Such a nonpresencing-<perspective–ontological-normalcy/postconvergence> conception of epistemicity it is herein contended is of most profound social and overall knowledge aporeticism overcoming/unovercoming relevance.
Human angling-of-imaginary (unlike the predisposition to mere-formulaicity—methodologising/mutualising/organising/institutionalising—of human psychical-nascency) construes of knowledge as of emergent social conception and instigation for knowledge formation/creation (and so beyond and unfazed by its supposed manifest institutional capture/catchmenting) with regards to the veridical existential veracity of knowledge for prospective ontologising/re-ontologising sublimating/emancipating expansion of human ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising-frame of disontologising/ontologising-and-re-ontologising’. In this regards, desublimating attitudes of mere institutional imprimaturing do not necessarily constrain the possibility for divergent social interests for prospective existential ontologising/re-ontologising conception for sublimating knowledge-reification–gesturing—critical veridical intellectualism rather perceives institutional stature as the opportunity to further demonstrate and invest in demonstrating its effective intellectual relevance whereas an institutionalised notional–pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—tend to construe of institutional stature as a defensive fall-back as to mere-formulaic institutional-imprimaturing and institutional-legalism poorly upholding/perpetuating the veridical knowledge sublimating contemplation behind the institutional formation/creation in-the-very-first-place as so-inceptively instigated as of ‘prior originariness-parrhesia,–as–spontaneity-of-aestheticisation in want for prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation with human limited-mentation-capacity-deepening’ and as so-failing to

Such an incipient social conception and instigation of prospective genuine-knowledge as to its veridical existential veracity underscored the Socratic-philosophers and their successors development of philosophical schools propounding \[ \langle \text{universalising-idealisation in sublimating self-assuredness-of-ontological-good-faith/authenticity} \rangle \text{–postconverging–de-mentating/structuring/paradigming} \]–as-being-as-of-existential-reality subverting the Ancient-sophists ‘non-universalising sophistry ontological-bad-faith/inauthenticity’–preconverging–de-mentating/structuring/paradigming’, likewise budding-positivism movements with their correspondences and initiatives in sublimating self-assuredness-of-ontological-good-faith/authenticity–postconverging–de-mentating/structuring/paradigming–as-being-as-of-existential-reality ultimately led to the subversion of medieval-scholasticism ‘non-positivising scholasticism ontological-bad-faith/inauthenticity’–preconverging–de-mentating/structuring/paradigming’, and today in many ways the postmodern movement is more potent as to its social dynamics of ‘liberation and emancipation’ (however incipiently crude as to its sublimating self-assuredness-of-ontological-good-faith/authenticity–postconverging–de-mentating/structuring/paradigming–as-being-as-of-existential-reality) in the face of surreptitious and spurious strategies of anti-intellectual misanalysis, misinformation and complotment as to our modern-day ‘pedantic totalisingly-disentailing—discretion/whim-of-thought ontological-bad-faith/inauthenticity’–preconverging–de-mentating/structuring/paradigming’. Thus the more centrally defining element of human angling-of-imaginary speaks to human capacity for contemplation of metaphysics-of-absence–\{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>\} epistemic-projection which is in many
ways elusive to psychical-nascency disposition. But then this is no more different for the
implicit projective-insights approach to thinking pervading the natural sciences; as to a

This further speaks to the fact that the conception of citation as of academic practicalities (with derived social and institutional conception) is in many ways rather
of notional–citationality (as to ‘a connoting supererogation-drivenness construal of the epistemic-totality\(^3\) of human–textuality-<as-to-existentialising/contextualising/textualising> in epistemic-totalising\(^3\)–resubjecting or totalising-entailing–reconstrual’) will imply veridical notional–citationality lies with the ‘relative-ontological-completeness\(^9\)–\(^8\) reference-of-thought-devolving’ as of the supererogatory wholesomeness/profound-supererogation sublimating–nascence reflected from the positivism/rational-empiricism registry-worldview/dimension (consequent cumulating/recomposuring aestheticisation–and–aestheticisation-towards-ontology) infused with overall physics as so-influenced-and-shaped by Newtonian physics’ in so-imbuing Einstein’s\(^46\) amplituding/formative–epistemicity totalising–thrownness-in-existence\(^5\) reference-of-thought–devolving as to his\(^4\) amplituding/formative–epistemicity totalising–renewing-realisation/re-perception/re-thought epistemic-projection of prospective physics apriorising/axiomatising/referencing–{of-attendant ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }— conflatedness –in {preconverging-disentailment–by}–postconverging-entailment. Thus notionally a supererogatory wholesomeness/profound-supererogation\(^7\) of notional–citationality (as to ‘a connoting supererogation-drivenness construal of the epistemic-totality of human–textuality-<as-to-existentialising/contextualising/textualising> in epistemic-totalising\(^3\)–resubjecting or totalising-entailing–reconstrual’) very much explains why prospective knowledge generation is not associated with an absolutising conception of denoting/citation as to the fact that it can hardly be said Einstein was among the best Newtonian physics scholar when analysed in terms of mere academic ‘presublimating relic/artifactual–beholdening-constitutedness\(^4\) historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ Newtonian physics (but rather it is his appropriate notional–citationality emplacement as to nonpresencing–<perspective–ontological-normalcy/postconvergence> epistemic-projection that so-decisively enabled his pioneering of prospective physics). Such a
relation with prospective knowledge generation today particularly in domains-of-study susceptible to blurriness induces a markedly desublimating conception of notional-citationality as to when the ‘artifice of academic and institutional politics’ leads to a conception of knowledge as of ‘an institutional and academic nombrilism of self-presence/self-constitutedness’ to which prospective human aporeticism overcoming/unovercoming is relatively irrelevant’ such that the construal of knowledge as to denoting/citation implications carries its very own ‘academic and institutional politics of knowledge’ undermining organic-knowledge notional-citationality (with notional-citationality so-implied in self-becoming/self-conflicatedness/formative-supererogating-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—in-perspective—ontological-normalcy/postconvergence> psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as to reference-of-thought postconverging—dementating/structuring/paradigming). This further explains overall the fundamental ontological and purposeful deficiency of a presencing—absolutising—identitive-constitutedness notion of denoting/citation as to the fact that ‘full notional-citationality’ will rather speak of the scalarising nonpresencing-<perspective-ontological-normalcy/postconvergence> epistemic construal of the ‘substantive hermeneutically/reprojectively/supererogatingly/zeroingly cumulated/recomposured abstract-tissue-of—social-emanance as to attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity’ of ‘human consciousness notional-protensivity imbuing prospective psychologismic—epistemic-acutisation—as-to-postconverging—dementating/structuring/paradigming,—eliciting-of-existence’s—sublimating—nascence-in-prospective-aporeticism-overcoming/unovercoming’ undergirding the ‘full experiment/experientiality that is the human social-emanance’, herein reflected as to the overall ontological-contiguity—of—the-human-institutionalisation-process of the

It is in this respect for instance that in many ways the Encyclopédists involved even ‘aristocrats’ and socially well-off persons beholden to knowledge/veridicality above and preceding any other allegiances and likewise many a positive revolutionary struggle including civil rights movements, social emancipations, decolonisations, the American civil war, etc. could hardly be envisioned without appreciating human prior commitment to knowledge/veridicality above and preceding any other temporal allegiances along the lines of mere identitive group/gender/class/race/nation/etc. as to intemporal-prioritisation-of-‘reference-of-thought’–as-conflatedness-or-ontological-reprojecting (as to when relative-ontological-completeness is-educed–and–avails–and–re-avails); with such an ontologising construal at the very center in

possibility to induce blurriness is pedantically taken up in a blurring conception of the
‘literary/poetic metaphor’ as to obfuscate with the literary trope as to what such thinkers like
Derrida and Foucault ‘meant or can mean as metaphor’ failing to factor in that their lifetime
work is ‘all their metaphor’ they are talking about (as to their eliciting of prospective reflexive

postmodern thinkers like Derrida and Foucault were very well consciously aware of this
institutionally engrained distorted thought and motives as reflected in their intellectual

In many ways it is herein contended that with the appropriate contemplative patience and distance such thought as to their implicated knowledge-reification–gesturing–in-prospective_psychologismic–apriorising/axiomatising/referencing–of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–conflatedness–in–preconverging-disentailment–by–postconverging-entailment is no more difficult to contemplate but for pedantic consciously or unconsciously elicited misanalysis and blurriness. With such pedantic blurriness undergirded by such a ‘statement that certain things are unspeakable’ rather herein construed as the very hallmark of such institutional disontologising undermining of prospective transcendence-and-sUBLIMity/sublimation/supererogatory–de-mentativity implications because human civilisation/enlightenment/progress is exactly about metaphorising as ‘making unspeakable things speak’ (as tangible like the metaphors of Newton making abstract forces conception to speak, Einstein making spacetime conception speak, Mendel making hereditary characteristics to speak, etc. and in all such cases not only counterintuitive-and-idiosyncratic to their epochal minds but initially also to their instigators very own minds, and just as herein as tangible as to the explicited veracity of the <cumulating/recomposuring–attendant-ontological-contiguity–successive registry-worldviews/dimensions ‘reference-of-thought specific preconverging/dementing’–qualia-schema reflecting their specific prospectively ontologically-flawed nondescript/ignorable–void imbued self-presence/self-constitutedness ‘in-perspective–epistemic-abnormalcy/preconvergence’>’ as from prospective ‘nonpresencing–

It can be appreciated (as of an anthropological insight) that a positivistic/rational-empiricism mindset encounter with say an animistic social-setup cannot relate to the latter in ‘absolute terms of effectively demonstrable positivistic/rational-empiricism systematicity/entailment of sublimating’ (as it will so-relate to a fellow positivistic/rational-empiricism mindset) as this will induce excessive mental alienation to the ‘point of the positivistic-with-animistic mutualising mental shutdown’. But rather such a relation will be ‘within the scope of the animistic collective-social implications of human limited-mentation-capacity’ (or within the scope of the ‘debarking positivistic community and animistic social-setup shared/mutual collective-social implications of human limited-mentation-capacity’) to integrate prospective positivising ontologising-and-re-ontologising over the animistic social-setup prior non-positivising disontologising; as to the positivising mindset projection of ‘constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{(7)}\) imbuing human ontological-commitment <\text{implied—self-assuredness-of-ontological-good-faith/authenticity} \sim \text{postconverging–de-mentating/structuring/paradigming} – \text{as-being-as-of-existential-reality}>’ but then at the same time this equally allows for the possibility for an anti-positivising disontologising as to temporal social-stake-contention-or-

Such an insight as to the supererogatory~wholesomeness/profound-supererogation\textsuperscript{97} of organic-knowledge for say present-day institutional-development–as-to-social-function-development can be garnered with the patent case of say knowledge for the management of a nuclear facility which is much more than its mere inherent processive technicalities (‘knowledge as a mere doable thing’) but equally with the technicity/profundity extending to the facility operators reflexive and contemplative appreciation of the dangerousness of nuclear materials and processes and ability to critically take appropriately conservative and cooperative or autonomous decisions to stave off any potential crises (with these associated elements including their mental/psychological suitability construed as the requisite epistemic-growth/disquiet/discomfort-(\{induced-sublimation,\textemdash\text{as-from-existence’s\textemdash}\text{effusing/ecstatic–inlining-as-historiality-\{science/authenticity/nonextrication\}}-\text{beyond-mere-formulaicity-as-historicity-tracing-\{science-ideology/fashionability/distraction\}}\}) tied to that knowledge and so within the framework of the facility thought-out/contemplated operational and designing conception
integrative of such sublimating operation). This reality about the supererogatory-wholesomeness/profound-supererogation of organic-knowledge is relevant in all institutional domains as well but for when it comes to conveniencing, popularising, merchandising and media-ratings driven purposes which may be innocuous in other contexts but turn out to be particularly consequential when permeating and undermining the political process as to when human sovereign participation is in-effect construed as utterly dissociated with ontological-veracity; as to the fact that there can be ‘a thin-and-tenuous line between ontological-good-faith/authenticity imbuing sublimation and ontological-bad-faith/inauthenticity imbuing gimmickiness/desublimation’ as to human aestheticisation–and–aestheticisation-towards-ontology, wherein apparently ‘gimmicky techniques’ are effectively sublimating as to their specific aestheticising/creative/artistic existentialising–frame but are rather desublimating when poorly aestheticised out of such specific aestheticising/creative/artistic existentialising–frame or when ‘circumstantially appreciatively aesthetically shallow/encumbering/vague/bland/incomplete/etc.’ or when poorly reflected in domains of aestheticisation-towards-ontology where profound ontological-pertinence is important (requiring in all such cases the appraisal of appropriate supererogatory-wholesomeness/profound-supererogation in postconverging–dementating/structuring/paradigming). This underlies the very ontological-normalcy/postconvergence epistemic-projection with regards to the conception of ‘ontological-good-faith/authenticity as to ontological-good-faith/authenticity postconverging–dementating/structuring/paradigming’ wherein communication and marketing strategies in eliciting human interest as to ontologically relevant ways for instance associated with useful public information and promotion in health, business, etc. (construed as of ontological-good-faith/authenticity), when poorly and cynically projected as to subvert the requisite ontological-veracity and human epistemic-growth/disquiet/discomfort-induced-sublimation,

In another regards, a generalised cultivated public distraction/indifference/passivity/debased relation to the political process as to imply it is discretionary, remotely-sovereignising, inconsequential and doesn’t warrant a certain requisite level of individual-by-institutional-by-social epistemic-growth/disquiet/discomfort-{induced-sublimation, as-from-existence’s—effusing/ecstatic–inlining-as-historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as-historicity-tracing-{science-ideology/fashionability/distraction}) very much underlies the crisis of participation, misinformation and impotence marring the democratic process in want for its creative ontologising renewal to rekindle ‘human sovereign–function/posture as to public-sovereignty–giving function/posture’. Critically, this aporeticism overcoming/unovercoming issue is fundamentally one of translatable-accordance of ‘our present’ prospective nascent-

It can be appreciated in this regards as to the archetypal case of Galileo prosecution that in many ways the technical demonstrations with his telescope were more or less accommodable to his persocutors with their grander issue being the implications of his interpretations on their overall nonpositivising/rational-empiricism conception of the world; and in many ways such an attitude is not exclusive to any one Age and society, and our very own positivism–procrypticism as to its occlusiveness is very much bound to turn a blind eye to its inconvenient truths as to prospectively requisite <amplituding/formative> disposedness/psychologismic-construct—(as-to-orientation/value-construct/valuation—and—derived-parameterising) and <amplituding/formative> entailment—(as-to-totalising-contiguous/coherent—factuality-of—variability). associable with all parties partaking/interested/commenting/elucidating with regards to the said knowledge discursivity (which will inherently render such supposed knowledge discursivity chaotic together with the more fundamental circular issue of lacking ontological-normalcy/postconvergence epistemic-projection disambiguative process of aetiologisation/ontological-escalation conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism). An ontological/scientific construct ‘escalates’ specific/particular manifest instances of phenomena into a ‘universal or totalising-entailing conceptualisation which ‘knowledge principle conceptualisation’ then addresses (percolates into) the ‘infinity of related incidental phenomena and cases’; and in this respect, Newton articulates the science of mechanics metaphorically from ‘an initial apple that hits his head while under a tree’ not because the science of mechanics will revolve around an apple that hit his head (so-construed as metaphysics-of-presence-\{implicated-’nondescript/ignorable—void—\text{’-as-to—

In many ways such a surreptitious claim to veridical societal and cultural traditions that have to ‘supposedly be protected from prospective existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’—<as-to-perspective—ontological-normalcy/postconvergence—implied—‘prospective-aporeticism-overcoming/unovercoming’>—speaks of a surreptitious self-anointedness that do not veridically reflect advantageously upon prospective individual, institutional and social emancipation/sublimation possibilities but rather speaks to an undercurrent of vague domineering that is not socially accounted (especially as to the dragged-out nature of ‘prospective reference-of-thought appraisal of sublimating—nascence comprehensiveness/nonimmediacy/indirectness’) but for a mere sense of social ascendancy which paradoxically leaves in its ‘non-ontologising/disontologising wake’ socio-econo-political crises and malaises to which the majority of the citizenry only come across in serenity as to their numbed/manipulatable/gullible underlying sense of common nation-belonging (and most critically manifests of a veridically suboptimal human-decisionality—<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> capacity). In this regards, it is herein contended that veridical thought do not need any protection from itself with such covert/underhanded/minioning attitude of non-ontologising/disontologising surreptitious knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge manifestation which is very much paradoxical as it is rather more socially dangerous (as to when it implicitly posits to ‘covertly police’ right/sound thought) in the sense that it is exactly the need for right/sound thought that can protect society against unsound thought and there is no neutral/objective state of thought that knows of unsound thought beforehand without the prior opened cultivation of right/sound thought (with such non-ontologising/disontologising surreptitious knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge enculturation as to its ‘unevaluated/uncritical supposedly right/sound thought’ thus leading
rather to a collateralising mentality in the face of its prospective desublimation and there is no
telling to which extent prospective human sublimating potential becomes shunted perpetually
into this desublimating collateralising mode and its collateralising dearth). The opened

Thus the manifestation of ‘socially radiating sway of non-ontologising/disontologising surreptitious knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge desublimation substituting over prospective veridical knowledge sublimation possibilities of social and institutional constructs as to prospective implicated_attendant—ontological-contiguity~ speaks to the fact that (and as so-avowed by indirect and surreptitious pronouncements manifesting such non-ontologising/disontologising) ‘the very social manifestation of human intellection itself displays of its very own stealthy/surreptitious/underhanded desublimating thresholding of anti-intellection non-ontologising/disontologising’; however counterintuitive to our ‘existentialising—frame of priorly seconddowered institutionalisation-threshold of mere-formulaicity—<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising> notional—positive-opportunism—of-social-functioning-and-accordance as not speaking to prospective human disruptive aporeticism overcoming/unovercoming’ which seem to represent by default that ‘public-facing social and institutional setups as to their mere-formulaicity—<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising> of intellection’ necessarily and

This insight effectively underlies that ontology/science is actually a birthing/nascency within prospective ‘residuality in re-originariness/re-origination as to human existentialising supererogation for prospective apriorising/axiomatising/referencing- {of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—conflatedness \in \{preconverging-disentailment-by\}–postconverging entailment that cannot be unshrouded by mere-formulaicity-<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising> of prior apriorising/axiomatising/referencing- {of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—constitutedness \in \{preconverging-entailment; and this insight is critical in order to preserve-and-prolong human prospective ontologising-and-re-ontologising and thus uphold the prospective sublimating/emancipative/enfranchising possibilities so-underlying ‘human consciousness notional~protensivity imbuing prospective psychologismic–epistemic-acutisation-<as-to-postconverging–dementating/structuring/paradigming,-eliciting-of-existence’s-sublimating-nascence-in-prospective-aporeticism-overcoming/unovercoming’ undergirding the ‘full experiment/experientiality that is the human social-emanance’ (ever always at the threat and mercy of prospective non-ontologising/disontologising as to temporal advantageousness of dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>). ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’
that its most critical/grave moments are moments at which it is hardly/poorly present/existent as
to its ‘given implied totalising-entailing $^{57}$meaningfulness-and-teleology$^{109}$’ wherein for
instance the social atrophying associated with the Great Depression rather elicited statal
supererogatory–progressivity extending into the postwar era of sociopolitical and
socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the
pure sense of the word and in many ways the technocracy developed and resourced in the
postwar years and the associated scientific and technical advancement especially in the face of
the Cold War in many ways speak to an underlying supererogatory–progressivity on which
waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-
contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a de-mentative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human
supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfareing that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of
capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can de-mentatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term
skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of supererogatory–progressivity’ as so-associated with debt servitude and dementative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national
supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to
capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory–progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness—<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of ’presencing—absolutising-identitive-constitutedness —social-vestedness/normativity—<discretely-implied-functionalism>). Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the modern-day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation’ of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to ’presencing—absolutising-identitive-constitutedness —social-vestedness/normativity—<discretely-implied-functionalism>).
relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from a totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is preconvergingly–de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over

Such a depth of contemplation as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} effectively reflects a rather more profound conceptualisation of human psychology as to its transcendence-
and-sublimity/sublimation/supererogatory de-mentativity inducing potential as to the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring implications in reflecting holographically<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process (at the crossroads of prior meaningfulness-and-teleology and prospective metaphoricity) over approaches of relative gimmickiness-of-thought as to our positivism/rational-empiricism presencing—absolutising-identitive-constitutedness <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that poorly address human egotistic/self-referential complex in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint and with the corresponding possibility for sophistic/pedantic moral and intellectual disenfranchisement/swindling/corruption/dispossession (as the fact is when it comes to social-stake-contention-or-confliction ‘knowledge-reification—gesturing—inprospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment–by}–postconverging-entailment> tends to be notionally/epistemically caught up between a desublimation/gimmickiness and sublimation preconverging/postconverging–de-mentating/structuring/paradigming’ as reflected in the social reality of ‘a veil of knowledge associated with subterfuges’ reflected say in an ambiguous continuity between genuine-knowledge and chicanery, social/institutional intellectualism and social/institutional sycophantic-sophistry, treatment and placebo, alchemy and chemistry, quackery and medicine, technological-advancement and technical-mystification, flawed-industrial-analyses-and-certifications and disinterested-scientific-analyses-and-certifications, etc.). In other words, the notion of ‘the other’ as aetiologisation/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled
commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity for ontologically-veridical virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the s; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology misunderstood as implying that it lies with a historical tradition like the Ancient Greece tradition or German Folk tradition rather than lying with an underlying transcendental universal notion construed as ‘going beyond them-and-us logic’ as of the implications of universal human emancipating potential of re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking -of-notional-deprocrypticism-prospective-sublimation), and this fundamentally scuppered his possibility of ‘attaining a conception of prospective notional-
contiguity/epistemic-contiguity -<profund-supererogation -of-mentally-
aestheticised-postconverging/dialectical-thinking -qualia-schema> as of the need for prospective relative-ontological-completeness -of- reference-of-thought’, rather than an ‘ontologically-flawed idea implying a certain given historical tradition’. Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’ as of our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatique prior relative-ontological-incompleteness –of– reference-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity -<profund-supererogation -of-mentally-
aestheticised-postconverging/dialectical-thinking -qualia-schema> as of prospective relative-ontological-completeness –of– reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. This existential reality about
coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of ‘s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme’ in ontological-contiguity as of its totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness of reference-of-thought perspective construed-as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity as of prospective relative-ontological-completeness of reference-of-thought, as implicit with the case of Derrida’s spirit insight. Ultimately, the ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ should ontologically nurture the requisite psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective notional-
contiguity/epistemic-contiguity as of prospective relative-ontological-completeness of reference-of-thought implied as of deprocrypticism—or-preempting—disjointedness-as-of reference-of-thought as implied by postmodern human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation thus inducing the aetiologisation/ontological-escalation addressing/resolving our ‘modern take attitude/mental-disposition/care–and–episteme’ vices-and-impediments. As a further elucidation, prospective notional-contiguity/epistemic-contiguity as of prospective relative-ontological-completeness of reference-of-thought actually points out that the uninstitutionalised-threshold is rather a point of de-mentation (supererogatory-ontological de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with a universal principle understanding of the transformation of traditions and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally
understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically-conjugatively-and-transfusively-the ontological-contiguity—of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating-{amplitudizing/formative}supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,–as–spontaneity-of-aestheticisation to Descartes thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation perspective whereas Descartes is more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivist (as of dimensionality-of-sublimating-{amplitudizing/formative}supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) which as of ‘self-reflexive–instigative-eventuating-(as-to-teleological-instigative/incipient–willing/arbitrariness/waywardness/faith-drivenness/supererogating-for-human-intelligibility,-preceding-existence’s-eventuating-sublimating-validation/desublimating-invalidatation) philosophically generates his thinking-proposition as to prospective reasoning-from-
results/afterthought implied budding-positivism reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation; such that budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument becomes intelligible, thus revealing that Heidegger implied notional-discontiguity/epistemic-discontiguity -><shallow-supererogation -of-mentally-

We thus see why the future redevelopment of Heideggerian misconceived prospective notional-contiguity/epistemic-contiguity profound-supererogation of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema as of prospective relative-ontological-completeness reference-of-thought as undertaken by latter thinkers like Foucault, Derrida, Deleuze, Lacan, Lyotard and others are full of prospective quasi-transcendental ‘de-mentative/structural/paradigmatic disseminative implications’ as reflecting an underlying reality of prospective reference-of-thought de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) construed herein as of prospective postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, and so just as searing with ‘de-mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought de-mentation (supererogatory–ontological–de-mentation-or-
dialectical–de-mentation—stranding-or-attributive-dialectics) implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporetism overcoming/unovercoming (underlying that Descartes’ dimensionality-of-sublimating

That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity58 rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval-scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the
metaphoricity implication that the natural can be thought of operationally and in sublimation on its own terms–as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and postconvergingly–dementating/structuring/paradigming the possibility of elucidation of any subject on this thinking educing sublimation basis’. In effect Descartes project is actually as to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing as of positivism, and so from the prior presencing—absolutising-identitive-constitutedness of non-positivism/medievalism. With both the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme and postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, we may be forgiven to confuse-and-dismiss their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications as of prospective reasoning-through/messianic-reasoning as incoherent from a shallow-and-immediate uninsightful analytical perspective on the basis of the respectively prior reasoning-from-results/afterthought of non-positivism/medievalism and positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought (since as of the latter relative-ontological-incompleteness perspective ‘all the reasoning in the world’ is only respectively as of non-positivism/medievalism apriorising/axiomatising/referencing–psychologism or positivism–procrypticism apriorising/axiomatising/referencing–

The appropriate contemplative perspective for the appreciation of their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications is effectively crossecgenerational as of the amplitude/breadth of reference-of-thought implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity; as we can effectively appreciate that the very mathesis universalis schema/disseminative metaphoricity engendering our positivism apriorising/ axiomatising/referencing/ intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity—aestheticised—preconverging/dementing—qualia-schema analysis, implied as of prospective relative-ontological-completeness-reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness-reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising/circumscribing/delineating construct being the reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology but rather human-subpotency adjusting as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness-reference-of-thought/relative-ontological-
completeness -of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of `de-mentation-⟨supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics⟩` with regards to the `reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity`. In lieu the poor intuition is to imply that we are already well grounded and that prospective `meaningfulness-and-teleology` is an incrementalism-in-relative-ontological-incompleteness --enframed-conceptualisation to our already established psychoanalytic disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness --unenframed-conceptualisation in resetting-our-psychoanalytic-disposition/prospective-grounding as of `amplituding/formative-epistemicity>totalising–renewing-realisation/re-perception/re-thought in apriorising/axiomatising/referencing-⟨of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity⟩–conflatedness in {preconverging-disentailment-by}–postconverging-entailment, such that this leads to apriorising/axiomatising/referencing-⟨of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity⟩–constitutedness in preconverging-entailment when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-subpotency. Thus however counterintuitive, this overall conception structures the fact that it is as of `de-mentation-⟨supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics⟩` that our human `amplituding/formative-epistemicity>totalising/circumscribing/delineating `reference-of-thought is transcended for prospective relative-ontological-completeness `of`reference-of-thought implied as of notional-discontiguity/epistemic-discontiguity `⟨shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema⟩`. When so-construed prospectively, ‘postmodern exteriorisation attitude/mental-disposition/care–and–episteme’ is all about such a deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought as implied by its human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation

Consider in this regard the reasoning-through/messianic-reasoning prospective de-mentative/structural/paradigmatic disseminative implications as of Derridean différance/internal-dialectics/difference-deferral, Foucauldian genealogy-knowledge-and-power-discourse and Deleuzian immanence experimentation that can all be construed (and as equally implied by this author’s ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing/epistemicity-relativism-determinism), as of prospective transcendence-and-sublimity/sublimation/supercratory-de-mentativity singularisation projected epistemic-immanence/veridical-epistemicity-relativism-determinism for perpetuated/disseminative preemption of conceptual disjointedness/disentailment. Thus ultimately the notional–deprocrypticism registry-worldview/dimension is one that will be marked by sharper and sharper singularisation projected epistemic-immanence/veridical-epistemicity-relativism-

It is interesting as well to note for example that when equations didn’t work out in reflecting attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming> for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology.

Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and
humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) elicits human temporal/shortness-of-register-of—meaningfulness-and-teleology uninstitutionalised mental-dispositions. Such ‘excogitative-blanking of prospective \textit{attendant—ontological—contiguity—\textit{educed—existentialising/contextualising/textualising-contiguity}}—\textit{in-elucidation—or-reification’ can be construed as to when say the non-positivistic mindset goes about articulating meaningfulness-and-teleology falsely as if superstitious notions ontologically-veridical out of prospective positivism \textit{attendant—ontological—contiguity—\textit{educed—existentialising/contextualising/textualising-contiguity}}—\textit{reification, and likewise with regards to a positivism/rational-empiricism manifestation of \textit{procrypticism—or—disjointedness—as-of—reference-of-thought mindset construal of meaningfulness-and-teleology that utterly overlooks the de-mentative/structural/paradigmatic reference-of-thought denaturing implications of its prospective disjointedness of meaningfulness-and-teleology out of prospective \textit{attendant—ontological—contiguity—\textit{educed—existentialising/contextualising/textualising-contiguity}}—\textit{reification, as such disjointedness-as—of—reference-of-thought can be instigated originally from a postlogism—slantedness mental-disposition and the developing social dynamics with human temporality. We can appreciate in
this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon/projection of \( ^5 \) meaningfullness-and-teleology\(^{100} \) about \textit{attendant ontological contiguity - educed - existentialising/contextualising/textualising-contiguity} \(^{68} \); but then at its uninstitutionalised-threshold \(^{103} \) where its \(^8 \) reference-of-thought de-mentative/structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness\(^{67} \)-of-\(^{-} \)reference-of-thought, it always systemically faces notional–procrypticism/notional–disjointedness as of vices-and-impediments\(^{106} \) arising from non-positivism/superstitious human-subpotency existentially constrained temporal ontological-performance\(^1 \)-\(<\textit{including-virtue-as-ontology}>\) as \(<\textit{amplituding/formative}>\) wooden-language\(^8 \) \((\text{imbued—temporal—mere-form/virtualities/dereification/akrasiatic—drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology}^{100} \)\) in usurpation of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon/projection of \( ^5 \) meaningfullness-and-teleology\(^{100} \) about \textit{attendant ontological contiguity - educed - existentialising/contextualising/textualising-contiguity} \(^{68} \)’ now in false certainty/assurance. \textcolor{red}{<amplituding/formative> wooden-language-{imbued—temporal—mere—form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing — narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology \}} of the prior registry-worldview/dimension in usurpation’, which understanding is actually what empowers the possibility for prospective institutionalisations that surpersede/transcend it. In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-
utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure/(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing/<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>) of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective. That is, grounding of meaningfulness-and-teleology\(^\text{100}\) is certainly required, but as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective relative-ontological-completeness -of- reference-of-thought; and as highlighted elsewhere it is ontological-completeness-of- reference-of-thought (of human-subpotency as of its limited-mentation-capacity-deepening\(^\text{11}\) ) that can imply human-subpotency ontological-performance\(^\text{11}\)-<including-virtue-as-ontology> correspondence with the full-potency of existence. It should be noted here that this ontology’s-directedness-as-Being/ontologically-veridical notion of human-subpotency singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism ontological-performance\(^\text{11}\)-<including-virtue-as-ontology> correspondence with the full-potency of existence is a notion of teleology\(^\text{100}\) in notional-conflatedness\(^\text{11}\) as of ontological-normalcy/postconvergence (with teleology\(^\text{100}\) fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism in existence as ontological, and so-reflecting

Singularisation—<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism thus speaks of how human subpotent prospective relative-ontological-completeness—of—reference-of-thought as of its limited-mentation-capacity-deepening—induce transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, with the ‘ecstatic releasement of existence to human-subpotency’ as to existence-potency—sublimating—nascence,—disclosed—from-prospective-epistemic-digression. Rather it is more candid to relate to the ontological-contiguity\textsuperscript{68}—of-the-human-institutionalisation-process\textsuperscript{69} as of human limited-mentation-capacity-deepening\textsuperscript{44}, and so as of prospective intemporal seconndnatured institutionalisation induced\textsuperscript{10}, universal-transparency\textsuperscript{105} <transparency-of-totalising-entailing, as-to-entailing > {<amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness>}, deferential-formalisation-transference and habituation in positive-opportunism—of-social-functioning-and-accordance\textsuperscript{76}. Central to any such prospective institutionalisation transcendental-enabling/sublimating/supererogatory-de-mentativity meaningfulness-and-teleology\textsuperscript{100} is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness\textsuperscript{87}—of—reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification as of the developed disposition to register such implications as of their intemporal/longness-of-register-of—meaningfulness-and-teleology\textsuperscript{100} pertinence; as the notion of crossgenerational de-mentation—supererogatory-ontological-de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from
preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying meaningfulness-and-teleology. However, this ‘ontologically-veridical reification of value reference as of prospective relative-

with regards to sound human intellection at destructuring-threshold—{uninstitutionalised-

<including-virtue-as-ontology>. As this reification/dereification of meaningfulness-and-

advancement of temporal interests in stifling the possibility of prospective human intellectual-and-moral emancipation. The idea of ontological-bad-faith/inauthenticity raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional—firstnaturesd—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—existentialism-form-factor, with the possibility of denaturing as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to causality as to projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity reflection of attendant ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating—supererogatory—de-mentativity/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness—of—reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and
emancipating vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care–and–episteme’ conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness of reference-of-thought; and in due course, by its <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing.–for-explicating–ontological-contiguity constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary–as-unenframed/unbeholding/outlier-conceptualisation⟨imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism–prospective-sublimation⟩ potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness of reference-of-thought with the latter’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing.–for-explicating-ontological-contiguity for the
possibility of prospective transcendence-and-sublimity/ sublimation/supererogatory-de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness ‘of’ reference-of-thought naïve non-transcendental <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag , it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘preconverging-existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of meaningfulness-and-teleology’. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation-projected epistemic-immanence/veridical-epistemicity-relativism-determinism as it reflects ontological-completeness-of reference-of-thought for ontologically-veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be
teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slauntedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of
temporal-to-intemporal dynamics of human ontological-performance-<including-virtue-as-ontology> of aposteriorising/logicising/deriving/intelligising/measuring ‘meaningfulness-and-
teleology’ reflecting dereified and reified construals of attendant ontological-contiguity educed existentialising/contextualising/textualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence as to psychologismic−apriorising/axiomatising/referencing−{of attendant ontological-contiguity educed existentialising/contextualising/textualising-contiguity }−conflicatedness in {preconverging-disentailment−by} postconverging-entailment-in-self-becoming/self-conflicatedness /formative−supererogating of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance-<including-virtue-as-ontology> manifestation of psychopathy and social psychopathy which is ‘de-mentatively/structurally/paradigmatically associated with the denaturing of the <amplituding/formative−epistemicity> totalising−devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the
<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{11} backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring \textsuperscript{5} meaningfulness-and-teleology \textsuperscript{60}; with the fundamental implication that there are thus divergent apriorising/axiomatising/referencing/intelligibility/setup/measuring/instruments as of psychopathic induced postlogism \textsuperscript{78}–slantedness, and its social cognisance and integration as conjugated-postlogism so-conjugating as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of social psychopathy. In this latter case of contrasted reification and dereification and implying moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-as-psychopathic-and-social-psychopathic mental-dispositions and the intemporal mental-disposition, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-discontiguity\textsuperscript{1}–contrastive-reification-dissemination-and-dereification-dissemination\textsuperscript{2}–implications’ construed as the ‘variance/discrepancy of meaningfulness-and-teleology\textsuperscript{100}’ as-of-prospective-relative-ontological-completeness\textsuperscript{89}–postconverging-or-dialectical-thinking\textsuperscript{21}–apriorising-psychologism and as-of-prior-relative-ontological-incompleteness\textsuperscript{89}–preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism respectively; it is only ontologically-veridical difference-conflatedness\textsuperscript{1}–as-to-totalitative-reification-in-singularisation\textsuperscript{<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>–as-veridical-epistemicity–relativism–determinism} from the projected ‘notional–singularisation\textsuperscript{<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>} projected epistemic-immanence/veridical-epistemicity–relativism–determinism’ of the intemporal mental-disposition as-of-prospective-relative-ontological-completeness\textsuperscript{–postconverging-or-dialectical-thinking\textsuperscript{1}}–apriorising-psychologism recognising this ‘preconverging-or-dementing\textsuperscript{20}–apriorising-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument perspective or attitude/mental-disposition/care–and–episteme. Such a difference-confaltedness ‘as-of-‘epistemic-totality ’ is equally what reflects in the bigger scheme of things, at the \(^{37}\)reference-of-thought-level, the reality of humankind as of the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions humans psychological dispositions as per their corresponding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments. In this regard, the ontological-contiguity\(^68\)—of-the-human-institutionalisation-process\(^69\) can be construed as
constitutedness, as 'epistemic-totality' dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > -as-flawed-epistemicity-relativism-determinism as providing ontological-veridicality as of this now dereifying construal of attendant ontological-contiguity educated-existentialising/contextualising/textualising-contiguity of 'the very same physics
<amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality'. But then again, the reality of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of prospective relative-ontological-completeness will point out that such 'traditional classical mechanics axiomatic-construct' identitive-constitutedness, as-'epistemic-totality' dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > -as-flawed-epistemicity-relativism-determinism is in reality preconverging-or-dementing apriorising-psychologism as of its relative-ontological-incompleteness. This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism—procripticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procripticism—or—disjointedness-as-of-reference-of-thought that speaks of our prospective preconverging-or-dementing apriorising-psychologism at our prospective positivism—procripticism uninstitutionalised-threshold, and so as reflected from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructur-e-of—meaningfulness—and-teleology as of prospective deprocripticism—or—preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension prospective relative-ontological-completeness. Interestingly, it should be noted here that with such phenomenon as psychopathy and social psychopathy that is ‘de-mentatively/structurally/paradigmatically associated with the denaturing of the

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of our positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold (just as notions-and-accusations-of-sorcery in a universalisation–non-positivism/medievalism social-setup is ‘dementatively/structurally/paradigmatically associated with the denaturing of the

But then just as the reflex mental state and attitude/mental-disposition/care-and-episteme in a universalisation-non-positivism/medievalism social-setup will be resistant to an elucidation of notions-and-accusations-of-sorcery adopting the perspective or attitude/mental-disposition/care-and-episteme of the reifying prospective positivism to arrive at ontological-veridicality, likewise more fundamental in undermining the elucidation of the manifestation of psychopathy and social psychopathy is the fact of an ordinariness wooden-language (imbued—averaging-of-thought—leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications) reflex mental state and attitude/mental-disposition/care-and-episteme of our positivism–procripticism that will be resistant to adopting the reifying perspective or attitude/mental-disposition/care-and-episteme of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocripticism—or-preempting—disjointedness—as-of—reference-of-thought to arrive at ontological-veridicality that rather implies the dialectical~de-mentation of our positivism–procripticism at its uninstitutionalised-threshold, and as we falsely go on to construe attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—in-reification/dereification by adopting the positivism–procripticism dereifying perspective or attitude/mental-disposition/care-and-episteme in its prior relative-ontological-incompleteness in an exercise of ontologically-flawed identitive-constitutedness—as-‘epistemic-totality’—dereification-in-dissingularisation—as-the—disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness—as-flawed-epistemicity-relativism-determinism. Further and insightfully again, with the manifestation of childhood psychopathy where the postlogism-slantedness is universally

tendencies do not address de-mentatively/structurally/paradigmatically defining issues of a registry-worldview/dimension as of its vices-and-impediments \(^6\) like the comprehensive implications of disjointedness-as-of-\(^1\) reference-of-thought/procrpticism with regards to our positivism–procrpticism or say the comprehensive implications of non-positivism in a medieval or animistic social-setup. Prospective notional-contiguity/epistemic-contiguity \(<\text{profound-supererogation}-\text{of-mentally-aestheticised}-\text{postconverging/dialectical-thinking}>\) thus effectively implies deneuterising \(^7\) ‘exteriorisation attitude/mental-disposition/care–and–episteme’ of \(^{57}\) meaningfulness-and-teleology \(^{100}\)–as-metaphoricity \(^{58}\) superseding/overriding the prior \(^1\) reference-of-thought temporally \(^{59}\) neuterising ‘interiorisation attitude/mental-disposition/care–and–episteme’ of \(^{57}\) meaningfulness-and-teleology \(^{100}\). This fundamentally speaks of a de-mentative/structural/paradigmatic conception of virtue-as-ontology transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness -of- reference-of-thought. This very much differs from \(^4\) \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}>\) ontological-contiguity \(^{68}\) palliative virtue constructs as of variance of the very same \(^1\) reference-of-thought–categorical-imperatives/axioms/registry-teleology \(^{100}\),-for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology \(^{106}\), and thus implies temporally \(^{50}\) neuterising ‘interiorisation attitude/mental-disposition/care–and–episteme’ of \(^{57}\) meaningfulness-and-teleology \(^{100}\). This wrongly implies the inherent exceptionalism of the conception of virtue for humans in any such registry-worldview/dimension outside/beyond the ontologically-veridical implications of virtue-as-ontology associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\(^{57}\) meaningfulness-and-teleology \(^{100}\) in reflecting
holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process. Such an ontological-contiguity of-amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag virtue conception is caught up within such a registry-worldview/dimension internal social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology <preconverging~'motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness—(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) frameworks and temporal mandarinism and notional–pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness ) frameworks as of the given reference-of-thought, with these elements in need for prospective transcendence-and-sublimity/sublimation/supernatural–de-mentativity as of prospective relative-ontological-completeness —of—reference-of-thought but paradoxically now defining the conception of virtue. The fact is our pretences and arguments of practice, as not critically pinned down to their ontological-veracity as of prospective relative-ontological-completeness, can similarly be meted with pretences and arguments of practice as of each and every registry-worldview’s/dimension’s reference-of-thought practices, and thus conceptualising virtue by while circumventing as of beyond-the-consciousness-awareness-teleology —<in-preconverging-existential-extrication-as-of—existential-unthought> the vices-and-impediments of each registry-worldview/dimension in want of its ‘pure-ontology’ virtue resolution as of aetiologisation/ontological-escalation. In this regard such palliative virtue constructs overlooking fundamental underlying de-

subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing.–as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } frameworks as reflected from ‘positivism/rational-empiricism attitude/mental-disposition/care–and–episteme’. However, approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-
completeness by-reification/contemplative-distension, the fact is these are not really the underlying drivers for virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and are peripheral to more ontologically profound theorised-or-untheorised emancipating events driving virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness-of-reference-of-thought, notwithstanding our state of beyond-the-consciousness-awareness-teleology in-preconverging-existential-extrication-as-of-existential-unthought. The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the very same species potency, and thus we can’t ascribed inherent virtuous superiority by the mere token of our own practice. Rather the exceptionality behind human virtuous potential lies ontologically with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification-in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing—as-veridical-epistemicity-relativism-determinism causality—as-to-projective-totalitative-implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity’ as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, reflecting the fact that pure-ontology that as of its secondnaturing induces the requisite level of human virtue performance at each given registry-worldview/dimension, retrospectively to prospectively. It is rather by acting upon the inherent ontological-contiguity—of-the-human-institutionalisation-process as of its ontological reflection in Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—
meaningfulness-and-teleology that virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity comes about, whether or not beyond-the-consciousness-awareness-teleology. In this regard, any registry-worldview/dimension reference-of-thought is a wooden-language imbued—averaging-of-thought-as-to-leveling/resentment/closed-construct-of meaningfulness-and-teleology as-of-'nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications} as of the vices-and-impediments, as of the prospective/new superseding categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so with regards to any prospective institutionalisation relative to the uninstitutionalised-threshold. Thus the ‘field of conception/notional–conception/notion of virtue-as-ontology covers way more than its articulation within a same registry-worldview’s/dimension’s

<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatc-drag, as its implications as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology need to be drawn beyond a cloistered-
consciousness as of retrospective and prospective transcendental illuminating implications. In this regard, a postmodern/suprastructuralism philosophical stance with regards to virtue-as-ontology very much aware of the transcendental ontological sublimating-over-desublimating implications of existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression: will question such reasoning-from-results/afterthought basis of palliative virtue constructs especially as of their transcendent ontological sublimating-over-desublimating implications; ask whether by definition a registry-worldview/dimension—reference-of-thought is postconvergingly—de-mentated/structured/paradigmed to sponsor/promote/endorse its very own prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of the need for the subversion of its categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, that endemise-and-enculturate its vices-and-impediments by prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, more like could the Copernicuses, Galileos, Descartes, Diderots, etc. call upon the very same non-positivism/medievalism in need for prospective positivism transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to underwrite the subversion of its entrenched non-positivism/medievalism internal social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology—preconverging—‘motif-and-apriorising/axiomatising/referencing’—imbuing—existentialising—enframing/imprintedness—as-to—historicity-tracing—in-presencing—
hyperrealisation/hyperreal-transposition frameworks and temporal mandarinism and notional-pedantising/muddling/formulaic-hollowing-out—in-
subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing-as-to-entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness} frameworks; and, hence the ontologically-veridical paradox of the very postconverging–de-mentating/structuring/paradigming implications of human limited-
mentation-capacity-deepening renders any registry-worldview/dimension reference-of-
thought ever deficient as of its need for psychoanalytic-unshackling/prospective-
grounding/prospective-reification of meaningfulness-and-teleology\textsuperscript{10}. Ultimately, anti-
constructivism and anti-relativism criticisms of postmodern-thought come down to our ‘modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-
incompleteness perspective/framing/reference/horizon/projection’ apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–
existentialising/contextualising/textualising-contiguity}—constitutedness in preconverging-
entailment construal of categorising/taxonomising schemes that pervades the ‘modern categorising mental-disposition’ as of our occlusive-consciousness neuterising, as we fail to grasp the implication of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori; such that the meaningfulness-and-teleology\textsuperscript{10} that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–
existentialising/contextualising/textualising-contiguity} conflatedness in {preconverging-
disentailment by} postconverging-entailment that ensures that our
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening’ implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional~confatedness of notional-deprocrypticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjoinedness/entailment-of-prospective-nonpresencing. Such a postmodern suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care–and–episteme with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of such organic-knowledge construed in intemporality as supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’ postconverging/dialectical-thinking–apriorising-psychologism, whereas mechanical-knowledge is rather predispose to adhere as of temporal threshold-of nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism to such mere reference-of-thought–categorical-imperatives/axioms/registry-
teleology\textsuperscript{101}, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{102}. The latter points to an inappropriate attitude/mental-disposition/care—and—episteme which is not beholden to the prospective institutionalisation but rather is of preconverging—existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care—and—episteme\textsuperscript{5} and organic-knowledge attitude/mental-disposition/care—and—episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care—and—episteme\textsuperscript{5} will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{101} in terms—as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care—and—episteme as of its prior relative-ontological-incompleteness\textsuperscript{89}—of—reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation—<as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing-> posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots,
etc. Incidentally, the positivism/rational-emiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-emiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-emiricism progress. The occasional development of enlightenment and positivism/rational-emiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-emiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness of reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipating virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfullness-and-teleology as of any specific human society relative-ontological-incompleteness of reference-of-thought as fundamentally denaturing, and likely to induce transversality-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans
are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency — {transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness }. Ultimately, such a double-gesturing hold out the possibility in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care—and–episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care—and–episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency — {transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness }. Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation—<as-to—
that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity <shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care–and–episteme event –or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible
If creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originarity-as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking -‘projective-insights’/epistemic-projection-in-conflatedness ‘-of-notional–deprocrypticism-prospective-sublimation} creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification–gesturing<in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity}—conflatedness—in{preconverging-disentailment-by}–postconverging-entailment> insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity<—of-the-human-institutionalisation-process as of difference-conflatedness<—as-to-totalitative-reification-in-singularisation<as-to-the-nondisjointedness.entailment-of-prospective- nonpresencing> -as-veridical-epistemicity-relativism-determinism <amplituding/formative–epistemicity>causality—as-to-projective-
totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’ shows that there has always been beyond-the-consciousness-awareness-teleology\(^{(6)}\)<in-preconverging-existential-extrication-as-of-existential-unthought> ‘institutional investment’ that is not always just of eruditic ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness -of-axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity\(^{(65)}\) undermining of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{(100)}\) due to ‘lack of social\(^{(104)}\)universal-transparency\(^{(105)}\)-transparent-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\(^{(46)}\)’. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness\(^{(8)}\)-of-reference-of-thought as underscoring medieval vices-and-impediments\(^{(106)}\) with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{(100)}\); and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-
completeness-of reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of meaningfulness-and-teleology stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of its crossgenerational transcendental implications and as reflected from the insight in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity —of-the-human-institutionalisation-process. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics causality—as-to-projective-totalitative—implications-of-prospective nonpresencing—for-explicating-ontological-contiguity’, and so divulged by existence-potency sublimating—nascence, disclosed from prospective-epistemic-digression; as prior human presencing—absolutising-identitive-constitutedness experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as presencing—absolutising-identitive-constitutedness enabling the obtention of any such conclusions from the given classical-mechanics—axiomatic-constructs apriorising/axiomatising/referencing—of-attendant ontological-contiguity—educed—
existentialising/contextualising/textualising-contiguity — constitutedness — in preconverging entailment, but rather it is by apriorising/axiomatising/referencing {of attendant ontological contiguity — educed — existentialising/contextualising/textualising-contiguity — conflatedness — in preconverging disentailment by} postconverging entailment with regards to ‘the very same physics — amplituding/formative epistemicity > totalising — devolved — purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics — axiomatic-constructs was construed as of nonpresencing-<perspective—ontological-normalcy/postconvergence>. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of—meaningfulness-and-teleology individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by amplituding/formative epistemicity > causality — as-to-projective-totalitative—implications-of-prospective—nonpresencing— for-explicating-ontological-contiguity tendential validation as to existence-potency — sublimating—nascence, disclosed from prospective-epistemic-digression. Such a construal of human transcendence-and-sublimity/sublimation/supererogatory — de-mentativity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics — axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening analysis; and insightfully, as reflected in the underlying apriorising/axiomatising/referencing {of attendant ontological contiguity — educed —
existentialising/contextualising/textualising-contiguity conflatedness in [preconverging-disentailment by] postconverging entailment of accreting-substitutive-subsumption-as-futural-différance-freeplay, sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological neuterising with deneuterising—referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional-deprocrypticism perspective/framing/reference/horizon/projection. Similarly, this author’s articulation of futural-différance as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural diffusion that coincides-and-is-contiguous with a prior Derridean diffusion as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to diffusion as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay diffusion, as a putting into question exercise, and subject to causality as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity validation before attaining defining-
transcendence and defining-sublimity'; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting-conviction-as-to-profound-suprerogation —of-‘attendant-intradimensional’.

postconverging/dialectical-thinking —apriorising-psychologism deference to the prescience of existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the postconverging–de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness of reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness of reference-of-thought, and so by maximalising-recomposuring totalising~renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential postconverging–de-mentating/structuring/paradigming of sublimation implying that the state of
recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality\(^{10}\)-as-of-neuterisation\(^{7}\)/relative-ontological-incompleteness \(^{9}\)/preconverging-existential-extrication-as-of-existential-unthought.

In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension \(^{84}\) reference-of-thought in prospective relative-ontological-completeness \(^{88}\)-of-axiomatic-construct-or-\(^{84}\) reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension \(^{84}\) reference-of-thought in prior relative-ontological-incompleteness\(^{89}\), even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social \(^{104}\) universal-transparency\(^{105}\) (transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative–epistemicity> totalising–in-relative-ontological-completeness \(^{13}\)’. But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness \(^{88}\)-of-axiomatic-construct-or-\(^{84}\) reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay\(^{2}\) comes into terms with both
presencing—absolutising-identitive-constitutedness\(^{14}\) and nonpresencing\(-<\text{perspective–ontological-normalcy/postconvergence}>\) on the basis of the prospective relative-ontological-completeness /ontological-contiguity\(^{88}\) of the latter over the prior relative-ontological-incompleteness\(^{89}\) of notional-discontiguity/epistemic-discontiguity \(-<\text{shallow-supererogation }\text{-of-mentally-aestheticised–preconverging/dementing–qualia-schema}>\) of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising\(^{23}\) but rather difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\(^{24}\) between presencing—absolutising-identitive-constitutedness\(^{14}\) and nonpresencing\(<\text{perspective–ontological-normalcy/postconvergence}>\). Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon/projection as of prospective relative-ontological-completeness\(^{88}\) notional-contiguity/epistemic-contiguity\(^{63}\)’ construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology\(^{100}\) grounded on such a developed consciousness perspective/framing/reference/horizon/projection. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon/projection as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology\(^{100}\) without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon/projection as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’;
for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon/projection’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon/projection as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon/projection’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon/projection as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon/projection’ to grasp notional–deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘notional–deprocrypticism mindset perspective/framing/reference/horizon/projection as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior
relative-ontological-incompleteness\(^{89}\) of reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency\(^{105}\) (transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative– epistemicity> totalising–in-relative-ontological-completeness )’ such charlatanism is exposed for what it really is, explaining the paniciness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of \(\text{de-mentation-}(\text{supererogatory–ontological–de-mentation-or- dialectical–de-mentation—stranding-or-attributive-dialectics})\) which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing /ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking –apriorising- psychology> of the consciousness in ontological-contiguity /relative-ontological-completeness’\(^{84}\) of reference-of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing –apriorising-psychologism> of the consciousness of notional-discontiguity/epistemic-discontiguity –<shallow-supererogation –of-mentally-aestheticised~preconverging/dementing –qualia-schema>/relative-ontological-incompleteness’\(^{84}\) of reference-of-thought as of ‘maximalising-recomposuring-for-relative-ontological-completeness’\(^{51}\)—unenframed-conceptualisation, and not \(^{52}\)incrementalism-in-relative-ontological-incompleteness\(^{89}\)—enframed-conceptualisation, as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to- ‘human<amplituding/formative–epistemicity>totalising~purview-of-construal”. As futural
différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay différance’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening\textsuperscript{54}; overriding the idea that the perspective/framing/reference/horizon/projection of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology\textsuperscript{100} should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{23}, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\textsuperscript{24} as of prospective relative-ontological-completeness\textsuperscript{89}-of-reference-of-thought bringing about transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of nonpresencing-<perspective-ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness\textsuperscript{69} and prospective relative-ontological-completeness\textsuperscript{88}, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{3} but rather a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\textsuperscript{24}; with human-subpotency
aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/superrerogatory—de-mentativity of nonpresencing—<perspective—ontological-normalcy/postconvergence>. In other words, human consciousness tends to be constraint to its <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising—or-logicising’ mental-disposition as of presencing—absolutising-identitive-constitutedness. But existence/ontology’s-directedness-as-Being as of nonpresencing—<perspective—ontological-normalcy/postconvergence> is beyond and not constraint by human consciousness as of its <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag, and thus hints-at the ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/superrerogatory—de-mentativity as of <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence (implicated—’nondescript/ignorable—void ’—as-to—presencing—absolutising-identitive-
constitutedness of any given from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising posture; such that humankind then overlooks presencing—absolutising-identitive-constitutedness and re-projects/re-anticipates nonpresencing-<perspective–ontological-normalcy/postconvergence> enabling human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Therefore, metaphoricity as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity as such simply refers to signification adjunctiveness to ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of both the meaningfulness-and-teleology implications to the so-renewed ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and the specific adjunctive-metaphoricity-signification within such renewed ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. Metaphoricity is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing’ meaningfulness-and-teleology as an epistemic-totalising/circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of nonpresencing-<perspective–ontological-normalcy/postconvergence> by human re-projection/re-anticipation ultimately

existentialising/contextualising/textualising-contiguity \{ conflatedness \} in \{ preconverging-disentailment-by \} postconverging-entailment; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay\^3. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon/projection and then contention/argumentation within such articulated perspective/framing/reference/horizon/projection, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon/projection for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality \(<\text{for-sublimating–existential-eventuating/denouement}>\text{–of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising/axiomatising/referencing’}\) complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is.
This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to ‘open-up’/‘throw-up’/‘reveal’ new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/supererogatory–de-mentativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon/projection before contention/argumentation as of any given perspective/framing/reference/horizon/projection, thus implying ‘poor critical judgment’. With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-
thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling-<in-deferential-formalisation-transference> are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of

As ultimately, it is the prospective relative-ontological-completeness of reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory–de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon/projection of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency —(transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness )’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-
a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity\(65\) critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive <amplituding-formative> wooden-language-{imbued-

subversion of progressive thinking and go on to permeate social practices and media practice,
thus rendering social and critical thought impotent. Further knowledge as understood by this
author is more than just the conception of its intemporal-as-ontological nature but knowledge is
much more completely and potently notional–knowledge as it understands as well the
implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-
ontology, and thus in the face of ontological-bad-faith/inauthenticity\(^6\) shouldn’t take the bait of
overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-
faith/inauthenticity\(^6\) rather than relating to it at its teleologically-degraded level for what it
truly is, and so as part and parcel of a complete conception of knowledge. Ultimately,
intellectual statuses are as pertinent as veridically enabling to human emancipation as of

bad-faith/inauthenticity\(^1\) is nothing less than self-inflicting irreverence and cannot thus turn
around to intimate irreverence when surreptitiously undermining knowledge of \(^{104}\) universal
consequential implications. This author as of metaphysics-of-absence\{(implicitied-epistemic-

summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective

as prior \(^5\) reference-of-thought, and that necessarily it speaks by its double-gesture reification of

quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective \textsuperscript{8} reference-of-thought ‘as of the prospective relative-ontological-completeness \textsuperscript{88} of-axiomatic-construct-or- reference-of-thought of a better knowledge perspective/\textsuperscript{84} reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness \textsuperscript{89} with regards to \textsuperscript{7} reference-of-thought and its derived \textsuperscript{8} meaningfulness-and-teleology \textsuperscript{100}, with the implication that we need to a prospective relative-ontological-completeness \textsuperscript{88} of-\textsuperscript{84} reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of \textsuperscript{57} meaningfulness-and-teleology \textsuperscript{100}. In other words, all concepts, notions as of ontologically-veridical \textsuperscript{57} meaningfulness-and-teleology \textsuperscript{100}, are made to have their internal-dialectics/différance as of nonpresencing-<perspective–ontological-normaley/postconvergence> for their sublimation and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity into more profound and more complete \textsuperscript{5} meaningfulness-and-teleology \textsuperscript{100}. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness \textsuperscript{88}; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of ‘deprocrypticism–or–preempting—disjointedness-as-of-\textsuperscript{84} reference-of-thought. Thus, for postmodern-thought the capacity to attain relative
ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of attendant ontological-contiguity; is the enabling approach for human ontological-reconstituting-as-to-conflatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating

⟨amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ of our supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern postconverging–dementating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing.–for-explicating–ontological-contiguity’, but rather dialectical discretion, imagination and speculation ‘as to
lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as herein implied by this author with ‘the ontological-contiguity\(^6\) of-the-human-institutionalisation-process\(^6\) congruent,-cogent-and-operant entailing framework of ontological-contiguity\(^6\)’. Anecdotally, the shallow-mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiology/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/diff\érence is what explains the ontological-contiguity\(^6\) of-the-human-institutionalisation-process\(^6\) as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^0\) and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/diff\érence as of successive transcendence-and-sublimity/sublimation/supercorogatory—de-mentativity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity\(^5\) is equally elicited by ‘lack of social universal-transparency\(^0\) (transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness )’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the causality as-to-projective-

In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness-of-reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation). Such apriorising/axiomatising/referencing-of-attendant-ontological-contiguity—conflatedness—of—preconverging-disentailment—by—postconverging-entailment imbued in postmodern-thought address more than just apriorising/axiomatising/referencing-of-attendant-ontological-contiguity—conflatedness—in—preconverging—entailment implications of knowledge construction as articulated herein but equally points
critically to intellectually decadent institutional dispositions and practices where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a back seat, with intellectual postures increasingly defended with non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in the form of many an intellectual increasing disposition ‘to misunderstand’ others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance; with a resultant sense of socioeconomic and socio-political impotence as such blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and preconverging–dementating/structuring/paradigming of academic institutional setups into increasingly into notional–pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness } are not dissociated from the effective possibility for transcendental-enabling/sublimating/supererogatory–de-mentativity, especially as such breakthroughs require the spontaneity of Dionysian arrangements. This author’s construes of ‘deprocrypticism—or–preempting—disjointedness-as-of’ ‘reference-of-thought ‘‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ conceptualisation as of ontological-escalation or aetiologisation, with respect to our present positivism–procrypticism

It is over this neuterising that human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is achieved from the prospective notional—conflatedness of notional—deprocrypticism and so by deneuterising — referentialism, which is equinominal/equivalent to nonpresencing—<perspective—ontological-normalcy/postconvergence>. In other words the historial implications of human limited-mentation-capacity-deepening is that ‘as of a less and less ontologically-flawed meaningfulness-and-teleology towards ontological-normalcy/postconvergence, ‘it projectively/anticipatorily brought about the <cumulating/recomposuring—attendant-ontological-contiguity >-successive registry-worldviews/dimensions <amplituding/formative—epistemicity>totalising/circumscribing/delineating reference-of-thought—devolving’ as of their given neuterisation, construed as equinominal/equivalent with their successively given neuterising. reason for the ontologically defective <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> is that all registry-worldviews/dimensions ^4 reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supererogatory–de-mentativity)’ in their conventioning, and thus to the exclusion of prospective ontological profundness of ^4 reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been <amplituding/formative> wooden-language^3 (imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology -as-of-’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>). However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions ^8 references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening^5 expansion of ontological-depth as increasing ontological-completeness-of-reference-of-thought (or reducing relative-ontological-incompleteness^10-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supreration^7 <-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism^3’). Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to ^5 meaningfulness-and-teleology^10 whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding ^7 meaningfulness-and-teleology^10. A further example will be say ‘the God-of-plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’

<amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of—prospective—nonpresencing—for-explicating—ontological-contiguity and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded reference-of-thought and a prospective/transcending/superseding reference-of-thought; given the blunt fact that ‘there is no untransvaluated—temporal-intemporality’ and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of—meaningfulness-and-teleology distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of—meaningfulness-and-teleology projections.). Critically, the notion of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity and transcendental-enabling/sublimating/supererogatory—de-mentativity associated with intemporality /longness and institutionalisation/intemporalisation as of its very defining core is rather one of
<amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of—prospective—nonpresencing—for-explicating—ontological-contiguity as it propounds the
supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing.—for-explicating-ontological-contiguity is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied when conceptualising that empirical meaningfulness-and-teleology is the sole purview of the rational-empiricism/positivism registry-worldview/dimension failing to recognised that all other registry-worldviews/dimensions are actually empirical but differ as to interpretation of empirical perception whether as to a magical, cultic or other non-positivising interpretation of empirical manifestation) but speaks of ‘the central human epistemic-totalising ~resubjecting or totalising-entailing~reconstrual heuristic drive’ defining as to preconverging/postconverging—de-mentating/structuring/paradigming meaningfulness-and-teleology the <cumulating/recomposuring—attendant-ontological-contiguity >-succession of registry-worldviews/dimensions (however sublimatingly inefficient in relative-ontological-incompleteness and sublimatingly efficient in relative-ontological-completeness as from nonpresencing—<perspective—ontological-normalcy/postconvergence> epistemic-projection); given that with corresponding shallow to limited-mentation-capacity-deepening, as institutionalising causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing.—for-explicating-ontological-contiguity successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating—nascence,—disclosed—from-prospective-epistemic-digression. Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they
expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as causality

\text{going by their given limited-mentation-capacity. Transcendence and sublimity/sublimation/supererogatory de-mentativity and transcendental enabling/sublimating/supererogatory de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening’ implies more and more profound reconstruals/reconceptualisations (totalising–renewing–realisation/re-perception/re-thought) inducing transformative implications with respect to meaningfulness and teleology as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogue speaking thus of human sublimation–educing–textuality/hermeneutic/reprojecting/supererogating/zeroing–as-to-possibilities-of-self-becoming-as–of ‘existential-interpretation/epistemicity in apriorising/axiomatising/referencing-of-existence’. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental enabling/sublimating/supererogatory de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about 9.8 m/s² on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental enabling/sublimating/supererogatory de-mentativity. This is not to be confused with sovereign
constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory–de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory–de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of meaningfulness-and-teleology as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-verdicality of the meaningfulness-and-teleology itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to 4 historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory–de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought> to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-
veridicality transcendental-enabling/sublimating/supererogatory de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory de-mentativity) to prospective transcendence-and-sublimity/sublimation/supererogatory de-mentativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity as secondnaturing institutionalisation percolation-channelling-\(\text{in-deferential-formalisation-transference}\) to elicit the necessary positive-opportunism—of-social-functioning-and-accordance—\(\text{so-construed-as-from}\) for prospective institutionalisation as skewing (‘intemporal\(\text{asymmetric-subsumption-of-temporality}\)’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity) towards the intemporal/longness-of-register-of-meaningfulness. The fact is as construed by the Galileos, Copernicus, Diderots and others of the world, transcendental knowledge (as relatively ‘consecrated’ by relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity) necessarily carries a ‘cynicism-of-grandeur-as-of-effective-intemporal-solipsistic-commitment’ to deal with the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnatures—temporal-to-intemporal-dispositions—\(\text{so-construed-as-from}\)
syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology ontological-performance <->including-virtue-as-ontology>, and that meaningfulness-and-teleology as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance <->including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of prospective deprocrypticism—or–preempting—disjointedness-as-of reference-of-thought with regards to our positivism—
procrypticism, such a phenomenological transcendental-point-of-departure handle reflected by
corresponding formalisation and secondnaturing. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor that ‘human knowledge is necessarily a secondnaturing construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of–‘meaningfulness-and-teleology’, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the notional–deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation–<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing—apriorising-psychologism>. Thus human knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology–<in-preconverging–existential-extrication-as-of-existential-unthought>.

by its relative-ontological-incompleteness of reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (also referred to as ‘uninstitutionalised-threshold’) where the mental-disposition/mindset/ reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology implies ‘conscious’ and/or ‘unconscious’ as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism at the uninstitutionalised-threshold of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology implies ‘conscious’ and/or ‘unconscious’ as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism. Of course, where
supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-completeness reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogic induced deception can only be construed as beyond-the-consciousness-awareness-teleology as when eliciting ignorance (as of ‘lack of constraining social universal-transparency -{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } of the psychopath’s mental-disposition of postlogism as-of compulsion–nonconviction/madeupness/bottomlining-{‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity >;-in-shallow-supererogation -<as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>}), and while construed as beyond-the-consciousness-awareness-teleology in-preconverging-existential-extrication-as-of-existential-unthought as when eliciting affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, is not disculpating. Ultimately, going by the very decisiveness of relative-ontological-incompleteness reference-of-thought, as it leads to ‘lack of constraining social universal-transparency -{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness }, associated with the successive uninstitutionalised-threshold states, the
notion of ‘human beyond-the-consciousness-awareness-teleology’ is actually in the bigger picture the larger determinant of manifest human vices-and-impediments as of virtue-as-ontology conceptualisation, speaking fundamentally of the specific registry-worldviews/dimensions ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold’ inherent with the state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Whereas the notion of human conscious vices-and-impediments as of defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance is mostly able to arise incidentally ‘within the scope’ of the registry-worldview’s/dimension’s-uninstitutionalised-threshold; as social universal-transparency is a strong inherent deterrent of human temporality/shortness and enabler of human intemporality/longness (explaining why knowledge is truly virtue), even though at the uninstitutionalised-threshold of such knowledge-as-virtue arises the temporal-dispositions denaturing its reference-of-thought-categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This nature of ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold’ as induced beyond-the-consciousness-awareness-teleology of registry-worldview/dimension
uninstitutionalised-threshold explains why fundamentally issues of reference-of-thought defect or perversion-of-reference-of-thought<as-preconvergingly-

This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary—as-unenframed/unbeholdening/outlier-conceptualisation{imbued-postconverging/dialectical-thinking —‘projective-insights’/‘epistemic-projection-in-conflatedness —of-notional—deprocrypticism-prospective-sublimation} transcendental notions of intemporality/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttlingly demonstrated with ‘cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’, the mechanism of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is not a simplistic transference from a more ontologically-completeness-of—reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective —reference-of-thought gradually creep over those of the prior —reference-of-thought. (This should be distinguish from the case of the
transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrgogary-de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought.

is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposure-⟨as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism’⟩, which may wrongly imply being out of the scope of human-subpotency–

It is hardly the case of just a direct intemporal sense of meaningfulness-and-teleology transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). Now supposed to resolve a ‘purposeful measurement’ (‘meaningfulness-and-teleology’ \( ^{57} \)), A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-

so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying 6 + 3 instead of 5 + 2 (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as 5+2) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) is flawed since B is not committed due to its perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>

speaks of the possibility of B denaturing an infinite number of additional calculations (to the
extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the
social context). Unlike the case with A having to do with A’s addition ability but whose
reference-of-thought is not perverted, such that A’s defect is a defect–of–logical-processing-

of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-

teleological disposition of B inherently carries the defect (to the point that B can be socially-

where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B.
In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a
possibility of re-engaging with C but only where B’s condition is exposed to it, but where the
characters are not that ignorant but in any of the mental states (implying undermining the

It
should be noted that C (where B’s condition is not exposed to it), D, E and F technically
speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that they consciously perceive it can be socially-functional-and-accordant to them wherein lack of ‘social universal-transparency’ to them wherein lack of ‘social universal-transparency’

It should be qualified that postlogism (psychopathy) and conjugated-postlogism (as social psychopathy) are enabled, endemised and enculturated by the possibility of the phenomena being socially-functional-and-accordant without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical meaningfulness-and-teleology). Further more than postlogism and conjugated-postlogism being just passively socially-functional-and-accordant, a more active socially-functional-and-accordant framework is often induced by extrinsic-attribution on the token of eliciting ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’. This is highly specific and circumscribe for efficacy-sake from accrued involvement with childhood psychopathy (with regards to adult psychopathy or adult postlogism) wherein achieving the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance threshold enabling postlogism /psychopathy and/or conjugated-postlogism /social-psychopathy involves an insight about how ‘lack of constraining social universal-

Whereas at adulthood psychopathy the overcompensating involves a surreptitious upending/undermining/blurring of this underlying insight that the ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ is rather as of a personality development derived-from and connected-with such fallacious crude-trite-compensating at childhood; such that it is then adopted and relayed as contending thus wrongly validating its apriorising—reference-of-thought-elements/apriorising–registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology (which are actually outside attendant-ontological-contiguity—educed–existentialising/contextualising/textualising-contiguity—<reifying-or-elucidating-of-prospective-relative-ontological-completeness–of-reference-of-thought–devolving-as-of-instantiative-context>) as first-level deception, and thus enabling the infinite possibilities of second-level deception from their logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. sublimity/sublation/supererogatory–de-mentativity can be further elucidated with regards to
two remarkable historical developments which while inherently exceptional, to say the least,
aren’t truly transcendental. Consider for instance that transcendental is generally considered as
the central notion of Kantian philosophy. The reality however is that the supposed
transcendentalism is actually an elaboration in the terms of the actual and true rational-
empiricism/positivism —reference-of-thought—transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity established by Descartes’ thinking
proposition and scepticism exercise as the fundamental basis for continuously re-elaborated
‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity (Copernican revolution) is not eliciting a
‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or
natural—psychological-dynamics’ of ‘amplituding/formative—

does with respect to the non-positivism/medievalism psyche/placeholder-setup/mental-

construct is an elaboration well within the psychical framework established by dimensionality-

and Kantian meaningfulness-and-teleology is utterly comprehensible and intelligible to that
psyche/mentation, though in many ways it is a more profound elaboration of meaningfulness-
and-teleology issues. So it is actually an
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument within the

supersede it but elaborates within it; and it doesn’t reference an

Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation of its limited-mentation-capacity-deepening. It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening–limited-mentation-capacity,~as-limited-mentation-capacity-deepening. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality existential reality nature that is preceding-and-
superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/alchemy/essences/medieval registry-worldview/dimension certainly does has a name (transcendence-and-sublimity/sublimation/supererogatory–de-mentativity). But then it is more the case that from a posture holding only one registry-worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-teleology as absolute, then prospective transcendent-and-sublimity/sublimation/supererogatory–de-mentativity is rather a beyond-the-consciousness-awareness-teleology–<in-preconverging-existential-extrication-as-of-existential-unthought> notion. Besides, Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-
abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as of
ontological-contiguity\(^6\) ’-phenomenal-abstractivezzaa of-presencing-in-’protensive-
consciousness’ with deprocrypticism. Basically, Kant lacked a notion of metaphysics-of-
absence\{-implicated-epistememic-veracity-of- nonpresencing-<perspective–ontological-

epistemicity>totalising–self-referencing-syncetising/illusion-of-the-present/present-

worldview/dimension. In other words, Kant is involved in an epistemological conceptualisation
at a given point in time (erroneously construed as the absolute point of human thought
apriorising, without a decentering sense of projection with respect to the prior and prospective).
But existential-reality as of its human mental apriorising/axiomatising/referencing (heuristically
at least) started well before that point and carries on well after that point, and such an exercise
is more profound when it construes human mental apriorising/axiomatising/referencing along
the full existence-potency\(^{10}\) ~sublimating–nascence,-disclosed-from-prospective-epistemic-

In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the existentialising/contextualising/textualising-contiguity of existence as of human shallow-to-deepening—limited-mentation-capacity, as-limited-mentation-capacity-deepening as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—apriorising/axiomatising/referencing—psychologism, as-impulsive-or-accidented-or-random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening, as further elaborated herein. This same
insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psyche as ‘<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-{by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology }’ of positivistic physics right back then in their epoch such that the overall underlying principle of <amplituding/formative–epistemicity>causality –as-to-projective-totalitative–implications-of-prospective-
nonpresencing,-for-explicating-ontological-contiguity as transcendental-enabling/sublimating/supererogatory–de-mentativity back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory–de-mentativity <amplituding/formative–epistemicity>causality –as-to-projective-totalitative–implications-of-prospective-
nonpresencing,-for-explicating-ontological-contiguity to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to
prospective-nonpresencing-for-explicating-ontological-contiguity that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity construction having to do with an \(<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\) \(^{34}\) agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our \(<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\) \(^{34}\) of \(^{57}\) meaningfulness-and-teleology \(^{100}\) is often wrongly construed as ontological as of \(^{57}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology \(^{100}\),-for-aposteriorising/logicising/deriving/intelligising/measuring–\(^{57}\) meaningfulness-and-teleology \(^{100}\).

Consider for instance a situation where statistically people likely to rest more in their home in winter are compared with people spending more time outdoors with regards to prevalence of

The practice in many a social science specialism is often to articulate concepts whose linkage with other social science concepts and the overall social science background knowledge construct is vague such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity is hardly established but for bare

This equally explains why the implied supratransversality <in-sublimating-existential-eventuating/denouement> as of aetiologisation/ontological-escalation is necessarily a ‘presencing—absolutising-identitive-constitutedness’ consummated/forfeiting posture’ of intemporality -asymmetric-subsumption-of-temporality /ontological-asymmetrisation that needs to take into account this ‘paradox of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’. And critically so, because beyond just ‘human conscious willing’, transcendence-and-sublimity/sublimation/supererogatory-de-mentativity necessarily implies the ‘prospect of humans to appreciate/understand meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology <in-preconverging-existential-extrication-as-of-existential-unthought>’; such that, de-mentatively/structurally/paradigmatically/necessarily, that which gets to ‘conceptualise/construe beyond-the-consciousness-awareness-teleology <in-preconverging-existential-extrication-as-of-existential-unthought>’ is necessarily ontologically-asymmetrical as rather imbued with intellectual-and-moral responsibility over that which doesn’t get there (and so, even with regards to a basic non-transcendental construal of asymmetrisation within a
same registry-worldview’s/dimension’s reference-of-thought like Doctor –Patient, Parent –Child, Server –Customer, Teacher –Student etc. as ensues from a Derridean binary opposition analysis). However at uninstitutionalised-threshold, the notion of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded reference-of-thought–categorical-imperatives/axioms/registry-teleology inclined beyond-the-consciousness-awareness-teleology. As such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness reference-of-thought will certainly grasp the pertinence of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation as of deconstruction/ontological-reconstituting–as-to-conflatedness aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness-reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing–psychologism of transcendentally-enabling-level-of-ontological-good-faith-or-authenticity/objectification/desubjectification-as-objectification<as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism>meaningfulness-and-teleology construal for a sounder and sounder relationship with intrinsic-reality/ontological-veridicality. In this respect, it should be noted that in the example on the denaturing of Additionality as further articulated below with regards to the characters A, B, C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce to Z’s supposedly ontologically-veridical posture, as by their prior relative-ontological-incompleteness-reference-of-thought as beyond-the-consciousness-awareness-teleology <-in-preconverging-existential-extrication-as-of-

This existential-becoming-transitioning to notional-deprocrypticism as well as the overall existential-becoming-transitioning nature of existence/existential-reality is the validation of the notion of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency\textsuperscript{10}~sublimating–nascence, disclosed from prospective-epistemic-digression. Such perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-devising-representation-perversion has various shades of ‘temporal/shortness to intemporal/longness depth/register of meaningfulness stranded finalities/teleologies’. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism’ or prelogism in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism’ or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism—as-of-conviction,-in-profound-supererogation—.

But while poor-or-bad prelogism may be what is perceived from a ‘normal’ social and supplanting-conviction-as-to-profound-supererogation point of view, particularly with adult psychopathy; these are all wrong and actually will make an analysis of the psychopath and psychopathy ontologically-flawed. doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-dementing—apriorising.
That is to arrive at a sought-outcome by subknowledging-or-mimicking the non-veridical hollow-form of the meaning of other persons supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional–postconverging/dialectical-thinking—apriorising-psychologism narratives which it perceives as ‘being blatantly deterministic’ of the views and actions of the ‘normal prelogism—as-of-conviction,-in-profound-supererogation—existentially-ver
dical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logi
cal-dueness-precedes-disontologising-logical-outcome-arrived-at—mind’, i.e. the psychopath is ‘narrating veridical emptiness/hollow narratives’. The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional–postconverging/dialectical-thinking—apriorising-psychologism on narratives but rather simply ‘the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation conjugated-postlogisim/preconverging-or-dementing—integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional–postconverging/dialectical-thinking—apriorising-psychologism and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribute
tion associated with transcendental-enabling/sublimating/supererogatory–de-mentativity,
but rather as a potent and active construct of social determinism which requires actually
eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence.
This mental-disposition is qualified as epistemic-decadence or postlogism and its
derivation/adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-
postlogism. More precisely, it is critical to distinguish between the notion of slanting (cinglé
in French) as postlogism-as-of-compulsing—nonconviction/madeupness/bottomlining

corresponding implied—reference-of-thought/implied-registry elements) are existentially
veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate
accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-
or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-
supererogation. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do
not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of
ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-
successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge\textsuperscript{1} associated with postlogism\textsuperscript{78} compelings–nonconviction/madeupness/bottomlining\textsuperscript{<decontextualising/de-existentialising–of-attendant–apriorising/axiomatising/referencing–induced-disontologising–of-the–attendant–intradimensional–ontologising–imbued–contextualising/existentialising–attendant–ontological-contiguity >}–in-shallow-supererogation\textsuperscript{<as-to-disontologising-perverted–outcome-sought-precedes-existentially-veridical–attendant–intradimensional–apriorising/axiomatising/referencing–logical-dueness>\rangle} with respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced as conjugated-postlogism\textsuperscript{78}-opportunism and conjugated-postlogism\textsuperscript{78}-exacerbation arises out of purposeful enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant\textsuperscript{94}, since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from\textsuperscript{attendant–ontological-contiguity >}–educed–existentialising/contextualising/textualising-contiguity<reifying-or-elucidating-of-prospective-relative-ontological-completeness–of–reference-of–thought–devolving-as-of-instantiative-context\rangle, whereas the latter is exactly what validates

The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge due to psychopathic developmental failure to relate to meaningfulness as of prelogism-as-of-conviction,-in-profound-supererogation <-existentially-veridical-‘attendant-intradimensional- apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, induces interlocutors prelogic supplanting-conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism alignment to its postlogic compulsion—nonconviction/madeupness/bottomlining-(<decontextualising/de- existentialising—of-attendant-intradimensional—apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant-ontological-contiguity >;-in-shallow- supererogation —<as-to-disontologising-perverted-outcome-sought-precedes-existentially- veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness>) narratives whereas at childhood psychopathy interlocutors will not align in-prelogic supplanting-conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologismly (in order not to wrongly conjoin the psychopathic postlogic slanting narratives as deception-of-successively-shifting-or-

Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing—apriorising-psychologism. Thus, with slanting the implied—logical-dueness (with the corresponding implied—reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’—logical-processing-or-logical-implicitation—supposedly-apriorising—in-conviction-as-to-profound-supererogation), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-ontological-bad-faith/inauthenticity—reference-of-thought/preconverging-or-dementing—apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-ontological-good-faith/authenticity—reference-of-thought. Insightfully, it points out as well that the basis of the postlogism/psychopathic induced deception is not the psychopath itself (as it is commonly asserted about psychopathic manipulation), but rather it lies in the very nature of the reasoning of the prelogism—as-of-conviction,—in-profound-supererogation—existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at interlocutor mental engagement reflex who ‘aligns in-conviction-as-to-profound-supererogation’ as it will ‘normally do’ with other prelogic

This induced deception does not
however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. or–ontological-preservation. With the attainment of registry-worldview/dimension institutionalisation by social universal-transparency-{transparency-of-totalising-entailing-as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising~in-relative-ontological-completeness } we can very much uphold a secondnatured quasi-intemporal-disposition reference-of-thought as ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ which is why humankind pursues institutionalisations as devising human collective emancipation from base-institutionalisation to universalisation to positivism and prospectively to notional–deprocrypticism in resolving the vices-and-impediments of their respective uninstitutionalised-threshold as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. But exactly for the purpose of ensuring the perpetuation of this human registry-worldview’s/dimension’s institutionalisation capacity (as in enabling futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism) as the very essence of human virtue itself, it is equally important to understand how institutionalisation comes to be limited at <cumulating/recomposing-attendant-ontological-contiguity >-successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩} (as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional~firstnatureredness—temporal-to-intemporal-dispositions-⟨so-construed-as-from-perspective–ontological-normalcy/postconvergence⟩’—existentialism-form-factor) to grasp how we can then supersede/transcend prospectively. ‘Human temporal uninstitutionalised-threshold mental-disposition’ refers to our fixation to the mere–categorical-imperatives/axioms/registry-
threshold mental-disposition’ is decentered and preconverging-or-dementing apriorising-psychologism as dialectically-out-of-phase, just as understanding the postlogism of the universalisation–non-positivism/medievalism registry-worldview’s/dimension’s reference-of-thought like notions of and accusations of sorcery, is inevitably tied to understanding non-positivism/medievalism as the ‘human temporal uninstitutionalised-threshold mental-disposition’ so-construed from prospective positivism registry-worldview/dimension institutionalisation reference-of-thought as of ontological-normalcy/postconvergence ‘wherein the non-positivism/medieval mental-disposition is decentered and preconverging-or-dementing apriorising-psychologism as dialectically-out-of-phase; and in both instances, construed as of their relative-ontological-incompleteness reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance (as-of-their-respective-prospective-registry-worldview/dimension attendant ontological-contiguity reifying-or-elucidating-of-prospective-relative-ontological-completeness reference-of-thought devolving-as-of-instantiative-context); since the prospective institutionalisation attendant ontological-contiguity reifying-elucidation-or-reification’s-elucidation-of-prospective-relative-ontological-completeness devolving-as-of-instantiative-context speaks of a deeper limited-mentation-capacity (as of relative apriorising/axiomatising/referencing) of a deeper and more correct grasp/apriorising-and-understanding of ontology/ontological-veridicality/intrinsic-reality). Effectively, ‘human temporal uninstitutionalised-threshold mental-disposition’ is what is reflected at uninstitutionalised-threshold as registry-worldviews/dimensions threshold-of-nonconviction/madeupness/bottomlining-in-shallow-

Thus this implied
human ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as driven by ontological-normalc/postconvergence will explain the specific natures of registry-worldviews/dimensions references-of-thought (as ‘underlying scheduling of soundness-or-ontological-good-faith/authenticity of reference-of-thought’) behind the cumulating/recomposing−attendant-ontological-contiguity−successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure−as to historiality/ontological-eventfulness/ontological-aesthetic-tracing−perspective−ontological-normalcy/postconvergence−reflected−‘epistemicity−relativism−determinism’ peculiar psychologisms/psychologism-constructs of meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets/reference-of-thought/consciousness-awareness-teleology; whether as recurrent-utter-uninstitutionalisation psychologism, base-instititutionalisation−ununiversalisation psychologism, universalisation−non-positivism/medievalism psychologism, positivism−procrypticism psychologism, and prospectively notional−deprocrypticism psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing−apriorising-psychologism’ as of their relative-ontological-incompleteness−of reference-of-thought-induced-virtuality−ontologically-flawed-construal−caricaturing-hollow-staging−and-performance rather so construed from a higher psychologism’s articulation of attendant−ontological-contiguity−educed−existentialising/contextualising/textualising-contiguity−reifying−or−elucidating−of−prospective−relative−ontological−completeness−of−reference−of−thought−devolving−as−of−instantiative-context as ontologically-veridical. Thus,
notional-deprocrypticism as decentering and preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism the positivism–procryptic registry-worldview\textsuperscript{84} reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology\textsuperscript{60} as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/\textsuperscript{64} reference-of-thought of meaningfulness-and-teleology\textsuperscript{100} with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening\textsuperscript{59}) a renewing of mindset/ reference-of-thought of meaningfulness-and-teleology\textsuperscript{100} with its corresponding psychologism/psychologism-construct occurs, with this ontologial-contiguity\textsuperscript{65}—of-the-human-institutionalisation-process\textsuperscript{68} leading to the <cumulating/recomposuring–attendant-ontological-contiguity > successive registry-worldviews/dimensions\textsuperscript{8} reference-of-thought psychologisms/psychologism-constructs, and implied prospectively as well with the notional–deprocrypticism worldview/dimension\textsuperscript{84} reference-of-thought psychologism/psychologism-construct. Critically, a psychologism/psychologism-construct takes an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument form that construes meaningfulness from the prior (and even lower) registry-worldview’s/dimension’s reference-of-thought psychologism up to its own registry-worldview’s/dimension’s reference-of-thought psychologism as of its more profound attendant–ontological-contiguity\textsuperscript{66}—educed–existentialising/contextualising/textualising-contiguity\textsuperscript{40}–<reifying-or–elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought-devolving-as-of-instantiative-context> in reflecting/perspectivating their relative-ontological-incompleteness\textsuperscript{89}—of- reference-of-thought-induced-virtuality-or-ontologically-flawed-
construal-or-caricaturing-hollow-staging-and-performance. Hence this articulation of the
successive registry-worldviews/dimensions of reference-of-thought psychologisms up to the deprocrypticism, is an
initiation into notional-deprocrypticism psychology as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of its more profound attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity of
construed in order to supersede its preconverging–de-mentating/structuring/paradigming vices-
and-impediments\textsuperscript{106}. Structural/paradigmatically/de-mentatively, this idea extends to all issues
implying metapysics-of-absence–\{implictied-epistemic-veracity-of- nonpresencing–
\langle\text{perspective–ontological-normalcy/postconvergence}\rangle\} ‘human temporal uninstitutionalised-
threshold\textsuperscript{103} mental-disposition’. This brings home the underlying notion of rational-realism as
construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-
depening\textsuperscript{24} as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by
way of a concurrently more and more ‘rational realistic’ construal of intrinsic-
reality/ontological-veridicality as of a natural human psychological growth disposition
(‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics
or natural–psychological-dynamics’). Wherein, going by its first impulse with respect to its
‘construal/conceptualisation activity as of its coming into existence in the world’, human
natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the
comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to
contend with while construing/conceptualising fundamental\textsuperscript{57} meaningfulness-and-teleology\textsuperscript{100}.
This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits,
as taking away the chore of understanding and purpose, and giving a sense of intuitive
guidance, hope, peace of mind and as to what humans should expect in their existence. But as
of the intrinsic-reality constraints of having to deal with matters of the world on its own by
developing notions of understanding and purposefulness as the mere imagination of God or
Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in
resolving human issues of the world and making its need for understanding and purposefulness
go away. This induces a bifurcation of human intellectual-and-moral allegiance to the
supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a
commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import,
but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendency of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by...
hide behind idealisms and that human emancipation and virtue has been and is fundamentally
about buckling down and undertaking the requisite effort in ‘understanding for real’ and not
differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of
realism further by asking the question, have all the idealisms as of the grander idealism been
identified and superseded? It comes to the conclusion that while that has been decisively the
case with supernaturalism, belief in essences and metaphysical idealism, as of de-
mentative/structural/paradigmatic social implications, one other sort of idealism remains to be
recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly
indulgent in not recognising how a thorough understanding of itself in enabling
pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a
most basic realism is grounding human knowledge of itself and thereof all knowledge on the
‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence

onologies as enabling
a further human emancipation registry-worldview’s/dimension’s reference-of-thought
psychologism, notional—deprocrypticism psychologism. This is the insight behind the
articulation of the social construed in threshold terms of social-functioning-and-accordance—
as-of—social-stake-contention-or-confliction rather as socially-functional-and-accordant\textsuperscript{24}. This
insight further divulges the reality across all registry-worldviews/dimensions of ‘human
registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal
uninstitutionalised-threshold \textsuperscript{3} mental-disposition’, as powerful conceptualisations for framing
issues in their appropriate psychologism however unpalatable/inconveniencing, as history has
always shown that unpalatability, inconvenience and contrariety have always been the test that
all humans have had to undergo to effectively achieve their respective prospective registry-
worldview/dimension transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms—as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘huma prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms—as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms—as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human
psychologism, ‘as third-level presencing—absolutising-identitive-constitutedness of reference-of-thought’

Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigmming but for failure in aposteriorising/logicising/deriving/intelligising/measuring performance as defect–of logical-processing-or-logical-implication–supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance. But then human existential-reality comes with human limited-mentation-capacity-deepening with limited grasp of intrinsic-reality at various
stages of human emancipation up to the modern-day, such that social \textsuperscript{104} universal-transparency\textsuperscript{105} \textsuperscript{(transparency-of-totalising-entailing-as-to-entailing-\textsuperscript{amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness}) \textsuperscript{required for ‘human registry-worldview’/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold\textsuperscript{103}, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold\textsuperscript{103} mental-disposition’ as of attendant-ontological-contiguity\textsuperscript{103} \textsuperscript{educated-existentialising/contextualising/textualising-contiguity}\textsuperscript{\textsuperscript{\langle-reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought\textsuperscript{devolving-as-of-instantiative-context\textsuperscript{elucidated ontological-normalcy/postconvergence. Such notions as the following that can be at the very
centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-
<perspective–ontological-normalcy/postconvergence>} of the notion of ‘human temporal uninstitutionalised-threshold’ mental-disposition’ that de-
mentatively/structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-
worldview’s/dimension’s temporality/shortness and is non-transcendental to that possibility’: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc.

[We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant -threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-
modalities-of-the—reference-of-thought-as-of- incrementalism-in-relative-ontological-

reference-of-thought-as-of- maximalising-recomposuring-for-relative-ontological-
completeness—unenframed-conceptualisation-as-inducing-the-prospective-
institutionalisation’ are made but with both construed in the conventioning of social-
functioning-and-accordance—as-of–social-stake-contention-or-confliction as effectively ‘non-
dissociable’, thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality-drive (longness-of-register-of—meaningfulness-and-
teleology disposition) but rather about acceptable thresholds for the registry-
worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of–
social-stake-contention-or-confliction, explaining why uninstitutionalised-threshold are
bound to arise successively in the ontological-contiguity (out-of-human temporality) together with corresponding prospective institutionalisations (out of-human intemporality) with the latter enabling the amplituding-formative-epistemicity totalising-renewing-realisation/re-perception/re-thought of defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as of the notional-contiguity/epistemic-contiguity <profound-supererogation> of mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process. This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology apriorising/axiomatising/referencing-<of-attendant-ontological-contiguity>–edued existentialising/contextualising/textualising-contiguity conflatedness in {preconverging-disentailment by} postconverging-entailment with no conventioning complexes’! (As a reminder, the notion of intemporality/temporality is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both
instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory—<amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ predilection of the inquirer’. This elucidation is equally to highlight that the idea of socially-functional-and-accordant ‘modular-thresholds’-of-notional—firstnatures—temporal-to-intemporal-dispositions—dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) The conventioning of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction effectively ‘non-dissociable’ modular construal of temporal-dispositions and intemporal-disposition rather as of socially-functional-and-accordant thresholds, has deterministic implications with regards to ‘interdimensional/transdimensional/transcendental registry-worldview/dimension-level of analysis’ as well as ‘notional—firstnatures—temporal-to-intemporal-dispositions—dissociability social-functioning-and-accordance—as-of—social-stake-contention-or-confliction effectiveness-or-ineffectiveness and ontological-resolution as of ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing—psychologism by way of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ in resolving registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-

As ‘emotional-involvement’ is self-centering-and-definitional of human consciousness as of our animate-existential-referencing/subjectification, but actually such reality is otherwise of the same ontologically-veridical nature as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency \~sublimating-nascence,-disclosed-from-prospective-epistemic-digression into which everything else is caught into as

The fact is with or without postlogism and derived conjugated-postlogism, human reference-of-thought–prologism-as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> tends to be relative. That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology <in-preconverging-existential-extrication-as-of-existential-unthought>) given our relative-ontological-incompleteness of-reference-of-thought and secondly by projective-arbitrariness/waywardness in the choices we make, and this get even worst at the uninstitutionalised-threshold. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed
cooperation’ with the Nazi regime. The closest we come to absolute 84 reference-of-thought–prelogism79-as-of-conviction,-in-profound-supererogation’ <-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal preconverging–de-mentating/structuring/paradigming and further so with respect to increasing informality as in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology } of all human institutions, and particularly where social 104 universal-transparency105-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } is blurred7 and not forthcoming as logic tends out to be an issue of making-a-mistake-at-one-moment-expressing-the-most-profound-conviction-as-to-profound-supererogation97-at-the-other-moment in a circular 84 reference-of-thought. This tendency is further exacerbated with the dynamic conjugation of temporal-dispositions (7 ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to postlogism78-slantedness. This brings to the fore the idea that the salient point about human mental-disposition whether construed as of institutionalisation basis or at its uninstitutionalised-threshold has to do with the possibility of attaining or not attaining social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-
\textit{attendant-intradimensional}-prospectively-disontologising~preconverging/dementing~apriorising-psychologism\rangle within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension \textit{meaningfulness-and-teleology}\textsuperscript{100}, in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social \textit{universal-transparency}\textsuperscript{103} (transparency-of-totalising-entailing,-as-to-entailing\textsuperscript{<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\rangle knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-completeness\textsuperscript{8} of reference-of-thought. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of–social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed \textsuperscript{74} reference-of-thought–prologism\textsuperscript{77}–as-of-conviction,-in-profound-supererogation \textsuperscript{<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at\rangle to \textit{meaningfulness-and-teleology}\textsuperscript{100} as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of \textit{universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. predicative-insights for \textsuperscript{57} meaningfulness-and-teleology\textsuperscript{100} in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes \textsuperscript{57}meaningfulness-and-teleology\textsuperscript{100} in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness\textsuperscript{84}-of-\textsuperscript{84}reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{88}reference-of-thought had moved on to the new/prospective \textsuperscript{100}meaningfulness-and-teleology\textsuperscript{100} which is now antipodal to his, hence his confliction with his circular-pervasiveness <amplituding/formative> wooden-language-\{imbued—averaging-of-thought-<as-to-

We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-\textsuperscript{84}reference-of-thought with regards to \textsuperscript{57}meaningfulness-and-teleology\textsuperscript{100} construal where Nunez’s ‘seeing of the environment’ \textsuperscript{84}reference-of-thought as of it prospective relative-ontological-completeness -of-axiomatic-construct-or- reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ \textsuperscript{84}reference-of-thought as of its prior relative-ontological-incompleteness\textsuperscript{84}. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior \textsuperscript{84}reference-of-thought as ‘feeling of the environment’ explaining why a registry-
worldview is a <amplituding/formative> wooden-language-{imbued—averaging-of-thought-

Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ 84-reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their 84-reference-of-thought’ despite their respective inherent prior relative-ontological-incompleteness—of-
84-reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of 84-reference-of-thought, speaking of their distractive-alignment-to—84-reference-of-thought—<of-apriorising/axiomatising/referencing> 0 from an ontological-normalcy/postconvergence epistemic-or-notional—projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ 84-reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-
demonstrative convincing on the basis of a scientific principle within a non-positivistic social context ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather de-mentatively/structurally/paradigmatically, together with all other such demonstrations as of scientific and positivistic principles/axioms/ reference-of-thought meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of non-scientific and non-positivism <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought—devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in circular-pervasiveness’ at its uninstitutionalised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought. We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments representing the <cumulating/recomposuring–attendant-ontological-contiguity >successive registry-worldviews/dimensions reference-of-thought under which their respective predicative-insights construct their respective meaningfulness-and-teleology, so grounded axiomatically as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights; is compared imaginarily to ‘mental-dispositions at different successive ascertaining-perspectives unbeknown-to-each other for gauging the overall earth landscape’ (representing analogically ‘different <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions for meaningfulness-
purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty is that ‘no given perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run crossgenerational habituation construed as of \(\text{de-mentation}^{15}\) \(\text{supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\) with the prior ontologically construed as decentered and preconverging-or-dementing \(\text{apriorising-psychologism as of distractive-alignment-to-^8\text{reference-of-thought-<of-apriorising/axiomatising/referencing>^9}, with the implication that its logical-dueness doesn’t exist just as the logical-dueness of the animist \(^9\text{reference-of-thought with their God-of-plane proposition doesn’t ontologically exist.})\ We can grasp as well that it is the ‘space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (deprocrypticism) that ultimately provides the ideal ‘ascertaining-perspectives for gauging the overall earth landscape’. Besides, why the explication herein is
necessarily implying a prospective 'reference-of-thought (as the author in here with a supposed notional–deprocrypticism 'reference-of-thought construal as implying a prospective relative-ontological-completeness 'reference-of-thought over our positivism–procrypticism), the fact is that any transcendental analysis is caught in two worlds as two different 'reference-of-thought in striving to explicate the ontological pre-eminence of the prospective 'reference-of-thought as of ontological-normalcy/'postconvergence, thus facing the dilemma that by mental-reflex we are not 'habituated’ to the notion of our 'reference-of-thought being construed as 'preconverging-or-dementing–apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold will react when construed as preconverging-or-dementing–apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing–apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of-'reference-of-thought perspective as in disjointedness-as-of-'reference-of-thought and rather in distractive-alignment-to- reference-of-thought<of-apriorising/axiomatising/referencing> ! Thus the reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemporal-
conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-
syncretising-as-of-perceived-social-stake-contention-or-confliction nature’ for the sake of
deconstructive-engagement/engaged-destruktion because an analysis construed as of
reference-of-thought is all about mental-soundness or unsoundness representation (with no
logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a
change of reference-of-thought implies a change of
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-of–
meaningfulness-and-teleology as a shift of the curve-of-prospective-relative-ontological-
completeness of reference-of-thought/axiomatic-construct and not a change in logic as a
change along the same reference-of-thought/curve-of-prior-relative-ontological-
incompleteness of reference-of-thought/logical-processing-or-logical-implicitation—
supposedly-apriorising-in-conviction-as-to-profound-superoergation. In other words, a truly
direct notional~deprocrypticism ontological analysis will be a ‘mental break-in’/preconverging-
or-dementing –apriorising-psychologism of our positivism–procrypticism as we by reflex
‘mentally break-in’/dement a non-positivistic reference-of-thought (as we don’t engage it on
the basis of the non-positivistic reference-of-thought–categorical-
imperatives/axioms/registry-teleology,–for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology,
just as a notional–deprocrypticism analysis will not engage us on the basis of our
categorical-imperatives/axioms/registry-teleology,–for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology,
and so in both cases as of the relative ontologising-deficiency/relative-ontological-
incompleteness of reference-of-thought of non-positivism and procrypticism–or–
disjointedness-as-of reference-of-thought). But then wholly carried out in both instances it
will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness -of- reference-of-thought over prior relative-ontological-incompleteness -of- reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God-of-plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness -of- reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional–deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism–or–disjointedness-as-of- reference-of-thought reference-of-thought– categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the notional–deprocrypticism apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism as preconverging–or–dementing apriorising-psychologism/not-thinking and decentered, and wrongfully trying
to engage meaningfulness-and-teleology in positivism–procrypticism terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness-of-reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation–ununiversalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental state of universalisation, the ‘mental tools’ available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental state of positivism, and prospectively the ‘mental tools’ available to a state of positivism–procrypticism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental-state of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, issues of perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/maudeupness/bottomlining-as-to-shallow-supererogation greater render such notions as forgiveness/overlooking/resetting nothing more but vague <amplituding/formative–epistemicity>totalising–self-referencing-

starting at the recurrent-utter-uninstitutionalisation in permanence that doesn’t allow for any such transcending enabled by the ontological-contiguity of-the-human-institutionalisation-process. In other words the notion of forgiveness/overlooking/resetting with respect to perversion-and-derived perversion-of reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation is rather vague, as the more fundamental issue here is that human meaningfulness-and-teleology as of human limited-mentation-capacity for construing virtue-as-ontology/ontology/intrinsic-reality/ontological-veridicality is ‘ever de-mentatively/structurally/paradigmatically in need for prospective relative-ontological-completeness -of- reference-of-thought’ and that is what is to be sought after as with the recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-institutionalised–ununiversalised striving for universalisation, the universalised–non-positivist/medievalist striving for positivism and in our case the positivist–procryptist striving for notional~deprocrypticism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; and so as of human limited-mentation-capacity-deepening enabled by reference-of-thought– categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ and so allowed by de-mentation (supererogatory–ontological–de-mentation—or-dialectical–de-mentation—stranding-or-attributive-dialectics). Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no de-
mentative/structural/paradigmatic issue of relative-ontological-incompleteness\(^9\) of reference-of-thought with no recognition of any such ontological-contiguity\(^8\)—of-the-human-institutionalisation-process\(^6\) as human limited-mentation-capacity-deepening\(^1\) retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived-perversion-of-reference-of-thought\(^\text{as-preconvergingly}\) apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(>\) not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(>\) with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity within the framework in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\(^9\) involving human limited-agement-capacity-deepening\(^1\).

In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental de-mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism–procrypticism disjointedness as-of-reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology\(>\)<in-preconverging-existential-extrication-as-of-existential-unthought> naïve perpetuation in <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(>\) of the fundamental vices-and-

A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s reference-of-thought is inherently a metaphysics-of-presence–(implicated–’nondescript/ignorable–void ’–as-to- presencing–

The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness\(^7\)-of-\(^8\) reference-of-thought and a prospective relative-ontological-completeness\(^1\)-of-\(^8\) reference-of-thought, the former is priorly invalidated into a preconverging-or-dementing\(^7\)-and-decentered-prior-

dueness/logical-pertinence as of\(^\rightarrow\) logical-processing-or-logical-implicitation—supposedly-
apriorising-in-conviction-as-to-profound-supererogation\(^9\) of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness\(^1\)-of- reference-of-thought with respect to its prior relative-ontological-incompleteness\(^7\)-of- reference-of-thought. But since we have been habituated as of our existential formation within our \langle amplituding/formative\rangle wooden-

But then ironically such a unde-mentativity posture could as well be adopted by a non-positivism/medievalism reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s—categorical-imperatives/axioms_REGISTRY-TELEOLOGY with its logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid by default. This point out that there is necessarily a central growth element of a de-mentative/structural/paradigmatic reference-of-thought—categorical-imperatives/axioms_REGISTRY-TELEOLOGY, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposing’ allowing for de-mentativity and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic amplituding/formative—epistemicity—causality—as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity of vices-and-impediments of our prior relative-ontological-incompleteness-of-reference-of-thought that does not focus on
substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn’t recognise the mortals that we are and we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid ‘human closure of ’meaningfulness-and-teleology’ which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as a wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications} start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of notional~deprocrypticism prospective relative-ontological-completeness —of—reference-of-thought is restored by doing away with ‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-in’/preconverging-or-dementing—apriorising-psychologism of positivism—procrypticism meaninglessness-and-teleology at its procrypticism uninstitutionalisation as of disjointedness-as-of—reference-of-thought from notional—deprocrypticism

The bigger point being that by definition a \textsuperscript{84} reference-of-thought doesn’t fathom the nature and degree of its relative-ontological-incompleteness\textsuperscript{85} of reference-of-thought as of its apriorising/axiomatising/referencing/intelligibility setup/measuring instrument for operant or incidenting-predicative-insights. Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought social referencing of meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution construed as of de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} by superseding the prior non-positivism prior relative-ontological-incompleteness-of-reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness-of-reference-of-thought by ‘continuous habituation going by the latter’s <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity in the long run as superseding the prior beyond-the-consciousness-awareness-teleology-in-preconverging-existential-extrication-as-of-existential-unthought and initiating the appropriate prospective social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity> totalising–in-relative-ontological-completeness } that will de-mentatively/structurally/paradigmatically harken back to undermine the postlogism-and-conjugated-postlogism grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic

The implication is that postlogism /psychopathy and other human temporal phenomena (and so, across all registry-worldviews) which speak of uninstitutionalised-threshold are often wrongfully construed on the basis of intemporal secondnatured institutionalisation human nature whereas the apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educated—existentialising/contextualising/textualising-contiguity—in—{preconverging-disentailment—by}—postconverging-entailment requires ‘synopsising-depth of a human temporal-to-intemporal nature’ and so by apriorising/axiomatising/referencing—of-
Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency—{transparency—}

sitting on the wet chair and needing an explanation of the whole situation including the child’s
condition, and such insight gets more and more opaque with the manifestation of adulthood
psychopathy. This is an uninstitutionalised-threshold situation which is necessarily beyond-
the-consciousness-awareness-teleology and without social universal-transparency – {transparency-of-
totalising-entailing,-as-to-entailing- <amplituding/formative–epistemicity>totalising–in-

reference-of-thought– categorical-imperatives/axioms/registry-teleology, for-
aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology
needed for construing postlogism /psychopathy and conjugated-postlogism as of its social
model at uninstitutionalised-threshold, and so by way of maximalising-recomposuring-for-elative-ontological-completeness—unenframed-conceptualisation (the latter is what sets up

ontological-contiguity —deduced–existentialising/contextualising/textualising-contiguity which
is what renders-operant/incidenting predicative-insights). It is only then that such an established
institutionalisation framework allows for elaboration-as-to-mere-
extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—attendant–
ontological-contiguity —deduced–existentialising/contextualising/textualising-contiguity on the
basis of the established reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology before the institutionalisation of such a specific uninstitutionalised-threshold takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity-educed—existentialising/contextualising/textualising-contiguity. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism–procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or ‘disjointedness-as-of-reference-of-thought’–as-misappropriated–meaningfulness-and-teleology going by the visitor’s relative-ontological-incompleteness of reference-of-thought as of positivism–procrypticism, while the explainer of the situation has factored in notional~deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology to preempt the induced procrypticism or ‘disjointedness-as-of-reference-of-thought’–as-misappropriated–meaningfulness-and-teleology from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of notional~deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-
to preempt the slanted inducing of procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology and gives up on positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold with respect to the childhood psychopathy, a new notional–depprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology has superseded the prior positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity–educed—existentialising/contextualising/textualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism /psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism /social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-

Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procyrpticism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of attendant ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity–in-reification/dereification entertains/is-cognisant-and-integrative-of/is-in-notional-contiguity/epistemic-contiguity –<profound-supererogation –of-mentally-aestheticised~postconverging/dialectical-thinking –qualia-schema>–with superstitious claims in its meaningfulness-and-teleology. An explainer to the visiting stranger in the non-positivism social-setup case about the whole situation would have articulated at the individuation-level of analysis a prospective ‘logically-due prelogism’–as-of-conviction,–in-profound-supererogation –<existentially-veridical–‘attendant-intradimensional– apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by}–postconverging-entailment as of positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology,

social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism\textsuperscript{78} individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,\textsuperscript{100} for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology,\textsuperscript{100} and a conventioning positivism–procrypticism as procrypticism in lieu of an ontologically-veridical notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,\textsuperscript{100} for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.\textsuperscript{100}

That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism\textsuperscript{78}/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to reference-of-thought–of-apriorising/axiomatising/referencing\textsuperscript{30} as undermining apriorising/axiomatising/referencing-of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity conflatedness in {preconverging-disentailment by}–postconverging entailment induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness of reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of reference-of-thought but which is in effect an ontologically-non-veridical-
or-flawed \textit{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy. The explainer of the situation ‘as of its reference-of-thought-prelogism-as-of-conviction,-in-profound-supererogation \textit{existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at}’ is in an ‘intemporality-asymmetric-subsumption-of-temporality’/asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. Hence the explainer of the situation construes the apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}–conflatedness-in-{preconverging-disentailment–by}–postconverging-entailment as of its asymmetrisation with respect to the visitor whose reference-of-thought ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought as not factoring in the childhood psychopathy postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining–

reference-of-thought and not bad or poor logic such that the notion of logical-dueness doesn’t arise in the very first place, as a reference-of-thought/axiomatic-construct is fundamentally construed as of its soundness-or-ontological-good-faith/authenticity of reference-of-thought prior to the notion of logical-dueness arising once soundness-or-ontological-good-faith/authenticity of reference-of-thought is established; thus, given the asymmetrisation of the explainer of the situation reference-of-thought/axiomatic-construct as existential/ontological as of attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity -reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context> as contextually-manifest prospective relative-ontological-completeness of reference-of-thought in contrast to the visitor’s ‘supposed reference-of-thought/axiomatic-construct’ which is non-existential/non-ontological as not-of attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity -reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context> as contextually-manifest prior relative-ontological-incompleteness of reference-of-thought. It is this fundamental fact that underlies the notion of ‘distractiveness or arrogation or usurpation or co-opting’ associated with the construal of the meaningfulness-and-teleology of temporal-dispositions perversion-and-derived perversion-of reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> in relation to intemporal meaningfulness-and-teleology<as ontological; as such symmetrisation and subsequent desymmetrisation will wrongfully lead to the reference-of-thought–categorical-

The implication here is that the construal/conceptualisation of ontologically-veridical meaningfulness-and-teleology\textsuperscript{100} lies entirely/exclusively/supersedingly on the reference-of-thought/axiomatic-construct/curve-of-prospective-relative-ontological-completeness\textsuperscript{85}—reference-of-thought of the explainer of the situation while the logical-dueness of the visitor’s ‘supposed but rather non-existential/non-ontological reference-of-thought/axiomatic-construct/curve-of-prior-relative-ontological-incompleteness\textsuperscript{80}—reference-of-thought’ doesn’t even arise in the very first place and fundamentally explains why its meaningfulness-and-teleology\textsuperscript{100} is operantly qualified as of ‘distractiveness’/distractive-alignment/dismissal-

misconstrued in ‘denaturing1’ of psychopathy/postlogism78 with the consequent alignment to it
of conjugated-postlogism78 as ‘derived-denaturing’. In other words, prospective relative-
ontological-completeness ‘-of-’ reference-of-thought is ‘precedingly/supersedingly de-
mentatively/structurally/paradigmatically cogent and comprehensive framework of
meaningfulness-and-teleology100’ such that any arising temporal disruption of

ontological-incompleteness\textsuperscript{100} of reference-of-thought, as all the meaningfulness-and-teleology\textsuperscript{100} that can be as of intrinsic-reality/ontological-veridicality wholly lies with the intemporal projection of appropriate apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of its prospective relative-ontological-completeness -of- reference-of-thought. The implication at the registry-worldview level is that base-institutionalisation ‘wholly carries all the meaningfulness-and-teleology\textsuperscript{100} that can be as of intrinsic-reality/ontological-veridicality’ over a state of recurrent-utter-uninstitutionalisation, and likewise for universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism, and in our case futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of prospective notional–deprocrypticism over our positivism–procrypticism. The point here is to highlight that ‘apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }— conflatedness in {preconverging-disentailment by} → postconverging-entailment’ doesn’t imply any symmetrisation of meaningfulness-and-teleology\textsuperscript{100} with regards to perversion-and-derived- perversion-of- reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprererogation ≥ since the latter is de-mentatively/structurally/paradigmatically not logically-due for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-suprerogation in the very first place as is erroneously assumed by temporal projection mental-reflex. But rather, it implies an utter de-mentative/structural/paradigmatic reconstrual of meaningfulness-and-teleology\textsuperscript{100} as of intrinsic-reality/ontological-veridicality wholly by the intemporal projection of the prospective relative-ontological-completeness -of-reference-of-thought. The psychoanalytic-unshackling/memetic-reordering/institutional-

This equally underlies on the basis of dynamic-cumulative-aftereffect/aftereffect at the individuation-level and registry-worldview/dimension-level of analyses the notion of ‘decentering’ as of \(\text{de-mentation-}^{\text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics}}\), as the idea of value-reference if wrongfully ontologically construed as determined by the \(\text{<amplituding/formative> wooden-language}^{\text{imbued—averaging-of-thought-as-to-leveling/resentiment/closed-construct-of—meaningfulness-and-teleology-as-of-’nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications}>\) as respectively non-positivism\(^9\)-reference-of-thought’ or as procrypticism\(^9\)-reference-of-thought’, then in effect the phenomena of non-positivism/medievalism postlogism\(^7\) like notions-and-accusations-of-sorcery as well as psychopathic-postlogism-and-its-social-integration as of our\(^9\) procrypticism–or–disjointedness-as-of- reference-of-thought will respectively be wrongfully construed to be of existential/ontological transcendental-enabling/sublimating\(\text{supererogatory-de-mentativity}\) veracity. The bigger point being that symmetrisation implying mutual recognition of \(\text{reference-of-thought can only arise where there is mutual appropriateness-of-reference-of-thought-as-of-conflatedness}\) as existential/ontological transcendental-enabling/sublimating\(\text{supererogatory-de-mentativity}\) veracity thus enabling the logical-dueness of both interlocutors to arise as of their soundness-or-ontological-good-faith/authenticity -of reference-of-thought in the very first place, notwithstanding thereafter the appropriateness or inappropriateness of the \(\text{logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation}\) exercise which is then an altogether different issue of effective/ineffective logic as prelogism\(^7\)-as-of-conviction,-in-profound-

Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a ‘sense of rightness’ is all that

perspective the idea that the present and as of our present social construction and individuations
as being relatively more exceptional than the solipsistic nature of humans in prior epochs is
false, with such wrongly implied exception rather being a confusion between ‘cumulated

drive solipsistic-choices are maximalising-recomposuring-for-relative-ontological-

This notion of human mental-disposition and by extension meaningfulness-and-teleology as comprising, rather as a more complete and grander conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold -facet, so-construed by metaphysics-of-absence-{implicated-epistem-verity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}, carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. Such metaphysics-of-absence considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’), like deferential-formalisation-transference, ordered-construct, percolation-channelling-in-deferential-formalisation-transference and transversality-for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing. Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that
at the disjuncture of positivistic meaninglessness-and-teleology (as ‘moulting’ first-nature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaninglessness-and-teleology as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic meaninglessness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of <amplituding/formative-epistemicity> causality <as-to-projective-totalitative-implications-of-prospective- nonpresencing-for-explicating-ontological-contiguity> and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling.<in-deferential-
formalisation-transference> possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling-
<in-deferential-formalisation-transference> and transversality<for-sublimating–existential-
eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-
apriorising/axiomatising/referencing’ . In another respect, with regards to scientific
meaningfulness-and-teleology and as it informs the social-construct of knowledge and
deferential-formalisation-transference (as power relations with respect to knowledge as socially
empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory-de-mentativity that induces social
deerence to formal knowledge constructs and other formal constructs, on the basis that that
will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold when
such domains lacked or were deficient with respect to formal knowledge constructs or other
formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all
opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic
contending mental-dispositions on the basis of the determining or non-determining need for
‘social consensus as of social-aggregation-enabling by human temporal

‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications> mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrgatory–de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness of reference-of-thought increasingly defer domains of meaningfulness-and-teleology more and more to formal constructs while increasingly reducing the sphere of the extended-informality{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to- meaningfulness-and-teleology } as of its free-for-all nature. The bigger point being that even in our positivism–procrypticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrgatory–de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrgatory–de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal
mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions and projections’. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism(psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on ‘social consensus as of
relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercerogatory–de-mentativity by human intemporal mental-dispositions and projections’, and undermining a social relations with regards to knowledge and virtue that is based on ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-

‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> mental-dispositions and projections’, and so in order to release the inherent virtue imbued in true knowledge. The afore elucidations are mainly to point out that it is naïve to construe the analysis of postlogism phenomenon including psychopathy on the assumption of an overall ‘human registry-worldview/s/dimension’s institutionalisation mental-disposition’ of the social as of the present as metaphysics-of-presence-{implicit-'nondescript/ignorable–void ’-as-to-
{implicit-epistemic-veracity-of- nonpresencing<-perspective–ontological-normalcy/postconvergence>} we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human registry-
worldview’s/dimension’s institutionalisation of an intemporality -drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities -drives such that it is endemised/enculturated in various temporality/shortness shades (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications⟩⟩ in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal preconverging–de-mentating/structuring/paradigmating and not intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigmating as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the
institutionalisation’. Virtue is essentially about the intemporality\(^1\)-drive as \(^5\) maximalising-recomposuring-for-relative-ontological-completeness\(^2\)—unenframed-conceptualisation for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\(^4\) by a re-equilibrating metaphysics-of-absence\(\langle\text{implicated-epistemic-veracity-of-}

\text{nonpresencing-}\langle\text{perspective–ontological-normalcy/postconvergence}\rangle/postdication\) rather than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness’—of—reference-of-thought, by ‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness\(^1\)—or-ontological-reprojecting its mental-disposition will be to unleash its \(^5\) maximalising-recomposuring-for-relative-ontological-completeness\(^8\)—unenframed-conceptualisation intemporality\(^5\)-drive to supersede the non-positivistic \(^\}\) reference-of-thought—categorical-imperatives/axioms/registry-
teleology⁹⁰ that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of attendant-ontological-contiguity⁶⁸-educed-existentialising/contextualising/textualising-contiguity⁴⁰ here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness⁸⁹ and relative-ontological-completeness⁹⁵ reference-of-thought and respectively as of their divergent non-positivists dereification perspective and positivist reification perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of attendant-ontological-contiguity⁶⁸-educed-existentialising/contextualising/textualising-contiguity⁴⁰ in-reification/dereification as of their prior relative-ontological-incompleteness⁸⁹-of-reference-of-thought, contrasted with the positivist naturalist conception of attendant-ontological-contiguity⁶⁸-educed-existentialising/contextualising/textualising-contiguity⁴⁰-in-elucidation-or-reification as-seeking-a-cure as of its prospective relative-ontological-completeness⁹⁵-of-reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrypticism registry-worldview/dimension as of its prior relative-ontological-incompleteness⁸⁹-of-reference-of-thought, as the notion of proof/evidence is more critically tied down to attendant-ontological-contiguity⁶⁸-educed-existentialising/contextualising/textualising-contiguity⁴⁰-reification as of singularisation-as-to-
the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity <-profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking-qualia-schema> in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter meaningfulness-and-teleology as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness-of-reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning contortion is rather in transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing” of the prior relative-ontological-incompleteness-of-reference-of-thought and the contorted prospective
relative-ontological-completeness\textsuperscript{88} -of- reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness -of- reference-of-thought projection is what marks ‘transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism\textsuperscript{4} as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of postconverging-nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness\textsuperscript{89} -of- reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-completeness\textsuperscript{88} -of- reference-of-thought but for the induced crossgenerational transcendental metaphoricity\textsuperscript{5} possibility, and the contortion is more of a token as of the metaphoricity\textsuperscript{5} possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and without which token contortion there is ‘no existential reference for such transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, as a gesturing of metaphoricity\textsuperscript{5} that is ‘beyond the prior relative-ontological-incompleteness\textsuperscript{89} -of- reference-of-thought full meaningfulness-and-teleology\textsuperscript{100} implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity\textsuperscript{5} possibility for prospective relative-ontological-completeness -of- reference-of-thought’; as transcendental instigation can’t be of ordinary inclination at one moment and at another moment of transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness -of- reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into the ordinariness of prior relative-ontological-incompleteness -of- reference-of-thought thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion

conflatedness—in-[preconverging-disentailment-by]-postconverging-entailment—depth of notional—deprocrypticism—protracted-consciousness. Such a hermeneutic/reprojecting/supererogating/zeroing psychology is necessarily cognisant and departs from a construal of the fundamental instigation of human knowledge and emancipation as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif— and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality—parrhesiastic asksis-or-acumen as of reasoning-through/messianic-reasoning’, as establishing in the very first place the prospective relative-ontological-completeness\(^1\) reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation for \(^2\) reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so prior to assumed \(^3\) meaningfulness-and-teleology\(^100\) aposteriorising/logicising/deriving/intelligising/measuring. Hence such a notion cannot be construed on the basis of ordinarily assumed \(^4\) meaningfulness-and-teleology\(^100\) aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it is rather submerged/drowned into it by mental-disposition reflex; but rather as implied as of reasoning-through/messianic-reasoning, such a hermeneutic/reprojecting/supererogating/zeroing psychology is more about instigating a parrhesiastic psychoanalytic-unshackling soul-searching acumen. In this regard, it is akin for instance to budding-positivism reasoning-through/messianic reasoning implied within a non-positivism/medievalism social-setup, in the sense that that budding-positivism reasoning-through/messianic reasoning then ‘is-not reasoning as-of-yet’ as reasoning is then as of the non-positivism/medievalism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘as non-positivism reasoning susceptible to superstition and medieval-scholasticism-like notional—pedantising/muddling/formulaic-hollowing-out—in—

mentative/structural/paradigmatic seeding-resolution of the ‘non-positivism/medievalism human subject superegoic vices-and-impediments’. This has the very same metaphoricity implications in reflecting holographically-<conjugatively-and-transfusively> the ontological-
contiguity—of-the-human-institutionalisation-process, as such a hermeneutic/reprojecting/supererogating/zeroing psychology supersedes our ordinary meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question our positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation for reference-

In this regard, we can construe that even the wooden-language (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable–void’—with-regards-to—prospective-apriorising-implications}) mental-disposition in a non-positivism/medievalism social-setup has a sense of human knowledge development and emancipation but with a mental—

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology\textsuperscript{(9)} aposteriorising/logicising/deriving/intelligising/measuring is the route for ontologically-veridical human knowledge transformation and emancipation in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{(10)} as of prospective notional–deprocrypticism is very much alien to our positivism–procrypticism cloistered-consciousness. In both instances the notion of prospective metaphoricity\textsuperscript{(8)} is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-invested ‘epistemic-totality\textsuperscript{(3)/ reference-of-thought/epistemic-totalising\textsuperscript{(3)} ~self-referencing-syncretising/circularity conception of meaningfulness-and-teleology\textsuperscript{(10)}’ which effective dislodgment/displacement/decentering is as of a crossgenerational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-ontological-completeness\textsuperscript{(9)}! In fact such an insight can be extended across ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and- apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{(9)—of-the-human-institutionalisation-process\textsuperscript{(10)} as of difference-conflatedness ’-as-to-totalitative-reification-in-singularisation’<as-to-the- nondisjointedness/entailment-of-prospective- nonpresencing>- as-veridical-epistemicity- relativism-determinism <amplituding/formative–epistemicity> causality as-to-projective- totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological- contiguity’ to imply that the state of recurrent-utter-uninstitutionalisation is cognisant of emancipation but doesn’t anticipate that emancipation as of prospective relative-ontological-
completeness is rather as of base-institutionalisation reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation, and likewise the latter doesn’t anticipate the universalisation reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation, with the latter not anticipating our positivism reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation which itself doesn’t anticipate prospective ontologically-uncompromised—referentialism deprocrypticism. The fact is human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor at its uninstitutionalised-threshold implies that the human psychological reflex as of its limited-mentation-capacity at any such uninstitutionalised-threshold ‘is not geared to adhere to abstract ontological-verbatimicality’ as it will operate its state of dissingularisation—<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness>/epistemic-nonimmanence/flawed-epistemicity-relativism-determinism as if in a fully-attained state of singularisation—<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>projected epistemic-immanence/veridical-epistemicity-relativism-determinism, as of the-very-central-implication-of<amplituding/formative—epistemicity>totalising—thrownness-in-existence, as reflected by the successive prior relative-ontological-incompleteness reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation towards ontologically-uncompromised—referentialism deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought; and thus from a strictly ontologically-veridical point-of-view/perspective, and so beyond our enculturated-conception, normalisation-and-practice-of-psychology and just as various mystical-and-mythical-practices of prior non-positivism registry-worldviews/dimensions were their own sort
of enculturated-conception,-normalisation-and-practice-of-psychology as of their own times, the notion of a psychological science as reinforcing/propping-up human psychology in any prior relative-ontological-incompleteness\(^6\) of the reference-of-thought\(^5\) meaningfulness-and-teleology\(^1\) state is downright ontologically ridiculous and the manifestation of an <amplituding/formative–epistemicity> totalising–self-referringencing–syncretising/circularity/interiorising/akrasiatic-drag\(^1\) naivety. We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions reference-of-thought is rather one that shouldn’t wrongly be reinforcing/propping-up the human subject as if a given reference-of-thought in prior relative-ontological-incompleteness\(^6\) as of dissingularisation\(^2\) as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemicity-relativism-determinism has its very own complete transformative and emancipative potential as if of fully-attained singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism, but an ontologically-veridical psychology rather warrants implying the human subject displacement/decentering as the de-mentative/structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-incompleteness registry-worldviews/dimensions superegoic vices-and-impediments\(^6\); wherein postconverging-or-dialectical-thinking\(^2\)–apriorising-psychologism reasoning-from-results/afterthought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation at its uninstitutionalised-threshold\(^3\) is construed as preconverging-or-dementing\(^0\)–apriorising-psychologism as of prospective postconverging-or-dialectical-thinking\(^2\)–apriorising-psychologism reasoning-through/messianic-reasoning reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation up to the prospective ontologically-uncompromised—referentialism of deprocrypticism. As of
its inherent organic knowledge, such a hermeneutic/reprojecting/supererogating/zeroing psychology parrhesiastic articulation as herein ‘doesn’t do gimmicks of communication’ as if to imply any favour whatever as of ‘emotional or whatever feel-good trading for the appreciation of the possibility for prospective human emancipation’, since by its ‘\(^{[14]}\) presencing—absolutising-identitive-constitutedness\(^{[14]}\) consummated/forfeiting posture’ it is beyond the idea of convincing for convincing sake as it is simply ‘a blunted eliciting of a solipsistic sense of intemporal/longness-of-register-of—meaningfulness-and-teleology\(^{[10]}\) projection in any human and no more’ with no point going beyond that point as it then becomes as of intellectual-and-moral apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity—\(<\text{shallow-supererogation }\text{-of-mentally-aestheticised}-\text{preconverging/dementing }\text{-qualia-schema}>;\) and so, as its essential \(^{[5]}\) meaningness-and-teleology\(^{[100]}\) is as of a solipsistic transversality—\(<\text{for-sublimating–existential-eventuating/denouement}>\text{-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing}>\) reflection of the ontologically ‘superior party’ that is intrinsic-reality/ontological-veridicality/existence—as-the-absolute-a-priori-of-conceptualisation—and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—\(<\text{as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming}>\) in its ecstatic singularity, on the same token that a natural scientist is in a transversality—\(<\text{for-sublimating–existential-eventuating/denouement}>\text{-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing}>\) reflection of its object of study as of existence as the ontologically ‘superior party’ without any need to be involved in any bogus exercises that may imply that gravity may not be 9.8 m/s\(^2\) on earth if any given human subject isn’t accommodated for in some way somehow however faintly, be it that it may be the case that gravity is not 9.8 m/s\(^2\) but that as well needs to be established as of the ontologically ‘superior party’ that is existence—as-the-absolute-a-priori-of-
conceptualisation—and-existence—as-sublimating-withdrawal,—eliciting-of-prospective-

‘prospective-aporeticism-overcoming/unovercoming’> as of {<amplituding/formative—
epistemicity>causality —as-to-projective-totalitative—implications-of-prospective-
nonpresencing,—for-explicating-ontological-contiguity}. But then the human reality across all
registry-worldviews/dimensions, isn’t inherently ‘of immediate intellectual responsiveness’ to
the notion of its uninstitutionalised-threshold and the corresponding superseding of this as of
prospective institutionalisation; as even the disposition to assume an intellectually enlightening
mental-disposition is existentially-invested and not necessarily a given. We can appreciate from
our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus,
but then paradoxically from the beginning of times superstitious beliefs had pervaded all the
echelons of human societies whether as of true belief or opportunistically, and have only been
increasingly undermined with the advent of positivistic reasoning at the beginning of modern
times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed
reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’
of human <amplituding/formative—epistemicity>totalising/circumscribing/delineating
meaningfulness-and-teleology /* reference-of-thought*/ devolving. Thus any given
registry-worldview/dimension is strongly constrained to represent itself as of its
‘postconverging-or-dialectical-thinking —apriorising-psychologism’ prior institutionalisation as
reasoning-from-results/afterthought and very weakly constrained to represent itself as of its
preconverging-or-dementing —apriorising-psychologism uninstitutionalised-threshold which
it tends to represent as nondescript/ignorable—void (actually speaking of akrasiatic-drag-
denatured-and-preconverging-or-dementing —narratives), for the possibility of its prospective
transcendence-and-sublimity/sublimation/supererogatory—de-mentativity into prospective
institutionalisation. This reality is known as human ‘supererogatory—de-mentative constraint’ to
prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of the possibility of prospective relative-ontological-completeness\textsuperscript{8}–of-reference-of-thought. Human supererogatory–de-mentative constraint is fundamentally associated with poor\textsuperscript{104} universal-transparency\textsuperscript{105}–(transparency-of-totalising-entailing,-as-to-entailing–⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness) with respect to social-stake-contention-or-confliction at uninstitutionalised-threshold\textsuperscript{103}. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of⟨amplituding/formative⟩wooden-language–⟨imbued—temporal—mere—form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology ⟩ as of the prior institutionalisation’s\textsuperscript{54} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} that stifle the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness–of-reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness\textsuperscript{109}, for resolving a given registry-worldview/dimension vices-and-impediments\textsuperscript{106}; this notion of human supererogatory–de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied by a ‘postconverging-or-dialectical-thinking–psychology or psychology-mentation-dynamics or natural–psychological-dynamics’ that emphasises the ‘Lacanian

Such a human disposition to decontortion at uninstitutionalised-threshold arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness-and-teleology as it reflects existence’s coherence/contiguity as of singularity-projected epistemic-immanence/veridical-epistemicity-relativism-determinism. But then such a decontortioning disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold where we are actually preconverging-or-dementing apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our attendant <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and vague untransvaluated–temporal-intemporality gesturing. The ontological-contiguity—of-the-human-institutionalisation-process can thus be construed as one of increasingly undermining the human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness; wherein across the successive institutional-cumulation/institutional-recomposure—as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalecy/postconvergence-reflected-`epistemicity-relativism-determinism’>, decontortion is ontologically-constrained both as of the ‘dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition’. The former is ontologically-constrained as of <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity in undermining the
human temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of universal-transparency -\{transparency-of-totalising-entailing,-as-to-entailing-<amplituding-formative-epistemicity>totalising-in-relative-ontological-completeness \}. Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness and emotional-involvement. In another respect the implications of flawed identitive-constitutedness\({}^{14}\)-as-‘epistemic-totality\({}^{37}\)’-dereification-in-dissingularisation -\langle-as-the-disjointedness/disentailment-of- presencing—absolutising-identitive-constitutedness \rangle > -as-flawed-epistemicity-relativism-determinism as of dissingularisation -\langle-as-the-disjointedness/disentailment-of- presencing—absolutising-identitive-constitutedness \rangle \rangle /epistemic-nonimmanence/flawed-epistemicity-relativism-determinism also has implications with the ontological-performance -\langle\textless including-virtue-as-ontology\rangle as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology\({}^{101}\) in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness\({}^{14}\)-as-‘epistemic-totality\({}^{37}\)’-dereification-in-dissingularisation -\langle-as-the-disjointedness/disentailment-of- presencing—absolutising-identitive-constitutedness \rangle > -as-flawed-epistemicity-relativism-determinism implied as of dissingularisation -\langle-as-the-disjointedness/disentailment-of- presencing—absolutising-identitive-constitutedness \rangle \rangle /epistemic-nonimmanence/flawed-epistemicity-relativism-determinism.
seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care–and–episteme⁵. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity⁶—reduced—existentialising/contextualising/textualising-contiguity⁹⁰. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already preceding/superseding as of ‘ecstatic totalising-entailing/nested-congruence’, with the consequence that it naively construes of reification as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing¹⁵ and producing relatively ontologically-flawed ⁵⁷ meaningfulness-and-teleology⁰⁰. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness⁶⁰/relative-ontological-completeness⁶¹. In the same vein, one can say that notions like spacetime, force, atoms, etc. in the physics <amplituding/formative-epistemicity>totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality are inherent supposedly coherent ontological-commitment implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ that are in need of knowledge-reification–gesturing-<in-prospective-psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment–by}–postconverging-entailment> as of <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity}, and logic can only be the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-
coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ towards that purpose. Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficultly be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument as axiomatic-construct’ insight about supposedly coherent ontological-commitment implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality> articulated as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of
explicit coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment in producing knowledge as meaningfulness-and-teleology; such that critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal day to day experience about living itself’ as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to causality as-to-projective-totalitative–implications-of-prospective- nonpresencing—for-explicating-ontological-contiguity, and so because such well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’ in the philosophical domain-of-study is generally more ontologically profound and comprehensive as of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity –eduiced–existentialising/contextualising/textualising-contiguity} conflatedness in {preconverging-disentailment by} postconverging entailment than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-
inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a totalising-entailing apriorising/axiomatising/referencing—of-attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—confatedness—in—preconverging-disentailment—by—postconverging-entailment—demand on human living experience for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ than other more specific domains-of-study for which ad-hoc and focussed domain study methods are pervasively decisive for ontological pertinence. But then this is more a question of ‘expanded onticising construal of existence as of <amplituding/formative-epistemicity>totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality are effectively as of the very same underlying congruent philosophical domain-of-study construal of ecstatic manifestation of existence but for their ‘onticising specifisms of existence’s ecstatic manifestation’; as so-implied as of overall existence metaphoricity/ecstasy reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—(imbued-and—hermeneutically/reprojectively/supererogatingly zeroingly-educing—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—ann—re—apriorising/re-axiomatising/re-referencing—conceptualisation) as of supervening-confatedness}. Knowledge as meaningfullness-and-teleology, whether of underlying ontological-construal or ontical-construal, is epistemically validated as of supposedly coherent ontological-commitment—<implied—self-assuredness-of-ontological-good—faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of—

The implication here is that the epistemic-veracity of knowledge as meaningfulness-and-teleology is rather as of the ‘<amplituding/formative-epistemicity>totalising/circumscribing/delineating construal as of existence’ with <amplituding/formative-epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality rather ‘narrowing-construals of their specifically-implied human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility }—{imbued-and-

of-embodied-consciousness’. Insightfully, while in many ways such an elucidation hardly needs to be explicited in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of <amplituding/formative-epistemicity>causality ~as-to-projective-totalitative-implications-of-prospective-
nonpresencing,-for-explicating-ontological-contiguity as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression, this unexplicated implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with attendant ontological-contiguity as of existentialising/contextualising/textualising-contiguity apriorising/axiomatising/referencing–of-attendant ontological-contiguity –educted–existentialising/contextualising/textualising-contiguity conflatedness in {preconverging–disentailment by} postconverging entailment; so-implied as of their supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-
ontological-contiguity as to existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression. In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specifisms of existence’s ecstatic manifestation’ as of the <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective– nonpresencing,-for-explicating-ontological-contiguity will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is very often incomplete, of-divvied-theorisation and/or ‘poor coherence of theorisation with operant approaches and methodologies’, when it comes to many a social domain-of-study; as quite often theorisation in many a social domain-of-study strives on disparateness, rather than a tendency to ‘<amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective– nonpresencing,-for-explicating-ontological-contiguity as to existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression enforced’ unifying coherence as in many a natural science domains-of-study, with the consequence that studies are often aloof to direct attendant ontological-contiguity ~educated-existentialising/contextualising/textualising-contiguity knowledge reifying exercise as of a
tendency to technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-setups de-mentatively/structurally/paradigmatically stifle the possibility for conceptualisation as to existence-potency  
  

Ultimately the bigger issue arises as of the poorly-singularised/poorly-immanented nature of many a social domain-of-study unlike the grand singularised/immanented totalising/circumscribing/delineating  ‘<amplituding/formative–epistemicity>’ reference-of-thought- devolving foregrounding entailment  <postconverging–narrowing-down–subimation-as-to-‘existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ’-in-reflecting–‘immanent-ontological-contiguity ’;–as-operative-notional–deprocrypticism’ that are actually actively sought in the natural sciences; and this author portends that the suprastructuralism/postmodernism as of notional–deprocrypticism ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology’ holds the promise for such effective grand singularised/immanented social conceptualisation that doesn’t dodge/ignore/disregard outstanding questions about the human existential reality including de-mentative/structural/paradigmatic biases arising beyond-the-consciousness-awareness-teleology  <in-preconverging–existential-extrication-as-of-existential-unthought> as of human emotional-involvement and sophistic/pedantic distortion of perception of reality so-implied in our present positivism–procrypticism ‘attendant-ontology—as-of-conventioning-referencing’ and just as well when ‘science-ideology’ seem to subvert and undermine science-

Critically, lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of \text{apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}-conflatedness-in-{preconverging-disentailment-by}-postconverging-entailment that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including
domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}~of-ontological-performance}--including-virtue-as-ontology> to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature thus overcoming underlying logocentrism as of prospective relative-ontological-completeness transcendentandal-sublimity implications, and thus reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness} and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness}~as of the }<amplituding-formative-epistemicity~/causality~as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity~}—confalatedness—in {preconverging–disentailment–by} postconverging–entailment. parrhesiastic contemplation is itself a decisive element for the capacity to appreciate-and-understand philosophical thought more than just an issue of technical acquisition of philosophical knowledge as of mere knowledge mathesis/motif/thrownness-disposition). More critically, social and philosophical knowledge are no different from any other type of knowledge subject to causality as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity as of inherent existence/ontological implications, as fundamentally requiring contemplative reification arising with human limited-mentation-capacity-deepening, with the implication that any philosophical, historical and social conception of knowledge is not an imprimatur totalisingly-disentailing—discretion/whim-of-thought exercise on the basis of ‘relic-or-orthodoxy knowledge’ induced disparate-ness-of-conceptualisation but rather implying a furtherance of the overall hermeneutic/reprojecting/supererogating/zeroing exercise involved in the advancement of all human knowledge as of totalising–renewing-realisation/re-perception/re-thought, wherein all such knowledge-reification–gesturing is a hermeneutic/reprojecting/supererogating/zeroing circle involving: the analyst’s/philosopher’s baseline re-originary–as-unenframed/unbeholdening/outlier-conceptualisation imbued-postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness ’of-notional–deprocrypticism-prospective-sublimation upgrading up-to-date knowledge-reification–gesturing is a hermeneutic/reprojecting/supererogating/zeroing circle involving: the analyst’s/philosopher’s baseline re-originary–as-unenframed/unbeholdening/outlier-conceptualisation imbued-postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness ’of-notional–deprocrypticism-prospective-sublimation

Such weaknesses manifested by many a postmodern critic fundamentally points to an atomising/taking-to-pieces predisposition that poorly appreciates the causality as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity involved in knowledge-reification–gesturing-in-prospective-psychologismic–apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity \textsuperscript{-educed–existentialising/contextualising/textualising-contiguity}\} conflatedness \textsuperscript{-in-} {preconverging-disentailment-by}–postconverging-entailment}, and is reflected in a lack of parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight that ‘poorly grasp the philosophical analysis implications of the existential background/development of becoming-as-historiality/ontological-eventfulness/ontological-aesthetic-tracing-\langle\textit{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism–determinism}\rangle$, as if philosophy only started as of our present positivist era with a naivety that seems to imply that all-that-should-have-been,-that-is-and-that-will-be,-as-of-the-human-potential is as of a modern positivist wooden-language\textsuperscript{47} (imbued—averaging-of-thought—\textit{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology} as-of–‘nondescript/ignorable–void ’-with-regards-to- prospective-apriorising-implications} in its given reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation with no or poor insight of prior-and-prospective human becoming as of \textit{attendant–ontological-contiguity} -\textit{educed–existentialising/contextualising/textualising-contiguity}\textsuperscript{40} in apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity \textsuperscript{-educed–existentialising/contextualising/textualising-contiguity}\} conflatedness \textsuperscript{-in-} {preconverging-disentailment-by}–postconverging-entailment}.\textsuperscript{84}}
disentailment–by}–postconverging-entailment’; and so when it generally comes to analysing philosophical texts requiring a sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight. This lack is quite often reflected in such misconstrued analyses of traditional philosophical figures by a failure to understand the overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to identitive-constitutedness—as-‘epistemic-totality’—dereification-in-dissingularisation—as-to-the-disjointedness/disentailment-of- presencing—absolutising-identitive-constitutedness ending up quite often claiming the incoherence of such figures and/or of their narrative accounts, and so in a ‘naïve insight’ arising exactly because the possibility for understanding requires the critic’s own parrhesiastic insight and then hermeneutic/reprojecting/supererogating/zeroing conceptualisation to then develop the capacity to grasp first of all such traditional philosophical figures underlying knowledge-reification–gesturing—in-prospective_psychologismic~apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment–by}–postconverging-entailment process/gesturing and thus be able to understand how such knowledge-reification–gesturing—in-prospective_psychologismic~apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment–by}–postconverging-entailment process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of narrated accounts and notions but equally insight about the nuanced and covertly narrated accounts and notions, and all these while being informed by the immediate and broader underlying social background and implicited social and philosophical stakes of contention-and-confliction. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing
analytical insight actually converges with the epochal philosophical implications of attendant-ontological-contiguity in apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—conflatedness—in-{preconverging-disentailment—by}—postconverging-entailment and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but de-mentatively/structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability and validation in determining ontological-veracity as of a critical exercise of <amplituding/formative—epistemicity>totalising~renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. In this regards, such hermeneutic/reprojecting/supererogating/zeroing and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel universalising-idealisation that ‘runs-through/is-deflating’ by its evental -instigation traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic-philosophers were institutionally ‘anti-democratic’, going particularly
by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning-as-devoid-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity’s–reifying-or-elucidating-of–prospective-relative-ontological-completeness’s–so-rather-enabled–by-a–nonpresencing-divulging-of-momentous-historiality/ontological-eventfulness/ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism–determinism’ as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic-philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern-day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition—as–reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dimensionality-of-sublimating—
that then feeds into prospective originalinity-parrhesia,–as–spontaneity-of-aestheticisation; emphasising as of any given registry-worldview’s/dimension’s specific limited-mentation-capacity that knowledge ‘more profoundly lies with the knowledge-reification–gesturing:<in-prospective psychologism~apriorising/axiomatising/referencing-of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in{preconverging-disentailment–by}–postconverging-entailment> and organic implications’, just as we cannot simplistically interpret the importance of Aristotelian science in terms of its constitutive elements as earth, water, air, fire and aether on a naïve-presencing—absolutising-identitive-constitutedness basis from the vantage perspective of our modern positivism (as being at the receiving backend of the institutional-cumulation/institutional-recomposure{as-to- historicity/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’}> in reflecting holographically<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process but rather the more critical insight lies with its novel and transformative universalising-classificatory knowledge-reification–gesturing:<in-prospective psychologism~apriorising/axiomatising/referencing-of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in{preconverging-disentailment–by}–postconverging-entailment> as opening up the possibility for prospective human reconceptualisation of science providing the backdrop from which modern science took off from the medieval times to the present. Likewise, the transformative nature of budding-positivism more than just as garnered from the precised narrative accounts about budding-positivist thinkers, lies more profoundly with its
meaningfulness-and-teleology\textsuperscript{108} infrastructure impact on the developing enlightenment social developments and as this budding-positivism metaphoricity\textsuperscript{38} epistemic-ricochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-
formalisation-transference to the extent that that deference fulfils its promise of knowledge-

sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as
hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social
domain-of-study and even some of the natural sciences as of naïve science-ideology, and so
because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-
existence-implications there need to be ‘human intemporal contemplation that abstractly

Insightfully, we can garner that it is ‘human <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity purposefulness-reflexivity for prospective relative-ontological-completeness orientation’ implied as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation that fundamentally renders/makes human institutional-development–as-to-social-function-

In the bigger picture, the above human meaningfulness-and-teleology aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility, is ultimately potentiated/ontologisable as of human ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’. relativism-determinism>. The implication here is that quite often when required to explicate
social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very wooden-language-{imbued–averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of–nondescript/ignorable–void–with-regards-to-prospective-apriorising-implications} that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of attendant–ontological–contiguity–educed–existentialising/contextualising/textualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the attendant–ontological–contiguity–educed–existentialising/contextualising/textualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-
epistemicity>causality -as-to-projective-totalitative-implications-of-prospective-
totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity” as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{10}\); and so when compared to the atomising/taking-to-pieces formalisation notion of truth-value as of ontologically-flawed identitive-constitutedness\(^{14}\)-as-‘epistemic-totality’\(^{15}\)-dereification-indissingularisation-as-to-the-disjointedness/disentailment-of- presencing—absolutising-identitive-constitutedness > -as-flawed-epistemicity-relativism-determinism. Such a construal of relative truth doesn’t imply a lack of commitment in truth, but is utterly the contrary as of ‘a much more critical and ontologically decisive commitment to truth and growing truth’ as any pertinent critique can garner in Foucault’s truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth ‘expands the conception of truth beyond our presencing—absolutising-identitive-constitutedness’\(^{14}\) <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions as if all the world that has ever existed is as of ‘presencing—absolutising-identitive-constitutedness’, and displaces/decenters the human subject as of its presencing—absolutising-identitive-constitutedness\(^{14}\) cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on <amplituding/formative> wooden-language-{imbued—averaging-of-thought}<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-'nondescript/ignorable–void 'with-regards-to-prospective-apriorising-implications}> populist interpretations rather than elevating human ontological construal of the social domain-of-study! Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining knowledge to attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity elucidation/reification rather than just
mere formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are already naturally constraint to knowledge-reification–gesturing-<in-prospective psychologismic–apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }—conflicatedness -in-{preconverging-disentailing–by}–postconverging-entailment> by the implicated immediate-constraining <amplituding/formative–epistemicity> causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-, ontological-contiguity transcendence-and-sublimity/sublimation/supererogatory–de-mentativity whereas the human world is rather blurry in this regard and hence requires the requisite explicited insight about existence as of its ecstatic singularity for its appropriate approach for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification of attendant ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than knowledge-reification–gesturing-<in-prospective psychologismic–apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }—conflicatedness -in-{preconverging-disentailing–by}–postconverging-entailment>

We can appreciate that the naïve conceptual patterning of conceptualisations in many a social domain-of-study failing

The entire project of human meaningfulness-and-teleology is nothing but one of creatively elucidating/reifying existence/existential-possibilities, ‘with no out of existence knowledge project’, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative knowledge-reification–gesturing-\langle in-prospective\_psychologismic\_apriorising/axiomatising/referencing\{-of-attendant\_ontological\_contiguity\_\text{-}educed\_existentialising/contextualising/textualising-contiguity\} - conflatedness \text{-}in\{-preconverging\_disentailment\_by\} - postconverging\_entailment\rangle, and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the attendant ontological contiguity\text{-}educed\_existentialising/contextualising/textualising-contiguity reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity\text{-}educed\_existentialising/contextualising/textualising-contiguity. Consider in this regard that the repeated 56 maximalising-recomposuring—for-relative-ontological-completeness —unenframed-conceptualisation articulation by this author on the theme of conceptual patterning here further complements as of further articulated reification of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification–gesturing—<in-prospective_psychologismic–apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—confatedness —in-{preconverging-dsentailment-by}–postconverging-entailment> insight often goes missing with many a subscriber to the formalisation credo, as of reification along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars crossgenerationally developing interest-
of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative knowledge-reification–gesturing<in-prospective_psychologismic–apriorising/axiomatising/referencing-
{of-attendant_ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—conflatedness -in-{preconverging-disentailment-by}-postconverging-entailment> construal perspective, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originarily/as-of-event availavle to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative knowledge-reification–gesturing<in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–

thought, or both. More likely than not the headway made by prior scholars means that the good
teleological knows as of the true goal of human knowledge advancement beyond just
institutions-being-and-craft that their best effort is rather in further advancing/reifying-or-

articulation, as there is only one ontological as existential reality. This orientation and
rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a
solid ontological pathway just as physicists orientation and redevelopment of the ontic lines
setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth,

and it is herein contended that the various scholarly contributions to postmodern-thought can be
understood as rather pointing to the de-mentative/structural/paradigmatic disseminative
implications of futural Being-development/ontological-framework-expansion—as-to-depth-of-

We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/aporia ‘left it’ to existence as of causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory–дементативь to ‘continually select’ rational-empiricism/positivism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory–дементативь, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism–procrypticism human subject is rather undecentered’ relative to the prospective postmodern—notional–deprocrypticism self-conscious mindset we fail to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity as the veritable transcendental-

On the other hand, recurrent conceptual patterning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation</as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’’. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their mere infrastructure and deferential-formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound knowledge-reification–gesturing-in-prospective-psychologismic–apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in—{preconverging-disentailment–by}—postconverging-entailment> for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. But then with regards to the social notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly knowledge-reification–gesturing—in-prospective-psychologismic–apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity }—

existentialising/contextualising/textualising-contiguity —constitutedness —in—preconverging—entailment rampant with human and social conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally as of apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity —conflatedness —in—{preconverging—disentailment by—postconverging—entailment totalising-entailing/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence <amplituding/formative–epistemicity>causality —as-to-projective-totalitative—implications-of—prospective—nonpresencing—for-explicating-ontological-contiguity with ‘the ecstatic singularity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as—to—human<amplituding/formative–epistemicity>totalising~purview-of-construal’ implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time’. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. This immanence-function-conflatedness insight is effectively what marks prospective deprocryticism/preempting—disjointedness-as-of reference-of-thought as of an utterly different protensive self-consciousness from our hesitant and occlusive positivism–procrypticism self-consciousness. Hence existence’s ecstatic singularity is very much akin with the Deleuzian plane of immanence construed herein as of existence’s ecstatic singularity immanence/internal-necessity <amplituding/formative—epistemicity>causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing—for-explicating-ontological-contiguity of singularity<-as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism; the ontological implication here being that ‘we are as potently transcendental as from our flawed apriorising/axiomatising/referencing-{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—constitutedness—<in-preconverging-entailment’ or ‘we are as potently immanent as of our virtuous apriorising/axiomatising/referencing-{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—constitutedness—in-[preconverging-disentailment-by]-postconverging-entailment’. Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of apriorising/axiomatising/referencing-{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—constitutedness—in-[preconverging-entailment], as all the objectifying discursivity that is ontologically-veridical is as of the

disentailment-by}—postconverging-entailment of prospective relative-ontological-

function-conflatedness. Thus metaphoricity of non-positivism mindset ‘supposedly in an
objectifying/contending discursivity’ with a positivism mindset registers as of positivism
immanence-function-conflatedness reflection of the underlying non-positivism mental-
disposition with regards to such issues like existential desublimation manifestations of
superstition, spiritualism, etc. This same conception holds with the notional–deprocrypticism
immanence-function-conflatedness overriding the meaningfulness-and-teleology of
procrypticism–or–disjointedness-as-of-reference-of-thought mindset ‘supposedly in an
objectifying/contending discursivity’ with the notional–deprocrypticism mindset, as the latter
reflects the underlying positivism–procrypticism mental-disposition mindset with regards to
existential desublimation manifestations of disjointedness-as-of-reference-of-thought. In both
instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring,
with immanence-function-conflatedness implying that all the meaningfulness-and-
teleology is necessarily as of the prospective relative-ontological-completeness over the
prior relative-ontological-incompleteness; respectively as of positivism and deprocrypticism.
If by anticipation we do know immanently that a non-positivism mindset is bound to a non-
positivistic-as-existentially-superstitious
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of de-
mentative/structural/paradigmatic internal-necessity/determinism insight from positivism
immanence-function-conflatedness with the obviousness there is no point implying an
ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-superstitious inclination, the same implication will extend to notional-deprocrypticism immanence-function-conflatedness as of de-mentative/structural/paradigmatic internal-necessity/determinism insight with regards to anticipating the disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our positivism–procrypticism mental-disposition with no pretence of such a positivism–procrypticism ontologically-flawed objectifying/contending discursivity in assessing the disjointedness-as-of-reference-of-thought inclination. In other words, immanence-function-conflatedness is all about reflecting the straightforwardness of amplituding/formative-epistemicity-~causality~as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity as of singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive predisposition to make of its objectifying/contending discursivity as de-mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior relative-ontological-incompleteness meaningfulness-and-teleology as if of prospective relative-ontological-completeness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-function-conflatedness equally highlights knowledge as of its essential organic construct implications. As an apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity—ereduced–existentialising/contextualising/textualising-contiguity} constitutedness in preconverging entailment predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly postconvergingly–dementated/structured/paradigmed mindset, but nothing could be farther from the truth as
knowledge is really an exercise of re-forming-or-reshaping-as-transforming the postconverging-de-mentating/structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God-of-plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness-of-reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of-a-prospective-positivism-mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior relative-ontological-incompleteness-of-reference-of-thought is an appropriate framework for prospectively implied reference-of-thought knowledge acquisition. Likewise, it is herein
the-nondisjointedness/entailment-of-prospective- nonpresencing> as-veridical-epistemicity- relativism-determinism <amplituding/formative–epistemicity>causality as-to-projective- totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity implied organic knowledge is ever always as of the de- mentsative/structural/paradigmatic internal-necessity/determinism of prospective relative- ontological-completeness reference-of-thought as of immanence-function-conflicatedness, with the pretence of prior relative-ontological-incompleteness reference-of-thought for objectifying/contending discursivity nothing more but flawed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal meaningfulness-and-teleology. The study of the social as of immanence-function-conflicatedness insight grasp that the blurriness, and remoteness of cause-and-effect invoke a more refined conception of <amplituding/formative–epistemicity>causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian research- programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive
research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability\textsuperscript{42}—or-deferring-falsifiability\textsuperscript{42} and validation-or-deferring-validation. It is herein contended that it is the implicated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough knowledge-reification–gesturing

This insight equally informs the supplanting–conviction-as-to-profound-supererogation —of-{attendant–intradimensional’–postconverging/dialectical-thinking —apriorising-psychologism} herein that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further knowledge-reification–gesturing-<in-prospective

prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated–temporal-intemporality manifestations that usurp and undermine human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procryptoicism social-setup to perceive our positivism–procryptoicism humanistic knowledge system as absolute; it is immanence-function-conflatedness by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastucture-of—meaningfulness-and-teleology conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflatedness insight, the epistemic and methodological pretences as of our humanistic positivism–procryptoicism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-
programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic postconverging–dementating/structuring/paradigming as of their ultimate knowledge-reification–gesturing as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative knowledge-reification–gesturing as knowledge construed as their research-programmes. This speaks of the fact that such a conception of epistemic commitment as of research-programme is effectively one of epistemic singularisation as to the nondisjointedness of prospective–nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism so-implied as of ontological-normaley/postconvergence associated with ontologically-uncompromised—referentialism deprocrypticism; and very much overcoming the limiting effect of our present conception of epistemic commitment as rather dissingularisation as to the disjointedness/disentailment of presencing—absolutising-identitive–constitutedness as of ontologically-compromised—categorising positivism–procrypticism. Thus, if immanence-function-conflatedness reveals that it is the ‘projected research-programme of any given knowledge construct as of its prospective relative knowledge-reification–gesturing as
prospective psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity—conflatedness—in-{preconverging-disentailment-by}—postconverging-entailment’ that is its preeminent epistemic and methodological validation, ‘pretences of pre-given epistemic predispositions’ that do not attend pertinently and similarly to prospective relative knowledge-reification—gesturing—in-prospective psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity—conflatedness—in-{preconverging-disentailment-by}—postconverging-entailment are nothing more but <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predispositions that pretend to supersede existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as—sublimating-withdrawal,—eliciting-of-prospective-supererogation as—to-perspective—ontological-normality/postconvergence-implied—prospective-aporeticism—overcoming/unovercoming>, and institutionalised, such <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predispositions may actually be de-mentatively/structurally/paradigmatically stifling for the possibility of prospective knowledge and transcendence-and—sublimity/sublimation/supererogatory—de-mentativity, and more seriously so where the possibility of varied research-programme choices are difficultly entertainable without institutional backing for research needing major funding and/or resources. Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at
the beginning of the last century with relativity and quantum mechanics hardly eliciting any
social sensitivities, rather as of the disarming effect on conventioning simply on the basis of
their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very
much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the
sense that if the present was all that great then its very transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity wouldn’t be occurring, and so
existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity occurs as to conflict with the naïve social
‘sense of presence’ as absolute, and so because it is all about the very-same-immanent-

human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity especially, as

transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. While today that
notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern-day science to develop and just as well modern-day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of the human subject’ as implied by deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought; and justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Immanence-function-confatedness analytical implications equally arise as of the ‘countervailing transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ relation induced as of <amplituding/formative–epistemicity> causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity’ between ‘existence/existential-possibilities as the selecting transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity’ and ‘the ever developing human limited-mentation-capacity as of its deepening from relative uninstitutionalised-threshold to relative institutionalisation so-construed as prospective institutionalisation dissemination’, as this transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness as
associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to causality and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient wooden-language imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications> epistemic impertinence. Prospective notional–deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness-of-reference-of-thought associated with the implication that our positivism–procrypticism uninstitutionalised-threshold epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness-as-of-reference-of-thought uninstitutionalised-threshold and superseded by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity determinant selector as of the deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought disseminative
research-programme coherence and ontological-contiguity. The idea being that the notional-deprocrypticism epistemic-veracity as of such disseminative research-programme coherence and ontological-contiguity equally imply an underlying falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable to reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of knowledge-reification–gesturing-as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity capable of reflecting the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Such a notional-deprocrypticism epistemic-veracity implication is pertinent because blurriness and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences as-intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at
transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality-<for-sublimating–existential-eventuating/denouement>-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing” constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—conflicatedness—in-{preconverging–disentailment by}–postconverging-entailment totalising-entailing/nested-congruence or how these conflate as of prospective relative-ontological-completeness with existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <-as-to-perspective–ontological-normalcy/postconvergence>

conflatedness -in- [preeconverging-disentailment by] postconverging-entailment> as of their critical operant implications and unmuddled conceptions. Furthermore, the notional–deprocrypticism epistemic-veracity implies a further extension of deferential-formalisation-transference as of less predisposition to extended-informality

meaningfulness-and-teleology is the need for a notional–deprocrypticism reconceptualised

that hitherto and as of a natural human predisposition to

the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a

ontological orientation of traditional psychology/psychoanalysis; wherein ‘the human

considering the necessarily decontorting human-subpotency psyche on the constraint of our

disposition, \textsuperscript{104} universalisation–non-positivism/medievalism will likewise fail as of positivism mental-disposition, and prospectively our positivism–procrypticism will likewise fail as of notional–deprocrypticism mental-disposition. This element of the dynamic evolution of the human psyche and the underlying instigative agency, herein articulated as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{1} /ontological-fracturing/desublimation/gimmickiness complex’, is mostly lost to traditional psychology that doesn’t register our own positivism–procrypticism prior relative-ontological-incompleteness\textsuperscript{89}-of-reference-of-thought as of an ontological-normalcy/postconvergence/referentialism notional–deprocrypticism perspective of analysis as of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistem-immanence/veridical-epistemicity-relativism-determinism. We can perceive the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{20}–qualia-schema’ associated with akrasia-susceptibility-or-akrasiatic-drag complex only from the perspective of prospective relative-ontological-completeness\textsuperscript{62}-of-reference-of-thought, and so as of the latter’s difference-conflatedness\textsuperscript{13}-as-to-totalitative-reification-in-singularisation\textsuperscript{<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>-as-veridical-epistemicity-relativism-determinism} as from the ontological-conguity of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, as it reflects-and-contemplates of the uninstitutionalised-threshold\textsuperscript{103} of the prior relative-ontological-incompleteness\textsuperscript{89}-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, whereas the prior relative-ontological-incompleteness\textsuperscript{89}-of-reference-of-thought mental-disposition reflects its uninstitutionalised-threshold\textsuperscript{103} as a nondescript/ignorable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing\textsuperscript{-narratives}) of notional-discontiguity/epistemic-discontiguity\textsuperscript{<shallow-supererogation -of-mentally-}.\textsuperscript{97}
This expansion of the traditional notion of akrasia, as akrasia-susceptibility-or-akrasiatic-drag complex is rather as of the perspective of existence-potency~sublimating-nascence, disclosed-from-prospective-epistemic-digression as to ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism.

Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility—or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-
diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its \textit{amplituding/formative–epistemicity}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{11}’, and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical \textit{meaningfulness-and-teleology}\textsuperscript{100} implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by \textit{causality as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating–ontological-contiguity}. Thus intemporal ontological-performance\textsuperscript{11}–\textit{including-virtue-as-ontology} ever always warrants huma prospective relative-ontological-completeness\textsuperscript{18}–of-reference-of-thought for empowering and responsible \textit{meaningfulness-and-teleology}\textsuperscript{100} for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness\textsuperscript{9} as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments\textsuperscript{36}, and as the very possibility for prospective ontological-performance\textsuperscript{71}–\textit{including-virtue-as-ontology} arises as of the intemporal ontological-faith-notion-or-ontological-fideism—\textit{imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality} parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance\textsuperscript{71}–\textit{including-virtue-as-ontology} equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-

The reality thus is that prospective transcendence-and-sublimity/sublimation/supererogatory de-mentativity from a presencing—absolutising-identitive-constitutedness perspective is not actual meaningfulness-and-teleology but rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming as-being-as-of-existential-reality> to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-teleology mostly as of prospective crossgenerational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory de-mentativity, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency ~sublimating–nascence,—disclosed-from-prospective-epistemic-digression reflection
of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmoder-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of
intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional—firstnatedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—'—existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of wooden-language—{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable—void’—with-regards-to—prospective-apriorising-implications} dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation taking herein as of a strictly ontological-veracity inclination as to the reality of the fact that existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression supersedes human-subpotency, and it is the latter that adjusts to the former. This is exactly what is reflected by ontological-fracturing, wherein the potential for ontological—
to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor, and points out that the way we tend to conceptualise/construe-of idealisation as reflected in rules, institutional essence, institutional processes and ideals is ontologically-flawed/wrong as the assumption is one that tends to imply beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought>only human intemporal ontological-performance<including-virtue-as-ontology> by mental-reflex, rather than the reality of human temporal-to-intemporal ontological-performance<including-virtue-as-ontology> of any given idealisation; speaking of the reality that any idealisation construed as of rules, institutional essence, institutional processes and ideals is de-mentatively/structurally/paradigmatically bound to be ontological-fractured as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor. The implication here is that all projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation percolation-channelling<in-deferential-formalisation-transference>, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing<of such idealisations with regards to their more profound transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implications. In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuation-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and
essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance\textsuperscript{73} - \textless including-virtue-as-ontology\textgreater is inherent, the underlying de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance\textsuperscript{73} - \textless including-virtue-as-ontology\textgreater in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of percolation-channelling-\textless in-deferential-formalisation-transference\textgreater doesn’t substitute for the \textless amplituding/formative–epistemicity\textgreater totalising–renewing-realisation/re-perception/re-thought as of the underlying dimensionality-of-sublimating\textsuperscript{73} \textless amplituding/formative–supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\textgreater individuation disposition that of reasoning-through/messianic-reasoning brought about secondnatured institutionalisation. In other words, it is herein contended that the implied notion of relative truth expressed by postmodern-thought is not a rejection of truth as they are wrongly accused, but that truth deepens relatively with human limited-mentation-capacity-deepening; and this notion of relative truth is reflected in their works/research-programmes that undermine our <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-the-disjoined/disentailment-of-presencing—absolutising-identitive-constitutedness > -as-flawed-epistemicity-relativism-determinism perspective. Further, the implication as well is that the adjudicator as to transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity with regards to truth as it enables transcendence-and-sublimity/sublimation/supererogatory—de-mentativity then is existence-potency~sublimating—nascence,-disclosed-from-prospective-epistemic-digression as of its <amplituding/formative-epistemicity>causality ~as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity selecting/skewing for ontological-pertinence within the underlying

Even though in the short-term/immediacy perspective the specific metaphoricity of say a scientific and liberal worldview narrative as implied with the industrial revolution may actually be in the most part ignored/overlooked in a pre-industrial society from a merely meaningfulness-and-teleology transmission/spreading perspective, the supposedly coherent ontological-commitment—implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ exposes it to the metaphoricity of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained politically and as of national vision, economically and culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior preconverging–de-mentating/structuring/paradigming of societies. Such an overall prospective institutionalisation metaphoricity constraining is very much unlike what we may naively imagine the prior human meaningfulness-and-teleology to be from an after the fact analysis; since such a process is much more critically more than just ‘mere

This points to a more comprehensive reality of human epistemic-veracity arising as of our totalising—thrownness-in-existence with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability implications as of causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity. in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology—in-preconverging—existential-extrication-as-of-existential-unthought—nonpresencing,—for-explicating-ontological-contiguity ricochetting that speaks of the de-mentative/structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness appraisal. The reason
for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or wooden-language<amplituding/formative>imediated-averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications>presencing—absolutising-identitive-constitutedness mindset not dispensing-with-immediacy-for-prospective-ontological-completeness/contemplative-distension, and so in order to effectively put in perspective the deficiency of epistemic-veracity so-inherent when it comes to prospective metaphoricity implications of operant prospective intemporal individuation transversality<for-sublimating-existential-eventuating/denouement>-of-affirmative-and-unaffirmative-disambiguated-'motif-and-apriorising/axiomatising/referencing' intemporal projection as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for reasoning-through/messianic-reasoning. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its dementative/structural/paradigmatic meaningfulness-and-teleology\textsuperscript{100} as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility for prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to \textless\text{amplituding/formative–epistemicity}\textgreater\text{causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity validation-and-falsifiability}\textsuperscript{42}. Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity/sublimation/supererogatory-dementativity as of prospective meaningfulness-and-teleology\textsuperscript{100} as knowledge on a vague notion of any presencing—absolutising-identitive-constitutedness epistemic-veracity that at the very least doesn’t rise to projectively contemplate and appraise of such prospective meaningfulness-and-teleology\textsuperscript{100} as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability\textsuperscript{42}. Thus metaphoricity as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-
including virtue-as-ontology>-of-narratives is rather as of amplituding/formative-epistemicity-causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity selecting/skewing-towards intemporality/ontological-veracity as to existence-potency~sublimating-nascence,-disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its conventioning-referencing and its presencing—absolutising-identitive-constitutedness Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, when it comes to assessing the possibility of prospective meaningfulness-and-teleology inducing of metaphoricity. It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology including our modern period, is a flawed appraisal; as in many ways, beyond our perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-
conventioning-referencing; as the very possibility of the <cumulating/recomposuring–

Ultimately, the question can be asked as well of our present positivism–procrypticism wherein its conventioning-referencing procrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument falsely seem to project ontological-pertinence why assuming little or no prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of--meaningfulness-and-teleology\(^{100}\) responsibility in an preconverging-existential-extrication-as-of-existential-unthought posture; as such conventioning-referencing narratives increasingly protrude into supposedly prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of--meaningfulness-and-teleology\(^{100}\) purviews in usurpation, and so together with generalised intellectual teleological-decadence<-in-dimensionality-of-desublimating-lack-of--\(\langle\text{amplituding/formative}\rangle\text{supererogatory–de-mentativeness/epistemic-growth-or-conflatedness transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\rangle\) as of its populism and pecuniary value drive substituting for intellectual reification, and as so increasingly reflected mediatically. This human contrastive
mental-disposition to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and presencing—absolutising-identitive-constitutedness conventioning-referencing speaks at a more fundamental level of the reality that the human subject is not psychologically necessarily driven by an absolute commitment to prospective ontological-veracity given its registry-worldview/dimension de-mentative/structural/paradigmatic ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self’/ontological-fracturing/desublimation/gimmickiness complex’; and thus that it has an ontological-veracity destructuring-threshold\textsubscript{uninstitutionalised-threshold /presublimating–desublimating-decisionality}\textsubscript{ontological-performance} -<including-virtue-as-ontology>, where beyond-the-consciousness-awareness-teleology -<in-preconverging-existential-extrication-as-of-existential-unthought> it will relate to ontological-veracity as relatively impertinent on critical occasions as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument \textsubscript{amplituding/formative–epistemicity}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and so-reflected socially as of the uninstitutionalised-threshold. The underlying insight about such ontological-veracity destructuring-threshold -\textsubscript{uninstitutionalised-threshold /presublimating–desublimating-decisionality}\textsubscript{ontological-performance} -<including-virtue-as-ontology> is that the state of human-subpotency is one where overall its capacity to reflect existence-potency as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism is inherently limited such that human \textsubscript{meaningfulness-and-teleology} construal ever always varies as of ‘individual whim/impulsion narratives ontological-performance’ -<including-virtue-as-ontology’, wooden-language-\textsubscript{imbued—averaging-of-thought}<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-

It is important to grasp that since every registry-worldview/dimension social-construct is involved in a constructive (as of its institutionalising disposition) and destructuring (as of its disposition at its uninstitutionalised-threshold) relationship with ontological-veracity, this is exactly what inevitably validates the articulation of ontological-veracity/ontological-veridicality as more completely involving the displacement/decentering-of-the-human-subject priorly as implied with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative in reflecting the need to undermine human destructuring-threshold-{uninstitutionalised-threshold ~of-ontological-performance} to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completenenss implications; reflecting the fact that human knowledge is
more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thus the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity }—conflatedness —in {preconverging-disentailment by} postconverging-entailment. This is very much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed- existentialising/contextualising/textualising-contiguity }—constitutedness—in {preconverging- entailment} since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness on ontological-veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent ‘logocentric habituated social conditions’ in enabling the ontological-contiguity —of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology right up to our present, and as of prospective transformative emancipating possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent—sublimating-decisionality and destructuring-threshold—{uninstitutionalised-threshold /presublimating–desublimating-decisionality}—of-ontological-performance <including-virtue-as-ontology> nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/suberogatory-de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein
expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-

whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes,
Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-

constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold
\{uninstitutionalised-threshold /presublimating–desublimating-decisionality\}–of-ontological-
performance\footnote{\textit{<including-virtue-as-ontology>}} nature is effectively what underlies in
ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-
of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian
genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the
ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully
more of a purely ontological notion is caught up in our positivism–procrypticism prior relative-
ontological-incompleteness\footnote{human social-stake-contention-or-confliction in disjointedness-as-

Derrida to define deconstruction. Again, such a social situation is no more different with say the

positivism/medievalism prior relative-ontological-incompleteness\footnote{temporal framework of}
social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness’ positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification/contemplative-distension\(^2^7\) (as of human self-surpassing—existentialism-form-factor,\(^{-}\)in-overcoming—‘notionally-collateralising-beholdening-protohumanity’-to—’attain-sublimating-humanity’-as-to-existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression\(^-\)) to supersede human temporality\(^/-\)shortness \(\langle\text{amplituding/formative}\rangle\) wooden-language\(^\_\) (imbued—averaging-of-thought—\(<\text{as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology}\text{-as-of–‘nondescript/ignorable–void’}-\text{-with-regards-to-prospective-apriorising-implications}>)\); which will explain in many ways the difficulty of the Copernicus, Galileos, Descartes’, Diderots, etc. so effectively enculturate their budding-positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-incompleteness\(^8\) human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness\(^8\) notional–deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporality\(^/-\)longness and temporality\(^/-\)shortness as to human limited-mentation-capacity relative ontological-performance\(^7\)\(<\text{including-virtue-as-ontology}>\). It is effectively from this
fuller pure-ontology perspective of prospective relative-ontological-completeness\(^3\)\(^6\) notional–deprocrypticism that we can appreciate more profoundly the \(^1\) universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive \(^1\) universal ontological profundity for analysing everything as of prospective relative-ontological-completeness\(^8\) notional–deprocrypticism herein construed as human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation\(\langle\text{as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing}\rangle\); with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness\(^9\)/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of
deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness\textsuperscript{28} positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is\textsuperscript{104} universally emancipating as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\textsuperscript{2} \{uninstitutionalised-threshold /presublimating–desublimating-decisionality\} of-ontological-performance\textsuperscript{1} -<including-virtue-as-ontology> nature inherently points out why human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of intemporal metaphoricity epistemic pertinence doesn’t lie with any inherent suprasocial framework or inherent \textsuperscript{8} <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} framework. the uninstitutionalised-threshold, speaks of a threshold at which as of our human-subpotency we fail to assume the intellectual-and-moral responsibility arising as of ontological-veridicality so-reflect as from the full sublimating-over-desublimating implications of existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression ontological-veracity perspective insight of affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring<as-to-postconverging-or-dialectical-thinking–apriorising-psychologism>. This is the overall notion explaining human akrasia-susceptibility-or-akrasiatic-drag complex, and so as of human limited-mentation-capacity notional implications. Thereafter, understanding of this human ‘ontologically-flawed antiakrasiatic disposition’ is all about conceptualising the effective operant ontologically-constraining conditions as of human existential-instantiations given our limited-mentation-capacity implied as of temporality/shortness and intemporality/longness implications, and so construed epistemically as ontological-normalcy/postconvergence analysis. Insightfully, we can appreciate that the absolute human ontologically-veridical antiakrasiatic disposition can only be as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism so-reflect with futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldview/dimension, over human-subpotency–as-of-ontologically-compromised-epistemic-abnormalcy/preconvergence so-reflect variously with the preceding <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions; wherein notional–deprocrypticism as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression will rather speak of prospective ‘ontologically-hegemonising-narrative ontological-performance”-
which as of its inherent constructive ontological-performance\(^{-1}\)-<including-virtue-as-ontology> is of a de-mentative/structural/paradigmatic implication that ultimately supersedes the destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}-of-ontological-performance\(^{-1}\)-<including-virtue-as-ontology> notionally underlying human-subpotency. Thus all the problem of human ontologically-flawed antiakrasiatic disposition boils down to construing the underlying human mental-processing disposition, construed as of phenomenal-abstractiveness implications, as from human-subpotency dispositional possibilities of ontological-performance\(^{-1}\)-<including-virtue-as-ontology> to existence-potency\(^{10}\)-sublimating–nascence,-disclosed-from-prospective-epistemic-digression possibility of ontological-performance\(^{-1}\)-<including-virtue-as-ontology>. <including-virtue-as-ontology> analysis’ is rather notionally/epistemically reflective of the
social-construct constructiveness-of-ontological-performance -<including-virtue-as-ontology>, as such an antiakrasiatic analysis of uninstitutionalised-threshold notionally/epistemically reflects the ontological-contiguity —of-the-human-institutionalisation-process; and so, similarly as the analysis of prospective possibilities of disease and illness is not about being pessimistic about the biology of human beings but is notionally/epistemically reflective of the possibility for the further development and provision of medicine and healthcare, and just as the projective analysis of lack of science and technology capacity is not about being pessimistic about human technical development but is notionally/epistemically reflective of the possibility for the further invention of technologies and scientific discoveries. We can appreciate here that the very same epistemic/notional conceptualisation with respect to the human subject as with natural subject-matters elicits in the former high emotional involvement whereas the latter as of its direct causality -as-to-projective-totalitative- implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity elicits low emotional-involvement, but for the case where with regards to high and conflicting human social-stake-contention-or-confliction even the natural domain is not immuned from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance -<including-virtue-as-ontology> and as reflected at uninstitutionalised-threshold. As the
Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance\(^1\)-

notional-deprocrypticism over positivism–procrypticism. In this regards, the notion of preconverging-or-dementing\(^{20}\)–apriorising-psychologism as reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\(^{20}\)–qualia-schema’ of prior relative-ontological-incompleteness\(^{99}\) is tied-to and a necessarily associated notion with that of postconverging-or-dialectical-thinking\(^{21}\)–apriorising-psychologism as reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking\(^{21}\)–qualia-schema’ with respect to the possibility of a protracted-consciousness conceptualisation in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^{68}\)–of-the-human-institutionalisation-process\(^{69}\); and as this explains the successive construction-of-the-Self reflected in the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions. It is the possibility for the human mind to dement as of a ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ by its self-conscious <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of its <amplituding/formative–epistemicity>totalising–thrownness-in-existence that dementatively/structurally/paradigmatically allows for the possibility of prospective institutionalisation involving the displacement/decentering-of-the-human-subject. Unlike our naïve human-subpotency epistemic-or-notional–projective-perspective inclined to perceive prior registry-worldviews/dimensions in their ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ in stigmatising terms–as-of-axiomatic-construct, the ontological-veracity from existence-potency\(^{39}\)–sublimating–nascence,-disclosed-from-prospective-epistemic-digression epistemic-or-notional–projective-perspective is one that rather entails a forward-thinking appreciation that the possibility of all prospective relative-ontological-completeness\(^{88}\) postconverging-or-
dialectical-thinking\textsuperscript{21}–apriorising-psychologism reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking\textsuperscript{21}–qualia-schema’ can only arise as of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposing possibility of prior relative-ontological-incompleteness\textsuperscript{1} preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’, and so whether from a retrospective, present or prospective perspective; speaking of the ‘miracle of the human mind malleable potential as of the human-subject-emancipating-relativism-driven-recomposing-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>’, and implying an obligation for any given registry-worldview/dimension to maximalise this human capacity for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{10} as of its growing self-consciousness and self-awareness. In fact, the notion of preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism as such speaks of the fact that the entire cross-section of humanity as of recurrent-utter-uninstitutionalisation is of a ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ with respect to prospective base-institutionalisation ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking\textsuperscript{1}–qualia-schema’, and likewise\textsuperscript{10} universalisation with respect to base-institutionalisation–ununiversalisation, \textsuperscript{10} universalisation–non-positivism/medievalism with respect to positivism, and our present positivism–procrypticism with respect to prospective deprocrypticism. The fact is, even the said prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity emancipators across the <cumulating/recomposing–attendant-ontological-contiguity>-successive registry-worldviews/dimensions in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process are just as equally relatively enmeshed in many ways with their reference-of-thought old psychology ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing—qualia-schema’ like say Newton’s involvement with alchemy, and the idea of projecting to a prospective ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking—qualia-schema’ speaks of a first level of human uninhibitedness/decomplexification that is exactly what allows for human emancipation. This further shows how our seemingly objectified presencing—absolutising-identitive-constitutedness positivism–procrypticism disposition is all-encompassing as of our ‘<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ when we construe of ourselves as ‘postconverging-or-dialectical-thinking—apriorising-psychologism as of in-the-absolute’ without projecting that just as prior generations of humans were both postconverging-or-dialectical-thinking—apriorising-psychologism as of their constructiveness-of-ontological-performance—<including-virtue-as-ontology> reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking—qualia-schema’ at their relative-ontological-completeness and preconverging-or-dementing—apriorising-psychologism as of their destructuring-threshold—uninstitutionalised-threshold/presublimating–desublimating-decisionality—of-ontological-performance—<including-virtue-as-ontology> reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing—qualia-schema’ at their relative-ontological-incompleteness, we equally manifest the same and so-perceived from the prospective relative-ontological-completeness of deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought. The critical point here has to do with
the fact that beyond the ‘attendant-ontologies—as-of-conventioning-referencing’ of the
teleology -as-of-'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications> as of its ontologically-flawed identitive-constitutedness -as-‘epistemic-totality ’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > -as-flawed-epistemicity-relativism-determinism, we are involved in a fundamental disjointedness-as-of- reference-of-thought in the sense that we seem to imply in our <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that our ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’ as reflected by our positivist science-ideology and humanism ideology seemingly surpasses the very ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology’ in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process that engendered our positivism/rational-empiricism creating as of epistemic-ricochetting the said science without the science-ideology and the said human emancipation without the humanism ideology. This fundamental disjointedness explains why and how our positivist science-ideology and humanism ideology so-misconstrued beyond-the-consciousness-awareness-teleology -<in-preconverging-existential-extrication-as-of-existential-unthought> rather turns out to be denaturing and undermines prospective Being-development/ontological-framework-development, and explains our inclination to ask the wrong questions given the false sense of certainty arising from this ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’. Such questions with regards to how the humanities can be further developed as efficaciously as the natural sciences, how can philosophy be more socially potent, and on the social paradoxes of our suboptimum institutional-development–as-to-social-function-development and living-development–as-to-personality-development, more critically point to the ontological-veracity in reflecting
development-as-infrastructure-of—meaningfulness-and-teleology. In other words, unlike we may contemplate as of our positivism/rational-empiricism mindset, the notion of prospective human emancipation wasn’t alien to the recurrent-utter-uninstitutionalisation mindset though such a conception by mental-reflex was projected as of its very own ‘recurrent-utter-uninstitutionalisation attendant-ontology—as-of-conventioning-referencing’ in ontologically-flawed identitive-constitutedness ‘epistemic-totality ’-dereification-in-dissingularisation-‘impelled—averaging-of-thought—implied intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ inducing the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring so-reflected as of difference-conflatedness-as-totalitative-reification-in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> as-veridical-epistemicity-relativism-determinism, in order to attain prospective base-institutionalisation emancipation; such that all such relative-ontological-incompleteness.
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument predilection is further subject to its internal social-stake-contention-or-confliction sophistry, with the
ontological-contiguity~as it inevitably enters into an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag~
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is the notion underlying human self-consciousness as of construction-of-the-Self all along in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology'. It all arises from the ‘human capacity for decomplexified/uninhibited preconverging-or-dementing–apriorising-psychologism’ in order to then ‘prospectively induce originarily/as-of-event prospective postconverging-or-dialectical-thinking–apriorising-psychologism’. In this regards, we can factor in for instance that more critically rather than construing the prospective reification of the humanities and philosophy for instance in terms of breakthroughs along the lines of say exceptional methods or capacity along the lines of our ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’, the reality of any such transcendence-and-sublimity/sublimation/supererogatory~de-mentativity will rather be ‘a more candid face-up with our procrypticism–or–disjointedness-as-of-reference-of-thought’ as herein implied by this author as of the notion of ‘beyond-the-consciousness-awareness-teleology’ institutional-being-and-craft, muddlement and other intellectual complexes/inhibitions’ that de-mentatively/structurally/paradigmatically as of a destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance ~of-ontological-performance <including-virtue-as-ontology> cloud/undermine the potential for further intellectual emancipation, and so similar to the breakthrough that brought about budding-positivism/rational-empiricism as of say the reasoning-through/messianic-reasoning Galilean gesturing postconverging–de-mentating/structuring/paradigming based on the fact that looking in the telescope we can appreciate how the planets moved around the sun and as this budding-

sublimity/sublimation/supererogatory–de-mentativity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of ‘incrementalism-in-relative-ontological-
incompleteness’—enframed-conceptualisation disposition but rather more concretely only after human decomplexing/uninhibiting de-mentative/structural/paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency’<sublimating–nascence,-disclosed-from-prospective-epistemic-digression level for human emancipation as of maximalising-recomposuring-for-relative-ontological-
completeness ’—unenframed-conceptualisation; and this is effectively reflected in all cases of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Whether of low or high emotional-involvement, it is inevitably the case that the de-
mentative/structural/paradigmatic possibility for prospective human transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity ever always and has ever always involved or been-grounded-on-prior ‘intemporal ontological-faith-notion-or-ontological-fideism—

Thus psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, as of human de-mentation—(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) implied prospective postconverging-or-dialectical-thinking—apriorising-psychologism and prior preconverging-ordementing—apriorising-psychologism, is merely a reflection of the fact that human meaningfulness-and-teleology is ever always as of the very same overall purview that is existence but then as of various state of human relative-ontological-incompleteness /relative-ontological-completeness—(sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative–supererogating—<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence>) of reference-of-thought so-construed as registry-worldviews/dimensions, such that human meaningfulness-and-teleology is thus of lower to higher ontological-veracity/ontological-performance—<including-virtue-as-ontology> as of relative-ontological-completeness. This comprehensive elucidation as to existence-potency\textsuperscript{3}–sublimating–nascence,–disclosed-from-prospective-epistemic-digression and human-subpotency implications of ontological-
performance\textsuperscript{73} articulated above, can more fully be abstracted to reflect the overall ‘effecting-phenomenality underlying existence and existential-manifestations’. The implied underlying singularity\textsuperscript{as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing} projected epistemic-immanence/veridical-epistemicity-relativism-determinism of existence as to existence-potency\textsuperscript{sublimating–nascence,-disclosed-from-prospective-epistemic-digression} as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notionally/epistemically reflecting the ecstatic singularity of existence speaks of the imbued de-mentative/structural/paradigmatic unity of the reflected existential sublimation manifestations. Such an ecstatic singularity of existence is what renders intelligibility possible as of the ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment\textsuperscript{implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality} as of \textsuperscript{amplituding/formative–epistemicity}causality \textsuperscript{as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity} and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human). This ecstatic singularity of existence is its primordial ineffability, as beyond any \textsuperscript{amplituding/formative–epistemicity}totalising–thrownness-in-existence\textsuperscript{validatory possibility of any such state of \textsuperscript{amplituding/formative–epistemicity}totalising–thrownness-in-existence} by way of \textsuperscript{amplituding/formative–epistemicity}causality \textsuperscript{as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity}. The ecstatic singularity
of existence is the very shepherding/ushering/heralding possibility for existence’s intelligibility. Thus the supervening unity of all existential sublimation manifestations arises as of their notional–conflatedness intelligibility derived from the primordial ineffability of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment) and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human); and this primordial ineffability is thus the epistemic guidance for the construal of intelligibility in all existential sublimation manifestations. This never failing ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment) and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human), as shepherding/ushering/heralding the possibility of intelligibility to arise, is ‘the outstanding/in-waiting/in-abeyance/in-pending of existence as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression that is perpetually stood out’ for ‘phenomenal/manifest–subpotencies ~(in-transitive-

its preconverging existential-extrication-as-of-existential-unthought with respect to social-

as if ‘human progress occurs anyway’ as the idea of a human existential tale perpetuation and
its implications is alien to the sophists since all that counts is the immediate now and its
temporal/mortal social-stake-contention-or-confliction interests; and worst still, human limited-
mentation-capacity in inducing prospectively relative-ontological-completeness\(^\text{28}\) as of the
weaknesses associated in all human transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity is held by the sophists against any such
reasoning-through/messianic-reasoning for transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity. Inherently, while the intemporal
projection coherence of reasoning-through/messianic-reasoning spans the ontological-
contiguity\(^\text{29}\)—of-the-human-institutionalisation-process\(^\text{29}\) as the ‘true-ontology—as-of-Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastucture-of—\(\langle\text{meaningfulness-and-teleology}\rangle\text{-as—of—}^\text{27}\), what is peculiar about sophistry is that
the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and
other registry-worldviews/dimensions are just other ones and have nothing to say about the
present one as of an overall human tale, as the threat of rationalising the implications of such a
human existential tale perpetuation may jeopardise their present social-stake-contention-or-
confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory—dementativity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension which is ‘never always the easiest of notion’ for human <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications—}\} disposition, especially as this often always implies the displacement/decentering-of-the-human-subject, it is inevitably the case that such ideal as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event—reasoning-through/messianic-reasoning’ has to reckon with the temporal social-stake-contention-or-confliction human sophistry eliciting-of-immediacy-as-of-relative-ontological-incompleteness—dereification for <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications—}\} disposition meant at stifling the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory—dementativity, and so beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication-as-of-existential-unthought—>.
In all such instances as was realised by universalising-idealisation philosophers Socrates/Plato/Aristotle as well as budding-positivists, the notion of dialogical-equivalence as-to-psychologismic-apriorising/axiomatising/referencing-\{\text{of-attendant-ontological-contiguity \text{educed-existentialising/contextualising/textualising-contiguity}\}\}—conflatedness -in-\{\text{preconverging-disentailment-by}–\text{postconverging-entailment,-in-self-becoming/self-conflatedness /formative–supererogating}\} and intellectual-and-moral-equivalence is not a given, and as the sophists commit to sophistry the genuine intellectual holds it against the sophists to imply they are effectively of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity’-\text{shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema}’ rather than ‘apriorising-teleological-elevation-in-ontological-contiguity’ to avoid wrongly implying dialogical-equivalence-as-to-psychologismic-apriorising/axiomatising/referencing-\{\text{of-attendant-ontological-contiguity \text{educed-existentialising/contextualising/textualising-contiguity}\}\}—conflatedness -in-\{\text{preconverging-disentailment-by}–\text{postconverging-entailment,-in-self-becoming/self-conflatedness /formative–supererogating}\}, as the latter notion only arises as of mutual apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in relative-ontological-completeness as of the underlying registry-worldview/dimension reference-of-thought -<amplituding/formative–epistemicity>totalising–devolved-apriorising-rule; as there can be no genuine contention between a universalising-idealisation mindset and a sophist/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for the mere sake of preserving and avoiding the denaturing of the universalising-idealisation meaningfulness-and-teleology or positivising/rational-empiricism meaningfulness-and-teleology. This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is
exactly why the successive uninstitutionalised-threshold arise in the first place; and the
sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its
temporal social-stake-contention-or-confliction has always been addressed not by a faulty
pretence of mutually objectifying intellection between genuine intellectualism and sophistry,
which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt
parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it
essentially is; as with the universalising-idealisation philosophers not wasting their time in
pretence of engaging the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled–syllogising mindset or the budding-positivists/rational-empiricists
dismissing off-hand pedantic scholasticism. The habituated idea of dialogue/dialogical-

notional-discontiguity/epistemic-discontiguity does not avail as of epistemic-verity and thus ontological-verity as of the ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity/ -<shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema>’ closed <amplituding/formative–epistemicity>totalising–self-referencing-syncetising/circularity/interiorising/akrasiatic-drag in prior relative-ontological-incompleteness which rather warrants psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective relative-ontological-completeness. This is akin to the mathematician opened to mutual calculating even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance -<including-virtue-as-ontology> but this only holds with the mathematical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost, fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of ‘meaningfulness-and-teleology as of ontological-verity is about the ‘reasoning-through transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ of contentions for the determination of existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression as of <amplituding/formative–epistemicity>causality-as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity; and it is rather different from a sovereign construct grounded on sovereign choice whether there is ontological-verity or ontological-impertinence. The human existential tale as ‘humanity project’ has ever always
been one of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as implied in the ‘seeding promise of human-subpotency ontological-performance’ <including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence-as-of-its-coherence/contiguity’. The secondnatured institutionalisation constructs as of sovereign institutions and establishment frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification—gesturing<in-prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological—contiguity—educated—existentialising/contextualising/textualising—contiguity—}—confatedness—in—{preconverging—disentailment—by—}—postconverging—entailment> role and as beyond-the-consciousness-awareness-teleology<in-preconverging—existential-extrication—as—of-existential-unthought—> surreptitiously defining what can be thought or not thought. The fact is such implied underpinning—suprasocial-constructs are mainly secondnatured whether as sovereign representation or establishment constructs, and can easily be caught up in their own <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag in prior relative-ontological-incompleteness with respect to social-stake-contention-or-confliction and are thus not the absolutising framework of human—meaningfulness-and—teleology, as the social knowledge-reification—gesturing<in-prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological—contiguity—educated—existentialising/contextualising/textualising—contiguity—}—confatedness—in—{preconverging—disentailment—by—}—postconverging—entailment> role must always be opened to ‘intemporal individuation ontological-faith-notion—

We can appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning–suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning–suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’ induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’, is nothing but
<amplituding/formative–epistemicity>totalising–self-referencing–
syncretising/circularity/interiorising/akrasiatic-drag which obviously doesn’t register/is-
unaccounted internally because (but from the existence-potency~sublimating–nascence,-
disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-

de-mentatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to
see of its defective ontological-performance’–<including-virtue-as-ontology> as it
surreptitiously implies that it is absolute beyond-the-consciousness-awareness-teleology
<in-preconverging–existential-extrication-as-of-existential-unthought>’. The fact is, it is this
possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the
budding-positivists putting into question their conventioning-referencing meaningfulness-and-
teleology and value that allows for prospective institutionalisation to arise as of
universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it
is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as
of their immediacy disposition are very much cognisant of the Being-development/ontological-
meaningfulness-and-teleology leading to the establishment of their given registry-
worldviews/dimensions over which their conventioning-referencing is setup but then tend to
fail to construe of their prospective possibility of Being-development/ontological-framework-
expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-
and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much
construed of critical ontological insights that went into their various conventioning-referencing
like say the Ancient Egyptians with their conventioning-referencing mobilising ontological
insights much more obviously with the building of pyramids, the Persians mobilising their
ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with
greater technical and knowledge potential, it was the smaller and rustic Greece and specifically
Athens that contemplated of prospective Being-development/ontological-framework-
expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-
and-teleology with the emergence of universalising-idealisation over ancient mythologies
and cultism, likewise the medieval Europe scholasticism was the height of this
universalising-idealisation as of its establishment and religious conventioning-referencing
but it took budding-positivists to come up with the prospect of renewed Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology, and likewise it is the case that our
conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-
empiricism as absolutising and hardly countenancing of its own effort for prospective
Being/ontological-framework-expansion. It is herein contended that, as of the implications of
Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-
development-as-infrastructure-of—meaningfulness-and-teleology, that in many ways just as
the manifestation of postlogism—slantedness associated with notions-and-accusations-of

identitve-constitutedness. We can appreciate that the atomising/taking-to-pieces disposition that is often wrongly sought in other domains-of-study is often ontologically-flawed because it fails to see that ‘the more elaborate panintelligibility—effusing/ecstatic—inlining nature of attendant ontologial-contiguity—educed—existentialising/contextualising/textualising-contiguity in epistemic-confalatedness in their domains-of-study’ implies that their knowledge-reification—gesturing-<in-prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological—contiguity —educed—existentialising/contextualising/textualising-contiguity }—confalatedness—in—{preconverging-disentailment—by—postconverging—entailment}> should increasingly be explicitly totalising-entailing/nested-congruence as to the hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness, as even the natural sciences are implicitly epistemically totalising-entailing by the mere fact of the ‘precedence of attendant ontologial-contiguity—educed—existentialising/contextualising/textualising-contiguity in epistemic-confalatedness to which their abstract notions are aligned’ as well as so-implied by their foregrounding—entailment—{postconverging—narrowing-down—sublation-as-to—existence—as-sublating-withdrawal,—eliciting—of—prospective-supererogation —in—reflecting—immanent-ontological-contiguity —as—operative—notional—depocrypticism} orientations which drives their knowledge-reification—gesturing<-in—prospective_psychologismic—apriorising/axiomatising/referencing—{of—attendant—ontological—contiguity —educed—existentalising/contextualising/textualising-contiguity }>for unification as to ontological-contiguity as not just an idle quest; and this misconstrual is further reflected by the fact that the life sciences (as of their axiomatic-construct ‘apriorising—

institutionalisation-process in developing successive reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation reflecting human successive self-consciousness/construction-of-the-Self that transcendentally-and-sublimely transform human-reflexivity-in-ecstatic-existence so-construed as of human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation <as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>; wherein we can appreciate that the instigation of universalising-idealisation meaningfulness-and-teleology infrastructure or subsequent positivising/rational-empiricism meaningfulness-and-teleology infrastructure transform human potentiation construed as ‘human-subpotency convergence to existence’ with regards respectively to the specific base-institutionalisation or rational-empiricism/positivism self-consciousness/construction-of-the-Self implied as of the specific Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. This self-consciousness/construction-of-the-Self notion is what deflates such ‘issues implied with regards to human sovereign options/choice or freewill’ and ‘issues of natural determinism beyond human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-Self as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology implies ‘induced human potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious
medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficulty the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology (as the relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is dementatively/structurally/paradigmatically potently conducive/endemising/enculturating to its
vices-and-impediments, and as the very possibility for prospective ontological-performance arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance’ equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity>totalising—thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory—de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipating possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>}? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance as of human <amplituding/formative–epistemicity>totalising—thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the underdevelopment of Being/ontological-framework-expansion or self-consciousness/construction-of-the-Self incapacity as of say insanity’, and not necessarily as of lack of new knowledge-construct or technical-development; in the sense that say a criminal that had gone uncaught before a new technical-development like DNA testing establishes their criminal responsibility as of human potentiation, cannot talk of natural determinism implications as a defence just as covert predispositions associated with vices-and-impediments as of ‘self-conscious drive’ cannot be qualified to be of natural determinism implications when unmasked. Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and living’ in the non-positivistic social-setup as ‘grandest living’ but rather the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation ‘of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or-ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposuring) as from recurrent-utter-uninstitutionalisation to modern-day positivism–procrypticism and prospectively deprocrypticism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory preconverging–de-mentating/structuring/paradigming relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw
rather to the wooden-language-⟨imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology⟩ as deterministic thus subknowledging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing—apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’. But then transcendental constructs of meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as transcendental meaningfulness-and-teleology involves psychical and institutional recomposuring of high contrariety implications to human temporality/shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as all knowledge is not about being responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity of an
intersolipsistic nature. It is equally important to grasp that transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity is the more profound origination of
reference-of-thought that enables knowledge conceptualisations, and that the praxis of
knowledge may naively be construed as non-transcendental. So all knowledge is actually
transcendental and this is not to be confused with its distance/remoteness as coming from the
‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-
institutionalisation, universalisation, positivism or prospectively notional–deprocrypticism
knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional
inherence’ arising from incrementalism-in-relative-ontological-incompleteness—enframed-
conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge
has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-
mentativity and not social-aggregation-enabling, transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity (transcendental knowledge) cannot be
construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies
superseding the prior reference-of-thought–categorical-imperatives/axioms/registry-
teleology with the prospective one for intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-
recomposuring) maximalising-recomposuring-for-relative-ontological-completeness —
enenframed-conceptualisation <amplituding/formative–epistemicity>totalising–renewing-
realisation/re-perception/re-thought, in contrast to a naïve incrementalism-in-relative-
ontological-incompleteness—enframed-conceptualisation mental-reflex. The idea that
knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally
is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such
knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental
origination of the \(^8\) reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking \(^8\) reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing-\{of-
attendant ontological contiguity -educed existentialising/contextualising/textualising-
contiguity }—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-
totalising \(^3\)~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising \(^3\)~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of \(^8\) reference-of-thought’ arises as for prospective transcendence-and-sUBLIMITY/sublimation/sUPEREROGATORY—DE-MENTATIVITY, it will be naïve to imply that knowledge is neutral failing/not-upholding<as-of-apriorising/axiomatising/referencing-> to register that all knowledge is the outcome of transcendence-and-sUBLIMITY/sublimation/sUPEREROGATORY—DE-MENTATIVITY as ‘reappraisals of \(^8\) references-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sUBLIMITY/sublimation/sUPEREROGATORY—DE-
mentativity of \textsuperscript{8}reference-of-thought that enabled it to be as of the present \textsuperscript{7}reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the \textsuperscript{8}reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness \textsuperscript{-of-} reference-of-thought. Hence it is rather ontological-completeness-of-\textsuperscript{8}reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-sUBLIMITY/sublimation/supererogatory\textsuperscript{-de-mentativity implications for completing the \textsuperscript{8}reference-of-thought, and so not only with regards to transcendence-and-sUBLIMITY/sublimation/supererogatory\textsuperscript{-de-mentativity of retrospective registry-worldviews/dimensions \textsuperscript{8}reference-of-thought but equally with the implication of transcendence-and-sUBLIMITY/sublimation/supererogatory\textsuperscript{-de-mentativity for prospective registry-worldview’s/dimension’s \textsuperscript{8}reference-of-thought as so validated by ontological-normalcy/postconvergernce. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism\textsuperscript{7} as perversion-and-derived-perversion-of-\textsuperscript{7}reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency\textsuperscript{10}–(transparency-of-totalising-entailing,-as-to-entailing-\textsuperscript{<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness > hence speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective

uninstitutionalising-facet insight will rather overlook such implied denaturing—as of beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication-as-of-
existential-unthought>. This very much mirrors such a dichotomy as articulated before within
the same social space of relative perception of social-stake-contention-or-confliction at a
registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of
lawfulness and lawlessness, social-functioning and social dysfunction, accordance and
discordance, probity and corruption, principledness and unprincipledness, etc. across the full
breadth and depth of human institutions dynamic social construction of perceived social-stake-
contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-
and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–
procrysticism that the construal of psychopathy and social psychopathy is in effect a social
construction wherein while prospective institutionalisation mental-disposition relates-to-and-
construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the
social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-
recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation
postconverging–de-mentating/structuring/paradigming, uninstitutionalised-threshold mental-
disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory
preconverging–de-mentating/structuring/paradigming. This is very much in sync with the
reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human
solipsistic mental-dispositions are temporal-to-intemporal with the implication that such
intemporal mental-orientation as ontology divulging is just one mental-disposition among
others such that any such pre-eminence arises only as of positive opportunity induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemporality-asymmetric-subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness-of-reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in notional-deprocrypticism apriorising/axiomatising/referencing-of-attendant-ontological-contiguity educed–existentialising/contextualising/textualising-contiguity conflatedness in {preconverging-disentailment-by}-postconverging-entailment and so over procrypticism disjointedness-as-of-reference-of-thought denaturing and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing. Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence—existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness-of-reference-of-thought issue wherein the incidental denaturing of such manifestations
reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation apriorising/axiomatising/referencing- of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity } — conflatedness — in {preconverging-disentailment-by} — postconverging-entailment directed to the bigger and subsuming issue of relative-ontological-incompleteness of-reference-of-thought for inducing notional-deprocrypticism over procrypticism or positivism over non-positivism/medievalism respectively that harkens back to undermine in a decisive and nonextricatory and non-palliative manner the associated postlogism.

The defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) comparison can equally be used to illustrate how slanting is different from lying. Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold \(^1\)–defect-<as-Being-or-ontological-or-existential–defect> \(^2\) (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring–purpose (flaw logical-processing/act-execution-implicitation meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not defective (thus appropriateness-of- \(^3\) reference-of-thought-as-of-conflatedness \(^4\)). This point to the ad-hoc nature of lying deception wherein there is nothing inherent that precludes subsequent appropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation meaningfulness where the contextual-ambiguity-constraint(s) are resolved. In the bigger scheme of things (at the transcendental/transdimensional/interdimensional level) postlogism \(^5\) epistemic-decadence and its integration as perversion-and-derived-perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of reference-of-thought–categorical-imperatives/axioms/registry-teleology \(^6\),-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation defines a registry-worldview’s/dimension’s uninstitutionalised-threshold \(^7\); arising in ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations. stature and the implied-presumptuousness-or-implied-arrogation to logically contend about the ontological veridicality of an accusation of witchcraft with a relatively suprastructuring positivistic mental-disposition). This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal prelogism-as-of-conviction,-in-profound-supererogation-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-preccedes-disontologising-logical-outcome-arrived-at> mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-<as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism> with respect to meaningfulness). Paradoxically, this is the fundamental strength of psychopathy, i.e. to get the normal prelogism-as-of-conviction,-in-profound-supererogation-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind to wrongly elevate psychopathic meaningfulness-and-teleology as of veridical ‘attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity’ rather than reflect the reality of its ‘formulaic meaningfulness-and-teleology100, which is ‘meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’. So when we talk about psychopathy we are talking about perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation rather than logical defect (defect of logical operation/processing/contention).
reference-of-thought as of its ‘unsoundness-or-ontological-bad-faith/inauthenticity‘ of reference-of-thought’ construed as ‘preconverging-or-dementing–apriorising-psychologism and decentered understanding’. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising–reference-of-thought-elements/apriorising–registry-elements, and thus falsely implying the apriorising–reference-of-thought-elements/apriorising–registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity –of- reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity of reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought-(reflected-as-soundness-or-ontological-good-faith/authenticity –of- reference-of-thought). But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied-reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology is rather obvious and we don’t normally process/operate logically the childhood psychopathy’s non-veridical hollow mimicking narratives since ‘we just invalidate those apriorising–registry-elements to start with as not of being/ontological/existential veridicality’. For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-
form-or-hollow-and-vague-vocalisation-or-subknowledging of meaning’ (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘attendant ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity’ sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness’ as of its unsound-reference-of-thought/unsoundness-or-ontological-bad-faith/inauthenticity/of-reference-of-thought/mental-perversion) as he simply engages his unsoundness-or-ontological-bad-faith/inauthenticity of-reference-of-thought by way of distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing and then reflect the reference-of-thought or registry-teleology of John as perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or mental-perversion in terms—as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology. In so doing determines that John is ‘manifesting a mental defect’ and more so, not an ad-hoc defect—of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance, but rather registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or-existential—defect that speaks to how John may act in many other similar situations, i.e. epistemic-decadence (notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing —qualia-schema—as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing.

meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding

of the "reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc.

The logical operation is entirely right and sound in abstract terms but does the apriorising–registry ("reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of "reference-of-thought–categorical-imperatives/axioms/registry-teleology which are: implied–logical-dueness-or-implied-scape (the implied–logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity "of-"reference-of-thought, i.e. slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing "-of-narratives! So with the psychopath, you don’t watch the logic, you watch out for the "reference-of-thought/apriorising–registry for mental-

meaningfulness-and-failing-intemporal-preservation\>and goes on to lead to social psychopathy; more like a dumb-and-dumb/miscuing degeneration effect. It should be noted that both psychopathic postlogism\(^8\) and conjugated-postlogism\(^7\) cases of unsoundness-or-ontological-bad-faith/inauthenticity \(-of-\)reference-of-thought (as slanted and cohering-slanted, respectively), by their ‘least-and-derived-temporal-operating-modalities-of-the-\(reference-of-thought-as-of-\)incrementalism-in-relative-ontological-incompleteness’ — enframed-conceptualisation-inducing-the-uninstitutionalised-threshold\(^6\),

Further, this ‘natural level of human interlocution engagement is a perpetuation’ explaining why the conjugated-postlogism mental-disposition is one of ‘slanted-cohering/conjoining’ as it rather further integratively rationalises the latest iterated narrative as an elucidation rather than a further preconverging-or-dementing\(^-\)-apriorising-psychologism of adult psychopath/postlogism\(^78\) (as obvious with the child psychopathy ‘delirium effect’ as it slants and re-slants on the initial slanting in an absolving-logic/fleeting-logic/escaping-logic reflex); and, the falsely projected reference-of-thought implied-elements of logical-dueness-or-implied-scape/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology\(^8\), create a new foundation for further preconverging-or-dementing\(^79\)-apriorising-psychologism when wrongly eliciting in an interlocutor \(^5\)logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation issue, such that one salient manifestation of conjugated-postlogism\(^78\) arises with many of such an interlocutor vaguely articulating propositions based on such falsely ‘apriorising–\(^2\)-reference-of-thought-elements/apriorising–registry-elements (out of \(\text{attendant–ontological-contiguity}\))—educed–existentialising/contextualising/textualising-contiguity\(^1\)’. The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism
reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their reference-of-thought into the positivistic terms with their successive contentions (due to amplituding/formative–epistemicity~totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag), as their reference-of-thought remains rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability, and in the big picture in all likelihood can only be ‘weaned from’ crossgenerationally as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposing. Likewise the ‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold—as-procrypticism’, thus equally implying a amplituding/formative–epistemicity~totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag circulation/recurrence/repetition/repeatability of the reference-of-thought as of the uninstitutionalised-threshold or procrypticism–or–disjointedness-as-of-reference-of-thought. Thus the central notion for preempting psychopathic postlogism and conjugated-postlogism is the ‘retracing of their sets-of-narratives as of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–reifying-or-elucidating-of-prospective-relative-ontological-completeness–of–reference-of-thought–devolving-as-of-instantiative-context’. That revealing unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought of the traces of sets-of-narratives is analogous to resolving a list of BODMAS equations where the solution of the first equation is a variable of the second equation and whose solution is a variable of the third equation whose solution is a variable of the fourth; and where the first equation is fundamentally flawed (as of an

It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the

‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example
highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a
child molester. The psychopath simply articulates another postlogic/disontologising-perverted-

postlogic-backtracking devoided-
of-conviction-as-to-profound-supersublating–or-prelogism’ basis’. For instance, by saying
(in a different social spatial location where the interlocutor cannot verify the underlying
contextual reality) it is critical that the stranger should not be taking young children in his house
as it suspiciously points to a molester (which is certainly a sound statement but rather being
parasitised for a perverse purpose of ‘denaturing postlogic-backtracking devoided-of-

conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition. Even if this latter narrative is proven to be false (as it is another 75 perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge not being the logic itself, but in wrongly implying as existentially real the ‘apriorising-reference-of-thought-elements/apriorising-registry-elements (out of attestant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-reifying-or-elucidating-of-prospective-relative-ontological-completeness -of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating logical-processing-or-logcal-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on such false axioms. The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation-as-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-profound-supererogation to or prelogism, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as
absolving/fleeting/escaping-reflex–logic among different set-of-interlocutors (this is simply because postlogism operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness’ unlike postlogism as prelogism which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism in hollow-constituting (which is an unusual and rare social experience given that a psychopathic personality and postlogism in hollow-constituting are an outlying phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the postlogism (due to the ‘lack of constraining social universal-transparency as inducing vices-and-impediments which will then make it alienating) or a ‘fool-me-once-phenomenon’ where there is a relative insight on postlogism in hollow-constituting from some interlocutors with no more commitment given the inconsistency of the hollow-constituting in
successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. But again, this is just when the temporal prelogic/prelogism—<as-of-conviction,—in-profound-supererogation—<existentially-veridical—
attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at— mind is ignorant of the slanted mental state of the psychopath. The general and complete operative psychopath—75 perversion-of—reference-of—thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation— mechanism (it isn’t necessarily completed in all manifestations as is rather a ‘mental roaming/drifting-cycle disposition known as postlogism—retreating’ that carries on depending on how the situation permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s ‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of
alienation from the target’. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic-attribute. Passive or suggestive alienation as such with corresponding ‘temporal-dispositions miscuing’ which is ‘misconstrued as intrinsic ontological depth-of-conviction-as-to-profound-supererogation’. The underlying reason for the entirety of this mental process in the psychopath has to do with its ‘mere-formulaic constrained/unconstrained perception and relation to meaningfulness-and-teleology’ (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowldging faulty-mentation-procedure-deception/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) which poorly perceives ‘supplanting–conviction-as-to-profound-supererogation—of–attendant–intradimensional–postconverging/dialectical-thinking –apriorising-psychologism contentions’ not in the ‘essence/conviction-as-to-profound-supererogation’ sense but rather as ‘formulaic mental alienation schemes’ wherein disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness (in order words the developmental psychology of the psychopath is actually to perceive supplanting–conviction-as-to-profound-supererogation—of–attendant–intradimensional–postconverging/dialectical-thinking –apriorising-psychologism meaning as formulaic-schemes/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated, to which it responds in kind), and so is in transversality <for-sublimating–existential-

by inducing the alienation of its ‘perceived social-stake-contention-or-confliction target’ over a
social-stake-contention-or-confliction as to preconverging/postconverging–de-
mentating/structuring/paradigming implications. Critically, it should be understood that passive
or suggestive alienation is actually the summum of the possibilities of the psychopath’s
meaningful finality that starts from prevaluation (neutral narrations). It should be noted that the
mental state of the psychopath’s interlocutor as ‘ignorance-temporal-disposition
conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-
dementing–apriorising-psychologism’ is not really ontologically-speaking a
prelogic/conviction-as-to-profound-supererogation mental state but rather technically a
‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two
stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as
an ignorant of psychopathic postlogism in hollow-constituting<as-disjointed-
misappropriation-of-meaningfulness-and-failing-intemporal-preservation> to which the
interlocutor aligns prelogically and then miscues, and then secondly (in addition), as ‘committed-
by-temporality’/interest over intrinsic-veridicality’ whether in the form of
affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-
social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that
this psychopathic manifestation process can be mimicked in the context of social psychopathy,
and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism’. Over a given or extended period the underlying effect sought by the psychopath might stick, especially where the social target, interlocutors and others are utterly unaware of the mental state of the psychopath, and so evolving more like a social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or deliberate/disengenuous, adherence as if veridical to the slanted and hollow mimicking narratives of the psychopath with the corresponding perversion-of-reference-of-thought-as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or mental-perversion in the social context). It is important to see that such social-discomfiture is in reality not a veridical logical ‘contention’ but in veridicality/ontologically a ‘protracted manifestation’ of notional~procrypticism/notional-disjointedness-as-of-reference-of-thought as to underlying registry-worldview/dimension uninstitutionalised-threshold perversion-of-reference-of-thought-as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of both the psychopath and its interlocutors (even when the interlocutor is at best ignorant of the underlying psychopathic state), requiring ‘distractive-alignment-to-reference-of-thought-as-apriorising/axiomatising/referencing’ at ‘uninstitutionalised-threshold’ initiated by the psychopath’s postlogism in hollow-constituting as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, and resolved suprastructurally by a deprocryptic mindset/reference-of-thought making reference to superseding deprocryptic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation (just like an accusation of

intrinsic meaningfulness the forms of prosody are latently associated with. The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-elaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging¹⁵). In fact, it is often the case that such line of rather ‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism⁷ in their ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ (pointing to vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging⁹), and can be an advanced insight of a ‘psychopathic/postlogic and social psychopathic/conjugated-postlogism⁸ situation’, construable with an appropriate maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation. It is important to note that the psychopath’s targeting is highly evolutive throughout its life (along human personality development stages) as ‘socially-perceived-value as of social-stake-contention-or-confliction’ with others arise and ‘the possibility of going undetected’ permits. The psychopath being ‘out-of-phase’ is pushed by a faulty-mentation-procedure-deception/urge/folie raiennante, and the idea of psychopath’s having a grand plan/an overall scheme in its actions is ridiculous and unfounded (this idea again, is due to prelogism—as-of-conviction,–in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness–precedes-disontologising-logical-outcome-arrived-at> mental-alignment or in-phasing or prelogism to the last narrative(s) of the psychopath and rationalising prelogically/by-essence/candor all its previous ‘denaturing postlogic-backtracking<iterative-looping–set-of-dereifying-hollow-narratives-and-acts’> -with–‘successive-shifting-of-the-narratives-and-acts-foci’–construed-as–‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase’ over ‘the intrinsic-reality/ontological-veridicality

Further, the element of the need to be socially-functional-and-accordant first, implies that psychopathy is ‘more than just the drive of a pathological individual’ but inevitably psychopathy and correspondingly social psychopathy involves a ‘social split-dynamism’ wherein the ‘unordinary eliciting’ of temporal interest among some as extrinsic-attribution (praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.) is the basis for the targeting of another or others, further compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or less effectively most of our formal setups, their sociological pertinence is actually far from established, but for the fact that broad and large general education diminishes social egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the more common mental-disposition in the extended-informality-(susceptible-to-effecting-

including the ‘informal spaces’ of formal setups, with the result that this is a further factor that makes psychopathy poorly graspable as simply of individual denaturing dynamics rather than of social denaturing dynamics, thus better construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level of individuals intuition about the underlying dynamism of the postlogism -as-of- compelling-

Ontologically, this requires an altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of such a-comprehensive-social-temporal-hodgepodging which is rather ontologically-discontinuous. This author qualifies as procrypticism preconverging-or-dementing—apriorising-psychologism, and so as ‘ONTOLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emanant template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding—<as-of-apriorising/axiomatising/referencing> slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting—preconverging-or-dementing—apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking—<iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’>—absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge for postlogic slantedness’ in a given social space during its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-
urge⁴ for postlogic slantedness to attain an apparent normal social equilibrium or socially-functional-and-accordant⁴ state within any given social space as it develops into adulthood'. It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting–conviction-as-to-profound-supерerогation⁹—of-'attendant-intradimensional⁵-postconverging/dialectical-thinking –apriorising-psychologism interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity⁸-of-reference-of-thought/slantedness become harder to perceive); - INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge⁴, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner); - SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound); - CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-to-profound-supерerогation —of-‘attendant-intradimensional⁵-postconverging/dialectical-thinking –apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting–conviction-as-to-profound-supерerогation —of-‘attendant-intradimensional⁵-postconverging/dialectical-thinking –apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing⁰-apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-dementing⁰—
apriorising, etc. once it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding<-as-of-apriorising/axiomatising/referencing> is an experiencial basis that ultimately skews (‘intemporality’-asymmetric-subsumption-of-temporality”’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism-slantedness is not socially-‘universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> or ‘uninstitutionalised-threshold”) of many an interlocutor; - CRAFTINESS (with increasingly greater crude-to-polished threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>): Actually when it comes to social-and-confliction-stakes, the psychopath being postlogism-as-of- compelling–nonconviction/madeupness/bottomlining (“<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’–of-the-‘attendant-intradimensional–ontologising’–imbued<-contextualising/existentialising–attendant

So basically, as social-and-confliction-stakes
develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.) generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-contention-or-confliction' context and time might play a role in making its social consequences benign or aggravated. But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising—reference-of-thought-elements/apriorising—registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex—logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-mentation-procedure-deception-or-urge points to the fact that the slanted child psychopathy

However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting–conviction-as-to-profound-supererogation –of– ‘attendant-intradimensional’

postconverging/dialectical-thinking –apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality/shortness (when there is no social universal-transparency –{transparency-of-totalising-entailing,-as-to-entailing-

That is, abstractly, with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' humans do solipsistically/emancingly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold’, from the temporal-dispositions of slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor
solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome with institutionalisation/intemporalisation and formalisations with corresponding internalisation of values or secondnaturing. However, at circumstances where the institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the ‘extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology )’, then ‘a induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ will elicit the ‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when ‘successful’ (and not perceived deliriously but rather wrongly integrated prelogicly/in-conviction-as-to-profound-supererogation ) will often perfectly elicit an ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dynamism’ in the social-construct such that others will find it to their temporal self-interest to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the psychopath’s initiated postlogism¹ in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (involving protracted/derived slantedness), in the absence of social universal-transparency(transparent-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ) on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-

as the ‘uninstitutionalised-threshold \[103\]’). Hence psychopathy when studied dynamically is
rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally
influences social behaviour as at ‘uninstitutionalised-threshold’ human learned behaviour is
primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-
thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good
as longness-of-register-of—meaningfulness-and-teleology\[100\]) or temporal (shortness-of-
register-of—meaningfulness-and-teleology\[100\]), hence its relation to sociopathy which is a more
generalised notion of social vices-and-impediments\[106\]. The social psychopathy phenomenon (in
describing the underlying abstract nature of man before institutionalisation/intemporalisation;
institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition
by its purist and\[104\]universal projection rules in an ‘ontological entrapment’ exercise to

notion of the stages of human transcendence-and-sublimity/sublimation/supererogatory–de-
mentativity/civilisation, in an intemporal-preservation-entropy-or-contiguity–or–ontological-
preservation exercise, from a recurrent-utter-institutionalised animal through subsequent stages
of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge"
(preconverging-or-dementing-as-if-of-soundknowledge) pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the future institutionalisation/intemporalisation this author qualifies as notional-deprocrypticism (preempting procrypticism, so construed by ‘notional-deprocrypticism ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking-differentiation-as-of-supratransversality<in-sublimating–existential-eventuating/denouement>of-motif-and-apriorising/axiomatising/referencing’). That is, psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology) of the various institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of the reference-of-thought–categorical-imperatives/axioms/registry-teleology behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reinstitutionalisation of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology). To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subactivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic
reality outcome (intemporal transversality<for-sublimating–existential-
eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguating–motif-and-
apriorising/axiomatising/referencing’ as from ontological-normalcy/postconvergence). Thus
reference-of-thought–categorical-imperatives/axioms/registry-teleology[100] are ‘inventions’
that are as pertinent as the extent of their preservation of intemporal reality (intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false
subknowledging /mimicking-and-protracted-mimicking with no relationship to intrinsic reality
renders categorical-imperatives/registry/axioms-for-intemporal-preservation-entropy-or-

of new reference-of-thought–categorical-imperatives/axioms/registry-teleology[100], for-
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reflecting intrinsic
reality. These registry-worldview/dimension perversion-of- reference-of-thought<as-

Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojecting/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism’}>)

Hence ‘our homework’ is to articulate our very own ‘perversion-of- reference-of-thought-<as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >’ for the possibilities of the future, and not strive to arrive at a normalcy of ‘our temporal-preservation-as-pseudointemporality’-preservation’ which speaks of inherent relative-ontological-incompleteness ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ <as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism’>, as-it-is-thus–‘in-wait’-for- ‘perversion-of- reference-of-thought-<as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >’-or-temporal-preservation-as-pseudointemporality’-preservation, with respect to ontological-normalcy/postconvergence as we get at our ‘uninstitutionalised-threshold’; instead enabling ‘intemporal preservation’ (by oblongating/decandoring/distractive-alignment-to-<reference-of-thought-<of-apriorising/axiomatising/referencing> of our mental-devising-representation as a registry-worldview defect/perversion of positivistic categorical-imperatives/axioms known as procrypticism preconverging-or-dementing ‘–apriorising-psychologism, for a prospective anticipation and preemption of this known as ‘deprocrypticism’)! It should be noted that while ‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process
of human institutional transcendence-and-sublimity/sublimation/supererogatory–de-mentativity
(with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation)
while institutional-recomposure stresses the peculiarity of the transcendence-and
sublimity/sublimation/supererogatory–de-mentativity/memetic-reordering wherein, for instance
with regards to positivist institutionalisation/intemporalisation, the constituent
institutionalisation and universalisation for positivism are recomposured peculiarly towards
the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional–deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposing show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure-(as-to-
historiality/ontological-eventfulness /ontological-aesthetic-tracing--perspective–ontological-
preconverging/postconverging–de-mentating/structuring/paradigming implications, as utilising the postconverging–de-mentating/structuring/paradigming outcome of previous institutional-cumulation/institutional-recomposure⟨as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩⟩ effort. Hence dimensionality-of-sublimating ⟨⟨amplituding/formative⟩supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩⟩ instigation recurrently inducing the institutionalisation/intemporalisation process (which is not an analogical notion but a contiguous notion as to ontological-contiguity by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across institutional-cumulation/institutional-recomposure⟨as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩⟩ rather so-reflecting ontological-contiguity as to human limited-mentation-capacity-deepening wherein existence’s ontological-contiguity construable as to nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩ epistemic-projection is not beholdening to human limited-mentation-capacity at any given moment) applies universally across space and time (beyond any given registry-worldview’s/dimension’s institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemporalisation like deprocrypticism. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure⟨as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩⟩ analysis) is not,
as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous
meaningfulness-and-teleology’ (given the contiguity in the
‘precedingness/supersedingness/ascendency-and-continuity of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation referencing’ across all cumulating/recomposuring institutionalisations); i.e. memetic contiguity as the underlying principle of memetic-reordering which is the ‘contiguous dynamism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the continuous transdimensional/transcendental relation of intemporal and temporal-dispositions’ at uninstitutionalised-threshold, and so, across all cumulating/recomposuring institutionalisations whether from a retrospective, present or prospective perspective. Psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring process can then be defined as arising when a registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology is transcended/superseded as to human limited-mentation-capacity-deepening, at its uninstitutionalised-threshold involving-organic-comprehension-thinking in contrast with threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation
devising-representation’ by positivism, and prospectively, procrypticism ‘preconverging-or-dementing²⁰–apriorising-psychologism mental-devising-representation’ by deprocrypticm. This brings up the notion that while candoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, this is just a mental-devising-representation for implying intemporality\textsuperscript{1}–of-thought without which meaningfulness is not functional in the registry-worldview’s/dimension’s \{cumulated/recomposured\}-consciousness-awareness-teleology\textsuperscript{100}, but then at that same prior registry-worldview’s/dimension’s uninstitutionalised-threshold \textsuperscript{0}, transcendence-and-sublimity/sublimation/supererogatory–dementativity into a prospective registry-worldview’s/dimension’s \{cumulated/recomposured\}-consciousness-awareness-teleology\textsuperscript{100} put into question this candoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-teleology\textsuperscript{100} is then represented as preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or de-mentation\textsuperscript{\langle supererogatory–ontological–de-mentionation–straight\rangle}–stranding-or-attributive-dialectics). Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} and ontological-veridicality/ontological-contiguity\textsuperscript{68} of reference-of-thought (from the ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective); with the ontologically-veridical/ontological-contiguity\textsuperscript{68} mental-devising-representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity <-shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema>-as-of-epistemic-decadence in

Hence we know of the following de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics) as preconvergingly-de-mented/structured/paradigmed registry-worldviews/dimensions: recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism-or-disjointedness-as-of-reference-of-thought (our own prospective mental stranding); as these form the backdrop for the articulation of transcending anticipatory and preemptive reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation of the prospective registry-worldview/dimension that are the resolution to the vices-and-impediments of the prior (uninstitutionalised-threshold) registry-worldview/dimension, successively as base-institutionalisation, universalisation, positivism and prospectively, deprocrypticism. Each of such psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (along the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism) process), have particular ‘central recomposuring determinants’ which the new registry-worldview is coming after, as follows: (i) for Base-Institutionalisation, it has to do with the requisite ‘organising rules/principles’ as ‘a memetic ontological entrapment’ for superseding recurrent-utter-

the requisite ‘empirical rules/principles’ as ‘a memetic ontological entrapment’ for superseding

(deprocrypticism), it prospectively has to do with ‘notional–firstnaturedness—temporal-to-

rational-realism (deprocrysticism), institutionalisation/intemporalisation raises the issue of
notional-discontiguity/epistemic-discontiguity <shallow-supererogation -of-mentally-
aestheticised–preconverging/dementing –qualia-schema> (undisambiguation as
notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> are wrongly given the same elevation), and relevantly so at the procrypticism–or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold. The very specific nature of the deprocryptic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor at the procryptic uninstitutionalised-threshold, and conjugate this in meaningfulness by going beyond just logical operation/processing/contention of narratives but rather in the first instance introducing the notion of ‘notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation’ to avoid wrongfully operating/processing of logic by the reference-of-thought of the intemporal-disposition reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontological (i.e. is in sync with intrinsic-reality/veridicality), where the effective registries are actually temporal-dispositions thus to be construed as of their temporal references-of-thought.

It involves de-mentation<supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics> temporal-dispositions manifest denaturing and thus to avoid elevating temporal-dispositions to intemporal logical contending status as this result in the miscuing of meaning as of notional-discontiguity/epistemic-discontiguity<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema>. notional–deprocrypticism institutionalisation/intemporalisation takes stock of the veridicality of human-subpotency–aporia/undecidability/dilemma/ought

As a corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this notional~firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of notional~deprocrypticism institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency\(^{18}\)-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness) of ‘knowledge-notionalisation’ (knowledge as understanding not only of the ideal/intemporal but
equally how the temporal/defective works distractively, to anticipate and preempt the latter perverseness but doing so rather in a superseding ontologically-minded manner) and intemporal skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity)/deferential-formalisation-transference as virtue and (postconvergence) ontological-veridicality/ontological-contiguity; in contrast to the hotchpotching of notional-discontiguity/epistemic-discontiguity of temporal-dispositions and particularly in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) which covers all informal spheres of institutions and society generally. So because knowledge-notionalisation recognises that in a specie of notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective—ontological-normalcy/postconvergence individuation dispositions, deferential-formalisation-transference which is the bases for institutionalisation/intemporalisation by skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity) for the supersedingness/lead of the intemporal-disposition individuation is responsible for elevating human uninstitutionalised-threshold across the successive institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism) by the resultant formalisation and internalisation involved in institutionalisation explaining effectively the dialectical evolution from deeper primitivites/mental-out-of-phasings to the present state (limited-and-shallower-human-mentation-capacity to limited-but-deeper-human-mentation-capacity) as a result of the inherent ‘intemporal-prioritisation-of-reference-of-thought’-as-
conflatedness-or-ontological-reprojecting-skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality-transcendental-enabling/sublimating/supercerogatory-de-mentativity)/deferential-formalisation-transference for intemporalisation/institutionalisation, and the implications prospectively. For instance, the uninstitutionalised-threshold for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism-or-medievalism and our positivism–procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in a recurrent-utter-uninstitutionalised registry-worldview. Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence—implications which is more than just reactionary to the possibility of temporality/shortness (shortness-of-register-of—meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of thought’ (intemporality as longness-of-register-of—meaningfulness-and-teleology) that takes abstract cognisance of temporality/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-uninstitutionalised-threshold) to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while
psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their reference-of-thought–categorical-imperatives/axioms/registry-teleology−for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) within their functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, notional–deprocrypticism going by ontological-normalcy/postconvergence implies a mental-devising-representation of ‘non-thresholding meaningfulness as transdimensional/transcendental-meaningfulness or memetic refinement (or a postconverging-or-dialectical-thinking−apriorising-psychologism—by—preconverging-or-dementing−apriorising-psychologism dialectics/dialectical-dynamism paradox) ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as-prospective reference-of-thought’ in its functional institutionalised/intemporalised-approximating-or-proxying-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ as renewing existentialism/full-depth-of-existential-implications meaningfulness and thought; with such non-thresholding ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation, as-prospective reference-of-thought, approximating/proxying being of ontological-normalcy/postconvergence and suprastructural nature as the fulsome attainment of the institutionalisation/intemporalisation ideal (ontological-normalcy) culminating with deprocrypticism. The paradox of ontological-normalcy/postconvergence brought to bear with notional–deprocrypticism will imply ontologically/intemporally that a registry-worldview/dimension-and-as-of-all-successive-registry-worldviews/dimensions can be seen as being in ‘preconverging-or-dementing−apriorising-psychologism hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> defect’ in

The conceptualisation of \(^{84}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\) refers to the same deconstructed/ontological-reconstituting–as-to-conflatedness notion; axioms emphasises and hints of ‘basis’ and ‘foundation’ as well as ‘fundamental validation’ as of existential-reality, categorical-imperatives emphasises and hints of ‘necessity’, ‘rigour’, ‘constraining’ and ‘enforcing’, while registry-teleology\(^{100}\) (short for the apriorising–registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\(^{100}\)) emphasises the ‘operant’ aspect as of human situatedness existential-instantiation elements implied when producing \(^{57}\) meaningfulness-and-teleology\(^{100}\).

The reference-of-thought is the fundamental-dispositional mentation architecture for human referencing or construing of \(^{57}\) meaningfulness-and-teleology\(^{100}\), and is capable of ontological-reconstituting–as-to-conflatedness\(^1\)/deconstruction involving \(^{15}\) de-mentation\(_{\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}}\) with corresponding \(^{15}\) de-mentation\(_{\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}}\) hermeneutically/reprojectively/supererogatingly/zeroingly-educing-human–\(^{57}\) meaningfulness-and-teleology\(^{100}\)-into-the-existentialism-becoming of personhoods-and-socialhood-formation. But this is invalid and not applicable where the issue is about deliberate disposition not to adhere to arithmetic axioms but usurp them (whether consciously, expediently or unconsciously). Soundness-or-ontological-good-faith/authenticity-of-reference-of-thought on the other hand implies being-or-ontological-or-existential-or-meaningfulness-and-teleology disposition as of supplanting-conviction-as-to-profound-supererogation of attendant-intradimensional-postconverging/dialectical-thinking-apriorising-psychologism (reflecting sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and at worst defect-of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) and so in effective prelogism wherein logical-process-precedes-outcome thus upholding intemporal/veracity/ontological-pertinence; so construed from a more profound ontological-normalcy/postconvergence insight. The postconverging/dialectical-thinking—apriorising-psychologism mental-devising-representations of either sound logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation and defect-of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation with respect to subsequent acts ‘of-similar-or-protracted-contextualisation’ by their performers always harken back to a reflex of ‘postconverging-or-dialectical-thinking—apriorising-psychologism—stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase’ to imply the upholding of ‘ontological-reference/contending-reference’; and so, for the simple reason that the state of being in supplanting-conviction-as-to-profound-supererogation—of ‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism (whether the act is defective or not) implies a ‘mental-disposition’ of the performer to be intemporal/ontological, and the defect-of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation simply have to do with inappropriate logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation, and not unsound-mental-disposition or perversion-of reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (which in this latter case will speak of a mental-disposition to act as of threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—attendant-intradimensional—with regards to subsequent acts of similar context by their performers). Hence the postconverging/dialectical-thinking—apriorising-psychologism mental-
devising-representations of either sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and defect of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation are ‘projectively validated by reflex as possibly-of-postconverging-or-dialectical-thinking—apriorising-psychologism/possibly-of-soundness-or-ontological-good-faith/authenticity—of reference-of-thought (and not projectively invalidated by reflex as possibly-of-preconverging-or-dementing—apriorising-psychologism/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity—of reference-of-thought) in implying the ‘upholding of their sound reference-of-thought status’. To illustrate, suppose X and Y are contending (ontological-reference) to know what 5+4 will give as answer (ontological-veridicality), if X is using pencils to count but inadvertently misplaced a pencil or doesn’t perfectly understand how to stack up the pencils to use to count the whole lot, then where his answer was to come out as 5+4=8, we talk of defect of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as X sincerely wants to calculate to produce the right answer but X’s logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation failed. This doesn’t invalidate the notion that Y can still engage X as ‘possibly-of-postconverging-or-dialectical-thinking—apriorising-psychologism’/possibly-of-soundness-or-ontological-good-faith/authenticity—of reference-of-thought in contending (appropriateness-of reference-of-thought-as-of-conflatedness) with respect to another arithmetic operation, that is, possibly after pointing out to X where they went wrong in their operation of arithmetic. While threshold-of nonconviction/madeupness/bottomlining-in-shallow-supererogation <=as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing—apriorising-psychologism performs subsequent acts of similar-or-protracted-contextualisation to their prior acts verified to be of threshold-of nonconviction/madeupness/bottomlining-in-shallow-

To illustrate, suppose X above rather slyly and deliberately (preconverging-or-dementing—apriorising-psychologism mental-devising-representation) miscalculated (non-ontological-reference/non-contending-reference) the answer (in notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised-preconverging/dementing—qualia-schema) and Y grasps this, then this invalidates the notion that Y can still ‘genuinely’ engage X (ontological-pertinence) with regards to another arithmetic operation of-similar-or-protracted-contextualisation, with respect to the upheld context behind X’s sly and deliberate basis for miscalculating. The ‘de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentionation—stranding—or-attributive-dialectics) of reference-of-thought’ notion reflecting prospectively threshold-of—nonconviction/madeupness/bottomlining—in-shallow-supererogation—as-to—‘attendant—intradimensional’—prospectively-disontologising—preconverging/dementing—apriorising—psychologism> acts ‘of-similar-or-protracted-contextualisation’ implies ontological-normalcy/postconvergence/postdication/ontological-normalcy/postconvergence deploying of ‘de-mentionation—(supererogatory—ontological—de-mentionation—or-dialectical—de-mentionation—stranding—or-attributive-dialectics) of reference-of-thought’ in enabling full mastery/grasp of such ‘convolutedness of social dynamics’ as of personhoods-and-socialhood-formation with respect to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic—

intradimensionally in all registry-worldviews/dimensions and it is actually the

Thus for instance with regards to adult psychopathy and the induced social psychopathy, it will be naïve to simply analyse on a dichotomous basis of psychopathy and its violation of social norm, with the idea that psychopathy is associated with temporal-dispositions destructuring-threshold (uninstitutionalised-threshold/presublimating–desublimating-decisionality) of ontological-performance-including-virtue-as-ontology ‘as of the positivism–procrypticism registry-worldview’s/dimension’s socially-betraying-threshold-of-ontologising-depth-of-

In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to \powerset{\textit{perversion-of- reference-of-thought}} \powerset{\textit{as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation} ≥ phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences.

Basically, as we all know novels and films, while excellent in articulating aesthetic qualities,
are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals-and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this respect, one can cite at individuals-levels instances of many a human interest story tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance what is the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably due to grave and unprincipled mismanagement with profound social repercussions. Further, this notion of registry-worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ aligned with

This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipating potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism! Rational-realism (as to prospective deprocrysticism) as such involves rather elucidating distractive-alignment-to\(^{8}\)reference-of-thought-<of-apriorising/axiomatising/referencing>/decandoring with three dementative/structural/paradigmatic teleologies: - subknowledging\(^{9}\)-impulse/compulsive-dementing temporal-disposition (psychopath), with ‘slanted mechanical narratives’ (preconverging-or-dementing\(^{10}\)—apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); - subknowledging\(^{11}\)-temporal-dispositions-teleologies (the-various-temporal-dispositions-teleologies), with ‘banal mechanical narratives discomfiture’ (preconverging-or-dementing\(^{12}\)—apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); and - the intemporally given and ontologising teleology\(^{13}\) which ontologically reflects/perspectivates the subknowledging\(^{14}\)-impulse/compulsive-dementing\(^{15}\)-temporal-disposition-{psychopath} and the subknowledging\(^{16}\)-registries-teleologies (the-various-temporal-dispositions-teleologies), from a ‘organic-comprehension-thinking depth as the \(^{17}\)dementation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) backdrop of new recomposuring \(^{18}\)reference-of-thought—categorical-

The reason why this is critical to grasp is that the veridical intemporal-disposition preserving emanance has to ‘organically and existentially pass-through’/reflect/perspectivate the registry-worldview/dimension; perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-

Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (occurring at the registry-worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal perversion-of- reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the transcended registry-worldview/dimension). This starts with the would-be transcendence-and-sublimity/sublimation/supererogatory–de-mentativity inducing intellectual(s)/emancipator(s) ‘owns reflexive individuation maximalising-as-transcendental liberation/emancipation’ from the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of such prior registry-worldview/dimension from which it/they necessarily come from as well as not heeding generalised-social-temporal-preserving-mental-inclinations; and so, consistently crossgenerationally since transcendence-and-sublimity/sublimation/supererogatory-de mentativity/institutionalisation is ‘beyond just logical argumentation/contention’ as it points to ‘being-or-ontological existentialism/full-depth-of-existential-implications structure defect’ (defect of reference-of-thought/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought, and so beyond logical defect). It is more like (a knowledge-driven/not impression-driven) ‘intemporal preservation recomposuring need or memetic-reordering/psychoanalytic-unshackling’ for institutionalised/intemporalised being/ontology over recurrent-utter-uninstitutionalised, universalised being/ontology over ununiversalised, positivistic being/ontology over non-positivism/medievalism and prospectively deprocryptic being/ontology over procrypticism–or–disjointedness-as-of-reference-of-thought. The dynamism of social psychopathy and the perversion-of-reference-of-thought-as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation involved with regards to both the psychopath and protracted social psychopathy (requiring ‘distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing’ at ‘uninstitutionalised-threshold’ ) can be resumed as follows. Basically, the psychopath is involved in postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> in a committed drifting-circularity/roaming (of non-veridical dialectically-or-contendingly-out-of-phase narratives ‘it wants to falsely represent veridically’), leading to temporal-dispositions slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect (contrasted to
ontologising/intemporal conventioning-rationalising) and temporal-enculturation/temporal-endemisation effect, and these, hollow-constituting as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, conjoining and conjugating to temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfitter-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, and fundamentally referenced from base ontologising effectivity (intemporal preservation); in ephemeral/temporal and ontologic/intemporal contrast, thus reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the dementation (supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of temporal-dispositions denaturing of social psychopathy (subknowledging/mimicking) arising from initiating phenomenal psychopathy (subknowledging impulse) involving a distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing construed (as the backdrop of new recomposing reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and ultimately enabling its transcendental collapsing/overriding for psychoanalytic-unshackling/memetic-reordering/institutional-recomposing). That’s how the ‘given reality’ is being subknowledged/registry-perverted. The technique to be utilised comprehensively for grasping the social psychopathy dynamism is by articulating an intemporal-referencing transversality for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative-disambiguated–motif-and-apriorising/axiomatising/referencing ontological-normalcy/postconvergence reality construct (by intemporal transversality for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative-disambiguated–motif-and-apriorising/axiomatising/referencing as from ontological-normalcy/postconvergence is meant an approach that makes the given prelogism-as-of-conviction,-in-profound-

It calls for a knowledge construct, whether social or physical, beyond just positivist categorisation of knowledge but as 'ontological-normalcy/postconvergence referentialism as of intemporal-preservation-entropy-
or-contiguity–or–ontological-preservation ontology’. Thus, the doppler-thinking exercise of suprastructuralism enables the conceptualisation/construal of institutionalisation-or-intemporalisation-or-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in grasping the denaturing \( \text{\textsuperscript{16}} \) of \( \text{\textsuperscript{16}} \) reference-of-thought–\( \text{\textsuperscript{16}} \) categorical-imperatives/axioms/registry-teleology \( \text{\textsuperscript{16}} \) as of ontological-normalcy/postconvergence basis of analysis, and by so doing grasping the precedingness/supersedingness/ascendency of intrinsic-reality.

constitutedness\textsuperscript{14} in preconverging entailment takes a simplistic shot at construal/conceptualisation of existential-reality practically presuming this to be ‘effectively absolutely real and final’ but then with human limited-mentation-capacity-deepening this is erroneous hence the need for re-categorisation/re-adaptation/re-classification as ‘re-constitutedness\textsuperscript{14} of reference-of-thought’ perpetually when aware of its deficiency.

apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} postconverging entailment takes a shot at construal/conceptualisation of existential-reality from an open-ended insight/fugue as of referentialism from the more profound ontological-normalcy/postconvergence of existential-reality factoring in human limited-mentation-capacity-deepening\textsuperscript{54} as of metaphysics-of-absence-{implicit-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>}, and as implied by the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that goes beyond amplituding/formative wooden-language-{imbued–temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology } which are continually put into question, by being open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\textsuperscript{54} by a re-equilibrating metaphysics-of-absence-{implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}/postdication. Thus, apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity } constitutedness in preconverging entailment will wrongly induce virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-

The implication is beyond just the notion of knowledge construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the de-mentative/structural/paradigmatic basis of categorisation scheming are equally the de-mentative/structural/paradigmatic basis of the inherent analysis and meaningfulness-and-teleology construed/conceptualised. Since categorisation schemes (whether construed/conceptualised beyond-the-consciousness-awareness-teleology,<in preconverging-existential-extrication-as-of-existential-unthought> define the ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’, it is critical to grasp that the inherent de-mentative/structural/paradigmatic limits/defects of such ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’ are systemic hence inducing ‘flawed-existential-elevation-of-reference-of-thought’ as of ontological and virtue implications (as ontologically-perspectival-degraded-as-decentered/preconverging-ordementing-reflexive/entailing-teleology-differentiation-as-of-subtransversality—desublimating—existential-eventuating/denouement—of-motif-and-apriorising/axiomatising/referencing) at the given ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’. Consider the example of the ‘God-of-plane’ type of expression in an animistic/base-institutionalisation setup, where their fundamental psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the line the latter’s meaningfulness-and-teleology as ‘recurrent re-categorisation/re-adaptation/re-classification of the prior apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }— constitutedness—in–preconverging-entailment re-categorisation/re-adaptation/re-classification’. educed–existentialising/contextualising/textualising-contiguity —constitutedness —in–preconverging-entailment), refers to the underlying human reflex mental scheme of a given registry-worldview’s/dimension’s reference-of-thought ‘allowing for its given capacity to supersede its psychological complex in construing causality—amplituding/epistemicity—implications-of-prospective-totalitative—transcendental-enabling/sublimating/supererogatory—de-mentativity and corresponding meaningfulness-and-teleology’. The bigger question could be asked; why doesn’t humans in recurrent-uninstitutionalisation spontaneously articulate and relate to as humans in base-institutionalisation—ununiversalisation, who do not do likewise as humans in universalisation—non-positivism/medievalism, who do not do likewise as humans in positivism—procrysticism? Is it a difference in species, as of successive species? Obviously, no! As we know from history and anthropology that cultural diffusion has shown that all humans are able to come to terms and operate at the highest forms of human registry-worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a registry-worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology as arising and determined by its specific limited-mentation-capacity—as from relative apriorising/axiomatising/referencing—of-attendant—ontological-contiguity —educed—existentialising/contextualising/textualising-contiguity —constitutedness —in–preconverging-entailment to relative apriorising/axiomatising/referencing—of-attendant—ontological—contiguity —educed—existentialising/contextualising/textualising-contiguity —constitutedness —in–preconverging-disentailment by—postconverging-entailment conflatedness —in{preconverging-disentailment by}{postconverging-entailment} construal/conceptualisation as soundness—or-ontological-good-faith/authenticity—of—reference-of-thought’. The underlying human psyche is in need of a ‘framework of
intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-deepening\(^3\), can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-deepening\(^4\) determining its prospective relative-ontological-completeness\(^5\)-of-\(^6\) reference-of-thought, as enabled by the ‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recomposure\(\langle\text{as-to- historiality/ontological-eventfulness } /\text{ontological-aesthetic-tracing-} \langle\text{perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’}\rangle\rangle\) which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic deambulation’ harkens back to that of human registry-worldview’s/dimension’s institutionalisation by its socially-functional-and-accordant\(^9\) thresholds of notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> further redefining the possibility of uninstitutionalised-threshold\(^0\) as the threshold for failing/not-upholding the institutionalisation’s reference-of-thought– categorical-imperatives/axioms/registry-teleology\(^1\) and the possibility of prospective institutionalisation as renewing reference-of-thought– categorical-imperatives/axioms/registry-teleology\(^0\) for upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold\(^3\), thus further
redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-of-presence\{implicated-‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness\}, the present registry-worldview’s/dimension’s reference-of-thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in secluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of reference-of-thought. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness-of reference-of-thought emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing—psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that is counterintuitive to a stigmatic/mented psychology as conceptualised today. (speaking of uninstitutionalised-threshold) as ‘a mentation reflex as centered and postconverging-or-dialectical-thinking–apriorising-psychologism’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; and so, with no relevant need for attending to any ‘psychological complexes’ with respect to a representation as of an uninstitutionalised-threshold wrongly being construed as of institutionalisation (at the uninstitutionalised-threshold) as being ‘a mentation reflex as centered and postconverging-or-dialectical-thinking–apriorising-psychologism’ instead of ‘a mentation reflex as decentered and in de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics). The point of this statement is that when procrypticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence–(implicated-epistemic-veracity-of- nonpresencing–<perspective–ontological-normalcy/postconvergence>}, the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrypticism meaningfulness-and-teleology will be represented as decentered and in de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) as the necessary/requisite backdrop for the construal of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ushering in notional–deprocrypticism as prospective institutionalisation. In this regard, we’ll certainly inherently relate to preceding successive uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics), though this will most probably be resisted with respect to such a representation of our denaturing of positivistic meaningfulness as our
prospective procrypticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-threshold\(^1\)) by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in \(\text{de-mentation}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\)); while we can recognise successively the centered and postconverging-or-dialectical-thinking\(^2\)–apriorising-psychologism nature of base-institutionalisation, universalisation and positivism, though probably less so of notional–deprocrypticism institutionalisation as it points to the decentering and \(\text{de-mentation}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of our procrypticism uninstitutionalisation. Such institutionalisation and uninstitutionalised-threshold\(^3\) construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by the concepts of apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity\}–conflatedness–in–preconverging-disentailment–by–postconverging-entailment as of centering and postconverging-or-dialectical-thinking\(^3\)–apriorising-psychologism \(^8\) reference-of-thought implied with institutionalisations and apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity\}–constitutedness\(^3\)–in–preconverging-entailment as of decentering and ontologically/preconverging-or-dementing\(^9\)–apriorising-psychologism \(^8\) reference-of-thought implied with uninstitutionalised-threshold\(^3\); prompting the respective institutionalisation and uninstitutionalised-threshold\(^3\) psychologisms as of the apriorising/precedingness of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity\(^3\)–reifying-or-elucidating-of-prospective-relative-ontological-completeness–of–reference-of-thought–devolving-as-of-instantiative-context reflecting this reality beyond and above our
procrysticism from a notional–deprocrysticism perspective, just as we’ll recognise for instance that a universalisation–non-positivism/medievalism mental-disposition contending against positivism institutionalisation meaningfulness is actually acting out a subpar reference-of-thought as of the apriorising/precedingness of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–reifying-or-elucidating-of-prospective-relative-ontological-completeness–of–reference-of-thought–devolving-as-of-instantiative-context> reflecting this reality beyond and above it from the positivism perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as decentered and in de-mentation–supererogatory–ontological–de-mentation–dias-tementation–stranding–attributive-dialectics of an uninstitutionalised-threshold is hardly just one of ‘simplistic knowledge elucidation’ but rather an elucidation as of intellectual courage in bluntly asserting decentering and de-mentation–supererogatory–ontological–de-mentation–dias-tementation–dias-tementation–stranding–attributive-dialectics. Intellectual courage as imbuing knowledge with organic profoundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is ‘no magical knowledge technicality’ for implying a more profound ontological-completeness–of–reference-of-thought over a relatively relative-ontological-incompleteness–of–reference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-
positivism/medievalism mindset/reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating/supercogatory-de-mentativity rather than a conventioning sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is ‘altogether not a knowledge elucidation problem’ with respect to the implied representation of uninstitutionalised-threshold as decentered and in de-mentation (supercogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) but rather a ‘psychological complex issue’ of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in ‘psychologism terms as of amplituding/formative–epistemicty–totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its more profound attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–<reifying-or-elucidating-of-prospective-relative-ontological-completeness–of–reference-of-thought–devolving-as–of-instantiative-context>; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism/reference-of-thought is not about the inherent knowledge implications to which the non-positivism/medievalism mindset/reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism (<amplituding/formative–epistemicty–totalising–renewing–realisation/re–perception/re-thought foundation as new placeholder-setup/mental–devising–representation/mentation/consciousness–awareness–teleology>) requisite knowledge or
meaningfulness-and-teleology reference-of-thought. Such equally applies with respect to notional-deprocripticism prospective institutionalisation relative to our procripticism uninstitutionalised-threshold. In other words, prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is construed not in terms–as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic <amplituding/formative–epistemicity>causality as-to-projective-totalititative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms–as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discretional contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is grounded on such an underlying reference-of-thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discretional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating <amplituding/formative–epistemicity>causality as-to-projective-totalititative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity outcomes means the
medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-
knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-

intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, with postdicatory methods and techniques and an overall postdicatory mindset/’reference-of-thought (deprocrypticism). Existential ontologising is effectively the human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology/$^{(10)}$ aspiration towards a fulsome grasp of intrinsic-reality/full-ontological-veridicality as fulfilling ontological-normalcy; all along the institutional-cumulation/institutional-recompose/⟨as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing←perspective—ontological-normalcy/postconvergence-reflecterd—epistemicity-relativism-determinism’⟩ levels but for incomplete human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology/$^{(10)}$ capacity the preceding institutionalisation levels are more like successive compromises towards notional—deprocrypticism as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). A critical distinction between notional—deprocrypticism institutionalisation and positivistic institutionalisation has to do with the former uncompromising relation with respect to upholding ontological-contiguity thus overcoming the temporal-emananances-registries hotchpotching (<amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications—} or banality-of-thought dynamism, and specifically in the extended-informality—{susceptible—to—effecting-parsimony—as-of—shoddiness-and-incompleteness—to—meaningfulness-and—teleology } even though it is very much present in the formal sphere as well) and the incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation and notional—disjointedness-as-of—reference-of-thought inherent in the positivistic mindset, thus the latter tends relatively to be weakly ontologically-contiguous with all the existential
implications thereof, whether with regards to virtue construal or subject-matters issues. Further as with all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity going from procrypticism, or the preconverging-or-dementing –apriorising-psychologism (<sup>75</sup>perversion-of-reference-of-thought–<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing –apriorising-psychologism) of positivistic meaningfulness-and-teleology (<sup>57</sup>reference-of-thought) to positivistic meaningfulness-and-teleology or memetic-refinement ontologising involves an ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation, as-prospective reference-of-thought, of intradimensional-meaningfulness psychoanalytically as-preconverging-or-

It should be noted that human uninstitutionalised-threshold refers to the point where a specific institutionalisation is failing/not-upholding—<as-of-apriorising/axiomatising/referencing-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation by a formulaic adherence (lip-servicing) to ‘reference-of-thought—categorical-imperatives/axioms/registry-teleology', for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation hence attaining its uninstitutionalised-threshold wherein the ontological-veridicality of the mental-devising-representation is ‘in threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation’ <as-to-'attendant-intradimensional’-prospectively-disontologising~preconverging/dementing—apriorising-psychologism> and not organic-comprehension-thinking’, and we can envision retrospectively the points of 'de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) of preceding registry-worldviews/dimensions from our vantage point of being at the backend of the institutional-cumulation/institutional-recomposure—{as-to-
for base-institutionalisation the circumspection is one of contrastive uninstitutionalised-threshold\textsuperscript{03} –institutionalisation analytical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} capacity for upholding institutionalisation; with universalisation the circumspection involves contrastive ununiversalisation–and–universalisation analytical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} capacity for upholding universalisation; with positivism the circumspection involves contrastive non-positivism/medieval/alchemic–and–positivism/rational-empiricism analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} capacity for upholding positivism/rational-empiricism; and prospectively, for notional–deprocrypticism the circumspection will involve contrastive notional–firstnatures—temporal-to-intemporal-dispositions\textsuperscript{<so-construed-as-from-perspective–ontological-normalcy/postconvergence>} analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} capacity for upholding the intemporal-disposition as ontology. Critically, human analytical mentation capacity mainly disambiguates what-is-in-effect organic-comprehension-thinking and threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism>}, respectively as the mental-devising-representation of postconverging-or-dialectical-thinking\textsuperscript{21} –apriorising-psychologism representation and preconverging-or-dementing\textsuperscript{20} –apriorising-psychologism representation. Equally, with regards to human mentation capacity, the effect of limited mentation capacity characterising a given registry-worldview/dimension or intradimensional level and its social-construct not only defines its inherent vices-and-impediments but such a social-construct further and critically structures and stifles the natural renewal of human
emancipative dispositions. For instance, non-positivism/medievalism stifling inclinations to think outside of medieval mental-dispositiona and likewise with regards to our procrypticism. The bigger point of successive institutionalisations has to do overall with their specific emancipative registry-worldview/dimension framework as fertilising the cross-section of human practical and conceptual incidental issues and endeavours as well as the virtue constructs at the said registry-worldview/dimension. What is interesting with regards to an incidental study like psychopathy and social psychopathy with respect to the grander notional–deprocrypticism institutionalisation level within the treatment of the institutional-cumulation/institutional-recomposurer-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’> } meta-conceptual frame is that it provides (besides being critically important to grasp by itself as a parasitising/co-opting phenomenon that can potentially arise in all human locales) the incidental and the-Good/understanding/notional–knowledge-reification–gesturing-<in-prospective_psycho• l• o• g• i• c• i• s• m• –apriorising/axiomatising/referencing- } of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity- conflatedness -in-{preconverging-disentailment–by}–postconverging- entailment>”<amplituding/formative–epistemicity>causality ~as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity} backdrop and background that informs and deepens understanding of the overall meta-conceptual analysis of perversion-of- reference-of-thought<as-preconveringly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation ≥ issues (issues arising from the tempering or false implying of the apriorising–registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology and thus inducing a fundamental
flaw with the reference-of-thought in the first place, and further at a second-order level in wrongly implying the existential veridicality of logical-dueness (thus making irrelevant the construing of soundness or unsoundness) of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), which in turn further enlighten the incidental analysis of psychopathy and social psychopath. Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation. It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity) as the fundamental notion is institutionalisation/intemporalisation entropy (intemporal-preservation contiguity; by a skewing device (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrgatory-de-mentativity)/deferential-formalisation-transference of the averageness of human temporal-dispositions, with corresponding formalisation and internalisation as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, towards the supersedingness of the intemporal-disposition which is inherently ontological and syncs with intrinsic reality in its <amplituding/formative–epistemicity> causality as-to-projective-totalititative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity, and hence its supersedingness as it induces overall social virtue-as-of-ontology). Institutionalisation/intemporalisation entropy (intemporal-preservation-entropy-or-contiguity—or–ontological-preservation) involves: - recurrent-utter-uninstitutionalisation (initial state of ‘perversion-of- reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ that intemporally calls for the introduction of reference-of-thought—categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-
contiguity–or–ontological-preservation as base-institutionalisation), - base-institutionalisation
institutionalisation/intemporalisation (whose reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation ⇒ as procrypticism intemporal calls for deprocrypticism), - and prospectively notional–deprocrypticism institutionalisation/intemporalisation (whose reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation will carry the ‘virtuous and intellectual responsibility’ to recognise that ‘‘perversion-of’’ reference-of-thought<as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation ⇒ is an endemic human mental defect/perversion disposition retrospectively to prospectively, and that this is ‘a lost cause’ due fundamentally to mediocrity principle of
humans having in reality ‘notional-firstnatures—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’ and not ‘universal intemporal-disposition’, and the construct of deprocryptic categorical-imperatives/axioms should be anticipatory and preemptive of ‘perversion-of-reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ perpetually at the ‘uninstitutionalised-threshold’. More like the modern notion of medicine doesn’t work on the idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease theory, but accepts that de-mentatively/structurally/paradigmatically bacteria, cancer, organ failure, etc. cause disease and that the virtue of medicine is about how to understand and preempt the above causations; likewise deprocryptic virtue operates on a realistic grasp of human subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections at uninstitutionalised-threshold and then strives to skew/deferential-formalisation-transference for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-preservation entropy/contiguity). We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s Things Fall Apart on how a community where a traditional registry-worldview with its sense of purpose had to deal with positivistic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this case the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is by cultural diffusion rather than by internal philosophical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Basically, all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity involve ‘a psychoanalytic-unshackling of this sort’. Counterintuitively, it should be understood that no transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity is rational because you rationalise by operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives but then the need for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity due to perversion-and-derived-"perversion-of-"reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>| and the registry-worldview’s/dimension’s relative-ontological-incompleteness—induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing —apriorising-psychologism>=’ is putting the soundness of registry-worldview/axiomatic construct/categorical-imperatives in question (as reference-of-thought supersedes/precedes logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation}), so you rather have a reinvention as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the psychoanalytic-unshackling coming from its better grasp/<amplituding/formative–epistemicity>causality—as-to-projective-totalitative—implications-of-prospective- nonpresencing,—for-explicating-ontological-contiguity of the world/intrinsic reality. Basically, we can say that human-emanant/becoming-transcendence is the first level of human invention (incremental inventions of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to liberate themselves before secondnaturing/institutionalising for the new possibilities for the species; noting that, this doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins… of the world, miraculously came up with positivism to supersede/precede/override/utter medievalism, as they were of medieval stock but by philosophical transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity could project beyond the limits of non-positivism/medievalism even were they were still imbued with remnants of the old like alchemic beliefs. Hence it is the transcendental process that is actually critical! Now what positive can come from psychopathy? From the intemporal perspective NONE. Besides specific social consequences of psychopathy as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath; by and large, ontologically and as reflected by the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or—ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology), the psychopath’s and other postlogic articulations have a nefarious effect, on social meaningfulness-and-teleology particularly in ‘spheres of extended-informality—susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology’ of society in general and social institutions, as the postlogic perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation <as-to—attendant-intradimensional’—prospectively-disontologising—preconverging/dementing—as-priorising-psychologism with many an interlocutor, and which by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drug, unconscionability-drug, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect, undermines the sophistication/intricacy of thought involved with organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or—ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology), and often
imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation rather than implying prospective ones for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of reference-of-thought denaturing and relative-ontological-incompleteness, and endemised/enculturated (with a temporal rationalising reasoning that actually validates the veridicality of a human notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence as to shallow-supererogation—to—profound-supererogation that should not be confused with a secondnatured/institutionalised disposition in relation to virtue). This effectively forms the recomposured backdrop for prospective transcendental construct of deprocrypticism, as the ‘ontologising organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) that reflects/perspectivates the protracted threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to-‘attendant-intradimensional’-prospectively-disontologising—preconverging/dementing—apriorising-psychologism’. But then, a psychopath can be so irrational that in temporal terms it might do a lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or even some other things but coming initially from a vice; as may be enabled by the psychopath’s faulty-mentation-procedure-deception-or-urge to attain an outcome). This dynamic element can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as the questions are not only how culpable is the psychopath but extend to who is temporally getting what from the psychopathic situation, what accounts and narratives should be believed, etc., thus requiring an utter and intemporally uncompromising ontological conceptualisation to construct an causality—as-to-projective-totalitative.
implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity

That said, beyond just about such a present worldly take to societal issues, there is a bigger question of the universal implications on human civilisation of postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> and perversion-of- reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation behind human civilisation. It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do both with the nature of the psychopathic/postlogism mind contrasted to the nature of the ‘normal supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism or prelogic mind’, which are antipodal as the normal mind is by reflex prelogic supplanting—conviction-as-to-profound-suppererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism as to attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity and by reflex will tend to see prelogic supplanting—conviction-as-to-profound-suppererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism narratives while the psychopath is of postlogic compulsing—nonconviction/madeupness/bottomlining<-decontextualising/de-existentialising~of—attendant—intradimensional—apriorising/axiomatising/referencing>-induced-disontologising’—of—the—‘attendant—intradimensional—ontologising’—imbued<contextualising/existentialising—attendant—ontological-contiguity—;—in—shallow—suppererogation—<as—to—disontologising—perverted—outcome—sought—precedes—existentially—veridical—‘attendant—intradimensional—

formalisation ensures that because of the positive-opportunism—of-social-functioning-and-
accordance that the intemporal-disposition (as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at 'socially-perceived-value as of social-stake-contention-or-confliction', it tends to skew ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition to be inherently civilised to want to universally wish that everyone have to deal with a fair legal system, that anyway is to the credit of the institutionalisation/intemporalisation process, but that is a secondnatured/internalised construct). This explains why there is no need to breach the scientific principle known as the ‘mediocrity principle’, (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a notional-firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> creature in its moral/virtuous-agency); to explain why society tends to improve/progress. Rather, the intemporal-disposition de-mentatively/structurally/paradigmatically brings more overall good and hence skews ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) man in the medium to long perspective towards 'the-Good/understanding/notional–knowledge-reification–gesturing–in-

Why talk of ‘uninstitutionalised-threshold’? This is the underlying notion of ‘a grand theory of psychology’ that has been missing to turn psychology from a preconverging—de-mentating/structuring/paradigming of the human-presencing—absolutising-identitive-constitutedness—social-vestedness/normativity—discretely-implied-functionalism as modern into a postconverging—de-mentating/structuring/paradigming across-and-of-all-times of nonpresencing-<perspective—ontological-normalcy/postconvergence>!
Why? The foundation of a human psychological science should be fundamentally about ‘the contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-cumulation/institutional-recomposure-{as-to} historiality/ontological-eventfulness /ontological-aesthetic-tracing-{perspective}ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’}) or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposuring from recurrent-utter-uninstitutionalisation, based-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows for human-subpotency survival/existence/emanance/fulfilment/flourishing in existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,~disclosed-from-prospective-epistemic-digression and assumes a fundamental referencing base in the study of the psyche (noting that by saying ‘notion’ is meant, the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation covers the concepts of temporal preservation (including subknowledging\(^9\), mimicking)-to-intemporal preservation, just as the notion of good covers the concepts of good-to-bad). Correspondingly, this notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involves ‘mental candoring’ where mental-devising-representation syncs with intrinsic-reality and mental decandoring where mental-devising-representation is a wrong/flawed perverted representation of intrinsic-reality. If we have an anthropological continuity/anthropopsychology, then the continuity as entropy is the exercise of candoring as ‘straightness/soundness-or-ontological-

Hence the need for ‘collapsing’/overriding of the transcended registry-worldview’s/dimension’s institutionalisation—of-reference-of-thought—categorical-imperatives/axioms/registry-teleology with prospective transcending/superseding—reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in anticipation and preemption as untenability/internal-contradiction/internal-incoherence/institutional-constraining, as secondnaturining and ‘not as temporal-dispositions transformation’ to wrongly imply a universal dimensionality-of-sublimating—\langle amplituding/formative\rangle supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation\rangle human predisposition. For instance, the veridical stranded mental-devising-representation we may have from a positivistic standpoint of the non-positivism/medievalism mind as oblongated/decandored is not recognised by the non-positivism/medievalism mindset/ reference-of-thought by its syncretic reflex to be functionally in its mental straightness and candored (even though such a representation is ontologically wrong regarding its mental-devising-representation with respect to the its uninstitutionalised-threshold requiring positivism insititutionalisation/intemporalisation). Prospectively, the \langle de-mentation—\langle supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics\rangle of our own mental-devising-representation by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as—
infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism as oblongated and decandored at our uninstitutionalised-threshold requiring notional–deprocrypticism institutionalisation/unintemporalisation will equally meet with an epistemic-totalising–self-referencing-syncretising wrong reflex of postconverging-or-dialectical-thinking–apriorising-psychologism–<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> that will not recognise its slantedness and decandored veridicality. The intemporal-disposition is rather about emphasising institutionalisation/intemporalisation percolation-channelling—<in-deferential-formalisation-transference> as the means and basis for prospective institutionalisation/intemporalisation. This highlights the vacuousness in all transcendental relations wherein the transcended is vacuous with respect to the transcending. Such vacuous transcendental manifestations involves dialectically (the transcended and transcending relation with regards to:) deductive narratives instances, life episodes, life schemes, general being/existential dispositions and the specific existentialism/full-existential-depth-implications involved with a registry-worldview/dimension; wherein temporal-dispositions present-consciousness (in their illusions-of-the-present) perpetually portray candor and straightness but on retrospection are shown to be decandored and oblongated which ontologically implies these are veridically of \textit{de-mentation} (\textit{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}) as of preconverging-or-dementing–apriorising-psychologism–<stranded-as-rightfully-olbongated(decandored-and-dialectically-or-contendingly-out-of-phase) notwithstanding their wrongly projected postconverging-or-dialectical-thinking–apriorising-psychologism–<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>. This is ontologically foundational (more like the apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument grounding spirit of arithmetic cannot be undermined in any way possible and you then have the possibility of
sound arithmetic thereafter). \(\textit{de-mentation}\) prevents temporal-dispositions (in the articulation and re-articulation of narratives) by the ‘temporal-dispositions disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-articulated are of intemporal-disposition teleology’ hence wrongly implying candored and straightness, whereas these are in effect \(\textit{supererogatory~ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\). This ensures in effect ‘the \(\textit{de-mentation}\) \(\textit{supererogatory~ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\)-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence’.

Ontology is an altogether coherent construct with no room for excepting from coherence, which then simply implies the superseding of any such pretence of an excepting. (For instance, we can be calculating the sum \((5 \times 5)+5 \times -5\), and make the mistake to say \(5 \times 5 = 24\) but then overlook it and agree together that the answer should be \(24\) and go on to resolve the entire equation as \(24\).

This type of non-ontological thinking (a non-ontological thinking is also known as a misanalysis or misthinking or misreasoning or mislogic or preconverging-or-dementing–apriorising-psychologism the-perversion-of-the–categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) and avoiding setting-aside which rather involves glossing-over-temporal-dispositions-defect/preconverging-or-dementing–apriorising-psychologism (the-perversion-of-the–categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation).

The supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics, -in-a-contiguity-of-increasing-ontological-normalcy/postconvergence implies that an interlocutor’s retrospectively demonstrable narratives miscuing and subsequent perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > speaks of the real nature of its present and prospective narratives as decandored and oblongated in effect ontologically but that by an illusion-of-the-present reflex as well as for the sake of functioning we tend to represent by default such miscuing and perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > meaning as straightness/candored (intemporal) which is not ontologically veridical; in which case the prospective transcended registry-worldview strands such meaningfulness as decandored/oblongated (subknowledging/mimicking) even if the mental-disposition of the transcended registry-worldview is in an illusion-of-the-present straightness/candoring mental-devising-representation of meaning. In other words, de-mentation

For instance, the mental-devising-representation of a non-positivism/medievalism mindset/reference-of-thought relating to say an accusation of sorcery by an intemporal positivistic mindset/reference-of-thought will not be limited to that particular instance but carries the ‘disambiguation of notional–firstnaturedness—temporal-to-intemporal-dispositions←so-construed-as-from-perspective–ontological-normalcy/postconvergence> as ontological-escalation/aetiologisation’ that speaks to metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation dispositions of that non-positivism/medievalism mindset/reference-of-thought by way of →de-mention (supererogatory—ontological–de-

Thus de-mentation\(^{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)}\) is rather intemporally/ontologically conceptualised for its validation and integration in the survival-and-flourishing imbued institutionalisation/intemporalisation percolation-channelling-\(<\text{in-deferential-formalisation-transference}>\) (formalisms and internalisations) mechanism with the implied \(<\text{amplituding/formative–epistemicity}>\) causality \(-\text{as-to-projective-totalititative–implications-of-prospective–nonpresencing,–for-explicating-ontological-contiguity}\) and positive-opportunism—of-social-functioning-and-accordance\(^{(as-to-projective-totalititative–implications-of-prospective–nonpresencing,–for-explicating-ontological-contiguity)}\) as ontological entrapment, with no temporal-dispositions firstnature-or-intemporal-level-validation but rather secondnatured-or-institutionalisation/intemporalisation-level-validation. The idea of understanding the ontology of human temporal mental defect is not to ‘idle’ in a temporal circularity that defeats-and-debase the grandor of a universal/intemporal projection but rather strives to better stir man towards the intemporal-and-ontological as virtue, an exercise which while of ‘ presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with regards to human temporality/shortness wouldn’t however acquiesce to the naïve disconcertment that takes the ‘ presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ of intemporality/longness for temporal correctness towards which the intemporal—

That is, knowledge-notionalisation involving grasping and understanding both the ignorances/desublimation/temporal-dispositions and ideals to better skew/deferral-formalisation-transference towards idealism as the fulsome ontology, and not failing/not-upholding,<as-of-apriorising/axiomatising/referencing> to understand or overlooking the ignorances/desublimation/temporal-dispositions as the temporal on the wrong basis that all that matters is the ideal as intemporal. Furthermore, temporal-dispositions tendency to pervert/dement/subknowledge-\{preconverging-or-dementing -as-if-of-sound-knowledge\}/mimick-and-syncretise at uninstitutionalised-threshold\(^{103}\) with the dialectical consequence of the development of the <cumulating/recomposuring–attendant-ontological-contiguity>-successive registry-worldviews/dimensions (institutionalisations) validates the appropriateness of striving rather for transversality<for-sublimating–existential-eventuating/denouement>-of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ and not nested-congruence to uphold intemporality\(^{11}\), and hence a complete ontology. To put it in other terms, for instance, transversality<for-sublimating–existential-eventuating/denouement>-of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ of ‘keeping the faith’ only in the intrinsic operation of rules of arithmetic (transversality<for-sublimating–existential-eventuating/denouement>-of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ among interlocutors, in principle or notionally, so that at all times it is always about the intrinsic reality of the arithmetic and not the agreement-disagreement of any human interlocutors as we are all mortals and likely to corrupt such intemporal rules with our mortality out of an intemporal frame of reference that is transcendental-enabling/sublimating/supererogatory–de-mentativity) is vital to preserving ‘ontological arithmetic’ as transcendental-enabling/sublimating/supererogatory–de-mentativity,
whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with other humans (interlocutors logical nested-congruence) instead of intemporal exercise, it is obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be corrupted and/or teleologically-degraded as more likely than not the intemporality/purity of mathematics will be compromised to human mortals stakes of social-and-temporal-trading as social-aggregation-enabling, and so as of postlogism-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>. * It should be noted that in de-mentation ⟨supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics⟩-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence dialecticism of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity involving the transcended and the transcending dimensions, the terms highlighting the transcended dimension like decandored, oblongated, dialectically-out-of-phasing/dialectically-primitive, etc. (as to its superseded Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) do not carry the same connotation as a shallower temporal analysis intradimensional to the transcended dimension (as to its given institutional-development—as-to-social-function-development and living-development—as-to-personality-development so-referenced to its given Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology). The idea is not to idle in articulating meaningfulness within the dimension in need of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. For instance, a positive mind’s articulation of defective meaningfulness in non-positivism/medievalism registry-
worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in terms–as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful purposefulness but rather to project a positivistic worldview’s transcendental meaningful purposefulness. In that sense, actually for the social scientist and philosopher words like dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the ordinary and temporal connotations of stigmatising under a temporal extricatory preconverging–de-mentating/structuring/paradigming. Rather, these are critical and actively sought after notions that provide the ‘dialectical backdrop’ for enabling prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The idea is that these notions are veridically dialectical notions that apply in all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity unlike a simplistic ‘history fixating conceptualisation’ will have. In other words, our non-positivism/medievalism ancestors’ possibility of being-represented/mental-devising-representation as dialectically-or-contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive construction of a superseding/transcendental registry-worldview/dimension that brought about the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in a notional–deprocrypticism institutionalisation/intemporalisation with respect to procrypticism. In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are ‘capacity-wise same’ as per notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence> going by a preconverging/postconverging–de-mentating/structuring/paradigming of mentation-capacity (shortness-of-register-of–meaningfulness-and-teleology to longness-of-register-of–
meaningfulness-and-teleology\(^{(10)}\) with respect to the intemporal-preservation-entropy-or-contiguity-or-ontological-preservation, but for the semblance of the superiority of latter registry-worldviews/dimensions which is nothing but the result of being at the backend of the institutional-cumulation/institutional-recomposure\{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\}<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>\} process.

Ontological-normalcy/postconvergence equally involves articulating the possibility for the supersedingness of the intemporal-disposition over temporal-dispositions as intemporalisation/institutionalisation, and so, involving ‘notional-firstnaturedness—temporal-to-intemporal-dispositions\<so-construed-as-from-perspective-ontological-normalcy/postconvergence\> accountability’ beyond an ‘idle temporal-dispositions stigmatisation’. In that spirit, it can be reasoned that the intradimensional ‘ontological blindspot’ in human mental-devising-representation (wherein temporal perversion-of-reference-of-thought\<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\> by miscuing, and in subsequent derivation of disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising of temporal-dispositions perversions/defects of postlogism\(^{78}\)-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-<devolving ontological-performance\(-<including-virtue-as-ontology> conjugated/inflected/derived/mimicked/in-protruction-to-psychopathic-preconverging-or-dementing\(^{78}\)-apriorising-psychologism), actually points to a decandored/slantedness of the temporal-dispositions (and not candored/straightness), and is definitional of all registry-worldviews/dimensions perversion-of-reference-of-thought<as-
whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, as these are in epistemic-decadence-and-derived-epistemic-decadence, i.e. not veridical but perverted and requiring transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. This basically undermines the idea that any such registry-worldview/dimension temporal-dispositions should be encouraged to be anything <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in meaning’ in a logical engagement with it from an intemporal/ontological perspective (of ontological-normalcy/postconvergence), as it is rather in perversion-and-derived- perversion-of reference-of-thought-as-preconvergingly-apriorising/apriorising-registers/madeupness/bottomlining-as-to-shallow-supererogation of its reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Instead this requires a transversality–for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/apriorising-psychologismness with regards to the veridical ontology of temporal-dispositions registries); wherein the intemporal-disposition (which is ontological) doesn’t recognise nor acquiesce to the implied–logical-dueness-or-implied-scape and subsequent apriorising–registry-elements of implied-profile-or-implied-stature, implied-presumptuousness-or-implied-arrogation, implied-assumptions, implied-value-reference and implied-teleology projected by the temporal-dispositions, but rather advances that there is perversion-of reference-of-thought-as-preconvergingly-apriorising/apriorising-registers.

noted that this element of deconstructed meaningfulness is obviously reflected in the
articulation of this paper itself in a creative, referential and dynamic grasp of reference-of-

regard, the hermeneutic/reprojecting/supererogating/zeroing exercise originates from an even
more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather
spontaneously by the author a few years back which has formed the backdrop for this ‘rather
relatively benign idiosyncrasy’ in this paper as the reader may come across and is the
explanation for many of the author’s insights. It is this mechanism of deconstructing
meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and
creative insight that allows the hermeneutic/reprojecting/supererogating/zeroing design in a
‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’

explanatory hermeneutic/reprojecting/supererogating/zeroing insight extending to the

And even more pertinent, what will those same qualities mean at the uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation, positivism, and prospectively deprocrypticism, with their evolving <reference-of-thought–categorical-imperatives/axioms/registry-teleology wherein prospective <meaningfulness-and-teleology is beyond-the-consciousness-awareness-teleology <in-preconverging-existential-extrication-as-of-existential-unthought>. The idea of conceptualising morality out of such ontology-driven basis is more or less delusional however ‘good-natured’ when we consider that even a community of miscreants will have to construe of a semblance however perverted of moral conceptualisation that allows for individuals self-preservation and only of a degree of variance however big such a variance is perceived with supposed grander moral conceptualisations that do not factor in the de-mentative/structural/paradigmatic relation of virtue to ontology as of successive developing prospective relative-ontological-completeness—of—reference-of-thought. This is the central idea of ‘intemporal-prioritisation-of—\textit{reference-of-thought}’—as-conflatedness—or-ontological-reprojecting that informs organic-comprehension-thinking. ‘Intemporal-prioritisation-of—\textit{reference-of-thought}’—as-conflatedness—or-ontological-reprojecting further holds that in the bigger scheme of things, it is intemporal-preservation in its entropy/contiguity that is the referencing of stranding as to \textit{de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or—attributive-dialectics)} (as of preconverging-or-dementing—apriorising-psychologism representation when temporally-preservational-as-pseudointemporality—preservation or of notional-discontiguity/epistemic-discontiguity \textit{<shallow-supererogation—of-mentally—aestheticised—preconverging/dementing—qualia-schema>)} or postconverging-or-dialectical-thinking—apriorising-psychologism representation when intemporally-preservational/ontological-contiguity. ‘Intemporal-prioritisation-of—\textit{reference-of-thought}’—as-conflatedness—or-ontological-reprojecting highlights effectively that ontological meaningfulness is contiguous as highlighted further in the paper with regards to virtue ‘as a contiguous mentation-capacity (longness-of-register-of—meaningfulness-and-teleology over

For instance and as stated before, such a statement and mental-disposition of the type Socrates or Rousseau by their relative asceticism as of postconverging-nonextricatory-existential-preempting-of-existential-unthought as compared to others of their statuses (conjugated as of various shades of temporal teleologically-degraded synopsising-depth of meaningfulness-and-teleology psychologism) in their respective social-setups from a non-transcendental as of its
Syncretising/circularity/interiorising/akrasiatic-drag perspective by its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is rather circularly impervious and will not recognise any dissociation between such a mental-projection/psychologism prior relative-ontological-incompleteness of reference-of-thought and the mental-projection/psychologism prospective relative-ontological-completeness of reference-of-thought of Socrates or Rousseau in construing the grander notion of social aetiolisation/ontological-escalation as of a transcendental-perspective (as of a teleologically-elevated intemporal synopsising-depth of meaningfulness-and-teleology psy chol o gism contrasted to such teleologically-degraded shades-of-temporal synopsising-depth of meaningfulness-and-teleology ). This elucidation is important because an insightful storied-construct/ontologically-valid-narration with regards to psychopathy and social psychopathy and the overall relative-ontological-incompleteness-of reference-of-thought as the underlying disjointedness-as-of reference-of-thought of procrypticism relative to prospective ontological-completeness-of reference-of-thought as notional-deprocrypticism will fundamentally be based on such contrastive mental-projections/psychologisms as of non-transcendental as perspective and the primacy of transcendental perspective (inherently so because the state of prospective relative-ontological-completeness of reference-of-thought precedes and supersedes the state of prior relative-ontological-incompleteness of reference-of-thought by tautological ontological-veridicality validated by the ontological-contiguity of-the-human-institutionalisation-process itself), just as a storied-construct/ontologically-valid-narration of say non-positivism/medieval postlogism manifestation as notions-and-accusations-of-sorcery will imply a ‘distractive-alignment-to’ reference-of-thought-<of-apriorising/axiomatising/referencing> technical point-of-departure-of-construal of

Taken to the bigger registry-worldview/dimension or intradimensional level, this points to a registry-worldview/dimension derived-perversion state of temporal-dispositions at the present uninstitutionalised-threshold involving the subknowledging /mimicking-and-syncretising of the ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness known as procrypticism–or–disjointedness-as-of- reference-of-thought, calling prospectively for deprocrypticism. Without ‘intemporal-prioritisation-of- reference-of-thought’–as-conflicatedness-or-ontological-reprojecting disposition the possibility for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from perversion-of- reference-of-thought<as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology) to prospective ones which are intemporal-preservational, the institutional-cumulation/institutional-recomposure<as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-
<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism'> process will not occur and be regenerative, as the circumventive/distractive-temporal-prioritisation-of-reference-of-thought mental-dispositions rather strives to arrive at an equilibrium at the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a registry-worldview/dimension whether these are intemporal-preservational or not, hence have little transcendental capacity. Going by an ‘ontologically contiguous comparison’ with reference to Arithmetic where a condition was to cause a character to resolve additionality as 1+3=5, 2+5=8, 5+6=12, etc., the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective) of additionality with regards to this character will always involve as of reference-of-thought–categorical-imperatives/axioms/registry-teleology that subtracts 1 from the results of that character’s operations of additions (as the imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual principles of additionality (its traditional reference-of-thought–categorical-imperatives/axioms/registry-teleology of simply summing directly) will be existentially rendered null and void in order to allow for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Now supposed such a framework (reference-of-thought) for resolving Arithmetic calculations now involves the contribution of 6 characters working in collaboration with each contributing their specific arithmetic principle role while taking cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-completeness-of-reference-of-thought, and so taking into account the prior mentioned character with its defect of additionality; wherein such a framework is BODMAS-based with character B working on brackets operations, character O working on order operations, character D working on division operations, character M working on multiplication operations, the
priorly mentioned character A working on addition operations and character S working on subtraction operations, and so (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective) setup for resolving arithmetic calculations (ontological-completeness-of-reference-of-thought setup). Naturally, the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as the usual BODMAS Arithmetic rules) should apply but this is no longer existentially the case in this instance, where the equation is for instance \(7(\sqrt{\sqrt[4]{64}}+3-1)-\{6+4-2\}+2\). Going by the natural arithmetic rules for BODMAS, the equation will be resolved first with the brackets, and within the brackets for the first brackets the order operation is first carried out, that is, \(\sqrt{64}=8\) and then addition \(8+3=11\), then subtraction \(11-1=10\). For the second brackets, addition as \(6+4=10\), then subtraction as \(10-2=8\). The division operation then follows with the second brackets result as \(8÷2=4\). Then the multiplication operation with the first brackets result as \(7×10=70\). Finally, comes the subtraction with \(70-4=66\) as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence).

But then, in this particular case where character A (Addition) operation of additionality is perverted as stated above as a result of its condition, the equation will resolve as \(\sqrt{64}=8\), \(8+3=12\), \(12-1=11\), for the first brackets, and \(6+4=11\), \(11-2=9\), for the second brackets. The division operation with the second brackets yields \(9÷2=4.5\), and the multiplication operation with the first brackets yields \(7×11=77\). Finally, subtracting both brackets gives \(77-4.5=72.5\) as the final result which is ontologically wrong (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective), and points to the fact that all the 6 BODMAS characters, not only A (Addition) the additionality defect character have failed ontological-veridicality/ontological-contiguity as of their relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation ’<as-to-
‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –
apriorising-psychologism’ (from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective), as reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are not by themselves the definitive basis for ontology/intrinsic-reality/existential-reality as these are only as pertinent as they are ontologically-veridical/ontologically-continuous/contextually-contiguous (in ontological-normalcy/postconvergence). This ontological state with respect to all the characters registries (not only A) is known as perversion-and-derived-‘perversion-of- reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as-of-unsoundness-or-ontological-bad-faith/inauthenticity-reference-of-thought, as ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective) precedes projected <amplituding/formative> wooden-language–(imbued—temporal–mere-
perverted in their operation if they do not take cognisance of A’s (Addition’s) condition and subtract 1 from it before their operation (whether unconsciously by ignorance, expeditiously by affordability, and consciously by opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation).

For instance, B (Brackets) is still in a position to articulate an ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective) by factoring in all the defects as follows: by reverting all other characters operation up to the point they had to deal with A (Addition) and subtracting 1 from the results at these point before allowing the other characters operations, which then yields the right result. That is 77÷7=11 and 4.5×2=9 as reverting back, then 11-1=10 and 9-1=8 to factor in A’s (Addition’s) additionality defect to yield the results of the two brackets. Before then letting back the division and multiplication operations for both brackets respectively, giving 8÷2=4 and 7×10=70. Finally 70-4=66, giving the final result that is ontologically-veridical (in ontological-normalcy/postconvergence). So this approach is the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontologically-veridical/of-intrinsic-reality that B should be operating. In the bigger scheme of things, this explains institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism}/memetic-reordering/psychoanalytic-reorientation with respect to an animal that is always bound to perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing –apriorising-psychologism by the very fundamental veridicality of its notional–firstnaturness—temporal-to-intemporal-dispositions-

That is, choosing circumventive/distractive-temporal-prioritisation-of-reference-of-thought and thus failing/not-upholding-as-of-apriorising/axiomatising/referencing> the possibility of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. That being the case, this doesn’t in anyway undermine the intrinsic reality/ontological-veridicality/reference-of-thought (in ontological-normalcy/postconvergence) of the above equation as being equal to with the need for new requisite \(^{8}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology \(^{10}\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation not only for this particular circumstance of the BODMAS characters but all such circumstances that may arise as a \(^{7}\) perversion-of-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(>\) as-of-unsoundness-or-ontological-bad-faith/inauthenticity \(^{15}\) of reference-of-thought thus requiring \(^{1}\) de-mentation\{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics\) of all such temporal-dispositions.

It further speaks of how B will likely act in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation (of uninstitutionalised-threshold \(\) where the constraining elements of institutionalisation are not available, i.e. social \(^{10}\) universal-transparency \(^{10}\) \{(transparency-of-totalising-entailing–as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \) of \(^{7}\) perversion-of reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(>.\) internal-contradiction induced from \(<amplituding/formative–epistemicity>causality–as-to-projective-
