profound social and overall knowledge aporeticism overcoming/unovercoming relevance.

Human angling-of-imaginary (unlike the predisposition to mere-formulaicity<as-to-mere-
formulaic—methodologising/mutualising/organising/institutionalising> of human psychical-
nascency) construes of knowledge as of emergent social conception and instigation for
knowledge formation/creation (and so beyond and unfazed by its supposed manifest
institutional capture/catchmenting) with regards to the veridical existential veracity of
knowledge for prospective ontologising/re-ontologising sublimating/emancipating expansion of
human ‘social-functioning-and-accordance—as-of-social-stake-contention-or-confliction
imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’. In this
regards, desublimating attitudes of mere institutional imprimaturung do not necessarily
bad-faith/inauthenticity `~preconverging–de-mentating/structuring/paradigming`’, likewise budding-positivism movements with their correspondences and initiatives in sublimating self-assuredness-of-ontological-good-faith/authenticity`~postconverging–de-mentating/structuring/paradigming` as-being-as-of-existential-reality ultimately led to the subversion of medieval-scholasticism ‘non-positivising scholasticism ontological-bad-faith/inauthenticity`~preconverging–de-mentating/structuring/paradigming`’, and today in many ways the postmodern movement is more potent as to its social dynamics of ‘liberation and emancipation’ (however incipiently crude as to its sublimating self-assuredness-of-ontological-good-faith/authenticity`~postconverging–de-mentating/structuring/paradigming`–as-being-as-of-existential-reality) in the face of surreptitious and spurious strategies of anti-intellectual misanalysis, misinformation and complotment as to our modern-day ‘pedantic totalisingly-disentailing—discretion/whim-of-thought ontological-bad-faith/inauthenticity`~preconverging–de-mentating/structuring/paradigming`’. Thus the more centrally defining element of human angling-of-imaginary speaks to human capacity for contemplation of metaphysics-of-absence-⟨implicated-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩ epistemic-projection which is in many ways elusive to psychical-nascency disposition. But then this is no more different for the implicit projective-insights approach to thinking pervading the natural sciences; as to a fundamental aptitudinal capacity to think in terms of perspectives (implicitly speaking to such notions like projections and fields of conceptualisation that do not absolutise our present conceptualising framework and actually factor in the limited-mentation-capacity as to apriorising/axiomatising/referencing to then project of the implications of human limited-mentation-capacity-deepening of apriorising/axiomatising/referencing). In this regards, (and as priorly indicated herein just as conceptualising ‘the actuality-<as-to-history> of physical manifestations of the cosmos as astronomy’ with physics rather construed as the
‘archaeological/deconstructive–conceptualisation-<as-to-its-ahistorical-emancipation> of such an actuality conception that is astronomy’ with the implication that the ‘beholdening astronomical manifestations of planetary phenomena, planets, stars, galaxies, etc. as to a given shape of the universe and its becoming’ are conceptualised from the ahistorical-emancipation of physics as of an underlying physics archaeological/deconstructive–conceptualisation that allows for the momentous sublimating \( ^{\text{historiality/ontological-eventfulness}} \)/ontological-aesthetic-tracing:<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'> of astronomy to be construed and so unlike a naïve desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition approach that fails to factor in that the varied ‘beholdening astronomical manifestations of planetary phenomena, planets, stars, galaxies, etc. as to a given shape of the universe and its becoming’ are rather undergirded by an ahistorical-emancipation of conceptualisation of congruent physics principles as to their underlying ontological-contiguity\(^6\), in many ways the implicited notions of Foucauldian genealogy/archaeology and Derridean différencé deconstruction as well as explicited herein as of the ontological-contiguity\(^6\)—of-the-human-institutionalisation-process\(^2\) (implied de-mention-\langle supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics \rangle so-underlying human fundamental ontology-driven ‘postconverging-or-dialectical-thinking\(^2\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’) are tantamount to ‘an ahistorical-emancipation projection and grasp of the fundamental human psyche and potential’ undergirding the actualities of societies and individuals reflected as human aestheticisation–and–aestheticisation-towards-ontology (as to social-setups imbued ‘supposed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation of meaningfulness-and-teleology\(^1\)) underlied by language, culture, social institutions, technical knowhow, etc., and so as to human Being-development/ontological-framework-expansion–as-

Basically, given that such ‘a projection of ahistorical-emancipation knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism imbued theoretical/conceptual/operant implications’ is even more unsettling (as to ‘the

This is so-equally graspable for instance in the patent case of say a God-of-plane or superstitious conception of modern medicine in an animistic social-setup that cannot simply be construed as ‘explained away by a circumstantial thorough positivistic/rational-empiricism elucidation of how a plane or modern medicine works’ since such an animistic social-setup existentialising–frame is so-thoroughly beholdening to its ‘mystical/spirits conception of things’ going by its ingrained ‘reference-of-thought specific preconverging/dementing’–qualia-schema’ that at best only a circumstantial constraining is induced (and not a positivistic/rational-empiricism knowledge value as to its prospective ‘nonpresencing-

For instance, such a nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩ epistemic-projection reflected of such a term like metaphoricity herein as to an exercise of ‘opening the human mind’ to projectively see that what the Socrates, Copernicus, Galileos, Descartes, Kants, Newtons, Leibniz, Rousseaux, Diderots, Pasteurs, Lavoisiers, Teslas, Einsteins, etc. of the world as to their intellectual-and-moral profound-supererogation are doing tangibly is metaphoricity as to psychologismic~apriorising/axiomatising/referencing-{of-attendant-ontological-continuity -ecided–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment by} postconverging-entailment in ultimately producing prospective sublimating ‘meaningfulness-and-teleology’ (and in this regards there is no vague interpretation associated with the word metaphor as to the fact that the literary/poetic metaphor is the more basic ‘sign-associated conception of metaphor as to aestheticisation’ while the very practice of ‘science is an advancement of the conception of metaphor however implicated in the natural sciences as to aestheticisation-towards-ontology imbued exactifying/precisioning–of-sublimation-⟨as-to-entailing-theoretical,-conceptual-and-operant-implications⟩’ explaining the recurrent psychologismic~apriorising/axiomatising/referencing-{of-attendant-ontological-continuity -ecided–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment by} postconverging-entailment reflecting science ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩). But the possibility to induce blurriness is pedantically taken up in a blurring conception of the

difficult to contemplate but for pedantic consciously or unconsciously elicited misanalysis and blurriness. With such pedantic blurriness undergirded by such a ‘statement that certain things are unspeakable’ rather herein construed as the very hallmark of such institutional disontologising undermining of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications because human civilisation/enlightenment/progress is exactly about metaphorising as ‘making unspeakable things speak’ (as tangible like the metaphors of Newton making abstract forces conception to speak, Einstein making spacetime conception speak, Mendel making hereditary characteristics to speak, etc. and in all such cases not only counterintuitive-and-idiosyncratic to their epochal minds but initially also to their instigators very own minds, and just as herein as tangible as to the explicated veracity of the <cumulating/recomposuring–attendant-ontological-contiguity>, successive registry-worldviews/dimensions reference-of-thought specific preconverging/dementing–qualia-schema reflecting their specific prospectively ontologically-flawed nondescript/ignorable–void imbued self-presence/self-constitutedness <in-perspective–epistemic-abnormalcy/preconvergence > as from prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection so-implied as human de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology , institutional-development–as-to-social-function-development and living-development–as-to-personality-development). This in many ways is rather telling about the nombrilistic presencing–absolutising-identitive-constitutedness of such ‘statement that certain things are unspeakable’ as effectively expliciting by itself the lack of a sense of metaphysics-of-absence–implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence> conception as to profound ‘knowledge–

It can be appreciated (as of an
anthropological insight) that a positivistic/rational-empiricism mindset encounter with say an animistic social-setup cannot relate to the latter in ‘absolute terms of effectively demonstrable positivistic/rational-empiricism systematics/entailment of sublimating’ (as it will so-relate to a fellow positivistic/rational-empiricism mindset) as this will induce excessive mental alienation to the ‘point of the positivistic-with-animistic mutualising mental shutdown’. But rather such a relation will be ‘within the scope of the animistic collective-social implications of human limited-mentation-capacity’ (or within the scope of the ‘debarking positivistic community and animistic social-setup shared/mutual collective-social implications of human limited-mentation-capacity’) to integrate prospective positivising ontologising-and-re-ontologising over the animistic social-setup prior non-positivising disontologising; as to the positivising mindset projection of ‘constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation$^{97}$ imbuing human ontological-commitment $^{<}$implied—self-assuredness-of-ontological-good-faith/authenticity $\sim$postconverging—de-mentating/structuring/paradigming $-$as-being-as-of-existential-reality$^{39}$’ but then at the same time this equally allows for the possibility for an anti-positivising disontologising as to temporal social-stake-contention-or-confliction. In this regards, it can be appreciated that the veridically comprehensive and complete sublimating–nascence of technical and scientific progress like shipbuilding and other ocean voyage technologies rather came into their full realisation as to a healthy global commercial relations these enabled over their initial pirating, warring and exploitative dehumanising pursuits (speaking of their requisite human epistemic-growth/disquiet/discomfort—\{induced-sublimation,-as-from-existence’s—\} effusing/ecstatic–inlining-as-historiality-\{science/authenticity/nonextrication\}-beyond-mere-formulaicity-as-historicity-tracing-\{science-ideology/fashionability/distraction\}\} that is rather decisive and indispensible). Such an insight as to the supererogatory—wholesomeness/profound-supererogation\[^97\] of organic-knowledge for say present-day institutional-development–as-to-social-function-development can be garnered with the patent case of say knowledge for the management of a nuclear facility which is much more than its mere inherent processive technicalities (‘knowledge as a mere doable thing’) but equally with the technicity/profundity extending to the facility operators reflexive and contemplative appreciation of the dangerousness of nuclear materials and processes and ability to critically take appropriately conservative and cooperative or autonomous decisions to stave off any potential crises (with these associated elements including their mental/psychological suitability construed as the requisite epistemic-growth/disquiet/discomfort—\{induced-sublimation,-as-from-existence’s—\} effusing/ecstatic–inlining-as-historiality-\{science/authenticity/nonextrication\}-beyond-mere-formulaicity-as-historicity-tracing-\{science-ideology/fashionability/distraction\}\} tied to that
knowledge and so within the framework of the facility thought-out/contemplated operational and designing conception integrative of such sublimating operation). This reality about the supererogatory—wholesomeness/profound-supererogation\(^7\) of organic-knowledge is relevant in all institutional domains as well but for when it comes to conveniencing, popularising, merchandising and media-ratings driven purposes which may be innocuous in other contexts but turn out to be particularly consequential when permeating and undermining the political process as to when human sovereign participation is in-effect construed as utterly dissociated with ontological-veracity. In this regards, a generalised cultivated public distraction/indifference/passivity/debased relation to the political process as to imply it is discretionary, remotely-sovereignising, inconsequential and doesn’t warrant a certain requisite level of individual-by-institutional-by-social epistemic-growth/disquiet/discomfort\({\text{induced-sublimation, as-from-existence’s—effusing/ecstatic—ining—as-historiality—}}\)

This ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ effectively underlies the inherent existentialising–decisionality of underpinning–suprasocial-construct as to underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist; as to the fact that in many ways ‘the very existentialising–realness of such abstract notions as to their nondisjointment tends to be \(<amplituding/formative–epistemicity>totalisingly~absent/vague, relative/qualified and ephemeral/fleeting’ with the underpinning–suprasocial-construct more fruitfully identifiable/construable as to its ‘underlying social dynamics of \(80\) presencing—absolutising-identitive-constitutedness\(^{13}\) social-vestedness/normativity-<discretely-implied-functionalism>’ that-drives/is-behind such subontologisation/ideology-over-ontology disjointing abstract notions as technocratic, capitalistic or communist which are rather ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ (as can be more vividly be observed in moments of crisis when such ‘underlying social dynamics of \(80\) presencing—absolutising-identitive-constitutedness\(^{13}\) social-vestedness/normativity-<discretely-implied-functionalism>’ manifest themselves as superseding any such abstract ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ but also persistently across time in more subtle ways). Such ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ are geared on collectively inducing defaulting ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness –presublimation-construct–of–meaningfulness-and-teleology\(^{10}\) desublimating–existentialising–decisionality) that goes on to

science or political-science do not actually socially exist in their ‘abstract semantic sense’ but are ‘already pragmatically deferring into the religiosity of the underpinning-suprasocial-construct catchmenting-by-rejection of value and value-possibilities’, such that in effect all thought gravitates around the religiosity whether critical or praising as to the

In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing ‘meaningfulness-and-teleology\textsuperscript{13}’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the
pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendancy with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a dementative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial
gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of
individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational
skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic
model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary
lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of
capitalistic enterprising across the world takes various shapes and forms wherein ‘the more
doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound
value creation activities (often of poorly compensated supererogatory–progressivity) and in
many ways undermining the inclination for profound value creation as to the shortcut for short-
term returns. This capitalistic model of skewed value-extraction undermines the possibility of
overall human supererogatory–progressivity as to when in the contest between optimal-
resource-allocation for value-creation as to the requisite creativity for individuals and social
supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-
sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting
the externalities investments in education and infrastructure of second and third world
countries) but still posing the question as to how skewed value-extraction can de-
mentatively/structurally/paradigmatically address in the long-run issues of requisite social and
public investment as a requisite for a theoretically self-sustaining economic model (not
critically driven and supported by the supererogatory–progressivity prioritisation of local or
foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall
social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit
manifestation of supererogatory–progressivity as underlying any given underpinning–
 suprasocial-construct is most obvious today with the Chinese economic revolution as to the
creative impetus driving its overall socioeconomic transformation. Here again it is fair to say
just like with the Japanese and South Korean economic revolutions (given their more uniform
and deferential populations) there is a whole directedness here (beyond just a purist capitalism

model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of supererogatory–progressivity’ as so-associated with debt servitude and de-mentative/structural/paradigmatic adjustment programmes. The fact then is that the only nations
in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure/omnipotentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national
communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory–progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness—<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of ’<presencing—absolutising-identitive-constitutedness|}> social-vestedness/normativity—<discretely-implied-functionalism>’). Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the modern-day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation’ of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to

1771
‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to N-presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from a totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is preconvergingly–de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’.

Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically
efficient/optimising resource allocation/utilisation/development (as to the fact that de-
mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of
markets associated with say German, Japanese, Chinese, South Korean public-policy
supererogatory–progressivity economic models participate in their competitive edge over
‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an
overall deliberative optimalising potential of human supererogatory–progressivity beyond any
such capitalistic limitative-artifice-of-human-imaginary/metaphysical-conceptualisation as to

etc.). In other words, the notion of ‘the other’ as aetiologisation/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity for ontologically-veridical virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the ’30s; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology misunderstood as implying that it lies with a historical tradition like the Ancient Greece tradition or German Folk tradition rather than lying with an underlying transcendental universal notion construed as ‘going beyond them-and-us logic’ as of the implications of universal human emancipatory potential of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–implied-postconverging/dialectical-thinking–qualia-schema–projective-insights/epistemic-projection-in-
conflatedness ‑of‑notional‑deprocrypticism‑prospective‑sublimation⟩, and this fundamentally scuppered his possibility of ‘attaining a conception of prospective notional-contiguity/epistemic-contiguity ‑<profound‑supererogation ‑of‑mentally‑aestheticised‑postconverging/dialectical‑thinking ‑qualia‑schema> as of the need for prospective relative-ontological-completeness ‑of‑reference‑of‑thought’, rather than an ‘ontologically‑flawed idea implying a certain given historical tradition’. Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme ’ as of our -<amplituding/formative–epistemicity>totalising–self‑referencing‑syncretising/circularity/interiorising/akrasiatic‑drag ‑prior relative-ontological-incompleteness ‑of‑reference‑of‑thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme ’; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity ‑<profound‑supererogation ‑of‑mentally‑aestheticised‑postconverging/dialectical‑thinking ‑qualia‑schema> as of prospective relative-ontological-completeness ‑of‑reference‑of‑thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-
escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. This existential reality about ontological-prime-movers-totalitative-framework is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective—ontological-normalcy/postconvergence-implied—'prospective-aporeticism-overcoming/unovercoming'> inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of ’s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care—and—episteme’ in ontological-contiguity as of its <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness—of—reference-of-thought perspective construed—as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notion-al-contiguity/epistemic-contiguity —<profound-supererogation —of—mentally—aestheticised—postconverging/dialectical-thinking —qualia-schema> as of prospective relative-ontological-completeness—of—reference-of-thought, as implicited with the case of Derrida’s spirit insight. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity\(^2\)-<shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema> but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity\(<\text{shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema}>\) as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a\(^{10}\) universal principle understanding of the transformation of traditions’ and thus how such \(^{10}\) universal principle understanding as of its \(^{10}\) universal

In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically,<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating —{<amplituding/formative>supererogatory-de-

In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism overcoming/unovercoming (underlying that Descartes’ dimensionality-of-sublimating

That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval-scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the
ontological argument Descartes blocks-out/passivises the supernatural from the natural with the
metaphoricity\(^5\) implication that the natural can be thought of operationally and in sublimation
on its own terms–as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a

The appropriate contemplative perspective for the appreciation of their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications is effectively crossgenerational as of the amplitude/breadth of reference-of-thought implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity; as we can effectively appreciate that the very mathesis universalis schema/disseminative metaphoricity engendering our positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> analysis, implied as of prospective relative-ontological-completeness—of—reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness—of—reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising/circumscribing/delineating construct being the reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology but rather human-subpotency adjusting as to existence-potency—sublimating—nascence—disclosed-from—prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of
prospective relative-ontological-completeness—of—reference-of-thought/relative-ontological-completeness—of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) with regards to the reference-of-thought transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and-teleology is an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation to our already established psychoanalytic disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation in resetting-our-psychoanalytic-disposition/prospective-grounding as of <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought in apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—conflatedness—in—preconverging—disentailment—by—postconverging-entailment, such that this leads to apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—constitutedness—in—preconverging—entailment when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-subpotency. When so-construed prospectively, ‘postmodern exteriorisation attitude/mental-disposition/care–and–episteme’ is all about such a depency—deprocrysticism—or—preempting—disjointedness-as-of-reference-of-thought as implied by its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. ‘original postmodern-thought-process and other postmodern creative-processes avant-gardism’ that are not in a reasoning-from-results/afterthought ontological entanglement with our ‘modern take attitude/mental-disposition/care–and–episteme’. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much
important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon/projection of meaningfulness-and-teleology about attendant ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity’; but then at its uninstitutionalised-threshold where its reference-of-thought de-mentative/structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness-of-reference-of-thought, it always systemically faces notional-procrypticism/notional-disjointedness as of vices-and-impediments arising from non-positivism/superstitious human-subpotency existentially constrained temporal ontological-performance-INCLUDING-virtue-as-ontology as wooden-language-imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought-categorical-imperatives/axioms/registry-teleology in usurpation of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon/projection of meaningfulness-and-teleology about attendant ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity’ now in false certainty/assurance. actually what empowers the possibility for prospective institutionalisations that
surpersede/transcend it. In other words, humans in the various prior institutionalisations before
our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposureras-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective-ontological-normalcy/postconvergence-reflecteds-epistemicity-relativism-determinism> of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective. That is, grounding of meaningfulness-and-teleology is certainly required, but as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective relative-ontological-completeness<reference-of-thought; and as highlighted elsewhere it is ontological-completeness-of-reference-of-thought (of human-subpotency as of its limited-mentation-capacity-deepening ) that can imply human-subpotency ontological-performance<including-virtue-as-ontology> correspondence with the full-potency of existence. It should be noted here that this ontology’s-directedness-as-Being/ontologically-veridical notion of human-subpotency singularisation<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism ontological-performance<including-virtue-as-ontology> correspondence with the full-potency of existence is a notion of teleology in notional–conflatedness as of ontological-normalcy/postconvergence (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-

Singularisation—<as-to-the—nondisjointedness/entailment-of-prospective—nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism thus speaks of how human subpotent prospective relative-ontological-completeness—of—reference-of-thought as of its limited-mentation-capacity-deepening induce transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, with the ‘ecstatic releasement of existence to human-subpotency’ as to existence-potency—sublimating—nascence,—disclosed—from-prospective-epistemic-digression. Virtue-as-ontology means that it is wrong to construe the ontological-contiguity of the human-institutionalisation-process as of a human temporal dimensionality-of-sublimating transformation, and so fundamentally because of human limited-mentation-capacity and the correspondingly constraining consequences on its ontological-performance-<including-virtue-as-ontology>. Rather it is more candid to relate to the ontological-contiguity of the human-institutionalisation-process as of human limited-mentation-capacity-deepening, and so as of prospective intemporal secondnatured institutionalisation induced universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising-in-relative-ontological-completeness⟩, deferential-formalisation-transference and habituation in positive-opportunism—of-social-functioning-and-accordance. Central to any such prospective institutionalisation transcendental-enabling/sublimating/supererogatory–de-mentativity meaningfulness-and-teleology is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness-of-reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification as of the developed disposition to register such implications as of their intemporal/longness-of-register-of-meaningfulness-and-teleology pertinence; as the notion of crossgenerational de-mentation-⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩ herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically
necessarily the framework of such transcendentally implying meaningfulness-and-teleology. Thus the metaphoricity exercise of transcendence-and-sublimity/sublimation/superaerogatory—de-mentativity is not one of necessarily eliciting instant meaningfulness-and-teleology universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework for prospective universal positive-opportunism—of-social-functioning-and-accordance; as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence-and-sublimity/sublimation/superaerogatory—de-mentativity but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness—as-to-totalitative-reification-in-singularisation<as-to-the-nondisjointedness/entailment-of-prospective nonpresencing—as-veridical-epistemicity-relativism-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process, so-construed-as-singularisation<as-to-the nondisjointedness/entailment-of-prospective nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism’. The insight here about reification is that all their intemporal value references are rather as subsumed in their ‘positivistic reification of ‘meaningfulness-and-teleology’\textsuperscript{10} as of their prospective relative\hyp{}ontological\hyp{}completeness\textsuperscript{33}\textsuperscript{34} reference\hyp{}of\hyp{}thought with the corresponding implications of human ‘prospective positivistic transcendence\hyp{}and\hyp{}sublimity/sublimation/supererogatory-de\hyp{}mentativity ontological\hyp{}performance\textsuperscript{72} - <including\hyp{}virtue\hyp{}as\hyp{}ontology>’ as aetiology\hyp{}ontological\hyp{}escalation, and so over non\hyp{}positivism\hyp{}medievalism vices\hyp{}and\hyp{}impediments\textsuperscript{106}. By that token they are effectively of the most intellectually\hyp{}and\hyp{}morally inclined persons of their society. Contrastively, the temporal value reference as of non\hyp{}positivism\hyp{}medievalism \textit{wooden\hyp{}language\textsuperscript{14} (imbued—averaging\hyp{}of\hyp{}thought\textit{as\hyp{}to\hyp{}leveling\hyp{}ressentiment\hyp{}closed\hyp{}construct\hyp{}of\hyp{}meaningfulness\hyp{}and\hyp{}teleology} -as\hyp{}of\hyp{}‘nondescript/ignorable–void ’-with\hyp{}regards\hyp{}to\hyp{}prospective\hyp{}apriorising\hyp{}implications\textsuperscript{106}) mental\hyp{}dispositions of persons like ‘honourable aristocrats’ simply reified to the \textsuperscript{104}universalisation–non\hyp{}positivism\hyp{}medievalism registry\hyp{}worldview\hyp{}dimension with its prior relative\hyp{}ontological\hyp{}incompleteness -of- reference\hyp{}of\hyp{}thought vices\hyp{}and\hyp{}impediments\textsuperscript{106}, while favourably looked upon as of non-
positivism/medievalism society from a prospective singularisation-projected epistemic-immanence/veridical-epistemicity-relativism-determinism insight points to such a prior registry-worldview/dimension denaturing meaningfulness-and-teleology, and implying effectively that they are of lesser intellectual-and-moral dialogical-equivalence-projected epistemic-immanence/veridical-epistemicity-relativism-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology. This points out that as of its very own reference-of-thought reification of meaningfulness-and-teleology, as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism–procrypticism as from futural

However, this ‘ontologically-veridical reification of value reference as of prospective relative-ontological-completeness\textsuperscript{88}’ and the ‘ontologically-flawed dereification of value reference as of prior relative-ontological-incompleteness\textsuperscript{89}’ is associated with a fundamental paradox/confusion with regards to sound human intellection at destructuring-threshold\{uninstitutionalised-threshold /presublimating–desublimating–decisionality\}–of-ontological-performance\textsuperscript{77}–<including-virtue-as-ontology>. As this reification/dereification of meaningfulness-and-teleology paradox/confusion has always provided the room for intellectual-and-moral charlatanism throughout human history as of lack of\textsuperscript{104} universal-transparency \textsuperscript{103}\{(transparency–of-totalising-entailing–as-to-entailing–<amplituding/formative–epistemicity>totalising–in–relative-ontological-completeness \}. The idea of ontological-bad-faith/inauthenticity\textsuperscript{64} raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence’–existentialism-form-factor, with the possibility of denaturing\textsuperscript{15} as

reflection of attendant ontological-contiguity-duced-existentialising/contextualising/textualising-contiguity
This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-
knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating

sublimity/sublimation/supererogatory-de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-
incompleteness-of-reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme’ conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness-of-reference-of-thought; and in due course, by its ontological-primemovers-totalitative-framework constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that
it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary-as-unenframed/unbeholding/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking –‘projective-insights’/‘epistemic-projection-in-conflectedness’-of-notional–deprocrypticism-prospective-sublimation} potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness’-of- reference-of-thought with the latter’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag>, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of ontological-prime movers-totalitative-framework for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness’-of- reference-of-thought naïve non-transcendental <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag>, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘preconverging-existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in
their 60-to-100 years of existence reality of ‘meaningfulness-and-teleology’. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism as it reflects ontological-completeness-of reference-of-thought for ontologically-veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our ‘modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness’ perspective/framing/reference/horizon/projection’ apriorising/axiomatising/referencing–\{of-

attendant ontological-contiguity–educed–existentialising/contextualising/textualising-
contiguity} — constitutedness\[\text{in preconverging entailment}\] construal of categorising/taxonomising schemes that pervades the ‘modern categorising mental-disposition’ as of our occlusive-consciousness\[55\] neuterising, as we fail to grasp the implication of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori’; such that the ‘meaningfulness-and-teleology\[100\] that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is apriorising/axiomatising/referencing-{of-attendant ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity } — conflatedness\[\text{in preconverging disentailment by}\] postconverging entailment that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening\[53\] implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional–conflatedness\[75\] of notional–deprocrypticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as suprastructural conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation<-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>\[46\].

Such a postmodern/suprastructuralism double-gesture reification holds that knowledge
involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care–and–episteme with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of such organic-knowledge construed in intemporality as supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional–postconverging/dialectical-thinking –apriorising-psychologism, whereas mechanical-knowledge is rather predispose to adhere as of temporal threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to–attendant-intradimensional–prospectively-disontologising–preconverging/dementing –apriorising-psychologism> to such mere reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. The latter points to an inappropriate attitude/mental-disposition/care–and–episteme which is not beholden to the prospective institutionalisation but rather is of preconverging–existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme and organic-knowledge attitude/mental-disposition/care–and–episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-
positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms—as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care—and—episteme as of its prior relative-ontological-incompleteness reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate
meaningfulness-and-teleology\textsuperscript{100} to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness\textsuperscript{12}-of-reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaninglessness-and-teleology\textsuperscript{100} as of any specific human society relative-ontological-incompleteness -of-reference-of-thought as fundamentally denaturing \textsuperscript{5}, and likely to induce transversality-<for-sublimating-existential-eventuating/denouement>-of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{102} dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold \textsuperscript{100} universal values, and so as of \textsuperscript{100} universal-transparency\textsuperscript{105} ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ⟩. Ultimately, such a double-gesturing hold out the possibility in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{5}, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a \textsuperscript{100} universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{5} in transforming their society. We can appreciate that supposed
a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with...

Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care–and–episteme’ event-or-operant to all and sundry. Finally, the naivety when
facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human <\textit{amplituding-formative-epistemicity}\textsuperscript{totalising–thrownness-in-existence} (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originary-as-unenframed/unbeholdening/outlier-conceptualisation\textsuperscript{(imbued-postconverging/dialectical-thinking -’projective-insights’/’epistemic-projection-in-conflatedness ’-of-notional-deprocrypticism-prospective-sublimation)} creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification–gesturing-<in-prospective\textsuperscript{psychologismic–apriorising/axiomatising/referencing-} of-attendant-ontological-

‘institutional investment’ that is not always just of eruditic ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness—of-axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity undermining of Being-development/ontological-framework-expansion—as-
to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology due to ‘lack of social universal-transparency’—{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising—\ldots}’. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness—reference-of-thought as underscoring medieval vices-and-impediments with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion—\ldots meaningfulness-and-teleology; and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of—reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register—meaningfulness-and-teleology stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion—\ldots meaningfulness-and-teleology as of its crossgenerational transcendental implications and as reflected from the insight in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics—\ldots’.
intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of ontological-primemovers-totalitative-framework\(^2\), and so divulged by existence-potency\(^1\)–sublimating–nascence–disclosed-from-prospective-epistemic-digression; as prior human\(^8\) presencing–absolutising-identitive-constitutedness\(^1\) experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as presencing–absolutising-identitive-constitutedness\(^1\) enabling the obtention of any such conclusions from the given classical-mechanics—axiomatic-constructs apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—constitutedness\(^1\)–in-preconverging-entailment, but rather it is by apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—confatedness\(^1\)–in-{preconverging–disentailment–by}-postconverging-entailment with regards to ‘the very same physics\(^7\) <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as—intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of nonpresencing–<perspective–ontological-normaley/postconvergence>. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of–meaningfulness-and-teleology\(^1\) individuation mental-disposition in ‘a tendential-deliberation–of-decidability as enabled by ontological-primemovers-totalitative-framework\(^2\) tendential validation as to existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression. Such a construal of human transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity will cover the seminal contributions prior
and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-
together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an
ontological-basis for construing sublimation overrides our \(^5\) neuterising laden modern
convention ways of judging breakthroughs overemphasising singular initiative, as it is rather
grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as
the basis of human limited-mentation-capacity-deepening \(^3\) analysis; and insightfully, as
reflected in the underlying apriorising/axiomatising/referencing—{of-attendant—ontological-
contiguity —educed—existentialising/contextualising/textualising-contiguity }—
conflatedness —in {preconverging-disentailment—by}—postconverging-entailment of accreting-
substitutive-subsumption-as-futural-différance-freeplay\(^2\), sublimation is achieved rather out of
the notional obviating of human temporal-as-non-ontological \(^5\) neuterising with
deneuterising\(^1\)—referentialism and with correspondent intemporal-as-ontological
rearticulation/reconstrual of \(^5\) meaningfulness-and-teleology\(^0\) as of dynamics of insight of
shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-
consciousness of notional—deprocrypticism perspective/framing/reference/horizon/projection.
Similarly, this author’s articulation of futural-différance as of transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity is necessarily construed ontologically as
of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a
prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both
cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous
identification and occurrence of decisional act’ but that decidability in enabling transcendence-
and-sublimity/sublimation/supererogatory—de-mentativity is as of an ‘overall différance
tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening \(^3\)
process. Thus sublimation is equally reflected in the deliberateness involved in cultivating
artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay différance, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity’; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting–conviction-as-to-profound-supererogation deference to the prescience of existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression over any human-as-mortals framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the postconverging–dementating/structuring/paradigming of sublimation for a registry-worldview/dimension

In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension reference-of-thought in prospective relative-ontological-completeness of-axiomatic-construct-or-of reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social universal-transparency’ (transparency-of-totalising-entailing, as-to-entailing of amplituding/formative–epistemicity totalising–in-relative-ontological-completeness). But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu
come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness\(^8\)-of-axiomatic-construct-or-\(^2\) reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay\(^1\) comes into terms with both \(^0\) presencing—absolutising-identitive-constitutedness\(^1\) and \(^1\) nonpresencing-\(<\text{perspective-ontological-normalcy/postconvergence}\>\) on the basis of the prospective relative-ontological-completeness \(/\text{ontological-contiguity}\)^7 of the latter over the prior relative-ontological-incompleteness\(^9\) of notional-discontiguity/epistemic-discontiguity \(<\text{shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema}\>\) of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality.-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising\(^2\) but rather difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\(^2\) between \(^0\) presencing—absolutising-identitive-constitutedness and \(^1\) nonpresencing-\(<\text{perspective–ontological-normalcy/postconvergence}\>\). Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon/projection as of prospective relative-ontological-completeness\(^8\) notional-contiguity/epistemic-contiguity\(^6\)' construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic \(^5\) meaningfulness-and-teleology\(^0\) grounded
on such a developed consciousness perspective/framing/reference/horizon/projection. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon/projection as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon/projection as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon/projection’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon/projection as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon/projection’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon/projection as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon/projection’ to grasp notional~deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘notional~deprocrypticism mindset perspective/framing/reference/horizon/projection as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at
that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency (transparency-of-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity-totalising—in-relative-ontological-completeness)’ such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of de-mentation (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing /ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—<as-to-postconverging-or-dialectical-thinking—apriorising—psychologism> of the consciousness in ontological-contiguity /relative-ontological-completeness of reference-of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating—measuring—<as-to-preconverging-or-dementing—apriorising—psychologism> of the

‘human-amplituding/formative–epistemicity-totalising-purview-of-construal’’. As futural différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay différance’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojeciton-or-reanticipation capacity inducing human limited-mentation-capacity-deepening; overriding the idea that the perspective/framing/reference/horizon/projection of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising’, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing as of prospective relative-ontological-completeness-of-reference-of-thought bringing about transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of ‘nonpresencing-<perspective-ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-con structs; wherein the successive axiomatic-constructs in
prior relative-ontological-incompleteness and prospective relative-ontological-completeness, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics’ and prospective relative-ontological-completeness, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics’. 'Traditional classical mechanics axiomatic-construct' and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics’ are not as of a difference-in-kind/difference-in-aposteriorising-or-logicising but rather a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/suberogatory—de-mentativity of nonpresencing—<perspective–ontological-normalcy/postconvergence>. In other words, human consciousness tends to be constraint to its <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ mental-disposition as of presencing—absolutising-identitive-constitutedness. But existence/ontology’s-directedness-as-Being as of nonpresencing—<perspective–ontological-normalcy/postconvergence> is beyond and not constraint by human consciousness as of its <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-
existential-reality possibilities of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of ontological-primemovers-totalitative-framework\textsuperscript{22} validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence\textsuperscript{22} as-to-presencing—absolutising-identitive-constitutedness\textsuperscript{13} of any given \textsuperscript{<amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag} from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} posture; such that humankind then overlooks\textsuperscript{13} presencing—absolutising-identitive-constitutedness\textsuperscript{13} and re-projects/re-anticipates\textsuperscript{13} nonpresencing-\textsuperscript{<perspective–ontological-normalcy/postconvergence>} enabling human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Therefore, metaphoricity\textsuperscript{57} as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity\textsuperscript{57} is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity\textsuperscript{57} as such simply refers to signification adjunctiveness to ‘underlying \textsuperscript{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language}’ as of both the ‘meaningfulness-and-teleology\textsuperscript{100} implications to the so-renewed ‘underlying \textsuperscript{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language}’ and the specific adjunctive-metaphoricity-signification within such renewed ‘underlying \textsuperscript{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language}’. Metaphoricity\textsuperscript{57} is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-teleology\textsuperscript{100} as an epistemic-totalising\textsuperscript{22}/circular construal’. This
the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the ‘drawback implications’ of our positivism–procrypticism episteme as of its apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed–}

essence cannot do without this hermeneutic/reprojecting/supererogating/zeroing circle phenomenological ontology elucidation as of its psychoanalytic-unshackling apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educated- existentialising/contextualising/textualising-contiguity }—conflectedness— in {preconverging- disentailment by}-postconverging-entailment; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon/projection and then contention/argumentation within such articulated perspective/framing/reference/horizon/projection, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon/projection for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality—<for-sublimating—existential—
 eventuating/denouement>—of-affirmative-and-inaffirmative—disambiguated—‘motif-and— apriorising/axiomatising/referencing’ complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought.
Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing’ cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to ‘open-up’/‘throw-up’/‘reveal’ new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/supererogatory/de-mentativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon/projection before contention/argumentation as of any given perspective/framing/reference/horizon/projection, thus implying ‘poor critical judgment’. With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct,
and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling<-in-deferential-formalisation-transference> are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of

while the latter is an existential-extrication/temporal/non-ontological relationship with meaningfulness-and-teleology\textsuperscript{1961}, in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{1960} in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{57}—of-the-human-institutionalisation-process\textsuperscript{58} retrospectively and prospectively while the latter as of its false ‘untransvaluated–temporal-intemporality\textsuperscript{52}’ is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{1960} in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{57}—of-the-human-institutionalisation-process\textsuperscript{58}. As ultimately, it is the prospective relative-ontological-completeness\textsuperscript{53}—of-reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments\textsuperscript{106} as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory—de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity\textsuperscript{64} can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon/projection of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social\textsuperscript{104} universal-transparency\textsuperscript{105}—(transparency-of-totalising-entailing-, as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness)}’ with regards to such over-a-time-period-bodily-reparation notion and
throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive wooden-language-〈imbuend-amplituding/formative〉 averaging-of-thought-〈as-to-leveling/ressentiment/closed-construct-of- meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications〉 ‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers
themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence-in-dimensionality-of-desublimating-lack-of supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional–knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence–(implicated-epistemic-veracity-of-nopresencing-<perspective–ontological-normalcy/postconvergence>) will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness–of-axiomatic-
construct-or of reference-of-thought over a amplituding/formative epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness of-axiomatic-construct-or reference-of-thought of a better knowledge perspective/ reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness with regards to reference-of-thought and its derived meaningfulness-and-teleology, with the implication that we need to a prospective relative-ontological-completeness reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of meaningfulness-and-teleology. In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology, are made to have their internal-dialectics/différance as of nonpresencing-ontological-normalcy/postconvergence for their sublimation and transcendence-and-sublimity/sublimation/supererogatory de-mentativity into more profound and more complete meaningfulness-and-teleology. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations.
issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocripticism—or—preempting—disjointedness-as-of reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of attendant ontological-contiguity; is the enabling approach for human ontological-reconstituting—as-to-conflatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating ⟨amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or- conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ of our supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern postconverging–de-mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-
veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as herein implied by this author with ‘the ontological-contiguity—of-the-human-institutionalisation-process congruent,-cogent-and-operant entailing framework of ontological-contiguity’. Anecdotally, the shallow-mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity—in-of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising —referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity is equally elicited by ‘lack of social universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ arises for instance in the sense that

entailment implications of knowledge construction as articulated herein but equally points
critically to intellectually decadent institutional dispositions and practices where imprimatur
and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a back seat, with intellectual postures increasingly defended with non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in the form of many an intellectual increasing disposition ‘to misunderstand’ others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance; with a resultant sense of socioeconomic and socio-political impotence as such blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and preconverging–de-mentating/structuring/paradigming of academic institutional setups into increasingly into pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—are not dissociated from the effective possibility for transcendental-enabling/sublimating/supererogatory–de-mentativity, especially as such breakthroughs require the spontaneity of Dionysian arrangements. Thus this notion of human limited-mentation-capacity as the basis of différence/internal-dialectics/difference-deferral divulges ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ and as of their ontologically-flawed constructs of neuterising, with regards to articulating teleological elevation-as-of-upholding-ontological-veridicality or teleological degradation-as-of-failing-ontological-veridicality respectively either as of apriorising/axiomatising/referencing- {of-attendant-ontological-contiguity -eucued-existentialising/contextualising/textualising-contiguity } — conflatedness —in {preconverging-disentailment by]—postconverging-entailment or destructuring respectively. This overall disparateness-of-ontologically-construed-social-reality dynamism is reflected in ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness\(^{11}\) consciousnesses flawed conceptualisation
mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this neuterising that human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is achieved from the prospective notional–conflatedness of notional–deprocrypticism and so by deneuterising—referentialism, which is equinominal/equivalent to nonpresencing-<perspective–ontological-normalcy/postconvergence>. In other words the historical implications of human limited-mentation-capacity-deepening is that ‘as of a less and less ontologically-flawed meaningfulness-and-teleology towards ontological-normalcy/postconvergence, ‘it projectively/anticipatorily brought about the registry-worldviews/dimensions <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought- ‘devolving’ as of their given neuterisation’, construed as equinominal/equivalent with their successively given neuterising. From the above insight, transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, is attainable as of deneuterising, construed as equinominal/equivalent with deneuterising—referentialism as the notional–conflatedness of notional–deprocrypticism that produces the ontologically-veridical historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-epistemicity-relativism-determinism>. Ultimately, this sociohistorical disparateness-of-ontologically-construed-social-reality dynamism comes down to the limited/incomplete association of human ‘invention’ of organic-knowledge with the reflection of ‘this organic-knowledge underlying mental-disposition as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–meaningfulness-and-teleology rather defectively as of mechanical-knowledge construal in existential instantiations’, inducing prospective ‘neuterising. This disparateness is increasingly closed-down all along in reflecting holographically-

ontological-completeness-of-reference-of-thought. Consider for instance (with regards to human growing/developing prospective relative-ontological-completeness-reference-of-thought), the historical transformation of meaningfulness-and-teleology associated with the development of human astronomical instruments, as from objects for religious calculations such as astrolabes to the development of telescopes today rather for advanced astronomical science mirroring a corresponding human amplituding/totalising-reality-as-teleology as of the successive institutionalisations.

This explains the peculiar mimetised-preconverging-or-dementing apriorising-psychologism placeholder-setup/mentation/consciousness-awareness-teleology we’ll construe for instance of a non-positivism/medievalism mindset/reference-of-thought that doesn’t register positivistic meaningfulness-reference-of-thought and likewise prospectively such a construal will have our present placeholder-setup/mentation/consciousness-awareness-teleology as of priorly unsoundness-or-ontological-bad-faith/inauthenticity-reference-of-thought/preconverging-or-dementing apriorising-psychologism by its positivism–procrypticism reference-of-thought. Just as the very nature of existential-reality by our limited-mentation-capacity-deepening construal/conceptualisation of it is rather ‘an uncompromising windedness/foldedness susceptible to our limited-mentation-capacity-deepening virtuality-or-ontologically-flawed-construal as decontextualising/unimbricating/unrecomposuring of its inherent nature’, correspondingly the exercise of ontologically-veridical reasoning is rather maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation.

Correspondingly, from the vantage position of our present positivising/rational-empirical ontological-completeness-of-reference-of-thought with respect to a non-
positivism/medievalism worldview, we can garner an insight of the threshold-of-

like psychopathy and social psychopathy. This speaks of the very nature of all threshold-of-

psychologism with regards to the limits of a registry-worldview’s/dimension’s institutionalisation (whether base-institutionalisation, universalisation and positivism eliciting respectively the uninstitutionalised-threshold of ununiversalisation, non-positivism/medievalism and procryptic) across all the ontological-contiguity—of-the-human-institutionalisation-process wherein the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought in its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (as metaphysics-of-presence{implicated–‘nondescript/ignorable–void ’-as-to- presencing–absolutising-identitive-constitutedness }; illusion-of-the-present/present-consciousness/mirage) is representing itself as ‘postconverging-or-dialectical-thinking –apriorising-psychologism and dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-worldview’s/dimension’s reference-of-thought, as of the ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective, it is ‘preconverging-or-dementing –apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason for the ontologically defective <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-
enabling/sublimating/de-mentativity’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been wooden-language{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of-nondescript/ignorable–void-with-regards-to-prospective-apriorising-implications}. However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening expansion of ontological-depth as increasing ontological-completeness-of-reference-of-thought (or reducing relative-ontological-incompleteness-induced,-‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism’). Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to meaningfulness-and-teleology whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding meaningfulness-and-teleology. A further example will be say ‘the God-of-plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence{implicated-‘nondescript/ignorable–void-as-to-presencing—absolutising-identitive—constitutedness}) and goes on articulating meaningfulness-and-teleology even in the new existential
transcendental/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension. Given such a state of \( \text{amplituding/formative–epistemicity} \)\textsuperscript{4} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{2}, the notion of generating \( \text{meaningfulness-and-teleology} \)\textsuperscript{10} from the ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective priorly implies a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, and so by \( \text{maximalising-recomposuring-for-relative-ontological-completeness} \)\textsuperscript{8}—unenframed-conceptualisation. While excluding any exercise of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—\( \text{attendant-ontological-contiguity} \)\textsuperscript{9}—educed–existentialising/contextualising/textualising-contiguity\textsuperscript{10} since the latter is only appropriate in the instance of prospective relative-ontological-completeness\textsuperscript{8}—of-reference-of-thought; as the base-institutionalisation (animistic) prior relative-ontological-incompleteness\textsuperscript{7}—induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supерerogation’\textsuperscript{7}—\( \text{as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism} \)’ puts into question the very first and absolute apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of \( \text{meaningfulness-and-teleology} \)\textsuperscript{10} (‘\text{attendant-ontological-contiguity} –educed–existentialising/contextualising/textualising-contiguity –\text{reifying-or-elucidating-of-}

Equally we can imagine that making a positivistic argument in the midst of a non-positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the ‘center’ had moved from their world (from non-positivistic as baseinstitutionalisation/animistic or medieval preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–procrypticism relationship to its postlogism\textsuperscript{78} that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism>, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism as well. However, to the extent that it is ‘not such <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold \textsuperscript{03} from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to universalisation–non-positivism/medievalism to positivism–procrypticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{100}) extrication in any registry-worldview/dimension with no

upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a ‘transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ confliction’ resolved intemporally by prospective ontological-primemovers-totalitative-framework and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded reference-of-thought and a prospective/transcending/superseding reference-of-thought; given the blunt fact that ‘there is no untransvaluated–temporal-intemporality and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of–meaningfulness-and-teleology  

distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of–meaningfulness-and-teleology projections.). Critically, the notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity associated with intemporality /longness and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-primemovers-totalitative-framework as it propounds the supersedingness/primacy/ascendancy of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness'/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-primemovers-totalitative-framework is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied when conceptualising that empirical meaningfulness-and-teleology is the sole purview of the
rational-empiricism/positivism registry-worldview/dimension failing to recognised that all other registry-worldviews/dimensions are actually empirical but differ as to interpretation of empirical perception whether as to a magical, cultic or other non-positivising interpretation of empirical manifestation) but speaks of ‘the central human epistemic-totalising\textsuperscript{32}~resubjecting or totalising-entailing–reconstrual heuristic drive’ defining as to preconverging/postconverging–de-mentating/structuring/paradigming \textsuperscript{56} meaningfullness-and-teleology\textsuperscript{100} the <cumulating/recomposuring–attendant-ontological-contiguity >succession of registry-worldviews/dimensions (however sublimatingly inefficient in relative-ontological-incompleteness\textsuperscript{70} and sublimatingly efficient in relative-ontological-completeness\textsuperscript{70} as from nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection); given that with corresponding shallow to limited-mentation-capacity-deepening\textsuperscript{53}, as institutionalising ontological-primemovers-totalitative-framework\textsuperscript{3} successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency\textsuperscript{73}~sublimating–nascence,-disclosed-from-prospective-epistemic-digression. Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as ontological-primemovers-totalitative-framework\textsuperscript{73} of meaningfullness-and-teleology\textsuperscript{100} going by their given limited-mentation-capacity. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening ’ implies more and more profound reconstruals/reconceptualisations (<amplituding/formative–epistemicity>totalising–renewing–
realisation/re-perception/re-thought) inducing transformative implications with respect to
meaningfulness-and-teleology\textsuperscript{(100)} as transcendence; in contrast to the mere aestheticisation of
abstract dialectic or analogy/mere-analogue speaking thus of human sublimation-
education—textuality/interpretation/reframing/supererogating/zeroing— as to possibilities of-
self-becoming-as-of—existential-interpretation/epistemicity-in-
-apriorising/axiomatising/referencing-of-existence\textsuperscript{(30)}. As knowledge conception as contrasted to
sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory—de-mentativity doesn’t recognise any human discreet
primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is
the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in
deciding that gravity is about 9.8 m/s\textsuperscript{2} on earth since intrinsic-reality imposes that idea and the
corresponding knowledge construction and organisation where intrinsic-reality is ascendant is
rather based on an ‘intemporality\textsuperscript{(52)}—asymmetric-subsumption-of-temporality\textsuperscript{(99)}’, for relative
intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity. This is not to be confused with sovereign
constructions and organisations driven by human sovereign choices such as political choices or
marketing choices or other sovereign choices based on practices and habits. The latter are
social-scientific (besides the previous notion of social-scientific referring to intrinsic social
reality transcendental-enabling/sublimating/supererogatory—de-mentativity), with respect to
transcendental-enabling/sublimating/supererogatory—de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the
human condition, i.e. human existential sovereign choices of meaningfulness-and-teleology\textsuperscript{(100)}
as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of
the meaningfulness-and-teleology\textsuperscript{(100)} itself’ but ‘rather as of the veracity/ontological-
pertinence of the reality of the human sovereign choices as of themselves as humans values

independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism>, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory–de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology <in-preconverging-existential-extrication-as-of-existential-unthought> to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory–de-mentativity) to prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not as an exercise of ‘logical mere
absence-\{implicated-epistemic-veracity-of\-nonpresencing-\langle\textit{perspective–ontological-normally}\textit{/postconvergence}\rangle\} in the conception of meaningfulness-and-teleology\textsuperscript{100}\textit{-}\langle\textit{including-virtue-as-ontology}\rangle as of the transcendental implications in reflecting holographically-\langle\textit{conjugatively-and-transfusively}\rangle the ontological-contiguity\textsuperscript{75}—of-the-human-institutionalisation-process\textsuperscript{64} of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, we can appreciate that the \langle\textit{cumulating/recomposuring–attendant-ontological-contiguity}\rangle-successive registry-worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity and the ontological-contiguity\textsuperscript{76}—of-the-human-institutionalisation-process\textsuperscript{68} in the first place; with the notional–deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in \langle\textit{amplituding/formative–epistemicity}\rangle-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in \langle\textit{amplituding/formative–epistemicity}\rangle-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in \langle\textit{amplituding/formative–epistemicity}\rangle-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}
its conventioning limits as being the absolute ontological determinant of \( \text{meaningfulness-and-teleology}^{100} \) ontological-performance\(^{72} \)-\(<\text{including-virtue-as-ontology}>\), and that \( \text{meaningfulness-and-teleology}^{100} \) as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the \( \text{amplituding/formative-epistemicity}> \) totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^3 \) of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of \( \text{meaningfulness-and-teleology}^{100} \) ontological-performance\(^{72} \)-\(<\text{including-virtue-as-ontology}>\), over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\( \text{meaningfulness-and-teleology}^{100} \) as of prospective \( \text{deprocrypticism}–\text{or–preempting}–\text{disjointedness-as-of}–\text{reference-of-thought} \) with regards to our positivism–procrypticism, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence–\( \langle \text{implicated-epistemic-veracity-of-} \text{nonpresencing-<perspective-ontological-normalcy/postconvergence>} \rangle \) for the conception of \( \text{meaningfulness-and-teleology}^{100} \) ontological-performance\(^{72} \)-\(<\text{including-virtue-as-ontology}>\) is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology\(^{16} \)-\(<\text{pre-converging-existential-extrication-as-of-existential-unthought}>\) naively construed \( \text{amplituding/formative–epistemicity}> \) totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^3 \) mental-reflex as the absolute ontological determinant of \( \text{meaningfulness-and-teleology}^{100} \) ontological-performance\(^{72} \)-\(<\text{including-virtue-as-ontology}>\), with regards to its capacity of appreciating prospective relatively profound pure-
ontology as herein implied that de-mentatively/structurally/paradigmatically supposedly supersedes our positivism–procrypticism registry-worldview’s/dimension’s institutionalisation
reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been re-originary–as-unenframed/unbeholdening/outlier-conceptualisation
(imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ‘-of-notional–deprocrypticism-prospective-sublimation) ideas which ‘proponents ultimate purpose (beyond-the-consciousness-awareness-teleology)<in-preconverging-existential-extrication-as-of-existential-unthought>’ weren’t fundamentally a ‘direct convincing’ of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, however unintelligible, as a prospective institutional percolation-channelling exercise as validated by ultimate ontological-primemovers-totalitative-framework with subsequent corresponding formalisation and secondnaturing. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor that ‘human knowledge is necessarily a secondnaturing construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of–meaningfulness-and-teleology, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the notional–deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche
and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation \textsuperscript{97} \textless \textsuperscript{as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing \textsuperscript{19}–apriorising-psychologism}. Thus human knowledge is a dynamic seconndnatured construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology \textsuperscript{100} \textless \textsuperscript{in-preconverging-existential-extrication-as-of-existential-unthought}. [The notion of ‘beyond-the-consciousness-awareness-teleology \textsuperscript{100} \textless \textsuperscript{in-preconverging-existential-extrication-as-of-existential-unthought}’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology \textsuperscript{100} \textless \textsuperscript{in-preconverging-existential-extrication-as-of-existential-unthought}’ speaks of the mental state as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \textsuperscript{97} \textless \textsuperscript{as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing \textsuperscript{19}–apriorising-psychologism} by its relative-ontological-incompleteness \textsuperscript{89}-of- reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (also referred to as ‘uninstitutionalised-threshold \textsuperscript{103}’) where the mental-disposition/mindset/\textsuperscript{84} reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology \textsuperscript{100} \textless \textsuperscript{in-preconverging-existential-extrication-as-of-existential-unthought} implies ‘conscious’ and/or ‘unconscious’ as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \textsuperscript{97} \textless \textsuperscript{as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing \textsuperscript{19}–apriorising-psychologism} at the
uninstitutionalised-threshold of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology -<in-preconverging-existential-extrication-as-of-existential-unthought>. Of course, where supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-completeness-of-reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogic induced deception can only be construed as beyond-the-consciousness-awareness-teleology -<in-preconverging-existential-extrication-as-of-existential-unthought> as when eliciting ignorance (as of ‘lack of constraining social universal-transparency’{(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness} of the psychopath’s mental-disposition of postlogism -as-of-compulsing-nonconviction/madeupness/bottomlining-‘<decontextualising/de-existentialising–of-attendant-

This effective realism as of rational-realism is the requisite insight in understanding how supposedly \(^\text{re-originary–as-unenframed/unbeholdening/outlier-conceptualisation}{(\text{imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ‘-of-notional–deprocrypticism-prospective-sublimation})\(^\text{91}\) transcendental notions of intemporality\(^\text{52}\)/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity. Further along
the rational-realism line of thinking, the fact is paradoxically that as more cuttlingly demonstrated with ‘cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, the mechanism of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not a simplistic transference from a more ontologically-completeness-of-reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag.
of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct of the old^1^ reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s^8^ reference-of-thought.

It is hardly the case of just a direct intemporal sense of ‘meaningfulness-and-teleology\textsuperscript{10} transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘\textsuperscript{10}\textsuperscript{39}presencing—absolutising-identitive-constitutedness\textsuperscript{13} consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation \textsuperscript{4}<amplituding/formative–

considered as actually generating material wealth was poorly perceived by many trade guilds).

The difference between postlogism (postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining) and prelogism (prelogism-as-of-conviction,-in-profound-supererogation) can further be developed as such. Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) taken involves rewards depending on how big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like deliberately using the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements as perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (more like the ‘covert negative vista’ of the hidden-nature/ unavailable social universal-transparency—{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness} of psychopathy especially at adulthood). Now supposed to resolve a ‘purposeful measurement’
A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of-reference-of-thought-as-of-conflatedness) and find out that the numbers measured and to be added are $5+2$ and is trying its best thereafter to resolve the sum but fails in its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and gives 9 as the answer, this doesn’t void logically re-engaging with A with respect to other sums in terms of aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements to be undertaken (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supossed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying 6.
+ 3 instead of 5 + 2 (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as 5+2) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) is flawed since B is not committed due to its perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose reference-of-thought is not perverted, such that A’s defect is a defect—of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential—defect, i.e. the teleological disposition of B inherently carries the defect (to the point that B can be socially-functional-and-accordant while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential—defect, there is a
possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It should be noted that C (where B’s condition is not exposed to it), D, E and F technically speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that they consciously perceive it can be socially-functional-and-accordant[94] to them wherein lack of ‘social universal-transparency\textsuperscript{104}–{\langle transparency-of-totalising-entailing,-as-to-entailing-\textless amplitudes/formative–epistemicity\textrangle totalising–in-relative-ontological-completeness }\textsuperscript{105} which protects the internal-coherence of meaning for virtue’ enables their own ‘covert negative vista’ however ad-hoc as conjugated-postlogism\textsuperscript{78}, i.e. as to the conjugated-ignorance of C (where B’s condition is not exposed to it), conjugated-affordability of D, conjugated-opportunism of E, conjugated-exacerbation of F, and conjugated-social-chainism of B, C (where B’s condition is not exposed it) D, E and F, and conjugated-temporal-enculturation to B’s condition of B, C (where B’s condition is not exposed to it), D, E and F; and they cannot therefore be re-engaged logically with (as of ‘prelogism\textsuperscript{79}–as-of-conviction,-in-profound-supererogation\textsuperscript{97}–{<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> re-engaging reflex’} on the basis that they will relay in circularity/recurrence/repetition/repeatability the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (perversion-and-

Thus the articulation of prospective institutionalisation ‘is not about ontological-primemovers-totalitative-framework implying equivalence between the prior/transcended/superseded and the prospective/transcending/superseding’. It is rather about the precedingness/supersedingness/ascendency of the latter in transversality-<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ and inequivalence with the former. For instance the factual ontological-primemovers-totalitative-framework/effectiveness validations of say a chemistry mindset/‘reference-of-thought (with demonstrations of chemistry principles by chemical reactions producing elements and compounds) say in a non-positivism/medievalism setup prone to alchemy and essences-driven explanations ‘is not and cannot be construed as a logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validation as of alchemic mindset/‘reference-of-thought but rather ‘a chemistry scientific mindset/‘reference-of-thought validation’, critically because the issue is fundamentally not most critically about the specific occurrent/case validations of chemistry principles but rather about the de-mentative/structural/paradigmatic non-positivism/medievalism alchemy and essences-driven explanations defective mindset/‘reference-of-thought

Such an insight can be extended

sublimity/sublimation/supererogatory-de-mentativity can be further elucidated with regards to
two remarkable historical developments which while inherently exceptional, to say the least,
aren’t truly transcendental. Consider for instance that transcendental is generally considered as
the central notion of Kantian philosophy. The reality however is that the supposed
transcendentalism is actually an elaboration in the terms of the actual and true rational-
empiricism/positivism reference-of-thought transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity established by Descartes’ thinking
proposition and scepticism exercise as the fundamental basis for continuously re-elaborated
‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity (Copernican revolution) is not eliciting a
‘postconverging-or-dialectical-thinking psychology or psychology-of-mentation-dynamics or
natural–psychological-dynamics’ of ‘<amplituding-formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-

does with respect to the non-positivism/medievalism psyche/placeholder-setup/mentaldesigning-representation/mentation/consciousness-awareness-teleology). The Kantian
construct is an elaboration well within the psychical framework established by dimensionality-of-sublimating

and Kantian meaningfulness-and-teleology is utterly comprehensible and intelligible to that

(beyond-the-consciousness-awareness-teleology\textsuperscript{100}–in-preconverging-existential- extraction-as-of-existential-unthought> ). Insightfully, this highlights that human mentation

capacity is in a dynamic cumulation as of the \textsuperscript{5} maximalising-recomposing-for-relative-

ontological-completeness —unenframed-conceptualisation of its limited-mentation-capacity-

deepering\textsuperscript{53}. It puts into question the Kantian philosophical exercise (Copernican revolution) of

striving to establish \textsuperscript{11} universal human mental apriorising/ axiomatising/ referencing principles

with respect to a mental state that is perpetually in a transformative becoming state of shallow- to-deepening–limited-mentation-capacity, as-limited-mentation-capacity-deepening\textsuperscript{52}. (This

latter condition inherently means that the certitude of such an enterprise itself can only be

apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while

interesting is in many ways rather a heuristic construct given its grounding on a categorisation

reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an
existence-potency\textsuperscript{1}\textsuperscript{1}~sublimating–nascence,-disclosed-from-prospective-epistemic-digression~rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologicallysame-existential-reality existent reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/alchemy/essences/medieval registry-worldview/dimension certainly does has a name (transcendence-and-sublimity/sublimation/supererogatory–de-mentativity). But then it is more the case that from an \textsuperscript{1}<amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{11} posture holding only one registry-worldview/dimension \textsuperscript{12}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} as absolute, then prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather a beyond-the-consciousness-awareness-teleology\textsuperscript{100}<in-preconverging-existential-extrication-as-of-existential-unthought>\textsuperscript{6}.

at a given point in time (erroneously construed as the absolute point of human thought
apriorising, without a decentering sense of projection with respect to the prior and prospective).
But existential-reality as of its human mental apriorising/axiomatising/referencing (heuristically
at least) started well before that point and carries on well after that point, and such an exercise
is more profound when it construes human mental apriorising/axiomatising/referencing along

In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the existentialising/contextualising/textualising-contiguity of existence as of human shallow-to-deepening—limited-mentation-capacity,~as-limited-mentation-capacity-deepening as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive-or-accidented-or—
random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening’, as further elaborated herein. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psyche as ‘<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re—thought-as-utter-placeholder-setup-ontological-rescheduling—{by—a—renewing—of—apriorising/axiomatising/referencing—psychologism—as—the—new—referencing—basis—of—prospective—meaningfulness—and—teleology }’ of positivistic physics right back then in their epoch such that the overall underlying principle of ontological-primemovers-totalitative-framework as transcendental-enabling/sublimating/supererogatory—de-mentativity back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-framework to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to ontological-primemovers-totalitative-framework that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory—de-mentativity as of its non-
scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity construction having to do with an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiathe-drag agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiathe-drag\(^{12}\) of \(^{56}\)meaningfulness-and-teleology\(^{00}\) is often wrongly construed as ontological as of reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{00}\)-for-aposteriorising/logicising/deriving/intelligising/measuring–\(^{7}\)meaningfulness-and-teleology\(^{00}\).

Consider for instance a situation where statistically people likely to rest more in their home in winter are compared with people spending more time outdoors with regards to prevalence of flu, and then arriving at the conclusion that the treatment for flu is resting more at home. This equally explains why the implied supratransversality<sup>29</sup>-<in-sublimating–existential-eventuating/denouement>—of-motif-and-apriorising/axiomatising/referencing as of aetiolisation/ontological-escalation is necessarily a ‘<sup>29</sup>presencing—absolutising-identitive-constitutedness<sup>3</sup> consummated/forfeiting posture’ of intemporality -asymmetric-subsumption-of-temporality /ontological-asymmetrisation that needs to take into account this ‘paradox of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’. And critically so, because beyond just ‘human conscious willing’, transcendence-and-sublimity/sublimation/supererogatory–de-mentativity necessarily implies the ‘prospect of humans to appreciate/understand meaningfulness-and-teleology<sup>100</sup>—beyond-the-consciousness-awareness-teleology<sup>100</sup>-<in-preconverging-existential-extrication-as-of-existential-unthought>’; such that, de-mentatively/structurally/paradigmatically/necessarily, that which gets to ‘conceptualise/construe beyond-the-consciousness-awareness-teleology<sup>100</sup>-<in-preconverging-existential-extrication-as-of-existential-unthought>’ is necessarily ontologically-asymmetrical as rather imbued with intellectual-and-moral responsibility over that which doesn’t get there (and so, even with regards to a basic non-transcendental construal of asymmetrisation within a same registry-worldview’s/dimension’s reference-of-thought like Doctor –Patient, Parent – Child, Server –Customer, Teacher –Student etc. as ensues from a Derridean binary opposition
analysis). However at uninstitutionalised-threshold\(^{13}\), the notion of intemporality\(^{52}\)-asymmetric-subsumption-of-temporality\(^{77}/\)ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded\(^{84}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\) inclined beyond-the-consciousness-awareness-teleology\(^{100}\)-<in-preconverging-existential-extrication-as-of-existential-unthought>-\(^{6}\) to uphold \(^{5}\) meaningfulness-and-teleology\(^{100}\) as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness\(^{88}\)-of-reference-of-thought will certainly grasp the pertinence of intemporality\(^{52}\)-asymmetric-subsumption-of-temporality\(^{77}/\)ontological-asymmetrisation as of deconstruction/ontological-reconstituting–as-to-conflatedness\(^{12}\) aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness–of-reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing–psychologism of transcendentally-enabling-level-of-ontological-good-faith-or-authenticity\(^{7}/\)objectification/desubjectification-as-objectification–<as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism>\(^{101}\) \(^{5}\) meaningfulness-and-teleology\(^{100}\) construal for a sounder and sounder relationship with intrinsic-reality/ontological-veridicality. In this respect, it should be noted that in the example on the denaturing\(^{15}\) of Additionality as further articulated below with regards to the characters A, B, C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce to Z’s supposedly ontologically-veridical posture, as by their prior relative-ontological-incompleteness –of-reference-of-thought as beyond-the-consciousness-awareness-teleology\(^{100}\)-<in-preconverging-existential-extrication-as-of-existential-unthought>-\(^{6}\) they may operate on a logic that once such a situation as A induced additionality defect deception develops as of ‘lack of constraining social universal-

As explained, the reason for the successive institutional-cumulation/institutional-recomposure—{as-to—historiality/ontological-eventfulness } underlying the ontological-contiguity—of-the-human-institutionalisation-process has to do with human limited-mentation-capacity-deepening inducing successive recomposuring from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity construed as diminishing—human-epistemic-abnormalcy-or-preconvergence towards ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. representation-perversion has various shades of ‘temporal/shortness to intemporal/longness depth/register of meaningfulness stranded finalities/teleologies’. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tells dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-suprerogation —of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism’ or prelogism\(^{79}\) in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-suprerogation —of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism’ or prelogism\(^{79}\) is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism\(^{79}\)-as-of-conviction,-in-profound-suprerogation —<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> (‘poor or bad supplanting–conviction-as-to-profound-suprerogation —of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism’), whether by omitting or exaggerating in a circumspect and ad-hoc manner but relative to attendant–ontological-contiguity —<reifying-or-elucidating-of-prospective-relative-ontological-completeness —of- reference-of-thought-

psychopath is 'narrating veridical emptiness/hollow narratives'. The idea being about arriving at
a sought-outcome by taking a posture that does not attach a depth of supplanting–conviction-as-to-profound-supererogation—of-'attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism on narratives but rather simply ‘the mere possibility of the
hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the
psychopathic postlogic mindset and by derivation conjugated-postlogism/preconverging-or-dementing -integration mindset is one of relating to meaningfulness as valid by ‘the mere
performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to
perform in interlocution rather than express a genuine sense of supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-
thinking—apriorising-psychologism and hence the disposition for extrinsic-attribution by
active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of
passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-
attribution associated with transcendental-enabling/sublimating/supererogatory-de-mentativity,
but rather as a potent and active construct of social determinism which requires actually
eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence.
This mental-disposition is qualified as epistemic-decadence or postlogism and its
derivation/adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-
postlogism. More precisely, it is critical to distinguish between the notion of slanting (cinglé
in French) as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining

The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge associated with postlogism-as-of-compulsing-nonconviction/madeupness/bottomlining-⟨‘decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing’-induced-disontologising’-of-the-

explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity with regards to inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. the difference between slanting and lying, is that a lying child doesn’t come across as delirious

Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently—false—presupposing/false—presuming/false—premising-of-narratives or deception-by-concurrently—false—assumptive—preconverging—or—dementing—apriorising-psychologism. Thus, with slanting the implied—logical-dueness (with the corresponding

This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of ‘attendant-ontological-contiguity’–educed–existentialising/contextualising/textualising-contiguity by its dereification on a mental-processing disposition that is rather a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’, and so in contrast with the expected ‘reifying nuanced/multivalent mental-processing’ of supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’–postconverging/dialectical-thinking.

we can very much uphold a secondnatured quasi-intemporal-disposition reference-of-thought as ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ which is why humankind pursues institutionalisations as devising human collective emancipation from base-institutionalisation to universalisation to positivism and prospectively to notional–deprocrypticism in resolving the vices-and-impediments of their respective uninstitutionalised-threshold as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. But exactly for the purpose
of ensuring the perpetuation of this human registry-worldview’s/dimension’s institutionalisation capacity (as in enabling futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{[19]} as of prospective deprocrypticism) as the very essence of human virtue itself, it is equally important to understand how institutionalisation comes to be limited at successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure\textsuperscript{(as-to-histolirality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’>)} (as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturesdness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor) to grasp how we can then supersede/transcend prospectively. ‘Human temporal uninstitutionalised-threshold\textsuperscript{[11]} mental-disposition’ refers to our fixation to the mere–categorical-imperatives/axioms/registry-teleology\textsuperscript{[10]} of the registry-worldview/dimension institutionalisation\textsuperscript{[14]} reference-of-thought but failing/not-upholding–<as-of-apriorising/axiomatising/referencing> prospective intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\textsuperscript{[13]} by a re-equilibrating metaphysics-of-absence–{implicitied-epistemic-veracity-of-nonpresencing–<perspective–ontological-normalcy/postconvergence>} postdication as construed from the prospective registry-worldview/dimension institutionalisation\textsuperscript{[14]} reference-of-thought, and as revealed by this prospective institutionalisation\textsuperscript{[15]} attendant-ontological-contiguity\textsuperscript{[12]}–educed–existentialising/contextualising/textualising-contiguity–in-elucidation-or-reification’s-elucidation-of-prospective-relative-ontological-completeness\textsuperscript{[18]}–of–reference-of-

Thus this implied human ‘postconverging-or-dialectical-thinking\textsuperscript{84}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as driven by ontological-normalcy/postconvergence will explain the specific natures of registry-worldviews/dimensions \textsuperscript{84}references-of-thought (as ‘underlying scheduling of soundness-or-ontological-good-faith/authenticity\textsuperscript{84}-of-\textsuperscript{84}reference-of-thought’) behind the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure-{as-to-\textsuperscript{84}historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>\}} peculiar psychologisms/psychologism-constructs of meaningfulness in explaining the empirical-realities
of the various anthropological societies mindsets/reference-of-thought/consciousness-awareness-teleology; whether as recurrent-utter-uninstitutionalisation psychologism, base-institutionalisation–ununiversalisation psychologism, universalisation–non-positivism/medievalism psychologism, positivism–procrypticism psychologism, and prospectively notional–deprocrypticism psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing–apriorising-psychologism’ as of their relative-ontological-incompleteness of reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of attendant-ontological-contiguity–duced–existentialising/contextualising/textualising-contiguity as ontologically-veridical. Thus, notional–deprocrypticism as decentering and preconverging-or-dementing–apriorising-psychologism the positivism–procrypticism registry-worldview reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/reference-of-thought of meaningfulness-and-teleology with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening) a renewing of mindset/reference-of-thought of meaningfulness-and-teleology with its
hollow-staging-and-performance of positivism–proscriptivism and all the lower registry-worldviews/dimensions. Basically, this idea of ‘human temporal uninstitutionalised-threshold' mental-disposition’ as metaphysics-of-absence-\{implicated-epistemic-veracity-of- nonpresencing-\langle perspective-ontological-normalcy/postconvergence \rangle \} points out that ontological analysis should rather be from the prospectively implied ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’, and in this instance implying an ontological analysis of psychopathy and social psychopathy from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deproscriptivism registry-worldview 8 registry-worldview 8 reference-of-thought and not the present positivism–proscriptivism, just as analysing notions-and-accusations-of-sorcery should rather be from the prospective positivism registry-worldview 8 reference-of-thought and not its present universalisation–non-positivism/medievalism registry-worldview 8 reference-of-thought; as of the fact of fundamental registry-worldview/dimension ‘prospective registry-worldview’s/dimension’s-uninstitutionalised-threshold 03–defect-<as-Being-or-ontological-or-existential–defect>, so construed in order to supersedes its preconverging–de-mentating/structuring/paradigming vices-and-impediments 106. Structural/paradigmatically/de-mentatively, this idea extends to all issues implying metaphysics-of-absence-\{implicated-epistemic-veracity-of- nonpresencing-\langle perspective-ontological-normalcy/postconvergence \rangle \} ‘human temporal uninstitutionalised-threshold 03 mental-disposition’. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics
or natural-psychological-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental meaningfulness-and-teleology.

This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-
emancipator, the present ascendency of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-primemovers-totalitative-framework’ that has accompanied human limited-mentation-capacity-deepening in construing/conceptualising meaningfulness-and-teleology. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening that actually is behind all threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-‘attendant-intradimensional’-prospectively-disontologising—preconverging/dementing—apriorising-psychologism of the successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of de-mentative/structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the
‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence-\{(implicated-nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness\} and metaphysics-of-absence-\{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normality/postconvergence>\} ontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought psychologism, notional–deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction rather as socially-functional-and-accordant. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/\{meaningfulness-and-teleology\} reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in
terms–as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘huma prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms–as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/ reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms–as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold’, across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation building up from the prior ones as of their respective elucidation-of attendant–ontological-contiguity–reduced–existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-

Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigm but for failure in aposteriorising/logicising/deriving/intelligising/measuring performance as defect–of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s– reference-of-thought-for-social-functioning-and-accordance. But then human existential-reality comes with human limited-mentation-capacity-deepening with limited grasp of intrinsic-reality at various stages of human emancipation up to the modern-day, such that social universal-transparency {transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness} required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold mental-disposition’ as of attendant ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought

As ‘emotional-involvement’ is self-centering-and-definitional of human consciousness as of our animate-existential-referencing/subjectification, but actually such reality is otherwise of the same ontologically-veridical nature as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,-disclosed–from-prospective-epistemic-digression into which everything else is caught into as superseding–oneness-of-ontology (even though our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction will often tend to induce a relatively flawed meaningfulness-and-teleology construal in this regard, that explains our metaphysics-of-presence–(implicit–'nondescript/ignorable–void ’-as-to–presencing—absolutising–identitive-constitutedness ) mental-disposition). That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology\textsuperscript{100},–<in-preconverging-existential-extrication-as-of-existential-unthought> given our relative-ontological-incompleteness–of–reference-of-thought and secondly by projective-arbitrariness/waywardness in the choices we make, and this get even worst at the uninstitutionalised-threshold\textsuperscript{10}. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute \textsuperscript{84} reference-of-thought–prelogism\textsuperscript{79}–as-of-conviction,–in-profound-supererogation \textsuperscript{-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal preconverging–dementating/structuring/paradigming and further so with respect to increasing informality as in the extended-informality–{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology} of all human institutions, and particularly where social \textsuperscript{105} universal-transparency \textsuperscript{-<transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-}

de-convergence as of transversality-for-sublimating-existential-eventuating/denouement-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing'. Such a distinction particular at the uninstitutionalised-threshold is required because it then implies ontologically the relegation of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the soundness-of-the-reference-of-thought as of reference-of-thought–categorical-imperatives/axioms/registry-teleology in the first place to establish or not perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation. This delineation is in line with the idea of human temporal (shortness-of-register-of–meaningfulness-and-teleology) to intemporal (longness-of-register-of–meaningfulness-and-teleology) individuations nature as implicitly recognised in the preconverging/postconverging–de-mentating/structuring/paradigming of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge-notionalisation on the basis that it is equally critical to understand the possibility of the ignorances/desublimation just as conceptual sublimation knowledge itself to further uphold, advance and skew for the latter. The point being that construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of reference-of-thought–prelogism-as-of-conviction,-in-profound-supererogation.<existantially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold the possibility of the ontological-veridicality of interlocutors threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-‘attendant-intradimensional’-prospectively-
psychologism (as operant construal) untenable. This brings to the fore the idea that the salient point about human mental-disposition whether construed as of institutionalisation basis or at its uninstitutionalised-threshold has to do with the possibility of attaining or not attaining social universal-transparency - (transparency-of-totalising-entailing-, as-to-entailing-

Where this is effectively attained, it becomes psychically and institutionally untenable for interlocutors to act as of subpar (threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation -<as-to-'attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>) with regards to reference-of-thought–prelogism-as-of-conviction,-in-profound-supererogation
<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at>. This will explain why the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation -<as-to-'attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension meaningfulness-and-teleology, in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social universal-transparency
(transparency-of-totalising-entailing-, as-to-entailing- <amplituding/formative–
epistemicity>totalising–in-relative-ontological-completeness ) knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-completeness -of-reference-of-thought. This imbued potency in social universal-transparency
(transparency-of-totalising-entailing-, as-to-entailing- <amplituding/formative–
epistemicity>totalising–in-relative-ontological-completeness ) across all registry-worldviews/dimensions is what explains the possibility of social transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed ‘reference-of-thought—prelogism—as-of-conviction,—in-profound-supererogation’ —<existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at> to meaningfulness-and-teleology as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of ‘universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. Basically, the postlogism—as-of—compulsing—nonconviction/madeupness/bottomlining—{‘<decontextualising/de-existentialising—of—attendant—intradimensional—apriorising/axiomatising/referencing>—induced-disontologising’—of—the—‘attendant—intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant-ontological-contiguity >}—in—shallow—supererogation }<as—to—disontologising—perverted—outcome—sought—precedes—existentially-veridical—‘attendant—intradimensional—apriorising/axiomatising/referencing’—logical-dueness> } mindset threshold—of—nonconviction/madeupness/bottomlining—in—shallow—supererogation }<as—to—‘attendant—intradimensional’—prospectively—disontologising—preconverging/dementing—apriorising—psychologism> arises out of its temporal individuation’s surreptitiousness (‘lack of constraining social } }universal—transparency } }{transparency—of—totalising—entailing—as—to—entailing—<amplituding/formative—epistemicity>—totalising—in—relative—ontological—completeness } such that it can induce threshold—of—nonconviction/madeupness/bottomlining—in—shallow—supererogation }<as—to—‘attendant—intradimensional’—prospectively—
disontologising~preconverging/dementing –apriorising-psychologism> rule) as of marginal social instigation (consider the targeted nature of the adult psychopath’s maturation/indirectness/spatialisation/credulity/craftiness within the scope of social functionality) while socially enabled circularly (due to the underlying prior relative-ontological-incompleteness of reference-of-thought as social procryptism—or—disjointedness-as-of-reference-of-thought is itself an enabler for psychopathy just as a non-positivistic registry-worldview/dimension social superstition is itself an enabler for its corresponding postlogism for ‘imaginary’ accusations of sorcery); and so, while socially inducing temporal-dispositions conjugated-postlogism derived threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-'attendant-intradimensional’-prospectively-disontologising~preconverging/dementing –apriorising-psychologism>, and so overall, on the flawed mental-reflex that such protraction of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-'attendant-intradimensional’-prospectively-disontologising~preconverging/dementing –apriorising-psychologism> is supposedly reference-of-thought–prelogism -as-of-conviction,-in-profound-supererogation <-existentially-veridical–‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> (as to the lack of constraining social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative—epistemicity>totalising~in-relative-ontological-completeness )). Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism as a social dynamism of protracted threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-'attendant-intradimensional’-prospectively-disontologising~preconverging/dementing –apriorising-psychologism> doesn’t socially take hold then, as such childhood postlogism
worldview/dimension as prior (despite the relative-ontological-incompleteness \(^9\) of reference-of-thought induced distractive-alignment-to \(^7\) reference-of-thought-<apriorising/axiomatising/referencing> \(^9\) and override any such sense of relative pure-ontology apriorising/axiomatising/referencing- \{of-attendant ontological-contiguity -educated- existentialising/contextualising/textualising-contiguity \} conflatedness \(-in\)-(preconverging-disentailment by) postconverging entailment as of prospective relative-ontological-completeness -of- reference-of-thought apriorising/axiomatising/referencing- \{of-attendant ontological-contiguity -educated- existentialising/contextualising/textualising-contiguity \} conflatedness \(-in\)-(preconverging-disentailment by) postconverging entailment). So the transcendental \(^56\) meaningfulness-and-teleology \(^100\) implied as of projective-insights about the prospective registry-worldview/dimension predicative-insights of \(^59\) meaningfulness-and-teleology \(^100\) going by its prospective relative-ontological-completeness -of- reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for \(^5\) meaningfulness-and-teleology \(^00\) in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes \(^5\) meaningfulness-and-teleology \(^00\) in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness -of- reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness -of- reference-of-thought had moved on to the new/prospective \(^5\) meaningfulness-and-teleology \(^100\) which is now antipodal to his, hence his confliction with his circular-pervasiveness <amplituding/formative> wooden-language-<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications-> which is equally a reflection of the confliction the village had had with the same prior circular-
pervasiveness \(<\text{amplituding/formative}>\) wooden-language-\(<\text{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications}>\) when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-reference-of-thought with regards to meaningfulness-and-teleology construal where Nunez’s ‘seeing of the environment’ \(84\) reference-of-thought as of it prospective relative-ontological-completeness \(89\) -of-axiomatic-construct-or-\(84\) reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ \(84\) reference-of-thought as of its prior relative-ontological-incompleteness \(89\). This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior \(84\) reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a \(<\text{amplituding/formative}>\) wooden-language-\(<\text{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications}>\) that hardly entertains its own transcendability/de-mentativity, and why transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ \(84\) reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their \(84\) reference-of-thought’ despite their respective inherent prior relative-ontological-incompleteness \(89\)-of-
reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to-reference-of-thought from an ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews/dimensions uninstitutionalised-threshold, including our own as positivism—procrypticism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought-notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective <amplituding/formative-epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-
supererogation validity’ but rather such a demonstration is more de-
threshold as of its ontologising-deficiency:relative-ontological-incompleteness-of-reference-of-thought. We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments representing the <cumulating/recomposuring–attendant-ontological-contiguity>-successive registry-worldviews/dimensions reference-of-thought under which their respective predicative-insights construct their respective meaningfulness-and-teleology, so grounded axiomatically as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights; is compared imaginarily to ‘mental-dispositions at different successive ascertaining-perspectives unbeknown-to-each other for gauging the overall earth landscape’ (representing analogically ‘different <cumulating/recomposuring–attendant-ontological-contiguity>-successive registry-worldviews/dimensions for meaningfulness-and-teleology’), construed say at ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as recurrent-utter-uninstitutionalisation), ‘hill-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as base-institutionalisation–ununiversalisation), ‘mountain-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as universalisation–positivism), ‘airplane-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as positivism–procrypticism) and ‘space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as deprocrypticism), rather as successive mental-states/ reference-of-thought unbeknown-to-each-other in ‘circular-pervasiveness closed-structure of
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring-
purpose—of-obtained-measurements’. We know that having never experienced ‘hill-level-
height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (base-institutionalisation–ununiversalisation) the ‘sea-level-height
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (recurrent-utter-uninstitutionalisation) will hardly countenance operating
the perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
for predicative-insights of the former as more ontologically profound, given its ‘circular-
pervasiveness closed-structure

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring-
purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-
level-heights

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-
level-heights

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty
is that ‘no given

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and
by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run cроссgenerational habituation construed as of \[de-mentation\]

We can grasp as well that it is the ‘space-satellite-level-height'

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as deprocrypticism) that ultimately provides the ideal ‘ascertaining-perspectives for gauging the overall earth landscape’. Besides, why the explication herein is necessarily implying a prospective \[84\]reference-of-thought (as the author in here with a supposed notional-deprocrypticism \[17\]reference-of-thought construal as implying a prospective relative-ontological-completeness \[88\]of-\[84\]reference-of-thought over our positivism–procrypticism), the fact is that any transcendental analysis is caught in two worlds as two different \[84\]reference-of-thought in striving to explicate the ontological pre-eminence of the prospective \[84\]reference-of-thought as of ontological-normalcy/'postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our \[84\]reference-of-thought being construed as ‘preconverging-or-dementing\[19\]–apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing\[19\]–apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing\[19\]–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as
preconverging-or-dementing–apriorising-psychologism and not thinking, and recurrent-utter-
uninstitutionalisation uninstitutionalisation as preconverging-or-dementing–apriorising-
psychologism and not thinking. We can grasp this by imagining how a non-positivism
uninstitutionalised-threshold will react when construed as preconverging-or-dementing–
apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it
considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-
dementing –apriorising-psychologism and not thinking representation of ourselves construed
from futural Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of
prospective deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought
perspective as in disjointedness-as-of-reference-of-thought and rather in distractive-
alignment-to- reference-of-thought–of-apriorising/axiomatising/referencing–! Thus the
reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemporal-
conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-
syncretising-as-of-perceived–social-stake-contention-or-confliction nature’ for the sake of
deconstructive-engagement/engaged-destruktion because an analysis construed as of
reference-of-thought is all about mental-soundness or unsoundness representation (with no
logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a
change of reference-of-thought implies a change of perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-of–
meaningfulness-and-teleology as a shift of the curve-of-prospective-relative-ontological-
completeness–of-reference-of-thought/axiomatic-construct and not a change in logic as a
change along the same reference-of-thought/curve-of-prior-relative-ontological-
incompleteness–of-reference-of-thought/logical-processing-or-logical-implicitation=
supposedly-apriorising-in-conviction-as-to-profound-supererogation. In other words, a truly
direct notional-deprocrypticism ontological analysis will be a ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism of our positivism–procrypticism as we by reflex ‘mentally break-in’/dement a non-positivistic \textsuperscript{84}reference-of-thought (as we don’t engage it on the basis of the non-positivistic \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100}, just as a notional-deprocrypticism analysis will not engage us on the basis of our procrypticism–or–disjointedness-as-of-\textsuperscript{84}reference-of-thought \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100}, and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness–of-\textsuperscript{84}reference-of-thought of non-positivism and procrypticism–or–disjointedness-as-of-\textsuperscript{84}reference-of-thought). But then wholly carried out in both instances it will be off-putting to both prior \textsuperscript{84}reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness–of-reference-of-thought over prior relative-ontological-incompleteness–of-reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God-of-plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic \textsuperscript{84}meaningfulness-and-teleology\textsuperscript{100}, considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-
universalisation, the ‘mental tools’ available to a state of non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing—apriorising-psychologism with respect to an implied prospective mental state of positivism, and prospectively the ‘mental tools’ available to a state of positivism–procrypticism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing—apriorising-psychologism with respect to an implied prospective mental-state of depocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, issues of perversion-and-derived-perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—render such notions as forgiveness/overlooking/resetting nothing more but vague <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag—misconstruing based on ‘a naïve traditional reflex’ that truly has no grander virtuous implications but quite the contrary as actually endemising/enculturating vices-and-impediments as when so-construed as a <amplituding/formative> wooden-language—{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology } failing/not-upholding intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; thus transforming such ‘denaturing notions of forgiveness/overlooking/resetting into a temporal mental-disposition ontological-prime-movers-totalitative-framework ‘misconstrued vicious insight disposition’ thus rather endemising/enculturating vices-and-impediments! Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no de-mentative/structural/paradigmatic issue of relative-ontological-incompleteness of reference-of-thought with no recognition of any such ontological-contiguity—of-the-human-institutionalisation-process as human limited-mentation-capacity-deepening retrospectively to prospectively. our reflex such that such notions as forgiveness/overlooking/resetting and notions of positive psychology are rather just a failure to de-mentatively/structurally/paradigmatically recognise the implied perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as of our relative-ontological-incompleteness-of-reference-of-thought, and what we are doing then is ‘re-referencing from the same positivism–procrypticism relative-ontological-incompleteness-of-reference-of-thought’ and thus wrongly implying our undementativity hence our untranscendability for a de-mentative/structural/paradigmatic reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’, and paradoxically thus by implication that there is no relative-ontological-incompleteness-of-reference-of-thought, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/articulated above as of de-mentative/structural/paradigmatic nature of the Good/understanding/notional–knowledge-reification–gesturing—in-prospective_psychoanalistic–apriorising/axiomatising/referencing–of-attendant–ontological–

invalidating by implication the logical-dueness/logical-pertinence as of logical-processing-or-
logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness reference-of-thought with respect to its prior relative-ontological-incompleteness of reference-of-thought. But since we have been habituated as of our existential formation within our wooden-language—imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void ‘—with-regards-to-prospective-apriorising-implications> to be in logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by default and thus always contendingly relevant on the basis of sharing a mutual positivism reference-of-thought, we will hardly entertain though a notional-deprocrypticism cross-engagement implied invalidation of our logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and thus rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness reference-of-thought construed as disjointedness-as-of reference-of-thought. But then ironically such a unde-mentativity posture could as well be adopted by a non-positivism/medievalism reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking—and-centered-prospective-institutionalisation’s—categorical-imperatives/axioms/registry-teleology with its logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid by default. This point out that there is necessarily a central growth element of a de-mentative/structural/paradigmatic reference-of-thought—categorical-imperatives/axioms/registry-teleology—-for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ allowing for de-mentativity and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic epistemicity>causality>totalitative—implications-of-prospective-nonpresencing,—for-explicating-ontological-contiguity of vices-and-impediments of our prior relative-ontological-incompleteness—reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn’t recognise the mortals that we are and we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid ‘human closure of meaningfulness-and-teleology’ which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived—social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as a wooden-language—imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>
arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of notional–deprocrypticism prospective relative-ontological-completeness\(^\text{31}\)–of\(^\text{54}\) reference-of-thought is restored by doing away with ‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-in’/preconverging-or-dementing\(^\text{19}\)–apriorising-psychologism of positivism–procrypticism meaningfulness-and-teleology\(^\text{10}\) at its procrypticism uninstitutionalisation as of disjointedness-as-of reference-of-thought from notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, just as we’ll appreciate that were the animists insistent say on relating to the plane as God-of-plane to a point implying their potential non-transcendability as of psychoanalytic-unshackling in due course, ‘ontological-veridicality tolerance as stretched-truth’ is no longer warranted but a direct ‘mental break-in’/preconverging-or-dementing\(^\text{19}\)–apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a demonstration might be construed as of a simple paper plane demonstration of ontological-primemovers-totalitative-framework\(^\text{73}\) principles or extraordinarily a flight from the flight deck with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered meaningfulness-and-teleology\(^\text{10}\) is more ontologically pertinent. Certainly such a ‘mental break-in’/preconverging-or-dementing\(^\text{19}\)–apriorising-psychologism demonstration with regards to our procrypticism reference-of-thought as of its disjointedness-as-of reference-of-thought construed from a notional–deprocrypticism reference-of-thought perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights will look weird to us going by our circularly pervasive <amplituding/formative–epistemicity>totalising–self-referencing–

The bigger point being that by definition a reference-of-thought doesn’t fathom the nature and degree of its relative-ontological-incompleteness-of-reference-of-thought as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. (Thus suggesting base-institutionalisation in recurrent-utter-uninstitutionalisation, implying universalisation in base-institutionalisation–ununiversalisation, suggesting positivism in universalisation–non-positivism/medievalism and suggesting notional—deprocrypticism in positivism–procrypticism will be perceived initially as ‘bullshit’ going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence’—existentialism-form-factor as of our temporal inclination to subjectification/nombrilism/self-referencing. Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism-and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought social referencing of meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution construed as of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) by superseding the prior non-positivism prior relative-ontological-incompleteness-of-reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness-of-reference-of-thought by ‘continuous habituation going by the latter’s ontological-primemovers-totalitative-framework in the long run as superseding the prior beyond-the-consciousness-awareness-teleology-in-preconverging-existential-extrication-as-of-existential-unthought and initiating the appropriate prospective social universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and

Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency — (transparency-

sitting on the wet chair and needing an explanation of the whole situation including the child’s

basis of the established reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology before the institutionalisation of such a specific uninstitutionalised-threshold takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside–attendant-ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism–procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or ‘disjointedness-as-of-reference-of-thought’–as-misappropriated–meaningfulness-and-teleology going by the visitor’s relative-ontological-incompleteness-of-reference-of-thought as of positivism–procrypticism, while the explainer of the situation has factored in notional-deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology to preempt the induced procrypticism or ‘disjointedness-as-of-reference-of-thought’–as-misappropriated–meaningfulness-and-teleology from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of notional-deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-
to preempt the slanted inducing of procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology and gives up on positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold with respect to the childhood psychopathy, a new notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology has superseded the prior positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity-educed—existentialising/contextualising/textualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism/psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-

Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism\(^{78}\) condition of the child. That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism\textsuperscript{77}/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing>\textsuperscript{29} as undermining apriorising/axiomatising/referencing-of-attendant–ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity conflatedness in {preconverging-disentailment–by}–postconverging entailment induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-

The implication here is that the construal/conceptualisation of ontologically-veridical meaningfulness-and-teleology\textsuperscript{100} lies entirely/exclusively/supersedingly on the ‘reference-of-thought/axiomatic-construct/curve-of-prospective-relative-ontological-completeness\textsuperscript{88} -of--reference-of-thought of the explainer of the situation while the logical-dueness of the visitor’s ‘supposed but rather non-existential/non-ontological ‘reference-of-thought/axiomatic-
construct/curve-of-prior-relative-ontological-incompleteness\textsuperscript{90} -of--reference-of-thought’ doesn’t even arise in the very first place and fundamentally explains why its meaningfulness-and-teleology\textsuperscript{100} is operantly qualified as of ‘distractiveness’/distractive-alignment/dismissal-
ontological-incompleteness\textsuperscript{100} of reference-of-thought, as all the meaningfulness-and-teleology\textsuperscript{100} that can be as of intrinsic-reality/ontological-veridicality wholly lies with the intemporal projection of appropriate apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of its prospective relative-ontological-completeness of reference-of-thought. The implication at the registry-worldview level is that base-institutionalisation ‘wholly carries all the meaningfulness-and-teleology\textsuperscript{100} that can be as of intrinsic-reality/ontological-veridicality’ over a state of recurrent-utter-uninstitutionalisation, and likewise for universalisation over base-institutionalisation-ununiversalisation, positivism over universalisation–non-positivism/medievalism, and in our case futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of prospective notional–deprocrypticism over our positivism–procrypticism.

The point here is to highlight that ‘apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity }–conflatedness in {preconverging-disentailment by}–postconverging entailment’ doesn’t imply any symmetrisation of meaningfulness-and-teleology\textsuperscript{100} with regards to perversion-and-derived–perversion-of–reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{100} since the latter is de-mentatively/structurally/paradigmatically not logically-due for logical-processing-or-logical-implicitation–supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{100} in the very first place as is erroneously assumed by temporal projection mental-reflex. But rather, it implies an utter de-mentative/structural/paradigmatic reconstrual of meaningfulness-and-teleology\textsuperscript{100} as of intrinsic-reality/ontological-veridicality wholly by the intemporal projection of the prospective relative-ontological-completeness of reference-of-thought. The psychoanalytic-unshackling/memetic-reordering/institutional-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as conjugated-postlogism due to relative-ontological-incompleteness-of-reference-of-thought, and specifically in the case of positivism–procrypticism, due to disjointedness-as-of-reference-of-thought. This equally underlies on the basis of dynamic-cumulative-aftereffect/aftereffect at the individuation-level and registry-worldview/dimension-level of analyses the notion of ‘decentering’ as of de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), as the idea of value-reference if wrongfully ontologically construed as determined by the ‘<amplituding/formative> wooden-language’ (imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable–void ’—with-regards-to—prospective-apriorising-implications>) as respectively non-positivism reference-of-thought’ or as procrypticism ‘reference-of-thought’, then in effect the phenomena of non-positivism/medievalism postlogism like notions-and-accusations-of-sorcery as well as psychopathic-postlogism-and-its-social-integration as of our procrypticism—or-disjointedness-as-of-reference-of-thought will respectively be wrongfully construed to be of existential/ontological transcendental-enabling/sublimating/supererogatory–de-mentativity veracity. The bigger point being that symmetrisation implying mutual recognition of reference-of-thought can only arise where there is mutual appropriateness-of-reference-of-thought-as-of-conflatedness as existential/ontological transcendental-enabling/sublimating/supererogatory–de-mentativity veracity thus enabling the logical-dueness of both interlocutors to arise as of their soundness-or-ontological-good-faith/authenticity–of-reference-of-thought in the very first place, notwithstanding thereafter the appropriateness or inappropriateness of the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation exercise which is then an altogether different issue of effective/ineffective logic as prelogism–as-of-conviction,—in-profound—

The statements articulated priorly (before the square brackets texts digression) speak of the reality of ‘human temporal uninstitutionalised-threshold mental-disposition’ even in our own positivism reference-of-thought registry-worldview. It is fair to say the statement made before, “Z … will look down on B, C, D, E and F mental-dispositions perversion-and-derived-
contiguity’, rather than a naïve metaphysics-of-presence-{implicated-‘nondescript/ignorable-void ’-as-to- presencing—absolutising-identititive-constitutedness} mental complex that only serves ‘flawed egos’ and is of no ontologically-veridical import). The point of this distinction made between the nature of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ registry-worldview’s/dimension’s reference-of-thought and ‘human temporal uninstitutionalised-threshold’ mental-disposition’ registry-worldview’s/dimension’s reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between ‘cumulated institutionalisation’ (which we carry by being seconndnatured at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality /longness (which overall is no more greater than that of humans of previous <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions); and further that we are just of the same ‘human temporal uninstitutionalised-threshold’ mental-disposition’ as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold, which choices when of intemporality -drive solipsistic-choices are maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation leading to prospective institutionalisations. This notion of human mental-disposition and by extension ‘meaningfulness-and-teleology as comprising, rather as a more complete and grander conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold -facet, so-construed by metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-
carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. Such metaphysics-of-absence considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’), like deferential-formalisation-transference, ordered-construct, percolation-channelling-and transversality~of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’. Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology (as ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) from the non-
positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaningfulness-and-teleology as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-primemovers-totalitative-framework and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling-<in-deferential-formalisation-transference> possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further
secondnaturizing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling-&lt;in-deferential-formalisation-transference&gt; and transversality-&lt;for-sublimating–existential-eventuating/denouement&gt;–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’. In another respect, with regards to scientific meaningfulness-and-teleology\(^{100}\) and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold\(^ {103}\) when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought}<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their
prospective relative-ontological-completeness⁸-of-⁶-reference-of-thought increasingly defer domains of mean⁸fulness-and-teleology¹⁰⁰ more and more to formal constructs while increasingly reducing the sphere of the extended-informality{(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology} as of its free-for-all nature. The bigger point being that even in our positivism–procrypticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleologyⁱ⁰⁰ terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplitude/formative> wooden-language{(imbued—averaging-of-thought<!as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications}> mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/supererogatory~de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality

transcendental-enabling/sublimating/supererogatory~de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiology/aggregation/ontological-escalation), and not ‘human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-’nondescript/ignorable—void ‘-with-regards-to-prospective-apriorising-implications>} mental-dispositions and projections’. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism

/psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity by human intemporal mental-dispositions and projections’, and undermining a social relations with regards to knowledge and virtue that is based on ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-

‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications> mental-
dispositions and projections’, and so in order to release the inherent virtue imbued in true
knowledge. The afore elucidations are mainly to point out that it is naïve to construe the
analysis of postlogism phenomenon including psychopathy on the assumption of an overall
‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social
as of the present as metaphysics-of-presence—{(implicit-‘nondescript/ignorable–void ’-as-to-
presencing—absolutising-identitive-constitutedness)} instead of assuming a ‘human temporal
uninstitutionalised-threshold mental-disposition’ of the social by prospective metaphysics-of-
absence—{(implicit-epistemic-veracity-of- nonpresencing—<perspective–ontological-
normalcy/postconvergence>}, since the construal of our postlogism as of psychopathy and
social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic-or-
notional–projective-perspective, reflected from futural Being-development/ontological-
framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—
meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-
worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence
{(implicit-epistemic-veracity-of- nonpresencing—<perspective–ontological-
normalcy/postconvergence>)} we can appreciate this logic with respect to notions-and-
accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-
positivism/medievalism social-construct mental-disposition is one of human registry-
worldview’s/dimension’s institutionalisation of an intemporality -drive whereas in fact it is
one of human uninstitutionalised-threshold of temporalities-drives such that it is
demised/enculturated in various temporality/shortness shades
(‘ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of
ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s \textsuperscript{2} reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the \textsuperscript{<amplituding/formative>} wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology }-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications} in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal preconverging–dementating/structuring/paradigming and not intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments \textsuperscript{5}! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{8} of institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>}, but rather the
intemporal mental-disposition (intemporal-disposition) to strive as \( ^{55} \) maximalising-recomposuring-for-relative-ontological-completeness\(^{88} \)—unenframed-conceptualisation for base-institutionalisation to supersede recurrent-utter-uninstitutionalisation equates that striving for \( ^{104} \) universalisation to supersede base-institutionalisation—ununiversalisation equates that striving for positivism to supersede \( ^{10} \) universalisation—non-positivism/medievalism equates that striving for notional—deprocrypticism to supersede positivism—procrypticism; as the highest human virtue of ontological import. Since the inducing of institutionalisation-as-a-secondnatured-construct across all institutional-cumulation/institutional-recomposure—⟨as-to-historiality/ontological-eventfulness ⟩/ontological-aesthetic-tracing—⟨perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism-determinism’⟩ or registry-worldviews/dimensions inevitably implies a dichotomy of \( ^{34} \) reference-of-thought modalities of the same perpetual temporalities-drives and intemporality\(^{17} \)-drive (given human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnatures—temporal-to-intemporal-dispositions—⟨so-construed-as-from-perspective—ontological-normalcy/postconvergence⟩’—existentialism-form-factor), respectively as ‘least-and-derived-temporal-operating-modalities-of-the—\( ^{55} \) reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold\(^{59} \)” and ‘maximal-as-intemporal-operating-modality-of—\( ^{15} \) maximalising-recomposuring-for-relative-ontological-completeness\(^{88} \)—unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’. Virtue is essentially about the intemporality\(^{17} \)-drive as \( ^{55} \) maximalising-recomposuring-for-relative-ontological-completeness\(^{88} \)—unenframed-conceptualisation for intemporal-preservation-entropy—or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\(^{53} \) by a re-equilibrating metaphysics-of-absence—(implicitly-epistemic-veracity-of-

Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness reference-of-thought, by ‘intemporal-prioritisation-of-reference-of-thought–as-conflatedness-or-ontological-reprojecting its mental-disposition will be to unleash its maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation intemporality-drive to supersede the non-positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of attendant–
ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought and respectively as of their divergent non-positivists dereification perspective and positivist reification perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity in-reification/dereification as of their prior relative-ontological-incompleteness-of-reference-of-thought, contrasted with the positivist naturalist conception of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-in-elucidation-or-reification as-seeking-a-cure as of its prospective relative-ontological-completeness-of-reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism-procrypticism registry-worldview/dimension as of its prior relative-ontological-incompleteness-of-reference-of-thought, as the notion of proof/evidence is more critically tied down to attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-reification as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity-profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking-qualia-schema in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter meaningfulness-and-
teleology as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal 'ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness-of-reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in contorsively—in-the-case-of-transversality <for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing of the prior relative-ontological-incompleteness-of-reference-of-thought and the contorted prospective relative-ontological-completeness-of-reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness-of-reference-of-thought projection is what marks 'transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-
or-acumen/asceticism as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of postconverging-nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness-of-reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-completeness-of-reference-of-thought but for the induced crossgenerational transcendental metaphoricity possibility, and the contortion is more of a token as of the metaphoricity possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and without which token contortion there is ‘no existential reference for such transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, as a gesturing of metaphoricity that is ‘beyond the prior relative-ontological-incompleteness-of-reference-of-thought full meaningfulness-and-teleology implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity possibility for prospective relative-ontological-completeness-of-reference-of-thought’; as transcendental instigation can’t be of ordinary inclination at one moment and at another moment of transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into the ordinariness of prior relative-ontological-incompleteness-of-reference-of-thought thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism as
of contortive metaphoricity gesturing for prospective relative-ontological-completeness of-reference-of-thought as of postconverging nonextricatory existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism, different from asceticism as reasoning-from-results/afterthought or institutional asceticism, should basically be understood as of the general notion that all human meaningfulness-and-teleology are naturally ‘correlate-aesthetic-constructs as of the various reproducibility—mathesis/motif/thrownness-disposition, as–reproducibility-of-aestheticisation in successive prior relative-ontological-incompleteness towards-ontological-completeness-of-deprocrypticism’ as of their specific reflection of the very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-human<amplituding/formative–epistemicity>totalising~purview-of-construal’ (just as implied with the case highlighted herein of the ‘ill-health <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’); and are so derived as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’ and construed as of ontologically-veridical difference-conflatedness as-to-totalitative-reification-in-singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>–as-veridical-epistemicity-relativism-determinism; with the assertion by this author that there is no accidental human meaningfulness-and-teleology as all prior meaningfulness-and-teleology imply futural deferred traces of their prospectively more ontologically-complete constructs as of grander ‘ontological-faith-notion-or-ontological-

Hence such a notion cannot be construed on the basis of ordinarily assumed meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it is rather submerged/drowned into it by mental-disposition reflex; but rather as implied as of reasoning-through/messianic-reasoning, such a hermeneutic/reprojecting/supererogating/zeroing psychology is more about instigating a parrhesiastic psychoanalytic-unshackling soul-searching acumen. It should be noted that the way the construction of knowledge works at reference-of-thought-level of reasoning-through/messianic-reasoning is utterly counterintuitive to how we perceive prospective elucidation of human knowledge and emancipation going by the given reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring.

In both instances the notion of prospective metaphoricity is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-invested ‘epistemic-totality’/reference-of-thought/epistemic-totalising—self-referencing-syncretising/circularity conception of meaningfulness-and-teleology which effective dislodgment/displacement/decentering is as of a crossgenerational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-ontological-completeness! We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions reference-of-thought is rather one that shouldn’t wrongly be reinforcing/propping-up the human subject as if a given reference-of-thought in prior relative-ontological-incompleteness as of dissingularisation <as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemicity-relativism-determinism has its very own complete transformative and emancipative potential as if of fully-attained singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism, but an ontologically-veridical psychology rather warrants implying the human subject displacement/decentering as the de-mentative/structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-incompleteness registry-worldviews/dimensions superegoic vices-and-impediments; wherein postconverging-or-dialectical-thinking—apriorising-psychologism reasoning-from-results/afterthought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation at its uninstitutionalised-threshold is construed as preconverging-or-dementing—apriorising-psychologism as of prospective postconverging-or-dialectical-thinking—apriorising-psychologism reasoning-through/messianic-reasoning reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation up to the prospective ontologically-uncompromised—referentialism of depicrocrypticism. totalitative-framework¹. But then the human reality across all registry-worldviews/dimensions,
isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its
uninstitutionalised-threshold and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ of human ‘amplituding/formative—epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology reference-of-thought-devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-dialectical-thinking—apriorising-psychologism’ prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-dementing—apriorising-psychologism uninstitutionalised-threshold which it tends to represent as nondescript/ignoreable—void (actually speaking of akrasiatic-dragon-narratives), for the possibility of its prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity into prospective institutionalisation. This reality is known as human ‘supererogatory—de-mentative constraint’ to prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of the possibility of prospective relative-ontological-completeness—of-reference-of-thought. Human supererogatory—de-mentative constraint is fundamentally associated with poor universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness) with respect to social-stake-contention-or-confliction at uninstitutionalised-
threshold. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of wooden-language–{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives–of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology} as of the prior institutionalisation’s reference-of-thought–categorical-imperatives/axioms/registry-teleology that stifle the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness–reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness, for resolving a given registry-worldview/dimension vices-and-impediments; this notion of human supererogatory–de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied by a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ that emphasises the ‘Lacanian subject’ growth as of de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics), rather than a second-guessing mented or stigmatic psychology that fails to integrate the decisively ontological transformative implications of human psychology as of underlying relative-ontological-incompleteness and relative-ontological-completeness–reference-of-thought–amplituding/formative–epistemicity–causality–as-to-projective-totalitative–implications-of-prospective–
postconverging–de-mentating/structuring/paradigming. In this regard as of lack of dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension is the human temporal inclination to decontortion construed as a disposition to undermine ‘intemporal ontological-veracity as of universal existential import’ for the sake of ‘temporal narrow-and-specific existentially-invested advantage/interest with little concern about emancipatory universal meaningfulness-and-teleology, and so as the very contrary disposition to reasoning-through/messianic-reasoning contortion. Decontortion as of human 

Such a human disposition to decontortion at uninstitutionalised-threshold arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness-and-teleology as it reflects existence’s coherence/contiguity as of singularisation—<as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing> projected epistemic-immanence/veridical-epistemicity-
relativism-determinism. But then such a decontortioning disposition as can be manifested by a falsely straining to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitioonal of our uninstitutionalised-threshold\(^0\) where we are actually preconverging-or-dementing\(^-\)–apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our attendant \(^4\)\(^<\text{amplituding/formative–epistemicity}>\) totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and vague untransvaluated–temporal-intemporality\(^2\) gesturing. The ontological-contiguity\(^7\)—of-the-human-institutionalisation-process\(^6\) can thus be construed as one of increasingly undermining the human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness\(^3\); wherein across the successive institutional-cumulation/institutional-recomposure\(^{\langle as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing<<\text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism}\rangle} \rangle\), decontortion is ontologically-constrained both as of the `dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition’. The former is ontologically-constrained as of ontological-primemovers-totalitative-framework\(^2\) in undermining the human temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of \(^{10}\)\(^<\text{universal-transparency}\)\(^{(\text{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}}\rangle\). Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to
decontortion as of blurriness and emotional-involvement. In another respect the implications of flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-the-disjointedness/disentailment-of-presencing-absolutising-identitive-constitutedness-as-flawed-epistemicity-relativism-determinism as of dissingularisation-as-the-disjointedness/disentailment-of-presencing-absolutising-identitive-constitutedness-as-flawed-epistemicity-relativism-determinism also has implications with the ontological-performance-including-virtue-as-ontology as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-the-disjointedness/disentailment-of-presencing-absolutising-identitive-constitutedness-as-flawed-epistemicity-relativism-determinism implied as of dissingularisation-as-the-disjointedness/disentailment-of-presencing-absolutising-identitive-constitutedness-as-flawed-epistemicity-relativism-determinism that in many ways ignores/overlooks knowledge-reification-gesturing-in-prospective-psychologismic-apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-conflatedness-in-preconverging-disentailment-by-postconverging-entailment as of singularisation-as-the-nondisjointedness/entailment-of-prospective-nonpresencing-projected epistemic-immanence/veridical-epistemicity-relativism-determinism; and so, as of
their ‘formalisation credo as identitive-constitutedness’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness-as-flawed-epistemicity-relativism-determinism’ thus leading to a disposition that considers knowledge as an exercise of mere conceptual patterning inherently validated by formalisations on the basis of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity without the constraint of knowledge-reification—gesturing—in-prospective_psychologismic—apriorising/axiomatising/referencing—of—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity — conflatedness—in—{preconverging—disentailment—by}—postconverging—entailment— as of existence—as-the-absolute—a-priori—of—conceptualisation—and—existence—as—sublimating-withdrawal,—eliciting-of-prospective—supererogation—<as—to—perspective—ontological-normalcy/postconvergence—implied—‘prospective—aporeticism—overcoming/unovercoming’—> as its very own transcendental signifier which ultimately manifestly—as—inherently enables transcendence—and—sublimity/sublimation/supererogatory—de-mentativity as the very essence of knowledge. This has led in many ways to a dissonance between their knowledge productivity implications and existential reality wherein for instance psychological and psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care—and—episteme. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather
abstract as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity\textsuperscript{67}—educed—existentialising/contextualising/textualising-contiguity\textsuperscript{39}. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already precedingly/supersedingly as of ‘ecstatic totalising-entailing/nested-congruence’, with the consequence that it naively construes of reification as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing\textsuperscript{15} and producing relatively ontologically-flawed\textsuperscript{50} meaningfulness-and-teleology\textsuperscript{100}. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness\textsuperscript{14}/relative-ontological-completeness.\textsuperscript{14}

Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficultly be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its <amplituding/formative–epistemicity> totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human
transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument as axiomatic-construct’ insight about supposedly coherent ontological-commitment –<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–dementating/structuring/paradigming –as-being-as-of-existential-reality> articulated as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of explicated/implicated coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment –<implied—self-assuredness-of-ontological-good-faith/authenticity

that by its very given domain-of-study with respect to overall existence, philosophical
knowledge more profoundly makes a totalising-entailing apriorising/axiomatising/referencing-

this is more a question of 'expanded onticising construal of existence as of

in many ways such an elucidation hardly needs to be explicited in many a natural science
domain-of-study as of their directly constraining cause-and-effect nature such that such nested-
congruence with existence will often tend to arise naturally as of valid/invalid outcome
constraining of ontological-primemovers-totalitative-framework as to existence-
potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression, this
unexplicated implicitness should not be confused with the notion that the natural sciences are
essentially reduced to their science approaches and methodologies; as is often and awkwardly
naively construed from without in many a social domain-of-study. The fact is notwithstanding
the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-
of-study, these are just as driven by a philosophical depth of contemplation as of
‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-

of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches
and fine-tuning’ which is effectively what drives their deployed science approaches and
methodologies for their sought after scientific reifying outcomes; and it is this

In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specifisms of existence’s ecstatic manifestation’ as of the \(<amplituding/formative—epistemicity>\) totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of ontological-prime movers-totalitative-framework will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is very often incomplete, of-divvied—theorisation and/or ‘poor coherence of theoretisation with operant approaches and methodologies’, when it comes to many a social domain-of-study; as quite often theorisation in many a social domain-of-study strives on disparateness, rather than a tendency to ‘ontological-prime movers-totalitative-framework as to existence-

Critically, lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of apriorising/axiomatising/referencing—

While in many ways the unblurred/sharply-delineated nature of the natural sciences renders such a ‘hermeneutic/reprojecting/supererogating/zeroing circle of levels of understanding’ more or less very transparent, with regards to the blurriness of the social such a postmodern-thought ‘hermeneutic/reprojecting/supererogating/zeroing circle of levels of understanding’ rather requires increasing familiarisation, habituation and contemplation with regards to such critical texts and analyses (and as is particularly necessary with regards to the ‘parrhesiastic nature of philosophy that is behind the engendering/parrhesiastic-aestheticisation of underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation and thereof derived domains-of-study reified-knowledge as from the underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’, and one’s intemporal solipsistic level of parrhesiastic contemplation is itself a decisive element for the capacity to appreciate-and-understand philosophical thought more than just an issue of technical acquisition of

For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel \(^{104}\)universalising-idealisation that ‘runs-through/is-deflating’ by its evental \(-\text{instigation traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced }^{104}\text{universalising-idealisation transformative meaningfulness-and-teleology}\(^{100}\) infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a \(^{80}\text{presencing—absolutising-identitive-constitutedness}\(^{13}\) orientation that Socratic-philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning-(as-devoid-of-attendant-ontological-contiguity -duced–existentialising/contextualising/textualising-contiguity ‘s-reifying-or-elucidating-of-
as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic-philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern-day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism imbuend-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as—so—being—as—of-existential-reality dimensionality-of-sublimating (\langle amplituding/formativesupererogatory—de—mentativeness/epistemic—growth—or—conflatedness /transvalutative—rationalising/transepistemicity/anamnestic—residuality/spirit—drivenness—equalisation \rangle ) that then feeds into prospective originariness—parrhesia, as—spontaneity—of—aestheticisation; emphasising as of any given registry—worldview’s/dimension’s
specific limited-mentation-capacity that knowledge ‘more profoundly lies with the knowledge-reification–gesturing—conflatedness—in–{preconverging-disentailment–by}–postconverging-entailment’ and organic implications’, just as we cannot simplistically interpret the importance of Aristotelian science in terms of its constitutive elements as earth, water, air, fire and aether on a naïve 8 presencing—absolutising-identitive-constitutedness 13 basis from the vantage perspective of our modern positivism (as being at the receiving backend of the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>) in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process 65 ) but rather the more critical insight lies with its novel and transformative universalising-classificatory knowledge-reification–gesturing—conflatedness—in–{preconverging-disentailment–by}–postconverging-entailment> as opening up the possibility for prospective human reconceptualisation of science providing the backdrop from which modern science took off from the medieval times to the present. Likewise, the transformative nature of budding-positivism more than just as garnered from the precised narrative accounts about budding-positivist thinkers, lies more profoundly with its 5 meaningfulness-and-teleology 10 infrastructure impact on the developing enlightenment social developments and as this budding-positivism metaphoricity 57 epistemic-ricochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and
hermeneutic/reprojecting/supererogating/zeroing development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/development as of inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification—gesturing—<in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—conflicatedness—in-{preconverging–disentailment–by}–postconverging.}

In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social domain-of-study and even some of the natural sciences as of naïve science-ideology, and so because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-existence-implications there need to be ‘human intemporal contemplation that abstractly lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of meaningfulness-and-teleology infrastructure’, something which a ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ as of a wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications> is not postconvergingly—de-mentated/structured/paradigmed to do! But then the phenomenological question arising with respect to the fact that many a social domain-of-study ‘tend to assume a disparateness-of-conceptualisation—unforegrounding-disentailment,—failing-to-reflect—immanent-ontological-contiguity’ epistemic-disposition that is in many ways poorly constrained to existential-reality’, is how exactly does such lack of ‘cogent-unifying-operant-dynamics’ affect the realisation of the full knowledge-reification—gesturing—in-prospective_psychologismic—apriorising/axiomatising/referencing—of-attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity—conflatedness—in—preconverging—disentailment—by—postconverging—entailment—potentiality of domains-of-study as of their supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> as reflected by

For instance with regards to living-development—as-to-personality-development \(^{56}\)meaningfulness-and-teleology\(^{100}\), human aestheticisation is reflected in childhood to adulthood social development wherein a child’s development as of its ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology\(^{100}\) involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification/contemplative-distension\(^{26}\) in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification/contemplative-distension\(^{26}\) as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development—as-to-personality-development human aestheticisation of meaningfulness-and-teleology\(^{100}\) (‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’) in apriorising/axiomatising/referencing- {of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—conflatedness— in {preconverging-disentailment by}—postconverging-entailment— involving ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative—

This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ long before a child’s language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in reality the ‘teleological outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ of a rather ‘complex sense of meaningfulness-and-teleology aestheticisation’ induced from a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ driven ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ that starts long before a child’s ‘recognised’ acquisition of any such ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, as the child already has a ‘complex sense of meaningfulness-and-teleology aestheticisation’ before its ‘recognised’ acquisition

This will explain why the ontological-contiguity\(^{67}\)—of-the-human-institutionalisation-process\(^{68}\) as of ‘institutional-development–as-to-social-function-development\(^5\) meaningfulness-and-teleology\(^{100}\) aestheticisation’ is ‘highly parrhesiastically economical’ as reflected in the overall ontological-contiguity\(^{67}\)—of-the-human-institutionalisation-process\(^{68}\) ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’; wherein only the perception of unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance-\(\langle\text{including-virtue-as-ontology}\rangle\) of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation epistemeric-rochettingly/transepistemically elicits ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’. This is so because given the taxingness-of-originariness any such ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ has to
resolve considerably unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance of prior reproducibility—mathesis/motif/throwness-disposition,–as–reproducibility-of-aestheticisation for such ‘institutional-development–as-to-social-function-development meaningfulness-and-teleology aestheticisation’ underlying ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity> totalising–renewing-realisation/re-perception/re-thought’ to be worth the epistemic-ricochetting/transepistemicity effort, with the preference for any such effort rather directed at the complexification of the prior reproducibility—mathesis/motif/throwness-disposition,–as–reproducibility-of-aestheticisation. This will explain for instance why as of the furtherance in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, the ‘institutional-development–as-to-social-function-development meaningfulness-and-teleology aestheticisation’ with regards to language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human meaningfulness-and-teleology aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—(imbued-and-

social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very wooden-language- ⟨amplituding/formative⟩ wooden-language- ⟨imbued—averaging-of-thought- ⟨as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications⟩⟩ that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-
teleology\textsuperscript{10}/knowledge as of knowledge-reification–gesturing–in-prospective_psychologismic–apriorising/ axiomatising/referencing–of-attendant_ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–conflatedness–in–preconverging-disentailment–by–postconverging-entailment’, as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further expanding on the elucidation/reification of their manifestations as validated or can be falsifiable by ontological-primemovers-totalitative-framework\textsuperscript{3}; or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, induces a penchant for flawed intellectually supplementing rhetorisation rather than reification as well as naïve focussing on disparateness of conceptualisations-and-interpretations as of lack or poor constraining ontological-primemovers-totalitative-framework\textsuperscript{3} disposition rather than an orientation towards the ‘transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/ axiomatising/referencing’ or transversal-analysis-towards-validatory-selectivity–for–foregrounding–entailment–postconverging–narrowing-down–sublimation-as-to–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ’–in–reflecting–‘immanent-ontological-contiguity ’–as-operative-notional–deprocrypticism) of conceptualisations-and-interpretations’ as constrained to ontological-primemovers-totalitative-framework which is what further reifies the body of knowledge by enabling existence as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity to

Such a construal of relative truth doesn’t imply a lack of commitment in truth, but is utterly the contrary as of ‘a much more critical and ontologically decisive commitment to truth and growing truth’ as any pertinent critique can garner in Foucault’s truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth ‘expands the conception of truth beyond our \(^\text{13}\) presencing—absolutising-identitive-constitutedness\(^\text{13}\)’ \(<\text{amplituding/formative—epistemicity}>\) totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\ mental-dispositions as if all the world that has ever existed is as of \(^\text{10}\) presencing—absolutising-identitive-constitutedness\(^\text{13}\)’, and displaces/decenters the human subject as of its \(^\text{13}\) presencing—absolutising-identitive-constitutedness\(^\text{13}\) cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on \(<\text{amplituding/formative—language}>\) wooden-language\{imbued—averaging-of-thought—\(<\text{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—}\text{as—of—‘nondescript/ignorable—void’—with-regards-to—prospective-apriorising-implications}>\}\ populist interpretations rather than elevating human ontological construal of the social domain-of-study! It is herein contended that existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(<\text{as-to-perspective—ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’}>\) as of its ecstatic singularity actually points to appropriate attitude/mental-disposition/care—and—

Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining knowledge to attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity elucidation/reification rather than just mere formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are already naturally constraint to knowledge-reification-<in-prospective_psychologismic-~apriorising/axiomatising/referencing- of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity>

In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than knowledge-reification-gesturing-in-prospective-psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—conflatedness-in-[preconverging-disentailment-by]-postconverging-entailment> <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity. One recurrent consequence of the formalisation credo that keeps on arising for instance in the analytic tradition of philosophy as of its non-totalising-entailing or ‘poor apriorising/axiomatising/referencing-{of-attendant ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity }—conflatedness-in-{preconverging-disentailment-by}—postconverging-entailment of totalising-entailing/nested-congruence’, is that the underlying conception about growing the body of human knowledge seems to be the ‘incrementing of all such conceptual patterning conceptualisations’ going by their cross-analysis as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant ontological-contiguity—educed— existentialising/contextualising/textualising-contiguity’. existentially explanatory and predicative capacity. The entire project of human
meaningfulness-and-teleology is nothing but one of creatively elucidating/reifying

merely delusional. Thus, what is critically missing here is the fundamental constraining reality

Consider in this regard that the repeated maximalising-recomposing-for-relative-ontological-completeness —unenframed-conceptualisation articulation by this author on the theme of conceptual patterning here further complements as of further articulated reification of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification—gesturing—-in-prospective_psychologismic~apriorising/axiomatising/referencing-
{of-attendant—ontological—contiguity—educed—existentialising/contextualising/textualising—contiguity}—conflatedness —in—{preconverging-disentailment—by}—postconverging-entailment> insight often goes missing with many a subscriber to the formalisation credo, as of reification along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars cross-generationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative knowledge-reification—gesturing—-in-prospective_psychologismic~apriorising/axiomatising/referencing—
the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originarily/as-of-event available to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative knowledge-reification-gesturing<in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment–by}–postconverging-entailment>causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,–for-explicating-ontological-contiguity of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,–as-to–‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying-or-elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for knowledge-reification–

This is especially the case where such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their knowledge-reification→gesturing→→in-prospective_psychologismic~apriorising/axiomatising/referencing→{of-attendant→ontological-contiguity→educed→existentialising/contextualising/textualising-contiguity}→conflatedness→in→{preconverging-disentailment→by}→postconverging-entailment}. Ultimately, and it is herein contended that the various scholarly contributions to postmodern-thought can be understood as rather pointing to the de-mentative/structural/paradigmatic disseminative implications of futural Being-development/ontological-framework-expansion→as→to→depth-of-ontologising-development→as→infrastructure→of→meaningfulness-and-teleology→as→of→prospective→deprocrypticism→or→preempting→disjointedness→as→of→reference-of-thought ontologically-veridical→difference→conflatedness→as→to→totalitative-reification→insingularisation→<as→to→the-nondisjointedness/entailment→of→prospective→nonpresencing→as→veridical-epistemicity→relativism→determinism→. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like
Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity’ orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/aporia ‘left it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity to ‘continually select’ rational-empiricism/positivism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism–procrypticism human subject is rather undecentered’ relative to the prospective postmodern—notional–deprocrypticism self-conscious mindset we fail to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity to ‘continually select’ postmodern—notional–deprocrypticism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, in the same vain that the ‘non-positivism/medievalism undecentered human subject’ failed to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of prospective positivism/rational-empiricism thought. On the other hand, recurrent conceptual patterning predispositions and orientations arise because of poor appreciation/reference for judging
knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation—-and—existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation’<as-to-perspective—ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their mere infrastructure and deferential-formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound knowledge-reification—gesturing<in-prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—confletness—in—{preconverging-disentailment—by}—postconverging-entailment> for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. But then with regards to the social notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly knowledge-reification—gesturing<in-prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—confletness—in—{preconverging-disentailment—by}—postconverging-entailment> here implies human displacement/decentering even though our temporal/shortness-of-register-of—meaningfulness-and-teleology dispositions certainly have a hard time assuming the full implications of such prospectively implied transcendental meaningfulness-and-teleology. This further speaks to the fact that human knowledge is much more than distantly/remotely abstracted conceptions of meaningfulness-and-teleology of trite knowledge-reification—gesturing<in-prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—

We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying dynamic theoretical-conceptual-operative interrelatedness speaking of singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. This reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social conceptualisations that by their apriorising/axiomatising/referencing–{of-attendant–ontological–contiguity –educed–existentialising/contextualising/textualising-contiguity } constitutedness in pre-converging entailment token tend to give up on the central issue of

immanence/internal-necessity causality as to projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating- ontological-contiguity of singularisation-as-to-the-nondisjointedness/entailment-of- prospective- nonpresencing> projected epistemic-immanence/veridical-epistemicity- relativism-determinism; the ontological implication here being that ‘we are as potently transcendental as from our flawed apriorising/axiomatising/referencing-{of-attendant- ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity }— constitutedness—in–preconverging-entailment’ or ‘we are as potently immanent as of our virtuous apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity–educed– existentialising/contextualising/textualising-contiguity }—conflatedness—in–{preconverging-disentailment–by}–postconverging-entailment’. Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity–educed– existentialising/contextualising/textualising-contiguity }—constitutedness—in–preconverging- entailment, as all the objectifying discursivity that is ontologically-veridical is as of the apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity–educed– existentialising/contextualising/textualising-contiguity }—conflatedness—in–{preconverging- disentailment–by}–postconverging-entailment of prospective relative-ontological- completeness over prior relative-ontological-incompleteness construed as immanence- function-conflatedness. Thus metaphoricity of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-conflatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstitution, spiritualism, etc. This same conception holds with the notional–deprocrypticism
immanence-function-conflatedness\textsuperscript{12} overriding the \textsuperscript{10}meaningfulness-and-teleology\textsuperscript{10} of procrypticism–or–disjointedness-as-of-\textsuperscript{11}reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the notional–deprocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of-\textsuperscript{14}reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for \textsuperscript{10}meaningfulness-and-teleology\textsuperscript{10} aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflatedness\textsuperscript{12} implying that all the \textsuperscript{10}meaningfulness-and-teleology\textsuperscript{10} is necessarily as of the prospective relative-ontological-completeness over the prior relative-ontological-incompleteness\textsuperscript{10}; respectively as of positivism and deprocrypticism. If by anticipation we do know immanently that a non-positivism mindset is bound to a non-positivistic-as-existentially-superstitious apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of de-mentative/structural/paradigmatic internal-necessity/determinism insight from positivism immanence-function-conflatedness\textsuperscript{12} with the obviousness there is no point implying an ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-superstitious inclination, the same implication will extend to notional–deprocrypticism immanence-function-conflatedness\textsuperscript{12} as of de-mentative/structural/paradigmatic internal-necessity/determinism insight with regards to anticipating the disjointedness-as-of-\textsuperscript{11}reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our positivism–procrypticism mental-disposition with no pretence of such a positivism–procrypticism ontologically-flawed objectifying/contending discursivity in assessing the disjointedness-as-of-\textsuperscript{11}reference-of-thought inclination. In other words, immanence-function-
Conflatedness is all about reflecting the straightforwardness of ontological-prime mover-totalitative-framework as of singularity-as-to-the-nondisjointedness/entailment-of-prospective nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive predisposition to make of its objectifying/contending discursivity as de-mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior relative-ontological-incompleteness as if of prospective relative-ontological-completeness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-function-confaltedness equally highlights knowledge as of its essential organic construct implications. As an apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }– constitutedness in preconverging entailment predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly postconvergingly-de-mentated/structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the postconverging–de-mentating/structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God-of-plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness-of-reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior relative-ontological-incompleteness-of-reference-of-thought is an appropriate framework for prospectively implied reference-of-thought knowledge acquisition. Likewise, it is herein contended that similarly a notional-deprocrypticism contortion reifying gesture necessarily questioning our positivism-procrypticism disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of psychoanalytic-unshackling implications as of the ‘decentering of the human subject’ is the necessary organic knowledge for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. The implication of organic knowledge conception is that the state of recurrent-utter-uninstitutionalisation by its
conflatedness insight grasp that the blurriness, and remoteness of cause-and-effect invoke a more refined conception of ontological-primemovers-totalitative-framework as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability-or-deferring-falsifiability and validation-or-deferring-validation. It is herein contended that it is the implicated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough knowledge-reification–gesturing—in-prospective_psychologismic–apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity} – conflatedness—in-{preconverging-disentailment_by}–postconverging-entailment> in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a

conflatedness -in-{preconverging-disentailment_by}–postconverging-entailment> so-underlied by ontological-good-faith/authenticity’s herein as of reasoning-through/messianic-reasoning attitude/mental-disposition/care–and–episteme’s ‘implicitation of ontological-primemovers-totalitative-framework’, on the basis that the very first epistemic frontier for ontological-pertinence lies with the scholarly developed creative insight for knowledge-reification–gesturing.<in-prospectivePsychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—conflatedness -in-{preconverging-disentailment_by}–postconverging-entailment>. Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity’s criticism exactly because of its strong scholarly research-programme attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity knowledge-reification–gesturing.<in-prospectivePsychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—conflatedness -in-{preconverging-disentailment_by}–postconverging-entailment>, and thus an immanence-function-conflatedness’s insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-threshold, human existential-investment as of its temporality’s/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity lies in upholding-and-

Metaphoricity as such ironises on social intellectual nihilism as it is bent on undermining any temporality/shortness as of ontological-faith-notion-or-ontological-fideism—imbuéd—underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of—existential-reality solipsistic intemporality/longness parrhesiastic askance, and as of immanence-function-confledness ‘highlights and keeps wide-opened the prospect’ for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated—temporal-intemporality manifestations that usurp and undermine human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation ‘reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrypticism social-setup to perceive our positivism–procrypticism humanistic knowledge system as absolute; it is immanence-function-confledness by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as—

With such immanence-function-conflatedness insight, the epistemic and methodological pretences as of our humanistic positivism–procrypticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic postconverging–dementating/structuring/paradigming as of their ultimate knowledge-reification–gesturing-as<br/>

predispositions may actually be de-mentatively/structurally/paradigmatically stifling for the possibility of prospective knowledge and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and more seriously so where the possibility of varied research-programme choices are difficulty entertainable without institutional backing for research needing major funding and/or resources. Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-sublimity/sublimation/supererogatory-de-mentativity wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-sublimity/sublimation/supererogatory-de-mentativity occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-amplituding-formative-

It is quite absurd to think that the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity especially, as of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound knowledge-reification–gesturing=<in-

While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern-day science to develop and just as well modern-day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of the human subject’ as implied by deprocrypticism–or–preempting—disjointedness-as-of-
reference-of-thought; and justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Immanence-function-conflatedness analytical implications equally arise as of the ‘countervailing transversality<for-sublimating–existential-eventuating/denouement>~of-

This inherently projects a ‘practical picture of human epistemic determination’ of ‘maximal disseminative human epistemic articulations at relative uninstitutionalised-threshold’ and ‘minimum select human epistemic articulations at prospective institutionalisations’, and so as of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity transversally induced ontological—primemovers-totalitative-framework selective epistemic-veracity transcendence-and—sublimity/sublimation/supererogatory—de-mentativity. Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity—which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to ontological-primemovers-totalitative-framework and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong ontological-primemovers-totalitative-framework and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient wooden-language-implanted averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable-void-with-regards-to-prospective-apriorising-implications epistemic impertinence. Prospective notional-deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness-reference-of-thought associated ontological-primemovers-totalitative-framework, with the implication that our positivism-procrypticism uninstitutionalised-threshold epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness-reference-of-thought uninstitutionalised-threshold and superseded by futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology-as-of-prospective-notional-deprocrypticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity determinant
selector as of the deprocrypticism—or—preempting—disjointedness-as-of—reference-of—thought disseminative research-programme coherence and ontological-contiguity. The idea being that the notional–deprocrypticism epistemic-veracity as of such disseminative research-programme coherence and ontological-contiguity equally imply an underlying falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable nonpresencing—for-explicating-ontological-contiguity capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of knowledge-reification—gesturing-in-prospective-psychologismic—apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity conflatedness—in—preconverging-disentailment—by—postconverging-entailment for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Such a notional–deprocrypticism epistemic-veracity implication is pertinent because blurriness and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-totalitative-framework, such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of ontological-primemovers-totalitative-framework as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences <amplituding/formative—epistemicity>totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the
demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality-<for-sublimating–existential-eventuating/denouement>-of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing” constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—conflatedness -in-{preconverging-disentailment-by}–postconverging-entailment totalising-entailing/nested-congruence or how these conflate as of prospective relative-ontological-completeness with existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-<as-to-perspective–ontological-normalcy/postconvergence> implied-‘prospective-aporeticism-overcoming/unovercoming’. Ultimately, the contrastive epistemic-veracity of theoretical and conceptual articulations rather lies with regards to their
existential-reality parrhesiastic askesis-or-acumen behind the ‘inventing’ as of reasoning-through/messianic-reasoning with respect to ‘upholding and defending ontological-veridicality beyond constraining-and/or-seconndnatured institutionalisation framework’ as well as actually perpetuating prospective ontologically-veridical sublimation-as-of-deprocrypticism-immanented-implications, and so as of a fundamental mental-disposition for perpetually preempting—disjointedness-as-of—reference-of-thought. With the foregoing immanence-function-conflatedness insight, of most critical importance and decisiveness as de-mentatively/structurally/paradigmatically anchoring futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional-deprocrypticism meaningfulness-and-teleology is the need for a notional-deprocrypticism reconceptualised conception of the human construction-of-the-Self. In this regard, we can appreciate critically that hitherto and as of a natural human predisposition to amplituding/formative—epistemicity totalising—self-referencing-syncretising/circularity/interiorising/akrasiatc-drag, the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a human-subpotency flawed absolutising epistemic reference, and so over an existence-potency—sublimating—nascence,-disclosed-from-prospective-epistemic-digression absolutising epistemic reference, specifically as so-construed from our positivism—procrypticism registry-worldview/dimension flawed absolutising epistemic reference. The fact that existence/intrinsic-reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the ontological orientation of traditional psychology/psychoanalysis; wherein ‘the human psychology of absolutising epistemic reference is wrongly conceived as of ontological-normalcy/postconvergence rather than as of epistemic-abnormalcy/preconvergence’ considering the necessarily decontorting human-subpotency psyche on the constraint of our ontologically-compromised reproducibility—mathesis/motif/thrownness-disposition,—as—
reproducibility-of-aestheticisation as of our amplituding/formative-epistemicity-totalising–thrownness-in-existence. The implication here is that we cannot have a human-subpotency flawed absolutising epistemic reference that as of human-subpotency can surpass the ontological-veracity of the full-potency of existence/intrinsic-reality/ontological-veridicality as absolutising epistemic reference as of ontological-normalcy/postconvergence, and so given human-subpotency prior relative-ontological-incompleteness implied flawed prospective ontological-performance -<including-virtue-as-ontology>. Such a human-subpotency flawed absolutising epistemic reference for 'meaningfulness-and-teleology' can be construed as of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’; as of ‘human-subpotency temporality/shortness flawed absolutising epistemic reference’ as it induces flawed ontological-performance -<including-virtue-as-ontology> as by its amplituding/formative-epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag it ‘wrongly seem to advantageously substitute’ for the potent as intemporal absolutising epistemic reference ontological-performance -<including-virtue-as-ontology> of existence-potency/sublating–nascence,-disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality. It is this construction-of-the-Self human-subpotency deficiency element construed as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’ that raises-the-charge-that-and-reflects-the-notion-that the mental-disposition of recurrent-utter-uninstitutionalisation is de-mentatively/structurally/paradigmatically bound to fail the ontological-performance -<including-virtue-as-ontology> of base-institutionalisation mental-disposition, that of base-institutionalisation–ununiversalisation will likewise fail as of universalisation mental-disposition, universalisation–non-positivism/medievalism will likewise fail as of positivism mental-disposition, and prospectively our positivism–procrypticism will likewise fail as of

This element of the dynamic evolution of the human psyche and the underlying instigative agency, herein articulated as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’, is mostly lost to traditional psychology that doesn’t register our own positivism–procrypticism prior relative-ontological-incompleteness\(^{89}\)-of-reference-of-thought as of an ontological-normalcy/postconvergence/referentialism/notional–deprocrypticism perspective of analysis as of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>-projected epistemic-immanence/veridical-epistemicity-relativism-determinism. totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity and orientations underlying construction-of-the-Self as of a notional-deprocrypticism conception is rather transformative, in reflecting its protensive-consciousness insight of varied human constructions-of-the-self underlying the institutional-cumulation/institutional-recomposure-as-to-historicality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism with cumulative/recomposuring-attendant-ontological-contiguity-successive registry-worldviews/dimensions human-subpotency reference-of-thought induced recurrently from the instigative amplituding/formative-epistemicity-causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity of de-mentionation-supererogatory-ontological-de-mentionation-or-dialectical-de-mentionation-stranding-or-attributive-dialectics). Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its amplituding/formative-epistemicity-totalising-self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{17}, and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology\textsuperscript{100} implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-primemovers-totalitative-framework\textsuperscript{5}. Thus intemporal ontological-performance\textsuperscript{57}-<including-virtue-as-ontology> ever always warrants huma prospective relative-ontological-completeness\textsuperscript{100}-of- reference-of-thought for empowering and responsible meaningfulness-and-teleology\textsuperscript{100} for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness\textsuperscript{100} as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments\textsuperscript{100}, and as the very possibility for prospective ontological-performance\textsuperscript{77}-<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance\textsuperscript{77}-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of- meaningfulness-and-teleology -as-of-

In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance-⟨including-virtue-as-ontology⟩ as of human amplituding/formative—epistemicity—totalising—thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. The reality thus is that prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from a presencing—absolutising-identitive-constitutedness perspective is not actual meaningfulness-and-teleology but rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment ~<implied—self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming~as-being-as-of-existential-reality> to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-teleology mostly as of prospective crossgenerational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of
ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite
human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-’notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence’—existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of wooden-language<imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable–void ’–with-regards-to-prospective-apriorising-implications>} dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation taking herein as of a strictly ontological-veracity inclination as to the reality of the fact that existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression supersedes human-subpotency, and it is the latter that adjusts to the former. This is exactly what is reflected by ontological-fracturing, wherein the potential for ontological-normalcy/postconvergence is de-mentatively/structurally/paradigmatically fractured-at-given-ontologically-compromised-thresholds in the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the successive given levels in reflecting holographically,<conjugatively-and-transfusively> the ontological-contiguity ~—of-the-human-institutionalisation-process ; from recurrent-utter-uninstitutionalisation ontological-fracturing, base-institutionalisation—unniversalisation

The implication here is that all projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation percolation-channelling<indeferential-formalisation-transference>, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing of such idealisations with regards to their more profound transcendence-and-sUBLIMITy/sublimation/supererogatory–de-mentativity implications. In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuation-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance<including-virtue-as-ontology> is inherent, the underlying de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance<including-
virtue-as-ontology> in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of percolation-channelling-<in-deferential-formalisation-transference> doesn’t substitute for the <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of the underlying dimensionality-of-sublimating. ⟨<amplituding/formative>suppererogatory–de-mentativenss/epimetic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ individuation disposition that of reasoning-through/messianic-reasoning brought about seconndnatured institutionalisation. The bigger point here is that there is never going to be an inherent suprasocial or <amplituding/formative> wooden-language ⟨imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩⟩ framework that ‘invents’ and accounts for prospective social transcendence-and-sublimity/sublimation/suppererogatory–de-mentativity idealisation, in the way that human idealisation is often wrongly construed and propounded. Further, the implication as well is that the adjudicator as to transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity with regards to truth as it enables transcendence-and-sublimity/sublimation/supererogatory—de-mentativity then is existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression as of its causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating—ontological-contiguity selecting/skewing for ontological-pertinence within the underlying human metaphoricity scheme of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing>—as-veridical-epistemicity-relativism-determinism causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity, and not just mere human subjectivity. Even though in the short-term/immediacy perspective the specific metaphoricity of say a scientific and liberal worldview narrative as implied with the industrial revolution may actually be in the most part ignored/overlooked in a pre-industrial society from a merely meaningfulness-and-teleology transmission/spreading perspective, the supposedly coherent
ontological-commitment~implied—self-assuredness-of-ontological-good-faith/authenticity~postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity’~postconverging—de-mentating/structuring/paradigming—as-being-as-of-existent-reality with respect to its social-stake-contention-or-confliction’ exposes it to the metaphoricity of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained politically and as of national vision, economically and culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior preconverging—de-mentating/structuring/paradigming of societies. Such an overall prospective institutionalisation metaphoricity constraining is very much unlike what we may naively imagine the prior human meaningfulness-and-teleology to be from an after the fact analysis; since such a process is much more critically more than just ‘mere transmission/spreading of scientific and liberal meaningfulness-and-teleology for say a suprasocial or <amplituding/formative> wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of-nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> human mindset processing’, but critically was an epistemic-ricochetting/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology~in-preconverging-existential-extrication-as-of-existent-unthought> unlike our subsequent reasoning-from-results/afterthought contemplation afterwards ‘wrongly implying a metaphoricity as of a self-consciously instigated prior suprasocial or <amplituding/formative> wooden-language} (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of-nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} comprehensive sense of prospective metaphoricity’.

This points to a more comprehensive reality of human epistemic-veracity arising as of our <amplituding/formative–epistemicity>totalising–thrownness-in-existence with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability implications as of ontological-primemovers-totalitative-framework, in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology-nonpresencing–perspective–ontological-normalcy/postconvergence ricocheting that speaks of the de-mentative/structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or <amplituding/formative> wooden-language{imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology —as-of—’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> presencing—absolutising-identitive-constitutedness mindset not dispensing-with-immediacy-for-prospective-ontological-completeness/contemplative-distension, and so in order to effectively put in perspective the deficiency of epistemic-veracity so-inherent when it comes to prospective metaphoricity implications of operant prospective intemperal individuation transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing intemporal projection as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality for reasoning-through/messianic-reasoning. We can appreciate as well in the bigger scheme of
things the ontological-veridicality of this scepticism with regards to any such suprasocial or wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable-void-’-with-regards-to-prospective-apriorising-implications}> epistemic-veracity pretence, as expressed before with respect to Plato’s idea universalisation involving the undermining of the suprasocial epistemic-veracity pretence associated with sophistry or Descartes’ cogito implications of positivism/rational-empiricism involving the undermining of the suprasocial epistemic-veracity pretence of medieval-scholasticism pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness>). Just as we can appreciate that in the very same physics 4<amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness—as-of-axiomatic-construct-or—reference-of-thought, the epistemic-veracity as implied in succession from Copernicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21st century physics is mostly as of ricochetting prospective nonpresencing<perspective—ontological-normalcy/postconvergence>. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its dementative/structural/paradigmatic meaningfulness-and-teleology as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility for prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any
domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework \(^{22}\) validation-and-falsifiability \(^{11}\). Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity/sublimation/supercorogatory-de-mentativity as of prospective meaningfulness-and-teleology \(^{100}\) as knowledge on a vague notion of any presencing—absolutising-identitive-constitutedness \(^{13}\) epistemic-veracity that at the very least doesn’t rise to projectively contemplate and appraise of such prospective meaningfulness-and-teleology \(^{100}\) as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability \(^{11}\). Thus metaphoricity \(^{57}\) as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-teleology \(^{100}\) as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument for meaningfulness-and-teleology \(^{100}\) as say the commonality of such metaphoricity \(^{57}\) inclined re-originary-as-unenframed/unbeholdening/outlier-conceptualisation \((\text{imbued-postconverging/dialectical-thinking - 'projective-insights'/epistemic-projection-in-conflatedness -'of-notional-deprocrypticism-prospective-sublimation')}) \(^{91}\) thinkers sharing a common emancipatory metaphoricity \(^{57}\) mathesis/motif-thrownness-disposition like Socrates, Plato, Aristotle and their schools with their universalisation projection or the Descartes, Galileos, Copernicuses, Newton, etc. with budding-positivism/rational-empiricism. But rather beyond such shared prospective apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument for meaningfulness-and-teleology \(^{100}\) that is instigative, metaphoricity \(^{57}\) is critically about the prospective ricocheting postconverging-de-mentating/structuring/paradigming implications for inducing such prospective meaningfulness-and-teleology \(^{100}\) implications on the fabric of the social as an epistemic-totality \(^{36}\) framework (beyond-the-conscience-awareness-teleology \(^{100}\)-
as the supposedly coherent ontological-commitment of ‘self-assuredness-of-ontological-good-faith/authenticity’ as being-as-of-existential-reality of ‘self-assuredness-of-ontological-good-faith/authenticity’ with respect to its social-stake-contention-or-confliction’ of the social-setup exposes it to such an epistemic-ricochetting/transepistemicity metaphoricity. This is so because in the long run transversality of temporal-to-intemporal–ontological-performance of narratives is rather as of ontological-primemovers-totalitative-framework selecting/skewing-towards intemporality/ontological-veracity as to existence-potency/sublimating–nascence,-disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its conventioning-referencing and its presencing—absolutising-identitive-constitutedness of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, when it comes to assessing the possibility of prospective meaningfulness-and-teleology inducing of metaphoricity. It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the
Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology including our modern period, is a flawed appraisal; as in many ways, beyond our perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold as of the privileging of conventioning-referencing over purely prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism metaphoricity in our positivism—procrypticism; as its brings to the self-consciousness the reality that the implication of such a notional—deprocrypticism articulation is bordering on the limits/thresholds of our institutional capacity for prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of a privileging of conventioning-referencing disposition to adopt and assume intellectual nihilism at such an uninstitutionalised-threshold; it is herein contended that the reality is similar to that which scuppered Arabic medieval science or scuppered medieval China progressiveness.

It is important to grasp that since every registry-worldview/dimension social-construct is involved in a constructive (as of its institutionalising disposition) and destructuring (as of its disposition at its uninstitutionalised-threshold) relationship with ontological-veracity, this is exactly what inevitably validates the articulation of ontological-veracity/ontological-veridicality as more completely involving the displacement/decentering-of-the-human-subject priorly as implied with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative in reflecting the need to undermine human destructuring-threshold—of-ontological-performance—<including-virtue-as-ontology> to further advance its constructive/institutionalising/nascent—
sublimating-decisionality nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completeness implications; reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thus the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity }—conflatedness -in-{preconverging-disentailment by}—postconverging-entailment. This is very much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity }—constitutedness—in—preconverging-entailment since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness on ontological-veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent ‘logocentric habituated social conditions’ in enabling the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—and-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent—sublimating-decisionality and destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}—of-ontological-performance—<including-virtue-as-ontology> nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-
sublimity/sublimation/supererogatory~de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochet/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\) as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity meaningfulness-and-teleology\(^{100}\) whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\(\langle\text{uninstitutionalised-threshold } /\text{presublimating–desublimating-decisionality}\rangle\)~of-ontological-performance\(^{77}\)\(-\langle\text{including-virtue-as-ontology}\rangle\) nature is effectively what underlies in ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms–as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness\(^{88}\) deprocrypticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding-positivism/rational-empiricism science in say a non-
positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness\[97\] temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness\[98\] positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness\[96\] by-reification/contemplative-distension\[26\] (as of human self-surpassing—existentialism-form-factor, in-overcoming—'notionally—collateralising-beholdening-protohumanity'—to—'attain-sublimating-humanity'—as-to-existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression to supersede human temporality\[7/shortness <amplituding/formative> wooden-language\[6\] (imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology —as-of—'nondescript/ignorable–void '—with-regards-to—prospective-apriorising-implications>\}); which will explain in many ways the difficulty of the Copernicus, Galileo, Descartes', Diderot's, etc. so effectively enculturate their budding-positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrysticism prior relative-ontological-incompleteness\[97\] human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness\[98\] notional–deprocrysticism rather subsumes all such binary opposition conceptions basically into the binarity of
intemporality, longness and temporality, shortness as to human limited-mentation-capacity relative ontological-performance - including-virtue-as-ontology. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness, notional–deprocrypticism that we can appreciate more profoundly the universal ontological epistemic pertinence of centering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-completeness, notional–deprocrypticism herein construed as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness entailment-of-prospective- nonpresencing; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a centering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-
relative-ontological-completeness\textsuperscript{88}/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness\textsuperscript{88} positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is \textsuperscript{104}universally emancipatory as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\textsuperscript{99} (uninstitutionalised-threshold /presublimating–desublimating-decisionality)~of-ontological-performance\textsuperscript{77}~<including-virtue-as-ontology> nature inherently points out why human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity as of intemporal metaphoricity\textsuperscript{77} epistemic pertinence doesn’t lie with any inherent suprasocial framework or inherent \textsuperscript{8}amplituding/formative\textsuperscript{8} wooden-language-(\textsuperscript{imbued—averaging-of-thought}<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology~as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>)\textsuperscript{8} framework. Thereafter, understanding of this human ‘ontologically-flawed antiakrasiatic disposition’ is all about conceptualising the effective operant ontologically-constraining conditions as of human existential-instantiations given our limited-mentation-capacity implied as of temporality/shortness and intemporality/longness implications, and so construed epistemically as ontological-normalcy/postconvergence analysis. The comprehensive social susceptibility to destructuring-transitoriness\textsuperscript{18}-as-of-deratiocination/deratiocontiguity as the defining element of the social-construct destructuring is what underlies passive to active social mobbishes phenomena as of human limited-mentionation-capacity social dynamic implications of lacking social ontologically-hegemonising-narrative\textsuperscript{71}. The failing cogency and individual wariness of the social as of the lack of a comprehensive expectation of ‘equivalence/correspondence antiakrasia aspiration ontological-performance\textsuperscript{72}-<including-virtue-as-ontology>’ arises because of destructuring-transitoriness -as-of-deratiocination/deratiocontiguity as of its implied destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality\rangle-of-ontological-performance\textsuperscript{72}-.<including-virtue-as-ontology> parasitism \textsuperscript{44}<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasia-drag\textsuperscript{33}, as beyond-the-consciousness-awareness-teleology\textsuperscript{10}-<in-preconverging-existential-extrication-as-of-existential-unthought>\textsuperscript{6} this reflects the individual psyche conception of the social especially as of its extended-informality as not necessarily of high operant ‘equivalence/correspondence antiakrasia aspiration ontological-performance\textsuperscript{72}-<including-virtue-as-ontology>’, and is further reflected in a social dynamics of dual overt and covert implicated interpretations of social phenomenality arising as of beyond-the-consciousness-awareness-teleology\textsuperscript{10}-<in-preconverging-existential-extrication-as-of-existential-unthought>\textsuperscript{6}.
reflects the ontological-contiguity—of-the-human-institutionalisation-process; and so, similarly as the analysis of prospective possibilities of disease and illness is not about being pessimistic about the biology of human beings but is notionally/epistemically reflective of the possibility for the further development and provision of medicine and healthcare, and just as the projective analysis of lack of science and technology capacity is not about being pessimistic about human technical development but is notionally/epistemically reflective of the possibility for the further invention of technologies and scientific discoveries. We can appreciate here that the very same epistemic/notional conceptualisation with respect to the human subject as with natural subject-matters elicits in the former high emotional involvement whereas the latter as of its direct causality as to projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity elicits low emotional-involvement, but for the case where with regards to high and conflicting human social-stake-contention-or-confliction even the natural domain is not immuned from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-(uninstitutionalised-threshold /presublimating–desublimating–decisionality)-of-ontological-performance—of-ontological-performance—<including-virtue-as-ontology> and as reflected at uninstitutionalised-threshold. As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but
because they effectively superseded their identified-and-defined ontological-performance\textsuperscript{72}<-including-virtue-as-ontology> destructuring-threshold\textsuperscript{(uninstitutionalised-threshold /presublimating–desublimating-decisionality)}-of-ontological-performance\textsuperscript{72}<-including-virtue-as-ontology> and uninstitutionalised-threshold \textsuperscript{72}, and it is this difficult task of crossgenerational mobilisation that enables the prospective constructiveness-of-ontological-performance\textsuperscript{72}<-including-virtue-as-ontology> for human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology , institutional-development–as-to-social-function-development and living-development–as-to-personality-development. The implicated passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold\textsuperscript{(uninstitutionalised-threshold /presublimating–desublimating-decisionality)}-of-ontological-performance\textsuperscript{72}<-including-virtue-as-ontology> need to be integrated into the very core of such secondnatured formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity\textsuperscript{75}—of-the-human-institutionalisation-process\textsuperscript{75}; such that prospective social-construct constructiveness-of-ontological-performance\textsuperscript{72}<-including-virtue-as-ontology> and institutionalisation is ever always a process of \textsuperscript{75}maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation to prospectively recapture the supererogatory acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation for prospective organic-knowledge lost in secondnatured institutionalisation

We can appreciate in this regards that the intemoral projection as of base-institutionalisation implies an incisive/edgy apriorising-teleological-elevation-in-ontological-contiguity\textsuperscript{7} beyond recurrent-utter-uninstitutionalisation social-stake-contention-or-confliction as of its ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag , and likewise with the intemoral projection as of universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism and prospectively notional–deprocrypticism over positivism–procrypticism. In this regards, the notion of preconverging-or-dementing apriorising-psychologism as reflected as of
like say Newton’s involvement with alchemy, and the idea of projecting to a prospective

further shows how our seemingly objectified presencing—absolutising-identitive-

syncretising/circularity/interiorising/akrasiac-drag when we construe of ourselves as
‘postconverging-or-dialectical-thinking –apriorising-psychologism as of in-the-absolute’
without projecting that just as prior generations of humans were both postconverging-or-

The critical point here has to do with the fact that beyond the ‘attendant-ontologies—as-of-conventioning-referencing’ of the
totality”-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > -as-flawed-epistemicity-relativism-determinism, we are involved in a fundamental disjointedness-as-of-reference-of-thought in the sense that we seem to imply in our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that our ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’ as reflected by our positivist science-ideology and humanism ideology seemingly surpasses the very ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology" in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process that engendered our positivism/rational-empiricism creating as of epistemic-ricochetting the said science without the science-ideology and the said human emancipation without the humanism ideology. This fundamental disjointedness explains why and how our positivist science-ideology and humanism ideology so-misconstrued beyond-the-consciousness-awareness-teleology-<in-preconverging-existential-extrication-as-of-existential-unthought> rather turns out to be denaturing and undermines prospective Being-development/ontological-framework-development, and explains our inclination to ask the wrong questions given the false sense of certainty arising from this ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’. Such questions with regards to how the humanities can be further developed as efficaciously as the natural sciences, how can philosophy be more socially potent, and on the social paradoxes of our suboptimum institutional-development–as-to-social-function-development and living-development–as-to-personality-development, more critically point to the ontological-veracity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-

In all these instances, the sophists as of its preconverging-existential-extrication-as-of-existential-unthought with respect to social-stake-contention-or-confliction are ever always inclined to eliciting-of-immediacy-as-of-relative-ontological-incompleteness -dereification for <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>}
teleology-as-of-nondescript/ignoreable–void-with-regards-to-prospective-apriorising-implications> disposition, and when the outcome of reasoning-through/messianic-reasoning dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension accus prosp the sophists react as if ‘human progress occurs anyway’ as the idea of a human existential tale perpetuation and its implications is alien to the sophists since all that counts is the immediate now and its temporal/mortal social-stake-contention-or-confliction interests; and worst still, human limited-mentation-capacity in inducing prospectively relative-ontological-completeness as of the weaknesses associated in all human transcendence-and-sUBLImity/sublimation/supererogatory-de-mentativity is held by the sophists against any such reasoning-through/messianic-reasoning for transcendence-and-sUBLImity/sublimation/supererogatory-de-mentativity. Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity—of-the-human-institutionalisation-process as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for
disposition, especially as this often always implies the displacement/decentering-of-the-human-subject, it is inevitably the case that such ideal as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
disposition meant at stifling the possibility for prospective transcendence-and-sublimity/sublimation/de-mentativity, and so beyond-the-consciousness-awareness-tegrity—in-{preconverging-existential-extrication-as-of-existential-unthought}. In all such instances as was realised by universalising-idealisation philosophers Socrates/Plato/Aristotle as well as budding-positivists, the notion of dialogical-equivalence—<as-to-psychologismic~apriorising/axiomatising/referencing-{of-attendant ontological-contiguity —educed–existentialising/contextualising/textualising-contiguity }— conflatedness —in-{preconverging-disentailment-by}-postconverging-entailment—in-self—
becoming/self-conflatedness /formative–supererogating> and intellectual-and-moral-equivalence is not a given, and as the sophists commit to sophistry the genuine intellectual holds it against the sophists to imply they are effectively of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity’ rather than ‘apriorising-teleological-elevation-in-ontological-contiguity’ to avoid wrongly implying dialogical-equivalence:<as-to-psychologismic–apriorising/axiomatising/referencing- {of-attendant–
ontological-contiguity }—conflicatedness—in-{preconverging-disentailment–by}-postconverging-entailment,-in-self-
becoming/self-conflatedness /formative–supererogating>}, as the latter notion only arises as of mutual apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in relative-ontological-completeness as of the underlying registry-worldview/dimension reference-of-thought <amplituding/formative–epistemicity> totalising–devolved-apriorising-rule; as there can be no genuine contention between a universalising-idealisation mindset and a sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for the mere sake of preserving and avoiding the denaturing of the universalising-idealisation meaningfulness-and-teleology or positivising/rational-empiricism meaningfulness-and-teleology. This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-threshold arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretence of mutually objectifying intellection between genuine intellectualism and sophistry, which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt
in prior relative-ontological-incompleteness which rather warrants psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective relative-ontological-completeness. This is akin to the mathematician opened to mutual calculating even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance but this only holds with the mathematical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost, fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of meaningfulness-and-teleology as of ontological-veracity is about the ‘reasoning-through transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising/axiomatising/referencing’ of contentions for the determination of existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression as of <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications-of-prospective– nonpresencing,-for-explicating-ontological-contiguity ; and it is rather different from a sovereign construct grounded on sovereign choice whether there is ontological-veracity or ontological-impertinence. The human existential tale as ‘humanity project’ has ever always been one of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as implied in the ‘seeding promise of human-subpotency ontological-performance.—<including-virtue-as-ontology> equivalence/correspondence with
the full-potency-of-existence’s—sublimating—nascence—as-of-its-coherence/contiguity’. The secondnatured institutionalisation constructs as of sovereign institutions and establishment frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification—gesturing—<in-prospective psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity }—confatedness—in—{preconverging—disentailment—by}—postconverging—entailment> role and as beyond-the-consciousness-awareness-teleology<sup>10</sup>—<in-preconverging—existential-extrication—as-of-existential-unthought> surreptitiously defining what can be thought or not thought. The fact is such implied underpinning—suprasocial-constructs are mainly secondnatured whether as sovereign representation or establishment constructs, and can easily be caught up in their own <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag<sup>33</sup> in prior relative-ontological-incompleteness<sup>89</sup> with respect to social-stake-contention-or-confliction and are thus not the absolutising framework of human meaningfulness-and-teleology<sup>100</sup>, as the social knowledge-reification—gesturing—<in-prospective psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity }—confatedness—in—{preconverging—disentailment—by}—postconverging—entailment> role must always be opened to ‘intemporal individuation ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and—apriorising/axiomatising/referencing—as-so-being—as-of-existential-reality parrhesiastic askesis—or-acumen for originary/as-of-event<sup>37</sup> reasoning-through/messianic-reasoning’ as of the possibility of its arising in any humans and in whatever specific purviews of existence, as this is what is instigative of ‘true-ontology—as-of-Being-development/ontological-framework—

de-mentatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its defective ontological-performance\textsuperscript{72}<including-virtue-as-ontology> as it surreptitiously implies that it is absolute beyond-the-consciousness-awareness-teleology\textsuperscript{100}<in-preconverging-existential-extrication-as-of-existential-unthought>’. The fact is, it is this possibility of the \textsuperscript{104}universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists putting into question their conventioning-referencing \textsuperscript{100}meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the <cumulating/recomposuring–attendant-ontological-contiguity>-successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100}; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} with the emergence of \textsuperscript{104}universalising-idealisation over ancient mythologies
and cultism, likewise the medieval Europe scholasticism was the height of this
universalising-idealisation as of its establishment and religious conventioning-referencing
but it took budding-positivists to come up with the prospect of renewed Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology, and likewise it is the case that our
conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-
empiricism as absolutising and hardly countenancing of its own effort for prospective
Being/ontological-framework-expansion. It is herein contended that, as of the implications of
Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of–meaningfulness-and-teleology, that in many ways just as
the manifestation of positivism-slantedness associated with notions-and-accusations-of-
sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficulty
amenable to address as of their given underlying muddlement of social-stake-contention-or-

many ways the manifestation of psychopathy and social psychopathy in our positivism–

normalcy/postconvergence to go on to imply a practice of reification of psychological traits is what is emancipatory of the human condition with the implication that any given registry-worldview/dimension in relative-ontological-incompleteness of reference-of-thought say animistic or medieval could just as well be considered in ontological-normalcy/postconvergence and that what is emancipatory of the human condition is the reification of psychological traits as of its meaningfulness-and-teleology despite the supposed deficiency of its given meaningfulness-and-teleology in relative-ontological-incompleteness, thus failing to grasp that the more decisive transformation of the human subject is the displacement/decentering-of-the-human-subject as of construction-of-the-Self in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process underlined as of human limited-mentation-capacity-deepening antiakrasiatic disposition since this is effectively what dementatively/structurally/paradigmatically by the induced ontological-performance including-virtue-as-ontology enables the superseding-and-deflating of the overall individual and social vices-and-impediments arising as of the relative-ontological-incompleteness of the successive registry-worldviews/dimensions; and wherein our conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism turns out to be rather skewed towards our positivism-procrypticism perspective with the implication of history considered mainly as of succession of

This is the more profound explanation for the hegemonising ontological-grip thereafter of the Socratic-philosophers defining universalisation of meaningfulness-and-teleology thereafter over the antiquity and their defining relevance in the latter meaningfulness-and-teleology of all the medieval societies of the Mediterranean and beyond, and so especially as the increasing population mixing thereafter particularly with the Roman empire naturally required/called-for universally coherent, consistent and credible infrastructure as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology that went well beyond traditional ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset; as of the knowledge reifying capacity-and-template for developing and cumulating such universalising-idealisation coherence and consistency across culturally diverse peoples and across space and time. Such causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity construal points out that disparateness of meaningfulness-and-teleology as often wrongly projected in many a social domain-of-study is not an inherently sovereign notion as to the fact that construal as of relative-ontological-incompleteness cannot be ‘qualified as sovereign and beyond the countenance of its ontological-veracity as from relative-ontological-completeness perspective’ given that all human meaningfulness-and-teleology are of supposedly coherent ontological-commitment as so-reflected by its self-assuredness-of-ontological-good-faith/authenticity–postconverging–de-mentating/structuring/paradigming–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction; such that while recognising the human-subpotency epistemic-veracity perspective of say a given social-setup attributing an ailment to say magic, this doesn’t override the notion of inherent ontological-veridicality as to existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression epistemic-or-notional–projective-perspective wherein modern society in relative-ontological-completeness attributes the ailment to say flu. In order words, sovereign commitments, recognised as of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation.
nondisjointedness/entailment-of-prospective-nonpresencing, do not override the pre-eminence of supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming as-being-as-of-existential-reality as to existence-potency ~sublimating—nascence,-disclosed-from-prospective-epistemic-digression epistemic-or-notional—projective-perspective, in which case no human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity will be possible. Stated another way, if Einstein’s or Bohr’s seminal theories were viewed say unfavourably by the physics community of their time as of their sovereign predisposition, that wouldn’t annul the ontological-veracity of their theories even if Einstein or Bohr were to acquiesce to that sovereign predisposition over their own theories, for the simple reason that knowledge is constructed as of the absolute dominance of intrinsic-reality as to existence-potency ~sublimating—nascence,-disclosed-from-prospective-epistemic-digression over the mortals that we as human beings are in order for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to be possible; and that reality with respect to knowledge doesn’t speak of totalitarianism as will often be sophistically usurped when it comes to the blurriness of the social domain-of-study, as the charge of totalitarianism can only apply with respect to sovereign choice. Further a <amplituding/formative—epistemicity—causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity construal equally points out that the very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human <amplituding/formative—epistemicity totalising—purview-of-construal’ or any <amplituding/formative—epistemicity—totalising—devolved—purview—as-domain-of-construal—as—intrinsic-reality/ontological-veridicality does not imply the de-mentative/structural/paradigmatic change of existence-as-of attendant—ontological-contiguity —educated—existentialising/contextualising/textualising-contiguity but rather that change is the

This self-consciousness/construction-of-the-Self notion is what deflates such ‘issues implied with regards to human sovereign options/choice or freewill’ and ‘issues of natural determinism beyond human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-Self as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology implies ‘induced human potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (as the
relative-ontological-incompleteness⁹⁰ in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness⁹⁸ in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness⁹⁸ inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–⁹⁷ meaningfulness-and-teleology¹⁰⁰ in deflating human vices-and-impediments¹⁰⁶, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness⁹⁸. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drug complex; thus akrasia-susceptibility-or-akrasiatic-drug complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness⁹⁹ as of a nihilistic disposition is dementatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments¹⁰⁶, and as the very possibility for prospective ontological-performance⁷²-<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance’⁷²-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascent-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity>totalising–thrownness-in-existence¹¹ the possibility for
prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-subsitlimity/sublimation/supererogatory-de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <amplituding/formative> wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications}? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance—including-virtue-as-ontology as of human <amplituding/formative—epistemicity> totalising–thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the underdevelopment of Being/ontological-framework-expansion or self-consciousness/construction-of-the-Self incapacity as of say insanity’, and not necessarily as of lack of new knowledge-construct or technical-development; in the sense that say a criminal that had gone uncaught before a new technical-development like DNA testing establishes their criminal responsibility as of human potentiation, cannot talk of natural determinism
correspondence. Such a mental-disposition of substituting old reference-of-thought-categorical-imperatives/axioms/registry-teleology with new ones of prospective registry-worldview/dimension as implied by amplituding/totalising-renewing-realisation/re-perception/re-thought as of institutional moulting underlies the concept of ‘intemporal-prioritisation-of-reference-of-thought’-as-confoundedness-or-ontological-reprojecting, in dealing with the fact that by reflex all registry-worldviews/dimensions are structured not to construe of their very own prospective transcendence-and-sublimity/sublimation/supercrrogatory-de-mentativity, and thus relating to their reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation on an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation basis as ‘absolute by the mere-formulaicity—as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising’) whether failing/not-upholding-as-of-apriorising/axiomatising/referencing—intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at the uninstitutionalised-threshold. Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and living’ in the non-positivistic social-setup as ‘grandest living’ but rather the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation ‘of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective. so-construed prospectively are rather more pertinent) in order to ‘invent’ prospective deprocrypticism, rather reflecting intellectual absurdity; and speaking rather besides a natural weakness of human incapacity that can arise and do arise as a result of our limited-mentation-capacity rendering us unconscious/unaware/as-of-the-poorer-halves-of-ourselves which is fathomable/understandable, of a graver problem if that was to be the case even when we then
‘understand’, of intellectual-and-moral irresponsibility of failing/not-upholding-as-of-apriorising/axiomatising/referencing to do our own ‘homework’ with respect to our forerunners in the bigger notion of the human species continuous emancipation. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposuring) as from recurrent-utter-uninstitutionalisation to modern-day positivism–procrypticism and prospectively deprocrypticism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory preconverging–de-mentating/structuring/paradigming relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the wooden-language–{(imbued—temporal–mere–form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology } as deterministic thus subknowldging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing–apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism–imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’. But then transcendental constructs of meaningfulness going beyond the
‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as transcendental meaningfulness-and-teleology involves psychical and institutional recomposuring of high contrariety implications to human temporality/shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as all knowledge is not about being responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity of an intersolipsistic nature. It is equally important to grasp that transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively notional–deprocrypticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior \(5^\text{th}\) reference-of-thought—categorical-imperatives/axioms/registry-teleology with the prospective one for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation totalising—renewing—realisation/re-perception/re-thought, in contrast to a naïve incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the \(5^\text{th}\) reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking \(5^\text{th}\) reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaus, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity —educed—existentialising/contextualising/textualising—contiguity }—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low
temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as ‘reappraisals of reference-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidententing-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness-of-reference-of-thought. Hence it is rather ontological-completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of retrospective registry-worldviews/dimensions reference-of-thought but equally with the implication of
transcendence-and-sublimity/sublimation/supererogatory→ depression for prospective
registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-
normalcy/postconvergence. This insight about a more succinct social reality as of human
institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy
and social-psychopathy as social manifestation of postlogism as perversion-and-derived-

perceived social-stake-contention-or-confliction as elicited in psychopathy and social
psychopathy are more decisively determined by its induced ‘lack of constraining social

hence speaking of the positivism–procripticism uninstitutionalisation; wherein prospective
institutionalising-facet insight will construe perversion-and-derived- reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation while prospective
uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-
the-consciousness-awareness-teleology-in-preconverging-existential-extrication-as-of-
existential-unthought. This very much mirrors such a dichotomy as articulated before within
the same social space of relative perception of social-stake-contention-or-confliction at a
registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of
lawfulness and lawlessness, social-functioning and social dysfunction, accordance and
discordance, probity and corruption, principledness and unprincipledness, etc. across the full
breadth and depth of human institutions dynamic social construction of perceived social-stake-
contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrypticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory preconverging–de-mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity ontological-prime movers-totalitative-framework induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemporality-asymmetric-subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness-of-reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in notional–deprocrypticism apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–conflatedness–in–preconverging–disentailment–by}–postconverging-entailment and so over procrypticism disjointedness-as-of-reference-of-thought denaturing and harkening back in undermining psychopathy and social
psychopathy as the more specific individuation-level denaturing. Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness of reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity—educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in-{preconverging-disentailment–by}–postconverging-entailment directed to the bigger and subsuming issue of relative-ontological-incompleteness-of-reference-of-thought for inducing notional–deprocrypticism over procrypticism or positivism over non-positivism/medievalism respectively that harkens back to undermine in a decisive and nonextricatory and non-palliative manner the associated postlogism.

The defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as perversion-of–reference-of-thought-as-preconvergingly–apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(\geq\)) comparison can equally be used to illustrate how slanting is different from lying. Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^\text{13}\)–defect–<as-Being-or-ontological-or-existential–defect>\(^\text{15}\) (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring–purpose (flaw logical-processssing/act-execution-implicitation meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not defective (thus appropriateness-of–reference-of-thought-as-of-conflatedness \(\circ\)). This point to the ad-hoc nature of lying deception wherein there is nothing inherent that precludes subsequent

Since the state of exhibiting a demonstrated perversion-of- reference-of-thought as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation annuls temporal-dispositions’ implied logical-dueness/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology as ‘logically contending’; from a pure ontological-veridicality perspective, more like a medieval mind with a superstitious registry-worldview reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation doesn’t has the implied-profile-or-implied-stature and the implied-presumptuousness-or-implied-arrogation to logically contend about the ontological veridicality of an accusation of witchcraft with a relatively suprastructuring positivistic mental-disposition). This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal prelogism-as-of-conviction,-in-profound-supererogation existentiality–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to-‘attendant-

Valid only inasmuch as the reference to the ‘registry elements’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology is ‘existentially’ established. *Critical for ontological-veridicality of meaningfulness and knowledge, the relatively ontologically-complete- ‘reference-of-thought defines what is meaningfulness as of its ‘soundness-or-ontological-good-faith/authenticity’—of—reference-of-thought’ construed as ‘postconverging-or-dialectical-thinking’—apriorising-psychologism and centered understanding’ over the relatively ontologically-incomplete—reference-of-thought as of its ‘unsoundness-or-ontological-bad-faith/inauthenticity’—of—reference-of-thought’ construed as ‘preconverging-or-dementing’—apriorising-psychologism and decentered understanding’. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising—reference-of-thought-elements/apriorising—registry-elements, and thus falsely implying the apriorising—reference-of-thought-elements/apriorising—registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the ‘reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity—of—reference-of-thought, with contention arising by
reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity\textsuperscript{[90]}-of-\textsuperscript{[3]}-reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought-(reflecte\textsuperscript{[69]}-as-soundness-or-ontological-good-faith/authenticity -of- reference-of-thought). But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied\textsuperscript{[6]}-reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{[100]} is rather obvious and we don’t normally process/operate logically the childhood psychopathy’s non-veridical hollow mimicking narratives since ‘we just invalidate those apriorising-registry-elements to start with as not of being/ontological/existential veridicality’. For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\textsuperscript{[95]} of meaning’ (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘attendant-ontological-contiguity’-educed—existentialising/contextualising/textualising-contiguity\textsuperscript{[29]} sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness’ as of its unsound- reference-of-thought/unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{[14]}-of-\textsuperscript{[1]}-reference-of-thought/mental-perversion) as he simply engages his unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{[14]}-of-\textsuperscript{[1]}-reference-of-thought by way of distractive-alignment-to\textsuperscript{[14]}-reference-of-thought-<of-apriorising/axiomatising/referencing> and then reflect the reference-of-thought or registry-teleology\textsuperscript{[100]} of John as perversion-of-

Such reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) inherently implies a dialecticism involving supplanting–conviction-as-to-profound-supererogation\textsuperscript{97}–as-of–’attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism narratives as of organic-comprehension-thinking (organicalism)/‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness\textsuperscript{12}-or-ontological-reprojecting or longness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} and threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{97}–<as-to–’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> narratives. This points to a perversion-of–reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > basically or a registry-worldview denaturing\textsuperscript{15} (when it comes to a registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory–de-mentativity). The dialecticism involves de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-

The underlying fact about meaningfulness-and-teleology¹⁰ is that the apriorising–registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right and sound in abstract terms but does the apriorising–registry (‘reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge² is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing¹ of the elements of the apriorising–registry as of reference-of-thought–categorical-imperatives/axioms/registry-teleology¹⁰ which are: implied–logical-dueness-or-implied-scape (the implied–logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has
no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought, i.e. slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing-of-narratives! So with the psychopath, you don’t watch the logic, you watch out for the reference-of-thought/apriorising-registry for mental-perversion or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought! Not only that, it is important to note that this unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought as perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation do protract and an ignorant prelogism -as-of-conviction,-in-profound-supererogation <-existentially-veridical-‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind acting in prelogism -as-of-conviction,-in-profound-supererogation <-existentially-veridical–‘attendant-intradimensional- apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> on such postlogism -as-of- compelling–nonconviction/madeupness/bottomlining{-‘decontextualising/de-existentialising–of-attendant-

However, the natural level of human interlocution engagement ‘is not the enlightenment of the retracing of an interlocutor’s sets-of-narratives’ (as this could vary anywhere from say a few days or weeks to years of supplanting-conviction-as-to-profound-supererogation—of-attendant-intradimensional-postconverging/dialectical-thinking-apriorising-psychologism engagement, for such an insight to arise), but rather as of ‘specific singular circumstantial narrative of

interlocution engagement is a perpetuation’ can be understood insightfully with respect to a

non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism

reference-of-thought terms when invalidated positivistic terms doesn’t imply that such
interlocutors will instantly dramatically change their reference-of-thought into the positivistic

as their reference-of-thought remains rather in non-positivism/medievalism
circularity/recurrence/repetition/repeatability, and in the big picture in all likelihood can only
be ‘weaned from’ crossgenerationally as of psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring. Likewise the ‘natural basis of human interlocutory
engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy
with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the-

enframed-conceptualisation-inducing-the-uninstitutionalised-threshold—as-procrypticism’,
thus equally implying a totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag circularity/recurrence/repetition/repeatability of the reference-of-thought as of the uninstitutionalised-threshold or procrypticism–or–disjointedness-as-of reference-of-thought. Thus the central notion for preempting psychopathic postlogism and conjugated-postlogism is the ‘retracing of their sets-of-narratives as of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–reifying-or-elucidating-of-prospective-relative-ontological-completeness–of–reference-of-thought–devolving-as-of-instantiative-context’. That revealing unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought of the traces of sets-of-narratives is analogous to resolving a list of BODMAS equations where the solution of the first equation is a variable of the second equation and whose solution is a variable of the third equation whose solution is a variable of the fourth; and where the first equation is fundamentally flawed (as of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument flaw, for instance), systematically the three other equations will be wrong whether by ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation mental-disposition to resolve the equation of the traditional arithmetic principles as reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation without factoring that such reference-of-thought–categorical-imperatives/axioms/registry-teleology are only as pertinent (not by habit or tradition or expediency) but as of when they are truly for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or ontological-normalcy/postconvergence to then articulate the necessary ‘imbricatedness/threadedness/recomposuring as of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity’.

of psychopathy across individuals and society’ can be articulated as follows. It is important to
grasp that the mechanism of SLANTING as of compulsive-slanting—preconverging-or-
dementing -apriorising is actually about ‘denaturing’ postlogic-backtracking—<iterative-
looping–‘set-of-dereifying-hollow-narratives-and-acts’>—with–‘successive-shifting-of-the-
narratives-and-acts-foci’-construed-as–‘deception-of-successively-shifting-or-noncohering-
narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-
veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ as non-
veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for
the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge (entitlement folie/folie raisonnante)’ as opposed to a logical motivation of a supplanting–
conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’
postconverging/dialectical-thinking —apriorising-psychologism or prelogic mental-disposition.
It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the
normal process of prelogism—‘as-of-conviction,–in-profound-supererogation’—<existentially-
veridical–‘attendant-intradimensional—apriorising/axiomatising/referencing’–logical-dueness-
precedes-disontologising-logical-outcome-arrived-at> logical articulation with respect to
‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation’-or-prelogism-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation’-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if this latter narrative is proven to be false (as it is another perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge not being the logic itself, but in wrongly implying as existentially real the ‘apriorising-reference-of-thought-elements/apriorising-registry-elements (out of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity -reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’) of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology such that the
mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge developing the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on such false axioms. Thus, with respect to postlogism generally what is critical for the psychopath/postlogic-mindset is to be seen as being prelogic supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism even if it is a perception of ‘poor or bad supplanting—conviction-as-to-profound-supererogation’—of—‘attendant-intradimensional’ postconverging/dialectical-thinking—apriorising-psychologism since that will validate the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context>)’ on the basis that it was the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation that was wrong hence the possibility and credibility not to question the reference-of-thought/apriorising—registry/categorical-imperatives/axioms and to re-engage logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by ‘prelogism—as-of-conviction,—in-profound-supererogation’ <existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’ logical-dueness-precedes-disontologising-logical-outcome-arrived-at> re-engaging reflex wrongly turning the issue into one of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation instead of construing a perversion-of—reference-of-thought<as-preconvergingly—apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-

The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing postlogic-backtracking deposed-of-conviction-as-to-profound-supererogation-or-prelogism’-basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in conviction-as-to-profound-supererogation to or prelogism, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’.

This might further involve juggling such hollow mimicking in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-as-iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic among different set-of-interlocutors (this is simply because postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness’ unlike postlogism as prelogism which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-
preservation> (which is an unusual and rare social experience given that a psychopathic personality and postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> are an outlying phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (due to the ‘lack of constraining social universal-transparency’ as inducing vices-and-impediments which will then make it alienating) or a ‘fool-me-once-phenomenon’ where there is a relative insight on postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> from some interlocutors with no more commitment given the inconsistency of the hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking<iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'> as absolving/fleeting/escaping-reflex–logic, in time speaking to the fundamental mental denaturing involved in postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, and so for the shallowness of the postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> the extrinsic-attribution inclination is in constant need for new sets-of-interlocutors. The mental process that takes place in the ignorant prelogism-as-of-conviction,-in-profound-supererogation <existentially-veridical–'attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind is an alignment to the psychopath’s (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) postlogism-formulaic slanting-compulsing-nonconviction/madeupness/bottomlining<‘decontextualising/de-existentialising–of-attendant–
permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s ‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic-attribution. Passive or suggestive alienation as such with corresponding ‘temporal-dispositions miscuing’ which is ‘misconstrued as intrinsic ontological depth-of-conviction-as-to-profound-supererogation’. The underlying reason for the entirety of this mental process in the psychopath has to do with its ‘mere-formulaic constrained/unconstrained perception and relation to meaningfulness-and-

by inducing the alienation of its ‘perceived social-stake-contention-or-confliction target’ over a
social-stake-contention-or-confliction as to preconverging/postconverging–de-
mentating/structuring/paradigming implications. Critically, it should be understood that passive
or suggestive alienation is actually the summum of the possibilities of the psychopath’s
meaningful finality that starts from prevaluation (neutral narrations). It should be noted that the
mental state of the psychopath’s interlocutor as ‘ignorance-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing’–apriorising-psychologism’ is not really ontologically-speaking a prelogic/conviction-as-to-profound-supererogation mental state but rather technically a ‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as an ignorant of psychopathic postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> to which the interlocutor aligns prelogically and then miscues, and then secondly (in addition), as ‘committed-by-temporality’/interest over intrinsic-veridicality’ whether in the form of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that this psychopathic manifestation process can be mimicked in the context of social psychopathy, and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing’–apriorising-psychologism’. Over a given or extended period the underlying effect sought by the psychopath might stick, especially where the social target, interlocutors and others are utterly unaware of the mental state of the psychopath, and so evolving more like a social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or deliberate/disingenuous, adherence as if veridical to the slanted and hollow mimicking narratives of the psychopath with the corresponding ‘perversion-of- reference-of-thought’<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > or mental-perversion in the social context). It is important to see that such social-discomfiture is in reality not a

Paradoxically, the normal prelogism—as-of-conviction,—in-profound-supерerogation <existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind is so attached by supplanting—conviction-as-to-profound-supерerogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex to the notion of the essence of supplanting—conviction-as—to-profound-supерerogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking apriorising-psychologism meaning (as it is not priorly inclined to put into question narratives but rather to quickly operate/process logic to arrive at outcome while ‘trusting’ that the other is also prelogism—as-of-conviction,—in-profound-supерerogation <existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at> in their apriorising–registry, and so because psychopathy is a relatively outlying phenomenon thus the natural human personality development doesn’t take it much into account in the bigger scheme of things, i.e. it will be ‘a

developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and

but it is standard as it ‘saves mental energy and time’, hence it is the strongest factor for the
social prevalence of psychopathy and its social psychopathy corollary, and by extension all

believe the comprehensiveness and extent by which the psychopath can produce non-veridical
hollow mimicking narratives towards its end purpose, particularly as it is a rather social
outlying phenomenon and hence not usually integrated in many an individual’s

In so doing, the psychopath has a parallel formulaic-representation-of-meaning/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated which ‘subknowledging’/mimics’ the fundamental elements of ‘supplanting–conviction-as-to-profound-supererogation’–of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism deductive meaning’ such that the (adult) psychopath’s non-veridical hollow mimicking narratives come across paradoxically as highly credulous. Basically the relevant question for the psychopath is: ‘how was the hollow mimicking form that can be grasped in a prelogism –as-of-conviction,-in-profound-supererogation

of-dereifying-hollow-narratives-and-acts' deductions’ imply the psychopath overemphasises in
a consciously active manner the empty forms of prosody in-of-themselves first and over the
intrinsic attributive essence of meaning like overemphasising the toning form (toning
triggering) and the supposition form (presumptuousness) in their expressed deductive
reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised
spontaneously when naturally expressing profound/deep conviction; thus naturally the
psychopathic mindset/ reference-of-thought has an unusually large repertoire of ‘sense of
meaningfulness associated with empty forms of prosody’ since it artificially perceives them as
more critical than the supplanting–conviction-as-to-profound-supererogation of ‘attendant-
intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism mind’s
intrinsic meaningfulness the forms of prosody are latently associated with. The peculiarity with
the psychopath and in the instance of protracted slantedness/social psychopathy with the case of
exacerbation for instance, is the over-elaboration of such forms in a way that is rather an
instrumentalisation of form of expression and not natural expression (mimicking or vague-
rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-
vague-vocalisation-or-subknowledging ). In fact, it is often the case that such line of rather
‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an
entire set of the psychopath interlocutor’s in conjugated-postlogism in their ‘conjoining
looping narratives of flawed-existential-elevation-of- reference-of-thought’ (pointing to
dialectical-thinking –apriorising-psychologism mind’s and-vague-vocalisation-or-subknowledging ), and can be an advanced insight of a
‘psychopathic/postlogic and social psychopathic/conjugated-postlogism situation’,
construable with an appropriate maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. This mirrors the operant case highlighted further below, wherein the implied meaningfulness (of postlogic/psychopathic, conjugated-postlogism/preconverging-or-dementing-integration and supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional—postconverging/dialectical-thinking—apriorising-psychologism mental-dispositions) is existentially-traced as of the circularity/recurrence/repetition/repeatability as to existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—reification_or_intrinsic-reality—ontological-coherence_or_superseding—oneness-of-ontology to establish ontological-veridicality, and not simply operating on the ‘naïve supposition of universal human prelogism—as-of-conviction,—in-profound-supererogation=<existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes—disontologising-logical-outcome-arrived-at’ without factoring the ‘postlogism mere-formulaic slanting compulsing—nonconviction/madeupness/bottomlining’<decontextualising/de-existentialising~of-attendant-intradimensional—apriorising/axiomatising/referencing—induced-disontologising’—of—the—‘attendant-intradimensional—ontologising’—imbued<contextualising/existentialising—attendant-ontological-contiguity —in-shallow-supererogation—as-to-disontologising-perverted—outcome-sought-precedes-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness> mental-disposition’ of the postlogic/psychopathic and conjugated-postlogism—preconverging-or-dementing—integration mindsets/reference-of-thought. It is important to note that the psychopath’s targeting is highly evolutive throughout its life (along human personality development stages) as ‘socially-perceived-value as of social-stake-contention-or-confliction’ with others arise and ‘the
possibility of going undetected’ permits. The psychopath being ‘out-of-phase’ is pushed by a faulty-mentation-procedure-deception/urge/folie raisonnable, and the idea of psychopath’s having a grand plan/an overall scheme in its actions is ridiculous and unfounded (this idea again, is due to prelogism\(^79\)-as-of-conviction,-in-profound-supererogation\(^97\)–<existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at– mental-alignment or in-phasing or prelogism\(^79\) to the last narrative(s) of the psychopath and rationalising prelogically/by-essence/candor all its previous ‘denaturing\(^15\) postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>-\(^77\)-with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase’ over ‘the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ instead of mentally aligning postlogically/by-form/slantedness/distractive-alignment-to-‘reference-of-thought-<of-apriorising/axiomatising/referencing>-\(^79\) before reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) a protracted unsoundness-or-ontological-bad-faith/inauthenticity\(^64\)-of\(^84\) reference-of-thought/insanity). In fact, the psychopath’s faulty-mentation-procedure-deception-or-urge occurs because of overthinking (elevating its perverted registry/mimicking-subknowledging\(^15\) to wrongly contend with it) rather than underthinking downgrading the \(^7\) perversion-of-‘reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(\geq\) and not contending with it, just as is naturally done with a ‘childhood cinglé’ who is not yet surreptitious and the delirium is rather obvious. Actually, instead of being ‘delibrate of thought’/’conviction-as-to-profound-supererogation\(^97\) logical motive’, the
nonconviction/madeupness/bottomlining-in-shallow-supererogation^{97}<-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-pychologism^97. Thus, a non-ignorant temporal pedestal mindset/‘reference-of-thought whether affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation may find it in their temporal-self-interest to cynically elevate the psychopath’s postlogism^{10}-as-of^{9} compulsing–nonconviction/madeupness/bottomlining-(‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity >;–in-shallow-supererogation –<as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>) or slantedness/threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation^{97}<-as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>–or-mimicking-or-subknowledging^{95}, when this is not socially universally transparent (at uninstitutionalised-threshold^{11}). Further, the element of the need to be socially-functional-and-accordant^1 first, implies that psychopathy is ‘more than just the drive of a pathological individual’ but inevitably psychopathy and correspondingly social psychopathy involves a ‘social split-dynamism’ wherein the ‘unordinary eliciting’ of temporal interest among some as extrinsic-attribution (praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.) is the basis for the targeting of another or others, further compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or less effectively most of our formal setups, their sociological pertinence is actually far from established, but for the fact that broad and large general education diminishes social egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the
more common mental-disposition in the extended-informality\(\{\text{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology}\}\) including the ‘informal spaces’ of formal setups, with the result that this is a further factor that makes psychopathy poorly graspable as simply of individual denaturing\(^\text{15}\) dynamics rather than of social denaturing\(^\text{15}\) dynamics, thus better construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level of individuals intuition about the underlying dynamism of the postlogism\(^\text{78}\) -as-of- ‘compulsing-nonconviction/madeupness/bottomlining\(\{\langle\text{decontextualising/de-existentialising—of-attendant-intradimensional—apriorising/axiomatising/referencing—induced-disontologising’-of-the—attendant—intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant-ontological-contiguity >;—in-shallow-supererogation —<as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical—‘attendant—intradimensional—apriorising/axiomatising/referencing’-logical-dueness\rangle\}\) mental-disposition (going by experience), and then their sense of abstraction or gullibility or disposition to bandwagon effect with respect to a critical aetiologisation/ontological-escalation. (The implication here is that, for instance, it will be very naïve for an investigation involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors). Hence, the above phenomenon is further compounded in increasing profoundness (i.e. where the psychopath’s childhood delirium gives way to an adulthood mental articulation which is diffused/with-hardly-any-social\(^\text{104}\) universal-transparency\(^\text{105}\)\(\{\text{transparency-of-totalising-entailing,-as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness }\}\) but-rather-select-transparency-to-some about the nature of the psychopath’s veridical mental state) when the ‘temporal prelogism\(^\text{79}\) -as-of-conviction,-in-profound-supererogation\(\langle\text{existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness-precedes}\rangle\)
‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> alignment to psychopath-and/or-the-protracted-postlogism 78 comes to override the issue of ‘intrinsic rightness’ leading to what is known as ‘social-chainism or negative-social-aggregation or social-discomfiture’ which in turn (because individuals find ‘apparent social success and conventioning/social-temporal-thresholding’ in such social behaviour) leads to the ‘temporal endemisation/enculturation of social psychopathy’. The underlying mental-disposition of the psychopath as postlogic and the temporal prelogic/conviction-as-to-profound-supererogation minds pedestals that endemise/enculturate this process thus becoming conjugated-postlogism 78, is known as ‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution) thus reflecting their threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism. Ontologically, this requires an altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of such a-comprehensive-social-temporal-hodgepodging which is rather ontologically-discontinuous. This author qualifies as procrypticism preconverging-or-dementing–apriorising-psychologism, and so as ‘ONTOLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emanant template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding<-as-of-apriorising/axiomatising/referencing> slanted
mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting—preconverging-or-dementing—apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts-absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledgeing) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge for postlogic slantedness’ in a given social space during its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-urge for postlogic slantedness to attain an apparent normal social equilibrium or socially-functional-and-accordant state within any given social space as it develops into adulthood’. It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting—conviction-as-to-profound-supererogation—attendant-intradimensional—postconverging/dialectical-thinking—apriorising-psychologism interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought/slantedness become harder to perceive); - INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner); - SPATIALISATION (as the psychopath learns to articulate narratives at
different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound; - CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-to-profound-suprerogation —of–attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting–conviction-as-to-profound-suprerogation —of–attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing—apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-dementing—apriorising, etc. oince it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding—<as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality -asymmetric-subsumption-of-temporality ’, for relative intrinsic-reality/ontological-veridicality transcendantal-enabling/sublimating/superrogatory—de-mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism—slantedness is not socially—universally-transparency, that is, it now passes the
absolving/fleeting/escaping-reflex–logic to the point of faking remorsefulness or being a
victim as long as fundamentally it ‘succeeds in placing its interlocutor in a prelogism’–as-of-
conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–

order for the former to conjoin to its postlogic-backtracking–<iterative-looping–‘set-of-
derifying-hollow-narratives-and-acts’>‘). So basically, as social-and-confliction-stakes
develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise
develop and become increasingly serious in its social consequences as the context of ‘socially-
perceived-value as of social-stake-contention-or-confliction’ moves from family,
neighbourhood, school, company, administration, business, criminality, etc. depending on the
development of the specific psychopath. The fact, however, is that many of those who grow
together with the psychopath (immediate family, close family friends and relatives, etc.)
generally have some insight, however wobbly, into this mental process. Further, psychopathic
phenomenon meets with varying impact levels as it’s just a way of being/living for the
psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-
contention-or-confliction' context and time might play a role in making its social consequences
benign or aggravated. But then psychopathy and its social consequences, as a social
phenomenon, is often wrongly perceived as exclusively due solely to an individual (the
psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising—reference-of-thought-elements/apriorising—registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex—logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-mentation-procedure-deception-or-urge points to the fact that the slanted child psychopathy mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—a reifying-or-elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought-devolving-as-of-instantiative-context>, which is what validates logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology (as-of-conviction,-in-profound-supplanting—conviction-as—to-profound-supererogation—an apriorising-psychologism of prelogism—as-of-conviction,-in-profound-

The paradox being that the prelogic supplanting-conviction-as-to-profound-supерerogation \(^9\) of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism mindset/ reference-of-thought will project its own mental-disposition unwittingly upon the psychopath (in the case of adult psychopathy but not in the instance of childhood psychopathy where the latter’s deliriousness/delirious-effect/cingle-effect is often obvious due to lack of maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of–social-stake-contention-or-confliction), and paradoxically then wrongly validate the psychopath as prelogic supplanting-conviction-as-to-profound-supерerogation \(^9\) of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism with respect to meaningfulness as of ‘requisite existentially veridical logical-dueness (of apriorising-\(^8\) reference-of-thought-elements/apriorising–registry-elements) and logical-processing-soundness driven construct’.

However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting-conviction-as-to-profound-supерerogation –of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality\(^7\)/shortness (when there is no social universal-transparency \(^10\) –(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) of our acts at ‘uninstitutionalised-threshold\(^11\)’ thus there is not ‘intemporal social universal-transparency\(^10\) –(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–

temporal-to-intemporal-dispositions<-so-construed-as-from-perspective~ontological-
normalcy/postconvergence> disambiguation/unequivalences/alienative-hierarchisation,’ thus
creating an ‘induced-ring-of-gyges-effect/solipsistic~point-of-temporal-thresholding/point-of-
on-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ derived from the
psychopath’s initiated postlogism <as-disjointed-misappropriation-of-
meaningfulness-and-failing-intemporal-preservation>). That is, abstractly, with respect to
'socially-perceived-value as of social-stake-contention-or-confliction' humans do
solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold’,
from the temporal-dispositions of slantedness (the psychopath),
ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor
solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome
with institutionalisation/intemporalisation and formalisations with corresponding internalisation
of values or secondnaturing. However, at circumstances where the
institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the
‘extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-
incompleteness-to- meaningfullness-and-teleology ‘, then ‘a induced-ring-of-gyges-
effect/solipsistic~point-of-temporal-thresholding/point-of-ontological-faith-notion-or-
on-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ will elicit the
‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when
’successful’ (and not perceived deliriously but rather wrongly integrated prelogically/in-
conviction-as-to-profound-supererogation”) will often perfectly elicit an ‘induced-ring-of-
gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dynamism’ in the social-construct such that others will find it to their temporal self-interest to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the psychopath’s initiated postlogism<sup>78</sup> in hollow-constituting<sup>as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation</sup> (involving protracted/derived slantedness), in the absence of social<sup>101</sup> universal-transparency<sup>104</sup> (transparency-of-totalising-entailing-as-to-entailing-<sup><amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness</sup>) on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce<sup>50</sup> ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (at the point of such lack of social<sup>101</sup> universal-transparency<sup>104</sup> (transparency-of-totalising-entailing-as-to-entailing-<sup><amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness</sup>) of its postlogism<sup>78</sup>-slantedness to many a supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism interlocutor as the ‘uninstitutionalised-threshold’). Hence psychopathy when studied dynamically is rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology<sup>100</sup>) or temporal (shortness-of-register-of–meaningfulness-and-teleology<sup>100</sup>), hence its relation to sociopathy which is a more
generalised notion of social vices-and-impediments. The social psychopathy phenomenon (in describing the underlying abstract nature of man before institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and universal projection rules in an ‘ontological entrapment’ exercise to undermine/override temporal-dispositions subknowledging /mimicking, by virtue of its ontological-primemovers-totalitative-framework and overall medium to long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/civilisation, in an intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, from a recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge⟨preconverging-or-dementing -as-if-of-sound-knowledge⟩/pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the future institutionalisation/intemporalisation this author qualifies as notional~deprocrypticism (preempting procrypticism, so construed by ‘notional~deprocrypticism ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking -differentiation-as-of-supratransversality<in-sublimating–existential–eventuating/denouement>--of-motif-and-apriorising/axiomatising/referencing’). That is, psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology of the various institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of the
behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation of prospective [reference-of-thought–categorical-imperatives/axioms/registry-teleology]. To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality-for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising/axiomatising/referencing’ as from ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology are ‘inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging /mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders categorical-imperatives/registry/axioms-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation null and void, calling for the overcoming of the slantedness/decandoring/distractive-alignment-to-reference-of-thought–of-apriorising/axiomatising/referencing of mental-devising-representation and the articulation of new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reflecting intrinsic
categorical-imperatives/registry-worldview/axioms-for-intemporal-preservation-entropy-as-of-ontological-normalcy). In the bigger scheme of things such ‘institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing<{perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>})’ as articulated above gives coherence in conceptualising a continuity in the human emanant/becoming anthropological experience; as putting into perspective and not excepting any particular stage of institutionalisation/intemporalisation, as we might tend to do by focussing on the present positive registry-worldview which is just the backend in reflecting holographically-{conjugatively-and-transfusively}> the ontological-contiguity—of-the-human-institutionalisation-process, while ignoring the ‘effective and causative intemporal-disposition behind the institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing<{perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>}) transcendental/psychoanalytic-unshackling process’, which skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) ‘the cross-section of human entropic being’ in the medium to long run towards intemporal-disposition preservation while undermining temporal-dispositions. Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity—or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojecting/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the
definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>}’ with us being inherently exceptional (it is the transcendental/psychoanalytic-unshackling process of undermining perversion-of- reference-of-thought-<as-preconvergently-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > that is). Hence ‘our homework’ is to articulate our very own perversion-of- reference-of-thought-<as-preconvergently-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > for the possibilities of the future, and not strive to arrive at a normalcy of ‘our temporal-preservation-as-pseudointemporality-preservation’ which speaks of inherent relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism’, as-it-is-thus-‘in-wait’-for-‘perversion-of- reference-of-thought-<as-preconvergently-

It should be noted that while ‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process of human institutional transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposured peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional–deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive
recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>}

effort. Hence dimensionality-of-sublimating -{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}

instigation recurrently inducing the institutionalisation/intemporalisation process (which is not an analogical notion but a contiguous notion as to ontological-contiguity by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-}
rather so-reflecting ontological-contiguity as to human limited-mentation-capacity-deepening wherein existence’s ontological-contiguity construed as to non-presencing epistemic-projection is not beholdening to human limited-mentation-capacity at any given moment) applies universally across space and time (beyond any given registry-worldview’s/dimension’s institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemporalisation like deprocriptism. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure analysis) is not, as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous meaningfulness-and-teleology reference’ (given the contiguity in the ‘precedingness/supersedingness/ascendency-and-continuity of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation referencing’ across all cumulating/recomposuring institutionalisations); i.e. memetic contiguity as the underlying principle of memetic-reordering which is the ‘contiguous dynamism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the continuous transdimensional/transcendental relation of intemporal and temporal-dispositions’ at uninstitutionalised-threshold, and so, across all cumulating/recomposuring institutionalisations whether from a retrospective, present or prospective perspective. Psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring process can then be defined as arising when a registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology is transcended/superseded as to human limited-mentation-capacity-deepening, at its uninstitutionalised-threshold.
dialectically-or-contendingly-out-of-phase of the prior registry-worldview/dimension ‘mental-devising-representation’ as preconverging-or-dementing–apriorising-psychologism/decandored/dialectically-or-contendingly-out-of-phase consciousness-awareness-teleology by the new registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology (and so deterministically and operantly without any discretion of appraisal which wrongly leads to postconverging-or-dialectical-thinking–apriorising-psychologism–<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> mental-devising-representation) such as recurrent-utter-uninstitutionalisation ‘preconverging-or-dementing–apriorising-psychologism mental-devising-representation’ by base-institutionalisation, ununiversalisation ‘preconverging-or-dementing–apriorising-psychologism mental-devising-representation’ by universalisation, non-positivism/medievalism ‘preconverging-or-dementing–apriorising-psychologism mental-devising-representation’ by positivism, and prospectively, procrypticism ‘preconverging-or-dementing–apriorising-psychologism mental-devising-representation’ by deprocrypticism. This brings up the notion that while candoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, this is just a mental-devising-representation for implying intemporality–of-thought without which meaningfulness is not functional in the registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology, but then at that same prior registry-worldview’s/dimension’s uninstitutionalised-threshold, transcendence-and-sublimity/sublimation/supererogatory–dementativity into a prospective registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology put into question this candoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-teleology is then represented as preconverging-or-dementing–apriorising-
psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or de-mentation—\langle supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics \rangle. Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology and ontological-veridicality/ontological-contiguity of reference-of-thought (from the ontological-normalcy/postconvergence epistemic-or-notional—projective-perspective); with the ontologically-veridical/ontological-contiguity mental-devising-representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity—aesthetically—preconverging/dementing —qualia-schema—as-of-epistemic-decadence in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking—'set-of-dereifying-hollow-narratives-and-acts'> stranded as oblongated/decandored in reflection/perspectivation of their veridical perversion-of reference-of-thought—aestheticised—preconvergingly—apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, beyond their <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/present-consciousness/illusion-of-the-present. Hence we know of the following de-mentation—\langle supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics \rangle as preconvergingly—dementated/structured/paradigmed registry-worldviews/dimensions: recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism—or—disjointedness-as-of reference-of-thought (our own prospective mental stranding); as these form the backdrop for the articulation of transcending anticipatory and
preemptive \*\*reference-of-thought–categorical-imperatives/axioms/registry-teleology\*\*, for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation of the prospective registry-worldview/dimension that are the resolution to the vices-and-impediments\*\* of the prior (uninstitutionalised-threshold\*\*) registry-worldview/dimension, successively as base-institutionalisation, universalisation, positivism and prospectively, deprocrypticism. Each of such psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (along the institutional-cumulation/institutional-recomposure\*\* process), have particular ‘central recomposuring determinants’ which the new registry-worldview is coming after, as follows: (i) for Base-Institutionalisation, it has to do with the requisite ‘organising rules/principles’ as ‘a memetic ontological entrapment’ for superseding recurrent-utter-uninstitutionalisation (as an inherently-'preconverging-or-dementing-apriorising-psychologism-or-subknowledging-\*\* perversion-of- reference-of-thought\*\* as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \*\*, and-corresponding-\*\*<amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ relation to meaningfulness). (ii) for universalisation, it has to do with requisite ‘projection rules/principles’ as ‘a memetic ontological entrapment’ for superseding ununiversalisation (as perversion-of- reference-of-thought\*\* as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of base-institutional meaningfulness). (iii) for Positivism, it has to do with the requisite ‘empirical rules/principles’ as ‘a memetic ontological entrapment’ for superseding non-positivism/medievalism (as perversion-of- reference-of-thought\*\* as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of base-institutional meaningfulness).

The very specific nature of the deprocryptic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-\langle so-construed-as-from-perspective–ontological-normalcy/postconvergence\rangle’–existentialism-form-factor at the procryptic uninstitutionalised-threshold\textsuperscript{103}, and conjugate this in meaningfulness by going beyond just logical operation/processing/contention of narratives but rather in the first instance introducing the notion of ‘notional–firstnaturedness—temporal-to-intemporal-dispositions-\langle so-construed-as-from-perspective–ontological-normalcy/postconvergence\rangle disambiguation’ to avoid wrongfully operating/processing of logic by the reference-of-thought of the intemporal-disposition\textsuperscript{84} reference-of-thought–\langle categorical-imperatives/axioms/registry-teleology\rangle\textsuperscript{100},-for-

For instance, the uninstitutionalised-threshold for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism-or-medievalism and our positivism–procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in a recurrent-utter-uninstitutionalised registry-worldview. Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-notional-firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective-ontological-normalcy/postconvergence>—implications which is more than just reactionary to the possibility of temporality/shortness (shortness-of-register-of—

Critically, this insight about the effective nature of ontological-normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their reference-of-thought—categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation’, notional–deprocrypticism going by ontological-normalcy/postconvergence implies a mental-devising-representation of ‘non-thresholding meaningfulness as transdimensional/transcendental-meaningfulness or memetic refinement (or a postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism paradox) ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-to-confatedness as dialectical transformation as-prospective reference-of-thought’ in its ‘functional institutionalised/intemporalised-approximating-or-proxying-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation’ as renewing existentialism/full-depth-of-existential-implications meaningfulness and thought; with such

This is unlike the case where logical-engagement of mental-devising-representation as ‘postconverging-or-dialectical-thinking’–apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity–of–reference-of-thought is still relevant where there is failing/not-upholding– logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation (like calculating the answer of an arithmetic operation wrongly) so long as the reference-of-thought is sincerely/genuinely working in adherence to arithmetic axioms to produce the right answer. But this is invalid and not applicable where the issue is about deliberate disposition not to adhere to arithmetic axioms but usurp them (whether consciously, expediently or unconsciously). Soundness-or-ontological-good-faith/authenticity–of–reference-of-thought on the other hand implies being-or-ontological-or-existential-or–meaningfulness-and-teleology disposition as of supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism (reflecting sound logical-processing-or-logical-implicitation—and at worst defect–of–logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) and so in effective prelogism wherein logical-process-precedes-outcome thus upholding intemporal/veracity/ontological-pertinence; so construed from a more profound ontological-normalcy/postconvergence insight. This is the fundamental basis and backdrop for an insight for drawing ‘the implications of the (preceding and superseding) nature of intrinsic-reality as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation)’, reflecting/perspectivating/highlighting ‘the mental-devising-representations of

Hence the postconverging/dialectical-thinking–apriorising-psychologism mental-devising-representations of either sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation are ‘projectively validated by reflex as possibly-of-postconverging-or-dialectical-thinking–apriorising-psychologism/possibly-of-soundness-or-ontological-good-faith/authenticity-of-reference-of-thought (and not projectively invalidated by reflex as possibly-of-preconverging-or-dementing–apriorising-psychologism/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought) in implying the ‘upholding of their sound reference-of-thought status’. To illustrate, suppose X and Y are contending (ontological-reference) to know what 5+4 will give as answer (ontological-veridicality), if X is using pencils to count but inadvertently misplaced a pencil or doesn’t perfectly understand how to stack up the pencils to use to count the whole lot, then where his answer was to come out as 5+4=8, we talk of defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as X sincerely wants to calculate to produce the right answer but X’s logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation failed. This doesn’t invalidate the notion that Y can still engage X as ‘possibly-of-postconverging-or-dialectical-thinking–
apriorising-psychologism‘/possibly-of-soundness-or-ontological-good-faith/authenticity of
reference-of-thought in contending (appropriateness-of-reference-of-thought-as-of-conflatedness) with respect to another arithmetic operation, that is, possibly after pointing out to X where they went wrong in their operation of arithmetic. While threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> performers subsequent acts of similar-or-protracted-contextualisation to their prior acts verified to be of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> are priorly projectively invalidated by reflex as ‘possibly-of-preconverging-or-dementing’–apriorising-psychologism‘/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity of-reference-of-thought and not ‘possibly-of-postconverging-or-dialectical-thinking’–apriorising-psychologism‘/possibly-of-soundness-or-ontological-good-faith/authenticity of-reference-of-thought in implying the ‘revoking of their sound reference-of-thought status’. To illustrate, suppose X above rather slyly and deliberately (preconverging-or-dementing–apriorising-psychologism mental-devising-representation) miscalculated (non-ontological-reference/non-contending-reference) the answer (in notional-discontiguity/epistemic-discontiguity <shallow-supererogation of-mentally-aestheticised–preconverging/dementing –qualia-schema>) and Y grasps this, then this invalidates the notion that Y can still ‘genuinely’ engage X (ontological-pertinence) with regards to another arithmetic operation of similar-or-protracted-contextualisation, with respect to the upheld context behind X’s sly and deliberate basis for miscalculating. nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation phenomenon. In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to perversion-of-
phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals-and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this
respect, one can cite at individuals-levels instances of many a human interest story tragedy in
the press which often go unanalysed, and in the bigger institutional-level for instance what is
the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably
due to grave and unprincipled mismanagement with profound social repercussions. The implied

(that need to be suprastructured by prospective/transcending/superseding registry-

or psychology-of-mentation-dynamics or natural~psychological-dynamics’ aligned with ontological-normality/postconvergence is what escapes and provides for grander emancipatory possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/{cumulated/recomposured}-consciousness-awareness-teleology in reference (as ‘tentative references-of-thought’) of this same one (ontological-normality/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived ‘meaningfulness-and-teleology’ thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ is one that aligns with and is driven by ontological-normality/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wherein ontological-normality/postconvergence is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. Ontological-normality/postconvergence (as to epistemic relative-ontological-completeness) abstractly refers to any relevant/implied registry-worldview/dimension that is in a reflected/perspectivated state of prospective transcending/superseding whether as base-institutionalisation, universalisation, positivism or notional~deprocrypticism as having ‘relative sound/ontologically-veridical reference-of-thought status’, in relation to a corresponding reflected/perspectivated state of prior transcended/superseded registry-worldview/dimension whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism which is then correspondingly of ‘relative
the subject of contention and aetiology or ontological escalation from the corresponding prospective/transcending/superseding registry-worldview/dimension which is then the ontologically-veridical "reference-of-thought. It should be noted that a defect—of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance (unlike a perversion—of reference-of-thought—as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) implies movement along the same curve of prior relative ontological incompleteness—reference-of-thought of a given registry-worldview’s/dimension’s reference-of-thought whether as an inappropriate/poor-or-bad or appropriate/good or any other variation of the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, and doesn’t fundamentally voids the ‘sound reference-of-thought status’ with regards to the possibility of an appropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in another instance. This preconverging-or-dementing\textsuperscript{19}–apriorising-

longness-of-register-of-meaningfulness-and-teleology, such that whenever relatively sound reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are institutionalised/intemporalised, human temporality in hollow-constituting misappropriation-of-meaningfulness-and-failing-intemporal-preservation individuation dispositions (at uninstitutionalised-threshold) will tend to relate, by limited-mentation-capacity-deepening, to this as hollow/formulaic constraining deterministic constructs which have to be exploited by the mere determinism-of-form about how others will act (hollow-constituting misappropriation-of-meaningfulness-and-failing-intemporal-preservation) rather than the essence as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation being sought originally by the institutionalised/intemporalised reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-reconstituting–as–to-conflatedness). This fundamental dilemma of the cross-section of human mentation disposition is ‘a lost cause’, given the reality of the notion of a shortness-to-longness-of-register-of-meaningfulness/notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence inherent in a limited-mentation-capacity-deepening; any resolution is not by wrongly implying any dimensionality-of-sublimating supererogatory–dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation transformation’ but rather institutionalisation/intemporalisation by its inherent eliciting of positive-opportunism—of-social-functioning-and-accordance to the grander cross-section of society in the medium to long-run wherein intemporal-disposition/longness-of-register-of–meaningfulness-and-teleology individuation dispositions by
artifice/institutionalisation/intemporalisation come to constrain-or-dominate the social-construct (over temporal-dispositions/shortness-of-register-of—meaningfulness-and-teleology—or-hollow-constituting—individualisations dispositions); with corresponding percolation-channelling—in-deferential-formalisation-transference facilitating the perpetuation of such intemporal enculturation even when such positive-opportunism—of-social-functioning-and-accordance gets weaker with grander institutionalisations/intemporalisations, and so as the grander human the-good. This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipatory potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism! Rational-realism (as to prospective deprocrypticism) as such involves rather elucidating distracting-alignment-to-reference-of-thought—apriorising/axiomatising/referencing—/decandoring with three de-mentative/structural/paradigmatic teleologies: - subknowledging—impulse/compulsive-dementing temporal-disposition (psychopath), with ‘slanted mechanical narratives’ (preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); - subknowledging—temporal-dispositions-teleologies (the-various-temporal-dispositions-teleologies), with ‘banal mechanical narratives discomfiture’ (preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); and - the intemporally given and ontologising teleology which ontologically reflects/perspectivates the subknowledging—impulse/compulsive-dementing—temporal—
The reason why this is critical to grasp is that the veridical intemporal-disposition preserving emanance has to ‘organically and existentially pass-through’/reflect/perspectivate the registry-worldview/dimension as to preconverging-organically-and-existentially-pass-through/reflect/perspectivate the registry-worldview/dimension as to shallow-supererogation as to preconverging-or-dementing –apriorising-psychologism for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring on the basis of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. It is not an ‘avoidable luxury’ as it is the necessary transcendental element in establishing the backdrop for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/prospective-institutionalisation. Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (occurring at the registry-worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal persion-of- reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as to preconverging-or-dementing –apriorising-psychologism for existential mental orientation to avoid postconverging-or-dialectical-thinking–apriorising-psychologism-stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> (for example, no ‘God-of-plane’ for say an animistic mental orientation that sees gods and spirits as causative, i.e. avoiding to operate the meaningfulness-and-teleology of a transcendent registry-worldview/dimension in terms–as-of-axiomatic-construct of the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the transcended registry-

This starts with the would-be transcendence-and-sublimity/sublimation/supererogatory-de-mentativity inducing intellectual(s)/emancipator(s) ‘owns reflexive individuation maximalising-as-transcendental liberation/emancipation’ from the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of such prior registry-worldview/dimension from which it/they necessarily come from as well as not heeding generalised-social-temporal-preserving-mental-inclinations; and so, consistently crossgenerationally since transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/institutionalisation is ‘beyond just logical argumentation/contention’ as it points to ‘being-or-ontological existentialism/full-depth-of-existential-implications structure defect’ (defect of reference-of-thought/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought, and so beyond logical defect). It is more like (a knowledge-driven/not impression-driven) ‘intemporal preservation recomposuring need or memetic-reordering/psychoanalytic-unshackling’ for institutionalised/intemporalised being/ontology over recurrent-utter-uninstitutionalised, universalised being/ontology over ununiversalised, positivistic being/ontology over non-positivism/medievalism and prospectively deprocryptic being/ontology over procrypticism–or–disjointedness-as-of-reference-of-thought. construal/conceptualisation of existential-reality practically presuming this to be ‘effectively absolutely real and final’ but then with human limited-mentation-capacity-deepening this is erroneous hence the need for re-categorisation/re-adaptation/re-classification as ‘re-constitutedness’ of reference-of-thought’ perpetually when aware of its deficiency. apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment by} postconverging-entailment takes a shot at construal/conceptualisation of existential-reality from an open-ended insight/fugue as of referentialism from the more profound ontological-normalcy/postconvergence of existential-reality factoring in human limited-mentation-capacity-deepening as of metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing<-perspective-ontological-normalcy/postconvergence>}, and as implied by the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that goes beyond <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology } which are continually put into question, by being open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing<-perspective-ontological-normalcy/postconvergence>}/postdication. Thus, apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging-entailment will wrongly induce virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, and so, with more and more profound
defective construal/conceptualisation consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—constitutedness—in-preconverging-entailment in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as an attendant resetting resolution for the induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness’ of axiomatic-construct/ reference-of-thought’ (by elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed-existentialising/contextualising/textualising-contiguity’) that will then require another attendant resetting resolution for the subsequently induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness’ of reference-of-thought’ down the line when aware of its further critical defect again (though, in a sense the entire recomposuring process could be qualified as a ‘practical presencing—absolutising-identitive-constitutedness’ exercise). But then the inherent nature of existence in relation to human limited-mentation-capacity-deepening construal of it is one of evasiveness as implied by the ‘imbricatedness/threadedness/recomposuring as of attendant-ontological-contiguity—educed-existentialising/contextualising/textualising-contiguity’—<reifying-or-elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context> as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further—epistemically-unconceal-the-very-ontologically-same-existential-reality’ such that we are only occasionally and partially aware about the critical defective nature implied by apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity—educed-existentialising/contextualising/textualising-contiguity }—constitutedness—in-preconverging-
entailment in categorisation schemes, thus fundamentally defining the limits even of a presencing—absolutising-identitive-constitutedness as of existential-conceptualisations/construals. The implication is beyond just the notion of knowledge construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the de-mentative/structural/paradigmatic basis of categorisation scheming are equally the de-mentative/structural/paradigmatic basis of the inherent analysis and meaningfulness-and-teleology construed/conceptualised. Since categorisation schemes (whether construed/conceptualised beyond-the-consciousness-awareness-teleology-<in-preconverging-existential-extrication-as-of-existential-unthought>) define the ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’, it is critical to grasp that the inherent de-mentative/structural/paradigmatic limits/defects of such ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’ are systemic hence inducing ‘flawed-existential-elevation-of-reference-of-thought’ as of ontological and virtue implications (as ontologically-perspectival-degraded-as-decentered/preconverging-ordementing-reflexive/entailing-teleology-differentiation-as-of-subtransversality-<in-desublimating–existential-eventuating/denouement>–of-motif-and-apriorising/axiomatising/referencing) at the given ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’. The bigger question could be asked; why doesn’t humans in recurrent-utter-uninstitutionalisation spontaneously articulate and relate to meaningfulness-and-teleology as humans in base-institutionalisation–ununiversalisation, who do not do likewise as humans in universalisation–non-positivism/medievalism, who do not do likewise as humans in positivism–procrysticism? Is it a difference in species, as of successive species? Obviously, no! As we know from history and anthropology that cultural diffusion has shown that all humans are able to come to terms and operate at the highest forms of human registry-worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a registry-worldview’s/dimension’s reference-of-thought psychology ‘placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology as arising and determined by its specific limited-mentation-capacity-as from relative apriorising/axiomatising/referencing–of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–constitutedness in preconverging entailment to relative apriorising/axiomatising/referencing–of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–constitutedness in preconverging entailment–postconverging entailment conflatedness in preconverging disentailment–postconverging entailment construal/conceptualisation as soundness-or-ontological-good-faith/authenticity–of-reference-of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-deepening, can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a
‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-deepening determining its prospective relative-ontological-completeness-of-reference-of-thought, as enabled by the ‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism>}, which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic deambulation’ harkens back to that of human registry-worldview’s/dimension’s institutionalisation by its socially-functional-and-accordant thresholds of notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> further redefining the possibility of uninstitutionalised-threshold as the threshold for failing/not-upholding the institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology and the possibility of prospective institutionalisation as renewing reference-of-thought—categorical-imperatives/axioms/registry-teleology for upholding intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-
of-presence \{implicated-`nondescript/ignorable–void `as-to- presencing—absolutising-identitive-constitutedness \}, the present registry-worldview’s/dimension’s reference-of-thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in secluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of reference-of-thought. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness-reference-of-thought emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that is counterintuitive to a stigmatic/mented psychology as conceptualised today. It should be noted that ‘a mentation reflex as decentered and in de-mentation–(supererogatory–ontological–de- mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics)’ is no less valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} of ‘human temporal uninstitutionalised-threshold\textsuperscript{03} mental-disposition’ (speaking of uninstitutionalised-threshold\textsuperscript{11}) as ‘a mentation reflex as centered and postconverging-or-dialectical-thinking\textsuperscript{79}–apriorising-psychologism’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness–
teleology of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; and so, with no relevant need for attending to any ‘psychological complexes’ with respect to a representation as of an uninstitutionalised-threshold wrongly being construed as of institutionalisation (at the uninstitutionalised-threshold) as being ‘a mentation reflex as centered and postconverging-or-dialectical-thinking–apriorising-psychologism’ instead of ‘a mentation reflex as decentered and in \textit{de-mentation}\{\textit{supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics}\}'. The point of this statement is that when procrypticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence\{\textit{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}\}, the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrypticism meaningfulness-and-teleology will be represented as decentered and in \textit{de-mentation}\{\textit{supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics}\} as the necessary/requisite backdrop for the construal of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ushering in notional–deprocrypticism as prospective institutionalisation. In this regard, we’ll certainly inherently relate to preceding successive uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in \textit{de-mentation}\{\textit{supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics}\}, though this will most probably be resisted with respect to such a representation of our denaturing of positivistic meaningfulness as our prospective procrypticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-threshold by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in \textit{de-mentation}\{\textit{supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics}\}.
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)); while we can recognise successively the centered and postconverging-or-dialectical-thinking–apriorising-psychologism nature of base-institutionalisation, universalisation and positivism, though probably less so of notional–deprocrypticism institutionalisation as it points to the decentering and de-mentation
that a universalisation–non-positivism/medievalism mental-disposition contending against positivism institutionalisation meaningfulness is actually acting out a subpar <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag<reference-of-thought as of the apriorising/precedingness of attendant ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity -<reifying-or-elucidating-of- prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of- instantiative-context> reflecting this reality beyond and above it from the positivism perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as decentered and in de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of an uninstitutionalised-threshold is hardly just one of ‘simplistic knowledge elucidation’ but rather an elucidation as of intellectual courage in bluntly asserting decentering and de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Intellectual courage as imbuing knowledge with organic profoundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is ‘no magical knowledge technicality’ for implying a more profound ontological-completeness-of-reference-of-thought over a relatively relative-ontological-incompleteness-reference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset/reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating/supererogatory–de-mentativity rather than a conventioning
sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is ‘altogether not a knowledge elucidation problem’ with respect to the implied representation of uninstitutionalised-threshold \textsuperscript{13} as decentered and in \textsuperscript{14} de-mentation\textsuperscript{\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-\}

representation/mentation/consciousness-awareness-teleology\textsuperscript{100}) requisite knowledge or meaningfulness-and-teleology\textsuperscript{100} \textsuperscript{84} reference-of-thought. Such equally applies with respect to notional–deprocripticism prospective institutionalisation relative to our procrypticism uninstitutionalised-threshold \textsuperscript{03}. In other words, prospective institutionalisation as
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is construed not in terms—as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic ontological-prime-movers-totalitative-framework’ outcomes construed as the overtly compelling aspect of the knowledge validating a knowledge construct but is construed rather in terms—as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discrentional contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is grounded on such an underlying reference-of-thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discrentional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating ontological-prime-movers-totalitative-framework outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology conjure up explanations/meaningfulness-and-teleology in terms—as-of-axiomatic-construct of its non-positivistic medieval alchemic or non-positivistic animistic reference-of-thought psychologism; as it is naïve to think that implied organic-knowledge as of prospective
institutionalisation transcendence-and-sublimity/sublimation/supereogatory—de-mentativity requiring its own \textsuperscript{84}reference-of-thought psychologism can simply be construed as ‘mechanical-knowledge’ while still upholding/keeping the prior/transcended/superseded registry-worldview’s/dimension’s \textsuperscript{84}reference-of-thought psychologism, as the organic-knowledge rather points to ‘validating ontological-primemovers-totalitative-framework\textsuperscript{1} outcomes as its mechanical-knowledge aspect but further requires a development of the discretional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the knowledge’, grounded rather on such a prospective institutionalisation psychologism as its ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} synopsising-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding—one’s-of-ontology’, and not the prior/superseded/transcended uninstitutionalised-threshold\textsuperscript{103} psychologism. Such organic-knowledge gets institutionalised to an extent by the habituation as of circularity/recurrence/repetition/repeatability of the mechanical-knowledge implied \textsuperscript{84}reference-of-thought of \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} as of crossgenerational psychoanalytic-unshackling involving \textsuperscript{45}amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} towards the ultimate crossgenerational alignment to the prospective/transcending/superseding registry-worldview \textsuperscript{84}reference-of-thought, as a positivistic registry-worldview \textsuperscript{84}reference-of-thought. Interestingly, and so across all successive institutionalisations, what tends to be lost ‘the failure to register fully that the ‘intemporal-disposition projecting mental-disposition’ behind ontological-primemovers-totalitative-framework\textsuperscript{2} validating the institutionalisation of ‘mechanical-knowledge’ is rather the ‘vitality aspect’ of organic-knowledge and it is ‘not a passive dispensation’, just as well that the ‘temporal mental-dispositions’ superseded towards

The underlying insight being that human formulation of meaningfulness-and-teleology\textsuperscript{100} is necessarily incomplete because of its limited-mentation-capacity and thus comes with an inherent sense/projection of ontological-appropriateness, and as of human developing ontological-completeness-of—reference-of-thought, as the driving element in upholding ontological-contiguity\textsuperscript{67}/ontological-veridicality. This notion as reflected by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of—existential-reality (as it enables the further expansion of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance intemporal-thresholds and so as of ontological-emancipation-beyond-just-virtue) should be the critical and decisive
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality to overcome such
distortion/perversion/misconstrual; as in fact despite such a vague idealism as intemporal-
romanticism, implicitly where highly pressing we tend to be obliged to recognised this
temporal-to-intemporal reality as implied in the way we go about developing many a social
formal construct. Thus notional–deprocrypticism knowledge as overlapping the mechanical
with the organic, as of the intemporal/longness-of-register-of–meaningfulness-and-
teleology mental-disposition driven by ontological-faith-notion-or-ontological-fideism—
imbuied-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-
of-existential-reality behind the mechanical-knowledge, is a further validation of the idea of
notionalisation/notional-conception/amplituding of knowledge which emphasises in principle
and beforehand/as-of-a-priori a deliberative consideration of this temporal-to-intemporal human
disposition in relating to mechanical-knowledge as of prospective possibilities for a better
preempting of temporality/shortness and skewing towards the intemporal/longness-of-
register-of–meaningfulness-and-teleology, and so as of organic-knowledge overlapping.
Further, the reality of a human-subpotency–aporia/undecidability/dilemma/ought-

In which case while such intemporality/longness cannot be construed as of a social commonness of reference-of-thought, it’s occurrence if it does occur can only be construed in transversality<for-sublimating-existential-eventuating/denouement>of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing> (more like the abstract notion of faith, by definition and as implied in many a creed, however metaphysical though, can only be solipsistic to an individual and not amenable to a commonness of social contemplation) as of abstract intersolipsism. The Nietzschean metaphor ‘God is dead’, as of human emancipation, is one whose validity can only be countenance where it implies the capacity of human pretence of intellectual-and-moral sublimation, and not the notion of intellectual-and-moral decadence. *Thus to sum up, the overall notion of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}-conflatedness-in-{preconverging-disentailment-by}-postconverging-entailment in relation with other elucidative associated

analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{10}\) capacity for upholding the intemporal-disposition as ontology. Critically, human analytical mentation capacity mainly disambiguates what-is-in-effect organic-comprehension-thinking and threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^{9}\) as-to-attendant-intradimensional-prospectively-disontologising-preconverging/dementing–apriorising-psychologism\(^{10}\), respectively as the mental-devising-representation of postconverging-or-dialectical-thinking–apriorising-psychologism representation and preconverging-or-dementing–apriorising-psychologism representation. Equally, with regards to human mentation capacity, the effect of limited mentation capacity characterising a given registry-worldview/dimension or intradimensional level and its social-construct not only defines its inherent vices-and-impediments\(^{10}\) but such a social-construct further and critically structures and stifles the natural renewal of human emancipative dispositions. For instance, non-positivism/medievalism stifling inclinations to think outside of medieval mental-dispositiona and likewise with regards to our procrypticism.

The bigger point of successive institutionalisations has to do overall with their specific emancipative registry-worldview/dimension framework as fertilising the cross-section of human practical and conceptual incidental issues and endeavours as well as the virtue constructs at the said registry-worldview/dimension. What is interesting with regards to an incidental study like psychopathy and social psychopathy with respect to the grander notional-deprocrypticism institutionalisation level within the treatment of the institutional-cumulation/institutional-recomposure–{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>} meta-conceptual frame is that it provides (besides being critically important to grasp by itself as a parasitising/co-opting phenomenon that can potentially arise in all human locales) the incidental

issues (issues arising from the tempering or false implying of the apriorising-registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology) and thus inducing a fundamental flaw with the reference-of-thought in the first place, and further at a second-order level in wrongly implying the existential veridicality of logical-dueness (thus making irrelevant the construing of soundness or unsoundness) of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), which in turn further enlighten the incidental analysis of psychopathy and social psychopath. Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation. It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity) as the fundamental notion is institutionalisation/intemporalisation entropy (intemporal-preservation contiguity; by a skewing device (‘intemporality’-asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity)/deferential-formalisation-transference of the averageness of human temporal-dispositions, with corresponding formalisation and internalisation as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring,
towards the supersedingness of the intemporal-disposition which is inherently ontological and
syncs with intrinsic reality in its ontological-primemovers-totalitative-framework, and hence
its supersedingness as it induces overall social virtue-as-of-ontology.

‘perversion-of-\(\Rightarrow\) reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(\Rightarrow\) is an endemic human mental defect/perversion disposition retrospectively to prospectively, and that this is ‘a lost cause’ due fundamentally to mediocrity principle of humans having in reality ‘notional–firstnaturness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’ and not \(^{(10)}\)universal intemporal-disposition’, and the construct of deprocryptic categorical-imperatives/axioms should be anticipatory and preemptive of ‘perversion-of-\(\Rightarrow\) reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(\Rightarrow\) perpetually at the ‘uninstitutionalised-threshold \(^{(11)}\)’. More like the modern notion of medicine doesn’t work on the idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease theory, but accepts that de-mentatively/structurally/paradigmatically bacteria, cancer, organ failure, etc. cause disease and that the virtue of medicine is about how to understand and preempt the above causations; likewise deprocryptic virtue operates on a realistic grasp of human subknowledging\(^{(12)}\)/mimicking/temporal-to-intemporal-solipsistic-projections at uninstitutionalised-threshold \(^{(13)}\) and then strives to skew/deferential-formalisation-transference for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-preservation entropy/contiguity). We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic
registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s Things Fall Apart on how a community where a traditional registry-worldview with its sense of purpose had to deal with positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this case the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is by cultural diffusion rather than by internal philosophical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Basically, all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity involve ‘a psychoanalytic-unshackling of this sort’. Counterintuitively, it should be understood that no transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rational because you rationalise by operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives but then the need for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity due to perversion-and-derived-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and the registry-worldview’s/dimension’s relative-ontological-incompleteness-induced-threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-attendant-intradimensional-prospectively-disontologising-preconverging/dementing-apriorising-psychologism is putting the soundness of registry-worldview/axiomatic construct/categorical-imperatives in question (as reference-of-thought-supersedes/precedes logical-processing-or-logical-implicitation-supposedly-apriorising-in-conviction-as-to-profound-supererogation), so you rather have a reinvention as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the psychoanalytic-unshackling coming from its better grasp/ontological-primemovers-totalitative-framework of the world/intrinsic reality. Basically, we can say that
human-emanant/becoming-transcendence is the first level of human invention (incremental inventions of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence-and-supererogatory-de-mentativity to liberate themselves before secondnaturing/institutionalising for the new possibilities for the species; noting that, this doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins… of the world, miraculously came up with positivism to supersede/precede/override/utter medievalism, as they were of medieval stock but by philosophical transcendence-and-supererogatory-de-mentativity could project beyond the limits of non-positivism/medievalism even were they were still imbued with remnants of the old like alchemic beliefs. Hence it is the transcendental process that is actually critical)! Now what positive can come from psychopathy? From the intemporal perspective NONE. Besides specific social consequences of psychopathy as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath; by and large, ontologically and as reflected by the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-referenc-ename-of-thought–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology), the psychopath’s and other postlogic articulations have a nefarious effect, on social meaningfulness-and-teleology particularly in ‘spheres of extended-informality-as-susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology’ of society in general and social institutions, as the postlogic perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation induces threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-‘attendant.

However, with psychopathy and postlogism\(^{8}\) in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> as compelling–nonconviction/madeupness/bottomlining-⟨decontextualising/de-existentialising—of-of-attendant-intradimensional—apriorising/axiomatising/referencing⟩-induced-disontologising’-of-the–‘attendant-intradimensional–ontologising’–imbued—<contextualising/existentialising—attendant-ontological-contiguity >; in-shallow-supererogation —<as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness⟩ as reflecting the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^{7}\) —<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing—apriorising-psychologism> of the registry-worldview’s/dimension’s-uninstitutionalised-threshold \(^{1}\)–defect<as-Being-or-ontological-or-existential–defect>\(^{36}\), as meaningfulness is now not about a ‘defect of failing/not-upholding—<as-of-apriorising/axiomatising/referencing> contiguity’ intemporality\(^{72}\)/ontological-veridicality as of specific existential-instantiation ontological-performance —<including-virtue-as-ontology> but rather \(^{7}\) perversion—of—reference-of-thought<as-preconvergingly—apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of ‘meaningfulness-and-teleology\(^{100}\). And this, in its fulsome articulation

or–ontological-preservation rather than implying prospective ones for intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation; such that ontologically-speaking the
phenomenon is in a circularity/recurrence/repetition/repeatability as of reference-of-thought
denaturing and relative-ontological-incompleteness, and endemised/enculturated (with a

profound-supererogation that should not be confused with a secondnatured/institutionalised
disposition in relation to virtue). This effectively forms the recomposured backdrop for
prospective transcendental construct of deprocrypticism, as the ‘ontologising organic-
comprehension-thinking (organicalism/‘intemporal-prioritisation-of‘ reference-of-thought–as-
conflatedness’–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-
teleology) that reflects/perspectivates the protracted threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to–attendant-intradimensional–prospectively-disontologising–preconverging/dementing –apriorising-
psychologism’. But then, a psychopath can be so irrational that in temporal terms it might do a
lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or even some other things but coming initially from a vice; as may be enabled by the psychopath’s faulty-mentation-procedure-deception-or-urge to attain an outcome). This dynamic element can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as the questions are not only how culpable is the psychopath but extend to who is temporally getting what from the psychopathic situation, what accounts and narratives should be believed, etc., thus requiring an utter and intemporally uncompromising ontological conceptualisation to construct an ontological-primemovers-totalitative-framework science. That said, beyond just about such a present worldly take to societal issues, there is a bigger question of the universal implications on human civilisation of postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation behind human civilisation. It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do both with the nature of the psychopathic/postlogism mind contrasted to the nature of the ‘normal supplanting–conviction-as-to-profound-supererogation —of–attendant-intradimensional’–postconverging/dialectical-thinking —apriorising-psychologism or prelogic mind’, which are antipodal as the normal mind is by reflex prelogic supplanting–conviction-as-to-profound-supererogation —of–attendant-intradimensional’–postconverging/dialectical-thinking —apriorising-psychologism as to attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity and by reflex will tend to see prelogic supplanting–conviction-as-to-profound-supererogation —of–attendant-intradimensional’–postconverging/dialectical-thinking —

The mechanism of institutionalisation/intemporalisation and formalisation ensures that because of the positive-opportunism—of-social-functioning-and-accordance that the intemporal-disposition (as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at 'socially-perceived-value as of social-stake-contention-or-confliction', it tends to skew ('intemporality-asymmetric-subsumption-of-temporality\textsuperscript{7}', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition to be inherently civilised to want to\textsuperscript{10/1}universally wish that everyone have to deal with a fair legal system, that anyway is to the credit of the institutionalisation/intemporalisation process, but that is a secondnatured/internalised construct). This explains why there is no need to breach the scientific principle known as the ‘mediocrity principle’, (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a notional–firstnaturedness—temporal-to-intemporal-dispositions--<so-construed-as-from-perspective–ontological-normalcy/postconvergence> creature in its moral/virtuous-agency); to
explain why society tends to improve/progress. Rather, the intemporal-disposition de-
mentatively/structurally/paradigmatically brings more overall good and hence skews
(‘intemporality’-asymmetric-subsumption-of-temporality, for relative intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-

elucidation is important because while internalisation might point to the social good it is
important to understand that when dealing with our solipsism at ‘uninstitutionalised-

meaningfulness-and-teleology) than temporal (shortness-of-register-of–meaningfulness-

underlying notion of ‘a grand theory of psychology’ that has been missing to turn psychology
from a preconverging–de-mentating/structuring/paradigming of the human presencing—
absolutising-identitive-constitutedness as modern into a postconverging–de-mentating/structuring/paradigming across-
and-of-all-times of nonpresencing--perspective–ontological-normalcy/postconvergence>!

Why? The foundation of a human psychological science should be fundamentally about ‘the
contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-
cumulation/institutional-recomposure-{as-to- historiality/ontological-
eventfulness /ontological-aesthetic-tracing}<perspective–ontological-

or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposuring from
recurrent-utter-uninstitutionalisation, based-institutionalisation–unununiversalisation,
universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively
deprocrypticism). The present treatment of psychology will seem to imply that all psychology
is about psychoanalytic techniques on the modern positive mind, which is rather naïve and
uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to
this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of
‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows
for human-subpotency survival/existence/emanance/fulfilment/flourishing in existence-as-of-
its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,-

in the study of the psyche (noting that by saying ‘notion’ is meant, the notion of intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation covers the concepts of temporal
preservation (including subknowledging, mimicking)-to-intemporal preservation, just as the
notion of good covers the concepts of good-to-bad). Correspondingly, this notion of
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involves ‘mental
candoring’ where mental-devising-representation syncs with intrinsic-reality and mental
decandoring where mental-devising-representation is a wrong/flawed perverted representation
of intrinsic-reality. If we have an anthropological continuity/anthropopsychology, then the
continuity as entropy is the exercise of candoring as ‘straightness/soundness-or-ontological-
good-faith/authenticity’ of reference-of-thought referencing/registering/decisioning or
registry-teleology (being a functional representation of how an intemporalising registry-

ontological-completeness —unenframed-conceptualisation, for a novel genuinely universal psychology as anthropopsychology, involved in all successive institutional-cumulation/institutional-recomposure—{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence- reflected—‘epistemicity-relativism-determinism’>—unenframed-conceptualisation ontological-primemovers-totalitative-framework}, i.e. notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> for such a conceptualisation of anthropopsychology or ‘genuinely universal psychology’. The philosophical conceptualisation of stranding is rather ‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> disambiguation’ which serves to avoid the supplanting—conviction-as-to-profound-supерerogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex (instead of rightly aligning by the dialectically-or-contendingly-out-of-phase reflex or transversality—<for-sublimating—existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ reflex) of ‘intemporal-disposition’ being wrongly attributed to all interlocutors by reflex without ensuring that their disposition is effectively intemporal and not temporal. de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics), as to its corresponding notions of
mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) can be implied as mental-devising-representation across all registry-worldviews/dimensions not withstanding any registry-worldview’s/dimension’s illusion-of-the-present/present-consciousness mental-devising-representation, and so, by accounting anticipatorily and preemptively for the registry-worldview’s/dimension’s perversion-of-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>–of-its–categorical-imperatives/axioms/registry-teleology<sup>100</sup>-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether a retrospective, present or prospective registry-worldview/dimension. Hence the need for ‘collapsing’/overriding of the transcended registry-worldview’s/dimension’s institutionalisation<sup>84</sup>-reference-of-thought–categorical-imperatives/axioms/registry-teleology<sup>100</sup> with prospective transcending/superseding<sup>1</sup>-reference-of-thought–categorical-imperatives/axioms/registry-teleology<sup>100</sup>-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in anticipation and preemption as untenability/internal-contradiction/internal-incoherence/institutional-constraining, as secondnaturing and ‘not as temporal-dispositions transformation’ to wrongly imply a<sup>104</sup> universal dimensionality-of-sublimating<sup>24</sup>({<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}) human predisposition. For instance, the veridical stranded mental-devising-representation we may have from a positivistic standpoint of the non-positivism/medievalism mind as oblongated/decandored is not recognised by the non-positivism/medievalism mindset/‘reference-of-thought by its syncretic reflex to be functionally in its mental straightness and candored (even though such a representation is ontologically wrong regarding its mental-devising-representation with respect to the its uninstitutionalised-threshold<sup>03</sup> requiring positivism institutionalisation/intemporalisation). Prospectively, the
de-mentation
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–
stranding-or-attributive-dialectics) of our own mental-devising-representation by futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism
as oblongated and decandored at our uninstitutionised-threshold requiring
notional–deprocrypticism institutionalisation/unintemporalisation will equally meet with an
epistemic-totalising–self-referencing-syncretising wrong reflex of postconverging-or-
dialectical-thinking–apriorising-psychologism–<stranded-as-rightfully-straight/candored-and-
dialectically-or-contendingly-in-phase> that will not recognise its slantedness and decandored
veridicality. The intemporal-disposition is rather about emphasising
institutionalisation/intemporalisation percolation-channelling–<in-deferential-formalisation-
transference> as the means and basis for prospective institutionalisation/intemporalisation. This
highlights the vacuousness in all transcendental relations wherein the transcended is vacuous
with respect to the transcending. Such vacuous transcendental manifestations involves
dialectically (the transcended and transcending relation with regards to:) deductive narratives
instances, life episodes, life schemes, general being/existential dispositions and the specific
existentialism/full-existential-depth-implications involved with a registry-
worldview/dimension; wherein temporal-dispositions present-consciousness (in their illusions-
of-the-present) perpetually portray candor and straightness but on retrospection are shown to be
decandored and oblongated which ontologically implies these are veridically of
de-mentation
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-
attributive-dialectics) as of preconverging-or-dementing–apriorising-psychologism–
<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-
phase> notwithstanding their wrongly projected postconverging-or-dialectical-thinking–
apriorising-psychologism–<stranded-as-rightfully-straight/candored-and-dialectically-or-
contendingly-in-phase>. This is ontologically foundational (more like the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument grounding spirit of arithmetic cannot be undermined in any way possible and you then have the possibility of sound arithmetic thereafter). de-mentation-\{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics\} prevents temporal-dispositions (in the articulation and re-articulation of narratives) by the ‘temporal-dispositions disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-articulated are of intemporal-disposition teleology\(^{10}\) hence wrongly implying candored and straightness, whereas these are in effect <amplituding/formative-epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{3}\) iterating narratives of temporal-dispositions teleologies’; and so, by way of coring which involves accounting-for-temporal-dispositions-defect/preconverging-or-dementing\(^{1}\)—apriorising-psychologism (the-perversion-of-the—\(^{8}\) categorical-imperatives/axioms/registry-teleology\(^{10}\)-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) and avoiding setting-aside which rather involves glossing-over-temporal-dispositions-defect/preconverging-or-dementing\(^{1}\)—apriorising-psychologism (the-perversion-of-the—\(^{7}\) categorical-imperatives/axioms/registry-teleology\(^{10}\)-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). This ensures in effect ‘the de-mentation\(\{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics\}\)-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence’.

Ontology is an altogether coherent construct with no room for excepting from coherence, which then simply implies the superseding of any such pretence of an excepting. (For instance, we can be calculating the sum \((5 * 5)+5 – 5\), and make the mistake to say \(5 * 5 = 24\) but then overlook it and agree together that the answer should be 24 and go on to resolve the entire equation as 24.

This type of non-ontological thinking (a non-ontological thinking is also known as a
misanalysis or misthinking or misreasoning or mislogic or preconverging-or-dementing \textsuperscript{19} – apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or- contendingly-out-of-phase> or \textsuperscript{4} <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \textsuperscript{23} or notion-al-discontiguity/epistemic-discontiguity -<shallow-supererogation -of-mentally- aesthetiscised-preconverging/dementing –qualia-schema>, as there is no veridical meaningfulness that exists out of ontology or isn’t in ontological-contiguity ) is highly prevalent in the extended-informality-⟨susceptible-to-effecting-parsimony-as-of-shoddiness- and-incompleteness-to– meaningfulness-and-teleology ⟩ of society as social-aggregation-enabling, the reason we strive to formalise whether in terms–as-of-axiomatic-construct of laws, institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition constructs cannot accommodate non-ontology since reality doesn’t adjust to man and it is man that adjusts to reality. The \textsuperscript{14} de-mentation-⟨supererogatory–ontological–de-mentation-or- dialectical–de-mentation—stranding-or-attributive-dialectics⟩, -in-a-contiguity-of-increasing- ontological-normalcy/postconvergence implies that an interlocutor’s retrospectively demonstrable narratives miscuing and subsequent ”perversion-of- reference-of-thought-＜as- preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation " speaks of the real nature of its present and prospective narratives as decandored and oblongated in effect ontologically but that by an illusion-of-the-present reflex as well as for the sake of functioning we tend to represent by default such miscuing and ”perversion-of- reference-of-thought-＜as- preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation meaning as straightness/candored (intemporal) which is not ontologically veridical; in which case the prospective transcended registry-worldview strands such meaningfulness as
mindset/reference-of-thought by way of de-mentation\{(supererogatory\-ontological\-de-mentation\-or-dialectical\-de-mentation\-stranding\-or-attributive\-dialectics\}\} from the intemporal positivistic mindset, and upholding such the ‘disambiguation of notional\-firstnaturedness—temporal-to-intemporal-dispositions\-\langle so\-construed\-as\-from-perspective\-ontological-normalcy/postconvergence\rangle as ontological-escalation/aetiologisation’ for the psychoanalytic\-unshackling/memetic\-reordering/institutional\-recomposuring that collapses/overrides the non-positivism/medievalism mindset/reference-of-thought crossgenerationally (consider the diffusion of positivistic registry-worldview and its psychoanalytic-unshackling/memetic\-reordering/institutional\-recomposuring of non-positivistic registry-worldviews/dimensions in the th and early 20th century). Stranding defines the ‘decandored registry-worldview/dimension dialectically\-or\-contendingly-out-of-phase/dialectically\-primitive) mental\-devising-representation’ such as the mental\-devising-representation of recurrent\-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, and so, beyond the illusion\-of\-the\-present/present\-consciousness of all these <cumulating/recomposuring\-attendant-ontological-contiguity >-successive registry-worldviews/dimensions which in their <amplituding/formative\-epistemicity>totalising\-self-referencing-syncretising/present\-consciousness/illusion\-of\-the\-present will tend to wrongly recover/syncretise to project straightness/candoring of mental\-devising-representation as intemporality /longness rather than decandored/oblongated mental\-devising-representation as temporality\}. Stranding is validated by the fact that transcendental/transdimensional/interdimensional/ maximalising\-recomposuring\-for\-relative-ontological\-completeness\}—unenframed-conceptualisation speaks of an ‘institutionalisation/intemporalisation constraint/secondnaturing’ and ‘not temporal\-dispositions transformation into intemporal\-disposition as dimensionality\-of\-sublimating\}'
conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation); and this idea is so foundational that it is beyond-and-supersedes/precedes/overrides/utters the consciousness-awareness-teleology\textsuperscript{00} of temporal-dispositions such that ‘they are not called upon in argumentation’, just as we are not consciously called upon to establish whether blood flows in our body, as it is a preceding/superseding truth that supersedes/precedes/overrides/utters our thinking or not of it! Thus de-mentation\textsuperscript{14} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is rather intemporally/ontologically conceptualised for its validation and integration in the survival-and-flourishing imbued institutionalisation/intemporalisation percolation-channelling-\textless{}in-deferential-formalisation-transference\textgreater{} (formalisms and internalisations) mechanism with the implied ontological-prime-movers-totalitative-framework\textsuperscript{73} and positive-opportunism—of-social-functioning-and-accordance\textsuperscript{75} as ontological entrapment, with no temporal-dispositions firstnature-or-intemporal-level-validation but rather secondnatured-or-institutionalisation/intemporalisation-level-validation. At which point de-mentation\textsuperscript{14} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) articulates temporal-dispositions teleologies orientations as ‘subknowledging\textsuperscript{87}/mimicking/mental-perversions/slantedness manifestations at that ‘uninstitutionalised-threshold\textsuperscript{195}’, i.e. the reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of temporal-dispositions undermining the very ‘intemporal-preservation-entropy’ supposedly they are supposed to uphold). Ultimately and in the bigger picture, (with teleology\textsuperscript{100} fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism in existence as ontological (so-reflecting \textless{}amplituding/formative\textgreater{} disposedness/psychologismic-construct–(as-to-orientation/value-construct/valuation–and–derived-parameterising) and

Ontology being the intemporal-disposition, the exercise of ‘directing’ convincing as logical-processing/logical-operation to temporal-dispositions is inherently
unwarranted and is rather of\textsuperscript{amplituding/formative–epistemicity}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} in preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism\textsuperscript{19}–as-stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase\textsuperscript{45} as it wrongly implies that temporal-dispositions\textsuperscript{75} perversions of\textsuperscript{75} reference-of-thought\textsuperscript{19}–as-preconvergingly–apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation\textsuperscript{33} of their dimension’s/registry worldview’s\textsuperscript{84} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is of sound mental representation; rather what should be implied is the prospective intemporality\textsuperscript{19}/longness instead preserving prospective\textsuperscript{84} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} towards the ‘institutionalisation/intemporalisation percolation-channelling–in-deferential-formalisation-transference’\textsuperscript{56} as secondnaturing of the new\textsuperscript{84} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. For instance, the positive (as to intemporal project) will not engage in a direct logical convincing with the non-positivistic/medieval mind as this just validates to the non-positivism/medievalism disposition that its non-positivism/medievalism ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation relation with\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} is sound such that it goes on to operate/process logic by\textsuperscript{amplituding/formative–epistemicity}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} non-positivism/medievalism\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100}\textsuperscript{84} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}. Rather the positivistic
mindset’s reference-of-thought will project the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation of positivism (as rational-empiricism/positivising basis of reasoning) through positivism institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> and highlighting, in the bigger scheme of things, the relative sublimating efficiency and positive-opportunism–of-social-functioning-and-accordance of a positivism-based rule of law, social organisation, polity, nation-building, etc. based on positivism axioms and which inherent effectiveness and supersedingness/transcendence breaks the non-positivism/medievalism mindset’s reference-of-thought (which are not rational-empirical/positivising and tend to essences, alchemic-logic, sorcery constructs, etc.) with its defective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation. This takes an utterly impersonal form (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. The ‘transcendental/transdimensional/interdimensional’ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation complex-of-stranding’ refers to the counter-intuition from a registry-worldview/dimension perspective in not representing itself as stranded (decandored or oblongated or in threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism when it is demonstrated that it is perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as perversion-of-the-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-
contiguity–or–ontological-preservation, and rather syncretises in operating those same
reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal
preservation-entropy-or-contiguity–or–ontological-preservation prospectively; while that same
registry-worldview/dimension intuitively recognises that a prior/superseded registry-worldview/dimension mental-devising-representation as stranded is ontologically veridical as the prior/superseded registry-worldview/dimension subknowledges/mimics and self-reference-syncretises it’s reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold \textsuperscript{03}. The reason for the human ‘transcendental/transdimensional/interdimensional/\textsuperscript{55}maximising-recomposuring-for-relative-ontological-completeness\textsuperscript{99}—unenframed-conceptualisation complex-of-stranding’ is that a registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are fundamental and constitutive functional elements of its existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation and hence the complex when \textsuperscript{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present}. But then, if such a complex is to stand, the transcendental exercise by which man left the cave-to-so-called-modern-man wouldn’t have happened, and any registry-worldview/dimension (retrospective, present, prospective) that fails its own de-mentation\textsuperscript{14} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as to elucidation-and-superseding-of-its-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \textsuperscript{97}, as-to-preconverging-or-dementing–apriorising-psychologism to allow for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for
transcendence-as-the-grander-possibility-for-human-survival-and-flourishing is obviously failing/not-upholding-as-of-apriorising/axiomatising/referencing its ‘own homework’ for the bigger picture in the human species survival-and-flourishing scheme, notwithstanding it is at the backend of the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism ontological-contiguity-of-the-human-institutionalisation-process! As an anthropopsychological disposition, rational-realism as notional-deprocrypticism just like all successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in emphasising increasing realism counter-intuitively to a naïve temporal take is actually a ‘positive-minded/well-meaning disposition with respect to man/the-human-species’ with the idea that ‘it is better working with what intemporally/ontologically is (that is, the-Good/understanding/notional-knowledge-reification-gesturing-in-prospective-psychologismic-apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-conflatedness in-preconverging-disentailment-by-postconverging-entailment/ontological-primemovers-totalitative-framework) to achieve the best intellectual-and-moral outcome for man’ than ‘working with what-one-wishes’ from a wrong temporal/impression-driven construal’. The idea of understanding the ontology of human temporal mental defect is not to ‘idle’ in a temporal circularity that defeats-and-debase the grandor of a universal/intemporal projection but rather strives to better stir man towards the intemporal-and-ontological as virtue, an exercise which while of presencing—absolutising-identitive-constitutedness consummated/forfeiting posture with regards to human temporality/shortness wouldn’t however acquiesce to the naïve disconcertment that takes the presencing—absolutising-identitive-constitutedness consummated/forfeiting posture of intemporality/longness for temporal correctness towards which the intemporal-disposition is
inherent solipsistic human nature due to a notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>

human reality, and thus the need for institutionalisation to skew (‘intemporal’-asymmetric-subsumption-of-temporality\(^{(10)}\), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) towards intemporal-preservation as human secondnaturing. This elucidation is vital in pointing out that the teleology\(^{(10)}\) of rational-realism as notional–deprocrypticism (with teleology\(^{(10)}\) fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism in existence as ontological (so-reflecting \(<\text{amplituding/formative}>\text{disposedness/psychologismic-construct-<(as-to-orientation/value-construct/valuation–and–derived-parameterising}>\) and \(<\text{amplituding/formative}>\text{entailment—<(as-to-totalising-contiguous/coherent–factuality-of-variability}>\)’ and so as to the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-paintelligibility \((\text{imbued-and–‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation})\), is not to strive for the wrong notion of human intemporal/ontological ‘congruence’ with respect to knowledge and virtue (as human dispositions are not congruent, as thus the idea of ontological-congruence of the intemporal-disposition with temporal-dispositions will compromise intemporality\(^{(1)}\), and hence compromise ontology), but rather to aspire for a transversality-<for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ of human intemporal-disposition with respect to temporal-dispositions (as this upholds and doesn’t compromise the ontological veridicality in intemporal-disposition projection as to the ontological reality of human notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-

That is, knowledge-notionalisation involving grasping and understanding both the ignorances/desublimation/temporal-dispositions and ideals to better skew/deferential-formalisation-transference towards idealism as the fulsome ontology, and not failing/not-upholding\textless as-of-apriorising/axiomatising/referencing\textgreater to understand or overlooking the ignorances/desublimation/temporal-dispositions as the temporal on the wrong basis that all that matters is the ideal as intemporal. Furthermore, temporal-dispositions tendency to pervert/dement/subknowledge\textlangle preconverging-or-dementing \textasciitilde as-if-of-sound-knowledge\textrangle/mimick-and-syncretise at uninstitutionalised-threshold\textsuperscript{103} with the dialectical consequence of the development of the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions (institutionalisations) validates the appropriateness of striving rather for transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising/axiomatising/referencing’ and not nested-congruence to uphold intemporality\textsuperscript{12}, and hence a complete ontology. To put it in other terms, for instance, transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising/axiomatising/referencing’ of ‘keeping the faith’ only in the intrinsic operation of rules of arithmetic (transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising/axiomatising/referencing’ among interlocutors, in principle or notionally, so that at all times it is always about the intrinsic reality of the arithmetic and not the agreement-disagreement of any human interlocutors as we are all mortals and likely to corrupt such intemporal rules with our mortality out of an intemporal frame of reference that is transcendental-enabling/sublimating/supererogatory–de-mentativity) is vital to preserving ‘ontological arithmetic’ as transcendental-enabling/sublimating/supererogatory–de-mentativity,
whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with other humans (interlocutors logical nested-congruence) instead of intemporal exercise, it is obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be corrupted and/or teleologically-degraded as more likely than not the intemporality/purity of mathematics will be compromised to human mortals stakes of social-and-temporal-trading as social-aggregation-enabling, and so as of postlogism-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>. * It should be noted that in de-mentation-

The idea is not to idle in articulating meaningfulness within the dimension in need of transcendence-and-sublimity/sublimation/superrgatory-de-mentativity. For instance, a positive mind’s articulation of defective meaningfulness in non-positivism/medievalism registry-
worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in terms–as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful purposefulness but rather to project a positivistic worldview’s transcendental meaningful purposefulness. In that sense, actually for the social scientist and philosopher words like dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the ordinary and temporal connotations of stigmatising under a temporal extricatory preconverging–de-mentating/structuring/paradigming. Rather, these are critical and actively sought after notions that provide the ‘dialectical backdrop’ for enabling prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The idea is that these notions are veridically dialectical notions that apply in all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity unlike a simplistic ‘history fixating conceptualisation’ will have. In other words, our non-positivism/medievalism ancestors’ possibility of being-represented/mental-devising-representation as dialectically-or-contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive construction of a superseding/transcendental registry-worldview/dimension that brought about the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in a notional–deprocrypticism institutionalisation/intemporalisation with respect to procrypticism. In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are ‘capacity-wise same’ as per notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence> going by a preconverging/postconverging–de-mentating/structuring/paradigming of mentation-capacity (shortness-of-register-of–meaningfulness-and-teleology<0 to longness-of-register-of–

Ontological-normalcy/postconvergence equally involves articulating the possibility for the supersedingness of the intemporal-disposition over temporal-dispositions as intemporalisation/institutionalisation, and so, involving ‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> accountability’ beyond an ‘idle temporal-dispositions stigmatisation’. In that spirit, it can be reasoned that the intradimensional ‘ontological blindspot’ in human mental-devising-representation (wherein temporal perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation > by miscuing, and in subsequent derivation of disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising of temporal-dispositions perversions/defects of postlogism\(^{78}\)-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought— developing ontological-performance—<including-virtue-as-ontology> conjugated/inflected/derived/mimicked/in-protracion-to-psychopathic-preconverging-or-dementing—apriorising-psychologism), actually points to a decandored/slantedness of the temporal-dispositions (and not candored/straightness), and is definitional of all registry-worldviews/dimensions perversion-of—reference-of-thought—<as—

noted that this element of deconstructed meaningfulness is obviously reflected in the articulation of this paper itself in a creative, referential and dynamic grasp of reference-of-thought and meaningfulness-and-teleology in a rather ephemeral subject, the social. In this regard, the hermeneutic/reprojecting/supererogating/zeroing exercise originates from an even more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this ‘rather relatively benign idiosyncrasy’ in this paper as the reader may come across and is the explanation for many of the author’s insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and creative insight that allows the hermeneutic/reprojecting/supererogating/zeroing design in a ‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’ analagical to a twisty puzzle cube exercise in order to infer and arrive at a profoundly explanatory hermeneutic/reprojecting/supererogating/zeroing insight extending to the possibility of a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposing possibilities for transcendental institutionalisation/intemporalisation of notional–deprocrypticism (superseding the vices-and-impediments of, as well as human emancipation over, procrypticism). Such ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as prospective reference-of-thought of renewing existentialism/full-depth-of-existential-implications of transdimensional-meaningfulness–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in various shades is just as critical for the necessary reconstitutive insight (deconstruction) that can be highly evasive and difficult to fully grasp at different registry-worldviews/dimensions meaningful-references or rather dialectically successive existentialisms. - A ‘circular dialectical dynamism

little transcendental capacity. Going by an ‘ontologically contiguous comparison’ with reference to Arithmetic where a condition was to cause a character to resolve additionality as 1+3=5, 2+5=8, 5+6=12, etc., the ontological-veridicality/ontological-contiguity\(^7\) of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective) of additionality with regards to this character will always involve as of reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^6\) that subtracts 1 from the results of that character’s operations of additions (as the imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual principles of additionality (its traditional reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^6\) of simply summing directly) will be existentially rendered null and void in order to allow for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Now supposed such a framework (reference-of-thought) for resolving Arithmetic calculations now involves the contribution of 6 characters working in collaboration with each contributing their specific arithmetic principle role while taking cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-completeness-of-reference-of-thought, and so taking into account the prior mentioned character with its defect of additionality; wherein such a framework is BODMAS-based with character B working on brackets operations, character O working on order operations, character D working on division operations, character M working on multiplication operations, the priorly mentioned character A working on addition operations and character S working on subtraction operations, and so (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective) setup for resolving arithmetic calculations (ontological-completeness-of-reference-of-thought setup). Naturally, the reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^6\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as the usual BODMAS Arithmetic rules) should apply
but this is no longer existentially the case in this instance, where the equation is for instance
\(7(\sqrt{64}+3-1)-\{6+4-2\}÷2\). Going by the natural arithmetic rules for BODMAS, the equation will
be resolved first with the brackets, and within the brackets for the first brackets the order
operation is first carried out, that is, \(\sqrt{64}=8\) and then addition \(8+3=11\), then subtraction \(11-1=10\). For the second brackets, addition as \(6+4=10\), then subtraction as \(10-2=8\). The division
operation then follows with the second brackets result as \(8÷2=4\). Then the multiplication
operation with the first brackets result as \(7×10=70\). Finally, comes the subtraction with \(70-4=66\)
as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence).

But then, in this particular case where character A (Addition) operation of additionality is
perverted as stated above as a result of its condition, the equation will resolve as \(\sqrt{64}=8,\)
\(8+3=12, 12-1=11\), for the first brackets, and \(6+4=11, 11-2=9\), for the second brackets. The
division operation with the second brackets yields \(9÷2=4.5\), and the multiplication operation
with the first brackets yields \(7×11=77\). Finally, subtracting both brackets gives \(77-4.5=72.5\) as
the final result which is ontologically wrong (from ontological-normalcy/postconvergence
epistemic-or-notional–projective-perspective), and points to the fact that all the 6 BODMAS
characters, not only A (Addition) the additionality defect character have failed ontological-
veridicality/ontological-contiguity as of their relative-ontological-incompleteness-induced,
‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to-

In which case the resolution for the Arithmetic equation (supposedly where A, Addition, is unamendable due to a condition), will involve the other characters taking cognisance of A’s (Addition’s) condition and adhere to intemporal-preservation-entropy-or-contiguity—or–ontological-preservation over projected wooden-language-⟨imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology⟩ in affirming ontology/ontological-veridicality/intrinsic-reality (as the appropriateness-of-reference-of-thought-as-of-conflatedness over A’s induced preconverging-or-dementing-reference/-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >). Thus the new categorical-imperatives/axiom/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation deployed with respect to resolving calculations (ontological-completeness-of-reference-of-thought will integrate the notion that additionality requires subtracting 1 from its results as well as taking cognisance that other characters will be perverted in their operation if they do not take cognisance of A’s (Addition’s) condition and subtract 1 from it before their operation (whether unconsciously by ignorance, expediently by affordability, and consciously by opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). For instance, B (Brackets) is still in a position to articulate an ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity of reference-of-
thought (from ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective) by factoring in all the defects as follows: by reverting all other characters operation up to the point they had to deal with A (Addition) and subtracting 1 from the results at these point before allowing the other characters operations, which then yields the right result. That is 77÷7=11 and 4.5×2=9 as reverting back, then 11-1=10 and 9-1=8 to factor in A’s (Addition’s) additionality defect to yield the results of the two brackets. Before then letting back the division and multiplication operations for both brackets respectively, giving 8÷2=4 and 7×10=70. Finally 70-4=66, giving the final result that is ontologically-veridical (in ontological-normalcy/postconvergence). So this approach is the new reference-of-thought~categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity~or-ontological-preservation which is ontologically-veridical/of-intrinsic-reality that B should be operating. In the bigger scheme of things, this explains institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective~ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism/memetic-reordering/psychoanalytic-reorientation with respect to an animal that is always bound to perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing-apriorising-psychologism by the very fundamental veridicality of its notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective~ontological-normalcy/postconvergence nature. But then, this being an uninstitutionalised-threshold, B going by human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective~ontological-normalcy/postconvergence’—existentialism-form-factor at uninstitutionalised-threshold may just as well due to there being ‘no institutionalisation

temporal-dispositions of B aetiologisation/ontological-escalation to be accounted for from similar individuations in such situations as a registry-worldview/dimension problem, in order to ensure intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as ontology. In the bigger scheme of things, this calls for a prospective registry-worldview/dimension institutionalisation articulation that supersedes/overrides such a temporal dynamism of 75perversion-of- reference-of-thought-<as-preconvergingly- apriorising/ axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow- supererogation > dispositions at various social roles going from A’s condition, and the potential overlooking of the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation dispositions by all the other characters (B, O, D, M and S). Underlying such an intemporal orientation is the idea that fundamentally the conjugation of such an 14de-mentation (supererogatory-ontological-de-mentation-or-dialectical—de-mentation—stranding-or— attributive-dialectics) and subsequent conjugation as with B above to the temporal-dispositions of a registry-worldview/dimension speaks fundamentally of the uninstitutionalised-threshold 103 of that registry-worldview/dimension, reflected/perspectivated by the marginal 75perversion-of- reference-of-thought-<as-preconvergingly-apriorising/ axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > defect of its 84reference-of-thought–8categorical-imperatives/axioms/registry-teleology 100,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation with the prior registry-worldview/dimension now preconverging-or-dementing 15—apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, with a prospective institutionalisation 14reference-of-thought–categorical-imperatives/axioms/registry-teleology 100,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as the new straightness/candored-and-dialectically-or-contendingly-in-phase. 14de-mentation{(supererogatory–ontological–de-mentation-or-

This by itself explains why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing–apriorising-psychologism with respect to one another (from the prospective perspectives), and not that we are talking about different species of humans, as transcendentalism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is the foundational concept retrospectively, presently and prospectively; even though by the illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage, all dimensions, and not only ours, tend to think of themselves as definitely mentally straight/candored-and-dialectically-or-contendingly-in-phase with no uninstitutionalised-threshold which is obviously fallacious. The reason for this is that ‘postconverging-or-dialectical-thinking–apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity -of- reference-of-thought (as mental straightness/candored-and-dialectically-or-contendingly-in-phase) starts-and-ends/is-sound at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation where the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy/configuity is in ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective). Where instead such
registry-worldview/dimension meaningfulness’ like ours is perfectly possible in garnering a more profound and informed insight on human nature whether presently, retrospectively to prospectively. In the bigger scheme of things, just as logic can only be grounded on coherent and concrete \[84\] reference-of-thought–\[9\] categorical-imperatives/axioms/registry-teleology\[100\] based articulations for its ontological effectiveness and veridicality, human ontological transcendental possibilities arise from human individuations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to renewed logical-basis/logic,-as-derived-from—transversality—<for-sublimating—existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ \[7\] going beyond the \[84\] reference-of-thought–\[9\] categorical-imperatives/axioms/registry-teleology\[100\] within just a given registry-worldview/dimension as if it were the absolute mental-devising-representation with respect to intrinsic-reality, and instead hold that transdimensional/transcendental (unlike ordinary meaning which reasons only on intradimensional \[84\] reference-of-thought–\[9\] categorical-imperatives/axioms/registry-teleology\[100\]) is what brings us closer to absolute mental-devising-representation with respect to intrinsic-reality as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). Memetism as suprastructural-meaningfulness is able to do that because it can proxy ontological-normalcy/postconvergence in a dynamic dialectical juxtapositioning/doppler-thinking of ‘postconverging-or-dialectical-thinking\[20\]—apriorising-psychologism mental-devising-representation’ and ‘preconverging-or-dementing\[19\]—apriorising-psychologism mental-devising-representation’ from successive ontological dialectical-moments of human shallow limited-mentation-capacity—{as of relative

The conceptual pertinence in this Arithmetic ontological-contiguity77 comparison can be rearticulated as follows for greater clarity. As previously highlighted the developmental psychology of the psychopath from childhood to adulthood, involves a child psychopath who is dysfunctional as its subknowledging–impulse/compulsive-dementing/postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation is relatively transparent to interlocutors and it induces a ‘delirious effect’ given that it hasn’t yet maturated, is not yet indirect, is not yet spatialising, is not yet credulous and is not yet crafty in ‘its postlogism–as-of-compulsing–nonconviction/madeupness/bottomlining<‘decontextualising/de-existentialising–of-attendant–apriorising/axiomatising/referencing’–induced-disontologising’–of-the–attendant-intradimensional–ontologising’–imbued–contextualising/existentialising–attendant-ontological-contiguity >–in-shallow-supererogation –as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness>; conditions which it increasingly attains from adolescence to adulthood with a corresponding inducing of the development of social psychopathy as its psychopathy conjugates/inflects/gets-mimicked with the temporal-dispositions of ignorance, unconsciously, and consciously with affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, in an
absolving/fleeting/escaping-reflex–logic eliciting social psychopathy involving moving from various non-veridical/hollow sets-of-postlogic-in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-<iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'> as absolving/fleeting/escaping-reflex–logic, to others and from different sets of interlocutors to others. It is obvious that A’s condition/subknowledging-impulse/compulsive-dementing disposition as an adult psychopath isn’t systematic with every interlocutor but rather it arises only in the face of perceived–social-stake-contention-or-confliction-and-confliction-targets and furthermore the profoundness of the postlogism-slantedness manifestation is directly related to the gravity of the perceived–social-stake-contention-or-confliction the situation and how the ‘evolving social psychopathy situation permits’. Hence the notion of A having an absolute condition wherein it increments additionality by 1 is rather an absolute ideal conceptualisation, as in reality it is a question of degree and highly circumscribed with the adult psychopath who needs to have a postlogic-equilibrium that can be socially-functional-and-accordant, unlike the dysfunctional child psychopath. This comparison equally articulates the nature of uninstitutionalised-threshold. Consider B (together with the other BODMAS characters) in the instance where despite A’s conditions they were to stick to the registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology thus effectively producing the wrong result \( \frac{1}{2} \) for the particular equation which is not intemporal preservational (not ontologically ontological-normalcy/postconvergence) and likewise for all other equation where A’s condition applies, we’ll then be talking about an uninstitutionalised-threshold. The implication is that the registry-worldview/dimension then loses its qualification as being intemporally-preservational, and the psychological tool that is then elicited (from a prospective and new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation as articulated with the arithmetic technique that corrected the equation result from 7.5 to by adjusting for A’s condition which is now the reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing\textsuperscript{19}–reference/ontologically-veridical/ontological-contiguity\textsuperscript{67} registry-worldview/dimension) is known as de-mentation\{supererogatory–ontological–de-mentation-or-dialectical–de-\textsuperscript{67}mentation–stranding-or-attributive-dialectics\}. Even though going by its illusion-of-the-present/present-consciousness, the superseded registry-worldview/dimension will still wrongfully strive for a mental-devising-representation at that uninstitutionalised-threshold\textsuperscript{103} of ‘ontological-thinking (not preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism\textsuperscript{\langle stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase\rangle} which is ontologically wrong, just as all \textsuperscript{19}amplituding/formative–epistemicity\}totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness registry-worldviews/dimensions do at their uninstitutionalised-threshold\textsuperscript{103}. For instance, the recurrent-utter-uninstitutionalisation mindset/\textsuperscript{84}reference-of-thought doesn’t think of itself that way but rather as a nondescript/ignorable–void\textsuperscript{60} (actually speaking of akraisiatic-drag-denatured-and-preconverging-or-dementing\textsuperscript{19}-narratives) or a-registry-worldview’s-or-dimension’s-ignoring-of-its-prior-relative-ontological-incompleteness\textsuperscript{84}reference-of-thought-as-an-ontologically-flawed-neuterisation\textsuperscript{90}–or-bracketing-or-epoché of \textsuperscript{14}amplituding/formative–epistemicity\}totalising–conflated–meaningfulness-and-teleology\textsuperscript{100}–as-of-notional–deprocrypticism-reflected\textsuperscript{11}historiality/ontological-eventfulness\textsuperscript{17}/ontological-aesthetic-tracing\textsuperscript{<perspective–ontological-normalcy/postconvergence-reflected–’epistemicity–relativism-determinism’>} with respect to its threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{97}<as-to–’attendant–intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism>, and such a representation of its mentation is the invention/mental-devising-
representation of the base-institutionalisation mindset by its better ontological-completeness-of-reference-of-thought, likewise with ununiversalisation and universalisation, non-positivism/medievalism and positivism, and prospectively with procrypticism and deprocrypticism, we will certainly be hardly pre-inclined to acquiesce to a preconverging-or-dementing –apriorising-psychologism mental-devising-representation of our perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation with respect to the denaturing of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness. This insights perfectly highlight that our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t has any end to itself but for such dialectical readjustments to ontological-veridicality as ‘postconverging-or-dialectical-thinking’–apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought/candored-and-dialectically-or-contendingly-in-phase with regards to an intemporal-preservational registry-worldview/dimension institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and with superseded/transcended registry-worldviews/dimensions which are not intemporal-preservational at their uninstitutionalised-threshold as preconverging-or-dementing–apriorising-psychologism/oblongated/decandored-and-dialectically-or-contendingly-out-of-phase explaining the nature of mental-devising-representation of all institutional-cumulation/institutional-recomposure–(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism) whether from the perspective of a retrospect, our present or prospective point-of-reference. Another aspect
highlighted by the Arithmetic equation comparison is with respect to the appropriateness and
defects of meaningful references with respect to ontological-veridicality/intrinsic-reality. The

This subknowledging\textsuperscript{20}–impulse/compulsive-dementing\textsuperscript{19} disposition points out that the actual and given meaningfulness being subknownledged/pervertedly-represented is ontologically-veridical both registry-wise (soundness-or-ontological-good-faith/authenticity\textsuperscript{69}-of-reference-of-thought-wise) and logic-wise (the normal arithmetic operation of the BODMAS equation) as it is intemporally preservational and thus ontologically-veridical\textsuperscript{68}–reference-of-thought/ontological-contiguity\textsuperscript{67}. It is this pedestal that is the organic-comprehension-thinking (organicalism\textsuperscript{21}/intemporal-prioritisation-of-reference-of-thought\textsuperscript{22}–as-conflatedness\textsuperscript{22}–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{10}) pedestal, organic as it is both registry-wise (soundness-or-ontological-good-faith/authenticity\textsuperscript{69}-of-reference-of-thought-wise) and logic-wise striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. It is the superseding and intemporal pedestal for articulating ontological meaningfulness (intrinsic-attribution). The third pedestal as demonstrated involves the integrating and <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{13}
by temporal-dispositions both unconsciously (ignorance) and consciously (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) with A’s condition/sub-knowledging impulse as if it was ontologically veridical, and obviously leading to the wrong result thus failing/not-upholding-as-of-apriorising/axiomatising/referencing-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In the case with B it involved resolving the Arithmetic equation as if A’s condition was appropriate resulting in .5 which is ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity’ <shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>’ rather than which is ontologically veridical. This is the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism pedestal, as registry-wise it is not striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and so fundamentally its logical-contention is voided (as apriorising–registry precedes and defines logical pertinence), such that such a disposition that integrates subknowledging-or-mimicking-impulse/compulsive-dementing registry-worldview-wise/dimensional-wise speaks of the registry-worldview/dimension as in de-mentation–(supererogatory–ontological–de-mentation–or–dialectical–de-mentation–stranding–or–attributive-dialectics) at that uninstitutionalised-threshold. The fourth meaningful reference is actually a variance of the given organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of’–reference-of-thought–as-conflatedness–or–ontological-reprojecting/longness-of-register–or–meaningfulness-and-teleology) pedestal which is registry-wise and logic-wise pertinent. It is about the intellectual and virtue driven aetiologisation/ontological-escalation (as per this paper aim and other studies) in grasping the human ontological implications and articulating the-Good/understanding/notional~knowledge-

Comparatively, for instance, articulating new\textsuperscript{84}\textit{reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to resolve the uninstitutionalised-threshold\textsuperscript{103} from \textsuperscript{5.5} to the ontologically-veridical, and so not only with regards to the specific but as a de-mentative/structural/paradigmatic institutionalisation/intemporalisation for perpetuating intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This pedestalled articulation points out that the organic-comprehension-thinking (organicalism/\textit{intemporal-prioritisation-of- reference-of-thought}—as-conflatedness\textsuperscript{12}–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{19}) pedestal (ontological-veridicality/ reference-of-thought) is transversal/transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing\/\textsuperscript{102} and not actually in logical-congruence with both the subknowledging\textsuperscript{1}–impulse/compulsive-dementing\textsuperscript{19} pedestal (ontological-decandence/non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-preconverging-or-dementing –apriorising-psychologism/not-veridical-thinking-reference-rather-preconverging-or-dementing\textsuperscript{19}–reference) and the threshold-of–

So we then speak of an utter\textsuperscript{19}maximalising-recosposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation (not \textsuperscript{51}incrementalism-in-relative-ontological-incompleteness\textsuperscript{89}—enframed-conceptualisation) ‘ordered construct’ of the meaningfulness of the intellectual aetiologisation/ontological-escalation as the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-‘reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{100}) pedestal reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the registry/registry-worldview defects of both the subknowledging\textsuperscript{12}–impulse pedestal and the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{12} \textless{}as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing \textless{}apriorising-psychologism\textsuperscript{12} pedestal.

Ontologically-speaking, a temporal naivety with regards to psychopath and its protraction as social psychopathy is that going by the dynamism of its faulty-mentation-procedure-deception-or-urge\textsuperscript{12} towards ‘extrinsic-attribution’ (the eliciting of the temporality\textsuperscript{99}shortness of others is the sufficient basis for getting one’s way), is that the number of people ‘convinced’ by perverted extrinsic-attribution involving social-and-temporal-trading can have any bearing to the ontological-veridicality/intrinsic-reality in any way. While temporally-speaking,
psychopathic situations often lead to a country-of-the-blind-and-the-one-eye kind of scenario, wherein a thousand blinds may strive to convention out the one-eye, but then it wouldn’t still cut it, ontologically-speaking. (Certainly, it is equally and very possible that if such a one-eye isn’t beholden to a ‘sense of intemporality’ and it is rather temporally-inclined, it might equally take the easier route of reasoning in terms–as-of-axiomatic-construct of country-of-the-blind temporality/shortness whether with respect to temporally outdoing or undermining the phenomena by acting in a manner that is overall of a temporal/shortness-of-register-of–meaningfulness-and-teleology nature. But that will still be temporality/shortness and the notion of an aetiologisation/ontological-escalation as of intemporality/longness will no more be better advanced. Further beyond and more than just with respect to one case of psychopathy but as of intellectual-and-moral-inequivalence/non-correspondence construing the universal human social phenomena of psychopathic postlogism and conjugated-postlogism across space and time together with the bigger insight of grasping human nature and the overall possibilities thereof. Insightfully, as well it won’t be surprising that such a universal projection will possibly meet with a more protracted-and-protracting psychopathy and social psychopathy manifestation going by overall human temporal-to-intemporal mental-disposition existential-form-factor as varied temporal-dispositions come into the frame and are elicited, just as an intemporal projection within a non-positivism/medievalism setup aspiring for a positivistic registry-worldview/dimension-level resolutive construal of their corresponding postlogism -as-of- compelling–nonconviction/madeupness/bottomlining

like notions-and-accusations-of-sorcery and which is not palliative to a given situation will equally elicit a social protractedness of the phenomenon as varied temporal-dispositions come into the frame and are equally elicited. But then that is an inevitability with respect to the more critical universal projection low-life purposefulness in both meaningful-frameworks). Rather this then points to the nature of postlogic perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> with temporal-dispositions; (unconsciously) ignorance and (consciously) other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Ontologically, it is then the subject of contention and aetiologisation/ontological-escalation of the organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal, both in apriorising–registry and registry-worldview terms as it is reflected/perspectivated as de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). The critical reason for this is that the intemporal-disposition is rather inclined to be utter about intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the complete and sufficient stand for knowledge and virtue with anything else being denaturing much in parallel as intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t accommodate human temporality, and so will not even entertain involving in anyway with social-and-temporal-trading exercise which is non-ontological (since it is fundamentally a perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation, and has nothing to do with issues of defect-of-logical-processing-origine-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance). This can further be elucidated analysing perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of a different nature in a superseded registry-worldview/dimension like non-positivism/medievalism registry-worldview/dimension which should provide an even greater insight analysing from our present perspective, and we can then comparatively project this with respect to notional-deprocrypticism and procrypticism. For instance, accusations of witchcraft in non-positivism/medievalism societies are ontologically about subknowledging/perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as-of-unsoundness-or-ontological-bad-faith/inauthenticity-reference-of-thought/preconverging-or-dementing—apriorising-psychologism based on the fact that such societies didn’t develop and integrate notions of empirical and rational cause-and-effect positivistic ideas as reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (a mentation-capacity that further furthers the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as modern-day positivistic registry-worldview), as it universally informs the present positivistic worldview and thus the impossibility to sound intelligible in case such an accusation of witchcraft is made today. So structurally, the non-positivism/medievalism society is shaped-and-inclined to integrate and entertain phantasmagorical notions of someone being accused as a witch or sorcerer. We can garner a similar insight just as with the ‘disambiguation of notional–firstnatedness—temporal-to-intemporal-dispositions—so-construed-as-from-
perspective–ontological-normalcy/postconvergence> as ontological-escalation/aetiologyisation’ above, where supposed an intemporal mindset/reference-of-thought who is in a non-positivism/medievalism society was to be accused of witchcraft by someone inclined to accuse people of witchcraft (because of a pathological-condition/subknowledging\textsuperscript{13}–impulse/compulsive-dementing\textsuperscript{19}) and who obviously is wrong, as we know today that the notion of witchcraft is ontologically unsound and ridiculous as the ability to perform magic and the like by anyone cannot be demonstrated veridically. The disposition to accuse people of witchcraft will be the subknowledging\textsuperscript{13}–impulse/compulsive-dementing\textsuperscript{19} pedestal. The disposition to entertain and further exploit such situations (as anthropologists perfectly understand the abhorrent role of such notions as witchcraft in the social-stake-contention-or-confliction of non-positivism/medievalism societies) in conjugation of temporal-dispositions that are \textsuperscript{104}universally-recurrent or \textsuperscript{105}universal across all times (postlogism\textsuperscript{17}-slantedness, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) is the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \textsuperscript{-}as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism\textsuperscript{19} pedestal which is rather an extricatory preconverging–dementating/structuring/paradigming (of the situation, to fulfil temporal inclinations or distractive-temporal-prioritisaton and not intemporal preservation); given the lack of a social universal-transparency\textsuperscript{11}-(transparency-of-totalising-entailing,-as-to-entailing-\textsuperscript{45}<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) of the idea that the notion of witchcraft is bogus, with corresponding lack of perceived untenability/internal-contradiction/internal-incoherence/institutional-constraining of such a notion, thus a collective-consciousness that doesn’t register it as preconverging-or-dementing\textsuperscript{10}–apriorising-psychologism (as we do today) and finally, no ontological alienating
reason for not believing, endemising and enculturating the phenomenon of witchcraft. The organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’–as-conflicatedness‘-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology‘) pedestal will rather be an inclination to see that the lack of empirical and rational reference-of-thought–categorical-imperatives/axioms/registry-teleology‘, for intemporal-preservation-entropy-or-contiguity–or-ontological-preservation of the non-positivism/medievalism registry-worldview/dimension is actually, in the bigger scheme of things, what is at the basis of not only the ‘one locale accusation of witchcraft, specifically so with this individual but its general integration as a socially viable and entertained notion in this locale’. But more critically, from its intemporal/ontological/social/species/‘universal/transcendental/’maximising-recomposuring-for-relative-ontological-completeness‘—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigmating to be intemporally-preservational, more than the notion of just attaining only to the ‘one-locale’ accusation of witchcraft, for the intemporal mindset/’reference-of-thought in organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’–as-conflicatedness‘-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology‘) the problem is now the insight about the intellectually and morally wrong in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of accusation of witchcraft and the implications across all societies of the human species qualified as non-positivism/medievalism, with the bigger ontological implications of this specific accusation rather being how is this enlightening de-mentatively/structurally/paradigmatically about the endemisation and enculturation of vices-and-impediments‘ associated with superstition in the said registry-worldview/dimension. That is, the problem is now about the aetiologisation/ontological-escalation that can be made to address such lack of positivistic
empirical and rational notions in all possible human societies qualified as non-positivism/medievalism. In other words, the graver 'de-mentation' (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) problem' for the organic-comprehension-thinking (organicism/’intemporal-prioritisation-of-reference-of-thought’–as-conflicatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology)’/’intemporal-prioritisation-of-reference-of-thought’–as-conflicatedness-or-ontological-reprojecting pedestal is ‘why is society non-positivism/medievalism, and it is not in ‘mentation equivalence’ with a subknowledging–impulse/compulsive-dementing mindset/ reference-of-thought pedestal accusing it of witchcraft and the specific locale where such an accusation is made in threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to-’attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism)/temporal prioritisation pedestal that entertains notions of witchcraft (as the intemporal mindset/ reference-of-thought is thus anecdotally ‘boxing far below its weight’). Rather it is about articulating a comprehensive de-mentative/structural/paradigmatic dialecticism reasoning-through/utterion (not reasoning-with incrementalism-in-relative-ontological-incompleteness)—enframed-conceptualisation with temporal-dispositions mindsets) between non-positivism/medievalism and positivism for prospective ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring away from the vices-and-impediments of a non-positivism/medievalism superstitious mental-disposition towards a prospective positivistic mental-disposition which is the virtue that is the ‘de-mentative/structural/paradigmatic resolution’ to the superseded registry-worldview/dimension not only superstitious specific vices-and-impediments but equally critical the overall de-

With this insight the ontological ‘terms of reasoning’ of the subknowledging-impulse/compulsive-dementing pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing–apriorising-psychologismly striving to establish whether the accused is involved in witchcraft; the ‘terms of reasoning’ of the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing–apriorising-psychologismly striving to establish and examine whether the accusation of witchcraft is true or not, with all the implied existential implications meaningfulness in both cases; and the ‘terms of reasoning’ of the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) will be to be dismissive of the two prior pedestals as in de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) and of preconverging-or-dementing–apriorising-psychologism<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> since in reality the elements of their apriorising–registry are perverted (implied–logical-dueness–as to accusation of witchcraft, implied-profile, implied-presumptuousness/arrogation, implied-assumptions, implied-value-reference and implied-teleology), and the issue will rather be about reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow

This involves maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as enabled by de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) in disambiguating the intemporal-disposition as ontological and temporal-dispositions at the individuation-level; while at the registry-worldview/dimension-level it reflects the determination of the relative registry-worldviews/dimensions as of relative-ontological-incompleteness—of—reference-of-thought and relative-ontological-completeness—of—reference-of-thought. The implication is that soundness-or-ontological-good-faith/authenticity—of—reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (ontological-normalcy/postconvergence). There is no doubt that if by some secret manner ‘some individuals from recurrent-utter-uninstitutionalisation registry-worldview/dimension’ were to appear and be able to live in our present positivistic social-setup (without us knowing beforehand that they are coming from the past to avoid inducing a confounding effect in our analysis), and intent on fully living based on the reference-of-
thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—ontological-preservation of the recurrent-utter-uninstitutionalisation setup, our current psychology science most probably will treat them as pathological (preconverging-or-dementing—apriorising-psychologism). At which point, implying the conceptualisation of such an ontological-mental-pathology or de-mentation (in contrast to a physiological mental pathology) is much more a question of ‘ontology valour’ (ontology valour being defined as a registry-worldview’s/dimension’s ontology depth in relation to its conventioning limitations with respect to pure-intemporal-ontology as to ontological-normalcy/postconvergence). But then, crazy as it may seem, this extends ontological-mental-pathology or de-mentation conceptualisation, on those very same terms of ontology valour, not only retrospectively but equally prospectively, as from a prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (with a corresponding insight about how we may be that preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> from such a prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’s reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—ontological-preservation (of course, that is, when occluding our illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage) herein construed as the prospective protensive-consciousness deprocrypticism—or-preempting—disjointedness-as-of—reference-of-thought registry-worldview/dimension. In the bigger picture, de-mentation(supererogatory—ontological—de-mentation—dialectical—not-mentation—stranding—or-attributive-dialectics) effectively will seem to place human {cumulated/recomposured}-consciousness-awareness-teleology in the backseat with ontology-in-its-inherent-dialectical-abstraction taking the frontseat in the articulation of intrinsic reality and correspondingly human mental-devising-representation.
Actually, registry-worldviews/dimensions are rather prospectively amplituding/formative wooden-language-imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology of their own specific evolving successive existentialisms (with their full-depths-of-existential-implications specific evolving preconverging—dementating/structuring/paradigmig), and with specific evolving percolation-channelling—deferential-formalisation-transference for prospective ontologising and ontologising-transcendence-and-sUBLImity/sublimation/supererogatory—de-mentativity. Fundamentally, without the possibility of de-mentativity-of-the-human-psyche—for-prospective-institutionalisation involving de-mentation (supererogatory—ontological—de-mentation—dialectical—de-mentation—stranding—or-attributive-dialectics), no registry-worldview/dimension will be transcendable (hence de-mentable—as-to-a-threshold-of-lack-of-thinking) for prospective institutionalisation. As it is from de-mentation (literally ‘de-mentation’) that an unshackling/recomposuring/reordering/new-mentation of prospective intemporal-preservation-entropy—or-contiguity—or—ontological-preservation reference-of-thought—categorical-imperatives/axioms/registry-teleology is possible. This is because de-mentation (supererogatory—ontological—de-mentation—dialectical—de-mentation—stranding—or-attributive-dialectics) as such allows for a ‘human mentation capacity renewal’ by transcendence-and-sUBLImity/sublimation/supererogatory—de-mentativity (as it is by cumulation/reordering/recomposuring the prior institutionalisation mentation-capacity for a contiguous upholding of intemporal-preservation-entropy—or-contiguity—or—ontological-preservation that transcendence-and-sUBLImity/sublimation/supererogatory—de-mentativity occur) of the ‘veridical reference-of-thought of meaningfulness’ since it dents the mental-devising-representation of the old/retrospective/superseded/transcended registry-

{supererogatory—ontological—de-mentation—or-dialectical—de-mentation—

that unlike the other terms it ‘beats’ the ‘intuition for intradimensional/non-transcendental/non-

requisite transdimensional/transcendental reasoning that achieves ontological-
normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-
preservation-entropy-or-contiguity—or—ontological-preservation); as this counter-intuition for
transdimensional reasoning (which is not easily superseded and not even by this author
articulating the notion but for this abstraction insight) is basically due to the subconscious-strength of the ‘intradimensional-subknowledging’-normalcy’ (epistemic-totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) reference of personhood-and-socialhood-formation existentialism/full-depth-of-existential-implications such that the other notions will tend-to-get-lost-down-the-line by unconsciously returning to and/or admitting to the wrong intradimensional reflex-conceptualisations, at one point or the other, and so in lieu of and undermining the ontological-veridicality of the effectively veridical transcendental reality. \[\text{de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics)}\] ‘beats’ this counter-intuition by simply and immediately bringing to the mind an ‘overarching conceptualisation’ of a \[\text{de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics)}\] of superseding/transcending registry/registry-worldview-or-dimension (as straight/candored-and-dialectically-or-contendingly-in-phase) and a superseded/transcended registry/registry-worldview-or-dimension (as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); around which all other dynamic constructions fall in place (whether organic-comprehension-thinking or threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism), circumventive/distractive-temporal-prioritisation-of–reference-of-thought, subknowledging—impulse, etc.). The other deconstructing terms while having specific analytical bearings do not carry this all-encompassing quality that liberates from ‘intradimensional-subknowledging’-normalcy’ (epistemic-totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) as \[\text{de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics)}\] does as it further induces ‘transdimensional or memetic thinking’ by
its implied de-mentation\(\{\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics}\}\) in meeting up with ‘ontological-normalcy/postconvergence’ (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). For instance, while the term registry-worldview’s/dimension’s-uninstitutionalised-threshold \(\{\text{defect-<as-Being-or-ontological-or-existential–defect>}\}\) brings to the mind a poor ontological disposition like the other BODMAS characters disposition to systematically operate additionality overlooking A’s condition, but it is a sense of de-mentation\(\{\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics}\}\) that carries the intuition of an uninstitutionalised-threshold \(\{\text{defect-<as-Being-or-ontological-or-existential–defect>}\}\), and construes a superseding/transcending registry/registry-worldview-or-dimension and a superseded/transcended registry/registry-worldview-or-dimension, and all the implications thereof. Now analysing the registry-worldview’s/dimension’s-uninstitutionalised-threshold \(\{\text{defect-<as-Being-or-ontological-or-existential–defect>}\}\) term thereafter, we grasp that it is the ‘\(<\text{amplituding/formative–epistemicity>totalising–self-referencing-syncretising}\>\) in ‘notional-discontiguity/epistemic-discontiguity’ \(<\text{shallow-supererogation} \text{-of-mentally-aestheticised–preconverging/dementing–qualia-schema}>\) of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of the perversion-of-reference-of-thought\(\{\text{as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}\}\) as to preconverging-or-dementing \(\{\text{apriorising-psychologism}\}\) that makes it registry-worldview’s/dimension’s-uninstitutionalised-threshold \(\{\text{defect-<as-Being-or-ontological-or-existential–defect>}\}\) (and not about defect–of-logical-processing-or-logical-implication–supposedly-apriorising-in-conviction-as-to-profound-supererogation\(\}\)) and this carries the implications of a registry-worldview/dimension defining defect (in a dialectics of
prior/transcended/superseded and prospective/transcending/superseding \textsuperscript{84} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Specifically, de-mentation\textsuperscript{14} \{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\} as such implies registry-worldview’s/dimension’s-uninstitutionalised-threshold \textsuperscript{19}–defect–<as-Being-or-ontological-or-existential–defect>\textsuperscript{86}/not-just-a-logical-processing-or-an-implicitation-of-act-execution-or-a-implicitation-of-notion-of-agreement-or-disagreement-defect’ wherein we can perceive the complete picture of a registry-worldview/dimension defect by its relative-ontological-incompleteness\textsuperscript{27}-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supерerogation -<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism’ like recurrent-utter-uninstitutionalisation (with respect to base-institutionalisation), ununiversalisation (with respect to \textsuperscript{104} universalisation), non-positivism/medievalism (with respect to positivism) and our own dimension procrypticism’s (the-‘preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism of positivistic-meaningfulness) de-mentation \{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\} (with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of prospective deprocrypticism). A similar articulation can be made with regards to each of the other deconstructing terms where de-mentation\textsuperscript{14} \{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\} provides the better overarching conceptualisation from an ‘intemporal-prioritisation-of– reference-of-thought’–as-conflatedness\textsuperscript{1}–or-ontological-reprojecting reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing\textsuperscript{19}–reference). That is, de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is effectively the notion that, in recognition of the unchanging, preceding and inherent nature of intrinsic-reality with respect to the human psyche (and its mental-devising-representation of intrinsic reality) which is what ‘gives-in’/collapses ontologically/as-an-ontological-reference; enables, for the articulation of new mentations as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, the ‘giving-in’/collapsing of the mental-devising-representation of successive institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’> mindsets, notwithstanding the fact that the de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) (of their reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is unintelligible/existentially-suprastructural to these superseded/transcended registry-worldviews/dimensions mindsets due to their <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage disposition. Supposed we were to make a profound analysis of our contiguous human mental-devising-representation/consciousness-awareness-teleology (in-dialectical/recomposuring-moments) from the appearance of human beings on earth, the effective linkage as new-mentations between those successive recomposuring moments (whether recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism-or-medievalism, positivism–procrypticism and prospectively perpetuation-of-deprocrypticism) is as de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics) in (supererogatory-ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics); and this thus predicates or rather postdicates as well our own registry-worldview/dimension (de-mentionation)
(supererogatory-ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics) over and as denaturing positivistic meaningfulness reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (procrypticism) and implying a prospective need for deprocrypticism. Postdication, when alluding to an (de-mentionation)
(supererogatory-ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics) defining psychological science, will effectively hold that the conceptualisation of the social is very much a contiguous ontological disambiguation of a preconverging-or-dementing–apriorising-psychologism social of personhoods-and-socialhood-formation in existentialism/full-depth-of-existentiaipa-impllications of notional–firstnaturedness—temporal-to-intemporal-dispositions--so-construed-as-from-perspective–ontological-normalcy/postconvergence>, from a prospective registry-worldview’s/dimension’s reference-of-thought in ontological-normalcy/postconvergence. Postdication means reasoning from a basis of ontological-normalcy/postconvergence wherein the prior/transcended/superseded registry-worldview/dimension is no longer referenced/registered/decisioned (as reference-of-thought) but ‘dialectically preconverging-or-dementing–apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought’ while the prospective/transcending/superseding registry-worldview/dimension is referenced/registered/decisioned (as reference-of-thought) as ‘postconverging-or-dialectical-thinking –apriorising-psychologism/soundness-or-ontological-good-faith/authenticity–of–reference-of-thought’ in construing meaningfulness. The grander issue that always arises is in existentialism terms, whether with regards to an obvious human
disposition for temporal-accommodation as circumventive/distractive-temporal-prioritisation-of-reference-of-thought of being-and-existence as conceptualised within the successions-of-existing-in-human-life-spans or rather an abstract eternal-projecting disposition of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting wherein the articulation of meaning, being and existence is in existentialism-terms intemporally-driven on the basis that that which is in need of transcendence-and-the-intemporal (the temporal) cannot be seen-as-or-made-a-reference-of-intemporal/ontological-thought, and that it is exactly for that reason that human progress has been and will remain dialectically possible. That is, the reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) can only be the pedestalling of an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting as ontology with regards to apriorising–registry, contrasted to a circumventive/distractive-temporal-prioritisation-of-reference-of-thought-reference implying a perverted-registry reflected/perspectivated by its de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics). Where the natural world is resolute with no compromise with the operation of such a notion as 1+1=2, the same cannot be resolutely affirmed in the human social-and-temporal-trading in the social world where on occasions 1+1 will add up to 5 where the effective constraining of institutionalisation is lacking. de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) (stranding) has the merits of articulating that for reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) to establish veridicality, no such social-and-temporal-trading is beyond ontological-entrapment ‘by re-institutionalisation with new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation dialectically implying an de-mentation (supererogatory–ontological–de-mentation-or-
