Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability\(^1\) method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability\(^1\), validation and open-ended questioning can be
undertaken over it. Such a hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojecting/supererogating/zeroing insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes more-or-less similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at their apathetic threshold as these rather develop into denaturing \[\text{amplituding/formative}\] wooden-language-\{imbued—

as ‘knowledge becomes increasingly mechanical’ and is rather a secondary and derivational tool for temporal self-serving posturing and is poorly perceived as worthy in of itself but for the imprimaturing so projected and the perceived temporal social-value arising with such imprimaturing and as it is increasingly associated with generalised incuriosity in genuine intellectual development and the substituting of mere imprimatur totalisingly-disentailing—discretion/whim-of-thought over genuine knowledge-reification—gesturing-<in-prospective psychologismic–apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity } conflatedness -in-[preconverging-disentailment by]-postconverging-entailment> as to existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression.

This has developed in our present age of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing- <amplituding/formative–epistemicity> totalising–in-relative-ontological-completeness } into the absurdity/ridiculousness of pop-intellectualism substituting for genuine and reifying thought, as to the relentless expansion of our modern merchandising mentality to which nothing resists; and paradoxically, such a disposition hangs onto the ‘dereifying as to deficient conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism of our <amplituding/formative> wooden-language-{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing – narratives—of-the- reference-of-thought– categorical-imperatives/axioms/registry–teleology } it then sophistically usurp in its teleological-degradation rather than teleologically-elevating it out of its <amplituding/formative> wooden-language-{imbued—averaging-of-

As what becomes critical in such a context is no longer prospective knowledge-reification—gesturing—in-prospective_psychologismic—apriorising/axiomatising/referencing—of-attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity—conflatedness—in—preconverging—disentailment—by—postconverging—entailment> as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification—gesturing—in-prospective_psychologismic—apriorising/axiomatising/referencing—of-attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity—conflatedness—in—preconverging—disentailment—by—postconverging—entailment> as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently projected as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress); in so-doing apparently render human-subpotency/mortality bigger than existence-potency~sublimating—nascence,—disclosed-from-prospective-epistemic-digression as to immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that
knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on (as to wrongly imply that it is veridically in dialogical-equivalence—psychologismic-apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity -educated-existentialising/contextualising/textualising-contiguity \}—conflatedness—in-{preconverging-disentailment-by}–postconverging-entailment,-in-self-becoming/self-conflatedness /formative–supererogating\}, as such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness-teleology —in-{preconverging-existential-extrication-as-of-existential-unthought}\) only leads to a human destructuring-threshold-{uninstitutionalised-threshold/presublimating-desublimating-decisionality}—of-ontological-performance—including-virtue-as-ontology\> which habituates and enculturates/endemises such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity; rendering the supposedly empowering activity of knowledge-reification—gesturing—in-prospective-psychologismic-apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity -educated-existentialising/contextualising/textualising-contiguity \}—conflatedness—in-{preconverging-disentailment-by}–postconverging-entailment\ impotent as in many ways such denatured intellection effectively claims openly as of its disparateness-of-conceptualisation—\unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’ inclinations (poorly appreciative of existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression implications of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity). In many ways this intellectual falsehood (so-construed herein as to ‘the implausibility of genuine lack of understanding as from a serious intellectual engagement’ but rather ‘strategic/calculated behaviour of mere institutional power even against genuine knowledge’ herein construed as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and
empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests. This is especially manifested when such an intellectual teleological-decadence<-in-dimensionality-of-desublimating-lack-of -{<amplitating/formative>supererogatory-de-

While the natural sciences are ‘naturally’ constrained by the stronger manifestation for prediction, there is
nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s wooden-language—imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology with asceticism does exist as has existed throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism> since even the natural sciences practices arose out of the profound asceticism stances against their initial societal predispositions of presencing—absolutising-identitive-constitutedness. Basically, dimensionality-of-sublimating—(<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) as such reflects the successively induced originariness-parrhesia,—as—spontaneity-of-aestheticisation specific ‘constructiveness-by-destructuring cut-offs/thresholds of human ontological-performance —<including-virtue-as-ontology>’ so-construed as of notional—protensive-consciousness (trepidatious-consciousness/warped-consciousness/preclusive-consciousness/occlusive-consciousness/protensive-consciousness) implications; and as eliciting any such prospective specific construction-of-the-Self and its given registry-worldview/dimension reference-of-thought—and—reference-of-thought—devolving—meaningfulness-and-teleology overall de-mentative/structural/paradigmatic construct-of—meaningfulness-and-teleology as of secondnatured institutionalisation. Furthermore, besides the conceptualisation articulated herein, what vindicates this idea of apriorising/axiomatic/referencing intellectual

After many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’)\textsuperscript{2173}

The underlying fact about meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic\textsuperscript{2786}

‘social protraction of psychopathy across individuals and society’\textsuperscript{2796}

The suspected psychosomatic basis for the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge (entitlement folie/folie raisonnante)’ as opposed to a logical motivation of a supplanting–conviction-as-to-profound-supererogation—of–attendant–intradimensional’–postconverging/dialectical-thinking–apriorising-philosophism or prelogic mental-disposition \textsuperscript{2797}

social-discomfiture is in reality not a veridical logical ‘contention’ but in veridicality/ontologically a ‘protracted manifestation’ of notional–procrepticism/notional-disjointedness-as-of-reference-of-thought

the psychopath overemphasises in a consciously active manner the empty forms of prosody in-of-themselves first and over the intrinsic attributive essence of meaning like overemphasising the toning form (toning triggering) and the supposition form (presumptuousness) in their expressed deductive reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised spontaneously when naturally expressing profound/deep conviction

 mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting–conviction–as–to–profound-supererogation—of–attendant-intradimensional–postconverging/dialectical-thinking–apriorising-psychologism interlocutors, and so along five factors

psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference–categorical-imperatives/axioms/registry–teleology’ of the various institutionalisation/intemporalisation levels

‘institutionalisation intemporal-preservation-entropy–or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojecting/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’

Psychoanalytic-unshackling/memetic-reordering/institutional-recomposing process can then be defined as arising when a registry-worldview’s/dimension’s {cumulated/recomposing}-consciousness-awareness-teleology is transcended/superseded as to human limited-mentation-capacity-deepening

two dilemma with respect to the conceptualisation of virtue

intemporal-preservation is a memetically/psychoanalytically evasive construct at
uninstitutionalised-threshold, the pursuit of which is veridically the human species eudaemonic
contemplation

‘human progress/transcendence happens as a matter of fact, with no registry-worldview/dimension
having any ontological and veridical claim/pretence to extricate itself from psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring—as-dialectical-stranding-backdrop-
for-prospective-transcendence

Stranding (of-perverting-temporal-dispositions-of-reference-of-thought) should be construed at a
registry-worldview’s/dimension’s uninstitutionalised-threshold (the threshold where the registry-
worldview/dimension is failing/not-upholding<as-of-apriorising/axiomatising/referencing>
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation)

There is no reason for de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—
de-mentation—stranding-or-attributive-dialectics) and recomposing but for the fact that the internal
coherence of a registry-worldview/dimension is failing/not-upholding<as-of-
apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation at its uninstitutionalised-threshold

ontological construct ‘escalates’ specific/particular instances of phenomena (in this case
psychopathy and social psychopathy phenomenon) into a universal conceptualisation which
‘knowledge principle conceptualisation’ then addresses (percolates into) the ‘infinity of related
incidental phenomena and cases’

notional—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-
perspective—ontological-normalcy/postconvergence>-pedestals-disambiguation before logical
processing/operation

‘ontology is about working with what is/knowledge-driven, and not wishful-thinking/impression-
driven’ to accede to intrinsic-reality transcendental-enabling/sublimating/supererogatory—de-
mentativity as this highlights ontological-primemovers-totalitative-framework

it is critical to distinguish between a true philosophical development that arises by intemporal-
disposition and an institutionalised development that is articulated to elicit ‘positive-opportunism—
of-social-functioning-and-accordance’ in humans

the concepts of intemporality/longness and temporality/shortness is more scientific than the
impression notions of good and bad

The use of ‘human mental-dispositions/individuations’ as of notional—firstnaturedness—temporal-
to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> herein doesn’t mean ontologically that some individuals are
inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically
intemporal

By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness
whether the intemporal-disposition individuation-pedestal or the temporal-dispositions
individuations-pedestals
‘Unconscionability-drag’ (from an ontological/intemporal reference) refers to the comprehensive state of undisambiguation of temporal-dispositions individuation-pedestals which are wrongly associated to the intemporal-disposition as being ontologically-veridical as these conjugate/inflect/protract (in mimicking-protraction) at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding as of positive-opportunism—of-social-functioning-and-accordance’

‘unconscionability-drag’ carries the resolution for disambiguating reference-of-thought in the ontological social construction of meaning.

Unconscionability-drag (enabling ontological reference), by which the perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation/mental-perversions teleologies of meaning is accounted for

‘an ontological psychoanalytic/memetic-contiguity deconstruction across anthropology’ which the present treatment of psychology doesn’t recognise.

the transcendental requirement for a ‘habituation’ to a so-called ‘prospective intemporal and more veridical mental-devising-representation registry-worldview’s/dimension’s reference-of-thought—categorical-imperatives/axioms/registry-teleology is rather ‘unfathomable’ for the prior

Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporality) is not necessarily the deterministic basis for human social adherence to it

Institutionalisation and formalisation are based exactly on the fact that we don’t have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’

Solipsism means I exist alone (as to the epistemic perspective with respect to intrinsic reality/ontological-veridicality)
By ontological-normalcy/postconvergence is meant that ‘intrinsic reality’ is one and given (ontology), and that the flaws and corrections in how we go about representing ‘intrinsic reality’ (metaphysics or the human-centered temporal-perspective) has no influence on reality’s intrinsic nature.

how can meaningfulness-and-teleology be represented in ‘a prospective apriorising–registry state’ which is ontologically more real contrasted to ‘a present retrospective apriorising–registry’, as meaningfulness-and-teleology ‘temporally seems’ to vary depending on the uninstitutionalised-threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal?

There is no such thing as ‘intemporal temporality’ as mental-dispositions ‘geared to accommodate temporality’ (as to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation) are doing nothing but providing the anchoring for the endemisation and enculturation of the vices-and-impediments associated with such temporal registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>

the articulation of reality as referentially of ontological-normalcy/postconvergence enables and allow creative projective-insights thought possibilities that the all too common ‘fixed traditional categorisation conceptualisation of reality’ doesn’t allow.

the specificity of the would-be intellectualism involved in a transcendental construct, as different from just intellectualism as mere-institutionalised-being-and-craft.

Memetism as to suprastructural meaningfulness-and-teleology will refer to the projective conceptualisation of meaningfulness-and-teleology beyond and superseding an intradimensional registry-worldview abstraction scope to the scope of transdimensional/transcendental existential psychoanalytic ontological form (in full blossoming of the transcending dimension with its existentialism/full-existential-depth-implications personhoods-and-socialhood-formation).

ontologically (i.e. ‘the-Good/understanding’ contrasted with ‘good-natured/impression-driven’) the bigger issue is how do our development and institutionalisation/intemporalisation of true knowledge ‘save us from potent-temporality and its vices-and-impediments with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. 
The notion of higher teleologies as such is specific to the human species in holding that beyond just ‘a physical animal passing of specie generational succession’ for survival and optimising-specie-flourishing, with higher teleologies there is ‘an even more critical passing of generational succession’ as memetic-skewing-or-reordering/philo-cultural optimising of possibilities........3348

the capacity for philosophy to further clarify such an 'ontological-consistency' will be a further critical foundation for broadening the efficacy of all second-level ontologies

'preconverging—de-mentating/structuring/paradigming registry-worldview's/dimension's-uninstitutionalised-threshold—defect-as-Being-or-ontological-or-existential—defect that defines a registry-worldview/dimension as preconverging—or-dementing—apriorising-psychologism and dialectically-out-of-phase with respect to intrinsic-reality/ontological-veridicality

faced with incidental issues arising in various effective social contexts, the 'ontological/intemporal postconverging—de-mentating/structuring/paradigming approach' is to have at hand a 'universal cadre' that conceptualises and is geared towards attending-to/resolving all such and other incidental issues as it is suprastructural to all such incidentals

'knowledge-notionalisation' or knowledge construct not only based on intemporal idealisation but that also factors in how the temporalities will relate to meaning

'institutionalisation devising and devices' already speaks a lot about human potential and capacity (and are basically our virtue with no need for 'false idealisation'

with our human limited-mentation-capacity-deepening, we are actually involved in a ‘developmental notional~teleology of ontology’ construed as coherent shallow superseding–oneness-of-ontology to coherent deeper superseding–oneness-of-ontology in reflecting holographically⟨conjugatively-and-transfusively⟩the ontological-contiguity—of-the-human-institutionalisation-process

need for a retracing to establish the existential reality of the breaching or non-breaching of axiomatic rules, before determining the ontological-veridicality of the results of the arithmetic operations

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ predisposed human mind’ so-reflected as prelogism -as-of-conviction,-in-profound-supererogation -<existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> and so-construed as of human candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation —of–attendant-intradimensional–postconverging/dialectical-thinking —apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation —of–attendant-intradimensional–postconverging/dialectical-thinking —apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism —as-of-conviction,-in-profound-supererogation —<existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind operates by an ad-hoc and circumspect exaggeration or omission). This explains why at uninstitutionalised-threshold which are subject to meaningfulness-and-teleology neuterising, prospective institutionalisation can only be achieved as of secondnatured constraining social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness>) that overcomes the given uninstitutionalised-threshold ‘meaningfulness-and-teleology neuterising’ thus enabling the ontological-normalcy/relative-ontological-completeness of reference-of-thought of the prospective institutionalisation. It also explains why naively implying at an uninstitutionalised-threshold that ‘the social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ is universally attributable as if humans had only the intemporal/longness-of-register-of—meaningfulness—

As a further elucidation, a comparison can be made between a construct of ‘notional–referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal
pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness -of- reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of

This elucidation is to point out that reference-of-thought constructs in epistemic-abnormalcy/preconvergence’/relative-ontological-incompleteness’-of-‘reference-of-thought in the very first place cannot be the basis for articulating, as of their given apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—constitutedness ‘in {preconverging–entailment} by elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring/of-elucidation-outside—attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity ontologically-veridical meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating, as of conflatedness

Such a basic conception of comparative axiomatic-constructs in their reflection of the very same amplituding/formative→epistemicity-totalising→devolved→purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it, the insight here being that ‘relative completeness/profoundness of axiomatic-construct/reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. With a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing construal there is a double-gesture of reification as of implying more critically the inappropriateness of the centered–epistemic-totalisation/reference-of-thought as of its underlying meaningfulness-and-teleology implied same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology, which then inherently points to the inappropriateness of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profond-supererogation on the basis of the centered–epistemic-totalisation/reference-of-thought and hence implying that there can’t be any dialogical-equivalence—as-to-psychologismic–apriorising/axiomatising/referencing-of-attendant–ontological-contiguity—educed–existentialising/contextualising/textualising-contiguity—conflatedness-in

Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity/epistemic-contiguity <profond-

attendant ontological contiguity endeavored existentializing/contextualizing/textualizing-contiguity in reification/dereification mental-disposition that can be cognisant-and-integrative in notional-contiguity/epistemic-contiguity with numerous existential circumstances reflecting the endemising/enculturating of non-positivistic superstition and its vices-and-impediments. The same applies from a notional–deprocrypticism perspective with regards to a procrypticism–or-disjointedness-as-of- reference-of-thought mental disposition as an argument seeming to articulate meaningfulness-and-teleology in the same disjointedness-as-of-reference-of-thought terms-as-axiomatic-construct by which the procrypticism–or-disjointedness-as-of-reference-of-thought arises in the first place is in circular totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of the same centered–epistemic-totalisation/reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments as of that fundamental totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology centered–epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in secondnaturing such a prospective institutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound-complete ontologically-veridical reference-of-thought construction of
meaningfulness-and-teleology\(^{(10)}\), as of the cumulating/recomposuring–attendant-ontological-contiguity>-succession of registry-worldviews/dimensions from the notional–deprocrypticism perspective construal/conceptualisation, as being ‘the most profound/complete reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ grasp of intrinsic-reality/ontological-veridicality among all the registry-worldviews/dimensions as of its preempting—disjointedness-as-of- reference-of-thought, as to-\(^{(1)}\) amplituding/formative-epistemicity> growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism. Furthermore, within a registry-worldview/dimension for the disambiguation of notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence, its reference-of-thought of meaningfulness-and-teleology\(^{(10)}\) as its apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument is its (given consciousness’s neuterising-induced-or-deneuterising\(^{(10)}\)-induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness, which by way of a différance/internal-dialectics/difference-deferral articulates the intradimensional relative ontological-veracity of all other intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology\(^{(10)}\) as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. the human existential tale perpetuation; as the organic-knowledge behind the ‘invention’ of prospective institutionalisation necessarily has to take precedence in further driving the ontological-contiguity\(^{17}\) of the human-institutionalisation-process\(^{15}\) over a conceptualisation as of denaturing\(^{15}\) of reference-of-thought\(^{12}\) categorical-imperatives/axioms/registry-teleology\(^{10}\). Such an approach to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is exactly what validates transcendental knowledge as of a psychoanalytic-unshackling commitment and not a grounded knowledge-construct commitment; as an approach as of grounded knowledge-construct commitment that merely implies transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as being incremental to the prior registry-worldview’s/dimension’s reference-of-thought doesn't undermine/unshackle that prior reference-of-thought with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ as of the requisite undermining/unshackling by the prospective enlightenment of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ by the prospective registry-worldview’s/dimension’s reference-of-thought ontological-performance <including-virtue-as-ontology> given its prospective relative-ontological-completeness\(^{18}\) of reference-of-thought. Such notional-conflatedness\(^1\) for ontological-performance\(^2\) \(<\)including-virtue-as-ontology\(>\) implication is easily understood as of metaphysics-of-absence\(\langle\)implicated-epistemic-veracity-of-nonpresencing\(\langle\)perspective-ontological-normalcy/postconvergence\(>\)\) when we grasp that a mindset as of a non-positivistic social-setup needs to ‘wean off organically beyond mere mechanical adjustments’ its non-positivism before the notion of ‘a credible logical engagement in terms—as-of-axiomatic-construct of positivism/rational-empiricism with a mindset as of a positivistic social-setup’ can be genuinely entertained. In this regard, the budding-positivists had to implied an utter break with medieval-scholasticism-pedants—ideal-type-or-individuation to avoid the circular problem of their positivism knowledge and science being interpreted in mystical and alchemic terms-as-axiomatic-construct of\(^{14}\) reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^{10}\) \(<\)for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\(^{10}\). Such a psychoanalytic-unshackling commitment equally highlights that the idea of a common

As a further elaboration, the circularity and \(<\text{amplituding/formative-epistemicity}>\text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\>\text{mental-disposition attached to a registry-worldview’s/dimension’s reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is fundamentally grounded on its teleological-de-mentating/structuring/paradigming/teleological-possibilities established as of its reference-of-thought—and—reference-of-thought—devolving—meaningfulness-and-teleology\(^{10}\) as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue. We can get a projected sense of this as of metaphysics-of-absence—implicit-epistemic-veracity-of-nonpresencing—perspective—ontological-normalcy/postconvergence in that despite the articulation of positivistic principles/interpretations in the animistic social-setup or medieval social-setup, in the short to medium run individuals will keep on overriding and ignoring such positivistic meaningfulness-and-teleology nihilistically, notwithstanding that we may recognise this as of prospective relative-ontological-completeness—reference-of-thought, and falling back to construe/conceptualise meaningfulness-and-teleology in non-positivistic animistic or medieval terms—as of axiomatic-construct, construed from the positivistic perspective as perversion-and-derived—perversion-of-reference-of-thought—preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as of unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought. Inherently, such ‘a psychoanalytic-unshackling commitment’ inevitably and fundamentally puts into question the axioms and underlying supposedly transcendental-enabling/sublimating/supererogatory–de-mentativity notion as of the (given consciousness’s \(^{56}\) neuterising-induced)-\(^{84}\) reference-of-thought—devolving-teleological-de- mentating/structuring/paradigming–of-meaningfulness of the prior registry-worldview’s/dimension’s \(^{84}\) reference-of-thought of \(^{56}\) meaningfullness-and-teleology\(^{100}\) which establishes its ‘grounded knowledge construct’, and so because of its denaturing\(^{1}\) of the prior institutionalisation’s \(^{54}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\) by way of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant–ontological-contiguity\(^{92}\)-educed–existentialising/contextualising/textualising-contiguity\(^{79}\) at the registry-worldview’s/dimension’s uninstitutionalised-threshold\(^{103}\) inducing prior relative-ontological-incompleteness\(^{90}\)-of-\(^{94}\) reference-of-thought in need for prospective relative-ontological-completeness ‘-of-’ reference-of-thought, and so as a transitional construct that is in effect as of a psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring articulation by its crossgenerational transcendental implications projection. Such that such ‘a psychoanalytic-unshackling commitment’ cannot be construed in the same terms–as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior
institutionalisation teleological-de-mentating/structuring/paradigming/teleological-possibilities for its ‘grounded knowledge construct’ as prior relative-ontological-incompleteness\(^{102}\)-of-reference-of-thought, but rather construed as of prospective ontological-normalcy/relative-ontological-completeness\(^{104}\)-of-reference-of-thought it more critically and organically points to the uninstitutionalised-threshold\(^{103}\) state of the present registry-worldview’s/dimension’s reference-of-thought at its uninstitutionalised-threshold\(^{103}\) with respect to the prospective institutionalisation state of the prospective registry-worldview’s/dimension’s reference-of-thought as of its prospective relative-ontological-completeness\(^{105}\)-of-reference-of-thought, and thus rather implies an\(^{14}\) de-mentation\(⟨\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}⟩\). It is psychoanalytic-unshackling commitment and not grounded knowledge construct commitment, because it is for instance about articulating ‘prospective positivism axiomatic-construct \(⟨\text{occlusive-consciousness }^{58}\text{ neuterising-induced}\rangle\)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘non-positivism axiomatic-construct \(⟨\text{warped-or-preclusive-consciousness }^{58}\text{ neuterising-induced}\rangle\)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’, or in the case of articulating ‘futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\) as of prospective notional–deprocrypticism axiomatic-construct \(⟨\text{protensive-consciousness deneuterising }\text{-induced}\rangle\)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘positivism–procrypticism axiomatic-construct \(⟨\text{occlusive-consciousness }^{55}\text{ neuterising-induced}\rangle\)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness. It is important to grasp
in both instances that such psychoanalytic-unshackling commitment implications are not to be understood respectively as of the uninstitutionalised-threshold\textsuperscript{1} mental-dispositions of non-positivism/medievalism or procrypticism\textsuperscript{8} reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness which will just induce their\textsuperscript{4} \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\textsuperscript{11} mental-dispositions for non–transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, but rather as of a habituated mental-projection perspective from the prospective institutionalisations of positivism or notional–deprocrypticism\textsuperscript{8}\textsuperscript{4} reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness. beyond just what we can imagine as of our presence as positivism–proscriptivism. This analysis brings out what is effectively meaningfulness as it shows that meaningfulness is more completely about apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights thus involving the ‘amplituding/formative–epistemicity’ totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of the prospective relative-ontological-completeness of reference-of-thought of the (given consciousness’s neuterising-induced-or-deneuterising-induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness and then ‘operant-or-incidenting-predicative-insights or logical-coherence’ for effectively articulating their meaningfulness as of instantiative-context or existential-instantiations with respect to existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism–overcoming/unovercoming> imbricatedness/threadedness/recomposuring; and these are the two underlying commitments that make-up meaningfulness. Within a registry-worldview’s/dimension’s institutionalisation framework the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is utterly geared in an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology of ‘operant-or-incidenting-predicative-insights or logical-coherence’ and beyond-the-consciousness-awareness-teleology <in-preconverging–existential-extrication-as–of–existential-unthought> by mental-reflex presupposes-and-assumes the ontological absoluteness/indubitability of its ‘amplituding/formative–

For instance, the \[55\] maximalising-recomposuring-for-relative-ontological-completeness\[98\]—unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence\[\langle\mathrm{implicated-epistemic-verity-of-}\mathrm{nonpresencing-}\langle\mathrm{perspective-ontological-normality/postconvergence}\rangle\} analysis does apply with respect to superstitions, \[104\] universal

This explains human mental states respectively as of uninstitutionalised-threshold — unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness — unenframed-conceptualisation at the uninstitutionalised-threshold but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendence-and-sublimity/sublimation/supererogatory-dementativity as of opened-construct-of-meaningfulness-and-teleology arise only by maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation but presences in their wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications⟩⟩ consider maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation as of exceptional-askance and unordinary due to their mental-reflex avoiding being ontologically decentered and preconverging-or-dementing—apriorising-psychologism.

Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} al engagement, as such a psychoanalytical commitment necessarily recognises human potential to transcend, and the other hand the nature of intrinsic-reality/ontological-veridicality that ‘supersedes humankind and doesn’t factor in human moods and whims’ in its effectiveness. Caught between these two elements human \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} is ‘often actually imbued with active and passive mental-strategies of compromise’ but which wouldn’t cut it with the ‘maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation necessary for human development and progress. knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as validated by ontological-primemovers-totalitative-framework\(^2\). At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such an apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity-educed-\-existentialising/contextualising/textualising-contiguity\-constitutedness\-in-preconverging-entailment\ ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory-de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity-educed—existentialising/contextualising/textualising-contiguity\(^9\). But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness\(^8\)-of-\-reference-of-thought, as of the incompleteness of the preconverging-de-mentating/structuring/paradigming of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis
equally inherits that relative-ontological-incompleteness\(^8\) of the preconverging–de-

Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—constitutedness—in-preconverging-entailment defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}.

existentialising/contextualising/textualising-contiguity} —<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought-

This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an \textbf{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \textbf{temporal-dispositions focussing} less on the possibilities and insights of prospective elucidation and expansion of
knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educated-existentialising/contextualising/textualising-contiguity }-confulatedness in {preconverging-disentailment by} postconverging-entailment in (re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking -'projective-insights'/epistemic-projection-in-conflicatedness '-of-notional-deprocrypticism-prospective-sublimation}) originary/event '-of-prospective-ontology-origination projection into attendant ontological-contiguity -educated-existentialising/contextualising/textualising-contiguity <-reifying-or-elucidating-of-prospective-relative-ontological-completeness -of-reference-of-thought- devolving-as-of-instantiative-context>, it emphasises mere de-mentative/structural/paradigmatic patterns inducing apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educated-existentialising/contextualising/textualising-contiguity }-constitutedness in preconverging-entailment, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity construal highlights the
ontological-contiguity of all knowledge as of their reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming dynamic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-in-preconverging-entailment rather than striving to expand the transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory–de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory–de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the
intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of attendant-ontological-contiguity-educed-existentalisling/contextualising/textualising-contiguity-reifying-or-elucidating-of-prospective-relative-ontological-completeness-reference-of-thought-devolving-as-of-instantiative-context that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. Such an analytic insight as of a notional-deprocrypticism (protensive-consciousness deneuterising- induced)-reference-of-thought-devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness analysis as of its prospective relative-ontological-completeness-reference-of-thought/ontological-normalcy, points out that actually, and according to this author’s view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentalisling/contextualising/textualising-contiguity}-constitutedness-in-preconverging-entailment wherein a more profound view of the philosophical enterprise as intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory-dementativity ontological-primemovers-totalitative-framework here hasn’t been entertain sufficiently to point out that effectively it is a problem that actually ‘devolves out’ of the more fundamental issue of Being as of its but is rather being posed as of a ‘disjointed/fragmented analysis’ as a consciousness grounded problem. All knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue are thus for-human-studies/for-human-constructs in the sense that these do not add anything to the given abstract/imaginary existence but are simply enabling to human curiosity and emancipation; that is, whether humans in 2000 BC or 2000 AD are knowledgeable about notions as genetics, theory-of-relativity,\textsuperscript{10} universal human rights, etc. doesn’t add anything to ‘abstract/imaginary existence as a pre-given’ pointing to the fact that human existence is about human-subpotency construed as of successive defining transcedentally-enabling-level-of–ontological-good-faith-or-authenticity /objectification/desubjectification-as-objectification-as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism\textsuperscript{101} as levels of human dispensing-with-immediacy-for-relative-ontological-completeness ‘by-reification/contemplative-distension\textsuperscript{26} (as of human self-surpassing—existentialism-form-factor, in-overcoming—‘notionally–collateralising-beholdening-protohumanity’ to ‘attain-sublimating-humanity’ as-to-existence-potency sublimating–nascence, disclosed-from-prospective-epistemic-digression to supersede human temporality\textsuperscript{99}/shortness \textit{amplituding/formative} wooden-language\textsuperscript{69} imbued—averaging-of-thought-as-to-

Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. It is the ‘notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by ‘ontologically-compromised-mediating,—as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neuterising. historiality/ontological-eventfulness/ontological-aesthetic-tracing—ontological-normalcy/postconvergence—epistemicity-relativism-determinism as of the notional—confledness of notional—deprocrypticism highlights that humankind in its projected-or-anticipated relationship with ‘existence as-the-absolute-a-priori’ is rather in preconverging-existential-extrication-as-of-existential-unthought, and not the full potency of existence; preconverging—existential-extrication-as-of-existential-unthought construed rather as ‘shoddy-and-incomplete actualising in presencing—absolutising-identitive-constitutedness of the full potency of existence. In other words existence is already given rather as of its potency, and the real problem of existence is humankind’s access to existential possibilities as of humankind’s limited-mentation-capacity. That is, human transcendence-and-supererogatory–de-mentativity is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t-make-sense/is-unavailable for any specific human registry-worldview’s/dimension’s reference-of-thought as an \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\>\) construct, including our positivism–procrypticism registry-worldview/dimension, as this will falsely imply that our reference-of-thought \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\>\) is ‘developed enough’ as of Being-and-contemplation to have achieved the full potency of existence to then know what’s existence whereas in reality such \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\>\) highlights human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence. constitutedness in preconverging-entailment, it perfectly grasps the implications to
meaningfulness-and-teleology ontological-performance <including-virtue-as-ontology>
of ‘centered–epistemic-totalisation as of circularity of meaningfulness-and-teleology in
relative deficient/flawed ontological-performance <including-virtue-as-ontology>’ but rather
as within a same horizon of meaningfulness-and-teleology ontological-performance <including-virtue-as-ontology>. However, it fails to grasp that such a centered–epistemic-
totalisation itself arises because an axiomatic-construct is a circularity of meaningfulness-and-
teleology ontological-performance <including-virtue-as-ontology> of the very same
<amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-

to a given reference-of-thought-as-of reference-of-thought—devolving-teleological-de-
mentating/structuring/paradigming–of-meaningfulness’ a centered–epistemic-totalisation is
rather the circular meaningfulness-and-teleology representation of the-very-same-
immanent-existence/intrinsic-reality/ontological-veridicality, as-to-
‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’, as the said

indefinite resolution’ of the-very-same-immanent-existence/intrinsic-reality/ontological-
veridicality, as-to ‘human<amplituding/formative–epistemicity>totalising–purview-of-

reference-of-thought-as-of reference-of-thought—devolving-teleological-de-
mentating/structuring/paradigming–of-meaningfulness’ is ontologically-flawed/deficient as it will systematically induce a ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology’ in relative deficient/flawed ontological-performance of a registry-worldview’s/dimension’s reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’. But then human limited-mentation-capacity-deepening achieving prospectively of an ultimately theoretically perfect/sound reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of the full ontological-contiguity of the human-institutionalisation-process as notional–deprocripticism implies the circular ontologically-flawed/deficient implications of centered–epistemic-totalisation are done away with as of ontological-completeness with the <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of the reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to—human<amplituding/formative–epistemicity>totalising–purview-of-construal’, with such a conceptualisation of centered–epistemic-totalisation also construed as transcendental centered–epistemic-totalisation or extrapolated-centered–epistemic-totalisation or extrapolatory–epistemic-totalisation or transcendental–epistemic-totalisation and reflects the reality that a Derridean decentered-infinite-freeplay can also be construed as an interpolatory–epistemic-totalisation or interpolated-decentered–epistemic-totalisation. For instance, we can grasp that ‘traditional classical mechanics axiomatic-construct’ is a given ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology of ‘the very same physics”.
reality/ontological-veridicality/existential-reality’ as of a prior relative-ontological-incompleteness\textsuperscript{67} of less ontological-performance\textsuperscript{72} -<including-virtue-as-ontology> of ‘the very same physics\textsuperscript{4} <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, while with human limited-mentation-capacity-deepening\textsuperscript{88} the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs brings about a new ‘centered–epistemic-totalisation/circularity of meaningfulness-and-teleology\textsuperscript{100} of ‘the very same physics\textsuperscript{4} <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness -of-axiomatic-construct-or- reference-of-thought as we can do more things with the latter axiomatic-construct more-profound/grander meaningfulness-and-teleology\textsuperscript{100} ontological-performance -<including-virtue-as-ontology>; and interestingly, physicists will surely fancy that they could do better in ultimately grasping theoretically the full-potency of existence divulgeable as of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ with an ambition for a theory of everything. However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered–epistemic-totalisation of a very same <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality in relative deficient/flawed ontological-performance\textsuperscript{72} -<including-virtue-as-ontology>, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human <amplituding/formative–epistemicity>totalising–purview-of-construal’ which is a given reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’; and for all practical matters this has
been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology ontological-performance—including-virtue-as-ontology has been as of our positivism–procrypticism registry-worldview’s/dimension’s reference-of-thought-as-of-reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness’ horizon and such a Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différance as of the latter’s transcendental–epistemic-totalisation that underlies apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—conflatedness—in {preconverging-disentailment-by-postconverging-entailment in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being.

In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différance is the notion of <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}, as of beyond-the-consciousness-awareness-teleology—in {preconverging—existential—extrication—as-of—existential—unthought}, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation reference-of-thought-as-to-postconverging—dementating/structuring/paradigming implied transformation/shift as transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity as of prospective relative-ontological-completeness\textsuperscript{88}—of—reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold\textsuperscript{84}—reference-of-thought which is in <amplituding/formative–epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{8} with its ultimate crossgenerational collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency\textsuperscript{10}—(transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness) as of prospective relative-ontological-completeness\textsuperscript{8}—of—reference-of-thought of the prospective institutionalisation’s reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness\textsuperscript{89} as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity\textsuperscript{55} in shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> in apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—constitutedness\textsuperscript{47}—in—preconverging—entailment, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening\textsuperscript{53} then resolves/overcomes the
circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness reflected in the prior mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-undecidable with a new mathematical model/axiomatic-construct in relative ontological-contiguity as of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity } conflatedness in [preconverging-disentailment-by] postconverging-entailment, and so as of the very same <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limitation-capacity-deepening induces de-mentatively/structurally/paradigmatically grander human 'meaningfulness-and-teleology ontological-performance' <including-virtue-as-ontology> of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-reality/ontological-veridicality, and this equally applies by extension to 'reference-of-thought-as-of- reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or "amplituding/formative–epistemicity>totalising–purview-of-construal’. It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or "amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicit axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a
theory being any conception as of meaningfulness-and-teleology of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/reference-of-thought’, as the axiomatic-construct/reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation —as-to-perspective—ontological-normality/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming> for human-subpotency possibilities for devolving meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue, with increasing ontological-performance—<including-virtue-as-ontology> as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration—as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—as-to-postconverging-or-dialectical-thinking —apriorising-psychologism> as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of
‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-
coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-
of-embodied-consciousness’, both logic and mathematics are construed practically as
formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the
supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and
fungibility; however, without the implication of any other inherent transcendental-
enabling/sublimating/supererogatory~de-mentativity of such formalisations besides their
succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-
conceptualised ontological-veracity/axiomatic-construct of logic and mathematics
transcendental-enabling/sublimating/supererogatory~de-mentativity’. But then it is naïve to
construe of mathematics, as logicists have tended to do, as essentially an exercise of
mathematical formalisation. The fact is that mathematics have always been developed
implicitly or explicitly in association with or inspired from the context as to attendant–
ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity of
other applied and transcendental-enabling/sublimating/supererogatory~de-mentativity activities
as of their axiomatic-constructs development and mathematics very own existential-reality of
developed axiomatic-constructs applicative orientation, including developing together with
heavily dependent mathematics domains like physics, engineering, other applied sciences and
statistical studies. This latter situation which is more real than generally said and makes of
mathematics ‘a \text{\textless}amplituding/formative–epistemicity\textgreater\text{\textless}totalising–devolved—purview/domain-
of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-
constructs\textgreater’ and more so than the ‘abstract romantic image portrayed as of the mere
manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality
itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the
inherent transcendental-enabling/sublimating/supererogatory~de-mentativity of any discipline
is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as knowledge-reification–gesturing–in-prospective_psychologismic–apriorising/axiomatising/referencing–of_attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–conflectedness–in–[preconverging-disentailment_by]–postconverging-entailment> for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about sublimating-validation/desublimating-invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential sublimating-validation/desublimating-invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest–subpotency–[in-transitive-conflectedness–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence] with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other
hand why the mere introduction of mathematics, statistics and data in domains requiring
‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory
acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest—subpotencies—in-transitive—conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence) given ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodingers, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory—de-mentativity of the physics <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of—construal—as—intrinsic-reality/ontological-veridicality/existential-reality created axiomatic—constructs with mathematics being accessory to the transcendental-enabling/sublimating/supererogatory—de-mentativity. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory—de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs,
quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory-de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory-de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness—of—reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence⟨implicitied-epistemic-veracity-of-nonpresencing–⟨perspective–ontological-normalcy/postconvergence⟩⟩ that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed meaningfulness-and-teleology. The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective depcropticism—or—preempting—disjointedness—as-of—reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working
coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional–deprocripticism psychoanalytic-unshackling metaphysics-of-absence\{implicitepistemic-veracity-of- nonpresencing-\langle perspective–ontological-normalcy/postconvergence\rangle\} and apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed– existentialising/contextualising/textualising-contiguity }—conflatedness -in {preconverging-disentailment by}—postconverging-entailment, and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed– existentialising/contextualising/textualising-contiguity }—constitutedness\{in preconverging- entailment construal of meaningfulness-and-teleology\} that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the \{amplituding/formative–epistemicity\} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mauvety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’; usually in our case, in a non-transcendental \{amplituding/formative–epistemicity\} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that is unconsciously implied as of our positivism–procripticism registry-worldview/dimension. Insightfully, such a ‘suprastructural logic’ undermines metaphysical notions like good, essence and truth as being naively construed as of a given registry-worldview’s/dimension’s \{amplituding/formative–epistemicity\} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology\}, and in lieu emphasises Being construed as ontology’s-

Further, the fact is that it is rather axiomatic-constructs whether explicit or implicit that are supposedly in a meaningfulness-and-teleology correspondence relation with an epistemic-totalising ~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality as of their given meaningfulness-and-teleology ontological-performance ∼<including-virtue-as-ontology> as validated by ontological-prime movers-totalitative-framework; so-construed as of the implications of human limited-mentation-capacity when developing axiomation-constructs, with the latter subject to their transcendence-and-sublimity/sublimation/superrgatory–de-mentativity when prospective relative-ontological-completeness of-axiomatic-construct-or- reference-of-thought avails prospectively with regards to their meaningfulness-and-teleology ontological-performance ∼<including-virtue-as-ontology>. The implications here as well are that implicit axiomatic-constructs like analogies and supposed intuitions/insights that do not reflect/align as of the coherence/contiguity of superseding–oneness-of-ontology implied as of the full-potency of existence coherence/contiguity, are ontologically naïve and vague. Thus axiomatic-constructs ontological-veracity are dependent on relative ontological-contiguity; as axiomatic-construct/reference-of-thought in relative ontological-contiguity of
one of relative ontological-contiguity by notional-discontiguity/epistemic-discontiguity - <shallow-supererogation -of-mentally-aestheticised-preconverging/dementing -qualia-schema> of their differing reference-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-'human-amplituding/formative-epistemicity-totalising-purview-of-construal'; for instance, with regards to the relative ontological-contiguity of reference-of-thought implied as of base-institutionalisation over the relative notional-discontiguity/epistemic-discontiguity - <shallow-supererogation -of-mentally-aestheticised-preconverging/dementing -qualia-schema> of reference-of-thought implied as of recurrent-utter-uninstitutionalisation, as of their differing references-of-thought and thus implied logic with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-'human-amplituding/formative-epistemicity-totalising-purview-of-construal', reflected as of relative mutual unintelligibility. In axiomatic-construct terms, it is ‘mentally-unsound/preconverging-or-dementing apriorising-psychologism and by derivation illogical’ to be insisting on articulating notions of relevance to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs like space-time or quanta in terms of ‘traditional classical mechanics axiomatic-construct’ as of their respectively corresponding relative ontological-contiguity and relative notional-discontiguity/epistemic-discontiguity - <shallow-supererogation -of-mentally-aestheticised-preconverging/dementing -qualia-schema>, and so with regards to ‘the very same physics <amplituding/formative-epistemicity-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. Such mutual unintelligibility, with regards to reference-of-thought, speaks of differing apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of
‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with amplituding/formative–epistemicity–totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory–de-mentativity implications as of human limited-mentation-capacity-deepening, whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify meaningfulness-and-teleology as knowledge which can only arise as of the maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—as-to-postconverging-or-

attendant–ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—constitutedness—in–preconverging entailment and is behind such naïve contention that philosophy doesn’t carry transcendental implications and actually undermines other approaches that strive for transcendental-enabling/sublimating/supererogatory–de-mentativity by way of conceptual patterning arguments blinded to transcendental implications of knowledge as derived from existence—as-the-absolute-a-priori-of-conceptualisation—and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective–ontological-normalcy/postconvergence-implied

Further as of such phenomenological transcendental \textit{apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity \textemdash educed\} existentialising/contextualising/textualising-contiguity} conflatedness \textemdash in \{preconverging-disentailment-by\} postconverging-entailment, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency\textsuperscript{19} \textemdash sublimating–nascence, disclosed-from-prospective-epistemic-digression, but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion\textemdash as-to-depth-of-ontologising-development-as-infrastructure-of\textemdash meaningfulness-and-teleology\textsuperscript{10} as of ontology’s-directedness-as-Being. The phenomenological insight here about the nature of ‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the
disentailment–by}–postconverging-entailment as of intemporal-preservation-entropy-or-ontological-preservation selectivity inherent in existence that rather skews presence states towards the ‘ontological statistical-exception’ of intemporality\(^8\)/longness over temporality\(^9\)/shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality\(^9\)-to-intemporality\(^8\) were to be arising in equivalence/equal-measure. Furthermore, just as a transcendental-enabling/sublimating/supererogatory de-mentativity biological science in relative ontological-contiguity of reference-of-thought will dissociate modern-day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity—<shallow—supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating/supererogatory de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that
human meaninglessness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{72} \textsuperscript{-including-virtue-as-ontology} arises as an exercise of human limited-mentation-capacity-deepening\textsuperscript{72} as of relatively profound and complete axiomatic-constructs/ reference-of-thought in ontological-contiguity\textsuperscript{67} of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human amplituding/formative–epistemicity totalising–purview-of-construal’ or amplituding/formative–epistemicity totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/ reference-of-thought in ontological-contiguity\textsuperscript{67} can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity shallow-supererogation of-mentally-aestheticised–preconverging/dementing–qualia-schema of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity\textsuperscript{67} of axiomatic-construct for grander human meaninglessness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{72} \textsuperscript{-including-virtue-as-ontology}, as of the very same amplituding/formative–epistemicity totalising–devolved–purview-as-domain-of-construal-as-intrinsic-
reality/ontological-veridicality. The amplituding/formative-totalising–renewing-realisation/re-perception/re-thought involves taking cue from existence as to attendant ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity/contexts as of existential-instantiations imbricatedness/threadedness/recomposuring in a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation exercise as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity. The notion of axiomatic-construct in ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity. Ontological-contiguity rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity’ will seem to imply correlatedness by the very nature of the term continuity. Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of.

Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological meaningfulness-and-teleology could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness-of-reference-of-thought apriorising/axiomatising/referencing–{of-attendant ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—constitutedness—in preconverging-
entailment as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness reference-of-thought apriorising/axiomatising/referencing {of-attendant ontological-contiguity educed existentialising/contextualising/textualising-contiguity conflatedness conflatedness in {preconverging–disentailment by} postconverging-entailment which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory–de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity—of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory–de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism—of-social-functioning-and-accordance as of human

respect to social-stake-contention-or-confliction induces human transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity. Consider in this regard historical
transcendence-and-sublimity/sublimation/supererogatory—de-mentativity elicited by cultural
diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a
social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are
naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction
striving to draw in various ways the optimum as of perceived existential possibilities, and thus
individuals and social groups are not in an absolutely given/set self-referencing centered–
epistemic-totalisation-facticity of ‘meaningfulness-and-teleology’ within their social-setup
and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent
or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is
already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and

stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{1} human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology\textsuperscript{100} within a given social-setup in the immediate-and-short-term. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness\textsuperscript{88}–of-reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} given their supposedly coherent ontological-commitment\textsuperscript{1}<implied–self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-

However, such a conception of supposedly coherent ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity-postconverging-de-mentating/structuring/paradigming as-being-as-of-existential-reality is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation meaningfulness-and-teleology as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology in preconverging-existential-extrication-as-of-existential-unthought with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of-meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought-categorical-imperatives/axioms/registry-teleology with regards to
meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence-and-sublimity/sublimation/supernovality/de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency - (transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness) about such metaphoricity instigative reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment - <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging-de-mentating/structuring/paradigming–as-being-as-of-existential-reality> that is subject to existence-potency ~ sublimating-nascence,-disclosed-from-prospective-epistemic-digression validatory ontological-primemovers-totalitative-framework. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment - <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging-de-mentating/structuring/paradigming–as-being-as-of-existential-reality> threshold of a social-setup ‘meaningfulness-and-teleology’ allows for the possibility for prospective metaphoricity to reconstrue-and-redefine the social-setup meaningfulness-and-teleology. Such prospective metaphoricity possibility cannot be
preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology needs this supposedly coherent ontological-commitment-<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality> in other to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology is not of poorer but rather of a superseding <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity as of the social-setup given supposedly coherent ontological-commitment —<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality>. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment —<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality> respectively as of superstitious spiritualism or scholasticism pedantic dogmatism, as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes
available the possibility for prospective metaphoricity to demonstrably undermine the implied
supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension
meaningfulness-and-teleology, and so as of the prospectively induced ontological-

epistemic-or-notional-projective-perspective of relative-ontological-completeness of reference-of-thought by way of ontological-

given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity and by that token elicit sophistic/pedantic inclinations to such prospective metaphoricity
meaningfulness-and-teleology. Further any such prospective metaphoricity ultimately takes hold rather as of within the social deferential-
formalisation-transference framework wherein it is driven by a sense of positive-opportunism of-social-functioning-and-accordance as of particular and general social interest. That said, a social-setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the fact of greater knowledge-reification–gesturing-in-prospective psychologismic–apriorising/axiomatising/referencing–of-attendant–ontological-

<amplituding-formative—epistemicity>totalising—self-referencing-syneretising/circularity/interiorising/akrasiatic-drag ~ untransvaluated—temporal-intemporality. Ultimately, prospective metaphoricity in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuation realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-disposition as to absolute ontological-commitment ~ <implied—self-assuredness-of-ontological-good-faith/authenticity ~ postconverging—dem-mentating/structuring/paradigming ~ as-being-as-of-existential-reality>. More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling—<in-deferential-formalisation-transference>, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology ~<in-preconverging—existential-extrication-as-of-existential-unthought> with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism—procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for
the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of ontological-primemovers-totalitative-framework, so long as it is socially and institutionally credible to uphold non-positivism meaningfulness-and-teleology in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks dementatively/structurally/paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma as of social-stake-contention-or-confliction) construe of such sophistic/pedantic disinclination as implying notional-discontiguity/epistemic-discontiguity—shallow-supererogation—mentally-aestheticised—preconverging/dementing—qualia-schema> with their prospectively implied metaphoricity; with the consequence that there can’t be common/mutual aposteriorising/logicising/deriving/intelligising/measuring as of dialogical-equivalence—as-to-psychologismic—apriorising/axiomatising/referencing—of—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—conflatedness—in-

Overall, the fact is that given that what is most relevant to the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-profound-supererogation—or—part—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ perception-and-relation to meaninglessness-and-teleology over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation—or—part—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits—mental-dispositions, to mere propositions of probity rather than in the face of weak—institutional-constraints-and-penalties to perceive such universal propositions as mere linguistic appendages of relative practical insignificance. The notion of beyond-the-consciousness-awareness-teleology—<in—preconverging-existential-extrication-as—of—
infrastructure-of–meaningfulness-and-teleology or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of–meaningfulness-and-teleology mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that is behind organic-knowledge. Human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought> are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold in temporal/shortness-of-register-of–meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity—of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic
mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’ as-to ‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism’ is in a state of \( <\text{amplituding/formative-epistemicity}>\text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \) of a medieval worldview will grasp that that unique demonstration of medieval-postlogism/perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as ‘prelogic supplanting-conviction-as-to-profound-supererogation’ of ‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/reference-of-thought into a positivistic mindset/reference-of-thought that is ontologically-speaking to be construed as the postconverging-de-mentating/structuring/paradigming resolution of the vices-and-
‘detached, contemplative and blurry human social-construct of knowledge’. In many ways as of human temporal/shortness-of-register-of\textsuperscript{–}\textsuperscript{53} meaningfullness-and-teleology\textsuperscript{100} mental-reflex, the former is de-mentatively/structurally/paradigmatically associated with relatively immediate-constraining ontological-primemovers-totalitative-framework\textsuperscript{73} that quickly portrays Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{56} meaningfullness-and-teleology\textsuperscript{100} by its mere relative disambiguation effectiveness of ‘ontologically-veridical knowledge agents’ over ‘ontologically-flawed knowledge agents’. For instance as of the ontological-faith-notion-or-ontological-fideism\textsuperscript{81} imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality\textsuperscript{56} induced intemporal/longness-of-register-of–\textsuperscript{73} meaningfullness-and-teleology\textsuperscript{100} positivism/rational-empiricism mental-disposition behind the articulation of Newtonian mechanics inducing its mere effecting possibilities of knowledge, the inherent possibilities of inventing things on this positivism/rational-empiricism knowledge intemporal value reference inherently undermines the pertinence of any other supposed knowledge value reference, like a mystical knowledge construal, of the very same physics <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{56} meaningfullness-and-teleology\textsuperscript{100} from what is of Being underdevelopment. But then this ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{56} meaningfullness-and-teleology\textsuperscript{100} as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-

meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory–de-mentativity not only to science but transcendental-enabling/sublimating/supererogatory–de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology with respect to the prospective registry-worldview/dimension as resolving the vices-and-impediments of the prior registry-worldview/dimension. But then no matter the succession of institutionalisations as successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, there is an ever present issue of Being underdevelopment as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor wherein institutionalising reference-of-thought–categorical-imperatives/axioms/registry-teleology are always subject at uninstitutionalised-threshold to their denaturing as of their wooden-language—imbued—temporal–mere–
form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought– categorical-imperatives/axioms/registry-teleology }, as of temporal failing to uphold intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. Hence Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology given human limited-mentation-capacity is rather upheld by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein the abstract intemporal/longness-of-register-of–meaningfulness-and-teleology behind the prior registry-worldview institutionalisation should equally be reflected as of prospective registry-worldview institutionalisation, and involving the requisite deferential-formalisation-transference secondnaturing of knowledge as organic-knowledge. We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of amplituding/formative wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology—as-of—’nondescript/ignorable–void ‘with-regards-to-prospective-apriorising-implications’ are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating and considering general social amplituding/formative wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology as of —
teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications> as improper and unqualified. This was to avoid a circularity of wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}
ontological-performance<including-virtue-as-ontology>-implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness)’. This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of<amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness–of–reference-of-thought accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing ‘social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness)”.
by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory—de-mentativity as to existence-potency[sublimating—nascence,—disclosed-from-prospective-epistemic-digression; –the ontologically-flawed articulation of knowledge by an intellectual disposition akin to amplituding/formative wooden-language—imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology—},—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology undermining knowledge as of its organic true nature implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind prior ‘knowledge inventing’ and prospective ‘knowledge inventing’, and so as of intellectual institutional-being-and-craft; –ultimately the very paradox of human amplituding/formative—epistemicity—totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag means that the human sovereign psyche is one that is geared to construe of ‘presence as all-encompassing meaningfulness-and-teleology value construct’ such that the transcendental implications of knowledge by mental-reflex are construed as of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation to presence, rather than as of amplituding/formative—epistemicity-totalising—renewing-realisation/re-perception/re-thought of presence construed as of prospective relative ontological-contiguity over prior/transcended/superseded relative notional-discontiguity/epistemic-discontiguity.
However despite this knowledge and sovereignty dilemma associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, the insight about human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of self-referencing and syncretising-effecting intemporal implications means that the requisite intemporal/longness-of-register-of—meaningfulness-and-teleology can crossgenerationally be induced for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology despite the inherent circular distractiveness of temporality, and ultimately so as enabled by ‘social universal-transparency (transparency-of-totalising-entailing–as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness)’. The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory–de-mentativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism meaningfulness-and-teleology constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness)’. As it is the latter that induces that social positive-opportunism—of-social-functioning-and-accordance for deferential-formalisation-transference and institutional percolation-channelling—<in-deferential-formalisation-transference>, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought, transcendental knowledge is of a circular but consistent exercise of <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> reference-of-thought and introducing the prospective ontological-contiguity—reference-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human—totalising—purview—of—construal’. Consider in this regard, that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of propective ontological-contiguity is more than just a reification gesturing of its very own
axiomatic-construct affirmation/projection/assertion/dueness-validating-logicising/suitable-

The ontological veridicality here is that such ‘double-gesture reification as the prospective axiomatic affirmation/projection/assertion/dueness-validating-logicising/suitable-

While the emotional involvement and sense of ‘existential ego undermining’ involved in such a transcending reification gesturing of axiomatic-constructs as of the very same meaningfulness-and-teleology mindset as well as its distance rather with respect to physical reality, such a transcending reification gesturing as of the grandest axiomatic-constructs having to do with consciousness with regards to the ‘very reference-of-thought itself’ wherein the prospective ontological-contiguity reference-of-thought as deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought implies a transcending reification gesturing that not only affirms notional–deprocrypticism prospective registry-worldview/dimension but in that affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring-as-to-postconverging-or-dialectical-thinking–apriorising-psychologism as of its ontological-completeness-of-reference-of-thought de-asserts/dements our positivism–procrypticism registry-worldview/dimension, this will elicit an existential and emotional involvement that will rather convert into a circular neuterisation of notional–deprocrypticism by a mental-complex avoiding such emotional discomfort and sense of existential ego undermining as is the case with all destructuring-threshold–uninstitutionalised-threshold/presublimating–desublimating-decisionality–of-ontological-performance–including-virtue-as-ontology with respect to their prospective institutionalisations. This explains why it is not a fundamental
realisation/re-perception/re-thought implied as of prospective institutionalisation’s deneuterising\(^1\). It should thus be noted that such a transcendental exercise is not about passing the test as of the judgment of uninstitutionalised-threshold\(^3\) mental-reflexes of \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing–syncretising}/\text{circularity}/\text{interiorising}/\text{akrasiatic-drag}\) which is ‘ontologically flawed and wanting’ but rather is as of a \(^5\) maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation intemporal-projection transcendental-enabling/sublimating/supererogatory—de-mentativity for prospective institutionalisation relative to such \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing–syncretising}/\text{circularity}/\text{interiorising}/\text{akrasiatic-drag}\) that circularly reinstitute the uninstitutionalised-threshold\(^3\) temporality\(^6\)/shortness as if intemporal in \(^5\) incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity\(^7\). In other words prospective institutionalisation arises as of ‘transcendental-reasoning-of-event\(^7\)–as-prospective-ontology-origination’ which as of prospective relative-ontological-completeness –of-axiomatic-construct-or-reference-of-thought is introducing a ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’ that blocks-out/supersedes/de-asserts/dements as of notional-discontiguity/epistemic-discontiguity \(<\text{shallow-supererogation}>\text{of-mentally-aestheticised–preconverging/dementing–qualia-schema}>\) the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’; with the implication that our ‘procrypticism–or–disjointedness-as-of–reference-of-thought reasoning’ is not admissible to prospective  ‘ deprocrypticism–or–preempting—disjointedness-as-of—reference-of-thought reasoning’ and so from the moment of the event\(^7\)-construed-as-the-prospective-ontology-
origination of deprocrypticism, just as ‘non-positivistic medieval reasoning’ is not admissible to prospective ‘positivism reasoning’ from the moment of the event\textsuperscript{37}-construed-as-the-prospective-ontology-origination of positivism, etc., across the successive institutionalisations in reflecting holographically<-conjugatively-and-transfusively> the ontological-contiguity<\textsuperscript{—}of-the-human-institutionalisation-process\textsuperscript{67}; and so as of notionally-discontiguity/epistemic-discontiguity\textsuperscript{68}<-shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema> of the uninstitutionalised-threshold\textsuperscript{67} and the prospective institutionalisation. Such a temporal/shortness-of-register-of-\textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event\textsuperscript{37}-as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/\textsuperscript{supererogatory}de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event\textsuperscript{37}-as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of-contiguity meaningfulness-and-teleology\textsuperscript{100} ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology\textsuperscript{100}<-in-preconverging-existential-extrication-as-of-existential-unthought>\textsuperscript{6} denaturing\textsuperscript{6} of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of preconverging-existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism—of-social-functioning-and-accordance it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care—and—episteme as of intemporal longness behind ‘knowledge invention’
that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-teleology rather in postconverging-nonextricatory-existential-preempting-of-existential-unthought terms—as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care–and–episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adopt of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms—as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness of reference-of-thought. Likewise articulated as of deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought relative to our positivism—procrypticism necessarily requires priorly the requisite apriorising-teleological-elevation-in-ontological-contiguity from positivism—procrypticism’s disjointedness-as-of reference-of-thought mindset into deprocrypticism’s preempting—disjointedness-as-of reference-of-thoughtapriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as otherwise such knowledge will be teleologically-degraded in circular positivism—procrypticism disjointedness-as-of reference-of-thought terms—as-of-axiomatic-construct as of prior relative-ontological-incompleteness of reference-of-thought meaningfulness-and-teleology, even though in the latter case our
amplituding/formative–epistemicity>totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence\{implicited-
'nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive—constitutedness \} blinds us to appropriately appreciating this given the human mental-reflex of representing any uninstitutionalised-threshold as nondescript/ignoreable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) as of our
amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon/projection for its prospective transcendence-and-sublimity/sublimation/supenerogatory—de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming and not temporal extricatory preconverging–de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlying its meaningfulness-and-teleology thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-
setup. As construed within a given reference-of-thought, say in our positivism/rational-empiricism reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-developing. Attitude/mental-disposition/care–and–episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming–notionally–collateralising-beholdening-protohumanity—to–attain-sublimating-humanity—as-to-existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression to supersede human temporality/shortness <amplituding/formative> wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) to be able to achieve transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, and so as of intemporality. With regards to living-as-of-human-personality-developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension that ultimately involves major stages like schooling, greater social autonomy and responsibility, and
developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{26}-by-reification/contemplative-distension\textsuperscript{26} as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development–as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension\textsuperscript{26} is construed as the more profound attitude/mental-disposition/care–and–episteme\textsuperscript{5} for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care–and–episteme of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with ‘attitude/mental-disposition/care–and–episteme’ dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension\textsuperscript{26}, for achieving transcendence-and-sublimity/sublimation/supererogatory-de-mentativity; humankind construes of existence as ‘more than just plain living as animals’ but as enabling for various domains of social projections dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension\textsuperscript{26} so-implied across the various registry-worldviews/dimensions, whether in an animistic social-setup involving animistic practices or in the modern social-setup as of our modern practices involving subject-matter specialisms, trade roles, functionaries, arts, research, sports and other activities, etc.; with each involving their specific attitude/mental-disposition/care–and–episteme\textsuperscript{5} dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension\textsuperscript{26}. The idea being that this provides more existential possibilities by the overall expanded human capabilities available directly or indirectly to fulfil individuals desires and needs. We can get an insight of registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme\(^{5}\) contrast as clarified in the preceding example as of the technical and existential emancipatory possibilities that can be contemplated with a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in an early hunter-gather social-setup inclined to construe of ill-health as bad omen; and appreciate that the human-subpotency is much more than stalling at any prior relative-ontological-incompleteness\(^{89}\)-of-\(^{84}\) reference-of-thought registry-worldview/dimension, and so not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care–and–episteme\(^{5}\) can pertinently be defined as the ‘assumed-and-unflinching transversality\(\text{<}&\text{for-sublimating–existential-eventuating/denouement>&\text{of-}\text{affirmative-and-unaffirmative–disambiguated–motif-and-}\text{apriorising/axiomatising/referencing}>\) inducing a given specific ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> outcome with regards to prospective relative-ontological-completeness\(^{68}\)-or-incompleteness-of-\(^{84}\) reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-teleology\(^{100}\) associated with that attitude/mental-disposition/care–and–episteme\(^{5}\). Inherently, the very grounding of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—

Thus with regards to

Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care–and–episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care–and–episteme of a given institutionalisation’s reference-of-thought as of prospective relative-ontological-completeness -of-axiomatic-construct-or- reference-of-thought and thus its corresponding meaningfulness-and-teleology, and the other doesn’t as of prior relative-ontological-incompleteness. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically-_conjugatively-and-transfusively_ the ontological-contiguity_of-the-human-institutionalisation-process, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument attitude/mental-disposition/care–and–episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism _meaningfulness-and-teleology, _speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its ontological-primemovers-totalitative-framework induced positive-opportunism—of-social-functioning-and-accordance as of scientific, medical, technical advancements, free society, etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology while averting its denaturing by wrongly implying notionally

The insight here is that more fundamentally knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating/supererogatory-de-mentativity above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality-disambiguated-motif-and-apriorising/axiomatising/referencing exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-primemovers-totalitative-framework', and so beyond institutional-being-and-craft and social-aggregation-enabling

intemporal/ontological/social/species/1 universal/transcendental/2 maximalising-recomposing-for-relative-ontological-completeness3—unenframed-conceptualisation postconverging—de-menting/structuring/paradigmating to overlook them and imply intellectual-and-moral-inequivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in other to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity4 practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing5 predisposition. This is critically the case with registry-worldview/dimension 6 reference-of-thought transcendence-and-sublimity/sublimation/superrortatory—de-mentativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-teleology 7—in-preconverging-existential-extrication-as-of-existential-unthought> prior relative-ontological-incompleteness5—of—reference-of-thought construes of ‘implied grounding of ‘meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of 6—presencing—absolutising-identitive-constitutedness8 while the new/prospective/superseding as of its prospective relative-ontological-completeness0—of—reference-of-thought construes of ‘implied grounding of ‘meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of prospective 6 nonpresencing—<perspective—ontological-normalcy/postconvergence. This brings home the reality that it is inevitable that all uninstitutionised-threshold10 are necessarily ‘de-mentatively/structurally/paradigmatically conflicted’, with prospective transversality<for-sublimating—existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’10 ontological-primemovers-totalitative-framework7 being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence<as-to-psychologismic—apriorising/axiomatising/referencing—{of—
consciousness-awareness-teleology^100^-<in-preconverging-existential-extrication-as-of-existent-unthought>. This is equally reflected with regards to the prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implying knowledge proponents, as the very notion of implying a prospective transcendental conceptualisation as of organic-knowledge is one that undervalues the "presencing—absolutising-identitive-constitutedness" attitude/mental-disposition/care—and—episteme^6 as of its social-stake-contention-or-confliction while the very notion of perceiving highly the "meaningfulness-and-teleology"^100 within a prior institutionalisation framework is one that is necessarily apprehensive and shallow-minded to the notion of a prospectively undermining prospective "nonpresencing-<perspective—ontological-normalcy/postconvergence> sublimity/sublimation/supererogatory-de-mentativity episteme transcendence-and-attitude/mental-disposition/core—and—reference-of-thought supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument—for—conceptualisation. In addition, the disruptive uninstitutionalised-threshold^101 contextualisation as of such divergent commitments and ‘lack of perceived constraining framework of logical-congruence of dialogical-equivalence<as-to-psychologismic—apriorising/axiomatising/referencing- {of-attendant—ontological-contiguity—educated—existentialising/contextualising/textualising-contiguity }—conflatedness—in—{preconverging-disentailment—by—}—postconverging-entailment,—in-self-becoming/self—conflatedness /formative—supererogating>’ further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-teleology^100^-<in-preconverging-existential-extrication-as-of-existent-unthought> institutional-being-and-craft as of perceived vested interest, striving to undermine prospectively implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity meaningfulness-and-teleology attitude/mental-disposition/core—and—episteme^6. What is then the manifestation of such
intellectual undermining which must necessarily be understood as of knowledge-notionalisation required as of the notional–conflicatedness\textsuperscript{12} of\textsuperscript{12} deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought protensive-consciousness? ontological-bad-faith/inauthenticity\textsuperscript{14} as of its charlatanic effect fundamentally involves the undermining at any human uninstitutionalised-threshold\textsuperscript{13} of the possibility of intellectually induced social universal-transparency\textsuperscript{11} \{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \}; for the ultimate outcome of undermining any such intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Such a beyond-the-consciousness-awareness-teleology\textsuperscript{10}<in-preconverging–existential-extrication-as-of-existential-unthought\textsuperscript{4} undermining exercise is geared towards the ontologically-flawed apriorising-teleological-elevation-in-ontological-contiguity\textsuperscript{7} of social <amplituding/formative wooden-language\{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>\} and untransvaluated–temporal-intemporality\textsuperscript{12} social-chainism, on the conation of upholding ontological-bad-faith/inauthenticity\textsuperscript{4} contentions; by its deflating of the conception of ontologically-veridical\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{10} as of human mortals contentions in transversality<-for-sublimating–existential-eventuating/denouement>-of-affirmative-and-unaffirmative-disambiguated–motif-and-apriorising/axiomatising/referencing\textsuperscript{12}, wherein the ‘superior party’ of existence/intrinsic-reality/ontological-veridicality is the validator of ontological-pertinence as of concurrent ontological-primemovers-totalitative-framework\textsuperscript{7}, and thereof ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ as new reasoning-from-results/afterthought, and so over and above ‘interhuman negotiating or agreeableness’. Thus ontological-bad-
faith/inauthenticity as of its charlatanic effect undermines, as of beyond-the-consciousness-awareness-teleology—preconverging-existential-extrication-as-of-existential-unthought, the articulation of meaningfulness-and-teleology as of prospective maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation that could jeopardise pre-established temporal interest, and cultivating rather incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation as of prior reasoning-from-results/afterthought in overlooking concurrent ontological-primemovers-totalitative-framework strife to uphold-and-promote the ‘superior party’ which is the nonpresencing-perspective-ontological-normalcy/postconvergence> of existence/intrinsic-reality/ontological-veridicality; with such intellectual-bad-faih rather advancing such an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation accommodating framework for strategically cultivating pre-established temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-primemovers-totalitative-framework, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation that in many ways could just as well validate wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>} and untransvaluated—temporal-intemporality attitude/mental-disposition/care—and—episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge
coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and pedantising/muddling/formulaic-hollowing-out—
in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-
entailing-as-to-entailing—<amplituding/formative–epistemicity>totalising~in-relative-

relative-ontological-incompleteness—enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory—de-mentativity. This poor scepticism attitude/mental-disposition/care–and–episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has <preconverging~‘motif-and-apriorising/axiomatising/referencing’—imbuing>existentialising—enframing/imprintedness{(as-to- historicity-tracing—in-
presencing–hyperrealisation/hyperreal-transposition) implications as of the forestalling of prospective ‘concurrent ontological-prime movers-totalitative-framework’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturig for prospective institutionalisation. Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative–epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms—as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the
upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation.

While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness and ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness’ causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidious passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension, a perfidious ontological-bad-faith/inauthenticity scepticism involves eliciting a sense of immediacy and temporality/shortness as of wooden-language(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications) and untransvaluated–temporal-intemporality social-chainism as ‘developed thought’, thus deflating the requisite dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension intemporal detachment/backstep for transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. In this latter respect, and for the possibility of prospective social transcendence-and-sublimity/sublimation/supererogatory~de-mentativity and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness as of preceding intemporal dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension,
and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness\textsuperscript{98}. ontological-bad-faith/inauthenticity\textsuperscript{4} ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness\textsuperscript{12} but of a poor conception outside the prospective relative-ontological-completeness\textsuperscript{88} behind such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{90}, are but denaturing\textsuperscript{5} and down the line equally undermines prospective relative-ontological-completeness\textsuperscript{88} for the further emancipation of human social practices. As such ontological-bad-faith/inauthenticity\textsuperscript{4} ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness\textsuperscript{12} are of the same notional-contiguity/epistemic-contiguity—profund-supererogation—of-mentally-aestheticised-postconverging/dialectical-thinking—qualia-schema kind that bathe in the <amplituding/formative> wooden-language—imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable—void '—with-regards-to-prospective-apriorising-implications> and untransvaluated—temporal-intemporality social-chainism that implied as much about extolling social practices\textsuperscript{90} presencing—absolutising-identitive-constitutedness\textsuperscript{12} of preconverging—existential-extrication-as-of-existential-unthought reasoning-from-results/afterthought attitude/mental-disposition/care—and—episteme\textsuperscript{5} of recurrent-utter-uninstitutionalisation, base-institutionalisation—ununiversalisation, \textsuperscript{10} universalisation—non-positivism/medievalism and today’s positivism—procrypticism, with little prospect/opening for prospective transcendence-and-sublimity/sublimation—supererogatory—de-mentativity. Essentially and constructively, all intellectualism as of their intemporal job description as emancipative is to relay in uninhibited/decomplexified terms—as-of-axiomatic-construct the blunt reality of the social as

The fact that many that are institutionally anchored may speak otherwise or naively against such a stance doesn’t diminish in any way the ‘natural appropriateness’ of such a job description as of human intemporal/ontological/social/species/\textsuperscript{1}universal/transcendental/\textsuperscript{5}maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{8}—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigmimg, but rather speaks of a poverty of institutionalisation that creeps into institutional anchors as of their reasoning-from-results/afterthought constructions subject to temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{10} denaturing\textsuperscript{11} of reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{10},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{10}. The implication here is that ontological-faith-notion-or-ontological-fideism—imbued-

reasoning-through/messianic-reasoning adduced transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity prospectively comes out short with the
prospective reasoning-from-results/afterthought outcome, and so because of human limited-

This practical conceptualisation of ontological-good-faith/authenticity as of its method is further critical because however well elicited, even reasoning-from-results/afterthought constructs still need their good ontological-performance-<including-virtue-as-ontology> in practice, and given human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional-firstnaturesness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor, there is always room for human denaturing temporal ontological-performance-<including-virtue-as-ontology> of such reasoning-from-results/afterthought constructs induced by reasoning-through/messianic-reasoning; pointing to the fact that ultimately the underlying ‘sanctity of knowledge’ arises from ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of such ontological-good-faith/authenticity based intemporal organic-knowledge that is wary of the denaturing that can arise as of temporal mechanical-knowledge that ‘dispenses with the originary/as-of-event spirit of reasoning-through/messianic-reasoning’ and adopts a mere pedantic relating with the reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. It should be noted as well that the afore is focused on the abstract \textsuperscript{36}reference-of-thought/epistemic-totalisation level of différance/internal-dialectics/difference-deferral, as it is actually reflecting ‘the backdrop construed as human sublimation-educing—

This analysis conveys the reality of human crossgenerational institutional-cumulation/institutional-recomposition due to the impossibility of the very first humans as of their limited-mentation-capacity and yet inexperience/unaccumulated-experience to be able to reason more than their initial apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument will permit as of their state of recurrent-utter-uninstitutionalisation ‘non-rules—apriorising/axiomatising/referencing–psychologism, as-impulsive-or-accidented-or-random-mental-disposition’, and hence their construal of meaningfulness-and-teleology as of ‘their relative neuterising’. Likewise the ultimate possibility of human crossgenerational institutional-cumulation/institutional-recomposition as enabling the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of notional–deprocrypticism/ notionality-preempting—disjointedness-as-of-reference-of-thought is the backdrop for deneuterising—referentialism enabling the full transparent ontologically-veridical elucidation of human meaningfulness-and-teleology construed as of ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing:<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>’; as of the possibility of deneuterising. In the bigger scheme of things, as of the notional–conflicatedness of notional–deprocrypticism as deneuterising—referentialism, what
break/epistemic-resetting; with the latter arising as a result of lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology’ with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human-amplituding-formative-epistemicity-totalising-purview-of-construal’ as of the variance of uninstitutionalised-threshold prior relative-ontological-incompleteness-of-reference-of-thought and prospective institutionalisation relative-ontological-completeness-of-reference-of-thought. For instance, such epistemic-break/epistemic-resetting associated with the overall ontological-contiguity—of-the-human-institutionalisation-process necessarily explains the ‘mutually transversality-for-sublimating-existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing unintelligibility’ of the Galileos, Newtons, Diderots episteme articulating prospective positivising/rational-empiricism meaningfulness-and-teleology and the Establishment scholasticism medieval dogmatic episteme. The implication here is that the articulation of transcendence-and-sublimity/sublimation/supererogatory—dementativity as of reference-of-thought is by itself tied up to a prospective epistemic disruption, construed as of soundness-or-ontological-good-faith/authenticity-of-reference-of-thought, beyond just grounded knowledge as of the prior episteme which is rather construed as of unsoundness-or-ontological-bad-faith/inauthenticity—of-reference-of-thought. Such transcendental epistemic-breaks/epistemic-resetting arise because humankind is subpotent as of its knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue to the full-potency of existence, and in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to
existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency \( \langle \text{transparency-of-totalising-entailing,-as-to-entailing-} \langle \text{amplituding/formative–epistemicity}> \text{totalising–in-relative-ontological-completeness} \rangle \), an apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology\(^{100}\) with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’’ arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective relative-ontological-completeness\(^{88}\)-of\(^{84}\) reference-of-thought point to more profound reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity\(^{4}\) between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology\(^{100}\) with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’’ with respect to social universal-transparency \( \langle \text{transparency-of-totalising-entailing,-as-to-entailing-} \langle \text{amplituding/formative–epistemicity}> \text{totalising–in-relative-ontological-completeness} \rangle \); and so more than just as of beyond-the-consciousness-awareness-teleology\(^{100}\)-<in-preconverging-existential-extrication-as-of-existential-unthought>\(^{6}\), but further because as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional~firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, there is ‘a drift from the ideal of knowledge agents only as ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’
towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It
should be noted that such a notional construct of episteme interpreted herein is implied as of
‘dynamic social <amplituding/formative–epistemicity>totalising–self-referencing-

both informal institutional settings and formal institutional settings. In the bigger scheme of

become inevitable wherein the prior knowledge episteme de-

The reality of human registry-worldview’s/dimension’s institutionalisation and uninstitutionalised-threshold mental-dispositions imply that at the uninstitutionalised-threshold prospective institutionalisation knowledge as transcendental-enabling/sublimating/supererogatory—de-mentativity is not socially integrated directly as of dimensionality—of-sublimating—⟨<amplituding/formative—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative—

Such prospective intemporal—as-ontological meaningfulness-and-teleology is not necessarily perceived at the uninstitutionalised-threshold as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology as of the said uninstitutionalised-threshold. In other words, the ideal articulation of base-institutionalisation in recurrent-utter-uninstitutionalisation, just as that of universalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively notional–deprocryptic in positivism–procryptic; are only pertinent for attaining social approbation as of their apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity-\text{-}educed–existentialising/contextualising/textualising-contiguity \}—conflicatedness in \{preconverging-disentailment by\}–postconverging-entailment de-mentating/structuring/paradigming secondnatured construct of positive-opportunism—of-social-functioning-and-accordance of institutional and formal deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference>. imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual

\[\text{amplituding/formative–epistemicity}\text{ totalising–self-referencing-syarerising/circularity/interiorising/akrasiatic-drag}\] that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework\[72\] construal as implied with notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human \[\text{amplituding/formative–epistemicity}\text{ totalising–thrownness-in-existence}\] (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-sub potency / hyperbole-of-temporal-to-intemporal-ontological-performance\[72\] -<including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our
in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory-de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>) implies the need for a sound perpetuating construct of universal projection as intemporality-or-longness-of-register-of-meaningfulness-and-teleology as the opportunity for prospective transcendental-enabling/sublimating/supererogatory-de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublimes presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing totalising-in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal
implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory-de-mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive de-mentative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentalising/contextualising/textualising-contiguity}—constitutedness—in-preconverging-entailment to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce\textsuperscript{104} universal human meaningfulness-and-teleology\textsuperscript{100} but was caught up in the <amplituding/formative-epistemicity>totalising–thrownness-in-existence\textsuperscript{14} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{17}-<including-virtue-as-ontology>) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’
were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation in meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity!

We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence as of notional-deprocripticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities.

Transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied here is with regards to reference-of-thought/epistemic-totalisation level ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human\textsuperscript{amplituding/formative–epistemicity}\textsuperscript{totalising–purview-of-construal’ in epistemic-conflicatedness\textsuperscript{12} as of underlying relative-ontological-incompleteness\textsuperscript{89} and relative-ontological-completeness\textsuperscript{88, 84} reference-of-thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory–de-mentativity rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} failing to factor in that ‘existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness-to–\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-deepening\textsuperscript{53} arising in further apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }– conflatedness \textsuperscript{56} {preconverging-disentailment by} {postconverging-entailment as of human \textsuperscript{55} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{88} —unenframed-conceptualisation in an exercise of \textsuperscript{44} amplituding/formative–epistemicity\textsuperscript{totalising–renewing-realisation/re-perception/re-thought that re-projects-or-re-

teleology arising as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology involving the ontological-contiguity—of-the-human-institutionalisation-process induced various consciousnesses up to the protensive-consciousness enabling transcendental centered—epistemic-totalisation, as of human limited-mentation-capacity-deepening. Actually, it is herein contended that the very fundamental handicapping issue to meaningfulness-and-teleology as of the philosophical tradition lies in the naïve human mental-reflex of implying that ‘a given human determination of the effecting basis/foundation/axiomatic-construct derived/deciphered from existential-instantiations as underlying the presence institutionalisation—amplituding/formative—epistemicity—totalising/circumscribing/delineating reference-of-thought—devolving-as-of-instantiative-context—meaningfulness-and-teleology carries-and-reflects all the depth/profoundness of existence/existential-possibilities’, thus not allowing for the possibility for further imbricatedness/threadedness/recomposuring as of existence/existential-possibilities of existential-instantiations outside any such reference-of-thought determination; such reference-of-thought determination being affixed rather in apriorising/axiomatising/referencing-{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—constitutedness—in—preconverging—entailment as of any of the various registry-worldviews/dimensions specific underlying apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought such as ‘non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive—or-accidented-or-random-mental-disposition of recurrent-utter-uninstitutionalisation’ not cognisant of the apriorising/axiomatising/referencing-{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—confulatedness—in—{preconverging—disentailment—by}—postconverging—entailment possibility of prospective base-
determination of reference-of-thought—categorical-imperatives/axioms/registry-teleology with the consequence that its apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—constitutedness in preconverging entailment, since it doesn’t allows for superseding existence/existential-possibilities, now ‘contradictorily-and-naively supersedes-and-is-determinative-of existence itself’ rather than taking its cue from the apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness in {preconverging—disentailment—by}—postconverging entailment of existence/existential-possibilities given the imbricatedness/threadedness/recomposuring of existential-instantiations and as reflected at registry-worldview/dimension depth of construal as of reference-of-thought; as it then fails to grasp that ‘there is no understanding to be had outside the apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness in {preconverging—disentailment—by}—postconverging—entailment of existence as of prospective relative-ontological-completeness—of reference-of-thought’ with any such conceptualisation being nothing but vague virtuality that is not as of ontological-contiguity and ontological-veracity. Thus the problem of the philosophical tradition is notionally one of erroneous apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—constitutedness in preconverging entailment, and this issue is recurrent-beyond-historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—'epistemicity-relativism-determinism'>—with-the-latter-only-a-bi-manifestation-of-the-recurrence,—as-psychically-recurrent as of human shallow-to-deepening—limited-mentation-capacity,—as-limited-mentation-capacity-deepening due to inherent human temporality/shortness and intemporality/longness across all registry-
construes of existence/existential-possibilities as living-being. Such ‘focusing construed as consciousness’ explains why axiomatic-constructs are explicited and implicated/intuited as of a living-being in coherence/contiguity-of-superseding–oneness-of-ontology. The above conception fundamentally underscore the development and how all human knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue arises existentially as of consciousness, and is singularly reflected as of language development which is the ‘signifying mirroring’ of human meaningfulness-and-teleology. The implication here is that meaningfulness-and-teleology as of ‘existential self-referencing’ and ‘existential syncretising-effecting’ construed as

of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging-de-mentating/structuring/paradigming as-being-as-of-existent-reality as of amplituding/formative—epistemicity—causality—to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for intelligibility to arise, thus is construed as reference-of-thought as of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-human amplitudding/formative—epistemicity—totalising—purview-of—construal’; as we know intuitively that meaning is always about the-one-meaning as well as a perspective/framing/reference/horizon/projection were all the-one-meaning cohere/are-in-ontological-contiguity metaphoricity of human limited-mentation-capacity-deepening adhocly produces by apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} postconverging-entailment adjunctive significations where these do not fit in with the ‘underlying amplitudding/formative—epistemicity—totalising/circumscribing/delineating signifying-construct of language’ due to the implications of human limited-mentation-capacity as of relative-ontological-incompleteness of reference-of-thought when conceptualising about such an ‘underlying amplitudding/formative—epistemicity—totalising/circumscribing/delineating signifying-construct of language’. But then an adjunctive-metaphoricity —signification so produced as reflected by ‘a transcendental syncretising-effecting meaningfulness-and-teleology’ like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in due-course/crossgenerationally to be of an even greater meaningfulness-and-teleology

totalising/circumscribing/delineating effect over the prior notion of the ‘underlying totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying totalising/circumscribing/delineating signifying-construct of language’; and so as of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some significations of the prior ‘underlying totalising/circumscribing/delineating signifying-construct of language’ together with some adjunctive-metaphoricity-s-significations of the prior ‘underlying totalising/circumscribing/delineating signifying-construct of language’, while ELIMINATING some significations of the prior ‘underlying totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity-s-significations of the prior ‘underlying totalising/circumscribing/delineating signifying-construct of language’, and finally LEAVING-OUT some significations of the prior ‘underlying totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity-s-significations of the prior ‘underlying totalising/circumscribing/delineating signifying-construct of language’, as its very own as the prospective ‘underlying totalising/circumscribing/delineating signifying-construct of language’ adjunctive-metaphoricity-s-significations to which other adjunctive-metaphoricity-s-significations could be incorporated adjunctively. Effectively, with the positivism/rational-empiricism self-referencing totalising/circumscribing/delineating construct of meaningfulness-and-
teleology, its adjunctive-metaphoricity-signification can be construed as of the historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism> of crossgenerational positivism/rational-empiricism reappropriation of the ancient mathesis universalis metaphoricity as its very own ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ ‘behind the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant <amplituding/formative–epistemicity>totalising/circumscribing/delineating construct of meaningfulness-and-teleology. Existence itself as the absolute a priori underscores such a conception given the human species sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing–as-to-possibilities-of-self-becoming-as-of–existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe meaningfulness-and-teleology as not self-referentially covered by the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’, they will inevitably articulate adjunctive-metaphoricity-significations to that prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. This explains the lockstep nature of human meaningfulness-and-teleology and language, with the latter as the former’s signification mirroring, such that institutional-cumulation/institutional-recomposition-as-to–historiality/ontological-
and creolisation; as of social-stake-contention-or-confliction context adjunctive-
metaphoricity-significations apriorising/axiomatising/referencing-{of-attendant-ontological-

in{preconverging-disentailment-by}-postconverging-entailment induced ‘underlying-
<amplituding/formative–epistemicity>totalising/circumscribing/delineating
signifying-construct of languages’. In another respect with regards to language acquisition as
mirroring a child’s existential integration into the dynamics of social-construct existential
situations/instances, stakes, institutions and processes, a new born child existential integration
into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity-
significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-
freeplay’ construed here as the phenomenology of human language acquisition différance’ that
fundamentally mirror the child’s developing existential social relationships as an ordered
process of social existential overtures constraining-and-cohering the child’s adoption-
of/integration-with the supposedly ‘underlying-
<amplituding/formative–epistemicity>totalising/circumscribing/delineating
signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity
where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying
<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-
construct of language’ as it is reflected by the dynamics of social-construct existential
situations/instances, stakes, institutions and processes. But then as might be
phenomenologically appreciated the notion of language as of its existential import is thus
utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather
‘immensely existentially present’ with an ‘absolute language signification construct imagery

rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment’ implying—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> for its evolving-and-devolving construct of meaningfulness-and-teleology! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-social meaningfulness-and-teleology, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes
contiguity—confalatedness\(^{12}\) in \{preconverging-disentailment-by\} postconverging-entailment reflecting syncretising-effecting superseding of human self-referencing signifying-constructs as of the need to supersede the limited certitude as of human limited-mentation-capacity, inherently implies that the possibility for ‘absolute certitude as of its theoretical possibility’ lies with such an adjunctive-metaphoricity-significations apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—confalatedness—in-{preconverging-disentailment-by} postconverging-entailment as of syncretising-effecting as ultimately converging towards a \(^{17}\) deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay\(^{2}\) construed as différance in apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—confalatedness—in-{preconverging-disentailment-by} postconverging-entailment’ associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay\(^{2}\) as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon/projection of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence \(^{3}\) historiality/ontological-eventfulness/ontological-aesthetic-tracing<<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism’>. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms—as-of-axiomatic-construct of its end-
purpose as of the perspective of the child’s integration in various social structures and
institutions; however, in the bigger picture the fact that social structures and social institutions
dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of
fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-
perspective/framing/reference/horizon/projection driven basis for ontological-construction’, and
so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon/projection as of its ‘non-recording and negation’ of a
‘diverse-and-complete existential effecting possibilities accountability for ontological-

the cumulation of successive humanity’s
<amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag

much more than the construal of conceptual sublimation knowledge outcome, but rather its
construal as notional—knowledge involving the dynamic understanding of both its
temporality /misconstrual/desublimation and intemporality—as-ontological-construal as of
accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically
disambiguation as of human limited-mentation-capacity dynamics as of deneuterising —
referentialism and thus beyond 'neuterising’ reflecting the difference-in-nature/difference-in-
apriorising-or-axiomatising-or-referencing of the uninstitutionalised-threshold and the
prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just
about its conceptualised intemporality—as-ontology but involves grasping this together with
the implications of temporality, and so because of the circular existential implications of
human limited-mentation-capacity. Hence language can be more pertinently construed
ontologically as of the social dynamics of existential signification than just as of just an outcome privileged institutional end-purpose
perspective/framing/reference/horizon/projection that is in many ways ad-hoc and
phenomenologically uninsightful as of the many existential implications behind comprehending
language. Thus human privileged social and institutional end-purpose

entailment. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay is
the existentially veridical and effective basis for reflecting historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism> transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful meaningfulness-and-teleology. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existent-unthought>; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality/longness doesn’t take its due place, it is occupied by ignorance as of human temporality/shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. Basically, just as the adjunctive-metaphoricity–signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricity–signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human
Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional~conflatedness\textsuperscript{12} of notional~deprocrypticism deneuterising\textsuperscript{15}—referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{9} and is the maximal ontologically veridical articulation of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity }–conflatedness in {preconverging–disentailment by} postconverging-entailment that ‘undermines the privileging of <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{13} as of its ubiquitous-protractedness as to de-mentative/structural/paradigmatic ‘ontological-contiguity\textsuperscript{67} or difference-of-kind’ disposition, and so beyond just reflecting such \textsuperscript{20} presencing—absolutising-identitive-constitutedness\textsuperscript{14} privilege undermining as of transcendental outcomes implied by historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism’>. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity }–conflatedness in {preconverging–disentailment by} postconverging-entailment, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative–epistemicity>totalising–self–
referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming-as-of—existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon/projection, such that as of a → <amplituding/formative-epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag meaningfulness-and-teleology facet it is then already compromising nonpresencing—or—withdrawal—or—metaphysics-of-absence (implicated-epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence>)—or—transcendental-reasoning-of-event—as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity conflatedness in [preconverging-disentailment by] postconverging-entailment of accruing-substitutive-subsumption-as-futural-différence-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon/projection implications’ with regards to meaningfulness-and-teleology, and so as disambiguating presencing—absolutising-identitive-constitutedness from nonpresencing—<perspective—ontological-normalcy/postconvergence> by their respective supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of—

différance’ not doing that rather represents the [presencing—absolutising-identitive-
constitutedness as the common perspective/framing/reference/horizon/projection for both,
thus falsely pointing to ‘difference-in-kind/difference-in-aposteriorising-or-logicising between
presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–

<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-

in this regard ‘the very same physics <amplituding/formative–

ontological-incompleteness being ‘traditional classical mechanics axiomatic-construct’ and
the articulation as of prospective relative-ontological-completeness-of-axiomatic-construct-or-
reference-of-thought being the theory-of-relativity-together-with-quantum-mechanics—
axiomatic-constructs; now, articulating meaningfulness-and-teleology of ‘the very same physics

Consider in this regard that the ‘Derridean quasi-transcendental-freeplay diffèreance’ is akin to the contributions of many prior seminal scientists like Poincaré, Lorentz, Plank, Rutherford and others to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs but whose works were still being interpreted in terms-of/adjunctive-to ‘traditional classical mechanics axiomatic-construct’ thus explaining the reality of a notional-discontiguity/epistemic-discontiguity \(<\text{shallow-supererogation } -\text{of-mentally-aestheticised–preconverging/dementing –qualia-schema}>\) between the two as of their distinct supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation. Whereas accreting-substitutive-subsumption-as-futural-diffèreance-freeplay is akin to the complete ‘epistemic-break’, as of Einstein’s defining-threshold contribution with the-theory-of-relativity and Bohr’s defining-threshold atomic-model contribution to quantum-mechanics together with other seminal scientists subsequent contributions that ultimately led to ‘the very same physics \(<\text{amplituding/formative–epistemicity} >\text{totalising–devolved–purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality}>\text{transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs interpretation as of nonpresencing-<\text{perspective–ontological-normalcy/postconvergence}\. prospective-aporeticism-overcoming/unovercoming’. So because at the point of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming’> and not make any determination priorly, even as of freeplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation—drand—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming’>, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency—sublimating—nascence,—disclosed—from-prospective-epistemic-digression as validatable by ontological-primemovers-totalitative-framework. Thus behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as ‘hunch’ is a transversality<for-sublimating—existential—eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ depth of reasoning and perspective which is pushed to its brink in projection/anticipation/expectancy.

We can appreciate that the medieval mindset reasons in terms of medievalism–non-positivism just as we reason in terms of our positivism–procrypticism mindset. The question can thus be asked is there more profound meaningfulness-and-teleology beyond any given registry-worldview/dimension mindset divulgeable by existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming>? It is herein that we get into the realm of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or—attributive-dialectics) inducible apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In other words, under sufficient constraint of existence/existential-reality—itself given its absolute a priori status, as reflected by ontological-primemovers-totalitative-framework /contingency, human intemporal individuation is predisposed to put in question even a ‘registry-worldview’s/dimension’s reference-of-thought <amplituding/formative—epistemicity> totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of—meaningfulness-and-teleology as of a reconstrual of reference-of-thought and devolving-axiomatic-constructs implications, and so as of maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation. This insight about ontological-faith-notion-or-ontological-fideism—imbued-

and–episteme, as of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–

In this regard we can imagine as of ‘the very same physics <amplituding/formative–epistemicity> totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness <of- reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards—

developments in physics since then, even though its "meaningfulness-and-teleology" remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought>. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuation-ontological-performance<including-virtue-as-ontology>; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of <amplituding/formative-epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance<including-virtue-as-ontology>). The implied notion of human emancipation is always being articulated in an
existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20th century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18th and 19th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care–and–episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology—<in-preconverging—existential-extrication-as-of-existential-unthought>’, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care–and–episteme for more profound-and-complete meaningfulness-and-teleology. While such an
inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into meaningfulness-and-teleology as grounded on a given ‘registry-worldview’s/dimension’s reference-of-thought epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of—meaningfulness-and-teleology’ as well as the ‘psychological comfort’ habituated at the given neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism is exactly the capacity to construe meaningfulness-and-teleology as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication-as-of-existential-unthought> arising as of human prior relative-ontological-incompleteness—of—reference-of-thought. The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality apriorising/axiomatising/referencing—{of-attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—conflatedness—in—{preconverging-disentailment-by—postconverging-entailment} implication with respect to existence-
potency\textsuperscript{38}~sublimating–nascence,~disclosed-from-prospective-epistemic-digression is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior \textsuperscript{38}nonpresencing–\textsuperscript{<perspective–ontological-normalcy/postconvergence>} as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in prospective existence-potency\textsuperscript{38}~sublimating–nascence,~disclosed-from-prospective-epistemic-digression relative-ontological-completeness\textsuperscript{88} of apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity prospective relative-ontological-completeness\textsuperscript{88}of-axiomatic-construct-or\textsuperscript{3}reference-of-thought \textsuperscript{<amplituding/formative–epistemicity>} causality as to projective-totalitative-implications-of-prospective- nonpresencing, for explicating-ontological-contiguity for transcendence-and-sublimity/sublimation/superrerogatory–de-mentativity, implied as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This explains why ontology’s-directedness-as-Being is the direction of meaningfulness-and-teleology\textsuperscript{100} grounding as always prospective as of prospective relative-ontological-completeness\textsuperscript{88}of-reference-of-thought; and so, as of the successive base-institutionalisation, universalisation, positivism and notional–deprocrypticism registry-worldviews/dimensions nonpresencing–\textsuperscript{<perspective–ontological-normalcy/postconvergence>} respectively as successive meaningfulness-and-teleology\textsuperscript{100} grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation,\textsuperscript{100}universalisation–non-positivism/medievalism, and positivism–procrypticism \textsuperscript{80}presencing—absolutising-identitive-constitutedness\textsuperscript{10}. Interestingly we can appreciate that the attitude/mental-disposition/care–and–episteme as of relevant existential issues of all the prior registry-worldviews/dimensions\textsuperscript{84}reference-of-thought are wanting-as-relatively-ontologically-flawed from our positivism–procrypticism as prospective perspective/framing/reference/horizon/projection of meaningfulness-and-teleology\textsuperscript{100}.

However, we are hard-pressed to concede that from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{10}\) as of prospective \(^{10}\) deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought as of its prospective relative-ontological-completeness -of- reference-of-thought, our positivism–procrypticism is wanting-as-relatively-ontologically-flawed; as by reflex every registry-worldview/dimension is inclined to hang on to a delusion of the results-as-afterthought of prior \(^{10}\) nonpresencing-<perspective-ontological-normalcy/postconvergence> even at its uninstitutionalised-threshold\(^{10}\) despite its notional-discontiguity/epistemic-discontiguity\(^{5}\)<shallow-supererogation -of-mentally-aestheticised-preconverging/dementing -qualia-schema> with the prospective registry-worldview/dimension institutionalisation. Thus, induces its specific \(^{5}\) neuterising as it fails to construe of meaningfulness-and-teleology\(^{10}\) projectively as of prospective existence-potency\(^{10}\) –sublimating–nascence,-disclosed-from-prospective-epistemic-digression relative-ontological-completeness\(^{10}\) of apriorising/axiomatising/referencing. The implied \(^{5}\) maximalising-recomposing-for-relative-ontological-completeness\(^{88}\) —unenframed-conceptualisation notion also underscores the postmodern conception of \(^{83}\) human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> with regards to any \(^{5}\) <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, as fundamentally driven as to existence-potency\(^{78}\) –sublimating–nascence,-disclosed-from-prospective-epistemic-digression as so validatable by their ontological-prime-movers-totalitative-framework. human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>
insight translate the reality that ‘conventioning and tradition grounded critiques’ of
postmodernism fundamentally misconstrue that they are departing, as of their reference-of-
thought, from a less real position to evaluate a more real position; more like the irony of trying
to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs
from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what
fundamentally underlies the naïve misunderstanding of human-subject-emancipatory-
relativism-driven-recomposuring-constructivism-towards-singularisation<as-to-the-
nondisjointedness/entailment-of-prospective- nonpresencing>. For instance, the theory-of-
relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly
conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness of reference-of-thought. It is human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness of reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-prime movers-totalitative-framework by existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening for human emancipation. Thus implying existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression is ‘not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation directed directly to inherent-existence-as-of-existential-reality/existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human limited-
mentation-capacity-deepening bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-
nonpresencing> has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening’ human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-
nonpresencing> of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising meaningfulness-and-teleology\(^{100}\) that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective meaningfulness-and-teleology\(^{100}\)’ as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-
nonpresencing> that led to human limited-mentation-capacity-deepening. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness\(^{38}\) of-axiomatic-construct-or reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity\(^{77}\)—of-the-human-institutionalisation-process\(^{68}\) behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{100}\). That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon/projection for grasping prospective “meaningfulness-and-teleology”; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon/projection. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence (implicitd-'nondescript/ignoreable-void ‘as-to- presencing—absolutising-identitive constitutedness)/illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical “meaningfulness-and-teleology. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human preconverging/postconverging–de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing—limited-mentation-capacity-deepening to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance—<including-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing
to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-equation-to-recognition-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness of reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s/uninstitutionalised-threshold’s reference-of-thought as of it prior relative-ontological-incompleteness of reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness of reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance’<including-virtue-as-ontology> as to presuplimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing—apriorising-psychologism. Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness of reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking—apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing—apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like
demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness of reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective nonpresenting as of human-subpotency apriorising/axiomatising/referencing-of-attendant ontological-contiguity -educed existentialising/contextualising/textualising-contiguity conflatedness in {preconverging-disentailment-by} postconverging-entailment, and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of <preconverging~'motif-and-apriorising/axiomatising/referencing~imbuing~-existentialising—enframing/imprintedness (as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of-reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness -(of-notional--deprocrypticism-prospective-sublimation) appraisal of human narratives as to dimensionality-of-sublimating (<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) thus implying rather a notional–deprocrypticism institutionalisation

The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care–and–episteme’ as of its procrypticism–or–disjointedness-as-of- reference-of-thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ which prospectively represents the modern as preconverging–or–dementing –apriorising-psychologism while the postmodern is postconverging–or–dialectical-thinking–apriorising-psychologism; as the point of assertion of postmodern-thought as deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought is actually a point of prospective de–mentation ⟨supererogatory–ontological–de–mentation–or–dialectical–de–mentation—stranding–or–attributive–dialectics⟩. Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/‘constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/‘constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus
the ontologically affirmatory position adopted herein as of the prospective ‘postmodern

Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding-positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the latter’s institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for universal-transparency—\langle transparency-of-totalising-entailing—as—to-entailing—amplituding/formative—epistemicity\rangle totalising—in-relative-ontological-completeness \rangle as of overall underlying human ontological-commitment\textsuperscript{64}—implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as—being—as—of—existential-reality as to existence—as—sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{97} for relative-ontological-completeness\textsuperscript{88}; it is inevitably the case that what is most critically warranted is for the ‘prospective/new postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-

The reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–’notional–firstnatures–temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective de-mentative/structural/paradigmatic transcendental knowledge by its so-projected intemporality\textsuperscript{52}, at the uninstitutionalised-threshold\textsuperscript{103}, is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the lack of universal-transparency\textsuperscript{10} \langle\text{transparency-of-totalising-entailing,-as-to-entailing-}\text{amplituding/formative-epistemicity}\rangle\text{totalising–in-relative-ontological-completeness} \rangle for its prospective institutionalisation. Critical for the social validation and institutionalisation of any de-mentative/structural/paradigmatic transcendental knowledge is the fact that its ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{73}’ is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold\textsuperscript{103} cannot adjudge-and-commit-to the ontological-pertinence of such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework’ of the prospective positivism/rational-realism transcendental knowledge articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as meaningfulness-and-teleology\textsuperscript{00} of prospective relative-ontological-completeness’-of-’reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-
framework’. Such ‘concurrent ontological-primemovers-totalitative-framework’ was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-primemovers-totalitative-framework’ is only more or less determinant as of the institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’. However, at its uninstitutionalised-threshold the prospective ‘concurrent ontological-primemovers-totalitative-framework’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation’s <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology.<in-preconverging-existential-extrication-as-of-existential-unthought> . This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity.
as of prospective relative-ontological-completeness\(^2\). Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework\(^3\)’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^4\), for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^5\) of its amplituding/formative–epistemicity totalising/circumscribing/delineating reference-of-thought–devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold\(^6\) as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^7\), for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^8\) of its amplituding/formative–epistemicity totalising/circumscribing/delineating reference-of-thought–devolving’, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge concurrent ontological-primemovers-totalitative-framework\(^9\) establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism—of-social-functioning-and-accordance\(^10\) that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances,
better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation) ) originary/event -of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating –(<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern-day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all
ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance^[including-virtue-as-ontology] of any ‘^[reference-of-thought–categorical-imperatives/axioms/registry-teleology^[aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology]’.

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought is rather a notional–conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness—of—reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-

reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is ‘relevant as the attitude/mental-disposition/care–and–episteme’ of wholly immersed-and-engrossed meaningfulness-and-teleology. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of- reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by
it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness-of-reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of \textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness-of-reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of–meaningfulness-and-teleology posture in \textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, rather than a recognition of it prior relative-ontological-incompleteness-of-reference-of-thought, implying recognising its uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, as knowledge-notionalisation not only factors in conceptual sublimation knowledge dynamics but equally the dynamics of the conceptual ignorances/desublimation to better skew meaningfulness-and-
that prospective transcendental knowledge implied value-construct and value-reference is not meant to be of ‘idle’ relevance to the modern social-stake-contention-or-confliction framework but rather redeploy an altogether empowering perspective of prospective relative-ontological-completeness of reference-of-thought postmodern social-stake-contention-or-confliction framework of meaningfulness-and-teleology of value-construct and value-reference at the procrypticism uninstitutionalisation. aposteriorising/logicising/deriving/intelligising/measuring for meaningfulness-and-teleology while seemingly counterintuitive, simply speaks of the implications of the notion of prospective relative-ontological-completeness of reference-of-thought/prior relative-ontological-incompleteness of-axiomatic-construct as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-'human-amplituding/formative-epistemicity-totalising–purview-of-construal’, in that our appropriate-or-inappropriate-at-various-successive-levels conception as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-'human-amplituding/formative-epistemicity-totalising–purview-of-construal’ has nothing to do with inherent existential reality but with us adjusting our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology in order to reflect ontologically-veridical signification as of existence. And intuitively from our positivistic angle we can effectively recognise this about all the prior registry-worldviews/dimensions reference-of-thought as we appreciate that by reflex these are just beholden to their very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology reasoning-from-results/afterthought, but it is hard from our positivistic angle to then appreciate that prospectively we are equally in such a beheld positivism–procrypticism attitude/mental-disposition/care–and–episteme.

undertaken by Newton and Leibniz, extending the metaphoricity7 further even when we
contemplate that in many ways these metaphoricity7 relaying scientists were still imbued with
non-positivism/medievalism mystical and alchemic ideas. This ‘out of thin air’ metaphoricity7
possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-
human-knowledge grasp of that full-potency of existence’ is ever one of ‘nonpresencing-
as the very notion of ‘human-subpotency-as-human-knowledge grasp of the full-potency of existence’ given human limited-mentation-capacity implies that such a grasp only opens up a ‘limited framework of the full-potency of existence’ for new human existential and knowledge possibilities as of new/prospective habits-and-tradition. But then this ‘limited framework of the full-potency of existence’ as of new habits-and-tradition construed as ‘reason-from-results/afterthought framework, ‘doesn’t induce a commitment upon the absolute transcendental possibility in the full-potency of existence’. with all prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity
implied meaningfullness-and-teleology, we can appreciate that the foremost goal of
budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism

the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as
their conception of achievement motive were tied down to prospective positivism

the prospective ‘postmodern depcrypticism—or—preempting—disjointedness-as-of—

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’’ is well beyond the notion of eliciting the approbation of the modern take established arrangement in terms–as-of-axiomatic-construct, but rather is of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, in inducing budding-postmodern metaphoricity for the destruction-deconstruction of the modern take for prospective postmodern-notional–deprocrypticism institutionalisation as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-

In both cases, the prospective institutionalisation attitude/mental-disposition/care–and–episteme is ontologically validated as of its prospective relative-ontological-completeness of reference-of-thought, divulging the vagueness and futility of the pretences and judgments of the destructuring-threshold–(uninstitutionalised-threshold/presublimating-

rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology, which in its prospective relative-ontological-completeness-of-reference-of-thought is ‘the dimensionality-of-sublimating\(\langle\text{amplituding/formative}\rangle\text{, supererogatory-de-mentativity/epistemic-growth-or-conflatedness|transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\rangle\) inventing’ of the prospective notion of ‘thinking/postconverging-or-dialectical-thinking–apriorising-psychologism’ as positivism/rational-empiricism thinking or notional-deprocrypticism thinking respectively, and so as their successive prospective reasoning-from-results/afterthought. In both cases, such metaphoricity\(^1\) as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview’s/dimension’s attitude/mental-disposition/care–and–episteme\(^5\) of medievalism–non-positivism or positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought, but rather as of its very own transcendental-enabling/sublimating/supererogatory-de-mentativity prospective institutionalisation attitude/mental-disposition/care–and–episteme\(^6\) of positivism or deprocryticism respectively. It is herein contended that the critical notion underlying wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to—prospective-apriorising-implications), ressentiment and leveling specifically with reference to Heideggerian and Nietzschean thought can actually be interpreted critically as relating rather to ‘originariness-parrhesia,–as–spontaneity-of-aestheticisation over the human atrophying tendency for prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility—of-aestheticisation’ with regards to ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression. But then Heidegger failed to realise that the induced transcendence-and-sublimity/sublimation/supereorogatory—de-mentativity of the Socratic-philosophers universalising-idealisation as well as that of Descartes and other budding-positivists rational-empiricism/positivism were both originariness-parrhesia,–as–spontaneity-of-aestheticisation disseminative events induced as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression involving transcendence-and-sublimity/sublimation/supereorogatory—de-mentativity from non-universalising sophistry and medieval-scholasticism pedantic dogmatism respectively; and so as to the fact that dimensionality-of-sublimating—supererogatory—de-mentativeness/epistemic-growth—or-conflatedness/transvaluative—
as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation to both Descartes thinking-proposition for budding-positivism and Socrates’s universalising-idealisation in then secondarily inducing their respective reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed conception of Platonism and Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation perspective whereas Descartes and Plato—and—Plato’s Socrates are more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising and ancient-sophists non-universalising respectively. These induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity later on became prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inceptive emancipatory inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,—as—spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and so as of prospective projection as implied with the ontological-contiguity,—of-the-human-institutionalisation-process, but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and ontological-good-faith/authenticity. However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation—unforegrounding-disentailment,-failing-to-reflect—‘immanent-ontological-contiguity’ notion
of philosophy, it is herein contended that this relatively deficient analysis reflects the

In this regards, we can appreciate that all human meaningfulness-and-teleology arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by
Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance—including-virtue-as-ontology. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern-day science ontologisation; and besides, it can equally perfectly be claimed that even our modern-day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to <ampliudding/formative> wooden-language—(imbued—averaging-of-thought—

ontologically-flawed disparateness-of-conceptualisation failing-to-reflect ‘immanent-ontological-contiguity’ whether with the Ancient-sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the universalising-idealisation meaningfulness-and-teleology infrastructure of the Socratic-philosophers and their successors as providing the appropriate meaningfulness-and-teleology infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced meaningfulness-and-teleology infrastructure of budding-positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistic activities distortive of budding-positivism meaningfulness-and-teleology infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with ‘transvaluation as amplituding/formative epistemicity causality-as-to-projective-totalitative-implications-of-prospective nonpresencing for explicating ontological-contiguity in reflecting holographically conjugatively-and-transfusively the ontological-contiguity of-the-human-institutionalisation-process anamnesis as of difference-conflatedness as-to-totalitative-reification-in-singularisation as-to-the-nondisjointedness entailment-of-prospective nonpresencing as-veridical-epistemicity-relativism-determinism underlying the human construction-of-the-Self’ and on the other hand ‘the effective ontological-impertinence/dereification arising in the conceptualising of human value-construction as of a amplituding/formative wooden-language imbued—averaging-of-

This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’; wherein social–value-construction across the <cumulating/recomposuring–attendant-ontological-contiguity >successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment＜implied—self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality⟩ and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-＜conjugatively-and-transfusively＞the ontological-contiguity—of-the-human-institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty,
class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’. In this regards, social–value-construction arises from two levels; as of the inherent dementative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of

comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern-day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of

as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-
first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive "presencing—absolutising-identitive-constitutedness" is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating "historiality/ontological-eventfulness /ontological-aesthetic-tracing><perspective–ontological-normaley/postconvergence-reflected-‘epistemicity-relativism-determinism’> notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment `<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification–gesturing<in-prospective psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educated–existentialising/contextualising/textualising-contiguity }——
narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance—<including-virtue-as-ontology>/morality/ethics/etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold–(uninstitutionalised-threshold /presublimating–desublimating-decisionality)–of-ontological-performance —<including-virtue-as-ontology> dynamics of notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence’ ). But then while such an abstract transvaluation perspective for the construal of social–value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity exists in circumstances of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as of its given reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation inducing its deficient ontological-performance—<including-virtue-as-ontology> thus explaining its given registry-worldview/dimension vices-and-impediments. Thus the transvaluation of the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions in reflecting holographically—<conjugatively-and-transfusively> the
totalising-entailing,-as-to-entailing- \langle \text{amplituding/formative–epistemicity} \rangle \totalising\text{in-relative-ontological-completeness} \rangle is muted and where such universal-transparency \langle \text{transparency-of-totalising-entailing,-as-to-entailing-} \langle \text{amplituding/formative–epistemicity} \rangle \totalising\text{in-relative-ontological-completeness} \rangle is unmuted rather infused with ‘expected equity of all individuals for social–value-construction’ narrative(s). Basically, thus the reality of prospective social–value-construction critically arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning induced originariness-parrhesia,—as–spontaneity-of-aestheticisation with respect to the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, which when naively construed in presencing—absolutising-identitive-constitutedness as of prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation simply reflects the \langle \text{amplituding/formative–epistemicity} \rangle \totalising\text{self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \rangle of the prior registry-worldview/dimension as reflected with its social value-construct dilemmas. Consider in this regards the implications for an individual having to respond to an accusation of sorcery in a non-positivism social-setup as the individual and the social-setup both effectively believe in superstition. We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness/psychologismic-construct’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought-devolving-level manifestation of the primacy of existence equally extends to reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setting/measuring/instrument—for-conceptualisation ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior universalisation registry-worldview/dimension ‘is more effective’ as of its supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setting/measuring/instrument—for-conceptualisation in grasping existential reality manifestations than a preceding ununiversalisation registry-worldview/dimension. Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness/psychologismic-construct’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification–gesturing.<in-prospective_psycho<logismic–apriorising/axiomatising/referencing–{of-attendant–ontological–contiguity –educed–existentialising/contextualising/textualising-contiguity }— conflatedness –in–{preconverging–disentailment–by}–post<converging–entailment> and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as 6 m/s² rather than the existence-potency ~sublimating–nascence.-disclosed-from-prospective-epistemic-digression manifestation of 9.8 m/s² and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation.<unforegrounding-disentailment,-failing-to-reflect–’immanent-ontological-contiguity ‘>. It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification–gesturing-in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educated–existentialising/contextualising/textualising-contiguity}–conflatedness–in-{preconverging-disentailment–by}–postconverging-entailment’ interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to
interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification—gesturing—in-prospective psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness—in—{preconverging—disentailment—by}—postconverging—entailment—is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency/sublimating—nascence,—disclosed-from-prospective-epistemic-digression from such human-subpotency prior reproducibility—mathesis/motif/thrownness-disposition’.

This reflects the ontological-veracity that human sovereignty and free-will can only be construed in apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness—in—{preconverging—disentailment—by}—postconverging—entailment as of human <amplituding/formative—epistemicity>totalising—thrownness-in-existence> revealing the epistemic-impertinence of dispositions for ‘presencing—absolutising-identitive-constitutedness’ as wrongly implying human sovereignty and free-will supersedes existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression rather than the epistemic-veracity of difference-conflatedness—as-to-totalitative-reification-in-singularisation<as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing>—as-<amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity> of human 5 ‘meaningfulness-and-teleology’. We can garner for instance that there is and has never been any truly ‘presencing—absolutising-identitive-constitutedness’ of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-

A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being dementatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure
that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied
equanimity/balance as reflecting of human sovereignty and free-will is often raised critically
with regards to political and institutional performance particularly during crises. In many ways,
the systemic interrelatedness of large institutions as to their complementary end purposes and
practices, renders such an assessment of implied equanimity/balance rather de-
mentative/structural/paradigmatic to the overall politico-institutional system itself; and
particularly so as in many ways the possibility of readjustment is much more practically
instigated politically especially as with public institutions the individual manifestation of
sovereign choice is much more rigidly tied to political action unlike the relative ability for
direct disengagement from private entities. However, the fundamental fact that human
sovereignty and free-will is ever always a question of the ‘transverse relation of all humans
sovereignty and free-will in society’ inherently implies the underlying possibility for the
undermining of human sovereign choice as of inherent social differentiation. Beyond

ontological-contiguity —of-the-human-institutionalisation-process ; going by the
phronesis/practicality as of our positivism–procrypticism occlusivity, the assessment of
institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks
as reflective of socially-perceived commendation and disapprobation’, as advancing human
sovereignty and free-will as of deferential-formalisation-transference implications, can be rather
straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern-day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are preconvergingly–dementated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all
proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern-day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening\textsuperscript{53} as to the ‘relative-ontological-incompleteness’\textsuperscript{65}/relative-ontological-completeness\textsuperscript{66} (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating–<projective/ reprojective—aestheticising-re-motif— and–re-apriorising/re-axiomatising/re-referencing,–in-perspective–ontological-normalcy/postconvergence>\textsuperscript{90}) as to human-and-social–expectations/anticipations—metaphoricity –as-rede-mentating/restructuring/reparadigming–psychologism\textsuperscript{90} for knowledge-reification–gesturing<in-

apriorising/axiomatising/referencing about existence as ontologically-veridical (as it is the ‘totalitative epistemic-or-notional–projective-perspective’ that points out the veridical conception of causation) and so over a traditional reflex construal of human causation in apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity }—constitutedness—in–preconverging-entailment as of any given presencing—absolutising-identitive-constitutedness apriorising/axiomatising/referencing in prospective relative-ontological-incompleteness. This insight about human sovereignty and free-will effectively points to the ontological-flaw of presencing—absolutising-identitive-constitutedness conceptions whether as of the past, present or future, inherently as of failing to account for ‘relative-ontological-incompleteness /relative-ontological-completeness’

as it is often implied by a ‘naïve type of philosophising that the conception of human sovereignty and free-will can be abstracted outside attendant ontological-contiguity educed existentialising/contextualising/textualising-contiguity as to the underlying supposedly coherent ontological-commitment implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming as-being-as-of existential-reality in wrongly implying that human sovereignty and free-will is rather veridically underlied by ‘human social-vestedness/normativity discretely-implied-functionalism implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ outside attendant ontological-contiguity educed existentialising/contextualising/textualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness. But then such pretence of presencing—absolutising-identitive-constitutedness veracity of ‘human social-vestedness/normativity discretely-implied-functionalism implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification—gesturing—in-prospective psychologismic—aipriorising/axiomatising/referencing-{of-attendant–ontological-contiguity educed—existentialising/contextualising/textualising-contiguity }— conflatedness in {preconverging—disentailment—by} postconverging—entailment implications. Such ‘human social-vestedness/normativity discretely-implied-functionalism implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the meaningfulness-and-teleology infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity discretely-implied-functionalism

The reason why such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all meaningfulness-and-teleology (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of attendant–ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity thus subject to analysis as of ‘relative-ontological-incompleteness/relative-ontological-completeness’
conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence⟩ as to human-and-social–expectations/anticipations—metaphoricity{as-rede-mentating/restructuring/reparadigming–psychologism} as to their existential-reality veracity, such that fundamentally such ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation about human sovereignty and free-will are rather ‘internally inconsistent’ and more aptly reflect manifestations of power-grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-ontological-completeness. Consider in this regards for instance as of the presencing—absolutising-identitive-constitutedness notion of ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–
conceptualisation in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring-as-to-preconverging-or-dementing-apriorising-psychologism-of any such implied slavery ‘human social-vestedness/normativity-discretely-implied-functionalism-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-discretely-implied-functionalism-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring-as-to-preconverging-or-dementing-apriorising-psychologism-of any such implied slavery ‘human social-vestedness/normativity-discretely-implied-functionalism-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’. This points to the reality that ‘human social-vestedness/normativity-discretely-implied-functionalism-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-primemovers-totalitative-framework construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-

The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a ‘presencing—absolutising-identitive-constitutedness’ false sense of logical-dueness as of ‘relative-ontological-incompleteness’/relative-ontological-completeness\(^*\) as to human-and-social–expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism’ may seem to arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather of flawed apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such apriorising/axiomatising/referencing but is rather meted with relative-ontological-completeness\(^*\) perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation in unaffirmation/deprojection/de-assertion/undueness-invalidating—

Thus, there is a direct relation between human-subpotency and existence-

instigated/originated by the human capacity for dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{25}-by-reification/contemplative-distension\textsuperscript{26} in its construction-of-the-Self with respect to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. The underlying point here is that there is no inherent meaningfulness-and-teleology\textsuperscript{100} but rather as of the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility ⟨imbued-and-'hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation⟩, that is, as to ‘human-subpotency potential to epistemically converge to the full-potency of existence’; and this underlying structure of reflexivity is the very structure in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{68}, however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges-us/puts-us-to-question as of prospective implications of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of- meaningfulness-and-teleology , institutional-development–as-to-social-function-development and living-development–as-to-personality-development. The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in
existence. The very possibility for prospective human knowledge generation thus calls for human dimensionality-of-sublimating \( \langle \text{amplituding/formative}\rangle \text{supererogatory-de-mentativeness/epistemic-growth-or-conflicatedness} \ /	ext{transvaluative-rationalising/ transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation} \rangle \) given the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional–firstnatedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor, with such human dimensionality-of-sublimating \( \langle \text{amplituding/formative}\rangle \text{supererogatory-de-mentativeness/epistemic-growth-or-conflicatedness} \ /	ext{transvaluative-rationalising/ transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation} \rangle \) speaking of true humanity projection for prospective secondnaturing institutionalisation (that goes on to broaden-the-latitude-of-human-collective-consciousness), and so over the wrongfully elicited self-satisfaction of sophistic/pedantic \( \langle \text{wooden-language-}\rangle \text{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of-nondescript/ignorable–void ’with-regards-to-prospective-apriorising-implications>\rangle \)’ is in want for secondnatured knowledge and institutionalisation, and so as to the former human
limited-mentation-capacity-deepening (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—dementating/structuring/paradigming —as-being-as-of-existential-reality>). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—dementating/structuring/paradigming —as-being-as-of-existential-reality>; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>}’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-
deepening). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity-undermining of human dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension is effectively about discouraging the possibility for prospective humanity to manifest. But then this intellectualism and sophistry conundrum underlying knowledge-notionalisation (as of prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development), de-mentatively/structurally/paradigmatically marks all human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the uninstitutionalised-threshold attendant framework of lack of social universal-transparency—totalising—in-relative-ontological-completeness—of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very first place; and this very much explains the defining relevance of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, as to the possibility for genuine human reification and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency\textsuperscript{38}~sublimating–nascence, disclosed-from-prospective-epistemic-digression) is effectively what underlies human institutional paralysis and social-vestedness/normativity<discretely-implied-functionalism> as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology\textsuperscript{100}<-in-preconverging–existential-extrication-as-of-existential-unthought>) is predicated upon and
perspective as to maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation and rather adopts the temporality/shortness comfort as of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation hanging on to historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition presencing—absolutising-identitive-constitutedness notional framework of human stake-contention-or-confliction. historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition thus involves a <amplituding/formative–epistemicity>totalising/circumscribing/delineating conception of social-vestedness/normativity <discretely-implied-functionalism> as to an underlying human psychological entrapment (as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology , institutional-development—as-to-social-function-development and living-development—as-to-personality-development) that is incapable to re-stake/put-back-at-stake meaningfulness-and-teleology out of its historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition social-vestedness/normativity—<discretely-implied-functionalism> in order to reflect the true prospective overall aestheticisation—and—aestheticisation-towards-ontology as to the unbridled ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective re-originariness/re-origination of human limited-mentation-capacity-deepening. Such social and institutional social-vestedness/normativity—<discretely-implied-functionalism> for instance like in many ways the practice in modern-day scholarship (especially when poorly constrained to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression) is bound to ‘make its own weather’ rather as from human-subpotency temporality/shortness; wherein ‘invested’ institutional and theoretical/conceptual postures take on an essence all of their own, and so independently and overlooking the precedence of existential-reality for the possibility for prospective sublimation and knowledge-reification—gesturing—<in-

material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a
desublimation/gimmickiness rather than its very own sublimation in tandem with
material/equipment/accoutrement sublimation. This is reflected with the increasing
remoteness/alofness and alienation of the generalised human subject from such
material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of ‘presencing—absolutising-identitive-constitutedness -of—meaningfulness-and-teleology’ given ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of ‘Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’, institutional-development—as-to-social-function-development and living-development—as-to-personality-development) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective of re-originariness/re-origination as implied with prospective ‘deprocrypticism—or–preempting—disjointedness-as-of—reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness -of—meaningfulness-and-teleology’ given ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ bounded to
prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness\textsuperscript{88} meaningfulness-and-teleology\textsuperscript{100}’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology\textsuperscript{100} <in-preconverging-existential-extrication-as-of-existential-unthought>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation—and—aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and-teleology\textsuperscript{100} with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension\textsuperscript{26}. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a \textsuperscript{46} presencing—absolutising-identitive-constitutedness\textsuperscript{12} of—meaningfulness-and-teleology\textsuperscript{100} given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective \textsuperscript{46} historiality/ontological—
eventfulness\textsuperscript{37}/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs–of–meaningfulness-and-teleology\textsuperscript{60}–in-cumulation/recomposing is often articulated as resting on ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ presencing—absolutising-identitive-constitutedness\textsuperscript{13}/constitutedness\textsuperscript{13} apriorising/axiomatising/referencing–conceptualisation perspective thus supposedly rendering irrelevant their analysis as of inherent ontological-veracity (as to supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> with regards to the ‘full-conflatedness\textsuperscript{12} of apriorising/axiomatising/referencing–conceptualisation as to existence-potency\textsuperscript{13}~sublimating–nascence,-disclosed-from-prospective-epistemic-digression), but rather tending to a construal as of ‘inherent prior aestheticisation–and–aestheticisation-towards-ontology as of human social-vestedness/normativity<discretely-implied-functionalism>’; such a traditional conception from the relative-ontological-completeness perspective is actually unfounded and rather speaks to prior relative-ontological-incompleteness\textsuperscript{60} manifestation of human \textsuperscript{8}presencing—absolutising-identitive-constitutedness /constitutedness\textsuperscript{13} (as to \textsuperscript{4}historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition implications of human limited-mentation-capacity).

of the relative-ontological-completeness, as from the ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective. Likewise, this insight can be extended in reflecting the historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of ‘an engrained traditional non-universalising conceptualisation of the world’ incapable/could-not-bring-itself to mentally

Interpreting the historical failures associated with colonising or slaving or otherwise-exploitative-or-exterminating societies (as in the specific case of positivism/rational-empiricism technical and scientific development it inevitably implied the coming-together/encountering/meeting of societies worldwide), to then imply such a notion of ‘relative-ontological-incompleteness’/‘relative-ontological-completeness’{(sublimating—referencing/registering/decisioning,—as-self—becoming/self-conflatedness /formative—supererogating—<projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence)}> as to human-and-social—expectations/anticipations—metaphoricity\textsuperscript{72}–as-rede-mentating/restructuring/reparadigming–psychologism\textsuperscript{90} is irrelevant is rather a nuancing error that fails to assess/evaluate that the more critical issue had to do with ‘the appropriate emancipating attitude/mental-disposition/care—and—episteme’ as effectively and paradoxically such a lack of nuancing can then lead to the interpretation that such historical failures should equally be the unavoidable expectation prospectively in analogous circumstances of socio-cultural disparity of societies, rather than interpreted to mean the

implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the very notion of ‘positivistic science experimental framework historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism’ was developed and enculturated/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more

ever always inclined-and-amenable to face up to certain aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint while rather disinclined with respect to other
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; and this
very much explains the ‘potentiative-paradox of human-subpotency—
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—
notional—firstnaturedness—temporal—to-intemporal-dispositions—<so-construed-as-from-

This contrast is very much aligned with the ontological-contiguity —of-the-human-institutionalisation-process \(\langle\text{dimensionality-of-sublimating}\rangle\) and dimensionality-of-desublimating-lack-of \(\langle\text{dimensionality-of-sublimating}\rangle\). That said all registry-worldviews/dimensions as of their defining human contemplative moment arising from their very human limited-mentation-capacity induced \(\langle\text{presencing—absolutising-identitive-constitutedness}\rangle\) (while effectively contemplative of prospective progress), hardly/poorly project of prospective emancipation directly on the ontologically-veridical basis of the defining ‘prospectively conceptualisable

Thus the reality of prospective human emancipation in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process rather as of such a ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment —<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as–of-existential-reality>’ (as to the potentiative transforming/conversion, on the basis of existentially constraining implications of ontological-veracity, of human ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is

scientific and social sublimations giving their mutually for-human-studies sublimating nature; it is inevitably the case that a naïve construal of prospective science and technological development that seem to imply the requisite prospective sublimation of the overall human as to its prospective construction-of-the-Self is not critical, will inevitably lead to conundrums of prospective science and technology development as to the very possibility for developing the full human potential of science and technology as well as with respect to the underdevelopment of the human as to its shiftiness-of-the-Self in the capacity to handle and deal with prospective science and technology in such a manner that doesn’t imperil mankind’s very own survival (departing as from the larger conception of survival, beyond ‘reactionary construal’ of them-and-us in presencing—absolutising-identitive-constitutedness amplituding/formative-epistemicity totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that end up ‘destructively dehumanising’ the various ‘the other’). In effect, such a controversy of ontological-bad-faith/inauthenticity never arose (as explained by the prior enculturation of an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—⟨as-to-underlying,—ontological-commitment <implied self-assuredness-of-ontological-good-faith/authenticity —postconverging de-mentating/structuring/paradigming —as-being-as-of existential-reality⟩⟩ induced by budding-positivists and associated with their persecution), and further because of the very high predicative-effectivity—sublimation—⟨as-to-underlying,—ontological-commitment <implied self-assuredness-of-ontological-good-faith/authenticity —postconverging de-mentating/structuring/paradigming —as-being-as-of existential-reality⟩⟩ associated with the physical sciences and as generally reflected by the social-stake-contention-or-confliction disinterested natured of ‘much of the basic/fundamental and natural sciences’. However, the case with psychological, social and ‘interest-driven scientific frameworks’ is quite often ‘hardly one of high predicative-effectivity—sublimation—

This difference between a ‘purist science/ontology epistemic-conception of veracity/truth’ and the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is critically reflected in the fact that the former orientation is priorly-and-ultimately concerned with existence’s ‘foregrounding—entailment{postconverging—narrowing-down—sublimation-as-to—

In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicit contention that the human ‘supposedly has no profound sublimating social and socio-psychological phenomenal/manifest—subpotencies{in-transitive—conflicatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence’} with the ‘supposedly profound phenomenal/manifest—subpotencies{in-transitive—conflicatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence’} construed rather in reductionist terms of
biology/neurology or physicalism) as is often also associated with social-vestedness/normativity,<discretely-implied-functionalism> disparateness-of-conceptualisation,<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'>; thus ‘actually denying the metaphysical nature and thus ontological nature of the sublimating social and socio-psychological’ such that existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression sublimation implications with regards to the social and socio-psychological are hardly contemplated and recognised as so-projected herein as to the ontological-contiguity —of-the-human-institutionalisation-process. But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest–subpotencies {in-transitive-conflatedness –reflexivity, in-the-full-potency-of-existence's–sublimating–nascence} to then ‘utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-psychological phenomenal/manifest–subpotencies {in-transitive-conflatedness –reflexivity, in-the-full-potency-of-existence's–sublimating–nascence}’ (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any ‘<amplituding/formative–epistemicity> totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘<amplituding/formative–epistemicity> totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of physics, chemistry, biological, genetic theories as to the ontological-contiguity imbedded in-transitive-conflatedness –reflexivity, in-the-full-potency-of-existence's–sublimating–nascence–postconverging–narrowing-down–sublimation-as-to–'existence—as-sublimating-withdrawal,-eliciting-of-prospective-

The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the ‘traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of biological/neurological and evolutionary substitutive/reductionist interpretations’, but rather the strategies of such proponents (beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought> ) work paradoxically only by impliciting the reality of the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of the social and socio-psychological epistemic-conception phenomenal/manifest–subpotencies<in-transitive-conflededness reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence> (as to their implied sublimating existence’s necessitating implications and consequences’), and then surreptitiously project/select/pop-up (in totalisingly-disentailing—discretion/whim-of-thought) opportune/ad-hoc biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological frame–of–ontological-contiguity, and so as of vague disparateness–of-conceptualisation<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'>. Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening\(^3\)’ speak to the more profound reality that the ordinariness of human thought across the \(<\text{cumulating/recomposuring–attendant-ontological-contiguity}>\)-succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence\(^4\)’ despite the delusion of all registry-worldviews/dimensions in their \(<\text{presencing—absolutising-identitive-constitutedness}>\) as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions \(<\text{presencing—absolutising-identitive-constitutedness}>\) failure to directly grasp their very own \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}>\), even as the possibility for prospective \(<\text{transcendence-and-sublimity/sublimation/supererogatory–de-mentativity}>\) necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). In other words, the ‘effective equilibration of human sublimating \(<\text{meaningfulness-and-teleology}>\) across the \(<\text{cumulating/recomposuring–attendant-ontological-contiguity}>\)-successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/commonsensicality as of the \(<\text{cumulating/recomposuring–attendant-ontological-contiguity}>\)-successive registry-worldviews/dimensions \(<\text{presencing—absolutising-identitive-constitutedness}>\) as falsely elicited by their sophistic/pedantic

The ‘purist science/ontology epistemic-conception of veracity/truth’ is ever always about the ‘prospective upholding of existence-potency\(^{35}\)–sublimating–nascence,-disclosed-from-prospective-epistemic-digression and de-mentatively/structurally/paradigmatically so-explains the very possibility for human progress. In contrast the conception of veracity/truth as from the latitude
of ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression are vague disparateness-of-conceptualisation,<unforegrounding-disentailment,-failing-to-reflect–immanent-ontological-contiguity >, and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised imprimatur of intellection even as to when it projects intellectual desublimation associated with pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness } as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern-day intellection relevant prospective human-subpotency- aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint.

Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-

Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative

Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness\textsuperscript{88} knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and \textsuperscript{81} procrypticism–or–disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, \textsuperscript{104} universalisation, positivism/rational-empiricism and \textsuperscript{17} deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness\textsuperscript{88} has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness\textsuperscript{88}. Likewise, it is herein contended that a tradition of philosophy introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of presencing—absolutising-identitive-constitutedness amplituding-formative—epistemicity totalising—self-referencing-syncretising/circularity/interiorising/akrasia-drag that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of ‘undermining the natural social critical thinking that should enable the proper intellectual framing and addressing
of human and social issues leading to a rather subservient intellectual posturing to socially
dominant vested-interests/actors’ as so-reflected in the current impotence of the political
exercise with mediating institutions failing sovereign-equanimity as political, economic and

conceptualisation in implying that ‘the sublimating apriorising/axiomatising/referencing–psychologism is the valid logical-basis’ and ‘the desublimating apriorising/axiomatising/referencing–psychologism is the invalid logical-basis’. This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional-deprocripticism respectively are actually projective-insights speaking to the fact that huma prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-medievalism and procrypticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as so-induced by notional–asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnaturaed institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturung institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology which rather requires instigative notional–asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is
naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturing of positivism/rational-empiricism was the notional–asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism dementative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness logical-basis/logic,-as-derived-from—transversality is in transversality with the relative-ontological-incompleteness, it is only the sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation that affirmatively upholds the relative-ontological-completeness over the relative-ontological-incompleteness (as to their supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—dementating/structuring/paradigming —as-being-as-of-existential-reality>). In other words,
genuinely projected knowledge as of ontological-good-faith/authenticity~postconverging-de-mentating/structuring/paradigming~postconverging-de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human institutional-development–as-to-social-function-development and living-development–as-to-personality-development as to the positive-opportunism—of-social-functioning-and-accordance implicating a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of such ‘ontological-good-faith/authenticity~postconverging-de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–meaningfulness-and-teleology. In this respect with regards to human institutional-development–as-to-social-function-development and living-development–as-to-personality-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity~postconverging-de-mentating/structuring/paradigming existential-condescension<of-
apriorising/axiomatising/referencing–psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing–psychologism of the client’ and so as reflecting the sublimating knowledge ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming beyond-and-above the desublimating ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming of ordinary meaningfulness-and-teleology. However, this sublimating knowledge ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (even though from a retrospective perspective we can grasp the preconverging/dementing –qualia-schema of ‘the God-of-plane’ type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empiricism reflex ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ but it is important to note that such an animistic social-setup doesn’t project of any such preconverging/dementing –qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology going by its presencing—absolutising-identitive-constitutedness just as we will be disinclined to contemplate about the more veridical preconverging/dementing –qualia-schema of our procripticism–or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold as from a prospective notional–deprocripticism perspective projected placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). This poor appreciation arises for the simple reason that the uninstitutionalised-threshold speaks of the registry-worldview/dimension notional-
discontiguity/epistemic-discontiguity – shallow-supererogation of mentally-aestheticised preconverging/dementing – qualia-schema, and thus it is disinclined to recognise the prospective ‘relative-ontological-completeness — apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation{(as-to-underlying,—ontological-commitment — implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—dementating/structuring/paradigming —as-being-as-of-existential-reality’)’ imbued ‘foregrounding entailment{(postconverging—narrowing-down—sublimation—as-to—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation —in—reflecting—immanent-ontological-contiguity ;—as-operative-notional—deprocrypticism) that can instill such a prospective sublimating knowledge ‘ontological-good-faith/authenticity ~postconverging—de—mentating/structuring/paradigming existential—condescension—of—apriorising/axiomatising/referencing—psychologism’ as to prospective institutional-development—as—to—social—function—development and living—development—as—to—personality—development. In this regards, it can be appreciated with respect to budding-positivism and universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the medieval-scholasticism underpinning—suprasocial-construct or where construing meaningfulness in coherent universalising terms do not avail as in the non-universalising sophistry underpinning—suprasocial-construct, then there is a fundamental reality of desublimating ontological—bad—faith/inauthenticity over which prospective sublimating ontological-good—faith/authenticity knowledge respectively as of budding—positivism and universalising—idealisation can only be established as of their respectively requisite ‘ontological—good—faith/authenticity existential—condescension—of—apriorising/axiomatising/referencing—psychologism’ and naïve modern-day presencing—

faith/authenticity\textit{rangle} existential-condescension-<of-apriorising/axiomatising/referencing–
psychologism>’ for organic-knowledge needs to be explicited with regards to the blurriness of
intellectual-and-moral responsibility associated with knowledge as of the requisite dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension for its elucidation and appropriate secondnatures institutionalisation that is not dissociated from the very construction-of-the-Self, and knowledge cannot thus be construed as ‘a minor and side thing of mere influencing and stature’ that is dissociated with veridical human mental-development and emancipation in order to rather surreptitiously serve human-subpotency as mortal methodologising/mutualising/organising/institutionalising perverted purposes (as so-of-ten implicitly construed by many a social dominance/vested-interest actor and sycophantic-sophistry throughout human history in eliciting wooden-language-⟨imbued—averaging-of-thought-⟩as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications⟩hardly showing disinterested interest in genuine knowledge). The blunt fact is that as explained above and clearly obvious with human institutional-development—as-to-social-function-development and living-development—as-to-personality-development the ordinariness of meaningfullness-and-teleology is not to be exploited as if it is a credible state of profound ontological-veracity given the lack of dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension (as to a disparateness-of-conceptualisation) which pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—⟨amplituding/formative—epistemicity⟩totalising—in-relative-ontological-completeness ) thrives on this lack of universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—⟨amplituding/formative—epistemicity⟩totalising—in-relative-ontological-completeness ) with regards to prospective Being-development/ontological-framework-

implicitly recognise this reality even as the overall underpinning—suprasocial-construct tends to
be abstractly preconvergingly—de-mentated/structured/paradigmed to skew towards ‘immediacy

professional choices and callings made well beyond just a question of their remunerative or

function/posture is to undermine this skewing towards ‘immediacy supposed absolute

as-to-social-function-development and living-development–as-to-personality-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given [presencing—absolutising-identitive-constitutedness] \(^\text{13}\) ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Copernicus, Galileos, Descartes, Kants, Newtons, Leibniz, Rousseaux, Diderots, Pasteurs, Lavoisiers, Teslas, Einsteins, etc. upon whose [meaningfulness-and-teleology] \(^\text{100}\) infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human [meaningfulness-and-teleology] \(^\text{100}\) (and so not only with human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—[meaningfulness-and-teleology] \(^\text{100}\) but is equally reflected in a poor-spirited bland conception of human institutional-development–as-to-social-function-development and living-development–as-to-personality-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning–suprasocial-construct projected and preconvergingly–de-mentated/structured/paradigmed ‘immediacy
supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-threshold of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying presencing—absolutising-identitive-constitutedness end up as the registry-worldviews/dimensions Establishments underpinning—suprasocial-construct as to dominance/vested-interest—drivenness—as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness<preconverging—‘motif-and-apriorising/axiomatising/referencing’–imbuing>—existentialising—enframing/imprintedness{as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} of social-vestedness/normativity<discretely-implied-functionalism> and social-stake-contention-or-confliction. The implication here is that the ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming \textless \text{existential-condescension}\textgreater’ is thus merely reflecting the veridicality of the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity which is only possible as to existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,- eliciting-of-prospective-supererogation \textless \text{as-to-perspective–ontological-normalcy/postconvergence-implied–‘prospective-aporeticism–overcoming/unovercoming’}\textgreater with regards to human formativeness–\textless \text{as-to-intersolipsism–of– preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism}\textgreater–of–meaningfulness-and-teleology. This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our modern-day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming\(^5\) existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ with regards to the human species on Earth and strive to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness\(^6\) doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance\(^7\)-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing-{of-attendant ontological-contiguity -educed existentialising/contextualising/textualising-contiguity }—ontological-deficiency arising from its specifically given\(^4\) <amplituding/formative–epistemicity>totalising-thrownness-in-existence’ but together with the extraterrestrials is rather de-mentatively/structurally/paradigmatically in existential-discursivity—implicated-sublimation-

Thus existential-discursivity—implicit-sublimation-over-desublimation implies that the human is already ‘de-mentatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-performance—including-virtue-as-ontology state failing to factor in human specific apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—ontological-deficiency arising from its specifically given <amplituding/formative—epistemicity>totalising~thrownness-in-existence’. This insight puts into perspective our ‘presencing—absolutising-identitive-constitutedness’ conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness aetiologisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-

In other words, our intellectual-and-moral responsibility is already engaged as to our \(^4\)amplituding/formative-epistemicity totalising—thrownness-in-existence\(^4\) and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness\(^8\) as to overall existential dimensionality-of-sublimating\(^8\) ⟨amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflicatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation⟩. Besides such a more stark elucidation as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\(^{5}\)meaningfulness-and-teleology\(^9\), existential-discursivity—implicit-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity’\(^9\)¬postconverging—de-mentating/structuring/paradigming\(^0\) existential-condescension<of-apriorising/axiomatising/referencing—psychologism>’, thus points to the primacy of ‘the very \(^4\)amplituding/formative-epistemicity totalising—thrownness-in-existence\(^4\) of human discursivity as to the possibility for prospective existential sublimation’ so-reflected in originariness-parrhesia,—as—spontaneity-of-aestheticisation—

Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given presencing—absolutising-identitive-constitutedness self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its ontological-contiguity’ as to the possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity—of-the-human-institutionalisation-process so-associated with human limited-mentation-capacity-deepening). Human sublimation as such in reflecting holographically–{conjugatively-and-transfusively} the ontological-contiguity—of-the-human-institutionalisation-process\(^8\) is existentially susceptibly instigated mostly as of materially/technically induced sublimation associated with tools, equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism—of-social-functioning-and-accordance\(^7\) social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall \(^5\) meaningfulness-and-teleology\(^10\). But the overall postconverging–dementating/structuring/paradigming of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of–meaningfulness-and-teleology\(^10\) instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations<blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving⟩’. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the
Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness\textsuperscript{98}–presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{100} of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective human aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness\textsuperscript{88} and the immaterial/social overall relative-ontological-incompleteness\textsuperscript{98}–presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{100} of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific–apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–as-to-underlying, ontological-commitment \textsuperscript{66}–implied—self-assuredness-of-ontological-good-faith/authenticity \textsuperscript{69}–postconverging–de-mentating/structuring/paradigming as-being-as-of-existential-reality⟩’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to
the fact that the technical and scientific progress as to relative-ontological-completeness weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology value-construct and shallow-supererogating methodologising/mutualising/organising/institutionalising <preconverging—’motif-and- apriorising/axiomatising/referencing’—imbuing>—existentialising—enframing/imprintedness— (as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism—of-social-functioning-and-accordance driving the secondnatured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension immaterial/social sublimation considerations that rise to the aporeticism overcoming/unovercoming challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfulness-and-teleology’ of our positivism–procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual–function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-
will, etc. is only veridically effective as to the originariness/origination

In this regard, relic/artifactual conception of veridical human historiciality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism rather speaks to deficient prior_knowledge-reification-gesturing-in-prior_psychologismic-apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity constitutedness-in-preconverging-entailment caught up in-presencing-absolutising-identitive-constitutedness of beholdening-becoming—distortive-originariness/distortive-origination—historicity-tracing—inhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification-gesturing-in-prospective_psychologismic-apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity conflatedness-in-preconverging-disentailment-by-postconverging-entailment for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual-function/posture indifference or betrayal to dominance/VESTED-interest actors. \(^{00}\) "teleology" is often used in the context of philosophy, psychology, and other areas of study, referring to the purpose or direction of something.

\(^{09}\) The term "reference-of-thought" is used to describe the act of thinking about something and the process of bringing to mind various aspects of it. It is often used in psychology, linguistics, and other fields to describe the mental processes involved in thought and perception.

\(^{10}\) "Sublimation" is a psychological term used to describe the process of transforming unacceptable thoughts, motives, or desires into more socially acceptable ones.

This is explained by the fact that the human can relatively easily appreciate the ontological-pertinence of new practices arising as from outside cultural diffusion but it is very much difficult to reconstrue of such practices as from the taxingness-of-originariness involved in surpassing an internalised \( \text{amplituding/formative-epistemicity} \)\( \text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \) posture; and this very much explains the double epistemic orientation to notional-deprocrypticism institutionalisation ‘unenframed/unbeholdening/bechancing-supererogation’ parameterisation/reparameterisation-(reflecting-a-supererogatory-decisionality-of-socioinstitutional-conceptions-as-to-‘their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation’) as-so-operationalising-‘scalarisation-as-to-rescalarisation-as–re-ontologisation’ for prospective aestheticisation–and–aestheticisation-towards-ontology/ meaningfulness-and-teleology as highlighted above (as to the need to feed our \( \text{amplituding/formative-epistemicity} \)\( \text{totalising-thrownness-in-existence} \) decisively globalising world with aestheticising re-originariness/re-origination to uphold the capacity for pure-ontology as to re-ontologisation). We can for instance appreciate this ‘human existentialising—decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ say with regards to cultural-diffusion in a non-positivistic like animistic social-construct wherein positivistic technical and material nascent-sublimations can relatively be easily appreciated/grasped in a short timeframe by their immediate sublimating—nascence but the more profound notion of a positivistic registry-worldview/dimension (as to social-and-institutional-frameworks-of—referencing/registering/decisioning of positivistic

appreciation/grasp (given the non-positivistic presencing—absolutising-identitive-constitutedness existentialising—decisionality psychological-disposition of defaulting individual and social ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’); and this ‘human existentialising—decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ applies in the \textit{cumulating/recomposuring—attendant-ontological-contiguity}—succession of registry-worldviews/dimensions with regards to the possibility for their prospective sublimation/emancipation. Along the same lines of disambiguating ‘human existentialising—decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ just as ‘a God-of-plane non-positivistic proposition’ in an animistic social-setup implies priorly an ‘altogether superseding positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation induced psychologism of reference-of-thought’ (over their non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation psychologism of reference-of-thought) from whence aposteriorising/logicising/deriving/intelligising/measuring can then ensue in existential-instantiations of conceptualising, and so as to the positivistic meaningfulness-and-teleology ‘more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ with regards to sublimating–nascence teleological-inflection—\textit{(as-to-more-profound-nondisjointing—amplituding/formative—epistemicity—totalising/circumscribing/delineating)}’, likewise prospectively with regards to nascent-particular/incipient-and-material/technical-sublimations—\textit{blinded-to-their-relative-ontological-completeness–reference-of-thought—devolving} as underlying many a technical and natural sciences it is ever always the ‘more profound reflection of existence—as-

In many ways recent history of human thought has shown that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating—existentialising—decisionality going beyond just neutral knowledge-reification—gesturing—in-prospective psychologically apriorising/axiomatising/referencing-of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—conflatedness—in-preconverging-disentailment-by—postconverging-entailment’, that cannot be ignored as to intellectually decadent practices of scepticism and blurring underlied by cynical reframing of thought at later moments (which had been related to sceptically and in blurriness at previous moments), and so as to shallow-supererogation desublimating—existentialising—decisionality driven by mere institutional-ascendancy. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation motive of human sublimation beyond/and-not-subjected-to the

Critically in this regards, human conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism (as to reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility –(imbued-and-‘hermeneutically/reproductively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation⟩) can thus de-mentatively/structurally/paradigmatically be construed as of ‘notionalisation/notional-conception/amplituding of knowledge’, wherein existence as to its very panintelligibility — effusing/ecstatic–inlining is the very aloofness/detachment upon which human conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism can supererogatorily act/react in sublimation or desublimation from whence knowledge as to organic-knowledge can arise so-construed as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. Thus ‘notionalisation/notional-conception/amplituding of knowledge’ underlies inherent existence-exacted-sublimating–as-to-postconverging–de-mentating/structuring/paradigming or existence-exacted-desublimating–as-to-preconverging–de-mentating/structuring/paradigming so-exactable respectively as from human ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming or ontological-bad-faith/inauthenticity ~preconverging–de-mentating/structuring/paradigming.

This points out why human knowledge is veridically a race-to-the-top-exercise/millipede-movement as to the very givenness of existence—as-the:absolute—a-priori—of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation —as-to-perspective—ontological-normalcy/postconvergence—implied—‘prospective-aporeticism—overcoming/unovercoming’ that is not subjected to human-subpotency in-effect absolution temporal-dispositions; as to the fact that it is only a human limited-mentation-capacity maximalising—recomposing—for-relative—ontological-completeness—unenframed-conceptualisation relation with existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation that can induce sublimation—over—desublimation. Such a veridical ontology (in relegating/doing-away-with/superseding the ‘knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge paradox’) is critically all about ‘a coherent totalising—entailing knowledge—reification—gesturing—in—prospective-psychologismic—apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising—contiguity conflatedness—in—preconverging—disentailment—by—postconverging—entailment’ exposed to

This elucidation is important in the sense that pedantic science-ideology is driven by a conception of mere-manipulable formulaicity of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation that poorly appreciates the profound-supererogation in the ‘invention/creation’ of true science and thus comes to relate to science as ‘off-the-shelf and made-to-measure contrivance of formulaicity devoid of profound-supererogation’ in a soulless ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification–gesturing<in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }—conflatedness –in {preconverging-disentailment–by}–postconverging-entailment>); with this shallow-supererogation explaining naivist interpretations of the Newtons, Galileos, Pasteurs, etc. in their very formation and development of what we now call science. Such development as to ‘knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge paradox’ is ultimately associated with scenarios of institutional-ascendency and other dominance/vested-interest (as associated with many a modern-day think-tank and secret institutions) overtly or covertly construed as inherently predicative-of and superseding knowledge as to networks of influence bent on intimating what can be thought or not as well as pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative—epistemicity>totalising~in-relative-ontological-completeness } of genuine knowledge, in ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification–gesturing<-in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }–conflatedness {in {preconverging-disentailment-by}–postconverging-entailment)’). It is herein contended that in many ways as to human ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming, it is technically impossible to strategise against ontology (given existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-

associated with the centrality of elections, voting and party politics’ is incomplete without an adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a genuine social intellectual–function/posture. In many ways the very idea of the ‘democratic public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural ascendency over ‘the supposedly democratic platforming and stakeholding in defining the very issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media influence). Critically, in this context such skewed platforming and stakeholding ends up alienating supposed sovereign electors as to a platforming and stakeholding process that mediatically and politically take a self-contained course (as to dominance/vested-interest defaulting issues that can be debated as to the underpinning–suprasocial-construct existentialising—enframing/imprintedness—(as-to— historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) socio-econo-political social-stake-contention-or-confliction) with the consequence that the so-politically-alienated sovereign electors are increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true policy solution) or decreasing participation in the democratic process, in many ways speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual–function/posture as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious
representatives come to be surreptitiously given their marching orders as to what is politically possible or not). In this respect, the very underpinning—suprasocial-construct hyperrealisation/hyperreal-transposition) (as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development) poses a major challenge as public-sovereignty is existentialisingly—enframed/imprinted to be wary of prospective re-ontologisation of alternative institutional aestheticising contemplation ‘given dominion/statal–logic’ calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation/suboptimisation’ such that any such profound alternative institutional aestheticising contemplation are traditionally bound to arise as disruptive institutional transformations whether or not involving power-showdown as associated with sudden/revolutionary transformations with ‘their drawback of having to think on their feet inducing deficient ontological-performance’—<including-virtue-as-ontology> as well as generalised social apprehension which is then enigmatically held against them’ (however the merits of their underlying case) very much unlike ‘the latitude for articulating conceptualisations available for presencing—absolutising-identitive-constitutedness <preconverging~ ’motif-and-apriorising/axiomatising/referencing’—imbuing—existentialising—enframing/imprintedness—{as-to— historicity-tracing—in-presencing—

deferentialism>meaningfulness-and-teleology' so-associated with human limited-mentation-capacity in order for 'the possibility of the sublimating social to arise as to human-and-social–expectations/anticipations—metaphoricity –as-rede-mentating/restructuring/reparadigming–psychologism’) points out that human ontological-performance'

Such a conception of <supererogatory-human-subpotency>--effecting is critically relevant in appraising that 'technical/profound articulations are not made gratuitously' (in contrast to a modern-day unnecessary 'social-and-media reflex of facility/convenience' shunning technicity/profundity
which goes on it is herein argued to be at the ‘infrastructural/root source of the cultivation of
discursive mediocrity’ as to ‘enculturating a practice of public
interestedness/profundity mediocrity and public awareness/accounting/decisioning mediocrity’
whereas the technicity/profundity of modern-day training and professions rather points to the
fact of a public potentially capable to handle more creatively profound/technical public analysis
and public debate rather than just ‘parsimonious/frugal ratings-driven defining conception of
intellectual analysis prone to desublimating disorientation, misanalysis and irrelevance’) as to
the requisite social notional–self-distantiative contemplative technicity/profundity that inherent
existence sublimating–nascence warrants to make available appropriately sublimating
<supererogatory–human-subpotency>–effecting (whether as to direct knowledge acquisition or
appropriate percolation-channelling-<in-deferential-formalisation-transference> enabling the
sovereign–function/posture ontologising-aptness). This poor appreciation of
 technicity/profundity in the public arises as of a poor projection of existence’s sublimating–
nascence to wrongly imply that the individual ‘is perfect as they are’ with supposed
‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-by-
institutional-by-social sovereign’s service’, and critically wrongly implying that knowledge as
to organic-knowledge can be acquired without the requisite ‘epistemic-
growth/disquiet/discomfort-{induced-sublimation,-as-from-existence’s—effusing/ecstatic–
inlining-as-historiality-{science/authenticity/nonextrication]-beyond-mere-formulaicity-as-

reification/contemplative-distension’ of the individual as to their ‘appropriate notional–self-
distantiation<-imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>’, while at
the same time ‘a pseudo-contrition as to awareness of such relatively shallow
technicity/profundity cultivated in such social-and-media spaces’ doesn’t deter such spaces
(consciously or unconsciously) from surreptitiously acting as of profound technicity/profundity at critical moments of public discourses with the consequence that ‘there is an opaque connection/continuity between public, media and institutional discursivity with social and institutional outcomes as if these are discrete and unrelated activities’ (whereas the supposed relevance of discursivity has to do with how it allows for comprehensible public ‘epistemic-growth/disquiet/discomfort-{induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as-historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as-historicity-tracing-{science-ideology/fashionability/distraction}} as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification/contemplative-distension’ in effectively appreciating social and institutional outcomes processes rather than individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction). The concrete and natural human psychological disposition with respect to knowledge as to organic-knowledge is in appreciating that for critical thinking even for the novice it is imperative to truly engage with the substance of the matter comprehensively-and-insightfully notwithstanding the level of exactifying comprehension (again whether as to direct knowledge acquisition or appropriate percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness). The abstraction-of-thought/principled-thought articulated with subject-matters content is not done gratuitously as it is often popularly advanced especially with ‘ontologically-flawed frameworks of blurriness’ and ratings/sales immediate interests’ susceptible to normalised/stereotyped/selfhelping/feel-good construal of knowledge. Subject-matter abstraction-of-thought/principled-thought content are not so-produced gratuitously in the sense that this effectively speaks to: the requisite sophistication/complexity for ‘full incipient supererogating breadth of human intelligibility transmutation’ (as ‘<supererogatory–human-subpotency>–effecting imbued epistemic-
totalising preformulating/preframing/premeaningfulness of notional-originariness-parrhesia—as-spontaneity-of-aestheticisation’ before the incipience of metaphoricity and then meaningfulness-and-teleology as to existentialising-frame) ‘that then permits hermeneutically/reprojectively/supererogatingly/zeroingly human sublimating-accessing/sublimating-relating-to’ existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (noting here that what is key here is ‘the existence constrained educated sublimating’ however the technicity/profundity whereas an attitude of normalised/stereotyped/selfhelping/feel-good knowledge that ‘doesn’t align with the existence constrained educated sublimating’ is fundamentally besides the point however its ‘false convincing of the fellow human mortal approach’ so-reflected as to the deficient social outcomes it is bound to be associated with’). Critically when push comes to shove, such blatantly flawed conception of true knowledge but socially accommodated as to ‘a social-functioning-and-accordance—as-of-social-stake-contention-or-confliction conception associated with immediate public ratings and/or sales/merchandising’ (over the ‘epistemic-growth/disquiet/discomfort—{induced-sublimation,-as-from-existence’s—effusing/ecstatic—

supposedly professional/technical/scientific auxiliary/substitutive practices of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-by-institutional-by-social sovereign’s service lacking in the underlying conception of epistemic-
growth/disquiet/discomfort-\{induced-sublimation,-as-from-existence’s—effusing/ecstatic–

in dispensing-with-immediacy-for-relative-ontological-completeness ‘by-
reification/contemplative-distension’ that are closely attached-and-driven directly or indirectly
by public ratings and/or sales/merchandising with little consideration for veridical/optimal
existential sublimating/desublimating implications, even as it is herein argued professional/technical/scientific abstraction-of-thought/principled-thought content mustn’t
necessarily generate less public interest but should primarily be motivated with inherent
knowledge-reification–gesturing–\{in-

sublimating–existentialising–decisionality implications). It is herein contended hower
counterintuitive that the idea of understanding 100% of knowledge content at one go (as
commonly assumed and cultivated with such content driven by public ratings and/or
sales/merchandising as to excessive simplification, distortion, superficiality, ephemerality and
attention-grabbing undermining organic knowledge) is very much detrimental for a profoundly
engaging and sublimating practice of public exposition to knowledge as so-inducing the
degradation/banalisation of content in order to supposedly capture the most number of people at
one go, and so it is herein argued very much contrary to the natural human potential for
profound knowledge assimilation which is rather of
hermeneutic/reprojecting/supererogating/zeroing potential. A lot of true learning, understanding and engagement (beyond attention-grabbing and simplification convenience) comes and expands hermeneutically/reprojectively/supererogatingly/zeroingly as to re-exposition to same and similar content for eliciting an active thought/contemplative engagement that is sufficiently challenging to people's true intellectual growth possibility as to creatively eliciting and developing true contemplative interest and not just passivity (however the habituation of a plainness that turns out to seem to be ‘the popular choice’ to which in reality all individuals can succumb to but which is as of their self-reflection actually subpotentiating with regards to the ‘broad existential panoply of human epistemic-growth/disquiet/discomfort⟨induced-sublimation, as-from-existence’s—effusing/ecstatic–inlining-as-historiality–associated{science/authenticity/nonextrication}-beyond-mere-formulaicity-as-historicity-tracing-{science-ideology/fashionability/distraction}⟩ as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness⟨induced-reification/contemplative-distension⟩’ necessary for prospective ontologisation/re-ontologisation as to epistemic-totalising ~resubjecting or totalising-entailing–reconstrual of attendant–ontological-contiguity—educed–existentialising/contextualising/textualising-contiguity—in-elucidation-or-reification). Such an attitude of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-by-institutional-by-social sovereign’s service lacking in the underlying conception of epistemic-growth/disquiet/discomfort⟨induced-sublimation, as-from-existence’s—effusing/ecstatic–inlining-as-historiality–associated{science/authenticity/nonextrication}-beyond-mere-formulaicity-as-historicity-tracing-{science-ideology/fashionability/distraction}⟩ as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness⟨induced-reification/contemplative-distension⟩ to the education of children and young people can be particularly detrimental to critical thinking (while cultivating ‘an elicited mere-formulaic—conformity/trending/voguing/fashionability/resonance relation to
meaningfulness-and-teleology due to the overly denatured and insufficiently challenging–and–independence-eliciting existentialising–frame of meaningfulness-and-teleology (as to veridical hermeneutic/reprojecting/supererogating/zeroing re-exposition for eliciting active thought/contemplative engagement as of prospective epistemic-totalising ~resubjecting or totalising-entailing–reconstrual of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–in-elucidation-or-reification of knowledge content and generation of varying interests); and so in reflection of the fact that a lot of childhood and human developmental learning is rather ‘passive integration of schema of thinking/contemplation and engagement’ as more decisive than really ‘knowing and recalling knowledge content’ (notwithstanding the inherently basic interrelatedness) with ‘passive integration of schema of thinking/contemplation and engagement’ critical for elaborating/framing meaning starting with the very incipient and appropriate jargon/language-conceptualisation for producing meaning (that is bound to align with constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and so rather than ‘an elicited mere-formulaic—conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology with a poor sense of the prospective attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–in-elucidation-or-reification of knowledge content as to epistemic-totalising–resubjecting or totalising-entailing–reconstrual). existentialising–decisionality (as no normalised/stereotyped/selfhelping/feel-good knowledge is hardly of any help to the technician/practitioner/scientist in the face of constraining existential implications) or with the relative blurriness of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality, and critically in many ways the cultivation of shallow technicity/profundity (as to poor ‘epistemic-growth/disquiet/discomfort-＜induced-sublimation,-as-from-existence’s—effusing/ecstatic—inquiring-as-historiality-＜science/authenticity/nonextrication＞-beyond-mere-formulaicity-as-historicity-tracing-＜science-ideology/fashionability/distraction＞) as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension’ requiring appropriate notional~self-distantiation-＜imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing＞) in public spaces is not detached from ‘public interestedness/profundity mediocrity’ and ‘public awareness/accounting/decisioning mediocrity’. But then technicity/profundity as to the public discourse is all about cultivating the possibility for ‘a public formulative appraisal and
habituation for an enlightened sovereign engagement with public decision-making policies and technicalities’; and in this regards it is herein contended that unlike it can naively be construed about human capacity for understanding, a lot of ‘human understanding is actually passive exposition to understanding of appropriately articulated/formulated knowledge-reification–gesturing<in-prospective_psycho~logismic−apriorising/axiomatising/referencing−{of−attendant_ontological-contiguity−educed−existentialising/contextualising/textualising-contiguity}−conflatedness−in−{preconverging-disentailment−by}−postconverging-entailment> so-underlying <supererogatory−human-subpotency>−effecting as to the formative-and-enabling formulative backdrop for sovereignly appraising meaningless-and-teleology technicity/profundity’ whether with regards to public education or even childhood-development education and/or formative institutional/professional education, as to the fact that formulative understanding (as of <supererogatory−human-subpotency>−effecting) is the sovereignty/independence giving possibility for human ‘epistemic-growth/disquiet/discomfort⟨induced-sublimation,−as-from-existence’s—effusing/ecstatic–inlining-as-historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as-historicity-tracing-{science-ideology/fashionability/distraction}> as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness−by-reification/contemplative-distension’ relation with knowledge (as to conscious awareness existentialising–decisionality implications even if complete understanding as of complete meaningless-and-teleology technicity/profundity is not achieved and thus rendering the public resilient to desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation<blurring/undermining-of-prospective-totalising-entailing,−as-to-entailing−<amplituding/formative–epistemicity>totalising−in-relative-ontological-completeness> with regards to the competing discourse in public spaces by such a direct or deferential capacity for notional−self-distantiation−<imbued—re-motif-and-re-apriorising/re-axiomatising/re-

In this regards, the sovereign–function/posture ontologising-aptness is truly realised as to a dynamic deferential-formalisation-transference relation with the genuine social intellectual–function/posture that is much more than a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-by-institutional-by-social sovereign’s service lacking in the underlying conception of epistemic-growth/disquiet/discomfort-{induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as-historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as-historicity-tracing-{science-ideology/fashionability/distraction}} as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension’ as such a flawed conception is very much prone to disenfranchising public, media and institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—{blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness } bound to ultimately induce individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction (and as such disenfranchising framework render the truly relevant public issues secondary/indirect to their punctual/immediate purpose of ratings/popularity than genuine thought). But rather the sovereign–function/posture ontologising-aptness in many ways is in a protracted continuum with the genuine social intellectual–function/posture, so-implied as to ‘a totalitative construal of the genuine social intellectual–function/posture parallel intellectual

Likewise, the ‘genuine social intellectual–function/posture involves striving for a protracted continuum with the sovereign–function/posture for its ontologising-aptness’ but not in wrongly validating the existentialising–frame of discursivity as to a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-by-institutional-by-social sovereign’s service lacking in the underlying conception of epistemic-growth/disquiet/discomfort-{induced-sublimation,-as-from-existence’s-effusing/ecstatic–inlining-as-historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as-historicity-tracing-{science-ideology/fashionability/distraction}} as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness⁸⁹-

This eventually means that the genuine social intellectual–function/posture (adduced knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism imbued theoretical/conceptual/operant implications) should be able to saliently articulate/impress-upon the ‘overall social intellection-aptitude body’ (within the framework of a natural and truly original, autonomous and non-contrived intellectual culture) ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of percolation-channelling-<in-deferential-formalisation-transference> (rather than the manifested mediatic silliness wherein ‘re-processive technicity/profundity’ is widely scorned upon ‘in favour of vague normalised/stereotyped/selfhelping/feel-good narratives’ as to mere entitlement-and-access and ratings-drivenness eliciting pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness } in a ‘framework of preconvergingly–de-mentated/structured/paradigmed institutional and media contrivance’ and so-inducing ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’, and as so-cynically-and-surreptitiously cajoled by dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity<discretely-implied-functionalism> rendering the ‘overall social intellection-aptitude body’ relatively irrelevant towards upholding the sovereign–function/posture). Thus, the sovereign–function/posture is effectively disempowered as to its relevance to public outcomes of social-stake-contention-or-confliction when the ‘overall social intellection-aptitude body’ assessment capacity is fundamentally undermined as to monopolising/quasi-monopolising/networking existentialising–frame of public and

In many ways, the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) in recent decades with regards to socio-econo-political subontologisation/ideology-over-ontology has often failed to appreciate the implications of the fact that given human <amplituding/formative–epistemicity>totalising–thrownness-in-existence, ‘human meaningfulness-and-teleology is effectively of epistemic-totalising consequence reflecting epistemic-totalising growth/conflicatedness/postconverging as to

preconverging-existential-extrication-as-of-existential-unthought. Thus ontological-veracity (as to the pertinence of ‘overall social intellection-aptitude body’ as to its capacity for ‘neutral sovereign–function/posture upholding’) rather arises as of a ‘human knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism imbued theoretical/conceptual/operant implications detour to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression’ in pointing out the prospect of sublimating/desublimating–existentialising–decisionality socio-econo-political outcomes and implications rather than the ‘passive deification of institutional process/processiveness as of mere-formulaicity-<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising>’ (underlying why such a deficient social intellection posture will tend to be one step behind cumulating desublimating socio-econo-political outcomes as if it is most critically about reflecting upon such cumulating desublimating–existentialising–decisionality socio-econo-political outcomes rather than truly a posture of anticipative analysis and preemption). This mere process/processiveness induced deficiency is often critically reflected in a ‘barest and passive/poorly-reflexive conception of sovereignty in the democratic process’ that is poorly cognisant of the appropriate overall social enlightenment/knowledge imbuing oversight of the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) that is ‘much more than about leaving the room for competing/contending parties narrations/orientations/advocacies for socio-econo-political existentialising–decisionality but appraising-and-critiquing the effective coherence of such narrations/orientations/advocacies as to socio-econo-political outcomes expectations of the sovereign–function/posture’; so-underlying the more profound-supererogation notion of sovereignty associated with ‘appropriately sublimating technicity/profundity capable of
veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of veridical social knowledge percolation-channelling-in-deferential-formalisation-transference>. The consequence of this mere process/processiveness induced deficiency is reflected in an entrenched dichotomy of the democratic process between the reality of recurrent narratives of disontologising socio-econo-political outcomes on the one hand and on the other hand a publicly cultivated existentialising—enframing/imprintedness—(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) political culture/discourse that by its self-drivenness/self-containment at critical moments of the democratic process seem to bypass the relevance of such recurrent disontologising socio-econo-political outcomes (even as the very same social themes are recurrently and superficially raised as to a numbing-traction—of-desublimating–meaningfulness-and-teleology—(as-perspective-lost-of—supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—as-to-the-imbued-postconverging/dialectical-thinking—of—notional–deprocrypticism—{in- dimensionality-of-sublimating)—<amplituding/formative–epistemicity>growth-or-conflicatedness’/scalarisation-as-to-re scalarisation-as–re-ontologisation} ) treatment); so-reflecting a ‘habituatedness/mental-colonisation of the sovereign–function/posture to the presencing—absolutising-identitive-constitutedness’ social-vestedness/normativity’ cynically construed as enabling a social-stake-contention-or-confliction distractive-alignment-to-reference-of-thought—<of-apriorising/axiomatising/referencing>_ pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness } exercise in undermining prospective human re-ontologisation/omnipotentiality.
