This further speaks to the fact that the conception of citation as of academic practicalities (with derived social and institutional conception) is in many ways rather a practicality out of a ‘presencing—absolutising-identitive-constitutedness<sup>13</sup> blurriness’ so-reflected as from prospective knowledge generation ‘imbued intemporal-prioritisation-of-reference-of-thought’–as-confaltedness<sup>13</sup>–or-ontological-reprojecting superseding/transcending intemporal-projection–and–appraisal of social-stake-contention-or-confliction’ as to ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection) underlying the fact that the veridical notional contemplation of notional–citationality (as to ‘a connoting supererogation-drivenness construal of the epistemic-totality<sup>37</sup> of human–textuality-<sup>&lt;as-to-existentialising/contextualising/textualising&gt;</sup> in epistemic-totalising<sup>32</sup>–resubjecting or totalising-entailing–reconstrual’) is effectively as from the relative-ontological-completeness<sup>14</sup>–reference-of-thought—point-of-devolving/departure/anchoring/backdrop of sublimating–nascence’ for any such specific conception of notional–citationality as to <amplituding/formative–
conflatedness in [preconverging disentailment by] postconverging entailment. Thus notionally a supererogatory—wholesomeness/profound-supererogation of notional—citationality (as to ‘a connoting supererogation-drivenness construal of the epistemic-totality of human—textuality—<as-to-existentialising/contextualising/textualising> in epistemic-totalising ~resubjecting or totalising-entailing—reconstrual’) very much explains why prospective knowledge generation is not associated with an absolutising conception of denoting/citation as to the fact that it can hardly be said Einstein was among the best Newtonian physics scholar when analysed in terms of mere academic ‘presublimating relic/artifactual—beholding-constitutedness historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ Newtonian physics (but rather it is his appropriate notional—citationality emplacement as to nonpresencing—<perspective—ontological-normalcy/postconvergence> epistemic-projection that so-decisively enabled his pioneering of prospective physics). Such a relation with prospective knowledge generation today particularly in domains-of-study susceptible to blurriness induces a markedly desublimating conception of notional—citationality as to when the ‘artifice of academic and institutional politics’ leads to a conception of knowledge as of ‘an institutional and academic nombrilism of self-presence/self-constitutedness —<in-perspective—epistemic-abnormalcy/preconvergence > to which prospective human aporeticism overcoming/unovercoming is relatively irrelevant’ such that the construal of knowledge as to denoting/citation implications carries its very own ‘academic and institutional politics of knowledge’ undermining organic-knowledge notional—citationality (with notional—citationality so-implied in self-becoming/self-conflatedness /formative—supererogating—<projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence> psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as to reference-of-thought postconverging—dementating/structuring/paradigming). possibility to induce blurriness is pedantically taken up in a blurring conception of the

Prospective sublimating–nascent is much more than just prospective nascent-particular/incipient-and-material/technical/sublimations blinded-to-their-relative-ontological-completeness but is made comprehensive and complete with its appropriate ‘supererogatory—wholesomeness/profound-supererogation’ of prospective reference-of-thought—point-of-devolving/departure/anchoring/backdrop of sublimating–nascent’ as to the requisite induced human epistemic-growth/disquiet/discomfort⟨induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as-historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as-historicity-tracing-{science-ideology/fashionability/distraction}⟩ as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension. In this regards, it can be appreciated that the veridically comprehensive and complete sublimating–nascent of technical and scientific progress like shipbuilding and other ocean voyage technologies rather came into their full realisation as to a healthy global commercial relations these enabled over their initial pirating, warring and exploitative dehumanising pursuits (speaking of their requisite human epistemic-growth/disquiet/discomfort⟨induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as-historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as-historicity-tracing-{science-ideology/fashionability/distraction}⟩ that is rather decisive and indispensable to all ‘sublimating–nascent incipience/immediacy/directness’ as to their requisite ‘prospective reference-of-thought appraisal of sublimating–nascence
comprehensiveness/nonimmediacy/indirectness’). Such an insight as to the supererogatory–wholesomeness/profound-supererogation of organic-knowledge for say present-day institutional-development–as-to-social-function-development can be garnered with the patent case of say knowledge for the management of a nuclear facility which is much more than its mere inherent processive technicalities (‘knowledge as a mere doable thing’) but equally with the technicity/profundity extending to the facility operators reflexive and contemplative appreciation of the dangerousness of nuclear materials and processes and ability to critically take appropriately conservative and cooperative or autonomous decisions to stave off any potential crises (with these associated elements including their mental/psychological suitability construed as the requisite epistemic-growth/disquiet/discomfort–induced-sublimation–as-from-existence’s—effusing/ecstatic–inlining-as-historiality–{science/authenticity/nonextrication}–beyond-mere-formulaicity-as-historicity-tracing–{science-ideology/fashionability/distraction}) tied to that knowledge and so within the framework of the facility thought-out/contemplated operational and designing conception integrative of such sublimating operation). This reality about the supererogatory–wholesomeness/profound-supererogation of organic-knowledge is relevant in all institutional domains as well but for when it comes to conveniencing, popularising, merchandising and media-ratings driven purposes which may be innocuous in other contexts but turn out to be particularly consequential when permeating and undermining the political process as to when human sovereign participation is in-effect construed as utterly dissociated with ontological-veracity; as to the fact that there can be ‘a thin-and-tenuous line between ontological-good-faith/authenticity/imbuing sublimation and ontological-bad-faith/inauthenticity/imbuing gimmickiness/desublimation’ as to human aestheticisation–and–aestheticisation-towards-ontology, wherein apparently ‘gimmicky techniques’ are effectively sublimating as to their specific aestheticising/creative/artistic existentialising–frame but are
rather desublimating when poorly aestheticised out of such specific aestheticising/creative/artistic existentialising–frame or when ‘circumstantially appreciatively aesthetically shallow/encumbering/vague/bland/incomplete/etc.’ or when poorly reflected in domains of aestheticisation-towards-ontology where profound ontological-pertinence is important (requiring in all such cases the appraisal of appropriate supererogatory wholesomeness/profound-supererogation in postconverging–de-mentating/structuring/paradigming ). This underlies the very ontological-normalcy/postconvergence epistemic-projection with regards to the conception of ‘ontological-good-faith/authenticity as to ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming ’ wherein communication and marketing strategies in eliciting human interest as to ontologically relevant ways for instance associated with useful public information and promotion in health, business, etc. (construed as of ontological-good-faith/authenticity), when poorly and cynically projected as to subvert the requisite ontological-veracity and human epistemic-growth/disquiet/discomfort-(induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as-historiality-\{science/authenticity/nonextrication\}-beyond-mere-formulaicity-as-historicity-tracing-\{science-ideology/fashionability/distraction\}) in-the-very-same-and/or-other domains of human existentialising–decisionality (including citizenry and other institutional sovereignising—by—ontologising-depth existentialising–frame of existentialising–decisionality) become manifestly of ‘ontological-bad-faith/inauthenticity as to ontological-bad-faith/inauthenticity~preconverging–de-mentating/structuring/paradigming ’ in need for appropriate supererogatory wholesomeness/profound-supererogation (in accounting-for/enabling genuine institutional ontological-performance-<including-virtue-as-ontology> imbued ‘residuality in re-originariness/re-origination as to human existentialising supererogation for prospective apriorising/axiomatising/referencing-{of-attendant-ontological-

It can be appreciated in this regards as to the archetypal case of Galileo prosecution that in many ways the technical demonstrations with his telescope were more or less accommodable to his persocutors with their grander issue being the implications of his interpretations on their overall nonpositivising/rational-empiricism conception of the world; and in many ways such an attitude is not exclusive to any one Age and society, and our very own positivism–procrypticism as to its occlusiveness is very much bound to turn a blind eye to its inconvenient truths as to

while relating in-effect to prospective social knowledge as socially inconsequential and as of
imprimaturing purposefulness. Paradoxically such non-ontologising/disontologising
surreptitious knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge
manifestation as to their surreptitious claim of supposedly upholding given societal, cultural
and economic values have in many ways because of their prospective surreptitious non-
ontologising/disontologising undermining of veridical and consequential social criticism left the
door open to surreptitious socio-econo-political disenfranchising with hardly any response to
the recurrent aspirational crises underlying decadal institutional crises and social malaises. In
many ways the inherent latency/lumbering/passivity of the public institutional form
(increasingly bereft of veridical thoroughgoing/profound civil society social criticism) has
effectively been enabling for such quick-moving and numbing/thought-deadening ‘socially
radiating sway of non-ontologising/disontologising surreptitious knowledge-without-
knowledge/knowledge-outside-knowledge/extra-knowledge desublimation substituting over
prospective veridical knowledge sublimation possibilities of social and institutional constructs
as to prospective implicited_attendant–ontological-contiguity\(^6\). Such a foiling of veridical social criticism in the present-day it is herein contended comes with substitutive pop-intellection stooges/foils in muddying the ontological-veracity of genuine thought as of its true human sublimating/emancipating implications and associated with a numbing enculturation of the social devaluation of intellection (reflected in engrained patterns of ‘process/processive mere-formulaic—conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology\(^9\) devoid of supererogatory-wholesomeness/profound-supererogation\(^9\) of prospective reference-of-thought—point-of-devolving/departure/anchoring/backdrop of sublimating–nascence’ underlied by ‘residuality in re-originariness/re-origination as to human existentialising supererogation for prospective apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—conflatedness —in {preconverging-disentailment by) postconverging entailment’ as to human limited-mentation-capacity-deepening\(^5\), and so not only with regards to the media but critically underlies the crisis of academia being surreptitiously quieted or turned into a validation giving institution with respect to prospective non-ontologising/disontologising as to temporal advantageousness of dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>). Thus effectively closing the circle for profound social criticism appraisal as thought supposedly becomes re-oriented and recognised rather in the realm of its ‘punctual conveniencing, popularising, merchandising and media-ratings of shallow-supererogation\(^6\), while circularly relegating such a profound notion like requisite ‘supererogatory-wholesomeness/profound-supererogation’ of prospective reference-of-thought—point-of-devolving/departure/anchoring/backdrop of sublimating–nascence’ individual-by-institutional-by-social epistemic-growth/disquiet/discomfort\(\langle\text{induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as-historiality-}\)
(as to the enculturation of a pedantised and mediatised exercise of ‘a circular perpetually-unknowing’ presencing—absolutising-identitive-constitutedness deficient aptitudinal incompetence gesturing’). Further such non-ontologising/disontologising surreptitious knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge conception of thought fails to recognise the very universal-transparency (transparency-of-totalising-entailing-as-to-entailing-amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) implications upon true thinking as to when it claims to rather belonging to given societal and cultural traditions (rather than the pertinence of claiming prospective sublimation short-and-simple); speaks of a ridiculous twist to the conception of knowledge as if there can be (as to the manifest sublimating–nascence incipience/immediacy/directness of the natural sciences) any given specific societal and cultural chemistry, biology, geology, etc. or is it the case that Einsteins physics applies only to his Germanic/Swiss tradition or Lavoisier chemistry applies only to his French tradition or Newtons physics applies only to his British tradition or Galileo’s physics applies only to his Italian tradition, etc.? In many ways such a surreptitious claim to veridical societal and cultural traditions that have to ‘supposedly be protected from prospective existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming’ speaks of a surreptitious self-anointedness that do not veridically reflect advantageously upon prospective individual, institutional and social emancipation/sublimation possibilities but rather speaks to an undercurrent of vague domineering that is not socially accounted (especially as can be reflected as from the ‘dragged-out nature or psychologismic–epistemic-acutisation-as-to-postconverging–dementating/structuring/paradigming,-eliciting-of-existence’s-sublimating
nascence-in-prospective-aporeticism-overcoming/unovercoming‘ of ‘prospective reference-of-thought appraisal of sublimating–nascence comprehensiveness/nonimmediacy/indirectness’) but for a mere sense of social ascendancy which paradoxically leaves in its ‘non-ontologising/disontologising wake’ socio-econo-political crises and malaises to which the majority of the citizenry only come across in serenity as to their numbed/manipulatable/gullible underlying sense of common nation-belonging (and most critically manifests of a veridically suboptimal human-decisionality<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> capacity). In this regards, it is herein contended that veridical thought do not need any protection from itself with such covert/underhanded/minioning attitude of non-ontologising/disontologising surreptitious knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge manifestation which is very much paradoxical as it is rather more socially dangerous (as to when it implicitly posits to ‘covertly police’ right/sound thought) in the sense that it is exactly the need for right/sound thought that can protect society against unsound thought and there is no neutral/objective state of thought that knows of unsound thought beforehand without the prior opened cultivation of right/sound thought (with such non-ontologising/disontologising surreptitious knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge enculturation as to its ‘unevaluated/uncritical supposedly right/sound thought’ thus leading rather to a collateralising mentality in the face of its prospective desublimation and there is no telling to which extent prospective human sublimating potential becomes shunted perpetually into this desublimating collateralising mode and its collateralising dearth). The opened cultivation of right/sound thought is the appropriate existential social validation of sublimation/emancipation (rather than a non-ontologising/disontologising surreptitious knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge substitutive subterfuge of ‘process/processive mere-formulaic—conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-

The inherent outcome then is that the registry-worldview/dimension implicated_attendant–ontological-contiguity (as to its manifest in-effect absolution<as-to-apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity })—constitutedness—in–preconverging-entailment) goes on to wrongly imply either ‘paradoxically the non-ontological nature of the social (paradoxical because there is nothing that is not of existence and hence nothing is effectively non-ontological but for human limited-mentation-capacity of appraisal which deficiency then reflexively transforms into the metaphysical/ideological)’ or wrongly imply effectively that such ad-hocness is rather of prospective aporeticism overcoming/unovercoming as enabling prospective ontologising/re-

‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’
that its most critical/grave moments are moments at which it is hardly/poorly present/existent as
to its ‘given implied totalising-entailing “meaningfulness-and-teleology”’ wherein for instance
the social atrophying associated with the Great Depression rather elicited statal supererogatory—
progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendancy with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a de-mentative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up
a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the
supererogatory–progressivity potential of the global economy presents more opportunities than
the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of
individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational
skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic
model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary
lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of
capitalistic enterprising across the world takes various shapes and forms wherein ‘the more
doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound
value creation activities (often of poorly compensated supererogatory–progressivity) and in
many ways undermining the inclination for profound value creation as to the shortcut for short-
term returns. This capitalistic model of skewed value-extraction undermines the possibility of
overall human supererogatory–progressivity as to when in the contest between optimal-
resource-allocation for value-creation as to the requisite creativity for individuals and social
supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-
sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting
the externalities investments in education and infrastructure of second and third world
countries) but still posing the question as to how skewed value-extraction can de-
mentatively/structurally/paradigmatically address in the long-run issues of requisite social and
public investment as a requisite for a theoretically self-sustaining economic model (not
critically driven and supported by the supererogatory–progressivity prioritisation of local or
foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall
social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit
manifestation of supererogatory–progressivity as underlying any given underpinning–
suprasocial-construct is most obvious today with the Chinese economic revolution as to the
creative impetus driving its overall socioeconomic transformation. Here again it is fair to say
just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of
supererogatory–progressivity’ as so-associated with debt servitude and demeritative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality—<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation—
structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory-progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness—<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness of social-vestedness/normativity—<discretely-implied-functionalism>). Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the modern-day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation’ of
supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to \( \text{presencing—absolutising-identitive-constitutedness} \)). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from a totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is preconvergingly–de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’.

Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest

Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’ as of our <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness -of- reference-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity -<profound-supererogation -of-mentally-

This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of 30’s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme’ in ontological-contiguity as of its <amplituding/formative–epistemicity>totalising–self-referringencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness ~reference-of-thought perspective construed-as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity.

We thus see why the future redevelopment of Heideggerian misconceived prospective notional-contiguity/epistemic-contiguity –<profound-supererogation of-mentally-aestheticised-postconverging/dialectical-thinking –qualia-schema> as of prospective relative-ontological-completeness of reference-of-thought as undertaken by latter thinkers like Foucault, Derrida, Deleuze, Lacan, Lyotard and others are full of prospective quasi-transcendental ‘de-mentative/structural/paradigmatic disseminative implications’ as reflecting an underlying reality of prospective reference-of-thought de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) construed herein as of prospective postmodern deprocrypticism–or–

Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he
is the first person to be self-conscious about his thinking; rather his underlying reasoning is
‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-

Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and postconvergingly–dementating/structuring/paradigming the possibility of elucidation of any subject on this thinking educing sublimation basis’. In effect Descartes project is actually as to existence-potency sublimating–nascence,-disclosed-from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing as of positivism/rational-empiricism, and so from the prior presencing—absolutising-identitive-constitutedness of non-positivism/medievalism. With both the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme and postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, we may be forgiven to confuse-and-dismiss their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications as of prospective

The appropriate contemplative perspective for the appreciation of their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications is effectively crossgenerational as of the amplitude/breadth of reference-of-thought implied transcendence-and-sublimity/sublimation/supererogatory—dementativity; as we can effectively appreciate that the very mathesis universalis schema/disseminative metaphoricity engendering our positivism apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument attitude/mental-disposition/care–and–episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity—aestheticised—preconverging/dementing—qualia-schema analysis, implied as of prospective relative-ontological-completeness reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising /circumscribing/delineating construct being the reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-
subpotency for ontologically-veridical meaningfulness-and-teleology but rather human-subpotency adjusting as to existence-potency sublimating–nascent, disclosed–from-prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness of reference-of-thought/relative-ontological-completeness. But then human-subpotency adjusting as to existence-potency sublimating–nascent, disclosed–from-prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of dementation (supererogatory ontological–de-mentation-or-dialectical–de-mentation—stranding–or-attributive-dialectics) with regards to the reference-of-thought transcendence-and-sUBLimIty/sublimation/supererogatory~de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and-teleology is an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation to our already established psychoanalytic disposition rather than a maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation in resetting-our-psychoanalytic-disposition/prospective-grounding as of amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought in apriorising/axiomatising/referencing–of–attendant–ontological–contiguity–duced–existentialising/contextualising/textualising–contiguity—confitätedness—in–{post–converging–disentailment–by}–pre–converging–entailment, such that this leads to apriorising/axiomatising/referencing–of–attendant–ontological–contiguity–duced–existentialising/contextualising/textualising–contiguity—constitutedness—in–pre–converging–entailment when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-

This phenomenological insight in recognising that there is ‘an underlying metaphoricity-induced relative-emancipating migration’ from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrypticism to the prospective postmodern man as of deprocrypticism, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human ‘meaningfulness-and-teleology’ as of prospective relative-ontological-completeness reference-of-thought; and so, as of retrospective and prospective ‘meaningfulness-and-teleology’ interpretation construed as historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>. When so construed prospectively, ‘postmodern exteriorisation attitude/mental-disposition/care–and–episteme’ is all about such a deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought as implied by its human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation ‘originary postmodern-thought-process and other postmodern creative-processes avant-gardism’ that are not in a reasoning-from-results/afterthought ontological entanglement with our ‘modern take attitude/mental-disposition/care–and–episteme’. Consider in this regard the reasoning-through/messianic-reasoning prospective de-mentative/structural/paradigmatic disseminative implications as of Derridean différance/internal-dialectics/difference-deferral, Foucauldian genealogy-knowledge-and-power-discourse and Deleuzian immanence experimentation that can all be construed (and as equally implied by this author’s ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism’), as of prospective transcendence-and-sublimity/sublimation/supererogatory de-mentativity singularisation-

Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many
scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) Consider in this regard, the peregrinations of say a Descartes or Rousseau wherein in many ways they will fail to fulfil the mundane medieval world conception of ‘the supposedly good life’ as of its <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as they reify meaningfulness-and-teleology by their peregrinations to construe of the de-mentative/structural/paradigmatic underdevelopment/unenlightenment of their society as in need of prospective positivistic reflection of the notional-discontiguity/epistemic-discontiguity <shallow-supererogation -of- mentally-aestheticised–preconverging/dementing –qualia-schema> of non-positivism/medievalism as of their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism reified insight. The insight here about reification is that all their intemporal value
meaning as of themselves, as all the meaningfulness-and-teleology that there is and can exist is ontological as of prospective relative-ontological-completeness, such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness of reference-of-thought, as so implied from singularisation projected epistemic-immanence/veridical-epistemicity-relativism-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology. This points out that as of its very own projected epistemic-immanence/veridical-epistemicity-relativism-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology. This points out that as of its very own

reference-of-thought, as so implied from singularisation, a registry-worldview/dimension reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness of reference-of-thought reification of meaningfulness-and-teleology, as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism–procrypticism as from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought prospective relative-ontological-completeness perspective. The fact is no registry-worldview/dimension as of its temporal/shortness-of-register-of meaningfulness-and-teleology instigated prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, is construed as ‘putting-into-question its existentially invested conception of meaningfulness-and-teleology’, which is rather a contradiction of sorts given human-subpotency–
charlatanism throughout human history as of lack of universal-transparency of-totalising-entailing-as-to-entailing-totalising~in-relative-ontological-completeness. With such charlatanism certainly knowing better but opting for denaturing conceptions of value reference as of wooden-language-seeding—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable—void—-with-regards-to-prospective-apriorising-implications} advancement of temporal interests in stifling the possibility of prospective human intellectual-and-moral emancipation. The idea of ontological-bad-faith/inauthenticity raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—existentialism-form-factor, with the possibility of denaturing as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating—ontological-contiguity reflection of attendant—ontological-contiguity—deduced—existentialising/contextualising/textualising-contiguity. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating}
drivenness–equalisation) inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness–of–reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipating vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness–of–reference-of-thought; and in due course, by its causal<ampounding/formative–epistemicity>by causality ~as-to-projective-totalitative–implications–of–prospective–nonpresencing–of–explicating–ontological-contiguity constraining it cross generationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary–as-unenframed/unbeholding/outlier-conceptualisation–(imbued–postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness of notional–deprocrypticism–prospective-sublimation) potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness–of–reference-of-thought with
the latter’s \textit{amplituding/formative–epistemicity}totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{1}, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity\textsuperscript{57} constraint as of \textit{amplituding/formative–epistemicity}causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness\textsuperscript{88} of reference-of-thought naïve non-transcendental \textit{amplituding/formative–epistemicity}totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{1}, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘preconverging–existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of “meaningfulness-and-teleology”\textsuperscript{99}. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologicalisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold\textsuperscript{102} transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing\textsuperscript{15} mortals that we are for our prospective
emancipation. Without an insight about reification and dereification, the notion of

projected epistemic-immanence/veridical-epistemicity-relativism-determinism as it reflects

ontological-completeness-of reference-of-thought for ontologically-veridical

meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in
dereification will be teleologically-elevated and meaning produced as of reification will be
teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation
of childhood psychopathy postlogism -slantedness but then takes on a wholly covert nature as
of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of

educed-existentialising/contextualising/textualising-contiguity is to be expected, and
assessable on the basis of a commonly expected
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then
speaks of a dialogical-equivalence of both temporal mental-dispositions and the
intemporal mental-disposition with no dereification and reification contrast. However,
compounding this situation making relevant the need to contrast reification and dereification
and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so
between temporal mental-dispositions and intemporal mental-disposition, is specifically the
flawed ontological-performance manifestation of
psychopathy and social psychopathy which is ‘de-mentatively/structurally/paradigmatically associated with the denaturing of the <amplituding/formative–epistemicity>totalising~devolved 
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring “meaningfulness-and-teleology”; with the fundamental implication that there are thus divergent apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of psychopathic induced postlogism -slantedness, and its social cognisance and integration as conjugated-postlogism so-conjugating as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of social psychopathy. In this latter case of contrasted reification and dereification and implying moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-as-psychopathic-and-social-psychopathic mental-dispositions and the intemporal mental-disposition, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-reification-dissemination -and-dereification-dissemination -implications’ construed as the ‘variance/discrepancy of “meaningfulness-and-teleology” as-of-prospective-relative-ontological-completeness’ -postconverging-or-dialectical-thinking –apriorising-psychologism and as-of-prior-relative-ontological-incompleteness-preconverging-or-dementing –apriorising-psychologism respectively; it is only ontologically-veridical difference-conflatedness-as-to-totalitative-reification-in-singularisation-<as-to-the-

But then again, the reality of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of prospective relative-ontological-completeness will point out that such ‘traditional classical mechanics axiomatic-construct’ identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > as-flawed-epistemicity-relativism-determinism is in reality preconverging-or-dementing-apriorising-psychologism as of its relative-ontological-incompleteness. This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism–procrypticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procrypticism–or–disjointedness-as-of-reference-of-thought that speaks of our prospective preconverging-or-dementing–apriorising-psychologism at our prospective positivism–procrypticism uninstitutionalised-threshold, and so as reflected from futural Being-development/ontological-framework-

However, approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension, the fact is these are not really the underlying drivers for virtue transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and are peripheral to more ontologically profound theorised-or-untheorised emancipating events driving virtue transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness of reference-of-thought, notwithstanding our state of beyond-the-consciousness-awareness-teleology -<in-preconverging-existential-extrication-as-of-existential-unthought>. The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the very same species potency, and thus we can’t ascribed inherent virtuous superiority by the mere token of our own practice. Rather the exceptionality behind human virtuous potential lies ontologically with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-the-the-nondisjointedness/entailment-of-prospective- nonpresencing> -as-veridical-epistemicity-relativism-determinism <amplituding/formative–epistemicity>causality -as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’ as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, reflecting the

Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so with regards to any prospective institutionalisation relative to the uninstitutionalised-threshold. conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-

relationship between developing human-subpotency and its potential to fully grasp the full-
potency of existence, fundamentally underlies the protensive-consciousness referentialism of
the notional~confledness1 of notional~deprocrypticism. However, it is equally critical to
grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of
human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-

Such a postmodern/suprastructuralism double-gesture reification holds that knowledge
involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-
disposition/care–and–episteme with respect to human social-stake-contention-or-confliction;
with the adherence to the reference-of-thought–categorical-imperatives/axioms/registry-
televology,–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-
and-teleology of such organic-knowledge construed in intemporality as supplanting–
conviction-as-to-profound-supererogation–of–attendant-intradimensional–
postconverging/dialectical-thinking–apriorising-psychologism, whereas mechanical–
knowledge is rather predispose to adhere as of temporal threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism to such mere ’reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. The latter points to an inappropriate attitude/mental-disposition/care–and–episteme which is not beholden to the prospective institutionalisation but rather is of preconverging-existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme and organic-knowledge attitude/mental-disposition/care–and–episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms–as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness-of-reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-
empiricism virtue, and so as of a human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaus, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undertaking-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate meaningfulness-and-teleology to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipating virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness-of-
reference-of-thought as fundamentally denaturing⁶, and likely to induce transversality~of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency—{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness}). Ultimately, such a double-gesturing hold out the possibility in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—as of the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empricism attitude/mental-disposition/care–and–episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empricism attitude/mental-disposition/care–and–episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency—{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-
Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aperstteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity–shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a universal projection implications attitude/mental-disposition/care–and–episteme event –or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human totalising–thrownness-in-existence (as to when even the Christian Jesus refers to
giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional-deprocrypticism-prospective-sublimation) creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification–gesturing<-in-prospective_psychologismic-apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—conflatedness <in-{preconverging-disentailment-by}–postconverging-entailment> insight.

Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity’—of-the-human-institutionalisation-process as of difference-

itself to be more useful and applicable across the humanities with a massive potential for

Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent

prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-

Such an ontological-basis for construing sublimation overrides our \(^6\) ‘neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as
the basis of human limited-mentation-capacity-deepening analysis; and insightfully, as reflected in the underlying apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity—conflatedness—in-preconverging-disentailment-by-postconverging-entailment of accreting-substitutive-subsumption-as-futural-différance-freeplay, sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological-neuterising with deneuterising—referentialism and with correspondent intemporal-as-ontological-rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional-deprocrystalism perspective/framing/reference/horizon/projection. Similarly, this author’s articulation of futural-différance as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay différance, as a putting into
question exercise, and subject to causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity validation before attaining defining-transcendence and defining-sublimity; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency—sublimating-nascence-disclosed-from-prospective-epistemic-digression so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting-conviction-as-to-profound-supererogation—a priorising-psychologism deference to the prescience of existence-potency—sublimating-nascence-disclosed-from-prospective-epistemic-digression over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the postconverging-de-mentating-structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness-reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness-of-reference-of-thought, and so by maximaliing-recomposuring
A nonextricatory existential postconverging–de-mentating/structuring/paradigming of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality-as-of-neuterisation /relative-ontological-incompleteness /proconverging–existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension reference-of-thought in prospective relative-ontological-completeness-of-axiomatic-construct-or reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social universal-transparency–(transparency-of-totalising-entailing,–as-to-entailing–⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness ⟩’. But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’.
Thus by its prospective relative-ontological-completeness\textsuperscript{87} of-axiomatic-construct-or-
reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-
différance-freeplay\textsuperscript{3} comes into terms with both \textsuperscript{79} presencing—absolutising-identitive-
constitutedness\textsuperscript{14} and \textsuperscript{61} nonpresencing-<perspective–ontological-normalcy/postconvergence>
on the basis of the prospective relative-ontological-completeness /ontological-contiguity\textsuperscript{67} of
the latter over the prior relative-ontological-incompleteness\textsuperscript{88} of notional-
discontiguity/epistemic-discontiguity -<shallow-supererogation -of-mentally-
aestheticised–preconverging/dementing –qualia-schema\textsuperscript{20} of the former as of the-very-same-
immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Thus what is
being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{23}
but rather difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\textsuperscript{24}
between \textsuperscript{79} presencing—absolutising-identitive-constitutedness\textsuperscript{14} and \textsuperscript{61} nonpresencing-
<perspective–ontological-normalcy/postconvergence>. Such an insight is enabled as of the
fundamental awareness that human knowledge construction fundamentally involves two
different exercises; with the first factoring in that at the fundamental level of knowledge
construction humankind has a limited-mentation-capacity that needs to be developed as a
‘developed consciousness perspective/framing/reference/horizon/projection as of prospective
relative-ontological-completeness\textsuperscript{87} notional-contiguity/epistemic-contiguity\textsuperscript{84}, construed as its
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at
an operative level to articulate sound-or-authentic \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{99} grounded
on such a developed consciousness perspective/framing/reference/horizon/projection. This
explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset
perspective/framing/reference/horizon/projection as of trepidatious-consciousness
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-
institutionalisation without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon/projection as of warped-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’; for a ‘base-institutionalisation–universalisation mindset perspective/framing/reference/horizon/projection’ to grasp universalisation without first developing a ‘universalisation mindset perspective/framing/reference/horizon/projection as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon/projection’ to grasp positivistic without first developing a ‘positivistic mindset perspective/framing/reference/horizon/projection as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon/projection’ to grasp notional–deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘notional–deprocrypticism mindset perspective/framing/reference/horizon/projection as of protensive-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’ that would
enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness of reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency’ (transparency-of-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness) such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing/ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism’ of the consciousness in ontological-contiguity/relative-ontological-completeness—of-reference-of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring-as-to-preconverging-or-dementing—apriorising-psychologism of the consciousness of notional-discontiguity/epistemic-discontiguity/shallow-supererogation—of-mentally-aestheticised-preconverging/dementing—qualia-schema/relative-ontological-incompleteness of reference-of-thought as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, and not incrementalism-in-
relative-ontological-incompleteness —enframed-conceptualisation, as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human—amplituding/formative–epistemicity>totalising~purview-of-construal’’. As futural différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay différance’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening; overriding the idea that the perspective/framing/reference/horizon/projection of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising’, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing as of prospective relative-ontological-completeness—of-reference-of-thought bringing about transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of nonpresencing<-perspective—ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness and prospective relative-ontological-completeness, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics —amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-
construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\(^1\) but rather a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\(^2\); with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\(^2\) bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising\(^3\) of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of \(\)nonpresencing-<perspective-ontological-normalcy/postconvergence>. In other words, human consciousness tends to be constraint to its \(<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(\)^, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\(^3\) mental-disposition as of ‘presencing—absolutising-identitive-constitutedness\(\)^. But existence/ontology’s-directedness-as-Being as of \(\)nonpresencing-<perspective–ontological-normalcy/postconvergence> is beyond and not constraint by human consciousness as of its \(<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(\)^, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of \(<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing.–for-explicating-ontological-contiguity validation that is at the very center of the ‘promise of correspondence between human-
subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence of any given <amplituding/formative–epistemicity>totalising–self-referring-syncretising/circularity/interiorising/akrasiatic-drag from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising posture; such that humankind then overlooks presencing—absolutising-identitive-constitutedness and re-projects/re-anticipates nonpresencing-<perspective–ontological-normalcy/postconvergence> enabling human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Therefore, metaphoricity as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity as such simply refers to signification adjunctiveness to ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of both the ‘meaningfulness-and-teleology’ implications to the so-renewed ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and the specific adjunctive-metaphoricity-signification within such renewed ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. Metaphoricity is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-teleology as an epistemic-totalising/circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-
knowledge. In many ways, this author as of organic-knowledge is very much aware of the ‘drawback implications’ of our positivism–procrypticism episteme as of its apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—constitutedness—in–preconverging- entailment with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay with respect to our procrasticism–or–disjointedness-as-of–reference-of-thought uninstitutionalisation and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Galileo could well have recasted his implied positivism in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal–or–metaphysics-of-absence–{implicit–epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence}>–or–transcendental-reasoning-of-event–as-prospective-ontology-origination perspective/framing/reference/horizon/projection of positivism “meaningfulness-and-teleology” we entertain today. Likewise, as of such metaphoricity episteme, the “meaningfulness-and-teleology” herein implied as of its essence cannot do without this hermeneutic/reprojecting/supererogating/zeroing circle.
phenomenological ontology elucidation as of its psychoanalytic-unshackling apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}-conflicatedness-in-{preconverging-disentailment-by}-postconverging-entailment; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon/projection and then contention/argumentation within such articulated perspective/framing/reference/horizon/projection, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon/projection for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality-eventuating/denouement-of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’ complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to
determine what an elephant is, but with each one saying authentically what the find in front of
them in developing the relevant specific imageries and overall imagery of what an elephant is.
This in itself is a milestone in theorisation, and as an overall conception postmodern-thought,
besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is
primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core
by ideology but rather ontological-good-faith/authenticity. As such it effectively achieves a
more potent construal of the human condition and knowledge especially as it is ‘driven by such
cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a
long way to ‘open-up’/‘throw-up’/‘reveal’ new and coherent thought possibilities as of its
grander and overall conception and spirit. Interestingly, what is central about the ontological-
bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-
insight about all these underlying elements of postmodern-thought construction: as failing to
grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/supererogatory–
de-mentativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of
perspective/framing/reference/horizon/projection before contention/argumentation as of any
given perspective/framing/reference/horizon/projection, thus implying ‘poor critical judgment’.
With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of
postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-
thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the
ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy
readings are cumulated and summated as the entirety of the postmodern theoretical construct,
and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t
engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling-<in-deferential-formalisation-transference> are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩, such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity critiques, as de-mentatively/structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness reference-of-thought-postconverging-or-dialectical-thinking apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-incompleteness reference-of-thought-preconverging-or-dementing apriorising-psychologism. Such that there is no dialogical-equivalence-psychologistic~apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—conflatedness—in-{preconverging-disentailment—by}—postconverging-entailment,-in-self-becoming/self-conflatedness /formative–supererogating> that then arises by the fact that the former is a nonextricatory/intemporal/ontological relationship with meaningfulness-and-teleology while the latter is an existential-extrication/temporal/non-ontological relationship with
meaningfulness-and-teleology, in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively while the latter as of its false 'untransvaluated–temporal-intemporality' is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. As ultimately, it is the prospective relative-ontological-completeness—of-reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments as of prospective registry-worldview/dimension transcendence-and-sUBLIMITY/sublimation/supercriticality—as-to-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity can be construed analogically as say in a non-positivist social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon/projection of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency—as-to-entailing—<amplituding/formative–epistemicity>—totalising–in-relative-ontological-completeness’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients
are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity critics with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of— meaningfulness-and-teleology—as-of—’nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications}> ‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much
more than an issue about postmodern-thought but about all intellectualism generally as such

subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional~knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximalising-
recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation
postconverging–de-mentating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence—implicated-epistemic-
veracity-of- nonpresencing—perspective–ontological-normalcy/postconvergence— will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness—of-axiomatic-construct-or—reference-of-thought over a

as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought of a better knowledge perspective/reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness with regards to reference-of-thought and its derived meaningfulness-and-teleology, with the implication that we need to a prospective relative-ontological-completeness-of-reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of meaningfulness-and-teleology. In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology, are made to have their internal-dialectics/différance as of nonpresencing-perspective-ontological-normalcy/postconvergence for their sublimation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into more profound and more complete meaningfulness-and-teleology. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of
medical science; construed effectively as of deprocripticism—or—preempting—disjointedness-as-of-reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity; is the enabling approach for human ontological-reconstituting—as-to-conflictedness as of aetiolisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating ⟨amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflictedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equality) of our supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for–conceptualisation) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern postconverging–de-mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ⟨amplituding/formative–epistemicity>causality as-to-
projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as herein implied by this author with ‘the ontological-contiguity—of-the-human-institutionalisation-process’ congruent,-cogent-and-operant entailing framework of ontological-contiguity’ Anecdotally, the shallow-mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiology/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity/sublimation/superoerygory—de-mentativity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocriptism. But then ontological-bad-faith/inauthenticity is equally elicited by ‘lack of social universal-transparency as of transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought ‘reference-of-thought—devolving-teleological—
de-mentating/structuring/paradigming–of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its ‘‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic ‘‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness–of–reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating {<amplituding/formative>supererogatory–de-mentativeness/epistem/growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}). This manifests itself in the form of many an intellectual increasing disposition ‘to misunderstand’ others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance; with a resultant sense of socioeconomic and socio-political impotence as such blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and preconverging—dementating/structuring/paradigmimg of academic institutional setups into increasingly into notional~pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—⟨amplituding/formative—epistemicity⟩totalising—in-relative-ontological-completeness } are not dissociated from the effective possibility for transcendental-enabling/sublimating/supererogatory—d-mentativity, especially as such breakthroughs require the spontaneity of Dionysian arrangements. This overall disparateness-of-ontologically-construed-social-reality dynamism is reflected in ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness\textsuperscript{14} consciousesses flawed conceptualisation perspectives’ as of their ‘neuterising: wherein recurrent-utter-uninstitutionalisation has the deepest \textsuperscript{reference-of-thought-as-to-preconverging–de-mentating/structuring/paradigming} as ‘impulsive—ontologically-compromised-mediating,-as-of-its-specific-constitutedness\textsuperscript{14} consciousness flawed conceptualisation perspective’ ‘neuterising by its trepidatious-consciousness, while on the other extreme in contrast notional~deprocrypticism rather has a \textsuperscript{reference-of-thought-as-to-postconverging–de-mentating/structuring/paradigming} notional~deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\textsuperscript{1} protensive-consciousness sound conceptualisation perspective’ that by its \textsuperscript{reference-of-thought-\textsuperscript{devolving—différance/internal-dialectics/difference-deferral}} grasp the ontologically-veridical ‘underlying human limited-mentation-capacity dynamics of \textsuperscript{<amplituding/formative–epistemicity>totalising/circumscribing/delineating} \textsuperscript{reference-of-thought-\textsuperscript{devolving}, and so without being subject to any ‘neuterising’ as is the case with all ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness\textsuperscript{14} consciousesses flawed conceptualisation perspectives’. Thus by its deneuterising\textsuperscript{17}—referentialism construed as of historia\textsuperscript{ontological-normalcy/postconvergence-reflected-’epistemicity-relativism-determinism’}, notional~deprocrypticism enables a fundamental ontology-driven ‘postconverging-or-dialectical-thinking\textsuperscript{21}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, and so superseding a naïve metaphysics-of-presence\textsuperscript{\{implicated-’nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness\textsuperscript{1}\}} affect-driven mented or stigmatic psychology rather as of a shallow
perspective and vaguely articulated as of universal import. The idea here with regards to human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, is that from a creative perspective: the notion of a given neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this neuterising that human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is achieved from the prospective notional—conflatedness of notional—deprocrypticism and so by deneuterising referentialism, which is equinominal/equivalent to nonpresencing—perspective—ontological-normalcy/postconvergence. In other words the historical implications of human limited-mentation-capacity-deepening is that ‘as of a less and less ontologically-flawed meaningfulness-and-teleology towards ontological-normalcy/postconvergence, ‘it projectively/anticipatorily brought about the successive registry-worldviews/dimensions totalising/circumscribing/delineating reference-of-thought—devolving’ as of their given neuterisation, construed as equinominal/equivalent with their successively given neuterising. From the above insight, transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, is attainable as of deneuterising referentialism as the notional—conflatedness of notional—deprocrypticism that produces the ontologically-veridical historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity—relativism—determinism. Ultimately, this sociohistorical disparateness-of-ontologically-construed-social-reality dynamism comes down to the limited/incomplete association of human ‘invention’ of organic-knowledge with the reflection of ‘this organic-knowledge underlying mental-disposition as of Being-

Consider for instance (with regards to human growing/developing prospective relative-ontological-completeness-of-reference-of-thought), the historical transformation of meaningfulness-and-teleology associated with the development of human astronomical instruments, as from objects for religious calculations such as astrolabes to the development of telescopes today rather for advanced astronomical science mirroring a corresponding human \[\langle \text{amplituding/formative-epistemicity}\rangle\text{totalising-renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling}\langle\text{by-a-renewing-of-apriorising/axiomatising/referencing-psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology}\rangle\] as of the successive institutionalisations. This explains the peculiar mimetised-preconverging-or-dementing-apriorising-psychologism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology we’ll construe for instance of a non-positivism/medievalism mindset/reference-of-thought that doesn’t register positivistic meaningfulness/reference-of-thought and likewise prospectively such a construal will have our present placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of priorly unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought/preconverging-or-dementing-apriorising-psychologism by its positivism–procrypticism/reference-of-thought. Just as the very nature of existential-reality by our limited-mentation-capacity-deepening construal/conceptualisation of it is rather ‘an uncompromising windedness/foldedness susceptible to our limited-mentation-capacity-deepening virtuality-or-ontologically-flawed-
construal as decontextualising/unimbricating/unrecomposuring of its inherent nature’, correspondingly the exercise of ontologically-veridical reasoning is rather maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation. Correspondingly, from the vantage position of our present positivising/rational-empirical ontological-completeness-of-reference-of-thought with respect to a non-positivism/medievalism worldview, we can garner an insight of the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation — unenframed-conceptualisation.

positivism/medievalism and procrypticism) across all the ontological-contiguity—of-the-
human-institutionalisation-process wherein the prior/transcended/superseded registry-
worldview’s/dimension’s reference-of-thought in its <amplituding/formative–
epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (as metaphysics-of-presence{implicated-’nondescript/ignorable–void ’-as-to- presencing—
absolutising-identitive-constitutedness }; illusion-of-the-present/present-consciousness/mirage) is representing itself as ‘postconverging-or-dialectical-thinking’ –apriorising-psychologism and dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-
worldview’s/dimension’s reference-of-thought, as of the ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective, it is ‘preconverging-
or-dementing ‘apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason for the ontologically defective <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supererogatory–de-mentativity)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been wooden-language (imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meanfulness-and-teleology—as-of—nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>). However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening expansion of ontological-depth as increasing ontological-completeness-of-reference-of-thought (or reducing relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ as-to–‘attendant–intradimensional’–prospectively-disontologising–preconverging/dementing →apriorising-psychologism’). Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to meaningfulness-and-teleology whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding meaningfulness-and-teleology. A further example will be say ‘the God-of-plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not

Equally we can imagine that making a positivistic argument in the midst of a non-positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the ‘center’ had moved from their world (from non-positivistic as base-institutionalisation/animistic or medieval preconverging-or-dementing^20—apriorising-psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking^1—apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–procrypticism relationship to its postlogism^7 that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation^11—<as-to–‘attendant–intradimensional’–prospectively–disontologising–preconverging/dementing—apriorising–psychologism>, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing^1—apriorising-psychologism as well. However, to the extent that it is ‘not such <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag^1 temporal/shortness-of-register-of–meaningfulness-and-teleology^9 inclinations’ that drove human registry-
worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to universalisation–non-positivism/medievalism to positivism–procrpticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of–meaningfulness-and-teleology) extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a ‘transversality-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ confliction’ resolved intemporally by prospective causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded ‘reference-of-thought and a prospective/transcending/superseding ‘reference-of-thought; given the blunt fact that ‘there is no untransvaluated–temporal-intemporality’ and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of–meaningfulness-and-teleology distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of–meaningfulness-and-teleology projections.). Critically, the notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity associated with intemporality/longness and institutionalisation/intemporalisation as of its very defining core is rather one of causality ~as-to-projective-totalitative–implications-of-
prospective- nonpresencing,-for-explicating-ontological-contiguity as it propounds the supersedingness/primacy/ascendancy of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that <amplituding/formative–epistemicity>causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied when conceptualising that empirical ‘meaningfulness-and-teleology’ is the sole purview of the rational-empiricism/positivism registry-worldview/dimension failing to recognised that all other registry-worldviews/dimensions are actually empirical but differ as to interpretation of empirical perception whether as to a magical, cultic or other non-positivising interpretation of empirical manifestation) but speaks of ‘the central human epistemic-totalising ~resubjecting or totalising-entailing–reconstrual heuristic drive’ defining as to preconverging/postconverging–de-mentating/structuring/paradigming meaningfulness-and-teleology the <cumulating/recomposuring–attendant-ontological-contiguity > succession of registry-worldviews/dimensions (however sublimatingly inefficient in relative-ontological-incompleteness and sublimatingly efficient in relative-ontological-completeness as from nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection); given that with corresponding shallow to limited-mentation-capacity-deepening , as institutionalising <amplituding/formative–epistemicity>causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression. Consider the case with ancient Egyptians and even
ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as causality going by their given limited-mentation-capacity. Transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and transcendental-enabling/sublimating/supererogatory-de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening’ implies more and more profound reconstruals/reconceptualisations inducing transformative implications with respect to ‘meaningfulness-and-teleology’ as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogising speaking thus of human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming-as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory-de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about 9.8 m/s² on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality
enabling/sublimating/supererogatory–de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory–de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory–de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of ‘meaningfulness-and-teleology’ as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of the ’meaningfulness-and-teleology’ itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing:<perspective–ontological-normalcy/postconvergence-reflected–’epistemicity-relativism–determinism’>, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory–de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology’<in–preconverging–existential-extrication-as–of–existential-unthought> to stifle the possibility of intrinsic-reality/ontology of the social, construed as
ontology/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory—dementativity) to prospective transcendence-and-sublimity/sublimation/supererogatory—dementativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity as secondnaturing institutionalisation percolation-channelling-in-deferential-formalisation-transference> to elicit the necessary positive-opportunism—of-social-functioning-and-accordance” for prospective institutionalisation as skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity) towards the intemporal/longness-of-register-of-meaningfulness. The fact is as construed by the Galileos, Copernicus, Diderots and others of the world, transcendental knowledge (as relatively ‘consecrated’ by relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity) necessarily carries a ‘cynicism-of-grandeur-as-of-effective-intemporal-solipsistic-commitment’ to deal with the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—

In the bigger scheme of things, as of the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional~conflatedness\textsuperscript{13} of notional~deprocrypticism deneuterising\textsuperscript{17}—referentialism’ reflected by metaphysics-of-absence-{\textlangle implicited-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>\textrangle} in the conception of \textlangle meaningfullness-and-teleology\textrangle ontological-performance'\textsuperscript{-<including-virtue-as-ontology> as of the transcendental implications in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{7}—of-the-human-institutionalisation-process\textsuperscript{68} of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, we can appreciate that the <cumulating/recomposuring–attendant-ontological-contiguity >successive registry-worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} in the first place; with the notional~deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the
latter perceiving in \textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in \textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in \textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as being the absolute ontological determinant of \textit{meaningfulness-and-teleology} ontological-performance\textit{-including-virtue-as-ontology}, and that \textit{meaningfulness-and-teleology} as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the \textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of \textit{meaningfulness-and-teleology} ontological-performance\textit{-inincluding-virtue-as-ontology}, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textit{meaningfulness-and-teleology} as of prospective deprocrypticism–or–
prospective- nonpresencing,-for-explicating-ontological-contiguity with subsequent corresponding formalisation and secondnaturing. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional-~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor that ‘human knowledge is necessarily a secondnaturing construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of–“meaningfulness-and-teleology”, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the notional–deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-<as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>. Thus human knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology-<in–preconverging-existential-extrication-as-of-existential-unthought>.

[The notion of ‘beyond-the-consciousness-awareness-teleology’-<in–preconverging-existential-extrication-as-of-existential-unthought>’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology’-<in–preconverging-existential-extrication-as-of-existential-unthought>’ speaks of the mental state as of threshold-of–
nonconviction/madeupness/bottomlining-in-shallow-supererogation<sup>96</sup>-<as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-psychologism> by its relative-ontological-incompleteness<sup>83</sup>-of- reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (also referred to as ‘uninstitutionalised-threshold<sup>102</sup>’) where the mental-disposition/mindset<sup>83</sup> reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology<sup>99</sup>-<in-preconverging-existential-extrication-as-of-existential-unthought> implies ‘conscious’ and/or ‘unconscious’ as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<sup>96</sup>-<as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-psychologism> at the uninstitutionalised-threshold<sup>02</sup> of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-<sup>1</sup> reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology<sup>99</sup>-
Of course, where supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-completeness -of- reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary-as-unenframed/unbeholdening/outlier-conceptualisation ⟨imbued-postconverging/dialectical-thinking '-projective-insights'/epistemic-projection-in-conflatedness '-of-notional-deprocrypticism-prospective-sublimation⟩ transcendental notions of intemporality/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttingly demonstrated with ‘cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, the mechanism of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not a simplistic transference from a more ontologically-completeness-of-reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep
over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms—as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of thought; as explanations for the cure will still be advanced in terms—as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought. <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-}

This quite sums up the mechanism by which re-originary-as-unenframed/unbeholdening/outlier-conceptualisation
(transcendental ideas (transcendental in terms—axiomatic-construct of putting in question the prior reference-of-thought—devolving, beyond just novel ideas within the same reference-of-thought), whether by diffusion or internal transformation, come to be dominant when ontologically pertinent; as even the ‘moulting’ intellectual/emancipator, beyond-the-consciousness-awareness-teleology—of-notional-deprocripticism-prospective-sublimation, is coming from a point of habitation with prior traditional ideas (consider the case of Newton with alchemic notions), wherein acceptance of the new ideas they are purporting only comes after an unconscious process of suspicion and denial of such nagging new ideas until they arrive at a firm point of supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism before admitting to themselves the possible veracity/ontological-pertinence of the ideas, and so as their very own which makes it unsurprising that even socially
syncretising/circularity/interiorising/akrasiatic-drag is a necessary process for the ultimate acceptance of prospective causality as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity as this subsumes-as-supplant-as-of-the-more-profound-construal-of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity -reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought-devolving-as-of-instantiative-context the prior causality as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity. It is hardly the case of just a direct intemporal sense of meaningfulness-and-teleology transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation totalising-renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling by-a-renewing-of-apriorising/axiomatising/referencing-psychologism-as-the-new-referencing-basis-of-prospective meaningfulness-and-teleology ) as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). It is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of crossgenerational purposefulness (whether beyond-the-consciousness-awareness-teleology -in-preconverging-existential-extrication-as-of-existential-unthought). so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion-of reference-of-thought—supposedly-apriorising-in-conviction-as-to-profound-supererogation) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying 6 + 3 instead of 5 + 2 (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as 5+2) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) is flawed since B is not committed due to its perversion-of reference-of-thought—supposedly-apriorising/in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation (incorrect
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose reference-of-thought is not perverted, such that A’s defect is a defect-of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential–defect, i.e. the teleological disposition of B inherently carries the defect (to the point that B can be socially-functional-and-accordant while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It should be noted that C (where B’s condition is not exposed to it), D, E and F technically

This faulty-mentation-procedure-deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc
trite association between committing a given vicious act and initiating a given limited ‘compensating directed pseudo-virtue act-and/or-narrative’ in compensation as is the case at childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance (but rather requires a more profound association of the ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining’–‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’–of-the-‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity>–<as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness>‘ vicious acts-and/or-narratives’ and ‘compensating directed pseudo-virtue acts-and/or-narratives’). vicious acts-and/or-narratives’ and is thus socially-dysfunctional at childhood. Whereas at adulthood psychopathy the overcompensating involves a surreptitious upending/undermining/blurring of this underlying insight that the ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ is rather as of a personality development derived-from and connected-with such fallacious crude-trite-compensating at childhood; such that it is then adopted and relayed as contending thus wrongly validating its apriorising–registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology (which are actually outside attendant–ontological-contiguity ) as first-level deception, and thus enabling the infinite possibilities of second-level deception from their logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. This underlying postlogism /psychopathic faulty-mentation-procedure-deception mental-disposition and its protraction in conjugated-postlogism /social-psychopathy involving deliberative/conscious or unconscious (conjugated-ignorance) artificial, fallacious and surreptitious systematic eliciting of ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ systematically enabling the possibility for committing ‘postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining'.

In other words, recurrent-utter-uninstitutionalisation manifestation of postlogism can only be de-mentatively/structurally/paradigmatically resolved by base-institutionalisation reference-of-thought, ununiversalisation manifestation of postlogism can only be de-mentatively/structurally/paradigmatically resolved by universalisation reference-of-thought, non-positivism/medievalism manifestation of postlogism can only be de-mentatively/structurally/paradigmatically resolved by positivism reference-of-thought, and prospectively procrypticism manifestation of postlogism can only be de-mentatively/structurally/paradigmatically resolved by notional–deprocrypticism reference-of-thought. As palliative construal is rather ontologically incoherent as the idea for striving to construe intemporality/longness from temporality/shortness is rather naïve and
apriorising/axiomatising/referencing'; though paradoxically it will effectively recognise such a representation about prior/transcended/superseded registry-worldviews/dimensions. For instance, we’ll be hard pressed to acquiesce to an argument with regards to medieval manifestation of postlogism for instance as it instigates notions-and-accusations-of-sorcery, associated with a logic in terms–as-of-axiomatic-construct of non-positivism/medieval relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-
disontologising–preconverging/dementing –apriorising-psychologism>’ of the type ‘A’s action was what brought about the accusation of witchcraft, and A should stop the practice’, from our positivistic transcendentally <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of its positivism prospective relative-ontological-completeness -of- reference-of-thought, and would rather imply ‘the decandored/oblongated and preconverging-or-dementing –apriorising-psychologism and dialectically/contendingly-out-of-phase nature’ of such non-positivism/medievalism reference-of-thought priorly without its contending status even arising in the very first place; but then with respect to our own postlogism–and-conjugated-postlogism as psychopathy and social psychopathy pointing to our own relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-
as of notional-deprycricism (which is rather of ‘ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking\textsuperscript{21}-differentiation-as-of-supratransversality\textsuperscript{22}\langle\text{in-sublimating–existential-eventuating/denouement}\textsuperscript{23}\rangle–of-motif-and-apriorising/axiomatising/referencing’ in longness-of-register-of—‘meaningfulness-and-teleology’ in order to grasp ontologically-veridical meaningfulness; and so, no more different as the non-positivism/medieval mindset/ reference-of-thought trying to process logic on the basis of its relative-ontological-incompleteness\textsuperscript{88}-induced,—‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’\textsuperscript{96}\langle\text{as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism}\rangle’ as notions-and-accusations-of-sorcery. This reason underlies the notion of prospective institutionalisation which arises not as of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation issue but ‘more fundamentally an appropriateness-of\textsuperscript{83} reference-of-thought-as-of-conflatedness-or-perversion-of- reference-of-thought\textsuperscript{13} as preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > issue as of a de-mentative/structural/paradigmatic and ontological meaningfulness-and-teleology\textsuperscript{99} implication with respect to eliciting the prospective relative-ontological-completeness\textsuperscript{83} of reference-of-thought of the prospective/transcending/superseding registry-worldview/dimension, without <amplituding/formative—epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{24} of the relative-ontological-incompleteness\textsuperscript{88}-induced,—‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’\textsuperscript{96}\langle\text{as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism}\rangle’ of the prior/transcended/superseded registry-worldview/dimension. Thus the articulation of
prospective institutionalisation ‘is not about causality ~as-to-projective-totalitative–implications-of-prospective-
nonpresencing.–for-explicating-ontological-contiguity’ implying equivalence between the prior/transcended/superseded and the prospective/transcending/superseding’. It is rather about the precedingness/supersedingness/ascendency of the latter in transversality–<for-sublimating–

and-apriorising/axiomatising/referencing’ and inequivalence with the former. For instance the factual causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing.–for-explicating-ontological-contiguity /effectiveness validations of say a chemistry mindset/ reference-of-thought (with demonstrations of chemistry principles by chemical reactions producing elements and compounds) say in a non-positivism/medievalism setup prone to alchemy and essences-driven explanations ‘is not and cannot be construed as a logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validation as of alchemic mindset/ reference-of-thought’ but rather ‘a chemistry scientific mindset/ reference-of-thought validation’, critically because the issue is fundamentally not most critically about the specific occurrent/case validations of chemistry principles but rather about the de-

It should be noted as well that the idea of amplituding/formative-epistemicity totalising-renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling\(\{\text{by-a-renewing-of-apriorising/axiomatising/referencing-psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology}\}\) enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is the deterministic phenomenon behind ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural-psychological-dynamics’ and the specific institutional-cumulation/institutional-recomposure-\(\{\text{as-to} \text{ historiality/ontological-eventfulness /ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism}\}\) in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity –of-the-human-institutionalisation-process\(^{\prime}\) as recurrent-utter-uninstitutionalisation, base-institutionalisation-ununiversalisation, universalisation-non-positivism/medievalism, positivism-procrypticism, and deprocrypticism. It captures the true notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as a maximalising-recomposuring-
for-relative-ontological-completeness—unenframed-conceptualisation involving utterly putting-into-question/reshuffling/remaking the human psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology in the very first instance, and on a second-level then imply eliciting the corresponding meaningfulness-and-teleology for such renewed psyche as reference-of-thought. Such ‘amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling⟨by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology⟩’ involves specific ‘memeticism/meaningfulness circular-caricature’ with respect to the implied registry-worldview/dimension in their respective institutionalisation state (as candored/straight and postconverging-or-dialectical-thinking—apriorising-psychologism/dialectically-or-contendingly in-phase) and their uninstitutionalised-threshold state (in threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing—apriorising-psychologism as decandored/oblongated and preconverging-or-dementing—apriorising-psychologism/dialectically-or-contendingly out-of-phase). The notion of ‘amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling⟨by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology⟩’ as being of true transcendence-and-sublimity/sublimation/supererogatory–de-mentativity can be further elucidated with regards to two remarkable historical developments which while inherently exceptional, to say the least, aren’t truly transcendental. Consider for instance that transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-
empiricism/positivism, reference-of-thought, transcendence-and-sublimity/sublimation/supererogatory/de-mentativity established by Descartes’ thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated ‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-sublimity/sublimation/supererogatory/de-mentativity (Copernican revolution) is not eliciting a ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ of ‘<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling⟨by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology⟩’ (which is exactly what Descartes’ thinking proposition and scepticism exercise does with respect to the non-positivism/medievalism psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). The Kantian construct is an elaboration well within the psychical framework established by dimensionality-of-sublimating ⟨<amplituding/formative>supererogatory/de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ ‘extended rationalism’ thinking proposition and scepticism exercise, and Kantian ‘meaningfulness-and-teleology’ is utterly comprehensible and intelligible to that psyche/mentation, though in many ways it is a more profound elaboration of ‘meaningfulness-and-teleology’ issues. So it is actually an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument within the extended-rationalism reference-of-thought that doesn’t psychically and meaningfully supersede it but elaborates within it; and it doesn’t reference an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-

Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the maximalising-recomposuring-for-relative-ontological-completeness\(^{(8)}\) unenframed-conceptualisation of its limited-mentation-capacity-deepening\(^{(5)}\). It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish \(^{(7)}\) universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening—limited-mentation-capacity,~as—limited-mentation-capacity-deepening\(^{(5)}\). (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency\(^{(1)}\)~sublimating—nascence,~disclosed-from—prospective-epistemic-digression—rules—of—apriorising/axiomatising/referencing—that—further—epistemically—unconceal—the—very—ontologically—same—existential—reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency\(^{(1)}\)~sublimating—nascence,~disclosed-from—prospective-epistemic-digression—rules—of—apriorising/axiomatising/referencing—that—further—epistemically—unconceal—the—very—ontologically—same—existential—reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to
constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification),
and so when not employing a referentialism reflex that is naturally inclined to be contiguous
with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation. A further weakness is the naive implication
thus that an apriorising/axiomatising/referencing exercise of human mental understanding only
starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s
reference-of-thought as if it is the only one that had existed, against the anthropological and
historical trend, and without explaining how previous meaningful-frames developed into the
positivistic/rational-empiricism and how the latter could develop prospectively. Besides the
Kantian argument that the transcendent (in all its connotations beyond direct experiences)
cannot be known is equally anthropologically and historically erroneous as even in his days,
with respect to adopting of a positivistic/rational-empiricism worldview over non-
positivistic/ALCHEMY/essences/medieval registry-worldview/dimension certainly does has a
name (transcendence-and-sublimity/sublimation/supererogatory-de-mentativity). But then it is
more the case that from an amplituding/formative–epistemicity>totalising–self-referencing-

worldview/dimension<reference-of-thought– categorical-imperatives/axioms/registry-

sublimity/sublimation/supererogatory-de-mentativity is rather a beyond-the-consciousness-
awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought>
notion. Besides, Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory-de-
mentativity (transcendental idealism) and subsequent philosophical development of the notion
is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-
abstractive of presence’ (and more precisely phenomenal-abstractive of presence as of

In other words, Kant is involved in an epistemological conceptualisation at a given point in time (erroneously construed as the absolute point of human thought apriorising, without a decentering sense of projection with respect to the prior and prospective). But existential-reality as of its human mental apriorising/axiomatising/referencing (heuristically at least) started well before that point and carries on well after that point, and such an exercise is more profound when it construes human mental apriorising/axiomatising/referencing along the full existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existence as it redefines meaningfulness-and-teleology on the basis of human limited-mentation-capacity-deepening in its construal/conceptualisation of a superseding–oneness-of-ontology construed as transcendental-enabling/sublimating/supererogatory–de-mentativity. Insightfully, this author construes an existential-reference/existential-tautologisation basis of such human mental apriorising/axiomatising/referencing process for the transcendental-enabling/sublimating/supererogatory–de-mentativity of successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental-registry-worldviews/dimensions rather as of an exercise of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation over conceptualisations of human mental apriorising/axiomatising/referencing process on a simple categorisation reflex basis as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant–ontological-contiguity—educted—
existentialising/contextualising/textualising-contiguity which tend to require constant heuristic adaptations to sync in contiguity with existence-potency—sublimating—nascence—disclosed—prospective—epistemic—digression—rules—ontologically-same-existential-reality of existential-reality and avoid virtualities, as wrongly operating on the basis of an absolute point of human thought apriorising/axiomatising/referencing that doesn’t recognise that successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions are defining transcendent-enabling/sublimating/supererogatory—de-mentativity for new prospective relative-ontological-completeness-of-reference-of-thought and so-reflect as to the de-mentation (supererogatory—ontological—de-mentation—dialectical—de-mentation—stranding—attributive-dialectics) undergirding the ontological-contiguity—of-the-human-institutionalisation-process. In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the existentialising/contextualising/textualising-contiguity of existence as of human shallow-to-deepening—limited-mentation-capacity—as-limited-mentation-capacity-deepening as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—apriorising/axiomatising/referencing—psychologism—as-impulsive-or-accidented-or-random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening, as further elaborated herein. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz;
as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity construction having to do with an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology is often wrongly construed as ontological as of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

Consider for instance a situation where statistically people likely to rest more in their home in winter are compared with people spending more time outdoors with regards to prevalence of flu, and then arriving at the conclusion that the treatment for flu is resting more at home. Such a construct as basic apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -

The practice in many a social science specialism is often to articulate concepts whose linkage with other social science concepts and the overall social science background knowledge construct is vague such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory—de-mentativity is hardly established but for bare ‘palliative constructs and naïve conceptual patterning’ that are more often than not <amplituding/formative—epistemicity>totalising—self-referencing—
When the implications of such notions are examined as of metaphysics-of-absence, not only in terms of one registry-worldview’s/dimension’s meaningfulness-and-teleology but two or more, say our present positivism reference-of-thought and retrospective non-positivism reference-of-thought, their ‘supposed ontological status’ turn out to be ridiculous, exposing their true nature as rather palliative constructs and conceptual patterning. This equally explains why the implied supratransversality<sup>13</sup>-of-motif-and-apriorising/axiomatising/referencing <sup>39</sup> as of aetiologyisation/ontological-escalation is necessarily a ‘‘presencing—absolutising-identitive-constitutedness<sup>13</sup> consummated/forfeiting posture’ of intemporal asymmetry/subsumption-of-temporality /ontological-asymmetrisation that needs to take into account this ‘paradox of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’. And critically so, because beyond just ‘human conscious willing’, transcendence-and-sublimity/sublimation/supererogatory-de-mentativity necessarily implies the ‘prospect of humans to appreciate/understand meaningfulness-and-teleology<sup>99</sup> beyond-the-consciousness-awareness-teleology<sup>99</sup>-<in-preconverging-existential-extrication-as-of-existential-unthought>’; such that, de-mentatively/structurally/paradigmatically/necessarily, that which gets to ‘conceptualise/construe beyond-the-consciousness-awareness-teleology<sup>99</sup>-<in-preconverging-existential-extrication-as-of-existential-unthought>’ is necessarily ontologically-asymmetrical as rather imbued with intellectual-and-moral responsibility over that which doesn’t get there (and so, even with regards to a basic non-transcendental construal of asymmetrisation within a same registry-worldview’s/dimension’s reference-of-thought like Doctor –Patient, Parent – Child, Server –Customer, Teacher –Student etc. as ensues from a Derridean binary opposition

However at uninstitutionalised-threshold\textsuperscript{12}, the notion of intemporality\textsuperscript{52}-asymmetric-subsumption-of-temporality\textsuperscript{77}/ontological-asymmetrisation is not readily acqiesced to for the simple reason that two \textsuperscript{52} references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99} inclined beyond-the-consciousness-awareness-teleology\textsuperscript{6} \textsuperscript{99}<-in-preconverging-existential-extrication-as-of-existential-unthought>\textsuperscript{6} to uphold \textsuperscript{8} meaningfulness-and-teleology\textsuperscript{99} as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought will certainly grasp the pertinence of intemporality\textsuperscript{52}-asymmetric-subsumption-of-temporality\textsuperscript{77}/ontological-asymmetrisation as of deconstruction/ontological-reconstituting–as-to-conflatedness\textsuperscript{13} aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness–of-reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing–psychologism of transcendentally-enabling-level-of-ontological-good-faith-or-authenticity /objectification/desubjectification-as-objectification-<as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existent-reality as antinihilism>\textsuperscript{88} \textsuperscript{100} \textsuperscript{99} meaningfulness-and-teleology\textsuperscript{99} construal for a sounder and sounder relationship with intrinsic-reality/ontological-veridicality. In this respect, it should be noted that in the example on the denaturing\textsuperscript{16} of Additionality as further articulated below with regards to the characters A, B, C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce to Z’s supposedly ontologically-veridical posture, as by their prior relative-ontological-incompleteness–of-reference-of-thought as beyond-the-consciousness-awareness-teleology\textsuperscript{99}<-in-preconverging-existential-extrication-as-of-existent-unthought>\textsuperscript{9} they may operate on a logic that once such a situation as A induced additionality defect deception develops as of ‘lack of constraining social \textsuperscript{10} universal-

Likewise, it could be asked whether such an aetiologisation/ontological-escalation notion as notional–deprocripticism institutionalisation implied suprastructuration over our positivism–procripticism is rather not a beyond-the-consciousness-awareness-teleology notion as of the present <amplituding/formative> wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications}> mental-disposition and mental-projection. The fact is that registry-worldviews/dimensions operate as of their ontological representation of reality within the limits of their reference-of-thought–categorical-imperatives/axioms/registry-teleology which provide them with their ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ (so derived from prior ontological-faith-notion-or-ontological-fideisim induced projective-insights/postdication/deconstruction), but then the further possibility of expanding the axiomatic-construal/axiomatic-conceptualisation of ontological representation of reality as

Further, even more decisively though by reflex we naively-and-erroneously tend to construe of human virtuous-dispositions or vices-and-impediments as arising mainly as of their conscious choices, de-mentatively/structurally/paradigmatically a registry-worldview/dimension prior relative-ontological-incompleteness —of—reference-of-thought as a beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication-as-of-existential-unthought> notion is the more decisive/salient notion as to human ‘objectively construed/analysed virtuous-dispositions or vices-and-impediments’ even though individual ‘conscious choices’ will tend to ‘simply qualify the effective possibility of such virtuous-dispositions or vices-and-impediments arising’; such that a registry-worldview/dimension incompleteness-of—reference-of-thought is de-

This equally explicates the empirical reality associated with the occurrence of human transcendence-and-sUBLIMITY/sublimation/supererogatory–de-mentativity crossgenerationally as the timeframe for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of projective-insights/postdication/deconstruction induced prospective/transcending/superseding registry-worldview/dimension ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ to take hold. This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness 15-ontological-reprojecting that then ‘invents/creates’ the de-mentative/structural/paradigmatic possibility for prospective institutionalised-being-and-craft as there isn’t any inherent intemporality 7-longness but for the disposition for 6-maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation out of the apathy of the ordinariness/averageness of any prior registry-worldview/dimension institutionalised-being-

representation-perversion has various shades of ‘temporal/shortness to intemporal/longness depth/register of meaningfulness stranded finalities/teleologies’. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism’ or prelogism in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism’ or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism-as-of-conviction,-in-profound-supererogation—existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at (‘poor or bad supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism’), whether by omitting or

What the psychopath is doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-dementing-apriorising. That is to arrive at a sought-outcome by subknowledging-or-mimicking the non-veridical
hollow-form of the meaning of other persons supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism narratives which it perceives as ‘being blatantly deterministic’ of the views and actions of the ‘normal prelogism’—as-of-conviction,—in-profound-supererogation—existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at mind’, i.e. the psychopath is ‘narrating veridical emptiness/hollow narratives’. The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism on narratives but rather simply ‘the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation conjugated-postlogism/preconverging-or-dementing—integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating/supererogatory—de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism and its derivation/adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-
postlogism. More precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining

\{<\text{decontextualising/de-existentialising-of-attendant-intradimensional–apriorising/axiomatising/referencing}>\text{induced-disontologising/of-the-}’\text{attendant-intradimensional–ontologising}’–\text{imbued-}<\text{contextualising/existentialising–attendant-ontological-contiguity}>;\text{-in-shallow-supererogation}<\text{-as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–}’\text{attendant-intradimensional–apriorising/axiomatising/referencing}’-\text{logical-dueness}>\}\) and the notion of a lie which is in manifest prelogism-as-of-conviction,-in-profound-supererogation-<existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> (be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—of–’attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism’) as with a lie the implied–logical-dueness (with the corresponding implied-<reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or
whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge associated with postlogism-compulsing–nonconviction/madeupness/bottomlining–(<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing–)>-induced-disontologising–of-the–

The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent whole of narratives’ with respect to attendant–ontological-contiguity -<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought-devolving-as-of-instantiative-context> as is the case when someone tells a lie, and actually where such a ‘coherent whole of narratives’ with respect to attendant–ontological-contiguity -<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought-devolving-as-of-instantiative-context> is wrongly implied about slanting, it has to do with prelogism -as-of-
conviction,-in-profound-supererogation -<existentially-veridical–'attendant-intradimensional– apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical- outcome-arrived-at> mind/mental-disposition ‘wrongly conjoining the succession of slanting narratives from the last iterated slanted narrative’ to wrongly imply that the slanting psychopath narratives are a ‘coherent whole of narratives as of ‘attendant-ontological-contiguity - educed– existentialising/contextualising/textualising-contiguity’ -<reifying-or-elucidating-of- prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of- instantiative-context’>, and this is the mechanism that induces conjugated-postlogism” /preconverging-or-dementing”-integration by some interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood psychopathy where the mental-disposition is relatively 10 universally-transparent what is perceived and related to by supplanting–conviction-as-to-profound-supererogation”–of- ‘attendant-intradimensional’-postconverging/dialectical-thinking”–apriorising-psychologism interlocutors is not a ‘coherent whole of narratives’ but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism”–as-of-conviction,-in-profound-supererogation” –<existentially-veridical–‘attendant-intradimensional– apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical- outcome-arrived-at> alignment to psychopathic slanting is actually a mental-unsoundness not different as contemplating aligning in supplanting–conviction-as-to-profound-supererogation”–of-‘attendant-intradimensional’-postconverging/dialectical-thinking”– apriorising-psychologism to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a
slanting deception is as of faulty-mentation-procedure-deception-or-urge due to psychopathic developmental failure to relate to meaningfulness as of prelogism-as-of-conviction-in-profound-supererogation-as-existentially-veridical-‘attendant-intradimensional-apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of—social-stake-contention-or-confliction, induces interlocutors prelogic supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism alignment to its postlogic compelling—nonconviction/madeupness/bottomlining—of—{‘<decontextualising/de-existentialising—of—attendant-intradimensional—apriorising/axiomatising/referencing>-induced—disontologising’—of—the—‘attendant-intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant-ontological-contiguity >;—in—shallow—supererogation—<as—to-disontologising—perverted-outcome-sought-precedes-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness>} narratives whereas at childhood psychopathy interlocutors will not align in prelogic supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologismly (in order not to wrongly conjoin the psychopathic postlogic slanting narratives as deception-of-successively-shifting-or-non-cohering-narratives-and-acts as if of coherent whole as prelogic supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism narratives, and this is what actually occurs by inducing conjugated-postlogism—/preconverging-or-dementing—integration in interlocutors at adulthood
psychopathy) given the obvious and transparent deliriousness/delirious-effect/cinglé-effect associated with slanting over a slant over a slant, successively. Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing –apriorising-psychologism. Thus, with slanting the implied–logical-dueness (with the corresponding implied–reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-ontological-bad-faith/inauthenticity–of–reference-of-thought/preconverging-or-dementing–apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-ontological-good-faith/authenticity–of–reference-of-thought. Insightfully, it points out as well that the basis of the postlogism /psychopathic induced deception is not the psychopath itself (as it is commonly asserted about psychopathic manipulation), but rather it lies in the very nature of the reasoning of the prelogism–as-of-conviction, in-profound-supererogation –<existentially-veridical–

[This is more profoundly exposed in the conceptualisation in reflecting holographically-

institutionalisation mental-disposition’ which is why humankind pursues institutionalisations as
devising human collective emancipation from base-institutionalisation to universalisation to positivism and prospectively to notional-deprocrypticism in resolving the vices-and-impediments of their respective uninstitutionalised-threshold as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. But exactly for the purpose of ensuring the perpetuation of this human registry-worldview’s/dimension’s institutionalisation capacity (as in enabling futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism) as the very essence of human virtue itself, it is equally important to understand how institutionalisation comes to be limited at successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure⟨as-to historiality/ontological-eventfulness /ontological-aesthetic-tracing<br>perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’⟩ (as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor) to grasp how we can then supersede/transcend prospectively. ‘Human temporal uninstitutionalised-threshold mental-disposition’ refers to our fixation to the mere–categorical-imperatives/axioms/registry-teleology of the registry-worldview/dimension institutionalisation reference-of-thought but failing/not-upholding–<as-of-apriorising/axiomatising/referencing> prospective intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mention-capacity-deepening by a re-equilibrating metaphysics-of-absence–(implicated-epistemic-veracity-of-

Thus this implied human ‘postconverging-or-dialectical-thinking\(^7\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as driven by ontological-normalcy/postconvergence will explain the specific natures of registry-worldviews/dimensions \(^8\) references-of-thought (as ‘underlying scheduling of soundness-or-ontological-good-faith/authenticity\(^9\)-of-\(^8\) ‘reference-of-thought’) behind the \<cumulating/recomposuring–

Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing’–apriorising-psychologism as of their relative-ontological-incompleteness-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of attendant–ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as ontologically-veridical. Thus, notional–deprocrypticism as decentering and preconverging-or-dementing–apriorising-psychologism the positivism–procripticism registry-worldview reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of

‘human temporal uninstitutionalised-
threshold’ mental-disposition’. This brings home the underlying notion of rational-realism as
construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening\textsuperscript{53} as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental ‘meaningfulness-and-teleology’. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to
critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendency of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing–for-explicating-ontological-contiguity’ that has accompanied human limited-mentation-capacity-deepening in construing/conceptualising meaningfulness-and-teleology. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening that actually is behind all threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to-‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing apriorising-psychologism of the <cumulating/recomposuring–attendant-ontological-contiguity>-successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the
case with supernaturalism, belief in essences and metaphysical idealism, as of de-
mentative/structural/paradigmatic social implications, one other sort of idealism remains to be
recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly
indulgent in not recognising how a thorough understanding of itself in enabling
pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a
most basic realism is grounding human knowledge of itself and thereof all knowledge on the
‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence

psychologism, notional–deprocripticism psychologism. This is the insight behind the
articulation of the social construed in threshold terms of social-functioning-and-accordance—
as-of–social-stake-contention-or-confliction rather as socially-functional-and-accordant\(^1\). This
insight further divulges the reality across all registry-worldviews/dimensions of ‘human
registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal
uninstitutionalised-threshold \(^2\) mental-disposition’, as powerful conceptualisations for framing
issues in their appropriate psychologism however unpalatable/inconveniencing, as history has
always shown that unpalatability, inconvenience and contrariety have always been the test that
all humans have had to undergo to effectively achieve their respective prospective registry-
worldview/dimension transcendence-and-sublimity/sublimation/supererogatory–de-mentativity,
and the more complete conceptualisation of knowledge goes beyond its technicalities and
plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to

apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality disposition behind its
creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present ‘meaningfulness-and-teleology’ frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic ‘meaningfulness-and-teleology’ to engage the non-positivistic social-setup in terms—as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘huma prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms—as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms—as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipating institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold’
of 'reference-of-thought' required for perpetuating-deprocrysticism). Supposed there was no apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument defect (no perversion-of 'reference-of-thought' with social universal-transparency-{transparency-of-totalising-entailing-as-to-entailing-amplituding/formative–epistemicity}totalising~in-relative-ontological-completeness) of the calculations to be done, it is fair to say 'human registry-worldview’s/dimension’s institutionalisation mental-disposition’ in this 'reference-of-thought is of quasi-intemporal-disposition (and the whole point of human knowledge aspiration and virtue is to achieve this state or deferential-states-of-this-state as with formalisations and percolation-channelling-{in-deferential-formalisation-transference}). Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity-{postconverging–de-mentating/structuring/paradigmign but for failure in aposteriorising/logicising/deriving/intelligising/measuring performance as defect–of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance. But then human existential-reality comes with human limited-mentation-capacity-deepening with limited grasp of intrinsic-reality at various stages of human emancipation up to the modern-day, such that social universal-transparency-{transparency-of-totalising-entailing-as-to-entailing-amplituding/formative–epistemicity}totalising~in-relative-ontological-completeness required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-
reality, and where non-available at uninstitutionalised-threshold\textsuperscript{102}, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold\textsuperscript{102} mental-disposition’ as of

Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence\{implicit\textit{epistemic-veracity-of- nonpresencing--perspective--ontological-normalcy/postconvergence}\}) of the notion of ‘human temporal uninstitutionalised-threshold\textsuperscript{102} mental-disposition’ that de-mentatively/structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-
worldview’s/dimension’s temporality’s shortness and is non-transcendental to that possibility: she deserves to be raped because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc. [We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant -threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the’-reference-of-thought-as-of- ‘incrementalism-in-relative-ontological-incompleteness’ —enframed-conceptualisation-inducing-the-uninstitutionalised-threshold in the same social space that statements of ‘maximal-as-intemortal-operating-modality-of—the reference-of-thought-as-of- maximalising-recomposuring-for-relative-ontological-completeness’ —unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’ are made but with both construed in the conventioning of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction as effectively ‘non-dissociable’, thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality’s-drive (longness-of-register-of— meaningfulness-and-teleology disposition) but rather about acceptable thresholds for the registry-worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of—social-stake-contention-or-confliction, explaining why uninstitutionalised-threshold are bound to arise successively in the ontological-contiguity —of-the-human-institutionalisation-process (out-of-human temporality’s) together with corresponding prospective institutionalisations (out of-human intemporality’s) with the latter enabling totalising~renewing-realisation/re-perception/re-thought of defined social-functioning-and-accordance—as-of—social-stake-contention-or-confliction as

This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—conflicatedness—in—{preconverging-disentailment—by—}—postconverging-entailment with no conventioning complexes’! (As a reminder, the notion of intemporality/temporality is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived—social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory−de-mentativity as an otherness from any emotional-involvement/subjectification/notional <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predilection of the inquirer’.

This elucidation is equally to highlight that the idea of socially-functional-and-accordant
‘modular-thresholds’-of-notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>-dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) The conventioning of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction effectively ‘non-dissociable’ modular construal of temporal-dispositions and intemporal-disposition rather as of socially-functional-and-accordant thresholds, has deterministic implications with regards to ‘interdimensional/transdimensional/transcendental registry-worldview/dimension-level of analysis’ as well as ‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuation-level of analysis’; for construing the implications of such ‘modular-thresholds’-of-notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>-dissociability social-functioning-and-accordance—as-of–social-stake-contention-or-confliction effectiveness-or-ineffectiveness and ontological-resolution as of ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism by way of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ in resolving registry-worldview’s/dimension’s referential content for social-functioning-and-accordance capabilities, as the very foundational operant conceptualisation of an ontologically-contiguous ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’. This fundamentally highlights a ‘notional~conflicatedness /constitutedness-to-conflicatedness dynamic relationship’ with meaningfulness-and-teleology as directly reflecting ‘ontological-normalcy/postconvergence
analysis’ (just as the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity constructed scientific reference-of-thought of the natural sciences, as ontological~reference-of-thought, revealed a mathematical depth that enabled their full mathematisation; as mathematics just like logic cannot reveal the full intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity constructed reference-of-thought/axiomatic-framework of a domain-of-study like the social but once it is revealed enables its full mathematisation)! Critically, central to attaining (intemporal) ontological-contiguity as of the notional~deprocrypticism registry-worldview’s/dimension’s~reference-of-thought-for-social-functioning-and-accordance with no-notional~firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>-non-dissociability (due to social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing<-amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness) of notional–deprocrypticism ‘meaningfulness-and-teleology'), is equally the need to supersede human ‘emotional involvement’. As ‘emotional-involvement’ is self-centering-and-definitional of human consciousness as of our animate-existential-referencing/subjectification, but actually such reality is otherwise of the same ontologically-veridical nature as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression into which everything else is caught into as superseding–oneness-of-ontology (even though our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction will often tend to induce a relatively flawed ‘meaningfulness-and-teleology’ construal in this regard, that explains our metaphysics-of-presence-(implicit–‘nondescript/ignorable–void ’-as-to– presencing—absolutising-

Thus an appropriate ontologically-veridical social-conceptualisation and/or storied-construct/ontologically-valid-narration as aetiological/ontologically-escalatory that has the capacity to supersede the inherent human high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction specific element (which tend to denaturing\footnote{meaningfulness-and-teleology} construal, as high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction is behind manifest human ‘non-dissociability’ of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance temporal-to-intemporal thresholds’ within the ontological scope of any given institutionalisation), should be able to imply the same underlying ontologically-veridical existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency\footnote{sublimating–nascence, disclosed-from-prospective-epistemic-digression of the superseding–oneness-of-ontology as any other truly ontologically-veridical conceptualisation, be it of animate or inanimate nature. While the institutionalisation perspective tends to point to a commonness of reference-of-
meaningfulness-and-teleology as its institutionalisation which rather points to an inclination for transcendability and de-mentativity as of organic-knowledge once it does conceptualise the veridicality of the uninstitutionalised-threshold as ontologically-flawed. Such construal of temporal individuations threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-attendant-intradimensional-prospectively-disontologising-preconverging/dementing-apriorising-psychologism> at uninstitutionalised-threshold is critical because then and in effect, the mental-reflex to ontologically validate these as of reference-of-thought-prelogism-as-of-conviction,-in-profound-supererogation <existentially-veridical-attendant-intradimensional-apriorising/axiomatising/referencing logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mental-disposition so-construed as of sound attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity logical-dueness is ontologically put into question given the perversion-and-derived-perversion-of-reference-of-thought-as nonconviction/madeupness/bottomlining-as-to-shallow-supererogation. Such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supercogation-de-mentativity is projectable about the uninstitutionalised-threshold, and not as it is circularly construed within the uninstitutionalised-threshold frame as a construal of logical pertinence (logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), but rather involving priorly the determination of temporal individuations threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-attendant-intradimensional-prospectively-disontologising-preconverging/dementing-apriorising-psychologism> as these fail to reflect soundness-or-ontological-good-faith/authenticity-of-reference-of-thought, that is, establishing whether or not there is
supererogation\textsuperscript{96} as to ‘attendant-intradimensional’ - prospectively -
disontologising - preconverging/dementing - apriorising-psychologism\textsuperscript{97} as this reflects postlogism denaturing\textsuperscript{16} and conjugated-postlogism\textsuperscript{7} derived\textsuperscript{4} perversions of reference-of-thought\textsuperscript{98} as preconvergently-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96} as deconstruction of ontological-veridicality in implying and projecting about the prospective institutionalisation as of positivism\textsuperscript{99} meaningfulness-and-teleology\textsuperscript{100} reference-of-thought of categorical-imperatives/axioms/registry-teleology\textsuperscript{99} - for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation (rather than a naïve operation of logic as is further highlighted below). The fact is with or without postlogism\textsuperscript{7} and derived conjugated-postlogism\textsuperscript{7}, human reference-of-thought - prelogism\textsuperscript{72} - as of conviction, in profound supererogation\textsuperscript{96} existentially-veridical – ‘attendant-intradimensional – apriorising/axiomatising/referencing’ – logical-dueness-precedes-disontologising-logical-outcome-arrived-at\textsuperscript{96} tends to be relative. That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology\textsuperscript{99} - in preconverging existential-extrication-as-of-existential-unthought\textsuperscript{99}) given our relative-ontological-incompleteness of reference-of-thought and secondly by projective-arbitrariness/waywardness in the choices we make, and this get even worst at the uninstitutionalised-threshold\textsuperscript{101}. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute\textsuperscript{93} reference-of-thought - prelogism\textsuperscript{72} - as of conviction, in profound supererogation\textsuperscript{96} existentially-veridical – ‘attendant-intradimensional – apriorising/axiomatising/referencing’ - logical-dueness-precedes- disontologising-logical-outcome-arrived-at\textsuperscript{96} has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards

This brings to the fore the idea that the salient point about human mental-disposition whether construed as of institutionalisation basis or at its uninstitutionalised-threshold has to do with the possibility of attaining or not attaining social universal-transparency—{transparency-of-totalising-entailing,-as-to-entailing-

(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-

(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-

worldviews/dimensions is what explains the possibility of social transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity. The reason for this is that the entire
construct of human social-functioning-and-accordance—as-of–social-stake-contention-or-

thought–prelogism ”-as-of-conviction,-in-profound-supererogation” -<existentially-veridical–

individual’s expectation and the social’s expectation such that failure in this respect arises
mostly surreptitiously since even the most disingenuous individuation will want the social-
construct to function well in order to ‘parasitise’ it, as a failing social-construct as of
‘universal social surreptitious parasitising/co-opting’ puts even such individuation in
jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance,
however dubious, a rationale that is meant to be socially functional. Basically, the postlogism

Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism as a social dynamism of protracted threshold-of-nonconviction/madeupness/bottomlining-in-shallow-suprererogation as-to-'attendant-intradimensional’-prospectively-disontologising-preconverging/dementing apriorising-psychologism doesn’t socially take hold then, as such childhood postlogism apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprererogation hasn’t superseded the social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing <amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness) in further inducing temporal-dispositions derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprererogation. The further implication is that such surreptitiousness, marginality and circularity with regards to a registry-worldview’s/dimension’s temporal-dispositions are often construed rather as circumventive issues as of temporal extricatory preconverging-de-mentating/structuring/paradigming, and not by ontological-veridical insight as of de-mentative/structural/paradigmatic <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity with respect to vices-and-impediments. Thus ensuring ontological-veridical social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing <amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness) is de-mentatively/structurally/paradigmatically inherently ‘advantaged ultimately’ by the social-construct functioning. (But then this can rather be achieved in the medium to long term as of a

import and hardly so in the short-run, given that in the short-run the issue of the registry-

drawback in this respect. As the framework of generalised social referencing of

We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-\textsuperscript{83} reference-of-thought with regards to \textsuperscript{83}meaningfulness-and-teleology\textsuperscript{99} construal where Nunez’s ‘seeing of the environment’ \textsuperscript{83}reference-of-thought as of it prospective relative-ontological-completeness\textsuperscript{87}-of-axiomatic-construct-or-\textsuperscript{83} reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ \textsuperscript{83}reference-of-thought as of its prior relative-ontological-incompleteness\textsuperscript{88}. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior \textsuperscript{83}reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a <amplituding/formative> wooden-language\{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>\} that hardly entertains its own transcendability/de-mentativity, and why transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-
unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought’ despite their respective inherent prior relative-ontological-incompleteness of reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to reference-of-thought-apriorising/axiomatising/referencing from an ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews/dimensions uninstitutionalised-threshold, including our own as positivism—procrypticism as of its disjointedness-as-of reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to reference-of-thought-apriorising/axiomatising/referencing notwithstanding any notion of relative prospective ontological-completeness-of reference-of-thought. Furthermore, it should be noted that the

that ‘no’

typeface/apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument for
predicative-insights’ (as deprocrypticism) that ultimately provides the ideal ‘ascertaining-
perspectives
for gauging the overall earth landscape’. Besides, why the explication herein is
necessarily implying a prospective –reference-of-thought
(as the author in here with a supposed
notional–deprocrypticism –reference-of-thought construal as implying a prospective relative-
ontological-completeness –of–reference-of-thought over our positivism–procrypticism), the
fact is that any transcendental analysis is caught in two worlds as two different
–reference-of-thought
in striving to explicate the ontological pre-eminence of the prospective –reference-of-
thought as of ontological-normalcy/postconvergence, thus facing the dilemma that by mental-
reflex we are not ‘habituated’ to the notion of our reference-of-thought being construed as ‘preconverging-or-dementing–apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold will react when construed as preconverging-or-dementing–apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing–apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought perspective as in disjointedness-as-of reference-of-thought and rather in distractive-alignment-to–reference-of-thought–of-apriorising/axiomatising/referencing! Thus the reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature’ for the sake of deconstructive-engagement/engaged-destruktion because an analysis construed as of reference-of-thought is all about mental-soundness or unsoundness representation (with no logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a change of reference-of-thought implies a change of
perspective/apriorising/axiomatising/referring/intelligibility/setup/measuring/instrument-of-
meaningfulness-and-teleology as a shift of the curve-of-prospective-relative-ontological-
completeness-of-reference-of-thought/axiomatic-construct and not a change in logic as a
change along the same-reference-of-thought/curve-of-prior-relative-ontological-
incompleteness-of-reference-of-thought/logical-processing-or-logical-implicitation—
supposedly-apriorising-in-conviction-as-to-profound-supererogation. In other words, a truly
direct notional~deprocrypticism ontological analysis will be a ‘mental break-in’/preconverging-
or-dementing—apriorising-psychologism of our positivism~procrypticism as we by reflex
‘mentally break-in’/dement a non-positivistic-reference-of-thought (as we don’t engage it on
the basis of the non-positivistic-reference-of-thought—categorical-
 imperatives/axioms/registry-teleology,—for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology,
just as a notional~deprocrypticism analysis will not engage us on the basis of our
procrypticism—or—disjointedness-as-of—reference-of-thought—reference-of-thought—
categorical-imperatives/axioms/registry-teleology,—for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology,
and so in both cases as of the relative ontologising-deficiency/relative-ontological-
incompleteness-of-reference-of-thought of non-positivism and procrypticism—or—
disjointedness-as-of—reference-of-thought). But then wholly carried out in both instances it
will be off-putting to both prior-reference-of-thought, explaining why a transcendental
analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the
human potential to psychoanalytically-unshackle. This is more than just an abstract
conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-
ontological-completeness—of—reference-of-thought over prior relative-ontological-
incompleteness—of—reference-of-thought’ took place historically (and so for instance, as of
the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God-of-plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic ‘meaningfulness-and-teleology’; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of

<amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness<sup>97</sup>-of-<sup>83</sup>reference-of-thought accommodation).
Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional–deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as <sup>99</sup>procrypticism–or–disjointedness-as-of-<sup>83</sup>reference-of-thought <sup>83</sup>reference-of-thought– categorical-imperatives/axioms/registry-teleology<sup>99</sup> failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism as preconverging–or–dementing –apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage ‘meaningfulness-and-teleology’<sup>99</sup> in positivism–procrypticism terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-<sup>83</sup>reference-of-thought. (More like a non-positivistic mindset/<sup>83</sup>reference-of-thought insisting to contendingly engage a positivistic mindset/<sup>83</sup>reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness<sup>88</sup>-of-<sup>83</sup>reference-of-thought. Such insight

apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation is rather vague, as the more fundamental issue here is that human meaningfulness-and-teleology as of human limited-mentation-capacity for construing virtue-as-ontology/ontology/intrinsic-reality/ontological-veridicality is ‘ever dementatively/structurally/paradigmatically in need for prospective relative-ontological-completeness of reference-of-thought’ and that is what is to be sought after as with the recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-institutionalised–ununiversalised striving for universalisation, the universalised–non-positivist/medievalist striving for positivism and in our case the positivist–procryptist striving for notional–deprocrypticism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; and so as of human limited-mentation-capacity-deepening enabled by reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ and so allowed by de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics). Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no dementative/structural/paradigmatic issue of relative-ontological-incompleteness of reference-of-thought with no recognition of any such ontological-contiguity—of-the-human-institutionalisation-process as human limited-mentation-capacity-deepening retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived perversion-of reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity within the framework in reflecting holographically-<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(^3\) involving human limited-mentation-capacity-deepening \(^5\). In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental de-mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism–procrysticism disjointedness-as-of–reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology -<in-preconverging-existential-extrication-as-of-existing-unthought> naïve perpetuation in <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the fundamental vices-and-impediments\(^{105}\) with both uninstitutionalised-threshold \(^{102}\), thus explaining the fundamental dilemma of all institutional Establishments in their \(<\text{amplituding/formative}>\text{ wooden-language}\>\{\text{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology }\text{ as-of-`}\text{nondescript/ignoreable–void }\text{ `-with-regards-to-prospective-apriorising-implications}>\}. these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of de-mentative/structural/paradigmatic nature of the Good/understanding/notional~knowledge-reification~gesturing~in~

imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought. The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness reference-of-thought and a prospective relative-ontological-completeness reference-of-thought, the former is priorly invalidated into a preconverging-or-dementing-and-decentered-prior-institutionalisation’s—categorical-imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought by the latter as a postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s—categorical-imperatives/axioms/registry-teleology soundness-or-ontological-good-faith/authenticity reference-of-thought, invalidating by implication the logical-dueness/logical-pertinence as of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness reference-of-thought with respect to its prior relative-ontological-incompleteness reference-of-thought. But since we have been habituated as of our existential formation within our wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications—to be in logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by default and thus always contendingly relevant on the basis of sharing a mutual positivism reference-of-thought, we will hardly entertain though a notional~deprocrypticism cross-engagement implied invalidation of our logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and thus
rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness\(^\text{8}\)-of-\(^\text{8}\) reference-of-thought construed as disjointedness-as-of-\(^\text{8}\) reference-of-thought. But then ironically such a unde-mentativity posture could as well be adopted by a non-positivism/medievalism \(^\text{8}\) reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking\(^\text{21}\)-and-centered-prospective-institutionalisation’s–\(^\text{8}\) categorical-imperatives/axioms/registry-teleology\(^\text{9}\) with its logical-dueness for \(^\text{1}\) logical-processing-or-logico-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid by default. This point out that there is necessarily a central growth element of a de-mentative/structural/paradigmatic \(^\text{8}\) reference-of-thought– categorical-imperatives/axioms/registry-teleology\(^\text{9}\)-for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology\(^\text{9}\) for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ allowing for de-mentativity and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic \(^\text{8}\) reference-of-thought– categorical-imperatives/axioms/registry-teleology\(^\text{9}\)-for-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity of vices-and-impediments\(^\text{105}\) of our prior relative-ontological-incompleteness–of-\(^\text{8}\) reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from
Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn't recognise the mortals that we are and we can't advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid 'human closure of meaningfulness-and-teleology' which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as a wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications) start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of notional~deprocrypticism prospective relative-ontological-completeness'-of-'reference-of-thought is restored by doing away with 'ontological-veridicality tolerance as stretched-truth' and articulating a 'mental break-in'/preconverging-or-dementing–apriorising-psychologism of positivism–procrypticism meaningfulness-and-teleology at its procrypticism uninstitutionalisation as of disjointedness-as-of- reference-of-thought from notional~deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, just as we'll appreciate that were the animists insistent say on relating to the plane as God-of-plane to a point implying their potential non-transcendability as of psychoanalytic-unshackling in due course, 'ontological-veridicality tolerance as stretched-truth' is no longer warranted but a direct 'mental break-in'/preconverging-or-dementing–apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a
demonstration might be construed as of a simple paper plane demonstration of causality as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity principles or extraordinarily a flight from the flight deck with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered meaningfulness-and-teleology is more ontologically pertinent. Certainly such a ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism demonstration with regards to our procrypticism reference-of-thought as of its disjointedness-as-of-reference-of-thought construed from a notional–deprocrypticism reference-of-thought perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights will look weird to us going by our circularly pervasive self-referencing-syncretising/circularity/interiorising/akrasiatic-drag procrypticism–or–disjointedness-as-of-reference-of-thought, but it is more of ontological-veridicality/intrinsic-reality even though we are unhabituated to it since it is beyond-the-consciousness-awareness-teleology--in-preconverging-existential-extrication-as-of-existential-unthought and not yet by social universal-transparency –{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness }, just as had been the case from the perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of all the uninstitutionalised-threshold reference-of-thought with respect to the ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism of their corresponding prospective institutionalisations reference-of-thought. The bigger point being that by definition a reference-of-thought doesn’t fathom the nature and degree of its relative-ontological-incompleteness-of-reference-of-thought as of its
mentating/structuring/paradigming and parasitising/co-opting inclination subpar to the warranted ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality perpetually upholding the currency in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process across-the-times; as at this point, intellectual commitment overtly meets ontology.) Explained in other terms, implying in a non-positivism social-setup that notions-and-accusations-of-sorcery are inherently vices- and-impediments as of the transcendental prospective positivism prospective relative-ontological-completeness reference-of-thought will-not-be-convincing-on-a-par-with-other-argumentators in that social-setup but rather for such temporal/shortness-of-register-of-meaningfulness-and-teleology purpose requires making a ‘temporal palliation argument’ of the type oneself or another person is not involved in sorcery or a counterargument that the accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-ontological-incompleteness reference-of-thought, to-be-more-convincing-on-a-par-with-other-argumentators in that non-positivism social-setup (but then all this will wrongfully validate superstition and thus fail the very point of ontology/aetiologisation/ontological-escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercratory-de-mentativity as intemporality-asymmetric-subsumption-of-temporality'/asymmetrisation and not a temporal extrication exercise of ‘social-aggregation-enabling as of symmetrisation-of-reference-of-thought, as this is in effect an ontologically-non-veridical-or-flawed <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’). Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism—and-conjugated-postlogism as notions-and-accusations-of-
sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness\textsuperscript{98}-of-\textsuperscript{77} reference-of-thought social referencing of \textsuperscript{96}meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution construed as of ‘dem-entation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics)’ by superseding the prior non-positivism prior relative-ontological-incompleteness\textsuperscript{98}-of-\textsuperscript{77} reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness\textsuperscript{97}-of-\textsuperscript{77} reference-of-thought by ‘continuous habituation going by the latter’s <amplituding/formative-epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity in the long run as superseding the prior beyond-the-consciousness-awareness-teleology\textsuperscript{96}-<in-preconverging-existential-extrication-as-of-existential-unthought> and initiating the appropriate prospective social universal-transparency \textsuperscript{104} – {transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness } that will de-mentatively/structurally/paradigmatically harken back to undermine the postlogism\textsuperscript{77}-and-conjugated-postlogism\textsuperscript{77} grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic mindset/ reference-of-thought into a positivistic mindset/ reference-of-thought that the possibility of ‘ontologically’ and ‘not palliatively’ resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the crossgenerational resolution of our positivism–procrypticism prior relative-ontological-incompleteness\textsuperscript{98}-of-\textsuperscript{77} reference-of-thought as of its circular-pervasiveness in countenancing of \textsuperscript{99}procrypticism–or–disjointedness-as-of-reference-of-thought from
apriorising/axiomatising/referencing/intelligibility-setup/measuring-instrument-for-operant-or-
incidenting-predicative-insights of meaningfulness-and-teleology as conceptualising, articulating and preempting such disjointing/disparateness/disentailing meaningfulness-and-
teleology of our positivism–procrypticism that is the de-mentative/structural/paradigmatic resolution as of prospective relative-ontological-completeness reference-of-thought that can de-mentatively/structurally/paradigmatically harken back in undermining the circular-pervasiveness in countenancing of ‘disjointedness-as-of-reference-of-thought’ and the enculturation/endemisation of the manifest postlogism-and-conjugated-postlogism in our positivism–procrypticism as psychopathy and social psychopathy, and so going beyond just a temporal palliative resolution within a positivism–procrypticism circular-pervasiveness closed-structure countenancing ‘disjointedness-as-of-reference-of-thought’ of meaningfulness-and-teleology, beyond-the-consciousness-awareness-teleology-in-preconverging-existential-extrication-as-of-existential-unthought, and hence overlooking the de-mentative/structural/paradigmatic ontological vices-and-impediments implications of postlogism-and-conjugated-postlogism including psychopathy and social psychopathy arising given the relative-ontological-incompleteness reference-of-thought of our procrypticism as disjointedness-as-of-reference-of-thought. This explains how and why re-originary-as-unenframed/unbeholdening/outlier-conceptualisation ideas can supersede conventionalised ideas where the former provide in the big picture the possibility for the social-construct to function better by social universal-transparency- ⟨transparency-of-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness⟩ at a crossgenerational depth of analysis, and equally explains human historical suspicions of new ideas just in case their social universal-transparency-
(transparency-of-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness) turn out to be better and possibly leading to the dismantling of the prior and vested and attendant interests. It should be grasped that the comprehensiveness/dynamic-cumulative-afereffect of a registry-worldview’s/dimension’s threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to-attendant-intradimensional~prospectively-disontologising-preconverging/dementing–apriorising-psychologism> as an operant construal) at its uninstitutionalised-threshold is what defines it as uninstitutionalised-threshold which is decentered and preconverging-or-dementing–apriorising-psychologism from the prospective institutionalisation perspective while that of its reference-of-thought–prelogism-as-of-conviction,-in-profound-supererogation<existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing–logical-dueness-precedes-disontologising–logical-outcome-arrived-at> (as an operant construal) of its institutionalisation is what defines it as prior institutionalisation. Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold situation which is necessarily beyond-the-consciousness-awareness-teleology <in-preconverging-existential-extrication-as-of-

existential-unthought and without social universal-transparency of the visitor. This example is exactly along the lines of the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology needed for construing postlogism/psychopathy and conjugated-postlogism as of its social model at uninstitutionalised-threshold, and so by way of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposuring attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–reifying-or-elucidating-of-prospective-relative-ontological-completeness–of-reference-of-thought–devolving-as-of-instantiative-context), in contrast to elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity on the basis of the established reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology before the institutionalisation of such a specific uninstitutionalised-threshold takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of
its commonly assumed social elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—-educed—existentialising/contextualising/textualising-contiguity’. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism–procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or ‘disjointedness-as-of—reference-of-thought’—as-misappropriated—meaningfulness-and-teleology’ going by the visitor’s relative-ontological-incompleteness—of—reference-of-thought as of positivism–procrypticism, while the explainer of the situation has factored in notional–deprocrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology’—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology’ to preempt the induced procrypticism or ‘disjointedness-as-of—reference-of-thought’—as-misappropriated—meaningfulness-and-teleology’ from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of notional–deprocrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology’—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology’ to preempt the slanted inducing of procrypticism or ‘disjointedness-as-of—reference-of-thought’—as-misappropriated—meaningfulness-and-teleology’ and gives up on positivism–procrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology’—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology’ with respect to its relations with the childhood psychopathy. Thus at this individuation-level
uninstitutionalised-threshold with respect to the childhood psychopathy, a new notional-deprocrypticism reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology has superseded the prior positivism-procrypticism reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism-psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality—{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology} by formality dynamics; with the implication of lack of social universal-transparency—{transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity}totalising—in-relative-ontological-completeness as the manifestation is beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought at this unserialised-threshold.
together with the inherent human complex of non-transcendability and hence undemmentativity across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger dementative/structural/paradigmatic picture of perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation. Supposed with regards to a case of notions-and-accusations-of-sorcery as highlighted before as
of a social-setup whose relative-ontological-incompleteness

<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –

however, when compared to the simplistic individuation-level postlogism\(^77\) analysis insight,
positivism and procrypticism in lieu of the respective prospective positivism and notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology in lieu of the respective prospective positivism and notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of prospective relative-ontological-completeness of reference-of-thought. This is further rendered difficult by a natural human ‘emotional involvement’ driven social-aggregation-enabling as of human condition that undermines intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity. This insight equally explains the pertinence of understanding postlogism/psychopathy in general as an epiphenomenon that can provide deeper insight about human nature given its ‘lateral-and-transversality disruptiveness nature on human meaningfulness-and-teleology and with the preconverging–dementating/structuring/paradigming relatively easily perceived at childhood, much like the early modern human biologists relatively simplistic but counterintuitive-as-of-their-epochs understanding of disease provided deeper insight in understanding how the complexity of the human body works. Both individuation-level understanding of postlogism in a non-positivism as of notions-and-accusations-of-sorcery and positivism social-setup as of psychopathy and social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology
and a conventioning positivism–procrypticism as procrypticism in lieu of an ontologically-veridical notional–deprocrypticism
reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-

That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism /psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to-reference-of-thought-as undermining apriorising/axiomatising/referencing-as undermined apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—conflatedness—in,{preconverging-disentailment–by}–postconverging-entailment induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness–of-reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy’. The statements articulated priorly (before the square brackets texts digression) speak of the
reality of ‘human temporal uninstitutionalised-threshold mental-disposition’ even in our own
positivism reference-of-thought registry-worldview. It is fair to say the statement made
before, “Z … will look down on B, C, D, E and F mental-dispositions perversion-and-derived-
perversion-of- reference-of-thought<as-preconvergingly-

supererogation > as allowing for the endemisation/enculturation of the denaturing of additionality and the implications thereof of subsequent denaturing in circularity/recurrence/repetition/repeatability” is circumstantially relevant even in our
positivistic registry-worldview wherein ‘lack of constraining social universal-transparency\textsuperscript{10} \{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness \} induces a ‘human temporal uninstitutionalised-threshold\textsuperscript{02} mental-disposition’ temporality\textsuperscript{09}/shortness or shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{09} drive. The Milgram experiments, a demonstration par excellence of the human condition at uninstitutionalised-threshold\textsuperscript{02} with respect to perceived–social-stake-contention-or-confliction constraints as of human limited-mentation-capacity-deepening\textsuperscript{51}, truly reflect the inherent nature of 'human temporal uninstitutionalised-threshold\textsuperscript{02} mental-disposition'; and the deprocrypticism-driven understanding of which should rather be an avenue for a pivoting/decentering psychologism with respect to positivism–procrypticism registry-worldview/dimensions vices-and-impediments\textsuperscript{105} (just as with all previous transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} as of difference-conflatedness\textsuperscript{37}–as-to-totalitative-reification-in-singularisation<as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing\textsuperscript{–as-veridical-epistemicity–relativism-determinism <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing.–for-explicating-ontological-contiguity’, rather than a naïve metaphysics-of-presence\{implicated–nondescript/ignorable–void ’–as-to–presencing—absolutising-identitive-constitutedness \} mental complex that only serves ‘flawed egos’ and is of no ontologically-veridical import). The point of this distinction made between the nature of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ registry-worldview’s/dimension’s \textsuperscript{53} reference-of-thought and ‘human temporal uninstitutionalised-threshold\textsuperscript{02} mental-disposition’ registry-worldview’s/dimension’s
reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between ‘cumulated institutionalisation’ (which we carry by being secondnatured at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening —leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality/longness (which overall is no more greater than that of humans of previous <cumulating/recomposuring–attendant-ontological-contiguity >—successive registry-worldviews/dimensions); and further that we are just of the same ‘human temporal uninstitutionalised-threshold mental-disposition’ as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold, which choices when of intemporality—drive solipsistic-choices are maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation leading to prospective institutionalisations. This notion of human mental-disposition and by extension meaningfulness-and-teleology as comprising, rather as a more complete and grander conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold—facet, so-construed by metaphysics-of-absence—{(implicated-epistemic-veracity-of- nonpresencing—<perspective–ontological-normalcy/postconvergence>}, carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity. Such metaphysics-of-absence
(implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>) considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’), like deferential-formalisation-transference, ordered-construct, percolation-channelling-<in-deferential-formalisation-transference> and transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–‘motif-and- 
apriorising/axiomatising/referencing’}. Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology (as ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaningfulness-and-teleology as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-
scientific disposition, as beyond-the-consciousness-awareness-teleology\(^9\) - <in-preconverging-
existential-extrication-as-of-existential-unthought>\(^6\). This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology\(^9\) in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling-<in-deferential-formalisation-transference> possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling-<in-deferential-formalisation-transference> and transversality-<for-sublimating–existential-
eventuating/denouement>−of-affirmative-and-unaffirmative−disambiguated−‘motif-and-
apriorising/axiomatising/referencing’. In another respect, with regards to scientific
‘meaningfulness-and-teleology’ and as it informs the social-construct of knowledge and
deferential-formalisation-transference (as power relations with respect to knowledge as socially
empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory−de-mentativity that induces social
dereference to formal knowledge constructs and other formal constructs, on the basis that that
will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold when
such domains lacked or were deficient with respect to formal knowledge constructs or other
formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all
opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic
contending mental-dispositions on the basis of the determining or non-determining need for
‘social consensus as of social-aggregation-enabling by human temporal

transcendental-
enabling/sublimating/supererogatory−de-mentativity by human intemporal mental-dispositions
and projections’; explaining why higher and higher registry-worldviews/dimensions as of their
prospective relative-ontological-completeness —of— reference-of-thought increasingly defer
domains of ‘meaningfulness-and-teleology’ more and more to formal constructs while
increasingly reducing the sphere of the extended-informality—{susceptible-to-effecting-
parsimony—as-of-shoddiness-and-incompleteness-to— meaningfulness-and-teleology } as of its
free-for-all nature. The bigger point being that even in our positivism–procrypticism registry-
worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal wooden-language-imbued—averaging-of-thought—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications> mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining
the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal

Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism/psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’, and undermining a social relations with regards to knowledge and virtue that is based on ‘social consensus as of social-aggregation-enabling by human temporal

\text{as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}\rangle \text{mental-dispositions and projections’}, and so in order to release the inherent virtue imbued in true knowledge. The afore elucidations are mainly to point out that it is naïve to construe the analysis of postlogism/phenomenon including psychopathy on the assumption of an overall
‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social as of the present as metaphysics-of-presence-(implicated-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness) instead of assuming a ‘human temporal uninstitutionalised-threshold’ mental-disposition’ of the social by prospective metaphysics-of-absence-(implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>), since the construal of our postlogism as of psychopathy and social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic-ornotional-projective-perspective, reflected from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence-(implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>), we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality-drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities-drives such that it is endemised/enculturated in various temporality/shortness shades (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of— meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-
implications> in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal preconverging–de-mentating/structuring/paradigming and not intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting holographically-conjugatively-and-transfusively-the ontological-contiguity—of-the-human-institutionalisation-process of institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>, but rather the intemporal mental-disposition (intemporal-disposition) to strive as maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for base-institutionalisation to supersede recurrent-utter-uninstitutionalisation equates that striving for universalisation to supersede base-institutionalisation–ununiversalisation equates that striving for positivism to supersede universalisation–non-positivism/medievalism equates
that striving for notional-deprocripticism to supersede positivism–procrypticism; as the highest human virtue of ontological import. Since the inducing of institutionalisation-as-a-secondnatured-construct across all institutional-cumulation/institutional-recomposure{(as-to-

nonpresencing-<perspective–ontological-normalcy/postconvergence>/postdication rather than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness reference-of-thought, by ‘intemporal-prioritisation-of reference-of-thought’–as-conflatedness-or-ontological-reprojecting its mental-disposition will be to unleash its maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation intemporality-drive to supersede the non-positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of attendant-ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought and respectively as of their divergent non-positivists dereification perspective and positivist reification perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’
will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of \textit{attendant-ontological-contiguity-\textsuperscript{reduced}-existentialising/contextualising/textualising-contiguity} \textsuperscript{in-reification/dereification} as of their prior relative-ontological-incompleteness \textsuperscript{reference-of-thought}, contrasted with the positivist naturalist conception of \textit{attendant-ontological-contiguity-\textsuperscript{reduced}-existentialising/contextualising/textualising-contiguity} \textsuperscript{-in-elucidation-or-reification as-seeking-a-cure} as of its prospective relative-ontological-completeness \textsuperscript{reference-of-thought}; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrypticism registry-worldview/dimension as of its prior relative-ontological-incompleteness \textsuperscript{reference-of-thought}, as the notion of proof/evidence is more critically tied down to \textit{attendant-ontological-contiguity-\textsuperscript{reduced}-existentialising/contextualising/textualising-contiguity} \textsuperscript{-reification as of singularisation} as-to-the-nondisjoinedness/entailment-of-prospective-\textsuperscript{nonpresencing} projected epistemic-immanence/veridical-epistemicity-relativism-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity \textsuperscript{-profound-supererogation-of-mentally-aestheticised~postconverging/dialectical-thinking~qualia-schema} in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter \textsuperscript{meaningfulness-and-teleology} as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the \textsuperscript{universal} ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with
transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83} reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{\textsuperscript{8}}; with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism\textsuperscript{4} as of reasoning-through/messianic-reasoning contortion is rather in transversality <for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ of the prior relative-ontological-incompleteness\textsuperscript{88}-of-\textsuperscript{83} reference-of-thought and the contorted prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83} reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness\textsuperscript{87}-of-\textsuperscript{83} reference-of-thought projection is what marks ‘transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism\textsuperscript{4} as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of postconverging–nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness –of-reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-
completeness’-of-reference-of-thought but for the induced crossgenerational transcendental metaphoricity" possibility, and the contortion is more of a token as of the metaphoricity" possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and without which token contortion there is ‘no existential reference for such transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, as a gesturing of metaphoricity" that is ‘beyond the prior relative-ontological-incompleteness’-of-reference-of-thought full \textsuperscript{58} meaningfulness-and-teleology\textsuperscript{99} implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity” possibility for prospective relative-ontological-completeness’-of-reference-of-thought’; as transcendental instigation can’t be of ordinary inclination at one moment and at another moment of transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness’-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into the ordinariness of prior relative-ontological-incompleteness’-of-reference-of-thought thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness’-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism as of contortive metaphoricity” gesturing for prospective relative-ontological-completeness’-of-reference-of-thought as of postconverging-nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism\textsuperscript{4}, different from asceticism\textsuperscript{4} as reasoning-from-

We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus.
but then paradoxically from the beginning of times superstitious beliefs had pervaded all the

Decontortion as of human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation is rather counter to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality disposition by its deterministic hanging onto prior relative-ontological-incompleteness reference-of-thought reasoning-from-results/afterthought while ignoring/overlooking the ontological-veracity implications of the trace/ontological-aesthetic-tracing<perspective–ontological-normalecy/postconvergence-reflected–epistemicity-relativism-determinism> of reifying attendant ontological-contiguity reduced existentialising/contextualising/textualising-contiguity, and thus adopting a dereification posture as enabled by ‘lack of constraining social universal-transparency (transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness’). Such a human disposition to decontortion at uninstitutionalised-threshold arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness-and-teleology as it reflects existence’s coherence/contiguity as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism. But then such a decontortioning disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold where we are actually preconverging-or-dementing apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our

The former is ontologically-constrained as of <amplituding/formative–epistemicity>causality ~as-to-

Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness and emotional-involvement. has implications with the ontological-performance -<including-virtue-as-ontology> as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness as-‘epistemic-totality’-dereification-indissingularisation as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness as-flawed-epistemicity-relativism-determinism implied as of dissingularisation as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness /epistemic-nonimmanence/flawed-epistemicity-relativism-determinism that in many ways ignores/overlooks knowledge-reification–gesturing-in-prospective_psychologismic-apriorising/axiomatising/referencing {of-attendant-ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity } — conflatedness in {preconverging-disentailment–by}–postconverging-entailment as of singularisation as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism; and so, as of their ‘formalisation credo as identitive-constitutedness as-‘epistemic-totality’-dereification-indissingularisation as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness as-flawed-epistemicity-relativism-determinism’ thus leading to a disposition that considers knowledge as an exercise of mere conceptual patterning inherently

This has led in many ways to a dissonance between their knowledge productivity implications and existential reality wherein for instance psychological and psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care—an—episteme. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity

Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential
phenomenality, it is lost to it that social and other existential phenomenality is already
precedingly/supersedingly as of ‘ecstatic totalising-entailing/nested-congruence’, with the
consequence that it naively construes of reification as simply projecting ‘the supposedly
reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential
phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-
entailing/nested-congruence’ of existential phenomenality and thus misrepresenting,
denaturing’ and producing relatively ontologically-flawed ‘meaningfulness-and-teleology’.
Such articulations tend out to be merely implied decontextualised/abstracted constructs with

Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficulty be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \textit{presumption}; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of
ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ insight about supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> articulated as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of explicited/implicated coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-
existential-reality> in producing knowledge as ‘meaningfulness-and-teleology’; such that critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal day to day experience about living itself’ as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to amplituding/formative–epistemicity causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity, and so because such well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’ in the philosophical domain-of-study is generally more ontologically profound and comprehensive as of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }— conflatedness —in-[preconverging-disentailment–by]-postconverging-entailment than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a totalising-entailing apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }—conflatedness —in-[preconverging-disentailment–by]-postconverging-entailment demand on human living experience for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ than other more specific domains-of-study for which ad-hoc and focussed domain study methods are pervasively decisive for ontological pertinence. But then this is more a question of ‘expanded onticising construal of existence as of amplituding/formative–epistemicity totalising–devolved purviews of
existence so-construed as subject-matters/domains-of-study’. The ontological-veracity and epistemic-veracity of all such <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality are effectively as of the very same underlying congruent philosophical domain-of-study construal of ecstatic manifestation of existence but for their ‘onticising specifisms of existence’s ecstatic manifestation’; as so-implied as of overall existence metaphoricity’ /ecstasy reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility ⟨imbued-and-

Insightfully, while in many ways such an elucidation hardly needs to be explicited in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,—for-explicating-ontological-contiguity as to existence-potency ~sublimating–nascence,—disclosed-from-prospective-epistemic-digression, this unexplicated implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-
of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity as of apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}–conflatedness–in–{preconverging–disentailment–by}–postconverging–entailment; so-implied as of their supposedly coherent ontological-commitment—implied—self-assuredness-of-ontological-good-faith/authenticity–postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality> reflected by <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing—for-explicating–ontological-contiguity as to existence-potency–sublimating–nascence, disclosed from–prospective-epistemic-digression. In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specifisms of existence’s ecstatic manifestation’ as of the <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of <amplituding/formative–epistemicity>causality—as-to-projective-

Ultimately the bigger issue arises as of the poorly–singularised/poorly–immanented nature of many a social domain–of–study unlike the grand singularised/immanented totalising/circumscribing/delineating ‘<amplituding/formative–epistemicity> reference–of–

This lack is quite often reflected in such misconstrued analyses of traditional philosophical figures by a failure to understand the overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to identitive-constitutedness—'as-'epistemic-totality'—dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness—asperflawed-epistemicity-relativism-determinism ending up quite often claiming the incoherence of such figures and/or of their narrative accounts, and so in a ‘naïve insight’ arising exactly because the possibility for understanding requires the critic’s own parrhesiastic insight and then hermeneutic/reprojecting/supererogating/zeroing conceptualisation to then develop the capacity to grasp first of all such traditional philosophical figures underlying knowledge-reification–gesturing:<in-prospective_psychologism~apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity−educed—existentialising/contextualising/textualising-contiguity }—conflatedness—in{preconverging-disentailment-by}—postconverging-

In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing analytical insight actually converges with the epochal philosophical implications of attendant-ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity in apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity –educed– existentialising/contextualising/textualising-contiguity }—conflatedness in {pre-converging-disentailment–by}–post-converging-entailment and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but de-mentatively/structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability and validation in determining ontological-veracity as of a critical exercise of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. In this regards, such hermeneutic/reprojecting/supererogating/zeroing and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic
possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel universalising-idealisation that ‘runs-through/is-deflating’ by its evental -instigation traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced universalising-idealisation transformative meaninglessness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic-philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning-{as-

governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human ‘meaningfulness-and-teleology’ is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition—as-reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality dimensionality-of-sublimating

Likewise, the transformative nature of budding-positivism more than just as garnered from the precised narrative accounts about budding-positivist thinkers, lies more profoundly with its \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{99} infrastructure impact on the developing enlightenment social developments and as this budding-positivism metaphoricity\textsuperscript{57} epistemically-ricochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity such that a prevailing notion has

‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional

It is important to grasp that the extensive manifest outcomes/outfits/shells—construed-historically-as-of-the-specifically-aestheticised-incrustings/plating/coating,–so—
aestheticisation’. For instance with regards to living-development–as-to-personality-development’s meaningfulness-and-teleology’s human aestheticisation is reflected in childhood to adulthood social development wherein a child’s development as of its ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’s’ involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development–as-to-personality-development human aestheticisation of meaningfulness-and-teleology’s (‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’) in apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educated–existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment–by}–postconverging-entailment involving ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought’ always entails the three human aestheticisation manifest elements: ‘perceptive motif-manifest aestheticisation as of
human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’. This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ long before a child’s language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in reality the ‘teleological outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ of a rather ‘complex sense of ”meaningfulness-and-teleology” aestheticisation’ induced from a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ driven ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ that starts long before a child’s ‘recognised’ acquisition of any such ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, as the child already has a ‘complex sense of ”meaningfulness-and-teleology” aestheticisation’ before its ‘recognised’ acquisition of ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-

Insightfully, we can garner that it is ‘human <amplituding/formative-epistemicity>causality \textsuperscript{\textasciitilde}as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity’ purposefulness-reflexivity for prospective relative-ontological-completeness orientation’ implied as of \textsuperscript{5} maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation that fundamentally renders/makes human institutional-development—as-to-social-function-development meaningfulness-and-teleology\textsuperscript{9} outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions’ to be necessarily as of attendant-ontological-contiguity\textsuperscript{13} educed—existentialising/contextualising/textualising-contiguity\textsuperscript{40} in apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—conflectedness in {preconverging-disentailment—by} postconverging-entailment and not in apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—constitutedness in preconverging-entailment as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity\textsuperscript{13}. In another respect, ‘living-development—as-to-personality-development \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{9} aestheticisation’ is of ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with regards to human childhood to adulthood personality development as of the forming individual need to assimilate/integrate human progressive cultural cumulation, and this is very much in contrast to ‘institutional-development—as-to-

This will explain for instance why as of the furtherance in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{77}—of-the-human-institutionalisation-process\textsuperscript{6}, the ‘institutional-development–as-to-social-function-development meaninglessness-and-teleology\textsuperscript{99} aestheticisation’ with regards to language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human \textsuperscript{5} meaninglessness-and-teleology\textsuperscript{99} aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility \textsuperscript{67}<imbued-and-

The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very wooden-language—(imbued—averaging-of-thought— as-to-leveling/ressentiment/closed-construct-of— meaningfulness-and-teleology —as—of—‘nondescript/ignorable—void ’—with—regards—to—prospective—apriorising—implications) that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of attendant ontological-contiguity—educes—existentialising/contextualising/textualising-contiguity in a rather blurry
social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the attendant-ontological-contiguity-educed-existentalising/contextualising/textualising-contiguity" dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology’/knowledge as of knowledge-reification–gesturing<in-prospective-psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentalising/contextualising/textualising-contiguity}\[\text{conflatedness \ in \ {preconverging-disentailment--by}--postconverging-entailment}\]', as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further expanding on the elucidation/reification of their manifestations as validated or can be falsifiable by <amplituding/formative–epistemicity>causality \[\text{as-to-projective-totalitative–implications-of-prospective-\ nonpresencing—\ for–explicating-ontological-contiguity}\]; or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, induces a penchant for flawed intellectually supplementing rhetorisation rather than reification as well as naïve focussing on
mental-dispositions as if all the world that has ever existed is as of "presencing—absolutising-identitive-constitutedness", and displaces/decenters the human subject as of its "presencing—absolutising-identitive-constitutedness" cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on wooden-language-{imbued—averaging-of-thought—\(\text{as-to-leveling/ressentiment/closed-construct-of-} \text{meaningfulness-and-teleology -as-of-}\) \(\text{'nondescript/ignorable-void '}-with-regards-to-prospective-apriorising-implications}\} populist interpretations rather than elevating human ontological construal of the social domain-of-study! Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining knowledge to attendant–ontological-contiguity educed–existentialising/contextualising/textualising-contiguity elucidation/reification rather than just mere formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are already naturally constraint to knowledge-reification–gesturing-in-prospective.psycho logically-apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity educed–existentialising/contextualising/textualising-contiguity} conflatedness in {preconverging-disentailment–by}–postconverging-entailment by the implicated immediate-constraining amplituding/formative–epistemicity causality as-to-projective-totalitative–implications-of-prospective- nonpresencing.–for-explicating–ontological-contiguity transcendence-and-sublimity/sublimation/supererogatory–de-mentativity whereas the human world is rather blurry in this regard and hence requires the requisite explicited insight about existence as of its ecstatic singularity for its appropriate approach for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. naively overrating contributions to knowledge of a conceptual patterning orientation, in further
blurring the study of the social with mischaracterisations and poor appreciation of

ultimately induces self-perpetuating artifices of institutional-being-and-craft that mechanically
‘paradoxically then supersede knowledge’ as of its very organic ontological-good-

for instance in the analytic tradition of philosophy as of its non-totalising-entailing or ‘poor

that the underlying conception about growing the body of human knowledge seems to be the
‘incrementing of all such conceptual patterning conceptualisations’ going by their cross-

Basically, the underlying implication of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-duced-existentialising/contextualising/textualising-contiguity}—confalatedness—in-{preconverging-disentailment—by}—postconverging-entailment, and so over naïve apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-duced-existentialising/contextualising/textualising-contiguity}—constitutedness—in-preconverging-entailment, is that all ontologically-veridical conceptualisations can only be veridical by their ‘abstract reduction to the totalising-entailing/nested-congruence implication of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’ as of its ecstatic singularity’, and thus implies the articulation of all such ontologically-veridical conceptualisations as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism; while avoiding any such conceptualising naivety that may imply ‘existence in existence’ as this can only lead to flawed conceptualisations, <amplituding/formative-epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and logocentrism as of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-duced-existentialising/contextualising/textualising-contiguity}—constitutedness—in-preconverging-entailment. Critically, no concepts have any veridical ‘meaningfulness-and-teleology’ but only rather as of their apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-duced-existentialising/contextualising/textualising-contiguity}—confalatedness—in-{preconverging-disentailment—by}—postconverging-entailment with

We can appreciate that the naïve conceptual patterning of conceptualisations in many a social domain-of-study failing to disambiguate divergent knowledge implications-and-contributions as of knowledge-reification–gesturing—in-prospective_psychologismic~apriorising/axiomatising/referencing- {of-attendant-ontological-contiguity-duced-existentialising/contextualising/textualising-contiguity }—conflatedness—in{-preconverging-disentailment-by}—postconverging-entailment> end up transforming subject-matters into descriptive enunciations of weak existentially explanatory and predicative capacity. The entire project of human meaningfulness-and-teleology is nothing but one of creatively elucidating/reifying existence/existential-possibilities, ‘with no out of existence knowledge project’, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative knowledge-reification–gesturing—in-

prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-duced-existentialising/contextualising/textualising-contiguity }—conflatedness—in{-preconverging-disentailment-by}—postconverging-entailment>, and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and
regard that the repeated maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation articulation by this author on the theme of conceptual patterning here further complements as of further articulated reification of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification–gesturing—in-prospective_psychologismic–apriorising/axiomatising/referencing—of-attendant–ontological-contiguity—educed–existentialising/contextualising/textualising—contiguity—in–{preconverging-disentailment–by}–postconverging–entailment> insight often goes missing with many a subscriber to the formalisation credo, as of reification along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars crossgenerationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative knowledge-reification–gesturing—in-prospective_psychologismic–apriorising/axiomatising/referencing—of-attendant–ontological-contiguity—educed–existentialising/contextualising/textualising—contiguity—in–{preconverging-disentailment–by}–postconverging–entailment> construal perspective, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originarily/as-of-event available to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative knowledge-reification–gesturing—in-prospective_psychologismic–apriorising/axiomatising/referencing—of-attendant—
<amplituding/formative–epistemicity>causality —as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying-or-elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness”—unenframed-conceptualisation for knowledge-reification—gesturing—<in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity —educed–existentialising/contextualising/textualising-contiguity }— conflatedness —in–{preconverging-disentailment–by}–postconverging-entailment>, inducing successive differences of ontological-performance —<including-virtue-as-ontology> of ‘meaningfulness-and-teleology” as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ with increasing prospective relative-ontological-completeness”. This is especially the case where such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a
solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their knowledge-reification–gesturing-<in-prospective_psychologismic–apriorising/axiomatising/referencing-\{of-attendant–ontological–contiguity –educeed–existentialising/contextualising/textualising-contiguity \}— conflationedness –in \{preconverging disentailment by\} postconverging entailment>. Ultimately, and it is herein contended that the various scholarly contributions to postmodern-thought can be understood as rather pointing to the de-mentative/structural/paradigmatic disseminative implications of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{(9)}\) as of prospective \(^{(10)}\) deprocripticism–or–preempting—disjointedness-as-of-\(^{(11)}\) reference-of-thought ontologically-veridical difference-conflationedness\(^{(12)}\)-as-to-totalitative-reification-in-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> –as-veridical-epistemicity-relativism-determinism. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity\(^{(13)}\) orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/aporia ‘left it’ to existence as of <amplituding/formative–epistemicity> causality –as-to-projective-totalitative–implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity as the veritable transcendental-

But then because our present ‘positivism–procrystalism human subject is rather undecentered’ relative to the prospective postmodern—notional–depocryptism self-conscious mindset we fail to truly appreciate the dementative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing,—for-explicating-ontological-contiguity as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity to ‘continually select’ postmodern—notional–depocryptism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, in the same vain that the ‘non-positivism/medievalism undecentered human subject’ failed to truly appreciate the dementative/structural/paradigmatic disseminative implications of prospective positivism/rational-empiricism thought. On the other hand, recurrent conceptual patternning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective–ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming’. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their

Unlike the apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed— existentialising/contextualising/textualising-contiguity — constitutedness in — preconverging-entailment rampant with human and social conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally as of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed— existentialising/contextualising/textualising-contiguity — conflatedness in {preconverging- disentailment-by} postconverging entailment totalising-entailing/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence <amplituding/formative—epistemicity> causality as-to-projective-totalitative—implications-of—prospective—nonpresencing— for-explicating-ontological-contiguity with the ecstatic singularity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality—as-to—human<amplituding/formative—epistemicity>totalising—purview-of-construal’ implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time’. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstically nested-
congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying dynamic theoretical-conceptual-operant interrelatedness speaking of singularisation-projected epistemic-immanence/veridical-epistemicity-relativism-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. This reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social conceptualisations that by their apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educated–existentialising/contextualising/textualising-contiguity }—constitutedness—in–preconverging-entailment token tend to give up on the central issue of knowledge as of its wholeness/nested-congruence reflection ‘as of creative knowledge-reification–gesturing—<in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educated–existentialising/contextualising/textualising-contiguity }—conflatedness—in–(preconverging-disentailment—by)–postconverging-entailment’ of existence—as-the-absolute-a-priori-of-conceptualisation—and–existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective—ontological-normalcy/postconvergence-implied—’prospective-aporeticism—overcoming/unovercoming’> in its ecstatic singularity. relativism-determinism; the ontological implication here being that ‘we are as potently transcendental as from our flawed apriorising/axiomatising/referencing–{of-attendant-ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—constitutedness—in–preconverging entailment’ or ‘we are as potently immanent as of our virtuous apriorising/axiomatising/referencing–{of-attendant-ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—confinedness—in–{preconverging–disentailing–by}–postconverging entailment’. Immanence-function-confinedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of apriorising/axiomatising/referencing–{of-attendant-ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—constitutedness—in–preconverging entailment, as all the objectifying discursivity that is ontologically-veridical is as of the apriorising/axiomatising/referencing–{of-attendant-ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}—confinedness—in–{preconverging–disentailing–by}–postconverging entailment of prospective relative-ontological-completeness over prior relative-ontological-incompleteness construed as immanence-function-confinedness. Thus metaphoricty of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-confinedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstition, spiritualism, etc. This same conception holds with the notional–depocrypticism immanence-function-confinedness overriding the meaningfulness-and-teleology of procrypticism–or–disjointedness-as-of reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the notional–depocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to
existential desublimation manifestations of disjointedness-as-of-reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflatedness implying that all the meaningfulness-and-teleology is necessarily as of the prospective relative-ontological-completeness over the prior relative-ontological-incompleteness; respectively as of positivism and deprocrypticism. If by anticipation we do know immanently that a non-positivism mindset is bound to a non-positivistic-as-existentially-superstitious apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of de-mentative/structural/paradigmatic internal-necessity/determinism insight from positivism immanence-function-conflatedness with the obviousness there is no point implying an ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-superstitious inclination, the same implication will extend to notional–deprocrypticism immanence-function-conflatedness as of de-mentative/structural/paradigmatic internal-necessity/determinism insight with regards to anticipating the disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our positivism–procrypticism mental-disposition with no pretence of such a positivism–procrypticism ontologically-flawed objectifying/contending discursivity in assessing the disjointedness-as-of-reference-of-thought inclination. In other words, immanence-function-conflatedness is all about reflecting the straightforwardness of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-
immanence/veridical-epistemicity-relativism-determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive predisposition to make of its objectifying/contending discursivity as de-mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior relative-ontological-incompleteness\textsuperscript{58} meaningfulness-and-teleology\textsuperscript{59} as if of prospective relative-ontological-completeness\textsuperscript{7} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-function-confaltedness\textsuperscript{1} equally highlights knowledge as of its essential organic construct implications. As an apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity \}-in-preconverging-entailment predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly postconvergingly-de-mentated/structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the postconverging-de-mentating/structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God-of-plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness -of- reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior relative-ontological-incompleteness reference-of-thought is an appropriate framework for prospectively implied reference-of-thought knowledge acquisition. Likewise, it is herein contended that similarly a notional-deprocrypticism contortion reifying gesture necessarily questioning our positivism–procrypticism disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of psychoanalytic-unshackling implications as of the ‘decentering of the human subject’ is the necessary organic knowledge for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–dementativity. The implication of organic knowledge conception is that the state of recurrent-utter-uninstitutionalisation by its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument fails the objectifying/contending discursivity as of prospective base-institutionalisation immanence-function-conflatedness, likewise does base-institutionalisation–ununiversalisation fails as of
existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability-or-deferring-falsifiability and validation-or-deferring-validation. It is herein contended that it is the implicated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough knowledge-reification–gesturing–in-prospective_psychologismic–apriorising/axiomatising/referencing–of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–educed–existentialising/contextualising/textualising-contiguity–conflatedness—in–[preconverging-disentailment-by]–postconverging-entailment> in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential ramifications. This insight equally
conflatedness in {preconverging-disentailment-by} postconverging-entailment so-underlied by ontological-good-faith/authenticity herein as of reasoning-through/messianic-reasoning attitude/mental-disposition/care–and–episteme ‘implication of amplituding/formative–epistemicity causality as-to-projective-totalitative–implications-of-prospective- nonpresencing, for-explicating-ontological-contiguity’, on the basis that the very first epistemic frontier for ontological-pertinence lies with the scholarly developed creative insight for knowledge-reification–gesturing-<in-prospective_psychologismic–apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity } — conflatedness in {preconverging-disentailment-by} postconverging-entailment. Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity criticism exactly because of its strong scholarly research-programme attendant ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity knowledge-reification–gesturing-<in-prospective_psychologismic–apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity } — conflatedness in {preconverging-disentailment-by} postconverging-entailment, and thus an immanence-function-conflatedness insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-threshold, human existential-investment as of its temporality/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective
transcendence-and-sublimity/sublimation/supererogatory—de-mentativity lies in upholding-and-defending authentic intellectualism even as of metaphoricity beyond wooden-language—{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications}> socially intelligible ‘meaningfulness-and-teleology’ conceptualisation in totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Metaphoricity as such ironises on social intellectual nihilism as it is bent on undermining any temporality/shortness as of ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic intemporality/longness parrhesiastic askance, and as of immanence-function-conflatedness ‘highlights and keeps wide-opened the prospect’ for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated—temporal-intemporality manifestations that usurp and undermine human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrpticism social-setup to perceive our positivism–procrpticism humanistic knowledge system as absolute; it is immanence-function-conflatedness by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflatedness insight, the epistemic and methodological pretences as of our humanistic positivism–procrystalism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic postconverging–de-momentating/structuring/paradigmising as of their ultimate knowledge-reification–gesturing–prospective psychologismic–apriorising/axiomatising/referencing–of–attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity conflatedness in {preconverging-disentailment–by}–postconverging-entailment as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative knowledge-reification–gesturing–prospective psychologismic–apriorising/axiomatising/referencing–of–attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity conflatedness in {preconverging-disentailment–by}–postconverging-entailment as.
overcoming/unovercoming’, and institutionalised, such predispositions may actually be de-mentatively/structurally/paradigmatically stifling for the possibility of prospective knowledge and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and more seriously so where the possibility of varied research-programme choices are difficultly entertainable without institutional backing for research needing major funding and/or resources. Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-sublimity/sublimation/supererogatory–de-mentativity wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ but with contrastive underlying relative-ontological-incompleteness /relative-ontological-completeness

It is quite absurd to think that the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity especially, as of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound knowledge-reification-gesturing—<in-

While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern-day science to develop and just as well modern-day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of the human subject’ as implied by \textsuperscript{18}deprocrypticism—or—preempting—disjointedness-as-of-

reference-of-thought; and justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Immanence-function-conflatedness\textsuperscript{13} analytical implications equally arise as of the

This inherently projects a ‘practical picture of human epistemic determination’ of ‘maximal disseminative human epistemic articulations at relative uninstitutionalised-threshold’ and ‘minimum select human epistemic articulations at prospective institutionalisations’, and so as of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity transversally induced <amplituding/formative–epistemicity> causality ~as-to-projective-totalitative—implications-of-prospective—nonpresencing— executor-transcendence—sublimation/supererogatory—de-mentativity. In this regard and at the general epistemic level of reference-of-thought—devolving, we can appreciate the massively shrunk epistemic-veracity possibilities available for our present positivism credible construal of ontological-veridicality over the epistemic-veracity possibilities previously available for non-positivistic social-setups credible construal of ontological-veridicality as of their full existential cognition of superstition, witchcraft, spiritualism, etc., and their social implications; and this reflects the very fact that ‘intemporal ontological-faith—imbuement—underdetermination-of-motif—and-apriorising/axiomatising/referencing—as-so-being—of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference—conflatedness—as-to-totalitative-reification-in-singularisation—as-the—the-nondisjointedness/entailment—of—nonpresencing—as-veridical—epistemicity—relativism—determinism <amplituding/formative—epistemicity> causality ~as-to-projective—

Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity —of-the-human-institutionalisation-process which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to <amplituating/formative-epistemicity>causality ~as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong <amplituating/formative-epistemicity>causality ~as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient <amplituating/formative> wooden-language {imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology— as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications} epistemic impertinence. Prospective notional—deprocripticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness.
un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to non-presencing, for explicating ontological contiguity, such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality-of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation
and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity—conflatedness—in-[preconverging-disentailment-by]-postconverging-entailment totalising-entailing/nested-congruence or how these conflate as of prospective relative-ontological-completeness with existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-as-to-perspective-ontological-normalcy/postconvergence-implied-prospective-aporeticism-overcoming/unovercoming. Furthermore, the notional-deprocrypticism epistemic-veracity implies a further extension of deferential-formalisation-transference as of less predisposition to extended-informality amplituding/formative wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications}. entailment construction-of-the-Self is one that is de-mentatively/structurally/paradigmatically enframed in grasping the ‘notional dissonance/consonance of human superego and existence-potency’ ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression, as it construes of human-subpotency ~reference-of-thought given level of ontological-veridicality-commitment/aetiologisation/ontological-escalation/otherliness implications; and so as devolvingly thereof, construction-of-the-Self is the individual autonomous ecstatic/existential referencing/registering/decisioning, contemplating, responding, conceptualising, articulating, effecting and acting-out of its social ~meaningfulness-and-teleology~ as of the

mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics). Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its <amplituding/formative–epistemicity>totalising~self-referring-syncretising/circularity/interiorising/akrasiatic-drag ’, and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical [meaningfulness-and-teleology] implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity. Thus intemporal ontological-performance—<including-virtue-as-ontology> ever always warrants huma prospective relative-ontological-completeness—of-reference-of-thought for empowering and responsible [meaningfulness-and-teleology] for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with

as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing by writing 
that is not necessarily pedagogically instructive’, and thus not contradictory with Plato’s writing
as of recording-for-posterity) and Plato were more engaged with establishing overall philosophical insight beyond just their universalising-idealisation renewed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation over non-universalising sophistry (even as their association of anamnesis with mythical recollection was caught up in the universalising-idealisation apriorising/axiomatising/referencing—psychologism but by the practical demonstration is relevant in all registry-worldviews/dimensions as of the example articulated as well herein by this author with regards to a child’s solipsistic sense of meaning wherein after grasping the rules of additionality even a deliberately collective social misleading will not derail the child’s true sense of meaning) as they factored that any such renewal is being undertaken phronetically/practically with human limited-mentation-capacity that is not of absolutising conceptualisation, speaking prospectively of destructuring-threshold—(uninstitutionalised-threshold /presublimating—desublimating—decisionality)—of-ontological-performance —<including-virtue-as-ontology>, and thus what is more profoundly critical is knowledge-reification—gesturing—<in—prospective_psychologismic—apriorising/axiomatising/referencing—{of—attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity }—confuddledness—in—{preconverging-disentailment—by}—postconverging-entailment> as of the transepistemic implications of human limited-mentation-capacity-deepening. Aristotle as successor to their thought effectively had to move on to more fruitfully and complementarily elaborate phronetically/practically the implications of universalising-idealisation meaningfulness-and-teleology infrastructure as of science, practical-virtue, rationality, etc., rather than just theoretically reiterating his predecessors, and as such phronesis as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation is what induces attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity and thus allows prospective

there is comprehensive coherence in the philosophical articulations of the three thinkers when

insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue
in the sense that human knowledge-reification–gesturing\(<\text{in-
prospective_psychologismic–apriorising/axiomatising/referencing–of-attendant–ontological-

all domains without exception, is one of a dynamic complementary relationship between
implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity. Thus Socratic philosophy as of its very ‘anamnesis core implications’ doesn’t only supersedes prior non-universalising sophistry with universalising-idealisation but it can equally be said that it anticipates prospective positivism/rational-empiricism phronesis attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity as it reconceptualises science, practical-virtue, rationality, etc. in superseding universalising-idealisation phronesis attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity at the latter’s destructuring-threshold of-uninstitutionalised-threshold/presublimating–desublimating-decisionality-of-ontological-performance-including-virtue-as-ontology, as well as anticipate the overall human institutional process as herein conceptualised as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemicity-relativism-determinism-amplituding/formative–epistemicity-causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity of phronesis attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity. contradictory nihilistic disposition; with metaphoricity\(^{5}\) rather inducing prospective meaningfulness-and-teleology\(^{5}\) mostly as of prospective crossgenerational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{5}\) as of prospective notional–deprocripticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency\(^{5}\)–sublimating–nascence,-disclosed-from-prospective-epistemic-digression reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity\(^{14}\) anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural
course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—"meaningfulness-and-teleology". Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>—existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophisticies that confuse-and-disrupt—as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophisticies; especially when
these show no qualm in integrating the most ignoramus of wooden-language-\{imbued—averaging-of-thought-\langle as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology -as-of-'nondescript/ignorable–void '-with-regards-to-prospective-apriorising-implications\}\ dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation taking herein as of a strictly ontological-veracity inclination as to the reality of the fact that existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression supersedes human-subpotency, and it is the latter that adjusts to the former. projections of idealisation should be anticipatory-and-preemptive of the possibility of their
prospective ontological-fracturing, for efficient institutionalisation percolation-channelling—<in-
deferential-formalisation-transference>, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing of such idealisations with regards to their more profound transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications. In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporarily (in cognisance of human temporal-to-intemporal-individuation-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance-including-virtue-as-ontology is inherent, the underlying de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance-including-virtue-as-ontology in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of percolation-channelling-in-deferential-formalisation-transference doesn’t substitute for the amplituding/formative–epistemicity-totalising–renewing-realisation/re-perception/re-thought as of the underlying dimensionality-of-sublimating-supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation individuation disposition that of reasoning-through/messianic-reasoning brought about secondnatured institutionalisation. This points to a more comprehensive reality of human epistemic-veracity arising as of our \textit{totalising–thrownness-in-existence}\textsuperscript{3} with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability\textsuperscript{12} implications as of \textit{causality -as-to-projective-totalitative–implications-of-prospective-}
nonpresencing, for explicating-ontological-contiguity, in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology - in preconverging-existential-extrication-as-of-existing-unthought nonpresencing <perspective–ontological-normalcy/postconvergence> ricocheting that speaks of the de-mentative/structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or <amplituding/formative> wooden-language (imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications> ) presencing—absolutising-identitive-constitutedness mindset not dispensing-with-immediacy-for-prospective-ontological-completeness/contemplative-distension, and so in order to effectively put in perspective the deficiency of epistemic-veracity so-inherent when it comes to prospective metaphoricity implications of operant prospective intemporal individuation transversality <for-sublimating-existential-eventuating/denouement> ~of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ intemporal projection as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for reasoning-through/messianic-reasoning. Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21st century physics is
mostly as of ricochetting prospective nonpresencing-<perspective–ontological-

the right epistemic-veracity should provide the direct possibility for constructing its de-
mentative/structural/paradigmatic meaningfulness-and-teleology as knowledge, such that the
fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-
limits somewhere is ever always directly related to the fact that its epistemic-veracity has
equally thresholded/attained-its-limits, with the possibility for prospective breakthrough arising
as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any
domain-of-study can be construed as the history of its developing epistemic-veracity in
succession as ultimately constrained to <amplituding/formative–epistemicity>causality ~as-to-
projective-totalitative–implications-of-prospective- nonpresencing-,for-explicating-
Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective meaningfulness-and-teleology as knowledge on a vague notion of any presencing—absolutising-identitive-constitutedness epistemic-veracity that at the very least doesn’t rise to projectively contemplate and appraise of such prospective meaningfulness-and-teleology as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability. Thus metaphoricity as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-teleology as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology as say the commonality of such metaphoricity inclined re-originary–as-unenframed/unbeholdening/outlier-conceptualisation ⟨imbued-postconverging/dialectical-thinking -’projective-insights’/’epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation⟩ thinkers sharing a common emancipating metaphoricity mathesis/motif-thrownness-disposition like Socrates, Plato, Aristotle and their schools with their universalisation projection or the Descartes, Galileos, Copernicuses, Newton, etc. with budding-positivism/rational-empiricism. But rather beyond such shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology that is instigative, metaphoricity is critically about the prospective ricochetting postconverging–de-mentating/structuring/paradigming implications for inducing such prospective meaningfulness-and-teleology implications on the fabric of the social as an epistemic-totality framework (beyond-the-consciousness-awareness-teleology -＜in-preconverging-existential-extrication-as-of-existential-unthought＞), as the supposedly coherent ontological-commitment ＜implied—self-assuredness-of-ontological-good-

meaningfulness-and-teleology→, when it comes to assessing the possibility of prospective 
meaningfulness-and-teleology→ inducing of metaphoricity. It is not necessarily the case that 
a society that doesn’t or poorly appreciate the implication of science will value as of immediacy 
prospective Being-development/ontological-framework-expansion→as-to-depth-of-ontologising-
development-as-infrastructure-of–→meaningfulness-and-teleology→ like the cultivation of 
science over its conventioning-referencing as a cultural inclination or metaphysical 
predisposition or a creed; as we can appreciate the contrasting disposition towards the 
cultivation of science as in Europe and the Arabic world during the medieval period, or even
disparity in ontological progressiveness within the very same societies at various epochs. Thus
the assumption that any given society or period is absolutely turned/committed to prospective
Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of–meaningfulness-and-teleology including our modern
period, is a flawed appraisal; as in many ways, beyond our <amplituding/formative–
epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
perception, a closer look at institutional functioning easily points out the pre-eminence of
spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-
threshold as of the privileging of conventioning-referencing over purely prospective Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology, and in many ways this explains at the more
socially visible spectrum that is politics, the perceived political impotence today. This insight is
critical for appreciating the implication of the conception of futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism
metaphoricity in our positivism–procrypticism; as its brings to the self-consciousness the
reality that the implication of such a notional–deprocrypticism articulation is bordering on the
limits/thresholds of our institutional capacity for prospective Being-development/ontological-
meaningfulness-and-teleology as of a privileging of conventioning-referencing disposition
to adopt and assume intellectual nihilism at such an uninstitutionalised-threshold; it is herein
contended that the reality is similar to that which scuppered Arabic medieval science or
scuppered medieval China progressiveness. The ‘intemporal ontological-faith-notion-or–

entailment since it poorly deals with logocentrism implications as of prior relative-ontological-
incompleteness on ontological-veracity; as it construes of ‘logocentric habituated social
conditions’ as inherently ontological or beyond ontological treatment while failing to
countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent
‘logocentric habituated social conditions’ in enabling the ontological-contiguity—of-the-
human-institutionalisation-process\(^{[b]}\) as of Being-development/ontological-framework-
expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-
and-teleology\(^{[e]}\) right up to our present, and as of prospective transformative emancipating
possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}-of-ontological-performance-<including-virtue-as-ontology> nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity meaningfulness-and-teleology whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}-of-ontological-performance-<including-virtue-as-ontology> nature is effectively what underlies in ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction in disjointedness-as-
of reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms of axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness deprocrypticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding-positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness positivism, as a result of the failure of dispensing-with-immediacy–for-relative-ontological-completeness by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor, in-overcoming—notionally–collateralising–behind-protohumanity—to—attain-sublimating-humanity—as-to-existence–potency—sublimating–nascence, disclosed from prospective-epistemic-digression to supersede human temporality /shortness <amplituding/formative> wooden-language (imbued—averaging-of-thought <as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of—nondescript/ignorable–void —with-regards-to—prospective-apriorising-implications>); which will explain in many ways the difficulty of the Copernicuses, Galileos, Descartes’, Diderots, etc. so effectively enculturate their budding-positivism. With respect to deconstruction in this regard, it is herein contended that such a
Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrysticism prior relative-ontological-incompleteness\textsuperscript{8} human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness\textsuperscript{9} notional–deprocrysticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporality /longness and temporality /shortness as to human limited-mentation-capacity relative ontological-performance\textsuperscript{9}–<including-virtue-as-ontology>. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness\textsuperscript{9} notional–deprocrysticism that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-completeness\textsuperscript{9} notional–deprocrysticism herein construed as human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation–<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter's state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical
implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness /contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness\(^8\) positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is\(^{10}\) universally emancipating as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\(\langle\)uninstitutionalised-threshold /presublimating–desublimating-decisionality\rangle\)~of-ontological-performance\(^7\)-<including-virtue-as-ontology> nature inherently points out why human transcendence-and-sublimity/sublimation/supererogatory de-mentativity as of intemporal metaphoricity\(^7\) epistemic pertinence doesn’t lie with any inherent suprasocial framework or inherent \<amplituding/formative> wooden-language–{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of— meaningfulness-and-teleology—<as-of>‘nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications>\>

social-construct constructiveness-of-ontological-performance72-<including-virtue-as-ontology>,
as such an antiakrasiatic analysis of uninstitutionalised-threshold 92 notionally/epistemically
reflects the ontological-contiguity—of-the-human-institutionalisation-process 94; and so,
similarly as the analysis of prospective possibilities of disease and illness is not about being
pessimistic about the biology of human beings but is notionally/epistemically reflective of the
possibility for the further development and provision of medicine and healthcare, and just as the
projective analysis of lack of science and technology capacity is not about being pessimistic
about human technical development but is notionally/epistemically reflective of the possibility
for the further invention of technologies and scientific discoveries. We can appreciate here that
the very same epistemic/notional conceptualisation with respect to the human subject as with
natural subject-matters elicits in the former high emotional involvement whereas the latter as of
its direct <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–
implications-of-prospective- nonpresencing.–for-explicating-ontological-contiguity elicits
low emotional-involvement, but for the case where with regards to high and conflicting human
social-stake-contention-or-confliction even the natural domain is not immuned from high
emotional-involvement as with the climate change issue for instance. The point being made
here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that
human progress happens anyway, but then such naïve criticism only recounts the fact of human
progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance\textsuperscript{72}–<including-virtue-as-ontology> and as reflected at uninstitutionalised-threshold\textsuperscript{102}. As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance\textsuperscript{72}–<including-virtue-as-ontology> destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance\textsuperscript{72}–<including-virtue-as-ontology> and uninstitutionalised-threshold\textsuperscript{102}, and it is this difficult task of crossgenerational mobilisation that enables the prospective constructiveness-of-ontological-performance\textsuperscript{72}–<including-virtue-as-ontology> for human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology , institutional-development–as-to-social-function-development and living-development–as-to-personality-development. The implicated passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold\textsuperscript{72}–{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance\textsuperscript{72}–<including-virtue-as-ontology> need to be integrated into the very core of such seconndnatured formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity\(^{67}\) —of-the-human-institutionalisation-process\(^{68}\); such that prospective social-construct constructiveness-of-ontological-performance\(^{72}\) -<including-virtue-as-ontology> and institutionalisation is ever always a process of maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation to prospectively recapture the supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-
and accompanying sophistic/pedantic complexes. But from the intemporal-as-ontological teleologically-elevated projection reflected as from existence-potency~sublimating-nascence,-disclosed-from-prospective-epistemic-digression epistemic-or-notional~projective-perspective for aetiologisation/ontological-escalation such temporal-dispositions are rather unwarranted and irrelevant since such aetiologisation/ontological-escalation is rather geared towards the prospective relative-ontological-completeness implied social-stake-contention-or-confliction of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming and not the prior relative-ontological-incompleteness social-stake-contention-or-confliction in extricatory/temporal preconverging—de-mentating/structuring/paradigming; and candidly so to the extent that the intemporal-as-ontological dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor—in-overcoming—‘notionally—collateralising-beholdening-protohumanity’—to—‘attain:sublimating-humanity’—as-to-existence-potency—sublimating—nascence,—disclosed-from—prospective-epistemic—digression to supersede human temporality/shortness <amplituding/formative> wooden-language—{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications}>)} is not interpreted from a temporal existential-extricatory-as-of-existential-unthought perspective as ineptness warranting the furtherance of temporal-dispositions as of untransvaluated—temporal-intemporality inclination and accompanying sophistic/pedantic complexes as well as to the extent of entailing prospective relative-ontological-completeness. We can appreciate in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy
naïve human-subpotency epistemic-or-notional-projective-perspective inclined to perceive prior registry-worldviews/dimensions in their \(<\text{amplituding/formative-epistemicity}>\text{totalising/circumscribing/delineating preconverging/dementing –qualia-schema}\) in stigmatising terms—as-of-axiomatic-construct, the ontological-veracity from existence-potency—asublimating–nascence, disclosed-from-prospective-epistemic-digression epistemic-or-notional–projective-perspective is one that rather entails a forward-thinking appreciation that the possibility of all prospective relative-ontological-completeness as of postconverging-or-dialectical-thinking—asapriorising-psychologism reflected as of \(<\text{amplituding/formative-epistemicity}>\text{totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema}\) can only arise as of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibility of prior relative-ontological-incompleteness preconverging-or-dementing—asapriorising-psychologism reflected as of \(<\text{amplituding/formative-epistemicity}>\text{totalising/circumscribing/delineating preconverging/dementing –qualia-schema}\), and so whether from a retrospective, present or prospective perspective; speaking of the ‘miracle of the human mind malleable potential as of the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing’, and implying an obligation for any given registry-worldview/dimension to maximalise this human capacity for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–‘meaningfulness-and-teleology’ as of its growing self-consciousness and self-awareness. In fact, the notion of preconverging-or-dementing—asapriorising-psychologism as such speaks of the fact that the entire cross-section of humanity as of recurrent-utter-uninstitutionalisation is of a \(<\text{amplituding/formative-epistemicity}>\text{totalising/circumscribing/delineating preconverging/dementing –qualia-schema}\) with respect to prospective base-institutionalisation \(<\text{amplituding/formative–}

The fact is, even the said prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity emancipators across the <cumulating/recomposuring–attendant-ontological-contiguity>-successive registry-worldviews/dimensions in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity^67,—of-the-human-institutionalisation-process^68 are just as equally relatively enmeshed in many ways with their reference-of-thought old psychology ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing^20–qualia-schema’ like say Newton’s involvement with alchemy, and the idea of projecting to a prospective ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking –qualia-schema’ speaks of a first level of human uninhibitedness/decomplexification that is exactly what allows for human emancipation. This further shows how our seemingly objectified ^20 presencing—absolutising-identitive-constitutedness^1 positivism–procrypticism disposition is all-encompassing as of our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag when we construe of ourselves as ‘postconverging-or-dialectical-thinking^1–apriorising-psychologism as of in-the-absolute’ without projecting that just as prior generations of humans were both postconverging-or-dialectical-thinking^21–apriorising-psychologism as of their constructiveness-of-ontological-performance^22<-<including-virtue-as-ontology> reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking^1–qualia-schema’ at their relative-ontological-completeness^87 and preconverging-or-dementing^20–

Such questions with regards to how the humanities can be further developed as efficaciously as the natural sciences, how can philosophy be more socially potent, and on the social paradoxes of our suboptimum institutional-development–as-to-social-function-development and living-development–as-to-personality-development, more critically point to the ontological-veracity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity’—of-the-human-institutionalisation-process‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’ as of its implied intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation registry-worldviews/dimensions; and so critically by the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. In this regards, as applies with our positivism–procrypticism and so just as with any other prior relative-ontological-incompleteness registry-worldviews/dimensions wooden-language {imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ ignorable–void ’—with-regards-to-prospective-apriorising-implications} as of their ontologically-flawed identitive-constitutedness ‘as—‘epistemic-totality’‘—dereification-in-dissingularisation-sas—to-the-disjoinedness/disentailment-of—presenting—absolutising-identitive-constitutedness > as—flawed-epistemicity-relativism-determinism, there has
mentatively/structurally/paradigmatically as of a destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating–decisionality}–of-ontological-performance~ of intellectual emancipation, and so similar to the breakthrough that brought about budding-positivism/rational-empiricism as of say the reasoning-through/messianic-reasoning Galilean gesturing postconverging–de-mentating/structuring/paradigming based on the fact that looking in the telescope we can appreciate how the planets moved around the sun and as this budding-positivism/rational-empiricism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation was relayed by other budding-positivists, and so over the destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating–decisionality}–of-ontological-performance~<including-virtue-as-ontology> of traditional medieval no-trouble disposition to perceive and take comfort in traditional medieval-scholasticism reasoning-from-results/afterthought notional–pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} as if critical reification will arise by that pathway. In other words, the possibility of all huma prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of~incrementalism-in-relative-ontological-incompleteness—as–enframed-conceptualisation disposition but rather more concretely only after human decomplexing/uninhibiting de-mentative/structural/paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency~sublimating–nascence,–disclosed-from-prospective-epistemic-digression level for human emancipation as of ~maximalising-recomposuring-for-relative-ontological-
completeness—unenframed-conceptualisation; and this is effectively reflected in all cases of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Whether of low or high emotional-involvement, it is inevitably the case that the de-mentative/structural/paradigmatic possibility for prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity ever always and has ever always involved or been-grounded-on-prior ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ inducing the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring; as we can appreciate for instance that without the secondnatured institutionalisation arising as from the Galilean gesturing reasoning-through/messianic-reasoning highlighted above, there wouldn’t have been the human psychology reflected in the displacement/decentering-of-the-human-subject as of the resultant reasoning-from-results/afterthought later on in the 20th century to acquiesce to such breakthroughs like theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs with barely any social contestation. Thus psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, as of human de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) implied prospective postconverging-or-dialectical-thinking—apriorising-psychologism and prior preconverging-or-dementing—apriorising-psychologism, is merely a reflection of the fact that human meaningfulness-and-teleology is ever always as of the very same overall purview that is existence but then as of various state of human relative-ontological-incompleteness /relative-ontological-completeness—(sublimating—referencing/registering/decisioning,—as-self—

In all these instances, the sophists as of its preconverging-existential-extrication-as-of-existential-unthought with respect to social-stake-contention-or-confliction are ever always inclined to eliciting-of-immediacy-as-of-relative-ontological-incompleteness\textsuperscript{28}-dereification for \textsuperscript{amplituding/formative} wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of—'nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>\textsuperscript{88}} disposition, and when the outcome of reasoning-through/messianic-reasoning dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27}-by-reification/contemplative-distension\textsuperscript{27} accrue prospectively the sophists react as if ‘human progress occurs anyway’ as the idea of a human existential tale perpetuation and its implications is alien to the sophists since all that counts is the immediate now and its temporal/mortal social-stake-contention-or-confliction interests; and worst still, human limited-mentation-capacity in inducing prospectively relative-ontological-completeness\textsuperscript{27} as of the weaknesses associated in all human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is held by the sophists against any such reasoning-through/messianic-reasoning for transcendence-and-
sublimity/sublimation/supererogatory~de-mentativity. Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity\textsuperscript{17}—of-the-human-institutionalisation-process\textsuperscript{18} as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—\textsuperscript{19}meaningfulness-and-teleology’, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension\textsuperscript{27} which is ‘never always the easiest of notion’ for human \textit{amplituding/formative} wooden-language-{imbued—averaging-of-thought—\textit{as-to-leveling/ressentiment/closed-construct-of—} meaningfulness-and-teleology -as-of- ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> disposition, especially as this often always implies the displacement/decentering-of-the-human-subject, it is inevitably the case that such ideal as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-

In all such instances as was realised by universalising-idealisation philosophers Socrates/Plato/Aristotle as well as budding-positivists, the notion of dialogical-equivalence<as-to-psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }= confluencedness -in-{preconverging-disentailment–by}–postconverging-entailment,-in-self-

becoming/self-conflatedness /formative–supererogating>, as the latter notion only arises as of mutual apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in
relative-ontological-completeness\textsuperscript{87} as of the underlying registry-worldview/dimension reference-of-thought <amplituding/formative–epistemicity>totalising-devolved-apriorising-rule; as there can be no genuine contention between a \textsuperscript{15}universalising-idealisation mindset and a sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for the mere sake of preserving and avoiding the denaturing\textsuperscript{16} of the \textsuperscript{103}universalising-idealisation meaningfulness-and-teleology\textsuperscript{99} or positivising/rational-empiricism meaningfulness-and-teleology\textsuperscript{99}. This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-threshold\textsuperscript{12} arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretence of mutually objectifying intellecction between genuine intellectualism and sophistry, which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it essentially is; as with the \textsuperscript{103}universalising-idealisation philosophers not wasting their time in pretence of engaging the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled–syllogising mindset or the budding-positivists/rational-empiricists dismissing off-hand pedantic scholasticism. The habituated idea of dialogue/dialogical-equivalence<as-to-psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }— conflatedness -in-[preconverging-disentailment-by]–postconverging-entailment,-in-self-becoming/self-conflatedness /formative–supererogating\textsuperscript{8} arises as of the mental-reflex that ordinarily all meaningfulness-and-teleology\textsuperscript{99} as of a given registry-worldview/dimension is grounded on the same
sovereign representation or establishment constructs, and can easily be caught up in their own <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in prior relative-ontological-incompleteness with respect to social-stake-contention-or-confliction and are thus not the absolutising framework of human meaningfulness-and-teleology, as the social knowledge-reification–gesturing–<in-prospective_psychologicism–apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as of the possibility of its arising in any humans and in whatever specific purviews of existence, as this is what is instigative of ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’; as it is only by the latter process that the ‘suprasocial obsession/myopism as of a given registry-worldview/dimension social-stake-contention-or-confliction’ can be superseded, as of reconstruing recurrent-utter-uninstitutionalisation underpinning–suprasocial-construct rather as of base-institutionalisation, base-institutionalisation–ununiversalisation underpinning–suprasocial-construct rather as of universalisation, universalisation–non-positivism/medievalism underpinning–suprasocial-construct rather as of positivism, and prospectively positivism–procrypticism underpinning–suprasocial-construct rather as of deprocrypticism–or–preempting—disjointedness-as-of—reference-of-thought. We can appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective
underpinning–suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning–suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructures-of—meaningfulness-and-teleology’ induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’, is nothing but

<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag which obviously doesn’t register/is-unaccounted internally because (but from the existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notional~deprocrypticism perspective) de-mentatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its defective ontological-performance as it surreptitiously implies that it is absolute beyond-the-consciousness-awareness-teleology’. The fact is, it is this possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists putting into question their conventioning-referencing meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-
framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding-positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, that in many ways just as the manifestation of postlogism-slantedness associated with notions-and-accusations-of-
sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of-'nondescript/ignorable–void '—with-regards-to-prospective-apriorising-implications}> and underpinning-suprasocial-construct meaningfulness-and-teleology\(^9\) integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism—procrypticism is equally subject to our wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of-'nondescript/ignorable–void '—with-regards-to-prospective-apriorising-implications}> and underpinning-suprasocial-construct underlying disjointedness-as-of-reference-of-thought muddlement of social-stake-contention-or-confliction as of our uninstitutionalised-threshold\(^2\); and in both instances insightfully point to underlying reference-of-thought relative-ontological-incompleteness\(^8\) at destructuring-threshold\(^7\) {uninstitutionalised-threshold /presublimating–desublimating-decisionality}~of-ontological-performance\(^2\)~<including-virtue-as-ontology> which is the grander issue of aetiologisation/ontological-escalation as to the fact that fundamentally prospective positivism registry-worldview/dimension supersedes-and-deflates the vices-and-impediments\(^10\) of non-positivism as of animism or medievalism and thereof their devolving associated manifestations of non-positivism and specific superstitious nature as well as the idea that prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought supersedes-and-deflates the overall vices-and-impediments\(^15\) of our positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-reference-of-thought underlying the devolving social manifestation of psychopathy and social psychopathy. Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology points to the fundamental dialecticism of human meaningfulness-and-teleology; as to the fact that the human is that which is in totalising–thrownness-in-existence as of recurrent-utter-uninstitutionalisation totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by its reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument but then is warranted to ontologically-complete itself successively as of base-institutionalisation, universalisation, positivism and prospectively notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. The human then is what is warranted to reconstrue Rousseauian perfectibility out of its flawed constructiveness-of-ontological-performance as of its destructuring-threshold ⟨uninstitutionalised-threshold /presublimating–desublimating-decisionality⟩~of-ontological-performance, as it can’t pretend to avoid this purposefulness as it is, as of its any presencing—absolutising-identitive-constitutedness state, the outcome of such purposefulness as relayed with the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology’. This coherently explains the inevitability of human ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning prospective relative-ontological-completeness-of-reference-of-thought; as when the organic-knowledge avails it is much more than just an idea of choice but rather an
obligation as of the implied inherently antiakrasiatic disposition that can’t afford to overlook as if lacking the organic-knowledge for degrading into \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} in preconverging existential-extrication-as-of-existential-unthought. When the dialecticism of human \textit{meaningfulness-and-teleology} as of its prospective ontological-performance\textsuperscript{72}-\textit{<including-virtue-as-ontology>} implications as of virtue at constructiveness-of-ontological-performance\textsuperscript{77}-\textit{<including-virtue-as-ontology>} and vices-and-impediments\textsuperscript{105} at destructuring-threshold\textsuperscript{102}-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)-of-ontological-performance\textsuperscript{82}-\textit{<including-virtue-as-ontology>} shows itself to be definitely determinable and is no longer the bigger issue for prospective human emancipation but rather the bigger issue becoming one of human psychological cognisance and adjustment to any such prospective emancipating \textit{meaningfulness-and-teleology} as so-reflected across the \textit{<cumulating/recomposuring–attendant-ontological-contiguity>}-successive registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory-dementativity. The underlying difficulty of all such psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is all about how can a mindset adjusted as of its \textit{<amplituding/formative–epistemicity>totalising–thrownness-in-existence} as of its given \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument for construing \textit{meaningfulness-and-teleology} in \textit{<amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-’nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>} ever gets prodded into contemplating an opened-construct-of–\textit{meaningfulness-and-teleology} speaking supposedly of more ontologically profound prospective
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of meaningfulness-and-teleology as implied as of prior transcendence-and-sublimity/sublimation/supererogatory—de-mentativity from recurrent-utter-uninstitutionalisation to base-institutionalisation, etc. But then as all along the attendant-ontological-contiguity-successive registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, such a parrhesiastic exercise is ever always caught up between accommodating human temporality/shortness and existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression which knows of no such accommodation for human temporality, inevitably the existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression transcendental-enabling/sublimating/supererogatory—de-mentativity implications necessarily comes ahead of human temporality /shortness emotional convenience. human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-Self as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology implies ‘induced human potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (as the relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance-<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance’-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human-amplituding/formative–epistemicity totalising–thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory–de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipating possibilities, and then contend to make any given reasoning-from-
results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-

In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance-⟨including-virtue-as-ontology⟩ as of human amplituding/formative—epistemicity totalising—thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the underdevelopment of Being/ontological-framework-expansion or self-consciousness/construction-of-the-Self incapacity as of say insanity’, and not necessarily as of lack of new knowledge-construct or technical-development; in the sense that say a criminal that had gone uncaught before a new technical-development like DNA testing establishes their criminal responsibility as of human potentiation, cannot talk of natural determinism implications as a defence just as covert predispositions associated with vices-and-impediments as of ‘self-conscious drive’ cannot be qualified to be of natural determinism implications when unmasked. Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/ reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and
living’ in the non-positivistic social-setup as ‘grandest living’ but rather the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation ‘of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective. There is nothing inherently wrong with achievement motives across all registry-worldviews/dimensions conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. However, with regards to a prior registry-worldview’s/dimension’s wooden-language—\{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications\}\} denaturing of meaningfulness-and-teleology so construed prospectively, whether as of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism, such motives are necessarily superseded-and-overridden or subsumed-as-supplanted or transvaluated in the bigger picture of human eternalising aspiration as of the intemporal/longness-of-register-of—meaningfulness-and-teleology indivuation mental-disposition of ‘inventing’ the successive becoming possibilities in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as inducing successively base-institutionalisation, universalisation, rational-empiricism/positivism and prospectively deprocrypticism; as going by ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontolog- normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ across retrospective and by implication prospective registry-worldviews/dimensions. so-construed prospectively are rather more pertinent) in order to ‘invent’ base-institutionalisation–ununiversalisation, which contradictorily as well, as ‘biting the hand of such intemporal-disposition inventing’, should never have been transcended and overridden (as its human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview’s/dimension’s denaturing

In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of-reference-of-thought’–as-conflicatedness-or-
ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposuring) as from recurrent-utter-uninstitutionalisation to modern-day positivism–procrypticism and prospectively deprocrypticism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory preconverging–de-mentating/structuring/paradigming relationship with \( \text{meaningfulness-and-teleology} \) (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the wooden-language–(imbued–temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives–of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) as deterministic thus subknowledging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing–apriorising–psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism–imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’.

But then transcendental constructs of meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s
reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as transcendental meaningfulness-and-teleology involves psychical and institutional recomposuring of high contrariety implications to human temporality’s/shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as all knowledge is not about being responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity of an intersolipsistic nature. It is equally important to grasp that transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively notional–deprocrypticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior reference-of-thought–categorical-imperatives/axioms.registry-
teleology\textsuperscript{9} with the prospective one for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring)\textsuperscript{55}—maximising-recomposing-for-relative-ontological-completeness\textsuperscript{—}unenframed-conceptualisation\textsuperscript{<amplituding/formative–epistemicity>totalising~renewing–realisation/re-perception/re-thought, in contrast to a naïve\textsuperscript{88}incrementalism-in-relative-ontological-incompleteness\textsuperscript{—}enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/ naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking\textsuperscript{83}reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing-{of-attendant ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity }—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The point here is to highlight that where
the need for ‘reappraisal of reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding-as-of-apriorising/axiomatising/referencing to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as ‘reappraisals of references-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness-of-reference-of-thought. Hence it is rather ontological-completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of retrospective registry-worldviews/dimensions reference-of-thought but equally with the implication of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity for prospective registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-normalcy/postconvergernce. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-
perversion-of- reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency→(transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ) hence speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived- perversion-of- reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought>. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrypticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the
social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory preconverging–de-mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity<br>
<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective- nonpresencing.–for-explicating-ontological-contiguity induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemporality-asymmetric-subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in notional–deprocrypticism apriorising/axiomatising/referencing–of-attendant–ontological-contiguity educed–existentialising/contextualising/textualising-contiguity conflatedness in {preconverging-disentailment-by}–postconverging-entailment and so over procrypticism disjointedness-as-of–reference-of-thought denaturing and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing. Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is
very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional-firstnatedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>'—existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation apriorising/axiomatising/referencing-of-attendant–ontological-contiguity educed–existentialising/contextualising/textualising-contiguity conflatedness in {preconverging-disentailment–by}–postconverging-entailment directed to the bigger and subsuming issue of relative-ontological-incompleteness of-reference-of-thought for inducing notional–deprocrypticism over procrypticism or positivism over non-positivism/medievalism respectively that harkens back to undermine in a decisive and nonextricatory and non-palliative manner the associated postlogism. apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity educed–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment–by}–postconverging-entailment as such implies an utter shift as the curve-of-prospective-relative-ontological-completeness of-reference-of-thought thus superseding the curve-of-prior-relative-ontological-incompleteness of-reference-of-thought now being construed as preconverging-or-dementing-and-decentered-prior-institutionalisation’s–

Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or-existential–defect (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring–purpose (flaw logical-processssing/act-execution-implicitation meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not defective (thus appropriateness-of-reference-of-thought-as-of-conflatedness). This point to the ad-hoc nature of lying deception wherein there is nothing inherent that precludes subsequent appropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation meaningfulness where the contextual-ambiguity-constraint(s) are resolved. This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ \textsuperscript{as against an ‘integrative-mental-alignment-or-prelogism’}} (the latter being the normal reflex by which the normal prelogism\textsuperscript{as-of-conviction,-in-profound-supererogation\textsuperscript{<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes–disontologising-logical-outcome-arrived-at>}} mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising–psychologism\textsuperscript{with respect to meaningfulness}}. Paradoxically, this is the fundamental strength of psychopathy, i.e. to get the normal prelogism\textsuperscript{as-of-conviction,-in-profound-supererogation\textsuperscript{<existentially-veridical–‘attendant-intradimensional→}}

Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising–reference-of-thought-elements/apriorising–registry-elements, and thus falsely implying the apriorising–reference-of-thought-elements/apriorising–registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{99} as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge\textsuperscript{43} arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity–of-reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity–of-reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought–(reflected-as-soundness-or-ontological-good-faith/authenticity–of-reference-of-thought). But with the phenomenon of
psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the
‘deliriousness/delirious-effect/cinglé-effect’ of the implied-reference-of-thought/implied-
registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, 
presumptuousness-or-arrogation, assumptions, value-reference and teleology is rather obvious 
and we don’t normally process/operate logically the childhood psychopathy’s non-veridical 
hollow mimicking narratives since ‘we just invalidate those apriorising–registry-elements to 
start with as not of being/ontological/existential veridicality’. For instance in the case above, 
where John were to witness Dad punish his sister Mary for spilling water on a chair, and by 
‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-
and-vague-vocalisation-or-subknowledging of meaning’ (meaning-by-the-mere-illlogical-
possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt 
some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, 
having an ‘attendant-ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity’ sense/projection of meaning’ doesn’t 
even dare to operate/process the logic articulated by John (a logic which in-of-itself while 
utterly sound technically, but is actually irrelevant in the given context by its fundamental 
logical-undueness’ as of its unsound-reference-of-thought/unsoundness-or-ontological-bad-
faith/inauthenticity of reference-of-thought/mental-perversion) as he simply engages his

escalation or aetiologisation as ‘metaphorical principle for an infinity/a-million-and-one-

meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding of
the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic
as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath
were to meet a stranger and spoke to him about another stranger whom it knows nothing about,
saying logically that it is a bad thing for this guy to be molesting children, etc. The logical
operation is entirely right and sound in abstract terms but does the apriorising–registry
(reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge
is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing
of the elements of the apriorising–registry as of reference-of-thought–categorical-
imperatives/axioms/registry-teleology which are: implied–logical-dueness-or-implied-scape
(the implied–logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know
the guy), implied-profile (the psychopath is projecting a false representation of itself and the
situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to
talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the
psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist),
implied-value-reference (the psychopath’s elicitation of a sense of value reference in the
interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation
of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought, i.e. slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing-of-narratives! So with the psychopath, you don’t watch the logic, you watch out for the reference-of-thought/apriorising-registry for mental-perversion or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought! Not only that, it is important to note that this unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought as perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation do protract and an ignorant prelogism as-of-conviction,-in-profound-supererogation <existentially-veridical-attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind acting in prelogism -as-of-conviction,-in-profound-supererogation <existentially-veridical-attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> on such postlogism -as-of- compelling–nonconviction/madeupness/bottomlining<(decontextualising/de-existentialising-of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-contextualising/existentialising-attendant-ontological-contiguity >;in-shallow-supererogation <as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–

However, the natural level of human interlocution engagement ‘is not the enlightenment of the retracing of an interlocutor’s sets-of-narratives’ (as this could vary anywhere from say a few days or weeks to years of supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism engagement, for such an insight to arise), but rather as of ‘specific singular circumstantial narrative of interlocution without a comprehensive attendant ontological-contiguity -duced-existentialising/contextualising/textualising-contiguity\( ^{1} \)-<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context> projection’ by which interlocutors deduce circumstantially. Thus the
postlogism\textsuperscript{7}-and-conjugated-postlogism\textsuperscript{7} habit of producing sets-of-narratives (which collective retracing reveals their unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{7}-of-reference-of-thought and perversion-and-derived-perversion-of-reference-of-thought-\textas-\text{preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation }\text{from attendant-ontological-contiguity\textsuperscript{6}-educed-existentialising/contextualising/textualising-contiguity\textsuperscript{4}}\text{reifying-or-elucidating-of-prospective-relative-ontological-completeness -of-reference-of-thought-devolving-as-of-instantiative-context} insight, but singularly out of \text{attendant-ontological-contiguity\textsuperscript{6}-educed-existentialising/contextualising/textualising-contiguity\textsuperscript{4}}\text{reifying-or-elucidating-of-prospective-relative-ontological-completeness -of-reference-of-thought-devolving-as-of-instantiative-context} are apparently of soundness-or-ontological-good-faith/authenticity\textsuperscript{7}-of-reference-of-thought) come to be endemised and enculturated socially, as of \text{least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold}. Further, this ‘natural level of human interlocution engagement is a perpetuation’ explaining why the conjugated-postlogism\textsuperscript{7} mental-disposition is one of ‘slanted-cohering/conjoining’ as it rather further integratively rationalises the latest iterated narrative as an elucidation rather than a further preconverging-ordementing–apriorising-psychologism of adult psychopath/postlogism\textsuperscript{7} (as obvious with the child psychopathy ‘delirium effect’ as it slants and re-slants on the initial slanting in an absolving-logic/fleeting-logic/escaping-logic reflex); and, the falsely projected \text{reference-of-thought implied-elements of logical-dueness-or-implied-scape/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology\textsuperscript{5}}, create a new foundation for further preconverging-ordementing\textsuperscript{5}–apriorising-psychologism when wrongly eliciting in an interlocutor \textsuperscript{5}logical-
processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-
supererogation issue, such that one salient manifestation of conjugated-postlogism arises
with many of such an interlocutor vaguely articulating propositions based on such falsely
‘apriorising–reference-of-thought-elements/apriorising-registry-elements (out of attendant-
ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity
<reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-
thought–devolving-as-of-instantiative-context8)’. The idea that the ‘natural level of human
interlocution engagement is a perpetuation’ can be understood insightfully with respect to a
non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism
reference-of-thought terms when invalidated positivistic terms doesn’t imply that such
interlocutors will instantly dramatically change their reference-of-thought into the positivistic
terms with their successive contentions (due to <amplituding/formative–epistemicity>
totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag1),
as their reference-of-thought remains rather in non-positivism/medievalism
circularity/recurrence/repetition/repeatability0, and in the big picture in all likelihood can only
be ‘weaned from’ crossgenerationally as of psychoanalytic-unshackling/memetic-
reordering/institutional-recomposing. Likewise the ‘natural basis of human interlocutory
engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy
with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the-
reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness8—
enframed-conceptualisation-inducing-the-uninstitutionalised-threshold12–{as-procrypticism}’,
thus equally implying a <amplituding/formative–epistemicity>totalising~self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag17
circularity/recurrence/repetition/repeatability0 of the reference-of-thought as of the
uninstitutionalised-threshold02 or procrypticism–or–disjointedness-as-of-reference-of-
thought. Thus the central notion for preempting psychopathic postlogism and conjugated-postlogism is the ‘retracing of their sets-of-narratives as of attendant–ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—<reifying-or-elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context>’. That revealing unsoundness-or-ontological-bad-faith/inauthenticity—of—reference-of-thought of the traces of sets-of-narratives is analogous to resolving a list of BODMAS equations where the solution of the first equation is a variable of the second equation and whose solution is a variable of the third equation whose solution is a variable of the fourth; and where the first equation is fundamentally flawed (as of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument flaw, for instance), systematically the three other equations will be wrong whether by (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) mental-disposition to resolve the equation of the traditional arithmetic principles as ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation without factoring that such ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’ are only as pertinent (not by habit or tradition or expediency) but as of when they are truly for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation or ontological-normalcy/postconvergence to then articulate the necessary ‘imbricatedness/threadedness/recomposuring as of attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity’—<reifying-or-elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context> as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of—apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-

This is most apparent with childhood psychopathy as with the dereifying example of spilling water on a chair where it is directly obvious there is no elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity-educed—existentialising/contextualising/textualising-contiguity to be had/entertained nor any logical analysis but rather ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation invalidating that the implied—logical-dueness-or-implied-scape of the child psychopath who deliberately in a ‘dereifying act’ spills water on the chair to accuse another even exists, its implied-profile is ridiculous, just as its implied-presumptuousness-or-implied-arrogation, its implied-assumptions, its implied-value-reference and its implied-teleology (or sense-of-purpose), and such an approach will equally extend with regards to social psychopathy where by ignorance at best or ‘other cynical temporal manifestations as of conjugating affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation’ an interlocutor was to falsely imply the need for logical analysis in
order to falsely validate the foundational faulty-mentation-procedure-deception-or-urge of the
<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought-devolving-as-of-instantiative-context>’). This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING as of compulsive-slanting—preconverging-or-dementing—apriorising is actually about ‘denaturing postlogic-backtracking-<iterative-looping-’set-of-dereifying-hollow-narratives-and-acts’>—with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendent-al-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge’ (entitlement folie/folie raisonnable) as opposed to a logical motivation of a supplanting-conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’
postconverging/dialectical-thinking—apriorising-psychologism or prelogic mental-disposition. It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the normal process of prelogism—<existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> logical articulation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–
apriorising/axiomatising/referencing’-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation or-prelogism basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation or-prelogism basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if this latter narrative is proven to be false (as it is another perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge not being the logic itself, but in wrongly implying as existentially real the ‘apriorising—reference-of-thought-elements/apriorising–registry-elements (out of attendant ontological-contiguity -educated—existentialising/contextualising/textualising-contiguity -reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on
such false axioms. Thus, with respect to postlogism generally what is critical for the psychopath/postlogic-mindset is to be seen as being prelogic supplanting–conviction-as-to-profound-supererogation–of–attendant-intradimensional–postconverging/dialectical-thinking–apriorising-psychologism even if it is a perception of ‘poor or bad supplanting–conviction-as-to-profound-supererogation–of–attendant-intradimensional’

supererogation\textsuperscript{96}-or-prelogism\textsuperscript{78}-basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-profound-supererogation\textsuperscript{96} to or prelogism\textsuperscript{78}, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts\textsuperscript{76} as absolving/fleeting/escaping-reflex–logic among different set-of-interlocutors (this is simply because postlogism\textsuperscript{77} in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness’ unlike postlogism\textsuperscript{77} as prelogism\textsuperscript{78} which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism\textsuperscript{77} in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (which is an unusual and rare social experience given that a psychopathic personality and postlogism\textsuperscript{77} in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation are an outlying phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the postlogism\textsuperscript{77} in hollow-

reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > mechanism (it isn’t
necessarily completed in all manifestations as is rather a ‘mental roaming/drifting-cycle
disposition known as postlogism”-retreating’ that carries on depending on how the situation
permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then
narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor
(pri-individuation) as well as any other person or notion the interlocutor holds in high esteem,
which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking
narratives about the psychopath’s ‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic-attribution. Passive or suggestive alienation as such with corresponding ‘temporal-dispositions miscuing’ which is ‘misconstrued as intrinsic ontological depth-of-conviction-as-to-profound-supererogation’. The underlying reason for the entirety of this mental process in the psychopath has to do with its ‘mere-formulaic constrained/unconstrained perception and relation to meaningfulness-and-teleology’ (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging faulty-mentation-procedure-deception/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) which poorly perceives ‘supplanting-conviction-as-to-profound-supererogation —of-’ attendant-
‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as an ignorant of psychopathic postlogism in hollow-constituting to which the interlocutor aligns prelogically and then miscues, and then secondly (in addition), as ‘committed-by-temporality/interest over intrinsic-veridicality’ whether in the form of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that this psychopathic manifestation process can be mimicked in the context of social psychopathy, and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing –apriorising-psychologism’. Over a given or extended period the underlying effect sought by the psychopath might stick, especially where the social target, interlocutors and others are utterly unaware of the mental state of the psychopath, and so evolving more like a social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or deliberate/disingenuous, adherence as if veridical to the slanted and hollow mimicking narratives of the psychopath with the corresponding persion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or mental-perversion in the social context). It is important to see that such social-discomfiture is in reality not a veridical logical ‘contention’ but in veridicality/ontologically a ‘protracted manifestation’ of notional~procrypticism/notional-disjointedness-as-of-reference-of-thought as to underlying registry-worldview/dimension uninstitutionalised-threshold persion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-

Paradoxically, the normal prelogism\textsuperscript{78}–as-of-conviction,-in-profound-supererogation\textsuperscript{96}<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at\textsuperscript{8} mind is so attached by supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex to the notion of the essence of supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism meaning (as it is not priorly inclined to put into question narratives but rather to quickly operate/process logic to arrive at outcome while ‘trusting’ that the other is also prelogism\textsuperscript{78}–as-of-conviction,-in-profound-supererogation\textsuperscript{96}<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at\textsuperscript{8} in their apriorising–registry, and so because psychopathy is a relatively outlying phenomenon thus the natural human personality development doesn’t take it much into account in the bigger scheme of things, i.e. it will be ‘a waste of too much mental energy’ to be verifying in detail the apriorising–registry implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{99} of every interlocutor, so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and
appearance”; but such a scheme is strictly speaking ontologically incomplete and underminable but it is standard as it ‘saves mental energy and time’, hence it is the strongest factor for the social prevalence of psychopathy and its social psychopathy corollary, and by extension all postlogism\(^77\)/perverted-as-disontologising-outcome-sought-precedes–logical-dueness across all registry-worldviews/dimensions); that it will find it hard to articulate or for that matter not believe the comprehensiveness and extent by which the psychopath can produce non-veridical hollow mimicking narratives towards its end purpose, particularly as it is a rather social outlying phenomenon and hence not usually integrated in many an individual’s conceptualisation of social relations and phenomena. That’s why the manifestation of ‘poor or bad supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism’, contrasted to the psychopath’s \(^{11}\) compulsing–nonconviction/madeupness/bottomlining-⟨‘decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing⟩-induced-disontologising’-of-the–‘attendant-intradimensional–ontologising’–imbued-

a consciously active manner the empty forms of prosody in-of-themselves first and over the intrinsic attributive essence of meaning like overemphasising the toning form (toning triggering) and the supposition form (presumptuousness) in their expressed deductive reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised spontaneously when naturally expressing profound/deep conviction; thus naturally the psychopathic mindset/ reference-of-thought has an unusually large repertoire of ‘sense of meaningfulness associated with empty forms of prosody’ since it artificially perceives them as more critical than the supplanting–conviction-as-to-profound-supererogation —of–attendant–intradimensional’–postconverging/dialectical-thinking —apriorising-psychologism mind’s intrinsic meaningfulness the forms of prosody are latently associated with. The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-elaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging ). In fact, it is often the case that such line of rather ‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism in their ‘conjoining looping narratives of flawed-existential-elevation-of–reference-of-thought’ (pointing to vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging ), and can be an advanced insight of a ‘psychopathic/postlogic and social psychopathic/conjugated-postlogism situation’, construable with an appropriate maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. In fact, the psychopath’s faulty-mentation-procedure-deception-or-urge\textsuperscript{7} occurs because of overthinking (elevating its perverted registry/mimicking-subknowledging\textsuperscript{24} to wrongly contend with it) rather than underthinking downgrading the \textsuperscript{7} perversion-of-\textsuperscript{1} reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \textsuperscript{8} and not contending with it, just as is naturally done with a ‘childhood cinglé’ who is not yet surreptitious and the delirium is rather obvious. psychologism—or—mimicking—or—subknowledging, when this is not socially universally
transparent (at un institutionalised—threshold). Further, the element of the need to be socially—
functional—and—accordant first, implies that psychopathy is ‘more than just the drive of a
pathological individual’ but inevitably psychopathy and correspondingly social psychopathy
involves a ‘social split-dynamism’ wherein the ‘unordinary eliciting’ of temporal interest
among some as extrinsic—attribute (praising, endearing, owing a favour, gifting, assisting,
being friendly towards, etc.) is the basis for the targeting of another or others, further
compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or
less effectively most of our formal setups, their sociological pertinence is actually far from
established, but for the fact that broad and large general education diminishes social
egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the
more common mental-disposition in the extended-informality—{susceptible—to—effecting—

including the ‘informal spaces’ of formal setups, with the result that this is a further factor that
makes psychopathy poorly graspable as simply of individual denaturing dynamics rather than
of social denaturing dynamics, thus better construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level of individuals intuition about the underlying dynamism of the postlogism -as-of-compulsing-nonconviction/madeupness/bottomlining.(‘<decontextualising/de-existentialising-of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising/existentialising–attendant-ontological-contiguity >;-in-shallow-supererogation -<as-to-disontologising–perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>\) mental-disposition (going by experience), and then their sense of abstraction or gullibility or disposition to bandwagon effect with respect to a critical aetiologisation/ontological-escalation. (The implication here is that, for instance, it will be very naïve for an investigation involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors). Hence, the above phenomenon is further compounded in increasing profoundness (i.e. where the psychopath’s childhood delirium gives way to an adulthood mental articulation which is diffused/with-hardly-any-social\[10\]universal-transparency\[10\](transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness \})-but-rather-select-transparency-to-some about the nature of the psychopath’s veridical mental state) when the ‘temporal prelogism\[7\]-as-of-conviction,-in-profound-supererogation \}<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> interlocutor’, by the mechanism of ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ at the point of lack

There is equally a social dynamism aspect wherein the issue of ‘social allegiance, affordability and initial prelogism ‘as-of-conviction, in-profound-supererogation ‘<existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> alignment to psychopath-and/or-the-protracted-postlogism’ ” comes to override the issue of ‘intrinsic rightness’ leading to what is known as ‘social-chainism or negative-social-aggregation or social-discomfiture’ which in turn (because
individuals find ‘apparent social success and conventioning/social-temporal-thresholding’ in such social behaviour) leads to the ‘temporal endemisation/enculturation of social psychopathy’. The underlying mental-disposition of the psychopath as postlogic and the temporal prelogic/conviction-as-to-profound-supererogation minds pedestals that endemise/enculturate this process thus becoming conjugated-postlogism, is known as ‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution) thus reflecting their threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation</s-as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising–psychologism>. Ontologically, this requires an altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of such a-comprehensive-social-temporal-hodgepodge which is rather ontologically-discontinuous. This author qualifies as procrypticism preconverging-or-dementing–apriorising-psychologism, and so as ‘ONTOLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emanant template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding-as-of-apriorising/axiomatising/referencing slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting—preconverging-or-dementing–apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting–as–
disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-’set-of-dereifying-hollow-narratives-and-acts’>-absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical–’attendant-inradimensional–apriorising/axiomatising/referencing’-logical-dueness, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging ’) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge’ for postlogic slantedness’ in a given social space during its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-urge’ for postlogic slantedness to attain an apparent normal social equilibrium or socially-functional-and-accordant state within any given social space as it develops into adulthood’. It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting–conviction-as-to-profound-supererogation —of–’attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity of-reference-of-thought/slantedness become harder to perceive); - INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner); - SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound); - CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-
to-profound-supererogation—is-of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting—conviction-as-to-profound-supererogation—is-of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing—apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-dementing—apriorising, etc. oince it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding—<as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality—is-asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—is-de-mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism-slantedness is not socially-universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation or threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to-‘attendant-intradimensional’—prospectively—

So basically, as social-and-confliction-stakes develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.) generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of ‘socially-perceived-value as of social-stake-contention-or-confliction’ context and time might play a role in making its social consequences benign or aggravated. But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake–
contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising–registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex–logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-mentation-procedure-deception-or-urge points to the fact that the slanted child psychopathy mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity–<reifying-or-elucidating-of-prospective-relative-ontological-completeness–of-reference-of-thought-devolving-as-of-instantiative-context>, which is what validates logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), in the formation of a basic and normal supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism of prelogism—as-of-conviction,—in-profound-supererogation—<existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’ mindset/ reference-of-thought’ inducing rather a postlogic compulsing—nonconviction/madeupness/bottomlining—{‘<decontextualising/de-existentialising—of—attendant—

—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism mindset/ reference-of-thought will project its own mental-disposition unwittingly upon the psychopath (in the case of adult psychopathy but not in the instance of childhood psychopathy where the latter’s deliriousness/delirious-effect/cinglé-effect is often obvious due to lack of maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of—social-stake-contention-or-confliction), and paradoxically then wrongly validate the psychopath as prelogic supplanting—conviction-as-to-profound-supererogation

However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality/shortness (when there is no social universal-transparency
—{transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising~in-relative-ontological-completeness } of our acts at ‘uninstitutionalised-threshold’ thus there is not ‘intemporal social universal-transparency
ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality' derived from the
psychopath’s initiated postlogism in hollow-constituting<as-disjointed-misappropriation-of-
meaningfulness-and-failing-intemporal-preservation>). That is, abstractly, with respect to
'socially-perceived-value as of social-stake-contention-or-confliction' humans do
solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold’
from the temporal-dispositions of slantedness (the psychopath),
ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor
solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome
with institutionalisation/intemporalisation and formalisations with corresponding internalisation
of values or secondnaturing. However, at circumstances where the
institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the
‘extended-informality—(susceptible-to-effecting-parsimony-as-of-shoddiness-and-
incompleteness-to—meaningfulness-and-teleology ), then ‘a induced-ring-of-gyges-
effect/solipsistic—point-of-temporal-thresholding/point-of-ontological-faith-notion-or-
on-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ will elicit the
‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when
‘successful’ (and not perceived deliriously but rather wrongly integrated prelogicly/in-
conviction-as-to-profound-supererogation ) will often perfectly elicit an ‘induced-ring-of-
gyges-effect/solipsistic—point-of-temporal-thresholding/point-of-ontological-faith-notion-or-
on-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ dynamism’ in the
social-construct such that others will find it to their temporal self-interest to perpetuate, whether
circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the psychopath’s initiated postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (involving protracted/derived slantedness), in the absence of social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (at the point of such lack of social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness⟩ of its postlogism -slantedness to many a supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism interlocutor as the ‘uninstitutionalised-threshold’). Hence psychopathy when studied dynamically is rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology) or temporal (shortness-of-register-of–meaningfulness-and-teleology), hence its relation to sociopathy which is a more generalised notion of social vices-and-impediments. The social psychopathy phenomenon (in describing the underlying abstract nature of man before institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and universal projection rules in an ‘ontological entrapment’ exercise to
undermine/override temporal-dispositions subknowledging/mimicking, by virtue of its causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity and overall medium to long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of human transcendence-and-sublimity/sublimation/superrigorous—dementativity/civilisation, in an intemporal-preservation-entropy-or-contiguity—or—ontological-preservation exercise, from a recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge—preconverging—dementing as-if-of-sound-knowledge)/pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the future institutionalisation/intemporalisation this author qualifies as notional—deprocrypticism (preempting procrypticism, so construed by ‘notional—deprocrypticism ontologically-perspectival-elevated/pedestaling—as-postconverging—or—dialectical-thinking—differentiation-as-of-supratransversality—in-sublimating—existential—eventuating/denouement—of-motif—and—anapriorising/axiomatising/referencing’). That is, psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought—as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-superrigation’ (as prior intemporal reference-of-thought—categorical-imperatives/axioms/registry-teleology) of the various institutionalisation/intemporalisation levels (vague-rhyming—or—copied-mimicry—or—formulaic—projection—or—projection-of-form—or—hollow-and—vague—vocalisation—or—subknowledging of the reference-of-thought—categorical-imperatives/axioms/registry-teleology behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity—or—ontological-preservation re-
institutionalisation of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology). To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ as from ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology are ‘inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging' /mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders categorical-imperatives/registry/axioms-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation null and void, calling for the overcoming of the slantedness/decandoring/distractive-alignment-to reference-of-thought-<of-apriorising/axiomatising/referencing> of mental-devising-representation and the articulation of new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reflecting intrinsic reality. These registry-worldview/dimension perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > include:
eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’>⟩ as articulated above gives coherence in conceptualising a continuity in the human emanant/becoming anthropological experience; as putting into perspective and not excepting any particular stage of institutionalisation/intemporalisation, as we might tend to do by focussing on the present positive registry-worldview which is just the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity — of the human-institutionalisation-process, while ignoring the ‘effective and causative intemporal-disposition behind the institutional-cumulation/institutional-recomposure—⟩as-to—historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’>⟩ transcendental/psychoanalytic-unshackling process’, which skews (‘intemporal—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) ‘the cross-section of human entropic being’ in the medium to long run towards intemporal-disposition preservation while undermining temporal-dispositions. Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojecting/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is
applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-recomposuring-(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>)’ with us being inherently exceptional (it is the transcendental/psychoanalytic-unshackling process of undermining perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> that is). Hence ‘our homework’ is to articulate our very own perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> for the possibilities of the future, and not strive to arrive at a normalcy of ‘our temporal-preservation-as-pseudointemporality-preservation’ which speaks of inherent relative-ontological-incompleteness-induced,-‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism’>, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>,-or-temporal-preservation-as-pseudointemporality-preservation, with respect to ontological-normalcy/postconvergence as we get at our ‘uninstitutionalised-
threshold \(10^2\); instead enabling ‘intemporal preservation’ (by oblongating/decandoring/distractive-alignment-to-\(^{10}\) reference-of-thought-<of-
apriorising/axiomatising/referencing>\(^{10}\) of our mental-devising-representation as a registry-worldview defect/perversion of positivistic categorical-imperatives/axioms known as procrypticism preconverging-or-dementing –apriorising-psychologism, for a prospective anticipation and preemption of this known as ‘deprocrypticism’)! It should be noted that while ‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process of human institutional transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (with respect to intemporal-preservation-entropy-or-contiguity-or-ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and \(^{10}\) universalisation for positivism are recomposured peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and \(^{10}\) universalisation, and so too, the constituent institutionalisation recomposured in \(^{10}\) universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, \(^{10}\) universalisation and positivism recomposured into notional–deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, \(^{10}\) universalisation and positivism. This speaks of snowballing/expansive recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the
underlying basic principles go on to induce the complexity of man from simple amoebic cells.

Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure-{as-to-

This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure-{as-to-}

historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'> analysis) is not, as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous \(^6\) meaningfulness-and-teleology\(^9\) reference’ (given the contiguity in the ‘precedingness/supersedingness/ascendancy-and-continuity of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation referencing’ across all cumulating/recomposuring institutionalisations); i.e. memetic contiguity as the underlying principle of memetic-reordering which is the ‘contiguous dynamism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the continuous transdimensional/transcendental relation of intemporal and temporal-dispositions’ at uninstitutionalised-threshold\(^10\), and so, across all cumulating/recomposuring institutionalisations whether from a retrospective, present or prospective perspective. Psychoanalytic-unshackling/memetic-reordering/institutional-recomposing process can then be defined as arising when a registry-worldview’s/dimension’s {cumulated/recomposed}-consciousness-awareness-teleology\(^1\) is transcended/superseded as to human limited-mentation-capacity-deepening\(^1\), at its uninstitutionalised-threshold\(^10\) involving-organic-comprehension-thinking in contrast with threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^1\)-<as-to–‘attendant–

This brings up the notion that while candoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation, this is just a mental-devising-representation for implying intemporality-of-thought without which meaningfulness is not functional in the registry-worldview’s/dimension’s (cumulated/recomposed)-consciousness-awareness-teleology, but then at that same prior registry-worldview’s/dimension’s uninstitutionalised-threshold, transcendence-and-sublimity/sublimation/superneglect/dementativity into a prospective registry-worldview’s/dimension’s (cumulated/recomposured)-consciousness-awareness-teleology put into question this candoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-teleology is then represented as preconverging-or-dementing apriorising-psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as

This equally explains why uninstitutionalised-threshold equally carried a complex about their registry-worldview/dimension and these complexes certainly sound unintelligible to us given our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure-process. With rational-realism (deprocrypticism), institutionalisation/intemporalisation raises the issue of notional-discontiguity/epistemic-discontiguity-shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema (undisambiguation as notional-firstnaturedness—temporal-to-intemporal-dispositions-are wrongly given the same elevation), and relevantly so at the procrypticism—or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold. The very specific nature of the deprocryptic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued

As a corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of notional–deprocrypticism institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency ↔ {transparency-of-totalising-entailing,-as-to-entailing-

So because knowledge-notionalisation recognises that in a specie of notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuation dispositions, deferential-formalisation-transference which is the bases for institutionalisation/intemporalisation by skewing (‘intemporal’-asymmetric-subsumption-of-temporality”‘, for relative intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/supererogatory-de-mentativity) for the supersedingness/lead of the intemporal-disposition individuation is responsible for elevating human uninstitutionalised-threshold\textsuperscript{02} across the successive institutional-cumulation/institutional-recomposure-{(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>\}) by the resultant formalisation and internalisation involved in institutionalisation explaining effectively the dialectical evolution from deeper primitivites/mental-out-of-phasings to the present state (limited-and-shallower-human-mentation-capacity to limited-but-deeper-human-mentation-capacity) as a result of the inherent ‘intemporal-prioritisation-of-\textsuperscript{-}reference-of-thought’–as-conflatedness -or-ontological-reprojecting skewing (‘intemporal\textsuperscript{-}asymmetric-subsumption-of-temporality\textsuperscript{03}’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference for intemporalisation/institutionalisation, and the implications prospectively. For instance, the uninstitutionalised-threshold\textsuperscript{04} for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with \textsuperscript{05}universalisation–non-positivism-or-medievalism and our positivism–procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in a recurrent-utter-uninstitutionalised registry-worldview. Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-notional–firstnatedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>--implications which is more than just reactionary to the possibility of temporality/shortness (shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{06}) but rather ‘a transcendent-existentialism maturing of
thought’ (intemporality as longness-of-register-of meaningfulness-and-teleology) that takes abstract cognisance of temporality/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-uninstitutionalised-threshold to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, notional–deprocrypticism going by ontological-normalcy/postconvergence implies a mental-devising-representation of ‘non-thresholding meaningfulness as transdimensional/transcendental-meaningfulness or memetic refinement (or a postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism paradox) ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as-prospective reference-of-thought’ in its ‘functional institutionalised/intemporalised-approximating-or-proxying-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ as renewing existentialism/full-depth-of-existential-implications meaningfulness and thought; with such non-thresholding ontological-normalcy/postconvergence-or-postdicatory

To illustrate, suppose X and Y are contending (ontological-reference) to know what 5+4 will give as answer (ontological-veridicality), if X is using pencils to count but inadvertently misplaced a pencil or doesn’t perfectly understand how to stack up the pencils to use to count the whole lot, then where his answer was to come out as 5+4=8, we talk of defect–of- logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation as X sincerely wants to calculate to produce the right answer but X’s logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation failed. This doesn’t invalidate the

In fact every registry-worldview/dimension has its socially-betraying-threshold-of-ontologising-depth-of-analysis (and the idea of questioning beyond it is hardly entertained, whether beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication-as-of-existing-unthought>—) which existentially explains the registry-worldview/dimension limits or relative-ontological-incompleteness—induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to-‘attendant-intradimensional’—prospectively-disontologising—preconverging/dementing—apriorising—psychologism>’ with respect to ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) in its specific grasp of (postconvergence) ontological-veridicality/ontological-contiguity on the one hand, and on the other hand is the reason for the more profound/deeper socially-betraying-threshold-of-ontologising-depth-of-analysis of the prospective/transcending/superseding registry-worldview/dimension which is rather in ‘a suprastructural transcendent-al-meaningfulness conceptualisation with respect to the prior/transcended/superseded registry-worldview/dimension’, as it is construed suprastructurally beyond the prior/transcended/superseded registry-worldview/dimension mental-devising-representation given the less veridical reference-of-thought—categorical-imperatives/axioms/registry-teleology—, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of its ‘temporal conventioning compromise’ determined by its shallower socially-betraying-threshold-of-ontologising-depth-of-analysis. Thus we know basically that the successive institutional-cumulation/institutional-recompose—{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism-determinism’>} involved the
making’; and for the mentation of protensive notional-deprocrypticism basically ‘upholding an utterly nondisjointing ontologisation/ontological-veracity/aestheticisation-towards-ontology as ontological-contiguity disparaged-supererogation -of-mentally- aestheticised-preconverging/dementing qualified-schema’s disjointedness-as-of reference-of-thought in positivism–procrypticism) with regards to the underlying intemporal-preservation behind rules-that-remain of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to ‘human amplituding/formative–epistemicity totalising–purview-of-construal’. The implication being that in a contention among interlocutors in recurrent-utter-uninstitutionalisation, the mentation is very much different from ours (positivism) as any imagined pretext is a legitimate one with emphasis being rather on established dominance/subservience relations, with base-institutionalisation the mentation was to arbitrarily invoke any of a number of recognised or incidentally introduced rules that are in one’s favour and again where dominance/subservience relations played a large part, while with universalisation while power relations also played a part the rules and rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism, as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument was set/given however skewed towards the dominance of say a leader or family/clanic group or priestly class or outright social class; with positivism though, while relatively universal and empirical, the weakness lies in the ontological-contiguity of the contextualisation of rules and rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism, as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (hence not ‘absolutely rational’ with regards to its socially-betraying-threshold-of-ontologising-depth-of-

psychopathy and the induced social psychopathy, it will be naïve to simply analyse on a

psychopathy is associated with temporal-dispositions destructuring-threshold

In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes
existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to ‘perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals- and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naive and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness as they require that others do not act likewise or their implications
should be limited to given target(s) and not be totalisingly-entailing, since their fundamental
teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In
this respect, one can cite at individuals-levels instances of many a human interest story tragedy
in the press which often go unanalysed, and in the bigger institutional-level for instance what is
the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably
due to grave and unprincipled mismanagement with profound social repercussions. The implied

preconverging–de-mentating/structuring/paradigming, is necessarily the prospective

frame is oblivious to its procrypticism, and corresponding resolution as
notional–deprocryptism as the prospective/transcending/superseding ontological-reference-of-
veridicality/contending-reference-of-veridicality. Further, this notion of registry-
worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis
(that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘postconverging-or-dialectical-thinking\textsuperscript{21}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ aligned with ontological-normalcy/postconvergence is what escapes and provides for grander emancipating possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking\textsuperscript{21}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/{cumulated/recomposured}-consciousness-awareness-teleology\textsuperscript{99} in reference (as ‘tentative \textsuperscript{8} references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived \textsuperscript{51}‘meaningfulness-and-teleology’ thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that aligns with and is driven by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wherein ontological-normalcy/postconvergence is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. Ontological-normalcy/postconvergence (as to epistemic relative-ontological-completeness\textsuperscript{57}) abstractly refers to any relevant/implied registry-worldview/dimension that is in a reflected/perspectivated state of prospective transcending/superseding whether as base-institutionalisation, \textsuperscript{102}universalisation, positivism or notional~deprocrypticism as having ‘relative sound/ontologically-veridical \textsuperscript{8} reference-of-thought status’, in relation to a corresponding reflected/perspectivated state of prior transcended/superseded registry-

to the childhood psychopathy/cingléé mental-disposition, given that an initial encounter often
involves a natural ‘postconverging-or-dialectical-thinking\textsuperscript{21}–apriorising-psychologism reflex’
by the interlocutor with respect to their initial narratives but after some familiarisation we come
to understand that the initial narratives are in fact preconverging-or-dementing\textsuperscript{20}–apriorising-
psychologism and thus our expectation of the subsequent narratives they iterate is to initiate or
be ready to align by a mental-devising-representation as a ‘preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism reflex’. This preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism veridicality explains both the childhood and adult psychopath disposition for absolving-logic-or-perpetually-fleeting-logic-reflex-or-escaping-logic based on extrinsic- attribution wherein the mental-disposition is to move postlogically/disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness from one set of narratives to the other and one set of interlocutors to the other with the idea convincing is the notion of getting more people ‘mechanically convinced by vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’ and not an articulation of supplanting–conviction-as-to-profound-supererogation\textsuperscript{21}–of–‘attendant-intradimensional–postconverging/dialectical-thinking –apriorising-psychologism’ or attendant ontological contiguity\textsuperscript{40}–educed–existentialising/contextualising/textualising-contiguity\textsuperscript{40} principle of reification, be it by adhering to the mere hollow form of principles and narratives in existential-decontextualisation as being deterministic of others inclinations and actions. Intrinsic-reality in its ontological-normalcy/postconvergence indicates that effectively the conjugating/inflecting/deriving/mimicking/in-protraction-to-psychopathic-preconverging-or-dementing\textsuperscript{21}–apriorising-psychologism (which is often the case with the adult-psychopathic preconverging-or-dementing\textsuperscript{21}–apriorising-psychologism) whether unconscious (ignorance) or conscious (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) effectively underlies an ontologically valid mental-devising-representation reflex as preconverging-or-dementing\textsuperscript{21}–apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{64}–of–reference-of-thought of such protracting threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{79}–as-to–‘attendant-

It should thus be noted that the preconverging-or-dementing apriorising-psychologism of reference-of-thought of a registry-worldview/dimension implicitly reflects a defective/sub-par relative state-of-conceptualisation in hollow-constituting as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (a fundamentally defective/sub-par state-of-disposition) with respect to ontological-normalcy/postconvergence, as can be demonstrated by ontological-reconstituting-as-to-conflatedness/deconstruction, (and has nothing to do, as-being-caused-by, with an inducing phenomena of perversion-of reference-of-thought as to preconverging-or-dementing apriorising-psychologism’ behind say sorcery and psychopathy; even though such phenomena tend to instigate and reveal the inherent defect/sub-par nature of registry-worldviews/dimensions with respect to ontological-normalcy, with the need for ontological-reconstituting-as-to-conflatedness/deconstruction). In other words, the state of being non-positivism/medievalism with respect to ontological-normalcy/postconvergence is already a defective state ‘in-wait as of prior relative-ontological-incompleteness of reference-of-thought defective categorical-imperatives/axioms/registry-teleology for issues of superstition/lack-of-rational-empiricism to arise whether we talk of sorcery, bodily mutilations and their effects, charlatanisms, etc. Likewise, it will be naïve to imply that our
registry-worldview as positivism–procrypticism is in absolute sync with ontological-normalcy/postconvergence by the mere fact that we are at the backend of the institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>}, as we can equally project prospectively from a retrospective projection insight to grasp how ‘from an utter hermeneutic/reprojecting/supererogating/zeroing circle exercise of ontological-reconstituting–as-to-conflatedness/deconstruction (of our notional~firstnatures—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature)’ how procrypticism (preconverging-or-dementing–apriorising-psychologism as to mere-formulaic positivistic “meaningfulness-and-teleology”) in a positivistic registry-worldview de-mentatively/structurally/paradigmatically endemises psychopathy and social psychopathy. Insightfully, for a grander grasp of ontological-normalcy, the notion of institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>} and their related conceptualisations are not just ad-hoc in nature but of ‘existentialism/full-depth-of-existential-implications form-factor’: which is fundamentally defined by ontological-normalcy/postconvergence (going by shallower-limited-mentation-capacity to deeper-limited-mentation-capacity), in reflecting the precedence/supersedingness of intrinsic-reality/ontology to which an ‘animal’ comes-to-and-re-compose-with-cumulatively by ontological-reconstituting–as-to-conflatedness/deconstruction (which is the critical subsuming mechanism for re-establishing “reference-of-thought and ontological-veridicality/ontological-contiguity” as intemporal-preservation-entropy-or-contiguity—or-ontological-preservation, above and beyond the simple hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-
failing-intemporal-preservation of defective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of any registry-worldview/dimension and requiring their prospective suprastructuring). This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the human limited-mentation-capacity-deepening induced institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’>), and inherently implies ‘a universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’; which define their specificities and potentials which are basically abstractly of a same ‘human form-factor’, with regards to the reality of their notional~firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence> and the existential implications on every registry-worldview/dimension thereof, though of differing ‘snowballed recomposuring’ of meaningfulness and reference-of-thought. Ontological-entrapment (as a deterministic point of reference that defines dialectical-out-of-phasing/dialectical-primitivity registry-worldview/dimension, and thus avoiding any confusing effects to analysis of the de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is attained by ‘keeping or aligning’ preconverging-or-dementing apriorising-psychologism (with no shifting by reflex into postconverging-or-dialectical-thinking–apriorising-psychologism) of the placeholder-

This equally explains why a prior/transcended/superseded registry-worldview’s/dimension’s \(^{8}\) reference-of-thought is cross-sectionally dialectically-out-of-phase/dialectically-primitive given it is sticking to its ‘good-natured’ but ‘ontologically-wrong and failing’ reference-of-thought–\(^{8}\) categorical-imperatives/axioms/registry-teleology\(^{9}\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (hollow-constituting-\(<\text{as disjointed-}

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as limited-mentation-capacity-deepening has to do with the veracity/ontological-pertinence of our notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective—ontological-normalcy/postconvergence as individuations of shortness-to-longness-of-register-of—meaningfulness-and-teleology, such that whenever relatively sound reference-of-thought-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation are institutionalised/intemporalised, human temporality in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation individuation dispositions (at uninstitutionalised-threshold) will tend to relate, by limited-mentation-capacity-deepening, to this as hollow/formulaic constraining deterministic constructs which have to be exploited by the mere determinism-of-form about how others will act (hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) rather than the essence as intemporal-preservation-entropy-or-contiguity—or-ontological-preservation being sought originally by the institutionalised/intemporalised reference-of-thought—categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation (ontological-reconstituting-as-to-conflatedness). This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipating potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism! Rational-realism (as to prospective deprocrypticism) as such involves rather elucidating distinctive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing /decandoring with three dementative/structural/paradigmatic teleologies: - subknowledging-impulse/compulsive-dementing temporal-disposition (psychopath), with ‘slanted mechanical narratives’ (preconverging-or-dementing-apriorising-psychologism-stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); - subknowledging- temporal-dispositions-teleologies (the-various-temporal-dispositions-teleologies), with ‘banal

reflects/perspectivates the subknowledging -impulse/compulsive-dementing -temporal-

The reason why this is critical to grasp is that the veridical intemporal-disposition preserving emanance has to ‘organically and existentially pass-through’/reflect/perspectivate the registry-worldview/dimension perversion-of- reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing –apriorising-psychologism for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring on the basis of prospective reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. * It is not an ‘avoidable luxury’ as it is the necessary transcendental element in establishing the backdrop for transcence-and-sublimity/sublimation/supererogatory-de-mentativity/prospective-institutionalisation. Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transference-and-sublimity/sublimation/supererogatory-de-mentativity (occurring at the registry-worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal perversion-of- reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation existential mental orientation to avoid postconverging-or-dialectical-thinking –apriorising-psychologism-stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase (for example, no ‘God-of-plane’ for say an animistic mental orientation that sees gods and spirits as

This starts with the would-be transcendence-and-sublimity/sublimation/supererogatory-de-mentativity inducing intellectual(s)/emancipator(s) ‘owns reflexive individuation maximalising-as-transcendental liberation/emancipation’ from the \textsuperscript{8} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of such prior registry-worldview/dimension from which it/they necessarily come from as well as not heeding generalised-social-temporal-preserving-mental-inclinations; and so, consistently crossgenerationally since transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/institutionalisation is ‘beyond just logical argumentation/contention’ as it points to ‘being-or-ontological existentialism/full-depth-of-existential-implications structure defect’ (defect of \textsuperscript{8} reference-of-thought/soundness-or-ontological-good-faith/authenticity\textsuperscript{99} -of- \textsuperscript{8} reference-of-thought, and so beyond logical defect). It is more like (a knowledge-driven/not impression-driven) ‘intemporal preservation recomposuring need or memetic-reordering/psychoanalytic-unshackling’ for institutionalised/intemporalised being/ontology over recurrent-utter-uninstitutionalised, \textsuperscript{103} universalised being/ontology over ununiversalised, positivistic being/ontology over non-positivism/medievalism and prospectively deprocryptic being/ontology over \textsuperscript{8} procrypticism–or–disjointedness-as-of-\textsuperscript{7} reference-of-thought. Basically, the psychopath is involved in postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts\(^{76}\) in a committed drifting-circularity/roaming (of non-veridical dialectically-or-contendingly-out-of-phase narratives ‘it wants to falsely represent veridically’), leading to temporal-dispositions slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/aliibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect (contrasted to ontologising/intemporal conventioning-rationalising) and temporal-enculturation/temporal-endemisation effect, and these, hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, conjoining and conjugating to temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, and fundamentally referenced from base ontologising effectivity (intemporal preservation); in ephemeral/temporal and ontologic/intemporal contrast, thus reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the de-mentation\(^{15}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of temporal-dispositions denaturing\(^{16}\) of social psychopathy (subknowledging\(^{94}\)/mimicking) arising from initiating phenomenal psychopathy (subknowledging\(^{94}\) impulse) involving a distractive-alignment-to reference-of-thought-of-apriorising/axiomatising/referencing\(^{10}\) construal (as the backdrop of new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{99}\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and ultimately enabling its transcendental collapsing/overriding for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). Analyst’s intellectual articulation known as SUPRASTRUCTURING, wherein the universal ontological implication of social psychopathy dynamism across the human species (across space-and-time)/the social/ontological—dementating/structuring/paradigming is drawn so that the principles so articulated can be applied in all incidental cases of social psychopathy dynamism (with the intellectual responsibility of avoiding just an ad-hoc/circumstantial based analysis and never elevating such poor rationalisations into an ontology, i.e. avoid the extrication preconverging–dementating/structuring/paradigming). This obviously calls for an ‘intellectual/scientism detachment’ towards the perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview/dimension, with an intemporal-disposition sense of contributing to the bigger possibilities for of the species, i.e. intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming as opposed to an extricatory or incremental or ‘disjointedness-as-of-reference-of-thought’ or temporal-accommodation preconverging–de-mentating/structuring/paradigming which is about temporal interest, and so, beyond ‘temporal emotional involvement’ or at ‘reality personality’ wherein the notion of human temporal compromising is not an ontological notion but rather defines and qualify the nature of human temporality/shortness in an ontological construct). This way of hermeneutic/reprojecting/supererogating/zeroing ‘ontological reasoning’ to arrive at ‘intemporal-or-ontological meaning’ that is beyond any totalising–self-referencing-syncretising/self-centered/present-consciousness/illusion-of-the-present/mirage mental projection within just a given registry-worldview/dimension so as to ‘grasp fundamental intemporal-disposition as of the inherent nature of existential-reality’ is central to the notional~deprocrypticism registry-worldview/dimension as a doppler-thinking exercise known as suprastructuralism. ‘ontological-normalcy/postconvergence referentialism as of intemporal-preservation-entropy-

open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\(^5\) by a re-equilibrating metaphysics-of-absence\(^4\) (implicated-epistemic-veracity-of—nonpresencing—perspective—ontological-normalcy/postconvergence)/postdication. Thus, apriorising/axiomatising/referencing—{of—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—constitutedness—in—preconverging entailment will wrongly induce virtuality—or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, and so, with more and more profound defective construal/conceptualisation consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by apriorising/axiomatising/referencing—{of—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—constitutedness—in—preconverging entailment in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as an attendant resetting resolution for the induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness\(^1\) of axiomatic-construct/\(^8\) reference-of-thought’ (by elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation—outside—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity\(^1\)) that will then require another attendant resetting resolution for the subsequently induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness\(^1\) of \(^8\) reference-of-thought’ down the line when aware of its further critical defect again (though, in a sense the entire recomposuring process could be qualified as a ‘practical\(^7\) presencing—absolutising-identitive-constitutedness\(^1\)’ exercise). But then the inherent nature of existence in relation to human limited-mentation-capacity-deepening\(^5\) construal of it is one of evasiveness as implied by the

The implication is beyond just the notion of knowledge construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the de-mentative/structural/paradigmatic basis of categorisation scheming are equally the de-mentative/structural/paradigmatic basis of the inherent analysis and meaningfulness-and-teleology construed/conceptualised. universalisation–non-positivism/medievalism, who do not do likewise as humans in
positivism–procrypticism? Is it a difference in species, as of successive species? Obviously, no!
As we know from history and anthropology that cultural diffusion has shown that all humans
are able to come to terms and operate at the highest forms of human registry-
worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a
registry-worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-
setup/mentation/mental-devising-representation/consciousness-awareness-teleology^ as arising

construal/conceptualisation as soundness-or-ontological-good-faith/authenticity—of—reference-of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-deepening, can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-deepening determining its prospective relative-ontological-completeness—of-reference-of-thought, as enabled by the ‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recomposure—{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism—determinism’} which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic deambulation’ harkens back to that of human registry-worldview’s/dimension’s institutionalisation by its socially-functional-and-accordant thresholds of
notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> further redefining the possibility of uninstitutionalised-threshold as the threshold for failing/not-upholding the institutionalisation’s reference-of-thought–categorical-imperatives/axioms/registry-teleology and the possibility of prospective institutionalisation as renewing reference-of-thought–categorical-imperatives/axioms/registry-teleology for upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-of-presence, the present registry-worldview’s/dimension’s reference-of-thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in secluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of reference-of-thought. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness of reference-of-thought emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that is counterintuitive to a stigmatic/mented psychology as conceptualised today. basis for human knowledge-and-virtue; secondly, articulating the universal aetiology/ontological-escalation as of ontological-reconstituting-as-to-confabulation; and thirdly, highlighting the de-mentative/structural/paradigmatic pivoting/decentering as prospective ontological-completeness-of-reference-of-thought possibilities. It should be noted that ‘a mentation reflex as decentered and in de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)’ is no less valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human temporal uninstitutionalised-threshold mental-disposition’ (speaking of uninstitutionalised-threshold) as ‘a mentation reflex as centered and postconverging-or-dialectical-thinking–apriorising-psychologism’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; and so, with no relevant need for attending to any ‘psychological complexes’ with respect to a representation as of an uninstitutionalised-threshold wrongly being construed as of institutionalisation (at the uninstitutionalised-threshold) as being ‘a mentation reflex as centered and postconverging-or-dialectical-thinking–apriorising-psychologism’ instead of ‘a mentation reflex as decentered and in de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)’. The point of this statement is that when procrypticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence-(implicited-epistemic-veracity-of-non-presencing-<perspective–ontological-normalcy/postconvergence>), the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrypticism meaningfulness-and-teleology will be represented as decentered and in de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as the necessary/requisite backdrop for the construal of prospective
reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation ushering in notional–deprocrypticism as prospective institutionalisation. In this regard, we’ll certainly inherently relate to preceding successive uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), though this will most probably be resisted with respect to such a representation of our denaturing of positivistic meaningfulness as our prospective procrypticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-threshold by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)); while we can recognise successively the centered and postconverging-or-dialectical-thinking–apriorising-psychologism nature of base-institutionalisation, universalisation and positivism, though probably less so of notional–deprocrypticism institutionalisation as it points to the decentering and de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of our procrypticism uninstitutionalisation. Such institutionalisation and uninstitutionalised-threshold construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by the concepts of apriorising/axiomatising/referencing–(of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity)–conflatedness in {preconverging-disentailment–by}–postconverging-entailment as of centering and postconverging-or-dialectical-thinking–apriorising-psychologism reference-of-thought implied with institutionalisations and apriorising/axiomatising/referencing–(of-attendant–

courage as imbuing knowledge with organic profundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is ‘no magical knowledge technicality’ for implying a more profound ontological-completeness-of-reference-of-thought over a relatively relative-ontological-incompleteness-of-reference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset/reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating/supererogatory-de-mentativity rather than a conventioning sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is ‘altogether not a knowledge elucidation problem’ with respect to the implied representation of uninstitutionalised-threshold as decentered and in de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) but rather a ‘psychological complex issue’ of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in ‘psychologism terms as of amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its more profound attendant ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–reifying-or-elucidating-of-prospective-relative-ontological-completeness–reference-of-thought–devolving-as-of-instantiative-context; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism reference-of-thought is
not about the inherent knowledge implications to which the non-positivism/medievalism mindset/ reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism \text{(<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought foundation as new placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{(9)}) requisite knowledge or meaningfulness-and-teleology\textsuperscript{(9) 83} reference-of-thought}. Such equally applies with respect to notional–deprocrypticism prospective institutionalisation relative to our procrypticism uninstitutionalised-threshold \textsuperscript{(2)}. In other words, prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is construed not in terms–as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,—for-explicating-ontological-contiguity outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms–as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as \textsuperscript{83} reference-of-thought/psychologism construed as including the discretional contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is grounded on such an underlying \textsuperscript{83} reference-of-thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant
demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discretionary contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating causality as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology<br>~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology<br>~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology<br>~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology<br>~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology<br>~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology

conjure up explanations/ meaningfulness-and-teleology in terms–as-of-axiomatic-construct of its non-positivistic medieval alchemic or non-positivistic animistic reference-of-thought psychologism; as it is naïve to think that implied organic-knowledge as of prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory–de-mentativity requiring its own reference-of-thought psychologism can simply be construed as ‘mechanical-knowledge’ while still upholding/keeping the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought psychologism, as the organic-knowledge rather points to ‘validating causality as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity outcomes as its mechanical-knowledge aspect but further requires a development of the discretionary contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the knowledge’, grounded rather on such a prospective institutionalisation psychologism as its ‘suprastructuration’ or its ‘suprastructural psychical-

Such organic-knowledge gets institutionalised to an extent by the habituation as of circularity/recurrence/repetition/repeatability of the mechanical-knowledge implied reference-of-thought of ‘meaningfulness-and-teleology’ as of crossgenerational psychoanalytic-unshackling involving totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the ultimate crossgenerational alignment to the prospective/transcending/superseding registry-worldview reference-of-thought, as a positivistic registry-worldview reference-of-thought. The conjugation of other shades-of-temporality\(^8\) to postlogism\(^7\) induces their respective conjugated-postlogism\(^7\) leading by dynamic-cumulative-aftereffect to a broader social derived-perversion-of-reference-of-thought\(\text{<as-preconvergingly-}\)apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(>\) construed as social-postlogism\(^7\) that fundamentally is denaturing\(^6\) of meaningfulness-and-teleology\(^9\) at the given uninstitutionalised-threshold\(^0\) as threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\(\text{<as-to-`attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-}\)psychologism\(>\), in want for prospective institutionalisation. The underlying insight being that human formulation of meaningfulness-and-teleology\(^9\) is necessarily incomplete because of its limited-mentation-capacity and thus comes with an inherent sense/projection of ontological-appropriateness, and as of human developing ontological-completeness-of-reference-of-thought, as the driving element in upholding ontological-contiguity\(^7\)/ontological-veridicality. This notion as reflected by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality (as it enables the further expansion of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance intemporal-thresholds and so as of ontological-emancipation-beyond-just-virtue) should be the critical and decisive constructive/institutionalising/nascent–sublimating-decisionality element for attaining notional–deprocrypticism wherein the ‘social-\(^{10}\) universally-transparent-and-implicitly-formulated direct-constraining-construct’ as mechanical-knowledge is construed as overlapping with the ‘complementing grander social-\(^1\) universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

Further, the reality of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional~firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor means that human meaningfulness at all times is more of ‘a solipsistic transversality<for-sublimating–existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—’motif-and-apriorising/axiomatising/referencing’ of human meaningfulness as of temporal-to-intemporal mental-dispositions transversality<for-sublimating–existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—’motif-and-apriorising/axiomatising/referencing’ and not a ‘solipsistic commonness of meaningfulness that wrongly implies no notional~firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> mental-dispositions’, as any commonness is ‘a commonness implied with respect to secondnaturting institutionalisation as of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction thresholds’, with the implication that there is no point acting and relating with knowledge as if it is about a solipsistic transformation into intemporality/longness but rather
relating to it as a secondnaturing exercise of skewing (‘intemporality’-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity or deferential-formalisation-transference) with respect to the institutionalisation/intemporalisation process as virtue (a notion equally implied by many a prophesying metaphysico-theological construct as the intemporality/longness and transcendental projections as of their limited-mentation-capacity in their own times in resolving the issues of human temporality/shortness in their times). In which case while such intemporality/longness cannot be construed as of a social commonness of reference-of-thought, it’s occurrence if it does occur can only be construed in transversality-for-sublimating–existentia-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing (more like the abstract notion of faith, by definition and as implied in many a creed, however metaphysical though, can only be solipsistic to an individual and not amenable to a commonness of social contemplation) as of abstract intersolipsism. The Nietzschean metaphor ‘God is dead’, as of human emancipation, is one whose validity can only be countenance where it implies the capacity of human pretence of intellectual-and-moral sublimation, and not the notion of intellectual-and-moral decadence. *Thus to sum up, the overall notion of apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity}–conflatedness–in–{preconverging–disentailment–by}–postconverging–entailment in relation with other elucidative associated notions can further be clarified as follows in ‘interdimensional/transdimensional/transcendental terms in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process’ as well as ‘individuation terms of human temporal-to-intemporal mental-dispositions’. With regards to the interdimensional/transdimensional/transcendental ontological-contiguity—of-the-human-

\(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\). But then we know and can appreciate
that all the prior registry-worldviews/dimensions were ‘decentered and preconverging-or-dementing apriorising-psychologism beforehand/as-of-a-priori’ going by ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’. This ‘anti-transcendence as anti-uninstitutionalised-threshold and anti-prospective institutionalisation mental-disposition’ of all ‘present-states’ of all registry-worldviews/dimensions is due to the fact of such ‘present-states’ \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) desymmetrisation alignment overly-overemphasising the registry-worldview/dimension institutionalisation-facet in a corresponding relation with a dissymmetrical alignment over underemphasising its uninstitutionalised-threshold facet, but with such representation becoming critically ontologically untenable at the registry-worldview/dimension uninstitutionalised-threshold where ‘meaningfulness-and-teleology’ breaks into threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \(<\text{as-to-’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism}>\). With regards to individuation terms of human temporal-to-intemporal mental-dispositions (and in further articulation of the grander ontological-normalcy/postconvergence

In other words, suprastructuralism (as of its referential and ontological-normalcy/postconvergence emanance perspective and as a doppler-thinking exercise) ushers in a whole new comprehensive registry-worldview across the entire social construction-of-meaning called deprocrypticism, much like positivism did over non-positivism/medievalism or universalisation over ununiversalisation or base-institutionalisation over utter-uninstitutionalisation. Central to such ‘a universal notion of deprocrypticism’ is the idea of an utter-recomposuring-ontologising by upholding ontological-normalcy/prospective-

the successive institutional-cumulation/institutional-recomposure{(as-to-

Existential ontologising is effectively the human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology aspiration towards a fulsome grasp of intrinsic-reality/full-ontological-veridicality as fulfilling ontological-normalcy; all along the institutional-cumulation/institutional-recomposure ⟨as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩⟩ levels but for incomplete human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity the preceding institutionalisation levels are more like successive compromises towards notional–deprocrypticism as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). A critical distinction between notional–deprocrypticism institutionalisation and positivistic institutionalisation has to do with the former uncompromising relation with respect to upholding ontological-contiguity thus overcoming the temporal-emananances-registries hotchpotching (<amplituding/formative> wooden-language—imbued—averaging-of-thought-as-to-

Equally, with regards to human mentation capacity, the effect of limited mentation capacity characterising a given registry-worldview/dimension or intradimensional level and its social-construct not only defines its inherent vices-and-impediments but such a social-construct further and critically structures and stifles the natural renewal of human emancipative dispositions. For instance, non-positivism/medievalism stifling inclinations to think outside of medieval mental-dispositiona and likewise with regards to our procrypticism. The bigger point of successive institutionalisations has to do overall with their specific emancipative registry-worldview/dimension framework as fertilising the cross-section of human practical and conceptual incidental issues and endeavours as well as the virtue constructs at the said registry-worldview/dimension. What is interesting with regards to an incidental study like psychopathy and social psychopathy with respect to the grander notional-deprocrypticism institutionalisation level within the treatment of the institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’}> meta-conceptual frame is that it provides (besides being critically important to grasp by itself as a parasitising/co-opting phenomenon that can potentially arise in all human locales) the incidental and the-Good/understanding/notional–knowledge-reification–gesturing-<in-prospective-psychologismic–apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity } conflatedness in [preconverging-disentailment-by] postconverging-

Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation. It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity<sup>9</sup>) as the fundamental notion is institutionalisation/intemporalisation entropy (intemporal-preservation contiguity; by a skewing device (‘intemporality<sup>10</sup>-asymmetric-subsumption-of-temporality<sup>11</sup>’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference of the averageness of human temporal-dispositions, with corresponding formalisation and internalisation as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, towards the supersedingness of the intemporal-disposition which is inherently ontological and syncs with intrinsic reality in its <amplituding/formative–epistemicity>causality <as-to-projective-totalitative–implications-of–

intemporally calls for deprocrypticism), - and prospectively notional-deprocrypticism institutionalisation/intemporalisation (whose reference-of-thought-categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity--or--ontological-preservation will carry the 'virtuous and intellectual responsibility' to recognise that 'perversion-of-' reference-of-thought-as-preconveringly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > is an endemic human mental defect/perversion disposition retrospectively to prospectively, and that this is 'a lost cause' due fundamentally to mediocrity principle of humans having in reality 'notional-firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective--ontological-normalcy/postconvergence' and not 'universal intemporal-disposition', and the construct of deprocryptic categorical-imperatives/axioms should be anticipatory and preemptive of 'perversion-of- reference-of-thought-as-preconveringly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > perpetually at the 'uninstitutionalised-threshold'. More like the modern notion of medicine doesn’t work on the idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease theory, but accepts that de-mentatively/structurally/paradigmatically bacteria, cancer, organ failure, etc. cause disease and that the virtue of medicine is about how to understand and preempt the above causations; likewise deprocryptic virtue operates on a realistic grasp of human subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections at uninstitutionalised-threshold and then strives to skew/deferential-formalisation-transference for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-preservation entropy/contiguity). We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s Things Fall
world/intrinsic reality. Basically, we can say that human-emanant/becoming-transcendence is
the first level of human invention (incremental inventions of relatively sounder minds; with the
would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence-
and-sublimity/sublimation/supererogatory-de-mentativity to liberate themselves before
secondnaturing/institutionalising for the new possibilities for the species; noting that, this
doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins… of the world,
miraculously came up with positivism to supersede/precede/override/utter medievalism, as they
were of medieval stock but by philosophical transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity could project beyond the limits of non-
positivism/medievalism even were they were still imbued with remnants of the old like
alchemic beliefs. Hence it is the transcendental process that is actually critical)! Now what
positive can come from psychopathy? From the intemporal perspective NONE. Besides specific
social consequences of psychopathy as the context of ‘socially-perceived-value as of social-
stake-contention-or-confliction’ moves from family, neighbourhood, school, company,
administration, business, criminality, etc. depending on the development of the specific
psychopath; by and large, ontologically and as reflected by the organic-comprehension-thinking
(organicalism/‘intemporal-prioritisation-of-

Further a registry-worldview/dimension that so misanalyses is not ‘shaped’ to review but rather syncretises/is-circular in its failing/not-upholding—reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation rather than implying prospective ones for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of reference-of-thought denaturing and relative-ontological-incompleteness, and endemised/enculturated (with a temporal rationalising reasoning that actually validates the veridicality of a human notional~firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence as to shallow-supererogation—to—profound-supererogation that should not be confused with a secondnatured/institutionalised disposition in relation to virtue). This effectively forms the recomposured backdrop for prospective transcendentald construct of depcropticism, as the ‘ontologising organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology) that reflects/perspectivates the protracted threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—attendant—intradimensional—prospectively-disontologising—preconverging/dementing—apriorising-psychologism’. But then, a psychopath can be so irrational that in temporal terms it might do a
lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or even some other things but coming initially from a vice; as may be enabled by the psychopath’s faulty-mentation-procedure-deception-or-urge to attain an outcome). This dynamic element can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as the questions are not only how culpable is the psychopath but extend to who is temporally getting what from the psychopathic situation, what accounts and narratives should be believed, etc., thus requiring an utter and intemporally uncompromising ontological conceptualisation to construct an causality implications-of-prospective- nonpresencing-for-explicating-ontological-contiguity science.

That said, beyond just about such a present worldly take to societal issues, there is a bigger question of the universal implications on human civilisation of postlogism in hollow-constituting as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and perversion-of reference-of-thought apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation behind human civilisation. It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do both with the nature of the psychopathic/postlogism mind contrasted to the nature of the ‘normal supplanting–conviction-as-to-profound-supererogation of–attendant-intradimensional’ postconverging/dialectical-thinking apriorising-psychologism or prelogic mind’, which are antipodal as the normal mind is by reflex prelogic supplanting–conviction-as-to-profound-supererogation of–attendant-intradimensional’–postconverging/dialectical-thinking apriorising-psychologism as to attendant ontological contiguity educed existentialising/contextualising/textualising-contiguity and by reflex will tend to see prelogic

projective narrating (an insight that is easily picked up seeing the childhood psychopathy growing into an adolescent and an adult, as its more covert mental structure at adulthood can be retraced and associated to the awkwardness of expression at early life in understanding what the adult psychopath is up to), hence the reason a mind in search of supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism or prelogism—normal prelogism—as-of-conviction,-in-
is a fairly common social mental-disposition, at ‘uninstitutionalised-threshold’ as we are not inherently intemporal (the-Good as longness-of-register-of—meaningfulness-and-teleology) in our solipsistic projection but have the potential of temporal (shortness-of-register-of—meaningfulness-and-teleology) solipsistic/emmanent projections of postlogism-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-including-virtue-as-ontology>. The mechanism of institutionalisation/intemporalisation and formalisation ensures that because of the positive-opportunism—of-social-functioning-and-accordance that the intemporal-disposition (as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at ‘socially-perceived-value as of social-stake-contention-or-confliction’, it tends to skew (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition to be inherently civilised to want to universally wish that everyone have to deal with a fair legal system, that anyway is to the credit of the institutionalisation/intemporalisation process, but that is a secondnatured/internalised construct). This explains why there is no need to breach the scientific principle known as the ‘mediocrity principle’, (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a
notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective—ontological-normalcy/postconvergence> creature in its moral/virtuous-agency); to explain why society tends to improve/progress. Rather, the intemporal-disposition de-mentatively/structurally/paradigmatically brings more overall good and hence skews ('intemporality\textsuperscript{-}asymmetric-subsumption-of-temporality\textsuperscript{\textsuperscript{9}9}', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) man in the medium to long perspective towards ‘the-Good/understanding/notional-knowledge-reification–gesturing-<in-prospective_psycho\textsubscript{logismic}–apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity-\textsuperscript{\textsuperscript{4}4}educed–existentialising/contextualising/textualising-contiguity\}—conflatedness-in-{preconverging-disentailment–by}–postconverging-entailment>/\langleamplituding/formative–epistemicity\rangle causality \textasciitilde as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity (institutionalised, formalised and internalised)’. This elucidation is important because while internalisation might point to the social good it is important to understand that when dealing with our solipsism at ‘uninstitutionalised-threshold\textsuperscript{10}10’ we aren’t anymore intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology\textsuperscript{11}11) than temporal (shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{12}12) going by the ‘mediocrity principle’, and the analysis should take account of this (by not just operating/processing logic but construing notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective—ontological-normalcy/postconvergence> disambiguation with a \textsuperscript{\textsuperscript{1}1}de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) highlighting organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of- reference-of-thought’–as-conflatedness\textsuperscript{13}13-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{14}14) and the distracting

is about psychoanalytic techniques on the modern positive mind, which is rather naïve and
uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to
this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of

Correspondingly, this notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involves ‘mental candoring’ where mental-devising-representation syncs with intrinsic-reality and mental decandoring where mental-devising-representation is a wrong/flawed perverted representation of intrinsic-reality. If we have an anthropological continuity/anthropopsychology, then the continuity as entropy is the exercise of candoring as ‘straightness/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought referencing/registering/decisioning or registry-teleology’ (being a functional representation of how an intemporalising registry-worldview/dimension perceives itself) and decandoring as ‘perverted/brazen-but-unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought referencing/registering/decisioning or registry-teleology’ (being a functional representation of how a prospective intemporalising registry-worldview/dimension perceives the prior-and-'preconverging-or-dementing–apriorising-psychologism registry-worldview/dimension); with this latter representation undermining the ‘temporal-dispositions solipsistic/emanant postlogic miscuing presumptuousness/arrogation effect’ as the unconscionability-drag responsible for perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> across the institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>}, whether in the perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing–apriorising-psychologism of recurrent-

This ensures in effect ‘the \textsuperscript{15}de-mentation\textsuperscript{3} (supererogatory—ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics).-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence’.
Ontology is an altogether coherent construct with no room for excepting from coherence, which then simply implies the superseding of any such pretense of an excepting. (For instance, we can be calculating the sum \((5 \times 5)+5-5\), and make the mistake to say \(5 \times 5 = 24\) but then overlook it and agree together that the answer should be \(24\) and go on to resolve the entire equation as \(24\). This type of non-ontological thinking (a non-ontological thinking is also known as a misanalysis or misthinking or misreasoning or mislogic or preconverging-or-dementing\(^{20}\)-apriorising-psychologism-\(<\text{stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase}>\) or \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) or notional-discontiguity/epistemic-discontiguity-\(<\text{shallow-supererogation-off-mentally-}\)aestheticised–preconverging/dementing-\(<\text{qualia-schema}>\), as there is no veridical meaningfulness that exists out of ontology or isn’t in ontological-contiguity\(^{67}\)) is highly prevalent in the extended-informality–\(<\text{susceptible-to-effecting-parsimony-as-of-shoddiness- and-incompleteness-to–meaningfulness-and-teleology}>\) of society as social-aggregation-enabling, the reason we strive to formalise whether in terms–as-of-axiomatic-construct of laws, institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition constructs cannot accommodate non-ontology since reality doesn’t adjust to man and it is man that adjusts to reality. The \(^{15}\) de-mentation–\(<\text{supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}>\)–in-a-contiguity-of-increasing-ontological-normalcy/postconvergence implies that an interlocutor’s retrospectively demonstrable narratives miscuing and subsequent perversion-of- reference-of-thought–\(<\text{as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}>\) speaks of the real nature of its present and prospective narratives as decandored and oblongated in effect ontologically but that by an illusion-of-the-present reflex as well as for the sake of functioning
we tend to represent by default such miscuing and perversion-of reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation meaning as straightness/candored (intemporal) which is not ontologically veridical; in which case the prospective transcended registry-worldview strands such meaningfulness as decandored/oblongated (subknowledging/mimicking) even if the mental-disposition of the transcended registry-worldview is in an illusion-of-the-present straightness/candoring mental-devising-representation of meaning. In other words, \text{de-ordination} \langle \text{suprerogatory-ontological-de-ordination-or-dialectical-de-ordination—stranding-or-attributive-dialectics} \rangle ensure an affixing of temporal-dispositions perversion-of reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation teleologic orientations denaturing to the corresponding temporal perversion-of reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation mindssets in their ontological-escalation/aetiologisation without letting for a disjunction/leaping into intemporal/straightness-of-mental-devising-representation disposition teleologic orientation, and so, to the point of the temporal-dispositions collapsing/overriding (‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) with the new prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the transcending registry-worldview/dimension. For instance, the mental-devising-representation of a non-positivism/medievalism mindset/ reference-of-thought relating to say an accusation of sorcery by an intemporal positivistic
mindset/ reference-of-thought will not be limited to that particular instance but carries the ‘disambiguation of notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as ontological-escalation/aetiologisation’ that speaks to metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation dispositions of that non-positivism/medievalism mindset/ reference-of-thought by way of de-mention-(supererogatory-ontological-de-mention-or-dialectical-de-mention—stranding-or-attributive-dialectics) from the intemporal positivistic mindset, and upholding such the ‘disambiguation of notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as ontological-escalation/aetiologisation’ for the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that collapses/overrides the non-positivism/medievalism mindset/ reference-of-thought crossgenerationally (consider the diffusion of positivistic registry-worldview and its psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of non-positivistic registry-worldviews/dimensions in the th and early 20th century). Stranding defines the ‘decandored registry-worldview/dimension dialectically-or-contendingly-out-of-phase/dialectically-primitive) mental-devising-representation’ such as the mental-devising-representation of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, and so, beyond the illusion-of-the-present/present-consciousness of all these (cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions which in their amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present will tend to wrongly recover/syncretise to project straightness/candoring of mental-devising-representation as intemporality/longness rather than decandored/oblongated mental-devising-representation as temporality). Stranding is validated by the fact that
transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation speaks of an ‘institutionalisation/intemporalisation constraint/secondnaturung’ and ‘not temporal-dispositions transformation into intemporal-disposition as dimensionality-of-sublimating—

⟨amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation⟩; and this idea is so foundational that it is beyond-and-supersedes/precedes/overrides/utters the consciousness-awareness-teleology of temporal-dispositions such that ‘they are not called upon in argumentation’, just as we are not consciously called upon to establish whether blood flows in our body, as it is a preceding/superseding truth that supersedes/precedes/overrides/utters our thinking or not of it! Thus de-mentation—(supererogatory—ontological—de-mention—dialectical—de-mention—stranding—or-attributive-dialectics) is rather intemporally/ontologically conceptualised for its validation and integration in the survival-and-flourishing imbued institutionalisation/intemporalisation percolation-channelling—<in-deferential-formalisation-transference> (formalisms and internalisations) mechanism with the implied <amplituding/formative—epistemicity>causality—as-to-projective-totalitatio—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity and positive-opportunism—of-social-functioning-and-accordance as ontological entrapment, with no temporal-dispositions firstnature-or-intemporal-level-validation but rather secondnatured-or-institutionalisation/intemporalisation-level-validation. At which point de-mentation—(supererogatory—ontological—de-mention—dialectical—de-mention—stranding—or-attributive-dialectics) articulates temporal-dispositions teleologies orientations as ‘subknowledging/mimicking/mental-perversions/slantedness manifestations at that ‘uninstitutionalised-threshold’, i.e. the reference-of-thought—categorical—

Ontology being the intemporal-disposition, the exercise of ‘directing’ convincing as logical-processing/logical-operation to temporal-dispositions is inherently unwarranted and is rather of <amplituding/formative–epistemicity> totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in preconverging-or-dementing apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> as it wrongly implies that temporal-dispositions persion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of their dimension’s/registry worldview’s reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or-ontological-preservation is of sound mental representation; rather what should be implied is the prospective intemporality /longness instead preserving prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous meaningfulness-and-teleology towards the ‘institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference>’ as secondnaturing of the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. For instance, the positive (as to intemporal project) will not engage in a direct logical convincing with the non-positivisitic/medieval mind as this just validates to the
non-positivism/medievalism disposition that its non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation relation with meaningfulness-and-teleology is sound such that it goes on to operate/process logic by amplituding/formative-epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag non-positivism/medievalism meaningfulness-and-teleology, reference-of-thought–categorical-imperatives/axioms/registry-teleology. Rather the positivistic mindset/ reference-of-thought will project the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivism (as rational-empiricism/positivising basis of reasoning) through positivism institutionalisation/intemporalisation percolation-channelling-in-deferential-formalisation-transference and highlighting, in the bigger scheme of things, the relative sublimating efficiency and positive-opportunism—of-social-functioning-and-accordance of a positivism-based rule of law, social organisation, polity, nation-building, etc. based on positivism axioms and which inherent effectiveness and supersedingness/transcendence breaks the non-positivism/medievalism mindset/reference-of-thought (which are not rational-empirical/positivising and tend to essences, alchemic-logic, sorcery constructs, etc.) with its defective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This takes an utterly impersonal form (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. The ‘transcendental/transdimensional/interdimensional/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation complex-of-stranding’ refers to the counter-intuition from a registry-worldview/dimension perspective in not representing itself as

‘transcendental/transdimensional/interdimensional/ maximalising-recomposuring-for-relative-

registry-worldview’s/dimension’s institutionalisation ‘reference-of-thought–categorical-

hence the complex when <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/present-consciousness/illusion-of-the-present. But then, if such a complex is to
stand, the transcendental exercise by which man left the cave-to-so-called-modern-man
wouldn’t have happened, and any registry-worldview/dimension (retrospective, present, prospective) that fails its own de-mentation (supererogatory—ontological—de-mentation—or—dialectical—de-mentation—stranding—or-attributive-dialectics) as to elucidation-and-superseding-of-its perversion-of reference-of-thought as-preconvergingly apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow supererogation as-to-preconverging-or-dementing apriorising-psychologism to allow for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for transcendence-as-the-grander-possibility-for-human-survival-and-flourishing is obviously failing/not-upholding its ‘own homework’ for the bigger picture in the human species survival-and-flourishing scheme, notwithstanding it is at the backend of the institutional-cumulation/institutional-recomposure—of—the-human-institutionalisation-process! As an anthropopsychological disposition, rational-realism as notional—deprocrypticism just like all successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity in emphasising increasing realism counter-intuitively to a naïve temporal take is actually a ‘positive-minded/well-meaning disposition with respect to man/the-human-species’ with the idea that ‘it is better working with what intemporally/ontologically is (that is, the-Good/understanding/notional—reification—gesturing—in—prospective_psychoanalytic—apriorising/axiomatising/referencing—of—attendant—ontological-contiguity—ferred—existentialising/contextualising/textualising—contiguity )—conflatedness in—preconverging—disentailment—by—postconverging—entailment/<amplituding/formative—epistemicity>causality as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity) to achieve the best intellectual-and-moral outcome for man’ than ‘working with what-one-wishes’
from a wrong temporal/impression-driven construal’. The idea of understanding the ontology of
human temporal mental defect is not to ‘idle’ in a temporal circularity that defeats-and-debase
the grandor of a universal/intemporal projection but rather strives to better stir man towards
the intemporal-and-ontological as virtue, an exercise which while of ‘presencing—
absolutising-identitive-constitutedness consummated/forfeiting posture’ with regards to
human temporality/shortness wouldn’t however acquiesce to the naïve disconcertment that
takes the ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting
posture’ of intemporality/longness for temporal correctness towards which the intemporal-
disposition is definitely intransigent and uncompromising for effective intemporal-preservation-
entropy-or-contiguity—or—ontological-preservation. Such a rational-realism as
notional—deprocrypticism disposition views the fundamental anthropopsychology drive for

That is, knowledge-notionalisation involving grasping and understanding both the ignorances/desublimation/temporal-dispositions and ideals to better skew/deferential-formalisation-transference towards idealism as the fulsome ontology, and not failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to understand or overlooking the ignorances/desublimation/temporal-dispositions as the temporal on the wrong basis that all that matters is the ideal as intemporal. Furthermore, temporal-dispositions tendency to pervert/dement/subknowledge-(preconverging-or-dementing -as-if-of-sound-knowledge)/mimick-and-syncretise at uninstitutionalised-threshold\(^1\) with the dialectical consequence of the development of the <cumulating/recomposing–attendant-ontological-contiguity >-successive registry-worldviews/dimensions (institutionalisations) validates the appropriateness of striving rather for transversality-<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ and not nested-congruence to uphold intemporality\(^5\), and hence a complete ontology. To put it in other terms, for instance, transversality-<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–
of ‘keeping the faith’ only in the intrinsic operation of rules of arithmetic (transversality
<for-sublimating–existential–eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated ‘motif-and-
apriorising/axiomatising/referencing’ among interlocutors, in principle or notionally, so that at all times it is always about the intrinsic reality of the arithmetic and not the agreement-
disagreement of any human interlocutors as we are all mortals and likely to corrupt such intemporal rules with our mortality out of an intemporal frame of reference that is transcendental-enabling/sublimating/supererogatory–de-mentativity) is vital to preserving ‘ontological arithmetic’ as transcendental-enabling/sublimating/supererogatory–de-mentativity, whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with other humans (interlocutors logical nested-congruence) instead of intemporal exercise, it is obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be corrupted and/or teleologically-degraded as more likely than not the intemporality/purity of mathematics will be compromised to human mortals stakes of social-and-temporal-trading as social-aggregation-enabling, and so as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance/<including-virtue-as-ontology>. * It should be noted that in de-mentioning (supererogatory–ontological–de-mentioning-or-dialectical–de-mentioning—stranding-or-attributive-dialectics), in-a-contiguity-of-increasing-ontological-normalcy/postconvergence dialecticism of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity involving the transcended and the transcending dimensions, the terms highlighting the transcended dimension like decandored, oblongated, dialectically-out-of-phasing/dialectically-primitive, etc. (as to its superseded Being-development/ontological-framework-expansion–as-
to-depth-of-ontologising-development-as-infrastructure-of—'meaningfulness-and-teleology')
do not carry the same connotation as a shallower temporal analysis intradimensional to the
transcended dimension (as to its given institutional-development–as-to-social-function-
development and living-development–as-to-personality-development so-referenced to its given
Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of—'meaningfulness-and-teleology'). The idea is not to idle in
articulating meaningfulness within the dimension in need of transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity. For instance, a positive mind’s
articulation of defective meaningfulness in non-positivism/medievalism registry-
worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in
terms–as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful
purposefulness but rather to project a positivistic worldview’s transcendental meaningful
purposefulness. In that sense, actually for the social scientist and philosopher words like
dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the
ordinary and temporal connotations of stigmatising under a temporal extricatory
preconverging–de-mentating/structuring/paradigming. Rather, these are critical and actively
sought after notions that provide the ‘dialectical backdrop’ for enabling prospective
transcendence-and-sublimity/sublimation/supererogatory—de-mentativity by psychoanalytic-
unshackling/memetic-reordering/institutional-recomposing. The idea is that these notions are
veridically dialectical notions that apply in all transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity unlike a simplistic ‘history fixating
conceptualisation’ will have. In other words, our non-positivism/medievalism ancestors’
possibility of being-represented/mental-devising-representation as dialectically-or-
contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive
construction of a superseding/transcendental registry-worldview/dimension that brought about
the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in a notional~deprocrypticism institutionalisation/intemporalisation with respect to procrypticism. In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are ‘capacity-wise same’ as per notional~firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective~ontological-normalcy/postconvergence> going by a preconverging/postconverging~de-mentating/structuring/paradigming of mentation-capacity (shortness-of-register-of—meaningfulness-and-teleology to longness-of-register-of—meaningfulness-and-teleology) with respect to the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, but for the semblance of the superiority of latter registry-worldviews/dimensions which is nothing but the result of being at the backend of the institutional-cumulation/institutional-recomposure¬as-to—historiality/ontological-eventfulness /ontological-aesthetic-tracing¬perspective~ontological-normalcy/postconvergence¬reflected¬epistemicity-relativism-determinism> process. Ontological-normalcy/postconvergence equally involves articulating the possibility for the supersedingness of the intemporal-disposition over temporal-dispositions as intemporalisation/institutionalisation, and so, involving ‘notional~firstnaturedness—temporal-to-intemporal-dispositions¬so-construed-as-from-perspective~ontological-normalcy/postconvergence> accountability’ beyond an ‘idle temporal-dispositions stigmatisation’. In that spirit, it can be reasoned that the intradimensional ‘ontological blindspot’ in human mental-devising-representation (wherein temporal perversion-of-reference-of-thought¬as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> by miscuing, and in subsequent derivation of disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-

In this regard, the hermeneutic/reprojecting/supererogating/zeroing exercise originates from an even more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this ‘rather relatively benign idiosyncrasy’ in this paper as the reader may come across and is the explanation for many of the author’s insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and creative insight that allows the hermeneutic/reprojecting/supererogating/zeroing design in a ‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’ analogical to a twisty puzzle cube exercise in order to infer and arrive at a profoundly explanatory hermeneutic/reprojecting/supererogating/zeroing insight extending to the possibility of a ‘creative existentialism (full-existential-depth-implications) storying construal’
which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibilities for transcendental institutionalisation/intemporalisation of notional–deprocrypticism (superseding the vices-and-impediments\textsuperscript{13} of, as well as human emancipation over, procrypticism). Such ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness\textsuperscript{13} as dialectical transformation as prospective\textsuperscript{83} reference-of-thought of renewing existentialism/full-depth-of-existential-implications of transdimensional-meaningfulness–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in various shades is just as critical for the necessary reconstitutive insight (deconstruction) that can be highly evasive and difficult to fully grasp at different registry-worldviews/dimensions meaningful-references or rather dialectically successive existentialisms. - A ‘circular dialectical dynamism of organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of- reference-of-thought’–as-conflatedness\textsuperscript{13} -or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{99}) by virtue of intemporal higher teleologies, distracted by threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation between ‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism, due to temporal and/or perverted/subknowledging/mimicking degraded-teleologies; in the psychoanalytic-unshackling process that explains transcendental-dialecticism transdimensionally/ across-registry-worldviews/dimensions as reflected/perspectivated as soundness-or-ontological-good-faith/authenticity\textsuperscript{69} -of- reference-of-thought/candoring-and-dialectically-in-phase with regards to organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of- reference-of-thought’–as-conflatedness\textsuperscript{13} -or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{99}) and as oblongated/decandored-and-dialectically-out-of-phase with regards to threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation between ‘attendant-

To further elucidate, the underlying idea of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness of ontological-reprojecting (deconstruction/ontological-reconstituting/organic-comprehension-thinking) holds that ‘critically what matters with respect to ontology and virtue is simply and completely intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective), and holds that other and subsequent notions are as pertinent as they are intemporally-preservational and where those same supposed notions social use was not intemporally-preservational but perverted/subknownledged/mimicked/confounded, their ontological and virtuous validity is nullified; as it is their relay of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation without notional-discontiguity/epistemic-discontiguity in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-< iterative-looping–set-of-dereifying-hollow-narratives-and-acts’ that matters.’ What’s the meaning of being good-natured/kind/humble/responsible/friendly/sociable/etc. in a subknownledged or perverted or corrupt social-setup or a philosophically-underdeveloped but presumptuous meaningful context (H.G. Well’s country of the blind preconverging–de-mentating/structuring/paradigming, for instance), or worst still in teleologically-degraded social situations that may be mobbish or genocidal, wherein by our illusion-of-the-present/present-consciousnessas
we apparently demonstrate such qualities but ontologically we aren’t veridically intemporal-preservational? And even more pertinent, what will those same qualities mean at the uninstitutionalised-threshold\textsuperscript{102} of recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation, positivism, and prospectively deprocrypticism, with their evolving reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99} wherein prospective meaningfulness-and-teleology\textsuperscript{99} is beyond-the-consciousness-awareness-teleology -\textsuperscript{in-preconverging-existential-extrication-as-of-existential-unthought}. The only answer that cuts it in all ways, is inevitably intemporal-preservation-entropy-or-contiguity–or-ontological-preservation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and- apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality (mentation-capacity-wise, as longness-of-register-of-meaningfulness-over-shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{99}, more than just an abstraction as it carries the notion of a contiguous existentialism/full-depth-of-existential-implications transdimensional-meaningfulness/memetic-refinement as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness\textsuperscript{11} in dialectical transformation as of prospective reference-of-thought tied to the intemporal-preservation-entropy-or-contiguity–or-ontological-preservation). The idea of conceptualising morality out of such ontology-driven basis is more or less

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of its prior relative-ontological-incompleteness—reference-of-thought, as what is precedingly warranted is the preconverging-or-dementing—apriorising-psychologism and decentering of positivism–procrypticism—reference-of-thought beyond its <amplituding/formative—epistemicity>totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence{(implicitd ‘nondescript/ignorable—void ’ as-to—presencing—absolutising-identitive—constitutedness }}, and so beyond-the-consciousness-awareness-teleology—in—preconverging—existential-extrication-as—of—existential-unthought> ; and this idea we can grasp from our vantage position with regards to a non-positivism/medieval setup striving to uphold its—reference-of-thought psychologism which we understand is prospectively a relative ontological-incomplete—reference-of-thought, however the bigger issue difficult for us to envisage is rather in placing our own minds as not in a postconverging-or-dialectical-thinking—apriorising-psychologism and centered but rather a preconverging-or-dementing—apriorising-psychologism and decentered position, as implying the need for prospective institutionalisation as notional—deprocrypticism

The reason behind this conclusion is that in all registry-worldviews/dimensions apart from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism, the reference-of-thought ‘fundamentally carries an underlying defect of relative-ontological-incompleteness’ irrespective of the arising of a reference-of-thought incidental issue as of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance in the very first place and so beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication-as-of-existential-unthought>, that makes it fundamentally ontologically unsound; and as highlighted before the non-positivism/medieval state of being superstitious and non-positivistic is an underlying foundational problem (as the
issue of psychopathy and social psychopathy implies beforehand/as-of-a-priori an ontologically-veridical engagement that ‘doesn’t recognise our contending status as postconverging-or-dialectical-thinking—and-apriorising-psychologism and centered in the very first place’ but rather that our procrystalism—or—disjointedness—as-of-reference-of-thought implied meaningfulness-and-teleology is preconverging-or-dementing—and-apriorising-psychologism and decentered; as the starting point of distractive-alignment-to-reference-of-thought—is rather in reflecting the prior relative-ontological-incompleteness-of-reference-of-thought

circularly upholds procrypticism–or–disjointedness-as-of-reference-of-thought of apriorising/axiomatising/referencing/intelligibility/setting/measuring/instrument. For instance and as stated before, such a statement and mental-disposition of the type Socrates or Rousseau by their relative asceticism as of postconverging-nonextricatory-existential-preempting-of-existential-unthought as compared to others of their statuses (conjugated as of various shades of temporal teleologically-degraded synopsising-depth of meaningfulness-and-teleology psychology) in their respective social-setups from a non-transcendental as of its perspective by its syncretising/circularity/interiorising/akrasiatic-drag is rather circularly impervious and will not recognise any dissociation between such a mental-projection/psychologism prior relative-ontological-incompleteness-reference-of-thought and the mental-projection/psychologism prospective relative-ontological-completeness-reference-of-thought of Socrates or Rousseau in construing the grander notion of social aetiology/ontological-escalation as of a transcendental-perspective (as of a teleologically-elevated intemporal synopsising-depth of meaningfulness-and-teleology psychology contrasted to such teleologically-degraded shades-of-temporal synopsising-depth of meaningfulness-and-teleology). This elucidation is important because an insightful storied-construct/ontologically-valid-narration with regards to psychopathy and social psychopathy and the overall relative-ontological-incompleteness-reference-of-thought as the underlying disjointedness-as-of-reference-of-thought of procrypticism relative to prospective ontological-completeness-reference-of-thought as notional-deprocrypticism will fundamentally be based on such contrastive mental-projections/psychologisms as of non-transcendental as

Going by an ‘ontologically contiguous comparison’ with reference to Arithmetic where a condition was to cause a character to resolve additionality as 1+3=5, 2+5=8, 5+6=12, etc., the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistem-or-notional-projective-perspective) of additionality with regards to this character will always involve as of reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\) that subtracts 1 from the results of that character’s operations of additions (as the imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual principles of additionality (its traditional reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\) of simply summing directly) will be existentially rendered null and void in order to allow for intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation. Now suppose such a framework (reference-of-thought) for resolving Arithmetic calculations now involves the contribution of 6 characters working in collaboration with each contributing their specific arithmetic principle role while taking cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-completeness-of-reference-of-thought, and so taking into account the prior mentioned character with its defect of additionality; wherein such a framework is BODMAS-based with character B working on brackets operations, character O working on order operations, character D working on division operations, character M working on multiplication operations, the priorly mentioned character A working on addition operations and character S working on subtraction operations, and so (from ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective) setup for resolving arithmetic calculations (ontological-completeness-of-reference-of-thought setup). Naturally, the reference-of-thought:categorical-imperatives/axioms/registry-teleology\textsuperscript{99}, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (as the usual BODMAS Arithmetic rules) should apply but this is no longer existentially the case in this instance, where the equation is for instance \(7(\sqrt{64}+3-1)-(6+4-2)\div2\). Going by the natural arithmetic rules for BODMAS, the equation will be resolved first with the brackets, and within the brackets for the first brackets the order operation is first carried out, that is, \(\sqrt{64}=8\) and then addition \(8+3=11\), then subtraction \(11-1=10\). For the second brackets, addition as \(6+4=10\), then subtraction as \(10-2=8\). The division operation then follows with the second brackets result as \(8\div2=4\). Then the multiplication operation with the first brackets result as \(7\times10=70\). Finally, comes the subtraction with \(70-4=66\) as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence).

But then, in this particular case where character A (Addition) operation of additionality is perverted as stated above as a result of its condition, the equation will resolve as \(\sqrt{64}=8\), \(8+3=12\), \(12-1=11\), for the first brackets, and \(6+4=11\), \(11-2=9\), for the second brackets. The
division operation with the second brackets yields $9 ÷ 2 = 4.5$, and the multiplication operation with the first brackets yields $7 \times 11 = 77$. Finally, subtracting both brackets gives $77 - 4.5 = 72.5$ as the final result which is ontologically wrong (from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective), and points to the fact that all the 6 BODMAS characters, not only A (Addition) the additionality defect character have failed ontological-veridicality/ontological-contiguity as of their relative-ontological-incompleteness-induced,-'threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation' as to- 'attendant-intradimensional'-prospectively-disontologising-preconverging/dementing-'apriorising-psychologism' (from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective), as of reference-of-thought--categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity--ontological-preservation are not by themselves the definitive basis for ontology/intrinsic-reality/existential-reality as these are only as pertinent as they are ontologically-veridical/ontologically-continuous/contextually-contiguous (in ontological-normalcy/postconvergence). This ontological state with respect to all the characters registries (not only A) is known as perversion-and-derived-‘perversion-of-reference-of-thought-as-to-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ as-of-unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought, as ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective) precedes projected <amplituding/formative> wooden-language-〈imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology〉, with ‘reference-of-thought—categorical-imperatives/axioms/registry-teleology’
nothing more but human mental inventions (construed by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) for the sake of achieving ontology/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and pertinent in that regard only when not-failing/upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence

veridicality/intrinsic-reality (as the appropriateness-of-reference-of-thought-as-of-conflatedness over A’s induced preconverging-or-dementing-reference/ perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation ). Thus the new categorical-imperatives/axiom/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation deployed with respect to resolving calculations (ontological-completeness-of-reference-of-thought will integrate the notion that additionality requires subtracting 1 from its results as well as taking cognisance that other characters will be perverted in their operation if they do not take cognisance of A’s (Addition’s) condition and subtract 1 from it before their operation (whether unconsciously by ignorance, expeditently by affordability, and consciously by opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). For instance, B (Brackets) is still in a position to articulate an ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective) by factoring in all the defects as follows: by reverting all other characters operation up to the point they had to deal with A (Addition) and subtracting 1 from the results at these point before allowing the other characters operations, which then yields the right result. That is 77÷7=11 and 4.5×2=9 as reverting back, then 11-1=10 and 9-1=8 to factor in A’s (Addition’s) additionality defect to yield the results of the two brackets. Before then letting back the division and multiplication operations for both brackets respectively, giving 8÷2=4 and 7×10=70. Finally 70-4=66, giving the final result that is ontologically-veridical (in ontological-normalcy/postconvergence). So this approach is the new reference-of-thought~categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontologically-veridical/of-intrinsic-reality that B should be

In the bigger scheme of things, this calls for a prospective registry-worldview/dimension institutionalisation articulation that supersedes/overrides such a temporal dynamism of\textsuperscript{74} perversion-of-\textsuperscript{3} reference-of-thought-\llbracket <as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, \rrbracket dispositions at various social roles going from A’s condition, and the potential overlooking of the intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation dispositions by all the other

fundamentally the conjugation of such an \(\text{de-mentation-} \langle\text{supererogatory–ontological–de-

speaks fundamentally of the uninstitutionalised-threshold of that registry-

as implying the prior mental-devising-representation is appropriate for prospective
institutionalisation as it needs to undergo its own requisite ‘postconverging-or-dialectical-
thinking’–psychology or psychology-of-mention-dynamics or natural–psychological-
dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to
enable and regenerate intemporal-preservation-entropy-or-contiguity–or–ontological-
preservation. This by itself explains why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing—apriorising-psychologism with respect to one another (from the prospective perspectives), and not that we are talking about different species of humans, as transcendentalism for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation is the foundational concept retrospectively, presently and prospectively; even though by the illusion-of-the-present/present-consciousness/epistemic-totalising ~self-referring-syncretising/mirage, all dimensions, and not only ours, tend to think of themselves as definitely mentally straight/candored-and-dialectically-or-contendingly-in-phase with no uninstitutionalised-threshold which is obviously fallacious. The reason for this is that ‘postconverging-or-dialectical-thinking—apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity reference-of-thought (as mental straightness/candored-and-dialectically-or-contendingly-in-phase) starts-and-ends/is-sound at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation where the reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy/configuity is in ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective). Where instead such reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation is of notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing —qualia-schema/non-ontological-and-non-contending-referencing—thus-ontologically-or-contendingly-reflected-or-perspectivated-as-of-preconverging-or-dementing—apriorising-psychologism (not-veridical-thinking-reference-rather-preconverging-or-dementing—reference), it is dementing (preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and—

<amplituding/formative–epistemicity>totalising–self-referencing-

uninstitutionalised-threshold<sup>22</sup> that requires renewed mental-devising-representation, and this
is not ontologically consistent and fundamentally undermines and overlook the idea of an

the registry-worldviews/dimensions, the apriorising/axiomatising/referencing/intelligibilitysetupteasuringinstrument ‘beyond any one
registry-worldview/dimension meaningfulness’ like ours is perfectly possible in garnering a
more profound and informed insight on human nature whether presently, retrospectively to
prospectively. In the bigger scheme of things, just as logic can only be grounded on coherent
and concrete ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’ based
articulations for its ontological effectiveness and veridicality, human ontological transcendental
possibilities arise from human individuations that correspond to the appropriate ‘intemporal-

made possible by the ‘so-renewed

Memetism as suprastructural-meaningfulness is able to do that because it can proxy ontological-normalcy/postconvergence in a dynamic dialectical juxtapositioning/doppler-thinking of ‘postconverging-or-dialectical-thinking”—apriorising-psychologism mental-devising-representation’ and ‘preconverging-or-dementing”—apriorising-psychologism mental-devising-representation’ from successive ontological dialectical-moments of human shallow limited-mentation-capacity—(as of relative apriorising/axiomatising/referencing—{of—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—constitutedness—in—preconverging—entailment} to deeper limited-mentation-capacity—(as of relative apriorising/axiomatising/referencing—{of—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—confatedness—in—{preconverging—disentailment—by—postconverging—entailment} behind the successive institutional-cumulation/institutional-recomposure—{as—to—historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological—eventfulness}

The conceptual pertinence in this Arithmetic ontological-contiguity°7 comparison can be rearticulated as follows for greater clarity. As previously
highlighted the developmental psychology of the psychopath from childhood to adulthood, involves a child psychopath who is dysfunctional as its subknowledging\textsuperscript{3111}-impulse/compulsive-dementing\textsuperscript{3111}/postlogism\textsuperscript{3111} in hollow-constituting\textsuperscript{3111}-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation\textsuperscript{3111} is relatively transparent to interlocutors and it induces a ‘delirious effect’ given that it hasn’t yet maturated, is not yet indirect, is not yet spatialising, is not yet credulous and is not yet crafty in ‘its postlogism’\textsuperscript{3111}-as-of\textsuperscript{3111} compelling–nonconviction/madeupness/bottomlining\textsuperscript{3111}-\textsuperscript{<decontextualising/de-existentialising-of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising-of-attendant-ontological-contiguity >;in-shallow-supererogation \textsuperscript{3111}-<as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>}; conditions which it increasingly attains from adolescence to adulthood with a corresponding inducing of the development of social psychopathy as its psychopathy conjugates/inflects/gets-mimicked with the temporal-dispositions of ignorance, unconsciously, and consciously with affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, in an absolving/fleeting/escaping-reflex–logic\textsuperscript{1} eliciting social psychopathy involving moving from various non-veridical/hollow sets-of-postlogic-in hollow-constituting\textsuperscript{3111}-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation\textsuperscript{3111} in postlogic-backtracking\textsuperscript{3111}-iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’\textsuperscript{3111} as absolving/fleeting/escaping-reflex–logic\textsuperscript{1}, to others and from different sets of interlocutors to others. It is obvious that A’s condition/subknowledging\textsuperscript{3111}-impulse/compulsive-dementing disposition as an adult psychopath isn’t systematic with every interlocutor but rather it arises only in the face of perceived–social-stake-contention-or-confliction-and-confliction-targets and
Furthermore, the profoundness of the postlogism-slantedness manifestation is directly related to the gravity of the perceived-social-stake-contention-or-confliction the situation and how the ‘evolving social psychopathy situation permits’. Hence the notion of A having an absolute condition wherein it increments additionality by 1 is rather an absolute ideal conceptualisation, as in reality it is a question of degree and highly circumscribed with the adult psychopath who needs to have a postlogic-equilibrium that can be socially-functional-and-accordant, unlike the dysfunctional child psychopath. This comparison equally articulates the nature of uninstitutionalised-threshold. Consider B (together with the other BODMAS characters) in the instance where despite A’s conditions they were to stick to the registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology thus effectively producing the wrong result 72.5 for the particular equation which is not intemporal preservational (not ontologically ontological-normalcy/postconvergence) and likewise for all other equation where A’s condition applies, we’ll then be talking about an uninstitutionalised-threshold. The implication is that the registry-worldview/dimension then loses its qualification as being intemporally-preservational, and the psychological tool that is then elicited (from a prospective and new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as articulated with the arithmetic technique that corrected the equation result from 72.5 to by adjusting for A’s condition which is now the reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing-reference/ontologically-veridical/ontological-contiguity registry-worldview/dimension) is known as de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mention—stranding-or-attributive-dialectics). Even though going by its illusion-of-the-present/present-consciousness, the superseded registry-worldview/dimension will still wrongfully strive for a mental-devising-representation at that uninstitutionalised-threshold of
teleology\textsuperscript{9}, for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation of positivistic meaningfulness. This insights perfectly highlight that our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t has any end to itself but for such dialectical readjustments to ontological-veridicality as ‘postconverging-or-dialectical-thinking\textsuperscript{21}–apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity\textsuperscript{9}–of\textsuperscript{7} reference-of-thought/candored-and-dialectically-or-contendingly-in-phase with regards to an intemporal-preservational registry-worldview/dimension institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and with superseded/transcended registry-worldviews/dimensions which are not intemporal-preservational at their uninstitutionalised-threshold\textsuperscript{102} as preconverging-or-dementing\textsuperscript{\textdagger}–apriorising-psychologism/oblongated/decandored-and-dialectically-or-contendingly-out-of-phase explaining the nature of mental-devising-representation of all institutional-cumulation/institutional-recomposure\textsuperscript{\{as-to-\}}

Another aspect highlighted by the Arithmetic equation comparison is with respect to the appropriateness and defects of meaningful references with respect to ontological-veridicality/intrinsic-reality. The comparison highlights 3 transversality\textsuperscript{\langle}for-sublimating–existential-eventuating/denouement\rangle–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing\textsuperscript{\rangle} pedestals of meaningfulness. Firstly, A’s condition with respect to additionality with the idea that it is bound to fail any arithmetic calculation involving additionality. Thus the subknowledging\textsuperscript{\textdagger}–impulse/compulsive-dementing pedestal is of notional-discontiguity/epistemic-discontiguity\textsuperscript{\langle}shallow-supererogation -of-mentally-
temporal eliciting of the temporality\textsuperscript{96}/shortness of others is the sufficient basis for getting one’s way) as opposed to intrinsic-attribution wherein the intrinsic ontological-veridicality of meaning is the complete and sufficient basis for its pertinence and upholding. This subknowledging\textsuperscript{20}-impulse/compulsive-dementing\textsuperscript{20} disposition points out that the actual and given meaningfulness being subknowledged/pervertedly-represented is ontologically-veridical both registry-wise (soundness-or-ontological-good-faith/authenticity\textsuperscript{34}-of-reference-of-thought-wise) and logic-wise (the normal arithmetic operation of the BODMAS equation) as it is intemporally preservational and thus ontologically-veridical/reference-of-thought/ontological-contiguity\textsuperscript{77}. It is this pedestal that is the organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology\textsuperscript{99}) pedestal, organic as it is both registry-wise (soundness-or-ontological-good-faith/authenticity-of-reference-of-thought-wise) and logic-wise striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. It is the superseding and intemporal pedestal for articulating ontological meaningfulness (intrinsic-attribution). The third pedestal as demonstrated involves the integrating and amplituding/formative-epistemicity\textsuperscript{77}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34} by temporal-dispositions both unconsciously (ignorance) and consciously (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) with A’s condition/sub-knowledging impulse as if it was ontologically veridical, and obviously leading to the wrong result thus failing/not-upholding-as-of-apriorising/axiomatising/referencing\textsuperscript{34} intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In the case with B it involved resolving the Arithmetic equation as if A’s condition was appropriate resulting in \(0.5\) which is ‘epistemically-decadent in notion-al-discontiguity/epistic-discontiguity <shallow-
supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema’ rather than which is ontologically veridical. This is the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism pedestal, as registry-wise it is not striving for intemporal-preservation-entropy-or-contiguity–or-ontological-preservation and so fundamentally its logical-contention is voided (as apriorising–registry precedes and defines logical pertinence), such that such a disposition that integrates subknowledgeing-or-mimicking-impulse/compulsive-dementing registry-worldview-wise/dimensional-wise speaks of the registry-worldview/dimension as in de-dentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) at that uninstitutionalised-threshold. The fourth meaningful reference is actually a variance of the given organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology) pedestal which is registry-wise and logic-wise pertinent. So we then speak of an utter/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation (not incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation) ‘ordered construct’ of the meaningfulness of the intellectual aetiologisation/ontological-escalation as the organic-comprehension-thinking (organicism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness—ontological-reprojecting/longness-of-register-ofmeaningfulness-and-teleology) pedestal reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the registry/registry-worldview defects of both the subknowledging—impulse pedestal and the threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—attendant-intradimensional—prospectively-disontologising—preconverging/dementing—apriorising-psychologism pedestal. Ontologically-speaking, a temporal naivety with regards to psychopath and its protraction as social psychopathy is that going by the dynamism of its faulty-mentation-procedure-deception-or-urge towards ‘extrinsic-attribution’ (the eliciting of the temporality/shortness of others is the sufficient basis for getting one’s way), is that the number of people ‘convinced’ by perverted extrinsic-attribution involving social-and-temporal-trading can have any bearing to the ontological-veridicality/intrinsic-reality in any way. While temporally-speaking, psychopathic situations often lead to a-country-of-the-blind-and-the-one-eye kind of scenario, wherein a thousand blinds may strive to convention out the one-eye, but then it wouldn’t still cut it, ontologically-speaking. (Certainly, it is equally and very possible that if such a one-eye isn’t beholden to a ‘sense of intemporality’ and it is rather temporally-inclined, it might equally take the easier route of reasoning in terms—as-of-axiomatic-construct of country-of-the-blind temporality/shortness whether with respect to temporally outdoing or undermining the
phenomena by acting in a manner that is overall of a temporal/shortness-of-register-of-
meaningfulness-and-teleology\(^9\) nature. But that will still be temporality\(^7\)/shortness and the
notion of an aetiologisation/ontological-escalation as of intemporality\(^9\)/longness will no more
be better advanced. Further beyond and more than just with respect to one case of psychopathy
but as of intellectual-and-moral-inequivalence/non-correspondence construing the \(^10\) universal
human social phenomena of psychopathic postlogism\(^7\) and conjugated-postlogism\(^7\) across
space and time together with the bigger insight of grasping human nature and the overall
possibilities thereof. Insightfully, as well it won’t be surprising that such a \(^10\) universal
projection will possibly meet with a more protracted-and-protracting psychopathy and social
psychopathy manifestation going by overall human temporal-to-intemporal mental-disposition
existential-form-factor as varied temporal-dispositions come into the frame and are elicited, just
as an intemporal projection within a non-positivism/medievalism setup aspiring for a
positivistic registry-worldview/dimension-level resolutive construal of their corresponding

of the phenomenon as varied temporal-dispositions come into the frame and are equally

of postlogic\(^7\) perversion-of-reference-of-thought\(<\text{as-preconvergingly-}

terms as it is reflected/perspectivated as de-mentation—(supererogatory—ontological—de-

mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics). The critical reason

for this is that the intemporal-disposition is rather inclined to be utter about intemporal-
preservation-entropy-or-contiguity—or—ontological-preservation as the complete and sufficient

stand for knowledge and virtue with anything else being denaturing, much in parallel as intrinsic-reality transcendental-enabling/sublimating/supererogatory—de-mentativity doesn’t accommodate human temporality, and so will not even entertain involving in anyway with social-and-temporal-trading exercise which is non-ontological (since it is fundamentally a perversion-and-derived—perversion-of—reference-of-thought—<as-preconvergingly-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > of a different nature

in a superseded registry-worldview/dimension like non-positivism/medievalism registry-

worldview/dimension which should provide an even greater insight analysing from our present perspective, and we can then comparatively project this with respect to notional–deprocrypticism and procrypticism. For instance, accusations of witchcraft in non-positivism/medievalism societies are ontologically about subknowledging\(^\text{94}\)/perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as-of-unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought-preconverging-or-dementing–apriorising-psychologism based on the fact that such societies didn’t develop and integrate notions of empirical and rational cause-and-effect positivistic ideas as reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (a mentation-capacity that further furthers the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as modern-day positivistic registry-worldview), as it universally informs the present positivistic worldview and thus the impossibility to sound intelligible in case such an accusation of witchcraft is made today. So structurally, the non-positivism/medievalism society is shaped-and-inclined to integrate and entertain phantasmagorical notions of someone being accused as a witch or sorcerer. We can garner a similar insight just as with the ‘disambiguation of notional–firstnaturedness—temporal-to-intemporal-dispositions–so-construed-as-from-perspective–ontological-normalcy/postconvergence’ as ontological-escalation/aetiologisation’ above, where supposed an intemporal mindset/ reference-of-thought who is in a non-positivism/medievalism society was to be accused of witchcraft by someone inclined to accuse people of witchcraft (because of a pathological-condition/subknowledging-impulse/compulsive-dementing) and who obviously is wrong, as we know today that the notion of witchcraft is ontologically unsound and ridiculous as the ability to perform magic and the like by anyone cannot be demonstrated veridically. The disposition to accuse people of
witchcraft will be the subknowledging\textsuperscript{1}\textsuperscript{-}-impulse/compulsive-dementing\textsuperscript{2} pedestal. The disposition to entertain and further exploit such situations (as anthropologists perfectly understand the abhorrent role of such notions as witchcraft in the social-stake-contention-or-confliction of non-positivism/medievalism societies) in conjugation of temporal-dispositions that are \textsuperscript{10}universally-recurrent or \textsuperscript{10}universal across all times (postlogism\textsuperscript{7\textsuperscript{\textsuperscript{\textsuperscript{-}}-slantedness, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) is the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation \textsuperscript{-as-to-`}attendant-\textsuperscript{-}\textsuperscript{-}\textsuperscript{-}\textsuperscript{-}intradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-psychologism\textsuperscript{> pedestal which is rather an extricatory preconverging–dementating/structuring/paradigming (of the situation, to fulfil temporal inclinations or distractive-temporal-prioritisaton and not intemporal preservation); given the lack of a social universal-transparency\textsuperscript{1\textsuperscript{-}}-{\textsuperscript{\textsuperscript{\textsuperscript{-}}}transparency-of-totalising-entailing,-as-to-entailing-\textsuperscript{-}\textsuperscript{-}\textsuperscript{-}\textsuperscript{-}\textsuperscript{-}amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} of the idea that the notion of witchcraft is bogus, with corresponding lack of perceived untenability/internal-contradiction/internal-incoherence/institutional-constraining of such a notion, thus a collective-consciousness that doesn’t register it as preconverging-or-dementing\textsuperscript{2\textsuperscript{-}}-apriorising-psychologism (as we do today) and finally, no ontological alienating reason for not believing, endemising and enculturating the phenomenon of witchcraft. The organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-\textsuperscript{8}\textsuperscript{-}\textsuperscript{-}reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{9\textsuperscript{-}}) pedestal will rather be an inclination to see that the lack of empirical and rational \textsuperscript{8}reference-of-thought–\textsuperscript{-}categorical-imperatives/axioms/registry-teleology\textsuperscript{8\textsuperscript{-}},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the non-positivism/medievalism registry-worldview/dimension is actually, in the bigger scheme
of things, what is at the basis of not only the ‘one locale accusation of witchcraft, specifically so with this individual but its general integration as a socially viable and entertained notion in this locale’. But more critically, from its intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming to be intemporally-preservational, more than the notion of just attaining only to the ‘one-locale’ accusation of witchcraft, for the intemporal mindset/reference-of-thought in organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) the problem is now the insight about the intellectually and morally wrong in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of accusation of witchcraft and the implications across all societies of the human species qualified as non-positivism/medievalism, with the bigger ontological implications of this specific accusation rather being how is this enlightening de-mentatively/structurally/paradigmatically about the endemisation and enculturation of vices-and-impediments associated with superstition in the said registry-worldview/dimension. That is, the problem is now about the aetiologisation/ontological-escalation that can be made to address such lack of positivistic empirical and rational notions in all possible human societies qualified as non-positivism/medievalism. In other words, the graver ‘de-mentation
ontological-reprojecting pedestal is ‘why is society non-positivism/medievalism, and it is not in

disontologising-preconverging/dementing –apriorising-psychologism>/temporal prioritisation pedestal that entertains notions of witchcraft (as the intemporal mindset/ reference-of-thought is thus anecdotally ‘boxing far below its weight’). Rather it is about articulating a comprehensive de-mentative/structural/paradigmatic dialecticism reasoning-through/utterion (not reasoning-with incrementism-in-relative-ontological-incompleteness—enframed-conceptualisation with temporal-dispositions mindsets) between non-positivism/medievalism and positivism for prospective ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural-psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring away from the vices-and-impediments of a non-positivism/medievalism superstitious mental-disposition towards a prospective positivistic mental-disposition which is the virtue that is the ‘de-

straightness/candored-and-dialectically-or-contendingly-in-phase (thinking) is critical in grasping the nature of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting with respect to circumventive/distractive-temporal-prioritisation-of-reference-of-thought as the former is ‘utter’ intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (and thus the requisite reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in order to arrive at /intemporal-preservation is downright uncompromisable). Circumventive/distractive-temporal-prioritisation-of-reference-of-thought involves various shades of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation temporal-accommodation with institutionalisation being rather a secondnaturing to a given set of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as per percolation-channelling-in-deferential-formalisation-transference> and a positive-opportunism—of-social-functioning-and-accordance institutionalisation constraining. This is ‘no emanance transformation’ of temporal-dispositions into the intemporal-disposition; as such a notion can only be solipsistic to individuals beyond the possibility of institutionalisation secondnaturing (point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding). Thus at the uninstitutionalised-threshold, circumventive/distractive-temporal-prioritisation-of-reference-of-thought will very well do with an outcome (other than its inherent intemporal-projection) whether it is failing/not-upholding-as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, given its solipsistic disparate nature (noncontiguous/discrete hence of notional-discontiguity/epistemic-discontiguity<-shallow-

In other words, across all times the ‘limits of thought’ is not ‘the averageness/banality/temporalisation of thought’ but rather ‘the disposition to intemporalise and ontologise human thought’, and so whether from a sense of intrinsic-reality one mortal is rightfully saying that the world is round and by expediency a majority of mortals are saying it is flat. That is the singular construct that man cannot lose across all generations to enable the perpetual existential regeneration of civilisation beyond just being a secondnatured construct as mere-institutionalised-being-and-craft (which can often actually turn out to be alien to the intemporal-disposition apriorising–registry, that we can all potentially cultivate, that created, creates, and needs to keep creating the conditions for institutionalisation perpetuation)! It should be noted that the establishment of the reality of an apriorising/axiomatising/referencing–registry’s, or in the bigger picture, registry-worldview’s/dimension’s reference-of-thought, dialectical-out-of-phasing at an uninstitutionalised-threshold\textsuperscript{22} speaks of that apriorising–registry’s or registry-worldview’s/dimension’s reference-of-thought\textsuperscript{15} de-mentation\textsuperscript{16}\textlangle supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\textrangle preconverging-or-dementing\textsuperscript{22}–apriorising-psychologism-\textlangle stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase\textrangle (as it is ‘devoid of\textsuperscript{8} reference-of-thought and correspondingly ontological-veridicality/ontological-contiguity\textsuperscript{9}’ given its epistemic-

(supererogatory—ontological—de-mentioning-or-dialectical—de-mentioning—stranding-or-

This involves maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation as enabled by de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentionation—stranding-or-attributive-dialectics) in disambiguating the intemporal-disposition as ontological and temporal-dispositions at the individuation-level; while at the registry-worldview/dimension-level it reflects the determination of the relative registry-worldviews/dimensions as of relative-ontological-incompleteness-of-reference-of-thought and relative-ontological-completeness-of-reference-of-thought. The implication is that soundness-or-ontological-good-faith/authenticity-of-reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity—ontological-preservation (ontological-normalcy/postconvergence). There is no doubt that if by some secret manner ‘some individuals from recurrent-utter-uninstitutionalisation registry-worldview/dimension’ were to appear and be able to live in our present positivistic social-setup (without us knowing beforehand that they are coming from the past to avoid inducing a confounding effect in our analysis), and intent on fully living based on the reference-of-thought-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation of the recurrent-utter-uninstitutionalisation setup, our current psychology science most probably will treat them as pathological (preconverging-or-dementing—apriorising-psychologism). At which point, implying the conceptualisation of such an ontological-mental-pathology or de-mentionation (in contrast to a physiological mental pathology) is much more a question of ‘ontology valour’ (ontology valour...
being defined as a registry-worldview’s/dimension’s ontology depth in relation to its 
conventioning limitations with respect to pure-intemporal-ontology as to ontological-
normalcy/postconvergence). But then, crazy as it may seem, this extends ontological-mental-
pathology or de-mentation conceptualisation, on those very same terms of ontology valour, not 
only retrospectively but equally prospectively, as from a prospective transcendence-and-

Actually, registry-worldviews/dimensions are rather prospectively

specific evolving percolation-channelling-<in-deferential-formalisation-transference> for prospective ontologising and ontologising-transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Fundamentally, without the possibility of de-mentativity-of-the-human-psyche-for-prospective-institutionalisation involving de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics), no registry-worldview/dimension will be transcendable (hence dementable/as-to-a-threshold-of-lack-of-thinking) for prospective institutionalisation. This is because de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) as such allows for a ‘human mentation capacity renewal’ by transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (as it is by cumulation/reordering/recomposuring the prior institutionalisation mentation-capacity for a contiguous upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that transcendence-and-sublimity/sublimation/supererogatory-de-mentativity occur) of the ‘veridical reference-of-thought of meaningfulness’ since it dements the mental-devising-representation of the old/retrospective/superseded/transcended registry-worldview/dimension ‘as not postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity–of–reference-of-thought but preconverging-or-dementing–apriorising-psychologism and dialectically-or-contendingly-out-of-phase at its uninstitutionalised-threshold and references the mental-devising-representation of the new/prospective/superseding/transcending registry-worldview/dimension as ‘effectively postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-

For instance, at its uninstitutionalised-threshold requiring a prospective positivistic registry-worldview/dimension, the non-positivism/medievalism registry-worldview/dimension which is rather superstitious/alchemic/aristocratic is rather ontologically-preconverging-or-dementing –apriorising-psychologism/dialectically-preconverging-or-dementing –apriorising-psychologism in a de-mention—(supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics) wherein its mental-devising-representation is preconverging-or-dementing –apriorising-psychologism as not thinking/unsoundness-or-ontological-bad-faith/inauthenticity–of reference-of-thought and dialectically-or-contendingly-out-of-phase while the positivistic registry-worldview/dimension mental-devising-representation is postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity–of reference-of-thought and dialectically-or-contendingly-in-phase, thus ‘granting the latter reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing–reference)’ over the former which is ‘no longer reference-of-thought’ in the sense that ‘we can’t think in medieval terms and be considered soundness-or-ontological-good-faith/authenticity–of reference-of-thought today but rather ontologically-preconverging-or-dementing –apriorising-psychologism’. This dialectical conceptualisation equally applies regarding procrypticism and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–of–meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldviews/dimensions. In fact, a deconstruction insight with regards to all the

point or the other, and so in lieu of and undermining the ontological-veridicality of the effectively veridical transcendental reality. ‘de-mention-⟨supererogatory–ontological–de-mention-or-dialectical–de-mentionation—stranding-or-attributive-dialectics⟩ ‘beats’ this counter-intuition by simply and immediately bringing to the mind an ‘overarching conceptualisation’ of a ‘de-mention-⟨supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics⟩ of superseding/transcending registry/registry-worldview-or-dimension (as straight/candored-and-dialectically-or-contendingly-in-phase) and a superseded/transcended registry/registry-worldview-or-dimension (as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); around which all other dynamic constructions fall in place (whether organic-comprehension-thinking or threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supерerogation-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism, circumventive/distinctive-temporal-prioritisation-of-reference-of-thought, subknowledge-‘impulse, etc.). The other deconstructing terms while having specific analytical bearings do not carry this all-encompassing quality that liberates from ‘intradimensional-subknowledging-normalcy’ (epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) as ‘de-mention-⟨supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics⟩ does as it further induces ‘transdimensional or memetic thinking’ by its implied ‘de-mention-⟨supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics⟩ in meeting up with ‘ontological-normalcy/postconvergence’ (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). For instance, while the term registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect<as-Being-or-ontological-or-existential–defect> brings to the mind a poor ontological disposition like the
other BODMAS characters disposition to systematically operate additioality overlooking A’s condition, but it is a sense of \( \text{de-mentation-} \langle \text{supererogatory-ontological-}\text{de-mentation-or-dialectical-}\text{de-mentation—stranding-or-attributive-dialectics} \rangle \) that carries the intuition of an uninstitutionalised-threshold \( ^{02} \), and construes a superseding/transcending registry/registry-worldview-or-dimension and a superseded/transcended registry/registry-worldview-or-dimension, and all the implications thereof. Now analysing the registry-worldview’s/dimension’s-uninstitutionalised-threshold \( ^{02} \)–defect-<as-Being-or-ontological-or-existential–defect>\(^{83}\) term thereafter, we grasp that it is the ‘<amplituding/formative–epistemicity>totalising~self-referencing-syncretising’ in ‘notional-discontiguity/epistemic-discontiguity’ –<shallow-supererogation -of-mentally- aestheticised–preconverging/dementing –qualia-schema> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of the perversion-of-\(^{74}\)reference-of-thought-<as-preconvergingly- apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \( > \) as to preconverging-or-dementing\(^{20}\)–apriorising-psychologism’ that makes it registry-worldview’s/dimension’s-uninstitutionalised-threshold \( ^{102} \)–defect-<as-Being-or-ontological-or-existential–defect>\(^{85}\) (and not about defect–of- logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation) and this carries the implications of a registry-worldview/dimension defining defect (in a dialectics of prior/transcended/superseded and prospective/transcending/superseding \(^{83}\)reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{09}\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Specifically, \( ^{1} \text{de-mentation} \) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as such implies registry-worldview’s/dimension’s-uninstitutionalised-threshold \( ^{02} \)–defect-<as-Being-or-ontological-or-existential–defect>\(^{85}\)/not-just-a-logical-

Postdication means reasoning from a basis of ontological-normalcy/postconvergence wherein
the prior/transcended/superseded registry-worldview/dimension is no longer
referenced/registered/decisioned (as \(8^3\text{reference-of-thought}\)) but ‘dialectically preconverging-or-

‘postconverging-or-dialectical-thinking\(^\text{apriorising-psychologism/soundness-or-ontological-

issue that always arises is in existentialism terms, whether with regards to an obvious human
disposition for temporal-accommodation as circumventive/distractive-temporal-prioritisation-
of-\(\text{reference-of-thought}\) of being-and-existence as conceptualised within the successions-of-
existing-in-human-life-spans or rather an abstract eternal-projecting disposition of ‘intemporal-

the articulation of meaning, being and existence is in existentialism-terms intemporally-driven
on the basis that that which is in need of transcendence-and-the-intemporal (the temporal)
cannot be seen-as-or-made-a-reference-of-intemporal/ontological-thought, and that it is exactly for that reason that human progress has been and will remain dialectically possible. That is, the reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) can only be the pedestalling of an ‘intemporal-prioritisation-of-reference-of-thought’–as-confoundedness-or-ontological-reprojecting as ontology with regards to apriorising-registry, contrasted to a circumventive/distractive-temporal-prioritisation-of-reference-of-thought-reference implying a perverted-registry reflected/perspectivated by its de-mentation{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics)}. Where the natural world is resolute with no compromise with the operation of such a notion as 1+1=2, the same cannot be resolutely affirmed in the human social-and-temporal-trading in the social world where on occasions 1+1 will add up to 5 where the effective constraining of institutionalisation is lacking. de-mentation{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics)} (stranding) has the merits of articulating that for reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) to establish veridicality, no such social-and-temporal-trading is beyond ontological-entrapment ‘by re-institutionalisation with new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation dialectically implying an de-mentation{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics)} of transcended reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in our present case, notional–deprocrypticism of procrypticism–or–disjointedness-as-of-reference-of-thought, for a de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments of our registry-worldview/dimension and just as critically the de-

Though with the weakness we must be able to rise up to, that ‘the social’ is existentially ‘emotionally involved’. But this can be and is effectively overcome by ‘appropriately \textsuperscript{103} universalising and detached meaningfulness by percolation-channelling-\textless in-deferential-formalisation-transference \textgreater ’ as devised for all formalised and institutionalised settings capable of introducing, upholding and internalising the ascendency of many a social outlying thoughts and meaningfulness which from a ‘purely mobbish social disposition’ as may arise in the extended-informality-\textless susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology \textgreater would hardly be countenanced. The bigger picture here (and of relevance to a registry-worldview/dimension transcendence-and-sUBLIMITY/sublimation/supererogatory—de-mentativity from procrypticism to notional—deprocrypticism as the de-mentative/structural/paradigmatic and general resolution of the vices-and-impediments\textsuperscript{105} together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential of the perversion-of-reference-of-thought-\textless as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \textgreater as to preconverging-or-dementing –apriorising-psychologism of positivistic meaningfulness-and-teleology\textsuperscript{74}, and specifically resolution of the implications of psychopathic subknowledging\textsuperscript{101} / perversion-of-

historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>. But the fact is that such a profound conceptualisation will have to come to terms with the reality of the implied existentialism/full-depth-of-existential-implications beyond our present sense of personhoods-and-socialhood-formation if it were to avoid platitudinising, becoming circular with dead-ends and lose its intemporal purpose and hence ontological purpose, and so for the simple reason that it is the human psyche that ‘gives-in’ with respect to intrinsic-reality as renewed/prospective ontological-veridicality, starting with that of the intellectual analyst/analysts itself/theyselves); as the human psyche gave-in from recurrent-utteruninstitutionalisation to base-institutionalisation, ununiversalisation to universalisation, nonpositivism/medievalism to positivism, and where renewed/prospective ontological-veridicality does establish a new registry-worldview/dimension transcendental postconverging–de-mentating/structuring/paradigming shift as procrypticism to deprocrypticism, then the human psyche will equally have to give-in, and by the way all transcendence-and
sublimity/sublimation/supererogatory–de-mentativity meet with some resistance or the other and thus a reason for transversality<for-sublimating–existential-eventuating/denouement>~of affirmative-and-unaffirmative–disambiguated–‘motif-and-
apriorising/axiomatising/referencing’ reflex to preserve the precedingness/supersedingness/ascendency of intrinsic-reality in adverting social-and-temporal-trading of meaningfulness. Part and parcel, of human intellectualism beyond mere-
institutionalised-being-and-craft, as has historically been implied in the case with many a great
human mind, is to recognise that the social-construct is ‘not an ontological absolute’ but rather
a ‘conventioning construct at the limits of human ontological capacity’ and that that is ‘why it
has got its defining issues and problems’ and further that ‘it progresses and transcends’, and the
intellectual exercise goes beyond just reasoning within ambits of ‘temporally-and-sociaally-
perceived-rightness-of-thinking’ to explore possibilities that might actually be ‘outright
unpalatable’ in the tempororo-social sense but in the bigger picture as an

postconverging–de-mentating/structuring/paradigming that prolongs to intemporality/an-
abstract-eternality while obviously of ‘less an immediate temporal existential sense of good to
some humans’ is undoubtable of ‘an intemporal existential sense of good to all humans at all
times’ by its percolation-channelling-<in-deferential-formalisation-transference> wherein for
instance, the de-mentative/structural/paradigmatic effect of the law is allowing for civilisational
living but its circumstantial construal and application may not be in tune with the temporal
interests of many but for its institutionalising constraining. This contrast between humans
appreciating intemporality/longness as potentially of universal import and at the same time
disposed occasionally to advanced their temporality/, is what warrants ‘a constraining
institutionalisation’. In the same vain, one may ask what’s the temporal benefit to Rousseau or
Galileo instead of striving for greater aristocratic privileges for themselves; for the one to rather
carry the mantle from one royal court to the other of affirming the possibility of human
emancipation (by which we are all percolatively benefiting from today) or the other the mantle
of a principled engagement and possibility of science starting with an uncompromising supplanting-conviction-as-to-profound-supererogation —of—attendant-intradimensional— postconverging/dialectical-thinking —apriorising-psychologism from observation that the earth is not at the centre of the solar system, by which a culture of science came to be established. And finally, how coherent are temporal meaningful frames built from such intemporal grand principles but lived on temporal dispositions in extrication in contradiction to such philosophies, and what is the very relevance of such temporal enculturation and endemisation to present-day social and institutional failures in society? And what’s the role of ‘intellectual irresponsibility’ in all of this? From an intemporal hence ontological depth-of-meaningfulness, preceding/supersedingly, ‘limited-mentation-capacity’ (for intemporal-preservation-entropy—or-contiguity—or—ontological-preservation) is the reason for human registry-worldview/dimension perversion-of—reference-of-thought<as-preconvergingly—apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow—supererogation ≥ defect at uninstitutionalised-threshold ; implying that ‘ontological-normalcy/postconvergence’ is actually for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation beyond the defective ‘intradimensional-subknowledging —normalcy or reflex-normalcy’ which is rather an <amplituding/formative–epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag (illusion-of-the-present/present-consciousness) inclination to overlook/aside the notion of prospective transcendence-and—sublimity/sublimation/supererogatory—de-mentativity at its own (limited-mentation-capacity—threshold) uninstitutionalised-threshold though it will obviously and paradoxically recognise the need of prior registry-worldviews/dimensions to transcend (just as by reflex from our perspective we will recognise such a need for base-institutionalisation over recurrent-utter—uninstitutionalisation, universalisation over ununiversalisation, positivism over non—
positivism/medievalism but hardly prospectively the notion that our dimension has an uninstitutionalised-threshold\(^2\) like \(^8\) procrystalism–or–disjointedness-as-of\(^8\) reference-of-thought with the need for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as deprocrystalism). However, as previously indicated such an insight can only be garnered, beyond our illusion-of-the-present/present-consciousness/epistemic-totalising\(^1\)–self-referencing-syncretising/mirage as all registry-worldviews/dimensions wrongfully imply, given that ‘doppler-thinking’ wherein our registry-worldview/dimension isn’t the absolute reference of meaningfulness (which is rather an intradimensional-subknowledging\(^7\)-normalcy in lieu of the ‘ontological-normalcy/postconvergence’ as that which allows for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). It is this ‘ontological-normalcy/postconvergence’ that reflects/perspectivates\(^7\) perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > defect as\(^7\) de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as against the defective reflex-normalcy/intradimensional subknowledging\(^9\)-normalcy that wrongfully represent it as straightness/candored-and-dialectically-or-contendingly-in-phase. Thus the general notion of an intemporal/ontological resolution of\(^7\) perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > is more than just the instigating effect of the subknowledging\(^9\)-impulse/compulsive-dementing\(^2\) (psychopathic postlogism\(^7\) in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) but harkens back to the notion of the inraregistry-worldview/dimension limited-mentation-capacity/uninstitutionalised-threshold\(^2\) in the very first place. As this is the preconverging–de-

Knowledge-notionalisation factors in how temporal-dispositions relate to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (intradimensional-subknowledging-normalcy/reflex-normalcy) and at institutionalised/intemporalised-thresholds (ontological-normalcy/postconvergence). It should be noted that the peculiarity for achieving all the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’> is about bringing the prior registry-worldview/dimension perversion-of-reference-of-thought<-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > to its placeholder-setup/mental-devising-representation/mentation/{cumulated/recomposured}-consciousness-awareness-teleology awareness for the collective-mind to psychoanalytically-unshackle/memetically-reorder/institutionally-recomposure, and thus take-stock-and-supersede/transcend its limited-mentation-capacity-deepening-threshold (uninstitutionalised-threshold). This is brought to the collective-consciousness so that with regards to social-stake-contention-or-confliction-and-confliction it renews its psychoanalytic-equilibrium, as the latest ‘capacity boost’ with respect to what is the grander individual-and-social good as positive-opportunism—of-social-functioning-and-accordance. For instance, achieving base-institutionalisation requires that it should be brought to the collective-consciousness that it is
‘perilous to survival-and-flourishing’ to remain recurrently-uninstitutionalised for the grander individual-and-social good as positive-opportunism—of-social-functioning-and-accordance. Once this enters the collective-consciousness this leads to an inclination for a renewed psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring wherein recurrent-utter-uninstitutionalisation registry-worldview then becomes preconverging-or-dementing—apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, as it is recurrently-uninstitutionalised, as the backdrop for the straightness/candoring-and-dialectically-in-phasing of base-institutionalisation registry-worldview. This is relatively direct by the existential implications to survival-and-flourishing with the lower institutional-cumulation/institutional-recomposure—{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’> of base-institutionalisation, universalisation and positivism. For deprocrypticism, an even stronger emphasis has to be placed on the abstract percolation-channelling—<in-deferential-formalisation-transference> as setup from positive-opportunism—of-social-functioning-and-accordance for survival-and-flourishing, just as with the positivistic registry-worldview which as well is relatively deferential with percolation-channelling—<in-deferential-formalisation-transference> (undermining <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ‘with-regards-to-prospective-apriorising-implications> or banality-of-thought) to formalised deference like the higher developed legal system involving lesser possibility for mob-and-disparate-justice as with the lower institutional-cumulation/institutional-recomposure—{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’>}, grander subject-

In other words, higher institutionalisations imply greater ‘deferential-formalisation-transference’ wherein the ambits of the extended-informality with regards to meaningfulness shrinks as formal conceptualisations extend the intemporal-skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) and deferential model for construing meaningfulness. For instance, many a subject matter domain like meaning about the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially in deference to abstract intemporal-disposition teleological conceptualisation voiding social temporal-dispositions teleological dispositions. To further elucidate, let’s explore again the Arithmetic ontological-contiguity comparison highlighted previously wherein character A had a condition whereby its results of additionality were systematically incremented by 1, its’s subknowledging-impulse/compulsive-dementing highlighting an uninstitutionalised-threshold where the other characters wrongly calculated the result (the ontological-veridicality) failing/not-upholding-<as-of-apriorising/axiomatising/referencing> ontological-normalcy/postconvergence as intemporal-preservation-entropy-or-contiguity—or–ontological-preservation implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, as actually intemporal-preservation-entropy-or-contiguity—or–ontological-preservation supersedes the
mere-categorical-imperatives/axioms/registry-teleology -for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation as the latter’s pertinence is rather about and subsumed as a mentation capacity to uphold the former. The bigger issue with regards to all the BODMAS characters is with respect to the limits of their reference-of-thought-categorical-imperatives/axioms/registry-teleology , for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation which are readily predisposed to such perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and subknowledging-impulse/compulsive-dementing whether by character A or any other character rather than just the fact that the condition (psychopathic postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation for instance) is the causative factor of their failure to in ontological-normalcy/postconvergence ensure intemporal-preservation-entropy-or-contiguity-or-ontological-preservation. In any case the de-mentative/structural/paradigmatic resolution is with regards to the implications of metaphorically-a-million-and-one-instances-and-locales of perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in the given registry-worldview/dimension as an aetiologisation/ontological-escalation (as notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence individuations predictable and determinable teleologies). That is, fundamentally the appropriate conceptualisation of reference-of-thought-categorical-imperatives/axioms/registry-teleology , for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation is structurally-speaking about perpetually ensuring intemporal-preservation-entropy-or-contiguity-or-ontological-preservation as the superseding/preceding notion (i.e. ontological-normalcy/postconvergence as
prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). In this regard, we may easily construe the fundamental defects-of–categorical-imperatives/axioms/registry-teleology/-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as these enable perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein successive institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’> are analogical to various defective instances in operating the BODMAS equation. That is, while the condition/subknowledging-impulse/compulsive-dementing with A’s additionality results are wrongly incremented by 1, leading to the uninstitutionalised-threshold to be rightfully corrected with new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involving subtracting 1; the defect of a second registry-worldview/dimension may involve subtracting 1 from the result of S as a condition/subknowledging-impulse/compulsive-dementing of S, requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation correction of the BODMAS characters as with the first registry-worldview/dimension to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Likewise, a third and fourth registry-worldview/dimensions defects could involve respectively a subknowledging-impulse/compulsive-dementing/condition of M wherein the latter wrongly adds 1 to a multiplier before multiplying and a subknowledging-impulse/compulsive-dementing/condition of D wherein D wrongly subtract 1 to a divisor.
before dividing, with these two latter registry-worldviews/dimensions equally requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation adjustment of the BODMAS characters as with the first and second registry-worldviews/dimensions to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Ultimately, a notional-deprocripticism construal of the institutionalisation/intemporalisation process aiming to perpetually sync reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ontological-normalcy/postconvergence, is one that will bring to the mental-devising-representation, the BODMAS characters potential temporal-dispositions to perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and subknowledging impulse/compulsive-dementing with the resultant integration unconsciously (ignorance) and consciously (other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) inducing the various uninstitutionalised-threshold, for a suprastructural resolution to human perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > disposition, enabling the ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the collective-consciousness towards knowledge-notionalisation; as the recognition of the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-

‘postconverging-or-dialectical-thinking —psychology or psychology-of-mentation-dynamics or
natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-

articulated notion of 

de-mention—<supererogatory—ontological—de-mention—or-dialectical—de-mention—stranding-or-attributive-dialectics> brings up the central conceptual role of
psychology as about understanding human mental-devising-representation and the implications
thereof. Central to this 

de-mention—<supererogatory—ontological—de-mention—or-dialectical—de-mention—stranding-or-attributive-dialectics> process is a dialectical exercise
of stranding; either as mentally oblongated/decandored-and-dialectically-or-contendingly-out-

or as mentally straight/candored-and-dialectically-or-contendingly-in-phase to imply a
superseding/transcending/sound registry-or-registry-worldview.
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) further implies that instead of a ‘conventioning influenced and driven’ more or less notational study of human psychological phenomena as is the case today; we can ‘think’ of psychology in terms of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as-prospective reference-of-thought (de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with respect to either mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase representation or mentally straight/candored-and-dialectically-or-contendingly-in-phase representation) as ‘directed’ simply by demonstrable ontological-veracity/ontological-relevance/reference-of-thought of transdimensional-meaningfulness–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument; leading to a psychological science which is more comprehensive, timeless and unbounded by its conceptualisation as it emphasises psychological-representation/mental-devising-representation as more ‘ontologically-driven/ontologised’ rather than ‘conventioningly-driven/conventionalised’. In so doing, overriding and superseding the analyst illusion-of-the-present/epistemic-totalising~self-referencing-syncretising/present-consciousness/mirage referring to the instance where the personhood-and-socialhood-formation intradimensional conventioning induces an ‘analytical-complex’ with respect to an ontologically veridical psychological-representation or mental-devising-representation. As implied psychological-
representation/mental-devising-representation is then fundamentally determined by the depth/profundness-of-ontological-veracity/depth/profundness-of-ontological-reference of a given registry/registry-worldview-or-dimension as it upholds ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) over reflex-normalcy or intradimensional-subknowledging—normalcy. Ontological-normalcy/postconvergence appropriately points to the pertinence for ontological construal as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_attendant—ontological-contiguity—reified—existentialising/contextualising/textualising-contiguity—reification_or_intrinsic-reality—ontological-coherence_or_superseding—oneness-of-ontology by maximalising—recomposuring—for-relative-ontological-completeness—unenframed-conceptualisation for an appropriate de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics exercise wherein the reference-of-thought (‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or—ontological-reprojecting) is always a moving target (due to the institutionalisation/intemporalisation process) in need for prospective dialectical reconstitution (deconstruction), which then puts a science of psychology in phase with the dialectical development of ontological-depth/profundness-of-reference in superseding relative-ontological-incompleteness—induced,—‘threshold-of—nonconviction/madeupness/bottomlining—in-shallow-supererogation—as-to—attendant—intradimensional’—prospectively—disontologising—preconverging/dementing—apriorising-psychologism>, as-it-is-thus—‘in-wait’—for—perversion-of—reference-of-thought—as—preconvergingly—apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining—as—to—shallow—

That is, a conventioning influenced-and-driven psychology tends to equate the conventional insights at one de-mentation (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or—attributive-dialectics) dialectical moment or registry-worldview/dimension as intradimensionally set in stone and across all moments whereas an ontologically-driven psychology acknowledges and recomposes to the dialectical evolution of reference-of-thought for a comprehensive, appropriate and veridical de-mentation (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or—attributive-dialectics) exercise. Such reference-of-thought of dialecticism registry-worldview-wise/dimension-wise (for de-mentation (supererogatory—ontological—de-mentation-or—
exercise in reflection/perspectivation of psychological-representation/mental-devising-representation, i.e. preconverging-or-dementing − apriorising-psychologism − stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase > for the dialectically-and-ontologically-superseded/transcended/unsound registry(registry-worldview-or-dimension, and postconverging-or-dialectical-thinking − apriorising-psychologism−stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase > for the dialectically-and-ontologically-superseding/transcending/sound registry(registry-worldview-or-
dimension. This ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is the foundation of a pure, emancipated and disinhibited psychology (both registry-and-registry-worldview-wise) as such a psychology is grounded exclusively on ontologically demonstrable references of the veridicality of registries and registry-worldviews/dimensions successive existentialisms/full-depths-of-existential-implications, and the corresponding ontological veracities implied. Such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ contrasts with a ‘mented’ or ‘stigmatic’ psychology of weak memetism/transdimensional-meaningfulness/suprastructural-meaningfulness reference-of-thought for the simple reason that it is not founded on a pure dialecticism of ontological/dialectical-referencing but rather on intradimensional conventionalised referencing which wrongly hardly proxies the veridicality of ontological-normalcy/postconvergence or construe a dialectical-reference/ontological-reference for ‘de-mentation’ (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’ of psychological-representation/mental-devising-representation at uninstitutionalised-threshold. Thus it mental-devising-representation is stigmatic or mented (set-in-place-or-a-period) as of preconverging-or-dementing apriorising-psychologism<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> for the conventioning–superseded/transcended/unsound registry/registry-worldview-or-dimension, and postconverging-or-dialectical-thinking apriorising-psychologism<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> for the conventioning–superseding/transcending/sound registry/registry-worldview-or-dimension. This will explain in many ways the more or less fitful development of modern-day psychology, more or less ‘uncertain of the ontological/dialectical pertinence of temporal-as-out-of-phasing-
representation’ (in reflecting preconverging-or-dementing—apriorising-psychologism) thus undermining its ontological-referencing veracity/ontological-pertinence with respect to an ‘de-mentation-{supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} of ‘reference-of-thought’ exercise of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements in ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-to-conflatedness as dialectical transformation as-prospective ‘reference-of-thought. A dialectical ontological-reconstituting—as-to-conflatedness/ deconstruction of ‘reference-of-thought (recognising human limited-mentation-capacity-deepening and the need to re-institutionalised/re-intemporalised resulting in the subsequent institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–'epistemicity-relativism-determinism'>} as articulated above is not only the basis for memetism/transdimensional-meaningfulness/suprastructural-meaningfulness, but as well for avoiding what can be termed as the ‘ontological-circularity’ of modern-day psychology. Such ontological-circularities are engrained in all registry-worldviews/dimensions wherein the naïve pretence for a quest for deeper ontological-veridicality is rather just syncretic/circular and hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> as fundamentally the ‘reference-of-thought– categorical-imperatives/axioms/registry-teleology’, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the said registry-worldview/dimension are at a dead-end with a de-mentative/structural/paradigmatic impossibility for a critical breakthrough just by the mere fact that the registry-worldview/dimension has attained its mentation-capacity-limitation or uninstitutionalised-
threshold (as the nature of intrinsic-reality with respect to the human psyche is ontological-normalcy/postconvergence or inherently preceding or inherently superseding as it doesn’t change an iota, and it is the human psyche that gives-in in its mental-devising-representation to conform to intrinsic-reality). With such naïve efforts to keep up and develop profound meaningfulness based on the same registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology mostly a dead-end. Such ontological-circularities will include for instance the dead-end of medieval alchemy preconverging–de-mentating/structuring/paradigming with respect to positivistic chemistry postconverging–de-mentating/structuring/paradigming, a flat-world preconverging–de-mentating/structuring/paradigming with respect to a round world postconverging–de-mentating/structuring/paradigming, a creationism preconverging–de-mentating/structuring/paradigming with respect to an evolution postconverging–de-mentating/structuring/paradigming, a universal humanity postconverging–de-mentating/structuring/paradigming with respect to aristocratic/racial/tribal preconverging–de-mentating/structuring/paradigming, a science postconverging–de-mentating/structuring/paradigming with respect to a superstition preconverging–de-mentating/structuring/paradigming, etc. Naivety will be to think that issues of ontological-circularity in our present positivistic meaningfulness (for transcending beyond our vices-and-impediments and overcoming inherent inhibitions to human emancipation) are not in veridicality about a need for a shift in prospective postconverging–de-mentating/structuring/paradigming. This brings forward fundamentally the limited-mentation-capacity/uninstitutionalised-threshold construct of our times (procrypticism) and the dementative/structural/paradigmatic implications specifically for such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ (as highlighted) over a relatively mented-
psychology/stigmatic-psychology. What this reveals is that reality is ‘not a human mental-devising-representation processing exercise’; rather it is an intrinsic ontological-normalcy/postconvergence notion that doesn’t respond to human mental-devising-representation processing. The role of \(\text{de-mentionation-(supererogatory-ontological-de-mentionation-or-dialectical-de-mentionation—stranding-or-attributive-dialectics)}\) as a mental-devising-representation mechanism that syncs with evolving ontological insight (insight about intrinsic reality) as ontological-normalcy/postconvergence is to reflect/perspectivate the dialectically-or-contendingly-out-of-phase or dialectical-primitivity at the very limit of the capability as its mental-devising-representation of a registry-worldview/dimension (uninstitutionalised-threshold\(^{14}\)), which otherwise any \(<\text{amplituding/formative-epistemicity}>\text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) registry-worldview will overlook as it is a \(<\text{amplituding/formative}>\text{wooden-language}\) (imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) that is exclusively operant and deterministic only to its very own \(^{83}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{99},\)-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and is not tied to intrinsic-reality but rather pertinent only for when it proxies intrinsic-reality. It is only \(\text{de-mentionation-(supererogatory-ontological-de-mentionation-or-dialectical-de-mentionation—stranding-or-attributive-dialectics)}\) that can create the foundation for a new mentation (unshackle it psychoanalytically/memetically/meaningfully reorder it/recomposure it) to in ontological-normalcy/postconvergence come into grips with a more profound ontological-veridicality as a new \(^{83}\) reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing\(^{20}\)-reference) for a new existentialism/full-depth-of-existential-implications meaningfulness and thought. This insight about the intrinsic-nature-of-reality/intrinsic-reality is critical and central
to understanding how ‘knowledge-deadend—de-mentating/structuring/paradigming’ can be overcome/superseded. Supposed B was to stick to resolving the BODMAS equation overlooking A’s condition on the basis that the ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are set and given, whether these uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or not (which is what ensures proxying to intrinsic-reality), and further that the other BODMAS characters will do likewise anyway, this doesn’t in any way transform the ontological-normalcy/postconvergence ontological-veridicality/intrinsic-reality from to. Such a wrong disposition rather points aetiology for the need (in ontological-escalation) of an de-mentation-{supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} of the BODMAS characters at that uninstitutionalised-threshold. In the bigger picture, ‘knowledge-deadends—preconverging–de-mentating/structuring/paradigming’ (to varying degrees of pertinence) are often the explanation of underlying social issues and problems more than just about limited human ability or insufficiently directed effort towards the resolution of such issues and problems on the basis of present preconverging–de-mentating/structuring/paradigming. It is inevitable that emancipation from such knowledge-deadends—preconverging–de-mentating/structuring/paradigming will always require that the would-be intellectual-analyst or intellectual-analysts ‘blunt it’ (just as intrinsic-reality is uncompromisingly blunt) to the totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage registry-worldview/dimension that what is fundamentally needed is a postconverging–de-mentating/structuring/paradigming–shift. Much like observation and a rational interpretation of nature trumps dogma as with Galileo’s heliocentric argument for instance, this author holds that a fundamental decomplexifying/uninhibiting of our own (procrypticism or preconverging-or-dementing)–apriorising-

as indicated of such a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-

‘mented’ or ‘stigmatic’ psychology can be further reemphasised clearly as such; a
