Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability\(^1\) method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability\(^1\), validation and open-ended questioning can be
undertaken over it. Such a hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojecting/supererogating/zeroing insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes more-or-less similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at their apathetic threshold as these rather develop into denaturing木质语言—{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical—imperatives/axioms/registry-teleology } stifling prospective sublimating possibilities, thus requiring prospective fundamental reconception. While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure{as-to—historiality/ontological—eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism-determinism’>} right up to the present, it also cognisant that at a certain point the ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ becomes critically a drawback for the possibility of knowledge-reification—gesturing—<in—prospective—psychologismic—apriorising/axiomatising/referencing—{of—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—

At which point, the more decisive issue is recognising and assuming the reality of a fundamental apriorising/axiomatic/referencing intellectual break/schism/estrangement with such ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’, as so-implied across human sublimating \{historia/ontological-eventfulness\}/ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’> say between non-universalising sophistry and prospective Socratic-philosophers universalising-idealisation as well as in the case of medieval-scholasticism and prospective budding-positivism, and it is herein contended likewise with regards to our modern-day pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation\ (blurring/undermining-of-prospective-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness) as of procrypticism–or–disjointedness-as-of\ reference-of-thought (associated with a predisposition for disparateness of-conceptualisation\<unforegrounding-disentailment-failing-to-reflect-'immanent-ontological-contiguity'>) and prospective deprocrypticism–or–preempting–disjointedness-as-of\ reference-of-thought (‘foregrounding entailment’

relative-ontological-completeness 88 as reflected with the Socratic-philosophers putting in

with Socrates during his trial as to his highlighting of the inconsistencies of his accusers
sophistic non-universalising apriorising arguments priorly for the notion of a mutual logical

equally putting into question the apriorising/axiomatising/referencing of non-positivising/non-

any such pretence of logical coherence engagement in-the-very-first-place in the face of what
he could see positively/rational-empirically through the telescope with respect to the ‘imaginary
pedantic machinations’ of his medieval-scholasticism interlocutors and so as to the prospective
positivism/rational-empiricism apriorising/axiomatising/referencing as to existence—as-

prospectively as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-

With such teleologically-decadent—as-in-dimensionality-of-desublimating-lack-of (supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) spirit of intellectualism, it can difficultly be fathomed how such a ground-breaking evental-instigation as the appearance of Einsteinian physics in early 20th century prompting great excitement and curiosity among physicists recasting the contributions of prior physicists, and then eliciting the work of many other physicists and mathematicians in the subsequent decades leading in-between to the superseding of Einsteinian physics with Bohrian physics and then Feynmanian physics, etc. as to existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression constraining, can be contemplated as of such a rather impoverished conception of genuine intellection which poorly recognises the pre-eminence of existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression over human-subpotency (notwithstanding the fact that we are at the backend of human institutional-cumulation/institutional-recomposure—(as-to- historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective–ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism-determinism’)); and so because in many ways it is hardly the case that the priority is obsession with such intellectual emancipation rather than obsession with institutional-being-and-craft muddlement. While the natural sciences are ‘naturally’ constrained by the stronger manifestation for prediction, there is
nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s wooden-language—imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology with asceticism does exist as has existed throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism> since even the natural sciences practices arose out of the profound asceticism stances against their initial societal predispositions of presencing—absolutising-identitive-constitutedness. Beyond the seemingly intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification—gesturing—in-prospective_psychologismic—apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity conflatedness—in—preconverging-disentailment—by—postconverging—entailment rather than a culture of pop-intellectualism today that seem to define our human-subpotency/mortality purposes as superseding existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression as to intemporality purposes, as so-reflected in the supposed intellection values conferred in many a press operation with such vague catchphrases as ‘the-greatest/most-influential thinker of our times’ as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification—gesturing—in-prospective_psychologismic—apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity conflatedness—in—preconverging-disentailment—by—postconverging—entailment as

Actually the projection of values including intellectual values in such <amplituding.formative.epistemicity>totalising.self-referencing.syncretising/circularity/interiorising/akrasiatic-drag are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology.<in.preconverging.existential-extrication-as-of-existential-unthought>; given that virtue is rather as of the-Good/understanding/notional-knowledge-reification-gesturing<in.prospective.psychologismic.apriorising.axiomatising.referencing.{of.attendant.ontological.contiguity.educed.existentialising.contextualising.textualising.contiguity}== ontological-prime movers-totalitative-framework conceptualisation as to transcendental-enabling/sublimating/supererogatory.de-mentativity and not the vagueness of impression-driven/good-naturedness/wishfulness <amplituding.formative> wooden-language<{imbued—temporal.mere-form.virtualities/dereification/akrasiatic-drag/denatured/preconverging.or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology}> in human-subpotency social-aggregation-enabling. We can grasp in this respect that the value conception as from the non-universalising sophistry

In any case, ultimately the reality of human knowledge-reification-gesturing-conflatedness in [preconverging-disentailment by] postconverging entailment involves ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness’58 5 ‘meaningfulness-and-teleology’59, and so in the transvaluation of prospective human aporeticism overcoming/unovercoming; as for instance, it can hardly be imagined that the reference-of-thought of the non-positivism/medievalism mindset as of its dementative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology is apt as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument –for-conceptualisation to grasp our modern-day conception of say physics given its ‘valuation framework as of its <amplituding/formative–epistemicity> totalising–self-referencing-

etc. availing as of the transcending positivism/rational-empiricism occlusive-consciousness. Likewise, it is herein contended that the future possibility for the natural sciences advancement is inseparable from the possibility of social and social-organisational advancement as of prospective human aporeticism overcoming/unovercoming as to the prospective deprocrypticism—or—preempting—disjointedness-as-of- reference-of-thought protensive-consciousness induced Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and so over our present procrypticism—or—disjointedness-as-of—reference-of-thought occlusive-consciousness; and in effect this conjoint-epistemic-relationship-and-fate in the conceptualisation of the material and social world is even confirmed today as with the social and social-organisational framework that underlied and was necessary for most of the scientific and technological advances after the second-world war. Basically, dimensionality-of-sublimating

After many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing-apriorising-psychologism with respect to one another (from the prospective perspectives)

human ontological transcendental possibilities arise from human individuations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to renewed logical-basis/logic,-as-derived-from—transversality<for-sublimating—existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ pedestals of meaningfulness

our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t has any end to itself but for such dialectical readjustments to ontological-veridicality

Institutionalisation and formalisation are based exactly on the fact that we don't have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ ........................................................................................................................................................................................................3309
Solipsism means I exist alone (as to the epistemic perspective with respect to intrinsic reality/ontological-veridicality) ........................................................................................................................................................................................................3310
By ontological-normalcy/postconvergence is meant that ‘intrinsic reality’ is one and given (ontology), and that the flaws and corrections in how we go about representing ‘intrinsic reality’ (metaphysics or the human-centered temporal-perspective) has no influence on reality’s intrinsic nature.

how can meaningfulness-and-teleology be represented in ‘a prospective apriorising–registry state’ which is ontologically more real contrasted to ‘a present retrospective apriorising–registry’, as meaningfulness-and-teleology ‘temporally seems’ to vary depending on the uninstitutionalised-threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal?

There is no such thing as ‘intemporal temporality’ as mental-dispositions ‘geared to accommodate temporality’ (as to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation) are doing nothing but providing the anchoring for the endemisation and enculturation of the vices-and-impediments associated with such temporal registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–<as-Being-or-ontological-or-existential–defect>.

the articulation of reality as referentially of ontological-normalcy/postconvergence enables and allow creative projective-insights thought possibilities that the all too common ‘fixated traditional categorisation conceptualisation of reality’ doesn’t allow.

the specificity of the would-be intellectualism involved in a transcendental construct, as different from just intellectualism as mere-institutionalised-being-and-craft.

Memetism as to suprastructural meaningfulness-and-teleology will refer to the projective conceptualisation of meaningfulness-and-teleology beyond and superseding an intradimensional registry-worldview abstraction scope to the scope of transdimensional/transcendental existential psychoanalytic ontological form (in full blossoming of the transcending dimension with its existentialism/full-existential-depth-implications personhoods-and-socialhood-formation)

ontologically (i.e. ‘the-Good/understanding’ contrasted with ‘good-natured/impression-driven’) the bigger issue is how do our development and institutionalisation/intemporalisation of true knowledge ‘save us from potent-temporality and its vices-and-impediments with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’
The notion of higher teleologies as such is specific to the human species in holding that beyond just ‘a physical animal passing of specie generational succession’ for survival and optimising-specie-flourishing, with higher teleologies there is ‘an even more critical passing of generational succession’ as memetic-skewing-or-reordering/philo-cultural optimising of possibilities.

Meaningfulness of notional–firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as to ‘existential idealism/success’ as these define mental orientations or registry-worldview teleological-dispositions.

The entropy behind such a philosophical-driven conceptualisation of human meaning and corresponding psychoanalytic-unshackling.

the perpetuation-of-notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is that it is ‘weakly positive opportunistic’ to the cross-section of the social construct.

transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is more of a human-mentation-capacity driven construct and its mundane recognition is not inherently by its supposed virtue (given that survival-and-flourishing, and not veracity/ontological-pertinence, are the more immediate/direct basis for the human temporal drive).

Meaning (defined previously as what defines/predicates value, thought and action).

‘knowledge-notionalisation’ or knowledge as a continuum from ‘the ignorances/desublimation’/temporal-dispositions to knowledge/intemporality.

preconverging-or-dementing–apriorising-psychologism arises simply by a shift of reference-of-thought (in the strive for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein the latter reference-of-thought as a registry-worldview/dimension is shown to be more intemporally-preservational).

why ontological-normalcy/postconvergence indicates that ‘good-naturedness constructs’ are defective is quite simple as it is based on adhering to a registry-worldview’s/dimension’s institutionalisation temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology.

some of the most novel philosophies are implicedly articulated in scientific works in need for their philosophical explicitation (as herein explicated as to the fact that nascent-particular/incipient-and-material/technical-sublimations—blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving actually point to an overall reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning sublimation as for instance with Newtonian physics pointing to an overall positivism/rational-empiricism reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning), and likewise the scientific methods/methodologies/approaches were developed by philosophers involved in natural philosophy knowledge-reification—gesturing—in-prospective_psychologismic—apriorising/axiomatising/referencing—{of—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness—in—{preconverging-disentailment—by}—postconverging—entailment—firstly as thought experiments and thereafter articulating effective practical methodologies not because they gave up on natural philosophy but because their normal living experience cognition they used was no longer sufficient for a more profound and creative insight into abstruse phenomenality and so they expanded upon their normal living experience cognition associated with thought experiments to ‘exactifying/precisioning—of—sublimation—as—to—entailing-theoretical,—conceptual-and-operant-implications’ framework of controlled experiences involving control methods’ as extension of their normal
living experience cognition into the existentially atypical manifestation of natural phenomena and this is the very true meaning of scientific approaches and methods as not breaking away from philosophising but rather extension of philosophising into methodologically framed and controlled experiences known as experiments (with the naïve perspectiveless/soulless adoption of methods/methodologies/approaches in many a domain-of-study today by the mere token that this is the practice in the natural sciences losing sight of the underlying and relevant philosophising of such methods/methodologies/approaches as to profound and creative supererogatory acuity/perspicacity/astuteness/edginess/incisiveness/of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument –for–conceptualisation required for the relevant domain-of-study as to reflecting its given epistemic-conception phenomenal/manifest–subpotency–(in-transitive–conflatedness reflexivity,–in-the-full-potency-of-existence’s–sublimating–nascence) pertinence to which any such scientific methods/methodologies/approaches are rather subjected), human limited-mentation-capacity-deepening as reflecting both overall knowledge-reification–gesturing–<in–prospective.psychologismic–apriorising/axiomatising/referencing–{of–attendant–ontological-contiguity–ended–existentialising/contextualising/textualising-contiguity}{–conflatedness–in–{preconverging-disentailment–by–postconverging–entailment}> orientation associated with the overall philosophical and
reification/contemplative-distension® epistemic attitude, such that the philosophical nor the scientific cannot be construed as a self-serving conception (as can be so-construed in modern-day psychology individual augmentation/enhancement notion in preconverging-existential-extrication-as-of-existential-unthought) but rather ‘a self-development conception de-mentatively/structurally/paradigmatically construed in association with the development of a better world as to the selfless notional-asceticism implied’ (with a confusion as of individual augmentation/enhancement rather arising from a misconstrual of the Socratic-philosophers and their successors like stoics and cynics emphasis on self-development as to the fact that their universalising-idealisation as to their given epoch implied a more fated/precarious/perilous/uncertain world with their notion of self-development implying forming individuals that can face such a world with valour in view to a constructive projection of a better world), and such is the general basis for interpreting philosophical thought as to its specific epochal aporeticism overcoming/unovercoming associated with the corresponding human limited-mentation-capacity and the prospective projective-insights from all such specific aporeticism overcoming/unovercoming concerning their retrospective and prospective implications and is in many ways no different from a cumulative/recomposuring understanding as to scientific aporeticism overcoming/unovercoming reflection of human historiality/ontological-eventfulness /ontological-aesthetic-tracing<>perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ predisposed human mind’ so-reflect as prelogism -as-of-conviction,-in-profound-supererogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> and so-construed as of human candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism or prelogism where we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism –as-of-conviction,-in-profound-supererogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism –as-of- compelling–nonconviction/madeupness/bottomlining (<decontextualising/de-existentialising–of–attendant-intradimensional–apriorising/axiomatising/referencing–induced-disontologising’–of-the–‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising/attendant-

Hence prelogism ‘as-of-conviction,-in-profound-supererogation ≪existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at≫ is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought on which logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implicitation—
differentiation of existential meaningfulness-and-teleology. The postlogic disposition is
associated pathologically with the psychopathic character as a faulty-mentation-procedure-
deception-or-urge with respect to perceived social-stake-contention-or-confliction but can
equally extend ad-hocly or more profoundly as a manifestation of conjugated-

It is the resolving as aetiologisation/ontological-escalation of ‘candidity/candour-capacity’ as of transcended/superseded psychoanalytic-backdrop for the prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights overcoming human / into the as-of-reference-of-thought that will usher in futurul Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology / of prospective notional–deprocrypticism institutionalisation psyche on the same token that the resolving of non-positivism including ‘superstition’ as of transcended/superseded psychoanalytic backdrop for the prospective overcoming of human ‘non-positivising/non-rational-empirical’ caricaturing-hollow-staging-and-performance that ushered in our prospective positivism institutionalisation psyche and the institutionalisation possibilities thereof. Notional candidity/candour-capacity thus allows for meaningfulness to be recasted in terms—as-of-axiomatic-construct of ‘narratives of candidity/candour-capacity in attendant ontological-contiguity—reduced—existentialising/contextualising/textualising-contiguity’ reflecting more directly the candidity causality—as-to-projective-totalitative-implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity as of

This insight equally explains why it is ‘through the deficient derived-construction of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—conflatedness -in-{preconverging-disentailment-by}—postconverging-entailment’ that is construed the ontologically-veridical nature of distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing>\textsuperscript{9} destructuring. As a further elucidation, a comparison can be made between a construct of ‘notional—referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal
pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness of reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of’ ratio-contiguity/ratiocontiguity/ratiocination-as-referentialism—implicit_attendant—ontological-contiguity” as of their respective epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness of reference-of-thought.

Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of apriorising/axiomatising/referencing-{of-attendant—ontological-contiguity—educed—}

With a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing construal there is a double-gesture of reification as of implying more critically the inappropriateness of the centered–epistemic-totalisation/reference-of-thought as of its underlying meaningfulness-and-teleology implied same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology, which then inherently points to the inappropriateness of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation on the basis of the centered–epistemic-totalisation/reference-of-thought and hence implying that there can’t be any dialogical-equivalence<as-to-psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in-{preconverging-disentailment–by}–postconverging-entailment,-in-self-becoming/self-conflatedness /formative–supererogating>. Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity/epistemic-contiguity<profound-supererogation> of mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema>, with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of attended–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity—in-reification/dereification cognisant-and-integrative with a non-positivistic superstitious meaningfulness-and-teleology centered–epistemic-totalisation/reference-of-thought, and that itself is perceived as of ‘aetiological concern’ as to the possibility of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of
attendant ontological contiguity—aeduced—existentialising/contextualising/textualising-contiguity—in-reification/dereification mental-disposition that can be cognisant-and-integrative in notional-contiguity/epistemic-contiguity—profound-supererogation—mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> with numerous existential circumstances reflecting the endemising/enculturating of non-positivistic superstition and its vices-and-impediments. The same applies from a notional—deprocrypticism perspective with regards to a procrypticism—or—disjointedness-as-of—reference-of-thought mental disposition as an argument seeming to articulate meaningfulness-and-teleology in the same disjointedness-as-of—reference-of-thought terms-as-axiomatic-construct by which the procrypticism—or—disjointedness-as-of—reference-of-thought arises in the first place is in circular<amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of the same centered—epistemic-totalisation/reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments as of that fundamental<amplituding/formative—epistemicity>totalising/circumscribing/delineating reference-of-thought—devolving-as-of-instantiative-context—meaningfulness-and-teleology centered—epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in secondnaturingsuch a prospective institutionalisation reference-of-thought—devolving—teleological-de-mentating/structuring/paradigming—meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-and—sublimity/sublimation/supperogatory—de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical reference-of-thought construction of
meaningfulness-and-teleology\textsuperscript{10}, as of the cumulating/recomposing–attendant-ontological-contiguity\textsuperscript{10}, succession of registry-worldviews/dimensions from the notional–deprocriptism perspective construal/conceptualisation, as being ‘the most profound/complete reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’ grasp of intrinsic-reality/ontological-veridicality’ among all the registry-worldviews/dimensions as of its preempting–disjointedness-as-of–reference-of-thought, as-to\textsuperscript{11} amplituding/formative–epistemicity\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism. Furthermore, within a registry-worldview/dimension for the disambiguation of notional–firstnaturedness—temporal-to-intemporal-dispositions--so-construed-as-from-perspective–ontological-normalcy/postconvergence>, its reference-of-thought of meaningfulness-and-teleology\textsuperscript{10} as its apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument is its (given consciousness’s neuterising-induced-or-deneuterising\textsuperscript{10}-induced) as reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness, which by way of a différance/internal-dialectics/difference-deferral articulates the intradimensional relative ontological-veracity of all other intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology\textsuperscript{10} as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. Thus this is within the framework of the registry-worldview’s/dimension’s teleological-dementating/structuring/paradigming/teleological-possibilities; construed either in elevation-as-of-upholding-ontological-veridicality/institutionalisation as reference-of-thought–categorical-

Such notional–conflatedness\textsuperscript{12} for ontological-performance\textsuperscript{72}—including-virtue-as-ontology> implication is easily understood as of metaphysics-of-absence\textsuperscript{(implicated-epistemic-veracity-of-nonpresencing<perspective–ontological-normalcy/postconvergence>)} when we grasp that a mindset as of a non-positivistic social-setup needs to ‘wean off organically beyond mere mechanical adjustments’ its non-positivism before the notion of ‘a credible logical engagement in terms—as-of-axiomatic-construct of positivism/rational-empiricism with a mindset as of a positivistic social-setup’ can be genuinely entertained. In this regard, the budding-positivists had to implied an utter break with medieval-scholasticism-pedants—ideal-type-or-individuation to avoid the circular problem of their positivism knowledge and science being interpreted in mystical and alchemic terms-as-axiomatic-construct of reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{100}.

Such a psychoanalytic-unshackling commitment equally highlights that the idea of a common
show the latter to be decentered and preconverging—or-dementing—apriorising-psychologism. As a further elaboration, the circularity and amplituding/formative–epistemicity—totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-disposition attached to a registry-worldview’s/dimension’s reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument is fundamentally grounded on its teleological-de-mentating/structuring/paradigming/teleological-possibilities established as of its reference-of-thought—and—reference-of-thought—devolving—meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. It is only a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in the medium to long-term that can transcendentally ‘wean off’ from such a teleological-de-mentating/structuring/paradigming/teleological-possibilities of a registry-worldview/dimension by habituating a prospective institutionalisation as of its reference-of-thought—and—reference-of-thought—devolving—meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. This explains as of metaphysics-of-absence—(implicated-epistemic-veracity-of—nonpresencing—perspective—ontological-normalcy/postconvergence) why for instance the mere demonstration to approval/acquiescence of positivistic principles/interpretations of intrinsic-reality/ontological-veridicality in a non-positivistic as animistic social-setup or medieval social-setup however frequent the demonstrations within a given limited period of time doesn’t mean that the social-setup has been transformed into a positivistic social-setup; since their existentially habituated state of animism or medievalism teleological-de-mentating/structuring/paradigming/teleological-possibilities as of (warped-or-preclusive-consciousness—neuterising-induced)—reference-of-thought—devolving—teleological-de-
mentating/structuring/paradigm–of-meaningfulness as intradimensional existential-instantiations derived/devolved axiomatic-constructs of \( \text{meaningfulness-and-teleology} \) as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, will need to be undone/unshackled psychoanalytically in the medium to long-run to veridically achieve positivism; given that that uninstitutionalised-threshold \( \text{is in a state of circular-pervasiveness-of-} \) \( \text{reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold} \). This equally explains the \( \text{amplituding/formative–epistemicity} \) totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag inherent in our prospective \( \text{procrypticism–or–disjointedness-as-of-} \) \( \text{reference-of-thought uninstitutionalisation, together with its inherent manifestations of psychopathic postlogism–slantedness and social psychopathy conjugated-postlogism, when construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–} \) \( \text{meaningfulness-and-teleology} \) as of prospective notional–deprocrypticism as preempting—disjointedness-as-of- \( \text{reference-of-thought institutionalisation as in our metaphysics-of-presence–} \{ \text{implicated–nondescript/ignorable–void } \} \text{–as-to– presencing–absolutising-identitive-constitutedness } \} \text{beyond-the-consciousness-awareness-teleology–in-preconverging-existential-extrication-as-of-existential-unthought}\) we systematically override the ontological-veridicality implications of such \( \text{procrypticism–or–disjointedness-as-of–} \) \( \text{reference-of-thought} \) and proceed by mental-reflex to uphold our \( \text{procrypticism–or–disjointedness-as-of–} \) \( \text{reference-of-thought} \) \( \text{amplituding/formative} \) wooden-language \( \text{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology } \text{as-of–nondescript/ignorable–void } \text{with-regards-to—prospective-apriorising-implications} \) at this positivism–procrypticism uninstitutionalisation as of an existentially nihilistic mental-disposition in degeneration of the human existential tale; as
prior-relative-ontological-incompleteness\textsuperscript{89}—of—reference-of-thought, established as of its (given consciousness’s \textsuperscript{56}neuterising-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as intradimensional existential-instantiations derived/devolved axiomatic-constructs of \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue, are rather as of ‘a psychoanalytic-unshackling commitment’ and not as of ‘a grounded knowledge construct commitment’. Inherently, such ‘a psychoanalytic-unshackling commitment’ inevitably and fundamentally puts into question the axioms and underlying supposedly transcendental-enabling/sublimating/supererogatory—de-mentativity notion as of the (given consciousness’s \textsuperscript{56}neuterising-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness of the prior registry-worldview’s/dimension’s \textsuperscript{84}reference-of-thought of \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} which establishes its ‘grounded knowledge construct’, and so because of its denaturing\textsuperscript{1} of the prior institutionalisation’s \textsuperscript{54}reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100} by way of elaboration—as-to-mere—extrapolating/constituting/abstracting/deducing/inferring—of—elucidation—outside—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising—contiguity\textsuperscript{39} at the registry-worldview’s/dimension’s uninstitutionalised-threshold\textsuperscript{103} inducing prior relative-ontological-incompleteness\textsuperscript{80}—of—reference-of-thought in need for prospective relative-ontological-completeness—of—reference-of-thought, and so as a transitional construct that is in effect as of a psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring articulation by its crossgenerational transcendental implications projection. Such that such ‘a psychoanalytic-unshackling commitment’ cannot be construed in the same terms—as—of—axiomatic-construct as ordinary intradimensional knowledge as of the established prior
in both instances that such psychoanalytic-unshackling commitment implications are not to be understood respectively as of the uninstitutionalised-threshold mental-dispositions of non-positivism/medievalism or procrypticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness which will just induce their mental-dispositions for non—transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, but rather as of a habituated mental-projection perspective from the prospective institutionalisations of positivism or notional—deprocrypticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness. Thus counterintuitively to metaphysics-of-presence conception, human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology , institutional-development—as-to-social-function-development and living-development—as-to-personality-development as ‘banally’ portrayed historically is not as of an expanding ‘grounded knowledge construct’ from time immemorial as of a wrong incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation mental-reflex as if humans have had only one ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’.

But actually the underlying process is one of ‘a psychoanalytic-unshackling as of a succession of prospective institutionalisations maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation construed from a succession of ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’. 
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ so implied by an ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ enabling successive prospective relative-ontological-completeness\textsuperscript{15}—of—reference-of-thought/ontological-normalcy/postconvergence with respect to human notional limited-mentation-capacity-deepening\textsuperscript{14} underlying the institutional-cumulation/institutional-recomposure—(as-to—historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism-determinism’>); such that counterintuitive to what we might be inclined to think, the development of human psychology is not as of ‘a grounded construction that simply varies incrementally across all times’, but rather ‘a construction which teleological-de-mentating/structuring/paradigming/teleological-possibilities/teleological-potency are sharply rearticulated in succession of institutionalisations as of ontological apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity —educated—existentialising/contextualising/textualising-contiguity }—conflatedness\textsuperscript{15} in—{preconverging-disentailment—by}—postconverging-entailment’, and this is important ‘to avoid unduly considering our whole psychical-nature-and-potential as of our present positivistic institutionalisation mindset/consciousness as of metaphysics-of-preservation—{implicated—‘nondescript/ignorable—void ’—as-to—presencing—absolutising-identitive—constitutedness }’, but rather grasp that there are teleological-de-mentating/structuring/paradigming/teleological-possibilities/teleological-potency of our mental-projection and mental-disposition as of deprocrypticism—or—preempting—disjointedness—as-of—reference-of-thought ‘<amplituding/formative—epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’
Beyond just what we can imagine as of our presence as positivism–procrysticism. This analysis brings out what is effectively meaningfulness as it shows that meaningfulness is more completely about apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights thus involving the ‘amplituding/formative-epistemicity’ totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of the prospective relative-ontological-completeness-of-reference-of-thought of the (given consciousness’s neuterising-induced-or-deneuterising-induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness and then ‘operant-or-incidenting-predicative-insights or logical-coherence’ for effectively articulating their meaningfulness as of instantiative-context or existential-instantiations with respect to existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,–eliciting-of-prospective-supererogation <as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism–overcoming/unovercoming> imbricatedness/threadedness/recomposuring; and these are the two underlying commitments that make up meaningfulness. For instance, the \textsuperscript{5} maximalising-recomposuring-for-relative-ontological-completeness \textsuperscript{88}—unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence ⟨implicitied-epistemic-veracity-of- nonpresencing<-perspective-ontological-normalcy/postconvergence⟩ analysis does apply with respect to superstitions, \textsuperscript{104} universal

Insightfully, this point out the circumspective nature of any transcendental knowledge

articulating construed ontological-veridicality at the expense of avoiding any Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} al engagement, as such a psychoanalytical commitment necessarily recognises human potential to transcend, and the other hand the nature of intrinsic-reality/ontological-veridicality that ‘supersedes humankind and doesn’t factor in human moods and whims’ in its effectiveness. Caught between these two elements human meaningfulness-and-teleology\textsuperscript{100} is ‘often actually imbued with active and passive mental-strategies of compromise’ but which wouldn’t cut it with the maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation necessary for human development and progress. knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as validated by ontological-primemovers-totalitative-framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such an apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-constitutedness-in-preconverging-entailment} ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory-de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness-of-reference-of-thought, as of the incompleteness of the preconverging-de-mentating/structuring/paradigming of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis
equally inherits that relative-ontological-incompleteness of the preconverging–de-

it is not ‘notionally postconvergingly–de-mentated/structured/paradigmed’ to conceptually

Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their apriorising/axiomatising/referencing—\{of-attendant—ontological—contiguity—educted—existentialising/contextualising/textualising-contiguity\}—constitutedness—in-preconverging-entailment defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising apriorising/axiomatising/referencing—\{of-attendant—ontological—contiguity—educted—existentialising/contextualising/textualising-contiguity\}.
contiguity | constitutedness | in preconverging entailment but rather such ‘depth/axiomatic-contruct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by an apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity | educed-existentialising/contextualising/textualising-contiguity }—conflatedness | in {preconverging-disentailment by} postconverging entailment as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, attendant-ontological-contiguity | educed-existentialising/contextualising/textualising-contiguity | <reifying-or-elucidating-of-prospective-relative-ontological-completeness | of | reference-of-thought-devolving-as-of-instantiative-context> is then the preceding and transformative element of meaningfulness-and-teleology| conceptualisation as of our limited-mentation-capacity-deepening enabling our prospective relative-ontological-completeness | of | reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding/formative—epistemicity> totalising—devolved—purview-as-domain-of-construal— as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory-de-mentativity dynamism and implied organic-knowledge’ as of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity | educed-existentialising/contextualising/textualising-contiguity }—conflatedness | in {preconverging-disentailment by} postconverging entailment. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an <amplituding/formative—epistemicity> totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag  temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of
knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory-de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—confalatedness—in {preconverging-disentailment—by}—postconverging-entailment in (re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking —"projective-insights/"epistemic-projection-in-confalatedness ’-of-notional–deprocrypticism-prospective-sublimation) ) originary/event—of-prospective-ontology-origination projection into attendant ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness -of-reference-of-thought- devolving-as-of-instantiative-context>, it emphasises mere de-mentative/structural/paradigmatic patterns inducing apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—constitutedness—in preconverging-entailment, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity construal highlights the
ontological-contiguity\textsuperscript{57} of all knowledge as of their reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming dynamic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework\textsuperscript{73} interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—constitutedness—in–preconverging entailment rather than striving to expand the transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{73} existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory–de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory–de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the
divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework
nature and differences as well as their divergence in meaningfulness-and-teleology
implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human
knowledge renewal as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework renewal of a same
<amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal–as-intrinsic-reality/ontological-veridicality. Ultimately, the idea here is that approaching
intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context> that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. Such an analytic insight as of a notional-deprocrypticism (protensive-consciousness deneuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness analysis as of its prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy, points out that actually, and according to this author’s view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of apriorising/axiomatising/referencing—{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity }—constitutedness—in-preconverging—entailment wherein a more profound view of the philosophical enterprise as intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity ontological-primemovers-totalitative-framework here hasn’t been entertain sufficiently to point out that effectively it is a problem that actually ‘devolves out’ of the more fundamental issue of Being as of its but is rather being posed as of a ‘disjointed/fragmented analysis’ as a consciousness grounded problem. The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness -of- reference-of-thought/ontological-normalcy/conflatedness\textsuperscript{88}.

Since there is no direct correspondence between relative-ontological-incompleteness\textsuperscript{89} -of- reference-of-thought/epistemic-abnormalcy/preconvergence /deestructuring with the inherent intrinsicness of the <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology\textsuperscript{100} -of- existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it, it is thus only from a constructed-deficiency of prospective relative-ontological-completeness\textsuperscript{88} -of- reference-of-thought/ontological-normalcy/conflatedness\textsuperscript{12} which has such a direct correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness -of- reference-of-thought/epistemic-abnormalcy/preconvergence /deestructuring can be established. A direct approach to determine the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness -of- reference-of-thought/epistemic-abnormalcy/preconvergence /deestructuring will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicness of the <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, with such a virtuality-or-ontologically-flawed-construal often wrongly involving 'reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation’-as-of-upholding-ontological-veridicality rather than ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold\textsuperscript{99}’-as-of-failing-ontological-veridicality since a logical correspondence with intrinsic-
reality/ontological-veridicality will be vaguely implied by mental-reflex; as is often the case with postlogism\(^7\) and conjugated-postlogism\(^7\). By and large, this overall conceptualisation explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect ontological-performance\(^7\)-<including-virtue-as-ontology> of the same underlying idea conceptualised as of its perfect/near-perfect/relatively-perfect ontological-performance\(^7\)-<including-virtue-as-ontology> as in-sync/corresponding with inherent intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology\(^10\)-<in-preconverging-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it. This fully articulates the dynamic relationship of human limited-mentation-capacity as of its poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-ontological-veridicality; respectively as poor as of apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity \}—constitutedness \{in preconverging-entailment and as relatively-perfect/near-perfect/perfect apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity \}—conflatedness \{in {preconverging-disentailment by} postconverging-entailment, construed as notional—conflatedness \} as of apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity \}—constitutedness \{in preconverging-entailment towards—conflatedness \} in-\{preconverging-disentailment by\} postconverging-entailment of human limited-mentation-capacity. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-vertexicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness\textsuperscript{13} induced\textsuperscript{12} neuterising or prospectively notional—deprocripticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\textsuperscript{12} meaningfulness-and-teleology\textsuperscript{10}. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by 'ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neutering. historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism as of the notional-conflatedness of notional-deprocrypticism highlights that humankind in its projected-or-anticipated relationship with ‘existence as-the-absolute-a-priori’ is rather in preconverging-existential-extrication-as-of-existential-unthought, and not the full potency of existence; preconverging-existential-extrication-as-of-existential-unthought construed rather as ‘shoddy-and-incomplete actualising in presencing—absolutising-identitive-constitutedness of the full potency of existence. In other words existence is already given rather as of its potency, and the real problem of existence is humankind’s access to existential possibilities as of humankind’s limited-mentation-capacity. That is, human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t-make-sense/is-unavailable for any specific human registry-worldview’s/dimension’s reference-of-thought as an \textsuperscript{45}<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construct, including our positivism–procrypticism registry-worldview/dimension, as this will falsely imply that our \textsuperscript{45}reference-of-thought \textsuperscript{45}<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘developed enough’ as of Being-and-contemplation to have achieved the full potency of existence to then know what’s existence whereas in reality such \textsuperscript{45}<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag highlights human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence. This thus undermines the implications of a Derridean decentered-infinite-freeplay in its critique of ‘centered–epistemic-totalisation as of circularity of ‘meaningfulness-and-teleology\textsuperscript{100} in relative deficient/flawed ontological-performance\textsuperscript{72}—<including-virtue-as-ontology>’ since such a criticism is based on assuming only a same registry-worldview’s/dimension’s \textsuperscript{84}reference-of-thought, and so-construed mainly because such a Derridean conception construes of centered–epistemic-totalisation as only within one registry-worldview’s/dimension’s \textsuperscript{84}reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, failing to reflect the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{68} as of notional~deprocrypticism implied postconverging–de-mentating/structuring/paradigming shifts of \textsuperscript{84}reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ overcome the limitation of ‘centered–epistemic-totalisation circularity of \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} in relative deficient/flawed ontological-performance\textsuperscript{72}—<including-virtue-as-ontology>’ within a same \textsuperscript{5}reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ by way of the successive prospective relative-ontological-completeness\textsuperscript{58}—of—\textsuperscript{84}reference-of-thought as enabling successive prospective \textsuperscript{84}reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ marked by the shift of ‘centered–epistemic-totalisation circularity of \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} inducing relatively less and less deficient/flawed ontological-performance\textsuperscript{72}—<including-virtue-as-ontology>’ right up to the attainment of notional~deprocrypticism ‘centered–epistemic-totalisation circularity of \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} of theoretically perfect/sound ontological-performance\textsuperscript{72}—

as within a same horizon of \textsuperscript{meaningfulness-and-teleology\textsuperscript{}ontological-performance<including-virtue-as-ontology>}. However, it fails to grasp that such a centered–epistemic-

In this regard talking about the physics example again, such a Derridean freeplay différencé is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différencé is the notion of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought>, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation reference-of-thought-as-to-postconverging–de-mentating/structuring/paradigming implied transformation/shift as transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity as of prospective relative-ontological-completeness of reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold reference-of-thought which is in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its ultimate crossgenerational collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency (transparency-of-totalising-entailing—as-to-entailing- <amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) as of prospective relative-ontological-completeness of reference-of-thought of the prospective institutionalisation’s reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity in shallow supererogation -of-mentally-aestheticised–preconverging/dementing–qualia-schema in apriorising/axiomatising/referencing–of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity constitutedness in preconverging–entailment, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening then resolves/overcomes the
circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness reflected in the prior mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-undecidable with a new mathematical model/axiomatic-construct in relative ontological-contiguity as of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity}—conflatedness in {pre-converging-disentailment–by}–post-converging-entailment, and so as of the very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limited-mentation-capacity-deepening induces de-mentatively/structurally/paradigmatically grander human 'meaningfulness-and-teleology' ontological-performance <including-virtue-as-ontology> of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-reality/ontological-veridicality, and this equally applies by extension to 'reference-of-thought-as-of-' reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising–purview-of-construal'. It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicit axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a
theory being any conception as of meaningfulness-and-teleology\textsuperscript{[100]} of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct\textsuperscript{/reference-of-thought’, as the axiomatic-construct\textsuperscript{/reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence— as-the-absolute-a-priori-of-conceptualisation— and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation }\textless as-to-perspective—ontological-normalcy/postconvergence-implied—'prospective-aporeticism-overcoming/unovercoming'> for human-subpotency possibilities for devolving meaningfulness-and-teleology\textsuperscript{[100]} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue, with increasing ontological-performance\textsuperscript{[72]}—<including-virtue-as-ontology> as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity\textsuperscript{[39]}, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring<as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> as of \textsuperscript{5} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{[62]}—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of
‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory–de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context as to attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity of other applied and transcendental-enabling/sublimating/supererogatory–de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of any discipline
is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as knowledge-reification-gesturing-in-prospective-psychologismic-apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-conflatedness-in-[preconverging-disentailment-by]-postconverging-entailment for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about sublimating-validation/desublimating-invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential sublimating-validation/desublimating-invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest-subpotency-(in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence) with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for-conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other
hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument –for– conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest-subpotencies-(in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence) given ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument –for– conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodinger, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory-de-mentativity of the physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs with mathematics being accessory to the transcendental-enabling/sublimating/supererogatory–de-mentativity. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory–de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs,
quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory-de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory-de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension reference-of-thought—as-of-refereence-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness—of-reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence⟨implicited-epistemic-veracity-of-nonpresencing–<perspective–ontological-normalcy/postconvergence⟩⟩ that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed meaningfulness-and-teleology. The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure—of—meaningfulness-and-teleology as of prospective deprocrypticism—or–preempting—disjointedness—as-of-reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working
coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional-deprocrypticism psychoanalytic-unshackling metaphysics-of-absence\{(implicated-epistemic-veracity-of- nonpresencing-<perspective-ontological-normalcy/postconvergence>\)} and apriorising/axiomatising/referencing-{of-attendant ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—confalatedness -in-[preconverging-disentailment-by]-postconverging-entailment, and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve apriorising/axiomatising/referencing-{of-attendant ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—constitutedness\[1\] in preconverging-entailment construal of meaningfulness-and-teleology\[10\] that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the <amplituding/formative–epistemicity>totalising–self-referencing-syntcretising/circularity/interiorising/akrasiatic-drag\[3\] naïvety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’; usually in our case, in a non-transcendental <amplituding/formative–epistemicity>totalising–self-referencing-syntcretising/circularity/interiorising/akrasiatic-drag\[3\] that is unconsciously implied as of our positivism–procrypticism registry-worldview/dimension. Insightfully, such a ‘suprastructural logic’ undermines metaphysical notions like good, essence and truth as being naively construed as of a given registry-worldview’s/dimension’s <amplituding/formative–epistemicity>totalising–self-referencing-syntcretising/circularity/interiorising/akrasiatic-drag\[3\] of meaningfulness-and-teleology\[10\], and in lieu emphasises Being construed as ontology’s-

Further, the fact is that it is rather axiomatic-constructs whether explicit or implicit that are supposedly in a meaningfulness-and-teleology correspondence relation with an epistemic-totalising ~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality as of their given meaningfulness-and-teleology ontological-performance <-including-virtue-as-ontology> as validated by ontological-primemovers-totalitative-framework; so-construed as of the implications of human limited-mentation-capacity when developing axiomation-constructs, with the latter subject to their transcendence-and-sublimity/sublimation/superrerogatory–de-mentativity when prospective relative-ontological-completeness of-axiomatic-construct-or-reference-of-thought avails prospectively with regards to their meaningfulness-and-teleology ontological-performance <-including-virtue-as-ontology>. The implications here as well are that implicit axiomatic-constructs like analogies and supposed intuitions/insights that do not reflect/align as of the coherence/contiguity of superseding–oneness-of-ontology implied as of the full-potency of existence coherence/contiguity, are ontologically naïve and vague. Thus axiomatic-constructs ontological-veracity are dependent on relative ontological-contiguity; as axiomatic-construct/reference-of-thought in relative ontological-contiguity of
one of relative ontological-contiguity by notional-discontiguity/epistemic-discontiguity shallow-supererogation of mentally-aestheticised preconverging dementing qualia-schema of their differing reference-of-thought as of the very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human amplituding/formative-epistemicity’ totalising–purview-of-construal’; for instance, with regards to the relative ontological-contiguity of reference-of-thought implied as of base-institutionalisation over the relative notional-discontiguity/epistemic-discontiguity shallow-supererogation of mentally-aestheticised preconverging dementing qualia-schema of reference-of-thought implied as of recurrent-utter-uninstitutionalisation, as of their differing references-of-thought and thus implied logic with regards to the very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human amplituding/formative-epistemicity’ totalising–purview-of-construal’, reflected as of relative mutual unintelligibility. In axiomatic-construct terms, it is ‘mentally-unsound/preconverging-or-dementing apriorising-psychologism and by derivation illogical’ to be insisting on articulating notions of relevance to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs like space-time or quanta in terms of ‘traditional classical mechanics axiomatic-construct’ as of their respectively corresponding relative ontological-contiguity and relative notional-discontiguity/epistemic-discontiguity shallow-supererogation of mentally-aestheticised preconverging dementing qualia-schema, and so with regards to the very same physics amplituding/formative-epistemicity totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. Such mutual unintelligibility, with regards to reference-of-thought, speaks of differing apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of
‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with amplituding/formative-epistemicity-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory—de-mentativity implications as of human limited-mentation-capacity-deepening , whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify meaningfulness-and-teleology as knowledge which can only arise as of the maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring<as-to-postconverging-or-

(I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance -<including-virtue-as-ontology>) is the ‘complete scientific archaeological depth’ for grasping ontology and Being as of the apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }— conflatedness —in—{preconverging-disentailment by}—postconverging-entailment of human limited-mentation-capacity implications construed from notional–deprocrypticism perspective as ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism’>, and consequently doesn’t carry any external ideological implication but rather for the inherent ontological and Being implications. Further as of such phenomenological transcendental apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed– existentialising/contextualising/textualising-contiguity }—conflatedness —in—{preconverging-disentailment by}—postconverging-entailment, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency—sublimating–nascence–disclosed—from-prospective-epistemic-digression, but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of ontology’s-directedness-as-Being. The phenomenological insight here about the nature of ‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed– existentialising/contextualising/textualising-contiguity }—conflatedness —in—{preconverging—

Thus, such ontology’s-directedness-as-Being apriorising/axiomatising/referencing–of-attendant–ontological-contiguity–educted–existentialising/contextualising/textualising-contiguity conflatedness in {preconverging-disentailment–by} postconverging entailment

Ultimately, phenomenology is all about grasping the apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging—disentailment—by} postconverging-entailment of ontology’s-directedness-as-Being. Furthermore, just as a transcendental-enabling/sublimating/supererogatory—de-mentativity biological science in relative ontological-contiguity of reference-of-thought will dissociate modern-day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity <shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory—de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating/supererogatory—de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that
human meaningfulness-and-teleology ontological-performance <including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening as of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to human amplituding/formative–epistemicity totalising–purview-of-construal or amplituding/formative–epistemicity totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity shallow-supererogation of-mentally-aestheticised-preconverging/dementing –qualia-schema of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human meaningfulness-and-teleology ontological-performance <including-virtue-as-ontology>, as of the very same amplituding/formative–epistemicity totalising–devolved–purview-as-domain-of-construal-as-intrinsic-
amplituding/formative-totalising-renewing-realisation/re-perception/re-thought involves taking cue from existence as to attendant ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity/contexts as of existential-instantiations imbricatedness/threadedness/recomposuring in a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation exercise as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity. The notion of axiomatic-construct in ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity. Ontological-contiguity rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/ reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity’ will seem to imply correlatedness by the very nature of the term continuity. Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of-

Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological meaningfullness-and-teleology could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness-of-reference-of-thought apriorising/axiomatising/referencing–attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity—constitutedness—in–preconverging–
entailment as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness reference-of-thought apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity –educed– existentialising/contextualising/textualising-contiguity }–confatedness in {preconverging–disentailment–by}–postconverging-entailment which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crosngenerational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory–de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity—of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory–de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism—of-social-functioning-and-accordance as of human <amplituding/formative–
avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but cross-generationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/ axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on ‘meaningfulness-and-teleology’ with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory—de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of ‘meaningfulness-and-teleology’ within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as ‘meaningfulness-and-teleology’ with regards to perceived social-
stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology\textsuperscript{100} within a given social-setup in the immediate-and-short-term. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness\textsuperscript{88} of reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} given their supposedly coherent ontological-commitment <implied–self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> as of more profound
ontological-primemovers-totalitative-framework validation as to existence-potency—sublimating–nascence, disclosed-from-prospective-epistemic-digression, as re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking—projective-insights’/epistemic-projection-in-conflatedness—of-notional–deprocrypticism-prospective-sublimation), that are most likely to be syncretised crossgenerationally as providing the most overall positive-opportunism—of-social-functioning-and-accordance by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment—implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation meaninglessness-and-teleology as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology—in-preconverging–existential-extrication-as-of-existential-unthought with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of meaninglessness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of–social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology with regards to
meeting a basic level of individuals and social existential-possibilities expectations. It may thus
seem from within just one human generation perspective that the underlying human
metaphoricity \(^1\) for transcendence-and-sublimity/sublimation/superrrogatory-de-mentativity is
rather marginal especially when not associated with any external cultural diffusion. However,
human metaphoricity \(^1\) as of cultural transformation had tended historically, in the main, to ebb
in peaks and lows, and so as of the relative \(^{10}\) universal-transparency \(^{11}\) -(transparency-of-

mathesis/motif/thrownness-disposition,—as—reproductibility-of-aestheticisation direct, indirect
and/or devolving implications. The fact that individuals in a social-setup are already involved
internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic
relationship of perceived social-stake-contention-or-confliction striving to draw in various ways
the optimum as of perceived existential possibilities and is thus of a minimal
opening/overture/receptivity to internal and external metaphoricity \(^1\), also critically speaks to
the fact that any social-setup is only able to hold together because of supposedly coherent
ontological-commitment \(<\text{implied—self-assuredness-of-ontological-good-faith/authenticity} ~\text{postconverging–de-mentating/structuring/paradigming ~as-being-as-of–existential-reality}>\) that is subject to existence-potency \(^7\) ~sublimating–nascence,-disclosed-

the possibility for prospective metaphoricity \(^7\) to reconstrue-and-redefine the social-setup
meaningfulness-and-teleology \(^{10}\). Such prospective metaphoricity \(^7\) possibility cannot be
preempted because even the social-setup conventioning in its functional operation of meaninglessness-and-teleology needs this supposedly coherent ontological-commitment—in implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality in order to affirm itself over any spontaneously arising disruptive meaninglessness-and-teleology that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity in one way or the other when such spontaneously arising disruptive meaninglessness-and-teleology is not of poorer but rather of a superseding <amplituding/formative—epistemicity> causality~as-to-projective-totalitative—implications-of—prospective—nonpresencing—for-explicating-ontological-contiguity as of the social-setup given supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality>. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality> respectively as of superstitious spiritualism meaninglessness-and-teleology or scholasticism pedantic dogmatism meaninglessness-and-teleology, as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes
available the possibility for prospective metaphority to demonstrably undermine the implied supposedly coherent ontological-commitment of implied—self-assuredness-of-ontological-good-faith/authenticity of being-as-of-existential-reality of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology, and so as of the prospectively induced ontological-primemovers-totalitative-framework superseding meaningfulness-and-teleology as from existence-potency ~sublimating—nascence, disclosed-from-prospective-epistemic-digression epistemic-or-notional—projective-perspective of relative-ontological-completeness reference-of-thought by way of ontological-primemovers-totalitative-framework such as with prospective positivism/rational-empiricism meaningfulness-and-teleology. However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphority undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphority and by that token elicit sophistic/pedantic inclinations to such prospective metaphority meaningfulness-and-teleology. Further any such prospective metaphority ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism—of-social-functioning-and-accordance as of particular and general social interest. That said, a social-setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the fact of greater knowledge-reification—gesturing-in-prospective psychologismic—apriorising/axiomatising/referencing—of—ontological—contiguity —educed—existentialising/contextualising/textualising—contiguity conflatedness—in—{preconverging—disentailment—by—}—postconverging—entailment— from prospective metaphority which may involve undermining such ‘existentially invested’ registry-worldview/dimension in its wooden-language—{imbued—averaging-of-thought—<as—to—leveling/ressentiment/closed-construct—of—meaningfulness—and—}
as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism. Explaining in many ways why the elicitation of value as of prospective secondnatured institutionalisation rather occurs as of the superseding of <amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality. Ultimately, prospective metaphoricity in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuation realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality/longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-disposition as to absolute ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality>. More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling-<in-deferential-formalisation-transference>, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology <in-preconverging–existential-extrication-as-of-existential-unthought> with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism–procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for
the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of ontological-
primemovers-totalitative-framework, so long as it is socially and institutionally credible to uphold non-positivism meaningfulness-and-teleology in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-
type-or-individuation (as we can appreciate that the recognition and then censure and then bannng of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks de-

in temporality\textsuperscript{9} /shortness entailing the uninstitutionalised-threshold \textsuperscript{9}; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold \textsuperscript{9} in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of \textsuperscript{8} reference-of-thought putting the notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold\textsuperscript{103} and the prospective institutionalisation; given the variance of temporality\textsuperscript{9} /shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively \textsuperscript{8} procrypticism–or–disjointedness-as-of-\textsuperscript{14} reference-of-thought with intemporality /longness rather as respectively in base-institutionalisation, universalisation, positivism and prospectively \textsuperscript{17} deprocrypticism–or–preempting—disjointedness-as-of-\textsuperscript{8} reference-of-thought. The bigger point here being that the very notion of transcendence-and-sublimity/sublimation/superalogate/de-mentativity as of apriorising/axiomatising/referencing—{of-attendant ontological-contiguity —educed— existentialising/contextualising/textualising-contiguity }—conflatedness—in—{preconverging—disentailment—by}—postconverging-entailment actually construes of more profound \textsuperscript{8} reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100} that override the prior \textsuperscript{8} reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100} as failing to uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, and so as of differing \textsuperscript{8} references-of-thought in transversality—<for-sublimating–existential—eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—‘motif-and—apriorising/axiomatising/referencing’ ontological unintelligibility. Neuterisation of analysis as so articulated is effectively a deficient human mental-reflex as of its naïve predisposition to
aestheticised-preconverging/dementing —qualia-schema— to the prospective institutionalisation

insight about such a deneuterising storied-construct/ontologically-valid-narration from the fact that a non-positivism/medievalism or animistic social-setup is ‘not committed in a

<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ to positivistic/rational-empiricism meaningfulness-and-teleology with regards to occurrences and incidents best explained and dealt with by such positivistic meaningfulness as of the latter’s prospective relative-ontological-completeness–of–reference-of-thought. As such non-positivism/medievalism or animistic social-setup ‘will not be self-effacing as of its ontologically-flawed

psychoanalytically project about its uninstitutionalised-threshold \(^{13}\) of non-positivism and the prospective institutionalisation of positivism’. This equally explains how our positivism–procrusticism mental-disposition is construed in deneuterising \(^{16}\) from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\(^{56}\) meaningfulness-and-teleology \(^{100}\) as of prospective notional–deprocrusticism perspective ‘as not self-effacing as of its ontologically-flawed \(^{45}\) <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(^{33}\) – temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about the uninstitutionalised-threshold \(^{03}\) of its \(^{03}\) procrusticism–or–disjointedness-as-of- reference-of-thought and the prospective institutionalisation of procrusticism’. This is actually the ontologically-veridical phenomenological transcendental framework for construing/conceptualising human temporal character and social formation mental-dispositions as of uninstitutionalised-threshold \(^{03}\) and prospective-institutionalisation based on the dynamics of limited-mentation-capacity, unlike a naïve neuterising mental-reflex that by its \(^{45}\) <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(^{33}\) fails to attain such an apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed– existentialising/contextualising/textualising-contiguity } conflatedness \(^{39}\) in {preconverging-disentailment by} postconverging-entailment as of notional–deprocrusticism deneuterising \(^{16}\) insight. Central and critical to achieving such a deneuterising \(^{16}\) analysis in grasping the full and complete possibilities of ontologically-veridical construal of human \(^{57}\) meaningfulness-and-teleology \(^{100}\) given human temporal-to-intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-threshold \(^{15}\) is the notion of beyond-the-consciousness-awareness-teleology \(^{100}\) <in-preconverging-existential-extrication-as-of- existential-unthought>\(^{6}\). It is exactly what renders a veridical ontological-escalation or

Overall, the fact is that given that what is most relevant to the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-profound-supererogation\(^9\)–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^7\) perception-and-relation to meaningfulness-and-teleology\(^0\)’ over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation\(^9\)–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^7\) mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold\(^0\) as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits-and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere linguistic appendages of relative practical insignificance. The notion of beyond-the-consciousness-awareness-teleology\(^0\)<in-preconverging-existential-extrication-as-of-
infrastructure-of—meaningfulness-and-teleology or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of—meaningfulness-and-teleology mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that is behind organic-knowledge. Human temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology—are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold in temporal/shortness-of-register-of—meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity—of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic
mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing—apriorising-psychologism>’ is in a state of <amplituding/formative-epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of a medieval worldview will grasp that that unique demonstration of medieval-postlogism/perversion-of reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as ‘prelogic supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/reference-of-thought into a positivistic mindset/reference-of-thought that is ontologically-speaking to be construed as the postconverging—de-mentating/structuring/paradigming resolution of the vices-and-
‘detached, contemplative and blurry human social-construct of knowledge’. In many ways as of human temporal/shortness-of-register-of—meaningfulness-and-teleology mental-reflex, the former is de-mentatively/structurally/paradigmatically associated with relatively immediate-constraining ontological-prime-movers-totalitative-framework that quickly portrays Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology by its mere relative disambiguation effectiveness of ‘ontologically-veridical knowledge agents’ over ‘ontologically-flawed knowledge agents’. For instance as of the ontological-faith-notion-or-ontological-fideism imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced intemporal/longness-of-register-of—meaningfulness-and-teleology positivism/rational-empiricism mental-disposition behind the articulation of Newtonian mechanics inducing its mere effecting possibilities of knowledge, the inherent possibilities of inventing things on this positivism/rational-empiricism knowledge intemporal value reference inherently undermines the pertinence of any other supposed knowledge value reference, like a mystical knowledge construal, of the very same physics as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology from what is of Being underdevelopment. But then this ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-

We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology —as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}’ are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating and considering general social <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology }

ontological-performance\textsuperscript{72} -<including-virtue-as-ontology>-implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s ‘reference-of-thought– categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–\textsuperscript{75} meaningfulness-and-teleology\textsuperscript{100} with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social\textsuperscript{104}universal-transparency\textsuperscript{105}⟨transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ⟩’. This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of \textsuperscript{<amplituding/formative–epistemicity>totalising~self-referencing-syncretising}’ prior to eventual prospective relative-ontological-completeness -of- reference-of-thought accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing ‘social\textsuperscript{104}universal-transparency -(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising~in-

However, all along this ontological-contiguity—of-the-human-institutionalisation-process a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of various pertinent social manifestations: –wherein sovereignty is affirm over knowledge as ‘supposedly being knowledge’ by a culture of mere social-aggregation-enabling of temporal-to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-enabling/sublimating/supererogatory-de-mentativity in formal institutional percolation-channelling-in-deferential-formalisation-transference>, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality—as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; –wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined
by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory de-mentativity as to existence-potency\(^{15}\)–sublimating–nascence, disclosed-from-prospective-epistemic-digression; –the ontologically-flawed articulation of knowledge by an intellectual disposition akin to \(\langle\text{amplituding/formative}\rangle\) wooden-language–{imbued—temporal—mere-form/virtualities/dereification/akraziatic-drag/denatured/preconverging-or-dementing narratives–of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology\},–for-aposteriorising/logicising/deriving/intelligising/measuring\(^{17}\) meaningfulness-and-teleology\(^{100}\) undermining knowledge as of its organic true nature implied by ontological-faith-notion-or-ontological-fideism–imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality behind prior ‘knowledge inventing’ and prospective ‘knowledge inventing’, and so as of intellectual institutional-being-and-craft; –ultimately the very paradox of human \(\langle\text{amplituding/formative–epistemicity}\rangle\) totalising–self-referencing-syncretising/circularity/interiorising/akraziatic-drag\(^{13}\) means that the human sovereign psyche is one that is geared to construe of ‘presence as all-encompassing \(^{56}\) meaningfulness-and-teleology\(^{100}\) value construct’ such that the transcendental implications of knowledge by mental-reflex are construed as of incrementalism-in-relative-ontological-incompleteness\(^{10}\)–enframed-conceptualisation to presence, rather than as of \(\langle\text{amplituding/formative–epistemicity}\rangle\) totalising–renewing-realisation/re-perception/re-thought of presence construed as of prospective relative ontological-contiguity\(^{17}\) over prior/transcended/superseded relative notional-discontiguity/epistemic-discontiguity\(^{67}\)
However despite this knowledge and sovereignty dilemma associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100}, the insight about human 

\textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{11} as of self-referencing and syncretising-effecting intemporal implications means that the requisite intemporal/longness-of-register-of—meaningfulness-and-teleology\textsuperscript{100} psychoanalytic-unshackling positive-opportunism—of-social-functioning-and-accordance\textsuperscript{97} can crossgenerationally be induced for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} despite the inherent circular distractiveness of temporality\textsuperscript{99}, and ultimately so as enabled by ‘social\textsuperscript{100} universal-transparency\textsuperscript{105} (transparency-of-totalising-entailing–as-to-entailing—\textit{amplituding/formative–epistemicity} totalising—in-relative-ontological-completeness\textsuperscript{88})’. The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory–de-mentativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicus, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency–aporia/undecidability/dilemma/ought-

Thus in reflecting holographically—conjugatively-and-transfusively— the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency—totalising—renewing-realisation/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema—reference-of-thought and introducing the prospective ontological-contiguity—reference-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human—totalising—purview-of-construal’. Such a temporal/shortness-of-register-of—meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event—as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/suberogatory—de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event—as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of—meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication-as-of-existential-unthought>—denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of preconverging—existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism—of-social-functioning-and-accordance it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care—and—episteme as of intemporality/longness behind ‘knowledge invention’
that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-teleology rather in postconverging-nonextricatory-existential-preempting-of-existential-unthought terms—as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care–and–episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adopt of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms—as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology. Likewise articulated as deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought relative to our positivism–procrypticism necessarily requires priorly the requisite apriorising-teleological-elevation-in-ontological-contiguity from positivism–procrypticism’s disjointedness-as-of-reference-of-thought mindset into deprocrypticism’s preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as otherwise such knowledge will be teleologically-degraded in circular positivism–procrypticism disjointedness-as-of-reference-of-thought terms—as-of-axiomatic-construct as of prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology, even though in the latter case our

sublimity/sublimation/supererogatory—de-mentativity-enabling purpose, even if that implies

postconverging–de-mentating/structuring/paradigming and not temporal extricatory
preconverging–de-mentating/structuring/paradigming. Put another way, for instance,
Newtonian physics doesn’t have any inherent 5 meaningfulness-and-teleology 100 as we can
appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with
an animistic social-setup as of the latter’s attitude/mental-disposition/care—and–episteme
underlying its 5 meaningfulness-and-teleology 100 thus requiring the latter’s prior apriorising-
teleological-elevation-in-ontological-contiguity 67 to a positivism/rational-empiricism
attitude/mental-disposition/care—and–episteme ‘for the notion of the mutual contemplation of
Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-
teleology\textsuperscript{(0)}, for-aposteriorising/logicising/deriving/intelligising/measuring—‘meaningfulness-and-teleology’\textsuperscript{(0)}. Thus an attitude/mental-disposition/care—and—episteme\textsuperscript{(5)} can pertinently be defined as the ‘assumed-and-unflinching apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument transversality\textsuperscript{(5)}<for-sublimating–existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ inducing a given specific nonpresencing—<perspective–ontological-normalcy/postconvergence> outcome with regards to prospective relative-ontological-completeness—or-incompleteness-of—‘reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of ‘meaningfulness-and-teleology\textsuperscript{(10)} associated with that attitude/mental-disposition/care—and—episteme\textsuperscript{(5)}; and so, whether such a framework is a ‘reference-of-thought as of overall construal-as-existence/existential-possibilities, or within a ‘reference-of-thought like a social projection <amplituding/formative—epistemicity> totalising—devolved—purview—as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or specifically with living-as-of-human-personality-developing. For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality\textsuperscript{(5)}<for-sublimating–existential-eventuating/denouement>—of—affirmative-and-unaffirmative—disambiguated—‘motif-and—apriorising/axiomatising/referencing’ as of the attitude/mental-disposition/care—and—episteme of positivism’s/rational-empiricism’s perceptivity—as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness—teleology\textsuperscript{(0)}—<in—preconverging—existential-extrication-as-of—existential-unthought> as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social—
setup. As construed within a given reference-of-thought, say in our positivism/rational-empiricism reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-developing. Attitude/mental-disposition/care–and–episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming—notionally—collateralising—beholding—protohumanity—to—‘attain-sublimating-humanity’—as—to—existence-potency —sublimating—nascence,—disclosed—from-prospective-epistemic-digression to supersede human temporality/shortness <amplituding/formative> wooden-language⟨imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology —as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications⟩⟩ to be able to achieve transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’, and so as of intemporality. With regards to living-as-of-human-personality-developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension that ultimately involves major stages like schooling, greater social autonomy and responsibility, and
developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{26} \textsuperscript{26} as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development--as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness \textsuperscript{26} \textsuperscript{26} by-reification/contemplative-distension \textsuperscript{26} is construed as the more profound attitude/mental-disposition/care--and--episteme\textsuperscript{5} for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care--and--episteme of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with ‘attitude/mental-disposition/care--and--episteme’ dispensing-with-immediacy-for-relative-ontological-completeness \textsuperscript{26} \textsuperscript{26} by-reification/contemplative-distension \textsuperscript{26}, for achieving transcendence-and-sublimity/sublimation/supererogatory-de-mentativity; humankind construes of existence as ‘more than just plain living as animals’ but as enabling for various domains of social projections dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{26} by-reification/contemplative-distension\textsuperscript{26} so-implied across the various registry-worldviews/dimensions, whether in an animistic social-setup involving animistic practices or in the modern social-setup as of our modern practices involving subject-matter specialisms, trade roles, functionaries, arts, research, sports and other activities, etc.; with each involving their specific attitude/mental-disposition/care--and--episteme\textsuperscript{5} dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{26} by-reification/contemplative-distension\textsuperscript{26}. The idea being that this provides more existential possibilities by the overall expanded human capabilities available directly or indirectly to fulfil individuals desires and needs. Finally the third-level reflects ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{7}—of-the-human-institutionalisation-process\textsuperscript{58} as of difference-conflatedness\textsuperscript{12}—as-to-totalitative-reification-in-singularisation\textsuperscript{<as-to-}
meaningfulness-and-teleology as such implies increasingly more profound-and-complete enabling framework of human emancipation as of technical and existential possibilities arising from prospective relative-ontological-completeness reference-of-thought. We can get an insight of registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme contrast as clarified in the preceding example as of the technical and existential emancipatory possibilities that can be contemplated with a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in an early hunter-gather social-setup inclined to construe of ill-health as bad omen; and appreciate that the human-subpotency is much more than stalling at any prior relative-ontological-incompleteness reference-of-thought registry-worldview/dimension, and so not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care–and–episteme can pertinently be defined as the ‘assumed-and-unflinching transversality transpiring as of the technical and existential emancipatory possibilities that can be contemplated with a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme.

It can be construed with regards to prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as a detrimental/structural/paradigmatic adjunctive-metaphoricity signification inducing-and-upholding a prospective ‘underlying superlative–amplituding/formative–epistemicity totalising/circumscribing/delineating signifying-construct as a prospective ‘underlying superlative–amplituding/formative–epistemicity totalising/circumscribing/delineating signifying-construct as 'reference-of-thought-devolving’. In other words, a registry-worldview’s/dimension’s "reference-of-

Such an ‘assumed-and-unflinching transversality-for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing\(^8\) has ultimately nothing to do with the deliberate willing of the relative-ontologically-veridical attitude/mental-disposition/care–and–episteme\(^2\). Again, as of human social-projection-institutional-orientations we know that subject-matter, trades and bureaucratic expertise come with a requisite implied attitude/mental-disposition/care–and–episteme\(^2\) in detachment from wooden-language-\{imbued–averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>-\} as we know that, everything being equal legitimately, it is the professional electrician as of its

The implication here is that as of its very ‘postconverging-nonextricatory-existential-

notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-
disposition/care–and–episteme underlies the very idea of intellectual-and-moral-
inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as
where one party does fulfils the attitude/mental-disposition/care–and–episteme of a given
institutionalisation’s reference-of-thought as of prospective relative-ontological-
completeness -of-axiomatic-construct-or- reference-of-thought and thus its corresponding
meaningfulness-and-teleology, and the other doesn’t as of prior relative-ontological-
incompleteness. This further explains why epistemic-breaks/epistemic-resetting arise with the
successive prospective institutionalisations in reflecting holographically-<conjugatively-and-
transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, wherein
for instance the positivism
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme of say a Galileo or Descartes is circularly beyond the
contention framework of scholasticism—meaningfulness-and-teleology, speaking of the
impossibility of logical-congruence between the positivists and scholastics with only the utter
dominance of positivism arising as of its ontological-primemovers-totalitative-framework
induced positive-opportunism—of-social-functioning-and-accordance as of scientific,
medical, technical advancements, free society, etc. that leads to the crossgenerational
collapsing of scholasticism. It is interesting to note here that such positivist scholars were
‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-
coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-
and-teleology while averting its denaturing by wrongly implying notional-
contiguity/epistemic-contiguity -<profound-supererogation -of-mentally-aestheticised-postconverging/dialectical-thinking –qualia-schema> with scholasticism. But rather implying notional-discontiguity/epistemic-discontiguity -<shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema> given the latter’s flawed preconverging–de-mentating/structuring/paradigming as of prior relative-ontological-incompleteness\(^6\)-of-\(^1\) reference-of-thought. The insight here is that more fundamentally knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating/supererogatory–de-mentativity above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality\(^2\)-for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing\(^10\) exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-primemovers-totalitative-framework\(^14\)

consciousness-awareness-teleology\textsuperscript{100}<in-preconverging-existential-extrication-as-of-existential-unthought>\textsuperscript{6}. This is equally reflected with regards to the prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implying knowledge proponents, as the very notion of implying a prospective transcendental conceptualisation as of organic-knowledge is one that undervalues the \textsuperscript{3}presencing—absolutising-identitive-constitutedness\textsuperscript{6}\textsuperscript{9} attitude/mental-disposition/care—and—episteme\textsuperscript{5} as of its social-stake-contention-or-confliction while the very notion of perceiving highly the \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} within a prior institutionalisation framework is one that is necessarily apprehensive and shallow-minded to the notion of a prospectively undermining prospective \textsuperscript{6}nonpresencing-\textsuperscript{6}\textsuperscript{9}<perspective—ontological-normalcy/postconvergence>\textsuperscript{8} sublimity/sublimation/supererogatory-de-mentativity episteme transcendence-and-attitude/mental-disposition/care—and—\textsuperscript{6}reference-of-thought\textsuperscript{5}\textsuperscript{6} supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument—for—conceptualisation. In addition, the disruptive uninstitutionalised-threshold\textsuperscript{103} contextualisation as of such divergent commitments and ‘lack of perceived constraining framework of logical-congruence\textsuperscript{12} of dialogue-equivalence<\textsuperscript{\textsuperscript{5}}as-to-psychologismic—apriorising/axiomatising/referencing—\{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity \}\textsuperscript{6}—conflatedness\textsuperscript{12—in—}\{preconverging-disentailment—by—\}—postconverging-entailment,—in-self-becoming/self—conflatedness /formative—supererogating>’ further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-teleology\textsuperscript{100}<in-preconverging-existential-extrication-as-of-existential-unthought>\textsuperscript{6}\textsuperscript{5} institutional-being-and-craft as of perceived vested interest, striving to undermine prospectively implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity meaningfulness-and-teleology\textsuperscript{100} attitude/mental-disposition/care—and—episteme\textsuperscript{5}. What is then the manifestation of such
intellectual undermining which must necessarily be understood as of knowledge-notionalisation required as of the notional-conflatedness of deprocriptism—or—preempting—disjointedness-as-of-reference-of-thought protensive-consciousness? ontological-bad-faith/inauthenticity as of its charlatanic effect fundamentally involves the undermining at any human uninstitutionalised-threshold of the possibility of intellectually induced social universal-transparency—{(transparency-of-totalising-entailing,-as-to-entailing-
faith/inauthenticity as of its charlatanic effect undermines, as of beyond-the-consciousness-awareness-teleology-<preconverging-existential-extrication-as-of-existential-unthought>, the articulation of meaninglessness-and-teleology as of prospective maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation that could jeopardise pre-established temporal interest, and cultivating rather incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation as of prior reasoning-from-results/afterthought in overlooking concurrent ontological-prime movers-totalitative-framework strife to uphold-and-promote the ‘superior party’ which is the nonpresencing-<perspective–ontological-normalcy/postconvergence> of existence/intrinsic-reality/ontological-veridicality; with such intellectual-bad-faith rather advancing such an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation accommodating framework for strategically cultivating pre-established temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-prime movers-totalitative-framework, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation that in many ways could just as well validate wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable—void—'with-regards-to-prospective-apriorising-implications}> and untransvaluated–temporal-intemporality attitude/mental-disposition/care— and episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge
coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and pedantising/muddling/formulaic-hollowing-out—
in-subontologisation/subpotentialiation-{blurring/undermining-of-prospective-totalising-

relative-ontological-incompleteness enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory-de-mentativity. This poor scepticism attitude/mental-disposition/care—and—episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has <preconverging—motif-and-apriorising/axiomatising/referencing—imbuing—
existentionalising—enframing/imprintedness{as-to— historicity-tracing—in-
presencing—hyperrealisation/hyperreal-transposition} implications as of the forestalling of prospective ‘concurrent ontological-primemovers-totalitative-framework’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Rather the attitude/mental-disposition/care—and—episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative—epistemicity—totalising—devolved—purview/domain-of-
construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms—of-

upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation.

While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness\textsuperscript{82}, ontological-bad-faith/inauthenticity\textsuperscript{4} scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness\textsuperscript{88}, <amplituding/formative–epistemicity>causality\textsuperscript{as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity\textsuperscript{7} and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidious passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{82}-by-reification/contemplative-distension\textsuperscript{26}, a perfidious ontological-bad-faith/inauthenticity\textsuperscript{4} scepticism involves eliciting a sense of immediacy and temporality\textsuperscript{27}/shortness as of <amplituding/formative> wooden-language\textsuperscript{imbued—averaging-of-thought<as-to- leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology -as-of- ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} and untransvaluated–temporal-intemporality\textsuperscript{2} social-chainism as ‘developed thought’, thus deflating the requisite dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{82}-by-reification/contemplative-distension\textsuperscript{26} intemporal detachment/backstep for transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{de-mentativity}. In this latter respect, and for the possibility of prospective social transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{de-mentativity and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness\textsuperscript{81} as of preceding intemporal dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{82}-by-reification/contemplative-distension\textsuperscript{26},
and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness\(^5\). ontological-bad-faith/inauthenticity\(^4\) ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness\(^3\) but of a poor conception outside the prospective relative-ontological-completeness\(^3\) behind such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^9\), are but denaturing\(^5\) and down the line equally undermines prospective relative-ontological-completeness\(^8\) for the further emancipation of human social practices. The fact that many that are institutionally anchored may speak otherwise or naively against such a stance doesn’t diminish in any way the ‘natural appropriateness’ of such a job description as of human intemporal/ontological/social/species/ universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—inenframed-conceptualisation postconverging-de-mentating/structuring/paradigming, but rather speaks of a poverty of institutionalisation that creeps into institutional anchors as of their reasoning-from-results/afterthought constructions subject to temporal/shortness-of-register-of-meaningfulness-and-teleology denaturing of reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. In this regard, their successive profoundness as of their ‘successive (uncircumscribing/undelineating-as-‘epistemic-totality’ with recurrent-utter-uninstitutionalisation) circumscribing-as-‘epistemic-totality’-or-delineating-as-‘epistemic-totality’ existential–epistemic-totalisation-scheme-of-‘meaningfulness-and-teleology’ speaks of more and more profound convergence-as-of-accumulation of human-subpotency grasp of the full-potency of existence coherence/contiguity. It should be noted as well that the afore is focused on the abstract reference-of-thought/epistemic-totalisation level of différance/internal-dialectics/difference-deferral, as it is actually reflecting ‘the backdrop construed as human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming-as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’ for the effectively devolving différance/internal-dialectics/difference-deferral teleological process of meaningfulness; given that the abstract reference-of-thought/epistemic-totalisation level so-established rather enframes teleologically-devolving-as-drifting meaningfulness with regards to ‘social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective’ construed from notional–deprocrypticism deneuterising’, to fully reflect the ontological-veridicality of mental-states as of affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking – apriorising-psychologism> and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing –apriorising-psychologism> stranding dialectics. For instance, reflecting in an early hunter-gatherer society the ‘candid existential expressiveness’ of how one is suffering from bad omen on the backdrop of its ‘recurrent-utter-uninstitutionalisation totalising/circumscribing/delineating <amplituding/formative–epistemicity> reference-of-

This analysis conveys the reality of human crossgenerational institutional-cumulation/institutional-recposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing,<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism’}> due to the impossibility of the very first humans as of their limited-mentation-capacity and yet inexperience/unaccumulated-experience to be able to reason more than their initial apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument will permit as of their state of recurrent-utter-uninstitutionalisation ‘non-rules—apriorising/axiomatising/referencing–psychologism, as-impulsive-or-accidented-or-random- mental-disposition’, and hence their construal of ‘meaningfulness-and-teleology’ as of ‘their relative ‘neuterising’. Likewise the ultimate possibility of human crossgenerational institutional-cumulation/institutional-recposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing,<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism’}> as enabling the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of notional–deprocrypticism/<amplituding/formative>notional–preempting—disjointedness-as-of-reference-of-thought is the backdrop for deneuterising—referentialism enabling the full transparent ontologically-veridical elucidation of human meaningfulness-and-teleology construed as of ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing,<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism’>; as of the possibility of deneuterising. In the bigger scheme of things, as of the notional–conflatedness of notional–deprocrypticism as deneuterising—referentialism, what
break/epistemic-resetting; with the latter arising as a result of lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human-amplituding/formative-epistemicity-totalising-purview-of-construal’ as of the variance of uninstitutionalised-threshold prior relative-ontological-incompleteness of-reference-of-thought and prospective institutionalisation relative-ontological-completeness -of- reference-of-thought. For instance, such epistemic-break/epistemic-resetting associated with the overall ontological-contiguity—of-the-human-institutionalisation-process necessarily explains the ‘mutually transversality-for-sublimating-existential-eventuating/denouement-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing’ unintelligibility’ of the Galileos, Newtons, Diderots episteme articulating prospective positivising/rational-empiricism meaningfulness-and-teleology and the Establishment scholasticism medieval dogmatic episteme. The implication here is that the articulation of transcendence-and-sublimity/sublimation/supererogatory-dementativity as of reference-of-thought is by itself tied up to a prospective epistemic disruption, construed as of soundness-or-ontological-good-faith/authenticity-of-reference-of-thought, beyond just grounded knowledge as of the prior episteme which is rather construed as of unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought. Such transcendental epistemic-breaks/epistemic-resetting arise because humankind is subpotent as of its knowledge-constructs/theories/intersolsipsistic-intercessory-notions/notional-referential-notions/articulations/virtue to the full-potency of existence, and in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to
existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency\textsuperscript{104} \textsuperscript{104}\textsuperscript{105}\textsubscript{(transparency-of-totalising-entailing,-as-to-entailing-}\textsubscript{<amplituding-formative–epistemicity>totalising–in-relative-ontological-completeness}), an apparent episteme as of ‘axiomatic commonness-in-sharedness of human\textsuperscript{50} meaningfulness-and-teleology\textsuperscript{100} with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human\textsuperscript{amplituding-formative–epistemicity>totalising–purview-of-construal’’ arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{84} reference-of-thought point to more profound reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity\textsuperscript{4} between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human\textsuperscript{50} meaningfulness-and-teleology\textsuperscript{100} with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to- ‘human\textsuperscript{amplituding-formative–epistemicity>totalising–purview-of-construal’’ with respect to social universal-transparency\textsuperscript{104} \textsuperscript{104}\textsuperscript{105}\textsubscript{(transparency-of-totalising-entailing,-as-to-entailing-}\textsubscript{<amplituding-formative–epistemicity>totalising–in-relative-ontological-completeness}); and so more than just as of beyond-the-consciousness-awareness-teleology\textsuperscript{99}<in-preconverging–existential-extrication-as-of-existential-unthought>\textsuperscript{6}, but further because as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence’’—existentialism-form-factor, there is ‘a drift from the ideal of knowledge agents only as ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’
towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ across the entire social spectrum as of notional–episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity —of-the-human-institutionalisation-process as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency-limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, antinihilism and transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-
threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology - <in-preconverging-existential-extrication-as-of-existential-unthought> undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of meaningfulness-and-teleology ontological-performance - <including-virtue-as-ontology> turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology ontological-performance - <including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-and-teleology as of ontology’s-directedness-as-Being going by the human intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality/shortness or intemporality; such that even the budding-positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their

That is, engaging a non-positivism registry-worldview/dimension with respect to say notions-and-accusations-of-sorcery on its same terms in case of an accusation of sorcery to imply the other is the sorcerer, etc. will sound more credible as of its wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications} in a non-positivism social-setup than say projecting to prospective positivism registry-worldview/dimension and implying that notions-and-accusations-of-sorcery are not real speaking of both the defect of such accusation and the defective superstitious wooden-language-imbued—averaging-of—thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications} in the non-positivism social-setup. Ultimately, such a profound phenomenological totalising—conflated—meaningfulness-and-teleology—as-of—notional—deprocrypticism-reflected—historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism-determinism’> ontological-performance—<including-virtue-as-ontology> construal faced with the inherent dogmatic and psychological biases of human (I exist therefore existence is of transcendental-enabling/sublimating/supercerogatory—de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance—<including-virtue-as-ontology>) in many ways necessarily has to project out of ‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human
imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual synergy that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework construal as implied with notional-deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance -<including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory–de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance) implies the need for a sound perpetuating construct of universal projection as intemporality-or-longness-of-register-of–meaningfulness-and-teleology as the opportunity for prospective transcendental-enabling/sublimating/supererogatory–de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublimates presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal
implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory–dementativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive dementative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s apriorising/axiomatising/referencing- {of-attendant–ontological–contiguity -educed–existentialising/contextualising/textualising-contiguity }= constitutedness -in–preconverging-entailment to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–d–mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance –<including-virtue-as-ontology>) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’
were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation in meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence–langle implicited-epistemic-veracity-of- nonpresencing–langle perspective–ontological-normalcy/postconvergencerangle as of notional–deprocripticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence–langle implicited-‘nondescript/ignorable–void ’-as-to- presencing–absolutising-identitive–constitutedness } framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. Transcendence-and-sublimity/sublimation/superceratory–de-mentativity as implied here is with regards to reference-of-thought/epistemic-totalisation level ‘reference-of-thought—devolving–teleological-de-mentating/structuring/paradigming–of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-

Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory—de-mentativity rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise meaningfulness-and-teleology failing to factor in that ‘existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness-to—meaningfulness-and-teleology all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of meaningfulness-and-teleology to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of meaningfulness-and-teleology in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-deepening arising in further apriorising/axiomatising/referencing—of-attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity—in—preconverging—disentailment—by—postconverging—entailment as of human maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation in an exercise of amplituding/formative—epistemicity—totalising—renewing—realisation/re-perception/re-thought that re-projects-or-re—

But then an adjunctive-metaphoricity -signification so produced as reflected by ‘a transcendental syncretising-effecting “meaningfulness-and-teleology” like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in due-course/crossgenerationally to be of an even greater meaningfulness-and-teleology
teleology, its adjunctive-metaphoricity-signification can be construed as of the historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism> of crossgenerational positivism/rational-empiricism reappropriation of the ancient mathesis universalis metaphoricity as its very own ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’ ‘behind the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant <amplituding/formative-epistemicity>totalising/circumscribing/delineating construct of meaningfulness-and-teleology. Existence itself as the absolute a priori underscores such a conception given the human species sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing~as-to-possibilities-of-self-becoming-as-of-'existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe meaningfulness-and-teleology as not self-referentially covered by the ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’, they will inevitably articulate adjunctive-metaphoricity-significations to that prior ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’.

This explains the lockstep nature of human meaningfulness-and-teleology and language, with the latter as the former’s signification mirroring, such that institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-

‘underlying-amp;formative-epistemicity-totalising/circumscribing/delineating
signifying-construct of languages’. In another respect with regards to language acquisition as
mirroring a child’s existential integration into the dynamics of social-construct existential
situations/instances, stakes, institutions and processes, a new born child existential integration
into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity-significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-freeplay’ construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered
process of social existential overtures constraining-and-cohering the child’s adoption-
of/integration-with the supposedly ‘underlying-amp;formative-epistemicity-totalising/circumscribing/delineating
signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity
where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful
utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s
adoption/integration at various stages of its existential development of the ‘underlying
signifying-construct of language’ as it is reflected by the dynamics of social-construct existential
situations/instances, stakes, institutions and processes. But then as might be
phenomenologically appreciated the notion of language as of its existential import is thus
utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather
‘immensely existentially present’ with an ‘absolute language signification construct imagery
rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment‘ implying self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming as-being-as-of-existential-reality> for its evolving-and-devolving construct of meaningfulness-and-teleology¹⁰⁰! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the <amplituding/formative–epistemicity>totalising–self-referencing-synchronising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-social meaningfulness-and-teleology¹⁰⁰’, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay’ with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes
from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’. Metaphoricity is thus rather construed as of its overall apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity } conflatedness in {pre-converging-disentailment by} post-converging entailment

<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and together with its associated adjunctive-metaphoricity-significations. Overall, human explicit and implicit signification as of language as articulated above is equally reflected in human aesthetics/arts like music and even science. Ultimately, human adjunctive-metaphoricity–significations apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity-

The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay\} as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon/projection of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence \{historiality/ontological-eventfulness /ontological-aesthetic-tracing<\perspective–ontological-normalcy/postconvergence-reflected-\epistemicity–relativism–determinism>\}. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms–as-of-axiomatic-construct of its end-
purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon/projection driven basis for ontological-construction’, and so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon/projection as of its ‘non-recording and negation’ of a ‘diverse-and-complete existential effecting possibilities accountability for ontological-construction’, and rather assuming the approach of a ‘select privileged historiality/ontological-eventfulness /ontological-aesthetic-tracing<<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’> ontological-construction’, instead incompletely portrays the operant reality of humanity’s existence as of the cumulation of successive humanity’s <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as implied with the various institutionalisations finalities. But then while that is pertinent, and so with regards to the successive institutionalisations outcomes of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity’—of-the-human-institutionalisation-process’ as of difference-conflatedness ‘-as-to-totalitative-reification-in-singularisation,<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing->-as-veridical-epistemicity-relativism-determinism <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’ as successive transcendental outcomes, so reflected by the ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing<<perspective–ontological-
and contributions that ultimately brought about these two successive amplituding/formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construed as the historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’> of the différance. The implication here resonates with the idea that knowledge is much more than the construal of conceptual sublimation knowledge outcome, but rather its construal as notional-knowledge involving the dynamic understanding of both its temporality/misconstrual/desublimation and intemporality-as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising — referentialism and thus beyond ‘neuterising’ reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing of the uninstitutionalised-threshold and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporality-as-ontology but involves grasping this together with the implications of temporality, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential meaningfulness-and-teleology signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon/projection that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon/projection tend to be in apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity }=constitutedness—in-preconverging-entailment. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay is
the existentially veridical and effective basis for reflecting historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism> transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful meaningfulness-and-teleology. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology;<in-preconverging-existential-extrication-as-of-existent-unthought>; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality/longness doesn’t take its due place, it is occupied by ignorance as of human temporality/shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. Basically, just as the adjunctive-metaphoricity-signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricity-signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human

Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional—confoundedness of notional—deprocripticism deneuterising—referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-freeplay and is the maximal ontologically veridical articulation of apriorising/axiomatising/referencing—of-attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—confoundedness—in—preconverging—dissentilation—by—postconverging-entailment that ‘undermines the privileging of an <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag as of its ubiquitous-protractedness as to de-mentative/structural/paradigmatic ‘ontological-contiguity or difference-of-kind’ disposition, and so beyond just reflecting such—absolutising-identitive—constitutedness privilege undermining as of transcendental outcomes implied by—historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence—reflected—epistemicity—relativism—determinism. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of apriorising/axiomatising/referencing—of-attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—confoundedness—in—preconverging—dissentilation—by—postconverging-entailment, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative—epistemicity>totalising—self-

Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon/projection, such that as of a

Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness in [pre-converging-disentailment by] post-converging entailment of accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon/projection implications’ with regards to meaningfulness-and-teleology, and so as disambiguating presencing—absolutising-identitive-constitutedness from nonpresencing—<perspective–ontological-normalcy/postconvergence> by their respective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness of.

With the reality that \(^{61}\) nonpresencing-<perspective–ontological-normalcy/postconvergence> is wrongly-and-unsuspectingly given as of common \(^{80}\) presencing—absolutising-identitive-constitutedness\(^{13}\), thus inducing a relative ontologically-flawed quasi-transcendental freeplay as \(^{80}\) nonpresencing-<perspective–ontological-normalcy/postconvergence> is rather in notional-discontiguity/epistemic-discontiguity \(-\) <shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema> when analysed as of \(^{80}\) presencing—absolutising-identitive-constitutedness\(^{13}\). 'prospective-aporeticism-overcoming/unovercoming'. So because at the point of transcendence-and-sublimity/sublimation/supererogation—de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective—ontological-normalcy/postconvergence—implied—'prospective-aporeticism-overcoming/unovercoming'> and not make any determination priorly, even as of freeplay. We can appreciate that the medieval mindset reasons in terms of medievalism–non-positivism just as we reason in terms of our positivism–procrypticism mindset. The question can thus be asked is there more profound meaningfulness-and-teleology beyond any given registry-worldview/dimension mindset divulgeable by existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming>? It is herein that we get into the realm of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) inducible apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In other words, under sufficient constraint of existence/existential-reality—itself given its absolute a priori status, as reflected by ontological-primemovers-totalititative-framework/contingency, human intemporal individuation is predisposed to put in question even a ‘registry-worldview’s/dimension’s reference-of-thought <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential—epistemic-totalisation-of—meaningfulness-and-teleology as of a reconstrual of reference-of-thought and devolving-axiomatic-constructs implications, and so as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. This insight about ontological-faith-notion-or-ontological-fideism—imbued—
underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality further reveals that prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> implies prospective renewal of attitude/mental-disposition/care–and–episteme, as of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) which at once draws out the renewed implications of what qualifies as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking–apriorising-psychologism> and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing–apriorising-psychologism> respectively as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought and prior relative-ontological-incompleteness. In this regard we can imagine as of the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness-of-reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
developments in physics since then, even though its ‘meaningfulness-and-teleology’ remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension ‘reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology.<in-preconverging-existential-extrication-as-of-existential-unthought> As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuation-ontological-performance<including-virtue-as-ontology>; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance<including-virtue-as-ontology>). The implied notion of human emancipation is always being articulated in an
existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20th century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18th and 19th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocrypticism–or–preempting–disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care–and–episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology,<in-preconverging-existential-extrication-as-of-existential-unthought>,’ that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care–and–episteme for more profound-and-complete meaningfulness-and-teleology. While such an
inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into meaningfulness-and-teleology as grounded on a given ‘registry-worldview’s/dimension’s reference-of-thought epistemicity>totalising→self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of—meaningfulness-and-teleology as well as the ‘psychological comfort’ habituated at the given neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism is exactly the capacity to construe meaningfulness-and-teleology as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication-as-of-existential-unthought> arising as of human prior relative-ontological-incompleteness—of—reference-of-thought. The fact is the ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality apriorising/axiomatising/referencing—{of-attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—conflectedness—in—{preconverging-disentailment-by—postconverging-entailment} implication with respect to existence-
potency\textsuperscript{18}–sublimating–nascence, disclosed from prospective epistemic digression is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior\textsuperscript{7}–nonpresencing–<perspective–ontological-normalcy/postconvergence> as if of absolute certainty, so construed as reasoning from results/afterthought. But then veridical absolute certainty is ever a promise always held in prospective existence–potency\textsuperscript{18}–sublimating–nascence, disclosed from prospective epistemic digression relative ontological completeness\textsuperscript{18} of apriorising/axiomatising/referencing, and so as of the certainty of human limited mentation capacity prospective relative ontological completeness\textsuperscript{18}–of-axiomatic-construct-or--reference-of-thought\textsuperscript{8}–<amplituding/formative–epistemicity> causality as to projective totalitative implications of prospective nonpresencing, for explicating ontological contiguity for transcendence and sublimity sublimation supersrogatory de-mentativity, implied as of intemporal preservation entropy or contiguity or ontological preservation. This explains why ontology’s directedness as Being is the direction of meaningfulness and teleology\textsuperscript{100} grounding as always prospective as of prospective relative ontological completeness\textsuperscript{18}–of-reference-of-thought; and so, as of the successive base institutionalisation, universalisation, positivism and notional deprocrypticism registry worldviews/dimensions nonpresencing–<perspective–ontological-normalcy/postconvergence> respectively as successive meaningfulness and teleology\textsuperscript{100} grounding for recurrent utter uninstitutionalisation, base institutionalisation ununiversalisation, universalisation non positivism medievalism, and positivism procrypticism presencing absolutising identitive constitutedness\textsuperscript{11}. Interestingly we can appreciate that the attitude mental disposition care and episteme as of relevant existential issues of all the prior registry worldviews/dimensions reference-of-thought are wanting as relatively ontologically flawed from our positivism procrypticism as prospective perspective framing reference horizon projection of meaningfulness and teleology\textsuperscript{100}.

However, we are hard-pressed to concede that from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{10} as of prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought as of its prospective relative-ontological-completeness—of—reference-of-thought, our positivism—procrypticism is wanting—as-relatively-ontologically-flawed; as by reflex every registry-worldview/dimension is inclined to hang on to a delusion of the results-as-afterthought of prior nonpresencing—\textless perspective—ontological-normalcy/postconvergence\r

Thus, induces its specific \textgreater neuterising as it fails to construe of meaningfulness-and-teleology\textsuperscript{10} projectively as of prospective existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing. The implied \textless maximalising—recomposing—for-relative-ontological-completeness\textsuperscript{8}—unenframed—conceptualisation notion also underscores the postmodern conception of human-subject-emancipatory-relativism-driven—recomposing—constructivism-towards-singularisation—\textless as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing\textgreater with regards to any \textless amplituding—formative—epistemicity\textgreater totalising—devolved—purview—as-domain-of-construal—as-intrinsic-reality/ontological-verbatim, as fundamentally driven as to existence-potency—sublimating—nascence—disclosed—from-prospective-epistemic-digression as so validatable by their ontological-prime-movers-totalitative-framework. Hence it is more real in its human-subject-emancipatory-relativism-driven—recomposing—constructivism-towards-singularisation—\textless as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing\textgreater understood as a double-gesture reification for prospective relative-ontological-completeness\textsuperscript{8}—
conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness of reference-of-thought. It is human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness of reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-primemovers-totalitative-framework by existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening for human emancipation. Thus implying existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression is ‘not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation directed directly to inherent-existence-as-of-existential-reality/existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human limited-
mentation-capacity-deepening bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing’ of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising meaningfulness-and-teleology that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective meaningfulness-and-teleology’ as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing that led to human limited-mentation-capacity-deepening. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness of-axiomatic-construct-or-reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity—of-the-human-institutionalisation-process behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal amplituding/formative–epistemicity totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon/projection for grasping prospective meaningfulness-and-teleology; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon/projection. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence (implicated–nondescript/ignorable–void as-to-presencing—absolutising-identitive-constitutedness)/illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical meaningfulness-and-teleology. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human preconverging/postconverging–de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation–as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing–limited-mentation-capacity-deepening to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance—including-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing

The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care–and–episteme’ as of its procrypticism–or–disjointedness-as-of-reference-of-thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ which prospectively represents the modern as preconverging–or-dementing–apriorising-psychologism while the postmodern is postconverging–or–dialectical-thinking–apriorising-psychologism; as the point of assertion of postmodern-thought as deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought is actually a point of prospective de-mentation supererogatory–ontological–de-mentation–or–dialectical–de-mentation—stranding–or–attributive-dialectics. Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/‘constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus
the ontologically affirmatory position adopted herein as of the prospective ‘postmodern

Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding-positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the latter’s institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for universal-transparency—⟨transparency-of-totalising-entailing—as-to-entailing—ampituding/formative—epistemicity⟩totalising—in-relative-ontological-completeness as of overall underlying human ontological-commitment—⟨implied—self-assuredness-of-ontological-good-faith/authenticity⟩~postconverging—dementating/structuring/paradigming—as-being-as-of-existential-reality for relative-ontological-completeness; it is inevitably the case that what is most critically warranted is for the ‘prospective/new postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme’ to articulate its full-fledged discourse as of universal-transparency\textsuperscript{10}–\{transparency-of-totalising-entailing–as-to-entailing-\textlangle amplituding/formative–epistemicity\textrangle totalising–in-relative-ontological-completeness\} as of the liberality of thought allowed for in open society notwithstanding such extra-intellectual and media-driven perverted representation of postmodern-thought. The reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturesness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective de-mentative/structural/paradigmatic transcendental knowledge by its so-projected intemporality\textsuperscript{12}, at the uninstitutionalised-threshold\textsuperscript{13}, is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the lack of universal-transparency\textsuperscript{10}–\{transparency-of-totalising-entailing–as-to-entailing-\textlangle amplituding/formative–epistemicity\textrangle totalising–in-relative-ontological-completeness\} for its prospective institutionalisation. Critical for the social validation and institutionalisation of any de-mentative/structural/paradigmatic transcendental knowledge is the fact that its ‘concurrent ontological-primemovers-totalitative-framework\textsuperscript{73}’ is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold\textsuperscript{13} cannot adjudge-and-commit-to the ontological-pertinence of such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework’ of the prospective positivism/rational-realism transcendental knowledge articulated by the Copernicus, Descartes, Galileo, Diderots, etc. as \textsuperscript{11}meaningfulness-and-teleology\textsuperscript{00} of prospective relative-ontological-completeness–of–reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-
Such ‘concurrent ontological-primemovers-totalitative-framework’ was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-primemovers-totalitative-framework’ is only more or less determinant as of the institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’. However, at its uninstitutionalised-threshold the prospective ‘concurrent ontological-primemovers-totalitative-framework’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation’s <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology.-<in-preconverging-existential-extrication-as-of-existential-unthought> . This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity
as of prospective relative-ontological-completeness\(^3\). Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework\(^7\)’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal \(^{1}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^{100}\) of its \(^{4}\) <amplituding/formative–epistemicity>totalising/circumscribing/delineating \(^{8}\) reference-of-thought- devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold\(^0\) as external/prospective \(^{1}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^{100}\) of its \(^{4}\) <amplituding/formative–epistemicity>totalising/circumscribing/delineating \(^{8}\) reference-of-thought- devolving’, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework\(^7\)’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism—of-social-functioning-and-accordance\(^7\) that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-derived-from their notions of \(^{104}\) universal human rights and open society, technical advances,
better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary-as-unenframed/unbeholding/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking -‘projective-insights’/‘epistemic-projection-in-conflectedness ’-of-notional–deprocrypticism-prospective-sublimation) ) originary/event -of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating -(<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflectedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern-day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all
ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance -<including-virtue-as-ontology>- any ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’. Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ warrants that postmodern-thought hitherto articulated beyond-the-consciousness-awareness-teleology -<in-preconverging-existential-extrication-as-of-existential-unthought> in terms–as-of-axiomatic-construct of the ‘modern take attitude/mental-disposition/care–and–episteme’, need to be translated-as-reconceptualised into its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ as of its own truly postmodern organic-knowledge. The fact is that organic-knowledge is fundamentally driven as of attitude/mental-disposition/care–and–

apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care—and—episteme’ crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care—and—episteme, as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought is rather a notional–conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care—and—episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness of reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument. In this regard, central to translating—as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care—and—episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-

<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> is so with regards to the inherent ontological sublimating human possibility in existence/intrinsic-reality/ontological-veridicality as to human-subpotency implied human potential, and so as emphasised and reflected with regards to the need for human limited-mentation-capacity-deepening
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implied as of ‘the reality of human shallow-to-deeper limited-mentation-capacity apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implications’ on the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, in defining which 

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is ‘relevant as the attitude/mental-disposition/care–and–episteme’ of wholly immersed-and-engrossed 56 meaningfullness-and-teleology. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of- reference-of-thought doesn’t mean a wholly immersed-and-engrossed 56 meaningfullness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity”. Thus to fully grasp what is implied here ontologically by
attitude/mental-disposition/care–and–episteme’, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality—for-sublimating–existential-eventuating/denouement—of-affirmative-and-unaffirmative–disambiguated—motif-and-apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology’ as of their given neuterising-as-of-prior-relative-ontologicl-incompleteness-of-reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme’ or deneuterising-as-of-prospective-relative-ontological-completeness-of-reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’, whilst the ‘present attitude/mental-disposition/care–and–episteme’ is then rather adhocly-and-scantily identified now as either deneuterising if it in relation to the prior/old/superseded or neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of attitude/mental-disposition/care–and–episteme means ‘to be or exist as of the given registry-worldview/dimension reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-disposition/care–and–episteme’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care–and–episteme’.

infrastructure-of—meaningfulness-and-teleology\textsuperscript{100}. In reflecting holographically—conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100}, successive institutionalisations reflect ‘successive and changing conceptions of human-subpotency existential scope’, and so from recurrent-utter-uninstitutionalisation as ‘the most supernatural/mythical/idolised conception of human-subpotency existential scope’ to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} as of prospective notional–deprocrypticism as the most ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’. Insightfully, what is critical about ‘the conception of human-subpotency existential scope’ is the paradoxical fact that the more waywardly supernatural/mythical/idolised it is, the least potent has been human-subpotency mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human<amplituding/formative–epistemicity>totalising—purview-of-construal’, while the more waywardly realistic/authentic/unexceptional-as-of-the-mediocrity-principle it is, the more potent has been human-subpotency in its mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human<amplituding/formative–epistemicity>totalising—purview-of-construal’. Effectively, ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ implied notional–deprocrypticism is about a radicalisation of the ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—
it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness\textsuperscript{-of-} reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold\textsuperscript{03} which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold \textsuperscript{03}. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of \textsuperscript{13}amplituding/formative–epistemicity\textsuperscript{-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}} untransvaluated–temporal-intemporal\textsuperscript{2} at its ontologically-veridical uninstitutionalised-threshold \textsuperscript{03}, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold\textsuperscript{03} pointing to its prior relative-ontological-incompleteness\textsuperscript{-of-} reference-of-thought. Thus, the manifestations of temporality\textsuperscript{9}/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold \textsuperscript{03} are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of–\textsuperscript{56}meaningfulness-and-teleology\textsuperscript{90} posture in \textsuperscript{4}amplituding/formative–epistemicity\textsuperscript{-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}, rather than a recognition of it prior relative-ontological-incompleteness\textsuperscript{-of-} reference-of-thought, implying recognising its uninstitutionalised-threshold \textsuperscript{03} with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, as knowledge-notionalisation not only factors in conceptual sublimation knowledge dynamics but equally the dynamics of the conceptual ignorances/desublimation to better skew \textsuperscript{5}meaningfulness-and-
teleology\textsuperscript{10} towards intemporality /longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, the ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ grounded on such rational-realism recognition of humankind temporal-to-intemporal nature at its uninstitutionalised-threshold \textsuperscript{13} is actually ‘effectively empowered’ to incisively tackle issues arising from human temporality\textsuperscript{19}/shortness as of its prospective de-mentative/structural/paradigmatic prospective relative-ontological-completeness\textsuperscript{8}-of- reference-of-thought; and so beyond just \textit{<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} and ad-hoc palliative resolution of a ‘modern take attitude/mental-disposition/care–and–episteme’ very much inclined to aberrational/oddities conceptioning of such temporality /shortness manifestations thus leading to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take attitude/mental-disposition/care–and–episteme’ is de-mentatively/structurally/paradigmatically disempowered to address issues of its temporality\textsuperscript{19}/shortness as of the vices-and-impediments\textsuperscript{10} at its uninstitutionalised-threshold\textsuperscript{10}. So because its \textit{<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} is ‘existentially invested’ in modern social-stake-contention-or-confliction framework of meaningfulness-and-teleology\textsuperscript{10} as of procrypticism–or–disjointedness-as-of- reference-of-thought from where it derives its value-construct and value-reference, as it hardly countenances
that prospective transcendental knowledge implied value-construct and value-reference is not meant to be of ‘idle’ relevance to the modern social-stake-contention-or-confliction framework but rather redeploy an altogether empowering perspective of prospective relative-ontological-completeness of reference-of-thought postmodern social-stake-contention-or-confliction framework of meaningfulness-and-teleology of value-construct and value-reference at the procrypticism uninstitutionalisation. Such prospective change as of de-mentation of attitude/mental-disposition/care–and–episteme can be appreciated retrospectively with respect to non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme which from our modern take attitude/mental-disposition/care–and–episteme we rather construe as vague scholastic pedantic dogmatism with regards to budding-positivism/rational-empiricism, but then such a conclusion as of their non-positivism/medievalism habits and traditions is not necessarily obvious to the non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme. Ultimately, a notional–deprocrypticism coherent ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ is one that comes into terms—as-of-axiomatic-construct in conceiving of the implied prospective need for deneuterising—referentialism. This equally points to what is the central ethos of aetiologisation/ontological-escalation implied as of ‘notional–deprocrypticism attitude/mental-disposition/care–and–episteme\textsuperscript{5} as of ontological-normalcy/postconvergence epistemic perspective in postconverging-nonextricatory-existential-preempting-of-existential-unthought’; as much more than just with regards to a resolutory conception of acts and miscuings in temporality/shortness as of themselves circumstantially, but rather as of the relevance to myriad human social situations is much more critically an issue of universal import, escalated as of humankind’s temporal ontological-contiguity\textsuperscript{57} as beyond-the-consciousness-awareness-teleology\textsuperscript{100} \textless in-preconverging-existential-extrication-as-of-existential-unthought \textgreater attitude/mental-disposition/care–and–episteme with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity\textsuperscript{39}–in-reification/dereification cognisant-and-integrative of such acts and miscuings in temporality\textsuperscript{9}, thus endemising and enculturating the reference-of-thought vices-and-impediments\textsuperscript{106}. It is this naivety that underlines the Heideggerian techne concern as we fail to appreciate that the technical and organisational possibilities preceding and associated with a registry-worldview/dimension prospective institutionalisation transitioning of meaningfulness-and-teleology need to be rethought as of the prospective institutionalisation attitude/mental-disposition/care–and–episteme

These induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity later on became prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inceptive emancipatory inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,—as—spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and so as of prospective projection as implied with the ontological-contiguity of-the-human-institutionalisation-process, but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and ontological-good-faith/authenticity. However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation notion
of philosophy, it is herein contended that this relatively deficient analysis reflects the fundamental ontological-deficiency of subsequent philosophies influenced by Kantian philosophy which is rather ‘as a projection within the very same intelligible Cartesian/budding-positivists induced rational-empiricism/positivism registry-worldview’s/dimension’s supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument –for-conceptualisation’ failing to conceive of the ontological-veracity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process—a dimensionality-of-sublimating—{

In this regards, we can appreciate that all human meaningfulness-and-teleology arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by
Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance—including-virtue-as-ontology. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern-day science ontologisation; and besides, it can equally perfectly be claimed that even our modern-day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to wooden-language—imbued—averaging-of-thought—meaningfulness-and-teleology—as-of—

ontologically-flawed disparateness-of-conceptualisation\<unforegrounding-disentailment,\> failing-to-reflect-‘immanent-ontological-contiguity’ whether with the Ancient-sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the universalising-idealisation\<meaningfulness-and-teleology\> infrastructure of the Socratic-philosophers and their successors as providing the appropriate \<meaningfulness-and-teleology\> infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced \<meaningfulness-and-teleology\> infrastructure of budding-positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunist activities distortive of budding-positivism \<meaningfulness-and-teleology\> infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with ‘transvaluation as \<amplituding/formative–epistemicity\> causality\<as-to-projective-totalitative–implications-of-prospective–nonpresencing,–for-explicating-ontological-contiguity\> in reflecting holographically-\<conjugatively-and-transfusively\> the ontological-contiguity\<of-the-human-institutionalisation-process\> anamnesis as of difference-conflatedness\<as-to-totalitative-reification-in-singularisation\> underlying the human construction-of-the-Self’ and on the other hand ‘the effective ontological-impertinence/dereification arising in the conceptualising of human value-construction as of a \<amplituding/formative\> wooden-language\<imbued—averaging-of-
thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications⟩ in ^amplituding/formative–epistemicity^totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as construing of value-construction within any given registry-worldview’s/dimension’s presencing—absolutising-identititive-constitutedness of meaningfulness-and-teleology and so whether as of trepidatious (recurrent-utter-uninstitutionalisation), warped (base-institutionalisation–ununiversalisation), preclusive (universalisation–non-positivism/medievalism) or occlusive (positivism–procrypticism) implications’. This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment-implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically—conjunctively-and-transfusively—the ontological-contiguity—the-human-institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty,
class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern-day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of argument that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-
first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive "presencing—absolutising-identitive-constitutedness" is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing><perspective—ontological-normaley/postconvergence-reflected-'epistemicity-relativism-determinism'> notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment "<implied—self- assuredness-of-ontological-good-faith/authenticity ~postconverging—de- mentating/structuring/paradigming –as-being-as-of-existential-reality> to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification–gesturing<in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant—ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity >
narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance -<including-virtue-as-ontology>-/morality/ethics/etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)-of-ontological-performance -<including-virtue-as-ontology> dynamics of notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence’ ). But then while such an abstract transvaluation perspective for the construal of social–value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity exists in circumstances of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as of its given reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation inducing its deficient ontological-performance -<including-virtue-as-ontology> thus explaining its given registry-worldview/dimension vices-and-impediments. Thus the transvaluation of the successive registry-worldviews/dimensions in reflecting holographically-<conjugatively-and-transfusively> the
totalising-entailing,-as-to-entailing- <amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness } is muted and where such universal-transparency is unmuted rather infused with ‘expected equity of all individuals for social–value-construction’ narrative(s). Basically, thus the reality of prospective social–value-construction critically arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning induced originariness-parrhesia,—as—spontaneity-of-aestheticisation with respect to the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, which when naively construed in presencing—absolutising-identitive-constitutedness as of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation simply reflects the <amplituding/formative-epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the prior registry-worldview/dimension as reflected with its social value-construct dilemmas. Consider in this regards the implications for an individual having to respond to an accusation of sorcery in a non-positivism social-setup as the individual and the social-setup both effectively believe in superstition. Transvaluation insight will point out that ontological-veracity as of foregrounding__entailment {postconverging–narrowing-down–sublimation-as-to–‘existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ‘–in-reflecting–‘immanent-ontological-contiguity ‘;–as-operative-notional–deprocrypticism} lies with the-Good/understanding/notional~knowledge-reification–gesturing <in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity }—conflatedness {in {preeconverging-disentailment_by} postconverging-
ontological-contiguity\textsuperscript{9}-educed–existentialising/contextualising/textualising-contiguity\textsuperscript{9}. We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness/psychologismic-construct’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought\textsuperscript{8}-devolving-level manifestation of the primacy of existence equally extends to reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior\textsuperscript{10} universalisation registry-worldview/dimension ‘is more effective’ as of its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation in grasping existential reality manifestations than a preceding ununiversalisation registry-worldview/dimension. Interestingly, such a broader conception of the manifestation of human sovereignty and free-will will recognise that the overall human deferential-formalisation-transference actually has a historiality/ontological-eventfulness/ontological-aesthetic-tracing character that extends right up to the very first humans and as with the production of language and human institutions, with regards to constraining existence-potency—sublimating—nascence,-disclosed-from-prospective-epistemic-digression as to existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation”<as-to-perspective—ontological-normalcy/postconvergence—implied—'prospective-aporeticism—overcoming/unovercoming'>, and as these institutions and institutional practices undergo metaphoricity all along towards our present, and carries effective/ontologically-veridical teleological implication in reflecting holographically—conjugatively—and—transfusively— the ontological-contiguity—of-the-human-institutionalisation-process dimensionality—of—sublimating

{<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-

Thus the bigger picture here with regards to social—value-construction for social-functioning-and-accordance as of human sovereignty and free-will implications speaks to relative-ontological-completeness\textsuperscript{88} as of ontological-normalcy/postconvergence, and so as of existence constraint implied ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} dimensionality-of-sublimating ⟨amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness /transvalutive—rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation⟩ as to difference-conflatedness\textsuperscript{12}—as-to-totalitative-reification-in-singularisation <as-to-the—nondisjointedness/entailment-of-prospective—nonpresencing—as-veridical-epistemicity—relativism—determinism ⟨amplituding/formative—epistemicity>causality—as-to-projective—totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological—contiguity in reflecting both destructuring-threshold ⟨uninstitutionalised—threshold /presublimating—desublimating—decisionality⟩—of-ontological-performance\textsuperscript{71}—<including-virtue—as-ontology> as of prior relative-ontological-incompleteness\textsuperscript{82} implied preconverging/dementing\textsuperscript{11}—qualia-schema and constructiveness-of-ontological-performance\textsuperscript{77}—<including-virtue—as-ontology> as of prospective relative-ontological-completeness\textsuperscript{8} implied postconverging/dialectical-thinking\textsuperscript{70}—qualia-schema as elucidation of ontological—

Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness/psychologismic-construct’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification–gesturing—prospective psychologismic–apriorising/axiomatising/referencing—{of-attendant–ontological–contiguity –educed–existentialising/contextualising/textualising-contiguity }—conflatedness —in—{preconverging-disentailment—by}—postconverging-entailment> and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as \( 6 \text{ m/s}^2 \) rather than the existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression manifestation of \( 9.8 \text{ m/s}^2 \) and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation. artificial subject-matter divisions referring to aspect where virtue, value, ontological principles

It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification–gesturing–interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to

‘presencing—absolutising-identitive-constitutedness’ of the sciences as often wrongly

A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being dementatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure
that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied
equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather dementative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-ontological-incompleteness’/relative-ontological-completeness’{(sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflatedness’/formative–supererogating’<projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normaley/postconvergence’}<amplituding/formative–epistemicity’causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing,—for-explicating–ontological-contiguity’ in reflecting holographically’<conjugatively-and-transfusively> the ontological-contiguity’—of-the-human-institutionalisation-process’; going by the phronesis/practicality as of our positivism–procrypticism occlusivity, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather
straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern-day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are preconvergingly–dementated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all
proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern-day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening as to the ‘relative-ontological-incompleteness’/relative-ontological-completeness (sublimating-referencing/registering/decisioning,-as-self-becoming/self-conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif—

The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in
existence. The very possibility for prospective human knowledge generation thus calls for human dimensionality-of-sublimating \( \langle \text{amplituding/formative} \rangle \) supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation \( \rangle \) given the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnatedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, with such human dimensionality-of-sublimating \( \langle \text{amplituding/formative} \rangle \) supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation \( \rangle \) speaking of true humanity projection for prospective secondnaturing institutionalisation (that goes on to broaden-the-latitude-of-human-collective-consciousness), and so over the wrongfully elicited self-satisfaction of sophistic/pedantic \( ^{10} \) presencing—absolutising-identitive-constitutedness \( ^{13} \) in preconverging-existential-extrication-as-of-existential-unthought failing to address the universal implications of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation bluntly profess that ‘human temporality’\( ^{99} \)/shortness wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-off—meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}\( ^{100} \)’ is in want for secondnatured knowledge and institutionalisation, and so as to the former human
limited-mentation-capacity-deepening (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—den\mentating/structuring/paradigming—as-being-as-of-existential-reality>). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—den\mentating/structuring/paradigming—as-being-as-of-existential-reality>; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality'/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/resentment/closed-construct-of—meaningfulness-and-teleology—<as-of—'nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>’} is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional—firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity—.
It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity—undermining of human dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension is effectively about discouraging the possibility for prospective humanity to manifest. But then this intellectualism and sophistry conundrum underlying knowledge-notionalisation (as of prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development), dementatively/structurally/paradigmatically marks all human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the uninstitutionalised-threshold attendant framework of lack of social universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness)—or-understanding-of-ontological-prime movers-totalitative-framework—of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very first place; and this very much explains the defining relevance of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, as to the possibility for genuine human reification and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression) is effectively what underlies human institutional paralysis and social-vestedness/normativity<discretely-implied-functionalism> as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought>) is predicated upon and
drags along the shiftiness-of-the-Self as from prior human stake-contention-or-conflict conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presentencing—absolutising-identitive-constitutedness as historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), and so towards humankind’s supposed future (as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development); and in many ways this historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition has already been stifling/stalling the huma prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historiality/ontological-eventfulness/ontological-aesthetic-tracing＜perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism＞ relevant to deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. Such historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition override prospective originariness-parrhesia,–as—spontaneity-of-aestheticisation possibilities, and the prospect for the future is ever so tied down to the psychological entrapment of prior human stake-contention-or-confliction framework that nullifies the possibility for renewal of humanity. Institutionalised historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition thus foregoes the construal of human meaningfulness-and-teleology as a construct of re-originariness/re-origination of meaningfulness-and-teleology as to human limited-mentation-capacity-deepening so-implied from the ontological-normalcy/postconvergence epistemic-or-notional-projective—
perspective as to maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation and rather adopts the temporality/shortness comfort as of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation hanging on to historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition presencing—absolutising-identitive-constitutedness notional framework of human stake-contention-or-confliction. historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition thus involves a [amplituding/formative—epistemicity]totalising/circumscribing/delineating conception of social-vestedness/normativity in many ways the practice in modern-day scholarship (especially when poorly constrained to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) is bound to ‘make its own weather’ rather as from human-subpotency temporality/shortness; wherein ‘invested’ institutional and theoretical/conceptual postures take on an essence all of their own, and so independently and overlooking the precedence of existential-reality for the possibility for prospective sublimation and knowledge-reification–gesturing--in-

expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness—
and-teleology; institutional-development—as-to-social-function-development and living-
development—as-to-personality-development) as to the relation with human lopsided
material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a
desublimation/gimmickiness rather than its very own sublimation in tandem with
material/equipment/accoutrement sublimation. This is reflected with the increasing
remoteness/aloofness and alienation of the generalised human subject from such
material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of ‘presencing—absolutising-identitive-constitutedness -of—meaningfulness-and-teleology given historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development–as-to-social-function-development and living-development–as-to-personality-development) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective of re-originariness/re-origination as implied with prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness -of—meaningfulness-and-teleology given historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ bounded to
prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology <-in-preconverging-existential-extrication-as-of-existential-unthought>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation–and–aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and-teleology with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness’ of meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective historiality/ontological-

Interpreting the historical failures associated with colonising or slaving or otherwise-exploitative—or-exterminating societies (as in the specific case of positivism/rational-empiricism technical and scientific development it inevitably implied the coming-together/encountering/meeting of societies worldwide), to then imply such a notion of ‘relative-ontological-incompleteness’/relative-ontological-completeness —{(sublimating—referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative—supererogating—<projective/reprojective—aestheticising—re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence}> as to human—and—social—expectations/anticipations—metaphoricity —as-rede-mentating/restructuring/reparadigming—psychologism—is irrelevant is rather a nuancing error that fails to assess/evaluate that the more critical issue had to do with ‘the appropriate emancipating attitude/mental-disposition/care—and—episteme’ as effectively and paradoxically such a lack of nuancing can then lead to the interpretation that such historical failures should equally be the unavoidable expectation prospectively in analogous circumstances of socio-cultural disparity of societies, rather than interpreted to mean the
prospective need for the requisite human knowledge-reifying and empowering reflexivity of appropriate human emancipating attitude/mental-disposition/care–and–episteme in the relationship between the state of relative-ontological-completeness and the state of relative-ontological-incompleteness. Incidentally, the ‘supposedly positivism/rational-empiricismformulaic/mechanical knowledge contenders’ as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trendwithin their own societies of origin undergoing-positivism/rational-empiricism-transformationand the underlying dual-language/split-mentality unscrupulousness was given away as of the‘out-of-sight demeanour’ in their main societies pointing to historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition distortive-originariness/distortive-origination, rather than being fully assumed as marking positivism/rational-empiricism progressimplied historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normaley/postconvergence-reflected-‘epistemicity-relativism-determinism’>originariness. implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. But then such overcoming of ‘human consciousness tenuous self-surpassing shift in its apriorising/axiomatising/referencing appraisal’ still has to be effectively achieved as to the requisite huma prospective development of protensive–self-consciousness in the face of the ever present manifestations of desublimating/gimmicky sophistry and eliciting of human temporality /shortness <amplituding/formative> wooden-language ⟨imbued—averaging-of: thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology — as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩ as to incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation and so over the requisite maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation. is inevitably the case that a naïve construal of prospective science and technological

This difference between a ‘purist science/ontology epistemic—conception of veracity/truth’ and the conception of veracity/truth as from the latitude of ‘human social—vestedness/normativity <discretely—implied—functionalism> implied contract/political—arrangement—or—political—coercion/given—discrete—social—value—construction’ is critically reflected in the fact that the former orientation is priorly—and—ultimately concerned with existence’s ‘foregrounding—entailment—{postconverging—narrowing—down—sublimation—as—to—

In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicit contention that the human ‘supposedly has no profound sublimating social and socio-psychological phenomenal/manifest–subpotencies {in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence}’ with the ‘supposedly profound phenomenal/manifest–subpotencies {in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence}’ construed rather in reductionist terms of
biology/neurology or physicalism) as is often also associated with social-vestedness/normativity<discretely-implied-functionalism> disparateness-of-conceptualisation<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity ’; thus ‘actually denying the metaphysical nature and thus ontological nature of the sublimating social and socio-psychological’ such that existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression sublimation implications with regards to the social and socio-psychological are hardly contemplated and recognised as so-projected herein as to the ontological-contiguity<sup>7</sup>—of-the-human-institutionalisation-process<sup>8</sup>. But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest–subpotencies{(in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence) to then ‘utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-psychological phenomenal/manifest–subpotencies{(in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence)}’ (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of physics, chemistry, biological, genetic theories as to the ontological-contiguity<sup>7</sup> imbedd<sup>4</sup> foregrounding _entailment{postconverging–narrowing-down–sublimation-as-to–‘existence—as-sublimating-withdrawal,-eliciting-of-prospective-

with human limited-mentation-capacity-deepening\(^{59}\) (as involved in the reconceptualisation of the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening\(^{53}\)’ speak to the more profound reality that the ordinariness of human thought across the <cumulating/recomposuring–attendant-ontological-contiguity >-succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence’\(^{57}\) despite the delusion of all registry-worldviews/dimensions in their \(^{80}\)presencing—absolutising-identitive-constitutedness\(^{53}\) as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory-mentativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions \(^{80}\)presencing—absolutising-identitive-constitutedness\(^{13}\) failure to directly grasp their very own <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\), even as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-mentativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). In other words, the ‘effective equilibration of human sublimating \(^{100}\)meaningfulness-and-teleology\(^{100}\) across the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/commonsensicality as of the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions \(^{80}\)presencing—absolutising-identitive-constitutedness\(^{13}\) as falsely elicited by their sophistic/pedantic

This latter insight is critical for all prospective human sublimation as ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity$<$discretely-implied-functionalism$>$’ effectively renders any prospective human emancipation and construction-of-the-Self pointless-and-contradictory; as to the fact that even such advocates turn out to be incoherently muted-and-muddled with regards to such an argument about ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity$<$discretely-implied-functionalism$>$’, revealing their true motives rather as status quo preserving with regards to social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology$100$-$<$in-preconverging-existential-extrication-as-of-existential-unthought$>$). The ‘purist science/ontology epistemic-conception of veracity/truth’ is ever always about the ‘prospective upholding of existence-potency$38$–sublimating–nascence,-disclosed-from-prospective-epistemic-digression and de-mentatively/structurally/paradigmatically so-explains the very possibility for human progress. In contrast the conception of veracity/truth as from the latitude
of ‘human social-vestedness/normativity’ implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency disclosed-from-prospective-epistemic-digression are vague disparateness-of-conceptualisation <unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’>, and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised imprimatur of intellection even as to when it projects intellectual desublimation associated with pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing—amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ) as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern-day intellection relevant prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint.

Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency disclosed-from-prospective-epistemic-digression; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-
constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior methodologising/mutualising/organising/institutionalising conception of physics. Critically, with regards to the blurriness\(^7\) of \(^{56}\)meaningfulness-and-teleology\(^{100}\) in the social that exposes prospective transcendental dispositions (as to dimensionality-of-sublimating\(^5\)) to sophistic/pedantic \(<\text{amplituding/formative}>\) wooden-language\{-\(\text{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology}\(^{100}\)}\) eliciting of \(<\text{amplituding/formative}>\) wooden-language\{-\(\text{imbued—averaging-of-thought—}\langle\text{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications}\rangle\}, it is important to articulate such prospective sublimating \(\text{meaningfulness-and-teleology}\(^{100}\) while equally reflecting upon the sophistic/pedantic to its dimensionality-of-desublimating-lack-of\(\langle\text{amplituding/formative}>\) supererogatory—de-mentativity/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation\) ontological-good-faith/authenticity\(~\)postconverging—dementating/structuring/paradigming\(~\)) to sophistic/pedantic \(<\text{amplituding/formative}>\) wooden-language\{-\(\text{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology}\(^{100}\)}\) eliciting of

as of the latter. Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to
which all specific domains of study need to account for their sublimating pertinence; and the
possibility of putting into question all ‘Establishment intellection as of their given
presencing—absolutising-identitive-constitutedness’ (from across the most ancient
civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots,
etc.) has always arisen within-or-without such epochal Establishment intellection by the
prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative
consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective) as to an epistemically-decadent wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiac-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology); and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension out of concern about huma prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ‘is the most important human and humanity-producing enterprise’ notwithstanding the paradox that the

prospective base-institutionalisation, universalisation, positivism/rational-empiricism and
deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought respectively in
many ways explaining the underlying implications of human registry-worldview’s/dimension’s
institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-

allow desublimating thought to occupy the ground of sublimating thought (as the latter has to
include a challenge to the knowledge-destroying desublimating thought arrogance and

disclosed-from-prospective-epistemic-digression and no amount of human mortals
methodologising/mutualising/organising/institutionalising can supersede prospective
sublimating existence’s necessitating implications and consequences as otherwise the very idea

and pretending otherwise as to ‘virtual wisdoms’ is nothing more tha
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag>. Hence basically the overall
differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and
‘social-vestedness/normativity–<discretely-implied-functionalism> epistemic-conception of
veracity/truth’ lies with their constraining whether towards inherent existence projected
implications or towards human-subpotency projected implications respectively. This underlying
point has de-mentative/structural/paradigmatic implications with regards to human
meaningfulness-and-teleology<sup>11</sup> (as to human Being-development/ontological-framework-
expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-
and-teleology, institutional-development–as-to-social-function-development and living-
development–as-to-personality-development). This differentiation can be rearticulated in
aestheticisation terms to imply that existence (as to existence-potency<sup>8</sup>–sublimating–
nascence,—disclosed-from-prospective-epistemic-digression) is ‘the scalar conception that
enables prospective human sublimation as of aestheticisation-towards-ontology’ while on the
other hand human-subpotency (as to human presencing—absolutising-identitive-
constitutedness<sup>45</sup>—<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag<sup>33</sup>) is ‘a non-scalar conception that induces
prospective human desublimisation aestheticisation’. The ‘scalarity/immanency of existence’s
ontological-normalcy/postconvergence’ as such is reflected with regards to prospectively
centration-capacity-deepening\(^3\) (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness\(^3\)), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance\(^2\)-<including-virtue-as-ontology> (associated with prospective human sublimation) into: ‘a scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of historiality/ontological-eventfulness\(^7\)/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism’\(>\) and ‘a non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation> perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing—-in-presencing–hyperrealisation/hyperreal-transposition’.

Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension\(^26\) doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension\(^26\) rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’); with the effective ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just relative-ontological-completeness\(^3\)) underlying the overall existential dimensionality-of-sublimating -<amplituding/formative> supererogatory-de-mentativeness/epistemic-growth-or-
to re-motif–and–re-apriorising/re-axiomatising/re-referencing/re-intelligibilitysettingup/re-measuringinstrumenting); hence implying that prospective sublimating historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normaley/postconvergence-reflected–‘epistemicity-relativism-determinism’> at any uninstitutionalised-threshold is necessarily imbued with prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation ‘messianic-structure of intemporality’ and its derived deferential-formalisation-transference secondnaturing. We can appreciate in this regards that budding-positivists meaningfulness-and-teleology however relatively intelligible to us today, wouldn’t make sense to the ‘ordinariness/commonsensicality of the non-positivism/medievalism prior institutionalisation secondnatured apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant ontological-contiguity educed existentialising/contextualising/textualising-contiguity but the fact is that such budding-positivism in its rede-mentating/restructuring/reparadigming for relative-ontological-completeness rather induced the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for our modern-day positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. is herein contended that a tradition of philosophy introduced and propped up after the second-

with this orientation (as to perceived geostrategic reasons for undermining the possibility of

natural social critical thinking that should enable the proper intellectual framing and addressing
of human and social issues leading to a rather subservient intellectual posturing to socially
dominant vested-interests/actors’ as so-reflected in the current impotence of the political
exercise with mediating institutions failing sovereign-equanimity as political, economic and

conceptualisation in implying that ‘the sublimating apriorising/axiomatising/referencing–psychologism is the valid logical-basis’ and ‘the desublimating apriorising/axiomatising/referencing–psychologism is the invalid logical-basis’. This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively are actually projective-insights speaking to the fact that huma prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as so-induced by notional–asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturering institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology) which rather requires instigative notional–asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is
naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the second-naturing of positivism/rational-empiricism was the notional-asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness logical-basis/logic,-as-derived-from—transversality—is in transversality—of-affirmative-and-unaffirmative—sublimating—existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ is in transversality—of-affirmative-and-unaffirmative—sublimating—existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ with the relative-ontological-incompleteness logical-basis/logic,-as-derived-from—transversality—is in transversality—of-affirmative-and-unaffirmative—sublimating—existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’, it is only the sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation that affirmatively upholds the relative-ontological-completeness over the relative-ontological-incompleteness (as to their supposedly coherent ontological-commitment—self-assuredness-of-ontological-good-faith/authenticity—postconverging—dementating/structuring/paradigming—as-being-as-of-existential-reality>). In other words,
genuinely projected knowledge as of ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human institutional-development–as-to-social-function-development and living-development–as-to-personality-development as to the positive-opportunism—of-social-functioning-and-accordance implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of such ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–of–meaningfulness-and-teleology. In this respect with regards to human institutional-development–as-to-social-function-development and living-development–as-to-personality-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-
apriorising/axiomatising/referencing–psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing–psychologism of the client’ and so as reflecting the sublimating knowledge ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming beyond-and-above the desublimating ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming of ordinary meaningfulness-and-teleology. However, this sublimating knowledge ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (even though from a retrospective perspective we can grasp the preconverging/dementing –qualia-schema of ‘the God-of-plane’ type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empiricism reflex ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ but it is important to note that such an animistic social-setup doesn’t project of any such preconverging/dementing –qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology going by its presencing—absolutising-identitive-constitutedness just as we will be disinclined to contemplate about the more veridical preconverging/dementing –qualia-schema of our procrypticism–or–disjointedness-as-of- reference-of-thought uninstitutionalised-threshold as from a prospective notional–deprocrypticism perspective projected placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). Intellectualism as such is much more than just about ‘presencing—absolutising-identitive-constitutedness’ methodologising/mutualising/organising/institutionalising enterprise as to the fact that ‘all given registry-worldviews/dimensions as ‘presencing—absolutising-identitive-constitutedness’ underpinning–suprasocial-construct relate to their given ‘meaningfulness-and-teleology’ in absolute terms whereas in reality there are veridically relative subontologisation/subpotentiation of ontology as metaphysics-of-presence ‘implicated-‘nondescript/ignorable–void ’-as-to-‘presencing—absolutising-identitive-constitutedness’; and it is here that the genuine social intellectual–function/posture comes in to veridically reflect the reality that a social-construct is not of absolute scalarisation of human ontological-performance ‘incl–v–ontology> for the possibility for its prospective scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory–involuting-or-guidling-or-amplifying–scalarisation-as–to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’, and the genuine social intellectual–function/posture as such is not about a naivist social-vestedness/normativity ‘<discretely-implied-functionalism> as otherwise the possibility for the ‘cumulating/recomposuring–attendant-ontological-contiguity’-succession of registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory–de-mentativity right up to our present wouldn’t have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–‘meaningfulness-and-teleology’ The genuine social intellectual–function/posture means that human thought can project beyond, overlook and override ‘presencing—absolutising-identitive-constitutedness’ ‘preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing’–existentialising—enframing/imprintedness–

Part and parcel of the genuine social intellectual–function/posture is to undermine this skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology<sup>14</sup><preconverging–existentialextrication-as-of-existential-unthought> positive-opportunism—of-social-functioning-and-accordance<sup>26</sup> of institutional-development–
as-to-social-function-development and living-development–as-to-personality-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given presencing—absolutising-identitive-constitutedness of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Copernicuses, Galileos, Descartes, Kants, Newtons, Leibniz, Rousseaux, Diderots, Pasteurs, Lavoisiers, Teslas, Einsteins, etc. upon whose infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human meaningfulness-and-teleology (and so not only with human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology but is equally reflected in a poor-spirited bland conception of human institutional-development–as-to-social-function-development and living-development–as-to-personality-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning–suprasocial-construct projected and preconvergingly–de-mentated/structured/paradigmed ‘immediacy
supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed
as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy

for human value and ontological-veracity sublimation (as has always been the manifest case for
surpassing the uninstitutionalised-threshold of registry-worldviews/dimensions). The fact is

that unlike the flawed mental-reflex associated with \(^8\) presencing—absolutising-identitive–
constitutedness that de-mentatively/structurally/paradigmatically projects of a ‘neutrally/objectively sound human ontological-performance’ state failing to factor in human specific apriorising/axiomatising/referencing—of-attendant ontological-contiguity—ontological-deficiency arising from its specifically given existentialising/contextualising/textualising-contiguity—and the critical human teleological as to ontological-performance issue is how to adjust to existence and is not about how existence adjusts to the human who is rather of a subpotent epistemic relation to the full-potency of existence’. The implication here is that the ‘ontological-good-faith/authenticity—postconverging—existential-condescension—apriorising/axiomatising/referencing—psychologism’ is thus merely reflecting the veridicality of the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity which is only possible as to existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming> with regards to human formativeness—<as-to-intersolipsism-of—preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>—meaningfulness-and-teleology. Thus it is only the possibility of ‘ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming existential—
condescension-<of-apriorising/axiomatising/referencing–psychologism>’ that can thus allow human existential-discursivity—implicated-sublimation-over-desublimation beyond naïve presencing—absolutising-identitive-constitutedness’  

This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholden to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our modern-day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity ~postconverging–de-

mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ with regards to the human species on Earth and strife to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance’<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing- {of-attendant ontological-contiguity –educed existentialising/contextualising/textualising-contiguity }—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence’ but together with the extraterrestrials is rather de-

mentatively/structurally/paradigmatically in existential-discursivity—implicated-sublimation-
over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment ~implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicit-sublimation-over-desublimation superseding pretenses of mere-formulaic methodologising/mutualising/organising/institutionalising prescences as to entitlements of presencing—absolutising-identitive-constitutedness articulated induced elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity. Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness is-educed–and–avails–and–re-avails rather than ontological-bad-faith/inauthenticity in upholding relative-ontological-incompleteness (given that immortality/existence-perspective as to intemporality cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging-or-dementing—apriorising-psychologism and not postconverging-or-dialectical-thinking—apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicit-sublimation-over-desublimation that explains why the educing–and–availing–and–re-availing of relative-ontological-completeness as to dimensionality-of-sublimating ⟨amplituding/formative—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ takes precedence in defining human intellectual-and-moral ontological-performance <including-virtue-as-ontology> and so as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation. This
epistemicity>totalising~thrownness-in-existence implied existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity’~postconverging-de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ effectively underlies the ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the preformulating/preframing/premeaningfulness<metaphoricitY-disposition—as-to-psyche-induced-psychologism-of-existential-stake> from which human meaningfulness-and-teleology veridically arises. Thus existential-discursivity—implicated-sublimation-over-desublimation implies that the human is already ‘de-mentatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-performance’<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—ontological-deficiency arising from its specifically given amplituding/formative–epistemicity>totalising~thrownness-in-existence’. This insight puts into perspective our ‘presencing—absolutising-identitive-constitutedness’ conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness aetiologisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-
incompleteness

specific apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—ontological-deficiency arising from its specifically given amplituding/formative-epistemicity-totalising-thrownness-in-existence is not of neutrally/objectively sound ontological-performance—including-virtue-as-ontology>; as to the fact that for instance the incidence of modern-day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that de-mentatively/structurally/paradigmatically directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our amplituding/formative-epistemicity-totalising-thrownness-in-existence and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness as to overall existential dimensionality-of-sublimating ⟨amplituding/formative-supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩. Besides such a more stark elucidation as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, existential-discursivity—implicit-sublimation-over-desublimation as to 'ontological-good-faith/authenticity~postconverging-de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism>', thus points to the primacy of 'the very amplituding/formative-epistemicity-totalising-thrownness-in-existence of human discursivity as to the possibility for prospective existential sublimation' so-reflected in originariness-parrhesia,—as—spontaneity-of-aestheticisation—

Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given presencing—absolutising-identitive-constitutedness self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its ontological-contiguity’ as to the possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity—of-the-human-institutionalisation-process so-associated with human limited-mentation-capacity-deepening”). Human sublimation as such in reflecting holographically—conjugatively-and-transfusively—ontology—of-the-human-institutionalisation-process is existentially susceptibly instigated mostly as of materially/technically induced sublimation associated with tools, equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism—of-social-functioning-and-accordance social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology. But the overall postconverging—dementating/structuring/paradigming of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving’. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the
Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness\(\text{\textsuperscript{90}}\)–presublimation-construct–of–meaningfulness-and-teleology\(\text{\textsuperscript{99}}\) of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective human aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking\(\text{\textsuperscript{20}}\)–apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness\(\text{\textsuperscript{88}}\) and the immaterial/social overall relative-ontological-incompleteness\(\text{\textsuperscript{90}}\)–presublimation-construct–of–meaningfulness-and-teleology\(\text{\textsuperscript{100}}\) of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation–as—to—underlying,—ontological-commitment\(\text{\textsuperscript{66}}\)〈implied—self-assuredness-of—ontological-good-faith/authenticity\(\text{\textsuperscript{69}}\)~postconverging–de-mentating/structuring/paradigming—\text{\textsuperscript{70}}\) as being-as-of-existential-reality〉’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to
the fact that the technical and scientific progress as to relative-ontological-completeness weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of meaningfullness-and-teleology value-construct and shallow-supererogating methodologising/mutualising/organising/institutionalising <preconverging—’motif-and-

(as-to— historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism—of-social-functioning-and-accordance driving the secondnatured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension immaterial/social sublimation considerations that rise to the aporeticism overcoming/unovercoming challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfullness-and-teleology’ of our positivism—procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual—function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-

Even in the purely intellectual sense,
modern-day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve \textsuperscript{20} presencing—absolutising-identitive-constitutedness\textsuperscript{13} epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to the aestheticisation—and—aestheticisation-towards-ontology underlying the overall ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68}, so-reflected from such science-ideology poor appreciation of the implications of the \textsuperscript{46} historiality/ontological-eventfulness\textsuperscript{17}/ontological-aesthetic-tracing<-perspective—ontological-normally/postconvergence-reflected-‘epistemicity-relativism-determinism’ rendering the scientific adventure as of a living attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity\textsuperscript{19} exercise. In this regard, relic/artifactual conception of veridical human historiality/ontological-eventfulness/ontological-aesthetic-tracing/perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism rather speaks to deficient prior_knowledge-reification–gesturing–in–prior_psychologismic–apriorising/axiomatising/referencing–of–attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity constitutedness–in–preconverging-entailment caught up in presencing—absolutising—identitive–constitutedness as of beholding–becoming—distortive-originariness/distortive-origination—as-to–historicity-tracing–inhibited–mental–aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification–gesturing–in–prospective_psychologismic–apriorising/axiomatising/referencing–of–attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity conflatedness–in–{preconverging–disentailment–by}–postconverging–entailment for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual–function/posture indifference or betrayal to dominance/vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflected in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the

In this regards as to a decisively globalising world we can’t conceive that ours will be the human generation bereft of ‘profound diffusionary/non-diffusionary aestheticisation prospective insight as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ given the increasingly relic/artifactual nature of traditional cultures in our modern age as to the potent lack of prospective creative aestheticisation off-the-beaten-path of an increasing convergence deadening of the possibility prospective reappraisals of human \(^{100}\)meaningfulness-and-teleology (as so-construed as of dimensionality-of-sublimating \(^{24}\)\(\langle\text{amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\rangle\)), as to the fact that overall human beholdening inclination (as to any defining overall relative-ontological-incompleteness –presublimation-construct–of–meaningfulness-and-teleology\(^{100}\) concerned mostly with human institutional-development–as-to-social-function-development and living-development–as-to-personality-development in the priorly achieved Being-development/ontological-framework-expansion–as-to-depth-of-
effectively projects a hurdle to any such de-mentative/structural/paradigmatic notional–deprocrypticism conception of re-ontologisation as to its inherent poorly amenable to profound alternative institutional aestheticising contemplation ‘given its calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation’ such that any such profound alternative institutional aestheticising contemplation are traditionally bound to arise as disruptive institutional transformations whether or not involving power-showdown as associated with sudden/revolutionary transformations with ‘their drawback of having to think on their feet inducing deficient ontological-performance’ as well as generalised social apprehension which is then enigmatically held against them’ (however the merits of their underlying case) very much unlike ‘the latitude for articulating conceptualisations available for their de-mentative/structural/paradigmatic flaws). Today manifestations (in the political domain) of protest votes for instance, more than just a question of poor political leadership actually has to do in many ways with ‘an alienating politico-institutional entrapment/frame-up of sovereign choice’ within the supposed democratic process that ‘forestalls-and-narrows as of strategic rules and processes’ the effective political fulfilment of individual and social sovereign choices inducing anti-sovereign consequences as to defaulting policy consequences to dominance/vested-interest actors without truly being institutionally subject to competing
appreciated throughout human history). This is explained by the fact that the human can relatively easily appreciate the ontological-pertinence of new practices arising as from outside cultural diffusion but it is very much difficult to reconstrue of such practices as from the taxingness-of-originariness involved in surpassing an internalised posture; and this very much explains the double epistemic orientation to notional–deprocrypticism institutionalisation ‘unenframed/unbeholdening/bechancing–supererogation’ parameterisation/reparameterisation–(reflecting-a-supererogatory–decisionality-of-socioinstitutional-conceptions-as-to–‘their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction–desublimation’–as-so-operationalising–‘scalarisation-as-to-rescalarisation-as–re-ontologisation’ for prospective aestheticisation–and–aestheticisation-towards-ontology/meaningfulness-and-teleology as highlighted above (as to the need to feed our decisively globalising world with aestheticising re-originariness/re-origination to uphold the capacity for pure-ontology as to re-ontologisation). We can for instance appreciate this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ say with regards to cultural-diffusion in a non-positivistic like animistic social-construct wherein positivistic technical and material nascent-sublimations can relatively be easily appreciated/grasped in a short timeframe by their immediate sublimating–nascence but the more profound notion of a positivistic registry-worldview/dimension (as to social-and-institutional-frameworks-of—referencing/registering/decisioning of positivistic meaningfulness-and-teleology\textsuperscript{100}) reflecting a positivising referencing/registry/decisioning is more problematically conceptualisable and mostly arises as of crossgenerational
appreciation/grasp (given the non-positivistic presencing—absolutising-identitive-constitutedness\textsuperscript{10} existentialising—decisionality psychological-disposition of defaulting individual and social ‘beholdening as sovereignising—imbued-subontologisation/subpotentiation’); and this ‘human existentialising—decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ applies in the \textit{cumulating/recomposuring–attendant-ontological-contiguity} \textit{succession} of registry-worldviews/dimensions with regards to the possibility for their prospective sublimation/emancipation. Along the same lines of disambiguating ‘human existentialising—decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ just as ‘a God-of-plane non-positivistic proposition’ in an animistic social-setup implies priorly an ‘altogether superseding positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation induced psychologism of \textit{reference-of-thought}’ (over their non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation psychologism of \textit{reference-of-thought}) from whence aposteriorising/logicising/deriving/intelligising/measuring can then ensue in existential-instantiations of conceptualising, and so as to the positivistic meaningfulness-and-teleology\textsuperscript{100} ‘more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{97} with regards to sublimating–nascence teleological-inflection\textsuperscript{(as-to-more-profound-nondisjointing-<amplituding/formative–epistemicity>totalising/circumscribing/delineating)}, likewise prospectively with regards to nascent-particular/incipient-and-material/technical-sublimations\textsuperscript{<blinded-to-their-relative-ontological-completeness – reference-of-thought- devolving>} as underlying many a technical and natural sciences it is ever always the ‘more profound reflection of existence—as-

Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness, wherein blurriness is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification–gesturing-<in-prospective_psychologismic–apriorising/axiomatising/referencing—of-attendant_ontological—>.

Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification–gesturing<in-

associated with the centrality of elections, voting and party politics’ is incomplete without an adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a genuine social intellectual–function/posture. In many ways the very idea of the ‘democratic public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural ascendency over ‘the supposedly democratic platforming and stakeholding in defining the very issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media influence). Critically, in this context such skewed platforming and stakeholding ends up alienating supposed sovereign electors as to a platforming and stakeholding process that mediatically and politically take a self-contained course (as to dominance/vested-interest defaulting issues that can be debated as to the underpinning–suprasocial-construct <preconverging~’motif-and-apriorising/axiomatising/referencing’–imbuing>_existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) socio-econo-political social-stake-contention-or-confliction) with the consequence that the so-politically-alienated sovereign electors are increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true policy solution) or decreasing participation in the democratic process, in many ways speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual–function/posture as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious

the more profound reality that the truer problem of a democratic crisis lies in the fact that it is
poorly interceded by the genuine social intellectual–function/posture as it enables ‘human sublimating/desublimating—modalisation<as-to-absolute-referencing–of–meaningfulness-and-teleology> upon inherent existence’s sublimating–nascence inducing of ontologisation/omnipotentiality’ to then go on to concretely resolve socio-econo-political social-stake-contention-or-confliction aporeticism overcoming/unovercoming and rather disenfranchisingly interceded by a pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) that is enabling de-mentatively/structurally/paradigmatically (whether by wrong/flawed analysis or cynical ontological-bad-faith/inauthenticity misanalysis) to ‘occlusive discrete inherence of sublimating/desublimating—modalisation<as-to-absolute-referencing–of–meaningfulness-and-teleology> on the basis of presencing—absolutising-identitive-constitutedness social-vestedness/normativity<discretely-implied-functionalism> inducing of subontologisation/subpotentiation’, especially-so as to an economically driven media landscape that can hardly discriminate between intellection and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) and in many ways passes the latter for the former as-so associated with overall social banalisation-of-thought with foils/stooges of pop-intellectuals as the ‘greatest thinkers’ of our present intellectually shameful epoch). In this regards, it is critical to appreciate that the democratic process is a sovereignty-imbuing process and while this sovereignty-imbuing process is critical as the point-of-departure for socio-econo-political social-stake-contention-or-confliction aporeticism overcoming/unovercoming it is incomplete if it is merely construed/manipulated as to essentially sovereignty-giving without a cultured aspiration to grasp and operate as to

This reality underlies the contention herein of the ‘overrated pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness ) of meaningfulness-and-teleology” as to the fact that human discursivity is not a discursivity of absolute-mentation-capacity but rather a discursivity of limited-mentation-capacity, and thus it is a discursivity of subpotency as to human-subpotency which doesn’t necessarily subject/supersede existence as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation as warranted for prospective sublimation/emancipation (even as human social-and-institutional-frameworks-of—referencing/registering/decisioning of existentialising—decisionality by reflex tend to absolutise human discursivity as to presencing—absolutising-identitive-constitutedness1 social-vestedness/normativity—<discretely-implied-functionalism>); thus requiring appropriate nonpresencing—<perspective—ontological-normalcy/postconvergence> epistemic-projection (as to requisite human limited-mentation-capacity-deepening towards absolute-mentation-capacity, in projective reflection of ontologisation/omnipotentiality as to ontological-normalcy/postconvergence, as sought-after by the genuine social intellectual–function/posture involving its specifically cultivated arts/skills and time investment and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality>) and its consequent

‘human<amplituding/formative–epistemicity>totalising~purview-of-construal as of human limited-mentation-capacity-deepening ’ while the former rather ‘is reflective of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition as to a <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that is poorly contemplative of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
hyperrealisation/hyperreal-transposition. What is thus implied herein as most critical about the human and humanity is the capacity for profound-supererogation$^{97}$ (as to human limited-mentation-capacity-deepening$^{5}$ implication of$^{5}$ nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩), and so ‘more than just a positive-opportunism—of-social-functioning-and-accordance’ relation to$^{50}$ meaningfulness-and-teleology$^{100}$ as of the registry-worldview/dimension station/locus of$^{45}$ ⟨amplituding/formative–epistemicity⟩totalising–thrownness-in-existence$^{34}$, -imbued-projective-arbitrariness/waywardness-⟨as-to-the-human–projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing-process-of-‘⟨amplituding/formative–epistemicity⟩totalising–conceptualisation’⟩ in preconverging-existential-extrication-as-of-existential-unthought. Fundamentally, the ‘contrastive inequivalence relation’ implied as of notional–self-distantiation-⟨imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing⟩/‘distantiation of contemplative existentialising–frame as to transversality-⟨formative–epistemicity⟩disambiguated–‘motif-and-apriorising/axiomatising/referencing’⟩ is critically ‘the manifestation of the very ontological-normalcy/postconvergence nature of existence but for the confusion of human limited-mentation-capacity induced$^{8}$ presencing—absolutising-identitive-constitutedness$^{13}$’. Thus in effect notional–self-distantiation-⟨imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing⟩ actually reflects the reality of human limited-mentation-capacity-deepening$^{53}$ (rather than truly of diagonal contrast with distractive-alignment-to–reference-of-thought-⟨of-apriorising/axiomatising/referencing⟩$^{29}$), and so in the sense that existence as of its ontological-normalcy/postconvergence is unbeholding to human limited-mentation-capacity (as to its ⟨amplituding/formative–epistemicity⟩totalising–thrownness-in-existence$^{14}$, -imbued-projective-arbitrariness/waywardness-⟨as-to-the-human–projective/reprojective—aestheticising-re-motif–
and-re-apriorising/re-axiomatising/re-referencing-process-of-amplituding/formative-epistemicity-totalising-conceptualisation) which beholding ‘wrongly projects a contrastive equivalence relation’ between notional-self-distantiation-imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing and distinctive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing; as rather notional-self-distantiation-imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing is a ‘submission-to and making-up-to existence’s ontological-normalcy/postconvergence’ as to when relative-ontological-completeness is-educed—and-avails—and-re-avails (and not a contrastive equivalence ‘submission-to and making-up-to human-subpotency epistemic-abnormalcy/preconvergence’ in relative-ontological-incompleteness as wrongly implied with distinctive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing), thus speaking rather of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that accompanies existence-potency—sublimating—nascence-disclosed-from-prospective-epistemic-digression. In this respect, we can appreciate that appropriate notional-self-distantiation-imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing is effectively what is bound to bring about momentous historiality/ontological-eventfulness/ontological-aesthetic-tracing-reflected-epistemicity-relativism-determinism as to a human genuine social intellectual—function/posture (underlied by ontological-commitment—self-assuredness-of-ontological-good-faith/authenticity-postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality) wherein without such a ‘submission-to and making-up-to existence’s ontological-normalcy/postconvergence’ the transition say between classical-mechanics—axiomatic-constructs and theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs would have been problematic (if the proponents of the former as of human institutional social-stake-contention-or-confliction

This poor appreciation of technicity/profundity in the public arises as of a poor projection of existence’s sublimating–nascence to wrongly imply that the individual ‘is perfect as they are’ with supposed ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-by-institutional-by-social sovereign’s service’, and critically wrongly implying that knowledge as to organic-knowledge can be acquired without the requisite ‘epistemic-growth/disquiet/discomfort-\{induced-sublimation,as-from-existence’s—effusing/ecstatic–inlining-as-historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as-historicity-tracing-{science-ideology/fashionability/distraction}\} as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness —by-reification/contemplative-distension’ of the individual as to their ‘appropriate notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>’, while at the same time ‘a pseudo-contrition as to awareness of such relatively shallow technicity/profundity cultivated in such social-and-media spaces’ doesn’t deter such spaces
(consciously or unconsciously) from surreptitiously acting as of profound technicity/profundity at critical moments of public discourses with the consequence that ‘there is an opaque connection/continuity between public, media and institutional discursivity with social and institutional outcomes as if these are discrete and unrelated activities’ (whereas the supposed relevance of discursivity has to do with how it allows for comprehensible public ‘epistemic-growth/disquiet/discomfort-\{induced-sublimation,-as-from-existence’s—effusing/ecstatic—\\textit{inlining-as-historiality}–\{science/authenticity/nonextrication\}-beyond-mere-formulaicity-as-historicity-tracing–\{science-ideology/fashionability/distraction\}⟩ as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification/contemplative-distension’ in effectively appreciating social and institutional outcomes processes rather than individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction). The concrete and natural human psychological disposition with respect to knowledge as to organic-knowledge is in appreciating that for critical thinking even for the novice it is imperative to truly engage with the substance of the matter comprehensively-and-insightfully notwithstanding the level of exactifying comprehension (again whether as to direct knowledge acquisition or appropriate percolation-channelling-\textless in-deferential-formalisation-transference\textgreater enabling the sovereign–function/posture ontologising-aptness). Thus the veracity/efficiency of social intellection is rather in terms of ‘the consequent sovereign-function/posture contemplative capacity/deferential-capacity in epistemic-totalising-growth/confalatedness/postconverging as to attendant-ontological-contiguity-duced-existentialising/contextualising/textualising-contiguity’-in-elucidation-or-reification-knowledge/interpretative veracity implications of concurrent limited-mentation-capacity-deepening’ allowing for appropriate coherence between concrete–social-reality-<as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social-reality-<as-to-manifest-sublimation/desublimation> with respect to public outcomes of social-stake-contention-or-confliction’ and so rather than the naive counterintuition of mere ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness /preconvergence in an atmosphere of incoherence between concrete–social-reality-<as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social-reality-<as-to-manifest-sublimation/desublimation>’ (and so as to the fact that ‘existence as to ontological-veracity consequence of the social reality’ so-underlined by manifest social-stake-contention-or-confliction issues should as to human epistemic-growth/confalatedness/postconverging instigatively drive public debates rather than ‘the naivety that the balancing of human-subpotencies as of vague process/processive bothsidesism mental-reflex in apriorising/axiomatising/referencing- {of attendant-ontological-contiguity-duced-existentialising/contextualising/textualising-contiguity }—constitutedness’ in preconverging entailment/preconvergence will then reflect sublimating social ontological-veracity’ so-underlined by issues of relatively little relevance to general social-stake-contention-or-confliction with the latter just making room for desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-.
induced distractive-alignment-to-reference-of-thought-apriorising/axiomatising/referencing and wherein issues of minor or irrelevant social-stake-contention-or-confliction are used to disorientate and estrange the sovereign-function/posture while trivialising-and-enframing issues of central public interests). The consequence being that a `shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness /preconvergence in an atmosphere of incoherence between concrete–social-reality-as-to-manifest-sublimation/desublimation and overall public perception of concrete–social-reality-as-to-manifest-sublimation/desublimation` is critically inadequate for `neutral sovereign–function/posture upholding` as so particularly elicited with distractive-alignment-to-reference-of-thought-apriorising/axiomatising/referencing issues. The fundamental point here is that existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation-as-to-perspective–ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming' makes nonsense of any such vague notion as ‘neutrality by the balancing of human-subpotencies’ so-reflective of ‘vested interests driven conception of balance as to discrete interests’ (rather than common/mutualising interest conception of balance rather requiring the cultivation of a veridical social exercise of notional–self-distantiation-imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing as to implied social formativeness-as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism-meaningfulness-and-teleology reflective of nonpresencing-perspective–ontological-normalcy/postconvergence epistemic-projection implications), with such ‘vested interests driven conception of balance as to discrete interests’ rather an exercise consciously or unconsciously of manifest ontological-bad-faith/inauthenticity in
preconverging-existential-extrication-as-of-existential-unthought. Thus ontological-veracity (as to the pertinence of ‘overall social intellection-aptitude body’ as to its capacity for ‘neutral sovereign–function/posture upholding’) rather arises as of a ‘human knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism imbued theoretical/conceptual/operant implications detour to existence-potency~~sublimating–nascence,-disclosed-from-prospective-epistemic-digression’ in pointing out the prospect of sublimating/desublimating–existentialising–decisionality socio-econo-political outcomes and implications rather than the ‘passive deification of institutional process/processiveness as of mere-formulaicity<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising>’ (underlying why such a deficient social intellection posture will tend to be one step behind cumulating desublimating socio-econo-political outcomes as if it is most critically about reflecting upon such cumulating desublimating–existentialising–decisionality socio-econo-political outcomes rather than truly a posture of anticipative analysis and preemption). This mere process/processiveness induced deficiency is often critically reflected in a ‘barest and passive/poorly-reflexive conception of sovereignty in the democratic process’ that is poorly cognisant of the appropriate overall social enlightenment/knowledge imbuing oversight of the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) that is ‘much more than about leaving the room for competing/contending parties narrations/orientations/advocacies for socio-econo-political existentialising–decisionality but appraising-and-critiquing the effective coherence of such narrations/orientations/advocacies as to socio-econo-political outcomes expectations of the sovereign–function/posture’; so-underlying the more profound-supererogation notion of sovereignty associated with ‘appropriately sublimating technicity/profundity capable of
veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of veridical social knowledge percolation-channelling→<in-deferential-formalisation-transference>. The consequence of this mere process/processiveness induced deficiency is reflected in an entrenched dichotomy of the democratic process between the reality of recurrent narratives of disontologising socio-econo-political outcomes on the one hand and on the other hand a publicly cultivated <preconverging→’motif-and-apriorising/axiomatising/referencing’→imbuing>→existentialising—enframing/imprintedness→as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> political culture/discourse that by its self-drivenness/self-containment at critical moments of the democratic process seem to bypass the relevance of such recurrent disontologising socio-econo-political outcomes (even as the very same social themes are recurrently and superficially raised as to a numbing-traction—of-desublimating—meaningfulness-and-teleology→as-perspective-lost-of—supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—as-to-the-imbed-postconverging/dialectical-thinking—of—notional—deprocrypticism→{in-dimensionality-of-sublimating — <amplituding/formative—epistemicity>growth-or-conflatedness→/scalarisation-as-to-rescalarisation-as—re-ontologisation}) treatment); so—reflecting a ‘habituatedness/mental-colonisation of the sovereign—function/posture to the presencing—absolutising-identitive-constitutedness social-vestedness/normativity’ cynically construed as enabling a social-stake-contention-or-confliction distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing> pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation→(blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness ) exercise in undermining prospective human re-ontologisation/omnipotentiality. This again confirms that the ontological-veracity of genuine human knowledge is rather about notional~self-distantiation—<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>/’distantiation of contemplative existentialising–frame as to transversality—<for-sublimating—existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ imbuing historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity—relativism—determinism’> (as to the precedence of inherent existence possibility for sublimating–nascence to which human-subpotency subjects itself) and not conceptualisations of distractive-alignment-to—reference—of-thought—<of-apriorising/axiomatising/referencing>” (that wrongly imply that human totalisingly-disentailing—discretion/whim-of-thought takes precedence over inherent existence possibility for sublimating–nascence). We can appreciate in this regards that the ‘sublimating–existential-decisionality potency of a scientist thought is not in-and-about themselves’ as so-manifested in a ‘normalised/stereotyped/selfhelping/feel-good conception of knowledge’ but rather ‘their inherent coherent knowledge formulation technicity/profundity and elucidating elaboration’ which then has to avoid explicited or implicited contradictions with regards to the knowledge technicity/profundity ‘enhancement of the overall social-setup self-reflexivity as of the breadth of socially cogent percolation-channelling-\(<\text{in-deferential-formalisation-transference}\)

In other words, ‘existence imposes its sublimating rules to the human mortal subpotency’ as the very ‘fundamental meaning of science’ (notwithstanding vague human-subpotency ‘methodologising/mutualising/organising/institutionalising’ anti-intellectual fooling-about and complotment); in a continual prospective relativistic process of human limited-mentation-capacity-deepening. In this respect, it is herein contended as of a most intimate appreciation that such anti-relativism stances which will imply no human progress occurs are ‘so moronic’ it is doubtful these are held out of true conviction (bad or good), but rather are ‘cynical and strategic anti-intellectualism stances hanging upon mere institutional imprimatur (as overplaying the card of ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction’ as to the protection offered by sensibility/decorum of institutional imprimatur)’ in undermining the implications of prospective profound-supererogation entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness as associated with social equality and anti-bigotry movements as to class, race, gender, etc. (and so-reflected by the fact that their proponents have ‘hardly been able to meet the academic standards of the arguments implied and projected by proponents of relativism’ and rather turning to surreptitious and media-driven strategies avoiding intellectual engagement in inducing social and institutional numbing-traction–of-desublimating–meaningfulness-and-teleology<as-perspective-lost-of–supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbued-postconverging/dialectical-thinking–of–notional–deprocripticism–in-dimensionality-of–

Such ‘strategic and cynical institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation’ it is herein contended is much more potently effective in preconvergingly–de-mentating/structuring/paradigming social and institutional in-effect bigotedness (consciously or unconsciously) than the overt and superficial name-calling social manifestations conception of bigotry/prejudice/narrow-mindednes as to emotional distress; and so, as the deferential social and institutional interpretation of such in-effect bigotedness stances surreptitiously/underhandedly undermine the requisite social and institutional prospective human aporeticism overcoming/unovercoming as to profound supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness eliciting of human ‘epistemic-growth/disquiet/discomfort—\textsuperscript{(induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as-historiality–{science/authenticity/nonextrication}-beyond-mere-formulaicity-as-historicity-tracing–{science-ideology/fashionability/distraction}) as to construction-of-the-Self in dispensing-with-immediacy–for-relative-ontological-completeness–by-reification/contemplative-distension’\textsuperscript{55}.
