This again confirms that the ontological-veracity of genuine human knowledge is rather about notional—self-distantiation—imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>‘distantiation of contemplative existentialising—frame as to transversality—for-sublimating—existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—motif—and-apriorising/axiomatising/re-referencing’ imbuing ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflect—epistemicity-relativism-determinism’ (as to the precedence of inherent existence possibility for sublimating—nascence to which human-subpotency subjects itself) and not conceptualisations of distractive-alignment-to—reference-of-thought—of-apriorising/axiomatising/referencing—(that wrongly imply that human totalisingly-disentailing—discretion/whim-of-thought takes precedence over inherent existence possibility for sublimating—nascence). rendering nonsensical, nombrilistic and self-important pretenses/claims that are rather of
manifest in-effect absolution as to their given
presencing—absolutising-identitive-constitutedness as so-fraudulently implied by our positivism–procrpyticism anti-
relativism stance (and eliciting herein the counterclaim that a rational-and-coherent defense of
such a posture warrants a further claim recommending that humanity should rather go back to
the state of ‘recurrent-utter-uninstitutionalisation as to its given manifest in-effect absolution
presencing—absolutising-identitive-constitutedness’ as a more coherent anti-
relativism stance as so-expliciting the idea that human progress doesn’t/shouldn’t occur, even
as paradoxically many such anti-relativism proponents seem to project progressive views
without truly grasping the contradictory implications of progressivism and anti-relativism
explaining their inclination to ‘disjointing totalisingly-disentailing—discretion/whim-of-
thought’ whereas ‘true knowledge has to carry its sublimation within itself as to its
notional–nondisjointing totalising-entailing’ for it to be socially potent and effective). We can
appreciate in this regards that the ‘sublimating–existential-decisionality potency of a scientist
thought is not in-and-about themselves’ as so-manifested in a
‘normalised/stereotyped/selfhelping/feel-good conception of knowledge’ but rather ‘their
inherent coherent knowledge formulation technicity/profundity and elucidating elaboration’
which then has to avoid explicited or implicit contradictions with regards to the knowledge
technicity/profundity ‘enhancement of the overall social-setup self-reflexivity as of the breadth
of socially cogent percolation-channelling—in-deferential-formalisation-transference>

intellectual–function/posture, the appraisal of the ‘overall social intellection-aptitude body’ as well as generalised social advocacy in contemplating about prospective ‘re-ontologising/potentiating/optimisable sublimating–nascence ontologising-depth perspective as of the full-potency of existence’. In other words, ‘existence imposes its sublimating rules to the human mortal subpotency’ as the very ‘fundamental meaning of science’ (notwithstanding vague human-subpotency self-important ‘methodologising/mutualising/organising/institutionalising’ anti-intellectual fooling-about and complotment); in a continual prospective relativistic process of human limited-mentation-capacity-deepening\(^5\). In this respect, it is herein contended as of a most intimate appreciation that such anti-relativism stances which will imply no human progress occurs are ‘so moronic’ it is doubtful these are held out of true conviction (bad or good), but rather are ‘cynical and strategic anti-intellectualism stances hanging upon mere institutional imprimaturing (as overplaying the card of ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction’ as to the protection offered by sensibility/decorum of institutional imprimatur’) in undermining the implications of prospective profound-supererogation\(^7\) entailing \(<\text{amplituding/formative-epistemicity}>\text{totalising–in-relative-ontological-completeness}\) as associated with social equality and anti-bigotry movements as to class, race, gender, etc. (and so-reflected by the fact that their proponents have ‘hardly been able to meet the academic standards of the arguments implied and projected by proponents of relativism’ and rather turning to surreptitious and media-driven strategies avoiding intellectual engagement in inducing social and institutional numbing-traction—of-desublimating—meaningfulness-and-teleology\(^9\) \(<\text{as-perspective-lost-of–supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbued-postconverging/dialectical-thinking –of–notional~deprocripticism–in-dimensionality-of–sublimating}—\(<\text{amplituding/formative–epistemicity}>\text{growth-or–}\)

Such ‘strategic and cynical institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation’ it is herein contended is much more potently effective in preconvergingly–de-mentating/structuring/paradigming social and institutional in-effect bigotedness (consciously or unconsciously) than the overt and superficial name-calling social manifestations conception of bigotry/prejudice/narrow-mindednes as to emotional distress; and so, as the deferential social and institutional interpretation of such in-effect bigotedness stances surreptitiously/underhandedly undermine the requisite social and institutional prospective human aporeticism overcoming/unovercoming as to profound supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness eliciting of human ‘epistemic-growth/disquiet/discomfort–(induced-sublimation,–as-from-existence’s—effusing/ecstatic–inlining-as-historiality–{science/authenticity/nonextrication}–beyond-mere-formulaicity-as-historicity-tracing–{science-ideology/fashionability/distraction}) as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness)—by-reification/contemplative-distension’. Basically, we can garner that ‘the very epistemic condition inherent to human limited-mentation-capacity in contrastive relation to the nonpresencing–{perspective–ontological-normalcy/postconvergence} of inherent existence sublimating–nascence’, induces (as of human \(<\text{amplituding/formative–epistemicity}>\text{totalising–thrownness-in-existence}\)) a ‘huma prospective regressive-shift in ontological-normalcy/postconvergence conceptualisation’ (so-reflected in the mere-formulaicity–{as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising} implied prior secondnatured reproducibility—mathesis/motif/thrownness-disposition,–as–reproductibility-of-aestheticisation) as of human dimensionality–of-desublimating–lack-of \(<\text{amplituding/formative–supererogatory–de-mentativeness/epistemic-growth-or–}\).

The blunt reality of true intellectualism couldn’t be more diametrical as to the fact that the genuine social intellectual–function/posture involves unaccommodating the social-setup’s presencing—absolutising-identitive-constitutedness

implied conception of intellectual-and-moral ascendency is nothing but a bogus social-setup’s auto-congratulatory exercise of ‘supposed intellection and morality’ that cannot answer to the inherent preconverging–de-mentating/structuring/paradigming vices-and-impediments\textsuperscript{10} of limitations of its Age (let alone prospectively uphold ‘human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality).

In the bigger scheme of things as to non-presencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection, human social-setups reflecting the respective states of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism and positivism–procrpticism are transcended/superseded exactly because of an incipient/nascent/instigative genuine social intellectual–function/posture ‘sneering’ at them and never as to otherwise ingratiating at them as manifested by the Socrates, Platos, Copernicles, Galileos, Descartes, Newtons, Leibnizes, Diderots, etc. as so-instigative of the requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring conception as to maximalising-recomposing-for-relative-ontological-completeness\textsuperscript{55}—unenframed-conceptualisation for prospective social aetiological/ontological-escalation (noting that the notion of ‘huma prospective notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> induced psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring self-becoming/self-conflatedness<formative–supererogating—projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence’ is about eliciting the sense of fellow human capacity/deferential-capacity to appreciate the inherent soundness of epistemic-growth/disquiet/discomfort\textsuperscript{12}—{induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as-historiality–{science/authenticity/nonextrication}-beyond-mere-

The blunt fact is that society is never its own inherent intellectual-and-moral absolute reference and thus is in want for its intellectual-and-moral development explaining why progress happen and the role of the genuine social intellectual–function/posture being about encouraging such progress, with the consequence that an ‘ingratiating supposedly intellectual relationship’ with human institutions as to ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’ is ever always (beyond-the-consciousness-awareness-teleology~<in-preconverging-existential-extrication-as-of-existential-unthought>) bound to lead to the institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation\{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\}

Human angling-of-imaginary (unlike the predisposition to mere-formulaicity-<as-to-mere-

assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality ultimately led to the subversion of medieval-scholasticism ‘non-positivising scholasticism ontological-bad-faith/inauthenticity~preconverging–de-mentating/structuring/paradigming’, and today in many ways the postmodern movement is more potent as to its social dynamics of ‘liberation and emancipation’ (however incipiently crude as to its sublimating self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality) in the face of surreptitious and spurious strategies of anti-intellectual misanalysis, misinformation and complotment as to our modern-day ‘pedantic totalisingly-disentailing—discretion/whim-of-thought ontological-bad-faith/inauthenticity~preconverging–de-mentating/structuring/paradigming’. Thus the more centrally defining element of human angling-of-imaginary speaks to human capacity for contemplation of metaphysics-of-absence-(implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>) epistemic-projection which is in many ways elusive to psychical-nascency disposition. But then this is no more different for the implicit projective-insights approach to thinking pervading the natural sciences; as to a fundamental aptitudinal capacity to think in terms of perspectives (implicitly speaking to such notions like projections and fields of conceptualisation that do not absolutise our present conceptualising framework and actually factor in the limited-mentation-capacity as to apriorising/axiomatising/referencing to then project of the implications of human limited-mentation-capacity-deepening of apriorising/axiomatising/referencing). In this regards, (and as priorly indicated herein just as conceptualising ‘the actuality<-as-to-history> of physical manifestations of the cosmos as astronomy’ with physics rather construed as the ‘archaeological/deconstructive–conceptualisation<-as-to-its-ahistorical-emancipation> of such an actuality conception that is astronomy’ with the implication that the ‘beholdening

Such a relation with prospective knowledge generation today particularly in domains-of-study susceptible to blurriness induces a markedly desublimating conception of notional–citationality as to when the ‘artifice of academic and institutional politics’ leads to a conception of knowledge as of ‘an institutional and academic nombrilism of self-presence/self-constitutedness<in-perspective–epistemic-abnormalcy/preconvergence> to which prospective human aporeticism overcoming/unovercoming is relatively irrelevant’ such that the construal of knowledge as to denoting/citation implications carries its very own ‘academic and institutional politics of knowledge’ undermining organic-knowledge notional–citationality (with notional–citationality so-implied in self-becoming/self-conflatedness/formative–supererogating–<projective/reprojective–aestheticising-re-motif–and–re-apriorising/re–

can be cultivated-and-articulated for ‘knowledge entailment as of nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection’ (theoretically/conceptually/operantly articulated herein as entailment-{as-to-totalising-contiguous/coherent-factuality-of-variability}), and so-reflected overall as knowledge ‘foregrounding entailment (postconverging–narrowing-down–sublimation-as-to-'existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation 'in-reflecting-'immanent-ontological-contiguity '; as-operative-notional–deprocrypticism). The insight here as well is that ‘knowledge carries its very own value’ (as to its prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection) since there is no neutral human mental-state of human ontological-performance <including-virtue-as-ontology> but for the appraisal from nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection. This is so-equally graspable for instance in the patent case of say a God-of-plane or superstitious conception of modern medicine in an animistic social-setup that cannot simply be construed as ‘explained away by a circumstantial thorough positivistic/rational-empiricism elucidation of how a plane or modern medicine works’ since such an animistic social-setup existentialising–frame is so-thoroughly beholdening to its ‘mystical/spirits conception of things’ going by its ingrained ‘reference-of-thought specific preconverging/dementing’—qualia-schema’ that at best only a circumstantial constraining is induced (and not a positivistic/rational-empiricism knowledge value as to its prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection) since the animistic mindset is bound to fallback/relapse into such a ‘mystical/spirits conception of things’ (so-reflected ‘in the generationally ingrained animistic

It can be garnered from this analysis that once the conception of ‘meaningfulness-and-teleology’ raises up the prospective human aporeticism overcoming/unovercoming issue of human ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction
vestedness/normativity. For instance, such a nonpresencing-epistemic-projection reflected of such a term like metaphoricity herein as to an exercise of ‘opening the human mind’ to projectively see that what the Socrates, Copernicuses, Galileos, Descartes, Kants, Newtons, Leibniz, Rousseaux, Diderots, Pasteurs, Lavoisiers, Teslas, Einsteins, etc. of the world as to their intellectual-and-moral profound-supererogation are doing tangibly is metaphoricity as to psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment-by}-postconverging-entailment in ultimately producing prospective sublimating meaningfulness-and-teleology (and in this regards there is no vague interpretation associated with the word metaphor as to the fact that the literary/poetic metaphor is the more basic ‘sign-associated conception of metaphor as to aestheticisation’ while the very practice of ‘science is an advancement of the conception of metaphor however implicit in the natural sciences as to aestheticisation-towards-ontology imbued exactifying/precisioning-of-sublimation-as-to-entailing-theoretical,-conceptual-and-operant-implications’ explaining the recurrent psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment-by}-postconverging-entailment reflecting science historicality/ontological-eventfulness /ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’). But the possibility to induce blurriness is pedantically taken up in a blurring conception of the ‘literary/poetic metaphor’ as to obfuscate with the literary trope as to what such thinkers like Derrida and Foucault ‘meant or can mean as metaphor’ failing to factor in that their lifetime work is ‘all their metaphor’ they are talking about (as to their eliciting of prospective reflexive

It is herein contended that such postmodern thinkers like Derrida and Foucault were very well consciously aware of this institutionally engrained distorted thought and motives as reflected in their intellectual demeanour and apprehension within the scope of such institutional ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’ (to which threshold of disontologising the textualising herein is not beholdening and effectively makes explicit as part and parcel of prospective knowledge-reification–gesturing<in-prospective_psychologismic~apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }\}–conflatedness \{in–{preconverging-disentailment–by}–postconverging-entailment\}). that underpinning–suprasocial-construct ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ (as reflecting the reality of human ‘shallow-sup ererogation of supererogatory–progressivity’). Thus beneath any supposedly underpinning–suprasocial-construct (reflected in the modern-day underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist), is a more fundamental ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> notion of supererogatory–progressivity’ (however the ‘shallow-sup ererogation of supererogatory–progressivity’) accounting for the possibility for prospective human social-and-institutional-frameworks-of—referencing/registering/decisioning sublimation/desublimation as in effect creatively permeating all such ‘underpinning–suprasocial-construct of presencing—absolutising-identitive-constitutedness existentialising–entailing’; and so (especially potent when such ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> notion of supererogatory–progressivity’ is manifested as of profound-sup ererogation entailing

In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a dementative/structural/paradigmatic parasitising renting economic model associated with the
explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus
speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world
countries) but still posing the question as to how skewed value-extraction can de-
mentatively/structurally/paradigmatically address in the long-run issues of requisite social and
public investment as a requisite for a theoretically self-sustaining economic model (not
critically driven and supported by the supererogatory–progressivity prioritisation of local or
foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall
social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit
manifestation of supererogatory–progressivity as underlying any given underpinning–
suprasocial-construct is most obvious today with the Chinese economic revolution as to the
creative impetus driving its overall socioeconomic transformation. Here again it is fair to say
just like with the Japanese and South Korean economic revolutions (given their more uniform
and deferential populations) there is a whole directedness here (beyond just a purist capitalism
model especially of a renting and skewed value-extraction capitalistic model) and so as to
‘country supererogatory–progressivity directed whole socioeconomic transformation project’,
and in many ways the capacity for the Chinese to now begin to invest abroad lies with this
relatively healthy supererogatory–progressivity conception/model less betrothed to short-term
skewed value-extraction poorly capable of fulfilling the necessary externalities investment to
thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to
make such markets stable and sustainable). But then in reality when push-came-to-shove the
fact is that the postwar history of all modern developed governments was hardly about their
naïve subjection to a purist capitalistic model to rebuild themselves as in reality their
redevelopment involved initial and massive public-driven investments in association with
already matured nation-building human resource as to the reality of their supererogatory–
progressivity national development programmes (especially as in the middle of the 20th century
international trade accounted for just a small part of economic growth) and it is this that
purportedly then gave way in later years to a the rising capitalistic model associated with
privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of supererogatory–progressivity’ as so-associated with debt servitude and de-mentative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating
any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation\textsuperscript{77} economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation>-omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory-progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory-progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivveness-<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,-as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of \textsuperscript{80}presencing—absolutising-identitive-constitutedness \textsuperscript{13}social-vestedness/normativity-<discretely-impied-functionalism\textsuperscript{82}>). Further the capitalistic model as to its fabrication of winners and losers given
its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the modern-day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation’ of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to “presencing—absolutising-identitive-constitutedness” social-vestedness/normativity-<discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from a totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.).
bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is preconvergingly–de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’.

Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond any such capitalistic limitative-artifice-of-human-imaginary/metaphysical-conceptualisation as to ‘unbeholdening sublimating–nascent ontologising-depth of the full-potency of existence’ existentialising–decisionality). The so-construed notional–deprocrypticism epistemicity conception of predicative-effectivity–sublimation–(as-to-underlying, ontological-commitment ≠<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality>) as to the overall ontological-contiguity —of-the-human-institutionalisation-process 66 provides the requisite basis for prospective human ontological-

In other words, the notion of ‘the other’ as aetiolisation ontological escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional contiguity epistemic contiguity profound supererogation of mentally aestheticised postconverging dialectical thinking qualia schema for ontologically veridical virtue transcendence and sublimity sublimation supererogatory de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the s; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being development ontological framework expansion as to depth of ontologising development as infrastructure of meaningfulness and teleology amplituding formative epistemicity causality as to projective totalitative implications of prospective nonpresencing for explicating ontological contiguity points to ‘a conception emphasising ontology as defining virtue thus ultimately geared towards prospective notional contiguity epistemic contiguity profound supererogation of mentally-

Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity\textsuperscript{67} of our ‘modern take attitude/mental-disposition/care–and–episteme’ as of our \textsuperscript{4}<amplituding/formative–epistemicity>totalising–self-referencing-

consequence arising with such manifestations in ontological-contiguity\(^7\) of our ‘modern take attitude/mental-disposition/care–and–episteme’; divulging that conceptualising virtue in ontological-contiguity\(^7\) is at best only of palliative consequence and not truly aetiolisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity <profound-supererogation -of-mentally-aestheticised-postconverging/dialectical-thinking –qualia-schema> as of prospective relative-ontological-completeness -of- reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiolisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments \(^9\). This existential reality about ontological-primemovers-totalitative-framework\(^7\) is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective–ontological-normalcy/postconvergence-implied-prospective-aporeticism-overcoming/unovercoming’> inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of \(^3\)0’s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme’ in ontological-contiguity\(^7\) as of its <amplituding/formative-epistemicity>totalising–self-referencing-synergetising/circularity/interiorising/akrasiatic-drag \(^4\) prior relative-ontological-incompleteness\(^9\)-of- reference-of-thought perspective construed-as reasoning-from-
results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity <profound-supererogation -of-mentally-aestheticised-postconverging/dialectical-thinking -qualia-schema> as of prospective relative-ontological-completeness<sup>86</sup>-of-reference-of-thought, as implicated with the case of Derrida’s spirit insight. Ultimately, the ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ should ontologically nurture the requisite psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective notional-contiguity/epistemic-contiguity <profound-supererogation -of-mentally-aestheticised-postconverging/dialectical-thinking -qualia-schema> as of prospective relative-ontological-completeness<sup>86</sup>-of-reference-of-thought implied as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought as implied by postmodern human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation<sup>17</sup> thus inducing the aetiologisation/ontological-escalation addressing/resolving our ‘modern take attitude/mental-disposition/care—and—episteme’ vices-and-impediments<sup>96</sup>. As a further elucidation, prospective notional-contiguity/epistemic-contiguity <profound-supererogation -of-mentally-aestheticised-postconverging/dialectical-thinking -qualia-schema> as of prospective relative-ontological-completeness<sup>86</sup>-of-reference-of-thought actually points out that the uninstitutionalised-threshold<sup>103</sup> is rather a point of de-mentation<sup>14</sup>(supererogation—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-
disposition/care–and–episteme over the uninstitutionalised-threshold attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger’s implicited insight as of notional-discontiguity/epistemic-discontiguity <-shallow-supererogation -of-mentally-aestheticised-preconverging/dementing -qualia-schema> but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity <-shallow-supererogation -of-mentally-aestheticised-preconverging/dementing -qualia-schema> as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating —{<amplituding/formative>supererogatory–demmentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as–spontaneity-of-aestheticisation to Descartes thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed Cartesianism today arise as to a reasoning as from
corresponding postmodern deprocrysticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care—and—episteme. In other words philosophical thought is all incipiently/seedingly about dimensionality-of-sublimating
transcendental ‘de-mentative/structural/paradigmatic disseminative implications’ as reflecting an underlying reality of prospective reference-of-thought de-mentation
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) construed herein as of prospective postmodern deprocrypticism–or–preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, and so just as searing with ‘de-mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism overcoming/unovercoming (underlying that Descartes’ dimensionality-of-sublimating
(<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-
parrhesia,—as—spontaneity-of-aestheticisation in then secondarily inducing his thinking-

as—reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the ‘mereness of
thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism
scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated
rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as
reflected by his novel mathesis universalis metaphoricity\(^{57}\) rationalism schema/dissemination
that permeates all of his works such that even with his ontological argument something subtle
and more original is happening, in that unlike many medieval-scholasticism dogmatic
interpretations that construe of a supernatural permeation into the natural, in affirming the
ontological argument Descartes blocks-out/passivises the supernatural from the natural with the
metaphoricity implication that the natural can be thought of operationally and in sublimation
on its own terms—as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a
statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism

The appropriate contemplative perspective for the appreciation of their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications is effectively crossgenerational as of the amplitude/breadth of ‘reference-of-thought implied transcendence-and-sublimity/sublimation/supererogatory—dementativity; as we can effectively appreciate that the very mathesis universalis schema/disseminative metaphoricity engendering our positivism apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument attitude/mental-disposition/care–and–episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity—<shallow-supererogation —of-mentally- aestheticised—preconverging/dementing —qualia-schema> analysis, implied as of prospective relative-ontological-completeness—reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness—reference-of-thought grasp more and more
what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising /circumscribing/delineating construct being the reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-sub potency for ontologically-veridical meaningfulness-and-teleology but rather human-sub potency adjusting as to existence-potency sublimating–nascence,-disclosed-from-prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness -of-reference-of-thought:relative-ontological-completeness -of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with regards to the reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. This phenomenological insight in recognising that there is ‘an underlying metaphoricity-induced relative-emancipatory migration’ from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrysticism to the prospective postmodern man as of deprocrysticism, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human meaningfulness-and-teleology as of prospective relative-ontological-completeness reference-of-thought; and so, as of retrospective and prospective meaningfulness-and-teleology interpretation construed as historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism. That is singularisation-\langle\text{as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing}\rangle projected epistemic-immanence/veridical-epistemicity-relativism-determinism points out that there is no inherent meaning of existence about existence as existence is tautologically what it is as existence, rather the notion of meaning arises as of the
immanence/veridical-epistemicity-relativism-determinism as of sharply defined teleological possibilities of social and individuals existence with respect to the different registry-worldviews/dimensions specific institutionalisations, etc. (Interestingly, as of this author’s conception of such a teleological perception of existence as of its singularisation—<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>—projected epistemic-immanence/veridical-epistemicity-relativism-determinism, as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation—<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>—insights of postmodern-thought has been subject to naïve obfuscation grounded on the supposed privilege of ‘science-ideology’ over science-in-practice as an opened construct of scientific knowledge as of cause-and-effect constraint, and with the form of science at various times continually molting as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern-day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their knowledge-reification—gesturing—<in-

It is interesting as well to note for example that when equations didn’t work out in reflecting ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming'> for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for knowledge-reification—gesturing-in-prospective-psychologismic-apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity—conflatedness—in-{preconverging-disentailment–by}–postconverging-entailment>—of their purview/domain of existence/intrinsic-reality/ontological-veridicality. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge
arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) All these highlight an underlying ontology’s-directedness-as-Being that bears notional~conflatedness singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism implications, as of ontologically-veridical singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism of human-subpotency ontological-performance—including-virtue-as-ontology correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality over ontologically-flawed dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness /epistemic-nonimmanence/flawed-epistemicity-relativism-determinism; and yet our psychological disposition is more often than

For instance, we can grasp that with regards to ‘the very same physics <amplituding-formative-epistemicity>totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the perceptivity of ‘traditional classical mechanics axiomatic-construct’ had rather been in ‘excogitative-blanking of the prospective construal of attendant ontological-contiguity-in-elucidation-or-reification’ reflected by the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as the latter’s prospective relative-ontological-completeness reflects the former’s prior relative-ontological-incompleteness as dialectically out-of-phase/preconverging-or-dementing –apriorising-psychologism. about articulating meaningfulness-and-teleology falsely as if superstitious notions ontologically-veridical out of prospective positivism attendant-ontological-contiguity - educed existentialising/contextualising/textualising-contiguity - reification, and likewise with regards to a positivism/rational-empiricism manifestation of procripticism-or-disjointedness-as-of-reference-of-thought mindset construal of meaningfulness-and-teleology that utterly overlooks the de-mentative/structural/paradigmatic reference-of-thought denaturing implications of its prospective disjointedness of meaningfulness-and-teleology out of prospective attendant-ontological-contiguity - educed existentialising/contextualising/textualising-contiguity - reification, as such disjointedness-as-of-reference-of-thought can be instigated originally from a postlogism -slantedness mental-disposition and the developing social dynamics with human temporality. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon/projection of meaningfulness-and-teleology about attendant-ontological-contiguity - educed existentialising/contextualising/textualising-contiguity ’; but then at its uninstitutionalised-threshold where its reference-of-thought de-mentative/structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness-of-reference-of-thought, it always systemically faces notional-procripticism/notional-disjointedness as of vices-and-impediments arising from non-positivism/superstitious human-subpotency existentially constrained temporal ontological-performance -<including-virtue-as-ontology> as wooden-language (imbued—temporal—mere-form/virtualities/dereification/akrasiatic—drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought—

In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, 10 universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure—{as-to—historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism-determinism’>} of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective. reflection of attendant ontological-contiguity educated—
existentialising/contextualising/textualising-contiguity . This brings up the implication of what
is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-
knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising,
implying it supersedes institutional practices and constructs as to the possibility for prospective
institutionalisation, and so as of its dimensionality-of-sublimating
(<amplituding/formative>supererogatory-de-mentativity/epistemic-growth-or-
conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-
drivenness–equalisation) inducing institutional secondnaturing. It is rather not out of the
question that knowledge so-construed as of prospective transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity implications put-into-question as
‘charlatanic’ institutions and their practices construed as of prior relative-ontological-
incompleteness—if reference-of-thought specifically as extra-intellectual and pedantic
orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness reference-of-thought; and in due course, by its ontological-prime movers-totalitative-framework constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary-as-unenframed/unbeholdening/outlier-conceptualisation⟨imbued-postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional~deprocrypticism-prospective-sublimation⟩ potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness reference-of-thought with the latter’s <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag , given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of ontological-prime movers-totalitative-framework for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as more
than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness of reference-of-thought naïve non-transcendental amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the preconverging–existential-extrication-as-of-existential-unthought malignity reality of existence construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of meaningfulness-and-teleology’. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiological/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation-as-to-the-nondisjointedness/entailment-of-prospective nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism as it reflects ontological-completeness-of reference-of-thought for ontologically-veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation
of childhood psychopathy postlogism -slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance <including-virtue-as-ontology> of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology reflecting dereified and reified construals of attendant ontological-contiguity -educed existentialising/contextualising/textualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence<as-to-psychologismic-apriorising/axiomatising/referencing- {of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—conflicatedness—in- {preconverging-disentailment—by}—postconverging-entailment—in-self-becoming/self-conflicatedness /formative–supererogating> of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance manifesting totalising devolved psychopathy and social psychopathy which is ‘de-mentatively/structurally/paradigmatically associated with the denaturing of the amplituding/formative-epistemicity totalising–devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag backdrop for existential-instantiations
aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology;
with the fundamental implication that there are thus divergent
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of
psychopathic induced postlogism-slantedness, and its social cognisance and integration as
conjugated-postlogism so-conjugating as of
ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfuite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of social
psychopathy. In this latter case of contrasted reification and dereification and implying moral-
and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-
as-psychopathic-and-social-psychopathic mental-dispositions and the intemperate mental-

But then again, the reality of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of prospective relative-ontological-completeness will point out that such ‘traditional classical mechanics axiomatic-construct’ identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > as-flawed-epistemicity-relativism-determinism is in reality preconverging-or-dementing—apriorising-psychologism as of its relative-ontological-incompleteness. This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism–procrypticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procrypticism—or–disjointedness-as-of-reference-of-thought that speaks of our prospective preconverging-or-dementing—apriorising-psychologism at our prospective positivism–procrypticism uninstitutionalised-threshold, and so as reflected from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension prospective relative-ontological-completeness. Interestingly, it should be noted here that with such phenomenon as psychopathy and social psychopathy that is ‘de-mentatively/structurally/paradigmatically associated with the denaturing of the <amplituding/formative–epistemicity>totalising–devolved

But then just as the reflex

Basically when post-structuralists speak of ‘the other’ this translates into aetiologisation/ontological-escalation as of ‘universal projection implications attitude/mental-disposition/care–and–episteme event’-or-operant implications to all and sundry as implied in the above analysis, as postmodern-thought portends to be non-ideology-driven, non-speculative, non-imaginary, theoretical, conceptual and operant. Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so with regards to any prospective institutionalisation relative to the uninstitutionalised-threshold. Thus the ‘field of conception/notional–conception/notion of virtue-as-ontology covers way more than its articulation within a same registry-worldview’s/dimension’s syncretising/circularity/interiorising/akrasiatic-drag, as its implications as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology need to be drawn beyond a cloistered-consciousness as of retrospective and prospective transcendental illuminating implications. In this regard, a postmodern suprastructuralism philosophical stance with regards to virtue-as-ontology very much aware of the transcendental ontological sublimating-over-desublimating
frameworks; and, hence the ontologically-veridical paradox of the very postconverging–de-
mentating/structuring/paradigming implications of human limited-mentation-capacity-
deepening renders any registry-worldview/dimension reference-of-thought ever deficient as of its need for psychoanalytic-unshackling/prospective-grounding/prospective-reification of meaningfulness-and-teleology. Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our ‘modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness’ perspective/framing/reference/horizon/projection’ apriorising/axiomatising/referencing- {of-
attendant ontological-contiguity -educed–existentialising/contextualising/textualising-

On the contrary it is apriorising/axiomatising/referencing- {of-attendant ontological-contiguity -educed–
existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-
disentailment by} postconverging entailment that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and
conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening’ implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional-conflatedness of notional-deprocrypticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>. Such a postmodern/suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care–and–episteme with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of such organic-knowledge construed in intemporality as supplanting–conviction-as-to-profound-supерeration—to ‘attendant-intradimensional’ postconverging/dialectical-thinking –apriorising-psychologism, whereas mechanical-knowledge is rather predispose to adhere as of temporal threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supерeration<as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> to such mere reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. The latter points to an inappropriate attitude/mental-disposition/care–and–episteme which is not beholden to the prospective institutionalisation but rather is of preconverging-existential-extrication-as-of-existential-unthought relation with it. More
concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme and organic-knowledge attitude/mental-disposition/care–and–episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms–as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness-of-reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality
unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness -of- reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaninglessness-and-teleology as of any specific human society relative-ontological-incompleteness -of- reference-of-thought as fundamentally denaturing, and likely to induce transversality–<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffective–disambiguated–motif-and-apriorising/axiomatising/referencing’ dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency -{transparency-of-totalising-entailing,-as-to-entailing-<amplituding-formative–epistemicity>totalising-in-relative-ontological-completeness }. Ultimately, such a double-gesturing hold out the
possibility in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care—and–episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care—and–episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency—]}{transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness}. Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation—<as-to-the-nondisjointedness/entailment-of-prospective— nonpresencing> that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care—and–episteme. Claims of such grander
aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold\textsuperscript{13} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100} as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity\textsuperscript{8} shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care–and–episteme event–or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human amplituding/formative–epistemicity totalising–thrownness-in-existence\textsuperscript{34} (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact
that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originary-as-unenframed/unbeholding/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking -‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation} creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification–gesturing-in-prospective psychologism–apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity } insight.

‘institutional investment’ that is not always just of eruditic ideal, inclined to undermined
prospective knowledge as of its prospective relative-ontological-completeness\(^{18}\)-of-axiomatic-constructs-and\(^{28}\)-reference-of-thought, and that true knowledge especially as it portends to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity\(^1\) undermining of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\(^{76}\)meaningfulness-and-teleology\(^{100}\) due to ‘lack of social\(^{104}\)universal-transparency’\(^{1}\) (transparency-of-totalising-entailing,-as-to-entailing-\(<amplituding/formative–epistemicity>\)totalising–in-relative-ontological-completeness\(^\rangle\)). In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness\(^{77}\)-of-\(^{34}\) reference-of-thought as underscoring medieval vices-and-impediments\(^{106}\) with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-\(^{75}\)meaningfulness-and-teleology\(^{100}\); and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-\(^{14}\)reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of–\(^{77}\)meaningfulness-and-teleology\(^{100}\) stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of its crossgenerational transcendental implications and as reflected from the insight in reflecting holographically—conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of ontological-prime movers-totalitative-framework, and so divulged by existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression; as prior human presencing—absolutising-identitive-constitutedness experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as presencing—absolutising-identitive-constitutedness enabling the obtention of any such conclusions from the given classical-mechanics—axiomatic-constructs apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—constitutedness—in—preconverging-entailment, but rather it is by apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—conflicatedness—in—{preconverging—disentailment—by}—postconverging-entailment with regards to ‘the very same physics <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-
intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of nonpresencing-<perspective–ontological-normalcy/postconvergence>. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of-meaningfulness-and-teleology individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework’ tendential validation as to existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression. Such a construal of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening analysis; and insightfully, as reflected in the underlying apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness in {preconverging—disentailment—by} postconverging entailment of accreting-substitutive-subsumption-as-futural-différance-freeplay, sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological neuterising with deneuterising—referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-
consciousness of notional-deprocripticism perspective/framing/reference/horizon/projection. Similarly, this author’s articulation of futural-différence as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différence that coincides-and-is-contiguous with a prior Derridean différence as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is as of an ‘overall différence tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différence as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay différence, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity’; and différence as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency—sublimating–nascence,—disclosed-from-prospective—
thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social universal-transparency’

\{transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness \}’. But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness\(^\text{88}\)-of-axiomatic-construct-or-\(^\text{84}\) reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay comes into terms with both \(^\text{80}\) presencing—absolutising-identitive-constitutedness\(^\text{13}\) and \(^\text{81}\) nonpresencing-<perspective-ontological-normalcy/postconvergence> on the basis of the prospective relative-ontological-completeness\(^\text{88}\)/ontological-contiguity\(^\text{67}\) of the latter over the prior relative-ontological-incompleteness of notional-discontiguity/epistemic-discontiguity→\text{shallow-supererogation} -of-mentally-aestheticised–preconverging/dementing –qualia-schema> of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising’.
but rather difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing between presencing—absolutising-identitive-constitutedness and nonpresencing—<perspective–ontological-normalcy/postconvergence>. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon/projection as of prospective relative-ontological-completeness notional-contiguity/epistemic-contiguity’ construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded on such a developed consciousness perspective/framing/reference/horizon/projection. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon/projection as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon/projection as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon/projection’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon/projection as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon/projection’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset
perspective/framing/reference/horizon/projection as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon/projection’ to grasp notional–deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘notional–deprocrypticism mindset perspective/framing/reference/horizon/projection as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social [universal-transparency](transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness)’ such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness
development is the notion of development (supererogatory-ontological-de-mentation- or dialectical-de-mentation—stranding-or-attributive-dialectics) which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing/ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—as-to-postconverging-or-dialectical-thinking—apriorising- psychologism— of the consciousness in ontological-contiguity/relative-ontologicalcompleteness-of-reference-of-thought and as unaffirmation/deprojection/deassertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring—as-to-preconverging-or-dementing—apriorising-psychologism— of the consciousness of notional-discontiguity/epistemic-discontiguity/—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema/relative-ontologicalincompleteness—of-reference-of-thought as of maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation, and not incrementalism-inrelative-ontological-incompleteness—enframed-conceptualisation, as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human—amplituding/formative-epistemicity—totalising-purview-of-construal”’. As futural différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay différance’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening; overriding the idea that the perspective/framing/reference/horizon/projection of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology should be as of ‘difference-in-kind/difference-in-
aposteriorising-or-logicising but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing as of prospective relative-ontological-completeness -of- reference-of-thought bringing about transcendence-and-sublimity/sublimation/suberogatory-de-mentativity as of nonpresencing<-perspective-ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation.

Consider in this regard the decisive transitions-as-sUBLImITYs that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness and prospective relative-ontological-completeness, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics <amplituding/formative–epistemicity> totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising but rather a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/suberogatory-de-mentativity of nonpresencing<-perspective-
ontological-normalcy/postconvergence>. In other words, human consciousness tends to be
costRAINT to its \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-}

herein is actually construed as of ‘its natural ontology implications’, and this natural ontological
notion of metaphoricity\) is construed herein as superseding-and-englobing all other
differentiated adjunctive significations including conventional figures-of-speech.
Metaphoricity\textsuperscript{57} as such simply refers to signification adjunctiveness to ‘underlying
\textsuperscript{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of both the ‘meaningfulness-and-teleology\textsuperscript{100} implications to the so-renewed ‘underlying
\textsuperscript{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and the specific adjunctive-metaphoricity\textsuperscript{57} -signification within such renewed ‘underlying
\textsuperscript{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’’. Metaphoricity\textsuperscript{57} is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing \textsuperscript{meaningfulness-and-teleology}\textsuperscript{100} as an epistemic-totalising /circular construal’’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity\textsuperscript{57} arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of \textsuperscript{nonpresencing-<perspective–ontological-normalcy/postconvergence> by human re-projection/re-anticipation ultimately validated by existence/ontology’s-directedness-as-Being ontological-primemovers-totalitative-framework\textsuperscript{71}}. Further, metaphoricity as such speaks of the evasiveness of all human \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} at uninstitutionalised-threshold\textsuperscript{103} as recurrently pointed out herein as of token threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \textsuperscript{<as-to-‘attendant-intradimensional’-prospectively-}
\textsuperscript{disontologising~preconverging/dementing –apriorising-psychologism> possibilities relation to

The implications of this reality as of metaphoricity\textsuperscript{57} explains why epistemes are fundamentally and necessarily constricted as of

possibly recasted his implied positivism meaningfulness-and-teleology in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal–or–metaphysics-of-absence ⟨implicited-epistemtic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩–or–transcendental-reasoning-of-event -as- prospective-ontology-origination perspective/framing/reference/horizon/projection of positivism meaningfulness-and-teleology we entertain today. Likewise, as of such metaphoricity episteme, the meaningfulness-and-teleology herein implied as of its essence cannot do without this hermeneutic/reprojecting/supererogating/zeroing circle phenomenological ontology elucidation as of its psychoanalytic-unshackling apriorising/axiomatising/referencing-{of-attendant ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity }—conflicatedness—in-preconverging-disentailment-by-postconverging-entailment; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon/projection and then contention/argumentation within such articulated perspective/framing/reference/horizon(projection, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a
quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon/projection for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality<ref>
<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’</ref> complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality<ref><for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’</ref> cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to ‘open-up’/‘throw-up’/‘reveal’ new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to
grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/supererogatory—de-mentativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon/projection before contention/argumentation as of any given perspective/framing/reference/horizon/projection, thus implying ‘poor critical judgment’.

With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling-<in-deferential-formalisation-transference> are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of- nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>}, such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity critiques, as de-mentatively/structurally/paradigmatically that which

As ultimately, it is the prospective relative-ontological-completeness\textsuperscript{85}-of-\textsuperscript{84} reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments\textsuperscript{106} as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory—de-mentativity \textsuperscript{84} reference-of-
thought. The overall insight here of such ontological-bad-faith/inauthenticity\(^\text{64}\) can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon/projection of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency\(^\text{104}\) as-to-entailing- \(\langle\)transparency-of-totalising-entailing,-totalising-in-relative-ontological-completeness\(\rangle\)' with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity\(^{11}\) critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing
in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications> ‗uncritical social media preaching towards sold publics-of-conquest‘ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence-as-in-dimensionality-of-desublimating-lack-of-supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional—knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn‘t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately,
intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximalising-
recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation
postconverging–de-mentating/structuring/paradigming, and intellectuals’ choice of ontological-
bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn
around to intimate irreverence when surreptitiously undermining knowledge of universal
consequential implications. This author as of metaphysics-of-absence—implicated-epistemic-verbacy-of-
nonpresencing—perspective—ontological-normalcy/postconvergence—will
summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective
reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-
construct-or-reference-of-thought over a amplituding/formative—
epistemicity—totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an
implied prospective reference-of-thought ‘as of the prospective relative-ontological-
completeness-of-axiomatic-construct-or-reference-of-thought of a better knowledge
perspective/reference-of-thought before/as-preceding contention/argumentative-engagement,
and so avoiding ‘flatmindedness/banality/flimsiness. The underlying current of postmodern-
thought is that our limited-mentation-capacity induces our prior relative-ontological-
incompleteness with regards to reference-of-thought and its derived meaningfulness-and-
teleology, with the implication that we need to a prospective relative-ontological-
completeness-of-reference-of-thought to be able to articulate intemporal-as-ontological
construal as of the internal-dialectics/différance of meaningfulness-and-teleology. In other
words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology, are
made to have their internal-dialectics/différance as of nonpresencing—perspective—
ontological-normalcy/postconvergence> for their sublimation and transcendence-and-
sublimity/sublimation/supererogatory~de-mentativity into more profound and more complete
meaningfulness-and-teleology. For instance the ‘postmodern take’ about science is rather a
more profound and complete notion of science than the ‘modern take’, such that a ‘modern
approach’ to the conception of science naively fails to factor in unlike the ‘postmodern
approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus
translated into the prior need for prospective relative-ontological-completeness; wherein the
‘modern take’ might naively consider medicine as simply providing medications and remedies,
the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will
factor in socioeconomic, education, information, environmental, gender and power relations
issues underlying healthcare and medical delivery as a more profound and complete notion of
medical science; construed effectively as of deprocrypticism—or—preempting—disjointedness-
as-of-reference-of-thought. Thus, for postmodern-thought the capacity to attain relative
ontologically-veridical meaningfulness-and-teleology comes down to the capacity of
arriving at the very essence of meaningfulness-and-teleology while overcoming the
drawback of our human limited-mentation-capacity. This insight about the essence of things is
what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference,
Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-
text, all construed by this author as of attendant ontological-contiguity-educed-
existentialising/contextualising/textualising-contiguity; is the enabling approach for human
ontological-reconstituting—as-to-conflatedness as of aetiologisation/ontological-escalation.
Basically thus, the overall postmodern project implication is that we deepen our limited-
mentation-capacity first (and so as of dimensionality-of-sublimating
{<amplituding/formative>supererogatory~de-mentativeness/epistemic-growth-or-
conflatedness}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-
drivenness–equalisation) of our supereorogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–
conceptualisation) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern postconverging–de-
mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-
veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-
operant entailing framework of ontological-contiguity’ as herein implied by this author with ‘the ontological-contiguity —of-the-human-institutionalisation-process congruent,-cogent-
and-operant entailing framework of ontological-contiguity’. Anecdotally, the shallow-
mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification for perspective and insight, given the problematic of human limited-mentation-
capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity —of-the-human-
institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-
depth-of-ontologising-development-as-infrastructure-of— meaningfulness-and-teleology and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism
as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocripticism. But then ontological-bad-faith/inauthenticity is equally elicited by ‘lack of social universal-transparency~transparency-of-totalising-entailing,—as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought—devolving-teleological—de-mentating/structuring/paradigming—of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the ontological-primemovers-totalitative-framework transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its reference-of-thought—devolving-teleological—de-mentating/structuring/paradigming—of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic reference-of-thought—devolving-teleological—de-mentating/structuring/paradigming—of-meaningfulness’ was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness—of—reference-of-thought (and were thus more fundamentally

affect-driven mented or stigmatic psychology rather as of a shallow perspective and vaguely articulated as of universal import. The idea here with regards to human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, is that from a creative perspective: the notion of a given neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this neuterising that human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is achieved from the prospective notional—conflatedness of notional—deprocrypticism and so by deneuterising —referentialism, which is equinominal/equivalent to nonpresencing—<perspective–ontological-normalcy/postconvergence>. In other words the historial implications of human limited-mentation-capacity-deepening is that ‘as of a less and less ontologically-flawed meaningfulness-and-teleology towards ontological-normalcy/postconvergence, ‘it projectively/anticipatorily brought about the <cumulating/recomposuring–attendant-ontological-contiguity>-successive registry-worldviews/dimensions <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving’ as of their given neuterisation, construed as equinominal/equivalent with their successively given neuterising. The reason for the ontologically defective totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supererogatory–de-mentativity)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been wooden-language (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void ’with-regards-to—prospective-apriorising-implications>). However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening expansion of ontological-depth as increasing ontological-completeness-of reference-of-thought (or reducing relative-ontological-incompleteness—induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to–‘attendant–intradimensional’–prospectively-disontologising–preconverging/dementing—apriorising-psychologism’). Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’
with respect to \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100}. A further example will be say ‘the God-of-plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in \textsuperscript{45}\textsuperscript{<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} (its metaphysics-of-presence\textsuperscript{(implicated~nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness \{ )}) and goes on articulating \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} even in the new existential transcendental/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension.

Given such a state of \textsuperscript{45}\textsuperscript{<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}, the notion of generating \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} from the ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective priorly implies a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, and so by \textsuperscript{55}maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation. Equally we can imagine that making a positivistic argument in the midst of a non-
positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental
orientation will be geared to their traditional sense of meaning and living as absolutely defining,
but then the ‘center’ had moved from their world (from non-positivistic as base-

temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of–

upholding of transcendental possibilities), to that extent the intemporal-disposition should
rather construe/conceptualise its intemporal-disposition as the tip of human transcendental
institutionalisation possibility and thus inherently that it transversally takes precedence over
human temporal complexes (and such a ‘transversality\(\text{\langle for-sublimating–existential–}

ontological-primemovers-totalitative-framework\(^{21}\) and secondnaturing. This actually explains
the inevitable contrariety involved in the making of transcendental human progress involving a
prior/transcended/superseded \(^{8}\) reference-of-thought and a
prospective/transcending/superseding \(^{24}\) reference-of-thought; given the blunt fact that ‘there is

sublimity/sublimation/supercity/de-mentativity and transcendental-enabling/sublimating/supercity/de-mentativity associated with intemporality\textsuperscript{72}/longness and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-primemovers-totalitative-framework\textsuperscript{72} as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-primemovers-totalitative-framework\textsuperscript{73} is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied when conceptualising that empirical\textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} is the sole purview of the rational-empiricism/positivism registry-worldview/dimension failing to recognised that all other registry-worldviews/dimensions are actually empirical but differ as to interpretation of empirical perception whether as to a magical, cultic or other non-positivising interpretation of empirical manifestation) but speaks of ‘the central human epistemic-totalising ~resubjecting or totalising-entailing~reconstrual heuristic drive’ defining as to preconverging/postconverging–de-mentating/structuring/paradigming\textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} the <cumulating/recomposuring–attendant-ontological-contiguity >succession of registry-worldviews/dimensions (however sublimatingly inefficient in relative-ontological-incompleteness and sublimatingly efficient in relative-ontological-completeness as from nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection); given that with corresponding shallow to limited-mentation-capacity-deepening\textsuperscript{75}, as institutionalising ontological-primemovers-totalitative-framework\textsuperscript{3} successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency\textsuperscript{38}~sublimating–nascence,-disclosed-from-prospective-epistemic-digression. Consider
the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as ontological-primemovers-totalitative-framework of meaningfulness-and-teleology going by their given limited-mentation-capacity. Transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and transcendental-enabling/sublimating/supererogatory-de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening’ implies more and more profound reconstruals/reconceptualisations (<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought) inducing transformative implications with respect to meaningfulness-and-teleology as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogue speaking thus of human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing–as-to-possibilities-of-self-becoming-as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory-de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about 9.8 m/s² on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. This is not to be confused with sovereign
constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendent-enabling/sublimating/supererogatory–de-mentativity), with respect to transcendent-enabling/sublimating/supererogatory–de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of ‘meaningfulness-and-teleology’ as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of the ‘meaningfulness-and-teleology’ itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to historiality/ontological-eventfulness ontology/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendent knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendent-enabling/sublimating/supererogatory–de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought> to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-
veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory–de-mentativity) to prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as secondnaturing institutionalisation percolation-channelling—<in-deferential-formalisation-transference> to elicit the necessary positive-opportunism—of-social-functioning-and-accordance—but for prospective institutionalisation as skewing (‘intemporality’–asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity towards the intemporal/longness-of-register-of-meaningfulness. The fact is as construed by the Galileos, Copernicus, Diderots and others of the world, transcendental knowledge (as relatively ‘consecrated’ by relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) necessarily carries a ‘cynicism-of-grandeur-as-of-effective-intemporal-solipsistic-commitment’ to deal with the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-

syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology>, and that meaningfulness-and-teleology as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of prospective deprocrypticism—or–preempting—disjointedness-as-of reference-of-thought with regards to our positivism–
procripticism, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence-\(\text{\{implicated-epistemic-veracity-of-\ nonpresencing-\{<perspective-ontological-normalcy/postconvergence-\}\}}\) for the conception of \(\text{\{meaningfulness-and-teleology}\}^{(100)}\) ontological-performance\(^{(72)}\)-<including-virtue-as-ontology> is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology\(^{(100)}\)-<in-preconverging-existential-extrication-as-of-existential-unthought>\(^{6}\) naively construed \(\text{\{amplituding/formative-epistemicity\}}\) totalising~self-referencing-syncretising/circularity/interiorising/akrasiac-drag \(\text{\{mental-reflex as the absolute ontological determinant of}\}^{\text{\{meaningfulness-and-teleology}\}^{(100)}\text{\{ontological-performance\}^{(72)}\text{\{<including-virtue-as-ontology>}, with regards to its capacity of appreciating prospective relatively profound pure-ontology as herein implied that de-mentatively/structurally/paradigmatically supposedly supersedes our positivism–procripticism registry-worldview’s/dimension’s institutionalisation reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been re-originary-as-unenframed/unbeholdening/outlier-conceptualisation\(^{(9)}\) (imbued-postconverging/dialectical-thinking -'projective-insights'/'epistemic-projection-in-conflatedness -'of-notional-deprocripticism-prospective-sublimation')\(^{(9)}\) ideas which ‘proponents ultimate purpose (beyond-the-consciousness-awareness-teleology\(^{(100)}\)-<in-preconverging-existential-extrication-as-of-existential-unthought>\(^{6}\)’ weren’t fundamentally a ‘direct convincing’ of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, however unintelligible, as a prospective institutional percolation-channelling<-in-deferential-formalisation-transference> exercise as validated by ultimate ontological-primemovers-totalitative-framework\(^{(73)}\) with subsequent corresponding formalisation and secondnatururing. The point of this construal/conceptualisation is inevitably equally along the
same lines. In fact, it can be further contended going by the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-

knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal

existential-extrication-as-of-existential-unthought’, as used herein goes beyond the notions of
‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-
the-consciousness-awareness-teleology[10]—in-preconverging–existential-extrication-as-of-
existential-unthought’ speaks of the mental state as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation[6]—<as-to–‘attendant-
intradimensional’–prospectively-disontologising–preconverging/dementing—apriorising-

point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (also referred to as ‘uninstitutionalised-threshold\(^0\)) where the mental-disposition/mindset/reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology\(^0\)-\(<\text{in-preconverging-existential-extrication-as-of-existential-unthought}>\) implies ‘conscious’ and/or ‘unconscious’ as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^9\)-\(<\text{as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-psychologism}>\) at the uninstitutionalised-threshold\(^0\) of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-\(^8\) reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology\(^0\)-\(<\text{in-preconverging-existential-extrication-as-of-existential-unthought}>\). Of course, where supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious
immorality is fully engaged as being in full-conscious-capacity with respect to their deception
going by their positivistic prospective relative-ontological-completeness reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogic induced deception can only be construed as beyond-the-consciousness-awareness-teleology as when eliciting ignorance (as of ‘lack of constraining social universal-transparency of-totalising-entailing,-as-to-entailing-

This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking ′projective-insights′/′epistemic-projection-in-conflatedness ′of-notional—deprocrypticism-prospective-sublimation⟩ transcendent notions of intemporality/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttingly demonstrated with ′cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory de-mentativity′, the mechanism of transcendence-and-sublimity/sublimation/supererogatory de-mentativity is not a simplistic transference from a more ontologically-completeness-of—reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiac-drag towards the path of its transcendence; as notions and ideas of the prospective ′reference-of-thought gradually creep over those of the prior ′reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common ′reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but
they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms—as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further \textit{amplituding/formative—epistemicity} totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of thought; as explanations for the cure will still be advanced in terms—as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought. \textit{amplituding/formative—epistemicity} totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This quite sums up the \textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mechanism by which re-originary–as-unenframed/unbeholdening/outlier-conceptualisation\textsubscript{33} (imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflicatedness ‘of-notional–deprocrypticism-prospective-sublimation)\textsuperscript{45} transcendental ideas (transcendental in terms–as-of-axiomatic-construct of putting in question the prior \textit{amplituding/formative–epistemicity} totalising/circumscribing/delineating ‘reference-of-thought–devolving, beyond just novel ideas within the same ‘reference-of-thought), whether by diffusion or internal transformation, come to be dominant when ontologically pertinent; as even the ‘moulting’ intellectual/emancipator, beyond-the-consciousness-awareness-teleology\textsuperscript{10} <in-preconverging-existential-extrication-as-of-existential-unthought>, is coming from a point of habitation with prior traditional ideas (consider the case of Newton with alchemic notions), wherein acceptance of the new ideas they are purporting only comes after an unconscious process of suspicion and denial of such nagging new ideas until they arrive at a firm point of supplanting–conviction-as-to-profound-supererogation \textit{of–attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism} before admitting to themselves the possible veracity/ontological-pertinence of the ideas, and so as their very own \textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which makes it unsurprising that even socially \textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{17} is a necessary process for the ultimate acceptance of prospective ontological-primemovers-totalitative-framework as this subsumes-as-supplant\textsubscript{as-of-the-more-profound-construal-of attendant ontological-contiguity} educated.

It is hardly the case of just a direct intemporal sense of “meaningfulness-and-teleology” transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a “presencing—absolutising-identitive-constitutedness” consummated/forfeiting posture, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation→amplituding/formative-epistemicity→totalising-renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling*(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology) as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposing). It is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of crossgenerational purposefulness (whether beyond-the-consciousness-awareness-teleology→in-preconverging-existential-extrication-as-of-existential-unthought). This equally explains why in all epochs, however different the nature, there is an inherent temporal mental-disposition abhorrence of transcendental ideas as putting into question the present and present interests (for instance, even the industrial revolution when considered as actually generating material wealth was poorly perceived by many trade guilds). It is only the ‘imbricatedness/threadedness/recomposing as of attendant-ontological-contiguity→educed–existentialising/contextualising/textualising-contiguity→<reifying-or-elucidating-of-prospective-relative-ontological-completeness→of-reference-of-thought

On the other hand, intemporality-as-longness-of-register-of-meaningfulness-and-teleology aetiologisation/ontological-escalation, can supersede the above phenomena as of its derived vices-and-impediments implications, as veridically validated by intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity so-divulged by the ‘imbricatedness/threadedness/recomposuring as of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context> as to existence-potency~sublimating-nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-

The difference between postlogism (postlogism-as-of-compulsing—nonconviction/madeupness/bottomlining) and prelogism (prelogism—conviction,—in-profound-supererogation—existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness>) and prelogism can further be developed as such. Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (meaningfulness-and-teleology taken involves rewards depending on how
big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like deliberately using the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements as perversion-of- reference-of-thought<as-preconvergingly-

Now supposed to resolve a ‘purposeful measurement’ (‘meaningfulness-and-teleology”, A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of- reference-of-thought-as-of-conflatedness”) and find out that the numbers measured and to be added are 5+2 and is trying its best thereafter to resolve the sum but fails in its logical-processing-or-logical-implication—supposedly-apriorising-in-

supposedly-apriorising-in-conviction-as-to-profound-supererogation”) so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-

addition calculations is part and parcel (whether successful or not) of prelogism\(^7\). Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s\(^7\) perversion-of-\(^8\) reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^\Rightarrow\) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (‘meaningfulness-and-teleology\(^{10}\)) is undertaken erroneously rather implying 6 + 3 instead of 5 + 2 (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as 5+2) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to\(^5\) logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\(^\rangle\)) is flawed since B is not committed due to its\(^7\) perversion-of-\(^8\) reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^\Rightarrow\) (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing\(^{15}\) an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant\(^{98}\) to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose\(^5\) reference-of-thought is not perverted, such that A’s defect is a defect–of-\(^1\) logical-processing-
or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation

of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential–defect, i.e. the teleological disposition of B inherently carries the defect (to the point that B can be socially-functional-and-accordant while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It should be noted that C (where B’s condition is not exposed to it), D, E and F technically speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that they consciously perceive it can be socially-functional-and-accordant to them wherein lack of ‘social universal-transparency{(transparency-of-totalising-entailing,-as-to-entailing-

It should be qualified that postlogism\textsuperscript{79} (psychopathy) and conjugated-postlogism\textsuperscript{79} (as social psychopathy) are enabled, endemised and enculturated by the possibility of the phenomena being socially-functional-and-accordant\textsuperscript{34} without negative consequences to its agents so long as it is not socially universal\textsuperscript{104} transparent, and so eliciting the respective temporality\textsuperscript{99}/shortness over the intemporality\textsuperscript{52}/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical meaningfulness-and-teleology\textsuperscript{105}). Further more than postlogism\textsuperscript{79} and conjugated-postlogism\textsuperscript{79} being just passively socially-functional-and-accordant\textsuperscript{94}, a more active socially-functional-and-accordant framework is often induced by extrinsic-attribution on the token of eliciting ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’. This faulty-mentation-procedure-deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc trite association between committing a given vicious act and initiating a given limited ‘compensating directed pseudo-virtue act-and/or-narrative’ in compensation as is the case at childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (but rather requires a more profound association of the ‘postlogism-as-of-compelling–

This underlying postlogism /psychopathic faulty-mentation-procedure-deception mental-disposition and its protraction in conjugated-postlogism /social-psychopathy involving deliberative/conscious or unconscious (conjugated-ignorance) artificial, fallacious and surreptitious systematic eliciting of ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ systematically enabling the possibility for committing ‘postlogism -as-of- compulsing–nonconviction/madeupness/bottomlining’. Consider for instance that transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-empiricism/positivism \textsuperscript{11}reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity established by Descartes’ thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated ‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (Copernican revolution) is not eliciting a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ of ‘<amplituding/formative– epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling>{by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-

The Kantian construct is an elaboration well within the psychical framework established by dimensionality-of-sublimating

Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the ‘maximalising-recomposuring—for-relative-ontological-completeness’—unenframed-conceptualisation of its limited-mentation-capacity-deepening. It puts into question the Kantian philosophical exercise (Copernican revolution) of
striving to establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening–limited-mentation-capacity,~as-limited-mentation-capacity-deepening. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existent-al-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existent-al-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences)
cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/Alchemy/essences/medieval registry-worldview/dimension certainly does has a name (transcendence-and-sublimity/sublimation/supererogatory-de-mentativity). But then it is more the case that from an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag posture holding only one registry-worldview/dimension <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag posture holding only one registry-worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-teleology as absolute, then prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather a beyond-the-consciousness-awareness-teleology notion. Besides, Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as of ‘the positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implied by Descartes) rather than a construal of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied herein as of limited-mentation-capacity-deepening with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ as superseding–oneness-of-ontology as an all-encompassing <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of human psychical and institutionalisation disposition for meaningfulness-and-teleology, even though fundamentally enabled by developing human

apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existential-reality and avoid virtualities, as wrongly operating on the basis of an absolute point of human thought apriorising/axiomatising/referencing that doesn’t recognise that successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions are defining/transcendental-enabling/sublimating/supererogatory—de-mentativity for new prospective relative-ontological-
completeness of reference-of-thought. In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the contextualising-contiguity of existence as of human shallow-to-deepening–limited-mentation-capacity, as limited-mentation-capacity-deepening as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—apriorising/axiomatising/referencing–psychologism, as impulsive-or-accidented-or-random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening\(^3\), as further elaborated in this paper. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking\(^3\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psyche as ‘<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-⟨by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology⟩’ of positivistic physics right back then in their epoch such that the overall underlying principle of ontological-prime-movers-totalitative-framework as transcendental-enabling/sublimating/supererogatory–de-mentativity back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-prime-movers-totalitative-framework\(^3\) to establish themselves as the central physics theories with little or no quarrel. It is
interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument relationship to ontological-primemovers-totalitative-framework that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity construction having to do with an agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatik-drag of meaningfulness-and-teleology is

This equally explains why the implied supratransversality<-in-sublimating—existential-eventuating/denouement—of-motif-and-apriorising/axiomatising/referencing as of aetiologisation/ontological-escalation is necessarily a ‘presencing—absolutising-identitive-constitutedness\textsuperscript{(13)} consummated/forfeiting posture’ of intemporality -asymmetric-subsumption-of-temporality /ontological-asymmetrisation that needs to take into account this ‘paradox of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’. And critically so, because beyond just ‘human conscious willing’, transcendence-and-sublimity/sublimation/supererogatory—de-mentativity necessarily implies the ‘prospect of humans to appreciate/understand meaningfulness-and-teleology\textsuperscript{(10)} beyond-the-consciousness-awareness-teleology\textsuperscript{(100)}-<in-preconverging—existential-extrication-as-of-existential-unthought>\textsuperscript{6}’; such that, de-
mentatively/structurally/paradigmatically/necessarily, that which gets to 'conceptualise/construe beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought>' is necessarily ontologically-asymmetrical as rather imbued with intellectual-and-moral responsibility over that which doesn’t get there (and so, even with regards to a basic non-transcendental construal of asymmetrisation within a same registry-worldview’s/dimension’s reference-of-thought like Doctor –Patient, Parent –Child, Server –Customer, Teacher –Student etc. as ensues from a Derridean binary opposition analysis). However at uninstitutionalised-threshold, the notion of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded reference-of-thought–categorical-imperatives/axioms/registry-teleology inclined beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought> to uphold meaningfulness-and-teleology as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness-reference-of-thought will certainly grasp the pertinence of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation as of deconstruction/ontological-reconstituting–as-to-conflatedness aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness-reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing–psychologism of transcendentally-enabling-level–of-ontological-good-faith-or-authenticity/objectification/desubjectification–objectification<as-to-ontological-faith-notion-or-ontological-fideism–imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism> meaningfulness-and-teleology construal for a sounder and sounder relationship with intrinsic-reality/ontological-veridicality. In this respect, it should
be noted that in the example on the denaturing of Additionality as further articulated below with regards to the characters A, B, C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce to Z’s supposedly ontologically-veridical posture, as by their prior relative-ontological-incompleteness of reference-of-thought as beyond-the-consciousness-awareness-teleology — in preconverging existential-extrication-as-of-existential-unthought they may operate on a logic that once such a situation as A induced additionality defect deception develops as of ‘lack of constraining social universal-transparency — (transparency-of-totalising-entailing-as-to-entailing- <amplituding/formative—epistemicity—totalising—in-relative-ontological-completeness ), that’s fine and implicitly others could just as well consciously go along with it, and that it is just as implicitly legitimate as of the ‘<amplituding/formative> wooden-language—{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing — narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology } of prior/transcended/superseded registry-worldview/dimension’ notwithstanding its failing/not-upholding—<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; highlighting how across the <cumulating/recomposuring—attendant-ontological-contiguity —>—successive registry-worldviews/dimensions threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation — <as-to—‘attendant-intradimensional’—prospectively—disontologising—preconverging/dementing —apriorising-psychologism> arise, however, different the perception from ‘very-crude’ (with recurrent-utter-uninstitutionalisation) to ‘seemingly polished’ (with our positivism—procrypticism) depending on prospective relative-ontological-completeness of reference-of-thought. This is to point out that at

superstitious notions and their implications in a non-positivistic social-setup as the drive of say a rational-empiricism/positivistic emancipating agent in many ways will be a beyond-the-consciousness-awareness-teleology\(^{100}\) notion for the wooden-language\(\{\text{imbued—averaging-of-thought—}\text{ as-to-leveling/ressentiment/closed-construct-of—}\text{meaningfulness-and-teleology}\text{ as-of—‘nondescript/ignorable—void ’-with-regards-to—prospective-apriorising-implications}\}\), and this interrogation could be extended to say in such a social setting, and equally similar issues faced today in many a traditional society like female genital mutilation is more than just an issue of stopping the practitioners of genital mutilation but has to do with wooden-language\(\{\text{imbued—averaging-of-thought—}\text{as-to-leveling/ressentiment/closed-construct-of—}\text{meaningfulness-and-teleology}\text{as-of—‘nondescript/ignorable—void ’-with-regards-to—prospective-apriorising-implications}\}\) notion with respect to recasting of gender rights in a prospective meaningfulness-and-teleology. Likewise, it could be asked whether such an aetiologisation/ontological-escalation notion as notional—deprocrypticism institutionalisation implied suprastructuration over our positivism—procrypticism is rather not a beyond-the-consciousness-awareness-teleology\(^{100}\) notion as of the present wooden-language\(\{\text{imbued—averaging-of-thought—}\text{as-to-leveling/ressentiment/closed-construct-of—}\text{meaningfulness-and-teleology}\text{as-of—‘nondescript/ignorable—void ’-with-regards-to—prospective-apriorising-implications}\}\) mental-disposition and mental-projection. This explains why the ontological-contiguity—of-the-human-institutionalisation-process is basically about shifting apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments to supersede the state of beyond-the-consciousness-awareness-teleology as of human limited-mentation-capacity-deepening in handling the more and more profound/depth of intrinsic-reality/ontological-veridicality construing reference-of-thought/axiomatic-construct that avails as of ontological-normalcy/postconvergence or increasing ontological-completeness-of-reference-of-thought; (such that such meaningfulness as expressed herein is more than just of logical construct implying simple logical meaningfulness as within only a single-as-our-present positivistic predicative-insights framework of reasoning and understanding, but requires a more profound retrospective and prospective mental-projection in its contemplation). As to existence-potency/sublimating-nascence, disclosed from prospective epistemic digression—rules of apriorising/axiomatising/referencing that further epistemically unconceal the very-ontologically-same-existential-reality is just as valid, hence a failure to abstractly recognise intemporality/longness as of existential reality with the implication thereof as perversion-and-derived-perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing in non conviction/madeupness/bottomlining as to shallow-supererogation with respect to the registry-worldview’s/dimension’s vices and impediments implied by its implied relative-ontological-incompleteness-induced—‘threshold of non conviction/madeupness/bottomlining in shallow supererogation’—as to ‘attendant intradimensional’-prospectively-disontologising/preconverging/dementing—apriorising-psychologism’. Hence the reason why the vices and impediments inherent of a given registry-worldview/dimension cannot be dementatively/structurally/paradigmatically/ontologically resolved within it as there is need for prospective ontological-completeness of reference-of-thought structured to inherently supersede such vices and impediments, whether as base institutionalisation in superseding recurrent utter uninstitutionalisation, universalisation superseding base institutionalisation—ununiversalisation, positivism superseding universalisation—non positivism/medievalism and deprocrypticsm superseding positivism/rational empiricism manifestation of procrypticism—or—disjointedness as of reference-of-thought. The central idea here being that the most critically important notion in the situation of A, B, C, D, E, F and Z, is Z’s upholding of prospective transcendental enabling/sublimating/supererogatory—de-mentativity over any temporal extricatory preconverging—de-mentating/structuring/paradigmimg, however, the enculturation and mass thinking behind temporal extricatory preconverging—de-
mentating/structuring/paradigming. (* Noting that individuation as defined elsewhere speaks of temporal-to-intemporal trait characteristic, as anywhere between shortness-to-longness-of-register-of—meaningfulness-and-teleology, that can accrue atleast incidentally/on-occasion in all individuals-as-receptacles-of-individuations but more recurrently as teleologically defining in a-life-phase-or-life-phases-of-given-individuals, thus critically enabling a dynamic-cumulative-aftereffect and transcendent/transdimensional/interdimension/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation analysis as metaphysics-of-absence-{implicated-epistemic-veracity-of-nonpresencing-{perspective-ontological-normalcy/postconvergence}}/postdication). nonextricatory-existential-preempting-of-existential-unthought in his asceticism the prospective intemporal over the temporal status quo, and likewise with a Rousseau who isn’t advancing a temporal interest that his aristocratic stature should warrant like actively pursuing for landed properties and currying favours with kings but is rather bent principally on a prospective commitment on grasping and spreading notions of a renewal of the human condition as universal rights and enlightened despotism. This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-
nature’ is not enough for articulating prospective institutionalisation requiring ‘intemporal projection <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ for the requisite prospective ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation, and such conceptualisations from only a secondnaturedness of thought as rather contextually temporal is not ‘intemporal as-of-universal-and-abstractive originariness-parrhesia,—as-spontaneity-of-aestheticisation nature’ but is rather in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence (implicated-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness ). Thus a registry-worldview’s/dimension’s institutionalisation secondnaturedness is challenged by its very own level of relative-ontological-incompleteness induced,—‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ as-to-’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing—apriorising-psychologism’ marking its uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation with recurrent-utter-uninstitutionalisation, ununiversalisation with base-institutionalisation, non-positivism-or-medievalism with universalisation and procrypticism with positivism, in need for a renewed institutionalisation respectively as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. This equally explain why the notion of human transcendental progress is relatively ‘re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking ’-projective-insights’/epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation) driven’ as it requires an intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of thought more than just institutionalised secondnaturting such that it has often been the erudition

It is ontologically-speaking impossible to comprehensively undermine a dimension’s/registry worldview’s postlogism\textsuperscript{10} without undermining the registry-worldview’s/dimension’s reference-of-thought itself as implied by its state of relative-ontological-incompleteness\textsuperscript{89}-induced.-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’\textless as-to-‘attendant-intradimensional’\textgreater –prospectively-disontologising–preconverging/dementing –apriorising-\{suppererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\} as of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100}), given that this fundamental relative-ontological-incompleteness\textsuperscript{89}-induced.-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’\textless as-to-‘attendant-intradimensional’\textgreater –prospectively-disontologising–preconverging/dementing –apriorising-\{suppererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\} of the given registry-worldview/dimension as reflected from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective, by its ‘contextualising-contiguity of existence-potency\textsuperscript{101}–sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ means it is dementatively/structurally/paradigmatically bound to enculturate/endemise its given postlogism\textsuperscript{10}. 
Obviously we can appreciate that without a positivistic outlook/reference-of-thought there is no chance that a non-positivism/medievalism registry-worldview/dimension will do away with notions-and-accusations-of-sorcery, as the latter is bound to arise as of human threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-attendant-intradimensional/prospectively-disontologising-preconverging/dementing-apriorising-psychologism> in non-positivism/medievalism where the mindset/reference-of-thought is not rationally-empirical/positivising. Further, registry-worldviews/dimensions being prospectively wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology -as-of-‘nondescript/ignoreable–void ’-with-regards-to-prospective-apriorising-implications>} with their ‘intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis’ or ‘socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ determined by their sanctified-conventioning-social-aggregation-enablers, there is a need to circumvent and break these sanctified-conventioning-social-aggregation-enablers by prospective ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ to allow for new defining transcendental meaningfulness and its corresponding grander teleological-differentiation/teleology that can then perceive the prior registry-worldview/dimension as of its relative-ontological-incompleteness-induced,-‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism’, and accessorily its enculturating/endemising of its postlogism, and superseding both of these in the prospective registry-worldview/dimension institutionalisation. Such perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >/mental-devising-representation-perversion has various shades of ‘temporal/shortness to intemporal/longness depth/register of meaningfulness stranded finalities/teleologies’. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting-conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism’ or prelogism in that a child who has a ‘poor or bad supplanting-conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism’ or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. formulaically-narrated or non-veridical hollow mimicking narratives. What the psychopath is
doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-dementing—apriorising.
That is to arrive at a sought-outcome by subknowledging -or-mimicking the non-veridical hollow-form of the meaning of other persons supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking — apriorising-psychologism narratives which it perceives as ‘being blatantly deterministic’ of the views and actions of the ‘normal prelogism’ -as-of-conviction,-in-profound-supererogation —<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’- logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind’, i.e. the psychopath is ‘narrating veridical emptiness/hollow narratives’. The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism on narratives but rather simply ‘the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation conjugated-postlogism/preconverging-ordinator -integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating/supererogatory–de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism and its
derivation/adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism. More precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining

\[<\text{decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing}>\text{-induced-disontologising’–of-the–‘attendant-intradimensional–ontologising’–imbued–contextualising/existentialising–attendant-ontological-contiguity} \geq \text{shallow-supererogation}\text{-as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness}>\] and the notion of a lie which is in manifest prelogism-as-of-conviction, in profound-supererogation-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at (be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism’) as with a lie the implied–logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-
engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge associated with postlogism-as-of-compulsing-nonconviction/madeupness/bottomlining-〈decontextualising/de-existentialising-of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising-of-the-

explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity with regards to inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent whole of narratives’ with respect to attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context> as is the case when someone tells a lie, and actually where such a ‘coherent whole of narratives’ with respect to attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-

It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by supplanting–conviction-as-to-profound-supererogation —of- ‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism interlocutors is not a ‘coherent whole of narratives’ but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism <-as-of-conviction,-in-profound-supererogation<-existentially-veridical<-attendant-intradimensional-apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> alignment to psychopathic slanting is actually a mental-unsoundness not different as contemplating aligning in supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious
since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge due to psychopathic developmental failure to relate to meaningfulness as of prelogism -as-of-conviction,-in-profound-supererogation <-existentially-veridical-'attendant-intradimensional-apriorising/axiomatising/referencing'-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of—social-stake-contention-or-confliction, induces interlocutors prelogic supplanting—conviction-as-to-profound-supererogation —of—'attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism alignment to its postlogic compelling—nonconviction/madeupness/bottomlining—('<decontextualising/de-existentialising~of—attendant-intradimensional—apriorising/axiomatising/referencing>-induced-disontologising’—of—'attendant-intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant-ontological-contiguity >;-in-shallow—supererogation —<as—to-disontologising-perverted-outcome-sought-precedes-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness>) narratives whereas at childhood psychopathy interlocutors will not align in-prelogic supplanting—conviction-as-to-profound-supererogation —of—'attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologismly (in order not to wrongly conjoin the psychopathic postlogic slanting narratives as deception-of-successively-shifting-or-non-cohering-narratives-and-acts as if of coherent whole as prelogic supplanting—conviction-as-to-profound-supererogation —of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism narratives, and this is what actually occurs by inducing
conjugated-postlogism/preconverging-or-dementing-integration in interlocutors at adulthood psychopathy) given the obvious and transparent deliriousness/delirious-effect/cinglé-effect associated with slanting over a slant over a slant, successively. Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing–apriorising-psychologism. Thus, with slanting the implied–logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’–logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-ontological-bad-faith/inauthenticity–of-reference-of-thought/preconverging-or-dementing –apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-ontological-good-faith/authenticity–of-reference-of-thought. We can very much uphold a second-natured quasi-intemporal-disposition reference-of-thought as ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ which is why humankind pursues institutionalisations as devising human collective emancipation from base-institutionalisation to universalisation to positivism and prospectively to notional-deprocrypticism in resolving the vices-and-impediments of their respective uninstitutionalised-threshold as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. But exactly for the purpose of ensuring the perpetuation of this human registry-worldview’s/dimension’s institutionalisation capacity (as in enabling futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism) as the very essence of human virtue itself, it is equally important to understand how institutionalisation comes to be limited at successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure as to historiality/ontological-eventfulness /ontological-aesthetic-tracing <perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism–determinism> (as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatures—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism–form-factor) to grasp how we can then supersede/transcend prospectively. ‘Human temporal uninstitutionalised-threshold mental-disposition’ refers to our fixation to the mere–categorical-imperatives/axioms/registry-teleology of the registry-worldview/dimension institutionalisation reference-of-thought but failing/not-upholding<as-of-apriorising/axiomatising/referencing> prospective intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-

(from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective of

the prospective registry-worldview/dimension institutionalisation ‘reference-of-thought’) by its

decentering and dialectical–de-mentation of its ‘reference-of-thought’; which we can

effectively acquiesce to as of the uninstitutionalised-threshold but will rather have a mental

complex when this is implied prospectively to imply our uninstitutionalised-threshold as

procrypticism, just as all registry-worldviews/dimensions had hitherto displayed a mental

complex when their construal as uninstitutionalised-threshold is implied. Thus this implied

human ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-
dynamics or natural–psychological-dynamics’ as driven by ontological-

normalcy/postconvergence will explain the specific natures of registry-worldviews/dimensions
references-of-thought (as ‘underlying scheduling of soundness-or-ontological-good-faith/authenticity’-of-‘reference-of-thought’) behind the cumulating/recomposuring-attendant-ontological-contiguity-successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism peculiar psychologisms/psychologism-constructs of meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets/reference-of-thought/consciousness-awareness-teleology; whether as recurrent-utter-uninstitutionalisation psychologism, base-institutionalisation-ununiversalisation psychologism, universalisation-non-positivism/medievalism psychologism, positivism-procrypticism psychologism, and prospectively notional-deprocrypticism psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing–apriorising-psychologism’ as of their relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as ontologically-veridical. Thus, notional-deprocrypticism as decentering and preconverging-or-dementing–apriorising-psychologism the positivism–procrypticism registry-worldview of reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology as
suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/reference-of-thought of meaningfulness-and-teleology\(^{100}\) with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening\(^{53}\)) a renewing of mindset/reference-of-thought of meaningfulness-and-teleology\(^{100}\) with its corresponding psychologism/psychologism-construct occurs, with this ontological-contiguity\(^{67}\)—of-the-human-institutionalisation-process\(^{68}\) leading to the <cumulating/recomposuring–attendant-ontological-contiguity \(\geq\) successive registry-worldviews/dimensions \(^{84}\)reference-of-thought psychologisms/psychologism-constructs, and implied prospectively as well with the notional–deprocrypticism worldview/dimension \(^{84}\)reference-of-thought psychology/psychologism-construct. Critically, a psychologism/psychologism-construct takes an apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument form that construes meaningfulness from the prior (and even lower) registry-worldview’s/dimension’s \(^{84}\)reference-of-thought psychology up to its own registry-worldview’s/dimension’s \(^{84}\)reference-of-thought psychology as of its more profound attendant–ontological–contiguity \(\geq\) devolved–existentialising/contextualising/textualising-contiguity \(<\)reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- \(\geq\) devolving-as-of-instantiative-context> in reflecting/perspectivating their relative-ontological-incompleteness\(^{101}\)-of- reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance. Hence this articulation of the <cumulating/recomposuring–attendant-ontological-contiguity \(\geq\) successive registry-worldviews/dimensions \(^{84}\)reference-of-thought psychologisms up to the deprocrypticism, is an
\<perspective–ontological-normalcy/postconvergence>\> ‘human temporal uninstitutionalised-threshold\[13\] mental-disposition’. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening\[53\] as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental \[56\] meaningfulness-and-teleology\[100\]. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a
complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendency of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-primemovers-totalitative-framework’ that has accompanied human limited-mentation-capacity-deepening in construing/conceptualising meaningfulness-and-teleology. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening that actually is behind all threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> of the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified
and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of de-mentative/structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocritiy principle’ as to enable the full construal of both metaphysics-of-presence—{implicated-nondescript/ignorable-void ’-as-to- presencing—absolutising-identitive-constitutedness} and metaphysics-of-absence—{implicated-epistemic-veracity-of-nonpresencing-<perspective–ontological-normaley/postconvergence>}} ontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought psychologism, notional—deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction rather as socially-functional-and-accordant. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness- and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/ reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms–as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘huma prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms–as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/ reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms–as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable notional–firstnatures—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>

is of quasi-intemporal-disposition (and the whole point of human knowledge aspiration and
virtue is to achieve this state or deferential-states-of-this-state as with formalisations and

transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold’ mental-disposition’ as of attendant-ontological-contiguity elucidated existentialising/contextualising/textualising-contiguity reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought-devolving-as-of-instantiative-context elucidated ontological-normalcy/postconvergence. It points to a fundamental de-mentative/structural/paradigmatic disposition for human temporalities-drives to adhere to the wooden-language ⟨imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology⟩ (failing/not-upholding-as-of-apriorising/axiomatising/referencing) intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence (implicated-epistemic-veracity-of-nonpresencing—perspective—ontological-normalcy/postconvergence)/postdication) of the given registry-worldview/dimension, when incapable of construing a prospective registry-worldview ‘reference-of-thought as providing the resolution for the vices-and-impediments associated with such a present registry-worldview/dimension institutionalisation. Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence ⟨implicated-epistemic-veracity-of—nonpresencing—perspective—ontological-normalcy/postconvergence⟩) of the notion of ‘human temporal uninstitutionalised-threshold mental-disposition’ that de-
mentatively/structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-worldview’s/dimension’s temporality/shortness and is non-transcendental to that possibility’: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc.

[We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant -threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the-’ reference-of-thought-as-of- incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation-inducing-the-uninstitutionalised-threshold in the same social space that statements of ‘maximal-as-intemporal-operating-modality-of- reference-of-thought-as-of- maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’ are made but with both construed in the conventioning of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction as effectively ‘non-dissociable’, thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality-drive (longness-of-register-of—meaningfulness-and-teleology disposition) but rather about acceptable thresholds for the registry-worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of—social-stake-contention-or-confliction, explaining why uninstitutionalised-threshold are bound to arise successively in the ontological-contiguity—of-the-human-institutionalisation-process (out-of-human temporality) together with corresponding prospective institutionalisations (out of-human intemporality) with the latter enabling

This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness—in—{preconverging—disentailment—by}—postconverging entailment with no conventioning complexes’! (As a reminder, the notion of intemporality/temporality is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived—social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity as an otherness from any emotional-involvement/subjectification/notional—in—{amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}—predilection of the inquirer’.

This elucidation is equally to highlight that the idea of socially-functional-and-accordant ‘modular-thresholds’-of-notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>-dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) The conventioning of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction effectively ‘non-dissociable’ modular construal of temporal-dispositions and intemporal-disposition rather as of socially-functional-and-accordant thresholds, has deterministic implications with regards to ‘interdimensional/transdimensional/transcendental registry-worldview/dimension-level of analysis’ as well as ‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuation-level of analysis’; for construing the implications of such ‘modular-thresholds’-of-notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>-dissociability social-functioning-and-accordance—as-of–social-stake-contention-or-confliction effectiveness-or-ineffectiveness and ontological-resolution as of ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism by way of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ in resolving registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance capabilities, as the very foundational operant conceptualisation of an ontologically-contiguous ‘postconverging-or-dialectical-thinking —psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’. The fact is with or without postlogism and derived conjugated-postlogism, human reference-of-thought–prologism-as-of-conviction,-in-profound-sup ererogation tends to be relative. That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology-in-preconverging-existent-extrication-as-of-existential-unthought< ) given our relative-ontological-incompleteness-of-reference-of-thought and secondly by projective-arbitrariness/waywardness in the choices we make, and this get even worst at the uninstitutionalised-threshold. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute reference-of-thought–prologism-as-of-conviction,-in-profound-sup ererogation has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards
sound mental-disposition. Such a distinction particular at the uninstitutionalised-threshold \(\text{as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}\rangle\). This delineation is in line with the idea of human temporal (shortness-of-register-of–meaningfulness-and-teleology\(^\star\)) to intemporal (longness-of-register-of–meaningfulness-and-teleology\(^\star\)) individuations nature as implicitly recognised in the preconverging/postconverging-de-mentating/structuring/paradigming of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge-notionalisation on the basis that it is equally critical to understand the possibility of the ignorances/desublimation just as conceptual sublimation knowledge itself to further uphold, advance and skew for the latter. The point being that \(\text{meaningfulness-and-teleology}\(^\star\)).

This will explain why the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\(\langle\text{as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism}\rangle\) within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension\(\langle\text{meaningfulness-and-teleology}\rangle\) in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social\(\langle\text{universal-transparency}\rangle\).
(transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness ) knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-completeness refers-to-reference-of-thought. This imbued potency in social universal-transparency gives its prospective relative-ontological-completeness across all registry-worldviews/dimensions is what explains the possibility of social transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of—social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed reference-of-thought—prelogism—as-of-conviction,—in-profound-supererogation —<existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at> to meaningfulness-and-teleology as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. Basically, the postlogism —as-of—compulsing—nonconviction/madeupness/bottomlining—(<decontextualising/de—existentialising—of—attendant—intradimensional—apriorising/axiomatising/referencing>—induced—disontologising’—of—attendant—intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant-ontological-contiguity >—in—shallow—supererogation —<as—to—disontologising—perverted-outcome—sought—precedes—existentially—veridical—‘attendant—intradimensional—apriorising/axiomatising/referencing’—logical-dueness> )

Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism as a social dynamism of protracted threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation –<as-to–

apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-

The further implication is that such surreptitiousness, marginality and circularity with regards to a registry-worldview’s/dimension’s temporal-dispositions are often construed rather as circumventive issues as of temporal extricatory preconverging–dementating/structuring/paradigming, and not by ontological-veridicality insight as of dementative/structural/paradigmatic
<amplituding/formative–epistemicity>causality~as-to
projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-
ontological-contiguity with respect to vices-and-impediments. Thus ensuring ontological-veridical social 104 universal-transparency –{transparency-of-totalising-entailing,-as-to-
entailing- <amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness } is de-mentatively/structurally/paradigmatically inherently ‘advantaged ultimately’ by the social-construct functioning. (But then this can rather be achieved in the
medium to long term as of a crossgenerational transcendence-and-
sublimity/sublimation/supererogatory de-mentativity import and hardly so in the short-run,
given that in the short-run the issue of the registry-worldview/dimension relative-ontological-
incompleteness reference-of-thought is a drawback in this respect. As the framework of
generalised social referencing of meaningfulness-and-teleology is a circular-pervasiveness
closed-structure as of the habituated predicative-insights for meaningfulness-and-teleology based on the relative-ontological-incompleteness reference-of-thought of the registry-worldview/dimension as prior (despite the relative-ontological-incompleteness reference-of-thought induced distractive-alignment-to reference-of-thought-apriorising/axiomatising/referencing and override any such sense of relative pure-ontology apriorising/axiomatising/referencing-of-attendant ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity conflatedness in preconverging disentailment by postconverging entailment as of prospective relative-ontological-completeness reference-of-thought apriorising/axiomatising/referencing-of-attendant ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity conflatedness in preconverging disentailment by postconverging entailment). So the transcendental meaningfulness-and-teleology implied as of projective-insights about the prospective registry-worldview/dimension predicative-insights of meaningfulness-and-teleology going by its prospective relative-ontological-completeness reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for meaningfulness-and-teleology’ in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes meaningfulness-and-teleology in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion
inducing a subsequent prospective relative-ontological-completeness\textsuperscript{89}-of-reference-of-thought had moved on to the new/prospective meaningfulness-and-teleology\textsuperscript{100} which is now antipodal to his, hence his confliction with his circular-pervasiveness \textsuperscript{amplituding/formative} wooden-language\textsuperscript{imbued—averaging-of-thought\textsuperscript{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{as-of—nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications⟩}} which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness \textsuperscript{amplituding/formative} wooden-language\textsuperscript{imbued—averaging-of-thought\textsuperscript{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{as-of—nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications⟩}} when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-reference-of-thought with regards to meaningfulness-and-teleology\textsuperscript{construal where Nunez’s ‘seeing of the environment’ \textsuperscript{reference-of-thought as of it prospective relative-ontological-completeness of-axiomatic-construct-or-reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ reference-of-thought as of its prior relative-ontological-incompleteness\textsuperscript{59}. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a \textsuperscript{amplituding/formative} wooden-language\textsuperscript{imbued—averaging-of-thought\textsuperscript{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{as-of—nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications⟩}} that hardly entertains its own transcendability/de-mentativity, and why transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather crossgenerational for the
requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ \([\text{reference-of-thought}]\) are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their \([\text{reference-of-thought}]\) despite their respective inherent prior relative-ontological-incompleteness \([\text{reference-of-thought}]\) without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to\([\text{reference-of-thought}]\) from an ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ \([\text{reference-of-thought}]\) and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews/dimensions uninstitutionalised-threshold \([\text{reference-of-thought}]\), including our own as positivism–procrypticism as of its disjointedness-as-of-\([\text{reference-of-thought}]\) with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to\([\text{reference-of-thought}]\) notwithstanding any notion of relative prospective
ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather such a demonstration is more de-mentatively/structurally/paradigmatically, together with all other such demonstrations of the prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of the prior apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in its circular-pervasiveness’ at its uninstitutionalised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought; thus qualified as transcendence-and-sublimity/sublimation/supererogatory—de-mentativity/suprastructuration. Just as the exercise of demonstrative convincing on the basis of a scientific principle within a non-positivistic social context ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather de-mentatively/structurally/paradigmatically, together with all other such demonstrations as of scientific and positivistic principles/axioms/reference-of-thought
meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of non-scientific and non-positivism reference-of-thought devolving-as-of-instantiative-context— meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in circular-pervasiveness’ at its uninstitutionalised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness of reference-of-thought. We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments representing the successive registry-worldviews/dimensions reference-of-thought under which their respective predicative-insights construct their respective meaningfulness-and-teleology, so grounded axiomatically as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights; is compared imaginarily to ‘mental-dispositions at different successive ascertaining-perspectives unbeknown-to-each other for gauging the overall earth landscape’ (representing analogically ‘different successive registry-worldviews/dimensions for meaningfulness-and-teleology”), construed say at ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as recurrent-utter-uninstitutionalisation), ‘hill-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as base-institutionalisation–ununiversalisation), ‘mountain-level-height
predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-
level-heights

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty
is that ‘no given perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and
by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and
it is only the long run crossgenerational habituation construed as of 'de-mentation'
(supererogatory–ontological–de-mentation-or-dialectical–de-mention—stranding-or-
attributive-dialectics) with the prior ontologically construed as decentered and preconverging-
or-dementing--apriorising-psychologism as of distractive-alignment-to--reference-of-thought-
of-apriorising/axiomatising/referencing>, with the implication that its logical-dueness
doesn’t exist just as the logical-dueness of the animist ‘reference-of-thought with their God-of-
plane proposition doesn’t ontologically exist.) We can grasp as well that it is the ‘space-
satellite-level-height

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (as deprocrypticism) that ultimately provides the ideal ‘ascertaining-
perspectives for gauging the overall earth landscape’. Besides, why the explication herein is
necessarily implying a prospective ‘reference-of-thought (as the author in here with a supposed
notional–deprocrypticism ‘reference-of-thought construal as implying a prospective relative-
ontological-completeness‘of-‘reference-of-thought over our positivism–procrypticism), the
fact is that any transcendental analysis is caught in two worlds as two different ‘reference-of-
thought in striving to explicate the ontological pre-eminence of the prospective ‘reference-of-
thought as of ontological-normalcy/'postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our 84-reference-of-thought being construed as ‘preconverging-or-dementing19–apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing19–apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing19–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing19–apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing19–apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold 03 will react when construed as preconverging-or-dementing19–apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing –apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology10 as of prospective 1 deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought perspective as in disjointedness-as-of–reference-of-thought and rather in distractive-alignment-to- reference-of-thought<of-apriorising/axiomatising/referencing>29 ! Thus the reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising32~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature’ for the sake of deconstructive-engagement/engaged-destruktion because an analysis construed as of 5 reference-of-thought is all about mental-soundness or unsoundness representation (with no logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a
change of reference-of-thought implies a change of perspective/apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument-of-meaningfulness-and-teleology as a shift of the curve-of-prospective-relative-ontological-completeness reference-of-thought/axiomatic-construct and not a change in logic as a change along the same reference-of-thought/curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought/logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation. In other words, a truly direct notional~deprocrypticism ontological analysis will be a ‘mental break-in’/preconverging-or-dementing—apriorising-psychologism of our positivism—procrypticism as we by reflex ‘mentally break-in’/dement a non-positivistic reference-of-thought (as we don’t engage it on the basis of the non-positivistic categorical-imperatives/axioms/registry-teleology, for aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, just as a notional~deprocrypticism analysis will not engage us on the basis of our procrypticism—or—disjointedness-as-of-reference-of-thought—categorical-imperatives/axioms/registry-teleology, for aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness—reference-of-thought of non-positivism and procrypticism—or—disjointedness-as-of-reference-of-thought). But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness—reference-of-thought over prior relative-ontological-
incompleteness-of-reference-of-thought took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God-of-plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative-epistemicity>totalising~self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness-of-reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional-deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism–or–disjointedness-as-of-reference-of-thought categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism as preconverging–or–dementing –apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage meaningfulness-and-teleology in positivism–procrypticism terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought
as of its prior relative-ontological-incompleteness\textsuperscript{89} of reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing\textsuperscript{10} apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation–ununiversalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing \textsuperscript{19} apriorising-psychologism with respect to an implied prospective mental state of universalisation, the ‘mental tools’ available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing apriorising-psychologism with respect to an implied prospective mental state of positivism, and prospectively the ‘mental tools’ available to a state of positivism–procrypticism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing apriorising-psychologism with respect to an implied prospective mental state of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, issues of perversion-and-derived-perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation rather render such notions as forgiveness/overlooking/resetting nothing more but vague totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag misconstruing based on ‘a naïve traditional reflex’ that truly has no grander virtuous implications but quite the contrary as actually endemising/enculturating vices-and-impediments\textsuperscript{106} as when so-construed as a wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing}

apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation > is rather vague, as the more fundamental issue here is that human
meaningfulness-and-teleology as of human limited-mentation-capacity for construing virtue-as-ontology/ontology/intrinsic-reality/ontological-veridicality is ‘ever dementatively/structurally/paradigmatically in need for prospective relative-ontological-completeness of reference-of-thought’ and that is what is to be sought after as with the recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-institutionalised–ununiversalised striving for universalisation, the universalised–non-positivist/medievalist striving for positivism and in our case the positivist–proscriptivist striving for notional–deproscriptivism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; and so as of human limited-mentation-capacity-deepening enabled by reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ and so allowed by de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics). Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no de-mentative/structural/paradigmatic issue of relative-ontological-incompleteness of reference-of-thought with no recognition of any such ontological-contiguity—of-the-human-institutionalisation-process as human limited-mentation-capacity-deepening retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived—perversion-of—reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional
intelligence, etc. as naively instigating social \textsuperscript{45}amplituding/formative–epistemicity\textsubscript{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity within the framework in reflecting holographically-<conjunctively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{46} involving human limited-mentation-capacity-deepening\textsuperscript{47}. In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental de-mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism–procrpticism disjointedness-as-of\textsuperscript{48} reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology\textsuperscript{49}-<in-preconverging-existential-extrication-as-of-existential-unthought> naïve perpetuation in \textsuperscript{45}amplituding/formative–epistemicity\textsubscript{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} of the fundamental vices-and-impediments\textsuperscript{106} with both uninstitutionalised-threshold\textsuperscript{103}, thus explaining the fundamental dilemma of all institutional Establishments in their \textsuperscript{amplituding/formative} wooden-language\textsuperscript{9} (imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>). Such confusion arises from a misconstruing of what is veridically implied deconstructively/ontological-reconstitutively by \textsuperscript{de-mentation}(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), which implies that ‘any registry-worldview/dimension presence

Certainly, we can recognise the veracity/ontological-pertinence of the above articulation with respect to retrospective registry-worldviews/dimensions placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology \(^{100}\) as of their prior relative-ontological-incompleteness–of–reference-of-thought while our positivism registry-worldview/dimension placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology \(^{100}\) is always of prospective relative-ontological-completeness \(^{88}\)-of-\(^{84}\) reference-of-thought. But when it comes to a prospective assessment wherein we are of prior relative-ontological-incompleteness–of–reference-of-thought as ‘a preconverging-or-dementing \(^{19}\)-and-decentered-prior-institutionalisation’s– categorical-imperatives/axioms/registry-teleology \(^{100}\) positivism–procrysticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology \(^{100}\) as unsoundness-or-ontological-bad-faith/inauthenticity \(^{84}\)-of-\(^{84}\) reference-
explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of de-mentative/structural/paradigmatic nature of the-Good/understanding/notional-knowledge-reification-gesturing-in-prospective-psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}-conflatedness-in-{preconverging-disentailment-by}-postconverging-entailment\textsubscript{ontological-primemovers-totalitative-framework\textsuperscript{73}} construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s reference-of-thought is inherently a metaphysics-of-presence\{implicitied-‘nondescript/ignorable–void ‘-as-to-presencing—absolutising-identitive-constitutedness \} construed as postconverging-or-dialectical-thinking\textsuperscript{70}-and-centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} soundness-or-ontological-good-faith/authenticity -of- reference-of-thought that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence\{implicitied-epistemic-veracity-of-nonpresencing<-\textsuperscript{perspective-ontological-normalcy/postconvergence}>\} construals/conceptualisations as implied by prospective relative completeness-of-reference-of-thought which rather construes it as a preconverging-or-dementing\textsuperscript{10}-and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought. The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness\textsuperscript{96}-of- reference-of-thought and a prospective relative-ontological-
own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry-teleology with its logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid by default. This point out that there is necessarily a central growth element of a de-mentative/structural/paradigmatic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ allowing for de-mentativity and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic amplituding-formative-epistemicity-causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity of vices-and-impediments of our prior relative-ontological-incompleteness-of-reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn’t recognise the mortals that we are and we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid ‘human closure of’ meaningfulness-and-
teleology which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as a wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications)} start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of notional–deprocrypticism prospective relative-ontological-completeness reference-of-thought is restored by doing away with ‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism of positivism–procrypticism meaningfulness-and-teleology at its procrypticism uninstitutionalisation as of disjointedness-as-of—reference-of-thought from notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, just as we’ll appreciate that were the animists insistent say on relating to the plane as God-of-plane to a point implying their potential non-transcendability as of psychoanalytic-unshackling in due course, ‘ontological-veridicality tolerance as stretched-truth’ is no longer warranted but a direct ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a demonstration might be construed as of a simple paper plane demonstration of ontological-primemovers-totalitative-framework principles or extraordinarily a flight from the flight deck with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered meaningfulness-and-
teleology is more ontologically pertinent. Certainly such a ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism demonstration with regards to our procrypticism reference-of-thought as of its disjointedness-as-of-reference-of-thought construed from a notional–deprocrypticism reference-of-thought perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights will look weird to us going by our circularly pervasive
<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag procrypticism–or–disjointedness-as-of-reference-of-thought, but it is more of ontological-veridicality/intrinsic-reality even though we are unhabituated to it since it is beyond-the-consciousness-awareness-teleology in-preconverging–existential-extrication-as-of-existential-unthought and not yet by social universal-transparency {transparency-of-totalising-entailing, as-to-entailing,}
<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness, just as had been the case from the perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of all the uninstitutionalised-threshold reference-of-thought with respect to the ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism of their corresponding prospective institutionalisations reference-of-thought. The bigger point being that by definition a reference-of-thought doesn’t fathom the nature and degree of its relative-ontological-incompleteness of reference-of-thought as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. (Thus suggesting base-institutionalisation in recurrent-utter-uninstitutionalisation, implying universalisation in base-institutionalisation–ununiversalisation, suggesting positivism in universalisation–non-positivism/medievalism and suggesting notional–deprocrypticism in positivism–procrypticism will be perceived
initially as ‘bullshit’ going by human-subpotency–aporia/undecidability/dilemma/ought-

this point, intellectual commitment overtly meets ontology.) Explained in other terms, implying
in a non-positivism social-setup that notions-and-accusations-of-sorcery are inherently vices-
and-impediments as of the transcendental prospective positivism prospective relative-ontological-completeness reference-of-thought will-not-be-convincing-on-a-par-with-other-argumentators in that social-setup but rather for such temporal/shortness-of-register-of-meaningfulness-and-teleology purpose requires making a ‘temporal palliation argument’ of the type oneself or another person is not involved in sorcery or a counterargument that the accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-ontological-incompleteness reference-of-thought, to-be-more-convincing-on-a-par-with-other-argumentators in that non-positivism social-setup (but then all this will wrongfully validate superstition and thus fail the very point of ontology/aetiologisation/ontological-escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as intemporality-asymmetric-subsumption-of-temporality'/asymmetrisation and not a temporal extrication exercise of ‘social-aggregation-enabling as of symmetrisation-of-reference-of-thought, as this is in effect an ontologically-non-veridical-or-flawed <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’). Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism-and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness reference-of-thought social referencing of meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution construed as of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) by superseding the prior non-positivism prior
relative-ontological-incompleteness\(^2\) reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness\(^2\) reference-of-thought by ‘continuous habituation going by the latter’s ontological-primemovers-totalitative-framework\(^2\) in the long run as superseding the prior beyond-the-consciousness-awareness-teleology\(^1\) in preconverging existential-extrication-as-of-existential-unthought and initiating the appropriate prospective social universal-transparency\(^1\) (transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) that will de-mentatively/structurally/paradigmatically harken back to undermine the postlogism\(^7\) and-conjugated-postlogism\(^7\) grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension.

That is, it is by turning the non-positivistic mindset/\(^\text{reference-of-thought}^7\) into a positivistic mindset/\(^\text{reference-of-thought}^7\) that the possibility of ‘ontologically’ and ‘not palliatively’ resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the crossgenerational resolution of our positivism–procrypticism prior relative-ontological-incompleteness\(^2\) reference-of-thought as of its circular-pervasiveness in countenancing of procrypticism–or–disjointedness-as-of-\(^\text{reference-of-thought}^6\) from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of meaningfulness-and-teleology\(^10\) as conceptualising, articulating and preempting such disjointing/disparateness/disentailing\(^1\) meaningfulness-and-teleology\(^10\) of our positivism–procrypticism that is the de-mentative/structural/paradigmatic resolution as of prospective relative-ontological-completeness –of- reference-of-thought that can de-mentatively/structurally/paradigmatically harken back in undermining the circular-pervasiveness in countenancing of ‘disjointedness-as-of-\(^\text{reference-of-thought}^6\) and the enculturation/endemisation of the manifest postlogism –and-conjugated-postlogism\(^7\) in our positivism–procrypticism as psychopathy and social psychopathy, and so going beyond just a
temporal palliative resolution within a positivism–procrypticism circular-pervasiveness closed-structure countenancing ‘disjointedness-as-of-reference-of-thought’ of ‘meaningfulness-and-teleology’, beyond-the-consciousness-awareness-teleology,<in-preconverging-existential-extrication-as-of-existential-unthought>, and hence overlooking the de-mentative/structural/paradigmatic ontological vices-and-impediments implications of postlogism-and-conjugated-postlogism including psychopathy and social psychopathy arising given the relative-ontological-incompleteness-of-reference-of-thought of our procrypticism as disjointedness-as-of-reference-of-thought. This explains how and why re-originary–as-unenframed/unbeholdening/outlier-conceptualisation ideas can supersede conventionalised ideas where the former provide in the big picture the possibility for the social-construct to function better by social universal-transparency,<transparency-of-totalising-entailing,-as-to-entailing- <-amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ⟩ at a crossgenerational depth of analysis, and equally explains human historical suspicions of new ideas just in case their social universal-transparency,<transparency-of-totalising-entailing,-as-to-entailing- <-amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness turn out to be better and possibly leading to the dismantling of the prior and vested and attendant interests. aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology
The implication is that postlogism /psychopathy and other human temporal phenomena (and so, across all registry-worldviews) which speak of uninstitutionalised-threshold are often wrongfully construed on the basis of intemporal seconddnatured institutionalisation human nature whereas the apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity \}—conflatedness in-preconverging-disentailment by-postconverging-entailment requires ‘synopsising-depth of a human temporal-to-intemporal nature’ and so by apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity \}—conflatedness-in-preconverging-disentailment-by-postconverging-entailment to establish the uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology—form-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology rather as of maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation (construed as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposing to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as should be the case at all uninstitutionalised-threshold, and so over the mental-reflex of assuming seconddnatured institutionalisation reference-of-thought/axiomatic-construct as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed-existentialising/contextualising/textualising-contiguity (construed as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposing out of the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as the latter is only practically effective when dealing with an already established human registry-worldview’s/dimension’s institutionalisation/institutionalised-construct but not at uninstitutionalised-threshold which
require their own new specific \(^{24}\) reference-of-thought– categorical-imperatives/axioms/registry-teleology\(^{100},\) for-aposteriorising/logicising/deriving/intelligising/measuring– \(^{25}\) meaningfulness-and-teleology \(^{100}\), which so established then enables the practical effectiveness of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity\(^{39}\). Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social \(^{104}\) universal-transparency \(\langle\) transparency-of-totalising-entailing,-as-to-entailing- \(\ast\) amplituding/formative–epistemicity\rangle\) totalising—in-relative-ontological-completeness \(\rangle\) level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold \(^{103}\) situation which is necessarily beyond-the-consciousness-awareness-teleology \(^{100}\) \(\langle\) in-preconverging-existential-extrication-as-of-existential-unthought\rangle\) and without social \(^{104}\) universal-transparency \(\langle\) transparency-of-totalising-entailing,-as-to-entailing- \(\ast\) amplituding/formative–epistemicity\rangle\) totalising—in-relative-ontological-completeness \(\rangle\) of the visitor. This example is exactly along the lines of the \(^{10}\) reference-of-thought– categorical-imperatives/axioms/registry-teleology\(^{100},\) for-aposteriorising/logicising/deriving/intelligising/measuring– \(^{25}\) meaningfulness-and-teleology \(^{100}\) needed for construing postlogism /psychopathy and conjugated-postlogism \(^{5}\) as of its social model at uninstitutionalised-threshold \(^{103}\), and so by way of \(^{55}\) maximalising-recomposuring-for-relative-ontological-completeness \(^{88}\)—unenframed-conceptualisation (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposuring attendant ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity \(\langle\) reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-
instantiative-context>, in contrast to elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity on the basis of the established reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology before the institutionalisation of such a specific uninstitutionalised-threshold takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism—procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated—meaningfulness-and-teleology going by the visitor’s relative-ontological-incompleteness of reference-of-thought as of positivism—procrypticism, while the explainer of the situation has factored in notional—deprocrypticism—reference-of-thought—categorical-imperatives/axioms/registry—
teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology to preempt the induced procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated—meaningfulness-and-teleology from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of notional—deprocrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology to preempt the slanted inducing of procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated—meaningfulness-and-teleology and gives up on positivism—procrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold with respect to the childhood psychopathy, a new notional—deprocrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology has superseded the prior positivism—procrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-to-mere—extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity—educated—existentialising/contextualising/textualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood
psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism-psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality-{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology} by formality dynamics; with the implication of lack of social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-amplitudes-formative-epistemicity} as the manifestation is beyond-the-consciousness-awareness-teleology-{in-preconverging-existential-extrication-as-of-existential-unthought} at this uninstitutionalised-threshold, together with the inherent human complex of non-transcendability and hence unde-mentativity across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger de-mentative/structural/paradigmatic picture of perversion-and-derived-perversion-of-reference-of-thought-{as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}. However, suggesting at the registry-worldview/dimension-level of analysis the ontological-veridicality/intrinsic-reality of a new notional-deprocripticism reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology that implies that the registry-worldview/dimension is in circular-pervasiveness of procripticism

However, we can still get a sense of such de-mentative/structural/paradigmatic amplituding/formative—epistemicity—causality—as-to-projective-totalitative—implications—of—prospective—nonpresencing,—for-explicating-ontological-contiguity from a retrospective registry-worldview/dimension perspective like postlogism in a non-positivistic social-setup as of our prospective relative-ontological-completeness—reference-of-thought perspective but it is more difficult to grasp from a notional—deprocrypticism prospective perspective of analysis where we will rather be unpalatably represented as decentered and preconverging—order—menting—apriorising-psychologism, given our state of metaphysics—of—presence: ⟨implicated—nondescript/ignorable—void—presencing—absolutising-identitive—constitutedness⟩.

Supposed with regards to a case of notions—accusations—of—sorcery as highlighted before as of a social-setup whose relative—ontological-incompleteness—reference—of—thought is non—positivistic, a positivism minded interlocutor arguing that notions—accusations—of—sorcery do not exist upon an accusation of sorcery is literally undermining itself but is seen as ontologically necessary for the crossgenerational possibility of prospective transcendence—and—sublimity/sublimation/supererogatory—de—mentativity. Supposed however that the interlocutor isn’t an isolated individual but a member from a positivistic society bringing about a cultural diffusion in the non—positivistic society such that the latter looks up to the former by its prospective relative—ontological—completeness—reference—of—thought as it effectively has
greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative technology, then in this case the non-positivistic social-setup will at least in ad-hoc instances be circumspect in countenancing that notions-and-accusations-of-sorcery do not exist as of 

aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\(^{100}\), cannot longer be upheld at such uninstitutionalised-threshold\(^{03}\) but requiring in lieu a notional—deprocrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^{09}\)—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\(^{00}\) will be difficult to countenance but for a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring since the issue is one of registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^{03}\)—defect—<as-Being-or-ontological-or-existential—defect>\(^{06}\). Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism\(^{78}\) condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procyrpticism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of attendant ontological-contiguity—reduced—existentialising/contextualising/textualising-contiguity\(^{39}\)—in-reification/dereification entertains/is-cognisant-and-integrative-of/is-in-notional-contiguity/epistemic-contiguity—<profound-supererogation—of-mentally-

aestheticised—postconverging/dialectical-thinking—qualia-schema> with superstitious claims in its \(^{55}\) meaningfulness-and-teleology\(^{100}\). An explainer to the visiting stranger in the non-positivism social-setup case about the whole situation would have articulated at the individuation-level of analysis a prospective 'logically-due prelogism—as-of-conviction,—in—
cumulative-aftereffect/aftereffect at registry-worldview/dimension-level of analysis is the very ontologically-central notion of every registry-worldview/dimension uninstitutionalised-threshold which should thus be always construed as being in distractive-alignment-to-reference-of-thought<-of-apriorising/axiomatising/referencing> with respect to its prospective institutionalisation. It is effectively derived-denaturing that induces threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-'attendant-inradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-psychologism as of uninstitutionalised-threshold, as we can appreciate that the childhood psychopathy and the visitor’s meaningfulness-and-teleology are in effect ontologically-speaking threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-'attendant-inradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-psychologism. But then at the registry-worldview/dimension-level of analysis however, when compared to the simplistic individuation-level postlogism analysis insight, implying ontological-veridicality/ontological-reality on the basis of ‘logically-due prelogism-as-of-conviction,-in-profound-supererogation <-existentially-veridical–‘attendant-inradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment by} postconverging-entailment as of positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–‘meaningfulness-and-teleology’ with respect to the overall non-positivism registry-worldview/dimension as of its dynamic-cumulative-aftereffect/aftereffect with regards to the manifest registry-worldview/dimension-level social construal of superstitions and notions-and-accusations-of-sorcery in general, can only arise from a crossgenerational psychoanalytic-

rendered difficult by a natural human ‘emotional involvement’ driven social-aggregation-

transcendental-enabling/sublimating/supererogatory—de-mentativity. This insight equally
explains the pertinence of understanding postlogism/psychopathy in general as an

Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism-as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-γ that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy’. The explainer of the situation ‘as of its reference-of-thought–prelogism–as-of-conviction,-in-profound-supererogation<-existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’ is in an ‘intemporality-asymmetric-subsumption-of-temporality’/asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. The bigger point being that symmetrisation implying mutual recognition of reference-of-thought can only arise where there is mutual appropriateness-of-
thought-as-of-conflatedness as existential/ontological transcendental-enabling/sublimating/supererogatory-de-mentativeness veracity thus enabling the logical-dueness of both interlocutors to arise as of their soundness-or-ontological-good-faith/authenticity of reference-of-thought in the very first place, notwithstanding thereafter the appropriateness or inappropriateness of the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation exercise which is then an altogether different issue of effective/ineffective logic as prelogism-as-of-conviction,-in-profound-supererogation <-existentially-veridical–attendant-intradimensional-apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at>, and this latter is what tends to be falsely implied in situations of postlogism/psychopathy and conjugated-postlogism/social-psychopathy, and need to be ‘ontologically dismissed offhand’ and brought back to the fundamental issue of perversion-and-derived-perversion-of-reference-of-thought<-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > rather reflected-as-of-soundness-or-ontological-good-faith/authenticity of reference-of-thought in determining whether logical-dueness arises in the very first place. Central to such a dynamic-cumulative-aftereffect/aftereffect registry-worldview/dimension-level analysis derived from such an individuation-level insight is the idea that social-functioning-and-accordance—as-of-social-stake-contention-or-confliction is contiguous as of meaningfulness-and-teleology as of the individuation-level and registry-worldview/dimension-level of analysis, notwithstanding it developing complexification as of dynamic-cumulative-after/effect as from the individuation-level to the registry-worldview/dimension-level and thus with a greater opportunity for the simplistic individuation-level childhood postlogism /psychopathy phenomenon relatively resolvable at that individuation-level to fail resolution with the myriad of such cases at the circular-

The establishment or rather coming into being of a prospective registry-worldview/dimension institutionalisation reference-of-thought can thus be construed as of pure-ontology apriorising/axiomatising/referencing- {of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—conflatedness in- {preconverging-disentailment by}—postconverging-entailment for ontologically-veridical meaningfulness-and-teleology, and so because it is both the mechanical-knowledge as the constraining technical outcome and the non-constraining driving underlying intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, with both constituting the organic-knowledge. This transcendental knowledge construct establishes a dominant social framework of knowledge grounded on its inherent intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-prime-movers-totalitative-framework (as it supersedes the prior beyond-the-consciousness-awareness-teleology -<in-preconverging-existential-extrication-as-of-existential-unthought>—meaningfulness-and-teleology and the prior ‘lack of constraining social universal-transparency—{transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness }, and then imbues the prospective institutionalisation with social validity and social structure of meaningfulness-and-teleology as of deferential-formalisation-transference. This is the social-setup of the prospective institutionalisation reference-of-thought as of pure-ontology apriorising/axiomatising/referencing- {of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—conflatedness in- {preconverging-disentailment by}—postconverging-entailment for prospective relative-ontological-
faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a ‘sense of rightness’ is all that matters before the law, and this extends to human meaningful and organisational principles in general. Such that temporal-dispositions fulfilment of such ‘mechanistic’ effectiveness as mechanical-knowledge ‘without the non-constraining and abstract organic mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the emanant-kind that had-driven the reference-of-thought construal in the first place’ distort in due course organic meaningfulness-and-teleology, as of temporal mental-dispositions of shortness-of-register-of meaningfulness-and-teleology. Thus such implied prospective reference-of-thought, social organisations and institutions as organic meaningfulness-and-teleology then tend to develop ‘subcultural reorientations’ that are ‘mildly alien’ and ‘on-occasional gravely alien’ to the (especially in the extended-informalities of the social and institutions) original organic-knowledge conceptualisation as of the implied prospective reference-of-thought social and institutions meaningfulness-and-teleology. Thus for an ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-prime movers-totalitative-framework construal for the notional-deprocrypticism prospective institutionalisation, it is critical to grasp both the inherent ontological-veracity of the meaningfulness-and-teleology behind the construal of notional-deprocrypticism and the ‘reality of a human condition of temporal-dispositions distinctive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing>, and so as of notional-conflatedness /constitutedness-to-conflatedness as historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective—ontological—

The statements articulated priorly (before the square brackets texts digression) speak of the
reality of ‘human temporal uninstitutionalised-threshold mental-disposition’ even in our own
positivism reference-of-thought registry-worldview. It is fair to say the statement made
before, “Z … will look down on B, C, D, E and F mental-dispositions perversion-and-derived-
perversion-of- reference-of-thought as-preconvergently-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-

additionality and the implications thereof of subsequent denaturing in
circularity/recurrence/repetition/repeatability” is circumstantially relevant even in our
positivistic registry-worldview wherein ‘lack of constraining social universal-
transparency (transparency-of-totalising-entailing-as-to-entailing- <amplituding/formative–
epistemicity>totalising~in-relative-ontological-completeness) induces a ‘human temporal
uninstitutionalised-threshold mental-disposition temporality/shortness or shortness-of-
register-of– meaningfulness-and-teleology drive. The Milgram experiments, a
demonstration par excellence of the human condition at uninstitutionalised-threshold with
respect to perceived–social-stake-contention-or-confliction constraints as of human limited-
mentation-capacity-deepening, truly reflect the inherent nature of ‘human temporal
uninstitutionalised-threshold mental-disposition’; and the deprocrypticism-driven
understanding of which should rather be an avenue for a pivoting/decentering psychologism
with respect to positivism–procrypticism registry-worldview/dimensions vices-and-
impediments (just as with all previous transcendence-and-

made between the nature of ‘human registry-worldview’s/dimension’s institutionalisation
mental-disposition’ registry-worldview’s/dimension’s reference-of-thought and ‘human
temporal uninstitutionalised-threshold’ mental-disposition’ registry-worldview’s/dimension’s
reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into
perspective the idea that the present and as of our present social construction and individuations
as being relatively more exceptional than the solipsistic nature of humans in prior epochs is
false, with such wrongly implied exception rather being a confusion between ‘cumulated
institutionalisation’ (which we carry by being second-natured at the backend in reflecting
holographically-<conjugatively-and-transfusively> the ontological-contiguity—or-the-
human-institutionalisation-process as of human limited-mentation-capacity-deepening leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense
of intemporality /longness (which overall is no more greater than that of humans of previous
<cumulating/recomposuring–attendant-ontological-contiguity > successive registry-
worldviews/dimensions); and further that we are just of the same ‘human temporal
uninstitutionalised-threshold mental-disposition’ as all humans past when it comes to making
solipsistic choices at uninstitutionalised-threshold, which choices when of intemporality—
drive solipsistic-choices are maximalising-recomposuring-for-relative-ontological-
completeness—unenframed-conceptualisation leading to prospective institutionalisations. 
This notion of human mental-disposition and by extension meaningfulness-and-teleology as 
comprising, rather as a more complete and grander conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold facet, 
so-construed by metaphysics-of-absence—(implicated-epistemic-veracity-of nonpresencing-
<perspective–ontological-normalcy/postconvergence>), carries institutionalisation and 
uninstitutionalised-threshold implications with respect to the determination of ontologically-
veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation 
(scientific approach, methodology and methods) as rather construed most critically by its 
relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. Such metaphysics-of-absence—(implicated-epistemic-veracity-of nonpresencing-
<perspective–ontological-normalcy/postconvergence>) considerations are critically relevant in fully appreciating the 
articulation herein by this author of such notions (that rather speak of uninstitutionalised-
threshold implications with respect to ‘a social pretence of scientific conceptualising as of 
relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’), like deferential-formalisation-
transference, ordered-construct, percolation-channelling—(in-deferential-formalisation-
transference) and transversality—(for-sublimating–existential-eventuating/denouement)—of-
affirmative-and-unaffirmative–disambiguated–motif-and-
apriorising/axiomatising/referencing’. Insightfully, it is the case that our present-day 
positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-
mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology as of ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaningfulness-and-teleology as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology—in-preconverging—existential-extrication-as-of-existential-unthought. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-prime-movers-totalitative-framework and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the
medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling-<in-deferential-formalisation-transference> possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturizing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling-<in-deferential-formalisation-transference> and transversality-<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising/axiomatising/referencing’ . In another respect, with regards to scientific meaningfulness-and-teleology\textsuperscript{100} and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold \textsuperscript{101} when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal
mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality

transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness as of reference-of-thought increasingly defer domains of meaningfulness-and-teleology more and more to formal constructs while increasingly reducing the sphere of the extended-informality—(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology ) as of its free-for-all nature. The bigger point being that even in our positivism–procrypticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality

transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality

transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive
and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal amalgamating/formative wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of— meaningfulness-and-teleology }’ mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal amalgamating/formative wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of— meaningfulness-and-teleology }’ mental-dispositions and projections’. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism /psychopathy social implications should
as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercrorytory de-mentativity by human intemporal mental-dispositions and projections’, and undermining a social relations with regards to knowledge and virtue that is based on ‘social consensus as of social-aggregation-enabling by human temporal amplituding/formative wooden-language-{imbued—averaging-of-thought}<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> mental-dispositions and projections’, and so in order to release the inherent virtue imbued in true knowledge. The afore elucidations are mainly to point out that it is naïve to construe the analysis of postlogism phenomenon including psychopathy on the assumption of an overall ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social as of the present as metaphysics-of-presence-{implicitied-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness} instead of assuming a ‘human temporal uninstitutionalised-threshold mental-disposition’ of the social by prospective metaphysics-of-absence-{implicitied-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}, since the construal of our postlogism as of psychopathy and social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective, reflected from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional~deprocrypticism registry-worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence {implicitied-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} we can appreciate this logic with respect to notions-and-
accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality -drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities -drives such that it is endemised/enculturated in various temporaity/shortness shades (of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the wooden-language—imbued—amplituding/formative—averaging-of-thought—⟨as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—⟩—with-regards-to-prospective-apriorising—implications⟩ in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal preconverging—dementating/structuring/paradigming and not intemporal/ontological/social/species/universal/transcendental/maximalising—recomposuring—for-relative-ontological-completeness—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically—as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism
of reference-of-thought-as-of maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’. Virtue is essentially about the intemporal-drive as maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence {implicated-epistemic-veracity-of-nonpresencing—perspective—ontological-normalcy/postconvergence} postdication with reference-of-thought—categorical-imperatives/axioms/registry-teleology subservient to that purpose, and not about the temporalities-drives as ‘mere adherence as intradimensionally deterministic by form’ to reference-of-thought—categorical-imperatives/axioms/registry-teleology as these are failing/not-upholding—as-of-apriorising/axiomatising/referencing—intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence {implicated-epistemic-veracity-of-nonpresencing—perspective—ontological-normalcy/postconvergence} postdication rather than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness — reference-of-thought, by ‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or-ontological-reprojecting its mental-disposition will be to unleash its maximalising-recomposuring-for—
relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation intemporality\textsuperscript{62}—drive to supersede the non-positivistic \textsuperscript{23}reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100} that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of \textit{attendant-ontological-contiguity}\textsuperscript{67}—\textit{educed–existentialising/contextualising/textualising-contiguity}\textsuperscript{39} here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness\textsuperscript{89} and relative-ontological-completeness\textsuperscript{88} reference-of-thought and respectively as of their divergent non-positivists dereification perspective and positivist reification perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of \textit{attendant-ontological-contiguity}\textsuperscript{67}—\textit{educed–existentialising/contextualising/textualising-contiguity}—\textit{in-reification/dereification} as of their prior relative-ontological-incompleteness\textsuperscript{89} of reference-of-thought, contrasted with the positivist naturalist conception of \textit{attendant-ontological-contiguity}\textsuperscript{67}—\textit{educed–existentialising/contextualising/textualising-contiguity}—\textit{in-elucidation-or-reification} as-seeking-a-cure as of its prospective relative-ontological-completeness\textsuperscript{88} of reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrypticism registry-worldview/dimension as of its prior relative-ontological-incompleteness\textsuperscript{89} of reference-of-thought, as the notion of proof/evidence is more critically
tied down to attendant ontological contiguity —educed— existentialising/contextualising/textualising-contiguity —reification as of singularisation—as-to-the-nondisjoinedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity —profound-supererogation —of-mentally- aestheticised—postconverging/dialectical-thinking —qualia-schema> in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter meaningfulness-and-teleology as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and- apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness —off—reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag>; with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and- apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning contortion is rather in transversality.<for-sublimating—existential-eventuating/denouement>—of-affirmative-and-

Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism as of contortive metaphoricity gesturing for prospective relative-ontological-completeness—reference-of-thought as of postconverging-nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism, different from asceticism as reasoning-from-results/afterthought or institutional asceticism, should basically be understood as of the general notion that all human meaningfulness-and-teleology are naturally ‘correlate-aesthetic-constructs as of the various reproducibility—mathesis/motif/thrownness-disposition,—as—the reproducibility-of-aestheticisation in successive prior relative-ontological-incompleteness—towards-ontological-completenessss-of-deprocrypticism’ as of their specific reflection of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality—as-to—‘human<amplituding/formative—epistemicity>totalising—purview-of-construal’ (just as implied with the case highlighted herein of the ‘ill-health<amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal—as-intrinsic-reality/ontological-veridicality/existential-reality’); and are so derived as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance—<including-virtue-as-ontology>

But then the human reality across all registry-worldviews/dimensions, isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its uninstitutionalised-threshold and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ of human ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating meaninglessness-and-teleology/ reference-of-thought—devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-dialectical-thinking —apriorising-psychologism’ prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-dementing —apriorising-psychologism uninstitutionalised-threshold which it tends to represent as nondescript/ignorable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing —narratives), for the possibility of its prospective transcendence-and-sublimity/sublimation/supererogatory—the-mentativity into prospective
institutionalisation. This reality is known as human ‘supererogatory—de-mentative constraint’ to prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of the possibility of prospective relative-ontological-completeness—of-reference-of-thought. Human supererogatory—de-mentative constraint is fundamentally associated with poor universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness) with respect to social-stake-contention-or-confliction at uninstitutionalised-threshold. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of <amplituding/formative—wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drug/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology) as of the prior institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry—teleology that stifle the transcendence-and-sublimity/sublimation/supererogatory—de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness—of-reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness, for resolving a given registry-worldview/dimension vices-and-impediments; this notion of human supererogatory—de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as implied by a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-

Such a human disposition to decontortion at uninstitutionalised-threshold\textsuperscript{103} arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness-and-teleology\textsuperscript{100} as it reflects existence’s coherence/contiguity as of singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism. But then such a decontortioning disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold\textsuperscript{103} where we are actually preconverging-or-dementing –apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our attendant <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and vague untransvaluated–temporal-intemporality\textsuperscript{2} gesturing. The ontological-contiguity\textsuperscript{6}—of-the-human-institutionalisation-process\textsuperscript{68} can thus be construed as one of increasingly undermining the human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness\textsuperscript{80}; wherein across the successive institutional-cumulation/institutional-recomposure<as-to__historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism‘>, decontortion is ontologically-constrained both as of the ‘dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition’. The former is ontologically-constrained as of ontological-primemovers-totalitative-framework\textsuperscript{82} in undermining the human temporal
inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of universal-transparency \{(transparency-of-totalising-entailing,-as-to-entailing-
<amplituding-formative–epistemicity>totalising–in-relative-ontological-completeness \}.

Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness and emotional-involvement. In another respect the implications of flawed identitive-constitutedness\^\(\text{13}\)–as–‘epistemic-totality\^\(\text{36}\)’–dereification-in-dissingularisation

<as-to-the-disjointedness/disentailment-of- presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemicity-relativism-determinism also has implications with the ontological-performance \(-\langle\text{including-virtue-as-ontology}\rangle\) as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology\^\(\text{100}\) in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness\^\(\text{13}\)–as–‘epistemic-totality\^\(\text{16}\)’–dereification-in-dissingularisation-<as-to-the-disjointedness/disentailment-of- presencing—absolutising-

seems to imply that all along its practice human psychological illnesses have multiplied many
times over as of ever transforming and expanding formalisation credo, while the analytical
tradition of philosophy by the avowals of its internal critics has been involved in a recurrent
second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation
outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study
ecstatically allows for such an attitude/mental-disposition/care–and–episteme⁵. Such an
approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather
abstract as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-
of-elucidation-outside—attendant–ontological-contiguity⁶–educed–
existentialising/contextualising/textualising-contiguity⁷. Such that beyond its abstracting
exercise, as when it returns in striving to supposedly elucidate social and other existential
phenomenality, it is lost to it that social and other existential phenomenality is already
precedingly/supersedingly as of ‘ecstatic totalising-entailing/nested-congruence’, with the
consequence that it naively construes of reification as simply projecting ‘the supposedly
reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential
phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-
entailing/nested-congruence’ of existential phenomenality and thus misrepresenting,
denaturing⁸ and producing relatively ontologically-flawed⁹ meaningfulness-and-teleology¹⁰. Such
articulations tend out to be merely implied decontextualised/abstracted constructs with
poor appreciation and construal of their conceptualisations as of underlying relative-
ontological-incompleteness¹¹/relative-ontological-completeness¹²⁻}

This fundamental difference of conceptualisation very often underlies the disagreements between the analytic philosophical orientation and other philosophical traditions, in the sense that while the latter might be implicitly implying supposedly coherent ontological-commitment-\textsuperscript{*}<\textsuperscript{implied—self-assuredness-of-ontological-good-faith/authenticity}\textsuperscript{~postconverging–de-mentating/structuring/paradigming~as-being-as-of-existential-reality}> about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ when making its argument, the former will tend to be making a logical-commitment argument as of formalisation construct that ignores/overlooks-and-hence-is-poorly-constrained to the precedence/supersedingness/ascendency of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ in need of knowledge-reification–gesturing-\textsuperscript{in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity}}\textsuperscript{—conflatedness ~in-{preconverging-disentailment–by}–postconverging-entailment}> as of

The fundamental point here is that logic (reflected by the atomising/taking-to-pieces formalisation approach) is instead the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of Being and beings as reflected in first-level ontology and second-level ontologies, and logic cannot derive the superseding/preceding ecstatic existential veridicality of Being and beings which validation and falsifiability is ever always a matter of. Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficultly be
said with regards to the overall atomising/taking-to-pieces formalisation approach as of its amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ insight about supposedly coherent ontological-commitment implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–dementating/structuring/paradigming –as-being-as-of-existential-reality> articulated as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of explicited/implicated coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions
like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment

This apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed—existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging entailment nature of the notion of cause-and-effect so-implied veridically as ontological-primemovers-totalitative-framework arises as of the ‘basic and mere mimicking and deployment’ of supposedly science approaches and methodologies on the naïve assumption that

Rather any such science approaches and methodologies striving to validate knowledge as ‘meaningfulness-and-teleology’ by the supposedly coherent ontological-commitment—implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> reflected by ontological-primemovers-totalitative-framework as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression, is necessarily instigated as from a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. Insightfully, while in many ways such an elucidation hardly needs to be explicited in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of ontological-primemovers-totalitative-framework as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression, this unexplicit implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding
the ‘onticising specifisms of existence’ s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with attendant–ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity as of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity}—conflatedness—in—{preconverging–disentailment–by}–postconverging-entailment; so-implied as of their supposedly coherent ontological-commitment—in—self-assuredness-of-ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality> reflected by ontological-primemovers-totalitative-framework as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression.

In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specifisms of existence’s ecstatic manifestation’ as of the <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of ontological-primemovers-totalitative-framework will seem to wrongly imply otherwise. Such a
philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is very often incomplete, of-divvied-theorisation and/or ‘poor coherence of theorication with operant approaches and methodologies’, when it comes to many a social domain-of-study; as quite often theorisation in many a social domain-of-study strives on disparateness, rather than a tendency to ‘ontological-primemovers-totalitative-framework as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression enforced’ unifying coherence as in many a natural science domains-of-study, with the consequence that studies are often aloof to direct attendant ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity knowledge reifying exercise as of a tendency to technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-setups de-mentatively/structurally/paradigmatically stifle the possibility for conceptualisation as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression sublimating-validation/desublimating-invalidation implications, beyond their conventioning-referencing <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing>existentialising—enframing/imprintedness—⟨as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition⟩.

Ultimately the bigger issue arises as of the poorly-singularised/poorly-immanented nature of many a social domain-of-study unlike the grand singularised/immanented totalising/circumscribing/delineating amplituding/formative–epistemicity reference-of-thought~devolving foregrounding entailment ⟨postconverging–narrowing–down~sublimation-as-to–‘existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ’~-in-reflecting–‘immanent-ontological-contiguity ’;–as-operative-
that are actually actively sought in the natural sciences; and this author portends that the suprastructuralism/postmodernism as of notional–deprocrypticism ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology” holds the promise for such effective grand singularised/immanented social conceptualisation that doesn’t dodge/ignore/disregard outstanding questions about the human existential reality including de-mentative/structural/paradigmatic biases arising beyond-the-consciousness-awareness-teleology as of human emotional-involvement and sophistic/pedantic distortion of perception of reality so-implied in our present positivism–procrypticism ‘attendant-ontology—as-of-conventioning-referencing’ and just as well when ‘science-ideology’ seem to subvert and undermine science-in-practice. Worst still while in effect the idea of specialisation in many a natural science domain is often the natural progression of a ‘comprehensively elucidated/reified foregrounding entailment(postconverging–narrowing-down–sublimation-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ’-in-reflecting-‘immanent-ontological-contiguity ’;–as-operative-notional–deprocrypticism) of the given natural science domain-of-study’ with specialism more of a furtherance of such a scheme in a strong arborescent syncing with the subject-matter general-theoretical-level, in many such social domain-of-study of disparateness-of-conceptualisation<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity ’> (including some science domains as well which naively tend to draw comprehensive social and human implications of their studies) the drawback to such specialisms is often associated with ‘major interpretative

This weakness is often reflected in naïve use of statistics and methods as well as drawing out conclusions based rather on ordinary average-thinking interpretation as of human-subpotency ‘rather than interpretations and conclusions ensuing naturally and arborescently as from existence-potency ‘\(\_\_\text{sublimating–nascence,-disclosed-from-prospective-epistemic-digression}\) knowledge-reification–gesturing\(\text{in-prospective\_psychologismic\_apriorising\_axiomatising\_referencing-\{of\_attendant\_ontological\_contiguity\_educed\_existentialising\_contextualising\_textualising\_contiguity\}--conflatedness\_in\{preconverging\_disentailment\_by\}--postconverging\_entailment}\) derived from the general-theoretical-level of the subject-matter as reflecting ontological-contiguity\(\circ\)’, whereas this is ever always the case with good practice in the natural sciences and

lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study

mathematical and other scientific methods become interpretatively intelligible; such that merely
adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment by} postconverging-entailment that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring-threshold-{ uninstitutionalised-threshold / presublimating—desublimating—decisionality}—of-ontological-performance —<including-virtue-as-ontology> to further advance its constructive/institutionalising/nascent—sublimating—decisionality nature thus overcoming underlying logocentrism as of prospective relative-ontological-completenenss transcendental-and-sublimity implications, and thus reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of the <amplituding/formative—epistemicity—causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity—educed—

For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel universalising-idealisation that ‘runs-through/is-deflating’ by its evental -instigation traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the
Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a "presencing—absolutising-identitive-constitutedness" orientation that Socratic-philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning{(as-devoid-of-attendant-ontological-contiguity -educated- existentialising/contextualising/textualising-contiguity ’s-reifying-or-elucidating-of-‘prospective-relative-ontological-completeness ’;so-rather-enabled<-by-a- nonpresencing-divulging-of-momentous- historiality/ontological-eventfulness /ontological-aesthetic-tracing<-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>) as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic-philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern-day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation

{<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation} that then feeds into prospective originariness-parrhesia, as spontaneity-of-aestheticisation; emphasising as of any given registry-worldview’s/dimension’s specific limited-mentation-capacity that knowledge ‘more profoundly lies with the knowledge-reification—gesturing—in-prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—conflatedness—<in-preconverging-disentailment—by—postconverging entailment> and organic implications’, just as we cannot simplistically interpret the importance of Aristotelian science in terms of its constitutive elements as earth, water, air, fire and aether on a naïve presencing—absolutising-identitive-constitutedness basis from the vantage perspective of our modern positivism (as being at the receiving backend of the institutional-cumulation/institutional-recomposure{as-to—historiality/ontological—eventfulness }<ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism’> in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process but rather the more critical insight lies with its novel and transformative universalising-classificatory knowledge-reification—gesturing—in-prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—conflatedness—in-preconverging-disentailment—by—postconverging—entailment as opening up the possibility for prospective human reconceptualisation of science providing the backdrop
from which modern science took off from the medieval times to the present. Likewise, the transformative nature of budding-positivism more than just as garnered from the precised narrative accounts about budding-positivist thinkers, lies more profoundly with its meaningfulness-and-teleology infrastructure impact on the developing enlightenment social developments and as this budding-positivism metaphoricity epistemically-ricochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding-oneseness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social
progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification–gesturing<<in-prospective.psychologismic–apriorising/ axiomatising/referencing-

This human aestheticisation process involves inversely-varying-emphasis of originariness-parrhesia,—as–spontaneity-of-aestheticisation and reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation (so-construed as of ‘high/low parrhesiastic-pressure-of-aestheticisation’ with respect to ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology\textsuperscript{100}’), reflecting the ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation’. For instance with regards to living-development—as-to-personality-development meaningfulness-and-teleology\textsuperscript{100}, human aestheticisation is reflected in childhood to adulthood social development wherein a child’s development as of its ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology\textsuperscript{100}’ involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension\textsuperscript{26} in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension\textsuperscript{26} as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development—as-to-personality-development human aestheticisation
‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’) in apriorising/axiomatising/referencing- {of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity}—conflatedness in [preconverging-disentailment by] postconverging-entailment involving ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought’ always entails the three human aestheticisation manifest elements: ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’. This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought’ long before a child’s language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in reality the ‘teleological outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ of a rather ‘complex sense of ‘meaningfulness-and-teleology’ aestheticisation’ induced from a ‘high parrhesiastic-
aestheticisation’; wherein only the perception of unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance —<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation epistemericochettingly/transepistemically elicits ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’. This is so because given the taxingness-of-originariness any such ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ has to resolve considerably unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance —<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation for such ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology aestheticisation’ underlying ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising—renewing-realisation/re-perception/re-thought’ to be worth the epistemic-ricochetting/transepistemicity effort, with the preference for any such effort rather directed at the complexification of the prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. This will explain for instance why as of the furtherance in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity’ —of-the-human-institutionalisation-process, the ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology aestheticisation’ with regards to language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human meaningfulness-and-teleology aestheticisation analysis
(and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—\(\text{imbued-and-}

This is reflected inherently in the fact that given human limited-mentation-capacity, human aestheticisation is ever always reactualising/recomposing towards a fully ontologising reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation as of
supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness~of~apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument ~for~conceptualisation; that is, human aestheticisation as from prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation instigation develops by recomposuring as from ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’ to ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’ and then to ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’ with the latter achieving the given registry-worldview/dimension reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation ontologisation/ontological-veracity/aestheticisation-towards-ontology. Basically, human aestheticisation, in reflection of human limited-mentation-capacity and human limited-mentation-capacity-deepening possibility, ever always involves a ‘human disposition in portraying/reflecting/construing existence/ontological-veracity’ as of ‘presencing—absolutising-identitive-constitutedness’ finitism of aestheticisation’ and as of ‘human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint’/‘nonpresencing—<perspective—ontological-normalcy/postconvergence>/transcending infinitism of aestheticisation possibilities’ which then define together the aestheticisation specificity of the culturally cumulated outcomes/outfits/shells—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating,—so-reflected-as-institutional-manifestations explaining why human institutional constructs like language, cultural practices, etc. are inherently of their given cultural specificness. In furtherance of this prospective epistemic-ricochetting/transepistemicity indictment, this author laments a covert practice of an intellection that has been critical of postmodern-thought but in latter years ‘reformulates the implications of postmodern ideas’ as original thought even as such practices supposedly passes their institutional thresholds of admissibility with the caveat though that much of such thought is poorly operant given its ad-hoc depth of knowledge-reification—gesturing—<in—prospective_psychologismic—apriorising/axiomatising/referencing—{of—attendant—ontological—contiguity — educed—existentialising/contextualising/textualising-contiguity }— conflatedness — in {preconverging-disentailment by} — postconverging entailment> process as of disparateness-of-conceptualisation—<unforegrounding-disentailment,—failing-to-reflect—immanent-ontological-contiguity ’> implications, and along the same parrhesiastic prospective epistemic-ricochetting/transepistemicity line this author is very much befuddled of a perverted exercise to undermine the originality of this work supposedly because of the theoretical orientation by a naïve ad-hoc synonymising exercise that this author is very much

articulated herein. Generally, such perversion of thought as it discreetly networks fails society in the long-run when it seems to assume a foreshadowing posture with regards to what can be thought or not thought as of a ‘realpolitiking of thought’ exercise. Such intellectual shadiness of vague highmindedness is no more different from the gross inanity of Ancient-sophists or medieval-scholastic pedants, as of naïve shallow-minded ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation as of a poor sense of intemporalit’y/longness beyond earthly materialism. The transepistemic/epistemic-ricochetting veracity of all singularising/immanenting subject-matters/domains-of-study ‘amplituding/formative–epistemicity’ totalising/circumscribing/delineating

flawed-epistemicity-relativism-determinism that often poorly reflect the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality rather than the contrary approach that delves directly in attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity’ and then reifies-out conceptualisations as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemicity-relativism-determinism. The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very wooden-language-imbued-averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable-void-with-regards-to-prospective-apriorising-implications that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the attendant-ontological-
contiguity-educed-existentialising/contextualising/textualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology’/knowledge as of knowledge-reification–gesturing—<in-prospective psychologismic–apriorising/axiomatising/referencing—{of-attendant ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity} conflatedness—in—{preconverging-disentailment—by}—postconverging-entailment>, as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further expanding on the elucidation/reification of their manifestations as validated or can be falsifiable by ontological-primemovers-totalitative-framework; or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, induces a penchant for flawed intellectually supplementing rhetorisation rather than reification as well as naïve focussing on disparateness of conceptualisations-and-interpretations as of lack or poor constraining ontological-primemovers-totalitative-framework disposition rather than an orientation towards the ‘transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-

The entire project of human meaningfulness-and-teleology is nothing but one of creatively elucidating/reifying existence/existential-possibilities, ‘with no out of existence knowledge project’, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative knowledge-reification–gesturing-in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment-by}–postconverging-entailment>, and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity. reification along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars cross-generationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative knowledge-reification–gesturing–<in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity } —conflatedness —in-{preconverging-disentailment_by}–postconverging-entailment> construal perspective, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originarily/as-of-event available to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative knowledge-reification–gesturing–<in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity } —conflatedness —in-{preconverging-disentailment_by}–postconverging-entailment> <amplituding/formative–epistemicity> causality—as-to-projective-totalititative–implications-of-prospective- nonpresencing,—for-explicating-ontological-contiguity of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to-‘human<amplituding/formative– epistemicity> totalising–purview-of-construal’, with the intellectual’s job to the best of their
abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying-or-elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for knowledge-reification—gesturing—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—conflatedness—in—preconverging-disentailment—and—postconverging-entailment>, inducing successive differences of ontological-performance—including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human—amplituding/formative—epistemicity—totalising—purview-of-construal’ with increasing prospective relative-ontological-completeness’. This is especially the case where such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their knowledge-reification—gesturing—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—conflatedness—in—preconverging-disentailment—and—postconverging-entailment>. Ultimately, and it is herein contended that the various scholarly contributions to postmodern-thought can be understood as rather pointing to the de-mentative/structural/paradigmatic disseminative
implications of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective depocrypticism–or–preempting—disjointedness-as-of–reference-of-thought ontologically-veridical difference-conflatedness-as-to-totalitative-reification-in-singularisation–as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing> as-veridical-epistemicity-relativism-determinism. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism–imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/poria ‘left it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity to ‘continually select’ rational-empiricism/positivism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism–procrypticism human subject is rather undecentered’ relative to the prospective postmodern—notional–depocrypticism self-conscious mindset we fail to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-
enabling/sublimating/supererogatory de-mentativity to ‘continually select’ postmodern—notional-deprocrypticism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory de-mentativity, in the same vain that the ‘non-positivism/medievalism undecentered human subject’ failed to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of prospective positivism/rational-empiricism thought. On the other hand, recurrent conceptual patterning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective–ontological-normalcy/postconvergence-implied-

We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. disentailment–by–postconverging-entailment of prospective relative-ontological-completeness over prior relative-ontological-incompleteness construed as immanence-function-conflatedness. Thus metaphoricity of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-conflatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstition, spiritualism, etc. This same conception holds with the notional–deprocrypticism immanence-function-conflatedness overriding the meaningfulness-and-teleology of procrypticism–or–disjointedness-as-of-reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the notional–deprocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of-reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflatedness implying that all the meaningfulness-and-teleology is necessarily as of the prospective relative-ontological-completeness over the prior relative-ontological-incompleteness; respectively as of positivism and deprocrypticism. If by anticipation we do know immanently that a non-positivism mindset is bound to a non-positivist-as-existentially-superstitious apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of de-mentative/structural/paradigmatic internal-necessity/determinism insight from positivism immanence-function-conflatedness with the obviousness there is no point implying an ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-superstitious inclination, the same implication will extend to

function-confledness\textsuperscript{12} equally highlights knowledge as of its essential organic construct
implications. As an apriorising/axiomatising/referencing-{of-attendant–ontological-
contiguity -educed–existentialising/contextualising/textualising-contiguity }—
constitutedness\textsuperscript{11} in preconverging entailment predisposition tends to imagine that knowledge
is basically a cumulative exercise to an already soundly postconvergingly–de-
mentated/structured/paradigmed mindset, but nothing could be farther from the truth as
knowledge is really an exercise of re-forming-or-reshaping-as-transforming the
postconverging–de-mentating/structuring/paradigming of the mind. In other words, it is rather
vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an
unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God-of-plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior relative-ontological-incompleteness reference-of-thought is an appropriate framework for prospectively implied reference-of-thought knowledge acquisition. Likewise, it is herein contended that similarly a notional-deprocrypticism contortion reifying gesture necessarily questioning our positivism–procrypticism disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility

implied organic knowledge is ever always as of the de-

ontological-completeness -- reference-of-thought as of immanence-function-conflatedness, with the pretence of prior relative-ontological-incompleteness -- reference-of-thought for objectifying/contending discursivity nothing more but flawed \textless \text{amplituding/formative--epistemicity}\textgreater \text{totalising--self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} temporal meaningfulness-and-teleology. The study of the social as of immanence-function-
conflatedness insight grasp that the blurriness, \textless \text{amplituding/formative--epistemicity}\textgreater \text{totalising--self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} and remoteness of cause-and-effect invoke a more refined conception of ontological-
primemovers-totalitative-framework as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability -- or-deferring-falsifiability and validation-or-deferring-validation. It is herein contended that it is the implicitated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and
pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough knowledge-reification–gesturing-in-prospective_psychologismic–apriorising/axiomatising/referencing-\{of-attendant–ontological_contiguity –educed–existentialising/contextualising/textualising-contiguity \} conflatedness in \{preconverging-disentailment by\}_postconverging entailment\> in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential ramifications. This insight equally informs the supplanting-conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism herein that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further knowledge-reification–gesturing-in-prospective_psychologismic–apriorising/axiomatising/referencing-\{of-attendant–ontological_contiguity –educed–existentialising/contextualising/textualising-contiguity \} conflatedness in \{preconverging-disentailment by\}_postconverging entailment\>, as well as of the disposition for advancing overall knowledge-notionalisation level reflecting the ontological-contiguity —of-the-human-institutionalisation-process as to transversality<\texttt{foregrounding–entailment}\(\texttt{postconverging–narrowing-down–sublimation-as-to–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation }^*\texttt{in–reflecting–‘immanent-ontological-contiguity ’; as-operative-notional~deprocrypticism}\) of the ‘de-mentative/structural/paradigmatic disseminative implications of postmodern and other human sublation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing~as-

Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity criticism exactly because of its strong scholarly research-programme attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity knowledge-reification-gesturing.<in-prospective.psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity } conflatedness -in-{preconverging-disentailment by}-postconverging-entailment>, and thus an immanence-function-conflatedness insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein
articulated. In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-threshold, human existential-investment as of its temporality/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity lies in upholding-and-defending authentic intellectualism even as of metaphoricity beyond wooden-language-imbued-averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable-void-with-regards-to-prospective-apriorising-implications socially intelligible meaningfulness-and-teleology conceptualisation in amplituding/formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag.

Metaphoricity as such ironises on social intellectual nihilism as it is bent on undermining any temporality/shortness as of ontological-faith-notion-or-ontological-fideism-imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality solipsistic intemporality/longness parrhesiastic askance, and as of immanence-function-conf朳tedness ‘highlights and keeps wide-opened the prospect’ for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated–temporal-intemporality manifestations that usurp and undermine human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the
animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrypticism social-setup to perceive our positivism–procrypticism humanistic knowledge system as absolute; it is immanence-function-conflatedness by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflatedness insight, the epistemic and methodological pretences as of our humanistic positivism–procrypticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic postconverging–de-mentating/structuring/paradigming as of their ultimate knowledge-reification–gesturing—knowledge; such that the immediacy of contention of appropriateness of epistemic and
methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative knowledge-reification–gesturing—as prospective psychologismic–apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment-by}–postconverging-entailment> as knowledge construed as their research-programmes. This speaks of the fact that such a conception of epistemic commitment as of research-programme is effectively one of epistemic singularisation—<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism so-implied as of ontological-normalcy/postconvergence associated with ontologically-uncompromised—referentialism deprocrypticism; and very much overcoming the limiting effect of our present conception of epistemic commitment as rather dissingularisation—<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness>/epistemic-nonimmanence/flawed-epistemicity-relativism-determinism as of ontologically-compromised—categorising positivism–procrypticism. Thus, if immanence-function-conflatedness reveals that it is the ‘projected research-programme of any given knowledge construct as of its prospective relative knowledge-reification–gesturing—as prospective psychologismic–apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment-by}–postconverging-entailment>’ that is its preeminent epistemic and methodological validation, ‘pretences of pre-given epistemic predispositions’ that do not attend pertinently and similarly to prospective relative knowledge-reification–gesturing—in-prospective psychologismic–apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}-

Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-sublimity/sublimation/supererogatory–de-mentativity wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality.-as-to-‘human-amplituding/formative-epistemicity—totalising-purview-of-construal’ but with contrastive underlying relative-ontological-incompleteness /relative-ontological-completeness

It is quite absurd to think that the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity especially, as of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound knowledge-reification—gesturing—in-

conflatedness—in—{preconverging-disentailment—by}—postconverging-entailment> for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern-day science to develop and just as well modern-day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of
the human subject’ as implied by deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought; and justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Immanence-function-conflicatedness analytical implications equally arise as of the ‘countervailing transversality<for-sublimating–existential-eventuating/denouement>—of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ relation induced as of ontological-primemovers-totalitative-framework between ‘existence/existential-possibilities as the selecting transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity’ and ‘the ever developing human limited-mentation-capacity as of its deepening from relative uninstitutionalised-threshold to relative institutionalisation so-construed as prospective institutionalisation dissemination’, as this transversality<for-sublimating–existential-eventuating/denouement>—of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness as relevant for the protracted-consciousness of notional–deprocrypticism. Thus for such a notion of research-programme as articulated herein rather than just implying mere epistemic latitude/anarchy, it speaks instead of the construal/justification of epistemic-veracity as of precedence of prospective relative-ontological-completeness<amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing—for-explicating-ontological-contiguity, and so as of the de-mentative/structural/paradigmatic implication of singularisation<as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism over

inherently projects a ‘practical picture of human epistemic determination’ of ‘maximal

epistemic level of ‘reference-of-thought—devolving, we can appreciate the massively shrunk epistemic-veracity possibilities available for our present positivism credible construal of

Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity —of-the-human- institutionalisation-process which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to ontological-primemovers-totalitative-framework and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong ontological-primemovers-totalitative-framework and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient wooden-language-{imbued— averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of— meaningfulness-and- teleology -as-of-'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising- implications> epistemic impertinence. Prospective notional–deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological- completeness -of- reference-of-thought associated ontological-primemovers-totalitative-framework, with the implication that our positivism–procrypticism uninstitutionalised-
threshold epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness-as-of-reference-of-thought uninstitutionalised-threshold and superseded by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective notional–deprocrypticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/superrogatory–de-mentativity determinant selector as of the deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought disseminative research-programme coherence and ontological-contiguity. The idea being that the notional–deprocrypticism epistemic-veracity as of such disseminative research-programme coherence and ontological-contiguity equally imply an underlying falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable to amplituding/formative-epistemicity–causality–as-to-projective-totalitative–implications-of-prospective-nonpresencing–for-explicating-ontological-contiguity capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of knowledge-reification–gesturing–in-prospective_psychologismic–apriorising/axiomatising/referencing–of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity conflatedness in {preconverging-disentailment–by}–postconverging-entailment for transcendence-and-sublimity/sublimation/superrogatory–de-mentativity. Such a notional–deprocrypticism epistemic-veracity implication is pertinent because blurriness and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-totalitative-framework, such that it is obvious to all that the epistemic-veracity as of
existence/existential-possibilities selective function of ontological-primemovers-totalitative-framework as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences domain-of-construal-as-intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality-of-affirmative-and-unaaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their apriorising/axiomatising/referencing–of-attendant ontological-contiguity–educed–

Ultimately, the contrastive epistemic—veracity of theoretical and conceptual articulations rather lies with regards to their knowledge—reification—gesturing—in—prospective—psychologism—apriorising/axiomatising/referencing—{of—attendant—ontological—contiguity —educed—existentialising/contextualising/textualising-contiguity }—confledness —in—{preconverging—disentailment—by}—postconverging—entailment as of their critical operant implications and unmuddled conceptions. Furthermore, the notional—deprocrypticism epistemic—veracity implies a further extension of deferential—formalisation—transference as of less predisposition to extended—informality <amplituding/formative> wooden—language—{imbued—averaging—of—thought—<as—to—leveling/ressentiment/closed—construct—of—meaningfulness—and—teleology—as—of—‘nondescript/ignorable—void ’—with—regards—to—prospective—apriorising—implications}>. With the <amplituding/formative—epistemicity> causality—as—to—projective—totalitative—implications—of—prospective—nonpresenting—for—explicating—ontological—contiguity that the deprocrypticism—or—preempting—disjointedness—as—of—reference—of—thought extended—informality requires an organic—knowledge type of pedagogy based on eliciting an ontological—faith—notion—or—ontological—fideism—imbued—underdetermination—of—motif—and—apriorising/axiomatising/referencing—as—so—being—as—of—existential—reality solipsistic sense—of—things, over the usual mechanical—knowledge type of pedagogy which is rather based on eliciting positive—opportunism—of—social—functioning—and—accordance sense—of—things. This is
critical because the notional-deprocrypticism reference-of-thought warrants a more originary/as-of-event mental-disposition ‘beyond just responsiveness to secondnatured institutionalisation’ but equally the capacity to assume dimensionality-of-sublimating
(<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen behind the ‘inventing’ as of reasoning-through/messianic-reasoning with respect to ‘upholding and defending ontological-veridicality beyond constraining-and/or-secondnatured institutionalisation framework’ as well as actually perpetuating prospective ontologically-veridical sublimation-as-of-deprocrypticism-immanented-implications, and so as of a fundamental mental-disposition for perpetually preempting—disjointedness-as-of-reference-of-thought. With the foregoing immanence-function-conflatedness insight, of most critical importance and decisiveness as de-mentatively/structurally/paradigmatically anchoring futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional-deprocrypticism meaningfulness-and-teleology is the need for a notional-deprocrypticism reconceptualised conception of the human construction-of-the-Self. In this regard, we can appreciate critically that hitherto and as of a natural human predisposition to <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a human-subpotency flawed absolutising epistemic reference, and so over an existence-potency—sublimating—nascence,-disclosed-from-prospective-epistemic-digression absolutising epistemic reference, specifically as so-construed from our positivism–procrypticism registry-
worldview/dimension flawed absolutising epistemic reference. The fact that existence/intrinsic-reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the ontological orientation of traditional psychology/psychoanalysis; wherein ‘the human psychology of absolutising epistemic reference is wrongly conceived as of ontological-normalcy/postconvergence rather than as of epistemic-abnormalcy/preconvergence\(^1\)’, considering the necessarily decontorting human-subpotency psyche on the constraint of our ontologically-compromised reproducibility—mathesis/motif/thrownness-disposition—as—reproducibility-of-aestheticisation as of our \(<\text{amplituding/formative–epistemicity} >\text{totalising–thrownness-in-existence}\>^\triangleleft\). The implication here is that we cannot have a human-subpotency flawed absolutising epistemic reference that as of human-subpotency can surpass the ontological-veracity of the full-potency of existence/intrinsic-reality/ontological-veridicality as absolutising epistemic reference as of ontological-normalcy/postconvergence, and so given human-subpotency prior relative-ontological-incompleteness\(^2\) implied flawed prospective ontological-performance\(^3\)-\(<\text{including-virtue-as-ontology}>\). Such a human-subpotency flawed absolutising epistemic reference for ‘meaningfulness-and-teleology\(^4\) can be construed as of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’; as of ‘human-subpotency temporality\(^5\)/shortness flawed absolutising epistemic reference’ as it induces flawed ontological-performance \(<\text{including-virtue-as-ontology}>\) as by its \(<\text{amplituding/formative–epistemicity} >\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\> it ‘wrongly seem to advantageously substitute’ for the potent as intemporal absolutising epistemic reference ontological-performance \(<\text{including-virtue-as-ontology}>\) of existence-potency\(^6\)–sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality. confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-primemovers-totalitative-framework. Thus intemporal ontological-performance ever always warrants huma prospective relative-ontological-completeness-of-reference-of-thought for empowering and responsible meaningfulness-and-teleology for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance’-<including-virtue-as-ontology>
equivalence/correspondence with the full-potency-of-existence’s-sublimating-nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity> totalising–thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory-de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—<as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>}? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance –<including-virtue-as-ontology> as of human <amplituding/formative–epistemicity> totalising–thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. It is this insight that validates the ontological-veracity of the conception of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self’ /ontological-fracturing/desublimation/gimmickiness complex’, and it is inherently so-validated as of

The reality thus is that prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity from a presencing—absolutising-identitive-constitutedness perspective is not actual meaningfulness-and-teleology but rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-teleology mostly as of prospective crossgenerational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-
potency\textsuperscript{13}~\textemdash\sublimating\textemdash nascence,\textemdash disclosed-from-prospective-epistemic-digression \ reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity\textsuperscript{14} anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion\textemdash\textsuperscript{3} as-to-depth-of-ontologising-development-as-infrastructure-of\textemdash meaningfulness-and-teleology\textsuperscript{15}. Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-
thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of wooden-language{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation taking herein as of a strictly ontological-veracity inclination as to the reality of the fact that existence-potency ‘~sublimating–nascence,-disclosed-from-prospective-epistemic-digression supersedes human-subpotency, and it is the latter that adjusts to the former. metaphoricity of the scientific and liberal worldview narrative; wherein for instance such pre-

culturally to the effect of progressing industrialisation as it induced the requisite knowledge,

preconverging–de-mentating/structuring/paradigming of societies. Such an overall prospective
institutionalisation metaphoricity constraining is very much unlike what we may naively
imagine the prior human meaningfulness-and-teleology to be from an after the fact

This points to a more comprehensive reality of human epistemic-veracity arising as of our \(<\text{amplituding/formative—epistemicity}>\) totalising—thrownness-in-existence\(^{(7)}\) with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability\(^{(11)}\) implications as of ontological-primemovers-totalitative-framework\(^{(7)}\), in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology\(^{(90)}\) -in-preconverging-existential-extrication-as-of-existential-unthought\(^{(6)}\) nonpresencing-<perspective—ontological-normalcy/postconvergence> ricochetting that speaks of the de-mentative/structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness\(^{(8)}\) appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or \(<\text{amplituding/formative}>\) wooden-language\(\langle\text{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void ’—with-regards-to—prospective-apriorising-implications>\rangle\) presencing—absolutising-identitive-constitutedness\(^{(13)}\) mindset not dispensing-with-immediacy-for-prospective-ontological-completeness/contemplative-distension, and so in order
to effectively put in perspective the deficiency of epistemic-veracity so-inherent when it comes to prospective metaphoricity\textsuperscript{7} implications of operant prospective intemporal individuation transversality-&lt;for-sublimating–existential-eventuating/denouement-&gt;–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing\textsuperscript{10} intemporal projection as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality for reasoning-through/messianic-reasoning. We can appreciate as well in the bigger scheme of things the ontological-veridicality of this scepticism with regards to any such suprasocial or \textlangle amplituding/formative\textrangle wooden-language-{imbued–averaging-of-thought\textlangle as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology -as-of- ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications\textrangle} epistemic-veracity pretence, as expressed before with respect to Plato’s idea \textsuperscript{11} universalisation involving the undermining of the suprasocial epistemic-veracity pretence associated with sophistry or Descartes’ cogito implications of positivism/rational-empiricism involving the undermining of the suprasocial epistemic-veracity pretence of medieval-scholasticism pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-\textlangle amplituding/formative–epistemicity\textrangle totalising–in-relative-ontological-completeness\textrangle). Just as we can appreciate that in ‘the very same physics \textlangle amplituding/formative–epistemicity\textrangle totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness-of-axiomatic-construct-or-\textsuperscript{1} reference-of-thought, the epistemic-veracity as implied in succession from Copernicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21\textsuperscript{st} century physics is mostly as of ricocheting prospective nonpresencing-\textlangle perspective–ontological-
normalcy/postconvergence. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its de-mentative/structural/paradigmatic meaningfulness-and-teleology as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility for prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework validation-and-falsifiability. Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity/sublimation/supercratory-de-mentativity as of prospective meaningfulness-and-teleology as knowledge on a vague notion of any presencing—absolutising-identitive-constitutedness epistemic-veracity that at the very least doesn’t rise to projectively contemplate and appraise of such prospective meaningfulness-and-teleology as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability. Thus metaphoricity as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-teleology as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology as say the commonality of such metaphoricity inclined re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-imbued-postconverging/dialectical-thinking-‘projective-insights’/‘epistemic-projection-in-confatedness ’-of-notional-deprocrypticism-prospective-sublimation thinkers sharing a common emancipatory metaphoricity mathesis/motif-thrownness-disposition like Socrates, Plato, Aristotle and their schools with their universalisation projection or the Descartes,
comes to assessing the possibility of prospective \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} inducing of metaphoricity\textsuperscript{57}. It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} including our modern period, is a flawed appraisal; as in many ways, beyond our \textsuperscript{4}\textless\textit{amplituding/formative–epistemicity}\textgreater\textsuperscript{33}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold\textsuperscript{103} as of the privileging of conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100}, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} as of prospective notional–deprocrypticism metaphoricity\textsuperscript{67} in our positivism–procrypticism; as its brings to the self-consciousness the reality that the implication of such a notional–deprocrypticism articulation is bordering on the limits/thresholds of our institutional

relationship with ontological-veracity, this is exactly what inevitably validates the articulation of ontological-veracity/ontological-veridicality as more completely involving the displacement/decentering-of-the-human-subject priorly as implied with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative in reflecting the need to undermine human destructuring-threshold-uninstitutionalised-threshold /presublimating–desublimating–decisionality} of-ontological-performance `<including-virtue-as-ontology>` to further advance its constructive/institutionalising/nascent–sublimating–decisionality nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completeness implications; reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thus the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected

apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed— existentialising/contextualising textualising-contiguity }—constitutedness—in {preconverging- entailment} since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness on ontological-veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent ‘logocentric habituated social conditions’ in enabling the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness—
and-teleology right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance -<including-virtue-as-ontology> nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity meaningfulness-and-teleology whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold {uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance -<including-virtue-as-ontology> nature is effectively what underlies in ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrypticism prior relative-
ontological-incompleteness of reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness deprocrypticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding-positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor, in-overcoming—notionally—collateralising—beholding-protohumanity—to—attain-sublimating-humanity—as-to-existence-potency —sublimating—nascence, disclosed-from-prospective-epistemic-digression supersede human temporality/shortness wooden-language amend (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology —as-of—'nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>)); which will explain in many ways the difficulty of the Copernicuses, Galileos, Descartes’, Diderots, etc. so effectively enculturate their budding-
positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-incompleteness\(^9\) human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness\(^8\) notional–deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporality\(^5\)/longness and temporality\(^5\)/shortness as to human limited-mentation-capacity relative ontological-performance\(^7\)-<including-virtue-as-ontology>. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness\(^8\) notional–deprocrypticism that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive\(^1\) universal ontological profundity for analysing everything as of prospective relative-ontological-completeness\(^8\) notional–deprocrypticism herein construed as human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>\(^9\); with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its
practitioners as well as to the freed beyond just the overall social adversarially practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness\textsuperscript{108}/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness\textsuperscript{88} positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is \textsuperscript{104} universally emancipatory as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\textsuperscript{103} (uninstitutionalised-threshold /presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{77}–<including-virtue-as-ontology> nature inherently points out why human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of intemporal metaphoricity\textsuperscript{57} epistemic pertinence doesn’t lie with any inherent suprasocial framework or inherent <amplituding/formative> wooden-language–(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct–of—meaningfulness-and-teleology–as-of–

This destructuring-threshold—{uninstitutionalised-threshold /presublimating–desublimating-decisionality)—of-ontological-performance\textsuperscript{17}—<including-virtue-as-ontology> analysis effectively points to the fact that human akrasia-susceptibility-or-akrasiac-drag complex is such a decisive and determinant notion with respect to the human psyche as the critically interceding notion with respect to human social construction-of-the-Self and as it remains a transitive and constant notion in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{18} as to the destructuring implications at uninstitutionalised-threshold\textsuperscript{103} implied human-subpotency epistemic-or-notional—projective-perspective in dissingularisation—<as-to-the-disjointedness/disenchantment-of-presencing—absolutising-identitive-constitutedness >/epistemic-nonimmanence/flawed-epistemicity-relativism-determinism relative to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression epistemic-or-notional—projective-perspective in singularisation—<as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism. We can appreciate here that the very same epistemic/notional conceptualisation with respect to the human subject as with natural subject-matters elicits in the former high emotional involvement whereas the latter as of its direct <amplituding/formative–epistemicity>causality—as-to-projective-totalitative—implications-of-prospective–nonpresencing—for-explicating-ontological-contiguity elicits low emotional-involvement, but for the case where with regards to high and conflicting human social-stake-contention-or-confliction even the natural domain is not immuned from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-
occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-\{uninstitutionalised-threshold /presublimating–desublimating-decisionality\}-of-ontological-performance\^\textsuperscript{72}-<including-virtue-as-ontology> and as reflected at uninstitutionalised-threshold\^\textsuperscript{103}. As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance\^\textsuperscript{72}-<including-virtue-as-ontology> destructuring-threshold-\{uninstitutionalised-threshold /presublimating–desublimating-decisionality\}-of-ontological-performance\^\textsuperscript{7}-<including-virtue-as-ontology> and uninstitutionalised-threshold\^\textsuperscript{103}, and it is this difficult task of crossgenerational mobilisation that enables the prospective constructiveness-of-ontological-performance\^\textsuperscript{72}-<including-virtue-as-ontology> for human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, institutional-development–as-to-social-function-development and living-development–as-to-personality-development. The implicated passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold\^\textsuperscript{72}-\{uninstitutionalised-threshold /presublimating–desublimating-decisionality\}-of-ontological-performance\^\textsuperscript{72}-<including-virtue-as-ontology> need to be integrated into the very core of such secondnatured formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity\^\textsuperscript{107}—of-the-human-institutionalisation-process\^\textsuperscript{106}; such that prospective social-construct constructiveness-of-

perspective for aetiologisation/ontological-escalation such temporal-dispositions are rather unwarranted and irrelevant since such aetiologisation/ontological-escalation is rather geared towards the prospective relative-ontological-completeness implied social-stake-contention-or-confliction as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming and not the prior relative-ontological-incompleteness social-stake-contention-or-confliction in extricatory/temporal preconverging–de-mentating/structuring/paradigming; and candidly so to the extent that the intemporal-as-ontological dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor, in-overcoming—‘notionally–collateralising-beholdening-protohumanity’–to–‘attain-sublimating-humanity’—as-to-existence-potency ~sublimating—nascence—disclosed-from-prospective-epistemic-digression to supersede human temporality/shortness <amplituding/formative—wooden-language—{imbued—averaging-of-thought<as-to—leveling/ressentiment/closed-construct—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void —with-regards-to-prospective-apriorising-implications}> is not interpreted from a temporal existential-extricatory—as-of-existential-unthought perspective as ineptness warranting the furtherance of temporal-dispositions as of untransvaluated—temporal-intemporality inclination and accompanying sophistic/pedantic complexes as well as to the extent of entailing prospective relative-ontological-completeness. We can appreciate in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy aprorising-teleological-elevation-in-ontological-contiguity beyond recurrent-utter-uninstitutionalisation social-stake-contention-or-confliction as of its ‘<amplituding/formative—epistemicity—totalising/circumscribing/delineating preconverging/dementing—qualia-schema’
in

`totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag`, and likewise with the intemporal projection as of `universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism` and prospectively notional–deprocrypticism over positivism–procrypticism. In this regards, the notion of preconverging-or-dementing–apriorising-psychologism as reflected as of `totalising/circumscribing/delineating preconverging/dementing–qualia-schema' of prior relative-ontological-incompleteness is tied-to and a necessarily associated notion with that of postconverging-or-dialectical-thinking–apriorising-psychologism as reflected as of `totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema' with respect to the possibility of a protracted-consciousness conceptualisation in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process; and as this explains the successive construction-of-the-Self reflected in the `cumulating/recomposuring–attendant-ontological-contiguity > successive registry-worldviews/dimensions. It is the possibility for the human mind to dement as of a `totalising/circumscribing/delineating preconverging/dementing–qualia-schema' by its self-conscious `totalising–renewing-realisation/re-perception/re-thought as of its `totalising–thrownness-in-existence that dementatively/structurally/paradigmatically allows for the possibility of prospective institutionalisation involving the displacement/decentering-of-the-human-subject. Unlike our naïve human-subpotency epistemic-or-notional–projective-perspective inclined to perceive prior registry-worldviews/dimensions in their `totalising/circumscribing/delineating preconverging/dementing–qualia-schema’
and our present positivism–procrypticism with respect to prospective deprocrypticism. The fact is, even the said prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity emancipators across the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process^68 are just as equally relatively enmeshed in many ways with their reference-of-thought old psychology <amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing ’–qualia-schema’ like say Newton’s involvement with alchemy, and the idea of projecting to a prospective ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking^20–qualia-schema’ speaks of a first level of human uninhibitedness/decomplexification that is exactly what allows for human emancipation. This further shows how our seemingly objectified ^80 presencing—absolutising-identitive-constitutedness^11 positivism–procrypticism disposition is all-encompassing as of our <amplituding/formative–epistemicity>totalising/self-referencing-syncretising/circularity/interiorising/akrasiatic-drag^33 when we construe of ourselves as ‘postconverging-or-dialectical-thinking –apriorising-psychologism as of in-the-absolute’ without projecting that just as prior generations of humans were both postconverging-or-dialectical-thinking^20–apriorising-psychologism as of their constructiveness-of-ontological-performance^72–<including-virtue-as-ontology> reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking^20–qualia-schema’ at their relative-ontological-completeness^88 and preconverging-or-dementing^19–apriorising-psychologism as of their destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance^77–<including-virtue-as-ontology> reflected as of ‘<amplituding/formative–

In this regards, as applies with our positivism—procrypticism and so just as with any other prior relative-ontological-incompleteness registry-worldviews/dimensions —<amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignoreable—void’—with-regards-to-prospective-apriorising-implications>) as of their ontologically-flawed identitive-constitutedness(13)—as—‘epistemic-totality’—dereification-in-dissingularisation—<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness—>—as-flawed-epistemicity-relativism-determinism, there has always been an ontologically-flawed inclination that the given registry-worldview’s/dimension’s ‘attendant-ontology—as-of-conventioning-referencing’ in its —<amplituding/formative—epistemicity>totalising—self-referencing—

In other words, unlike we may contemplate as of our positivism/rational-empiricism presencing—absolutising-identitive-constitutedness mindset, the notion of prospective human emancipation wasn’t alien to the recurrent-utter-uninstitutionalisation mindset though such a conception by mental-reflex was projected as of its very own ‘recurrent-utter-uninstitutionalisation attendant-ontology—as-of-conventioning-referencing’ wooden-language

science-ideology and humanism ideology as ‘attendant-ontology—as-of-conventioning-

Ultimately, human \{de-mentation\}\textsuperscript{14} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is the notion underlying human self-consciousness as of construction-of-the-Self all along in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100}'. It all arises from the ‘human capacity for decomplexified/uninhibited preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism’ in order to then ‘prospectively induce originarily/as-of-event\textsuperscript{37} prospective postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism’. In this regards, we can factor in for instance that more critically rather than construing the prospective reification of the humanities and philosophy for instance in terms of breakthroughs along the lines of say exceptional methods or capacity along the lines of our ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’, the reality of any such transcendence-and-sublimity/sublimation/supererogatory–de-mentativity will rather be ‘a more candid face-up with our procrypticism–or–disjointedness-as-of– reference-of-thought’ as herein implied by this author as of the notion of ‘beyond-the-consciousness-awareness-teleology\textsuperscript{100}–<in-preconverging–existential-extrication-as-of-existential-unthought>’ institutional-being-and-craft, muddlement and other intellectual complexes/inhibitions’ that dementatively/structurally/paradigmatically as of a destructuring-threshold-\{uniinstitutionalised-threshold /presublimating–desublimating-decisionality\}-of-ontological-performance\textsuperscript{72}–<including-virtue-as-ontology> cloud/undermine the potential for further intellectual

In other words, the possibility of all huma prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of \^{2} incrementalism-in-relative-ontological-incompleteness\^{3}—enframed-conceptualisation disposition but rather more concretely only after human decomplexing/uninhibiting de-mentative/structural/paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency\^{3}—sublimating–nascence,—disclosed-from-prospective-epistemic-digression level for human emancipation as of \^{4} maximalising-recomposuring-for-relative-ontological-completeness\^{5}—unenframed-conceptualisation; and this is effectively reflected in all cases of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Whether of low or high emotional-involvement, it is inevitably the case that the de-

civil war was unnecessary’, or ‘in many ways the outcome of the French Revolution was far worse than was worth the struggle’. In all these instances, the sophists as of its preconverging-existential-extrication-as-of-existential-unthought with respect to social-stake-contention-or-confliction are ever always inclined to eliciting-of-immediacy-as-of-relative-ontological-incompleteness dereification for <amplituding/formative> wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications⟩ disposition, and when the outcome of reasoning-through/messianic-reasoning dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension accrue prospectively the sophists react as if ‘human progress occurs anyway’ as the idea of a human existential tale perpetuation and its implications is alien to the sophists since all that counts is the immediate now and its temporal/mortal social-stake-contention-or-confliction interests; and worst still, human limitedmentation-capacity in inducing prospectively relative-ontological-completeness as of the weaknesses associated in all human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is held by the sophists against any such reasoning-through/messianic-reasoning for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity—of-the-human-institutionalisation-process as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a
human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness- by-reification/contemplative-distension which is ‘never always the easiest of notion’ for human disposition, especially as this often always implies the displacement/decentering-of-the-human-subject, it is inevitably the case that such ideal as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning’ has to reckon with the temporal social-stake-contention-or-confliction human sophistry eliciting-of-immediacy-as-of-relative-ontological-incompleteness-dereification for disposition meant at stifling the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and so beyond-the-consciousness-
In all such instances as was realised by universalising-idealisation philosophers Socrates/Plato/Aristotle as well as budding-positivists, the notion of dialogical-equivalence as to psychologismic~apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity—conflatedness—in-[preconverging-disentailment by] postconverging-entailment,-in-self-becoming/self-conflatedness/formative–supererogating—and intellectual-and-moral-equivalence is not a given, and as the sophists commit to sophistry the genuine intellectual holds it against the sophists to imply they are effectively of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema’ rather than ‘apriorising-teleological-elevation-in-ontological-contiguity’ to avoid wrongly implying dialogical-equivalence—as to psychologismic~apriorising/axiomatising/referencing-of-attendant—ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity—conflatedness—in-[preconverging-disentailment by] postconverging-entailment,-in-self-becoming/self-conflatedness/formative–supererogating, as the latter notion only arises as of mutual apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in relative-ontological-completeness as of the underlying registry-worldview/dimension reference-of-thought—amplituding/formative—epistemicity—totalising—devolved-apriorising-rule; as there can be no genuine contention between a universalising-idealisation mindset and a sophistic/pedantic ad-hoc/makeshift/nonprincipled—syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for the mere sake of preserving and avoiding the denaturing of the universalising-idealisation meaningfulness-and-teleology or positivising/rational-empiricism meaningfulness-and-teleology. This is more critically the case as the fact is the possibility for prospective human
emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-threshold arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretence of mutually objectifying intellecction between genuine intellectualism and sophistry, which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it essentially is; as with the universalising-idealisation philosophers not wasting their time in pretence of engaging the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled–syllogising mindset or the budding-positivists/rational-empiricists dismissing off-hand pedantic scholasticism. The habituated idea of dialogue/dialogical-equivalence-as-to-psychologismic–apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—conflicatedness -in-[preconverging-disentailment–by]–postconverging-entailment,-in-self-becoming/self-conflicatedness /formative–supererogating> arises as of the mental-reflex that ordinarily all meaningfulness-and-teleology as of a given registry-worldview/dimension is grounded on the same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notwithstanding the existential-instantiation soundness or unsoundness of its devolving aposteriorising/logicising/deriving/intelligising/measuring. But where in the instance of dissimilar apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, despite our habituation, dialogue/dialogical-equivalence-as-to-psychologismic–apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—conflicatedness -in-[preconverging-disentailment–by]–postconverging-entailment,-in-self-becoming/self-

in prior relative-ontological-incompleteness which rather warrants psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring for prospective relative-
ontological-completeness. This is akin to the mathematician opened to mutual calculating
even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance but this only holds with the mathematical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost, fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of ‘meaningfulness-and-teleology as of ontological-veracity is about the ‘reasoning-through transversality<for-sublimating–existential-
eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-

<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-
prospective–nonpresencing, for-explicating-ontological-contiguity; and it is rather different
from a sovereign construct grounded on sovereign choice whether there is ontological-veracity
or ontological-impertinence. The human existential tale as ‘humanity project’ has ever always been one of ‘intemporal ontological-faith-notion-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary-as-of-event reasoning-through/messianic-reasoning’ as implied in the ‘seeding promise of human-subpotency ontological-performance—with-including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence—as-of-its-coherence/contiguity’. The secondnatured institutionalisation constructs as of sovereign institutions and establishment frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification—gesturing—in-prospective_psychologismic—apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educated—existentialising/contextualising/textualising—contiguity—conflatedness—in—{preconverging—disentailment—by}—postconverging—entailment> role and as beyond-the-consciousness-awareness—teleology—in—{preconverging—existential—extrication—as—of—existential—unthought} surreptitiously defining what can be thought or not thought. The fact is such implied underpinning—suprasocial—constructs are mainly secondnatured whether as sovereign representation or establishment constructs, and can easily be caught up in their own <amplituding/formative—epistemicity> totalising—self-referencing—syncretising/circularity/interiorising/akrasiatc—drag in prior relative-ontological—incompleteness with respect to social-stake-contention—or-confliction and are thus not the absolutising framework of human meaningfulness—and—teleology, as the social knowledge-reification—gesturing—in—prospective_psychologismic—apriorising/axiomatising/referencing—of—attendant—ontological—contiguity—educated—existentialising/contextualising/textualising—contiguity —conflatedness—in—{preconverging—disentailment—by}—postconverging—

We can appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning–suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning–suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’ induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-
or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’, is nothing but syncretising/circularity/interiorising/akrasiac-drag which obviously doesn’t register/is-unaccounted internally because (but from the existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notional–deprocrypticism perspective) de-mentatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its defective ontological-performance. The fact is, it is this possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists putting into question their conventioning-referencing meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological
insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} with the emergence of\textsuperscript{104} universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding-positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100}, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100}, that in many ways just as the manifestation of postlogism \textsuperscript{-slantedness} associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall wooden-language\{imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–‘nondescript/ignorable–void ’–with-regards-to-prospective-apriorising-implications\}} and underpinning–suprasocial-construct meaninglessness and teleology\textsuperscript{100} integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism–

The ‘shiftiness-of-the-Self\textsuperscript{92}’ de-mentatively/structurally/paradigmatically defines the given ‘supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument –for–conceptualisation reflected as of singularisation–as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing>–as-of-intemporality\textsuperscript{52}/dissingularisation<as-to-the-disjointedness/disentailment-of–presencing–absolutising-identitive-constitutedness >–as-of-temporality\textsuperscript{99} of the meaningfulness-and-teleology\textsuperscript{100} of a given registry-worldview/dimension implied as of its ‘apriorising-teleological-thresholding–as-teleological-framework/narrative-framework of contextualising/existentialising/instantiative-devolving-meaningfulness’ temporal-to-intemporal ontological-performance\textsuperscript{72}–<including-virtue-as-ontology>. Thus the requisite profoundness/depth of prospective human ‘social-construction of meaningfulness-and-teleology\textsuperscript{100} as of social-stake-contention-or-confliction’ as reflected at

Thus we can appreciate fundamentally that, as reflected in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68}, human ‘prospective intemporal–as-ontologically-veridical/ontological-faith-notion-or-ontological-fideism—imbued—

‘specific bottomline—of-mere-mathesis/motif/thrownness-disposition for the constructiveness of meaningfulness-and-teleology as of its specific construction-of-the-Self’ brought about the coherently universalising construction of meaningfulness-and-teleology with the associated elevated level of ontological-performance—<including-virtue-as-ontology> as manifested with the Socratic method for universal consistency and coherence, Plato’s ideas for universal consistency and coherence and Aristotle’s qualifying-categories and universalising-syllogism for universal consistency and coherence; thus superseding/transcending the ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset as of base-institutionalisation mere rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism ‘shiftiness-of-the-Self’. This self-consciousness/construction-of-the-Self notion is what deflates such ‘issues implied with regards to human sovereign options/choice or freewill’ and ‘issues of natural determinism beyond human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-Self as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology implies ‘induced human potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, however, supposed a similar situation.
arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (as the relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is dementatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance—<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-
subpotency ontological-performance<including-virtue-as-ontology>-equivalence/correspondence with the full-potency-of-existence’s-sublimating-nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity>totalising–thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory–de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩⟩? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance<including-virtue-as-ontology> as of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of
meaningfulness-and-teleology. The overall implied notion of ‘intemporality’-asymmetric-

Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and living’ in the non-positivistic social-setup as ‘grandest living’ but rather the maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation ‘of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective. There is nothing inherently wrong with achievement motives across all registry-worldviews/dimensions conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. However, with regards to a prior registry-worldview’s/dimension’s denaturing of ‘meaningfulness-and-teleology’ so construed prospectively, whether as of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism, such motives are necessarily superseded-and-overridden or subsumed-as-
supplanted or transvaluated in the bigger picture of human eternalising aspiration as of the intemporal/longness-of-register-of—meaningfulness-and-teleology—individuation mental-disposition of ‘inventing’ the successive becoming possibilities in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as inducing successively base-institutionalisation, universalisation, rational-empiricism/positivism and prospectively deprocrypticism; as going by ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing—psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ across retrospective and by implication prospective registry-worldviews/dimensions. so-construed prospectively are rather more pertinent) in order to ‘invent’ prospective deprocrypticism, rather reflecting intellectual absurdity; and speaking rather besides a natural weakness of human incapacity that can arise and do arise as a result of our limited-mentation-capacity rendering us unconscious/unaware/as-of-the-poorer-halves-of-ourselves which is fathomable/understandable, of a graver problem if that was to be the case even when we then ‘understand’, of intellectual-and-moral irresponsibility of failing/not-upholding-as-of-apriorising/axiomatising/referencing to do our own ‘homework’ with respect to our forerunners in the bigger notion of the human species continuous emancipation. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposuring) as from recurrent-utter-uninstitutionalisation to modern-day positivism–procrysticism and prospectively deprocrypticism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory preconverging–de-mentating/structuring/paradigming relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the wooden-language-imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology } as deterministic thus subknowledging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the
uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing—apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’. But then transcendental constructs of meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as transcendental meaningfulness-and-teleology involves psychical and institutional recomposuring of high contrariety implications to human temporality/shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as all knowledge is not about being responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity of an intersolipsistic nature. It is equally important to grasp that transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the
‘transcendental origination of the \textsuperscript{8}reference-of-thought of the knowledge’ (whether as base-institutionalisation, \textsuperscript{10}universalisation, positivism or prospectively notional–deprocrypticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from \textsuperscript{5}incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation naivety, as if a given institutionalised \textsuperscript{8}reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior \textsuperscript{5}reference-of-thought–categorical-imperatives/axioms/registry–teleology with the prospective one for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) \textsuperscript{5}maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation \textsuperscript{4}amplituding/formative–epistemicity totalising–renewing-realisation/re-perception/re-thought, in contrast to a naïve \textsuperscript{1}incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the \textsuperscript{8}reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking \textsuperscript{8}reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing- of-
attendant ontological contiguity –educed existentialising/contextualising/textualising-contiguity }—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising
~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising
~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of 
reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding<as-of-apriorising/axiomatising/referencing> to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as ‘reapraisals of 
reference-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of 
reference-of-thought that enabled it to be as of the present 
reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the 
reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness
-of-
reference-of-
thought. Hence it is rather ontological-completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-sUBLIMITY/sublimation/sUPEREROGATORY-de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-sUBLIMITY/sublimation/sUPEREROGATORY-de-mentativity of retrospective registry-worldviews/dimensions reference-of-thought but equally with the implication of transcendence-and-sUBLIMITY/sublimation/sUPEREROGATORY-de-mentativity for prospective registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-normalcy/postconvergernce. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) hence speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-
existential-unthought. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of lawfullness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrypticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory preconverging–de-mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity ontological-primemovers-totalitative-framework induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemporality-asymmetric-subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-
completeness-of-reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in notional–deprocrypticism apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—conflicatedness—in-{preconverging-disentailment–by}–postconverging-entailment and so over procrypticism disjointedness-as-of-reference-of-thought denaturing and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing. Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>'—existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness-of-reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-

Since the state of exhibiting a demonstrated perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation annuls temporal-dispositions’ implied logical-dueness/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology\textsuperscript{100} as ‘logically contending’; from a pure ontological-veridicality perspective, more like a medieval mind with a superstitious registry-worldview-reference-of-thought\textsuperscript{-categorical-imperatives/axioms/registry-teleology}\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation doesn’t has the implied-profile-or-implied-stature and the implied-presumptuousness-or-implied-arrogation to logically contend about the ontological veridicality of an accusation of witchcraft with a relatively suprastructuring positivistic mental-disposition). This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal

Paradoxically, this is the fundamental strength of psychopathy, i.e. to get the normal prelogism\textsuperscript{79}-as-of-conviction,-in-profound-supererogation\textsuperscript{79}<-existentially-veridical-'attendant-intradimensional-\textsuperscript{<}apriorising/axiomatising/referencing'-logical-dueness-precedes-disontologising-logical-outcome-arrived-at\textsuperscript{97} mind to wrongly elevate psychopathic \textsuperscript{84}meaningfulness-and-teleology\textsuperscript{100} as of veridical ‘attendant ontological contiguity\textsuperscript{<}educed–existentialising/contextualising/textualising-contiguity\textsuperscript{>’ rather than reflect the reality of its ‘formulaic \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100}’ which is ‘meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’. So when we talk about psychopathy we are talking \textsuperscript{7}perversion-of-\textsuperscript{<}reference-of-thought\textsuperscript{<}as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{>\textsuperscript{> rather than logical defect (defect of logical operation/processing/contention). This distinction is critical. Why? Basically, meaning is what defines/predicates value, thought and action. Meaning has two elementary aspects: \textsuperscript{84}reference-of-thought or axioms or categorical-imperatives \textsuperscript{7} (reflected-as-soundness-or-ontological-good-faith/authenticity\textsuperscript{<} of-reference-of-thought, by the prospective relative-ontological-completeness\textsuperscript{98} of-reference-of-thought and logic (logical-operation/processing/contention/implication-of-act-execution, and so, ‘fundamentally and validatorily’ on the basis of sound \textsuperscript{84}reference-of-thought–
categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in the very first instance). Meaningfulness is thus essentially about the ‘operation of reference-of-thought as-of-its-veracity/ontological-pertinence as-soundness-or-ontological-good-faith/authenticity\textsuperscript{99} of reference-of-thought’, with logic/logical-processing basically about the operation of reference-of-thought as rules as of intrinsic-reality—ontological-coherence_or_superseding—oneness-of-ontology validated as of established ontological-veridicality/intrinsic-reality/existential-reality. Otherwise stated, meaning has reference-of-thought’ reflecting its being/ontological/existential veridicality, and logic as an operation of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity\textsuperscript{67}—educed—existentialising/contextualising/textualising-contiguity\textsuperscript{39} based on the meaning’s implied reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100} valid only inasmuch as the reference to the ‘registry elements’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{100} is ‘existentially’ established. *Critical for ontological-veridicality of meaningfulness and knowledge, the relatively ontologically-complete—reference-of-thought defines what is meaningfulness as of its ‘soundness-or-ontological-good-faith/authenticity’—of-reference-of-thought’ construed as ‘postconverging—or-dialectical-thinking\textsuperscript{20}—apriorising-psychologism and centered understanding’ over the relatively ontologically-incomplete—reference-of-thought as of its ‘unsoundness-or-ontological-bad-faith/inauthenticity’—of-reference-of-thought’ construed as ‘preconverging—or-dementing—apriorising-psychologism and decentered understanding’. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising—reference-of-thought-elements/apriorising—registry-elements, and thus falsely implying the apriorising—reference-of-thought-elements/apriorising—registry-elements of implied—logical-dueness-or-
scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity-of-reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity-of-reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought-registry elements to start with as not of being/ontological/existential veridicality’. But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied-reference-of-thought-registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology is rather obvious and we don’t normally process/operate logically the childhood psychopathy’s non-veridical hollow mimicking narratives since ‘we just invalidate those apriorising-registry-elements to start with as not of being/ontological/existential veridicality’. For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of meaning’ (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘attendant-ontological-contiguity–educed-existentialising/contextualising/textualising-contiguity sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while
utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness’ as of its unsound- reference-of-thought/unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought/mental-perversion) as he simply engages his unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought by way of distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing> and then reflect the reference-of-thought or registry-teleology of John as perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> or mental-perversion in terms—as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology. In so doing determines that John is ‘manifesting a mental defect’ and more so, not an ad-hoc defect—of-logico-logical-processing-or-logico-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance, but rather registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—<as-Being-or-ontological-or-existential—defect> that speaks to how John may act in many other similar situations, i.e. epistemic-decadence (notional-discontiguity/epistemic-discontiguity <shallow-supererogation -of-mentally-aestheticised—preconverging/dementing—qualia-schema—as-of-epistemic-decadence in hollow-constituting<as-disjointed-misappropriation—of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking<iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’>) by the denaturing of the reference-of-thought or the soundness-or-ontological-good-faith/authenticity -of- reference-of-thought of meaning over which denaturing he tries to get interlocutors to operate/process logic; and ‘is not even contending and that he is the subject of prelogism—as-of-conviction,-in-profound-supererogation—<existentially-veridical—‘attendant-intradimensional—

psychologism narratives. This points to a *perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation* > basically or a registry-worldview denaturing (when it comes to a registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory-de-mentativity). The dialecticism involves *de-mentation*–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics),-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence pointing to the skewing (‘intemporality-asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) for intemporalisation/institutionalisation over the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor individuations in transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’, and enabling ontological-escalation or aetiolisation as ‘metaphorical principle for an infinity/a-million-and-one-instances-and-locales’/aetiolisation/ontological-escalation. The underlying fact about ‘meaningfulness-and-teleology’ is that the apriorising–registry (as the individual grounding of the *reference-of-thought of the social-construct registry-worldview/dimension*) precedes logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right and sound in abstract terms but does the apriorising–registry (*reference-of-thought*) apply?, i.e. The faulty-mentation-procedure-deception-or-
urge\textsuperscript{2} is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing\textsuperscript{15} of the elements of the apriorising–registry as of \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} which are: implied–logical-dueness-or-implied-scape (the implied–logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology\textsuperscript{100} (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge\textsuperscript{12} but none to do with logic, but everything to do with the denaturing\textsuperscript{15} of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity \textsuperscript{64}reference-of-thought, i.e. slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing\textsuperscript{19}–of-narratives! So with the psychopath, you don’t watch the logic, you watch out for the reference-of-thought/apriorising–registry for mental-perversion or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{64}–of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > do protract and an ignorant prelogism\textsuperscript{2}–as-of-conviction,–in-profound-supererogation –<existentially-veridical–

It should be noted that both psychopathic postlogism\(^8\) and conjugated-postlogism\(^{78}\) cases of unsoundness-or-ontological-bad-faith/inauthenticity\(^{64}\)–of reference-of-thought (as slanted and cohering-slanted, respectively), by their ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness\(^{89}\)—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold\(^{103}\), involve ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness in arrogation by the fact that taken singularly from the same interlocutor in different circumstances, each (hollow-constituting\(<\text{as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation}>\) narrative is apparently coherent but ‘construed together as of the retracing of set-of-narratives’ these reveal ‘unsoundness-or-ontological-bad-faith/inauthenticity\(^{64}\)–of reference-of-thought as preconverging-or-dementing\(^{10}\)–apriorising-
interlocution engagement is a perpetuation’ explaining why the conjugated-postlogism\textsuperscript{8} mental-disposition is one of ‘slanted-cohering/conjoining’ as it rather further integratively rationalises the latest iterated narrative as an elucidation rather than a further preconverging-ordementing\textsuperscript{9}–apriorising-psychologism of adult psychopath/postlogism\textsuperscript{78} (as obvious with the child psychopathy ‘delirium effect’ as it slants and re-slants on the initial slanting in an absolving-logic/fleeting-logic/escaping-logic reflex); and, the falsely projected \textsuperscript{84} reference-of-thought implied-elements of logical-dueness-or-implied-scape/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology\textsuperscript{10}, create a new foundation for further preconverging-ordementing\textsuperscript{9}–apriorising-psychologism when wrongly eliciting in an interlocutor \textsuperscript{54} logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-\textbf{supererogation} issue, such that one salient manifestation of conjugated-postlogism arises with many of such an interlocutor vaguely articulating propositions based on such falsely ‘apriorising–\textsuperscript{24} reference-of-thought-elements/apriorising–registry-elements (out of \textsuperscript{attendant–ontological-contiguity}–educed–existentialising/contextualising/textualising-contiguity‘\textsuperscript{85} <reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context>‘). The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism \textsuperscript{84} reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their \textsuperscript{84} reference-of-thought into the positivistic terms with their successive contentions (due to \textsuperscript{4} amplituding/formative-epistemicity–totalising–self-referencing-syncretising/circularity/interiorising/akrsiatic-drag\textsuperscript{7}), as their ‘reference-of-thought remains rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability’, and in the big picture in all likelihood can only
be ‘weaned from’ crossgenerationally as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Likewise the ‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of- incrementalism-in-relative-ontological incompleteness’ — enframed-conceptualisation-inducing-the-uninstitutionalised-threshold{as-procrypticism}, thus equally implying a <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag circularity/recurrence/repetition/repeatability of the reference-of-thought as of the uninstitutionalised-threshold or procrypticism–or–disjointedness-as-of- reference-of-thought. Thus the central notion for preempting psychopathic postlogism and conjugated-postlogism is the ‘retracing of their sets-of-narratives as of attendant–ontological-contiguity– educed–existentialising/contextualising/textualising-contiguity —<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context>’. That revealing unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought of the traces of sets-of-narratives is analogous to resolving a list of BODMAS equations where the solution of the first equation is a variable of the second equation and whose solution is a variable of the third equation whose solution is a variable of the fourth; and where the first equation is fundamentally flawed (as of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument flaw, for instance), systematically the three other equations will be wrong whether by (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) mental-disposition to resolve the equation of the traditional arithmetic principles as reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation–

It is important to grasp that the mechanism of SLANTING as of compulsive-slanting—preconverging-or-dementing—apriorising is actually about ‘denaturing postlogic-backtracking—<iterative-looping—set-of-dereifying-hollow-narratives-and-acts—successive-shifting-of-the-narratives-and-acts-foci—deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for the psychopath to be slanted/‘cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge’ (entitlement folie/folie raisonnable) as opposed to a logical motivation of a supplanting—
conviction-as-to-profound-supererogation of-`attendant-intradimensional`

postconverging/dialectical-thinking –apriorising-psychologism or prelogic mental-disposition.

It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the normal process of prelogism\(^7\)-as-of-conviction,-in-profound-supererogation `<existentially-veridical–`attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at>` logical articulation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/disontologising-perverted-outcome-sought-precedes-existentially-veridical–`attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing\(^15\) postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation `-or-prelogism\(^7\)-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing\(^15\) postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation `-or-prelogism\(^7\)-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if this latter narrative is proven to be false (as it is another \(^75\) perversion-of-\(^34\) reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>` or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge\(^42\) not being the
logic itself, but in wrongly implying as existentially real the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity)<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought—devolving-as-of-instantiative-context’)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on such false axioms. Thus, with respect to postlogism generally what is critical for the psychopath/postlogic-mindset is to be seen as being prelogic supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism even if it is a perception of ‘poor or bad supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism’ since that will validate the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity)<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought—devolving-as-of-instantiative-context’)’ on the basis that it was the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation that was wrong hence the possibility and credibility not to question the reference-of-thought/apriorising—registry/categorical-imperatives/axioms and to re-engage logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by ‘prelogism—as-of-conviction,—in-profound-supererogation”

The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation—or-prelogism—basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-profound-supererogation to or prelogism, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking<iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'> as absolving/fleeting/escaping-reflex—logic among different set-of-interlocutors (this is simply because postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> operates by extrinsic Attribution, i.e. who can I convince to make my argument right as per ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness’ unlike postlogism as prelogism
which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (which is an unusual and rare social experience given that a psychopathic personality and postlogism\textsuperscript{78} in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> are an outlying phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (due to the ‘lack of constraining social\textsuperscript{104} universal-transparency\textsuperscript{105} (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) as inducing vices-and-impediments\textsuperscript{106} which will then make it alienating) or a ‘fool-me-once-phenomenon’ where there is a relative insight on postlogism\textsuperscript{78} in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> from some interlocutors with no more commitment given the inconsistency of the hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>\textsuperscript{77} as absolving/fleeting/escaping-reflex–logic, in time speaking to the fundamental mental denaturing\textsuperscript{15} involved in postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, and so for the shallowness of the postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> the extrinsic-attribution inclination is in constant need for new
mind is ignorant of the slanted mental state of the psychopath. The general and complete operative psychopath mechanism (it isn’t necessarily completed in all manifestations as is rather a ‘mental roaming/drifting-cycle disposition known as postlogism-retreating’ that carries on depending on how the situation permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s socially-perceived-value as of social-stake-contention-or-confliction target (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition

The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-elaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging). In fact, it is often the case that such line of rather
‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism in their ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ (pointing to vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging), and can be an advanced insight of a ‘psychopathic/postlogic and social psychopathic/conjugated-postlogism situation’, construable with an appropriate maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. This mirrors the operant case highlighted further below, wherein the implied meaningfulness (of postlogic/psychopathic, conjugated-postlogism /preconverging-or-dementing -integration and supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism mental-dispositions) is existentially-traced as of the circularity/recurrence/repetition/repeatability as to existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_attendant-ontological-contiguity—deduced—existentialising/contextualising/textualising-contiguity ‘-reification_or_intrinsic-reality—ontological-coherence_or_superseding—one-of-ontology to establish ontological-veridicality, and not simply operating on the ‘naïve supposition of universal human prelogism-as-of-conviction, in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at>’ without factoring the ‘postlogism mere-formulaic slanting compelling–nonconviction/madeupness/bottomlining’ (<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity >; in-shallow-supererogation ’<as-to-disontologising-perverted-

It is important to note that the psychopath’s targeting is highly evolutive throughout its life (along human personality development stages) as ‘socially-perceived-value as of social-stake-contention-or-confliction’ with others arise and ‘the possibility of going undetected’ permits. The psychopath being ‘out-of-phase’ is pushed by a faulty-mentation-procedure-deception/urge/folie raisonante, and the idea of psychopath’s having a grand plan/an overall scheme in its actions is ridiculous and unfounded (this idea again, is due to prelogism”/as-of-conviction,-in-profound-supererogation”/existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at⟩ mental-alignment or in-phasing or prelogism” to the last narrative(s) of the psychopath and rationalising prelogically/by-essence/candor all its previous ‘denaturing” postlogic-backtracking-”/iterative-looping–‘set-of-dereifying-hollow-narratives-and-acts’” -with–‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as–‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase’ over ‘the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ instead of mentally aligning postlogically/by-form/slantedness/distractive-alignment-to”/reference-of-thought-”/of-apriorising/axiomatising/referencing” before reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) a protracted unsoundness-or-ontological-bad-faith/inauthenticity ”/reference-of-thought/insanity). among some as extrinsic-attribution (praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.) is the basis for the targeting of another or others, further compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or less effectively most of our formal setups, their sociological pertinence is actually far from established, but for the fact that broad and large general education diminishes social egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the more common mental-disposition in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology ) including the ‘informal spaces’ of formal setups, with the result that this is a further factor that makes psychopathy poorly graspable as simply of individual denaturing\textsuperscript{15} dynamics rather than of social denaturing\textsuperscript{15} dynamics, thus better construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level of individuals intuition about the underlying dynamism of the postlogism\textsuperscript{78}-as-of\textsuperscript{10} compelling–nonconviction/madeupness/bottomlining-(‘<decontextualising/de-existentialising–of–attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising’–of–the–‘attendant–intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant–ontological-contiguity >;<in–shallow–supererogation –<as–to–disontologising-perverted–outcome–sought–precedes–existentially–veridical–‘attendant–intradimensional–apriorising/axiomatising/referencing’–logical–dueness>) mental-disposition (going by experience), and then their sense of abstraction or gullibility or disposition to bandwagon effect with respect to a critical aetiologisation/ontological-escalation. (The implication here is that, for instance, it will be very naïve for an investigation involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors). Hence, the above phenomenon is further compounded in increasing profoundness (i.e. where the psychopath’s childhood delirium gives way to an adulthood
think it has got anything to lose personally), ‘negatively opportunistic’ (as it occasionally finds
a temporal-self-interest in backing the psychopath, even though it knows better), ‘negatively
exacerbatory’ (as it gains some insight in the psychopath’s mental process and actually strives
to copy it adhocly, as a successful way of going about one’s temporal-self-interest). There is
equally a social dynamism aspect wherein the issue of ‘social allegiance, affordability and

‘social-chainism or negative-social-aggregation or social-discomfiture’ which in turn (because
individuals find ‘apparent social success and conventioning/social-temporal-thresholding’ in
such social behaviour) leads to the ‘temporal endemisation/enculturation of social

psychologism>. Ontologically, this requires an altogether PURIST and UNCOMPROMISING
intemporal/ontological conceptualisation of such a-comprehensive-social-temporal-
hodgepodging which is rather ontologically-discontinuous. This author qualifies as
procrypticism preconverging-or-dementing –apriorising-psychologism, and so as
‘ONTOLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emanant template of
institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding-<as-of-apriorising/axiomatising/referencing> slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting—preconverging-or-dementing\textsuperscript{19} -apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking<iterative-looping-set-of-dereifying-hollow-narratives-and-acts>-absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\textsuperscript{9}) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge\textsuperscript{12} for postlogic slantedness’ in a given social space during its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-urge\textsuperscript{2} for postlogic slantedness to attain an apparent normal social equilibrium or socially-functional-and-accordant\textsuperscript{94} state within any given social space as it develops into adulthood’. It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting—conviction-as-to-profound-supererogation—of ‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-
veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought/slantedness become harder to perceive; - INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner); - SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound); - CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-to-profound-supерerogation’—of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting–conviction-as-to-profound-supерerogation’—of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing–apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-dementing–apriorising, etc. oince it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding—as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality-asymmetric-subsumption-of-temporality’), for relative
intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism-slantedness is not socially-universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-

So basically, as social-and-confliction-stakes develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.)
generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-contention-or-conflicion' context and time might play a role in making its social consequences benign or aggravated. But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-contention-or-conflicion’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising–reference-of-thought-elements/apriorising–registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex–logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-mentation-procedure-deception-or-urge points to the fact that the slanted child psychopathy mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from attendant–ontological-contiguity–educted–existentialising/contextualising/textualising-contiguity–<reifying-or-elucidating-of-prospective-relative-ontological-completeness–of-reference-of-thought–devolving-as-of-instantiative-context>, which is what validates

However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting–conviction-as-to-profound-supererogation \(\text{——of-’attendant-intradimensional’-postconverging/dialectical-thinking} \text{—apriorising-psychologism} \)
postconverging/dialectical-thinking — apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality'/shortness (when there is no social universal-transparency —\{(transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative—epistemicity>totalising—\} of our acts at ‘uninstitutionalised-threshold’ thus there is not ‘intemporal social universal-transparency\{(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness\} of notional—firstnaturedness—temporal-to-intemporal-dispositions—\{so-construed-as-from-perspective—ontological-normalcy/postconvergence\} disambiguation/unequivalences/alienative-hierarchisation,’ thus creating an ‘induced-ring-of-gyges-effect/solipsistic—point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ derived from the psychopath’s initiated postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>). That is, abstractly, with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' humans do solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold’, from the temporal-dispositions of slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor solipsistic abstract temporal-dispositions that pervade the temporal-dispositions of slantedness (the psychopath), with institutionalisation/intemporalisation and formalisations with corresponding internalisation of values or secondnaturing. However, at circumstances where the institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the ‘extended-informality—\{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology\}’, then ‘a induced-ring-of-gyges-

‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when
‘successful’ (and not perceived deliriously but rather wrongly integrated prelogically/in-
conviction-as-to-profound-supererogation) will often perfectly elicit an ‘induced-ring-of-
gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-

social-construct such that others will find it to their temporal self-interest to perpetuate, whether
circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can
rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the
psychopath’s initiated postlogism in hollow-constituting as-disjointed-misappropriation-of-
meaningfulness-and-failing-intemporal-preservation (involving protracted/derived
slantedness), in the absence of social universal-transparency ⟨transparency-of-totalising-

as the ‘uninstitutionalised-threshold’). Hence psychopathy when studied dynamically is
rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology) or temporal (shortness-of-register-of–meaningfulness-and-teleology), hence its relation to sociopathy which is a more generalised notion of social vices-and-impediments. The social psychopathy phenomenon (in describing the underlying abstract nature of man before institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and universal projection rules in an ‘ontological entrapment’ exercise to undermine/override temporal-dispositions subknowledging/mimicking, by virtue of its ontological-primemovers-totalitative-framework and overall medium to long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of human transcendence-and-sublimity/sublimation/supernormality–de-mentativity/civilisation, in an intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, from a recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge\((\text{preconverging-or-dementing-as-if-of-sound-knowledge})\)/pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the future institutionalisation/intemporalisation this author qualifies as notional–deprocrypticism (preempting procrypticism, so construed by ‘notional–deprocrypticism ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking/-differentiation-as-of-supratransversality-in-sublimating–existential-eventuating/denouement–of-motif-and-apriorising/axiomatising/referencing’). That is,
psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology of the various institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledge of the reference-of-thought–categorical-imperatives/axioms/registry-teleology behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology’). To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality-for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing as from ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology are ‘inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledge/mimicking-and-protracted-mimicking with no relationship to intrinsic reality
entropy-as-of-ontological-normalcy), and prospectively, - procrypticism–or–disjointedness-as-of-reference-of-thought (slanted perversion-of-reference-of-thought-as-preconvergently-apriorising/axiomatising/referencing-in-

cumulation/institutional-recomposure-as-to-history/ontological-

above gives coherence in conceptualising a continuity in the human emanant/becoming
anthropological experience; as putting into perspective and not excepting any particular stage of
institutionalisation/intemporalisation, as we might tend to do by focussing on the present
positive registry-worldview which is just the backend in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-
institutionalisation-process, while ignoring the ‘effective and causative intemporal-disposition

transcendental/psychoanalytic-unshackling process’, which skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory–de-mentativity) ‘the cross-section of
human entropic being’ in the medium to long run towards intemporal-disposition preservation
while undermining temporal-dispositions. Such a depth-of-thought as projected by the
‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojecting/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-recomposure-⟨as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’⟩⟩’ with us being inherently exceptional (it is the transcendental/psychoanalytic-unshackling process of undermining perversion-of- reference-of-thought-⟨as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation⟩ that is). Hence ‘our homework’ is to articulate our very own perversion-of- reference-of-thought-⟨as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation⟩ for the possibilities
of the future, and not strive to arrive at a normalcy of ‘our temporal-preservation-as-pseudointemporality’-preservation’ which speaks of inherent relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism’; as-it-is-thus-‘in-wait’-for-‘perversion-of-‘reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’–or-temporal-preservation-as-pseudointemporality’-preservation, with respect to ontological-normalcy/postconvergence as we get at our ‘uninstitutionalised-threshold’; instead enabling ‘intemporal preservation’ (by oblongating/decandoring/distractive-alignment-to-‘reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing’ of our mental-devising-representation as a registry-worldview defect/perversion of positivistic categorical-imperatives/axioms known as procrypticism preconverging-or-dementing –apriorising-psychologism, for a prospective anticipation and preemption of this known as ‘deprocrypticism’)! It should be noted that while ‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process of human institutional transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposured peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently
reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional-deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>}\ preconverging/postconverging–de-mentating/structuring/paradigming implications, as utilising the postconverging–de-mentating/structuring/paradigming outcome of previous institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>}\ effort. Hence dimensionality-of-sublimating {<amplituding/formative>supererogatory-de-

instigation recurrently inducing the institutionalisation/intemporalisation process (which is not an analogical notion but a contiguous notion as to ontological-contiguity7) by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across institutional-cumulation/institutional-recomposure–{as-to–historiality/ontological-eventfulness/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’>}

rather so-reflecting ontological-contiguity as to human limited-mentation-capacity-deepening wherein existence’s ontological-contiguity67 construable as to nonpresencing–<perspective–ontological-normalcy/postconvergence> epistemic-projection is not beholdening to human limited-mentation-capacity at any given moment) applies universally across space and time (beyond any given registry-worldview’s/dimension’s institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemporalisation like deprocrypticism. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure–{as-to–historiality/ontological-eventfulness/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’>}) analysis) is not, as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous meaningfulness-and-teleology100 reference’ (given the contiguity in the ‘precedingness/supersedingness/ascendancy-and-continuity of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation referencing’ across all cumulating/recomposuring institutionalisations); i.e. memetic contiguity as the underlying principle of memetic-reordering which is the ‘contiguous dynamism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the continuous transdimensional/transcendental relation of
intemporal and temporal-dispositions’ at uninstitutionalised-threshold, and so, across all cumulating/recomposing institutionalisations whether from a retrospective, present or prospective perspective. Psychoanalytic-unshackling/memetic-reordering/institutional-recomposing process can then be defined as arising when a registry-worldview’s/dimension’s {cumulated/recomposed}-consciousness-awareness-teleology is transcended/superseded as to human limited-mentation-capacity-deepening, at its uninstitutionalised-threshold involving-organic-comprehension-thinking in contrast with threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation

procryptic uninstitutionalised-threshold, and conjugate this in meaningfulness by going beyond just logical operation/processing/contention of narratives but rather in the first instance introducing the notion of ‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation’ to avoid wrongfully operating/processing of logic by the reference-of-thought of the intemporal-disposition–reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontological (i.e. is in sync with intrinsic-reality/veridicality), where the effective registries are actually temporal-dispositions thus to be construed as of their temporal references-of-thought. It involves de-mentation—(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) temporal-dispositions manifest denaturing and thus to avoid elevating temporal-dispositions to intemporal logical contending status as this result in the miscuing of meaning as of notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised–preconverging/dementing –qualia-schema>—notional–deprocrypticism institutionalisation/intemporalisation takes stock of the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor; as successive circular/recurrent/repetitive/repeatable iterating preconverging constructs, and not as may wrongly be reflected by the natural reflex to be postconverging constructs, to emphasise the ‘dominance/supersedingness/suprastructuring of the intemporal-disposition skewing (‘intemporality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity)’ for the fulsome articulation of ontology as ‘utter (postconvergence) ontological-

As a corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of notional–deprocrypticism institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency –< dysliteracy-<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness > of ‘knowledge-notionalisation’ (knowledge as understanding not only of the ideal/intemporal but equally how the temporal/defective works distractively, to anticipate and preempt the latter perverseness but doing so rather in a superseding ontologically-minded manner) and intemporal skewing (‘intemporality -asymmetric-subsumption-of-temporality ’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference as virtue and (postconvergence) ontological-veridicality/ontological-contiguity; in contrast to the hotchpotching of notional-discontiguity/epistemic-discontiguity –<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema> of temporal-dispositions and particularly in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-

So because knowledge-notionalisation recognises that in a specie of notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence individuation dispositions, deferential-formalisation-transference which is the bases for institutionalisation/intemporalisation by skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) for the supersedingness/lead of the intemporal-disposition individuation is responsible for elevating human uninstitutionalised-threshold across the successive institutional-cumulation/institutional-recomposure as to historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism by the resultant formalisation and internalisation involved in institutionalisation explaining effectively the dialectical evolution from deeper primitivites/mental-out-of-phasings to the present state (limited-and-shallower-human- mentation-capacity to limited-but-deeper-human-mentation-capacity) as a result of the inherent ‘intemporal-prioritisation-of-reference-of-thought’—as-conflatedness—or-ontological-reprojecting skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity)/deferential-formalisation-transference for intemporalisation/institutionalisation, and the implications prospectively. For instance, the uninstitutionalised-threshold for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism-or-medievalism and our positivism—procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-
normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in a recurrent-utter-uninstitutionalised registry-worldview. Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-notional–firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>—implications which is more than just reactionary to the possibility of temporality/shortness (shortness-of-register-of—meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of thought’ (intemporality as longness-of-register-of—meaningfulness-and-teleology) that takes abstract cognisance of temporality/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-uninstitutionalised-threshold to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation’, notional–deprocrypticism going by ontological-normalcy/postconvergence implies a mental-devising-representation of ‘non-thresholding meaningfulness as transdimensional/transcendental-meaningfulness or memetic refinement (or a postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-

Thus fundamentally preconverging-or-dementing—apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity—reference-of-thought does not arise because of failure of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation but rather because of failure of reference-of-thought as of perversion-and-derived—perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. This is unlike the case where logical-engagement of mental-devising-representation as ‘postconverging-or-dialectical-thinking—apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity—reference-of-thought is still relevant where there is failing/not-upholding—logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation (like calculating the answer of an arithmetic operation wrongly) so long as the reference-of-thought is sincerely/genuinely working in adherence to arithmetic axioms to produce the right answer. This doesn’t invalidate the notion that Y can still engage X as ‘possibly-of-postconverging-or-dialectical-thinking’—apriorising-psychologism’/possibly-of-soundness-or-ontological-good-faith/authenticity—of-reference-of-thought in contending (appropriateness-of—reference-of-thought-as-of-conflicatedness) with respect to another arithmetic operation, that is, possibly after pointing out to X where they went wrong in their operation of arithmetic. While threshold–of-nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to—attendant-intradimensional—prospectively-disontologising—preconverging/dementing—apriorising-psychologism> performs subsequent acts of-similar-or-protracted-contextualisation to their prior acts verified to be of threshold–of-nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to—attendant—intradimensional—prospectively-disontologising—preconverging/dementing—apriorising-psychologism> are priorly projectively invalidated by reflex as ‘possibly-of-preconverging-or-dementing’—apriorising-psychologism’/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity—of-reference-of-thought and not ‘possibly-of-postconverging-or-dialectical-thinking’—apriorising-psychologism’/possibly-of-soundness-or-ontological-good-faith/authenticity—of-reference-of-thought in implying the ‘revoking of their sound reference-of-thought status’.

To illustrate, suppose X above rather slyly and deliberately (preconverging-or-dementing—apriorising-psychologism mental-devising-representation) miscalculated (non-ontological-reference/non-contending-reference) the answer (in notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally—

are at their given institutionalisation levels on the basis of a memetic/suprastructural-meaningfulness analysis or a transcendental/transdimensional-meaningfulness analysis, the notion of socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation actually initially applies intradimensionally in all registry-worldviews/dimensions and it is actually the ‘intemporal/ontological signal’ for the need of prospective transcending/superseding due to ‘failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intradimensional ontologising/intemporal-preservation’. Insightfully, we can grasp the ‘intemporal/ontological signal’ pointing to a socially-betraying-threshold-of-ontologising-depth-of-analysis with regards to a dimension’s/registry-worldview ‘preconverging-or-dementing’—apriorising-psychologism phenomenon’ like psychopathy and social psychopathy (with respect to procrypticism or perversion-of-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of positivistic meaningfulness) or accusations and notions of sorcery (with respect to medievalism); as this has to do with human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor individuations dispositions wherein intradimensionally, the ‘socially-betraying-threshold-of-ontologising-depth-of-analysis’ (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation or threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing—apriorising-psychologism>) is rather an overall registry-worldview/dimension pervasion-of-reference–
‘postconvergence/preceding/superseding nature of intrinsic reality’ which ‘doesn’t recognise’ nor is involved in temporal-and-social-trading with the mortals that we are to establish ontological-reference and ontological-veridicality instead of betraying ontologising/ontological-depth-of-analysis/intemporal-preservation thus inducing prospective institutionalisation/intemporalisation by positive-opportunism—of-social-functioning-and-accordance and the intemporal percolation-channelling-<in-deferential-formalisation-transference> of such emancipation/transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Thus for instance with regards to adult psychopathy and the induced social psychopathy, it will be naïve to simply analyse on a dichotomous basis of psychopathy and its violation of social norm, with the idea that psychopathy is associated with temporal-dispositions destructuring-threshold\[\{\text{uninstitutionalised-threshold} / \text{presublimating–desublimating-decisionality}\}\]—of-ontological-performance\[\langle\text{including-virtue-as-ontology}\rangle\] ‘as of the positivism–procrypticism registry-worldview’s/dimension’s socially-betraying-threshold-of-ontologising-depth-of-analysis’/socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (in conjugation to ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) and it is naïve to simply analyse on the basis that other interlocutors have an intemporal/ontological disposition, in the very first instance. Thus the need, in order to attain such a prior requisite ontological/intemporal insight, to ontologically construe (as to deferential-formalisation-transference) contexts of psychopathy and social psychopathy (and generally contexts of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\[\langle\text{as-to-}

respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals-and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable
nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this respect, one can cite at individuals-levels instances of many a human interest story tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance what is the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably due to grave and unprincipled mismanagement with profound social repercussions. The implied intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, contrasted with a temporal extricatory preconverging–de-mentating/structuring/paradigming, is necessarily the prospective transcending/superseding registry-worldview/dimension. Consider the case of contending about a perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation like accusations and notions of sorcery in a non-positivism/medievalism setup where there is no intradimensional intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming given the obliviousness to a positivistic ontological-reference-of-veridicality/contending-reference-of-veridicality as it is suprastructural/beyond the registry-worldview’s/dimension’srecomposured-consciousness-awareness-teleology to non-positivism/medievalism. Likewise the positivistic meaningful
frame is oblivious to its procrypticism, and corresponding resolution as notional–deprocrypticism as the prospective/transcending/superseding ontological-reference-of-veridicality/contending-reference-of-veridicality. Further, this notion of registry-worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘postconverging-or-dialectical-thinking\(^*\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ aligned with ontological-normalcy/postconvergence is what escapes and provides for grander emancipatory possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking\(^*\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/{cumulated/recomposured}-consciousness-awareness-teleology\(^*\) in reference (as ‘tentative references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived \(^*\)meaningfulness-and-teleology\(^*\) thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that aligns with and is driven by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wherein ontological-normalcy/postconvergence is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. Ontological-normalcy/postconvergence (as to epistemic relative-ontological-completeness\(^*\)) abstractly refers to any relevant/implied registry-worldview/dimension that is

one speaks not only of act defects but registry-worldview/dimension defects at this socially-
betraying-threshold-of-ontologising-depth-of-analysis to the fact that such ‘of-similar-or-protracted-contextualisation’, from an ontological-normalcy/postconvergence insight that is preceding/superseding to any hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> of shallow limited-mentation-capacity (as of relative apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—constitutedness—in-preconverging entailment), will elicit a same defect disposition thus the need to fundamentally undermine reference-of-thought of the registry-worldview/dimension at that uninstitutionalised-threshold that endemises/enculturates the ontological-or-existential-defect due to its socially-betraying-threshold-of-ontologising-depth-of-analysis. It should thus be noted that the preconverging-or-dementing—apriorising-psychologism of reference-of-thought of a registry-worldview/dimension implicitly reflects a defective/sub-par relative state-of-conceptualisation in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (a fundamentally defective/sub-par state-of-disposition) with respect to ontological-normalcy/postconvergence, as can be demonstrated by ontological-reconstituting—as-to-conflatedness/deconstruction, (and has nothing to do, as-being-caused-by, with an inducing phenomena of ‘perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ as to preconverging-or-dementing—apriorising-psychologism’ behind say sorcery and psychopathy; even though such phenomena tend to instigate and reveal the inherent defect/sub-par nature of registry-worldviews/dimensions with respect to ontological-normalcy, with the need for ontological-reconstituting—as-to-conflatedness/deconstruction). In other words, the state of being non-positivism/medievalism with respect to ontological-normalcy/postconvergence is already a defective state ‘in-wait as of prior relative-ontological-incompleteness—of—reference-of-
thought defective reference-of-thought–categorical-imperatives/axioms/registry-teleology for issues of superstition/lack-of-rational-empiricism to arise whether we talk of sorcery, bodily mutilations and their effects, charlatanisms, etc. Likewise, it will be naïve to imply that our registry-worldview as positivism–procrypticism is in absolute sync with ontological-normalcy/postconvergence by the mere fact that we are at the backend of the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>{as-to-conflatedness/deconstruction (of our notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature)’ how procryptism (preconverging-or-dementing–apriorising-psychologism as to mere-formulaic positivistic meaningfulness-and-teleology) in a positivistic registry-worldview de-mentatively/structurally/paradigmatically endemises psychopathy and social psychopathy. Insightfully, for a grander grasp of ontological-normalcy, the notion of institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’}> and their related conceptualisations are not just ad-hoc in nature but of ‘existentialism/full-depth-of-existential-implications form-factor’; which is fundamentally defined by ontological-normalcy/postconvergence (going by shallower-limited-mentation-capacity to deeper-limited-mentation-capacity), in reflecting the precedence/supersedingness of intrinsic-reality/ontology to which an ‘animal’ comes-to-and-re-compose-with-cumulatively by ontological-reconstituting–as-to-conflatedness/deconstruction (which is the critical subsuming mechanism
for re-establishing \(^{64}\) reference-of-thought and ontological-veridicality/ontological-contiguity\(^{7}\) as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, above and beyond the simple hollow-constituting-

This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the human limited-mentation-capacity-deepening\(^{13}\) induced institutional-cumulation/institutional-recomposure\(\langle\text{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing}<\text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism}\rangle\), and inherently implies ‘a \(^{10}\) universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’; which define their specificities and potentials which are basically abstractly of a same ‘human form-factor’, with regards to the reality of their notional-firstnaturedness—temporal-to-intemporal-dispositions\(\langle\text{so-construed-as-from-perspective–ontological-normalcy/postconvergence}>\) and the existential implications on every registry-worldview/dimension thereof, though of differing ‘snowballed recomposuring’ of meaningfulness and reference-of-thought. Ontological-entrapment (as a deterministic point of reference that defines dialectical-out-of-phasing/dialectical-primitivity registry-worldview/dimension, and thus avoiding any confusing effects to analysis of the \(^{14}\) de-mentation\(\langle\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}>\) of \(^{14}\) de-mentation\(\langle\text{supererogatory–ontological–de-mentation-or-}

Fundamentally, the reason for all the dimensions/registry-worldview perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as limited-mentation-capacity-deepening has to do with the veracity/ontological-pertinence of our notional–firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective–ontological-normalcy/postconvergence as individuations of shortness-to-longness-of-register-of—meaningfulness-and-teleology, such that whenever relatively sound reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are institutionalised/intemporalised, human temporality in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation individuation dispositions (at uninstitutionalised-threshold) will tend to relate, by limited-mentation-capacity-deepening, to this as hollow/formulaic constraining deterministic constructs which have to be exploited by the mere determinism-of-form about how others will act (hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) rather than the essence as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation being sought originally by the institutionalised/intemporalised reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (ontological-reconstituting—as-to-conflatedness). This fundamental dilemma of the cross-section of human mentation disposition is ‘a lost cause’, given the reality of the notion of a shortness-to-longness-of-register-of-meaningfulness/notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence inherent in a limited-mentation-capacity-deepening; any resolution is not by wrongly implying any ‘dimensionality-of-sublimating’—(<amplituding/formative>supererogatory-de-
transformation’ but rather institutionalisation/intemporalisation by its inherent eliciting of positive-opportunism—of-social-functioning-and-accordance to the grander cross-section of society in the medium to long-run wherein intemporal-disposition/longness-of-register-of-meaningfulness-and-teleology individuation dispositions by artifice/institutionalisation/intemporalisation come to constrain-or-dominate the social-construct (over temporal-dispositions/shortness-of-register-of-meaningfulness-and-teleology-or-hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation individuations dispositions); with corresponding percolation-channelling-in-deferential-formalisation-transference facilitating the perpetuation of such intemporal enculturation even when such positive-opportunism—of-social-functioning-and-accordance gets weaker with grander institutionalisations/intemporalisations, and so as the grander human the-good. This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipatory potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism! Rational-realism (as to prospective deprocrypticism) as such involves rather elucidating distinctive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing/decandoring with three de-mentative/structural/paradigmatic teleologies: - subknowlding-impulse/compulsive-dementing temporal-disposition (psychopath), with ‘slanted mechanical narratives’ (preconverging-or-dementing-apriorising-psychologism-stranded-as-rightfully-
oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); - subknowledging\textsuperscript{95} -temporal-dispositions-teleologies (the-various-temporal-dispositions-teleologies), with ‘banal mechanical narratives discomfiture’ (preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); and - the intemporally given and ontologising teleology\textsuperscript{100} which ontologically reflects/perspectivates the subknowledging\textsuperscript{94}-impulse/compulsive-dementing\textsuperscript{19}-temporal-disposition-{psychopath} and the subknowledging -registries-teleologies (the-various-temporal-dispositions-teleologies), from a ‘organic-comprehension-thinking depth as the \textsuperscript{14}dementation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) backdrop of new recomposuring \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Thus at the uninstitutionalised-threshold\textsuperscript{93}, it is counterintuitive for temporal-dispositions not to perceive their registry-worldview/dimension as ‘untranscendable’ (acting as if in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation while actually in temporal preservation-as-pseudointemporality\textsuperscript{84}; hence dementable/no-longer-thinking) due to <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present/mirage as metaphysics-of-presence\textsuperscript{13} which blinds the temporal-dispositions to the registry-worldview’s/dimension’s ‘intemporal preservation discontinuity’ as a result of the \textsuperscript{84}perversion-of- reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as-of-unsoundness–or-ontological-bad-faith/inauthenticity\textsuperscript{64}–of–reference-of-thought-defects (and not logical defect) of compulsive-slanting—preconverging-or-dementing \textsuperscript{19}–apriorising (psychopath) and the consequent derived –miscuing, disjointed-logic, logical-drag, unconscionability-drag, and
sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation; arising from the conjugation with the relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to-’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism’ whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism. The reason why this is critical to grasp is that the veridical intemporal-disposition preserving emanance has to ‘organically and existentially pass-through'/reflect/perspectivate the registry-worldview/dimension perversion-of- reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as to preconverging-or-dementing–apriorising-psychologism for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring on the basis of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. * It is not an ‘avoidable luxury’ as it is the necessary transcendental element in establishing the backdrop for transcendance-and-sublimity/sublimation/supererogatory–de-mentativity/prospective-institutionalisation. Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transcendance-and-sublimity/sublimation/supererogatory–de-mentativity (occurring at the registry-worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal perversion-of- reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > existential mental orientation to avoid postconverging-or-dialectical-thinking–apriorising-psychologism-
<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> (for example, no ‘God-of-plane’ for say an animistic mental orientation that sees gods and spirits as causative, i.e. avoiding to operate the meaningfulness-and-teleology of a transcendent registry-worldview/dimension in terms–as-of-axiomatic-construct of the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the transcended registry-worldview/dimension). This starts with the would-be transcendence-and-sublimity/sublimation/supererogatory–de-mentativity inducing intellectual(s)/emancipator(s) ‘owns reflexive individuation maximalising-as-transcendental liberation/emancipation’ from the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of such prior registry-worldview/dimension from which it/they necessarily come from as well as not heeding generalised-social-temporal-preserving-mental-inclinations; and so, consistently crossgenerationally since transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/institutionalisation is ‘beyond just logical argumentation/contention’ as it points to ‘being-or-ontological existentialism/full-depth-of-existential-implications structure defect’ (defect of reference-of-thought/soundness-or-ontological-good-faith/authenticity–of-reference-of-thought, and so beyond logical defect). It is more like (a knowledge-driven/not impression-driven) ‘intemporal preservation recomposuring need or memetic-reordering/psychoanalytic-unshackling’ for institutionalised/intemporalised being/ontology over recurrent-utter-uninstitutionalised, universalised being/ontology over ununiversalised, positivistic being/ontology over non-positivism/medievalism and prospectively deprocryptic being/ontology over procryptic–or–disjointedness-as-of-reference-of-thought. The dynamism of social psychopathy and the perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-

Basically, the psychopath is involved in postlogic-backtracking<-iterative-looping-`set-of-dereifying-hollow-narratives-and-acts'>^27 in a committed drifting-circularity/roaming (of non-veridical dialectically-or-contendingly-out-of-phase narratives ‘it wants to falsely represent veridically’), leading to temporal-dispositions slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect (contrasted to ontologising/intemporal conventioning-rationalising) and temporal-enculturation/temporal-endemisation effect, and these, hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, conjoining and conjugating to temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, and fundamentally referenced from base ontologising effectivity (intemporal preservation); in ephemeral/temporal and ontologic/intemporal contrast, thus reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the denotation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of temporal-dispositions denaturing of social psychopathy (subknowledging/mimicking) arising from initiating phenomenal psychopathy (subknowledging impulse) involving a distractive-alignment-to- `reference-of-thought-<of-apriorising/axiomatising/referencing>^29 construal (as the backdrop of new recomposuring reference-of-thought– categorical-imperatives/axioms/registry-teleology^100,-for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation and ultimately enabling its

This way of hermeneutic/reprojecting/supererogating/zeroing ‘ontological reasoning’ to arrive at ‘intemporal-or-ontological meaning’ that is beyond any totalising–self-referencing-syncretising/self-centered/present-consciousness/illusion-of-the-present/mirage mental projection within just a given registry-worldview/dimension so as to ‘grasp fundamental intemporal-disposition as of the inherent nature of existential-reality’ is central to the notional–deprocrypticism registry-worldview/dimension as a doppler-thinking exercise known as suprastructuralism. Suprastructuralism is grounded on ontological-normalcy/postconvergence insight and places

a knowledge construct, whether social or physical, beyond just positivistic categorisation of
knowledge but as ‘ontological-normalcy/postconvergence referentialism as of intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation ontology’. Thus, the doppler-
thinking exercise of suprastructuralism enables the conceptualisation/construal of
institutionalisation-or-intemporalisation-or-intemporal-preservation-entropy-or-contiguity–or–
optological-preservation in grasping the denaturing of ‘reference-of-thought–categorical-

[Referentialism involves a reference-of-thought (so-characteristic of the prospective

‘existence of things in existence’ whereas apriorising/axiomatising/referencing–{of-attendant–
ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—

conflatedness—in-{preconverging-disentailment-by}–postconverging-entailment rightly implies ‘things becoming in existence rather as subsumed-in-existence in a superseding-oneness-of-ontology’; so because apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—constitutedness—in–preconverging-entailment takes a simplistic shot at construal/conceptualisation of existential-reality practically presuming this to be ‘effectively absolutely real and final’ but then with human limited-mentation-capacity-deepening this is erroneous hence the need for re-categorisation/re-adaptation/re-classification as ‘re-constitutedness’ of reference-of-thought’ perpetually when aware of its deficiency. apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in-{preconverging-disentailment-by}–postconverging-entailment takes a shot at construal/conceptualisation of existential-reality from an open-ended insight/fugue as of referentialism from the more profound ontological-normalcy/postconvergence of existential-reality factoring in human limited-mentation-capacity-deepening as of metaphysics-of-absence-{implicit-epistemic-veracity-of- nonpresencing—<perspective–ontological-normalcy/postconvergence>}, and as implied by the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that goes beyond <amplituding/formative> wooden-language-{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing –narratives—of-the- reference-of-thought– categorical-imperatives/axioms/registry-teleology } which are continually put into question, by being open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence
implicated-epistemic-veracity-of-nonpresencing-perspective-ontological-normalcy/postconvergence)/postdication. Thus, apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-constitutedness-in-preconverging-entailment} will wrongly induce virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, and so, with more and more profound defective construal/conceptualisation consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-constitutedness-in-preconverging-entailment} in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as an attendant resetting resolution for the induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness of axiomatic-construct/reference-of-thought’ (by elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity) that will then require another attendant resetting resolution for the subsequently induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness of reference-of-thought’ down the line when aware of its further critical defect again (though, in a sense the entire recomposuring process could be qualified as a ‘practical presencing—absolutising-identitive-constitutedness’ exercise). But then the inherent nature of existence in relation to human limited-mentation-capacity-deepening construal of it is one of evasiveness as implied by the ‘imbricatedness/threadedness/recomposuring as of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-

The implication is beyond just the notion of knowledge construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the de-mentative/structural/paradigmatic basis of categorisation scheming are equally the de-mentative/structural/paradigmatic basis of the inherent analysis and meaningfulness-and-teleology\(^{10}\) construed/conceptualised. construal/conceptualisation as soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-deepening, can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-deepening determining its prospective relative-ontological-completeness-of-reference-of-thought, as enabled by the ‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’> which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic deambulation’ harkens back to that of human registry-worldview’s/dimension’s institutionalisation by its socially-functional-and-accordant thresholds of notional-firstnatures—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective-ontological-normalcy/postconvergence> further redefining the possibility of uninstitutionalised-threshold as the threshold for failing/not-upholding the institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology and the possibility of prospective institutionalisation as renewing reference-of-
thought—categorical-imperatives/axioms/registry-teleology for upholding intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-of-presence-{implicated-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness }, the present registry-worldview’s/dimension’s reference-of-thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in secluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of reference-of-thought. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness-reference-of-thought emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that is counterintuitive to a stigmatic/mented psychology as conceptualised today. As we come to recognise that such an approach renders the meaninglessness-and-teleology as value-reference of every registry-worldview/dimension at the backend of the institutional-cumulation/institutional-recomposure (as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’>) as the absolute determinant of what can be psychology, with a naivety that doesn’t allow consciously, (as consciously decentering and pivoting with respect to human psychical and institutionalisation implications), for prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity, as it doesn’t factor in the said registry-worldview/dimension prior relative-ontological-incompleteness of reference-of-thought to then project that there may be a prospective relative-ontological-completeness of reference-of-thought which meaninglessness-and-teleology as value judgment transforms psychological-construal/psychologism. The best possible outcome in this regard is as of the construal of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as it establishes prospective relative-ontological-completeness of reference-of-thought by social universal-transparency (transparency-of-totalising-entailing, as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) as of

This insight about the nature of a mented/stigmatic psychology compares with the instance about a Kantian absolute apriorising/axiomatising/referencing exercise; in that in both instances, human mentation capacity is construed as absolutely given at all times, with that mentation capacity rather ‘reflexively and erroneously’ absolutely construed as of the positivistic mindset/reference-of-thought, and what is not factored in is the fact that there is a human limited-mentation-capacity that maximalisingly-recomposes as of human shallow-to-deepening–limited-mentation-capacity,~as-limited-mentation-capacity-deepening inducing the cumulating/recomposuring–attendant-ontological-contiguity-successive registry-

The point of this statement is that when procrypticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence—(implicit-epistemic-veracity-of- nonpresencing—perspective–ontological-normalcy/postconvergence), the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrypticism meaningfulness-and-teleology will be represented as decentered and in de-mentation—or-dialectical–de-mentation—stranding-or-attributive-dialectics as the necessary/requisite backdrop for the construal of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation ushering in notional–deprocrypticism as prospective institutionalisation. In this regard, we’ll certainly inherently relate to preceding successive uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered
and in de-mentation\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics\}, though this will most probably be resisted with respect to such a representation of our denaturing of positivistic meaningfulness as our prospective procrypticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-threshold by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in de-mentation\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\}); while we can recognise successively the centered and postconverging-or-dialectical-thinking–apriorising-psychologism nature of base-institutionalisation, universalisation and positivism, though probably less so of notional–depocrypticism institutionalisation as it points to the decentering and de-mentation\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\} of our procrypticism uninstitutionalisation. Such institutionalisation and uninstitutionalised-threshold construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by the concepts of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment–by}–postconverging-entailment as of centering and postconverging-or-dialectical-thinking–apriorising-psychologism reference-of-thought implied with institutionalisations and apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging-entailment as of decentering and ontologically/preconverging-or-dementing–apriorising-psychologism reference-of-thought implied with uninstitutionalised-threshold; prompting the respective institutionalisation and uninstitutionalised-threshold psychologisms as of the apriorising/precedingness of attendant—
reflecting this reality beyond and above our subpar amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reference-of-thought as of the apriorising/precedingness of attendant ontological-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context> reflecting this reality beyond and above it from the positivism perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as decentered and in de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) of an uninstitutionalised-threshold is hardly just one of ‘simplistic knowledge elucidation’ but rather an elucidation as of intellectual courage in bluntly asserting decentering and de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics). Intellectual courage as imbuing knowledge with organic profoundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is ‘no magical knowledge technicality’ for implying a more profound ontological-completeness-
of reference-of-thought over a relatively relative-ontological-incompleteness -of reference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset -of reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating/supererogatory de-mentativity rather than a conventioning sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is ‘altogether not a knowledge elucidation problem’ with respect to the implied representation of uninstitutionalised-threshold as decentered and in de-mentation (supererogatory–ontological–de-mentation–or–dialectical–de-mentation—stranding–or–attributive–dialectics) but rather a ‘psychological complex issue’ of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in ‘psychologism terms as of amplituding/formative–epistemicity–totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its more profound attendant ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–<reifying–or–elucidating–of Prospective-relative-ontological-completeness–of–reference-of-thought–devolving–as–of–instantiative-context>; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism reference-of-thought is not about the inherent knowledge implications to which the non-positivism/medievalism mindset/ reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation
psychologism (<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought foundation as new placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology) requisite knowledge or
meaningfulness-and-teleology reference-of-thought. Such equally applies with respect to notional–deprocrypticism prospective institutionalisation relative to our procrypticism uninstitutionalised-threshold. In other words, prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is construed not in terms–as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic ontological-primemovers-totalitative-framework outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms–as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discrecional contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is grounded on such an underlying reference-of-thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discrecional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating ontological-primemovers-totalitative-framework outcomes means the medieval
or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology\textsuperscript{99} conjure up explanations/'meaningfulness-and-teleology'\textsuperscript{100} in terms–as-of-axiomatic-construct of its non-positivistic medieval alchemic or non-positivistic animistic reference-of-thought psychologism; as it is naïve to think that implied organic-knowledge as of prospective institutionalisation transcendence-and-sublimity/sublimation(supererogatory-de-mentativity requiring its own reference-of-thought psychologism can simply be construed as ‘mechanical-knowledge’ while still upholding/keeping the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought psychologism, as the organic-knowledge rather points to ‘validating ontological-primemovers-totalitative-framework'\textsuperscript{2} outcomes as its mechanical-knowledge aspect but further requires a development of the discrentional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the knowledge’, grounded rather on such a prospective institutionalisation psychologism as its ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of ‘meaningfulness-and-teleology'\textsuperscript{99} synopsising-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding—oneness-of-ontology’, and not the prior/superseded/transcended uninstitutionalised-threshold\textsuperscript{103} psychologism. Such organic-knowledge gets institutionalised to an extent by the habituation as of circularity/recurrence/repetition/repeatability\textsuperscript{7} of the mechanical-knowledge implied reference-of-thought of 'meaningfulness-and-teleology'\textsuperscript{100} as of crossgenerational psychoanalytic-unshackling involving <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{5} towards the ultimate crossgenerational alignment to the prospective/transcending/superseding registry-worldview
reference-of-thought, as a positivistic registry-worldview. Interestingly, and so across all successive institutionalisations, what tends to be lost ‘the failure to register fully that the ‘intemporal-disposition projecting mental-disposition’ behind ontological-primemovers-totalitative-framework validating the institutionalisation of ‘mechanical-knowledge’ is rather the ‘vitality aspect’ of organic-knowledge and it is ‘not a passive dispensation’, just as well that the ‘temporal mental-dispositions’ superseded towards attaining the ‘mechanical-knowledge’ is ‘not simply a passive distraction’ with the insight that there is a contiguity as of temporal-to-intemporal mental-disposition relative to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across all the <cumulating/recomposuring—attendant-ontological-contiguity >-successive registry-worldviews/dimensions as at all their uninstitutionalised-threshold temporal-individuations—shortness-of-register-of—meaningfulness-and-teleology are a drawback to transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (by adherence to ‘amplituding/formative wooden-language—imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology } of prior/transcended/superseded registry-worldviews/dimensions’ inducing their successive threshold—nonconviction/madeupness/bottomlining-in-shallow-supererogation \langle as-to—attendant-intradimensional’—prospectively-disontologising—preconverging/dementing —apriorising-psychologism⟩, and critically so as across all registry-worldviews/dimensions postlogism leads to a characteristic mental-disposition at their uninstitutionalised-threshold of deception—of-concurrently—false-presupposing/false-presuming/false-premising-of-narratives and the consequent derivation, due to induced ‘lack of constraining social universal-transparency—\langle transparency—of-totalising—entailing—as—to—entailing—amplituding/formative—
procrypticism terms of psychologyism is inevitably denaturing as of ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective; as it is in need of the organic-knowledge of the prospective institutionalisation psychologyism or notional-deprocrypticism psychologyism as apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—conflicatedness—in {preconverging-disentailment by} postconverging entailment (conflation psychologyism) on the basis of the ‘referentialism technique of point-referencing (explained elsewhere), which involves ‘contrastive temporal-to-intemporal synopsising-depth from a notional-deprocrypticism perspective’ that re-establishes attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought devolving-as-of-instantiative-context and in so doing undermines the relatively defective terms of ‘positivism-procrypticism uninstitutionalisation psychologyism’ (disjointedness-as-of-reference-of-thought) and setting up ‘notional-deprocrypticism organic-knowledge institutionalisation psychologyism including the discreitional contemplative as of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality aspect in preempting—disjointedness-as-of-reference-of-thought or upholding jointedness’, as de-mentatively/structurally/paradigmatically transcending the overall vices-and-impediments of positivism–procrypticism registry-worldview/dimension. The Nietzschean metaphor ‘God is dead’, as of
human emancipation, is one whose validity can only be countenance where it implies the

In other words, suprastructuralism (as of its referential and ontological-normalcy/postconvergence emanance perspective and as a doppler-thinking exercise) ushers in a whole new comprehensive registry-worldview across the entire social construction-of-meaning called deprocrypticism, much like positivism did over non-positivism/medievalism or universalisation over ununiversalisation or base-institutionalisation over tter-uninstitutionalisation. Central to such ‘a universal notion of deprocrypticism’ is the idea of an utter-recomposuring-ontologising by upholding ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, involving postdication with postdicatory techniques and postdicatory mindset/ reference-of-thought in reflection of the suprastructural and ontological-normalcy/postconvergence nature of intrinsic-reality (more like the positivistic registry-worldview is all about existential positivistic conceptualisations, positivistic techniques and basic positivistic mindset/ reference-of-thought superseding existential alchemic conceptualisations, alchemic techniques and a basic alchemic mindset/ reference-of-thought that defined the non-positivism/medievalism registry-worldview/dimension); involving ensuring intemporal-disposition organic-comprehension-thinking that upholds-and-is-the reference-of-thought for ontological-contiguity /ontological-veridicality, over threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising- psychologism> by temporal-dispositions meaningfulness hotchpotching disjointing/disparateness/disentailing’ as perverted-and-derived-perverted-reference-of-thought and induces notional-discontiguity/epistemic-discontiguity <shallow-
apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument. In the bigger picture of human institutional transcendence-and-sublimity/sublimation/supererogatory-dementativity, this is very much in line with the transcending/superseding of human uninstitutionalised-threshold \( T \) ‘with increasing cumulation of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity’ that defined the successive institutional-cumulation/institutional-recomposure\( \langle \text{as-to-} \rangle \) specificities as: existential base-institutionalising with base-institutionalising techniques and base-institutionalising mindset\( \langle \text{as-to-} \rangle \) reference-of-thought (Base-institutionalisation); existential universalising with universalising techniques and universalising mindset\( \langle \text{as-to-} \rangle \) reference-of-thought (Universalisation); existential positivising/rational-empiricism with positivising techniques and positivising mindset\( \langle \text{as-to-} \rangle \) reference-of-thought (Positivism); and prospectively ‘existential ontologising’, and so beyond its conventioning \( T \) incrementalism-in-relative-ontological-incompleteness\( \langle \text{as-to-} \rangle \) enframed-conceptualisation disjointedness-as-of\( \langle \text{as-to-} \rangle \) reference-of-thought as of temporal-accommodation of positivistic meaningfulness, as ‘existentially utter postdicatory ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, with postdicatory methods and techniques and an overall postdicatory mindset\( \langle \text{as-to-} \rangle \) reference-of-thought (deprocrypticism). Existential ontologising is effectively the human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology aspiration towards a fulsome grasp of intrinsic-reality/full-ontological-veridicality as fulfilling ontological-normalcy; all along the institutional-cumulation/institutional-recomposure\( \langle \text{as-to-} \rangle \) historiality/ontological-eventfulness /ontological-aesthetic-tracing-\langle \text{perspective–ontological-normalcy/postconvergence-reflected-}\langle \text{epistemicity–relativism–determinism}\rangle \langle \text{as-to-} \rangle \rangle \langle \text{as-to-} \rangle \)
normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩ levels but for incomplete human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{10}\) capacity the preceding institutionalisation levels are more like successive compromises towards notional–deprocrypticism as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). A critical distinction between notional–deprocrypticism institutionalisation and positivistic institutionalisation has to do with the former uncompromising relation with respect to upholding ontological-contiguity\(^{67}\) thus overcoming the temporal-emananances-registries hotchpotching (<amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of—‘nondescript/ ignorable–void ’-with-regards-to-prospective-apriorising-implications>}\) or banality-of-thought dynamism, and specifically in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology\) even though it is very much present in the formal sphere as well) and the "incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional-disjointedness-as-of—reference-of-thought inherent in the positivistic mindset, thus the latter tends relatively to be weakly ontologically-contiguous with all the existential implications thereof, whether with regards to virtue construal or subject-matters issues. Further as with all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity going from procrypticism, or the preconverging-or-dementing\(^{19}\)–apriorising-psychologism (‘perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation⟩ as to preconverging-or-dementing\(^{19}\)–apriorising-psychologism) of positivistic \(^{56}\) meaningfullness-and-teleology\(^{109}\), to
notional-deprocrypticism will involve a psychoanalytically preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism deconstruction/ontological-reconstituting–as-to-conflatedness\textsuperscript{12} of our present positivistic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} wherein this is presently postconverging-or-dialectical-thinking\textsuperscript{30}–apriorising-psychologism\textless{}stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase\textgreater{} to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} wherein the notional–deprocrypticism mindset/reference-of-thought reflects/perspectivates the positivistic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} at its uninstitutionalised-threshold\textsuperscript{13} in hollow-constituting\textless{}as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation\textgreater{} or preconverging-or-dementing –apriorising-psychologism\textless{}stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase\textgreater{}. So the notional–deprocrypticism institutionalisation (as a renewed existentialism/full-depth-of-existential-implications meaningfulness-and-teleology\textsuperscript{100} or memetic-refinement) ontologising involves an ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness\textsuperscript{12} as dialectical transformation, as-prospective reference-of-thought, of intradimensional-meaningfulness psychoanalytically as-preconverging-or-dementing –apriorising-psychologism of our present positivistic mindset/reference-of-thought at its uninstitutionalised-threshold\textsuperscript{13}. Even though as with all transcended registry-worldviews/dimensions such an implied veridical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} will probably sound unintelligible/existentially-suprastructural due to our positivistic illusion-of-the-present/epistemic-totalising ~self-referencing-syncretising/present-consciousness/mirage; as the reference-of-thought, in articulating ontological-normalcy/postconvergence and the

The general underlying principle for notional–deprocrypticism methods and techniques is that of being utterly ontologising, beyond positivistic meaningfulness conventioning and temporal-accommodation as ‘ontologically-reconstituting/deconstruction’ for undermining notional-discontiguity/epistemic-discontiguity

Equally, with regards to human mentation capacity, the effect of limited mentation capacity characterising a given registry-worldview/dimension or intradimensional level and its social-construct not only defines its inherent vices-and-impediments but such a social-construct further and critically structures and stifles the natural renewal of human emancipative dispositions. For instance, non-positivism/medievalism stifling inclinations to think outside of medieval mental-dispositiona and likewise with regards to our procrypticism. The bigger point of successive institutionalisations has to do overall with their specific emancipative registry-worldview/dimension framework as fertilising the cross-section of human practical and conceptual incidental issues and endeavours as well as the virtue constructs at the said registry-worldview/dimension. What is interesting with regards to an incidental study like psychopathy and social psychopathy with respect to the grander
notional-deprocrypticism institutionalisation level within the treatment of the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩ meta-conceptual frame is that it provides (besides being critically important to grasp by itself as a parasitising/co-opting phenomenon that can potentially arise in all human locales) the incidental and the-Good/understanding/notional-knowledge-reification–gesturing-in-prospective-psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—conflatedness—in-[preconverging-disentailment–by]–postconverging-entailment> ontological-prime-movers-totalitative-framework backdoll and background that informs and deepens understanding of the overall meta-conceptual analysis of perversion-of-reference{-as-preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > issues (issues arising from the tempering or false implying of the apriorising–registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology and thus inducing a fundamental flaw with the reference-of-thought as preconvergingly-apriorising/axiomatising/referencing-in-conviction-as-to-profound-supererogation), which in turn further enlighten the incidental analysis of psychopathy and social psychopath. Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation. It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity) as the

More like the modern notion of medicine doesn’t work on the idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease theory, but accepts that de-mentatively/structurally/paradigmatically bacteria, cancer, organ failure, etc. cause disease and that the virtue of medicine is about how to understand and
preempt the above causations; likewise deprocryptic virtue operates on a realistic grasp of human subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections at uninstitutionalised-threshold and then strives to skew/deferential-formalisation-transference for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-preservation entropy/contiguity. We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s Things Fall Apart on how a community where a traditional registry-worldview with its sense of purpose had to deal with positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this case the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is by cultural diffusion rather than by internal philosophical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Basically, all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity involve ‘a psychoanalytic-unshackling of this sort’. Counterintuitively, it should be understood that no transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rational because you rationalise by operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives but then the need for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity due to perversity-and-derived perversity-of reference-of-thought <as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation> and the registry-worldview’s/dimension’s relative-ontological-incompleteness induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-suprerogation’ <as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-psychologism>’ is putting the soundness of registry-worldview/axiomatic construct/categorical-imperatives in question (as
reference-of-thought supersedes/precedes logical-processing-or-logical-implicitation supposedly-apriorising-in-conviction-as-to-profound-supererogation), so you rather have a reinvention as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the psychoanalytic-unshackling coming from its better grasp/ontological-primemovers-totalitative-framework of the world/intrinsic reality. Basically, we can say that human-emanant/becoming-transcendence is the first level of human invention (incremental inventions of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence-and sublimity/sublimation/supererogatory–de-mentativity to liberate themselves before secondnaturing/institutionalising for the new possibilities for the species; noting that, this doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins… of the world, miraculously came up with positivism to supersede/precede/override/utter medievalism, as they were of medieval stock but by philosophical transcendence-and sublimity/sublimation/supererogatory–de-mentativity could project beyond the limits of non-positivism/medievalism even were they were still imbued with remnants of the old like alchemic beliefs. Hence it is the transcendental process that is actually critical)! Now what positive can come from psychopathy? From the intemporal perspective NONE. Besides specific social consequences of psychopathy as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath; by and large, ontologically and as reflected by the organic-comprehension-thinking (organicalism/intemporal-prioritisation-of reference-of-thought–as-conflatedness–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology), the psychopath’s and other postlogic articulations have a nefarious effect, on social
entropy to preserve intemporality known as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, with the idea that reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are as pertinent only as these preserve intemporality, and are collapsed/overridden by new reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, when shown not to be preserving intemporality, as when of perversion-of-reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation rather than implying prospective ones for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of reference-of-thought denaturing and relative-ontological-incompleteness, and endemised/enculturated (with a temporal rationalising reasoning that actually validates the veridicality of a human notional~firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—to—as to shallow-supererogation—to—profound-supererogation that should not be confused with a secondnatured/institutionalised disposition in relation to virtue). This effectively forms the recomposured backdrop for prospective transcendental construct of deprocrypticism, as the ‘ontologising organic-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as to preconverging-or-dementing—apriorising-psychologism with regards to the preceding reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Further a registry-worldview/dimension that so misanalyses is not ‘shaped’ to review but rather syncretises/is-circular in its failing/not-upholding—reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation rather than implying prospective ones for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of reference-of-thought denaturing and relative-ontological-incompleteness, and endemised/enculturated (with a temporal rationalising reasoning that actually validates the veridicality of a human notional~firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—to—as to shallow-supererogation—to—profound-supererogation that should not be confused with a secondnatured/institutionalised disposition in relation to virtue). This effectively forms the recomposured backdrop for prospective transcendental construct of deprocrypticism, as the ‘ontologising organic-
comprehension-thinking (organicism/’intemporal-prioritisation-of- reference-of-thought’–as-confoundedness/’ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology’) that reflects/perspectivates the protracted threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supereorogation<as-to-’attendant-intradimensional’-prospectively-disontologising-preconverging/dementing–apriorising-psychologism’. But then, a psychopath can be so irrational that in temporal terms it might do a lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or even some other things but coming initially from a vice; as may be enabled by the psychopath’s faulty-mentation-procedure-deception-or-urge to attain an outcome). This dynamic element can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as the questions are not only how culpable is the psychopath but extend to who is temporally getting what from the psychopathic situation, what accounts and narratives should be believed, etc., thus requiring an utter and intemporally uncompromising ontological conceptualisation to construct an ontological-prime movers-totalitative-framework science. That said, beyond just about such a present worldly take to societal issues, there is a bigger question of the universal implications on human civilisation of postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> and perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in nonconviction/madeupness/bottomlining-as-to-shallow-supereorogation phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation behind human civilisation. It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do both with the nature of the psychopathic/postlogism mind contrasted to the nature of the ‘normal supplanting–conviction-as-to-profound-supereorogation’.

apriorising/axiomatising/referencing’-logical-dueness> or postlogism or preconverging-or-dementing or-apriorising-psychologism)! Straying into a basic elucidative anthropopsychology/the-anthropological-continuity (a novel hermeneutic/reprojecting/supererogating/zeroing approach to psychology); extrinsic-attribution is a fairly common social mental-disposition, at ‘uninstitutionalised-threshold’ as we are not inherently intemporal (the-Good as longness-of-register-of—meaningfulness-and-teleology in our solipsistic projection but have the potential of temporal (shortness-of-register-of—meaningfulness-and-teleology) solipsistic/emanant projections of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>. The mechanism of institutionalisation/intemporalisation and formalisation ensures that because of the positive-opportunism—of-social-functioning-and-accordance that the intemporal-disposition (as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at 'socially-perceived-value as of social-stake-contention-or-confliction', it tends to skew (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity)/deferential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition to be inherently civilised to want to universally wish that everyone have to deal with a fair legal system, that anyway is to the credit of the
institutionalisation/intemporalisation process, but that is a seconddnatured/internalised construct. This explains why there is no need to breach the scientific principle known as the ‘mediocrity principle’, (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> creature in its moral/virtuous-agency); to explain why society tends to improve/progress. Rather, the intemporal-disposition de-mentatively/structurally/paradigmatically brings more overall good and hence skews (‘intemporality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) man in the medium to long perspective towards ‘the-Good/understanding/notional–knowledge-reification–gesturing—<in-
conflatedness—in–{preconverging-disentailment–by–postconverging-entailment>/ontological–primemovers-totalitative-framework (institutionalised, formalised and internalised)’. This elucidation is important because while internalisation might point to the social good it is important to understand that when dealing with our solipsism at ‘uninstitutionalised-threshold’ we aren’t anymore intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology) than temporal (shortness-of-register-of–meaningfulness-and-teleology) going by the ‘mediocrity principle’, and the analysis should take account of this (by not just operating/processing logic but construing notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation with a (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics) highlighting organic-comprehension-thinking (organicism/'intemporal-prioritisation-of-'reference-of-thought’–as-conflatedness'-or-ontological-reprojecting/longness-of-register-of-‘meaningfulness-and-teleology') and the distracting threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation –as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism>. Why talk of ‘uninstitutionalised-threshold'? This is the underlying notion of ‘a grand theory of psychology’ that has been missing to turn psychology from a preconverging–de-mentating/structuring/paradigming of the human presencing—absolutising-identitive-constitutedness social-vestedness/normativity–discretely-implied-functionalism as modern into a postconverging–de-mentating/structuring/paradigming across-and-of-all-times of nonpresencing–perspective–ontological-normalcy/postconvergence>! Why? The foundation of a human psychological science should be fundamentally about ‘the contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-cumulation/institutional-recomposure–as-to–historiality/ontological-eventfulness /ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’) or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposuring from recurrent-utter-uninstitutionalisation, based-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows for human-subpotency survival/existence/emanance/fulfilment/flourishing in existence-as-of-

notion of good covers the concepts of good-to-bad). Correspondingly, this notion of
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involves ‘mental
candoring’ where mental-devising-representation syncs with intrinsic-reality and mental
decandoring where mental-devising-representation is a wrong/flawed perverted representation

For instance, the veridical stranded mental-
devising-representation we may have from a positivistic standpoint of the non-positivism/medievalism mind as oblongated/decandored is not recognised by the non-positivism/medievalism mindset/ reference-of-thought by its syncretic reflex to be functionally in its mental straightness and candored (even though such a representation is ontologically wrong regarding its mental-devising-representation with respect to the its uninstitutionalised-threshold \(^3\) requiring positivism institutionalisation/intemporalisation). Prospectively, the de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics of our own mental-devising-representation by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology \(^0\) as of prospective notional—deprocripticism as oblongated and decandored at our uninstitutionalised-threshold \(^3\) requiring notional—deprocripticism institutionalisation/unintemporalisation will equally meet with an epistemic-totalising—self-referencing-syncretising wrong reflex of postconverging-or-dialectical-thinking—apriorising-psychologism—stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase that will not recognise its slantedness and decandored veridicality. The intemporal-disposition is rather about emphasising institutionalisation/intemporalisation percolation-channelling—in-deferential-formalisation-transference as the means and basis for prospective institutionalisation/intemporalisation. This highlights the vacuousness in all transcendental relations wherein the transcended is vacuous with respect to the transcending. Such vacuous transcendent manifestations involves dialectically (the transcended and transcending relation with regards to:) deductive narratives instances, life episodes, life schemes, general being/existential dispositions and the specific existentialism/full-existential-depth-implications involved with a registry-worldview/dimension; wherein temporal-dispositions present-consciousness (in their illusions-of-the-present) perpetually portray candor and straightness but on retrospection are shown to be
decandored and oblongated which ontologically implies these are veridically of \textit{de-mentation} \textit{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)} as of preconverging-or-dementing\textit{–}apriorising-psychologism-
\textit{<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>} notwithstanding their wrongly projected postconverging-or-dialectical-thinking\textit{–}apriorising-psychologism-
\textit{<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>}. This is ontologically foundational (more like the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument grounding spirit of arithmetic cannot be undermined in any way possible and you then have the possibility of sound arithmetic thereafter). \textit{de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)} prevents temporal-dispositions (in the articulation and re-articulation of narratives) by the ‘temporal-dispositions disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-articulated are of intemporal-disposition teleology\textit{–}hence wrongly implying candored and straightness, whereas these are in effect \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} iterating narratives of temporal-dispositions teleologies’; and so, by way of coring which involves accounting-for-temporal-dispositions-defect/preconverging-or-dementing\textit{–}apriorising-psychologism (the-perversion-of-the–categorical-imperatives/axioms/registry-teleology\textit{–}for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) and avoiding setting-aside which rather involves glossing-over-temporal-dispositions-defect/preconverging-or-dementing\textit{–}apriorising-psychologism (the-perversion-of-the–categorical-imperatives/axioms/registry-teleology\textit{–}for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). This ensures in effect ‘the \textit{de-mentation} \textit{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-}
Ontology is an altogether coherent construct with no room for excepting from coherence, which then simply implies the superseding of any such pretence of an excepting. (For instance, we can be calculating the sum \((5 \times 5)+5-5\), and make the mistake to say \(5 \times 5 = 24\) but then overlook it and agree together that the answer should be \(24\) and go on to resolve the entire equation as \(24\).

This type of non-ontological thinking (a non-ontological thinking is also known as a misanalysis or misthinking or misreasoning or mislogic or preconverging-or-dementing\(^{19}\)–apriorising-psychologism–<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> or <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(^{3}\) or notional-discontiguity/epistemic-discontiguity–<shallow-supererogation–of-mentally- aestheticised–preconverging/dementing –qualia-schema>, as there is no veridical meaningfulness that exists out of ontology or isn’t in ontological-contiguity) is highly prevalent in the extended-informality–(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology) of society as social-aggregation-enabling, the reason we strive to formalise whether in terms–as-of-axiomatic-construct of laws, institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition constructs cannot accommodate non-ontology since reality doesn’t adjust to man and it is man that adjusts to reality. The de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics),-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence implies that an interlocutor’s retrospectively demonstrable narratives miscuing and subsequent perversion-of-reference-of-thought–<as-preconvergingly-apriorising/axiomatising/referencing-in nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> speaks of the real nature of its present and prospective narratives as decandored and oblongated in effect.

For instance, the positive (as to intemporal project) will not engage in a direct logical convincing with the non-positivisitic/medieval mind as this just validates to the non-positivism/medievalism disposition that its non-positivism/medievalism reference-of-
thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation relation with meaningfulness-and-teleology is sound such that it goes on to operate/process logic by amplituding/formative–epistemicity–totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag non-positivism/medievalism meaningfulness-and-teleology reference-of-thought–categorical-imperatives/axioms/registry-teleology. Rather the positivistic mindset/reference-of-thought will project the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivism (as rational-empiricism/positising basis of reasoning) through positivism institutionalisation/intemporalisation percolation-channelling-in-deferential-formalisation-transference> and highlighting, in the bigger scheme of things, the relative sublimating efficiency and positive-opportunism—of-social-functioning-and-accordance of a positivism-based rule of law, social organisation, polity, nation-building, etc. based on positivism axioms and which inherent effectiveness and supersedingness/transcendence breaks the non-positivism/medievalism mindset/reference-of-thought (which are not rational-empirical/positising and tend to essences, alchemic-logic, sorcery constructs, etc.) with its defective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This takes an utterly impersonal form (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. The ‘transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation complex-of-stranding’ refers to the counter-intuition from a registry-worldview/dimension perspective in not representing itself as stranded (decandored or oblongated or in threshold-of–
nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism> when it is demonstrated that it is perversion-of reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-

The reason for the human ‘transcendental/transdimensional/interdimensional/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation complex-of-stranding’ is that a registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are fundamental and constitutive functional elements of its existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation and hence the complex when amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present. But then, if such a complex is to stand, the transcendental exercise by which man left the cave-to-so-called-modern-man wouldn’t have happened, and any registry-worldview/dimension (retrospective, present,
prospective) that fails its own de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) as to elucidation-and-superseding-of-its-perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, as-to-preconverging-or-dementing —apriorising-psychologism to allow for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposing for transcendence-as-the-grander-possibility-for-human-survival-and-flourishing is obviously failing/not-upholding<as-of-apriorising/axiomatising/referencing> its ‘own homework’ for the bigger picture in the human species survival-and-flourishing scheme, notwithstanding it is at the backend of the institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>) ontological-contiguity—of-the-human-institutionalisation-process! As an anthropopsychological disposition, rational-realism as notional-deprocrypticism just like all successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in emphasising increasing realism counter-intuitively to a naïve temporal take is actually a ‘positive-minded/well-meaning disposition with respect to man/the-human-species’ with the idea that ‘it is better working with what intemporally/ontologically is (that is, the-Good/understanding/notional~knowledge-reification–gesturing=<in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity—educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in {preconverging-disentailment–by}–postconverging-entailment>/ontological-primestizers-totalitative-framework`) to achieve the best intellectual-and-moral outcome for man’ than ‘working with what-one-wishes’ from a wrong temporal/impression-driven construal’. The idea of understanding the ontology of human temporal mental defect is not to ‘idle’ in a temporal circularity that defeats-and-debase the
grandor of a universal/intemporal projection but rather strives to better stir man towards the intemporal-and-ontological as virtue, an exercise which while of ‘presencing—absolutising-identitive-constitutedness’ consummated/forfeiting posture’ with regards to human temporality/shortness wouldn’t however acquiesce to the naïve disconcertment that takes the ‘presencing—absolutising-identitive-constitutedness’ consummated/forfeiting posture’ of intemporality/longness for temporal correctness towards which the intemporal-disposition is definitely intransigent and uncompromising for effective intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Such a rational-realism as notional—deprocrypticism disposition views the fundamental anthropopsychology drive for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity which involves de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity by decandoring/oblongating (representation of perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as to preconverging—or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>) on the basis of the veridicality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor rationally, and ontologically represents the social-construct (as validated by the ‘shifting relation of social conventioning and purist ontology’) as being in effect ‘a highly cohesive postconverging—dementating/structuring/paradigming’ at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation but ‘a poorly
cohesive extricatory preconverging–de-mentating/structuring/paradigming’ at uninstitutionalised-threshold. The notion of the social-construct as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming is actually an aspirational ideal and reference for ‘human intemporal projection towards it’ but it isn’t ontologically veridical by the inherent solipsistic human nature due to a notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence—human reality, and thus the need for institutionalisation to skew (‘intemporality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) towards intemporality/intemporal-preservation as human secondnaturing. This elucidation is vital in pointing out that the teleology of rational-realism as notional–deprocrypticism (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism in existence as ontological (so-reflecting <amplituding/formative>disposedness/psychologismic-construct—as-to-orientation/value-construct/valuation—and–derived-parameterising) and <amplituding/formative>entailment—as-to-totalising-contiguous/coherent–factuality-of-variability))’ and so as to the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—(imbued-and—‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation), is not to strive for the wrong notion of human intemporal/ontological ‘congruence’ with respect to knowledge and virtue (as human dispositions are not congruent, as thus the idea of ontological-congruence of the intemporal-disposition with temporal-dispositions will compromise intemporality, and
hence compromise ontology), but rather to aspire for a transversality-<for-sublimating-

appropriateness of striving rather for transversality-<for-sublimating–existential-

apriorising/axiomatising/referencing’ and not nested-congruence to uphold intemporality52,
and hence a complete ontology. To put it in other terms, for instance, transversality-<for-
sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–
disambiguated-‘motif-and-apriorising/axiomatising/referencing’ of ‘keeping the faith’ only
in the intrinsic operation of rules of arithmetic (transversality-<for-sublimating–existential-
eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated-‘motif-and-
apriorising/axiomatising/referencing’ among interlocutors, in principle or notionally, so that at all times it is always about the intrinsic reality of the arithmetic and not the agreement-disagreement of any human interlocutors as we are all mortals and likely to corrupt such intemporal rules with our mortality out of an intemporal frame of reference that is transcendental-enabling/sublimating/supererogatory-de-mentativity) is vital to preserving ‘ontological arithmetic’ as transcendental-enabling/sublimating/supererogatory-de-mentativity, whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with other humans (interlocutors logical nested-congruence) instead of intemporal exercise, it is obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be corrupted and/or teleologically-degraded as more likely than not the intemporality/purity of mathematics will be compromised to human mortals stakes of social-and-temporal-trading as social-aggregation-enabling, and so as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-including-virtue-as-ontology. * It should be noted that in de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics), in-a-contiguity-of-increasing-ontological-normaley/postconvergence dialecticism of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity involving the transcended and the transcending dimensions, the terms highlighting the transcended dimension like decandored, oblongated, dialectically-out-of-phasing/dialectically-primitive, etc. (as to its superseded Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) do not carry the same connotation as a shallower temporal analysis intradimensional to the transcended dimension (as to its given institutional-development-as-to-social-function-
development and living-development–as-to-personality-development so-referenced to its given Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{11}\). The idea is not to idle in articulating meaningfulness within the dimension in need of transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. For instance, a positive mind’s articulation of defective meaningfulness in non-positivism/medievalism registry-worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in terms–as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful purposefulness but rather to project a positivistic worldview’s transcendental meaningful purposefulness. In that sense, actually for the social scientist and philosopher words like dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the ordinary and temporal connotations of stigmatising under a temporal extricatory preconverging–de-mentating/structuring/paradigming. Rather, these are critical and actively sought after notions that provide the ‘dialectical backdrop’ for enabling prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The idea is that these notions are veridically dialectical notions that apply in all transcendence-and-sublimity/sublimation/supererogatory~de-mentativity unlike a simplistic ‘history fixating conceptualisation’ will have. In other words, our non-positivism/medievalism ancestors’ possibility of being-represented/mental-devising-representation as dialectically-or-contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive construction of a superseding/transcendental registry-worldview/dimension that brought about the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in a notional~deprocrypticism institutionalisation/intemporalisation with respect to procrypticism.
