Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability\(^2\) method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability\(^2\), validation and open-ended questioning can be
undertaken over it. Such a hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojecting/supererogating/zeroing insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes more-or-less similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-
mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at their apathetic threshold as these rather develop into denaturing\textsuperscript{16} \textsuperscript{16}amplituding/formative\textsuperscript{8} \textsuperscript{8}wooden-language-{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-

<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness⟩ arises such that there is nothing that transparently renders someone ridiculous from fiddling around ‘wrongly implying apriorising/axiomatising/referencing meaningfulness-and-teleology as of existence’ not only out of good-naturedness (‘technical’ ontological-bad-faith/inauthenticity) or ontological-good-faith/authenticity but equally ontological-bad-faith/inauthenticity (in spirit). In this

in many ways it is hardly the case that the priority is obsession with such intellectual

natural sciences are ‘naturally’ constrained by the stronger manifestation for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s amplitied/formative wooden-language—imbued—temporal—mere—form/virtualities/dereification/akrasiatie-drag/denatured/preconverging—or—dementing narratives—of—the—reference—of—thought—categorical—imperatives/axioms/registry—teleology with asceticism does exist as has existed throughout sublimating the historiality/ontological—eventfulness/ontological—aesthetic—tracing—perspective—ontological—normalcy/postconvergence—reflected—epistemicity—relativism—determinism since even the natural sciences practices arose out of the profound asceticism stances against their initial societal predispositions of presencing—absolutising—identitive—constitutedness. Actually the projection of values including intellectual values in such syncretising/circularity/interiorising/akrasiac-drag are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology; given that virtue is rather as of the-Good/understanding/notional—knowledge-reification—gesturing—exercise!

In this regards the transcendental/transvaluating conception of aporeticism overcoming/unovercoming is of existential comprehensiveness and cannot be just about the physical world without social world implications and vice-versa as so-underlined with the fact that both are for-human-studies/for-human-constructs epistemic-projection by the underlying fact that these are the very same human-subpotency sublimation implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility {imbued-and-

conceptualisation of the social-construct as of the universalising but non-positivism–medievalism preclusive-consciousness’), and the possibility for the further advancement of such ‘material sciences as to cumulating/recomposuring positivism/rational-empiricism’ rather arises from the corresponding effectively enabling ‘cumulating/recomposuring positivism/rational-empiricism social-values’ like freedom-of-speech, opened communication, etc. availing as of the transcending positivism/rational-empiricism occlusive-consciousness. Likewise, it is herein contended that the future possibility for the natural sciences advancement is inseparable from the possibility of social and social-organisational advancement as of prospective human aporeticism overcoming/unovercoming as to the prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought protensive-consciousness induced Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology and so over our present procrypticism–or–disjointedness-as-of-reference-of-thought occlusive-consciousness; and in effect this conjoint-epistemic-relationship-and-fate in the conceptualisation of the material and social world is even confirmed today as with the social and social-organisational framework that underlied and was necessary for most of the scientific and technological advances after the second-world war. Basically, dimensionality-of-sublimating ⟨amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ as such reflects the successively induced originariness-parrhesia,–as–spontaneity-of-aestheticisation specific ‘constructiveness-by-destructuring cut-offs/thresholds of human ontological-performance’-<including-virtue-as-ontology>’ so-construed as of notional–protensive-consciousness (trepidatious-consciousness/warped-consciousness/preclusive-consciousness/occlusive-consciousness/protensive-consciousness) implications; and as eliciting any such prospective specific construction-of-the-Self and its

Furthermore, besides the conceptualisation articulated herein, what vindicates this idea of apriorising/axiomatic/referencing intellectual break/schism/estrangement is effectively that the possibility for prospective meaningfulness-and-teleology is associated with a renewed framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology which is in ‘affirmation/projection by its underlying supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation’ to the superseded framework of prior ontologisation/ontological-veracity/aestheticisation-towards-ontology prospectively disontologising as unaffirmed/deprojected; as to the possibility of the recovery of dimensionality-of-sublimating.<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-

(conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) prospectively, disentangled from ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’.

After many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

The psychopath overemphasises in a consciously active manner the empty forms of prosody in-of-themselves first and over the intrinsic attributive essence of meaning like overemphasising the toning form (toning triggering) and the supposition form (presumptuousness) in their expressed deductive reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised spontaneously when naturally expressing profound/deep conviction

Mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting–conviction-as-to-profound-supererogation–of-attendant-intradimensional–postconverging/dialectical-thinking–apriorising-psychologism interlocutors, and so along five factors

fundamental construal about the conceptual-and-institutionalisation-phenomena has to do with how any and all conceptualisations and meaningfulness harken back to ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’

preconverging-or-dementing–apriorising-psychologism as thus implied can be defined as reflecting/perspectivating/highlighting of the deficient mental-devising-representation (as so-referenced from ontological-normalcy/postconvergence so-construed as in prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as to suprastructural proxying of intrinsic-reality), beyond the deficient mental-devising-representation intradimensional representation of meaningfulness-and-teleology

fundamentally it is impossible to conjugate/inflect/protract intemporality/longness out of demonstrated temporality/shortness (notional-discontiguity/epistemic-discontiguity<<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>) as then one is just in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and wrongly implying the registry-worldview/dimension is beyond transcendence-and-sublimity/sublimation/supererogatory–dementativity or is non-transcendable

‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting points out that conventioning constructs like sub-par/formulaic-association/temporal/alibi conventioning-rationalising do not supersede the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/intrinsic-veridicality, as may be naively advanced with circumventing/distractive-temporal-prioritisation-of-reference-of-thought

we don’t have absolute mentation capacity and the most intemporal of our dispositions should take pride of place in defining our achievement motives whether as philosophies, causes, skillsets and talents in our value and valor aspirations

transcendental institutionalisation is basically an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/intemporal-preservation preemptive conceptualisation

articulating a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposing possibilities for transcendental institutionalisation/intemporalisation of deprocrypticism

ontological-normalcy/postconvergence in precedingness points out that at registry-worldview/dimension-level ontology as the transcending dimension is veridically an utter organicism (organic-comprehension-thinking)

Entropy as defined (‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation’) relates that the intemporal-preservation-institutionalisation entropy is the
preceding-and-defining reference for the hermeneutic-referencing of the ontological meaning of all other associated conceptualisations and notions

‘referentialism’ which makes reference to the supersedingness/precedingness of the ‘intemporal preservation institutionalisation/intemporalisation entropy/contiguity’ before articulating concepts and notions in referential and organic elucidation of the entropic construct. Referentialism as such is actually central to the spontaneity required in hermeneutics

each registry-worldview/dimension is only capable of the virtue reflected by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation

a defect of postlogism/psychopathy compelling–nonconviction/madeupness/bottomlining

Reality being blunt/incisive as it is rather preceding/superseding and ontological-normalcy/postconvergence with respect to us, is in essence of potent operant and deterministic phenomenality that doesn’t have any place for our thresholding discrete incrementalist-in-relative-ontological-incompleteness—enframed-conceptualisation notions
‘traditionally 4 human mental projections/representations/dispositions’ associated with virtuous de-
mentative/structural/paradigmatic construct

Human mental development across time validate the notion that we have consistently been in a state of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring

two dilemma with respect to the conceptualisation of virtue

intemporal-preservation is a memetically/psychoanalytically evasive construct at uninstitutionalised-threshold, the pursuit of which is veridically the human species eudaemonic contemplation

‘human progress/transcendence happens as a matter of fact, with no registry-worldview/dimension having any ontological and veridical claim/pretence to extricate itself from psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring—as-dialectical-stranding-backdrop-for-prospective-transcendence

Stranding (of-perverting-temporal-dispositions-of-reference-of-thought) should be construed at a registry-worldview/dimension’s uninstitutionalised-threshold (the threshold where the registry-worldview/dimension is failing/not-upholding—<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or–ontological-preservation)

There is no reason for de-mentation—(<supererogatory–ontological–de-mentation-or-dialectical–de-
mentation—stranding-or-attributive-dialectics) and recompositing but for the fact that the internal coherence of a registry-worldview/dimension is failing/not-upholding—<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or–ontological-preservation at its uninstitutionalised-threshold

ontological construct ‘escalates’ specific/particular instances of phenomena (in this case psychopathy and social psychopathy phenomenon) into a universal conceptualisation which ‘knowledge principle conceptualisation’ then addresses (percolates into) the ‘infinity of related incidental phenomena and cases’
the concepts of intemporality/longness and temporality/shortness is more scientific than the impression notions of good and bad

The use of ‘human mental-dispositions/individuations’ as of notional—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> herein doesn’t mean ontologically that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal

By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness whether the intemporal-disposition individuation-pedestal or the temporal-dispositions individuations-pedestals

‘Unconscionability-drag’ (from an ontological/intemporal reference) refers to the comprehensive state of undisambiguation of temporal-dispositions individuation-pedestals which are wrongly associated to the intemporal-disposition as being ontologically-veridical as these conjugate/inflect/protract (in mimicking-protraction)

at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding as of positive-opportunism—of-social-functioning-and-accordance’

‘unconscionability-drag’ carries the resolution for disambiguating reference-of-thought in the ontological social construction of meaning

Unconscionability-drag (enabling ontological reference), by which the perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-perversions teleologies of meaning is accounted for

‘an ontological psychoanalytic/memetic-contiguity deconstruction across anthropology’ which the present treatment of psychology doesn’t recognise

Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporal) is not necessarily the deterministic basis for human social adherence to it

an exercise in institutionalisation/intemporalisation beyond just intemporal philosophical projection is needed for the social integration of any transcending veridicality postconverging—dementating/structuring/paradigming

‘conventioning’ is not wholly antipodal to ‘ontologising/intrinsic-veridicality’ as the latter prospective integration in the social-construct is through the former

Institutionalisation and formalisation are based exactly on the fact that we don't have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’...Solipsism means I exist alone (as to the epistemic perspective with respect to intrinsic reality/ontological-veridicality)...

- ‘Ctrl + Click’ (on any hyperlinked superscript) for the elucidation of the given term
- ‘Alt + Left-Arrow’ to go back to the previous location in the document (that is precisely at the clicked hyperlinked superscript location)
- ‘Alt + Right-Arrow’ to go in the reverse direction again
- Also the darkened text elaborates upon the immediately prior text and is darkened (to point out its interjecting nature) in order to ease the ‘continuity readability’ of long phrases/sentences while at the same time striving herein for ‘a most profound and extended articulation of exactifying/precisioning–of-sublimation<as-to-entailing-theoretical,-conceptual-and-operant-implications>’

existentialising/contextualising/textualising-contiguity\(^1\); blurriness thus fundamentally speaks of a ‘closed-minded unilateral-conceptualisation-of-knowledge’ wherein the human Self is wrongly construed as of a presencing—absolutising-identitive-constitutedness\(^2\) reference for the conception of knowledge rather than reflecting ontological-veracity with an ‘open-minded bilateral-conceptualisation-of-knowledge’ wherein the human Self itself has to prospectively be developed/constructed-out-of-its-prior-shiftiness-of-the-Self\(^2\) in ‘epistemic-conflatedness’\(^3\) construed as epistemic-ricochetting/transepistemicity construct’ (so-construed as projective-insights) to then be able to register the entailing implications of prospective knowledge (so-construed as predicative insights), in the sense that for instance without implying the need for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as of prospective positivism construction-of-the-Self/self-consciousness a non-positivism mindset as animistic or as medieval in its non-positivism ‘closed-minded unilateral-conceptualisation-of-knowledge’ (thus lacking the positivistic projective-insights as of apriorising/axiomatising/referencing–psychologism) will only end up ‘complexifying the mechanical outcome of positivism—meaningfulness-and-teleology\(^4\) on the basis of its non-positivism as animism or as medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as implied in an animistic God-of-plane type of articulation and this applies likewise with our positivism–procrypticism with respect to prospective deprocrypticism, as this is exactly what explains the
‘ontological/knowledge uncertainty’ inherently implies human sovereign choices and options are then necessarily of ‘ought indeterminacy’ as of prior relative-ontological-incompleteness\(^9\) but prospective relative-ontological-completeness\(^8\) with respect to prospective knowledge implications provides the ‘ontological/knowledge certainty’ to turn such prior ‘ought indeterminacy’ into ‘is determinacy’ whether this prospective ‘is determinacy’ transformation carries with it the given prospective knowledge acceptance, rejection or any other qualified attribution associated with the prior ‘ought indeterminacy’) given that the prior registry-worldview/dimension reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation specific elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation—outside—attendant ontological-contiguity—\(^{-}\)educed—existentialising/contextualising/textualising-contiguity\(^{10}\) reaches its ‘is determinacy’ limits of analysis from whence its ‘ought indeterminacy’ arises at its destructuring-threshold\(^{(\text{uninstitutionalised-threshold /presublimating–desublimating–decisionality})}\) of-ontological-performance\(-<\text{including-virtue-as-ontology}>\), speaking of an issue of relative-ontological-incompleteness\(^9\) that is only resolvable by the very fact that prospective relative-ontological-completeness\(^8\) changes the prior ‘ought indeterminacy’ as of prior normativities/conventions/practices into the prospective registry-worldview/dimension ontologically-veridical ‘is determinacy’ as reflected in renewed normativities/conventions/practices as to prospective
institutionalisation, and in this regard we can appreciate how medieval-scholasticism non-positivism reference-of-thought-level pedantic dogmatism ‘ought indeterminacy’ emphasis gave way to the positivism/rational-empiricism scientific cause-and-effect ‘is determinacy’ emphasis or how Ancient-sophists non-universalising ‘ought indeterminacy’ gave way to the universalising-idealisation ‘is determinacy’ of Socratic-philosophers or how notions like cannibalism, various practices of slavery and serfdom, etc. in human history as of ‘ought indeterminacy’ of their practices in relative-ontological-incompleteness gave way to the present ‘is determinacy’ of their rejection as of relative-ontological-completeness on the basis of human-subjectemancipating-relativism-driven-recomposuring-constructivism-towards singularisation-prospective nonpresencing blurriness as of disparateness-of-conceptualisation unforegrounding-disentailment, failing to reflect ‘immanentontological-contiguity’ highlights that the destructuring-threshold-uninstitutionalised-threshold presublimating desublimating-decisionality of ontological-performance including virtue-as-ontology of all registry-worldviews/dimensions are deadend of meaningfulness-and-teleology with the implication that without originariness-parrhesia, as spontaneity-of-aestheticisation renewing of reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation there is basically no chance for non-universalising Ancient-sophists ever getting to universalising-idealisation, medieval-scholastics pedantic dogmatism ever getting to

possibility for pseudo-analysis or later retraction, and generally in this respect science at its ‘breakthrough-level of scientific accounts’ is rather of relatively high inexactitude/tolerances as nascent scientific conceptions even within say the physics domain are contested, with the critical notion of science-in-practice rather being about ultimate aspiration to continually converge towards more and more exactifying/precisioning–of-sublimation–<as-to-entailing-theoretical,-conceptual-and-operant-implications> scientific accounts); but then human limited-mentation-capacity-deepening as to aestheticisation–and–aestheticisation-towards-ontology necessarily priorly conforms to existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation–<as-to-perspective–ontological-normalcy/postconvergence-implied–’prospective-aporeticism–overcoming/unovercoming’> (and so over any human-subpotency institutionalising conceptions like philosophy and science), and in the bigger picture in this regards the institutionalised conception of philosophy for instance is a distorted Western metaphysics-of-presence–⟨implicated–’nondescript/ignorable–void ’-as-to–presencing–absolutising-identitive–constitutedness⟩ notion of the more universal concept of overall human knowledge (pure and simple), with the flaw that speaking of say non-Western philosophy is a misnomer so-construed as ‘a distorted and undue epistemic intercession of supposed Western philosophy as a reference point of conception into any non-Western society aestheticisation–and–aestheticisation-towards-ontology notion of

universal human rights supererogatorily becomes more and more profound as from say the Socratic-philosophers (even as slavery, class-seclusion and female-seclusion was prevalent as to warped collateralisation), budding-positivists (even as in many ways the practices of serfdom/slavery, social-class discrimination and female-discrimination were equally prevalent as to preclusive collateralisation) and today’s supposedly universal conception of human rights (even as it is marked by occlusive collateralisation of other peoples, cultures and nations as well as gender and age occlusive collateralising biases); actually the specific sense and general sense are thus linked on the basis that both imply totalising-entailing with the specific sense speaking of totalising-entailing as to the specific universalisation registry-worldview/dimension ‘when mankind initially consciously cognised that the profoundness of meaningfulness-and-teleology should be totalising-entailing but without necessarily differentiating such a conception of totalising-entailing between mythological and positivistic/rational-empirist totalising-entailing with both construed as universal ‘meaningfulness-and-teleology’, while the general sense of universal implicitly captures and exactifies/precises the conception of totalising-entailing in terms of ‘entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness’ as reflecting the implication of human limited-mentation-capacity-deepening as to the ‘notionalisation/notional-conception/amplituding of totalising-entailing so-reflected by the ontological-contiguity—of-the-human-institutionalisation-process’ (along the same lines as

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ predisposed human mind’ so-reflected as prelogism -as-of-conviction,-in-profound-supererogation -<existentially-veridical-‘attendant-inradimensional-apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> and so-construed as of human candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation of–‘attendant-inradimensional’-postconverging/dialectical-thinking –apriorising-psychologism or prelogism where we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation of–‘attendant-inradimensional’-postconverging/dialectical-thinking –apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism as-of-conviction,-in-profound-supererogation -<existentially-veridical-‘attendant-inradimensional-apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at mind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-‘<decontextualising/de-existentialising–of-attendant-inradimensional–apriorising/axiomatising/referencing–induced-disontologising’–of-the–’attendant-inradimensional–ontologising’–imbued-<contextualising/existentialising/attendant-

Hence prelogism –as-of-conviction,-in-profound-supererogation <$existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought on which logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implicitation—
supposedly-apriorising-in-conviction-as-to-profound-supererogation can be well performed subsequently despite an initial failure or possible initial failures. Further, the dynamics of such a graduated human consciousness as of notional–conflatedness of notional–deprocrypticism can be reinterpreted operantly as of ‘notional–referentialism’ as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibility/setup/measuring/instruments are actually ‘various levels of failing to achieve the notional–deprocrypticism referentialism—

This explains why at uninstitutionalised-threshold which are subject to ‘meaningfulness-and-teleology neuterising’, prospective institutionalisation can only be achieved as of secondnatured constraining social universal-transparency ⟨transparency-of-totalising-entailing, as-to-entailing ⟨amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness⟩ that overcomes the given uninstitutionalised-threshold ‘meaningfulness-and-teleology neuterising’ thus enabling the ontological-normalcy/relative-ontological-completeness of reference-of-thought of the prospective institutionalisation. It also explains why naively implying at an uninstitutionalised-threshold that ‘the social universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ is universally attributable as if humans had only the intemporal/longness-of-register-of–meaningfulness-

As a further elucidation, a comparison can be made between a construct of ‘notional–referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal

We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness -of- reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of

apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition as this basically defines the possibility of institutionalisation within recurrent-utter-uninstitutionalisation as inherently non-existent. Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the ⟨warped-consciousness ⁵⁰ neuterising-induced⟩⁻⁵⁴ reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness for enabling intradimensional existential-instantiations derived/devolved axiomatic-constructs of ⁵⁰ meaningfullness-and-teleology ¹⁰⁰ as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue of base-institutionalisation. This insight extends to all <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions institutionalisations in construing their teleological-de-mentating/structuring/paradigming/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance ⁷⁴-<including-virtue-as-ontology> across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview’s/dimension’s ‘⟨reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness⟩ as its underlying ⁵¹ reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, individuals cannot all of a sudden start thinking in terms–as-of-axiomatic-construct enabled by a prospective registry-worldview’s/dimension’s institutionalisation ‘⟨reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness⟩; given that there is a need for the requisite institutional-cumulation/institutional-recomposure-{as-to-

attendant ontological contiguity in reification/dereification mental-disposition that can be cognisant-and-integrative in notional-contiguity/epistemic-contiguity with numerous existential circumstances reflecting the endemising/enculturating of non-positivistic superstition and its vices-and-impediments. The same applies from a notional–deprocrypticism perspective with regards to a procrypticism–or–disjointedness-as-of reference-of-thought mental disposition as an argument seeming to articulate meaningfulness-and-teleology in the same disjointedness-as-of reference-of-thought terms as axiomatic-construct by which the procrypticism–or–disjointedness-as-of reference-of-thought arises in the first place is in circular amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of the same centered–epistemic-totalisation/reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments as of that fundamental amplituding/formative–epistemicity totalising/circumscribing/delineating reference-of-thought–devolving-as-of-instantiative-context meaningfulness-and-teleology centered–epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in secondnaturaizing such a prospective institutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical reference-of-thought construction of
meaningfulness-and-teleology\(^{(10)}\), as of the <cumulating/recomposuring–attendant-ontological-contiguity>\(^{-}\)-succession of registry-worldviews/dimensions from the notional–deprocrypticism perspective construal/conceptualisation, as being ‘the most profound/complete reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’ grasp of intrinsic-reality/ontological-veridicality’ among all the registry-worldviews/dimensions as of its preempts—disjointedness-as-of- reference-of-thought, as-to–\(^{1}\)<amplituding/formative–epistemicity>\(^{-}\)-growth-or-conflatedness /transvalitative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism. Furthermore, within a registry-worldview/dimension for the disambiguation of notional–firstnatures—temporal-to-intemporal-dispositions,<so-construed-as-from-perspective–ontological-normalcy/postconvergence>, its reference-of-thought of meaningfulness-and-teleology\(^{(10)}\) as its apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument is its \langle\text{given consciousness’s neuterising-induced-or-deneuterising-induced}\rangle reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness, which by way of a différance/internal-dialectics/difference-deferral articulates the intradimensional relative ontological-veracity of all other intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology\(^{(10)}\) as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. Thus this is within the framework of the registry-worldview’s/dimension’s teleological-dementating/structuring/paradigming/teleological-possibilities; construed either in elevation-as-of-upholding-ontological-veridicality/institutionalisation as \(^{94}\)reference-of-thought–\(^{5}\)categorical-

It points out that ontologically-veridical meaningfulness cannot be construed beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication—of-existential-unthought> of a soulless nihilistic-teleology—<for-the-attainment-of-temporality/human-mortal-whims as it simply brings an end to the transcendental potential for

Such an approach to transcendentence-and-sublimity/sublimation/supererogatory—dementativity is exactly what validates transcendental knowledge as of a psychoanalytic-unshackling commitment and not a grounded knowledge-construct commitment; as an approach as of grounded knowledge-construct commitment that merely implies transcendentence-and-sublimity/sublimation/supererogatory—dementativity as being incremental to the prior registry-worldview’s/dimension’s reference-of-thought doesn't undermine/unshackle that prior reference-of-thought with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative—epistemicity—totalising—purview-of-construal’ as of the requisite undermining/unshackling by the prospective enlightenment of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative—epistemicity—totalising—purview-of-construal’ by the prospective registry-worldview’s/dimension’s reference-of-thought ontological-performance —<including-virtue-as-ontology> given its prospective relative-ontological-completeness\(^{64}\)—of reference-of-thought. Such notional–conflatedness for ontological-performance includes-virtue-as-ontology> implication is easily understood as of metaphysics-of-absence (implicated-epistemic-veracity–of–nonpresencing<perspective–ontological-normalcy/postconvergence>) when we grasp that a mindset as of a non-positivistic social-setup needs to ‘wean off organically beyond mere mechanical adjustments’ its non-positivism before the notion of ‘a credible logical engagement in terms–as-of-axiomatic-construct of positivism/rational-empiricism with a mindset as of a positivistic social-setup’ can be genuinely entertained. In this regard, the budding-positivists had to implied an utter break with medieval-scholasticism-pedants—ideal-type-or-individuation to avoid the circular problem of their positivism knowledge and science being interpreted in mystical and alchemic terms-as-axiomatic-construct of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Such a psychoanalytic-unshackling commitment equally highlights that the idea of a common

show the latter to be decentered and preconverging-or-dementing apriorising-psychoanalysis. As a further elaboration, the circularity and epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasia-drag mental-disposition attached to a registry-worldview’s/dimension’s reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument is fundamentally grounded on its teleological-de-mentating/structuring/paradigming/teleological-possibilities established as of its reference-of-thought—reference-of-thought—meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue. It is only a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in the medium to long-term that can transcendentally ‘wean off’ from such a teleological-de-mentating/structuring/paradigming/teleological-possibilities of a registry-worldview/dimension by habituating a prospective institutionalisation as of its reference-of-thought—and—reference-of-thought—meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue. Inherently, such ‘a psychoanalytic-unshackling commitment’ inevitably and fundamentally puts into question the axioms and underlying supposedly transcendental-enabling/sublimating/supernecessary–de-mentativity notion as of the (given consciousness’s \textsuperscript{57}neuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness of the prior registry-worldview’s/dimension’s \textsuperscript{84}reference-of-thought of \textsuperscript{57}meaningfulness-and-teleology\textsuperscript{100} which establishes its ‘grounded knowledge construct’, and so because of its denaturing \textsuperscript{4} of the prior institutionalisation’s \textsuperscript{54}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} by way of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity\textsuperscript{4}–educed–existentialising/contextualising/textualising-contiguity\textsuperscript{4} at the registry-worldview’s/dimension’s uninstitutionalised-threshold\textsuperscript{103} inducing prior relative-ontological-incompleteness\textsuperscript{98}–of–reference-of-thought in need for prospective relative-ontological-completeness–of–reference-of-thought, and so as a transitional construct that is in effect as of a psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring articulation by its crossgenerational transcendental implications projection. Such that such ‘a psychoanalytic-unshackling commitment’ cannot be construed in the same terms—as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior

thus rather implies an\(^ {15}\) de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–

about articulating ‘prospective positivism axiomatic-construct (occlusive-consciousness

in both instances that such psychoanalytic-unshackling commitment implications are not to be understood respectively as of the uninstitutionalised-threshold mental-dispositions of non-positivism/medievalism or procrypticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness which will just induce their mental-dispositions for non-transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, but rather as of a habituated mental-projection perspective from the prospective institutionalisations of positivism or notional—deprocrypticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness. Thus counterintuitively to metaphysics-of-presence conception, human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology , institutional-development—as-to-social-function-development and living-development—as-to-personality-development as ‘banally’ portrayed historically is not as of an expanding ‘grounded knowledge construct’ from time immemorial as of a wrong incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation mental-reflex as if humans have had only one ‘amplituding/formative—epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’. But actually the underlying process is one of ‘a psychoanalytic-unshackling as of a succession of prospective institutionalisations maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation construed from a succession of ‘amplituding/formative—epistemicity>totalising/circumscribing/delineating

beyond just what we can imagine as of our presence as positivism–procrpticism. This analysis brings out what is effectively meaningfulness as it shows that meaningfulness is more completely about apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument-for-operant-or-incidenting-predicative-insights thus involving the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigmming–of-meaningfulness’ as of the prospective relative-ontological-completeness-of-reference-of-thought of the (given consciousness’s neuterising-induced-or-deneuterising induce reference-of-thought—devolving-teleological-de-mentating/structuring/paradigmming–of-meaningfulness and then ‘operant-or-incidenting-predicative-insights or logical-coherence’ for effectively articulating their meaningfulness as of instantiative-context or existential-instantiations with respect to existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming> imbricatedness/threadedness/recomposing; and these are the two underlying commitments that make-up meaningfulness. Within a registry-worldview’s/dimension’s institutionalisation framework the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is utterly geared in an <amplituding/formative–epistemicity>totalising–self-referencing-syntretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology as of ‘operant-or-incidenting-predicative-insights or logical-coherence’ and beyond-the-consciousness-awareness-teleology <in-preconverging-existential-extrication-as-of-existential-unthought> by mental-reflex presupposes-and-assumes the ontological absoluteness/indubitability of its ‘<amplituding/formative–

Remarkably, such a \textsuperscript{5} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation behind the ontological-contiguity\textsuperscript{68}—of-the-human-institutionalisation-process\textsuperscript{89} enabling the human existential tale in successive institutional-cumulation/institutional-recomposure \langle as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing.<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism*> \rangle is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the \textsuperscript{5} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence—\langle implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence> \rangle analysis does apply with respect to superstitions, \textsuperscript{104} universal
human rights, free society, modern science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold and as of prospective institutionalisation with respect to maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness of reference-of-thought of same—unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness at the uninstitutionalised-threshold but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendence-and-sublimity/sublimation/supererogatory-dementativity as of opened-construct-of-meaningfulness-and-teleology arise only by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation but presences in their wooden-language—{imbued-averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of-nondescript/ignorable-void—with-regards-to-prospective-apriorising-implications} consider maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as of exceptional-askance and unordinary due to their mental-reflex avoiding being ontologically decentered and preconverging-or-dementing—apriorising-psychologism. Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} al engagement, as such a psychoanalytical commitment necessarily recognises human potential to transcend, and the other hand the nature of intrinsic-reality/ontological-veridicality that ‘supersedes humankind and doesn’t factor in human moods and whims’ in its effectiveness. Caught between these two elements human meaningfulness-and-teleology\textsuperscript{100} is ‘often actually imbued with active and passive mental-strategies of compromise’ but which wouldn’t cut it with the maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{8}—unenframed-conceptualisation necessary for human development and progress. Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} and progress requires ontologically-veridical as intemporal/ontological/social/species/ universal/transcendental\textsuperscript{2} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{8}—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming ‘responses’ as of universal implications and not temporal extricatory preconverging–de-mentating/structuring/paradigming ‘reactions’ of mere circumstantial implications. A totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag approach to conceptualising knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as validated by amplituding/formative–epistemicity causality—as-to-projective-totalitative—implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such an apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity—constitutedness—in—preconverging—entailment} ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonmised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory–de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity—constitutedness—in—preconverging—entailment. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-
saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising ~devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ~as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming~, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity ~reifying-or-elucidating-of-prospective-relative-ontological-completeness ~of-reference-of-thought–devolving-as-of-instantiative-context~ above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity }–constitutedness ~in–preconverging–entailment defines the entire existential possibility/potency of musical compositions that can
arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising apriorising/axiomatising/referencing-{of-attendant ontological-contiguity -educated existentialising/contextualising/textualising-contiguity }=constitutedness in preconverging entailment but rather such ‘depth/axiomatic-construct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is grasplable rather by an apriorising/axiomatising/referencing-{of-attendant ontological-contiguity -educed existentialising/contextualising/textualising-contiguity }=conflatedness in {preconverging-disentailment by} postconverging entailment as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, attendant ontological-contiguity-educed existentialising/contextualising/textualising-contiguity }=reifying-or-eliciting-prospective-relative-ontological-completeness -of- reference-of-thought-devolving-as-of-instantiative-context is then the preceding and transformative element of meaningfulness-and-teleology conceptualisation as of our limited-mentation-capacity-deepening enabling our prospective relative-ontological-completeness-of-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplitudining/formative-epistemicity> totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory-de-mentativity dynamism and implied organic-knowledge’ as of apriorising/axiomatising/referencing-{of-attendant ontological-contiguity -educed existentialising/contextualising/textualising-contiguity }=conflatedness in {preconverging-disentailment by} postconverging entailment. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry
intellectual exercise become an \textit{amplituding/formative–epistemicity} totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory\textit{–de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory\textit{–de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity educed–} existentialising/contextualising/textualising-contiguity \textit{–conflatedness \textit{–in–preconverging-disentailment by} \textit{postconverging entailment in} \textit{re-originary–as-unenframed/unbeholdening/outlier-conceptualisation\textit{–imbued-postconverging/dialectical-thinking} ‘projective-insights’/‘epistemic-projection-in-conflatedness ’–of-notional\textit{–deprocrypticism-prospective-sublimation} ) originary/event \textit{–of-prospective-ontology-origination projection into} \textit{attendant ontological-contiguity educed–} existentialising/contextualising/textualising-contiguity \textit{–reifying-or-elucidating-of-prospective-relative-ontological-completeness \textit{–of-reference-of-thought–devolving-as-of-instantiative-context}, it emphasises mere de-mentative/structural/paradigmatic patterns inducing apriorising/axiomatising/referencing–{of-attendant ontological-contiguity educed–} existentialising/contextualising/textualising-contiguity \textit{–constitutedness \textit{–in–preconverging-entailment}, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of \textit{universal applicative}}
pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity construal highlights the ontological-contiguity of all knowledge as of their reference-of-thought-as-to-preconverging/postconverging—de-mentating/structuring/paradigming dynamic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling amplituding/formative—epistemicity> causality as-to-projective-totalitative—implications-of-prospective- nonpresencing,—for-explicating-ontological-contiguity interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising—contiguity }—constitutedness—in-preconverging entailment rather than striving to expand the transcendental-enabling/sublimating/supererogatory—de-mentativity amplituding/formative—epistemicity> causality as-to-projective-totalitative—implications-of-prospective- nonpresencing,—for-explicating-ontological-contiguity existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory—de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the
transcendental-enabling/sublimating/supererogatory-de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality

nature and differences as well as their divergence in meaningfulness-and-teleology implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supererogatory-de-mentativity

Consider in this particular regards the intrinsic-reality/ontological-veridicality reflected as akin to an engineering product like a jet engine wherein the conceptualisation is an incisive apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in{preconverging-disentailment–by}–postconverging-entailment that goes beyond the whole and parts of the jet engine to grasp a conceptualisation profundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness induced neuterising or prospectively notional–deprocrpticism

Hence the 'notion of limited-mentation-capacity' as it overcomes ontologically-compromised-mediating, as of its specific-constitutedness towards ontologically-uncompromised-mediating, as of conflatedness is what is effectively and ontologically defining of issues of reference-of-thought of meaninglessness and teleology given that as of its ontologically veridical apriorising axiomatising referencing {of attendant ontological contiguity -educed existentialising contextualising textualising contiguity } conflatedness in preconverging disentailment by postconverging entailment it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening that is behind the ontological-contiguity of the human institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of meaninglessness and teleology and longness-of-register-of meaninglessness and teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness of reference-of-thought perspective of notional deprocrypticism 'referentialism ontologically uncompromised mediating, as of conflatedness protensive-consciousness sound conceptualisation perspective'. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional deprocrypticism 'referentialism ontologically uncompromised mediating, as of conflatedness protensive-consciousness sound conceptualisation perspective'. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by ontologically-compromised-mediating, as of their specific-constitutedness consciousnesses flawed conceptualisation perspectives into ontologically-flawed constructs of neuterising. historiality/ontological-eventfulness /ontological-aesthetic-tracing perspective ontological-normalcy/postconvergence reflected 'epistemicity relativism determinism' as of the
notional-conflatedness\(^{1}\) of notional-deprocrypticism highlights that humankind in its projected-or-anticipated relationship with ‘existence as-the-absolute-a-priori’ is rather in preconverging-existential-extrication-as-of-existential-unthought, and not the full potency of existence; preconverging-existential-extrication-as-of-existential-unthought construed rather as ‘shoddy-and-incomplete actualising in presencing—absolutising-identitive-constitutedness\(^{14}\) of the full potency of existence. Existence is rather a ‘potency construct of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of human existential potential’ and not ‘a grounded construct for construing existence’ as wrongly implied/attempted with the Heideggerian Dasein notion, as all what ‘grounding’ does is to wrongly elevate the registry-worldview’s/dimension’s reference-of-thought in which such a construct is articulatedly grounded thus contradictorily undermining the possibility for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by wrongly implying that the said registry-worldview’s/dimension’s reference-of-thought is of absolute ontological-performance,<including-virtue-as-ontology>, whereas it is deepening of human limited-

Anecdotally, the prophesying social scientists of their times who insist on the recurrence of the practices of the creed are ‘not stupid’ as they know very well that reference-of-thought–categorical-imperatives/axioms/registry-teleology for meaningfulness-and-teleology are just that with respect to an animal of limited-mentation-capacity beyond-the-consciousness-awareness-teleology —in-preconverging-existential-extrication-as-of-existential-unthought who is bound to circularly elicit shortness-of-register-of meaningfulness-and-teleology on such renewed reference-of-thought–categorical-imperatives/axioms/registry-teleology for meaningfulness-and-teleology and further denaturing them as of the prospective institutionalisation uninstitutionalised-threshold! Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a ‘projected ultimate centered–epistemic-totalisation circularity of meaningfulness-and-teleology of theoretically perfect/sound ontological-performance—<including-virtue-as-ontology>’, as implied by this author’s notion of ontological-

epistemic-totalisation also construed as transcendental centered–epistemic-totalisation or 
extrapolated-centered–epistemic-totalisation or extrapolatory–epistemic-totalisation or 
transcendental–epistemic-totalisation and reflects the reality that a Derridean decentered–
infinite-freeplay can also be construed as an interpolatory–epistemic-totalisation or 
interpolated-decentered–epistemic-totalisation. For instance, we can grasp that ‘traditional 
classical mechanics axiomatic-construct’ is a given ‘centered–epistemic-totalisation circularity of 
meaningfulness-and-teleology’ of ‘the very same physics’ of ‘the very same physics 
meaningfulness-and-teleology’ as of a prior relative-ontological-
incompleteness of less ontological-performance of ‘the very 
same physics’ of ‘the very same physics’ as of prospective relative-
ontological-completeness of-axiomatic-construct-or-reference-of-thought as we can do more 
things with the latter axiomatic-construct more-profound/grander meaningfulness-and-
ontological-performance of ‘the very same physics’; and interestingly, physicists will surely fancy that they could do better in ultimately grasping theoretically the 
full-potency of existence divulgeable as of ‘the very same physics’ with an ambition for a theory of everything.
However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered–epistemic-totalisation of a very same performance-as-intrinsic-reality/ontological-veridicality in relative deficient/flawed ontological-performance-and-teleology-including-virtue-as-ontology, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality-as-to-
‘human-amplituding/formative–epistemicity’ totalising-purview-of-construal which is a given reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness’; and for all practical matters this has been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology-ontological-performance-including-virtue-as-ontology has been as of our positivism–procrypticism registry-worldview’s/dimension’s reference-of-thought-as-of—reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness’ horizon and such a Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différance as of the latter’s transcendental–epistemic-totalisation that underlies apriorising/axiomatising/referencing—of-attendant–ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—conflatedness—in—preconverging-disentailment—by—postconverging-entailment in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and
later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différence is the notion of totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of beyond-the-consciousness-awareness-teleology, in preconverging existential-extrication-as-of-existential-unthought, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation reference-of-thought-as-to-postconverging–de-mentating/structuring/paradigming implied transformation/shift as transcendence-and-sublimity/sublimation/supercorogatory–de-mentativity as of prospective relative-ontological-completeness reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold reference-of-thought which is in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its ultimate crossgenerational collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency, (transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) as of prospective relative-ontological-completeness reference-of-thought of the prospective institutionalisation’s reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a
construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human-amplituding/formative-epistemicity>totalising~purview-of-construal’ or ‘amplituding/formative-epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicit axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of ‘meaningfulness-and-teleology’ of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/reference-of-thought’, as the axiomatic-construct/reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming'> for human-subpotency possibilities for devolving ‘meaningfulness-and-teleology’ as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue, with increasing ontological-performance of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration-as-to-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—

But then as of “ontology of logic” and “ontology of mathematics” as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of “coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition—or-foresight-as-of-embodied-consciousness”, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of “smarter and simpler articulations” for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory—de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness “thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory—de-mentativity”. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context as to attendant—
onological-contiguity—educed—existentialising/contextualising/textualising-contiguity of other applied and transcendental-enabling/sublimating/supererogatory—de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of
developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory де-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as knowledge-reification—gesturing—\textit{in-prospective\_psychologismic\_apriorising/axiomatising/referencing-\{of\_attendant\_ontological\_contiguity \textit{-educed\_existentialising/contextualising/textualising-contiguity \}}—\textit{conflatedness \textit{-in\{preconverging-disentailment\_by\}} postconverging-entailment} for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about sublimating-validation/desublimating-invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential sublimating-validation/desublimating-invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that
mathematics (as to its epistemic-conception phenomenal/manifest-subpotency-(in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence) with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for-conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for-conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest-subpotencies-(in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating–nascence) given ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for-conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodingers, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory-de-mentativity of the physics <amplitudding/formative–epistemicity>totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs with mathematics being accessory to the transcendental-
enabling/sublimating/supererogatory–de-mentativity. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory–de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^7\). The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory–de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory–de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension → reference-of-thought-as-of-'reference-of-thought—devolving-teleological-de-mentatingstructuring/paradigming–of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness–of-reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence-(implicit-epistemic-veracity-of-
nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩ that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed \[57\] meaningfulness-and-teleology \[100\]. The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid \[84\] reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology \[100\] as of prospective \[1\] deprocrypticism–or–preempting—disjointedness-as-of-‘reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional–deprocrypticism psychoanalytic-unshackling metaphysics-of-absence\{(implicated-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩ \[68\] and \[apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity } – conflatedness in \{preconverging-disentailment by\}–postconverging-entailment, and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity } – constitutedness\[1\]–in–preconverging-entailment construal of meaningfulness-and-teleology \[100\] that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the \[amplituding/formative–epistemicity\]totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag naïvety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated

And invariably the answers will be a vague <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of each registry-worldview/dimension, and it is rather the emanant insight of the-
relevance to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs like space-time or quanta in terms of ‘traditional classical mechanics axiomatic-construct’ as of their respectively corresponding relative ontological-contiguity and relative notional-discontiguity/epistemic-discontiguity—aestheticised-preconverging/dementing —qualia-schema, and so with regards to ‘the very same physics <amplituding/formative–epistemicity> totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. Such mutual unintelligibility, with regards to reference-of-thought, speaks of differing ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with <amplituding/formative–epistemicity> totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory—de-mentativity implications as of human limited-mentation-capacity-deepening, whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify meaningfulness-and-teleology as knowledge which can only arise as of the maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—as-to-postconverging-or-

basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author
likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued
in traditional non-transcendental philosophical and knowledge analysis all too ready to construe
and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning
terms overlooking transcendental-enabling/sublimating/supererogatory-de-mentativity
implications, and failing to fathom that conceptual patterning is no substitute for
transcendental-enabling/sublimating/supererogatory-de-mentativity work required for all
knowledge notwithstanding setbacks and failures that may be involved, given the reality that
human meaningfullness-and-teleology ontological-performance -<including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening as of
<amplituding/formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against
post-structuralism and specifically Derridean deconstruction as simply convoluted expressions
of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory-de-mentativity insight as of their applications arising in
the social sciences and literal studies clearly demonstrate otherwise. Further many such
critiques have tended to be naïve about what passes for theory whereby naïve conceptual
patterning of general knowledge are articulated devoid of ‘new theory’, with little or no
transcendental-enabling/sublimating/supererogatory-de-mentativity implications, which in
reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity/shallow-supererogation/of-mentally-aestheticised-preconverging/dementing-quality-schema of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human meaningfulness-and-teleology ontological-performance...<including-virtue-as-ontology>, as of the very same amplituding/formative-epistemicity totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. The amplituding/formative-epistemicity totalising-renewing-realisation/re-perception/re-thought involves taking cue from existence as to attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity/contexts as of existential-instantiations imbricatedness/threadedness/recomposuring in a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation exercise as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity. The notion of axiomatic-construct in ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness
of functionality and contents as its ontological-contiguity\(^5\). Ontological-contiguity\(^5\) rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/ reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity\(^6\) and newtonian physics in relative notional-discontiguity/epistemic-discontiguity \(<\text{shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema}>\) rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity \(<\text{shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema}>\) will seem to imply correlatedness by the very nature of the term continuity. Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of-existence’s–subsisting–nascence problem but rather a problem of human-subpotency as of its limited-mentation-capacity that is resolvable by the deepening of human limited-mentation-capacity as of de-mentation \(<\text{supererogatory-ontological-de-mentation-or-dialectical-de-}

Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological \(^{57}\)meaningfulness-and-teleology\(^{100}\) could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness\(^{89}\)-of-\(^{84}\)reference-of-thought apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—constitutedness\(^{11}\)-in-{preconverging–entailment as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness\(^{89}\)-of-\(^{84}\)reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} >\) of its value construct. involving a crossgenerational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory–de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity—of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory–de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism—of-social-functioning-and-accordance as of human \( <\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \) as social universal-transparency—\((\text{transparency-of-totalising-entailing-,as-to-entailing-}\<\text{amplituding/formative–epistemicity}>\text{totalising–in-relative-ontological-completeness})\) avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but crossgenerationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on meaningfulness-and-teleology with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a
social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ of meaningfulness-and-teleology with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the
nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory-de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology within a given social-setup in the immediate-and-short-term. Transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness of reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of–meaningfulness-and-teleology given their supposedly coherent ontological-commitment of implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality as of more profound <amplituding/formative–epistemicity> causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity validation as to existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression, as re-originary–as-unenframed/unbeholdening/outlier-conceptualisation ⟨imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ’of-notional–deprocrypticism-prospective-sublimation⟩, that are most likely to be syncretised crossgenerationally as providing the most overall positive-opportunism—of-social-functioning-and-accordance by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> is not actively contemplated socially but occurs latently and

are rather as of beyond-the-consciousness-awareness-teleology\(^{100}\)-\[^{6}\]<in-preconverging-

implications! Despite the fact that all social-setups tend to be surreptitiously permeated with
individuals temporal/shortness-of-register-of\(^{17}\) meaningfulness-and-teleology\(^{100}\) social-
dispositions and mental-dispositions of suboptimal ontological implications for social-
functioning-and-accordance—as-of-social-stake-contention-or-confliction, every social-setup
as a conventional-construct can only be held together in the long-term as of its requisite given

reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\) with regards to
meeting a basic level of individuals and social existential-possibilities expectations. It may thus
seem from within just one human generation perspective that the underlying human
metaphoricity\(^{58}\) for transcendence-and-sublimity/sublimation/supererogatory\(^{2}\)–de-mentativity is
rather marginal especially when not associated with any external cultural diffusion. However,
human metaphoricity\(^{58}\) as of cultural transformation had tended historically, in the main, to ebb
in peaks and lows, and so as of the relative \(^{104}\)universal-transparency\(^{10}\)-\{transparency-of-

internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic
relationship of perceived social-stake-contention-or-confliction striving to draw in various ways

psychoanalytically project about the uninstitutionalised-threshold of its procrypticism—or-disjointedness-as-of-reference-of-thought and the prospective institutionalisation of deprocrypticism’. This is actually the ontologically-veridical phenomenological transcendental framework for construing/conceptualising human temporal character and social formation mental-dispositions as of uninstitutionalised-threshold and prospective-institutionalisation based on the dynamics of limited-mentation-capacity, unlike a naïve neuterising mental-reflex that by its amplituding/formative-epistemicity totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag fails to attain such an apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}-conflatedness-in-{preconverging-disentailment-by}-postconverging-entailment as of notional-deprocrypticism deneuterising insight. Central and critical to achieving such a deneuterising analysis in grasping the full and complete possibilities of ontologically-veridical construal of human meaningfulness-and-teleology given human temporal-to-intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-threshold is the notion of beyond-the-consciousness-awareness-teleology-in-preconverging-existential-extrication-as-of-existent-unthought. It is exactly what renders a veridical ontological-escalation or aetiologisation of the human condition possible as the historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}-conflatedness-in-{preconverging-disentailment-by}-postconverging-entailment as of notional-deprocrypticism. It is most
critical because at any registry-worldview/dimension, human self-consciousness is a

imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of the notional~deprocrypticism registry-worldview/dimension institutionalisation as of its implied notional~deprocrypticism. Overall, the fact is that given that what is most relevant to the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-profound-supererogation—or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perception-and-relation to meaningfulness-and-teleology over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation—or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits-and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere linguistic appendages of relative practical insignificance. The notion of beyond-the-consciousness-awareness-teleology <in-preconverging-existential-extrication-as-of-existential-unthought> is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human phenomenological mentation, as it ‘credibly’ grasps-and-accounts-for, without resorting to any neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-
knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of—meaningfulness-and-teleology mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that is behind organic-knowledge. Human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold in temporal/shortness-of-register-of—meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity—of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness-induced—‘threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—attendant—

mental-reflex’ that re-engages with non-positivism/medievalism mindset/reference-of-
thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-
and-impediments potentially arising from such a non-positivism/medievalism worldview as
of the ‘local community dynamism of individual interests involved’ that endemises and
enculturates notions-and-accusations-of-sorcery. It is rather the crossgenerational
psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of
the non-positivism/medievalism mindset/reference-of-thought into a positivistic
mindset/reference-of-thought that is ontologically-speaking to be construed as the
postconverging—de-mentating/structuring/paradigming resolution of the vices-and-
impediments arising from a non-positivism/medievalism worldview with respect to such
notions-and-accusations-of-sorcery. The same applies with respect to our positivism—
procrypticism worldview and futural Being-development/ontological-framework-expansion—as-
to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology
as of prospective notional—deprocrypticism worldview). We can appreciate such metaphysics—of-absence—(implicated-epistemic-veracity-of—nonpresencing—<perspective—ontological—
ontologising-development-as-infrastructure-of—meaningfulness-and-teleology by its mere relative disambiguation effectiveness of ‘ontologically-veridical knowledge agents’ over ‘ontologically-flawed knowledge agents’. For instance as of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced intemporal/longness-of-register-of—meaningfulness-and-teleology positivism/rational-empiricism mental-disposition behind the articulation of Newtonian mechanics inducing its mere effecting possibilities of knowledge, the inherent possibilities of inventing things on this positivism/rational-empiricism knowledge intemporal value reference inherently undermines the pertinence of any other supposed knowledge value reference, like a mystical knowledge construal, of the very same physics <amplituding/formative—epistemicity>totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology from what is of Being underdevelopment. But then this ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicans, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct
given human limited-mentation-capacity is rather upheld by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation wherein the abstract intemporal/longness-of-register-of—meaningfulness-and-teleology behind the prior registry-worldview institutionalisation should equally be reflected as of prospective registry-worldview institutionalisation, and involving the requisite deferential-formalisation-transference secondnaturting of knowledge as organic-knowledge. We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void —‘with-regards-to-prospective-apriorising-implications>’ are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating and considering general social <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void —‘with-regards-to-prospective-apriorising-implications> as improper and unqualified. This was to avoid a circularity of <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void —‘with-regards-to-prospective-apriorising-implications>}.

with regards to meeting a basic level of individuals and social existential-possibilities

\{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–

elucidated more explicitly in cases of cultural diffusion between societies of differing
institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation
knowledge-level transference, but involves a mutual sense of sovereign selectivity and
recognition among the societies, however the drive for cultural diffusion; thus allowing for

any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather
through an exercise of increasing ‘social\textsuperscript{100} universal-transparency’\textsuperscript{100}–\{transparency-of-

However, all along this ontological-contiguity-of-the-human-institutionalisation-process—a
suboptimal relation between knowledge and sovereignty undermines Being-
development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-
infrastructure-of-meaningfulness-and-teleology as of various pertinent social
manifestations:—wherein sovereignty is affirm over knowledge as ‘supposedly being

hotchpotch opinionatedness, notwithstanding the underlying transcendental-
enabling/sublimating/supercerogatory-de-mentativity in formal institutional percolation-
channelling-in-deferential-formalisation-transference, with the result that beyond the
underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching
opinionatedness culture tends to critically and decisively inform individual and collective
thought and action in a manner that is suboptimal to intemporality-as-ontology as of the
manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-
informality that permeates even formal institutions;—wherein by exploiting of temporal mental-
dispositions as of individuals and the collective-social sovereignty, knowledge is undermined
by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation
of sovereignty/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu
of upholding institutionalisation, including the tendency to degrade knowledge
conceptualisations into popular frameworks of knowledge appraisal thus subverting

However despite this knowledge and sovereignty dilemma associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textit{meaningfulness-and-teleology}\textsuperscript{100}, the insight about human
<amplituding/formative–epistemicity>totalising–self-referencing–
syncretising/circularity/interiorising/akrasiatic-drag as of self-referencing and syncretising–
effecting intemporal implications means that the requisite intemporal/longness-of-register-of–
meaningfulness-and-teleology psychoanalytic-unshackling positive-opportunism—of–
social-functioning-and-accordance can crossgenerationally be induced for Being–
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as–
infrasturcture-of–meaningfulness-and-teleology despite the inherent circular distractiveness
of temporality, and ultimately so as enabled by ‘social universal-transparency’
(transparency-of-totalising-entailing–as-to-entailing–<amplituding/formative–
epistemicity>totalising–in-relative-ontological-completeness’). The above analysis point out
that transcendental knowledge in particular involves more than just knowledge as a grounded
construct but as well an understanding of how such knowledge is instigated in society as part
and parcel of the knowledge construed as organic-knowledge; given that the social-construct–
as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such
transcendental-enabling/sublimating/supererogatory–de-mentativity implications that are not
priorly as of grounded constructs of knowledge. This will explain why the mere articulation of
positivism/rational-empiricism constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of
the Copernicuses, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by
an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency–aporia/undecidability/dilemma/ought–

to-intemporal-dispositions–<so-construed-as-from-perspective–ontological–

capacity. Thus in reflecting holographically–<conjugatively-and-transfusively> the ontological–
contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency—{transparency-of-totalising-entailing, as-to-entailing—<amplituding/formative—epistemicity>totalising—of-in-relative-ontological-completeness’}. As it is the latter that induces that social positive-opportunism—of-social-functioning-and-accordance for deferential-formalisation-transference and institutional percolation-channelling—<in-deferential-formalisation-transference>, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought, transcendental knowledge is of a circular but consistent exercise of <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema>reference-of-thought and introducing the prospective ontological-contiguity—reference-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—

Such a temporal/shortness-of-register-of meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supercerogatory de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of preconverging-existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism—of-social-functioning-and-accordance’ it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care—and—episteme as of intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as organic-knowledge. A profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care–and–episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adoption of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms–as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness reference-of-thought meaningfulness-and-teleology. Likewise meaningfulness-and-teleology articulated as of deprocrypticism–or–preempting–disjointedness-as-of reference-of-thought relative to our positivism–procrypticism necessarily requires priorly the requisite apriorising-teleological-elevation-in-ontological-contiguity from positivism–procrypticism’s disjointedness-as-of reference-of-thought mindset into deprocrypticism’s preempting—disjointedness-as-of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as otherwise such knowledge will be teleologically-degraded in circular positivism–procrypticism disjointedness-as-of reference-of-thought terms–as-of-axiomatic-construct as of prior relative-ontological-incompleteness reference-of-thought meaningfulness-and-teleology, even though in the latter case our amplituding/formative–epistemicity totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence implicited nondescript/ignorable–void ’as-to- presencing—absolutising-identitive-constitutedness blinds us to appropriately appreciating this given the human mental-reflex of representing any
The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension perspective/framing/reference/horizon/projection for its prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming and not temporal extricatory preconverging–de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlying its meaningfulness-and-teleology thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–episteme with respect to human meaningfulness-and-teleology, as it is what underlies apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given registry-worldview’s/dimension’s institutionalisation reference-of-thought. Attitude/mental-disposition/care–and–episteme as such carries a registry-
inducing a given specific outcome with regards to prospective relative-ontological-completeness or-incompleteness-of reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-teleology associated with that attitude/mental-disposition/care–and–episteme; and so, whether such a framework is a reference-of-thought as of overall construal-as-existence/existential-possibilities, or within a reference-of-thought like a social projection totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or specifically with living-as-of-human-personality-developing.

For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality as of the attitude/mental-disposition/care–and–episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-teleology in–preconverging–existential-extrication-as-of-existing-unthought> as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given reference-of-thought, say in our positivism/rational-empiricism reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme, and further at the individual level as of
changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-developing. Attitude/mental-disposition/care–and–episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally–collateralising-beholdening-protohumanity'-to-'attain-sublimating-humanity'–as-to-existence-potency –sublimating–nascence,-disclosed-from-prospective-epistemic-digression to supersede human temporality/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}) to be able to achieve transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, and so as of intemporality . With regards to living-as-of-human-personality-developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development–as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-

This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically the ontological-contiguity—of-the-human-institutionalisation-process, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its amplituding/formative–epistemicity causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity induced positive-opportunism—of-social-functioning-and-accordance as of scientific, medical, technical advancements, free society, etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology while averting its denaturing by wrongly implying notional-contiguity/epistemic-contiguity profound-supererogation of-mentally-aestheticised-postconverging/dialectical-thinking qualia-schema with scholasticism. Thus ontological-bad-faith/inauthenticity as of its charlatanic effect undermines, as of beyond-the-consciousness-awareness-teleology, the articulation of meaningfulness-and-teleology as of prospective maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation that could jeopardise pre-established temporal interest, and cultivating rather incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation as of prior reasoning-from-results/afterthought in overlooking concurrent epistemicity-causality—as-to-projective-totalitative—implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity strife to uphold and promote the ‘superior party’ which is the nonpresencing—perspective—ontological-normalcy/postconvergence of existence/intrinsic-reality/ontological-veridicality; with such intellectual-bad-faith rather advancing such an incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation accommodating framework for strategically cultivating pre-established temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent epistemicity-causality—as-to-projective-totalitative—implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation that in many ways could just as well validate wooden-language—imbued—averaging-of-thought.

As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and notional—pedantising/muddling/formulaic—hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness } that usurps the very notion of scepticism in incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supertroductory—dementativity. This poor scepticism attitude/mental-disposition/care—and—episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has <preconverging—‘motif-and-apriorising/axiomatising/referencing’—imbuing>—existentialising—enframing/imprintedness—{as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} implications as of the forestalling of prospective ‘concurrent <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective-nonpresencing,—for-explicating-ontological-contiguity’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Rather the attitude/mental-disposition/care—and—episteme of genuine
intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness\textsuperscript{53} of human meaningfulness-and-teleology, given human limited-mentation-capacity-deepening\textsuperscript{54}. Such a genuine intellectual scepticism construes of knowledge by its given \texttt{<amplituding/formative-epistemicity>totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms—as-of-axiomatic-construct} of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness\textsuperscript{56}, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness\textsuperscript{58}, ontological-bad-faith/inauthenticity\textsuperscript{44} scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness\textsuperscript{46} <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective– nonpresencing,—for-explicating-ontological-contiguity\textsuperscript{62} and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidious passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{49} -by-reification/contemplative-distension, a perfidious ontological-bad-faith/inauthenticity\textsuperscript{61} scepticism involves eliciting a sense of immediacy and temporality\textsuperscript{47}/shortness as of \texttt{<amplituding/formative> wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications>} and untransvaluated–temporal-intemporality\textsuperscript{53} social-chainism as ‘developed thought’, thus deflating the requisite dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{69} -by-
reification/contemplative-distension\textsuperscript{27} intemporal detachment/backstep for transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{de-mentativity}. In this latter respect, and for the possibility of prospective social transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{de-mentativity} and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness\textsuperscript{88} as of preceding intemporal dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension\textsuperscript{27}, and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness\textsuperscript{88}. ontological-bad-faith/inauthenticity\textsuperscript{5} ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness\textsuperscript{14} but of a poor conception outside the prospective relative-ontological-completeness\textsuperscript{88} behind such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100}, are but denaturing \textsuperscript{6} and down the line equally undermines prospective relative-ontological-completeness\textsuperscript{88} for the further emancipation of human social practices. these are ‘commitments’ ready to ‘forego the pre-eminence of knowledge construed as of its

human emancipation. Ideology as such takes the form of either ‘ideology denaturing of

In both instances what is lost is prospective Being-development/ontological-framework-
expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-
and-teleology itself, such that besides temporal/shortness-of-register-of–meaningfulness-
and-teleology interests undermining it, prospective Being-development/ontological-
meaningfulness-and-teleology is circularly perceived as a risk that will foster ‘ideology
denaturing of prospective Being-development/ontological-framework-expansion–as-to-depth-

‘reactive fear of ideology denaturing of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; as prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology itself loses out. These subterfuges are behind the awkward, unnatural and clobbered nature of human development for the past two centuries as civilisation is construed and developed in ‘an undertone reaction/anticipation of threat’ rather than natural as of human communion. Thus ‘subterfuges of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’ arise as of the suboptimality of human intemporal/longness which suffers from human apprehensiveness of humans, thus undermining the notion of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming. This underlying human mental-disposition arises as of the successive human as trepidatious/warped/preclusive/occlusive-consciousness in neutering; as such neutering is the outcrop of human limited-mentation-capacity. In this regard, their successive profoundness as of their ‘successive (uncircumscribing/undelineating-as-‘epistemic-totality’ with recurrent-utter-uninstitutionalisation) circumscribing-as-‘epistemic-totality’—or-delineating-as-‘epistemic-totality’ existential–epistemic-totalisation-scheme-of–meaningfulness-and-teleology speaks of more and more profound convergence-as-of-accumulation of human-subpotency grasp of the full-potency of existence coherence/contiguity. It should be noted as well that the afore is focused on the abstract reference-of-thought/epistemic-totalisation level of différance/internal-dialectics/difference-deferral, as it is actually reflecting ‘the backdrop construed as human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming-as-of–existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’ for the effectively devolving différance/internal-dialectics/difference-deferral
teleological process of meaningfulness; given that the abstract reference-of-thought/epistemic-totalisation level so-established rather enframes teleologically-devolving-as-drifting meaningfulness with regards to ‘social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective’ construed from notional-deprocriptism deneuterising, to fully reflect the ontological-veridicality of mental-states as of affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking apriorising-psychologism and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging-or-dementing apriorising-psychologism stranding dialectics. For instance, reflecting in an early hunter-gatherer society the ‘candid existential expressiveness’ of how one is suffering from bad omen on the backdrop of its ‘recurrent-utter-uninstitutionalisation totalising/circumscribing/delineating’ reference-of-thought-devolving—différance/internal-dialectics/difference-deferral’ construed as disambiguation its uninstitutionalised-threshold meaningfulness-and-teleology. Thus this will disambiguate, specifically ‘with regards to the ill-health reality/ontological-veridicality’ the recurrent-utter-uninstitutionalisation random-as-uncircumscribing/undelineating-as-epistemic-totality existential–epistemic-totalisation-scheme-of meaningfulness-and-teleology, as it construes any ill-health issue as of the idea of bad omen given its ‘non-rules—apriorising/axiomatising/referencing–psychologism, as-impulsive-or-accidented-or-random-mental-disposition’. The uninstitutionalised-threshold as such, as of the reference-of-thought beyond-the-consciousness-awareness-teleology, is the basis for determining both intemporal as well as temporal ontological-performance including-virtue-as-ontology.

The further insight here is that, such a most ontologically-complete profundness/depth of ‘phenomenological transcendental-point-of-departure handle in-its-overcoming-of-neuterisation’ reflected by metaphysics-of-absence-\{implicited-epistemic-veracity-of-\_nonpresencing-\_perspective-\_ontological-normalcy/postconvergence\}\} for the construal of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue points to a fundamental epistemic-break/epistemic-resetting; with the latter arising as a result of lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

teleology and the Establishment scholasticism medieval dogmatic episteme. The implication here is that the articulation of transcendence-and-sublimity/sublimation/supererogatory-dementativity as of reference-of-thought is by itself tied up to a prospective epistemic disruption, construed as of soundness-or-ontological-good-faith/authenticity-of-reference-of-thought, beyond just grounded knowledge as of the prior episteme which is rather construed as of unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought. Such transcendental epistemic-breaks/epistemic-resetting arise because humankind is subpotent as of its knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue to the full-potency of existence, and in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency\textsuperscript{10} \{{\text{transparency-of-totalising-entailing,-as-to-entailing-}} <\text{amplituding/formative–epistemicity}>totalising–in-relative-ontological-completeness \}, an apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology\textsuperscript{100} with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’’ arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective relative-ontological-completeness-of-reference-of-thought point to more profound reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity\textsuperscript{65}
between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology’ with regards to the very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human-totalising-purview-of-construal’ with respect to social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing- totalising-in-relative-ontological-completeness⟩; and so more than just as of beyond-the-consciousness-awareness-teleology—⟨in-preconverging- existential-extrication-as-of-existential-unthought⟩, but further because as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatedness—temporal-to-intemporal-dispositions—⟨so-construed-as-from-perspective–ontological-normalcy/postconvergence⟩–existentialism-form-factor, there is ‘a drift from the ideal of knowledge agents only as ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’ towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social totalising–self-referencing-syncretising’ across the entire social spectrum as of notional–episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity—of-the-human-institutionalisation-process as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatedness—temporal-to-intemporal-dispositions—⟨so-construed-as-from-perspective–ontological-normalcy/postconvergence⟩–existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of
witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoids of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-and-teleology⁴, antinihilism and transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold⁵ actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology⁶—<in-preconverging-existential-extrication-as-of-existential-unthought>—undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of meaningfulness-and-teleology⁷ ontological-performance—<including-virtue-as-ontology>—turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology⁸ ontological-performance—<including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-
resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of ontology’s-directedness-as-Being going by the human intemporal/ontological/social/species/\textsuperscript{1 universal/transcendental/\textsuperscript{2 maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality\textsuperscript{7}/shortness or intemporality\textsuperscript{43}; such that even the budding-positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their scholasticism dogmatic intellectual commitments. In effect, human limited-mentation-capacity however the institutionalisation-level as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor implies that it is impossible for the intemporal projection as longness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} that prospectively construes of successive frameworks of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as of implicited-and-explicated \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99}–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue’ as of the specific institutionalisation,

In other words, the ideal articulation of base-institutionalisation meaningfulness-and-teleology in recurrent-utter-uninstitutionalisation, just as that of universalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively notional–deprocrypticism in positivism–procrypticism; are only pertinent for attaining social approbation as of their apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} postconverging-entailment de-mentating/structuring/paradigming secondnatured construct of positive-opportunism—of-social-functioning-and-accordance of institutional and formal deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference>. the non-positivism social-setup. Ultimately, such a profound phenomenological
expression/self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as
well that many an intellectual or public figure today actively or passively voiced for the recent
cars killing millions whether in the Middle-East or elsewhere with a corresponding social
indifference and mental shut-off. These profound considerations highlight the contemplative
depth to which the social thinker needs to get to in order to truly be engaged in a

existence/existential-possibilities is inherently a radical ontology beyond our

‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging
and constructive approach for arriving at such a depth of radical ontology warranted by
existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory-de-mentativity for the social avoiding the platitudes of
our times such that many an intellectual have even given up to ‘this all-powerful emotional-

(I exist therefore existence is of
transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency /
hyperbole-of-temporal-to-intemporal-ontological-performance\footnote{<including-virtue-as-ontology>} implies the need for a sound perpetuating construct of universal projection as intemporality-or-longness-of-register-of-meaningfulness-and-teleology\footnote{as the opportunity for prospective transcendental-enabling/sublimating/supererogatory-de-mentativity}. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublimates presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-amplituding/formative–epistemicity-totalising–in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory-de-mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive de-mentative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s apriorising/axiomatising/referencing-\{of-attendant–ontological-
constitutedness in pre-converging entailment to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the amplituding/formative-epistemicity totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’.

This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity!

We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’
which simply provides comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence as of notional–deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. Transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied here is with regards to reference-of-thought/epistemic-totalisation level ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human’amplituding/formative–epistemicity-totalising–purview-of-construal’ in epistemic-conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory-de-mentativity rather as of ‘phenomenal-abstractiveness’

Such ‘consciousness apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—conflatedness in {preconverging-disentailment by} post-converging entailment of meaningfulness-and-teleology’ is reflected by the signifying mirroring of meaningfulness-and-teleology that is language as of its metaphoricity. Metaphoricity can thus be construed as the signification of articulated meaningfulness-and-teleology as of reference to existential-instantiation contexts adjunctively and not as naturally devolving into the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as signification of reference-of-thought, such that metaphoricity is rather an ‘adjunctive incorporation’ to the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. The ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of its self-referencing meaningfulness-and-teleology is always susceptible to the further deepening of human limited-mentation-capacity as of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought such that prospective meaningfulness-and-teleology arises out of the adjunction to this ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and is adjoined to it as metaphoricity, with metaphoricity construed as the signification implied as of syncretising-effecting meaningfulness-and-teleology.

Thus language effectively reflects the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reality of human
meaningfulness-and-teleology\textsuperscript{100}, as language is always a blending of the ‘underlying

But then an adjunctive-metaphoricity –signification so produced as reflected by ‘a transcendental syncretising-effecting meaninglessness-and-teleology’ like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in-due-course/crossgenerationally to be of an even greater meaningfulness-and-teleology <amplituding/formative–epistemicity> totalising/circumscribing/delineating effect over the prior notion of the ‘underlying <amplituding/formative–epistemicity> totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying <amplituding/formative–epistemicity> totalising/circumscribing/delineating signifying-construct of language’; and so as of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some significations of the prior ‘underlying <amplituding/formative–epistemicity> totalising/circumscribing/delineating signifying-construct of language’ together with some adjunctive-metaphoricity –significations of the prior ‘underlying <amplituding/formative–epistemicity> totalising/circumscribing/delineating signifying-

signifying-construct of languages’. In another respect with regards to language acquisition as
mirroring a child’s existential integration into the dynamics of social-construct existential
situations/instances, stakes, institutions and processes, a new born child existential integration
into society, from its perspective, develops as of a dynamics of **adjunctive-metaphoricity**-
significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-
freeplay construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the supposedly ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> for its evolving-and-devolving construct of meaningfulness-and-teleology’! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-
social ‘meaningfulness-and-teleology’, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay’ with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’. Metaphoricity is thus rather construed as of its overall \(\text{apriorising}/\text{axiomatising}/\text{referencing}-\{\text{of-attendant-ontological-contiguity}\} -\text{educed}/\text{existentialising}/\text{contextualising}/\text{textualising-contiguity}\} -\text{conflatedness}\} -\{\text{preconverging-disentailment-by}\} -\text{postconverging-entailment}\} -\text{amplituding/formative-epistemicity-}\text{causality-}\text{as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity}\} -\text{of full consciousness development as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-}\text{meaningfulness-and-teleology}\} -\text{underlying}\)

The implication here resonates with the idea that knowledge is much more than the construal of conceptual sublimation knowledge outcome, but rather its construal as notional~knowledge involving the dynamic understanding of both its temporality /misconstrual/desublimation and intemporalitasy-as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising—

Hence language can be more pertinently construed ontologically as of the social dynamics of existential meaningfulness-and-teleology signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon/projection that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon/projection tend to be in apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—constitutedness—in-preconverging-entailment. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay is the existentially veridical and effective basis for reflecting historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’> transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful meaningfulness-and-teleology. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark

Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional–conflatedness<sup>11</sup> of notional–deprocrypticism deneuterising — referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-freeplay<sup>7</sup> and is the maximal ontologically veridical articulation of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educed– existentialising/contextualising/textualising-contiguity }—conflatedness<sup>11</sup>–in–{preconverging–disentailment–by}–postconverging-entailment that ‘undermines the privileging of <amplituding/formative–epistemicity>totalising–self-referencing–

While the ‘Derridean quasi-transcendental-freeplay différence’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity }—confatedness—in-{preconverging-disentailment—by}—postconverging-entailment, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différence’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différence in the strive to maximally undermine <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming-as-of-'existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différence’ unsuspectingly points out that ‘meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon/projection, such that as of a <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag facet it

Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—conflatedness-in-{preconverging-disentailment-by}-postconverging-entailment of accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon/projection implications’ with regards to meaningfullness-and-teleology, and so as disambiguating presencing—absolutising-identitive-constitutedness from nonpresencing-{perspective-ontological-normalcy/postconvergence} by their respective supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for-conceptualisation, such that unsuspectingly the ‘Derridean quasi-transcendental-freeplay différance’ not doing that rather represents the presencing—absolutising-identitive-constitutedness as the common perspective/framing/reference/horizon/projection for both, thus falsely pointing to ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ between presencing—absolutising-identitive-constitutedness and nonpresencing-{perspective-ontological-normalcy/postconvergence} (rather than difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing), and so contradictorily as if both are of the presencing supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for-

Whereas accreting-substitutive-subsumption-as-futural-différance-freeplay is akin to the complete 'epistemic-break', as of Einstein's defining-threshold contribution with the-theory-of-relativity and Bohr's defining-threshold atomic-model contribution to quantum-mechanics together with other seminal scientists subsequent contributions that ultimately led to 'the very same physics <amplituding/formative epistemicity> totalising–devolved–purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' transcendence-and-sublimity/sublimation/supererogatory de-mentativity as of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs interpretation as of nonpresencing-<perspective–ontological-normalcy/postconvergence>. In any case thus such a 'Derridean quasi-transcendental-freeplay différance' doesn’t have any serious ontological consequences with respect to presencing—absolutising-identitive-constitutedness since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural différance where meaningfulness-and-teleology is construed as of the prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> supererogatory acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for conceptualisation which points to a prospective relative-ontological-completeness /ontological-contiguity as of the very same <amplituding/formative epistemicity> totalising–devolved–purview-as-domain-of-construal-as-intrinsic-

apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-

Thus behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as ‘hunch’ is a transversality <-for-sublimating—existential-eventuating/denouement>-of-affirmative-and-unaffirmative—disambiguating—‘motif-and-apriorising/axiomatising/referencing’ depth of reasoning and perspective which is pushed to its brink in projection/anticipation/expectancy. The fact is ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality exhausts-and-supersedes-reasoning as of projection/anticipation/expectancy with no prior certitude, and is more than just imagination which rather comes prior to and is exhausted-and-superseded-by-reasoning. Such a lack of prior certitude explains why transcendence-and-sublimity/sublimation/supererogatory—de-mentativity ‘are not really reasoned-out’ but rather

In this regard we can imagine as of ‘the very same physics amplituding/formative–epistemicity totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness of reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing developments in physics since then, even though its meaningfullness-and-teleology remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’
cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather cross-generationally as of human beyond-the-consciousness-awareness-teleology\textsuperscript{100}–\textless in-preconverging-existential-extrication-as-of-existential-unthought\textgreater . As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more\textsuperscript{10} universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuation-ontological-performance\textsuperscript{7}–\textless including-virtue-as-ontology\textgreater ; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of \textless amplituding/formative–epistemicity\textgreater totalising–thrownness-in-existence\textsuperscript{3} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{1}–\textless including-virtue-as-ontology\textgreater ). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20\textsuperscript{th} century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18\textsuperscript{th} and 19\textsuperscript{th} centuries the dual-
language/split-mentality of \( 104 \) universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipating social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern \( 18 \) deprocripticism—or—preempting—disjointedness-as-of-

While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a \( 8 \) reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism \( 8 \) reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically
implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into meaningfulness-and-teleology as grounded on a given registry-worldview’s/dimension’s reference-of-thought <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of meaningfulness-and-teleology as grounded on a given ‘registry-worldview’s/dimension’s reference-of-thought’ as well as the ‘psychological comfort’ habituated at the given neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of prospective notional–deprocrypticism is exactly the capacity to construe meaningfulness-and-teleology as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology -<in-preconverging-existential-extrication-as-of-existential-unthought> arising as of human prior relative-ontological-incompleteness-of-reference-of-thought. The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity }—conflatedness -in-{preconverging-disentailment-by}–postconverging-entailment implication with respect to existence-potency sublimating-nascence,-disclosed-from-prospective-epistemic-digression is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior nonpresencing-<perspective-ontological-normalcy/postconvergence> as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise
always held in prospective existence-potency\(^1\)-sublimating-nascence-disclosed-from-prospective-epistemic-digression relative-ontological-completeness\(^2\) of apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity prospective relative-ontological-completeness\(^3\)-of-axiomatic-construct-or-reference-of-thought \(^4\) causality as-to-projective-totalitative-implications-of-prospective- nonpresencing- for-explicating-ontological-contiguity for transcendence-and-sublimity/sublimation/supercratory-de-mentativity, implied as of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. This explains why ontology’s-directedness-as-Being is the direction of meaningfulness-and-teleology\(^5\) grounding as always prospective as of prospective relative-ontological-completeness\(^6\)-of-reference-of-thought; and so, as of the successive base-institutionalisation, universalisation, positivism and notional-deprocrypticism registry-worldviews/dimensions nonpresencing-<perspective-ontological-normalcy/postconvergence> respectively as successive meaningfulness-and-teleology\(^7\) grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, \(^8\) universalisation–non-positivism/medievalism, and positivism–procrypticism \(^9\) presencing—absolutising-identitive-constitutedness\(^1\). Interestingly we can appreciate that the attitude/mental-disposition/care—and–episteme as of relevant existential issues of all the prior registry-worldviews/dimensions \(^4\) reference-of-thought are wanting-as-relatively-ontologically-flawed from our positivism–procrypticism as prospective perspective/framing/reference/horizon/projection of meaningfulness-and-teleology\(^5\). However, we are hard-pressed to concede that from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^5\) as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought as of its prospective relative-ontological-completeness\(^3\)-of-reference-of-thought, our positivism–procrypticism is wanting-as-
relatively-ontologically-flawed; as by reflex every registry-worldview/dimension is inclined to hang on to a delusion of the results-as-afterthought of prior non-presencing-perspective-ontological-normalcy/postconvergence even at its uninstitutionalised-threshold despite its notional-discontiguity/epistemic-discontiguity shallow-supererogation -of-mentally-aestheticised-preconverging/dementing -qualia-schema with the prospective registry-worldview/dimension institutionalisation. Thus, induces its specific neuterising as it fails to construe of meaningfulness-and-teleology projectively as of prospective existence-potency sublimating-nascence-disclosed-from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing. The implied maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation notion also underscores the postmodern conception of human-subject-emancipating-relativism-driven-recomposing-constructivism-towards-singularisation as to the-nondisjointedness/entailment-of-prospective non-presencing totalising—devolved—purview-as-domain-of-construal—as-intrinsic-reality/ontological-veridicality, as fundamentally driven as to existence-potency sublimating-nascence-disclosed-from-prospective-epistemic-digression as so validatable by their causality—as-to-projective-totalitative—implications-of-prospective non-presencing—for-explicking-ontological-contiguity. Hence it is ‘more real in its human-subject-emancipating-relativism-driven-recomposing-constructivism-towards-singularisation as to the-nondisjointedness/entailment-of-prospective non-presencing understood as a double-gesture reification for prospective relative-ontological-completeness of-axiomatic-construct-or-reference-of-thought’ by its maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation as to existence-potency sublimating—nascence-disclosed-from-prospective-epistemic-digression than any other prior non-

For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human
limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness as of reference-of-thought. It is human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness as of reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of causality as-to-projective-totalitative-implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity by existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening for human emancipation. Thus implying existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression is ‘not really about any variation as of the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation directed directly to inherent-existence-as-of-existential-reality/existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation as of human limited-mentation-capacity-deepening bringing about a more
profound and complete grounding for human construing of the full-potency of existence, which
remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to
humankind is human-subpotency development towards the abstract full-potency of existence-
whatever-it-is-ultimately. So the notion of [human-subject-emancipating-relativism-driven-
recomposuring-constructivism-towards-singularisation] has nothing to do with the
inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with
‘enlightening [human-subject-emancipating-relativism-driven-recomposuring-constructivism-
towards-singularisation]’ of human limited-mentation-capacity which needs to be deepened before
humankind embarks on the task of ‘conceptualising meaningfulness-and-teleology that
increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to
‘more and more objective meaningfulness-and-teleology’ as we cannot argue that the
theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective
than classical-mechanics—axiomatic-constructs since it involved the [human-subject-
emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation] that led to human limited-
mentation-capacity-deepening. Quite the contrary, it is that exercise in inducing prospective
relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought that
brings about greater objectivity, as reflected in the ontological-contiguity—of-the-human-
institutionalisation-process behind Being-development/ontological-framework-expansion–as-
That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal
[amplituding-formative—epistemicity]totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by
default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon/projection for grasping prospective ‘meaningfulness-and-teleology’; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon/projection. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence\textsuperscript{[2]} (implicit-'nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness\textsuperscript{[14]} illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical ‘meaningfulness-and-teleology\textsuperscript{[100]}. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human preconverging/postconverging–de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipating-relativism-driven-recomposing-constructivism-towards-singularisation\textsuperscript{-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing\textsuperscript{[4]}} limited-mentation-capacity-deepening\textsuperscript{[94]} to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/\textsuperscript{[94]} reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness as underlying a given registry-worldview’s/dimension’s \textsuperscript{[94]} reference-of-thought for meaningfulness-and-teleology\textsuperscript{[100]} conceptualisation and ontological-performance\textsuperscript{[7]}-<including-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by \textsuperscript{[9]} human-subject-emancipating-

The implication here is that hitherto postmodern thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care—and—episteme’ as of its procrypticism or disjointedness as of reference of thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocrypticism or preempting disjointedness as of reference of thought apriorising axiomatising referencing intelligibility setup/measuring instrument attitude/mental-disposition/care—and—episteme’ which prospectively represents the modern as preconverging or dementing apriorising psychology while the postmodern is postconverging or dialectical thinking apriorising psychology; as the point of assertion of postmodern thought as deprocrypticism or preempting disjointedness as of reference of thought is actually a point of prospective de-mentation supererogatory ontological de-mentation or dialectical de-mentation stranding or attributive dialectics. Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations remarks constatations about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations remarks constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations remarks constatations about the constructivism, relativism and deconstruction manifestation conception of social reality. Thus the ontologically affirmative position adopted herein as of the prospective ‘postmodern

Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding-positivism/rational-empiricism ventures with traditionally medieval scholasticism, especially with regards to the latter’s institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for \(\langle\text{universal-transparency }\rangle\)\(\langle\text{transparency-of-totalising-entailing,-as-to-entailing-}\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising-as-of-relative-ontological-completeness }\rangle\) as of overall underlying human ontological-commitment\(^4\) \(\langle\text{implied—self-assuredness-of-ontological-good-faith/authenticity }\rangle\text{postconverging—dementating/structuring/paradigming—as-being-as-of-existential-reality}\rangle\) as to existence—as-assublimating-withdrawal,-eliciting-of-prospective-supererogation\(^5\) for relative-ontological-completeness\(^6\); it is inevitably the case that what is most critically warranted is for the ‘prospective/new postmodern \(\langle\text{deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought}\rangle\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ to articulate its full-fledged discourse as of \(\langle\text{universal-}\rangle\)

This has to do with the fact that the full-potency of existence that divulges relative ontological-verticality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness\(^8\). Thus while the idea of ‘concurrent causality as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^0\) of its totalising/circumscribing/delineating reference-of-thought–devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold\(^0\) as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^0\) of its totalising/circumscribing/delineating reference-of-thought–devolving’, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived
overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism—of-social-functioning-and-accordance that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking –projective-insights’/epistemic-projection-in-conflatedness ’-of-notional-deprocrypticism-prospective-sublimation}) originary/event –of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating –{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’ is very much limited and such prospective ‘concurrent causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’ however its ontological-
veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern-day medicine however its overall ‘concurrent causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental meaningfulness-and-teleology superseding uninstitutionalised-threshold do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity’ postconverging-de-mentating/structuring/paradigming of ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’, as of successive prospective relative-ontological-completeness-of-reference-of-thought. The implication of such an indirect nature of human social-stake-contention-or-confliction
framework validation of transcendental knowledge as of ‘detour to social goodwill deferential-
formalisation-transference to perceived overwhelming-relative-effectiveness’ and not just direct
‘concurrent <amplituding/formative–epistemicity>causality as-to-projective-totalitative-
implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’ implies
that just as prospective de-mentative/structural/paradigmatic transcendental knowledge
prospective ‘concurrent <amplituding/formative–epistemicity>causality as-to-projective-
totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-

framework’ notwithstanding its inherent prospective relative-ontological-completeness—of-
reference-of-thought given its prior lack of ‘detour to social goodwill deferential-
formalisation-transference to perceived overwhelming-relative-effectiveness’; any such
prospective de-mentative/structural/paradigmatic transcendental knowledge must be construed
and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill
deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as
of its prospective relative-ontological-completeness—of—reference-of-thought supersedes the
prior relative-ontological-incompleteness—of—reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise
‘concurrent <amplituding/formative–epistemicity>causality as-to-projective-totalitative-
implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’
tonologically-flawed knowledge can be legitimately overlooked where such knowledge is
implied as of priorly established ‘detour to social goodwill deferential-formalisation-
transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with
many a bogus social or natural science study and methodology grounded on the ‘mystifying
imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-
transference to perceived overwhelming-relative-effectiveness’, but then on closer examination
turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance\(^\text{[2]}\)-<including-virtue-as-ontology> of any ‘reference-of-thought– categorical-imperatives/axioms/registry-teleology\(^\text{[3]}\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^\text{[4]}\)’. Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme ’ warrants that postmodern-thought hitherto articulated beyond-the-consciousness-awareness-teleology\(^\text{[5]}\)-<in-preconverging-existential-extrication-as-of-existential-unthought> in terms–as-of-axiomatic-construct of the ‘modern take attitude/mental-disposition/care–and–episteme’, need to be translated-as-reconceptualised into its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ as of its own truly postmodern organic-knowledge. The fact is that organic-knowledge is fundamentally driven as of attitude/mental-disposition/care–and–episteme, wherein for instance Newtonian Physics as of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme organic-knowledge makes little sense and is of little potential if construed as of a medieval or animistic social-setup alchemic or mystical attitude/mental-disposition/care–and–episteme. In this regard, attitude/mental-disposition/care–and–episteme is fundamentally the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
reference-of-thought is rather a notional-conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> as of huma attendant-ontological-contiguity educated-existentialising/contextualising/textualising-contiguity”; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of preconverging ‘motif-and-apriorising/axiomatising/referencing’–imbuing–existentialising—enframing/imprintedness–(as-to– historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) necessarily subject to ontological-bad-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ is ‘relevant as the attitude/mental-disposition/care–and–episteme’ of wholly immersed-and-engrossed meaningfulness-and-teleology. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality—for-sublimating–existential-eventuating/denouement—of-affirmative-and-unaffirmative–disambiguated—motif-and-apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology’ as of their given neuterising-as-of-prior-relative-

Insightfully, what is critical about ‘the conception of human-subpotency existential scope’ is the paradoxical fact that the more waywardly supernatural/mythical/idolised it is, the least potent has been human-subpotency mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human totalising—purview-of-construal’, while the more waywardly realistic/authentic/unexceptional-as-of-the-mediocrity-principle it is, the more potent has been human-subpotency in its mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human totalising—purview-of-construal’. Effectively, ‘postmodern deprocrypticism—or—preempting—disjointedness—of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ implied notional—deprocrypticism is about a radicalisation of the ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human totalising—purview-of-construal’. This radicalisation is grounded on the rational-realism postulate that humankind as of its limited-mentation-capacity-deepening has always encountered its uninstitutionalised-threshold all along in reflecting holographically—conjugatively-and-transfusively the ontological-contiguity,—of-the-human-institutionalisation-process retrospectively and prospectively, reflecting the reality that humankind is of both a temporal/shortness-of-register-of—
meaningfulness-and-teleology\(^{100}\) and intemporal/longness-of-register-of-meaningfulness-and-teleology\(^{100}\) nature at uninstitutionalised-threshold\(^{103}\), as of prospective institutionalisation prospective relative-ontological-completeness\(^{58}\)-of-reference-of-thought and uninstitutionalised-threshold\(^{03}\) prior relative-ontological-incompleteness\(^{60}\)-of-reference-of-thought. This departs from the ‘modern take attitude/mental-disposition/care-and-episteme’, which poorly appreciates the continuity implied by ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existentia

Consequently, by assuming such a positivism/rational-empiricism transcendental
outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) untransvaluated–temporal-intemporality\(^{03}\) at its ontologically-veridical uninstitutionalised-threshold\(^{03}\), as it doesn’t even and fails to recognise any such uninstitutionalised-threshold\(^{03}\) pointing to its prior relative-ontological-incompleteness\(^{03}\)-of-\(^{03}\) reference-of-thought. Thus, the manifestations of temporality\(^{02}\)/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold\(^{03}\) are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of–\(^{45}\) meaningfulness-and-teleology\(^{100}\) posture in \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\)^{34}, rather than a recognition of it prior relative-ontological-incompleteness\(^{03}\)-of-\(^{03}\) reference-of-thought, implying recognising its uninstitutionalised-threshold\(^{03}\) with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, as knowledge-notionalisation not only factors in conceptual sublimation knowledge dynamics but equally the dynamics of the conceptual ignorances/desublimation to better skew \(^{57}\) meaningfulness-and-teleology\(^{100}\) towards intemporality /longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,–as-to–‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’, the ‘postmodern deprocrypticism–or–

However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation, notion of philosophy, it is herein contended that this relatively deficient analysis reflects the fundamental ontological-deficiency of subsequent philosophies influenced by Kantian philosophy which is rather ‘as a projection within the very same intelligible Cartesian/budding-positivists induced rational-empiricism/positivism registry-worldview’s/dimension’s supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation’ failing to conceive of the ontological-veracity in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating supererogatory–de-mentativeness/epistemic-growth-or-conflicatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to difference-conflicatedness-as-to-totalitative-reification-insingularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing-as-veridical-epistemicity-relativism-determinism–causality—as-to-projective-totalitative–implications-of-prospective- nonpresencing–for-explicating-ontological-contiguity successiveness of registry-worldviews/dimensions, with the result that Kantian implied transcendental idealism is veridically ‘phenomenal-abstractiveness within the very same intelligible rational-empiricism/positivism registry-worldview/dimension reference-of-thought’ (as the true reality of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather one of de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) involving ‘human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity of registry-

In this regards, we can appreciate that all human \(^*\) meaninglessness-and-teleology\(^{100}\) arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance -<including-virtue-as-ontology>. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern-day science ontologisation; and besides, it can equally perfectly be claimed that even our modern-day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and

transvaluation and effective social–value-construction narrative as of any given registry-
worldview/dimension) is reflected in the underlying reality that effectively practised human
value-construction is the ‘outcome of privileged institutional end-purpose
perspective/framing/reference/horizon/projection’; wherein social–value-construction across the
<cumulating/recomposuring—attendant-ontological-contiguity >successive registry-

stake-contention-or-confliction, whether such social–value-construction is ontologically-
pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-
transfusively> the ontological-contiguity—of-the-human-institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern-day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc.

The occlusivity of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of deprocrypticism—or–preempting—disjointedness-as-of- reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather
nondescript/ignorable–void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance —<including-virtue-as-ontology>/morality/ethics/etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold—uninstitutionalised-threshold’ /presublimating—desublimating—decisionality—of-ontological-performance —<including-virtue-as-ontology> dynamics of notional~firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence>’ ). we can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness/psychologismic-construct’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a ‘reference-of-thought-devolving-level manifestation of the primacy of existence equally extends to ‘reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for– conceptualisation ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior universalisation registry-worldview/dimension ‘is more effective’ as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for– conceptualisation in grasping existential reality manifestations than a preceding ununiversalisation registry-worldview/dimension. In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by human \( \langle \text{amplituding/formative-epistemicity} \rangle \text{totalising-throwness-in-existence} \rangle \) is rather grounded in the reality that all humans come into existence as of an overall framework of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology , institutional-development–as-to-social-function-development and living-development–as-to-personality-

Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness/psychologismic-construct’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification–gesturing<in-prospective-psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity}—confatedness-in-{preconverging-disentailment-by}–postconverging entailment> and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as 6 m/s² rather than the existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression manifestation of 9.8 m/s² and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation <unforegrounding-disentailment,-failing-to-reflect–immanent-ontological-contiguity>. Insightfully, the very essence of ‘overall existence phenomenal appraisal of meaningfulness-and-teleology\(^{100}\)’ as associated with philosophical aspects (beyond the our artificial subject-matter divisions referring to aspect where virtue, value, ontological principles and epistemic issues are of central concern) is one of interpretation given that the ordinary human-framework-of-experiential-existence is ‘a directly comprehensive and fulsome framework amenable to interpretation’ whereas ‘specific epiphenomenon—{in-the-overall-ecstatic-existence-supervening-conflatedness} appraisal of meaningfulness-and-teleology\(^{100}\)’ especially as of their unordinary human-framework-of-experiential-existence like natural sciences while informed by ordinary human-framework-of-experiential-existence background/sense-of-things further require and accentuate their epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the natural sciences are fundamentally interpretative as ‘specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification–gesturing—{in-prospective psychologism–apriorising/axiomatising/referencing—{of-attendant ontological contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness—in—{preconverging-disentailment by}—postconverging-entailment’}). It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification–gesturing—{in-
interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification–gesturing—of-prospective-psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }—conflatedness –in–{preconverging-disentailment–by}–postconverging-entailment> is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency –sublimating–nascence,-disclosed-from-prospective-epistemic-digression from such human-subpotency prior reproducibility—mathesis/motif/thrownness-disposition’. This reflects the ontological-verity that human sovereignty and free-will can only be construed in apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }—conflatedness –in–{preconverging-disentailment–by}–postconverging-entailment as of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence revealing the epistemic-impertinence of dispositions for ‘presencing—absolutising-identitive-constitutedness as wrongly implying human sovereignty and free-will supersedes existence-

prospective-aporeticism-overcoming/unovercoming’. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and
diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather de-mentative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks
as reflective of socially-perceived commendation and disapprobation’, as advancing human
sovereignty and free-will as of deferential-formalisation-transference implications, can be rather
straightforward with regards to relatively compact/self-contained institutional functions and
roles usually involved in direct public service delivery but it is much more difficult with
spurious/supporting institutional functions and roles. We can appreciate in this regards that
public scandals generally tend to arise out of public services and private services delivery
institutional frameworks as of their relatively compact/self-contained institutional functions and
roles, and that issues of transparency rendering such assessment difficult generally arise with
regards to underlying spurious/supporting/supervisory/regulatory institutional functions and
roles. In another respect concerning the modern-day media, the need for relevant and
balanced/equanimous communication and information delivery to the general public has
increasingly been taking a backseat, and so fundamentally as the media becomes more of a
business-making institution and rather plays a weaker and ancillary/perfunctory role in public
policies and politics accountability. This is paradoxically reflected in the reality that despite the
huge choice of media today, strangely enough this has rather been associated with greater
public muddlement with regards to political stakes and public policies; undermining the
political process as increasingly public policies are preconvergingly—dementated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern-day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is
no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening as to the ‘relative-ontological-incompleteness’/‘relative-ontological-completeness’ as to human-and-social—expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism for knowledge-reification—gesturing—in-prospective_ontological-apriorising/axiomatising/referencing—{of-attendant_ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflicatedness—in—{preconverging-disentailment—by}—postconverging-entailment—underlying sublimating ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism-determinism’ as of the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—{(imbued-and-}

Such ‘human social-vestedness/normativity’<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the meaningfulness-and-teleology9 infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity’<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity implications of relative-ontological-incompleteness89 to relative-ontological-completeness88’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness89 and relative-ontological-completeness88 but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity89 which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness89 and relative-ontological-completeness88 and so on the basis of merely projecting the term ‘human social-vestedness/normativity’<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ and thereof implying logical-dueness and
articulating logic on the so-narrowed and uncontested framework’. The reason why such a
‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’
supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all
meaningfulness-and-teleology (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’)
operate on priorly established apriorising/axiomatising/referencing and inherently all

metaphoricity—as-rede-mentating/restructuring/reparadigming–psychologism as to their

<discretely-implied-functionalism> implied contract/political-arrangement-or-political-
coercion/given-discrete-social–value-construction’ argumentation about human sovereignty and
free-will are rather ‘internally inconsistent’ and more aptly reflect manifestations of power-
grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-
ontological-completeness. Consider in this regards for instance as of the ‘presencing—
absolutising-identitive-constitutedness notion of ‘human social-vestedness/normativity-
<discretely-implied-functionalism> implied contract/political-arrangement-or-political-
coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human
social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory acuity/perspicacity/astuteness/edginess/incisiveness–of- apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument–for–conceptualisation in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring-as-to-preconverging-or-dementing–apriorising-psychologism–of any such implied slavery ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-
of any such implied slavery ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’. This points to the reality that ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of amplitunding/formative–epistemicity causality as-to-projective-totalititative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a presencing—absolutising-identitive-constitutedness false sense of logical-dueness as of ‘relative-ontological-incompleteness’/relative-ontological-completeness (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating–<projective/reprojective—aestheticising-re-motif–

Thus, there is a direct relation between human-subpotency and existence-potency~sublimating—nascence,—disclosed-from-prospective-epistemic-digression (so underlied as of the parrhesiastic seeding-promise-of-human-subpotency-ontological-performance}—<including-virtue-as-ontology>-correspondence-with-the-full-potency-of-existence’s—sublimating—nascence—as-of-its-coherence/contiguity), and this is effectively instigated/originated by the human capacity for dispensing-with-immediacy-for-relative-ontological-completeness ‘-by-reification/contemplative-distension in its construction-of-the-Self with respect to prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. The underlying point here is that there is no inherent meaningfulness-and-teleology but rather as of the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-

panintelligibility - (imbued-and-'hermeneutically/reprojectively/supererogatingly/zeroingly-educing'–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif-and–re-apriorising/re-axiomatising/re-referencing–conceptualisation), that is, as to 'human-subpotency potential to epistemically converge to the full-potency of existence'; and this underlying structure of reflexivity is the very structure in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges-us/puts-us-to-question as of prospective implications of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology , institutional-development–as-to-social-function-development and living-development–as-to-personality-development. The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative> wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications⟩⟩’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening”). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual
between human-subpotency and existence-potency\textsuperscript{1}\textsuperscript{1}~sublimating–nascence, disclosed-from-prospective-epistemic-digression) is effectively what underlies human institutional paralysis and social-vestedness/normativity\textsuperscript{2} discretely-implies-functionalism as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology\textsuperscript{100} capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology\textsuperscript{100}, in-presencing—absolutising-identitive-constitutedness as historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition), and so towards humankind’s

Such social and institutional social-vestedness/normativity discretely-implied-functionalism for instance like in many ways the practice in modern-day scholarship (especially when poorly constrained to existence-potency sublimating—nascence, disclosed-from-prospective-epistemic-digression) is bound to ‘make its own weather’ rather as from human-subpotency temporality/shortness; wherein ‘invested’ institutional and theoretical/conceptual postures take on an essence all of their own, and so independently and overlooking the precedence of existential-reality for the possibility for prospective sublimation and knowledge-reification—gesturing in—prospective_psychologismic—apriorising/axiomatising/referencing—of—attendant—ontological—contiguity—conflatedness—in—preconverging—dissentailment—by—postconverging—entailment—} and failing to ‘effectively re-stake/put-back-at-stake in re-originariness/re-origination the capacity of

Such that such ontologically-flawed \(^{9}\) presencing—absolutising-identitive-constitutedness\(^{14}\) becomes a psychological entrapment of an overwhelming presence hardly capable of profound re-originariness/re-origination but for its thresholding to the accrued \(^{48}\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition perception of temporal/shortness human stakes-contention-or-confliction framework; with the consequence that this mitigates the possibility to broaden-the-latitude-of-human-collective-consciousness off-the-beaten-path of \(^{4}\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition (as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/aloofness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and
merchandising as of ‘presencing—absolutising-identitive-constitutedness—of—meaningfulness-and-teleology100 given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now dementatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective of re-originariness/re-origination as implied with prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness—of—meaningfulness-and-teleology100 given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness—meaningfulness-and-teleology100’ the modern mindset has
tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology\(^{100}\)-<in-preconverging-existential-extrication-as-of-existential-unthought>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation–and–aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation–and–aestheticisation-towards-ontology as \(^5\) meaningfulness-and-teleology\(^{100}\) with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness\(^3\)-by-reification/contemplative-distension\(^27\). Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-originariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a \(^{100}\) presencing—absolutising-identitive-constitutedness\(^1\)-of—\(^5\) meaningfulness-and-teleology\(^{100}\) given historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective \(^4\) historiality/ontological-eventfulness\(^3\)/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’>. This patent elucidation of the decoherencing-structure—of—meaningfulness-and-teleology—for-institutionalisation as to such a supposedly most abstract and enlightening-giving notion that is philosophy is a basic insight (as construed from the ontological-normalcy/postconvergence epistemic-or-notional—projective-perspective) of desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment with respect to the overall prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism (which de-mentatively/structurally/paradigmatically seems to be entrapped/stifled in human taxingness-of-originariness). Its defining question is whether and how can the human reconstrue meaningfulness-and-teleology in re-originariness/re-origination beyond its trailing/dragging foregone aestheticised meaningfulness-and-teleology construal? This limitativeness of historicity-tracing—in-
presencing–hyperrealisation/hyperreal-transposition is fundamentally an issue of human psychological entrapment ‘defining naiveties and complexes’ as to human shiftiness-of-the-Self as of its presencing—absolutising-identitive-constitutedness (construable abstractly as fundamentally subpar to human effectuation potential but for the fact that the psychological entrapment is a paradoxical circular constituent of the human as to its ‘notionally-collateralising-beholdening-protohumanity by sublimating-humanity existentialism-form-factor’). Human presencing—absolutising-identitive-constitutedness as the very seeding disposition for historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition is ever always characterised by its immediacy-reactive-criticality (over panoramic-sublimating-criticality) as to its constraining aestheticisation—and–aestheticisation-towards-ontology framework; such that the propensity for human meaningfulness-and-teleology to be instigated (as to human limited-mentation-capacity-deepening before any construable human panoramic-sublimating-criticality outcome of meaningfulness-and-teleology has ever always been bound to take ‘a notionally-collateralising inclination detour of aestheticisation—and–aestheticisation-towards-ontology’ (as of the defining ‘originariness-by-reproducibility-laddering effect of human ontological-performance-including-virtue-as-ontology’), and so as of the ‘varying magnitudes/scales—as-to-successively-profound-rede-mentating/restructuring/reparadigming–frames-as-from-living,-institutionalising,-and-Being-ontologising/infrastructure-of—meaningfulness-and-teleology of prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnattedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence—‘existentialism-form-factor’ (with regards to human living-development—as-to-personality-development or institutional-development—as-to-social-function-development or Being-development/ontological-framework-expansion—as-to-depth-of-

Likewise, this insight can be extended in reflecting the historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of ‘an engrained traditional non-universalising conceptualisation of the world’ incapable/could-not-bring-itself to mentally process the implications of the nascent universalising-idealisation attitude/mental-disposition/care–and–episteme implied by the Socratic-philosophers as to its apriorising/axiomatising/referencing–psychologism (as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) induced crossgenerational transformation. In both instances it speaks to an underlying apriorising/axiomatising/referencing–psychologism ‘wanting of human consciousness
sublimation’ to effectively come to terms with ‘manifest existence-potency’—sublimating—nascence,—disclosed-from-prospective-epistemic-digression in epistemic apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—conflatedness—{in—{preconverging—disentailment—by}—postconverging-entailment }, thus inducing its notional—discontiguity/epistemic—discontiguity—<shallow-supererogation—of-mentally—aestheticised—preconverging/dementing—qualia-schema> as to the fact that notional—contiguity/epistemic—contiguity—<profound-supererogation—of-mentally—aestheticised—postconverging/dialectical-thinking—qualia-schema> is now implied prospectively as of prospective relative—ontological—completeness as from the ontological—normalcy/postconvergence epistemic—or—notional—projective—perspective. Thus in the bigger picture, Baudrillard’s conception of hyperreality (as implied with respect to our present lopsided technological as of lopsided material/equipment/accoutrement sublimation) speaks to the underlying apriorising/axiomatising/referencing—psychologism ‘wanting of human consciousness sublimation’ as to its capacity to sublate beyond our positivism—procrypticism historicity-tracing—in-presencing—hyperrealisation/hyperreal—transposition of aestheticisation—and—aestheticisation—towards—ontology as meaningfulness—and—teleology; reflected as the epistemic insufficiency of our ‘gimmickiness of consciousness’ with regards to the potential for re—originariness/re—origination beyond procrypticism—or—disjointedness—as—of—reference—of—thought historicity—tracing—in—presencing—hyperrealisation/hyperreal—transposition inclination now reflected as prior notional—discontiguity/epistemic—discontiguity—<shallow—supererogation of mentally—aestheticised—preconverging/dementing—qualia—schema>, as so—construed projectively from the prospective ontological—normalcy/postconvergence epistemic—or—notional—projective—perspective of deprocrypticism—or—preempting—disjointedness—as—of—reference—of—thought in prospective notional—

implications it projects upon society and social \textsuperscript{10} meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social \textsuperscript{10} meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient \textsuperscript{10} presencing—absolutising-identitive-constitutedness \textsuperscript{14} analyses that fail to factor in that the very notion of ‘positivistic science experimental framework \textsuperscript{4} historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normaley/postconvergence-reflected–epistemicity-relativism-determinism’ was developed and enculturated/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern-day science experimental framework speaks of the characteristic nature of a flawed prior_knowledge-reification–gesturing-<in- prior_psychologismic–apriorising/axiomatising/referencing–of_attendant–ontological-...

Interestingly, in this regards in many ways the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{106} possibility is hardly just about human ‘mere technical capacity potential’ but it is rather more critically a psychological issue as of desublimating \textsuperscript{47}historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition psychological entrapment implications that limit/stifle the human imaginary/ideality as to its dimensionality-of-sublimating \textsuperscript{25}\{<amplituding/formative>supererogatory–de-

and corresponding empowering reflexivity as to human-subpotency implied human potential’ (as implied in the differentiation between postmodern ontological-reconstituting/deconstruction/genealogy that exposes itself and is phronetically/practically encrusted/embedded/inlaid with inherent existence as to its underlying ontological claim sublimating-validation/desublimating-invalidation, and say a Hegelian dialectics and its derived-dialectics like Marxism wherein aspiration/ideology takes-a-leap-above-parts-with and is not utterly submitted to inherent existence ontological implications). Such a notional-deprocrypticism conceptualisation of ‘boundless human aestheticisation—and—aestheticisation-towards-ontology’ speaks in itself of the ‘potentiative-paradox of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—’notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes). Critically, at any given moment, potentiatively humankind is ever always inclined-and-amenable to face up to certain aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint while rather disinclined with respect to other aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; and this very much explains the ‘potentiative-paradox of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—’notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes). It speaks to a metaphoricity of potentiation imbued in humankind defined by ‘human lack-of-capacity/capacity for dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension’; as this relates to ‘preconverging-existential-extrication-as-of-existential-
aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism”> / prospective-ontological-projection / ideality as to prospective originariness-parresia, as spontaneity-of-aestheticisation) but rather directly proceed as of the ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ (reflecting its threshold as to dimensionality-of-desublimating-lack-of \{<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\} / desublimating-or-gimmickiness-untoughtfulness / historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition / social-vestedness-or-normativity / positive-opportunism—of-social-functioning-and-accordance\(76\)-disposition), but then the latter is improvisably/uncontrollably potentiatively-transformed into the former as to the former existentially constraining implications of ontological-veracity. Thus the reality of prospective human emancipation in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(68\)—of-the-human-institutionalisation-process\(69\) rather as of such a ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment’ \(<\text{implied—self-assuredness-of-ontological-good-faith/authenticity} \sim \text{postconverging—de-mentating/structuring/paradigming} –\text{as-being-as-of-existential-reality}>\) (as to the potentiative transforming/conversion, on the basis of existentially constraining implications of ontological-veracity, of human ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ into human ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’) in many ways limits/stifles/undermines/derails human contemplative
capacity for prospective emancipative implications (as can be so-contemplated from prospective notional–deprocriptism conceptualisation of ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’); and so critically as to the "presencing—absolutising-identitive-constitutedness" human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag social-stake-contention-or-confliction state inducing human psychological entrapment in want for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposing. But then such apparently defining limitation to ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’ when analysed as to the reality of human transformation across the time scale in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—and—the-human-institutionalisation-process (wherein the <cumulating/recomposing–attendant-ontological-contiguity >successive registry-worldviews/dimensions as from recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation right up to our present positivism and so as from the appearance of mankind on earth about 200000 years ago) show ‘a time-accelerated metaphoricity’ potentialisation’ when we consider that our present positivism registry-worldview is just about 500 years; pointing out that as of our specific human-subpotency with regards to overall overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility ⟨imbued-and-hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation⟩ (underlying human construction-of-the-Self) the huma prospective capacity to serenely come to terms with ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ as so induced by the latter’s existentially constraining implications of ontological-veracity, is not necessarily

very much reflects the fact that all presencing—absolutising-identitive-constitutedness are effectively manifestations of underlying ontological-bad-faith/inauthenticity with regards to their prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; as all such presencing—absolutising-identitive-constitutedness fail to account for their ‘prior and prospective becoming’ which ontologically-veridical rationalisation effectively lies with the human emancipating disposition associated with dimensionality-of-sublimating.

Similarly with respect to the ‘requisite human dimensionality-of-sublimating’ dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, in many ways just as prior human scientific and technological sublimation momentously induced historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism> inevitably required its accompanying social sublimation (as the manifestations of failing social
sublimation were in many ways the reason for conflictual and exploitative encounters associated with budding-positivism), and so as of the contiguity of both human technoscientific and social sublimations giving their mutually for-human-studies sublimating nature; it is inevitably the case that a naïve construal of prospective science and technological development that seem to imply the requisite prospective sublimation of the overall human as to its prospective construction-of-the-Self is not critical, will inevitably lead to conundrums of prospective science and technology development as to the very possibility for developing the full human potential of science and technology as well as with respect to the underdevelopment of the human as to its shiftiness-of-the-Self\textsuperscript{12} in the capacity to handle and deal with prospective science and technology in such a manner that doesn’t imperil mankind’s very own survival (departing as from the larger conception of survival, beyond ‘reactionary construal’ of them-and-us in presencing—absolutising-identitive-constitutedness that end up ‘destructively dehumanising’ the various ‘the other’). Thus the very notion of human value-construction is entwined with ‘human notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> accordioning-{as-of-varying-individuations-contextually-transverse-desublimation/sublimation, as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance <-including-virtue-as-ontology}> at uninstitutionalised-threshold\textsuperscript{103} as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’> possibilities’ and the idea of prospective human emancipating transcendence-and-sublimity/sublimation/supererogatory–de-mentativity possibilities critically lies in appreciating

This reflects the reality that the transcendental meaningfulness-and-teleology of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocripticism—or—preempting—disjointedness-as-of reference-of-thought respectively are effectively only marginally integratable respectively to prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procripticism—or—disjointedness-as-of reference-of-thought (as to crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), and so only as the former induce their ‘prospective predicative-effectivity—sublimation—(as-to-underlying,-ontological-commitment <implied—self-assuredness-of-ontological-good—faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existent-reality> ) constraining that prospectively transforms human ontological-performance <including-virtue-as-ontology> capacity’; thus reflecting the tight-and-entwined relationship between the overall human ontological-commitment <implied—self-assuredness—of-ontological-good-faith/authenticity ~postconverging—de—mentating/structuring/paradigming —as-being-as-of-existent-reality> (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity—sublimation—(as-to-underlying,-ontological-commitment <implied—self—

In other words, the human as ‘manifesting presencing—absolutising-identitive-constitutedness<amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is intellectually-and-morally incompetent with regards to articulating prospective sublimating value-construction’; as we can appreciate that the state of prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and <deprocrypticism—or—

reflected in the fact that the former orientation is priorly-and-ultimately concerned with existence’s foregrounding entailment (postconverging narrowing-down sublimation-as-to-, existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation ’in-reflecting-’immanent-ontological-contiguity ’; as-operative-notional–deprocrypticism) imbued sublimation whereas the latter is critically concerned with ‘conceptions of human abstract interpositions as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity educed existentialising/contextualising/textualising-contiguity’ that are not necessarily subject to phenomenal/manifest existence’s foregrounding entailment (postconverging narrowing-down sublimation-as-to-‘existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation ’-in-reflecting-‘immanent-ontological-contiguity ’; as-operative-notional–deprocrypticism); and so-peculiarly implied with the ‘importing/exporting of reductionisms’ (as to the fact that there is no physics reductionism of physics or say mathematics reductionism of mathematics or biology reductionism of biology as to being the real and natural orientation for the specific physics, mathematics and biology epistemic-conceptions of their respective epistemic-conceptions phenomenal/manifest subpotencies (in-transitive-conflatedness reflexivity, in-the-full-potency-of-existence’s sublimating nascence) to explain human psychological and social phenomena that ‘end up implicitly denying the very obvious reality of the psychological and social subpotencies (in-transitive-conflatedness reflexivity, in-the-full-potency-of-existence’s sublimating nascence). In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicated contention that the human ‘supposedly has no profound sublimating social and socio-psychological phenomenal/manifest subpotencies (in-transitive-conflatedness reflexivity, in-the-full-potency-of-existence’s sublimating nascence)’ with the ‘supposedly profound

But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest~subpotencies\(\langle\text{in-transitive-conflatedness – reflexivity, in-the-full-potency-of-existence’s–sublimating–nascence}\rangle\) to then ‘utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-psychological phenomenal/manifest~subpotencies\(\langle\text{in-transitive-conflatedness – reflexivity, in-the-full-potency-of-existence’s–sublimating–nascence}\rangle\) (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity\(\text{(*)}\)” as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity\(\text{(*)}\)” of physics, chemistry, biological, genetic theories as to the ontological-

Such claims often project/imply that analysing the social qua social is just about irrelevant (or
paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological

equally differs from the conception of veracity/truth as from the latitude of ‘human social-
vestedness/normativity–discretely-implied-functionalism> implied contract/political-
arrangement-or-political-coercion/given-discrete-social–value-construction’ with the former
construing of ‘knowledge as to existential knowledge-reification–gesturing–<in-

agreementing/convincing-among-mortals (rather than a detour to existence-
potency)–sublimating–nascence,-disclosed-from-prospective-epistemic-digression) even over
manifest sublimating outcome in existence’. Such a ‘purist science/ontology epistemic-
conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated
with human limited-mentation-capacity-deepening’ (as involved in the reconceptualisation of
the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics,
etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-
normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of
intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-
mentation-capacity-deepening’ speak to the more profound reality that the ordinariness of
human thought across the succession of human registry-worldviews/dimensions points to their ‘epistemic-
abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in
their presencing—absolutising-identitive-constitutedness as being of ‘absolute epistemic-
normalcy’; and it is because of this latter fact (as from the ontological-
ormalcy/postconvergence epistemic-projection perspective) that prospective human progress
and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory–de-
mentativity can occur in the very first place (in contradiction to all such registry-
worldviews/dimensions presencing—absolutising-identitive-constitutedness failure to
directly grasp their very own totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, even as the possibility for
prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). In other words, the ‘effective equilibration of human
sublating meaningfulness-and-teleology across the successive registry-worldviews/dimensions’ does not lie
with any ‘ordinariness/commonsensicality as of the
epistemic-digression and de-mentatively/structurally/paradigmatically so-explains the very possibility for human progress. In contrast the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity,<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency<discretely-implied-functionalism>-sublimating–nascence,-disclosed-from-prospective-epistemic-digression are vague disparateness-of-conceptualisation,<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’>, and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised imprimatur of intellection even as to when it projects intellectual desublimation associated with notional~pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising—in-relative-ontological-completeness) as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern-day intellection relevant prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency<discretely-implied-functionalism>-sublimating–nascence,
disclosed-from-prospective-epistemic-digression; as to the fact that humility was rather imbued

of the latter. Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to
which all specific domains of study need to account for their sublimating pertinence; and the
possibility of putting into question all ‘Establishment intellection as of their given
presencing—absolutising-identitive-constitutedness’ (from across the most ancient
civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots,
etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective) as to an epistemically-decadent wooden-language <amplituding/formative> imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology }; and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension out of concern about huma prospective Being-development/ontological-framework-expansion—as-to-depth-of-
ontologising-development-as-infrastructure-of—meaningfulness-and-teleology is the most important human and humanity-producing enterprise notwithstanding the paradox that the prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of reference-of-thought respectively are intellectually-and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought respectively in many ways explaining the underlying implications of human registry-worldview’s/dimension’s institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification—gesturing—in-prospective_psychologismic~apriorising/axiomatising/referencing—of-attendant_ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—conflatedness—in—preconverging-disentailment—by—postconverging-entailment is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency~sublimating—nascence,—disclosed-from-prospective-epistemic-digression and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the the flawed prior_knowledge-reification—gesturing—in-prior_psychologismic~apriorising/axiomatising/referencing—of-attendant_ontological-
exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification-gesturing—pretending otherwise as to ‘virtual wisdoms’ is nothing more than totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has de-mentative/structural/paradigmatic implications with regards to human meaningfulness-and-teleology (as to human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development). This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression) is ‘the scalar conception that enables prospective human sublimation as of aestheticisation-towards-ontology’ while on the other hand human-subpotency (as to human presencing—absolutising-identitive-constitutedness <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag) is ‘a non-scalar conception that induces
presencing–hyperrealisation/hyperreal-transposition as prospectively obviating ontology/ontological-veracity. This insightful grasp of the implications of human limited-mentation-capacity-deepening (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance -<including-virtue-as-ontology> (associated with prospective human sublimation) into: ‘a scalability/immanency perspective (as to a scalability/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflecting–epistemicity-relativism-determinism’>’ and ‘a non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation> perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’.

Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension doesn’t achieve absolute ‘scalability/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not ‘scalability/immanency of existence’s ontological-normalcy/postconvergence’); with the effective ‘scalability/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just
relative-ontological-completeness) underlying the overall existential dimensionality-of-sublimating\(^1\) \(\{<\text{amplituding-formative}>\) supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/\) transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness/\) equalisation of as the inherent ontological-good-faith/authenticity\(^2\) postconverging-de-mentating/structuring/paradigming\(^1\) effectively reflected as of notional–deprocripticism. notional–deprocripticism as such by its ontologically-uncompromised nature ‘technically entails’: prospective human ontological-performance\(^3\) \(\langle\text{including-virtue-as-ontology}\rangle\) as to sublimating\(^1\) historicity/ontological-eventfulness\(^3\) ontological-aesthetic-tracing\(\langle\text{perspective–ontological-normalcy/postconvergence-reflected–}\text{epistemicity-relativism-determinism}\rangle\) as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ in overcoming the desublimating\(^4\) historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening—\langle\text{as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation}\rangle’ in \(\langle\text{presencing—absolutising-identitive-constitutedness}\rangle\). Translated, this ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholdening—\langle\text{as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation}\rangle’ underlying prospective human ontological-performance\(^7\) \(\langle\text{including-virtue-as-ontology}\rangle\) with regards to human\(^5\) meaningfulness-and-teleology\(^6\) speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the de-mentative/structural/paradigmatic effect of relative limited-mentation-capacity-deepening\(^5\) in contrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of
veracity/truth’ and ‘social-vestedness/normativity<discretely-implied-functionalism>’ epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation-{as-to-underlying,-ontological-commitment}<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—demmentating/structuring/paradigming –as-being-as-of-existential-reality> is strongly prone to desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in presencing—absolutising-identitive-constitutedness, while the former strongly constrained to high predicative-effectivity–sublimation-{as-to-underlying,-ontological-commitment}<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—demmentating/structuring/paradigming –as-being-as-of-existential-reality> is rather relatively amenable to sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism> as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity<discretely-implied-functionalism>’ epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity<discretely-implied-functionalism>’ epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business

This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively are actually projective-insights speaking to the fact that huma prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory—de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as so-induced by notional–asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing seconndnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its seconndnatures institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold’ and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as—
infrastructure-of–meaningfulness-and-teleology\(^{(6)}\) which rather requires instigative notional–asceticism\(^{(1)}\) reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturing of positivism/rational-empiricism was the notional–asceticism\(^{(1)}\) reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{(7)}\) (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality>). In other words, genuinely projected knowledge as of ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human institutional-development–as-to-social-function-development and living-development–as-to-personality-development as to the positive-opportunism—of-social-functioning-and-accordance implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of such ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. In this respect with regards to human institutional-development–as-to-social-function-development and living-development–as-to-personality-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with
the relation thus involving the requisite ‘ontological-good-faith/authenticity\textsuperscript{70}–postconverging–de-mentating/structuring/paradigming\textsuperscript{71} existential-condescension<of-apriorising/axiomatising/referencing–psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing–psychologism of the client’ and so as reflecting the sublimating knowledge ontological-good-faith/authenticity\textsuperscript{70}–postconverging–de-mentating/structuring/paradigming\textsuperscript{71} beyond-and-above the desublimating ontological-good-faith/authenticity\textsuperscript{70}–postconverging–de-mentating/structuring/paradigming\textsuperscript{71} of ordinary meaningfulness-and-teleology\textsuperscript{70}. However, this sublimating knowledge ‘ontological-good-faith/authenticity\textsuperscript{70}–postconverging–de-mentating/structuring/paradigming\textsuperscript{71} existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{70} (even though from a retrospective perspective we can grasp the preconverging/dementing\textsuperscript{20}–qualia-schema of ‘the God-of-plane’ type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empiricism reflex ‘ontological-good-faith/authenticity\textsuperscript{70}–postconverging–de-mentating/structuring/paradigming\textsuperscript{71} existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ but it is important to note that such an animistic social-setup doesn’t project of any such preconverging/dementing\textsuperscript{20}–qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} going by its\textsuperscript{81} presencing—absolutising-identitive-constitutedness\textsuperscript{11} just as we will be disinclined to contemplate about the more veridical preconverging/dementing\textsuperscript{20}–qualia-schema of our\textsuperscript{81}procrypticism–or–disjointedness-as-of−reference-of-thought uninstitutionalised-threshold\textsuperscript{03} as from a prospective notional–deprocrypticism perspective projected placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100}.

This poor appreciation arises for the simple reason that the uninstitutionalised-threshold\(^{(03)}\) speaks of the registry-worldview/dimension notional-discontiguity/epistemic-discontiguity \(\prec\) shallow-supererogation -of-mentally-aestheticised-preconverging/dementing -qualia-schema\(\rangle\), and thus it is disinclined to recognise the prospective ‘relative-ontological-completeness — apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying,-ontological-commitment \(\prec\) implied—self-assuredness-of-ontological-good-faith/authenticity —postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality\(\rangle\)’ imbued foregrounding entailment-(postconverging—narrowing-down—sublimation-as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation ’-in-reflecting—immanent-ontological-contiguity ‘;—as-operative-notional—deprocrypticism\) that can instill such a prospective sublimating knowledge ‘ontological-good-faith/authenticity\(^{(00)}\)postconverging—de-mentating/structuring/paradigming\(^{(01)}\) existential-condescension<-of-apriorising/axiomatising/referencing—psychologism\(\rangle\)’ as to prospective institutional-development—as-to-social-function-development and living-development—as-to-personality-development. In this regards, it can be appreciated with respect to budding-positivism and \(^{(10)}\) universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the medieval-scholasticism underpinning—suprasocial-construct or where construing meaningfulness in coherent universalising terms do not avail as in the non-universalising sophistry underpinning—suprasocial-construct, then there is a fundamental reality of desublimating ontological-bad-faith/inauthenticity\(^{(15)}\) over which prospective sublimating ontological-good-faith/authenticity\(^{(11)}\) knowledge respectively as of budding-positivism and \(^{(10)}\) universalising-idealisation can only be established as of their respectively requisite

The blunt fact is that as explained above and clearly obvious with human institutional-development–as-to-social-function-development and living-development–as-to-personality-development the ordinariness of meaningfulness-and-teleology55 is not to be exploited as if it is a credible state of profound ontological-veracity given the lack of dispensing-with-immediacy-for-relative-ontological-completeness55 -by-reification/contemplative-distension27 (as to a disparateness-of-conceptualisation <unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity ’> which notional~pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation{(blurring/undermining-of-prospective-totalising-entailing, as-to-entailing- <amplituding/formative–epistemicity>totalising~in-relative-ontological-

Intellectualism as such is much more than just about \[ \text{presencing—absolutising-identitive-constitutedness} \] methodologising/mutualising/organising/institutionalising enterprise as to the fact that ‘all given registry-worldviews/dimensions as \[ \text{presencing—absolutising-identitive-constitutedness} \] underpinning–suprasocial-construct relate to their given \[ \text{meaningfulness-and-teleology} \] in absolute terms whereas in reality there are veridically relative subontologisation/subpotentiation of ontology as metaphysics-of-presence\[\{\text{implicated-’nondescript/ignorable–void ‘-as-to- presencing—absolutising-identitive-constitutedness }\};\]

and it is here that the genuine social intellectual–function/posture comes in to veridically reflect the reality that a social-construct is not of absolute scalarisation of human ontological-performance\[\langle\text{including-virtue-as-ontology}\rangle\] for the possibility for its prospective scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory–involuting-or-guiding-or-amplifying–scalarisation-<as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\rangle, and the genuine social intellectual–function/posture as such is not about a naivist social-vestedness/normativity\[\langle\text{discretely-implied-functionalism}\rangle\] as otherwise the possibility for the \[\langle\text{cumulating/recomposuring–attendant-ontological-contiguity }\rangle\]-succession of registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory–de-mentativity right up to our present wouldn’t have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. The genuine social intellectual–
function/posture means that human thought can project beyond, overlook and override
presencing—absolutising-identitive-constitutedness\textsuperscript{14} (as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) conception of sublimating value and ontological-veracity disposition; and so as to the fact that
presencing—absolutising-identitive-constitutedness\textsuperscript{14} (as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) actually
tend to be skewed towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology\textsuperscript{100} (as to preconverging—existential-extrication-as-of-existential-unthought\textsuperscript{6} positive-opportunism—of-social-functioning-and-accordance\textsuperscript{76} of institutional-development—as-to-social-function-development and living-development—as-to-personality-development) over ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (with regards to its supererogation\textsuperscript{97}—profundity—postconverging—de-mentating/structuring/paradigming requisite dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{77}—by-reification/contemplative-distension\textsuperscript{27} for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\textsuperscript{57} meaningfullness-and-teleology\textsuperscript{39}), and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the overall underpinning—suprasocial-construct tends to be abstractly preconvergingly—de-mentated/structured/paradigmed to skew towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as for instance professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the genuine social intellectual—function/posture is to undermine this skewing towards ‘immediacy supposed absolute
sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology\(^3\)-in-preconverging-existential-extrication-as-of-existential-ought\(^4\)) positive-opportunism—of-social-functioning-and-accordance\(^5\) of institutional-development—as-to-social-function-development and living-development—as-to-personality-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given\(^6\) presencing—absolutising-identitive-constitutedness\(^7\) ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human\(^8\) presencing—absolutising-identitive-constitutedness\(^9\) mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Copernicus, Galileo, Descartes, Kant, Newton, Leibniz, Rousseau, Diderot, Pasteur, Lavoisier, Tesla, Einstein, etc. upon whose\(^{10}\) meaningfulness-and-teleology\(^{11}\) infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human\(^{12}\) meaningfulness-and-teleology\(^{13}\) (and so not only with human\(\ldots\) Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\(^{14}\) meaningfulness-and-teleology\(^{15}\) but is equally reflected in a poor-spirited bland conception of human institutional-development—as-to-social-function-development and living-development—as-to-personality-development). This insight is critically
important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning–suprasocial-construct projected and preconvergingly–de-mentated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-threshold of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying presencing—absolutising-identitive-constitutedness end up as the registry-worldviews/dimensions Establishments underpinning–suprasocial-construct as to dominance/vested-interest—drivenness—as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,-as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness <preconverging~’motif-and-apriorising/axiomatising/referencing’–imbuing> existentialising—enframing/imprintedness{(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) of social-vestedness/normativity <discretely-implied-functionalism> and social-stake-contention-or-confliction. It is the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (so-reflected in human historiality/ontological-eventfulness/ontological-aesthetic-tracing-{perspective–ontological-normaley/postconvergence-reflected–epistemicity-relativism-determinism}) that goes beyond presencing—absolutising-identitive-constitutedness and generate the requisite de-mentative/structural/paradigmatic sublimation-over-desublimation as reflected with the ontological-contiguity—of-the-human-institutionalisation-process while superseding ‘human-subpotency non-scalarity/beholdening—as-to-what-has-gone-before-aesthetically-de-

The subtle manifestation of the social implications of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought> positive-opportunism—of-social-functioning-and-accordance of institutional-development—as-to-social-function-development and living-development—as-to-personality-development) with regards to our positivism–procrysticism registry-worldview/dimension can be appreciated in modern-day sycophantic-sophistry and notional–pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-

This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our modern-day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming’ existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ with regards to the human species on Earth and strife to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance~<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing-<of-attendant ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity }—ontological-deficiency arising from

Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness is-educed—and—avails—and—re-avails rather than ontological-bad-faith/inauthenticity in upholding relative-ontological-incompleteness (given that immortality/existence-perspective as to intemporality cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging-or-dementing apriorising-psychologism and not postconverging-or-dialectical-thinking apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicated-sublimation-over-desublimation that explains why the educing—and—availing—and—re-availing of relative-ontological-completeness as to dimensionality-of-sublimating supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation takes
precedence in defining human intellectual-and-moral ontological-performance<sup>72</sup>-<including-virtue-as-ontology> and so as to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation<sup>73</sup>. This implied existential-discursivity—implicit-sublimation-over-desublimation as to 'ontological-good-faith/authenticity<sup>70</sup>—postconverging—de-mentating/structuring/paradigming<sup>71</sup> existential-condescension—of-apriorising/axiomatising/referencing—psychologism>' effectively underlies the 'Derridean underdetermination-imbued force/violence conception' and 'Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment', as the preformulating/preframing/premeaningfulness—<metaphoricity<sup>59</sup>-disposition—as-to-psyche-induced-psychologism—of-existential-stake> from which human meaningfullness-and-teleology<sup>60</sup> veridically arises. Thus existential-discursivity—implicit-sublimation-over-desublimation implies that the human is already 'de-mentatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity' without any 'neutrally/objectively sound human ontological-performance<sup>71</sup>-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—{of-attendant-ontological-contiguity—educed—existentialising/contextualising/textualising—contiguity }—ontological-deficiency arising from its specifically given <sup><amplituding/formative—epistemicity>totalising—thrownness-in-existence</sup<. In other words, our intellectual-and-moral responsibility is already engaged as to our (amplituding/formative–epistemicity>totalising−thrownness-in-existence‘ and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness as to overall existential dimensionality-of-sublimating (<amplituding/formative–supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation). In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaus, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness*presublimation-construct–of–meaningfulness-and-teleology of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective human aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking–apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness and the immaterial/social overall relative-ontological-incompleteness –presublimation-construct–of–meaningfulness-and-teleology of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation–as-to-underlying,-ontological-commitment –implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –

This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to the fact that the technical and scientific progress as to relative-ontological-completeness weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology value-construct and shallow-supererogating methodologising/mutualising/organising/institutionalising <preconverging—‘motif-and—apriorising/axiomatising/referencing’—imbuing—existentialising—enframing/imprintedness—value-construct and shallow-supererogating methodologising/mutualising/organising/institutionalising {as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition}, but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism—of-social-functioning-and-accordance driving the secondnatured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possiblities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension immaterial/social sublimation considerations that rise to the aporeticism overcoming/unovercoming challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfulness-and-teleology’ of our positivism–procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual—

The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination-{so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence} perspective of notional-deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness —presublimation-construct—of—presublimation-construct—of—meaningfulness-and-teleology; as prospective material/technical sublimation is associated with a discrepant 'immaterial/social overall relative-ontological-incompleteness’—presublimation-construct—of—meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving>’ that goes on as of presencing—absolutising-identitive-constitutedness to render the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance—<including-virtue-as-ontology> reflected in their failing effective outcomes of equanimity/balance; wherein their practice increasingly tends to dominance/vested-interest actors and sycophantic-sophistry induced desublimating narratives as to the wooden-language—<amplituding/formative—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct—meaningfulness-and-teleology—-as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications>—displayed in the public domain (caught-up/entrapped in ‘a politico-institutional beholdening relic/artefactual disenfranchising notion of both-sides’ as psyching-subterfuge that renders the common concrete pragmatic aspirations of sovereign individuals increasingly politically irrelevant as to the paradox for instance that the healthier political framework in the years

In this regards, we can appreciate that going by the positivism/rational-empiricism relative-ontological-completeness registry-worldview/dimension, the natural sciences do not allow for any other external interpretations of their phenomenal/manifest-subpotency-(in-transitive-conflatedness reflexivity—in-the-full-potency-of-existence’s—sublimating—nascence) (but for issues of epistemic limitation inherent to human limited-mentation-capacity). In this regards, there can’t be any instance/circumstance to which the mathematician will construe of \(1+1\) as being equal to \(4\) as to totalisingly-disentailing—discretion/whim-of-thought; as to the fact that inherent ontological-veracity precedes-and-supersedes ‘mere-formulaic—methodologising/mutualising/organising/institutionalising human-subpotency <preconverging—‘motif-and-apriorising/axiomatising/referencing’–imbuing>—existentialising—enframing/imprintedness-(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’). The implication here that in the bigger scheme of things, the ‘apriorising decisions advancing mere-formulaic—methodologising/mutualising/organising/institutionalising human-subpotency <preconverging—‘motif-and-apriorising/axiomatising/referencing’–imbuing>—existentialising—enframing/imprintedness-(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition)’ over inherent ontological-veracity as manifested in many a social domain (while equally relevant in the natural sciences especially when ‘mere-formulaic—methodologising/mutualising/organising/institutionalising human-subpotency

In this regard, relic/artifactual conception of veridical human historiality/ontological-eventfulness/ontological-aesthetic-tracing/perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism rather speaks to deficient prior_knowledge-reification-gesturing-in-prior_psychologismic-apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity constitutedness-in-preconverging-entailment caught up in presentencing-absolutising-identitive-constitutedness as of beholdening-becoming-distortive-originariness/distortive-origination-as-to-historicity-tracing-inhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification-gesturing-in-prospective_psychologismic-apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity conflatedness-in-preconverging-disentailment-by-postconverging-entailment for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual-function/posture indifference or betrayal to dominance/vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of
the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipating implications; so-reflecting in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification–gesturing—prospective-psychologism–apriorising/axiomatising/referencing—of-attendant-ontological-contiguity—educated—existentialising/contextualising/textualising-contiguity—conflatedness—in—preconverging-disentailment—by—postconverging-entailment (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). It is herein contended that just as the prior cumulating/recomposuring—attendant-ontological-contiguity—successive registry-worldviews/dimensions required their specific ‘relative-ontological-completeness’—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying,—ontological-commitment) implied—self-assuredness—of—ontological—good-faith/authenticity—postconverging—demmentating/structuring/paradigming—as-being—as-of—existential-reality)—to usher in the possibility of their very own secondnated institutionalisation unclouded knowledge-reification—gesturing—in—prospective-psychologism—apriorising/axiomatising/referencing—of—attendant-ontological-contiguity—educated—existentialising/contextualising/textualising-contiguity—conflatedness—in—preconverging-disentailment—by—postconverging-entailment, the ultimate possibility for our positivism—procrypticism overcoming its notional—pedantising/muddling/formulaic-hollowing-out—in—subontologisation/subpotentiation—(blurring/undermining—of—prospective—totalising—entailing,—as—to—entailing—amplituding/formative—epistemicity)—totalising—in—relative-ontological—

this seedingly/incipiently fundamental paradox of ‘prospective/nascent sublimating supererogatory-unbeholdening-conflatedness’ and ‘presublimating relic/artifactual-beholdening-constitutedness’ as to its perpetuative encumberment of human intelligibility, correspondingly highlights the inherent disambiguation of human meaningfulness-and-teleology ‘as of the seeding/incipient encumberment of its momentous-unbeholdening—aestheticising-reflex with its merely-beholdening—aestheticising-reflex’ (so-perpetuative as to human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development), as the more critical drawback to overarching reframing of ‘human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation’ omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality. This insight can be translated by the fact that nascent-sublimations (nascent-particular/incipient-and-material/technical-sublimations) as to their effectively-manifest-sublimation/sublime rather speak to an underlying veracity about immanent-existence ‘beyond and unbeholdening to any human merely-beholdening—aestheticising-reflex of meaningfulness-and-teleology’, and so for instance in the sense that human tools, other technical/material capabilities like electricity, etc. are rather of ‘de-mentative/structural/paradigmatic momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as to the inherent sublimating/emancipating possibilities accruable to all humans and societies as to their underlying ontological-commitment—and implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality of meaningfulness-and-teleology; so-reflecting the fact that overall
human civilisation (notwithstanding any given societies/cultures of naïve presencing—absolutising-identitive-constitutedness as to presencing-distorted—meritocracy/totalising—sovereign-appropportioning—of-human-ontological-performance 〈including-virtue-as-ontology〉 ‘merely-beholdening—aestheticising-reflex of meaningfulness-and-teleology’) could only be possible by the cumulating/recomposuring of all such ‘de-mentative/structural/paradigmatic momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ manifested at various stages across all human societies/cultures and diffusible likewise across all human societies/cultures with the implications that such ‘de-mentative/structural/paradigmatic momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ more fundamentally speak to ‘overall human momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime attainment’ (with such a truer ontological-veracity rather much more profound than the ‘merely-beholdening—aestheticising-reflex of meaningfulness-and-teleology’ of various societies/cultures and as of such ontologically-flawed representation across various human historical epochs). In this respect the ontological-veracity of human institutional-cumulation/institutional-recomposure 〈as-to historiality/ontological-eventfulness /ontological-aesthetic-tracing-〈perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism〉〉 (as of the accruing effectively-manifest-sublimation/sublime from stone-age to bronze-age to iron-age involving the formation of agrarian societies and cities and subsequent development of universalising societies and today’s positivising modern world) rather more aptly speaks of ‘overall human momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime attainment’; with the profound idea that the more momentous grasp of the
notion of say the civilisations of Ancient Zimbabwe, Ancient Egypt, Ancient Greece, Ancient China, Ancient India or Ancient Aztec, etc. are rather as of a more profound point-of-departure as from a ‘human psychological-disposition for supererogatory-unbeholdening-confalatedness’ historiality/ontological-eventfulness/ontological-aesthetic-tracing/perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism) of sublimating intelligibility’ divulging the underlying dynamism of human ‘de-mentative/structural/paradigmatic momentous-unbeholdening-aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ (and so rather than a shallower point-of-departure as from a ‘human psychological-disposition for relic/artifactual-beholdening-constitutedness’ historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of presublimating intelligibility’ of ‘merely-beholdening—aestheticising-reflex of meaningfulness-and-teleology’ caught up in complexes of ‘naïve presencing—absolutising-identitive-constitutedness as to presencing-distorted—meritocracy/totalising—sovereign-approprioportioning—of-human-ontological-performance-including-virtue-as-ontology’ that end up inducing poor/distorted human understanding of the human). It is herein contended that the most fundamental issue with regards to huma prospective comprehensive emancipation/sublimation (as promptly reflected with nascent-particular/incipient-and-material/technical-sublimations) has to do with this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ as to the fact that nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness – reference-of-thought- devolving> are often of ‘restricted and directly transparent/potent existentialising–decisionality scope of sublimation for human deferential-formalisation-transference’ while the social-and-institutional-frameworks-of—referencing/registering/decisioning (as to ‘reference-of-thought–and—reference-of-thought– devolving–meaningfulness-and-teleology comprehensiveness of prospective sublimating–nascence’) imply a depth of appreciation which initially leads to ‘blurriness in existentialising–decisionality’ as of relative-ontological-incompleteness–presublimation-construct–of–meaningfulness-and-teleology desublimating–existentialising–decisionality. We can for instance appreciate this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ say with
regards to cultural-diffusion in a non-positivistic like animistic social-construct wherein positivistic technical and material nascent-sublimations can relatively be easily appreciated/grasped in a short timeframe by their immediate sublimating–nascence but the more profound notion of a positivistic registry-worldview/dimension (as to social-and-institutional-frameworks-of—referencing/registering/decisioning of positivistic meaningfulness-and-teleology\(^{100}\)) reflecting a positivising referencing/registry/decisioning is more problematically conceptualisable and mostly arises as of crossgenerational appreciation/grasp (given the non-positivistic presencing—absolutising-identitive-constitutedness\(^{14}\) existentialising–decisionality psychological-disposition of defaulting individual and social ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’); and this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ applies in the succession of registry-worldviews/dimensions with regards to the possibility for their prospective sublimation/emancipation. Along the same lines of disambiguating ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ just as ‘a God-of-plane non-positivistic proposition’ in an animistic social-setup implies priory an ‘altogether superseding positivistic apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument–for–conceptualisation induced psychologism of \(^{84}\) reference-of-thought’ (over their non-positivistic apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument–for–conceptualisation psychologism of \(^{82}\) reference-of-thought) from whence aposteriorising/logicising/deriving/intelligising/measuring can then ensue in existential-instantiations of conceptualising, and so as to the positivistic meaningfulness-and-teleology\(^{100}\)

In this regards, it is contended that the argumentation articulated herein are strictly striving towards aetiologisation/ontological-escalation in reflection of ‘abstract human intemporal individuative ontological-performace (as to the backdrop of the notionalisation/notional-conception/amplituding of knowledge in reflection of human notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>) while striving for totalising-entailing pertinence of thought’ and so projecting beyond any implications of personalising/particularising import but rather turning towards ‘ontological elucidation import as it then reifyingly-and-empoweringly enables human sublimation as to prospective operationalising construals’ and so-reflected in the idea that the fundamental stakes of prospective knowledge-reification–gesturing—<in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—conflatedness -in-{preconverging-disentailment–by}–postconverging-entailment> is about prospective social-stake-contention-or-confliction and not prior social-stake-contention-or-confliction (as for instance prospective positivistic meaningfulness-and-teleology is not developed to go about articulating/relation-to meaningfulness-and-teleology as to the prior social-stake-contention-or-confliction of non-positivistic meaningfulness-and-teleology), and so by the mere implications of dimensionality-of-sublimating (<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-

In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation motive of human sublimation beyond/and-not-subjected-to the <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing–existentialising—enframing/imprintedness–(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) of any shallow-supererogation social-and-institutional-frameworks-of—referencing/registering/decisioning as to the 8.5 billion humans on planet Earth and as any party of interest of profound-supererogation may find useful or not! In this respect, it is critical to understand what defines humanity as to the ‘firstnatureness and derived secondnaturedness positive-opportunism—of-social-functioning-and-accordance’ required for human self-surpassing—existentialism-form-factor—in-overcoming–‘notionally—collateralising-beholdening-protohumanity’–to–‘attain-sublimating-humanity’–as-to-existence-potency—sublimating–nascence–disclosed-from-prospective-epistemic-digression; as to the fact that all human sublimation is instigated as of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking –‘projective-insights’/+epistemic-projection-in-conflatedness ‘–of–notional–deprocrypticism-prospective-sublimation) before secondnaturing positive-opportunism—of-social-functioning-and-accordance institutionalisation, as so-reflecting Derridean messianicity wherein even when the messiah comes they still have to come (inevitably-so given prospective human notional–firstnaturedness—temporal-to-intemporal–

It is this fact that explains why no underpinning–suprasocial-construct is able to coherently explain human-subpotency \textit{fatedness-of-sublimation-over-desublation to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process} since it will always be caught-up in its \textit{presencing—absolutising-identitive-constitutedness} \textit{<preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness} \textit{(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition)} as to its underlying presencing-distorted–meritocracy/totalising–sovereign-appropportioning—of-human-ontological-performance \textit{<including-virtue-as-ontology> desublimating–existentialising–decisionality}. In this regards, it is critical to appreciate that the democratic process is a sovereignty-imbuing process and while this sovereignty-imbuing process is critical as the point-of-departure for socio-econo-political social-stake-contention-or-confliction aporeticism overcoming/unovercoming it is incomplete if it is merely construed/manipulated as to essentially sovereignty-giving without a cultured aspiration to grasp and operate as to prospective ontological-veridicality (as so-understood by the Socratic-philosophers) just as our sovereignty over say our house doesn’t necessarily imply our technical competence with requisite house enhancements like electricity, plumbing, etc. even as our sovereignty is the point-of-departure for our independent/sovereign contemplating to undertake such house enhancement chores. This reality underlies the contention herein of the ‘overrated notional~pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing, as-to-entailing- <amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness } of ‘meaningfulness-and-teleology’ as to the fact that human discursivity is not a discursivity of absolute-mentation-capacity but rather a discursivity of limited-mentation-

psychological disposition with respect to knowledge as to organic-knowledge is in appreciating
that for critical thinking even for the novice it is imperative to truly engage with the substance
of the matter comprehensively-and-insightfully notwithstanding the level of exactifying
comprehension (again whether as to direct knowledge acquisition or appropriate percolation-
channelling—\{in-deferential-formalisation-transference\} enabling the sovereign—
function/posture ontologising-aptness). The abstraction-of-thought/principled-thought
articulated with subject-matters content is not done gratuitously as it is often popularly
advanced especially with ‘ontologically-flawed frameworks of blurriness’ and ratings/sales
immediate interests’ susceptible to normalised/stereotyped/selfhelping/feel-good construal of
knowledge. Subject-matter abstraction-of-thought/principled-thought content are not so-
produced gratuitously in the sense that this effectively speaks to: the requisite

sublimating–existentialising–decisionality implications). It is herein contended however counterintuitive that the idea of understanding 100% of knowledge content at one go (as commonly assumed and cultivated with such content driven by public ratings and/or sales/merchandising as to excessive simplification, distortion, superficiality, ephemerality and attention-grabbing undermining organic knowledge) is very much detrimental for a profoundly engaging and sublimating practice of public exposition to knowledge as so-inducing the degradation/banalisation of content in order to supposedly capture the most number of people at one go, and so it is herein argued very much contrary to the natural human potential for profound knowledge assimilation which is rather of hermeneutic/reprojecting/supererogating/zeroing potential. A lot of true learning, understanding and engagement (beyond attention-grabbing and simplification convenience) comes and expands hermeneutically/reprojectively/supererogatingly/zeroingly as to re-exposition to same and similar content for eliciting an active thought/contemplative engagement that is sufficiently challenging to people's true intellectual growth possibility as to creatively eliciting and
