be noted that the mental state of the psychopath’s interlocutor as ‘ignorance-temporal-disposition conjugated/inflected/derived/mimicked/in-protration-to-psychopathic-preconverging-or-dementing–apriorising-psychologism’ is not really ontologically-speaking a prelogic/conviction-as-to-profound-supererogation77 mental state but rather technically a ‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as an ignorant of psychopathic postlogism78 in hollow-constituting—misappropriation-of-meaningfulness-and-failing-intemporal-preservation to which the interlocutor aligns prelogically and then miscues, and then secondly (in addition), as ‘committed-by-temporality/interest over intrinsic-veridicality’ whether in the form of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that this psychopathic manifestation process can be mimicked in the context of social psychopathy, and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/derived/mimicked/in-protration-to-psychopathic-preconverging-or-dementing–apriorising-psychologism’. Over a given or extended period the underlying effect sought by the psychopath might stick, especially where the social target, interlocutors and others are utterly unaware of the mental state of the psychopath, and so evolving more like a
social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or deliberate/dissembling adherence as if veridical to the slanted and hollow mimicking narratives of the psychopath with the corresponding perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or mental-perversion in the social context). It is important to see that such social-discomfiture is in reality not a veridical logical ‘contention’ but in veridicality/ontologically a ‘protracted manifestation’ of notional-procrysticism/notional-disjointedness-as-of-reference-of-thought as to underlying registry-worldview/dimension uninstitutionalised-threshold perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of both the psychopath and its interlocutors (even when the interlocutor is at best ignorant of the underlying psychopathic state), requiring ‘distractive-alignment-to-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing’ at ‘uninstitutionalised-threshold’ initiated by the psychopath’s postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, and resolved suprastructurally by a deprocryptic mindset/reference-of-thought making reference to superseding deprocryptic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (just like an accusation of witchcraft in medieval society is not veridically/ontologically a ‘contention’ but rather a ‘protracted manifestation’ of non-positivism/medieval registry-worldview/dimension perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation by the dynamism of non-positivism/medieval mindset, resolved/structurally-
thinking—apriorising-psychologism meaning (as it is not priorly inclined to put into question narratives but rather to quickly operate/process logic to arrive at outcome while ‘trusting’ that the other is also prelogism—as-of-conviction,-in-profound-supererogation—<existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at> in their apriorising—registry, and so because psychopathy is a relatively outlying phenomenon thus the natural human personality development doesn’t take it much into account in the bigger scheme of things, i.e. it will be ‘a waste of too much mental energy’ to be verifying in detail the apriorising—registry implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{100} of every interlocutor, so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically incomplete and underminable but it is standard as it ‘saves mental energy and time’, hence it is the strongest factor for the social prevalence of psychopathy and its social psychopathy corollary, and by extension all postlogism /perverted-as-disontologising-outcome-sought-precedes–logical-dueness across all registry-worldviews/dimensions); that it will find it hard to articulate or for that matter not believe the comprehensiveness and extent by which the psychopath can produce non-veridical hollow mimicking narratives towards its end purpose, particularly as it is a rather social outlying phenomenon and hence not usually integrated in many an individual’s conceptualisation of social relations and phenomena. That’s why the manifestation of ‘poor or bad supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism’, contrasted to the psychopath’s\textsuperscript{10} compulsing–nonconviction/madeupness/bottomlining—(<decontextualising/de-existentialising–of–attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising’–of–the–‘attendant-intradimensional–ontologising’–imbued–
or compulsively-dementing, is ad-hoc, circumspect and highly contextualised since the prelogism-as-of-conviction,-in-profound-supererogation-existingly-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at mind even when acting temporally/badly has a hard time escaping from supplanting–conviction-as-to-profound-supererogation-of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism or prelogism (it has qualms/conscience) while the psychopath’s compelling–nonconviction/madeupness/bottomlining-‘decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing’-induced-disontologising-of-the-‘attendant-intradimensional–ontologising’–imbued-contextualising/existentialising–attendant-ontological-contiguity-in-shallow-supererogation-as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at is comprehensive since the psychopath naturally doesn’t attach any ‘emotional involvement’ and qualms to the meaning of the narratives it articulates (it views them just as non-veridical hollow mimicking form narratives that determine its interlocutors prelogism-as-of-conviction,-in-profound-supererogation-existingly-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at dispositions and actions). In so doing, the psychopath has a parallel formulaic-representation-of-meaning/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated which ‘subknowledging/mimics’ the fundamental elements of ‘supplanting–conviction-as-to-profound-supererogation’-of-‘attendant-intradimensional’-postconverging/dialectical-
subknowledging veridical assumptions; absolving/fleeting/escaping-reflex–logic as subknowledging prelogism-as-of-conviction,—in-profound-supererogation logical dueness—precedes-disontologising—logical—outcome—arrived—logical—operation—narratives; inductive/contextual limitation as subknowledging principles/projected-logic; structured—manipulation/deception—or-mimicking—or-gotcha-logic as subknowledging value referencing/applicative-logic; taking-out-of-context/offsetting logic as subknowledging veridical contexts logic, and extrinsic-attribution acts with respect to conventioning/social—temporal-thresholding contexts on the basis that acts by the psychopath to elicit the temporal—self-interest of its interlocutors will override intrinsic right or wrong; whether such actions include praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc. as subknowledging intrinsic-attribution of acts as inherently right or wrong. On the above basis, the psychopath’s relation to deductive meaning is actually reverting to vague—rhyming—or—copied—mimicry—or—formulaic—projection—or—projection—of—form—or—hollow—and—vague—vocalisation—or—subknowledging of postlogic compelling—nonconviction/madeupness/bottomlining (decontextualising/de—existentialising—of—attendant—intradimensional—apriorising/axiomatising/referencing—induced—disontologising—of—the—attendant—intradimensional—ontologising—imbued—contextualising/existentialising—attendant—ontological—contiguity—in—shallow—supererogation—as—to—disontologising—perverted—outcome—sought—precedes—existentially—veridical—of—the—attendant—intradimensional—apriorising/axiomatising/referencing—logical—dueness) as to its threshold—of—nonconviction/madeupness/bottomlining—in—shallow—supererogation—as—to—attendant—intradimensional—prospectively—disontologising—preconverging/dementing—apriorising—psychologism construed as reverting deduction whereas supplanting—conviction—as—to—profound—supererogation —of—attendant—intradimensional—postconverging/dialectical—

The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-elaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-
vague-vocalisation-or-subknowledging\(^\text{95}\)). In fact, it is often the case that such line of rather ‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism\(^7\) in their ‘conjoining looping narratives of flawed-existential-elevation-of-\(^{11}\)reference-of-thought\(^7\)’ (pointing to vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\(^95\)), and can be an advanced insight of a ‘psychopathic/postlogic and social psychopathic/conjugated-postlogism\(^8\) situation’, construable with an appropriate \(^5\) maximalising-recomposuring-for-relative-ontological-completeness\(^95\)—uenenframed-conceptualisation. Further, the element of the need to be socially-functional-and-accordant first, implies that psychopathy is ‘more than just the drive of a pathological individual’ but inevitably psychopathy and correspondingly social psychopathy
involves a ‘social split-dynamism’ wherein the ‘unordinary eliciting’ of temporal interest among some as extrinsic-attribution (praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.) is the basis for the targeting of another or others, further compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or less effectively most of our formal setups, their sociological pertinence is actually far from established, but for the fact that broad and large general education diminishes social egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the more common mental-disposition in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology)

including the ‘informal spaces’ of formal setups, with the result that this is a further factor that makes psychopathy poorly graspable as simply of individual denaturing dynamics rather than of social denaturing dynamics, thus better construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level of individuals intuition about the underlying dynamism of the postlogism-compulsing-nonconviction/madeupness/bottomlining-(‘<decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising’-of-the-

mental-disposition (going by experience), and then their sense of abstraction or gullibility or disposition to bandwagon effect with respect to a critical aetiologisation/ontological-escalation. (The implication here is that, for instance, it will be very naïve for an investigation involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors). Hence, the above phenomenon is further compounded in increasing
disambiguation/unequivalences/alienative-hierarchisation), becomes ‘affordable’ (as it doesn’t think it has got anything to lose personally), ‘negatively opportunistic’ (as it occasionally finds a temporal-self-interest in backing the psychopath, even though it knows better), ‘negatively exacerbatory’ (as it gains some insight in the psychopath’s mental process and actually strives to copy it adhocly, as a successful way of going about one’s temporal-self-interest). There is equally a social dynamism aspect wherein the issue of ‘social allegiance, affordability and initial prelogism -as-of-conviction,-in-profound-supererogation “existence-verbical–
attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-
disontologising-logical-outcome-arrived-at” alignment to psychopath-and/or-the-protracted-postlogism ” comes to override the issue of ‘intrinsic rightness’ leading to what is known as ‘social-chainism or negative-social-aggregation or social-discomfiture’ which in turn (because individuals find ‘apparent social success and conventioning/social-temporal-thresholding’ in such social behaviour) leads to the ‘temporal endemisation/enculturation of social psychopathy’. The underlying mental-disposition of the psychopath as postlogic and the temporal prelogic/conviction-as-to-profound-supererogation ” minds pedestals that endemise/enculturate this process thus becoming conjugated-postlogism ”, is known as ‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution) thus reflecting their threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation ” as-to-‘attendant-

psychologism”. Ontologically, this requires an altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of such a-comprehensive-social-temporal-
hodgepodging which is rather ontologically-discontinuous. This author qualifies as procrypticism preconverging-or-dementing ”-apriorising-psychologism, and so as
‘ONTOLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emanant template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding-as-of-apriorising/axiomatising/referencing slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting—preconverging-or-dementing-apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts-absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing—logical-dueness, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge for postlogic slantedness’ in a given social space during its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-urge for postlogic slantedness to attain an apparent normal social equilibrium or socially-functional-and-accordant state within any given social space as it develops into adulthood’. It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting—conviction-as-to-profound-supererogation—of—attendant—

interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought/slantedness become harder to perceive); - INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner); - SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound); - CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-to-profound-suprerogeration–of–attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting–conviction-as-to-profound-suprerogeration–of–attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing–apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-dementing–apriorising, etc. Once it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding-as-of-apriorising/axiomatising/referencing is an experiential basis that

develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise
develop and become increasingly serious in its social consequences as the context of ‘socially-
perceived-value as of social-stake-contention-or-confliction’ moves from family,
neighbourhood, school, company, administration, business, criminality, etc. depending on the
development of the specific psychopath. The fact, however, is that many of those who grow
together with the psychopath (immediate family, close family friends and relatives, etc.)
generally have some insight, however wobbly, into this mental process. Further, psychopathic
phenomenon meets with varying impact levels as it’s just a way of being/living for the
psychopath, and differences in the setup of ‘socially-perceived-value as of social-stake-
contention-or-confliction’ context and time might play a role in making its social consequences
benign or aggravated. But then psychopathy and its social consequences, as a social
phenomenon, is often wrongly perceived as exclusively due solely to an individual (the
psychopath). This is rather an incomplete picture of things actually. The psychopath in a way
can be said to suffer from a pathological dysfunction arising in the interaction of biology and
the social environment. The psychopath has an urge or the inclination to take a faulty-
mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-
contention-or-confliction’s. This is the reason why its narratives are of succeeding
changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the
projected apriorising-reference-of-thought-elements/apriorising-registry-elements which
when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-
urge; as the succession of narratives are successive slants over one another, more like a non-
cohering deception which is a deception as the basis for a succeeding deception as the basis for
a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-
reflex–logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-
mentation-procedure-deception-or-urge points to the fact that the slanted child psychopathy
mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after
outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as

The paradox being that the prelogic supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism mindset/ reference-of-thought will project its own mental-disposition unwittingly upon the psychopath (in the case of adult psychopathy but not in the instance of childhood psychopathy where the latter’s deliriousness/delirious-effect/cinglé-effect is often obvious due to lack of maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of–social-stake-contention-or-confliction), and paradoxically then wrongly validate the psychopath as prelogic supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism with respect to meaningfulness as of ‘requisite existentially veridical logical-dueness (of apriorising–\textsuperscript{ref} reference-of-thought-elements/apriorising–registry-elements) and logical-processing-soundness driven construct’. However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting–
conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’—

postconverging/dialectical-thinking –apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality/shortness (when there is no social universal-transparency—{transparency-of-totalising-entailing,-as-to-entailing-

meaningfulness-and-failing-intemporal-preservation>). That is, abstractly, with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' humans do solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold’, from the temporal-dispositions of slantedness (the psychopath),

ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome with institutionalisation/intemporalisation and formalisations with corresponding internalisation of values or secondnaturing. However, at circumstances where the institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the ‘extended-informality–(susceptible-to-effecting-parasimony-as-of-shoddiness-and-
incompleteness-to—meaningfulness-and-teleology’, then ‘a induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ will elicit the ‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when ‘successful’ (and not perceived deliriously but rather wrongly integrated prelogically/in-conviction-as-to-profound-supererogation) will often perfectly elicit an ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ dynamism’ in the social-construct such that others will find it to their temporal self-interest to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the psychopath’s initiated postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (involving protracted/derived slantedness), in the absence of social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness⟩ on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (at the point of such lack of social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness⟩ of its postlogism -slantedness to many a supplanting-conviction-as-to-profound-supererogation—of—attendant—”intradimensional”-postconverging/dialectical-thinking—apriorising-psychologism—interlocutor
as the ‘uninstitutionalised-threshold ’). Hence psychopathy when studied dynamically is rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-threshold ’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology) or temporal (shortness-of-register-of–meaningfulness-and-teleology), hence its relation to sociopathy which is a more generalised notion of social vices-and-impediments. The social psychopathy phenomenon (in describing the underlying abstract nature of man before institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and universal projection rules in an ‘ontological entrapment’ exercise to undermine/override temporal-dispositions subknowledging/mimicking, by virtue of its ontological-primemovers-totalitative-framework and overall medium to long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/civilisation, in an intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, from a recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge (preconverging-or-dementing–as-if-of-sound-knowledge) pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the future institutionalisation/intemporalisation this author qualifies as notional–deprocrypticism (preempting procrypticism, so construed by ‘notional–deprocrypticism ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking–differentiation-as-of-supratransversality-in-sublimating–existential–

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then
the traditional categorical-imperatives of addition and subtraction will be modified to take
account of our perversion/defect by saying that additionality will involve subtracting 1 from the
result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic
reality outcome (intemporal transversality<for-sublimating–existential-
eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–motive-and-
apriorising/axiomatising/referencing’ as from ontological-normalcy/postconvergence). Thus
reference-of-thought–categorical-imperatives/axioms/registry-teleology are ‘inventions’
that are as pertinent as the extent of their preservation of intemporal reality (intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false

while undermining temporal-dispositions. Such a depth-of-thought as projected by the
‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-
preservation’ is what creates ‘a sounder scientific foundation’ for ‘a
hermeneutic/reprojecting/supererogating/zeroing psychological science’ termed
‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared
to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to
think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the
definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the
‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of
‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is
applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all
the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling
process. Thus reasoning from the overall perspective of the human species we can’t afford not
to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as
psychoanalytic-unshackling/memetic-reordering/institutional-recomposing) as it is because
every successive transcendental level ‘did its homework’ that we are in the positivistic world,

It should be noted that while ‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process of human institutional transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposured peculiarly towards
the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional–deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposposure-{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>}\n\npreconverging/postconverging–de-mentating/structuring/paradigming implications, as utilising the postconverging–de-mentating/structuring/paradigming outcome of previous institutional-cumulation/institutional-recomposposure-{as-to_historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>} effort. instigation recurrently inducing the institutionalisation/intemporalisation process (which is not an analogical notion but a contiguous notion as to ontological-contiguity by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across institutional-cumulation/institutional-recomposure as to historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>) rather so-reflecting ontological-contiguity as to human limited-mentation-capacity-deepening wherein existence’s ontological-contiguity construable as to nonpresencing<-perspective–ontological-normalcy/postconvergence> epistemic-projection is not beholdening to human limited-mentation-capacity at any given moment) applies universally across space and time (beyond any given registry-worldview’s/dimension’s institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemporalisation like deprocripticism. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>) analysis) is not, as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous meaningfulness-and-teleology reference’ (given the contiguity in the ‘precedingness/supersedingness/ascendency-and-continuity of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation referencing’ across all cumulating/recomposing institutionalisations); i.e. memetic contiguity as the underlying principle of memetic-reordering which is the ‘contiguous dynamism for intemporal-preservation-entropy-or-contiguity–or–

This brings up the notion that while candoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, this is just a mental-devising-representation for implying intemporality\textsuperscript{13}–of-thought without which meaningfulness is not
functional in the registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology\textsuperscript{100}, but then at that same prior registry-worldview’s/dimension’s uninstitutionalised-threshold\textsuperscript{03}, transcendence-and-sublimity/sublimation/supererogatory-dementativity into a prospective registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology\textsuperscript{100} put into question this candoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-teleology\textsuperscript{100} is then represented as preconverging-or-dementing\textsuperscript{10}\textsuperscript{–}apriorising-psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or \textsuperscript{14}dementation\textsuperscript{–}(supererogatory\textsuperscript{–}ontological\textsuperscript{–}de-mentation-or-dialectical\textsuperscript{–}de-mentation\textsuperscript{–}stranding-or-attributive-dialectics). Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} and ontological-veridicality/ontological-contiguity\textsuperscript{67} of reference-of-thought (from the ontological-normalcy/postconvergence epistemic-or-notional\textsuperscript{–}projective-perspective); with the ontologically-veridical/ontological-contiguity\textsuperscript{67} mental-devising-representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity\textsuperscript{63}<shallow-supererogation\textsuperscript{97}> of mentally-aestheticised-preconverging/dementing\textsuperscript{–}qualia-schema\textsuperscript{–}as-of-epistemic-decadence in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking< iterative-looping<set-of-dereifying-hollow-narratives-and-acts'> stranded as oblongated/decandored in reflection/perspectivation of their veridical\textsuperscript{7} perversion-of reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation >, beyond their<amplituding-formative-epistemicity>totalising-self-

Hence we know of the following de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) as preconvergingly—demented/structured/paradigmed registry-worldviews/dimensions: recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism—or—disjointedness—as-of—reference-of-thought (our own prospective mental stranding); as these form the backdrop for the articulation of transcending anticipatory and preemptive reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy—or-contiguity—or—ontological-preservation of the prospective registry-worldview/dimension that are the resolution to the vices-and-impediments of the prior (uninstitutionalised-threshold) registry-worldview/dimension, successively as base-institutionalisation, universalisation, positivism and prospectively, deprocrypticism. Each of such psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (along the institutional-cumulation/institutional-recomposure—as-to—historiality/ontological-eventfulness /ontological-aesthetic-tracing<&perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism>') process), have particular ‘central recomposuring determinants’ which the new registry-worldview is coming after, as follows: (i) for Base-Institutionalisation, it has to do with the requisite ‘organising rules/principles’ as ‘a memetic ontological entrapment’ for superseding recurrent-utter-uninstitutionalisation (as an inherently—pre converging—or-dementing—apriorising—psychologism—or-subknowledging—or—perversion-of—reference-of-thought—as—preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation—amplituding/formative—epistemicity>totalising—self-referencing-syncretising’ relation to meaningfulness). (ii) for universalisation, it has to do with requisite ‘projection
prospective registry-worldview/dimension. This when extrapolated will equally apply with our present positivism/procrypticism uninstitutionalisation/unintemporalisation for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—dep Procrypticism institutionalisation/intemporalisation, and any ‘complex’ we’ll have about that has to do with our illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage than the ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic-or-notional—projective-perspective). This equally explains why uninstitutionalised-threshold equally carried a complex about their registry-worldview/dimension and these complexes certainly sound unintelligible to us given our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure—historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence- reflected—epistemicity-relativism-determinism—process. With rational-realism (dep crypticism), institutionalisation/intemporalisation raises the issue of notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema (undisambugation as notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—are wrongly given the same elevation), and relevantly so at the procrypticism—or—disjointedness-as-of—reference-of-thought uninstitutionalised-threshold. The very specific nature of the dep cryptic transcendence-and-sublimity/sublimation/supererogatory—de-mentativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from—

It involves de-mentation(superrogeratory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) temporal-dispositions manifest denaturing and thus to avoid elevating temporal-dispositions to intemporal logical contending status as this result in the miscuing of meaning as of notional-discontiguity/epistemic-discontiguity–shallow-superrogeration–of-mentally-aestheticised–preconverging/dementing–qualia-schema. notional–deprocrypticism institutionalisation/intemporalisation takes stock of the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional~firstnatures—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>—existentialism-form-factor; as successive circular/recurrent/repetitive/repeatable iterating preconverging constructs, and not as may wrongly be reflected by the natural reflex to be postconverging constructs, to emphasise the ‘dominance/supersedingness/suprastructuring of the intemporal-disposition skewing (‘intemporality’–asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrogeratory–de-

As a corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of notional–deprocrypticism institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency{(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) of ‘knowledge-notionalisation’ (knowledge as understanding not only of the ideal/intemporal but equally how the temporal/defective works distractively, to anticipate and preempt the latter perverseness but doing so rather in a superseding ontologically-minded manner) and intemporal skewing (‘intemporality’-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity)/deferential-formalisation-transference as virtue and (postconvergence) ontological-veridicality/ontological-contiguity”; in contrast to the hotchpotching of notional-discontiguity/epistemic-discontiguity <-shallow-supererogation -of-mentally- aestheticised–preconverging/demeting –qualia-schema> of temporal-dispositions and
particularly in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology} which covers all informal spheres of institutions and society generally. So because knowledge-notionalisation recognises that in a specie of notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuation dispositions, deferential-formalisation-transference which is the bases for institutionalisation/intemporalisation by skewing ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrerogatory–de-mentativity) for the supersedingness/lead of the intemporal-disposition individuation is responsible for elevating human uninstitutionalised-threshold across the successive institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism>} by the resultant formalisation and internalisation involved in institutionalisation explaining effectively the dialectical evolution from deeper primitivites/mental-out-of-phasings to the present state (limited-and-shallower-human-mentation-capacity to limited-but-deeper-human-mentation-capacity) as a result of the inherent ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting skewing ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrerogatory–de-mentativity)/deferential-formalisation-transference for intemporalisation/institutionalisation, and the implications prospectively. For instance, the uninstitutionalised-threshold for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism-or-mediievalism and our positivism–
procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in a recurrent-utter-uninstitutionalised registry-worldview.

Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-notional-firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—implications which is more than just reactionary to the possibility of temporality/shortness (shortness-of-register-of-meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of thought’ (intemporality as longness-of-register-of-meaningfulness-and-teleology) that takes abstract cognisance of temporality/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-uninstitutionalised-threshold) to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, notional—deprocrypticism going by ontological-normalcy/postconvergence implies a mental-devising-representation of ‘non-thresholding meaningfulness as transdimensional/transcendental-meaningfulness or memetic refinement (or

Fundamentally ^7^perversion-of^7^reference-of-thought<-as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation^7^ has to do with the defect of the ^8^reference-of-thought and not the defect of ontological-veridicality/ontological-contiguity^7^ (which is rather a logical-process/implicitation-of-act-execution defect and which implies an ‘implicitation-of-notion-of-agreement-or-disagreement’), as can be reflected as from ontological-normalcy/postconvergence. A ^8^reference-of-thought speaks of the fundamental appropriateness/soundness-or-ontological-good-faith/authenticity^9^ of ^7^reference-of-thought of ^8^reference-of-thought–categorical-imperatives/axioms/registry-teleology^0^, for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation irrespective of their appropriate or inappropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation with respect to ontological-contiguity^7^/ontological-veridicality, and implying sound ^7^reference-of-thought further emphasises appropriate incidental ^5^logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in producing the right outcome. Thus fundamentally preconverging-or-dementing—apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity—of—reference-of-thought does not arise because of failure of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation but rather because of failure of reference-of-thought as of perversion-and-derived—perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. This is unlike the case where logical-engagement of mental-devising-representation as ‘postconverging-or-dialectical-thinking’—apriorising-psychologism'/soundness-or-ontological-good-faith/authenticity—of—reference-of-thought is still relevant where there is failing/not-upholding—<as-of-apriorising/axiomatising/referencing> logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation (like calculating the answer of an arithmetic operation wrongly) so long as the reference-of-thought is sincerely/genuinely working in adherence to arithmetic axioms to produce the right answer. In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals-and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with
regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-<amplituding-formative–epistemicity>totalising–in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this respect, one can cite at individuals-levels instances of many a human interest story tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance what is the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably due to grave and unprincipled mismanagement with profound social repercussions. The implied intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, contrasted with a temporal extricatory preconverging–de-mentating/structuring/paradigming, is necessarily the prospective transcending/superseding registry-worldview/dimension. Likewise the positivistic meaningful frame is oblivious to its procrypticism, and corresponding resolution as notional–deprocrypticism as the prospective/transcending/superseding ontological-reference-of-veridicality/contending-reference-of-veridicality. Further, this notion of registry-worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ aligned with ontological-normalcy/postconvergence is what escapes and provides for grander emancipatory possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/\{cumulated/recomposured\}-consciousness-awareness-teleology\textsuperscript{10} in reference (as ‘tentative \textsuperscript{8}references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived ‘meaningfulness-and-teleology\textsuperscript{10} thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that aligns with and is driven by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wherein ontological-normalcy/postconvergence is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. such phenomena tend to instigate and reveal the inherent defect/sub-par nature of registry-

This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the human limited-mentation-capacity-deepening induced institutional-cumulation/institutional-recomposure-{as-to-

This equally explains why a prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought is cross-sectionally dialectically-out-of-phase/dialectically-primitive given it is sticking to its ‘good-natured’ but ‘ontologically-wrong and failing’ reference-of-thought—categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (hollow-constituting—misappropriation-of-meaningfulness-and-failing-intemporal-preservation) as the prospective/transcending/superseding registry-worldview/dimension has the-Good/understanding/notional~knowledge-reification—gesturing—prospective_psychologismic~apriorising/axiomatising/referencing—of-attendant–ontological-contiguity—educed–existentialising/contextualising/textualising-contiguity—conflatedness—in—preconverging-disentailment–by—postconverging-entailment/ontological-primemovers-totalitative-framework sound reference-of-thought—categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in ontological-reconstituting—as-to-conflatedness/deconstruction); wherein no amount of ‘good-naturedness’ of any individuation based on the former (prior/transcended/superseded) reference-of-thought can fundamentally supersede its preconverging–de-mentating/structuring/paradigming vices-and-impediments, but for the ‘emancipatory moulting’ (psychoanalytic-unshackling/memetic-reordering/recomposuring) into the reference-of-thought of the latter
(prospective/transcending superseding) of such would-be emancipating individuation/intellectuals and consequent institutionalisation/intemporalisation as transcendence-and-sublimity/sublimation/supercogitatory de-mentativity. That is why there is no ontologically-veridical intradimensional resolution of issues and notions of sorcery for instance in a non-positivism/medievalism social-setup with any such pretence being nothing but a ‘temporal extricatory preconverging–de-mentating/structuring/paradigming’ to satisfy temporal preservation’, but for implying a prospective need for a positivistic registry-worldview/dimension as intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation
postconverging–de-mentating/structuring/paradigming in satisfying intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Likewise there is no intradimensional resolution of a phenomenon like psychopathy and its social corollary in a procrypticism–or–disjointedness-as-of- reference-of-thought registry-worldview/dimension (the perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-

Fundamentally, the reason for all the dimensions/registry-worldview perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation as limited-mentation-capacity-deepening has to do with the veracity/ontological-pertinence of our notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective—ontological-normalcy/postconvergence as individuations of shortness-to-longness-of-register-of-meaningfulness-and-teleology, such that whenever relatively sound reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are institutionalised/intemporalised, human temporality in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation individuation dispositions (at uninstitutionalised-threshold) will tend to relate, by limited-mentation-capacity-deepening, to this as hollow/formulaic constraining deterministic constructs which have to be exploited by the mere determinism-of-form about how others will act (hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) rather than the essence as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation being sought originally by the institutionalised/intemporalised reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (ontological-reconstituting—asto-conflatedness). This fundamental dilemma of the cross-section of human mentation disposition is ‘a lost cause’, given the reality of the notion of a shortness-to-longness-of-register-of-meaningfulness/notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective—ontological-normalcy/postconvergence inherent in a limited-mentation-capacity-deepening; any resolution is not by wrongly implying any ‘

transformation’ but rather institutionalisation/intemporalisation by its inherent eliciting of positive-opportunism—of-social-functioning-and-accordance to the grander cross-section of society in the medium to long-run wherein intemporal-disposition/longness-of-register-of-\(^{(10)}\) meaningfulness-and-teleology\(^{(10)}\) individuation dispositions by artifice/institutionalisation/intemporalisation come to constrain-or-dominate the social-construct (over temporal-dispositions/shortness-of-register-of-\(^{(76)}\) meaningfulness-and-teleology\(^{(10)}\) or-hollow-constituting\<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> individuations dispositions); with corresponding percolation-channelling\<in-deferential-formalisation-transference> facilitating the perpetuation of such intemporal enculturation even when such positive-opportunism—of-social-functioning-and-accordance gets weaker with grander institutionalisations/intemporalisations, and so as the grander human the-good. This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipatory potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism! Rational-realism (as to prospective deprocrypticism) as such involves rather elucidating \<reference-of-thought\<of-apriorising/axiomatising/referencing\>\<decandoring> with three de-mentative/structural/paradigmatic teleologies: - subknowledging\<\text{-}impulse/compulsive-dementing\(^{(10)}\) temporal-disposition (psychopath), with ‘slanted mechanical narratives’
(preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); - subknowledging-temporal-dispositions-teleologies (the-various-temporal-dispositions-teleologies), with ‘banal mechanical narratives discomfiture’ (preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); and - the intemporally given and ontologising teleology which ontologically reflects/perspectivates the subknowledging -impulse/compulsive-dementing-temporal-disposition-{psychopath} and the subknowledging-registries-teleologies (the-various-temporal-dispositions-teleologies), from a ‘organic-comprehension-thinking depth as the dementation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) backdrop of new recomposuring reference-of-thought-categories/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Thus at the uninstitutionalised-threshold, it is counterintuitive for temporal-dispositions not to perceive their registry-worldview/dimension as ‘untranscendable’ (acting as if in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation while actually in temporal preservation-as-pseudointemporality; hence dementable/no-longer-thinking) due to <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present/mirage as metaphysics-of-presence-{implicated-‘nondescript/ignorable–void ‘-as-to- presencing—absolutising-identitive-constitutedness} which blinds the temporal-dispositions to the registry-worldview’s/dimension’s ‘intemporal preservation discontinuity’ as a result of the perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as-of-unsoundness–or-ontological-bad-faith/inauthenticity–of–reference-of-thought-defects (and not logical defect) of compulsive-slanting—preconverging-or-dementing–apriorising (psychopath) and

Consider the example of the ‘God-of-plane’ type of expression in an animistic/base-institutionalisation setup, where their fundamental psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the line the latter’s meaningfulness-and-teleology, by way of continuous presencing—absolutising-identitive-constitutedness, as ‘recurrent re-categorisation/re-adaptation/re-classification of the prior apriorising/axiomatising/referencing- {of-attendant—ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—constitutedness—in–preconverging-entailment of reference-of-thought’ is critically rid of the very essence of animistic/base-institutionalisation psychologism inducing an overall break into a positivism psychologism. It is interesting to note that going by the psychologism of a base-institutionalisation social-setup reference-of-thought for instance, the idea of arithmetic as we may grasp today in a positivistic registry-worldview/dimension Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, and as of its operant nature, isn’t the case

construal/conceptualisation as soundness-or-ontological-good-faith/authenticity-reference-of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-deepening, can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-deepening determining its prospective relative-ontological-completeness-reference-of-thought, as enabled by the ‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recompose-⟨as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism’⟩⟩ which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic deambulation’ harkens back to that of human registry-worldview’s/dimension’s institutionalisation by its socially-functional-and-accordant thresholds of notional–firstnatures—temporal-to-intemporal-dispositions—⟨so-construed-as-from-perspective–ontological-normalcy/postconvergence⟩ further redefining the possibility of uninstitutionalised-threshold as the threshold for failing/not-upholding the institutionalisation’s reference-of-thought–categorical-imperatives/axioms/registry-teleology and the possibility of prospective institutionalisation as renewing reference-of-
thought—categorical-imperatives/axioms/registry-teleology for upholding intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-of-presence-{implicitied-‘nonescript/ignoreable-void ’-as-to-presencing—absolutising-identitive-constitutedness }, the present registry-worldview’s/dimension’s reference-of-thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in secluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of ’reference-of-thought. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness reference-of-thought emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing—psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that is counterintuitive to a stigmatic/mented psychology as conceptualised today. construct which relative ‘third-level presencing—absolutising-identitive-constitutedness’
existentialising/contextualising/textualising-contiguity | conflatedness in {preconverging-disentailment by} postconverging-entailment as implied with referentialism as the underlying transcendental memetic/suprastructural-meaningfulness fugue reflecting existential-reality will take an even more critical bearing with respect to notional-deprocrypticism psychologism as unlike the articulation as presencing—absolutising-identitive-constitutedness (rather heuristically and beyond consciousness-awareness-teleology in previous institutional-cumulation/institutional-recomposure-as-to historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-’epistemicity-relativism-determinism’>, with notional-deprocrypticism apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} postconverging-entailment is rather bound to be perceived and construed as of the {cumulated/recomposed}-consciousness-awareness-teleology in its full potential on the basis of referentialism as of the full development of ontological-normalcy/postconvergence. Thus, the notion of apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} postconverging-entailment (including presencing—absolutising-identitive-constitutedness’) can be conceptualised across all transcendence-and-sublimity/sublimation/supercerebrity-de-mentativity as providing the ‘centering platform’ (that reflects the imbricatedness/threadedness/recomposing of existential-reality as of attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness -of-reference-of-thought- devolving-as-of-instantiative-context> in ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity–or–ontological-
reference-of-thought necessarily implies a more profound grasp of intrinsic-reality/ontological-veridicality with respect to the prior as uninstitutionalised-threshold relative-ontological-incompleteness reference-of-thought revealing which by reflex adopts a social-aggregation-enabling disposition with respect to the prior-conventioning). In this respect, ultimately the full achievement of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—confoundedness in preconverging-disentailment by postconverging-entailment will involve fully expanding the sphere of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, as of ‘intemporal-disposition knowledge constraining-construct’, for thorough construal/conceptualisation of social reality which is relatively highly prone to apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging-entailment and conjugated-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging-entailment of reference-of-thought and thus resultant presencing—absolutising-identitive-constitutedness as of social-aggregation-enabling, hence undermining relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity of the social. Ultimately, given the comprehensive and typical underlying proneness of human limited-mentation-capacity-deepening to apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging-entailment as its fundamental mentation deficiency at uninstitutionalised-threshold or as of ‘human temporal uninstitutionalised-threshold mental-disposition’ (which it tends to resolve by presencing—absolutising-identitive-constitutedness when aware of defective apriorising/axiomatising/referencing-{of-

It should be noted that ‘a mentation reflex as decentered and in de-mentation(supererogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)’ is no less valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human temporal uninstitutionalised-threshold mental-disposition’ (speaking of uninstitutionalised-threshold) as ‘a mentation reflex as centered and postconverging-or-dialectical-thinking—apriorising-psychologism’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; and so, with no relevant need for attending to any ‘psychological complexes’ with respect to a representation as of an uninstitutionalised-threshold wrongly being construed as
of institutionalisation (at the uninstitutionalised-threshold) as being ‘a mentation reflex as centered and postconverging-or-dialectical-thinking—apriorising-psychologism’ instead of ‘a mentation reflex as decentered and in de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}’. The point of this statement is that when procrypticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}, the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrypticism of meaningfulness-and-teleology will be represented as decentered and in de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} as the necessary/requisite backdrop for the construal of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation ushering in notional–deprocrypticism as prospective institutionalisation. In this regard, we’ll certainly inherently relate to preceding successive uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}, though this will most probably be resisted with respect to such a representation of our denaturing of positivistic meaningfulness as our prospective procrypticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-threshold by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}); while we can recognise successively the centered and postconverging-or-dialectical-thinking—apriorising-psychologism nature of base-institutionalisation,
universalisation and positivism, though probably less so of notional-deprocrypticism institutionalisation as it points to the decentering and de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics) of our procrypticism uninstitutionalisation. Such institutionalisation and uninstitutionalised-threshold construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by the concepts of apriorising/ axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—confatedness in {preconverging-disentailment-by}-postconverging-entailment as of centering and postconverging-or-dialectical-thinking—apriorising-psychologism reference-of-thought implied with institutionalisations and apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—constitutedness in preconverging-entailment as of decentering and ontologically/preconverging-or-dementing—apriorising-psychologism reference-of-thought implied with uninstitutionalised-threshold; prompting the respective institutionalisation and uninstitutionalised-threshold psychologisms as of the apriorising/precedingness of attendant-ontological-contiguity—educed-existentialising/contextualising/textualising-contiguity—reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context reflecting this reality beyond and above our subpar <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reference-of-thought in positivism—procrypticism from a notional-deprocrypticism perspective, just as we’ll recognise for instance that a universalisation—non-positivism/medievalism mental-disposition contending against positivism institutionalisation meaningfulness is actually acting out a subpar
syncretising/circularity/interiorising/akrasiatic-drag\(^1\) reference-of-thought as of the apriorising/precedingness of attendant ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity -reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of- instantiative-context\(>\) reflecting this reality beyond and above it from the positivism perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as decentered and in \(\text{de-mentation-}\langle \text{supererogatory-ontological-de-mentation-or-dialectical-de-}
\text{mentation-stranding-or-attributive-dialectics}\rangle\) of an uninstitutionalised-threshold \(^3\) is hardly just one of ‘simplistic knowledge elucidation’ but rather an elucidation as of intellectual courage in bluntly asserting decentering and \(\text{de-mentation-}\langle \text{supererogatory-ontological-de-}
\text{mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics}\rangle\). Intellectual courage as imbuing knowledge with organic profoundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/superreroagatory-de-mentativity and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is ‘no magical knowledge technicality’ for implying a more profound ontological-completeness-of-reference-of-thought over a relatively relative-ontological-incompleteness-of-reference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset\(^4\) reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating/superreroagatory-de-mentativity rather than a conventioning sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is ‘altogether not a knowledge elucidation problem’ with respect to the implied representation of uninstitutionalised-threshold \(^3\) as decentered and in \(\text{de-mentation-}\langle \text{supererogatory-ontological-de-}
\text{mentation-stranding-or-attributive-dialectics}\rangle\).
but rather a ‘psychological complex issue’ of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in ‘psychologism terms as of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its more profound attendant ontological-contiguity – educed–existentialising/contextualising/textualising-contiguity –<reifying-or-elucidating-of: prospective-relative-ontological-completeness –of– reference-of-thought– devolving-as-of-instantiative-context>; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism reference-of-thought is not about the inherent knowledge implications to which the non-positivism/medievalism mindset/reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism (<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought foundation as new placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology) requisite knowledge or meaningfulness-and-teleology reference-of-thought. Such equally applies with respect to notional–deprocrypticism prospective institutionalisation relative to our procrypticism uninstitutionalised-threshold. In other words, prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is construed not in terms–as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic ontological-primemovers-totalitative-framework’ outcomes construed as the overtly
compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms–as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as \(^8\) reference-of-thought/psychologism construed as including the discreitional contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is grounded on such an underlying \(^8\) reference-of-thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as \(^8\) reference-of-thought/psychologism construed as including the discreitional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating ontological-primemovers-totalitative-framework\(^7\) outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology\(^9\)–<in-preconverging-existential-extrication-as-of-existential-unthought> conjure up explanations//meaningfulness-and-teleology\(^\circ\) in terms–as-of-axiomatic-construct of its non-positivistic medieval alchemic or non-positivistic animistic \(^8\) reference-of-thought psychologism; as it is naïve to think that implied organic-knowledge as of prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory–de-mentativity requiring its own \(^8\) reference-of-thought psychologism can simply be construed as ‘mechanical-knowledge’ while still upholding/keeping the prior/transcended/superseded registry-
worldview’s/dimension’s reference-of-thought psychologism, as the organic-knowledge rather points to ‘validating ontological-primemovers-totalitative-framework’ outcomes as its mechanical-knowledge aspect but further requires a development of the discretional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the knowledge’, grounded rather on such a prospective institutionalisation psychologism as its ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology synopsising-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding–oneness-of-ontology’, and not the prior/superseded/transcended uninstitutionalised-threshold psychologism. Such organic-knowledge gets institutionalised to an extent by the habituation as of circularity/recurrence/repetition/repeatability of the mechanical-knowledge implied reference-of-thought of meaningfulness-and-teleology as of crossgenerational psychoanalytic-unshackling involving amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the ultimate crossgenerational alignment to the prospective/transcending/superseding registry-worldview reference-of-thought, as a positivistic registry-worldview reference-of-thought. Interestingly, and so across all successive institutionalisations, what tends to be lost ‘the failure to register fully that the ‘intemporal-disposition projecting mental-disposition’ behind ontological-primemovers-totalitative-framework validating the institutionalisation of ‘mechanical-knowledge’ is rather the ‘vitality aspect’ of organic-knowledge and it is ‘not a passive dispensation’, just as well that the ‘temporal mental-dispositions’ superseded towards attaining the ‘mechanical-knowledge’ is ‘not simply a passive distraction’ with the insight that there is a contiguity as of temporal-to-intemporal mental-disposition relative to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-

But then we know and can appreciate that all the prior registry-worldviews/dimensions were ‘decentered and preconverging-or-dementing’\(^1\)–apriorising-psychologism beforehand/as-of-a-priori’ going by ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. This ‘anti-transcendence as anti-uninstitutionalised-threshold\(^0\) and anti-prospective institutionalisation mental-disposition’ of all ‘present-states’ of all registry-worldviews/dimensions is due to the fact of such ‘present-states’ \(\text{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) desymmetrisation alignment overly-overemphasising the registry-worldview/dimension institutionalisation-facet in a corresponding relation with a dissymmetrical alignment over underemphasising its uninstitutionalised-threshold\(^0\)-facet, but with such representation becoming critically ontologically untenable at the registry-worldview/dimension uninstitutionalised-threshold\(^0\) where ‘meaningfulness-and-teleology\(^0\) breaks into threshold-of–nonconviction/madeupness/bottomlining-in-shallow-suprerogation\(^0\)–<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism\(^3\)’. In other words, suprastructuralism (as of its referential and ontological-normalcy/postconvergence emanance perspective and as a doppler-thinking exercise) ushers in a whole new comprehensive registry-worldview across the entire social construction-of-meaning called deprocrypticism, much like positivism did over non-positivism/medievalism or universalisation over ununiversalisation or base-institutionalisation over tter-uninstitutionalisation. Central to such ‘a universal notion of deprocrypticism’ is the idea of an utter-recomposuring-ontologising by upholding ontological-normalcy/prospective-
institutionalising mindset/reference-of-thought (Base-institutionalisation); existential universalising with universalising techniques and universalising mindset/reference-of-thought (universalisation); existential positivising/rational-empiricism with positivising techniques and positivising mindset/reference-of-thought (Positivism); and prospectively ‘existential ontologising’, and so beyond its conventioning incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation disjointedness-as-of reference-of-thought as of temporal-accommodation of positivistic meaningfulness, as ‘existentially utter postdicatory ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, with postdicatory methods and techniques and an overall postdicatory mindset/reference-of-thought (deprocrypticism). Existential ontologising is effectively the human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology aspiration towards a fulsome grasp of intrinsic-reality/full-ontological-veridicality as fulfilling ontological-normalcy; all along the institutional-cumulation/institutional-recomposure⟨as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing⟨perspective–ontological-normalcy/postconvergence-reflectedeEpistemicity-relativism-determinism⟩⟩ levels but for incomplete human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity the preceding institutionalisation levels are more like successive compromises towards notional–deprocrypticism as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). A critical distinction between notional–deprocrypticism institutionalisation and positivistic institutionalisation has to do with the former uncompromising relation with respect to upholding ontological-contiguity thus overcoming the temporal-emananances-registries hotchpotching (wooden-language ⟨imbued—averaging-of-thought⟩ ⟨as-to-
leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications>}' or banality-of-thought dynamism, and specifically in the extended-informality{(susceptible-to-effecting-parsimony—as-of-shoddiness-and-incompleteness—to—meaningfulness-and-teleology} even though it is very much present in the formal sphere as well) and the incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional—disjointedness-as-of—reference-of-thought inherent in the positivistic mindset, thus the latter tends relatively to be weakly ontologically-contiguous with all the existential implications thereof, whether with regards to virtue construal or subject-matters issues. Further as with all transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, the transcendence-and-sublimity/sublimation/supererogatory—de-mentativity going from procrypticism, or the preconverging-or-dementing—apriorising-psychologism (perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging—or-dementing—apriorising-psychologism) of positivistic meaningfulness-and-teleology, to notional—deprocrypticism will involve a psychoanalytically preconverging-or-dementing—apriorising-psychologism deconstruction/ontological-reconstituting—as-to-conflatedness of our present positivistic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology wherein this is presently postconverging-or-dialectical-thinking—apriorising-psychologism—stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology wherein the notional—deprocrypticism mindset/reference-of-thought reflects/perspectivates the positivistic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology at its uninstitutionalised-threshold in hollow-constituting—as-disjointed—
supererogation\textsuperscript{7}\langle as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing \textquotesingle-apriorising-psychologism\rangle, respectively as the mental-devising-representation of postconverging-or-dialectical-thinking\textsuperscript{10}–apriorising-psychologism representation and preconverging-or-dementing\textsuperscript{10}–apriorising-psychologism representation. Equally, with regards to human mentation capacity, the effect of limited mentation capacity characterising a given registry-worldview/dimension or intradimensional level and its social-construct not only defines its inherent vices-and-impediments\textsuperscript{1} but such a social-construct further and critically structures and stifles the natural renewal of human emancipative dispositions. For instance, non-positivism/middleievalism stifling inclinations to think outside of medieval mental-dispositiona and likewise with regards to our procrypticism. The bigger point of successive institutionalisations has to do overall with their specific emancipative registry-worldview/dimension framework as fertilising the cross-section of human practical and conceptual incidental issues and endeavours as well as the virtue constructs at the said registry-worldview/dimension. What is interesting with regards to an incidental study like psychopathy and social psychopathy with respect to the grander notional–deprocrypticism institutionalisation level within the treatment of the institutional-cumulation/institutional-recomposure\textsuperscript{as-to-}historiality/ontological-eventfulness /ontological-aesthetic-tracing-\textsuperscript{perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’}\rangle meta-conceptual frame is that it provides (besides being critically important to grasp by itself as a parasitising/co-opting phenomenon that can potentially arise in all human locales) the incidental and the-Good/understanding/notional–knowledge-reification–gesturing-\textsuperscript{in-prospective psychologismic–apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity \textsuperscript{-educed–existentialising/contextualising/textualising-contiguity }\}-- conflatedness \textsuperscript{-in [preconverging-disentailment_by] postconverging-entailment}/ontological-
primemovers-totalitative-framework\textsuperscript{73} backdrop and background that informs and deepens understanding of the overall meta-conceptual analysis of \textsuperscript{75}perversion-of\textsuperscript{74} reference-of-thought\textsuperscript{-<as-preconvergingly-apriorising/axiomatising/referencing-in-

in the first place, and further at a second-order level in wrongly implying the existential veridicality of logical-dueness (thus making irrelevant the construing of soundness or unsoundness) of \textsuperscript{5}logical-processing-or-logical-implicitation—supposedly-apriorising-in-
conviction-as-to-profound-supererogation ), which in turn further enlighten the incidental analysis of psychopathy and social psychopath. Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation. It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity\textsuperscript{71}) as the fundamental notion is institutionalisation/intemporalisation entropy (intemporal-preservation contiguity; by a skewing device (‘intemporality\textsuperscript{-asymmetric-subsumption-of-temporality’}), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference of the averageness of human temporal-dispositions, with corresponding formalisation and internalisation as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, towards the supersedingness of the intemporal-disposition which is inherently ontological and syncs with intrinsic reality in its ontological-primemovers-totalitative-framework\textsuperscript{77}, and hence its supersedingness as it induces overall social virtue-as-of-ontology). Institutionalisation/intemporalisation entropy (intemporal-preservation-entropy-or-contiguity–
or-ontological-preservation will carry the ‘virtuous and intellectual responsibility’ to recognise
that ‘perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>’ is an endemic human mental defect/perversion disposition retrospectively to
prospectively, and that this is ‘a lost cause’ due fundamentally to mediocrity principle of
humans having in reality ‘notional-firstnatures—temporal-to-intemporal-dispositions<so-
 construed-as-from-perspective-ontological-normalcy/postconvergence>’ and not ‘universal
intemporal-disposition’, and the construct of deprocryptic categorical-imperatives/axioms
should be anticipatory and preemptive of ‘perversion-of-reference-of-thought<as-
preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>’ perpetually at the
‘uninstitutionalised-threshold’. More like the modern notion of medicine doesn’t work on the
idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease
theory, but accepts that de-mentatively/structurally/paradigmatically bacteria, cancer, organ
failure, etc. cause disease and that the virtue of medicine is about how to understand and
preempt the above causations; likewise deprocryptic virtue operates on a realistic grasp of
human subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections at
uninstitutionalised-threshold and then strives to skew/deferential-formalisation-transference
for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-
preservation entropy/contiguity). We can garner such emanant (becoming) ‘psychoanalytic
unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic
registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s Things Fall
Apart on how a community where a traditional registry-worldview with its sense of purpose
had to deal with positivistic transcendence-and-sublimity/sublimation/supererogatory-de-
mentativity. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this
case the transcendence-and-sUBLImity/sublimation/supererogatory-de-mentativity is by cultural diffusion rather than by internal philosophical transcendence-and-sUBLImity/sublimation/supererogatory-de-mentativity. Basically, all transcendence-and-sUBLImity/sublimation/supererogatory-de-mentativity involve ‘a psychoanalytic-unshackling of this sort’. Counterintuitively, it should be understood that no transcendence-and-sUBLImity/sublimation/supererogatory-de-mentativity is rational because you rationalise by operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives but then the need for transcendence-and-sUBLImity/sublimation/supererogatory-de-mentativity due to perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and the registry-worldview’s/dimension’s relative-ontological-incompleteness-induced,-threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-attendant-intradimensional’-prospectively-disontologising-preconverging/dementing–apriorising-psychologism’ is putting the soundness of registry-worldview/axiomatic construct/categorical-imperatives in question (as reference-of-thought supersedes/precedes logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), so you rather have a reinvention as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the psychoanalytic-unshackling coming from its better grasp/ontological-primemovers-totalitative-framework of the world/intrinsic reality. Basically, we can say that human-emanant/becoming-transcendence is the first level of human invention (incremental inventions of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence-and-sUBLImity/sublimation/supererogatory-de-mentativity to liberate themselves before
secondnaturing/institutionalising for the new possibilities for the species; noting that, this
doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins… of the world,
miraculously came up with positivism to supersede/precede/override/utter medievalism, as they
were of medieval stock but by philosophical transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity could project beyond the limits of non-
positivism/medievalism even were they were still imbued with remnants of the old like
alchemic beliefs. Hence it is the transcendental process that is actually critical)! Now what
positive can come from psychopathy? From the intemporal perspective NONE. Besides specific
social consequences of psychopathy as the context of ‘socially-perceived-value as of social-
stake-contention-or-confliction’ moves from family, neighbourhood, school, company,
administration, business, criminality, etc. depending on the development of the specific
psychopath; by and large, ontologically and as reflected by the organic-comprehension-thinking
(organicalism/‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-
ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology), the
psychopath’s and other postlogic articulations have a nefarious effect, on social
meaningfulness-and-teleology particularly in ‘spheres of extended-informality-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-
teleology’ of society in general and social institutions, as the postlogic perversion-of-
reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-

And this, in its fulsome articulation taken beyond individual and social contexts to the comprehensive registry-worldview/dimension speaks of an underlying ‘\textsuperscript{7}perversion-of–reference-of-thought–\textsuperscript{<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > registry-
Further a registry-worldview/dimension that so misanalyses is not ‘shaped’ to review but rather syncretises/is-circular in its failing/not-upholding—<as-of-apriorising/axiomatising/referencing>—reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation rather than implying prospective ones for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of ‘reference-of-thought’—denaturing and relative-ontological-incompleteness, and endemised/enculturated (with a temporal rationalising reasoning that actually validates the veridicality of a human notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence as to shallow-supererogation—to—profound-supererogation that should not be confused with a secondnatured/institutionalised disposition in relation to virtue). This effectively forms the recomposured backdrop for prospective transcendental construct of deprocrypticism, as the ‘ontologising organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of’—reference-of-thought’—as-conflatedness—or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology) that reflects/perspectivates the protracted threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to—‘attendant—intradimensional’—prospectively-disontologising—preconverging/dementing—apriorising—psychologism’. But then, a psychopath can be so irrational that in temporal terms it might do a lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or even some other things but coming initially from a vice; as may be enabled by the psychopath’s faulty-mentation-procedure-deception-or-urge to attain an outcome). This dynamic element can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as
the questions are not only how culpable is the psychopath but extend to who is temporally
giving what from the psychopathic situation, what accounts and narratives should be believed,
etc., thus requiring an utter and intemporally uncompromising ontological conceptualisation to
construct an ontological-primemovers-totalitative-framework science. That said, beyond just
about such a present worldly take to societal issues, there is a bigger question of the universal
implications on human civilisation of postlogism in hollow-constituting as-disjointed-
misappropriation-of-meaningfulness-and-failing-intemporal-preservation and perversion-of-
reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomena as
reflected above regarding the contiguous process of intemporal-preservation-entropy-or-
contiguity–or–ontological-preservation behind human civilisation. It is equally important to
note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence
and initiation of psychopathy, equally has to do both with the nature of the psychopathic/postlogism mind contrasted to the nature of the ‘normal supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-

Straying into a basic elucidative anthropopsychology/the-anthropological-continuity (a novel hermeneutic/reprojecting/supererogating/zeroing approach to psychology); extrinsic-attrition is a fairly common social mental-disposition, at ‘uninstitutionalised-threshold’ as we are not inherently intemporal (the-Good as longness-of-register-of–‘meaningfulness-and-teleology) in our solipsistic projection but have the potential of temporal (shortness-of-register-of–

so-disambiguating as of reference-of-thought-devolving ontological-performance-including-virtue-as-ontology. The mechanism of institutionalisation/intemporalisation and formalisation ensures that because of the positive-opportunism—of-social-functioning-and-accordance that the intemporal-disposition (as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at 'socially-perceived-value as of social-stake-contention-or-confliction', it tends to skew ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our 'present institutionalised/intemporalised positivistic meaningful worldview' will seem to imply that we do have a first nature disposition to be inherently civilised to want to universally wish that everyone have to deal with a fair legal system, that anyway is to the credit of the institutionalisation/intemporalisation process, but that is a secondnatured/internalised construct). This explains why there is no need to breach the scientific principle known as the 'mediocrity principle', (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence creature in its moral/virtuous-agency); to explain why society tends to improve/progress. Rather, the intemporal-disposition de-mentatively/structurally/paradigmatically brings more overall good and hence skews ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-
Why? The foundation of a human psychological science should be fundamentally about ‘the contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-cumulation/institutional-recomposure\{}\textit{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-}\textit{perspective–ontological-normalcy/postconvergence-}\textit{reflected-‘epistemicity-relativism-determinism’} or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposuring from recurrent-utter-uninstitutionalisation, based-institutionalisation–unununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows for human-subpotency survival/existence/emanance/fulfilment/flourishing in existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency\textcircled{38}~sublimating–nascence,- disclosed-from-prospective-epistemic-digression and assumes a fundamental referencing base in the study of the psyche (noting that by saying ‘notion’ is meant, the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation covers the concepts of temporal preservation (including subknowledging\textcircled{95}, mimicking)-to-intemporal preservation, just as the notion of good covers the concepts of good-to-bad). Correspondingly, this notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involves ‘mental candoring’ where mental-devising-representation syncs with intrinsic-reality and mental decandoring where mental-devising-representation is a wrong/flawed perverted representation of intrinsic-reality. If we have an anthropological continuity/anthropopsychology, then the
continuity as entropy is the exercise of candoring as ‘straightness/soundness-or-ontological-good-faith/authenticity’-of-‘reference-of-thought referencing/registering/decisioning or registry-teleology’ (being a functional representation of how an intemporalising registry-worldview/dimension perceives itself) and decandoring as ‘perverted/brazen-but-unsoundness-or-ontological-bad-faith/inauthenticity’-of-‘reference-of-thought referencing/registering/decisioning or registry-teleology’ (being a functional representation of how a prospective intemporalising registry-worldview/dimension perceives the prior-and-'preconverging-or-dementing’-apriorising-psychologism registry-worldview/dimension); with this latter representation undermining the ‘temporal-dispositions solipsistic/emanant postlogic miscuing presumptuousness/arrogation effect’ as the unconscionability-drag responsible for ‘perversion-of-‘reference-of-thought’<as-preconvergingly-

The philosophical conceptualisation of stranding is rather ‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation’ which serves to avoid the supplanting–conviction-as-to-profound-supererogation—of-′attendant-intradimensional’- postconverging/dialectical-thinking—apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex (instead of rightly aligning by the dialectically-or-contendingly-out-of-phase reflex or transversality<for-sublimating–existential-eventuating/denouement>—of-affirmative-and-unaffirmative–disambiguated-′motif-and-apriorising/axiomatising/referencing’ reflex) of ‘intemporal-disposition’ being wrongly attributed to all interlocutors by reflex without ensuring that their disposition is effectively intemporal and not temporal. de-mentionation-{supererogatory-ontological-de-mentionation-or-dialectical-de-mentionation—stranding-or-attributive-dialectics}, as to its corresponding notions of preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> and postconverging-or-dialectical-thinking—apriorising-psychologism—stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>, are central to transcendental psychoanalytic-
unshackling and memetic-reordering. Stranding ensures the ‘upholding of the ontological-veridicality/ontological-contiguity\(^7\) of \(^\text{8}\) reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective) of the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ by articulating the veridically contiguous ontological mental-devising-representation of the transcending (and so, in a veridical dialectic and existential psychoanalytic reorientation as oblongated/decandored in representing/implying defective/perverted temporality ). Hence the need for ‘collapsing’/overriding of the transcended registry-worldview’s/dimension’s institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology with prospective transcending/superseding reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in anticipation and preemption as untenability/internal-contradiction/internal-incoherence/institutional-constraining, as secondnaturings and ‘not as temporal-dispositions transformation’ to wrongly imply a universal dimensionality-of-sublimating (<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) human predisposition. For instance, the veridical stranded mental-devising-representation we may have from a positivistic standpoint of the non-positivism/medievalism mind as oblongated/decandored is not recognised by the non-positivism/medievalism mindset/reference-of-thought by its syncretic reflex to be functionally in its mental straightness and candored (even though such a representation is ontologically wrong regarding its mental-devising-representation with respect to the its uninstitutionalised-threshold requiring positivism institutionalisation/intemporalisation). Prospectively, the de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics of our own mental-devising-representation by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism
as oblongated and decandored at our uninstitutionalised-threshold requiring notional-deprocriptism institutionalisation/unintemporalisation will equally meet with an epistemic-totalising—self-referencing-syncretising wrong reflex of postconverging-or-dialectical-thinking—apriorising-psychologism—stralned-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> that will not recognise its slantedness and decandored veridicality. The intemporal-disposition is rather about emphasising institutionalisation/intemporalisation percolation-channelling—<in-deferential-formalisation-transference> as the means and basis for prospective institutionalisation/intemporalisation. This highlights the vacuousness in all transcendental relations wherein the transcended is vacuous with respect to the transcending. Such vacuous transcendental manifestations involves dialectically (the transcended and transcending relation with regards to:) deductive narratives instances, life episodes, life schemes, general being/existential dispositions and the specific existentialism/full-existential-depth-implications involved with a registry-worldview/dimension; wherein temporal-dispositions present-consciousness (in their illusions-of-the-present) perpetually portray candor and straightness but on retrospection are shown to be decandored and oblongated which ontologically implies these are veridically of de-mention (supererogatory—ontological—de-mention-or-dialectical—de-mention—stralning-or-attributive-dialectics) as of preconverging-or-dementing—apriorising-psychologism—stralned-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> notwithstanding their wrongly projected postconverging-or-dialectical-thinking—apriorising-psychologism—<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>. This is ontologically foundational (more like the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument grounding spirit of arithmetic cannot be undermined in any way possible and you then have the possibility of sound arithmetic thereafter). de-mention (supererogatory—ontological—de-mention-or-
dialectical–de-mentation—stranding-or-attributive-dialectics) prevents temporal-dispositions (in the articulation and re-articulation of narratives) by the ‘temporal-dispositions disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-articulated are of intemporal-disposition teleology’ hence wrongly implying candored and straightness, whereas these are in effect <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> iterating narratives of temporal-dispositions teleologies’; and so, by way of coring which involves accounting-for-temporal-dispositions-defect/preconverging-or-dementing<apriorising-psychologism (the-perversion-of-the–categorical-imperatives/axioms/registry-teleology>for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) and avoiding setting-aside which rather involves glossing-over-temporal-dispositions-defect/preconverging-or-dementing<apriorising-psychologism (the-perversion-of-the–categorical-imperatives/axioms/registry-teleology>for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). This ensures in effect ‘the de-mentation (supererogatory–ontological–de-mentation–dialectical–de-mentation–stranding-or-attributive-dialectics), in-a-contiguity-of-increasing-ontological-normalcy/postconvergence’.

Ontology is an altogether coherent construct with no room for excepting from coherence, which then simply implies the superseding of any such pretense of an excepting. (For instance, we can be calculating the sum (5 * 5)+5 –5, and make the mistake to say 5 * 5 =24 but then overlook it and agree together that the answer should be 24 and go on to resolve the entire equation as 24. This type of non-ontological thinking (a non-ontological thinking is also known as a misanalysis or misthinking or misreasoning or mislogic or preconverging-or-dementing<apriorising-psychologism<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> or <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> or notional-

is highly prevalent in the extended-informality-(susceptible-to-effecting parsimony-as-of-shoddiness-
and-incompleteness-to—meaningfulness-and-teleology) of society as social-aggregation-enabling, the reason we strive to formalise whether in terms—as-of-axiomatic-construct of laws, institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition constructs cannot accommodate non-ontology since reality doesn’t adjust to man and it is man that adjusts to reality. The de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}, in-a-contiguity-of-increasing-ontological-normalcy/postconvergence implies that an interlocutor’s retrospectively demonstrable narratives miscuing and subsequent perversion-of reference-of-thought-as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation speaks of the real nature of its present and prospective narratives as decandored and oblongated in effect ontologically but that by an illusion-of-the-present reflex as well as for the sake of functioning we tend to represent by default such miscuing and perversion-of reference-of-thought-as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation meaning as straightness/candored (intemporal) which is not ontologically veridical; in which case the prospective transcended registry-worldview strands such meaningfulness as decandored/oblongated (subknowledging/mimicking) even if the mental-disposition of the transcended registry-worldview is in an illusion-of-the-present straightness/candoring mental-devising-representation of meaning. Stranding defines the ‘decandored registry-worldview/dimension dialectically-or-contendingly-out-of-phase/dialectically-primitive) mental-devising-representation’ such as the mental-devising-representation of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procripticism, and so, beyond the illusion-of-the-present/present-consciousness of all these cumulative/recomposuring–attendant-ontological-contiguity >successive registry-worldviews/dimensions which in their amplituding/formative–epistemicity totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present will tend to wrongly recover/syncretise to project straightness/candoring of mental-devising-representation as intemporality /longness rather than decandored/oblongated mental-devising-representation as temporality. Stranding is validated by the fact that transcendental/transdimensional/interdimensional/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation speaks of an ‘institutionalisation/intemporalisation constraint/secondnaturing’ and ‘not temporal-dispositions transformation into intemporal-disposition as dimensionality-of-sublimating’; and this idea is so foundational that it is beyond-and-supersedes/precedes/overrides/utters the consciousness-awareness-teleology of temporal-dispositions such that ‘they are not called upon in argumentation’, just as we are not
consciously called upon to establish whether blood flows in our body, as it is a preceding/superseding truth that supersedes/precedes/overrides/utters our thinking or not of it! Thus de-mentation\{supererogatory\-ontological\-de-mentionation-or-dialectical\-de-mentionation\-stranding-or-attributive\-dialectics\} is rather intemporally/ontologically conceptualised for its validation and integration in the survival-and-flourishing imbued institutionalisation/intemporalisation percolation-channelling-\{in-differential-formalisation-transference\} (formalisms and internalisations) mechanism with the implied ontological-primemovers-totalitative-framework and positive-opportunism—of-social-functioning-and-accordance as ontological entrapment, with no temporal-dispositions firstnature-or-intemporal-level-validation but rather secondnatured-or-institutionalisation/intemporalisation-level-validation. <in-deferential-formalisation-transference> and highlighting, in the bigger scheme of things, the relative sublimating efficiency and positive-opportunism—of-social-functioning-and-accordance of a positivism-based rule of law, social organisation, polity, nation-building, etc. based on positivism axioms and which inherent effectiveness and supersedingness/transcendence breaks the non-positivism/medievalism mindset/ reference-of-thought (which are not rational-empirical/positivising and tend to essences, alchemic-logic, sorcery constructs, etc.) with its defective reference-of-thought categorial-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. This takes an utterly impersonal form (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. The ‘transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation complex-of-stranding’ refers to the counter-intuition from a registry-worldview/dimension perspective in not representing itself as stranded (decandored or oblongated or in threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to-attendant-intradimensional—prospectively-disontologising—preconverging/dementing—apriorising-psychologism when it is demonstrated that it is perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as perversion-of-the-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation, and rather syncretises in operating those same reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation prospectively; while that same registry-worldview/dimension intuitively recognises that a prior/superseded registry-

The reason for the human ‘transcendental/transdimensional/interdimensional\[^{5}\] maximalising-recomposuring-for-relative-ontological-completeness –unenframed-conceptualisation complex-of-stranding’ is that a registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology\[^{10}\]–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are fundamental and constitutive functional elements of its existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation and hence the complex when \[^{amplituding/formative-epistemicity}<\text{totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present}.\] But then, if such a complex is to stand, the transcendental exercise by which man left the cave-to-so-called-modern-man wouldn’t have happened, and any registry-worldview/dimension (retrospective, present, prospective) that fails its own de-mentation\[^{14}\] (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) as to elucidation-and-superseding-of-its-perversion-of reference-of-thought\[^{as-preconvergingly}\] apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \[^{},\]–as-to-preconverging-or-dementing\[^{12}\]–apriorising-psychologism to allow for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for transcendence-as-the-grander-possibility-for-human-survival-and-flourishing is obviously failing/not-upholding\[^{as-of-apriorising/axiomatising/referencing}\] its ‘own homework’ for the bigger picture in the human species survival-and-flourishing scheme, notwithstanding it is at the backend of the institutional-cumulation/institutional-recomposure\[^{as-to-}\]

The idea of understanding the ontology of human temporal mental defect is not to ‘idle’ in a temporal circularity that defeats-and-debase the grandor of a universal/intemporal projection but rather strives to better stir man towards the intemporal-and-ontological as virtue, an exercise which while of presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with regards to human temporality /shortness wouldn’t however acquiesce to the naïve disconcertment that takes the presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ of intemporality /longness for temporal correctness towards which the intemporal-disposition is definitely intransigent and uncompromising for effective intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. Such a rational-realism as notional~deprocrypticisation disposition views the fundamental anthropopsychology drive for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity which involves de-mentation

The notion of the social-construct as intemoral/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming is actually an aspirational ideal and reference for ‘human intemoral projection towards it’ but it isn’t ontologically veridical by the inherent solipsistic human nature due to a notional–firstnatedness—temporal-to-intemoral-dispositions-so-construed-as-from-perspective–ontological-normalcy/postconvergence human reality, and thus the need for institutionalisation to skew (‘intemporality–asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory-de-mentativity) towards intemporal-preservation as human secondnaturing. This elucidation is vital in pointing out that the teleology of rational-realism as notional-deprocrypticism (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism in existence as ontological (so-reflecting <amplituding/formative> disposedness/psychologismic-construct-{as-to-orientation/value-construct/valuation-and-derived-parameterising} and <amplituding/formative> entailment-{as-to-totalising-contiguous/coherent-factuality-of-variability})’ and so as to the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility -(imbued-and-hermeneutically/reprojectively/supererogatingly/zeroingly-educing’-human-subpotency-epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and-re-apriorising/re-axiomatising/re-referencing–conceptualisation)), is not to strive for the wrong notion of human intemporal/ontological ‘congruence’ with respect to knowledge and virtue (as human dispositions are not congruent, as thus the idea of ontological-congruence of the intemporal-disposition with temporal-dispositions will compromise intemporality, and hence compromise ontology), but rather to aspire for a transversality-for-sublimating-existential-eventuating/denouement-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing of human intemporal-disposition with respect to temporal-dispositions (as this upholds and doesn’t compromise the ontological veridicality in intemporal-disposition projection as to the ontological reality of human notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence at uninstitutionalised-threshold). That is, knowledge-notionalisation involving grasping and understanding both the ignorances/desublimation/temporal-dispositions and ideals to better skew/deferential-formalisation-transference towards idealism as the fulsome ontology, and not failing/not-
upholding-as-of-apriorising/axiomatising/referencing> to understand or overlooking the ignorances/desublimation/temporal-dispositions as the temporal on the wrong basis that all that matters is the ideal as intemporal. Furthermore, temporal-dispositions tendency to pervert/dement/subknowledge-preconverging-or-dementing-as-if-of-sound knowledge-mimick-and-syncretise at uninstitutionalised-threshold with the dialectical consequence of the development of the <cumulating/recomposuring–attendant-ontological-contiguity>-successive registry-worldviews/dimensions (institutionalisations) validates the appropriateness of striving rather for transversality-for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing> and not nested-congruence to uphold intemporality, and hence a complete ontology. To put it in other terms, for instance, transversality-for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing> of ‘keeping the faith’ only in the intrinsic operation of rules of arithmetic (transversality-for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing> among interlocutors, in principle or notionally, so that at all times it is always about the intrinsic reality of the arithmetic and not the agreement-disagreement of any human interlocutors as we are all mortals and likely to corrupt such intemporal rules with our mortality out of an intemporal frame of reference that is transcendental-enabling/sublimating/supererogatory–de-mentativity) is vital to preserving ‘ontological arithmetic’ as transcendental-enabling/sublimating/supererogatory–de-mentativity, whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with other humans (interlocutors logical nested-congruence) instead of intemporal exercise, it is obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be corrupted and/or teleologically-degraded as more likely than not the intemporality/purity of
mathematics will be compromised to human mortals stakes of social-and-temporal-trading as social-aggregation-enabling, and so as of postlogism\textsuperscript{78}-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of \textsuperscript{84}reference-of-thought-\textsuperscript{85} devolving ontological-performance\textsuperscript{72}-<including-virtue-as-ontology>. * It should be noted that in de-mentation\textsuperscript{14} (supererogatory\textsuperscript{--ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics}),-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence dialecticism of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity involving the transcended and the transcending dimensions, the terms highlighting the transcended dimension like decandored, oblongated, dialectically-out-of-phasing/dialectically-primitive, etc. (as to its superseded Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100}) do not carry the same connotation as a shallower temporal analysis intradimensional to the transcended dimension (as to its given institutional-development—as-to-social-function-development and living-development—as-to-personality-development so-referenced to its given Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100}). The idea is not to idle in articulating meaningfulness within the dimension in need of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. For instance, a positive mind’s articulation of defective meaningfulness in non-positivism/medievalism registry-worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in terms—as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful purposefulness but rather to project a positivistic worldview’s transcendental meaningful purposefulness. In that sense, actually for the social scientist and philosopher words like
dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the ordinary and temporal connotations of stigmatising under a temporal extricatory preconverging–de-mentating/structuring/paradigming. Rather, these are critical and actively sought after notions that provide the ‘dialectical backdrop’ for enabling prospective transcendence-and-sUBLImity/sublimation/supererogatory–de-mentativity by psychoanalytic-unshackling/memetic-reordering/institutional-recomposing. The idea is that these notions are veridically dialectical notions that apply in all transcendence-and-sUBLImity/sublimation/supererogatory–de-mentativity unlike a simplistic ‘history fixating conceptualisation’ will have. In other words, our non-positivism/medievalism ancestors’ possibility of being-represented/mental-devising-representation as dialectically-or-contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive construction of a superseding/transcendental registry-worldview/dimension that brought about the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in a notional~deprocrypticism institutionalisation/intemporalisation with respect to procrypticism. In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are ‘capacity-wise same’ as per notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> going by a preconverging/postconverging–de-mentating/structuring/paradigming of mentation-capacity (shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} to longness-of-register-of–meaningfulness-and-teleology\textsuperscript{100}) with respect to the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, but for the semblance of the superiority of latter registry-worldviews/dimensions which is nothing but the result of being at the backend of the institutional-cumulation/institutional-recomposure–(as-to–historiality/ontological-

Ontological-normalcy/postconvergence equally involves articulating the possibility for the supersedingness of the intemporal-disposition over temporal-dispositions as intemporalisation/institutionalisation, and so, involving ‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> accountability’ beyond an ‘idle temporal-dispositions stigmatisation’. In that spirit, it can be reasoned that the intradimensional ‘ontological blindspot’ in human mental-devising-representation (wherein temporal perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> by miscuing, and in subsequent derivation of disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising of temporal-dispositions perversions/defects of postlogism slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought- devolving ontological-performance-<including-virtue-as-ontology> conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing –apriorising-psychologism), actually points to a decandored/slantedness of the temporal-dispositions (and not candored/straightness), and is definitional of all registry-worldviews/dimensions perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, as these are in epistemic-decadence-and-derived-epistemic-decadence, i.e. not

In this regard, the hermeneutic/reprojecting/supererogating/zeroing exercise originates from an even
more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this ‘rather relatively benign idiosyncrasy’ in this paper as the reader may come across and is the explanation for many of the author’s insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and creative insight that allows the hermeneutic/reprojecting/supererogating/zeroing design in a ‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’ analogical to a twisty puzzle cube exercise in order to infer and arrive at a profoundly explanatory hermeneutic/reprojecting/supererogating/zeroing insight extending to the possibility of a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposing possibilities for transcendental institutionalisation/intemporalisation of notional–deprocrypticism (superseding the vices-and-impediments of, as well as human emancipation over, procrypticism). Such ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as prospective reference-of-thought of renewing existentialism/full-depth-of-existential-implications of transdimensional-meaningfulness–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in various shades is just as critical for the necessary reconstitutive insight (deconstruction) that can be highly evasive and difficult to fully grasp at different registry-worldviews/dimensions meaningful-references or rather dialectically successive existentialisms. - A ‘circular dialectical dynamism of organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-reference-of-thought’–as-conflatedness or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) by virtue of intemporal higher teleologies, distracted by threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation –as-to–

the implied implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-
arrogation, assumptions, value-reference and teleology(10)) and wrongly imply their logical
contention validity. Taken to the bigger registry-worldview/dimension or intradimensional level, this points to a registry-worldview/dimension derived-perversion state of temporal-dispositions at the present uninstitutionalised-threshold involving the subknowledging/mimicking-and-syncretising of the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness known as procrypticism–or–disjointedness-as-of-reference-of-thought, calling prospectively for deprocrypticism. Without ‘intemporal-prioritisation-of-reference-of-thought’–as-conflicatedness, or–ontological-reprojecting disposition the possibility for transcendence-and-sublimity/sublimation/superseditive–de-mentativity from perversion-of-reference-of-thought as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supersedition (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology to prospective ones which are intemporal-preservational, the institutional-cumulation/institutional-recomposure–as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism process will not occur and be regenerative, as the circumventive/distractive-temporal-prioritisation-of-reference-of-thought mental-dispositions rather strives to arrive at an equilibrium at the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a registry-worldview/dimension whether these are intemporal-preservational or not, hence have little transcendental capacity. Going by an ‘ontologically contiguous comparison’ with reference to Arithmetic where a condition was to cause a character to resolve additionality as 1+3=5, 2+5=8, 5+6=12, etc., the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-
notional-projective-perspective) of additionality with regards to this character will always
involve as of reference-of-thought–categorical-imperatives/axioms/registry-teleology that
subtracts 1 from the results of that character’s operations of additions (as the
imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual
principles of additionality (its traditional reference-of-thought–categorical-
imperatives/axioms/registry-teleology of simply summing directly) will be existentially
rendered null and void in order to allow for intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation. Now supposed such a framework (reference-of-thought) for
resolving Arithmetic calculations now involves the contribution of 6 characters working in
collaboration with each contributing their specific arithmetic principle role while taking
cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-
completeness-of- reference-of-thought, and so taking into account the prior mentioned
character with its defect of additionality; wherein such a framework is BODMAS-based with
character B working on brackets operations, character O working on order operations, character
D working on division operations, character M working on multiplication operations, the
priorly mentioned character A working on addition operations and character S working on
subtraction operations, and so (from ontological-normalcy/postconvergence epistemic-or-
notional-projective-perspective) setup for resolving arithmetic calculations (ontological-
categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-
contiguity–or–ontological-preservation (as the usual BODMAS Arithmetic rules) should apply
but this is no longer existentially the case in this instance, where the equation is for instance
$7(\sqrt[4]{4^3}+3-1)-\{6+4-2\}/2$. Going by the natural arithmetic rules for BODMAS, the equation will
be resolved first with the brackets, and within the brackets for the first brackets the order
operation is first carried out, that is, $\sqrt{64}=8$ and then addition $8+3=11$, then subtraction $11-$
1=10. For the second brackets, addition as 6+4=10, then subtraction as 10-2=8. The division operation then follows with the second brackets result as 8÷2=4. Then the multiplication operation with the first brackets result as 7×10=70. Finally, comes the subtraction with 70-4=66 as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence). But then, in this particular case where character A (Addition) operation of additionality is perverted as stated above as a result of its condition, the equation will resolve as √64=8, 8+3=12, 12-1=11, for the first brackets, and 6+4=11, 11-2=9, for the second brackets. The division operation with the second brackets yields 9÷2=4.5, and the multiplication operation with the first brackets yields 7×11=77. Finally, subtracting both brackets gives 77-4.5=72.5 as the final result which is ontologically wrong (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective), and points to the fact that all the 6 BODMAS characters, not only A (Addition) the additionality defect character have failed ontological-veridicality/ontological-contiguity as of their relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to-
attendant–intradimensional’–prospectively-disontologising–preconverging/dementing
apriorising-psychologism’ (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective), as ‘reference–of–thought–categorical-imperatives/axioms/registry-teleology, for–intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are not by themselves the definitive basis for ontology/intrinsic-reality/existential-reality as these are only as pertinent as they are ontologically-veridical/ontologically-continuous/contextually-contiguous (in ontological-normalcy/postconvergence). This ontological state with respect to all the characters registries (not only A) is known as perversion-and-derived ‘perversion-of ‘reference–of–thought’<as-
preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as–of–unsoundness–
In which case the resolution for the Arithmetic equation (supposedly where A, Addition, is unamendable due to a condition), will involve the other characters taking cognisance of A’s (Addition’s) condition and adhere to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation over projected \(<\text{amplitudying} / \text{formative}>\) wooden-language\(\langle\text{imbued—temporal—mere-form/virtualities/dereification/akrasiatic—drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology}\rangle\) in affirming ontology/ontological-veridicality/intrinsic-reality (as the appropriateness-of-reference-of-thought-as-of-conflatedness\(\rangle\) over A’s induced preconverging-or-dementing-reference/ perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >). Thus the new categorical-imperatives/axiom/registry-teleology\(^{[100]}\) for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation deployed with respect to resolving calculations (ontological-completeness-of-reference-of-thought will integrate the notion that additionality requires subtracting 1 from its results as well as taking cognisance that other characters will be perverted in their operation if they do not take cognisance of A’s (Addition’s) condition and subtract 1 from it before their operation (whether unconsciously by ignorance, expediently by affordability, and consciously by opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). For instance, B (Brackets) is still in a position to articulate an ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity\(^{[67]}\) of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective) by factoring in all the defects as follows: by reverting all other characters operation up to the point they had to deal with A (Addition) and subtracting 1 from the results at these point before allowing the other characters operations, which then yields the right result. That is
77÷7=11 and 4.5×2=9 as reverting back, then 11-1=10 and 9-1=8 to factor in A’s (Addition’s) additionality defect to yield the results of the two brackets. Before then letting back the division and multiplication operations for both brackets respectively, giving 8÷2=4 and 7×10=70. Finally 70-4=66, giving the final result that is ontologically-veridical (in ontological-normalcy/postconvergence). So this approach is the new reference-of-thought–categorical-imperatives/axioms/registry-teleology⁴⁰—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontologically-veridical/of-intrinsic-reality that B should be operating. In the bigger scheme of things, this explains institutional-cumulation/institutional-recomposurer-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism–determinism’>/memetic-reordering/psychoanalytic-reorientation with respect to an animal that is always bound to perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/<as-to-preconverging-or-dementing–apriorising-psychologism by the very fundamental veridicality of its notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature. It further speaks of how B will likely act in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation (of uninstitutionalised-threshold, where the constraining elements of institutionalisation are not available, i.e. social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness) of perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, internal-contradiction induced from ontological-primemovers-totalitative-framework inoperance, de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) the perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, and intemporal projection superseding the transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/inauthenticity/nihilistic as of temporality, with corresponding formalisation and internalisation as values), thence defining the given temporal-dispositions of B aetiologisation/ontological-escalation to be accounted for from similar individuations in such situations as a registry-worldview/dimension problem, in order to ensure intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as ontology.

In the bigger scheme of things, this calls for a prospective registry-worldview/dimension
institutionalisation articulation that supersedes/overrides such a temporal dynamism of perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > dispositions at various social roles going from A’s condition, and the potential overlooking of the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation dispositions by all the other characters (B, O, D, M and S). Underlying such an intemporal orientation is the idea that fundamentally the conjugation of such an de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) and subsequent conjugation as with B above to the temporal-dispositions of a registry-worldview/dimension speaks fundamentally of the uninstitutionalised-threshold of that registry-worldview/dimension, reflected/perspectivated by the marginal perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > defect of its reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation with the prior registry-worldview/dimension now preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, with a prospective institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as the new straightness/candored-and-dialectically-or-contendingly-in-phase. de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) doesn’t confuse appropriateness of the prior reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation for the prior institutionalisation as implying the prior mental-devising-representation is appropriate for
prospective institutionalisation as it needs to undergo its own requisite ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to enable and regenerate intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This by itself explains why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing–apriorising-psychologism with respect to one another (from the prospective perspectives), and not that we are talking about different species of humans, as transcendentalism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is the foundational concept retrospectively, presently and prospectively; even though by the illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage, all dimensions, and not only ours, tend to think of themselves as definitely mentally straight/candored-and-dialectically-or-contendingly-in-phase with no uninstitutionalised-threshold which is obviously fallacious. The reason for this is that ‘postconverging-or-dialectical-thinking–apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity–of–reference-of-thought (as mental straightness/candored-and-dialectically-or-contendingly-in-phase) starts-and-ends/is-sound at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation where the reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy/configuity is in ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective). Where instead such reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is of notional-discontiguity/epistemic-discontiguity <-shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema>/non-ontological-and-non-
contending-referencing-<thus-ontologically-or-contendingly-reflected-or-perspectivated-as-of-preconverging-or-dementing apriorising-psychologism> (not-veridical-thinking-reference-rather-preconverging-or-dementing -reference), it is dementing (preconverging-or-dementing apriorising-psychologism-stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>). This is further compounded as of amplituding/formative–epistemicity totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, that is, as wrongful upholding and projecting postconverging-or-dialectical-thinking apriorising-psychologism-stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> mental-devising-representation as so-manifested at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation while rather reflecting the uninstitutionalised-threshold that requires renewed mental-devising-representation, and this is not ontologically consistent and fundamentally undermines and overlook the idea of an insight about a prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity with the present registry-worldview/dimension corresponding to the superseded perversion-of reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview/dimension. Thus but for the inherent difficulty of living and experiencing the effective personhoods-and-socialhood-formation existentialism across all the registry-worldviews/dimensions, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument 'beyond any one registry-worldview/dimension meaningfulness' like ours is perfectly possible in garnering a more profound and informed insight on human nature whether presently, retrospectively to prospectively. In the bigger scheme of things, just as logic can only be grounded on coherent and concrete reference-of-thought–categorical-imperatives/axioms/registry-teleology.
based articulations for its ontological effectiveness and veridicality, human ontological transcendental possibilities arise from human individuations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as to renewed logical-basis/logic,-as-derived-from—transversality<for-sublimating—existential—eventuating/denouement>—of-affirmative—and-unaффirmative—disambiguated—motif—and—apriorising/axiomatising/referencing’ going beyond the reference-of-thought—categorical-imperatives/axioms/registry-teleology within just a given registry-worldview/dimension as if it were the absolute mental-devising-representation with respect to intrinsic-reality, and instead hold that transdimensional/transcendental (unlike ordinary meaning which reasons only on intradimensional reference-of-thought—categorical-imperatives/axioms/registry-teleology) is what brings us closer to absolute mental-devising-representation with respect to intrinsic-reality as ontological-normalcy/postconvergence (prospective-transcendence—in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). Memetism as suprastructural-meaningfulness is able to do that because it can proxy ontological-normalcy/postconvergence in a dynamic dialectical juxtapositioning/doppler-thinking of ‘postconverging—or-dialectical-thinking—apriorising-psychologism mental-devising-representation’ and ‘preconverging—or-dementing—apriorising-psychologism mental-devising-representation’ from successive ontological dialectical-moments of human shallow limited-mentation-capacity—as of relative apriorising/axiomatising/referencing—of—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—constitutedness—in—preconverging—entailment] to deeper limited-mentation-capacity—as of relative apriorising/axiomatising/referencing—of—attendant—ontological-contiguity—educed—

grips with a shifting but more and more profound notion of reference-of-thought (in-phasing) and corresponding ontological-veridicality/ontological-contiguity as enabled by ontological-normalcy/postconvergence. The conceptual pertinence in this Arithmetic ontological-contiguity comparison can be rearticulated as follows for greater clarity. As previously highlighted the developmental psychology of the psychopath from childhood to adulthood, involves a child psychopath who is dysfunctional as its subknowledging-impulse/compulsive-dementing/postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation is relatively transparent to interlocutors and it induces a ‘delirious effect’ given that it hasn’t yet maturated, is not yet indirect, is not yet spatialising, is not yet credulous and is not yet crafty in ‘its postlogism-as-of-compulsing--nonconviction/madeupness/bottomlining ⟨decontextualising/de-existentialising-of-attendant-intradimensional–apriorising/axiomatising/referencing–induced-disontologising–of-the–attendant-intradimensional–ontologising–imbued–contextualising(existing–attendant-ontological-contiguity–in–shallow-supererogation)–as-to-disontologising–perverted–outcome-sought-precedes-existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing–logical-dueness⟩; conditions which it increasingly attains from adolescence to adulthood with a corresponding inducing of the development of social psychopathy as its psychopathy conjugates/inflects/gets-mimicked with the temporal-dispositions of ignorance, unconsciously, and consciously with affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, in an absolving/fleeting/escaping-reflex–logic eliciting social psychopathy involving moving from various non-veridical/hollow sets-of-postlogic-in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking–iterative-looping–set-of-dereifying-hollow-narratives-and-acts⟩ as
absolving/fleeting/escaping-reflex–logic, to others and from different sets of interlocutors to others. It is obvious that A’s condition/subknowledging-impulse/compulsive-dementing disposition as an adult psychopath isn’t systematic with every interlocutor but rather it arises only in the face of perceived–social-stake-contention-or-confliction-and-confliction-targets and furthermore the profoundness of the postlogism-slantedness manifestation is directly related to the gravity of the perceived–social-stake-contention-or-confliction the situation and how the ‘evolving social psychopathy situation permits’. Hence the notion of A having an absolute condition wherein it increments additionality by 1 is rather an absolute ideal conceptualisation, as in reality it is a question of degree and highly circumscribed with the adult psychopath who needs to have a postlogic-equilibrium that can be socially-functional-and-accordant, unlike the dysfunctional child psychopath. This comparison equally articulates the nature of uninstitutionalised-threshold. Consider B (together with the other BODMAS characters) in the instance where despite A’s conditions they were to stick to the registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology thus effectively producing the wrong result 5 for the particular equation which is not intemporal preservational (not ontologically ontological-normalcy/postconvergence) and likewise for all other equation where A’s condition applies, we’ll then be talking about an uninstitutionalised-threshold. The implication is that the registry-worldview/dimension then loses its qualification as being intemporally-preservational, and the psychological tool that is then elicited (from a prospective and new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as articulated with the arithmetic technique that corrected the equation result from 5 to by adjusting for A’s condition which is now the reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing-reference/ontologically-veridical/ontological-contiguity registry-worldview/dimension) is

This insights perfectly highlight that our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t have any end to itself but for such dialectical readjustments to ontological-veridicality as ‘postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity\textsuperscript{69}–of–reference-of-thought/candored-and-dialectically-or-contendingly-in-phase with regards to an intemporal-preservational registry-worldview/dimension institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and with superseded/transcended registry-worldviews/dimensions which are not intemporal-preservational at their uninstitutionalised-threshold\textsuperscript{103} as preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism/oblongated/decandored-and-dialectically-or-contendingly-out-of-phase explaining the nature of mental-devising-representation of all institutional-cumulation/institutional-recomposure\textsuperscript{6}–as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing\textsuperscript{37}–perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’\textsuperscript{7}>, whether from the perspective of a retrospect, our present or prospective point-of-reference. Another aspect highlighted by the Arithmetic equation comparison is with respect to the appropriateness and defects of meaningful references with respect to ontological-veridicality/intrinsic-reality. The comparison highlights 3 transversality\textsuperscript{46}–for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and–

This is effectively the pedestalled state of psychopathic postlogism-as-of ’-compulsing-nonconviction/madeupness/bottomlining} 

from one set-of-postlogic-narratives to the other and one set of interlocutors to the other, in line with its ‘short cut’ mental relation to meaningfulness as extrinsic-attribution (the temporal eliciting of the temporality/shortness of others is the sufficient basis for getting one’s way) as opposed to intrinsic-attribution wherein the intrinsic ontological-veridicality of meaning is the complete and sufficient basis for its pertinence and upholding. This subknowledging impulse/compulsive-dementing disposition points out that the actual and given meaningfulness being subknowledged/pervertedly-represented is ontologically-veridical both registry-wise (soundness-or-ontological-good-faith/authenticity-of-reference-of-thought-wise) and logic-wise (the normal arithmetic operation of the BODMAS equation) as it is intemporally preservational and thus ontologically-veridical/reference-of-thought/ontological-contiguity. It is this pedestal that is the organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought-as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal, organic as it is both registry-wise (soundness-or-ontological-good-faith/authenticity-of-reference-of-thought-wise) and logic-wise striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. It is the superseding and intemporal pedestal for articulating ontological meaningfulness (intrinsic-attribution). The third pedestal as demonstrated involves the integrating and by temporal-dispositions both unconsciously (ignorance) and consciously (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) with A’s condition/sub-knowledging impulse as if it was ontologically veridical, and obviously leading to the wrong
result thus failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In the case with B it involved resolving the Arithmetic equation as if A’s condition was appropriate resulting in .5 which is ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity ’<shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema’>’ rather than which is ontologically veridical. This is the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to-‘attendant- intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising- psychologism> pedestal, as registry-wise it is not striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and so fundamentally its logical-contention is voided (as apriorising–registry precedes and defines logical pertinence), such that such a disposition that integrates subknowledging -or-mimicking-impulse/compulsive-dementing registry-worldview-wise/dimensional-wise speaks of the registry-worldview/dimension as in 14 de-dentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding- or-attributive-dialectics) at that uninstitutionalised-threshold. The fourth meaningful reference is actually a variance of the given organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of–reference-of-thought’–as-confledness–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) pedestal which is registry-wise and logic-wise pertinent. Ontologically-speaking, a temporal naivety with regards to psychopath and its protraction as social psychopathy is that going by the dynamism of its faulty-mentation-procedure-deception-or-urge towards ‘extrinsic-attribution’ (the eliciting of the temporality/shortness of others is the sufficient basis for getting one’s way), is that the number of people ‘convinced’ by perverted extrinsic-attribution involving social-and-temporal-trading can have any bearing to the ontological-veridicality/intrinsic-reality in any way. While temporally-speaking, psychopathic situations often lead to a-country-of-the-blind-and-the-one-eye kind of scenario, wherein a thousand blinds may strive to convention out the one-eye, but then it wouldn’t still cut it, ontologically-speaking. (Certainly, it is equally and very possible that if such a one-eye isn’t beholden to a ‘sense of intemporality’ and it is rather temporally-inclined, it might
equally take the easier route of reasoning in terms–as-of-axiomatic-construct of country-of-the-blind temporality/shortness whether with respect to temporally outdoing or undermining the phenomena by acting in a manner that is overall of a temporal/shortness-of-register-of-meaningfulness-and-teleology nature. But that will still be temporality/shortness and the notion of an aetiologisation/ontological-escalation as of intemporality/longness will no more be better advanced. Further beyond and more than just with respect to one case of psychopathy but as of intellectual-and-moral-inequivalence/non-correspondence construing the universal human social phenomena of psychopathic postlogism and conjugated-postlogism across space and time together with the bigger insight of grasping human nature and the overall possibilities thereof. Insightfully, as well it won’t be surprising that such a universal projection will possibly meet with a more protracted-and-protracting psychopathy and social psychopathy manifestation going by overall human temporal-to-intemporal mental-disposition existential-form-factor as varied temporal-dispositions come into the frame and are elicited, just as an intemporal projection within a non-positivism/medievalism setup aspiring for a positivistic registry-worldview/dimension-level resolutive construal of their corresponding postlogism-compulsing–nonconviction/madeupness/bottomlining-like notions-and-accusations-of-sorcery and which is not palliative to a given situation will equally elicit a social protractedness of the phenomenon as varied temporal-dispositions come into the frame and are equally elicited. But then that is an inevitability with respect to the more critical universal projection
low-life purposefulness in both meaningful-frameworks). Rather this then points to the nature of postlogic apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation with temporal-dispositions; (unconsciously) ignorance and (consciously) other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiter-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Ontologically, it is then the subject of contention and aetiolgisation/ontological-escalation of the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’–as-conflededness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal, both in apriorising–registry and registry-worldview terms as it is reflected/perspectivated as de-mentation incompetency with temporal-dispositions; (unconsciously) ignorance and (consciously) other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiter-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. The critical reason for this is that the intemporal-disposition is rather inclined to be utter about intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the complete and sufficient stand for knowledge and virtue with anything else being denaturing much in parallel as intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t accommodate human temporality, and so will not even entertain involving in anyway with social-and-temporal-trading exercise which is non-ontological (since it is fundamentally a perversion-and-derived-perversion-of-reference-of-thought-as-preconveringly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, and has nothing to do with issues of defect–of–logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance). This can further be elucidated analysing perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation.
of a different nature in a superseded registry-worldview/dimension like non-positivism/medievalism registry-worldview/dimension which should provide an even greater insight analysing from our present perspective, and we can then comparatively project this with respect to notional-deprocrypticism and procrypticism. For instance, accusations of witchcraft in non-positivism/medievalism societies are ontologically about subknowledging/perversion-of-reference-of-thought-as-of-unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought/preconverging-or-dementing-apriorising-psychologism based on the fact that such societies didn’t develop and integrate notions of empirical and rational cause-and-effect positivistic ideas as reference-of-thought-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (a mentation-capacity that further furthers the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as modern-day positivistic registry-worldview), as it universally informs the present positivistic worldview and thus the impossibility to sound intelligible in case such an accusation of witchcraft is made today. So structurally, the non-positivism/medievalism society is shaped-and-inclined to integrate and entertain phantasmagorical notions of someone being accused as a witch or sorcerer. We can garner a similar insight just as with the ‘disambiguation of notional–firstnaturedness—temporal-to-intemporal-dispositions–as-so-construed-as-from-perspective–ontological-normalcy/postconvergence> as ontological-escalation/aetiologisation’ above, where supposed an intemporal mindset/reference-of-thought who is in a non-positivism/medievalism society was to be accused of witchcraft by someone inclined to accuse people of witchcraft (because of a pathological-condition/subknowledging-
impulse/compulsive-dementing\(^\text{19}\) and who obviously is wrong, as we know today that the
notion of witchcraft is ontologically unsound and ridiculous as the ability to perform magic and
the like by anyone cannot be demonstrated veridically. The disposition to accuse people of
witchcraft will be the subknowledging\(^\text{19}\)-impulse/compulsive-dementing\(^\text{9}\) pedestal. The
disposition to entertain and further exploit such situations (as anthropologists perfectly
understand the abhorrent role of such notions as witchcraft in the social-stake-contention-or-
confliction of non-positivism/medievalism societies) in conjugation of temporal-dispositions
